

CIVIL AND ENVIRONMENTAL ENGINEERING: PROFESSIONAL, M.S.

This is a named option in the Civil and Environmental Engineering M.S. (<https://guide.wisc.edu/graduate/civil-environmental-engineering/civil-environmental-engineering-ms/>) It is one year, face-to face coursework-based program.

The mission of the civil and environmental engineering program is to develop leaders in education, industry, and government who can use their acquired skills to improve society. The academic program provides a comprehensive framework of courses in the broad area of civil and environmental engineering with opportunities to develop specialized expertise. It also emphasizes the development of integrated teamwork abilities, communication, leadership, entrepreneurship, and creative research skills. Graduate study in the department offers an opportunity to take coursework in various areas of specialization. Areas include:

- *Construction engineering and management*: construction labor productivity management; integrated lean project delivery systems; risk management; advanced computer applications to construction; change management
- *Environmental science and engineering*: water supply; water quality; water treatment; wastewater treatment; solid and hazardous waste management; air pollution; biotechnology; alternative energy
- *Geological/geotechnical engineering*: geotechnical and geological engineering; geosynthetics; in-situ testing and engineering geophysics; recycled materials in sustainable construction
- *Structural engineering*: behavior, analysis and design of reinforced/prestressed concrete, steel, and wood structures; design for earthquake and wind loading; seismic rehabilitation
- *Transportation engineering*: highway and traffic engineering; intelligent transportation systems; connected and automated vehicles; transportation planning; infrastructure management; transportation safety; user comprehension and behavior; advanced driving- and micro-simulation; big data
- *Water resources engineering*: analysis, measurement, modeling of currents, flows, and waves in natural and constructed systems; surface and groundwater hydrology; hydraulic engineering; coastal engineering; sedimentation and transport processes; infrastructure impacts of extreme weather events; hydroecology; stream restoration

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	October 1
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g. GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Applicants must first meet all of the requirements of the Graduate School. Please visit this website (<https://grad.wisc.edu/>) for details.

Applicants must also meet department specific requirements as outlined below:

- Have a bachelor's degree in civil and environmental engineering from an ABET-accredited engineering program or from a recognized international institution
- Submit a 1,000 word or fewer statement of purpose; include your technical areas of interest, coursework emphasis, research experience, professional goals, faculty members you are interested in working with, and any other items relevant to your qualifications for graduate school
- Submit three letters of recommendation
- Non-native English speakers must have a Test of English as a Foreign Language (TOEFL) with a score of 580 (written) or 92 (Internet version)

Please do not mail paper copies of application materials. Upload the required application materials to the electronic Graduate School application, including a PDF copy of the most current transcripts. Applicants who are recommended for admission by the CEE Admissions Committee, will receive an e-mail with further instructions from the CEE Graduate Admissions Office, requesting official transcripts or other required application material.

Applicants should monitor the application status by visiting the "Graduate Application Status" window within your MyUW portal (information on this is received after submitting an application). You may need to activate a NetID to gain access to the MyUW portal.

Graduate Application Status will remain "pending" until recommendations are determined. All applicants will receive an e-mail from the CEE Graduate Admissions Team with more details once the admission committees have made decisions.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Students in this program are not eligible for department funded opportunities in the form of teaching assistantship (TA), research assistantship (RA), or project assistantship (PA).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (<http://guide.wisc.edu/graduate/#policiesandrequirements>), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	Yes

CURRICULAR REQUIREMENTS

Requirements	Detail
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	At least 50% of credits (15/30) applied toward the graduate degree credit requirement must be completed in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	There are no degree-specific assessments and examinations outside of those given in individual courses.

