Students who wish to obtain further information about the program or to declare a molecular biology major should contact the student services coordinator. (<http://molecularbio.ls.wisc.edu/advising.htm>) Faculty advisors are assigned through the program office and are located in many related departments throughout campus. Molecular biology faculty advisors are especially competent to provide counsel regarding the major and career opportunities in molecular biology.

UNDERGRADUATE RESEARCH

Undergraduate molecular biology students at UW–Madison are fortunate to have the opportunity to work with some of the world's leading researchers. Many opportunities for laboratory research experience are available on campus for undergraduate students and this type of experiences is strongly encouraged. Such an experience provides students the opportunity to apply what they're learning and compliment their knowledge with practical skills. Research experience is highly valued by employers, graduate programs, and professional schools. See

the major website (<http://molecularbio.ls.wisc.edu/57.htm>) for more information on how to get involved in undergraduate research.

HOW TO GET IN

To declare the molecular biology major, students must contact or make an appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/aBNbotSX.html;jsessionid=53F9D957BE6099BCF895E0A8487F3B94.primary>) with the molecular biology student services coordinator.

If students are not currently in the College of Letters & Science (L&S), you must transfer into L&S before declaring. However, students are welcome to meet with the molecular biology student services coordinator to discuss the major before transferring.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR MATHEMATICS, CHEMISTRY & PHYSICS

Code	Title	Credits
Calculus 1		
MATH 221 or MATH 211	Calculus and Analytic Geometry 1 Calculus	5
Calculus 2 or Statistics—one course:		
MATH 222	Calculus and Analytic Geometry 2	3-5
MATH 213	Calculus and Introduction to Differential Equations	
STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	
General Chemistry—complete one option:		
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	5-9
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II (by consent of instructor only)	

Analytical Chemistry

CHEM 327	Fundamentals of Analytical Science	4
or CHEM 329	Fundamentals of Analytical Science	

Organic Chemistry

CHEM 343	Introductory Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Intermediate Organic Chemistry	3

Physics—complete one option:

PHYSICS 201 & PHYSICS 202	General Physics and General Physics	
PHYSICS 207 & PHYSICS 208	General Physics and General Physics	

Total Credits 25-31

GENERAL BIOLOGY

Code	Title	Credits
Complete one option:		10-16

Option A:

BIOLOGY/ BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology	
GENETICS 466	Principles of Genetics	

Option B (BIOCORE):¹

BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 485	Organismal Biology	

¹ BIOCORE is an Honors program. Students may find more information here (<http://biocore.wisc.edu>).

BIOCHEMISTRY AND MOLECULAR BIOLOGY

Code	Title	Credits
Biochemistry		3-7

Select one of the following:

BIOCHEM 501	Introduction to Biochemistry	3
BIOCHEM 507 & BIOCHEM 508	General Biochemistry I and General Biochemistry II	6-7

Molecular Biology - 3 credits from:

AGRONOMY/ HORT 339	Plant Biotechnology: Principles and Techniques I	
AGRONOMY/ HORT 340	Plant Cell Culture and Genetic Engineering	
BIOCHEM/ GENETICS/ MICROBIO 612	Prokaryotic Molecular Biology	
BIOCHEM/ GENETICS 620	Eukaryotic Molecular Biology	
GENETICS 545	Genetics Laboratory	

HORT/PATH- BIO 500	Molecular Biology Techniques	
-----------------------	------------------------------	--

HORT/ GENETICS 550	Molecular Approaches for Potential Crop Improvement	
-----------------------	---	--

Advanced Courses - 6 credits from 2 areas:**Development**

BOTANY 500	Plant Physiology	
ZOOLOGY 470	Introduction to Animal Development	
ZOOLOGY 555	Laboratory in Developmental Biology	
ZOOLOGY 625	Development of the Nervous System	

Microbiology

BOTANY/PL PATH 505	Plant-Microbe Interactions: Molecular and Ecological Aspects	
MICROBIO 303	Biology of Microorganisms	
MICROBIO 304	Biology of Microorganisms Laboratory	
MICROBIO 330	Host-Parasite Interactions	
MICROBIO/ SOIL SCI 425	Environmental Microbiology	
MICROBIO/PL PATH 622	Plant-Bacterial Interactions	
MICROBIO/ ONCOLOGY/PL PATH 640	General Virology-Multiplication of Viruses	
M M & I/ BIOCHEM 575	Biology of Viruses	

Genetics

AGRONOMY/ HORT 338	Plant Breeding and Biotechnology	
GENETICS/ BOTANY/HORT 561	Introductory Cytogenetics	
GENETICS/MD GENET 565	Human Genetics	
GENETICS 566	Advanced Genetics	
MICROBIO 470	Microbial Genetics & Molecular Machines	
MICROBIO/ GENETICS 607	Advanced Microbial Genetics	

Cell Biology (Endocrinology, Neurobiology, Immunology)

BIOCHEM/ PHMCOL-M/ ZOOLOGY 630	Cellular Signal Transduction Mechanisms	
BIOCORE 587	Biological Interactions	
MICROBIO/ M M & I/PATH- BIO 528	Immunology	
M M & I 341	Immunology	
ONCOLOGY 401	Introduction to Experimental Oncology	
ONCOLOGY/ MICROBIO/ PL PATH 640	General Virology-Multiplication of Viruses	

ZOOLOGY/ PSYCH 523	Neurobiology
ZOOLOGY 570	Cell Biology
<i>Biochemistry and Physical Chemistry</i>	
BIOCHEM 508	General Biochemistry II
BIOCHEM/NUTR SCI 510	Biochemical Principles of Human and Animal Nutrition
BIOCHEM 550	Topics in Medical Biochemistry
BIOCHEM 551	Biochemical Methods
BIOCHEM/ BOTANY 621	Plant Biochemistry
CHEM 561	Physical Chemistry
CHEM 565	Biophysical Chemistry
PHYSIOL 533	Molecular Physiology
<i>Quantitative and Computational Sciences</i>	
B M I/COMP SCI 576	Introduction to Bioinformatics
BOTANY 563	Phylogenetic Analysis of Molecular Data
COMP SCI/I SY E/ MATH 425	Introduction to Combinatorial Optimization
F&W ECOL/HORT/ STAT 571	Statistical Methods for Bioscience I
F&W ECOL/HORT/ STAT 572	Statistical Methods for Bioscience II
STAT 333	Applied Regression Analysis
STAT/B M I 541	Introduction to Biostatistics
Total Credits	21-26

LABORATORY/INDEPENDENT RESEARCH

2 credits from:

Code	Title	Credits
Lab/Research courses:		
HORT/PATH-BIO 500	Molecular Biology Techniques	
GENETICS 545	Genetics Laboratory	
BMOLCHEM 504	Human Biochemistry Laboratory	
MICROBIO 304	Biology of Microorganisms Laboratory	
BIOCHEM 551	Biochemical Methods	
ZOOLOGY 555	Laboratory in Developmental Biology	
Thesis/Directed Study: ²		
MOL BIOL 681 & MOL BIOL 682	Senior Honors Thesis and Senior Honors Thesis	
MOL BIOL 691 & MOL BIOL 692	Senior Thesis and Senior Thesis	
MOL BIOL 699	Directed Studies in Molecular Biology	

² For assistance finding a directed lab or research experience and for information about scholarships, see the advisor for this program and/or consult the Undergraduate Research page (<http://www.molecularbio.ls.wisc.edu/57.htm>).

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all MOL BIOL and major courses

2.000 GPA on 15 upper-level major credits, taken in residence

15 credits in MOL BIOL, taken on the UW–Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Molecular Biology Major in consultation with the Molecular Biology undergraduate advisor.

HONORS IN THE MOLECULAR BIOLOGY MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Molecular Biology students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all MOL BIOL courses, and all courses accepted in the major
- Complete the Molecular Biology advanced course requirement utilizing the courses indicated with the ³ above, taken for Honors credit and with grades of B or better earned in each individual course
- Complete a two-semester Senior Honors Thesis in MOL BIOL 681 Senior Honors Thesis and MOL BIOL 682 Senior Honors Thesis, for a total of 6 credits
- Complete MOL BIOL 686 Senior Honors Seminar in Molecular Biology

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Summarize the energetic and thermodynamic basis of life.
2. Define and explain the molecular basis of life and relationships between the structure and function of biological macromolecules.
3. Describe the nature of the cell and its role as the basic unit of life.
4. Understand the nature of the genetic material and its roles in inheritance, evolution, and cellular function.

5. Demonstrate comprehension of basic molecular biology laboratory techniques.
6. Utilize the scientific method to solve biological problems characteristic of today's society.
7. Understand the primary scientific literature and apply concepts from literature to draw conclusions about modern topics in the field.
8. Communicate scientific ideas in written and oral form.

ADVISING AND CAREERS

Students in the major are assigned to a team of advisors composed of a faculty advisor and a the major's student services coordinator. See the major's advising page (<http://bacmajor.ls.wisc.edu/advising.htm>) for a list of advisors and for the student services coordinator information. The faculty advisor provides guidance specific to the molecular biology discipline through discussions about undergraduate experiences (i.e., research, coursework, internships) that will help prepare students for graduate work or a career after graduation. The student services coordinator provides guidance specific to the discipline, and also helps students with major declarations, course selection, registration, DARS, L&S degree and major requirements, and tracking progress toward graduation, as well as connecting students with important resources on campus.

PEOPLE

Committee of Advisors: Ahmad (Dermatology), Amann (Integrative Biology), Fabry (Pathology and Laboratory Medicine), Filutowicz (Bacteriology), Martin (Biochemistry), McMahon (Civil Engineering and Environmental Engineering), Schuler (Comparative Biosciences)

NEUROBIOLOGY, B.A.

Neuroscience is the scientific study of the central (brain and spinal cord) and peripheral (nerves in body) nervous system. The neurobiology major at UW–Madison will provide a rigorous education in neuroscience principles that will prepare students for health-related careers (physician, physician assistant, veterinarian, dentist, neuroimaging technician, speech-language pathologist, neuropsychologist, drug rehabilitation counselor, physical therapists), academic careers (college and university faculty, research scientists, lab technician, K-12 teachers), and careers in pharmaceutical and biotech industries, venture capital and scientific consulting firms, medical and scientific journals, intellectual property law, neuroscience-related nonprofit organizations and foundations, and government agencies. UW–Madison is one of the leading universities in the world with more than 90 faculty engaged in neuroscience research and undergraduates will have access to this research faculty in formal classroom environments and through undergraduate research opportunities. Please see the Neurobiology Major (<http://www.neuromajor.wisc.edu>) website for more information.

ABOUT THE CURRICULUM

The curriculum is designed to give students a solid foundation in basic biology, chemistry, physics, and mathematics before going on to study neuroscience at the molecular, cellular, systems, and cognitive levels. Students with interests in non-neuroscience majors are welcome and encouraged to enroll in neuroscience courses. For example, students may be attracted to the diversity and flexibility of courses offered within

the biology major in the College of Agricultural and Life Sciences and still take several neuroscience courses that satisfy requirements in the biology major. Students can also perform independent research in neuroscience laboratories on campus. Students in other majors, such as biochemistry, psychology, genetics, animal sciences, communication sciences and disorders, engineering, and computer science, can enroll in neuroscience courses that uniquely complement courses within their major. The Neurobiology Major Program Committee is committed to increasing opportunities for all students with interests in neuroscience and helping students accomplish their academic goals at UW–Madison. This new major is tailored to attract students from a diverse array of backgrounds. Please see the Neurobiology Major website (<http://www.neuromajor.wisc.edu>) for more information.

HOW TO GET IN

Undergraduate advising in the major. The student services coordinators Catherine Auger and Virginia Jackson, located in Birge Hall, are the primary advisors for the neurobiology major. Students should declare the major no later than the beginning of the junior year. Students can make appointments for general advising and major declarations through the student services coordinators:

Catherine Auger, Schedule an Appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/GvjvmzDO.html>)

Virginia Jackson, Schedule an Appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/aBNbotSX.html>)

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR MATH, STATISTICS, CHEMISTRY & PHYSICS

Code	Title	Credits
Mathematics—one course:		5

MATH 211	Calculus	
MATH 217	Calculus with Algebra and Trigonometry II	
MATH 221	Calculus and Analytic Geometry I	
Statistics—one course:		3
STAT 371	Introductory Applied Statistics for the Life Sciences	
STAT/B M I 541	Introduction to Biostatistics	
BOTANY 575	Special Topics	
General Chemistry—one course:		5-9
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry—one course:		3
CHEM 341	Elementary Organic Chemistry	
CHEM 343 & CHEM 345	Introductory Organic Chemistry and Intermediate Organic Chemistry	
General Physics 1—one course:		4
PHYSICS 103	General Physics	
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
PHYSICS 247	A Modern Introduction to Physics	
E M A 201 & E M A 202	Statics and Dynamics	
General Physics 2		4
Select one of the following:		
PHYSICS 104	General Physics	
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	
PHYSICS 248	A Modern Introduction to Physics	
M E 240	Dynamics	
Total Credits		24-28

30 CREDITS OF BIOLOGY AND NEUROBIOLOGY

Credits will be applied from General Biology, Neurobiology, Lab, and Electives. Courses apply only once.

General Biology

Complete one General Biology sequence:

Code	Title	Credits
Introductory Biology		10-16
ZOOLOGY/ BIOLOGY/ BOTANY 151	Introductory Biology	
ZOOLOGY/ BIOLOGY/ BOTANY 152	Introductory Biology	
BIOCORE³		
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 383	Cellular Biology	
BIOCORE 485	Organismal Biology	
BIOCORE 587	Biological Interactions	

Plus two from:

BIOCORE 382	Evolution, Ecology, and Genetics Laboratory
BIOCORE 384	Cellular Biology Laboratory
BIOCORE 486	Organismal Biology Laboratory

Animal Biology

ZOOLOGY/ BIOLOGY 101	Animal Biology
ZOOLOGY/ BIOLOGY 102	Animal Biology Laboratory
BOTANY/ BIOLOGY 130	General Botany

Neurobiology

Code	Title	Credits
------	-------	---------

Neurobiology:

ZOOLOGY/ PSYCH 523	Neurobiology	3
-----------------------	--------------	---

Behavioral Neuroscience:

PSYCH 454	Behavioral Neuroscience	3
or ZOOLOGY/ NTP/PHYSIOL/ PSYCH 524	Neurobiology II: An Introduction to the Brain and Behavior	

Neuroscience Seminar:

ZOOLOGY 500	Undergraduate Neurobiology Seminar	1
-------------	------------------------------------	---

Distributed Neuroscience—three courses from:

BIOCHEM 501	Introduction to Biochemistry ¹	3
BIOCHEM 508	General Biochemistry II ¹	
BIOCHEM/ PHMCOL-M/ ZOOLOGY 630	Cellular Signal Transduction Mechanisms ¹	
CS&D 210	Neural Basis of Communication	
CS&D 503	Neural Mechanisms of Speech, Hearing and Language	
ED PSYCH 326	Mind, Brain and Education	
KINES 531	Neural Control of Movement	
NTP/PHMCOL-M/ PHYSIOL 610	Cellular and Molecular Neuroscience	
NTP/ZOOLOGY 616	Lab Course in Neurobiology and Behavior	
NTP/ PHYSIOL 629	Molecular and Cellular Mechanisms of Memory	
NTP/ANATOMY/ PHYSIOL 630	Neuronal Mechanisms for Sensation and Memory in Cerebral Cortex	
NTP 670	Stem Cells and the Central Nervous System	
NTP/NEUROL 735	Neurobiology of Disease	
NTP 675	Special Topics (Basic Sleep Mechanisms & Sleep Disorders)	
NTP 675	Special Topics (Behavioral Neuroendocrinology)	
NTP 675	Special Topics (Functional Brain Imaging of Cognitive Disorders)	

NTP 675	Special Topics (Molecular Mechanisms of Brain Damage)
NTP 675	Special Topics (Methods for Neuroimaging Research)
NTP 675	Special Topics (Neuroendocrinology)
NTP 675	Special Topics (Reproductive Neuroendocrinology)
NTP 675	Special Topics (Brain Mapping in Health and Disease: Applications)
PHYSIOL 335	Physiology ¹
PHYSIOL 435	Fundamentals of Human Physiology ¹
PSYCH 406	Psychology of Perception
PSYCH 601	Current Topics in Psychology (Epigenetics and the Brain)
PSYCH 601	Current Topics in Psychology (Neuropharmacology)
PSYCH 601	Current Topics in Psychology (Neural Basis of Cognitive Control)
PSYCH 601	Current Topics in Psychology (Neuroeconomics)
PSYCH 414	Cognitive Psychology
PSYCH 501	Depth Topic in Social Science (Hormones, Brain, and Behavior)
PSYCH 606	Hormones and Behavior
PSYCH/ ANATOMY/NTP/ PHMCOL-M/ PHYSIOL 611	Systems Neuroscience
ZOOLOGY 555	Laboratory in Developmental Biology
ZOOLOGY 603	Endocrinology
ZOOLOGY 604	Computer-based Gene and Disease/ Disorder Research Lab
ZOOLOGY 611	Comparative and Evolutionary Physiology
ZOOLOGY/ ANTHRO/NTP/ PSYCH 619	Biology of Mind
ZOOLOGY/ NTP 620	Neuroethology Seminar
ZOOLOGY 625	Development of the Nervous System

Total Credits 10

¹ Students may apply only one of the following courses toward the major: BIOCHEM 501, BIOCHEM 508, PHYSIOL 335, PHYSIOL 435.

Lab/Research Experience²

Choose one option from:

Code	Title	Credits
Neuroscience Lab—one course:		
BIOCORE 486	Organismal Biology Laboratory	
NTP/ZOOLOGY 616	Lab Course in Neurobiology and Behavior	

PHYSIOL 435	Fundamentals of Human Physiology
PHYSIOL/ ANATOMY/ NTP 625	Brain Cell Cultures and Imaging: A Lab Course
PSYCH 620	Capstone Mentored Research and Seminar
ZOOLOGY 555	Laboratory in Developmental Biology
ZOOLOGY 604	Computer-based Gene and Disease/ Disorder Research Lab
ZOOLOGY 612	Comparative Physiology Laboratory
Directed Study—3 credits from: ³	
ANATOMY 699	Independent Study
ANESTHES 699	Independent Study
BIOLOGY 699	Directed Studies
BMOLCHEM 699	Special Research Problems
CHEM 699	Directed Study
CS&D 699	Directed Study
FAM MED 699	Directed Study
GENETICS 699	Special Problems
KINES 699	Independent Study
MED PHYS 699	Independent Reading or Research
MEDICINE 699	Independent Study
M M & I 699	Directed Study
MOL BIOL 699	Directed Studies in Molecular Biology
NEURSURG 699	Neurosurgery: Directed in Study in Research
NEUROL 699	Neurology: Directed Study in Neuroscience Research
NTP 699	Directed Study in Research
NEURODPT 699	Independent Work
NUTR SCI 699	Special Problems
OBS&GYN 699	Directed Study
ONCOLOGY 699	Special Research Problems
OPHTHALM 699	Directed Study
PATH 699	Independent Study
PEDIAT 699	Independent Study
PHM SCI 699	Advanced Independent Study
PHYSIOL 699	Independent Work
POP HLTH 699	Independent Reading
PSYCH 699	Directed Study
PSYCHIAT 699	Independent Study
RADIOL 699	Directed Study
SURGERY 699	Independent Study
ZOOLOGY 699	Directed Studies in Zoology
Thesis—two semesters:	
PSYCH 681 & PSYCH 682	Senior Honors Thesis and Senior Honors Thesis
ZOOLOGY 691 & ZOOLOGY 692	Senior Thesis and Senior Thesis

² Note that Lab courses may also be those that apply in the Neurobiology category above.

³ Only Directed Study courses taken **after** — and not concurrent with or prior to — the completion of an Introductory Biology sequence are accepted in the major.

Electives

Additional credits from the Neurobiology, Lab, or the following list, to attain 30 credits in the major.

Code	Title	Credits
AN SCI/ DY SCI 362	Veterinary Genetics	
AN SCI/ DY SCI 434	Reproductive Physiology	
AN SCI/ F&W ECOL/ ZOOLOGY 520	Ornithology	
AN SCI/ GENETICS 610	Quantitative Genetics	
ANATOMY/ KINES 329	Human Anatomy-Kinesiology	
ANATOMY/NTP/ PHYSIOL 630	Neuronal Mechanisms for Sensation and Memory in Cerebral Cortex	
BIOCHEM 507	General Biochemistry I	
BIOCHEM 508	General Biochemistry II	
BIOCHEM/ NUTR SCI 510	Biochemical Principles of Human and Animal Nutrition

PHM SCI 558	Laboratory Techniques in Pharmacology and Toxicology
PHYSIOL 533	Molecular Physiology
PSYCH 449	Animal Behavior

PSYCH 450	Primates and Us: Insights into Human Biology and Behavior
PSYCH/ ZOOLOGY 550	Animal Communication and the Origins of Language
ZOOLOGY/ ANTHRO/ BOTANY 410	Evolutionary Biology
ZOOLOGY 425	Behavioral Ecology
ZOOLOGY 430	Comparative Anatomy of Vertebrates
ZOOLOGY 470	Introduction to Animal Development
ZOOLOGY/ GEOSCI 541	Paleobiology
ZOOLOGY/ GEOSCI 542	Invertebrate Paleontology
ZOOLOGY 555	Laboratory in Developmental Biology
ZOOLOGY 570	Cell Biology

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major courses

2.000 GPA on 15 upper-level major credits, taken in residence ⁴

15 credits in in the major, taken on the UW–Madison campus

⁴ Major courses numbered 300–699 are considered upper level.

HONORS IN THE MAJOR

Approved for declaration fall 2017 or later.

Students may declare Honors in the Neurobiology Major in consultation with the Neurobiology undergraduate advisor(s).

HONORS IN THE NEUROBIOLOGY MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Neurobiology students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all major courses
- Complete 14 credits, taken for Honors, with individual grades of B or better, while in residence, to include:
 - Two courses from PSYCH 454 Behavioral Neuroscience, ZOOLOGY/PSYCH 523 Neurobiology and ZOOLOGY 500 Undergraduate Neurobiology Seminar
 - One course from the Required Neuroscience or Distributed Neuroscience course lists (above), taken for honors credit
 - A two-semester Senior Honors Thesis, typically 681 and 682, for a total of 6 credits.¹

The Senior Honors Thesis project must be approved by the Neurobiology Major Program Committee at least one month before beginning 681. The project must focus on a neuroscience-related topic.

¹ The thesis can be taken in the following departments: ANATOMY, ANESTHES, BIOLOGY, BMOLCHEM, CHEM, COMP BIO, CRB, CS&D, ED PSYCH, FAM MED, GENETICS, KINES, MEDICINE, MED PHYS, MED

CS-V, M M & I, MOL BIOL, NEURODPT, NEUROL, NEURSURG, NTP, NUTR SCI, OBS&GYN, ONCOLOGY, OPHTHALM, PATH, PATH-BIO, PEDIAT, PHM SCI, PHYSIOL, POP HLTH, PSYCH, PSYCHIAT, RADIOL, SURGERY, ZOOLOGY. Other departments will be considered on a case-by-case basis by the Neurobiology Major Program Committee.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate understanding of basic concepts in biology, chemistry, mathematics, statistics, and physics.
2. Demonstrate understanding of the ionic basis for the neuronal membrane potential and action potential, and as well as the factors that determine neuronal excitability.
3. Demonstrate understanding of the basic mechanisms for synaptic transmission, neurotransmitter release, postsynaptic effects, and modulation of pre- and postsynaptic mechanisms. Predict how specific physiological and pathological conditions alter neuronal function at the cellular and synaptic levels.
4. Differentiate between examples of neuroplasticity at cellular, systems, and organismal levels.
5. Demonstrate understanding of central and peripheral neuroanatomy, basic functions of brain regions, and well-known neural pathways. Predict how localized disruptions of neuronal function alter behavior, motor function, or perception.
6. Demonstrate understanding of basic principles underlying motor function, sensory function (auditory, visual, touch, taste), emotion, autonomic regulation, and higher order cognitive functions (language, memory, attention, decision-making).
7. Demonstrate how experimental tools in neuroscience are used to address experimental questions, such as intra/extracellular recording, molecular biology techniques, immunohistochemical staining, fluorescent and electron microscopy, genetic manipulation, brain imaging, behavioral testing.

ADVISING AND CAREERS

NEUROBIOLOGY MAJOR ADVISING

The advisors for the neurobiology major are committed to providing students with first-rate guidance through the major and to graduation. Also the neurobiology major advisors are dedicated to helping a student focus their future plans after undergraduate study. If you are interested in declaring the neurobiology major, make an appointment to discuss this.

Neurobiology Major Programming Committee: Professors Ciucci (Communication Sciences and Disorders; Surgery), Gammie (Integrative Biology), Johnson (Comparative Biosciences, chair of major), Lipton (Neuroscience), Postle (Psychology), Turkstra (Communication Sciences and Disorders)

NEUROBIOLOGY, B.S.

Neuroscience is the scientific study of the central (brain and spinal cord) and peripheral (nerves in body) nervous system. The neurobiology major at UW–Madison will provide a rigorous education in neuroscience principles that will prepare students for health-related careers (physician, physician assistant, veterinarian, dentist, neuroimaging technician, speech-language pathologist, neuropsychologist, drug rehabilitation counselor, physical therapists), academic careers (college and university faculty, research scientists, lab technician, K-12 teachers), and careers in pharmaceutical and biotech industries, venture capital and scientific consulting firms, medical and scientific journals, intellectual property law, neuroscience-related nonprofit organizations and foundations, and government agencies. UW–Madison is one of the leading universities in the world with more than 90 faculty engaged in neuroscience research and undergraduates will have access to this research

faculty in formal classroom environments and through undergraduate research opportunities. Please see the Neurobiology Major (<http://www.neuromajor.wisc.edu>) website for more information.

ABOUT THE CURRICULUM

The curriculum is designed to give students a solid foundation in basic biology, chemistry, physics, and mathematics before going on to study neuroscience at the molecular, cellular, systems, and cognitive levels. Students with interests in non-neuroscience majors are welcome and encouraged to enroll in neuroscience courses. For example, students may be attracted to the diversity and flexibility of courses offered within the biology major in the College of Agricultural and Life Sciences and still take several neuroscience courses that satisfy requirements in the biology major. Students can also perform independent research in neuroscience laboratories on campus. Students in other majors, such as biochemistry, psychology, genetics, animal sciences, communication sciences and disorders, engineering, and computer science, can enroll in neuroscience courses that uniquely complement courses within their major. The Neurobiology Major Program Committee is committed to increasing opportunities for all students with interests in neuroscience and helping students accomplish their academic goals at UW–Madison. This new major is tailored to attract students from a diverse array of backgrounds. Please see the Neurobiology Major website (<http://www.neuromajor.wisc.edu>) for more information.

HOW TO GET IN

Undergraduate advising in the major: The student services coordinators Catherine Auger and Virginia Jackson, located in Birge Hall, are the primary advisors for the neurobiology major. Students should declare the major no later than the beginning of the junior year. Students can make appointments for general advising and major declarations through the student services coordinators:

Catherine Auger, Schedule an Appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/GvjvmzDO.html>)

Virginia Jackson, Schedule an Appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/aBNbotSX.html>)

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

**REQUIREMENTS FOR THE MAJOR
MATH, STATISTICS, CHEMISTRY & PHYSICS**

Code	Title	Credits
Mathematics—one course: 5		
MATH 211	Calculus	
MATH 217	Calculus with Algebra and Trigonometry II	
MATH 221	Calculus and Analytic Geometry I	
Statistics—one course: 3		
STAT 371	Introductory Applied Statistics for the Life Sciences	
STAT/B M I 541	Introduction to Biostatistics	
BOTANY 575	Special Topics	
General Chemistry—one course: 5-9		
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry—one course: 3		
CHEM 341	Elementary Organic Chemistry	
CHEM 343 & CHEM 345	Introductory Organic Chemistry and Intermediate Organic Chemistry	
General Physics 1—one course: 4		
PHYSICS 103	General Physics	
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
PHYSICS 247	A Modern Introduction to Physics	
E M A 201 & E M A 202	Statics and Dynamics	
General Physics 2 4		
Select one of the following:		
PHYSICS 104	General Physics	
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	
PHYSICS 248	A Modern Introduction to Physics	
M E 240	Dynamics	
Total Credits		24-28

30 CREDITS OF BIOLOGY AND NEUROBIOLOGY

Credits will be applied from General Biology, Neurobiology, Lab, and Electives. Courses apply only once.

General Biology

Complete one General Biology sequence:

Code	Title	Credits
	Introductory Biology	10-16

ZOOLOGY/ BIOLOGY/ BOTANY 151	Introductory Biology	
ZOOLOGY/ BIOLOGY/ BOTANY 152	Introductory Biology

ZOOLOGY 611	Comparative and Evolutionary Physiology
ZOOLOGY/ ANTHRO/NTP/ PSYCH 619	Biology of Mind
ZOOLOGY/ NTP 620	Neuroethology Seminar

ZOOLOGY 625	Development of the Nervous System
Total Credits	10

¹ Students may apply only one of the following courses toward the major: BIOCHEM 501, BIOCHEM 508, PHYSIOL 335, PHYSIOL 435.

Lab/Research Experience²

Choose one option from:

Code	Title	Credits
Neuroscience Lab—one course:		
BIOCORE 486	Organismal Biology Laboratory	
NTP/ZOOLOGY 616	Lab Course in Neurobiology and Behavior	
PHYSIOL 435	Fundamentals of Human Physiology	
PHYSIOL/ ANATOMY/ NTP 625	Brain Cell Cultures and Imaging: A Lab Course	
PSYCH 620	Capstone Mentored Research and Seminar	
ZOOLOGY 555	Laboratory in Developmental Biology	
ZOOLOGY 604	Computer-based Gene and Disease/ Disorder Research Lab	
ZOOLOGY 612	Comparative Physiology Laboratory	
Directed Study—3 credits from:³		
ANATOMY 699	Independent Study	
ANESTHES 699	Independent Study	
BIOLOGY 699	Directed Studies	
BMOLCHEM 699	Special Research Problems	
CHEM 699	Directed Study	
CS&D 699	Directed Study	
FAM MED 699	Directed Study	
GENETICS 699	Special Problems	
KINES 699	Independent Study	
MED PHYS 699	Independent Reading or Research	
MEDICINE 699	Independent Study	
M M & I 699	Directed Study	
MOL BIOL 699	Directed Studies in Molecular Biology	
NEURSURG 699	Neurosurgery: Directed in Study in Research	
NEUROL 699	Neurology: Directed Study in Neuroscience Research	
NTP 699	Directed Study in Research	
NEURODPT 699	Independent Work	
NUTR SCI 699	Special Problems	
OBS&GYN 699	Directed Study	
ONCOLOGY 699	Special Research Problems	
OPHTHALM 699	Directed Study	
PATH 699	Independent Study	
PEDIAT 699	Independent Study	
PHM SCI 699	Advanced Independent Study	

PHYSIOL 699	Independent Work
POP HLTH 699	Independent Reading
PSYCH 699	Directed Study
PSYCHIAT 699	Independent Study
RADIOL 699	Directed Study
SURGERY 699	Independent Study
ZOOLOGY 699	Directed Studies in Zoology

Thesis—two semesters:

PSYCH 681 & PSYCH 682	Senior Honors Thesis and Senior Honors Thesis
ZOOLOGY 691 & ZOOLOGY 692	Senior Thesis and Senior Thesis

² Note that Lab courses may also be those that apply in the Neurobiology category above.

³ Only Directed Study courses taken **after** — and not concurrent with or prior to — the completion of an Introductory Biology sequence are accepted in the major.

Electives

Additional credits from the Neurobiology, Lab, or the following list, to attain 30 credits in the major.

Code	Title	Credits
AN SCI/ DY SCI 362	Veterinary Genetics	
AN SCI/ DY SCI 434	Reproductive Physiology	
AN SCI/ F&W ECOL/ ZOOLOGY 520	Ornithology	
AN SCI/ GENETICS 610	Quantitative Genetics	
ANATOMY/ KINES 329	Human Anatomy-Kinesiology	
ANATOMY/NTP/ PHYSIOL 630	Neuronal Mechanisms for Sensation and Memory in Cerebral Cortex	
BIOCHEM 507	General Biochemistry I	
BIOCHEM 508	General Biochemistry II	
BIOCHEM/ NUTR SCI 510	Biochemical Principles of Human and Animal Nutrition	
BIOCHEM 601	Protein and Enzyme Structure and Function

ZOOLOGY 570	Cell Biology

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major courses

2.000 GPA on 15 upper-level major credits, taken in residence ⁴

15 credits in in the major, taken on the UW–Madison campus

⁴ Major courses numbered 300–699 are considered upper level.

HONORS IN THE MAJOR

Approved for declaration fall 2017 or later.

Students may declare Honors in the Neurobiology Major in consultation with the Neurobiology undergraduate advisor(s).

HONORS IN THE NEUROBIOLOGY MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Neurobiology students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all major courses
- Complete 14 credits, taken for Honors, with individual grades of B or better, while in residence, to include:
 - Two courses from PSYCH 454 Behavioral Neuroscience, ZOOLOGY/PSYCH 523 Neurobiology and ZOOLOGY 500 Undergraduate Neurobiology Seminar

- One course from the Required Neuroscience or Distributed Neuroscience course lists (above), taken for honors credit
- A two-semester Senior Honors Thesis, typically 681 and 682, for a total of 6 credits.¹

The Senior Honors Thesis project must be approved by the Neurobiology Major Program Committee at least one month before beginning 681. The project must focus on a neuroscience-related topic.

¹ The thesis can be taken in the following departments: ANATOMY, ANESTHES, BIOLOGY, BMOLCHEM, CHEM, COMP BIO, CRB, CS&D, ED PSYCH, FAM MED, GENETICS, KINES, MEDICINE, MED PHYS, MED CS-V, M M & I, MOL BIOL, NEURODPT, NEUROL, NEURSURG, NTP, NUTR SCI, OBS&GYN, ONCOLOGY, OPHTHALM, PATH, PATH-BIO, PEDIAT, PHM SCI, PHYSIOL, POP HLTH, PSYCH, PSYCHIAT, RADIOL, SURGERY, ZOOLOGY. Other departments will be considered on a case-by-case basis by the Neurobiology Major Program Committee.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate understanding of basic concepts in biology, chemistry, mathematics, statistics, and physics.
2. Demonstrate understanding of the ionic basis for the neuronal membrane potential and action potential, and as well as the factors that determine neuronal excitability.
3. Demonstrate understanding of the basic mechanisms for synaptic transmission, neurotransmitter release, postsynaptic effects, and modulation of pre- and postsynaptic mechanisms. Predict how specific physiological and pathological conditions alter neuronal function at the cellular and synaptic levels.
4. Differentiate between examples of neuroplasticity at cellular, systems, and organismal levels.
5. Demonstrate understanding of central and peripheral neuroanatomy, basic functions of brain regions, and well-known neural pathways. Predict how localized disruptions of neuronal function alter behavior, motor function, or perception.

- Demonstrate understanding of basic principles underlying motor function, sensory function (auditory, visual, touch, taste), emotion, autonomic regulation, and higher order cognitive functions (language, memory, attention, decision-making).
- Demonstrate how experimental tools in neuroscience are used to address experimental questions, such as intra/extracellular recording, molecular biology techniques, immunohistochemical staining, fluorescent and electron microscopy, genetic manipulation, brain imaging, behavioral testing.

ZOOLOGY, B.A.

The zoology major is a gateway to the diverse areas of modern biology. The major can be tailored to prepare students for advanced study and careers in many different areas: health professions and public health; law; life sciences research in university, government, and industrial settings;

education including museum, nature center, secondary school, and college teaching; biotechnology; and environmental studies.

Specialized preparation is offered in ecology, systematics, limnology, morphology, molecular biology, cellular biology, developmental biology, genetics, neurobiology, physiology, evolution, and behavior. Several possible areas, emphasizing different interests, are outlined in the requirements tab. They include ecology, evolution, and behavior; anatomy, physiology, and organismal biology; and cellular, molecular, and developmental biology. The department encourages undergraduate participation in research and offers summer research scholarships to outstanding students.

GOALS OF THE ZOOLOGY MAJOR

The zoology major emphasizes critical thinking and conceptual skills that come from an understanding of how scientific information is obtained and evaluated, and of how this information can be applied to societal issues. The major provides a solid foundation in genetic, cellular, physiological, ecological, and evolutionary principles, and in the related disciplines of chemistry, physics, and mathematics. As a result, the major fosters an understanding of biological complexity including the interrelationships among humans and natural systems.

The unique characteristics of the zoology major include:

- broad-based, yet integrated training in wide-ranging areas of biology;
- solid foundation of basic principles and processes in biology;
- flexibility and advising needed to allow students to tailor the major to their specific goals;
- wide range of opportunities for undergraduate involvement in independent research and senior thesis.

HOW TO GET IN

DECLARING THE ZOOLOGY MAJOR

All students who are interested in pursuing the zoology major must schedule an appointment with a department advisor. No major declaration forms are required to declare zoology.

Note: Students in the College of Letters & Science (L&S) may be declared by a department advisor immediately. Students who are not currently in L&S need to either transfer into L&S or have permission from their school or college to pursue an additional major in zoology. Instructions for transferring into L&S are available on the L&S Student Academic Affairs website (<http://saa.ls.wisc.edu>).

needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience	30 credits in residence, overall
Minimum GPAs	30 credits in residence after the 90th credit
	2.000 in all coursework at UW–Madison
	2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR MATH, CHEMISTRY & PHYSICS

Code	Title	Credits
Math—complete one:		5-6
MATH 112 & MATH 113	Algebra and Trigonometry	
MATH 114	Algebra and Trigonometry	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
Chemistry—complete one:		5-9
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
Physics—complete one:		8-10
PHYSICS 103 & PHYSICS 104	General Physics and General Physics	
PHYSICS 207 & PHYSICS 208	General Physics and General Physics	
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	
Total Credits		18-25

30 CREDITS IN BIOLOGY AND ZOOLOGY COURSEWORK

Introductory Biology

Code	Title	Credits
Option 1: Introductory Biology		
ZOOLOGY/ BIOLOGY/ BOTANY 151 & ZOOLOGY/ BIOLOGY/ BOTANY 152	Introductory Biology and Introductory Biology	
Option 2: BIOCORE		

Required courses:

BIOCORE 381	Evolution, Ecology, and Genetics
BIOCORE 383	Cellular Biology
BIOCORE 485	Organismal Biology
BIOCORE 587	Biological Interactions

Select two of the following:

BIOCORE 382	Evolution, Ecology, and Genetics Laboratory
BIOCORE 384	Cellular Biology Laboratory

BIOCORE 486	Organismal Biology Laboratory
-------------	-------------------------------

Option 3: Animal Biology¹

ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102	Animal Biology and Animal Biology Laboratory
--	---

Total Credits	10-18
----------------------	-------

¹ BOTANY/BIOLOGY 130 is recommended, but not required for students pursuing Option 3.

Zoology Electives²

Code	Title	Credits
NTP/NEUROL 735	Neurobiology of Disease	
ZOOLOGY 299	Directed Studies in Zoology	
ZOOLOGY 300	Invertebrate Biology and Evolution	
ZOOLOGY 301	Invertebrate Biology and Evolution Lab	
ZOOLOGY/ ENTOM 302	Introduction to Entomology	
ZOOLOGY 303	Aquatic Invertebrate Biology	
ZOOLOGY/ ENVIR ST 315 & ZOOLOGY 316	Limnology-Conservation of Aquatic Resources and Laboratory for Limnology-Conservation of Aquatic Resources	
ZOOLOGY/ ENTOM/M M & I/ PATH-BIO 350	Parasitology	
ZOOLOGY/ ENVIR ST/ F&W ECOL 360	Extinction of Species	
ZOOLOGY/ ENTOM 371	Medical Entomology	
ZOOLOGY/ ANTHRO/ BOTANY 410	Evolutionary Biology	
ZOOLOGY 425	Behavioral Ecology	
ZOOLOGY 430	Comparative Anatomy of Vertebrates	
ZOOLOGY/ BOTANY/ F&W ECOL 460	General Ecology	
GENETICS 466	Principles of Genetics	
ZOOLOGY 470	Introduction to Animal Development	
ZOOLOGY/ BOTANY/ ENTOM 473	Plant-Insect Interactions	
ZOOLOGY 504	Modeling Animal Landscapes	
ZOOLOGY/ ENVIR ST 510 & ZOOLOGY/ ENVIR ST 511	Ecology of Fishes and Ecology of Fishes Lab	
ZOOLOGY/ AN SCI/ F&W ECOL 520 & ZOOLOGY/ AN SCI/ F&W ECOL 521	Ornithology and Birds of Southern Wisconsin	

ZOOLOGY/ PSYCH 523	Neurobiology
ZOOLOGY/ ENTOM 540	Theoretical Ecology
ZOOLOGY 555	Laboratory in Developmental Biology
ZOOLOGY/ GENETICS/ MD GENET 562	Human Cytogenetics
ZOOLOGY/ F&W ECOL/ LAND ARC 565	Principles of Landscape Ecology
ZOOLOGY 570	Cell Biology
ZOOLOGY 603	Endocrinology
ZOOLOGY 604	Computer-based Gene and Disease/ Disorder Research Lab
ZOOLOGY/ NEURODPT/NTP/ PHYSIOL 616	Lab Course in Neurobiology and Behavior
ZOOLOGY/ ENTOM/ GENETICS 624	Molecular Ecology
ZOOLOGY/ BIOCHEM/ PHMCO-M 630	Cellular Signal Transduction Mechanisms
ZOOLOGY/ BOTANY/ ENVIR ST/ F&W ECOL 651	Conservation Biology
ZOOLOGY/ F&W ECOL 660	Climate Change Ecology
ZOOLOGY/ BOTANY/ F&W ECOL 672	Historical Ecology
ZOOLOGY 681 & ZOOLOGY 682	Senior Honors Thesis and Senior Honors Thesis
ZOOLOGY 691 & ZOOLOGY 692	Senior Thesis and Senior Thesis
ZOOLOGY 698	Directed Study
ZOOLOGY 699	Directed Studies in Zoology

Total Credits	12-20
----------------------	-------

² A maximum of 10 credits of Directed Study (ZOOLOGY 299, ZOOLOGY 698, ZOOLOGY 699), Senior Thesis (ZOOLOGY 691, ZOOLOGY 692), or Senior Honors thesis (ZOOLOGY 681, ZOOLOGY 682) count toward the 30 credits required for the major.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all ZOOLOGY and major courses

2.000 GPA on 15 upper-level major credits, taken in residence³

15 credits in ZOOLOGY, taken on the UW–Madison campus

³ ZOOLOGY 300–699 and intermediate/advanced BIOCORE are considered upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Zoology Major in consultation with the Zoology undergraduate advisor(s).

HONORS IN THE ZOOLOGY MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Zoology students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in all courses that count toward the major
- Complete 12 credits, taken for Honors, with individual grades of B or better. Select 6 credits from the following list:

Code	Title	Credits
ZOOLOGY/ANTHRO/ BOTANY 410	Evolutionary Biology	3
ZOOLOGY/BOTANY/ F&W ECOL 460	General Ecology	4
GENETICS 466	Principles of Genetics	3
ZOOLOGY 470	Introduction to Animal Development	3
ZOOLOGY 504	Modeling Animal Landscapes	3-5
ZOOLOGY/ ENVIR ST 510 & ZOOLOGY/ ENVIR ST 511	Ecology of Fishes and Ecology of Fishes Lab	5
ZOOLOGY/AN SCI/ F&W ECOL 520 & ZOOLOGY/AN SCI/ F&W ECOL 521	Ornithology and Birds of Southern Wisconsin	6
ZOOLOGY/ PSYCH 523	Neurobiology	3
ZOOLOGY/ NTP/PHYSIOL/ PSYCH 524	Neurobiology II: An Introduction to the Brain and Behavior	3
ZOOLOGY/ PSYCH 550	Animal Communication and the Origins of Language	3
ZOOLOGY 570	Cell Biology	3
ZOOLOGY 603	Endocrinology	3-4
ZOOLOGY 611	Comparative and Evolutionary Physiology	3
ZOOLOGY/ BOTANY/ENVIR ST/ F&W ECOL 651	Conservation Biology	3

And complete a two-semester Senior Honors Thesis in ZOOLOGY 681 Senior Honors Thesis and ZOOLOGY 682 Senior Honors Thesis, for a total of 6 credits.¹

¹ A written thesis proposal must be approved by the thesis mentor and the departmental advisor.

By the beginning of the senior year, each honors student will develop a written thesis proposal that must first be approved by the thesis mentor and then by a department advisor. Two semesters of Senior Honors Thesis (ZOOLOGY 681 and ZOOLOGY 682, 6 total credits) must be taken; the first semester can be done during the summer, especially for students

doing field research. Completion of ZOOLOGY 682 requires a written thesis approved and graded by the thesis mentor.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Understand the principles of genetics.
2. Understand the principles of cellular biology.
3. Understand the principles of physiology.
4. Understand the principles of ecology.
5. Understand the principles of evolution.
6. Understand current issues in biology.
7. Provide solid connections to related disciplines of chemistry, physics and mathematics.
8. Understand how scientific information is obtained.
9. Understand biological complexity.
10. Understand the interrelationship of humans and natural systems.
11. Develop quantitative reasoning skills (ability to solve problems requiring mathematic/statistical reasoning).
12. Develop critical thinking skills (ability to identify a problem, identify the information needed to solve the problem, and develop methods for solving the problem).
13. Develop skills to effectively communicate scientific information through oral presentations.
14. Develop skills to effectively communicate scientific information through written reports.
15. Develop skills to critically evaluate scientific information.
16. Develop an ability to engage in scientific inquiry.
17. Develop an ability to plan scientific experiments.
18. Access scientific information from various electronic and print sources.
19. Apply scientific knowledge to societal issues.
20. Appreciate the diversity of life.
21. Build a strong foundation for potential graduate study.

22. Develop a sense of competence in the field of study.

ADVISING AND CAREERS

ADVISING

Students are encouraged to consult with a department advisor to construct individual programs appropriate to their own needs. Please use scheduling assistant or call 608-262-2742 to make an appointment with an advisor. Kayla Pelland (kpelland@wisc.edu) is available to meet with students on Monday, Wednesday, and Friday mornings in B154 Birge Hall, and Joel Gruley (jgruley@wisc.edu) is available on Tuesday, Thursday, and Friday afternoons in 156 Birge Hall.

DIRECTED STUDY

For students interested in a short-term undergraduate research experience in a particular area of zoology, the department offers ZOOLOGY 699 Directed Studies in Zoology. ZOOLOGY 699, recommended for juniors and seniors, is graded on an A to F scale. Students cannot take directed studies on a pass/fail basis.

Directed study allows students to gain experience in a wide range of research areas in biology and to learn research techniques that are not easily taught in the classroom. Such experiences allow students to make more informed decisions about their future goals and careers.

Before students can sign up for ZOOLOGY 699, they must set up an appointment with a professor/mentor of their choice, and work with the professor/mentor to:

1. decide the specific number of credits and
2. plan the work required to earn those credits.

Such plans can involve reviewing relevant literature in the area, developing a proposal for independent research, and/or conducting an experiment in the mentor's study area.

Students interested in doing in-depth research as undergraduates in an area of interest can elect to do a Senior Thesis or Senior Honors Thesis (see below). Students should contact a department advisor at the beginning of their junior year to explore possible research areas.

A maximum of 10 credits of directed study (ZOOLOGY 299, ZOOLOGY 698, ZOOLOGY 699), senior thesis (ZOOLOGY 691, ZOOLOGY 692), or senior honors thesis (ZOOLOGY 681, ZOOLOGY 682) will count toward the 30 credits required for the major.

SENIOR THESIS

Students interested in making a longer-term commitment to a research project may consider undertaking a senior thesis. Students should contact a department advisor during their junior year to explore possible research areas in zoology.

Zoology Senior Thesis Requirements:

- approval of a department advisor;
- completion of ZOOLOGY 691 and ZOOLOGY 692, a two-semester thesis research sequence, during the senior year (6 credits).

It is recommended that candidates for the senior thesis take ZOOLOGY 699 during second semester junior year to prepare for the thesis.

SENIOR THESIS AND DISTINCTION IN THE MAJOR

Upon recommendation of the department to the dean, Distinction in the Major is granted at graduation to students not earning Honors in the Major who have done superior work in the major. In addition to the requirements for a senior thesis, to graduate with Distinction in the Zoology Major, students must maintain an overall GPA of 3.300 and a GPA of 3.500 in all zoology courses in the major.

CAREERS

The Department of Zoology encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

Career Resources:

- Why the liberal arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)
- L&S Career Services (<http://careers.ls.wisc.edu/students.htm>): We launch our students higher, sooner
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/about/lsci?p=careerinitiative.html>)

PEOPLE

FACULTY

Professors Hardin (chair, jddhardin@wisc.edu), Bement, Blair, Carpenter, Gammie, Halloran, Ives, Lee, Newmark, Porter, Riters, Stanley, Stretton, Turner and Vander Zanden

Associate Professors Amann, Damschen, Grinblat, McIntyre and Orrock

Assistant Professors Sharma and Wolman

Adjunct Professor Peckarsky

ZOOLOGY, B.S.

The zoology major is a gateway to the diverse areas of modern biology. The major can be tailored to prepare students for advanced study and careers in many different areas: health professions and public health; law; life sciences research in university, government, and industrial settings; education including museum, nature center, secondary school, and college teaching; biotechnology; and environmental studies.

Specialized preparation is offered in ecology, systematics, limnology, morphology, molecular biology, cellular biology, developmental biology, genetics, neurobiology, physiology, evolution, and behavior. Several possible areas, emphasizing different interests, are outlined in the requirements tab. They include ecology, evolution, and behavior;

anatomy, physiology, and organismal biology; and cellular, molecular, and developmental biology. The department encourages undergraduate participation in research and offers summer research scholarships to outstanding students.

GOALS OF THE ZOOLOGY MAJOR

The zoology major emphasizes critical thinking and conceptual skills that come from an understanding of how scientific information is obtained and evaluated, and of how this information can be applied to societal issues. The major provides a solid foundation in genetic, cellular, physiological, ecological, and evolutionary principles, and in the related disciplines of chemistry, physics, and mathematics. As a result, the major fosters an understanding of biological complexity including the interrelationships among humans and natural systems.

The unique characteristics of the zoology major include:

- broad-based, yet integrated training in wide-ranging areas of biology;
- solid foundation of basic principles and processes in biology;
- flexibility and advising needed to allow students to tailor the major to their specific goals;
- wide range of opportunities for undergraduate involvement in independent research and senior thesis.

HOW TO GET IN

DECLARING THE ZOOLOGY MAJOR

All students who are interested in pursuing the zoology major must schedule an appointment with a department advisor. No major declaration forms are required to declare zoology.

Note: Students in the College of Letters & Science (L&S) may be declared by a department advisor immediately. Students who are not currently in L&S need to either transfer into L&S or have permission from their school or college to pursue an additional major in zoology. Instructions for transferring into L&S are available on the L&S Student Academic Affairs website (<http://saa.ls.wisc.edu>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

**REQUIREMENTS FOR THE MAJOR
MATH, CHEMISTRY & PHYSICS**

Code	Title	Credits
Math—complete one:		5-6
MATH 112 & MATH 113	Algebra and Trigonometry	
MATH 114	Algebra and Trigonometry	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
Chemistry—complete one:		5-9
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
Physics—complete one:		8-10
PHYSICS 103 & PHYSICS 104	General Physics and General Physics	
PHYSICS 207 & PHYSICS 208	General Physics and General Physics	
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	
Total Credits		18-25

30 CREDITS IN BIOLOGY AND ZOOLOGY COURSEWORK**Introductory Biology**

Code	Title	Credits
Option 1: Introductory Biology		
ZOOLOGY/ BIOLOGY/ BOTANY 151 & ZOOLOGY/ BIOLOGY/ BOTANY 152	Introductory Biology and Introductory Biology	
Option 2: BIOCORE		
<i>Required courses:</i>		
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 383	Cellular Biology	
BIOCORE 485	Organismal Biology	
BIOCORE 587	Biological Interactions	
<i>Select two of the following:</i>		
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 486	Organismal Biology Laboratory	

Option 3: Animal Biology¹

ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102	Animal Biology and Animal Biology Laboratory	
Total Credits		10-18

¹ BOTANY/BIOLOGY 130 is recommended, but not required for students pursuing Option 3.

Zoology Electives²

Code	Title	Credits
NTP/NEUROL 735	Neurobiology of Disease	
ZOOLOGY 299	Directed Studies in Zoology	
ZOOLOGY 300	Invertebrate Biology and Evolution	
ZOOLOGY 301	Invertebrate Biology and Evolution Lab	
ZOOLOGY/ ENTOM 302	Introduction to Entomology	
ZOOLOGY 303	Aquatic Invertebrate Biology	
ZOOLOGY/ ENVIR ST 315 & ZOOLOGY 316	Limnology-Conservation of Aquatic Resources and Laboratory for Limnology-Conservation of Aquatic Resources	
ZOOLOGY/ ENTOM/M M & I/ PATH-BIO 350	Parasitology	
ZOOLOGY/ ENVIR ST/ F&W ECOL 360	Extinction of Species	
ZOOLOGY/ ENTOM 371	Medical Entomology	
ZOOLOGY/ ANTHRO/ BOTANY 410	Evolutionary Biology	
ZOOLOGY 425	Behavioral Ecology	
ZOOLOGY 430	Comparative Anatomy of Vertebrates	
ZOOLOGY/ BOTANY/ F&W ECOL 460	General Ecology

ZOOLOGY 470	Introduction to Animal Development	
ZOOLOGY/ BOTANY/ ENTOM 473	Plant-Insect Interactions	
ZOOLOGY 504	Modeling Animal Landscapes	
ZOOLOGY/ ENVIR ST 510 & ZOOLOGY/ ENVIR ST 511	Ecology of Fishes and Ecology of Fishes Lab	
ZOOLOGY/ AN SCI/ F&W ECOL 520 & ZOOLOGY/ AN SCI/ F&W ECOL 521	Ornithology and Birds of Southern Wisconsin	
ZOOLOGY/ PSYCH 523	Neurobiology	

ZOOLOGY/ ENTOM 540	Theoretical Ecology
ZOOLOGY 555	Laboratory in Developmental Biology
ZOOLOGY/ GENETICS/ MD GENET 562	Human Cytogenetics
ZOOLOGY/ F&W ECOL/ LAND ARC 565	Principles of Landscape Ecology
ZOOLOGY 570	Cell Biology
ZOOLOGY 603	Endocrinology
ZOOLOGY 604	Computer-based Gene and Disease/ Disorder Research Lab
ZOOLOGY/ NEURODPT/NTP/ PHYSIOL 616	Lab Course in Neurobiology and Behavior
ZOOLOGY/ ENTOM/ GENETICS 624	Molecular Ecology
ZOOLOGY/ BIOCHEM/ PHMCO-M 630	Cellular Signal Transduction Mechanisms
ZOOLOGY/ BOTANY/ ENVIR ST/ F&W ECOL 651	Conservation Biology
ZOOLOGY/ F&W ECOL 660	Climate Change Ecology
ZOOLOGY/ BOTANY/ F&W ECOL 672	Historical Ecology
ZOOLOGY 681 & ZOOLOGY 682	Senior Honors Thesis and Senior Honors Thesis
ZOOLOGY 691 & ZOOLOGY 692	Senior Thesis and Senior Thesis
ZOOLOGY 698	Directed Study
ZOOLOGY 699	Directed Studies in Zoology
Total Credits	12-20

² A maximum of 10 credits of Directed Study (ZOOLOGY 299, ZOOLOGY 698, ZOOLOGY 699), Senior Thesis (ZOOLOGY 691, ZOOLOGY 692), or Senior Honors thesis (ZOOLOGY 681, ZOOLOGY 682) count toward the 30 credits required for the major.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all ZOOLOGY and major courses

2.000 GPA on 15 upper-level major credits, taken in residence ³

15 credits in ZOOLOGY, taken on the UW–Madison campus

³ ZOOLOGY 300–699 and intermediate/advanced BIOCORE are considered upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Zoology Major in consultation with the Zoology undergraduate advisor(s).

HONORS IN THE ZOOLOGY MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Zoology students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in all courses that count toward the major
- Complete 12 credits, taken for Honors, with individual grades of B or better. Select 6 credits from the following list:

Code	Title	Credits
ZOOLOGY/ANTHRO/ BOTANY 410	Evolutionary Biology	3
ZOOLOGY/BOTANY/ F&W ECOL 460	General Ecology	4
GENETICS 466	Principles of Genetics	3
ZOOLOGY 470	Introduction to Animal Development	3
ZOOLOGY 504	Modeling Animal Landscapes	3-5
ZOOLOGY/ ENVIR ST 510 & ZOOLOGY/ ENVIR ST 511	Ecology of Fishes and Ecology of Fishes Lab	5
ZOOLOGY/AN SCI/ F&W ECOL 520 & ZOOLOGY/AN SCI/ F&W ECOL 521	Ornithology and Birds of Southern Wisconsin	6
ZOOLOGY/ PSYCH 523	Neurobiology	3
ZOOLOGY/ NTP/PHYSIOL/ PSYCH 524	Neurobiology II: An Introduction to the Brain and Behavior	3
ZOOLOGY/ PSYCH 550	Animal Communication and the Origins of Language	3
ZOOLOGY 570	Cell Biology	3
ZOOLOGY 603	Endocrinology	3-4
ZOOLOGY 611	Comparative and Evolutionary Physiology	3
ZOOLOGY/ BOTANY/ENVIR ST/ F&W ECOL 651	Conservation Biology	3

And complete a two-semester Senior Honors Thesis in ZOOLOGY 681 Senior Honors Thesis and ZOOLOGY 682 Senior Honors Thesis, for a total of 6 credits.¹

¹ A written thesis proposal must be approved by the thesis mentor and the departmental advisor.

By the beginning of the senior year, each honors student will develop a written thesis proposal that must first be approved by the thesis mentor and then by a department advisor. Two semesters of Senior Honors Thesis (ZOOLOGY 681 and ZOOLOGY 682, 6 total credits) must be taken; the first semester can be done during the summer, especially for students doing field research. Completion of ZOOLOGY 682 requires a written thesis approved and graded by the thesis mentor.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Understand the principles of genetics.
2. Understand the principles of cellular biology.
3. Understand the principles of physiology.
4. Understand the principles of ecology.
5. Understand the principles of evolution.
6. Understand current issues in biology.
7. Provide solid connections to related disciplines of chemistry, physics and mathematics.
8. Understand how scientific information is obtained.
9. Understand biological complexity.
10. Understand the interrelationship of humans and natural systems.
11. Develop quantitative reasoning skills (ability to solve problems requiring mathematic/statistical reasoning).
12. Develop critical thinking skills (ability to identify a problem, identify the information needed to solve the problem, and develop methods for solving the problem).
13. Develop skills to effectively communicate scientific information through oral presentations.
14. Develop skills to effectively communicate scientific information through written reports.
15. Develop skills to critically evaluate scientific information.
16. Develop an ability to engage in scientific inquiry.
17. Develop an ability to plan scientific experiments.
18. Access scientific information from various electronic and print sources.
19. Apply scientific knowledge to societal issues.
20. Appreciate the diversity of life.
21. Build a strong foundation for potential graduate study.
22. Develop a sense of competence in the field of study.

ADVISING AND CAREERS

ADVISING

Students are encouraged to consult with a department advisor to construct individual programs appropriate to their own needs. Please use scheduling assistant or call 608-262-2742 to make an appointment with an advisor. Kayla Pelland (kpelland@wisc.edu) is available to meet with students on Monday, Wednesday, and Friday mornings in B154 Birge Hall, and Joel Gruley (jgruley@wisc.edu) is available on Tuesday, Thursday, and Friday afternoons in 156 Birge Hall.

DIRECTED STUDY

For students interested in a short-term undergraduate research experience in a particular area of zoology, the department offers ZOOLOGY 699 Directed Studies in Zoology. ZOOLOGY 699, recommended for juniors and seniors, is graded on an A to F scale. Students cannot take directed studies on a pass/fail basis.

Directed study allows students to gain experience in a wide range of research areas in biology and to learn research techniques that are not easily taught in the classroom. Such experiences allow students to make more informed decisions about their future goals and careers.

Before students can sign up for ZOOLOGY 699, they must set up an appointment with a professor/mentor of their choice, and work with the professor/mentor to:

1. decide the specific number of credits and
2. plan the work required to earn those credits.

Such plans can involve reviewing relevant literature in the area, developing a proposal for independent research, and/or conducting an experiment in the mentor's study area.

Students interested in doing in-depth research as undergraduates in an area of interest can elect to do a Senior Thesis or Senior Honors Thesis (see below). Students should contact a department advisor at the beginning of their junior year to explore possible research areas.

A maximum of 10 credits of directed study (ZOOLOGY 299 , ZOOLOGY 698 , ZOOLOGY 699), senior thesis (ZOOLOGY 691 , ZOOLOGY 692), or senior honors thesis (ZOOLOGY 681 , ZOOLOGY 682) will count toward the 30 credits required for the major.

SENIOR THESIS

Students interested in making a longer-term commitment to a research project may consider undertaking a senior thesis. Students should contact a department advisor during their junior year to explore possible research areas in zoology.

Zoology Senior Thesis Requirements:

- approval of a department advisor;
- completion of ZOOLOGY 691 and ZOOLOGY 692, a two-semester thesis research sequence, during the senior year (6 credits).

It is recommended that candidates for the senior thesis take ZOOLOGY 699 during second semester junior year to prepare for the thesis.

SENIOR THESIS AND DISTINCTION IN THE MAJOR

Upon recommendation of the department to the dean, Distinction in the Major is granted at graduation to students not earning Honors in the Major who have done superior work in the major. In addition to the requirements for a senior thesis, to graduate with Distinction in the Zoology Major, students must maintain an overall GPA of 3.300 and a GPA of 3.500 in all zoology courses in the major.

CAREERS

The Department of Zoology encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

Career Resources:

- Why the liberal arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)
- L&S Career Services (<http://careers.ls.wisc.edu/students.htm>): We launch our students higher, sooner
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/about/lsci?p=careerinitiative.html>)

LETTERS AND SCIENCE - COLLEGE-WIDE

DEGREES/MAJORS/CERTIFICATES

- Individual Major, B.A. (p. 959)
- Individual Major, B.S. (p. 961)

INDIVIDUAL MAJOR, B.A.

The individual major within the College of Letters & Science is a method of fulfilling the depth requirement for students whose interests bridge existing departments and disciplines in ways not accommodated by an existing major or interdisciplinary program. The individual major must consist of a coherent pattern of courses in more than one department or recognized interdisciplinary program in the College of Letters & Science and must be approved by a faculty committee consisting of faculty from appropriate faculty from the College of Letters and Science. Getting approval to pursue an individual major is never guaranteed. Thus, students should discuss alternative majors with their academic advisors and be willing to pursue them. Students interested in learning more about the individual major should contact L&S Undergraduate Academic Deans' Services at 608-262-0617 in 110 Ingraham Hall and set up an individual appointment with the coordinator for the individual major prior to starting this process.

HOW TO GET IN

ELIGIBILITY

Any student working toward an L&S degree may elect to develop an individual major. (*Students earning degrees in other undergraduate schools and colleges on the UW-Madison campus are not eligible to pursue an individual major within Letters & Science.*) The individual major **must** receive approval during the second-semester of the sophomore year or first semester of junior year to ensure that they can complete the major within four years. **All students are required to earn at least 30 degree credits after the term in which approval is given.** A student may complete only one individual major.

APPLYING FOR AN INDIVIDUAL MAJOR

Applications for the individual major are accepted up to Friday of the fourth week of classes in the fall and spring semesters only. Applications received after that deadline will be reviewed during the following term. Individual major applications are not reviewed during the summer.

The application **must** include all items outlined below:

1. The individual major application form;
2. A cover letter from the student to the Faculty Committee on Individual Majors describing the area of interest, explaining why the academic goals of the individual major cannot be achieved through an existing major or combination of majors and certificates, and discussing the individual major's applicability to future goals and plans;
3. A list of courses that will be included in the major along with a narrative explaining how the courses included on the list apply to the proposed individual major program;
4. A letter of recommendation and support for the proposal from the individual major advisor; and
5. The student's current student record (unofficial transcript).

Additional supporting materials may also be included. Students must submit the original completed application with all supporting documentation in an electronic format to the individual major coordinator by the deadline.

Each individual major application is reviewed by a committee of three faculty members from the College of Letters & Science, each representing

a department related to the proposed major. The faculty committee evaluates the proposal for coherence, appropriate breadth and depth, and similarity to existing majors. The committee may approve the proposal as submitted, recommend modifications, reject the proposal altogether, or reject it with an invitation to revise and resubmit in a later semester. **The committee's decision is final. Committee approval is necessary for the student to declare the individual major.**

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
-------------	--

Foreign Language	<ul style="list-style-type: none"> Complete the fourth unit of a foreign language; OR Complete the third unit of a foreign language and the second unit of an additional foreign language

--------------	--

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR DEVELOPING AN INDIVIDUAL MAJOR

Any student working toward an L&S degree may elect to develop an individual major. (*Students earning degrees in other undergraduate schools and colleges on the UW–Madison campus are not eligible to pursue an Individual Major within Letters & Science.*) This major must receive approval during the second-semester of the sophomore year or first semester of junior year. **Students in the individual major are required to earn at least 30 degree credits after the term in which approval is given.** A student may complete only one individual major.

Developing an Individual Major. The student takes primary responsibility for developing an individual major proposal. A well-written proposal must meet the requirements and rigor for a major in the College of Letters & Science; therefore, a proposal must be more than a list of courses that are similar in content area or subject matter. The student proposing an individual major must also demonstrate that the proposed individual major is not currently available as an option in any of the L&S majors or certificate programs.

Students interested in the individual major should consult with the individual major coordinator as part of the process of defining the theme or topic for the individual major. The coordinator will provide information and feedback about the construction of the major and how it might relate to other majors in the college as well.

Once a theme or topic has been identified, the student must find a tenured faculty member in the College of Letters & Science who is willing to serve as the individual major adviser. This designated faculty advisor will:

- assist the student in constructing the individual major proposal by defining the relevant themes, learning objectives, and rationale for the major and by sharpening presentation of the student's individual major proposal;
- assist in the review and selection of courses for the major plan included in the proposal;
- advise the student in course selection after the proposal is approved and, in consultation with the individual major coordinator, track progress toward completion of the major.

As soon as the topic and the advisor (i.e., a tenured faculty member in an L&S academic department) are known, the student should meet with the individual major coordinator within L&S Academic Deans' Services by calling 608-262-0617 to set up a meeting. *The purpose of this meeting is to review the details of individual major requirements and to review procedures.*

Applying for an Individual Major. Applications for the individual major are accepted up to Friday of the fourth week of classes in the fall and spring semesters. Applications received after that deadline will be reviewed during the following term. Individual major applications are not reviewed during the summer.

The application must include:

1. the individual major application form (http://saa.ls.wisc.edu/documents/Individual_Major_Application_Information.pdf);
2. A cover letter from the student to the Faculty Committee on Individual Majors describing the area of interest, explaining why the academic goals of the individual major cannot be achieved through an existing major or combination of majors and certificates, and discussing the individual major's applicability to future goals and plans;
3. A list of courses that will be included in the major along with a narrative explaining how the courses included on the list apply to the proposed individual major program;
4. A letter of recommendation and support for the proposal from the individual major advisor; and
5. The student's current student record (unofficial transcript).

Additional supporting materials may also be included. Students must submit the original completed application with all supporting documentation in an electronic format to the individual major coordinator by the deadline.

Each individual major application is reviewed by a committee of three faculty members from the College of Letters & Science, each representing a department related to the proposed major. The faculty committee evaluates the proposal for coherence, appropriate breadth and depth, and similarity to existing majors. The committee may approve the proposal as submitted, recommend modifications, reject the proposal altogether, or reject it with an invitation to revise and resubmit in a later semester.

The committee's decision is final. Committee approval is necessary for the student to declare the individual major.

INDIVIDUAL MAJOR WITH HONORS

Students may propose to complete an Individual Major with Honors by appending an Honors in the Major proposal to their regular individual major proposal.

HONORS IN THE INDIVIDUAL MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Individual Major students must satisfy both the requirements for the major (above) and the following additional requirements:

- Complete 36 credits toward the individual major
- Complete 20 credits, taken for Honors, with individual grades of B or better, toward the individual major, to include a two-semester Senior Honors Thesis for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

ADVISING AND CAREERS

Students interested in learning more about the individual major should contact L&S Undergraduate Academic Deans' Services at 608-262-0617 in 110 Ingraham Hall and set up an individual appointment with the coordinator for the individual major prior to starting this process.

The purpose of this meeting is to review the details of individual major requirements and to review procedures.

INDIVIDUAL MAJOR, B.S.

The individual major within the College of Letters & Science is a method of fulfilling the depth requirement for students whose interests bridge existing departments and disciplines in ways not accommodated by an existing major or interdisciplinary program. The individual major must consist of a coherent pattern of courses in more than one department or recognized interdisciplinary program in the College of Letters & Science and must be approved by a faculty committee consisting of faculty from appropriate faculty from the College of Letters and Science. Getting approval to pursue an individual major is never guaranteed. Thus,

students should discuss alternative majors with their academic advisors and be willing to pursue them. LINGUISTICS

Linguistics is the scientific study of language. It investigates the common principles underlying all human languages, as well as the organization of particular languages. It is expected that undergraduates with a major in linguistics will be able to:

- demonstrate a sound knowledge of the fields of phonetics (articulatory and acoustic properties of speech), phonology (the organization of the sound system of languages), morphology (the structure of words), syntax (the structure of sentences), and semantics (the interpretation of structures);
- demonstrate that they are able to analyze data in all these areas of linguistics;
- apply their linguistic training without prejudice, as expected in any science; and
- apply their analytical abilities beyond the study of linguistics.

The linguistics major program can be enriched through linguistics-related courses offered in other departments such as the language departments, the departments of psychology, philosophy, and communicative disorders.

LINGUISTICS, B.A.

Linguistics is the scientific study of language. It investigates the common principles underlying all human languages, as well as the organization of particular languages. It is expected that undergraduates with a major in linguistics will be able to:

- demonstrate a sound knowledge of the fields of phonetics (articulatory and acoustic properties of speech), phonology (the organization of the sound system of languages), morphology (the structure of words), syntax (the structure of sentences), and semantics (the interpretation of structures);
- demonstrate that they are able to analyze data in all these areas of linguistics;
- apply their linguistic training without prejudice, as expected in any science; and
- apply their analytical abilities beyond the study of linguistics.

The linguistics major program can be enriched through linguistics-related courses offered in other departments such as the language departments, the departments of psychology, philosophy, and communicative disorders.

HOW TO GET IN

Undergraduate students wishing to major in linguistics should consult the Requirements (p. 965) tab. Students must contact the Linguistics undergraduate advisor Professor Monica Macaulay, mmacaula@wisc.edu, to declare linguistics as a major. Inquire in 1168 Van Hise Hall or call 608-262-2292 for the undergraduate advisor's office hours. All students proposing to major in linguistics must consult the department's undergraduate advisor.

Any exceptions to the departmental requirements must be approved by the Degree Programs Committee of the Department of Linguistics. Note that the undergraduate advisor of the department cannot authorize exceptions. Students requesting exceptions must prepare a written petition and submit it to the department administrator, who will then forward it to the Degree Programs Committee members.

The petition must justify the exception request by providing detailed information on the circumstances, and by including all relevant documents. The Degree Programs Committee considers each case individually on its merits. Approval is granted rarely, and only under extraordinary circumstances. Not having time to satisfy requirements before graduating is not a valid excuse.

	2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

30 credits are required for the major, to include the following:

Code	Title	Credits
<i>Language</i>		
All majors must complete a fourth unit, or higher, in a foreign language, or place out of the fourth semester college course in a foreign language based on UW–Madison language placement scores.		
<i>Linguistics Courses</i>		15
LINGUIS 101	Human Language	
or LINGUIS/ ANTHRO 301	Introduction to Linguistics: Descriptive and Theoretical	
LINGUIS 310	Phonology	
LINGUIS 330	Syntax	
LINGUIS 322	Morphology	
LINGUIS 340	Semantics	
Select one 500-level LINGUIS elective course		3
LINGUIS 510	Phonological Theories	
LINGUIS 522	Advanced Morphology	
LINGUIS 530	Syntactic Theories	
LINGUIS 540	Advanced Semantics	
LINGUIS 561	Introduction to Experimental Phonetics	
LINGUIS 562	Advanced Experimental Phonetics	
LINGUIS 571	Structure of a Language	

Select one of the following "capstone" courses which will normally be taken in spring semester of the senior year, after completing the requirements above requirements: 3

LINGUIS 426	Field Methods I	
or LINGUIS 427	Field Methods II	
<i>Electives</i>		
Select elective credits to reach 30 credit minimum for the major. At least three courses are required. See the list of approved electives below. In addition to the list below, other LINGUIS courses may be used as an elective. ¹		9
Total Credits		30

¹ Any other LINGUIS course may count toward elective credits for the major, except for: LINGUIS 236, LINGUIS 481, LINGUIS 482, LINGUIS 583, LINGUIS 584, LINGUIS 681, LINGUIS 682.

HONORS IN THE MAJOR

Students may declare Honors in the Linguistics Major in consultation with the Linguistics chair (p. 968).

HONORS IN THE LINGUISTICS MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Linguistics students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all LINGUIS courses, and all courses accepted in the major
- Complete two LINGUIS courses, taken for Honors credit, with individual grades of B or better
- Complete a two-semester Senior Honors Thesis in LINGUIS 681 Honors Seminar-Senior Thesis and LINGUIS 682 Honors Seminar-Senior Thesis, leading to submission of an acceptable paper, for a total of 6 credits. A grade of B or better must be earned in the thesis project.

Note that Honors tutorial credits and the Senior Honors Thesis do not count toward the 30 credits required for the major in linguistics.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Familiarity with data from a wide range of languages from different language families.
2. Ability to respond to biased views of language in their communities.
3. Knowledge in all core areas of linguistics: Phonetics, phonology, morphology, syntax, and semantics.
4. Sound grasp of linguistic concepts.
5. Sound grasp of linguistic methodology.

ADVISING AND CAREERS

UNDERGRADUATE ADVISING

Rebecca Shields, Undergraduate Advisor
rashields@wisc.edu

LETTERS & SCIENCE CAREER SERVICES

The Department of Linguistics encourages our majors to begin working on their career exploration and preparation soon after declaring their major. Our career advisor also partners with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

Career Resources:

- Why the liberal arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)
- L&S Career Services (<http://careers.ls.wisc.edu/students.htm>): We launch our students higher, sooner
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/about/lsci?p=careerinitiative.html>)

PEOPLE

Professors Li, Macaulay, Raimy, Salmons, Valentine; Lecturer Shields

LINGUISTICS, B.S.

Linguistics is the scientific study of language. It investigates the common principles underlying all human languages, as well as the organization of particular languages. It is expected that undergraduates with a major in linguistics will be able to:

- demonstrate a sound knowledge of the fields of phonetics (articulatory and acoustic properties of speech), phonology (the organization of the sound system of languages), morphology (the structure of words), syntax (the structure of sentences), and semantics (the interpretation of structures);
- demonstrate that they are able to analyze data in all these areas of linguistics;
- apply their linguistic training without prejudice, as expected in any science; and
- apply their analytical abilities beyond the study of linguistics.

The linguistics major program can be enriched through linguistics-related courses offered in other departments such as the language departments, the departments of psychology, philosophy, and communicative disorders.

HOW TO GET IN

Undergraduate students wishing to major in linguistics should consult the Requirements (p. 965) tab. Students must contact the Linguistics undergraduate advisor Professor Monica Macaulay, mmacaula@wisc.edu, to declare linguistics as a major. Inquire in 1168 Van Hise Hall or call 608-262-2292 for the undergraduate advisor's office hours. All students proposing to major in linguistics must consult the department's undergraduate advisor.

Any exceptions to the departmental requirements must be approved by the Degree Programs Committee of the Department of Linguistics. Note that the undergraduate advisor of the department cannot authorize exceptions. Students requesting exceptions must prepare a written petition and submit it to the department administrator, who will then forward it to the Degree Programs Committee members.

The petition must justify the exception request by providing detailed information on the circumstances, and by including all relevant documents. The Degree Programs Committee considers each case individually on its merits. Approval is granted rarely, and only under extraordinary circumstances. Not having time to satisfy requirements before graduating is not a valid excuse.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS**Requirements Detail**

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

30 credits are required for the major, to include the following:

Code	Title	Credits
<i>Language</i>		
All majors must complete a fourth unit, or higher, in a foreign language, or place out of the fourth semester college course in a foreign language based on UW–Madison language placement scores.		
<i>Linguistics Courses</i>		15
LINGUIS 101 or LINGUIS/ ANTHRO 301	Human Language Introduction to Linguistics: Descriptive and Theoretical	
LINGUIS 310	Phonology	
LINGUIS 330	Syntax	
LINGUIS 322	Morphology	
LINGUIS 340	Semantics	
Select one 500-level LINGUIS elective course		3
LINGUIS 510	Phonological Theories	
LINGUIS 522	Advanced Morphology	
LINGUIS 530	Syntactic Theories	
LINGUIS 540	Advanced Semantics	
LINGUIS 561	Introduction to Experimental Phonetics	
LINGUIS 562	Advanced Experimental Phonetics	
LINGUIS 571	Structure of a Language	
Select one of the following "capstone" courses which will normally be taken in spring semester of the senior year, after completing the requirements above requirements:		3
LINGUIS 426 or LINGUIS 427	Field Methods I Field Methods II	
<i>Electives</i>		9
Select elective credits to reach 30 credit minimum for the major. At least three courses are required. See the list of approved electives below. In addition to the list below, other LINGUIS courses may be used as an elective. ¹		
Total Credits		30

¹ Any other LINGUIS course may count toward elective credits for the major, except for: LINGUIS 236, LINGUIS 481, LINGUIS 482, LINGUIS 583, LINGUIS 584, LINGUIS 681, LINGUIS 682.

PEOPLE

Professors Li, Macaulay, Raimy, Salmons, Valentine; Lecturer Shields

MATHEMATICS

Mathematics is classified with both the humanities and the sciences. Its position among the humanities is based on the study of mathematics as one of the liberal arts for more than two thousand years. Still an expanding subject, mathematics offers more new and challenging frontiers than at any time in its long history—with many new fields, requiring new techniques and ideas for exploration.

The place of mathematics among the sciences is well founded. The natural sciences have invariably turned to mathematics for techniques needed to explore the consequences of scientific theories. In the last few decades social scientists have increasingly found higher mathematics of value in their training and research.

In recent years graduating math majors have obtained employment in a variety of jobs in business, industry, and governmental agencies and also have obtained teaching positions at the secondary school level (such teaching positions normally require teaching certification). Others have continued their education at the graduate level in mathematics and other fields. Departments in a variety of fields which use mathematics, including some in the social and biological sciences as well as in engineering and the physical sciences, are interested in attracting math majors into their graduate programs. Math Ph.D.'s obtain academic positions at the college and university level and nonacademic positions entailing consulting and research. The math major requirements are flexible enough to allow preparation for various goals.

Students interested in mathematics might also consider the related degree program in applied mathematics, engineering and physics (p. 972).

APPLIED MATHEMATICS, ENGINEERING, AND PHYSICS, B.S. AMEP

This four-year degree program in the interdisciplinary physical sciences offers a strong theoretical foundation in related areas of engineering sciences, mathematics, and physics for professional work in the field of industrial research and technology. It also provides a foundation for graduate degree work in applied mathematics, engineering sciences, and physics.

The AMEP program is an excellent choice for the student with broad interests in mathematics, physics and engineering. AMEP emphasizes an integrated mathematics and physics curriculum and strives to achieve an optimum balance of breadth and depth in the physical sciences within the confines of a four-year degree.

HOW TO GET IN

ENTRANCE REQUIREMENTS

Because admission into AMEP is internal to UW–Madison, a student must be admitted to UW–Madison or already be a UW–Madison student to join AMEP.

Admission into AMEP as a *freshman* requires placement into MATH 222 *at least*, although placement into MATH 234 (4 or 5 on the AP Calculus BC exam) is preferred. Admission into AMEP as a sophomore

or junior requires a 2.75 GPA in introductory core courses taken in the *mathematics and physics departments*.

DECLARING APPLIED MATHEMATICS, ENGINEERING, AND PHYSICS UNDERGRADUATE DEGREE PROGRAM (AMEP)

Students should declare AMEP as soon as possible. The first step in declaring the AMEP degree is to visit an AMEP math faculty advisor.

Students fill out an AMEP degree declaration form (https://www.math.wisc.edu/sites/default/files/private/AMEP_MAJOR_Declaration_form.pdf) (PDF) to change to the "AMP" designation and meet with an AMEP math faculty advisor (see AMEP faculty advisors (<https://www.math.wisc.edu/amep/advising/#advisors>)) who needs to approve and sign the declaration form.

Look for AMEP faculty advisors' office hours in the MATH ADVISING CALENDAR (<https://www.math.wisc.edu/undergraduate/math-major-advising-calendar>) or on the professor's web page (see Declaring AMEP (<https://www.math.wisc.edu/amep/advising/#declare>)). When contacting a professor, students should make sure they put "AMEP (<https://www.math.wisc.edu/amep>)" in the subject line and send a brief clear message, since professors receive many emails.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE LIBERAL ARTS AND SCIENCE: BS-AMEP LIBERAL ARTS AND SCIENCE (LAS) REQUIREMENT

A minimum of 20 credits in Liberal Arts and Science courses outside the physical and mathematical sciences are required. **Courses may not carry a Physical Science designation or be listed (or cross-listed) in the MATH or COMP SCI subjects.**

- Complete a minimum of 12 credits in humanities and/or social studies (including a minimum of 6 credits of humanities and 3 credits of social studies as part of the University General Education Requirements).
- Credits may include a maximum of 8 credits in biological sciences.
- Additional L&S credits outside physical sciences (excluding computer science and mathematics).

FOREIGN LANGUAGE REQUIREMENT

AMEP degree candidates must complete the 2nd unit of a foreign language either through high school language study or college coursework. A unit of a foreign language is equivalent to one year of high school work or one semester/term of college-level work.

REQUIREMENTS FOR THE MAJOR

A total of at least 125 credits with a minimum GPA of 2.000 is required.

The basic requirements for the major include:

Code	Title	Credits
FOUNDATION: Mathematics (2.750 GPA) ¹		13
MATH 221 or MATH 275	Calculus and Analytic Geometry 1 Topics in Calculus I	
MATH 222 or MATH 276	Calculus and Analytic Geometry 2 Topics in Calculus II	
MATH 234	Calculus—Functions of Several Variables	
FOUNDATION: Physics (2.750 GPA)		13-14
<i>First Introductory course</i>		
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
PHYSICS 247	A Modern Introduction to Physics	
E M A 201 & E M A 202	Statics and Dynamics ¹	
<i>Second Introductory course</i>		
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	
PHYSICS 248	A Modern Introduction to Physics	
<i>Third Introductory course</i>		
PHYSICS 205	Modern Physics for Engineers	
PHYSICS/ E C E 235	Introduction to Solid State Electronics	
PHYSICS 241	Introduction to Modern Physics	
PHYSICS 249	A Modern Introduction to Physics	
CORE: Chemistry		5-9
CHEM 109	Advanced General Chemistry	

CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CORE: Mathematics		18
MATH 321	Applied Mathematical Analysis	
MATH 322	Applied Mathematical Analysis	
MATH 320	Linear Algebra and Differential Equations ²	
<i>Additional CORE MATH electives from:</i>		
MATH 415	Applied Dynamical Systems, Chaos and Modeling	
MATH/STAT 431	Introduction to the Theory of Probability	
MATH/ COMP SCI 513	Numerical Linear Algebra	
MATH/ COMP SCI 514	Numerical Analysis	
MATH/I SY E/ OTM/STAT 632	Introduction to Stochastic Processes	
CORE Physics		15
PHYSICS 311	Mechanics	
PHYSICS 322	Electromagnetic Fields	
<i>Additional CORE PHYSICS electives from:</i>		
PHYSICS 321	Electric Circuits and Electronics	
PHYSICS 325	Wave Motion and Optics	
PHYSICS 415	Thermal Physics	
PHYSICS 448	Atomic and Quantum Physics	
PHYSICS 449	Atomic and Quantum Physics	
CORE Engineering		
21 credits in Engineering courses approved by your AMEP Engineering advisor		21
Laboratory Experience ³		
PHYSICS 307	Intermediate Laboratory-Mechanics and Modern Physics	
PHYSICS 308	Intermediate Laboratory- Electromagnetic Fields and Optics	
PHYSICS 321	Electric Circuits and Electronics	
PHYSICS 407	Advanced Laboratory	
Computational Experience ⁴		
COMP SCI 310	Problem Solving Using Computers	
COMP SCI 412	Introduction to Numerical Methods	
MATH/ COMP SCI 513	Numerical Linear Algebra	
MATH/ COMP SCI 514	Numerical Analysis	

RESIDENCE AND QUALITY OF WORK REQUIREMENT

Minimum 2.000 GPA in AMEP program courses

Minimum 2.000 GPA and 15 upper-level AMEP program credits, taken in
residence⁵

15 credits in AMEP program courses, taken on the UW–Madison campus

DISTINCTION IN THE MAJOR

Students earning an AMEP program GPA of 3.500 and higher will be
nominated for Distinction in the Major.

