

COUNSELING, M.S.

The M.S. program emphasizes counseling in community and agency settings, including university and college counseling centers. The master's degree emphasizes service delivery, and its practica/internship components reflect that emphasis. The curriculum stresses knowledge and development of skills in individual and group counseling, consultation, research, ethics, multiculturalism, social justice, and vocational psychology. Supervised practicum experiences are available through the training clinic, university counseling centers, community mental health centers, and numerous other campus units and community agencies. Students are prepared to work predominantly as practitioners in community agencies, post-secondary educational institutions, business and industry. The program fulfills academic requirements to become a licensed professional counselor in the state of Wisconsin.

The sequence of required courses combined with lab and field experiences can be planned on either a full- or part-time basis, but care must be taken in proper sequencing of courses for those attending part-time. Those students enrolling on a full-time basis typically complete the program in two years, including summer classes. For more information, visit the program website (<http://counselingpsych.education.wisc.edu/cp/masters-program/>).
