URB R PL 215 – WELCOME TO YOUR URBAN FUTURE
3 credits.

For many, our shared future experience will be urban and interconnected. With increasing urbanization, comes ever-changing pressures on rural and suburban places, and building a sustainable and equitable urban future will require a diversity of people from many disciplines, social backgrounds, and ways of thinking. Introduction to those disciplines and perspectives occurs through three major themes: (1) organization of cities (e.g., transportation, architecture/urban design, utilities, nature in the city), (2) services within cities (e.g., economic, governance, ecological), and (3) dynamics of cities (e.g., incremental changes - or transformations - that could shape urban futures around the globe). Each theme will highlight multiple disciplines, their historical and potential future roles in shaping cities, and their interconnections within urban systems.

Requisites: None

Course Designation: Breadth - Humanities
Level - Elementary
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Repeatable for Credit: No
Last Taught: Spring 2024

Learning Outcomes:
1. Recognize and articulate the challenges facing the future of urban systems from academic and practitioner points of view
   Audience: Undergraduate
2. Integrate different disciplinary perspectives and relate them to solving problems in cities
   Audience: Undergraduate
3. Explain the social, economic, and/or environmental dimensions of the sustainability challenge(s) of future cities
   Audience: Undergraduate
4. Identify opportunities / appreciate careers that are relevant for improving / innovating in cities domestically and globally
   Audience: Undergraduate
5. Analyze sustainability issues and/or practices using a systems-based approach (e.g., urban metabolism)
   Audience: Undergraduate
6. Understand the interactions between diverse groups living together in cities, and analyze the tensions and possibilities
   Audience: Undergraduate
7. Translate course concepts into opportunities for leadership and action from the private, non-profit, and public sectors within cities, especially as it relates to being an urban leader grounded in equity and social justice
   Audience: Undergraduate
8. Frame complex public issues concisely in writing to city leaders about the issues
   Audience: Undergraduate

URB R PL/GEOG 305 – INTRODUCTION TO THE CITY
3-4 credits.

Investigates urbanization as a general process, as well as the resulting contemporary physical, social, cultural and political- economic forms of cities. Emphasis will be placed on the history and current forms of spatial and social segregation of cities by race, class, ethnicity, and gender. The myriad ways that cities have addressed the tensions emerging from this history of spatial and social segregation will be highlighted. Further, emphasis will be placed on understanding the experiences of those most-affected by historical and continuing segregation.

Requisites: Sophomore standing

Course Designation: Ethnic St - Counts toward Ethnic Studies requirement
Breadth - Social Science
Level - Intermediate
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Repeatable for Credit: No
Last Taught: Spring 2024

URB R PL/A A E/ECON/REAL EST 306 – THE REAL ESTATE PROCESS
3 credits.

Introductory overview focused on the key aspects of the real estate process: developing real estate, permitting real estate, buying and selling real estate, understanding the economics of real estate, financing real estate, valuing real estate, leasing real estate, and managing real estate.

Requisites: (ECON 101, 111, A A E 101, or 215 prior to Fall 2024) or declared in undergraduate Business Exchange program

Course Designation: Breadth - Social Science
Level - Intermediate
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Repeatable for Credit: No
Last Taught: Spring 2024

Learning Outcomes:
1. Develop a working knowledge of the real estate process, including the roles of the various key real estate professionals and the unique challenges associated with the real estate asset class
   Audience: Undergraduate
2. Explain the characteristics, advantages, and disadvantages of the primary commercial real estate property types.
   Audience: Undergraduate
3. Discuss the role of debt and equity in a real estate transaction as well as the fundamental terms, conditions, and requirements of commercial real estate financing.
   Audience: Undergraduate
4. Navigate the basic regulatory framework governing the real estate process, including land use planning, zoning and the required project approvals.
   Audience: Undergraduate
5. Describe the role of leasing in the commercial real estate transaction, including the critical terms and conditions of commercial leases.
   Audience: Undergraduate
URB R PL/JOURN/Pol SCI 373 – INTRODUCTION TO SURVEY RESEARCH
3-4 credits.
Theory and practice of survey research; questionnaire design, sampling, data visualization, statistical analysis.
**Requisites:** Sophomore standing
**Course Designation:** Breadth - Social Science
Level - Intermediate
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement
**Repeatable for Credit:** No
**Last Taught:** Spring 2024
**Learning Outcomes:**
1. Formulate and construct logical arguments about political phenomena and evaluate those arguments using survey research
   Audience: Undergraduate
2. Explain the theoretical components of survey research
   Audience: Undergraduate
3. Interpret survey results in general with a particular focus on political polling
   Audience: Undergraduate
4. Design and assess political surveys, including questionnaire design, question wording, survey mode, sample size, nonresponse, survey experiments, standard error, and margin of error
   Audience: Undergraduate
5. Demonstrate statistical analysis skills in the context of political surveys including: hypothesis testing, confidence intervals, difference of means tests, data visualization and linear regression
   Audience: Undergraduate
6. Recognize ethical issues in survey research
   Audience: Undergraduate
7. Assess the state of a body of scholarly literature related to course themes, identify gaps in that literature, and formulate an original research question in the context of those gaps.
   Audience: Graduate

URB R PL 375 – SPECIAL TOPICS
1-3 credits.
Exploration of special issues or problems in urban planning.
**Requisites:** Sophomore standing
**Course Designation:** Level - Intermediate
L&S Credit - Counts as Liberal Arts and Science credit in L&S
**Repeatable for Credit:** Yes, unlimited number of completions
**Learning Outcomes:**
1. Demonstrate critical thinking and the ability to explore ideas and synthesize information, both independently and in collaboration with interdisciplinary team members.
   Audience: Undergraduate
2. Understand, apply and evaluate the principles, theories and research findings underlying urban planning.
   Audience: Undergraduate
3. Integrate social, cultural, ecological and technological dimensions in solving design and urban planning problems.
   Audience: Undergraduate
URB R PL 411 – MARKETPLACES AND ENTREPRENEURSHIP
3 credits.

