<td>BIOCORE 181</td>
<td>Becoming a Scientist: Doing Biology Research</td>
<td>2</td>
<td>Orientation to biology research on campus, work in a research team to investigate a novel research question, and do biology research on a choice of topics: from ecology and physiology to cell biology. Emphasis is on critical thinking required in designing and conducting experiments, analyzing and interpreting data, and communicating findings orally and in writing.</td>
<td>None</td>
<td>Breadth - Biological Sci. Counts toward the Natural Sci req</td>
<td>Elementary</td>
<td>Intermediate</td>
<td>L&amp;S Credit - Counts as Liberal Arts and Science credit in L&amp;S</td>
<td>Honors - Honors Only Courses (H)</td>
<td>No</td>
<td>Fall 2023</td>
</tr>
<tr>
<td>BIOCORE 381</td>
<td>Evolution, Ecology, and Genetics</td>
<td>3</td>
<td>Basic principles of ecology and interrelations between individuals, populations, communities, ecosystems and their environment; transmission genetics and introduction to population genetics; origin of life, evolutionary mechanisms, ancestral relationships among species, and the diversity of life.</td>
<td>Declared in Biology Core Curriculum Honors Certificate</td>
<td>Breadth - Biological Sci. Counts toward the Natural Sci req</td>

<tr>
<td>BIOCORE 401</td>
<td>Peer Mentoring</td>
<td>1</td>
<td>Develops mentoring, group facilitation, leadership, and interpersonal skills used in peer learning and leading mentored study groups. Focuses on the pedagogy, skills, and effective techniques used to facilitate learning in small groups. Discuss lower order to higher order cognitive levels using Blooms Taxonomy, and reciprocal mentor observations.</td>
<td>BIOCORE 381, 383, and (BIOCORE 382 or 384)</td>
<td>Level - Intermediate</td>

</table>
**BIOCORE 486 – Principles of Physiology Laboratory**

2 credits.

Experience the process of science by collaborating on independent experiments to investigate your questions about animal and plant physiology. Emphasis is on critical thinking required in designing and conducting experiments, analyzing and interpreting data, and communicating findings orally and in writing.

**Requisites:** BIOCORE 485 or concurrent enrollment

**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

**Level:** Intermediate

**L&S Credit:** Counts as Liberal Arts and Science credit in L&S

**Honors:** Honors Only Courses (H)

**Repeatable for Credit:** No

**Last Taught:** Fall 2023

**BIOCORE 587 – Biological Interactions**

3 credits.

A capstone course to build on and integrate the knowledge and skills gained in previous Biocore coursework through readings and analysis of primary scientific literature. Work in small groups to analyze current and emerging topics through the lens of scientific research. Topics include signaling pathways, systems biology, genetic disease, and cancer.

**Requisites:** BIOCORE 485

**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

**Level:** Advanced

**L&S Credit:** Counts as Liberal Arts and Science credit in L&S

**Honors:** Honors Only Courses (H)

**Repeatable for Credit:** No

**Last Taught:** Spring 2023

**BIOCORE 699 – Directed Study**

1-3 credits.

Independent mentored study as arranged with a faculty member

**Requisites:** Consent of instructor

**Course Designation:** Level - Advanced

**L&S Credit:** Counts as Liberal Arts and Science credit in L&S

**Repeatable for Credit:** Yes, unlimited number of completions

**Last Taught:** Spring 2023
