

MEDICAL PHYSICS THEMATIC TRACK

The Department of Medical Physics invites international students to take courses within their department through the MP-VISP Thematic Track program (<https://visp.wisc.edu/thematic-medphys/>). Students will take a core set of courses for 23–24 credits during the final year of their undergraduate degree.

Applicants must be enrolled in an undergraduate physics major or applied physics disciplines and have completed specific coursework found on the track's webpage (<https://visp.wisc.edu/thematic-medphys/>).

Students will only be admitted to start the program in the fall semester and must enroll in both the fall and spring semesters.
