Microbiology Courses

Microbiology Core (all required):

Except where noted, all Microbiology Core courses are offered every fall and spring semester.

MICROBIO 303	Biology of Microorganisms	3
MICROBIO 304	Biology of Microorganisms Laboratory	2
MICROBIO 305	Critical Analyses in Microbiology	1
MICROBIO 450	Diversity, Ecology and Evolution of Microorganisms	2
MICROBIO 470	Microbial Genetics & Molecular Machines	3
MICROBIO 526	Physiology of Microorganisms	3
MICROBIO 527	Advanced Laboratory Techniques in Microbiology (Note: fall only)	2

Microbiology Capstone (required):

MICROBIO 551	Capstone Research Project in Microbiology (Note: spring only)	2
--------------	--	---

Microbiology Electives:

Select at least 6 credits; at least 3 credits must come from Set A. Note that not all elective courses are offered every semester.

Set A:

MICROBIO/ FOOD SCI 324	Food Microbiology Laboratory	2
MICROBIO/ FOOD SCI 325	Food Microbiology	3

MICROBIO 330	Host-Parasite Interactions	3
MICROBIO 375	Special Topics (topics and pre- requisites vary by semester)	1-4
MICROBIO/ SOIL SCI 425	Environmental Microbiology	3
MICROBIO/ SOIL SCI 523	Soil Microbiology and Biochemistry	3
MICROBIO/ ONCOLOGY 545	Topics in Biotechnology (topics vary by semester)	1
MICROBIO/ GENETICS 607	Advanced Microbial Genetics	3
MICROBIO/ BIOCHEM/ GENETICS 612	Prokaryotic Molecular Biology	3
MICROBIO 632	Industrial Microbiology/ Biotechnology	2
MICROBIO/ ONCOLOGY/ PL PATH 640	General Virology-Multiplication of Viruses	3
MICROBIO/BOTANY/ GENETICS/M M & I/ PL PATH 655	Biology and Genetics of Filamentous Fungi	3
Set B:		
BIOCHEM/ M M & I 575	Biology of Viruses	2
BIOCHEM 601	Protein and Enzyme Structure and Function	2
BOTANY 330	Algae	3
BOTANY/ PL PATH 332	Fungi	4
BOTANY/ENTOM/ PL PATH 505	Plant-Microbe Interactions: Molecular and Ecological Aspects	3
CHEM 565	Biophysical Chemistry	4
COMP SCI/B M I 576	Introduction to Bioinformatics	3
F&W ECOL/ SURG SCI 548	Diseases of Wildlife	3
M M & I 301	Pathogenic Bacteriology	2
M M & I 341	Immunology	3
M M & I/ENTOM/ PATH-BIO/ ZOOLOGY 350	Parasitology	3
M M & I 410	Medical Mycology	2
M M & I 554	Emerging Infectious Diseases and Bioterrorism	2
M M & I/ BIOCHEM 575	Biology of Viruses	2
M M & I/ POP HLTH 603	Clinical and Public Health Microbiology	5
MICROBIO/M M & I/ PATH-BIO 528	Immunology	3

L&S RESIDENCE AND QUALITY OF WORK

2.000 GPA in all MICROBIO courses and courses counting toward the major

2.000 GPA on 15 upper-level major credits, in residence¹

15 credits of MICROBIO or courses counting toward the major, taken on campus

- ¹ MICROBIO 300 through 699 count as upper level in the major, excluding MICROBIO 303 and MICROBIO 304. Intermediate- and advanced-level courses outside of MICROBIO that count for the major are also considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Microbiology Major in consultation with the Microbiology undergraduate advisor.

HONORS IN THE MICROBIOLOGY MAJOR REQUIREMENTS

To earn the B.A. or B.S. with Honors in the Major in Microbiology students must satisfy both the requirements for the major (above) and the following requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all MICROBIO courses, and all courses accepted in the major
- Complete 15 credits, taken for Honors, with individual grades of B or better. 6 credits must come from a two-semester Senior Honors Thesis in MICROBIO 681 Senior Honors Thesis and MICROBIO 682 Senior Honors Thesis. Select remaining courses from the following list:

Code	Title	Credits
MICROBIO 303	Biology of Microorganisms	3
MICROBIO 304	Biology of Microorganisms Laboratory	2
MICROBIO 330	Host-Parasite Interactions	3
MICROBIO/ SOIL SCI 425	Environmental Microbiology	3
MICROBIO 450	Diversity, Ecology and Evolution of Microorganisms	2
MICROBIO 470	Microbial Genetics & Molecular Machines	3
MICROBIO 526	Physiology of Microorganisms	3
MICROBIO/M M & I/ PATH-BIO 528	Immunology	3
MICROBIO/ GENETICS 607	Advanced Microbial Genetics	3
MICROBIO/ BIOCHEM/ GENETICS 612	Prokaryotic Molecular Biology	3
MICROBIO/ PL PATH 622	Plant-Bacterial Interactions	2-3
MICROBIO 632	Industrial Microbiology/ Biotechnology	2
MICROBIO/ ONCOLOGY/ PL PATH 640	General Virology-Multiplication of Viruses	3
MICROBIO/ FOOD SCI 650	Advanced Microbiology of Foodborne Pathogens	3
MICROBIO/ BMOLCHEM 668	Microbiology at Atomic Resolution	3

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Students will develop a fundamental understanding of the principles of microbiology and the necessary skills for a professional career in microbiology.
2. Students will apply the scientific method to questions. They will formulate a hypothesis, gather data, and analyze that data to assess the degree to which their work supports the hypothesis.
3. Students will demonstrate proficiency in the techniques used in microbiology and an ability to critically analyze data and integrate ideas for problem solving.
4. Students will be able to access the primary and secondary literature and, in combination with their own findings, effectively communicate their ideas both orally and in written form.
5. Students will learn about and demonstrate personal and professional ethics.

ADVISING AND CAREERS

Current UW–Madison students can schedule initial advising (<https://calendar.wisc.edu/scheduling-assistant/schedule/RAUHTzYt/view.html>) in the microbiology major with Katy France.

Prospective/future UW–Madison students should email (katy.france@wisc.edu) Katy France to set up an appointment, which can be conducted in person or via phone call.

Read about and explore possible microbiology careers at the American Society for Microbiology (<https://www.asm.org/index.php/learn-about-careers>) website.

Learn more about health-related careers through the ExploreHealthCareers.org (<https://explorehealthcareers.org>) website.

BIOCHEMISTRY

Biochemistry is a very broad science that studies the molecules and chemistry of life. Biochemistry focuses on the structure, properties, and interactions of molecules such as proteins, nucleic acids, sugars and lipids. Biochemistry's aim is to understand how these molecules participate in the processes that support the various functions of the living cell. These studies are therefore essential for understanding disease and finding cures, for improving agriculture and the production of food and biofuels, and to produce innovation in biotechnology.

Whereas other biological science majors may focus on cellular, organismal or population level biology, biochemistry focuses on processes that occur at the molecular to cellular levels. Therefore, this major has a greater focus on basic and quantitative sciences, such as math and, particularly, on chemistry.

Biochemistry graduates go on to a variety of careers in science and science-related fields. The major is designed to fit the needs of the student who wishes to achieve bachelor's level training as well as those planning to pursue graduate or professional study. The degree serves as an excellent background for medical school or veterinary school admission, as well as for graduate study in biochemistry or other allied fields (biology, bacteriology, genetics, molecular biology, or oncology).

BIOCHEMISTRY, B.A. (L&S)

Biochemistry is a very broad science that studies the molecules and chemistry of life. Biochemistry focuses on the structure, properties, and interactions of molecules such as proteins, nucleic acids, sugars and lipids. Biochemistry's aim is to understand how these molecules participate in the processes that support the various functions of the living cell. These studies are therefore essential for understanding disease and finding cures, for improving agriculture and the production of food and biofuels, and to produce innovation in biotechnology.

Whereas other biological science majors may focus on cellular, organismal or population level biology, biochemistry focuses on processes that occur at the molecular to cellular levels. Therefore, this major has a greater focus on basic and quantitative sciences, such as math and, particularly, on chemistry.

Biochemistry graduates go on to a variety of careers in science and science-related fields. The major is designed to fit the needs of the student who wishes to achieve bachelor's level training as well as those planning to pursue graduate or professional study. The degree serves as an excellent background for medical school or veterinary school admission, as well as for graduate study in biochemistry or other allied fields (biology, bacteriology, genetics, molecular biology, or oncology).

HOW TO GET IN

Students who have completed a semester or more on campus must have a 2.5 previous semester GPA in order to declare or transfer into the major. Students may declare the major via an appointment with the undergraduate advisor.

Students who attend Student Orientation, Advising, and Registration (SOAR) with the College of Agricultural and Life Sciences (CALs) have the option to declare Biochemistry at SOAR. Students may otherwise declare after they have begun their undergraduate studies. The biochemistry major is offered through either CALs or the College of Letters & Science (L&S). Students interested in the differences or transferring between CALs and L&S should meet with the advisor to discuss this in more detail. Students in other schools/colleges (Business, Education, Engineering, etc.) may add biochemistry as an additional major with permission of their home school/college.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree

requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	<ul style="list-style-type: none"> Complete the fourth unit of a foreign language; OR Complete the third unit of a foreign language and the second unit of an additional foreign language <p>Note: A unit is one year of high school work or one semester/term of college work.</p>
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall
Minimum GPAs	30 credits in residence after the 90th credit
	2.000 in all coursework at UW–Madison
	2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR MATHEMATICS

Code	Title	Credits
Select one of the following options:		
MATH 221 & MATH 222	Calculus and Analytic Geometry 1 and Calculus and Analytic Geometry 2	9
MATH 171 & MATH 217 & MATH 222	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2	14

MATH 275 & MATH 276	Topics in Calculus I and Topics in Calculus II	10
------------------------	---	----

CHEMISTRY

General Chemistry

Code	Title	Credits
Select one of the following options:		
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	9
CHEM 109	Advanced General Chemistry	5
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II (satisfies both general and analytical chemistry requirements)	10

Organic Chemistry

Code	Title	Credits
Select ALL of the following courses:		
CHEM 343	Introductory Organic Chemistry	3
CHEM 345	Intermediate Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2

Analytical Chemistry

Code	Title	Credits
Select one of the following options:		
CHEM 327	Fundamentals of Analytical Science	4
CHEM 329	Fundamentals of Analytical Science	4
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II (satisfies both general and analytical chemistry requirements)	10

Physical Chemistry

Code	Title	Credits
Must complete 4 credits of physical chemistry. Select one of the following options:		
CHEM 565	Biophysical Chemistry (recommended)	4
CHEM 561 & CHEM 563	Physical Chemistry and Physical Chemistry Laboratory	4-5

BIOLOGY

Students must complete either Option A (introductory + upper-level biology), or Option B (Biocore), for 16 total credits of biological science coursework.

Option A (Introductory + Upper-Level Biology)

Option A Introductory Biology

Code	Title	Credits
Select one of the following introductory biology options:		

BIOLOGY/BOTANY/ ZOOLOGY 151 & BIOLOGY/BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology (recommended)	10
BIOLOGY/ ZOOLOGY 101 & BIOLOGY/ ZOOLOGY 102 & BOTANY/ BIOLOGY 130	Animal Biology and Animal Biology Laboratory and General Botany	10

AND Option A Upper-Level Biology

At least 6 credits of upper-level biological science coursework are required (to achieve 16 total credits—more than 6 credits may be required if introductory biology totals less than 10 credits due to transfer credits). Select from the course list below. To see courses offered in specific upcoming semesters, please see the Biochemistry website (https://biochem.wisc.edu/undergraduate_program/advanced-biology-courses-undergraduate-program).

Important: Biochemistry courses on this list can count only for "upper-level biology" if they are above-and-beyond what is needed to fulfill the "biochemistry" portion of the major. For example, if students have taken BIOCHEM 501, they will need one upper-level biochemistry elective to fulfill the biochemistry requirement, and then any additional biochemistry courses taken can count for upper-level biology. A course may not double count in both the "upper-level biology" and the "biochemistry" requirements for the major.

Option B (Biocore)

Biocore is an honors-level, integrated sequence of lecture and lab courses that covers introductory and intermediate biology topics. Students must apply to and be accepted to the program to take Biocore classes.

Code	Title	Credits
Select ALL of the following lecture courses:		
BIOCORE 381	Evolution, Ecology, and Genetics	3
BIOCORE 383	Cellular Biology	3
BIOCORE 485	Organismal Biology	3
BIOCORE 587	Biological Interactions	3
AND, select two of the following lab classes:		
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	2

BIOCORE 384	Cellular Biology Laboratory	2
BIOCORE 486	Organismal Biology Laboratory	2

PHYSICS (CALCULUS-BASED)

Code	Title	Credits
------	-------	---------

Select one of the following options (students should consult with advisor if they have credit for PHYSICS 103 and/or 104 to discuss options):

PHYSICS 207 & PHYSICS 208	General Physics and General Physics (recommended)	10
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	10

BIOCHEMISTRY

One set of introductory coursework **and** the capstone course are required, for a total of **three** BIOCHEM courses.

Introductory Courses

Code	Title	Credits
------	-------	---------

Select one of the following options:

BIOCHEM 507 & BIOCHEM 508	General Biochemistry I and General Biochemistry II (recommended)	6
------------------------------	--	---

OR

BIOCHEM 501	Introduction to Biochemistry	3
-------------	------------------------------	---

AND one of the following upper-level biochemistry electives:

BIOCHEM/ NUTR SCI 510	Biochemical Principles of Human and Animal Nutrition	
BIOCHEM 550	Topics in Medical Biochemistry	
BIOCHEM/ M M & I 575	Biology of Viruses	
BIOCHEM 601	Protein and Enzyme Structure and Function	
BIOCHEM/B M I/ BMOLCHEM/ MATH 606	Mathematical Methods for Structural Biology	
BIOCHEM/B M I/ BMOLCHEM/ MATH 609	Mathematical Methods for Systems Biology	
BIOCHEM/ GENETICS/ MICROBIO 612	Prokaryotic Molecular Biology	
BIOCHEM/ GENETICS/ MD GENET 620	Eukaryotic Molecular Biology	
BIOCHEM/ BOTANY 621	Plant Biochemistry	
BIOCHEM 625	Mechanisms of Action of Vitamins and Minerals	
BIOCHEM/ PHMCOL-M/ ZOOLOGY 630	Cellular Signal Transduction Mechanisms	
BIOCHEM/ NUTR SCI 645	Molecular Control of Metabolism and Metabolic Disease	

Capstone Course (required)

Code	Title	Credits
BIOCHEM 551	Biochemical Methods	4

RESIDENCE AND QUALITY OF WORK REQUIREMENTS (AT TIME OF GRADUATION)

- 2.000 GPA in all BIOCHEM and major courses
- 2.000 GPA in at least 15 upper-level major credits in residence (credits taken on campus at UW–Madison or UW–Madison-sponsored study abroad programs). Upper-level major credits are defined as coursework higher than the 300 level that could fulfill major requirements.
- 15 credits in the major/BIOCHEM taken on campus

RECOMMENDED COURSES

First-year students interested in exploring the major can enroll in Biochemistry Freshman Seminar (BIOCHEM 100). Additional courses in MATH, BIOLOGY, CHEM, BIOCHEM, STAT, and COMP SCI are common elective courses, depending on the student's areas of interest and future career goals.

HONORS IN THE MAJOR

Students may declare Honors in the Biochemistry Major in consultation with the Biochemistry undergraduate advisor. To be admitted to the Honors Program in Biochemistry, students must have declared a major in Biochemistry and achieved a 3.300 overall university GPA.

HONORS IN THE BIOCHEMISTRY MAJOR REQUIREMENTS

To earn a B.A. or a B.S. with Honors in the Major in Biochemistry students must satisfy both the requirements for the major (above) and the following additional requirements:

- 3.300 overall university GPA
- 3.300 GPA in courses designated as biological, physical, or natural science breadth
- Complete two biological science courses for Honors chosen from the list of courses (below) that can fulfill the biological science requirements for the major (introductory biology, upper-level biology, or Biocore)
- Complete **BIOCHEM 507 General Biochemistry I** and **BIOCHEM 508 General Biochemistry II** for Honors. This is in addition to the biological and physical science Honors requirements above.
- Complete a two-semester Senior Honors Thesis in BIOCHEM 681 Senior Honors Thesis and BIOCHEM 682 Senior Honors Thesis, for a total of 6 credits. Students seeking to complete this requirement in a related department, such as chemistry, must seek approval from the undergraduate biochemistry advisor.
- Complete at least 20 credits, taken for Honors, from the following list:

Math

Code	Title	Credits
MATH 275	Topics in Calculus I	5
MATH 276	Topics in Calculus II	5
MATH 341	Linear Algebra	3
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	5

MATH 376	Topics in Multi-Variable Calculus and Differential Equations	5
MATH 521	Analysis I	3
MATH 522	Analysis II	3
MATH 541	Modern Algebra	3
MATH 542	Modern Algebra	3

Chemistry

Code	Title	Credits
CHEM 109	Advanced General Chemistry	5
CHEM 115	Chemical Principles I	5
CHEM 116	Chemical Principles II	5
CHEM 343	Introductory Organic Chemistry	3
CHEM 345	Intermediate Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 329	Fundamentals of Analytical Science	4
CHEM 547	Advanced Organic Chemistry	3
CHEM 561	Physical Chemistry	3
CHEM 565	Biophysical Chemistry	4
CHEM 563	Physical Chemistry Laboratory	1-2
CHEM 562	Physical Chemistry	3
CHEM 564	Physical Chemistry Laboratory	1

Physics

Code	Title	Credits
PHYSICS 201	General Physics	5
PHYSICS 202	General Physics	5
PHYSICS 207	General Physics	5
PHYSICS 208	General Physics	5
PHYSICS 241	Introduction to Modern Physics	3
PHYSICS 247	A Modern Introduction to Physics	5
PHYSICS 249	A Modern Introduction to Physics	4

Statistics

Code	Title	Credits
STAT 301	Introduction to Statistical Methods	3
STAT 371	Introductory Applied Statistics for the Life Sciences	3

UNIVERSITY DEGREE REQUIREMENTS**Requirements Detail**

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

Clagett-Dame, Margaret
Cox, Mike
Craig, Elizabeth
Fox, Brian (Chair)
Friesen, Paul
Hayes, Colleen
Holden, Hazel
Kimble, Judith
Landick, Bob
Markley, John
Martin, Tom
Mitchell, Julie
Ntambi, James
Palmenberg, Ann
Pike, Wes
Ralph, John
Rayment, Ivan
Record, Tom
Sussman, Mike
Weibel, Doug
Wickens, Marv

LEARNING OUTCOMES

1. Identify the fundamental biochemical principles that underlie all biological processes.
2. Communicate biochemical knowledge in both written reports and oral presentations to scientists and non-scientists.
3. Evaluate how biochemistry relates to other scientific disciplines and to contemporary issues in our society.
4. Demonstrate professional and ethical responsibility in scientific research.
5. Design and conduct quantitative experiments and/or interpret data to address a scientific question.

ADVISING AND CAREERS

HOW TO SEEK ADVISING

- To schedule an appointment with the advisor, use the Scheduling Assistant.
- Email (undergradadvisor@biochem.wisc.edu) with brief questions.
- Drop-in advising hours for quick (10-15 minute) questions, on a first-come, first-serve basis, are posted on the Biochemistry website (https://biochem.wisc.edu/undergraduate_program/advising-information-undergraduate-program) each semester.

CAREER EXAMPLES

- Take your skills to a rewarding career in product development, quality control, hospitals, biotechnology, university labs, pharmaceuticals, forensics, and more. Possibilities at top organizations and leading companies include positions such as protein purification scientist, lab manager, medical scribe, clinical research coordinator, and food safety and quality chemist.
- Pursue a professional degree in medical, dental, or veterinary school, using your background in biochemistry to aid your admission and success.
- Build on your research experience and continue graduate studies in biochemistry or a related field to shape a career in academia as a professor or in industry.
- Use your science background to inform patent law, science policy and ethics, sales and marketing for science and technology companies, scientific article publishing, and related fields.

WISCONSIN EXPERIENCE

The following opportunities can help students connect with other students interested in biochemistry, build relationships with faculty and staff, and contribute to out-of-classroom learning:

- The American Society for Biochemistry and Molecular Biology (ASBMB) UW-Madison Student Chapter (<https://win.wisc.edu/organization/ASBMB>) is a student organization for students interested in biochemistry. ASBMB provides information about careers and job opportunities, how to get involved in research, and volunteer and outreach opportunities.
- Several biochemistry faculty members offer experiential study abroad programs, where students can immerse themselves in research or global health field experiences. Students can review the Biochemistry Major Advising Page (https://www.studyabroad.wisc.edu/map_biochem.asp) on the International Academic Programs website for information on these and other programs, as well as requirements

that can typically be fulfilled abroad and things to consider when fitting study abroad into an academic plan.

- Students are encouraged to get involved in research, whether in the biochemistry department or through other life science or chemistry-related departments. Research can be performed for either course credit or pay, depending on the opportunity. The Biochemistry website (https://biochem.wisc.edu/undergraduate_program/research-opportunities-undergraduate-program) and the advisor can provide more information on finding research opportunities. Summer funding awards for research are available through the department.

BIOCHEMISTRY, B.S. (L&S)

Biochemistry is a very broad science that studies the molecules and chemistry of life. Biochemistry focuses on the structure, properties, and interactions of molecules such as proteins, nucleic acids, sugars and lipids. Biochemistry's aim is to understand how these molecules participate in the processes that support the various functions of the living cell. These studies are therefore essential for understanding disease and finding cures, for improving agriculture and the production of food and biofuels, and to produce innovation in biotechnology.

Whereas other biological science majors may focus on cellular, organismal or population level biology, biochemistry focuses on processes that occur at the molecular to cellular levels. Therefore, this major has a greater focus on basic and quantitative sciences, such as math and, particularly, on chemistry.

Biochemistry graduates go on to a variety of careers in science and science-related fields. The major is designed to fit the needs of the student who wishes to achieve bachelor's level training as well as those planning to pursue graduate or professional study. The degree serves as an excellent background for medical school or veterinary school admission, as well as for graduate study in biochemistry or other allied fields (biology, bacteriology, genetics, molecular biology, or oncology).

HOW TO GET IN

Students who have completed a semester or more on campus must have a 2.5 previous semester GPA in order to declare or transfer into the major. Students may declare the major via an appointment with the undergraduate advisor.

Students who attend Student Orientation, Advising, and Registration (SOAR) with the College of Agricultural and Life Sciences (CAL S) have the option to declare Biochemistry at SOAR. Students may otherwise declare after they have begun their undergraduate studies. The biochemistry major is offered through either CAL S or the College of Letters & Science (L&S). Students interested in the differences or transferring between CAL S and L&S should meet with the advisor to discuss this in more detail. Students in other schools/colleges (Business, Education, Engineering, etc.) may add biochemistry as an additional major with permission of their home school/college.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR MATHEMATICS

Code	Title	Credits
Select one of the following options:		
MATH 221 & MATH 222	Calculus and Analytic Geometry 1 and Calculus and Analytic Geometry 2	9
MATH 171 & MATH 217 & MATH 222	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2	14
MATH 275 & MATH 276	Topics in Calculus I and Topics in Calculus II	10

CHEMISTRY

General Chemistry

Code	Title	Credits
Select one of the following options:		
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	9
CHEM 109	Advanced General Chemistry	5
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II (satisfies both general and analytical chemistry requirements)	10

Organic Chemistry

Code	Title	Credits
Select ALL of the following courses:		
CHEM 343	Introductory Organic Chemistry	3
CHEM 345	Intermediate Organic Chemistry	3

CHEM 344	Introductory Organic Chemistry Laboratory	2
----------	---	---

Analytical Chemistry

Code	Title	Credits
Select one of the following options:		
CHEM 327	Fundamentals of Analytical Science	4
CHEM 329	Fundamentals of Analytical Science	4
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II (satisfies both general and analytical chemistry requirements)	10

Physical Chemistry

Code	Title	Credits
Must complete 4 credits of physical chemistry. Select one of the following options:		
CHEM 565	Biophysical Chemistry (recommended)	4
CHEM 561 & CHEM 563	Physical Chemistry and Physical Chemistry Laboratory	4-5

BIOLOGY

Students must complete either Option A (introductory + upper-level biology), or Option B (Biocore), for 16 total credits of biological science coursework.

Option A (Introductory + Upper-Level Biology) Option A Introductory Biology

Code	Title	Credits
Select one of the following introductory biology options:		
BIOLOGY/BOTANY/ ZOOLOGY 151 & BIOLOGY/BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology (recommended)	10
BIOLOGY/ ZOOLOGY 101 & BIOLOGY/ ZOOLOGY 102 & BOTANY/ BIOLOGY 130	Animal Biology and Animal Biology Laboratory and General Botany	10

AND Option A Upper-Level Biology

At least 6 credits of upper-level biological science coursework are required (to achieve 16 total credits—more than 6 credits may be required if introductory biology totals less than 10 credits due to transfer credits). Select from the course list below. To see courses offered in specific upcoming semesters, please see the Biochemistry website (https://biochem.wisc.edu/undergraduate_program/advanced-biology-courses-undergraduate-program).

Important: Biochemistry courses on this list can count only for "upper-level biology" if they are above-and-beyond what is needed to fulfill the "biochemistry" portion of the major. For example, if students have taken BIOCHEM 501, they will need one upper-level biochemistry elective to fulfill the biochemistry requirement, and then any additional biochemistry courses

taken can count for upper-level biology. A course may not double count in both the "upper-level biology" and the "biochemistry" requirements for the major.

Option B (Biocore)

Biocore is an honors-level, integrated sequence of lecture and lab courses that covers introductory and intermediate biology topics. Students must apply to and be accepted to the program to take Biocore classes.

Code	Title	Credits
Select ALL of the following lecture courses:		
BIOCORE 381	Evolution, Ecology, and Genetics	3
BIOCORE 383	Cellular Biology	3
BIOCORE 485	Organismal Biology	3
BIOCORE 587	Biological Interactions	3
AND, select two of the following lab classes:		
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	2
BIOCORE 384	Cellular Biology Laboratory	2
BIOCORE 486	Organismal Biology Laboratory	2

PHYSICS (CALCULUS-BASED)

Code	Title	Credits
Select one of the following options (students should consult with advisor if they have credit for PHYSICS 103 and/or 104 to discuss options):		
PHYSICS 207 & PHYSICS 208	General Physics and General Physics (recommended)	10
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	10

BIOCHEMISTRY

One set of introductory coursework **and** the capstone course are required, for a total of **three** BIOCHEM courses.

Introductory Courses

Code	Title	Credits
Select one of the following options:		
BIOCHEM 507 & BIOCHEM 508	General Biochemistry I and General Biochemistry II (recommended)	6

OR

BIOCHEM 501	Introduction to Biochemistry	3
AND one of the following upper-level biochemistry electives:		
BIOCHEM/NUTR SCI 510	Biochemical Principles of Human and Animal Nutrition	
BIOCHEM 550	Topics in Medical Biochemistry	

BIOCHEM/ M M & I 575	Biology of Viruses
BIOCHEM 601	Protein and Enzyme Structure and Function
BIOCHEM/B M I/ BMOLCHEM/ MATH 606	Mathematical Methods for Structural Biology
BIOCHEM/B M I/ BMOLCHEM/ MATH 609	Mathematical Methods for Systems Biology
BIOCHEM/ GENETICS/ MICROBIO 612	Prokaryotic Molecular Biology
BIOCHEM/ GENETICS/ MD GENET 620	Eukaryotic Molecular Biology
BIOCHEM/ BOTANY 621	Plant Biochemistry
BIOCHEM 625	Mechanisms of Action of Vitamins and Minerals
BIOCHEM/ PHMCOL-M/ ZOOLOGY 630	Cellular Signal Transduction Mechanisms
BIOCHEM/ NUTR SCI 645	Molecular Control of Metabolism and Metabolic Disease

Capstone Course (required)

Code	Title	Credits
BIOCHEM 551	Biochemical Methods	4

RESIDENCE AND QUALITY OF WORK REQUIREMENTS (AT TIME OF GRADUATION)

- 2.000 GPA in all BIOCHEM and major courses
- 2.000 GPA in at least 15 upper-level major credits in residence (credits taken on campus at UW–Madison or UW–Madison-sponsored study abroad programs). Upper-level major credits are defined as coursework higher than the 300 level that could fulfill major requirements.
- 15 credits in the major/BIOCHEM taken on campus

RECOMMENDED COURSES

First-year students interested in exploring the major can enroll in Biochemistry Freshman Seminar (BIOCHEM 100). Additional courses in MATH, BIOLOGY, CHEM, BIOCHEM, STAT, and COMP SCI are common elective courses, depending on the student's areas of interest and future career goals.

HONORS IN THE MAJOR

Students may declare Honors in the Biochemistry Major in consultation with the Biochemistry undergraduate advisor. To be admitted to the Honors Program in Biochemistry, students must have declared a major in Biochemistry and achieved a 3.300 overall university GPA.

HONORS IN THE BIOCHEMISTRY MAJOR REQUIREMENTS

To earn a B.A. or a B.S. with Honors in the Major in Biochemistry students must satisfy both the requirements for the major (above) and the following additional requirements:

- 3.300 overall university GPA
- 3.300 GPA in courses designated as biological, physical, or natural science breadth
- Complete two biological science courses for Honors chosen from the list of courses (below) that can fulfill the biological science requirements for the major (introductory biology, upper-level biology, or Biocore)
- Complete **BIOCHEM 507 General Biochemistry I** and **BIOCHEM 508 General Biochemistry II** for Honors. This is in addition to the biological and physical science Honors requirements above.
- Complete a two-semester Senior Honors Thesis in BIOCHEM 681 Senior Honors Thesis and BIOCHEM 682 Senior Honors Thesis, for a total of 6 credits. Students seeking to complete this requirement in a related department, such as chemistry, must seek approval from the undergraduate biochemistry advisor.
- Complete at least 20 credits, taken for Honors, from the following list:

Math

Code	Title	Credits
MATH 275	Topics in Calculus I	5
MATH 276	Topics in Calculus II	5
MATH 341	Linear Algebra	3
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	5
MATH 376	Topics in Multi-Variable Calculus and Differential Equations	5
MATH 521	Analysis I	3
MATH 522	Analysis II	3
MATH 541	Modern Algebra	3
MATH 542	Modern Algebra	3

Chemistry

Code	Title	Credits
CHEM 109	Advanced General Chemistry	5
CHEM 115	Chemical Principles I	5
CHEM 116	Chemical Principles II	5
CHEM 343	Introductory Organic Chemistry	3
CHEM 345	Intermediate Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 329	Fundamentals of Analytical Science	4
CHEM 547	Advanced Organic Chemistry	3
CHEM 561	Physical Chemistry	3
CHEM 565	Biophysical Chemistry	4
CHEM 563	Physical Chemistry Laboratory	1-2
CHEM 562	Physical Chemistry	3
CHEM 564	Physical Chemistry Laboratory	1

Physics

Code	Title	Credits
PHYSICS 201	General Physics	5
PHYSICS 202	General Physics	5
PHYSICS 207	General Physics	5
PHYSICS 208	General Physics	5
PHYSICS 241	Introduction to Modern Physics	3
PHYSICS 247	A Modern Introduction to Physics	5

PHYSICS 249 A Modern Introduction to Physics 4

Statistics

Code	Title	Credits
STAT 301	Introduction to Statistical Methods	3
STAT 371	Introductory Applied Statistics for the Life Sciences	3

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Identify the fundamental biochemical principles that underlie all biological processes.
2. Communicate biochemical knowledge in both written reports and oral presentations to scientists and non-scientists.
3. Evaluate how biochemistry relates to other scientific disciplines and to contemporary issues in our society.
4. Demonstrate professional and ethical responsibility in scientific research.
5. Design and conduct quantitative experiments and/or interpret data to address a scientific question.

ADVISING AND CAREERS

HOW TO SEEK ADVISING

- To schedule an appointment with the advisor, use the Scheduling Assistant.
- Email (undergradadvisor@biochem.wisc.edu) with brief questions.
- Drop-in advising hours for quick (10-15 minute) questions, on a first-come, first-serve basis, are posted on the Biochemistry website (https://biochem.wisc.edu/undergraduate_program/advising-information-undergraduate-program) each semester.

CAREER EXAMPLES

- Take your skills to a rewarding career in product development, quality control, hospitals, biotechnology, university labs, pharmaceuticals, forensics, and more. Possibilities at top organizations and leading companies include positions such as protein purification scientist, lab manager, medical scribe, clinical research coordinator, and food safety and quality chemist.
- Pursue a professional degree in medical, dental, or veterinary school, using your background in biochemistry to aid your admission and success.
- Build on your research experience and continue graduate studies in biochemistry or a related field to shape a career in academia as a professor or in industry.
- Use your science background to inform patent law, science policy and ethics, sales and marketing for science and technology companies, scientific article publishing, and related fields.

WISCONSIN EXPERIENCE

The following opportunities can help students connect with other students interested in biochemistry, build relationships with faculty and staff, and contribute to out-of-classroom learning:

- The American Society for Biochemistry and Molecular Biology (ASBMB) UW-Madison Student Chapter (<https://win.wisc.edu/organization/ASBMB>) is a student organization for students interested in biochemistry. ASBMB provides information about careers and job opportunities, how to get involved in research, and volunteer and outreach opportunities.
- Several biochemistry faculty members offer experiential study abroad programs, where students can immerse themselves in research or global health field experiences. Students can review the Biochemistry Major Advising Page (https://www.studyabroad.wisc.edu/map_biochem.asp) on the International Academic Programs website for information on these and other programs, as well as requirements that can typically be fulfilled abroad and things to consider when fitting study abroad into an academic plan.
- Students are encouraged to get involved in research, whether in the biochemistry department or through other life science or chemistry-related departments. Research can be performed for either course credit or pay, depending on the opportunity. The Biochemistry website (https://biochem.wisc.edu/undergraduate_program/research-opportunities-undergraduate-program) and the advisor can provide more information on finding research opportunities. Summer funding awards for research are available through the department.

BIOLOGY CORE CURRICULUM

DEGREES/MAJORS/CERTIFICATES

- Biology Core Curriculum Honors, Certificate (p. 476)

BIOLOGY CORE CURRICULUM HONORS, CERTIFICATE

Biology Core Curriculum (Biocore (<http://www.biocore.wisc.edu>)) is an undergraduate Honors biology program for students who are motivated to learn biology within a small community of students, peer mentors, and faculty instructors. The four-semester curriculum of lecture and laboratory courses provides an integrated foundation of knowledge and skills applicable to any area of bioscience.

Unique aspects of Biocore include:

- Small classes and high faculty–instructor contact

- Emphasis on research, problem solving, science reasoning, group learning, and communication
- Collaborative community of students and faculty
- Peer mentoring, outreach, and directed study opportunities
- Earn Biocore Honors certificate¹

¹ *Biology Core Curriculum Honors certificate* is available to students within the College of Agricultural and Life Sciences, the College of Engineering, the School of Human Ecology, the College of Letters & Science, and the School of Pharmacy. Students in the School of Business, the School of Education, and the School of Nursing are welcome to benefit from enrollment in the Biocore courses, but they are ineligible to earn the certificate. Students earn Honors course credit for each Biocore course and are eligible to earn a certificate upon completion of all four lecture courses and two of three lab courses with a grade of B or higher in all BIOCORE (<http://guide.wisc.edu/courses/biocore>) courses and 3.33 cumulative GPA.

Learning Goals:

Biocore is not a major but fulfills requirements (introductory to intermediate coursework, Honors, and Communication Part B) for a variety of biological science majors including those in the College of Agricultural and Life Sciences, College of Letters & Science, College of Engineering, and School of Pharmacy. See Biocore website and video (<http://www.biocore.wisc.edu/about>) to learn more.

By the end of the Biocore, students will

- **Reach for and achieve high standards:** 21st-century outcomes demand highly innovative, integrative, and excellence in all aspects of our work. As a Biocore community of students and instructors, we strive to challenge ourselves and meet these high standards of excellence, while providing support all along the way. Biocore students work hard to interact with concepts, ideas and the process of science to develop their own intellectual frameworks. Reaching for and achieving high standards for excellence in biology teaching and learning defines an honors mindset and the Biocore experience.
- **Actively engage in and practice group learning, collaboration and team work:** Learning and discovery is not a solitary task, but rather a social endeavor—with all students invested in a common goal, balanced with each student’s individual and independent accountability. Research on learning has shown that working together in small groups is an effective way to learn and achieve together rather than in competition. Therefore, student achievement in Biocore courses is evaluated using a set scale rather than a curve. Through Biocore, students discover the power of group learning, appreciate the supportive learning community, and form friendships as they work in lab and lecture courses, in peer mentoring, in research and outreach experiences. In addition, small class size provides ample opportunity to get to know professors, develop mentor relationships, grow a professional network, and make this big university seem small.
- **Be able to apply science as a process:** The scientific process is a powerful method for discovery. Science has allowed us to understand an impressive amount, but its central tenet is that our models for how the world works are open to revision as new methods and information become available. Therefore, in Biocore, we focus on process —“how we know what we know,” which includes understanding foundation concepts, using primary literature and data to support ideas and provide rationale for investigations, solving problems, applying critical thinking to challenging questions, and using

integrative and analytical thinking to come to conclusions based on evidence. Students develop high-level scientific and interpersonal communication skills by writing and speaking about their own research.

- **Have a learning mindset:** Biocore focuses on the process of learning and the development of life long learners. Education is often measured in grades, awards and accolades; however, these do not always equate to the process or qualities of learning. Development of a learning mindset starts with active engagement with the material and the learning community including fellow students, instructors and peer mentors. Along the way, students develop their own process of learning that requires repetition, reflection and revision on how and what they are learning. Biocore's small class size allows students to receive high quality and timely feedback on learning and to develop biology specific knowledge, skills and competencies over four semesters.

HOW TO GET IN

Biocore is an application-based Honors program that starts in the fall. While any UW–Madison student can apply to Biocore, only students in the College of Agricultural and Life Sciences, the College of Engineering, the School of Human Ecology, the College of Letters & Science, and the School of Pharmacy will be eligible to have the certificate noted on their transcript.

Application options:

1. **Regular:** For all students who have completed the prerequisites and would like to begin Biocore sophomore year. Applications are available through the Biocore website (<http://www.biocore.wisc.edu/bioadmissions>). Regular application deadline is in early March prior to April registration; however, Biocore continues to accept applications right up to the start of classes (space permitting).
2. **Freshman:** for a small cohort (~10) of well-prepared students who meet the requirements and would like to begin Biocore in the freshman year (see website (http://www.biocore.wisc.edu/bio_admissions_freshman)).

Most students apply during the spring of freshman year and begin fall of sophomore year. The regular deadline is mid-March; however, Biocore continues to accept applications up to the start of classes (space permitting). Contact the Biocore office for further information 608-265-2870.

PREREQUISITES

Please inquire about course equivalents.

Code	Title	Credits
Math		
Select one of the following:		
MATH 217	Calculus with Algebra and Trigonometry II	5
MATH 221	Calculus and Analytic Geometry 1	5
Introductory Chemistry		
Select one of the following:		
CHEM 104	General Chemistry II	5
CHEM 109	Advanced General Chemistry	

Code	Title	Credits
CHEM 115	Chemical Principles I	
Total Credits		15

- ¹ Organic chemistry (CHEM 341 or CHEM 343) is not a prerequisite for the BIOCORE program; however, organic chemistry is a prerequisite for BIOCORE 383 Cellular Biology.

REQUIREMENTS

Biology Core Curriculum Honors (Biocore) students must:

1. Complete all four BIOCORE lecture courses and two of three lab courses
2. Earn a 'B' grade or better in all BIOCORE courses
3. Complete degree with a cumulative GPA of 3.3 or higher

All BIOCORE courses are taken for honors credit.

Code	Title	Credits
Complete the following lecture courses (in sequence): ¹		
BIOCORE 381	Evolution, Ecology, and Genetics	3
BIOCORE 383	Cellular Biology	3
BIOCORE 485	Organismal Biology	3
BIOCORE 587	Biological Interactions	3
Complete two of the following lab courses (in any order): 4		
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 486	Organismal Biology Laboratory	
Total Credits		16

- ¹ Students pursuing the Biology Core Curriculum Certificate should not take the following courses since most majors will not allow credit for both:
- ZOOLOGY/BIOLOGY/BOTANY 151
 - ZOOLOGY/BIOLOGY/BOTANY 152
 - ZOOLOGY/BIOLOGY 101
 - ZOOLOGY/BIOLOGY 102
 - BOTANY/BIOLOGY 130
 - GENETICS 466
 - PHYSIOL 335

LEARNING OUTCOMES

By the end of their Biocore Honors experience, students will:

1. Demonstrate a learning mindset and intellectual curiosity for biology
2. Demonstrate advanced level scientific reasoning and integration of biological concepts and processes – from molecules to the biosphere, across different forms of life, through space and time
3. Generate novel scientific questions, formulate hypotheses, carry out experiments, and make logical conclusions based on evidence
4. Demonstrate advanced scientific communication skills, oral and written, and the ability to translate their understanding to the broader community
5. Actively engage in and practice group learning, collaboration and teamwork
6. Reach for and achieve high standards in the quality of learning

7. Articulate the value of their Biocore Honors experience

FOUR-YEAR PLAN

EXAMPLE SEQUENCE OF BIOCORE COURSES AND RELATED COURSEWORK

Code	Title	Credits
Prerequisite Coursework		
MATH 221 or MATH 217	Calculus and Analytic Geometry 1 Calculus with Algebra and Trigonometry II	5
CHEM 104 or CHEM 109 or CHEM 115	General Chemistry II Advanced General Chemistry Chemical Principles I	5
First Semester of Biocore Program		
BIOCORE 381	Evolution, Ecology, and Genetics (previous or concurrent registration in CHEM 341 or 343)	3
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	2
CHEM 343 or CHEM 344 or CHEM 345	Introductory Organic Chemistry Introductory Organic Chemistry Laboratory Intermediate Organic Chemistry	2-3
Second Semester of Biocore Program		
BIOCORE 383	Cellular Biology	3
BIOCORE 384	Cellular Biology Laboratory	2
CHEM 344 or CHEM 345	Introductory Organic Chemistry Laboratory Intermediate Organic Chemistry	2-3
PHYSICS 207	General Physics	5
Third Semester of Biocore Program		
BIOCORE 485	Organismal Biology	3
BIOCORE 486	Organismal Biology Laboratory	2
BIOCHEM 501 or BIOCHEM 507	Introduction to Biochemistry General Biochemistry I	3
PHYSICS 208	General Physics	5
Fourth Semester of Biocore Program		
BIOCORE 587	Biological Interactions	3
BIOCHEM 508	General Biochemistry II	3-4

To earn the certificate in Biology Core Curriculum Honors, students need only complete two of three BIOCORE laboratory courses.

ADVISING AND CAREERS

Some majors require students to complete the whole program but others do not. **Check with your major requirements and academic advisor.** Students who plan to study abroad during their junior year can plan to start Biocore as sophomores and complete coursework as seniors.

PEOPLE

Biocore faculty instructors come from departments and colleges across campus (College of Letters & Science, College of Agriculture and Life Sciences, School of Medicine and Public Health, College of Engineering)

and bring with them different perspectives and disciplinary expertise on a whole range of topics and scales of biological organization from molecules to ecosystems. The curriculum permits students to attain a relatively high level of sophistication with complete flexibility of choice for subsequent major specialization.

Jeff Hardin (director), Janet Batzli (associate director), Michelle Harris (faculty associate), Seth McGee (lab manager), Carol Borcherding (program manager)

Biocore Committee: Hardin (director), Batzli (associate director), Harris, Howell, Moser, O'Connor

WISCONSIN EXPERIENCE

The Biocore Experience is aligned with the Wisconsin Experience, supporting students' development of knowledge, intellectual skills and social responsibilities.

Biocore is an Honors biology program, a *community* and a *curriculum*, that challenges students to discover and reach their academic potential within a supportive biology education program. The Biocore honors community of highly motivated students work with dedicated faculty to extend opportunities for scientific research, communication, integrative learning and collaboration in the context of a four-semester undergraduate biology curriculum.

Students say:

"Biocore has helped me **think about science in a completely different way.**"

"I have never been so challenged, nor so **excited about learning** as during my time in Biocore."

"Biocore taught me how to **think critically and how to question.** I learned to be part of a team and made some great friendships."

"Taking Biocore made other **advanced courses in biology/ biochemistry/ genetics so much easier** because I gained such solid background knowledge."

"Biocore has been my most valuable academic experience yet. It has helped me develop my **scientific writing skills, ability to problem solve as a member of a team, and to think like a scientist.**"

"The **great staff and teaching teams** are excellent --they **really care** and invest a huge amount of time to benefit our learning."

See Biocore Experience video (<http://www.biocore.wisc.edu/about>) and alumni profiles (<http://www.biocore.wisc.edu/alumni>).

The Biocore curriculum provides an Honors experience in introductory to intermediate level integrated biology. Students experience small class sizes and a high instructor/student ratio all within a learning community of highly motivated and dedicated Honors students, faculty, staff and peers. Biocore courses emphasize problem-solving, critical thinking, research, scientific writing, group learning, and the process of science. In this collaborative and supportive learning community, students are also able to engage in peer mentoring (http://www.biocore.wisc.edu/peer_mentors), in directed study opportunities in the Biocore Prairie (<http://www.biocore.wisc.edu/prairie>), and in K-12 outreach through the Biocore Outreach Ambassadors (<http://www.biocore.wisc.edu/outreach>).

BOTANY

The Department of Botany provides an introduction to the living world: the diversity of its organisms; its historical origins through evolution; its principles of structure, function, and ecology; and its interactions, relationships, and effects on the nonliving world. Botany is the science of plants, algae, fungi, and bacteria—all living organisms except animals. Green plants and algae provide the photosynthetic energy for fueling all other life on earth and drive global water and carbon cycles. Fungi and bacteria are the fundamental recyclers of the earth.

The study of botany provides a broad background in the principles of modern biology and gives a solid foundation for careers in environmental studies, conservation biology, ecology, systematics, evolution, genetics, physiology, biotechnology, agriculture, and horticulture. Jobs requiring such preparation include teaching in secondary schools and colleges, research and development in industry and medicine, stewardship of our natural world through private and governmental programs, and research and teaching in academia.

Undergraduates interested in majoring in botany should take an introductory course or course sequence in their freshmen or sophomore years:

Code	Title	Credits
Option A (strongly recommended)		
BOTANY/ BIOLOGY 130	General Botany	5
With or without the following:		
ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102	Animal Biology and Animal Biology Laboratory	5
Option B (also appropriate)		

BIOLOGY/BOTANY/ ZOOLOGY 151	Introductory Biology	5
BIOLOGY/BOTANY/ ZOOLOGY 152	Introductory Biology	5

Option C (also appropriate)

Biology Core Curriculum

The general undergraduate botany advisor will help guide students to a botany faculty member in their field of interest, who should be chosen as soon as possible—no later than the junior year. All botany faculty members serve as advisors for their special fields.

The department encourages undergraduates to participate in its activities. Volunteers are welcome in the herbarium and greenhouses. There are a few paid positions there and in many of the research laboratories as well.

DEGREES/MAJORS/CERTIFICATES

- Botany, B.A. (p. 479)
- Botany, B.S. (p. 482)
- Conservation Biology, B.A. (p. 485)
- Conservation Biology, B.S. (p. 490)

PEOPLE

Professors Ane, Baum, Cameron (chair), Emshwiller, Fernandez, Gilroy, Givnish, Graham, Hotchkiss, Larget, Otegui, Spalding, Sytsma, Waller

Associate Professor Pringle

Assistant Professors Keefover-Ring, Maeda, McCulloh

Majors will eventually choose from the faculty a Senior Thesis advisor, who then will be the student's undergraduate advisor. Prospective majors should contact the general advisors directly.

BOTANY, B.A.

The Department of Botany provides an introduction to the living world: the diversity of its organisms; its historical origins through evolution; its principles of structure, function, and ecology; and its interactions, relationships, and effects on the nonliving world. Botany is the science of plants, algae, fungi, and bacteria—all living organisms except animals. Green plants and algae provide the photosynthetic energy for fueling all other life on earth and drive global water and carbon cycles. Fungi and bacteria are the fundamental recyclers of the earth.

The study of botany provides a broad background in the principles of modern biology and gives a solid foundation for careers in environmental studies, conservation biology, ecology, systematics, evolution, genetics, physiology, biotechnology, agriculture, and horticulture. Jobs requiring such preparation include teaching in secondary schools and colleges, research and development in industry and medicine, stewardship of our natural world through private and governmental programs, and research and teaching in academia.

HOW TO GET IN

Prospective botany majors should consult with the general undergraduate botany advisor by the beginning of the junior year to outline a course of study appropriate to the student's needs. Major Declaration may occur by meeting with the undergraduate advisor in the major.

To be accepted as a major in botany, a student must have a grade point average of 2.5 for all science courses taken during the freshman and sophomore years.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall
30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison
2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR MATH, CHEMISTRY, AND PHYSICS

Code	Title	Credits
Statistics/Mathematics		3
STAT 301 or STAT 371	Introduction to Statistical Methods Introductory Applied Statistics for the Life Sciences	
STAT 371	Introductory Applied Statistics for the Life Sciences	
General Chemistry		5-9
CHEM 103 & CHEM 104 or CHEM 109	General Chemistry I and General Chemistry II Advanced General Chemistry	
Organic Chemistry		3
CHEM 341	Elementary Organic Chemistry	

or CHEM 343	Introductory Organic Chemistry	
Physics ¹		3-5

BOTANY 681 & BOTANY 682	Senior Honors Thesis and Senior Honors Thesis	6
BOTANY 699	Directed Study	2-4

¹ Students nearing completion of the major should seek out research opportunities with their advisor or faculty supervisor, and register for their project at the end of the junior year.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all BOTANY and major courses

2.000 GPA on 15 upper-level major credits, taken in residence²

15 credits in BOTANY, taken on the UW–Madison campus

² BOTANY 300–699 are considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Botany Major in consultation with the Botany undergraduate advisor.

REQUIREMENTS

To earn the B.A. or B.S. degree with Honors in the Major in Botany, students must satisfy the requirements for the major and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.400 GPA in all BOTANY and courses accepted in the major
- A Senior Honors Thesis in BOTANY 681 and BOTANY 682, for a total of 6 credits, and

- 12 credits in Intermediate/Advanced BOTANY, taken for Honors¹
¹ Excluding BOTANY 681 and BOTANY 682.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Acquire and demonstrate foundational understanding of the basic properties of plant life from the subcellular to the ecosystem level of organization.
2. Acquire and demonstrate basic understanding in chemistry, physics, and mathematics to interpret biological phenomena.
3. Acquire and demonstrate detailed knowledge in at least five of these core areas of plant biology: Genetics, Physiology, Structural biology, Ecology, Systematics, Evolution, Cryptogamic biology.
4. Explore these core areas in the context of the laboratory and/or the field.
5. Engage in plant biology research (to include algae, photosynthetic bacteria, and fungi): develop hypotheses, acquire scientific information, and interpret results in the context of the historical scientific literature in one or more specialized botanical subdisciplines.
6. Develop an appreciation of communicating scientific information, especially in written form.

ADVISING AND CAREERS

ADVISING

The Department of Botany encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

Career Resources:

- Why the liberal arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)
- L&S Career Services (<http://careers.ls.wisc.edu/students.htm>): We launch our students higher, sooner
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first and second-year students)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/about/lsci?p=careerinitiative.html>)

- Career Advising is also available in the Botany Department: Botany Department Advising Page (<http://www.botany.wisc.edu/declaration-and-advising.htm>)

PEOPLE

Professors Ane, Baum, Cameron (chair), Emshwiller, Fernandez, Gilroy, Givnish, Graham, Hotchkiss, Larget, Otegui, Spalding, Sytsma, Waller

Associate Professor Pringle

Assistant Professors Keefover-Ring, Maeda, McCulloh

Majors will eventually choose from the faculty a Senior Thesis advisor, who then will be the student’s undergraduate advisor. Prospective majors should contact the general advisors directly.

LEARNING OUTCOMES

1. Acquire and demonstrate foundational understanding of the basic properties of plant life from the subcellular to the ecosystem level of organization.
2. >Acquire and demonstrate basic understanding in chemistry, physics, and mathematics to interpret biological phenomena.
3. Acquire and demonstrate detailed knowledge in at least five of these core areas of plant biology: Genetics, Physiology, Structural biology, Ecology, Systematics, Evolution, Cryptogamic biology.
4. Explore these core areas in the context of the laboratory and/or the field.
5. Engage in plant biology research (to include algae, photosynthetic bacteria, and fungi): develop hypotheses, acquire scientific information, and interpret results in the context of the historical scientific literature in one or more specialized botanical subdisciplines.
6. Develop an appreciation of communicating scientific information, especially in written form.

CONSERVATION BIOLOGY, B.A.

Conservation biology is a science-based major designed to provide students broad training in biological, ecological, and related disciplines most relevant to conservation. The program emphasizes basic knowledge of natural history, whole organism biology, ecological interactions, and field biology. The major is characterized by flexibility with a broad range of opportunities allowing students to tailor the program to their interests. This major appeals to independent students capable of assembling a curriculum that takes maximum advantage of both strong background, diversity, and specialization, as well as the breadth available through an L&S major. The program has a unique appeal to students passionate about conservation biology, from the social scientist to the theoretical ecologist, and empowers students to act as informed citizens of the natural world.

Aldo Leopold, former UW professor considered the father of wildlife management, and Norman Fassett, former UW professor of Botany, first initiated this major in the 1940s to prepare individuals for careers as game wardens, ranger naturalists, and museum workers. These opportunities continue and have expanded to include work in environmental education; forest, game and park management; endangered species research and recovery efforts; work with private conservation organizations and government agencies; and many more. The major is recommended for those seeking a liberal education in the intrinsic values of natural resources and those preparing for graduate study in the rapidly developing field of conservation biology.

ADVISING AND CAREERS

ADVISING

The Department of Botany encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

Career Resources:

- Why the liberal arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)
- L&S Career Services (<http://careers.ls.wisc.edu/students.htm>): We launch our students higher, sooner
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first and second-year students)

INTERNSHIP/FIELD EXPERIENCE

Students in the conservation biology major are encouraged to take field courses when possible (including suitable study abroad programs) and to gain additional experience via summer jobs and paid or unpaid internships. Students who wish to obtain academic credit for such an experience should arrange **in advance** to take a Directed Study (e.g., BOTANY 699 Directed Study or ZOOLOGY 699 Directed Studies in Zoology course) as elective work in the major during or immediately after their internship. A maximum of 10 credits of directed study (698, 699), senior honors thesis (681, 682), senior thesis (691, 692), or internships (F&W ECOL 399 Coordinative Internship/Cooperative Education, ZOOLOGY 677 Internship in Ecology) will count toward the major.

HOW TO GET IN

To declare the conservation biology major, students must contact or make an appointment (<http://conservationbiology.ls.wisc.edu/faqs.htm>) with the conservation biology student services coordinator.

If students are not currently in the College of Letters & Science (L&S), they must transfer into L&S before declaring. Students are welcome to meet with the conservation biology student services coordinator to discuss the major before transferring.

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall
30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison
2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR

Conservation biology majors must take at least **50 credits** in the major. When selecting courses to meet major requirements, students are encouraged to meet with their faculty advisor or student services coordinator to discuss courses that align with their areas of academic interest.

INTRODUCTORY COURSES

Code	Title	Credits
<i>Introductory Biology</i>		
Select one of the following options:		10
Option 1 (recommended):		
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	

BIOLOGY/
BOTANY/
ZOOLOGY 152

Introductory Biology

Option 2:

Select at least 10 credits from the following:

BIOCORE 381 Evolution, Ecology, and Genetics

BIOCORE 382 Evolution, Ecology, and Genetics
Laboratory

BIOCORE 383 Cellular Biology

BIOCORE 384 Cellular Biology Laboratory

BIOCORE 485 Organismal Biology

BIOCORE 486 Organismal Biology Laboratory

Option 3:

BIOLOGY/
ZOOLOGY 101

Animal Biology

BIOLOGY/
ZOOLOGY 102

Animal Biology Laboratory

BIOLOGY/
BOTANY 130

General Botany

Chemistry

Select one of the following: 4-5

CHEM 103 General Chemistry I

CHEM 108 Chemistry in Our World

CHEM 109 Advanced General Chemistry
(for those who might take more
chemistry)

Physical Environment

Select one of the following: 3-5

ATM OCN/GEOSCI Survey of Oceanography
105

ENVIR ST/GEOSCI Environmental Geology
106

ENVIR ST/
GEOG 120

Introduction to the Earth System

ENVIR ST/
GEOG 127

Physical Systems of the
Environment

GEOSCI 100 General Geology

GEOSCI 107 Life of the Past

GEOSCI 202 Introduction to Geologic Structures

GEOSCI 204 Geologic Evolution of the Earth

Ecology and Evolution

Select two of the following, each from a different category 6-7
(students are encouraged to take courses in all three
areas):

Ecology:

BOTANY/
F&W ECOL/
ZOOLOGY 460

General Ecology

Evolution:

GEOSCI 110 Evolution and Extinction

or ANTHRO/
BOTANY/
ZOOLOGY 410

Evolutionary Biology

Extinction:

ENVIR ST/F&W
ECOL/ZOOLOGY
360

Extinction of Species

Statistics

Select one of the following:

STAT 371 Introductory Applied Statistics for
the Life Sciences

STAT 301 Introduction to Statistical Methods

STAT/F&W ECOL/
HORT 571

Statistical Methods for Bioscience I

SPECIES & FIELD BIOLOGY

Code Title Credits

12 credits from:

AGRONOMY/

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major courses

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in the major, taken on the UW–Madison campus

¹ Courses in the major numbered 300 through 699 are considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Conservation Biology Major in consultation with the Conservation Biology undergraduate advisor.

HONORS IN THE CONSERVATION BIOLOGY MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Conservation Biology students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Complete at least 16 credits, taken for Honors, in the conservation biology major, to include a two-semester Senior Honors Thesis in an appropriate department¹

¹ Examples include Botany, Zoology, Environmental Studies; see the Conservation Biology advisor to verify that your thesis department will be acceptable.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Students will explain the basic concepts of ecology and evolution and how they underpin and apply to the science of conservation biology.
2. Students will understand and explain the scientific process as related to conservation biology, including the relevance of theories and how hypotheses are tested.
3. Students will recognize species within some particular group of organisms and explain key aspects of their ecology, phylogeny, and conservation needs.
4. Students will apply general ecological principles to assess and address conservation threats to particular species, communities, and ecosystems.
5. Students will investigate and communicate the connections between the biological and social sciences and humanities as they affect conservation programs and activities.
6. Students will identify, interpret, and communicate conservation ideas, needs and programs to others.

ADVISING AND CAREERS

ADVISING

Students in the conservation biology major are assigned to a team of advisors composed of a faculty advisor and the major's student services coordinator. See the major's advising page (<http://conservationbiology.ls.wisc.edu/advising.htm>) for a list of advisors and for the student services coordinator information.

The faculty advisor provides guidance specific to the discipline through discussions about undergraduate experiences (e.g., research, coursework, internships) that will help prepare students for graduate work or a career after graduation. The student services coordinator provides guidance specific to the discipline but helps students with major declarations, course selection, registration, DARS, L&S degree and major requirements, and tracking progress towards graduation, as well as connecting students with important resources on campus. **Because the major is so broad and involves so much choice, it is important for students to meet early and regularly with their student services coordinator and faculty advisor.**

Students contemplating graduate work in a biological discipline are advised to take the following:

Code	Title	Credits
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology	

ANTHRO/
BOTANY/
ZOOLOGY 410

Evolutionary Biology

BOTANY/
F&W ECOL/
ZOOLOGY 460

General Ecology

Although not required for the major, such students are also encouraged to take the following:

Code	Title	Credits
CHEM 104	General Chemistry II	
GENETICS 466	Principles of Genetics	
PHYSICS 103	General Physics	
PHYSICS 104	General Physics	
MATH 221	Calculus and Analytic Geometry I	

PEOPLE

Committee of Advisors: Givnish (Botany), Hotchkiss (Botany/Environmental Studies), Ives (Zoology), Strier (Anthropology), Vander Zanden (Center for Limnology/Zoology), Waller (Botany, chair of major)

CONSERVATION BIOLOGY, B.S.

Conservation biology is a science-based major designed to provide students broad training in biological, ecological, and related disciplines most relevant to conservation. The program emphasizes basic knowledge of natural history, whole organism biology, ecological interactions, and field biology. The major is characterized by flexibility with a broad range of opportunities allowing students to tailor the program to their interests. This major appeals to independent students capable of assembling a curriculum that takes maximum advantage of both strong background, diversity, and specialization, as well as the breadth available through an L&S major. The program has a unique appeal to students passionate about conservation biology, from the social scientist to the theoretical ecologist, and empowers students to act as informed citizens of the natural world.

Aldo Leopold, former UW professor considered the father of wildlife management, and Norman Fassett, former UW professor of Botany, first initiated this major in the 1940s to prepare individuals for careers as game wardens, ranger naturalists, and museum workers. These opportunities continue and have expanded to include work in environmental education; forest, game and park management; endangered species research and recovery efforts; work with private conservation organizations and government agencies; and many more. The major is recommended for those seeking a liberal education in the intrinsic values of natural resources and those preparing for graduate study in the rapidly developing field of conservation biology.

INTERNSHIP/FIELD EXPERIENCE

Students in the conservation biology major are encouraged to take field courses when possible (including suitable study abroad programs) and to gain additional experience via summer jobs and paid or unpaid internships. Students who wish to obtain academic credit for such an experience should arrange **in advance** to take a Directed Study (e.g., BOTANY 699 Directed Study or ZOOLOGY 699 Directed Studies in Zoology course) as elective work in the major during or immediately

after their internship. A maximum of 10 credits of directed study (698, 699), senior honors thesis (681, 682), senior thesis (691, 692), or internships (F&W ECOL 399 Coordinative Internship/Cooperative Education, ZOOLOGY 677 Internship in Ecology) will count toward the major.

HOW TO GET IN

To declare the conservation biology major, students must contact or make an appointment (<http://conservationbiology.ls.wisc.edu/faqs.htm>) with the conservation biology student services coordinator.

If students are not currently in the College of Letters & Science (L&S), they must transfer into L&S before declaring. Students are welcome to meet with the conservation biology student services coordinator to discuss the major before transferring.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

Conservation biology majors must take at least **50 credits** in the major. When selecting courses to meet major requirements, students are encouraged to meet with their faculty advisor or student services coordinator to discuss courses that align with their areas of academic interest.

INTRODUCTORY COURSES

Code	Title	Credits
<i>Introductory Biology</i>		
Select one of the following options:		10
Option 1 (recommended):		
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology	
Option 2:		
Select at least 10 credits from the following:		
BIOCORE 381	Evolution, Ecology, and Genetics	

BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory

ZOOLOGY 535	Ecosystem Analysis

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major courses

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in the major, taken on the UW–Madison campus

¹ Courses in the major numbered 300 through 699 are considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Conservation Biology Major in consultation with the Conservation Biology undergraduate advisor.

HONORS IN THE CONSERVATION BIOLOGY MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Conservation Biology students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Complete at least 16 credits, taken for Honors, in the conservation biology major, to include a two-semester Senior Honors Thesis in an appropriate department¹

¹ Examples include Botany, Zoology, Environmental Studies; see the Conservation Biology advisor to verify that your thesis department will be acceptable.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Students will explain the basic concepts of ecology and evolution and how they underpin and apply to the science of conservation biology.
2. Students will understand and explain the scientific process as related to conservation biology, including the relevance of theories and how hypotheses are tested.

- Students will recognize species within some particular group of organisms and explain key aspects of their ecology, phylogeny, and conservation needs.
- Students will apply general ecological principles to assess and address conservation threats to particular species, communities, and ecosystems.
- Students will investigate and communicate the connections between the biological and social sciences and humanities as they affect conservation programs and activities.
- Students will identify, interpret, and communicate conservation ideas, needs and programs to others.

ADVISING AND CAREERS

ADVISING

Students in the conservation biology major are assigned to a team of advisors composed of a faculty advisor and the major's student services coordinator. See the major's advising page (<http://conservationbiology.ls.wisc.edu/advising.htm>) for a list of advisors and for the student services coordinator information.

The faculty advisor provides guidance specific to the discipline through discussions about undergraduate experiences (e.g., research, coursework, internships) that will help prepare students for graduate work or a career after graduation. The student services coordinator provides guidance specific to the discipline but helps students with major declarations, course selection, registration, DARS, L&S degree and major requirements, and tracking progress towards graduation, as well as connecting students with important resources on campus. **Because the major is so broad and involves so much choice, it is important for students to meet early and regularly with their student services coordinator and faculty advisor.**

Students contemplating graduate work in a biological discipline are advised to take the following:

Code	Title	Credits
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology	
ANTHRO/ BOTANY/ ZOOLOGY 410	Evolutionary Biology	
BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology	

Although not required for the major, such students are also encouraged to take the following:

Code	Title	Credits
CHEM 104	General Chemistry II	
GENETICS 466	Principles of Genetics	
PHYSICS 103	General Physics	
PHYSICS 104	General Physics	

MATH 221

Calculus and Analytic Geometry 1

PEOPLE

Professors Ane, Baum, Cameron (chair), Emshwiller, Fernandez, Gilroy, Givnish, Graham, Hotchkiss, Larget, Otegui, Spalding, Sytsma, Waller

Associate Professor Pringle

Assistant Professors Keefover-Ring, Maeda, McCulloh

Majors will eventually choose from the faculty a Senior Thesis advisor, who then will be the student's undergraduate advisor. Prospective majors should contact the general advisors directly.

Committee of Advisors: Professors Givnish (Botany), Hotchkiss (Botany/Environmental Studies), Ives (Zoology), Strier (Anthropology), Townsend (Forest & Wildlife Ecology), Vander Zanden (Center for Limnology/Zoology), Waller (Botany, chair of major)

CENTER FOR LAW, SOCIETY, AND JUSTICE

The Center for Law, Society, and Justice offers an undergraduate major in the College of Letters & Science. The program mission is to provide a liberal education across traditional disciplines, focusing on the theory and operation of law and legal institutions. Courses in the legal studies major expose students to the many facets of law as a social phenomenon—its evolution, function, motivating ideas and effects. The major is not intended as preparation for law school because the emphasis is on exploring broadly defined questions about law from a variety of perspectives, rather than on training for the profession. The legal studies major is, however, suitable for pre-law students.

The curriculum is designed around five themes, each of which is associated with a group of courses, and each of which incorporates comparative and historical approaches.

THEME GROUP 1: LEGAL INSTITUTIONS

Institutions are at the core of social life. They govern our interactions, distribute power and resources, and influence how we make sense of the world. Courses in this theme group focus on those institutions involved in the creation and application of law. They explore such questions as how legal institutions evolve; how legal institutions help determine the shape of law—in doctrine and in action—and how and whether, in turn, legal institutions can be shaped to create different social outcomes. Institutions are central to the studies of society and politics throughout the disciplines, and courses in the group include perspectives from history, anthropology, sociology, political science, and political theory.

THEME GROUP 2: PROCESSES OF LEGAL ORDER AND DISORDER

This theme examines the dynamics of order at the individual and societal level. In the course of this examination, students are made aware of the political and social biases that can underlie definitions of "order." This theme should also allow students to address how social and political biases relate to divisions of class, race and gender, and how the

mechanisms of conflict resolution and order maintenance can be used to reinforce or challenge existing power structures.

THEME GROUP 3: LAW AND SOCIAL FORCES

This theme group explores the intersection between law, social structures and social movements. Courses in this group address social inequality, generally in the U.S. context, grounded in ethno-racial, gender, and sexuality-based difference. At critical points, the struggle for equality has taken pointedly legal form, whether in the shape of campaigns for legislative change or recognition, or through the litigation of particular cases. Legal categories have informed social identities. Equally, changing social identities have pushed back on legal categories. Courses integrate broad social dynamics with the rise of organized social movements that use law as an arena in which to reassess social life and values.

THEME GROUP 4: LAW AND CULTURE

This theme group introduces students to legal thought, institutions, and practices beyond mainstream or contemporary legal systems, specifically modern Euro-American legal cultures. Courses in this theme group present either culturally based challenges to mainstream modern legal systems or legal systems that are culturally or historically distinct from them. The comparative study of distinct legal traditions and movements forces us to reexamine the cultural presuppositions embedded in modern legal systems, revealing both good reasons for defending mainstream Euro-American laws and arguments and models for changing or questioning prevailing systems. Courses examine historical developments in or affecting law, non-Western legal thought or traditions, and the effect of cultural institutions such as religion, literature, or media on law.

THEME GROUP 5: LAW AND THEORY

Many theoretical and philosophical questions are articulated as propositions about law: its nature, sources, contents, and relations to other aspects of social life. While only some philosophers or social, political or legal theorists work specifically in the area of "legal theory," almost literally all work in any of these areas contributes to our understanding of the sources and nature of law, legal institutions and legal practices, and for many if not most theorists explicit discussions of law are central elements of their work. Courses in this theme group focus on the ways in which "law" is treated as a working concept or as a subject of study in theoretical works, and conversely on how understandings drawn from theoretical writings inform our own understanding of law in all its dimensions.

DEGREES/MAJORS/CERTIFICATES

- Criminal Justice, Certificate (p. 496)
- Legal Studies, B.A. (p. 498)
- Legal Studies, B.S. (p. 503)

CRIMINAL JUSTICE, CERTIFICATE

The Criminal Justice Certificate Program includes an interdisciplinary sequence of classes and an internship, for students interested in the American criminal and juvenile justice systems. Certificate students select courses in legal studies and from the departments of Sociology,

Political Science, Social Work, Psychology, Gender and Women's Studies, Anthropology, History, Human Development and Family Studies, Rehabilitation Psychology, Integrated Liberal Studies, and Counseling Psychology. Students gain a broad understanding of the philosophy, theories, and operation of the adult and juvenile justice systems.

HOW TO GET IN

Any undergraduate regardless of major or college affiliation may earn a certificate. Students interested in earning a certificate in criminal justice must declare the certificate with the criminal justice advisor. Students are encouraged to declare the certificate as early as possible within their college careers. Field work/internship seminar courses require prerequisite courses and availability may be limited. The internship courses are in high demand and enrollment may be determined by the date of declaration in the certificate program.

REQUIREMENTS

To earn a criminal justice certificate, a student must complete all requirements for a bachelor's degree, requirements of the declared major(s), and graduate from UW–Madison. In addition, students must take all required certificate courses for a letter grade versus pass/fail. It is not necessary to take classes in any particular sequence; however, individual courses may have prerequisites.

REQUIREMENTS FOR STUDENTS ENROLLED IN THE CERTIFICATE PROGRAM

The certificate requires a minimum of seven courses and 21 credits. The courses must be distributed as follows:

Code	Title	Credits
Select one course from each of the six defined Groups		
Select one additional course from Group 3 or Group 4		

GROUP 1—CRIMINAL JUSTICE SYSTEM

Code	Title	Credits
LEGAL ST/SOC 131	Criminal Justice in America	3-4

GROUP 2—THEORIES OF CRIME AND DEVIANT BEHAVIOR

Code	Title	Credits
SOC 421	Processes of Deviant Behavior	3-4
SOC 441	Criminology	3-4
SOC 446	Juvenile Delinquency	3-4
PSYCH 601	Current Topics in Psychology (Psychology of Juvenile Delinquency (psychology majors only)) ¹	3
PSYCH 601	Current Topics in Psychology (Psychopathy and Other Syndromes of Disinhibition (psychology majors only)) ¹	3
PSYCH 501	Depth Topic in Social Science (Child Psychopathology)	4

PSYCH 526	The Criminal Mind: Forensic and Psychobiological Perspectives	4
SOC WORK 643	Social Work and Delinquency	2-3
SOC WORK 664	Topics in Contemporary Social Welfare (Delinquent) ¹	2-3

¹ Topics course. Credit granted only for topics listed.

GROUP 3—CRIME AND JUSTICE/OPERATIONS OF THE JUSTICE SYSTEM

Code	Title	Credits
HISTORY/LEGAL ST 426	The History of Punishment	3-4
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Civil Rights) ¹	3-4
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Gender, Crime & Justice) ¹	3-4
LEGAL ST/L I S 460	Surveillance, Privacy, and Police Powers	3
POLI SCI 314	Criminal Law and Justice	3-4
PSYCH 311	Issues in Psychology (Psychology, Law, and Social Policies)	1-4
PSYCH 601	Current Topics in Psychology (Legal Psychology Criminal and Civil Issues (psych majors only)) ¹	3

¹ Topics course. Credit granted only for topics listed.

GROUP 4—BROADER PSYCHO/SOCIO/ECONOMIC PROCESSES RELATED TO CRIMINAL JUSTICE

Code	Title	Credits
AFROAMER/ GEN&WS 625	Gender, Race and the Civil Rights Movement	3
ANTHRO 448	Anthropology of Law	3
BOTANY 575	Special Topics (Forensic Botany)	1-3
HISTORY/LEGAL ST 459	Rule of Law: Philosophical and Historical Models	3-4
HDFS 474	Racial Ethnic Families in the U.S.	3
ILS 275	Special Topics in Integrated Liberal Studies (Justice and Equity in America) ¹	3
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Race and Law) ¹	3-4
LEGAL ST 409	Human Rights in Law and Society	3
LEGAL ST/GEN&WS 422	Women and the Law	3
LEGAL ST 444	Law in Action	3
LEGAL ST/SOC 641	Sociology of Law	3-4
POLI SCI 412	The American Constitution: Rights and Civil Liberties	4
PSYCH 405	Abnormal Psychology	3-4
PSYCH 512	Behavior Pathology-Psychoses	3
SOC/AMER IND/ C&E SOC 578	Poverty and Place	3
SOC 620	Comparative Racial Inequality	3

SOC 633	Social Stratification	3
SOC WORK 420	Poverty and Social Welfare	3
SOC WORK 453	Alcohol and Other Drug Abuse	2-4
SOC WORK 462	Child Welfare	3
SOC WORK 523	Family Violence	3
SOC WORK 646	Child Abuse and Neglect	2-3
SOC WORK 674	Topics in Contemporary Social Welfare	2-3

¹ Topics course. Credit granted only for topics listed.

GROUP 5—ETHNOGRAPHY—INTERNSHIP PREP

Code	Title	Credits
COUN PSY 650	Theory and Practice in Interviewing	3
LEGAL ST 405	Foundations of Field Education	2
SOC WORK 441	Generalist Practice with Individuals, Families and Groups (social work majors only)	1-3

GROUP 6—FIELDWORK/INTERNSHIP SEMINAR

Code	Title	Credits
LEGAL ST/SOC 694 & SOC WORK 663	Criminal Justice Field Observation and Topics in Contemporary Social Welfare ¹	4-6
GEN&WS 660	Internship in Gender and Women's Studies (GWS major and certificate students only) ²	6
HDFS 601	Internship (HDFS majors only) ²	1-8
POLI SCI 315	Legislative Internship ²	3
POLI SCI 402	Wisconsin in Washington Internship Course ²	4
PSYCH 412	Field Experience in Psychology (psychology majors only) ²	3
RP & SE 630	Internship in Rehabilitation or Special Education (RP&Ed majors only) ²	2-6
SOC WORK 400 & SOC WORK 401	Field Practice and Integrative Seminar I and Field Practice and Integrative Seminar II (social work majors only) ²	4-12

¹ Summer—30 hrs/wk for 10 weeks; prereqs: Groups 1, 2, 3 & LEGAL ST 405 Foundations of Field Education, and 86 credits by the beginning of the summer.

Spring—12 hrs/wk for 15 weeks; prereqs: Group 1 complete, Groups 2, 3, & COUN PSY 650 Theory and Practice in Interviewing complete or in progress by the beginning of the internship semester.

² Must be a criminal/juvenile-justice-oriented internship; student must receive approval of placement from a criminal justice advisor before enrolling in the course.

RESIDENCE AND QUALITY OF WORK

11 credits counting for the certificate, taken in residence

A cumulative 2.000 GPA in all courses counting for the certificate

ADVISING AND CAREERS

ADVISING

ADVISING APPOINTMENTS

Carolyn Lesch, Room 8139, Sewell Social Sciences Building

Carolyn's appointment calendar (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/chDDrTb.html>)

Martine Delannay, Room 8137, Sewell Social Sciences Building

Martine's appointment calendar (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/rqGGzIBy.html>)

ADVISOR EMAIL

cjcp@ssc.wisc.edu

Current and future UW students with a Net ID use the links above to make an appointment. All others may send an email request to cjcp@ssc.wisc.edu.

CAREERS

CJCP graduates have secured jobs in police departments, district attorneys' offices, public defenders' offices, juvenile group homes, adult halfway houses, public schools, and prisons. They have been involved in restitution programs, deferred prosecution alternatives, victim-witness projects, and home detention/electronic monitoring experiments. The options are numerous and interesting. Many CJCP students pursue a degree in law or attend graduate school in a related field.

Letters & Science Career Services (<http://careers.ls.wisc.edu>) provides students with a wide range of career-related services.

WISCONSIN EXPERIENCE

All students complete an intensive internship with an agency or organization related to the criminal and juvenile justice fields. Involvement in the CJCP provides a solid educational foundation in criminal justice. It introduces students to basic concepts about our justice system and the individuals it serves. It encourages exploration of critical issues facing the system today and fosters investigation into realistic solutions.

LEGAL STUDIES, B.A.

Legal studies is an undergraduate major in the College of Letters & Science. The program's mission is to provide a liberal education across traditional disciplines, focusing on the theory and operation of law and legal institutions. The courses in the legal studies major expose students to the many facets of law as a social phenomenon—its evolution, function, motivating ideas and effects. The major is not intended as preparation for law school because the emphasis is on exploring broadly defined questions about law from a variety of perspectives, rather than on training for the profession. The legal studies major is, however, suitable for pre-law students.

The curriculum is designed around the following five themes: Legal Institutions, Processes of Legal Order and Disorder, Law and Social Forces, Law and Culture, and Law and Theory.

Theme Group 1: Legal Institutions

Institutions are at the core of social life. They govern our interactions, distribute power and resources, and influence how we make sense of the world. Courses in this theme group focus on those institutions involved in the creation and application of law. They explore such questions as how legal institutions evolve; how legal institutions help determine the shape of law—in doctrine and in action—and how and whether, in turn, legal institutions can be shaped to create different social outcomes. Institutions are central to the studies of society and politics throughout the disciplines, and courses in the group include perspectives from history, anthropology, sociology, political science, and political theory.

Theme Group 2: Processes of Legal Order and Disorder

This theme examines the dynamics of order at the individual and societal level. In the course of this examination, students are made aware of the political and social biases that can underlie definitions of "order." This theme should also allow students to address how social and political biases relate to divisions of class, race and gender, and how the mechanisms of conflict resolution and order maintenance can be used to reinforce or challenge existing power structures.

Theme Group 3: Law and Social Forces

This theme group explores the intersection between law, social structures and social movements. Courses in this group address social inequality, generally in the U.S. context, grounded in ethno-racial, gender, and sexuality-based difference. At critical points, the struggle for equality has taken pointedly legal form, whether in the shape of campaigns for legislative change or recognition, or through the litigation of particular cases. Legal categories have informed social identities. Equally, changing social identities have pushed back on legal categories. Courses integrate broad social dynamics with the rise of organized social movements that use law as an arena in which to reassess social life and values.

Theme Group 4: Law and Culture

This theme group introduces students to legal thought, institutions, and practices beyond mainstream or contemporary legal systems, specifically modern Euro-American legal cultures. Courses in this theme group present either culturally based challenges to mainstream modern legal systems or legal systems that are culturally or historically distinct from them. The comparative study of distinct legal traditions and movements forces us to reexamine the cultural presuppositions embedded in modern legal systems, revealing both good reasons for defending mainstream Euro-American laws and arguments and models for changing or questioning prevailing systems. Courses examine historical developments in or affecting law, non-Western legal thought or traditions, and the effect of cultural institutions such as religion, literature, or media on law.

Theme Group 5: Law and Theory

Many theoretical and philosophical questions are articulated as propositions about law: its nature, sources, contents, and relations to other aspects of social life. While only some philosophers or social, political or legal theorists work specifically in the area of "legal theory," almost literally all work in any of these areas contributes to our understanding of the sources and nature of law, legal institutions and legal practices, and for many if not most theorists explicit discussions of law are central elements of their work. Courses in this theme group focus on the ways in which "law" is treated as a working concept or as a subject of study in theoretical works, and conversely on how understandings drawn from theoretical writings inform our own understanding of law in all its dimensions.

HOW TO GET IN

PREREQUISITES FOR THE MAJOR

Those wishing to declare the major should schedule an appointment with the legal studies advisor.

To declare the legal studies major, students must complete three (3) prerequisite courses with grades of C or better. Students may be exempt from COMM-A by their English Placement score and from QR-A by their Math Placement score.

The three prerequisite courses consist of:

- a Communication A course;
- a Quantitative Reasoning A course; and
- one "Gateway Course" chosen from the list below.

GATEWAY COURSES

Code	Title	Credits
Select one of the following:		
LEGAL ST/SOC 131	Criminal Justice in America	3-4
LEGAL ST/POLI SCI 217	Law, Politics and Society	

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR

In addition to the Gateway Courses, at least 11 courses are required to complete the legal studies major.

