CHEMISTRY, PH.D.

The mission of the Department of Chemistry at the University of Wisconsin–Madison is to conduct world-class, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. Our leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, nanotechnology and chemistry education research. We pride ourselves on our highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The Department of Chemistry is ranked very highly in all recent national rankings of graduate programs. We offer a doctor of philosophy in chemistry. Specializations within the program are analytical, inorganic, materials, organic, physical chemistry, chemical biology as well as chemistry education research. Breadth coursework may be taken in other departments including physics, mathematics, computer sciences, biochemistry, chemical engineering, and in fields other than the student’s specialization within the Department of Chemistry.

Excellent facilities are available for research in a wide variety of specialized fields including synthetic and structural chemistry; natural product and bio-organic chemistry; molecular dynamics and photochemistry; biophysical, bioanalytical, and bioinorganic chemistry; spectroscopy (including magnetic resonance and microwave), theoretical and experimental chemical physics, chemical dynamics, quantum and statistical mechanics; macromolecular and polymer chemistry, materials science, surface and solid-state chemistry; x-ray crystallography, lasers, and light scattering; and chemical education. Programs are assisted by department computing and instrument centers and by other facilities on campus including those of the Division of Information Technology (DoIT).

Information on the research fields of faculty members is available on the chemistry website (http://www.chem.wisc.edu/).

The department offers opportunities for graduate students to obtain teaching experience. Financial assistance is available to most graduate students in the form of teaching or research assistantships, fellowships, or traineeships.

ADMISSIONS

Please consult the table below for key information about this degree program’s admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program’s website.

Graduate admissions is a two-step process between academic programs and the Graduate School. Applicants must meet the minimum requirements (https://grad.wisc.edu/apply/requirements/ of the Graduate School as well as the program(s)).

Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

With few exceptions, students admitted to the Ph.D. program in the Department of Chemistry are guaranteed support for five continuous academic years. The support will be at the level of at least 50% time, and may come from a variety of sources—teaching assistantships, research assistantships, project assistantships, traineeships, and fellowships.
This guarantee requires that you remain a graduate student in good standing in the Ph.D. program in the Department of Chemistry, and that your teaching or other assigned responsibilities are satisfactory.

Currently, graduate students who have at least a 33.4% appointment for a fall or spring term are eligible to receive a full tuition (but not segregated fee) waiver.

Although serving as a teaching assistant is not a requirement of the chemistry department at this time, teaching can be an important part of the graduate training you receive. Most students will serve at least two semesters as a teaching assistant, and many will serve for two years. Whether or not an individual student will be appointed as a teaching assistant, research assistant, trainee or fellow depends on the availability of funding from the major professor, and eligibility for traineeships and fellowships from other sources.

### REQUIREMENTS

### MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (http://guide.wisc.edu/graduate/policiesandrequirementstext), in addition to the program requirements listed below.

### MAJOR REQUIREMENTS

#### MODE OF INSTRUCTION

<table>

**Mode of Instruction Definitions**

**Evening/Weekend:** These programs are offered in an evening and/or weekend format to accommodate working schedules. Enjoy the advantages of on-campus courses and personal connections, while keeping your day job. For more information about the meeting schedule of a specific program, contact the program.

**Online:** These programs are offered primarily online. Many available online programs can be completed almost entirely online with all online programs offering at least 50 percent or more of the program work online. Some online programs have an on-campus component that is often designed to accommodate working schedules. Take advantage of the convenience of online learning while participating in a rich, interactive learning environment. For more information about the online nature of a specific program, contact the program.

**Hybrid:** These programs have innovative curricula that combine on-campus and online formats. Most hybrid programs are completed on-campus with a partial or completely online semester. For more information about the hybrid schedule of a specific program, contact the program.

**Accelerated:** These on-campus programs are offered in an accelerated format that allows you to complete your program in a condensed time-frame. Enjoy the advantages of on-campus courses with minimal disruption to your career. For more information about the accelerated nature of a specific program, contact the program.

