

BIOCHEMISTRY, DOCTORAL MINOR

REQUIREMENTS

For a doctoral minor in biochemistry, a doctoral candidate must complete a required course series and earn a total of 9 credits in biochemistry courses.

Code	Title	Credits
Foundation in Biochemistry ¹		
BIOCHEM 507	General Biochemistry I	3
BIOCHEM 508	General Biochemistry II	3
Additional Biochemistry Courses		
Biochemistry coursework as approved by the Examination and Certification Committee (ECC)		3
Total Credits		9

¹

Students with a background in biochemistry may replace this with 6 credits of other Biochemistry coursework with prior approval from the program's Examination and Certification Committee (ECC). Transcripts demonstrating prior undergraduate or graduate coursework must be provided.
