ACT SCI 300 — ACTUARIAL SCIENCE METHODS I
1 credit.

Develop a knowledge of fundamental mathematical tools for quantitatively assessing risk. Emphasize the applications of these tools to problems encountered in actuarial science. Enroll Info: None
Requisites: (STAT/MATH 309, STAT 311, or STAT/MATH 431) or declared in Capstone Certificate in Actuarial Science, member of Business Exchange program. Not open to graduate students
Repeatable for Credit: Yes, for 2 number of completions
Last Taught: Summer 2022

ACT SCI 301 — ACTUARIAL SCIENCE METHODS II
1 credit.

Develop a knowledge of mathematical tools for quantitatively assessing financial risk. Emphasize the applications to problems encountered in actuarial science. Enroll Info: None
Requisites: (MATH 303 or concurrent enrollment) or declared in Capstone Certificate in Actuarial Science or member of Business Exchange program. Not open to graduate students
Repeatable for Credit: Yes, for 2 number of completions
Last Taught: Spring 2022

ACT SCI 303 — THEORY OF INTEREST
3 credits.

Time value of money; interest compounded discretely and continuously; accumulated and present value of payments; loans and sinking funds; annuity and bond valuation; interest rate term structure; duration, immunization and interest rate swaps. Enroll Info: None
Requisites: MATH 222 or 276 or member of Business Exchange program
Repeatable for Credit: No
Last Taught: Spring 2022

ACT SCI 365 — CONTEMPORARY TOPICS
1-3 credits.

Explanation of subject areas possibly to be introduced into the business curriculum. Enroll Info: None
Requisites: None
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Spring 2022

ACT SCI 399 — READING AND RESEARCH-ACTUARIAL SCIENCE
1-3 credits.

Directed study in various areas of actuarial science that provides the opportunity to participate in more in-depth study (intermediate level) under the direct guidance of actuarial science faculty. Enroll Info: None
Requisites: Consent of instructor
Course Designation: Level - Intermediate
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Repeatable for Credit: Yes, for 4 number of completions
Last Taught: Spring 2022

ACT SCI 650 — ACTUARIAL MATHEMATICS I
3 credits.

Advanced problems in the mathematical theory of life contingencies; force of mortality, laws of mortality; premiums and reserves for insurance and annuities based on a single life. Enroll Info: None
Requisites: MATH 303 and (STAT/MATH 309, STAT 311, or STAT/MATH 431); or member of Business Exchange program
Course Designation: Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Repeatable for Credit: No
Last Taught: Spring 2022

ACT SCI 651 — ACTUARIAL MATHEMATICS II
3 credits.

Continuation of ACT SCI 650. Joint life probabilities, annuities and insurances; multiple-decrement theory; pension fund mathematics. Enroll Info: None
Requisites: ACT SCI 650
Course Designation: Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Repeatable for Credit: No
Last Taught: Spring 2022

ACT SCI 652 — LOSS MODELS I
3 credits.

Definition and selection of probability distributions appropriate for insurance data that are heavily tailed and skewed. Enroll Info: None
Requisites: (STAT/MATH 310 or STAT 312 or concurrent registration) or member of Business Exchange program
Course Designation: Level - Intermediate
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Repeatable for Credit: No
Last Taught: Spring 2022

ACT SCI 653 — LOSS MODELS II
3 credits.

Estimation of parameters of probability distributions appropriate for insurance data that are heavily tailed and skewed; assessment of credibility of data for ratemaking. Enroll Info: None
Requisites: ACT SCI 652 or member of Business Exchange program
Course Designation: Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Repeatable for Credit: No
Last Taught: Spring 2022

ACT SCI 654 — REGRESSION AND TIME SERIES FOR ACTUARIES
2-3 credits.

Linear regression and correlation; generalized linear regression models; introduction to time series; time series model building and forecasting with focus on data of interest to actuaries. Enroll Info: None
Requisites: Junior standing and (GEN BUS 306, 704, STAT/MATH 310, or STAT 312); or member of Business Exchange program
Course Designation: Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Repeatable for Credit: No
Last Taught: Spring 2022
ACT SCI 655 — HEALTH ANALYTICS
2-3 credits.

Provides an introduction to the broad area of health, integrating how researchers from multiple perspectives have investigated various aspects of health, along with the hands-on practice of learning and using statistical tools to analyze these topics. Enroll Info: None

Requisites: Junior standing and (GEN BUS 306, 704, STAT/MATH 310, or STAT 312); or member of Business Exchange program

Repeatable for Credit: No

Last Taught: Spring 2022

ACT SCI 657 — RISK ANALYTICS
2-3 credits.

Develops a toolbox for modeling, communicating, and managing risk and uncertainty in predictive models. Topics include time-series forecasting, probabilistic forecasting techniques, scenario analysis, and integrations of modern machine learning methods with distribution-based predictive models, among others. Particularly addresses situations where data is sparse, including climate, cyber, and catastrophic risk. Enroll Info: None

Requisites: ACT SCI 654, 655, or GEN BUS 656

Repeatable for Credit: No

ACT SCI 765 — CONTEMPORARY TOPICS
1-3 credits.

Exploration of subject areas possibly to be introduced into the business curriculum. Enroll Info: None

Requisites: Graduate/professional standing or member of Business Exchange program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020