### CURRICULAR REQUIREMENTS

**Minimum Credit Requirement**

- 51 credits

### REQUIRED COURSES

**Analytical Chemistry Track**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 621</td>
<td>Instrumental Analysis</td>
<td>3-4</td>
</tr>
<tr>
<td>CHEM 920</td>
<td>Seminar-Analytical Chemistry</td>
<td>0</td>
</tr>
</tbody>
</table>

Select two of the following:

- CHEM 622 Organic Analysis
- CHEM 623 Experimental Spectroscopy
- CHEM 624 Electrochemistry
- CHEM 625 Separations in Chemical Analysis
- CHEM/GENETICS 626 Genomic Science
- CHEM/BMOLCHEM 627 Methods and Technologies for Protein Characterization
- CHEM 628 Chemical Instrumentation: Design and Control Applications
CHEM 630  Selected Topics in Analytical Chemistry

• Every semester until you reach dissertator status, enroll in and attend CHEM 920 Seminar-Analytical Chemistry
• During the spring semester of the second year, complete the written Thesis Background Oral (TBO) and oral defense.
• During the spring semester of the third year, complete the written Research Proposal (RP) and oral defense.
• By May of the fourth year, complete an oral presentation to your thesis committee.

1 These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Chemical Biology Track

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM/BIOCHEM 704</td>
<td>Chemical Biology</td>
<td>3</td>
</tr>
</tbody>
</table>

Select any one of the following for the maximum credits offered:

- CHEM 606  Physical Methods for Structure Determination
- CHEM 621  Instrumental Analysis
- CHEM 622  Organic Analysis
- CHEM/BMOLCHEM 627  Methods and Technologies for Protein Characterization
- CHEM 630  Selected Topics in Analytical Chemistry
- CHEM/BIOCHEM 665  Biophysical Chemistry
- CHEM 668  Biophysical Spectroscopy

• Before January 30 of the second year, submit the written Thesis Preliminary Report; before April 30, present the oral defense.
• At the end of the fall semester of the third year, complete the written Research Proposal; in the first two weeks of January, do the oral defense.
• In May of the fourth year, complete an oral presentation to the thesis committee.

1 These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Inorganic Chemistry Track

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 608</td>
<td>Symmetry, Bonding, and Molecular Shapes</td>
<td>1-3</td>
</tr>
<tr>
<td>CHEM 713</td>
<td>Inorganic and Organometallic Chemistry of the Main Group Elements</td>
<td>1-3</td>
</tr>
<tr>
<td>CHEM 900</td>
<td>Seminar-Inorganic Chemistry</td>
<td>0</td>
</tr>
</tbody>
</table>

Fulfill the minor requirements and at least 2 of the following:

CHEM 606  Physical Methods for Structure Determination
CHEM 613  Chemical Crystallography
CHEM 630  Selected Topics in Analytical Chemistry (Chemistry of Inorganic Materials)
CHEM 714  Organometallic Chemistry of the Transition Elements
CHEM 801  Selected Topics in Inorganic Chemistry

• Every semester until you reach dissertator status, enroll in and attend CHEM 900 Seminar-Inorganic Chemistry
• By January 31 of the second year, complete the written Thesis Background Exam (TBE); complete the oral defense by the end of the spring semester.
• By January 31 of the third year, complete the written Research Proposal (RP); complete the oral defense by the end of the spring semester.
• During spring of the fourth year, complete an oral presentation at the weekly seminar series.

1 These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Materials Chemistry Track

Select three of the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 613</td>
<td>Chemical Crystallography</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 624</td>
<td>Electrochemistry</td>
<td>2-3</td>
</tr>
<tr>
<td>CHEM 630</td>
<td>Selected Topics in Analytical Chemistry</td>
<td>1-3</td>
</tr>
<tr>
<td>CHEM 652</td>
<td>Chemistry of Inorganic Materials</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 653</td>
<td>Chemistry of Nanoscale Materials</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 654</td>
<td>Materials Chemistry of Polymers</td>
<td>2-3</td>
</tr>
<tr>
<td>CHEM 664</td>
<td>Physical Chemistry of Macromolecules</td>
<td>2-3</td>
</tr>
<tr>
<td>CHEM 842</td>
<td>Advanced Organic Chemistry</td>
<td>1-3</td>
</tr>
</tbody>
</table>

• Every semester until you reach dissertator status, enroll in and attend Materials seminars
• During the Spring semester of the second year, complete the written Thesis Preliminary Exam and the oral defense.
• During the Spring semester of the third year, complete the written Research Proposal and the oral defense.
• About 1 year before you are planning on completing the PhD, schedule a thesis planning meeting with your committee.