Code	Title	Credits
Select two courses from those listed in the Legal Institutions Theme Group		
Select four courses distributed across at least three of the following Theme Groups:		
	Processes of Legal Order & Disorder	
	Law and Social Forces	
	Law and Culture	
	Law and Theory	
Select one of the following methods courses in research and design:		
POLI SCI 170	Research Methods in Political Science	3
POLI SCI/JOURN/ URB R PL 373	Introduction to Survey Research	3
PSYCH 225	Research Methods	4
SOC/C&E SOC 357	Methods of Sociological Inquiry	3-4
Select one of the following methods courses in statistics:		
ECON 310	Statistics: Measurement in Economics	4
GEN BUS 303	Business Statistics	3
POLI SCI 374	Introduction to Statistical Inference for Political Research	3-4
PSYCH 210	Basic Statistics for Psychology	3
SOC/C&E SOC 360	Statistics for Sociologists I	4
STAT 301	Introduction to Statistical Methods	3
STAT 371	Introductory Applied Statistics for the Life Sciences	3
Select one of the following Core Perspectives courses: ¹		
LEGAL ST/HISTORY 261	American Legal History to 1860	3
LEGAL ST/HISTORY 262	American Legal History, 1860 to the Present	3
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (*Civil Rights *Amer Juvenile Just *Surveillance *Privacy & Pol *Race and the Law)	3-4
LEGAL ST/HISTORY 426	The History of Punishment	3-4
LEGAL ST 450	Topics in Legal Studies and the Humanities (*Jurisprudence *Medieval Law and Society *Medico-Legal History)	3-4
LEGAL ST/LCA/ RELIG ST 628	Hindu Law	3
LEGAL ST 409	Human Rights in Law and Society	3
LEGAL ST/L I S 460	Surveillance, Privacy, and Police Powers	3
LEGAL ST/HISTORY 510	Legal Pluralism	3
LEGAL ST/ HISTORY 459	Rule of Law: Philosophical and Historical Models	3-4
LEGAL ST/SOC 641	Sociology of Law	3-4
Select one of the following:		
	A Senior Thesis (6 credits) ²	

Two additional courses from the five Theme Groups

Footnotes

¹ All legal studies majors are required to take one Core Perspectives course. The following courses count as Core Perspectives courses if they are taught by core legal studies faculty; if any of these courses is taught by non-legal studies faculty, the determination of whether they will count for Core Perspectives credit will be made prior to the beginning of the semester in which the course is offered. Each of these courses is intended to provide a broad and intellectually flexible perspective that can serve as a framework for gaining a deeper understanding of the material taught in other courses in the program. The Core Perspectives courses do not necessarily overlap; the criterion for inclusion of courses in the list below is that each explores its substantive content area through a range of social, scientific and humanistic approaches.

² Students pursuing the senior thesis option must, in their senior year, arrange to register for 6 credits of 691/692 Senior Thesis, or 681/682 Senior Honors Thesis, in consecutive semesters for 3 credits each semester. Students are responsible for contacting a faculty member whom they would like to act as the senior thesis advisor; the major advisor can assist students in the process of selecting a senior thesis faculty advisor. Students must have the approval of the senior thesis faculty advisor before enrollment because the student will enroll for thesis credits in the department of the senior thesis faculty advisor. A student will not be able to enroll for thesis credits until after meeting with that faculty advisor. Students who plan to attend law school or graduate school and who maintain an overall grade point average of 3.0 or better at the beginning of the senior year (86 credits) are strongly urged to select the senior thesis option. The purpose of the senior thesis is to allow students to focus their interests and develop knowledge in one area of the field. Students may choose any legal studies topic for the senior thesis. The project involves using the library to review existing research and conducting original research designed by the student under the supervision of a faculty advisor. Early planning is best. Students contemplating the senior thesis option should schedule a legal studies advising appointment at least one semester before enrolling in senior thesis credits. A copy of the senior thesis paper, approved by the faculty advisor, must be submitted to the major advisor upon completion of the project.

IMPORTANT CONSIDERATIONS

No more than four (4) courses from a single department or program will count toward the legal studies major; this restriction does not apply to courses listed in or cross listed with legal studies.

Courses may appear in more than one Theme Group and/or Core Perspective but each course will only satisfy one requirement. Courses will not be double counted.

At least two courses in the major must have substantial content dealing with countries or cultures other than the United States. "A" ¹ in the list of courses below designates courses meeting this requirement.

COURSES THAT SATISFY THE REQUIREMENTS TO COMPLETE THE MAJOR

Theme Group 1: Legal Institutions

Code	Title	Credits
Theme Group 1: Legal Institutions		
GEN BUS 301	Business Law	3

ELPA 502	Workshop in Educational Leadership and Policy Analysis (*Law and Public Educ)	1-3

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all LEGAL ST and major courses

2.000 GPA on 15 upper-level major credits, taken in residence: LEGAL ST and major courses that are designated at intermediate or advanced level count as upper level.

15 credits in LEGAL ST and courses for the major, taken on campus

HONORS IN THE MAJOR

Students may apply for admission to Honors in the Legal Studies Major in consultation with the Legal Studies undergraduate advisor(s).

HONORS IN THE LEGAL STUDIES MAJOR ENTRANCE REQUIREMENTS

- Declaration of the legal studies major
- A 3.300 overall university GPA
- A 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Completion of or current enrollment in, for Honors credit, at least one course accepted in the major

HONORS IN THE LEGAL STUDIES MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Legal Studies students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Complete the research design and statistics requirements for the regular major prior to enrollment in the Senior Honors Thesis (typically junior year)
- Complete 15 credits in the major, taken for Honors, earning a B or better grade in each course
- Complete a two-semester Senior Honors thesis in LEGAL ST 681 Senior Honors Thesis and LEGAL ST 682 Senior Honors Thesis, for a total of 6 credits.¹

¹ The equivalent course in the advisor's home department may be acceptable; please see the legal studies undergraduate advisor(s) for details.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

to the many facets of law as a social phenomenon—its evolution, function, motivating ideas and effects. The major is not intended as preparation for law school because the emphasis is on exploring broadly defined questions about law from a variety of perspectives, rather than on training for the profession. The legal studies major is, however, suitable for pre-law students.

The curriculum is designed around the following five themes: Legal Institutions, Processes of Legal Order and Disorder, Law and Social Forces, Law and Culture, and Law and Theory.

LEARNING OUTCOMES

1. Introduce students to the social, political, economic, and cultural determinants of law.
2. Introduce students to the social, political, and economic impacts of law at the macro level.
3. Introduce students to the impact of law and other rules on individual level decision-making at the micro level.
4. Introduce students to the dynamics of legal ideas and ideologies.
5. Introduce students to the practical skills needed to analyze legal phenomena and to access legal resources, broadly defined.
6. Introduce students to the nature of legal reasoning and analysis in common law, civil law, and other legal systems.
7. Introduce students to the functioning of legal institutions, and how those institutions differ from other societal institutions.
8. Introduce students to the place and relevance of law within the humanities and social sciences.
9. Introduce students to the cross-cultural and international valences of law in distinctive social orders.

LEGAL STUDIES, B.S.

Legal studies is an undergraduate major in the College of Letters & Science. The program's mission is to provide a liberal education across traditional disciplines, focusing on the theory and operation of law and legal institutions. The courses in the legal studies major expose students

Theme Group 1: Legal Institutions

Institutions are at the core of social life. They govern our interactions, distribute power and resources, and influence how we make sense of the world. Courses in this theme group focus on those institutions involved in the creation and application of law. They explore such questions as how legal institutions evolve; how legal institutions help determine the shape of law—in doctrine and in action—and how and whether, in turn, legal institutions can be shaped to create different social outcomes. Institutions are central to the studies of society and politics throughout the disciplines, and courses in the group include perspectives from history, anthropology, sociology, political science, and political theory.

Theme Group 2: Processes of Legal Order and Disorder

This theme examines the dynamics of order at the individual and societal level. In the course of this examination, students are made aware of the political and social biases that can underlie definitions of "order." This theme should also allow students to address how social and political biases relate to divisions of class, race and gender, and how the mechanisms of conflict resolution and order maintenance can be used to reinforce or challenge existing power structures.

Theme Group 3: Law and Social Forces

This theme group explores the intersection between law, social structures and social movements. Courses in this group address social inequality, generally in the U.S. context, grounded in ethno-racial, gender, and sexuality-based difference. At critical points, the struggle for equality has taken pointedly legal form, whether in the shape of campaigns for legislative change or recognition, or through the litigation of particular cases. Legal categories have informed social identities. Equally, changing social identities have pushed back on legal categories. Courses integrate broad social dynamics with the rise of organized social movements that use law as an arena in which to reassess social life and values.

Theme Group 4: Law and Culture

This theme group introduces students to legal thought, institutions, and practices beyond mainstream or contemporary legal systems, specifically modern Euro-American legal cultures. Courses in this theme group present either culturally based challenges to mainstream modern legal systems or legal systems that are culturally or historically distinct from them. The comparative study of distinct legal traditions and movements forces us to reexamine the cultural presuppositions embedded in modern legal systems, revealing both good reasons for defending mainstream Euro-American laws and arguments and models for changing or questioning prevailing systems. Courses examine historical developments in or affecting law, non-Western legal thought or traditions, and the effect of cultural institutions such as religion, literature, or media on law.

Theme Group 5: Law and Theory

Many theoretical and philosophical questions are articulated as propositions about law: its nature, sources, contents, and relations to other aspects of social life. While only some philosophers or social,

political or legal theorists work specifically in the area of "legal theory," almost literally all work in any of these areas contributes to our understanding of the sources and nature of law, legal institutions and legal practices, and for many if not most theorists explicit discussions of law are central elements of their work. Courses in this theme group focus on the ways in which "law" is treated as a working concept or as a subject of study in theoretical works, and conversely on how understandings drawn from theoretical writings inform our own understanding of law in all its dimensions.

HOW TO GET IN

PREREQUISITES FOR THE MAJOR

Those wishing to declare the major should schedule an appointment with the legal studies advisor.

To declare the legal studies major, students must complete three (3) prerequisite courses with grades of C or better. Students may be exempt from COMM-A by their English Placement score and from QR-A by their Math Placement score.

The three prerequisite courses consist of:

- a Communication A course;
- a Quantitative Reasoning A course; and
- one "Gateway Course" chosen from the list below.

GATEWAY COURSES

Code	Title	Credits
Select one of the following:		
LEGAL ST/SOC 131	Criminal Justice in America	3-4
LEGAL ST/POLI SCI 217	Law, Politics and Society	

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

In addition to the Gateway Courses, at least 11 courses are required to complete the legal studies major.

Code	Title	Credits
Select two courses from those listed in the Legal Institutions Theme Group		
Select four courses distributed across at least three of the following Theme Groups:		
	Processes of Legal Order & Disorder	
	Law and Social Forces	
	Law and Culture	
	Law and Theory	
Select one of the following methods courses in research and design:		
POLI SCI 170	Research Methods in Political Science	3
POLI SCI/JOURN/ URB R PL 373	Introduction to Survey Research	3
PSYCH 225	Research Methods	4
SOC/C&E SOC 357	Methods of Sociological Inquiry	3-4
Select one of the following methods courses in statistics:		
ECON 310	Statistics: Measurement in Economics	4
GEN BUS 303	Business Statistics	3
POLI SCI 374	Introduction to Statistical Inference for Political Research	3-4
PSYCH 210	Basic Statistics for Psychology	3
SOC/C&E SOC 360	Statistics for Sociologists I	4
STAT 301	Introduction to Statistical Methods	3
STAT 371	Introductory Applied Statistics for the Life Sciences	3
Select one of the following Core Perspectives courses: ¹		
LEGAL ST/HISTORY 261	American Legal History to 1860	3
LEGAL ST/HISTORY 262	American Legal History, 1860 to the Present	3
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (*Civil Rights *Amer Juvenile Just *Surveillance *Privacy & Pol *Race and the Law)	3-4
LEGAL ST/HISTORY 426	The History of Punishment	3-4
LEGAL ST 450	Topics in Legal Studies and the Humanities (*Jurisprudence *Medieval Law and Society *Medico-Legal History)	3-4
LEGAL ST/LCA/ RELIG ST 628	Hindu Law	3
LEGAL ST 409	Human Rights in Law and Society	3

LEGAL ST/L I S 460	Surveillance, Privacy, and Police Powers	3
LEGAL ST/HISTORY 510	Legal Pluralism	3
LEGAL ST/ HISTORY 459	Rule of Law: Philosophical and Historical Models	3-4
LEGAL ST/SOC 641	Sociology of Law	3-4
Select one of the following:		
A Senior Thesis (6 credits) ²		
Two additional courses from the five Theme Groups		

Footnotes

- ¹ All legal studies majors are required to take one Core Perspectives course. The following courses count as Core Perspectives courses if they are taught by core legal studies faculty; if any of these courses is taught by non-legal studies faculty, the determination of whether they will count for Core Perspectives credit will be made prior to the beginning of the semester in which the course is offered. Each of these courses is intended to provide a broad and intellectually flexible perspective that can serve as a framework for gaining a deeper understanding of the material taught in other courses in the program. The Core Perspectives courses do not necessarily overlap; the criterion for inclusion of courses in the list below is that each explores its substantive content area through a range of social, scientific and humanistic approaches.
- ² Students pursuing the senior thesis option must, in their senior year, arrange to register for 6 credits of 691/692 Senior Thesis, or 681/682 Senior Honors Thesis, in consecutive semesters for 3 credits each semester. Students are responsible for contacting a faculty member whom they would like to act as the senior thesis advisor; the major advisor can assist students in the process of selecting a senior thesis faculty advisor. Students must have the approval of the senior thesis faculty advisor before enrollment because the student will enroll for thesis credits in the department of the senior thesis faculty advisor. A student will not be able to enroll for thesis credits until after meeting with that faculty advisor. Students who plan to attend law school or graduate school and who maintain an overall grade point average of 3.0 or better at the beginning of the senior year (86 credits) are strongly urged to select the senior thesis option. The purpose of the senior thesis is to allow students to focus their interests and develop knowledge in one area of the field. Students may choose any legal studies topic for the senior thesis. The project involves using the library to review existing research and conducting original research designed by the student under the supervision of a faculty advisor. Early planning is best. Students contemplating the senior thesis option should schedule a legal studies advising appointment at least one semester before enrolling in senior thesis credits. A copy of the senior thesis paper, approved by the faculty advisor, must be submitted to the major advisor upon completion of the project.

IMPORTANT CONSIDERATIONS

No more than four (4) courses from a single department or program will count toward the legal studies major; this restriction does not apply to courses listed in or cross listed with legal studies.

Courses may appear in more than one Theme Group and/or Core Perspective but each course will only satisfy one requirement. Courses will not be double counted.

At least two courses in the major must have substantial content dealing with countries or cultures other than the United States. "A"¹ in the list of courses below designates courses meeting this requirement.

COURSES THAT SATISFY THE REQUIREMENTS TO COMPLETE THE MAJOR

Theme Group 1: Legal Institutions

Code	Title	Credits
Theme Group 1: Legal Institutions		
GEN BUS 301	Business Law	3
ELPA 502	Workshop in Educational Leadership and Policy Analysis (*Law and Public Educ)	1-3

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all LEGAL ST and major courses

2.000 GPA on 15 upper-level major credits, taken in residence: LEGAL ST and major courses that are designated at intermediate or advanced level count as upper level.

15 credits in LEGAL ST and courses for the major, taken on campus

HONORS IN THE MAJOR

Students may apply for admission to Honors in the Legal Studies Major in consultation with the Legal Studies undergraduate advisor(s).

HONORS IN THE LEGAL STUDIES MAJOR ENTRANCE REQUIREMENTS

- Declaration of the legal studies major
- A 3.300 overall university GPA
- A 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Completion of or current enrollment in, for Honors credit, at least one course accepted in the major

HONORS IN THE LEGAL STUDIES MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Legal Studies students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Complete the research design and statistics requirements for the regular major prior to enrollment in the Senior Honors Thesis (typically junior year)
- Complete 15 credits in the major, taken for Honors, earning a B or better grade in each course
- Complete a two-semester Senior Honors thesis in LEGAL ST 681 Senior Honors Thesis and LEGAL ST 682 Senior Honors Thesis, for a total of 6 credits.¹

¹ The equivalent course in the advisor's home department may be acceptable; please see the legal studies undergraduate advisor(s) for details.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Introduce students to the social, political, economic, and cultural determinants of law.
2. Introduce students to the social, political, and economic impacts of law at the macro level.
3. Introduce students to the impact of law and other rules on individual level decision-making at the micro level.
4. Introduce students to the dynamics of legal ideas and ideologies.
5. Introduce students to the practical skills needed to analyze legal phenomena and to access legal resources, broadly defined.
6. Introduce students to the nature of legal reasoning and analysis in common law, civil law, and other legal systems.
7. Introduce students to the functioning of legal institutions, and how those institutions differ from other societal institutions.
8. Introduce students to the place and relevance of law within the humanities and social sciences.
9. Introduce students to the cross-cultural and international valences of law in distinctive social orders.

CHEMISTRY

The mission of the Department of Chemistry is to conduct world-class, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. The department's leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, and nanotechnology. The Department of Chemistry prides itself on its highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The undergraduate chemistry major leads to a bachelor of science or a bachelor of arts degree awarded by the College of Letters & Science. The curriculum provides excellent preparation in chemistry, along with a wide breadth of liberal arts coursework. At the same time, the program provides significant opportunities for students to participate in scientific inquiry, within both laboratory courses and research laboratories. Students from other colleges within the university may pursue the chemistry major as an additional major. When pursuing a chemistry major, the undergraduate student must meet university general education requirements and breadth requirements of their own college, along with the specific requirements for the chemistry major.

The chemistry major prepares graduates for a wide variety of careers in the chemical and related industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, and food), as well as environmental, pharmaceutical, and other health-related sciences. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. The major prepares students for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are able to obtain funding for graduate studies in chemistry and related sciences through teaching or research assistantships and fellowships. Some chemistry major graduates go on to professional schools to study medicine, pharmacy, dentistry, veterinary medicine, business, or law.

STUDENT SERVICES AND ADVISING

Barta, Cheri (Undergraduate Research Director)
 Hamers, Jeanne (Undergraduate Chemistry Director and Chemistry Advisor)

RESOURCES AND SCHOLARSHIPS

ACADEMIC RESOURCES

A number of resources are available to students seeking assistance with their chemistry courses. Students are strongly encouraged to attend the office hours of the instructors for the course.

The Chemistry Learning Center (CLC) (<http://www.chem.wisc.edu/areas/clc/mission.htm>) supports students in introductory chemistry courses (103, 104, and 108) and in some sections of organic chemistry. The center welcomes as many students as possible but unfortunately does not have sufficient resources to support all students seeking help. The center is funded to work with specific groups of students, such as first-generation low-income students, underrepresented students, students on academic probation, students with disabilities, students who have trouble understanding English, new transfer students, recently returning veterans, and students at-risk of failing the course. These are general guidelines and the center considers each student seeking assistance on a case-by-case basis, taking into account available program space. Program eligibility is usually determined by an interview with a staff member.

Further assistance may be sought from various tutoring services on campus, including the Greater University Tutoring Services (GUTS) (<http://www.guts.wisc.edu>), University Housing Tutoring (<http://www.housing.wisc.edu/residencehalls-academics-tutoring.htm>), and the College of Engineering Undergraduate Learning Center (ULC) (<https://www.engr.wisc.edu/academics/student-services/ulc>). Alpha Chi Sigma (AXE) (<https://win.wisc.edu/organization/axsigma>) is a co-ed

professional chemistry fraternity that also offers tutoring. For students seeking more individualized tutoring, the Department of Chemistry maintains a list of private tutors (<https://www.chem.wisc.edu/content/tutors>) available for hire.

SCHOLARSHIPS

Through the generosity of alumni and other friends of the department, the Department of Chemistry is able to offer scholarships and summer research support. In 2016, the department awarded almost 30 undergraduate scholarships that totaled more than \$150,000.

Any student who will be enrolled as an undergraduate at UW-Madison during the next academic year and is a chemistry major or is conducting research with a chemistry faculty member is eligible to apply for the scholarships. An overall GPA of at least 3.0 is required for application; awards are based on both merit and financial need. Students may apply for academic year scholarships and/or summer research support. Learn more about chemistry scholarships (<https://www.chem.wisc.edu/content/chemistry-scholarships>) and how to apply.

CHEMISTRY, B.A.

The mission of the Department of Chemistry is to conduct world-class, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. The department's leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, and nanotechnology. The Department of Chemistry prides itself on its highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The undergraduate chemistry major leads to a bachelor of science or a bachelor of arts degree awarded by the College of Letters & Science. The curriculum provides excellent preparation in chemistry, along with a wide breadth of liberal arts coursework. At the same time, the program provides significant opportunities for students to participate in scientific inquiry, within both laboratory courses and research laboratories. Students from other colleges within the university may pursue the chemistry major as an additional major. When pursuing a chemistry major, the undergraduate student must meet university general education requirements and breadth requirements of their own college, along with the specific requirements for the chemistry major.

The chemistry major prepares graduates for a wide variety of careers in the chemical and related industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, and food), as well as environmental, pharmaceutical, and other health-related sciences. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. The major prepares students for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are able to obtain funding for graduate studies in chemistry and related sciences through teaching or research assistantships and fellowships. Some chemistry major graduates go on to professional schools to study medicine, pharmacy, dentistry, veterinary medicine, business, or law.

HOW TO GET IN

Students who are interested in the chemistry major are encouraged to declare the major no later than the end of their sophomore year. There are many advantages to declaring the chemistry major early, including access to chemistry advising, access to scholarships only available to chemistry majors, and access to announcements for chemistry majors. Students who have declared the major become a part of our chemistry community, enabling them to better connect with faculty, staff and other chemistry majors.

Students who meet the recommendations (<https://www.chem.wisc.edu/content/declaring-major>) for declaring the major are invited to schedule an appointment (<https://www.chem.wisc.edu/content/undergraduate-advising>) with the undergraduate chemistry advisor to develop a four-year plan and to declare.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General	• Breadth—Humanities/Literature/Arts: 6 credits
Education	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW-Madison

2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

MATH & PHYSICS

Code	Title	Credits
Mathematics (1 course) ¹		5
MATH 222	Calculus and Analytic Geometry 2	
MATH 276	Topics in Calculus II	
Physics		10
<i>First Introductory Course (1 course)</i>		
PHYSICS 207	General Physics	
PHYSICS 201	General Physics	
PHYSICS 247	A Modern Introduction to Physics	
<i>Second Introductory Course (1 course)</i>		
PHYSICS 208	General Physics	
PHYSICS 202	General Physics	

PHYSICS 248	A Modern Introduction to Physics	
Total Credits		15

CHEMISTRY

Code	Title	Credits
General Chemistry (1 course)		5
CHEM 104	General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115	Chemical Principles I ²	
Analytical Chemistry (1 course)		4-5
CHEM 327	Fundamentals of Analytical Science	
CHEM 329	Fundamentals of Analytical Science	
CHEM 116	Chemical Principles II	
Inorganic Chemistry (1 course)		4
CHEM 311	Chemistry Across the Periodic Table	4
Organic Chemistry (3 courses) ³		8
CHEM 343	Introductory Organic Chemistry	
CHEM 344	Introductory Organic Chemistry Laboratory	
CHEM 345	Intermediate Organic Chemistry	
Physical Chemistry		3-4
Part 1 (1 course)		
CHEM 561	Physical Chemistry	
CHEM 565	Biophysical Chemistry	
CBE 310	Chemical Process Thermodynamics	
Part 2 (1 course) ⁴		
CHEM 562	Physical Chemistry	
Part 3 (2 courses)		
CHEM 564	Physical Chemistry Laboratory	
CHEM 563	Physical Chemistry Laboratory	
Advanced Non-laboratory Coursework		5
non-lab CHEM 500-680; non-lab BIOCHEM 500-680 ⁵		
Additional Laboratory Work		3
CHEM 346	Intermediate Organic Chemistry Laboratory	
CHEM 524	Chemical Instrumentation ⁶	
CHEM 691 & CHEM 692	Senior Thesis and Senior Thesis	
CHEM 699	Directed Study	
BMOLCHEM 504	Human Biochemistry Laboratory ⁷	
Total Credits		36-38

RESIDENCE AND QUALITY OF WORK IN THE MAJOR

2.000 GPA in all CHEM and major courses

2.000 GPA on at least 15 credits of upper-level work in the major⁸

15 credits in CHEM, taken at UW-Madison

NOTES

¹ MATH 234 Calculus-Functions of Several Variables and MATH 320 Linear Algebra and Differential Equations is highly recommended

² Enrollment in CHEM 115 and CHEM 116 is by invitation only. Entering first-year students are screened on the basis of high school record

and placement scores, and additional information is sent to those who might be eligible.

- ³ CHEM 343 must be taken first, followed by CHEM 345. CHEM 344 may be taken concurrently with or after CHEM 345.
- ⁴ It is recommended that CHEM 563 be taken concurrently with CHEM 562 and that CHEM 564 be taken after completion of CHEM 562. Especially strong students needing to complete physical chemistry in two semesters may take CHEM 563 concurrently with CHEM 561 (or CHEM 565) and CHEM 564 concurrently with CHEM 562.
- ⁵ One credit from each of CHEM 116 and CHEM 565 count toward the 5 credits. Only 2 of the 3 credits from CHEM 524 count. The other credit from CHEM 524 counts toward the additional laboratory work. Some courses from other departments may be chosen as well, including CHEM/M S & E 421, CBE 440, CBE 540, and CBE 547.
- ⁶ Only 1 of the 3 credits from CHEM 524 counts for additional laboratory work requirement. The other 2 credits count toward the advanced non-laboratory coursework.
- ⁷ BMOLCHEM 504 does not count for students who are also majoring in biochemistry. Nor will it count for students who are using this course to satisfy requirements for another major.
- ⁸ Upper-level work in the major includes: CHEM 346, CHEM/M S & E 421, CHEM 500–699, BIOCHEM 501, BIOCHEM 507, BIOCHEM 508, CBE 310, CBE 440, CBE 540, CBE 599.

HONORS IN THE MAJOR

Students may declare Honors in the Chemistry Major in consultation with the chemistry major advisor (<https://www.chem.wisc.edu/content/undergraduate-advising>). To be admitted to the Honors Program in Chemistry, students must have declared a major in chemistry and achieved a 3.300 GPA in all CHEM courses taken.

HONORS IN THE CHEMISTRY MAJOR REQUIREMENTS

To earn the B.A. or B.S. with Honors in the Major in Chemistry students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
 - Earn a 3.300 GPA for all CHEM courses
 - Complete at least 3 credits of advanced work beyond those already required for the major. This requirement may be met in one of three ways:
 - With additional 500-level or higher courses in chemistry or biochemistry;
 - With additional research credits, beyond credits for the Senior Honors Thesis and beyond any credits that are being used to satisfy the 3 additional laboratory credits required for the major; or
 - With additional breadth courses in other related disciplines¹
 - Complete a two-semester Senior Honors Thesis in CHEM 681 Senior Honors Thesis and CHEM 682 Senior Honors Thesis, for a total of 6 credits.
- ¹ Examples of breadth courses include engineering, physics, molecular biology, computer science, water chemistry, and business. Advanced-level courses should be chosen in consultation with the student's research mentor.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

The chemistry major curriculum provides students with a sound foundation in chemical principles along with significant opportunities to participate in scientific inquiry in a creative environment. Students majoring in chemistry gain knowledge, skills, and experiences that enable them to address real world chemical problems. These skills include the ability to solve problems, think critically, and act ethically. Specific learning goals for the major are detailed below.

1. Students will identify, formulate and solve integrative problems using appropriate information and approaches.
2. Students will demonstrate an understanding of basic chemical transformations, including the ability to predict chemical reactivity and properties.
3. Students will recognize the relationship between structure, bonding and the properties of molecules and materials.
4. Students will model chemical systems and experimental data using relevant quantitative, mathematical and computational methods.
5. Students will be able to design, conduct and analyze experiments safely and successfully.
6. Students will be capable of locating, evaluating and using information in the chemical literature.
7. Students will communicate chemical knowledge effectively through written reports, oral presentations and visual aids.
8. Students will be able to work collaboratively with others, both chemists and those from other disciplines, to solve problems and create new knowledge.
9. Students will recognize how chemistry relates to contemporary issues in our society.
10. Students will have an understanding of professional and ethical responsibility.

ADVISING AND CAREERS

ADVISING

The chemistry advisor (<http://www.chem.wisc.edu/content/undergraduate-advising>) provides advising for chemistry majors and prospective chemistry majors. Appointments with the advisor can be scheduled via the Scheduling Assistant (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/OaaAyBiv.html>). Drop-in advising is available during the first two weeks of the fall and spring semesters and during busy enrollment periods, typically in April and November.

Chemistry majors interested in getting involved in research should explore the undergraduate research (<http://www.chem.wisc.edu/content/get-started>) pages on the chemistry website. Students needing additional information may contact the undergraduate research director by email (chem_ugr_research@chem.wisc.edu).

Students with enrollment and course access questions should first visit our enrollment inquiries (<http://www.chem.wisc.edu/content/enrollment-inquiries>) web page. If further assistance is needed, students may visit the Undergraduate Chemistry Office (room 1328 Chemistry) during normal business hours, email (undergrad@chem.wisc.edu), or call 608-263-2424.

CAREER SERVICES

The chemistry major prepares graduates for a wide variety of careers in the chemical and related industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, and food), as well as environmental, pharmaceutical, and other health-related sciences. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. The major prepares students for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are able to obtain funding for graduate studies in chemistry and related sciences through teaching or research assistantships and fellowships. Some chemistry major graduates go on to professional schools to study medicine, pharmacy, dentistry, veterinary medicine, business, or law.

Students are encouraged to begin their career planning early and to take advantage of the numerous resources offered by the College of Letters & Science Career Services (<http://careers.ls.wisc.edu/students.htm>). Information about careers, internships, resumes, cover letters, job search strategies, interviewing, and graduate school preparation are all available through L&S Career Services. Students can also register for BuckyNet (<http://careers.ls.wisc.edu/buckynet-students.htm>), an online resource for students to make connections with potential employers. Current career, research, and internship opportunities of specific interest to chemistry students can be found on the Career Services (<http://www.chem.wisc.edu/content/career-services>) pages of the chemistry website.

WISCONSIN EXPERIENCE

RESEARCH

There are many research opportunities for undergraduates in the Department of Chemistry. When conducting research, students will have the opportunity to work alongside world-class faculty, staff, and graduate students to gain hands-on research experiences that will supplement their liberal arts education and prepare students for future careers. We have researchers involved in all the core areas of chemistry: analytical, chemical biology, chemical education, inorganic, materials, organic, physical, and theoretical. Many of our researchers conduct research across disciplines, including medicine, pharmacy, biology, engineering, energy, environmental sciences, and physics. Although preference is given to chemistry majors in good academic standing, any student interested in conducting chemistry research can seek out opportunities in our department. Students have the option of volunteering in a research lab or conducting research for course credit by enrolling in CHEM 299 Directed Study, CHEM 699 Directed Study, CHEM 681/CHEM 682 Senior Honors Thesis, or CHEM 691/CHEM 692 Senior Thesis. Students can also gain research experiences through the elective courses CHEM 260 Entering Research I, CHEM 261 Entering Research II, and CHEM 346

Intermediate Organic Chemistry Laboratory, as well as the required course CHEM 329 Fundamentals of Analytical Science. In some cases, experienced undergraduates may be paid to conduct research. For additional information about undergraduate research, including how to get involved, please visit the department's Undergraduate Research (<https://www.chem.wisc.edu/content/research-overview>) page.

STUDENT ORGANIZATIONS

A number of students of organizations are available for students interested in the chemical sciences.

- The American Chemical Society (ACS) Student Chapter (<https://win.wisc.edu/organization/acs>) facilitates opportunities for students in the chemical sciences to promote the learning and advancement of chemistry. The chapter supports students in their academic development, professional development, and research pursuits.
- Alpha Chi Sigma (AXE) (<https://alphachisigmauw.wordpress.com>) is a national, co-ed, professional chemistry organization that was founded at UW–Madison in 1902. The UW–Madison chapter has an active membership of about 40 students, both graduate and undergraduate. The organization also has two houses, at 619 and 621 North Lake Street, which house nearly half of the members. The houses are the primary locations for events like tutoring, chapter dinners, meetings, and social events.
- Students Participating in Chemical Education (SPICE) (<http://ice.chem.wisc.edu/SPICE.html>) trains undergraduates to perform chemistry demonstrations in order to interest elementary and middle school students in chemistry and science via cool experiments, hands-on activities, and exploration stations at public venues.
- The UW–Madison student chapter of NOBCChE (<https://win.wisc.edu/organization/NOBCChE>) (National Organization for the Professional Advancement of Black Chemists and Chemical Engineers) seeks to encourage students of color to pursue graduate and professional degrees in chemistry, chemical engineering, and other chemistry-related fields. Members participate in professional development through national conference presentations, networking, and community service activities.
- SACNAS (<http://uwmadisonsacnas.weebly.com>) (the Society for the Advancement of Hispanics/Chicanos and Native Americans) is a society of scientists dedicated to fostering the success of Hispanic/Chicano and Native American scientists—from college students to professionals—to attain advanced degrees, careers, and positions of leadership in science.

CERTIFICATION/LICENSURE

ACS CERTIFIED DEGREE

The UW–Madison Department of Chemistry is approved by the American Chemical Society (ACS) to certify the degrees of graduating students who have completed the curriculum and professional training recommended by ACS for chemistry bachelor's degree graduates. Certification indicates that the student has completed rigorous course work that provides them with the skills needed for a successful career in science.

Students graduating with the chemistry major from UW–Madison already meet most of the requirements of ACS certification. They can obtain the certification by electing to take specific courses that satisfy both the requirements of the major and the ACS guidelines. Additional requirements for certification are:

- A course in biochemistry, satisfied by BIOCHEM 501 Introduction to Biochemistry or BIOCHEM 507 General Biochemistry I (3 credits)
- At least 400 total laboratory hours, which can be satisfied by the combination of all the required core laboratory courses (in organic, inorganic, analytical and physical chemistry) plus two to three laboratory credits from any combination of CHEM 346 Intermediate Organic Chemistry Laboratory, CHEM 524 Chemical Instrumentation (3 credit course, but only one credit is a lab credit), CHEM 681/CHEM 682 Senior Honors Thesis, CHEM 691/ CHEM 692 Senior Thesis or BMOLCHEM 504 Human Biochemistry Laboratory. The exact number of lab credits required from these courses depends on how the student has satisfied the core lab requirements. Please consult the Chemistry Major Advisor (<https://www.chem.wisc.edu/content/undergraduate-advising>) for more details.

The biochemistry course satisfies three of the five credits of advanced work required for the chemistry major, while two credits from CHEM 524 also count towards the advanced work. CHEM 346, 1 credit of CHEM 524, CHEM 691/CHEM 692 and BMOLCHEM 504 all count towards the three additional lab credits required for the major, while CHEM 681/CHEM 682 does not. CHEM 681/682 is required for students earning honors in the chemistry major.

Note that neither CHEM 299 Directed Study nor CHEM 699 Directed Study can be used to satisfy the lab hours needed for ACS certification. However, CHEM 699 can be used to satisfy additional lab credits needed for the chemistry major.

RESOURCES AND SCHOLARSHIPS

ACADEMIC RESOURCES

A number of resources are available to students seeking assistance with their chemistry courses. Students are strongly encouraged to attend the office hours of the instructors for the course.

The Chemistry Learning Center (CLC) (<http://www.chem.wisc.edu/areas/clc/mission.htm>) supports students in introductory chemistry courses (103, 104, and 108) and in some sections of organic chemistry. The center welcomes as many students as possible but unfortunately does not have sufficient resources to support all students seeking help. The center is funded to work with specific groups of students, such as first-generation low-income students, underrepresented students, students on academic probation, students with disabilities, students who have trouble understanding English, new transfer students, recently returning veterans, and students at-risk of failing the course. These are general guidelines and the center considers each student seeking assistance on a case-by-case basis, taking into account available program space. Program eligibility is usually determined by an interview with a staff member.

Further assistance may be sought from various tutoring services on campus, including the Greater University Tutoring Services (GUTS) (<http://www.guts.wisc.edu>), University Housing Tutoring (<http://www.housing.wisc.edu/residencehalls-academics-tutoring.htm>), and the College of Engineering Undergraduate Learning Center (ULC) (<https://www.engr.wisc.edu/academics/student-services/ulc>). Alpha Chi Sigma (AXE) (<https://win.wisc.edu/organization/axsigma>) is a co-ed professional chemistry fraternity that also offers tutoring. For students seeking more individualized tutoring, the Department of Chemistry maintains a list of private tutors (<https://www.chem.wisc.edu/content/tutors>) available for hire.

SCHOLARSHIPS

Through the generosity of alumni and other friends of the department, the Department of Chemistry is able to offer scholarships and summer research support. In 2016, the department awarded almost 30 undergraduate scholarships that totaled more than \$150,000.

Any student who will be enrolled as an undergraduate at UW-Madison during the next academic year and is a chemistry major or is conducting research with a chemistry faculty member is eligible to apply for the scholarships. An overall GPA of at least 3.0 is required for application; awards are based on both merit and financial need. Students may apply for academic year scholarships and/or summer research support. Learn more about chemistry scholarships (<https://www.chem.wisc.edu/content/chemistry-scholarships>) and how to apply.

CHEMISTRY, B.S.

The mission of the Department of Chemistry is to conduct world-class, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. The department's leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, and nanotechnology. The Department of Chemistry prides itself on its highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The undergraduate chemistry major leads to a bachelor of science or a bachelor of arts degree awarded by the College of Letters & Science. The curriculum provides excellent preparation in chemistry, along with a wide breadth of liberal arts coursework. At the same time, the program provides significant opportunities for students to participate in scientific inquiry, within both laboratory courses and research laboratories. Students from other colleges within the university may pursue the chemistry major as an additional major. When pursuing a chemistry major, the undergraduate student must meet university general education requirements and breadth requirements of their own college, along with the specific requirements for the chemistry major.

The chemistry major prepares graduates for a wide variety of careers in the chemical and related industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, and food), as well as environmental, pharmaceutical, and other health-related sciences. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. The major prepares students for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are able to obtain funding for graduate studies in chemistry and related sciences through teaching or research assistantships and fellowships. Some chemistry major graduates go on to professional schools to study medicine, pharmacy, dentistry, veterinary medicine, business, or law.

HOW TO GET IN

Students who are interested in the chemistry major are encouraged to declare the major no later than the end of their sophomore year. There

are many advantages to declaring the chemistry major early, including access to chemistry advising, access to scholarships only available to chemistry majors, and access to announcements for chemistry majors. Students who have declared the major become a part of our chemistry community, enabling them to better connect with faculty, staff and other chemistry majors.

Students who meet the recommendations (<https://www.chem.wisc.edu/content/declaring-major>) for declaring the major are invited to schedule an appointment (<https://www.chem.wisc.edu/content/undergraduate-advising>) with the undergraduate chemistry advisor to develop a four-year plan and to declare.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR MATH & PHYSICS

Code	Title	Credits
Mathematics (1 course) ¹		5
MATH 222	Calculus and Analytic Geometry 2	
MATH 276	Topics in Calculus II	
Physics		10
<i>First Introductory Course (1 course)</i>		
PHYSICS 207	General Physics	
PHYSICS 201	General Physics	
PHYSICS 247	A Modern Introduction to Physics	
<i>Second Introductory Course (1 course)</i>		
PHYSICS 208	General Physics	
PHYSICS 202	General Physics	
PHYSICS 248	A Modern Introduction to Physics	
Total Credits		15

CHEMISTRY

Code	Title	Credits
General Chemistry (1 course)		5
CHEM 104	General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115	Chemical Principles I ²	
Analytical Chemistry (1 course)		4-5
CHEM 327	Fundamentals of Analytical Science	
CHEM 329	Fundamentals of Analytical Science	
CHEM 116	Chemical Principles II	
Inorganic Chemistry (1 course)		4
CHEM 311	Chemistry Across the Periodic Table	4
Organic Chemistry (3 courses)³		8
CHEM 343	Introductory Organic Chemistry	
CHEM 344	Introductory Organic Chemistry Laboratory	
CHEM 345	Intermediate Organic Chemistry	
Physical Chemistry		3-4
Part 1 (1 course)		
CHEM 561	Physical Chemistry	
CHEM 565	Biophysical Chemistry	
CBE 310	Chemical Process Thermodynamics	
Part 2 (1 course)⁴		
CHEM 562	Physical Chemistry	
Part 3 (2 courses)		
CHEM 564	Physical Chemistry Laboratory	
CHEM 563	Physical Chemistry Laboratory	
Advanced Non-laboratory Coursework		5
non-lab CHEM 500–680; non-lab BIOCHEM 500-680 ⁵		
Additional Laboratory Work		3
CHEM 346	Intermediate Organic Chemistry Laboratory	
CHEM 524	Chemical Instrumentation ⁶	
CHEM 691 & CHEM 692	Senior Thesis and Senior Thesis	
CHEM 699	Directed Study	
BMOLCHEM 504	Human Biochemistry Laboratory ⁷	
Total Credits		36-38

RESIDENCE AND QUALITY OF WORK IN THE MAJOR

2.000 GPA in all CHEM and major courses

2.000 GPA on at least 15 credits of upper-level work in the major⁸

15 credits in CHEM, taken at UW–Madison

NOTES

¹ MATH 234 Calculus–Functions of Several Variables and MATH 320 Linear Algebra and Differential Equations is highly recommended

² Enrollment in CHEM 115 and CHEM 116 is by invitation only. Entering first-year students are screened on the basis of high school record and placement scores, and additional information is sent to those who might be eligible.

³ CHEM 343 must be taken first, followed by CHEM 345. CHEM 344 may be taken concurrently with or after CHEM 345.

⁴ It is recommended that CHEM 563 be taken concurrently with CHEM 562 and that CHEM 564 be taken after completion of CHEM 562. Especially strong students needing to complete physical chemistry in two semesters may take CHEM 563 concurrently with CHEM 561 (or CHEM 565) and CHEM 564 concurrently with CHEM 562.

⁵ One credit from each of CHEM 116 and CHEM 565 count toward the 5 credits. Only 2 of the 3 credits from CHEM 524 count. The other credit from CHEM 524 counts toward the additional laboratory work. Some courses from other departments may be chosen as well, including CHEM/M S & E 421, CBE 440, CBE 540, and CBE 547.

⁶ Only 1 of the 3 credits from CHEM 524 counts for additional laboratory work requirement. The other 2 credits count toward the advanced non-laboratory coursework.

⁷ BMOLCHEM 504 does not count for students who are also majoring in biochemistry. Nor will it count for students who are using this course to satisfy requirements for another major.

⁸ Upper-level work in the major includes: CHEM 346, CHEM/M S & E 421, CHEM 500–699, BIOCHEM 501, BIOCHEM 507, BIOCHEM 508, CBE 310, CBE 440, CBE 540, CBE 599.

HONORS IN THE MAJOR

Students may declare Honors in the Chemistry Major in consultation with the chemistry major advisor (<https://www.chem.wisc.edu/content/undergraduate-advising>). To be admitted to the Honors Program in Chemistry, students must have declared a major in chemistry and achieved a 3.300 GPA in all CHEM courses taken.

HONORS IN THE CHEMISTRY MAJOR REQUIREMENTS

To earn the B.A. or B.S. with Honors in the Major in Chemistry students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all CHEM courses
- Complete at least 3 credits of advanced work beyond those already required for the major. This requirement may be met in one of three ways:
 - With additional 500-level or higher courses in chemistry or biochemistry;
 - With additional research credits, beyond credits for the Senior Honors Thesis and beyond any credits that are being used to satisfy the 3 additional laboratory credits required for the major; or
 - With additional breadth courses in other related disciplines¹
- Complete a two-semester Senior Honors Thesis in CHEM 681 Senior Honors Thesis and CHEM 682 Senior Honors Thesis, for a total of 6 credits.

¹ Examples of breadth courses include engineering, physics, molecular biology, computer science, water chemistry, and business. Advanced-level courses should be chosen in consultation with the student's research mentor.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

The chemistry major curriculum provides students with a sound foundation in chemical principles along with significant opportunities to participate in scientific inquiry in a creative environment. Students majoring in chemistry gain knowledge, skills, and experiences that enable them to address real world chemical problems. These skills include the ability to solve problems, think critically, and act ethically. Specific learning goals for the major are detailed below.

1. Students will identify, formulate and solve integrative problems using appropriate information and approaches.
2. Students will demonstrate an understanding of basic chemical transformations, including the ability to predict chemical reactivity and properties.
3. Students will recognize the relationship between structure, bonding and the properties of molecules and materials.
4. Students will model chemical systems and experimental data using relevant quantitative, mathematical and computational methods.
5. Students will be able to design, conduct and analyze experiments safely and successfully.
6. Students will be capable of locating, evaluating and using information in the chemical literature.
7. Students will communicate chemical knowledge effectively through written reports, oral presentations and visual aids.
8. Students will be able to work collaboratively with others, both chemists and those from other disciplines, to solve problems and create new knowledge.
9. Students will recognize how chemistry relates to contemporary issues in our society.
10. Students will have an understanding of professional and ethical responsibility.

ADVISING AND CAREERS

ADVISING

The chemistry advisor (<http://www.chem.wisc.edu/content/undergraduate-advising>) provides advising for chemistry majors and prospective chemistry majors. Appointments with the advisor can be scheduled via the Scheduling Assistant (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/OaaAyBiv.html>). Drop-in advising is available during the first two weeks of the fall and spring semesters and during busy enrollment periods, typically in April and November.

Chemistry majors interested in getting involved in research should explore the undergraduate research (<http://www.chem.wisc.edu/content/get-started>) pages on the chemistry website. Students needing additional information may contact the undergraduate research director by email (chem_ugr_research@chem.wisc.edu).

Students with enrollment and course access questions should first visit our enrollment inquiries (<http://www.chem.wisc.edu/content/enrollment-inquiries>) web page. If further assistance is needed, students may visit the Undergraduate Chemistry Office (room 1328 Chemistry) during normal business hours, email (undergrad@chem.wisc.edu), or call 608-263-2424.

CAREER SERVICES

The chemistry major prepares graduates for a wide variety of careers in the chemical and related industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, and food), as well as environmental, pharmaceutical, and other health-related sciences. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. The major prepares students for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are able to obtain funding for graduate studies in chemistry and related sciences through teaching or research assistantships and fellowships. Some chemistry major graduates go on to professional schools to study medicine, pharmacy, dentistry, veterinary medicine, business, or law.

Students are encouraged to begin their career planning early and to take advantage of the numerous resources offered by the College of Letters & Science Career Services (<http://careers.ls.wisc.edu/students.htm>). Information about careers, internships, resumes, cover letters, job search strategies, interviewing, and graduate school preparation are all available through L&S Career Services. Students can also register for BuckyNet (<http://careers.ls.wisc.edu/buckynet-students.htm>), an online resource for students to make connections with potential employers. Current career, research, and internship opportunities of specific interest to chemistry students can be found on the Career Services (<http://www.chem.wisc.edu/content/career-services>) pages of the chemistry website.

 Hamers, Jeanne (Undergraduate Chemistry Director and Chemistry Advisor)

WISCONSIN EXPERIENCE

RESEARCH

There are many research opportunities for undergraduates in the Department of Chemistry. When conducting research, students will have the opportunity to work alongside world-class faculty, staff, and graduate students to gain hands-on research experiences that will supplement their liberal arts education and prepare students for future careers. We have researchers involved in all the core areas of chemistry: analytical, chemical biology, chemical education, inorganic, materials, organic, physical, and theoretical. Many of our researchers conduct research across disciplines, including medicine, pharmacy, biology, engineering, energy, environmental sciences, and physics. Although preference is given to chemistry majors in good academic standing, any student interested in conducting chemistry research can seek out opportunities in our department. Students have the option of volunteering in a research lab or conducting research for course credit by enrolling in CHEM 299 Directed Study, CHEM 699 Directed Study, CHEM 681/CHEM 682 Senior Honors Thesis, or CHEM 691/CHEM 692 Senior Thesis. Students can also gain research experiences through the elective courses CHEM 260 Entering Research I, CHEM 261 Entering Research II, and CHEM 346

Intermediate Organic Chemistry Laboratory, as well as the required course CHEM 329 Fundamentals of Analytical Science. In some cases, experienced undergraduates may be paid to conduct research. For additional information about undergraduate research, including how to get involved, please visit the department's Undergraduate Research (<https://www.chem.wisc.edu/content/research-overview>) page.

STUDENT ORGANIZATIONS

A number of students organizations are available for students interested in the chemical sciences.

- The American Chemical Society (ACS) Student Chapter (<https://win.wisc.edu/organization/acs>) facilitates opportunities for students in the chemical sciences to promote the learning and advancement of chemistry. The chapter supports students in their academic development, professional development, and research pursuits.
- Alpha Chi Sigma (AXE) (<https://alphachisigmauw.wordpress.com>) is a national, co-ed, professional chemistry organization that was founded at UW–Madison in 1902. The UW–Madison chapter has an active membership of about 40 students, both graduate and undergraduate. The organization also has two houses, at 619 and 621 North Lake Street, which house nearly half of the members. The houses are the primary locations for events like tutoring, chapter dinners, meetings, and social events.
- Students Participating in Chemical Education (SPICE) (<http://ice.chem.wisc.edu/SPICE.html>) trains undergraduates to perform chemistry demonstrations in order to interest elementary and middle school students in chemistry and science via cool experiments, hands-on activities, and exploration stations at public venues.
- The UW–Madison student chapter of NOBCChE (<https://win.wisc.edu/organization/NOBCChE>) (National Organization for the Professional Advancement of Black Chemists and Chemical Engineers) seeks to encourage students of color to pursue graduate and professional degrees in chemistry, chemical engineering, and other chemistry-related fields. Members participate in professional development through national conference presentations, networking, and community service activities.
- SACNAS (<http://uwmadisonsacnas.weebly.com>) (the Society for the Advancement of Hispanics/Chicanos and Native Americans) is a society of scientists dedicated to fostering the success of Hispanic/Chicano and Native American scientists—from college students to professionals—to attain advanced degrees, careers, and positions of leadership in science.

- A course in biochemistry, satisfied by BIOCHEM 501 Introduction to Biochemistry or BIOCHEM 507 General Biochemistry I (3 credits)
- At least 400 total laboratory hours, which can be satisfied by the combination of all the required core laboratory courses (in organic, inorganic, analytical and physical chemistry) plus two to three laboratory credits from any combination of CHEM 346 Intermediate Organic Chemistry Laboratory, CHEM 524 Chemical Instrumentation (3 credit course, but only one credit is a lab credit), CHEM 681/CHEM 682 Senior Honors Thesis, CHEM 691/ CHEM 692 Senior Thesis or BMOLCHEM 504 Human Biochemistry Laboratory. The exact number of lab credits required from these courses depends on how the student has satisfied the core lab requirements. Please consult the Chemistry Major Advisor (<https://www.chem.wisc.edu/content/undergraduate-advising>) for more details.

The biochemistry course satisfies three of the five credits of advanced work required for the chemistry major, while two credits from CHEM 524 also count towards the advanced work. CHEM 346, 1 credit of CHEM 524, CHEM 691/CHEM 692 and BMOLCHEM 504 all count towards the three additional lab credits required for the major, while CHEM 681/CHEM 682 does not. CHEM 681/682 is required for students earning honors in the chemistry major.

Note that neither CHEM 299 Directed Study nor CHEM 699 Directed Study can be used to satisfy the lab hours needed for ACS certification. However, CHEM 699 can be used to satisfy additional lab credits needed for the chemistry major.

RESOURCES AND SCHOLARSHIPS

ACADEMIC RESOURCES

A number of resources are available to students seeking assistance with their chemistry courses. Students are strongly encouraged to attend the office hours of the instructors for the course.

The Chemistry Learning Center (CLC) (<http://www.chem.wisc.edu/areas/clc/mission.htm>) supports students in introductory chemistry courses (103, 104, and 108) and in some sections of organic chemistry. The center welcomes as many students as possible but unfortunately does not have sufficient resources to support all students seeking help. The center is funded to work with specific groups of students, such as first-generation low-income students, underrepresented students, students on academic probation, students with disabilities, students who have trouble understanding English, new transfer students, recently returning veterans, and students at-risk of failing the course. These are general guidelines and the center considers each student seeking assistance on a case-by-case basis, taking into account available program space. Program eligibility is usually determined by an interview with a staff member.

Further assistance may be sought from various tutoring services on campus, including the Greater University Tutoring Services (GUTS) (<http://www.guts.wisc.edu>), University Housing Tutoring (<http://www.housing.wisc.edu/residencehalls-academics-tutoring.htm>), and the College of Engineering Undergraduate Learning Center (ULC) (<https://www.engr.wisc.edu/academics/student-services/ulc>). Alpha Chi Sigma (AXE) (<https://win.wisc.edu/organization/axsigma>) is a co-ed professional chemistry fraternity that also offers tutoring. For students seeking more individualized tutoring, the Department of Chemistry maintains a list of private tutors (<https://www.chem.wisc.edu/content/tutors>) available for hire.

CERTIFICATION/LICENSURE

ACS CERTIFIED DEGREE

The UW–Madison Department of Chemistry is approved by the American Chemical Society (ACS) to certify the degrees of graduating students who have completed the curriculum and professional training recommended by ACS for chemistry bachelor's degree graduates. Certification indicates that the student has completed rigorous course work that provides them with the skills needed for a successful career in science.

Students graduating with the chemistry major from UW–Madison already meet most of the requirements of ACS certification. They can obtain the certification by electing to take specific courses that satisfy both the requirements of the major and the ACS guidelines. Additional requirements for certification are:

SCHOLARSHIPS

Through the generosity of alumni and other friends of the department, the Department of Chemistry is able to offer scholarships and summer research support. In 2016, the department awarded almost 30 undergraduate scholarships that totaled more than \$150,000.

Any student who will be enrolled as an undergraduate at UW-Madison during the next academic year and is a chemistry major or is conducting research with a chemistry faculty member is eligible to apply for the scholarships. An overall GPA of at least 3.0 is required for application; awards are based on both merit and financial need. Students may apply for academic year scholarships and/or summer research support. Learn more about chemistry scholarships (<https://www.chem.wisc.edu/content/chemistry-scholarships>) and how to apply.

CHICANA/O AND LATINA/O STUDIES

The Chicana/o and Latina/o Studies Program (CLS) offers a systematic and interdisciplinary analysis of Mexican- and Latin-American-origin people, cultures, and collectivities within the United States. The CLS certificate is designed to provide students with a broad knowledge base and the intellectual tools to understand the unity and diversity of U.S. Latina/o populations. The primary objective of the CLS program is to train students in the study of Chicana/o and Latina/os, as well as to introduce them to the central questions, topics, and applications that have emerged in this field of inquiry.

CLS offers a variety of courses, some focusing on particular national-origin groups or specific academic disciplines, and others organized around comparative topics or issues. We welcome you to join our academic community of learners.

Note: The @ ending ("a" at the center of "o") offers a simultaneous presentation of both the feminine and masculine word endings of Chicana, Chicano, Latina, and Latino and allows readers/speakers to choose the form they prefer.

CHICANA/O AND LATINA/O STUDIES, CERTIFICATE

The program in Chicana/o and Latina/o Studies (CLS) offers a systematic and interdisciplinary analysis of Mexican- and Latin-American-origin people, cultures, and collectivities within the United States. The CLS certificate is designed to provide students with a broad knowledge base and the intellectual tools to understand the unity and diversity of U.S. Latina/o populations. The primary objective of the CLS program is to train students in the study of Chicana/o and Latina/os, as well as to introduce them to the central questions, topics, and applications that have emerged in this field of inquiry.

HOW TO GET IN

An undergraduate certificate in Chicana/o and Latina/o studies is available for those students from any undergraduate major who wish to pursue Chicana/o and Latina/o studies courses in a systematic manner. Information on the certificate is available in the Student Advising Office, 307 Ingraham Hall. Prospective certificate students must make an appointment with Rachele Eilers, reilers@wisc.edu, to discuss requirements, courses, and application to the certificate.

REQUIREMENTS

Completion of the certificate requires a minimum of **15 credits** in Chicana/o and Latina/o studies. A maximum of 3 credits earned through a directed study course (CHICLA 699) can count toward the certificate.

Code	Title	Credits
Select one Introduction Course:		
CHICLA 201	Introduction to Chicana/o and Latina/o Studies	
Select at least one additional 100- or 200-level course		
CHICLA/ ASIAN AM/ FOLKLORE 102	Introduction to Comparative Ethnic Studies

¹ A maximum of 3 credits earned through a directed study course (CHICLA 699) can count toward the certificate.

RESIDENCE AND QUALITY OF WORK

- 8 credits in CHICLA or credits counting toward the certificate, taken in residence
- A cumulative 2.000 GPA in courses counting toward the certificate

ADVISING AND CAREERS

An undergraduate certificate in Chicana/o and Latina/o studies is available for those students from any undergraduate major who wish to pursue Chicana/o and Latina/o studies courses in a systematic manner. Academic advising for the CLS certificate is available in the Student Advising Office, 307 Ingraham Hall. Prospective and

current certificate students must make an appointment with Rachelle Eilers, reilers@wisc.edu, to discuss requirements, courses, and application to the certificate.

CLASSICAL AND ANCIENT NEAR EASTERN STUDIES

The widespread influence of Greece and Rome upon our own modern society, the intrinsic attraction of ancient literature, civilization, and material culture, and the interdisciplinary nature of the discipline make classics a dynamic and popular field of study. Moreover, undergraduate training in classics demands an intellectual rigor that can prepare students for more advanced training in graduate school, supplement their studies in a variety of other disciplines in the humanities, sciences, and engineering, and help them gain admittance to professional programs in law and medicine.

To this end, the Department of Classical and Ancient Near Eastern Studies (CANES) offers three majors and a certificate, providing a number of options for students wishing to explore their interests in classical studies. For students interested in Latin *and* Greek, the department offers the **classics** major, which requires proficiency in both languages but

allows students to emphasize study of one or the other. The department also offers a **Latin** major only, often chosen by students interested in teaching.

The **classical humanities** major combines language study with the study of the literature and culture of the ancient world. Finally, the department offers the **classical studies** certificate, preferred by students who wish to explore literature and culture without a concentration in language.

For more information about any of these options, please contact the CANES department (<http://canes.wisc.edu>) and/or meet with the advisor (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjffEtg.html>) at any time.

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following competitions to classical humanities, classics, and Latin majors annually:

RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to \$2500 and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is only open to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open only to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member.

To learn more, visit our website (<http://canes.wisc.edu/classics-study-abroad.htm>).

CLASSICAL HUMANITIES, B.A.

The classical humanities major allows students to combine their love of ancient language with the exploration of the literature, civilization, and culture of Greece, Rome, and the Ancient Near East.

Students study Greek, Latin, or Biblical Hebrew in two or four semester combinations, and they choose from a wide selection of complementary courses, including topics in art, architecture, archaeology, history, literature, philosophy, and politics. In addition to supporting their language study, these subjects enable our majors to develop a more comprehensive understanding of the ancient world.

To support classical humanities majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a summer study abroad program led by members of our faculty. Learn more under "Resources and Scholarships."

HOW TO GET IN

Declaring the classical humanities major is as easy as meeting with the CANES advisor. Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjffETg.html>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General	• Breadth—Humanities/Literature/Arts: 6 credits
Education	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW-Madison

2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

The classical humanities major consists of a combination of courses in ancient culture and classical languages. The major requirements are divided into three areas: Language, Literature and Culture, and Seminar.

Students typically earn 32–34 credits from these three areas to complete the major requirements; 18 credits are required in the Literature and Culture, and Seminar categories. The requirements for the major are:

LANGUAGE

Complete one of the following language tracks: ¹

Code	Title	Credits
4 semesters of Greek		14 credits
GREEK 103 & GREEK 104 & GREEK 305 & GREEK 306	First Semester Greek and Second Semester Greek and Intermediate Greek and Intermediate Greek	
4 semesters of Latin		16 credits
LATIN 103 & LATIN 104 & LATIN 203 & LATIN 204	Elementary Latin and Elementary Latin and Intermediate Latin and Introduction to Latin Literature	
2 semesters of Greek, 2 semesters of Latin		16 credits
GREEK 103 & GREEK 104 & LATIN 103 & LATIN 104	First Semester Greek and Second Semester Greek and Elementary Latin and Elementary Latin	
2 semesters of Hebrew–Bible, 2 semesters of Greek		16 credits
HEBR-BIB 103 & HEBR-BIB 104 & GREEK 103 & GREEK 104	Elementary Biblical Hebrew, I and Elementary Biblical Hebrew, II and First Semester Greek and Second Semester Greek	
2 semesters of Hebrew–Bible, 2 semesters of Latin		16 credits
HEBR-BIB 103 & HEBR-BIB 104 & LATIN 103 & LATIN 104	Elementary Biblical Hebrew, I and Elementary Biblical Hebrew, II and Elementary Latin and Elementary Latin	

¹ Students who place into higher than the first-semester language course may be eligible to earn retroactive language credits (p. 298).

LITERATURE AND CULTURE

Code	Title	Credits
15 credits, of which 9 credits must be numbered 300 and higher. A maximum 6 credits may come from courses outside of and that are not cross-listed in CLASSICS, GREEK and LATIN:		15
CLASSICS 100	Legacy of Greece and Rome in Modern Culture	
CLASSICS/ HISTORY 110	The Ancient Mediterranean

Total Credits		15

SEMINAR

Code	Title	Credits
CLASSICS 591	Undergraduate Seminar: Approaches to the Classical World ²	3
Total Credits		3

² The Undergraduate Seminar course is typically offered every spring semester; it is normally taken senior year.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all CLASSICS, GREEK and LATIN courses and all other courses in the major

2.000 GPA on 15 upper-level major credits, taken in residence ³

15 credits in CLASSICS, GREEK and LATIN, taken on the UW–Madison campus

³ Courses with intermediate and advanced level are considered upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Classical Humanities Major in consultation with the Classical Humanities undergraduate advisor.

HONORS IN THE CLASSICAL HUMANITIES MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Classical Humanities students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in all CLASSICS, LATIN, and GREEK courses, and all courses accepted in the major, at the intermediate or advanced level
- Complete the following coursework:
 - At least 9 credits, taken for Honors, from the list of Literature and Culture requirements above

- A two-semester Senior Honors Thesis in CLASSICS 681 Senior Honors Thesis and CLASSICS 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Gain knowledge of the ancient Roman, Greek, and Near Eastern civilizations.
2. Gain competency with contemporary scholarly questions surrounding their historical significance and interpretation.
3. Develop critical methodologies, including the ability to engage in source criticism and to approach ancient civilizations on their own terms.

ADVISING AND CAREERS

ADVISING

How does the classical humanities major fit into my educational goals?

While there are a wide variety of reasons to visit your major advisor, there seem to be two recurring questions:

1. Can I complete the major during the time I have left at UW?
2. Which classes will be offered in the future?

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in *Ancient Greek and Roman Monsters* and *Introduction to Biblical Literature* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style—e.g., do you prefer multiple choice or essays? Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading resumes and cover letters

Ready to meet with the CANES advisor? Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjffEtg.html>).

CAREERS

While many students have a difficult time believing it, a humanities major such as ours enables students who complete it to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- proper research design and methodology
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance, since they are such difficult languages to learn. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career. Visit our website (<http://canes.wisc.edu/230.htm>) for more information.

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following competitions to classical humanities, classics, and Latin majors annually:

RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to \$2500 and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is only open to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open only to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member.

To learn more, visit our website (<http://canes.wisc.edu/classics-study-abroad.htm>).

CLASSICAL HUMANITIES, B.S.

The classical humanities major allows students to combine their love of ancient language with the exploration of the literature, civilization, and culture of Greece, Rome, and the Ancient Near East.

Students study Greek, Latin, or Biblical Hebrew in two or four semester combinations, and they choose from a wide selection of complementary courses, including topics in art, architecture, archaeology, history, literature, philosophy, and politics. In addition to supporting their language study, these subjects enable our majors to develop a more comprehensive understanding of the ancient world.

To support classical humanities majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a summer study abroad program led by members of our faculty. Learn more under "Resources and Scholarships."

HOW TO GET IN

Declaring the classical humanities major is as easy as meeting with the CANES advisor. Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjffEtg.html>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education

requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits

UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

The classical humanities major consists of a combination of courses in ancient culture and classical languages. The major requirements are divided into three areas: Language, Literature and Culture, and Seminar.

Students typically earn 32–34 credits from these three areas to complete the major requirements; 18 credits are required in the Literature and Culture, and Seminar categories. The requirements for the major are:

LANGUAGE

Complete one of the following language tracks: ¹

Code	Title	Credits
4 semesters of Greek		14 credits
GREEK 103 & GREEK 104 & GREEK 305 & GREEK 306	First Semester Greek and Second Semester Greek and Intermediate Greek and Intermediate Greek	
4 semesters of Latin		16 credits
LATIN 103 & LATIN 104 & LATIN 203 & LATIN 204	Elementary Latin and Elementary Latin and Intermediate Latin and Introduction to Latin Literature	
2 semesters of Greek, 2 semesters of Latin		16 credits
GREEK 103 & GREEK 104 & LATIN 103 & LATIN 104	First Semester Greek and Second Semester Greek and Elementary Latin and Elementary Latin	
2 semesters of Hebrew–Bible, 2 semesters of Greek		16 credits
HEBR-BIB 103 & HEBR-BIB 104 & GREEK 103 & GREEK 104	Elementary Biblical Hebrew, I and Elementary Biblical Hebrew, II and First Semester Greek and Second Semester Greek	
2 semesters of Hebrew–Bible, 2 semesters of Latin		16 credits
HEBR-BIB 103 & HEBR-BIB 104 & LATIN 103 & LATIN 104	Elementary Biblical Hebrew, I and Elementary Biblical Hebrew, II and Elementary Latin and Elementary Latin	

¹ Students who place into higher than the first-semester language course may be eligible to earn retroactive language credits (p. 298).

LITERATURE AND CULTURE

Code	Title	Credits
15 credits, of which 9 credits must be numbered 300 and higher. A maximum 6 credits may come from courses outside of and that are not cross-listed in CLASSICS, GREEK and LATIN:		15

CLASSICS 100	Legacy of Greece and Rome in Modern Culture

SEMINAR

Code	Title	Credits
CLASSICS 591	Undergraduate Seminar: Approaches to the Classical World ²	3

Total Credits 3

² The Undergraduate Seminar course is typically offered every spring semester; it is normally taken senior year.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all CLASSICS, GREEK and LATIN courses and all other courses in the major

2.000 GPA on 15 upper-level major credits, taken in residence ³

15 credits in CLASSICS, GREEK and LATIN, taken on the UW-Madison campus

³ Courses with intermediate and advanced level are considered upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Classical Humanities Major in consultation with the Classical Humanities undergraduate advisor.

HONORS IN THE CLASSICAL HUMANITIES MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Classical Humanities students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in all CLASSICS, LATIN, and GREEK courses, and all courses accepted in the major, at the intermediate or advanced level
- Complete the following coursework:
 - At least 9 credits, taken for Honors, from the list of Literature and Culture requirements above
 - A two-semester Senior Honors Thesis in CLASSICS 681 Senior Honors Thesis and CLASSICS 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Gain knowledge of the ancient Roman, Greek, and Near Eastern civilizations.
2. Gain competency with contemporary scholarly questions surrounding their historical significance and interpretation.
3. Develop critical methodologies, including the ability to engage in source criticism and to approach ancient civilizations on their own terms.

ADVISING AND CAREERS

ADVISING

How does the classical humanities major fit into my educational goals?

While there are a wide variety of reasons to visit your major advisor, there seem to be two recurring questions:

1. Can I complete the major during the time I have left at UW?
2. Which classes will be offered in the future?

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in *Ancient Greek and Roman Monsters* and *Introduction to Biblical Literature* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style—e.g., do you prefer multiple choice or essays? Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading resumes and cover letters

Ready to meet with the CANES advisor? Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjffEtg.html>).

CAREERS

While many students have a difficult time believing it, a humanities major such as ours enables students who complete it to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- proper research design and methodology
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose

- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance, since they are such difficult languages to learn. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career. Visit our website (<http://canes.wisc.edu/230.htm>) for more information.

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following competitions to classical humanities, classics, and Latin majors annually:

RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to \$2500 and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is only open to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open only to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member.

To learn more, visit our website (<http://canes.wisc.edu/classics-study-abroad.htm>).

CLASSICAL STUDIES, CERTIFICATE

The classical studies certificate allows students to explore the literature, civilization, and culture of the ancient world. It is especially ideal for students drawn to Greek, Roman or Ancient Near Eastern society but less interested in language study.

Both the flexibility and variety are additional features that make the certificate attractive to students. Course options include topics in art, architecture, archaeology, history, literature, philosophy, and politics. Students are free to explore their individual interests on the way to developing a more comprehensive understanding of the ancient world.

Finally, in addition to completing requirements for the certificate, many of the courses fulfill *General Education* requirements, such as Communications Part B, and *Breadth* requirements, such as Humanities and Literature.

HOW TO GET IN

Declaring the classical studies certificate is as easy as meeting with the CANES advisor. Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjffEtg.html>).

Please note: Classical humanities majors are **not** allowed to declare the certificate.

REQUIREMENTS

REQUIREMENTS FOR THE CERTIFICATE IN CLASSICAL STUDIES

In order to receive the Certificate in Classical Studies, students are required to complete:

Code	Title	Credits
18 total credits in CLASSICS or select courses from related disciplines, chosen from the Course Lists below.		18

6 credits may be numbered below 300

12 credits must be numbered 300 and higher

Residence and Quality of Work:

Students must maintain a 2.000 GPA in all courses required for the Certificate.

At least 9 credits for the Certificate must be earned In Residence.

CLASSICS, B.A.

The classics major allows students to achieve proficiency in *both* Greek and Latin. Majors who choose an emphasis in Greek, also complete four semesters of Latin, and likewise, those who choose an emphasis in Latin, complete four semesters of Greek as well.

Such comprehensive training enables classics majors to explore Greek and Roman literature in the original languages. From a practical standpoint, students develop analytical and critical thinking skills, and they may also become thoughtful and gifted writers in their native languages thanks to the intensive grammatical training required by the study of ancient languages.

To support our classics majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a summer study abroad program led by members of our faculty. Learn more under "Resources and Scholarships."

HOW TO GET IN

Declaring the classics major is as easy as meeting with the CANES advisor. Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjfiFEtg.html>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	<ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
-------------	--

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall
Minimum GPAs	30 credits in residence after the 90th credit
	2.000 in all coursework at UW-Madison
	2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

A major in classics allows students to place primary emphasis on learning Greek or Latin, yet gain some language training in both. Both tracks total 23 credits, and assume students have taken the first two semesters of both languages prior to entering the major.

CLASSICS-LATIN EMPHASIS

Code	Title	Credits
17 credits of Latin beyond the first year		
LATIN 203	Intermediate Latin	4
LATIN 204	Introduction to Latin Literature	4
LATIN 301	Latin Literature of the Roman Republic	3
LATIN 302	Latin Literature of the Roman Empire	3
One Latin course numbered 500 and above		
6 credits of Greek beyond the first year		
GREEK 305	Intermediate Greek	3
GREEK 306	Intermediate Greek	3
Total Credits		23

RESIDENCE AND QUALITY OF WORK IN THE MAJOR

2.000 GPA in all CLASSICS and major courses

2.000 GPA on at least 15 credits of upper-level work in the major.¹

15 credits in CLASSICS, taken at UW-Madison.

¹ Upper-level work in the major includes any intermediate or advanced CLASSICS or major course.

HONORS IN THE MAJOR

Students may declare Honors in the Classics Major in consultation with the Classics undergraduate advisor.

HONORS IN THE CLASSICS MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Classics students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all CLASSICS courses, and all courses accepted in the major, at the intermediate or advanced level
- Complete the following coursework:
 - CLASSICS 591 Undergraduate Seminar: Approaches to the Classical World and
 - A two-semester Senior Honors Thesis in CLASSICS 681 Senior Honors Thesis and CLASSICS 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail	
Total Degree	To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Gain knowledge of the ancient languages.
2. Develop close reading skills that emphasize accuracy and precision in translation.
3. Develop critical reading skills, especially the ability to engage in source criticism.
4. Gain competency with core texts of the ancient western and near eastern literary canon.

ADVISING AND CAREERS

ADVISING

How does the classics major fit into my educational goals?

While there are a wide variety of reasons to visit your major advisor, there seem to be two recurring questions:

1. Can I complete the major during the time I have left at UW?
2. Which classes will be offered in the future?

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in a course on *Sallust* and *Greek Comedy* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style—e.g., do you prefer multiple choice or essays? Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors also know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Picking a study abroad program
- Practicing for interviews
- Talking about grad school
- Proofreading resumes and cover letters

Ready to meet with the CANES advisor? Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjfjFEtg.html>).

CAREERS

While many students have a difficult time believing it, a humanities major such as ours, enables students who complete it to consider just about any type of career or educational pursuit. Our coursework builds the

critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- proper research design and methodology
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is **language acquisition**. Your study of Greek and Latin sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance, since they are such difficult languages to learn. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career. Visit our website (<http://canes.wisc.edu/230.htm>) for more information.

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following competitions to classical humanities, classics, and Latin majors annually:

RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to \$2500 and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is only open to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open only to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member.

To learn more, visit our website (<http://canes.wisc.edu/classics-study-abroad.htm>).

CLASSICS, B.S.

The classics major allows students to achieve proficiency in *both* Greek and Latin. Majors who choose an emphasis in Greek, also complete four semesters of Latin, and likewise, those who choose an emphasis in Latin, complete four semesters of Greek as well.

Such comprehensive training enables classics majors to explore Greek and Roman literature in the original languages. From a practical standpoint, students develop analytical and critical thinking skills, and they may also become thoughtful and gifted writers in their native languages thanks to the intensive grammatical training required by the study of ancient languages.

To support our classics majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a summer study abroad program led by members of our faculty. Learn more under "Resources and Scholarships."

HOW TO GET IN

Declaring the classics major is as easy as meeting with the CANES advisor. Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjffEtg.html>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW-Madison

2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

A major in classics allows students to place primary emphasis on learning Greek or Latin, yet gain some language training in both. Both tracks total 23 credits, and assume students have taken the first two semesters of both languages prior to entering the major.

CLASSICS-LATIN EMPHASIS

Code	Title	Credits

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following competitions to classical humanities, classics, and Latin majors annually:

RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to \$2500 and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is only open to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open only to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality

of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member.

To learn more, visit our website (<http://canes.wisc.edu/classics-study-abroad.htm>).

LATIN, B.A.

Students who pursue the Latin major read a wide variety of authors and can expect to achieve a high level of competency in the ancient language of the Romans. Coursework includes such favorites as Vergil, Ovid, Cicero, Julius Caesar, and Catullus, but students can expect to be able to read other authors like the historians (Livy, Sallust, and Tacitus) and genres like lyric, satire, and drama.

To support Latin majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a summer study abroad program led by members of our faculty. Learn more under Resources and Scholarships.

For those who are interested in teaching Latin at the secondary level, the School of Education (p. 1392) offers certification. Students of this program take Latin courses in our department, while receiving their teacher training in the School of Education.

HOW TO GET IN

Declaring the Latin major is as easy as meeting with the CANES advisor. Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjffEtg.html>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to

the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience	30 credits in residence, overall
Minimum GPAs	30 credits in residence after the 90th credit
	2.000 in all coursework at UW–Madison
	2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR

The **Latin** major requires 26 total credits of coursework beyond the first two semesters of Latin.

Majors interested in teaching Latin in high school should consult the undergraduate advisor and the School of Education (p. 1238) about requirements for teaching certification.

Note about Language: The College of Letters & Science will award degree credit for foreign language work successfully completed in high school under certain circumstances and if an additional foreign language course is taken at UW–Madison. For more information, consult the **Retroactive Credits** policy under Policies and Regulations (p. 298).

Code	Title	Credits
LATIN 203 & LATIN 204	Intermediate Latin and Introduction to Latin Literature	8
LATIN 301 & LATIN 302	Latin Literature of the Roman Republic and Latin Literature of the Roman Empire	6
Select four courses at the 500 level or above		12

CAREERS

While many students have a difficult time believing it, a humanities major such as ours, enables students who complete it to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- proper research design and methodology

- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short- and long-essay format
- discussion and debate strategies
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is **language acquisition**. Your study of Greek, Latin or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. Not to mention, the study of ancient languages shows discipline and perseverance, since they are such difficult languages to learn. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career. Visit our website (<http://canes.wisc.edu/230.htm>) for more information.

RESOURCES AND SCHOLARSHIPS

DEPARTMENTAL UNDERGRADUATE SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards,

CANES offers the following competitions to classical humanities, classics, and Latin majors annually:

RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to \$2500 and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is only open to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open only to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member.

To learn more, visit our website (<http://canes.wisc.edu/classics-study-abroad.htm>).

LATIN, B.S.

Students who pursue the Latin major read a wide variety of authors and can expect to achieve a high level of competency in the ancient language

of the Romans. Coursework includes such favorites as Vergil, Ovid, Cicero, Julius Caesar, and Catullus, but students can expect to be able to read other authors like the historians (Livy, Sallust, and Tacitus) and genres like lyric, satire, and drama.

To support Latin majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a summer study abroad program led by members of our faculty. Learn more under Resources and Scholarships.

For those who are interested in teaching Latin at the secondary level, the School of Education (p. 1392) offers certification. Students of this program take Latin courses in our department, while receiving their teacher training in the School of Education.

HOW TO GET IN

Declaring the Latin major is as easy as meeting with the CANES advisor. Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjffEtg.html>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of

arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

UW-Madison Experience

Minimum GPAs

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

The **Latin** major requires 26 total credits of coursework beyond the first two semesters of Latin.

Majors interested in teaching Latin in high school should consult the undergraduate advisor and the School of Education (p. 1238) about requirements for teaching certification.

Note about Language: The College of Letters & Science will award degree credit for foreign language work successfully completed in high school under certain circumstances and if an additional foreign language course is taken at UW–Madison. For more information, consult the **Retroactive Credits** policy under Policies and Regulations (p. 298).

Code	Title	Credits
LATIN 203 & LATIN 204	Intermediate Latin and Introduction to Latin Literature	8

LATIN 301 & LATIN 302	Latin Literature of the Roman Republic and Latin Literature of the Roman Empire	6
Select four courses at the 500 level or above		12
LATIN 505	Elementary Prose Composition	
LATIN 515	Vergil	
LATIN 519	Latin Poetry	
LATIN 520	Roman Drama	
LATIN 521	Roman Elegy	
LATIN 522	Roman Lyric Poetry	
LATIN 523	Roman Satire	
LATIN 524	Roman Novel	
LATIN 539	Latin Historical Writers	
LATIN 549	Latin Philosophical Writers	
LATIN 559	Latin Oratory	
LATIN/ MEDIEVAL 563	Mediaeval Latin	
LATIN 681	Honors Thesis	
LATIN 682	Senior Honors Thesis	
LATIN 691	Senior Thesis	
LATIN 692	Senior Thesis	
LATIN 699	Directed Study	
Additional Electives to reach the 26 credit minimum for the major ¹		
Total Credits		26

¹ LATIN 203 through LATIN 699 can be used as additional electives to meet the 26 credit minimum.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all LATIN courses and courses that count toward the major

2.000 GPA on 15 upper-level credits in residence¹

15 credits in LATIN, taken on campus

¹ LATIN courses marked as Intermediate or Advanced count as Upper Level in the Major.

HONORS IN THE MAJOR

Students may declare Honors in the Latin Major in consultation with the departmental undergraduate advisor.

HONORS IN THE LATIN MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Latin students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 in all major courses at the intermediate or advanced level
- Complete CLASSICS 591 Undergraduate Seminar: Approaches to the Classical World
- Complete a two-semester Senior Honors Thesis in CLASSICS 681 Senior Honors Thesis and CLASSICS 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Gain knowledge of the ancient languages.
2. Develop close reading skills that emphasize accuracy and precision in translation.
3. Develop critical reading skills, especially the ability to engage in source criticism.
4. Gain competency with core texts of the ancient western and near eastern literary canon.

ADVISING AND CAREERS

ADVISING

How does the Latin major fit into my educational goals?

While there are a wide variety of reasons to visit your major advisor, there seem to be two recurring questions:

1. Can I complete the major during the time I have left at UW?
2. Which classes will be offered in the future?

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in *Sallust* and *Lucan* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style e.g. do you prefer multiple choice or essays? Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors also know a lot about:

- General Education requirements
- Breadth requirements

- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Picking a study abroad program
- Practicing for interviews
- Talking about grad school
- Proofreading resumes and cover letters

Ready to meet with the CANES advisor? Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjffEtg.html>).

CAREERS

While many students have a difficult time believing it, a humanities major such as ours, enables students who complete it to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- proper research design and methodology

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following competitions to classical humanities, classics, and Latin majors annually:

RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to \$2500 and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is only open to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open only to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality

of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member.

To learn more, visit our website (<http://canes.wisc.edu/classics-study-abroad.htm>).

COMMUNICATION ARTS

Faculty in the Department of Communication Arts study and teach about the principal modes and media of communication. Areas of research include film, media and cultural studies, rhetoric, and communication science. At the undergraduate level, these four areas are combined into two concentrations:

1. Communication Science and Rhetorical Studies
2. Radio–Television–Film

Courses deal with a wide range of communicative phenomena and approach them from a variety of functional, aesthetic, and theoretical perspectives. The curriculum is designed to foster understanding of communication processes, improve communication and digital literacy skills, and develop the capacity for critical appraisal and reflection.

Communication arts majors should consult one of the department's undergraduate academic advisors to discuss requirements and courses each semester.

DIGITAL STUDIES CERTIFICATE

The digital studies certificate allows students seeking more experience with digital media and other technologies to select courses from across several departments, including communication arts, to create their own individualized digital curriculum. See the Digital Studies (p. 560) section in this Guide for requirements and course options.

DEGREES/MAJORS/CERTIFICATES

- Communication Arts, B.A. (p. 549)
- Communication Arts, B.S. (p. 554)
- Digital Studies, Certificate (p. 560)

PEOPLE

Please see the People (<https://commarts.wisc.edu/people>) section of the Department of Communication Arts website for additional information.

COMMUNICATION ARTS, B.A.

Faculty members in the Department of Communication Arts study and teach about the principal modes and media of communication. Areas of research include rhetoric, communication science, film, media and cultural studies. At the undergraduate level, these four areas are combined into two concentrations:

1. Communication Science and Rhetorical Studies
2. Radio–Television–Film

Courses deal with a wide range of communicative phenomena and approach them from a variety of functional, aesthetic, and theoretical perspectives. The curriculum is designed to foster understanding of communication processes, improve communication and digital literacy skills, and develop the capacity for critical appraisal and reflection.

