The German program affords students the opportunity to begin or to continue their study of German and/or Dutch.

Knowledge of German provides access to a culture that for more than a millennium has been central to the history, economy, arts, and sciences not just of Europe but of Western civilization as a whole. In the contemporary world, German-speaking countries have Europe’s strongest economies and are playing an increasingly important role in world affairs. More Americans claim German ethnicity than any other, and German-speaking immigrants and their descendants have had an enduring impact on the history and culture of the United States. The UW–Madison has been a leader in the field of German studies for more than a century. The university’s libraries are remarkable for the depth and breadth of their German-language holdings.

Knowledge of Dutch provides access to a culture that has been an important force in world history since the Middle Ages. The language of more than 20 million inhabitants of the Netherlands and Flanders (Dutch-speaking Belgium), Dutch is also spoken in Suriname and the Netherlands Antilles. It is also an important second language in Indonesia. As major economic powers, Belgium and the Netherlands play a leading role in shaping the European Union. World-class research in the sciences and humanities is conducted at Dutch and Belgian universities, and both countries can boast of a cultural life in which art, music, and theater are all flourishing.

STUDY ABROAD

The German program works closely with International Academic Programs (http://www.studyabroad.wisc.edu) to provide a range of opportunities for study in Germany and the Netherlands, for majors and nonmajors alike. The program also cooperates with the School of Business, which maintains study abroad programs in Germany and Austria open to all qualified undergraduates, not just business majors. Finally, the College of Engineering and the College of Agriculture and Life Sciences offer study abroad programs in Germany for qualified students in these colleges.

OTHER OPPORTUNITIES FOR GERMAN STUDENTS

UW–Madison students interested in international internships should visit the website of the International Internship Program (http://internships.international.wisc.edu).

The German-language immersion dormitory, Stockwerk Deutsch (http://gns.wisc.edu/stockwerk-deutsch), is located in Richardson House in Adams Hall, one of the Lakeshore dorms. Undergraduate students live and speak German together with a resident native speaker of German. Contact the German program for applications and details.

Other regular student activities include film screenings and lectures as well as informal, conversation-oriented Kaffeestunde, Stammtisch, Dutch Table, and the German Club. For additional information, contact the German program.

OFFERINGS IN DUTCH STUDIES

Course offerings in Dutch include five semesters of language instruction as well as courses in the literature and culture of the Low Countries. Courses in Dutch language satisfy the L&S foreign language requirement, while courses in Dutch literature and culture carry literature and humanities credits, respectively. Dutch literature is also offered under Literature in Translation.

A major in Dutch studies is not yet established at UW–Madison, but interested students are encouraged to pursue an individual major in the field. In addition to the study of language, literature, and culture, this could entail coursework in art history, geography, history, sociology, and so on. Courses taken in the study abroad program in Utrecht can also be applied to an individual major in Dutch studies.

HOW TO GET IN