1 These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.
Organic Chemistry Track

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 641</td>
<td>Advanced Organic Chemistry</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 841</td>
<td>Advanced Organic Chemistry</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 940</td>
<td>Seminar-Organic Chemistry</td>
<td>0</td>
</tr>
</tbody>
</table>

Recommended courses, which may be taken as part of the minor:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 636</td>
<td>Topics in Chemical Instrumentation: Introduction to NMR</td>
<td>2</td>
</tr>
<tr>
<td>CHEM 605</td>
<td>Spectrochemical Measurements</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 860</td>
<td>Materials Chemistry of Polymers</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 662</td>
<td>Biophysical Chemistry</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 682</td>
<td>Biophysical Spectroscopy</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 760</td>
<td>Molecular Reaction Dynamics</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 763</td>
<td>Introduction to Molecular Spectroscopy</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 860</td>
<td>Selected Topics in Physical Chemistry</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 864</td>
<td>Statistical Mechanics</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 872</td>
<td>Selected Topics in Macromolecular and Biophysical Chemistry</td>
<td>2</td>
</tr>
</tbody>
</table>

- Every semester until you reach dissertator status, enroll in and attend CHEM 940 Seminar-Organic Chemistry
- By January 31 of the second year, complete the written Thesis Background Oral (TBO); complete the oral defense by April 30.
- Complete the written Research Proposal (RP) by mid-December; complete the oral defense by mid-January.
- By May of the fourth year, complete an oral presentation to the thesis committee.

1 These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Physical Chemistry Track

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

</tr>
</thead>
<tbody>
<tr>
<td>CHEM 661</td>
<td>Chemical and Statistical Thermodynamics</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 675</td>
<td>Introductory Quantum Chemistry</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 960</td>
<td>Seminar-Physical Chemistry</td>
<td>2</td>
</tr>
</tbody>
</table>

Complete at least 2 credits from the following:

- CHEM 654 Materials Chemistry of Polymers
- CHEM 664 Physical Chemistry of Macromolecules
- CHEM/ BIOCHEM 665 Biophysical Chemistry
- CHEM 668 Biophysical Spectroscopy
- CHEM 762 Molecular Reaction Dynamics
- CHEM 763 Introduction to Molecular Spectroscopy
- CHEM 775 Electronic Structure of Molecules
- CHEM 860 Selected Topics in Physical Chemistry
- CHEM 864 Statistical Mechanics
- CHEM/ BIOCHEM 872 Selected Topics in Macromolecular and Biophysical Chemistry

- Every semester until you reach dissertator status, enroll in and attend CHEM 960 Seminar-Physical Chemistry
- During the Spring semester of the second year, complete the written Thesis Background Oral (TBO) and the oral defense.
- During the Spring semester of the third year, complete the written Research Proposal and oral defense.

- By May of the fourth year, complete an oral presentation to the thesis committee.

1 These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School’s Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 12 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

Up to 7 credits numbered 300 or above from a UW–Madison undergraduate career are allowed to count toward the minimum graduate degree credit requirement; if those 7 credits are numbered 700 or above from a UW–Madison undergraduate career, they are allowed to count toward the minimum graduate coursework requirement. All credits so counted must be over and above the minimum credits that were required by the original undergraduate degree. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count no more than 15 credits of coursework numbered 300 or above taken as a UW–Madison special student toward the residence and degree credit requirements; if those 15 credits of coursework taken as a UW–Madison Special student are numbered 700 or above, they are allowed to count toward the minimum graduate coursework requirement. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. In many cases, an advisor is
assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED
15 credits

TIME CONSTRAINTS
Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may require to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS
These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Dean of Students Office (https://doso.students.wisc.edu/) (for all students to seek grievance assistance and support)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER
All admitted Ph.D. graduate students receive tuition remission and a stipend, guaranteed for 10 semesters, as long as progress to the degree is made.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES
Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES
1. Articulates research problems, potentials, and limits with respect to theory, knowledge, and practice within an area of chemistry.
2. Formulates ideas, concepts, designs, and techniques beyond the current boundaries of knowledge within an area of chemistry.
3. Creates research and scholarship that makes a substantive contribution to an area of chemistry.
4. Demonstrates breadth within their learning experiences.
5. Advances the beneficial societal impacts of research in chemistry.
6. Communicates complex scientific ideas in a clear and understandable manner.
7. Fosters safe, ethical, and professional conduct.