Communication arts majors should consult one of the department's undergraduate advisors to discuss requirements and courses each semester.

HOW TO GET IN

DECLARING THE MAJOR

Students interested in pursuing the communication arts major are encouraged to meet with a communication arts advisor. To declare the major, Letters & Science students complete a major declaration form. Forms are available in the communication arts academic advising offices and the communication arts main office. Non-Letters & Science students will need permission from their school or college to pursue an additional major in communication arts. Students **may not** declare communication arts as a second major if they have earned more than 100 credits.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall
30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison
2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.

COMMUNICATION ARTS MAJOR REQUIREMENTS

Communication arts offers two options within the major:

- Communication Science and Rhetorical Studies
- Radio–Television–Film

Students declare one of the two options and complete a minimum of 10 courses and at least 30 credits in the major. Please note that COM ARTS courses numbered below 200 as well as COM ARTS 605 COM ARTS 614 and COM ARTS 615 do not count toward a requirement within the major.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all COM ARTS and major courses
 2.000 GPA on 15 upper-level major credits, taken in residence:
 intermediate- or advanced-level COM ARTS or major courses
 15 credits in COM ARTS, taken on campus

DISTINCTION IN THE MAJOR IN COMMUNICATION ARTS

Students not enrolled in the honors program who have earned a 3.750 or higher GPA within their COM ARTS and major courses are eligible for distinction in the major.

HONORS IN THE MAJOR IN COMMUNICATION ARTS

Students may apply to pursue Honors in the Communication Arts Major in consultation with the Communication Arts undergraduate advisor. To be accepted students must have:

- Completed the fundamentals course and the two core courses for their declared Option and
- Earned a 3.500 GPA in all COM ARTS courses

HONORS IN THE COMMUNICATION ARTS MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Communication Arts students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA

- Earn a 3.500 GPA for all COM ARTS courses
- Complete the requirements for the declared major Option, to include:
 - All theory, history, criticism courses taken to meet the regular major requirements within the declared Option must be 400-level or higher, for Honors
 - One additional theory, history, criticism course at the 400 level or higher, for Honors
 - Three Theory, History and Criticism courses must be completed on campus.¹
 - A two-semester Senior Honors Thesis in COM ARTS 681 Senior Honors Thesis and COM ARTS 682 Senior Honors Thesis, for a total of 6 credits²

¹ Online courses taken through the University of Wisconsin–Madison Department of Communication Arts are considered on-campus for this purpose

² Submission and approval of a Senior Honors Thesis Proposal is required prior to the term in which students enroll for COM ARTS 681 Senior Honors Thesis. See the Communication Arts Undergraduate Advisor for current process. Approval of the completed thesis by the thesis advisor and a second Communication Arts faculty member is required.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Students will demonstrate an understanding of core content in either of the two tracks: Communication Science and Rhetorical Studies or Radio-TV-Film.
2. Students will be able to conduct theoretical, historical, and critical analyses of communication.
3. Students will demonstrate an ability to communicate effectively in writing, orally, or via the creation of media content (e.g., digital, film).

ADVISING AND CAREERS

COMMUNICATION ARTS ACADEMIC ADVISING

Communication arts academic advisors (<https://commarts.wisc.edu/undergraduate/advising>) assist students throughout their undergraduate studies. They offer individual appointments, drop-in advising, and group advising.

CONTACT INFORMATION:

Steffie Halverson, 6070 Vilas Hall, 608-262-2285,
advising@commarts.wisc.edu (<http://guide.wisc.edu/undergraduate/letters-science/communication-arts/communication-arts-ba/advising@commarts.wisc.edu>)
 Mary Rossa, 6068 Vilas Hall, 608-262-0992,
advising@commarts.wisc.edu

CAREER ADVISING

The communication and media career advisor (<https://journalism.wisc.edu/career-services/advising>) assists students with career preparation, such as exploring career options, learning internship and job search strategies, and writing resumes and cover letters.

CONTACT INFORMATION:

Pam Garcia-Rivera, 5114 Vilas Hall, 608-890-1046, pgarcia@wisc.edu

CAREER EXPLORATION AND PREPARATION

GAIN EXPERIENCE

The Department of Communication Arts encourages students to apply the knowledge and skills they attain through coursework to professional settings. Internships and part-time jobs at television networks, nonprofit organizations, talent agencies, magazines, radio stations, advertising agencies, production companies, government agencies, and other communication-related businesses help students gain work-related experience and explore career options. Advising emails, tweets (https://twitter.com/uwcommarts_adv), and postings provide communication arts majors with information on opportunities across the country.

Declared majors may earn one credit for their internship experience through COM ARTS 614 Field Experience in Communication and COM ARTS 615 Second Field Experience in Communication .

ATTEND EVENTS

Throughout the academic year, students have the opportunity to participate in several communication-focused, career-related events, such as guest speakers, career panels, and the advertising and communications career fair.

COMMUNICATION ARTS ALUMNI CAREERS AT A GLANCE

After completing a liberal arts education with a communication arts major, communication arts alumni pursue a variety of careers. In a recent survey, communication arts alumni were asked to provide and categorize their occupation. The results are available on the Department of Communication Arts website:

- Communication Science & Rhetorical Studies Alumni Careers (<https://commarts.wisc.edu/sites/default/files/files/2013/08/13/CA%20Alumni%20Careers%20Com%20Sci%20Rhetoric.pdf>)
- Radio–Television–Film Alumni Careers (<https://commarts.wisc.edu/sites/default/files/files/2013/08/13/CA%20Alumni%20Careers%20RTF.pdf>)

ADDITIONAL CAREER RESOURCES

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

STUDENT ORGANIZATIONS

UW–Madison offers many opportunities to get involved. Communication arts majors join student organizations across their areas of interest.

Department-Affiliated Organizations:

- Communication Arts Student Association (CASA)
- Hollywood Badgers
- Production at Wisconsin (PAW)

See the Department of Communication Arts website for a sampling of other UW student organizations (<https://commarts.wisc.edu/undergraduate/opportunities>) that may be of interest to communication-focused students.

STUDYING ABROAD

Communications arts majors are encouraged to look at study abroad programs and opportunities across the globe. Our students have studied in cities such as London, Rome, Tel Aviv, Prague, Galway, Sydney, Madrid, Bologna, Cape Town, Paris, Copenhagen, and Buenos Aires. When planning for their semester abroad, students should think beyond courses required for their major. Students are encouraged to take courses from a variety of subjects to satisfy elective credits for their degree.

RESEARCH OPPORTUNITIES

Communication science research team members gain hands-on research experience. Undergraduate research assistants may learn to code and enter data, interview participants, gather and prepare research materials, run experiments, and perform other activities required to complete a research study. Reading and writing assignments related to the research activities are assigned throughout the semester. Opportunities to participate in a research team vary from semester to semester.

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS

Students apply for scholarships online through My Scholarships (<https://scholarships.wisc.edu/Scholarships>). The Department of Communication Arts offers the following scholarships:

- Christopher Neal Heinlein Memorial Scholarships
- Charline M. Wackman Awards for Summer Session
- Charline M. Wackman Awards (Fall Term)
- Keith Harris Wyche Memorial Scholarships

See the scholarship section (<https://commarts.wisc.edu/undergraduate/scholarships>) of the department website for additional details.

COMMUNICATION ARTS, B.S.

Faculty members in the Department of Communication Arts study and teach about the principal modes and media of communication. Areas of research include rhetoric, communication science, film, media

and cultural studies. At the undergraduate level, these four areas are combined into two concentrations:

1. Communication Science and Rhetorical Studies
2. Radio–Television–Film

Courses deal with a wide range of communicative phenomena and approach them from a variety of functional, aesthetic, and theoretical perspectives. The curriculum is designed to foster understanding of communication processes, improve communication and digital literacy skills, and develop the capacity for critical appraisal and reflection.

Communication arts majors should consult one of the department's undergraduate advisors to discuss requirements and courses each semester.

HOW TO GET IN

DECLARING THE MAJOR

Students interested in pursuing the communication arts major are encouraged to meet with a communication arts advisor. To declare the major, Letters & Science students complete a major declaration form. Forms are available in the communication arts academic advising offices and the communication arts main office. Non–Letters & Science students will need permission from their school or college to pursue an additional major in communication arts. Students **may not** declare communication arts as a second major if they have earned more than 100 credits.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth–Humanities/Literature/Arts: 6 credits • Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth–Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

COMMUNICATION ARTS MAJOR REQUIREMENTS

Communication arts offers two options within the major:

- Communication Science and Rhetorical Studies
- Radio–Television–Film

Students declare one of the two options and complete a minimum of 10 courses and at least 30 credits in the major. Please note that COM ARTS

courses numbered below 200 as well as COM ARTS 605 COM ARTS 614 and COM ARTS 615 do not count toward a requirement within the major.

Code	Title	Credits

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

STUDENT ORGANIZATIONS

UW–Madison offers many opportunities to get involved. Communication arts majors join student organizations across their areas of interest.

Department-Affiliated Organizations:

- Communication Arts Student Association (CASA)
- Hollywood Badgers
- Production at Wisconsin (PAW)

See the Department of Communication Arts website for a sampling of other UW student organizations (<https://commarts.wisc.edu/undergraduate/opportunities>) that may be of interest to communication-focused students.

STUDYING ABROAD

Communications arts majors are encouraged to look at study abroad programs and opportunities across the globe. Our students have studied in cities such as London, Rome, Tel Aviv, Prague, Galway, Sydney, Madrid, Bologna, Cape Town, Paris, Copenhagen, and Buenos Aires. When planning for their semester abroad, students should think beyond courses required for their major. Students are encouraged to take courses from a variety of subjects to satisfy elective credits for their degree.

RESEARCH OPPORTUNITIES

Communication science research team members gain hands-on research experience. Undergraduate research assistants may learn to code and enter data, interview participants, gather and prepare research materials, run experiments, and perform other activities required to complete a research study. Reading and writing assignments related to the research activities are assigned throughout the semester. Opportunities to participate in a research team vary from semester to semester.

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS

Students apply for scholarships online through My Scholarships (<https://scholarships.wisc.edu/Scholarships>). The Department of Communication Arts offers the following scholarships:

- Christopher Neal Heinlein Memorial Scholarships
- Charline M. Wackman Awards for Summer Session
- Charline M. Wackman Awards (Fall Term)
- Keith Harris Wyche Memorial Scholarships

See the scholarship section (<https://commarts.wisc.edu/undergraduate/scholarships>) of the department website for additional details.

DIGITAL STUDIES, CERTIFICATE

Digital studies at the University of Wisconsin–Madison explores the relationship between communication and digital forms of media by asking four questions:

- How do digital media affect the ways we communicate?
- How do we use digital tools to best communicate with each other?
- What roles do the visual, sound and interactive elements of digital media play and how can we use them?
- How do digital technologies affect the way we access and understand information?

It forges new connections across disciplinary boundaries by addressing distinct yet overlapping areas of intellectual activity:

- *Digital information structures*—the consideration and assessment of how we use and create digital archives, databases, and other digital information architectures
- *Digital media*—the consideration of how we consume and assess communication that is mediated by digital technologies such as Internet, mobile, and smart devices including digital video and audio content as well as games and simulations produced both in everyday discourse and by media professionals
- *Digital forms*—the analysis and assessment of both mechanical and aesthetic elements of design in digital content including visual, audio, interactive and other components
- *Digital practices*—the acquisition of skills that allow us to create expressive and strategic communication content using digital tools such as digital video and audio equipment as well as software for video and audio editing, Web-design, database and information architecture design, app design, computer simulation, and digital gaming

The digital studies certificate brings together departments from across campus and allows students to choose from over fifty courses to create their own individualized digital curriculum, where students have the opportunity to both produce digital content and critically assess the digital content they encounter.

HOW TO GET IN

DECLARING THE DIGITAL STUDIES CERTIFICATE

The certificate is available to students working for a baccalaureate degree in any UW–Madison school or college and to University Special students admitted to the program while undergraduates, with fewer than 9 credits to complete post-baccalaureate; to be completed within one year of graduation.

Students must meet with the Digital Studies advisor to declare the certificate. Students can either schedule an appointment or stop in during walk-in hours. After the meeting, students must complete the Declaration Survey emailed to them by the digital studies advisor.

See the Digital Studies Advising (<http://digitalstudies.wisc.edu/advising>) page for information about meeting with the advisor.

REQUIREMENTS

To earn a digital studies certificate, students must complete all requirements for a bachelor's degree, requirements of the declared major(s), and graduate from UW–Madison. In addition, students must take all required certificate courses for a letter grade versus pass/fail (except for the capstone course).

The certificate requires a minimum of six courses, totaling at least 16 credits. Students must complete one core course, one course from each of the four topics areas, and the capstone course.

Code	Title	Credits
Certificate Requirements		
	Digital Studies Core Course	3-4
	Digital Information Structures Topics Course (I)	3-4
	Digital Media Topics Course (M)	3-4
	Digital Forms Topics Course (F)	3-4
	Digital Practices Topics Course (P)	3-4
COM ARTS 605	Digital Studies Capstone ¹	1
Total Credits		16-21

Code	Title	Credits
Residence and Quality of Work		
Students must maintain a cumulative GPA of 2.000 for courses counting toward the Certificate.		
9 credits counting toward the Certificate must be In Residence.		

¹ The capstone course cannot be completed until students have completed or are enrolled in their final course toward the Certificate.

COURSE LIST

Below is the list of all courses that count toward the certificate. To see which courses are being offered during a specific term, please visit the Digital Studies website (<http://digitalstudies.wisc.edu/courses>).

CORE COURSES

Code	Title	Credits
COM ARTS 200	Introduction to Digital Communication	3
ENGL 178	Digital Media, Literature, and Culture	3
JOURN 175	Media Fluency for the Digital Age	3
L I S 201	The Information Society	4

DIGITAL INFORMATION STRUCTURES (I) COURSES

Code	Title	Credits
COM ARTS 345	Online Communication and Personal Relationships	3
COM ARTS 472	Rhetoric and Technology	3
COM ARTS 478	Rhetoric and Power on the Internet	3
COM ARTS/ FOLKLORE 522	Digitally Documenting Everyday Communication	3
COM ARTS/JOURN/ LSC 617	Health Communication in the Information Age	3
CURRIC 209	Digital Media and Literacy	3

GEOG 572	Graphic Design in Cartography	3-4
GEOG 575	Interactive Cartography & Geovisualization	4
LEGAL ST/L I S 663	Introduction to Cyberlaw	3
L I S 202	Informational Divides and Differences in a Multicultural Society	3
L I S 301	Information Literacies in Online Spaces	3
L I S 340	Topics in Information Studies - Social Aspects	3
L I S 341	Topics in Information Studies - Technological Aspects	1-3
L I S 350	History and Future of Books	3
L I S 351	Introduction to Digital Information	3
L I S 500	Code and Power	3
L I S/NURSING/OCC THER 517	Digital Health: Information and Technologies Supporting Consumers and Patients	3
L I S 661	Information Ethics and Policy	3
L I S/LEGAL ST 663	Introduction to Cyberlaw	3

DIGITAL MEDIA (M) COURSES

Code	Title	Credits
COM ARTS 345	Online Communication and Personal Relationships	3
COM ARTS 346	Critical Internet Studies	3
COM ARTS 449	Sound Cultures: Podcasting and Music	3
COM ARTS 459	New Media and Society	3
COM ARTS 472	Rhetoric and Technology	3
COM ARTS 478	Rhetoric and Power on the Internet	3
COM ARTS 509	Digital Media and Political Communication	3
COM ARTS 547	Digital Game Cultures	3
COM ARTS 577	Dynamics of Online Relationships	3
ENGL 271	Writing with New Media	3
ENGL 571	Remix, Mashup, and Digital Design	3
JOURN 463	Digital Media Strategies	4
JOURN 464	Public Relations Strategies	4
JOURN/L I S 677	Concepts and Tools for Data Analysis and Visualization	3
L I S 340	Topics in Information Studies - Social Aspects	3
L I S 350	History and Future of Books	3

ADVISING AND CAREERS

DIGITAL STUDIES ACADEMIC ADVISING

Students who would like to learn more about the certificate, declare, or go over requirements should meet with the digital studies advisor. Advising is offered via appointments (scheduled through the Scheduling Assistant) or walk-in hours, listed here (<http://digitalstudies.wisc.edu/advising>).

CONTACT INFORMATION

Amy Schultz, 6072 Vilas Hall, 608-262-2547 Email: digitalstudies@commarts.wisc.edu

CAREER ADVISING

The communication and media career advisor (<https://journalism.wisc.edu/career-services/advising>) assists students with career preparation, such as exploring career options, learning internship and job search strategies, and writing resumes and cover letters.

DEPARTMENT OF LIFE SCIENCES COMMUNICATION

Sarah Botham, Faculty Associate; Patty Loew, Professor; Larry Meiller, Professor Emeritus; Shiela Reaves, Professor; Donald Stanley, Faculty Associate

WISCONSIN EXPERIENCE

As an interdisciplinary certificate, students are encouraged to explore courses across disciplines and areas of interest. Once declared, students have access to unique and exciting courses where they not only study digital media, but learn to be savvy users and creators of digital media that they can use in their professional lives. Examples of work that students create include websites, videos, illustrations, posters, podcasts, and more.

Digital studies certificate students also have access to networking and alumni events featuring careers in digital media, internship and job opportunities emailed directly to them, technology resources through the Instructional Media Center (<https://commarts.wisc.edu/imc>), and design consulting services through DesignLab (<https://designlab.wisc.edu>). Through advising, students receive tailored recommendations based on their interests and are encouraged to seek out ways to apply the knowledge they are learning in the classroom through involvement in student organizations, volunteering, and internships.

COMMUNICATION SCIENCES AND DISORDERS

The major in communication sciences and disorders provides students with opportunities for study in the areas of speech–language pathology, audiology, and the normal aspects of speech, hearing, and language. Most students pursue this major because they hope to practice as licensed and/or certified clinicians in educational and medical–allied-health settings, assisting clients with communicative impairments arising from disease, trauma, predisposition, maladaptive learning, or unknown causes. Professional clinical practice follows completion of a master’s degree in speech–language pathology (<http://guide.wisc.edu/graduate/communication-sciences-disorders/communication-sciences-disorders-ms>), or a doctor of audiology degree (<http://guide.wisc.edu/graduate/communication-sciences-disorders/audiology-aud>), and involves evaluation and treatment based upon a firm theoretical understanding of

normal processes of hearing, and of speech and language formulation, production, and perception. Some students pursue the undergraduate major as a foundation for a research career in speech, language or hearing sciences. Others pursue the major as a preliminary step toward advanced training in other professional fields (e.g., law, medicine, nursing, special education).

Students are urged to consult with an undergraduate academic advisor in the department as soon as they have decided to major in this field. Course sequencing in the major is not flexible. Certain courses are prerequisites to others. Many of the courses are offered only once a year. **To declare the major**, students must earn a grade point average of 3.000 or better for the three courses CS&D 201 Speech Science, CS&D 202 Normal Aspects of Hearing, and CS&D 240 Language Development in Children and Adolescents, the first time these courses are attempted. Prospective majors typically begin taking this three-course “gateway” sequence as sophomores. Major declaration forms may be obtained from an advisor after the gateway criterion has been satisfied, and should be returned to the advisor for processing.

The major in communication sciences and disorders can be completed through the College of Letters & Science, or through the School of Education (p. 1238). Students select one program to follow, and should be aware that the two programs differ somewhat in their requirements for the major. Moreover, each program (L&S and Education) has its own general liberal studies requirements involving, for example, sciences, math, foreign language, social studies, and humanities. Students should plan to complete many of these general requirements as well as some courses in communication sciences and disorders during their first and second years on this campus.

The department is accredited in speech–language pathology and in audiology by the Council on Academic Accreditation of the American Speech–Language–Hearing Association (ASHA). Therefore, academic courses and clinical practica in the Department of Communication Sciences and Disorders may be applied toward clinical certification by ASHA (speech language pathology or audiology), and toward state licensure.

COMMUNICATION SCIENCES AND DISORDERS, B.A.

The major in communication sciences and disorders provides students with opportunities for study in the areas of speech–language pathology, audiology, and the normal aspects of speech, hearing, and language. Most students pursue this major because they hope to practice as licensed and/or certified clinicians in educational and medical/allied-health settings, assisting clients with communicative impairments arising from disease, trauma, predisposition, maladaptive learning, or unknown causes. Professional clinical practice follows completion of a master's degree in speech–language pathology, or a doctor of audiology degree, and involves evaluation and treatment based upon a firm theoretical understanding of normal processes of hearing, and of speech and language formulation, production, and perception. Some students pursue the undergraduate major as a foundation for a research career in speech, language or hearing sciences. Others pursue the major as a preliminary step toward advanced training in other professional fields (e.g., law, medicine, nursing, special education), or as a liberal arts degree that could lead to a variety of different career paths (Speech-Language Pathologist (SLP) assistant, educational assistant, line therapist).

The major in communication sciences and disorders can be completed through the College of Letters & Science, or through the School of Education. Students select one program to follow, and should be aware that the two programs differ somewhat in their requirements for the major. Moreover, each program (L&S and Education) has its own general liberal studies requirements involving, for example, sciences, math, foreign language, social studies, and humanities. Students should plan to complete many of these general requirements as well as some courses in communication sciences and disorders during their first and second years on this campus.

The department is accredited in speech–language pathology and in audiology by the Council on Academic Accreditation of the American Speech–Language–Hearing Association (ASHA). Therefore, academic courses and clinical practica in the Department of Communication Sciences and Disorders may be applied toward clinical certification by ASHA (speech language pathology or audiology), and toward state licensure.

HOW TO GET IN

Students are urged to consult with an undergraduate academic advisor as soon as they have decided to major in this field. Course sequencing in the major is not flexible. Certain courses are prerequisites to others. To declare the major, students should contact the department. Information about declaring the major is located at Communication Sciences & Disorders (CSD) Undergraduate Studies (<https://csd.wisc.edu/undergraduate.htm>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core

of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	<ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language <p>Note: A unit is one year of high school work or one semester/term of college work.</p>
L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework	108 credits
-------------------------------------	-------------

Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW-Madison 2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR

CS&D COURSES

10 courses and 30 credits from:

Code	Title	Credits
CS&D 201	Speech Science	3
CS&D 202	Normal Aspects of Hearing	3
CS&D 240	Language Development in Children and Adolescents	3
CS&D 210	Neural Basis of Communication	3
CS&D 303	Speech Acoustics and Perception	3
CS&D 315	Phonetics and Phonological Development	3
CS&D 318	Voice, Craniofacial and Fluency Disorders	3
CS&D 320	Introduction to Audiology	3
CS&D 425	Auditory Rehabilitation	3
CS&D 440	Child Language Disorders, Assessment and Intervention	3
Total Credits		30

COURSES IN RELATED AREAS

15 credits and one course from each of the following areas

Statistics

Code	Title	Credits
STAT 301	Introduction to Statistical Methods	3
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	3
STAT 371	Introductory Applied Statistics for the Life Sciences	3
PSYCH 210	Basic Statistics for Psychology	3
SOC/C&E SOC 360	Statistics for Sociologists I	4
STAT 224	Introductory Statistics for Engineers	3

Psychology

Code	Title	Credits
PSYCH 202	Introduction to Psychology	3-4

HDFS 363	Development from Adolescence to Old Age	3
----------	---	---

Linguistics

Code	Title	Credits
LINGUIS 101	Human Language	3
LINGUIS 103	Language, History, and Society	3
LINGUIS/ ANTHRO 301	Introduction to Linguistics: Descriptive and Theoretical	3
LINGUIS 303	Language, History, and Society	3
ENGL 214	The English Language	3
ENGL 314	Structure of English	3
ENGL 318	Second Language Acquisition	3
LINGUIS 237	Language & Immigration in Wisconsin	3
SPANISH 321	The Structure of Modern Spanish	3
SPANISH 331	Spanish Applied Linguistics	3
SPANISH 327	Introduction to Spanish Linguistics	3

Code	Title	Credits
ANTHRO 104	Cultural Anthropology and Human Diversity	3
ASIAN AM 101	Introduction to Asian American Studies	3
ASIAN AM/CHICLA/ FOLKLORE 102	Introduction to Comparative Ethnic Studies	3-4
CHICLA 201	Introduction to Chicana/o and Latina/o Studies	3
GEN&WS/SOC 200	Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies	3-4
L I S 202	Informational Divides and Differences in a Multicultural Society	3
ASIAN AM/SOC 220	Ethnic Movements in the United States	3-4
AFROAMER/ HIST SCI/ MED HIST 275	Science, Medicine, and Race: A History	3
HISTORY 227	Explorations in the History of Race and Ethnicity	3
AMER IND/ ANTHRO 314	Indians of North America	3
ENGL 319	Language, Race, and Identity	3
HISTORY 403	Immigration and Assimilation in American History	3-4
SOC 134	Problems of American Racial and Ethnic Minorities	3-4
SOC/ASIAN AM 220	Ethnic Movements in the United States	3-4

Biological Sciences

Code	Title	Credits
BOTANY/BIOLOGY/ ZOOLOGY 151	Introductory Biology	5

ANTHRO 105	Principles of Biological Anthropology	3
ANTHRO/BOTANY/ ZOOLOGY 410	Evolutionary Biology	3
BIOCHEM 104	Molecular Mechanisms, Human Health & You	3
BIOCORE 381	Evolution, Ecology, and Genetics	3
KINES 235	Human Physiology and Health	4
BIOLOGY/BOTANY/ ZOOLOGY 151	Introductory Biology	5
ZOOLOGY/ BIOLOGY 101	Animal Biology	3
PHYSICS 103	General Physics	4
PHYSICS 109	Physics in the Arts	3

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all CS&D and major courses

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in CS&D, taken on the UW–Madison campus

¹ Upper Level Major Credit Courses

Code	Title	Credits
CS&D 303	Speech Acoustics and Perception	3
CS&D 315	Phonetics and Phonological Development	3
CS&D 318	Voice, Craniofacial and Fluency Disorders	3
CS&D 320	Introduction to Audiology	3
CS&D 424	Sign Language I	2
CS&D 425	Auditory Rehabilitation	3
CS&D 440	Child Language Disorders, Assessment and Intervention	3
CS&D 503	Neural Mechanisms of Speech, Hearing and Language	3
CS&D 699	Directed Study	1-6

DISTINCTION IN THE MAJOR

Students majoring in communication sciences and disorders who are not Honors candidates may earn Distinction in the Major, provided that they obtain consent of the department honors advisor, achieve a minimum GPA of 3.750 in CS&D and major courses, and satisfy these requirements:

Code	Title	Credits
Honors credit in two of		
CS&D 303	Speech Acoustics and Perception	
CS&D 320	Introduction to Audiology	
CS&D 440	Child Language Disorders, Assessment and Intervention	
Undergraduate Honors Seminar		
CS&D 481	Undergraduate Junior Honors	

HONORS IN THE MAJOR

Students may declare Honors in the Communication Sciences and Disorders Major in consultation with the undergraduate advisor in that department.

HONORS IN THE COMMUNICATION SCIENCES AND DISORDERS MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Communications Sciences and Disorders students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 in all COM DIS courses, and all courses accepted in the major
- Complete the following courses for Honors earning a grade of B or better in each:

Code	Title	Credits
CS&D 481	Undergraduate Junior Honors	3
Select two of the following for Honors:		6
CS&D 303	Speech Acoustics and Perception	
CS&D 320	Introduction to Audiology	
CS&D 440	Child Language Disorders, Assessment and Intervention	
CS&D 681 & CS&D 682	Senior Honors Thesis and Senior Honors Thesis	6
Total Credits		15

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

ADVISING AND CAREERS

CS&D advising services are to be focused on students who need to declare the major or who have already declared CS&D and need advising in the major.

Students seeking to pursue graduate study in speech-language pathology or audiology are urged to take CS&D 371 Pre-Clinical Observation of Children and Adults (3 cr) —to earn ASHA observation hours which are required for graduate school admission. Enrollment in CS&D 371 is by permission and is restricted to students who have earned a B or better in CS&D 201 Speech Science, CS&D 202 Normal Aspects of Hearing, and CS&D 240 Language Development in Children and Adolescents.

Clinical Professor Quinn

Clinical Associate Professors Buhr-Lawler, Caul, Cohen, Douglas, Eith, Hartman, Kroll, Krug, Lee, Seidel

Lecturer Johnson

COMMUNICATION SCIENCES AND DISORDERS, B.S.

The major in communication sciences and disorders provides students with opportunities for study in the areas of speech–language pathology, audiology, and the normal aspects of speech, hearing, and language. Most students pursue this major because they hope to practice as licensed and/or certified clinicians in educational and medical/allied-health settings, assisting clients with communicative impairments arising from disease, trauma, predisposition, maladaptive learning, or unknown causes. Professional clinical practice follows completion of a master’s degree in speech–language pathology, or a doctor of audiology degree, and involves evaluation and treatment based upon a firm theoretical understanding of normal processes of hearing, and of speech and language formulation, production, and perception. Some students pursue the undergraduate major as a foundation for a research career in speech, language or hearing sciences. Others pursue the major as a preliminary step toward advanced training in other professional fields (e.g., law, medicine, nursing, special education), or as a liberal arts degree that could lead to a variety of different career paths (Speech-Language Pathologist (SLP) assistant, educational assistant, line therapist).

The major in communication sciences and disorders can be completed through the College of Letters & Science, or through the School of Education. Students select one program to follow, and should be aware that the two programs differ somewhat in their requirements for the major. Moreover, each program (L&S and Education) has its own general liberal studies requirements involving, for example, sciences, math,

foreign language, social studies, and humanities. Students should plan to complete many of these general requirements as well as some courses in communication sciences and disorders during their first and second years on this campus.

The department is accredited in speech–language pathology and in audiology by the Council on Academic Accreditation of the American Speech–Language–Hearing Association (ASHA). Therefore, academic courses and clinical practica in the Department of Communication Sciences and Disorders may be applied toward clinical certification by ASHA (speech language pathology or audiology), and toward state licensure.

HOW TO GET IN

Students are urged to consult with an undergraduate academic advisor as soon as they have decided to major in this field. Course sequencing in the major is not flexible. Certain courses are prerequisites to others. To declare the major, students should contact the department. Information about declaring the major is located at Communication Sciences & Disorders (CSD) Undergraduate Studies (<https://csd.wisc.edu/undergraduate.htm>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General	• Breadth—Humanities/Literature/Arts: 6 credits
Education	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW-Madison

2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR

CS&D COURSES

10 courses and 30 credits from:

Code	Title	Credits
CS&D 201	Speech Science	3
CS&D 202	Normal Aspects of Hearing	3
CS&D 240	Language Development in Children and Adolescents	3
CS&D 210	Neural Basis of Communication	3

CS&D 303	Speech Acoustics and Perception	3
CS&D 315	Phonetics and Phonological Development	3
CS&D 318	Voice, Craniofacial and Fluency Disorders	3
CS&D 320	Introduction to Audiology	3
CS&D 425	Auditory Rehabilitation	3
CS&D 440	Child Language Disorders, Assessment and Intervention	3
Total Credits		30

COURSES IN RELATED AREAS

15 credits and one course from each of the following areas

Statistics

Code	Title	Credits
STAT 301	Introduction to Statistical Methods	3
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	3
STAT 371	Introductory Applied Statistics for the Life Sciences	3
PSYCH 210	Basic Statistics for Psychology	3
SOC/C&E SOC 360	Statistics for Sociologists I	4
STAT 224	Introductory Statistics for Engineers	3

Psychology

Code	Title	Credits
PSYCH 202	Introduction to Psychology	3-4
HDFS 363	Development from Adolescence to Old Age	3

Linguistics

Code	Title	Credits
LINGUIS 101	Human Language	3
LINGUIS 103	Language, History, and Society	3
LINGUIS/ ANTHRO 301	Introduction to Linguistics: Descriptive and Theoretical	3
LINGUIS 303	Language, History, and Society	3
ENGL 214	The English Language	3
ENGL 314	Structure of English	3
ENGL 318	Second Language Acquisition	3
LINGUIS 237	Language & Immigration in Wisconsin	3
SPANISH 321	The Structure of Modern Spanish	3
SPANISH 331	Spanish Applied Linguistics	3
SPANISH 327	Introduction to Spanish Linguistics	3

Ethnic Studies

Code	Title	Credits
ANTHRO 104	Cultural Anthropology and Human Diversity	3
ASIAN AM 101	Introduction to Asian American Studies	3
ASIAN AM/CHICLA/ FOLKLORE 102	Introduction to Comparative Ethnic Studies	3-4
CHICLA 201	Introduction to Chicana/o and Latina/o Studies	3

GEN&WS/SOC 200	Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies	3-4
L I S 202	Informational Divides and Differences in a Multicultural Society	3
ASIAN AM/SOC 220	Ethnic Movements in the United States	3-4
AFROAMER/ HIST SCI/ MED HIST 275	Science, Medicine, and Race: A History	3
HISTORY 227	Explorations in the History of Race and Ethnicity	3
AMER IND/ ANTHRO 314	Indians of North America	3
ENGL 319	Language, Race, and Identity	3
HISTORY 403	Immigration and Assimilation in American History	3-4
SOC 134	Problems of American Racial and Ethnic Minorities	3-4
SOC/ASIAN AM 220	Ethnic Movements in the United States	3-4

Biological Sciences

Code	Title	Credits
BOTANY/BIOLOGY/ ZOOLOGY 151	Introductory Biology	5
ANTHRO 105	Principles of Biological Anthropology	3
ANTHRO/BOTANY/ ZOOLOGY 410	Evolutionary Biology	3
BIOCHEM 104	Molecular Mechanisms, Human Health & You	3
BIOCORE 381	Evolution, Ecology, and Genetics	3
KINES 235	Human Physiology and Health	4
BIOLOGY/BOTANY/ ZOOLOGY 151	Introductory Biology	5
ZOOLOGY/ BIOLOGY 101	Animal Biology	3
PHYSICS 103	General Physics	4
PHYSICS 109	Physics in the Arts	3

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all CS&D and major courses
 2.000 GPA on 15 upper-level major credits, taken in residence¹
 15 credits in CS&D, taken on the UW–Madison campus

¹ Upper Level Major Credit Courses

Code	Title	Credits
CS&D 303	Speech Acoustics and Perception	3
CS&D 315	Phonetics and Phonological Development	3
CS&D 318	Voice, Craniofacial and Fluency Disorders	3
CS&D 320	Introduction to Audiology	3
CS&D 424	Sign Language I	2
CS&D 425	Auditory Rehabilitation	3

CS&D 440	Child Language Disorders, Assessment and Intervention	3
CS&D 503	Neural Mechanisms of Speech, Hearing and Language	3
CS&D 699	Directed Study	1-6

DISTINCTION IN THE MAJOR

Students majoring in communication sciences and disorders who are not Honors candidates may earn Distinction in the Major, provided that they obtain consent of the department honors advisor, achieve a minimum GPA of 3.750 in CS&D and major courses, and satisfy these requirements:

Code	Title	Credits
Honors credit in two of		
CS&D 303	Speech Acoustics and Perception	
CS&D 320	Introduction to Audiology	
CS&D 440	Child Language Disorders, Assessment and Intervention	
Undergraduate Honors Seminar		
CS&D 481	Undergraduate Junior Honors	

HONORS IN THE MAJOR

Students may declare Honors in the Communication Sciences and Disorders Major in consultation with the undergraduate advisor in that department.

HONORS IN THE COMMUNICATION SCIENCES AND DISORDERS MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Communications Sciences and Disorders students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 in all COM DIS courses, and all courses accepted in the major
- Complete the following courses for Honors earning a grade of B or better in each:

Code	Title	Credits
CS&D 481	Undergraduate Junior Honors	3
Select two of the following for Honors:		
CS&D 303	Speech Acoustics and Perception	
CS&D 320	Introduction to Audiology	
CS&D 440	Child Language Disorders, Assessment and Intervention	
CS&D 681 & CS&D 682	Senior Honors Thesis and Senior Honors Thesis	6
Total Credits		15

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

ADVISING AND CAREERS

CS&D advising services are to be focused on students who need to declare the major or who have already declared CS&D and need advising in the major.

Students seeking to pursue graduate study in speech-language pathology or audiology are urged to take CS&D 371 Pre-Clinical Observation of Children and Adults (3 cr) —to earn ASHA observation hours which are required for graduate school admission. Enrollment in CS&D 371 is by permission and is restricted to students who have earned a B or better in CS&D 201 Speech Science, CS&D 202 Normal Aspects of Hearing, and CS&D 240 Language Development in Children and Adolescents.

COMPARATIVE LITERATURE AND FOLKLORE STUDIES

OVERVIEW

The Department of Comparative Literature and Folklore Studies offers a major in comparative literature and a certificate in folklore.

Comparative literature is the study of literatures in their original languages from a transnational, cross-cultural perspective. The program welcomes students with a diverse range of backgrounds and interests, and with literary reading competence in a language in addition to English. Literary fluency in a language other than English is the basis for work in the comparative literature major.

Comparative literature students and majors study texts from a range of historical periods, geographical and cultural areas, and literary and artistic movements. They learn to critically pose and respond to fundamental questions about the place of literature in society and in cultural and historical traditions.

Majors are introduced to specific modes of literary analysis as well as to general concepts of "literariness." They explore the interaction of literature with other arts and disciplines as well as with the political, social, and intellectual contexts of literature. In this way, students acquire important intellectual skills in critical comparative reading, thinking, and writing.

The small size of most comparative literature classes allows ample opportunity for the discussion and exchange that are essential to the development of such skills. Comparative literature classes also offer challenging research and writing projects that can be carried out individually and in small groups.

A major in comparative literature is valuable preparation for a career in a wide range of fields that demand careful analysis, clear writing, the presentation of logical arguments, and the critical assessment of the written and oral opinions of others—law, business, communications, politics and diplomacy, journalism, technical writing, or publishing. It is ideal for students interested in teaching at the secondary level or in pursuing graduate degrees.

To declare the major in comparative literature, students must have sophomore standing, have taken at least one 200-level course in the department, have a minimum 3.0 GPA, and have established the foundations of literary fluency in a language other than English.

Prospective majors are strongly encouraged to meet with the director of undergraduate studies to discuss the requirements in advance of declaring the major. Declared majors are strongly encouraged to meet with the director of undergraduate studies in planning their courses each semester. Juniors should arrange a meeting early in the spring semester to assess whether they will have met all requirements for graduation.

Folklore is a multidisciplinary field of study concerned with the documentation and analysis of verbal, customary, musical, material, and performance traditions, primarily as they are practiced within cultures, but also as they are revived, modified, even invented by artists, educators, entrepreneurs, activists, communities, and states. The program offers courses on folklore forms, practitioners, performances, theory, methods,

and public presentation, with an emphasis on cross-cultural and interdisciplinary approaches. Students interested in folklore as an area of concentration typically major in an arts, humanities, or social science discipline. No formal undergraduate major is offered in folklore, but by planning a course of study with the undergraduate advisor, a student may design an individual major with a folklore concentration. Undergraduate students may also earn a certificate in folklore.

ADDITIONAL PROGRAM INFORMATION

Courses in comparative literature fall into four general classes:

Introductory courses (201–299) are based entirely on English-language texts or English translations of foreign language texts. These courses are open to first-year students and restricted to undergraduates.

General courses (300–400) are open to undergraduates. The course texts are in English, but majors and other students who are able to do so are expected to work with one foreign literature in the original language.

More specialized courses (400–699) are open to both undergraduate and (with the exception of the proseminar, COMP LIT 690) graduate students. Texts used in these courses typically require the knowledge of at least one foreign language.

Graduate courses (700–999) involve increasing use of foreign literatures both in the classroom and in individual work.

DEGREES/MAJORS/CERTIFICATES

HOW TO GET IN

To declare the major in comparative literature, students must have sophomore standing, have taken at least one 200-level course in the department, have a minimum 3.0 GPA, and have established the foundations of literary fluency in a language other than English.

Prospective majors are strongly encouraged to meet with the director of undergraduate studies to discuss the requirements in advance of declaring the major. Declared majors are strongly encouraged to meet with the director of undergraduate studies in planning their courses each semester. Juniors should arrange a meeting early in the spring semester to assess whether they will have met all requirements for graduation.

Students interested in comparative literature and folklore studies should contact the department via email at complit@lss.wisc.edu or by calling 608-262-3059 to schedule an appointment with the undergraduate advisor. Students can also go to 2402 Sterling Hall at 475 North Charter Street to get general information about the major.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world.

Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	<ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language <p>Note: A unit is one year of high school work or one semester/term of college work.</p>
L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

The major requires a total of 30 credits in Comparative Literature (COMP LIT), plus 9 credits in literature in a single foreign language for a total of 39 credits.

Code	Title	Credits
<i>Comparative Literature Courses</i>		
Two courses (6 credits total) from the following 200-level courses:		
COMP LIT 201	Introduction to Pre-Modern Literatures/Impact on the Modern World	
COMP LIT 202	Introduction to Modern and Contemporary Literature	
COMP LIT 203	Introduction to Cross-Cultural Literary Forms	
COMP LIT 205	Intro to Comparative Study of Race & Ethnicity, In & Beyond the U.S.	
Two courses (6 credits) from the following literary criticism and theory courses:		
COMP LIT 310	Introduction to Literary Criticism	
COMP LIT 371	Literary Criticism	
COMP LIT 475	Poetics and Literary Theory	
Must also include (3 credits) proseminar:		
COMP LIT 690	Proseminar	
<i>Foreign Language</i>		
9 credits in literature or culture courses in a single foreign language, with a final grade of B or better in each course. Independent study or literature in translation courses will not count toward this requirement.		
Select 15 additional credits at the Intermediate or Advanced levels (300 level and above) to reach 39 credit minimum for the Major:		
COMP LIT 350	Problems in Comparative Literatures and Cultures	
COMP LIT 351	Lyric	
COMP LIT 357	Fantasy and Science Fiction	
COMP LIT 368	Literature and Ideas	
COMP LIT 375	Literature and Related Disciplines	
COMP LIT 379	Literature and Ethnic Experience	
COMP LIT 358	Problems in Transnational Genre and Mode	

COMP LIT 370	Comparative Problems in Periods and Movements
COMP LIT 466	Literature , Media, the Arts
COMP LIT 473	Thematics
COMP LIT 500	The Comparative In and Beyond Comparative Literature
COMP LIT 681	Senior Honors Thesis
COMP LIT 682	Senior Honors Thesis
COMP LIT 691	Senior Thesis
COMP LIT 692	Senior Thesis
COMP LIT 698	Directed Study
COMP LIT 699	Directed Study

The Senior Thesis (COMP LIT 691 Senior Thesis–COMP LIT 692 Senior Thesis, for a total of 6 credits) is strongly recommended (though not required) for non-honors majors.

Introduction to Literary Criticism (COMP LIT 310 Introduction to Literary Criticism) is strongly advised as a bridge between the 200-level courses and the 300- and 400-level courses.

Work in the major must show a degree of continuity. The exact configuration of courses in the major will be determined individually for each student in consultation with the director of undergraduate studies.

Majors are strongly encouraged to maintain a GPA of 3.250 for coursework in the major.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all COMP LIT courses and courses counting toward the major

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits, in COMP LIT, taken on campus

¹ COMP LIT 300 through COMP LIT 699, that carry the intermediate or advanced designation, are considered upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Comparative Literature and Folklore Studies Major in consultation with the undergraduate advisor in the department.

HONORS IN THE COMPARATIVE LITERATURE AND FOLKLORE STUDIES MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Comparative Literature and Folklore Studies Major students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all COMP LIT courses, and all courses accepted in the major
- Complete 39 credits in COMP LIT, to include:
 - 9 credits of COMP LIT, taken for Honors, at the 300 level or above
 - A two-semester Senior Honors Thesis in COMP LIT 681 Senior Honors Thesis and COMP LIT 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

ADVISING AND CAREERS

Students are encouraged to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help students leverage the academic skills learned in the major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to their success.

Professors Brenner (Center for Jewish Studies), Bühnemann (Asian Languages and Cultures), Gross (German, Nordic, and Slavic), Klug (Law)

COMPARATIVE LITERATURE AND FOLKLORE STUDIES, B.S.

OVERVIEW

The Department of Comparative Literature and Folklore Studies offers a major in comparative literature and a certificate in folklore.

Comparative literature is the study of literatures in their original languages from a transnational, cross-cultural perspective. The program welcomes students with a diverse range of backgrounds and interests, and with literary reading competence in a language in addition to English. Literary fluency in a language other than English is the basis for work in the comparative literature major.

Comparative literature students and majors study texts from a range of historical periods, geographical and cultural areas, and literary and artistic movements. They learn to critically pose and respond to fundamental questions about the place of literature in society and in cultural and historical traditions.

Majors are introduced to specific modes of literary analysis as well as to general concepts of "literariness." They explore the interaction of literature with other arts and disciplines as well as with the political, social, and intellectual contexts of literature. In this way, students acquire important intellectual skills in critical comparative reading, thinking, and writing.

The small size of most comparative literature classes allows ample opportunity for the discussion and exchange that are essential to the development of such skills. Comparative literature classes also offer challenging research and writing projects that can be carried out individually and in small groups.

A major in comparative literature is valuable preparation for a career in a wide range of fields that demand careful analysis, clear writing, the presentation of logical arguments, and the critical assessment of the written and oral opinions of others—law, business, communications, politics and diplomacy, journalism, technical writing, or publishing. It

is ideal for students interested in teaching at the secondary level or in pursuing graduate degrees.

To declare the major in comparative literature, students must have sophomore standing, have taken at least one 200-level course in the department, have a minimum 3.0 GPA, and have established the foundations of literary fluency in a language other than English.

Prospective majors are strongly encouraged to meet with the director of undergraduate studies to discuss the requirements in advance of declaring the major. Declared majors are strongly encouraged to meet with the director of undergraduate studies in planning their courses each semester. Juniors should arrange a meeting early in the spring semester to assess whether they will have met all requirements for graduation.

Folklore is a multidisciplinary field of study concerned with the documentation and analysis of verbal, customary, musical, material, and performance traditions, primarily as they are practiced within cultures, but also as they are revived, modified, even invented by artists, educators, entrepreneurs, activists, communities, and states. The program offers courses on folklore forms, practitioners, performances, theory, methods, and public presentation, with an emphasis on cross-cultural and interdisciplinary approaches. Students interested in folklore as an area of concentration typically major in an arts, humanities, or social science discipline. No formal undergraduate major is offered in folklore, but by planning a course of study with the undergraduate advisor, a student may design an individual major with a folklore concentration. Undergraduate students may also earn a certificate in folklore.

ADDITIONAL PROGRAM INFORMATION

Courses in comparative literature fall into four general classes:

Introductory courses (201–299) are based entirely on English-language texts or English translations of foreign language texts. These courses are open to first-year students and restricted to undergraduates.

General courses (300–400) are open to undergraduates. The course texts are in English, but majors and other students who are able to do so are expected to work with one foreign literature in the original language.

More specialized courses (400–699) are open to both undergraduate and (with the exception of the proseminar, COMP LIT 690) graduate students. Texts used in these courses typically require the knowledge of at least one foreign language.

Graduate courses (700–999) involve increasing use of foreign literatures both in the classroom and in individual work.

HOW TO GET IN

To declare the major in comparative literature, students must have sophomore standing, have taken at least one 200-level course in the department, have a minimum 3.0 GPA, and have established the foundations of literary fluency in a language other than English.

Prospective majors are strongly encouraged to meet with the director of undergraduate studies to discuss the requirements in advance of declaring the major. Declared majors are strongly encouraged to meet with the director of undergraduate studies in planning their courses each semester. Juniors should arrange a meeting early in the spring semester to assess whether they will have met all requirements for graduation.

Students interested in comparative literature and folklore studies should contact the department via email at complit@lss.wisc.edu or by calling 608-262-3059 to schedule an appointment with the undergraduate advisor. Students can also go to 2402 Sterling Hall at 475 North Charter Street to get general information about the major.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.

- L&S Breadth
- Humanities, 12 credits: 6 of the 12 credits must be in literature
 - Social Sciences, 12 credits
 - Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

The major requires a total of 30 credits in Comparative Literature (COMP LIT), plus 9 credits in literature in a single foreign language for a total of 39 credits.

Code	Title	Credits
<i>Comparative Literature Courses</i>		
Two courses (6 credits total) from the following 200-level courses:		
COMP LIT 201	Introduction to Pre-Modern Literatures/Impact on the Modern World	
COMP LIT 202	Introduction to Modern and Contemporary Literature	
COMP LIT 203	Introduction to Cross-Cultural Literary Forms	
COMP LIT 205	Intro to Comparative Study of Race & Ethnicity, In & Beyond the U.S.	
Two courses (6 credits) from the following literary criticism and theory courses:		
COMP LIT 310	Introduction to Literary Criticism	
COMP LIT 371	Literary Criticism	
COMP LIT 475	Poetics and Literary Theory	
Must also include (3 credits) proseminar:		
COMP LIT 690	Proseminar	
<i>Foreign Language</i>		

9 credits in literature or culture courses in a single foreign language, with a final grade of B or better in each course. Independent study or literature in translation courses will not count toward this requirement.

Select 15 additional credits at the Intermediate or Advanced levels (300 level and above) to reach 39 credit minimum for the Major:

COMP LIT 350	Problems in Comparative Literatures and Cultures
COMP LIT 351	Lyric
COMP LIT 357	Fantasy and Science Fiction
COMP LIT 368	Literature and Ideas
COMP LIT 375	Literature and Related Disciplines
COMP LIT 379	Literature and Ethnic Experience
COMP LIT 358	Problems in Transnational Genre and Mode
COMP LIT 370	Comparative Problems in Periods and Movements
COMP LIT 466	Literature , Media, the Arts
COMP LIT 473	Thematics
COMP LIT 500	The Comparative In and Beyond Comparative Literature
COMP LIT 681	Senior Honors Thesis
COMP LIT 682	Senior Honors Thesis
COMP LIT 691	Senior Thesis
COMP LIT 692	Senior Thesis
COMP LIT 698	Directed Study
COMP LIT 699	Directed Study

The Senior Thesis (COMP LIT 691 Senior Thesis–COMP LIT 692 Senior Thesis, for a total of 6 credits) is strongly recommended (though not required) for non-honors majors.

Introduction to Literary Criticism (COMP LIT 310 Introduction to Literary Criticism) is strongly advised as a bridge between the 200-level courses and the 300- and 400-level courses.

Work in the major must show a degree of continuity. The exact configuration of courses in the major will be determined individually for each student in consultation with the director of undergraduate studies.

Majors are strongly encouraged to maintain a GPA of 3.250 for coursework in the major.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all COMP LIT courses and courses counting toward the major

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits, in COMP LIT, taken on campus

¹ COMP LIT 300 through COMP LIT 699, that carry the intermediate or advanced designation, are considered upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Comparative Literature and Folklore Studies Major in consultation with the undergraduate advisor in the department.

HONORS IN THE COMPARATIVE LITERATURE AND FOLKLORE STUDIES MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Comparative Literature and Folklore Studies Major students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all COMP LIT courses, and all courses accepted in the major
- Complete 39 credits in COMP LIT, to include:
 - 9 credits of COMP LIT, taken for Honors, at the 300 level or above
 - A two-semester Senior Honors Thesis in COMP LIT 681 Senior Honors Thesis and COMP LIT 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

ADVISING AND CAREERS

Students are encouraged to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help students leverage the academic skills learned in the major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to their success.

CAREER RESOURCES

FOLKLORE, CERTIFICATE

The certificate in folklore is available to students working for a baccalaureate degree in any UW–Madison school or college, and to Special students. The purpose of the certificate is to acquaint students with the nature of folklore, its study, its public presentation, and its relations to a range of human experiences, intellectual currents, and professional endeavors.

HOW TO GET IN

Students interested in pursuing a certificate in folklore studies should contact the undergraduate advisor (Dr. Beatriz Botero (<http://cfs.wisc.edu/people/faculty>)) at their earliest convenience.

REQUIREMENTS

REQUIREMENTS FOR THE FOLKLORE CERTIFICATE

At least four courses must be at the 300 level or above. Directed Study (FOLKLORE 399 Directed Study in Folklore for Undergraduates) may be used to satisfy one cluster requirement, but only with the approval of the certificate advisor and the director of the certificate program. Certificate

seekers are urged to consult the undergraduate advisor at the earliest possible opportunity.

Select 15 credits, including at least one course from each of the following four clusters:

INTRODUCTIONS TO THE FIELD:

Code	Title	Credits
FOLKLORE 100	Introduction to Folklore	3
FOLKLORE 230	Introduction to American Folklore	3

GENRES OF FOLKLORE:

Code	Title	Credits
FOLKLORE/ MUSIC 103	Introduction to Music Cultures of the World	2
FOLKLORE/ ANTHRO/INTL ST/ LINGUIS 211	Global Language Issues	4
FOLKLORE 220	The Folk Tale	3
FOLKLORE/ RELIG ST 352	Shamanism	3
FOLKLORE/ RELIG ST 359	Myth	3
FOLKLORE 451	The Supernatural in the Modern World	3
FOLKLORE 460	Folk Epics	3
FOLKLORE/ ANTHRO/MUSIC/ THEATRE 539	The Folklore of Festivals and Celebrations	3
FOLKLORE/DS 655	Comparative World Dress	3

FOLKLORE AND CULTURAL AREAS:

Code	Title	Credits
FOLKLORE/ ASIAN AM/ CHICLA 102	Introduction to Comparative Ethnic Studies	3-4
FOLKLORE/ AFRICAN 210	The African Storyteller	3
FOLKLORE/ AFRICAN 270	The Hero and Trickster in African Oral Traditions	3
FOLKLORE/LCA 279	Introduction to Turkish Folk Literature	3

COMPUTER SCIENCES

Our graduates discover that **computer science (CS)** opens up a world of possibilities.

Computer scientists enjoy **exceptional career opportunities**, in settings ranging from large, established companies to adventurous new start-ups. They are also well qualified to pursue graduate study in a number of fields.

Our students are **creative, analytical problem-solvers**. This is a rich, collaborative and varied field that you will find challenging, no matter where your individual interests lie.

And there is more to CS than programming. While **software engineering** is an important skill, computer scientists also **work with robots** and other physical devices, **design hardware that runs faster** and more efficiently, and **apply machine learning techniques** to gain insight from large data sets—to name just a few examples.

Because CS has become highly **interconnected with medicine, business and many other fields**, it is a great fit with other interests you may have. You will enjoy a strong career outlook while having an **impact on society**.

HOW TO GET IN

DECLARATION REQUIREMENTS

To declare the computer sciences major, students must complete **one** Comp Sci course at UW–Madison **and** achieve a grade of "C" or better in that course. The course must be worth 2 or more credits.

Information on declaring the major is available on the Department of Computer Sciences advising pages (<https://www.cs.wisc.edu/advising>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world.

Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *

RESIDENCE AND QUALITY OF WORK:

2.000 GPA in all COMP SCI courses and courses counting toward the major

2.000 GPA on 15 upper-level credits, taken in residence¹

15 credits in COMP SCI, taken on campus

¹ COMP SCI courses numbered 400 and higher count as Upper-Level.

DISTINCTION IN THE MAJOR:

Code	Title	Credits
Distinction in the major is awarded automatically upon graduation to computer sciences majors who meet the qualifications below.		

QUALIFICATIONS FOR DISTINCTION IN THE COMPUTER SCIENCES MAJOR

Code	Title	Credits
3.750 GPA in all COMP SCI courses and courses counting toward the major		
<i>OR</i>		
3.500 GPA in all COMP SCI courses and courses counting toward the major, plus completion of one of the following:		
-Completion of COMP SCI 691 & COMP SCI 692 for at least 6 credits, or		
-One COMP SCI course, at the 500 level or above, and counted towards the major, must be taken for honors credit and completed with a grade of "B" or better		

HONORS IN THE MAJOR

Students may declare Honors in the Computer Sciences Major in consultation with the Computer Sciences undergraduate coordinator(s).

HONORS IN THE COMPUTER SCIENCES MAJOR REQUIREMENTS

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all COMP SCI courses, and all courses accepted in the major
- Complete the following coursework, earning a B or better in each individual course:
 - One COMP SCI course, at the 500 level or above, taken for Honors credit, which counts toward the COMP SCI major
 - A two-semester Senior Honors Thesis in COMP SCI 681 Senior Honors Thesis and COMP SCI 682 Senior Honors Thesis, for a total of 6 credits.¹

¹ The thesis proposal must be approved by both the thesis/project advisor and the department undergraduate coordinator before enrollment in COMP SCI 681. A final thesis or project must be filed with the Department of Computer Sciences before a final grade for COMP SCI 682 can be awarded.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

Upon graduation, students will be able to:

1. Recognize and apply the core principles of Computing (abstractions and algorithms) to solve real-world problems.
2. Describe and apply the theoretical foundations of Computer Science (e.g., complexity analysis) in practical settings.
3. Demonstrate knowledge of key elements of computer systems, e.g., hardware, operating systems, networks.

4. Use fundamental and detailed knowledge, skills, and tools (e.g., specific algorithms, techniques methods, etc.) of computer science and develop the ability to acquire new knowledge, skills, and tools.
5. Design, implement, and evaluate software in multiple programming paradigms and languages.
6. Develop a substantial piece of software, and recognize the challenges of designing and developing software.
7. Exhibit technical (designing, implementing, and testing) and teamwork (communication, collaboration, and professional practice) skills in order to develop solutions as a computer science practitioner.
8. Can solve problems by applying a broad toolbox of knowledge and techniques.

ADVISING AND CAREERS

ADVISING

The undergraduate coordinators in the Department of Computer Sciences are ready to help students with questions about the major, L&S degree requirements and policy, and course selection. Information on academic advising for students interested or declared in the computer sciences major is posted to the Computer Sciences advising page (<https://www.cs.wisc.edu/advisors>).

CAREERS

Demand for those with a computer sciences education is exceptionally strong. According to figures from the U.S. Bureau of Labor Statistics, the vast majority of growth in STEM (science, technology, engineering, and math) occupations through 2020 will occur within computing fields.

Computer sciences majors are encouraged to begin working on their career exploration and preparation soon after arriving on campus to explore different career paths, participate in co-ops or summer internships, prepare for the job search and/or graduate school applications, and network with professionals in the field.

Department of Computer Sciences: the department hosts one major career fair (<https://www.cs.wisc.edu/connect/job-fair>) per year, in the fall, as well as other opportunities to connect with employers, such as technical talks and information sessions.

Letters & Science Career Services: L&S Career Services (<http://careers.ls.wisc.edu>) offers two major career fairs per year, assists with resume writing and interviewing skills, and offers individual career advising appointments for L&S students.

Engineering Career Services (ECS): ECS (<https://ecs.engr.wisc.edu/public>) offers two major career fairs per year, assists with resume writing and interviewing skills, and hosts workshops on the job search.

PEOPLE

Professors A. Arpaci-Dusseau, R. Arpaci-Dusseau, Bach, Barford, Banerjee, Cai, Doan, Dyer, Ferris, Gleicher, Hill, Jha, Livny, Miller, Patel, Reps, Ron, Shavlik, Sohi, van Melkebeek, Wood, Wright, Zhu

Associate Professors Akella, Chawla, Liblit, Mutlu, Sankaralingam, Swift

Assistant Professors Albarghouthi, D'Antoni, Gupta, Koutris, Sifakis

Faculty Associates Dahl, Deppeler, Hasti, Legault, Lewis-Williams, Skrentny, Williams

RESOURCES AND SCHOLARSHIPS

Visit Scholarships@UW-Madison (<https://scholarships.wisc.edu/Scholarships>) to find UW–Madison scholarships and apply online.

Visit the scholarships page (<https://www.cs.wisc.edu/academics/scholarships>) on the Department of Computer Sciences website for a compendium of opportunities available to students studying computer sciences.

COMPUTER SCIENCES, B.S.

Our graduates discover that **computer science (CS)** opens up a world of possibilities.

Computer scientists enjoy **exceptional career opportunities**, in settings ranging from large, established companies to adventurous new start-ups. They are also well qualified to pursue graduate study in a number of fields.

Our students are **creative, analytical problem-solvers**. This is a rich, collaborative and varied field that you will find challenging, no matter where your individual interests lie.

And there is more to CS than programming. While **software engineering** is an important skill, computer scientists also **work with robots** and other physical devices, **design hardware that runs faster** and more efficiently, and **apply machine learning techniques** to gain insight from large data sets—to name just a few examples.

Because CS has become highly **interconnected with medicine, business and many other fields**, it is a great fit with other interests you may have. You will enjoy a strong career outlook while having an **impact on society**.

HOW TO GET IN

DECLARATION REQUIREMENTS

To declare the computer sciences major, students must complete **one** Comp Sci course at UW–Madison **and** achieve a grade of "C" or better in that course. The course must be worth 2 or more credits.

Information on declaring the major is available on the Department of Computer Sciences advising pages (<https://www.cs.wisc.edu/advising>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to

the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework	108 credits
-------------------------------------	-------------

Depth of Intermediate/Advanced work	60 intermediate or advanced credits
-------------------------------------	-------------------------------------

Major	Declare and complete at least one (1) major
-------	---

Total Credits	120 credits
---------------	-------------

UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
-----------------------	---

Minimum	2.000 in all coursework at UW–Madison
GPAs	2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

REQUIRED COURSEWORK

Code	Title	Credits
No course may be used to satisfy more than one requirement in the computer sciences major.		
Courses taken on a pass/fail basis will not count toward any major requirements.		

BASIC COMPUTER SCIENCES

Code	Title	Credits
Complete all of the following courses:		14
COMP SCI/ MATH 240	Introduction to Discrete Mathematics	
COMP SCI/ E C E 252	Introduction to Computer Engineering	
COMP SCI 300	Programming II	
COMP SCI/ E C E 354	Machine Organization and Programming	
COMP SCI 400	Programming III	

BASIC CALCULUS

Code	Title	Credits
Select one of the following options:		9-14
MATH 221 & MATH 222	Calculus and Analytic Geometry 1 and Calculus and Analytic Geometry 2	
MATH 171 & MATH 217 & MATH 222	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2	
MATH 275 & MATH 276	Topics in Calculus I and Topics in Calculus II	

ADDITIONAL MATHEMATICS

Code	Title	Credits
Select two from the following:		6-10
MATH 340	Elementary Matrix and Linear Algebra (recommended) ¹	
STAT 324	Introductory Applied Statistics for Engineers (recommended)	
COMP SCI 412	Introduction to Numerical Methods ²	

COMP SCI/E C E/ MATH 435	Introduction to Cryptography
COMP SCI/ MATH 513	Numerical Linear Algebra
COMP SCI/ MATH 514	Numerical Analysis
COMP SCI/I SY E/ MATH/STAT 525	Linear Programming Methods
COMP SCI/ I SY E 526	Advanced Linear Programming
MATH 234	Calculus–Functions of Several Variables ¹
MATH 319	Techniques in Ordinary Differential Equations
MATH 320	Linear Algebra and Differential Equations ¹
MATH 321	Applied Mathematical Analysis
MATH 322	Applied Mathematical Analysis
MATH 331	An Introduction to Probability and Markov Chain Models
MATH 341	Linear Algebra
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra ¹
MATH 376	Topics in Multi-Variable Calculus and Differential Equations
MATH/STAT 431	Introduction to the Theory of Probability
MATH 443	Applied Linear Algebra
MATH 461	College Geometry I
MATH/COMP SCI/ STAT 475	Introduction to Combinatorics
MATH 521	Analysis I
MATH 541	Modern Algebra
MATH 542	Modern Algebra
MATH 567	Elementary Number Theory
MATH/ PHILOS 571	Mathematical Logic
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I
STAT/MATH 310	Introduction to Probability and Mathematical Statistics II
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I
STAT 312	Introduction to Theory and Methods of Mathematical Statistics II
E C E 331	Introduction to Random Signal Analysis and Statistics

¹ MATH 375 may not be combined with MATH 234 Calculus–Functions of Several Variables, MATH 320 Linear Algebra and Differential Equations, or MATH 340 Elementary Matrix and Linear Algebra. The math department may have additional restrictions on giving credit to certain pairs of math courses.

ADVANCED COMPUTER SCIENCES

Code	Title	Credits
Some of the advanced COMP SCI courses listed below have prerequisites not specifically required for the major. It is recommended that students plan ahead to ensure prerequisites are completed in advance of their selected coursework.		

THEORY

Code	Title	Credits
Select one of the following courses:		3
COMP SCI 577	Introduction to Algorithms (recommended)	
COMP SCI 520	Introduction to Theory of Computing	

SOFTWARE/HARDWARE

Code	Title	Credits
Select two of the following courses:		6-8
COMP SCI 407	Foundations of Mobile Systems and Applications	
COMP SCI/ E C E 506	Software Engineering	
COMP SCI 536	Introduction to Programming Languages and Compilers ¹	
COMP SCI 537	Introduction to Operating Systems	
COMP SCI 538	Introduction to the Theory and Design of Programming Languages ¹	
COMP SCI/ E C E 552	Introduction to Computer Architecture	
COMP SCI 564	Database Management Systems: Design and Implementation	
COMP SCI 640	Introduction to Computer Networks	
COMP SCI 642	Introduction to Information Security	

¹ COMP SCI 536 Introduction to Programming Languages and Compilers may not be combined with COMP SCI 538 Introduction to the Theory and Design of Programming Languages.

APPLICATIONS

Code	Title	Credits
Select one of the following courses:		
COMP SCI 412	Introduction to Numerical Methods ¹	
COMP SCI/ I SY E/ MATH 425	Introduction to Combinatorial Optimization	
COMP SCI/ MATH 513	Numerical Linear Algebra	
COMP SCI/ MATH 514	Numerical Analysis	
COMP SCI/ E C E/ I SY E 524	Introduction to Optimization	
COMP SCI/ I SY E/ MATH/ STAT 525	Linear Programming Methods	
COMP SCI 534	Computational Photography	

COMP SCI 540	Introduction to Artificial Intelligence	
COMP SCI 545	Natural Language and Computing	
COMP SCI 547	Computer Systems Modeling Fundamentals	
COMP SCI 559	Computer Graphics	
COMP SCI 570	Introduction to Human-Computer Interaction	

¹ COMP SCI 412 Introduction to Numerical Methods is used to satisfy the "Additional Mathematics" requirement, it cannot satisfy the "Applications" requirement.

COMP SCI 640	Introduction to Computer Networks
COMP SCI 642	Introduction to Information Security
COMP SCI 679	Computer Game Technology

RESIDENCE AND QUALITY OF WORK:

2.000 GPA in all COMP SCI courses and courses counting toward the major

2.000 GPA on 15 upper-level credits, taken in residence¹

15 credits in COMP SCI, taken on campus

¹ COMP SCI courses numbered 400 and higher count as Upper-Level.

DISTINCTION IN THE MAJOR:

Code	Title	Credits
Distinction in the major is awarded automatically upon graduation to computer sciences majors who meet the qualifications below.		

QUALIFICATIONS FOR DISTINCTION IN THE COMPUTER SCIENCES MAJOR

Code	Title	Credits
3.750 GPA in all COMP SCI courses and courses counting toward the major		

OR

3.500 GPA in all COMP SCI courses and courses counting toward the major, plus completion of one of the following:

-Completion of COMP SCI 691 & COMP SCI 692 for at least 6 credits, or

-One COMP SCI course, at the 500 level or above, and counted towards the major, must be taken for honors credit and completed with a grade of "B" or better

HONORS IN THE MAJOR

Students may declare Honors in the Computer Sciences Major in consultation with the Computer Sciences undergraduate coordinator(s).

HONORS IN THE COMPUTER SCIENCES MAJOR REQUIREMENTS

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all COMP SCI courses, and all courses accepted in the major
- Complete the following coursework, earning a B or better in each individual course:
 - One COMP SCI course, at the 500 level or above, taken for Honors credit, which counts toward the COMP SCI major
 - A two-semester Senior Honors Thesis in COMP SCI 681 Senior Honors Thesis and COMP SCI 682 Senior Honors Thesis, for a total of 6 credits.¹

¹ The thesis proposal must be approved by both the thesis/project advisor and the department undergraduate coordinator before enrollment in COMP SCI 681. A final thesis or project must be filed with the Department of Computer Sciences before a final grade for COMP SCI 682 can be awarded.

LEARNING OUTCOMES

Upon graduation, students will be able to:

1. Recognize and apply the core principles of Computing (abstractions and algorithms) to solve real-world problems.
2. Describe and apply the theoretical foundations of Computer Science (e.g., complexity analysis) in practical settings.
3. Demonstrate knowledge of key elements of computer systems, e.g., hardware, operating systems, networks.
4. Use fundamental and detailed knowledge, skills, and tools (e.g., specific algorithms, techniques methods, etc.) of computer science and develop the ability to acquire new knowledge, skills, and tools.
5. Design, implement, and evaluate software in multiple programming paradigms and languages.
6. Develop a substantial piece of software, and recognize the challenges of designing and developing software.
7. Exhibit technical (designing, implementing, and testing) and teamwork (communication, collaboration, and professional practice) skills in order to develop solutions as a computer science practitioner.
8. Can solve problems by applying a broad toolbox of knowledge and techniques.

ADVISING AND CAREERS

ADVISING

The undergraduate coordinators in the Department of Computer Sciences are ready to help students with questions about the major, L&S degree requirements and policy, and course selection. Information on academic advising for students interested or declared in the computer sciences major is posted to the Computer Sciences advising page (<https://www.cs.wisc.edu/advisors>).

CAREERS

Demand for those with a computer sciences education is exceptionally strong. According to figures from the U.S. Bureau of Labor Statistics, the

vast majority of growth in STEM (science, technology, engineering, and math) occupations through 2020 will occur within computing fields.

Computer sciences majors are encouraged to begin working on their career exploration and preparation soon after arriving on campus to explore different career paths, participate in co-ops or summer internships, prepare for the job search and/or graduate school applications, and network with professionals in the field.

Department of Computer Sciences: the department hosts one major career fair (<https://www.cs.wisc.edu/connect/job-fair>) per year, in the fall, as well as other opportunities to connect with employers, such as technical talks and information sessions.

Letters & Science Career Services: L&S Career Services (<http://careers.ls.wisc.edu>) offers two major career fairs per year, assists with resume writing and interviewing skills, and offers individual career advising appointments for L&S students.

COMPUTER SCIENCES, CERTIFICATE

Regardless of your major, you can **enhance your career** with a background in computer sciences. The computer sciences certificate is designed to **deepen and validate your computing savvy** for your future career prospects and/or graduate school. Compared to a major in computer sciences, the certificate requires fewer courses and offers more **flexibility in course selection**.

HOW TO GET IN

All undergraduate, degree-seeking students are eligible to declare the computer sciences certificate, except for students majoring in computer sciences, and electrical or computer engineering.

Information on declaring the certificate is available on the Department of Computer Sciences advising pages (<http://www.cs.wisc.edu/advising>).

REQUIREMENTS

REQUIREMENTS FOR THE CERTIFICATE

REQUIRED COURSEWORK

Code	Title	Credits
Five courses, at least 12 credits, in computer sciences, including: ¹		12-19

COMP SCI 300	Programming II (Comp Sci 367 may also be used if completed prior to Summer 2018.)
--------------	---

At least two COMP SCI courses at the 400 level or higher, selected from the course list below.

Two additional COMP SCI courses, at any level, selected from the course list below.

¹ Courses taken on a pass/fail basis may not be used toward the certificate.

COURSE LIST

Code	Title	Credits
COMP SCI/ MATH 240	Introduction to Discrete Mathematics	3
COMP SCI/E C E 252	Introduction to Computer Engineering	2
COMP SCI 270	Fundamentals of Human-Computer Interaction	3

COMP SCI 679	Computer Game Technology	3

RESIDENCE AND QUALITY OF WORK

Code **Title** **Credits**

A 2.000 GPA must be earned on all courses meeting Certificate requirements.

Students may complete no more than two courses toward the certificate post-baccalaureate as a University Special student. Courses taken post-baccalaureate as a University Special student must be completed within three regular academic semesters from the time of degree award (excluding summer) in order to be used toward the certificate.

For students who complete the certificate while enrolled in an undergraduate degree-seeking program, at least 7 credits must be completed in residence.

For students who complete the certificate post-baccalaureate as a University Special student, at least 12 credits must be completed in residence.

ADVISING AND CAREERS

Associate Professors Akella, Chawla, Liblit, Mutlu, Sankaralingam, Swift

Assistant Professors Albarghouthi, D'Antoni, Gupta, Koutris, Sifakis

Faculty Associates Dahl, Deppeler, Hasti, Legault, Lewis-Williams, Skrentny, Williams

ECONOMICS

A major in economics gives students a greater understanding of how people, businesses, and governments respond to their economic environment. Many of the issues that fill the newspapers—jobs, wages, taxes, the cost of living, inequality, pollution, poverty, and economic growth—are, in fundamental ways, economic issues. The daily decisions of businesses and consumers are largely economic. Economists seek to understand the decisions of businesses, consumers, and current economic issues by developing a systematic and thorough understanding of precisely how the economic system operates, including the mechanisms by which resources are allocated, prices determined, income redistributed, and economic growth promoted.

The analytical method of economics recognizes that various choices are open to a society in solving its economic problems. Students are often attracted to economics as a discipline precisely because they want to understand the decisions of people and businesses and to better understand and evaluate economic policy. To begin to approach these issues as an economist requires an understanding of economic theory, empirical methodology, and an understanding of the institutional details and advanced practice gained from intensive study of specific subfields of economics. Consequently, the undergraduate economics major is organized around a progression of courses that first provides a broad introduction to economics, then develops the theoretical tools that provide the foundation of modern economic thought, and finishes with advanced courses designed to provide greater in-depth knowledge of specific fields (such as labor markets, industrial organization, international economics, public finance, banking and finance, macroeconomics, microeconomics, and econometrics).

An economics major is valuable in the job market because the major is designed to train people to think analytically and clearly about a wide variety of issues. This skill is valued by many employers. An economics major is also good preparation for graduate work in a number of areas: business, law, public policy, economics, public administration, industrial

relations, international relations, urban and regional planning, and environmental studies.

DEGREES/MAJORS/CERTIFICATES

ECONOMICS, B.A.

A major in economics gives students a greater understanding of how people, businesses, and governments respond to their economic environment. Many of the issues that fill the newspapers—jobs, wages, taxes, the cost of living, inequality, pollution, poverty, and economic growth—are, in fundamental ways, economic issues. The daily decisions of businesses and consumers are largely economic. Economists seek to understand the decisions of businesses, consumers, and current economic issues by developing a systematic and thorough understanding of precisely how the economic system operates, including the mechanisms by which resources are allocated, prices determined, income redistributed, and economic growth promoted.

The analytical method of economics recognizes that various choices are open to a society in solving its economic problems. Students are often attracted to economics as a discipline precisely because they want to understand the decisions of people and businesses and to better understand and evaluate economic policy. To begin to approach these issues as an economist requires an understanding of economic theory, empirical methodology, and an understanding of the institutional details and advanced practice gained from intensive study of specific subfields of economics. Consequently, the undergraduate economics major is organized around a progression of courses that first provides a broad introduction to economics, then develops the theoretical tools that provide the foundation of modern economic thought, and finishes with advanced courses designed to provide greater in-depth knowledge of specific fields (such as labor markets, industrial organization, international economics, public finance, banking and finance, macroeconomics, microeconomics, and econometrics).

An economics major is valuable in the job market because the major is designed to train people to think analytically and clearly about a wide variety of issues. This skill is valued by many employers. An economics major is also good preparation for graduate work in a number of areas: business, law, public policy, economics, public administration, industrial relations, international relations, urban and regional planning, and environmental studies.

HOW TO GET IN

ADMISSION TO THE MAJOR

1. Completion of two (2) Econ courses on the University of Wisconsin–Madison campus with a 2.000 GPA.
2. A 2.000 GPA in all Econ courses and other major coursework taken at UW–Madison
3. Completion of one (1) calculus course
 - For Option B, MATH 221 Calculus and Analytic Geometry 1 or higher is required

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW-Madison

2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

The department offers two major options. Students must declare one (and not more than one) of these options and complete all requirements including Residence and Quality of Work standards. Options are:

Option A: Economics provides a well-rounded major in economics that is valuable for employment following graduation, or subsequent graduate work in business, law, public policy, and related disciplines.

Option B: Economics—Mathematical Emphasis provides students with the mathematical and statistical background needed for in-depth study of the analytical aspects of economics. Its requirements are designed to prepare students for graduate study in economics and related fields, or for careers as professional economists in business or government.

OPTION A: ECONOMICS

Math and Statistics

Code	Title	Credits
Calculus (select one):		
MATH 221	Calculus and Analytic Geometry 1	
MATH 211	Calculus	
MATH 213	Calculus and Introduction to Differential Equations	
MATH 222	Calculus and Analytic Geometry 2	
MATH 234	Calculus—Functions of Several Variables	
MATH 275	Topics in Calculus I	
MATH 276	Topics in Calculus II	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II (Or Two courses from:)	
Statistics (select one):		
ECON 310	Statistics: Measurement in Economics	
STAT 302	Accelerated Introduction to Statistical Methods	
GEN BUS 303	Business Statistics	
ECON 410	Introductory Econometrics	
MATH/STAT 309	Introduction to Probability and Mathematical Statistics I	
MATH/STAT 431	Introduction to the Theory of Probability	
STAT 224	Introductory Statistics for Engineers	
STAT 301	Introduction to Statistical Methods	
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	
STAT 324	Introductory Applied Statistics for Engineers	
30 credits of ECON, from:		
Code	Title	Credits
Microeconomics & Macroeconomics (Select one): 4-8		
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
ECON 111	Principles of Economics-Accelerated Treatment	
Intermediate Theory (Select one): 6-8		
ECON 301 & ECON 302	Intermediate Microeconomic Theory and Intermediate Macroeconomic Theory	
ECON 311 & ECON 312	Intermediate Microeconomic Theory - Advanced Treatment and Intermediate Macroeconomic Theory - Advanced Treatment (Honors Econ)	
Two Advanced ECON courses: ¹ 6-8		
ECON 410	Introductory Econometrics	
ECON 435	The Financial System	
ECON 441	Analytical Public Finance	

ECON 442	Macroeconomic Policy
ECON 448	Human Resources and Economic Growth
ECON 450	Wages and the Labor Market
ECON 451	The Economic Approach to Human Behavior
ECON 455	Behavioral Economics
ECON 458	Industrial Structure and Competitive Strategy
ECON 460	Economic Forecasting
ECON 464	International Trade and Finance
ECON 467	International Industrial Organizations
ECON 468	Industrial Organization and Imperfect Competition
ECON 475	Economics of Growth
ECON 503	Markets with Frictions
ECON 508	Wealth and Income
ECON 521	Game Theory and Economic Analysis
ECON 522	Law and Economics
ECON 525	Economics of Education: Theory and Measurement
ECON/POP HLTH/ PUB AFFR 548	The Economics of Health Care
ECON 580	Honors Tutorial in Research Project Design
ECON 623	Population Economics
ECON 666	Issues in International Finance

Additional credits to achieve 30 in the major:

Select any advanced course (above) or one of these applied economics courses:

ECON/ FINANCE 300	Introduction to Finance
ECON/ HIST SCI 305	Development of Economic Thought
ECON/A A E/ REAL EST/ URB R PL 306	The Real Estate Process
ECON/ FINANCE 320	Investment Theory
ECON 330	Money and Banking
ECON/A A E/ ENVIR ST 343	Environmental Economics
ECON 364	Survey of International Economics
ECON 390	Contemporary Economic Issues
ECON/REAL EST/ URB R PL 420	Urban and Regional Economics
ECON/A A E 421	Economic Decision Analysis
ECON 440	Urban and Regional Economics
ECON/ENVIR ST/ POLI SCI/ URB R PL 449	Government and Natural Resources
ECON/A A E/ INTL BUS 462	Latin American Economic Development

ECON/ HISTORY 465	The American Economy to 1865
ECON/ HISTORY 466	The American Economy Since 1865
ECON/A A E 473	Economic Growth and Development in Southeast Asia
ECON/A A E 474	Economic Problems of Developing Areas
ECON/A A E 477	Agricultural and Economic Development in Africa
ECON 502	Economics of Transportation
ECON/ PHILOS 524	Philosophy and Economics
ECON/A A E/ F&W ECOL 531	Natural Resource Economics
ECON/A A E 567	Public Finance in Less Developed Countries
ECON/REAL EST/ URB R PL 641	Housing Economics and Policy
ECON/SOC 663	Population and Society
ECON/A A E/ ENVIR ST/ URB R PL 671	Energy Economics
Total Credits	30

¹ Advanced ECON courses must be taken in residence, and not through transfer or a UW–Madison Study Abroad program.