- M E 240 Dynamics substitutes for E M A 202 Dynamics
- MATH 319 & MATH 340 or MATH 375-MATH 376 may substitute for
MATH 320
- Laboratory experience credits may double-count in Physics and/or
Engineering CORE
- Computational experience credits may double-count in Mathematics
CORE
- The following course numbers are considered upper level in AMEP:
MATH 300–699
PHYSICS 311–699
E C E 310–699
E M A 405–699
I SY E 313–699
M E 303–699
Courses meeting CORE, Lab, and Computation that are numbered
300-699

HONORS IN THE MAJOR

Honors in the Major is not available in Applied Math, Engineering and
Physics.

UNIVERSITY DEGREE REQUIREMENTS**Requirements Detail**

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

- Students will state, explain and apply principal theorems and
techniques of applied mathematics, including (but not limited to)
the subject areas of vector and complex calculus, linear algebra, and
differential equations.
- Students will state, explain and apply theory and methods of classical
and modern physics such as mechanics (classical, statistical,
quantum), electricity, magnetism, thermodynamics, radiation and
atomic physics.

- Students will develop strategies to synthesize applied mathematics and physical sciences to address engineering problems, with emphasis on problems of current interest.
- Students will be able to design and conduct experiments to explore hypotheses regarding science and/or technology and/or engineering problems, and will use mathematics to help interpret experimental results.
- Students will work in multidisciplinary groups of mathematicians, physical scientists, and engineers to formulate and solve STEM problems, which includes the creation and evaluation of models for natural phenomena.
- Through written and oral presentations, students will communicate technical/scientific ideas and results to experts and non-experts.

ADVISING AND CAREERS

For information about advising for the special Letters & Science degree program, students should refer to AMEP Advising (<https://www.math.wisc.edu/amep/advising>).

Students can also get questions answered about declaring the major and getting advising by contacting the Department of Mathematics at 608-263-2546.

MATHEMATICS, B.A.

Mathematics is classified with both the humanities and the sciences. Its position among the humanities is based on the study of mathematics as one of the liberal arts for more than two thousand years. Still an expanding subject, mathematics offers more new and challenging frontiers than at any time in its long history—with many new fields, requiring new techniques and ideas for exploration.

The place of mathematics among the sciences is well founded. The natural sciences have invariably turned to mathematics for techniques needed to explore the consequences of scientific theories. In the last few decades social scientists have increasingly found higher mathematics of value in their training and research.

In recent years graduating math majors have obtained employment in a variety of jobs in business, industry, and governmental agencies and also have obtained teaching positions at the secondary school level (such teaching positions normally require teaching certification). Others have continued their education at the graduate level in mathematics and other fields. Departments in a variety of fields which use mathematics, including some in the social and biological sciences as well as in engineering and the physical sciences, are interested in attracting math majors into their graduate programs. Math Ph.D.'s obtain academic positions at the college and university level and nonacademic positions entailing consulting and research. The math major requirements are flexible enough to allow preparation for various goals.

Students interested in mathematics might also consider the related degree program in applied mathematics, engineering and physics (p. 972).

HOW TO GET IN

ACCEPTANCE

To be accepted as a major in mathematics a student must complete MATH 221 Calculus and Analytic Geometry 1, MATH 222 Calculus and Analytic Geometry 2, and MATH 234 Calculus—Functions of Several Variables with a grade point average of 2.500 or better in this sequence. However, a higher grade point average is advisable. Students should meet with a math advisor before declaring in order to discuss course selection and major plan. Majors are provided with math advisor information at the math advising page (<http://www.math.wisc.edu/undergraduate/advising>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin—Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

There are two tracks: Option I or Option II. Both are flexible, so students should plan their programs with the advice of their math advisors. In particular, those following Option II **must** have their programs formally approved by their mathematics advisors.

OPTION I

The Option I package requires exposure to at least two areas of mathematics at the advanced undergraduate level. This package is best for students who have a broad interest in many areas of mathematics. Students interested in honors in the major should also choose this option.

The Option I major requires a minimum of seven mathematics courses numbered 307–699.¹

Code	Title	Credits
------	-------	---------

Linear Algebra

Select one of the following:¹

MATH 340	Elementary Matrix and Linear Algebra	
----------	--------------------------------------	--

MATH 341	Linear Algebra	
----------	----------------	--

MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
----------	--	--

Calculus, Topology, Algebra

Select two of the following:

MATH 521	Analysis I	
----------	------------	--

MATH 541	Modern Algebra	
----------	----------------	--

MATH 551	Elementary Topology	
----------	---------------------	--

Additional Math 500 or higher

Select one course from Math 500-679 (see course list A below)

Select additional courses to reach 7 courses in the major (see course list B below)

¹ Only one of these courses will count towards the major.

¹ There are two subgroups within this course list where only one course from each subgroup will count towards the major.

1. Differential Equations: MATH 319, MATH 376
2. Probability: MATH/STAT 309, MATH 331, MATH/STAT 431, STAT 311

² This course will only count if taken after Summer 2015.

OPTION II

This option allows students to focus on mathematics associated to one specific area or application. Students interested in a focused mathematics program (i.e., actuary mathematics, elementary education, etc.) or a dual major program often choose this option. A mathematics advisor must approve the collection of courses used to complete major requirements prior to major declaration.

Mathematics Core

Code	Title	Credits

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all MATH and major courses

2.000 GPA on 15 upper-level major credits, taken in residence ¹

15 credits in MATH, taken on the UW–Madison campus

¹ MATH courses numbered 307–699 are considered upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Mathematics Major in consultation with the Mathematics Honors advisor (<https://www.math.wisc.edu/undergraduate/advising>); this should be done by the start of the junior year.

HONORS IN THE MATHEMATICS MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Mathematics students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all MATH courses, and all courses accepted in the major
- Complete the following courses, with individual grades of B or better:

Code	Title	Credits
MATH 521	Analysis I (Taken for Honors)	
MATH 522	Analysis II (Taken for Honors)	
MATH 541	Modern Algebra (Taken for Honors)	
MATH 542	Modern Algebra (Taken for Honors)	

Select at least two more courses above 500, the following will usually be one of the courses: ¹

MATH 551	Elementary Topology	
----------	---------------------	--

Select one of the following Capstone projects: ¹

MATH 681 & MATH 682	Senior Honors Thesis and Senior Honors Thesis (For a total of 6 credits)
------------------------	--

A sequence of two upper-level mathematics courses deemed acceptable by the Mathematics Honors advisor ¹

¹ Chosen in consultation with the Mathematics Honors advisor.

At least one of the two sequences (MATH 521 Analysis I–MATH 522 Analysis II or MATH 541 Modern Algebra–MATH 542 Modern Algebra) must be completed prior to enrollment in the Capstone project.

UNIVERSITY DEGREE REQUIREMENTS**Requirements Detail**

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Students will be able to state, explain, and apply the principal results, definitions, and theorems of a wide collection of mathematical areas including at least one area of advanced undergraduate mathematics.
2. Students will be able to construct and evaluate mathematical proofs and arguments.
3. Students will acquire a diverse set of skills and strategies in mathematical reasoning/problem solving.
4. Students will use mathematics to model and analyze phenomena in other disciplines.
5. Students will be able to write, explain, and present mathematics to both experts and non-experts.

ADVISING AND CAREERS**ADVISING**

Students who are interested in the math major should visit a faculty advisor. During the fall and spring semesters several faculty advisors have regular drop-in office hours. The current list of advisors and the schedule of the office hours can be found at the Math advising page (<https://www.math.wisc.edu/undergraduate/advising>). During the winter

break and the summer semester there is no drop-in advising, students should contact one of the advisors to set up an appointment.

For advice on college algebra, pre-calculus, and calculus, see the placement advising pages (<https://www.math.wisc.edu/undergraduate/placement/>) of the department.

TRANSITION COURSES

Students are strongly recommended to include one of the following courses in their major program before moving into MATH 500 and higher.

Code	Title	Credits
MATH 341	Linear Algebra	
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 421	The Theory of Single Variable Calculus	

GRADUATE STUDY

Students preparing for graduate work in mathematics should take the following courses:

Code	Title	Credits
MATH 341	Linear Algebra	3
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 521	Analysis I	3
MATH 522	Analysis II	3
MATH 541	Modern Algebra	3
MATH 542	Modern Algebra	3
MATH 551	Elementary Topology	3
or MATH 561	Differential Geometry	

Select at least two other courses at the 500 level or higher

Students who plan to enter a mathematics Ph.D. program should acquire a reading knowledge of at least one foreign language as early as possible. For mathematics study, the most useful languages are French, German, and Russian.

CAREERS

In recent years graduating math majors have obtained employment in a variety of jobs in business, industry, and governmental agencies and also have obtained teaching positions at the secondary school level (such teaching positions normally require teaching certification). Others have continued their education at the graduate level in mathematics and other fields. Departments in a variety of fields which use mathematics, including the social and biological sciences as well as in engineering and the physical sciences, are interested in attracting math majors into their graduate programs. Math Ph.D.'s obtain academic positions at the college and university level and nonacademic positions entailing consulting and research. The math major requirements are flexible enough to allow preparation for various goals.

PEOPLE

FACULTY

Professors Angenent, Arinkin, Assadi, Bolotin, Boston, Caldararu, Craciun, Denissov, Ellenberg, Feldman, Gong, Jin, Lempp, Mari-Beffa, Maxim, Miller, Mitchell, Paul, Roch, Seeger, Seppalainen, Smith, Terwilliger, Thiffeault, Valko, Viaclovsky, Waleffe, Yang.

Associate Professors Anderson, Gurevich, Stechmann, Street, Kent.

Assistant Professors Andrews, Dymarz, Erman, Kim, Marshall, Sam, Spagnolie, Stovall, Tran, B. Wang, L. Wang, M. Matchett Wood, P. Matchett Wood, Li.

ACADEMIC STAFF

Anzaldo (Precalculus Coordinator), Benguria-Andrews (Calculus Coordinator), Hanhart (Associate Director of Undergraduate Studies), Kwon (Math 13X Coordinator), Malekpour (Director of the Instructional Excellence Program, WISCEL), Rivard (Placement and Enrollment Coordinator)

MATHEMATICS, B.S.

Mathematics is classified with both the humanities and the sciences. Its position among the humanities is based on the study of mathematics as one of the liberal arts for more than two thousand years. Still an expanding subject, mathematics offers more new and challenging frontiers than at any time in its long history—with many new fields, requiring new techniques and ideas for exploration.

The place of mathematics among the sciences is well founded. The natural sciences have invariably turned to mathematics for techniques needed to explore the consequences of scientific theories. In the last few decades social scientists have increasingly found higher mathematics of value in their training and research.

In recent years graduating math majors have obtained employment in a variety of jobs in business, industry, and governmental agencies and also have obtained teaching positions at the secondary school level (such teaching positions normally require teaching certification). Others have continued their education at the graduate level in mathematics and other fields. Departments in a variety of fields which use mathematics, including some in the social and biological sciences as well as in engineering and the physical sciences, are interested in attracting math majors into their graduate programs. Math Ph.D.'s obtain academic positions at the college and university level and nonacademic positions entailing consulting and research. The math major requirements are flexible enough to allow preparation for various goals.

Students interested in mathematics might also consider the related degree program in applied mathematics, engineering and physics (p. 972).

HOW TO GET IN

ACCEPTANCE

To be accepted as a major in mathematics a student must complete MATH 221 Calculus and Analytic Geometry 1, MATH 222 Calculus and

Analytic Geometry 2, and MATH 234 Calculus–Functions of Several Variables with a grade point average of 2.500 or better in this sequence. However, a higher grade point average is advisable. Students should meet with a math advisor before declaring in order to discuss course selection and major plan. Majors are provided with math advisor information at the math advising page (<http://www.math.wisc.edu/undergraduate/advising>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth–Humanities/Literature/Arts: 6 credits Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth–Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
-------------	--

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

There are two tracks: Option I or Option II. Both are flexible, so students should plan their programs with the advice of their math advisors. In particular, those following Option II **must** have their programs formally approved by their mathematics advisors.

OPTION I

The Option I package requires exposure to at least two areas of mathematics at the advanced undergraduate level. This package is best for students who have a broad interest in many areas of mathematics. Students interested in honors in the major should also choose this option.

The Option I major requires a minimum of seven mathematics courses numbered 307–699.¹

Code	Title	Credits
Linear Algebra		
Select one of the following: ¹		
MATH 340	Elementary Matrix and Linear Algebra	
MATH 341	Linear Algebra	
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
Calculus, Topology, Algebra		
Select two of the following:		
MATH 521	Analysis I	
MATH 541	Modern Algebra	
MATH 551	Elementary Topology	

Additional Math 500 or higher

Select one course from Math 500-679 (see course list A below)

Select additional courses to reach 7 courses in the major (see course list B below)

¹ Only one of these courses will count towards the major.

MATH 682	Senior Honors Thesis	3
MATH 691	Undergraduate Thesis	2-4
MATH 692	Undergraduate Thesis	2-4

¹ There are two subgroups within this course list where only one course from each subgroup will count towards the major:

1. Differential Equations: MATH 319, MATH 376
2. Probability: MATH/STAT 309, MATH 331, MATH/STAT 431, STAT 311

² This course will only count if taken after Summer 2015.

OPTION II

This option allows students to focus on mathematics associated to one specific area or application. Students interested in a focused mathematics program (i.e., actuary mathematics, elementary education, etc.) or a dual major program often choose this option. A mathematics advisor must approve the collection of courses used to complete major requirements prior to major declaration.

Mathematics Core

Code	Title	Credits
Linear Algebra		
Select one of the following: ¹		
MATH 320	Linear Algebra and Differential Equations	
MATH 340	Elementary Matrix and Linear Algebra	
MATH 341	Linear Algebra	
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	

Advanced Courses

Select two courses from MATH 500 - 679 (see course list A below). These courses must be approved by a mathematics advisor.

Intermediate Courses

Select three courses from MATH 307- 692 (see course list B below). These courses must be approved by a mathematics advisor.

¹ Only one of these courses will count towards the major.

- ¹ There are two subgroups within this course list where only one course from each subgroup will count towards the major:
1. Differential Equations: MATH 319, MATH 376
 2. Probability: MATH/STAT 309, MATH 331, MATH/STAT 431, STAT 311

Applied Concentration Area

Select four additional courses. These courses may be from any department and should be appropriate for the focused nature of the option II major. The following concentration areas have been preapproved and may be useful for planning purposes, though any collection of four courses approved by a mathematics advisor can be used to fulfill this program requirement. Note that math courses may fulfill the requirements in the concentration, but cannot also count for the core mathematics course requirements listed above (p. 988).

Actuarial Mathematics

Code	Title	Credits
ACT SCI/MATH 303	Theory of Interest and Life Insurance	3
ACT SCI 650 & ACT SCI 652	Actuarial Mathematics I and Loss Models I	6
ACT SCI 651 or ACT SCI 653	Actuarial Mathematics II Loss Models II	3

Astronomy

Code	Title	Credits
ASTRON 310	Stellar Astrophysics	3
ASTRON 320	The Interstellar Medium	3
ASTRON 335	Cosmology	3

Select two from the following:
Any two 3-credit PHYSICS courses numbered 400 and above excluding labs

Atmospheric & Oceanic Studies

Code	Title	Credits
ATM OCN 310	Dynamics of the Atmosphere and Ocean I	3
ATM OCN 311	Dynamics of the Atmosphere and Ocean II	3
ATM OCN 330	Physics of the Atmosphere and Ocean I	3
PHYSICS 208 or PHYSICS 248	General Physics A Modern Introduction to Physics	5

Bio-Informatics

Code	Title	Credits
B M I/COMP SCI 576	Introduction to Bioinformatics	3
COMP SCI 300	Programming II	3
COMP SCI 400	Programming III	3
GENETICS 466	Principles of Genetics	3

Bio-Statistics

Code	Title	Credits

Any one BIOCHEM course numbered 600 and higher

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all MATH and major courses

2.000 GPA on 15 upper-level major credits, taken in residence ¹

15 credits in MATH, taken on the UW–Madison campus

¹ MATH courses numbered 307–699 are considered upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Mathematics Major in consultation with the Mathematics Honors advisor (<https://www.math.wisc.edu/undergraduate/advising>); this should be done by the start of the junior year.

HONORS IN THE MATHEMATICS MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Mathematics students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all MATH courses, and all courses accepted in the major
- Complete the following courses, with individual grades of B or better.

Code	Title	Credits
MATH 521	Analysis I (Taken for Honors)	
MATH 522	Analysis II (Taken for Honors)	
MATH 541	Modern Algebra (Taken for Honors)	
MATH 542	Modern Algebra (Taken for Honors)	

Select at least two more courses above 500, the following will usually be one of the courses: ¹

MATH 551	Elementary Topology	
----------	---------------------	--

Select one of the following Capstone projects: ¹

MATH 681 & MATH 682	Senior Honors Thesis and Senior Honors Thesis (For a total of 6 credits)	
---------------------	--	--

A sequence of two upper-level mathematics courses deemed acceptable by the Mathematics Honors advisor ¹

¹ Chosen in consultation with the Mathematics Honors advisor.

At least one of the two sequences (MATH 521 Analysis I–MATH 522 Analysis II or MATH 541 Modern Algebra–MATH 542 Modern Algebra) must be completed prior to enrollment in the Capstone project.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Students will be able to state, explain, and apply the principal results, definitions, and theorems of a wide collection of mathematical areas including at least one area of advanced undergraduate mathematics.
2. Students will be able to construct and evaluate mathematical proofs and arguments.
3. Students will acquire a diverse set of skills and strategies in mathematical reasoning/problem solving.
4. Students will use mathematics to model and analyze phenomena in other disciplines.
5. Students will be able to write, explain, and present mathematics to both experts and non-experts.

ADVISING AND CAREERS

ADVISING

Students who are interested in the math major should visit a faculty advisor. During the fall and spring semesters several faculty advisors have regular drop-in office hours. The current list of advisors and the schedule of the office hours can be found at the Math advising page (<https://www.math.wisc.edu/undergraduate/advising>). During the winter break and the summer semester there is no drop-in advising, students should contact one of the advisors to set up an appointment.

For advice on college algebra, pre-calculus, and calculus, see the placement advising pages (<https://www.math.wisc.edu/undergraduate/placement>) of the department.

TRANSITION COURSES

Students are strongly recommended to include one of the following courses in their major program before moving into MATH 500 and higher.

Code	Title	Credits
MATH 341	Linear Algebra	

MATH 375	Topics in Multi-Variable Calculus and Linear Algebra
MATH 421	The Theory of Single Variable Calculus

GRADUATE STUDY

Students preparing for graduate work in mathematics should take the following courses:

Code	Title	Credits
MATH 341 or MATH 375	Linear Algebra Topics in Multi-Variable Calculus and Linear Algebra	3
MATH 521	Analysis I	3
MATH 522	Analysis II	3
MATH 541	Modern Algebra	3
MATH 542	Modern Algebra	3
MATH 551 or MATH 561	Elementary Topology Differential Geometry	3

Select at least two other courses at the 500 level or higher

Students who plan to enter a mathematics Ph.D. program should acquire a reading knowledge of at least one foreign language as early as possible. For mathematics study, the most useful languages are French, German, and Russian.

CAREERS

In recent years graduating math majors have obtained employment in a variety of jobs in business, industry, and governmental agencies and also have obtained teaching positions at the secondary school level (such teaching positions normally require teaching certification). Others have continued their education at the graduate level in mathematics and other fields. Departments in a variety of fields which use mathematics, including the social and biological sciences as well as in engineering and the physical sciences, are interested in attracting math majors into their graduate programs. Math Ph.D.'s obtain academic positions at the college and university level and nonacademic positions entailing consulting and research. The math major requirements are flexible enough to allow preparation for various goals.

PEOPLE

FACULTY

Professors Angenent, Arinkin, Assadi, Bolotin, Boston, Caldararu, Craciun, Denissov, Ellenberg, Feldman, Gong, Jin, Lempp, Mari-Beffa, Maxim, Miller, Mitchell, Paul, Roch, Seeger, Seppalainen, Smith, Terwilliger, Thiffeault, Valko, Viaclovsky, Waleffe, Yang.

Associate Professors Anderson, Gurevich, Stechmann, Street, Kent.

Assistant Professors Andrews, Dymarz, Erman, Kim, Marshall, Sam, Spagnolie, Stovall, Tran, B. Wang, L. Wang, M. Matchett Wood, P. Matchett Wood, Li.

ACADEMIC STAFF

Anzaldo (Precalculus Coordinator), Benguria-Andrews (Calculus Coordinator), Hanhart (Associate Director of Undergraduate Studies), Kwon (Math 13X Coordinator), Malekpour (Director of

the Instructional Excellence Program, WISCEL), Rivard (Placement and Enrollment Coordinator)

Mitchell, Paul, Roch, Seeger, Seppalainen, Smith, Terwilliger, Thiffeault, Valko, Viaclovsky, Waleffe, Yang.

Associate Professors Anderson, Gurevich, Stechmann, Street, Kent.

Assistant Professors Andrews, Dymarz, Erman, Kim, Marshall, Sam, Spagnolie, Stovall, Tran, B. Wang, L. Wang, M. Matchett Wood, P. Matchett Wood, Li.

MATHEMATICS, CERTIFICATE

The primary purpose of the mathematics certificate is to serve those students who wish to enhance their content knowledge in mathematics but are unable to complete the requirements of a second major.

HOW TO GET IN

Students must meet with a math advisor before declaring in order to discuss course selection. Math advisor information is provided at the math advising page (<http://www.math.wisc.edu/undergraduate/advising>).

REQUIREMENTS

12 CREDITS OF MATHEMATICS, TO INCLUDE: ^{1, 2, 3}

- 3 credits MATH 400–699 (excluding MATH/CURRIC 471)
- 9 credits from MATH 307–699

¹ Excluding MATH/CURRIC 471

² Only one (1) course each from these groups may apply:

Linear Algebra: MATH 340, 341, 375

Differential Equations: MATH 319, 320, 376

Probability: MATH/STAT 309, MATH/STAT 431

³ Students with credit in MATH 275 cannot apply MATH 421 to the certificate.

RESIDENCE & QUALITY OF WORK

2.000 GPA on all certificate-approved courses

6 credits in the certificate, in residence

ADVISING AND CAREERS

ADVISING

Students who are interested in the mathematics certificate program should visit a faculty advisor. Doing the fall and spring semesters several faculty advisors have regular drop-in office hours. The current list of advisors and the schedule of the office hours can be found at the math advising page (<https://www.math.wisc.edu/undergraduate/advising>). During the winter break and the summer semester there is no drop-in advising, students should contact one of the advisors to set up an appointment.

For advice on college algebra, pre-calculus, and calculus, see the placement advising pages (<https://www.math.wisc.edu/undergraduate/placement>) of the department.

MEAD WITTER SCHOOL OF MUSIC

The School of Music views its goals and objectives as complementary to those of the University of Wisconsin–Madison, which include "to provide an environment in which faculty and students can discover, examine critically, preserve and transmit the knowledge, wisdom and values that will help ensure the survival of the present and future generations with improvement in the quality of life." The goals of an education in music are:

- competency in communication;
- competency in using the modes of thought characteristic in the art of music;
- awareness and perception of the musical art and its discipline;
- a knowledge of our basic cultural heritage;
- a thorough understanding of at least one area—creative, recreative, analytic, historical, or pedagogical.

The University of Wisconsin–Madison School of Music is accredited by the National Association of Schools of Music (NASM), and has been an institutional member of NASM since 1966.

UNDERGRADUATE DEGREE PROGRAMS

The School of Music offers four principal degree options for the music major. All require a performance audition for admission.

Bachelor of Music: Performance, with concentration in Brass, Composition, Guitar, Harp, Jazz Studies, Organ, Percussion, Piano, Strings, Voice, or Woodwinds.

Bachelor of Music: Music Education, with certification in General and Instrumental Music (Early Childhood through Adolescence), or General and Vocal Music (Early Childhood through Adolescence).

Bachelor of Arts or Bachelor of Science, with a music major: options in performance, history, theory, or an individualized music curriculum. The individualized music curriculum can be designed with an emphasis in composition or jazz studies. The history and theory options are under review and may be changed. During this time, the School of Music is not admitting new students to these options.

GRADES AND ADVISING

The School of Music is a department of the UW–Madison College of Letters & Science. Information on the grading system and academic

procedures is available in the College of Letters & Science section of this catalog and in the opening section of this catalog.

The undergraduate advisor of the School of Music serves as the advisor for every music major. The advisor maintains records and will assist students in determining an appropriate course schedule each semester. More information about advising at UW–Madison appears in the opening section of this catalog.

FIRST-YEAR CORE CURRICULUM

Preliminary music students admitted to the School of Music without any previous transferable college coursework in music enroll for a core curriculum of music courses their first year that lays a basic foundation for later, more specialized study. Near the end of the first year, each student applies for a specific degree emphasis. During the first year, the student has opportunities to consider the program best suited to individual interests and needs. All preliminary School of Music students are assigned a classification of PRM.

RECOMMENDED FIRST-SEMESTER CURRICULUM (TOTAL CREDITS = 14–16)

Code	Title	Credits
Music Courses		
	Performance study	2
	Music Theory	4
	Organizations (Band, Orchestra, or Choir; piano majors will enroll for Keyboard Skills class)	1-2
	Secondary piano (non-piano majors)	2
	Chamber Ensemble (for majors in brass, guitar, or percussion)	1-2
Liberal Studies (College of Letters & Science)		
	Communication	0-3
	Quantitative Reasoning	0-4
	Breadth	0-8

MUSIC COURSES FOR NONMUSIC MAJORS

A variety of courses in music theory, music history and literature, as well as orchestra, chorus, band, and some ensembles, are open to students from other departments, schools, and colleges. Students should review the specific regulations of their degree program to determine whether music courses can fulfill breadth requirements. The Course Guide (<http://public.my.wisc.edu/portal/render.userLayoutRootNode.up>) indicates music courses that are open to nonmusic majors.

Music Performance courses are generally filled by music majors. Fundamentals courses (007–036) are for instrumental music education majors only. Class Piano (101–104) is for music majors only. Basic courses require the ability to read music and to pass a prepared audition; in addition, Basic Guitar requires previous experience with classical guitar. Students outside the School of Music may audition to be on a waiting list for group or individual voice study with a teaching assistant (MUS PERF 143 Introduction to Performance: Voice or MUS PERF 144 Vocal Instruction for Non-Voice Majors). Contact the course instructor for more information about course requirements and admission criteria. The School of Music offers private music lessons (not for university credit and with separate costs) for nonmusic majors through the Community Music Lessons (<http://www.music.wisc.edu/CML>) program.

Regulation of music courses available for degree credit varies among the divisions of the university. Students should consult their major department for specific advice.

Courses open to nonmusic majors that satisfy the university's humanities breadth requirements:

Code	Title	Credits
MUSIC 101	The Musical Experience	3
MUSIC/ FOLKLORE 103	Introduction to Music Cultures of the World	2

Associate Professors Dobbs, Hetzler, Vallon

Assistant Professors Grabois, Wallmann

RESOURCES AND SCHOLARSHIPS

OFFICE OF STUDENT FINANCIAL AID

Prospective music students should contact the Office of Student Financial Aid (<http://www.finaid.wisc.edu>) (333 East Campus Mall #9701, Madison, WI 53715-1382; 608-262-3060) to obtain information about grants and loans when returning the application for admission.

SCHOOL OF MUSIC SCHOLARSHIPS

Some funds are available for scholarships awarded by the School of Music to outstanding applicants. It is always advisable to complete the Free Application for Federal Student Aid (FAFSA) and submit it to the Office of Student Financial Aid. Application materials will serve as support for music scholarship consideration.

Scholarship applicants must audition in person and must take the Theory Placement Examination on the audition day in order to be considered for an award. After the audition and review of materials, the associate director will notify each applicant about the scholarship decision. Accompanying each award notification will be a Letter of Commitment, to be signed and returned to the School of Music. Criteria used for awarding scholarships are:

1. Quality of the performance audition
2. High school and/or college academic record
3. Letters of recommendation

Most School of Music scholarships are awarded for a four-year period. The music faculty reviews every scholarship award each semester and expects that each student on scholarship will maintain satisfactory progress toward completing the music major and degree requirements, continue to make significant contributions in performing organizations or accompanying, and maintain a minimum 3.00 grade point average. Please see the School of Music website (<http://www.music.wisc.edu>) for more information regarding music scholarships.

MUSIC, B.A.

The School of Music views its goals and objectives as complementary to those of the University of Wisconsin–Madison, which include "to provide an environment in which faculty and students can discover, examine critically, preserve and transmit the knowledge, wisdom and values that will help ensure the survival of the present and future generations with improvement in the quality of life." The goals of an education in music are:

- competency in communication;

- competency in using the modes of thought characteristic in the art of music;
- awareness and perception of the musical art and its discipline;
- a knowledge of our basic cultural heritage;
- a thorough understanding of at least one area—creative, recreative, analytic, historical, or pedagogical.

The University of Wisconsin–Madison School of Music is accredited by the National Association of Schools of Music (NASM), and has been an institutional member of NASM since 1966.

UNDERGRADUATE DEGREE PROGRAMS

The School of Music offers four principal degree options for the music major. All require a performance audition for admission.

Bachelor of Music: Performance, with concentration in Brass, Composition, Guitar, Harp, Jazz Studies, Organ, Percussion, Piano, Strings, Voice, or Woodwinds.

Bachelor of Music: Music Education, with certification in General and Instrumental Music (Early Childhood through Adolescence), or General and Vocal Music (Early Childhood through Adolescence).

Bachelor of Arts or Bachelor of Science, with a music major: options in performance, history, theory, or an individualized music curriculum. The individualized music curriculum can be designed with an emphasis in composition or jazz studies. The history and theory options are under review and may be changed. During this time, the School of Music is not admitting new students to these options.

GRADES AND ADVISING

The School of Music is a department of the UW–Madison College of Letters & Science. Information on the grading system and academic procedures is available in the College of Letters & Science section of this catalog and in the opening section of this catalog.

The undergraduate advisor of the School of Music serves as the advisor for every music major. The advisor maintains records and will assist students in determining an appropriate course schedule each semester. More information about advising at UW–Madison appears in the opening section of this catalog.

FIRST-YEAR CORE CURRICULUM

HOW TO GET IN

ADMISSIONS PROCEDURES

To become a candidate for a School of Music degree a student must be accepted by the UW–Madison Office of Admissions and Recruitment and by the School of Music Undergraduate Admissions Office, 3561H Mosse Humanities. These are the specific steps for applying to the UW–Madison School of Music:

- Review the information available on the School of Music website (<http://www.music.wisc.edu>). Any questions may be directed to the School of Music Undergraduate Admissions Office.
- **Request an audition date** by submitting a completed School of Music application.
- Students who expect to need financial assistance should consult the Office of Student Financial Aid (<http://www.finaid.wisc.edu>).
- Prepare the appropriate repertoire and materials for the audition.
- Request that official transcripts be sent to the School of Music Undergraduate Admissions Office from all high schools and colleges attended. Request written recommendations from two people who can attest to the applicant's musical background and ability.
- Come to the campus for an audition, which includes a ten- to twenty-minute performance audition, music theory and piano placement examinations, and an introduction to School of Music faculty, students, and facilities.

TRANSFER STUDENTS

Students who have earned more than 24 course credits at another college or university follow the same application and audition procedures described above. Upon acceptance by UW–Madison and the School of Music, credits for music courses taken at another institution are interpreted by the UW–Madison Office of Admissions and Recruitment simply as elective music credits. These course credits, as they appear on the transcript(s), will be reviewed during a conference with the advisor upon enrolling at UW–Madison. Transfer credit for music courses will be

reviewed only after all placement and proficiency examinations in theory and piano have been taken at UW–Madison and syllabi for academic music courses have been submitted.

REENTERING THE SCHOOL OF MUSIC

Students who were previously enrolled in the School of Music and UW–Madison who desire to reenter to seek an undergraduate degree should apply for reentry to both the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office (<http://www.music.wisc.edu>). An audition will be required in most cases.

INTERNATIONAL STUDENTS

Students from foreign countries who seek admission to the university and the School of Music should contact International Student Services in addition to the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office.

SPECIAL STUDENTS

Persons who are interested in courses offered by the School of Music but who are not working toward a UW–Madison degree should contact the Division of Continuing Studies, 21 North Park Street, Madison, WI 53715; 608-263-6960. Enrollment is limited in music courses, and priority is given to UW–Madison undergraduate degree candidates.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall
30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison
2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR

Four options are available under this program:

- Major in Music Performance
- Major in Music History

- Major in Music Theory
- Individualized Music Major

These music curricula are designed for students whose career goals require more flexibility in course selection than that afforded by the bachelor of music degree. This degree also makes it possible to combine a major in music with majors in other fields. All prospective B.A./B.S. music students must audition on an instrument or voice and be accepted into the School of Music at the music major level of performance study following normal admission procedures.

To be eligible to declare the major, students must maintain a minimum 2.000 GPA in the core academic music courses (theory and history) specified for their major option. Admission to and retention in the music history or music theory major option may require a higher GPA; see specific requirements for these programs. Enrollment in courses is limited; therefore, core academic music courses may be repeated only with permission of the area. Only one approved repeat per area will be calculated into the GPA for purposes of determining eligibility to declare a major in music.

Satisfactory academic progress in the degree is measured by the regulations of the College of Letters & Science. The music advisor maintains current records and advises the student on music course selection each semester. The music advisor can provide information on all degree requirements. However, the L&S academic deans are the final authority responsible for interpretation of L&S policy regarding B.A./B.S. degree requirements outside the major department. The music course requirements listed are subject to change.

BACHELOR OF ARTS—MUSIC PERFORMANCE

BACHELOR OF ARTS–MUSIC HISTORY

All prospective undergraduate music majors must audition on an instrument or voice and be accepted into the School of Music at the music major level (200 level) of performance study according to the School of Music's standard admission procedures. For students desiring to major in music history, subsequent private lessons are not required and may only be available as space permits in individual studios.

Students should talk with the MUSIC 211 Survey of the History of Western Music or MUSIC 212 Survey of the History of Western Music professor (whichever course they are enrolled in at the time) and/or the chair of the musicology area. In addition, they must notify the School of Music advisor of their plans.

Students must prepare the petition for admission during the semester in which they are taking the second music history survey course. They must also be completing or have already completed MUSIC 221 Musica

Practica 3/MUSIC 271 Musica Practica: Aural Skills 3 and MUSIC 222 Musica Practica 4/MUSIC 272 Musica Practica: Aural Skills 4. The petition must consist of:

1. a written request to the chair of the musicology area outlining the reasons they wish to declare a major in music history and
2. a selection of papers and other written assignments completed for MUSIC 211, MUSIC 212, and other academic music courses.

All application materials must be submitted to the chair no later than the end of the semester they are completing the MUSIC 211–MUSIC 212 sequence. Applicants must also submit a campus copy of their transcript once final grades have posted.

Musicology faculty will consider the application at the next Area meeting. Applications submitted in May at the completion of MUSIC 212 will be reviewed in September. The Area will decide whether to admit students to the major on the basis of grades in MUSIC 211 and MUSIC 212, cumulative grade point average (GPA), samples of written prose, and letters of application. The admission decision is based on multiple factors, and there is no minimum GPA that will guarantee admission to the music history major. However, the Area does expect that a serious applicant would have attained minimum GPAs of 3.250 in the following areas:

1. MUSIC 211 and MUSIC 212;
2. other academic music courses;
3. the UW–Madison cumulative GPA.

As with admission to all majors within the School of Music, the Area has the final authority to accept or deny a petition for admission.

The Area will assign each admitted student a musicology faculty advisor for planning advanced work in the major and supervising the senior capstone paper.

Students may not take more than one advanced music history course following completion of MUSIC 211–MUSIC 212 pending acceptance to the major.

Students wishing to apply to the major after completion of MUSIC 211–MUSIC 212 and/or after completion of more than one advanced musicology course must submit an additional petition explaining why they are applying late. If a late applicant is admitted, the Area may choose to accept all, part, or none of the advanced-level work completed prior to acceptance to the major.

Students must earn a grade of C or better in each music course taken after formal admission to and declaration of the major.

BACHELOR OF ARTS–MUSIC THEORY OPTION

All prospective undergraduate music majors must audition on an instrument or voice and be accepted into the School of Music at the music major level (200 level) of performance study according to the School of Music's standard admission procedures. For students desiring

to major in music theory, subsequent private lessons are not required and may only be available as space permits in individual studios. All prospective majors in the School of Music must pass a placement examination before enrolling in MUSIC 121 Musica Practica 1/MUSIC 171 Musica Practica: Aural Skills 1. Contact the Undergraduate Music Office (5561 Mosse Humanities; 608-263-5986) for more information.

Students must complete MUSIC 121/MUSIC 171 and MUSIC 122 Musica Practica 2/MUSIC 172 Musica Practica: Aural Skills 2 before their petition to major in music theory can be considered but should apply no later than the semester after completing MUSIC 122/MUSIC 172. The petition must consist of:

1. a written request to the chair of the Music Theory Area outlining reasons for wanting to declare a major in music theory;
2. a selection of papers and other written assignments completed for MUSIC 121 and MUSIC 122.

The Area will decide whether to admit students to the major on the basis of grades in MUSIC 121/MUSIC 171 and MUSIC 122/MUSIC 172, cumulative grade point average (GPA), samples of written prose, and letters of application. The admission decision is based on multiple factors; no minimum GPA will guarantee admission to the music theory major. However, the Area does expect that a serious applicant would have attained a minimum GPA of 3.250 in the following areas:

1. MUSIC 121/MUSIC 171 and MUSIC 122/MUSIC 172;
2. other music courses;
3. UW–Madison cumulative GPA.

As with admission to all majors within the School of Music, the Area has the final authority to accept or deny a petition for admission. All majors will be assigned a faculty advisor within the Area. Students accepted to the music theory major will be eligible to formally declare the major after they have completed the second year of the core music curriculum with a high quality of work as described above. After formal declaration of the major, students must maintain a grade of C or better in each subsequent music course taken.

Transfer students with sophomore standing or above who would like to petition for admission to the music theory major should submit:

1. a written request to the Area chair outlining reasons for wanting to declare a major in music theory;
2. a detailed description of previous coursework in music theory, including a dossier of course syllabi, assignments, examinations, etc.;
3. an unofficial transcript or other verification of course grades; and
4. samples of written prose, preferably from music courses.

Transfer students should contact the Area chair to discuss their own particular situations. Criteria for admission to and retention in the major are the same as outlined in the previous paragraph.

BACHELOR OF ARTS-INDIVIDUALIZED MUSIC CURRICULUM

All prospective music students must audition on an instrument or voice and be accepted into the School of Music at the music major level (200 level) of performance study according to the School of Music's standard admission procedures. Students are not admitted directly into the Individualized Music Curriculum but must complete at least three semesters of the core curriculum as a preliminary music student (PRM program) before applying for this option. The option is approved only rarely and is intended for those students whose desired area of emphasis in music does not fit into the framework of the performance, history, or theory options. However, the area of emphasis must be one that will utilize music courses currently offered; all courses used for the major must be School of Music courses. The Individualized Music Curriculum is planned and designed by the student in conjunction with a School of Music faculty member willing to act as the curricular advisor; the music advisor reviews the proposed curriculum for compliance with all School of Music and L&S requirements. The curriculum then must be approved by the appropriate Faculty Area Committee(s) and the Undergraduate Curriculum Committee. The Individualized Music Curriculum can be designed with an emphasis in composition. The core requirements are:

Code	Title	Credits
<i>Music Courses in Performance Study</i>		
Major Instrument or Voice (3 semesters at the 200 level or above)		6
<i>Music Courses in Music Theory</i>		
MUSIC 121 & MUSIC 171	Musica Practica 1 and Musica Practica: Aural Skills 1 (prerequisite course requirements)	4
MUSIC 122 & MUSIC 172	Musica Practica 2 and Musica Practica: Aural Skills 2 (prerequisite course requirements)	4
<i>Music Courses in Music History</i>		
MUSIC 211	Survey of the History of Western Music	3
MUSIC 212	Survey of the History of Western Music	3
Select two from the following three categories:		6
Theory:		
MUSIC 221 & MUSIC 271	Musica Practica 3 and Musica Practica: Aural Skills 3	
MUSIC 222 & MUSIC 272	Musica Practica 4 and Musica Practica: Aural Skills 4	
History:		
MUSIC 411	Survey of Music in the Middle Ages	
MUSIC 412	Survey of Music in the Renaissance	
MUSIC 413	Survey of Music in the Baroque Era	
MUSIC 414	Survey of Music in the Classic Era

MUS PERF 348	Third Year Composition	3
400 level and above		

ADDITIONAL REQUIREMENTS

All music major programs in the B.S. degree require a minimum piano proficiency at the level of MUS PERF 102 Beginning Class Piano.

Students who complete Theory MUSIC 122 Musica Practica 2, MUSIC 221 Musica Practica 3, or MUSIC 222 Musica Practica 4 without having taken the earlier courses in the theory sequence, or who achieve advanced placement in theory through department examination, may not be required to complete the prerequisite courses in the theory sequence. However, no retroactive course credit will be granted. All students must complete at least 40 credits in School of Music coursework.

HONORS IN THE MAJOR

The School of Music is reviewing its requirements for Honors in the Major. Current music majors may contact the undergraduate advisor for more information.

To earn Honors in any music major, students must satisfy the requirements below as well as all other requirements for their music degree and major:

- 6 credits of MUSIC 681 Senior Honors Thesis–MUSIC 682 Senior Honors Thesis
- 12 credits of honors coursework in music: 6 of the 12 credits must be at the 300 level or higher and only 6 credits can be taken in any one of the three music areas of theory, history, and performance.

To participate in the Honors in the Major program, students must:

- Notify the School of Music undergraduate advisor of their intention to become a candidate for Honors in the Major. This will usually occur in the sophomore year.
- Present a minimum cumulative GPA of 3.3 in all courses taken at UW–Madison and maintain this average throughout the degree.
- Present a minimum 3.5 GPA in all music coursework and maintain a minimum 3.5 GPA in all music honors coursework.
- Engage a faculty member who will collaborate in planning the 12 credits of honors curriculum coursework; submit this plan to the undergraduate advisor. The course plan may change as students progress through their work.
- Prior to beginning work on the MUSIC 681–MUSIC 682 Senior Honors Thesis sequence, confirm a faculty advisor for this sequence (who may be the same person as for the 12 credits above) and submit a prospectus outlining in detail the planned work including (a) the topic, (b) plans for research, and (c) a clear substantive written component, although it may also include oral and/or performance components. The faculty advisor must sign the prospectus indicating approval.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop advanced levels of proficiency in solo, chamber and ensemble performance sufficient to enter music professions or graduate programs.
2. Understand, apply and synthesize foundational concepts of musical study in theory, history and pedagogy.
3. Demonstrate the ability to learn independently and to integrate knowledge across domains of research and applied studies.
4. Communicate verbally, in writing and through public performance, musical ideas and concepts.
5. Demonstrate ability to work collaboratively and professionally in multiple social and professional settings.

ADVISING AND CAREERS

Undergraduate students—current music majors only—should consult the Music advisor Patti Atwood for help enrolling in courses and planning the completion of their degree. Students who are interested in majoring in music should consult Jared Jellison (admissions@music.wisc.edu; 608-263-5986; 5561 Humanities) in the admissions office. If you have questions about a scholarship that you are receiving from the School of Music, please contact Professor Janet Jensen, associate director for the School of Music.

PEOPLE

Professors Aley, Bartley, Blasius, Calderon, Chisholm, Cook, Crook, Davis, Dembski, Dill, Di Sanza, Doing, Earp, Fischer, Fulmer, Hyer, Jensen, Johnson, Jutt, Karp, Koza, Leckrone, Perry, Radano, Rowe, Schaffer, Schwendinger, Smith, Stowe, Swack, B. Taylor, C. Taylor, Teeple, Thimmig, Vardi

Associate Professors Dobbs, Hetzler, Vallon

Assistant Professors Grabois, Wallmann

RESOURCES AND SCHOLARSHIPS

OFFICE OF STUDENT FINANCIAL AID

Prospective music students should contact the Office of Student Financial Aid (<http://www.finaid.wisc.edu>) (333 East Campus Mall #9701, Madison, WI 53715-1382; 608-262-3060) to obtain information about grants and loans when returning the application for admission.

SCHOOL OF MUSIC SCHOLARSHIPS

Some funds are available for scholarships awarded by the School of Music to outstanding applicants. It is always advisable to complete the Free Application for Federal Student Aid (FAFSA) and submit it to the Office of Student Financial Aid. Application materials will serve as support for music scholarship consideration.

Scholarship applicants must audition in person and must take the Theory Placement Examination on the audition day in order to be considered for an award. After the audition and review of materials, the associate director will notify each applicant about the scholarship decision. Accompanying each award notification will be a Letter of Commitment, to be signed and returned to the School of Music. Criteria used for awarding scholarships are:

1. Quality of the performance audition
2. High school and/or college academic record
3. Letters of recommendation

Most School of Music scholarships are awarded for a four-year period. The music faculty reviews every scholarship award each semester and expects that each student on scholarship will maintain satisfactory progress toward completing the music major and degree requirements, continue to make significant contributions in performing organizations or accompanying, and maintain a minimum 3.00 grade point average. Please see the School of Music website (<http://www.music.wisc.edu>) for more information regarding music scholarships.

MUSIC, B.S.

The School of Music views its goals and objectives as complementary to those of the University of Wisconsin–Madison, which include “to provide an environment in which faculty and students can discover, examine critically, preserve and transmit the knowledge, wisdom and values that will help ensure the survival of the present and future generations with improvement in the quality of life.” The goals of an education in music are:

- competency in communication;
- competency in using the modes of thought characteristic in the art of music;
- awareness and perception of the musical art and its discipline;
- a knowledge of our basic cultural heritage;
- a thorough understanding of at least one area—creative, recreative, analytic, historical, or pedagogical.

The University of Wisconsin–Madison School of Music is accredited by the National Association of Schools of Music (NASM), and has been an institutional member of NASM since 1966.

UNDERGRADUATE DEGREE PROGRAMS

The School of Music offers four principal degree options for the music major. All require a performance audition for admission.

Bachelor of Music: Performance, with concentration in Brass, Composition, Guitar, Harp, Jazz Studies, Organ, Percussion, Piano, Strings, Voice, or Woodwinds.

Bachelor of Music: Music Education, with certification in General and Instrumental Music (Early Childhood through Adolescence), or General and Vocal Music (Early Childhood through Adolescence).

Bachelor of Arts or Bachelor of Science, with a music major: options in performance, history, theory, or an individualized music curriculum. The individualized music curriculum can be designed with an emphasis in composition or jazz studies. The history and theory options are under review and may be changed. During this time, the School of Music is not admitting new students to these options.

GRADES AND ADVISING

The School of Music is a department of the UW–Madison College of Letters & Science. Information on the grading system and academic procedures is available in the College of Letters & Science section of this catalog and in the opening section of this catalog.

The undergraduate advisor of the School of Music serves as the advisor for every music major. The advisor maintains records and will assist students in determining an appropriate course schedule each semester. More information about advising at UW–Madison appears in the opening section of this catalog.

FIRST-YEAR CORE CURRICULUM

Preliminary music students admitted to the School of Music without any previous transferable college coursework in music enroll for a core curriculum of music courses their first year that lays a basic foundation for later, more specialized study. Near the end of the first year, each student applies for a specific degree emphasis. During the first year, the student has opportunities to consider the program best suited to

individual interests and needs. All preliminary School of Music students are assigned a classification of PRM.

RECOMMENDED FIRST-SEMESTER CURRICULUM (TOTAL CREDITS = 14–16)

Code	Title	Credits
Music Courses		
	Performance study	2
	Music Theory	4
	Organizations (Band, Orchestra, or Choir; piano majors will enroll for Keyboard Skills class)	1-2
	Secondary piano (non-piano majors)	2
	Chamber Ensemble (for majors in brass, guitar, or percussion)	1-2
Liberal Studies (College of Letters & Science)		
	Communication	0-3
	Quantitative Reasoning	0-4
	Breadth	0-8

MUSIC COURSES FOR NONMUSIC MAJORS

A variety of courses in music theory, music history and literature, as well as orchestra, chorus, band, and some ensembles, are open to students from other departments, schools, and colleges. Students should review the specific regulations of their degree program to determine whether music courses can fulfill breadth requirements. The Course Guide (<http://public.my.wisc.edu/portal/render.userLayoutRootNode.uP>) indicates music courses that are open to nonmusic majors.

Music Performance courses are generally filled by music majors. Fundamentals courses (007–036) are for instrumental music education majors only. Class Piano (101–104) is for music majors only. Basic courses require the ability to read music and to pass a prepared audition; in addition, Basic Guitar requires previous experience with classical guitar. Students outside the School of Music may audition to be on a waiting list for group or individual voice study with a teaching assistant (MUS PERF 143 Introduction to Performance: Voice or MUS PERF 144 Vocal Instruction for Non-Voice Majors). Contact the course instructor for more information about course requirements and admission criteria. The School of Music offers private music lessons (not for university credit and with separate costs) for nonmusic majors through the Community Music Lessons (<http://www.music.wisc.edu/CML>) program.

Regulation of music courses available for degree credit varies among the divisions of the university. Students should consult their major department for specific advice.

Courses open to nonmusic majors that satisfy the university's humanities breadth requirements:

Code	Title	Credits
MUSIC 101	The Musical Experience	3
MUSIC/ FOLKLORE 103	Introduction to Music Cultures of the World	2
MUSIC 104	Study Abroad: Elementary Music Appreciation/Theory/History	1-3
MUSIC 105	Opera	3
MUSIC 106	The Symphony	3

MUSIC 111	Elements of Music	3
MUSIC 113	Music in Performance	1
MUSIC 151	Basic Concepts of Music Theory	3
MUSIC 204	Study Abroad: Intermediate Music Theory or History	1-3
MUSIC 205	The Big Bands	2
MUSIC 206	The Legendary Performers	2
MUSIC 305	Popular Music in the USA: 1920-1950	2
MUSIC/ AFROAMER 308	Black Music (1920-Present): Rhythm Section and Combos	2
MUSIC/ AFROAMER 309	Black Music (1920-Present): Vocalist/Trombone/Misc Instrumental	2

MUSIC/ AFROAMER 311	Black Music (1920-Present): The Saxophone	2
MUSIC 319	Topics in Music and Ethnicity in the United States	3
MUSIC 361	Non-Western Music Performance-Study Groups	1
MUSIC 461	Collegium Musicum	1
MUSIC/ AFROAMER 400	Music Cultures of the World: Africa, Europe, the Americas	3
MUSIC/ FOLKLORE 401	Musical Cultures of the World	3
MUSIC/ FOLKLORE 402	Musical Cultures of the World	3
MUSIC/ FOLKLORE 404	Music of S.E. Asia: Tradition, Innovation, Politics, and Religion	3
MUSIC/ AFROAMER 509	Seminar in Afro-American Music History and Criticism	3

- Come to the campus for an audition, which includes a ten- to twenty-minute performance audition, music theory and piano placement examinations, and an introduction to School of Music faculty, students, and facilities.

TRANSFER STUDENTS

Students who have earned more than 24 course credits at another college or university follow the same application and audition procedures described above. Upon acceptance by UW–Madison and the School of Music, credits for music courses taken at another institution are interpreted by the UW–Madison Office of Admissions and Recruitment simply as elective music credits. These course credits, as they appear on the transcript(s), will be reviewed during a conference with the advisor upon enrolling at UW–Madison. Transfer credit for music courses will be reviewed only after all placement and proficiency examinations in theory and piano have been taken at UW–Madison and syllabi for academic music courses have been submitted.

REENTERING THE SCHOOL OF MUSIC

Students who were previously enrolled in the School of Music and UW–Madison who desire to reenter to seek an undergraduate degree should apply for reentry to both the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office (<http://www.music.wisc.edu>). An audition will be required in most cases.

INTERNATIONAL STUDENTS

Students from foreign countries who seek admission to the university and the School of Music should contact International Student Services in addition to the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office.

SPECIAL STUDENTS

Persons who are interested in courses offered by the School of Music but who are not working toward a UW–Madison degree should contact the Division of Continuing Studies, 21 North Park Street, Madison, WI 53715; 608-263-6960. Enrollment is limited in music courses, and priority is given to UW–Madison undergraduate degree candidates.

HOW TO GET IN

ADMISSIONS PROCEDURES

To become a candidate for a School of Music degree a student must be accepted by the UW–Madison Office of Admissions and Recruitment and by the School of Music Undergraduate Admissions Office, 3561H Mosse Humanities. These are the specific steps for applying to the UW–Madison School of Music:

- Review the information available on the School of Music website (<http://www.music.wisc.edu>). Any questions may be directed to the School of Music Undergraduate Admissions Office.
- **Request an audition date** by submitting a completed School of Music application.
- Students who expect to need financial assistance should consult the Office of Student Financial Aid (<http://www.finaid.wisc.edu>).
- Prepare the appropriate repertoire and materials for the audition.
- Request that official transcripts be sent to the School of Music Undergraduate Admissions Office from all high schools and colleges attended. Request written recommendations from two people who can attest to the applicant's musical background and ability.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

Four options are available under this program:

- Major in Music Performance
- Major in Music History
- Major in Music Theory
- Individualized Music Major

These music curricula are designed for students whose career goals require more flexibility in course selection than that afforded by the bachelor of music degree. This degree also makes it possible to combine a major in music with majors in other fields. All prospective B.A./B.S. music students must audition on an instrument or voice and be accepted into the School of Music at the music major level of performance study following normal admission procedures.

To be eligible to declare the major, students must maintain a minimum 2.000 GPA in the core academic music courses (theory and history) specified for their major option. Admission to and retention in the music history or music theory major option may require a higher GPA; see specific requirements for these programs. Enrollment in courses is limited; therefore, core academic music courses may be repeated only with permission of the area. Only one approved repeat per area will be calculated into the GPA for purposes of determining eligibility to declare a major in music.

Satisfactory academic progress in the degree is measured by the regulations of the College of Letters & Science. The music advisor maintains current records and advises the student on music course selection each semester. The music advisor can provide information on all degree requirements. However, the L&S academic deans are the final authority responsible for interpretation of L&S policy regarding B.A./B.S. degree requirements outside the major department. The music course requirements listed are subject to change.

BACHELOR OF ARTS–MUSIC PERFORMANCE

Code	Title	Credits
<i>Music Courses in Performance Study</i>		
	Select major instrument or voice (200 level or above, with three semesters at the 400 level)	14

BACHELOR OF ARTS—MUSIC HISTORY

All prospective undergraduate music majors must audition on an instrument or voice and be accepted into the School of Music at the music major level (200 level) of performance study according to the School of Music's standard admission procedures. For students desiring to major in music history, subsequent private lessons are not required and may only be available as space permits in individual studios.

Students should talk with the MUSIC 211 Survey of the History of Western Music or MUSIC 212 Survey of the History of Western Music professor (whichever course they are enrolled in at the time) and/or the chair of the musicology area. In addition, they must notify the School of Music advisor of their plans.

Students must prepare the petition for admission during the semester in which they are taking the second music history survey course. They must also be completing or have already completed MUSIC 221 Musica Practica 3/MUSIC 271 Musica Practica: Aural Skills 3 and MUSIC 222 Musica Practica 4/MUSIC 272 Musica Practica: Aural Skills 4. The petition must consist of:

1. a written request to the chair of the musicology area outlining the reasons they wish to declare a major in music history and
2. a selection of papers and other written assignments completed for MUSIC 211, MUSIC 212, and other academic music courses.

All application materials must be submitted to the chair no later than the end of the semester they are completing the MUSIC 211–MUSIC 212 sequence. Applicants must also submit a campus copy of their transcript once final grades have posted.

Musicology faculty will consider the application at the next Area meeting. Applications submitted in May at the completion of MUSIC 212 will be reviewed in September. The Area will decide whether to admit students to the major on the basis of grades in MUSIC 211 and MUSIC 212, cumulative grade point average (GPA), samples of written prose, and letters of application. The admission decision is based on multiple factors, and there is no minimum GPA that will guarantee admission to the music history major. However, the Area does expect that a serious applicant would have attained minimum GPAs of 3.250 in the following areas:

1. MUSIC 211 and MUSIC 212;
2. other academic music courses;
3. the UW–Madison cumulative GPA.

As with admission to all majors within the School of Music, the Area has the final authority to accept or deny a petition for admission.

The Area will assign each admitted student a musicology faculty advisor for planning advanced work in the major and supervising the senior capstone paper.

Students may not take more than one advanced music history course following completion of MUSIC 211–MUSIC 212 pending acceptance to the major.

Students wishing to apply to the major after completion of MUSIC 211–MUSIC 212 and/or after completion of more than one advanced musicology course must submit an additional petition explaining why they are applying late. If a late applicant is admitted, the Area may choose to accept all, part, or none of the advanced-level work completed prior to acceptance to the major.

Students must earn a grade of C or better in each music course taken after formal admission to and declaration of the major.

BACHELOR OF ARTS–MUSIC THEORY OPTION

All prospective undergraduate music majors must audition on an instrument or voice and be accepted into the School of Music at the music major level (200 level) of performance study according to the School of Music's standard admission procedures. For students desiring to major in music theory, subsequent private lessons are not required and may only be available as space permits in individual studios. All prospective majors in the School of Music must pass a placement examination before enrolling in MUSIC 121 Musica Practica 1/MUSIC 171 Musica Practica: Aural Skills 1. Contact the Undergraduate Music Office (5561 Mosse Humanities; 608-263-5986) for more information.

Students must complete MUSIC 121/MUSIC 171 and MUSIC 122 Musica Practica 2/MUSIC 172 Musica Practica: Aural Skills 2 before their petition to major in music theory can be considered but should apply no later than the semester after completing MUSIC 122/MUSIC 172. The petition must consist of:

1. a written request to the chair of the Music Theory Area outlining reasons for wanting to declare a major in music theory;
2. a selection of papers and other written assignments completed for MUSIC 121 and MUSIC 122.

The Area will decide whether to admit students to the major on the basis of grades in MUSIC 121/MUSIC 171 and MUSIC 122/MUSIC 172, cumulative grade point average (GPA), samples of written prose, and letters of application. The admission decision is based on multiple factors; no minimum GPA will guarantee admission to the music theory major. However, the Area does expect that a serious applicant would have attained a minimum GPA of 3.250 in the following areas:

1. MUSIC 121/MUSIC 171 and MUSIC 122/MUSIC 172;
2. other music courses;
3. UW–Madison cumulative GPA.

As with admission to all majors within the School of Music, the Area has the final authority to accept or deny a petition for admission. All majors will be assigned a faculty advisor within the Area. Students accepted to the music theory major will be eligible to formally declare the major after they have completed the second year of the core music curriculum with a high quality of work as described above. After formal declaration of the major, students must maintain a grade of C or better in each subsequent music course taken.

Transfer students with sophomore standing or above who would like to petition for admission to the music theory major should submit:

1. a written request to the Area chair outlining reasons for wanting to declare a major in music theory;
2. a detailed description of previous coursework in music theory, including a dossier of course syllabi, assignments, examinations, etc.;
3. an unofficial transcript or other verification of course grades; and

4. samples of written prose, preferably from music courses.

Transfer students should contact the Area chair to discuss their own particular situations. Criteria for admission to and retention in the major are the same as outlined in the previous paragraph.

BACHELOR OF ARTS—INDIVIDUALIZED MUSIC CURRICULUM

All prospective music students must audition on an instrument or voice and be accepted into the School of Music at the music major level (200 level) of performance study according to the School of Music's standard admission procedures. Students are not admitted directly into the Individualized Music Curriculum but must complete at least three semesters of the core curriculum as a preliminary music student (PRM program) before applying for this option. The option is approved only rarely and is intended for those students whose desired area of emphasis in music does not fit into the framework of the performance, history, or theory options. However, the area of emphasis must be one that will utilize music courses currently offered; all courses used for the major must be School of Music courses. The Individualized Music Curriculum is planned and designed by the student in conjunction with a School of Music faculty member willing to act as the curricular advisor; the music advisor reviews the proposed curriculum for compliance with all School of Music and L&S requirements. The curriculum then must be approved by the appropriate Faculty Area Committee(s) and the Undergraduate Curriculum Committee. The Individualized Music Curriculum can be designed with an emphasis in composition. The core requirements are:

Code	Title	Credits
<i>Music Courses in Performance Study</i>		
Major Instrument or Voice (3 semesters at the 200 level or above)		6
<i>Music Courses in Music Theory</i>		
MUSIC 121 & MUSIC 171	Musica Practica 1 and Musica Practica: Aural Skills 1 (prerequisite course requirements)	4
MUSIC 122 & MUSIC 172	Musica Practica 2 and Musica Practica: Aural Skills 2 (prerequisite course requirements)	4
<i>Music Courses in Music History</i>		
MUSIC 211	Survey of the History of Western Music	3
MUSIC 212	Survey of the History of Western Music	3
Select two from the following three categories:		6
Theory:		

MUSIC 221 & MUSIC 271	Musica Practica 3 and Musica Practica: Aural Skills 3	
MUSIC 222 & MUSIC 272	Musica Practica 4 and Musica Practica: Aural Skills 4	
History:		
MUSIC 411	Survey of Music in the Middle Ages	
MUSIC 412	Survey of Music in the Renaissance

Music Performance (664)		
MUS PERF 342	Piano Accompanying Lab	1
MUS PERF 347	Third Year Composition	3
MUS PERF 348	Third Year Composition	3
400 level and above		

ADDITIONAL REQUIREMENTS

All music major programs in the B.S. degree require a minimum piano proficiency at the level of MUS PERF 102 Beginning Class Piano.

Students who complete Theory MUSIC 122 Musica Practica 2, MUSIC 221 Musica Practica 3, or MUSIC 222 Musica Practica 4 without having taken the earlier courses in the theory sequence, or who achieve advanced placement in theory through department examination, may not be required to complete the prerequisite courses in the theory sequence. However, no retroactive course credit will be granted. All students must complete at least 40 credits in School of Music coursework.

HONORS IN THE MAJOR

The School of Music is reviewing its requirements for Honors in the Major. Current music majors may contact the undergraduate advisor for more information.

To earn Honors in any music major, students must satisfy the requirements below as well as all other requirements for their music degree and major:

- 6 credits of MUSIC 681 Senior Honors Thesis–MUSIC 682 Senior Honors Thesis
- 12 credits of honors coursework in music: 6 of the 12 credits must be at the 300 level or higher and only 6 credits can be taken in any one of the three music areas of theory, history, and performance.

To participate in the Honors in the Major program, students must:

- Notify the School of Music undergraduate advisor of their intention to become a candidate for Honors in the Major. This will usually occur in the sophomore year.
- Present a minimum cumulative GPA of 3.3 in all courses taken at UW–Madison and maintain this average throughout the degree.
- Present a minimum 3.5 GPA in all music coursework and maintain a minimum 3.5 GPA in all music honors coursework.
- Engage a faculty member who will collaborate in planning the 12 credits of honors curriculum coursework; submit this plan to the undergraduate advisor. The course plan may change as students progress through their work.
- Prior to beginning work on the MUSIC 681–MUSIC 682 Senior Honors Thesis sequence, confirm a faculty advisor for this sequence (who may be the same person as for the 12 credits above) and submit a prospectus outlining in detail the planned work including (a) the topic, (b) plans for research, and (c) a clear substantive written component, although it may also include oral and/or performance components. The faculty advisor must sign the prospectus indicating approval.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop advanced levels of proficiency in solo, chamber and ensemble performance sufficient to enter music professions or graduate programs.
2. Understand, apply and synthesize foundational concepts of musical study in theory, history and pedagogy.
3. Demonstrate the ability to learn independently and to integrate knowledge across domains of research and applied studies.
4. Communicate verbally, in writing and through public performance, musical ideas and concepts.
5. Demonstrate ability to work collaboratively and professionally in multiple social and professional settings.

ADVISING AND CAREERS

Undergraduate students—current music majors only—should consult the Music advisor Patti Atwood for help enrolling in courses and planning the completion of their degree. Students who are interested in majoring in music should consult Jared Jellison (admissions@music.wisc.edu; 608-263-5986; 5561 Humanities) in the admissions office. If you have questions about a scholarship that you are receiving from the School of Music, please contact Professor Janet Jensen, associate director for the School of Music.

PEOPLE

Professors Aley, Bartley, Blasius, Calderon, Chisholm, Cook, Crook, Davis, Dembski, Dill, Di Sanza, Doing, Earp, Fischer, Fulmer, Hyer, Jensen, Johnson, Jutt, Karp, Koza, Leckrone, Perry, Radano, Rowe, Schaffer, Schwendinger, Smith, Stowe, Swack, B. Taylor, C. Taylor, Teeple, Thimmig, Vardi

Associate Professors Dobbs, Hetzler, Vallon

Assistant Professors Grabois, Wallmann

RESOURCES AND SCHOLARSHIPS

OFFICE OF STUDENT FINANCIAL AID

Prospective music students should contact the Office of Student Financial Aid (<http://www.finaid.wisc.edu>) (333 East Campus Mall #9701, Madison, WI 53715-1382; 608-262-3060) to obtain information about grants and loans when returning the application for admission.

SCHOOL OF MUSIC SCHOLARSHIPS

Some funds are available for scholarships awarded by the School of Music to outstanding applicants. It is always advisable to complete the Free Application for Federal Student Aid (FAFSA) and submit it to the Office of Student Financial Aid. Application materials will serve as support for music scholarship consideration.

Scholarship applicants must audition in person and must take the Theory Placement Examination on the audition day in order to be considered for an award. After the audition and review of materials, the associate director will notify each applicant about the scholarship decision. Accompanying each award notification will be a Letter of Commitment, to

be signed and returned to the School of Music. Criteria used for awarding scholarships are:

1. Quality of the performance audition
2. High school and/or college academic record
3. Letters of recommendation

Most School of Music scholarships are awarded for a four-year period. The music faculty reviews every scholarship award each semester and expects that each student on scholarship will maintain satisfactory progress toward completing the music major and degree requirements, continue to make significant contributions in performing organizations or accompanying, and maintain a minimum 3.00 grade point average. Please see the School of Music website (<http://www.music.wisc.edu>) for more information regarding music scholarships.

MUSIC: EDUCATION, B.M.

The music education major consists of two certification programs; *General and Instrumental Music*, and *General and Vocal Music*. Students choose one of the program tracks and will, upon completion, receive licenses to teach in two areas at the Early Childhood through Adolescence level. Music Education is a program offered jointly by the School of Music and the School of Education. The Bachelor of Music: Education degree is conferred by the College of Letters & Science; teacher certification is earned through the School of Education.

The music education program was recently revised to:

- Award certification in two areas. Each graduate will receive certification in general music and also in vocal or instrumental music, thus increasing job marketability and better reflecting the current needs of K–12 schools. Graduates are certified to teach in elementary and secondary schools.
- Explore the relationships between popular culture and music education. Graduates will be prepared to teach multiple forms of musical literacy, not just the traditional band, orchestra and choral curriculum.
- Expand the number of musical styles studied in the curriculum. Students also participate in group performances that reflect the diverse array of musical activities in today's schools.
- Offer an introductory music education class to sophomores prior to admission into the program.
- Provide instruction and experiences so that graduates can teach in culturally responsive ways.
- Increase performance collaboration between students in the instrumental and vocal tracks.
- Create a more interdisciplinary program by requiring all music education students to complete a core set of courses.

Although these programs are designed with the goal of preparing teachers to work in K–12 schools, the programs also provide a good preparation for individuals seeking careers in continuing education or music education-related fields.

The student's primary performance area should be consistent with the chosen certification program. One or more additional performance areas may be required. Prospective music education majors must audition and be accepted into any additional performance areas at the music major level (200 level) of performance study prior to beginning the methods and practicum sequence. The School of Music cannot guarantee

admission to additional performance areas, nor can it guarantee that appropriate substitute course work will be available. The School of Music expects students admitted to its programs to complete all subsequent performance study at UW–Madison.

Students interested in music education should consult with the major advisor as soon as possible and at least once a semester while completing the program.

HOW TO GET IN

ADMISSION INTO THE SCHOOL OF MUSIC

To become a candidate for a School of Music degree, a student must first be accepted by the UW–Madison Office of Admissions and Recruitment and by the School of Music Undergraduate Admissions Office, 3561H Mosse Humanities. These are the specific steps for applying to the UW–Madison School of Music:

- Review the information available on the School of Music website (<http://www.music.wisc.edu>). Any questions may be directed to the School of Music Undergraduate Admissions Office.
- **Request an audition date** by submitting a completed School of Music application.
- Students who expect to need financial assistance should consult the Office of Student Financial Aid (<http://www.finaid.wisc.edu>).
- Prepare the appropriate repertoire and materials for the audition.
- Request that official transcripts be sent to the School of Music Undergraduate Admissions Office from all high schools and colleges attended. Request written recommendations from two people who can attest to the applicant's musical background and ability.
- Come to the campus for an audition, which includes a ten- to twenty-minute performance audition, music theory and piano placement examinations, and an introduction to School of Music faculty, students, and facilities.

TRANSFER STUDENTS

Students who have earned more than 24 course credits at another college or university follow the same application and audition procedures described above. Upon acceptance by UW–Madison and the School of Music, credits for music courses taken at another institution are interpreted by the UW–Madison Office of Admissions and Recruitment simply as elective music credits. These course credits, as they appear on the transcript(s), will be reviewed during a conference with the advisor upon enrolling at UW–Madison. Transfer credit for music courses will be reviewed only after all placement and proficiency examinations in theory and piano have been taken at UW–Madison and syllabi for academic music courses have been submitted.

REENTERING THE SCHOOL OF MUSIC

Students who were previously enrolled in the School of Music and UW–Madison who desire to reenter to seek an undergraduate degree should apply for reentry to both the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office (<http://www.music.wisc.edu>). An audition will be required in most cases.

INTERNATIONAL STUDENTS

Students from foreign countries who seek admission to the university and the School of Music should contact International Student Services in

addition to the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office.

SPECIAL STUDENTS

Persons who are interested in courses offered by the School of Music but who are not working toward a UW–Madison degree should contact the Division of Continuing Studies, 21 North Park Street, Madison, WI 53715; 608/263-6960. Enrollment is limited in music courses, and priority is given to UW–Madison undergraduate degree candidates.

APPLYING TO THE MUSIC EDUCATION PROGRAM

During the second year in the core music curriculum, each student will sign up for an audition/interview with the music education faculty. The audition includes, but is not limited to, performance, sight-singing, and keyboard harmonization components. Minimum admission eligibility GPA requirements are:

- 2.5 in music theory and history courses

Code	Title	Credits
MUSIC 121 & MUSIC 171	Musica Practica 1 and Musica Practica: Aural Skills 1	4
MUSIC 122 & MUSIC 172	Musica Practica 2 and Musica Practica: Aural Skills 2	4
MUSIC 221 & MUSIC 271	Musica Practica 3 and Musica Practica: Aural Skills 3	4
MUSIC 211	Survey of the History of Western Music	3
MUSIC 212	Survey of the History of Western Music	3

- 3.0 in all music courses
- 2.75 cumulative (all courses)

The number of students admitted to the music education program is contingent upon available space; enrollment limits may be necessary to ensure that students have reasonable and timely access to required School of Music courses.

Students who successfully pass the audition/interview process and are offered admission must complete the following steps to complete their admission into the program:

- Submit a teacher certification program application with the School of Education. Include the completed program application form(s), transcripts, and all other related application materials specified on the School of Education's Apply to a Program (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>) page.
- Complete the Basic Skills Requirement. All prospective teacher education students must submit test scores to the School of Education to be eligible for professional program admission. Students may use their ACT, SAT, or GRE scores, or they may take the Praxis Core Academic Skills for Educators Test (formerly the Praxis I/PPST). These tests meet Wisconsin's basic skills test requirement for prospective teachers. For more information see the document Academic Tests for

Prospective Teachers (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/student-testing-and-assessment>).

- Submit a major declaration form to the School of Music. Students admitted into the music education certification program will thereafter enroll jointly with the School of Music (College of Letters and Science) and the School of Education.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEPTH REQUIREMENTS, BACHELOR OF MUSIC (B.M.): EDUCATION

Certain requirements of the College of Letters & Science are required for all undergraduate degrees. They include:

1. All students must take one 3-credit course that satisfies the L&S **ethnic studies requirement**.
2. General Education Requirements (p. 17) (Communication Parts A and B, Quantitative Reasoning Parts A and B, Natural Science, Humanities/Literature/Arts, Social Studies, Ethnic Studies) must be met either by testing or by taking the appropriate course work.
3. All students must fulfill the **L&S requirement of at least 15 credits of upper-level work in the major completed in residence**. Courses that count toward this requirement are:

SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

Music education students complete the School of Education's liberal studies (i.e., breadth) requirements (p. 1246). A limited number of music, art and dance credits may be applied toward this 40-credit requirement.

CHOOSING A MUSIC EDUCATION TRACK

The music education major consists of two certification program tracks, each leading to certification at both the elementary and secondary levels. Students choose to complete the certification program in either *General and Instrumental Music* or *General and Vocal Music*. The Bachelor of Music: Education degree requires a minimum of 130 credits.

REQUIREMENTS FOR THE MAJOR: GENERAL AND INSTRUMENTAL CERTIFICATION TRACK

MUSIC CORE

Code	Title	Credits
Performance Study		
Major Instrument		
Select one of the following:		14-22
Band or orchestral instrument through three semesters (400 level)		
Piano or Guitar through three semesters (400 level) and four semesters of band or orchestral instrument

CURRIC 466 & CURRIC 467	Student Teaching in Music-Elementary and Student Teaching in Music-Secondary

CONTINUATION REQUIREMENTS

In addition to meeting all course-related standards, students must receive a grade of B or higher in all music education practicum courses, and a grade of C or higher in all applicable music education methods courses (i.e., CURRIC/MUSIC 300 Introduction to Music Education/, CURRIC/MUSIC 301 Music Learning and Teaching 1/, CURRIC/MUSIC 302 Music Learning and Teaching 2/) in order to continue in the program.

HONORS IN THE MAJOR

The School of Music is reviewing its requirements for Honors in the Major. Current music majors may contact the undergraduate advisor for more information.

To earn honors in any music major, students must satisfy the requirements below as well as all other requirements for their music degree and major:

- 6 credits of MUSIC 681 Senior Honors Thesis–MUSIC 682 Senior Honors Thesis
- 12 credits of honors coursework in music: 6 of the 12 credits must be at the 300 level or higher and only 6 credits can be taken in any one of the three music areas of theory, history, and performance.

To participate in the Honors in the Major program, students must:

- Notify the School of Music undergraduate advisor of their intention to become a candidate for Honors in the Major. This will usually occur in the sophomore year.
- Present a minimum cumulative GPA of 3.3 in all courses taken at UW–Madison and maintain this average throughout the degree.
- Present a minimum 3.5 GPA in all music coursework and maintain a minimum 3.5 GPA in all music honors coursework.
- Engage a faculty member who will collaborate in planning the 12 credits of honors curriculum coursework; submit this plan to the undergraduate advisor. The course plan may change as students progress through their work.
- Prior to beginning work on the MUSIC 681–MUSIC 682 Senior Honors Thesis sequence, confirm a faculty advisor for this sequence (who may be the same person as for the 12 credits above) and submit a prospectus outlining in detail the planned work including (a) the topic, (b) plans for research, and (c) a clear substantive written component, although it may also include oral and/or performance components. The faculty advisor must sign the prospectus indicating approval.

ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW–Madison's program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction. For example, all individuals seeking an initial Wisconsin state teacher's license after August 31, 2004, are required to take and pass an approved content examination in the subject area(s) of interest.

These tests, the Praxis II: Subject Assessments/Specialty Area Tests, are offered through the Educational Testing Service (ETS). Teacher education student at UW–Madison must take and pass the exam for their program area(s) and submit scores to Education Academic Services before entering their final, full-time student teaching semester.

All graduating student teachers are also required by the School of Education to meet the UW–Madison teacher education standards. This is done via completion of the teaching portfolio. Student teachers within the music education certification program must also complete the edTPA.

Many of these certification and statutory requirements are embedded within the program's requirements and require no additional attention.

The endorsement of the program coordinator/faculty is also required to receive certification through UW–Madison.

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license.

Detailed information about certification requirements and applying for a license is available under Certification/Licensure. (p. 1023)

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. describe and apply foundational music education concepts and information.
2. plan, deliver and assess music learning experiences within chosen certification area that address as necessary the following standards: UWMTES, edTPA, Wisconsin Music Teaching Standards, and National Music Education Standards.
3. develop a level of proficiency in describing and applying foundational concepts of music education, e.g. music learning and teaching, which will be reflected in an ability to communicate to multiple diverse constituencies, so as to interpret, investigate, understand, appreciate and work within the complex musical world.
4. integrate knowledge in music learning and teaching in order to bring novel perspectives to challenging social and technological problems.
5. develop the ability to think critically and creatively as a music educator to synthesize, analyze and integrate ideas for decision-making and problem-solving in the best interest of all students.
6. communicate effectively in order to share knowledge, wisdom, values and beliefs regarding music learning and teaching with others across multiple social and professional settings.
7. understand own learning processes regarding musical education and possess the capacity to intentionally.
 - a. seek and evaluate information,

- b. recognize and reduce bias in own thinking, and
 - c. build new knowledge for application in performance and professional lives.
8. construct a worldview of music education in order to accept responsibility for civic engagement and to appreciate the need to live live so purpose and meaning.
 9. as music educators, develop and demonstrate a respect for truth, and appreciation for diverse views, and a strong sense of personal and professional ethics.

PEOPLE

Professors Aley, Bartley, Blasius, Calderon, Chisholm, Cook, Crook, Davis, Dembski, Dill, Di Sanza, Doing, Earp, Fischer, Fulmer, Hyer, Jensen, Johnson, Jutt, Karp, Koza, Leckrone, Perry, Radano, Rowe, Schaffer, Schwendinger, Smith, Stowe, Swack, B. Taylor, C. Taylor, Teeple, Thimmig, Vardi

Associate Professors Dobbs, Hetzler, Vallon

Assistant Professors Grabois, Wallmann

CERTIFICATION/LICENSURE

ADDITIONAL CERTIFICATION REQUIREMENTS

Students must complete all requirements and also obtain the endorsement of the program faculty to receive certification through UW–Madison. These requirements include those required by UW–Madison, the Department of Public Instruction, and those mandated by state statutes. While most of these requirements are embedded in course content, some (e.g., the Basic Skills Requirement, the Wisconsin Foundations of Reading Test) are not related to course enrollment.

Students pursuing certification must complete the following requirements. See the school's website (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure>) for additional information/requirements.

Certification requirements should be monitored carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

Disclosure Statement and Criminal Background Investigation Disclosure Statement

Applicants to School of Education programs that involve a practicum, internship, or other field placement must complete a disclosure statement indicating (1) whether they have been admitted to, then withdrawn from, asked to withdraw from, or been dropped from a student teaching, clinical experience, or other intern/practicum program, and (2) if they have ever been placed on probation or disciplined by any college or university for academic dishonesty.

Criminal Background Investigation (CBI)

The Department of Public Instruction (DPI) is required by law to conduct a background check on each applicant for a Wisconsin educator license. This check is intended to

determine if the applicant has engaged in any behavior that endangers the health, welfare, safety, or education of PK–12 pupils. Local school districts also will conduct criminal background checks routinely on teacher education students prior to the start of in-classroom field work.

Students should be aware that criminal background checks may be initiated by other agencies or organizations when they are seeking employment or a professional license. School administrators have the authority to determine the appropriateness of a student placement and may choose not to permit a placement based on a student's background check results.

An individual who is deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the academic dean in Education Academic Services.

Environmental Education

This licensing requirement is mandatory for all Elementary Education, Secondary Science, Secondary Social Studies, and Agri-Science Education certification students. Students with previous degrees in their subjects must also monitor and complete this requirement for certification and licensure.

Select one Environmental Studies (http://guide.wisc.edu/courses/envir_st) course or from the following list. If appropriate, this course may also be applied toward the liberal studies requirements.

Student Testing and Assessment

Students in teacher education programs are required to complete a number of tests and a significant performance assessment prior to certification and eventual licensure. Detailed information related to these requirements, along with fee and registration information can be found on the School of Education website under Academic Tests for Prospective Teachers (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/student-testing-and-assessment>). A brief description of these tests and assessments is provided below.

Basic Skills Requirement

All prospective teacher education students must submit test scores to the School of Education to be eligible for professional program admission. Students may use their ACT, SAT, or GRE scores, or they may take the Praxis Core Academic Skills for Educators Test (formerly the Praxis I/PPST). These tests meet Wisconsin's basic skills test requirement for prospective teachers. All sections of the chosen basic skills test must be taken by program applicants to be eligible for program admission.

Content Test

Students completing professional education programs must take and pass an approved examination in their content area prior to their final student teaching semester. Most students complete the appropriate Praxis II: Subject Assessments/ Specialty Area Tests through the Educational Testing Service (ETS). World Language Education students must meet an ACTFL Oral Proficiency Interview requirement and must take and pass the ACTFL Writing Proficiency Test (WPT). No candidates may be waived from taking the required test(s) for their license area.

Wisconsin Foundations of Reading Test

As of January 31, 2014, individuals seeking an initial Wisconsin license to teach in kindergarten through grade 5 or in special education, an initial Wisconsin license as a reading teacher, or an initial Wisconsin license as a reading specialist, must take and pass the Wisconsin Foundations Reading Foundations Test. Undergraduate programs impacted by this requirement are Elementary Education and Special Education.

This test is for Wisconsin licensing purposes **only**. Students who choose not to pursue Wisconsin educator licensing need not take and pass this test. This test is in addition to all other required tests and assessments for certification and licensure.

For instance, students must still take and pass the Praxis II content exam to be eligible to student teach.

Teacher Performance Assessment (edTPA)

The edTPA is a subject area-specific, performance-based assessment for pre-service teacher candidates, which is centered on student learning. Evidence of candidate teaching proficiency in the areas of planning, engagement and instruction, and assessment is drawn from a subject-specific learning segment, 3–5 lessons from a unit of instruction. Assessment artifacts include video clips of instruction, lesson plans, student work samples, analysis of student learning, and reflective commentaries. These artifacts will be taken together and scored by trained evaluators using the standardized set of edTPA rubrics. *After August 31, 2015, initial license candidates (i.e., students completing certification programs) must complete the edTPA as part of their student teaching and after August 31, 2016, initial license candidates will be required to pass the edTPA before they can be recommended for licensure.*

Field Experiences

School-based field experiences are a critical part of students' professional preparation for teaching. In fact, the student teaching experience is frequently cited in teacher education literature as the single component of a teacher education program with the highest impact on future teaching behaviors of teacher candidates. Under Wisconsin State regulations, students seeking teaching certification from UW–Madison are required to complete at least one pre-student teaching practicum and at least one full semester of student teaching. Most programs at UW–Madison require students to complete additional field experiences.

Pre–Student Teaching Practicum

The pre–student teaching practicum gives students firsthand knowledge of the classroom environment and the teacher's role. For many students, the practicum is the initial encounter with the real world of teaching. Practicum students do not assume the degree of classroom responsibility they do during student teaching. Under the supervision of an experienced teacher, practicum students observe classroom activities, assist the teacher with day-to-day classroom management tasks, interact one-to-one with students, and instruct small groups. The cooperating teacher and university supervisor use the practicum to assess the student's readiness for the student teaching experience. For this reason, active student engagement in the practicum experience is necessary and expected.

Student Teaching Experience

Student teaching, the culminating field experience, is a full-time, school district semester assignment that places a university student under the guidance of an experienced, qualified cooperating teacher. After an orientation period, the student teacher gradually assumes more responsibility for planning, instruction, and overall classroom management. Student teachers follow the daily schedule of the cooperating teacher and the building policies of the school, and function as regular staff members in arrival and departure times and attendance at school events. Daily attendance at school, barring emergencies, is required.

The student teaching experience follows the calendar of the local school district. A fall semester assignment will typically begin the latter part of August and end the latter part of January. A spring semester assignment will begin the latter part of January and end mid-June. Holiday breaks follow the school district calendar. Carrying other formal course work during the student teaching semester is strongly discouraged.

Find detailed policies and regulations regarding student teaching in the Teacher Education Field Experience Policies (November, 2014) (http://www.education.wisc.edu/docs/WebDispenser/soe-documents/fe_policies.pdf?sfvrsn=4). Students and staff are responsible for knowing and complying with the Field Experience policies. Many professional programs have their own separate handbooks and specific policies; students are also responsible for those policies and procedures.

General Eligibility Requirements for Student Teaching

Minimum eligibility requirements apply to all students.

Several subject areas require a specific grade point average unique to a particular program, or additional course work as a prerequisite to student teaching. Students are urged to check with their Education Academic Services and faculty advisors to be certain that all eligibility requirements have been met. Students should check these items well in advance to preclude last-minute schedule conflicts in preparation for the student teaching semester. Minimum requirements are:

- Admission to a School of Education certification program.
- Completion of all course prerequisites, such as the teaching methods course(s) and pre-student teaching practica. Students should check for other possible course requirements in their specific area of study.
- Passing a content examination in the certification area(s).
- For world languages, an immersion experience and the appropriate score on the oral and written proficiency examinations.

Student Teaching Application Procedures

Information related to student teaching (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/field-work-student-teaching>) and the application process is available on the School of Education website. Please be aware that some program areas require students to file an application far in advance of the student teaching semester.

Alternative Placement Options for Student Teaching

Alternative placement options include placements with the Institute for Urban Education, and teacher internships under the auspices of the Wisconsin Improvement Program:

- The UW System Institute for Urban Education (<https://uwm.edu/education/community/partnerships/institute-urban-edu>) helps pre-service teachers pursue their desire to become urban educators and to provide professional development opportunities for currently practicing teachers. Not all teacher education programs participate in the

institute. Students should consult with their program coordinator for more information.

