

SPECIAL EDUCATION, DOCTORAL MINOR

Admissions to the Special Education Doctoral Minor have been suspended as of fall 2022 and will be discontinued as of fall 2025. If you have any questions, please contact the department.

The doctoral minor in special education offers students the opportunity to bring a special education focus to doctoral studies in other departments. Special education faculty members prepare students to bring systemic change to educational and community settings in ways that improve access and equity for children and youth with disabilities and their families. Coursework addresses pressing issues in the field including increasing equity across diverse groups of students, improving post-school outcomes for individuals with disabilities, and enhancing teacher efficacy in secondary education methodologies with students with disabilities.
