HEALTH CARE MANAGEMENT, SPECIALIZATION

Note: Admission is suspended for this specialization effective spring 2018.

The health care system is undergoing rapid change. Increasing emphasis on managed care; a growing concern for cost effectiveness; governmental priorities; and increasing concern for the elderly, mentally ill, and developmentally disabled all point to the greater need for individuals with skills in the business-management area, both to serve established needs and as a part of the reorganization of many health care delivery systems. This specialization will permit the student to explore the nature of the health care system.

A specialization in health care management is available to all undergraduate students enrolled in the School of Business. Students can add this specialization to their current business major. To complete the health care management specialization, students take the traditional business courses as well as three electives. Students learn to think about health care in an integrated business framework both in and out of the classroom from our faculty and applied learning program.

HOW TO GET IN

Note: Admission is suspended for this specialization effective spring 2018.

The healthcare specialization is only for students in the School of Business.

All undergraduate students in the School of Business are eligible to pursue this specialization. Students simply need to declare this specialization using this form (https://co1.qualtrics.com/jfe/form/SV_8JkBSs6YnaKxb7f?_ga=1.181132327.1053526238.1463515009). Contact your academic or career advisor for questions about pursuing the health care management specialization. Contact the program coordinator, Mark Covaleski (mcovaleski@bus.wisc.edu), with questions about the specialization, including course options.

REQUIREMENTS

The healthcare management specialization requires you to take 3 courses from the below approved course list. If you find another course not on this list that you believe may fit, contact Professor Covaleski (mcovaleski@bus.wisc.edu) about possible additional courses that may be relevant.