Language Requirements n/a

REQUIRED COURSES

This is a face to face, accelerated program:

- Complete the program in one academic year (fall, spring, summer)
- Courses may begin in the fall or spring semester

CORE COURSES:

- At least 15 of the 30 credit hours must be taken within one curriculum path.¹ Please see curriculum paths below
- 21 of the 30 credit hours must be taken in CIV ENGR (https://guide.wisc.edu/courses/civ_engr/) or G L E (https://guide.wisc.edu/courses/g_le/).
- 15 of the 30 credit hours must be at the graduate level (50% attribute).

PROFESSIONAL DEVELOPMENT:

- May enroll in up to 5 credits of CIV ENGR 999 Advanced Independent Study or G L E 999 Independent Work.

ELECTIVE COURSES:

- Up to 2 credit hours of seminar. Please see seminar options listed below.
- Additional electives beyond CIV ENGR 999, G L E 999, and/or seminar(s) may be taken based on your career interests and advisor approval.

Seminars

Code	Title	Credits
CIV ENGR 579	Seminar-Transportation Engineering	1
CIV ENGR 669	Special Topics in Construction Engineering and Management	1-4
G L E 900	Seminar	1
CIV ENGR 909	Graduate Seminar - Environmental Chemistry & Technology	1
CIV ENGR 919	Seminar-Hydraulic Engineering and Fluid Mechanics	1
CIV ENGR 929	Seminar-Environmental Engineering	1
CIV ENGR 939	Geotechnical Engineering Seminar	1
CIV ENGR 949	Seminar-Structural Engineering	1

CURRICULUM PATHS:

Construction Engineering and Management¹

Code	Title	Credits
CIV ENGR 392	Building Information Modeling (BIM)	3
CIV ENGR/G L E 430	Introduction to Slope Stability and Earth Retention	1
CIV ENGR/G L E 432	Introduction to Shallow and Deep Foundation Systems	1
CIV ENGR/G L E 434	Introduction to Underground Openings Engineering	1
CIV ENGR 445	Steel Structures I	3
CIV ENGR 447	Concrete Structures I	3
CIV ENGR 451	Architectural Design	3
CIV ENGR 491	Legal Aspects of Engineering	3

CIV ENGR 492	Integrated Project Estimating and Scheduling	3	CIV ENGR 618	Special Topics in Hydraulics and Fluid Mechanics	1-3
CIV ENGR 494	Civil and Environmental Engineering Decision Making	3	CIV ENGR 619	Special Topics in Hydrology	1-3
CIV ENGR 496	Electrical Systems for Construction	3	CIV ENGR 629	Special Topics in Environmental Engineering	1-3
CIV ENGR 497	Mechanical Systems for Construction	3	CIV ENGR/ M&ENVTOX/ SOIL SCI 631	Toxicants in the Environment: Sources, Distribution, Fate, & Effects	3
CIV ENGR 498	Construction Project Management	3	CIV ENGR 700	Chemistry of Natural Waters	3
CIV ENGR/G L E 532	Foundations	3	CIV ENGR/ ATM OCN 701	The Chemistry of Air Pollution	2
CIV ENGR 545	Steel Structures II	3	CIV ENGR 703	Environmental Geochemistry	3
CIV ENGR 547	Concrete Structures II	3	CIV ENGR 704	Environmental Chemical Kinetics	3
CIV ENGR 575	Advanced Highway Materials and Construction	3	CIV ENGR 716	Statistical Modelling of Hydrologic Systems	3
CIV ENGR 576	Advanced Pavement Design	3	CIV ENGR 721	Biological Principles of Environmental Engineering	3
CIV ENGR 649	Special Topics in Structural Engineering	1-3	CIV ENGR 722	Chemical Principles of Environmental Engineering	3
CIV ENGR 669	Special Topics in Construction Engineering and Management	1-4	CIV ENGR 723	Energy Principles of Environmental Engineering	3
			CIV ENGR 729	Environmental Sustainability Tools	3
			CIV ENGR/G L E 732	Unsaturated Soil Geoengineering	3
			CIV ENGR 820	Hydraulics and Applied Fluid Mechanics for Environmental Engineers	3
			CIV ENGR 821	Environmental Engineering: Biological Treatment Processes	3-4
			CIV ENGR 822	Environmental Engineering: Physical/Chemical Treatment Process	3-4
			CIV ENGR 823	Environmental Engineering Design Project	3

