INTENSIVE MULTILANGUAGE SEMINAR

The Wisconsin Intensive Summer Languages Institutes (https://wisli.wisc.edu/) (WISLI) hosts the online Intensive Summer Multilanguage Seminar (MULTI) program (https://multilanguage.wisc.edu/). A program for advanced language learners and the study of rare languages, MULTI supports students to engage in online, performance-based self-instructional language study of a less commonly taught language (LCTL). The target audience for this program includes:

- 1. Students who have achieved such an advanced language proficiency that traditional programs no longer serve their learning needs, or
- 2. Students who are studying extremely rare languages that are otherwise not offered in the classroom

This program is intended to complement existing summer language programs; as such, students who are eligible to enroll in a traditional language program are **not** competitive candidates for the Intensive Summer Multilanguage Seminar.
