

BUSINESS: SUPPLY CHAIN MANAGEMENT, MS

The MS in Supply Chain Management, supported by the Grainger Center for Supply Chain Management, is a one-year program that provides students with an interdisciplinary education combining fundamental knowledge and applied learning experiences. The strategic, cross-functional curriculum takes an integrated business process view of supply chains, including marketing, sourcing, logistics, operations, and customer service. Students connect with and learn from real-world supply chain leaders and are part of a strong, close-knit community. See the program website (<https://business.wisc.edu/graduate/masters/supply-chain/>) for more information.
