

PHYSICS, B.S.

HOW TO GET IN

TO DECLARE A PHYSICS MAJOR

Students should discuss declaration with one of the undergraduate advisors (<http://guide.wisc.edu/undergraduate/letters-science/physics/physics-ba/#advisingandcareerstext>) as early as possible and bring a What-If DARS for the Physics major to their meeting.

To be eligible to declare the major, students must have a combined MATH and PHYSICS GPA of at least a 2.500. Eligible students can declare the physics major anytime by completing the department's major declaration form (<https://www.physics.wisc.edu/sites/default/files/Physics%20Declaration%20Form.pdf>) and having it signed by a physics undergraduate advisor.

There are additional steps to declaring Physics as an Additional Major. Section C of the major declaration form (<https://www.physics.wisc.edu/sites/default/files/Physics%20Declaration%20Form.pdf>) has important information about this process. Students should consult the Guide page of their home school or college for more information about declaring an Additional Major in L&S.