The history, practices, processes, and prospects of marketplaces generally and farmers markets in particular. Includes the history, practices, and processes, of entrepreneurship and the tight fit between markets and entrepreneurship. Explores marketplaces and entrepreneurship in through the lens of economic development, food justice, and political regionalism.

Requisites: Sophomore standing

Course Designation: Gen Ed - Communication Part B
Breadth - Social Science
Level - Intermediate
L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2021

Learning Outcomes:
1. Apply concepts of social scientific analysis
   Audience: Undergraduate

2. Understand the history of marketplaces, and more recently, of farmers markets, how they developed
   Audience: Undergraduate

3. Evaluate their relationship to trends in economic development, food justice, and political regionalism
   Audience: Undergraduate

4. Distinguish and judge the various legal and social practices and processes that unfold in establishing markets and market entrepreneurs/farmers, as well as distinguishing descriptive from normative concerns
   Audience: Undergraduate

5. Describe how markets relate to bioregionalism, places, and place making
   Audience: Undergraduate

6. Understand and apply basic knowledge of entrepreneurship, social entrepreneurship, and community economic development, as well as how these embody normative concerns and bioregional/placemaking interests
   Audience: Undergraduate

7. Apply knowledge from the course in executing research on markets and vendors in order to contribute to an existing market in Wisconsin or elsewhere
   Audience: Undergraduate

URB R PL/ECON/REAL EST 420 – URBAN AND REGIONAL ECONOMICS
3 credits.

Focuses on the study of the allocation of scarce resources across space. Uses economic methods to analyze urban real estate. Topics covered include the determinants of real estate values, the location decisions of households and firms, land use, urban growth and agglomeration, real estate pricing, cycles, development, housing market and policies, and sustainable development.

Requisites: (ECON 101 or 111) or declared in undergraduate Business Exchange program

Course Designation: Breadth - Social Science
Level – Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2024

Learning Outcomes:
1. Explain the economic forces that drive urban growth and regional development.
   Audience: Undergraduate

2. Analyze how business and residential location decisions are made and how these decisions impact housing prices, land use, labor market, and many other aspects of cities.
   Audience: Undergraduate

3. Apply the spatial equilibrium concepts to urban development and real estate analysis.
   Audience: Undergraduate

4. Develop statistical models to assess residential and commercial real estate and perform sensible business and policy analysis.
   Audience: Undergraduate

5. Apply the economic decision-making framework to real estate development decisions.
   Audience: Undergraduate

6. Demonstrate understanding of cycles, risks and bubbles in residential and commercial real estate markets.
   Audience: Undergraduate

7. Evaluate the challenges in economic, social and environmental sustainability in urban development around the world.
   Audience: Undergraduate

8. Apply urban and regional economics to real estate business decisions and policy analysis.
   Audience: Undergraduate
URB R PL/ECON/ENVIR ST/POLI SCI 449 – GOVERNMENT AND NATURAL RESOURCES
3-4 credits.

Problems of public policy and administration for development and use of natural resources.  
Requisites: Junior standing  
Course Designation: Breadth - Social Science  
Level - Intermediate  
L&S Credit - Counts as Liberal Arts and Science credit in L&S  
Grad 50% - Counts toward 50% graduate coursework requirement  
Repeatable for Credit: No  
Last Taught: Summer 2023

URB R PL/LAND ARC 463 – EVOLUTION OF AMERICAN PLANNING
3 credits.

The nature and cultural significance of contemporary methods for the systematic formulation of public policies for community, metropolitan, and state development through comprehensive planning. Historic roots, recent trends and new directions in American planning concepts, institutions and professional specializations.  
Requisites: Junior standing  
Course Designation: Breadth - Social Science  
Level - Intermediate  
L&S Credit - Counts as Liberal Arts and Science credit in L&S  
Repeatable for Credit: No  
Last Taught: Spring 2024

URB R PL/GEOG 503 – RESEARCHING THE CITY: QUALITATIVE STRATEGIES
3 credits.

Explores, and applies, qualitative methods in the field of urban geography. An introduction to debates around the analysis and interpretation of qualitative data is provided, grounded in concrete urban research. Participation in a three-day field course is required.  
Requisites: Junior standing  
Course Designation: Breadth - Social Science  
Level - Intermediate  
L&S Credit - Counts as Liberal Arts and Science credit in L&S  
Repeatable for Credit: No  
Last Taught: Spring 2020

URB R PL/GEOG 505 – URBAN SPATIAL PATTERNS AND THEORIES
3 credits.

