PHM PRAC 305 — CONSUMER SELF-CARE AND OVER-THE-COUNTER DRUGS
2 credits.
Provides learners with information regarding self-care of common, minor health conditions. Emphasis on: illness prevention, health condition symptoms, guidelines for over-the-counter product use, adverse effects and alcohol/drug interactions of over-the-counter products, when to request professional care.
Requisites: Not open to students declared in the Nursing, Physician Assistant, or Doctor of Pharmacy programs
Repeatable for Credit: No
Last Taught: Fall 2017

PHM PRAC 425 — PHARMACY PRACTICE EXPERIENCE I
1 credit.
Complements didactic coursework in communication, practice-based skills, and the pharmacist's role in the health care system. Students will participate in various community-based experiences, including group collaboration with a senior partner, observing pharmacists' roles in practice settings, and providing screenings and education outreach.
Requisites: Declared in the Doctor of Pharmacy program with first year standing only
Repeatable for Credit: No
Last Taught: Fall 2017

PHM PRAC 426 — PHARMACY PRACTICE EXPERIENCE II
1 credit.
Experiential course that complements didactic coursework in communication, practice-based skills, and the pharmacist’s role in the health care system. Students will participate in various community-based experiences, including group collaboration with a senior partner, observing pharmacists’ roles in practice settings, and providing screenings and education outreach.
Requisites: PHM PRAC 426
Repeatable for Credit: No
Last Taught: Spring 2017

PHM PRAC 461 — PATHWAYS IN PHARMACY PRACTICE
1 credit.
An introduction to, and exploration of, contemporary pharmacy practice settings and opportunities for career advancement.
Requisites: Declared in Doctor of Pharmacy program
Repeatable for Credit: No
Last Taught: Fall 2017

PHM PRAC 462 — PROFESSIONAL DEVELOPMENT AND ENGAGEMENT I-
DEVELOPING YOUR PROFESSIONAL IDENTITY
1 credit.
Assists students with career exploration and recognition of how their knowledge, skills, abilities and values further their professional development. Helps students to (1) identify cultural disparities and inequities in access to quality healthcare; (2) demonstrate mutual respect and understanding towards healthcare team members to effectively collaborate and accomplish shared patient-related goals; (3) identify and prepare for future training and employment opportunities; (4) communicate their personal values, skills, and strengths; (5) implement the Continuous Professional Development Model for reflecting, learning, and evaluating progress throughout their career; and (6) act and communicate in a manner consistent with the trust given to pharmacists by patients, other healthcare providers, and society.
Requisites: PHM PRAC 461
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No

PHM PRAC 470 — COMPUTER APPLICATIONS IN PHARMACY PRACTICE
2 credits.
Develops skills applicable to community and hospital pharmacy practice settings. Emphasis on database and computer applications unique to pharmacy practice. No prior computer experience or knowledge is necessary.
Requisites: Declared in Doctor of Pharmacy program
Repeatable for Credit: No
Last Taught: Fall 2014

PHM PRAC 490 — SELECTED TOPICS IN PHARMACY PRACTICE
1-4 credits.
Specialized Pharmacy subject matter of current interest to undergraduate and professional students.
Requisites: Declared in Doctor of Pharmacy program
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Fall 2017

PHM PRAC 525 — INTRODUCTION TO PHARMACY PRACTICE EXPERIENCE III
1 credit.
The third of six in a three-year sequence which will introduce and expose second-year Doctor of Pharmacy students to the various roles of pharmacists and the many patient-care opportunities that exist in and out of traditional pharmacy practice settings.
Requisites: PHM PRAC 426
Repeatable for Credit: No
Last Taught: Fall 2017

</table>
PHM PRAC 610 — LEADERSHIP IN HEALTH-SYSTEM PHARMACY
2 credits.

Designed to expose students to personal leadership qualities essential to operate efficiently within an integrated health care delivery system and advance the profession and practice of pharmacy. Students will gain a foundation to become future pharmacy leaders through an understanding of pharmacy's continual evolution in the changing health care environment.

Requisites: Declared in Doctor of Pharmacy program with third year standing
Repeatable for Credit: No
Last Taught: Fall 2017

PHM PRAC 611 — MEDICAL IMAGING FOR PHARMACISTS
2 credits.

