The minor in microbiology requires 10 credits of courses at the 300 level or above offered by the departments of Medical Microbiology and Immunology (M M & I courses [http://guide.wisc.edu/courses/m_m_i]) or Bacteriology (MICROBIO courses [http://guide.wisc.edu/courses/microbio]). At least half of the credits must come from the Microbiology Doctoral Training Program (MDTP) course list [http://guide.wisc.edu/graduate/bacteriology/microbiology-phd/#requirementstext]. At least one member of the student’s thesis committee must be faculty in either the bacteriology or medical microbiology and immunology departments, and will serve as the student’s minor advisor.

Faculty: Professors Nancy Keller (program director, Medical Microbiology and Immunology), and Garret Suen (vice-director, Bacteriology) lead the current MDTP Steering Committee. For a list of more than 90 participating faculty, see the program website [http://www.microbiology.wisc.edu] or contact the program office.