Various urban empirical regularities and theories which explain them.  
Requisites: Junior standing  
Course Designation: Breadth - Social Science  
Level - Advanced  
L&S Credit - Counts as Liberal Arts and Science credit in L&S  
Grad 50% - Counts toward 50% graduate coursework requirement  
Repeatable for Credit: No  
Last Taught: Spring 2022

URB R PL/GEOG 506 – HISTORICAL GEOGRAPHY OF EUROPEAN URBANIZATION
3 credits.

Historical geography of urban development in Europe from classical times to the post-Word War II era, with emphasis on changes in built environment, public space and infrastructure, land use, and urban systems.  
Requisites: Junior standing  
Course Designation: Breadth - Social Science  
Level - Advanced  
L&S Credit - Counts as Liberal Arts and Science credit in L&S  
Grad 50% - Counts toward 50% graduate coursework requirement  
Repeatable for Credit: No  
Last Taught: Spring 2015
URB R PL 512 — GENTRIFICATION AND URBAN RESTRUCTURING
3 credits.

An intensive analysis of the process of gentrification through its historical and spatial development within moments of post-fordist urban restructuring in the United States. Highlights urban theory and methodological questions important to the study of gentrification that are relevant to the fields of urban planning, geography and sociology. Case study investigation of particular locations will provide examples to test the applicability of the various analytical frameworks presented in the class.

**Requisites:** Junior standing

**Course Designation:** Breadth - Social Science

**Level:** Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

**Repeatable for Credit:** No

**Last Taught:** Fall 2023

**Learning Outcomes:**
1. Understand the development of gentrification from its origin as an urban anomaly in the eastern seaboard and rustbelt region during a period of “crisis-generated restructuring” to a “global urban strategy” of urban development.
   Audience: Both Grad & Undergrad

2. Analyze the complicated urban processes behind gentrification and the forces and actors that work to create them.
   Audience: Both Grad & Undergrad

3. Evaluate important concepts in urban planning theory through questions regarding development and the negative consequences associated with the process of gentrification.
   Audience: Both Grad & Undergrad

4. Understand the role of urban planning in the gentrification process and the forms of resistance/mediation communities have used to challenge gentrification.
   Audience: Both Grad & Undergrad

5. Apply and strengthen research skills through written, oral, and graphic communication with written reflections, formal essays, and in-class engagement around the material as well as a final project that asks students to operationalize the concept of gentrification.
   Audience: Both Grad & Undergrad

6. Apply urban theory to an original research project on gentrification for the final project.
   Audience: Graduate

7. Analyze the primary theoretical approaches to gentrification and urban restructuring through particular and additional focus on relevant theory-based scholarly articles.
   Audience: Graduate

URB R PL/AA AE/REAL EST 520 — COMMUNITY ECONOMIC ANALYSIS
3 credits.

Economic theory (location and growth) applicable to community economic development; the role of private and public sector in local economic development, and techniques for economic analysis of community.

**Requisites:** ECON 301 or 311 or graduate/professional standing

**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

**Repeatable for Credit:** No

**Last Taught:** Spring 2024

**Learning Outcomes:**
1. Synthesize an overview of economic theory as applied to small open economies.
   Audience: Both Grad & Undergrad

2. Identify the strengths and weaknesses of the community’s economy.
   Audience: Both Grad & Undergrad

3. Implement alternative processes for affecting change at the community level.
   Audience: Both Grad & Undergrad

4. Demonstrate literacy of economic factors affecting change at the local level.
   Audience: Both Grad & Undergrad

5. Describe the community within a sustainable systems thinking approach.
   Audience: Both Grad & Undergrad

6. Identify appropriate roles for community economic development practitioners in a variety of community settings.
   Audience: Graduate
URB R PL/ENVIR ST/GEOG/LAND ARC 532 – APPLICATIONS OF GEOGRAPHIC INFORMATION SYSTEMS IN PLANNING
3 credits.

Explores planning-related Geographic Information System (GIS) data, applications, analytical tools, and implementation issues.  
**Requisites:** GEOG/CIV ENGR/ENVIR ST 377 or graduate/professional standing

**Course Designation:** Breadth - Social Science  
**Level:** Advanced  
**L&S Credit:** Counts as Liberal Arts and Science credit in L&S  
**Grad 50%:** Counts toward 50% graduate coursework requirement

**Repeatable for Credit:** No  
**Last Taught:** Fall 2023  
**Learning Outcomes:**  
1. Identify how planning agencies use GIS.  
   Audience: Both Grad & Undergrad

2. Explain the nature, characteristics, and possible ways of analyzing spatial data in a planning context.  
   Audience: Both Grad & Undergrad

3. Communicate geospatial data and analyses effectively.  
   Audience: Both Grad & Undergrad

4. Obtain and analyze geospatial data using a range of spatial analysis tools for a number of planning practices.  
   Audience: Both Grad & Undergrad

5. Conduct site-selection and land-suitability analysis.  
   Audience: Both Grad & Undergrad

6. Identify ethical issues surrounding access to and use of geospatial data.  
   Audience: Both Grad & Undergrad

7. Analyze and provide written feedback on undergraduate student presentations.  
   Audience: Graduate

8. Produce a memo on land-suitability analysis.  
   Audience: Graduate

URB R PL 550 – TRANSPORTATION AND THE BUILT ENVIRONMENT
3 credits.