- The teacher internship is a licensed, full-semester assignment that replaces the student teaching experience. Interns are under contract with a school district and paid a modest salary. Internships are rarely available; students are notified by the program coordinator when they are offered by a district and are available to our students.

Special Placements

The School of Education is committed to placing its students in classrooms with teachers we know, in schools led by principals we know. Thus, student teaching placements are made within the University of Wisconsin–Madison service area. In general the service area is 50 miles from Madison, but individual programs may (and do) reduce the size of their service area. Occasionally, students with extenuating circumstances are allowed special placements beyond this area. “Extenuating circumstances” have included spousal/partner relocation, family emergency, or a highly specialized placement. All special placements must be approved by the student’s program coordinator and Associate Dean Jeffrey Hamm. Students permitted special placements are usually liable for the cost of supervision (at least \$500). Special placements are not permitted due to financial need or to enhance employment opportunities.

Withdrawing From/Failing Field Experience Assignments

Withdrawing from a field experience has serious implications for the student’s progress in the program. Students who withdraw or receive an unsatisfactory grade (including a “D”) from a field experience may not repeat such experiences without approval from the program coordinator and Associate Dean Jeffrey Hamm. Students withdrawing from or receiving an unsatisfactory grade in field experiences in one major or program may not enroll in another major or program without written permission from the program coordinator and after consultation with Associate Dean Hamm.

Permission to repeat field experiences is not automatically granted. A confirmed field placement is considered an informal contractual agreement between the university and the school in which the student is located. Under this agreement, university faculty, cooperating teachers, and students assume certain responsibilities and obligations to one another. A student’s withdrawal from an assignment is considered to be an exception to the agreement and should occur only under the most unusual circumstances. Because of the consequences that withdrawal from a confirmed assignment may have on a student’s future progress in the teaching certification program, a student who contemplates such action is strongly urged to consult with the program coordinator and Associate Dean Hamm to fully understand the implications of such action and the options available.

Minority Group Relations and Conflict Resolution

Minority Group Relations

Wisconsin State teacher education regulations require students to complete a section titled *Minority Group Relations*. The rules identify Minority Group Relations as

- The history, culture, and tribal sovereignty of American Indian tribes and bands located in Wisconsin.
- The history, culture and contributions of women and various racial, cultural, language and economic groups in the United States.
- The philosophical and psychological bases of attitude development and change.
- The psychological and social implications of discrimination, especially racism and sexism in the American society.
- Evaluating and assessing the forces of discrimination, especially racism and sexism on faculty, students, curriculum, instruction, and assessment in the school program.
- Minority group relations through direct involvement with various racial, cultural, language and economic groups in the United States.

UW–Madison teacher education programs address these areas through course work and experiences in each professional education program. Students who successfully complete their professional program will have satisfied each of the areas of Minority Group Relations. For more detailed information about how required courses address Minority Group Relations for each program area, see the School of Education's PI 34 site (<http://www.education.wisc.edu/pi34>). Choose Certification Programs, select the program of interest, and click on Rules & Statutes.

Conflict Resolution Requirement

Wisconsin State teacher education regulations require all individuals pursuing teacher certification to have formal training in conflict resolution. This includes

- Resolving conflicts between pupils and between pupils and school staff.
- Assisting pupils in learning methods of resolving conflicts between pupils and between pupils and school staff, including training in the use of peer mediation to resolve conflicts between pupils.
- Dealing with crises, including violent, disruptive, potentially violent or potentially disruptive situations that may arise in school or activities supervised by school staff as a result of conflicts between pupils or between pupils and other persons.

All teacher certification programs include conflict resolution training in their required course work. For more detailed information about how conflict resolution is addressed in each program area, see the School of Education's PI 34 site (<http://www.education.wisc.edu/pi34>). Choose Certification Programs, select the program of interest, and click on Rules & Statutes.

Phonics

As of July 1, 1998, the State of Wisconsin requires that all persons seeking initial and renewal licenses to teach reading or language arts in grades Pre-Kindergarten to Grade 6 (PK–6) must have successfully completed instruction in teaching reading and language arts using appropriate instructional methods, including phonics. "Phonics" means a method of

teaching beginners to read and pronounce words by learning the phonetic value of letters, letter groups and syllables.

The Phonics requirement applies to students completing Elementary Education and Special Education certification programs. UW–Madison students fulfill this requirement through the successful completion of courses that are already required, so no additional course work is needed to meet this statutory requirement.

Cooperatives

This licensing requirement is mandatory for secondary Social Studies (and Agri-Science) Education certification. Students with previous degrees in their subjects must also monitor and complete this requirement for certification and licensure.

Students typically complete the cooperatives requirement after being admitted to the Secondary Social Studies program and should consult with the program coordinator, Professor Alan Lockwood (lockwood@education.wisc.edu), regarding its completion.

Portfolios

Students in certification programs are required to demonstrate their knowledge and professional development through the creation and maintenance of a portfolio. A portfolio has several purposes:

- To serve as a tool for teacher learning, growth, and development. Portfolios are intended to support students' efforts to become thoughtful and effective teachers.
- To provide documentation and/or evidence that students have satisfactorily met all teacher education standards required for initial teacher certification in Wisconsin. The portfolio helps to demonstrate students' achievement of these knowledge and performance standards.
- To provide a repository for student artifacts.
- To enhance students' technical literacy through the portfolio creation.
- To support the job preparation and interview process.

Portfolios consist of a variety of artifacts which students have chosen from their educational experiences to best represent their growth and development as teachers. Artifacts can include lesson plans, classroom observations, analyses of student learning, student work samples, photographs, video clips of instruction and reflective commentaries.

The student portfolio provides a foundation for the Teacher Performance Assessment (edTPA), a standardized evaluation required by Wisconsin for teacher licensure. The edTPA process also requires students to submit artifacts. These artifacts are scored by trained evaluators using a standardized set of edTPA rubrics.

For more information about the use of the portfolio in a specific teacher education program, please contact the program coordinator.

Teacher Standards

UW–Madison teacher education students must meet all state licensing requirements for initial teaching certification in Wisconsin. These requirements, sometimes referred to as administrative rules "PI 34," mandate that individuals demonstrate proficiency on state-approved teaching standards. Each teacher education institution in Wisconsin has adopted a set of teacher education standards that meet state guidelines. These standards must be met by all students completing a licensing program. The current standards of the University of Wisconsin–Madison School of Education can be found on the school's website (<http://careers.education.wisc.edu/pi34/docs/Standards.pdf>).

APPLYING FOR A TEACHING LICENSE

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Students intending to complete a teacher certification program should monitor program requirements carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

Licensing Levels

The following licensing options are offered at UW–Madison.

- The Elementary Education program currently offers two licensing levels: *Early Childhood* and also *Middle Childhood through Early Adolescence*.
- The Special Education program certifies students at both the *Middle Childhood through Early Adolescence* level and also at the *Early Adolescence through Adolescence* level. The Special Education/Elementary Education dual major option certifies students only at the *Middle Childhood through Early Adolescence* level.
- Secondary Education programs certify students to teach their subject area at the *Early Adolescence through Adolescence* level.
- Students completing Language Education programs will be licensed at the *Early Childhood through Adolescence* level.
- Students in special fields such as Art, Communication Sciences and Disorders, Music, and Physical Education will be licensed at the *Early Childhood through Adolescence* level.

Wisconsin State Licensing

The State of Wisconsin issues an initial teaching license to certified teachers. The current fee is \$125. An online license application is available through the Department of Public Instruction (<http://dpi.wi.gov/tepd/elo>). A Criminal Background Investigation (CBI) will also be conducted by DPI. Information about fingerprint submission, when necessary, is available through the Department of Public Instruction (<http://dpi.wi.gov/tepd/licensing/fingerprint/electronic-submission>).

Before applying for a license, DPI requires the electronic submission of "Endorsed Candidate for Licensure" (ECL) data by the certifying officer of the institution where the teacher preparation was completed. For UW–Madison teacher certification students, the endorsement will come from the School of Education, 139 Education Building, 1000 Bascom Mall. Once this information has been submitted to DPI, students are notified by email that they may begin the application online.

Before endorsing a student, UW–Madison requires that (1) all certification requirements are met; (2) student teaching (following the school district calendar) is completed; (3) final grades are posted and reviewed; (4) the degree is "posted" by the registrar's office (four to five weeks after graduation); and (5) a recommendation for certification is received from the program faculty. The Wisconsin Department of Public Instruction may require an additional 6 to 12 weeks for license processing. See Educator Licensing (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/educator-licensing>) for additional information about the licensing process.

Licensing Outside of Wisconsin

To apply for a license in a state other than Wisconsin, first check out the application requirements of that state. The University of Kentucky has a website that provides links (<http://2b.education.uky.edu/certification-requirements-by-state>) to teacher licensing agencies in all 50 states, the District of Columbia, and Puerto Rico.

Many states have a verification form that needs to be signed by a UW–Madison certification officer. This form verifies that a state-approved licensing program has been completed. These forms should be sent to Education Academic Services at 139 Education Building, 1000 Bascom Mall, or by email (mlpatton@wisc.edu) to be completed. If the form requests information about practicum and student teaching assignments (names of schools, grade levels, dates, etc.), this information must be completed before sending the form to EAS.

MUSIC: PERFORMANCE, B.M.

Majors in this program have a primary interest in professional concertizing, studio teaching (private or in a college or university), or commercial music performance. Some students envision this program as preparing them for other professional goals, such as church music, conducting, graduate study in music, or a facet of the music business. The faculty has designed the curricula to include a large complement of liberal studies (40 credits) along with the course work in music (90 credits). These 40 L&S credits must include satisfaction of all university General Education Requirements including Communication Parts A and B, Quantitative Reasoning Parts A and B, Natural Science, Social Science, and Ethnic Studies.

The music degree programs are demanding and require care in taking courses in the proper sequence. Graduation could be delayed if a course is not taken in the appropriate semester. Students are strongly encouraged to see the music advisor each semester. Some general guidelines are:

- Enroll in organizations (Band, Orchestra, Choir, or Accompanying) each semester, depending on the primary performance area.
- Enroll for performance study in the major instrument or voice each semester, planning a recital in the senior year.
- Enroll in secondary piano study the first year to begin working toward the specific requirement of the degree.
- Enroll in theory and music history courses according to the following schedule:

Code	Title	Credits
Freshman

MUSIC 511 Historical Performance Practices

MUSIC 513 Survey of Opera

- Enroll in 5-6 credits of courses outside music in Letters & Science.

All music majors are accepted for performance study (private lessons) at the 200 level on the major instrument. Students take a performance jury during the second or third year before progressing to advanced-level (400) study. Specific programs may dictate the exact distribution of course work and course sequences. If all department GPA requirements have been met and if the faculty have approved the student's request for a B.M.: Performance major, students may formally declare the music major after completing the 200-level music theory and history courses and after passing to 400-level study in the major instrument.

HOW TO GET IN

ADMISSIONS PROCEDURES

To become a candidate for a School of Music degree a student must be accepted by the UW–Madison Office of Admissions and Recruitment and by the School of Music Undergraduate Admissions Office, 3561H Mosse

Humanities. These are the specific steps for applying to the UW–Madison School of Music:

- Review the information available on the School of Music website (<http://www.music.wisc.edu>). Any questions may be directed to the School of Music Undergraduate Admissions Office.
- **Request an audition date** by submitting a completed School of Music application.
- Students who expect to need financial assistance should consult the Office of Student Financial Aid (<http://www.finaid.wisc.edu>).
- Prepare the appropriate repertoire and materials for the audition.
- Request that official transcripts be sent to the School of Music Undergraduate Admissions Office from all high schools and colleges attended. Request written recommendations from two people who can attest to the applicant's musical background and ability.
- Come to the campus for an audition, which includes a ten- to twenty-minute performance audition, music theory and piano placement examinations, and an introduction to School of Music faculty, students, and facilities.

TRANSFER STUDENTS

Students who have earned more than 24 course credits at another college or university follow the same application and audition procedures described above. Upon acceptance by UW–Madison and the School of Music, credits for music courses taken at another institution are interpreted by the UW–Madison Office of Admissions and Recruitment simply as elective music credits. These course credits, as they appear on the transcript(s), will be reviewed during a conference with the advisor upon enrolling at UW–Madison. Transfer credit for music courses will be reviewed only after all placement and proficiency examinations in theory and piano have been taken at UW–Madison and syllabi for academic music courses have been submitted.

REENTERING THE SCHOOL OF MUSIC

Students who were previously enrolled in the School of Music and UW–Madison who desire to reenter to seek an undergraduate degree should apply for reentry to both the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office (<http://www.music.wisc.edu>). An audition will be required in most cases.

INTERNATIONAL STUDENTS

Students from other countries who seek admission to the university and the School of Music should contact International Student Services in addition to the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office.

TO DECLARE MAJOR

All B.M.–Performance students who have formally declared the major are assigned a classification of MUS in the College of Letters & Science. Before qualifying to declare the music major, each student is required to attain the following minimum grade point averages:

- 2.5 in music theory and history courses:

Code	Title	Credits
MUSIC 121 & MUSIC 171	Musica Practica 1 and Musica Practica: Aural Skills 1	4
MUSIC 122 & MUSIC 172	Musica Practica 2 and Musica Practica: Aural Skills 2	4

MUSIC 221 & MUSIC 271	Musica Practica 3 and Musica Practica: Aural Skills 3	4
MUSIC 211	Survey of the History of Western Music	3
MUSIC 212	Survey of the History of Western Music	3

- 3.0 in all music courses
- 2.75 cumulative (all courses)

SPECIAL STUDENTS

Persons who are interested in courses offered by the School of Music but who are not working toward a UW–Madison degree should contact the Division of Continuing Studies, 21 North Park Street, Madison, WI 53715; 608-263-6960. Enrollment is limited in music courses, and priority is given to UW–Madison undergraduate degree candidates.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF MUSIC (B.M.): MUSIC PERFORMANCE

General Education Requirements (GER)

(For a more detailed explanation, see the section on General Education Requirements (p. 17) in the *Guide*.)
Communication Part A and Part B, 3 to 6 cr

Quantitative Reasoning Part A and Part B, 3 to 6 cr
Natural Science, 4 to 6 cr
Ethnic Studies, 3 cr

Liberal Studies (L&S Nonmusic)

Literature, 6 cr
Humanities, 6 cr
Social Studies, 6 cr
Electives, to bring total credits outside of music to 40

REQUIREMENTS FOR THE MAJOR

In Bachelor of Music-Performance programs, most students enroll for lessons on the major instrument as follows:

200 level: first year, 2 credits each semester; second year, 4 credits each semester

400 level: third year, 4 credits each semester; fourth year, 4 credits first semester and 2 credits second semester plus 2 credits senior recital

STATUS OF JAZZ STUDIES OPTION

As of Fall 2012, an updated Jazz Studies option is under development. Please contact the School of Music Undergraduate Admissions Office (admissions@music.wisc.edu) for up-to-date information on the status of the Jazz Studies option and on application dates and procedures. While the option is under development, students are already able to participate in jazz ensembles and classes in jazz foundations, improvisation techniques, jazz history, and jazz composition and arranging.

HONORS IN THE MAJOR

The School of Music is reviewing its requirements for Honors in the Major. Current music majors may contact the undergraduate advisor for more information.

To earn Honors in any music major, students must satisfy the requirements below as well as all other requirements for their music degree and major:

- 6 credits of MUSIC 681 Senior Honors Thesis–MUSIC 682 Senior Honors Thesis
- 12 credits of honors coursework in music: 6 of the 12 credits must be at the 300 level or higher and only 6 credits can be taken in any one of the three music areas of theory, history, and performance.

To participate in the Honors in the Major program, students must:

- Notify the School of Music undergraduate advisor of their intention to become a candidate for Honors in the Major. This will usually occur in the sophomore year.
- Present a minimum cumulative GPA of 3.300 in all courses taken at UW–Madison and maintain this average throughout the degree.
- Present a minimum 3.500 GPA in all music coursework and maintain a minimum 3.500 GPA in all music honors coursework.

- Engage a faculty member who will collaborate in planning the 12 credits of honors curriculum coursework; submit this plan to the undergraduate advisor. The course plan may change as students progress through their work.
- Prior to beginning work on the MUSIC 681–MUSIC 682 Senior Honors Thesis sequence, confirm a faculty advisor for this sequence (who may be the same person as for the 12 credits above) and submit a prospectus outlining in detail the planned work including (a) the topic, (b) plans for research, and (c) a clear substantive written component, although it may also include oral and/or performance components. The faculty advisor must sign the prospectus indicating approval.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop advanced levels of proficiency in solo, chamber and ensemble performance sufficient to enter music professions or graduate programs.
2. Understand, synthesize and apply foundational concepts of musical study in theory, history and pedagogy.
3. Demonstrate the ability to learn independently and to integrate knowledge across domains of research and applied studies.
4. Communicate verbally, in writing and through public performance, musical ideas and concepts.
5. Demonstrate ability to work collaboratively and professionally in multiple settings.

PEOPLE

Jewish Studies Faculty Information (<http://jewishstudies.wisc.edu/faculty>)

MOSSE/WEINSTEIN CENTER FOR JEWISH STUDIES

Founded in 1991, the Mosse/Weinstein Center for Jewish Studies brings together a variety of disciplines to study and interpret Jewish and ancient Israelite history, religion, literature, politics, society, and culture. The center offers a broad selection of courses at all levels, which are cross-listed with other departments, including classics, curriculum and instruction, English, gender and women's studies, German, history, music, philosophy, political science, religious studies, Slavic languages, and sociology.

The Jewish studies major offers students an in-depth study of 3,500 years of Jewish civilization. The program is interdisciplinary in nature and aims to provide students with a broadly based, rigorous liberal arts education in Jewish studies. While learning about Jewish history, religion, language, and culture, students also develop skills in critical thinking, reading, writing, and research—skills that are valuable to a range of career paths. Students with a particular interest in Modern Hebrew and Israel are encouraged to follow a specialized track in Modern Hebrew language, literature, and Israeli culture.

The Jewish studies major requires a minimum of 31 credits and proficiency in the Hebrew language to enable students to deal with Hebrew texts in the classroom and for research purposes. The credits are divided among several clusters that focus on Hebrew texts; literature, philosophy, and the arts; and history and social science. In addition, students must complete a two-course capstone sequence. Together, these courses support the acquisition of an integrated and coherent body of knowledge.

A certificate in Jewish studies is also available. Its aim is to acquaint students with a number of significant aspects of Jewish civilization and to introduce them to tools required for its study; it requires a minimum of 21 credits in seven courses.

The major has an education track that includes coursework in the School of Education. It requires a total of 34 credits—25 in Jewish studies and 9 in education (curriculum and instruction, and educational policy studies). This track provides a series of courses that define the role that education has played in Jewish civilization; Jewish ideas concerning the nature and aims of education; and philosophical, curricular, and pedagogical issues relating to education in Jewish studies in a pluralistic, democratic society. This track does not lead to teacher certification.

DEGREES/MAJORS/CERTIFICATES

This track does not lead to teacher certification.

HOW TO GET IN

Prospective majors in Jewish studies should make an appointment with the undergraduate advisor (undergrad-adviser@cjs.wisc.edu) to discuss requirements and courses.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	<ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
-------------	--

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall
Minimum GPAs	30 credits in residence after the 90th credit
	2.000 in all coursework at UW–Madison
	2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

Completion of the major requires a minimum of **31 credits** in Jewish studies, distributed as follows:

Code	Title	Credits
<i>Introduction to Judaism</i>		
JEWISH/RELIG ST 211	Introduction to Judaism	
<i>Hebrew Texts</i>		
Select two of the following in Hebrew texts at the level above 202 in Modern Hebrew:		
HEBR-MOD/JEWISH 301	Introduction to Hebrew Literature	
HEBR-MOD/JEWISH 302	Introduction to Hebrew Literature	
HEBR-MOD/JEWISH 401	Topics in Modern Hebrew / Israeli Literature and Culture I	
HEBR-MOD/JEWISH 402	Topics in Modern Hebrew / Israeli Literature and Culture II	
<i>Literature, Philosophy, and the Arts</i>		
Select three courses in Jewish literature, philosophy, and the arts (see below)		
<i>History and Social Science</i>		
Select three courses in Jewish history or social science (see below)		
<i>Capstone</i>		
The capstone sequence is intended for students nearing the end of their coursework and consists of two courses, which are taken concurrently:		

JEWISH 675 Research Colloquium for Majors
& JEWISH 677 and Independent Research for
Majors

Optional Track

See "Track in Modern Hebrew Language, Literature, and Israeli Culture" below

LANGUAGE REQUIREMENT

The major includes a language requirement of Hebrew proficiency equal to four semesters of Modern Hebrew:

Code	Title	Credits
HEBR-MOD 101	First Semester Hebrew	4
HEBR-MOD 102	Second Semester Hebrew	4
HEBR-MOD 201	Third Semester Hebrew	4
HEBR-MOD 202	Fourth Semester Hebrew	4

These first four semesters of Hebrew do not count toward the 31 credits for the major. The Center for Jewish Studies, 4223 Mosse Humanities Building, administers placement examinations.

NOTE ON DIRECTED STUDY

With prior consent of the undergraduate advisor in Jewish studies and the relevant instructor, students may use one Directed Study course (JEWISH 699 Directed Study) to satisfy a requirement for the major.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all JEWISH courses and courses accepted in the major

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in JEWISH, taken on campus

¹ JEWISH courses, 300 and higher, that are designated as Intermediate or Advanced, count as upper level in the major

LITERATURE, PHILOSOPHY, AND THE ARTS

Three courses in Jewish literature, philosophy, and the arts, at least one of which must deal with the Jewish experience in Diaspora written in a language other than Hebrew—e.g., English, French, German, Russian, Yiddish. (Courses taken to satisfy the requirement in Hebrew texts cannot be used to satisfy this requirement.) Courses fulfilling the Diaspora requirement are indicated with a footnote. Depending on the semester, select topics courses may also fulfill the Diaspora requirement.

Code	Title	Credits
JEWISH/CLASSICS/ LITTRANS/ RELIG ST 227	Introduction to Biblical Literature (in English)	4
JEWISH 230	Elementary Topics in Jewish Literature	3-4
JEWISH 232	Elementary Topics in Jewish Philosophy and the Arts	3-4
JEWISH 236	Bascom Course ²	3

JEWISH/ENGL 539	Jewish Literatures in Diaspora	3
JEWISH/ENGL 593	Literature of Jewish Identity in America ¹	3
JEWISH 630	Advanced Topics in Jewish Literature	3-4
JEWISH 632	Advanced Topics in Jewish Philosophy and the Arts	3-4

¹ Course fulfills the Diaspora requirement.

² Bascom Courses are small (20 students or fewer) and generally focus on one particular topic that would generate substantial in-depth papers throughout the semester. Recent topics include: Jewish Composers: Early Modern to Modern; Modern American Jewish Fiction; and Writing (and) the Holocaust.

HISTORY AND SOCIAL SCIENCE

Three courses in Jewish history or social science, at least one of which must deal with the experience of Jews in America. Students are strongly encouraged to take at least one course offered by the History department. Courses fulfilling the American requirement are indicated with a footnote. Depending on the semester, select topics courses may also fulfill the American requirement.

Code	Title	Credits
JEWISH/ HISTORY 219	The American Jewish Experience: From Shtetl to Suburb ¹	4

MAJOR IN JEWISH STUDIES: TRACK IN MODERN HEBREW LANGUAGE, LITERATURE, AND ISRAELI CULTURE

Students majoring in Jewish studies may choose to focus their Jewish studies coursework on Modern Hebrew literature and the culture, history, and politics of Israel. This track follows the general requirements of the Jewish studies major, with the following modifications:

- The diaspora requirement in the Literature, Philosophy, and the Arts category is eliminated.
- The American requirement for the History and Social Science category is eliminated.
- Students in this track must take HEBR-MOD/JEWISH 401 and HEBR-MOD/JEWISH 402 (repeatable for credit). These courses can be used to fulfill either the Hebrew Texts requirement or the Literature, Philosophy, and the Arts requirement.
- In the event that a student uses HEBR-MOD/JEWISH 401–HEBR-MOD/JEWISH 402 to fulfill the Hebrew Texts requirement, the student must repeat HEBR-MOD/JEWISH 402. The second time the student takes HEBR-MOD/JEWISH 402, it will count toward the Literature, Philosophy, and the Arts requirement.
- In the six courses taken across the “Literature, Philosophy, and the Arts” and “History and Social Science” clusters, four courses must deal in some way with Israel. Some courses (see list below) are preapproved for this track.

HONORS IN THE MAJOR

Students may declare Honors in the Jewish Studies Major in consultation with the Jewish Studies undergraduate advisor.

HONORS IN THE JEWISH STUDIES MAJOR REQUIREMENTS

To earn the B.A. or B.S. with Honors in the Major in Jewish Studies or the separate track in Education and Jewish Studies and Modern Hebrew Language, Literature and Culture, students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all JEWISH courses, and all courses accepted in the major
- Complete at least two courses, taken for Honors, in the major, with grades of B or better in each
- Complete a two-semester Senior Honors Thesis, a piece of original research composition, in JEWISH 681 Senior Honors Thesis and JEWISH 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

ADVISING AND CAREERS

Like other liberal arts majors, a degree in Jewish studies can prepare one for a variety of career paths. Graduates in Jewish studies have followed a variety of different career paths, including law, medicine, education, finance, social work, and the nonprofit sector. Jewish studies students are also well prepared to apply for graduate studies in fields such as law, education, business, and social work, as well as prime candidates for

rabbinical or cantorial school, theological studies, and advanced levels of Jewish studies.

The Mosse/Weinstein Center for Jewish Studies encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

Career Resources:

- Why the liberal arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)
- L&S Career Services (<http://careers.ls.wisc.edu/students.htm>): We launch our students higher, sooner
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/about/lsci?p=careerinitiative.html>)

PEOPLE

Professors: Bernard-Donals, Brenner, Ermakoff, Goldberg, Guyer, Hutton, Loudon, Michels, Nadler, Rosenberg, Rosenblum, Rosenmeyer, Schweber, Swack, Vardi

Associate Professors: Dobbs, Shelef, Strauss

Assistant Professors: Bitzan, Brisman, Hollander, Mandell, Yudkoff, Zilbergers

Lecturers: Blakely, Paretskaya, Sone, Yuchtman

Jewish Studies Faculty Information (<http://jewishstudies.wisc.edu/faculty>)

JEWISH STUDIES, B.S.

Founded in 1991, the Mosse/Weinstein Center for Jewish Studies brings together a variety of disciplines to study and interpret Jewish and ancient Israelite history, religion, literature, politics, society, and culture. The center offers a broad selection of courses at all levels, which are cross-listed with other departments, including classics, curriculum and instruction, English, gender and women's studies, German, history, music, philosophy, political science, religious studies, Slavic languages, and sociology.

The Jewish studies major offers students an in-depth study of 3,500 years of Jewish civilization. The program is interdisciplinary in nature and aims to provide students with a broadly based, rigorous liberal arts education in Jewish studies. While learning about Jewish history, religion, language, and culture, students also develop skills in critical thinking, reading, writing, and research—skills that are valuable to a range of career paths. Students with a particular interest in Modern Hebrew and Israel

are encouraged to follow a specialized track in Modern Hebrew language, literature, and Israeli culture.

The Jewish studies major requires a minimum of 31 credits and proficiency in the Hebrew language to enable students to deal with Hebrew texts in the classroom and for research purposes. The credits are divided among several clusters that focus on Hebrew texts; literature, philosophy, and the arts; and history and social science. In addition, students must complete a two-course capstone sequence. Together, these courses support the acquisition of an integrated and coherent body of knowledge.

A certificate in Jewish studies is also available. Its aim is to acquaint students with a number of significant aspects of Jewish civilization and to introduce them to tools required for its study; it requires a minimum of 21 credits in seven courses.

The major has an education track that includes coursework in the School of Education. It requires a total of 34 credits—25 in Jewish studies and 9 in education (curriculum and instruction, and educational policy studies). This track provides a series of courses that define the role that education has played in Jewish civilization; Jewish ideas concerning the nature and aims of education; and philosophical, curricular, and pedagogical issues relating to education in Jewish studies in a pluralistic, democratic society. This track does not lead to teacher certification.

HOW TO GET IN

Prospective majors in Jewish studies should make an appointment with the undergraduate advisor (undergrad-adviser@cjs.wisc.edu) to discuss requirements and courses.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS**Requirements Detail**

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

Completion of the major requires a minimum of **31 credits** in Jewish studies, distributed as follows:

Code	Title	Credits
<i>Introduction to Judaism</i>		
JEWISH/ RELIG ST 211	Introduction to Judaism	
<i>Hebrew Texts</i>		
Select two of the following in Hebrew texts at the level above 202 in Modern Hebrew:		
HEBR-MOD/ JEWISH 301	Introduction to Hebrew Literature	
HEBR-MOD/ JEWISH 302	Introduction to Hebrew Literature	
HEBR-MOD/ JEWISH 401	Topics in Modern Hebrew / Israeli Literature and Culture I	
HEBR-MOD/ JEWISH 402	Topics in Modern Hebrew / Israeli Literature and Culture II	
<i>Literature, Philosophy, and the Arts</i>		
Select three courses in Jewish literature, philosophy, and the arts (see below)		
<i>History and Social Science</i>		
Select three courses in Jewish history or social science (see below)		
<i>Capstone</i>		
The capstone sequence is intended for students nearing the end of their coursework and consists of two courses, which are taken concurrently:		
JEWISH 675 & JEWISH 677	Research Colloquium for Majors and Independent Research for Majors	

Optional Track

See "Track in Modern Hebrew Language, Literature, and Israeli Culture" below

LANGUAGE REQUIREMENT

The major includes a language requirement of Hebrew proficiency equal to four semesters of Modern Hebrew:

Code	Title	Credits
HEBR-MOD 101	First Semester Hebrew	4
HEBR-MOD 102	Second Semester Hebrew	4
HEBR-MOD 201	Third Semester Hebrew	4
HEBR-MOD 202	Fourth Semester Hebrew	4

These first four semesters of Hebrew do not count toward the 31 credits for the major. The Center for Jewish Studies, 4223 Mosse Humanities Building, administers placement examinations.

NOTE ON DIRECTED STUDY

With prior consent of the undergraduate advisor in Jewish studies and the relevant instructor, students may use one Directed Study course (JEWISH 699 Directed Study) to satisfy a requirement for the major.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all JEWISH courses and courses accepted in the major

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in JEWISH, taken on campus

¹ JEWISH courses, 300 and higher, that are designated as Intermediate or Advanced, count as upper level in the major

LITERATURE, PHILOSOPHY, AND THE ARTS

Three courses in Jewish literature, philosophy, and the arts, at least one of which must deal with the Jewish experience in Diaspora written in a language other than Hebrew—e.g., English, French, German, Russian, Yiddish. (Courses taken to satisfy the requirement in Hebrew texts cannot be used to satisfy this requirement.) Courses fulfilling the Diaspora requirement are indicated with a footnote. Depending on the semester, select topics courses may also fulfill the Diaspora requirement.

Jewish Studies Faculty Information (<http://jewishstudies.wisc.edu/faculty>)

JEWISH STUDIES, CERTIFICATE

Founded in 1991, the Mosse/Weinstein Center for Jewish Studies brings together a variety of disciplines to study and interpret Jewish and ancient Israelite history, religion, literature, politics, society, and culture. The center offers a broad selection of courses at all levels, which are cross-listed with other departments, including classics, curriculum and instruction, English, gender and women's studies, German, history, music, philosophy, political science, religious studies, Slavic languages, and sociology.

The Jewish studies major offers students an in-depth study of 3,500 years of Jewish civilization. The program is interdisciplinary in nature and aims to provide students with a broadly based, rigorous liberal arts education in Jewish studies. While learning about Jewish history, religion, language, and culture, students also develop skills in critical thinking, reading, writing, and research—skills that are valuable to a range of career paths. Students with a particular interest in Modern Hebrew and Israel are encouraged to follow a specialized track in Modern Hebrew language, literature, and Israeli culture.

The Jewish studies major requires a minimum of 31 credits and proficiency in the Hebrew language to enable students to deal with Hebrew texts in the classroom and for research purposes. The credits are divided among several clusters that focus on Hebrew texts; literature, philosophy, and the arts; and history and social science. In addition, students must complete a two-course capstone sequence. Together, these courses support the acquisition of an integrated and coherent body of knowledge.

A certificate in Jewish studies is also available. Its aim is to acquaint students with a number of significant aspects of Jewish civilization and to introduce them to tools required for its study; it requires a minimum of 21 credits in seven courses.

The major has an education track that includes coursework in the School of Education. It requires a total of 34 credits—25 in Jewish studies and 9 in education (curriculum and instruction, and educational policy studies). This track provides a series of courses that define the role that education

has played in Jewish civilization; Jewish ideas concerning the nature and aims of education; and philosophical, curricular, and pedagogical issues relating to education in Jewish studies in a pluralistic, democratic society. This track does not lead to teacher certification.

HOW TO GET IN

Students interested in a certificate in Jewish studies should make an appointment with the undergraduate advisor (undergrad-adviser@cjs.wisc.edu) to discuss requirements and courses.

REQUIREMENTS

The certificate in Jewish studies aims to acquaint students with a number of significant aspects of Jewish civilization and to introduce them to some of the tools required for its study. In addition to a two-semester language requirement, students must complete coursework in literature, philosophy, and the arts; history and social sciences; and the pre-modern area. The certificate complements a major in any subject in the College of Letters & Science. It also strengthens the applications of those students who intend to pursue careers or graduate study in a field related to Jewish studies.

LANGUAGE REQUIREMENT

Students are required to take at least two semesters of Modern Hebrew. Students with a prior knowledge of the language are also required to take one year of instruction at the appropriate level. Students whose prior knowledge is equivalent to four semesters or more of Hebrew language instruction are required to take two courses in Hebrew texts (HEBR-MOD/JEWISH 301, HEBR-MOD/JEWISH 302, HEBR-MOD/JEWISH 401, HEBR-MOD/JEWISH 402). The Center for Jewish Studies, 4223 Mosse Humanities Building, administers placement examinations.

Note: The following lower-division Hebrew language courses can be used to satisfy the language requirement, but because they are not cross-listed with Jewish studies, they cannot be used to satisfy any other requirements for the certificate:

Code	Title	Credits
HEBR-MOD 101	First Semester Hebrew	4
HEBR-MOD 102	Second Semester Hebrew	4
HEBR-MOD 201	Third Semester Hebrew	4
HEBR-MOD 202	Fourth Semester Hebrew	4

In contrast, Hebrew literature courses (301 and above), since they are cross-listed with Jewish studies, can be used to satisfy other requirements for the certificate.

COURSE REQUIREMENTS

Certificate students must take **21 credits** in **seven courses**, distributed as follows:

Notes: Jewish studies courses taken abroad may also satisfy the certificate requirements. Students who have taken such courses should consult with the certificate advisor. A directed study course (JEWISH 699 Directed Study) used to satisfy a cluster requirement must be approved in advance by the undergraduate advisor.

ADVISING AND CAREERS

Jewish studies can prepare one for a variety of career paths. Graduates in Jewish studies have followed a variety of different career paths, including law, medicine, education, finance, social work, and the nonprofit sector. Jewish studies students are also well prepared to apply for graduate studies in fields such as law, education, business, and social work, as well as prime candidates for rabbinical or cantorial school, theological studies, and advanced levels of Jewish studies.

The Mosse/Weinstein Center for Jewish Studies encourages students to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major or certificate, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

PHILOSOPHY

Philosophy involves reflection upon and understanding of all phases of human activity. Philosophy especially directs itself to the nature of knowledge and the most basic concepts of human understanding and value: morality, society, art and aesthetic experience, as well as science, politics, and religion. Philosophy is thus closely involved with other disciplines because, as human activities and quests for knowledge, they and their findings provide the material for philosophical inquiry. The courses offered by the department are designed to help students develop their own capacities to reflect intelligently on questions of fundamental and lasting significance. The philosophy major is intended to meet the needs of four types of students:

- those who wish to use philosophy as the organizing core of a liberal education;
- those who desire to study philosophy in preparation for graduate work in some other field, such as law, government, or theology;
- those who plan to major jointly in philosophy and one of the social and natural sciences or humanities; and
- those who have a professional interest in philosophy and intend to do graduate work in the subject.

DEGREES/MAJORS/CERTIFICATES

- Philosophy, B.A. (p. 1052)

- those who plan to major jointly in philosophy and one of the social and natural sciences or humanities; and

- those who have a professional interest in philosophy and intend to do graduate work in the subject.

HOW TO GET IN

Students should inform the philosophy office of their intention to major and be assigned an advisor within the department. More information can be found at major declaration (http://philosophy.wisc.edu/undergraduate/major_declaration.php).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

The minimum requirement for the major is **eight conventionally graded philosophy courses** amounting to at least **27 credits**. These credits must include:

Code	Title	Credits
PHILOS 211	Elementary Logic (or equivalent; should be taken as early as possible)	3-4
or PHILOS 511	Symbolic Logic	
PHILOS 430 & PHILOS 432	History of Ancient Philosophy and History of Modern Philosophy (or equivalent; recommended to be taken in the sophomore or junior year)	6-8

Select a total of five PHILOS courses, which are 3 credits or more, from any course designated in the Schedule of Classes (Course Guide) as 400 or above¹

Select at least one course from Category A 3-4

Select at least one course from Category B 3-4

¹ Excluding the following courses: PHILOS/JEWISH 442 Moral Philosophy and the Holocaust, PHILOS/MED HIST 505 Justice and Health Care, PHILOS/ED POL 545 Philosophical Conceptions of Teaching and Learning, PHILOS/MED HIST 558 Ethical Issues in Health Care, PHILOS/MATH 571 Mathematical Logic, , PHILOS 599 Directed Study, , PHILOS 681 Senior Honors Thesis, PHILOS 682 Senior Honors Thesis, PHILOS 691 Senior Thesis, PHILOS 692 Senior Thesis, and PHILOS 699 Directed Study.

CATEGORY A

Code	Title	Credits
PHILOS/RELIG ST 501	Philosophy of Religion	3-4
PHILOS 503	Theory of Knowledge	3
PHILOS 516	Language and Meaning	3
PHILOS 520	Philosophy of the Natural Sciences	3
PHILOS 530	Freedom Fate and Choice	3
PHILOS 551	Philosophy of Mind	3
PHILOS 560	Metaphysics	3

CATEGORY B

Code	Title	Credits
PHILOS 241	Introductory Ethics	3-4
PHILOS 253	Philosophy of the Arts	3-4
PHILOS 541	Modern Ethical Theories	3
PHILOS 549	Great Moral Philosophers	3
PHILOS 553	Aesthetics	3
PHILOS 555	Political Philosophy	3

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all PHILOS courses and courses that count for the major 2.000 GPA on 15 upper-level credits in the major, taken in residence¹ 15 credits in PHILOS, taken on campus

¹Philosophy courses of at least 3 credits at the 400 level or higher count as upper level in the major, with the exception of the following:

Code	Title	Credits
PHILOS/JEWISH 442	Moral Philosophy and the Holocaust	3
PHILOS/MED HIST 505	Justice and Health Care	3
PHILOS/ED POL 545	Philosophical Conceptions of Teaching and Learning	3
PHILOS/MED HIST 558	Ethical Issues in Health Care	3
PHILOS/MATH 571	Mathematical Logic	3
PHILOS 599	Directed Study	1-3
PHILOS 681	Senior Honors Thesis	1-3
PHILOS 682	Senior Honors Thesis	3
PHILOS 691	Senior Thesis	3
PHILOS 692	Senior Thesis	3

PHILOS 699 Directed Study 2-3

Course Projections: Detailed descriptions of the content and format for future course offerings will be available at philosophy.wisc.edu (<http://philosophy.wisc.edu>) several weeks prior to the commencement of the semester/term.

SENIOR THESIS

Students who wish to enroll for such work (PHILOS 691 Senior Thesis-PHILOS 692 Senior Thesis) should consult their advisors.

HONORS IN THE MAJOR

Students may declare Honors in the Philosophy Major in consultation with the Philosophy undergraduate advisor.

HONORS IN THE PHILOSOPHY MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Philosophy students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all PHILOS courses
- Complete an additional course in philosophy from either Category A or Category B (above) with a grade of B or better
- Complete a two-semester Senior Honors Thesis in PHILOS 681 Senior Honors Thesis for 1–3 credits and PHILOS 682 Senior Honors Thesis for 3 credits, with a grade of AB or better.¹

¹ Students will not be permitted to write a Senior Honors Thesis unless they have taken at least one advanced course on the topic on which they will be writing. Credits earned by writing a Senior Honors Thesis will not count toward the minimal number of credits required for Honors in the Major.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Ability to think critically about arguments.

2. Ability to interpret complex texts accurately and analyze them logically.
3. Ability to communicate precisely and concisely in both writing and speech.
4. Familiarity with the history of Western philosophy and the major debates within that tradition.
5. Ability to be engaged citizens who think carefully and well about their responsibilities to others.
6. Ability to exchange reasons about controversial matters respectfully and with the aim of uncovering the truth.
7. Interpretative charity and intellectual honesty, which includes appropriate attribution to others of their ideas, and recognition and frankness about the limitations of one's own ideas.

ADVISING AND CAREERS

ADVISING

The Department of Philosophy encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Philosophy majors develop important and widely marketable skills, like the ability to think critically, communicate clearly, and solve complex problems. This means that getting a degree in philosophy provides excellent preparation for a variety of careers.

Studying philosophy can also help you get into graduate school. Philosophy majors excel on standardized tests like the GRE, GMAT, and LSAT. They rank first among all majors on the verbal and the analytical section of the GRE. Philosophy majors also tend to do better than just about any other major on the LSAT. With a mean score of just over 157, they are second only to physics majors. When it comes to the GMAT, philosophy majors rank in the top five of all majors, and they consistently have higher scores than business majors (including management, finance, accounting, and marketing majors).

Career Resources:

- Why the liberal arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)

Landau, Shapiro, Sidelle, Sober, Southgate, Steinberg, Streiffer, Titlebaum, Vranas

can be found at major declaration (http://philosophy.wisc.edu/undergraduate/major_declaration.php).

RESOURCES AND SCHOLARSHIPS

UNDERGRADUATE SCHOLARSHIPS

The Department of Philosophy has received generous support in order to fund two scholarships each academic year.

The **Charles Manthey Winter Philosophy Scholarship** is given to a major in philosophy who will graduate within the next four terms of the award and who has at least a 3.5 grade point average over the past two terms, and who can demonstrate financial need.

The **Colonel Jerome Ellis Goodrich, USMC (retired), Scholarship** is awarded to an undergraduate major in philosophy with academic merit and financial need, and who is a U.S. citizen.

Applications for these scholarships are typically due in early April and winners are honored at our annual Awards Banquet in May.

We also have an annual paper prize called the **Temkin Undergraduate Essay Prize in Value Theory**. This prize recognizes an outstanding essay in value theory, where this is construed quite broadly to include topics in political philosophy, philosophy of law, metaethics, applied ethics, etc. Essays are typically submitted in early April and the winner is also honored at our Awards Banquet.

If you have any questions about these scholarships or essay prize, you may send an email to frontoffice@philosophy.wisc.edu.

PHILOSOPHY, B.S.

Philosophy involves reflection upon and understanding of all phases of human activity. Philosophy especially directs itself to the nature of knowledge and the most basic concepts of human understanding and value: morality, society, art and aesthetic experience, as well as science, politics, and religion. Philosophy is thus closely involved with other disciplines because, as human activities and quests for knowledge, they and their findings provide the material for philosophical inquiry. The courses offered by the department are designed to help students develop their own capacities to reflect intelligently on questions of fundamental and lasting significance. The philosophy major is intended to meet the needs of four types of students:

- those who wish to use philosophy as the organizing core of a liberal education;
- those who desire to study philosophy in preparation for graduate work in some other field, such as law, government, or theology;
- those who plan to major jointly in philosophy and one of the social and natural sciences or humanities; and
- those who have a professional interest in philosophy and intend to do graduate work in the subject.

HOW TO GET IN

Students should inform the philosophy office of their intention to major and be assigned an advisor within the department. More information

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR

The minimum requirement for the major is **eight conventionally graded philosophy courses** amounting to at least **27 credits**. These credits must include:

Code	Title	Credits
PHILOS 211	Elementary Logic (or equivalent; should be taken as early as possible)	3-4
or PHILOS 511	Symbolic Logic	
PHILOS 430 & PHILOS 432	History of Ancient Philosophy and History of Modern Philosophy (or equivalent; recommended to be taken in the sophomore or junior year)	6-8
Select a total of five PHILOS courses, which are 3 credits or more, from any course designated in the Schedule of Classes (Course Guide) as 400 or above ¹		15
Select at least one course from Category A		3-4
Select at least one course from Category B		3-4

¹ Excluding the following courses: PHILOS/JEWISH 442 Moral Philosophy and the Holocaust, PHILOS/MED HIST 505 Justice and Health Care, PHILOS/ED POL 545 Philosophical Conceptions of Teaching and Learning, PHILOS/MED HIST 558 Ethical Issues in Health Care, PHILOS/MATH 571 Mathematical Logic, , PHILOS 599 Directed Study, , PHILOS 681 Senior Honors Thesis, PHILOS 682 Senior Honors Thesis, PHILOS 691 Senior Thesis, PHILOS 692 Senior Thesis, and PHILOS 699 Directed Study.

CATEGORY A

Code	Title	Credits
PHILOS/ RELIG ST 501	Philosophy of Religion	3-4
PHILOS 503	Theory of Knowledge	3
PHILOS 516	Language and Meaning	3
PHILOS 520	Philosophy of the Natural Sciences	3
PHILOS 530	Freedom Fate and Choice	3
PHILOS 551	Philosophy of Mind	3
PHILOS 560	Metaphysics	3

CATEGORY B

Code	Title	Credits
PHILOS 241	Introductory Ethics	3-4
PHILOS 253	Philosophy of the Arts	3-4
PHILOS 541	Modern Ethical Theories	3
PHILOS 549	Great Moral Philosophers	3
PHILOS 553	Aesthetics	3
PHILOS 555	Political Philosophy	3

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all PHILOS courses and courses that count for the major
2.000 GPA on 15 upper-level credits in the major, taken in residence¹ 15 credits in PHILOS, taken on campus

¹Philosophy courses of at least 3 credits at the 400 level or higher count as upper level in the major, with the exception of the following:

Code	Title	Credits
PHILOS/ JEWISH 442	Moral Philosophy and the Holocaust	3
PHILOS/ MED HIST 505	Justice and Health Care	3
PHILOS/ED POL 545	Philosophical Conceptions of Teaching and Learning	3
PHILOS/ MED HIST 558	Ethical Issues in Health Care	3
PHILOS/MATH 571	Mathematical Logic	3
PHILOS 599	Directed Study	1-3
PHILOS 681	Senior Honors Thesis	1-3
PHILOS 682	Senior Honors Thesis	3
PHILOS 691	Senior Thesis	3
PHILOS 692	Senior Thesis	3
PHILOS 699	Directed Study	2-3

Course Projections: Detailed descriptions of the content and format for future course offerings will be available at philosophy.wisc.edu (<http://philosophy.wisc.edu>) several weeks prior to the commencement of the semester/term.

SENIOR THESIS

Students who wish to enroll for such work (PHILOS 691 Senior Thesis-PHILOS 692 Senior Thesis) should consult their advisors.

HONORS IN THE MAJOR

Students may declare Honors in the Philosophy Major in consultation with the Philosophy undergraduate advisor.

HONORS IN THE PHILOSOPHY MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Philosophy students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all PHILOS courses
- Complete an additional course in philosophy from either Category A or Category B (above) with a grade of B or better
- Complete a two-semester Senior Honors Thesis in PHILOS 681 Senior Honors Thesis for 1–3 credits and PHILOS 682 Senior Honors Thesis for 3 credits, with a grade of AB or better.¹

¹ Students will not be permitted to write a Senior Honors Thesis unless they have taken at least one advanced course on the topic on which they will be writing. Credits earned by writing a Senior Honors Thesis will not count toward the minimal number of credits required for Honors in the Major.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Ability to think critically about arguments.
2. Ability to interpret complex texts accurately and analyze them logically.
3. Ability to communicate precisely and concisely in both writing and speech.
4. Familiarity with the history of Western philosophy and the major debates within that tradition.
5. Ability to be engaged citizens who think carefully and well about their responsibilities to others.

6. Ability to exchange reasons about controversial matters respectfully and with the aim of uncovering the truth.
7. Interpretative charity and intellectual honesty, which includes appropriate attribution to others of their ideas, and recognition and frankness about the limitations of one's own ideas.

ADVISING AND CAREERS

ADVISING

The Department of Philosophy encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Philosophy majors develop important and widely marketable skills, like the ability to think critically, communicate clearly, and solve complex problems. This means that getting a degree in philosophy provides excellent preparation for a variety of careers.

Studying philosophy can also help you get into graduate school. Philosophy majors excel on standardized tests like the GRE, GMAT, and LSAT. They rank first among all majors on the verbal and the analytical section of the GRE. Philosophy majors also tend to do better than just about any other major on the LSAT. With a mean score of just over 157, they are second only to physics majors. When it comes to the GMAT, philosophy majors rank in the top five of all majors, and they consistently have higher scores than business majors (including management, finance, accounting, and marketing majors).

Career Resources:

- Why the liberal arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)
- L&S Career Services (<http://careers.ls.wisc.edu/students.htm>): We launch our students higher, sooner
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/about/lsci?p=careerinitiative.html>)
- "Why Study" page: <http://philosophy.wisc.edu/undergraduate/whystudy>

RESOURCES AND SCHOLARSHIPS

UNDERGRADUATE SCHOLARSHIPS

The Department of Philosophy has received generous support in order to fund two scholarships each academic year.

The **Charles Manthey Winter Philosophy Scholarship** is given to a major in philosophy who will graduate within the next four terms of the award and who has at least a 3.5 grade point average over the past two terms, and who can demonstrate financial need.

The **Colonel Jerome Ellis Goodrich, USMC (retired), Scholarship** is awarded to an undergraduate major in philosophy with academic merit and financial need, and who is a U.S. citizen.

Applications for these scholarships are typically due in early April and winners are honored at our annual Awards Banquet in May.

We also have an annual paper prize called the **Temkin Undergraduate Essay Prize in Value Theory**. This prize recognizes an outstanding essay in value theory, where this is construed quite broadly to include topics in political philosophy, philosophy of law, metaethics, applied ethics, etc. Essays are typically submitted in early April and the winner is also honored at our Awards Banquet.

If you have any questions about these scholarships or essay prize, you may send an email to frontoffice@philosophy.wisc.edu.

PHYSICS

The Department of Physics has a long history of providing students with a great educational experience. The department awarded its first Ph.D. in 1899. Since then, physics students have earned degrees in virtually every area of physics, and the department's faculty has played key roles in a myriad of important research efforts.

Physics is the science of the properties of matter, radiation, and energy in all forms. As such, it is the most fundamental of the sciences. It provides the underlying framework for the other physical sciences and engineering and for understanding physical processes in biological and environmental sciences.

CHOOSE TO BE A PHYSICS MAJOR

WHY STUDY PHYSICS?

- **Intellectual Satisfaction.** First, and foremost, physics satisfies our deep desire to understand how the universe works. Physics is interesting.
- **Intellectual Challenge.** By striving for fundamental understanding, the physicist accepts the challenge to move past a merely descriptive approach of our world and probes deeply into how and why it works.
- **Physics Produces New Technology.** Today's esoteric physics research will become tomorrow's technological advances.
- **Technical Expertise.** Physicists exploit forefront technologies in their pursuits.
- **Flexibility.** In a fast-paced and changing world, it is much more important to have a broad substantive education than to be trained in a specific skill. We teach people how to think, and how to apply and extend what they know to new types of problems.

- **Physics is Analytical and Quantitative.** People who can reason analytically and quantitatively are essential for the success of almost any pursuit.

YOUR FUTURE IS SO BRIGHT . . .

A degree in physics helps prepare students for employment in industry, research, government, and academia. A bachelor's degree from the undergraduate physics program will provide an overall view of both classical and modern physics along with problem-solving ability and the flexibility to continue learning.

Your education can:

- Prepare you for employment in industrial or governmental laboratories.
- Prepare you for graduate studies for master's or doctoral degrees in experimental or theoretical physics.
- Provide a broad background for further work in other sciences, such as materials sciences, aerospace, astronomy, computer science, geophysics, meteorology, radiology, medicine, biophysics, engineering, and environmental studies.
- Provide a science-oriented liberal education. This training can be useful in some areas of business administration, law, or other fields where a basic knowledge of science is useful.
- Provide part of the preparation you need to teach physics. To teach physics in high school, you will also take education courses to become certified. You will need a doctoral degree to become a college or university professor.

PHYSICS MENTOR PROGRAM

Any student contemplating becoming a physics major is encouraged to obtain a faculty mentor. A mentor is a faculty member with whom students can discuss physics, courses, careers, graduate schools, aspirations, etc. Mentors are not primarily academic advisors. Information is available at the department office.

OTHER PROGRAMS

AMEP

A program in applied mathematics, engineering and physics (AMEP) (p. 972) is described in its own section of The Guide.

Astronomy-Physics

Students interested in an astronomy–physics major should contact the astronomy department (p. 424).

Education-Physics

A student working toward the Bachelor of Science–Education degree may major or minor in physics. Interested students should contact the School of Education (p. 1238). Upon request, the physics department will assign an advisor.

Medical-Physics

A suggested curriculum for students interested in graduate study in medical physics is available in the medical physics (<https://www.medphysics.wisc.edu>) department office.

PHYSICS, B.A.

WELCOME TO THE UW-MADISON DEPARTMENT OF PHYSICS

We have a long history of providing our students with a great educational experience. Our physics department awarded its first Ph.D. in 1899. Since then, our students have earned degrees in virtually every area of physics, and our faculty have played key roles in a myriad of important research efforts.

Physics is the science of the properties of matter, radiation, and energy in all forms. As such, it is the most fundamental of the sciences. It provides the underlying framework for the other physical sciences and engineering and for understanding physical processes in biological and environmental sciences.

CHOOSE TO BE A PHYSICS MAJOR WHY STUDY PHYSICS?

- **Intellectual Satisfaction.** First, and foremost, physics satisfies our deep desire to understand how the universe works. Physics is interesting.
- **Intellectual Challenge.** By striving for fundamental understanding, the physicist accepts the challenge to move past a merely descriptive approach of our world and probes deeply into how and why it works.
- **Physics Produces New Technology.** Today's esoteric physics research will become tomorrow's technological advances.
- **Technical Expertise.** Physicists exploit forefront technologies in their pursuits.
- **Flexibility.** In a fast-paced and changing world, it is much more important to have a broad substantive education than to be trained in a specific skill. We teach people how to think, and how to apply and extend what they know to new types of problems.
- **Physics is Analytical and Quantitative.** People who can reason analytically and quantitatively are essential for the success of almost any pursuit.

YOUR FUTURE IS SO BRIGHT...

A degree in physics helps prepare you for employment in industry, research, government, and academia. A bachelor's degree from the undergraduate physics program will provide an overall view of both classical and modern physics along with problem-solving ability and the flexibility to continue learning.

Your education can:

- Prepare you for employment in industrial or governmental laboratories.
- Prepare you for graduate studies for master's or doctoral degrees in experimental or theoretical physics.
- Provide a broad background for further work in other sciences, such as materials sciences, aerospace, astronomy, computer science, geophysics, meteorology, radiology, medicine, biophysics, engineering, and environmental studies.
- Provide a science-oriented liberal education. This training can be useful in some areas of business administration, law, or other fields where a basic knowledge of science is useful.

- Provide part of the preparation you need to teach physics. To teach physics in high school, you will also take education courses to become certified. You will need a doctoral degree to become a college or university professor

PHYSICS MENTOR PROGRAM

Any student contemplating becoming a physics major is encouraged to obtain a faculty mentor. A mentor is a faculty member with whom students can discuss physics, courses, careers, graduate schools, aspirations, etc. Mentors are not primarily academic advisors. Information is available at the department office.

OTHER PROGRAMS

AMEP

A program in applied mathematics, engineering and physics (AMEP) (p. 972) is described in its own section of The Guide.

Astronomy-Physics

Students interested in an astronomy–physics major should contact the astronomy department (p. 424).

Education-Physics

A student working toward the Bachelor of Science–Education degree may major or minor in physics. Interested students should contact the School of Education (p. 1238). Upon request, the physics department will assign an advisor.

Medical-Physics

A suggested curriculum for students interested in graduate study in medical physics is available in the medical physics (<https://www.medphysics.wisc.edu>) department office.

HOW TO GET IN

TO DECLARE A PHYSICS MAJOR

Students must declare the physics major by filing out a major declaration form, signed by a physics undergraduate advisor. They should talk with one of the undergraduate advisors as soon as they know they might have an interest in the physics major. Students can declare their physics major at any time after completing their first physics course on the UW–Madison campus, and we encourage them to do this as early as possible. They must have a 2.5 GPA in physics and math courses taken at UW–Madison at the time they declare. In all cases, the major must be declared before the semester of graduation. The form can be obtained at the department office in 2320 Chamberlin Hall. *Note:* Students should bring a copy of their current course history when they talk with the undergraduate advisor.

ENGINEERING AND OTHER NON-L&S MAJORS SEEKING AN ADDITIONAL MAJOR IN PHYSICS

An undergraduate in any college other than Letters & Science (L&S) needs to complete the physics requirements for the physics major, and the L&S residence and quality of work in the major requirements. None of the other requirements of L&S need to be satisfied. Students majoring in any other program that is **not** in L&S require formal approval from the other college to declare the additional major in physics. This process may delay declaring the major in physics.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
-------------	--

Foreign Language	<ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language
------------------	---

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
-------------	--

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall
Minimum GPAs	30 credits in residence after the 90th credit
	2.000 in all coursework at UW–Madison
	2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

The physics major requires **35 credits** from the following:

Code	Title	Credits
Requirements for the Major		
<i>Introductory Physics</i>		
Select one of the following First Introductory Courses:		5
PHYSICS 247	A Modern Introduction to Physics (recommended) ¹	
PHYSICS 207	General Physics	
PHYSICS 201	General Physics	
E M A 201 & E M A 202	Statics and Dynamics ²	
E M A 201 & M E 240	Statics and Dynamics ²	
Select one of the following Second Introductory Courses:		5
PHYSICS 248	A Modern Introduction to Physics (recommended)	
PHYSICS 208	General Physics	
PHYSICS 202	General Physics	
Select one of the following Third Introductory Courses:		3-4
PHYSICS 249	A Modern Introduction to Physics (recommended)	
PHYSICS 205	Modern Physics for Engineers	
PHYSICS/ E C E 235	Introduction to Solid State Electronics	
PHYSICS 241	Introduction to Modern Physics	
PHYSICS 244	Modern Physics (Primarily for ECE Majors)	

Core Physics 3

PHYSICS 311 Mechanics

Select one of the following options: 3

Option 1:

PHYSICS 322 Electromagnetic Fields

Option 2:³

E C E 220 Electrodynamics I

E C E 320 Electrodynamics II

E C E 420 Electromagnetic Wave
Transmission

Select one of the following: 3

PHYSICS 415 Thermal Physics

CHEM 561 Physical Chemistry
& CHEM 562 and Physical Chemistry⁴

M E 361 Thermodynamics

Select one of the following: 3-6

PHYSICS 448 Atomic and Quantum Physics
& PHYSICS 449 and Atomic and Quantum Physics
(recommended)

PHYSICS 531 Introduction to Quantum Mechanics

Laboratory⁵

Select 6 credits from the following: 6

Full registered credit per course:

PHYSICS 307 Intermediate Laboratory-Mechanics
and Modern PhysicsPHYSICS 308 Intermediate Laboratory-
Electromagnetic Fields and Optics

PHYSICS 407 Advanced Laboratory

Two credits applies for each of these courses:

PHYSICS 321 Electric Circuits and Electronics

PHYSICS 623 Electronic Aids to Measurement

PHYSICS 625 Applied Optics

N E 427 Nuclear Instrumentation Laboratory

N E 428 Nuclear Reactor Laboratory

One credit applies for each of these courses:

E C E 305 Semiconductor Properties
Laboratory

E C E 313 Optoelectronics Lab

Select additional electives to reach 35-credit minimum for the major:**Advanced Physics Electives⁵**PHYSICS 301 Physics Today⁶

PHYSICS 325 Wave Motion and Optics

PHYSICS 406 Special Topics in Physics

PHYSICS/
ENVIR ST 472 Scientific Background to Global
Environmental ProblemsPHYSICS/B M E/
H ONCOL/
MED PHYS 501 Radiological Physics and Dosimetry

PHYSICS 507 Graduate Laboratory

PHYSICS/E C E/
N E 525 Introduction to PlasmasPHYSICS/E C E/
N E 527 Plasma Confinement and Heating

PHYSICS 535 Introduction to Particle Physics

PHYSICS 545 Introduction to Atomic Structure

PHYSICS/
E C E 546 Lasers

PHYSICS 551 Solid State Physics

PHYSICS/B M E/
MED PHYS/
PHMCOL-M/
RADIOL 619 Microscopy of Life

¹ It is recommended that students follow one of the sequences PHYSICS 247–PHYSICS 248, PHYSICS 207–PHYSICS 208, or PHYSICS 201–PHYSICS 202 for the first two courses, and PHYSICS 249 or PHYSICS 241 is strongly recommended for the third course. But any combination can be used to satisfy the requirements, except that students may not transfer into the PHYSICS 247–PHYSICS 248–PHYSICS 249 sequence from another introductory sequence.

² A maximum of 5 credits from E M A 201, E M A 202 and M E 240 count toward the 35 required.

³ A maximum of 3 credits from E C E 220 and E C E 320 and E C E 420 apply toward the 35 required.

⁴ A maximum of 3 credits from CHEM 561 and CHEM 562 apply toward the 35 required.

⁵ For nonphysics courses, students will receive only the credit applied as lab toward the 35 credits requirement.

⁶ It is recommended that the student's program include the seminar PHYSICS 301 Physics Today.

RESIDENCE AND QUALITY OF WORK IN THE MAJOR

- 2.000 GPA in all PHYSICS and major courses
- 2.000 on at least 15 credits in upper-level work taken in residence: courses in Core, Laboratory, and Advanced Physics Electives
- 15 credits in PHYSICS, taken on campus

DISTINCTION IN THE MAJOR

Distinction in the Major requires no declaration, and is awarded at the time of graduation. Students may not receive Distinction and Honors in the same major. To receive Distinction in the Major, students must have met the following requirements:

- 3.300 university GPA
- 3.300 GPA in all major and major subject (physics) courses
- 6 additional credits in advanced-level physics beyond the minimum required for the major.

THESIS OF DISTINCTION

An exceptional original thesis will be designated as a Thesis of Distinction upon recommendation by the department.

MATHEMATICS

MATH 221–MATH 222–MATH 234 or equivalents are necessary since they are prerequisites for other courses.

CHEMISTRY

A college course in chemistry is advised for all physics students.

COMPUTING

Students should become familiar with scientific programming using a language such as C or FORTRAN. The computer sciences department offers introductory courses (such as 302). The Division of Information Technology (DoIT) also offers short courses to introduce programming.

HONORS IN THE MAJOR

Students may declare Honors in this Major in Physics in consultation with their major advisor.

HONORS IN THE PHYSICS MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Physics students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 university GPA
- Earn a 3.300 GPA in all PHYSICS courses, and all courses accepted in the major
- Complete 12 credits for Honors in courses counting in the major, to include:
 - 9 credits at the advanced level
 - A two-semester Senior Honors Thesis in PHYSICS 681 Senior Honors Thesis and PHYSICS 682 Senior Honors Thesis for a total of 6 credits

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

The physics curriculum is intended to provide a broad and thorough understanding of the fundamental properties and interactions underlying physical phenomena (including mechanical behaviors, electrical and magnetic sources and interactions, light and optics, heat, relativity of space time, quantum mechanics, atomic and nuclear structure, solid state matter, etc). Many students who major in physics as undergraduates enter graduate schools for work leading to the M.S. or Ph.D. degrees. Others seek employment in a wide range of fields in government, business, and industry. Since current research, both

pure and applied, involves interdisciplinary efforts, the broad training of physics with its stress on fundamentals proves to be a valuable experience.

CAREER RESOURCES

The UW Department of Physics encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

Career Resources:

- Why the liberal arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)
- L&S Career Services (<http://careers.ls.wisc.edu/students.htm>): We launch our students higher, sooner
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/about/lsci?p=careerinitiative.html>)

Additional Resources:

- Link to physics department advising page (<https://www.physics.wisc.edu/undergrads/resources/advising>)
- Link to physics department student jobs and research opportunities (<https://www.physics.wisc.edu/resources/employment/student-jobs>)

WISCONSIN EXPERIENCE

PHYSICS UNDERGRADUATE COLLOQUIUM

There is a weekly series of talks in the spring semester called "Physics Today," at which a topic of local research is described by one of the physics faculty. These are open and may be attended by anyone. They can also be taken as a course, PHYSICS 301 Physics Today. See the Course Guide for location and time.

THE PHYSICS CLUB

The University Physical Society (UPS)—also known as the Physics Club—is a student organization for people interested in physics and related fields.

WHAT DOES THE PHYSICS CLUB DO?

The Physics Club organizes events such as seminars, tours, trips, and socials for its members. Physics Club volunteers also offer free drop-in tutoring to students in introductory physics and astronomy classes. In addition, we maintain subscriptions to science related magazines such as *Scientific American*, *Astronomy*, and *Physics Today*, which are kept in the club's room located at 2328 Chamberlin Hall. Every Friday afternoon, we meet with the physics colloquium speaker to learn about the process of becoming a scientist. In addition, UPS sponsors a variety of other events. For example, in the past, we have taken a field trip to Fermilab, sponsored a racquetball tournament, and have frequently gathered for social events such as ice skating, movie night, and bowling.

WHY SHOULD YOU JOIN THE PHYSICS CLUB?

By joining the Physics Club you'll be meeting many physics majors, who are, in general, really cool people to hang out with. If you are thinking about declaring a physics major, this is the place to come for helpful advice about taking classes and finding undergraduate job in the physics department. If you join, you can get access to the Physics Club room, 2328 Chamberlin Hall. Joining also adds you to the club email list, so you can be notified about club sponsored events.

PERKS OF BEING A PHYSICS CLUB MEMBER

When you join the Physics Club, you get access to an excellent room, 2328 Chamberlin Hall. This room contains a refrigerator, reference shelves of textbooks, couch, tables, and chairs, a phone, blackboards, and a microwave. We have several computers in the room. You can get your own key to the room and visit at your leisure, and stay as long as you like. Plus, you get the added bonus of knowing people who are in your classes.

University Physical Society

2328 Chamberlin Hall
ups.physics.wisc.edu
ups-officers@googlegroups.com

To Join:

Drop by Room 2328 Chamberlin Hall and pick up a membership form. Turn in a completed form with your \$5 annual dues to a UPS club officer.

PHYSICS LEARNING CENTER

The Physics Learning Center: Striving to help all students succeed in Physics

- Do you enjoy Physics?
- Are you patient?
- Do you like to teach?
- Would you like to help other undergraduate students?

The Physics Learning Center (PLC) matches upper-level undergraduate students as tutor/mentors in small study groups with students studying introductory physics (algebra-based PHYSICS 103–PHYSICS 104 and calculus-based PHYSICS 207–PHYSICS 208). Physics Peer Mentor Tutors meet twice a week with the same small group of students to overview key concepts, choose and supervise practice problems, answer questions, and serve as a mentor. We strive to create a supportive learning environment to help students gain skills, increase confidence, and meet potential study partners.

Peer mentor tutors receive extensive training in teaching physics and in general pedagogy. Tutors meet with a PLC staff member each week to discuss strategies for teaching course content, including how to use teaching materials that stress conceptual understanding. In addition, tutors from all courses meet as a group for a weekly teaching seminar to discuss issues such as group dynamics, techniques for actively involving students in learning, helping students to prepare for exams, raising awareness of diversity in student experiences, resources on campus, and so on.

Our peer mentor tutors report that they greatly enjoy working with their students and in the process strengthen their own foundation in physics and presentation skills. They also tell us that teaching physics helps to review for the Graduate Record Exam and to prepare for postgraduate teaching in middle/high school or as a university teaching assistant. Most tutors are upper-class students majoring in physics, astrophysics, secondary science education, and engineering. We also welcome students from other fields if they have a strong physics background. Students receive either independent study credit or a stipend for participation in the Physics Peer Mentor Tutor program. To apply, please submit a resume, your transcript (unofficial copy is fine), and a short statement about why you would like to be a physics peer mentor tutor (½–1 page).

RESOURCES AND SCHOLARSHIPS

STUDENT AWARDS

The Fay Ajzenberg-Selove Award is presented to undergraduate women majoring in physics, astronomy, or physics/astronomy for the purpose of encouraging women to continue their careers in science. Dr. Ajzenberg-Selove, who received her Ph.D. in physics in 1952, is currently a professor emerita the University of Pennsylvania.

The Dr. Maritza Irene Stapanian Crabtree Award in physics was established by William Crabtree to honor his wife, Dr. Maritza Crabtree, who graduated with a physics degree in 1971. This annual award benefits undergraduate students in physics based equally on merit and need. The Bernice Durand Undergraduate Research Scholarship was established by Vice Provost/Physics Professor Bernice Durand to promote meaningful undergraduate research opportunities and to

support and encourage women and ethnic minorities as undergraduate majors in the departments of physics and astronomy.

The Henry and Eleanor Firminhac Physics Undergraduate Scholarship is given to undergraduates in physics with financial need as the primary consideration. Funding provided by Ralph Firminhac in honor of his parents.

The L. R. Ingersoll Prize is given for distinguished achievement in introductory physics. This prize is underwritten by a fund established by the family and friends of the late Professor Ingersoll, a distinguished physicist and teacher at the university who served as department chair for many years.

The Liebenberg Family Research Scholarship is for physics, AMEP (applied mathematics, engineering, and physics) or astronomy/physics majors. This scholarship opportunity was initiated by the Liebenberg family for the purpose of promoting undergraduate summer research opportunities.

The Albert Augustus Radtke Scholarship Award is given to outstanding junior or senior students majoring in physics or AMEP. This award was made possible by a bequest of the late Mrs. Elizabeth S. Radtke in honor of her husband, a 1900 degree recipient from UW–Madison.

For more information. Go to www.physics.wisc.edu/awards (<https://www.physics.wisc.edu/awards>) or contact info@physics.wisc.edu.

Application Process. The deadline for student application materials is March 15th. No late applications will be accepted.

To Apply. Please submit a statement of interest and how this award would help your education. If it is an award that is for financial need (Crabtree and Firminhac) you need to emphasize what the need is. If the award you are applying for also has a merit requirement, the department will run your transcript.

PHYSICS, B.S.

The Department of Physics has a long history of providing students with a great educational experience. The department awarded its first Ph.D. in 1899. Since then, physics students have earned degrees in virtually every area of physics, and the department's faculty has played key roles in a myriad of important research efforts.

Physics is the science of the properties of matter, radiation, and energy in all forms. As such, it is the most fundamental of the sciences. It provides the underlying framework for the other physical sciences and engineering and for understanding physical processes in biological and environmental sciences.

CHOOSE TO BE A PHYSICS MAJOR

WHY STUDY PHYSICS?

- **Intellectual Satisfaction.** First, and foremost, physics satisfies our deep desire to understand how the universe works. Physics is interesting.
- **Intellectual Challenge.** By striving for fundamental understanding, the physicist accepts the challenge to move past a merely descriptive approach of our world and probes deeply into how and why it works.

- **Physics Produces New Technology.** Today's esoteric physics research will become tomorrow's technological advances.
- **Technical Expertise.** Physicists exploit forefront technologies in their pursuits.
- **Flexibility.** In a fast-paced and changing world, it is much more important to have a broad substantive education than to be trained in a specific skill. We teach people how to think, and how to apply and extend what they know to new types of problems.
- **Physics is Analytical and Quantitative.** People who can reason analytically and quantitatively are essential for the success of almost any pursuit.

YOUR FUTURE IS SO BRIGHT . . .

A degree in physics helps prepare students for employment in industry, research, government, and academia. A bachelor's degree from the undergraduate physics program will provide an overall view of both classical and modern physics along with problem-solving ability and the flexibility to continue learning.

Your education can:

- Prepare you for employment in industrial or governmental laboratories.
- Prepare you for graduate studies for master's or doctoral degrees in experimental or theoretical physics.
- Provide a broad background for further work in other sciences, such as materials sciences, aerospace, astronomy, computer science, geophysics, meteorology, radiology, medicine, biophysics, engineering, and environmental studies.
- Provide a science-oriented liberal education. This training can be useful in some areas of business administration, law, or other fields where a basic knowledge of science is useful.
- Provide part of the preparation you need to teach physics. To teach physics in high school, you will also take education courses to become certified. You will need a doctoral degree to become a college or university professor.

PHYSICS MENTOR PROGRAM

Any student contemplating becoming a physics major is encouraged to obtain a faculty mentor. A mentor is a faculty member with whom students can discuss physics, courses, careers, graduate schools, aspirations, etc. Mentors are not primarily academic advisors. Information is available at the department office.

OTHER PROGRAMS

AMEP

A program in applied mathematics, engineering and physics (AMEP) (p. 972) is described in its own section of The Guide.

Astronomy-Physics

Students interested in an astronomy–physics major should contact the astronomy department (p. 424).

Education-Physics

A student working toward the Bachelor of Science–Education degree may major or minor in physics. Interested students should contact the School of Education (p. 1238). Upon request, the physics department will assign an advisor.

Medical-Physics

A suggested curriculum for students interested in graduate study in medical physics is available in the medical physics (<https://www.medphysics.wisc.edu>) department office.

HOW TO GET IN

TO DECLARE A PHYSICS MAJOR

Students must declare the physics major by filing out a major declaration form, signed by a physics undergraduate advisor. They should talk with one of the undergraduate advisors as soon as they know they might have an interest in the physics major. Students can declare their physics major at any time after completing their first physics course on the UW–Madison campus, and we encourage them to do this as early as possible. They must have a 2.5 GPA in physics and math courses taken at UW–Madison at the time they declare. In all cases, the major must be declared before the semester of graduation. The form can be obtained at the department office in 2320 Chamberlin Hall. *Note:* Students should bring a copy of their current course history when they talk with the undergraduate advisor.

ENGINEERING AND OTHER NON-L&S MAJORS SEEKING AN ADDITIONAL MAJOR IN PHYSICS

An undergraduate in any college other than Letters & Science (L&S) needs to complete the physics requirements for the physics major, and the L&S residence and quality of work in the major requirements. None of the other requirements of L&S need to be satisfied. Students majoring in any other program that is **not** in L&S require formal approval from the other college to declare the additional major in physics. This process may delay declaring the major in physics.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General	• Breadth—Humanities/Literature/Arts: 6 credits
Education	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

The physics major requires **35 credits** from the following:

Code	Title	Credits
Requirements for the Major		
<i>Introductory Physics</i>		
Select one of the following First Introductory Courses:		5
PHYSICS 247	A Modern Introduction to Physics (recommended) ¹	
PHYSICS 207	General Physics	
PHYSICS 201	General Physics	
E M A 201 & E M A 202	Statics and Dynamics ²	
E M A 201 & M E 240	Statics and Dynamics ²	
Select one of the following Second Introductory Courses:		5
PHYSICS 248	A Modern Introduction to Physics (recommended)	
PHYSICS 208	General Physics	
PHYSICS 202	General Physics	
Select one of the following Third Introductory Courses:		3-4
PHYSICS 249	A Modern Introduction to Physics (recommended)	
PHYSICS 205	Modern Physics for Engineers	
PHYSICS/ E C E 235	Introduction to Solid State Electronics	
PHYSICS 241	Introduction to Modern Physics	
PHYSICS 244	Modern Physics (Primarily for ECE Majors)	
<i>Core Physics</i>		3
PHYSICS 311	Mechanics	
Select one of the following options:		3
Option 1:		
PHYSICS 322	Electromagnetic Fields	
Option 2: ³		
E C E 220	Electrodynamics I	
E C E 320	Electrodynamics II	
E C E 420	Electromagnetic Wave Transmission	
Select one of the following:		3
PHYSICS 415	Thermal Physics	
CHEM 561 & CHEM 562	Physical Chemistry and Physical Chemistry ⁴	
M E 361	Thermodynamics	
Select one of the following:		3-6
PHYSICS 448 & PHYSICS 449	Atomic and Quantum Physics and Atomic and Quantum Physics (recommended)	
PHYSICS 531	Introduction to Quantum Mechanics	

Laboratory⁵

Select 6 credits from the following:		6
Full registered credit per course:		
PHYSICS 307	Intermediate Laboratory-Mechanics and Modern Physics	
PHYSICS 308	Intermediate Laboratory-Electromagnetic Fields and Optics	
PHYSICS 407	Advanced Laboratory	
Two credits applies for each of these courses:		
PHYSICS 321	Electric Circuits and Electronics	
PHYSICS 623	Electronic Aids to Measurement	
PHYSICS 625	Applied Optics	
N E 427	Nuclear Instrumentation Laboratory	
N E 428	Nuclear Reactor Laboratory	
One credit applies for each of these courses:		
E C E 305	Semiconductor Properties Laboratory	
E C E 313	Optoelectronics Lab	
Select additional electives to reach 35-credit minimum for the major:		
<i>Advanced Physics Electives⁵</i>		
PHYSICS 301	Physics Today ⁶	
PHYSICS 325	Wave Motion and Optics	
PHYSICS 406	Special Topics in Physics	
PHYSICS/ ENVIR ST 472	Scientific Background to Global Environmental Problems	
PHYSICS/B M E/ H ONCOL/ MED PHYS 501	Radiological Physics and Dosimetry	
PHYSICS 507	Graduate Laboratory	
PHYSICS/E C E/ N E 525	Introduction to Plasmas	
PHYSICS/E C E/ N E 527	Plasma Confinement and Heating	
PHYSICS 535	Introduction to Particle Physics	
PHYSICS 545	Introduction to Atomic Structure	
PHYSICS/ E C E 546	Lasers	
PHYSICS 551	Solid State Physics	
PHYSICS/B M E/ MED PHYS/ PHMCOL-M/ RADIOL 619	Microscopy of Life	

¹ It is recommended that students follow one of the sequences PHYSICS 247–PHYSICS 248, PHYSICS 207–PHYSICS 208, or PHYSICS 201–PHYSICS 202 for the first two courses, and PHYSICS 249 or PHYSICS 241 is strongly recommended for the third course. But any combination can be used to satisfy the requirements, except that students may not transfer into the PHYSICS 247–PHYSICS 248–PHYSICS 249 sequence from another introductory sequence.

² A maximum of 5 credits from E M A 201, E M A 202 and M E 240 count toward the 35 required.

³ A maximum of 3 credits from E C E 220 and E C E 320 and E C E 420 apply toward the 35 required.

⁴ A maximum of 3 credits from CHEM 561 and CHEM 562 apply toward the 35 required.

⁵ For nonphysics courses, students will receive only the credit applied as lab toward the 35 credits requirement.

⁶ It is recommended that the student's program include the seminar PHYSICS 301 Physics Today.

- A two-semester Senior Honors Thesis in PHYSICS 681 Senior Honors Thesis and PHYSICS 682 Senior Honors Thesis for a total of 6 credits

RESIDENCE AND QUALITY OF WORK IN THE MAJOR

- 2.000 GPA in all PHYSICS and major courses
- 2.000 on at least 15 credits in upper-level work taken in residence: courses in Core, Laboratory, and Advanced Physics Electives
- 15 credits in PHYSICS, taken on campus

DISTINCTION IN THE MAJOR

Distinction in the Major requires no declaration, and is awarded at the time of graduation. Students may not receive Distinction and Honors in the same major. To receive Distinction in the Major, students must have met the following requirements:

- 3.300 university GPA
- 3.300 GPA in all major and major subject (physics) courses
- 6 additional credits in advanced-level physics beyond the minimum required for the major.

THESIS OF DISTINCTION

An exceptional original thesis will be designated as a Thesis of Distinction upon recommendation by the department.

MATHEMATICS

MATH 221–MATH 222–MATH 234 or equivalents are necessary since they are prerequisites for other courses.

CHEMISTRY

A college course in chemistry is advised for all physics students.

COMPUTING

Students should become familiar with scientific programming using a language such as C or FORTRAN. The computer sciences department offers introductory courses (such as 302). The Division of Information Technology (DoIT) also offers short courses to introduce programming.

HONORS IN THE MAJOR

Students may declare Honors in this Major in Physics in consultation with their major advisor.

HONORS IN THE PHYSICS MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Physics students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 university GPA
- Earn a 3.300 GPA in all PHYSICS courses, and all courses accepted in the major
- Complete 12 credits for Honors in courses counting in the major, to include:
 - 9 credits at the advanced level

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

The physics curriculum is intended to provide a broad and thorough understanding of the fundamental properties and interactions underlying physical phenomena (including mechanical behaviors, electrical and magnetic sources and interactions, light and optics, heat, relativity of space time, quantum mechanics, atomic and nuclear structure, solid state matter, etc). Many students who major in physics as undergraduates enter graduate schools for work leading to the M.S. or Ph.D. degrees. Others seek employment in a wide range of fields in government, business, and industry. Since current research, both pure and applied, involves interdisciplinary efforts, the broad training of physics with its stress on fundamentals proves to be a valuable experience.

CAREER RESOURCES

The UW Department of Physics encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

Career Resources:

- Why the liberal arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)
- L&S Career Services (<http://careers.ls.wisc.edu/students.htm>): We launch our students higher, sooner
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/about/lsci?p=careerinitiative.html>)

WISCONSIN EXPERIENCE

PHYSICS UNDERGRADUATE COLLOQUIUM

There is a weekly series of talks in the spring semester called "Physics Today," at which a topic of local research is described by one of the physics faculty. These are open and may be attended by anyone. They can also be taken as a course, PHYSICS 301 Physics Today. See the Course Guide for location and time.

THE PHYSICS CLUB

The University Physical Society (UPS)—also known as the Physics Club—is a student organization for people interested in physics and related fields.

WHAT DOES THE PHYSICS CLUB DO?

The Physics Club organizes events such as seminars, tours, trips, and socials for its members. Physics Club volunteers also offer free drop-in tutoring to students in introductory physics and astronomy classes. In addition, we maintain subscriptions to science related magazines such as *Scientific American*, *Astronomy*, and *Physics Today*, which are kept in the club's room located at 2328 Chamberlin Hall. Every Friday afternoon, we meet with the physics colloquium speaker to learn about the process of becoming a scientist. In addition, UPS sponsors a variety of other events.

For example, in the past, we have taken a field trip to Fermilab, sponsored a racquetball tournament, and have frequently gathered for social events such as ice skating, movie night, and bowling.

WHY SHOULD YOU JOIN THE PHYSICS CLUB?

By joining the Physics Club you'll be meeting many physics majors, who are, in general, really cool people to hang out with. If you are thinking about declaring a physics major, this is the place to come for helpful advice about taking classes and finding undergraduate job in the physics department. If you join, you can get access to the Physics Club room, 2328 Chamberlin Hall. Joining also adds you to the club email list, so you can be notified about club sponsored events.

PERKS OF BEING A PHYSICS CLUB MEMBER

When you join the Physics Club, you get access to an excellent room, 2328 Chamberlin Hall. This room contains a refrigerator, reference shelves of textbooks, couch, tables, and chairs, a phone, blackboards, and a microwave. We have several computers in the room. You can get your own key to the room and visit at your leisure, and stay as long as you like. Plus, you get the added bonus of knowing people who are in your classes.

University Physical Society

2328 Chamberlin Hall

ups.physics.wisc.edu

ups-officers@googlegroups.com

To Join:

Drop by Room 2328 Chamberlin Hall and pick up a membership form.

Turn in a completed form with your \$5 annual dues to a UPS club officer.

PHYSICS LEARNING CENTER

The Physics Learning Center: Striving to help all students succeed in Physics

- Do you enjoy Physics?
- Are you patient?
- Do you like to teach?
- Would you like to help other undergraduate students?

The Physics Learning Center (PLC) matches upper-level undergraduate students as tutor/mentors in small study groups with students studying introductory physics (algebra-based PHYSICS 103–PHYSICS 104 and calculus-based PHYSICS 207–PHYSICS 208). Physics Peer Mentor Tutors meet twice a week with the same small group of students to overview key concepts, choose and supervise practice problems, answer questions, and serve as a mentor. We strive to create a supportive learning environment to help students gain skills, increase confidence, and meet potential study partners.

Peer mentor tutors receive extensive training in teaching physics and in general pedagogy. Tutors meet with a PLC staff member each week to discuss strategies for teaching course content, including how to use teaching materials that stress conceptual understanding. In addition, tutors from all courses meet as a group for a weekly teaching seminar to discuss issues such as group dynamics, techniques for actively involving students in learning, helping students to prepare for exams, raising awareness of diversity in student experiences, resources on campus, and so on.

Our peer mentor tutors report that they greatly enjoy working with their students and in the process strengthen their own foundation in physics and presentation skills. They also tell us that teaching physics helps to review for the Graduate Record Exam and to prepare for postgraduate

teaching in middle/high school or as a university teaching assistant. Most tutors are upper-class students majoring in physics, astrophysics, secondary science education, and engineering. We also welcome students from other fields if they have a strong physics background. Students receive either independent study credit or a stipend for participation in the Physics Peer Mentor Tutor program. To apply, please submit a resume, your transcript (unofficial copy is fine), and a short statement about why you would like to be a physics peer mentor tutor (½–1 page).

