NUTRITIONAL SCIENCES, PH.D.

THE STUDENT EXPERIENCE

Modern nutrition is a multidisciplinary, integrative science, and the Interdepartmental Graduate Program in Nutritional Sciences (IGPNS) has been developed to meet this diversity in approach and objective. It is the program's goal to provide graduate students interested in nutrition with an opportunity to obtain specialized training in a specific research area and also to obtain a general background in the science and practice of nutrition. The program is sufficiently flexible to allow students with a wide variety of undergraduate degrees to meet the background prerequisites. The program draws on the strengths of faculty in a number of the university's colleges and academic departments to enhance the instructional and research experience.

LEARN THROUGH YOUR RESEARCH

The training objectives of IGPNS are to provide students with an understanding of basic nutritional principles as they apply to humans, animals, and molecular models, to provide them with current knowledge in each area of emphasis, to make them aware of the integrative and multidisciplinary nature of nutrition research, and to direct them toward a successful career through the thesis and publications.

Throughout their graduate career, IGPNS students partner with a faculty mentor for in-depth research and career guidance. New PhD students rotate in three different labs during their first semester to find the best research and mentorship fit.

BUILD COMMUNITY AND NETWORKS

The Nutritional Sciences graduate program offers opportunities to work with over 50 faculty members from 19 different departments at UW-Madison. The graduate faculty have well-developed, competitively funded research programs and have been nationally recognized for their activities. They are active in national and international nutrition activities, and serve on editorial boards, as society officers, and as participants in numerous workshops and on advisory committees.

Network within your field(s) by attending international and national conferences and scientific meetings with professional development funds provided to accepted students.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. Applicants must meet the minimum requirements (https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s). Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

GRE (Graduate Record Examinations) | Not required. |

English Proficiency Test | Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency). |

Other Test(s) (e.g., GMAT, MCAT) | n/a |

Letters of Recommendation Required | 3 |

* Students are only directly admitted to begin in the Spring term if they have a mentor pre-arranged. Contact the program with questions.

Candidates for graduate study in nutritional sciences should have a strong background in mathematics, chemistry, biological sciences, medical sciences or social sciences.

Specific prerequisites for the graduate program include the following:

- 2 semesters of General Chemistry
- 2 semesters of Biological Sciences
- 1 semester of Organic Chemistry
- Biochemistry with an Organic Chemistry prerequisite
- 1 semester of Calculus or Statistics
- 1 semester of Physiology

Students who have not completed all the requirements may be admitted, but deficiencies should be made up during the first year of graduate study.

All applicants must have a minimum grade point average of at least 3.0 (on a 4.0 scale) as well as three references and a personal statement. Acceptance requires approval by the Department of Nutritional Sciences and the Graduate School.

* A MS is not required for entry into the Nutritional Sciences PhD degree. Applicants interested in the Nutritional Sciences PhD degree should apply directly through the Nutritional Sciences PhD app, and not submit an application for the Nutritional Sciences MS.

Applicants interested solely in the MS degree are highly recommended to apply for the Fall deadline. MS students who submit an application for the Fall deadline will be required to submit 4-5 trainers in which they are interested in working with. After the Fall deadline passes, the program will share the applications with the trainers to see if a direct offer of admission can be made.
FUNDING

Graduate School Resources

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

Program Resources

IGPNS PhD students receive a 5-year funding guarantee in addition to tuition remission. If incoming students are qualified for additional fellowships/funding, the Graduate Program Manager will assist the accepted student with the application process.

The stipend appointment may take the form of traineeship, research assistantships, or fellowships and are guaranteed for all IGPNS Ph.D. candidates in good standing.

Contingent upon satisfactory academic progress.

Requirements

Minimum Graduate School Requirements

Review the Graduate School minimum academic progress and degree requirements (http://guide.wisc.edu/graduate/#policiesandrequirementstext), in addition to the program requirements listed below.

Major Requirements

Mode of Instruction

Face to Face Evening/Weekend Online Hybrid Accelerated

Yes No No No No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

Electives

Students select 6 credits of electives which may include additional statistics, biochemistry, and advanced topics courses as determined by the thesis committee.

Total Credits | 51
Student should enroll each semester, unless there is a course conflict.

Equivalent experience accepted. Please contact Graduate Program Coordinator.

After enrolling in other coursework, students enroll in enough credits of NUTR SCI 991 to reach a total of 12 credits per fall and spring semesters.

Policies

Graduate School Policies

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

Major-Specific Policies

Prior Coursework

Graduate Work from Other Institutions

With approval of the certification committee, students are allowed to count up to 19 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With approval of the certification committee, students are allowed to count up to 7 credits from a UW–Madison undergraduate degree, numbered 400 and above, toward the Ph.D. degree, provided the course satisfies a requirement within the student's core curriculum or IGPNS emphasis group. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count no more than 15 credits of coursework taken as a UW–Madison Special student, provided the course satisfies a requirement within the student’s core curriculum or IGPNS emphasis group. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

Probation

The IGPNS requires a cumulative 3.0 GPA for all courses taken in the UW Graduate School. Grades in research (NUTR SCI 991 Research Nutrition) are not included in the calculation of the GPA. A student who does not maintain a 3.0 GPA can continue on probationary status for two semesters at the recommendation of the major professor. If, at that time, the student does not achieve a cumulative 3.0 GPA, they will be dropped from the program.

