Admissions to the Post-Professional, OTD named option will be suspended as of fall 2022, and the program will be discontinued as of fall 2024. If you have any questions, please contact the department.

This is a named option within the Occupational Therapy, OTD (http://guide.wisc.edu/graduate/kinesiology/occupational-therapy-otd/).

The post-professional OTD program is a part-time, structured online curriculum serving occupational therapists’ need for distance access and flexibility to acquire advanced practice and leadership skills. The OTD program trains occupational therapists to become visionary leaders, engage in inter-professional education and practice, and facilitate research translation. Students enter as a cohort in the fall semester and complete the program over three years of part-time study. There is an option to complete within two years as well.

The Post-Professional OTD cultivates and grows practitioners interested in pursuit of careers in health care management, education and public service. Students enrolled in the program will already have the professional clinical training necessary for certification and licensure as occupational therapists. Through this curriculum and completion of a capstone project, occupational therapists will expand their knowledge of the health and education delivery systems, the policies influencing transformation of care in these environments and will gain the tools needed to be visionary leaders in interprofessional contexts.
