LANDSCAPE ARCHITECTURE, M.S.

The study of landscape architecture investigates how designers, planners, and restoration and preservation specialists create, conserve, and manage built and natural spaces and outdoor-indoor relationships to support thriving human cultures and communities, and ensure the survival of Earth's complex natural systems. We engage the sciences, arts, and humanities to respond to current issues in cultural, environmental, and natural systems stewardship and management; human health and well-being; and community development.

The MSLA degree offers course work providing an understanding of the scholarship and theories which underlie landscape design, preservation, restoration, and management.

Students then use this information to engage in interdisciplinary scholarship in urban, rural, or natural settings, by writing a thesis that either:

1. Addresses an original research question, or
2. Creates an evidence-based design, restoration, planning or management solution for a complex landscape problem.

Each thesis contributes to the scholarly foundation of the field of landscape architecture and/or provides information to practitioners engaged in landscape decision-making and stewardship.

We currently specialize in two areas: 1) Restoration Ecology and Ecological Design, and 2) Community-Focused Design. We welcome applicants with or without previous training in landscape architecture or related design fields. Graduates move into positions in public agencies and private firms specializing in biological/cultural/historical landscape conservation, ecological restoration, and/or community design and planning. Many also enter Ph.D. programs in related fields to continue working in research and education, or in planning, policy, and environmental law.

ADMISSIONS

Please consult the table below for key information about this degree program’s admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program’s website. Graduate admissions is a two-step process between academic programs and the Graduate School. Applicants must meet the minimum requirements (https://grad.wisc.edu/apply/requirements/of the Graduate School as well as the program(s)).

Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

English Proficiency Test

Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/english-proficiency).

Other Test(s) (e.g., GMAT, MCAT) n/a

Letters of Recommendation Required

3

A bachelor’s degree is required of all prospective candidates. The department’s Graduate Program Committee screens applicants on the basis of university transcripts for all previous work, three letters of recommendation, samples of creative work or writing, and a letter of intent describing how the student’s graduate educational needs can be fulfilled by this program. Every applicant whose native language is not English, or whose undergraduate instruction was not in English, must provide official scores from the Test of English as a Foreign Language (TOEFL). Scores are also acceptable from the Michigan English Language Assessment Battery (MELAB) or the International English Language Testing System (IELTS).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Financial support for graduate students is available through research and teaching assistantships, and competitive Graduate School and departmental fellowships. Most teaching assistantships are awarded to students who already have professional landscape architectural design training and experience.

Mode of Instruction Definitions

Evening/Weekend: These programs are offered in an evening and/or weekend format to accommodate working schedules. Enjoy the advantages of on-campus courses and personal connections, while keeping your day job. For more information about the meeting schedule of a specific program, contact the program.

Online: These programs are offered primarily online. Many available online programs can be completed almost entirely online with all online programs offering at least 50 percent or more of the program work online. Some online programs have an on-campus component that is often designed to accommodate working schedules.

Hybrid: These programs have innovative curricula that combine on-campus and online formats. Most hybrid programs are completed on-campus with a partial or completely online semester. For more information about the hybrid schedule of a specific program, contact the program.

Accelerated: These on-campus programs are offered in an accelerated format that allows you to complete your program in a condensed time-frame. Enjoy the advantages of on-campus courses with minimal disruption to your career. For more information about the accelerated nature of a specific program, contact the program.

**REQUIRED COURSES**

Students pursue either a concentration in community-focused design or restoration ecology and ecological design. All students in the M.S. in Landscape Architecture program complete a common core, while additional courses within their concentration are chosen in consultation with their advisor and advisory committee.

An additional two courses within a focus area that are selected by the student and their advisory committee.

At least 6 credits of Research. Supporting courses, including independent studies, to bring the total minimum to at least 30 credits.

Total Credits 30

1 May substitute a different course in Research Methods if approved by the student’s advisor.
2 Taken over three semesters for 1 credit each time.

**Policies**

**GRADUATE SCHOOL POLICIES**

The Graduate School’s Academic Policies and Procedures (https://grad.wisc.edu/academic-policy/) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

**MAJOR-SPECIFIC POLICIES**

**PRIOR COURSEWORK**

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the graduate degree.

UW–Madison University Special

With program approval, students are allowed to count no more than 15 credits of coursework numbered 300 or above taken as a UW–Madison Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

**PROBATION**

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.
ADVISOR / COMMITTEE
Every graduate student is required to have an advisor. To ensure they are making satisfactory progress toward a degree, the Graduate School expects that students meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED
15 credits

TIME CONSTRAINTS
Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS
These resources may be helpful in addressing your concerns:

* Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
* Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
* Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  * Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
  * Dean of Students Office (https://doso.students.wisc.edu/) (for all students to seek grievance assistance and support)
  * Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
  * Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
  * Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departamental or school/college grievance decisions)
  * Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
  * Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
  * Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
  * Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES
Take advantage of the Graduate School’s professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES
1. Engage critically with the scholarship and theory of landscape architecture.
2. Demonstrate advanced critical thinking and the ability to explore ideas in depth and synthesize information with a high degree of competence.
3. Demonstrate an advanced understanding of landscape spaces, functions, and dynamics, as well as interactions between people and the built and natural environment.
4. Demonstrate a deep understanding of and the ability to critically evaluate the principles, theories, technical skills and recent research findings specific to at least one of the program’s focus areas: Restoration Ecology and Ecological Design and Community and Urban Studies.
5. Design and conduct original research, and communicate the results to scholars as well as to practitioners engaged in landscape decision-making and stewardship.
6. Describe and apply principles of ethical and professional conduct.