Investigation of multi-modal transportation, travel behavior, and urban form. Attention to site, neighborhood, regional, and global scales.  
Consideration of public health, environmental, economic, and social equity outcomes.  
**Requisites:** Senior standing

**Course Designation:** Breadth - Social Science  
**Level:** Advanced  
**L&S Credit:** Counts as Liberal Arts and Science credit in L&S  
**Grad 50%:** Counts toward 50% graduate coursework requirement

**Repeatable for Credit:** No  
**Last Taught:** Fall 2023  
**Learning Outcomes:**  
1. Understand major debates, issues, and theories in transportation, land use, urban design, and travel behavior at the site, neighborhood, regional, and global scales.  
   Audience: Both Grad & Undergrad

2. Develop and apply strategies for collecting and analyzing data representing built environment and transportation issues such as travel behavior.  
   Audience: Both Grad & Undergrad

3. Appreciate the roles of officials, stakeholders, and community members in making decisions about transportation and built environments.  
   Audience: Both Grad & Undergrad

4. Appreciate economic, social, cultural, technological, and environmental factors in urban and regional growth and change.  
   Audience: Both Grad & Undergrad

5. Develop one’s professional identity by envisioning a future self (and possibly make plans that build on the course experience), evaluating one’s own learning, and assessing one’s own strengths and weaknesses.  
   Audience: Graduate
URB R PL 551 – CLIMATE ACTION PLANNING: SUSTAINABLE TRANSPORTATION
3 credits.

Learn fundamental concepts of climate action planning and sustainable transportation through hands-on collaborations with the University of Wisconsin-Madison Office of Sustainability, Transportation Services, and other partners. Work with real world data to analyze policies, programs, and plans to reduce greenhouse gas emissions from travel, as well as the potential health and well-being co-benefits of sustainable transportation interventions. Analyze further reduction of the campus and community carbon footprints through practice-oriented green fleet management, behavior-based tools to support participation in active travel, modifications to the built environment, and other interventions.

Requisites: Senior standing
Course Designation: Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Spring 2024

Learning Outcomes:
1. Locate specific climate governance relationships and actors as they relate to sustainable transportation (i.e., climate action in higher ed nested within intergovernmental context)
   Audience: Both Grad & Undergrad

2. Employ the mechanics of climate action plans and processes in the context of sustainable transportation
   Audience: Both Grad & Undergrad

3. Explain policy and planning issues in sustainable transportation broadly and with a focus on fuels, vehicles, and vmt-reduction
   Audience: Both Grad & Undergrad

4. Relate travel behavior and its application to climate change mitigation;
   Audience: Both Grad & Undergrad

5. Create a GHG emissions analysis/assessment using relevant methods and applied to sustainable campus transportation in its community context
   Audience: Both Grad & Undergrad

6. Explain the social, economic, and/or environmental dimensions of the sustainability challenge(s) of urban transportation systems.
   Audience: Both Grad & Undergrad

7. Apply sustainability principles and/or frameworks to addressing the challenge of climate change mitigation in the transportation sector.
   Audience: Both Grad & Undergrad

8. Expand one’s professional self-awareness through group leadership, facilitation, and cooperation
   Audience: Graduate

URB R PL/A A E/CIV ENGR/ENVIR ST 561 – ENERGY MARKETS
3 credits.

Energy resources are an essential element of the world’s business, political, technical and environmental landscape. Analytic tools provided by the discipline of economics expands our understanding of this critical issue. Energy supply markets reviewed include both fossil fuels and renewable resources. Energy demand sectors include residential, commercial, industrial and transportation. Electricity represents an intermediate energy market. The interactions among these markets participants indicate how scarce resources are allocated among competing needs in the world economy.

Requisites: A A E 101 (215 prior to Fall 2024), ECON 101, 111, or graduate/professional standing
Course Designation: Breadth - Social Science
Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Fall 2017

URB R PL 590 – CONTEMPORARY TOPICS IN URBAN AND REGIONAL PLANNING
1-3 credits.

Examination of special issues or problems in urban and regional planning and development, such as mineral development in Wisconsin or fringe development in Madison. Topic and faculty vary.

Requisites: Senior standing
Course Designation: Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Spring 2024
URB R PL 597 – UNIVERCITY YEAR GUIDED EXPERIENCE
1 credit.
Orientation to the UniverCity Year program and underlying theory and applied knowledge around community engagement, the function of local governments, and working with local officials and professional staff. Gain core competencies for applied, community-based learning projects and the importance of place-based learning. Includes multidisciplinary approaches to problem-solving, access and use of information resources, reflection and action on ethical and professional issues, consideration of social and systemic roots of issues faced by local municipalities, and preparing written reports.
**Requisites:** Junior standing
**Course Designation:** Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
**Repeatable for Credit:** No
**Last Taught:** Fall 2019
**Learning Outcomes:**
1. Understand concepts of community-based learning and their application to community-based projects.
   Audience: Undergraduate
2. Understand local government structure and opportunities for engagement in light of existing strategic plans, priorities, and initiatives.
   Audience: Undergraduate
3. Observe and understand professional relationships with project clients and other community partners
   Audience: Undergraduate
4. Understand the UniverCity Year program and how individual projects fit within a larger context of UW-Madison’s civic engagement and community-based learning efforts.
   Audience: Undergraduate
5. Understand the role of students as ambassadors of UW-Madison
   Audience: Undergraduate

