1

GENDER AND WOMEN'S STUDIES, PH.D.

LEARNING OUTCOMES

- 1. Demonstrate a broad understanding of major theories, methods, and scholarship in gender and women's studies.
- Develop significant research questions that will advance the contributions of GWS scholarship to society; create individualized research programs that match their specific interests and goals, and that harness the tools from their concentration.
- 3. Acquire the analytical tools to apply gender and women's studies in a range of academic and non-academic careers.
- 4. Demonstrate ethical and professional conduct in research and teaching and with colleagues.