An overview of the imaging modalities offered in a Hospital Radiology Department. Completion of this course will help students understand the concepts of radiation, how it is used, and some of the tests and medications a patient may encounter when in the Radiology Department of a hospital.

Requisites: Declared in Doctor of Pharmacy program
Repeatable for Credit: No
Last Taught: Fall 2017

PHM PRAC 612 — RADIOPHARMACEUTICALS
2 credits.

A survey of the clinical diagnostic and therapeutic use of radioactive pharmaceuticals. Included is a review of nuclear physics, radiation biology, radiation chemistry, regulatory issues, and radiation safety, as these areas relate to the synthesis, formulation, dispensing, and administration of radiopharmaceuticals.

Requisites: PHM PRAC 611
Repeatable for Credit: No
Last Taught: Spring 2014

PHM PRAC 617 — HEALTH SYSTEM PHARMACY DATA ANALYSIS AND INFORMATICS
2 credits.

Weekly lectures will familiarize the student with pharmacy information systems and the use of data and data processing systems for decision support. Students will complete a data analysis and report project to drive a decision in the hospital.

Requisites: Graduate standing or declared in the Doctor of Pharmacy program with third year standing
Repeatable for Credit: No
Last Taught: Fall 2017

PHM PRAC 625 — INTRODUCTORY PHARMACY PRACTICE EXPERIENCE V
0 credits.

Experiences provided by this course permit students to integrate learning from previous didactic courses (drug literature review, pharmacotherapy, and patient/provider communications) into caring for patients. Students actively participate in patient care activities while under the supervision of a clinical instructor. Students must successfully complete all required Doctor of Pharmacy second year courses prior to enrollment.

Requisites: Declared in Doctor of Pharmacy program with third year standing
Repeatable for Credit: No
Last Taught: Fall 2017

PHM PRAC 626 — INTRODUCTORY PHARMACY PRACTICE EXPERIENCE VI
2 credits.

Experiences provided by this course permit students to integrate learning from previous didactic courses (drug literature review, pharmacotherapy, and patient/provider communications) into caring for patients. Students actively participate in patient care activities while under the supervision of a clinical instructor.

Requisites: PHM PRAC 625
Repeatable for Credit: No
Last Taught: Spring 2017

PHM PRAC 628 — PRACTICE INNOVATION I
1 credit.

Application of foundational knowledge of project management to hands-on experiences planning positive change within the health care system. Students will learn to think strategically, to critically assess a problem, identify solutions, and implement change. Students will integrate concepts in their practice area of interest with the project management skills learned in this course.

Requisites: Declared in Doctor of Pharmacy program with third year standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No

PHM PRAC 629 — PRACTICE INNOVATION II
1 credit.

Expand upon the knowledge gained in Practice Innovation I to produce positive change within the health care system. Students will integrate concepts in their practice area of interest with the project management skills learned placing special emphasis on project implementation, measurement, and articulation of results.

Requisites: PHM PRAC 628
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
PHM PRAC 638 — NONPRESCRIPTION PRODUCTS & SELF-CARE
2 credits.

Provides students with knowledge and skills needed to perform triage and make self-care and therapeutic recommendations for self-limiting health conditions commonly encountered in pharmacy practice.

Requisites: PHM PRAC 554, 556 and PHM SCI/PHMCOL-M/PHM SCI 522
Repeatable for Credit: No
Last Taught: Fall 2017

PHM PRAC 650 — COMPREHENSIVE IMMUNIZATION DELIVERY
1 credit.

Addresses vaccine-preventable diseases and the implementation of pharmacy-based immunization delivery programs.

Requisites: Declared in Doctor of Pharmacy program with second year standing
Repeatable for Credit: No
Last Taught: Spring 2017

PHM PRAC 653 — INTEGRATED PHARMACOTHERAPY SKILLS III
1 credit.

Learn and build upon pharmacotherapeutic skills necessary to develop competence as a pharmacist to assume the responsibility to improve therapeutic patient outcomes related to medication use. Skills will include patient and healthcare provider communication, identification and resolution of drug related problems, documentation, and complex problem solving skills.

Requisites: Declared in Doctor of Pharmacy program with third year standing
Repeatable for Credit: No
Last Taught: Fall 2017

PHM PRAC 654 — INTEGRATED PHARMACOTHERAPY SKILLS IV
1 credit.