RESOURCES AND SCHOLARSHIPS

STUDENT AWARDS

The Fay Ajzenberg-Selove Award is presented to undergraduate women majoring in physics, astronomy, or physics/astronomy for the purpose of encouraging women to continue their careers in science. Dr. Ajzenberg-Selove, who received her Ph.D. in physics in 1952, is currently a professor emerita the University of Pennsylvania.

The Dr. Maritza Irene Stapanian Crabtree Award in physics was established by William Crabtree to honor his wife, Dr. Maritza Crabtree, who graduated with a physics degree in 1971. This annual award benefits undergraduate students in physics based equally on merit and need. The Bernice Durand Undergraduate Research Scholarship was established by Vice Provost/Physics Professor Bernice Durand to promote meaningful undergraduate research opportunities and to support and encourage women and ethnic minorities as undergraduate majors in the departments of physics and astronomy.

The Henry and Eleanor Firminhac Physics Undergraduate Scholarship is given to undergraduates in physics with financial need as the primary consideration. Funding provided by Ralph Firminhac in honor of his parents.

The L. R. Ingersoll Prize is given for distinguished achievement in introductory physics. This prize is underwritten by a fund established by the family and friends of the late Professor Ingersoll, a distinguished physicist and teacher at the university who served as department chair for many years.

The Liebenberg Family Research Scholarship is for physics, AMEP (applied mathematics, engineering, and physics) or astronomy/physics majors. This scholarship opportunity was initiated by the Liebenberg family for the purpose of promoting undergraduate summer research opportunities.

The Albert Augustus Radtke Scholarship Award is given to outstanding junior or senior students majoring in physics or AMEP. This award was made possible by a bequest of the late Mrs. Elizabeth S. Radtke in honor of her husband, a 1900 degree recipient from UW–Madison.

For more information. Go to www.physics.wisc.edu/awards (<https://www.physics.wisc.edu/awards>) or contact info@physics.wisc.edu.

Application Process. The deadline for student application materials is March 15th. No late applications will be accepted.

To Apply. Please submit a statement of interest and how this award would help your education. If it is an award that is for financial need (Crabtree and Firminhac) you need to emphasize what the need is. If the award you are applying for also has a merit requirement, the department will run your transcript.

PHYSICS, CERTIFICATE

The department offers an undergraduate certificate in physics. An understanding of the physical universe informs many disciplines. The study of physics is essential to understanding nature and to advancing technology in the coming century. A certificate in physics increases the opportunities for students to become better informed on technological issues at the local, state, national, and international levels.

The certificate is designed to serve undergraduates majoring in biology, chemistry, mathematics, engineering, education and other fields who wish to extend their study of physics beyond what may be required or recommended for their major without completing the full L&S physics major requirements.

HOW TO GET IN

To declare a certificate in physics, the student must fill out a major/certificate declaration form. An undergraduate physics advisor must sign the form. The form to declare the certificate can be obtained at the Department of Physics office in 2320 Chamberlin Hall.

REQUIREMENTS

PHYSICS CERTIFICATE

1. All undergraduates and Special students are eligible (physics majors are not eligible).
2. The certificate will be awarded upon completion of requirements.
3. At least 9 of the credits must be in residence.
4. Only graded courses may be used toward the certificate.
5. A minimum grade point average of 2.000 is required for courses used toward the certificate.

REQUIREMENTS FOR THE CERTIFICATE

The physics certificate requires 18 credits of undergraduate PHYSICS courses numbered 200 and higher with the following restrictions:

Code	Title	Credits
Maximum 1 First Introductory Course		
Select one of the following:		5
PHYSICS 247	A Modern Introduction to Physics (recommended)	
PHYSICS 207	General Physics	
PHYSICS 201	General Physics	
E M A 201 & E M A 202	Statics and Dynamics ¹	

E M A 201 Statics
& M E 240 and Dynamics ¹

Maximum 1 Second Introductory Course

Select one of the following: 5

PHYSICS 248 A Modern Introduction to Physics
(recommended)

PHYSICS 208 General Physics

PHYSICS 202 General Physics

Maximum 1 Third Introductory Course

Select one of the following: 5

PHYSICS 249 A Modern Introduction to Physics
(recommended)

PHYSICS 205 Modern Physics for Engineers

PHYSICS/
E C E 235 Introduction to Solid State
Electronics

PHYSICS 241 Introduction to Modern Physics

PHYSICS 244 Modern Physics (Primarily for ECE
Majors)

Maximum 3 credits of PHYSICS Directed Study

Select one of the following: 3

PHYSICS 298 Directed Study

PHYSICS 299 Directed Study

PHYSICS 498 Directed Study

PHYSICS 499 Directed Study

Total Credits 18

¹ A maximum of 5 credits from E M A 201 Statics, E M A 202 Dynamics and M E 240 Dynamics count toward the 18 required.

Notes:

Students may not transfer into the PHYSICS 247–PHYSICS 248–PHYSICS 249 sequence from another introductory sequence.

No more than 3 credits of independent study and no special topics courses may be used to satisfy this requirement.

POLITICAL SCIENCE

There are many definitions of political science. But whether a definition focuses on the analysis of governmental structures, or influences on voter choice, or the relationship between national governments, or the best form of government, at base, political science is about the systematic study of power. Whether power is exercised formally, as is the case between government and the individual, or informally, as is the case between individuals, it is the systematic study of power relationships that provides the subject matter for the discipline. Majors in political science obtain not only an understanding of the workings of government, but they also develop important skills in critical thinking and analysis. These skills make them ideal candidates for careers in law; in government at the state, national, and international levels; in business; in journalism; and in politics.

DEGREES/MAJORS/CERTIFICATES

- Political Economy, Philosophy, and Politics, Certificate (p. 1074)
- Political Science, B.A. (p. 1076)
- Political Science, B.S. (p. 1081)

PEOPLE

Professors Burden, Canon, Cramer, Gehlbach, Hendley, Herrera, Marquez, Martin, Mayer, Pevehouse, Schatzberg, Schweber, Shafer, Straus, Tripp, Weimer, Yackee, Zumbrunnen

Associate Professors Ahlquist, Avramenko, Copelovitch, Ewig, Kapust, Kinsella, Kydd, Owens, Ringe, Shelef

Assistant Professors Bhavnani, Lindsay, Lupu, Powell, Renshon, Simmons, Tahk, Weeks

For appointments, see schedule an advising appointment (<http://www.polisci.wisc.edu/undergrad/scheduling-advising-appointment>) on the Political Science Major page on the department website.

POLITICAL ECONOMY, PHILOSOPHY, AND POLITICS, CERTIFICATE

Why enroll in the political economy, philosophy, and politics certificate?

The political economy, philosophy, and politics (PEPP) certificate is rooted in a core insight: social, economic, and political problems have ethical, political, and economic dimensions. While the first program (politics, philosophy, and economics, or PPE) formally combining these three approaches was created at Oxford University in 1920, it drew on a tradition of inquiry that brought the three perspectives together. Since its creation at Oxford, similar programs have been created at a wide range of the world's leading universities.

If we move from the insight behind the program to what it means in practice, we can see that understanding, for example, immigration requires understanding it from political, economic, and ethical perspectives. In short, understanding the pressing political, economic, or philosophical problems of the day entails seeing them from a perspective that brings together all three disciplines. As a result, the PEPP curriculum

brings together faculty and coursework from three different academic departments: Economics, Philosophy, and Political Science. This cross-disciplinary curriculum is important not just for intellectual development, but also for fostering the habits of mind central to democratic citizenship.

Students who enroll in the PEPP certificate will thus take coursework from political science, economics, and philosophy, and the certificate program will culminate in a small-enrollment, research- and writing-oriented capstone seminar, POLI SCI 461. Combining breadth across the three disciplines with depth within two of the three, the PEPP certificate is a rigorous and exciting opportunity for cross-disciplinary study.

HOW TO GET IN

Acceptance of applications for the certificate program will begin in fall 2017. Declaration is easy; declare with our online form (<https://polisci.wisc.edu/undergrad/declare-pepp-certificate>).

REQUIREMENTS

Code	Title	Credits
Certificate Requirements		
	Core Breadth	12
	Elective Depth	3
	Capstone Seminar	3
	Total Credits	18

CORE BREADTH COURSES

Take one course from each of the following four subject areas for a total of 12 credits:

Economics

Code	Title	Credits
ECON 330	Money and Banking	4
ECON 435	The Financial System	3
ECON 464	International Trade and Finance	3-4
ECON/HISTORY 465	The American Economy to 1865	3-4
ECON/HISTORY 466	The American Economy Since 1865	3-4

Philosophy

Code	Title	Credits
PHILOS/ECON 524	Philosophy and Economics ¹	3
PHILOS 541	Modern Ethical Theories	3
PHILOS 549	Great Moral Philosophers	3
PHILOS 555	Political Philosophy	3
PHILOS 559	Philosophy of Law	3

¹ Although PHILOS/ECON 524 is cross-listed with Economics, it will count only as a Philosophy course.

Political Science: Political Theory

Code	Title	Credits
POLI SCI 266	The Development of Modern Western Political Thought	3-4
POLI SCI 360	History of American Political Thought	3-4

POLI SCI 361	Contemporary American Political Thought	3-4
POLI SCI 363	Literature and Politics	3-4
POLI SCI 411	The American Constitution : Powers and Structures of Government	4
POLI SCI 463	Deception and Politics	4

Political Science: Institutions and Political Economy

Code	Title	Credits
POLI SCI 274	Political Choice and Strategy	3-4
POLI SCI 330	Political Economy of Development	3
POLI SCI 340	The European Union: Politics and Political Economy	3-4
POLI SCI 350	International Political Economy	3-4
POLI SCI 356	Principles of International Law	3-4

ELECTIVE DEPTH COURSE

Take one (1) additional course (3 credits) from the list of courses above in **either** Economics (p. 1075) **or** Philosophy (p. 1075).

CAPSTONE SEMINAR

Take POLI SCI 461 Interdisciplinary Seminar in Political Economy, Philosophy, & Politics for 3 credits.

RESIDENCY AND QUALITY OF WORK

- 2.000 GPA in all courses eligible for the certificate
- 9 credits in residence

Courses taken on a pass/fail basis are not eligible to meet requirements in this program.

LEARNING OUTCOMES

Student Learning Goals

1. Knowing key concepts and arguments from economics, philosophy, and political science.
2. Synthesizing arguments, concepts, and methods from philosophy, politics, and economics.
3. Applying arguments, concepts, and methods from philosophy, politics, and economics to contemporary policy debates.

Advising: Ricardo Court, Director of Undergraduate Studies, Political Science

POLITICAL SCIENCE, B.A.

WHY STUDY POLITICAL SCIENCE?

Politics have been put under scrutiny in a systematic way since the ancient Greeks. Aristotle even called it the *Queen of the Sciences*. Our own Constitution is the product of both the scholarly study of political theory and a practical framework for political institutions and norms. Our faculty in the Department of Political Science engage politics in a scientific and rigorous way to understand human behavior and world events. Study political science to prepare yourself for a career in campaigns, public policy, business, administration, political advocacy, or public service, but also to become an informed and active citizen.

Political science is a broad and rich discipline. Some of our faculty members conduct research on the psychology of why people behave the way they do politically. Others study institutions such as legislatures, courts, and bureaucracies both as organizations and as political actors themselves. Other faculty members seek to clarify recent constitutional and legal issues. Many study foreign political systems to learn the peculiarities of different political systems comparing them regionally and globally. Our political theorists are intellectual historians and social critics interested in the millennia-long quest for the good society. Still others are policy analysts and dedicated students of American politics. Many are statistical theorists and specialists in surveying political attitudes. Our comparative and international relations experts investigate the causes of war and the conditions for peace among nations.

Political science majors are comfortable at the intersection of the humanities and the sciences. Poli Sci majors can apply rigor to problems *and* they can articulate solutions with clarity and with an analytical command of data. Poli Sci graduates move into a wide spectrum of positions that demand well-honed writing and presentation skills. Poli Sci graduates can apply reason and rigor to problems that are often consumed by ideology and emotion. Other disciplines may also stress rigor, but Political Science will keep you honest. The ability to define a problem and contribute to its solution while placing it within political,

social, and cultural realities is a rare skill indeed, with applications well beyond the narrow confines of political work. The wide range of intellectual, analytical, qualitative, and quantitative skills, and a broad knowledge of world events that Poli Sci majors develop form the cornerstone of a powerful liberal arts education.

WHAT CAREERS DO POLITICAL SCIENCE MAJORS PURSUE?

Poli Sci majors learn quickly, work well in teams, and have basic understanding of the policy process and the operations of government. Poli Sci majors understand that for every endeavor, no matter how important, there is a mountain of ordinary grunt work that has to be done. Poli Sci majors can be counted on to do the foot-work, put in the face-time, and endure the slog necessary of everything of consequence.

Poli Sci majors go on to work in all levels of government. Local and state governments have a direct impact on the quality of life of all Americans. Courses on state and urban government, public policy, administrative law, and public administration are especially valuable. Quantitative and statistical skills developed in these courses and applied in the internships many of our students do provide a powerful combination.

Poli Sci majors go on to work in a wide range of International careers, in business, Foreign Service, and non-governmental organizations. Political Science offers a wide variety of courses in comparative politics, international relations and organizations, public policy, political development, and interest group politics. These courses in combination with economics, statistics, computer science, and international trade.

Poli Sci majors pursue careers in campaign management, political polling, national political committees, and consulting. They will have taken multiple courses in the American political system, comparative political parties, elections, public opinion, and voting behavior; as well as committing themselves to developing their writing and data analysis. There are over half a million campaigns in the United States annually, and while entry level jobs have long hours, low pay, and enormous demands, they are places where you can 'cut your political teeth'. Local campaigns lead to statewide or national campaigns, and then perhaps to consulting and polling if that strikes your interest.

Poli Sci majors have also traditionally gone into law. Some lawyers are litigators while others are employed by corporations, government, and other organizations. Political Science track fits nicely for students seeking law degrees as official credentials to 'practice law' and those students who seek a law degree as an additional 'tool' to make positive impacts in their professional areas of interest. Some individuals with legal training work in other areas such as corporate or public management. The department offers a wide variety of political theory, constitutional law, and public policy courses that will help you explore the interaction between law, politics, and society.

HOW TO GET IN

Students in the College of Letters & Science can declare political science as their major by filling out a form on the political science department's website. After a first meeting with an academic advisor that declaration will be made official. Students in other schools and colleges on campus should make an appointment with an advisor and obtain a signed declaration form to take to their prospective college or school for approval.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	<ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
-------------	--

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall
Minimum GPAs	30 credits in residence after the 90th credit
	2.000 in all coursework at UW–Madison
	2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

A minimum of **30 credits** is required for the major.

Code	Title	Credits
Select one course in three of the following subfields:		9-12
	International Relations	
	American Government	
	Political Theory	
	Comparative Politics	
Select at least one research methods course from the following:		3-4
POLI SCI 170	Research Methods in Political Science	
POLI SCI 270	Understanding Political Numbers	
POLI SCI 272	Introduction to Public Policy	
POLI SCI 348	Analysis of International Relations	
POLI SCI/JOURN/URB R PL 373	Introduction to Survey Research	
POLI SCI 374	Introduction to Statistical Inference for Political Research	

Additional credits in POLI SCI to reach 30 credit minimum for the Major ¹

¹ No more than 6 credits of Directed Study (POLI SCI 199 Directed Study, POLI SCI 698 Directed Study, POLI SCI 699 Directed Study) and/or Internship (POLI SCI 315 Legislative Internship, POLI SCI 303 Election Campaign Practicum) may be counted toward the major. Note: After the sixth week of class, students adding a Directed Study must obtain permission from the department chair.

NOTES

Courses listed in two groups may be counted in either, but not both, groups. Students must have a grade of at least C in at least one course in each group.

Note that courses at the 300–600 level are generally comparable in difficulty. The 300-level courses are generally international relations; 400-level courses are American politics (with the exception of POLI SCI 400 Topics in Political Science and POLI SCI 401 Selected Topics in Political Science Topics courses); 500-level courses are political theory; and 600-level courses below 680 are comparative politics.

POLI SCI 400 and POLI SCI 401 Topics courses can be used to satisfy the distribution requirements as appropriate. Distribution requirements met by a specific topics course will be announced prior to enrollment.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all POLI SCI courses and courses that count toward the major

2.000 GPA on 15 upper-level credits in the major, taken in residence¹

15 credits in POLI SCI, taken on campus

¹ POLI SCI courses numbered 300 and higher that are designated as intermediate or advanced count as upper level in the major.

DISTINCTION IN THE MAJOR IN POLITICAL SCIENCE

Students who are not enrolled in the honors program may be awarded *Distinction in Political Science*. To receive Distinction students must have:

- 3.700 GPA or higher on all POLI SCI courses and courses that count toward the major
- A minimum university GPA of 3.000
- Completed at least 20 credits of upper-level work in the major, taken in residence (POLI SCI courses numbered 300 and higher).
- Completed at least one of the following: senior thesis (POLI SCI 691 Senior Thesis-POLI SCI 692 Senior Thesis); POLI SCI 601 Proseminar; Topics in Political Science; other “advanced level” coursework (see

a political science advisor for details); or submit a letter from an instructor describing "substantial additional work" in an advanced political science course.

Students qualifying for *Distinction in Political Science* will be informed as they graduate.

HONORS IN THE MAJOR

Students may declare Honors in the Political Science Major in consultation with the Political Science major advisors. To be admitted to the Honors Program in Political Science, students must have declared a major in political science, complete or be enrolled in at least one POLI SCI course with an Honors component, and have a 3.300 overall university GPA.

To earn a B.A. or B.S. with Honors in the Major in Political Science students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn 3.500 GPA for all POLI SCI courses, and all courses accepted in the major
- Complete at least 20 credits POLI SCI or other courses accepted in the major for Honors, to include:
 - POLI SCI 601 Political Science Proseminar, POLI SCI 685 Honors Research Internship in Political Science, or other advanced-level coursework with permission of the undergraduate political science advisor and the consent of the instructor
 - A two-semester Senior Honors Thesis in POLI SCI 683 and POLI SCI 684, for a total of 6 credits

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop an understanding of and appreciation for the methods and approaches of diverse subfields in Political Science—American Politics, Comparative Politics, International Relations, and Political

Theory—and their relevance to important theoretical and pragmatic questions.

2. Analyze different forms and practices of governance both democratic and non-democratic.
3. Argue effectively and defend propositions with intellectual integrity, while considering a range of alternative points of view and evidence.
4. Analyze relations among individuals, civil society, political institutions, and states.
5. Analyze the motivations and consequences of political decision-making and activities.

ADVISING AND CAREERS

ADVISING

The Department of Political Science has two academic advisors and one career advisor who are available to meet with you to offer guidance on:

- Course selection
- Program planning
- Internships opportunities
- Study abroad programs
- Post-college plans
- Career prospects
- Scholarship opportunities
- Student research interests
- Transfer and study abroad credits

Advisors are available for 30-minute appointments and are available for walk-in advising Mondays from 9 a.m. to 12 noon and Thursdays from 1 to 4 p.m. each week during the academic year. **Please note that no advising appointments are scheduled via email.** Information about scheduling appointments can be found here (<http://polisci.wisc.edu/undergrad/scheduling-advising-appointment>).

ENROLLMENT INFORMATION

Political science majors who wish to enroll in the following course(s) must obtain prior consent/authorization:

- Directed Study (note that after the sixth week of class students adding a Directed Study must obtain permission from the department chair)
- Thesis
- Proseminars (varies by specific course; check footnotes in the class schedule)
- Specific Topic
- Honors Research Internship
- Other advanced-level coursework with permission of the undergraduate advisor and consent of the instructor in lieu of other required courses

Information and course descriptions for topics courses (POLI SCI 201, POLI SCI 400, POLI SCI 401) and proseminars (POLI SCI 601, POLI SCI 601, POLI SCI 601) are posted on the department website prior to each enrollment period. POLI SCI 315 Legislative Internship is available by application only. Specific deadlines will be announced each semester. For further information, see Internships on the department website. Students with a classification making them ineligible for certain courses due to retroactive or AP credits may see the instructor for possible

permission to enroll on a space available basis. Students who wish to enroll in a course that is closed may use the online wait list available through the Student Center in MyUW. The number of credits for variable credit courses is determined by course format and contact periods for a specific semester as noted in the class schedule. For graduate programs, see the Graduate section of this Guide.

HONORS IN POLITICAL SCIENCE

Honors in the Major in Political Science is intended for students who are eager to experience the excitement of original research and who wish to graduate with the best possible undergraduate training in the discipline. Honors in the Major is especially appropriate for students who are considering graduate work in political science or who want an especially rigorous training in research, reasoning, and writing skills. Students should consult with the department advisor to determine the best way to fulfill Honors requirements and how to make the most out of the Honors in the Major experience in the field.

See the Requirements section for political science Honors in the Major requirements.

Proactive planning and frequent collaboration with majors advisors is key to successfully completing Honors in the Major. It is recommended that students complete the Proseminar or Honors Research Internship in their junior year.

Students should secure a faculty thesis advisor by the end of their junior year; successful theses normally include planning activities during the junior year. Students should enroll for the Honors Thesis Colloquium, POLI SCI 683 in the Fall and POLI SCI 684 in the Spring. Students must be making sufficient progress in POLI SCI 683 to be admitted into POLI SCI 684; Students not making sufficient progress will not be admitted into POLI SCI 684, and will consequently not complete Honors in Political Science. Rarely, students may enroll in the independent honors thesis, POLI SCI 681 in the Fall and POLI SCI 682 with the permission of the Political Science advisor and the supervising faculty thesis advisor. Likewise, students must be making sufficient progress in POLI SCI 681 to be admitted into POLI SCI 682; Students not making sufficient progress will not be admitted into POLI SCI 682, and will consequently not complete Honors in Political Science.

CAREER ADVISING

Students can find information about meeting with the career and internship advisor here (<http://polisci.wisc.edu/undergrad/scheduling-advising-appointment>).

PEOPLE

Professors Burden, Canon, Cramer, Gehlbach, Hendley, Herrera, Marquez, Martin, Mayer, Pevehouse, Schatzberg, Schweber, Shafer, Straus, Tripp, Weimer, Yackee, Zumbrennen

Associate Professors Ahlquist, Avramenko, Copelovitch, Ewig, Kapust, Kinsella, Kydd, Owens, Ringe, Shelef

Assistant Professors Bhavnani, Lindsay, Lupu, Powell, Renshon, Simmons, Tahk, Weeks

For appointments, see schedule an advising appointment (<http://www.polisci.wisc.edu/undergrad/scheduling-advising-appointment>) on the Political Science Major page on the department website.

POLITICAL SCIENCE, B.S.

WHY STUDY POLITICAL SCIENCE?

Politics have been put under scrutiny in a systematic way since the ancient Greeks. Aristotle even called it the *Queen of the Sciences*. Our own Constitution is the product of both the scholarly study of political theory and a practical framework for political institutions and norms. Our faculty in the Department of Political Science engage politics in a scientific and rigorous way to understand human behavior and world events. Study political science to prepare yourself for a career in campaigns, public policy, business, administration, political advocacy, or public service, but also to become an informed and active citizen.

Political science is a broad and rich discipline. Some of our faculty members conduct research on the psychology of why people behave the way they do politically. Others study institutions such as legislatures, courts, and bureaucracies both as organizations and as political actors themselves. Other faculty members seek to clarify recent constitutional and legal issues. Many study foreign political systems to learn the peculiarities of different political systems comparing them regionally and globally. Our political theorists are intellectual historians and social critics interested in the millennia-long quest for the good society. Still others are policy analysts and dedicated students of American politics. Many are statistical theorists and specialists in surveying political attitudes. Our comparative and international relations experts investigate the causes of war and the conditions for peace among nations.

Political science majors are comfortable at the intersection of the humanities and the sciences. Poli Sci majors can apply rigor to problems *and* they can articulate solutions with clarity and with an analytical command of data. Poli Sci graduates move into a wide spectrum of positions that demand well-honed writing and presentation skills. Poli Sci graduates can apply reason and rigor to problems that are often consumed by ideology and emotion. Other disciplines may also stress rigor, but Political Science will keep you honest. The ability to define a problem and contribute to its solution while placing it within political, social, and cultural realities is a rare skill indeed, with applications well beyond the narrow confines of political work. The wide range of intellectual, analytical, qualitative, and quantitative skills, and a broad knowledge of world events that Poli Sci majors develop form the cornerstone of a powerful liberal arts education.

WHAT CAREERS DO POLITICAL SCIENCE MAJORS PURSUE?

Poli Sci majors learn quickly, work well in teams, and have basic understanding of the policy process and the operations of government. Poli Sci majors understand that for every endeavor, no matter how important, there is a mountain of ordinary grunt work that has to be done. Poli Sci majors can be counted on to do the foot-work, put in the face-time, and endure the slog necessary of everything of consequence.

Poli Sci majors go on to work in all levels of government. Local and state governments have a direct impact on the quality of life of all Americans. Courses on state and urban government, public policy, administrative law, and public administration are especially valuable. Quantitative and statistical skills developed in these courses and applied in the internships many of our students do provide a powerful combination.

Poli Sci majors go on to work in a wide range of International careers, in business, Foreign Service, and non-governmental organizations.

Political Science offers a wide variety of courses in comparative politics, international relations and organizations, public policy, political development, and interest group politics. These courses in combination with economics, statistics, computer science, and international trade.

Poli Sci majors pursue careers in campaign management, political polling, national political committees, and consulting. They will have taken multiple courses in the American political system, comparative political parties, elections, public opinion, and voting behavior; as well as committing themselves to developing their writing and data analysis. There are over half a million campaigns in the United States annually, and while entry level jobs have long hours, low pay, and enormous demands, they are places where you can 'cut your political teeth'. Local campaigns lead to statewide or national campaigns, and then perhaps to consulting and polling if that strikes your interest.

Poli Sci majors have also traditionally gone into law. Some lawyers are litigators while others are employed by corporations, government, and other organizations. Political Science track fits nicely for students seeking law degrees as official credentials to 'practice law' and those students who seek a law degree as an additional 'tool' to make positive impacts in their professional areas of interest. Some individuals with legal training work in other areas such as corporate or public management. The department offers a wide variety of political theory, constitutional law, and public policy courses that will help you explore the interaction between law, politics, and society.

HOW TO GET IN

Students in the College of Letters & Science can declare political science as their major by filling out a form on the political science department's website. After a first meeting with an academic advisor that declaration will be made official. Students in other schools and colleges on campus should make an appointment with an advisor and obtain a signed declaration form to take to their prospective college or school for approval.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

A minimum of **30 credits** is required for the major.

Code	Title	Credits
Select one course in three of the following subfields:		9-12
	International Relations	
	American Government	
	Political Theory	
	Comparative Politics	
Select at least one research methods course from the following:		3-4
POLI SCI 170	Research Methods in Political Science	
POLI SCI 270	Understanding Political Numbers

NOTES

Courses listed in two groups may be counted in either, but not both, groups. Students must have a grade of at least C in at least one course in each group.

Note that courses at the 300–600 level are generally comparable in difficulty. The 300-level courses are generally international relations; 400-level courses are American politics (with the exception of POLI SCI 400 Topics in Political Science and POLI SCI 401 Selected Topics in Political Science Topics courses); 500-level courses are political theory; and 600-level courses below 680 are comparative politics.

POLI SCI 400 and POLI SCI 401 Topics courses can be used to satisfy the distribution requirements as appropriate. Distribution requirements met by a specific topics course will be announced prior to enrollment.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all POLI SCI courses and courses that count toward the major

2.000 GPA on 15 upper-level credits in the major, taken in residence¹

15 credits in POLI SCI, taken on campus

¹ POLI SCI courses numbered 300 and higher that are designated as intermediate or advanced count as upper level in the major.

DISTINCTION IN THE MAJOR IN POLITICAL SCIENCE

Students who are not enrolled in the honors program may be awarded *Distinction in Political Science*. To receive Distinction students must have:

- 3.700 GPA or higher on all POLI SCI courses and courses that count toward the major
- A minimum university GPA of 3.000
- Completed at least 20 credits of upper-level work in the major, taken in residence (POLI SCI courses numbered 300 and higher).
- Completed at least one of the following: senior thesis (POLI SCI 691 Senior Thesis-POLI SCI 692 Senior Thesis); POLI SCI 601 Proseminar; Topics in Political Science; other “advanced level” coursework (see a political science advisor for details); or submit a letter from an instructor describing “substantial additional work” in an advanced political science course.

Students qualifying for *Distinction in Political Science* will be informed as they graduate.

HONORS IN THE MAJOR

Students may declare Honors in the Political Science Major in consultation with the Political Science major advisors. To be admitted to the Honors Program in Political Science, students must have declared a major in political science, complete or be enrolled in at least one POLI SCI course with an Honors component, and have a 3.300 overall university GPA.

To earn a B.A. or B.S. with Honors in the Major in Political Science students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn 3.500 GPA for all POLI SCI courses, and all courses accepted in the major

- Complete at least 20 credits POLI SCI or other courses accepted in the major for Honors, to include:
 - POLI SCI 601 Political Science Proseminar, POLI SCI 685 Honors Research Internship in Political Science, or other advanced-level coursework with permission of the undergraduate political science advisor and the consent of the instructor
 - A two-semester Senior Honors Thesis in POLI SCI 683 and POLI SCI 684, for a total of 6 credits

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. “In residence” means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop an understanding of and appreciation for the methods and approaches of diverse subfields in Political Science—#American Politics, Comparative Politics, International Relations, and Political Theory—#and their relevance to important theoretical and pragmatic questions.
2. Analyze different forms and practices of governance both democratic and non#democratic.
3. Argue effectively and defend propositions with intellectual integrity, while considering a range of alternative points of view and evidence.
4. Analyze relations among individuals, civil society, political institutions, and states.
5. Analyze the motivations and consequences of political decision#making and activities.

ADVISING AND CAREERS

ADVISING

The Department of Political Science has two academic advisors and one career advisor who are available to meet with you to offer guidance on:

- Course selection
- Program planning
- Internships opportunities
- Study abroad programs

- Post-college plans
- Career prospects
- Scholarship opportunities
- Student research interests
- Transfer and study abroad credits

Advisors are available for 30-minute appointments and are available for walk-in advising Mondays from 9 a.m. to 12 noon and Thursdays from 1 to 4 p.m. each week during the academic year. **Please note that no advising appointments are scheduled via email.** Information about scheduling appointments can be found here (<http://polisci.wisc.edu/undergrad/scheduling-advising-appointment>).

ENROLLMENT INFORMATION

Political science majors who wish to enroll in the following course(s) must obtain prior consent/authorization:

- Directed Study (note that after the sixth week of class students adding a Directed Study must obtain permission from the department chair)
- Thesis
- Proseminars (varies by specific course; check footnotes in the class schedule)
- Specific Topic
- Honors Research Internship
- Other advanced-level coursework with permission of the undergraduate advisor and consent of the instructor in lieu of other required courses

Information and course descriptions for topics courses (POLI SCI 201, POLI SCI 400, POLI SCI 401) and proseminars (POLI SCI 601, POLI SCI 601, POLI SCI 601) are posted on the department website prior to each enrollment period. POLI SCI 315 Legislative Internship is available by application only. Specific deadlines will be announced each semester. For further information, see Internships on the department website. Students with a classification making them ineligible for certain courses due to retroactive or AP credits may see the instructor for possible permission to enroll on a space available basis. Students who wish to enroll in a course that is closed may use the online wait list available through the Student Center in MyUW. The number of credits for variable credit courses is determined by course format and contact periods for a specific semester as noted in the class schedule. For graduate programs, see the Graduate section of this Guide.

HONORS IN POLITICAL SCIENCE

Honors in the Major in Political Science is intended for students who are eager to experience the excitement of original research and who wish to graduate with the best possible undergraduate training in the discipline. Honors in the Major is especially appropriate for students who are considering graduate work in political science or who want an especially rigorous training in research, reasoning, and writing skills. Students should consult with the department advisor to determine the best way to fulfill Honors requirements and how to make the most out of the Honors in the Major experience in the field.

See the Requirements section for political science Honors in the Major requirements.

Proactive planning and frequent collaboration with majors advisors is key to successfully completing Honors in the Major. It is recommended that

students complete the Proseminar or Honors Research Internship in their junior year.

Students should secure a faculty thesis advisor by the end of their junior year; successful theses normally include planning activities during the junior year. Students should enroll for the Honors Thesis Colloquium, POLI SCI 683 in the Fall and POLI SCI 684 in the Spring. Students must be making sufficient progress in POLI SCI 683 to be admitted into POLI SCI 684; Students not making sufficient progress will not be admitted into POLI SCI 684, and will consequently not complete Honors in Political Science. Rarely, students may enroll in the independent honors thesis, POLI SCI 681 in the Fall and POLI SCI 682 with the permission of the Political Science advisor and the supervising faculty thesis advisor. Likewise, students must be making sufficient progress in POLI SCI 681 to be admitted into POLI SCI 682; Students not making sufficient progress will not be admitted into POLI SCI 682, and will consequently not complete Honors in Political Science.

CAREER ADVISING

Students can find information about meeting with the career and internship advisor here (<http://polisci.wisc.edu/undergrad/scheduling-advising-appointment>).

PEOPLE

Professors Burden, Canon, Cramer, Gehlbach, Hendley, Herrera, Marquez, Martin, Mayer, Pevehouse, Schatzberg, Schweber, Shafer, Straus, Tripp, Weimer, Yackee, Zumbrunnen

Associate Professors Ahlquist, Avramenko, Copelovitch, Ewig, Kapust, Kinsella, Kydd, Owens, Ringe, Sheref

Assistant Professors Bhavnani, Lindsay, Lupu, Powell, Renshon, Simmons, Tahk, Weeks

For appointments, see schedule an advising appointment (<http://www.polisci.wisc.edu/undergrad/scheduling-advising-appointment>) on the Political Science Major page on the department website.

PSYCHOLOGY

The psychology major is the largest major in the College of Letters & Science, focusing on five areas in the field of psychological science: biological, clinical, cognitive and cognitive neuroscience, developmental, and social and personality.

The mission of the undergraduate program in psychology is to provide students with opportunities to:

- learn about the multiple content areas of scientific psychology
- develop the ability to think critically and quantitatively
- enhance written and oral communication skills
- prepare for the most rigorous graduate and professional programs
- apply the science of psychology to the well-being of citizens of Wisconsin and the global community

Some students will go to graduate school and become the next generation of psychological scientists and educators who will create and disseminate new knowledge. Others will choose careers in other areas, including but not limited to business, medicine, law, education, and counseling. Through its strong interdisciplinary connections with

the natural sciences, social sciences, humanities, and medical sciences, scientific psychology is positioned well to influence critical issues for society. Because all courses in psychology emphasize critical thinking and the analysis of research, the undergraduate program prepares students to take on the challenges of and fully participate in an increasingly complex, multicultural world.

DEGREES/MAJORS/CERTIFICATES

- Psychology, B.A. (p. 1087)
- Psychology, B.S. (p. 1090)

PEOPLE

Professors Goldsmith (chair), Abramson, Alibali, Auger, Berridge, Brauer, Coe, Curtin, Davidson, Devine, Gernsbacher, Goldsmith, Gooding, Harackiewicz, Hyde, Jenison, MacDonald, Marler, Niedenthal, Pollak, Postle, Rogers, Rosengren, Ryff, Saffran, Seidenberg, Snowdon

Associate Professors Bennett, Lupyan, Miyamoto, Rokers, Shutts

Assistant Professors Austerweil, Green, Li, Saalman, Schloss, Simmering

PSYCHOLOGY, B.A.

The psychology major is the largest major in the College of Letters & Science, focusing on five areas in the field of psychological science: biological, clinical, cognitive and cognitive neuroscience, developmental, and social and personality.

The mission of the undergraduate program in psychology is to provide students with opportunities to:

Because all courses in psychology emphasize critical thinking and the analysis of research, the undergraduate program prepares students to take on the challenges of and fully participate in an increasingly complex, multicultural world.

HOW TO GET IN

To declare the psychology major, a student must successfully complete PSYCH 202 Introduction to Psychology (or equivalent) with a grade of C or better and schedule an appointment ([http://](http://psych.wisc.edu/undergraduate-schedule-an-appointment.htm)

psych.wisc.edu/undergraduate-schedule-an-appointment.htm) with an advisor.

- ¹ Equivalents include a score of 4 or higher on the IB Psychology exam or a score of 4 or 5 on the AP Psychology exam.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
-------------	--

Foreign Language	<ul style="list-style-type: none"> Complete the fourth unit of a foreign language; OR Complete the third unit of a foreign language and the second unit of an additional foreign language
------------------	---

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
-------------	--

Liberal Arts and Science Coursework	108 credits
-------------------------------------	-------------

Depth of Intermediate/Advanced work	60 intermediate or advanced credits
-------------------------------------	-------------------------------------

Major	Declare and complete at least one (1) major
-------	---

Total Credits	120 credits
---------------	-------------

UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
-----------------------	---

Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison
--------------	--

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR

The major requires 33 credits in PSYCH and completion of these four learning areas:

FOUNDATION

Foundation courses provide a grounding in basic psychological facts and an understanding of the methodologies used to produce those facts. **Four courses are required** with grades of C or better in each category.

Code	Title	Credits
Introductory Psychology—one course: ¹		
PSYCH 202	Introduction to Psychology	3-4
Statistics—one course:		
PSYCH 210	Basic Statistics for Psychology ¹	3-4
PSYCH 280	Honors Basic Statistics for Psychology (with a grade of B or better to earn honors)	
SOC/ C&E SOC 360	Statistics for Sociologists I	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Research Methods—one course:		
PSYCH 225	Research Methods	4
Introductory Biology—one course: ²		
		3-5

ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102	Animal Biology and Animal Biology Laboratory	
ZOOLOGY/ BIOLOGY/ BOTANY 151	Introductory Biology	
BIOCORE 381 & BIOCORE 384	Evolution, Ecology, and Genetics and Cellular Biology Laboratory	
Total Credits		13-17

¹ A score of 4 or higher on the IB Psychology exam or a score of 4 or 5 on the AP Psychology exam.

² A score of 4 or better on the IB Biology exam, or a score of 4 or 5 on the AP Biology exam will satisfy the Introductory Biology requirement.

BREADTH

Breadth courses familiarize students with the breadth of psychology.

Three (3) courses from at least **three** different topic groups are required:

Biological

Code	Title	Credits
PSYCH 449	Animal Behavior	3
PSYCH 450	Primates and Us: Insights into Human Biology and Behavior	3
PSYCH 454	Behavioral Neuroscience	3
PSYCH/ ZOOLOGY 523	Neurobiology	3

Clinical

Code	Title	Credits
PSYCH 311	Issues in Psychology (Topic: Psychology Law and Social Policies)	1-4
PSYCH 405	Abnormal Psychology	3-4

Cognitive and Perceptual Sciences

Code	Title	Credits
PSYCH 406	Psychology of Perception	3-4
PSYCH 413	Language, Mind, and Brain	3
PSYCH 414	Cognitive Psychology	3

Developmental

Code	Title	Credits
PSYCH/SOC 453	Human Sexuality	4
PSYCH 460	Child Development	3-4
PSYCH 464	Adult Development and Aging	3

Social and Personality

Code	Title	Credits
PSYCH 403	Psychology of Personality	3
PSYCH/SOC 456	Introductory Social Psychology	3-4
PSYCH/ GEN&WS 522	Psychology of Women and Gender	3
PSYCH 428	Introduction to Cultural Psychology	3-4

DEPTH

Depth courses allow students to engage in depth with material in specific content areas in psychology. Depth courses include both a lecture component and a required discussion/lab section for all students, and they help students develop a deeper understanding of particular areas of psychology. Each depth course has a prerequisite of one relevant breadth course; please check each course for possible prerequisites. **Two courses** are required:

Code	Title	Credits
PSYCH 501	Depth Topic in Social Science (multiple separate topics offered each semester)	4
PSYCH 502	Cognitive Development	4
PSYCH 503	Social Development	4
PSYCH 508	Psychology of Human Emotions: From Biology to Culture	4
PSYCH 520	How We Read: The Science of Reading and Its Educational Implications	4
PSYCH 521	The Structure of Human Thought: Concepts, Language and Culture	4
PSYCH 526	The Criminal Mind: Forensic and Psychobiological Perspectives	4
PSYCH 532	Psychological Effects of the Internet	4

CAPSTONE

Capstone courses allow students to engage in depth with particular content areas in psychology in a seminar setting. **One course** is required:

Code	Title	Credits
PSYCH 601	Current Topics in Psychology (many separate topics each semester)	3
PSYCH 602	Intermediate Statistics for Psychology	3
PSYCH 607	Introduction to Clinical Psychology	3
PSYCH 610	Statistical Analysis of Psychological Experiments	3

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all PSYCH and major courses

2.000 GPA on 15 upper-level major credits, taken in residence²

15 credits in PSYCH, taken on the UW–Madison campus

² PSYCH 300–699 are upper level in the major.

HONORS IN THE MAJOR

Students may apply for Honors in the Psychology Major in consultation with the psychology undergraduate advisor(s). Decisions on admission to the Honors in the Major in Psychology program are made once per year, in February, by a committee of psychology faculty. Overall, criteria emphasize demonstrated ability and commitment to becoming a first-rate scholar. Performance in coursework at the university, particularly Honors courses in psychology and related fields, is among the criteria for admission. Consistent with the philosophy that there is more to honors scholarship than distinguished grades, commitment to excellence in

the science of psychology, evidence of broad scholarship (including mathematics and sciences), and evidence of involvement within the university and the broader community enhance students' credentials.

HONORS IN THE PSYCHOLOGY MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Psychology students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all PSYCH courses, and all courses in the major
- Complete the following courses, taken for Honors, with individual grades of B or better:
 - PSYCH 386 Topics in Psychology for Honors Students, taken for two semesters for a total of 2 credits
 - PSYCH 686 Honors Seminar in Psychology, taken for two semesters for a total of 2 credits
 - Three Psychology Breadth and/or Depth courses
 - A two-semester Senior Honors Thesis in PSYCH 681 Senior Honors Thesis and PSYCH 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Students will gain an appreciation for the contributions that psychology is making to our understanding of human and animal behavior.
2. Students will learn to analyze and construct arguments, define and solve problems, and understand and apply scientific reasoning.
3. Students will learn to communicate their ideas, both written and spoken, in a clear, organized, and compelling way.
4. Students will gain a specific understanding of how to use data and research methodology in their critical thinking.
5. Students will acquire an appreciation of and respect for individual differences and diversity of experiences and background.

- Students will acquire the statistical and research skills used in the behavioral sciences.
- Students will have the opportunity to evaluate the diverse professional opportunities in psychology.

ADVISING AND CAREERS

Advising appointments can be made through the WiscCal Scheduling Assistant. **All major declarations require an appointment.** You must have a NetID to make an appointment.

Melanie Jones (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/DKwbhryb.html>): Students whose last name begins with A–H; Room 426 Brogden Psychology Building

Stephanie Osborn (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/PmTkxMuT.html>): Students whose last name begins with I–L; Room 428 Brogden Psychology Building

Valerie Johnson (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/ZRvJFZZg.html>): Students whose last name begins with M–Z; Room 430 Brogden Psychology Building

Please see this link for instructions on how to use Scheduling Assistant (<http://kb.wisc.edu/page.php?id=11776>). We have three advisors in the psychology department; all currently declared students should try to schedule an appointment with their assigned advisor.

Appointments may be made up to two weeks in advance, with at least 24 hours advance notice. Students are allowed only one appointment in a two week period. Please note that students are limited to one 25-minute appointment within a two-week interval. Students who are more than 10 minutes late for an appointment will be required to reschedule.

If you need to cancel an appointment, you must do so through Scheduling Assistant. Students who have migrated to Office365 and are using the Outlook Web App should be sure to send us a response if they decline their appointment.

Please also note that there is a high demand for advising in the psychology department. It is common for appointments to be filled quickly. Requests for appointments cannot be made via email. If you have more immediate advising needs, please refer to the weekly drop-in hours (<http://psych.wisc.edu/undergraduate-drop-in-hours.htm>). All students, regardless of their assigned advisor, may attend drop-in advising.

Are you a prospective student?

We are happy to meet with prospective UW–Madison students to discuss the psychology major during nonpeak advising. Peak advising occurs during the first three weeks of each semester and during registration time (during the months of March/April and October/November). We require a minimum of two weeks advance notice to schedule an appointment. You may contact us via email: advisor@psych.wisc.edu.

PEOPLE

UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

The major requires 33 credits in PSYCH and completion of these four learning areas:

FOUNDATION

Foundation courses provide a grounding in basic psychological facts and an understanding of the methodologies used to produce those facts. **Four courses are required** with grades of C or better in each category:

Code	Title	Credits
Introductory Psychology—one course: ¹		3-4
PSYCH 202	Introduction to Psychology	
Statistics—one course:		3-4
PSYCH 210	Basic Statistics for Psychology ¹	
PSYCH 280	Honors Basic Statistics for Psychology (with a grade of B or better to earn honors)	
SOC/ C&E SOC 360	Statistics for Sociologists I	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Research Methods—one course:		4
PSYCH 225	Research Methods	
Introductory Biology—one course: ²		3-5
ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102	Animal Biology and Animal Biology Laboratory	
ZOOLOGY/ BIOLOGY/ BOTANY 151	Introductory Biology	
BIOCORE 381 & BIOCORE 384	Evolution, Ecology, and Genetics and Cellular Biology Laboratory	
Total Credits		13-17

¹ A score of 4 or higher on the IB Psychology exam or a score of 4 or 5 on the AP Psychology exam.

² A score of 4 or better on the IB Biology exam, or a score of 4 or 5 on the AP Biology exam will satisfy the Introductory Biology requirement.

BREADTH

Breadth courses familiarize students with the breadth of psychology. **Three (3) courses** from at least **three** different topic groups are required:

Biological

Code	Title	Credits
PSYCH 449	Animal Behavior	3
PSYCH 450	Primates and Us: Insights into Human Biology and Behavior	3
PSYCH 454	Behavioral Neuroscience	3

PSYCH/ ZOOLOGY 523	Neurobiology	3
-----------------------	--------------	---

Clinical

Code	Title	Credits
PSYCH 311	Issues in Psychology (Topic: Psychology Law and Social Policies)	1-4
PSYCH 405	Abnormal Psychology	3-4

Cognitive and Perceptual Sciences

Code	Title	Credits
PSYCH 406	Psychology of Perception	3-4
PSYCH 413	Language, Mind, and Brain	3
PSYCH 414	Cognitive Psychology	3

Developmental

Code	Title	Credits
PSYCH/SOC 453	Human Sexuality	4
PSYCH 460	Child Development	3-4
PSYCH 464	Adult Development and Aging	3

Social and Personality

Code	Title	Credits
PSYCH 403	Psychology of Personality	3
PSYCH/SOC 456	Introductory Social Psychology	3-4
PSYCH/ GEN&WS 522	Psychology of Women and Gender	3
PSYCH 428	Introduction to Cultural Psychology	3-4

DEPTH

Depth courses allow students to engage in depth with material in specific content areas in psychology. Depth courses include both a lecture component and a required discussion/lab section for all students, and they help students develop a deeper understanding of particular areas of psychology. Each depth course has a prerequisite of one relevant breadth course; please check each course for possible prerequisites. **Two courses** are required:

Code	Title	Credits
PSYCH 501	Depth Topic in Social Science (multiple separate topics offered each semester)	4
PSYCH 502	Cognitive Development	4
PSYCH 503	Social Development	4
PSYCH 508	Psychology of Human Emotions: From Biology to Culture	4
PSYCH 520	How We Read: The Science of Reading and Its Educational Implications	4
PSYCH 521	The Structure of Human Thought: Concepts, Language and Culture	4
PSYCH 526	The Criminal Mind: Forensic and Psychobiological Perspectives	4
PSYCH 532	Psychological Effects of the Internet	4

CAPSTONE

Capstone courses allow students to engage in depth with particular content areas in psychology in a seminar setting. **One course** is required:

Code	Title	Credits
PSYCH 601	Current Topics in Psychology (many separate topics each semester)	3
PSYCH 602	Intermediate Statistics for Psychology	3
PSYCH 607	Introduction to Clinical Psychology	3
PSYCH 610	Statistical Analysis of Psychological Experiments	3

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all PSYCH and major courses

2.000 GPA on 15 upper-level major credits, taken in residence ²

15 credits in PSYCH, taken on the UW–Madison campus

² PSYCH 300–699 are upper level in the major.

HONORS IN THE MAJOR

Students may apply for Honors in the Psychology Major in consultation with the psychology undergraduate advisor(s). Decisions on admission to the Honors in the Major in Psychology program are made once per year, in February, by a committee of psychology faculty. Overall, criteria emphasize demonstrated ability and commitment to becoming a first-rate scholar. Performance in coursework at the university, particularly Honors courses in psychology and related fields, is among the criteria for admission. Consistent with the philosophy that there is more to honors scholarship than distinguished grades, commitment to excellence in the science of psychology, evidence of broad scholarship (including mathematics and sciences), and evidence of involvement within the university and the broader community enhance students' credentials.

HONORS IN THE PSYCHOLOGY MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Psychology students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all PSYCH courses, and all courses in the major
- Complete the following courses, taken for Honors, with individual grades of B or better:
 - PSYCH 386 Topics in Psychology for Honors Students, taken for two semesters for a total of 2 credits
 - PSYCH 686 Honors Seminar in Psychology, taken for two semesters for a total of 2 credits
 - Three Psychology Breadth and/or Depth courses
 - A two-semester Senior Honors Thesis in PSYCH 681 Senior Honors Thesis and PSYCH 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Students will gain an appreciation for the contributions that psychology is making to our understanding of human and animal behavior.
2. Students will learn to analyze and construct arguments, define and solve problems, and understand and apply scientific reasoning.
3. Students will learn to communicate their ideas, both written and spoken, in a clear, organized, and compelling way.
4. Students will gain a specific understanding of how to use data and research methodology in their critical thinking.
5. Students will acquire an appreciation of and respect for individual differences and diversity of experiences and background.
6. Students will acquire the statistical and research skills used in the behavioral sciences.
7. Students will have the opportunity to evaluate the diverse professional opportunities in psychology.

ADVISING AND CAREERS

Advising appointments can be made through the WiscCal Scheduling Assistant. **All major declarations require an appointment.** You must have a NetID to make an appointment.

Melanie Jones (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/DKwbhrvb.html>): Students whose last name begins with A–H; Room 426 Brogden Psychology Building

Stephanie Osborn (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/PmTxxMuT.html>): Students whose last name begins with I–L; Room 428 Brogden Psychology Building

Valerie Johnson (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/ZRvJFZZg.html>): Students whose last name begins with M–Z; Room 430 Brogden Psychology Building

Please see this link for instructions on how to use Scheduling Assistant (<http://kb.wisc.edu/page.php?id=11776>). We have three advisors in the psychology department; all currently declared students should try to schedule an appointment with their assigned advisor.

Appointments may be made up to two weeks in advance, with at least 24 hours advance notice. Students are allowed only one appointment in a two week period. Please note that students are limited to one 25-minute appointment within a two-week interval. Students who are more than 10 minutes late for an appointment will be required to reschedule.

If you need to cancel an appointment, you must do so through Scheduling Assistant. Students who have migrated to Office365 and are using the Outlook Web App should be sure to send us a response if they decline their appointment.

Please also note that there is a high demand for advising in the psychology department. It is common for appointments to be filled quickly. Requests for appointments cannot be made via email. If you have more immediate advising needs, please refer to the weekly drop-in hours (<http://psych.wisc.edu/undergraduate-drop-in-hours.htm>). All students, regardless of their assigned advisor, may attend drop-in advising.

Are you a prospective student?

We are happy to meet with prospective UW–Madison students to discuss the psychology major during nonpeak advising. Peak advising occurs during the first three weeks of each semester and during registration time (during the months of March/April and October/November). We require a minimum of two weeks advance notice to schedule an appointment. You may contact us via email: advisor@psych.wisc.edu.

Professors Goldsmith (chair), Abramson, Alibali, Auger, Berridge, Brauer, Coe, Curtin, Davidson, Devine, Gernsbacher, Goldsmith, Gooding, Harackiewicz, Hyde, Jenison, MacDonald, Marler, Niedenthal, Pollak, Postle, Rogers, Rosengren, Ryff, Saffran, Seidenberg, Snowdon

Associate Professors Bennett, Lupyan, Miyamoto, Rokers, Shutts

Assistant Professors Austerweil, Green, Li, Saalman, Schloss, Simmering

RELIGIOUS STUDIES

Religious studies is an academic discipline that looks at religious phenomena worldwide from a variety of angles in order to understand the many roles that religion plays in human life. To this end, students of religion learn to use a variety of theoretical analyses and methods. These include historical methods to understand how religions develop in time; critical literary methods to understand religious ideas; aesthetic methods to understand religious art and material culture; social-scientific methods to understand the relationship between religion, society and culture. Religious studies can also engage a variety of professional disciplines in analysis of how religion functions in economic, educational or political contexts, healthcare and scientific research, to name some examples.

Some ways of studying religion emphasize understanding religions on their own terms, other ways use comparative methods to discern differences and similarities between religions. Students of religion also study ways that people use religious resources to make meaning outside the boundaries of religious institutions and identities. Above all, the field

of religious studies requires a willingness to explore different ways of interpreting human life and diligent effort to develop understanding of how religious ideas, symbols, rituals and spaces serve as resources for people in a variety of contexts as they make sense of and live out their lives in the world. Thus, religious studies provides important preparation for thinking, communicating and functioning professionally and personally in a complex, multi-dimensional world.

COURSES

Because religious studies is an interdisciplinary program drawing upon many departments, some courses may have prerequisites in their home departments that must be fulfilled even though the prerequisites themselves have no bearing on progress within the religious studies major. Students are responsible for ensuring that they have met all the prerequisites to enter a course before they enroll in it. The current list of courses can be found in the Religious Studies course list page (http://guide.wisc.edu/courses/relig_st) in the Guide.

DEGREES/MAJORS/CERTIFICATES

RELIGIOUS STUDIES, B.A.

Religious studies is an academic discipline that looks at religious phenomena worldwide from a variety of angles in order to understand the many roles that religion plays in human life. To this end, students of religion learn to use a variety of theoretical analyses and methods. These include historical methods to understand how religions develop in time; critical literary methods to understand religious ideas; aesthetic methods to understand religious art and material culture; social-scientific methods to understand the relationship between religion, society and culture.

Religious studies can also engage a variety of professional disciplines in analysis of how religion functions in economic, educational or political contexts, healthcare and scientific research, to name some examples.

Some ways of studying religion emphasize understanding religions on their own terms, other ways use comparative methods to discern differences and similarities between religions. Students of religion also study ways that people use religious resources to make meaning outside the boundaries of religious institutions and identities. Above all, the field of religious studies requires a willingness to explore different ways of interpreting human life and diligent effort to develop understanding of how religious ideas, symbols, rituals and spaces serve as resources for people in a variety of contexts as they make sense of and live out their lives in the world. Thus, religious studies provides important preparation for thinking, communicating and functioning professionally and personally in a complex, multi-dimensional world.

COURSES

Because religious studies is an interdisciplinary program drawing upon many departments, some courses may have prerequisites in their home departments that must be fulfilled even though the prerequisites themselves have no bearing on progress within the religious studies major. Students are responsible for ensuring that they have met all the prerequisites to enter a course before they enroll in it. The current list of courses can be found in the Religious Studies course list page (http://guide.wisc.edu/courses/relig_st) in the Guide.

HOW TO GET IN

Students who wish to declare their intention to major or earn a certificate in religious studies must meet with the undergraduate advisor during regular office hours or by making an appointment. Students are encouraged to do this early in their academic careers in order to plan for successful completion and take advantage of opportunities such as Honors, special research, internship, service learning, or study abroad opportunities in associate with the major or certificate.

Dr. Corrie Norman is the undergraduate advisor and Honors in the Major advisor. Contact her by email at cenorman@wisc.edu.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	<ul style="list-style-type: none"> Complete the fourth unit of a foreign language; OR Complete the third unit of a foreign language and the second unit of an additional foreign language <p>Note: A unit is one year of high school work or one semester/term of college work.</p>
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit

Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison
--------------	--

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR

To earn a major in religious studies, students must complete at least 30 credits as follows:

Code	Title	Credits
Gateway Courses, select one of the following:		3
RELIG ST 101	Religion in Global Perspective	
RELIG ST 102	Exploring Religion in Sickness and Health	
RELIG ST 103	Exploring Religion and Sexuality	
Capstone Sequence:		
RELIG ST 600 & RELIG ST 601	Religion in Critical Perspective and Senior Capstone Research and Colloquium	7
Additional Courses:		20
Select additional credits in RELIG ST to bring credits in the major to 30. At least 9 credits must be at the 300-level or higher. See Additional Courses Course List below.		
Total Credits		30

ADDITIONAL COURSES Course List

Code	Title	Credits
RELIG ST/E ASIAN/HISTORY/LCA 308	Introduction to Buddhism	3-4
RELIG ST/HISTORY/MEDIEVAL 309	The Crusades: Christianity and Islam	3-4

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all RELIG ST and major courses

2.000 GPA on 15 upper-level credits for the major, taken in residence¹

15 credits in RELIG ST or the major, taken on campus

¹ Courses counting as upper level in the major include: RELIG ST/HISTORY 208, RELIG ST/HISTORY 209, RELIG ST/HISTORY 212, RELIG ST/CLASSICS/JEWISH/LITTRANS 227, RELIG ST/ILS 234, RELIG ST/E ASIAN/LCA 235, RELIG ST/CLASSICS/JEWISH/LITTRANS 237, RELIG ST/LITTRANS/MEDIEVAL 253, RELIG ST/LITTRANS 257, RELIG ST/PHILOS 261, RELIG ST/ENVIR ST 270 and all courses numbered RELIG ST 300–699, except RELIG ST/CLASSICS/HEBR-BIB/JEWISH/LITTRANS 332.

HONORS IN THE MAJOR

Students may declare Honors in the Religious Studies Major in consultation with the Religious Studies undergraduate advisor.

HONORS IN THE RELIGIOUS STUDIES MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Religious Studies students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all RELIG ST courses and courses that count for the major
- Complete 19 credits, taken for Honors, with individual grades of B or better, to include:
 - RELIG ST 600 Religion in Critical Perspective
 - RELIG ST 601 Senior Capstone Research and Colloquium
 - 6 credits of intermediate- or advanced-level RELIG ST courses or courses that count for the major
 - A two-semester Senior Honors Thesis in RELIG ST 681 Senior Honors Thesis and RELIG ST 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

The Religious Studies curriculum is designed so that, by the time of graduation, students will have developed the following attributes:

1. Proficiency in close reading, interpretation, and written and oral analysis.
2. Proficiency in accessing, appraising, and utilizing a variety of resources and methods for research across disciplinary lines.
3. Proficiency in categorizing, analyzing and comparing diverse systems of value and belief in a variety of contexts.
4. Global and local religious literacy; identifying, evaluating, and interpreting the interrelationships and impact of religious worldviews and communities in Wisconsin, the United States and globally.
5. Ability to conduct and present sustained research on primary sources using methodologies/analysis of religious studies culminating in the senior capstone project.

ADVISING AND CAREERS

ADVISING

Dr. Corrie Norman is the undergraduate advisor and Honors in the Major advisor. Contact her by email at cenorman@wisc.edu to meet with her. Students are encouraged to meet with Dr. Norman early in their academic careers in order to plan for successful completion and take advantage of opportunities such as Honors, special research, internship, service learning or study abroad opportunities in association with the major or certificate.

CAREERS

Religious studies engages a variety of professional disciplines and provides important preparation for thinking, communicating and functioning professionally in a complex, multi-dimensional world.

Religious studies sponsors workshops and other career exploration vehicles, often in collaboration with Career Services, to aid students in articulating the value of religious studies for their career preparation. Student-developed capstone projects in religious studies often make specific connections to experiential learning and career preparation in a range of fields. Talk with Dr. Norman about possibilities for combining internships and other forms of pre-professional training with the major and certificate.

These include historical methods to understand how religions develop in time; critical literary methods to understand religious ideas; aesthetic methods to understand religious art and material culture; social-scientific methods to understand the relationship between religion, society and culture. Religious studies can also engage a variety of professional disciplines in analysis of how religion functions in economic, educational or political contexts, healthcare and scientific research, to name some examples.

Some ways of studying religion emphasize understanding religions on their own terms, other ways use comparative methods to discern differences and similarities between religions. Students of religion also study ways that people use religious resources to make meaning outside the boundaries of religious institutions and identities. Above all, the field of religious studies requires a willingness to explore different ways of interpreting human life and diligent effort to develop understanding of how religious ideas, symbols, rituals and spaces serve as resources for people in a variety of contexts as they make sense of and live out their lives in the world. Thus, religious studies provides important preparation for thinking, communicating and functioning professionally and personally in a complex, multi-dimensional world.

COURSES

Because religious studies is an interdisciplinary program drawing upon many departments, some courses may have prerequisites in their home departments that must be fulfilled even though the prerequisites themselves have no bearing on progress within the religious studies major. Students are responsible for ensuring that they have met all the prerequisites to enter a course before they enroll in it. The current list of courses can be found in the Religious Studies course list page (http://guide.wisc.edu/courses/relig_st) in the *Guide*.

HOW TO GET IN

Students who wish to declare their intention to major or earn a certificate in religious studies must meet with the undergraduate advisor during regular office hours or by making an appointment. Students are encouraged to do this early in their academic careers in order to plan for successful completion and take advantage of opportunities such as Honors, special research, internship, service learning, or study abroad opportunities in associate with the major or certificate.

- L&S Breadth
- Humanities, 12 credits: 6 of the 12 credits must be in literature
 - Social Sciences, 12 credits
 - Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW-Madison 2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

To earn a major in religious studies, students must complete at least 30 credits as follows:

Code	Title	Credits
Gateway Courses, select one of the following:		3
RELIG ST 101	Religion in Global Perspective	
RELIG ST 102	Exploring Religion in Sickness and Health	
RELIG ST 103	Exploring Religion and Sexuality	
Capstone Sequence:		
RELIG ST 600 & RELIG ST 601	Religion in Critical Perspective and Senior Capstone Research and Colloquium	7
Additional Courses:		20
Select additional credits in RELIG ST to bring credits in the major to 30. At least 9 credits must be at the 300-level or higher. See Additional Courses Course List below.		
Total Credits		30

ADDITIONAL COURSES Course List

Code	Title	Credits
RELIG ST/E ASIAN/HISTORY/LCA 308	Introduction to Buddhism	3-4

RELIG ST/LCA 623	Yoga: Methods and Goals	3			

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

Letters & Science Career Services (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)

PEOPLE

Professors: Bell, Bowie, Brenner, Bühnemann, Chamberlain, Cohen, Dale, DuBois, Dunne, Gade, Hansen, Hardin, Hildner, Howard, Hsia, Koshar, Langer, Livorni, Loudon, Nadler, Ohnuki-Tierney, Phillips, Schamiloglu, Schenck, Schweber, Stanford Friedman, Thompson, Wandel, Wink, Wolf, Zaeske

Associate Professors: Beneker, Hutton, Livanos, Meulenbeld, Rosenblum, Shelef, Shoemaker, Thal, Todorovic

Assistant Professors: Al-Mohammad, Chamedes, Hollander, Mandell, Pruitt

Visiting Assistant Professors: Cerulli, Ridgely

Distinguished Faculty Associate: Brown

Faculty Associates: Mellor, Norman

Associate Faculty Associates: Rosenhagen, Whelan

Lecturer: Carlsson

Faculty Diversity Liaison: Program Director Rosenblum

LEARNING OUTCOMES

The Religious Studies curriculum is designed so that, by the time of graduation, students will have developed the following attributes:

1. Proficiency in close reading, interpretation, and written and oral analysis.
2. Proficiency in accessing, appraising, and utilizing a variety of resources and methods for research across disciplinary lines.
3. Proficiency in categorizing, analyzing and comparing diverse systems of value and belief in a variety of contexts.
4. Global and local religious literacy; identifying, evaluating, and interpreting the interrelationships and impact of religious worldviews and communities in Wisconsin, the United States and globally.
5. Ability to conduct and present sustained research on primary sources using methodologies/analysis of religious studies culminating in the senior capstone project.

ADVISING AND CAREERS

ADVISING

Dr. Corrie Norman is the undergraduate advisor and Honors in the Major advisor. Contact her by email at cnorman@wisc.edu to meet with her. Students are encouraged to meet with Dr. Norman early in their academic careers in order to plan for successful completion and take advantage of opportunities such as Honors, special research, internship, service learning or study abroad opportunities in associate with the major or certificate.

CAREERS

Religious studies engages a variety of professional disciplines and provides important preparation for thinking, communicating and functioning professionally in a complex, multi-dimensional world.

Religious studies sponsors workshops and other career exploration vehicles, often in collaboration with Career Services, to aid students in articulating the value of religious studies for their career preparation. Student-developed capstone projects in religious studies often make specific connections to experiential learning and career preparation in a range of fields. Talk with Dr. Norman about possibilities for combining internships and other forms of pre-professional training with the major and certificate.

RELIGIOUS STUDIES, CERTIFICATE

Religious studies is an academic discipline that looks at religious phenomena worldwide from a variety of angles in order to understand the many roles that religion plays in human life. To this end, students of religion learn to use a variety of theoretical analyses and methods. These include historical methods to understand how religions develop in time; critical literary methods to understand religious ideas; aesthetic methods to understand religious art and material culture; social-scientific methods to understand the relationship between religion, society and culture. Religious studies can also engage a variety of professional disciplines in analysis of how religion functions in economic, educational or political contexts, healthcare and scientific research, to name some examples.

Some ways of studying religion emphasize understanding religions on their own terms, other ways use comparative methods to discern differences and similarities between religions. Students of religion also study ways that people use religious resources to make meaning outside the boundaries of religious institutions and identities. Above all, the field of religious studies requires a willingness to explore different ways of interpreting human life and diligent effort to develop understanding of how religious ideas, symbols, rituals and spaces serve as resources for people in a variety of contexts as they make sense of and live out their lives in the world. Thus, religious studies provides important preparation for thinking, communicating and functioning professionally and personally in a complex, multi-dimensional world.

COURSES

Because religious studies is an interdisciplinary program drawing upon many departments, some courses may have prerequisites in their home departments that must be fulfilled even though the prerequisites themselves have no bearing on progress within the religious studies major. Students are responsible for ensuring that they have met all the

prerequisites to enter a course before they enroll in it. The current list of courses can be found in the Religious Studies course list page (http://guide.wisc.edu/courses/relig_st) in the Guide.

HOW TO GET IN

SCHOOL OF JOURNALISM AND MASS COMMUNICATION

The School of Journalism and Mass Communication (SJMC), founded in 1905, offers professional education within the context of the liberal arts degree of the College of Letters & Science. The student earns the journalism bachelor of arts (JBA) or journalism bachelor of science (JBS) degree upon completion of the journalism program. Students are required to complete at least one of the two tracks described below.

The school seeks to provide students with both a broad cultural base for future careers and the competence to do professional work immediately after graduation. Of the 120 credits required for graduation, at least 21 must be in the social sciences/humanities—for example, economics, history, psychology, political science, sociology. In addition to skills courses, students are required to take courses in conceptual subjects such as law and history of mass communication, public opinion, international communication and communication theory. The student approaches mass communication as science, art, and service while relating it to many facets of society.

PRACTICAL EXPERIENCE: ORGANIZATIONS

The school encourages students to gain practical experience through part-time jobs and internships. Student media include (but are not limited to) *The Daily Cardinal*, the *Badger Herald* (<http://www.badgerherald.com>), WSUM radio (<http://wsun.wisc.edu>) and the Wisconsin Union Directorate Publications (<https://union.wisc.edu/get-involved/wud/publications>). Student organizations related to the school and major include (but are not limited to) the Public Relations Student Society of America (PRSSA), the Advertising Club, the Society of Professional Journalists (SPJ) and the Association for Women in Communication (AWC). Professionals from the media and related fields appear often in classes and meet with students in professional student organizations.

INTERNSHIPS

Students planning careers as media professionals are encouraged to hold one or more internships in the area of their academic specialization(s). **Declared journalism majors** or prospective journalism majors with no other declared major may earn course credit for internships that relate to their professional tracks. As part of their degree programs, students may earn a maximum of 3 credits of JOURN 697 Internship during their undergraduate careers. Students may only earn one credit of JOURN 697 per semester, but may repeat the credit up to three times. Students who want to earn degree credit for their internships should consult with career advisor Pam Garcia-Rivera **before they accept an internship**. Students must enroll in JOURN 697 at the time they hold the internship.

JOURN 697 does not count as part of the 30 minimum journalism credits required for graduation. Students who wish to enroll in JOURN 697 should see Pam Garcia-Rivera for authorization to enroll.

JOB INFORMATION SERVICE

The school provides a job listing service at this link (<http://journalism.wisc.edu/career-services/current-listings>) on its website. Questions concerning that can be directed to Pam Garcia-Rivera.

Current students and recent alumni are encouraged to meet with the undergraduate career advisor to discuss career and internship opportunities. Students may consult the school website (<http://journalism.wisc.edu/career-services>) or with the undergraduate career advisor for specific information.

Students planning careers as media professionals are encouraged to hold one or more internships in the area of their academic specialization(s).

Declared journalism majors or prospective journalism majors with no other declared major may earn course credit for internships that relate to their professional tracks. As part of their degree programs, students may earn a maximum of 3 credits of JOURN 697 Internship during their undergraduate careers. Students may only earn one credit of JOURN 697 per semester, but may repeat the credit up to three times. Students who want to earn degree credit for their internships should consult with career advisor Pam Garcia-Rivera **before they accept an internship**. Students must enroll in JOURN 697 at the time they hold the internship.

JOURN 697 does not count as part of the 30 minimum journalism credits required for graduation. Students who wish to enroll in JOURN 697 should see Pam Garcia-Rivera for authorization to enroll.

HOW TO GET IN

ADMISSION TO THE JOURNALISM DEGREE PROGRAM

Students who wish to declare themselves as degree candidates in journalism must submit an application to the School of Journalism and Mass Communication (SJMC). Applications are accepted each fall and spring semester for admission the following semester. Prospective degree candidates must present to the school a record of academic achievement, writing ability and extracurricular participation that indicate a probability of success in some field of communication.

In order to apply for admission to the school, students must have met the following requirements:

- A minimum of 24 credits completed by the end of the semester in which they apply, including transfer credits but excluding AP and retroactive language credits.
- Completion of JOURN 201 Introduction to Mass Communication by the end of the semester in which they apply. Students may have no more than 16 credits in Journalism courses taken at UW–Madison when applying for admission.

Transfer students must be enrolled for at least one semester at UW–Madison before applying for admission to the SJMC (their first semester may be in progress at the time they submit their application). Students transferring journalism course credit from other colleges and universities should check their record of transferred credit with the SJMC undergraduate academic advisor. The academic advisor is available for consultation at most SOAR orientation sessions for transfer students.

The number of students to be admitted in a given semester is subject to change based on the school's capacity to provide adequate access to required courses. Admissions decisions are based on the entire application, with particular emphasis on academic performance and writing ability. Specific guidelines for submitting the application portfolio are available online at this link (<http://journalism.wisc.edu/>

undergraduate/admissions/the-application) or in SJMC academic advising. The academic advisor conducts one-hour information sessions for applicants each semester, with dates and times listed on the application; these sessions are highly recommended and provide more information for applicants than is possible in a one-on-one advising meeting.

After admission to the school, the student's classification will be changed to JBA or JBS to reflect this change in status.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR INTRODUCTORY REQUIREMENTS

Code	Title	Credits
Introduction to Journalism		
JOURN 201	Introduction to Mass Communication	4

TRACKS

Students must complete one of two tracks: **Journalism**, which focuses on reporting, or **Strategic Communication**, which focuses on forms of persuasive communication that includes advertising and public relations).³

Complete one track:

Journalism		
Code	Title	Credits
JOURN 335	Principles and Practices of Reporting	4
Advanced Reporting - one course:		4
JOURN 401	In-Depth Reporting	
JOURN 404	Interpretation of Contemporary Affairs	
JOURN 405	Creative Nonfiction	
JOURN 411	Multimedia Design	
JOURN 415	Science and Environmental Journalism	
JOURN 417	Magazine Publishing	
JOURN 425	Video Journalism	
JOURN 420	Investigative Reporting	
JOURN 475	Special Topics in Advanced Concepts and Skills ²	
Total Credits		8

Strategic Communication		
Code	Title	Credits
JOURN 345	Principles and Practice of Strategic Communication	4
Advanced Strategic Communication—one course:		4
JOURN 411	Multimedia Design	
JOURN 417	Magazine Publishing	
JOURN 425	Video Journalism	
JOURN 445	Creative Campaign Messages	
JOURN 447	Strategic Media Planning	
JOURN 449	Account Planning and Strategy	
JOURN 463	Digital Media Strategies	
JOURN 464	Public Relations Strategies	
JOURN 475	Special Topics in Advanced Concepts and Skills ²	
Total Credits		8

² Special Topics courses may count for either track, or no track, depending on Topic. Consult the advisor for this major to determine eligibility of JOURN 475 to meet a major requirement.

³ Students planning to complete both tracks should consult with the undergraduate academic advisor about course availability and planning.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all JOURN and major courses

2.000 GPA on 15 upper-level major credits, taken in residence⁴

15 credits in JOURN, taken on the UW–Madison campus

⁴ JOURN 400–699 are upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Journalism Major in consultation with the Journalism undergraduate advisor.

HONORS IN THE JOURNALISM MAJOR REQUIREMENTS

To earn a J.B.A. or J.B.S. with Honors in the Major in Journalism students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.400 GPA for all JOURN courses and courses that count toward the major
- Complete two courses in each of the Group B and Group C Theories and Topics groupings, with a grade of B or better in each individual course
- Complete a two-semester of Senior Honors Thesis in JOURN 681 Senior Honors Thesis and JOURN 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Convey information and express ideas effectively in contemporary media.
2. Understand the responsible and ethical use of mass media.
3. Appreciate the media's relationship with social, political, legal and economic systems.
4. Think strategically, creatively and critically, to solve problems in a professional context.

ADVISING AND CAREERS

JOB INFORMATION SERVICE

The school provides a job listing service at current listings (<https://journalism.wisc.edu/career-services/current-listings>) on the SJMC website. Questions concerning that can be directed to Pam Garcia-Rivera.

Current students and recent alumni are encouraged to meet with the undergraduate career advisor to discuss career and internship opportunities. Students may consult the school website (<http://>

journalism.wisc.edu/career-services) or with the undergraduate career advisor for specific information.

PEOPLE

Professor and Director: H. Shah

Professors Downey, Friedland, McLeod, Rojas, D. Shah

Associate Professors Kim, Riddle, Robinson, Wagner, Wells

Assistant Professors Culver, Graves, McGarr, Palmer

JOURNALISM, JBS

The School of Journalism and Mass Communication (SJMC), founded in 1905, offers professional education within the context of the liberal arts degree of the College of Letters & Science. The student earns the journalism bachelor of arts (JBA) or journalism bachelor of science (JBS) degree upon completion of the journalism program. Students are required to complete at least one of the two tracks described below.

The school seeks to provide students with both a broad cultural base for future careers and the competence to do professional work immediately after graduation. Of the 120 credits required for graduation, at least 21 must be in the social sciences/humanities—for example, economics, history, psychology, political science, sociology. In addition to skills courses, students are required to take courses in conceptual subjects such as law and history of mass communication, public opinion, international communication and communication theory. The student approaches mass communication as science, art, and service while relating it to many facets of society.

PRACTICAL EXPERIENCE: ORGANIZATIONS

The school encourages students to gain practical experience through part-time jobs and internships. Student media include (but are not limited to) *The Daily Cardinal*, the *Badger Herald* (<http://www.badgerherald.com>), WSUM radio (<http://wsum.wisc.edu>) and the Wisconsin Union Directorate Publications (<https://union.wisc.edu/get-involved/wud/publications>). Student organizations related to the school and major include (but are not limited to) the Public Relations Student Society of America (PRSSA), the Advertising Club, the Society of Professional Journalists (SPJ) and the Association for Women in Communication (AWC). Professionals from the media and related fields appear often in classes and meet with students in professional student organizations.

INTERSHIPS

Students planning careers as media professionals are encouraged to hold one or more internships in the area of their academic specialization(s). **Declared journalism majors** or prospective journalism majors with no other declared major may earn course credit for internships that relate to their professional tracks. As part of their degree programs, students may earn a maximum of 3 credits of JOURN 697 Internship during their undergraduate careers. Students may only earn one credit of JOURN 697 per semester, but may repeat the credit up to three times. Students who want to earn degree credit for their internships should consult with career

advisor Pam Garcia-Rivera **before they accept an internship**. Students must enroll in JOURN 697 at the time they hold the internship.

JOURN 697 does not count as part of the 30 minimum journalism credits required for graduation. Students who wish to enroll in JOURN 697 should see Pam Garcia-Rivera for authorization to enroll.

HOW TO GET IN

ADMISSION TO THE JOURNALISM DEGREE PROGRAM

Students who wish to declare themselves as degree candidates in journalism must submit an application to the School of Journalism and Mass Communication (SJMC). Applications are accepted each fall and spring semester for admission the following semester. Prospective degree candidates must present to the school a record of academic achievement, writing ability and extracurricular participation that indicate a probability of success in some field of communication.

In order to apply for admission to the school, students must have met the following requirements:

- A minimum of 24 credits completed by the end of the semester in which they apply, including transfer credits but excluding AP and retroactive language credits.
- Completion of JOURN 201 Introduction to Mass Communication by the end of the semester in which they apply. Students may have no more than 16 credits in Journalism courses taken at UW–Madison when applying for admission.

Transfer students must be enrolled for at least one semester at UW–Madison before applying for admission to the SJMC (their first semester may be in progress at the time they submit their application). Students transferring journalism course credit from other colleges and universities should check their record of transferred credit with the SJMC undergraduate academic advisor. The academic advisor is available for consultation at most SOAR orientation sessions for transfer students.

The number of students to be admitted in a given semester is subject to change based on the school's capacity to provide adequate access to required courses. Admissions decisions are based on the entire application, with particular emphasis on academic performance and writing ability. Specific guidelines for submitting the application portfolio are available online at this link (<http://journalism.wisc.edu/undergraduate/admissions/the-application>) or in SJMC academic advising. PEOPLE

Professor and Director: H. Shah

Professors Downey, Friedland, McLeod, Rojas, D. Shah

Associate Professors Kim, Riddle, Robinson, Wagner, Wells

Assistant Professors Culver, Graves, McGarr, Palmer

SOCIAL WORK

Social work's special contribution rests on an established body of knowledge, values and skills pertinent to understanding human relationships and the interaction between people as individuals, in families, groups, organizations, and communities.

Undergraduates in the School of Social Work receive a liberal arts education in the social and behavioral sciences and their application to human problems that prepares them to be informed citizens involved in human services or social welfare problems and policies. Students take courses in a variety of social sciences to enable them to view social welfare in its broad social, economic, and political contexts.

Social work courses offer a theoretical understanding of social problems and an introduction to practice methods used by social workers. The curriculum covers such areas as aging, family and child welfare, poverty, mental health, developmental disabilities, alcohol and drug abuse, diversity, race and ethnicity, criminal justice, oppression and social, economic and environmental justice, and at-risk populations.

MISSION

The mission of the UW–Madison School of Social Work is to enhance human well-being and promote human rights and social and economic justice for people who are disadvantaged to achieve an equitable, healthy, and productive society. The school aims to:

- Create, advance, strengthen, and integrate interdisciplinary knowledge for students and the profession through research, scholarship, teaching and practice.
- Educate students to become highly skilled, culturally competent and ethical practitioners who will provide effective leadership for the profession of social work within the State of Wisconsin, nationally, and internationally.
- Promote change at levels ranging from the individual to national and international policy, including empowering communities and populations that are disadvantaged and developing humane service delivery systems.
- Create and disseminate knowledge regarding the prevention and amelioration of social problems.

UNDERGRADUATE DEGREE PROGRAMS

The School of Social Work offers a **bachelor of social work (BSW)** degree or a **bachelor of arts (B.A.)** or **bachelor of science (B.S.)** degree with a major in social welfare. The BSW and the social welfare major prepare students for further academic study or for employment in selected human service arenas. The BSW prepares students as beginning-level professional social workers. The social welfare major offers an overview of current social problems.

HONORS IN THE MAJOR

Honors in the Major for social welfare majors and bachelor of social work students prepare undergraduates for research and scholarship in social work. Students interested in completing the requirements for Honors in the Major should consult with and apply for admission to the program with the social work academic advisor. Majors declare their intention to enter the program no later than the end of the spring semester of the junior year. Students must make arrangements with a faculty member

to sponsor their research project before being admitted to the honors program.

Requirements for Honors in the Major include the following:

1. a signed agreement between the student and the faculty research advisor sponsoring the Senior Honors Research Thesis;
2. completion of the majors' statistics requirement;
3. completion of SOC WORK 650 Methods of Social Work Research;
4. completion of one social work elective related to honors thesis research topic;
5. completion of the Senior Honors Research Thesis (SOC WORK 681 Senior Honors Thesis and SOC WORK 682 Senior Honors Thesis);
6. completion of SOC WORK 579 Special Topics in Social Work: Faculty Research Seminar in the fall semester of the senior year;
7. and, presentation of the thesis results at a department colloquium.

Honors in the Major students are expected to maintain at least a minimum cumulative GPA of 3.4 and complete the regular major requirements and an overall GPA of at least 3.3 in all courses taken at UW–Madison. Students are encouraged to apply to the Honors in the Major as early as possible, but no later than the spring semester of their junior year.

HONORS IN THE MAJOR PROCEDURES

- Meet with an academic advisor to discuss Honors in the Major requirements.
- Determine faculty research advisor (no later than end of the spring semester of junior year). The faculty research advisor for the senior honors thesis should be consulted about the project as early as possible to formulate a topic.
- Declare entry into Honors in the Major (no later than the end of the spring semester of junior year).
- Submit signed Faculty Advisor Agreement form to the academic advisor.

HONORS IN THE MAJOR COURSE REQUIREMENTS

Code	Title	Credits
By the end of the Junior Year complete:		
<i>Statistics</i>		
STAT 301 or STAT 371	Introduction to Statistical Methods Introductory Applied Statistics for the Life Sciences	3
SOC/C&E SOC 360	Statistics for Sociologists I	4
PSYCH 210 or PSYCH 280	Basic Statistics for Psychology Honors Basic Statistics for Psychology	3
<i>Social Work</i>		
SOC WORK 650	Methods of Social Work Research	3
Soc Work Elective (related to thesis topic)		
Fall Semester of Senior Year		
SOC WORK 579	Special Topics in Social Work	1
SOC WORK 681	Senior Honors Thesis	3
Spring Semester of Senior Year		
SOC WORK 682	Senior Honors Thesis	3
Thesis Presentation		

INDEPENDENT WORK

Students with an interest in a particular area of study may develop a plan of independent work with the assistance of an interested faculty member. They may obtain information about instructors and their areas of interest from the School of Social Work website. Consent of instructor is required for the following course offerings in independent work:

Code	Title	Credits
SOC WORK 681 & SOC WORK 682	Senior Honors Thesis and Senior Honors Thesis (year-long course)	6
SOC WORK 691 & SOC WORK 692	Senior Thesis and Senior Thesis (year-long course)	4
SOC WORK 699	Directed Study	1-3

15 CREDIT RULE

All students are required to fulfill the L&S requirement of **15 credits of upper-level work in the major** taken in residence. Courses that count toward this requirement for Social Work and Social Welfare are:

Code	Title	Credits
SOC WORK 650	Methods of Social Work Research	3
SOC/C&E SOC 357	Methods of Sociological Inquiry	3-4
PSYCH 225	Research Methods	4
SOC WORK 457	Human Behavior and the Environment	3
SOC WORK 640	Social Work with Ethnic and Racial Groups	3
SOC WORK 441	Generalist Practice with Individuals, Families and Groups	1-3
SOC WORK 442	Generalist Practice with Communities and Organizations	1-2
SOC WORK 612	Psychopathology for Generalist Social Work Practice	3

Social work electives designated as I or A.

CERTIFICATE PROGRAMS

BSW students and social welfare majors often choose the following certificate programs: American Indian studies, business, criminal justice, gender and women's studies, gerontology, global cultures, global health, LGBT studies, and religious studies.

ACCREDITATION

The BSW program is accredited by the Council on Social Work Education (CSWE). The social welfare major is accredited along with the rest of the College of Letters and Science by the Higher Learning Commission.

GRADUATE SCHOOL

BSW students completing professional foundation courses with a grade of B or better are eligible for advanced standing in the master's program. For more information see the School of Social Work website FAQs on "Admissions: Advanced Standing & Exemptions (<https://socwork.wisc.edu/fulltimemsw-faq>)."

Clinical Assistant Professors: Audrey Conn, MSSW, APSW; Amanda Ngola, MSW, LCSW; Angela Willits, MSW, LCSW

SOCIAL WELFARE, B.A.

The School of Social Work offers two undergraduate programs: the bachelor of arts (B.A.) or bachelor of science (B.S.) degree with a major in social welfare; and the bachelor of social work (BSW) degree. Those who are interested in the professional social work degree (BSW) begin by declaring the social welfare major, applying to the BSW program in their junior year and, if accepted, changing their major to the BSW for their senior year.