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Environmental Science and Engineering ¹

Code	Title	Credits
CIV ENGR 410	Hydraulic Engineering	3
CIV ENGR 411	Open Channel Hydraulics	3
CIV ENGR 412	Groundwater Hydraulics	3
CIV ENGR 414	Hydrologic Design	3
CIV ENGR 415	Hydrology	3
CIV ENGR 416	Water Resources Systems Analysis	3
CIV ENGR/G L E 421	Environmental Sustainability Engineering	3
CIV ENGR 423	Air Pollution Effects, Measurement and Control	3
CIV ENGR 426	Design of Wastewater Treatment Plants	3
CIV ENGR 427	Solid and Hazardous Wastes Engineering	3
CIV ENGR 428	Water Treatment Plant Design	3
CIV ENGR 429	Environmental Systems Optimization	3
CIV ENGR 494	Civil and Environmental Engineering Decision Making	3
CIV ENGR 500	Water Chemistry	3
CIV ENGR 501	Water Analysis-Intermediate	3
CIV ENGR/G L E 511	Mixing and Transport in the Environment	3
CIV ENGR 514	Coastal Engineering	2-3
CIV ENGR 515	Hydroclimatology for Water Resources Management	3
CIV ENGR 522	Hazardous Waste Management	3
CIV ENGR/G L E 530	Seepage and Slopes	3
CIV ENGR 609	Special Topics in Water Chemistry	1-3
CIV ENGR/G L E 612	Ecohydrology	3

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Geological/Geotechnical Engineering ¹

Code	Title	Credits
G L E 401	Special Topics in Geological Engineering	1-3
CIV ENGR 411	Open Channel Hydraulics	3
CIV ENGR 414	Hydrologic Design	3
CIV ENGR 427	Solid and Hazardous Wastes Engineering	3
CIV ENGR/G L E 430	Introduction to Slope Stability and Earth Retention	1
CIV ENGR/G L E 432	Introduction to Shallow and Deep Foundation Systems	1
CIV ENGR/G L E 434	Introduction to Underground Openings Engineering	1
G L E/CIV ENGR/ GEOSCI/M S & E 474	Rock Mechanics	3
CIV ENGR 514	Coastal Engineering	2-3
CIV ENGR/G L E 530	Seepage and Slopes	3

G L E/CIV ENGR 532	Foundations	3
G L E/GEOSCI 537	Quantitative Methods for Geoscience	3

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

Up to 14 credits of relevant graduate coursework (earned post-baccalaureate) from another institution may count towards fulfillment of the graduate curriculum, if approved by the department. The first 9 credits of approved graduate coursework may count towards elective coursework. If applicable, any remaining prior coursework (beyond 9 credits) may count towards 5 of the 21 CEE /GLE credits, if approved by the faculty advisor. Coursework earned five or more years prior to admission term (start of instruction date) to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

300 level or above from the undergraduate coursework completed at UW–Madison may count toward for up to 7 credits of the 30-credit requirement as approved by the advisor. However, this work would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above. Coursework earned five or more years prior to admission term (start of instruction date) to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count up to 15 credits of coursework numbered 300 or above taken as a UW–Madison special student toward the Minimum Graduate Residence Credit Requirement, and the Minimum Graduate Degree Credit Requirement; those courses numbered 700 or above may be applied toward the Minimum Graduate Coursework (50%) Requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

CEE Grievance Procedures

Students who feel that they have been treated unfairly have the right to a prompt hearing of their grievance. Such complaints may involve course grades, classroom treatment, advising, various forms of harassment, or other issues. Any student or potential student may use these procedures.

