

# PEDIATRIC PRIMARY CARE NURSING, CAPSTONE CERTIFICATE

The post graduate Pediatric Primary Care Capstone Certificate is a hybrid program designed for advanced practice nurse practitioners seeking to expand their scope of practice by adding pediatric primary care licensure. Targeting practitioners in fields such as pediatric acute care, neonatal acute care, adult/geriatric primary care, and acute care, this program addresses a growing demand for pediatric primary care providers, particularly in family clinics, emergency departments, rural settings, and hospital-based care. The program helps bridge the gap in pediatric primary care education, filling critical roles in a rapidly expanding job market. The curriculum includes specialized courses focusing on advanced practice nursing for pediatric populations, and the program is designed to enhance clinical leadership and decision-making skills. Upon completion, advanced practice nurses will be dual-certified, better equipped to meet the increasing healthcare needs within various communities.

## HOW TO GET IN

### HOW TO GET IN

The School of Nursing conducts a holistic review of all application materials. Regardless of experience level, ideal candidates possess a desire to improve their ability to deliver complex care and expand their knowledge and understanding of the specialty. The program seeks candidates who are committed to providing care to underserved populations in need of services. Since the program requires a significant time expenditure for clinical training and coursework, candidates must understand these demands and indicate they are prepared to make time in their schedules accordingly.

### PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (<https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1>)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.