OPTION B: ECONOMICS WITH A MATH EMPHASIS**Mathematics & Statistics**

Code	Title	Credits
Calculus		
<i>Option 1—four calculus courses:</i>		
MATH 221	Calculus and Analytic Geometry 1	
MATH 222	Calculus and Analytic Geometry 2	
MATH 234	Calculus—Functions of Several Variables	
MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
<i>Option 2—Honors Calculus (3 courses):</i>		
MATH 275	Topics in Calculus I	
MATH 276	Topics in Calculus II	
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
Statistics		
ECON 310	Statistics: Measurement in Economics	
STAT 302	Accelerated Introduction to Statistical Methods	
ECON 410	Introductory Econometrics	
STAT 224	Introductory Statistics for Engineers	
STAT 301	Introduction to Statistical Methods	
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I	

STAT 311	Introduction to Theory and Methods of Mathematical Statistics I
STAT/MATH 431	Introduction to the Theory of Probability
STAT 324	Introductory Applied Statistics for Engineers

30 credits of ECON, from:

Code	Title	Credits
Microeconomics & Macroeconomics (Select one):		4-8
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
ECON 111	Principles of Economics-Accelerated Treatment	
Intermediate Theory (Select one):		6-8
ECON 301 & ECON 302	Intermediate Microeconomic Theory and Intermediate Macroeconomic Theory	
ECON 311 & ECON 312	Intermediate Microeconomic Theory - Advanced Treatment and Intermediate Macroeconomic Theory - Advanced Treatment (Honors Econ)	
Introductory Econometrics		
ECON 410	Introductory Econometrics	
Three Advanced ECON courses:¹		6-8
ECON 435	The Financial System	
ECON 441	Analytical Public Finance	
ECON 442	Macroeconomic Policy	
ECON 448	Human Resources and Economic Growth	
ECON 450	Wages and the Labor Market	
ECON 451	The Economic Approach to Human Behavior	
ECON 455	Behavioral Economics	
ECON 458	Industrial Structure and Competitive Strategy	
ECON 460	Economic Forecasting	
ECON 464	International Trade and Finance	
ECON 467	International Industrial Organizations	
ECON 468	Industrial Organization and Imperfect Competition	
ECON 475	Economics of Growth	
ECON 503	Markets with Frictions

ECON/A A E/ F&W ECOL 531	Natural Resource Economics
ECON/A A E 567	Public Finance in Less Developed Countries
ECON/REAL EST/ URB R PL 641	Housing Economics and Policy
ECON/SOC 663	Population and Society
ECON/A A E/ ENVIR ST/ URB R PL 671	Energy Economics

Total Credits 30

¹ Two Advanced ECON courses must be taken on campus (in residence, not via study abroad)

RESIDENCE & QUALITY OF WORK

2.000 GPA in all major and ECON courses

2.000 GPA on 15 upper-level major courses taken in residence

15 credits in ECON, taken on the UW–Madison campus

HONORS IN THE ECONOMICS MAJOR

Students may declare Honors in the Economics Major in consultation with the Economics undergraduate advisor(s).

HONORS IN THE ECONOMICS MAJOR REQUIREMENTS

To earn the B.A. or B.S. with Honors in the Major in Economics students must satisfy both the requirements for the Economics–Mathematical Emphasis Option (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all ECON courses, and all courses accepted in the major
- Complete the following courses, taken for Honors, with grades of B or better in each:

Code	Title	Credits
ECON 311 & ECON 312	Intermediate Microeconomic Theory - Advanced Treatment and Intermediate Macroeconomic Theory - Advanced Treatment	
ECON 580	Honors Tutorial in Research Project Design	

Select one of the following capstone experiences: ¹

ECON 581	Honors Thesis	
ECON 681 & ECON 682	Senior Honors Thesis and Senior Honors Thesis (Take for a total of 6 credits)	

¹ Students may be allowed to substitute the following for the thesis capstone, given the explicit permission from their Economics Advisor: A course in mathematical analysis such as MATH 521 and, with instructor approval, an advanced ECON course with a grade of B or higher.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of
Work

Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Students will understand the fundamental concepts of economics, and how those concepts apply to real world issues.
2. Students will be able to construct and evaluate economic models, their assumptions and conclusions.
3. Students will acquire a diverse set of skills and strategies in mathematical reasoning/statistical and computational techniques/ deductive logic/problem solving.
4. Students will use mathematics/computational/statistical techniques to analyze real world situations and policies.
5. Students will use economic analysis to critically evaluate public policy proposals.

ADVISING AND CAREERS

ACADEMIC ADVISING

Academic advising (<http://www.econ.wisc.edu/undergraduate-academic-advising.htm>), along with general information about the undergraduate major and coursework, is available in Room 7238 of the Social Science Building. Find us on the campus map (http://www.map.wisc.edu/?initObj=bdg_SocSc&z=41.33&x=-0.158401&y=-0.09157).

Email: econadvise@ssc.wisc.edu

Phone: 608-262-6925

ECONOMICS CAREER DEVELOPMENT OFFICE

The Economics Career Development Office (<http://www.econ.wisc.edu/career-advising.htm>) (ECDO) provides career development services and resources to undergraduate students who are either declared economics majors or are considering majoring in economics and would like career information. To set up an appointment or to ask a career/internship question please email econcareers@ssc.wisc.edu

PREPARATION FOR PH.D. PROGRAMS IN ECONOMICS

Students interested in pursuing graduate study should pursue Option B (mathematical emphasis) and augment the standard curriculum with higher-level mathematics and statistics courses. These may include:

Code	Title	Credits
MATH/STAT 309	Introduction to Probability and Mathematical Statistics I	
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	
MATH 421	The Theory of Single Variable Calculus	

MATH/STAT 431	Introduction to the Theory of Probability
MATH 521	Analysis I
MATH 522	Analysis II
MATH/ISYE/ OTM/STAT 632	Introduction to Stochastic Processes

It is important to consult early in the second year with the undergraduate advisor and/or the faculty member that directs the undergraduate program to design a plan of coursework.

DIRECTED STUDY

Directed Study (ECON 698, ECON 699) enables advanced students to pursue economic topics not covered in the regular course offerings. A student interested in Directed Study should prepare a research proposal and/or reading list; specific course requirements are arranged with an instructor who agrees to supervise the directed study project. Enrollment requires the consent of the instructor; a GPA of 3.00 or above in ECON; completion of the Intermediate economic theory courses (ECON 301 & ECON 302); at least one Advanced ECON course; and completion of the department's Directed Study form, available in 7238 Social Science.

INTERSHIPS

Students can earn 1 credit for approved internships appropriate to the study of economics under course ECON 228. Students must enroll for ECON 228 in the same semester/session in which the internship is granted. Students should work a minimum of 100 hours per term. Prerequisites are declaration in the major economics major; a major GPA of 2.200 or higher; completion of at least four ECON courses at UW–Madison; completion of at least one Intermediate Theory course (ECON 301 & ECON 302); a completed application; and departmental approval.

PEOPLE

Professors Blank, Corbae, Deneckere, Durlauf, Engel, Hansen, Hendricks, Kennan, Porter, Rostek, Sandholm, Scholz, Seshadri, Smith, Sorensen, Taber, Walker, West, Williams, Wolfe, Wright

Associate Professors Fu, Lentz, Penta, Quint, Weretka, Wiswall

ECON 502	Economics of Transportation	
ECON/ PHILOS 524	Philosophy and Economics	
ECON/A A E/ F&W ECOL 531	Natural Resource Economics	
ECON/A A E 567	Public Finance in Less Developed Countries	
ECON/REAL EST/ URB R PL 641	Housing Economics and Policy	
ECON/SOC 663	Population and Society	
ECON/A A E/ ENVIR ST/ URB R PL 671	Energy Economics	
Total Credits		30

¹ Advanced ECON courses must be taken in residence, and not through transfer or a UW–Madison Study Abroad program.

OPTION B: ECONOMICS WITH A MATH EMPHASIS**Mathematics & Statistics**

Code	Title	Credits
Calculus		
<i>Option 1—four calculus courses:</i>		
MATH 221	Calculus and Analytic Geometry 1	
MATH 222	Calculus and Analytic Geometry 2	

MATH 234	Calculus--Functions of Several Variables
MATH 320 or MATH 340	Linear Algebra and Differential Equations Elementary Matrix and Linear Algebra
<i>Option 2--Honors Calculus (3 courses):</i>	
MATH 275	Topics in Calculus I
MATH 276	Topics in Calculus II
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra
Statistics	
ECON 310	Statistics: Measurement in Economics
STAT 302	Accelerated Introduction to Statistical Methods
ECON 410	Introductory Econometrics
STAT 224	Introductory Statistics for Engineers
STAT 301	Introduction to Statistical Methods
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I
STAT/MATH 431	Introduction to the Theory of Probability
STAT 324	Introductory Applied Statistics for Engineers

30 credits of ECON, from:

Code	Title	Credits
Microeconomics & Macroeconomics (Select one):		4-8
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
ECON 111	Principles of Economics-Accelerated Treatment	
Intermediate Theory (Select one):		6-8
ECON 301 & ECON 302	Intermediate Microeconomic Theory and Intermediate Macroeconomic Theory	
ECON 311 & ECON 312	Intermediate Microeconomic Theory - Advanced Treatment and Intermediate Macroeconomic Theory - Advanced Treatment (Honors Econ)	
Introductory Econometrics		
ECON 410	Introductory Econometrics	
Three Advanced ECON courses:¹		6-8
ECON 435	The Financial System	
ECON 441	Analytical Public Finance	
ECON 442	Macroeconomic Policy	
ECON 448	Human Resources and Economic Growth	
ECON 450	Wages and the Labor Market	
ECON 451	The Economic Approach to Human Behavior	
ECON 455	Behavioral Economics	

ECON 458	Industrial Structure and Competitive Strategy
ECON 460	Economic Forecasting
ECON 464	International Trade and Finance
ECON 467	International Industrial Organizations
ECON 468	Industrial Organization and Imperfect Competition
ECON 475	Economics of Growth
ECON 503	Markets with Frictions
ECON 508	Wealth and Income
ECON 521	Game Theory and Economic Analysis
ECON 522	Law and Economics
ECON 525	Economics of Education: Theory and Measurement
ECON/POP HLTH/ PUB AFFR 548	The Economics of Health Care
ECON 580	Honors Tutorial in Research Project Design
ECON 623	Population Economics
ECON 666	Issues in International Finance
Additional credits to achieve 30 in the major:	
<i>Select any Advanced course (above) or one of these Applied Economics courses:</i>	
ECON/ FINANCE 300	Introduction to Finance
ECON/ HIST SCI 305	Development of Economic Thought

Total Credits		30

¹ Two Advanced ECON courses must be taken on campus (in residence, not via study abroad)

RESIDENCE & QUALITY OF WORK

2.000 GPA in all major and ECON courses

2.000 GPA on 15 upper-level major courses taken in residence

15 credits in ECON, taken on the UW–Madison campus

HONORS IN THE ECONOMICS MAJOR

Students may declare Honors in the Economics Major in consultation with the Economics undergraduate advisor(s).

HONORS IN THE ECONOMICS MAJOR REQUIREMENTS

To earn the B.A. or B.S. with Honors in the Major in Economics students must satisfy both the requirements for the Economics–Mathematical Emphasis Option (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all ECON courses, and all courses accepted in the major
- Complete the following courses, taken for Honors, with grades of B or better in each:

Code	Title	Credits
ECON 311 & ECON 312	Intermediate Microeconomic Theory - Advanced Treatment and Intermediate Macroeconomic Theory - Advanced Treatment	
ECON 580	Honors Tutorial in Research Project Design	

Select one of the following capstone experiences: ¹

ECON 581	Honors Thesis	
ECON 681 & ECON 682	Senior Honors Thesis and Senior Honors Thesis (Take for a total of 6 credits)	

¹ Students may be allowed to substitute the following for the thesis capstone, given the explicit permission from their Economics Advisor: A course in mathematical analysis such as MATH 521 and, with

instructor approval, an advanced ECON course with a grade of B or higher.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Students will understand the fundamental concepts of economics, and how those concepts apply to real world issues.
2. Students will be able to construct and evaluate economic models, their assumptions and conclusions.
3. Students will acquire a diverse set of skills and strategies in mathematical reasoning/statistical and computational techniques/deductive logic/problem solving.
4. Students will use mathematics/computational/statistical techniques to analyze real world situations and policies.
5. Students will use economic analysis to critically evaluate public policy proposals.

ADVISING AND CAREERS

ACADEMIC ADVISING

Academic advising (<http://www.econ.wisc.edu/undergraduate-academic-advising.htm>), along with general information about the undergraduate major and coursework, is available in Room 7238 of the Social Science Building. Find us on the campus map (http://www.map.wisc.edu/?initObj=bdg_SocSc&z=41.33&x=-0.158401&y=-0.09157).

Email: econadvise@ssc.wisc.edu

Phone: 608-262-6925

ECONOMICS CAREER DEVELOPMENT OFFICE

The Economics Career Development Office (<http://www.econ.wisc.edu/career-advising.htm>) (ECDO) provides career development services and resources to undergraduate students who are either declared economics majors or are considering majoring in economics and would like career

information. To set up an appointment or to ask a career/internship question please email econcareers@ssc.wisc.edu

PREPARATION FOR PH.D. PROGRAMS IN ECONOMICS

Students interested in pursuing graduate study should pursue Option B (mathematical emphasis) and augment the standard curriculum with higher-level mathematics and statistics courses. These may include:

Code	Title	Credits
MATH/STAT 309	Introduction to Probability and Mathematical Statistics I	
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	
MATH 421	The Theory of Single Variable Calculus	
MATH/STAT 431	Introduction to the Theory of Probability	
MATH 521	Analysis I	
MATH 522	Analysis II	
MATH/I SY E/ OTM/STAT 632	Introduction to Stochastic Processes	

It is important to consult early in the second year with the undergraduate advisor and/or the faculty member that directs the undergraduate program to design a plan of coursework.

DIRECTED STUDY

Directed Study (ECON 698, ECON 699) enables advanced students to pursue economic topics not covered in the regular course offerings. A student interested in Directed Study should prepare a research proposal and/or reading list; specific course requirements are arranged with an instructor who agrees to supervise the directed study project. Enrollment requires the consent of the instructor; a GPA of 3.00 or above in ECON; completion of the Intermediate economic theory courses (ECON 301 & ECON 302); at least one Advanced ECON course; and completion of the department's Directed Study form, available in 7238 Social Science.

INTERSHIPS

Students can earn 1 credit for approved internships appropriate to the study of economics under course ECON 228. Students must enroll for ECON 228 in the same semester/session in which the internship is granted. Students should work a minimum of 100 hours per term. Prerequisites are declaration in the major economics major; a major GPA of 2.200 or higher; completion of at least four ECON courses at UW–Madison; completion of at least one Intermediate Theory course (ECON 301 & ECON 302); a completed application; and departmental approval.

PEOPLE

Professors Blank, Corbae, Deneckere, Durlauf, Engel, Hansen, Hendricks, Kennan, Porter, Rostek, Sandholm, Scholz, Seshadri, Smith, Sorensen, Taber, Walker, West, Williams, Wolfe, Wright

Associate Professors Fu, Lentz, Penta, Quint, Weretka, Wiswall

Assistant Professors Atalay, Bilir, Freyberger, Gregory, Magnolfi, Mommaerts, Shi

Affiliated Faculty Chang, Chinn, Chung, Montgomery, Sarada, Schechter, Smeeding, Wallace

ENGLISH

The English major teaches students to appreciate and use the English language and literature effectively for critical thinking, effective communication, citizenship, and career success. English majors build strong writing skills and engage in high-level critical and analytical thinking. They encounter enriching, enduring, experimental, and complex works of literature. And they grapple with perspectives far distant from their own, examining their deepest values. Instructors introduce students to a wide range of genres and cultural perspectives, and pay close attention to all aspects of student thinking and writing, from logic and evidence to originality and style. Fostering communication skills, stimulating creativity, developing cultural sensitivity, and sharpening analytical abilities, the English major prepares students for a broad range of careers.

English majors choose one of three tracks: the general major (which emphasizes literary and cultural studies), creative writing, or language and linguistics. All majors take a core curriculum that introduces them to a range of approaches to literature and language, including courses in literary and cultural history. Students who opt for the general major build on core courses with intermediate and advanced classes that focus on texts from across a range of periods and places, investigating literature and culture using multiple methods and approaches. Students pursuing the emphasis on creative writing take the core curriculum with a sequence of creative writing workshops. Students wishing to emphasize language and linguistics choose options in grammar, the history of the English language, phonology, and language acquisition.

TEACHING MAJOR

Those who wish to prepare for teaching careers at the secondary level should complete the undergraduate English major and then apply for a teaching certificate or graduate education program. For further information, students should make an appointment with the undergraduate advisor in English or the graduate advisor in curriculum and instruction.

DEGREES/MAJORS/CERTIFICATES

- English, B.A. (p. 601)
- English, B.S. (p. 613)
- Health and the Humanities, Certificate (p. 625)
- Teaching English to Speakers of Other Languages, Certificate (p. 626)

PEOPLE

FACULTY

Professors Auerbach, Barry, Begam, Bernard-Donals, Bow, Britland, Castronovo, Dharwadker, Foy, Friedman, Guyer, Hill, Johnson, Keller,

Kelley, Kercheval, Mitchell, Olaniyan, Ortiz-Robles, Purnell, Raimy, Sherrard-Johnson, Steele, Wanner, M. Young, R. Young, Yu, Zimmerman

Associate Professors Allewaert, Bearden, Cooper, Olson, Samuels, Trotter, Valenza, Vieira

Assistant Professors Calhoun, Cho, Druschke, Evans, Fawaz, Vareschi, Zweck

RESOURCES AND SCHOLARSHIPS

WRITING CENTER

The Writing Center (<http://www.wisc.edu/writing>), located in 6171 Helen C. White Hall, offers free individualized help with writing. Students are welcome to come to the center for help with writing assignments in almost any course. In half-hour tutorials, instructors help students clarify and organize ideas and offer advice about revising a draft. The center also offers short-term classes on various facets of writing, including classes on writing about literature, writing research papers, writing book reviews, writing essay exams, and on many other topics. The Writing Center also has a computer lab.

To make an appointment, students should call 263-1992 or stop by when the center is open. During busy times of the semester, the center often is booked several days in advance, so students should plan ahead. For complete information about the center, including hours, schedules for writing assistance in the Multicultural Student Center and residence halls, extensive handouts about writing, and information about the Undergraduate Writing Fellows program, see the center website (<http://www.wisc.edu/writing>).

ENGLISH, B.A.

The English major teaches students to appreciate and use the English language and literature effectively for critical thinking, effective communication, citizenship, and career success. English majors build strong writing skills and engage in high-level critical and analytical thinking. They encounter enriching, enduring, experimental, and complex works of literature. And they grapple with perspectives far distant from their own, examining their deepest values. Instructors introduce students to a wide range of genres and cultural perspectives, and pay close attention to all aspects of student thinking and writing, from logic and evidence to originality and style. Fostering communication skills, stimulating creativity, developing cultural sensitivity, and sharpening analytical abilities, the English major prepares students for a broad range of careers.

English majors choose one of three tracks: the general major (which emphasizes literary and cultural studies), creative writing, or language and linguistics. All majors take a core curriculum that introduces them to a range of approaches to literature and language, including courses in literary and cultural history. Students who opt for the general major build on core courses with intermediate and advanced classes that focus on texts from across a range of periods and places, investigating literature and culture using multiple methods and approaches. Students pursuing the emphasis on creative writing take the core curriculum with a sequence of creative writing workshops. Students wishing to emphasize language and linguistics choose options in grammar, the history of the English language, phonology, and language acquisition.

TEACHING MAJOR

Those who wish to prepare for teaching careers at the secondary level should complete the undergraduate English major and then apply for a teaching certificate or graduate education program. For further information, students should make an appointment with the undergraduate advisor in English or the graduate advisor in curriculum and instruction.

HOW TO GET IN

Information about the English major can be found on the department website (<http://www.english.wisc.edu/undergraduate>) and also in the department office, 7195 Helen C. White Hall. Students interested in declaring the major should schedule an appointment (<https://english.wisc.edu/undergraduate-advising.htm>) with Dr. Karen Redfield, the Undergraduate Advisor. Students must complete 6 credits of introductory literature before they declare, but are welcome to meet with the advisor at any time. These 6 credits must carry the "L" breadth designation, regardless of the subject in which they are taken.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General	• Breadth—Humanities/Literature/Arts: 6 credits
Education	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of

arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR

Completion of the major requires a minimum of 30 credits in intermediate- or advanced-level English courses numbered 204 and higher, with the exception of ENGL 201 Intermediate Composition, ENGL 207 Introduction to Creative Writing: Fiction and Poetry Workshop and ENGL 236 Bascom Course.

Code	Title	Credits
	Select one of the following:	30
	English (Literature)	
	English Language and Linguistics	

Creative Writing	
Total Credits	30

The major requirements are distributed as follows:

ENGLISH (LITERATURE)

Code	Title	Credits
ENGL 241	Literature and Culture I: to the 18th Century	3
ENGL 242	Literature and Culture II: from the 18th Century to the Present	3
	One course in American Literature	3
	One pre-1800 course (may be Shakespeare)	3
	One pre-1800 course (CANNOT be Shakespeare)	3
	One course in English Language or Composition & Rhetoric	3
ENGL 245	Seminar in the Major	3
	Additional ENGL elective credits to achieve 30 credit minimum	9
Total Credits		30

ENGLISH (LITERATURE) COURSES

American Literature Courses

Code	Title	Credits
ENGL/ LITTRANS 223	Vladimir Nabokov: Russian and American Writings	3
ENGL 243	American Literary Cultures	3
ENGL/ AMER IND 246	Literature by American Indian Women	3
ENGL/GEN&WS 248	Women in Ethnic American Literature	3
ENGL/ ASIAN AM 270	A Survey of Asian American Literature	3

Creative Writing Workshops

Code	Title	Credits
ENGL 307	Creative Writing: Fiction and Poetry Workshop	3
ENGL 407	Creative Writing: Nonfiction Workshop	3
ENGL 408	Creative Writing: Fiction Workshop	3
ENGL 409	Creative Writing: Poetry Workshop	3
ENGL 410	Creative Writing: Playwriting Workshop	3
ENGL 411	Creative Writing: Special Topics Workshop	3
ENGL 508	Creative Writing: Advanced Fiction Workshop	3
ENGL 509	Creative Writing: Advanced Poetry Workshop	3

¹ Workshops at the 400 level or above may be repeated for credit. Students are allowed to take only one creative writing workshop a semester. All three required workshops must be completed prior to taking the Directed Creative Writing course (ENGL 695).

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all ENGL courses and all courses accepted in the major

2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence: ENGL courses marked Intermediate or Advanced

15 credits in ENGL, taken on campus

THESIS OF DISTINCTION

Students majoring in English who are not completing Honors in the Major may choose to complete a two semester senior thesis project and take ENGL 691 Senior Thesis and ENGL 692 Senior Thesis. The honor of Thesis of Distinction is granted for an exceptional thesis written in ENGL 691 Senior Thesis–ENGL 692 Senior Thesis upon the recommendation of both the sponsoring faculty member and the honors coordinator. For further information consult the department advisor or the honors coordinator.

HONORS IN THE MAJOR

Students may declare Honors in the English Major in consultation with the English undergraduate advisor. To be eligible to declare Honors in the English Major, students must:

- Complete ENGL 241 Literature and Culture I: to the 18th Century, ENGL 242 Literature and Culture II: from the 18th Century to the Present, or ENGL 243 American Literary Cultures
- Complete one additional course in the major
- Have completed at least 6 credits in the Department of English
- Have established a 3.500 GPA for all ENGL courses

HONORS IN THE ENGLISH MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in English students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all ENGL courses
- Complete 12 credits, taken for Honors, to include:
 - ENGL 245 Seminar in the Major or ENGL 381 Sophomore Honors: Research Methods in English
 - ENGL 481 Junior Honors Seminar in the Major, and
 - Either a two-semester Senior Honors Thesis in ENGL 681 Senior Honors Thesis in the Major and ENGL 682 Senior Honors Thesis in the Major for a total of 6 credits or ENGL 680 Honors Project

HONORS IN THE ENGLISH MAJOR REQUIREMENTS, CREATIVE WRITING TRACK

To earn a B.A. or B.S. with Honors in the Major in English–Creative Writing Track, students must satisfy the Option requirements (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all ENGL courses and courses counting in the major
- Complete Sophomore Honors-Research Methods(for Honors): ENGL 245 Seminar in the Major or ENGL 381 Sophomore Honors: Research Methods in English
- Complete ENGL 481 Junior Honors Seminar in the Major, and
- One Advanced Level Creative Writing Workshop for Honors: ENGL 407 Creative Writing: Nonfiction Workshop, ENGL 408 Creative Writing: Fiction Workshop, ENGL 409 Creative Writing: Poetry Workshop, ENGL 410 Creative Writing: Playwriting Workshop,

ENGL 411 Creative Writing: Special Topics Workshop, ENGL 508 Creative Writing: Advanced Fiction Workshop, ENGL 509 Creative Writing: Advanced Poetry Workshop

- Directed Creative Writing: ENGL 695

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. **History of literature and language:** To demonstrate knowledge of major forms, techniques, social conditions, values, and genres that have shaped the history of English literature and language.
2. **Critical thinking:** To be able to discern and integrate divergent and contradictory perspectives, identify and question assumptions, and assess evidence and methods.
3. **Creativity:** To generate original ideas and texts, experimenting and taking risks, solving problems, and answering questions in a range of genres and media.
4. **Critical writing:** To write original, coherent, and compelling arguments that push beyond summary to analysis and independent and critical thinking in clear prose that meets expectations for grammatical correctness.
5. **Citizenship:** To develop empathy by learning about the experiences of others, and to gain an understanding of how we participate in communities (including the classroom) and the public sphere.

LETTERS & SCIENCE CAREER SERVICES

The English department encourages our majors to begin working on their career exploration and preparation soon after declaring their major. Our career advisor also partners with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to their success.

Career Resources:

- Why the liberal arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- L&S Career Services (<https://careers.ls.wisc.edu>): We launch our students higher, sooner
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

FACULTY

Professors Auerbach, Barry, Begam, Bernard-Donals, Bow, Britland, Castronovo, Dharwadker, Foys, Friedman, Guyer, Hill, Johnson, Keller, Kelley, Kercheval, Mitchell, Olaniyan, Ortiz-Robles, Purnell, Raimy, Sherrard-Johnson, Steele, Wanner, M. Young, R. Young, Yu, Zimmerman

Associate Professors Allewaert, Bearden, Cooper, Olson, Samuels, Trotter, Valenza, Vieira

Assistant Professors Calhoun, Cho, Druschke, Evans, Fawaz, Vareschi, Zweck

RESOURCES AND SCHOLARSHIPS

WRITING CENTER

The Writing Center (<http://www.wisc.edu/writing>), located in 6171 Helen C. White Hall, offers free individualized help with writing. Students are welcome to come to the center for help with writing assignments in almost any course. In half-hour tutorials, instructors help students clarify and organize ideas and offer advice about revising a draft. The center

also offers short-term classes on various facets of writing, including classes on writing about literature, writing research papers, writing book reviews, writing essay exams, and on many other topics. The Writing Center also has a computer lab.

To make an appointment, students should call 263-1992 or stop by when the center is open. During busy times of the semester, the center often is booked several days in advance, so students should plan ahead. For complete information about the center, including hours, schedules for writing assistance in the Multicultural Student Center and residence halls, extensive handouts about writing, and information about the Undergraduate Writing Fellows program, see the center website (<http://www.wisc.edu/writing>).

ENGLISH, B.S.

The English major teaches students to appreciate and use the English language and literature effectively for critical thinking, effective communication, citizenship, and career success. English majors build strong writing skills and engage in high-level critical and analytical thinking. They encounter enriching, enduring, experimental, and complex works of literature. And they grapple with perspectives far distant from their own, examining their deepest values. Instructors introduce students to a wide range of genres and cultural perspectives, and pay close attention to all aspects of student thinking and writing, from logic and evidence to originality and style. Fostering communication skills, stimulating creativity, developing cultural sensitivity, and sharpening analytical abilities, the English major prepares students for a broad range of careers.

English majors choose one of three tracks: the general major (which emphasizes literary and cultural studies), creative writing, or language and linguistics. All majors take a core curriculum that introduces them to a range of approaches to literature and language, including courses in literary and cultural history. Students who opt for the general major build on core courses with intermediate and advanced classes that focus on texts from across a range of periods and places, investigating literature and culture using multiple methods and approaches. Students pursuing the emphasis on creative writing take the core curriculum with a sequence of creative writing workshops. Students wishing to emphasize language and linguistics choose options in grammar, the history of the English language, phonology, and language acquisition.

TEACHING MAJOR

Those who wish to prepare for teaching careers at the secondary level should complete the undergraduate English major and then apply for a teaching certificate or graduate education program. For further information, students should make an appointment with the undergraduate advisor in English or the graduate advisor in curriculum and instruction.

HOW TO GET IN

Information about the English major can be found on the department website (<http://www.english.wisc.edu/undergraduate>) and also in the department office, 7195 Helen C. White Hall. Students interested in declaring the major should schedule an appointment (<https://english.wisc.edu/undergraduate-advising.htm>) with Dr. Karen Redfield, the Undergraduate Advisor. Students must complete 6 credits of introductory literature before they declare, but are welcome to meet

with the advisor at any time. These 6 credits must carry the "L" breadth designation, regardless of the subject in which they are taken.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
-------------	--

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall
Minimum GPAs	30 credits in residence after the 90th credit
	2.000 in all coursework at UW-Madison
	2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

Completion of the major requires a minimum of 30 credits in intermediate- or advanced-level English courses numbered 204 and higher, with the exception of ENGL 201 Intermediate Composition, ENGL 207 Introduction to Creative Writing: Fiction and Poetry Workshop and ENGL 236 Bascom Course.

Code	Title	Credits
Select one of the following:		30
	English (Literature)

CREATIVE WRITING

NOTE: This is a formal Option and will appear on the transcript.

L&S undergraduates with a particular interest in creative writing may combine a background in literature with a concentration of courses in fiction or poetry writing. The major requirements are distributed as follows:

Code	Title	Credits
ENGL 241	Literature and Culture I: to the 18th Century	3
ENGL 242	Literature and Culture II: from the 18th Century to the Present	3
ENGL 245	Seminar in the Major	3
	One course in American Literature	3
	One course in English Language or Composition & Rhetoric	3
ENGL/ASIAN AM/ GEN&WS 463	Race and Sexuality in American Literature	3
ENGL/ASIAN AM/ GEN&WS 464	Asian American Women Writers	3
ENGL/ ASIAN AM 465	Asian American Poetry	3
ENGL/ AMER IND 467	Contemporary American Indian Literature Since 1953	3

ENGL 474	Topic in Contemporary Literature	3
ENGL/JEWISH 593	Literature of Jewish Identity in America	3
ENGL/ AFROAMER 672	Selected Topics in Afro-American Literature	3

English Language or Composition & Rhetoric

Code	Title	Credits
ENGL 214	The English Language	3
ENGL 204	Studies in Writing, Rhetoric, and Literacy	3
ENGL 304	Composition & Rhetoric In and Beyond the University	3
ENGL 400	Advanced Composition	3
ENGL 403	Seminar on Tutoring Writing Across the Curriculum	3
ENGL 500	Writing in Workplaces	3
ENGL 501	Writing Internship	3
ENGL 505	Topics in Composition and Rhetoric	3

Additional ENGL Elective Credits

Code	Title	Credits
ENGL 204	Studies in Writing, Rhetoric, and Literacy	3
ENGL 214	The English Language	3
ENGL 219	Shakespearean Drama	3
ENGL 220	Shakespearean Drama	3
ENGL/ LITTRANS 223	Vladimir Nabokov: Russian and American Writings	3
ENGL 224	Introduction to Poetry	3
ENGL 243	American Literary Cultures	3
ENGL/ AMER IND 246	Literature by American Indian Women	3
ENGL/GEN&WS 248	Women in Ethnic American Literature	3
ENGL/GEN&WS 250	Women in Literature	3
ENGL/ ASIAN AM 270	A Survey of Asian American Literature	3
ENGL 271	Writing with New Media	3
ENGL/ AMER IND 274	Indigenous Literature of the Great Lakes	3
ENGL/ AMER IND 275	American Indian Oral Literatures	3
ENGL 279	Topics in English, Study Abroad - Literature	3
ENGL 304	Composition & Rhetoric In and Beyond the University	3
ENGL 307	Creative Writing: Fiction and Poetry Workshop	3
ENGL 314	Structure of English	3
ENGL 315	English Phonology	3
ENGL 316	English Language Variation in the U.S.	3

ENGL 699	Directed Study	1-3

Creative Writing Workshops

Code	Title	Credits
ENGL 307	Creative Writing: Fiction and Poetry Workshop	3
ENGL 407	Creative Writing: Nonfiction Workshop	3
ENGL 408	Creative Writing: Fiction Workshop	3
ENGL 409	Creative Writing: Poetry Workshop	3
ENGL 410	Creative Writing: Playwriting Workshop	3
ENGL 411	Creative Writing: Special Topics Workshop	3
ENGL 508	Creative Writing: Advanced Fiction Workshop	3
ENGL 509	Creative Writing: Advanced Poetry Workshop	3

¹ Workshops at the 400 level or above may be repeated for credit. Students are allowed to take only one creative writing workshop a semester. All three required workshops must be completed prior to taking the Directed Creative Writing course (ENGL 695).

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all ENGL courses and all courses accepted in the major

2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence: ENGL courses marked Intermediate or Advanced

15 credits in ENGL, taken on campus

THESIS OF DISTINCTION

Students majoring in English who are not completing Honors in the Major may choose to complete a two semester senior thesis project and take ENGL 691 Senior Thesis and ENGL 692 Senior Thesis. The honor of Thesis of Distinction is granted for an exceptional thesis written in ENGL 691 Senior Thesis–ENGL 692 Senior Thesis upon the recommendation of both the sponsoring faculty member and the honors coordinator. For further information consult the department advisor or the honors coordinator.

HONORS IN THE MAJOR

Students may declare Honors in the English Major in consultation with the English undergraduate advisor. To be eligible to declare Honors in the English Major, students must:

- Complete ENGL 241 Literature and Culture I: to the 18th Century, ENGL 242 Literature and Culture II: from the 18th Century to the Present, or ENGL 243 American Literary Cultures
- Complete one additional course in the major
- Have completed at least 6 credits in the Department of English

- Have established a 3.500 GPA for all ENGL courses

HONORS IN THE ENGLISH MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in English students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all ENGL courses
- Complete 12 credits, taken for Honors, to include:
 - ENGL 245 Seminar in the Major or ENGL 381 Sophomore Honors: Research Methods in English
 - ENGL 481 Junior Honors Seminar in the Major, and
 - Either a two-semester Senior Honors Thesis in ENGL 681 Senior Honors Thesis in the Major and ENGL 682 Senior Honors Thesis in the Major for a total of 6 credits or ENGL 680 Honors Project

HONORS IN THE ENGLISH MAJOR REQUIREMENTS, CREATIVE WRITING TRACK

To earn a B.A. or B.S. with Honors in the Major in English–Creative Writing Track, students must satisfy the Option requirements (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all ENGL courses and courses counting in the major
- Complete Sophomore Honors-Research Methods(for Honors): ENGL 245 Seminar in the Major or ENGL 381 Sophomore Honors: Research Methods in English
- Complete ENGL 481 Junior Honors Seminar in the Major, and
- One Advanced Level Creative Writing Workshop for Honors: ENGL 407 Creative Writing: Nonfiction Workshop, ENGL 408 Creative Writing: Fiction Workshop, ENGL 409 Creative Writing: Poetry Workshop, ENGL 410 Creative Writing: Playwriting Workshop, ENGL 411 Creative Writing: Special Topics Workshop, ENGL 508 Creative Writing: Advanced Fiction Workshop, ENGL 509 Creative Writing: Advanced Poetry Workshop
- Directed Creative Writing: ENGL 695

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to their success.

Career Resources:

- Why the liberal arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- L&S Career Services (<https://careers.ls.wisc.edu>): We launch our students higher, sooner
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

LEARNING OUTCOMES

1. **History of literature and language:** To demonstrate knowledge of major forms, techniques, social conditions, values, and genres that have shaped the history of English literature and language.
2. **Critical thinking:** To be able to discern and integrate divergent and contradictory perspectives, identify and question assumptions, and assess evidence and methods.
3. **Creativity:** To generate original ideas and texts, experimenting and taking risks, solving problems, and answering questions in a range of genres and media.
4. **Critical writing:** To write original, coherent, and compelling arguments that push beyond summary to analysis and independent and critical thinking in clear prose that meets expectations for grammatical correctness.
5. **Citizenship:** To develop empathy by learning about the experiences of others, and to gain an understanding of how we participate in communities (including the classroom) and the public sphere.

PEOPLE

FACULTY

Professors Auerbach, Barry, Begam, Bernard-Donals, Bow, Britland, Castronovo, Dharwadker, Foys, Friedman, Guyer, Hill, Johnson, Keller, Kelley, Kercheval, Mitchell, Olaniyan, Ortiz-Robles, Purnell, Raimy, Sherrard-Johnson, Steele, Wanner, M. Young, R. Young, Yu, Zimmerman

Associate Professors Allewaert, Bearden, Cooper, Olson, Samuels, Trotter, Valenza, Vieira

Assistant Professors Calhoun, Cho, Druschke, Evans, Fawaz, Vareschi, Zweck

LETTERS & SCIENCE CAREER SERVICES

The English department encourages our majors to begin working on their career exploration and preparation soon after declaring their major. Our career advisor also partners with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

RESOURCES AND SCHOLARSHIPS

WRITING CENTER

The Writing Center (<http://www.wisc.edu/writing>), located in 6171 Helen C. White Hall, offers free individualized help with writing. Students are welcome to come to the center for help with writing assignments in almost any course. In half-hour tutorials, instructors help students clarify and organize ideas and offer advice about revising a draft. The center also offers short-term classes on various facets of writing, including classes on writing about literature, writing research papers, writing book reviews, writing essay exams, and on many other topics. The Writing Center also has a computer lab.

To make an appointment, students should call 263-1992 or stop by when the center is open. During busy times of the semester, the center often is booked several days in advance, so students should plan ahead. For complete information about the center, including hours, schedules for writing assistance in the Multicultural Student Center and residence halls, extensive handouts about writing, and information about the Undergraduate Writing Fellows program, see the center website (<http://www.wisc.edu/writing>).

HEALTH AND THE HUMANITIES, CERTIFICATE

Enrollment for this certificate program will open in fall 2017. For more information, please watch for information sessions that will be held in the fall.

HOW TO GET IN

Enrollment for this certificate program will open in fall 2017. For more information, please watch for information sessions that will be held in the fall.

REQUIREMENTS

Total Credits Required: 15

CORE COURSE

Select one of the following:

Code	Title	Credits
HIST SCI/ MED HIST 133	Biology and Society, 1950 - Today	3
HIST SCI/ MED HIST 212	Bodies, Diseases, and Healers: An Introduction to the History of Medicine	3
MED HIST/ ANTHRO 231	Introduction to Social Medicine	3
ENGL 156	Literature and Medicine	3
RELIG ST 102	Exploring Religion in Sickness and Health	3

HEALTH AND ILLNESS IN SOCIAL CONTEXT

Select two courses:

Code	Title	Credits
AMER IND/C&E SOC/ SOC 578	Poverty and Place	3
ANTHRO 365	Medical Anthropology	3
COM ARTS 317	Rhetoric and Health	3
ENGL/ASIAN AM/ GEN&WS 463	Race and Sexuality in American Literature	3
GEN&WS 340	Topics in LGBTQ Sexuality	3

NURSING 511	Community Supports for People with Dementia	2
RP & SE 300	Individuals with Disabilities	3

PEOPLE

Faculty Co-Directors: Nicole Nelson (<https://histsci.wisc.edu/people/faculty/nelson/nelson.shtml>) and Judith Houck (<https://histsci.wisc.edu/people/faculty/houck/houck.shtml>)

Core Program Faculty and Staff with Departmental Affiliation:

- Monique Allewaert, English
- Lisa Bratzke, School of Nursing
- Jenell Johnson, Communication Arts
- Judy Houck, Gender and Women's Studies
- Neil Kodesh, History
- Sue Lederer, Medical History and Bioethics
- Nicole Nelson, History of Science
- Corrie Norman, Religious Studies
- Dija Selimi, Center for Pre#Health Advising
- Sunny Yudkoff, Center for Jewish Studies

Advisor: To be named

TEACHING ENGLISH TO SPEAKERS OF OTHER LANGUAGES, CERTIFICATE

A certificate in teaching English to speakers of other languages (TESOL) is available to undergraduate students who wish to teach English as a foreign or second language, normally in positions abroad. Native English speakers must have the equivalent of four college-level semesters of one language including its spoken form. For nonnative English speakers, English is the foreign language. Nonnative English speakers must have a score of at least 50 on TSE or SPEAK and or 26 on the iBT speaking section and a TOEFL score of 100 on the iBT or 600 on the paper version. A score of 84 on the MELAB or 7 on the IELTS can be substituted for the TOEFL. Students must maintain a GPA of 3.0 based on all courses except for the TESOL Workshops which are graded pass/fail.

HOW TO GET IN

Fill out the online application and submit to the ESL office. Students should apply as early as possible (after the sophomore year if they are undergraduates) to allow enough time to complete the requirements.

Download the **Undergraduate Application**.

Academic requirements for the program are:

For Undergraduates: Enrollment in any one of the required certificate courses and a degree program at UW–Madison.

Native English speakers must show completion of four college-level semesters of one language (prior to or completed concurrently with certificate coursework).

Nonnative English speakers are required to show English language proficiency in the following ways:

- A minimum score of 50 on TSE or SPEAK or an iBy score of 26 on the speaking section of the TOEFL
- A minimum score of 100 on the TOEFL iBT or 600 on the paper-based version of the TOEFL or 7 on the IELTS (International English Language Testing System) can be substituted for the TOEFL.

REQUIREMENTS

The required 21 credits of course work include:

Code	Title	Credits
Foundation Courses		
ENGL 314	Structure of English	3
ENGL 315	English Phonology	3
ENGL 415	Introduction to TESOL Methods	3
Second Language Acquisition and Teaching Courses		
ENGL 318	Second Language Acquisition	3
ENGL 515	Techniques and Materials for TESOL	3
Students must take 3 credits of TESOL Workshops during the same semester. Each spring, three of the six 1-credit workshops are offered in alternate years:		3
ENGL 613	TESOL: Pedagogical Grammar I	
ENGL 614	TESOL: Pedagogical Grammar II	
ENGL 615	TESOL: Teaching Listening and Speaking	
ENGL 616	TESOL: Teaching of Reading	
ENGL 617	TESOL: Teaching of Writing	
ENGL 618	TESOL: Teaching Pronunciation	
Social Perspectives on English Courses (choose one of the following four courses):		3
ENGL 316	English Language Variation in the U.S.	
ENGL 414	Global Spread of English	
ENGL 416	English in Society	

ENGL/ Gender and Language
GEN&WS 419

Total Credits 21

Residence and Quality of Work:

Students must maintain a 3.000 cumulative GPA in all courses required for the Certificate.

At least 11 credits for the certificate must be earned in residence.

Further information is available in the ESL Program Office (5134 Helen C. White Hall) and online.

ENVIRONMENTAL STUDIES

DEGREES/MAJORS/CERTIFICATES

- Environmental Studies Major (p. 627)

ENVIRONMENTAL STUDIES MAJOR

WHY CHOOSE AN ENVIRONMENTAL STUDIES MAJOR?

The Gaylord Nelson Institute for Environmental Studies is one of the world's leading institutions for environmental studies and is the administrative home for the major. The major offers a robust and interdisciplinary curriculum that spans all contemporary disciplines that touch upon the environment. The curriculum includes biological sciences, physical sciences, and social sciences, as well as humanities, history, health, and modern culture.

The environmental studies major, offered by the College of Letters & Science and administered by the Nelson Institute for Environmental Studies, provides unique opportunities for undergraduate students to broaden their studies through interdisciplinary coursework related to the environment. **The major must always be completed in tandem with a second major.** This requirement is unique to the environmental studies major and allows undergraduates the opportunity to both broaden and deepen the focus of their other major with a perspective on the

environment that spans a wide range of topics, and involves varying depths of application.

The major includes experiential learning opportunities via the capstone course and the field requirement, and encourages global interaction through study or internships abroad. With numerous travel abroad possibilities and ongoing access to a large selection of extracurricular events, graduates have countless combinations available to them. The outcome is a solid academic foundation in the study of the environment and access to a network of multidisciplinary problem-solving colleagues.

In today's world, the program prepares students to address modern challenges using interdisciplinary problem-solving approaches, applying both an understanding of, and practical experience beyond, a single academic discipline. Employers purposefully seek individuals with interdisciplinary and international preparation, and environmental studies students are ready to meet that need.

Click here to see a complete list of faculty and staff affiliated with the Nelson Institute (<http://nelson.wisc.edu/people>).

The Nelson Institute also offers two undergraduate certificates:

Environmental Studies Certificate (p. 1174)

Sustainability Certificate (p. 1178)

Note: Students may complete only one program offered through the Nelson Institute.

HOW TO GET IN

HOW TO DECLARE

Students interested in declaring the environmental studies major should request a major declaration appointment. Information about declaring the major can be found at undergraduate advising (<https://nelson.wisc.edu/undergraduate/advising.php>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General	• Breadth—Humanities/Literature/Arts: 6 credits
Education	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

SCHOOL/COLLEGE REQUIREMENTS

The Environmental Studies major is always paired with another major. Please refer to the School/College degree requirements of the other major to learn about degree requirements or consult an advisor.

REQUIREMENTS FOR THE MAJOR

The environmental studies major provides students with an academically rigorous course sequence that encompasses introductory through advanced understandings of the interdisciplinary field of environmental studies. Environmental studies undergraduates are present in all eight undergraduate schools and colleges. Students must have a declared primary major, and are allowed to overlap a portion of course work from that major for the environmental studies major, making it possible to complete their degree within four years.

- **30 credits in the major as defined below.**
- Declare and complete a primary major. **Students must have a primary major declared before reaching senior standing (86 credits) or the environmental studies major may be canceled.**
- At least 15 credits taken for the environmental studies major must be distinct, and not also meeting minimum requirements in another major.
- Students outside the College of Letters & Science may have to meet additional overlap requirements.

FOUNDATION (12-16 CREDITS)

One course from each of the following four areas, one of which must be at the *intermediate* or *advanced* level. Courses used to meet a requirement within the foundation section cannot also be used in other areas of the curriculum.

Environmental Humanities (1 course)

Code	Title	Credits
ENVIR ST 113	Environmental Studies: The Humanistic Perspective	3
ENVIR ST/HIST SCI/ HISTORY 125	Green Screen: Environmental Perspectives through Film	3
ENVIR ST/ENGL 153	Literature and the Environment	3
ENVIR ST/ RELIG ST 270	Environment and Religion	3-4
HISTORY/ENVIR ST/ GEOG 460	American Environmental History	4

Environmental Social Science (1 course)

Code	Title	Credits

* Counts as a designated field course to fulfill Field Experience.

FIELD EXPERIENCE

The field experience in the Environmental Studies major can be met in one of the following ways:

- A designated field course selected from the curriculum above, indicated by an asterisk (*)
- Participation in an environmental study abroad program where 50% or more of the contact hours are in an out-of-doors situation (see your advisor)
- Participation in an environmental internship or similar experience where 50% or more of the contact hours are in an out-of-doors situation (field form summary **must** be submitted)

CAPSTONE REQUIREMENT (3 CREDITS)

3 credits from:

Code	Title	Credits
ENVIR ST 600	Environmental Studies Major Capstone	3
ENVIR ST/ SOIL SCI 575	Assessment of Environmental Impact	3
ENVIR ST/A A E/ F&W ECOL 652	Decision Methods for Natural Resource Managers	3-4

In some cases, a 3-credit research project for a minimum that meets specific criteria of an environmental capstone course may be substituted for the Capstone requirement. If you and a faculty member believe that you have a suitable project, please contact undergrad@nelson.wisc.edu for more information.

RESIDENCE & QUALITY OF WORK IN THE MAJOR

2.000 GPA in all courses in the major

2.000 GPA on 15 upper-level major credits, taken in residence.

Intermediate- and advanced-level courses in the major are considered upper level.

15 credits in the major, taken on campus (at UW–Madison)

Courses in the environmental studies major cannot be taken on a pass/fail basis.

HONORS IN THE MAJOR

Honors in the Major is not available in Environmental Studies.

LEARNING OUTCOMES

1. Explain the social and historical processes that impact our current environments. Interpret the meanings, values, and aesthetics that are created, shaped, and revealed as humans interact with and modify the environments they inhabit.
2. Explain ecological processes and fundamental principles of environmental sciences relating to humanity's key environmental challenges of the past, present, and future.
3. Apply perspectives and techniques drawn from a coordinate major to develop interdisciplinary responses to environmental questions.

- Recognize through critical thinking a diversity of viewpoints, ethical commitments, and disciplinary approaches to environmental concerns across various scales from the local to the global.
- Demonstrate excellent reading, writing, communication, and research skills, both individually and in interdisciplinary teams.

ADVISING AND CAREERS

Environmental studies students are represented in majors all across campus and in most undergraduate schools and colleges. Environmental studies majors should utilize the career office for their home school as appropriate. All students, not just L&S students, can also benefit from the L&S Career Services office.

We encourage our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

Career Resources:

- Why the liberal arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)
- L&S Career Services (<http://careers.ls.wisc.edu/students.htm>): We launch our students higher, sooner
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/about/lsci?p=careerinitiative.html>)

FRENCH AND ITALIAN

The programs in French and Italian are multifaceted, with an array of courses in language, culture, film, literature, and professional communication. Students may begin the study of French or Italian in college or continue it at any level for which they are prepared. For French, a placement test is highly recommended. Questions about placement should be addressed to an academic advisor or the SOAR (Student Orientation, Advising, and Registration) foreign language consultant.

GRADUATE PROGRAMS

Students interested in graduate programs in French and Italian should inquire at the graduate coordinator's office (608 Van Hise, 262-6971) or via the department website (<http://frit.wisc.edu/graduate>).

Affiliated Graduate Programs. For information about the PFMP (Professional French Master's Program), see the PFMP website (<http://pfmp.wisc.edu>) or call 262-6971. For information about the Ph.D. in Second Language Acquisition (SLA), see the Language Institute website (<http://languageinstitute.wisc.edu>).

STUDY ABROAD

For information about study abroad programs, see International Academic Programs (<http://www.wisc.edu/studyabroad>) and programs in the student's school or college.

RESOURCES AND SCHOLARSHIPS

FRENCH HOUSE

La Maison Française (<http://uwfrenchhouse.org>), a francophone (French-speaking) residence hall and cultural center, is managed by the Department of French and Italian. Residence is open to UW-Madison students with the equivalent of a fourth-semester level of French. At least two native French graduate students reside in the house, aiding in conversation and facilitating the use of French. Most residents are Americans: prospective teachers of French, French majors, and students in other disciplines who want to speak French on a daily basis. Applications should be made well in advance. More information is available at uwfrenchhouse.org.

The French House is open for lunch, Monday - Friday, for all UW-Madison students. Students wishing to receive a credit for FRENCH 301 or FRENCH 302 must attend 4 times per week on average.

The French House is open to the public for Wednesday dinner and Friday lunch during the academic year.

PIAZZA ITALIA

The department sponsors Piazza Italia (<https://www.housing.wisc.edu/residencehalls-lic-languagehouses.htm>), the Italian floor in the Lakeshore residence halls. An Italian graduate student serves as the

resident house fellow, facilitating conversation in Italian and assisting a faculty member in a special 1-credit course on Italian culture. Students studying Italian will find a collegial atmosphere at Piazza Italia, which features special Italian-oriented programming including films, lectures, games, current events material, and regular meals "all'italiana" with guests from the Italian program. Piazza Italia is part of the International Learning Community (ILC) (<http://www.housing.wisc.edu/ilc>), which is dedicated to enriching cross-cultural understanding through a variety of social and educational programs.

CLUBS AND OTHER ACTIVITIES

French

French conversation groups and The French Ambassadors (<http://frit.wisc.edu/undergraduate/french/ambassadors>), a student organization, give students the opportunity to converse in French and participate in cultural events. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (<https://www.frit.wisc.edu>) and the French House website (<http://uwfrenchhouse.org>) for event details).

Italian

Caffè Culturale (<https://www.facebook.com/events/1100461163336722>), an Italian conversation group, gives students the opportunity to converse in Italian, while the Italian Club (<https://www.facebook.com/groups/28276254670>) allows students to participate in cultural events on campus and in the community. Cineteca Italiana (<https://www.facebook.com/UWCineteca/?fref=ts>) organizes weekly screenings of Italian films. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (<https://www.frit.wisc.edu>) for event details).

FRENCH, B.A.

The French program at UW–Madison offers students opportunities for cultural and literary learning about the French-speaking world through dynamic, in-class experiences and extracurricular components such as the French House, an immersion residence hall and cultural center, and the French Ambassador program, a student organization that engages students with French and Francophone cultural events in and around Madison.

Students intending to major in French or complete the certificate enter the program at the appropriate level depending on their language proficiency.

- The French major includes two prerequisite courses (FRENCH 228 and FRENCH 271) followed by 24 credits in French.
- The French certificate includes two core courses (FRENCH 228 and FRENCH 271) followed by three additional courses at the 311 level or above.

The majority of UW–Madison French majors or certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW–Madison sponsored program.

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult a department advisor.

INTRODUCTORY AND INTERMEDIATE FRENCH LANGUAGE SEQUENCE

Code	Title	Credits
FRENCH 101	First Semester French	4
FRENCH 102	Second Semester French	4
FRENCH 201	French for Speakers of Other Romance Languages	4

FRENCH 699	Directed Study	1-6

French courses at the 600 level or above (not including those listed above) are primarily graduate courses and require permission of an undergraduate advisor and the instructor.

COURSES TAUGHT IN ENGLISH

The following are introductory culture courses taught in English and do not count for credit toward the Major or the Certificate in French:

Code	Title	Credits
FRENCH 211	French Interdisciplinary Studies	3
FRENCH 240	Immigration and Expression	3
FRENCH 248	Ethnic Studies in the French/Francophone World(s)	3
FRENCH/CLASSICS/ HISTORY/ITALIAN/ MIEVAL 550	Advanced Interdisciplinary Studies in Medieval Civilization	3

For information on teacher training in French, see the School of Education (p. 1238) section in the Guide.

For courses in French literature in translation, see the Literature in Translation (<http://guide.wisc.edu/courses/littrans>) course listing.

HOW TO GET IN

Students can declare the French major or certificate at any time.

Students are strongly encouraged to consult with a French advisor as early as possible to discuss various paths available to complete the requirements. Please note that study abroad can make gaining a major or a certificate very manageable.

Roughly 75 percent of French majors also major in at least one other area on campus, from the humanities to the sciences.

For more information, contact a French advisor (http://frit.wisc.edu/undergraduate/french/academic_advising).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
-------------	--

Foreign Language	<ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language
------------------	---

Note: A unit is one year of high school work or one semester/term of college work.

- L&S Breadth
- Humanities, 12 credits: 6 of the 12 credits must be in literature
 - Social Sciences, 12 credits
 - Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall
	30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW-Madison
	2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR

INTRODUCTORY (PREREQUISITE) COURSES

Code	Title	Credits
FRENCH 228	Intermediate Language and Culture	3-4
FRENCH 271	Introduction to Literary Analysis	3-4
Total Credits		6-8

TOTAL CREDITS

To complete the French major, **24 credits** are needed beyond the introductory (prerequisite) courses. Please note that Literature in Translation courses cannot be counted toward the major.

REQUIRED FRENCH/FRANCOPHONE LITERATURE AND CULTURE

Code	Title	Credits

FRENCH 350	Applied French Language Studies	1-3
FRENCH 590	Advanced Phonetics	3

RESIDENCE AND QUALITY OF WORK

1. 2.000 GPA in all FRENCH and major courses
2. 2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence: FRENCH 300 through FRENCH 699
3. 15 credits in FRENCH taken on campus at UW–Madison

HONORS IN THE MAJOR

Students may declare Honors in the French Major in consultation with a French undergraduate advisor.

HONORS IN THE FRENCH MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in French, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all FRENCH courses beyond FRENCH 271
- Complete at least 8 credits, taken for Honors, beyond FRENCH 271¹
- Complete a two-semester Senior Honors Thesis in FRENCH 681 and FRENCH 682, for a total of 6 credits²

¹ Study abroad in France or in another French-speaking country is highly recommended, and the 8 credits taken for Honors can be fulfilled through French courses taken abroad at the appropriate level.

² In certain circumstances (particularly when the student is an Honors candidate in two or more departments), two courses in literature or cultural studies at the 500 or 600 level may be substituted for the Senior Honors Thesis.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

Students completing an undergraduate major in French will be able to:

1. Demonstrate that they understand and can analyze literary and non-literary texts in French representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).
2. Express themselves effectively in spoken and written French to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).
3. Express themselves effectively in spoken and written French to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).
4. Recognize and explain cultural artifacts, practices, and perspectives of the French-speaking world including how these cultural elements relate to literary and non-literary texts in French (cultural knowledge).
5. Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the French language (linguistic knowledge).
6. Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the French-speaking world with those found in their own culture (cross-cultural awareness).
7. Engage in a sustained fashion with the French language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad (engagement with the French language and culture).

ADVISING AND CAREERS

The Department of French and Italian encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

CAREER RESOURCES

REQUIREMENTS**UNIVERSITY GENERAL EDUCATION REQUIREMENTS**

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS**Requirements Detail**

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR INTRODUCTORY (PREREQUISITE) COURSES

Code	Title	Credits
FRENCH 228	Intermediate Language and Culture	3-4
FRENCH 271	Introduction to Literary Analysis	3-4
Total Credits		6-8

TOTAL CREDITS

To complete the French major, **24 credits** are needed beyond the introductory (prerequisite) courses. Please note that Literature in Translation courses cannot be counted toward the major.

REQUIRED FRENCH/FRANCOPHONE LITERATURE AND CULTURE

Code	Title	Credits
FRENCH 321	Introduction to Medieval, Renaissance, and Early Modern Literature	3
FRENCH 322	Introduction to Literature of Modernity	3
FRENCH 347	Introduction to Medieval, Renaissance, and Early Modern Civilization	3
or FRENCH 451	Medieval, Renaissance, and Early Modern Studies	
Total Credits		9

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all FRENCH and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence: FRENCH 300 through FRENCH 699
- 15 credits in FRENCH taken on campus at UW–Madison

HONORS IN THE MAJOR

Students may declare Honors in the French Major in consultation with a French undergraduate advisor.

HONORS IN THE FRENCH MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in French, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all FRENCH courses beyond FRENCH 271
- Complete at least 8 credits, taken for Honors, beyond FRENCH 271¹
- Complete a two-semester Senior Honors Thesis in FRENCH 681 and FRENCH 682, for a total of 6 credits²

¹ Study abroad in France or in another French-speaking country is highly recommended, and the 8 credits taken for Honors can be

fulfilled through French courses taken abroad at the appropriate level.

- ² In certain circumstances (particularly when the student is an Honors candidate in two or more departments), two courses in literature or cultural studies at the 500 or 600 level may be substituted for the Senior Honors Thesis.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

Students completing an undergraduate major in French will be able to:

- Demonstrate that they understand and can analyze literary and non-literary texts in French representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).
- Express themselves effectively in spoken and written French to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).
- Express themselves effectively in spoken and written French to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).
- Recognize and explain cultural artifacts, practices, and perspectives of the French-speaking world including how these cultural elements relate to literary and non-literary texts in French (cultural knowledge).
- Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the French language (linguistic knowledge).
- Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the French-speaking world with those found in their own culture (cross-cultural awareness).
- Engage in a sustained fashion with the French language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad (engagement with the French language and culture).

ADVISING AND CAREERS

The Department of French and Italian encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

CAREER RESOURCES

- Why the liberal arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)
- L&S Career Services (<http://careers.ls.wisc.edu/students.htm>): We launch our students higher, sooner
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)

RESOURCES AND SCHOLARSHIPS

FRENCH HOUSE

La Maison Française (<http://uwfrenchhouse.org>), a francophone (French-speaking) residence hall and cultural center, is managed by the Department of French and Italian. Residence is open to UW–Madison students with the equivalent of a fourth-semester level of French. At

least two native French graduate students reside in the house, aiding in conversation and facilitating the use of French. Most residents are Americans: prospective teachers of French, French majors, and students in other disciplines who want to speak French on a daily basis. Applications should be made well in advance. More information is available at uwfrenchhouse.org.

The French House is open for lunch, Monday - Friday, for all UW-Madison students. Students wishing to receive a credit for FRENCH 301 or FRENCH 302 must attend 4 times per week on average.

The French House is open to the public for Wednesday dinner and Friday lunch during the academic year.

PIAZZA ITALIA

The department sponsors Piazza Italia (<https://www.housing.wisc.edu/residencehalls-ic-ilc-languagehouses.htm>), the Italian floor in the Lakeshore residence halls. An Italian graduate student serves as the resident house fellow, facilitating conversation in Italian and assisting a faculty member in a special 1-credit course on Italian culture. Students studying Italian will find a collegial atmosphere at Piazza Italia, which features special Italian-oriented programming including films, lectures, games, current events material, and regular meals "all'italiana" with guests from the Italian program. Piazza Italia is part of the International Learning Community (ILC) (<http://www.housing.wisc.edu/ilc>), which is dedicated to enriching cross-cultural understanding through a variety of social and educational programs.

CLUBS AND OTHER ACTIVITIES

French

French conversation groups and The French Ambassadors (<http://frit.wisc.edu/undergraduate/french/ambassadors>), a student organization, give students the opportunity to converse in French and participate in cultural events. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (<https://www.frit.wisc.edu>) and the French House website (<http://uwfrenchhouse.org>) for event details).

Italian

Caffè Culturale (<https://www.facebook.com/events/1100461163336722>), an Italian conversation group, gives students the opportunity to converse in Italian, while the Italian Club (<https://www.facebook.com/groups/28276254670>) allows students to participate in cultural events on campus and in the community. Cineteca Italiana (<https://www.facebook.com/UWCineteca/?fref=ts>) organizes weekly screenings of Italian films. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (<https://www.frit.wisc.edu>) for event details).

FRENCH, CERTIFICATE

The undergraduate certificate in French offers students the opportunity to develop their proficiency in French language and their knowledge of literature and culture in the French-speaking world, thereby complementing their major(s) in other subjects across the university. It also strengthens the applications of students who intend to pursue careers or graduate study in areas where French is useful. The certificate is open to all undergraduate students.

HOW TO GET IN

Students may declare the undergraduate certificate in French at any time and are encouraged to do so as early as possible, once enrolled as an undergraduate. Please make an appointment with an undergraduate advisor (http://frit.wisc.edu/undergraduate/french/academic_advising) to declare the certificate.

REQUIREMENTS

The undergraduate certificate in French requires 15 credits of French coursework (or 5 courses) including FRENCH 228, FRENCH 271, and courses at the 311 level and above. Nine of the 15 credits must be taken on the UW–Madison campus. Courses for the certificate cannot be taken on a credit/no credit or pass/fail basis. Retroactive credits may not be applied toward the certificate.

Please note that:

- Up to 6 credits of UW–Madison Study Abroad and 3 credits of transfer coursework may apply to the 15 credits total needed for the certificate.
- Students must maintain a 2.000 cumulative GPA in all courses required for the certificate.

The 15 credits required for the certificate will be distributed as follows:

Code	Title	Credits
Required Core Courses (2 courses)		
FRENCH 228	Intermediate Language and Culture	
FRENCH 271	Introduction to Literary Analysis	
Advanced Language Course (1 course)		
FRENCH 311	Advanced Composition and Conversation	
FRENCH 312	Advanced Oral and Written Expression: Writing Across the Humanities	
FRENCH/ INTL BUS 313	Professional Communication and Culture in the Francophone World	
FRENCH/ INTL BUS 314	Contemporary Issues in Government, Organizations, and Enterprise	
FRENCH/ INTL BUS 315	Advanced Interdisciplinary Studies in Professional Communication	
FRENCH 350	Applied French Language Studies	
FRENCH 590	Advanced Phonetics	
Credits to reach 15 credit minimum for certificate:		
FRENCH 311	Advanced Composition and Conversation	
FRENCH 312	Advanced Oral and Written Expression: Writing Across the Humanities	
FRENCH/ INTL BUS 313	Professional Communication and Culture in the Francophone World	
FRENCH/ INTL BUS 314	Contemporary Issues in Government, Organizations, and Enterprise	

FRENCH/ INTL BUS 315	Advanced Interdisciplinary Studies in Professional Communication
FRENCH 321	Introduction to Medieval, Renaissance, and Early Modern Literature
FRENCH 322	Introduction to Literature of Modernity

ITALIAN, B.A.

The Italian program at UW–Madison offers students opportunities for growth in the language and for increased cultural fluency through dynamic, in-class learning experiences and multiple extracurricular components such as Piazza Italia (an Italian immersion floor in the Lakeshore residence halls), Caffè Culturale (an Italian conversation group), Italian Club, and Cineteca Italiana (an Italian film club).

- The Italian major includes 24 credits taken beyond ITALIAN 204.
- The Italian certificate includes 2 core courses followed by 3 additional courses beyond ITALIAN 204 for a total of 15 credits.

The majority of UW–Madison Italian majors and certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW–Madison Study Abroad program.

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult a department advisor.

INTRODUCTORY AND INTERMEDIATE ITALIAN LANGUAGE SEQUENCE

Code	Title	Credits
ITALIAN 101	First Semester Italian	4
ITALIAN 102	Second Semester Italian	4
ITALIAN 201	Italian for Speakers of Other Romance Languages	4
ITALIAN 203	Third Semester Italian	4
ITALIAN 204	Fourth Semester Italian	4

After Italian 204, courses focus on language, literature, and culture

ADVANCED LANGUAGE

Code	Title	Credits
ITALIAN 311	Advanced Italian Language	3
ITALIAN 312	Writing Workshop	3
ITALIAN 340	Structures of Italian	3
ITALIAN 423	Corso Di Stilistica Applicata	3

ADVANCED LITERATURE

Code	Title	Credits
ITALIAN 321	Introduction to Italian Literature	3
ITALIAN 322	Introduction to Italian Literature	3
ITALIAN 450	Special Topics in Italian Literature	3

INTERMEDIATE/ADVANCED CULTURE

Code	Title	Credits
ITALIAN 230	Modern Italian Culture	3
ITALIAN 452	Special Topics in Italian Studies: Culture, Film, Language	3
ITALIAN 453	Special Topics in Italian Studies: Culture, Film, Language	1
ITALIAN/COM ARTS 460	Italian Film	3

600-LEVEL COURSES

The following courses are open to both graduate and undergraduate students:

Code	Title	Credits
ITALIAN 601	L'Ottocento	3
ITALIAN 621 & ITALIAN 622	Il Settecento and Il Settecento	6
ITALIAN 623	Il Teatro Italiano	3
ITALIAN 631 & ITALIAN 632	Lineamenti Di Letteratura Italiana and Lineamenti Di Letteratura Italiana	6
ITALIAN 635 & ITALIAN 636	Il Romanzo Italiano and Il Romanzo Italiano	6

ITALIAN/ MEDIEVAL 671 & ITALIAN/ MEDIEVAL 672	Il Duecento and Il Duecento	6
ITALIAN 681 & ITALIAN 682	Senior Honors Thesis and Senior Honors Thesis	6
ITALIAN 698	Directed Study	1-6
ITALIAN 699	Directed Study	1-6

COURSES TAUGHT IN ENGLISH

The following are intermediate/advanced culture courses taught in English and count for credit toward the Major or the Certificate in Italian:

Code	Title	Credits
ITALIAN/ CLASSICS 350	Rome: The Changing Shape of the Eternal City	3-4
ITALIAN/FRENCH/ PORTUG/ SPANISH 429	Introduction to the Romance Languages	3
ITALIAN/ COM ARTS 460	Italian Film	3

For information on teacher training in Italian, see the School of Education (p. 1238) section in this Guide.

For courses in Italian literature in translation, see Literature in Translation (<http://guide.wisc.edu/courses/littrans>) course listing.

HOW TO GET IN

Students can declare the Italian major or certificate at any time.

Students are strongly encouraged to consult with an Italian advisor as early as possible to discuss various paths available to complete the requirements. Please note that study abroad can make gaining a major or a certificate very manageable.

Roughly 75 percent of all Italian majors also major in at least one other area on campus, from the humanities to the sciences.

For more information, contact an Italian advisor (http://frit.wisc.edu/undergraduate/italian/academic_advising).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core

of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	Requirements
Breadth—Humanities/Literature/Arts:	6 credits
Breadth—Natural Science:	4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
Breadth—Social Studies:	3 credits
Communication Part A & Part B *	
Ethnic Studies *	
Quantitative Reasoning Part A & Part B *	

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	<ul style="list-style-type: none"> Complete the fourth unit of a foreign language; OR Complete the third unit of a foreign language and the second unit of an additional foreign language <p>Note: A unit is one year of high school work or one semester/term of college work.</p>
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework	108 credits
-------------------------------------	-------------

Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR

Italian majors must complete 24 credits beyond Italian 204. Please note that Literature in Translation courses cannot be counted toward the major.

The 24 credits required for the Italian major will be distributed as follows:

Code	Title	Credits
Required Core Courses		15
ITALIAN 230	Modern Italian Culture

ITALIAN 698	Directed Study
ITALIAN 699	Directed Study

Total Credits 24

RESIDENCY AND QUALITY OF WORK

- 2.000 GPA in all ITALIAN and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence: ITALIAN 300 through ITALIAN 699
- 15 credits in ITALIAN taken on campus at UW–Madison

HONORS IN THE MAJOR

Students may declare Honors in the Italian Major in consultation with the Italian undergraduate advisor.

HONORS IN THE ITALIAN MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Italian, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all ITALIAN courses and courses counting toward the major
- Complete at least 15 credits, taken for Honors, beyond ITALIAN 204, earning individual grades of B or better in each course. 6 of those credits must come from completing a two-semester Senior Honors Thesis in ITALIAN 681 Senior Honors Thesis and ITALIAN 682 Senior Honors Thesis.¹

¹ Students may be allowed to substitute two semesters of literature course work at the 600 level for the Senior Honors Thesis. See the undergraduate advisor in Italian.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

Students completing an undergraduate major in Italian will be able to:

1. Demonstrate that they understand and can analyze literary and non-literary texts in Italian representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).
2. Express themselves effectively in spoken and written Italian to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).
3. Express themselves effectively in spoken and written Italian to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).
4. Recognize and explain cultural artifacts, practices, and perspectives of the Italian-speaking world including how these cultural elements relate to literary and non-literary texts in Italian (cultural knowledge).
5. Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the Italian language (linguistic knowledge).
6. Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the Italian-speaking world with those found in their own culture (cross-cultural awareness).
7. Engage in a sustained fashion with the Italian language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad (engagement with the Italian language and culture).

ADVISING AND CAREERS

The Department of French and Italian encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

CAREER RESOURCES

RESOURCES AND SCHOLARSHIPS

FRENCH HOUSE

La Maison Française (<http://uwfrenchhouse.org>), a francophone (French-speaking) residence hall and cultural center, is managed by the Department of French and Italian. Residence is open to UW–Madison students with the equivalent of a fourth-semester level of French. At least two native French graduate students reside in the house, aiding in conversation and facilitating the use of French. Most residents are Americans: prospective teachers of French, French majors, and students in other disciplines who want to speak French on a daily basis. Applications should be made well in advance. More information is available at uwfrenchhouse.org.

The French House is open for lunch, Monday - Friday, for all UW-Madison students. Students wishing to receive a credit for FRENCH 301 or FRENCH 302 must attend 4 times per week on average.

The French House is open to the public for Wednesday dinner and Friday lunch during the academic year.

PIAZZA ITALIA

The department sponsors Piazza Italia (<https://www.housing.wisc.edu/residencehalls-ic-ilc-languagehouses.htm>), the Italian floor in the Lakeshore residence halls. An Italian graduate student serves as the resident house fellow, facilitating conversation in Italian and assisting a faculty member in a special 1-credit course on Italian culture. Students studying Italian will find a collegial atmosphere at Piazza Italia, which features special Italian-oriented programming including films, lectures, games, current events material, and regular meals "all'italiana" with

guests from the Italian program. Piazza Italia is part of the International Learning Community (ILC) (<http://www.housing.wisc.edu/ilc>), which is dedicated to enriching cross-cultural understanding through a variety of social and educational programs.

CLUBS AND OTHER ACTIVITIES

French

French conversation groups and The French Ambassadors (<http://frit.wisc.edu/undergraduate/french/ambassadors>), a student organization, give students the opportunity to converse in French and participate in cultural events. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (<https://www.frit.wisc.edu>) and the French House website (<http://uwfrenchhouse.org>) for event details).

Italian

Caffè Culturale (<https://www.facebook.com/events/1100461163336722>), an Italian conversation group, gives students the opportunity to converse in Italian, while the Italian Club (<https://www.facebook.com/groups/28276254670>) allows students to participate in cultural events on campus and in the community. Cineteca Italiana (<https://www.facebook.com/UWCineteca/?fref=ts>) organizes weekly screenings of Italian films. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (<https://www.frit.wisc.edu>) for event details).

ITALIAN, B.S.

The Italian program at UW–Madison offers students opportunities for growth in the language and for increased cultural fluency through dynamic, in-class learning experiences and multiple extracurricular components such as Piazza Italia (an Italian immersion floor in the Lakeshore residence halls), Caffè Culturale (an Italian conversation group), Italian Club, and Cineteca Italiana (an Italian film club).

- The Italian major includes 24 credits taken beyond ITALIAN 204.
- The Italian certificate includes 2 core courses followed by 3 additional courses beyond ITALIAN 204 for a total of 15 credits.

The majority of UW–Madison Italian majors and certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW–Madison Study Abroad program.

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult a department advisor.

INTRODUCTORY AND INTERMEDIATE ITALIAN LANGUAGE SEQUENCE

Code	Title	Credits
ITALIAN 101	First Semester Italian	4
ITALIAN 102	Second Semester Italian	4
ITALIAN 201	Italian for Speakers of Other Romance Languages	4
ITALIAN 203	Third Semester Italian	4
ITALIAN 204	Fourth Semester Italian	4

After Italian 204, courses focus on language, literature, and culture

ADVANCED LANGUAGE

Code	Title	Credits
ITALIAN 311	Advanced Italian Language	3
ITALIAN 312	Writing Workshop	3
ITALIAN 340	Structures of Italian	3
ITALIAN 423	Corso Di Stilistica Applicata	3

ADVANCED LITERATURE

Code	Title	Credits
ITALIAN 321	Introduction to Italian Literature	3
ITALIAN 322	Introduction to Italian Literature	3
ITALIAN 450	Special Topics in Italian Literature	3

INTERMEDIATE/ADVANCED CULTURE

Code	Title	Credits
ITALIAN 230	Modern Italian Culture	3
ITALIAN 452	Special Topics in Italian Studies: Culture, Film, Language	3
ITALIAN 453	Special Topics in Italian Studies: Culture, Film, Language	1
ITALIAN/ COM ARTS 460	Italian Film	3

600-LEVEL COURSES

The following courses are open to both graduate and undergraduate students:

Code	Title	Credits
ITALIAN 601	L'Ottocento	3
ITALIAN 621 & ITALIAN 622	Il Settecento and Il Settecento	6
ITALIAN 623	Il Teatro Italiano	3
ITALIAN 631 & ITALIAN 632	Lineamenti Di Letteratura Italiana and Lineamenti Di Letteratura Italiana	6
ITALIAN 635 & ITALIAN 636	Il Romanzo Italiano and Il Romanzo Italiano	6
ITALIAN 637	La Poesia del Novecento	3
ITALIAN 641	Il Seicento: Ribelli, Libertini e Ortodossi	3
ITALIAN 651	Il Rinascimento	3
ITALIAN/ MIEVEAL 659 & ITALIAN/ MIEVEAL 660	Dante's Divina Commedia and Dante's Divina Commedia	6
ITALIAN/ MIEVEAL 671 & ITALIAN/ MIEVEAL 672	Il Duecento and Il Duecento	6
ITALIAN 681 & ITALIAN 682	Senior Honors Thesis and Senior Honors Thesis	6
ITALIAN 698	Directed Study	1-6
ITALIAN 699	Directed Study	1-6

COURSES TAUGHT IN ENGLISH

The following are intermediate/advanced culture courses taught in English and count for credit toward the Major or the Certificate in Italian:

Code	Title	Credits
ITALIAN/ CLASSICS 350	Rome: The Changing Shape of the Eternal City	3-4
ITALIAN/FRENCH/ PORTUG/ SPANISH 429	Introduction to the Romance Languages	3
ITALIAN/ COM ARTS 460	Italian Film	3

For information on teacher training in Italian, see the School of Education (p. 1238) section in this Guide.

For courses in Italian literature in translation, see Literature in Translation (<http://guide.wisc.edu/courses/littrans>) course listing.

HOW TO GET IN

Students can declare the Italian major or certificate at any time.

Students are strongly encouraged to consult with an Italian advisor as early as possible to discuss various paths available to complete the requirements. Please note that study abroad can make gaining a major or a certificate very manageable.

Roughly 75 percent of all Italian majors also major in at least one other area on campus, from the humanities to the sciences.

For more information, contact an Italian advisor (http://frit.wisc.edu/undergraduate/italian/academic_advising).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

Italian majors must complete 24 credits beyond Italian 204. Please note that Literature in Translation courses cannot be counted toward the major.

The 24 credits required for the Italian major will be distributed as follows:

Code	Title	Credits
Required Core Courses		15
ITALIAN 230	Modern Italian Culture	
ITALIAN 311	Advanced Italian Language	
ITALIAN 312	Writing Workshop	
ITALIAN 321	Introduction to Italian Literature	
ITALIAN 322	Introduction to Italian Literature	
Additional credits to reach 24-credit minimum		9
ITALIAN 340	Structures of Italian	
ITALIAN/ CLASSICS 350	Rome: The Changing Shape of the Eternal City	
ITALIAN 423	Corso Di Stilistica Applicata	
ITALIAN/FRENCH/ PORTUG/ SPANISH 429	Introduction to the Romance Languages

ITALIAN 698	Directed Study	
ITALIAN 699	Directed Study	
Total Credits		24

RESIDENCY AND QUALITY OF WORK

- 2.000 GPA in all ITALIAN and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence: ITALIAN 300 through ITALIAN 699
- 15 credits in ITALIAN taken on campus at UW-Madison

HONORS IN THE MAJOR

Students may declare Honors in the Italian Major in consultation with the Italian undergraduate advisor.

HONORS IN THE ITALIAN MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Italian, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all ITALIAN courses and courses counting toward the major
- Complete at least 15 credits, taken for Honors, beyond ITALIAN 204, earning individual grades of B or better in each course. 6 of those credits must come from completing a two-semester Senior Honors Thesis in ITALIAN 681 Senior Honors Thesis and ITALIAN 682 Senior Honors Thesis.¹

¹ Students may be allowed to substitute two semesters of literature course work at the 600 level for the Senior Honors Thesis. See the undergraduate advisor in Italian.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

Students completing an undergraduate major in Italian will be able to:

1. Demonstrate that they understand and can analyze literary and non-literary texts in Italian representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).
2. Express themselves effectively in spoken and written Italian to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).
3. Express themselves effectively in spoken and written Italian to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).
4. Recognize and explain cultural artifacts, practices, and perspectives of the Italian-speaking world including how these cultural elements relate to literary and non-literary texts in Italian (cultural knowledge).
5. Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the Italian language (linguistic knowledge).
6. Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the Italian-speaking world with those found in their own culture (cross-cultural awareness).
7. Engage in a sustained fashion with the Italian language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad (engagement with the Italian language and culture).

ADVISING AND CAREERS

The Department of French and Italian encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (<https://www.frit.wisc.edu>) for event details).

ITALIAN, CERTIFICATE

The undergraduate certificate in Italian offers students the opportunity to develop their proficiency in Italian language and their knowledge of literature and culture in the Italian-speaking world. Advanced courses (300 and 400 level) will allow students to build on the foundation developed in 200 level courses by choosing from a range of courses in Italian literature, linguistics, cinema, culture, and professional communication. The certificate also strengthens the applications of students who intend to pursue careers or graduate study in areas where Italian is useful. The undergraduate certificate in Italian is open to all undergraduate students.

HOW TO GET IN

Students may declare the undergraduate certificate in Italian at any time and are encouraged to do so as early as possible, once enrolled as an undergraduate. Please make an appointment with an undergraduate advisor (http://frit.wisc.edu/undergraduate/italian/academic_advising) to declare the certificate.

GENDER AND WOMEN'S STUDIES

The gender and women's studies major and certificate provide a unique background for students seeking to analyze gender and other vectors of inequality, both historically and in contemporary society, as reflected through texts, social practices, and social institutions in the U.S. and abroad. Our graduates have gone on to provide this kind of analysis in fields like health policy, immigration law, social work, reproductive justice,

educational administration, employment policy, medicine, architectural design, and media production.

The curriculum reflects the interdisciplinary nature of gender and women's studies, offering to all students an opportunity to study gender and women in such areas as literature, history, anthropology, sociology, education, law, biology, psychology, philosophy, political science, economics, and the arts. Department courses have been designed to fulfill breadth requirements in the appropriate divisions.

The **undergraduate major** is a 30-credit program and the **certificate** is a 15-credit program. The interdisciplinary nature of gender and women's studies lends itself to working well with and complementing many other programs and plans across campus.

DEGREES/MAJORS/CERTIFICATES

- Gender and Women's Studies, B.A. (p. 655)
- Gender and Women's Studies, B.S. (p. 662)
- Gender and Women's Studies, Certificate (p. 669)

GENDER AND WOMEN'S STUDIES, B.A.

The gender and women's studies major and certificate provide a unique background for students seeking to analyze gender and other vectors of inequality, both historically and in contemporary society, as reflected through texts, social practices, and social institutions in the U.S. and abroad. Our graduates have gone on to provide this kind of analysis in fields like health policy, immigration law, social work, reproductive justice, educational administration, employment policy, medicine, architectural design, and media production.

The curriculum reflects the interdisciplinary nature of gender and women's studies, offering to all students an opportunity to study gender and women in such areas as literature, history, anthropology, sociology, education, law, biology, psychology, philosophy, political science, economics, and the arts. Department courses have been designed to fulfill breadth requirements in the appropriate divisions.

The **undergraduate major** is a 30-credit program and the **certificate** is a 15-credit program. The interdisciplinary nature of gender and women's studies lends itself to working well with and complementing many other programs and plans across campus.