Learn and build upon pharmacotherapeutic skills necessary to develop competence as a pharmacist to assume the responsibility to improve therapeutic patient outcomes related to medication use. The course will focus on building complex problem solving skills including the integration of patient and provider communication, documentation, and evaluation of integrated patient cases with a secondary focus on patient profile reviews and comprehensive medication review and assessment.

Requisites: PHM PRAC 653 and 655
Repeatable for Credit: No
Last Taught: Spring 2017

PHM PRAC 655 — PHARMACOTHERAPY III
3 credits.

Clinical application of medications in the management of various disease states. Assessment and therapeutic monitoring of disease states and drug therapy using the concepts of pharmacokinetics/dynamics, drug interactions, pharmacy practice and patient counseling. Topics include various renal, endocrine, gastrointestinal, rheumatologic and immunologic disease therapeutics.

Requisites: PHM PRAC 554 and 556
Repeatable for Credit: No
Last Taught: Fall 2017

PHM PRAC 656 — PHARMACOTHERAPY IV
3-4 credits.

Clinical application of medications in the management of various disease states. Assessment and therapeutic monitoring of disease states and drug therapy using the concepts of pharmacokinetics/dynamics, drug interactions, pharmacy practice and patient counseling. Topics include various oncology and infectious disease therapeutics. A one credit elective option will be offered to students and involves academic leadership skill development. Student leaders will lead discussion activities which involve clinical cases, scientific literature review, oncology literature discussions.

Requisites: PHM PRAC 653, 655 and PHM SCI 623
Repeatable for Credit: No
Last Taught: Spring 2017

PHM PRAC 657 — SEMINARS IN PEDIATRIC PHARMACOTHERAPY
2 credits.

Addresses the selection, dosing, and monitoring of drugs in children from birth to adolescence. Drugs in pregnancy and lactation are also addressed. The course combines lecture, small group work, and discussion.

Requisites: PHM PRAC 656 or concurrent enrollment
Repeatable for Credit: No
Last Taught: Spring 2017

PHM PRAC 658 — MEDICATION MANAGEMENT IN AMBULATORY/ PRIMARY CARE
2 credits.

Enhanced education and integration of knowledge skills regarding pharmacotherapeutic management of ambulatory patients with common disease states, including the pharmacist’s role in patient education.

Requisites: PHM SCI 623 and PHM PRAC 655
Repeatable for Credit: No
Last Taught: Spring 2015

PHM PRAC 668 — SEMINARS IN CRITICAL CARE
2 credits.

Addresses the pharmacotherapeutic management of various critical care conditions. Guest lectures, primary literature review, patient case discussions, student-led presentations, and small group work will be utilized.

Requisites: PHM PRAC 550, 555, 556, and 655
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No

PHM PRAC 670 — VETERINARY THERAPEUTICS
1-2 credits.

Presentation and discussion of topics that involve the therapeutic management of disease states of companion, food, and exotic animals. Emphasis is placed upon the principles of drug regulations, drug therapy, toxicology, and available commercial products.

Requisites: Declared in Doctor of Pharmacy program with third year standing
Repeatable for Credit: No
Last Taught: Fall 2017
**PHM PRAC 671 — INTRODUCTION TO ACADEMIC PHARMACY I**
2 credits.

Introduces students to pharmacy faculty responsibilities. Students will participate in a variety of activities to expose them to the role of the pharmacy educator and will actively participate in the education of DPH-1 or DPH-2 students.

**Requisites:** Declared in Doctor of Pharmacy program with third year standing

**Repeatable for Credit:** No

**Last Taught:** Fall 2017

---

**PHM PRAC/NUTR SCI 672 — HERBALS, HOMEOPATHY, AND DIETARY SUPPLEMENTS**
2-3 credits.

Covers regulations and clinical science regarding the use of herbals, homeopathic remedies, and dietary supplements, focusing on peer-reviewed studies and integration with allopathic drugs; includes discussion of marketing issues.

**Requisites:** (PHM SCI 432 or BIOCHEM 501 or BMOLCHEM 314) and PHYSIOL 335

**Repeatable for Credit:** No

**Last Taught:** Spring 2016

---

**PHM PRAC 673 — SEMINARS IN GLOBAL HEALTH PHARMACY**
1 credit.

Explores the contribution of pharmacy and pharmacists to global health initiatives. Topics will be selected and presented by course faculty and students.

