Business: Supply Chain Management, MS

## BUSINESS: SUPPLY CHAIN MANAGEMENT, MS

The MS in Supply Chain Management, supported by the Grainger Center for Supply Chain Management, is a one-year program that provides students with an interdisciplinary education combining fundamental knowledge and applied learning experiences. The strategic, crossfunctional curriculum takes an integrated business process view of supply chains, including marketing, sourcing, logistics, operations, and customer service. Students connect with and learn from real-world supply chain leaders and are part of a strong, close-knit community. See the program website (https://business.wisc.edu/graduate/masters/supply-chain/) for more information.