HOW TO GET IN

APPLICATION

To become a gender and women's studies major, students must first complete GEN&WS 101 Gender, Women, and Cultural Representation, GEN&WS 102 Gender, Women, and Society in Global Perspective, **OR** GEN&WS 103 Women and Their Bodies in Health and Disease with a grade of B or better. Then they must declare their intention to complete the gender and women's studies major with the undergraduate advisor (<https://womenstudies.wisc.edu/undergrad-advising.htm>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	<ul style="list-style-type: none"> Complete the fourth unit of a foreign language; OR Complete the third unit of a foreign language and the second unit of an additional foreign language <p>Note: A unit is one year of high school work or one semester/term of college work.</p>
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison
--------------	--

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR

Majors in gender and women's studies are required to take foundational work in gender and women's studies, courses reflecting each of four approaches to knowledge (humanities, social science, theory, and biological or health sciences), one course from three of four issue areas (sexuality, disability and embodiment, race/ethnicity, and global), and a capstone seminar or thesis.

All majors complete a minimum of 30 credits in GEN&WS including: ¹

INTRODUCTORY GEN&WS

Code	Title	Credits
GEN&WS 101	Gender, Women, and Cultural Representation (only one of these courses may count toward the major)	3
or GEN&WS 102	Gender, Women, and Society in Global Perspective	
GEN&WS 103	Women and Their Bodies in Health and Disease	3
Total Credits		6

APPROACHES ²

1 course from each area:

Biology and Health

Explore health as both a physiological and a socio#cultural experience, and recognize ways in which gender and other axes of social inequality influence health. Develop critical tools to place the medical field, scientific research, and public health and policy organizations into social contexts, and recognize how these institutions both can reflect and perpetuate dominant ideologies. Learn about feminist approaches to, and histories of, science, medicine, and health activism.

Code	Title	Credits

GEN&WS 640	Capstone Seminar in Gender and Women's Studies	
GEN&WS 681 & GEN&WS 682	Senior Honors Thesis I and Senior Honors Thesis II	
GEN&WS 691 & GEN&WS 682	Senior Thesis I and Senior Honors Thesis II	
Total Credits		3-6

RESIDENCE & QUALITY OF WORK

2.000 GPA in all GEN&WS and major courses

2.000 GPA on 15 upper-level major credits, taken in Residence ¹

15 credits in GEN&WS, taken on the UW–Madison campus

NOTES

¹ A maximum three courses designated as Elementary level may apply in the major, overall. Directed Study courses typically do not count toward the minimum credits required in the major.

² A single course may apply to **both** Approach and Issues but a course may **not** apply to more than one Approach and it may not more than one Issue area.

³ Courses in GEN&WS and approved for the major that carry the Intermediate- or Advanced-level designation are considered upper level in the major.

RESEARCH IN THE MAJOR

Students interested in the doing research in Gender & Women's Studies are encouraged to incorporate coursework outside of Gender and Women's Studies and develop a thesis (GEN&WS 691-GEN&WS 692 or GEN&WS 681-GEN&WS 682) in consultation with a member of the faculty. The thesis sequence would serve as the Capstone requirement in the

major. In this case, the student may still take GEN&WS 640 Capstone Seminar in Gender and Women's Studies as an elective in the major.

HONORS IN THE MAJOR

To declare Honors in the Major in Gender and Women's Studies, students must submit a letter of application to the undergraduate advisor prior to enrollment in GEN&WS 681 Senior Honors Thesis I. The letter should include:

- A list of all planned and declared degrees, major and certificate programs
- Area(s) of research interest within gender and women's studies and ideas for an Senior Honors Thesis
- A letter from a faculty member agreeing to supervise the thesis project

HONORS IN THE GENDER AND WOMEN'S STUDIES MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Gender and Women's Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all GEN&WS courses, and all courses accepted in the major
- Complete at least 2 courses, for a total of 6 or more credits, taken for Honors in GEN&WS
- Complete a two-semester Senior Honors Thesis in GEN&WS 681 Senior Honors Thesis I and GEN&WS 682 Senior Honors Thesis II, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. **Gender #** Understand the concept of gender as an identity and an institution along its multiple dimensions (cultural, social, political, economic) and how gender in forms power relations.
2. **Intersectionality #** Recognize how gender intersects with other axes of inequality, such as race, class, disability status, sexuality, gender expression, nationality, geography and age. Identify the difference between intersectional and universalist understandings of gender.
3. **Feminist theory #** Apply feminist theoretical approaches, both national and international.
4. **Class #** Recognize the role of economic inequalities in creating material and cultural differences in the US and other national contexts and their gendered implications.
5. **Race/Ethnicity #** Understand the role of race/ethnicity as a tool of creating, identifying, materializing, and solidifying human difference and its relationship to gender.
6. **Global Processes #** Appreciate historical, political, cultural and socio#economic influences on gender relations in global context. Understand global dimensions of gender inequality, including hierarchies among women within and across nations. Identify gendered dynamics of globalization in historical or contemporary contexts.
7. **Sexuality #** Understand that sexuality is not a natural or self#evident attribute or category and that sexuality assumes a variety of culturally specific and contested meanings.
8. **Disability and Embodiment #** Understand the creation and evolution of different categories of embodiment and the experience of living through and as bodies.
9. **Health and Science #** Identify that health is both a physiological and a socio#cultural experience, and recognize ways in which gender and other axes of social inequality influence health. Develop critical tools to place the medical field, scientific research, and public health and policy organizations into social contexts, and recognize how these institutions both can reflect and perpetuate dominant ideologies. Learn about feminist approaches to, and histories of, science, medicine, and health activism.
10. **Contemporary and Historical Issues** - Gain familiarity with a variety of issue areas in which gender is important, both historically and today, in national and transnational spheres. These include but are not limited to: health, the body, science, politics, citizenship, feminism, activism, labor, history, media, language, literature and the arts.
11. **Problem solving #** Identify important historical and contemporary issues relating to gender and women's studies, evaluate responses to them, and adapt the knowledge gained through this process to everyday situations.
12. **Research and inquiry #** Identify a problem related to gender and women's studies. Produce or locate resources and learn to build a research agenda. Read broadly in order to develop well-focused projects, using primary and secondary sources. Delineate key points in scholarly articles and respond to them. Use different modes of research, including empirical methods, scholarly literature, and theoretical and artistic engagement. Develop advanced library skills tailored to specific research projects, including facility with electronic databases, bibliographic reference materials, archival documents, and image and sound repositories. Evaluate resources for their reliability.
13. **Interdisciplinarity #** Engage in interdisciplinary inquiry and research and understand the strengths and limits of interdisciplinarity.
14. **Critical thinking #** Be able to perform critical thinking along four dimensions: critical analysis, in which one can identify and evaluate arguments, rhetorical styles, synthesize ideas, and develop well#substantiated, coherent, and concise arguments; logical reasoning, in which one can identify and follow a logical sequence or argument through to its end and recognize faulty reasoning or premature closure; abstract thinking, in which one can generalize for a specific

purpose and/or in a way that clarifies and heightens understanding of major issues at stake, or identifies the essential or most relevant elements of a concept, event, object, text, etc; argumentation, in which one can marshal appropriate and relevant evidence in order to develop a clear claim or stance using specific rhetorical approaches.

15. **Writing #** Express ideas effectively in written form, develop sufficient evidence for arguments, and tailor arguments to audience and context.
16. **Oral Communication #** Express ideas effectively in verbal form, tailoring arguments and presentation styles to audience and context.
17. **Collaboration -#** Work collectively, take initiative, offer and receive constructive criticism, exchange ideas and creatively work together toward a common endeavor.
18. **Creativity #** Bring together a variety of texts, ideas, theoretical, political, empirical, aesthetic and rhetorical approaches in order to respond imaginatively to a social, political or intellectual issue.
19. **Career skills -** Create the building blocks for a career after graduation with all of the above skills.
20. **Critical self#awareness -** Demonstrate self#reflexivity about one's ideas and social and political positions.
21. **Critical social awareness #** Engage critically with social institutions that influence our personal and social lives, such as media, politics, the healthcare system, the economy and education.
22. **Ethics -#** Apply ethical frameworks, informed by the study of gender, feminism and social justice movements, to address unequal treatment or advantage in a variety of contexts.
23. **Engaged Practices -#** Link theory with practice. Recognize and advocate for social change at the local, national or transnational level.
24. **Advanced accomplishment #** Demonstrate synthesis of skills acquired and performed in advanced coursework.
25. **Application beyond the Gender and Women's Studies classroom -** Apply key Gender and Women's Studies concepts to one's life, activist projects, and to non#Gender and Women's Studies academic coursework.

ADVISING AND CAREERS

ADVISING AND CAREERS

UNDERGRADUATE ADVISING IN GENDER AND WOMEN'S STUDIES AND LGBT STUDIES ([HTTPS://WOMENSTUDIES.WISC.EDU/UNDERGRAD-ADVISING.HTM](https://womenstudies.wisc.edu/undergrad-advicing.htm))

Connecting and working with your gender and women's studies undergraduate advisor as early as possible helps you create a meaningful course plan and stay on track as you complete your degree requirements.

Our undergraduate advisor is available to consult on a variety of topics including: program declaration, adding an additional major or certificate, course planning and four-year graduation plans, volunteer and internship opportunities, graduate school, and career development.

INTERNSHIP PROGRAM IN GENDER AND WOMEN'S STUDIES ([HTTPS://WOMENSTUDIES.WISC.EDU/INTERNSHIP.HTM](https://womenstudies.wisc.edu/internship.htm))

Applied learning through internships within the field of gender and women's studies allows students the opportunity to connect the classroom to the community and put theory into practice. Recognizing the power and importance of experiential and service learning, we proudly offer both local and global internship opportunities in our department.

Our internship program is designed to provide students with opportunities for learning and working in organizations and settings that connect their coursework in gender and women's studies to specific issues in community settings. The connected internship seminar provides a venue for students to engage deeply in feminist-based work and reflection while thinking critically about participating as feminists in activism and professional settings.

CAREER DEVELOPMENT IN GENDER AND WOMEN'S STUDIES ([HTTPS://WOMENSTUDIES.WISC.EDU/CAREERS.HTM](https://womenstudies.wisc.edu/careers.htm))

The Department of Gender and Women's Studies is committed to helping our students understand and articulate how skills and concepts learned in the classroom can be applied in a professional setting. As reflected in our Learning Outcomes (https://womenstudies.wisc.edu/documents/GWSLearningOutcomes_000.pdf), students in gender and women's studies develop desirable professional skills, such as written and oral communication, critical thinking, problem solving, and collaboration skills, as well as critical self and social awareness.

The department continues to expand career development opportunities for our students by working with our alumni, and offering workshops, panels, and networking opportunities.

THE L&S CAREER SERVICES OFFICE ([HTTP://CAREERS.LS.WISC.EDU/STUDENTS.HTM](http://careers.ls.wisc.edu/students.htm))

The L&S Career Services Office helps students leverage the academic skills learned in their major, certificates, and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

The L&S Career Services Office can assist students in career advising, resume and cover letter writing, networking opportunities, interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Enrollment Inquiries: Diane Walton (<https://womenstudies.wisc.edu/staff.htm>)

Curricular Planning: Nina Valeo Cooke (<https://womenstudies.wisc.edu/professional-pages/cooke.html>)

GENDER AND WOMEN'S STUDIES, B.S.

The gender and women's studies major and certificate provide a unique background for students seeking to analyze gender and other vectors of inequality, both historically and in contemporary society, as reflected through texts, social practices, and social institutions in the U.S. and abroad. Our graduates have gone on to provide this kind of analysis in fields like health policy, immigration law, social work, reproductive justice, educational administration, employment policy, medicine, architectural design, and media production.

The curriculum reflects the interdisciplinary nature of gender and women's studies, offering to all students an opportunity to study gender and women in such areas as literature, history, anthropology, sociology, education, law, biology, psychology, philosophy, political science, economics, and the arts. Department courses have been designed to fulfill breadth requirements in the appropriate divisions.

The **undergraduate major** is a 30-credit program and the **certificate** is a 15-credit program. The interdisciplinary nature of gender and women's studies lends itself to working well with and complementing many other programs and plans across campus.

HOW TO GET IN

APPLICATION

To become a gender and women's studies major, students must first complete GEN&WS 101 Gender, Women, and Cultural Representation, GEN&WS 102 Gender, Women, and Society in Global Perspective, **OR** GEN&WS 103 Women and Their Bodies in Health and Disease with a grade of B or better. Then they must declare their intention to complete the gender and women's studies major with the undergraduate advisor (<https://womenstudies.wisc.edu/undergrad-advising.htm>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

Majors in gender and women's studies are required to take foundational work in gender and women's studies, courses reflecting each of four approaches to knowledge (humanities, social science, theory, and biological or health sciences), one course from three of four issue areas (sexuality, disability and embodiment, race/ethnicity, and global), and a capstone seminar or thesis.

All majors complete a minimum of 30 credits in GEN&WS including: ¹

INTRODUCTORY GEN&WS

Code	Title	Credits
GEN&WS 101	Gender, Women, and Cultural Representation (only one of these courses may count toward the major)	3
or GEN&WS 102	Gender, Women, and Society in Global Perspective	
GEN&WS 103	Women and Their Bodies in Health and Disease	3
Total Credits		6

APPROACHES ²

1 course from each area:

Biology and Health

Explore health as both a physiological and a socio#cultural experience, and recognize ways in which gender and other axes of social inequality influence health. Develop critical tools to place the medical field, scientific research, and public health and policy organizations into social contexts, and recognize how these institutions both can reflect and perpetuate dominant ideologies. Learn about feminist approaches to, and histories of, science, medicine, and health activism.

Code	Title	Credits
GEN&WS/HIST SCI/ MED HIST 431	Childbirth in the United States	3
GEN&WS/HIST SCI/ MED HIST 524	The Medical History of Sex and Sexuality	3
GEN&WS 530	Biology and Gender	3
GEN&WS/HIST SCI/ MED HIST 531	Women and Health in American History	3
GEN&WS/HIST SCI/ MED HIST 532	The History of the (American) Body	3
GEN&WS 533	Special Topics in Women and Health	3
GEN&WS 534	Gender, Sexuality, and Reproduction: Public Health Perspectives	3
GEN&WS/ INTL ST 535	Women's Global Health and Human Rights	3

Humanities

Engage with humanities-based theories, content areas, and methodologies as they relate to gender and women's studies. These include, but are not limited to, critical text analysis, discourse analysis, historical approaches and archival work, media studies, ethnography, and digital humanities. (GEN&WS courses with H, L or Z designations)

Code	Title	Credits
GEN&WS/SOC 200	Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies	3-4
GEN&WS/ LITTRANS 205	Women in Russian Literature in Translation	3-4

GEN&WS 661	Global Internship in Gender and Women's Studies	1-6
------------	---	-----

Sexuality

Explore "sexuality" under the assumption that sexuality is not a natural or self-evident attribute or category, these courses demonstrate how sexuality has come to assume a variety of culturally specific but often contested meanings.

Code	Title	Credits
GEN&WS/SOC 200	Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies	3-4
GEN&WS 340	Topics in LGBTQ Sexuality	3
GEN&WS 342	Transgender Studies	3-4
GEN&WS 343	Queer Bodies	3
GEN&WS/ HISTORY 346	Trans/Gender in Historical Perspective	3-4
GEN&WS/ CLASSICS 351	Gender and Sexuality in the Classical World	3-4
GEN&WS 414	Gender, Performance, and Sexuality	3
GEN&WS/ENGL 419	Gender and Language	3
GEN&WS/ASIAN AM/ ENGL 463	Race and Sexuality in American Literature	3
GEN&WS/ FOLKLORE 468	Feminism, Folklore and Comparative Literature	3
GEN&WS/ HISTORY 519	Sexuality, Modernity and Social Change	3
GEN&WS/HIST SCI/ MED HIST 524	The Medical History of Sex and Sexuality	3
GEN&WS/HIST SCI/ MED HIST 532	The History of the (American) Body	3
GEN&WS 534	Gender, Sexuality, and Reproduction: Public Health Perspectives	3

Disability & Embodiment

Examine the creation and evolution of different categories of embodiment and the experience of living through and as bodies. These courses focus on gender and disability, exploring disability as a social category, a medical realm, a political identity, an analytical approach, and a lived experience.

Code	Title	Credits
GEN&WS 343	Queer Bodies	3
GEN&WS 370	Topics in Gender and Disability	3
GEN&WS 371	Disability and Gender in Film	3
GEN&WS 372	Visualizing Bodies	3
GEN&WS 445	The Body in Theory	3

CAPSTONE

Code	Title	Credits
Capstone course or Thesis Sequence:		
GEN&WS 640	Capstone Seminar in Gender and Women's Studies	3-6
GEN&WS 681 & GEN&WS 682	Senior Honors Thesis I and Senior Honors Thesis II	

GEN&WS 691 & GEN&WS 682	Senior Thesis I and Senior Honors Thesis II	
Total Credits		3-6

RESIDENCE & QUALITY OF WORK

2.000 GPA in all GEN&WS and major courses

2.000 GPA on 15 upper-level major credits, taken in Residence ¹

15 credits in GEN&WS, taken on the UW–Madison campus

NOTES

- ¹ A maximum three courses designated as Elementary level may apply in the major, overall. Directed Study courses typically do not count toward the minimum credits required in the major.
- ² A single course may apply to **both** Approach and Issues but a course may **not** apply to more than one Approach and it may not more than one Issue area.
- ³ Courses in GEN&WS and approved for the major that carry the Intermediate- or Advanced-level designation are considered upper level in the major.

RESEARCH IN THE MAJOR

Students interested in the doing research in Gender & Women's Studies are encouraged to incorporate coursework outside of Gender and Women's Studies and develop a thesis (GEN&WS 691-GEN&WS 692 or GEN&WS 681-GEN&WS 682) in consultation with a member of the faculty. The thesis sequence would serve as the Capstone requirement in the major. In this case, the student may still take GEN&WS 640 Capstone Seminar in Gender and Women's Studies as an elective in the major.

HONORS IN THE MAJOR

To declare Honors in the Major in Gender and Women's Studies, students must submit a letter of application to the undergraduate advisor prior to enrollment in GEN&WS 681 Senior Honors Thesis I. The letter should include:

- A list of all planned and declared degrees, major and certificate programs
- Area(s) of research interest within gender and women's studies and ideas for an Senior Honors Thesis
- A letter from a faculty member agreeing to supervise the thesis project

HONORS IN THE GENDER AND WOMEN'S STUDIES MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Gender and Women's Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all GEN&WS courses, and all courses accepted in the major
- Complete at least 2 courses, for a total of 6 or more credits, taken for Honors in GEN&WS
- Complete a two-semester Senior Honors Thesis in GEN&WS 681 Senior Honors Thesis I and GEN&WS 682 Senior Honors Thesis II, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

- Gender #** Understand the concept of gender as an identity and an institution along its multiple dimensions (cultural, social, political, economic) and how gender in forms power relations.
- Intersectionality #** Recognize how gender intersects with other axes of inequality, such as race, class, disability status, sexuality, gender expression, nationality, geography and age. Identify the difference between intersectional and universalist understandings of gender.
- Feminist theory #** Apply feminist theoretical approaches, both national and international.
- Class #** Recognize the role of economic inequalities in creating material and cultural differences in the US and other national contexts and their gendered implications.
- Race/Ethnicity #** Understand the role of race/ethnicity as a tool of creating, identifying, materializing, and solidifying human difference and its relationship to gender.
- Global Processes #** Appreciate historical, political, cultural and socio-economic influences on gender relations in global context. Understand global dimensions of gender inequality, including hierarchies among women within and across nations. Identify gendered dynamics of globalization in historical or contemporary contexts.
- Sexuality -#** Understand that sexuality is not a natural or self-evident attribute or category and that sexuality assumes a variety of culturally specific and contested meanings.
- Disability and Embodiment #** Understand the creation and evolution of different categories of embodiment and the experience of living through and as bodies.
- Health and Science #** Identify that health is both a physiological and a socio-cultural experience, and recognize ways in which gender and other axes of social inequality influence health. Develop critical tools to place the medical field, scientific research, and public health and policy organizations into social contexts, and recognize how these institutions both can reflect and perpetuate dominant ideologies.
- Learn about feminist approaches to, and histories of, science, medicine, and health activism.
- Contemporary and Historical Issues** - Gain familiarity with a variety of issue areas in which gender is important, both historically and today, in national and transnational spheres. These include but are not limited to: health, the body, science, politics, citizenship, feminism, activism, labor, history, media, language, literature and the arts.
- Problem solving #** Identify important historical and contemporary issues relating to gender and women's studies, evaluate responses to them, and adapt the knowledge gained through this process to everyday situations.
- Research and inquiry #** Identify a problem related to gender and women's studies. Produce or locate resources and learn to build a research agenda. Read broadly in order to develop well-focused projects, using primary and secondary sources. Delineate key points in scholarly articles and respond to them. Use different modes of research, including empirical methods, scholarly literature, and theoretical and artistic engagement. Develop advanced library skills tailored to specific research projects, including facility with electronic databases, bibliographic reference materials, archival documents, and image and sound repositories. Evaluate resources for their reliability.
- Interdisciplinarity #** Engage in interdisciplinary inquiry and research and understand the strengths and limits of interdisciplinarity.
- Critical thinking #** Be able to perform critical thinking along four dimensions: critical analysis, in which one can identify and evaluate arguments, rhetorical styles, synthesize ideas, and develop well-substantiated, coherent, and concise arguments; logical reasoning, in which one can identify and follow a logical sequence or argument through to its end and recognize faulty reasoning or premature closure; abstract thinking, in which one can generalize for a specific purpose and/or in a way that clarifies and heightens understanding of major issues at stake, or identifies the essential or most relevant elements of a concept, event, object, text, etc; argumentation, in which one can marshal appropriate and relevant evidence in order to develop a clear claim or stance using specific rhetorical approaches.
- Writing #** Express ideas effectively in written form, develop sufficient evidence for arguments, and tailor arguments to audience and context.
- Oral Communication #** Express ideas effectively in verbal form, tailoring arguments and presentation styles to audience and context.
- Collaboration -#** Work collectively, take initiative, offer and receive constructive criticism, exchange ideas and creatively work together toward a common endeavor.
- Creativity #** Bring together a variety of texts, ideas, theoretical, political, empirical, aesthetic and rhetorical approaches in order to respond imaginatively to a social, political or intellectual issue.
- Career skills** - Create the building blocks for a career after graduation with all of the above skills.
- Critical self-awareness** - Demonstrate self-reflexivity about one's ideas and social and political positions.
- Critical social awareness #** Engage critically with social institutions that influence our personal and social lives, such as media, politics, the healthcare system, the economy and education.
- Ethics -#** Apply ethical frameworks, informed by the study of gender, feminism and social justice movements, to address unequal treatment or advantage in a variety of contexts.
- Engaged Practices -#** Link theory with practice. Recognize and advocate for social change at the local, national or transnational level.

24. **Advanced accomplishment #** Demonstrate synthesis of skills acquired and performed in advanced coursework.
25. **Application beyond the Gender and Women's Studies classroom**
- Apply key Gender and Women's Studies concepts to one's life, activist projects, and to non#Gender and Women's Studies academic coursework.

communication, critical thinking, problem solving, and collaboration skills, as well as critical self and social awareness.

The department continues to expand career development opportunities for our students by working with our alumni, and offering workshops, panels, and networking opportunities.

THE L&S CAREER SERVICES OFFICE ([HTTP:// CAREERS.LS.WISC.EDU/STUDENTS.HTM](http://careers.ls.wisc.edu/students.htm))

The L&S Career Services Office helps students leverage the academic skills learned in their major, certificates, and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

The L&S Career Services Office can assist students in career advising, resume and cover letter writing, networking opportunities, interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

ADVISING AND CAREERS

ADVISING AND CAREERS

UNDERGRADUATE ADVISING IN GENDER AND WOMEN'S STUDIES AND LGBT STUDIES ([HTTPS:// WOMENSTUDIES.WISC.EDU/UNDERGRAD-ADVISING.HTM](https://womenstudies.wisc.edu/undergrad-advicing.htm))

Connecting and working with your gender and women's studies undergraduate advisor as early as possible helps you create a meaningful course plan and stay on track as you complete your degree requirements.

Our undergraduate advisor is available to consult on a variety of topics including: program declaration, adding an additional major or certificate, course planning and four-year graduation plans, volunteer and internship opportunities, graduate school, and career development.

INTERNSHIP PROGRAM IN GENDER AND WOMEN'S STUDIES ([HTTPS://WOMENSTUDIES.WISC.EDU/ INTERNSHIP.HTM](https://womenstudies.wisc.edu/internship.htm))

Applied learning through internships within the field of gender and women's studies allows students the opportunity to connect the classroom to the community and put theory into practice. Recognizing the power and importance of experiential and service learning, we proudly offer both local and global internship opportunities in our department.

Our internship program is designed to provide students with opportunities for learning and working in organizations and settings that connect their coursework in gender and women's studies to specific issues in community settings. The connected internship seminar provides a venue for students to engage deeply in feminist-based work and reflection while thinking critically about participating as feminists in activism and professional settings.

CAREER DEVELOPMENT IN GENDER AND WOMEN'S STUDIES ([HTTPS://WOMENSTUDIES.WISC.EDU/ CAREERS.HTM](https://womenstudies.wisc.edu/careers.htm))

The Department of Gender and Women's Studies is committed to helping our students understand and articulate how skills and concepts learned in the classroom can be applied in a professional setting. As reflected in our Learning Outcomes (https://womenstudies.wisc.edu/documents/GWSLearningOutcomes_000.pdf), students in gender and women's studies develop desirable professional skills, such as written and oral

GENDER AND WOMEN'S STUDIES, CERTIFICATE

The certificate program requires 15 credits of coursework in gender and women's studies. Students can tailor the certificate to reflect their interest, compliment their major or plan for graduate or professional school.

HOW TO GET IN

Intent to pursue the certificate must be declared by meeting with the Department of Gender and Women's Studies undergraduate advisor as early as possible in the certificate program.

REQUIREMENTS

GWS CERTIFICATE REQUIREMENTS

15 credits to include at least 12 credits in GEN&WS, to include: ^{1,2}

Code	Title	Credits
	Humanities credits in GEN&WS	3
	Social Science credits in GEN&WS	3
	Natural or Biological science credits in GEN&WS	3
	Additional credits in GEN&WS	6
	Total Credits	15

RESIDENCE & QUALITY OF WORK

2.000 GPA in all certificate credits

9 credits at the intermediate or advanced level

8 credits in residence

NOTES

¹ Students may apply only one of GEN&WS 101 Gender, Women, and Cultural Representation or GEN&WS 102 Gender, Women, and Society in Global Perspective to the certificate.

² Courses taken pass/fail do not apply to the certificate.

COURSE LISTS

Humanities courses in GEN&WS

Code	Title	Credits
GEN&WS 101	Gender, Women, and Cultural Representation	3
GEN&WS/SOC 200	Introduction to Lesbian, Gay, Bisexual, Transgender and Queer + Studies	3-4
GEN&WS/LITTRANS 205	Women in Russian Literature in Translation	3-4
GEN&WS/AFROAMER 221	Introduction to Black Women's Studies	3
GEN&WS/AFROAMER 222	Introduction to Black Women Writers	3
GEN&WS/ENGL 248	Women in Ethnic American Literature	3

GEN&WS/ENGL 250	Women in Literature	3
GEN&WS/LITTRANS 270	German Women Writers in Translation	3
GEN&WS 310	Special Topics in Gender, Women and the Humanities	1-3
GEN&WS/HISTORY 315	Gender, Race and Colonialism	3
GEN&WS 319	Study Abroad Special Topic: Gender, Women and the Humanities	3-4
GEN&WS/AFROAMER 324	Black Women in America: Reconstruction to the Present	3
GEN&WS/AFROAMER 326	Race and Gender in Post-World War II U.S. Society	3
GEN&WS 330	Topics in Gender/Class/Race/Ethnicity (Humanities)	3
GEN&WS/CHICLA 332	Latinas: Self Identity and Social Change	3
GEN&WS 340	Topics in LGBTQ Sexuality	3

GEN&WS 533	Special Topics in Women and Health ³	3
GEN&WS/ INTL ST 535	Women's Global Health and Human Rights ³	3

³ GEN&WS 103 Women and Their Bodies in Health and Disease is a prerequisite for all upper-level biology and health courses in gender and women's studies.

ADVISING AND CAREERS

TO MEET WITH THE GENDER AND WOMEN'S STUDIES UNDERGRADUATE ADVISOR DURING THE ACADEMIC YEAR:

Please visit the undergraduate advisor's calendar for the gender and women's studies (GWS) certificate to make an appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/wuCLByLC.html>). To declare a major or certificate, please plan on a 15-minute appointment. Otherwise, schedule the time of a meeting according to your needs. Drop-in advising (<https://womenstudies.wisc.edu/undergrad-advising.htm>) is also available.

There is no undergraduate advising available over the summer in GWS.

PEOPLE

FACULTY

LGBTQ+ STUDIES, CERTIFICATE

The LGBT studies certificate program, housed administratively in the Department of Gender and Women's Studies, is a campuswide program open to students in any major. Courses that count toward this interdisciplinary certificate come from a wide range of fields including literature, history, sociology, medical history, as well as from gender and women's studies, which is in itself an interdisciplinary field. This certificate can compliment many other programs and plans across campus, including, but not limited to gender and women's studies. New courses are added to the program each semester. Students are encouraged to check the LGBT studies certificate website (<https://womenstudies.wisc.edu/certificate-lgbt.htm>) regularly for a list of current course offerings by semester.

HOW TO GET IN

Intent to pursue the certificate must be declared by meeting with the LGBT studies undergraduate advisor (<https://womenstudies.wisc.edu/undergrad-advising.htm>) as early as possible in the certificate program and before completing requirements.

REQUIREMENTS

LGBT STUDIES COURSE REQUIREMENTS

The certificate requires 15 credits distributed as follows: ^{1,2}

Code	Title	Credits
Introduction to LGBT Studies		
GEN&WS/SOC 200	Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies	3-4
3 courses and 9 credits in LGBT Studies		9
GEN&WS/CLASSICS 351	Gender and Sexuality in the Classical World	
GEN&WS/COM ARTS 418	Gender, Sexuality, and the Media	
GEN&WS/ENGL 419	Gender and Language	
GEN&WS/ASIAN AM/ENGL 463	Race and Sexuality in American Literature	
GEN&WS/FOLKLORE 468	Feminism, Folklore and Comparative Literature	
GEN&WS 280	Honors Seminar: Studies in Gender, Sex, and Sexuality	
GEN&WS 340	Topics in LGBTQ Sexuality ³	
GEN&WS 342	Transgender Studies	
GEN&WS 343	Queer Bodies	
GEN&WS/THEATRE 415	Introduction to Contemporary Feminist Theatre and Criticism	
GEN&WS 442	Lesbian Culture	
GEN&WS 445	The Body in Theory	
GEN&WS 534	Gender, Sexuality, and Reproduction: Public Health Perspectives	
GEN&WS/HISTORY 346	Trans/Gender in Historical Perspective	
GEN&WS/HISTORY 519	Sexuality, Modernity and Social Change	
GEN&WS/HIST SCI/MED HIST 532	The History of the (American) Body	
HISTORY 275	Topics in LGBT History ³	
HISTORY/GEN&WS 354	Women and Gender in the U.S. Since 1870	
GEN&WS 414	Gender, Performance, and Sexuality	

Advanced Seminar in LGBT Studies ⁴

GEN&WS 642	Advanced Seminar in LGBT Studies (LGBT Studies Capstone)	3
Total Credits		15-16

- ¹ Not more than one course can be taken at the elementary level to count for the LGBT studies certificate. Courses taken on a pass/fail basis will not satisfy certificate requirements.
- ² For students also declared for the gender and women's studies major or certificate, a maximum 6 credits may apply to both programs.
- ³ Topics courses, such as HISTORY 275 and GEN&WS 340, may be taught with a number of different LGBT topics and therefore may be taken more than once, so long as the topic is different.
- ⁴ Students must have already completed at least 9 credits in the certificate before taking the capstone course, GEN&WS 642 Advanced Seminar in LGBT Studies (LGBT Studies Capstone).

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all certificate courses

8 credits In residence

ADVISING AND CAREERS

TO MEET WITH THE LGBT STUDIES UNDERGRADUATE ADVISOR DURING THE ACADEMIC YEAR:

Please visit the undergraduate advisor's calendar for the LGBT certificate to make an appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/wuCLByLC.html>). To declare a major or certificate, please plan on a 15-minute appointment. Otherwise, schedule the time of a meeting according to your needs. Drop-in advising is available Wednesdays from noon to 2 p.m. Please visit Sterling Hall, room 3312.

There is no undergraduate advising available over the summer in LGBT studies.

CURRICULAR PLANNING

Nina Valeo Cooke (<https://womenstudies.wisc.edu/professional-pages/cooke.html>)

GEOGRAPHY

Geography studies the interaction between people and their environments including the ways in which the people, the environments, and the interactions all vary from place to place over the earth. Because it is concerned with the character of people and their cultures on the one hand, and with the character of the earth's surface and its resources on the other, it is both a social and a natural science. Being broad and integrative, geography provides an appropriate foundation for a liberal education. It also provides a base for employment in public or private agencies, both domestic and international, concerned with environmental management, locational analysis or planning (urban, regional, land use).

Cartography/GIS, also known more broadly as geographic information science, studies and develops digital technology and the theory behind this technology to help people work with geographic information. This broad area interfaces with work from the physical and social sciences. It is a field devoted to the acquisition, management, analysis, visualization, and representation of geospatial data. It is a relatively new discipline that incorporates geography, cartography, spatial analysis, and related fields such as geovisualization, geodesy, geocomputation, cognition, and computer science. At the present time professionals trained in geographic information science are very much in demand by federal agencies, state and local governments, and private firms.

The student desiring a limited introduction to the field of geography may select any introductory course in cultural or physical geography. Students with special interests in any of a number of fields outside of geography, such as history, political science, economics, anthropology, sociology, meteorology, geology, etc., will find useful background courses in geography. The student desiring a limited introduction to the field of GIScience may select either GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology or GEOG 370 Introduction to Cartography or GEOG/CIV ENGR/ENVIR ST 377 An Introduction to Geographic Information Systems. Students in landscape architecture, urban and regional planning, civil and environmental engineering, medical illustration, or the environmental sciences may find GIScience a useful addition to their major course of study.

Department course offerings are listed in five major groups:

1. Physical Geography: Earth Systems and Environmental Processes
2. People–Environment Interaction
3. Human Geography
4. Area Studies and Global Systems
5. Cartography and Geographic Information Science

Courses in groups 1 and 5 (except GEOG 577 Environmental Modeling with GIS) are counted as physical science; those in groups 2 (except GEOG/ENVIR ST/SOIL SCI 230 Soil: Ecosystem and Resource and BOTANY 240 Plants and Humans), 3, and 4 are counted as social science.

All students must fulfill the L&S requirement of at least **15 credits of upper-level work in the major** completed in residence. All courses in the department identified as intermediate or advanced count toward this requirement.

DEGREES/MAJORS/CERTIFICATES

- Cartography and Geographic Information Systems, B.A. (p. 673)
- Cartography and Geographic Information Systems, B.S. (p. 677)
- Geography, B.A. (p. 680)
- Geography, B.S. (p. 684)

PEOPLE

Associate Professors Alatout, Dennis

Assistant Professors Baird, Gibbs, Marin-Spiotta, Ozdogan, Robertson, Roth, Schneider, Woodward, Young

CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS, B.A.

Cartography and GIS, also known more broadly as geographic information science, studies and develops digital technology and the theory behind it to help people work with geographic information. This broad area interfaces with work from the physical and social sciences. It is a field devoted to the acquisition, management, analysis, visualization, and representation of geospatial data. It is a relatively new discipline that incorporates geography, cartography, spatial analysis, and related fields such as geovisualization, geodesy, geocomputation, cognition, and computer science. At the present time professionals trained in geographic information science are very much in demand by federal agencies, state and local governments, and private firms.

HOW TO GET IN

Exploring the field of geographic information science at UW–Madison is easy. Interested students are strongly encouraged to take introductory courses in the field. The Department of Geography offers four intro courses in geographic information science:

- GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology (online);
- GEOG 370 Introduction to Cartography;
- GEOG/ENVIR ST/F&W ECOL/G L E/GEOSCI/ LAND ARC 371 Introduction to Environmental Remote Sensing; and
- GEOG/CIV ENGR/ENVIR ST 377 An Introduction to Geographic Information Systems

Students who intend to declare their major as cartography and GIS need to schedule an appointment with the geography undergraduate advisor, Joel Gruley, at jgruley@wisc.edu.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
-------------	--

Foreign Language	<ul style="list-style-type: none"> Complete the fourth unit of a foreign language; OR Complete the third unit of a foreign language and the second unit of an additional foreign language <p>Note: A unit is one year of high school work or one semester/term of college work.</p>
------------------	---

L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
-------------	--

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR 30 CREDITS IN GEOGRAPHY

Code	Title	Credits
Core		4
GEOG 360	Quantitative Methods in Geographical Analysis (offered only in spring)	
or STAT 301	Introduction to Statistical Methods	
or STAT 371	Introductory Applied Statistics for the Life Sciences	
GEOG 370	Introduction to Cartography	
GEOG/CIV ENGR/ ENVIR ST 377	An Introduction to Geographic Information Systems	
GEOG 565	Colloquium for Undergraduate Majors (offered only in fall)	
Electives—three courses from:		9
GEOG 572	Graphic Design in Cartography	
GEOG 575	Interactive Cartography & Geovisualization	
GEOG 576	Geospatial Web and Mobile Programming	
GEOG 578	GIS Applications	
GEOG 579	GIS and Spatial Analysis	

Topical Breadth—one course from each area: ¹	9
<i>Physical Geography</i>	
<i>People–Environment Geography</i>	
<i>Human Geography or Area Studies and Global Systems</i>	
College-level mathematics	8
GEOG/ENVIR ST/ F&W ECOL/ G L E/GEOSCI/ LAND ARC 371	Introduction to Environmental Remote Sensing
GEOG 378	Introduction to Geocomputing
Total Credits	30

¹ Course is listed in more than one subarea. Students must choose the subarea in which they want to count the course.

TOPICAL BREADTH AREAS

Physical Geography

The locational arrangements of earth phenomena and their interaction as physical systems:

Code	Title	Credits
GEOG/ENVIR ST 120	Introduction to the Earth System	3
GEOG/ENVIR ST 127	Physical Systems of the Environment	5
GEOG/GEOSCI 320	Geomorphology	3
GEOG/ATM OCN 323	Science of Climate Change	3
GEOG/ENVIR ST 325	Analysis of the Physical Environment	4
GEOG/GEOSCI 326	Landforms-Topics and Regions	3
GEOG 329	Landforms and Landscapes of North America	3
GEOG/ATM OCN/ ENVIR ST/ GEOSCI 335	Climatic Environments of the Past	3
GEOG/ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts ¹	3
GEOG/BOTANY 338	Environmental Biogeography ¹	3
GEOG 344	The American West ¹	3
GEOG/GEOSCI 420	Glacial and Pleistocene Geology	3
GEOG/GEOSCI 523	Quaternary Vegetation Dynamics	3
GEOG/SOIL SCI 525	Soil Geomorphology	3
GEOG/SOIL SCI 526	Human Transformations of Earth Surface Processes ¹	3
GEOG/GEOSCI 527	The Quaternary Period	3

¹ Course is listed in more than one subarea. Students must choose the subarea in which they want to count the course.

People–Environment Geography

The human use, perception, and modification of environments:

Code	Title	Credits
GEOG/ENVIR ST 139	Living in the Global Environment: An Introduction to People-Environment Geography	3-4
GEOG/ENVIR ST/ SOIL SCI 230	Soil: Ecosystem and Resource	3

GEOG/ENVIR ST 309	People, Land and Food: Comparative Study of Agriculture Systems	3
GEOG/ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts ¹	3
GEOG/ENVIR ST 337	Nature, Power and Society	3
GEOG/BOTANY 338	Environmental Biogeography ¹	3
GEOG/ENVIR ST 339	Environmental Conservation	4
GEOG 340	World Regions in Global Context ¹	3
GEOG 344	The American West ¹	3
GEOG/C&E SOC/ ENVIR ST 434	People, Wildlife and Landscapes	3
GEOG/ENVIR ST 439	US Environmental Policy and Regulation	3-4
GEOG/ENVIR ST/ HISTORY 460	American Environmental History	4
GEOG/ENVIR ST/ HISTORY 469	The Making of the American Landscape ¹	4
GEOG/SOIL SCI 526	Human Transformations of Earth Surface Processes ¹	3
GEOG/ENVIR ST 534	Environmental Governance: Markets, States and Nature	3
GEOG/ENVIR ST 537	Culture and Environment	4
GEOG 538	The Humid Tropics: Ecology, Subsistence, and Development	4
GEOG/ENVIR ST 557	Development and Environment in Southeast Asia ¹	3

¹ Course is listed in more than one subarea. Students must choose the subarea in which they want to count the course.

Human Geography

The location and organization of human settlements and activities:

Code	Title	Credits
GEOG 101	Introduction to Human Geography	4
GEOG 301	Geography of Social Organization	3
GEOG/URB R PL 305	Introduction to the City	3-4
GEOG 318	Introduction to Geopolitics	3
GEOG 340	World Regions in Global Context ¹	3
GEOG 348	Latin America ¹	4
GEOG 349	Europe ¹	3
GEOG 355	Africa, South of the Sahara ¹	3
GEOG 358	Human Geography of Southeast Asia ¹	3
GEOG/ENVIR ST/ HISTORY 469	The Making of the American Landscape ¹	4
GEOG 501	Space and Place: A Geography of Experience	3
GEOG 510	Economic Geography	4
GEOG 518	Power, Place, Identity	3
GEOG 566	History of Geographic Thought	3

¹ Course is listed in more than one subarea. Students must choose the subarea in which they want to count the course.

Area Studies and Global Systems

The ways in which regions, places, and landscapes have acquired distinctive characteristics and problems as a result of their locations and resource potentials and of their settlement, appraisal, and use by particular peoples and cultures:

Code	Title	Credits
GEOG/HISTORY/ LCA/POLI SCI/ SOC 244	Introduction to Southeast Asia: Vietnam to the Philippines	4
GEOG/HISTORY/ LCA/POLI SCI/ SOC 252	The Civilizations of India-Modern Period	4
GEOG/HISTORY/ POLI SCI/ SLAVIC 253	Russia: An Interdisciplinary Survey	4
GEOG/HISTORY/ POLI SCI/ SLAVIC 254	Eastern Europe: An Interdisciplinary Survey	4
GEOG/AFROAMER/ ANTHRO/C&E SOC/ HISTORY/LACIS/ POLI SCI/SOC/ SPANISH 260	Latin America: An Introduction	3-4
GEOG/AFRICAN/ AFROAMER/ ANTHRO/HISTORY/ POLI SCI/SOC 277	Africa: An Introductory Survey	4
GEOG 340	World Regions in Global Context ¹	3
GEOG 342	Geography of Wisconsin	3
GEOG 344	The American West ¹	3
GEOG 348	Latin America ¹	4
GEOG 349	Europe ¹	3
GEOG 355	Africa, South of the Sahara ¹	3
GEOG 358	Human Geography of Southeast Asia ¹	3
GEOG/ENVIR ST 557	Development and Environment in Southeast Asia ¹	3

¹ Course is listed in more than one subarea. Students must choose the subarea in which they want to count the course.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all GEOG and major courses

2.000 GPA on 15 upper-level major credits, taken in residence ²

15 credits in GEOG, taken on the UW–Madison campus

² GEOG courses designated Intermediate/Advanced are upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Cartography and Geographic Information Systems Major in consultation with the Cartography and Geographic Information Systems undergraduate advisor.

HONORS IN THE CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Cartography and Geographic Information Systems students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all GEOG courses, and all courses accepted in the major
- Complete a two-semester Senior Honors Thesis in GEOG 681 Senior Honors Thesis and GEOG 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

ADVISING AND CAREERS

ADVISING

Students with questions about the major, courses, and careers are encouraged to contact the geography undergraduate advisor, Joel Gruley, at jgruley@wisc.edu.

CAREERS

Cartography and GIS, and geography more broadly, are remarkably interdisciplinary fields that span the natural sciences, social sciences, and humanities. The types of careers that cartography and GIS can prepare students for thus reflect this diversity. Geographic information scientists work across the public, private, and nonprofit sectors, and commonly work in the following fields, where they acquire, manage, analyze, visualize, and represent geospatial data: environmental policy, conservation, and management; digital cartography; urban and transportation planning; economic and community development; geospatial intelligence; food security; historic preservation; environmental hazards management; demography and human health; human migration and displacement; journalism; international conflict resolution; tourism.

PEOPLE

Professors Burt, Cadwallader, Cronon, Downey, Kaiser, Knox, Mason, Naughton, Olds, Ostergren, Turner, Williams, Zhu

Associate Professors Alatout, Dennis

Assistant Professors Baird, Gibbs, Marin-Spiotta, Ozdogan, Robertson, Roth, Schneider, Woodward, Young

CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS, B.S.

Cartography and GIS, also known more broadly as geographic information science, studies and develops digital technology and the theory behind it to help people work with geographic information. This broad area interfaces with work from the physical and social sciences. It is a field devoted to the acquisition, management, analysis, visualization, and representation of geospatial data. It is a relatively new discipline that incorporates geography, cartography, spatial analysis, and related fields such as geovisualization, geodesy, geocomputation, cognition, and computer science. At the present time professionals trained in geographic information science are very much in demand by federal agencies, state and local governments, and private firms.

HOW TO GET IN

Exploring the field of geographic information science at UW–Madison is easy. Interested students are strongly encouraged to take introductory courses in the field. The Department of Geography offers four intro courses in geographic information science:

- GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology (online);
- GEOG 370 Introduction to Cartography;
- GEOG/ENVIR ST/F&W ECOL/G L E/GEOSCI/ LAND ARC 371 Introduction to Environmental Remote Sensing; and
- GEOG/CIV ENGR/ENVIR ST 377 An Introduction to Geographic Information Systems

Students who intend to declare their major as cartography and GIS need to schedule an appointment with the geography undergraduate advisor, Joel Gruley, at jgruley@wisc.edu.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to

the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General	• Breadth—Humanities/Literature/Arts: 6 credits
Education	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum	2.000 in all coursework at UW–Madison
GPA	2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

30 CREDITS IN GEOGRAPHY

Code	Title	Credits
Core		4
GEOG 360	Quantitative Methods in Geographical Analysis (offered only in spring)	
or STAT 301	Introduction to Statistical Methods	
or STAT 371	Introductory Applied Statistics for the Life Sciences	
GEOG 370	Introduction to Cartography	
GEOG/CIV ENGR/ ENVIR ST 377	An Introduction to Geographic Information Systems	
GEOG 565	Colloquium for Undergraduate Majors (offered only in fall)	
Electives—three courses from:		9
GEOG 572	Graphic Design in Cartography	
GEOG 575	Interactive Cartography & Geovisualization	
GEOG 576	Geospatial Web and Mobile Programming	
GEOG 578	GIS Applications	
GEOG 579	GIS and Spatial Analysis	
Topical Breadth—one course from each area: ¹		9
<i>Physical Geography</i>		
<i>People–Environment Geography</i>		
<i>Human Geography or Area Studies and Global Systems</i>		
College-level mathematics		8
GEOG/ENVIR ST/ F&W ECOL/ G L E/GEOSCI/ LAND ARC 371	Introduction to Environmental Remote Sensing	
GEOG 378	Introduction to Geocomputing	
Total Credits		30

¹ Course is listed in more than one subarea. Students must choose the subarea in which they want to count the course.

TOPICAL BREADTH AREAS

Physical Geography

The locational arrangements of earth phenomena and their interaction as physical systems:

Code	Title	Credits
GEOG/ENVIR ST 120	Introduction to the Earth System	3

GEOG/ENVIR ST 127	Physical Systems of the Environment	5
GEOG/GEOSCI 320	Geomorphology	3
GEOG/ATM OCN 323	Science of Climate Change	3
GEOG/ENVIR ST 325	Analysis of the Physical Environment	4
GEOG/GEOSCI 326	Landforms-Topics and Regions	3
GEOG 329	Landforms and Landscapes of North America	3
GEOG/ATM OCN/ ENVIR ST/ GEOSCI 335	Climatic Environments of the Past	3
GEOG/ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts ¹	3
GEOG/BOTANY 338	Environmental Biogeography ¹	3
GEOG 344	The American West ¹	3
GEOG/GEOSCI 420	Glacial and Pleistocene Geology	3
GEOG/GEOSCI 523	Quaternary Vegetation Dynamics	3
GEOG/SOIL SCI 525	Soil Geomorphology	3
GEOG/SOIL SCI 526	Human Transformations of Earth Surface Processes ¹	3
GEOG/GEOSCI 527	The Quaternary Period	3

¹ Course is listed in more than one subarea. Students must choose the subarea in which they want to count the course.

People–Environment Geography

The human use, perception, and modification of environments:

Code	Title	Credits
GEOG/ENVIR ST 139	Living in the Global Environment: An Introduction to People-Environment Geography	3-4
GEOG/ENVIR ST/ SOIL SCI 230	Soil: Ecosystem and Resource	3
GEOG/ENVIR ST 309	People, Land and Food: Comparative Study of Agriculture Systems	3
GEOG/ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts ¹	3
GEOG/ENVIR ST 337	Nature, Power and Society	3
GEOG/BOTANY 338	Environmental Biogeography ¹	3
GEOG/ENVIR ST 339	Environmental Conservation	4
GEOG 340	World Regions in Global Context ¹	3
GEOG 344	The American West ¹	3
GEOG/C&E SOC/ ENVIR ST 434	People, Wildlife and Landscapes	3
GEOG/ENVIR ST 439	US Environmental Policy and Regulation	3-4
GEOG/ENVIR ST/ HISTORY 460	American Environmental History	4
GEOG/ENVIR ST/ HISTORY 469	The Making of the American Landscape ¹	4
GEOG/SOIL SCI 526	Human Transformations of Earth Surface Processes ¹	3
GEOG/ENVIR ST 534	Environmental Governance: Markets, States and Nature	3

GEOG/ENVIR ST 537	Culture and Environment	4
GEOG 538	The Humid Tropics: Ecology, Subsistence, and Development	4
GEOG/ENVIR ST 557	Development and Environment in Southeast Asia ¹	3

¹ Course is listed in more than one subarea. Students must choose the subarea in which they want to count the course.

Human Geography

The location and organization of human settlements and activities:

Code	Title	Credits
GEOG 101	Introduction to Human Geography	4
GEOG 301	Geography of Social Organization	3
GEOG/URB R PL 305	Introduction to the City	3-4
GEOG 318	Introduction to Geopolitics	3
GEOG 340	World Regions in Global Context ¹	3
GEOG 348	Latin America ¹	4
GEOG 349	Europe ¹	3
GEOG 355	Africa, South of the Sahara ¹	3
GEOG 358	Human Geography of Southeast Asia ¹	3
GEOG/ENVIR ST/HISTORY 469	The Making of the American Landscape ¹	4
GEOG 501	Space and Place: A Geography of Experience	3
GEOG 510	Economic Geography	4
GEOG 518	Power, Place, Identity	3
GEOG 566	History of Geographic Thought	3

¹ Course is listed in more than one subarea. Students must choose the subarea in which they want to count the course.

Area Studies and Global Systems

The ways in which regions, places, and landscapes have acquired distinctive characteristics and problems as a result of their locations and resource potentials and of their settlement, appraisal, and use by particular peoples and cultures:

Code	Title	Credits
GEOG/HISTORY/LCA/POLI SCI/SOC 244	Introduction to Southeast Asia: Vietnam to the Philippines	4
GEOG/HISTORY/LCA/POLI SCI/SOC 252	The Civilizations of India-Modern Period	4
GEOG/HISTORY/POLI SCI/SLAVIC 253	Russia: An Interdisciplinary Survey	4
GEOG/HISTORY/POLI SCI/SLAVIC 254	Eastern Europe: An Interdisciplinary Survey	4
GEOG/AFROAMER/ANTHRO/C&E SOC/HISTORY/LACIS/POLI SCI/SOC/SPANISH 260	Latin America: An Introduction	3-4

GEOG/AFRICAN/AFROAMER/ANTHRO/HISTORY/POLI SCI/SOC 277	Africa: An Introductory Survey	4
GEOG 340	World Regions in Global Context ¹	3
GEOG 342	Geography of Wisconsin	3
GEOG 344	The American West ¹	3
GEOG 348	Latin America ¹	4
GEOG 349	Europe ¹	3
GEOG 355	Africa, South of the Sahara ¹	3
GEOG 358	Human Geography of Southeast Asia ¹	3
GEOG/ENVIR ST 557	Development and Environment in Southeast Asia ¹	3

¹ Course is listed in more than one subarea. Students must choose the subarea in which they want to count the course.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all GEOG and major courses

2.000 GPA on 15 upper-level major credits, taken in residence²

15 credits in GEOG, taken on the UW–Madison campus

² GEOG courses designated Intermediate/Advanced are upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Cartography and Geographic Information Systems Major in consultation with the Cartography and Geographic Information Systems undergraduate advisor.

HONORS IN THE CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Cartography and Geographic Information Systems students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all GEOG courses, and all courses accepted in the major
- Complete a two-semester Senior Honors Thesis in GEOG 681 Senior Honors Thesis and GEOG 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. ADVISING AND CAREERS

ADVISING

Students with questions about the major, courses, and careers are encouraged to contact the geography undergraduate advisor, Joel Gruley, at jgruley@wisc.edu.

CAREERS

Cartography and GIS, and geography more broadly, are remarkably interdisciplinary fields that span the natural sciences, social sciences, and humanities. The types of careers that cartography and GIS can prepare students for thus reflect this diversity. Geographic information scientists work across the public, private, and nonprofit sectors, and commonly work in the following fields, where they acquire, manage, analyze, visualize, and represent geospatial data: environmental policy, conservation, and management; digital cartography; urban and transportation planning; economic and community development; geospatial intelligence; food security; historic preservation; environmental hazards management; demography and human health; human migration and displacement; journalism; international conflict resolution; tourism.

PEOPLE

Professors Burt, Cadwallader, Cronon, Downey, Kaiser, Knox, Mason, Naughton, Olds, Ostergren, Turner, Williams, Zhu

Associate Professors Alatout, Dennis

Assistant Professors Baird, Gibbs, Marin-Spiotta, Ozdogan, Robertson, Roth, Schneider, Woodward, Young

GEOGRAPHY, B.A.

Geography studies the interaction between people and their environments, including the ways in which people, environments, and their interactions vary from place to place across Earth. Because it is concerned with the character of people and their cultures on the one hand, and with the character of Earth's surface and its resources on the other, it is both a social and a natural science. Being broad and integrative, Geography provides an appropriate foundation for a liberal education. It also provides a base for employment in public or private agencies, both domestic and international, concerned with environmental

management, locational analysis, or planning (urban, regional, land use), among other fields.

HOW TO GET IN

Exploring the field of geography at UW–Madison is easy. Interested students are strongly encouraged to take introductory courses in the field. The Department of Geography offers four intro courses, each of which surveys one of the four major subareas that comprise the discipline: (1) human geography; (2) people–environment geography; (3) physical geography; (4) and cartography and geographic information science. The four intro classes are:

- GEOG 101 Introduction to Human Geography;
- GEOG/ENVIR ST 120 Introduction to the Earth System;
- GEOG/ENVIR ST 139 Living in the Global Environment: An Introduction to People-Environment Geography; and
- GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology (online).

Students who intend to declare their major in geography must schedule an appointment with the geography undergraduate advisor, Joel Gruley, at jgruley@wisc.edu.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. * The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR 30 CREDITS IN GEOG

To include:

Code	Title	Credits
Physical Geography—one course:		3
GEOG/ ENVIR ST 120	Introduction to the Earth System	
GEOG/ATM OCN/ ENVIR ST 121	Atmospheric Environment and Society	
GEOG/ ENVIR ST 127	Physical Systems of the Environment	
GEOG/ GEOSCI 320	Geomorphology	
GEOG 321	Climatology	
GEOG/ ENVIR ST 325	Analysis of the Physical Environment	
GEOG/ GEOSCI 326	Landforms-Topics and Regions	
GEOG 329	Landforms and Landscapes of North America	
GEOG/ATM OCN/ ENVIR ST/ GEOSCI 335	Climatic Environments of the Past	
GEOG/ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts	
GEOG/ BOTANY 338	Environmental Biogeography	
GEOG 344	The American West	
GEOG/ GEOSCI 420	Glacial and Pleistocene Geology	
GEOG/ GEOSCI 523	Quaternary Vegetation Dynamics	
GEOG/ GEOSCI 524	Advanced Landform Geography	
GEOG/ SOIL SCI 525	Soil Geomorphology	
GEOG/ SOIL SCI 526	Human Transformations of Earth Surface Processes	
GEOG/ GEOSCI 527	The Quaternary Period	
GEOG/ATM OCN/ ENVIR ST 528	Past Climates and Climatic Change	
People–Environment Geography—one course:		3
GEOG/ ENVIR ST 139	Living in the Global Environment: An Introduction to People-Environment Geography	
GEOG/ENVIR ST/ SOIL SCI 230	Soil: Ecosystem and Resource	
GEOG/ ENVIR ST 309	People, Land and Food: Comparative Study of Agriculture Systems	
GEOG 319	Environmental Evaluation and Adaptation	
GEOG/ATM OCN/ENVIR ST 332		
GEOG/ ENVIR ST 337	Nature, Power and Society	
GEOG/BOTANY 338		
GEOG/ ENVIR ST 339	Environmental Conservation	

GEOG 340	World Regions in Global Context	GEOG/HISTORY/ POLI SCI/ SLAVIC 253	Russia: An Interdisciplinary Survey	
GEOG 344		GEOG/ AFROAMER/ ANTHRO/ C&E SOC/ HISTORY/LACIS/ POLI SCI/SOC/ SPANISH 260	Latin America: An Introduction	
GEOG 359	Australia: Environment and Society	GEOG/AFRICAN/ AFROAMER/ ANTHRO/ HISTORY/ POLI SCI/ SOC 277	Africa: An Introductory Survey	
GEOG/C&E SOC/ ENVIR ST 434	People, Wildlife and Landscapes	GEOG 342	Geography of Wisconsin	
GEOG/ENVIR ST 439		GEOG 348	Latin America	
GEOG/ENVIR ST/ HISTORY 460	American Environmental History	GEOG 355	Africa, South of the Sahara	
GEOG/ENVIR ST/ HISTORY 469	The Making of the American Landscape	GEOG/ ENVIR ST 557	Development and Environment in Southeast Asia	
GEOG 508	Landscape and Settlement in the North American Past	Skills, Techniques, and Methodology		
GEOG/SOIL SCI 526		GEOG 360	Quantitative Methods in Geographical Analysis (offered only in spring)	4
GEOG/ ENVIR ST 534	Environmental Governance: Markets, States and Nature	GEOG 565	Colloquium for Undergraduate Majors (offered only in fall)	3
GEOG/ ENVIR ST 537	Culture and Environment	<i>and one course from:</i>		
GEOG 538	The Humid Tropics: Ecology, Subsistence, and Development	GEOG 170	Our Digital Globe: An Overview of GIScience and its Technology	3
GEOG/ENVIR ST 557		GEOG 370	Introduction to Cartography	
Human Geography—one course:		GEOG/CIV ENGR/ ENVIR ST 377	An Introduction to Geographic Information Systems	
GEOG 101	Introduction to Human Geography	Electives		
GEOG 301	Geography of Social Organization	<hr/>		
GEOG 302	Economic Geography: Locational Behavior	Total Credits		30
GEOG/ URB R PL 305	Introduction to the City	CONCENTRATION		
GEOG 318	Introduction to Geopolitics	Complete three courses, of which one must be advanced level, in one concentration area:		
GEOG 340		Physical Geography		
GEOG 348		The locational arrangements of earth phenomena and their interaction as physical systems:		
GEOG 349	Europe	Code	Title	Credits
GEOG 353	Russia and the NIS-Topical Analysis	GEOG/ ENVIR ST 120	Introduction to the Earth System	
GEOG 355		GEOG/ ENVIR ST 127	Physical Systems of the Environment	
GEOG 358	Human Geography of Southeast Asia	GEOG/ GEOSCI 320	Geomorphology	
GEOG/ENVIR ST/HISTORY 469		GEOG/ ATM OCN 323	Science of Climate Change	
GEOG 501	Space and Place: A Geography of Experience	GEOG/ ENVIR ST 325	Analysis of the Physical Environment	
GEOG/ URB R PL 503	Researching the City: Qualitative Strategies	GEOG/ GEOSCI 326	Landforms-Topics and Regions	
GEOG/ URB R PL 505	Urban Spatial Patterns and Theories	<hr/>		
GEOG/ URB R PL 506	Historical Geography of European Urbanization	Area Studies & Global Systems—one course:		
GEOG 510		3		
GEOG 518	Power, Place, Identity	GEOG/HISTORY/ LCA/POLI SCI/ SOC 244	Introduction to Southeast Asia: Vietnam to the Philippines	
Area Studies & Global Systems—one course:		GEOG/HISTORY/ LCA/POLI SCI/ SOC 252	The Civilizations of India-Modern Period

RESIDENCE & QUALITY OF WORK

2.000 GPA in GEOG and major courses

2.000 GPA on 15 upper-level credits, taken in residence²

15 credits in GEOG, taken on the UW–Madison campus

² GEOG courses designated Intermediate/Advanced are upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Geography Major in consultation with the Geography undergraduate advisor.

HONORS IN THE GEOGRAPHY MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Geography students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all GEOG courses, and all courses accepted in the major
- Complete 21 intermediate- or advanced-level GEOG courses, to include:
 - GEOG 766 Geographical Inquiry and Analysis: Techniques prior to enrollment in the Senior Honors Thesis; Honors students are not required to take GEOG 565 Colloquium for Undergraduate Majors)
 - Two advanced-level courses in the student's area of concentration, and

- A two-semester Senior Honors Thesis in GEOG 681 Senior Honors Thesis and GEOG 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. A broad spectrum of geographical knowledge and skills, as well as a degree of expertise in a specific sub-field of the discipline (Human, People-Environment, Physical, Cart/GIS);
2. Skills in developing and implementing research plans;
3. Critical reasoning and analytical skills;
4. Communication skills—both written and oral.

ADVISING AND CAREERS

ADVISING

Students with questions about the major, courses, and careers are encouraged to contact the geography undergraduate advisor, Joel Gruley, at jgruley@wisc.edu.

CAREERS

Geography is a remarkably interdisciplinary field that spans the natural sciences, social sciences, and humanities. The types of careers that Geography can prepare students for thus reflect this diversity. Geographers work across the public, private, and nonprofit sectors, and typically work in the following fields: environmental policy, conservation, and management; geospatial analysis; urban and transportation planning; economic and community development; food security; historic preservation; environmental hazards management; demography and health; refugees and immigration; digital cartography; journalism; international conflict resolution; tourism.

PEOPLE

Professors Burt, Cadwallader, Cronon, Downey, Kaiser, Knox, Mason, Naughton, Olds, Ostergren, Turner, Williams, Zhu

Associate Professors Alatout, Dennis

Assistant Professors Baird, Gibbs, Marin-Spiotta, Ozdogan, Robertson, Roth, Schneider, Woodward, Young

GEOGRAPHY, B.S.

Geography studies the interaction between people and their environments, including the ways in which people, environments, and their interactions vary from place to place across Earth. Because it is concerned with the character of people and their cultures on the one hand, and with the character of Earth's surface and its resources on the other, it is both a social and a natural science. Being broad and integrative, Geography provides an appropriate foundation for a liberal education. It also provides a base for employment in public or private agencies, both domestic and international, concerned with environmental management, locational analysis, or planning (urban, regional, land use), among other fields.

HOW TO GET IN

Exploring the field of geography at UW–Madison is easy. Interested students are strongly encouraged to take introductory courses in the field. The Department of Geography offers four intro courses, each of which surveys one of the four major subareas that comprise the discipline: (1) human geography; (2) people–environment geography; (3) physical geography; (4) and cartography and geographic information science. The four intro classes are:

- GEOG 101 Introduction to Human Geography;
- GEOG/ENVIR ST 120 Introduction to the Earth System;
- GEOG/ENVIR ST 139 Living in the Global Environment: An Introduction to People-Environment Geography; and
- GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology (online).

Students who intend to declare their major in geography must schedule an appointment with the geography undergraduate advisor, Joel Gruley, at jgruley@wisc.edu.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as

needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR 30 CREDITS IN GEOG

To include:

Code	Title	Credits
Physical Geography—one course:		3
GEOG/ ENVIR ST 120	Introduction to the Earth System	
GEOG/ATM OCN/ ENVIR ST 121	Atmospheric Environment and Society	
GEOG/ ENVIR ST 127	Physical Systems of the Environment

GEOG 510	Economic Geography	
GEOG 518	Power, Place, Identity	
GEOG 566	History of Geographic Thought	

RESIDENCE & QUALITY OF WORK

2.000 GPA in GEOG and major courses

2.000 GPA on 15 upper-level credits, taken in residence²

15 credits in GEOG, taken on the UW–Madison campus

² GEOG courses designated Intermediate/Advanced are upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Geography Major in consultation with the Geography undergraduate advisor.

HONORS IN THE GEOGRAPHY MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Geography students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all GEOG courses, and all courses accepted in the major

- Complete 21 intermediate- or advanced-level GEOG courses, to include:
 - GEOG 766 Geographical Inquiry and Analysis: Techniques prior to enrollment in the Senior Honors Thesis; Honors students are not required to take GEOG 565 Colloquium for Undergraduate Majors)
 - Two advanced-level courses in the student's area of concentration, and
 - A two-semester Senior Honors Thesis in GEOG 681 Senior Honors Thesis and GEOG 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. A broad spectrum of geographical knowledge and skills, as well as a degree of expertise in a specific sub-field of the discipline (Human, People-Environment, Physical, Cart/GIS);
2. Skills in developing and implementing research plans;
3. Critical reasoning and analytical skills;
4. Communication skills—both written and oral.

ADVISING AND CAREERS

ADVISING

Students with questions about the major, courses, and careers are encouraged to contact the geography undergraduate advisor, Joel Gruley, at jgruley@wisc.edu.

CAREERS

Geography is a remarkably interdisciplinary field that spans the natural sciences, social sciences, and humanities. The types of careers that Geography can prepare students for thus reflect this diversity. Geographers work across the public, private, and nonprofit sectors, and typically work in the following fields: environmental policy, conservation, and management; geospatial analysis; urban and transportation planning; economic and community development; food security; historic

preservation; environmental hazards management; demography and health; refugees and immigration; digital cartography; journalism; international conflict resolution; tourism.

Associate Professors Alatout, Dennis

Assistant Professors Baird, Gibbs, Marin-Spiotta, Ozdogan, Robertson, Roth, Schneider, Woodward, Young

GEOSCIENCE

The complementary fields of geology and geophysics are combined in one interdisciplinary department, with graduate degrees offered in both disciplines. The undergraduate degree is in geology and geophysics.

Geology offers unusual opportunities to interweave knowledge from many disciplines in the study of natural Earth phenomena. Those who enjoy the challenge of integrating different kinds of information into a unified interpretation will find geology particularly satisfying. Most geology students enjoy travel and have a strong interest in the natural environment as it is today and as it has developed through the past 4.5 billion years. A natural capacity for historical and sequential thought, inductive reasoning, and three-dimensional perception is helpful, and these skills will be developed. Geological investigations are becoming increasingly quantitative and experimental, and thus require some computer experience and a strong foundation in chemistry, physics, and mathematics.

The student of geophysics is interested in developing a quantitative understanding of the structure and dynamics of the Earth's interior from the shallow crust to deep core. Courses in geophysics apply basic physical laws and processes, such as those governing gravity, magnetism, heat flow, and seismic wave propagation, to the study of the Earth. An undergraduate may choose to concentrate in geophysics, but professional employment in the field often requires an advanced degree. Most students who pursue advanced study and careers in geophysics major in geology, physics, mathematics, or engineering as undergraduates.

CAREERS

More than half of all professional geologists and geophysicists work in hydrogeology or the petroleum and mining industries. Such jobs involve an unusual breadth of training and personal adaptability, and the M.S. degree is generally required. About one fifth of all geoscientists work in state and federal geological surveys, and in government research activities such as oceanographic programs. These positions largely involve problems in geologic mapping, mineral resources, groundwater, and engineering. Geophysics offers opportunities in earthquake studies, seismic verification of nuclear test bans, and crustal rock characterization techniques for waste disposal and groundwater modeling. Many geology students continue on to obtain a Ph.D. degree and become faculty members at a college or university. A geology and geophysics major is also appropriate for those interested in careers in elementary or secondary education, environmental policy, or

environmental law. Faculty advisors can provide additional information on career opportunities.

PREPARATION FOR GRADUATE STUDY

An advanced degree is normally required for professional activity in geological and geophysical sciences; the student who contemplates such a degree should satisfy both department and graduate school requirements for admission to graduate study.

Minimum requirements for admission to graduate work in geology or geophysics at most universities in the United States, including the University of Wisconsin–Madison, are:

1. A bachelor's degree in geology/geophysics or a related science
2. One year of college chemistry (one year high school plus CHEM 109 Advanced General Chemistry recommended)
3. One year of college physics (PHYSICS 207 General Physics–PHYSICS 208 General Physics recommended)
4. One year of calculus (MATH 221 Calculus and Analytic Geometry 1–MATH 222 Calculus and Analytic Geometry 2 recommended)
5. A summer field-mapping course equivalent to GEOSCI 459 Field Geology (Park City, Utah)

GEOLOGY AND GEOPHYSICS, B.A.

The complementary fields of geology and geophysics are combined in one interdisciplinary department, with graduate degrees offered in both disciplines. The undergraduate degree is in geology and geophysics.

Geology offers unusual opportunities to interweave knowledge from many disciplines in the study of natural Earth phenomena. Those who enjoy the challenge of integrating different kinds of information into a unified interpretation will find geology particularly satisfying. Most geology students enjoy travel and have a strong interest in the natural environment as it is today and as it has developed through the past 4.5 billion years. A natural capacity for historical and sequential thought, inductive reasoning, and three-dimensional perception is helpful, and these skills will be developed. Geological investigations are becoming increasingly quantitative and experimental, and thus require some computer experience and a strong foundation in chemistry, physics, and mathematics.

The student of geophysics is interested in developing a quantitative understanding of the structure and dynamics of the Earth's interior from the shallow crust to deep core. Courses in geophysics apply

basic physical laws and processes, such as those governing gravity, magnetism, heat flow, and seismic wave propagation, to the study of the Earth. An undergraduate may choose to concentrate in geophysics, but professional employment in the field often requires an advanced degree. Most students who pursue advanced study and careers in geophysics major in geology, physics, mathematics, or engineering as undergraduates.

HOW TO GET IN

BACKGROUND REQUIREMENTS

(Exceptions for Geophysics and Engineering Geology Track noted below)

- a. A one-year course sequence in calculus: MATH 221 Calculus and Analytic Geometry 1–MATH 222 Calculus and Analytic Geometry 2 recommended; MATH 211 Calculus–MATH 213 Calculus and Introduction to Differential Equations, or any combination of calculus courses, including transfer credits, that totals at least 8 credits at the intermediate level, is acceptable.
- b. The equivalent of a one-year course sequence in general chemistry: CHEM 109 Advanced General Chemistry recommended; CHEM 103 General Chemistry I–CHEM 104 General Chemistry II, or any combination of general chemistry courses, including transfer credits, that totals at least 8 credits, is acceptable.
- c. An equivalent of a one-year course sequence in general physics that totals at least 8 credits: PHYSICS 207 General Physics–PHYSICS 208 General Physics recommended; PHYSICS 103 General Physics–PHYSICS 104 General Physics, PHYSICS 201 General Physics–PHYSICS 202 General Physics, PHYSICS 247 A Modern Introduction to Physics–PHYSICS 248 A Modern Introduction to Physics, or any combination of general physics courses, including transfer credits, that totals at least 8 credits, is acceptable. Students preparing to specialize in paleontology may, with approval of the Undergraduate Studies Committee, substitute ZOOLOGY/BIOLOGY/BOTANY 151 Introductory Biology–ZOOLOGY/BIOLOGY/BOTANY 152 Introductory Biology or other appropriate courses in biological sciences for the physics requirement.

DECLARING A MAJOR

To declare a major in geology or geophysics, students must have taken one of the following geoscience courses: GEOSCI 202 Introduction to Geologic Structures, GEOSCI 204 Geologic Evolution of the Earth, or GEOSCI/G L E 360 Principles of Mineralogy. Students must meet with an undergraduate advisor and complete a Major Declaration Form.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience	30 credits in residence, overall
Minimum GPAs	30 credits in residence after the 90th credit
	2.000 in all coursework at UW–Madison
	2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR

Prospective majors are strongly encouraged to seek assistance from a faculty advisor in order to choose courses appropriate to their interests and career plans. Advisors can also assist students in choosing a track that is appropriate for their interests and career goals.

Background Requirements

1. The equivalent of a one-year course sequence in calculus that totals at least 8 credits:

MATH 221 Calculus and Analytic Geometry 1–MATH 222 Calculus and Analytic Geometry 2 recommended; MATH 211 Calculus–MATH 213 Calculus and Introduction to Differential Equations, or any combination of calculus courses, including transfer credits, that totals at least 8 credits at the intermediate level, is acceptable.

2. The equivalent of a one-year course sequence in general chemistry that totals at least 8 credits:

CHEM 109 Advanced General Chemistry recommended; CHEM 103 General Chemistry I–CHEM 104 General Chemistry II, or any combination of general chemistry courses, including transfer credits, that totals at least 8 credits, is acceptable.

3. The equivalent of a one-year course sequence in general physics that totals at least 8 credits:

PHYSICS 207 General Physics–PHYSICS 208 General Physics recommended; PHYSICS 103 General Physics–PHYSICS 104 General Physics, PHYSICS 201 General Physics–PHYSICS 202 General Physics, PHYSICS 247 A Modern Introduction to Physics–PHYSICS 248 A Modern Introduction to Physics, or any combination of general physics courses, including transfer credits, that totals at least 8 credits, is acceptable. Students preparing to specialize in paleontology may, with approval of the Undergraduate Studies Committee, substitute ZOOLOGY/BIOLOGY/BOTANY 151 Introductory Biology–ZOOLOGY/BIOLOGY/BOTANY 152 Introductory Biology or other appropriate courses in biological sciences for the physics requirement.

(Exceptions to Background Requirements for the Geophysics and Engineering Geology Track are noted below)

Code	Title	Credits
Core Courses (required for all tracks):		
Select one of the following 100-level courses:		3
GEOSCI 100	General Geology	

GEOSCI/ENVIR ST 106	Environmental Geology	
GEOSCI 202	Introduction to Geologic Structures	4
GEOSCI 204	Geologic Evolution of the Earth	4
GEOSCI/G L E 360	Principles of Mineralogy	3
GEOSCI/G L E 370	Elementary Petrology	3

Tracks

Select one of the following tracks:	17-23
Geology Track	
Geophysics and Engineering Geology Track	
Environmental Geoscience Track	
General Geology Track	

Total Credits 34-40

TRACKS**GEOLOGY TRACK**

Code	Title	Credits
GEOSCI/G L E 350	Introduction to Geophysics: The Dynamic Earth	3
GEOSCI 375	Principles of Geochemistry	3
GEOSCI 430	Sedimentology and Stratigraphy	3
GEOSCI/G L E 455	Structural Geology	4
Select 4 credits of GEOSCI electives numbered 300 and above ¹		4
Total Credits		17

¹ Except GEOSCI 331 Gems: The Science Behind the Sparkle.

GEOPHYSICS AND ENGINEERING GEOLOGY TRACK

HONORS IN THE MAJOR

Students may declare Honors in the Geology and Geophysics Major in consultation with the departmental undergraduate advisor.

HONORS IN THE GEOLOGY AND GEOPHYSICS MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Geology and Geophysics Major students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.400 GPA in all GEOSCI courses, and all courses accepted in the major
- Complete a two-semester Senior Honors Thesis in GEOSCI 681 Senior Honors Thesis and GEOSCI 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS**Requirements Detail**

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

ADVISING AND CAREERS**ADVISING**

CAREERS

More than half of all professional geologists and geophysicists work in hydrogeology or the petroleum and mining industries. Such jobs involve an unusual breadth of training and personal adaptability, and the M.S. degree is generally required. About one fifth of all geoscientists work in state and federal geological surveys, and in government research activities such as oceanographic programs. These positions largely involve problems in geologic mapping, mineral resources, groundwater, and engineering. Geophysics offers opportunities in earthquake studies, seismic verification of nuclear test bans, and crustal rock characterization techniques for waste disposal and groundwater modeling. Many geology students continue on to obtain a Ph.D. degree and become faculty members at a college or university. A geology and geophysics major is also appropriate for those interested in careers in elementary or secondary education, environmental policy, or environmental law. Faculty advisors can provide additional information on career opportunities.

The College of Letters & Science encourages majors to begin working on their career exploration and preparation soon after arriving on campus. Our department partners with the L&S Career Services office to help students leverage the academic skills learned in the major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important that students are career ready at the time of graduation, and we are committed to their success.

CAREER RESOURCES

PEOPLE

Professors Bahr, Brown, Carroll, DeMets, Feigl, Goodwin, Johnson, Kelly, Peters, Roden, Singer, Thurber, Tikoff, Tobin, Valley, Wang, Xu

Associate Professor Meyers

Assistant Professors Cardiff, Marcott, Zoet

GEOLOGY AND GEOPHYSICS, B.S.

The complementary fields of geology and geophysics are combined in one interdisciplinary department, with graduate degrees offered in both disciplines. The undergraduate degree is in geology and geophysics.

Geology offers unusual opportunities to interweave knowledge from many disciplines in the study of natural Earth phenomena. Those who enjoy the challenge of integrating different kinds of information into a unified interpretation will find geology particularly satisfying. Most geology students enjoy travel and have a strong interest in the natural environment as it is today and as it has developed through the past 4.5 billion years. A natural capacity for historical and sequential thought, inductive reasoning, and three-dimensional perception is helpful, and these skills will be developed. Geological investigations are becoming increasingly quantitative and experimental, and thus require some computer experience and a strong foundation in chemistry, physics, and mathematics.

The student of geophysics is interested in developing a quantitative understanding of the structure and dynamics of the Earth's interior from the shallow crust to deep core. Courses in geophysics apply basic physical laws and processes, such as those governing gravity, magnetism, heat flow, and seismic wave propagation, to the study of the Earth. An undergraduate may choose to concentrate in geophysics, but professional employment in the field often requires an advanced degree. Most students who pursue advanced study and careers in geophysics major in geology, physics, mathematics, or engineering as undergraduates.

HOW TO GET IN

BACKGROUND REQUIREMENTS

(Exceptions for Geophysics and Engineering Geology Track noted below)

- A one-year course sequence in calculus: MATH 221 Calculus and Analytic Geometry 1–MATH 222 Calculus and Analytic Geometry 2 recommended; MATH 211 Calculus–MATH 213 Calculus and Introduction to Differential Equations, or any combination of calculus courses, including transfer credits, that totals at least 8 credits at the intermediate level, is acceptable.
- The equivalent of a one-year course sequence in general chemistry: CHEM 109 Advanced General Chemistry recommended; CHEM 103

General Chemistry I–CHEM 104 General Chemistry II, or any combination of general chemistry courses, including transfer credits, that totals at least 8 credits, is acceptable.

- An equivalent of a one-year course sequence in general physics that totals at least 8 credits: PHYSICS 207 General Physics–PHYSICS 208 General Physics recommended; PHYSICS 103 General Physics–PHYSICS 104 General Physics, PHYSICS 201 General Physics–PHYSICS 202 General Physics, PHYSICS 247 A Modern Introduction to Physics–PHYSICS 248 A Modern Introduction to Physics, or any combination of general physics courses, including transfer credits, that totals at least 8 credits, is acceptable. Students preparing to specialize in paleontology may, with approval of the Undergraduate Studies Committee, substitute ZOOLOGY/BIOLOGY/BOTANY 151 Introductory Biology–ZOOLOGY/BIOLOGY/BOTANY 152 Introductory Biology or other appropriate courses in biological sciences for the physics requirement.

DECLARING A MAJOR

To declare a major in geology or geophysics, students must have taken one of the following geoscience courses: GEOSCI 202 Introduction to Geologic Structures, GEOSCI 204 Geologic Evolution of the Earth, or GEOSCI/G L E 360 Principles of Mineralogy. Students must meet with an undergraduate advisor and complete a Major Declaration Form.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth–Humanities/Literature/Arts: 6 credits • Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth–Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW-Madison

2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

Prospective majors are strongly encouraged to seek assistance from a faculty advisor in order to choose courses appropriate to their interests and career plans. Advisors can also assist students in choosing a track that is appropriate for their interests and career goals.

Background Requirements

1. The equivalent of a one-year course sequence in calculus that totals at least 8 credits:

MATH 221 Calculus and Analytic Geometry 1–MATH 222 Calculus and Analytic Geometry 2 recommended; MATH 211 Calculus–MATH 213 Calculus and Introduction to Differential Equations, or any combination of calculus courses, including transfer credits, that totals at least 8 credits at the intermediate level, is acceptable.

2. The equivalent of a one-year course sequence in general chemistry that totals at least 8 credits:

CHEM 109 Advanced General Chemistry recommended; CHEM 103 General Chemistry I–CHEM 104 General Chemistry II, or any combination of general chemistry courses, including transfer credits, that totals at least 8 credits, is acceptable.

3. The equivalent of a one-year course sequence in general physics that totals at least 8 credits:

PHYSICS 207 General Physics–PHYSICS 208 General Physics recommended; PHYSICS 103 General Physics–PHYSICS 104 General Physics, PHYSICS 201 General Physics–PHYSICS 202 General Physics, PHYSICS 247 A Modern Introduction to Physics–PHYSICS 248 A Modern Introduction to Physics, or any combination of general physics courses, including transfer credits, that totals at least 8 credits, is acceptable. Students preparing to specialize in paleontology may, with approval of the Undergraduate Studies Committee, substitute ZOOLOGY/BIOLOGY/BOTANY 151 Introductory Biology–ZOOLOGY/BIOLOGY/BOTANY 152 Introductory Biology or other appropriate courses in biological sciences for the physics requirement.