HOW TO GET IN

Regardless of program of interest, students begin their course of study by taking SOC WORK 205 Introduction to the Field of Social Work and SOC WORK 206 Introduction to Social Policy in either the freshman or sophomore year. Students can declare the social welfare major as early as the freshman year as long as they are enrolled in SOC WORK 205 and/or SOC WORK 206 and meet the L&S requirement of a minimum cumulative GPA of 2.0. More typically, students declare the major in the sophomore year while in or having completed SOC WORK 205 and/or SOC WORK 206. To declare the major, students should make an appointment and meet with one of the two social work academic advisors at the School of Social Work.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core

of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall
Minimum GPAs	30 credits in residence after the 90th credit
	2.000 in all coursework at UW–Madison
	2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR SOCIAL WELFARE POLICY AND SERVICES

Code	Title	Credits
------	-------	---------

Complete the following two courses:

SOC WORK 205	Introduction to the Field of Social Work	4
SOC WORK 206	Introduction to Social Policy	4

SOCIAL SCIENCE CONCENTRATION

Select two intermediate- or advanced-level courses (I or A) from one of the following social science departments.¹

Note: Completion of an elementary-level course may be a prerequisite to being able to take an I or A course.

--------------	---	---

ELECTIVES IN SOCIAL WELFARE

Complete two intermediate- or advanced-level Social Work (http://guide.wisc.edu/courses/soc_work) courses³.

STATISTICS AND RESEARCH

Code	Title	Credits
Statistics		
<i>Select one of the following statistics courses:</i>		
STAT 301	Introduction to Statistical Methods ⁴	3
STAT 371	Introductory Applied Statistics for the Life Sciences ⁵	3
SOC/C&E SOC 360	Statistics for Sociologists I	4
PSYCH 210	Basic Statistics for Psychology	3

Code	Title	Credits
Research		
<i>Select one of the following research courses:</i>		
SOC WORK 650	Methods of Social Work Research	3
SOC/C&E SOC 357	Methods of Sociological Inquiry	3-4
PSYCH 225	Research Methods	4

¹ Courses must be selected from these approved lists.

² Meets L&S ethnic studies requirement.

³ No more than 3 credits of SOC WORK 699 Directed Study may be used toward fulfillment of this requirement.

⁴ STAT 301 is recommended by the School of Social Work. This course also fulfills 3 credits of quantitative reasoning B(r), math *and* natural science (N) toward the Letters and Science breadth requirements.

⁵ STAT 371 Introductory Applied Statistics for the Life Sciences fulfills 3 credits quantitative reasoning B(r) *and* natural science (N) toward L&S breadth requirements.

Social welfare majors are encouraged to gain social service experience through volunteer work. See the social work advisors or contact the Morgridge Center for Public Service (<http://www.morgridge.wisc.edu>), 263-2432, for information on volunteering.

HONORS IN THE MAJOR

Students may apply for admission to Honors in the Social Welfare Major in consultation with the Social Welfare undergraduate advisor before beginning the Senior Honors Thesis. Students must make arrangements with a faculty member to sponsor their research project before admission will be granted.

HONORS IN THE SOCIAL WELFARE MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Social Welfare students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.400 GPA for all SOC WORK courses, and all courses accepted in the major
- Complete SOC WORK 650 Methods of Social Work Research

- Complete one SOC WORK elective related to Senior Honors Thesis research topic
- Complete SOC WORK 579 Special Topics in Social Work concurrently with SOC WORK 681 Senior Honors Thesis
- Complete a two-semester Senior Honors Thesis in SOC WORK 681 Senior Honors Thesis and SOC WORK 682 Senior Honors Thesis, for a total of 6 credits
- Present thesis results at a department colloquium.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

At the conclusion of the Major, we expect that students in social welfare will be able to:

1. Identify foundational aspects of the US social welfare system and the history of the social work profession.
2. Recognize human differences and how social welfare systems interact with these differences to shape opportunities and outcomes for individuals, groups, and communities.
3. Demonstrate an ability to critically evaluate research with respect to its relevance, quality, and utility for addressing social welfare issues.
4. Synthesize and communicate knowledge relevant to social welfare issues.
5. Practice self-awareness of one's values, beliefs, and biases regarding the causes and consequences of social welfare issues.
6. Connect awareness of self, systems and social welfare knowledge to promote human dignity and justice.

ADVISING AND CAREERS

ADVISING

Students interested in either the social welfare major or bachelor of social work meet with the social work advisors to discuss degree requirements; career opportunities; complete the major declaration; and confer on student issues and concerns. Advisors are an excellent

resource for information about campus and community services. Students should see an advisor at least once each semester to review academic progress. Advising appointments are made through the school's website (<https://socwork.wisc.edu/appointments>) or by calling 608-263-3660. Social work faculty members are available for advice about coursework, research, and the social work profession in general.

SOCIAL WELFARE, B.S.

The School of Social Work offers two undergraduate programs: the bachelor of arts (B.A.) or bachelor of science (B.S.) degree with a major in social welfare; and the bachelor of social work (BSW) degree. Those who are interested in the professional social work degree (BSW) begin by declaring the social welfare major, applying to the BSW program in their junior year and, if accepted, changing their major to the BSW for their senior year.

HOW TO GET IN

Regardless of program of interest, students begin their course of study by taking SOC WORK 205 Introduction to the Field of Social Work and SOC WORK 206 Introduction to Social Policy in either the freshman or sophomore year. Students can declare the social welfare major as early as the freshman year as long as they are enrolled in SOC WORK 205 and/or SOC WORK 206 and meet the L&S requirement of a minimum cumulative GPA of 2.0. More typically, students declare the major in the sophomore year while in or having competed SOC WORK 205 and/or SOC WORK 206. To declare the major, students should make an appointment and meet with one of the two social work academic advisors at the School of Social Work.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for

living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum	2.000 in all coursework at UW–Madison
GPA	2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR SOCIAL WELFARE POLICY AND SERVICES

Code	Title	Credits
<i>Complete the following two courses:</i>		
SOC WORK 205	Introduction to the Field of Social Work	4
SOC WORK 206	Introduction to Social Policy	4

SOCIAL SCIENCE CONCENTRATION

Select two intermediate- or advanced-level courses (I or A) from one of the following social science departments.¹

Note: Completion of an elementary-level course may be a prerequisite to being able to take an I or A course.

HUMAN BEHAVIOR & THE SOCIAL ENVIRONMENT

Code	Title	Credits
<i>Complete the following two courses:</i>		
SOC WORK 457	Human Behavior and the Environment (junior year, spring semester)	3
SOC WORK 640	Social Work with Ethnic and Racial Groups (junior year, fall semester) ²	3

ELECTIVES IN SOCIAL WELFARE

Complete two intermediate- or advanced-level Social Work (http://guide.wisc.edu/courses/soc_work) courses³.

STATISTICS AND RESEARCH

Code	Title	Credits
Statistics		
<i>Select one of the following statistics courses:</i>		
STAT 301	Introduction to Statistical Methods ⁴	3
STAT 371	Introductory Applied Statistics for the Life Sciences ⁵	3
SOC/C&E SOC 360	Statistics for Sociologists I	4
PSYCH 210	Basic Statistics for Psychology	3

Code	Title	Credits
Research		
<i>Select one of the following research courses:</i>		
SOC WORK 650	Methods of Social Work Research	3
SOC/C&E SOC 357	Methods of Sociological Inquiry	3-4
PSYCH 225	Research Methods	4

¹ Courses must be selected from these approved lists.

² Meets L&S ethnic studies requirement.

³ No more than 3 credits of SOC WORK 699 Directed Study may be used toward fulfillment of this requirement.

⁴ STAT 301 is recommended by the School of Social Work. This course also fulfills 3 credits of quantitative reasoning B(r), math *and* natural science (N) toward the Letters and Science breadth requirements.

⁵ STAT 371 Introductory Applied Statistics for the Life Sciences fulfills 3 credits quantitative reasoning B(r) *and* natural science (N) toward L&S breadth requirements.

Social welfare majors are encouraged to gain social service experience through volunteer work. See the social work advisors or contact the Morgridge Center for Public Service (<http://www.morgridge.wisc.edu>), 263-2432, for information on volunteering.

HONORS IN THE MAJOR

Students may apply for admission to Honors in the Social Welfare Major in consultation with the Social Welfare undergraduate advisor before beginning the Senior Honors Thesis. Students must make arrangements with a faculty member to sponsor their research project before admission will be granted.

HONORS IN THE SOCIAL WELFARE MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Social Welfare students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.400 GPA for all SOC WORK courses, and all courses accepted in the major
- Complete SOC WORK 650 Methods of Social Work Research
- Complete one SOC WORK elective related to Senior Honors Thesis research topic
- Complete SOC WORK 579 Special Topics in Social Work concurrently with SOC WORK 681 Senior Honors Thesis

- Complete a two-semester Senior Honors Thesis in SOC WORK 681 Senior Honors Thesis and SOC WORK 682 Senior Honors Thesis, for a total of 6 credits
- Present thesis results at a department colloquium.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

At the conclusion of the Major, we expect that students in social welfare will be able to:

1. Identify foundational aspects of the US social welfare system and the history of the social work profession.
2. Recognize human differences and how social welfare systems interact with these differences to shape opportunities and outcomes for individuals, groups, and communities.
3. Demonstrate an ability to critically evaluate research with respect to its relevance, quality, and utility for addressing social welfare issues.
4. Synthesize and communicate knowledge relevant to social welfare issues.
5. Practice self-awareness of one's values, beliefs, and biases regarding the causes and consequences of social welfare issues.
6. Connect awareness of self, systems and social welfare knowledge to promote human dignity and justice.

ADVISING AND CAREERS

ADVISING

Students interested in either the social welfare major or bachelor of social work meet with the social work advisors to discuss degree requirements; career opportunities; complete the major declaration; and confer on student issues and concerns. Advisors are an excellent resource for information about campus and community services. Students should see an advisor at least once each semester to review academic progress. Advising appointments are made through the school's website (<https://socwork.wisc.edu/appointments>) or by calling

608-263-3660. Social work faculty members are available for advice about coursework, research, and the social work profession in general.

PEOPLE

Professors: Lawrence M. Berger, MSW, Ph.D.; Aaron Brower, MSW, Ph.D.; Maria Cancian Ph.D.; Jan Steven Greenberg, MSSW, Ph.D.; Betty J. Kramer, MSSW, Ph.D.; Katherine Magnuson, Ph.D.; Marsha Mailick, Ph.D.; Daniel R. Meyer, MSW, Ph.D.; Stephanie A. Robert, MSW, Ph.D.; Kristen Shook Slack, A.M., Ph.D.

Associate Professors: Marah A. Curtis, MSW, Ph.D.; Tally Moses, MSW, Ph.D.; Tracy Schroepfer, MSW, Ph.D.

Assistant Professors: Lauren Bishop-Fitzpatrick, Ph.D.; Alejandra Ros Pilarz, Ph.D.; Tova Walsh, MSW, Ph.D.; Yang Sao Xiong, Ph.D.

Clinical Associate Professor: Ellen Smith, MSSW

Clinical Assistant Professors: Audrey Conn, MSSW, APSW; Amanda Ngola, MSW, LCSW; Angela Willits, MSW, LCSW

SOCIAL WORK, BSW

Social work's special contribution rests on an established body of knowledge, values and skills pertinent to understanding human relationships and the interaction between people as individuals, in families, groups, organizations, and communities.

Undergraduates in the School of Social Work receive a liberal arts education in the social and behavioral sciences and their application to human problems that prepares them to be informed citizens involved in human services or social welfare problems and policies. Students take courses in a variety of social sciences to enable them to view social welfare in its broad social, economic, and political contexts.

Social work courses offer a theoretical understanding of social problems and an introduction to practice methods used by social workers. The curriculum covers such areas as aging, family and child welfare, poverty, mental health, developmental disabilities, alcohol and drug abuse, diversity, race and ethnicity, criminal justice, oppression and social, economic and environmental justice, and at-risk populations.

MISSION

The mission of the UW–Madison School of Social Work is to enhance human well-being and promote human rights and social and economic justice for people who are disadvantaged to achieve an equitable, healthy, and productive society. The school aims to:

- Create, advance, strengthen, and integrate interdisciplinary knowledge for students and the profession through research, scholarship, teaching and practice.
- Educate students to become highly skilled, culturally competent and ethical practitioners who will provide effective leadership for the profession of social work within the State of Wisconsin, nationally, and internationally.
- Promote change at levels ranging from the individual to national and international policy, including empowering communities and populations that are disadvantaged and developing humane service delivery systems.

- Create and disseminate knowledge regarding the prevention and amelioration of social problems.

UNDERGRADUATE DEGREE PROGRAMS

The School of Social Work offers a **bachelor of social work (BSW)** degree or a **bachelor of arts (B.A.)** or **bachelor of science (B.S.)** degree with a major in social welfare. The BSW and the social welfare major prepare students for further academic study or for employment in selected human service arenas. The BSW prepares students as beginning-level professional social workers. The social welfare major offers an overview of current social problems.

HONORS IN THE MAJOR

Honors in the Major for social welfare majors and bachelor of social work students prepare undergraduates for research and scholarship in social work. Students interested in completing the requirements for Honors in the Major should consult with and apply for admission to the program with the social work academic advisor. Majors declare their intention to enter the program no later than the end of the spring semester of the junior year. Students must make arrangements with a faculty member to sponsor their research project before being admitted to the honors program.

Requirements for Honors in the Major include the following:

1. a signed agreement between the student and the faculty research advisor sponsoring the Senior Honors Research Thesis;
2. completion of the majors' statistics requirement;
3. completion of SOC WORK 650 Methods of Social Work Research;
4. completion of one social work elective related to honors thesis research topic;
5. completion of the Senior Honors Research Thesis (SOC WORK 681 Senior Honors Thesis and SOC WORK 682 Senior Honors Thesis);
6. completion of SOC WORK 579 Special Topics in Social Work: Faculty Research Seminar in the fall semester of the senior year;
7. and, presentation of the thesis results at a department colloquium.

Honors in the Major students are expected to maintain at least a minimum cumulative GPA of 3.4 and complete the regular major requirements and an overall GPA of at least 3.3 in all courses taken at UW–Madison. Students are encouraged to apply to the Honors in the Major as early as possible, but no later than the spring semester of their junior year.

HONORS IN THE MAJOR PROCEDURES

- Meet with an academic advisor to discuss Honors in the Major requirements.
- Determine faculty research advisor (no later than end of the spring semester of junior year). The faculty research advisor for the senior honors thesis should be consulted about the project as early as possible to formulate a topic.
- Declare entry into Honors in the Major (no later than the end of the spring semester of junior year).
- Submit signed Faculty Advisor Agreement form to the academic advisor.

HONORS IN THE MAJOR COURSE REQUIREMENTS

Code	Title	Credits
By the end of the Junior Year complete:		
<i>Statistics</i>		
STAT 301 or STAT 371	Introduction to Statistical Methods Introductory Applied Statistics for the Life Sciences	3
SOC/C&E SOC 360	Statistics for Sociologists I	4

SOC WORK 682	Senior Honors Thesis	3
Thesis Presentation		

INDEPENDENT WORK

Students with an interest in a particular area of study may develop a plan of independent work with the assistance of an interested faculty member. They may obtain information about instructors and their areas of interest from the School of Social Work website. Consent of instructor is required for the following course offerings in independent work:

Code	Title	Credits
SOC WORK 681 & SOC WORK 682	Senior Honors Thesis and Senior Honors Thesis (year-long course)	6
SOC WORK 691 & SOC WORK 692	Senior Thesis and Senior Thesis (year-long course)	4
SOC WORK 699	Directed Study	1-3

15 CREDIT RULE

All students are required to fulfill the L&S requirement of **15 credits of upper-level work in the major** taken in residence. Courses that count toward this requirement for Social Work and Social Welfare are:

Code	Title	Credits
SOC WORK 650	Methods of Social Work Research	3
SOC/C&E SOC 357	Methods of Sociological Inquiry	3-4
PSYCH 225	Research Methods	4
SOC WORK 457	Human Behavior and the Environment	3
SOC WORK 640	Social Work with Ethnic and Racial Groups	3
SOC WORK 441	Generalist Practice with Individuals, Families and Groups	1-3
SOC WORK 442	Generalist Practice with Communities and Organizations	1-2

SOC WORK 612 Psychopathology for Generalist Social Work Practice 3
Social work electives designated as I or A.

CERTIFICATE PROGRAMS

BSW students and social welfare majors often choose the following certificate programs: American Indian studies, business, criminal justice, gender and women's studies, gerontology, global cultures, global health, LGBT studies, and religious studies.

ACCREDITATION

The BSW program is accredited by the Council on Social Work Education (CSWE). The social welfare major is accredited along with the rest of the College of Letters and Science by the Higher Learning Commission.

GRADUATE SCHOOL

BSW students completing professional foundation courses with a grade of B or better are eligible for advanced standing in the master's program. For more information see the School of Social Work website FAQs on "Admissions: Advanced Standing & Exemptions (<https://socwork.wisc.edu/fulltimemsw-faq>)."

HOW TO GET IN

Students enter the School of Social Work for either Social Welfare or Social Work begin by declaring the social welfare major. Later, if a student applies to and is accepted into the bachelor of social work program (see admissions requirements below) the major is changed to social work.

In either their freshman or sophomore years, students begin their program of study by taking SOC WORK 205 Introduction to the Field of Social Work and SOC WORK 206 Introduction to Social Policy in fall and spring semesters. When they are enrolled in or have taken SOC WORK 205 and/or SOC WORK 206, students declare the social welfare major. In the spring of the junior year, students apply for admission to the BSW program for their senior year.

ADMISSION TO THE BSW PROGRAM

In the spring of the junior year, students who meet the following eligibility criteria apply for admission to the BSW program:

- SOC WORK 205 Introduction to the Field of Social Work and SOC WORK 206 Introduction to Social Policy completed;
- Statistics completed (or concurrent enrollment);
- Second-semester junior status (minimum of 71 credits completed); and
- Minimum of 2.5 overall GPA from all colleges attended.

Admission to the bachelor of social work (BSW) program is based on assessment of the applicant's background, preparation and experience for practice in the field of social work. Approximately 30–35 students are admitted to the bachelor of social work program each year. Application for admission includes:

- A personal statement on reasons for undergraduate studies in social work including any life experiences that have led the student to pursue a social work degree;

- A summary describing social work or social work-related paid or volunteer experiences, research or community projects, multicultural experiences, and/or work abroad;
- A letter of recommendation; and
- An official transcript (s) from each college attended.

After acceptance, the student completes the Social Work Practice course sequence (fall and spring semesters).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SOCIAL WORK (BSW)

Because the School of Social Work is a professional school within the College of Letters & Science (L&S), the college confers the BSW degree. As part of the BSW degree, students also complete the standard requirements of either the bachelor of arts (B.A.) or bachelor of science (B.S.).

COMPLETE EITHER THE BACHELOR OF ARTS OR BACHELOR OF SCIENCE REQUIREMENTS: BACHELOR OF ARTS REQUIREMENTS

Mathematics: Fulfilled with completion of University General Education requirements Quantitative Reasoning a and Quantitative Reasoning b coursework.

Foreign Language: Complete the fourth unit of a foreign language; or complete the third unit of a foreign language and the second unit of an

additional foreign language. (A unit is one year of high school work or one semester/term of college work.)

L&S Breadth:

Humanities: 12 credits;

- must include 6 credits in literature

Social Sciences: 12 credits

Natural Sciences: 12 credits:

- must include **one** 3+ credit course in the biological sciences
- must include **one** 3+ credit course in the physical sciences

Liberal Arts and Science coursework: 108 credits

Depth of Intermediate/Advanced work: 60 intermediate or advanced credits

Major: Declare and complete at least one (1) major

Total Credits: 120 credits

UW–Madison Experience:

30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs:

2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced liberal arts and science coursework at UW–Madison

BACHELOR OF SCIENCE REQUIREMENTS

Mathematics: Two (2) 3+ credits of intermediate/advanced-level MATH (<http://guide.wisc.edu/courses/math>), COMP SCI (http://guide.wisc.edu/courses/comp_sci), STAT (<http://guide.wisc.edu/courses/stat>)

Limit one each: COMP SCI, STAT

Foreign Language: Complete the third unit of a foreign language. (A unit is one year of high school work or one semester/term of college work.)

L&S Breadth:

Humanities: 12 credits;

- must include 6 credits in literature

Social Sciences: 12 credits

Natural Sciences: 12 credits:

must include 6 credits in biological science

must include 6 credits in physical science

Liberal Arts and Science Coursework: 108 credits

Depth of Intermediate/Advanced Work: 60 intermediate or advanced credits

Major: Declare and complete at least one (1) major

Total Credits: 120 credits

UW–Madison Experience:

30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs:

2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced liberal arts and science coursework at UW–Madison

HUMAN BEHAVIOR & THE SOCIAL ENVIRONMENT

Code	Title	Credits
<i>Complete the following two courses:</i>		
SOC WORK 457	Human Behavior and the Environment	3
SOC WORK 640	Social Work with Ethnic and Racial Groups	3

SOCIAL WORK PRACTICE SEQUENCE

BSW students take two semesters (16 hours per week—256 hours/semester) of field education during their senior year (SOC WORK 400 Field Practice and Integrative Seminar I fall semester, SOC WORK 401 Field Practice and Integrative Seminar II spring semester). SOC WORK 441 Generalist Practice with Individuals, Families and Groups, SOC WORK 442 Generalist Practice with Communities and Organizations and SOC WORK 612 Psychopathology in Generalist Social Work Practice are taken concurrently with Field.

A Field Forum is held in spring semester where students learn more about the field program, field units and expectations and opportunities for field placement. The forum provides students with the opportunity to meet the instructors who teach the field units. Following the Field Forum students indicate their field-unit preferences. The director of field education makes

final unit placement decisions and field instructors make final agency-placement decisions.

The types of agencies working with the field education program are varied. Field units are organized around a social problem area or a field of practice. Each unit has a range of field placement agencies and settings appropriate to its theme. The emphasis for undergraduate placements is on applying the knowledge and skills of generalist social work practice with systems of all sizes. The focus is on learning and applying analytic and interventive skills within an ethically based, problem-focused approach.

Social work students should be advised that the Wisconsin Caregiver Law requires a Wisconsin background check (Caregiver Check and Wisconsin Criminal History) for all potential field-education students prior to the field placement. More information regarding this process is available at Field Education (<http://www.socwork.wisc.edu/fielded>) on the social work website.

Senior

SOC WORK 441 (I)	3 SOC WORK 442 (A)	2
	SOC WORK 612 (A)	2
	8	9

Total Credits 17

BSW students are expected to maintain a cumulative 3.0 in the major and a minimum grade of BC in SOC WORK 400 Field Practice and Integrative Seminar I and SOC WORK 401 Field Practice and Integrative Seminar II.

For more information about field units, the agencies they work with, and field course expectations see the Field Education Handbook (<http://www.socwork.wisc.edu/files/field/FieldHandbook.pdf>). Field unit availability may vary from year to year.

SOCIAL WORK PRACTICE IN COMMUNITY AGENCIES

This unit provides opportunities to work with human service agencies and community programs. The practice perspective is generalist social work in direct and indirect services to individuals, families, groups, organizations, and communities. The primary purpose of the field placement and seminar is to provide generalist practice opportunities for the development, integration and application of key competencies that are met through measureable practice behaviors. Theory and concepts learned in the classroom are integrated with practice opportunities, fostering the implementation of evidenced-informed practice. Participating Agencies: Bridge Lake Point Waunona, Goodman, Vera Court neighborhood centers; Center for Families; Dane County Court Appointed Special Advocates [CASA]; Disability Rights-Wisconsin; Second Harvest Food Bank; UW Medical Foundation; Youth Services of Southern Wisconsin (Briarpatch); YWCA (Girls Inc., House-ability, Third Street programs), Community Care Resources, Center for Families.

SOCIAL WORK PRACTICE IN COMMUNITY MENTAL HEALTH AGENCIES

This unit has been developed for generalist practice year students (BSW and first year MSW students) wanting to learn generalist social work practice in settings providing services to people with serious and persistent mental illness who are eighteen years of age and older. The placement settings include private non-profit mental health agencies,

primarily providing comprehensive community support services. Participating Agencies: Most of the placements occur in programs of the Journey Mental Health Center's Community Support Programs (CSP's) including: Blacksmith House, Cornerstone, Gateway, Community Treatment Alternatives, Yahara House (day services program) and the Emergency Services Unit. Additional placements occur at: SOAR Case Management Services, Chrysalis, Badger Prairie Health Care Center, Tellurian UCAN's Transitional Housing Program, William S. Middleton Memorial Veterans Hospital, and Mendota Mental Health Institute's PACT (Program of Assertive Community Treatment), an outpatient program.

SOCIAL WORK PRACTICE IN COUNTY HUMAN SERVICES (DANE CO. OR RURAL SETTINGS)

This is a county (public) human/social service agency unit with practice including both direct and indirect services with clients, participants and communities. Students are involved in child welfare, child protective services, juvenile delinquency, foster care, institutional reintegration and community social work. Field placement activities include individual and family counseling, child and family assessment, case management, juvenile court services, foster care services, institutional reintegration, group work, neighborhood and community services and overall program planning. Students in this unit may have field placement settings in voluntary community agencies that work collaboratively with the county human services department. Students gain a solid understanding of the place of a county human service agency in the human services/child and family welfare system. Placements provide opportunities to learn, develop and demonstrate competencies through practice behaviors in all or most of the required social work competency areas. Field placements available through this unit are primarily located in Dane and surrounding counties. Depending on resource needs, this unit may include Title IV-E students. Participating Agencies: Division of Children, Youth and Families, Dane County Human Services, in the following specializations: Access and Initial assessment, Ongoing Services, Child Protective Services, Foster Care, Independent Living, Juvenile Delinquency, Institutional Reintegration, Neighborhood Intervention Program, and Joining Forces for Families (community social work). Placements may also be arranged in voluntary community agencies that have collaborative relationships with county human services.

SOCIAL WORK PRACTICE IN INTELLECTUAL DISABILITIES

This unit has been developed for generalist practice year students who are interested in doing advocacy and promoting inclusive communities, especially with persons differing abilities. Since the objectives of the 400-level foundation year are primarily to teach and provide experiences in generalist social work practice, you will learn skills and knowledge applicable to a wide variety of social work settings. There is also the opportunity to work with two Madison based programs doing international projects. Through work with individuals, families, groups, and communities there will be a focus on issues related to human rights, access to services, communication challenges, and community acceptance and inclusion. The integrative seminar will utilize group work, faculty, student, and guest presentations, multimedia and experiential activities. Placement agencies include: Family Support and Resource Center, Waisman Center, Options in Community Living, Bridges Birth to Three programs.

SOCIAL WORK PRACTICE IN JUVENILE AND CRIMINAL JUSTICE

The focus of this unit is direct social work practice in juvenile and adult criminal justice community and institutional settings. The unit focuses

on helping students conceptualize client typologies related to social responses and interventions including: pre-sentence decisions, probation and parole supervision, institutional interventions, group homes, juvenile community treatment, policy and planning administration. Interventions related to conceptualization of client subtypes, demography of crime and delinquency and violent crime are some of the major content areas for study. Participating Agencies: RC Correctional Services for Women, Attic Correctional Services, Dane County Deferred Prosecution, Dane County Family Violence Unit, Dane County Juvenile Detention and Court Services, Dane County Victim/Witness Unit, Domestic Violence Intervention Services, Operation Fresh Start, VA Hospital, Youth Services of Southern Wisconsin, Madison YWCA, Juvenile Group Homes for male and female delinquent youth, Mendota Mental Health Institute, Sand Ridge Secure Treatment Facility, U.S. Probation Office, Wisconsin Adult Correctional Institutions, Wisconsin Public Defender's Office.

SOCIAL WORK PRACTICE WITH OLDER ADULTS

This field unit provides field placements in a variety of agency, community, health care and institutional settings that primarily serve older adults. All of the field placements deal with issues of aging, community, mental health, policy, and institutions. The primary purpose of the field placement is to provide an opportunity for guided practical experience in social work settings so that students may acquire the knowledge, values, and skills essential for professional gerontological social work practice. This field unit provides opportunities for integrating theoretical content and knowledge with the practice experience. The practice perspective of the aging and mental health unit is generalist practice, which includes a problem-focused generalist approach with a special emphasis on:

1. direct service to older adults and their families; and
2. resource development and coordination.

Participating Agencies: Agrace Hospice, Alzheimers Association; Attic Angel Place; Badger Prairie Health Care Center; Care Wisconsin; Catholic Charities; Dane County Human Services Guardianship & Protective Placement; East Madison Monona Coalition of the Aging; Fitchburg Senior Center; the Geriatric Research Education and Clinical Center (GRECC) at the Veterans Administration Hospital; Jewish Social Service; North Eastside Senior Coalition; Retired Senior Volunteer Program; South Madison Coalition; St. Mary's Adult Day Center; St. Mary's Care Center; Oak Park Retirement Community; UW Health Geriatrics Clinic.

SOCIAL WORK PRACTICE IN PUBLIC AND PRIVATE CHILD WELFARE

This field unit is a public human/social service agency unit with practice including both direct and indirect services with clients. Students are involved in child welfare and child protective services, juvenile delinquency, foster care and community social work. Placement activities include child protective services initial assessment, family assessment, case planning, individual and family counseling, case management, juvenile court services, foster care services, neighborhood and community services and overall program planning. Students gain a solid understanding of the place of a public social service agency in the human services/child and child welfare system. Placements provide skills in case assessment and planning, case management, counseling, court services, group work and community resource networking.

Participating Agencies: Field Placements locations for the field unit include: County Human Service/Social Service offices in Columbia, Dane, Green, Iowa, Jefferson, Rock and Sauk Counties and include the following

specializations: Foster Care, Child Welfare, Child Protective Services, Access, Initial Assessments, and Ongoing Services.

<i>Select one of the following research courses:</i> ³		3-4
SOC WORK 650	Methods of Social Work Research (A)	
SOC/ C&E SOC 357	Methods of Sociological Inquiry (I)	
PSYCH 225	Research Methods (I)	
Total Credits		6-7

¹ STAT 301 is recommended by the School of Social Work. This course also fulfills 3 credits of quantitative reasoning B(r), math *and* natural science (N) toward the Letters & Science breadth requirements.

² STAT 371 Introductory Applied Statistics for the Life Sciences fulfills 3 credits quantitative reasoning B(r) *and* natural science (N) toward L&S breadth requirements.

³ SOC WORK 650 is recommended for BSW students. Double majors in sociology or psychology may take SOC/C&E SOC 357 or PSYCH 225 for this requirement.

ELECTIVE

Complete one intermediate- or advanced-level Social Work (http://guide.wisc.edu/courses/soc_work) course.

INDEPENDENT WORK

Students with an interest in a particular area of study may develop a plan of independent work with the assistance of an interested faculty member. They may obtain information about instructors and their areas of interest from the School of Social Work website. Consent of instructor is required for the following course offerings in independent work:

Code	Title	Credits
SOC WORK 681	Senior Honors Thesis	3
SOC WORK 682	Senior Honors Thesis	3
SOC WORK 691	Senior Thesis	2
SOC WORK 692	Senior Thesis	2
SOC WORK 699	Directed Study	1-3

15 CREDIT RULE

All students are required to fulfill the L&S requirement of **15 credits of upper-level work in the major** taken in residence. Courses that count toward this requirement for social work and social welfare are:

Code	Title	Credits
SOC WORK 650	Methods of Social Work Research	3

SOC/C&E SOC 357	Methods of Sociological Inquiry	3-4
PSYCH 225	Research Methods	4
SOC WORK 457	Human Behavior and the Environment	3
SOC WORK 640	Social Work with Ethnic and Racial Groups	3
SOC WORK 441	Generalist Practice with Individuals, Families and Groups	1-3
SOC WORK 442	Generalist Practice with Communities and Organizations	1-2
SOC WORK 612	Psychopathology for Generalist Social Work Practice	3

Those social work electives designated as I or A

CERTIFICATE PROGRAMS

BSW students and social welfare majors often choose the following certificate programs: American Indian studies, business, criminal justice, gender and women's studies, gerontology, global cultures, global health, LGBT studies, and religious studies. More details about certificates are available in this Guide.

ACCREDITATION

The BSW program is accredited by the Council on Social Work Education (CSWE). The social welfare major is accredited along with the rest of the College of Letters & Science by the Higher Learning Commission.

GRADUATE SCHOOL

BSW students completing professional foundation courses with a grade of B or better are eligible for advanced standing in the master's program. For more information see the School of Social Work website FAQs at Admissions: Advanced Standing & Exemptions (<https://socwork.wisc.edu/fulltimemsw-faq>).

HONORS IN THE MAJOR

Students may apply for admission to Honors in the Bachelor of Social Work in consultation with the Social Work undergraduate advisor before beginning the Senior Honors Thesis. Students must make arrangements with a faculty member to sponsor their research project before admission will be granted.

HONORS IN THE BACHELOR OF SOCIAL WORK REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Social Welfare students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.400 GPA for all SOC WORK courses, and all courses accepted in the major
- Complete SOC WORK 650 Methods of Social Work Research
- Complete one SOC WORK elective related to Senior Honors Thesis research topic
- Complete SOC WORK 579 Special Topics in Social Work concurrently with SOC WORK 681 Senior Honors Thesis
- Complete a two-semester Senior Honors Thesis in SOC WORK 681 Senior Honors Thesis and SOC WORK 682 Senior Honors Thesis for a total of 6 credits
- Present thesis results at a department colloquium.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

At the conclusion of the degree program, BSW students are expected to be able to:

1. Engage diversity and difference in practice.
2. Advance human rights and social, economic and environmental justice.
3. Engage in practice-informed research and research informed practice.
4. Engage in policy practice.
5. Engage with individuals, families, groups, organizations, and communities.
6. Assess individuals, families, groups, organizations, and communities.
7. Intervene with individuals, families, groups, organizations, and communities.
8. Evaluate practice with individuals, families, groups, organizations, and communities.
9. Demonstrate ethical and professional behavior.

ADVISING AND CAREERS

ADVISING

Students interested in either the social welfare major or bachelor of social work meet with the social work advisors to discuss degree requirements; career opportunities; complete the major declaration; and confer on student issues and concerns. Advisors are an excellent resource for information about campus and community services. Students should see an advisor at least once each semester to review academic progress. Advising appointments are made through the school's website (<https://socwork.wisc.edu/appointments>) or by calling 263-3660. Social work faculty members are available for advice about the social work, research, and the social work profession in general.

PEOPLE

Professors: Lawrence M. Berger, MSW, Ph.D.; Aaron Brower, MSW, Ph.D.; Maria Cancian Ph.D.; Jan Steven Greenberg, MSSW, Ph.D.; Betty J. Kramer, MSSW, Ph.D.; Katherine Magnuson, Ph.D.; Marsha Mailick, Ph.D.; Daniel R. Meyer, MSW, Ph.D.; Stephanie A. Robert, MSW, Ph.D.; Kristen Shook Slack, A.M., Ph.D.

Associate Professors: Marah A. Curtis, MSW, Ph.D.; Tally Moses, MSW, Ph.D.; Tracy Schroeffer, MSW, Ph.D.

Assistant Professors: Lauren Bishop-Fitzpatrick, Ph.D.; Alejandra Ros Pilarz, Ph.D.; Tova Walsh, MSW, Ph.D.; Yang Sao Xiong, Ph.D.

Clinical Associate Professor: Ellen Smith, MSSW

Clinical Assistant Professors: Audrey Conn, MSSW, APSW; Amanda Ngola, MSW, LCSW; Angela Willits, MSW, LCSW

SOCIOLOGY

Sociology applies the methods of science to explain social behavior. The interactions of individuals in families, groups, or organizations, and the institutions, social class, or shared beliefs of a common culture are all subjects for sociological research. There are many career opportunities open to people who complete a major in sociology, including business, counseling and social service, public policy, law, and criminal justice.

Students interested in sociology should meet with the undergraduate advisor before they register for the second semester of the sophomore year. The undergraduate office's resource center holds detailed information about the major, the department, research interests of sociology faculty, career opportunities, and student work. Declaration of the major during the sophomore year will give students access to required sociology courses for fall of the junior year.

CRIMINAL JUSTICE CERTIFICATE

Sociology majors wishing to earn a certificate in criminal justice may do so with a minimum of additional course requirements and permission of the Criminal Justice advisor. See Criminal Justice section in this Guide.

ENROLLMENT

Required courses for the sociology major and for the CAR option may have temporary course controls that send non-declared students "Course Requisites Not Met" enrollment error messages. Certain 100-numbered courses each semester are restricted to freshmen and sophomores until freshmen have enrolled. Check the Course Guide for notes each semester.

Transfer students whose equivalent courses have been posted to their records as "electives," numbered XXX, may use those courses as prerequisites if the department approves their equivalencies to similar UW-Madison courses. What is needed is a conversation with the undergraduate advisor either in the office or at SOAR.

HONORS PROGRAM

A variety of courses in sociology offer honors credit, and may be used toward Honors in the Liberal Arts in the College of Letters & Science. These include the special honors introductory seminar, Sociology 181, Sociology 380 Contemporary Population Problems, other special

honors sections of 100- and 200-level courses, and courses that provide honors by arrangement with the instructor. Sociology also has courses that award automatic honors, including SOC/C&E SOC 361 Statistics for Sociologists II, SOC 362 Statistics for Sociologists III and SOC/C&E SOC 693 Practicum in Analysis and Research, and certain other upper-division courses designated by semester in the Course Guide. Sociology also makes special offerings of upper-level courses available to sophomores in the honors program for one semester at a time.

PREREQUISITES, L&S BREADTH, AND COURSE LEVELS

Sociology course numbers over 300 indicate subject matter rather than level of difficulty. Unless indicated otherwise, prerequisites at the upper level are junior standing and an introductory course in sociology or consent of instructor.

Most courses in sociology count toward the social studies breadth requirement. Courses SOC/GEN&WS 200 Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies, SOC/GEOG/HISTORY/LCA/POLI SCI 244 Introduction to Southeast Asia: Vietnam to the Philippines, SOC/GEOG/HISTORY/LCA/POLI SCI 252 The Civilizations of India-Modern Period, and SOC/AFRICAN/AFROAMER/ANTHRO/GEOG/HISTORY/POLI SCI 277 Africa: An Introductory Survey count toward breadth requirements in either humanities or social studies. The following do not count toward any breadth requirement:

Code	Title	Credits
SOC/C&E SOC 357	Methods of Sociological Inquiry	3-4
SOC/C&E SOC 360	Statistics for Sociologists I	4
SOC/C&E SOC 361	Statistics for Sociologists II	3
SOC 362	Statistics for Sociologists III	3
SOC 496	Topics in Sociology	1-3
SOC/C&E SOC 693	Practicum in Analysis and Research	3
SOC/LEGAL ST 694	Criminal Justice Field Observation	2-3

DEGREES/MAJORS/CERTIFICATES

- Sociology, B.A. (p. 1138)
- Sociology, B.S. (p. 1145)

PEOPLE

Professors Carlson, Emirbayer, Ermakoff, Ferree, Ford, Freeland, Fujimura, Gerber, Goldberg, Grodsky, Herd, Logan, Massoglia, Maynard, Montgomery, Oliver, Raymo, Rogers, Schaeffer, Schwartz, Seidman, Wright

Associate Professors Elwert, Fletcher, Grant, Lim, Nobles

Assistant Professors Conti, Engelman, Goffman

INTEGRATED STUDIES IN SCIENCE, ENGINEERING, AND SOCIETY, CERTIFICATE

The certificate in Integrated Studies in Science, Engineering, and Society Undergraduate (ISSuES) offers undergraduate students an opportunity to explore the social sciences and humanities in a way that emphasizes the relationship between science, technology, medicine, engineering, and society. From energy to communications technologies to gene editing to automation, the interplay between researchers, developers, policy makers and the public is constantly shaping and reshaping our world. The ISSuES certificate allows undergraduate students to complement their majors with a set of courses aimed at helping them understand how society shapes science and how science shapes society.

Offered by the Holtz Center for Science & Technology Studies, ISSuES was designed to help STEM-field majors fulfill their liberal arts requirements, but is highly flexible and is available to all undergraduate students interested in exploring the complex interplay between science, technology, medicine, engineering, and society. For more information, see the program website (<http://sts.wisc.edu>).

HOW TO GET IN

The certificate in integrated studies in science, engineering and society is offered to all undergraduate students. To be considered for admission to the certificate program, students must be in good academic standing. Students should begin the application process by the end of sophomore year, but no later than the end of their junior year.

The first step in applying to the program is to consult with the ISSuES certificate advisor. To make an appointment, please send an email to sts@ssc.wisc.edu.

Total Credits 15

¹ Courses taken with the pass/fail grade option do not apply to the certificate.

² Courses used for the Focus area cannot also count for Capstone.

RESIDENCE & QUALITY OF WORK

2.000 GPA on all certificate-approved courses

8 credits in the certificate, in residence

LEARNING OUTCOMES

The **Integrated Studies in Science, Engineering, and Society Undergraduate Certificate Program (ISSuES)** offers undergraduate students an opportunity to interact with the social sciences and humanities in a way that emphasizes the relationship between science, technology, engineering, medicine and society.

Students in the certificate will:

- 1) Be exposed to the social sciences and humanities and see their relevance to scientific and technological enterprises;
- 2) Develop the capacity for interdisciplinary, critical thinking about the relationship between science, technology, engineering, medicine and society;
- 3) Develop a sense of personal and social responsibility for their engineering, scientific or other professional practice;
- 4) Strengthen written communication skills.

ADVISING AND CAREERS

ADVISING

To obtain advising assistance, students should consult with the ISSuES certificate advisor. To make an appointment, send an email to sts@ssc.wisc.edu.

All UW–Madison undergraduates are encouraged to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs, and the ISSuES certificate provides students with a way to integrate their liberal studies with the skills they are developing in their majors. It is important to us that our students are career ready at the time of graduation, and we are committed to your success. Students who have completed the certificate say that it helped them enhance the portfolio of skills they offered to employers and graduate programs by giving them foundations for understanding and communicating effectively about the ethical, policy, design and other non-technical aspects of science, engineering and medicine.

CAREER RESOURCES

- Why the liberal arts? (<http://ls.wisc.edu/about/why-liberal-arts>)
- Set up a Career Advising Appointment (<http://careers.ls.wisc.edu/Undergraduate-Advising.htm>)
- L&S Career Services (<http://careers.ls.wisc.edu/students.htm>): We launch our students higher, sooner
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first and second-year students)

SOCIOLOGY, B.A.

Sociology applies the methods of science to explain social behavior. The interactions of individuals in families, groups, or organizations, and the institutions, social class, or shared beliefs of a common culture are all subjects for sociological research. There are many career opportunities open to people who complete a major in sociology, including business, counseling and social service, public policy, law, and criminal justice.

Students interested in sociology should meet with the undergraduate advisor before they register for the second semester of the sophomore year. The undergraduate office's resource center holds detailed information about the major, the department, research interests of sociology faculty, career opportunities, and student work. Declaration of the major during the sophomore year will give students access to required sociology courses for fall of the junior year.

CRIMINAL JUSTICE CERTIFICATE

Sociology majors wishing to earn a certificate in criminal justice may do so with a minimum of additional course requirements and permission of the Criminal Justice advisor. See Criminal Justice section in this Guide.

ENROLLMENT

Required courses for the sociology major and for the CAR option may have temporary course controls that send non-declared students "Course Requisites Not Met" enrollment error messages. Certain 100-numbered courses each semester are restricted to freshmen and sophomores until freshmen have enrolled. Check the Course Guide for notes each semester.

Transfer students whose equivalent courses have been posted to their records as "electives," numbered XXX, may use those courses as prerequisites if the department approves their equivalencies to similar UW–Madison courses. What is needed is a conversation with the undergraduate advisor either in the office or at SOAR.

HONORS PROGRAM

A variety of courses in sociology offer honors credit, and may be used toward Honors in the Liberal Arts in the College of Letters & Science. These include the special honors introductory seminar, Sociology 181, Sociology 380 Contemporary Population Problems, other special honors sections of 100- and 200-level courses, and courses that provide honors by arrangement with the instructor. Sociology also has courses that award automatic honors, including SOC/C&E SOC 361 Statistics for Sociologists II, SOC 362 Statistics for Sociologists III and SOC/C&E SOC 693 Practicum in Analysis and Research, and certain other upper-division courses designated by semester in the Course Guide. Sociology also makes special offerings of upper-level courses available to sophomores in the honors program for one semester at a time.

PREREQUISITES, L&S BREADTH, AND COURSE LEVELS

Sociology course numbers over 300 indicate subject matter rather than level of difficulty. Unless indicated otherwise, prerequisites at the upper level are junior standing and an introductory course in sociology or consent of instructor.

Most courses in sociology count toward the social studies breadth requirement. Courses SOC/GEN&WS 200 Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies, SOC/GEOG/HISTORY/LCA/POLI SCI 244 Introduction to Southeast Asia: Vietnam to the Philippines, SOC/GEOG/HISTORY/LCA/POLI SCI 252 The Civilizations of India-Modern Period, and SOC/AFRICAN/AFROAMER/ANTHRO/GEOG/HISTORY/POLI SCI 277 Africa: An Introductory Survey count toward breadth requirements in either humanities or social studies. The following do not count toward any breadth requirement:

Code	Title	Credits
SOC/C&E SOC 357	Methods of Sociological Inquiry	3-4
SOC/C&E SOC 360	Statistics for Sociologists I	4
SOC/C&E SOC 361	Statistics for Sociologists II	3
SOC 362	Statistics for Sociologists III	3
SOC 496	Topics in Sociology	1-3
SOC/C&E SOC 693	Practicum in Analysis and Research	3
SOC/LEGAL ST 694	Criminal Justice Field Observation	2-3

HOW TO GET IN

Sociology has no grade point minimum or prerequisite classes for declaring the major. However, students must have an in-person meeting with the undergraduate advisor for a review of the major requirements and assessment of the progress toward graduation. Sociology majors pursuing the Concentration in analysis and Research are admitted after earning a 3.0 grade point average in SOC/C&E SOC 360 Statistics for Sociologists I and SOC/C&E SOC 357 Methods of Sociological Inquiry.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE SOCIOLOGY MAJOR

A minimum of 30 credits in SOC courses is required for the basic major. A minimum of 36 credits in SOC courses is required for the elective Option—Concentration in Analysis and Research (CAR).

All students are required to take **four** foundation core courses (Introduction, Research Methods, Statistics I, and Classical Sociological Theory) **and four** additional upper-level distribution courses that build on prior sociological and social scientific knowledge from the foundation core courses.

Students are strongly encouraged to complete the four required foundation core courses as early as possible. These foundation courses are prerequisites for most upper-level courses.

Code	Title	Credits
Foundation (Core) Courses		
<i>Introduction to SOC (choose one)</i>		3-4
SOC/ C&E SOC 210	Survey of Sociology	
SOC/ C&E SOC 211	The Sociological Enterprise	
SOC 181	Honors Introductory Seminar-The Sociological Enterprise	
<i>Research Methods</i> ¹		
SOC/C&E SOC 357	Methods of Sociological Inquiry (Research Methods)	3-4
<i>Statistics</i>		
SOC/C&E SOC 360	Statistics for Sociologists I	4
OR select one equivalent statistics course from another department: ²		
GEN BUS 303	Business Statistics	
ECON 310	Statistics: Measurement in Economics	
GEOG 360	Quantitative Methods in Geographical Analysis	
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	
PSYCH 210	Basic Statistics for Psychology	
PSYCH 280	Honors Basic Statistics for Psychology	
STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	
<i>Classical Theory:</i>		
SOC/C&E SOC 475	Classical Sociological Theory	3
Distribution Courses		
Select 4 courses from at least 2 different areas (see below)		
Electives		
Select additional SOC electives to bring total credits to 30		
<p>¹ Students may take methods and statistics in the same semester. If students take methods and statistics in different semesters, we recommend taking methods before statistics as an entry point to the methods and materials of the field.</p> <p>² Statistics courses taken outside of the Department of Sociology will not count for part of the 30-credit minimum in the major or for part of the 15-credit upper-level residence requirement. However, students may have good reason for substituting SOC/C&E SOC 360. For example, STAT 301 and STAT 371 satisfy part of the B.S. Math requirement—and/or count as Natural Science for the B.A. SOC/C&E SOC 360 does not.</p>		
DISTRIBUTION AREAS		
Select 4 courses from at least 2 of the seven areas below.		
Additional Methods/Statistics		
Code	Title	Credits

**CONCENTRATION IN ANALYSIS AND RESEARCH ("CAR")
WHAT IS "CAR"?**

The Concentration in Analysis and Research—an elective option within the undergraduate sociology major—is designed for students who do well and are interested in research methods and statistics. CAR prepares students for entry-level jobs in applied social research and/or for graduate study. Key features of the concentration include advanced

statistics courses, training in social science computing, and research. By selecting appropriate electives and internships, students may focus their training on demography, survey research, marketing and communications, criminal justice, health care, education, social services, natural resources, organizations, or personnel and human resources.

Requirements for the CAR Option

Concentration in Analysis and Research (CAR)—Option noted on transcript.

Faculty director: Professor James Raymo, 2446 Social Science; 608-262-2783; jraymo@ssc.wisc.edu

To be admitted to the CAR program, students must have a minimum GPA of 3.000 (B) in Methods and Statistics. To complete the CAR program, students must complete the following 36 credits of SOC courses, meet the requirements and earn a minimum GPA of 3.000 in those courses unique to the CAR option.

All students are required to take four foundation core courses (Introduction, Research, Statistics, and Theory) and additional CAR Distribution courses in Statistics, Research, Computing, and Practicum that build on prior sociological and social scientific knowledge from the foundation core courses.

Students are strongly encouraged to complete the four required foundation core courses as early as possible. These foundation courses are prerequisites for most upper-level courses and the option has several sequenced courses, some of which are taught only once a year.

Select additional courses required by CAR and sociology electives to bring total credits to 36		
Total Credits		35-38

¹ Students may take methods and statistics in the same semester. If students take methods and statistics in different semesters, we recommend taking methods before statistics as an entry point to the methods and materials of the field.

² Statistics courses taken outside of the Department of Sociology will not count as part of the 36-credit minimum in the CAR Option or as part of the 15-credit upper-level minimum in residence.

³ See CAR director or undergraduate advisor for the current list.

⁴ This course is offered in spring semester only, and must be preceded by a research internship arranged by the CAR faculty director. Students who have completed this option will have completed graduate-level statistics, and if they enter the graduate program here, may apply 6 credits toward the M.A. requirements.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all SOC courses and courses that count toward the major

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in SOC, taken on campus

THESIS OF DISTINCTION

This distinction is available to students who write a thesis but who do not earn Honors in the Major. A thesis of distinction requires a senior thesis of high caliber, but no specific cumulative grade point average is required.

HONORS IN THE MAJOR

Students may declare Honors in the Sociology Major in consultation with the Sociology undergraduate advisor.

HONORS IN THE SOCIOLOGY MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Sociology students must satisfy the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all SOC courses, and all courses accepted in the major
- Complete 21 credits, taken for Honors, with individual grades of B or better, to include:

Code	Title	Credits
SOC/C&E SOC 357	Methods of Sociological Inquiry	4
SOC/C&E SOC 475	Classical Sociological Theory	3
SOC 681	Senior Honors Thesis	3
SOC 682	Senior Honors Thesis	3

The remaining 9 Honors credits must be in courses at or above the 300 level.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

aid of faculty and staff, students use their social research skills to identify opportunities for employment or further study, assess their qualifications for these opportunities, and identify strategies for gaining the necessary knowledge and experience to improve their qualifications. Students are encouraged to develop and maintain portfolios of their written work and educational experiences to aid them in preparing applications.

LEARNING OUTCOMES

1. **Conduct Research and Analyze Data:**
Sociology encompasses both qualitative and quantitative research methods. Quantitative methods are used in market research, opinion polling, sales, government, and countless other applications and allow researchers to recognize trends and patterns and produce social statistics. Qualitative research skills provide an in depth understanding of interactions, communications, worksite practices, and social worlds. Advanced sociological research methods require graduate-level training beyond the scope of our undergraduate major, but we expect that all undergraduate majors will be able to conduct small-scale research using surveys, interviews, experiments, textual analysis or observations in which they formulate a research question, collect data, analyze results, and draw conclusions.
2. **Critically Evaluate Published Research:**
Sociology graduates will be able to read and evaluate published research as it appears in academic journals and popular or policy publications. They will be able to identify the research methods used, assess the quality of the sample, assess the quality of measurements and procedures, evaluate the links between the data and the interpretations, identify possible threats to the validity of the results, and provide an overall assessment of the trustworthiness of the research results. They will be able to read and evaluate a set of research articles on the same broad issue and be able to draw summarize the research findings across multiple issue.
3. **Communicate Skillfully:**
Because the sociology major involves a large amount of reading, writing, and discussion, majors learn how to convey ideas effectively in writing, presentations, and everyday conferences and meetings. Sociology majors write papers and make oral presentations that build arguments and assess evidence in a clear and effective manner.
4. **Critical Thinking about Society and Social Processes:**
Sociological inquiry involves learning to look beyond the surface of issues to discover the "why" and "how" of social order and structure. Sociology majors develop strong analytical skills and learn to solve problems and identify opportunities. They are able to consider the underlying social mechanisms that may be creating a situation, identify evidence that may adjudicate between alternate explanations for phenomena, and develop proposed policies or action plans in light of theory and data.
5. **See Things from a Global Perspective:**
Sociologists learn about different cultures, groups, and societies. They examine both variation and universality across places and through history. They are aware of the diversity of backgrounds and experiences among residents of the United States. They understand the ways events and processes in one country are linked to those in other countries.
6. **Prepare for Graduate School and the Job Market:**
An undergraduate major in sociology provides an excellent foundation for work and graduate study in a wide range of fields including law, business, social work, medicine, policy research, public health, public administration and, of course, sociology. With the

ADVISING AND CAREERS

ADVISING

This university is a very big place. Even the most well-prepared new students will have moments when they say to themselves, "Uh oh. What have I got myself into going to such a big school? Choosing courses at SOAR was stressful, fun, or both, but after SOAR am I on my own?" The answer is no. Every student has at least one assigned advisor. Over the course of their time at the university, students may have several assigned advisors. That is a good thing; L&S advisors are highly networked, and they always communicate with each other about shared students.

When students read their DARS reports—documents that were developed to help them find their way to a timely graduation, they can feel overwhelmed; it looks like they need 500 credits to graduate. How can they get all those requirements done? Do sociology (or Spanish, or English) majors really have to take biology courses?

In the sociology department, we take advising very seriously. We encourage our majors to see the advisor at least once every semester. The advisor will help you summarize the DARS and map your completed coursework onto the goals and timeline for graduation, including the sociology major and L&S requirements. The sociology advisor will have departmental or college news about guest speakers, new faculty, new courses, internships, and scholarships. This advisor will also be able to assist in preparation for, and applications to graduate school, and be able to connect students with faculty, whose information about various sociology programs is always the most current. The sociology advisor will also see freshmen and sophomores exploring the major in sociology.

CAREERS

Sociology majors do very well in the job market. The critical, analytic, and quantitative skills they have mastered in the major, along with their commitments to social justice and their understanding of organizations make them desirable job candidates. Every year the department invites sociology alumni to campus for career panels or "speed mentoring." Current sociology majors get to talk to people only slightly older than themselves who have successfully made the transitions from undergraduate to professional.

Sociology also has an advisor devoted exclusively to careers. This advisor teaches a 1-credit course where students learn the arts of resume building and resume writing, applying for and getting internships, and in which they practice self-reflection activities which lead to insights about what they really want to do after college, and where they learn how to make connections between their academic work and their work in the "real world." This advisor is also available for one-on-one advising.

Our career advisor also partners with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and

employers). See L&S Career Services (<http://careers.ls.wisc.edu>) for more information.

Associate Professors Elwert, Fletcher, Grant, Lim, Nobles

Assistant Professors Conti, Engelman, Goffman

WISCONSIN EXPERIENCE

THE WISCONSIN EXPERIENCE: ESSENTIAL LEARNING IN THE COLLEGE OF LETTERS & SCIENCE

The three elements of learning described below—tools, breadth, and depth—work together to create a broad and rich education in the liberal arts and sciences, and promote attainment of core areas of essential learning: knowledge of human cultures and the natural and physical world, intellectual and practical skills, personal and social responsibility, and integrative and applied learning. These and countless other experiences comprise the Letters & Science approach to helping students obtain a distinctive *Wisconsin Experience*.

Additional information about the Wisconsin Experience can be found through the Office of Admissions and Recruitment/Why UW link (https://www.admissions.wisc.edu/why/wisconsin_experience.php).

SOCIOLOGY, B.S.

Sociology applies the methods of science to explain social behavior. The interactions of individuals in families, groups, or organizations, and the institutions, social class, or shared beliefs of a common culture are all subjects for sociological research. There are many career opportunities open to people who complete a major in sociology, including business, counseling and social service, public policy, law, and criminal justice.

Students interested in sociology should meet with the undergraduate advisor before they register for the second semester of the sophomore year. The undergraduate office's resource center holds detailed information about the major, the department, research interests of sociology faculty, career opportunities, and student work. Declaration of the major during the sophomore year will give students access to required sociology courses for fall of the junior year.

CRIMINAL JUSTICE CERTIFICATE

Sociology majors wishing to earn a certificate in criminal justice may do so with a minimum of additional course requirements and permission of the Criminal Justice advisor. See Criminal Justice section in this Guide.

ENROLLMENT

Required courses for the sociology major and for the CAR option may have temporary course controls that send non-declared students "Course Requisites Not Met" enrollment error messages. Certain 100-numbered

courses each semester are restricted to freshmen and sophomores until freshmen have enrolled. Check the Course Guide for notes each semester.

Transfer students whose equivalent courses have been posted to their records as "electives," numbered XXX, may use those courses as prerequisites if the department approves their equivalencies to similar UW–Madison courses. What is needed is a conversation with the undergraduate advisor either in the office or at SOAR.

HONORS PROGRAM

A variety of courses in sociology offer honors credit, and may be used toward Honors in the Liberal Arts in the College of Letters & Science. These include the special honors introductory seminar, Sociology 181, Sociology 380 Contemporary Population Problems, other special honors sections of 100- and 200-level courses, and courses that provide honors by arrangement with the instructor. Sociology also has courses that award automatic honors, including SOC/C&E SOC 361 Statistics for Sociologists II, SOC 362 Statistics for Sociologists III and SOC/C&E SOC 693 Practicum in Analysis and Research, and certain other upper-division courses designated by semester in the Course Guide. Sociology also makes special offerings of upper-level courses available to sophomores in the honors program for one semester at a time.

PREREQUISITES, L&S BREADTH, AND COURSE LEVELS

Sociology course numbers over 300 indicate subject matter rather than level of difficulty. Unless indicated otherwise, prerequisites at the upper level are junior standing and an introductory course in sociology or consent of instructor.

Most courses in sociology count toward the social studies breadth requirement. Courses SOC/GEN&WS 200 Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies, SOC/GEOG/HISTORY/LCA/POLI SCI 244 Introduction to Southeast Asia: Vietnam to the Philippines, SOC/GEOG/HISTORY/LCA/POLI SCI 252 The Civilizations of India-Modern Period, and SOC/AFRICAN/AFROAMER/ANTHRO/GEOG/HISTORY/POLI SCI 277 Africa: An Introductory Survey count toward breadth requirements in either humanities or social studies. The following do not count toward any breadth requirement:

Code	Title	Credits
SOC/C&E SOC 357	Methods of Sociological Inquiry	3-4
SOC/C&E SOC 360	Statistics for Sociologists I	4
SOC/C&E SOC 361	Statistics for Sociologists II	3
SOC 362	Statistics for Sociologists III	3
SOC 496	Topics in Sociology	1-3
SOC/C&E SOC 693	Practicum in Analysis and Research	3
SOC/LEGAL ST 694	Criminal Justice Field Observation	2-3

HOW TO GET IN

Sociology has no grade point minimum or prerequisite classes for declaring the major. However, students must have an in-person meeting with the undergraduate advisor for a review of the major requirements and assessment of the progress toward graduation. Sociology majors pursuing the Concentration in analysis and Research are admitted after earning a 3.0 grade point average in SOC/C&E SOC 360 Statistics for Sociologists I and SOC/C&E SOC 357 Methods of Sociological Inquiry.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE SOCIOLOGY MAJOR

A minimum of 30 credits in SOC courses is required for the basic major. A minimum of 36 credits in SOC courses is required for the elective Option—Concentration in Analysis and Research (CAR).

All students are required to take **four** foundation core courses (Introduction, Research Methods, Statistics I, and Classical Sociological Theory) **and four** additional upper-level distribution courses that build on prior sociological and social scientific knowledge from the foundation core courses.

Students are strongly encouraged to complete the four required foundation core courses as early as possible. These foundation courses are prerequisites for most upper-level courses.

Code	Title	Credits
Foundation (Core) Courses		
<i>Introduction to SOC (choose one)</i>		3-4
SOC/C&E SOC 210	Survey of Sociology	
SOC/C&E SOC 211	The Sociological Enterprise	
SOC 181	Honors Introductory Seminar-The Sociological Enterprise	
<i>Research Methods</i> ¹		
SOC/C&E SOC 357	Methods of Sociological Inquiry (Research Methods)	3-4
<i>Statistics</i>		
SOC/C&E SOC 360	Statistics for Sociologists I	4
OR select one equivalent statistics course from another department: ²		
GEN BUS 303	Business Statistics	
ECON 310	Statistics: Measurement in Economics	
GEOG 360	Quantitative Methods in Geographical Analysis	

MATH/STAT 310	Introduction to Probability and Mathematical Statistics II
PSYCH 210	Basic Statistics for Psychology
PSYCH 280	Honors Basic Statistics for Psychology
STAT 301	Introduction to Statistical Methods
STAT 371	Introductory Applied Statistics for the Life Sciences

Classical Theory:

SOC/C&E SOC 475	Classical Sociological Theory	3
-----------------	-------------------------------	---

Distribution Courses

Select 4 courses from at least 2 different areas (see below)

Electives

Select additional SOC electives to bring total credits to 30

- ¹ Students may take methods and statistics in the same semester. If students take methods and statistics in different semesters, we recommend taking methods before statistics as an entry point to the methods and materials of the field.
- ² Statistics courses taken outside of the Department of Sociology will not count for part of the 30-credit minimum in the major or for part of the 15-credit upper-level residence requirement. However, students may have good reason for substituting SOC/C&E SOC 360. For example, STAT 301 and STAT 371 satisfy part of the B.S. Math requirement—and/or count as Natural Science for the B.A. SOC/C&E SOC 360 does not.

DISTRIBUTION AREAS

Select 4 courses from at least 2 of the seven areas below.

Additional Methods/Statistics

Code	Title	Credits

CONCENTRATION IN ANALYSIS AND RESEARCH ("CAR") WHAT IS "CAR"?

The Concentration in Analysis and Research—an elective option within the undergraduate sociology major—is designed for students who do well and are interested in research methods and statistics. CAR prepares students for entry-level jobs in applied social research and/or for graduate study. Key features of the concentration include advanced statistics courses, training in social science computing, and research. By selecting appropriate electives and internships, students may focus their training on demography, survey research, marketing and communications, criminal justice, health care, education, social services, natural resources, organizations, or personnel and human resources.

Requirements for the CAR Option

Concentration in Analysis and Research (CAR)—Option noted on transcript.

Faculty director: Professor James Raymo, 2446 Social Science; 608-262-2783; jraymo@ssc.wisc.edu

To be admitted to the CAR program, students must have a minimum GPA of 3.000 (B) in Methods and Statistics. To complete the CAR program, students must complete the following 36 credits of SOC courses, meet the requirements and earn a minimum GPA of 3.000 in those courses unique to the CAR option.

All students are required to take four foundation core courses (Introduction, Research, Statistics, and Theory) and additional CAR Distribution courses in Statistics, Research, Computing, and Practicum that build on prior sociological and social scientific knowledge from the foundation core courses.

Students are strongly encouraged to complete the four required foundation core courses as early as possible. These foundation courses

are prerequisites for most upper-level courses and the option has several sequenced courses, some of which are taught only once a year.

Code	Title	Credits
Foundation Courses		
<i>Introduction</i>		
Select one of the following:		3-4
SOC/ C&E SOC 210	Survey of Sociology	
SOC/ C&E SOC 211	The Sociological Enterprise	
SOC 181	Honors Introductory Seminar-The Sociological Enterprise

Select 2 of the following:		
SOC 375	Introduction to Mathematical Sociology	
SOC 376	Mathematical Models of Social Systems	
SOC 535	Talk and Social Interaction	

SOC/ECON 663	Population and Society	
SOC 674	Demographic Techniques I	
SOC/ C&E SOC 676	Applied Demography: Planning and Policy	
Or one approved research elective from outside sociology ³		
<i>Introductory Computing</i>		
SOC/C&E SOC 365	Data Management for Sociological Research	3-4
<i>Research Practicum</i>		
SOC/C&E SOC 693	Practicum in Analysis and Research ⁴	3
Electives		
Select additional courses required by CAR and sociology electives to bring total credits to 36		
Total Credits		35-38

- Students may take methods and statistics in the same semester. If students take methods and statistics in different semesters, we recommend taking methods before statistics as an entry point to the methods and materials of the field.
- Statistics courses taken outside of the Department of Sociology will not count as part of the 36-credit minimum in the CAR Option or as part of the 15-credit upper-level minimum in residence.
- See CAR director or undergraduate advisor for the current list.
- This course is offered in spring semester only, and must be preceded by a research internship arranged by the CAR faculty director. Students who have completed this option will have completed graduate-level statistics, and if they enter the graduate program here, may apply 6 credits toward the M.A. requirements.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all SOC courses and courses that count toward the major

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in SOC, taken on campus

¹Sociology defines Upper-Level as Courses 300–699 **except**:

Code	Title	Credits

SOC/PSYCH 453	Human Sexuality	4
SOC 497	Study Abroad in Sociology	1-6

THESIS OF DISTINCTION

This distinction is available to students who write a thesis but who do not earn Honors in the Major. A thesis of distinction requires a senior thesis of high caliber, but no specific cumulative grade point average is required.

HONORS IN THE MAJOR

Students may declare Honors in the Sociology Major in consultation with the Sociology undergraduate advisor.

HONORS IN THE SOCIOLOGY MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Sociology students must satisfy the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all SOC courses, and all courses accepted in the major
- Complete 21 credits, taken for Honors, with individual grades of B or better, to include:

Code	Title	Credits
SOC/C&E SOC 357	Methods of Sociological Inquiry	4
SOC/C&E SOC 475	Classical Sociological Theory	3
SOC 681	Senior Honors Thesis	3
SOC 682	Senior Honors Thesis	3

The remaining 9 Honors credits must be in courses at or above the 300 level.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. **Conduct Research and Analyze Data:**
Sociology encompasses both qualitative and quantitative research methods. Quantitative methods are used in market research, opinion polling, sales, government, and countless other applications and allow researchers to recognize trends and patterns and produce social statistics. Qualitative research skills provide an in depth understanding of interactions, communications, worksite practices, and social worlds. Advanced sociological research methods require graduate-level training beyond the scope of our undergraduate major, but we expect that all undergraduate majors will be able to conduct small-scale research using surveys, interviews, experiments, textual analysis or observations in which they formulate a research question, collect data, analyze results, and draw conclusions.
2. **Critically Evaluate Published Research:**

Sociology graduates will be able to read and evaluate published research as it appears in academic journals and popular or policy publications. They will be able to identify the research methods used, assess the quality of the sample, assess the quality of measurements and procedures, evaluate the links between the data and the interpretations, identify possible threats to the validity of the results, and provide an overall assessment of the trustworthiness of the research results. They will be able to read and evaluate a set of research articles on the same broad issue and be able to draw summarize the research findings across multiple issue.

3. **Communicate Skillfully:**
Because the sociology major involves a large amount of reading, writing, and discussion, majors learn how to convey ideas effectively in writing, presentations, and everyday conferences and meetings. Sociology majors write papers and make oral presentations that build arguments and assess evidence in a clear and effective manner.
4. **Critical Thinking about Society and Social Processes:**
Sociological inquiry involves learning to look beyond the surface of issues to discover the "why" and "how" of social order and structure. Sociology majors develop strong analytical skills and learn to solve problems and identify opportunities. They are able to consider the underlying social mechanisms that may be creating a situation, identify evidence that may adjudicate between alternate explanations for phenomena, and develop proposed policies or action plans in light of theory and data.
5. **See Things from a Global Perspective:**
Sociologists learn about different cultures, groups, and societies. They examine both variation and universality across places and through history. They are aware of the diversity of backgrounds and experiences among residents of the United States. They understand the ways events and processes in one country are linked to those in other countries.
6. **Prepare for Graduate School and the Job Market:**
An undergraduate major in sociology provides an excellent foundation for work and graduate study in a wide range of fields including law, business, social work, medicine, policy research, public health, public administration and, of course, sociology. With the aid of faculty and staff, students use their social research skills to identify opportunities for employment or further study, assess their qualifications for these opportunities, and identify strategies for gaining the necessary knowledge and experience to improve their qualifications. Students are encouraged to develop and maintain portfolios of their written work and educational experiences to aid them in preparing applications.

ADVISING AND CAREERS

ADVISING

This university is a very big place. Even the most well-prepared new students will have moments when they say to themselves, "Uh oh. What have I got myself into going to such a big school? Choosing courses at SOAR was stressful, fun, or both, but after SOAR am I on my own?" The answer is no. Every student has at least one assigned advisor. Over the course of their time at the university, students may have several assigned advisors. That is a good thing; L&S advisors are highly networked, and they always communicate with each other about shared students.

When students read their DARS reports—documents that were developed to help them find their way to a timely graduation, they can feel overwhelmed; it looks like they need 500 credits to graduate. How can

they get all those requirements done? Do sociology (or Spanish, or English) majors really have to take biology courses?

In the sociology department, we take advising very seriously. We encourage our majors to see the advisor at least once every semester. The advisor will help you summarize the DARS and map your completed coursework onto the goals and timeline for graduation, including the sociology major and L&S requirements. The sociology advisor will have departmental or college news about guest speakers, new faculty, new courses, internships, and scholarships. This advisor will also be able to assist in preparation for, and applications to graduate school, and be able to connect students with faculty, whose information about various sociology programs is always the most current. The sociology advisor will also see freshmen and sophomores exploring the major in sociology.

CAREERS

Sociology majors do very well in the job market. The critical, analytic, and quantitative skills they have mastered in the major, along with their commitments to social justice and their understanding of organizations make them desirable job candidates. Every year the department invites sociology alumni to campus for career panels or “speed mentoring.” Current sociology majors get to talk to people only slightly older than themselves who have successfully made the transitions from undergraduate to professional.

Sociology also has an advisor devoted exclusively to careers. This advisor teaches a 1-credit course where students learn the arts of resume building and resume writing, applying for and getting internships, and in which they practice self-reflection activities which lead to insights about what they really want to do after college, and where they learn how to make connections between their academic work and their work in the “real world.” This advisor is also available for one-on-one advising.

Our career advisor also partners with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers). See L&S Career Services (<http://careers.ls.wisc.edu>) for more information.

WISCONSIN EXPERIENCE

THE WISCONSIN EXPERIENCE: ESSENTIAL LEARNING IN THE COLLEGE OF LETTERS & SCIENCE

The three elements of learning described below—tools, breadth, and depth—work together to create a broad and rich education in the

liberal arts and sciences, and promote attainment of core areas of essential learning: knowledge of human cultures and the natural and physical world, intellectual and practical skills, personal and social responsibility, and integrative and applied learning. These and countless other experiences comprise the Letters & Science approach to helping students obtain a distinctive *Wisconsin Experience*.

Additional information about the Wisconsin Experience can be found through the Office of Admissions and Recruitment/Why UW link (https://www.admissions.wisc.edu/why/wisconsin_experience.php).

SPANISH AND PORTUGUESE

The Department of Spanish and Portuguese offers an integrated curriculum in introductory and specialized instruction in Spanish and Portuguese languages, literatures, and linguistics for undergraduates to fulfill major, college, and campus requirements as well as for those seeking fluency and a solid language preparation for other opportunities. The objectives and goals of the undergraduate majors include the skills of advanced proficiency in oral communication and written expression, an understanding of Hispanic and Luso-Brazilian cultures, general familiarity with aspects of Hispanic and Luso-Brazilian literatures, and an understanding of aspects of Ibero-Romance linguistics.

PORTUGUESE, B.A.

Here are some of the many reasons to learn Portuguese.

- Close to 250 million people speak Portuguese. Brazil alone has a population of 205 million.
- Portuguese is the sixth most widely spoken language in the world, before German (10th), French (11th) and Italian (15th).
- Portuguese is spoken in 11 countries on four continents. Portuguese is the official language of Portugal, Brazil, Angola, Cape Verde, Guinea-Bissau, Mozambique, São Tomé and Príncipe, East Timor, and is also widely spoken in Equatorial Guinea, Macau (China), and Goa (India).
- Portuguese is a working and/or official language of important international organizations, such as the African Union, the Community of Portuguese Language Countries, the European Union, Mercosul, the Organization of American States, and the Organization of Ibero-American States.
- An estimated 1.3 million native Portuguese-speakers live in the United States.
- To study Portuguese is an asset in today's global economy. For example, Brazil's economy is among the largest in the world.
- The Portuguese novelist José Saramago won the 1998 Nobel Prize for Literature. The music, festivities, culture, and art of the Portuguese-speaking countries are appreciated all over the world.
- Portuguese shares some grammar rules, sentence structure, and similar vocabulary words with other Romance languages. If you already speak French, Spanish or Italian, Portuguese is an easy and fun language to learn.
- You will certainly enjoy our Portuguese classes that are student-focused and culturally engaging!\. Our 101–102 textbook will soon be available as an interactive open-access e-book.
- Last but not least, Brazil is the only country that has won the World Soccer Cup Championship five times.

HOW TO GET IN

Students may declare at any time prior to attaining senior standing (86 credits) in consultation with the Portuguese undergraduate advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	<ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language <p>Note: A unit is one year of high school work or one semester/term of college work.</p>
L&S Breadth	<ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum	2.000 in all coursework at UW–Madison
GPA	2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

Following are the Portuguese major requirements for all students declaring the Portuguese major on or after August 23, 2010.

Code	Title	Credits
26 PORTUG credits beyond PORTUG 201 ¹		
<i>Survey of Portuguese Literature</i>		
Select one of the following:		3
PORTUG 411	Survey of Portuguese Literature before 1825	
PORTUG 412	Survey of Brazilian Literature before 1890	
PORTUG 467	Survey of Portuguese Literature since 1825	
PORTUG 468	Survey of Brazilian Literature since 1890	
<i>Additional Portuguese Literature</i>		
Select one of the following:		3
PORTUG 411	Survey of Portuguese Literature before 1825	
PORTUG 412	Survey of Brazilian Literature before 1890	
PORTUG/ GEN&WS 450	Brazilian Women Writers	
PORTUG/ AFRICAN 451	Lusophone African Literature	
PORTUG 467	Survey of Portuguese Literature since 1825	
PORTUG 468	Survey of Brazilian Literature since 1890	
PORTUG 640	Topics in Luso-Brazilian Literature	
<i>Portuguese Culture/Civilization</i>		
Select one of the following:		3
PORTUG 361	Portuguese Civilization	
PORTUG 362	Brazilian Civilization	
PORTUG 364	Historical and Cultural Traditions of Brazil	
PORTUG/ GEN&WS 460	Carmen Miranda	
PORTUG 642	Topics in Luso-Brazilian Culture	
<i>Composition and Conversation</i>		
Select two of the following:		6
PORTUG 225	Third Year Conversation and Composition	
PORTUG 226	Third Year Conversation and Composition	

PORTUG 311	Fourth Year Composition and Conversation	
PORTUG 312	Fourth Year Composition and Conversation	
<i>Elective Courses in PORTUG</i>		
Select two additional PORTUG courses numbered 302 or higher.		6
Select additional PORTUG courses beyond PORTUG 201 to bring total credits to 26. ¹		5
<i>Second Romance Language</i>		
Two units of another Romance language (French, Italian, or Spanish) taken either in high school or in college. ²		
Total Credits		26

RESIDENCE AND QUALITY OF WORK

2.000 GPA in PORTUG and major courses

2.000 GPA on 15 upper-level major credits in residence³

15 credits in PORTUG, taken at UW–Madison

¹ May not include PORTUG 301 Intensive Portuguese which is the equivalent of PORTUG 101 First Semester Portuguese and PORTUG 102 Second Semester Portuguese.

² Coursework in Spanish is recommended.

³ PORTUG 220 through 699 are upper level in the major

HONORS IN THE MAJOR

Students may declare Honors in the Portuguese Major in consultation with the Portuguese undergraduate advisor.

HONORS IN THE PORTUGUESE MAJOR REQUIREMENTS

To earn the B.A. or B.S. with Honors in the Major in Portuguese students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn 3.500 GPA for all PORTUG courses at or above PORTUG 301
- Complete at least 16 credits, taken for Honors, with individual grades of B or better, to include:
 - 9 credits from PORTUG 202 to 680, excluding PORTUG 301
 - A two-semester Senior Honors Thesis in PORTUG 681 and PORTUG 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	<ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 90th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.*

REQUIREMENTS FOR THE MAJOR

Following are the Portuguese major requirements for all students declaring the Portuguese major on or after August 23, 2010.

Code	Title	Credits
26 PORTUG credits beyond PORTUG 201 ¹		
<i>Survey of Portuguese Literature</i>		
Select one of the following:		3
PORTUG 411	Survey of Portuguese Literature before 1825	
PORTUG 412	Survey of Brazilian Literature before 1890	
PORTUG 467	Survey of Portuguese Literature since 1825	
PORTUG 468	Survey of Brazilian Literature since 1890	
<i>Additional Portuguese Literature</i>		
Select one of the following:		3
PORTUG 411	Survey of Portuguese Literature before 1825	
PORTUG 412	Survey of Brazilian Literature before 1890	
PORTUG/GEN&WS 450	Brazilian Women Writers	
PORTUG/AFRICAN 451	Lusophone African Literature	
PORTUG 467	Survey of Portuguese Literature since 1825	
PORTUG 468	Survey of Brazilian Literature since 1890	
PORTUG 640	Topics in Luso-Brazilian Literature	
<i>Portuguese Culture/Civilization</i>		
Select one of the following:		3
PORTUG 361	Portuguese Civilization	
PORTUG 362	Brazilian Civilization	
PORTUG 364	Historical and Cultural Traditions of Brazil	
PORTUG/GEN&WS 460	Carmen Miranda	
PORTUG 642	Topics in Luso-Brazilian Culture	
<i>Composition and Conversation</i>		
Select two of the following:		6
PORTUG 225	Third Year Conversation and Composition	
PORTUG 226	Third Year Conversation and Composition	
PORTUG 311	Fourth Year Composition and Conversation	
PORTUG 312	Fourth Year Composition and Conversation	

<i>Elective Courses in PORTUG</i>	
Select two additional PORTUG courses numbered 302 or higher.	6
Select additional PORTUG courses beyond PORTUG 201 to bring total credits to 26. ¹	5
<i>Second Romance Language</i>	
Two units of another Romance language (French, Italian, or Spanish) taken either in high school or in college. ²	
Total Credits	26

RESIDENCE AND QUALITY OF WORK

2.000 GPA in PORTUG and major courses

2.000 GPA on 15 upper-level major credits in residence³

15 credits in PORTUG, taken at UW–Madison

¹ May not include PORTUG 301 Intensive Portuguese which is the equivalent of PORTUG 101 First Semester Portuguese and PORTUG 102 Second Semester Portuguese.

² Coursework in Spanish is recommended.

³ PORTUG 220 through 699 are upper level in the major

HONORS IN THE MAJOR

Students may declare Honors in the Portuguese Major in consultation with the Portuguese undergraduate advisor.

HONORS IN THE PORTUGUESE MAJOR REQUIREMENTS

To earn the B.A. or B.S. with Honors in the Major in Portuguese students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn 3.500 GPA for all PORTUG courses at or above PORTUG 301
- Complete at least 16 credits, taken for Honors, with individual grades of B or better, to include:
 - 9 credits from PORTUG 202 to 680, excluding PORTUG 301
 - A two-semester Senior Honors Thesis in PORTUG 681 and PORTUG 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

SPANISH STUDIES FOR BUSINESS STUDENTS, CERTIFICATE

Did you know that by 2050 the United States could have more Spanish speakers than any other country (<http://qz.com/441174/by-2050-united-states-will-have-more-spanish-speakers-than-any-other-country/>)?

Spanish continues to gain ground as a widely-spoken national and international language, making the ability to communicate effectively in both written and spoken Spanish an invaluable intellectual, social, cultural, and professional resource. Spanish is the official or co-official language of 21 countries, and with more than 400 million speakers worldwide (projected increase to about 530 million by 2050), it is the third most widely-spoken language on the planet after Mandarin and English.

HOW TO GET IN

Students must earn admission to the School of Business to be eligible for the Certificate in Spanish Studies for Business Majors. The certificate can be declared in consultation with the Spanish Undergraduate Advisor.

REQUIREMENTS

SPANISH, B.A.

Did you know that by 2050 the United States could have more Spanish speakers than any other country (<http://qz.com/441174/by-2050-united-states-will-have-more-spanish-speakers-than-any-other-country/>)?

Spanish continues to gain ground as a widely-spoken national and international language, making the ability to communicate effectively in both written and spoken Spanish an invaluable intellectual, social, cultural, and professional resource. Spanish is the official or co-official language of 21 countries, and with more than 400 million speakers worldwide (projected increase to about 530 million by 2050), it is the third most widely spoken language on the planet after Mandarin and English.

What can you do with a Spanish major?

The following are just a few of the many career paths for which proficiency in spoken and written Spanish can be a valuable asset:

- Bilingual and Second Language Education
- Medical, Legal & Business Professions
- Journalism
- Travel Industry
- Translation
- Interpretation
- Non-governmental/non-profit work
- Library Science

- Foreign Service

HOW TO GET IN

Students may declare at any time prior to attaining senior standing (86 credits) in consultation with the Spanish undergraduate advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

- | | |
|-----------|---|
| General | • Breadth—Humanities/Literature/Arts: 6 credits |
| Education | • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits |
| | • Breadth—Social Studies: 3 credits |
| | • Communication Part A & Part B * |
| | • Ethnic Studies * |
| | • Quantitative Reasoning Part A & Part B * |

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

HONORS IN THE MAJOR

Students may declare Honors in the Spanish Major in consultation with the Spanish undergraduate advisor.

HONORS IN THE SPANISH MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Spanish students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all SPANISH courses 300 level and higher
- Complete the following coursework, taken for Honors, with individual grades of B or better:
 - 6 credits, SPANISH 327 to SPANISH 680
 - 3 credits, SPANISH 300 to SPANISH 680
- A two-semester Senior Honors Thesis in SPANISH 681 Senior Honors Thesis and SPANISH 682 Senior Honors Thesis, for a total of 6 credits.¹

¹ In certain circumstances (particularly when the student is an Honors candidate in two or more departments), 6 credits in literature, linguistics, or cultural studies at the 500 or 600 level, excluding SPANISH 681, SPANISH 682, SPANISH 691, SPANISH 692, and SPANISH 699, may be substituted for the Honors Thesis, upon recommendation by the Spanish undergraduate advisor.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Students will develop communication skills in Spanish and integrate these skills to exchange and assess ideas effectively and with level-appropriate accuracy in written and spoken Spanish.
2. Students will demonstrate understanding of linguistic, pragmatic, sociolinguistic, and stylistic features of written and spoken Spanish, understand how they influence meaning, and apply these features in level-appropriate ways in writing and speech.
3. Students will demonstrate knowledge of Hispanic cultures across historical epochs, including awareness of the social, cultural, and linguistic diversity that characterizes the Spanish-speaking world.
4. Students will demonstrate familiarity with and apply basic methods of literary and/or linguistic analysis, which for literary analysis

includes interpretation of written texts and other forms of artistic/cultural creation, both in and of themselves and in the context of the particular social, cultural, and historical milieus in which they were created.

Select 9 additional credits in literature and/or culture/civilization and/or linguistics. (See below for courses that fulfill this requirement.)		9
<i>Required Elective Credits</i>		
Select 6 additional credits in SPANISH courses at or above the 300 level.		6
Students may also choose to take up to 4 credits in LATIN, FRENCH, ITALIAN, or PORTUG, beginning with:		
LATIN 103	Elementary Latin	
FRENCH 201	French for Speakers of Other Romance Languages	
ITALIAN 201	Italian for Speakers of Other Romance Languages	
PORTUG 301	Intensive Portuguese and/or more advanced offerings ¹	
Total Credits		27

ADVANCED COURSEWORK

At least 3 credits in SPANISH courses at or above the 400 level must be taken.

FACULTY ENGAGEMENT

At least 6 credits in SPANISH courses at or above the 300 level must be taken while physically present on the UW–Madison campus.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in SPANISH and major courses

2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence: SPANISH 220 to 699

15 credits in SPANISH, taken while physically present on the UW–Madison campus.

¹ Coursework in Portuguese is recommended.