URB R PL 601 – SITE PLANNING
3 credits.
Survey of site planning theory and methods; standards for municipal review of site plans and related design proposals. Topics include architecture, vehicle circulation and parking, pedestrian circulation, stormwater management, landscaping, outdoor lighting, and signage.
**Requisites:** Senior standing
**Course Designation:** Breadth - Either Humanities or Social Science Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
**Repeatable for Credit:** No
**Last Taught:** Fall 2022

URB R PL 611 – URBAN DESIGN: THEORY AND PRACTICE
3 credits.
Focusing on three basic components of the built environment (buildings, transportation systems, and open spaces), addresses the forces that shape land use and transportation patterns, the effects of urban form on public health, safety, and welfare, and ways that communities can make their built environments more livable and environmentally sustainable.
**Requisites:** Senior standing
**Course Designation:** Level - Intermediate
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement
**Repeatable for Credit:** No
**Last Taught:** Fall 2023

URB R PL/C&E SOC/SOC 617 – COMMUNITY DEVELOPMENT
3 credits.
Social, cultural and personality factors influencing community development, with reference to developing countries as well as contemporary rural communities; consideration of theoretical and operational issues.
**Requisites:** SOC/C&E SOC 140, 210, 211, SOC 181, or graduate/professional standing
**Course Designation:** Breadth - Social Science
Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement
**Repeatable for Credit:** No
**Last Taught:** Fall 2023

URB R PL/GEN&WS 644 – INTERNATIONAL DEVELOPMENT AND GENDER
3 credits.
In addition to reviewing gender-within-development theory and practice, this course examines specific gender issues including social status and roles, productive and reproductive work, access to resources, identity and citizenship, empowerment, and intersection of race, class, and ethnicity with gender.
**Requisites:** None
**Course Designation:** Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement
**Repeatable for Credit:** No
**Last Taught:** Fall 2015

URB R PL/C&E SOC/SOC 645 – MODERN AMERICAN COMMUNITIES
3 credits.
Relevance of the concept of community to American society. Review of several basic theories of community and analysis of the nature of community in the broader political and economic context.
**Requisites:** SOC/C&E SOC 140, 210, 211, SOC 181, or graduate/professional standing
**Course Designation:** Breadth - Social Science
Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement
**Repeatable for Credit:** No
**Last Taught:** Spring 2021
URB R PL/ENVIR ST 668 – GREEN POLITICS: GLOBAL EXPERIENCE, AMERICAN PROSPECTS
3 credits.

An examination of the writings and activities of green parties and movements around the globe in order to assess the potential of an explicit, radical environmental politics for the United States.

**Requisites:** Junior standing

**Course Designation:** Breadth - Social Science

**Level:** Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

**Repeatable for Credit:** No

**Last Taught:** Fall 2017

URB R PL/A A E/ECON/ENVIR ST 671 – ENERGY ECONOMICS
3 credits.

The method, application, and limitations of traditional economic approaches to the study of energy problems. Topics include microeconomic foundations of energy demand and supply; optimal pricing and allocation of energy resources; energy market structure, conduct, and performance; macro linkages of energy and the economy; and the economics of regulatory and other public policy approaches to the social control of energy.

**Requisites:** Graduate/professional standing or (senior standing and ECON 101, 111, A A E 101, or 215 prior to Fall 2024)

**Course Designation:** Breadth - Social Science

**Level:** Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

**Repeatable for Credit:** No

**Last Taught:** Spring 2020

**Learning Outcomes:**
1. Understand fundamentals of energy sources and technologies.
   Audience: Both Grad & Undergrad

2. Be familiar with microeconomic theory with applications to energy industries and markets.
   Audience: Both Grad & Undergrad

3. Build analytical skills in economic analysis and be able to apply the economic thinking to historical and contemporary energy-related issues.
   Audience: Graduate

4. Analyze the causes of and solutions for the sustainability challenge of affordable and clean energy.
   Audience: Both Grad & Undergrad

5. Apply sustainability principles and/or frameworks to addressing the challenge of affordable and clean energy.
   Audience: Both Grad & Undergrad

URB R PL 699 – DIRECTED STUDY
1-6 credits.

Independent study as arranged with a faculty member.

**Requisites:** Consent of instructor

**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

**Repeatable for Credit:** Yes, unlimited number of completions

**Last Taught:** Spring 2024

URB R PL 711 – PLANNING FOR FOOD SYSTEMS AND MARKETPLACES
3 credits.

Planning for and improving the quality of US metropolitan markets and food systems. Topics include public markets, community food security, urban agriculture, and the public health impact of food systems.

**Requisites:** Graduate/professional standing

**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

**Repeatable for Credit:** No

**Last Taught:** Fall 2022

URB R PL/CIV ENGR/ENVIR ST 717 – WATER RESOURCES MANAGEMENT PRACTICUM PLANNING SEMINAR I
1 credit.

The first of two seminars for planning the activities of the practicum.