Associate Professor Meyers

Assistant Professors Cardiff, Marcott, Zoet

GERMAN, NORDIC, AND SLAVIC

The Department of German, Nordic, and Slavic is home to undergraduate and graduate programs in German (p. 697), Scandinavian Studies (p. 697), and Slavic Studies (p. 697). The department offers courses in the linguistics and the literatures, cultures, and histories of these three areas, both in the target languages and in translation. The department provides instruction in more than a dozen languages, including Czech,

Danish, Dutch, Finnish, German, Icelandic, Kazakh, Norwegian, Old Norse, Polish, Russian, Sami, Serbo-Croatian, Swedish, Turkish, and Yiddish.

GERMAN PROGRAM

The German program affords students the opportunity to begin or to continue their study of German and/or Dutch.

Knowledge of German provides access to a culture that for more than a millennium has been central to the history, economy, arts, and sciences not just of Europe but of Western civilization as a whole. In the contemporary world, German-speaking countries have Europe's strongest economies and are playing an increasingly important role in world affairs. Because the percentage of Wisconsinites of German ethnic background surpasses that of every other state in the union, many of our students are motivated to study German by their desire to explore their own family's heritage. The UW–Madison has been a leader in the field of German studies for more than a century. The university's libraries are remarkable for the depth and breadth of their German-language holdings.

Knowledge of Dutch provides access to a culture that has been an important force in world history since the Middle Ages. The language of more than 20 million inhabitants of the Netherlands and Flanders (Dutch-speaking Belgium), Dutch is also spoken in Surinam and the Netherlands Antilles. It is also an important second language in Indonesia. As major economic powers, Belgium and the Netherlands play a leading role in shaping the European Union. World-class research in the sciences and humanities is conducted at Dutch and Belgian universities, and both countries can boast of a cultural life in which art, music, and theater are all flourishing.

OPPORTUNITIES FOR GERMAN AND DUTCH STUDENTS

In addition to choosing from courses in culture, literature, linguistics, and German-American studies, German students can practice the language in various settings on campus, including the Stockwerk Deutsch (<http://gns.wisc.edu/stockwerk-deutsch>) Language House, which is located in Adams Hall. Other opportunities include the German Club, Kaffeestunde, and Stammtisch. There is also a Dutch Table for students of Dutch. Many German and Dutch students participate on semester- or year-long study abroad programs in Germany, Austria, and the Netherlands administered through International Academic Programs (<http://www.studyabroad.wisc.edu>), the School of Business, the College of Engineering, and the College of Agriculture and Life Sciences. The International Internship Program (<http://internships.international.wisc.edu>) also connects UW–Madison students to a wide range of internships in German- and Dutch-speaking Europe.

SCANDINAVIAN STUDIES (NORDIC)

The Scandinavian Studies program provides the opportunity to learn a Scandinavian language or Finnish (modern Icelandic only occasionally). The literature, folklore, and culture of the Nordic countries are taught both in the original languages and in English translation. Partly in cooperation with other departments, courses in Scandinavian area studies are offered (history, social institutions, geography, art, archaeology). Students who major in the field may continue graduate studies toward an M.A. in Scandinavian philology, literature, or area studies, and toward a Ph.D. in Scandinavian literature, philology, or folklore.

The program strongly encourages a junior-year abroad in a Nordic country; several exchange programs are available. Students who transfer to this university after a year abroad should contact the undergraduate advisor as early as possible to schedule a placement test.

SLAVIC STUDIES

Courses in Russian and Polish are designed to meet the needs of students who begin to study the language in college as well as those who began to study the language in high school. One unit (year) of high school coursework is roughly equivalent to one semester of college work; all incoming students, however, who want to continue their study of Russian or Polish are assigned to courses on the basis of placement tests. These tests may admit a student to a more advanced course, but give no credit toward graduation. Students should speak with their instructor regarding retroactive credits during the first week of class.

RUSSIAN FLAGSHIP PROGRAM

The Russian Flagship Program offers students of any major the opportunity to achieve a professional level of competence in Russian. Students apply to the program directly. Residential and study abroad requirements, course options, and scholarship information are posted at Russian Flagship (<http://www.russianflagship.wisc.edu>). To obtain more information about the Russian Flagship Program, students should make an appointment with a Russian Flagship advisor (<https://russianflagship.wisc.edu/content/contact>).

EAST CENTRAL EUROPEAN LANGUAGES, LITERATURES, AND CULTURES, CERTIFICATE

Are you of Czech, Polish, or SerboCroatian heritage—or do you just have a healthy fascination with East Central Europe? Can you imagine using any of these three languages in your future career or research? Since language and culture go hand in hand, the certificate in East Central European Languages, Literatures, and Cultures (ECELLC) combines language training (intermediate to advanced proficiency) with a wide variety of courses on the life of the region. Topics include vampires, science-fiction writing, Holocaust memory, and the pre-1989 culture of dissent as well as surveys of literature and culture by historical period. UW–Madison is one of only a handful of universities in North America where these languages are offered. UW also offers study-abroad opportunities in the Czech Republic, Poland, and Croatia. Courses taken abroad may count toward fulfillment of certificate requirements. Take advantage of the opportunity to learn these languages and to learn about the literatures and cultures of the countries where they are spoken.

HOW TO GET IN

Students can declare the certificate in consultation with the faculty advisor for the certificate. Additional information can be found under the Advising and Careers tab for this program or in the Department of German, Nordic, and Slavic Studies (<http://gns.wisc.edu/undergraduate>).

REQUIREMENTS

In order to receive the certificate in East Central European languages, literatures, and cultures, students are required to complete a minimum of 15 credits total.

Code	Title	Credits
Part 1		
Select one of the following options:		6-8
SLAVIC 217 & SLAVIC 218	Third Semester Czech and Fourth Semester Czech	
SLAVIC 207 & SLAVIC 208	Third Semester Polish and Fourth Semester Polish ¹	
SLAVIC 251 & SLAVIC 252	Third Semester Serbo-Croatian and Fourth Semester Serbo- Croatian	
Part 2		
Select three courses from the following:		9
LITTRANS 207	Slavic Science Fiction through Literature and Film	
LITTRANS 208	The Writings of Vaclav Havel: Critique of Modern Society	
LITTRANS 215	Polish Literature in Translation: 14th to the Mid-19th Century	
LITTRANS 241	Literatures and Cultures of Eastern Europe	
LITTRANS 247	Topics in Slavic Literatures in Translation	
LITTRANS 329	The Vampire in Literature and Film	
LITTRANS 454	History of Serbian and Croatian Literature	
LITTRANS 471	Polish Literature (in Translation), Middle Ages to 1863	
LITTRANS 473	Polish Literature (in Translation) since 1863	
SLAVIC 242	Literatures and Cultures of Eastern Europe	
SLAVIC 245	Topics in Slavic Literatures	
SLAVIC/GEOG/ HISTORY/ POLI SCI 254	Eastern Europe: An Interdisciplinary Survey	
SLAVIC 302	Zarys historii literatury polskiej	
SLAVIC 307	Study Abroad in Poland	
SLAVIC 308	Polish Culture and Area Studies on Study Abroad	
SLAVIC/ FOLKLORE 444	Slavic and East European Folklore	
SLAVIC 449	Istorija srpske i hrvatske literature	
SLAVIC 454	Moderna srpska i hrvatska literatura	
SLAVIC 470	Historia literatury polskiej do roku 1863	
SLAVIC 472	Historia literatury polskiej po roku 1863	
Total Credits		15-17

¹ Students can satisfy this requirement by completing any two courses in Polish language beyond the second semester, including: SLAVIC 207 Third Semester Polish, SLAVIC 208 Fourth Semester Polish, SLAVIC 277 Third Year Polish I, SLAVIC 278 Third Year Polish II, SLAVIC 331 Fourth Year Polish I, and SLAVIC 332 Fourth Year Polish II.

RESIDENCE AND QUALITY OF WORK

At least 8 credits must be earned in residence.

Students must earn a cumulative 2.000 GPA on required certificate coursework.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Students will minimally acquire intermediate proficiency in an East Central European Language (Czech, Polish, or SerboCroatian).
2. Students will develop and apply writing skills and oral communications skills appropriate to Liberal Arts education in the context of Slavic studies to the literatures and cultures of the region.
3. Students will develop and apply critical-thinking skills inherent in the Liberal Arts tradition to the literature and culture of the region.
4. Students will be able to analyze and interpret cultural products of the region (i.e. works of literature, films, etc.) in themselves and in the context of specific historical and cultural conditions.

ADVISING AND CAREERS

The faculty advisor for the certificate in East Central European languages, Literatures, and cultures is David S. Danaher (dsdanaher@wisc.edu).

Advisors for the three languages represented by the certificate are:

- David Danaher (dsdanaher@wisc.edu) for Czech
- Halina Filipowicz (hfilipow@wisc.edu) or Ewa Miernowska (miernows@wisc.edu) for Polish
- Tomislav Longinovic (tlongino@wisc.edu) for Serbo-Croatian

For other undergraduate concerns, please contact our undergraduate coordinator for the Department of German, Nordic, and Slavic:

GERMAN, B.A.

The German program affords students the opportunity to begin or to continue their study of German and/or Dutch.

Knowledge of German provides access to a culture that for more than a millennium has been central to the history, economy, arts, and sciences not just of Europe but of Western civilization as a whole. In the contemporary world, German-speaking countries have Europe's strongest economies and are playing an increasingly important role in world affairs. Because the percentage of Wisconsinites of German ethnic background surpasses that of every other state in the union, many of our students are motivated to study German by their desire to explore their own family's heritage. The UW–Madison has been a leader in the field of German studies for more than a century. The university's libraries are remarkable for the depth and breadth of their German-language holdings.

Knowledge of Dutch provides access to a culture that has been an important force in world history since the Middle Ages. The language of more than 20 million inhabitants of the Netherlands and Flanders (Dutch-speaking Belgium), Dutch is also spoken in Surinam and the Netherlands Antilles. It is also an important second language in Indonesia. As major economic powers, Belgium and the Netherlands play a leading role in shaping the European Union. World-class research in the sciences and humanities is conducted at Dutch and Belgian universities, and both countries can boast of a cultural life in which art, music, and theater are all flourishing.

STUDY ABROAD

The German program works closely with International Academic Programs (<http://www.studyabroad.wisc.edu>) to provide a range of opportunities for study in Germany and the Netherlands, for majors and nonmajors alike. The program also cooperates with the School of Business, which maintains study abroad programs in Germany and Austria open to all qualified undergraduates, not just business majors. Finally, the College of Engineering and the College of Agriculture and Life Sciences offer study abroad programs in Germany for qualified students in these colleges.

OTHER OPPORTUNITIES FOR GERMAN STUDENTS

UW–Madison students interested in international internships should visit the website of the International Internship Program (<http://internships.international.wisc.edu>).

The German-language immersion dormitory, Stockwerk Deutsch (<http://gns.wisc.edu/stockwerk-deutsch>), is located in Richardson House in Adams Hall, one of the Lakeshore dorms. Undergraduate students live and speak German together with a resident native speaker of German. Contact the German program for applications and details.

Other regular student activities include film screenings and lectures as well as informal, conversation-oriented Kaffeestunde, Stammtisch, Dutch Table, and the German Club. For additional information, contact the German program.

OFFERINGS IN DUTCH STUDIES

Course offerings in Dutch include five semesters of language instruction as well as courses in the literature and culture of the Low Countries. Courses in Dutch language satisfy the L&S foreign language requirement, while courses in Dutch literature and culture carry literature and humanities credits, respectively. Dutch literature is also offered under Literature in Translation.

A major in Dutch studies is not yet established at UW–Madison, but interested students are encouraged to pursue an individual major in the field. In addition to the study of language, literature, and culture, this could entail coursework in art history, geography, history, sociology, and so on. Courses taken in the study abroad program in Utrecht can also be applied to an individual major in Dutch studies.

HOW TO GET IN

DECLARING THE MAJOR IN GERMAN

A student may declare the major in German at any time by consulting with the German program's undergraduate advisor.

PREREQUISITES FOR THE MAJOR IN GERMAN

A total of 9 credits of language coursework at the third-year (post-204, "2xx") level is required for the German major.

Select one of the following options:

Code	Title	Credits
Option 1:		
GERMAN 249	Intermediate German - Speaking and Listening	3
GERMAN 258	Intermediate German-Reading ¹	3
GERMAN 262	Intermediate German-Writing ¹	3

Option 2:

GERMAN 249	Intermediate German - Speaking and Listening	3
GERMAN 274	Introduction to German Literature ¹	6
or GERMAN 284	Honors Introduction to German Literature	
Total Credits		9

¹ Students may not receive credit for both GERMAN 258 or GERMAN 262 and GERMAN 274 or GERMAN 284.

Third-year German language courses (GERMAN 249, GERMAN 258, GERMAN 262, GERMAN 274, GERMAN 284) are not sequenced; they may be taken in any order and/or simultaneously. Note that GERMAN 274 and GERMAN 284, which are 6-credit courses, count as the equivalent of GERMAN 258 Intermediate German-Reading and GERMAN 262. If a student takes GERMAN 274 or GERMAN 284, only GERMAN 249 may be taken for the remaining 3 credits of prerequisite coursework.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree

requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW-Madison

2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR IN GERMAN

SUMMARY OF REQUIREMENTS

Code	Title	Credits
Select a minimum of 27 advanced-level credits in German or cognate courses (maximum of 9), to include the following:		

Code	Title	Credits
GERMAN 337	Advanced Composition & Conversation	3
GERMAN 676	Advanced Seminar in German Studies (GERMAN 676 and GERMAN 677 must be taken on the Madison campus.)	3

or GERMAN 677 Seminar in German Culture Studies

Twenty-one (21) additional advanced-level German credits are required, including a maximum of 9 credits from cognate courses. A minimum of 6 advanced-level German credits, to include the capstone seminar (GERMAN 676 or GERMAN 677), must be taken on the Madison campus.	21
--	----

Total Credits	27
---------------	----

Residence and Quality of Work

2.000 GPA in all GERMAN courses and courses counting toward the major

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in GERMAN, taken on campus

¹ Any GERMAN course numbered 300 or higher will count toward this requirement with the *exception* of these Dutch and graduate-level courses: GERMAN 311, GERMAN 312, GERMAN 313, GERMAN 314, GERMAN 325, GERMAN 335, GERMAN 391, GERMAN 392, GERMAN 401, GERMAN 402, GERMAN 403, and GERMAN 404.

Cognate Courses

Up to 9 of the 27 advanced-level credits required for the German major may come from cognate courses. These are courses with German-related subject matter that are taught in English either in the German program or in other departments, such as Anthropology, Art History, Business, Communication Arts, Folklore, Geography, History, Jewish Studies, Medieval Studies, Music, Philosophy, Political Science, Sociology, Theatre and Drama, and Urban and Regional Planning. Cognate courses taken in the German program may be at the elementary, advanced, or intermediate levels; those taken in other departments must be at the advanced level (numbered 300 or higher) only. Any questions about which courses may be counted as cognate courses may be directed to the undergraduate advisor.

Study Abroad Coursework

Courses taken on a UW-Madison sponsored study abroad program count as "in residence." Advanced-level courses for which there is no direct UW-Madison equivalent will appear on a student's transcript as GERMAN 367 Study Abroad in German Literature, GERMAN 368 Study Abroad in German Culture, or GERMAN 369 Study Abroad in German Linguistics.

On Campus Requirements

A minimum of 6 credits of advanced-level German coursework must be taken on the Madison campus (i.e., not on a study abroad program). The capstone seminar, GERMAN 676 Advanced Seminar in German Studies or GERMAN 677 Seminar in German Culture Studies, must be taken on the Madison campus.

Senior Thesis

Any student who wishes to write a senior thesis may do so under the direction of a professor. Planning with the student's major advisor or the directing professor should begin in the student's junior year.

LEVEL AND CLASSIFICATION OF GERMAN COURSES WITH REGARD TO L&S DEGREE REQUIREMENTS

German courses at the 100 level are regarded by the department as elementary, courses at the 200 level as intermediate, and courses at the 300 level or above as advanced.

Exceptions are:

- the following are regarded as elementary (E)

Code	Title	Credits
GERMAN 236	Bascom Course	3
GERMAN 245	Topics in Dutch Life and Culture	3
GERMAN 266	Topics in German and/or Yiddish Culture	3
GERMAN/JEWISH/ LITTRANS 269	Yiddish Literature and Culture in Europe	3
GERMAN 272	Nazi Culture	3
GERMAN 278	Topics in German Culture	3

- the following are regarded as intermediate/advanced (D)

Code	Title	Credits
GERMAN 235	Dutch Conversation and Composition	3
GERMAN/ JEWISH 267	Yiddish Song and the Jewish Experience	3-4
GERMAN 271	The German Immigration Experience	3
GERMAN/ LITTRANS 276	Special Topics in German and World Literature/s	3
GERMAN/JEWISH/ LITTRANS 279	Yiddish Literature and Culture in America	3
GERMAN 325	Topics in Dutch Literature	3
GERMAN 335	Dutch Conversation and Composition	3

All courses in German literature numbered 258 or higher may be applied toward the L&S humanities/literature requirement. GERMAN 676 Advanced Seminar in German Studies, German linguistics courses numbered 351 or above, and the German or Dutch culture courses numbered 245 or above may be applied toward the L&S humanities breadth requirement. GERMAN 391, GERMAN 392, GERMAN 401, GERMAN 402, GERMAN 403, and GERMAN 404 are for graduate students and not applicable to the German major or L&S degree requirements. GERMAN 311, GERMAN 312, GERMAN 313, GERMAN 314, and GERMAN 325 are Dutch-language courses for graduate students and not applicable to the German major or L&S degree requirements.

PLACEMENT

GERMAN 101 First Semester German and GERMAN 111 First Semester Dutch are beginning courses and require no previous training.

The following are open to freshmen with sufficient preparation in German or Dutch:

Code	Title	Credits
GERMAN 102	Second Semester German	4
GERMAN 112	Second Semester Dutch	4
GERMAN 203	Third Semester German	4
GERMAN 204	Fourth Semester German	4
GERMAN 213	Third Semester Dutch	4
GERMAN 214	Fourth Semester Dutch	4
GERMAN 249	Intermediate German - Speaking and Listening	3
GERMAN 258	Intermediate German-Reading	3

GERMAN 262	Intermediate German-Writing	3
GERMAN 274	Introduction to German Literature	6
GERMAN 284	Honors Introduction to German Literature	6

Placement testing is advised for students entering from high school. Placement in more advanced courses is arranged on the basis of records and tests. Consult the German programs's placement advisor with any questions.

RETROACTIVE CREDITS

Retroactive credits (aka "retro credits") are credits granted in recognition of previous language study in high school. Retro credits earned at UW–Madison do correspond to particular courses, but the credits are not graded and do not factor into a student's grade point average. The course taken to earn retro credits for German language coursework must be the student's first college course in German or Dutch; it must be taken before earning 30 degree credits (not including advanced-placement credits); and the student must earn at least a B in the course. The following courses may be taken to earn retro credits.

Code	Title	Credits
4 credits earned for prerequisite work:		4
GERMAN 102 & GERMAN 112	Second Semester German and Second Semester Dutch	8
8 credits earned for prerequisite work:		8
GERMAN 203 or GERMAN 213	Third Semester German or Third Semester Dutch	12
12 credits earned for prerequisite work:		12
GERMAN 204 & GERMAN 214	Fourth Semester German and Fourth Semester Dutch	16
16 credits earned for prerequisite work:		16
GERMAN 249	Intermediate German - Speaking and Listening	
GERMAN 258	Intermediate German-Reading	
GERMAN 262	Intermediate German-Writing	
GERMAN 274	Introduction to German Literature	
GERMAN 284	Honors Introduction to German Literature	
	or GERMAN 337 Advanced Composition & Conversation	

Consult the German program's placement advisor or see Retroactive Credits (<http://languages.wisc.edu/advising/retro>) for more information on retro credits.

SEQUENCE OF ELEMENTARY AND INTERMEDIATE COURSES

The regular German sequence consists of:

Code	Title	Credits
GERMAN 101	First Semester German	4
GERMAN 102	Second Semester German	4
GERMAN 203	Third Semester German	4
GERMAN 204	Fourth Semester German	4

After GERMAN 204, students may continue in any of the intermediate courses:

Code	Title	Credits
GERMAN 249	Intermediate German - Speaking and Listening	3
GERMAN 258	Intermediate German-Reading	3
GERMAN 262	Intermediate German-Writing	3
GERMAN 274	Introduction to German Literature	6
or GERMAN 284	Honors Introduction to German Literature	

Intermediate courses may be taken in any sequence and simultaneously; however, GERMAN 274/GERMAN 284 counts as the equivalent of GERMAN 258 and GERMAN 262, so students may receive credit for either of the following:

Code	Title	Credits
GERMAN 258 & GERMAN 262	Intermediate German-Reading and Intermediate German-Writing	6
GERMAN 274 or GERMAN 284	Introduction to German Literature or Honors Introduction to German Literature	6

The prerequisites for most advanced-level courses in German are:

Code	Title	Credits
Select one of the following options:		9
Option 1:		
GERMAN 249	Intermediate German - Speaking and Listening	
GERMAN 258	Intermediate German-Reading	
GERMAN 262	Intermediate German-Writing	
Option 2:		
GERMAN 249	Intermediate German - Speaking and Listening	
GERMAN 274 or GERMAN 284	Introduction to German Literature or Honors Introduction to German Literature	

ADVANCED COURSES

All 300-level and 400-level courses, with the exception of language courses for graduate students¹, are open to undergraduate students who have completed appropriate prerequisites on the intermediate level. The 600-level courses are open to seniors as well as other students who have completed the listed prerequisites. The 700-level courses are open only to seniors with a 3.500 GPA, permission of the instructor, and permission of the L&S dean.

300-400 level exceptions

These courses are not open to undergraduate students.

Code	Title	Credits
GERMAN 311	First Semester Dutch for Graduate Students	3
GERMAN 312	Second Semester Dutch for Graduate Students	3
GERMAN 313	Third Semester Dutch for Graduate Students	3
GERMAN 314	Fourth Semester Dutch for Graduate Students	3
GERMAN 391	German for Graduate Reading Knowledge I	3

GERMAN 392	German for Graduate Reading Knowledge II	3
GERMAN 401	First-Semester German for Graduate Students	3
GERMAN 402	Second-Semester German for Graduate Students	3
GERMAN 403	Third-Semester German for Graduate Students	3
GERMAN 404	Fourth-Semester German for Graduate Students	3

HONORS IN THE MAJOR

Students may declare Honors in the German Major in consultation with the German undergraduate advisor.

HONORS IN THE GERMAN MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in German students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 in all advanced-level GERMAN courses
- Complete 29 advanced-level credits in German, 20 of which must be taken for Honors, to include:

Code	Title	Credits
GERMAN 337	Advanced Composition & Conversation (for honors credit)	3
GERMAN 676	Advanced Seminar in German Studies (for honors credit)	3
GERMAN 677	Seminar in German Culture Studies	3
GERMAN 681 & GERMAN 682	Senior Honors Thesis-First Semester and Senior Honors Thesis-Second Semester	6

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

ADVISING AND CAREERS

GERMAN, B.S.

The German program affords students the opportunity to begin or to continue their study of German and/or Dutch.

Knowledge of German provides access to a culture that for more than a millennium has been central to the history, economy, arts, and sciences not just of Europe but of Western civilization as a whole. In the contemporary world, German-speaking countries have Europe's strongest economies and are playing an increasingly important role in world affairs. Because the percentage of Wisconsinites of German ethnic background surpasses that of every other state in the union, many of our students are motivated to study German by their desire to explore their own family's heritage. The UW–Madison has been a leader in the field of German studies for more than a century. The university's libraries are remarkable for the depth and breadth of their German-language holdings.

Knowledge of Dutch provides access to a culture that has been an important force in world history since the Middle Ages. The language of more than 20 million inhabitants of the Netherlands and Flanders (Dutch-speaking Belgium), Dutch is also spoken in Surinam and the Netherlands Antilles. It is also an important second language in Indonesia. As major economic powers, Belgium and the Netherlands play a leading role in shaping the European Union. World-class research in the sciences and humanities is conducted at Dutch and Belgian universities, and both countries can boast of a cultural life in which art, music, and theater are all flourishing.

STUDY ABROAD

The German program works closely with International Academic Programs (<http://www.studyabroad.wisc.edu>) to provide a range of opportunities for study in Germany and the Netherlands, for majors and nonmajors alike. The program also cooperates with the School of Business, which maintains study abroad programs in Germany and Austria open to all qualified undergraduates, not just business majors. Finally, the College of Engineering and the College of Agriculture and Life Sciences offer study abroad programs in Germany for qualified students in these colleges.

OTHER OPPORTUNITIES FOR GERMAN STUDENTS

UW–Madison students interested in international internships should visit the website of the International Internship Program (<http://internships.international.wisc.edu>).

The German-language immersion dormitory, Stockwerk Deutsch (<http://gns.wisc.edu/stockwerk-deutsch>), is located in Richardson House in Adams Hall, one of the Lakeshore dorms. Undergraduate students live and speak German together with a resident native speaker of German. Contact the German program for applications and details.

Other regular student activities include film screenings and lectures as well as informal, conversation-oriented Kaffeestunde, Stammtisch, Dutch Table, and the German Club. For additional information, contact the German program.

OFFERINGS IN DUTCH STUDIES

Course offerings in Dutch include five semesters of language instruction as well as courses in the literature and culture of the Low Countries. Courses in Dutch language satisfy the L&S foreign language requirement, while courses in Dutch literature and culture carry literature and

humanities credits, respectively. Dutch literature is also offered under Literature in Translation.

A major in Dutch studies is not yet established at UW–Madison, but interested students are encouraged to pursue an individual major in the field. In addition to the study of language, literature, and culture, this could entail coursework in art history, geography, history, sociology, and so on. Courses taken in the study abroad program in Utrecht can also be applied to an individual major in Dutch studies.

HOW TO GET IN

DECLARING THE MAJOR IN GERMAN

A student may declare the major in German at any time by consulting with the German program's undergraduate advisor.

PREREQUISITES FOR THE MAJOR IN GERMAN

A total of 9 credits of language coursework at the third-year (post-204, "2xx") level is required for the German major.

Select one of the following options:

Code	Title	Credits
Option 1:		
GERMAN 249	Intermediate German - Speaking and Listening	3
GERMAN 258	Intermediate German-Reading ¹	3
GERMAN 262	Intermediate German-Writing ¹	3
Option 2:		
GERMAN 249	Intermediate German - Speaking and Listening	3
GERMAN 274 or GERMAN 284	Introduction to German Literature ¹ Honors Introduction to German Literature	6
Total Credits		9

¹ Students may not receive credit for both GERMAN 258 or GERMAN 262 and GERMAN 274 or GERMAN 284.

Third-year German language courses (GERMAN 249, GERMAN 258, GERMAN 262, GERMAN 274, GERMAN 284) are not sequenced; they may be taken in any order and/or simultaneously. Note that GERMAN 274 and GERMAN 284, which are 6-credit courses, count as the equivalent of GERMAN 258 Intermediate German-Reading and GERMAN 262. If a student takes GERMAN 274 or GERMAN 284, only GERMAN 249 may be taken for the remaining 3 credits of prerequisite coursework.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as

needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR IN GERMAN

SUMMARY OF REQUIREMENTS

Code	Title	Credits
Select a minimum of 27 advanced-level credits in German or cognate courses (maximum of 9), to include the following:		
GERMAN 337	Advanced Composition & Conversation	3
GERMAN 676	Advanced Seminar in German Studies (GERMAN 676 and GERMAN 677 must be taken on the Madison campus.)	3
	or GERMAN 677 Seminar in German Culture Studies	
Twenty-one (21) additional advanced-level German credits are required, including a maximum of 9 credits from cognate courses. A minimum of 6 advanced-level German credits, to include the capstone seminar (GERMAN 676 or GERMAN 677), must be taken on the Madison campus.		21
Total Credits		27

Residence and Quality of Work

2.000 GPA in all GERMAN courses and courses counting toward the major

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in GERMAN, taken on campus

¹ Any GERMAN course numbered 300 or higher will count toward this requirement with the *exception* of these Dutch and graduate-level courses: GERMAN 311, GERMAN 312, GERMAN 313, GERMAN 314, GERMAN 325, GERMAN 335, GERMAN 391, GERMAN 392, GERMAN 401, GERMAN 402, GERMAN 403, and GERMAN 404.

Cognate Courses

Up to 9 of the 27 advanced-level credits required for the German major may come from cognate courses. These are courses with German-related subject matter that are taught in English either in the German program or in other departments, such as Anthropology, Art History, Business, Communication Arts, Folklore, Geography, History, Jewish Studies, Medieval Studies, Music, Philosophy, Political Science, Sociology, Theatre and Drama, and Urban and Regional Planning. Cognate courses taken in the German program may be at the elementary, advanced, or intermediate levels; those taken in other departments must be at the advanced level (numbered 300 or higher) only. Any questions about which courses may be counted as cognate courses may be directed to the undergraduate advisor.

Study Abroad Coursework

Courses taken on a UW–Madison sponsored study abroad program count as “in residence.” Advanced-level courses for which there is no direct UW–Madison equivalent will appear on a student’s transcript as GERMAN 367 Study Abroad in German Literature, GERMAN 368 Study

Abroad in German Culture, or GERMAN 369 Study Abroad in German Linguistics.

On Campus Requirements

A minimum of 6 credits of advanced-level German coursework must be taken on the Madison campus (i.e., not on a study abroad program). The capstone seminar, GERMAN 676 Advanced Seminar in German Studies or GERMAN 677 Seminar in German Culture Studies, must be taken on the Madison campus.

Senior Thesis

Any student who wishes to write a senior thesis may do so under the direction of a professor. Planning with the student’s major advisor or the directing professor should begin in the student’s junior year.

LEVEL AND CLASSIFICATION OF GERMAN COURSES WITH REGARD TO L&S DEGREE REQUIREMENTS

German courses at the 100 level are regarded by the department as elementary, courses at the 200 level as intermediate, and courses at the 300 level or above as advanced.

Exceptions are:

- the following are regarded as elementary (E)

Code	Title	Credits
GERMAN 236	Bascom Course	3
GERMAN 245	Topics in Dutch Life and Culture	3
GERMAN 266	Topics in German and/or Yiddish Culture	3
GERMAN/JEWISH/ LITTRANS 269	Yiddish Literature and Culture in Europe	3
GERMAN 272	Nazi Culture	3
GERMAN 278	Topics in German Culture	3

- the following are regarded as intermediate/advanced (D)

Code	Title	Credits
GERMAN 235	Dutch Conversation and Composition	3
GERMAN/ JEWISH 267	Yiddish Song and the Jewish Experience	3-4
GERMAN 271	The German Immigration Experience	3
GERMAN/ LITTRANS 276	Special Topics in German and World Literature/s	3
GERMAN/JEWISH/ LITTRANS 279	Yiddish Literature and Culture in America	3
GERMAN 325	Topics in Dutch Literature	3
GERMAN 335	Dutch Conversation and Composition	3

All courses in German literature numbered 258 or higher may be applied toward the L&S humanities/literature requirement. GERMAN 676 Advanced Seminar in German Studies, German linguistics courses numbered 351 or above, and the German or Dutch culture courses numbered 245 or above may be applied toward the L&S humanities breadth requirement. GERMAN 391, GERMAN 392, GERMAN 401, GERMAN 402, GERMAN 403, and GERMAN 404 are for graduate students and not applicable to the German major or L&S degree requirements. GERMAN 311, GERMAN 312, GERMAN 313, GERMAN 314,

and GERMAN 325 are Dutch-language courses for graduate students and not applicable to the German major or L&S degree requirements.

PLACEMENT

GERMAN 101 First Semester German and GERMAN 111 First Semester Dutch are beginning courses and require no previous training.

The following are open to freshmen with sufficient preparation in German or Dutch:

Code	Title	Credits
GERMAN 102	Second Semester German	4
GERMAN 112	Second Semester Dutch	4
GERMAN 203	Third Semester German	4
GERMAN 204	Fourth Semester German	4
GERMAN 213	Third Semester Dutch	4
GERMAN 214	Fourth Semester Dutch	4
GERMAN 249	Intermediate German - Speaking and Listening	3
GERMAN 258	Intermediate German-Reading	3
GERMAN 262	Intermediate German-Writing	3
GERMAN 274	Introduction to German Literature	6
GERMAN 284	Honors Introduction to German Literature	6

Placement testing is advised for students entering from high school. Placement in more advanced courses is arranged on the basis of records and tests. Consult the German programs's placement advisor with any questions.

RETROACTIVE CREDITS

Retroactive credits (aka "retro credits") are credits granted in recognition of previous language study in high school. Retro credits earned at UW–Madison do correspond to particular courses, but the credits are not graded and do not factor into a student's grade point average. The course taken to earn retro credits for German language coursework must be the student's first college course in German or Dutch; it must be taken before earning 30 degree credits (not including advanced-placement credits); and the student must earn at least a B in the course. The following courses may be taken to earn retro credits.

Code	Title	Credits
4 credits earned for prerequisite work:		4
GERMAN 102 & GERMAN 112	Second Semester German and Second Semester Dutch	
8 credits earned for prerequisite work:		8
GERMAN 203 or GERMAN 213	Third Semester German or Third Semester Dutch	
12 credits earned for prerequisite work:		12
GERMAN 204 & GERMAN 214	Fourth Semester German and Fourth Semester Dutch	
16 credits earned for prerequisite work:		16
GERMAN 249	Intermediate German - Speaking and Listening	
GERMAN 258	Intermediate German-Reading	
GERMAN 262	Intermediate German-Writing	
GERMAN 274	Introduction to German Literature	

GERMAN 284	Honors Introduction to German Literature
or GERMAN 337 Advanced Composition & Conversation	

Consult the German program's placement advisor or see Retroactive Credits (<http://languages.wisc.edu/advising/retro>) for more information on retro credits.

SEQUENCE OF ELEMENTARY AND INTERMEDIATE COURSES

The regular German sequence consists of:

Code	Title	Credits
GERMAN 101	First Semester German	4
GERMAN 102	Second Semester German	4
GERMAN 203	Third Semester German	4
GERMAN 204	Fourth Semester German	4

After GERMAN 204, students may continue in any of the intermediate courses:

Code	Title	Credits
GERMAN 249	Intermediate German - Speaking and Listening	3
GERMAN 258	Intermediate German-Reading	3
GERMAN 262	Intermediate German-Writing	3
GERMAN 274 or GERMAN 284	Introduction to German Literature or Honors Introduction to German Literature	6

Intermediate courses may be taken in any sequence and simultaneously; however, GERMAN 274/GERMAN 284 counts as the equivalent of GERMAN 258 and GERMAN 262, so students may receive credit for either of the following:

Code	Title	Credits
GERMAN 258 & GERMAN 262	Intermediate German-Reading and Intermediate German-Writing	6
GERMAN 274 or GERMAN 284	Introduction to German Literature or Honors Introduction to German Literature	6

The prerequisites for most advanced-level courses in German are:

Code	Title	Credits
Select one of the following options:		9
Option 1:		
GERMAN 249	Intermediate German - Speaking and Listening	
GERMAN 258	Intermediate German-Reading	
GERMAN 262	Intermediate German-Writing	
Option 2:		
GERMAN 249	Intermediate German - Speaking and Listening	
GERMAN 274 or GERMAN 284	Introduction to German Literature or Honors Introduction to German Literature	

ADVANCED COURSES

All 300-level and 400-level courses, with the exception of language courses for graduate students¹, are open to undergraduate students who have completed appropriate prerequisites on the intermediate level. The

600-level courses are open to seniors as well as other students who have completed the listed prerequisites. The 700-level courses are open only to seniors with a 3.500 GPA, permission of the instructor, and permission of the L&S dean.

300-400 level exceptions

These courses are not open to undergraduate students.

Code	Title	Credits
GERMAN 311	First Semester Dutch for Graduate Students	3
GERMAN 312	Second Semester Dutch for Graduate Students	3
GERMAN 313	Third Semester Dutch for Graduate Students	3
GERMAN 314	Fourth Semester Dutch for Graduate Students	3
GERMAN 391	German for Graduate Reading Knowledge I	3
GERMAN 392	German for Graduate Reading Knowledge II	3
GERMAN 401	First-Semester German for Graduate Students	3
GERMAN 402	Second-Semester German for Graduate Students	3
GERMAN 403	Third-Semester German for Graduate Students	3
GERMAN 404	Fourth-Semester German for Graduate Students	3

HONORS IN THE MAJOR

Students may declare Honors in the German Major in consultation with the German undergraduate advisor.

HONORS IN THE GERMAN MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in German students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 in all advanced-level GERMAN courses
- Complete 29 advanced-level credits in German, 20 of which must be taken for Honors, to include:

Code	Title	Credits
GERMAN 337	Advanced Composition & Conversation (for honors credit)	3
GERMAN 676	Advanced Seminar in German Studies (for honors credit)	3
GERMAN 677	Seminar in German Culture Studies	3
GERMAN 681 & GERMAN 682	Senior Honors Thesis-First Semester and Senior Honors Thesis-Second Semester	6

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

ADVISING AND CAREERS

Any questions regarding advising or placement in German or Dutch may be directed to the undergraduate advisors for these programs:

Mark L. Loudon, Undergraduate German Advisor
mllouden@wisc.edu
802 Van Hise Hall

Jeanne M. Schueller, German Language Program Coordinator and Placement Advisor
jmschuel@wisc.edu
806 Van Hise Hall

Jolanda Vanderwal Taylor, Undergraduate Dutch Advisor
jvtaylor@wisc.edu
608-262-5790
808 Van Hise Hall

For other undergraduate concerns, please contact the undergraduate coordinator:

Bridget Sutton, Undergraduate Coordinator
undergrad@gns.wisc.edu
608-262-2090
1306 Van Hise Hall

For advising on careers related to German, Dutch, and other languages, contact:

Michael Kruse
International Directions Advisor
Language Institute
mkruse@wisc.edu

For additional career advising, contact:

Letters & Science Career Initiative & Career Services

1305 Linden Drive, Suite 205
 Madison, WI 53706

GERMAN, CERTIFICATE

The certificate in German offers students the opportunity to develop proficiency in German, thereby complementing major(s) in other subjects across the university. It also strengthens the applications of students who intend to pursue careers or graduate study in areas where knowledge of German is useful. The certificate in German is open to all undergraduate students, including Special students who may already have completed majors and earned degrees.

REQUIREMENTS

CERTIFICATE REQUIREMENTS

The certificate in German requires **15 credits of GERMAN** coursework beyond GERMAN 204 Fourth Semester German, to include at least two courses from the 300 level or higher (excluding Dutch courses). All courses presented for the certificate in German must be taught in German.

Additional credits in GERMAN to reach the 15 credits required. Select from:

Code	Title	Credits
GERMAN 249	Intermediate German - Speaking and Listening	3
GERMAN 258	Intermediate German-Reading	3
GERMAN 262	Intermediate German-Writing	3
GERMAN 274 or GERMAN 284	Introduction to German Literature Honors Introduction to German Literature	6
GERMAN 300-599 (excluding any Dutch courses per above)		

RESIDENCE AND QUALITY OF WORK

Of the 15 credits required, 8 credits must be in residence.

A 2.000 cumulative GPA in all courses eligible for the certificate is required.

Pass/fail courses may not apply to the certificate.

POLISH, B.A.

Elementary courses in Russian and Polish are designed to meet the needs of students who begin to study the language in college as well as those who began to study the language in high school. One unit (year) of high school coursework is roughly equivalent to one semester of college work; all incoming students, however, who want to continue their study of Russian or Polish are assigned to courses on the basis of placement tests. These tests may admit a student to a more advanced course, but give no credit toward graduation. Students should speak with their instructor regarding retroactive credits during the first week of class.

HOW TO GET IN

To declare a major in Polish, students should make an appointment with the undergraduate advisor (atumarki@wisc.edu), or call 608-262-3498.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree

requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	<ul style="list-style-type: none"> Complete the fourth unit of a foreign language; OR Complete the third unit of a foreign language and the second unit of an additional foreign language <p>Note: A unit is one year of high school work or one semester/term of college work.</p>
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
1. The Polish major requires 9 credits in Polish-language courses above Fourth Semester Polish (SLAVIC 208) taken from:		9
SLAVIC 277	Third Year Polish I	
SLAVIC 278	Third Year Polish II	
SLAVIC 331	Fourth Year Polish I	
SLAVIC 332	Fourth Year Polish II	
2. 6 credits in Polish literature in translation:		6
LITTRANS 215	Polish Literature in Translation: 14th to the Mid-19th Century	

LITTRANS 473	Polish Literature (in Translation) since 1863	
3. 9 credits in literature in the original language and culture and area studies: ¹		9
SLAVIC 302	Zarys historii literatury polskiej ²	
SLAVIC 245	Topics in Slavic Literatures ³	
SLAVIC/GEOG/ HISTORY/ POLI SCI 254	Eastern Europe: An Interdisciplinary Survey	
SLAVIC 308	Polish Culture and Area Studies on Study Abroad	
LITTRANS 229	Representation of the Jew in Eastern European Cultures	
LITTRANS 241	Literatures and Cultures of Eastern Europe	
LITTRANS 247	Topics in Slavic Literatures in Translation ³	
HISTORY 425	History of Poland and the Baltic Area	
Total Credits		24

¹ Other courses related to Poland may count, with the approval of the advisor, including courses taken abroad on Polish history, society, politics, economy and so forth.

² SLAVIC 302 Zarys historii literatury polskiej is taught in Polish.

³ SLAVIC 245 Topics in Slavic Literatures and LITTRANS 247 Topics in Slavic Literatures in Translation are topics courses and the topic must be approved by the advisor for the Polish major for credit toward the major.

L&S RESIDENCE AND QUALITY OF WORK

2.000 GPA in all courses counting in the major

2.000 GPA on 15 upper-level major credits taken in residence⁴

15 credits in the major taken on the UW–Madison campus

⁴ Upper-Level Courses

Code	Title	Credits
SLAVIC 277	Third Year Polish I	3
SLAVIC 278	Third Year Polish II	3
SLAVIC 302	Zarys historii literatury polskiej	3
SLAVIC 307	Study Abroad in Poland	1-4
SLAVIC 308	Polish Culture and Area Studies on Study Abroad	1-4
SLAVIC 331	Fourth Year Polish I	3
SLAVIC 332	Fourth Year Polish II	3
SLAVIC/ FOLKLORE 444	Slavic and East European Folklore	3
SLAVIC 470	Historia literatury polskiej do roku 1863	3
SLAVIC 472	Historia literatury polskiej po roku 1863	3
HISTORY 425	History of Poland and the Baltic Area	3-4
LITTRANS 215	Polish Literature in Translation: 14th to the Mid-19th Century	3

LITTRANS 471	Polish Literature (in Translation), Middle Ages to 1863	3
LITTRANS 473	Polish Literature (in Translation) since 1863	3

⁴ The following courses count as upper level in the major: SLAVIC 277, SLAVIC 278, SLAVIC 302, SLAVIC 307, SLAVIC 308, SLAVIC 331, SLAVIC 332, SLAVIC 423, SLAVIC 444, SLAVIC 470, SLAVIC 472, HISTORY 425, LITTRANS 215, LITTRANS 471, LITTRANS 216, LITTRANS 473

DISTINCTION IN THE MAJOR IN POLISH

With the permission of the Polish honors advisor (atumarki@wisc.edu), students who are not in any of the honors programs may work toward Distinction in the Major in Polish. Distinction in the Major may be granted for any student who has a 3.500 grade point average in the major, and who has submitted an acceptable senior thesis.

HONORS IN THE MAJOR

Students may declare Honors in the Polish Major in consultation with the Polish Honors Advisor (atumarki@wisc.edu).

HONORS IN THE POLISH MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Polish students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Complete 15 credits in SLAVIC, taken for Honors, with individual course grades of B or better, to include:
- 9 credits above SLAVIC 208 Fourth Semester Polish, chosen from the following list¹:

Code	Title	Credits
SLAVIC 277	Third Year Polish I	3
SLAVIC 278	Third Year Polish II	3
SLAVIC 301	Introduction to Intensive Polish	3
SLAVIC 302	Zarys historii literatury polskiej	3
SLAVIC 331	Fourth Year Polish I	3
SLAVIC 332	Fourth Year Polish II	3
SLAVIC 470	Historia literatury polskiej do roku 1863	3
SLAVIC 472	Historia literatury polskiej po roku 1863	3

- A two-semester Senior Honors Thesis in SLAVIC 681 Senior Honors Thesis and SLAVIC 682 Senior Honors Thesis, for a total of 6 credits.

¹ This requirement may be waived for students who take some of these courses while studying abroad in Poland.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

PEOPLE

Professors David Danaher, Alexander Dolinin, Karen Evans-Romaine, Halina Filipowicz, Tomislav Longinovic, Irina Shevelenko, Manon van de Water

Associate Professor Andrew Reynolds

Assistant Professor Marina Zilbergerts

Faculty Associates Jennifer Tishler, Anna Tumarkin

Senior Lecturers Galina Lapina, Ewa Miernowska

Lecturer Alexandra Walter

LEARNING OUTCOMES

1. Polish language proficiency: Students will develop speaking, listening, writing, and reading skills and integrate these skills to communicate in Polish in a variety of social situations.
2. Students will develop and apply writing skills and oral communication skills appropriate to liberal arts education in the context of Slavic studies.
3. Students will develop and apply critical thinking skills inherent in the liberal arts tradition in the context of Slavic studies.
4. Students will be able to analyze and interpret works of literature in themselves and in the context of specific historical and cultural conditions.
5. Students will demonstrate insight into Polish culture and civilization and apply this knowledge across disciplines such as history, political science, the arts, geography, business, economics, sociology, the sciences, gender studies, philosophy, law, folklore.

ADVISING AND CAREERS

ADVISING AND CAREERS

For advising in Russian or Polish contact our Russian and Polish undergraduate advisor Anna Tumarkin (atumarki@wisc.edu).

For placement in Russian contact Anna Tumarkin (atumarki@wisc.edu).

For placement in Polish contact Ewa Miernowska (miernows@wisc.edu).

For information on the Russian Flagship Program contact Laura Weigel (leweigel@wisc.edu) or visit their program page (<https://russianflagship.wisc.edu>).

For other undergraduate concerns, please contact our Undergraduate Coordinator:

Bridget Sutton, Undergraduate Coordinator

For additional career advising please contact:

Michael Kruse
International Directions Advisor
Language Institute
mkruse@wisc.edu

POLISH, B.S.

Elementary courses in Russian and Polish are designed to meet the needs of students who begin to study the language in college as well as those who began to study the language in high school. One unit (year) of high school coursework is roughly equivalent to one semester of college work; all incoming students, however, who want to continue their study of Russian or Polish are assigned to courses on the basis of placement tests. These tests may admit a student to a more advanced course, but give no credit toward graduation. Students should speak with their instructor regarding retroactive credits during the first week of class.

HOW TO GET IN

To declare a major in Polish, students should make an appointment with the undergraduate advisor (atumarki@wisc.edu), or call 608-262-3498.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	<ul style="list-style-type: none"> Complete the fourth unit of a foreign language; OR Complete the third unit of a foreign language and the second unit of an additional foreign language <p>Note: A unit is one year of high school work or one semester/term of college work.</p>
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

--------------	--

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
1. The Polish major requires 9 credits in Polish-language courses above Fourth Semester Polish (SLAVIC 208) taken from:		9
SLAVIC 277	Third Year Polish I	
SLAVIC 278	Third Year Polish II	
SLAVIC 331	Fourth Year Polish I	
SLAVIC 332	Fourth Year Polish II	
2. 6 credits in Polish literature in translation:		6
LITTRANS 215	Polish Literature in Translation: 14th to the Mid-19th Century	
LITTRANS 473	Polish Literature (in Translation) since 1863	
3. 9 credits in literature in the original language and culture and area studies: ¹		9
SLAVIC 302	Zarys historii literatury polskiej ²	
SLAVIC 245	Topics in Slavic Literatures ³	
SLAVIC/GEOG/HISTORY/POLI SCI 254	Eastern Europe: An Interdisciplinary Survey	
SLAVIC 308	Polish Culture and Area Studies on Study Abroad	
LITTRANS 229	Representation of the Jew in Eastern European Cultures	
LITTRANS 241	Literatures and Cultures of Eastern Europe	
LITTRANS 247	Topics in Slavic Literatures in Translation ³	
HISTORY 425	History of Poland and the Baltic Area	
Total Credits		24

¹ Other courses related to Poland may count, with the approval of the advisor, including courses taken abroad on Polish history, society, politics, economy and so forth.

² SLAVIC 302 Zarys historii literatury polskiej is taught in Polish.

³ SLAVIC 245 Topics in Slavic Literatures and LITTRANS 247 Topics in Slavic Literatures in Translation are topics courses and the topic must be approved by the advisor for the Polish major for credit toward the major.

L&S RESIDENCE AND QUALITY OF WORK

2.000 GPA in all courses counting in the major

2.000 GPA on 15 upper-level major credits taken in residence⁴

15 credits in the major taken on the UW–Madison campus

⁴ Upper-Level Courses

Code	Title	Credits
SLAVIC 277	Third Year Polish I	3
SLAVIC 278	Third Year Polish II	3
SLAVIC 302	Zarys historii literatury polskiej	3
SLAVIC 307	Study Abroad in Poland	1-4
SLAVIC 308	Polish Culture and Area Studies on Study Abroad	1-4
SLAVIC 331	Fourth Year Polish I	3
SLAVIC 332	Fourth Year Polish II	3
SLAVIC/ FOLKLORE 444	Slavic and East European Folklore	3
SLAVIC 470	Historia literatury polskiej do roku 1863	3
SLAVIC 472	Historia literatury polskiej po roku 1863	3
HISTORY 425	History of Poland and the Baltic Area	3-4
LITTRANS 215	Polish Literature in Translation: 14th to the Mid-19th Century	3
LITTRANS 471	Polish Literature (in Translation), Middle Ages to 1863	3
LITTRANS 473	Polish Literature (in Translation) since 1863	3

⁴ The following courses count as upper level in the major: SLAVIC 277, SLAVIC 278, SLAVIC 302, SLAVIC 307, SLAVIC 308, SLAVIC 331, SLAVIC 332, SLAVIC 423, SLAVIC 444, SLAVIC 470, SLAVIC 472, HISTORY 425, LITTRANS 215, LITTRANS 471, LITTRANS 216, LITTRANS 473

DISTINCTION IN THE MAJOR IN POLISH

With the permission of the Polish honors advisor (atumarki@wisc.edu), students who are not in any of the honors programs may work toward Distinction in the Major in Polish. Distinction in the Major may be granted for any student who has a 3.500 grade point average in the major, and who has submitted an acceptable senior thesis.

HONORS IN THE MAJOR

Students may declare Honors in the Polish Major in consultation with the Polish Honors Advisor (atumarki@wisc.edu).

HONORS IN THE POLISH MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Polish students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Complete 15 credits in SLAVIC, taken for Honors, with individual course grades of B or better, to include:
- 9 credits above SLAVIC 208 Fourth Semester Polish, chosen from the following list¹:

Code	Title	Credits
SLAVIC 277	Third Year Polish I	3
SLAVIC 278	Third Year Polish II	3

SLAVIC 301	Introduction to Intensive Polish	3
SLAVIC 302	Zarys historii literatury polskiej	3
SLAVIC 331	Fourth Year Polish I	3
SLAVIC 332	Fourth Year Polish II	3
SLAVIC 470	Historia literatury polskiej do roku 1863	3
SLAVIC 472	Historia literatury polskiej po roku 1863	3

- A two-semester Senior Honors Thesis in SLAVIC 681 Senior Honors Thesis and SLAVIC 682 Senior Honors Thesis, for a total of 6 credits.

¹ This requirement may be waived for students who take some of these courses while studying abroad in Poland.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison 30 credits in residence, overall

Experience 30 credits in residence after the 90th credit

Minimum 2.000 in all coursework at UW–Madison

GPA 2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

The Russian major requires **35 total credits**. The major may be completed through one of three program tracks:

1. Language and Literature track (p. 716)

2. Language and Civilization track (p. 717)

3. Russian for Native Speakers track (p. 717)

LANGUAGE REQUIREMENT CORE

Code	Title	Credits
All Russian majors require 20 credits in language courses above SLAVIC 204 Fourth Semester Russian, including:		20
SLAVIC 275 & SLAVIC 276	Third Year Russian I and Third Year Russian II ¹	8
SLAVIC 315 & SLAVIC 316	Russian Language and Culture I and Russian Language and Culture II	4
SLAVIC 321 & SLAVIC 322	Fourth Year Russian I and Fourth Year Russian II	8

¹ Students may also take SLAVIC 279 Intensive Third Year Russian to satisfy the 3rd Year Russian I & II Requirement.

MAJOR IN RUSSIAN: RUSSIAN LANGUAGE AND LITERATURE TRACK

In addition to the core 20 credits (p. 716) in advanced Russian language courses, the Russian Language and Literature track requires 16 credits.

Code	Title	Credits
One course in Russian culture for 4 credits:		4
LITTRANS 233	Russian Life and Culture Through Literature and Art (to 1917) ¹	4
	or LITTRANS 23-Soviet Life and Culture Through Literature and Art (from 1917)	
Two courses in Russian literature in translation for a total of 8 credits:		8
LITTRANS 203 & LITTRANS 204	Survey of 19th and 20th Century Russian Literature in Translation I and Survey of 19th and 20th Century Russian Literature in Translation II ^{2,3}	4
One 400-level course in Russian literature for 4 credits (after completing SLAVIC 276):		
SLAVIC 405	Women in Russian Literature	4
or SLAVIC 420	Chekhov	
or SLAVIC 421	Gogol	
or SLAVIC 422	Dostoevsky	
or SLAVIC 424	Tolstoy	
or SLAVIC 440	Soviet Literature	
Total Credits		16

¹ LITTRANS 233 and LITTRANS 234 are not language courses.

² LITTRANS 203/LITTRANS 204 are open to freshmen; they may be used to meet the literature (humanities) breadth requirement. LITTRANS 203 and LITTRANS 204, in addition, fulfill the Communication Part B writing requirement. It is preferable to take these Literature in Translation courses in numerical sequence, though they may be taken out of sequence. Although LITTRANS 203/LITTRANS 204 count toward total credits required for the major, they also count as part of the 80 credits that must be earned outside the Russian program.

³ Students who take LITTRANS 201 Survey of 19th and 20th Century Russian Literature in Translation I or LITTRANS 202 Survey of 19th and 20th Century Russian Literature in Translation II before declaring the major should consult with the advisor.

Note: Students majoring in Russian language and literature are eligible to earn the Certificate in Russian, East European, and Central Asia Studies (p. 898).

MAJOR IN RUSSIAN: RUSSIAN LANGUAGE AND CIVILIZATION TRACK

In addition to the core 20 credits (p. 716) in advanced Russian language courses, the Russian Language and Civilization track requires 17 credits.

Code	Title	Credits
One course in Russian culture for 4 credits:		4
LITTRANS 233	Russian Life and Culture Through Literature and Art (to 1917) (if not used to fulfill the area studies requirement below) ¹	
	or LITTRANS 23.Soviet Life and Culture Through Literature and Art (from 1917)	
One course in Russian civilization for 4 credits:		4
SLAVIC/GEOG/ HISTORY/ POLI SCI 253	Russia: An Interdisciplinary Survey	
Select 9 credits in area studies courses including any of the following or other courses as approved by the advisor:		9
LITTRANS 233	Russian Life and Culture Through Literature and Art (to 1917) (if not used to fulfill the culture requirement above) ¹	
	or LITTRANS 23.Soviet Life and Culture Through Literature and Art (from 1917)	
COM ARTS 456	Russian and Soviet Film	
ECON 390	Contemporary Economic Issues (only when the topic focuses on Russia) ²	
GEOG 353	Russia and the NIS-Topical Analysis	
HISTORY 417	History of Russia	
HISTORY 419	History of Soviet Russia	
HISTORY 420	Russian Social and Intellectual History	
HISTORY/CHICLA/ POLI SCI 422	Latino History and Politics	
HISTORY 600	Advanced Seminar in History ²	
POLI SCI 401	Selected Topics in Political Science ²	
POLI SCI 534	Socialism and Transitions to the Market	
POLI SCI 334	Russian Politics	
SLAVIC 433	History of Russian Culture ³	
SLAVIC 434	Contemporary Russian Culture ³	
THEATRE/ SLAVIC 532	History of Russian Theatre	

And other courses as approved by the advisor.	
Total Credits	17

- ¹ LITTRANS 233 and LITTRANS 234 are not language courses. They have the prerequisite of sophomore standing or permission of the instructor. LITTRANS 233 and LITTRANS 234 can be taken to fulfill either the Russian culture requirement or part of the 9 credits of area studies, but the same course cannot be used to count for both requirements.
- ² These courses are eligible only when the topics course focuses on Russia.
- ³ SLAVIC 433 and SLAVIC 434 are taught in Russian, and enrollment in these courses requires consent of the instructor.

Courses fulfilling this requirement may also be taken in study abroad in the UW–Madison study abroad program in Russia (consult with the major advisor for more information).

Area studies courses above count toward total credits required for the major and also count as part of the 80 credits that must be earned outside the Russian program (except for LITTRANS 233 Russian Life and Culture Through Literature and Art (to 1917)/LITTRANS 234 Soviet Life and Culture Through Literature and Art (from 1917)).

Note: Students majoring in Russian language and civilization are not eligible to earn the Certificate in Russian, Eastern European, and Central Asian Studies (p. 898) administered by the Center for Russia, East Europe, and Central Asia (CREECA), if they are focusing on Russia for the certificate. If they focus on Eastern Europe or Central Asia, they may also get the certificate.

MAJOR IN RUSSIAN: RUSSIAN FOR NATIVE SPEAKERS TRACK

Students who are native speakers of Russian may elect a major in Russian. They are required to take 36 credits of courses in Russian language and literature.

Students electing this major must take SLAVIC 275 Third Year Russian I/SLAVIC 276 Third Year Russian II, SLAVIC 315 Russian Language and Culture I/SLAVIC 316 Russian Language and Culture II, and SLAVIC 321 Fourth Year Russian I/SLAVIC 322 Fourth Year Russian II unless they place out of these courses. If they place out of any of these courses, they must take *additional* credits in advanced Russian language and literature courses (courses numbered Slavic 400 and higher).

In addition to the core 20 credits (p. 716) in advanced Russian language courses, the Russian for Native Speakers track requires:

Code	Title	Credits
One course in Russian culture for 4 credits:		4
LITTRANS 233	Russian Life and Culture Through Literature and Art (to 1917) ¹	
	or LITTRANS 23.Soviet Life and Culture Through Literature and Art (from 1917)	
Two courses in Russian literature in translation for a total of 8 credits:		8
LITTRANS 203 & LITTRANS 204	Survey of 19th and 20th Century Russian Literature in Translation I and Survey of 19th and 20th Century Russian Literature in Translation II	

Select at least one 400-level Slavic course in Russian literature	4
SLAVIC 405 Women in Russian Literature	
or SLAVIC 420 Chekhov	
or SLAVIC 421 Gogol	
or SLAVIC 422 Dostoevsky	
or SLAVIC 424 Tolstoy	
or SLAVIC 440 Soviet Literature	
Total Credits	16

¹ LITTRANS 233 and LITTRANS 234 are not language courses. They have the prerequisite of sophomore standing or permission of the instructor.

DISTINCTION IN THE MAJOR IN RUSSIAN

With the permission of the Russian program honors advisor, students who are not in any of the honors programs may work toward Distinction in the Major in Russian. Distinction in the Major may be granted for any student who has a 3.500 grade point average in the major, and who has submitted an acceptable senior thesis.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all courses counting toward the major¹

2.000 GPA on 15 upper-level credits for the major, taken in residence²

15 credits, counting toward the major, taken on campus¹

¹ Additional Courses that may count towards the Russian major

The following courses also count toward the major GPA and count toward the 15 credits taken on campus requirement:

Code	Title	Credits
SLAVIC 101	First Semester Russian	4
SLAVIC 102	Second Semester Russian	4
SLAVIC 117	Intensive Second Year Russian	4
SLAVIC 118	Intensive Second Year Russian	4
SLAVIC 181	Russian Honors Tutorial for Slavic 101	1
SLAVIC 182	Russian Honors Tutorial for Slavic 102	1
SLAVIC 203	Third Semester Russian	4
SLAVIC 204	Fourth Semester Russian	4
SLAVIC 275	Third Year Russian I	3-4
SLAVIC 276	Third Year Russian II	3-4
SLAVIC 321	Fourth Year Russian I	4
SLAVIC 322	Fourth Year Russian II	4

² Upper Level courses

Code	Title	Credits
LITTRANS 221	Gogol in Translation	3-4
LITTRANS 222	Dostoevsky in Translation	3-4
SLAVIC 275 & SLAVIC 276	Third Year Russian I and Third Year Russian II	8
SLAVIC 276	Third Year Russian II	3-4
SLAVIC 309	Russian Area Studies on Study Abroad	1-4

SLAVIC 310	Topics in Russian: Study Abroad	1-6
SLAVIC 315 & SLAVIC 316	Russian Language and Culture I and Russian Language and Culture II	4
SLAVIC 316	Russian Language and Culture II	2
SLAVIC 321 & SLAVIC 322	Fourth Year Russian I and Fourth Year Russian II	8
SLAVIC 322	Fourth Year Russian II	4
SLAVIC 405	Women in Russian Literature	3-4
SLAVIC 420	Chekhov	3-4
SLAVIC 421	Gogol	3-4
SLAVIC 422	Dostoevsky	3-4
SLAVIC 424	Tolstoy	3-4
SLAVIC 440	Soviet Literature	3-4
SLAVIC/ THEATRE 532	History of Russian Theatre	3
SLAVIC 681	Senior Honors Thesis	3
SLAVIC 682	Senior Honors Thesis	3
SLAVIC 699	Directed Study	1-6

HONORS IN THE MAJOR IN RUSSIAN

Students may declare Honors in the Russian Major in consultation with the Russian Honors advisor (atumarki@wisc.edu).

HONORS IN THE RUSSIAN MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Russian students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all SLAVIC courses beyond SLAVIC 204 Fourth Semester Russian
- Complete 20 credits, taken for Honors, with individual grades of B or better in each course, beyond SLAVIC 204 Fourth Semester Russian, to include:
 - SLAVIC 275 Third Year Russian I, SLAVIC 276 Third Year Russian II, SLAVIC 321 Fourth Year Russian I, and SLAVIC 322 Fourth Year Russian II¹
 - A two-semester Senior Honors Thesis in SLAVIC 681 Senior Honors Thesis and SLAVIC 682 Senior Honors Thesis, for a total of 6 credits.

¹ Exceptions are often granted when students take these courses abroad or during a summer study program

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Russian language proficiency: Students will develop speaking, listening, writing, and reading skills and integrate these skills to communicate in Russian in a variety of social situations.
2. Students will develop and apply writing skills and oral communication skills appropriate to liberal arts education in the context of Slavic studies.
3. Students will develop and apply critical thinking skills inherent in the liberal arts tradition in the context of Slavic studies.
4. Language & Literature Track and Native Speaker Track: Students who complete this track will be able to analyze and interpret works of literature in themselves and in the context of specific historical and cultural conditions.
5. Language & Civilization Track: Students who complete this track will demonstrate insight into Russian culture and civilization and apply this knowledge across disciplines such as history, political science, the arts, geography, business, economics, sociology, the sciences, gender studies, philosophy, law, folklore.

ADVISING AND CAREERS

ADVISING AND CAREERS

For advising in Russian or Polish contact our Russian and Polish undergraduate advisor Anna Tumarkin (atumarki@wisc.edu).

For placement in Russian contact Anna Tumarkin (atumarki@wisc.edu).

For placement in Polish contact Ewa Miernowska (miernows@wisc.edu).

PEOPLE

Professors David Danaher, Alexander Dolinin, Karen Evans-Romaine, Halina Filipowicz, Tomislav Longinovic, Irina Shevelenko, Manon van de Water

Associate Professor Andrew Reynolds

Assistant Professor Marina Zilbergerts

Faculty Associates Jennifer Tishler, Anna Tumarkin

Senior Lecturers Galina Lapina, Ewa Miernowska

Lecturer Alexandra Walter

RUSSIAN, B.S.

Elementary courses in Russian and Polish are designed to meet the needs of students who begin to study the language in college as well as those who began to study the language in high school. One unit (year) of high school coursework is roughly equivalent to one semester of college work; all incoming students, however, who want to continue their study of Russian or Polish are assigned to courses on the basis of placement tests. These tests may admit a student to a more advanced course, but give no credit toward graduation. Students should speak with their instructor regarding retroactive credits during the first week of class.

HOW TO GET IN

To declare a major in Russian, students should make an appointment with the Russian undergraduate advisor (atumarki@wisc.edu), or call 608-262-3498.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as

needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

The Russian major requires **35 total credits**. The major may be completed through one of three program tracks:

1. Language and Literature track (p. 720)
2. Language and Civilization track (p. 721)
3. Russian for Native Speakers track (p. 721)

LANGUAGE REQUIREMENT CORE

Code	Title	Credits
All Russian majors require 20 credits in language courses above SLAVIC 204 Fourth Semester Russian, including:		20
SLAVIC 275 & SLAVIC 276	Third Year Russian I and Third Year Russian II ¹	8
SLAVIC 315 & SLAVIC 316	Russian Language and Culture I and Russian Language and Culture II	4
SLAVIC 321 & SLAVIC 322	Fourth Year Russian I and Fourth Year Russian II	8

¹ Students may also take SLAVIC 279 Intensive Third Year Russian to satisfy the 3rd Year Russian I & II Requirement.

MAJOR IN RUSSIAN: RUSSIAN LANGUAGE AND LITERATURE TRACK

In addition to the core 20 credits (p. 720) in advanced Russian language courses, the Russian Language and Literature track requires 16 credits.

Code	Title	Credits
One course in Russian culture for 4 credits:		4
LITTRANS 233	Russian Life and Culture Through Literature and Art (to 1917) ¹	
	or LITTRANS 23: Soviet Life and Culture Through Literature and Art (from 1917)	
Two courses in Russian literature in translation for a total of 8 credits:		8
LITTRANS 203 & LITTRANS 204	Survey of 19th and 20th Century Russian Literature in Translation I and Survey of 19th and 20th Century Russian Literature in Translation II ^{2,3}	
One 400-level course in Russian literature for 4 credits (after completing SLAVIC 276):		4
SLAVIC 405 or SLAVIC 420 or SLAVIC 421 or SLAVIC 422 or SLAVIC 424	Women in Russian Literature Chekhov Gogol Dostoevsky Tolstoy	

or SLAVIC 440 Soviet Literature	
Total Credits	16

¹ LITTRANS 233 and LITTRANS 234 are not language courses.

² LITTRANS 203/LITTRANS 204 are open to freshmen; they may be used to meet the literature (humanities) breadth requirement. LITTRANS 203 and LITTRANS 204, in addition, fulfill the Communication Part B writing requirement. It is preferable to take these Literature in Translation courses in numerical sequence, though they may be taken out of sequence. Although LITTRANS 203/LITTRANS 204 count toward total credits required for the major, they also count as part of the 80 credits that must be earned outside the Russian program.

³ Students who take LITTRANS 201 Survey of 19th and 20th Century Russian Literature in Translation I or LITTRANS 202 Survey of 19th and 20th Century Russian Literature in Translation II before declaring the major should consult with the advisor.

Note: Students majoring in Russian language and literature are eligible to earn the Certificate in Russian, East European, and Central Asia Studies (p. 898).

MAJOR IN RUSSIAN: RUSSIAN LANGUAGE AND CIVILIZATION TRACK

In addition to the core 20 credits (p. 720) in advanced Russian language courses, the Russian Language and Civilization track requires 17 credits.

Code	Title	Credits
One course in Russian culture for 4 credits:		4
LITTRANS 233	Russian Life and Culture Through Literature and Art (to 1917) (if not used to fulfill the area studies requirement below) ¹	
	or LITTRANS 234: Soviet Life and Culture Through Literature and Art (from 1917)	
One course in Russian civilization for 4 credits:		4
SLAVIC/GEOG/ HISTORY/ POLI SCI 253	Russia: An Interdisciplinary Survey	
Select 9 credits in area studies courses including any of the following or other courses as approved by the advisor:		9
LITTRANS 233	Russian Life and Culture Through Literature and Art (to 1917) (if not used to fulfill the culture requirement above) ¹	
	or LITTRANS 234: Soviet Life and Culture Through Literature and Art (from 1917)	
COM ARTS 456	Russian and Soviet Film	
ECON 390	Contemporary Economic Issues (only when the topic focuses on Russia) ²	
GEOG 353	Russia and the NIS-Topical Analysis	
HISTORY 417	History of Russia	
HISTORY 419	History of Soviet Russia	
HISTORY 420	Russian Social and Intellectual History	

HISTORY/CHICLA/	Latino History and Politics
POLI SCI 422	
HISTORY 600	Advanced Seminar in History ²
POLI SCI 401	Selected Topics in Political Science ²
POLI SCI 534	Socialism and Transitions to the Market
POLI SCI 334	Russian Politics
SLAVIC 433	History of Russian Culture ³
SLAVIC 434	Contemporary Russian Culture ³
THEATRE/ SLAVIC 532	History of Russian Theatre
And other courses as approved by the advisor.	
Total Credits	17

¹ LITTRANS 233 and LITTRANS 234 are not language courses. They have the prerequisite of sophomore standing or permission of the instructor. LITTRANS 233 and LITTRANS 234 can be taken to fulfill either the Russian culture requirement or part of the 9 credits of area studies, but the same course cannot be used to count for both requirements.

² These courses are eligible only when the topics course focuses on Russia.

³ SLAVIC 433 and SLAVIC 434 are taught in Russian, and enrollment in these courses requires consent of the instructor.

Courses fulfilling this requirement may also be taken in study abroad in the UW–Madison study abroad program in Russia (consult with the major advisor for more information).

Area studies courses above count toward total credits required for the major and also count as part of the 80 credits that must be earned outside the Russian program (except for LITTRANS 233 Russian Life and Culture Through Literature and Art (to 1917)/LITTRANS 234 Soviet Life and Culture Through Literature and Art (from 1917)).

Note: Students majoring in Russian language and civilization are not eligible to earn the Certificate in Russian, Eastern European, and Central Asian Studies (p. 898) administered by the Center for Russia, East Europe, and Central Asia (CREECA), if they are focusing on Russia for the certificate. If they focus on Eastern Europe or Central Asia, they may also get the certificate.

MAJOR IN RUSSIAN: RUSSIAN FOR NATIVE SPEAKERS TRACK

Students who are native speakers of Russian may elect a major in Russian. They are required to take 36 credits of courses in Russian language and literature.

Students electing this major must take SLAVIC 275 Third Year Russian I/SLAVIC 276 Third Year Russian II, SLAVIC 315 Russian Language and Culture I/SLAVIC 316 Russian Language and Culture II, and SLAVIC 321 Fourth Year Russian I/SLAVIC 322 Fourth Year Russian II unless they place out of these courses. If they place out of any of these courses, they must take *additional* credits in advanced Russian language and literature courses (courses numbered Slavic 400 and higher).

In addition to the core 20 credits (p. 720) in advanced Russian language courses, the Russian for Native Speakers track requires:

Code	Title	Credits
One course in Russian culture for 4 credits:		4
LITTRANS 233	Russian Life and Culture Through Literature and Art (to 1917) ¹	
or LITTRANS 234 Soviet Life and Culture Through Literature and Art (from 1917)		
Two courses in Russian literature in translation for a total of 8 credits:		8
LITTRANS 203 & LITTRANS 204	Survey of 19th and 20th Century Russian Literature in Translation I and Survey of 19th and 20th Century Russian Literature in Translation II	
Select at least one 400-level Slavic course in Russian literature		4
SLAVIC 405	Women in Russian Literature	
or SLAVIC 420 Chekhov		
or SLAVIC 421 Gogol		
or SLAVIC 422 Dostoevsky		
or SLAVIC 424 Tolstoy		
or SLAVIC 440 Soviet Literature		
Total Credits		16

¹ LITTRANS 233 and LITTRANS 234 are not language courses. They have the prerequisite of sophomore standing or permission of the instructor.

DISTINCTION IN THE MAJOR IN RUSSIAN

With the permission of the Russian program honors advisor, students who are not in any of the honors programs may work toward Distinction in the Major in Russian. Distinction in the Major may be granted for any student who has a 3.500 grade point average in the major, and who has submitted an acceptable senior thesis.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all courses counting toward the major¹

2.000 GPA on 15 upper-level credits for the major, taken in residence²

15 credits, counting toward the major, taken on campus¹

¹ Additional Courses that may count towards the Russian major

The following courses also count toward the major GPA and count toward the 15 credits taken on campus requirement:

Code	Title	Credits
SLAVIC 101	First Semester Russian	4
SLAVIC 102	Second Semester Russian	4
SLAVIC 117	Intensive Second Year Russian	4
SLAVIC 118	Intensive Second Year Russian	4
SLAVIC 181	Russian Honors Tutorial for Slavic 101	1
SLAVIC 182	Russian Honors Tutorial for Slavic 102	1
SLAVIC 203	Third Semester Russian	4
SLAVIC 204	Fourth Semester Russian	4
SLAVIC 275	Third Year Russian I	3-4

SLAVIC 276	Third Year Russian II	3-4
SLAVIC 321	Fourth Year Russian I	4
SLAVIC 322	Fourth Year Russian II	4

² Upper Level courses

Code	Title	Credits
LITTRANS 221	Gogol in Translation	3-4
LITTRANS 222	Dostoevsky in Translation	3-4
SLAVIC 275 & SLAVIC 276	Third Year Russian I and Third Year Russian II	8
SLAVIC 276	Third Year Russian II	3-4
SLAVIC 309	Russian Area Studies on Study Abroad	1-4
SLAVIC 310	Topics in Russian: Study Abroad	1-6
SLAVIC 315 & SLAVIC 316	Russian Language and Culture I and Russian Language and Culture II	4
SLAVIC 316	Russian Language and Culture II	2
SLAVIC 321 & SLAVIC 322	Fourth Year Russian I and Fourth Year Russian II	8
SLAVIC 322	Fourth Year Russian II	4
SLAVIC 405	Women in Russian Literature	3-4
SLAVIC 420	Chekhov	3-4
SLAVIC 421	Gogol	3-4
SLAVIC 422	Dostoevsky	3-4
SLAVIC 424	Tolstoy	3-4
SLAVIC 440	Soviet Literature	3-4
SLAVIC/ THEATRE 532	History of Russian Theatre	3
SLAVIC 681	Senior Honors Thesis	3
SLAVIC 682	Senior Honors Thesis	3
SLAVIC 699	Directed Study	1-6

HONORS IN THE MAJOR IN RUSSIAN

Students may declare Honors in the Russian Major in consultation with the Russian Honors advisor (atumarki@wisc.edu).

HONORS IN THE RUSSIAN MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Russian students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all SLAVIC courses beyond SLAVIC 204 Fourth Semester Russian
- Complete 20 credits, taken for Honors, with individual grades of B or better in each course, beyond SLAVIC 204 Fourth Semester Russian, to include:
 - SLAVIC 275 Third Year Russian I, SLAVIC 276 Third Year Russian II, SLAVIC 321 Fourth Year Russian I, and SLAVIC 322 Fourth Year Russian II¹
 - A two-semester Senior Honors Thesis in SLAVIC 681 Senior Honors Thesis and SLAVIC 682 Senior Honors Thesis, for a total of 6 credits.

¹ Exceptions are often granted when students take these courses abroad or during a summer study program

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

SCANDINAVIAN STUDIES, B.A.

The Scandinavian studies program provides the opportunity to learn a Scandinavian language or Finnish (modern Icelandic only occasionally). The literature, folklore, and culture of the Nordic countries are taught both in the original languages and in English translation. Partly in cooperation with other departments, courses in Scandinavian area studies are offered (history, social institutions, geography, art, archaeology). Students who major in the field may continue graduate studies toward an M.A. in Scandinavian philology, literature, or area studies, and toward a Ph.D. in Scandinavian literature, philology, or folklore.

The program strongly encourages a junior-year abroad in a Nordic country; several exchange programs are available. Students who transfer to this university after a year abroad should contact the undergraduate advisor as early as possible to schedule a placement test.

Note: SCAND ST 301 Intensive Finnish I and SCAND ST 302 Intensive Finnish II each count as 2 units of foreign language for the purpose of meeting the College of Letters & Science foreign language requirement.

Majors should see the advisor during the semester before their last semester. Prospective majors are urged to consult the undergraduate advisor about their program at the first possible opportunity.

HOW TO GET IN

Student interested in pursuing an undergraduate major in Scandinavian studies should contact the advisor about declaring the major.

SCAND ST 501	Tal Och Skrift
SCAND ST 520	Special Topics
SCAND ST 634	Survey of Scandinavian Literature: 1500-1800
SCAND ST 635	Survey of Scandinavian Literature: 1800-1890
SCAND ST 636	Survey of Scandinavian Literature: 1890-1920

L&S REQUIREMENTS FOR RESIDENCE AND QUALITY OF WORK IN THE MAJOR:

- 2.000 GPA in all SCAND ST courses, and all courses accepted in the major
- 2.000 GPA on at least 15 credits of upper-level work in the major: SCAND ST373 through 699
- 15 credits in SCAND ST taken on campus (and not through a UW-Madison Study Abroad program)

HONORS IN THE MAJOR

Students may declare Honors in the Scandinavian Studies Major in consultation with the Scandinavian Studies advisor(s).

HONORS IN THE SCANDINAVIAN STUDIES MAJOR REQUIREMENTS

To earn the B.A. or B.S. with Honors in the Major in Scandinavian Studies students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 for all SCAND ST courses, and all courses accepted in the major

- 8 Honors credits numbered SCAND ST 373 and higher
- 1 Survey of Scandinavian Literature series from the following:

Code	Title	Credits
SCAND ST 634	Survey of Scandinavian Literature: 1500-1800	3
SCAND ST 635	Survey of Scandinavian Literature: 1800-1890	3
SCAND ST 636	Survey of Scandinavian Literature: 1890-1920	3

- A two-semester Senior Honors Thesis in SCAND ST 681 and SCAND ST 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Reach Intermediate-High / Advanced-Low language proficiency in speaking, reading, and writing, according to ACTFL guidelines, through five semesters of a Nordic language.
2. Familiarize the students with three Nordic languages (Danish, Norwegian, and Swedish) to complement their knowledge of their chosen language via the 6th semester Scandinavian Language class (401).
3. Demonstrate understanding in a global context in a field of study covering literature, history, area studies, folklore, or philology classes.
4. Select and utilize the most appropriate methods of study and inquiry within the content of the classes taken.
5. Evaluate and respond to information pertaining to the classes taken, showing clear analytical and critical thinking skills.
6. Communicate clearly in appropriate ways in the classes taken.
7. If possible, benefit from a semester or year's study abroad leading to a consolidation and enhancement of the above mentioned skills.
8. Recognize and apply principles of ethical and professional conduct.

SCANDINAVIAN STUDIES, B.S.

The Scandinavian studies program provides the opportunity to learn a Scandinavian language or Finnish (modern Icelandic only occasionally). The literature, folklore, and culture of the Nordic countries are taught both in the original languages and in English translation. Partly in cooperation with other departments, courses in Scandinavian area studies are offered (history, social institutions, geography, art, archaeology). Students who major in the field may continue graduate studies toward an M.A. in Scandinavian philology, literature, or area studies, and toward a Ph.D. in Scandinavian literature, philology, or folklore.

The program strongly encourages a junior-year abroad in a Nordic country; several exchange programs are available. Students who transfer to this university after a year abroad should contact the undergraduate advisor as early as possible to schedule a placement test.

Note: SCAND ST 301 Intensive Finnish I and SCAND ST 302 Intensive Finnish II each count as 2 units of foreign language for the purpose of meeting the College of Letters & Science foreign language requirement.

Majors should see the advisor during the semester before their last semester. Prospective majors are urged to consult the undergraduate advisor about their program at the first possible opportunity.