**Requisites:** Declared in Doctor of Pharmacy program

**Repeatable for Credit:** No

**Last Taught:** Spring 2017

---

**PHM PRAC/NURSING 674 — SEMINARS IN INTERPROFESSIONAL MENTAL HEALTH CARE**
2 credits.

Addresses the team-based and patient-centered care of persons with mental health conditions. A special focus will be put on the management of psychotropic medication regimens. A combination of lecture, discussion, and small group work will be utilized.

**Requisites:** PHM PRAC 555

**Repeatable for Credit:** No

**Last Taught:** Spring 2017

---

**PHM PRAC 676 — SEMINAR IN GERIATRICS**
2 credits.

Therapeutics topics pertaining to the pharmaceutical and medical care of the elderly. In addition, select topics on social aspects of aging will be presented.

**Requisites:** Declared in Doctor of Pharmacy program with third year standing

**Repeatable for Credit:** No

**Last Taught:** Fall 2017

---

**PHM PRAC 677 — SEMINARS IN CARDIOLOGY**
2 credits.

Seminars, primary literature review, and patient case discussions on selected cardiovascular conditions, including: ACS, HF; valvular disease, cardiac devices, hemodynamic monitoring, heart transplantation, arrhythmias, CPR/ACLS; pulmonary arterial hypertension, stroke, and metabolic syndrome.

**Requisites:** Declared in Doctor of Pharmacy program with third year standing

**Repeatable for Credit:** No

**Last Taught:** Fall 2017

---

**PHM PRAC 678 — SEMINARS IN LONG TERM CARE**
3 credits.

Students will learn clinical and legal requirements relating to pharmacy consulting in a long term care (LTC) setting.

**Requisites:** Declared in Doctor of Pharmacy program with third year standing

**Repeatable for Credit:** No

---

**PHM PRAC 679 — ADVANCED DIABETES MANAGEMENT**
2 credits.

Enhanced education on diabetes topics; current approaches to the medical management of patients with diabetes including the pharmacist’s role in diabetes education and coaching/case management.

**Requisites:** PHM PRAC 655 or (NURSING 312 and NURSING 422)

**Repeatable for Credit:** No

**Last Taught:** Spring 2017

---

**PHM PRAC 691 — SENIOR THESIS**
2 credits.

Individual study for seniors completing theses as arranged with a faculty member.

**Requisites:** Consent of instructor

**Repeatable for Credit:** No

**Last Taught:** Spring 1985

---

**PHM PRAC 692 — SENIOR THESIS**
2 credits.

Individual study for seniors completing theses as arranged with a faculty member.

**Requisites:** Consent of instructor

**Repeatable for Credit:** No

---

**PHM PRAC 699 — ADVANCED INDEPENDENT STUDY**
3 credits.

Directed study projects as arranged with a faculty member.

**Requisites:** Consent of instructor

**Course Designation:** Level - Advanced

**L&S Credit:** Counts as Liberal Arts and Science credit in L&S

**Repeatable for Credit:** Yes, unlimited number of completions

**Last Taught:** Fall 2017
PHM PRAC 710 — GERIATRIC PHARMACY PRACTICE
2 credits.

Interprofessional approach to the health care of the elderly. Focuses on topics and issues that are relevant to the safe and effective pharmacologic and non-pharmacologic management of conditions common in the elderly and will address socio-economic aspects of aging that could impact on the care of older adults.
Requisites: Declared in Doctor of Pharmacy program with third year standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Spring 2017

PHM PRAC 711 — ONCOLOGY BIOMARKERS
2 credits.

Designed to develop an understanding of cancer related biomarkers and how they are used to effectively target individualized treatment to the patient.
Requisites: Graduate or professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Spring 2015

PHM PRAC 740 — ACUTE PHARMACEUTICAL CARE CLERKSHIP
6 credits.