SPANISH LITERATURE, CULTURE/CIVILIZATION, AND LINGUISTICS COURSES

Code	Title	Credits
SPANISH 320	Spanish Phonetics	3
SPANISH 321	The Structure of Modern Spanish	3
SPANISH 322	Survey of Early Hispanic Literature	3
SPANISH 324	Survey of Modern Spanish Literature	3
SPANISH 326	Survey of Spanish American Literature	3
SPANISH 327	Introduction to Spanish Linguistics	3
SPANISH 331	Spanish Applied Linguistics	3
SPANISH 361	Spanish Civilization	3
SPANISH 363	Spanish American Civilization	3
SPANISH/ MEDIEVAL 414	Literatura de la Edad Media Castellana (ss. XII-XV)	3
SPANISH 417	Literatura del Siglo de Oro	3-4
SPANISH/ FRENCH/ITALIAN/ PORTUG 429	Introduction to the Romance Languages	3
SPANISH 435	Cervantes	3
SPANISH 446	Topics in Spanish Linguistics	3
SPANISH 451	Literature of the Eighteenth and Nineteenth Centuries	3
SPANISH 453	Literature of the Twentieth Century	3
SPANISH/ CHICLA 459	Mexico in the Chicano and Chicana Literary Imagination	3
SPANISH 460	Literatura Hispanoamericana	3
SPANISH 461	The Spanish American Short Story	3
SPANISH 462	Spanish American Theater and Drama	3
SPANISH 463	The Spanish American Novel	3
SPANISH 464	Spanish American Poetry and Essay	3
SPANISH 465	Literature and Film in Spanish America	3
SPANISH 466	Topics in Spanish American Literature	1
SPANISH 468	Topics in Hispanic Culture	3
SPANISH/ CHICLA 469	Topics in Hispanic Cultures in the U.S.	3

SPANISH 470	Undergraduate Seminars in Hispanic Literature/Culture/Linguistics	3
SPANISH 471	Topics in Hispanic Literature	3
SPANISH 472	Hispanic Screen Studies	3
SPANISH 474	Study Abroad in Spanish Linguistics	1-4
SPANISH 475	Study Abroad in Hispanic Literatures	1-4
SPANISH 476	Study Abroad in Hispanic Cultures	1-4

HONORS IN THE MAJOR

Students may declare Honors in the Spanish Major in consultation with the Spanish undergraduate advisor.

HONORS IN THE SPANISH MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Spanish students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all SPANISH courses 300 level and higher
- Complete the following coursework, taken for Honors, with individual grades of B or better:
 - 6 credits, SPANISH 327 to SPANISH 680
 - 3 credits, SPANISH 300 to SPANISH 680
- A two-semester Senior Honors Thesis in SPANISH 681 Senior Honors Thesis and SPANISH 682 Senior Honors Thesis, for a total of 6 credits.¹

¹ In certain circumstances (particularly when the student is an Honors candidate in two or more departments), 6 credits in literature, linguistics, or cultural studies at the 500 or 600 level, excluding SPANISH 681, SPANISH 682, SPANISH 691, SPANISH 692, and SPANISH 699, may be substituted for the Honors Thesis, upon recommendation by the Spanish undergraduate advisor.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Students will develop communication skills in Spanish and integrate these skills to exchange and assess ideas effectively and with level-appropriate accuracy in written and spoken Spanish.
2. Students will demonstrate understanding of linguistic, pragmatic, sociolinguistic, and stylistic features of written and spoken Spanish, understand how they influence meaning, and apply these features in level-appropriate ways in writing and speech.
3. Students will demonstrate knowledge of Hispanic cultures across historical epochs, including awareness of the social, cultural, and linguistic diversity that characterizes the Spanish-speaking world.
4. Students will demonstrate familiarity with and apply basic methods of literary and/or linguistic analysis, which for literary analysis includes interpretation of written texts and other forms of artistic/cultural creation, both in and of themselves and in the context of the particular social, cultural, and historical milieus in which they were created.

STATISTICS

Modern statistics is an exciting subject that affects most aspects of modern living. It has been developed to deal rationally and objectively with the uncertainty that accompanies variation in phenomena as highly complex as the interplay of the many factors that affect our environment. It derives vitality in coping with practical problems arising in all fields of scientific activity, including the social, business, biological, agricultural, medical, natural, and engineering sciences. Investigators' efforts to learn about a specific phenomenon, be it the response of a patient to a certain medical treatment or the effectiveness of a particular instructional program on a student's learning, are impacted by the presence of natural variation. The field of statistics is concerned with valid and efficient ways to learn more about these phenomena in the presence of such variation. It is an inductive science in which information is extracted from sample data in order to draw inferences. This process most often involves planning experiments or designing studies to ensure that valid answers to questions are obtained from the sample.

STATISTICS, B.A.

Modern statistics is an exciting subject that affects most aspects of modern living. It has been developed to deal rationally and objectively with the uncertainty that accompanies variation in phenomena as highly complex as the interplay of the many factors that affect our environment. It derives vitality in coping with practical problems arising in all fields of scientific activity, including the social, business, biological, agricultural, medical, natural, and engineering sciences. Investigators' efforts to learn about a specific phenomenon, be it the response of a patient to a certain medical treatment or the effectiveness of a particular instructional program on a student's learning, are impacted by the presence of natural variation. The field of statistics is concerned with valid and efficient ways to learn more about these phenomena in the presence of such variation. It is an inductive science in which information is extracted from sample data in order to draw inferences. This process most often involves planning experiments or designing studies to ensure that valid answers to questions are obtained from the sample.

HOW TO GET IN

To declare the statistics major, student should set up an appointment with a statistics major advisor prior to attaining senior standing (86 credits).

Prospective majors are strongly recommended to have completed the following classes before declaring the major.

- MATH 221 Calculus and Analytic Geometry 1
- MATH 222 Calculus and Analytic Geometry 2
- MATH 234 Calculus--Functions of Several Variables
- STAT 302 Accelerated Introduction to Statistical Methods

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General	• Breadth—Humanities/Literature/Arts: 6 credits
Education	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Requirements Detail

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language
	Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature
	• Social Sciences, 12 credits
	• Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum	2.000 in all coursework at UW–Madison
GPAs	2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above.

REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
Math		
MATH 221	Calculus and Analytic Geometry 1 (must be completed with grade of C or higher) ¹	5
MATH 222	Calculus and Analytic Geometry 2 (must be completed with grade of C or higher) ¹	4
MATH 234	Calculus–Functions of Several Variables (must be completed with grade of C or higher) ¹	4
MATH 340	Elementary Matrix and Linear Algebra ¹	3
or MATH 341	Linear Algebra	
Computer Programming		
Select one of the following: ²		3
COMP SCI 200	Programming I	
COMP SCI 300	Programming II	
COMP SCI 301	Introduction to Data Programming	
COMP SCI 400	Programming III	
COMP SCI 412	Introduction to Numerical Methods	
COMP SCI/I SY E/ MATH/STAT 525	Linear Programming Methods	
Statistics Courses		25
<i>Introductory Statistics and Basic Statistical Language</i>		
STAT 302	Accelerated Introduction to Statistical Methods	3
STAT 327	Learning a Statistical Language (Introductory Data Analysis with R)	1
<i>Linear Statistical Models</i>		
STAT 333	Applied Regression Analysis	3
STAT/M E 424	Statistical Experimental Design	3
<i>Mathematical Statistics</i>		
Probability (one course):		3
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I	
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	
MATH/STAT 431	Introduction to the Theory of Probability	
<i>Inference:</i>		
STAT/MATH 310	Introduction to Probability and Mathematical Statistics II ³	3
<i>Statistics Electives</i>		

STAT electives to reach minimum credits required: 9

STAT 349	Introduction to Time Series	
STAT 351	Introductory Nonparametric Statistics	
STAT 411	An Introduction to Sample Survey Theory and Methods	
STAT 421	Applied Categorical Data Analysis	
STAT 456	Applied Multivariate Analysis	
STAT 461	Financial Statistics	
STAT/ COMP SCI 471	Introduction to Computational Statistics	
STAT 479	Special Topics in Statistics ⁴	
STAT 575	Statistical Methods for Spatial Data	
STAT/B M I 641	Statistical Methods for Clinical Trials	
STAT 679	Special Topics in Statistics	
STAT 699	Directed Study ⁵	
Concentration		
Select either Math Concentration or Applied Concentration		6-12
Total Credits		50-56

¹ An acceptable equivalent for all four of the required mathematics courses is MATH 275 Topics in Calculus I, MATH 276 Topics in Calculus II, MATH 375 Topics in Multi-Variable Calculus and Linear Algebra, and MATH 376 Topics in Multi-Variable Calculus and Differential Equations. MATH 275 and MATH 276 are acceptable equivalents for MATH 221 Calculus and Analytic Geometry 1 and MATH 222 Calculus and Analytic Geometry 2, respectively. MATH 211 Calculus and MATH 213 Calculus and Introduction to Differential Equations are NOT acceptable equivalents for MATH 221, MATH 222, and MATH 234 Calculus–Functions of Several Variables. (Students who have completed MATH 211 and MATH 213 are encouraged to take the Department of Mathematics' Calculus Exam to determine placement in the MATH 221–MATH 222–MATH 234 sequence).

² COMP SCI 300 is highly recommended because it will be particularly beneficial in most future careers. Students who have prior computing experience equivalent to COMP SCI 200 (such as AP computer science) are recommended to take COMP SCI 300, and students who will pursue a second major in computer science must take COMP SCI 300 and COMP SCI 400 to satisfy the computer science major requirements.

³ STAT 312 Introduction to Theory and Methods of Mathematical Statistics II will not be accepted in lieu of STAT/MATH 310 Introduction to Probability and Mathematical Statistics II.

⁴ STAT 479 Special Topics in Statistics can be repeated for elective credit when enrolled for different topics.

⁵ Up to 3 credits of STAT 699 Directed Study can count toward these 9 credits. No course identified in Concentration 1 of the major can count towards these 9 credits.

MATHEMATICS CONCENTRATION

Students intending to pursue graduate study in statistics are strongly advised to take more math classes than the minimum requirements. Linear algebra and real analysis are typically the most important areas of mathematics needed for graduate study in statistics.

Select at least **6 additional credits** of the following:

Code	Title	Credits
MATH 319	Techniques in Ordinary Differential Equations	3
MATH 421	The Theory of Single Variable Calculus	3
MATH 443	Applied Linear Algebra	3
MATH/COMP SCI/ STAT 475	Introduction to Combinatorics	3
MATH/ COMP SCI 514	Numerical Analysis	3
MATH 521	Analysis I	3
MATH 522	Analysis II	3
MATH 541	Modern Algebra	3
MATH 605	Stochastic Methods for Biology	3
MATH 629	Introduction to Measure and Integration	3
MATH/ISYE/OTM/ STAT 632	Introduction to Stochastic Processes	3

APPLIED CONCENTRATION

Select **at least 12 credits** of coursework at the 300 level and higher in an area of application of statistical methods as approved by the student's major advisor. This area of application can represent study areas where statistical methods are applied, such as in the natural and social sciences and engineering. This requirement can often be met by the completion of a major in such a study area.

L&S REQUIREMENTS FOR RESIDENCE AND QUALITY OF WORK IN THE MAJOR

- 2.000 grade point average in all STAT and major courses
- 2.000 grade point average in 15 credits of upper-level work in the major completed in residence. Courses that count toward this requirement are STAT courses: STAT 302 Accelerated Introduction to Statistical Methods to STAT 699 Directed Study, excluding STAT 324 Introductory Applied Statistics for Engineers, STAT 371 Introductory Applied Statistics for the Life Sciences, STAT 441 Introduction to Biostatistics for Pharmacy, STAT/F&W ECOL/HORT 571 Statistical Methods for Bioscience I, and STAT/F&W ECOL/HORT 572 Statistical Methods for Bioscience II.
- 15 credits in STAT subject, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Statistics Major in consultation with the Statistics major advisor(s). To be admitted to the Honors Program in Statistics, students must have declared statistics, must have a 3.500 overall university GPA, and must have completed STAT 302 Accelerated Introduction to Statistical Methods, STAT/MATH 309 Introduction to Probability and Mathematical Statistics I and STAT 333 Applied Regression Analysis with a GPA of 3.500 or higher.

HONORS IN THE STATISTICS MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Statistics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.500 overall university GPA

- Earn a 3.500 GPA for all STAT courses, and all courses accepted in the major
- Complete one of the following:
 - Two courses, taken for Honors, with individual grades of B or better, from Linear Statistical Models, Mathematical Statistics, or Statistics Electives other than STAT 699 Directed Study, or
 - Complete an additional course worth 3 credits from the Statistics Electives list (for a total of 12 statistics electives)
- Complete a two-semester Senior Honors Thesis in STAT 681 Senior Honors Thesis and STAT 682 Senior Honors Thesis, for a total of 6 credits, under the supervision of a member of the faculty of the Department of Statistics.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

- Students will be able to frame a scientific question with the appropriate mode of data analysis, to analyze such data correctly, and to summarize and interpret the results in a useful manner. They will master a number of key statistical techniques, certainly including significance testing, goodness-of-fit testing, and regression analysis, which are common tools in analyzing data. This will include a careful checking of assumptions that underlie the techniques.
- Students will be able to design experiments/studies — in conjunction with scientists proposing the study — that will lead in an efficient manner to the collection of data that can be properly analyzed. They will be able to design studies with multiple factors taking variable reduction techniques into account. They will also be able to interpret and critique designs they encounter in analyzing data.
- Students will be able to use tools from mathematical statistics and probability to assess the quality of point estimators, confidence intervals, and hypothesis tests. They will also be able to demonstrate the skills to connect methods of application to their theoretical underpinnings.
- Students will be able to use a statistical language (with emphasis on R) to manipulate data and perform exploratory data analysis using basic statistical methods. They will be able to write structured R

programs using conditional expressions, loops, and functions and to use regular expressions to extract data from text and make high-level visualizations.

- Students will be able to evaluate critically articles that use statistical argumentation. They will be able to assess whether or not the statistical arguments have been developed properly and the conclusions are reliable. If the arguments are not properly developed, they will be able to provide specific evidence for this.

ADVISING AND CAREERS

Looking for statistics advising?

Students who are interested in statistics academic advising for the statistics major should contact the advisor group by email: advising@stat.wisc.edu.

So what can you do with a statistics major after you graduate?

Well-trained statisticians are in strong demand and have excellent employment prospects. Statisticians work in industry and business, in government, and in universities and other research institutions.

In most cases an undergraduate major in statistics can find employment as a quantitative analyst or other “generalist” position. A number of our graduates have been successful following this path. However, in most cases, positions aimed at “professional statisticians” require a master’s (or Ph.D.) degree. As a professional statistician, typical employment in industry might be as a statistical consultant to biologists, engineers, and/or other scientists in a research and development branch of a large company.

The single, best place to look for statistics jobs is the American Statistical Association Career Center (<http://www.amstat.org/ASA/Your-Career/home.aspx>). Consult with a statistics undergraduate advisor about the best fit for you.

Statistical training is seen as very desirable in many other areas (e.g., agricultural, biological, engineering, and social sciences, business, and economics) where the primary activity may not be statistics. In view of this, statistics may often be a strong choice for a second or additional major.

- ¹ An acceptable equivalent for all four of the required mathematics courses is MATH 275 Topics in Calculus I, MATH 276 Topics in Calculus II, MATH 375 Topics in Multi-Variable Calculus and Linear Algebra, and MATH 376 Topics in Multi-Variable Calculus and Differential Equations. MATH 275 and MATH 276 are acceptable equivalents for MATH 221 Calculus and Analytic Geometry 1 and MATH 222 Calculus and Analytic Geometry 2, respectively. MATH 211 Calculus and MATH 213 Calculus and Introduction to Differential Equations are NOT acceptable equivalents for MATH 221, MATH 222, and MATH 234 Calculus–Functions of Several Variables. (Students who have completed MATH 211 and MATH 213 are encouraged to take the Department of Mathematics' Calculus Exam to determine placement in the MATH 221–MATH 222–MATH 234 sequence).
- ² COMP SCI 300 is highly recommended because it will be particularly beneficial in most future careers. Students who have prior computing experience equivalent to COMP SCI 200 (such as AP computer science) are recommended to take COMP SCI 300, and students who will pursue a second major in computer science must take COMP SCI 300 and COMP SCI 400 to satisfy the computer science major requirements.
- ³ STAT 312 Introduction to Theory and Methods of Mathematical Statistics II will not be accepted in lieu of STAT/MATH 310 Introduction to Probability and Mathematical Statistics II.
- ⁴ STAT 479 Special Topics in Statistics can be repeated for elective credit when enrolled for different topics.
- ⁵ Up to 3 credits of STAT 699 Directed Study can count toward these 9 credits. No course identified in Concentration 1 of the major can count towards these 9 credits.

MATHEMATICS CONCENTRATION

Students intending to pursue graduate study in statistics are strongly advised to take more math classes than the minimum requirements. Linear algebra and real analysis are typically the most important areas of mathematics needed for graduate study in statistics.

Select at least **6 additional credits** of the following:

Code	Title	Credits
MATH 319	Techniques in Ordinary Differential Equations	3

MATH 421	The Theory of Single Variable Calculus	3
MATH 443	Applied Linear Algebra	3
MATH/COMP SCI/ STAT 475	Introduction to Combinatorics	3
MATH/ COMP SCI 514	Numerical Analysis	3
MATH 521	Analysis I	3
MATH 522	Analysis II	3
MATH 541	Modern Algebra	3
MATH 605	Stochastic Methods for Biology	3
MATH 629	Introduction to Measure and Integration	3
MATH/I SY E/OTM/ STAT 632	Introduction to Stochastic Processes	3

APPLIED CONCENTRATION

Select **at least 12 credits** of coursework at the 300 level and higher in an area of application of statistical methods as approved by the student's major advisor. This area of application can represent study areas where statistical methods are applied, such as in the natural and social sciences and engineering. This requirement can often be met by the completion of a major in such a study area.

L&S REQUIREMENTS FOR RESIDENCE AND QUALITY OF WORK IN THE MAJOR

- 2.000 grade point average in all STAT and major courses
- 2.000 grade point average in 15 credits of upper-level work in the major completed in residence. Courses that count toward this requirement are STAT courses: STAT 302 Accelerated Introduction to Statistical Methods to STAT 699 Directed Study, excluding STAT 324 Introductory Applied Statistics for Engineers, STAT 371 Introductory Applied Statistics for the Life Sciences, STAT 441 Introduction to Biostatistics for Pharmacy, STAT/F&W ECOL/HORT 571 Statistical Methods for Bioscience I, and STAT/F&W ECOL/HORT 572 Statistical Methods for Bioscience II.
- 15 credits in STAT subject, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Statistics Major in consultation with the Statistics major advisor(s). To be admitted to the Honors Program in Statistics, students must have declared statistics, must have a 3.500 overall university GPA, and must have completed STAT 302 Accelerated Introduction to Statistical Methods, STAT/MATH 309 Introduction to Probability and Mathematical Statistics I and STAT 333 Applied Regression Analysis with a GPA of 3.500 or higher.

HONORS IN THE STATISTICS MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Statistics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.500 overall university GPA
- Earn a 3.500 GPA for all STAT courses, and all courses accepted in the major
- Complete one of the following:

- Two courses, taken for Honors, with individual grades of B or better, from Linear Statistical Models, Mathematical Statistics, or Statistics Electives other than STAT 699 Directed Study, or
- Complete an additional course worth 3 credits from the Statistics Electives list (for a total of 12 statistics electives)
- Complete a two-semester Senior Honors Thesis in STAT 681 Senior Honors Thesis and STAT 682 Senior Honors Thesis, for a total of 6 credits, under the supervision of a member of the faculty of the Department of Statistics.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Students will be able to frame a scientific question with the appropriate mode of data analysis, to analyze such data correctly, and to summarize and interpret the results in a useful manner. They will master a number of key statistical techniques, certainly including significance testing, goodness-of-fit testing, and regression analysis, which are common tools in analyzing data. This will include a careful checking of assumptions that underlie the techniques.
2. Students will be able to design experiments/studies — in conjunction with scientists proposing the study — that will lead in an efficient manner to the collection of data that can be properly analyzed. They will be able to design studies with multiple factors taking variable reduction techniques into account. They will also be able to interpret and critique designs they encounter in analyzing data.
3. Students will be able to use tools from mathematical statistics and probability to assess the quality of point estimators, confidence intervals, and hypothesis tests. They will also be able to demonstrate the skills to connect methods of application to their theoretical underpinnings.
4. Students will be able to use a statistical language (with emphasis on R) to manipulate data and perform exploratory data analysis using basic statistical methods. They will be able to write structured R programs using conditional expressions, loops, and functions and to use regular expressions to extract data from text and make high-level visualizations.

5. Students will be able to evaluate critically articles that use statistical argumentation. They will be able to assess whether or not the statistical arguments have been developed properly and the conclusions are reliable. If the arguments are not properly developed, they will be able to provide specific evidence for this.

ADVISING AND CAREERS

Looking for statistics advising?

Students who are interested in statistics academic advising for the statistics major should contact the advisor group by email: advising@stat.wisc.edu.

So what can you do with a statistics major after you graduate?

Well-trained statisticians are in strong demand and have excellent employment prospects. Statisticians work in industry and business, in government, and in universities and other research institutions.

In most cases an undergraduate major in statistics can find employment as a quantitative analyst or other "generalist" position. A number of our graduates have been successful following this path. However, in most cases, positions aimed at "professional statisticians" require a master's (or Ph.D.) degree. As a professional statistician, typical employment in industry might be as a statistical consultant to biologists, engineers, and/or other scientists in a research and development branch of a large company.

The single, best place to look for statistics jobs is the American Statistical Association Career Center (<http://www.amstat.org/ASA/Your-Career/home.aspx>). Consult with a statistics undergraduate advisor about the best fit for you.

Statistical training is seen as very desirable in many other areas (e.g., agricultural, biological, engineering, and social sciences, business, and economics) where the primary activity may not be statistics. In view of this, statistics may often be a strong choice for a second or additional major.

PEOPLE

FACULTY

Ané, Chappell, Clayton, Kang, Keles, Larget, Loh, Newton, Qian, Raskutti, Rohe, Shao, Tsui, Wahba, S. Wang, Y. Wang (chair), Yandell, Yuan, C. Zhang, Z. Zhang, A. Zhang, Zhu

EMERITUS

Bates, Draper, Johnson, Nordheim, Wardrop, and Doksum (retired)

TEACHING STAFF

Bean, Fischer, Gillett, Keuler, Li, Xia, Yang

ADMINISTRATIVE STAFF

IT STAFF

Beebe, Brabender, Cammilleri (director)

STUDENT SERVICES COORDINATOR

Nguyen

DIVISION OF CONTINUING STUDIES

The mission of the Division of Continuing Studies (DCS) (<http://continuingstudies.wisc.edu>) is to advocate for and to engage lifelong learners through high-quality and innovative programs and services. Through its units, it provides direct services to adult students and admission to the university, offers noncredit classes and programs, supports the development of online courses and programs, and coordinates the UW–Madison Summer Term.

ADULT CAREER AND SPECIAL STUDENT SERVICES

Adult Career and Special Student Services (ACSSS) (<http://continuingstudies.wisc.edu/advising>) serves adults returning to formal education and/or considering a career change. ACSSS provides career counseling, academic advising, and university information to adults. People do not need to be current students or graduates of the University of Wisconsin to use these services. Through appointments, assessment tools, and workshops, individuals may discover a path to a more meaningful and satisfying career or identify a future educational goal.

ACSSS is also the admissions office and the academic dean's office for University Special students, which includes fifteen different categories of students who wish to enroll at UW–Madison but are not degree status students. This includes visiting undergraduates from both domestic and international colleges, and students with bachelors' degrees who wish to take courses to extend their education or to fulfill specific graduate or professional school prerequisites. There are other categories. Further detail is found at the Nondegree (<http://guide.wisc.edu/nondegree>) tab of the *Guide*.

SUMMER TERM AT UW–MADISON

The Division of Continuing Studies provides central coordination for the summer term. Each summer, more than 13,000 students enroll in online and on-campus courses. This includes over 1,000 University Special students. Sessions vary from one to eight weeks in length. Students find summer enrollment may allow them to graduate earlier, experience innovative courses, or fulfill professional licensure requirements. Starting in late March, current UW–Madison students enroll the same way as they do for fall and spring via the enrollment module in their Student Center/MyUW. Students graduating in May or not in degree status must first seek admission as a University Special student following the steps outlined at the Nondegree (<http://guide.wisc.edu/nondegree/#typesofstudytext>) tab of the *Guide*. For more information on course offerings, sessions, housing, and summer term, see Summer Term (<http://summer.wisc.edu>) or send an email to summer@dcs.wisc.edu.

CONTINUING EDUCATION PROGRAM

Students interested in supplementing their university credit coursework will find hundreds of classes, programs, certificates, and conferences through the division's Department of Liberal Arts and Applied Studies (LAAS). The department serves lifelong learners who want to enrich their lives through classes and conferences in an array of areas including languages, music, writing, art, history, and more, and professionals who need to hone their skills, earn professional credits, and stay current on the latest research and best practices in their field. Classes are taught by

Continuing Studies instructors and professionals. The *Continuing Studies Catalog* (<http://www.catalog.dcs.wisc.edu>) is published three times a year and may be viewed online or requested from the Division of Continuing Studies, 21 North Park Street, Madison, WI 3715-1218; 608-262-1156; fax 608-265-4555; info@dcs.wisc.edu.

FLEXIBLE LEARNING

The division serves a leadership role in the design and delivery of courses and programs available in accessible formats, which include evening, weekend, and online programs. Students will find a listing of learning opportunities at the Advance Your Career (<https://advanceyourcareer.wisc.edu>) website, which includes noncredit certificates, post-baccalaureate certificates, and graduate-level degrees.

For online undergraduate courses outside of the UW–Madison curriculum, UW–Extension offers UW Independent Learning (<https://il.wisconsin.edu/catalog>). The credit courses are taught by Continuing Studies faculty and staff. They are self-paced and may be started at any time. College credits may transfer to UW–Madison and apply toward a bachelor's degree. The UW System Transfer Information System (TIS) (<https://www.wisconsin.edu/transfer/wizards>) provides a chart of course transferability. However, before enrolling in Independent Learning courses, students should check with their advisor and gain academic dean's approval to make sure the chosen course is applicable to the specific degree program.

PEOPLE

Division of Continuing Studies—faculty and staff directory (<http://continuingstudies.wisc.edu/about-us/faculty-and-staff.html>)

The full faculty and staff consists of professors and instructors, advisors, administration, marketing, and support staff. They live the Wisconsin Idea every day, providing lifelong learning, professional development, and personal enrichment to students across Wisconsin and around the world.

GAYLORD NELSON INSTITUTE FOR ENVIRONMENTAL STUDIES

The Institute for Environmental Studies was created in 1970 to promote and enhance interdisciplinary environmental instruction, research, and outreach at UW–Madison. In 2002, it was renamed in honor of former Wisconsin governor and U.S. Senator Gaylord Nelson, the founder of Earth Day and a lifelong champion of environmental stewardship.

The program espouses an integrated approach to learning about the environment. Students are encouraged to consider their interests, strengths, and values beyond the context of their courses and connect the subject of the environment to their other courses as well as their extracurricular experiences. The Nelson Institute is a robust environmental community in which students learn about current environmental issues, and more important, how to link environmental science, policy, literature, art, and philosophy to other fields of study. The focus on the intentional integration of their academic endeavors with their interests, skills, and values provides a powerful source of self-awareness that prepares students for success across a variety of options. Finding one's strength within this interdisciplinary approach affords students access to a wide variety of career settings and postgraduate options.

Approximately 170 faculty members from more than 50 natural and social science, engineering, and humanities departments are affiliated with the Nelson Institute, which offers scores of undergraduate-level courses in cooperation with the university's schools and colleges. The institute offers an undergraduate major and two certificates. The environmental studies major must always be done in tandem with another major on campus. Environmental studies majors have second majors in every school and college on campus, and the student population reflects the interdisciplinary focus of the Nelson Institute and its curricular offerings. All UW–Madison undergraduates are invited to consider the program.

DEGREES/MAJORS/CERTIFICATES

- Environmental Studies, Certificate (p. 1174)
- Sustainability, Certificate (p. 1178)

The Nelson Institute also administers the Environmental Studies major (p. 627), available through the College of Letters & Science.

ENVIRONMENTAL STUDIES

- Environmental Studies, Certificate (p. 1174)
- Sustainability, Certificate (p. 1178)

ENVIRONMENTAL STUDIES, CERTIFICATE

WHY CHOOSE AN ENVIRONMENTAL STUDIES CERTIFICATE?

The Environmental Studies Certificate Program allows undergraduate students at UW–Madison to explore the environmental intersections that complement their major, but with fewer curricular requirements than the major. Students completing the certificate also benefit from participation in the Nelson academic community and gain invaluable access to a network of multidisciplinary problem-solving colleagues. The certificate program is only available to UW–Madison students pursuing a bachelor's degree through the university's regular academic departments.

Completion of the certificate program is noted on a student's academic transcript.

REQUIREMENTS

REQUIREMENTS FOR THE CERTIFICATE

Students are required to take five courses/15 credits to include two courses in the Foundation section and three courses in the thematic areas. A minimum of 6 credits overall must be at the intermediate or advanced level (I/A/D). A minimum GPA of 2.0 is required in certificate courses.

G L E/GEOSCI 629	Contaminant Hydrogeology	3

Certificate students may enroll in a capstone course after the majors have enrolled, and the capstone course will be allowed to count in the thematic requirement. Junior standing is required for enrollment.

PASS/FAIL COURSES

Courses in the environmental studies major cannot be taken on a pass/fail basis.

Courses listed under more than one category in the curriculum may be used to satisfy only one category.

ADVISING AND CAREERS

Environmental Studies students are represented in majors across campus and in most undergraduate schools and colleges. Environmental Studies certificate students should utilize the career office for their home

school as appropriate. All students, not just Letters & Science students, can also benefit from the L&S Career Services office.

PEOPLE

A complete list of faculty and staff affiliated with the Nelson Institute is available here. (<http://nelson.wisc.edu/people>)

SUSTAINABILITY, CERTIFICATE

WHY CHOOSE A SUSTAINABILITY CERTIFICATE?

Perhaps the best reason for pursuing a sustainability certificate is a personal interest in learning practical skills to make a difference in the world—in your life, in your job, and in your community. Working toward a certificate offers students the opportunity to pursue interests that complement their major(s). For example, the interdisciplinary nature of sustainability encourages students to consider multiple perspectives. In doing so, this certificate provides a breadth of perspective highly applicable to complex problems, such as those we face in our communities, in our workplaces, and in our personal lives.

The Nelson Institute also offers a major and another certificate:

Environmental Studies Major (p. 627)

Environmental Studies Certificate (p. 1174)

The sustainability certificate can be added to any undergraduate major except environmental studies. Students who earn a sustainability certificate may **not** earn the environmental studies certificate or the certificate in engineering for energy sustainability.

REQUIREMENTS

REQUIREMENTS FOR THE CERTIFICATE

- A 2.00 GPA in the certificate
- 12 credits of coursework, including the capstone, drawn from the list below
- A sustainability-related community service project
- Courses taken on a pass/fail basis will not count toward the certificate.

SUSTAINABILITY CERTIFICATE COURSES

Code	Title	Credits
Select 9 credits from:		9
ENVIR ST/ SOIL SCI 101	Forum on the Environment	
ENVIR ST/ GEOSCI 106	Environmental Geology	
ENVIR ST 112	Environmental Studies: The Social Perspective	
ENVIR ST/ GEOG 120	Introduction to the Earth System	
ENVIR ST/ILS 126	Principles of Environmental Science	

ED POL 150	Education and Public Policy (Climate Change and Sustainability Education section only)
ENVIR ST/ GEOG 139	Living in the Global Environment: An Introduction to People-Environment Geography
ENVIR ST/ GEOG 309	People, Land and Food: Comparative Study of Agriculture Systems
ENVIR ST/ M H R 310	Challenges & Solutions in Business Sustainability
ENVIR ST/ ATM OCN/ GEOG 332	Global Warming: Science and Impacts
CNSR SCI 360	Sustainable and Socially Just Consumption
ENVIR ST/ BSE 367	Renewable Energy Systems
OTM 370	Sustainable Approaches to System Improvement
C&E SOC 375	Special Topics (Human Ecology of Food and Sustainability section only)
ENVIR ST/ GEOG 139	Living in the Global Environment: An Introduction to People-Environment Geography
ENVIR ST 402	Special Topics: Social Perspectives in Environmental Studies (Only selected sections)
R M I 650	Sustainability, Environmental and Social Risk Management
INTER-LS 107	First-Year Seminar in the Social Sciences and Natural Sciences

CAPSTONE

Typically, a 3-credit capstone is also required.

Code	Title	Credits
ENVIR ST 600	Environmental Studies Major Capstone (Water in a Changing World)	3
ENVIR ST 600	Environmental Studies Major Capstone (Capstone in Soil and Water Management)	3
AGRONOMY 375	Special Topics (Systems Thinking)	3
INTEREGR 601	Topics in Interdisciplinary Engineering (Interdisciplinary Design for Energy and Sustainability - IDEAS)	3

A list of approved capstones for next semester is available here. (<http://www.nelson.wisc.edu/undergraduate/sustainability-certificate/capstone-courses.php>)

EXCEPTIONS

Students may request to substitute a listed course with a sustainability-related course that is currently not listed. Such a request requires that students submit a written explanation of how the substitute course meets the learning outcomes of the certificate and assists them in

reaching their individual goals for taking the certificate. They must also submit a syllabus of the substitute class. The substitute request requires approval by the certificate's faculty advisor, Ann Terlaak (ann.terlaak@wisc.edu).

LEARNING OUTCOMES

LEARNING OUTCOMES

Learning outcomes for students completing the sustainability certificate include the ability to:

- Set sustainability-related goals and develop strategies to implement these goals.
- Be able to use and apply concepts related to sustainability:
 - Life cycle thinking
 - Long term thinking, e.g., "Shifting baselines"
 - Sustainability frameworks, e.g., "triple bottom line"
 - Embodied resources including energy and water
 - Natural capital and biodiversity
 - Multiple-stakeholder thinking capstone
 - Climate change concepts
- Link events in time and space to perceive the connections among them
- Analyze human decisions on the basis of their impacts on natural ecosystems
- Apply energy, resource, demand and technology knowledge to value generation and use
- Describe and interpret sustainability issues from local, regional and global perspectives
- Give examples of how public policy influences decisions
- Understand climate change, adaptation and mitigation to extent necessary to support analyses, design and policy decisions

ADVISING AND CAREERS

Nelson Institute students are represented in majors across campus and in most undergraduate schools and colleges. Sustainability certificate students should utilize the career office for their home school as appropriate. All students, not just Letters & Science students, can also benefit from the L&S Career Services office.

OFFICER EDUCATION

The Reserve Officers Training Corps (ROTC) prepares students to become commissioned officers in the U.S. Air Force, Army, Navy, or Marines, as well as for civilian careers. Students may be enrolled in ROTC while pursuing a degree at UW–Madison. ROTC courses are open to all undergraduates who have met the prerequisites. The number of ROTC credits that count toward a UW–Madison degree can vary by department and school or college. Prospective and registered students should contact the military program offices listed in this section of the catalog for information about regular course offerings, summer camp programs, and scholarships.

AIR FORCE ROTC—AEROSPACE STUDIES

The Air Force ROTC (AFROTC) program is the primary path available to enter the U.S. Air Force as an officer. Students enroll in the AFROTC program while working toward the bachelor's degree in **any major** they choose. They attend an aerospace studies class each semester, a hands-on leadership laboratory, and weekly physical fitness sessions, while learning about how the Air Force works and deciding which job fields match their interests. Upon graduating, they enter **active duty** service as second lieutenants, in leadership and management roles in the Air Force.

Most career fields have an active-duty commitment of four years after college. If students choose to separate from the Air Force at that time, they can pursue other careers with experience and the distinction of "military officer" on their resumes.

AFROTC is designed for students with three or more years remaining until graduation. To receive an officer's commission, AFROTC cadets must complete all necessary requirements for a degree as well as courses specified by the Air Force. Courses are often taken for academic credit as part of a student's electives. The amount of credit given toward a degree for AFROTC academic work is determined by the student's school or college, and major department.

Scholarships are available to qualified applicants. Scholarships may provide full tuition, laboratory and incidental fees, and reimbursement for textbooks. In addition, scholarship cadets receive a nontaxable allowance ranging from \$300 to \$500 per month, depending on academic/AFROTC year. Juniors and seniors automatically receive \$450 and \$500, respectively.

All AFROTC courses are open to all students regardless of membership in the program. Students are invited to take one of the program's courses to determine if AFROTC is right for them with no obligation to join. For more information, please contact the Recruiting Flight Commander at 608-262-3440 or 608-265-4812; afrotc@mailplus.wisc.edu.

MILITARY SCIENCE—ARMY ROTC

The Army Reserve Officers' Training Corps (ROTC) is the nation's largest leadership and management-development training program. It offers the opportunity to earn a commission as a Second Lieutenant for Active Duty, Army Reserve, or Army National Guard while pursuing an academic degree. It enables young men and women to prepare themselves to be leaders in the Army or the civilian career field of their choice. The traditional four-year Army ROTC Program is divided into a two-year Basic

Course and a two-year Advanced Course. A non-contracted student enrolled in the Basic Course does not incur a military service obligation.

BASIC COURSE

This instruction introduces the student to fundamental military and leadership subjects. It is normally taken over four successive semesters, but may be completed in as few as two semesters. Students should discuss available options with the Scholarship & Enrollment Officer before registering for courses if they have fewer than four semesters to complete the Basic Course.

The regular curriculum consists of a lecture and lab each semester. Freshmen are encouraged to take MIL SCI 101 Foundations of Officership and MIL SCI 110 Leadership Lab 1A in the fall and MIL SCI 102 Basic Leadership and MIL SCI 111 Leadership Lab 1B in the spring. Sophomores are encouraged to take MIL SCI 201 Individual Leadership Studies and MIL SCI 210 Leadership Lab 2A in the fall and MIL SCI 202 Leadership and Teamwork and MIL SCI 211 Leadership Lab 2B in the spring. Students can enroll in a lecture without enrolling in the lab, but cannot enroll in a lab without the corresponding lecture. Labs are intended to provide practical leadership experience and military skills training such as map reading, land navigation, field training, and rifle/pistol marksmanship.

ADVANCED COURSE

Students who have completed the Basic Course or an equivalency (see Two-Year Program) and have passed all enrollment eligibility criteria continue on into the Advanced Course. This course consists of the following to include corresponding leadership labs, physical fitness training sessions, and a four-week summer camp (Cadet Leader Course) at Fort Knox, Ky.

Code	Title	Credits
MIL SCI 301	Leadership and Problem Solving	2
MIL SCI 302	Leadership and Ethics	2
MIL SCI 401	Leadership and Management	2
MIL SCI 402	Officership	2
MIL SCI 491	American Military History	3

During labs and physical training sessions students are provided practical leadership opportunities to prepare them for summer camp and their future military careers. Students normally attend summer camp between their junior and senior years of Military Science. Students must complete all components of this course to earn a commission.

TWO-YEAR PROGRAM

Students who are veterans, members of the Army National Guard/Army Reserve, or who have participated in the Junior Reserve Officers' Training Corps Program in high school may qualify for direct entry into the Advanced Course. Students who did not complete the ROTC Basic Course (see above), but have two years of academic study remaining may be eligible to attend the Cadet Initial Entry Training. This course compresses two years of the Basic Course into four weeks and is held at Fort Knox, KY during the summer. Students who believe they qualify for this program should consult with the Scholarship & Enrollment Officer for more information.

SCHOLARSHIPS

Qualified students may compete for Army ROTC scholarships ranging from two to four years in duration. Students must be enrolled and

participating in Army ROTC to be eligible for scholarships. Scholarships are merit based and pay full tuition & fees (both in and out-of-state) or room and board (capped at \$5,000/semester) but not both, \$600/semester for textbooks and laboratory expenses, and a tax fee subsistence stipend of \$300–\$500 for each month of the regular school year depending on Military Science level. Interested students should consult with the Scholarship & Enrollment Officer for more detailed information concerning the scholarship eligibility requirements. For additional information about Army ROTC, students may contact Josh Beyerl in the Department of Military Science, 1910 Linden Drive, 608-262-3411, armyrotc@mailplus.wisc.edu.

The naval science curriculum is designed to prepare college students to become commissioned officers in the Navy or Marine Corps. Naval Science courses are normally taken for academic credit as part of a student's free electives. Enrollment will be in one of the following categories.

NAVAL SCIENCE

NROTC SCHOLARSHIP STUDENTS

High school students compete nationally for a four-year scholarship and, if selected, receive full tuition, books, uniforms, and a monthly stipend. Obligated military service is incurred at the beginning of the sophomore year. Applicants must meet established age, physical, mental and other requirements.

NROTC COLLEGE PROGRAM STUDENTS

College program students are selected by the Professor of Naval Science from undergraduates requesting to participate in the program. College freshmen or sophomores may compete nationally for 3- or 2-year scholarships, respectively. Participation and excellent performance in the NROTC program will likely improve the chances of receiving a scholarship. Applicants must meet established age, physical, mental and other requirements. College program students must be selected for scholarship or a commission guarantee to continue in the Naval ROTC program past their sophomore year.

MARINE CORPS INSTRUCTION

Students who desire to become Marine officers take NAV SCI 350 Amphibious Campaigns and NAV SCI 351 Land Campaigns in lieu of NAV SCI 301 Naval Engineering and NAV SCI 302 Naval Weapons. These courses are typically offered every other year.

PEOPLE

Air Force ROTC—Aerospace Studies: Professor Lt Col Goar; Assistant Professor Capt Paeth

Military Science—Army ROTC: Professor Lieutenant Colonel Blue; Enrollment Officer: Josh Beyerl

Naval Science—Professor Murdoch; Associate Professor Barrett; Assistant Professors Dryden, Ebert, Simonds. The assistant professors act as undergraduate advisors and may be contacted through the department office.

SCHOOL OF BUSINESS

The School of Business (<http://www.bus.wisc.edu>) attracts talented, energetic, creative students who are known for their strong work ethic and technical capabilities. Undergraduate students in the Wisconsin Bachelor of Business Administration (BBA) Program (https://wsb.wisc.edu/programs-degrees/undergraduate-bba?_ga=1.242357250.1617918104.1481300313) experience innovative coursework directed by leading scholars in business. They have opportunities to connect with outstanding alumni for applied learning, mentoring, and general life-experience lessons. Students also enjoy access to an unlimited array of activities, clubs, and life-changing opportunities.

In 1900, UW–Madison established one of the first six commerce programs in the country, beginning as a department in the College of Letters and Science, and receiving separate school status by a 1944 act of the Wisconsin Legislature. The School of Business was a founding member of Beta Gamma Sigma (<https://www.betagamma.org>), a national professional business honor society and the Association to Advance Collegiate Schools of Business (AACSB) (<http://www.aacsb.edu>), the standard-setting organization for collegiate business education. The School's undergraduate and graduate programs were reaccredited by the AACSB in 2017.

EXPERIENCE A HIGH-CALIBER UNDERGRADUATE BUSINESS EDUCATION

The University of Wisconsin–Madison is a world-class university, nationally and internationally recognized for academic excellence, incredible students, and inspiring faculty. As a student in the undergraduate business program, you will have access to the academic and co-curricular resources of the entire university, combined with the personalized experience of being a Business Badger. It's like having the best of both worlds.

The curriculum for the Wisconsin BBA Program incorporates a foundation in the liberal arts with a business education, including focused coursework in ten majors. The liberal arts foundation—including courses taken outside of the School of Business—develops your skills in thinking critically, analyzing problems, generating creative solutions, communicating effectively, and working in diverse teams. These are all skills top employers seek when filling positions with strong potential for advancement.

Ten undergraduate business majors are offered, giving you the specialized knowledge you need to begin a great career. You will graduate with skills gained from top-notch faculty and real-world learning experiences. It all adds up to an educational experience that prepares you for career success. The School of Business also offers a certificate in business, a certificate in entrepreneurship, and a capstone certificate in actuarial science. There are also opportunities for further education through our graduate, master's, and doctoral programs.

PREPARE FOR LEADERSHIP AND GAIN PERSONAL SKILLS

The Wisconsin BBA Program gives you far more than an academic experience. We offer a comprehensive business education that equips

you to have an impact as a business professional, a volunteer, a leader in your community, and a future mentor and role model to others.

Employers value specific characteristics in their new hires, including leadership skills, confidence, communication skills, ethical decision-making, and experience working in diverse teams. Top companies come to the School of Business to recruit year after year because they find these qualities in Business Badgers.

ONE-OF-A-KIND PROGRAMS

The School of Business has created groundbreaking programs to support the development of leadership, personal, and professional skills in our BBA students.

THE ACCENTURE LEADERSHIP CENTER

The Accenture Leadership Center (ALC) was one of the first in-house leadership centers at a U.S. business school. Today, it continues to be student-driven and alumni-supported. The center offers a variety of activities, classes, workshops, and leadership training events, including LeaderShape Institute, a six-day, intensive, leadership training. Wisconsin BBA students graduate with the confidence, self-awareness, and professional skills to lead and inspire others.

CHART YOUR PATH WITH THE COMPASS PROGRAM™

Unique to the School of Business, The Compass Program is a multi-year program designed to help you chart your own path to success in the BBA program and beyond. Every Wisconsin BBA student completes this program, which supports personal, academic, career, and professional growth, as well as the development of leadership skills. Both curricular and co-curricular components are incorporated.

The Compass Program will equip you with a portfolio of business-ready skills and a clear understanding of your individual values and strengths. You will have the leadership abilities, communication skills, and professionalism needed to be a well-rounded business leader.

If you want to make a positive contribution to the world around you, both in your career and beyond, The Compass Program will empower you to get there.

DEGREES/MAJORS/CERTIFICATES

MAJORS, SPECIALIZATIONS, CERTIFICATES, AND OTHER PROGRAMS

- Business, Certificate (p. 1195)
- Business: Accounting, BBA (p. 1192)
- Business: Actuarial Science, BBA (p. 1232)
- Business: Finance, Investment, and Banking, BBA (p. 1199)
- Business: Information Systems, BBA (p. 1223)
- Business: International Business, BBA (p. 1202)
- Business: Management and Human Resources, BBA (p. 1213)
- Business: Marketing, BBA (p. 1220)
- Business: Operations and Technology Management, BBA (p. 1226)
- Business: Real Estate and Urban Land Economics, BBA (p. 1229)
- Business: Risk Management and Insurance, BBA (p. 1234)
- Entrepreneurship, Certificate (p. 1217)
- Health Care Management, Specialization (p. 1196)

- Supply Chain Management, Specialization (p. 1198)

ADDITIONAL MAJOR IN LETTERS & SCIENCE

With approval from both the business academic dean's office and the appropriate L&S academic department, business students may complete one L&S major in addition to a business major. Interested students should visit this website (<http://bus.wisc.edu/bba/mybiz/academics/academic-policies-procedures/#Letters%20and%20Science%20Major>).

The Certificate in Spanish Studies for Business Students (<http://guide.wisc.edu/undergraduate/letters-science/spanish-portuguese/spanish-studies-for-business-students-certificate>) is available through the College of Letters & Science.

ENTERING THE SCHOOL

A STUDENT-CENTERED ADMISSIONS PROCESS

The School of Business boasts a student body that is focused and engaged. Our highly talented undergraduate students, in turn, attract recruiting employers who return to Wisconsin year after year to fill internships and full-time positions.

Although the Wisconsin BBA Program is competitive, we do everything we can to help you prepare for the admissions process. The School of Business strives for a great fit between applicants and what we have to offer. Our focus is on partnering with you to help you make the best choice for your future.

There are three different admission paths to the Wisconsin BBA Program. There are separate admissions processes for students who are already enrolled at the University of Wisconsin–Madison and for transfer students. The right choice for you depends on your current goals and where you are in your journey to becoming a Business Badger.

For more information about these options including step by step directions for navigating the admissions processes, qualities the Wisconsin BBA Program is looking for in applicants, and tips for submitting a competitive application, please visit the Wisconsin

BBA Program website (<https://wsb.wisc.edu/programs-degrees/undergraduate-bba/admissions>).

Transfer applicants should visit the School of Business website to determine which process fits their situation. <https://wsb.wisc.edu/programs-degrees/undergraduate-bba/admissions/transfer-students>

Questions along the way? We're here to help. Reach out to a Wisconsin BBA Student Ambassador or contact the BBA Program Office.

WISCONSIN EXPERIENCE

INTEGRATE CLASSROOM LEARNING WITH DIRECT EXPERIENCE

Wisconsin BBA students are expected to apply learning inside and outside the traditional classroom in ways that have a positive impact on the world. Known as the Wisconsin Experience, this principle draws upon opportunities ranging from conducting research to embracing entrepreneurship to developing multicultural competence. By applying classroom learning in both curricular and co-curricular settings, you will build your résumé and gain practical experience in using your business skills.

POLICIES AND REGULATIONS

School of Business students as well as pre-business students are responsible for being familiar with the policies that affect them. School of Business policy is subject to change, so be sure to review this website for the most up-to-date information. Questions related to policy interpretation can be directed to your academic advisor for clarification. Please note that pre-business students are subject to the academic policies and procedures of their current school/college. **In addition to the academic-related policies below, we strongly encourage prospective/pre-business applicants to review all admission policies listed on the Wisconsin BBA Admission Policies (<http://bus.wisc.edu/bba/admissions/Policies>) page.**

COURSES/ENROLLMENT

BUSINESS CREDIT LIMIT

Undergraduate students may not take more than 75 credits of School of Business courses.

GRADUATION

The School of Business will graduate a student at the end of the semester (spring, summer or fall) in which all BBA degree and business major requirements are complete. Graduation will not be postponed for any incomplete School of Business certificate(s), specialization(s), or honors program(s); or additional certificate(s) or major(s) outside the School of Business.

NO-CREDIT COURSES

The School of Business does not award credit for a small number of courses offered at the University of Wisconsin–Madison. Students who take these courses and are subsequently admitted to the School of Business will have the credit removed upon admission. This list is specific to students admitted to the School of Business and is in addition to all applicable university credit policy.

The list of no-credit courses is as follows:

- Failed courses (grade of "F")
- Repeated courses (except where a repeat is allowed)
- Courses for which a student may not receive credit because of a previously completed course (as indicated in the Course Guide)
- ACCT I S 300 Accounting Principles
- I SY E 313 Engineering Economic Analysis
- CNSR SCI 275 Consumer Finance
- CNSR SCI 665 Household Risk Management

Being enrolled in any of the above courses could impact your application to the School of Business. Before enrolling in and taking any of the above courses, please consult your academic advisor.

PART-TIME ENROLLMENT

To maintain full-time standing, students must be enrolled in 12–18 credits.

Undergraduate students who are considering dropping below full time (less than 12 credits) should make sure they know how it will affect their status. Students are responsible for knowing how part-time status will affect them. Below are some of the more common scenarios to explore before dropping credits:

International Students:

Dropping below full time as an international student can have serious consequences, up to and including deportation. Please be sure to check with the International Student Services Office before dropping below 12 credits.

Scholarships, Grants, and Other Awards:

Depending on the conditions of the scholarship, a student may be required to be full time in order to remain eligible for an award. Be sure to check the stipulations for any awards you have received.

Financial Aid:

Be sure to check with the Office of Student Financial Aid to find out if being part time will affect your financial aid package.

Tuition Refunds:

Depending on when the credits are dropped, you may be eligible for a tuition refund. Check the registrar's website for information about refund deadlines.

Athletes:

Varsity athletes are governed by Big Ten and NCAA rules that do not allow them to drop below full time. Be sure to check with your coach and athletic advisor before dropping below 12 credits.

Degree Completion:

Taking fewer credits or courses than anticipated may delay your graduation. Be certain that if you drop a course, you will still be able to complete all required courses within your desired timeline. If you are not sure, please see your academic advisor.

PASS/FAIL

The university pass/fail policy can be found here (http://apir.wisc.edu/uapc/2014-15/UAPC2015021906_PassFail.pdf).

Undergraduate business students who are in good academic standing (i.e. not on probation) may take only one (1) course as pass/fail per semester including the summer session. A maximum of 16 total credits

may be completed as pass/fail to count toward completion of the 120 degree credits required for the BBA.

The pass/fail privilege is for a non-business elective course. The following courses cannot be taken pass/fail:

- All business courses including those designated as "meets with," "cross-listed," and those taken during study abroad programs
- Any requirement for the business major or degree, including, but not limited to, pre-business and liberal studies requirements

Note: It is the responsibility of the student to check requirements and policies for non-business majors and certificates prior to requesting the pass/fail privilege.

The pass/fail grade will not be included when computing your GPA, but the pass/fail credits with S (Satisfactory) grades will apply toward graduation. S is the grade for A to C; U (Unsatisfactory) is the grade for D and F.

Students must complete a minimum of 12 graded credits each semester in order to be eligible for the dean's list.

In order to apply for the pass/fail privilege, students must submit an online request by following the directions below:

- Sign in to your My UW page, and click on the Student Center link.
- Click on Course Enrollment on the left hand side under Academics.
- Select the upper right hand tab entitled "term information."
- Click on Course Change Request.
- After you select the term, you will see a list of your current courses.
- Check the box to the left of the course that fulfills the non-business elective course requirements as seen above. A list of options will appear.
- Select the "Add Pass/Fail" box.
- Please disregard the message that says "print and obtain necessary signatures to complete this process." You do not need to do this.
- Scroll down and click Save.
- Your request is then sent directly to the BBA Advising Center. You will be notified by email whether or not your request has been approved.

Please complete the online pass/fail form by the deadline. See the O (<http://www.registrar.wisc.edu>)ffice of the Registrar website (<https://registrar.wisc.edu>) for deadline information.

Once the student has submitted the form, the course may not be changed from pass/fail back to a conventionally graded course. Once a pass/fail grade is recorded as S or U, it cannot be changed to a letter grade.

PHYSICAL EDUCATION/DANCE/KINESIOLOGY

Students are allowed a total of 8 degree credits of physical education/dance/kinesiology toward a BBA degree.

REPEATING A COURSE

Per university policy, students may repeat (retake) courses to improve their letter grade. There are several reasons, however, why repeating courses is rarely advised unless a grade of "F" is earned.

- Students may not receive degree credit more than once for most courses.

- Previous grades are not erased—both grades are included in the cumulative grade point average. The original grade will remain on the transcript (along with the second grade earned).
- Credits carried on courses being repeated count toward the maximum credits permitted in a semester.
- There is no guarantee that a student's grade will improve by repeating a course.
- Progress toward graduation is not made when courses are repeated.

RESIDENCY FOR DEGREE

Students admitted to the Wisconsin BBA at UW–Madison who transfer from another college or university must complete a minimum of 30 credits in business courses. These courses must be offered by the School of Business and taken as a UW–Madison student to satisfy degree requirements for the BBA. Students can use a maximum of two courses taken at another school to satisfy requirements of the Wisconsin BBA major that are not part of the Wisconsin BBA core. Individual departments may have a more restrictive policy on transfer courses.

WITHDRAWAL

A student who finds it necessary to withdraw during a semester or summer session must drop all their courses and complete the online withdrawal request in the Student Center. Failure to do so may result in a recording of Failure for all courses and a "may not continue" action. Any student may withdraw with permission and without grades being recorded at any time up to the last three weeks of a semester or up to the last two weeks of a summer session.

FINALS

General Info/Schedule:

Final exam times are automatically assigned for both fall and spring semesters. Final exam times can be found in the Student Center at MyUW.

Make-Up Final Exams:

Make-up exams may not consist of more than 10% of the total number of students enrolled. If an instructor needs to give a make-up to more than 10% of students enrolled, they must obtain the dean's written approval.

Student Conflicts:

Students should attempt to avoid having more than two exams within 24 hours. If a student has more than two exams in 24 hours, the instructor may—but is not required to—offer a make-up final exam or allowable alternative. However, if a student has two exams at the same time and date, one instructor must offer a make-up final exam or allowable alternative.

MIDTERMS

The department chairs have approved this midterm policy.

The School of Business discourages giving exams outside of regularly scheduled class periods. Exams given outside class—for example, in the evenings—inevitably create conflicts for students who are taking other classes at that time. This problem with conflicts is getting more common as departments are using all available times—especially late in the afternoon and evenings—for scheduling classes.

Exams must be scheduled for either 5:30-7 p.m. or 7:15-9:15 p.m. This allows students with classes that end at 5:15 to make the exam. Any exam longer than 90 minutes should be given in the 7:15-9:15 p.m. time

period to conform to university policy. This policy is consistent with the out-of-class exam policy passed by the faculty senate on May 10, 1982.

Any student that has another class that meets at the time the out-of-class exam is scheduled must be given the opportunity to take a make-up at a time convenient for the student.

Instructors of daytime courses who plan to give evening mid-term exams must footnote such intentions in the Schedule of Classes so students will be aware of potential conflicts with evening courses or other commitments. If the possibility of evening exams is not mentioned in the Schedule of Classes, it is usually not a good idea to try to schedule one unless every student agrees. If any conflicts arise, instructors who schedule evening exams should accommodate students with unavoidable conflicts. Whenever possible, times and/or days of evening exams should also be footnoted.

Student Conflicts:

Students should attempt to avoid having more than two exams within 24 hours. If a student has more than two exams in 24 hours, the instructor may—but is not required to—offer a make-up exam or allowable alternative. However, if a student has two exams at the same time and date, one instructor must offer a make-up exam or allowable alternative.

GRADES

ACADEMIC PROBATION

Students admitted to the School of Business must maintain all of the following GPA minimums:

- 2.00 cumulative GPA on all UW–Madison coursework
- 2.00 semester GPA for each semester
- 2.00 GPA on business/economics coursework
- 2.00 GPA on all coursework taken since admission to the School of Business

Failure to meet any of these standards will result in probationary status.

A student will be cleared of probationary status at the end of the semester or summer session when all of the above conditions are met and the student's record contains no grade of incomplete.

Students continuing on probation for a second, consecutive semester will be placed on strict probation. Students who are not removed from strict probation after one semester will be dropped from enrollment in the School of Business (and UW–Madison) for one semester. Students whose GPA places them in dropped status may reapply on probationary status (after a one-semester hiatus) if they can demonstrate the ability and desire to devote sufficient energy to scholastic work. To reapply, students may complete a reentry application through the Office of Admissions and Recruitment.

GPA deficiencies causing probationary status cannot be removed through coursework at another university or through correspondence study.

DEAN'S LIST

Business students who achieve a grade point average of 3.75 for any semester in which they complete 12 graded degree credits will have their names on the dean's list. A permanent record of this achievement is entered on the student's transcript. Students with I, P, or U on their grade report will automatically be ineligible for the dean's list. Subsequent academic action may change eligibility.

GRADE APPEAL

If a student is dissatisfied with a grade received in a School of Business course, the following procedure must be followed should the student wish to appeal the grade.

1. The student will first discuss the grade appeal with the instructor of the course.
2. If the student and instructor cannot come to an agreement, the student will provide a formal written request for grade appeal to the associate dean in charge of the relevant program. The written request must include the class, instructor, grade received, date and conclusion of meeting with instructor, and the specific reason(s) for appealing the grade.
3. The associate dean will forward the appeal request to the chair of the department which houses the course in question. The department chair will perform the due diligence necessary (including, but limited to, meeting with the instructor and student) to assess the merits of the appeal request and will provide a decision in writing to the associate dean.
4. The associate dean will communicate the decision to both the student and instructor.
5. Should the student wish to appeal the decision further, the associate dean will perform the due diligence necessary (including, but limited to, meeting with the chair, instructor, and student) to assess the merits of the appeal request. The associate dean has the discretion to review not only the process that was undertaken in the first review, but also the earlier decision. The associate dean will provide a decision in writing to the chair, instructor, and student.
6. The instructor will take action if needed.

GRADING POLICY

Effective Fall Semester 2009:

Core Classes: The mean grade should be no higher than 3.0 in the following undergraduate classes:

1. ACCT I S 100 Introductory Financial Accounting
2. GEN BUS 301 Business Law, GEN BUS 303 Business Statistics, ACCT I S 211 Introductory Managerial Accounting, FINANCE/ ECON 300 Introduction to Finance, MARKETNG 300 Marketing Management, M H R 300 Managing Organizations, OTM 300 Operations Management, R M I 300 Principles of Risk Management
3. Exempt from this requirement is GEN BUS 300 Professional Communication
4. Non-Core Classes: For all other undergraduate courses with class numbers below 600 and 15 or more students enrolled, the mean grade should be no higher than 3.3 and the maximum percentage of A's is 30%.

GRADUATING WITH DISTINCTION

The Office of the Registrar compiles a preliminary list of business students eligible for distinction. These students are eligible to wear an honors stole with their commencement attire. The BBA Advising Center will notify eligible students via email 2-3 weeks before the commencement ceremony.

Distinction is awarded to graduated business students who meet the following criteria:

- At least sixty (60) credits earned (in residence) at UW–Madison

- A cumulative UW–Madison GPA in the top twenty percent (20%) of the graduating business class

Please note that students on the preliminary list for distinction may or may not receive distinction. The distinction designation is subject to change and is dependent upon official graduation date (semester), number of students graduating, and final grade calculations, including last semester and in-progress courses.

Students who graduate with distinction are eligible to wear a cardinal stole with their commencement attire. The stoles can be obtained from the University Bookstore with a deposit and do not need to be ordered in advance. More information on graduation attire can be found on the site of the Secretary of the Faculty.

“Graduated with Distinction” is notated on official transcripts only.

INCOMPLETE POLICY

An incomplete may be reported for a student who has carried a subject with a passing grade until near the end of the semester and then, because of illness or other unusual and substantiated cause beyond his/her control, has been unable to take or complete the final examination or to complete some limited amount of term work. An incomplete is not given to a student who stays away from a final examination unless the student proves to the instructor that he or she was prevented from attending as indicated above. In the absence of such proof, the grade shall be F; even with such proof, if his/her work has convinced the instructor that he/she cannot pass, the grade shall be F.

If an admitted business student earns an incomplete, the work for that course must be completed by the end of the student's next semester in residence (exclusive of summer sessions). Incompletes incurred in the last semester of residence may not be removed after five years of absence from the university without special advance permission of the associate dean. Such incompletes must remain on the record with grades of PI and do not lapse into failures.

See the Office of the Registrar's website (<http://registrar.wisc.edu/incompletes.htm>) for the full incomplete policy, including the policy for students in other schools/colleges.

MAJOR DECLARATION LETTERS AND SCIENCE MAJOR

Business students may declare one additional major in the College of Letters & Science. Additional majors in a school/college other than the School of Business or College of Letters & Science may not be declared. Business students who gain approval to complete an additional major in L&S must complete major requirements prior to or concurrently with their business major/degree. Students who have fulfilled the major and degree requirements for the BBA will be graduated, even if L&S major requirements have not been completed.

To declare a second L&S major:

Meet with the major advisor in the College of Letters & Science and complete the major declaration form or other document students use to declare a major in the department. The form or document must have L&S academic advisor's signature, and it must be filled out completely. Deliver the completed form to the BBA Advising Center (3150 Grainger Hall). Incomplete or inaccurate forms will not be processed. You will be notified via email if the form is incomplete or if your request has been approved.

Meet regularly with your School of Business academic advisor and College of Letters & Science major advisor regarding major and/or degree requirements.

To cancel a second L&S major:

Students interested in cancelling their L&S major must go to the department to undeclare their additional major. Usually students must fill out a Major Declaration/Cancellation Form provided by the department advisor. The form must be signed and dated by both the student and a representative of the major department. The form must include the name, phone, and email address of the departmental faculty or staff advisor associated with the major. Turn the original form in to the BBA Advising Center (3150 Grainger Hall).

SCHOOL OF BUSINESS MAJOR

All students admitted to the School of Business are required to declare a major before or upon the completion of 86 credits (including credits from transfer, AP, test, study abroad, or retroactive credits). Business students may declare or cancel any of the 10 majors offered by completing the **major declaration form**.

Students interested in declaring a certificate or specialization offered through the School of Business should follow the procedures outlined on the Certificates and Specializations page for the appropriate program.

Please note that first-year students **will not** receive an enrollment hold in their first two semesters on the UW–Madison campus. In addition, first-semester transfer students will also not receive an enrollment hold.

COURSES AT OTHER INSTITUTIONS COMMON GUIDANCE FOR OFF-CAMPUS COURSEWORK

Wisconsin BBA students are advised to take no more than two courses in their major (or per major if pursuing multiple majors) off-campus. This guidance includes courses taken for transfer credit at another accredited institution as well as courses taken on a School of Business or UW–Madison-sponsored study abroad program. Due to the international emphasis of the major, there is no limit on the number of courses taken towards the International Business major while on a School of Business or UW–Madison-sponsored study abroad program. The academic departments of the School of Business strongly recommend that all BBA students complete the core or initial course in their major(s) on campus.

While BBA students are able to take courses off-campus, the BBA Program reminds students that they should plan to complete all prerequisites for any off-campus course, regardless of its place in the BBA curriculum, prior to taking the course off-campus. Attention to these prerequisites is crucial to ensuring BBA students are prepared for their coursework whether it is taken on or off campus. Advance academic planning is an integral part of a student's success and ability to remain on track to graduate.

CONCURRENT ENROLLMENT

School of Business students are not allowed to enroll concurrently at other accredited post-secondary institutions during any term in which they are enrolled at UW–Madison (fall, spring). This includes enrollment in online, distance education, and physical attendance classes (exceptions may be made for UW–Extension/Independent Learning—see below). Please be aware that if you are taking a course at another university that begins in the summer and continues through the fall and/or spring semester, it will fall into this category of concurrent enrollment, regardless of when the course will be completed.

Students are permitted to enroll in more than one university during summer sessions only.

If it is discovered that a student violated the above policy, this credit will be removed from the student's record. It is the responsibility of the student to verify with their academic advisor that they are not in violation of this policy.

INDEPENDENT LEARNING

UW Independent Learning (UW IL) is a branch of UW Extension that offers online and print-based courses. Courses taken through UW Independent Learning are considered **concurrent enrollment** and require special permission to enroll in the fall, spring or summer.

Students interested in taking a course through UW IL should meet with an academic advisor. If the advisor and student agree this is a good option the student should follow these steps to request permission for concurrent enrollment and request a tuition waiver (if applicable). Forms should be returned to 3150 Grainger.

- Fill out a **Petition/Special Consideration Request** requesting permission for concurrent enrollment with UW Independent Learning. Be sure to include which class you intend to take.
- Students with full time status at UW–Madison may request a **tuition waiver** for UW Extension Independent Learning Courses provided that the following conditions are met:
 - The student requests the waiver and enrolls in the course by the UW–Madison add deadline (second Friday of the semester).
 - The course is taken during the regular academic session.
 - The course is completed during the term for which the tuition waiver is requested.
 - The student does not exceed 18 credits total between the two campuses.

Students are responsible for the \$75 administrative fee for enrolling in a UW IL course.

The minimum length of time to complete an IL course is typically three months. Foreign language courses often require more time. Students should take this into consideration as they are planning the completion of their degree.

TRANSFER CREDITS

UW–Madison students may choose to take courses off campus during the summer and potentially transfer credit to UW–Madison. The UW–Madison Office of Admissions handles all transfer course equivalencies. Please note that UW–Madison students may not take courses at another institution during the fall or spring semester if they are concurrently taking courses at UW–Madison (see **concurrent enrollment policy**). Students may take no more than one course off-campus during winter recess provided the winter term does not conflict with the UW–Madison fall or spring terms. Students interested in earning transfer credit for a **non-UW study abroad program** must work with UW–Madison's International Academic Programs well in advance.

It is highly recommended that students do not take a course unless they know in advance that it will transfer to UW–Madison for credit.

Transferring courses from a Wisconsin public or technical college? Use the **Transfer Information System** to determine course equivalencies.

Transferring courses from select technical colleges in Minnesota and Illinois?

Use the **Transfer Equivalency Database** to determine course equivalencies from common feeder technical colleges in neighboring states.

Transferring courses from any other institution?

The UW–Madison Office of Admissions offers a **Summer Course Equivalency Service** to students who wish to submit courses for transfer equivalency prior to taking a course off campus.

Transfer Credit Process

- Review your DARS report and consult your academic advisor to see what you still need to take and whether the course(s) would be a good option to take at another institution over the summer. It is not advised to take your business major courses off campus.
- Research course options at the institution where you plan on taking the course(s).
- Determine equivalency (use resources listed above).
- Apply as a “special” or “guest” student at the institution you plan on attending.
- Enroll in the course and pay tuition directly to the institution you are attending.
- After the course is complete, have the institution send an official transcript to the UW–Madison Office of Admissions and Recruitment (702 West Johnson Street, Suite 1101, Madison, WI 53715-1007).

REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) degree program is based on a broad educational foundation combined with courses in business and economics. This curriculum is designed for those students who wish to prepare for careers in business.

PRE-BUSINESS REQUIREMENTS

The following requirements are for students who began coursework at any institution in summer 2008 and after. Students who began coursework before summer 2008 should consult their academic advisor.

Students need to complete or be in the process of completing these courses in order to apply to the School of Business (with the exception of Direct Admit Students (p. 1184)).

Code	Title	Credits
Communication Part A		
Complete one course designated Communication Part A, preferably:		0-3
COM ARTS 100	Introduction to Speech Composition	
ENGL 100	Introduction to College Composition	
ESL 118	Academic Writing II	
Completion of Communication Part A based on UW Placement Test		
Economics		
ECON 101	Principles of Microeconomics	4
or ECON 111	Principles of Economics-Accelerated Treatment	
Psychology		
PSYCH 202	Introduction to Psychology	
Calculus		

Select one of the following:	5
MATH 211	Calculus
MATH 217	Calculus with Algebra and Trigonometry II
MATH 221	Calculus and Analytic Geometry 1
Total Credits	9-12

LIBERAL STUDIES REQUIREMENTS

Liberal studies requirements must be completed prior to graduation. **Students may not use a single course to fulfill multiple requirements.**

Code	Title	Credits
Communication Part B		
Select one 3 (or more) credit course designated Comm B (b)		3-4
Literature		
Select one 3 (or more) credit course designated Literature (L)		3
Science		
Select six credits designated Biological, Natural, or Physical Science (B, N, or P). Courses with W, X, or Y designators, or courses in computer science, math, statistics, and the School of Business WILL NOT satisfy the science requirement		6
Foreign Language		
Select 3 units (or more) of the same foreign language ¹		0-12
Ethics		
Select one of the following:		3-4
PHILOS 241	Introductory Ethics	
PHILOS 243	Ethics in Business	
PHILOS 341	Contemporary Moral Issues	
PHILOS/ ENVIR ST 441	Environmental Ethics	
Humanities		
Select one 3 (or more) credit course designated Humanities (H or Z) ²		3
Ethnic Studies		
Select one 3 (or more) credit course designated Ethnic Studies (e)		3
Social Science		
Select one 3 (or more) credit course designated Social Science (S or Z)		3
Advanced Math/Statistics		
Select one of the following: ³		3-4
GEN BUS 307	Business Analytics II	
STAT/MATH 310	Introduction to Probability and Mathematical Statistics II	
or STAT 312	Introduction to Theory and Methods of Mathematical Statistics II	
ECON 410	Introductory Econometrics	
Total Credits		27-42

¹ One unit of foreign language equals one high school year or one college semester. Therefore, some students may have this

requirement satisfied upon matriculation if they took 3 or more years of the same language in high school.

² **Note:** If a student completes an additional Literature (L) course, this requirement will be satisfied

³ This requirement also satisfies a business prep requirement (more information about this is below), which is required of all business students.

BUSINESS FOUNDATION REQUIREMENTS

All degree candidates in the Wisconsin BBA are required to complete foundation courses in business and economics. The foundation courses, in conjunction with a broad educational base, are designed to integrate the student's specialized training with an understanding of the structure and functions of business and its role in the larger social system. Business foundation courses make up the business preparatory, core, and breadth requirements. During the first semester after admission to the School of Business, students must complete a one-credit course that is the foundation of the Compass Program™.

BUSINESS PREPARATORY REQUIREMENT

Preparatory business requirements are typically taken within the first two semesters after admission to the Wisconsin BBA.

All students must take the following:

Code	Title	Credits
GEN BUS 120	Personal and Professional Foundations in Business ¹	1
or GEN BUS 130	Personal and Professional Foundations in Business	
GEN BUS 300	Professional Communication	3
ECON 102	Principles of Macroeconomics	4
or ECON 111	Principles of Economics-Accelerated Treatment	
ACCT I S 100	Introductory Financial Accounting	3
ACCT I S 211	Introductory Managerial Accounting	3
Business Analytics (options for this are found below)		6-9
Total Credits		20-23

¹ Direct Admit Students take GEN BUS 365 (Direct Admit - LEAD class) during their first semester instead of GEN BUS 120 or GEN BUS 130. The LEAD course is 3 credits and also satisfies one Business Breadth Requirement.

BUSINESS ANALYTICS REQUIREMENT¹

The business analytics requirement is part of the business prep courses, but has 3 options to choose from. Most students complete Option 1. GEN BUS 306 & GEN BUS 307 should be taken as soon as possible and in subsequent semesters. Actuarial science and economics majors will fulfill Option 2 or 3. Number of credits for this requirement varies between options:

Code	Title	Credits
<i>Option 1:</i>		
GEN BUS 306 & GEN BUS 307	Business Analytics I and Business Analytics II	6
<i>Option 2 (Actuarial Science Majors ONLY):</i>		
This is a 3-course sequence. Choose one course from each of the three options:		9

MATH/STAT 431	Introduction to the Theory of Probability	
or STAT/ MATH 309	Introduction to Probability and Mathematical Statistics I	
or STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	
STAT/MATH 310	Introduction to Probability and Mathematical Statistics II	
or STAT 312	Introduction to Theory and Methods of Mathematical Statistics II	
ACT SCI 654	Regression and Time Series for Actuaries	
or ACT SCI 655	Health Analytics	

Option 3 (Economics Double Majors ONLY):

ECON 310 & ECON 410	Statistics: Measurement in Economics and Introductory Econometrics	8
---------------------	--	---

¹ The second course of each sequence (GEN BUS 307, ECON 410, STAT/MATH 310, or STAT 312) also satisfies the advanced math requirement from Liberal Studies Requirements.

BUSINESS CORE REQUIREMENT

Students in the Wisconsin BBA must complete the preparatory business requirements (above) and at least two Core Business courses prior to enrolling for Advanced Business Courses. All Core Business courses should be completed by the end of a student's junior year. Advanced business courses are all courses at the 300 level or above, and we require all students to take four.

Code	Title	Credits
FINANCE/ECON 300	Introduction to Finance	3
MARKETNG 300	Marketing Management	3
M H R 300	Managing Organizations	3
OTM 300	Operations Management	3
Total Credits		12

Business Breadth Requirement

The Business Breadth Requirement includes Business Law, and two Breadth Courses that are outside of a student's major in a different business major department.

Code	Title	Credits
GEN BUS 301	Business Law	3
Business Breadth Course ¹		3
Business Breadth Course ¹		3
Total Credits ²		3-9

¹ Students must complete two business courses (3 credits each) that are outside their major area from two separate School of Business departments. Courses taken to satisfy this requirement may not include preparatory or core courses, courses required by or cross-listed with the student's major, general business courses, any 399 (Readings and Research) course, or international business courses cross-listed with foreign language departments. In addition, students cannot take both breadth courses from the same department. Other courses that are 'core' or introductory courses in other business major areas (that are not part of the core

requirement) may be taken to satisfy a business breadth course: ACCT I S 301, ACT SCI/MATH 303, INFO SYS/COMP SCI 371, INTL BUS 200, REAL EST/A A E/ECON/URB R PL 306, R M I 300

- ² Students with two majors in business or students with one major and a specialization in supply chain management need only one course (3 credits) outside their majors/supply chain management specialization to satisfy this requirement. Students with three or more majors (in the business school) or two majors and the supply chain specialization are not required to take additional breadth courses.

CREDITS FOR BBA DEGREE

A minimum of 120 credits is required for the bachelor of business administration degree. Among these 120 credits:

- 52 credits (minimum) must be in business and economics courses
- 52 credits (minimum) must be in courses other than business and economics

RESOURCES

ACADEMIC ADVISING

As a student in the Wisconsin BBA Program, you will work directly with academic advisors who will help you plan your business education every step of the way. The advisors are here to help you explore your options, define your goals, and accomplish what you set out to achieve during your time as a Business Badger and beyond. Academic advisors also support students in making choices about course enrollment and understanding and interpreting degree requirements and policies.

Advisors in the Wisconsin BBA Program work in partnership with you. We give you the tools and support you need to make your own decisions about the course of your education. Your partnership with the advising team begins early in your academic career at the University of Wisconsin–Madison. When you enroll in the UW–Madison, one of your first steps will be to attend Student Orientation, Advising, and Registration (SOAR), where you will have your first meeting with an academic advisor.

Admitted students check in with both their academic advisor at least once a year. The BBA Advising Center also holds drop-in hours. Even UW–Madison students who are not yet enrolled in the Wisconsin BBA Program but who expect to apply through the pre-business admissions process (<https://wsb.wisc.edu/programs-degrees/undergraduate-bba/admissions/uw-madison-students>) receive their business advising at the School of Business.

In addition to providing advising, the Wisconsin BBA Advising Center serves as the academic dean's office: interpreting policy, administering academic processes, and performing graduation checks for graduating business students. For more information, visit the advising website (<http://bus.wisc.edu/bba/mybiz/advising>) or contact the Wisconsin BBA Advising Center in 3150 Grainger Hall; 608-262-0471; wibbaadvising@bus.wisc.edu.

CAREER SERVICES

The Wisconsin BBA Career Services team takes a relationship-based approach to working with students throughout the career development process and also consults with top employers to facilitate the recruitment, hiring and career readiness of our students. We offer a

variety of services to undergraduate business, Certificate in Business, Capstone in Actuarial Science, and Master of Accountancy students including 1:1 advising, career and major exploration and planning, career workshops, mock interviews, career fairs, employer information sessions, on-campus interviewing, job shadow experiences and networking events. We will also coach you through the development of a professional resume, cover letter, networking and interviewing skills and job offer/negotiation skills. Through the exploration of your values, strengths and interests, we will help you create a career action plan early on in your collegiate experience so that you can participate in experiences both on and off campus to build your skills and readiness for the workplace or graduate study. Career planning is an ongoing process, and we are committed to helping you determine and achieve your immediate career goals and support you in developing the skills to manage a successful career throughout your lifetime.

For more information about BBA Career Services resources for students and faculty/staff, please see this page (<http://bus.wisc.edu/bba/mybiz/careers-internships>).

BUSINESS LEARNING CENTER

The Business Learning Center (BLC) provides supplemental not-for-credit tutorials, drop-in office hours, and practice materials for select business-related courses. Materials are lecture-specific and tailored to the particular course instructor and textbook in use. BLC teaching assistants are all graduate students in either business or economics.

Drop-in office hours and practice materials are available to all students enrolled in BLC-supported courses. The tutorials are an additional service that requires registration—although BLC tutorials are open to all students, enrollment is limited and registration is required in order to attend. Courses supported through the BLC include mostly quantitative courses required for the BBA degree.

Students interested in the BLC may call 608-262-1186 for more information, or stop by the office, 2240 Grainger Hall. Please check the BLC website (<http://www.bus.wisc.edu/blc>) for additional information, including the online application.

STUDENT LIFE

Wisconsin BBA student life coordinates leadership and involvement opportunities for students to enhance their personal and professional skills.

The Accenture Leadership Center (ALC) offers students unique, hands-on opportunities to develop leadership skills through workshops, guest speaker events, leadership case competitions, and other programs. The ALC also coordinates LeaderShape Institute, an intensive, six-day off-campus leadership training program where students learn to develop a vision and work with others to bring it to life. Students interested in documenting their leadership journey, making connections between their leadership experiences, and reflecting on their leadership development can pursue the ALC Leadership Certificate.

The Wisconsin BBA Program also has its own student government, BBA Gov, to unify and represent the student voice on issues of shared governance within the school and to promote community within the BBA program. In addition, there are over 35 undergraduate business student organizations, offering plenty of opportunities for students to get involved and put their leadership and collaboration skills into practice. A business

student organization fair is held at the start of each semester where potential new members can meet with representatives of organizations.

The student life team also oversees the Personal and Professional Foundations in Business course that all newly admitted BBA students take and coordinates the BBA program requirements to help students develop their professional skills outside the classroom.

For more information about Wisconsin BBA Student Life, see this page (<http://bus.wisc.edu/bba/mybiz/leadership-student-orgs>).

BBA INTERNATIONAL PROGRAMS

A study abroad experience can complement and enhance every aspect of your business education. The Wisconsin BBA Program makes this opportunity possible by partnering with more than 35 of the top business schools and study abroad programs across the globe. Around 40% of each Wisconsin BBA graduating class studies abroad. These students regularly speak of their experience as professionally rewarding and personally transformative. A study abroad experience can be a great way to demonstrate enhanced autonomy, motivation, organization, worldview, and ability to take risks. You, too, can return from study abroad with a developed set of skills (that employers value!), a new sense of self, and a greater appreciation of cultural differences. Learn more about business study abroad opportunities here (<http://www.bus.wisc.edu/studyabroad>).

ACCOUNTING AND INFORMATION SYSTEMS

The accounting major provides a student with the foundation to excel as a certified public accountant, internal auditor, financial manager, controller, and consultant. Tools and techniques of planning, control, and decision analysis (including computer applications) are developed in broad areas such as financial and managerial accounting, taxes, consulting, cost analysis, computer auditing, and accounting systems.

DEGREES/MAJORS/CERTIFICATES

- Business: Accounting, BBA (p. 1192)

BUSINESS: ACCOUNTING, BBA

The accounting major provides a student with the foundation to excel as a certified public accountant, internal auditor, financial manager, controller, and consultant. Tools and techniques of planning, control, and decision analysis (including computer applications) are developed in broad areas such as financial and managerial accounting, taxes, consulting, cost analysis, computer auditing, and accounting systems.

Every significant transaction in today's world requires assessing employment of money and materials. Accountants suggest the best way to manage resources or monitor and report on an organization's financial well being. Career possibilities include corporate accountant, auditor, controller, consultant, tax advisor or systems expert.

OUR MISSION IS TO

- Serve our students, the accounting profession, academia, and other stakeholders through nationally recognized leadership in all aspects of scholarship, with an emphasis on discipline-based research.

- Provide meaningful learning experiences that engage the highest quality faculty and students who will be entering the accounting profession or the accounting academy and support the development of business professionals.
- Provide leadership and service to the academic community and policy-making bodies.

 Institute of Management Accountants (<https://win.wisc.edu/organization/imauwmadison>)
 National Association of Black Accountants (<https://win.wisc.edu/organization/naba>)

HOW TO GET IN

Students wishing to pursue this major must be admitted to the School of Business. Once admitted, students are able to pursue any business major they choose. To find out more about the school's admissions process for undergraduate students, please see *Entering the School* (p. 1184).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

SCHOOL OF BUSINESS REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) degree program is based on a broad educational foundation combined with courses in business and economics. This curriculum is designed for those students who wish to prepare for careers in business. Students completing any School of Business major (p. 1189) are required to satisfy a common set of Pre-Business Requirements, Liberal Studies

Requirements, Business Preparatory Requirement, Business Core Requirement, Business Breadth Requirement, and Credits for BBA Degree.

Code	Title	Credits
School of Business BBA Requirements		
Complete requirements: (p. 1189)		
Pre-Business		
Liberal Studies		
Business Prep		
Business Core		
Business Breadth		

ACCOUNTING MAJOR REQUIREMENTS

The accounting major is a total of 24 credits, distributed as follows:

Code	Title	Credits
GEN BUS 302	Business Organizations and Negotiable Instruments	3
ACCT I S 301	Financial Reporting I	3
ACCT I S 302	Financial Reporting II	3
ACCT I S 310	Cost Management Systems.	3
ACCT I S 340	Accounting Systems	3
ACCT I S 406	Advanced Financial Reporting ¹	3
ACCT I S 620	Fundamentals of Taxation	3
ACCT I S 630	Audit and Assurance Services	3
Accounting majors must maintain a minimum 2.5 GPA in business and econ courses every semester		
Accounting majors must take a minimum of 18 credits of ACCT I S courses at the 301 level or higher at UW-Madison		
Total Credits		24

¹ Students admitted to the Integrated Master's of Accountancy (IMAcc) Program (<https://bus.wisc.edu/degrees-programs/msmacc/>) who complete a spring semester internship must complete ACCT I S 600 and ACCT I S 601 instead of ACCT I S 406. IMAcc students who complete a summer internship will still be responsible for completing ACCT I S 406 as part of the undergraduate degree requirements and will not enroll in ACCT I S 600 and ACCT I S 601.

RECOMMENDED ELECTIVES ¹

Code	Title	Credits
ACCT I S 603	Financial Statement Analysis	3
ACCT I S 621	Corporate and Advanced Taxation	3
The following courses are recommended as program electives outside of accounting. The student is encouraged to elect as many as a program will permit.		
FINANCE/ECON 320	Investment Theory	3
FINANCE 325	Corporation Finance	3
INFO SYS/COMP SCI 371	Technology of Computer-Based Business Systems	3
INFO SYS 424	Analysis and Design of Computer-Based Systems	3
OTM 654	Production Planning and Control	3
REAL EST/A A E/ECON/URB R PL 306	The Real Estate Process	3

R M I 300	Principles of Risk Management	3
-----------	-------------------------------	---

¹ Students who are interested in sitting for the CPA Exam may consider taking 1–2 extra accounting courses, as CPA requirements vary from state to state. Learn more (<http://guide.wisc.edu/undergraduate/business/accounting-information-systems/accounting-bba/#certificationlicensuretext>) about the CPA.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

- Students will understand the conceptual and technical knowledge foundations of financial accounting, managerial accounting, taxation, business law, and auditing.
- Students will apply Generally Accepted Accounting Principles (GAAP) (and relevant assumptions, principles, and constraints) to prepare financial statements.
- Students will understand that management accounting and control systems, providing financial and non-financial performance information, are integral to the successful design and implementation of an organizational strategy.
- Students will interpret and validate business events and transactions through the lens of business processes and systems.
- Students will demonstrate technical competence in income taxation of individuals, partnerships, corporations, and international organizations.
- Students will identify the legal implications of their choices and how the law impacts their interactions with others in a business setting.
- Students will explain how to complete an audit from beginning to end, applying auditing standards, assessing risk, and gathering evidence.
- Graduates will understand how earning trust and demonstrating integrity as successful accounting professionals impact business, contracts, and capital markets, as well as society at large.
- Graduates will understand that leadership in the field of accounting is the consistent display and communication of respect, trust, expertise and adaptability within various business relationships and contexts.