HOW TO GET IN

Student interested in pursuing an undergraduate major in Scandinavian studies should contact the advisor about declaring the major.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree

requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

- The **fifth-unit Scandinavian language**, 1 course from:

Code	Title	Credits
SCAND ST 251	Readings in Norwegian Literature	
SCAND ST 261	Readings in Swedish Literature	
SCAND ST 271	Readings in Danish Literature	

- 18 credits of Scandinavian studies from these two areas, with at least one course taken from each area:**

A. LANGUAGE, CULTURE AND HISTORY

Code	Title	Credits
SCAND ST 401	Contemporary Scandinavian Languages	
SCAND ST 405	Nynorsk språk og kultur	
SCAND ST/MEDIEVAL 407	Old Norse	

SCAND ST/ MEDIEVAL 408	Old Norse
SCAND ST/ MEDIEVAL 409	Survey of Old Norse-Icelandic Literature
SCAND ST 410	Introduction to Scandinavian Linguistics
SCAND ST 411	Areas in Scandinavian Literature
SCAND ST 414	History of the Scandinavian Languages I: Proto- to Common Scandinavian
SCAND ST 415	History of the Scandinavian Languages II: Standard Languages
SCAND ST 429	Mythology of Scandinavia
SCAND ST/ MEDIEVAL 430	The Vikings
SCAND ST/ HISTORY 431	History of Scandinavia to 1815
SCAND ST/ HISTORY 432	History of Scandinavia Since 1815
SCAND ST 433	The Scandinavian Tale and Ballad
SCAND ST 435	The Icelandic Sagas
SCAND ST/ FOLKLORE 440	Scandinavian American Folklore
SCAND ST/ FOLKLORE 443	Sami Culture, Yesterday and Today
SCAND ST/ MEDIEVAL 444	Kalevala and Finnish Folk-Lore
SCAND ST/ FOLKLORE/ MEDIEVAL 446	Celtic-Scandinavian Cultural Interrelations
SCAND ST 466	Greenland - Past, Present, and Future
SCAND ST 476	Scandinavian Life and Civilization II
SCAND ST 496	The Scandinavian Heritage in America
SCAND ST 510	Topics in Scandinavian Linguistics
SCAND ST 511	Paleography and Philology - Old Norse
SCAND ST/ HISTORY 577	Contemporary Scandinavia: Politics and History
SCAND ST 630	Fundamentals of Bibliography and Research

B. SCANDINAVIAN LITERATURE

Code	Title	Credits
SCAND ST 373	Masterpieces of Scandinavian Literature: From the Middle Ages to 1900	
SCAND ST 374	Masterpieces of Scandinavian Literature: the Twentieth Century	
SCAND ST 419	Scandinavian Children's Literature	
SCAND ST 420	The Woman in Scandinavian Literature	
SCAND ST 421	Advanced Topics in Nordic Studies (1 Norwegian-American Folksong)	

SCAND ST 421	Advanced Topics in Nordic Studies (2 Finnish-American Folksong)
SCAND ST 421	Advanced Topics in Nordic Studies (4 Hagiography in the North)
SCAND ST 422	The Drama of Henrik Ibsen
SCAND ST 423	The Drama of August Strindberg
SCAND ST 424	Nineteenth-Century Scandinavian Fiction
SCAND ST 425	Knut Hamsun and the 20th Century Norwegian Novel
SCAND ST 426	Kierkegaard and Scandinavian Literature
SCAND ST 427	Contemporary Scandinavian Literature
SCAND ST/ LITTRANS 428	Memory and Literature from Proust to Knausgard
SCAND ST 434	The Art of Isak Dinesen/Karen Blixen
SCAND ST 436	Topics in Scandinavian Literature
SCAND ST 437	Modern Scandinavian Drama
SCAND ST 450	Scandinavian Decadence in its European Context
SCAND ST 475	The Writings of Hans Christian Andersen for Scandinavian Majors
SCAND ST 501	Tal Och Skrift
SCAND ST 520	Special Topics
SCAND ST 634	Survey of Scandinavian Literature: 1500-1800
SCAND ST 635	Survey of Scandinavian Literature: 1800-1890
SCAND ST 636	Survey of Scandinavian Literature: 1890-1920

L&S REQUIREMENTS FOR RESIDENCE AND QUALITY OF WORK IN THE MAJOR:

1. 2.000 GPA in all SCAND ST courses, and all courses accepted in the major
2. 2.000 GPA on at least 15 credits of upper-level work in the major: SCAND ST373 through 699
3. 15 credits in SCAND ST taken on campus (and not through a UW-Madison Study Abroad program)

HONORS IN THE MAJOR

Students may declare Honors in the Scandinavian Studies Major in consultation with the Scandinavian Studies advisor(s).

HONORS IN THE SCANDINAVIAN STUDIES MAJOR REQUIREMENTS

To earn the B.A. or B.S. with Honors in the Major in Scandinavian Studies students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 for all SCAND ST courses, and all courses accepted in the major
- 8 Honors credits numbered SCAND ST 373 and higher

- 1 Survey of Scandinavian Literature series from the following:

Code	Title	Credits
SCAND ST 634	Survey of Scandinavian Literature: 1500-1800	3
SCAND ST 635	Survey of Scandinavian Literature: 1800-1890	3
SCAND ST 636	Survey of Scandinavian Literature: 1890-1920	3

- A two-semester Senior Honors Thesis in SCAND ST 681 and SCAND ST 682, for a total of 6 credits.

HISTORY

3211 Mosse Humanities Building, 455 North Park Street, Madison, WI 53706; 608-263-1800; history.wisc.edu

To study history is to study change: historians are experts in examining and interpreting human identities and transformations of societies and civilizations over time. They use a range of methods and analytical tools to answer questions about the past and to reconstruct the diversity of human experience: how profoundly people have differed in their ideas, institutions, and cultural practices; how widely their experiences have varied by time and place, and the ways they have struggled while inhabiting a shared world. Historians use a wide range of sources to weave individual lives and collective actions into narratives that bring critical perspectives on both our past and our present. Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped (and continues to shape) global, national, and local relationships between societies and people.

CELTIC STUDIES, CERTIFICATE

The requirements for the undergraduate certificate in Celtic studies are being reorganized. Admission to the program has been suspended,

effective fall 2015. The information that appears in this entry is provided for the benefit of students currently admitted to the program.

Celtic studies is a multidisciplinary field encompassing the history and culture of those peoples who presently inhabit the northwestern perimeter of Europe, including Ireland (both north and south), Scotland, Wales, Brittany, and the Isle of Man, as well as their diaspora communities. Since peoples speaking Celtic languages once occupied a much larger geographical area than this, Celtic studies also addresses the prehistory and early history of continental Europe.

The chief Celtic languages spoken today are Irish, Scots Gaelic, and Welsh. Each of these languages boasts a major literary tradition dating back to the Middle Ages. Along with studying old and new literature in these languages and in translation, Celtic studies also addresses the political and cultural history and legacy of emigration from Ireland and other traditionally Celtic regions to North America, Australia, and other parts of the world.

HOW TO GET IN

The requirements for the undergraduate certificate in Celtic studies are being reorganized. Admission to the program has been suspended, effective fall 2015. The information that appears in this entry is provided for the benefit of students currently admitted to the program.

REQUIREMENTS

The requirements for the undergraduate certificate in Celtic studies are being reorganized. Admission to the program has been suspended, effective fall 2015. The information that appears in this entry is provided for the benefit of students currently admitted to the program.

The certificate is available to students working for a baccalaureate degree in any UW–Madison school or college, as well as to Special students. The certificate requires at least 18 credits with a grade point average of at least 2.0. With permission of the Celtic studies advisor, up to 12 of those credits may be earned in the UW–Madison study-abroad programs at Trinity College Dublin and at the National University of Ireland–Galway, or through other approved study abroad programs.

Courses that contribute to the Celtic studies certificate are offered in a range of university departments and programs, including anthropology, classics, English, folklore, French and Italian, history, music, Scandinavian studies, sociology, theatre and drama, and gender and women's studies.

The Celtic studies website lists courses eligible for Celtic studies credit every semester. See courses (<http://celticstudies.wisc.edu/academics/courses>) for more information for courses that will apply to the certificate in Celtic studies.

HISTORY AND HISTORY OF SCIENCE, MEDICINE, AND TECHNOLOGY, B.A.

Admissions to the undergraduate major in history of science, medicine, and technology and the combined major history and history of science, medicine, and technology will be suspended effective fall 2017. Summer 2017 will be the last term students may declare the majors. Please consult with the history advisor about ways in which the history major can be completed with coursework in history of science and medical history.

To study history is to study change: historians are experts in examining and interpreting human identities and transformations of societies and civilizations over time. They use a range of methods and analytical tools to answer questions about the past and to reconstruct the diversity of human experience: how profoundly people have differed in their ideas, institutions, and cultural practices; how widely their experiences have varied by time and place, and the ways they have struggled while inhabiting a shared world. Historians use a wide range of sources to weave individual lives and collective actions into narratives that bring critical perspectives on both our past and our present. Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped (and continues to shape) global, national, and local relationships between societies and people.

HOW TO GET IN

Pending final approval by the University Academic Planning Committee, admission to this major will be suspended. Please consult with the history advisor about ways in which the history major can be completed with coursework in history of science and medical history.

Students interested in declaring a joint major in history and history of science, medicine, and technology should meet with an advisor in the history department. Information about advising and declaring the major is available on the undergraduate section (<https://history.wisc.edu/undergraduate-program>) of the department website.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	<ul style="list-style-type: none"> Complete the fourth unit of a foreign language; OR Complete the third unit of a foreign language and the second unit of an additional foreign language <p>Note: A unit is one year of high school work or one semester/term of college work.</p>
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework	108 credits
-------------------------------------	-------------

Depth of Intermediate/Advanced work	60 intermediate or advanced credits

Major	Declare and complete at least one (1) major
-------	---

Total Credits	120 credits
---------------	-------------

UW-Madison	30 credits in residence, overall
------------	----------------------------------

Experience	30 credits in residence after the 90th credit
------------	---

Minimum	2.000 in all coursework at UW–Madison
GPA	2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

A minimum of 30 credits in **history** and in **history of science, medicine, and technology** distributed as follows:

- At least four courses in **history**. Students are urged to take HISTORY 201 The Historian's Craft as one of these courses.
 - At least one of these courses must be in U.S. history.
 - At least one must be in European history.
 - At least one must be from one of the following Breadth categories: Africa, Central or East Asia, South or Southeast Asia, Latin America, Middle East, Transnational.
 - Though some courses may qualify in more than one Geographic Breadth area, a course may satisfy only one category for purposes of meeting the breadth requirement. Some topics courses in history may qualify for Geographic Breadth.
- At least four courses in **history of science, medicine, and technology**. Students are urged to take one or more of these from the 300–599 series.
- At least 15 credits of upper-level coursework (as defined by each department) of which at least 6 credits must be in history and at least 6 credits must be in history of science, medicine, and technology.
- At least one seminar course chosen from HISTORY 600 Advanced Seminar in History or HIST SCI 555 Undergraduate Seminar in History of Science.
- Knowledge of a science is recommended but not required for the joint major.

All students must fulfill the L&S requirements for Quality and Residence in the major.

- 2.000 GPA in major and required courses in the major
- 2.000 GPA on **15 upper-level major credits in residence** (I/A level). Students may fulfill this requirement with any of the major courses designated as intermediate or advanced.
- 15 credits in the major taken **on campus**

HONORS IN THE MAJOR

Students may declare Honors in the History and History of Science, Medicine and Technology Major in consultation with the History undergraduate advisor.

HONORS IN THE HISTORY AND HISTORY OF SCIENCE, MEDICINE AND TECHNOLOGY MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in History and History of Science, Medicine and Technology students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA

- Earn a 3.500 GPA for all HISTORY and HIST SCI courses
- Complete a minimum of 36 credits, to include five courses in HISTORY (with the same breadth requirements and recommendation for HISTORY 201 The Historian's Craft as the standard joint major above) and five courses in HIST SCI, of which three must be from the 300–599 series.
- Complete at least 21 credits of upper-level work¹ in the major while in residence²
- Complete HISTORY 600 Advanced Seminar in History and HIST SCI/MED HIST 284 Physician in History (Honors) (in conjunction with HIST SCI/MED HIST 212 Bodies, Diseases, and Healers: An Introduction to the History of Medicine).
- Complete a two-semester Senior Honors Thesis in HISTORY 681 Senior Honors Thesis and HISTORY 682 Senior Honors Thesis, for a total of 6 or more credits or History of Science Senior Honors Thesis HIST SCI 681 Senior Honors Thesis and HIST SCI 682 Senior Honors Thesis, for a total of 6 or more credits. Students choosing HISTORY 681–HISTORY 682 must take HISTORY 680 Honors Thesis Colloquium both semesters in conjunction with the thesis. Students choosing HIST SCI 681–HIST SCI 682 must take HIST SCI 555 Undergraduate Seminar in History of Science before embarking on the thesis; in exceptional cases, it may be taken in conjunction with HIST SCI 681.

¹ *Upper level* is defined as as courses numbered 300–699.

² *In residence* does include affiliated University of Wisconsin–Madison study abroad programs.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

GOALS OF THE MAJOR

The goal of the history major is to offer students the knowledge and skills they need to gain a critical perspective on the past. Students will learn to define important historical questions, analyze the relevant evidence with rigor and creativity, and present convincing conclusions based on original research in a manner that contributes to academic and public

discussions. In History, as in other humanistic disciplines, students will practice resourceful inquiry and careful reading. They will advance their writing and public speaking skills to engage historical and contemporary issues.

To ensure that students gain exposure to some of the great diversity of topics, methodologies, and philosophical concerns that inform the study of history, the department requires a combination of courses that offers depth, breadth, and variety of exposition. Through those courses, students should develop:

- Broad acquaintance with several geographic areas of the world and with both the pre-modern and modern eras.
- Familiarity with the range of sources and modes through which historical information can be found and expressed. Sources may include textual, oral, physical, and visual materials. The data within them may be qualitative or quantitative, and they may be available in printed, digital, or other formats. Modes of expression may include textbooks, monographs, scholarly articles, essays, literary works, or digital presentations.
- In-depth understanding of a topic of their choice through original or creative research.
- The ability to identify the skills developed in the history major and to articulate the applicability of those skills to a variety of endeavors and career paths beyond the professional practice of history.

If desired, students may also choose to pursue a Global Track within the History major that emphasizes the study of cross-cultural and transnational historical connections.

SKILLS DEVELOPED IN THE MAJOR

Define Important Historical Questions

- Pose a historical question and explain its academic and public implications.
- Using appropriate research procedures and aids, find the secondary resources in history and other disciplines available to answer a historical question.
- Evaluate the evidentiary and theoretical bases of pertinent historical conversations in order to highlight opportunities for further investigation.

Collect and Analyze Evidence

- Identify the range and limitations of sources available to engage the historical problem under investigation.
- Examine the context in which sources were created, search for chronological and other relationships among them, and assess the sources in light of that knowledge.
- Employ and, if necessary, modify appropriate theoretical frameworks to examine sources and develop arguments.

Present Original Conclusions

- Present original and coherent findings through clearly written, persuasive arguments and narratives.
- Orally convey persuasive arguments, whether in formal presentations or informal discussions.
- Use appropriate presentation formats and platforms to share information with academic and public audiences.

Contribute to Ongoing Discussions

- Extend insights from research to analysis of other historical problems.
- Demonstrate the relevance of a historical perspective to contemporary issues.
- Recognize, challenge, and avoid false analogies, overgeneralizations, anachronisms, and other logical fallacies.

To study history is to study change: historians are experts in examining and interpreting human identities and transformations of societies and civilizations over time. They use a range of methods and analytical tools to answer questions about the past and to reconstruct the diversity of human experience: how profoundly people have differed in their ideas, institutions, and cultural practices; how widely their experiences have varied by time and place, and the ways they have struggled while inhabiting a shared world. Historians use a wide range of sources to weave individual lives and collective actions into narratives that bring critical perspectives on both our past and our present. Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped (and continues to shape) global, national, and local relationships between societies and people.

HOW TO GET IN

Pending final approval by the University Academic Planning Committee, admission to this major will be suspended. Please consult with the history advisor about ways in which the history major can be completed with coursework in history of science and medical history.

To be accepted as a major in history of science, medicine, and technology, the student must declare with the history undergraduate advisor (<https://history.wisc.edu/undergraduate-program/undergraduate-advicing>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	<ul style="list-style-type: none"> Complete the fourth unit of a foreign language; OR Complete the third unit of a foreign language and the second unit of an additional foreign language <p>Note: A unit is one year of high school work or one semester/term of college work.</p>
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum	2.000 in all coursework at UW–Madison
GPA	2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR

Pending final approval by the University Academic Planning Committee, admission to this major will be suspended. Please consult with the history advisor about ways in which the history major can be completed with coursework in history of science and medical history.

The major requires a minimum of 30 credits.

Code	Title	Credits
Select at least 24 credits in history of science ¹		24
Select 6 credits in science or mathematics above the elementary level (not to include mathematics courses numbered 223 and below)		6
Total Credits		30

¹ All majors are required to take HIST SCI 555, the department's capstone seminar, in the junior or senior year.

One 3-credit course toward the 24-credit minimum may be chosen from approved courses in related disciplines. These courses include:

Code	Title	Credits
PHILOS 520	Philosophy of the Natural Sciences	3
PHILOS 521	Philosophy of the Social Sciences	3
PHILOS/ ENVIR ST 523	Philosophical Problems of the Biological Sciences	3
PHILOS/ MED HIST 558	Ethical Issues in Health Care	3
MED HIST/ AGRONOMY/ C&E SOC/ PHILOS 565	The Ethics of Modern Biotechnology	3-4
SOC 531	Sociology of Medicine	3

Other substitutions may be allowed at the discretion of the undergraduate advisor. ILS 201 Western Culture: Science, Technology, Philosophy I or ILS 202 Western Culture: Science, Technology, Philosophy II may be used in place of HIST SCI 201 The Origins of Scientific Thought or HIST SCI 202 The Making of Modern Science to count toward the major requirements; ILS 271 Pre-Copernican Astronomy and Cosmology in Crosscultural Perspective may be used as a regular course in the major.

All students must fulfill the L&S requirement of at least **15 credits of upper-level work in the major** completed in residence. Departmental courses above the elementary level count toward this requirement.

HONORS IN THE MAJOR

Students may declare Honors in the History of Science, Medicine and Technology Major in consultation with the departmental undergraduate advisor.

HONORS IN THE HISTORY OF SCIENCE, MEDICINE AND TECHNOLOGY MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in History of Science, Medicine and Technology students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all upper-level¹ HIST SCI courses
- Of the 24 departmental credits required, at least 15 must come from courses numbers 300–599 or HIST SCI 615 The History of Evolutionary Thought
- Complete one of the following: HIST SCI 180 Freshman Honors Seminar: History of Science, Technology and Medicine, HIST SCI 280 Honors Seminar: Studies in Science, Technology, Medicine, HIST SCI/MED HIST 284 Physician in History (Honors) (in conjunction with HIST SCI/MED HIST 212 Bodies, Diseases, and Healers: An Introduction to the History of Medicine), or one seminar (minimum of 3 credits) offered by the department at the upper-division level.
- HIST SCI 555 Undergraduate Seminar in History of Science should be taken before embarking on the Senior Honors Thesis; in exceptional cases, HIST SCI 555 Undergraduate Seminar in History of Science may be taken concurrently with HIST SCI 681 Senior Honors Thesis.
- Complete a two-semester Senior Honors Thesis in HIST SCI 681 Senior Honors Thesis and HIST SCI 682 Senior Honors Thesis, for a total of 6 credits.

¹ Upper level includes all intermediate- and advanced-level courses

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

GOALS OF THE MAJOR

The goal of the history major is to offer students the knowledge and skills they need to gain a critical perspective on the past. Students will learn to define important historical questions, analyze the relevant evidence with rigor and creativity, and present convincing conclusions based on original research in a manner that contributes to academic and public discussions. In History, as in other humanistic disciplines, students will practice resourceful inquiry and careful reading. They will advance their writing and public speaking skills to engage historical and contemporary issues.

To ensure that students gain exposure to some of the great diversity of topics, methodologies, and philosophical concerns that inform the study of history, the department requires a combination of courses that offers depth, breadth, and variety of exposition. Through those courses, students should develop:

- Broad acquaintance with several geographic areas of the world and with both the pre-modern and modern eras.
- Familiarity with the range of sources and modes through which historical information can be found and expressed. Sources may include textual, oral, physical, and visual materials. The data within them may be qualitative or quantitative, and they may be available in printed, digital, or other formats. Modes of expression may include textbooks, monographs, scholarly articles, essays, literary works, or digital presentations.
- In-depth understanding of a topic of their choice through original or creative research.
- The ability to identify the skills developed in the history major and to articulate the applicability of those skills to a variety of endeavors and career paths beyond the professional practice of history.

If desired, students may also choose to pursue a Global Track within the History major that emphasizes the study of cross-cultural and transnational historical connections.

SKILLS DEVELOPED IN THE MAJOR

Define Important Historical Questions

- Pose a historical question and explain its academic and public implications.
- Using appropriate research procedures and aids, find the secondary resources in history and other disciplines available to answer a historical question.
- Evaluate the evidentiary and theoretical bases of pertinent historical conversations in order to highlight opportunities for further investigation.

Collect and Analyze Evidence

- Identify the range and limitations of sources available to engage the historical problem under investigation.
- Examine the context in which sources were created, search for chronological and other relationships among them, and assess the sources in light of that knowledge.
- Employ and, if necessary, modify appropriate theoretical frameworks to examine sources and develop arguments.

Present Original Conclusions

- Present original and coherent findings through clearly written, persuasive arguments and narratives.
- Orally convey persuasive arguments, whether in formal presentations or informal discussions.
- Use appropriate presentation formats and platforms to share information with academic and public audiences.

Contribute to Ongoing Discussions

- Extend insights from research to analysis of other historical problems.
- Demonstrate the relevance of a historical perspective to contemporary issues.
- Recognize, challenge, and avoid false analogies, overgeneralizations, anachronisms, and other logical fallacies.

HISTORY OF SCIENCE, MEDICINE, AND TECHNOLOGY, B.S.

Admissions to the undergraduate major in history of science, medicine, and technology and the combined major history and history of science, medicine, and technology will be suspended effective fall 2017. Summer 2017 will be the last term students may declare the majors. Please consult with the history advisor about ways in which the history major can be completed with coursework in history of science and medical history.

To study history is to study change: historians are experts in examining and interpreting human identities and transformations of societies and civilizations over time. They use a range of methods and analytical tools to answer questions about the past and to reconstruct the diversity of human experience: how profoundly people have differed in their ideas, institutions, and cultural practices; how widely their experiences have varied by time and place, and the ways they have struggled while inhabiting a shared world. Historians use a wide range of sources to weave individual lives and collective actions into narratives that bring critical perspectives on both our past and our present. Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped (and continues to shape) global, national, and local relationships between societies and people.

HOW TO GET IN

Pending final approval by the University Academic Planning Committee, admission to this major will be suspended. Please consult with the history advisor about ways in which the history major can be completed with coursework in history of science and medical history.

To be accepted as a major in history of science, medicine, and technology, the student must declare with the history undergraduate advisor (<https://history.wisc.edu/undergraduate-program/undergraduate-advising>).

HISTORY, B.A.

3211 Mosse Humanities Building, 455 North Park Street, Madison, WI 53706; 608-263-1800; history.wisc.edu

To study history is to study change: historians are experts in examining and interpreting human identities and transformations of societies and civilizations over time. They use a range of methods and analytical tools to answer questions about the past and to reconstruct the diversity of human experience: how profoundly people have differed in their ideas, institutions, and cultural practices; how widely their experiences have varied by time and place, and the ways they have struggled while inhabiting a shared world. Historians use a wide range of sources to weave individual lives and collective actions into narratives that bring critical perspectives on both our past and our present. Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped (and continues to shape) global, national, and local relationships between societies and people.

HOW TO GET IN

Students interested in declaring a history major should meet with an advisor in the history department. Information about advising and declaring the major is available on the undergraduate section (<https://history.wisc.edu/undergraduate-program>) of the department website. There are no prerequisites for declaring the history major, and students are encouraged to declare as soon as they feel comfortable doing so.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language
	Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature
	• Social Sciences, 12 credits
	• Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum	2.000 in all coursework at UW–Madison
GPAs	2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS OF THE MAJOR

A minimum of 30 credits in HISTORY is required to complete the major, including:

CHRONOLOGICAL BREADTH:

History majors must complete at least one course that deals with the history of Europe and/or the Mediterranean before C.E. 1500 or with the history of Africa or Asia before these areas fell heavily under European influence.

CHRONOLOGICAL BREADTH COURSES

Code	Title	Credits
HISTORY/ CLASSICS 110	The Ancient Mediterranean	4

NOTES ON HISTORY BREADTH REQUIREMENTS

- Breadth courses may be taken in any order.

- Chronological Breadth courses may also count toward a Geographic Breadth category.
- Some courses qualify for more than one Geographic Breadth area, but a course may only count for one Geographic Breadth category for the purposes of meeting the requirement.
- Topics courses in history (HISTORY 200, HISTORY 201, HISTORY 221, HISTORY 223, HISTORY 225, HISTORY 227, HISTORY 229, HISTORY 271, HISTORY 272, HISTORY 273, HISTORY 274, HISTORY 275, HISTORY 283, & HISTORY 500) may count for Geographic and/or Chronological Breadth. For topics courses, see the course notes for current breadth information.
- The following courses **may not be used** for breadth in the major: HISTORY 199, HISTORY 600, HISTORY 680, HISTORY 681, HISTORY 682, HISTORY 690, HISTORY 691, HISTORY 692, HISTORY 698, & HISTORY 699.

HISTORY WRITING AND RESEARCH SEQUENCE:

History majors must complete both of the following:

- HISTORY 201 The Historian's Craft. Students are encouraged to complete History 201 as early as possible.
- HISTORY 600 Advanced Seminar in History, to be taken after satisfactory completion of History 201. Enrolling in a History 600 seminar requires instructor consent. Available seminars can be found on the history department website (<https://history.wisc.edu/history600-seminars>).

L&S REQUIREMENTS FOR QUALITY AND RESIDENCE IN THE MAJOR:

- 2.000 GPA in HISTORY and required courses in the major
- 2.000 GPA on **15 upper-level major credits in residence**. HISTORY courses designated as intermediate or advanced are upper level in the major.
- 15 credits **HISTORY** taken on **campus**

GLOBAL HISTORY TRACK

Any undergraduate history major may choose to pursue the Global Track by completing all requirements for the history major above, and these additional requirements:

- Geographic Breadth:** one additional course, in a fifth breadth area; at least one of the five breadth courses must be from the Transnational category
- Foreign Language or Experience Requirement:** one of the following options:
 - Completion of the 5th unit of a single foreign language, defined as the 5th semester of college instruction or the 5th year of high school instruction
 - ESL 118 Academic Writing II
 - 3 credits of coursework from a UW–Madison Study Abroad Program

Note: The Global History Track is unofficial and will not be recorded on a student's final transcript. For purposes of graduation auditing, DARS will display the track as an informational section only.

DISTINCTION IN THE MAJOR

To be awarded Distinction in the Major, students must:

- Achieve a GPA of at least 3.700 out of 4.000 in HISTORY courses

- Complete a minimum of 21 upper-level credits in major coursework. HISTORY courses designated as intermediate or advanced are upper level in the major.
- Complete all requirements of the major

Students should consult the undergraduate advisor in history regarding current requirements for the major.

HONORS IN THE MAJOR

Students may declare Honors in the History Major in consultation with the History undergraduate advisor.

HONORS IN HISTORY MAJOR REQUIREMENTS

To earn the B.A. or B.S. with Honors in the Major in History students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in all HISTORY courses
- Complete at least 36 credits in HISTORY coursework, 21 of which must be upper-level¹ credits in residence
- Complete at least 15 Honors credits in HISTORY coursework
- Complete a two-semester Senior Honors Thesis, a piece of original work of approximately forty pages, in HISTORY 681 Senior Honors Thesis–HISTORY 682 Senior Honors Thesis, taken in conjunction with the HISTORY 680 Honors Thesis Colloquium both semesters. The thesis must be approved by instructors in both the thesis and colloquium courses.

¹ Courses with intermediate or advanced level are upper level in the history major

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

GOALS OF THE MAJOR

The goal of the history major is to offer students the knowledge and skills they need to gain a critical perspective on the past. Students will learn to define important historical questions, analyze the relevant evidence with rigor and creativity, and present convincing conclusions based on original research in a manner that contributes to academic and public discussions. In History, as in other humanistic disciplines, students will practice resourceful inquiry and careful reading. They will advance their writing and public speaking skills to engage historical and contemporary issues.

To ensure that students gain exposure to some of the great diversity of topics, methodologies, and philosophical concerns that inform the study of history, the department requires a combination of courses that offers depth, breadth, and variety of exposition. Through those courses, students should develop:

- Broad acquaintance with several geographic areas of the world and with both the pre-modern and modern eras.
- Familiarity with the range of sources and modes through which historical information can be found and expressed. Sources may include textual, oral, physical, and visual materials. The data within them may be qualitative or quantitative, and they may be available in printed, digital, or other formats. Modes of expression may include textbooks, monographs, scholarly articles, essays, literary works, or digital presentations.
- In-depth understanding of a topic of their choice through original or creative research.
- The ability to identify the skills developed in the history major and to articulate the applicability of those skills to a variety of endeavors and career paths beyond the professional practice of history.

If desired, students may also choose to pursue a Global Track within the History major that emphasizes the study of cross-cultural and transnational historical connections.

SKILLS DEVELOPED IN THE MAJOR

Define Important Historical Questions

- Pose a historical question and explain its academic and public implications.
- Using appropriate research procedures and aids, find the secondary resources in history and other disciplines available to answer a historical question.
- Evaluate the evidentiary and theoretical bases of pertinent historical conversations in order to highlight opportunities for further investigation.

Collect and Analyze Evidence

- Identify the range and limitations of sources available to engage the historical problem under investigation.
- Examine the context in which sources were created, search for chronological and other relationships among them, and assess the sources in light of that knowledge.
- Employ and, if necessary, modify appropriate theoretical frameworks to examine sources and develop arguments.

Present Original Conclusions

- Present original and coherent findings through clearly written, persuasive arguments and narratives.
- Orally convey persuasive arguments, whether in formal presentations or informal discussions.
- Use appropriate presentation formats and platforms to share information with academic and public audiences.

Contribute to Ongoing Discussions

- Extend insights from research to analysis of other historical problems.
- Demonstrate the relevance of a historical perspective to contemporary issues.
- Recognize, challenge, and avoid false analogies, overgeneralizations, anachronisms, and other logical fallacies.

ADVISING AND CAREERS

Students declared in, or interested in, the history major have numerous advising resources available to them. The advising team is comprised of professional and peer advisors who are excited to talk with students about everything from academic planning to professional development for future careers. Information on the History advising team, how to contact an advisor, how to schedule an appointment, and drop-in advising hours can be found on our website (<https://history.wisc.edu/undergraduate-program/undergraduate-advising>).

The Honors in the Major track in history is intended for students who are eager to experience the excitement of original historical research and who wish to graduate with the best possible undergraduate training in this discipline. Honors in the Major is especially appropriate for students who are considering graduate work in history or who want an especially rigorous training in research, reasoning, and writing skills useful to a wide range of career choices.

Upcoming career events and internship opportunities are also available on the History Advising Blog (<http://uwhistoryadvising.blogspot.com>).

RESOURCES AND SCHOLARSHIPS

THE HISTORY LAB

The History Lab is a resource center for undergraduate students studying, researching, and writing about the past. It is staffed by talented and experienced graduate students from the Department of History.

Through individual and group tutoring, the Lab focuses on honing students' abilities to form suitable topics, conduct research, develop arguments and thesis statements, cite evidence properly, and write using an effective process. The lab is equipped also to support challenges faced by English-language learners.

For more information or to make an appointment, see the History Lab website. (<https://history.wisc.edu/undergraduate-program/the-history-lab>)

RESEARCH FELLOWSHIPS AND SCHOLARSHIPS

The Department of History is committed to supporting undergraduate achievement and encourages applications for the various scholarships and research fellowships made possible by the generosity of its donors. Scholarships are designed to reward outstanding History majors and are awarded annually. Research fellowships allow undergraduates to pursue in-depth historical research under the guidance of Department of History faculty. These awards help defray research costs such as supplies and

travel expenses or pay for living expenses to allow students time to craft their papers and conduct research in UW Libraries.

Detailed instructions on how to apply can be found on the Department of History website (<https://history.wisc.edu/undergraduate-program/history-the-wisconsin-experience/undergraduate-scholarships>).

Applications need to be submitted online, via Scholarships@UW-Madison (<http://scholarships.wisc.edu/Scholarships>).

UNDERGRADUATE WRITING PRIZES

The history department offers an assortment of essay prizes designed to reward a broad range of undergraduate writing—from Senior Theses to term papers to specialized essays in German-Jewish history. The prizes are made possible thanks to the tremendous generosity of our alumni and former members of our faculty. The history department expresses its gratitude for their support in recognizing the achievements of our undergraduates.

Detailed instructions on how to apply can be found on the Department of History website (<https://history.wisc.edu/undergraduate-program/history-the-wisconsin-experience/undergraduate-scholarships>). Applications need to be submitted online, via Scholarships@UW-Madison (<http://scholarships.wisc.edu/Scholarships>).

HISTORY, B.S.

3211 Mosse Humanities Building, 455 North Park Street, Madison, WI 53706; 608-263-1800; history.wisc.edu

To study history is to study change: historians are experts in examining and interpreting human identities and transformations of societies and civilizations over time. They use a range of methods and analytical tools to answer questions about the past and to reconstruct the diversity of human experience: how profoundly people have differed in their ideas, institutions, and cultural practices; how widely their experiences have varied by time and place, and the ways they have struggled while inhabiting a shared world. Historians use a wide range of sources to weave individual lives and collective actions into narratives that bring critical perspectives on both our past and our present. Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped (and continues to shape) global, national, and local relationships between societies and people.

HOW TO GET IN

Students interested in declaring a history major should meet with an advisor in the history department. Information about advising and declaring the major is available on the undergraduate section (<https://history.wisc.edu/undergraduate-program>) of the department website. There are no prerequisites for declaring the history major, and students are encouraged to declare as soon as they feel comfortable doing so.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education

requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework	108 credits
-------------------------------------	-------------

Depth of Intermediate/Advanced work	60 intermediate or advanced credits
-------------------------------------	-------------------------------------

Major	Declare and complete at least one (1) major
-------	---

Total Credits	120 credits
---------------	-------------

UW-Madison Experience	30 credits in residence, overall
Minimum GPAs	30 credits in residence after the 90th credit
	2.000 in all coursework at UW–Madison
	2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS OF THE MAJOR

A minimum of 30 credits in HISTORY is required to complete the major, including:

CHRONOLOGICAL BREADTH:

History majors must complete at least one course that deals with the history of Europe and/or the Mediterranean before C.E. 1500 or with the history of Africa or Asia before these areas fell heavily under European influence.

NOTES ON HISTORY BREADTH REQUIREMENTS

- Breadth courses may be taken in any order.

- Chronological Breadth courses may also count toward a Geographic Breadth category.
- Some courses qualify for more than one Geographic Breadth area, but a course may only count for one Geographic Breadth category for the purposes of meeting the requirement.
- Topics courses in history (HISTORY 200, HISTORY 201, HISTORY 221, HISTORY 223, HISTORY 225, HISTORY 227, HISTORY 229, HISTORY 271, HISTORY 272, HISTORY 273, HISTORY 274, HISTORY 275, HISTORY 283, & HISTORY 500) may count for Geographic and/or Chronological Breadth. For topics courses, see the course notes for current breadth information.
- The following courses **may not be used** for breadth in the major: HISTORY 199, HISTORY 600, HISTORY 680, HISTORY 681, HISTORY 682, HISTORY 690, HISTORY 691, HISTORY 692, HISTORY 698, & HISTORY 699.

HISTORY WRITING AND RESEARCH SEQUENCE:

History majors must complete both of the following:

- HISTORY 201 The Historian's Craft. Students are encouraged to complete History 201 as early as possible.
- HISTORY 600 Advanced Seminar in History, to be taken after satisfactory completion of History 201. Enrolling in a History 600 seminar requires instructor consent. Available seminars can be found on the history department website (<https://history.wisc.edu/history600-seminars>).

L&S REQUIREMENTS FOR QUALITY AND RESIDENCE IN THE MAJOR:

- 2.000 GPA in HISTORY and required courses in the major
- 2.000 GPA on **15 upper-level major credits in residence**. HISTORY courses designated as intermediate or advanced are upper level in the major.
- 15 credits **HISTORY** taken on **campus**

GLOBAL HISTORY TRACK

Any undergraduate history major may choose to pursue the Global Track by completing all requirements for the history major above, and these additional requirements:

- **Geographic Breadth:** one additional course, in a fifth breadth area; at least one of the five breadth courses must be from the Transnational category
- **Foreign Language or Experience Requirement:** one of the following options:
 - Completion of the 5th unit of a single foreign language, defined as the 5th semester of college instruction or the 5th year of high school instruction
 - ESL 118 Academic Writing II
 - 3 credits of coursework from a UW–Madison Study Abroad Program

Note: The Global History Track is unofficial and will not be recorded on a student's final transcript. For purposes of graduation auditing, DARS will display the track as an informational section only.

DISTINCTION IN THE MAJOR

To be awarded Distinction in the Major, students must:

- Achieve a GPA of at least 3.700 out of 4.000 in HISTORY courses

- Complete a minimum of 21 upper-level credits in major coursework. HISTORY courses designated as intermediate or advanced are upper level in the major.
- Complete all requirements of the major

Students should consult the undergraduate advisor in history regarding current requirements for the major.

HONORS IN THE MAJOR

Students may declare Honors in the History Major in consultation with the History undergraduate advisor.

HONORS IN HISTORY MAJOR REQUIREMENTS

To earn the B.A. or B.S. with Honors in the Major in History students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in all HISTORY courses
- Complete at least 36 credits in HISTORY coursework, 21 of which must be upper-level¹ credits in residence
- Complete at least 15 Honors credits in HISTORY coursework
- Complete a two-semester Senior Honors Thesis, a piece of original work of approximately forty pages, in HISTORY 681 Senior Honors Thesis–HISTORY 682 Senior Honors Thesis, taken in conjunction with the HISTORY 680 Honors Thesis Colloquium both semesters. The thesis must be approved by instructors in both the thesis and colloquium courses.

¹ Courses with intermediate or advanced level are upper level in the history major

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

GOALS OF THE MAJOR

The goal of the history major is to offer students the knowledge and skills they need to gain a critical perspective on the past. Students will learn to define important historical questions, analyze the relevant evidence with rigor and creativity, and present convincing conclusions based on original research in a manner that contributes to academic and public discussions. In History, as in other humanistic disciplines, students will practice resourceful inquiry and careful reading. They will advance their writing and public speaking skills to engage historical and contemporary issues.

To ensure that students gain exposure to some of the great diversity of topics, methodologies, and philosophical concerns that inform the study of history, the department requires a combination of courses that offers depth, breadth, and variety of exposition. Through those courses, students should develop:

- Broad acquaintance with several geographic areas of the world and with both the pre-modern and modern eras.
- Familiarity with the range of sources and modes through which historical information can be found and expressed. Sources may include textual, oral, physical, and visual materials. The data within them may be qualitative or quantitative, and they may be available in printed, digital, or other formats. Modes of expression may include textbooks, monographs, scholarly articles, essays, literary works, or digital presentations.
- In-depth understanding of a topic of their choice through original or creative research.
- The ability to identify the skills developed in the history major and to articulate the applicability of those skills to a variety of endeavors and career paths beyond the professional practice of history.

If desired, students may also choose to pursue a Global Track within the History major that emphasizes the study of cross-cultural and transnational historical connections.

SKILLS DEVELOPED IN THE MAJOR

Define Important Historical Questions

- Pose a historical question and explain its academic and public implications.
- Using appropriate research procedures and aids, find the secondary resources in history and other disciplines available to answer a historical question.
- Evaluate the evidentiary and theoretical bases of pertinent historical conversations in order to highlight opportunities for further investigation.

Collect and Analyze Evidence

- Identify the range and limitations of sources available to engage the historical problem under investigation.
- Examine the context in which sources were created, search for chronological and other relationships among them, and assess the sources in light of that knowledge.
- Employ and, if necessary, modify appropriate theoretical frameworks to examine sources and develop arguments.

Present Original Conclusions

- Present original and coherent findings through clearly written, persuasive arguments and narratives.
- Orally convey persuasive arguments, whether in formal presentations or informal discussions.
- Use appropriate presentation formats and platforms to share information with academic and public audiences.

Contribute to Ongoing Discussions

- Extend insights from research to analysis of other historical problems.
- Demonstrate the relevance of a historical perspective to contemporary issues.
- Recognize, challenge, and avoid false analogies, overgeneralizations, anachronisms, and other logical fallacies.

ADVISING AND CAREERS

Students declared in, or interested in, the history major have numerous advising resources available to them. The advising team is comprised of professional and peer advisors who are excited to talk with students about everything from academic planning to professional development for future careers. Information on the History advising team, how to contact an advisor, how to schedule an appointment, and drop-in advising hours can be found on our website (<https://history.wisc.edu/undergraduate-program/undergraduate-advising>).

The Honors in the Major track in history is intended for students who are eager to experience the excitement of original historical research and who wish to graduate with the best possible undergraduate training in this discipline. Honors in the Major is especially appropriate for students who are considering graduate work in history or who want an especially rigorous training in research, reasoning, and writing skills useful to a wide range of career choices.

Upcoming career events and internship opportunities are also available on the History Advising Blog (<http://uwhistoryadvising.blogspot.com>).

RESOURCES AND SCHOLARSHIPS

THE HISTORY LAB

The History Lab is a resource center for undergraduate students studying, researching, and writing about the past. It is staffed by talented and experienced graduate students from the Department of History.

Through individual and group tutoring, the Lab focuses on honing students' abilities to form suitable topics, conduct research, develop arguments and thesis statements, cite evidence properly, and write using an effective process. The lab is equipped also to support challenges faced by English-language learners.

For more information or to make an appointment, see the History Lab website. (<https://history.wisc.edu/undergraduate-program/the-history-lab>)

RESEARCH FELLOWSHIPS AND SCHOLARSHIPS

The Department of History is committed to supporting undergraduate achievement and encourages applications for the various scholarships and research fellowships made possible by the generosity of its donors. Scholarships are designed to reward outstanding History majors and are awarded annually. Research fellowships allow undergraduates to pursue in-depth historical research under the guidance of Department of History faculty. These awards help defray research costs such as supplies and

travel expenses or pay for living expenses to allow students time to craft their papers and conduct research in UW Libraries.

Detailed instructions on how to apply can be found on the Department of History website (<https://history.wisc.edu/undergraduate-program/history-the-wisconsin-experience/undergraduate-scholarships>).

Applications need to be submitted online, via Scholarships@UW-Madison (<http://scholarships.wisc.edu/Scholarships>).

UNDERGRADUATE WRITING PRIZES

The history department offers an assortment of essay prizes designed to reward a broad range of undergraduate writing—from Senior Theses to term papers to specialized essays in German-Jewish history. The prizes are made possible thanks to the tremendous generosity of our alumni and former members of our faculty. The history department expresses its gratitude for their support in recognizing the achievements of our undergraduates.

Detailed instructions on how to apply can be found on the Department of History website (<https://history.wisc.edu/undergraduate-program/history-the-wisconsin-experience/undergraduate-scholarships>). Applications need to be submitted online, via Scholarships@UW-Madison (<http://scholarships.wisc.edu/Scholarships>).

MEDIEVAL STUDIES, CERTIFICATE

Medieval studies offers students interdisciplinary perspectives on the history of Europe and the Mediterranean rim between ca. 300-1500. courses spanning 18 departments allow students to explore the medieval world from the standpoints of art, visual and material culture, history, law, languages and literature, music, philosophy, religious studies and the history of science and medicine. The certificate in medieval studies is designed to encourage pursuit of interdisciplinary work among several departments.

The Middle Ages was a dynamic period of trans-continental trade and travel that fostered cultural, technological and scientific interactions among the kingdoms and city states of Western Europe, the Byzantine (East Roman) Empire and the Islamic caliphates that eventually encompassed much of Spain, north Africa and the Middle East. It is also known that the Norse (Vikings) established settlements in North America as early as ca. 1000, some 500 years before Columbus.

In Western Europe, the Middle Ages laid the foundations of constitutional government and modern nation-states, instituted a system of trial by jury, and developed the first universities along with the concept of a liberal arts curriculum (encompassing both arts and sciences). The period also saw the development of English, Germanic, Scandinavian and romance languages and literature, which came to eclipse Latin by the end of the fourteenth century as vehicles for secular poetry and prose. Further east, Greek dominated the territory of the Byzantine Empire, while the foundation of the Kievan Rus coincided with the development of Cyrillic script used by Russian and other Slavic languages. The Islamic world saw the wide diffusion of Arabic languages and literature, including scientific works which served to mediate knowledge of Greek natural philosophy and medical science to Western Europe.

Other significant cultural developments include the development of the codex or book often with elaborate programs of visual imagery and diagrams, the innovation of musical notation and early forms of polyphony in Europe, the application of optical science to urban planning

and of one-point perspective to painting especially in Italy, and the refinement of structural engineering that led to the soaring light-filled architecture of Gothic cathedrals in Western Europe and expansive centralized domed spaces in the Byzantine Empire and related Orthodox states, as well as in the Islamic world.

The program's focus is embodied in the interdisciplinary courses offered under the auspices of medieval studies. For example, MEDIEVAL/HISTORY 215 Life in the Middle Ages: An Inter-Departmental Course provides a survey of civilization and culture in medieval times.

The program cross-lists a number of courses on particular aspects of medieval history and culture that are offered by participating departments, helps to publicize courses with medieval subject matter that are not permanently cross-listed, and offers opportunities for students to undertake independent-study projects with participating faculty members. It also regularly organizes public programming on specific themes under the auspices of the Borghesi-Mellon Workshops administered by the Center for the Humanities.

In addition to departments and programs that cross-list courses with Medieval Studies—Art History, CANES (Classical and Near Eastern Studies), English, French and Italian, German, History, History of Medicine, History of Science, Religious Studies, Scandinavian Studies, Spanish and Portuguese, Women's Studies—the following departments and programs occasionally offer courses and seminars in the medieval area: African Languages and Literature, Comparative Literature, Folklore, Languages and Cultures of Asia, Music, Philosophy, and Political Science.

Like a minor, the certificate documents a rigorous course of study in addition to the major(s). It attests ambitious intellectual goals as well as the ability to imagine historical problems in transnational and transcultural perspectives. As a credential, it demonstrates a capacity for comparative critical thinking and analysis, skills that appeal to a wide range of potential employers.

HOW TO GET IN

Students interested in working toward the certificate should contact the director of medieval studies as early in their degree program as possible. The director serves as the undergraduate advisor for all students pursuing the certificate. For further information see the Medieval Studies website (<http://www.medievalstudies.wisc.edu>).

REQUIREMENTS

The certificate requires the completion of **five courses (15 credits)** in the medieval area, according to the following distributional requirements.

Students interested in working toward the certificate should contact the director of medieval studies as early in their degree program as possible. The director serves as the undergraduate advisor for all students pursuing the certificate. For further information see the Medieval Studies website (<http://www.medievalstudies.wisc.edu>).

RESIDENCE AND QUALITY OF WORK

8 credits counting toward the certificate, taken in residence

A cumulative 3.000 GPA in all courses counting toward the certificate

ADDITIONAL NOTES

In addition to the required courses, all certificate candidates are encouraged to enhance their work in medieval studies by acquiring a reading knowledge of a modern European language as early as possible. Studying Latin in addition is strongly recommended for those who plan to graduate work in the field.

In consultation with the director, students may choose to work beyond the certificate to a self-designed major in medieval studies. For further information, contact the director of medieval studies.

LEARNING OUTCOMES

The aim of the Medieval Studies Program is to apply interdisciplinary approaches to the rich history and culture of this long historical period. Opportunities for studies in this area are intended:

1. to provide opportunities for students and faculty to pool their interests and knowledge and explore the interrelationships among the medieval studies disciplines in ways usually not feasible within conventional academic compartmentalization;
2. to help interested undergraduates develop skills in historical languages, critical reading of primary sources of all kinds (texts, visual and material culture, music and oral culture), historiography and current methodologies necessary to prepare them for graduate studies in medieval areas;
3. to provide opportunities for students and faculty to pool their interests and knowledge and explore the interrelationships among the medieval disciplines in ways usually not feasible within conventional academic compartmentalization;
4. to offer the non-specialist critical analytical skills and historical perspectives on current issues such as religious conflict and the concept of "holy war", colonialism and cultural globalism, gender and sexual identity, scientific and technological innovation; and
5. to foster appreciation of all aspects of medieval culture and its manifestations in contemporary popular culture.

ADVISING AND CAREERS

Students can obtain advising for the certificate by contacting the director of medieval studies. The director serves as the undergraduate advisor

for all students pursuing the certificate. For further information see the Medieval Studies website (<http://www.medievalstudies.wisc.edu>).

AFRICAN STUDIES, CERTIFICATE

The African Studies Program supports research, teaching, and outreach at the University of Wisconsin–Madison, bringing together scholars in multiple disciplines, students, teachers, and community partners to consider all aspects of land and life in Africa. The African Studies Program is a U. S. Department of Education Title VI National Resource Center for Africa, a unit in The International Division, and a member of the campus consortium of internationally oriented programs known as the Institute for Regional and International Studies (<http://iris.wisc.edu>).

The program was established in 1961 by an interdisciplinary team of internationally respected scholars including Jan Vasina, Philip Curtin, Frederick Simoons, and Aristrade Zolberg. The center continues to enjoy a reputation for excellence, having awarded more degrees to Africa specialists than any other American university. No other university boasts such a depth and range of expertise in Africanist scholarship. Over 70 affiliated faculty offer more than 100 courses in 35 departments around campus. The department of African Cultural Studies offers students an opportunity to study a number of African languages including Arabic, Hausa, Swahili, Yoruba, Wolof, and Zulu, as well as options for self-directed study of less-commonly taught languages.

Undergraduates from any department can benefit from access to our programs and top ranked faculty by completing a certificate in African studies. The certificate is highly interdisciplinary and welcomes students with backgrounds in the humanities, social sciences, business, health, agriculture, or the environment. What unites certificate students is a shared interest in the people, places, and stories of the continent of Africa.

A certificate in African Studies indicates that a student has acquired an interdisciplinary knowledge about the African continent, its histories, its stories, and its people. African studies alumni serve in a number of important leadership positions in both the private and public sector. Former students have gone on to serve as ambassadors, presidential advisors, and leaders of investment firms and Washington think tanks. Many undergraduate certificate holders launch their internationally-oriented careers by joining the Peace Corps after graduation.

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the African Studies Program office (asp@africa.wisc.edu) or the undergraduate advisor (advising@africa.wisc.edu).

¹ No more than two courses from any one SUBJECT may count toward the certificate. A cross-listed course may count in either—but not both—SUBJECTS in which it is cross-listed.

RESIDENCE & QUALITY OF WORK

2.000 GPA on all certificate-approved courses

8 credits in the certificate, in residence

LEARNING OUTCOMES

- Historical Grounding:** understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
- Multi-disciplinarity:** analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives,

ideally including humanities, social sciences and sometimes natural science approaches.

- Depth of knowledge:** mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline

ADVISING AND CAREERS

We require that students visit with the advisor at least once per semester. Advising for the certificate is run by the African Studies Program advisor, who can assist you in developing your plan of study for the certificate, track progress toward the certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments.

We strongly encourage students to enroll in Africa: An Introductory Survey (AFRICAN/AFROAMER/ANTHRO/GEOG/HISTORY/POLI SCI/ SOC 277), to study an African language, and to study abroad on the continent.

Turner (Geography)

Conway (School of Medicine and Public Health)

ASIAN STUDIES, B.A.

Asian Studies is divided into two concentrations:

- East Asian Studies
- Southeast Asian Studies

CONCENTRATION IN EAST ASIAN STUDIES

The Asian studies major with an East Asian studies concentration encompasses China, Japan, and Korea—Pacific Rim nations characterized by rich cultural heritages, critical geopolitical positions and rapidly expanding economies. East Asia plays a central role in world politics and the global economy, and the importance of this region will increase in the 21st century.

This concentration is for undergraduates who are interested in a wide range of careers (business, public service, law, teaching, research, etc.) and who seek a focused yet multidisciplinary education with solid grounding in East Asian language and civilization. Students interested in the major should begin language study as early as possible.

CONCENTRATION IN SOUTHEAST ASIAN STUDIES

The Asian studies major with a Southeast Asian concentration is an undergraduate major in the College of Letters & Science, providing a comprehensive foundation in Southeast Asian language and area studies. It includes Burma (Myanmar), Brunei, Cambodia (Kampuchea), East Timor, Indonesia, Laos, Malaysia, Philippines, Singapore, Thailand, and Vietnam. Students are required to take a minimum of four semesters of a Southeast Asian language, and complete a minimum of thirty credits of Southeast Asian area studies coursework. The area studies courses must be taken in at least two academic disciplines, including courses in Southeast Asian humanities and social sciences. Students may opt to prepare a 6-credit senior thesis.

HOW TO GET IN

CONCENTRATION IN SOUTHEAST ASIAN STUDIES

DECLARING THE MAJOR

The major should be declared no later than the beginning of the junior year. (**All L&S students must declare a major by the time they have earned 86 degree credits.**) Students with no previous language training or proficiency should consider beginning language study during their sophomore year, since language course sequences begin only once per year during the fall semester. Students interested in Southeast Asia are encouraged to consult with the undergraduate advisor (mmcullin@wisc.edu) at any time from the freshman year onward to discuss the program.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin—Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
-------------	--

Foreign Language	<ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language
------------------	---

Note: A unit is one year of high school work or one semester/term of college work.

- L&S Breadth
- Humanities, 12 credits: 6 of the 12 credits must be in literature
 - Social Sciences, 12 credits
 - Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR

The Asian studies majors requires that students concentrate in one of two options: **East Asian Studies** or **Southeast Asian Studies**. Students **must declare** one (and only one) of these concentrations. Both concentrations require 30 credits.

SOC/GEOG/ Introduction to Southeast Asia:
 HISTORY/LCA/ Vietnam to the Philippines
 POLI SCI 244

- ¹ Courses counted toward humanities may not also count towards social science, and vice versa. However, humanities and social science courses *may* count toward the concentration requirement if taken in a single SUBJECT.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all E A STDS and major courses

2.000 GPA on 15 upper-level major credits, taken in residence ²

15 credits in E A STDS, taken on the UW–Madison campus

- ² Courses in the major numbered 300 through 699 are considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Asian Studies Major in consultation with the Asian Studies undergraduate advisor.

HONORS IN ASIAN STUDIES MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Asian Studies students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in all E A STDS courses, and all courses accepted in the major
- Complete 3 credits E A STDS at the intermediate or advanced level with a grade of B or better
- Complete a two-semester Senior Honors Thesis in E A STDS 681 Senior Honors Thesis and E A STDS 682 Senior Honors Thesis, for a total of 6 credits

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

ADVISING AND CAREERS

ACADEMIC ADVISING

Students interested in Southeast Asia are encouraged to consult with the undergraduate advisor (mmcullin@wisc.edu) at any time from the freshman year onward to discuss the program.

CAREER INFORMATION

Students are encouraged to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

CAREER RESOURCES

- Why the liberal arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)
- L&S Career Services (<http://careers.ls.wisc.edu/students.htm>): We launch our students higher, sooner
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/about/lsci?p=careerinitiative.html>)

ASIAN STUDIES, B.S.

Asian Studies is divided into two concentrations:

- East Asian Studies
- Southeast Asian Studies

CONCENTRATION IN EAST ASIAN STUDIES

The Asian studies major with an East Asian studies concentration encompasses China, Japan, and Korea—Pacific Rim nations characterized by rich cultural heritages, critical geopolitical positions and rapidly expanding economies. East Asia plays a central role in world politics and the global economy, and the importance of this region will increase in the 21st century.

This concentration is for undergraduates who are interested in a wide range of careers (business, public service, law, teaching, research, etc.) and who seek a focused yet multidisciplinary education with solid grounding in East Asian language and civilization. Students interested in the major should begin language study as early as possible.

CONCENTRATION IN SOUTHEAST ASIAN STUDIES

The Asian studies major with a Southeast Asian concentration is an undergraduate major in the College of Letters & Science, providing a comprehensive foundation in Southeast Asian language and area studies. It includes Burma (Myanmar), Brunei, Cambodia (Kampuchea), East Timor, Indonesia, Laos, Malaysia, Philippines, Singapore, Thailand, and Vietnam. Students are required to take a minimum of four semesters of a Southeast Asian language, and complete a minimum of thirty credits of Southeast Asian area studies coursework. The area studies courses must be taken in at least two academic disciplines, including courses in Southeast Asian humanities and social sciences. Students may opt to prepare a 6-credit senior thesis.

HOW TO GET IN

CONCENTRATION IN SOUTHEAST ASIAN STUDIES

DECLARING THE MAJOR

The major should be declared no later than the beginning of the junior year. (**All L&S students must declare a major by the time they have earned 86 degree credits.**) Students with no previous language training or proficiency should consider beginning language study during their sophomore year, since language course sequences begin only once per year during the fall semester. Students interested in Southeast Asia are encouraged to consult with the undergraduate advisor (mmcullin@wisc.edu) at any time from the freshman year onward to discuss the program.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

The Asian studies majors requires that students concentrate in one of two options: **East Asian Studies** or **Southeast Asian Studies**. Students **must declare** one (and only one) of these concentrations. Both concentrations require 30 credits.

EAST ASIAN STUDIES, CERTIFICATE

Students interested in more specialized study of the languages and literature of East Asia, South Asia, or Southeast Asia should see the Department of Asian Languages and Cultures, the Center for South Asia, or the Center for Southeast Asian Studies; those interested in study of languages and cultures of Central Asia should see the Center for Russian, East European, and Central Asian Studies. All questions pertaining to East Asian studies at UW–Madison should be addressed to the Center for East Asian Studies (see box at right).

CERTIFICATE IN EAST ASIAN STUDIES

The undergraduate certificate in East Asian studies is available to students working toward a baccalaureate degree in any of the University of Wisconsin–Madison schools and colleges, and to Special students. This certificate meets the needs of students choosing to focus on the East Asian region (China, Korea, Japan, and Tibet) within their primary major, but not wishing to commit to the rigorous language study required by the relevant majors in the Department of Asian Languages and Cultures. Students select coursework reflecting their interests from myriad classes offered through many university departments, and can work toward a variety of undergraduate majors. Upon earning the certificate, this emphasis is noted on the student's transcript. The certificate is of value to students wishing to demonstrate their knowledge of the East Asian region either to potential employers or to graduate schools.

HOW TO GET IN

Students interested in declaring the East Asian Studies certificate contact the advisor for the program (Mike Cullinane, mmcullin@wisc.edu). More information about advising can be found at advising program (<http://eastasia.wisc.edu/en/Students/advising.html>).

Electives - take any course above to attain 21 credits in the certificate 9

Total Credits 21-22

¹ A maximum 3 credits in Directed Study may apply.

² A maximum 12 credits of East Asian language may apply.

RESIDENCE & QUALITY OF WORK

2.000 GPA on all certificate-approved courses

11 credits in the certificate, in residence

ADVISING AND CAREERS

Study of an East Asian language is strongly encouraged, but not required. Courses in elementary Chinese, Japanese, Korean, and Tibetan are available, providing an introduction to the fundamentals of the languages, without necessarily requiring additional advanced language coursework.

Students should meet with the advisor for the certificate (Mike Cullinane, mmcullin@wisc.edu) in 207 Ingraham Hall for more assistance.

EUROPEAN STUDIES, CERTIFICATE

The European Studies Program, in cooperation with the Center for European Studies, the Jean Monnet European Union Center of Excellence (JMEUCE), and the DAAD Center for German and European Studies (CGES), promotes knowledge and understanding of Europe both on and off campus. Established in 1968, the program provides integrated interdisciplinary studies on contemporary Europe for both undergraduate and graduate students. The program brings together scholars on campus interested in different aspects of Europe to discuss topics of mutual interest. More than thirty departments offer courses on Europe (excluding language courses), providing the largest number of courses on any region of the world other than the United States.

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the Center for European Studies

(european@international.wisc.edu) or the undergraduate advisor, Csanád Siklós, 262-5006; siklos@wisc.edu.

REQUIREMENTS

LANGUAGE REQUIREMENT

Students may satisfy the European language requirement by taking college courses, or through high school units. There are two options to complete the requirement—students can either complete:

1. Four units of a single European language
or
2. Three units of one European language and two units of a second European language.

Code	Title	Credits
------	-------	---------

Fourth unit courses:

Courses above fourth semester may be used to satisfy this requirement.

FRENCH 204	Fourth Semester French	
GERMAN 204	Fourth Semester German	
GERMAN 214	Fourth Semester Dutch	
GREEK 306	Intermediate Greek	
ITALIAN 204	Fourth Semester Italian	
PORTUG 202	Fourth Semester Portuguese	
SCAND ST 202	Second Year Norwegian	
SCAND ST 212	Second Year Swedish	
SCAND ST 222	Second Year Danish	
SCAND ST 302	Intensive Finnish II	
SPANISH 204	Fourth Semester Spanish	

Third unit courses:

FRENCH 203	Third Semester French	
GERMAN 203	Third Semester German	
GERMAN 213	Third Semester Dutch	
GREEK 305	Intermediate Greek	
ITALIAN 203	Third Semester Italian	
PORTUG 201	Third Semester Portuguese	
SCAND ST 201	Second Year Norwegian	
SCAND ST 211	Second Year Swedish	
SCAND ST 221	Second Year Danish	
SCAND ST 301	Intensive Finnish I	
SPANISH 203	Third Semester Spanish	

Second unit courses:

FRENCH 102	Second Semester French	
GERMAN 102	Second Semester German	
GERMAN 112	Second Semester Dutch	
GREEK 104	Second Semester Greek	
GREEK 304	Second Semester Greek	
ITALIAN 102	Second Semester Italian	
PORTUG 102	Second Semester Portuguese	
SCAND ST 102	Second Semester Norwegian	
SCAND ST 112	Second Semester Swedish	
SCAND ST 122	Second Semester Danish	
SCAND ST 132	Second Semester Finnish	

SPANISH 102 Second Semester Spanish

EUROPEAN AREA STUDIES REQUIREMENT

Seven courses and 21 credits, with courses being taken in at least two subjects, and distributed in one of two ways:

1. **Option 1:** Seven courses on **Europe as a whole:** focusing on topics such as the European Union, European history, or European literature.
2. **Option 2:** Seven courses distributed across **three or more regional/national areas.** (Students may use Europe as a whole courses in partial fulfillment of this option combined with courses on two other regional/national areas).

OPTION 1: EUROPE AS A WHOLE

Code	Title	Credits
SEVEN courses from at least two SUBJECTS:		21
ANTHRO 309	Prehistoric Europe	
ANTHRO 606	Ethnicity, Nations, and Nationalism

RESIDENCE AND QUALITY OF WORK

2.500 GPA on all certificate approved courses

11 credits in the certificate, in residence

LEARNING OUTCOMES

- Historical Grounding:** understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
- Multi-disciplinarity:** analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
- Depth of knowledge:** mastering at the undergraduate generalist level a particular facet of life in the region by taking seven courses on three particular sub-regions or countries or by taking seven courses on the region in more than one discipline

4. Language knowledge: mastering at undergraduate generalist level a particular facet of life in the region by studying a regional language to the intermediate level.

ADVISING AND CAREERS

Advising for the certificate is through the Institute for Regional and International Studies (IRIS). The IRIS assistant director for students and curriculum can assist students in developing a plan of study for the certificate, track progress toward the certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments. We strongly encourage students to begin career exploration early on and to make use of the many resources available on campus.

RESOURCES

- Make a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)
- L&S Career Services (<http://careers.ls.wisc.edu/students.htm>)
- Language and International Directions Advising (<http://www.languages.wisc.edu/languageadvising>) (Language Institute)
- International Internship Program (<http://internships.international.wisc.edu>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)
- L&S Career Initiative (<http://ls.wisc.edu/about/lscip?p=careerinitiative.html>)

PEOPLE

Faculty: Ringe (director, Political Science), Brossard (Life Sciences Communication), Covington (European Studies), Ferree (Sociology), Klug (Law), Livorni (French and Italian), Moynihan (Public Affairs), Olds (Geography), Potter (CGES, German), Wolf (Scandinavian Studies)

GLOBAL CULTURES, CERTIFICATE

Effective spring 2015, admission to the undergraduate-level certificate in global cultures has been suspended. Students currently enrolled in the program will be supported to continue in the certificate but no new students will be allowed to enroll as of spring 2015. For advising assistance, please consult the undergraduate advisor for the certificate.

The Global Cultures Program is an interdisciplinary certificate program in the College of Letters & Science. The program draws on the rich array of area studies courses and comparative studies courses offered at the UW–Madison, providing a framework for linkages between cross-cultural academic work and study abroad programs. The goals of the program are several: to better integrate campus coursework or individual majors with study abroad, to stress cross-cultural learning experiences; and to help students find an international pathway toward satisfying the college breadth requirements.

The program is affiliated with the International Institute (<http://www.intl-institute.wisc.edu>) and the Integrated Liberal Studies Program (ILS) (<http://www.wisc.edu/ils>). Whereas ILS focuses on Western culture and offers its own set curriculum, the Global Cultures Program focuses on

comparisons between cultures, both Western and non-Western, and offers courses drawn from more than 30 departments.

HOW TO GET IN

Effective spring 2015, admission to the undergraduate-level certificate in global cultures has been suspended. Students currently enrolled in the program will be supported to continue in the certificate but no new students will be allowed to enroll as of spring 2015. For advising assistance, please consult the undergraduate advisor for the certificate.

REQUIREMENTS

Effective spring 2015, admission to the undergraduate-level certificate in global cultures has been suspended. Students currently enrolled in the program will be supported to continue in the certificate but no new students will be allowed to enroll as of spring 2015. For advising assistance, please consult the undergraduate advisor for the certificate.

There are four components to the certificate: the foundations course, language requirement, global cultures electives, and the capstone seminar.

The foundations course initiates students into themes of cross-cultural contact as a result of globalization. Students may then choose from introductory courses about a specific culture or about cultures that transcend traditional boundaries and upper-level courses focusing on comparative cultures to fulfill 12 credits of electives. In lieu of these introductory and upper-level courses, students may count up to 12 credits from UW study abroad coursework toward these areas. See below for specific guidelines. The capstone senior seminar helps integrate the knowledge gained by students during their comparative coursework and/or overseas study.

Students who complete 21 credits in the program are eligible for the certificate.

Note that the foundations course may not be taken concurrently with the capstone seminar.

Requirements for the certificate include:

Code	Title	Credits
Foundations Course		
ILS 209	Introduction to Global Cultures	3
or GEOG 101	Introduction to Human Geography	
Language Requirement		
Fifth-semester college-level foreign language course ¹		3
Global Cultures Electives		
Select one of the following:		12
Global Cultures elective courses with a minimum of 6 cr of the electives must be upper-level (300 level or above) ²		
Study Abroad courses (see specifics below about study abroad courses)		
Capstone Seminar		
Select one of the following Cross-Cultural Capstone Senior Seminar:		3
LCA 615	Writing Travels (fall)	

ILS 401 Global Cultures Capstone Seminar (spring)

Approved substitution (see advisor)

Total Credits 21

- ¹ For students whose native language is not English, this requirement may be waived.
- ² Choose from introductory courses or upper-level (300 level or above) comparative courses.

STUDY ABROAD COURSES

Study abroad courses will count toward the certificate. The length of stay will determine how many credits may be counted toward the certificate. Students should keep in mind that at least 6 of the 12 global cultures elective credits must be at the 300 level or above.

LENGTH OF STAY / MAXIMUM CREDITS

INTERNATIONAL STUDIES, B.A.

International Studies (IS) offers an interdisciplinary major with a broad background in international and transnational political, social, economic, commercial, and environmental affairs, together with a comparative study of politics, economics, security, and culture. The goal is to provide students with the necessary tools to understand global processes in their totality and how they are situated and lived in specific regions. The major provides an integrated program of courses that lays the foundation for professional training in a wide variety of areas. Such a foundation can be invaluable in securing a place in competitive graduate or professional schools, which, in turn, prepare students for government service, or for other careers with an international focus, including those in multinational corporations, international finance, non-governmental organizations, and institutions of teaching and research.

The IS major complements numerous majors across campus. Many students choose to double major or enhance their studies with one or more certificates, such as the global health certificate or those offered by the area studies centers.

This major is interdisciplinary, offering a wealth of options. Careful planning and consultation with the IS advisor is especially important.

IS MAJORS SPECIALIZE IN ONE OF THREE OPTIONS:

Option I: Global Security

In this option, majors explore conditions that challenge the ability of people and societies to survive. Students consider the causes of and solutions to political crises and violent conflicts in interstate, transnational, and domestic settings. Using historical and regional approaches, students develop a better understanding of the dilemmas the state and the global community face when confronted by threats to human rights, peace, and stability.

Option II: Politics and Policy in the Global Economy

This option offers a multidisciplinary survey of international economic and political institutions and transactions, as well as the policy issues pertaining to international commerce and trade, international finance and monetary relations, international macroeconomic policy coordination, U.S. trade imbalances, aid and development, and related environmental and natural resource problems.

Option III: Culture in the Age of Globalization

In this option, majors investigate cross-cultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

STUDY ABROAD

International studies and studying abroad are a natural combination. While study abroad is not a requirement for the major, all IS students are strongly encouraged to pursue a significant international experience during the course of the undergraduate career. Whether through a study abroad program, an internship, or service learning, the experience of studying or working in a foreign culture is invaluable. Many courses taken abroad will count toward the IS major. See the IS advisor for specific guidelines. More information about study abroad and internships is available through International Academic Programs (<http://www.studyabroad.wisc.edu>).

HOW TO GET IN

Students are advised to declare the major by the end of the sophomore year and/or before studying abroad. To be eligible to declare the international studies major a student must have a GPA of 2.000 both in the major and overall, and have completed (or be in progress toward completing) the following courses, with a minimum combined 2.000 GPA:

Code	Title	Credits
INTL ST 101	Introduction to International Studies	3-4
Complete the 5th unit of a foreign language ¹		
Select one of the following:		4-8
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
A A E 215 & ECON 102	Introduction to Agricultural and Applied Economics and Principles of Macroeconomics	
ECON 111	Principles of Economics-Accelerated Treatment ²	

¹ This requirement must be completed before graduation. ESL 118 substitutes for the foreign language admission requirement.

² ECON 111 requires placement in MATH 221 or higher and is limited enrollment.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	Requirements
Breadth—Humanities/Literature/Arts:	6 credits
Breadth—Natural Science:	4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
Breadth—Social Studies:	3 credits
Communication Part A & Part B *	
Ethnic Studies *	
Quantitative Reasoning Part A & Part B *	

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
-------------	--

Foreign Language	<ul style="list-style-type: none"> Complete the fourth unit of a foreign language; OR Complete the third unit of a foreign language and the second unit of an additional foreign language
------------------	---

Note: A unit is one year of high school work or one semester/term of college work.

- L&S Breadth
- Humanities, 12 credits: 6 of the 12 credits must be in literature
 - Social Sciences, 12 credits
 - Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW-Madison 2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS OF THE MAJOR

Students must declare the major, complete the common requirements, and the requirements for one of the options within the international studies major.

The international studies major offers three options:

1. Culture in the Age of Globalization
2. Global Security
3. Politics and Policy in the Global Economy

A student may not declare or earn more than one major option.

RESIDENCE & QUALITY OF WORK

2.000 GPA in all INTL ST courses and other courses in the major

2.000 GPA on 15 upper-level major credits, taken in residence

15 credits in the major, taken on the UW–Madison campus³

³ Major courses with Intermediate and Advanced level are considered Upper-Level.

OPTIONS WITHIN THE MAJOR

Each option in the major **requires 35 credits**. Students select one Area Studies course (above), and the option-specific requirements for Core, Issues, and Elective classes (below).⁴

CULTURE IN THE AGE OF GLOBALIZATION

In this option, majors investigate cross-cultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

Culture Core

Two courses from:

Code	Title	Credits

GLOBAL SECURITY

In this option, majors explore conditions that challenge the ability of people and societies to survive. Students consider the causes of and solutions to political crises and violent conflicts in interstate, transnational, and domestic settings. Using historical and regional approaches, students develop a better understanding of the dilemmas the state and the global community face when confronted by threats to human rights, peace, and stability.

Global Security Core

Two courses from:

Code	Title	Credits
ANTHRO 606	Ethnicity, Nations, and Nationalism	3-4

Electives

Students typically take three or four elective courses in the major. These courses can come from Issues lists for different options or they can be additional Issues classes within their own option. Students must take enough elective credits to attain the required 35 total credits in the major. Choose from:

Code	Title	Credits

POLITICS AND POLICY IN THE GLOBAL ECONOMY

This option offers a multidisciplinary survey of international economic and political institutions and transactions, as well as the policy issues

pertaining to international commerce and trade, international finance and monetary relations, international macroeconomic policy coordination, U.S. trade imbalances, aid and development, and related environmental and natural resource problems.

Politics and Policy Core

courses cross-listed in INTL ST. For example: A student with five POLI SCI courses that could apply to the major will see only four of those courses applying in the international studies major. (However, if one of those POLI SCI courses is also cross-listed in INTL ST, that course will not count against the limit, and thus, all five POLI SCI courses will apply in the major). The degree audit (DARS) enforces this limitation.

Though some courses are identified as acceptable for two or more requirements, a course may meet only one requirement. For example, a course that could count in either Option Core or Option Issues will meet only one of those requirements, based on which requirement needs that course to become satisfied. The degree audit (DARS) determines the best scenario.

DISTINCTION IN THE MAJOR

Students not enrolled in the Honors Program may apply for Distinction in the Major. Criteria include:

1. A 3.500 grade point average in the major
2. Completion of a Senior Thesis, Senior Seminar, or "substantial extra work" in an advanced course in the major
3. A letter of recommendation from a member of the UW-Madison faculty to the international studies advising staff (submitted three weeks prior to the date of graduation).

HONORS IN THE MAJOR

Students may declare Honors in the International Studies Major in consultation with the International Studies advisor(s). They must declare prior to enrollment in their Senior Honors Thesis (typically second semester of junior year).

HONORS IN THE INTERNATIONAL STUDIES MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in International Studies students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in major courses
- Complete 16 upper-level¹ major credits, taken for Honors, with individual grades of B or better in each course²
- Complete a two-semester Senior Honors Thesis, for a total of 6 credits, or two Senior Seminars, with grades of B or better; choose from:

Code	Title	Credits
Senior Honors Thesis (2 courses):		
AFRICAN 681 & AFRICAN 682	Senior Honors Thesis and Senior Honors Thesis	
E A STDS 681 & E A STDS 682	Senior Honors Thesis and Senior Honors Thesis	
E ASIAN 681 & E ASIAN 682	Senior Honors Thesis and Senior Honors Thesis	
ECON 681 & ECON 682	Senior Honors Thesis and Senior Honors Thesis	
FRENCH 681 & FRENCH 682	Senior Honors Thesis and Senior Honors Thesis	

⁴ A maximum four courses from a single SUBJECT may be applied to the 35 credits in the major. This excludes INTL ST courses and

GERMAN 681 & GERMAN 682	Senior Honors Thesis-First Semester and Senior Honors Thesis-Second Semester
HISTORY 681 & HISTORY 682	Senior Honors Thesis and Senior Honors Thesis
INTL ST 681 & INTL ST 682	Senior Honors Thesis and Senior Honors Thesis
POLI SCI 681 & POLI SCI 682	Senior Honors Thesis and Senior Honors Thesis
PORTUG 681 & PORTUG 682	Senior Honors Thesis and Senior Honors Thesis
SLAVIC 681 & SLAVIC 682	Senior Honors Thesis and Senior Honors Thesis
SPANISH 681 & SPANISH 682	Senior Honors Thesis and Senior Honors Thesis
Senior Seminar (2 courses):	
INTL ST 601	Topics in Global Security
INTL ST 602	Topics in Politics and Policy in the Global Economy
INTL ST 603	Topics in Culture in the Age of Globalization
INTL ST 604	Topics in Global Environment

¹ All intermediate- and advanced-level courses counting in the major are considered upper level.

² A maximum of 2 courses and 8 credits from UW–Madison Study Abroad may count.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. **Interdisciplinarity:** analyzing contemporary political, economic, security and cultural realities globally from multi-disciplinary perspectives, ideally including humanities, social sciences, humanitarian, and sometimes natural science approaches.

2. **Depth of knowledge:** mastering at the undergraduate generalist level major issues related to key themes in International Studies (e.g. culture, global security and political economy) by taking 15 credits in one particular theme area.
3. **Regional (studies) grounding:** understanding the social, political, economic and cultural forces and conditions that have given rise to the unity and diversity of a specific region of the world today.
4. **Language knowledge:** mastering at the undergraduate generalist level a particular facet of life in one or more region of the world by studying a foreign language to at least the advanced (5th semester) level.
5. **Analytical skills:** demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

ADVISING AND CAREERS

INTERNATIONAL STUDIES MAJOR ADVISING STAFF

International studies majors have a wide variety of academic advising and career resources and support. Academic advising is essential to a successful undergraduate experience. For this reason, the international studies major has a professional advisor, a peer advisor, and a career advisor. We recommend that you meet with your advisor at least once per semester to track progress toward your degree, explore study abroad options, and begin the career exploration process. The IS major offers walk-in advising, advising workshops, and scheduled appointments. Students exploring the IS major should plan to attend an Intro to the IS Major workshop (<http://www.ismajor.wisc.edu/about/news-and-events/upcoming-workshop-dates>). To learn more about academic advising information, please visit the IS Major website (<http://www.ismajor.wisc.edu/about/current-students/academic-advising>).

Students should also begin the career advising process early. The international studies major offers a 1-credit career class designed for sophomores or juniors. Students are strongly encouraged to meet with both the IS career advisor and L&S Career Services and apply for internship opportunities—both domestically and via International Internship Programs or the Washington DC Internship Program. The IS major also maintains a list of career events (<http://www.ismajor.wisc.edu/about/news-and-events/career-and-internship-events>) across campus that will benefit undergraduate students, hosts career workshops, and has a transition checklist to help students prepare for post-undergraduate life. For more information, please visit our website (<http://www.ismajor.wisc.edu/about/current-students/careers>).

Kirsten Brown, Ph.D.—Academic Advisor

Csanád Siklós, Ph.D.—Academic Advisor

Joel Clark—Career Advisor

LETTERS & SCIENCE CAREER RESOURCES

International Studies encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for

the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

Career Resources:

- Why the liberal arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)
- L&S Career Services (<http://careers.ls.wisc.edu/students.htm>): We launch our students higher, sooner
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/about/lsci?p=careerinitiative.html>)

PEOPLE

The international studies major is directed by Dr. Jo Ellen Fair, Professor of African Cultural Studies.

The advisors for the international studies major are Dr. Kirsten R. Brown and Dr. Csanád Siklós.

The career advisor is Dr. Joel Clark.

WISCONSIN EXPERIENCE

STUDY ABROAD

International studies majors are strongly encourage to study abroad. The International Studies Major website (<http://www.ismajor.wisc.edu/about/current-students/study-abroad>) provides information about how to plan your experience abroad.

INTERNSHIP ABROAD

International studies majors are strongly encourage to study abroad. Please review information on the International Studies Major website (<http://www.ismajor.wisc.edu/about/current-students/internships>) and the International Internship Program website (<http://internships.international.wisc.edu>) about opportunities.

UNDERGRADUATE RESEARCH

The international studies major encourages students to become engaged in undergraduate research. There are numerous programs (<http://www.provost.wisc.edu/undergradresearch.htm>) that provide research opportunities for undergraduates at UW–Madison including:

- Hilldale Undergraduate/Faculty Research Fellowships (<http://www.provost.wisc.edu/hilldale.htm>)
- McNair Scholars (<http://grad.wisc.edu/mcnair>)
- Summer Research Programs (<https://grad.wisc.edu/diversity/srop>)
- Undergraduate Research Scholars (<https://urs.ls.wisc.edu>)
- The Wisconsin Idea Undergraduate Fellowship Program (<http://www.morgridge.wisc.edu/programs/wif>)

INTERNATIONAL STUDIES, B.S.

International Studies (IS) offers an interdisciplinary major with a broad background in international and transnational political, social, economic, commercial, and environmental affairs, together with a comparative study of politics, economics, security, and culture. The goal is to provide students with the necessary tools to understand global processes in their totality and how they are situated and lived in specific regions. The major provides an integrated program of courses that lays the foundation for professional training in a wide variety of areas. Such a foundation can be invaluable in securing a place in competitive graduate or professional schools, which, in turn, prepare students for government service, or for other careers with an international focus, including those in multinational corporations, international finance, non-governmental organizations, and institutions of teaching and research.

The IS major complements numerous majors across campus. Many students choose to double major or enhance their studies with one or more certificates, such as the global health certificate or those offered by the area studies centers.

This major is interdisciplinary, offering a wealth of options. Careful planning and consultation with the IS advisor is especially important.

IS MAJORS SPECIALIZE IN ONE OF THREE OPTIONS:

Option I: Global Security

In this option, majors explore conditions that challenge the ability of people and societies to survive. Students consider the causes of and solutions to political crises and violent conflicts in interstate, transnational, and domestic settings. Using historical and regional approaches, students develop a better understanding of the dilemmas the state and the global community face when confronted by threats to human rights, peace, and stability.

Option II: Politics and Policy in the Global Economy

This option offers a multidisciplinary survey of international economic and political institutions and transactions, as well as the policy issues pertaining to international commerce and trade, international finance and monetary relations, international macroeconomic policy coordination, U.S. trade imbalances, aid and development, and related environmental and natural resource problems.

Option III: Culture in the Age of Globalization

In this option, majors investigate cross-cultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

STUDY ABROAD

International studies and studying abroad are a natural combination. While study abroad is not a requirement for the major, all IS students are strongly encouraged to pursue a significant international experience during the course of the undergraduate career. Whether through a study abroad program, an internship, or service learning, the experience of studying or working in a foreign culture is invaluable. Many courses taken abroad will count toward the IS major. See the IS advisor for specific guidelines. More information about study abroad and

internships is available through International Academic Programs (<http://www.studyabroad.wisc.edu>).

HOW TO GET IN

Students are advised to declare the major by the end of the sophomore year and/or before studying abroad. To be eligible to declare the international studies major a student must have a GPA of 2.000 both in the major and overall, and have completed (or be in progress toward completing) the following courses, with a minimum combined 2.000 GPA:

Code	Title	Credits
INTL ST 101	Introduction to International Studies	3-4
Complete the 5th unit of a foreign language ¹		
Select one of the following:		4-8
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
A A E 215 & ECON 102	Introduction to Agricultural and Applied Economics and Principles of Macroeconomics	
ECON 111	Principles of Economics-Accelerated Treatment ²	

¹ This requirement must be completed before graduation. ESL 118 substitutes for the foreign language admission requirement.

² ECON 111 requires placement in MATH 221 or higher and is limited enrollment.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework

Depth of Intermediate/Advanced work

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall
30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison
2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS OF THE MAJOR

Students must declare the major, complete the common requirements, and the requirements for one of the options within the international studies major.

The international studies major offers three options:

- Culture in the Age of Globalization
- Global Security
- Politics and Policy in the Global Economy

A student may not declare or earn more than one major option.

COMMON MAJOR REQUIREMENTS

INTRODUCTORY REQUIREMENTS

Code	Title	Credits

THEATRE/ENGL 577	Postcolonial Theatre: Drama, Theory and Performance in the Global South	3
------------------	---	---

RESIDENCE & QUALITY OF WORK

2.000 GPA in all INTL ST courses and other courses in the major

2.000 GPA on 15 upper-level major credits, taken in residence

15 credits in the major, taken on the UW–Madison campus³

³ Major courses with Intermediate and Advanced level are considered Upper-Level.

