The minor in microbiology requires 10 credits of courses at the 300 level or above offered by the departments of Medical Microbiology and Immunology (M M & I courses (http://guide.wisc.edu/courses/m_m_i/)) or Bacteriology (MICROBIO courses (http://guide.wisc.edu/courses/microbio/)). At least half of the credits must come from the Microbiology Doctoral Training Program (MDTP) course list (http://guide.wisc.edu/graduate/bacteriology/microbiology-phd/#requirementstext). At least one member of the student’s thesis committee must be faculty in either the bacteriology or medical microbiology and immunology departments, and will serve as the student’s minor advisor.

**Faculty:** Professors JD Sauer (program director, Medical Microbiology and Immunology), and Trina McMahon (vice-director, Bacteriology) lead the current MDTP Steering Committee. For a list of more than 90 participating faculty, see the program website (http://www.microbiology.wisc.edu/) or contact the program office.
