NUCLEAR ENGINEERING, DOCTORAL MINOR

REQUIREMENTS

REQUIRED COURSES

Students must complete at least 10 credits or four Nuclear Engineering (N E (http://guide.wisc.edu/courses/n_e/)) courses numbered 400 or above, chosen in consultation with advisor. The plan of study must meet the following requirements:

1. Courses must be completed after the bachelor’s degree;
2. Up to one course (maximum of three credits) of independent study (N E 699 Advanced Independent Study, N E 999 Advanced Independent Study) may satisfy minor requirements;
3. Research and thesis courses may not satisfy minor requirements;
4. Courses taken pass/fail or for audit may not be used.
5. Courses with grades of S given in courses graded on a credit/no credit basis are acceptable.
6. A GPA of 3.0 must be maintained for the minor;
7. No more than five credits completed five or more years prior to admission to the doctoral major may be used. Courses taken 10 or more years ago may not be used.

Prior Coursework

A maximum of 6 credits may be transferred from other institutions to satisfy the minor requirements.

A student who has earned an MS degree in nuclear engineering and engineering physics (and is currently in a different doctoral program) will be considered to have fulfilled the minor requirements.
