

NUCLEAR ENGINEERING AND ENGINEERING PHYSICS, PHD

FUNDING

FUNDING

GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information is available from the Graduate School.

Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Offers of financial support from the Department, College and University are in the form of research assistantships, teaching assistantships and fellowships. The funding for research assistantships comes from faculty research grants. Each professor decides on their own research assistantship offers. International applicants must secure a research assistantship, teaching assistantship, project assistantship, fellowship or independent funding before admission is final. Financial support is dependent on availability of funds and students maintaining satisfactory academic progress towards their degree.
