

# COMMUNITY AND ENVIRONMENTAL SOCIOLOGY, B.S.

## WISCONSIN EXPERIENCE

### **Internships**

Many students complete internships, including with campus clubs, community groups, and national and international non-profit organizations. Learn more about internship opportunities. (<https://dces.wisc.edu/programs/opportunities/possible-internships/>)

### **Research experience**

Community and Environmental Sociology majors can gain research experience by participating in a faculty-led research project or conducting their own project supervised by a faculty member. Students can choose to write thesis papers, and some become authors or co-authors on published research papers.

### **Global engagement**

Majors are encouraged to participate in study abroad experiences across all continents. Options include a sustainable development course in Uganda, a food systems and health course in South Africa, and many other options.

### **Community engagement and volunteering**

There are many opportunities to engage in volunteer activities. The Morgridge Center for Public Service (<https://morgridge.wisc.edu/>) provides resources to help students connect with volunteer opportunities based on their interests and goals.

### **Student organizations**

There are numerous campus student organizations of interest to majors, including F.H. King Students for Sustainable Agriculture, Campus Food Shed, and REthink Wisconsin. A full list of UW–Madison student organizations is available on the Wisconsin Involvement Network website (<https://win.wisc.edu/organizations/>).