10. Students will engage in effective written communication practices by crafting professional memos and reports that integrate research and analysis skills, technical information, and expert writing proficiency.
11. Students will understand how accounting is a global practice requiring knowledge of national and international standards, the examination of sociocultural impacts within business contexts, and the ability to leverage the advantages that diversity brings to an organization.

Students may direct questions about the IMAcc program to Kristen Fuhremann (kristen.fuhremann@wisc.edu), the director of the program, or their academic or career advisor.

CAREERS

Accounting is the development and use of a system for recording and analyzing the financial transactions and financial status of an organization. Accountants are responsible for the record-keeping methods involved in making a financial record of business transactions and in the preparation of statements concerning the assets, liabilities, and operating results of a business.

Find out more about common industries for accounting and essential skills needed on the BBA Accounting website (<https://bus.wisc.edu/bba/academics-and-programs/majors/accounting>).

CERTIFICATION/LICENSURE

CERTIFIED PUBLIC ACCOUNTANT (CPA)

The state of Wisconsin and most other states have passed legislation mandating that candidates sitting for the CPA exam must have completed a 150-credit-hour program including at least the equivalent of an undergraduate major in accounting. Three advanced degree options for completing these requirements exist at the University of Wisconsin–Madison. They are:

1. The IMAcc (Integrated Master's of Accountancy) program leads to a BBA (Bachelor of Business Administration) with an accounting major and a Master of Accountancy degree. The BBA is 120 credits and the MAcc is 30 credits in this program. Students who are majoring in accounting apply for admission to this program during the spring semester of their junior year. Those who are admitted to the IMAcc program must complete a required internship during the spring semester of their senior year. Students are encouraged to take the GMAT exam during the first semester of their senior year.
2. The BBA degree with an accounting major and an MBA (Master of Business Administration) degree. The BBA degree is 120 credits and the MBA is a minimum of 36 credits resulting in a total of 156 credits. There is no accounting specialization track in the MBA, so graduate students must major in another area of business. Students can also satisfy the 150 credit hour requirement by completing the BBA degree with a major in accounting and 30 additional college credits in any area, including a second undergraduate major.
3. Any undergraduate degree with a MAcc degree. The graduate-only master's of accountancy degree program (GMAcc) does not require an undergraduate major in accounting or in business. There are 56 credits in this program, completed over two years. Students admitted to this program are required to complete an internship during the summer between the first and second years. The GMAT exam is required for admission.

Please consult the Department of Accounting and Information Systems for additional information.

BUSINESS - SCHOOL-WIDE

DEGREES/MAJORS/CERTIFICATES

- Business, Certificate (p. 1195)
- Health Care Management, Specialization (p. 1196)
- Supply Chain Management, Specialization (p. 1198)

PEOPLE

For a full list of School of Business faculty and staff, visit the school's directory (<http://bus.wisc.edu/about-us/admin/faculty-staff-search>).

BUSINESS, CERTIFICATE

The Certificate in Business (CIB) program provides non-business students the opportunity to earn a concentration in a clearly defined academic program in business. The coursework allows students to develop a foundational understanding of business and apply this to their specific field, such as international studies or engineering. In addition to careers related to their own fields, students who earn the certificate have also found job opportunities in management, marketing, and other business fields in the past.

HOW TO GET IN

The certificate in business is for **non-business students only**. An application is required to be accepted into the CIB Program. Not all students are admitted, so it is important to make your application as strong as possible. There are no specific courses that must be taken before applying. If a student chooses to take CIB courses before being admitted, the courses will fulfill requirements after admission.

ELIGIBILITY

To be eligible to apply, students must meet the following requirements:

- 54 degree credits completed at time of application (junior standing)
- 12 GPA credits (transfer students must complete a minimum of 12 credits at UW–Madison)
- 2.75 minimum cumulative GPA (This GPA does not guarantee admission to the CIB)
- Grades and GPAs from transfer coursework do not count toward CIB admission
- Currently enrolled UW–Madison student
- Undergraduate, degree-seeking student (non-business)

APPLICATION

The application (<https://apps.wsb.wisc.edu/undergrad/certificate/application/closed.aspx>) is available the first Friday of each semester and due the fourth Friday of the semester. Students must complete the application in one sitting.

The certificate in business application requires an essay on behalf of the applicant.

Admission decisions are based primarily on cumulative UW–Madison GPA and fit for the program as evidenced through the applicant's essay. All admission decisions are final and there is no appeal process for denied students.

Admitted students will be charged a \$150 tuition differential until degree completion/graduation. The tuition differential provides CIB students access to all School of Business resources, including career and academic advisors within the BBA Program.

REQUIREMENTS

The CIB program consists of six courses (four core courses and two additional breadth courses), for a total of 18 credits. Students are also responsible for any pre-requisite courses needed for core or breadth courses. Click here for pre-requisite information for core courses.

Students must take at least 12 of the 18 required credits in residence at UW–Madison. Study abroad courses taken through a UW–Madison-sponsored program will count toward the 12 credits in residence.

Students must earn a grade of "C" or better in all required courses for the CIB.

REQUIRED COURSES

Code	Title	Credits
ACCT I S 300 or ACCT I S 100	Accounting Principles ¹ Introductory Financial Accounting	3
FINANCE/ECON 300	Introduction to Finance ²	3
MARKETNG 300	Marketing Management	3
M H R 300	Managing Organizations	3
Breadth Course ²		3
Breadth Course ²		3
Total Credits		18

¹ CIB students are strongly encouraged to take ACCT I S 300, unless ACCT I S 100 is required by their major. Please note, however, that ACCT I S 100 is a requirement for many other upper-level accounting and finance courses. Students planning to take additional accounting or finance courses, should consult with the CIB advisor.

² Please make sure to consult with the CIB advisor to find out if previous coursework may count toward the econ and statistics pre-requisites.

² BREADTH REQUIREMENT INFORMATION:

- Breadth courses must be at least 3 credits
- Breadth courses must be School of Business courses (or courses cross-listed with School of Business). Breadth courses may be from the same department as the core courses
- Breadth courses must be from *two different School of Business departments* (or cross-listed with two different School of Business departments)
- Courses taken at another institution must be directly equivalent to a UW–Madison business course and title (i.e., not elective credit)

EXCLUSIONS

The following courses **may not be used** to satisfy the CIB Breadth Courses requirement:

Code	Title	Credits
GEN BUS 300	Professional Communication	3
GEN BUS 306	Business Analytics I	3
GEN BUS 310	Fundamentals of Accounting and Finance for Non-Business Majors	3
GEN BUS 311	Fundamentals of Management and Marketing for Non-Business Majors	3
GEN BUS 365	Contemporary Topics	3
ACCT I S 211	Introductory Managerial Accounting	3
Any business course numbered 399		
Any business course cross-listed with a foreign language		

ADVISING AND CAREERS

ADVISING

Katie Denzin (katie.denzin@wisc.edu) is the assigned academic advisor for the certificate in business. Students may set up an appointment with any BBA career advisor through BuckyNet.

CAREERS

Certificate students are qualified for many entry-level business positions. While the career opportunities available to CIB are vast, common business careers CIB students pursue following graduation include:

- Advertising
- Business analyst—information systems
- Business development
- Commercial and retail banking
- Consulting
- Event management
- Human resources
- Investment management
- Management
- Project lead/manager—information systems
- Retail (stores and corporate)
- Underwriting/claims adjusting

Other CIB students choose to pursue careers in education, engineering, the nonprofit sector or the healthcare industry, to name a few. Some CIB students attend graduate school following graduation in programs including law school, public policy, medical school, engineering, social work, and more.

HEALTH CARE MANAGEMENT, SPECIALIZATION

Note: Admission is suspended for this specialization effective spring 2018.

The health care system is undergoing rapid change. Increasing emphasis on managed care; a growing concern for cost effectiveness; governmental priorities; and increasing concern for the elderly, mentally ill, and developmentally disabled all point to the greater need for individuals with skills in the business-management area, both to serve established needs and as a part of the reorganization of many health care delivery systems. This specialization will permit the student to explore the nature of the health care system.

A specialization in health care management is available to all undergraduate students enrolled in the School of Business. Students can add this specialization to their current business major. To complete the health care management specialization, students take the traditional business courses as well as three electives. Students learn to think about health care in an integrated business framework both in and out of the classroom from our faculty and applied learning program.

HOW TO GET IN

Note: Admission is suspended for this specialization effective spring 2018.

The healthcare specialization is only for students in the School of Business.

All undergraduate students in the School of Business are eligible to pursue this specialization. Students simply need to declare this specialization using this form (https://co1.qualtrics.com/jfe/form/SV_8JkBSs6YnaKxb7f?_ga=1.181132327.1053526238.1463515009).

Contact your academic or career advisor for questions about pursuing the health care management specialization. Contact the program coordinator, Mark Covaleski (mcovaleski@bus.wisc.edu), with questions about the specialization, including course options.

REQUIREMENTS

The healthcare management specialization requires you to take 3 courses from the below approved course list. If you find another course not on this list that you believe may fit, contact Professor Covaleski (mcovaleski@bus.wisc.edu) about possible additional courses that may be relevant.

SUPPLY CHAIN MANAGEMENT, SPECIALIZATION

The field of supply chain management (SCM) is a critical area of competitive advantage for businesses around the world. SCM integrates business functions concerned with the movement of goods, services and information along the value chain with the goal of creating value for the end customer. SCM is a cross-functional discipline involving many components of business including product development, marketing, demand/supply planning, sourcing, production, inventory, logistics, customer service, and the relationships between businesses and their channels of distribution. In today's complex business environment, there is a need to coordinate these supply chain functions not only within the firm, but with business partners and customers. As a result, SCM is a critical, strategic component of business, and students with SCM education and expertise are in high demand in the marketplace.

The supply chain management specialization is open to all undergraduate students enrolled in the School of Business and is administered by the Grainger Center for Supply Chain Management at the School of Business. In addition to the BBA requirements, students complete an 18-credit curriculum required for the specialization. Students will also have the opportunity to interact with business leaders, participate in experiential learning and social activities, have access to a global trip/experience, and be eligible for scholarship opportunities from the Grainger Center.

Each semester, the Center offers an informational workshop, From A to Z: Careers in Supply Chain Management, to help interested students learn about the specialization. At this event students will be exposed to the curriculum and potential career opportunities in the field, as well as network with current students, alumni, and corporate partners. Information about future A to Z events will be posted to the MyBiz blog (<https://bus.wisc.edu/bba/mybiz>).

For questions or additional information about the specialization in supply chain management, please visit the Grainger Center (3450 Grainger Hall) or call 608-262-0710.

The Supply Chain Management Specialization is only for students in the School of Business.

Students interested in pursuing the supply chain management specialization must complete an application to verify the degree plan, including a resume review by the BBA Advising Center. All applications will also include a meeting with the Grainger Center staff in 3452 Grainger Hall

HOW TO GET IN

The supply chain management specialization is only for students in the School of Business.

APPLICATION

Application for students in the School of Business who were **admitted before fall 2016** can be found here (http://bus.wisc.edu/~media/bus/bba/academics/majors/scm/scmspecializationapp_students-in-wsb-prior-to-fall-2016.pdf?la=en).

Application for students in the School of Business who were **admitted fall 2016 or after** can be found here (<https://bus.wisc.edu/~media/bus/bba/academics/majors/scm/wisconsin-supply-chain-management-scm-application.pdf>).

Once the application is complete, including the resume review, students should stop by the Grainger Center (3450 Grainger Hall) or call 608-262-0710 to schedule an appointment to enroll.

REQUIREMENTS

In addition to the required courses below, students are also required to attend 4 applied learning events each year, keep up with resume reviews and updates, and report all job and internship offers to the Grainger Center and BBA Career office.

If you are interested in this specialization, more details about the applied learning events and other benefits will be offered upon declaration. Attending these events makes students eligible for specialization benefits including scholarships, global trip, etc.

ADVISING AND CAREERS

ADVISING

Jackie Murray (jackie.murray@wisc.edu) is the academic advisor in the BBA Program for the supply chain specialization. Tara Milliken (tara.milliken@wisc.edu) is the career advisor in the BBA Program for the supply chain specialization.

CAREER

Students enrolled in the supply chain management specialization consistently have access to excellent internship opportunities and earn some of the highest salaries at the School of Business. The average full-time salary for members of the graduating class of 2016 with a supply chain management specialization was approximately \$57,000, while the average monthly internship salary was \$3,200.

Some of the companies that recruit students with a specialization in supply chain management include (but are not limited to):

- Amazon
- Best Buy
- BP Americas
- Cargill
- Chrysler
- Cisco Systems
- Georgia-Pacific
- Kimberly-Clark
- Kohler
- Kohl's Department Stores
- Macy's
- Mayo Clinic
- Nestle
- Procter & Gamble
- Target Corporation
- Uline
- Walgreen's Corporate

FINANCE

The finance curriculum prepares students for careers in corporate financial management, the investments and securities business, and the management of financial institutions—e.g., banks and insurance companies. The theory of finance and its applications are emphasized. Students learn about: security analysis and valuation, security trading, government policy and financial markets, financial forecasting, capital structure, financial risk management, venture capital, security issuance and international finance.

DEGREES/MAJORS/CERTIFICATES

- Business: Finance, Investment, and Banking, BBA (p. 1199)

BUSINESS: FINANCE, INVESTMENT, AND BANKING, BBA

OVERVIEW

The finance curriculum prepares students for careers in corporate financial management, the investments and securities business, and the management of financial institutions—e.g., banks and insurance companies. The theory of finance and its applications are emphasized. Students learn about: security analysis and valuation, security trading, government policy and financial markets, financial forecasting, capital structure, financial risk management, venture capital, security issuance and international finance.

A significant part of the coursework teaches you to understand risk and uncertainty, both at an intuitive level and at a technical level. More important, you learn to construct models of financial decisions—e.g., an investor's portfolio choice problem, the issuance of securities by corporations and the structure of financial investments by banks.

HOW TO GET IN

Students wishing to pursue this major must be admitted to the School of Business. Once admitted, students are able to pursue any business major they choose. To find out more about the school's admissions process for undergraduate students, please see Entering the School (p. 1184).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

SCHOOL OF BUSINESS REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) degree program is based on a broad educational foundation combined with courses in business and economics. This curriculum is designed for those students who wish to prepare for careers in business. Students completing any School of Business major (p. 1189) are required to satisfy a common set of Pre-Business Requirements, Liberal Studies Requirements, Business Preparatory Requirement, Business Core Requirement, Business Breadth Requirement, and Credits for BBA Degree.

Code	Title	Credits
School of Business BBA Requirements		
Complete requirements: (p. 1189)		
	Pre-Business	
	Liberal Studies	
	Business Prep	
	Business Core	
	Business Breadth	

FINANCE MAJOR REQUIREMENTS

Undergraduate finance majors should enroll in GEN BUS 306 Business Analytics I or its equivalent as early as possible in preparation for this major. Before enrolling in FINANCE/ECON 320 Investment Theory, FINANCE 325 Corporation Finance, or FINANCE 330 Derivative Securities, students must complete:

1. FINANCE/ECON 300 Introduction to Finance;
2. MATH 213 Calculus and Introduction to Differential Equations or MATH 222 Calculus and Analytic Geometry 2;
3. Either complete or concurrently enroll for GEN BUS 307 Business Analytics II (or its equivalent).

ACCT I S 301 Financial Reporting I must be completed before enrolling for FINANCE 325 Corporation Finance.

Students planning on a major in finance should complete FINANCE/ECON 300, GEN BUS 307 (or equivalent) and ACCT I S 301 in or before the first semester of their junior year. FINANCE/ECON 320, FINANCE 325, or FINANCE 330 should be completed prior to a summer internship. Ideally, the mathematics requirement should be completed prior to admission to the School of Business, but if not, then MATH 213 Calculus and Introduction to Differential Equations or MATH 222 Calculus and Analytic Geometry 2 should be completed as early as possible. Finance majors should also be aware of enforced prerequisites for other finance courses.

Code	Title	Credits
MATH 213	Calculus and Introduction to Differential Equations	3
or MATH 222	Calculus and Analytic Geometry 2	
GEN BUS 307	Business Analytics II ¹	3-4
or ECON 410	Introductory Econometrics	
or STAT/ MATH 310	Introduction to Probability and Mathematical Statistics II	
or STAT 312	Introduction to Theory and Methods of Mathematical Statistics II	
ACCT I S 301	Financial Reporting I	3
FINANCE/ECON 320	Investment Theory	3
FINANCE 325	Corporation Finance	3
FINANCE 330	Derivative Securities	3
Select one of the following:		3-4
FINANCE 305	Financial Markets, Institutions and Economic Activity	
ECON 301	Intermediate Microeconomic Theory	
ECON 302	Intermediate Macroeconomic Theory	
ECON 311	Intermediate Microeconomic Theory - Advanced Treatment	

ECON 312	Intermediate Macroeconomic Theory - Advanced Treatment	
ECON 330	Money and Banking	
Complete one 3-credit Finance course numbered above 400 ²		3
Total Credits		24-26

¹ GEN BUS 307 Business Analytics II or its equivalent is required to fulfill other requirements within the business curriculum, therefore this requirement double-counts.

² FINANCE 340 Fixed Income Securities and FINANCE 365 Contemporary Topics may be used to fulfill this requirement.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Students will be able to explain the trade-off between risk and returns, and to explain methods of measuring and managing risk.
2. Students will use financial models, including those for optimal portfolios and the estimation of expected returns.
3. Students will be able to distinguish between equilibrium and no-arbitrage pricing, and be able to apply both approaches.
4. Students will explain the costs and benefits of the separation of ownership and control in the typical large firm.
5. Students will understand how market frictions can influence financial decisions.
6. Students will be able to explain how investment and financing decisions can create and destroy value.

ADVISING AND CAREERS

ADVISING

MEET THE ACADEMIC AND CAREER ADVISORS FOR FINANCE, INVESTMENT AND BANKING.

Kathleen Rause

Career Advisor
kathleen.rause@wisc.edu

Hao Yuan
Academic Advisor
hao.yuan@wisc.edu

Please see your Student Center for academic advisor contact information. Please visit the advising (<http://www.bus.wisc.edu/bba/mybiz/advising>) page for information on advising and appointments.

CAREERS

Finance is the integration of time, returns and risk and how they are interrelated. Two pressing questions in finance are:

- What do I invest in?
- How do I pay for it?

Organizations that focus on finance include banks, credit card companies, insurance companies, consumer finance companies, corporations, stock brokerages, investment funds, government sponsored enterprises, education, and individuals.

Students may pursue careers in many different industries, including but not limited to:

- Commercial and retail banking
- Corporate finance
- Investment banking
- Investment management
- Equity and debt capital markets
- Research
- Sales and trading

Find more details about these industries on the BBA Finance Website (<https://bus.wisc.edu/bba/academics-and-programs/majors/finance>).

INTERNATIONAL BUSINESS

DEGREES/MAJORS/CERTIFICATES

- Business: International Business, BBA (p. 1202)

BUSINESS: INTERNATIONAL BUSINESS, BBA

The international business major is designed to provide students with the sound understanding of international business principles and the languages and cultures of other regions that are essential for success in today's global economy.

Students who major in international business must declare another major in business, as functional business skills such as accounting, marketing and finance are important for initial career placement and emphasized more in the early stages of business careers. International skills are generally utilized after mastering functional skills.

Students must choose a region of emphasis and select language and area studies courses accordingly. Currently, regional tracks are established for Asia, Europe, and Latin America. Studying abroad through the School of Business International Programs for one fall or spring semester in the selected region is required for the major.

RELATED STUDENT ORGANIZATIONS

AIESEC
International Business Student Association
International Finance Club

HOW TO GET IN

Students wishing to pursue this major must be admitted to the School of Business. Once admitted, students are able to pursue any business major they choose. To find out more about the school's admissions process for undergraduate students, please see *Entering the School* (p. 1184).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Students will understand how the functioning of global markets can impact the planning and executing of international business strategies.
2. Students will be able to apply and extend their core disciplinary knowledge from their chosen major into a region of emphasis and using their selected language.
3. Students will be able to apply their learning from their residential UW-Madison School of Business experiences to a Study Abroad experience.

ADVISING AND CAREERS

ADVISING

Ariel Sorenson
Academic Advisor
ariel.sorenson@wisc.edu

Please visit the advising page (https://bus.wisc.edu/bba/academics-and-programs/majors/~link.aspx?_id=2471B6AB7883436D8817C4E66E0AF1C2&_z=z) for information on advising and appointments.

CAREERS

A limited number of multi-national organizations offer graduates international career opportunities earlier in their career. In international business, however, most businesses require their employees to work in their United States office(s) for three to five years before assigning significant international responsibility.

Learn more about careers in international business on the BBA International Business website (<https://bus.wisc.edu/bba/academics-and-programs/majors/international-business>).

MANAGEMENT & HUMAN RESOURCES

Students in human resources management study how organizations attract, motivate, develop, and retain employees, and how they interact with organizations representing employees. Management studies focus on the activities of leadership, power, decision-making, organizational structure and change, strategy and policy, and the integration of organizational functions. Studies in entrepreneurship are designed for students who are interested in bringing new ideas to the marketplace.

The MHR major is designed to give students the choice of which option(s) to study: human resources, management, or entrepreneurship.

DEGREES/MAJORS/CERTIFICATES

- Business: Management and Human Resources, BBA (p. 1213)
- Entrepreneurship, Certificate (p. 1217)

BUSINESS: MANAGEMENT AND HUMAN RESOURCES, BBA

Students in human resources management study how organizations attract, motivate, develop, and retain employees, and how they interact with organizations representing employees. Management studies focus on the activities of leadership, power, decision-making, organizational structure and change, strategy and policy, and the integration of organizational functions. Studies in entrepreneurship are designed for students who are interested in bringing new ideas to the marketplace.

HOW TO GET IN

Students wishing to pursue this major must be admitted to the School of Business. Once admitted, students are able to pursue any business major they choose. To find out more about the school's admissions process for undergraduate students, please see *Entering the School* (p. 1184).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General	• Breadth—Humanities/Literature/Arts: 6 credits
Education	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

SCHOOL OF BUSINESS REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) degree program is based on a broad educational foundation combined with courses in business and economics. This curriculum is designed for those students who wish to prepare for careers in business. Students completing any School of Business major (p. 1189) are required to satisfy a common set of Pre-Business Requirements, Liberal Studies Requirements, Business Preparatory Requirement, Business Core Requirement, Business Breadth Requirement, and Credits for BBA Degree.

Code	Title	Credits
School of Business BBA Requirements		
Complete requirements: (p. 1189)		
	Pre-Business	
	Liberal Studies	
	Business Prep	
	Business Core	
	Business Breadth	

MANAGEMENT AND HUMAN RESOURCES (MHR) MAJOR REQUIREMENTS

The management and human resources major has three different options to choose from, as outlined below. Credit requirements vary based upon the option(s) students choose.

Code	Title	Credits
Students may complete a major in management and human resources in six different ways: ¹		
	Complete the requirements for the Management option only (students still earn a major in MHR)	12
	Complete the requirements for the Human Resources option only (students still earn a major in MHR)	12
	Complete the requirements for the Entrepreneurship option only (students still earn a major in MHR)	12
	Complete the requirements for Management & Entrepreneurship	18
	Complete the requirements for Management & Human Resources	18
	Complete the requirements for Entrepreneurship & Human Resources	21

¹ **Note:** Completing two options still constitutes **one** major. Students may not receive credit for completing all three options.

In addition, the following rules apply when combining options:

1. Students may complete only two of three options. Students interested in pursuing two options should see an academic advisor to ensure that they are taking their courses efficiently.
2. For successful completion of TWO options, a student must take a minimum of 18–21 credits from among the listed courses.
3. Double (or triple) counting of M H R 399 Reading and Research-Management across options within the management major is prohibited.

MHR OPTIONS AND REQUIREMENTS

ENTREPRENEURSHIP OPTION

A student must take a minimum of 12 credits, distributed as follows:

Code	Title	Credits
M H R 422	Entrepreneurial Management	3
M H R 427	Entrepreneurial Growth Strategies	3
<i>Select two of following courses OR one from below and one from the elective options:</i>		6
M H R 399	Reading and Research-Management (Double counting of MHR 399 across options within the MHR major is prohibited.)	
M H R 434	Venture Creation	
FINANCE 457	Entrepreneurial Finance	
<i>Electives</i>		
M H R 305	Human Resource Management	
M H R/ ENVIR ST 310	Challenges & Solutions in Business Sustainability	
M H R 365	Contemporary Topics	
M H R 399	Reading and Research-Management (Double counting of MHR 399 across options within the MHR major is prohibited.)	
M H R 401	The Management of Teams	
M H R/ INTL BUS 403	Global Issues in Management	
M H R 412	Management Consulting	
M H R 423	Strategic Management	
M H R 441	Technology Entrepreneurship	
M H R 628	Negotiations	
Total Credits		12

HUMAN RESOURCES OPTION

Students in human resources management study how organizations attract, motivate, develop, and retain employees, and how they interact with organizations representing employees. Topics covered include recruiting, external and internal staffing, compensation theory and administration, performance management, training and development, labor-management relations, and equal employment opportunity. This concentration is pursued by students seeking staff jobs in the human resources department, supervisory and team leader jobs, and entry into management training programs that precede job placement. It is appropriate for those who seek positions in both public and private sector organizations.

A student must take a minimum of 12 credits, distributed as follows:

Code	Title	Credits
M H R 305	Human Resource Management	3
<i>Complete 3 of the following OR two of the following and one elective:</i>		9-10
M H R 610	Compensation: Theory and Administration	
M H R 611	Personnel Staffing and Evaluation	
M H R 612	Labor-Management Relations	
<i>Electives</i>		
M H R 365	Contemporary Topics	
M H R 399	Reading and Research-Management (Double counting of MHR 399 across options within the MHR major is prohibited.)	
M H R 423	Strategic Management	
M H R 471	Seminar: Human Resources Issues	
R M I 620	Employee Benefits Management	
M H R 628	Negotiations	
ECON 450	Wages and the Labor Market	
Total Credits		12-13

MANAGEMENT OPTION

This major focuses on the activities of management in organizations. Course material covers leadership, power, decision-making, organizational structure and change, strategy and policy, and the integration of organizational functions (such as marketing and finance). The topics apply to business, government, health care, and other service organizations. This concentration is especially appropriate for students who seek roles as general managers and administrators at all levels of an organization, rather than roles as technical specialists. Students are also helped in developing a long-term perspective of both their own careers and the function of management in organizations and society.

Students must take a minimum of 12 credits, distributed as follows:

Code	Title	Credits
M H R 423	Strategic Management	3
<i>Complete 3 of the following OR 2 of the following and one elective</i>		9
M H R 305	Human Resource Management	
M H R 399	Reading and Research-Management (Double counting of MHR 399 across options within the MHR major is prohibited.)	
M H R 401	The Management of Teams	
M H R/ INTL BUS 403	Global Issues in Management	
M H R 412	Management Consulting	
<i>Electives:</i>		
M H R/ ENVIR ST 310	Challenges & Solutions in Business Sustainability	
M H R 365	Contemporary Topics	
M H R 422	Entrepreneurial Management	
M H R 427	Entrepreneurial Growth Strategies	
M H R 628	Negotiations	

ECON/POP HLTH/ PUB AFFR 548	The Economics of Health Care	
COM ARTS 575	Communication in Complex Organizations	
PSYCH/I SY E 653	Organization and Job Design	
PSYCH/I SY E 349	Introduction to Human Factors	
SOC 632	Sociology of Organizations	
SOC/ C&E SOC 649	Sociology of Work and Employment	
Total Credits		12

ENTREPRENEURSHIP & HUMAN RESOURCES OPTION

This double option requires 21 credits; the layout of classes are found below:

Code	Title	Credits
M H R 305	Human Resource Management	3
M H R 422	Entrepreneurial Management	3
M H R 427	Entrepreneurial Growth Strategies	3
M H R 434	Venture Creation	3
or FINANCE 457	Entrepreneurial Finance	
or M H R 399	Reading and Research-Management	
<i>Complete 3 of the following OR 2 of the following and one elective:</i>		9
M H R 610	Compensation: Theory and Administration	
M H R 611	Personnel Staffing and Evaluation	
M H R 612	Labor-Management Relations	
<i>Electives:</i>		
M H R 399	Reading and Research-Management	
M H R 423	Strategic Management	
M H R 471	Seminar: Human Resources Issues	
M H R 628	Negotiations	
R M I 620	Employee Benefits Management	
Total Credits		21

MANAGEMENT & ENTREPRENEURSHIP OPTION

This double option requires 18 credits; the layout of classes are found below:

Code	Title	Credits
M H R 422	Entrepreneurial Management	3
M H R 423	Strategic Management	3
M H R 427	Entrepreneurial Growth Strategies	3
M H R 434	Venture Creation	3
or FINANCE 457	Entrepreneurial Finance	
or M H R 399	Reading and Research-Management	
<i>Choose two of the following:</i>		6
M H R 305	Human Resource Management	
M H R 399	Reading and Research-Management	
M H R 401	The Management of Teams	
M H R/ INTL BUS 403	Global Issues in Management	

M H R 412	Management Consulting	
Total Credits		18

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Graduates will understand that the management of human resources is vital to a successful business strategy and organizational effectiveness. (Human Resources and Management Tracks)
2. Graduates will be able to analyze organization compensation strategy to identify problems and develop solutions that support the organization's strategy. (Human Resources Track)
3. Graduates will be able to discern which staffing techniques are poor, fair, and good predictors of employees' future job performance. (Human Resources Track)
4. Graduates will be able to identify and address the various challenges currently facing labor and employment relations. (Human Resources Track)
5. Graduates will be able to apply appropriate tactics in competitive and cooperative negotiations individually and as part of a negotiation team. (Human Resources Track)
6. Graduates will be able to design work systems and roles that allow employees to contribute to organizational performance. (Human Resources Track)
7. Graduates will be able to develop innovative solutions to challenging problems and generate economic and socially valuable outcomes. (Entrepreneurship Track)
8. Graduates will be able to create, assess, shape, and act on opportunities in a variety of contexts and organizations. (Entrepreneurship Track)
9. Graduates will be able to make decisions based on mindfulness of relevant stakeholders, ethical reflections, and an attempt to create and sustain social, environmental, and economic value. (Entrepreneurship Track)
10. Graduates will be able to incorporate cultural context and complexities when managing in a global environment. (Entrepreneurship Track)
11. Graduates will be able to exercise appropriate leadership, value diverse perspectives, and work collaboratively to accomplish organizational objectives in a dynamic environment. (Entrepreneurship Track)
12. Graduates will be able to develop successful team structures that mitigate decision-making pitfalls and interpersonal conflict while maximizing team performance. (Management Track)
13. Graduates will be able to design successful organization structures to achieve strategic objectives and execute operational plans within a global business environment. (Management Track)
14. Graduates will be able to diagnose management and organizational problems from an internal or external consultant's perspective and design interventions to enhance organizational effectiveness. (Management Track)
15. Graduates will be able to evaluate an organization's internal capabilities and external pressures and maximize its competitive advantage within an industry. (Management Track)

ENTREPRENEURSHIP, CERTIFICATE

The undergraduate certificate in entrepreneurship (<http://bus.wisc.edu/bba/academics-and-programs/majors/certificate-entrepreneurship>) offers opportunities for **non-business undergraduates** interested in starting a new venture, working for young new ventures soon or later in life, and tackling new ventures inside existing organizations. Knowledge and skills emphasize imagining new opportunities, taking steps to create a new organization, finding funding for new ventures, and managing growth or exit events, along with critical analysis of the role of entrepreneurship in society. Visit the website (<http://bus.wisc.edu/bba/mybiz/academics/curriculum-degree-requirements/majors-specializations-certificates/certificate-entrepreneurship>) for more information.

This certificate program offers a distinct bundle of courses that span business entrepreneurship courses and the curricula of several colleges and schools at UW–Madison. It emphasizes skills in entrepreneurship, creativity, and innovation along with the ability to analyze the role of entrepreneurship in society.

Entrepreneurship in this context refers to the process of imagining opportunities and taking action to create value through new ventures. The ability to create value through new ventures is a crucial life skill. Further, new firm creation can be a critical factor in global economic growth, and entrepreneurial capabilities can be crucial in bringing new technologies and services to society.

HOW TO GET IN

The certificate is open to undergraduate students who have home departments outside of the School of Business and are in good standing.

Business undergraduates should explore the entrepreneurship major option.

To declare the certificate in entrepreneurship, please complete the declaration form (https://buswisc.qualtrics.com/jfe/form/SV_8JkBSs6YnaKxb7f).

REQUIREMENTS

A total of 15 credits is required to complete the certificate. The required foundation course, advanced entrepreneurship coursework, and electives from across the campus are used to earn the 15 credits. Coursework options available for fulfilling the certificate program is shown in the accompanying tables. Students are strongly encouraged to participate in related non-credit entrepreneurship immersion experiences such as competitions and student organizations.

Students will:

1. Take one 3-credit required foundation course (M H R 322 OR M H R 422)
2. Choose 3 additional credits from a list of related School of Business advanced entrepreneurship coursework
3. Choose 9 credits of additional courses from a list of other elective coursework or advanced entrepreneurship coursework.

At least 9 of the required 15 credits for the certificate must be completed in residence.

Students must earn a 2.5 cumulative GPA in all certificate in entrepreneurship coursework.

REQUIRED FOUNDATION COURSEWORK

Code	Title	Credits
M H R 322	Introduction to Entrepreneurial Management (restricted to non-business majors)	3
or M H R 422	Entrepreneurial Management	

ADVANCED ENTREPRENEURSHIP COURSEWORK ¹

Students must choose **at least 3 credits** from the following list of courses:

Code	Title	Credits
GEN BUS 310	Fundamentals of Accounting and Finance for Non-Business Majors ²	3
or ACCT I S 100	Introductory Financial Accounting	
or ACCT I S 300	Accounting Principles	
M H R 434	Venture Creation	3
M H R 427	Entrepreneurial Growth Strategies	3
M H R 441	Technology Entrepreneurship	3
FINANCE 457	Entrepreneurial Finance	3

¹ Some courses listed have pre-requisites, so please make sure those are satisfied before selecting a course.

² Non-business majors are strongly recommended to take GEN BUS 310 **instead of** ACCT I S 100 or ACCT I S 300.

ELECTIVE COURSEWORK

9 credits of other elective coursework (below) can be counted toward the required 15 certificate credits.

Code	Title	Credits
BUSINESS		
GEN BUS 365	Contemporary Topics (Business and the Social Side of Sustainability OR Issues in Family Business Ownership)	1-3
GEN BUS 600	Topics on Sustainable Business Practices	3

MARKETING

Marketing creates exchanges between organizations and customers. It includes planning, designing, pricing, promoting and distributing goods and services that satisfy organizational and customer needs. In the high-level economy of the United States and many other countries, marketing has become a critical and comprehensive business function. The concept of marketing is becoming increasingly broad and important. Students may pursue career opportunities in advertising, product/brand management, consulting, marketing research, retailing, sales management, business-to-business marketing, and supply chain management.

Contemporary marketing managers must understand not only the traditional areas of marketing channels, sales management, advertising, and research, but must also be familiar with consumer and dealer motivation. The manager must be able to translate knowledge of consumer behavior into marketing strategy. The marketing program is broad enough to permit a major to develop knowledge in these several areas, but flexible enough so that students may focus on special interest areas.

OVERVIEW

In the high-level economy of the United States and many other countries, marketing has become a critical and comprehensive business function. The concept of marketing is becoming increasingly broad and important. Students may pursue career opportunities in advertising, product/brand management, consulting, marketing research, retailing, sales management, business-to-business marketing, and supply chain management.

Contemporary marketing managers must understand not only the traditional areas of marketing channels, sales management, advertising, and research, but must also be familiar with consumer and dealer motivation. The manager must be able to translate knowledge of consumer behavior into marketing strategy. The marketing program is broad enough to permit a major to develop knowledge in these several areas, but flexible enough so that students may focus on special interest areas.

RECOGNITION

Our marketing program is ranked 9th in the U.S. by *U.S. News & World Report* 2016.

RELATED STUDENT ORGANIZATIONS

Mu Kappa Tau (MKT) (<https://win.wisc.edu/organization/MKT>)
American Marketing Association (AMA) (<https://win.wisc.edu/organization/amaumadison>)

HOW TO GET IN

Students wishing to pursue this major must be admitted to the School of Business. Once admitted, students are able to pursue any business major they choose. To find out more about the school's admissions process for undergraduate students, please see *Entering the School* (p. 1184).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General	• Breadth—Humanities/Literature/Arts: 6 credits
Education	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

SCHOOL OF BUSINESS REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) degree program is based on a broad educational foundation combined with courses in business and economics. This curriculum is designed for those students who wish to prepare for careers in business. Students completing any School of Business major (p. 1189) are required to satisfy a common set of Pre-Business Requirements, Liberal Studies Requirements, Business Preparatory Requirement, Business Core Requirement, Business Breadth Requirement, and Credits for BBA Degree.

Code	Title	Credits
School of Business BBA Requirements		
Complete requirements: (p. 1189)		
	Pre-Business	
	Liberal Studies	
	Business Prep	
	Business Core	
	Business Breadth	

MARKETING MAJOR REQUIREMENTS

All marketing majors must take MARKETNG 300 Marketing Management since it is a business core course and a prerequisite to all of the other undergraduate marketing courses. The marketing major consists of three required marketing courses plus three additional elective marketing courses in addition to MARKETNG 300. These required and elective marketing courses can be taken in any order, except that MARKETNG 460 Marketing Strategy should only be taken after completing a minimum of two marketing courses beyond MARKETNG 300.

Code	Title	Credits
MARKETNG 305	Consumer Behavior	3
MARKETNG 310	Marketing Research	3
MARKETNG 460	Marketing Strategy	3
Elective Coursework ¹		
Select three of the following:		
MARKETNG 335	Brand Management & Strategy	
MARKETNG 355	Marketing in a Digital Age	
MARKETNG 365	Contemporary Topics (Developing Breakthrough New Products or Sports Marketing)	
MARKETNG 399	Reading and Research-Marketing	
MARKETNG 415	Marketing Communications	

MARKETNG/ INTL BUS 420	Global Marketing Strategy

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Graduates will be able to apply analytical rigor to marketing decisions.
2. Graduates will be able to locate, evaluate, and leverage relevant sources to determine and support their marketing actions.
3. Graduates will demonstrate the ability to formulate and implement marketing strategies related to price, product, promotion, and distribution.
4. Graduates will evaluate and analyze appropriate market segments and generate effective marketing plans.

CAREERS

Marketing is the activity, set of institutions, and processes for creating, communicating, delivering, and exchanging offerings that have value for customers, clients, partners, and society at large. Marketing is creating and delivering customer value through decisions about product and service offerings. It's more than just a transaction! It's about understanding and building relationships.

For information about marketing careers, please visit the BBA Marketing website (<https://bus.wisc.edu/bba/academics-and-programs/majors/marketing>).

OPERATIONS AND INFORMATION

The Department of Operations and Information Management administers both the operations and technology management major and the information systems major.

The operations and technology management (OTM) major focuses on the design, production, and delivery of products and services to satisfy customer needs. It equips students with the essential tools and strategies to use resources efficiently, make desirable trade-offs, and strategically redesign or restructure operations. OTM majors distinguish themselves by strong analytical and problem-solving capabilities together with the ability to provide high-level managerial insights into value-based service and production management.

Built on a solid foundation of a business and information technology (IT) curriculum, the major in information systems delivers a unique blend of business acumen, industry standards, and practical computing instruction. Students enjoy successful placement and satisfying careers because they possess both the in-depth knowledge of business processes and the ability to readily translate business requirements into value-added IT solutions. The curriculum is designed to prepare effective leaders in the design, development, and management of information systems—the lifeblood of a successful business model. Students learn how to use computer technologies to analyze business problems and processes in order to design and implement computer-based information systems which support business operations, decision-making, and planning. Career opportunities exist in management consulting and in industry in the areas of systems development, database administration, network management and as corporate information systems managers.

DEGREES/MAJORS/CERTIFICATES

- Business: Information Systems, BBA (p. 1223)
- Business: Operations and Technology Management, BBA (p. 1226)

BUSINESS: INFORMATION SYSTEMS, BBA

OVERVIEW

Built on a solid foundation of a business and information technology (IT) curriculum, the major in information systems delivers a unique blend of business acumen, industry standards, and practical computing instruction. Students enjoy successful placement and satisfying careers because they possess both the in-depth knowledge of business processes and the ability to readily translate business requirements into value-added IT solutions. The curriculum is designed to prepare effective leaders in the design, development, and management of information systems—the lifeblood of a successful business model. Courses emphasize both individual and team projects based on actual applications of the subject matter.

The major in information systems is administered by the Department of Operations and Information Management.

RELATED STUDENT ORGANIZATIONS

Association of Information System Professionals
National Organization for Business and Engineering

HOW TO GET IN

Students wishing to pursue this major must be admitted to the School of Business. Once admitted, students are able to pursue any business major they choose. To find out more about the school's admissions process for undergraduate students, please see *Entering the School* (p. 1184).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

SCHOOL OF BUSINESS REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) degree program is based on a broad educational foundation combined with courses in business and economics. This curriculum is designed for those students who wish to prepare for careers in business. Students completing any School of Business major (p. 1189) are required to satisfy a common set of Pre-Business Requirements, Liberal Studies Requirements, Business Preparatory Requirement, Business Core Requirement, Business Breadth Requirement, and Credits for BBA Degree.

CAREERS

Information systems professionals help clients address some of their most complex business problems through the effective use of technology. They see pathways to solutions of highly complex technical issues and are key leaders in conceptualizing and sourcing the best solutions. Information systems professionals collect, store and analyze information and data to assist organizations and departments in executing business initiatives and making informed decisions. Additionally, they use hardware, software, technology infrastructure combined with input from internal or external clients to develop tools to solve and track business objectives.

For more information about careers in information systems, please visit our BBA Info Systems website (<https://bus.wisc.edu/bba/academics-and-programs/majors/information-systems>).

BUSINESS: OPERATIONS AND TECHNOLOGY MANAGEMENT, BBA

OVERVIEW

The operations and technology management (OTM) major focuses on the design, production, and delivery of products and services to satisfy customer needs. It equips students with the essential tools and strategies to use resources efficiently, make desirable trade-offs, and strategically redesign or restructure operations. OTM majors distinguish themselves by strong analytical and problem-solving capabilities together with the ability to provide high-level managerial insights into value-based service and production management.

OTM majors have many career opportunities due to their process orientation and analytical training. They are especially well-equipped for positions in supply chain management and logistics, business analytics, management consulting, service operations management, and manufacturing management.

Students choosing this major may find the Specialization in Supply Chain Management (p. 1198) particularly attractive due to complementary coursework and overlapping job opportunities.

RELATED STUDENT ORGANIZATIONS

Badger Operations Association (<https://win.wisc.edu/organization/BOA>)
 Council of Supply Chain Management Professionals (CSCMP) (<https://cscmp.org>)
 American Society for Quality

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Graduates will understand how to analyze and evaluate business processes combined with a capability for improving those processes.
2. Graduates will understand how the effects of increased utilization and variability impact process capacity and flow times, and will be able to suggest approaches to improve system performance.
3. Graduates will be able to build analytical models to solve business problems.
4. Graduates will be able to articulate the commonalities and differences between service and manufacturing processes, and be able to manage and make improvements within either context.
5. Graduates will be able to apply principles of supply chain management in business contexts.
6. Graduates will be able to analyze and implement operational business decisions from both strategic and tactical perspectives.

CAREERS

All products and services—from cars to surgeries—are delivered by organized systems. It's the job of operations managers to make sure those activities occur when they are planned, in the right way, in the right quantity, and with the right quality. Operations Management transforms inputs—such as labor, equipment, facilities, materials, energy, and information—into goods and services for customers. To make this all happen, the operations function is responsible for critical activities such as materials management, resource planning, purchasing, scheduling, and quality.

OTM majors from the Wisconsin BBA have a successful placement history. Some recent students have worked at:

Epic (project manager), First Supply (purchasing analyst), Cisco (IT analyst), Fiskars Brand (forecast analyst), Kimberly-Clark (customer inventory analyst), CUNA Mutual Group (staff auditor), RMI, Inc. (supply chain and logistics associate).

Please visit our website (<https://bus.wisc.edu/bba/academics-and-programs/majors/operations-technology-management>) for further details about potential career areas and responsibilities.

REAL ESTATE AND URBAN LAND ECONOMICS

The undergraduate program in real estate provides concentrated coursework in all aspects of the real estate enterprise. The program is nationally renowned for its ability to develop real estate professionals with superb analytical skills. Many of the graduates of the program go on to work as managers of and advisors to pension funds, insurance companies, real estate investment trusts, and investment banks. Other graduates of the program go on to take public and private industry jobs in real estate development, appraisal, corporate real estate asset management, and real estate analysis.

Real Estate Club (<http://www.realestateclub.org>)
Wisconsin Real Estate Alumni Association (<https://bus.wisc.edu/centers/james-a-graaskamp-center-for-real-estate/alumni-and-friends>)

HOW TO GET IN

Students wishing to pursue this major must be admitted to the School of Business. Once admitted, students are able to pursue any business major they choose. To find out more about the school's admissions process for undergraduate students, please see *Entering the School* (p. 1184).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

SCHOOL OF BUSINESS REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) degree program is based on a broad educational foundation combined with courses in business and economics. This curriculum is designed for those students who wish to prepare for careers in business. Students completing any School of Business major (p. 1189) are required to satisfy a common set of Pre-Business Requirements, Liberal Studies Requirements, Business Preparatory Requirement, Business Core Requirement, Business Breadth Requirement, and Credits for BBA Degree.

Code	Title	Credits
School of Business BBA Requirements		
Complete requirements: (p. 1189)		
	Pre-Business	
	Liberal Studies	
	Business Prep	
	Business Core	
	Business Breadth	

REAL ESTATE MAJOR REQUIREMENTS

Students should take REAL EST/A A E/ECON/URB R PL 306 The Real Estate Process as early as possible, as it is a prerequisite for many other real estate courses.

REAL EST 312 Real Estate Law should also be taken early, ideally the semester after REAL EST/A A E/ECON/URB R PL 306.

Please note that the scheduling of REAL EST 312 occasionally conflicts with that of REAL EST/ECON/URB R PL 420 Urban and Regional Economics in the spring semester.

It is strongly recommended that students take REAL EST 415 Valuation of Real Estate before REAL EST 410 Real Estate Finance, or that REAL EST 410 Real Estate Finance and REAL EST 415 be taken concurrently.

REAL EST 611 Residential Property Development should be taken after REAL EST 410 and REAL EST 415.

Code	Title	Credits
REAL EST/A A E/ ECON/URB R PL 306	The Real Estate Process	3
REAL EST 312	Real Estate Law	3
REAL EST 410	Real Estate Finance	3
REAL EST 415	Valuation of Real Estate	3
REAL EST/ECON/ URB R PL 420	Urban and Regional Economics	3
REAL EST 611	Residential Property Development	3
Total Credits		18

ADDITIONAL COURSES

Undergraduate students are encouraged to take additional electives from among the following real estate and related courses within the School of Business. Electives are typically not offered every semester.

REAL ESTATE ELECTIVES

Code	Title	Credits
REAL EST 365	Contemporary Topics ¹	3
REAL EST/A A E/ URB R PL 520	Community Economic Analysis	3
REAL EST 651	Green - Sustainable Development	3

¹ The real estate department regularly offers innovative and cutting-edge electives under REAL EST 365 Contemporary Topics. Students should check the Course Guide every semester.

RELATED COURSES

Code	Title	Credits
FINANCE 305	Financial Markets, Institutions and Economic Activity	3
FINANCE/ECON 320	Investment Theory	3
OTM/I SY E 578	Facilities Location Models	3
OTM 444	Economics of Transportation	3

RECOMMENDED NON-BUSINESS ELECTIVES

Electives may also be selected outside the business-economics core from among a number of courses elsewhere in the university, which will provide greater professional awareness and more specialized tools.

Code	Title	Credits
ENVIR ST/GEOG 325	Analysis of the Physical Environment	4
ENVIR ST/ SOIL SCI 575	Assessment of Environmental Impact	3

BSE/LAND ARC 356	Sustainable Residential Construction	3
LAND ARC 250	Survey of Landscape Architecture Design	3
LAND ARC 351	Housing and Urban Design	4
LAND ARC 451	Open Space Planning and Design	3
SOIL SCI 301	General Soil Science	4
CIV ENGR 340	Structural Analysis I	4
CIV ENGR 498	Construction Project Management	3
ART HIST 368	American Architecture: The 19th Century	3-4
GEOG/CIV ENGR/ ENVIR ST 377	An Introduction to Geographic Information Systems	4
URB R PL/GEOG 305	Introduction to the City	3-4
URB R PL/ LAND ARC 463	Evolution of American Planning	3
URB R PL 601	Site Planning	3

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Graduates will gather, process and analyze market, linkage and macroeconomic data for the purpose of forecasting real estate trends and making prudent investment decisions.
2. Graduates will understand how to optimally source capital to execute on growth and development opportunities, prepare for and manage the crises and contingencies that pervade real estate ventures, and improve efficiencies in the operation of revenue generating properties.
3. Graduates will be able to recognize, measure, and create value in real estate in the strict respect of all ethical and legal norms and with full awareness of their responsibility to the communities, investors and users they aspire to serve as real estate professionals.
4. Graduates will be able to successfully communicate the merits of beneficial real estate projects to its various stakeholders.

5. Graduates will develop a deeper network with local, regional and international professionals to gather market data, perspectives, investment ideas and employment leads.

RISK AND INSURANCE

Actuarial science deals with the application of mathematics, statistics, and the principles of finance to the construction and management of insurance and pension systems. The curriculum prepares students for careers with insurance companies, consulting firms, and governmental agencies. Courses offered cover the material of the associateship examinations of the Society of Actuaries and the Casualty Actuarial Society, although it is not expected that a student will complete these examinations in the course of the undergraduate program.

The major in risk management and insurance prepares students to identify, analyze, and manage risks that are inherent in the operation of profit and not-for-profit institutions. Besides professional careers in risk management, the major cultivates skills required for challenging opportunities in organizations that accept these risks—private and governmental insurers, as well as brokerage/agency and consulting organizations.

DEGREES/MAJORS/CERTIFICATES

- Business: Actuarial Science, BBA (p. 1232)
- Business: Risk Management and Insurance, BBA (p. 1234)

BUSINESS: ACTUARIAL SCIENCE, BBA

OVERVIEW

Actuarial science deals with the application of mathematics, statistics, and the principles of finance to the construction and management of insurance and pension systems. The curriculum prepares students for careers with insurance companies, consulting firms, and governmental agencies. Courses offered cover the material of the associateship examinations of the Society of Actuaries and the Casualty Actuarial Society, although it is not expected that a student will complete these examinations in the course of the undergraduate program.

MISSION

The actuarial science program distinguishes itself through leadership, innovation, community, connections, networks, and recognition.

	Business Breadth	

ACTUARIAL SCIENCE MAJOR REQUIREMENTS

The following courses are required for actuarial science majors. The Risk and Insurance Department also has course sequence information. Please be aware of stated prerequisites for major courses (including business core courses) that need to be completed before taking the

course. Specific prerequisites can be found by clicking on the course number below.

Code	Title	Credits
MATH/STAT 431	Introduction to the Theory of Probability ¹	3
or STAT/ MATH 309	Introduction to Probability and Mathematical Statistics I	
or STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	
STAT/MATH 310	Introduction to Probability and Mathematical Statistics II ¹	3
or STAT 312	Introduction to Theory and Methods of Mathematical Statistics II	
ACT SCI 300	Actuarial Science Methods I	1
ACT SCI 301	Actuarial Science Methods II	1
ACT SCI/MATH 303	Theory of Interest and Life Insurance	3
ACT SCI 650	Actuarial Mathematics I	3
ACT SCI 652	Loss Models I	3
ACT SCI 651	Actuarial Mathematics II	3
or ACT SCI 653	Loss Models II	
ACT SCI 654	Regression and Time Series for Actuaries	3
or ACT SCI 655	Health Analytics	
Total Credits		23

¹ The two statistics courses and the last ACT SCI 654 or ACT SCI 655 (as a group of 3 courses) also fulfill the business analytics requirement found in the BBA Business Prep Requirements.

RECOMMENDED ELECTIVES

Code	Title	Credits
MATH 234	Calculus–Functions of Several Variables	4
MATH 340	Elementary Matrix and Linear Algebra	3

Students are encouraged to take MATH 234 Calculus–Functions of Several Variables before taking probability (MATH/STAT 431 Introduction to the Theory of Probability, STAT/MATH 309 Introduction to Probability and Mathematical Statistics I, or STAT 311 Introduction to Theory and Methods of Mathematical Statistics I), courses in risk management and insurance; finance; and computer science.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Graduates will recognize and explain the concept of risk, and apply the knowledge to the development of insurance products that are used to manage risk for the consumer as well as the risk of those products on the insurance organization.
2. Graduates will describe the actuarial profession, including the major professional organizations, the professional obligations of being an actuary, and the requirements to obtain and maintain a professional actuarial designation.
3. Graduates will demonstrate skills in critical thinking, quantitative analysis, and communication, as well as to develop an appreciation for actuarial theory, research, and the link to practical application.
4. Graduates will demonstrate the soft skills of being a professional.
5. Graduates will communicate their experiences and inspire others across the WSOB learning community.

Please visit the advising page (<http://www.bus.wisc.edu/bba/mybiz/advising>) for information on advising and appointments.

Contact wibbaadvising@bus.wisc.edu for questions regarding academic advising.

The Actuarial Club offers advising nights every fall semester to help students plan their course sequencing and professional exams. Additionally, students should use the following documents (<https://bus.wisc.edu/bba/academics-and-programs/majors/4E50E872FC40499482A19F390734D05B.ashx>) to help them prepare their course and exam schedule.

CAREERS

Actuaries are problem solvers with expertise in understanding and managing financial risk. They use historical information and models to help predict the future. Actuaries may specialize in life and health (risk of illness, disability or death), pensions (develop and analyze retirement programs) or property and casualty (personal property risks and risks associated with businesses).

Find out more about common industries and essential skills needed to be an actuary on the BBA Actuarial Science website (<https://bus.wisc.edu/bba/academics-and-programs/majors/actuarial-science>).

CERTIFICATION/LICENSURE

There are several exams and credentials from the Casualty Actuarial Society (<http://www.casact.org>) and the Society of Actuaries (<https://www.soa.org>) that we prepare students to obtain during their undergraduate career. Students are encouraged to pass at least 2 actuarial exams before graduation in order to obtain an internship and/or job.

RESOURCES AND SCHOLARSHIPS

If you are good at math and are interested in pursuing a career as an actuary, apply for our High School Actuarial Scholarship. The first place award of \$2,000 per year for four years will be given to a high school senior on the basis of mathematical aptitude and expressed interest in an actuarial career. The deadline for application is **March 1, 2017**. You can download the scholarship application here (<http://bus.wisc.edu/%7E/media/bus/knowledge-expertise/academic-departments/asrmi/hs-outreach/hs-application-2017.pdf?la=en>).

BUSINESS: RISK MANAGEMENT AND INSURANCE, BBA

The major in risk management and insurance prepares students to identify, analyze, and manage risks that are inherent in the operation of profit and not-for-profit institutions. Besides professional careers in

risk management, the major cultivates skills required for challenging opportunities in organizations that accept these risks—private and governmental insurers, as well as brokerage/agency and consulting organizations.

The program of study may be structured to aid students seeking professional designations of Chartered Property and Casualty Underwriter (CPCU) and Associate in Risk Management (ARM).

RECOGNITION

Our risk management and insurance program is ranked 4th in the U.S. by *U.S. News & World Report* 2016.

RELATED ORGANIZATIONS

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Graduates integrate a holistic risk management process (framework) across all dimensions of an organization, implementing risk management decisions that add value.
2. Graduates use appropriate statistical techniques and data analysis to support risk management decisions.
3. Graduates apply fundamental insurance principles that support economic development through insurance markets.
4. Graduates identify decision-making challenges, and implement strategies to address those challenges, in environments involving risk and uncertainty.
5. Graduates demonstrate strong critical thinking skills as observed through their ability to debate various positions, ask skeptical questions, and probe underlying assumptions.
6. Graduates demonstrate leadership qualities in moving the profession forward.

ADVISING AND CAREERS

ADVISING

MEET THE ACADEMIC AND CAREER ADVISORS FOR RMI.

Tara Milliken
Career Advisor
tara.milliken@wisc.edu

Maggie Nowicki
Academic Advisor
maggie.nowicki@wisc.edu

Please visit the advising page (http://bus.wisc.edu/bba/mybiz/academics/curriculum-degree-requirements/majors-specializations-certificates/~/link.aspx?_id=2471B6AB7883436D8817C4E66E0AF1C2&z=z) for information on

advising and appointments. Contact wibbaadvising@bus.wisc.edu for questions regarding academic advising.

CAREERS

Risk professionals identify, develop, and analyze solutions to manage risk (financial, credit, operational, etc.) at both the organizational and consumer level. Effective risk management encompasses all divisions of an organization, allowing the organization to grow safely and to be more resilient. Insurance is a key solution for managing risk and is deployed by risk professionals working as brokers, underwriters, claims adjusters, product developers, and a host of other potential insurance careers.

To learn more about careers in risk management and insurance, please visit the BBA RMI website (<http://bus.wisc.edu/bba/mybiz/academics/curriculum-degree-requirements/majors-specializations-certificates/risk-management-insurance>).

SCHOOL OF EDUCATION

The School of Education at UW–Madison is consistently ranked as one of the finest schools of education in the United States, and among the best in the world. The school embraces fields of study that define the human experience: **education** to challenge minds, **health** to improve lives, and the **arts** to enhance creative spirits, and also conducts world-class research to drive conversation forward. The school prepares students in a variety of disciplines and for a range of professional roles, including artist, teacher, and therapist.

Approximately 1,500 undergraduates are enrolled each year in the School of Education. While many students are pursuing teacher certification, a significant number are completing programs in the performing and visual arts, human movement, and human services.

The School of Education offers a broad array of undergraduate programs that reflect the wide range of disciplines housed in the school. Although undergraduate majors are not offered in all departments, all ten departments do offer courses to undergraduate students. The school's departments include: Art (p. 1262), Counseling Psychology (<http://counselingpsych.education.wisc.edu>), Curriculum and Instruction (p. 1292), Dance (p. 1445), Educational Leadership and Policy Analysis (<http://elpa.education.wisc.edu>), Educational Policy Studies (p. 1462), Educational Psychology (p. 1467), Kinesiology (p. 1469), Rehabilitation Psychology and Special Education (p. 1497), and Theatre and Drama (p. 1515).

Most School of Education students, including those interested in teacher education, begin their academic careers with a "pre-professional" designation. Application to the professional component of the undergraduate program is made as prerequisite coursework is completed. Students admitted to the university as art, education studies, or theatre and drama majors enter directly into their professional program. Dance majors are admitted based on an audition.

Many programs within the school are selective and competitive. School of Education faculty seek committed, creative, and reflective students who are sensitive to differing perspectives. For this reason, most of the school's limited-enrollment programs use criteria beyond grade point average to determine professional program admission. For this reason, too, the school consistently encourages students to challenge themselves and their initial career choices through volunteer experiences, service learning courses, internships or paid work experiences, and study abroad.

Students find that the School of Education is their academic and administrative home—a source of advising, guidance, support, and community. Small class sizes in many pre-professional and professional courses allow students to develop a strong sense of community and to get ample individual attention from professors, instructors, and teaching assistants. Teaching staff are extremely willing to get to know their students and work with them to meet their goals. School of Education courses also provide students the chance to get to know their classmates well. The School of Education works to offer a caring, secure, and supportive environment that encourages taking risks, expanding personal boundaries, and developing into a professional.

DEGREES/MAJORS/CERTIFICATES

All students pursuing their undergraduate degree in the School of Education **must** fulfill the following requirements:

- Universitywide General Education Requirements (p. 17)
- School of Education Liberal Studies Requirements (p. 1246)
- Major/Degree Program Requirements (see below)
- Art Education, B.S. (p. 1263)
- Art, B.S. (p. 1274)
- Art, BFA (p. 1280)
- Athletic Training, B.S. (p. 1470)
- Chinese, BSE (p. 1295)
- Communication Sciences and Disorders, BSE (p. 1308)
- Dance, B.S. (p. 1445)
- Dance, BFA (p. 1451)
- Dance, Certificate (p. 1456)
- Education and Educational Services, Certificate (p. 1468)
- Education Studies, B.S. (p. 1463)
- Educational Policy Studies, Certificate (p. 1467)
- Elementary Education, BSE (p. 1315)
- French, BSE (p. 1334)
- German, BSE (p. 1349)
- Individual Major, BSE (p. 1458)
- Introductory Studies in Dance/Movement Therapy, Certificate (p. 1457)
- Italian, BSE (p. 1366)
- Japanese, BSE (p. 1379)
- Kinesiology, B.S. (p. 1478)
- Latin, BSE (p. 1392)
- Physical Education, B.S. (p. 1485)
- Pilates, Certificate (p. 1458)
- Portuguese, BSE (p. 1410)
- Rehabilitation Psychology, B.S. (p. 1497)
- Spanish, BSE (p. 1432)
- Special Education, BSE (p. 1503)
- Studio Art, Certificate (p. 1289)
- Theatre and Drama, B.S. (p. 1515)

Note: Students at UW–Madison become certified to teach middle and high school **English, Mathematics, Science and Social Studies** subjects only through graduate-level coursework, not as undergraduates. Information about the master's degree program is available at [uwteach.org](http://www.uwteach.org) (<http://www.uwteach.org>) and on the Curriculum and Instruction website (<https://ci.education.wisc.edu/ci/academics/degree-options-certification-programs/wisconsin-masters-in-teaching>). Science certification areas include Biology, Chemistry, Earth and Space Science, Environmental Studies, Physics, and Broad Field Science. UW–Madison offers certification in the Social Studies areas of Economics, Geography, History, Political Science, Psychology, Sociology and Broad Field Social Studies.

POLICIES AND REGULATIONS

ACADEMIC CONCERNS AND STATUS

ACADEMIC ACTIONS AND EXCEPTIONS

Academic actions and exceptions are used to record a student's progress through the university and to document various administrative and academic situations. Actions can be grouped into two broad categories:

- those that permit exceptions to program requirements and school/university policies *and*
- those that affect a student's standing in the university —e.g., probation or transferring from one program to another.

As the undergraduate dean's office, Education Academic Services (EAS) is responsible for reviewing, approving, documenting, and sometimes initiating academic actions and exceptions. To be posted to a student's record, exceptions must go through several steps. Exceptions may be initiated either by program faculty/staff or by EAS staff. EAS staff and faculty/staff often consult about a specific exception. Once an exception has been approved, it is processed either as an official "Dean's action" or as a DARS exception. Students can find a record of dean's actions on their printed unofficial transcript (also called the student record) or on their DARS report. A DARS exception will be reflected in the individual student's DARS report.

Exceptions to faculty approved program requirements generally include course substitutions and rarely involve course or program requirement waivers. Exceptions to campus or School policies include permission for adding or dropping a course beyond the deadlines, waiving senior or major residency requirements, extending the deadline for meeting a deficiency or finishing an Incomplete, and permitting students to repeat a course for credit. A request for an exception requires careful consideration from all parties involved. Students should be prepared to explain the reasoning behind a request and offer supporting documentation.

Substantial consultation time with faculty, staff, and/or deans may be required, so students should not expect to receive an immediate answer to a request during the initial appointment.

ACADEMIC STANDING: DEAN'S LIST, ACADEMIC PROBATION, ETC.

To remain in good academic standing in the School of Education, students must earn both a semester grade point average (GPA) and a cumulative grade point average of at least 2.5. While the 2.5 grade point average may not be sufficient to permit students to be considered for admission to their program of choice, it is the minimum required to remain in the School of Education. This may be substantially higher than minimum grade point average requirements in other schools/colleges on campus.

Dean's List

Students have at least a 2.5 cumulative GPA and 3.5 or higher for the semester. Students must have received no incompletes in graded courses, no unreported grades, or end-of-semester academic

actions for the semester. Credit/no credit and pass/fail courses are not considered in meeting the requirements for the Dean's List.

Probation

A student's grade point average for a particular semester falls below 2.5, while the cumulative campus GPA remains at or above 2.5. Students must earn a minimum 2.5 grade point average on the next semester's coursework to be removed from probation status.

Strict Probation

Strict Probation occurs when either (1) a student's cumulative GPA falls below a 2.5 OR (2) a student already on probation earns less than a 2.5 grade point average for the subsequent semester. To be in good standing, students on strict probation must earn both a 2.5 GPA on the next semester's coursework and also have a cumulative GPA of 2.5 by the end of the next semester. Students on Strict Probation status have an enrollment hold placed on their record for the subsequent semester. These students are not permitted to enroll until they have met with an EAS advisor.

Continued Strict Probation

A student already on strict probation obtained a 2.5 GPA or above on the next semester's coursework, but the cumulative GPA is still below 2.5. Once both grade point averages are at or above 2.5, the student will be in good academic standing. Students on Continued Strict Probation status have an enrollment hold placed on their record for the subsequent semester. These students are not permitted to enroll until they have met with an EAS advisor.

May Not Continue in the School of Education

Students on strict probation or continued strict probation who earn less than a 2.5 GPA on the next semester's work will receive notice that they may not continue in the School of Education. Students on May Not Continue status who do not seek or are not granted permission to continue may be withdrawn from the university and dropped from courses ("disenrolled"). Students are expected to contact EAS immediately to discuss options, including transfer to another school or college on campus, transfer to another university, or withdrawal from UW-Madison.

CONTINUATION REQUIREMENT: DEPARTMENT OF KINESIOLOGY

All students admitted to undergraduate programs in the Department of Kinesiology, including Physical Education, must maintain a cumulative grade point average (GPA) of at least 2.75, based on all UW-Madison campus coursework. A student whose GPA falls below 2.75 will be placed on probation for the following semester. If the GPA remains below a 2.75 at the end of the probationary semester, the student will receive a discontinuation letter indicating that they must transfer out of the Department of Kinesiology. A hold will be placed on the student's registration for the second semester following the probationary semester, until the transfer is complete. Students in this situation must transfer to another School of Education program, another UW-Madison school/college, to another institution altogether, or must withdraw from the university.

If a student wishes to appeal being discontinued in the department, it must be done in writing to the Chair of the Undergraduate Studies Committee within 30 days of the date of the notification letter. The Undergraduate Studies Committee may request that the student

appear in person at an Undergraduate Studies Committee meeting to present the case.

If a negative decision is reached by the Undergraduate Studies Committee, a student may choose to appeal in writing to the Department of Kinesiology Student Affairs Committee within 30 days of the date of the notification.

If a negative decision is reached by the Department's Student Affairs Committee, a student may choose to appeal in writing to the Chair of the Department of Kinesiology within 30 days of the date of the notification.

If a negative decision is reached by the Chair of the Department of Kinesiology, a student may choose to follow the School of Education Grievance Policy.

In the event of a positive decision at any level, the student will be allowed to continue for one semester in order to raise the GPA to 2.75 or higher. A 2.75 cumulative GPA is required to graduate from the Department of Kinesiology.

GRIEVANCE POLICY IN THE SCHOOL OF EDUCATION

Any student who feels that he or she has been treated unfairly by a faculty or staff member has the right to complain about the treatment and to receive a prompt hearing of the grievance, following these grievance procedures. The complaint may concern course grades, classroom treatment, program admission, or other issues. To insure a prompt and fair hearing of any complaint, and to protect both the rights of the student and the person at whom the complaint is addressed, the procedures below are used in the School of Education.

The person whom the complaint is directed against must be an employee of the School of Education. Any student or potential student may use these procedures unless the complaint is covered by other campus rules or contracts. The following steps are available within the School of Education when a student has a grievance:

1. The student should first talk with the person against whom the grievance is directed. Most issues can be settled at this level. If the complaint is directed against a teaching assistant, and the student is not satisfied, the next step would be to talk to the TA's supervisor, who is usually the course professor. If the complaint is not resolved satisfactorily, the student may continue to step 2.
2. If the complaint does not involve an academic department, the procedure outlined in Step 4 below should be followed. If the complaint involves an academic department, the student should contact the chair of the department. The chair will attempt to resolve the problem informally. If this cannot be done to the student's satisfaction, the student may submit the grievance to the chair in writing. This must be done within 60 calendar days of the alleged unfair treatment.
3. On receipt of a written complaint, the chair will refer the matter to a departmental committee, which will obtain a written response from the person at whom the complaint is directed. This response shall be shared with the person filing the grievance. The chair will provide a timely written decision to the student on the action taken by the committee.
4. If either party is not satisfied with the decision of the department, he or she has five working days from receipt of the decision to contact the dean's office (at the number below), indicating the intention to appeal. If the complaint does not involve an academic department in the school, the student must contact the dean's office within 60 calendar days of the alleged unfair treatment.
5. In either case, there will be an attempt to resolve the issue informally by the associate dean. If this cannot be done, the complaint can be filed in writing with the dean's office. This must be done within 10 working days of the time the appealing party was notified that informal resolution was unsuccessful.
6. On receipt of such a written complaint, the associate dean will convene a subcommittee of the school's Equity & Diversity Committee. This subcommittee may ask for additional information from the parties involved and may hold a hearing at which both parties will be asked to speak separately. The subcommittee will then make a written recommendation to the dean of the School of Education who will render a decision. Unless a longer time is negotiated, this written decision shall be made within 20 working days from the date when the grievance was filed with the dean's office.

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, UW–System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office for Equity and Diversity, 179A Bascom Hall, 608-263-2378, kate.oconnor@wisc.edu, ([kate.oconnor@wisc.edu](tel:608-263-2378)) relay calls accepted.

PART-TIME ENROLLMENT STATUS

Students who choose part-time enrollment status or who anticipate falling below full-time enrollment status due to dropping a course should consult with an EAS advisor. Part-time enrollment may have important implications for any number of issues, including health insurance coverage or financial aid. It is especially important that athletes and international students consult with EAS and other advisors if considering part-time enrollment. Students who drop below 12 credits need not leave university housing.

RE-ENTRY TO CAMPUS AFTER AN ABSENCE

Students wishing to reenter UW–Madison after an absence of a semester or more must file a reentry application form. This form is available from the UW–Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu>). If an applicant is not in good academic standing, the reentry application will be referred to the associate dean.

Students admitted to the professional part of a program may leave UW–Madison for a maximum of two consecutive semesters (excluding summer sessions) and be eligible to reenter directly into the program. Students in this situation are not guaranteed immediate placement in a practicum or student teaching placement upon reentry, and graduation may be delayed because of prior commitments to continuing students. Students who leave the program for more than two consecutive semesters (excluding summer sessions) may be considered for readmission only on an individual basis. Lack of space in a program may preclude readmission directly into a program for any future semester. Given the individual circumstances, a student may be required to reapply to the program altogether.

The general policy above may be modified by any particular program so that the conditions of reentry match the structure of the professional program. Some programs require that students obtain prior approval to interrupt the program sequence. All students intending to be absent should leave with a firm understanding of the conditions guiding their reentry into their professional program. Consult with the appropriate faculty advisor and with Education Academic Services.

RESIDENCY (MAJOR & SENIOR) REQUIREMENTS

Major Residency

Students must complete at UW–Madison at least 15 credits in upper-level courses in the major. Some programs, e.g., Art, require more credits to meet major residency requirements. Upper-level courses are generally defined as those numbered 300 and above, but this varies by program area. Retroactive credits and credits granted by examination do not count toward the residency requirement.

Senior Residency

Seniors in the School of Education must complete the last 30 credits in residence. Special permission to take a portion of senior work either at another institution or by correspondence (via UW–Extension) must be obtained in advance from Education Academic Services. Coursework taken as part of a UW–Madison sponsored study abroad program does not count against senior residency. Students should discuss senior residency issues with their EAS advisor. Retroactive credits and credits granted by examination do not count toward the residency requirement.

EXCESS CREDIT AND SATISFACTORY PROGRESS

Excess Credits

Wisconsin resident undergraduates who have accumulated more than 165 completed credits will be assessed a 100% tuition surcharge on credits over 165, as required by the UW System Board of Regents. This policy was effective beginning Fall 2004. See *Excess Cumulative Credits* (http://registrar.wisc.edu/excess_cumulative_credits.htm) on the registrar's website for more information about this policy and the criteria used in counting cumulative, completed credits. Note: Students who have already been awarded a Bachelor's degree from any accredited institution are exempt from the tuition surcharge. Special students are also exempt.

Satisfactory Progress: Second degree candidates and Education Special (non-degree-seeking) Students

The School of Education is enriched by admitting students with a previous degree to our programs. We welcome these students

and encourage them to apply to our the School. At the same time, admission as a second-degree or Education Special (designated EDS or EDCS) student is a privilege granted by the School of Education. Second-degree and Education Special students are expected to make the same timely progress toward program completion as are initial-degree students.

To ensure satisfactory progress, second-degree and Education Special students who are identified to have met any one of the criteria below will be required to confer with her/his program coordinator and the undergraduate academic dean for purposes of developing a formal plan for program completion:

- Student has earned over 200 total credits.
- Student enrolled for two consecutive semesters without completing requirements for the professional program to which the student was initially admitted.
- Student withdrew from classes for two consecutive semesters.
- Student failed to enroll in a required course when it was available, particularly those that are intermittently offered.
- Student engages in other course selection patterns that result in his/her failing to make progress toward completion of initial program.

Students who do not meet the terms of the plan for program completion may be restricted to enrollment in specific courses or departments, prevented from enrolling entirely, or withdrawn from classes by the academic undergraduate dean after consultation with program faculty. Students may appeal the terms of the plan or any of the dean's actions above under the provisions of the School of Education Grievance Policy.

WITHDRAWING FROM UW–MADISON

Formal withdrawal procedures must be observed by individuals who wish to leave the university before completing the semester in progress. Students who leave the university without formally withdrawing may receive failing grades in all courses.

COURSES AND COURSE ENROLLMENT

ATTENDANCE POLICIES

Faculty and instructors may require students to attend scheduled meetings of a class and/or to participate in other course-related activities, including distance activities. Students are responsible for materials presented in such meetings or activities. Because courses are designed and conducted in diverse ways, faculty and instructors are expected to inform students in writing at the beginning of each course if there are specific expectations for attendance/participation, including whether any component of the grade is based on such attendance/participation.

AUDITING A COURSE

A student may audit a course only if the instructor consents and if no laboratory or performance skills are required. (The second restriction usually prevents students from auditing Dance or Art courses.) Auditors do not participate in classroom discussions or take examinations, but are expected to attend with reasonable regularity and do some assigned work.

Audited courses carry no degree credits, are not graded, do not count in determining full-time/part-time load for enrollment

certification in an academic term, and do not meet degree requirements for School of Education students. Students interested in auditing a course should confer with their EAS advisor. The deadline to change a course from credit to audit is the end of the fourth week of classes; no exceptions to this deadline are permitted.

CONCURRENT ENROLLMENT AT TWO INSTITUTIONS

School of Education students may occasionally choose to take courses at another institution—e.g., Madison College or Independent Learning through UW–Extension—while being a fully enrolled student on the UW–Madison campus. This is generally permitted, but does require a specific dean's action. Full-time or part-time student status is usually determined by the credits taken at UW–Madison only; thus, students who take only nine credits on campus and three credits at another institution may not be considered full-time students.

CREDIT OVERLOAD PERMISSION

The School of Education allows students to carry a maximum of 18 credits per semester without special permission. School of Education undergraduates may, with an academic dean's permission, enroll for more than 18 credits in a semester. Students must confer with a School of Education academic dean about such a request. Students must be in excellent academic standing to be considered for a credit overload and will be liable for the additional tuition costs beyond 18 credits.

During summer sessions, students may, as a rule, carry one credit per week of instruction. The maximum credit load for Education students for the entire summer session is 12. Session-specific limits follow the rule of 1 credit per week of instruction, except 9 credits are allowed in the Eight-Week General Session. Students must obtain permission from an academic dean to carry an overload in any of the summer sessions.

DIRECTED/INDEPENDENT STUDY

Directed Study, also called Independent Study, offers the student an opportunity to work with a School of Education faculty member on an individual topic of interest. Most School of Education departments make directed study courses available to students on the basis of the student's preparation and motivation and a faculty member's willingness to accept the student in such an endeavor. Directed Study courses are generally numbered 199, 299, 399, and 699.

This study option is intended primarily for advanced students who have a depth of knowledge in a field, the self-discipline necessary for independent work, and strong motivation to pursue a special project. Some program areas limit the number of Directed Study credits that can be applied to major or minor requirements.

Directed Study is taken as a supplement to, but not as a replacement for, available course offerings. In this way, it may be used to expand areas of particularly strong interest. Extra responsibility is required from the faculty member involved, and no member of the faculty is obligated to accept a proposal for a directed study project. Students should have a well-defined outline of the topic to be studied before discussing the project with a faculty member.

Both the student and instructor must follow UW–Madison's Policy on Directed/Independent Study for Undergraduates (<https://kb.wisc.edu/page.php?id=36263>). Important components of this document include, but are not limited to:

- The student's responsibility to develop a written study plan, in collaboration and agreement with the instructor, consistent with the responsibilities of the instructor. The study plan will include expectations for learning and student work, the time and place for regular meetings, the number of credits to be earned, and any other issues related to the learning experience.
- Guidelines for assigning the appropriate number of credits to the Directed Study.
- Responsibilities of the Directed Study instructor.
- The approval process for enrolling in a Directed Study after the course add deadline (usually the end of the second week of class in fall and spring semesters).

INDEPENDENT LEARNING COURSE ENROLLMENT

Students occasionally elect to take an Independent Learning (<http://continuingstudies.wisc.edu/lisa/indlearn>) course through the University of Wisconsin–Extension. Many of the courses offered through Independent Learning (IL) can count toward specific degree requirements and students have an entire year to complete the coursework. Individuals interested in enrolling in an Independent Learning course should note the following important issues:

Course Equivalencies

Independent Learning courses are not automatically transferable as equivalent UW–Madison campus courses—even when the Independent Learning course carries the same number and title. Use the Transfer Information System (TIS) (<http://www.uwsa.edu/tis>) to ensure that the Independent Learning course is equivalent to the campus required course. Faculty and dean's offices may have some discretion in permitting courses to count for requirements even when they are not coded as exactly equivalent; students should see their EAS advisor.

Concurrent Enrollment

UW–Extension is an entirely separate institution from UW–Madison. Thus, UW–Madison students must have permission from their academic dean to be enrolled concurrently in another higher education institution. Permission for concurrent enrollment is granted routinely for School of Education students through EAS. Students should go to the registrar's office website for the permission form (https://registrar.wisc.edu/documents/independent_learning_form.pdf). The completed form indicates permission for concurrent enrollment and, in some circumstances, provides for a waiver of the tuition for the Independent Learning course (see additional information below). Students should take this form to Education Academic Services, 139 Education Building, 1000 Bascom Mall, and meet with an advisor. Send it to Independent Learning after it has been approved at EAS.

Tuition Waiver

The tuition for an Independent Learning course may be waived with the academic dean's permission, although the student is still responsible for other course enrollment fees. Students are eligible for a tuition waiver if they register for an Independent Learning course during the semester they are concurrently enrolled at UW–Madison. In some cases, students may be allowed to register for

Independent Learning classes once they have enrolled in courses for the subsequent semester, linking their Independent Learning registration with the credits for the succeeding semester. Students interested in receiving a tuition waiver must be enrolled full time (at least 12 credits) at UW–Madison, and have no more than 18 credits after adding the Independent Learning course. Students should see their EAS advisor for additional information on these policies. As indicated above, download and complete the form (https://registrar.wisc.edu/documents/independent_learning_form.pdf) and submit to EAS, 139 Education Building, 1000 Bascom Mall. This stamped form must then be sent to Independent Learning, with a copy remaining at EAS.

Posting Independent Learning courses to the UW–Madison transcript

Independent Learning courses are posted to the campus transcript by staff at the Office of Admissions and Recruitment (<http://admissions.wisc.edu>). A official transcript for an Independent Learning course must be submitted to this office.

Timing for course completion and degree posting

Independent Learning courses require a substantial time commitment. Students should not plan to begin an Independent Learning course only a few weeks before it must be completed! Perhaps even more important, students completing an Independent Learning course to meet degree requirements during their last semester on campus should be aware that the Independent Learning course must be completed prior to the University's official graduation date for that semester. The completion date listed on the UW–Extension transcript must be on or before the UW–Madison degree completion date or the student's degree will be awarded after the subsequent semester. For example, if a student's UW–Extension transcript indicates a course completion date of May 25, but the UW–Madison degree completion date is May 23, the student's degree will be posted for the subsequent August graduation date, not for the May graduation day. This could create serious problems for teacher education students hoping to secure a position. For this reason, students completing final degree requirements via Independent Learning should consult carefully with EAS and Independent Learning staff regarding the timing of their course completion and degree posting.

LATE COURSE ADDS OR DROPS

Course enrollment regulations must be followed when adding and dropping courses. Students are responsible for knowing and complying with the published deadlines; see the registrar's website (<http://www.registrar.wisc.edu>) for deadlines. Students are expected to check their academic records routinely to minimize the need for late drops based on enrollment errors.

Late Course Add

Students must obtain instructor, departmental, and dean's approval to add a course after the course add deadline. See the registrar's website (<http://www.registrar.wisc.edu>) for instructions.

Late Course Drop

After the drop deadline, courses may be dropped only with the permission of Education Academic Services. Such permission is not granted routinely, but only in unusual circumstances. Students seeking a late drop will be required to complete a formal request form and may be asked to supply a written justification, medical or other documentation, and/or proof of having consulted with the course instructor. Requests for backdated drops due to ignorance

of campus drop deadlines or to remove a "DR" from the student's record will not be honored. Students seeking a late drop must schedule a meeting with an EAS advisor.

The student will meet with the advisor to discuss the drop request. The advisor will collect information about the circumstances around the request. If appropriate, the advisor will warn about the drop's possible consequences for financial aid, insurance coverage, student status (for international students), etc. The decision around the late drop may or may not be made during this meeting. Advisors may confer with instructors as needed to verify students' reports and obtain additional information. Advisors may also require students to contact the instructor and may also consult with one another and with the associate dean about specific cases. Students will be informed via email or telephone about the disposition of their request.

REPEATING COURSES

Most courses on the UW–Madison campus may be taken only once for purposes of credit. Some courses may be repeated a limited number of times for credit. Other courses may be repeated an unlimited number of times for credit. When courses are taken more than once, all grades and their associated grade points are included in the cumulative campus grade point average.

Some School of Education professional programs may permit students to retake courses for admission eligibility purposes only. Students should consult EAS staff with questions regarding repeated courses.

DEGREES, "DOUBLE MAJORS," AND GRADUATION

ADDITIONAL MAJOR OR "DOUBLE MAJOR"

School of Education students may be permitted to complete an additional major with their School of Education degree program. Students must be admitted to the professional part of their degree program to be eligible to add an additional major; pre-professional students cannot add another major.

Education students wishing to complete an additional major in the College of Letters & Science must complete these steps:

1. Contact the department that houses the major of interest. Meet with the undergraduate major advisor there, if appropriate. Complete the Major Declaration form and obtain departmental approval (usually a signature or stamp).
2. Take the form to Education Academic Services, 139 Education Building, 1000 Bascom Mall, and ask for a dean's action to permit the additional major. Staff at EAS will take the action and send the form to the registrar's office. Note: Students in the School of Education should not take the form to the L&S Student Academic Affairs office—even if this is the advice of departmental staff. Requests for an additional major will be rejected by the registrar's office for lack of the appropriate dean's approval.

Students will be granted a degree at the end of the fall, spring, or summer semesters in which all School of Education degree requirements are complete. Graduation will **not** be postponed if

students have an unfinished additional major or certificate program that is not required for the degree.

Exceptions to the requirements of an additional major or certificate program must be approved by the department and school/college dean's office in which the major or certificate program is located.

CREDITS-TO-DEGREE

School of Education programs require a minimum of 120 credits in all programs for graduation, although programs may require more. To earn 120 credits in four years (eight semesters), students must average 15 credits per semester. The number of credits carried each semester may depend upon a student's preparation, motivation, course selection, employment, and extracurricular activities.

DEGREE AUDIT REPORTING SYSTEM (DARS)

At UW–Madison, a DARS report is used to document a student's progress toward the completion of their degree. This degree audit identifies the requirements that have already been completed, and also those that remain unsatisfied. A DARS report can offer suggestions about appropriate courses that may be taken to meet specific requirements and can assist in the academic planning process.

Students can access DARS reports through their Student Center in *My UW–Madison*. Go to the Academics tab and find DARS on the dropdown menu.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program or major on campus. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) should request a "what if" DARS report of their professional program of interest.

DARS is not intended to replace student contact with academic advisers. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is the document of record, i.e., certifying document of degree completion, for program areas in the School of Education.

