

# ASTRONOMY, PH.D.

## FUNDING

### GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

#### FINANCIAL SUPPORT FOR PHD STUDENTS IN ASTRONOMY

University fellowships or departmental assistantships are offered, contingent on satisfactory progress. The length of guaranteed student support is four continuous years for those with no prior graduate work. Three continuous years of funding are guaranteed for those with one year or more of prior graduate work. It is almost always the case that students remain fully funded through their thesis defense.

Teaching Assistants (TA) assist faculty members in the introductory Astronomy courses, generally by teaching discussion and laboratory sections. A graduate student is required to TA at least one semester. Research Assistants (RA) work with a major professor on a mutually agreed research program.

Tuition is remitted for TA and RA appointments. However, all students must still pay the segregated fees, which are about \$725 per semester for full-time students, and any additional university fees.