• The student should speak first with the person toward whom the grievance is directed. In most cases, grievances can be resolved at this level.

• Should a satisfactory resolution not be achieved, the student should contact the program's Grievance Advisor to discuss the grievance. Currently, the CEE Grievance Advisors are:

Christina Remucal, Professor and Associate Chair for Graduate Programs
remucal@wisc.edu 141 WSEL Phone: (608) 262-1820

William Likos, Professor and CEE Department Chair
likos@wisc.edu 2205 Engineering Hall Phone: (608) 890-2662

If the student prefers to talk with someone outside of the CEE department, contact:

Chris Brace, Assistant Dean

The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

- The Grievance Advisor is responsible for facilitating any complaints or issues of students. The Grievance Advisor first attempts to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment concerns can be found on the UW Office of Compliance website and are included in the next section.
- If the issue is not resolved to the student's satisfaction the student can submit the grievance to the Grievance Advisor in writing, within 60 calendar days of the alleged unfair treatment.
- On receipt of a written complaint, a faculty committee will be convened by the Grievance Advisor to manage the grievance. The program faculty committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.
- The faculty committee will determine a decision regarding the grievance. The Grievance Advisor will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.
- At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the College.
- Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has established policies governing student conduct, academic dishonesty, and sexual and racial harassment. The Graduate School also has procedures for students wishing to appeal a grievance decision made at the college level. These policies are described in the Academic Guidelines.

OTHER

Students in the accelerated MS named options are not eligible for department funded opportunities.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Civil and Environmental Engineering Faculty: Professors Likos (chair), Ahn, Bahia, Cramer, Hanna, Harrington, Hurley, Loheide, McMahon, Noguera, Noyce, Park, Parra-Montesinos, Ran, Russell, Schauer, Wu; Associate Professors Block, Fratta, Ginder-Vogel, Pincheira, Remucal, Tinjum; Assistant Professors Blum, Hampton, Hicks, Prabhakar, Pujara, Qin, Sone, Wang, Wei, Wright, Zhu; M.Eng Program Director Carlson. See also CEE faculty (<http://directory.engr.wisc.edu/cee/faculty/>).

Geological Engineering Faculty: Professors Tinjum (director) (Civil and Environmental Engineering), Feigl (Geoscience), Goodwin (Geoscience), Holloway (Nelson Institute), Likos (Civil and Environmental Engineering), Loheide (Civil and Environmental Engineering), Thurber (Geoscience), Tikoff (Geoscience), Wu (Civil and Environmental Engineering); Associate Professors Cardiff (Geoscience), Fratta (Civil and Environmental Engineering), Ginder-Vogel (Civil and Environmental Engineering); Assistant Professors Hampton (Civil and Environmental Engineering), Hicks (Civil and Environmental Engineering), Sone (Civil and Environmental Engineering), Zoet (Geoscience); Professor of Practice Pakes (Grainger). See also GLE faculty (<https://www.engr.wisc.edu/geological-engineering/people/>).

Environmental Chemistry and Technology: Professors Hurley (director) (Civil and Environmental Engineering), Bertram (Chemistry), Bleam (Soil Science), Harrington (Civil and Environmental Engineering), Karthikeyan (Biological Systems Engineering), McMahon (Civil and Environmental Engineering/Bacteriology), Roden (Geoscience), Root (Chemical and Biological Engineering), Schauer (Civil and Environmental Engineering), Thompson (Biological Systems Engineering); Associate Professors Ginder-Vogel (Civil and Environmental Engineering), Remucal (Civil and Environmental Engineering); Assistant Professors Anantharaman (Bacteriology), Majumder (Bacteriology), Qin (Civil and Environmental Engineering), Wei (Civil and Environmental Engineering), Whitman (Soil Science). See also ECT Faculty (<https://www.engr.wisc.edu/academics/graduate-academics/environmental-chemistry-technology/>).
