ITALIAN, SED MINOR

HOW TO GET IN

This minor is available only to students admitted to the World Language
Education program, or to teachers already licensed to teach at an
appropriate level and subject in Wisconsin. Undergraduate students
interested in completing a certification minor in Italian must also
complete a major in another World Language certification subject area
and be admitted to the World Language Education program. It is not
possible to be certified only in a minor area. Consult with an Education
Academic Services advisor to discuss the feasibility of combining
this minor with the major subject area—not all combinations may be
possible and will require approval of the WLE program coordinator.
Interested students must apply and be admitted to both language
subject areas. The oral proficiency exam, any written exams, and the
immersion experience required for certification must be completed in
both languages.

Licensed teachers interested in pursuing certification in this minor should
consult with the World Language Education program director.

REQUIREMENTS

Note: The oral proficiency exam, any written exams, and an immersion
experience are required for certification in this language. Consult the
major requirements (http://guide.wisc.edu/undergraduate/education/
curriculum-instruction/italian-bse/#requirementstext) in this subject for
an explanation of these requirements and the World Language Education
professional sequence.

MINOR REQUIREMENTS

The Italian minor requires a minimum of 26 credits and a minimum
cumulative grade point average of 2.75, based on all Italian minor
coursework taken on the UW–Madison campus.

ADVISING AND CAREERS

Consult with advising staff at Education Academic Services (EAS),
Room 139 Education Building, 1000 Bascom Mall, 608-262-1651, for
general questions regarding certification to teach Italian. Students may
want to meet with an undergraduate advisor (https://frit.wisc.edu/
undergraduate/french/academic_advising) in the French and Italian
department regarding course sequencing and other aspects of this field
of study.
