

AGRICULTURAL BUSINESS MANAGEMENT, B.S.

ADVISING AND CAREERS

Advising

Each agricultural business management major receives one-on-one guidance from an academic advisor. The advisor helps students plan their coursework and identify opportunities to get involved in department and campus activities.

The agricultural and applied economics department offers a one-credit course in career development for majors. Students in the course hear from department alumni and others about their career paths and receive resume writing assistance and interviewing tips.

Career Opportunities

Agricultural business management graduates have great careers in management, business analysis, marketing, commodities trading, sales, consulting, banking, and finance. They find positions with agribusiness firms, food companies, tech companies, co-operatives, government agencies, and financial institutions.

Graduates are recognized for their skills in management, leadership, public speaking, sales, marketing, social media, customer service, strategic planning, risk analysis, business process management, and management accounting.
