

INTERNATIONAL STUDIES, BA

International Studies (IS) is an interdisciplinary major with a broad background in international and transnational political, social, economic, commercial, and environmental affairs, together with a comparative study of politics, economics, security, and culture. The goal is to provide students with the necessary tools to understand global processes in their totality and how they are situated and lived in specific regions.

The major provides an integrated program of courses that lays the foundation for professional training in a wide variety of areas. Such a foundation can be invaluable in securing a place in competitive graduate or professional schools, which, in turn, prepare students for government service, or for other careers with an international focus, including those in multinational corporations, international finance, non-governmental organizations, and institutions of teaching and research.

The International Studies major complements numerous majors across campus. Many students choose to double major or enhance their studies with one or more certificates, such as the Global Health certificate or those offered by the area studies centers.

This major is interdisciplinary, offering a wealth of options. Careful planning and consultation with the International Studies advisor is especially important.

OPTIONS IN THE MAJOR: HUMAN RIGHTS AND HUMANITARIANISM

This named option covers the range of laws, norms, and organizations that address the protection of vulnerable populations and ordinary citizens. This named option covers human rights, as they are codified in the Universal Declaration of Human Rights; hence it covers the civil and political rights, from speech, belief, association, and discrimination, to social, economic, and cultural rights, such as the right to education, health, and water, among others. Human Rights and Humanitarianism also encompasses the organizations and institutions that work to protect and advocate for these rights, inclusive of courses on international law, nonprofit management, and non-state actors in global politics as well as those on specialized multilateral organizations that deal with human rights, such as regional organizations and specialized agencies at the United Nations. The named option similarly addresses social movements for change. It addresses the ways in which civilians are protected when thrust into conditions of hardship, including the laws of war, regimes on migration and forced migration, and efforts to address global health disparities.

GLOBAL SECURITY

This named option covers traditional and non-traditional forms of insecurity, disorder, and violent conflict as well as efforts to resolve and manage conflict. The thematic categories include forms of war, including interstate and civil war, as well as forms of political violence against civilians, such as terrorism, genocide, riots, and massacres. Global Security also covers non-traditional forms of insecurity, such as climate change, biothreats, pandemics and other infectious diseases, cyberattacks and cybersecurity, and food security. This named option also encompasses a range of ways to manage these forms of insecurity, including peacekeeping, other multilateral efforts to mediate conflict, counterinsurgency, and post-conflict peacebuilding.

POLITICS AND POLICY IN THE GLOBAL ECONOMY

This named option offers a multidisciplinary survey of international economic and political institutions and transactions, as well as the policy issues pertaining to international commerce and trade, international finance and monetary relations, international macroeconomic policy coordination, U.S. trade imbalances, aid and development, and related environmental and natural resource problems.

CULTURE IN THE AGE OF GLOBALIZATION

In this named option, students investigate crosscultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

STUDY ABROAD

International Studies and studying abroad are a natural combination. While study abroad is not a requirement for the major, all International Studies students are strongly encouraged to pursue a significant international experience during the course of the undergraduate career. Whether through a study abroad program, an internship, or service learning, the experience of studying or working in a foreign culture is invaluable. Many courses taken abroad will count toward the International Studies major. See the International Studies advisor for specific guidelines. More information about study abroad and internships is available through International Academic Programs (<http://www.studyabroad.wisc.edu/>).

HOW TO GET IN

HOW TO GET IN

Students are advised to declare the major as soon as they are enrolled in INTL ST 101 and/or before studying abroad.

To be eligible to declare the International Studies Major, students must be enrolled or working toward the following courses:

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (<https://guide.wisc.edu/undergraduate/#requirementsforundergraduestudytext>) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.
Language	<ul style="list-style-type: none">• Complete the fourth unit of a language other than English; OR• Complete the third unit of a language and the second unit of an additional language other than English.

FOOTNOTES

¹ A maximum four courses from a single SUBJECT may be applied to the 27 credits in the named option of the major. This excludes INTL ST courses and courses cross-listed in INTL ST. For example: A student with five POLI SCI courses that could apply to the major will see only four of those courses applying in the International Studies major. (However, if one of those POLI SCI courses is also cross-listed in INTL ST, that course will not count against the limit, and thus, all five POLI SCI courses will apply in the major.) The degree audit (DARS) enforces this limitation.

Though some courses are identified as acceptable for two or more requirements, a course may meet only one requirement within the major. For example, a course that could count in either Option Core or Option Issues will meet only one of those requirements, based on which requirement needs that course to become satisfied. The degree audit (DARS) determines the best scenario.

² Major courses designated Intermediate and Advanced level are considered upper-level.

³ A maximum of two courses and 8 credits from UW–Madison Study Abroad may apply to this requirement.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

culture, global security and political economy) by taking 15 credits in one particular theme area.

3. (Regional (studies) grounding) understanding the social, political, economic and cultural forces and conditions that have given rise to the unity and diversity of a specific region of the world today.
4. (Language knowledge) mastering at the undergraduate generalist level a particular facet of life in one or more region of the world by studying a language to at least the advanced (5th semester) level.
5. (Analytical skills) demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

ADVISING AND CAREERS

ADVISING AND CAREERS ADVISING STAFF

International Studies students have a wide variety of academic advising and career resources and support. Academic advising is essential to a successful undergraduate experience. For this reason, the International Studies major has a professional advisor, a peer advisor, and a career advisor.

We recommend that you meet with your advisor at least once per semester to track progress toward your degree, explore study abroad options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments. Students exploring the International Studies major should plan to attend an Intro to the IS Major workshop (<https://ismajor.wisc.edu/intro-to-the-is-major-workshop/>), watch the Intro to the IS Major video, or meet with a peer advisor. To learn more about academic advising information, please visit the IS Major website (<https://ismajor.wisc.edu/academic-advising/>).

Students should also begin the career advising process early. The international studies major offers a one-credit career class designed for sophomores or juniors. Students are strongly encouraged to meet with both the International Studies career advisor and SuccessWorks at the College of Letters & Science, and to apply for internship opportunities, both domestically and via International Internship Programs or the Washington, D.C. Internship Program. The International Studies major also advertises career events across campus that will benefit undergraduate students, hosts career workshops, and has a transition checklist to help students prepare for post-undergraduate life. For more information, please visit our website (<https://ismajor.wisc.edu/career-advising/>).

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.