This program follows the Graduate School's Probation policy. (https://policy.wisc.edu/library/UW-1217/)

Advisor / Committee

Every graduate student is required to have an advisor and a committee. PhD students must have a committee of at least four members. Students have time in their first year of study to build their committees. An advisor is a faculty member from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. Students can be suspended from the Graduate School if they do not have an advisor. The Director of Graduate Studies will be assigned as a student’s advisor for the duration of their laboratory rotations.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor and committee on a regular basis.

Credits per Term Allowed

12 credits: fall and spring semesters
2 credits: per eight-week summer session

Time Limits

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

A candidate for a Doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

A student’s program may appeal these time limits through a written request to the Graduate School Office of Academic Services.

Grievances and Appeals

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
  - Dean of Students Office (https://doso.students.wisc.edu/) (for all students to seek grievance assistance and support)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
• Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/)
  (for employed graduate students and post-docs, as well as faculty
  and staff)
• Title IX (https://compliance.wisc.edu/titleix/) (for concerns about
discrimination)

**College of Agricultural and Life Sciences: Grievance Policy**

In the College of Agricultural and Life Sciences (CALS), any student who
feels unfairly treated by a member of the CALS faculty or staff has the
right to complain about the treatment and to receive a prompt hearing.
Some complaints may arise from misunderstandings or communication
breakdowns and be easily resolved; others may require formal action.
Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect
the rights of both the person complaining and the person at whom the
complaint is directed, the following procedures are used in the College
of Agricultural and Life Sciences. Any student, undergraduate or graduate,
may use these procedures, except employees whose complaints are
covered under other campus policies.

1. The student should first talk with the person at whom the complaint
   is directed. Most issues can be settled at this level. Others may be
   resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit
   outside CALS, the student should seek the advice of the dean or
   director of that unit to determine how to proceed.
   a. If the complaint involves an academic department in CALS the
      student should proceed in accordance with item 3 below.
   b. If the grievance involves a unit in CALS that is not an academic
      department, the student should proceed in accordance with item
      4 below.
3. The student should contact the department’s grievance advisor
   within 120 calendar days of the alleged unfair treatment. The
   departmental administrator can provide this person’s name. The
   grievance advisor will attempt to resolve the problem informally
   within 10 working days of receiving the complaint, in discussions with
   the student and the person at whom the complaint is directed.
   a. If informal mediation fails, the student can submit the grievance
      in writing to the grievance advisor within 10 working days of
      the date the student is informed of the failure of the mediation
      attempt by the grievance advisor. The grievance advisor will
      provide a copy to the person at whom the grievance is directed.
   b. The grievance advisor will refer the complaint to a department
      committee that will obtain a written response from the person at
      whom the complaint is directed, providing a copy to the student.
      Either party may request a hearing before the committee. The
      grievance advisor will provide both parties a written decision
      within 20 working days from the date of receipt of the written
      complaint.
   c. If the grievance involves the department chairperson, the
      grievance advisor or a member of the grievance committee, these
      persons may not participate in the review.
   d. If not satisfied with departmental action, either party has 10
      working days from the date of notification of the departmental
      committee action to file a written appeal to the CALS Equity
      and Diversity Committee. A subcommittee of this committee
      will make a preliminary judgement as to whether the case
      merits further investigation and review. If the subcommittee
      unanimously determines that the case does not merit further
      investigation and review, its decision is final. If one or more
      members of the subcommittee determine that the case does
      merit further investigation and review, the subcommittee will
      investigate and seek to resolve the dispute through mediation.
      If this mediation attempt fails, the subcommittee will bring the
      case to the full committee. The committee may seek additional
      information from the parties or hold a hearing. The committee will
      present a written recommendation to the dean who will provide a
      final decision within 20 working days of receipt of the committee
      recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not
   an academic department, the student should, within 120 calendar
days of the alleged incident, take his/her grievance directly to the
Associate Dean of Academic Affairs. The dean will attempt to resolve
the problem informally within 10 working days of receiving the
complaint. If this mediation attempt does not succeed the student
may file a written complaint with the dean who will refer it to the
CALS Equity and Diversity Committee. The committee will seek a
written response from the person at whom the complaint is directed,
subsequently following other steps delineated in item 3d above.

**PROFESSIONAL DEVELOPMENT**

**GRADUATE SCHOOL RESOURCES**

Take advantage of the Graduate School’s professional development
resources (https://grad.wisc.edu/pd/) to build skills, thrive academically,
and launch your career.

**LEARNING OUTCOMES**

1. Articulates research problems, potentials, and limits with respect
to theory, knowledge, and practice in nutritional sciences. Specific
knowledge areas of focus include intermediary metabolism, functions
and metabolism of vitamins and minerals, nutrition-related diseases
such as obesity and diabetes, and fundamental principles of
epidemiology and nutrition policy.
2. Formulates ideas, concepts, designs, and/or techniques beyond the
current boundaries of knowledge in nutritional sciences.
3. Creates original research and scholarship that makes a substantive
contribution to nutritional sciences.
4. Demonstrates breadth of knowledge in nutritional sciences.
5. Advances contributions of the field of nutritional sciences to society.
6. Communicates complex ideas in a clear and understandable manner
through both written and oral presentations.
7. Fosters and practices ethical and professional conduct.

**PEOPLE**

See the program website (https://nutrisci.wisc.edu/people/igpns-faculty/) for a list of faculty trainers.