Experiential course that integrates prior didactic course work in pharmacotherapy, pathophysiology, and drug literature evaluation into the provision of pharmaceutical care to hospitalized patients. The student will participate in the provision of direct pharmaceutical care, by monitoring drug therapy, providing patient counseling, and providing drug information and pharmacokinetic dosing recommendations for patients. In addition, the student will gain experience and insight into health education by interacting with other health professionals and health-proessions students.
Requisites: Declared in Doctor of Pharmacy program with fourth year standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Fall 2017

PHM PRAC 741 — AMBULATORY PHARMACEUTICAL CARE CLERKSHIP
6 credits.

This required Pharm.D. experiential course integrates prior course work in pharmacotherapy, pathophysiology, and drug literature evaluation into the provision of pharmaceutical care to ambulatory patients. Students will conduct patient interviews and assessments, provide drug information to patients and health professionals, and monitor drug therapy in ambulatory settings.
Requisites: Declared in Doctor of Pharmacy program with fourth year standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Fall 2017

PHM PRAC 742 — HEALTH-SYSTEM PHARMACY PRACTICE CLERKSHIP
6 credits.

An experiential course that integrates prior didactic course work into the provision of care and the development and delivery of services for hospitalized patients. The student will be exposed to the 5 pillars of the medication use system (prescribing, transcribing, dispensing, administering, monitoring), plus procurement/storage along with the hospital services and processes that support them. The experience will also include, but is not limited to, exposure to hospital-based services/programs/committees such as investigational drugs, Pharmacy and Therapeutics, quality/performance improvement (DUE/MUE), technologies, and personnel management. The experience will also expose the student to best practices, regulatory, legal, and accreditation standards/requirements that influence the quality and delivery of care to hospitalized patients.
Requisites: Declared in Doctor of Pharmacy program with fourth year standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Fall 2017

PHM PRAC 743 — COMMUNITY PHARMACY PRACTICE CLERKSHIP
6 credits.

The purpose of the community pharmacy clerkship is to provide the student with an educational experience where they can develop the skills and judgment necessary to apply the knowledge gained in the basic and clinical sciences to specific patient care situations. In addition, the course seeks to demonstrate the philosophy that clinical (APPE) and distributive pharmaceutical services should be patient oriented and integrated in contemporary ambulatory practice.
Requisites: Declared in Doctor of Pharmacy program with fourth year standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Fall 2017

PHM PRAC/NURSING/PEDIAT/SOC WORK 746 — INTERDISCIPLINARY CARE OF CHILDREN WITH SPECIAL HEALTH CARE NEEDS
3 credits.

Interdisciplinary team care of children with special health care needs across the trajectory of illness presented within the context of family, culture, social determinants of health, community, and healthcare policy. Students introduced to interdisciplinary, collaborative, family-centered team care.
Requisites: Graduate or professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Fall 2017
PHM PRAC 760 — ELECTIVE PHARMACY PRACTICE CLERKSHIP
1-6 credits.

Experiential course that integrates prior course work in pharmacotherapy, pathophysiology, and drug literature evaluation into the provision of pharmaceutical care to ambulatory patients. Students will conduct patient interviews and assessments, provide drug information to patients and health professionals, and monitor drug therapy in ambulatory settings.

Requisites: Declared in Doctor of Pharmacy program with fourth year standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Fall 2017

PHM PRAC 764 — VETERINARY PHARMACY CLERKSHIP
6 credits.

Practical experience in a veterinary medicine environment with emphasis on the drug treatment of diseases in animals.

Requisites: Declared in Doctor of Pharmacy program with fourth year standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Summer 2017

PHM PRAC 769 — CLINICAL RESEARCH AND PHARMACY INVESTIGATION CLERKSHIP
6 credits.

This experiential learning course offers students the opportunity to gain experience with clinical and translational research in a mentored situation. Students will learn study design, laboratory techniques, statistical analysis, manuscript preparation, and ethical principles of research.

Requisites: Declared in Doctor of Pharmacy program with fourth year standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Summer 2017

PHM PRAC 961 — GRADUATE SEMINAR IN HEALTH-SYSTEM PHARMACY
1 credit.

Specialized subject matter of current interest to graduate students in the MS Pharmacy Administration program.

Requisites: Graduate or professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Fall 2017

PHM PRAC 999 — ADVANCED INDEPENDENT STUDY
1-12 credits.

Directed study projects for graduate students as arranged with a faculty member.

Requisites: Consent of instructor
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Fall 2017
