

PHYSICS, PHD

PROFESSIONAL DEVELOPMENT

PROFESSIONAL DEVELOPMENT GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

Students are encouraged to attend Graduate School sponsored Professional Development events and participate in Graduate School Professional Development resources, such as the Individual Development Plan (IDP).

In addition, PhD students in Physics have multiple opportunities for professional development throughout their graduate careers. As an integral part of the research experience, students regularly work at places such as CERN, national laboratories (Argonne, FermiLab), and the IceCube Neutrino observatory at the South Pole to name a few.

Students are encouraged to travel to relevant conferences across the U.S. and around the world. Students regularly attend the annual American Physical Society (APS) March Meeting and are encouraged to attend APS meetings in their sub-field throughout the year. Often students attend summer schools at various host institutions to expand their knowledge and to interact with fellow scientists in the field.
