PREREQUISITES

Applicants must have completed two introductory courses, COMP SCI 200 Programming I OR COMP SCI 220 Data Science Programming I, **AND** COMP SCI 300 Programming II for at least three credits and received a grade of "C" or higher in each course, before taking the four courses needed to complete the certificate.

If applicants have not completed these courses, or equivalent coursework or demonstrated sustained professional experience in computer programming, they must complete these two prerequisite courses before enrolling in the Computer Sciences Professional Capstone Certificate Program.

The equivalent of COMP SCI 200/COMP SCI 220 and COMP SCI 300, if taken elsewhere, will be considered for fulfilling the Professional Capstone Certificate Program course prerequisites. In addition, any successful completion of COMP SCI 300 at UW-Madison will also count as a completion of COMP SCI 200/COMP SCI 220. Any applicant with a preliminary Computer Science background that is equivalent to COMP SCI 200/COMP SCI 220 may consider starting with COMP SCI 300 to prepare for the coursework in the certificate program.

Applicants to the Computer Sciences for Professionals program are also recommended to have completed prior Calculus and/or Linear Algebra coursework.
