Graduate students from other fields who wish to pursue a minor in philosophy should consult with the assistant to the chair of the department. Minor candidates are required to take a minimum of three courses in philosophy (http://guide.wisc.edu/courses/philos/) for a total of at least 9 credits. Normally, at least two of these courses, for at least 5 credits, must be taken in residence on campus. Most courses numbered 400 and above are open to minor candidates, as are graduate courses and seminars numbered 800 and above.