OPTIONS WITHIN THE MAJOR

Each option in the major **requires 35 credits**. Students select one Area Studies course (above), and the option-specific requirements for Core, Issues, and Elective classes (below).⁴

CULTURE IN THE AGE OF GLOBALIZATION

In this option, majors investigate cross-cultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

Culture Core

Two courses from:

Code	Title	Credits
AFRICAN 669	Special Topics (Celebrity Culture)	3
AFRICAN 403	Theories of African Cultural Studies	3
ANTHRO 300	Cultural Anthropology: Theory and Ethnography	3

GLOBAL SECURITY

In this option, majors explore conditions that challenge the ability of people and societies to survive. Students consider the causes of and solutions to political crises and violent conflicts in interstate, transnational, and domestic settings. Using historical and regional

approaches, students develop a better understanding of the dilemmas the state and the global community face when confronted by threats to human rights, peace, and stability.

Global Security Core

Two courses from:

Code	Title	Credits

Electives

Students typically take three or four elective courses in the major. These courses can come from Issues lists for different options or they can be additional Issues classes within their own option. Students must take enough elective credits to attain the required 35 total credits in the major. Choose from:

Code	Title	Credits
A A E/ENVIR ST 244	The Environment and the Global Economy	3

⁴ A maximum four courses from a single SUBJECT may be applied to the 35 credits in the major. This excludes INTL ST courses and courses cross-listed in INTL ST. *For example: A student with five POLI SCI courses that could apply to the major will see only four of those courses applying in the international studies major. (However, if one of those POLI SCI courses is also cross-listed in INTL ST, that course will not count against the limit, and thus, all five POLI SCI courses will apply in the major). The degree audit (DARS) enforces this limitation.*

Though some courses are identified as acceptable for two or more requirements, a course may meet only one requirement. *For example, a course that could count in either Option Core or Option Issues will meet only one of those requirements, based on which requirement needs that course to become satisfied. The degree audit (DARS) determines the best scenario.*

DISTINCTION IN THE MAJOR

Students not enrolled in the Honors Program may apply for Distinction in the Major. Criteria include:

1. A 3.500 grade point average in the major
2. Completion of a Senior Thesis, Senior Seminar, or "substantial extra work" in an advanced course in the major
3. A letter of recommendation from a member of the UW–Madison faculty to the international studies advising staff (submitted three weeks prior to the date of graduation).

HONORS IN THE MAJOR

Students may declare Honors in the International Studies Major in consultation with the International Studies advisor(s). They must declare prior to enrollment in their Senior Honors Thesis (typically second semester of junior year).

HONORS IN THE INTERNATIONAL STUDIES MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in International Studies students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in major courses
- Complete 16 upper-level¹ major credits, taken for Honors, with individual grades of B or better in each course²
- Complete a two-semester Senior Honors Thesis, for a total of 6 credits, or two Senior Seminars, with grades of B or better; choose from:

Code	Title	Credits
------	-------	---------

Senior Honors Thesis (2 courses):

AFRICAN 681 & AFRICAN 682	Senior Honors Thesis and Senior Honors Thesis
E A STDS 681 & E A STDS 682	Senior Honors Thesis and Senior Honors Thesis
E ASIAN 681 & E ASIAN 682	Senior Honors Thesis and Senior Honors Thesis
ECON 681 & ECON 682	Senior Honors Thesis and Senior Honors Thesis
FRENCH 681 & FRENCH 682	Senior Honors Thesis and Senior Honors Thesis
GERMAN 681 & GERMAN 682	Senior Honors Thesis-First Semester and Senior Honors Thesis-Second Semester
HISTORY 681 & HISTORY 682	Senior Honors Thesis and Senior Honors Thesis
INTL ST 681 & INTL ST 682	Senior Honors Thesis and Senior Honors Thesis
POLI SCI 681 & POLI SCI 682	Senior Honors Thesis and Senior Honors Thesis
PORTUG 681 & PORTUG 682	Senior Honors Thesis and Senior Honors Thesis
SLAVIC 681 & SLAVIC 682	Senior Honors Thesis and Senior Honors Thesis
SPANISH 681 & SPANISH 682	Senior Honors Thesis and Senior Honors Thesis

Senior Seminar (2 courses):

INTL ST 601	Topics in Global Security
INTL ST 602	Topics in Politics and Policy in the Global Economy
INTL ST 603	Topics in Culture in the Age of Globalization
INTL ST 604	Topics in Global Environment

¹ All intermediate- and advanced-level courses counting in the major are considered upper level.

² A maximum of 2 courses and 8 credits from UW–Madison Study Abroad may count.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

Csanád Siklós, Ph.D.—Academic Advisor

Joel Clark—Career Advisor

LETTERS & SCIENCE CAREER RESOURCES

International Studies encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

Career Resources:

- Why the liberal arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)
- L&S Career Services (<http://careers.ls.wisc.edu/students.htm>): We launch our students higher, sooner
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/about/lsci?p=careerinitiative.html>)

PEOPLE

The international studies major is directed by Dr. Jo Ellen Fair, Professor of African Cultural Studies.

The advisors for the international studies major are Dr. Kirsten R. Brown and Dr. Csanád Siklós.

The career advisor is Dr. Joel Clark.

WISCONSIN EXPERIENCE

STUDY ABROAD

International studies majors are strongly encourage to study abroad. The International Studies Major website (<http://www.ismajor.wisc.edu/about/current-students/study-abroad>) provides information about how to plan your experience abroad.

INTERNSHIP ABROAD

International studies majors are strongly encourage to study abroad. Please review information on the International Studies Major website (<http://www.ismajor.wisc.edu/about/current-students/internships>) and the International Internship Program website (<http://internships.international.wisc.edu>) about opportunities.

LEARNING OUTCOMES

1. **Interdisciplinarity:** analyzing contemporary political, economic, security and cultural realities globally from multi-disciplinary perspectives, ideally including humanities, social sciences, humanitarian, and sometimes natural science approaches.
2. **Depth of knowledge:** mastering at the undergraduate generalist level major issues related to key themes in International Studies (e.g. culture, global security and political economy) by taking 15 credits in one particular theme area.
3. **Regional (studies) grounding:** understanding the social, political, economic and cultural forces and conditions that have given rise to the unity and diversity of a specific region of the world today.
4. **Language knowledge:** mastering at the undergraduate generalist level a particular facet of life in one or more region of the world by studying a foreign language to at least the advanced (5th semester) level.
5. **Analytical skills:** demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

ADVISING AND CAREERS

INTERNATIONAL STUDIES MAJOR ADVISING STAFF

International studies majors have a wide variety of academic advising and career resources and support. Academic advising is essential to a successful undergraduate experience. For this reason, the international studies major has a professional advisor, a peer advisor, and a career advisor. We recommend that you meet with your advisor at least once per semester to track progress toward your degree, explore study abroad options, and begin the career exploration process. The IS major offers walk-in advising, advising workshops, and scheduled appointments. Students exploring the IS major should plan to attend an Intro to the IS Major workshop (<http://www.ismajor.wisc.edu/about/news-and-events/upcoming-workshop-dates>). To learn more about academic advising information, please visit the IS Major website (<http://www.ismajor.wisc.edu/about/current-students/academic-advising>).

Students should also begin the career advising process early. The international studies major offers a 1-credit career class designed for sophomores or juniors. Students are strongly encouraged to meet with both the IS career advisor and L&S Career Services and apply for internship opportunities—both domestically and via International Internship Programs or the Washington DC Internship Program. The IS major also maintains a list of career events (<http://www.ismajor.wisc.edu/about/news-and-events/career-and-internship-events>) across campus that will benefit undergraduate students, hosts career workshops, and has a transition checklist to help students prepare for post-undergraduate life. For more information, please visit our website (<http://www.ismajor.wisc.edu/about/current-students/careers>).

UNDERGRADUATE RESEARCH

The international studies major encourages students to become engaged in undergraduate research. There are numerous programs (<http://www.provost.wisc.edu/undergradresearch.htm>) that provide research opportunities for undergraduates at UW–Madison including:

- Hilldale Undergraduate/Faculty Research Fellowships (<http://www.provost.wisc.edu/hilldale.htm>)
- McNair Scholars (<http://grad.wisc.edu/mcnair>)
- Summer Research Programs (<https://grad.wisc.edu/diversity/srop>)
- Undergraduate Research Scholars (<https://urs.ls.wisc.edu>)
- The Wisconsin Idea Undergraduate Fellowship Program (<http://www.morgridge.wisc.edu/programs/wif>)

LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES, B.A.

The Latin American, Caribbean, and Iberian Studies Program is one of the major U.S. centers for research about Latin America. This program is for those who seek a multidisciplinary education on Latin America, the Caribbean, Spain, and Portugal. It offers a wide range of courses in fields such as anthropology, business, economics, geography, history, journalism, music, political science, sociology, Spanish and Portuguese, and indigenous languages such as Yucatec Maya.

The aims of the Latin American, Caribbean, and Iberian studies major are to provide:

1. a broad exposure to Latin American, Caribbean, and Iberian studies by requiring students to take area and language content courses;
2. basic working knowledge in Spanish and/or Portuguese;
3. flexibility which allows students to take courses of interest, study abroad, and develop innovative academic projects; and
4. career-related advice and opportunities including volunteer work and internships with international organizations.

Students should contact the undergraduate advisor to determine which courses may satisfy major requirements. A minimum of 40 credits is required for the LACIS major. Upon declaration of the LACIS major, an assessment file is opened for each student which will include:

1. the development and submission of an "area of concentration,"
2. writing samples,
3. results of a language proficiency exam, and
4. an exit survey.

HOW TO GET IN

Students should contact Sarah Ripp, the LACIS undergraduate advisor, at skripp@wisc.edu, to declare the major and to determine which courses may satisfy major requirements.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
-------------	--

Foreign Language	<ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language
------------------	---

Note: A unit is one year of high school work or one semester/term of college work.

- L&S Breadth
- Humanities, 12 credits: 6 of the 12 credits must be in literature
 - Social Sciences, 12 credits
 - Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall
Minimum GPAs	30 credits in residence after the 90th credit
	2.000 in all coursework at UW-Madison
	2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above.

<i>Breadth Requirement</i>		9-12

Select three courses outside the area of concentration from the following:

Additional courses in Spanish and Portuguese language, literature and civilization over the 220 level (see courses listed under the language requirement above)

Courses in Quechua or Yucatec Maya (see courses listed under the language requirement above)

Additional LACIS courses outside the area of concentration(see courses listed above)

¹ The POLI SCI/AFROAMER/ANTHRO/C&E SOC/GEOG/HISTORY/LACIS/SOC/SPANISH 260 course is a 4-credit, interdepartmental course (crosslisted in anthropology, geography, history, political science, sociology, or Spanish). This course is generally available only in the spring semester. Students are encouraged to take this course as early as possible in their undergraduate careers. A student may also take HISTORY 241 or HISTORY 242 to satisfy this requirement. Occasionally, specially assigned courses will fulfill this requirement.

² With approval of the undergraduate advisor, courses in Yucatec Maya or Quechua may apply.

AREA OF CONCENTRATION

Students must take at least five courses with a minimum of 25 percent Latin American, Caribbean, and/or Iberian content in an area of concentration that the student self-selects. The concentration may be disciplinary (history, anthropology, etc.) or topical (poverty, gender, social justice, etc.). The courses in the area of concentration cannot be Spanish or Portuguese language or literature courses. Study abroad courses often satisfy major requirements, but students should consult with the advisor before and during the study abroad program to ensure that the credits transfer. Courses for the concentration can be chosen from the LACIS Master Course List, or the LACIS-Approved Course List published each semester—both lists are available on the LACIS website. *Note:* These lists may not reflect all current offerings.

NOTES

Students are encouraged to register in this major by the beginning of the junior year. Those considering a major in Latin American, Caribbean, and Iberian studies should consult the undergraduate advisor as early as possible in their academic career since a number of L&S requirements in humanities and social sciences may be met by courses in Latin American, Caribbean, and Iberian studies. Students who enter the university without previous training in Spanish or Portuguese are urged to begin language study in the freshman year.

Select at least **15 credits of upper-level work in the major** completed in residence. Courses numbered 300–699 count toward this requirement.

SAMPLE PROGRAMS

The following list illustrates examples of "area of concentration" programs selected by Latin American, Caribbean, and Iberian studies majors:

- History and Culture Emphasis
- Environment and Development Emphasis
- Media and Politics Emphasis
- Gender Studies and Human Rights Emphasis

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all LACIS and major courses

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in LACIS, taken on the UW–Madison campus

¹ Courses in SPANISH and PORTUG and major courses in ANTHRO numbered 300 higher are considered upper-level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Latin American, Caribbean, and Iberian Studies Major in consultation with the LACIS undergraduate advisor.

HONORS IN THE LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in LACIS students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.400 GPA for all major courses
- Complete 18 credits, taken for Honors, with individual grades of B or better, to include:

Code	Title	Credits
Select one of the following LACIS Introductory Course taken for Honors:		3-4
LACIS/ AFROAMER/ ANTHRO/ C&E SOC/GEOG/ HISTORY/ POLI SCI/SOC/ SPANISH 260	Latin America: An Introduction	
HISTORY 241	Latin America from 1780 to 1940	
HISTORY 242	Modern Latin America, 1898 to the Present	
Senior Capstone Seminar taken for Honors:		1-4
INTL ST 603	Topics in Culture in the Age of Globalization	
Select one of the following Research Experiences:		6
LACIS 681 & LACIS 682	Senior Honors Thesis and Senior Honors Thesis	
A two-semester research-based alternative		
Additional LACIS Honors to achieve 18 credits		

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

- Interdisciplinarity:** analyzing contemporary political, economic, and cultural realities in the LACIS regions from multi-disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
- Depth of knowledge:** mastering at the undergraduate expert level a particular disciplinary (e.g. history, anthropology etc.) or topical (e.g. poverty, gender, social justice etc.) theme in the LACIS regions by taking five courses in an area of concentration.
- Historical and cultural grounding:** understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in LACIS regions today.

- Language knowledge:** mastering at the undergraduate generalist level a particular facet of life in one or more LACIS regions by studying a foreign language to the advanced (3rd year) level and beyond.
- Analytical skills:** demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

ADVISING AND CAREERS

Students should contact Sarah Ripp, the LACIS undergraduate advisor, at skripp@wisc.edu, to determine which courses may satisfy major requirements.

Students are encouraged to seek the assistance of L&S Career Services (<http://careers.ls.wisc.edu>) early in their academic career. Take advantage of all the services they offer such as mock interviews, resume and cover letter review sessions, career preparation workshops, and so on.

Students interested in international internships should contact the International Internships Program (<http://internships.international.wisc.edu>) office.

PEOPLE

The Latin American, Caribbean, and Iberian Studies (LACIS) teaching staff consists of all faculty (http://lacis.wisc.edu/content/faculty_0) who teach Latin American, Caribbean, and Iberian language and area content courses.

RESOURCES AND SCHOLARSHIPS

Undergraduate students (from any major or discipline) can apply to receive one-time funds (http://lacis.wisc.edu/content/lacis_internship_grants) for internships or volunteer programs in Latin America, the Caribbean, the Iberian Peninsula. Domestic programs will be considered if the work is related to the LACIS field of study. The internships and volunteer programs will be carried out in public institutions, or well-established NGOs. Students from any nationality and citizenship are eligible to apply. *Please note that preference is given to declared LACIS majors.* Please check with the LACIS undergraduate advisor, Sarah Ripp, (http://lacis.wisc.edu/content/sarah_ripp) about your plans before submitting an application to ensure it meets our criteria. Read post-internship reports from former grant recipients. (http://lacis.wisc.edu/content/lacis_research_and_internship_grant_reports)

LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES, B.S.

The Latin American, Caribbean, and Iberian Studies Program is one of the major U.S. centers for research about Latin America. This program is for those who seek a multidisciplinary education on Latin America, the Caribbean, Spain, and Portugal. It offers a wide range of courses in fields such as anthropology, business, economics, geography, history, journalism, music, political science, sociology, Spanish and Portuguese, and indigenous languages such as Yucatec Maya.

The aims of the Latin American, Caribbean, and Iberian studies major are to provide:

1. a broad exposure to Latin American, Caribbean, and Iberian studies by requiring students to take area and language content courses;
2. basic working knowledge in Spanish and/or Portuguese;
3. flexibility which allows students to take courses of interest, study abroad, and develop innovative academic projects; and
4. career-related advice and opportunities including volunteer work and internships with international organizations.

Students should contact the undergraduate advisor to determine which courses may satisfy major requirements. A minimum of 40 credits is required for the LACIS major. Upon declaration of the LACIS major, an assessment file is opened for each student which will include:

1. the development and submission of an "area of concentration,"
2. writing samples,
3. results of a language proficiency exam, and
4. an exit survey.

HOW TO GET IN

Students should contact Sarah Ripp, the LACIS undergraduate advisor, at skripp@wisc.edu, to declare the major and to determine which courses may satisfy major requirements.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

Breadth Requirement

9-12

Select three courses outside the area of concentration from the following:

Additional courses in Spanish and Portuguese language, literature and civilization over the 220 level (see courses listed under the language requirement above)

Courses in Quechua or Yucatec Maya (see courses listed under the language requirement above)

Additional LACIS courses outside the area of concentration(see courses listed above)

- ¹ The POLI SCI/AFROAMER/ANTHRO/C&E SOC/GEOG/HISTORY/LACIS/SOC/SPANISH 260 course is a 4-credit, interdepartmental course (crosslisted in anthropology, geography, history, political science, sociology, or Spanish). This course is generally available only in the spring semester. Students are encouraged to take this course as early as possible in their undergraduate careers. A student may also take HISTORY 241 or HISTORY 242 to satisfy this requirement. Occasionally, specially assigned courses will fulfill this requirement.
- ² With approval of the undergraduate advisor, courses in Yucatec Maya or Quechua may apply.

AREA OF CONCENTRATION

Students must take at least five courses with a minimum of 25 percent Latin American, Caribbean, and/or Iberian content in an area of concentration that the student self-selects. The concentration may be disciplinary (history, anthropology, etc.) or topical (poverty, gender, social justice, etc.). The courses in the area of concentration cannot be Spanish or Portuguese language or literature courses. Study abroad courses often satisfy major requirements, but students should consult with the advisor before and during the study abroad program to ensure that the credits transfer. Courses for the concentration can be chosen from the LACIS Master Course List, or the LACIS-Approved Course List published each semester—both lists are available on the LACIS website. *Note:* These lists may not reflect all current offerings.

NOTES

Students are encouraged to register in this major by the beginning of the junior year. Those considering a major in Latin American, Caribbean, and Iberian studies should consult the undergraduate advisor as early as possible in their academic career since a number of L&S requirements in humanities and social sciences may be met by courses in Latin American, Caribbean, and Iberian studies. Students who enter the university without previous training in Spanish or Portuguese are urged to begin language study in the freshman year.

Select at least **15 credits of upper-level work in the major** completed in residence. Courses numbered 300–699 count toward this requirement.

SAMPLE PROGRAMS

The following list illustrates examples of "area of concentration" programs selected by Latin American, Caribbean, and Iberian studies majors:

- History and Culture Emphasis
- Environment and Development Emphasis
- Media and Politics Emphasis
- Gender Studies and Human Rights Emphasis

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all LACIS and major courses
2.000 GPA on 15 upper-level major credits, taken in residence¹
15 credits in LACIS, taken on the UW–Madison campus

- ¹ Courses in SPANISH and PORTUG and major courses in ANTHRO numbered 300 higher are considered upper-level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Latin American, Caribbean, and Iberian Studies Major in consultation with the LACIS undergraduate advisor.

HONORS IN THE LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in LACIS students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.400 GPA for all major courses
- Complete 18 credits, taken for Honors, with individual grades of B or better, to include:

Code	Title	Credits
Select one of the following LACIS Introductory Course taken for Honors:		
LACIS/AFROAMER/ANTHRO/C&E SOC/GEOG/HISTORY/POLI SCI/SOC/SPANISH 260	Latin America: An Introduction	3-4
HISTORY 241	Latin America from 1780 to 1940	
HISTORY 242	Modern Latin America, 1898 to the Present	
Senior Capstone Seminar taken for Honors:		
INTL ST 603	Topics in Culture in the Age of Globalization	1-4
Select one of the following Research Experiences:		
LACIS 681 & LACIS 682	Senior Honors Thesis and Senior Honors Thesis	6
A two-semester research-based alternative		
Additional LACIS Honors to achieve 18 credits		

UNIVERSITY DEGREE REQUIREMENTS**Requirements Detail**

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. “In residence” means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. **Interdisciplinarity:** analyzing contemporary political, economic, and cultural realities in the LACIS regions from multi-disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
2. **Depth of knowledge:** mastering at the undergraduate expert level a particular disciplinary (e.g. history, anthropology etc.) or topical (e.g. poverty, gender, social justice etc.) theme in the LACIS regions by taking five courses in an area of concentration.
3. **Historical and cultural grounding:** understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in LACIS regions today.
4. **Language knowledge:** mastering at the undergraduate generalist level a particular facet of life in one or more LACIS regions by studying a foreign language to the advanced (3rd year) level and beyond.
5. **Analytical skills:** demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

ADVISING AND CAREERS

Students should contact Sarah Ripp, the LACIS undergraduate advisor, at skripp@wisc.edu, to determine which courses may satisfy major requirements.

Students are encouraged to seek the assistance of L&S Career Services (<http://careers.ls.wisc.edu>) early in their academic career. Take advantage of all the services they offer such as mock interviews, resume and cover letter review sessions, career preparation workshops, and so on.

Students interested in international internships should contact the International Internships Program (<http://internships.international.wisc.edu>) office.

PEOPLE

The Latin American, Caribbean, and Iberian Studies (LACIS) teaching staff consists of all faculty (http://lacis.wisc.edu/content/faculty_0) who teach Latin American, Caribbean, and Iberian language and area content courses.

RESOURCES AND SCHOLARSHIPS

Undergraduate students (from any major or discipline) can apply to receive one-time funds (http://lacis.wisc.edu/content/lacis_internship_grants) for internships or volunteer programs in Latin America, the Caribbean, the Iberian Peninsula. Domestic programs will be considered if the work is related to the LACIS field of study. The internships and volunteer programs will be carried out in public institutions, or well-established NGOs. Students from any nationality and citizenship are eligible to apply. *Please note that preference is given to declared LACIS majors.* Please check with the LACIS undergraduate advisor, Sarah Ripp, (http://lacis.wisc.edu/content/sarah_ripp) about your plans before submitting an application to ensure it meets our criteria. Read post-internship reports from former grant recipients. (http://lacis.wisc.edu/content/lacis_research_and_internship_grant_reports)

MIDDLE EAST STUDIES, CERTIFICATE

The purpose of the Middle East Studies Program is to combine training in a discipline or profession with insight and knowledge about the culture, languages, and problems of the area. The program adopts the basic philosophy that it is necessary to develop a new practical approach to the study of the Middle East by first acquiring sound training in a discipline or profession and then by applying the methods and concepts of that discipline and profession, as well as skills of inquiry and research, to specific problems in the Middle East. Economic planning, law reform and institution building, urbanization, demography, housing, nutrition, agriculture, land problems, the organization and development of educational systems, and technical and vocational training at all levels are some of the fields covered by the program. The University of Wisconsin–Madison has extensive and unique resources in these fields, and it offers a broad range of courses on the languages, history, culture, and literature of the region.

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the Middle East Studies Program office or the undergraduate advisor, Csanád Siklós, 262-5006; siklos@wisc.edu.

REQUIREMENTS

The Middle East Studies Program offers an undergraduate certificate in Middle East studies. Requirements for the certificate include the interdisciplinary core course Introduction to the Middle East, which should be taken as early as possible in the sequence of courses for the certificate. The certificate requires **18 credits** total.

CERTIFICATE REQUIREMENTS

Code	Title	Credits
Core Course (select one):		
LCA 266	Introduction to the Middle East	
LCA 300	Topics in Languages and Cultures of Asia	

Additional Courses

Select a second semester of a selected Middle Eastern language

Select one course in history and social science (3 credits)

Select one course in religion and culture (3 credits)

Select additional courses in history and social science; religion and culture; or other electives (including up to 3 credits of advanced Middle Eastern language) to reach the 18 credit minimum for the Certificate.

RESIDENCE AND QUALITY OF WORK

9 credits, counting toward the certificate, taken in residence

A cumulative 2.000 GPA for all courses counting toward the certificate

LEARNING OUTCOMES

- Historical and Cultural Grounding:** understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
- Multi-disciplinarity:** analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
- Depth of knowledge:** mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline

ADVISING AND CAREERS

Advising for the Certificate is run by the Institute for Regional and International Studies (IRIS). The IRIS Assistant Director for Students and Curriculum can assist you in developing your plan of study for the Certificate, track progress towards your Certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments. We strongly encourage students to begin career exploration early on and to make use of the many resources available on campus.

Resources:

- Make a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)
- L&S Career Services (<http://careers.ls.wisc.edu/students.htm>)
- Language and International Directions Advising (<http://www.languages.wisc.edu/languageadvising>) (Language Institute)
- International Internship Program (<http://internships.international.wisc.edu>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first and second-year students)
- L&S Career Initiative (<http://ls.wisc.edu/about/lsci?p=careerinitiative.html>)

PEOPLE

RUSSIAN, EAST EUROPEAN, AND CENTRAL ASIAN STUDIES, CERTIFICATE

(For information on a major in Russian language and literature, Russian language and civilization, or Polish language and literature, see Slavic Languages and Literature (http://slavic.lss.wisc.edu/new_web)).

The undergraduate certificate program in Russian, East European, and Central Asian studies seeks to provide undergraduate students with area knowledge of the societies and cultures of the peoples of Eastern Europe and Eurasia, drawing on the disciplines of anthropology, communication arts, economics, folklore, geography, history, language and literature, law, political science, and sociology. The certificate can be a valuable addition to a major in business, economics, education, geography, history, international studies, political science, Slavic languages and literature, and other departments.

Applicants must fulfill the UW–Madison requirements for an established major in their school or college and achieve a minimum GPA of 2.5 in all courses they wish to count toward the certificate. Courses may **not** be taken on a pass/fail basis. At least two years of a Slavic, East European, or Central Asian language are strongly recommended for the certificate, but are not formally required.

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the Center for Russia, East Europe and Central Asia (GREECA) office or the undergraduate advisor, Csanád Siklós, 262-5006; siklos@wisc.edu.

REQUIREMENTS

Certificate students must complete successfully **seven courses** for the certificate:

Code	Title	Credits
	Select one interdisciplinary course (Group I)	
	Select three courses in history and the social sciences representing at least two different departments (Group II)	
	Select three courses in literature and the arts (Group III)	

Students who complete more than one course in Group I may count the additional courses toward fulfillment of Group II or III. Language courses do not count toward the certificate.

Students are encouraged to consult with the certificate advisor and declare the certificate as early as possible in their college careers in order to select an academically focused group of courses. The certificate will be awarded following successful graduation.

COURSES

GROUP 1—INTERDISCIPLINARY

RESIDENCE AND QUALITY OF WORK

11 credits, counting toward the certificate, taken in residence

A cumulative 2.500 GPA for all coursework counting toward the certificate

LEARNING OUTCOMES

- 1. Regional Understanding:** Students should demonstrate an understanding of the cultural, political, economic, social, and historical factors that have shaped the development of societies in Eurasia, Russia, and East and Central Europe.
- 2. Multi-disciplinarity:** Students should be able to analyze the historical, political, economic, social, and cultural realities in the region from at least two disciplinary perspectives, including both humanities and social sciences approaches.

ADVISING AND CAREERS

Advising for the certificate is administered by the Institute for Regional and International Studies (IRIS). The IRIS assistant director for students and curriculum can assist you in developing your plan of study for the certificate, track progress toward your certificate, explore study abroad and international internship options, and begin the career-exploration process. We offer walk-in advising, advising workshops, and scheduled appointments. We strongly encourage students to begin career exploration early on and to make use of the many resources available on campus.

SOUTH ASIAN STUDIES, CERTIFICATE**SOUTH ASIAN STUDIES CERTIFICATE PROGRAM**

Undergraduates interested in cross-disciplinary study of South Asia (generally defined as the countries of Afghanistan, Bangladesh, Bhutan, India, Nepal, Pakistan, Sri Lanka, and the Tibetan region) may earn a certificate in South Asian studies. The certificate can be a valuable addition to a major in anthropology, archeology, business, communications, economics, education, gender and women's studies, geography, history, international studies, journalism, languages and cultures of Asia, political science, zoology, and other departments. Completion of the certificate provides a concentration in the area through language and/or interdisciplinary training that provides enhanced career opportunities or increased preparation for graduate study.

The certificate in South Asian studies can be partially fulfilled through completion of a study abroad program in India administered by International Academic Programs (<http://www.studyabroad.wisc.edu>).

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the Center for South Asia office (info@southasia.wisc.edu) or the undergraduate advisor, Csanád Siklós, 262-5006; siklos@wisc.edu.

RESIDENCE & QUALITY OF WORK

2.750 GPA on all certificate-approved courses

11 credits in the certificate, in residence

LEARNING OUTCOMES

- 1. Historical Grounding:** understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
- 2. Multi-disciplinarity:** analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
- 3. Depth of knowledge:** mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline

ADVISING AND CAREERS

Advising for the certificate is administered by the Institute for Regional and International Studies (IRIS). The IRIS assistant director for students and curriculum can assist you in developing your plan of study for the certificate, track progress towards your certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments. We strongly encourage students to begin career exploration early on and to make use of the many resources available on campus.

Contact the certificate advisor (Csanád Siklós, 262-5006; siklos@wisc.edu) to create a plan that includes a well-balanced selection of area studies and disciplinary courses and for approval of appropriate introductory and capstone seminar courses.

Center for South Asia Advisory Committee: Christine Garlough, Mark Kenoyer, Sundaram Gunasekaran, Stephen Young, Todd Michelson-Ambelang, Laura Hammond.

SOUTHEAST ASIAN STUDIES, CERTIFICATE

Students interested in more specialized study of the languages and literature of East Asia, South Asia, or Southeast Asia should see the Department of Asian Languages and Cultures, the Center for East Asian Studies, or the Center for South Asia; those interested in the study of languages and cultures of Central Asia should see the Center for Russian, East European, and Central Asian Studies. All questions pertaining to Southeast Asian studies at UW–Madison, should be addressed to the Center for Southeast Asian Studies (see box at right).

CERTIFICATE IN SOUTHEAST ASIAN STUDIES

The undergraduate certificate in Southeast Asian studies is available to students working toward a baccalaureate degree in any of the University of Wisconsin–Madison schools and colleges. This certificate meets the needs of students choosing to focus on the Southeast Asia region (Brunei, Cambodia, East Timor, Indonesia, Laos, Malaysia, Myanmar/Burma, Philippines, Singapore, Thailand, Vietnam) within their primary major, but not wishing to commit to the more rigorous language and area studies courses required for the B.A. in Asian Languages and Cultures (named option in Southeast Asia). Students select coursework reflecting their interests from classes offered through many university departments, and can work toward a variety of undergraduate majors. Upon earning the certificate, this emphasis is noted on the student's transcript. The certificate is of value to students wishing to demonstrate their knowledge of the Southeast Asian region either to potential employers or to graduate schools.

HOW TO GET IN

Students interested in declaring the certificate in Southeast Asian studies should contact the program adviser Michael Cullinane, mmcullin@wisc.edu, 608-263-1755.

REQUIREMENTS

15 CREDITS

Code	Title	Credits
Up to 6 credits of Language may count:		
LCA LANG 403	Third Semester Burmese	0-6
LCA LANG 404	Fourth Semester Burmese	
LCA LANG 405	Third Semester Filipino	
LCA LANG 406	Fourth Semester Filipino	
LCA LANG 407	Third Semester Hmong	
LCA LANG 408	Fourth Semester Hmong	
LCA LANG 409	Third Semester Indonesian	

LCA LANG 410	Fourth Semester Indonesian
LCA LANG 411	Third Semester Javanese
LCA LANG 412	Fourth Semester Javanese
LCA LANG 413	Third Semester Khmer
LCA LANG 414	Fourth Semester Khmer
LCA LANG 415	Third Semester Lao
LCA LANG 416	Fourth Semester Lao
LCA LANG 417	Third Semester Thai
LCA LANG 418	Fourth Semester Thai
LCA LANG 419	Third Semester Vietnamese
LCA LANG 420	Fourth Semester Vietnamese
LCA LANG 503	Fifth Semester Burmese
LCA LANG 504	Sixth Semester Burmese
LCA LANG 505	Fifth Semester Filipino
LCA LANG 506	Sixth Semester Filipino
LCA LANG 507	Fifth Semester Hmong
LCA LANG 508	Sixth Semester Hmong
LCA LANG 509	Fifth Semester Indonesian
LCA LANG 510	Sixth Semester Indonesian
LCA LANG 513	Fifth Semester Khmer
LCA LANG 514	Sixth Semester Khmer
LCA LANG 515	Fifth Semester Lao
LCA LANG 516	Sixth Semester Lao
LCA LANG 517	Fifth Semester Thai
LCA LANG 518	Sixth Semester Thai
LCA LANG 519	Fifth Semester Vietnamese
LCA LANG 520	Sixth Semester Vietnamese

Core courses: 9-15

A A E/ INTL ST 373	Globalization, Poverty and Development
E ASIAN 520	Popular Culture and Film in Twentieth-Century China
ECON/A A E 473	Economic Growth and Development in Southeast Asia
FOLKLORE/ MUSIC 103	Introduction to Music Cultures of the World
FOLKLORE/ THEATRE 326	Introduction to Asian Performance
FOLKLORE/ MUSIC 402	Musical Cultures of the World
GEOG/HISTORY/ LCA/POLI SCI/ SOC 244	Introduction to Southeast Asia: Vietnam to the Philippines
GEOG 358	Human Geography of Southeast Asia
HISTORY/ ASIAN AM/ LCA 246	Southeast Asian Refugees of the "Cold" War
HISTORY 319	The Vietnam Wars
HISTORY/LCA/ RELIG ST 438	Buddhism and Society in Southeast Asian History
HISTORY/ LCA 457	History of Southeast Asia to 1800

HISTORY/ LCA 458	History of Southeast Asia Since 1800
INTL BUS 200	International Business
LCA/HISTORY/ RELIG ST 205	The Making of the Islamic World: The Middle East, 500-1500
LCA 401	Modern Indonesian Literature
LCA 441	Language and Society in Southeast Asia
LCA 671	Structure of Thai
MUSIC/ FOLKLORE 103	Introduction to Music Cultures of the World
MUSIC 361	Non-Western Music Performance-Study Groups
MUSIC/ FOLKLORE 402	Musical Cultures of the World
RELIG ST/ AFRICAN/ LCA 370	Islam: Religion and Culture

RESIDENCE & QUALITY OF WORK

2.000 GPA on all certificate-approved courses

8 credits in the certificate, in residence

ADVISING AND CAREERS

All students interested in this certificate are encouraged to take HISTORY/GEOG/LCA/POLI SCI/SOC 244 Introduction to Southeast Asia: Vietnam to the Philippines.

Southeast Asian language courses can be taken during the academic year (Filipino, Hmong, Indonesian, Thai, and Vietnamese) and all of these plus three others (Burmese, Khmer, and Lao) can be taken at UW–Madison's summer program, the Southeast Asian Studies Summer Institute (<http://seassi.wisc.edu>).

Students interested in the certificate in Southeast Asian Studies, should contact the program adviser Michael Cullinane, mmcullin@wisc.edu, 608-263-1755.

INTEGRATED LIBERAL STUDIES

Integrated Liberal Studies (ILS) is an interdisciplinary program offering courses devoted to Western history, philosophy, politics, art, literature, and culture. As an alternative to scattered electives, ILS offers a set of related courses specially tailored to meet the breadth requirements of the College of Letters & Science. ILS draws exemplary, dynamic faculty from departments across campus to create courses that challenge students with a rigorous program of interdisciplinary study emphasizing critical thinking and judgment rather than passive absorption of information. Although these courses may be taken as single electives, the purpose of the program is to counter the fragmentation of undergraduate education by providing a common ground of learning.

Because ILS courses are interdisciplinary, students are encouraged to make connections between the various subject areas. They study the relations between literature and the arts; science, technology, and philosophy; and political, economic, and social thought. The content of the curriculum has been developed in the belief that historical

perspective is required for a full understanding of contemporary issues. Courses numbered 201-208 progress from historical to contemporary topics, in each of the three breadth areas. Together, these courses provide a comprehensive introduction to the achievements of Western culture. Those numbered 251-372 cover interdisciplinary special topics in the natural sciences, social sciences, and humanities, from "Art and Political Activism" to "Vietnam: Music, Media, and Mayhem." ILS also includes a course (ILS 200 Critical Thinking and Expression) in Critical Thinking and Expression to sharpen communication and research skills necessary for college work. This course satisfies the university's Communications B requirement. ILS 400 Capstone Integration Seminar, a senior capstone seminar addressing an interdisciplinary topic, is required in order to complete the ILS certificate.

BRADLEY LEARNING COMMUNITY

The ILS program is affiliated with the Bradley Learning Community (<http://www.housing.wisc.edu/bradley>), a residence hall. ILS faculty participate in activities and offer courses taught in the residence hall.

INTEGRATED LIBERAL STUDIES, CERTIFICATE

Integrated Liberal Studies (ILS) (<http://www.wisc.edu/ils>) is an interdisciplinary program offering courses devoted to Western history, philosophy, politics, art, literature, and culture. As an alternative to scattered electives, ILS offers a set of related courses specially tailored to meet the breadth requirements of the College of Letters & Science. ILS draws exemplary, dynamic faculty from departments across campus to create courses that challenge students with a rigorous program of

interdisciplinary study emphasizing critical thinking and judgment rather than passive absorption of information. Although these courses may be taken as single electives, the purpose of the program is to counter the fragmentation of undergraduate education by providing a common ground of learning.

Because ILS courses are interdisciplinary, students are encouraged to make connections between the various subject areas. They study the relations between literature and the arts; science, technology, and philosophy; and political, economic, and social thought. The content of the curriculum has been developed in the belief that historical perspective is required for a full understanding of contemporary issues. Courses numbered 201–206 progress from historical to contemporary topics, in each of the three breadth areas. Together, these courses provide a comprehensive introduction to the achievements of Western culture. Those numbered 251–372 cover interdisciplinary special topics in the natural sciences, social sciences, and humanities, from "Art and Political Activism" to "Vietnam: Music, Media, and Mayhem." ILS also includes a course (ILS 200 Critical Thinking and Expression) in critical thinking and expression to sharpen communication and research skills necessary for college work. This course satisfies the university's Communications B requirement. ILS 400 Capstone Integration Seminar, a senior capstone seminar addressing an interdisciplinary topic, is required in order to complete the ILS certificate.

BRADLEY LEARNING COMMUNITY

The ILS program is affiliated with the Bradley Learning Community (<http://www.housing.wisc.edu/residencehalls-halls-bradley.htm>), a residence hall. ILS faculty participate in activities and offer courses taught in the residence hall.

HOW TO GET IN

ILS is open to all UW undergraduate students in any college. There are no requirements or prerequisites to declare the certificate.

Declaring an ILS certificate may be accomplished any time during the year and does not need to be added to UW–Madison admission forms. To declare an ILS certificate students can stop by the Meiklejohn House (228 North Chater Street) and talk to the advisor or administrator to fill out their declaration form. For more information, please see the program website (<http://ils.wisc.edu>) or send an email to ils@ls.wisc.edu.

REQUIREMENTS

18 CREDITS FROM:

Code	Title	Credits
at least 3 credits from:		
ILS/RELIG ST 234	Genres of Western Religious Writing

ILS 204	Western Culture: Literature and the Arts II	
ILS 205	Western Culture: Political, Economic, and Social Thought I	
ILS 206	Western Culture: Political, Economic, and Social Thought II	
ILS 208	History of Western Culture II	
ILS 209	Introduction to Global Cultures	
Total Credits		18

¹ Up to 6 credits from Freshman Interest Group (FIG) courses may apply to the certificate. Consult the undergraduate advisor for more information about applying these courses to the program.

6 credits in the certificate, in residence

LEARNING OUTCOMES

LEARNING OUTCOMES

Integrated Liberal Studies is an interdisciplinary liberal education core curriculum and ever-changing set of special topics courses *focused on* Western history, philosophy, politics, art, literature, and culture. The aim of ILS is to provide an integrated understanding of the great themes of human inquiry and expression in scientific, political, economic, and social thought, as well as literature and the arts. The program is an excellent, more cohesive alternative to *completing breadth requirements* through unrelated and fragmented introductory courses. *ILS offers instead a coherent set of integrated courses that fulfill all breadth requirements, and combines core survey courses with smaller, seminar-style topics courses.* There are *minimal* prerequisites for *all* ILS courses and most courses are open to freshmen. ILS is something of a "small liberal arts experience within a great University," an academic home where you can meet friends with similar interests taking a common set of courses. ILS holds a variety of student activities and events *to sustain its community of learning.* Our close relationships with the Bradley Learning Community and Chadbourne Residential College also mean that you could make ILS part of a complete living-learning experience.

You can meet all of the Letters & Science distribution requirements for a BA degree through ILS. However, ILS is a flexible program: you can take as many ILS courses as you like. Some students make ILS the core of their first two years of study; others take ILS courses alongside their major throughout their undergraduate studies. The "first tier" courses (numbered 201-206) are organized historically and together offer a comprehensive view of the achievements of the mind in science, social thought, and the humanities. The "second tier" courses (numbered 251-372) deal with contemporary issues in science, social science, and the humanities. In addition to these classes, ILS also offers its own writing course, Critical Thinking and Expression (ILS 200), which sharpens analysis and composition skills.

Students can receive a certificate showing that they have completed an integrated liberal education program that becomes part of their transcript. ILS also offers several scholarships of various amounts to dedicated students within the program.

THE ILS CERTIFICATE

Integrated Liberal Studies is a certificate program. Students must complete 18 credits of ILS courses (approximately six total classes), including 6 credits in courses numbered 230 and above, one of which must be the capstone seminar (ILS 400). Upon satisfying these requirements, students will receive a certificate of completion: their transcripts will note they completed a program of interdisciplinary liberal studies in addition to their major(s). If you would like to work toward the ILS certificate, please stop by the ILS office in the Meiklejohn House, located at 228 N. Charter Street, and fill out the certificate declaration. Filling out the declaration does not obligate you to complete the certificate, but it does ensure notation on your transcript when you complete the requirements. Click here (http://ils.wisc.edu/documents/ils_declaration_sheet.pdf) to view the declaration form.

RESIDENCE & QUALITY OF WORK

2.000 GPA on all certificate-approved courses

ADVISING AND CAREERS

ADVISOR CONTACT

Richard Avramenko, ILS Chair

ils@ls.wisc.edu
608-262-2190

CAREER INFORMATION

The Integrated Liberal Studies Program encourages certificate students to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

Career Resources:

- Why the liberal arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)
- L&S Career Services (<http://careers.ls.wisc.edu/students.htm>): We launch our students higher, sooner
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/about/lsci?p=careerinitiative.html>)

WISCONSIN EXPERIENCE

"A SMALL LIBERAL ARTS COLLEGE WITHIN A GREAT UNIVERSITY"

ILS IS NOT ONLY A CERTIFICATE, BUT A COMMUNITY ON CAMPUS. THE PROGRAM STRIVES TO CREATE A PLACE WHERE STUDENTS CAN TAKE MULTIPLE CLASSES WITH THE SAME GROUP OF PEERS AND DEVELOP LASTING RELATIONSHIPS. IT'S LIKE A FIG (FIRST-YEAR INTEREST GROUP) THROUGHOUT THE ENTIRE UNDERGRADUATE EXPERIENCE.

"The University of Wisconsin needs programs like ILS to give students the indispensable liberal arts experience and I am happy that it was part of my experience here on campus." Brett Tietz (2015 ILS graduate)

"I love that the history and literature I learn in my ILS courses makes me a better conversationalist." Paul Sutherland (2015 ILS graduate)

"I love ILS because there is so much to learn. Through ILS I was able to trace the history of science from natural philosophy all the way up to Newtonian physics, and the impact of science on the contemporary art & literature. I really enjoyed being able to study the humanities, and the insights these classes have provided me on the interaction between science and culture. The program was a great way for me to study things that I am interested in, but are unrelated to my major, such as astronomy, geology, philosophy, literature, art history, geopolitics." Brad Glasco (2015 ILS graduate)

"The main goal of ILS is to get its students to recognize how different subjects of knowledge connect with one another. Our student-led class in our ILS capstone attempted to accomplish this goal through the topic of tattoos. By reading articles and books on tattoos, witnessing a classmate receive a tattoo, interviewing veteran tattoo artists in the field, debating case studies, and discussing stigmas and stereotypes of tattoos, we wove together knowledge from history, psychology, sociology, criminology, philosophy, and art. My views about tattoos, and people who choose to get them, will be forever better informed. I will always remember my classmates and this capstone!" Ryan Fleming (2015 ILS graduate)

“Virtually every ILS class threatens to fundamentally change the way you see the world.” Eric Schmidt, political science major

“Some of the best professors on campus teach ILS classes, and they love the program as much as the students! How many other programs offer Aristophanes, Nietzsche and Jon Stewart in the same class?” Jeff Landow, English major

RESOURCES AND SCHOLARSHIPS

MEIKLEJOHN TRAVEL AWARD UP TO \$1500

Named for Alexander Meiklejohn, founder of the University of Wisconsin Experimental College (1927–32), the forerunner to the ILS program, this prize is intended to help support an ILS student in a university-sponsored or an independent program of education-centered travel or study abroad, taking place during the summer or academic year (or in the United States if the destination is remote from the student’s home or the campus).

Eligibility:

- Enrolled in the ILS certificate program.
- “Consideration is given to the student’s need, extra-curricular activities and academic standing.”
- Must be a full-time undergraduate student.

Submit:

- A two-page, double-spaced typewritten statement of your project, outlining your interests, goals, and itinerary.
- You should provide evidence that the travel proposal has been reviewed and endorsed by an appropriate faculty member.
- The travel should take place during the summer or academic year immediately following the award; in your application, please specify.
- This project may be directed by a faculty member for directed study credit, be part of a study abroad course for credit or noncredit, or be a noncredit self-directed trip. Indicate in your submission which of these options you will be using.
- The grantee will submit a report on the project upon returning and present an ILS Travelogue at an ILS student event in the fall semester

POOLEY PRIZE UP TO \$2,000 EACH (BASED ON AVAILABLE FUNDS)

Named for Professor Robert Pooley, the first chair of the Integrated Liberal Studies program (1948), this prize is:

- given annually to one outstanding male ILS student and one outstanding female ILS student
- on the basis of academic achievement (GPA of at least 3.0 for the 3 preceding semesters),
- evidence of good character,
- student leadership in the ILS program, including involvement in extracurricular activities, and
- available for travel purposes relating to their ILS courses.

Eligibility: Open to all students who have either completed or are about to complete the ILS certificate program this year.

Submit:

- A double-spaced typewritten essay on your educational philosophy and goals (at least one page must be devoted to a narrative of your transcripts). The transcript narrative should tell why you took the elective courses you did, what you learned, what you liked or disliked, expectations met or exceeded, hopes realized, disappointments, and so on. Also discuss your participation in the life of the ILS program.
- Two reference letters from faculty in ILS providing evidence of your participation in and contributions to the life of the ILS program, your scholarship, and your character.

RUTH KNATZ AWARD UP TO \$5,000 (BASED ON AVAILABLE FUNDS)

Named for Ruth Knatz Gross Wisnewsky and given by her husband, Edward Wisnewsky, this prize will be given only to a truly outstanding student who:

- is majoring in at least one humanities discipline (including history and history of science, but not social science or science); this means you may be double-majoring in one non-humanities major, but the other must be a humanities major
- gives promise of making a valuable contribution to the humanities
- has done exemplary work in 15 ILS credits (6 credits above 250)
- has achieved junior or senior standing,
- will be travelling with the purpose of strengthening their ILS course and academic purpose, and
- has signed up for the certificate and plans to complete the ILS certificate program.

Submit:

- Three letters of recommendation, two from ILS faculty and one from faculty in your major, addressing your current contributions to the humanities and your potential for future contributions
- A brief (4–5 pages, double-spaced) essay on why you love the humanities; how the study of the humanities has changed your life; and how you hope to share what you’ve discovered with others.

The winner will present a talk in a symposium at ILS titled “The Promise of the Humanities.”

INTEGRATIVE BIOLOGY

RESEARCH AND EDUCATION

With 22 faculty members and 14 affiliated faculty members from campus, research and education in the Department of Integrative Biology spans all levels of biological organization (from the molecular level to whole ecosystems and regions), considers a diverse range of taxa (microbes, plants, animals) and systems (terrestrial, aquatic), and addresses a wide array of basic and applied research questions. The Department of Integrative Biology is committed to providing the best training and education in the field of biology for UW–Madison undergraduate and graduate students.

MAJORS

As one of the largest departments in the College of Letters & Science, the Department of Integrative Biology is home to the zoology, molecular biology, and newly formed neurobiology majors. Nearly 2500 students enroll in the introductory biology courses (BIOLOGY/ZOOLOGY 101 Animal Biology and ZOOLOGY/BIOLOGY 102 Animal Biology Laboratory; BOTANY/BIOLOGY/ZOOLOGY 151 Introductory Biology/ZOOLOGY 153 Introductory Biology 153 and ZOOLOGY/BIOLOGY/BOTANY 152 Introductory Biology), and another 1000 students enroll in a variety of courses in the field of biology.

DEGREES/MAJORS/CERTIFICATES

- Biology, B.A. (L&S) (p. 911)
- Biology, B.S. (L&S) (p. 921)
- Molecular Biology, B.A. (p. 931)
- Molecular Biology, B.S. (p. 935)
- Neurobiology, B.A. (p. 939)
- Neurobiology, B.S. (p. 944)
- Zoology, B.A. (p. 950)
- Zoology, B.S. (p. 954)

PEOPLE

Professors Hardin (chair, jdhardin@wisc.edu), Bement, Blair, Carpenter, Gammie, Halloran, Ives, Lee, Newmark, Porter, Ritters, Stanley, Stretton, Turner and Vander Zanden

Associate Professors Amann, Damschen, Grinblat, McIntyre and Orrock

Assistant Professors Sharma and Wolman

Adjunct Professor Peckarsky

BIOLOGY, B.A. (L&S)

The biology major is designed for students with broad interests in the biological sciences. It is intended primarily to:

1. prepare undergraduates for graduate studies in diverse areas of biology;
2. prepare certain preprofessional students (e.g., medicine, veterinary medicine, dentistry) for advanced study in the health professions;
3. provide a broad exposure to biology for students who want a general science education as biologists; and
4. serve as initial preparation for students who later choose a more specialized major.

The major is offered by the College of Letters & Science and the College of Agricultural and Life Sciences.

HOW TO GET IN

Students interested in declaring the biology major should set up an appointment to speak with biology academic advisor. Information can be found at advising (<http://biologymajor.wisc.edu/advising>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
-------------	--

Foreign Language	<ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language
------------------	---

Note: A unit is one year of high school work or one semester/term of college work.

- L&S Breadth
- Humanities, 12 credits: 6 of the 12 credits must be in literature
 - Social Sciences, 12 credits
 - Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW-Madison 2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR

Courses may not double count within the major (unless specifically noted otherwise), but courses counted toward the major requirements may also be used to satisfy a university requirement and/or a college requirement. A minimum of 15 credits must be completed in the major that are not used elsewhere. Students must declare the major, complete the common requirements below, and complete the requirements for one of the named options or "no option."

Students must complete a minimum of 31 credits from Introductory Biology, Foundation, Intermediate/Advanced, Seminar (options only) and additional lab/research courses.

COMMON MAJOR REQUIREMENTS

MATHEMATICS AND STATISTICS

Code	Title	Credits
Select one of the following:		5-10
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
MATH 221	Calculus and Analytic Geometry 1	
Select one of the following: ¹		3-4
MATH 222	Calculus and Analytic Geometry 2	
STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	

¹ Students completing the evolutionary biology option are required to complete either STAT 301 Introduction to Statistical Methods or STAT 371 Introductory Applied Statistics for the Life Sciences.

CHEMISTRY

Code	Title	Credits
General Chemistry		
Select one of the following:		5-9
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
Organic Chemistry		
CHEM 343	Introductory Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Intermediate Organic Chemistry	3

PHYSICS

Code	Title	Credits
1st semester physics; select one of the following:		4-5
PHYSICS 103	General Physics	
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
2nd semester physics, select one of the following:		4-5
PHYSICS 104	General Physics	
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	

INTRODUCTORY BIOLOGY

Code	Title	Credits
Select one of the following options: ¹		10-16
Option A:		
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology	
Option B:		
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 485	Organismal Biology	
Option C:		
ZOOLOGY/ BIOLOGY 101	Animal Biology	
ZOOLOGY/ BIOLOGY 102	Animal Biology Laboratory	
BOTANY/ BIOLOGY 130	General Botany	
Foundational Course ²		
Select one of the following:		3

BIOCORE 381 & BIOCORE 383	Evolution, Ecology, and Genetics and Cellular Biology ³
AGRONOMY/HORT 338	Plant Breeding and Biotechnology
GENETICS 466	Principles of Genetics
GENETICS 468	General Genetics 2
MICROBIO 470	Microbial Genetics & Molecular Machines
BIOCHEM 501	Introduction to Biochemistry
BIOCHEM 508	General Biochemistry II

¹ For AP Biology policy, as it applies to introductory biology in the biology major, see this link (<http://biology.wisc.edu/advising/advisor-resources/ap-ib-biology-policy>).

² Does not count toward intermediate/advanced courses. Students completing the evolutionary biology option must complete either GENETICS 466 Principles of Genetics or GENETICS 468 General Genetics 2 to fulfill the Foundation requirement. Students completing the plant biology option are **not** allowed to take MICROBIO 470 Microbial Genetics & Molecular Machines to fulfill the Foundation requirement.

³ Students may use BIOCORE 381 Evolution, Ecology, and Genetics and BIOCORE 383 Cellular Biology to contribute to introductory biology and satisfy foundation.

ADDITIONAL LAB OR FIELD RESEARCH

Select one of the following options:

1. Take an additional lab or field instruction from categories A–E in the Intermediate/Advanced course lists (p. 916).
2. Complete a directed study in a biological science discipline.¹
3. Complete a thesis in biological science.¹

¹ Must complete Introductory Biology **prior** to enrolling in either a directed study or thesis. Select an appropriate course in consultation with advisor.

OPTIONS IN THE MAJOR

In addition to the common requirements, students must complete one of the options below. A minimum of 13 intermediate/advanced credits from the lists provided are required, which must include **one approved lab course**. Approved lab courses are indicated by footnote.

- Biology Major–No Option (p. 913)
- Evolutionary Biology Option (p. 913)
- Neurobiology Option (p. 913)¹
- Plant Biology Option (p. 915)

¹ **Note: Admission to the biology major with a neurobiology option is suspended.** The College of Letters & Science now offers a *neurobiology major*. Students already declared for the biology major with a neurobiology option are allowed to continue in the program; they must complete the program no later than August 2019.

Students who have declared the biology major–neurobiology option may cancel the major and declare the new neurobiology major, provided it does not extend their time to degree. Students should consult with an advisor in the new neurobiology major to determine which program is best for them.

Students may not double-major in any biology major option and the neurobiology major.

BIOLOGY MAJOR–NO OPTION INTERMEDIATE/ADVANCED COURSES

Minimum of 13 credits required and must include **one approved lab course**. Approved lab courses are indicated by footnote.

Select one course from categories A or B below.

Select one course from categories C or D below.

Select one course from category E or from an unused category above.

- A. Cellular and Subcellular Biology (p. 916)
- B. Organismal Biology (p. 917)
- C. Ecology (p. 918)
- D. Evolution and Systematics (p. 918)
- E. Applied Biology, Agriculture and Natural Resources (p. 919)

EVOLUTIONARY BIOLOGY OPTION INTERMEDIATE/ADVANCED COURSES

Minimum of 13 credits required and must include **one approved lab course**. Approved lab courses are indicated by footnote.

Students must take ANTHRO/BOTANY/ZOOLOGY 410 Evolutionary Biology. In addition, select one course from categories A or B below. Select one course from category C. Select one course from category D. Additional courses can be taken from "A–E" to satisfy the lab and/or 31 credit requirement.

- A. Cellular and Subcellular Biology (p. 916)
 - B. Organismal Biology (p. 917)
 - C. Ecology (p. 918)
 - D. Evolution and Systematics (p. 918)
 - E. Applied Biology, Agriculture and Natural Resources (p. 919)
- ### SEMINAR

Code	Title	Credits

BIOLOGY/ GENETICS 522	Evolution Seminar Series- Undergraduate	1

NEUROBIOLOGY OPTION

Note: Admission to the biology major with a neurobiology option is suspended. The College of Letters & Science now offers a *neurobiology major*. Students already declared for the biology major with a neurobiology option are allowed to continue in the program; they must complete the program no later than August 2019.

Students who have declared the biology major–neurobiology option may cancel the major and declare the new neurobiology major, provided it does not extend their time to degree. Students should consult with an advisor in the new neurobiology major to determine which program is best for them.

Students may not double-major in any biology major option and the neurobiology major.

INTERMEDIATE/ADVANCED COURSES

Minimum of 13 credits required and must include **one approved lab course**. Approved lab courses are indicated by footnote.

Students must complete 1. ZOOLOGY/PSYCH 523 Neurobiology and 2. either ZOOLOGY/NTP/PHYSIOL/PSYCH 524 Neurobiology II: An Introduction to the Brain and Behavior or PSYCH 454 Behavioral Neuroscience.

In addition, select one course from category A. Select one course from category B. Select one course from categories C or D below. Additional courses can be taken from "A-F" to satisfy the lab and/or 31-credit requirement.

A. Cellular and Molecular Neurobiology

Code	Title	Credits
ANATOMY/NTP/ PHYSIOL 625	Brain Cell Cultures and Imaging: A Lab Course ¹	4
NTP/PHMCOL-M/ PHYSIOL 610	Cellular and Molecular Neuroscience	4
NTP/NEURODPT/ PHYSIOL/ ZOOLOGY 616	Lab Course in Neurobiology and Behavior ¹	4
NTP/PHYSIOL 629	Molecular and Cellular Mechanisms of Memory	3
NTP 655	Modeling Neurodevelopmental Disease	3
NTP 675	Special Topics (Molecular Mechanisms of Brain Damage)	1-3
NTP 675	Special Topics (Reproductive Neuroendocrinology)	1-3
NTP/NEUROL 735	Neurobiology of Disease	2
PSYCH 601	Current Topics in Psychology (Epigenetics & the Brain)	3
PSYCH 601	Current Topics in Psychology (Neuropharmacology)	3
ZOOLOGY 400	Topics in Biology ²	1-3
ZOOLOGY 555	Laboratory in Developmental Biology ¹	3
ZOOLOGY 604	Computer-based Gene and Disease/ Disorder Research Lab ¹	2
ZOOLOGY 625	Development of the Nervous System	2

¹ Courses also approved for lab credit

² Approved topic: General Molecular Biology, offered spring 2016 and spring 2017

B. Systems Neurobiology

Code	Title	Credits

¹ Courses also approved for lab credit

² Approved topic: Evolutionary Systems Biology

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major courses

2.000 GPA on 15 upper-level major credits, taken in residence ¹

15 credits in the major, taken on the UW–Madison campus

¹ Courses with intermediate or advanced level are considered upper level in this major.

HONORS IN THE MAJOR

Once students have declared the biology major and before enrolling in the Senior Honors Thesis, they may apply to pursue Honors in the Major. In addition to completing and submitting the Honors in the Major Declaration Form, the student must produce a two- to three-page, double-spaced thesis proposal that briefly introduces the biological problem and then describes the line of experimentation that is proposed for the thesis work. The student and faculty mentor must sign the proposal before it is submitted to the Biology Major Office.

HONORS IN THE BIOLOGY MAJOR REQUIREMENTS ¹

To earn a B.A. or B.S. with Honors in the Major in Biology students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 university GPA
- Earn a 3.300 GPA in the major/subject
- Complete 13 credits of Foundation, and/or intermediate/advanced courses for honors.
- Complete an approved two-semester Senior Honors Thesis for a total of 6 credits.

¹ Plant biology option must choose from intermediate/advanced courses listed under the plant biology option and should consult with their advisor about the Senior Thesis options.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Graduates will know and understand core concepts that unify the breadth of biological sciences:
 - a. Evolution - The diversity of life evolved over time by processes of mutation, selection, and genetic change.
 - b. Structure and Function - Basic units of structure define the function of all living things.
 - c. Information flow, exchange, and storage - The growth and behavior of organisms are activated through the expression of genetic information in context.
 - d. Pathways for transformations of energy and matter - Biological systems grow and change by processes based upon chemical transformation pathways and are governed by the laws of thermodynamics.
 - e. Systems - Living systems are interconnected and interacting.
2. Graduates will be able to demonstrate practical skills of a professional biologist:
 - a. Problem#solving by engaging the process of science:
 - i Developing hypotheses and aligning appropriate methodologies.
 - ii Using biological knowledge/concepts to solve problems.
 - iii Integrating disparate information.
 - b. Written and verbal proficiency.
 - c. Laboratory skills.
 - d. Quantitative analysis skills.
 - e. Teamwork skills.
3. Graduates will be able to engage and make broader connections to other scientific disciplines and society.

ADVISING AND CAREERS

ADVISING

Your advisor is here to guide you through the biology major. We can address your questions and concerns, provide advice, help you create a four-year degree plan that meets your major and professional goals, and connect you to resources. It is important to remember that advising is about the process, and some questions do not have a quick and easy answer. Your advisor will challenge you to self-reflect, to critically think about your goals and strategies, and to develop decision-making skills. For more information about what to expect during your advising

appointment, visit UW Undergraduate Advising (<http://advising.wisc.edu/content/expectations-about-advising>).

In the biology major, students are assigned to an adviser according to last name. Please visit us here (<http://biologymajor.wisc.edu/advising>) to schedule an advising appointment.

CAREERS

The biology major encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

Career Resources:

- Why the Liberal Arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)
- L&S Career Services (<http://careers.ls.wisc.edu/students.htm>): We launch our students higher, sooner.
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/about/lsci?p=careerinitiative.html>)

BIOLOGY, B.S. (L&S)

The biology major is designed for students with broad interests in the biological sciences. It is intended primarily to:

1. prepare undergraduates for graduate studies in diverse areas of biology;
2. prepare certain preprofessional students (e.g., medicine, veterinary medicine, dentistry) for advanced study in the health professions;
3. provide a broad exposure to biology for students who want a general science education as biologists; and
4. serve as initial preparation for students who later choose a more specialized major.

The major is offered by the College of Letters & Science and the College of Agricultural and Life Sciences.

HOW TO GET IN

Students interested in declaring the biology major should set up an appointment to speak with biology academic advisor. Information can be found at advising (<http://biologymajor.wisc.edu/advising>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

Courses may not double count within the major (unless specifically noted otherwise), but courses counted toward the major requirements may also be used to satisfy a university requirement and/or a college requirement. A minimum of 15 credits must be completed in the major that are not used elsewhere. Students must declare the major, complete the common requirements below, and complete the requirements for one of the named options or "no option."

Students must complete a minimum of 31 credits from Introductory Biology, Foundation, Intermediate/Advanced, Seminar (options only) and additional lab/research courses.

COMMON MAJOR REQUIREMENTS

MATHEMATICS AND STATISTICS

Code	Title	Credits
Select one of the following:		5-10
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
MATH 221	Calculus and Analytic Geometry 1	
Select one of the following: ¹		3-4
MATH 222	Calculus and Analytic Geometry 2	
STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	

¹ Students completing the evolutionary biology option are required to complete either STAT 301 Introduction to Statistical Methods or STAT 371 Introductory Applied Statistics for the Life Sciences.

CHEMISTRY

Code	Title	Credits
General Chemistry		
Select one of the following:		5-9
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
Organic Chemistry		
CHEM 343	Introductory Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Intermediate Organic Chemistry	3

PHYSICS

Code	Title	Credits
1st semester physics; select one of the following:		4-5
PHYSICS 103	General Physics	
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
2nd semester physics, select one of the following:		4-5
PHYSICS 104	General Physics	
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	

INTRODUCTORY BIOLOGY

Code	Title	Credits
Select one of the following options: ¹		10-16
Option A:		
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	

BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology
------------------------------------	----------------------

Option B:

BIOCORE 381	Evolution, Ecology, and Genetics
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory
BIOCORE 383	Cellular Biology
BIOCORE 384	Cellular Biology Laboratory
BIOCORE 485	Organismal Biology

Option C:

ZOOLOGY/ BIOLOGY 101	Animal Biology
ZOOLOGY/ BIOLOGY 102	Animal Biology Laboratory
BOTANY/ BIOLOGY 130	General Botany

Foundational Course²Select one of the following: 3

BIOCORE 381 & BIOCORE 383	Evolution, Ecology, and Genetics and Cellular Biology ³
AGRONOMY/ HORT 338	Plant Breeding and Biotechnology
GENETICS 466	Principles of Genetics
GENETICS 468	General Genetics 2
MICROBIO 470	Microbial Genetics & Molecular Machines
BIOCHEM 501	Introduction to Biochemistry
BIOCHEM 508	General Biochemistry II

¹ For AP Biology policy, as it applies to introductory biology in the biology major, see this link (<http://biologymajor.wisc.edu/advising/advisor-resources/ap-ib-biology-policy>).

² Does not count toward intermediate/advanced courses. Students completing the evolutionary biology option must complete either GENETICS 466 Principles of Genetics or GENETICS 468 General Genetics 2 to fulfill the Foundation requirement. Students completing the plant biology option are **not** allowed to take MICROBIO 470 Microbial Genetics & Molecular Machines to fulfill the Foundation requirement.

³ Students may use BIOCORE 381 Evolution, Ecology, and Genetics and BIOCORE 383 Cellular Biology to contribute to introductory biology and satisfy foundation.

ADDITIONAL LAB OR FIELD RESEARCH

Select one of the following options:

1. Take an additional lab or field instruction from categories A–E in the Intermediate/Advanced course lists (p. 926).
2. Complete a directed study in a biological science discipline.¹
3. Complete a thesis in biological science.¹

¹ Must complete Introductory Biology **prior** to enrolling in either a directed study or thesis. Select an appropriate course in consultation with advisor.

OPTIONS IN THE MAJOR

In addition to the common requirements, students must complete one of the options below. A minimum of 13 intermediate/advanced credits from the lists provided are required, which must include **one approved lab course**. Approved lab courses are indicated by footnote.

- Biology Major–No Option (p. 923)
- Evolutionary Biology Option (p. 923)
- Neurobiology Option (p. 924)¹
- Plant Biology Option (p. 925)

¹ **Note: Admission to the biology major with a neurobiology option is suspended.** The College of Letters & Science now offers a *neurobiology major*. Students already declared for the biology major with a neurobiology option are allowed to continue in the program; they must complete the program no later than August 2019.

Students who have declared the biology major–neurobiology option may cancel the major and declare the new neurobiology major, provided it does not extend their time to degree. Students should consult with an advisor in the new neurobiology major to determine which program is best for them.

Students may not double-major in any biology major option and the neurobiology major.

**BIOLOGY MAJOR–NO OPTION
INTERMEDIATE/ADVANCED COURSES**

Minimum of 13 credits required and must include **one approved lab course**. Approved lab courses are indicated by footnote.

Select one course from categories A or B below.

Select one course from categories C or D below.

Select one course from category E or from an unused category above.

- A. Cellular and Subcellular Biology** (p. 926)
- B. Organismal Biology** (p. 927)
- C. Ecology** (p. 928)
- D. Evolution and Systematics** (p. 929)
- E. Applied Biology, Agriculture and Natural Resources** (p. 929)

**EVOLUTIONARY BIOLOGY OPTION
INTERMEDIATE/ADVANCED COURSES**

Minimum of 13 credits required and must include **one approved lab course**. Approved lab courses are indicated by footnote.

Students must take ANTHRO/BOTANY/ZOOLOGY 410 Evolutionary Biology. In addition, select one course from categories A or B below.

Select one course from category C. Select one course from category D.

Additional courses can be taken from "A–E" to satisfy the lab and/or 31 credit requirement.

- A. Cellular and Subcellular Biology** (p. 926)
- B. Organismal Biology** (p. 927)
- C. Ecology** (p. 928)
- D. Evolution and Systematics** (p. 929)
- E. Applied Biology, Agriculture and Natural Resources** (p. 929)

SEMINAR

Code	Title	Credits
	Undergraduate Evolution Seminar (1 cr minimum)	

BIOLOGY/ GENETICS 522	Evolution Seminar Series- Undergraduate	1
--------------------------	--	---

NEUROBIOLOGY OPTION

Note: Admission to the biology major with a neurobiology option is suspended. The College of Letters & Science now offers a *neurobiology major*. Students already declared for the biology major with a neurobiology option are allowed to continue in the program; they must complete the program no later than August 2019.

Students who have declared the biology major–neurobiology option may cancel the major and declare the new neurobiology major, provided it does not extend their time to degree. Students should consult with an advisor in the new neurobiology major to determine which program is best for them.

Students may not double-major in any biology major option and the neurobiology major.

INTERMEDIATE/ADVANCED COURSES

Minimum of 13 credits required and must include **one approved lab course**. Approved lab courses are indicated by footnote.

Students must complete 1. ZOOLOGY/PSYCH 523 Neurobiology and 2. either ZOOLOGY/NTP/PHYSIOL/PSYCH 524 Neurobiology II: An Introduction to the Brain and Behavior or PSYCH 454 Behavioral Neuroscience.

In addition, select one course from category A. Select one course from category B. Select one course from categories C or D below. Additional courses can be taken from "A–F" to satisfy the lab and/or 31-credit requirement.

A. Cellular and Molecular Neurobiology

Code	Title	Credits
ANATOMY/NTP/ PHYSIOL 625	Brain Cell Cultures and Imaging: A Lab Course ¹	4
NTP/PHMCOL-M/ PHYSIOL 610	Cellular and Molecular Neuroscience	4
NTP/NEURODPT/ PHYSIOL/ ZOOLOGY 616	Lab Course in Neurobiology and Behavior ¹	4

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major courses

2.000 GPA on 15 upper-level major credits, taken in residence ¹

15 credits in the major, taken on the UW–Madison campus

¹ Courses with intermediate or advanced level are considered upper level in this major.

HONORS IN THE MAJOR

Once students have declared the biology major and before enrolling in the Senior Honors Thesis, they may apply to pursue Honors in the Major. In addition to completing and submitting the Honors in the Major Declaration Form, the student must produce a two- to three-page, double-spaced thesis proposal that briefly introduces the biological problem and then describes the line of experimentation that is proposed for the thesis work. The student and faculty mentor must sign the proposal before it is submitted to the Biology Major Office.

HONORS IN THE BIOLOGY MAJOR REQUIREMENTS ¹

To earn a B.A. or B.S. with Honors in the Major in Biology students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 university GPA
- Earn a 3.300 GPA in the major/subject
- Complete 13 credits of Foundation, and/or intermediate/advanced courses for honors.
- Complete an approved two-semester Senior Honors Thesis for a total of 6 credits.

¹ Plant biology option must choose from intermediate/advanced courses listed under the plant biology option and should consult with their advisor about the Senior Thesis options.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Graduates will know and understand core concepts that unify the breadth of biological sciences:
 - a. Evolution - The diversity of life evolved over time by processes of mutation, selection, and genetic change.
 - b. Structure and Function - Basic units of structure define the function of all living things.
 - c. Information flow, exchange, and storage - The growth and behavior of organisms are activated through the expression of genetic information in context.
 - d. Pathways for transformations of energy and matter - Biological systems grow and change by processes based upon chemical transformation pathways and are governed by the laws of thermodynamics.
 - e. Systems - Living systems are interconnected and interacting.
2. Graduates will be able to demonstrate practical skills of a professional biologist:
 - a. Problem#solving by engaging the process of science:
 - i Developing hypotheses and aligning appropriate methodologies.
 - ii Using biological knowledge/concepts to solve problems.
 - iii Integrating disparate information.
 - b. Written and verbal proficiency.
 - c. Laboratory skills.
 - d. Quantitative analysis skills.
 - e. Teamwork skills.
3. Graduates will be able to engage and make broader connections to other scientific disciplines and society.

ADVISING AND CAREERS

ADVISING

Your advisor is here to guide you through the biology major. We can address your questions and concerns, provide advice, help you create a four-year degree plan that meets your major and professional goals, and connect you to resources. It is important to remember that advising is about the process, and some questions do not have a quick and easy answer. Your advisor will challenge you to self-reflect, to critically think about your goals and strategies, and to develop decision-making skills. For more information about what to expect during your advising appointment, visit UW Undergraduate Advising (<http://advising.wisc.edu/content/expectations-about-advising>).

In the biology major, students are assigned to an adviser according to last name. Please visit us here (<http://biologymajor.wisc.edu/advising>) to schedule an advising appointment.

CAREERS

The biology major encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

Career Resources:

- Why the Liberal Arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)
- L&S Career Services (<http://careers.ls.wisc.edu/students.htm>): We launch our students higher, sooner.
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/about/lsci?p=careerinitiative.html>)

MOLECULAR BIOLOGY, B.A.

ABOUT THE MAJOR

Molecular biology is the basic science that seeks an understanding of biological processes in terms of the properties and functions of the molecules that make up living cells. The scope of questions addressed in molecular biology ranges from evolution to development to the regulation of gene expression. A career in molecular biology requires a strong background in biology as well as a solid foundation in chemistry, mathematics, and physics.

The molecular biology major has been designed primarily for three groups of students:

1. those who plan to enter a research career in molecular biology or related areas such as biochemistry, genetics, oncology, microbiology, cell biology or developmental biology;
2. pre-professional students who plan to enter either a research or clinical career in medicine, or allied health fields;
3. students who plan to teach biology at the college or secondary-school levels.

Students with other interests are also welcome, of course. Career opportunities for students with an undergraduate degree in molecular biology are amazingly diverse. Graduates of the program have gone into patent law, science journalism, forensics, philosophy, nutrition, genetic counseling, veterinary medicine, anthropology, archeology, marine biology, theology, and much more (http://molecularbio.ls.wisc.edu/documents/What_can_I_do_with_a_MolBio_Major_.pdf).

Major requirements have been set to assure a high degree of proficiency in the various areas specified while still allowing as much flexibility as possible for students to individualize their programs. For the undergraduate interested in life sciences, this major uniquely provides access to the extraordinary scope and strength of biology courses and laboratories on the UW–Madison campus. Each student in the major is assigned a faculty advisor, and it is hoped that students will take advantage of both the staff and faculty advising service available to make a judicious choice of courses, as well as to gain scholarly experience outside the classroom that will further their academic and career goals.

Students who wish to obtain further information about the program or to declare a molecular biology major should contact the student services coordinator. (<http://molecularbio.ls.wisc.edu/advising.htm>) Faculty advisors are assigned through the program office and are located in many related departments throughout campus. Molecular biology faculty advisors are especially competent to provide counsel regarding the major and career opportunities in molecular biology.

UNDERGRADUATE RESEARCH

Undergraduate molecular biology students at UW–Madison are fortunate to have the opportunity to work with some of the world's leading researchers. Many opportunities for laboratory research experience are available on campus for undergraduate students and this type of experiences is strongly encouraged. Such an experience provides students the opportunity to apply what they're learning and compliment their knowledge with practical skills. Research experience is highly valued by employers, graduate programs, and professional schools. See the major website (<http://molecularbio.ls.wisc.edu/57.htm>) for more information on how to get involved in undergraduate research.

HOW TO GET IN

To declare the molecular biology major, students must contact or make an appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/aBNbotSX.html?sessionId=53F9D957BE6099BCF895E0A8487F3B94.primary>) with the molecular biology student services coordinator.

If students are not currently in the College of Letters & Science (L&S), you must transfer into L&S before declaring. However, students are welcome to meet with the molecular biology student services coordinator to discuss the major before transferring.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR MATHEMATICS, CHEMISTRY & PHYSICS

Code	Title	Credits
Calculus 1		

MATH 221 or MATH 211	Calculus and Analytic Geometry 1 Calculus	5
Calculus 2 or Statistics—one course:		3-5
MATH 222	Calculus and Analytic Geometry 2	
MATH 213	Calculus and Introduction to Differential Equations	
STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	
General Chemistry—complete one option:		5-9
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II (by consent of instructor only)	
Analytical Chemistry		
CHEM 327 or CHEM 329	Fundamentals of Analytical Science Fundamentals of Analytical Science	4
Organic Chemistry		
CHEM 343	Introductory Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Intermediate Organic Chemistry	3
Physics—complete one option:		
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	
PHYSICS 207 & PHYSICS 208	General Physics and General Physics	
Total Credits		25-31

GENERAL BIOLOGY

Code	Title	Credits
Complete one option:		10-16
<i>Option A:</i>		
BIOLOGY/ BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology	
GENETICS 466	Principles of Genetics	
<i>Option B (BIOCORE):¹</i>		
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 485	Organismal Biology	

¹ BIOCORE is an Honors program. Students may find more information here (<http://biocore.wisc.edu>).

Total Credits	21-26

LABORATORY/INDEPENDENT RESEARCH

2 credits from:

Code	Title	Credits
Lab/Research courses:		
HORT/PATH-BIO 500	Molecular Biology Techniques	
GENETICS 545	Genetics Laboratory	
BMOLCHEM 504	Human Biochemistry Laboratory	

MICROBIO 304	Biology of Microorganisms Laboratory
BIOCHEM 551	Biochemical Methods
ZOOLOGY 555	Laboratory in Developmental Biology
Thesis/Directed Study: ²	
MOL BIOL 681 & MOL BIOL 682	Senior Honors Thesis and Senior Honors Thesis
MOL BIOL 691 & MOL BIOL 692	Senior Thesis and Senior Thesis
MOL BIOL 699	Directed Studies in Molecular Biology

² For assistance finding a directed lab or research experience and for information about scholarships, see the advisor for this program and/or consult the Undergraduate Research page (<http://www.molecularbio.ls.wisc.edu/57.htm>).

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all MOL BIOL and major courses

2.000 GPA on 15 upper-level major credits, taken in residence

15 credits in MOL BIOL, taken on the UW–Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Molecular Biology Major in consultation with the Molecular Biology undergraduate advisor.

HONORS IN THE MOLECULAR BIOLOGY MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Molecular Biology students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all MOL BIOL courses, and all courses accepted in the major
- Complete the Molecular Biology advanced course requirement utilizing the courses indicated with the ³ above, taken for Honors credit and with grades of B or better earned in each individual course
- Complete a two-semester Senior Honors Thesis in MOL BIOL 681 Senior Honors Thesis and MOL BIOL 682 Senior Honors Thesis, for a total of 6 credits
- Complete MOL BIOL 686 Senior Honors Seminar in Molecular Biology

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Summarize the energetic and thermodynamic basis of life.
2. Define and explain the molecular basis of life and relationships between the structure and function of biological macromolecules.
3. Describe the nature of the cell and its role as the basic unit of life.
4. Understand the nature of the genetic material and its roles in inheritance, evolution, and cellular function.
5. Demonstrate comprehension of basic molecular biology laboratory techniques.
6. Utilize the scientific method to solve biological problems characteristic of today's society.
7. Understand the primary scientific literature and apply concepts from literature to draw conclusions about modern topics in the field.
8. Communicate scientific ideas in written and oral form.

ADVISING AND CAREERS

Students in the major are assigned to a team of advisors composed of a faculty advisor and a the major's student services coordinator. See the major's advising page (<http://bacmajor.ls.wisc.edu/advising.htm>) for a list of advisors and for the student services coordinator information. The faculty advisor provides guidance specific to the molecular biology discipline through discussions about undergraduate experiences (i.e., research, coursework, internships) that will help prepare students for graduate work or a career after graduation. The student services coordinator provides guidance specific to the discipline, and also helps students with major declarations, course selection, registration, DARS, L&S degree and major requirements, and tracking progress toward graduation, as well as connecting students with important resources on campus.

PEOPLE

Committee of Advisors: Ahmad (Dermatology), Amann (Integrative Biology), Fabry (Pathology and Laboratory Medicine), Filutowicz (Bacteriology), Martin (Biochemistry), McMahon (Civil Engineering and Environmental Engineering), Schuler (Comparative Biosciences)

MOLECULAR BIOLOGY, B.S.

ABOUT THE MAJOR

Molecular biology is the basic science that seeks an understanding of biological processes in terms of the properties and functions of the molecules that make up living cells. The scope of questions addressed in molecular biology ranges from evolution to development to the regulation of gene expression. A career in molecular biology requires a strong background in biology as well as a solid foundation in chemistry, mathematics, and physics.

The molecular biology major has been designed primarily for three groups of students:

1. those who plan to enter a research career in molecular biology or related areas such as biochemistry, genetics, oncology, microbiology, cell biology or developmental biology;
2. pre-professional students who plan to enter either a research or clinical career in medicine, or allied health fields;
3. students who plan to teach biology at the college or secondary-school levels.

Students with other interests are also welcome, of course. Career opportunities for students with an undergraduate degree in molecular biology are amazingly diverse. Graduates of the program have gone into patent law, science journalism, forensics, philosophy, nutrition, genetic counseling, veterinary medicine, anthropology, archeology, marine biology, theology, and much more (http://molecularbio.ls.wisc.edu/documents/What_can_I_do_with_a_MolBio_Major_.pdf).

Major requirements have been set to assure a high degree of proficiency in the various areas specified while still allowing as much flexibility as possible for students to individualize their programs. For the undergraduate interested in life sciences, this major uniquely provides access to the extraordinary scope and strength of biology courses and laboratories on the UW–Madison campus. Each student in the major is assigned a faculty advisor, and it is hoped that students will take advantage of both the staff and faculty advising service available to make a judicious choice of courses, as well as to gain scholarly experience outside the classroom that will further their academic and career goals.