**Requisites:** Declared in Water Resources Management MS or Doctoral Minor

**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

**Repeatable for Credit:** No

**Last Taught:** Fall 2023

URB R PL/CIV ENGR/ENVIR ST 718 – WATER RESOURCES MANAGEMENT PRACTICUM PLANNING SEMINAR II
2 credits.

The second of two seminars for planning the field work, analysis, and reporting of the practicum.

**Requisites:** Declared in Water Resources Management MS or Doctoral Minor

**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

**Repeatable for Credit:** No

**Last Taught:** Spring 2024

URB R PL/CIV ENGR/ENVIR ST 719 – WATER RESOURCES MANAGEMENT SUMMER PRACTICUM
4 credits.

Interdisciplinary team of students and staff working with agency personnel, citizen groups, and/or private sector representatives on the analysis of a contemporary, problem-oriented water resource issue. Physical, biological, economic and social aspects of the issue analyzed. Comprehensive written report results, practicum’s findings and management recommendations.

**Requisites:** URB R PL/CIV ENGR/ENVIR ST 718

**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

**Repeatable for Credit:** Yes, unlimited number of completions

**Last Taught:** Summer 2023
URB R PL/REAL EST 720 – URBAN ECONOMICS
3 credits.
Analysis of spatial relationships in the urban economy, including urban land, labor and housing markets; urban transport; city governance and finance; and regional models. Historical and applied focus. Interdisciplinary approach emphasizing economics, geography, and planning.
Requisites: Graduate standing and (ECON 301 or 311)
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Spring 2024

URB R PL/SOC WORK 721 – METHODS OF PLANNING ANALYSIS
3 credits.
Research methods and statistics used in analyzing planning problems: conceptualization, design, and implementation of planning research; statistical methods for analyzing data including review of inferential statistics, analysis of variance, correlation, and multiple regression; use of computer; review of sources of planning data.
Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Fall 2023

URB R PL 731 – INTRODUCTION TO REGIONAL PLANNING
3 credits.
Broad coverage of regional planning—basic concepts, history, influences of the political, economic, and social environment, techniques of analysis and substantive tasks and problems in preparing regional plans.
Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Fall 2019

URB R PL/ECON/PUB AFFR 734 – REGIONAL ECONOMIC PROBLEM ANALYSIS
3 credits.
Examination of major theories of regional economic development, with special emphasis upon the evolution and amelioration of regional economic problems. Selected techniques of regional analysis, including economic base multipliers, input/output models, and shift-share analysis are used in the context of setting regional development goals.
Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Spring 2022

URB R PL 741 – INTRODUCTION TO PLANNING
3 credits.
Evolution of contemporary urban and regional planning thought. Major conceptual dilemmas in theory and practice. Emerging trends in planning, e.g., forecasting and futurism.
Requisites: Declared in Urban and Regional Planning MS or PhD
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Fall 2021

URB R PL 742 – PLANNING ORIENTATION SEMINAR
1 credit.
Introduction to the field of planning and orientation to graduate study in urban and regional planning at UW-Madison. Explore planning as a tool for problem solving, planning and social change, the multiple roles in which planners find themselves, useful skills and perspectives, and areas of planning practice. Addresses core values, sustainability, equity and social justice, professional skills, and the role of plans in relation to policies and programs.
Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Fall 2023
Learning Outcomes:
1. Explain the purpose and meaning of planning: why planning is undertaken by communities and what impact it is expected to have.
   Audience: Graduate
2. Interpret relationships between past, present, and future in planning.
   Audience: Graduate
3. Recognize and articulate the core values of planning (e.g., equity and social justice, public interest, sustainability, healthy and prosperous communities, diversity, democratic engagement, transparency) and their application in planning practice.
   Audience: Graduate
4. Understand and analyze interconnected roles of officials, stakeholders, and community members in participation and governance for planned change.
   Audience: Graduate
5. Develop capacity and a conceptual foundation for evaluating and critiquing planning process and applications.
   Audience: Graduate
6. Apply sustainability frameworks to analyze challenges and opportunities in urban and regional planning.
   Audience: Graduate
URB R PL 751 – INTRODUCTION TO FINANCIAL PLANNING
3 credits.

State and local financial planning with emphasis on the functional importance of expenditure; special problems in financing city and metropolitan governments; intergovernmental fiscal relations and the use of various budgetary techniques as integral parts of the planning process.

Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Fall 2023

URB R PL 761 – CENTRAL CITY PLANNING: ISSUES AND APPROACHES
3 credits.

Social, economic, environmental, and fiscal trends affecting larger, older American cities, critical policy issues confronting central city decision-makers, and major programmatic responses to these issues; the role of planning in response to these trends and issues.

Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Fall 2020

URB R PL 781 – PLANNING THOUGHT AND PRACTICE
3 credits.

Intensive analysis of selected planning cases highlighting important issues that planners deal with in practice. Examine case studies in the context of broader framework of planning history, decision making process models and planner role models. Explore subnational planning and regional development issues in developing countries.

Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Spring 2024

URB R PL 791 – VISUAL COMMUNICATION FOR PLANNERS
3 credits.

Visual communication in planning addresses the communication of plans - specifically in the form of site plans, master plans, comprehensive plans, illustrative design codes, cartography, analyses maps, among other. Provides a planning and design graphics foundation to help realize the procedures in communication and information management within today's interdisciplinary planning process. Develop skills in graphic communication from techniques currently used in the planning, architecture, engineering, landscape architecture and urban design fields and review several digital graphic representation programs as a means of developing a planning graphics toolkit.

Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Spring 2024

Learning Outcomes:
1. Create visual communication strategies that lead to more focused planning conversations with stakeholders
   Audience: Graduate
2. Organize digital planning tools within multi-team member workflows to efficiently produce exhibits, presentations, and report documents
   Audience: Graduate
3. Transform 2D planning data into 3D models to better convey written policies and their impacts on the physical environment
   Audience: Graduate
4. Integrate emerging technology, such as virtual reality, into public engagement, analysis and planning studies
   Audience: Graduate

URB R PL/ENVIR ST/PUB AFFR 809 – INTRODUCTION TO ENERGY ANALYSIS AND POLICY
3 credits.

Strategy and policy problems in energy policy, both national and international.

Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Fall 2023
**URB R PL/ENVIR ST/PUB AFFR 810 – ENERGY ANALYSIS AND POLICY CAPSTONE**

3 credits.

Interdisciplinary application of energy knowledge to an analysis project for a real-world client. Integrate and apply technical, economic, political, and social factors in energy decision-making.

**Requisites:** Declared in Energy Analysis and Policy Graduate/Professional Certificate or Doctoral Minor

**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

**Repeatable for Credit:** No

**Last Taught:** Spring 2024

**Learning Outcomes:**
1. Conduct an original analysis by collecting and interpreting data on an energy-related issue for a real-world client. Audience: Graduate

2. Integrate and apply multiple disciplinary perspectives such as technical, economic, socio-political, and environmental factors in the context of complex energy problems. Audience: Graduate

3. Prepare for energy-related careers by: planning and managing a project over multiple months; interacting professionally with client; working effectively in multidisciplinary teams; and producing professional-quality deliverables such as presentations and reports in accordance with scope of work. Audience: Graduate

4. Analyze the causes and solutions for the sustainability challenge of affordable and clean energy. Audience: Graduate

5. Analyze sustainability issues and/or practices using a systems-based approach. Audience: Graduate

**URB R PL 814 – ENVIRONMENTAL AND ALTERNATIVE DISPUTE RESOLUTION IN PLANNING**

3 credits.

Principles, methods, and techniques of alternative dispute resolution; characteristics and dynamics of environmental and public policy conflicts; environmental and public policy dispute resolution theory; dispute systems design; applications to planning practice.

**Requisites:** Graduate/professional standing

**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

**Repeatable for Credit:** No

**Last Taught:** Fall 2017

**URB R PL/ENVIR ST 821 – RESOURCES POLICY ISSUES: REGIONAL AND NATIONAL**

2-3 credits.

Resource policy issues frequently faced by local and state governments and the federal government. Emphasis: (1) techniques for analysis of resource issues; (2) methods of collating knowledge from natural and social science disciplines which can make meaningful contributions to resolution of resource issues; (3) identification and analysis of strategic points of decision making in the legislative and executive branches of government; and (4) the application of planning techniques for accomplishing resource goals.

**Requisites:** Graduate/professional standing

**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

**Repeatable for Credit:** Yes, unlimited number of completions

**Last Taught:** Spring 2015

**URB R PL/LAW 830 – LAND USE CONTROLS**

3 credits.

Limitations imposed upon the use of privately owned land by the court-made law of nuisance, by private covenant, and by public action; master plan, official map, subdivision regulation, zoning, and urban redevelopment.

**Requisites:** Graduate/professional standing

**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

**Repeatable for Credit:** No

**Last Taught:** Spring 2024

**URB R PL 833 – PLANNING AND THE LEGAL SYSTEM**

3 credits.

An examination of how the legal system influences community planning. Overview of the institutional framework for planning and the legal authority for tools used to create healthy and sustainable communities.

**Requisites:** Graduate/professional standing

**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

**Repeatable for Credit:** No

**Last Taught:** Spring 2024

**URB R PL 841 – URBAN FUNCTIONS, SPATIAL ORGANIZATION AND ENVIRONMENTAL FORM**

2-3 credits.

Influence of social, economic, and political systems, technological innovations, and architectural concepts on the spatial organization and environmental form of cities and urban areas; the adaptability of urban physical structure to developmental change; planned, conceptual organization and form versus unplanned and ecological organization and form.

**Requisites:** Consent of instructor

**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

**Repeatable for Credit:** No

**Last Taught:** Spring 2023
URB R PL/ENVIR ST 843 – LAND USE POLICY AND PLANNING
3 credits.

Critical evaluation and analysis of land use policies and programs in relation to comprehensive planning and growth management issues in the U.S. The role of legislative and judicial processes and emerging public land use social values and philosophies in the development, regulation, and effectuation of innovative land use policies. Alternative land policy and growth guidance systems of select European countries.

Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Summer 2023

URB R PL 844 – HOUSING AND PUBLIC POLICY
3 credits.

Issues and methodological problems encountered in the production, financial, and consumption sectors of housing program design; comparisons with European and Third World country housing and public policy programs.

Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Spring 2024

URB R PL/ECON 845 – ADVANCED TOPICS IN PUBLIC FINANCE
1-4 credits.

