

PUBLIC HEALTH, MPH

The Master of Public Health (MPH) program provides professional preparation in the core public health competencies to health professionals and students.

The degree provides a practice-oriented approach for those who want to strengthen their general knowledge and skills in public health, either through a single degree or through one of the program's many dual degree programs.

Visit our webpage for more information about the MPH Program and admissions requirements. (<https://www.med.wisc.edu/education/master-of-public-health-mp/>)

LEARNING OUTCOMES

1. Utilize a global health perspective to confront the root causes of less than optimal health and promote wellness for all communities.
2. Engage theory and evidence-based methods to lead multidisciplinary and professional public health practice and research.
3. Employ a socio-ecological model to analyze dynamic interactions among human and social systems.
4. Identify strengths and limitations of current public health models and approaches and design innovative solutions for today's public health challenges.
5. Practice public health with honesty and integrity using a respectful and collaborative approach that responds to the needs of the communities we serve.
