

# DIGITAL STUDIES, CERTIFICATE

## WISCONSIN EXPERIENCE

Students who pursue the Digital Studies Certificate have access to unique and exciting courses where they not only study digital culture, but learn to be savvy users and producers of digital media that they can use in their professional lives. Examples of work that students produce include websites, videos, illustrations, posters, podcasts, and more. See examples of student work on our website (<https://digitalstudies.wisc.edu/student-showcase/>).

Digital Studies Certificate students also have access to networking and alumni events featuring careers in digital media, internship and job opportunities emailed directly to them, technology resources through the Instructional Media Center (<https://commarts.wisc.edu/imc/>), and design consulting services through DesignLab (<https://designlab.wisc.edu/>). Through advising, students receive tailored recommendations based on their interests and are encouraged to seek out ways to apply the knowledge they are learning in the classroom through involvement in student organizations, volunteering, and internships.