Advanced public finance problems and literature, research; subject changes each semester; may be repeated. Modules.

Requisites: ECON 713 and 714
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Spring 2020

URB R PL/ENVIR ST 865 – WATER RESOURCES INSTITUTIONS AND POLICIES
3 credits.

Governmental processes and policies for water resources management: major substantive problems and issues; political processes of decision making; problems of governmental organization and intergovernmental arrangements.

Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Fall 2022

URB R PL/POLI SCI/PUB AFFR 874 – POLICY-MAKING PROCESS
3 credits.

Examines the political, social, and economic contexts that shape and are shaped by policy making processes. Though the focus is on the US, international comparisons will be made, and students are encouraged to think about the American context through comparative and international perspectives. Familiarizes students with dominant theories and models of policymaking process and policy change, starting with the model of the policy cycle. Focuses in on key topics and issues in policy making, specifically, agenda setting, implementation, and the relationships between policymaking and democracy. Reflects on contemporary and emerging issues and dilemmas of the politics of policy making.

Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Fall 2023

Learning Outcomes:
1. Identify important contextual aspects of policy making processes, of dominant theories, models and conceptual frameworks of policy processes, and of key issues and topics in policy making.

Audience: Graduate

2. Critically analyze theories and evidence presented in readings and describe debates, past and present, surrounding public policy making processes.

Audience: Graduate

3. Read and comprehend academic research, data, and writing as well as journalistic writings on relevant issues of public policy processes and politics.

Audience: Graduate

4. Communicate summaries and analyses of topics, issues and key readings in class discussions, presentations, and writing assignments. Use clear written language and draw on theories, concepts, and evidence to support their arguments and ideas.

Audience: Graduate

5. Maintain fidelity to objective social science-based research methods.

Audience: Graduate

6. Prepare a high-quality presentation and communicate effectively as a speaker.

Audience: Graduate

URB R PL/POLI SCI/PUB AFFR 878 – PUBLIC MANAGEMENT
3 credits.

Role of administration in American government; problems of organization, bureaucracy and control; public policy as the output of the administrative process.

Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Spring 2024
URB R PL/POSI SCI/PUBL AFFR 890 – FEDERAL BUDGET AND TAX POLICY AND ADMINISTRATION
3 credits.

Focuses on national budget and tax policy and administration, and the parallel processes at the state and local levels. Included are discussions of: decision-making theories; budget and tax policy; and analysis of normative and empirical criteria and analytical techniques for assessing alternative policy proposals.

Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Spring 2018

URB R PL 912 – PLANNING WORKSHOP
4 credits.

Selected problems in planning to emphasize the interdisciplinary character of planning practice and to give opportunity to apply socioeconomic analysis, physical planning, and implementation techniques.

Requisites: URB R PL 791
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Fall 2023
Learning Outcomes:
1. Understand and generally appreciate the purpose and meaning of planning, including ideas about planning and the role of planners, and the institutional contexts within which planning occurs
   Audience: Graduate

2. Develop skills in communication, plan creation, planning process methods, and leadership, including methods for stakeholder involvement, project management, facilitation, and public participation techniques
   Audience: Graduate

3. Understand and apply ethical principles to planning in a democratic society and understand key issues of ethical planning practice, including issues of governance and participation
   Audience: Graduate

URB R PL/ENVIR ST 923 – SEMINAR-LAND PROBLEMS: INSTITUTIONAL DEVELOPMENT
2-3 credits.

Land tenure and utilization research and policy problems.

Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Spring 2017

URB R PL/SOC 924 – SEMINAR-POLITICAL SOCIOLOGY
3 credits.

Selected topics in political sociology, e.g., social movements, citizenship, civic engagement, weakening of postwar "social democratic consensus" under financialized globalization pressures.

Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Spring 2024

URB R PL 932 – SEMINAR-RESEARCH REVIEW AND CRITICISM
1-3 credits.

Group consideration of thesis or equivalent projects during their preparation; individual reports on successive stages of work.

Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Spring 2024

URB R PL 945 – SEMINAR IN LAND USE AND COMMUNITY DEVELOPMENT ISSUES
3 credits.

The social, economic, and political setting of urban blight and the current measures, including urban renewal and model cities programs, to cope with the condition. Attention to social change, concept of neighborhood, and cross-cultural perspectives to renewal and community development.

Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Fall 2023

URB R PL/DS/F&W ECOL 955 – PRACTICAL RESEARCH DESIGN AND METHODS OF EMPIRICAL INQUIRY
3 credits.

Provides a practical introduction to basic concepts of research question formulation, research designs and alternative methods of inquiry, implications for internal validity of the research and generalizability of the findings, operational definitions and measurement validity, reliability, utility and precision.

Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Spring 2022
URB R PL/HISTORY/SOC 979 – SEMINAR IN URBAN HISTORY
3 credits.

Causes and consequences of urbanization, stressing social and economic aspects of major population movements, with particular attention to the United States.

Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Fall 2015

URB R PL 990 – RESEARCH AND THESIS
1-5 credits.

Individual mentored research and study for completing theses, as arranged with a faculty member.

Requisites: Consent of instructor
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Spring 2024

URB R PL 999 – INDEPENDENT WORK
1-3 credits.

Independent study as arranged with a faculty member.

Requisites: Consent of instructor
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Spring 2024