DUAL DEGREES

Students may be permitted to complete two degrees simultaneously. For example, students may complete two degree programs in the School of Education or may choose a degree program in the College of Agricultural and Life Sciences along with their School of Education degree. Not all schools/colleges permit dual degrees—e.g., this is not permitted by the College of Letters & Science or by the College of Engineering. Students should confer with an academic dean regarding the ability and feasibility of completing two degrees programs simultaneously. Students wishing to earn two undergraduate degrees must follow these academic policies:

- If the two degrees to be earned are within the School of Education, at least 30 additional credits and all course and grade point average requirements for the second degree must be completed for the second degree. When the first degree requires 120 credits, a minimum of 150 credits for most majors will be required. The two degree programs must differ sufficiently to permit the total credits to be accumulated. Courses may count toward the fulfillment

of both degree programs. Permission to complete two degrees simultaneously requires the academic dean's approval. This approval, and the formal academic action permitting the dual degree work, should be sought as early as possible to ensure that it is feasible to complete both degrees.

- If the two degrees to be earned are from two different schools/colleges (one degree in Education and one degree in another school or college on this campus), the following academic policies shall be followed:

1. Permission to complete two degrees simultaneously requires academic dean's approval from both schools/colleges. Students should see their current dean's office for the required paperwork.
2. Admission into the other school/college shall be based on the admission criteria for that particular school/college and, when necessary, particular program.
3. The two degree programs must differ sufficiently so that the combined total requirements for the two degrees are at least 150 credits.
4. The student's program must be reviewed and approved in both colleges before the start of a student's senior year in residence.
5. The degree from each college will be awarded simultaneously.
6. Exceptions to degree requirements must be taken by staff from the school/college linked to the particular degree.

GRADES AND GRADING

Grading System

See Enrollment and Records (p. 20) for detailed information on the campus grading system, including the list of possible grades and their impact on a student's grade point average.

Credit/No Credit Courses

Courses designated as being offered on a Credit/No Credit basis are indicated on the transcript as either CR, meaning the student earned the credits for which the course was offered, or N, meaning that the student did not earn any credit even though enrolled for the course. Students may not take such courses on any other basis.

"F" Grade Policies

If the course is repeated, the original F will remain on the transcript and will be included in computing the GPA. If a grade of F, N (no credit), or U (unsatisfactory) is received in student teaching or in courses within required practica, the course may be repeated only if the faculty adviser, the supervisor of the practicum or student teaching, and the appropriate associate dean gives approval. A third attempt to register in a course under these conditions is not allowed.

Incompletes

A grade of "Incomplete" may be reported for a student who has carried a subject with passing grades until near the end of the semester and then, because of illness or other unusual and substantiated cause beyond the student's control, has been unable to take or complete the final examination, or to complete some limited amount of term work. An

Incomplete is not given to a student who stays away from a final examination except as indicated above. In the absence of substantiated cause, the grade shall be F. Even with such proof, if the student's work has convinced the instructor that s/he cannot pass the course, the grade shall be F.

Any Incomplete taken by School of Education students must be completed by the end of the student's next semester of residence (specifically, by the last day of classes), excluding Summer Sessions. If the work is not completed by this deadline, the Incomplete will lapse into a Failure unless the time limit has been extended in writing by the dean's office. (Note that this differs for College of Letters & Science students: Incompletes must be completed by the end of the fourth week of classes of the student's next semester of residence at UW–Madison, excluding Summer Sessions.)

Pass/Fail Grading

All undergraduate students are eligible to take a course on a pass/fail basis if they request the option prior to the deadline and are in good academic standing at the time of the request. Good academic standing for this purpose means that students have a minimum 2.5 cumulative grade-point average based on UW–Madison coursework. Undergraduates may carry one course on a pass/fail basis per term. (Each year's summer sessions collectively count as a single term.)

Pass/fail can be chosen only for elective courses. Required courses cannot be taken on a pass/fail basis. The School of Education may reject pass/fail requests for non-elective work, but it is the student's responsibility to be sure that the requested course is an elective. Courses taken on a pass/fail basis will not count for non-elective requirements—even if they would normally count toward such requirements.

Students may submit pass/fail requests via their Student Center link from the time that they register until midnight on the Friday at the end of the fourth week of fall and spring semesters. For modular and summer session courses, pass/fail requests must be submitted by midnight Friday of the week in which the session is one-fourth completed. Students may not cancel or add the pass/fail option after the deadline for submitting Pass/Fail Option Forms.

Instructors are not notified when a student elects the pass/fail option. (Students can see whether a course is pass/fail in their Student Center.) When a course is taken on a pass/fail basis, the instructor reports a letter grade, which is converted by the registrar to an S (satisfactory) or U (unsatisfactory). The grade of S shall be recorded by the registrar in place of instructors' grades of A, AB, B, BC, or C. The grade of U shall be recorded by the registrar in place of instructors' grades of D or F. Neither the S nor the U is used in computing the grade-point average. A student must earn at least a C to receive credit for the course.

Please note that courses completed on a pass/fail basis do not apply toward Liberal Studies, major, minor, or professional education requirements for graduation. Students planning graduate study should not take courses on a pass/fail basis if these are pre-professional requirements for admission to graduate and/or professional programs. Individuals who are undecided about a major should avoid taking a course on a

pass/fail basis that might later become a required course needed to complete a major. Students may wish to consult with an advisor before taking a course on a pass/fail basis.

Six-Weeks (Midterm) Grades

Only first-year students receive midterm, or "six-weeks" grades. Midterm grades for first-year students are prepared at the end of the sixth week of classes and are made available to students in their Student Center in My UW on Monday of the eighth week. An email is sent out to all students with six-week grades informing them of their availability in the Student Center.

The midterm grade report provides students with important feedback about course enrollment and performance before the course drop deadline. Students should check their six-week grade report to make sure all courses are listed and grades indicated. An "NW" means that "No Work" has been turned in; students who have been attending the course should contact the instructor immediately. In the case of a course registration problem, students should see their EAS advisor immediately.

Grades from Transfer Courses

Grades from transfer courses are not posted to the UW–Madison transcript; however, the School of Education uses all attempted transferable coursework to determine program admission eligibility and selection grade point average. Students should be aware that grades earned at another institution will be included in admission calculations. (Courses for which an "F" is earned do not transfer to UW–Madison.) Student should see their School of Education advisor if they have additional questions about this policy.

PROGRAM ADMISSIONS

LAST 60 CREDIT RULE

Two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

1. all transferable college level coursework attempted, *and*
2. the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.)

The use of the last 60 credits does not supersede other eligibility requirements. For example, when a minimum GPA on prerequisite courses is required, or a minimum major GPA is required to be eligible for admission, all required courses will be used in calculating this GPA. This will include courses taken prior to the last 60 credits. A cumulative GPA, however, will still be calculated based on the last 60 college credits attempted.

Currently, retention and graduation GPAs are based on all credits attempted at UW–Madison as an undergraduate student. If each semester's GPA after admission to the program meets the required GPA for retention, the student will be allowed to continue and complete the program.

This policy does not apply to certification programs in Music Education, as the degree is granted from the College of Letters and Science, not the School of Education.

Contact EAS for additional information regarding the interpretation of this policy.

STUDENTS WITH A PREVIOUS DEGREE

A prospective student who already holds an undergraduate degree is admitted to the School of Education as either an Education Special student or a Second Degree student, depending on the academic area of interest and the individual's previous coursework. The term "Special Student" indicates that the student has an interest in pursuing certification in a subject area studied during the initial degree; the student does not receive a second degree for this "certification only" coursework. Second undergraduate degree students are seeking a second degree from the School of Education in an area that is different from the major coursework of the first degree. This degree may, or may not, include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission.

Special Students

Applicants must file an undergraduate application with the Office of Admissions and Recruitment (<http://admissions.wisc.edu>). Education Special students not yet admitted to a professional program are given an EDS classification, are not eligible for financial aid, and enroll last with the other special students on campus. Candidates seeking Special student status in open enrollment programs must obtain written permission for admission from the relevant program coordinator and must submit a professional program application to Education Academic Services. Candidates seeking admission to a limited enrollment program must meet all admission eligibility requirements for the program and must compete with other eligible candidates for program admission. Applicants admitted to a certification professional program become Education Certification Special students (EDCS classification) to distinguish them from Special students not so admitted. Students with an EDCS classification may be eligible for financial aid. Continuing EDCS students may register with undergraduates having junior status.

Second Degree Candidates

Students who wish to earn a second baccalaureate degree in the School of Education must file an undergraduate application with the Office of Admissions and Recruitment (<http://admissions.wisc.edu>) and must file a professional program application with Education Academic Services. Second degree students not yet admitted to a professional program are given a pre-professional classification. Second degree candidates must:

- be seeking a new major that is substantially different from their previous degree work;
- complete at least 15 upper-level credits in the new major;
- complete at least 30 credits beyond their previous coursework.

The determination of whether a student should be admitted as a second degree candidate or Education Special student is made by the faculty advisor in consultation with EAS staff after analyzing the student's remaining requirements. The faculty advisor

will determine the specific remaining requirements for students admitted to a program. In addition to completing the requirements specific to the program(s) of interest, returning students must also complete any relevant campus-wide requirements, complete the requirements specific to individual program areas such as the Environmental Education requirement, and satisfy any high school deficiencies identified at the time of admission to UW–Madison. Students are strongly encouraged to discuss their academic plans with their faculty advisor and must make satisfactory progress toward program completion - see Satisfactory Progress/Excess credits for details.

Students seeing a second degree in Kinesiology–Exercise & Movement Science or Athletic Training must complete PSYCH 202 Introduction to Psychology as part of the professional program if an equivalent course was not completed during the initial baccalaureate degree.

REQUIREMENTS

SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

HOW STUDENTS MEET REQUIREMENTS

The School of Education's Liberal Studies Requirements automatically satisfy most of the University's General Education Requirements, including Ethnic Studies, Humanities/Literature, Social Studies, and Science. Students pursuing most School of Education degree program may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program.

Beginning at Student Orientation and Registration (SOAR), School of Education academic advisors help each student determine how they can meet General Education Requirements while pursuing a specific degree program, or through exploration of a variety of interests. The General Education and Liberal Studies requirements provide an opportunity to do some academic exploration. If a student cannot complete a General Education requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

Students with a previous undergraduate degree are not required to complete the Liberal Studies coursework.

LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies coursework. Most Liberal Studies courses are offered by academic departments in the College of Letters & Science. Each course is assigned a number of descriptors that provide information about its content. For example, a breadth designation indicates what kind of course it is—a Science course, a Literature course, etc. Level designations describe how advanced the content of a course is in relation to other courses in the department—Elementary, Intermediate, Advanced, or Intermediate/Advanced level. Course listings in both Course Guide and Schedule of Classes (Class Search) provide breadth and level designations. Click on the course number to obtain this information. Students can also search for courses meeting specific breadth or level

designations using either Course Guide and Schedule of Classes (Class Search).

UW-Madison breadth designations

Biological Science
Humanities
Literature
Natural Science
Physical Science
Social Science
Social or Natural Science
Humanities or Natural Science
Biological or Social Science
Humanities or Social Science

HUMANITIES

All students must complete a minimum of 9 credits, to include:

Literature (minimum of 2 credits)

Any course designated as *Literature*.

Fine Arts (minimum of 2 credits)

The courses listed below are approved for the Fine Arts requirement. Additional courses can be considered; students may consult with an advisor in Education Academic Services.

Code	Title	Credits
African Languages and Literature		
AFRICAN/ AFROAMER 220	HipHop, Youth Culture, and Politics in Senegal	3

Music

Any course from the Department of Music (<http://guide.wisc.edu/courses/music>)

Music Performance

Any course from the Department of Music Performance (http://guide.wisc.edu/courses/mus_perf)

Theatre

Any course from the Department of Theatre and Drama (<http://guide.wisc.edu/courses/theatre>)

Humanities Elective(s)

May include courses designated as *Humanities, Literature, Humanities or Natural Science, Humanities or Social Science*, elementary and intermediate level foreign language, or additional fine arts. May also count COM ARTS 105 Public Speaking, COM ARTS 181 Elements of Speech-Honors Course, and any English (<http://guide.wisc.edu/courses/engl>) department intermediate or advanced level creative writing or composition course toward this requirement (ESL classes and elementary level composition courses are excluded).

SOCIAL STUDIES (SOCIAL SCIENCE)

All students must complete a minimum of 9 credits. Select from courses with a breadth designation of *Social Science, Social or Natural Science, Biological or Social Science*, or as *Humanities or Social Science*.

Teacher education, athletic training, and kinesiology students have unique requirements in this category; see below:

Teacher Education requirement

Teacher education students must complete a Local, State, and National Government requirement by enrolling in one of the following courses as part of the 9 credits:

- POLI SCI 104 Introduction to American Politics and Government or
- POLI SCI 205 Introduction to State Government

Athletic Training and Kinesiology—Exercise and Movement Science

Athletic Training and Kinesiology—Exercise and Movement Science students must complete PSYCH 202 Introduction to Psychology as part of the 9 credits.

SCIENCE

All students must complete a minimum of 9 credits, including one course designated as a Biological Science course and one designated as a Physical Science course. All students must complete one science course with a laboratory. The lab course can also count toward the Biological or Physical Science requirement if it has the requisite breadth designation.

Biological Science

Any course with a breadth designation of *Biological Science*, or as *Biological or Social Science*.

Physical Science

Any course with a breadth designation of *Physical Science*.

Science Elective(s)

Other courses with a breadth designation of *Biological Science, Physical Science, Natural Science, Social or Natural Science, Humanities or Natural Science*, or as *Biological or Social Science*.

Laboratory requirement

Most sciences with lab sections are identified as such in Class Search and Course Guide. An AP Biology score of 4 or 5 will also fulfill the Laboratory requirement.

In addition to courses with lab sections, the following courses include some lab experience and will meet the lab requirements for students in the School of Education:

Code	Title	Credits
Course options within the College of Letters & Science		
ANTHRO 105	Principles of Biological Anthropology	3
ASTRON 100	Survey of Astronomy	4
ATM OCN 101	Weather and Climate	4
BOTANY 100	Survey of Botany	3
GEOSCI 100	General Geology	3
PHYSICS 109	Physics in the Arts	3
Suggested courses options outside the College of Letters & Science		
AGRONOMY 100	Principles and Practices in Crop Production	4
BOTANY/PL PATH 123	Plants, Parasites, and People	3
FOOD SCI/ MICROBIO 324	Food Microbiology Laboratory	2
HORT 120	Survey of Horticulture	3
PL PATH/ BOTANY 123	Plants, Parasites, and People	3

CULTURAL AND HISTORICAL STUDIES

All students must complete three requirements met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation. A single course cannot satisfy more than one of the three Cultural and Historical Studies requirements listed below.

Ethnic Studies (minimum 3 credit course)

The Ethnic Studies requirement is intended to increase understanding of the culture and contributions of persistently marginalized racial or ethnic groups in the United States, and to equip students to respond constructively to issues connected with our pluralistic society and global community. Courses that meet this requirement have a specific ethnic studies designation that can be utilized in a course search.

United States or European History (minimum 3 credits)

The courses listed below count toward this requirement. Additional courses can be considered; students may consult with an advisor in Education Academic Services.

Global Perspectives (minimum 3 credits)

Global perspectives courses include courses whose primary emphasis is on:

- cultures whose origins lie outside of the western tradition, or
- analyzing and interpreting cultural differences through the study of language, gender, race, ethnicity, religion, or class, or
- cultural pluralism within specific geographical areas.

The courses listed below count toward this requirement. Additional courses can be considered; students may consult with an advisor in Education Academic Services.

Code	Title	Credits
African Languages & Literature		
AFRICAN/ HISTORY 129	Africa on the Global Stage	3-4
AFRICAN 201	Introduction to African Literature	3

LIBERAL STUDIES ELECTIVES

Complete additional liberal studies coursework as needed to reach the required 40 Liberal Studies credits.

IMPORTANT NOTES REGARDING THE LIBERAL STUDIES REQUIREMENTS

- Completion of the Liberal Studies requirements is not a prerequisite to professional program application or admission.
- For the most part, courses listed in School of Education departments may not be used to satisfy the Liberal Studies requirements. School of Education departments include Art, Art Education, Counseling Psychology, Curriculum and Instruction, Dance, Educational Leadership and Policy Analysis, Educational Policy Studies, Educational Psychology, Kinesiology, Rehabilitation Psychology and Special Education, and Theatre and Drama.
 - For example, KINES 100 Exercise, Nutrition, and Health, cannot count toward the Liberal Studies requirement even though it is a Biological Science course. ED PSYCH 320 Human Development in Infancy and Childhood cannot count toward Liberal Studies even though it is a Social Science course.
 - Exceptions include some courses that are cross-listed in departments outside the School of Education such as ED POL/HISTORY 412 History of American Education/HISTORY/ED POL 412 History of American Education. Art and Dance department courses count toward the Humanities requirement.
- Courses that transfer to UW–Madison as departmental electives (e.g., POLI SCI X10) might meet specific Liberal Studies requirements. Students may consult with an advisor in Education Academic Services to discuss transfer electives that appear to meet specific course requirements.
- While one course may cover two requirements, students must still complete both the 40-credit total and the 9-credit minimum

requirements in Humanities, Social Studies (Social Science), and Science.

- For example, THEATRE/ENGL 120 Introduction to Theatre and Dramatic Literature, a Literature course also on the Fine Arts list, may be used to meet both the specific Fine Arts and Literature requirements of the Humanities area, but a total of 9 credits of Humanities are still required.
- Courses in other schools/colleges (excluding the School of Education) may count as Liberal Studies if they have an L&S Credit Type designation of C and/or assigned a level or breadth descriptor.
- No Liberal Studies coursework may be taken on a Pass/Fail basis.

GUIDELINES FOR SPECIFIC PROGRAM AREAS

Teacher Education programs

All teacher education students, except those in music education or art education, may apply any appropriate coursework from the major or minor toward the Liberal Studies requirements. Students in music and art education are restricted in this overlap. For students in music education, no more than 6 credits of music history and no more than 4 art and dance credits may count toward the 40 total credits. Music history courses (e.g., MUSIC 211 Survey of the History of Western Music, MUSIC 212 Survey of the History of Western Music) may not be used to meet the U.S./ European History requirement. Art education students may apply all of the aesthetics credits (usually 14) toward the Liberal Studies requirements, but not courses taken to meet the studio requirements.

Elementary education students can use a Science course or Social Studies course from the Environmental Education course list to meet both the Liberal Studies and Environmental Education requirements.

Art (BFA and BS)

In general, students may not satisfy Liberal Studies requirements with courses meeting studio or aesthetics requirements. However, Art-BFA candidates may apply 4 aesthetics elective credits toward the Humanities credits.

Athletic Training, Kinesiology-Exercise and Movement Science, and Physical Education

Athletic training, kinesiology-exercise and movement science, and physical education students will meet the Science requirement by completing their required science courses-e.g., chemistry and physics.

Communication Sciences and Disorders

Communication sciences and disorders students should consult both the Liberal Studies requirements and the communication sciences and disorders program requirements, particularly the "related courses" section, when selecting Liberal Studies coursework. Courses may count in both places.

Dance (BFA & BS)

Dance and Dance-BFA students must complete ANATOMY/ KINES 329 Human Anatomy-Kinesiology, which will meet both a Science requirement and the Science Laboratory requirement. In general, Liberal Studies requirements cannot be met with courses taken to meet other program requirements.

Rehabilitation Psychology

In general, rehabilitation psychology students may not satisfy Liberal Studies requirements with courses taken to meet the Professional Education and Background requirements. Courses taken to meet the Rehabilitation Psychology Professional Background or Specialization requirements cannot also count toward the 40 Liberal Studies credits. However, if a course is taken to meet any of the three Cultural/Historical Studies requirements, the course *content* can be used to meet both requirements, but the *credits* will only count toward the Professional Education or Specialization requirements.

Theatre and Drama

Theatre and drama students can apply major coursework toward the Liberal Studies requirements.

RESOURCES

SCHOLARSHIPS/TEACH GRANTS

SCHOLARSHIPS

The generosity of alumni and friends has enabled the School of Education to distribute more than \$500,000 in scholarships and awards annually to deserving undergraduate students. Half of these are awarded through a school-wide competitive process; the other half are awarded by individual departments and programs. The list of School of Education undergraduate scholarships and honors is available at Scholarships@UW-Madison (<http://scholarships.wisc.edu/Scholarships>).

School of Education scholarships open to applicants in early February and close at the end of March. Scholarship decisions are made in early June and then communicated to applicants in July. The selection criteria for specific scholarships and awards vary and may include academic performance, excellence in a specific field or area, potential as a prospective teacher, leadership ability, personal attributes (such as returning adult status or home county), and financial need. All scholarship and award recipients must be in good academic standing in the School of Education.

Schoolwide scholarships for undergraduates are organized into two categories. All-School scholarships are open to any student in the School of Education. Teacher Education scholarships are designated for students seeking teacher certification; most of these are awarded to students already admitted to professional teacher education programs. Generous donors have also made it possible to offer many School-wide scholarships to recruit and retain underrepresented students interested in health, education and the arts.

While many scholarships are awarded, the number of scholarships is substantially smaller than the number of eligible students.

TEACH GRANTS

Students willing to teach in "high-need" teaching fields can receive TEACH grants of up to \$4,000 per year for a total of \$16,000 over their undergraduate academic career. Officially-designated "high need fields" include Master of Science with Secondary Teaching & ESL Certification, Bilingual Education; Communication Sciences and Disorders; English as a Second Language; Mathematics; Music; Reading Specialist; Science certification areas; Special Education; World Language Education certification areas, and any other fields documented as "high-need" by the federal government and/or state or local education agency (LEA).

Elementary Education students completing the Early Childhood/ESL, Middle Childhood-Early Adolescence/ESL or the Middle Childhood-Early Adolescence/Special Education program options are also eligible for a TEACH Grant.

Students receiving TEACH grants must complete a service obligation of four years of teaching their high-need subject in a designated low-income school within their first eight years of teaching. "Low-income schools" are defined as public or private nonprofit elementary or secondary schools eligible for assistance under Title I of the Elementary and Secondary Education Act. In Wisconsin over a thousand schools are designated as "low income."

TEACH grant applicants must attain certain academic eligibility criteria. For example, candidates must have scored minimally above the 75th percentile on a nationally normed admissions test or have earned a 3.25 minimum cumulative grade point average. TEACH grants are not need-based, so students may receive them without regard to financial background. Grant recipients must have completed a Free Application for Federal Student Aid (FAFSA) (<http://www.fafsa.ed.gov>) to be eligible.

Students should indicate their interest in the TEACH Grant program via their FAFSA and by completing the program application (<http://www.education.wisc.edu/soe/academics/undergraduate-students/scholarships-and-grants>).

UNDERGRADUATE ADVISING AND ACADEMIC DEAN'S OFFICE - EDUCATION ACADEMIC SERVICES (EAS)

139 Education Building, 1000 Bascom Mall; 608-262-1651
www.education.wisc.edu/soe/academics/undergraduate-students/academic-advising (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-advising>)

Education Academic Services (EAS) is the undergraduate dean's office for students in the School of Education. Staff members interpret school regulations, policies, and program requirements; take exceptions around requirements and deadlines; advise current and prospective students; monitor students having academic difficulties; coordinate field placements; facilitate the program admissions process; and maintain the official files of students in the school.

Students should meet with an advisor during their first semester on campus (if not before) and should consider meeting with an advisor at least once a semester. This is particularly important during the freshman and sophomore years. Appointments may be arranged by calling or visiting the office. Current materials on undergraduate program admission and graduation requirements are available on this site.

Students will find that questions can be answered by and guidance sought from EAS advisors. EAS staff members consult with and refer students to faculty members and department advisors. Once a student is admitted to a professional program within the School of Education, he or she will also be assigned a faculty or staff advisor. Advising then becomes a partnership, with EAS advisors continuing to help students with course selection, degree progress monitoring, academic difficulties, and interpretation of policies and procedures.

Program advisors help students select and plan a program of study in the major, negotiate issues within the department, and, in the case of certification programs, follow the students' progress through their professional courses. These divisions are flexible, and students are

encouraged to consult with all advisors who can help with a situation or answer a question.

STUDENT DIVERSITY SERVICES

105 Education Building, 1000 Bascom Mall, 608-262-8427 or 608-262-1651

www.education.wisc.edu/sdp (<http://www.education.wisc.edu/sdp>)

The UW–Madison School of Education is committed to promoting equity and increasing diversity in its programs. Student Diversity Programs support and promote a welcoming, culturally responsive and supportive School community to help fulfill the School's vision to be at the forefront of preparing students from underrepresented backgrounds to enter and excel in higher education.

Student Diversity Programs (SDP) houses programs that serve students from K–12 to those in graduate school. These programs include:

- **College Access Program (CAP):** A three-week summer residential pre-college program with an emphasis on majors in the School of Education. CAP prepares future first-generation college students or students from economically disadvantaged backgrounds for college admission, majors, and future careers.
- **The Office of Undergraduate Recruitment and Retention (OURR):** OURR staff work collaboratively with Education Academic Services and campus and community partners to support underrepresented students interested in majors in the School of Education. OURR staff perform outreach, recruitment and advising on behalf of the School. OURR staff also support current students with their personal and professional growth, their transition from high school to college, and financial aid, and career exploration. OURR works to build a network of students and graduates who may strengthen, transform, and lead their communities through education, service, and other contributions.
- **American Indian Curriculum Services:** An office that provides assistance to teacher education programs, faculty, staff, and students, as well as in-service teachers and regional schools, for the teaching and learning of the history, cultures, and tribal sovereignty of the American Indian Nations of Wisconsin in PK–16 education.
- **Summer Education Research Program (SERP):** A ten-week residential summer research program for undergraduate students interested in pursuing graduate degrees in the School of Education. Program participants conduct research projects under the supervision of faculty mentors, learn how to prepare themselves for graduate school, and present their final projects to faculty members, peers, and the university community.
- **Education Graduate Research Scholars (Ed–GRS):** A graduate fellowship program and research community which provides not only funding to graduate students from underrepresented backgrounds, but also professional development opportunities and opportunities to connect with faculty members and peers throughout the School.

Students are invited to visit SDP at 105 Education Building—stop in or call one of the numbers listed above to set up an appointment.

SCHOOL OF EDUCATION CAREER CENTER

L107 Education Building, 1000 Bascom Mall, 608-262-1755

<http://careercenter.education.wisc.edu/>

Need assistance with any of the following?

- Exploring career options linked to School of Education majors
- Seeking a major that fits you and helps you reach your career goals
- Researching graduate schools and preparing application materials
- Beginning your job search and not sure where to start
- Want assistance with your résumé, cover letter, or interviewing skills
- Want to network and connect with potential employers

The Career Center provides resources and individual consultations to assist you in reaching your career goals. A plethora of resources can be found on the Career Center website (<http://careercenter.education.wisc.edu>).

- Explore career possibilities for specific majors in the *Investigate Career Options*. This section of the website provides tools for clarifying your personal criteria for success, identifying specific career options linked to majors and identifying steps for career/major selection, and includes strategies for making the most of your academic and student experience.
- Confirm your decisions. Gain hands-on experience in the career field you are pursuing. Assess the perceptions of your career and major options for accuracy and develop professional and soft skills. The *Test Drive and Confirm Career Choice* website section provides strategies for gaining real-world experience.
- Prepare to gain entry into the next phase of your career. Learn about graduate school requirements and the application process. Develop your promotional materials for employers and graduate schools and obtain feedback and suggestions for enhancing them. Obtain materials to support your candidacy. The *Prepare and Connect* section provides offers additional details.
- *Implement* your plans for your future. Attend recruiting events. Apply for graduate school acceptance or for job opportunities. Practice your interviewing skills. Interview. Negotiate job and graduate school offers.

Personalized career assistance is available through individual appointments with consultants in the Career Center. Schedule an appointment here (<http://bit.ly/CCAppt>).

Informational workshops and career-related events (<http://careercenter.education.wisc.edu/workshops>) are conducted each semester.

The Career Center also coordinates teacher recruitment fairs each fall and spring semester and collaborates with career centers across campus to provide campus-wide career fairs at the beginning of each semesters.

STUDY ABROAD

About 25% of undergraduates make study abroad an integral part of their UW–Madison experience.

International Academic Programs (IAP) (<https://www.studyabroad.wisc.edu>) at UW–Madison offers over 200 study abroad options in about 60 countries on 6 continents. In addition to taking the opportunity to learn new languages, understand new cultures and see the world, UW–Madison students study abroad to complement their on-campus academic goals, strengthen their professional potential and enrich their personal lives.

Students of all academic levels and majors study abroad. While many programs include language training—from the basics to full language

immersion—most IAP programs have no language requirement and include courses taught in English.

All courses taken abroad through IAP count as “in-residence” credit, just like taking courses on campus at UW–Madison, so students advance towards their degrees while abroad. And study abroad isn’t limited to classroom experience. Many students also complete internships, do research, fieldwork and service learning.

In addition to resources on health, safety, academic planning and other aspects, UW–Madison students receive the information and guidance they need to plan a study abroad experiences that fits their budgets. Many study abroad programs cost the about the same or less than studying on campus, and student financial aid can be applied in most cases.

While IAP offers programs to students of all majors, including to students in the College of Agricultural and Life Sciences in collaboration with the CALS International Programs office, the College of Engineering and the School of Business also offer programs tailored specifically to the needs of their students. All of these program options are listed at studyabroad.wisc.edu/explore.

For more information on study abroad at UW–Madison (p. 17), see Study Abroad (<http://studyabroad.wisc.edu>) or call 608-265-6329.

UNDERGRADUATE RESEARCH SCHOLARS PROGRAM

The Undergraduate Research Scholars program (URS) is dedicated to enhancing the academic experience of UW–Madison students by providing first and second year undergraduates with opportunities to earn credit for participating in the research and creative work with UW–Madison faculty and staff. The program has been designed to include partnerships between students and mentors, seminars on research-relevant issues, and practice in research/artistic presentations. The many benefits of the program are found in the fluid interaction between these activities. Please refer to Undergraduate Research Scholars (<http://urs.ls.wisc.edu>) for more information.

MERIT (MEDIA, EDUCATION RESOURCES, AND INFORMATION TECHNOLOGY)

301 Teacher Education Building, 608-263-4750
merit.education.wisc.edu (<http://merit.education.wisc.edu>)

MERIT offers information and technology services to the School of Education and UW–Madison community partners. MERIT is designed as a collaborative and comprehensive cluster of service and support for the School of Education, the UW–Madison and beyond. Staff play an active role in the design and implementation of programs which connect the K-12 community to UW–Madison.

Some of our services include evaluation and selection of tools for delivery of content, instructional design and consulting for development of online learning, library services and collections to support practicing teachers (including edTPA and equipment loan), workshops and instructional support aimed at adoption of new tools, media development, web hosting, and web design.

For a much deeper look at our service descriptions, please visit: <http://meritservices.education.wisc.edu/Category>

COOPERATIVE CHILDREN'S BOOK CENTER (CCBC)

401 Teacher Education, 608-263-3720
ccbcinfo@education.wisc.edu, ccbc.education.wisc.edu/ (<https://ccbc.education.wisc.edu>)

The CCBC is a library of the School of Education that provides Education students, faculty, and staff with a noncirculating collection of children's and adolescent literature. The CCBC also serves other adults on campus and across the state who are interested in literature for the young, including Wisconsin teachers and school and public librarians.

This nationally unique library is the primary resource on campus and elsewhere for contemporary books published for children and young adults from preschool through high school ages. CCBC resources include extensive reference materials about literature for the young and a wide range of books for children and adolescents, including a book examination collection of new and recently published books, a comprehensive collection of recommended contemporary books, and historical literature from the 19th and early 20th centuries. The CCBC is nationally known for its services related to intellectual freedom and advocacy for multicultural literature. Each year the CCBC compiles and releases statistics documenting the number of children's and young adult books by and/or about people of color published in the United States

As a library of the School of Education, the CCBC is committed to being a vital part of the teacher education experience on campus. The CCBC's noncirculating collection provides immediate access to a wide range of literature for the young. CCBC librarians are available to meet with education students to help them identify children's and adolescent literature to fulfill class assignments, as well as to use in practicum and student teaching classrooms. Librarians are also available to meet with faculty and teaching assistants to discuss children's and young adult literature as it relates to the courses they are teaching.

The CCBC website (<https://ccbc.education.wisc.edu>) provides full-text access to many national children's and young adult literature awards and recommended lists as well as specialized bibliographies from CCBC staff. The CCBC offers special events throughout the academic year that provide opportunities to hear from authors and illustrators, as well as to interact with others who are interested in books for children and teens.

HONORS

DEAN'S LIST

Students have at least a 2.5 cumulative GPA and 3.5 or higher for the semester. Students must have received no incompletes in graded courses, no unreported grades, or end-of-semester academic actions for the semester. Credit/no credit and pass/fail courses are not considered in meeting the requirements for the Dean's List.

GRADUATING WITH HONORS AND GRADUATING WITH DISTINCTION

Undergraduate students are invited to wear an honors stole at graduation, representing **Graduating with Honors**, if they have indicated they expect to graduate at the conclusion of the current semester, have a cumulative GPA that places them in the top 20% of students expecting to graduate in their school/college, and have earned at least 60 credits

in residence at UW–Madison. Credits in progress in the current semester count towards the 60 credit requirement.

Graduating With Distinction is a separate calculation and is posted to the undergraduate student's transcript after all grades and degrees have been recorded. Students qualify for the Distinction notation if they have received their degree, have a cumulative GPA that places them in the top 20% of degree recipients in their school/college, and have earned at least 60 credits in residence at UW–Madison.

HONORS OPTIONS THROUGH THE COLLEGE OF LETTERS & SCIENCE

Through a collaboration between the School of Education and the College of Letters & Science (L&S), students in the School of Education may participate in the L&S Honors Program, including L&S Honors in the Liberal Arts (HLA), Honors in the Major (HM), or Comprehensive Honors (both HLA and HM).

To learn more about the L&S Honors options and curricula, please visit the program's website (<http://www.honors.ls.wisc.edu>). Students with questions about how L&S Honors connects with School of Education programs and requirements should contact Education Academic Services at 608-262-1651 to make an appointment with an advisor.

Interested students are invited to apply to the program. Admission is competitive and space is limited, but incoming first-year students who did not apply, or are denied admission, may apply later as continuing students.

ART

Undergraduate degrees granted: B.S. in Art, B.S. in Art Education, Bachelor of Fine Arts (BFA)

The Department of Art conducts an exemplary experimental undergraduate program emphasizing the importance of a broad background in the basics of visual arts, liberal arts, and knowledge of the history and purpose of art. The nationally and internationally recognized faculty of visual artists provides a stimulating educational environment to prepare students for careers in a broad array of creative fields and/or graduate study. The program also supports and encourages the development of a visually literate community.

The art department offers two professional programs, art and art education. Art majors may pursue either the bachelor of science degree (p. 1274) or the bachelor of fine arts degree (p. 1280). Art education majors (p. 1263) receive the Bachelor of Science–Art Education degree and eligibility for licensure to teach in both elementary and secondary schools. Entrance requirements vary for each program. For exhibition purposes, the department may temporarily retain one piece of work from each student in art studio courses. All degree programs are accredited by the National Association of Schools of Art and Design (NASAD).

DEGREES/MAJORS/CERTIFICATES

- Art Education, B.S. (p. 1263)
- Art, B.S. (p. 1274)
- Art, BFA (p. 1280)
- Studio Art, Certificate (p. 1289)

PEOPLE

Information about faculty, staff, and other contributors to the Department of Art can be found on the department's website. (<http://www.education.wisc.edu/art>)

ART EDUCATION, B.S.

Art education is a perfect choice for people who love making art, viewing and engaging in lively discussions about art, and working in creative environments. Teaching art provides not only a meaningful career, but a unique opportunity to help other people lead interesting, fulfilled, and creative lives.

UW–Madison's art education program provides essential preparation for a variety of careers in art education. Students work directly with children and adolescents in both school and community-based field placements in every semester of the program. They study with world-renowned art and education faculty in a range of rigorous and engaging studio, art history, curriculum and instruction, educational psychology, and educational policy studies courses, while also connecting with Madison's vibrant arts community through field trips and service learning.

Our students experience all the advantages of a Big Ten university, while receiving personalized attention within the major, especially in the Art Foundations Program. This series of interrelated studio and lecture courses is taken by art and art education majors during their first year on campus as preparation for further study in studio art and design.

Graduates of our program earn a bachelor of science degree, a career-ready Wisconsin teaching license in K–12 art education, and gain the skills, knowledge, and confidence to teach the visual arts in public and private schools, at the elementary and secondary levels, in the United States and internationally, and in community settings such as art museums, maker spaces, and senior centers.

HOW TO GET IN

PROGRAM ADMISSION OVERVIEW

The art education program at the University of Wisconsin–Madison follows admission procedures intended to result in an academically qualified student body as varied as possible in terms of academic strengths, life experiences, and professional experiences. As the population of our nation's public schools becomes increasingly multicultural, there is a growing need for teachers from diverse backgrounds. The art education faculty encourages qualified applicants from underrepresented groups to apply for admission to the art education program. In addition, the faculty wishes to broaden the field of art education; individuals representing a wide range of visual arts and design are encouraged to apply. A diverse cohort of students enriches the art education teacher certification program as well as the profession. Undergraduate art education students generally apply to the professional part of the art education degree program in their sophomore year.

ENTERING THE SCHOOL OF EDUCATION NEW AND CURRENT UW–MADISON STUDENTS

New freshmen and transfer students interested in art education are admitted directly to the School of Education with a "pre-professional" classification. This classification indicates that a student is interested in a program offered by the school, but has not applied and been admitted to the professional program. Students interested in art education receive a "pre-professional" classification of PAED.

On-campus students wishing to be admitted to the school while working on eligibility requirements and application can apply for admission to the School of Education by completing a Pre-Professional Application (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>). A minimum GPA of 2.5, based on UW–Madison coursework, is required to transfer into the school. This GPA may be modified by the Last 60 Credits rule (detailed below (p. 1264)). It is not necessary to be a "pre-professional" student before applying to a professional program. Admission as a "pre-professional" student does not guarantee admission to the professional program.

It is strongly recommended that students interested in a School of Education program meet with an academic advisor in Education Academic Services (EAS), 139 Education Building, 1000 Bascom Mall. Students may call 608-262-1651 to schedule an appointment with an advisor. Prospective art education majors should meet with the art education program coordinator, Dr. Mary Hoefferle.

PROSPECTIVE TRANSFER STUDENTS

Prospective transfer students should meet as early as possible with the art education program coordinator and with an advisor at Education Academic Services. Studio and aesthetics coursework taken at another institution may need to be evaluated by the art department advisor or a faculty member in the art department. Because students interested in art education must meet minimum eligibility requirements and apply within strict deadlines, prospective transfer students should meet with an Education Academic Services advisor as soon as possible.

Applicants not already enrolled on the UW–Madison campus must be admissible to the university to enroll in a School of Education program. Admission to UW–Madison requires a separate application and admission process. See UW–Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu>) for application information.

STUDENTS WITH A PREVIOUS DEGREE

Prospective applicants who already hold an undergraduate degree are strongly encouraged to meet with an Education Academic Services advisor in advance of their application. Consultations with advisors are available in person or via telephone; to schedule, call 608-262-1651.

Applicants who already hold an undergraduate degree are admitted to the School of Education as either an *Education Special student* or a *second degree student*, depending on their interests and academic background. Admission as an Education Special student indicates that the student has an interest in pursuing certification in a subject area studied during the initial degree; another degree is not awarded for this "certification only" coursework. Second

degree students are seeking a second, unrelated degree from the School of Education, which may, or may not, include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission. More information is available here (p. 1239).

APPLICATION AND ADMISSION

Program admission occurs once a year, effective in the fall. Selection is made the previous spring. Students who already possess a B.S., BFA, or advanced degree in visual arts and seek certification in art education follow the same application procedures. Resources limit the number of students who can be served by the UW–Madison art education teacher education program. In recent years the art education program has been able to accommodate all qualified applicants; however, if the number of qualified applicants to art education exceeds program resources, admission will become limited and competitive. If this happens, meeting or surpassing the minimum eligibility criteria will not guarantee admission.

PROGRAM ADMISSION ELIGIBILITY REQUIREMENTS

Requirements and selection criteria may be modified from one application/admission period to the next. Potential applicants should consult the School of Education's Apply to a Program (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>) page for application deadlines and detailed information regarding current eligibility requirements and selection criteria prior to submitting an application.

To be considered for admission, students must:

- complete at least 54 credits of transferable college-level coursework to include 20 credits of Studio Art, and 6 credits of the Aesthetics requirement. This coursework must be completed by the end of the spring semester of the application year.
- earn a cumulative grade point average of at least a 2.75 on a 4.0 scale, based on all transferable college coursework attempted at UW–Madison and other campuses.¹ Transcripts for all college-level coursework (excluding courses taken at UW–Madison) must accompany the program application and supporting materials.
- complete the Basic Skills Requirement. All prospective teacher education students must submit test scores to the School of Education to be eligible for professional program admission. Students may use their ACT, SAT, or GRE scores, or they may take the Praxis Core Academic Skills for Educators Test (formerly the Praxis I/PPST). These tests meet Wisconsin's basic skills test requirement for prospective teachers. For more information see the document Academic Tests for Prospective Teachers (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/student-testing-and-assessment>).
- prepare a portfolio. Applicants should include images of their artwork that best represents their skills, knowledge, and interests in art.
- submit completed program application form(s), transcripts, portfolio, and all other related application materials by the application deadline specified on the School of Education's Apply to a Program (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>) page.

¹ A comprehensive cumulative GPA of all college-level, transferrable coursework attempted on both the UW–Madison campus coursework and coursework taken at any other colleges or universities may be calculated for the exclusive purpose of

establishing an applicant's eligibility for consideration. Both the comprehensive cumulative GPA and the comprehensive cumulative GPA based on a student's last 60 credits may be calculated. See Last 60 Credits Rule (detailed below). If admitted, students must earn the minimum cumulative GPA for UW–Madison coursework established by their program and the School of Education each semester after admission.

Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) More information regarding this rule is available here (p. 1239).

PROGRAM SELECTION

All qualified applicants will be reviewed individually by the art education program coordinator and selection committee. The committee will consider numerous factors when selecting a diverse student cohort, including the following:

- Grade point average (GPA)
- Course selection and performance
- Pre-Professional Skills Test/Praxis I scores
- Life experiences (resume and written statement)
- Supporting materials
- Consideration of student's race, ethnicity, culture, geographic and economic background.

Candidates will be provisionally admitted and notified of their admission status. The offer of admission will specify a deadline for acceptance of this offer. Applicants must respond to Education Academic Services by this date; those who do not will forfeit their position. Admission is not final until Education Academic Services receives the acceptance and program eligibility is confirmed through spring semester grades.

CRIMINAL BACKGROUND INVESTIGATION

The Department of Public Instruction (DPI) is required by law to conduct a background check on each applicant for a Wisconsin educator license. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety or education of PK–12 pupils. Local school districts also will conduct criminal background checks routinely on teacher education students prior to the start of in-classroom field work. Admitted applicants to any teacher education program who have a positive background check should confer with the Academic Dean's Office (Room 139 Education, 1000 Bascom Mall) about the potential impact of this on field placements and licensure.

An individual who is deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the academic dean in Education Academic Services.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

PROGRAM STRUCTURE

The art education program is divided into five areas of study:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- The *Foundations Program* requires six interrelated studio and aesthetics courses designed to prepare first-year students for further study in studio art and design.
- *Aesthetics* coursework gives students an opportunity to study both the history of art and contemporary developments in the visual arts.
- *Major* requirements offer an in-depth study of studio art.
- *Professional education* coursework includes an examination of the schools' relationship to our society and the processes by which students grow and learn. The *professional sequence* is a three-semester sequence of art education teaching methods course work and field experiences in schools.

SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1246) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science,

and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science. Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1246) for information about course selection and approved course options.

Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs, Athletic Training, and Kinesiology; Exercise and Movement Science have unique requirements in this category.

Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science
- Laboratory Science
- Science Electives

Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

Complete Liberal Studies Electives (p. 1246) to total 40 Credits.

ART FOUNDATIONS PROGRAM

The Art Foundations Program is a series of interrelated studio and lecture courses to be taken by art and art education majors in their first year as preparation for further study in studio art and design. The program addresses the fundamentals of art through investigation of formal, technical and conceptual issues. The drawing, 2D and 3D design, digital media, and art historical lecture classes are designed to expose, broaden, and challenge students' understanding of contemporary art production.

Art foundations classes are meant to be taken concurrently and the information covered in them is interrelated. Students completing the foundations program should enroll in ART 102 Two-Dimensional Design, ART 212 Drawing Methods & Concepts, and ART 108 Foundations of

Contemporary Art for the fall semester and complete ART 104 Three-Dimensional Design, ART 107 Introduction to Digital Forms, and ART 208 Current Directions in Art in the spring.

Most freshman art majors complete their foundations courses through participation in the very popular Contemporary Art and Artists First-Year Interest Group (FIG), (<http://www.figs.wisc.edu/catalog>) which also creates a network of corresponding experiences and a peer community that will continue throughout the program and often beyond graduation. Students in FIGs enjoy studying with instructors dedicated to serving first year students, the opportunity to integrate related ideas from all three classes, and the ready-made opportunities to form support networks and lasting friendships.

Additional information about the Foundations Program (<http://art.wisc.edu/art/academics/undergraduate-degree-requirements/art-foundations-first-year-interest-group>) is available on the departmental website.

AESTHETICS REQUIREMENT

Complete four courses focusing on the history of art and contemporary developments in the visual arts.

Code	Title	Credits
ART 108	Foundations of Contemporary Art	3
ART 208	Current Directions in Art	3
ART HIST 202	History of Western Art II: From Renaissance to Contemporary	4
Select one of the following: ¹		3-4
ART HIST 201	History of Western Art I: From Pyramids to Cathedrals	
ART HIST 203	Survey of Asian Art	
ART HIST 205	Global Arts	
ART HIST/ AFROAMER 241	Introduction to African Art and Architecture	
ART HIST/ AFROAMER 242	Introduction to Afro-American Art	
ART HIST 305	History of Islamic Art and Architecture	
ART HIST 307	Early Chinese Art: From Antiquity to the Tenth Century	
ART HIST 308	Later Chinese Art: From the Tenth Century to the Present	
ART HIST 354	Cross-Cultural Arts Around the Atlantic Rim: 1800 to the Present	
ART HIST/ AMER IND 359	American Indian Art History: Contemporary Issues	
ART HIST 371	Chinese Painting	
ART HIST 372	Arts of Japan	
ART HIST 375	Later Japanese Painting and Woodblock Prints	

¹ Additional art history courses addressing arts from underrepresented cultures will be considered.

MAJOR REQUIREMENTS

Students must complete 48 credits of studio art, including the specific requirements below. At least 15 upper-level studio credits must be taken

in residence on the UW–Madison campus. Upper-level classes include Art courses numbered 214 and above, excluding Art 236, 246, and 338. *Note:* These requirements are effective beginning spring 2016 admission to art education.

Code	Title	Credits
ART 102	Two-Dimensional Design	3
ART 104	Three-Dimensional Design	3
ART 107	Introduction to Digital Forms	3
ART 212	Drawing Methods & Concepts	3
ART 222	Introduction to Painting	3-4
ART 338	Service Learning in Art	2
ART 306 or ART 336	Relief Printmaking Serigraphy	3-4
ART 244	Art Metal I	3-4
ART 224	Ceramics I	4
ART 214 or ART 334	Sculpture I Wood Working	3-4

Take additional art electives to reach the minimum of 48 credits

PROFESSIONAL EDUCATION REQUIREMENTS

Code	Title	Credits
Development (Minimum of 3 credits)		3
Select one of the following:		
ED PSYCH 331	Human Development From Childhood Through Adolescence	
ED PSYCH 320	Human Development in Infancy and Childhood	
ED PSYCH 321	Human Development in Adolescence	
Learning (Minimum of 3 credits)		3
ED PSYCH 301	How People Learn	
Foundations of the Profession (Minimum of 3 credits)		3
ED POL 300 or ED POL/ HISTORY 412	School and Society History of American Education	
Literacy, Including Reading		3
CURRIC 305	Integrating the Teaching of Reading with Other Language Arts	
Special Education		3
(This requirement is included in the professional sequence)		
CURRIC/ RP & SE 506 or CURRIC/ ART ED 570	Strategies for Inclusive Schooling Art in Exceptional Education	

¹ Will also fulfill the liberal studies requirement in U.S./European history.

ART EDUCATION PROFESSIONAL SEQUENCE

The three-semester professional sequence begins in the spring semester after admission. It is recommended that students complete ED PSYCH 301 How People Learn prior to, or during, the first semester of the sequence. Most courses are only offered once a year. An assessed performance requirement is an integral part of certification/degree requirements. Satisfactory performance in each course, as measured by the criteria contained within each course, is requisite to proceeding to successive semesters of the sequence. Successful completion of all art education courses is required to receive the B.S.–Art Education degree.

Code	Title	Credits
Semester 1		
Spring Semester after Admission		
ART ED 326	Design Education	3
ART ED/CURRIC 570 or CURRIC/ RP & SE 506	Art in Exceptional Education Strategies for Inclusive Schooling	3
Semester 2

ART ED/CURRIC 470	Practicum in Elementary School Art	3
<i>Module 2 (second 7 weeks)</i>		
ART ED/CURRIC 324	Art in Secondary Education	3
ART ED/CURRIC 493	Practicum in Secondary School Art	3
Semester 3		
Spring Semester		
ART ED/CURRIC 423	Student Teaching in Art in Elementary Schools	6
ART ED/CURRIC 424	Student Teaching in Art in Secondary Schools	6

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

Requirements are based on UW–Madison coursework.

- 2.75 minimum cumulative grade point average, first effective for students admitted into the art education program fall 2016. This may be modified by the Last 60 Credits Rule (p. 1239).
- 2.75 cumulative grade point average in all major course work.
- 2.75 cumulative grade point average in all upper-level major course work. Art courses numbered 214 and above, excluding 236, 246, and 338, are considered upper-level courses.
- 2.75 in professional education course work (excluding practicum and student teaching).
- Major Residency. Students must complete a minimum of 15 upper-level studio credits in residence on the UW–Madison campus.

- Senior Residency. Degree candidates must complete their last 30 credits in residence on the UW–Madison campus, excluding retroactive credits and credits granted by examination.
- A minimum of 120 total credits.

DEGREE AUDIT (DARS)

At UW–Madison, a DARS report is used to document a student's progress toward the completion of their degree. This degree audit identifies the requirements that have already been completed, and also those that remain unsatisfied. A DARS report can offer suggestions about appropriate courses that may be taken to meet specific requirements and can assist in the academic planning process.

Students can access DARS reports through their Student Center in *My UW–Madison*. Go to the Academics tab and find DARS on the dropdown menu.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program or major on campus. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) should request a "what if" DARS report of their professional program of interest.

DARS is not intended to replace student contact with academic advisers. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is the document of record, i.e., certifying document of degree completion, for program areas in the School of Education.

ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW–Madison's program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction. Many of these requirements are embedded within the program's requirements and require no additional attention. The endorsement of the program coordinator/faculty is also required to receive certification through UW–Madison.

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license.

Detailed information about certification requirements and applying for a license is available under Certification/Licensure (p. 1269).

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

professional component of their degree program. Departmental advisors provide more in-depth knowledge of the major and of courses offered by the department.

UNDERGRADUATE ADVISING AND ACADEMIC DEAN'S OFFICE—EDUCATION ACADEMIC SERVICES (EAS)

139 Education Building, 1000 Bascom Mall; 608-262-1651
www.education.wisc.edu/soe/academics/undergraduate-students/academic-advising (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-advising>)

Education Academic Services (EAS) is the undergraduate dean's office for students in the School of Education. Staff members interpret school regulations, policies, and program requirements; take exceptions around requirements and deadlines; advise current and prospective students; monitor students having academic difficulties; coordinate field placements; facilitate the program admissions process; and maintain the official files of students in the school.

Students should meet with an advisor during their first semester on campus (if not before) and are encouraged to meet with an advisor at least once a semester. This is particularly important during the freshman and sophomore years. Appointments may be arranged by calling or visiting the office.

EAS advisors answer questions and provide guidance to current and prospective students. They consult with and refer students to faculty members and departmental advisors. Once a student is admitted to a professional program within the School of Education, he or she will also be assigned a faculty or staff advisor. Advising then becomes a partnership, with EAS and OURR advisors continuing to help students with course selection, degree progress monitoring, academic difficulties, and interpretation of policies and procedures.

Program advisors help students select and plan a program of study in the major, negotiate issues within the department, and, in the case of certification programs, follow the students' progress through their professional courses. These divisions are flexible, and students are encouraged to consult with all advisors who can help with a situation or answer a question.

OURR: OFFICE OF UNDERGRADUATE RECRUITMENT AND RETENTION (STUDENT DIVERSITY PROGRAMS)

105 Education Building, 1000 Bascom Mall, 608-262-8427 or 608-262-1651
www.education.wisc.edu/sdp (<http://www.education.wisc.edu/sdp>)

The UW–Madison School of Education is committed to promoting equity and increasing diversity in its programs. OURR staff work collaboratively with Education Academic Services and campus and community partners to support underrepresented students interested in majors in the School of Education.

OURR staff perform outreach, recruitment, and advising on behalf of the School. OURR staff also support current students with their personal and professional growth, their transition from high school to college, financial aid, and career exploration.

OURR works to build a network of students and graduates who may strengthen, transform, and lead their communities through education, service, and other contributions. Students are invited to visit OURR staff

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Students will identify and explore important eras, developments, movements, and theories in historical and contemporary art practice.
2. Students will identify and analyze the elements and principles of design in the work of other artists and consistently and effectively employ the elements and principles in their own studio work.
3. Students will develop technical skill, a personal creative practice, and knowledge of the historical and current practices of at least four separate visual art disciplines, including 2D, 3D, 4D, and graphics areas.
4. Students will examine best practices (historical and contemporary) in art curriculum planning, instruction and assessment, apply knowledge to k-12 curriculum development, and effectively teach art to diverse populations in community and school-based settings.
5. Students will meet all School of Education Teacher Education Standards and DPI k-12 art licensure requirements (including child development and learning theories, history of American Education, and the role of art in literacy education).

ADVISING AND CAREERS

ADVISING

ART EDUCATION ADVISING

Prospective off-campus and on-campus art education students will meet with the art education program coordinator Dr. Mary Hoefflerle, 6241 Humanities Building, 455 North Park Street, hoefflerle@wisc.edu; 608-772-7016. Students considering art education should contact her as soon as possible. Pre-admission advising is conducted by the Department of Art and staff at Education Academic Services (EAS), see below.

The undergraduate art program advisors are Julie Ganser, julie.ganser@wisc.edu, and Branden Martz, branden.martz@wisc.edu, located at 6241 Humanities Building, 455 North Park Street. Appointments can be made by calling 608-262-1660.

GENERAL SCHOOL OF EDUCATION ADVISING

All undergraduate students in the School of Education are served by three offices devoted to academic and/or career advising. Each student in the School of Education is assigned at least one advisor and is encouraged to meet with the advisor on a regular basis. Students will also be assigned a faculty or staff advisor when admitted to the

at 105 Education Building—stop in, or call one of the numbers listed above to set up an appointment.

SCHOOL OF EDUCATION CAREER CENTER

L107 Education Building, 1000 Bascom Mall, 608-262-1755
<http://careercenter.education.wisc.edu/>

Need assistance with any of the following?

- Exploring career options linked to School of Education majors
- Seeking a major that incorporates individual passions, interests, and values that will help one reach specific career goals
- Researching graduate schools and preparing application materials
- Beginning a job search and learning where to start and what to do
- Seeking assistance with developing a résumé, a cover letter, or interviewing skills
- Networking and connecting with potential employers

The Career Center provides resources and individual consultations to assist students in reaching their career goals. A plethora of resources can be found on the Career Center website (<http://careercenter.education.wisc.edu/>):

- Explore career possibilities for specific majors in *Investigate Career Options*. This section of the website provides tools for clarifying a student's personal criteria for success, linking specific career options to majors, and identifying steps for career/major selection. It includes strategies for making the most of a student's academic and student experience.
- Confirm major and career decisions. Gain hands-on experience in the career field of study. Assess the perceptions of selected career and major options for accuracy. Develop professional and soft skills. The *Test Drive and Confirm Career Choice* section provides strategies for acquiring real-world experience.
- Preparation is critical for entering one's next career phase. Learn about graduate school requirements and the application process. Develop promotional materials for employers and/or graduate schools and obtain feedback and suggestions for enhancing them. Acquire materials that support one's applications. The *Prepare and Connect* section provides offers additional details.
- *Implement* helps students plan for the future. Attend recruiting events. Apply for graduate school or for job opportunities. Practice interviewing skills. Interview. Negotiate job and graduate school offers.

Personalized career assistance is available through individual appointments with consultants in the Career Center. To schedule an appointment visit, <http://bit.ly/CCAppt>.

Informational workshops and career-related events are conducted each semester. The schedule of these events can be found on the center's website (<http://careercenter.education.wisc.edu/workshops>).

The Career Center coordinates teacher recruitment fairs each fall and spring semester and collaborates with career centers across campus to provide campus-wide career fairs at the beginning of each semester.

PEOPLE

Information about faculty, staff, and other contributors to the Department of Art can be found on the department's website. (<http://www.education.wisc.edu/art>)

CERTIFICATION/LICENSURE

ADDITIONAL CERTIFICATION REQUIREMENTS

Students must complete all requirements and also obtain the endorsement of the program faculty to receive certification through UW–Madison. These requirements include those required by UW–Madison, the Department of Public Instruction, and those mandated by state statutes. While most of these requirements are embedded in course content, some (e.g., the Basic Skills Requirement, the Wisconsin Foundations of Reading Test) are not related to course enrollment.

Students pursuing certification must complete the following requirements. See the school's website (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure>) for additional information/requirements.

Certification requirements should be monitored carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

Disclosure Statement and Criminal Background Investigation Disclosure Statement

Applicants to School of Education programs that involve a practicum, internship, or other field placement must complete a disclosure statement indicating (1) whether they have been admitted to, then withdrawn from, asked to withdraw from, or been dropped from a student teaching, clinical experience, or other intern/practicum program, and (2) if they have ever been placed on probation or disciplined by any college or university for academic dishonesty.

Criminal Background Investigation (CBI)

The Department of Public Instruction (DPI) is required by law to conduct a background check on each applicant for a Wisconsin educator license. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety, or education of PK–12 pupils. Local school districts also will conduct criminal background checks routinely on teacher education students prior to the start of in-classroom field work.

Students should be aware that criminal background checks may be initiated by other agencies or organizations when they are seeking employment or a professional license. School administrators have the authority to determine the appropriateness of a student placement and may choose not to permit a placement based on a student's background check results.

An individual who is deemed ineligible to participate in field or clinical experiences based on the results of their background

check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the academic dean in Education Academic Services.

Environmental Education

This licensing requirement is mandatory for all Elementary Education, Secondary Science, Secondary Social Studies, and Agri-Science Education certification students. Students with previous degrees in their subjects must also monitor and complete this requirement for certification and licensure.

Select one Environmental Studies (http://guide.wisc.edu/courses/envir_st) course or from the following list. If appropriate, this course may also be applied toward the liberal studies requirements.

Student Testing and Assessment

Students in teacher education programs are required to complete a number of tests and a significant performance assessment prior to certification and eventual licensure. Detailed information related to these requirements, along with fee and registration information can be found on the School of Education website under Academic Tests for Prospective Teachers (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/student-testing-and-assessment>). A brief description of these tests and assessments is provided below.

Basic Skills Requirement

All prospective teacher education students must submit test scores to the School of Education to be eligible for professional program admission. Students may use their ACT, SAT, or GRE scores, or they may take the Praxis Core Academic Skills for Educators Test (formerly the Praxis I/PPST). These tests meet Wisconsin's basic skills test requirement for prospective teachers. All sections of the chosen basic skills test must be taken by program applicants to be eligible for program admission.

Content Test

Students completing professional education programs must take and pass an approved examination in their content area prior to their final student teaching semester. Most students complete the appropriate Praxis II: Subject Assessments/Specialty Area Tests through the Educational Testing Service (ETS). World Language Education students must meet an ACTFL Oral Proficiency Interview requirement and must take and pass the ACTFL Writing Proficiency Test (WPT). No candidates may be waived from taking the required test(s) for their license area.

Wisconsin Foundations of Reading Test

As of January 31, 2014, individuals seeking an initial Wisconsin license to teach in kindergarten through grade 5 or in special education, an initial Wisconsin license as a reading teacher, or an initial Wisconsin license as a reading specialist, must take and pass the Wisconsin Foundations Reading Foundations Test. Undergraduate programs impacted by this requirement are Elementary Education and Special Education.

This test is for Wisconsin licensing purposes **only**. Students who choose not to pursue Wisconsin educator licensing need not take and pass this test. This test is in addition to all other required tests and assessments for certification and licensure. For instance, students must still take and pass the Praxis II content exam to be eligible to student teach.

Teacher Performance Assessment (edTPA)

The edTPA is a subject area-specific, performance-based assessment for pre-service teacher candidates, which is centered on student learning. Evidence of candidate teaching proficiency in the areas of planning, engagement and instruction, and assessment is drawn from a subject-specific learning segment, 3–5 lessons from a unit of instruction. Assessment artifacts include video clips of instruction, lesson plans, student work samples, analysis of student learning, and reflective commentaries. These artifacts will be taken together and scored by trained evaluators using the standardized set of edTPA rubrics. *After August 31, 2015, initial license candidates*

(i.e., students completing certification programs) must complete the edTPA as part of their student teaching and after August 31, 2016, initial license candidates will be required to pass the edTPA before they can be recommended for licensure.

Field Experiences

School-based field experiences are a critical part of students' professional preparation for teaching. In fact, the student teaching experience is frequently cited in teacher education literature as the single component of a teacher education program with the highest impact on future teaching behaviors of teacher candidates. Under Wisconsin State regulations, students seeking teaching certification from UW–Madison are required to complete at least one pre-student teaching practicum and at least one full semester of student teaching. Most programs at UW–Madison require students to complete additional field experiences.

Pre-Student Teaching Practicum

The pre-student teaching practicum gives students firsthand knowledge of the classroom environment and the teacher's role. For many students, the practicum is the initial encounter with the real world of teaching. Practicum students do not assume the degree of classroom responsibility they do during student teaching. Under the supervision of an experienced teacher, practicum students observe classroom activities, assist the teacher with day-to-day classroom management tasks, interact one-to-one with students, and instruct small groups. The cooperating teacher and university supervisor use the practicum to assess the student's readiness for the student teaching experience. For this reason, active student engagement in the practicum experience is necessary and expected.

Student Teaching Experience

Student teaching, the culminating field experience, is a full-time, school district semester assignment that places a university student under the guidance of an experienced, qualified cooperating teacher. After an orientation period, the student teacher gradually assumes more responsibility for planning, instruction, and overall classroom management. Student teachers follow the daily schedule of the cooperating teacher and the building policies of the school, and function as regular staff members in arrival and departure times and attendance at school events. Daily attendance at school, barring emergencies, is required.

The student teaching experience follows the calendar of the local school district. A fall semester assignment will typically begin the latter part of August and end the latter part of January. A spring semester assignment will begin the latter part of January and end mid-June. Holiday breaks follow the school district calendar. Carrying other formal course work during the student teaching semester is strongly discouraged.

Find detailed policies and regulations regarding student teaching in the Teacher Education Field Experience Policies (November, 2014) (http://www.education.wisc.edu/docs/WebDispenser/soe-documents/fe_policies.pdf?sfvrsn=4). Students and staff are responsible for knowing and complying with the Field Experience policies. Many professional programs have their own separate handbooks and specific

policies; students are also responsible for those policies and procedures.

General Eligibility Requirements for Student Teaching

Minimum eligibility requirements apply to all students. Several subject areas require a specific grade point average unique to a particular program, or additional course work as a prerequisite to student teaching. Students are urged to check with their Education Academic Services and faculty advisors to be certain that all eligibility requirements have been met. Students should check these items well in advance to preclude last-minute schedule conflicts in preparation for the student teaching semester. Minimum requirements are:

- Admission to a School of Education certification program.
- Completion of all course prerequisites, such as the teaching methods course(s) and pre-student teaching practica. Students should check for other possible course requirements in their specific area of study.
- Passing a content examination in the certification area(s).
- For world languages, an immersion experience and the appropriate score on the oral and written proficiency examinations.

Student Teaching Application Procedures

Information related to student teaching (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/field-work-student-teaching>) and the application process is available on the School of Education website. Please be aware that some program areas require students to file an application far in advance of the student teaching semester.

Alternative Placement Options for Student Teaching

Alternative placement options include placements with the Institute for Urban Education, and teacher internships under the auspices of the Wisconsin Improvement Program:

- The UW System Institute for Urban Education (<https://uwm.edu/education/community/partnerships/institute-urban-edu>) helps pre-service teachers pursue their desire to become urban educators and to provide professional development opportunities for currently practicing teachers. Not all teacher education programs participate in the institute. Students should consult with their program coordinator for more information.
- The teacher internship is a licensed, full-semester assignment that replaces the student teaching experience. Interns are under contract with a school district and paid a modest salary. Internships are rarely available; students are notified by the program coordinator when they are offered by a district and are available to our students.

Special Placements

The School of Education is committed to placing its students in classrooms with teachers we know, in schools led by principals we know. Thus, student teaching placements are made within the University of Wisconsin–Madison service

area. In general the service area is 50 miles from Madison, but individual programs may (and do) reduce the size of their service area. Occasionally, students with extenuating circumstances are allowed special placements beyond this area. "Extenuating circumstances" have included spousal/partner relocation, family emergency, or a highly specialized placement. All special placements must be approved by the student's program coordinator and Associate Dean Jeffrey Hamm. Students permitted special placements are usually liable for the cost of supervision (at least \$500). Special placements are not permitted due to financial need or to enhance employment opportunities.

Withdrawing From/Failing Field Experience Assignments

Withdrawing from a field experience has serious implications for the student's progress in the program. Students who withdraw or receive an unsatisfactory grade (including a "D") from a field experience may not repeat such experiences without approval from the program coordinator and Associate Dean Jeffrey Hamm. Students withdrawing from or receiving an unsatisfactory grade in field experiences in one major or program may not enroll in another major or program without written permission from the program coordinator and after consultation with Associate Dean Hamm.

Permission to repeat field experiences is not automatically granted. A confirmed field placement is considered an informal contractual agreement between the university and the school in which the student is located. Under this agreement, university faculty, cooperating teachers, and students assume certain responsibilities and obligations to one another. A student's withdrawal from an assignment is considered to be an exception to the agreement and should occur only under the most unusual circumstances. Because of the consequences that withdrawal from a confirmed assignment may have on a student's future progress in the teaching certification program, a student who contemplates such action is strongly urged to consult with the program coordinator and Associate Dean Hamm to fully understand the implications of such action and the options available.

Minority Group Relations and Conflict Resolution

Minority Group Relations

Wisconsin State teacher education regulations require students to complete a section titled *Minority Group Relations*. The rules identify Minority Group Relations as

- The history, culture, and tribal sovereignty of American Indian tribes and bands located in Wisconsin.
- The history, culture and contributions of women and various racial, cultural, language and economic groups in the United States.
- The philosophical and psychological bases of attitude development and change.
- The psychological and social implications of discrimination, especially racism and sexism in the American society.
- Evaluating and assessing the forces of discrimination, especially racism and sexism on faculty, students, curriculum, instruction, and assessment in the school program.

- Minority group relations through direct involvement with various racial, cultural, language and economic groups in the United States.

UW–Madison teacher education programs address these areas through course work and experiences in each professional education program. Students who successfully complete their professional program will have satisfied each of the areas of Minority Group Relations. For more detailed information about how required courses address Minority Group Relations for each program area, see the School of Education's PI 34 site (<http://www.education.wisc.edu/pi34>). Choose Certification Programs, select the program of interest, and click on Rules & Statutes.

Conflict Resolution Requirement

Wisconsin State teacher education regulations require all individuals pursuing teacher certification to have formal training in conflict resolution. This includes

- Resolving conflicts between pupils and between pupils and school staff.
- Assisting pupils in learning methods of resolving conflicts between pupils and between pupils and school staff, including training in the use of peer mediation to resolve conflicts between pupils.
- Dealing with crises, including violent, disruptive, potentially violent or potentially disruptive situations that may arise in school or activities supervised by school staff as a result of conflicts between pupils or between pupils and other persons.

All teacher certification programs include conflict resolution training in their required course work. For more detailed information about how conflict resolution is addressed in each program area, see the School of Education's PI 34 site (<http://www.education.wisc.edu/pi34>). Choose Certification Programs, select the program of interest, and click on Rules & Statutes.

Phonics

As of July 1, 1998, the State of Wisconsin requires that all persons seeking initial and renewal licenses to teach reading or language arts in grades Pre-Kindergarten to Grade 6 (PK–6) must have successfully completed instruction in teaching reading and language arts using appropriate instructional methods, including phonics. "Phonics" means a method of teaching beginners to read and pronounce words by learning the phonetic value of letters, letter groups and syllables.

The Phonics requirement applies to students completing Elementary Education and Special Education certification programs. UW–Madison students fulfill this requirement through the successful completion of courses that are already required, so no additional course work is needed to meet this statutory requirement.

Cooperatives

This licensing requirement is mandatory for secondary Social Studies (and Agri-Science) Education certification. Students with previous degrees in their subjects must also monitor and complete this requirement for certification and licensure.

Students typically complete the cooperatives requirement after being admitted to the Secondary Social Studies program and should consult with the program coordinator, Professor Alan Lockwood (lockwood@education.wisc.edu), regarding its completion.

Portfolios

Students in certification programs are required to demonstrate their knowledge and professional development through the creation and maintenance of a portfolio. A portfolio has several purposes:

- To serve as a tool for teacher learning, growth, and development. Portfolios are intended to support students' efforts to become thoughtful and effective teachers.
- To provide documentation and/or evidence that students have satisfactorily met all teacher education standards required for initial teacher certification in Wisconsin. The portfolio helps to demonstrate students' achievement of these knowledge and performance standards.
- To provide a repository for student artifacts.
- To enhance students' technical literacy through the portfolio creation.
- To support the job preparation and interview process.

Portfolios consist of a variety of artifacts which students have chosen from their educational experiences to best represent their growth and development as teachers. Artifacts can include lesson plans, classroom observations, analyses of student learning, student work samples, photographs, video clips of instruction and reflective commentaries.

The student portfolio provides a foundation for the Teacher Performance Assessment (edTPA), a standardized evaluation required by Wisconsin for teacher licensure. The edTPA process also requires students to submit artifacts. These artifacts are scored by trained evaluators using a standardized set of edTPA rubrics.

For more information about the use of the portfolio in a specific teacher education program, please contact the program coordinator.

Teacher Standards

UW–Madison teacher education students must meet all state licensing requirements for initial teaching certification in Wisconsin. These requirements, sometimes referred to as administrative rules "PI 34," mandate that individuals demonstrate proficiency on state-approved teaching standards. Each teacher education institution in Wisconsin has adopted a set of teacher education standards that meet state guidelines. These standards must be met by all students completing a licensing program. The current standards of the University of Wisconsin–Madison School of Education can be found on the school's website (<http://careers.education.wisc.edu/pi34/docs/Standards.pdf>).

APPLYING FOR A TEACHING LICENSE

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Students intending to complete a teacher certification program should monitor program requirements carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

Licensing Levels

The following licensing options are offered at UW–Madison.

- The Elementary Education program currently offers two licensing levels: *Early Childhood* and also *Middle Childhood through Early Adolescence*.
- The Special Education program certifies students at both the *Middle Childhood through Early Adolescence* level and also at the *Early Adolescence through Adolescence* level. The Special Education/Elementary Education dual major option certifies students only at the *Middle Childhood through Early Adolescence* level.
- Secondary Education programs certify students to teach their subject area at the *Early Adolescence through Adolescence* level.
- Students completing Language Education programs will be licensed at the *Early Childhood through Adolescence* level.
- Students in special fields such as Art, Communication Sciences and Disorders, Music, and Physical Education will be licensed at the *Early Childhood through Adolescence* level.

Wisconsin State Licensing

The State of Wisconsin issues an initial teaching license to certified teachers. The current fee is \$125. An online license application is available through the Department of Public Instruction (<http://dpi.wi.gov/tepd/elo>). A Criminal Background Investigation (CBI) will also be conducted by DPI. Information about fingerprint submission, when necessary, is available through the Department of Public Instruction (<http://dpi.wi.gov/tepd/licensing/fingerprint/electronic-submission>).

Before applying for a license, DPI requires the electronic submission of "Endorsed Candidate for Licensure" (ECL) data by the certifying officer of the institution where the teacher preparation was completed. For UW–Madison teacher certification students, the endorsement will come from the School of Education, 139 Education Building, 1000 Bascom Mall. Once this information has been submitted to DPI, students are notified by email that they may begin the application online.

Before endorsing a student, UW–Madison requires that (1) all certification requirements are met; (2) student teaching (following the school district calendar) is completed; (3) final grades are posted and reviewed; (4) the degree is "posted" by the registrar's office (four to five weeks after graduation); and (5) a recommendation for certification is received from the program faculty. The Wisconsin Department of Public Instruction may require an additional 6 to 12 weeks for license processing. See Educator Licensing (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/educator-licensing>) for additional information about the licensing process.

Licensing Outside of Wisconsin

To apply for a license in a state other than Wisconsin, first check out the application requirements of that state. The University of Kentucky has a website that provides links (<http://2b.education.uky.edu/certification-requirements-by-state>) to teacher licensing agencies in all 50 states, the District of Columbia, and Puerto Rico.

Many states have a verification form that needs to be signed by a UW–Madison certification officer. This form verifies that a state-approved licensing program has been completed. These forms should be sent to Education Academic Services at 139 Education Building, 1000 Bascom Mall, or by email (mlpatton@wisc.edu) to be completed. If the form requests information about practicum and student teaching assignments (names of schools, grade levels, dates, etc.), this information must be completed before sending the form to EAS.

RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1259) page.

ART, B.S.

The Department of Art's three degree programs provide students with the critical and artistic skills needed to excel in contemporary, multidisciplinary art and design practices. Degree programs are highly ranked at both the national and the international level, attracting talented students with excellent academic credentials and a passion for art and design.

UW–Madison art graduates are experts in creative problem solving, visual communication, teamwork and collaboration, and project management. These acquired skills and experiences can lead to fascinating and rewarding careers in animation, ceramics, glassblowing, metal fabrication, graphic and multi-media design, illustration, videography, photography, teaching and, of course, as a gallery artist.

Our graduates also work as iPhone and iPad app designers, medical imagists, technical assistants for major film companies, book designers, costume and float designers, jewelry fabricators and more (<https://art.wisc.edu/undergraduate/undergraduate-degrees>). (<https://art.wisc.edu/undergraduate/undergraduate-degrees>) The Department of Art believes that hardworking students who learn to harness and nurture their creative energies today will be the people influencing progress tomorrow.

The art curriculum fosters positive collaboration and innovative art production while encouraging diverse points-of-view. Students develop unique, creative voices while enjoying the close-knit atmosphere of a department that prides itself on having a very low teacher-to-student ratio, with an average class size of 10–12 students.

Degree programs feature a rigorous foundation program, a set of six courses that students often complete by participating in the popular *Contemporary Art & Artists First Year Interest Group (FIG)*, before branching out into one or more specialized areas (<https://art.wisc.edu/media-disciplines>) such as ceramics, drawing, glass and neon, graphic design, papermaking, performance, photography, etc.

The art department has a remarkable history. UW–Madison was the first university to create a glass-blowing laboratory for art students. The printmaking programs are consistently ranked first in the country and the art metals program is currently ranked third. A large number of undergraduates go on to study in some of the most prestigious MFA programs in the country, and to exhibit their art in regional, national, and also international venues. The school's large faculty of world-class artists is committed to the development of their undergraduate students.

The new Art Lofts Building is the home of state-of-the-art ceramics, glass, papermaking and bronze foundry facilities and a large art performance space. The Humanities Building houses a student gallery and printmaking, painting, drawing, design, comics, photography, multi-media/digital, video/performance, metals, wood, and sculpture facilities, as well as art education classrooms.

The department offers three degree programs: the Bachelor of Science in Art (p. 1274), the Bachelor of Fine Arts (p. 1280), or the Bachelor of Science in Art Education (p. 1263). The bachelor of fine arts (BFA) degree program in art differs from the B.S.–Art degree by requiring a larger number of studio and aesthetic courses. This degree program is often selected by students wishing to develop a refined visual art portfolio in preparation for a career as a professional artist and/or for graduate study. The bachelor of science in art education degree program certifies students to teach in both elementary and secondary schools.

HOW TO GET IN

PROGRAM ADMISSION OVERVIEW

The Art–B.S. degree program currently admits on-campus students to begin in the fall, spring, and summer. Requirements and selection criteria may be modified from one application/admission period to the next. Potential applicants should consult the School of Education's Apply to a Program (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>) page for updates to eligibility requirements prior to submitting an application.

ENTERING THE SCHOOL OF EDUCATION

PROSPECTIVE UW–MADISON APPLICANTS

Prospective applicants to UW–Madison are strongly encouraged to submit a portfolio to the Department of Art for review. Though a portfolio is not required, it does provide the art department an opportunity to make a recommendation on the applicant's behalf to UW–Madison's Office of Admissions and Recruitment. The Office of Admissions and Recruitment makes final determinations regarding the admission status of all applicants. Additional information, including submission guidelines, is available on the How to Apply (<https://art.wisc.edu/undergraduate/undergraduate-application>) page of the art department's website.

NEW AND CURRENT UW–MADISON STUDENTS

New freshmen and off-campus transfers are admitted directly to the Art–B.S. degree program. All other on-campus students interested in becoming Art students must follow the application procedures outlined below.

PROSPECTIVE TRANSFER STUDENTS

Applicants not already enrolled on the UW–Madison campus must be admissible to the university to enroll in a School

of Education program. Admission to UW–Madison requires a separate application and admission process. See UW–Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu>) for application information. BFA candidates cannot transfer directly into the Art–BFA degree program; instead, they will be admitted to campus as if pursuing the Art–B.S. degree program (ART classification) and can apply for the BFA program once enrolled on campus. Transfer students are strongly encouraged to meet with the art department advisor prior to coming to campus; call 608-262-1660 to schedule an appointment. Prospective transfer students are strongly advised to meet with an Education Academic Services advisor in advance of their application; to schedule, call 608-262-1651.

STUDENTS WITH A PREVIOUS DEGREE

Prospective applicants who already hold an undergraduate degree are strongly encouraged to meet with an Education Academic Services advisor in advance of their application. Consultations with advisors are available in person or via telephone; to schedule, call 608-262-1651.

Applicants who already hold an undergraduate degree are admitted to the School of Education as either an *Education Special student* or a *second degree student*, depending on their interests and academic background. Admission as an Education Special student indicates that the student has an interest in pursuing certification in a subject area studied during the initial degree; another degree is not awarded for this "certification only" coursework. Second degree students are seeking a second, unrelated degree from the School of Education, which may, or may not, include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission. More information is available here (p. 1239).

APPLICATION AND ADMISSION

On-campus students interested in becoming art students must first apply to the Art–B.S. degree program. These students should complete and submit the application, as well as transcripts from all other colleges or universities attended, to Education Academic Services, Room 139 Education Building, 1000 Bascom Mall, at any time during the academic year. Applications cannot be processed without a complete academic record. (A transfer credit evaluation cannot be accepted in place of a transcript.) The program application must be signed by the undergraduate advisor in the Department of Art; call 608-262-1660 to schedule an appointment.

CRITERIA FOR ADMISSION

- Cumulative grade point average of at least a 2.5 based on UW–Madison campus coursework, as modified by the Last 60 Credits Rule (detailed below).
- Filing of all required paperwork, including professional program application (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>) and transcripts. Application must be signed by the art department advisor.

Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) For more information on this rule, see this link (p. 1239).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

PROGRAM STRUCTURE

The bachelor of science (B.S.) degree program in art has five components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- The *Foundations Program* requires six interrelated studio and aesthetics courses designed to prepare first-year students for further study in studio art and design.
- *Aesthetics* coursework gives students an opportunity to study both the history of art and contemporary developments in the visual arts.
- *Major* requirements permit in-depth studies of studio art. After taking courses in the Foundations area, students complete coursework in each of the four studio areas: 2D, 3D, 4D, and Graphics. B.S.–Art

majors are required to reach an advanced level in at least one studio discipline.

- *Elective* credits to pursue individual areas of interest, such as a second major or additional studio credits. Many B.S.–Art students complete an additional major from the College of Letters & Science. Some use this major to complement their art preparation (e.g., focusing on written communication for an eventual career in advertising), or a subject that complements their interest in art. Students interested in medical illustration, for example, may wish to take courses in the biological sciences. Others select majors that reflect interests completely unrelated to art.

SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1246) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science. Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1246) for information about course selection and approved course options.

Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs, Athletic Training, and Kinesiology; Exercise and Movement Science have unique requirements in this category.

Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science
- Laboratory Science
- Science Electives

Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the

Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

Complete Liberal Studies Electives (p. 1246) to total 40 Credits.

ART FOUNDATIONS PROGRAM

The Art Foundations Program is a series of interrelated studio and lecture courses to be taken by art and art education majors in their first year as preparation for further study in studio art and design. The program addresses the fundamentals of art through investigation of formal, technical and conceptual issues. The drawing, 2D and 3D design, digital media, and art historical lecture classes are designed to expose, broaden, and challenge students' understanding of contemporary art production.

Art foundations classes are meant to be taken concurrently and the information covered in them is interrelated. Students completing the Foundations Program should enroll in ART 102 Two-Dimensional Design, ART 212 Drawing Methods & Concepts, and ART 108 Foundations of Contemporary Art for the fall semester and complete ART 104 Three-Dimensional Design, ART 107 Introduction to Digital Forms, and ART 208 Current Directions in Art in the spring.

Most freshman art majors complete their foundations courses through participation in the very popular Contemporary Art and Artists First-Year Interest Group (FIG), (<http://www.figs.wisc.edu/catalog>) which also creates a network of corresponding experiences and a peer community that will continue throughout the program and often beyond graduation. Students in FIGs enjoy studying with instructors dedicated to serving first year students, the opportunity to integrate related ideas from all three classes, and the ready-made opportunities to form support networks and lasting friendships.

Additional information about the Foundations Program (<https://art.wisc.edu/media-disciplines/foundations>) is available on the departmental website.

AESTHETICS REQUIREMENTS

Code	Title	Credits
ART 108	Foundations of Contemporary Art (component of the Foundations Program)	3
ART 208	Current Directions in Art (component of the Foundations Program)	3
Select two additional courses from the following:		8
ART HIST 201	History of Western Art I: From Pyramids to Cathedrals	
ART HIST 202	History of Western Art II: From Renaissance to Contemporary	
ART HIST 205	Global Arts	
ART 438	Cultural Context of Graphic Design and Typography ¹	

¹ Only Graphic Design students may count ART 438 toward either the aesthetics or studio requirements.

MAJOR REQUIREMENTS

The requirements listed here are effective for students admitted to the program effective summer 2016. Students admitted prior to this time can find their major requirements listed in previous editions of the *Undergraduate Catalog* and on their DARS reports.

Complete a minimum of 45 studio credits, including the specific coursework below. No more than 58 studio credits will be counted toward the minimum 120 credits required for the B.S. degree. Thus, if a student wishes to graduate with the minimum of 120 credits, 62 of these credits must be "non-studio" coursework.

Major residency requirement—Students completing the B.S. degree must complete at least 24 credits of major studio coursework in residence on the UW–Madison campus.

Art and BFA degree students have priority access to studio courses.

Note: Some courses are offered for 3 or 4 credits; it is preferred that the course be taken for 4 credits.

REQUIRED STUDIO FOUNDATIONS COURSES

Complete the following:

Code	Title	Credits
ART 102	Two-Dimensional Design	3
ART 104	Three-Dimensional Design	3
ART 107	Introduction to Digital Forms	3
ART 212	Drawing Methods & Concepts	3

REQUIRED STUDIO BREADTH COURSES

Select one course in each of the 2D, 3D, 4D, and Graphics areas. Students will also take ART 508 Colloquium in Art at least once and complete a 500-level or 600-level art studio course in at least one discipline.

2D Studio

Select one of the following:

Code	Title	Credits
ART 222	Introduction to Painting	3-4
ART 232	Life Drawing I	4
ART 242	Watercolor I	3-4
ART 302	Color	4
ART 312	Intermediate Drawing I	3-4

3D Studio

Select one of the following:

Code	Title	Credits
ART 214	Sculpture I	4
ART 224	Ceramics I	4
ART 244	Art Metal I	3-4
ART 334	Wood Working	3-4
ART 343	Metal Fabrication and Welding in Sculpture	3-4
ART 354	Glassworking	4

4D Studio

Select one of the following:

Code	Title	Credits
ART 309	Digital Art and Code	4
ART 318	Introduction to Video, Performance & Installation Art	4
ART 338	Service Learning in Art	2
ART 409	Digital Fabrication Studio	4
ART 428	Digital Imaging Studio	4
ART 429	3D Digital Studio I	4
ART 470	Special Topics in 4D Art	3-4
ART 521	Installations and Environments	4
ART 531	Screen Performance	3-4

Graphics

Select one of the following:

Code	Title	Credits
ART 306	Relief Printmaking	3-4
ART 316	Lithography	4
ART 326	Etching	4
ART 336	Serigraphy	3-4
ART 346	Basic Graphic Design	4
ART 348	Introduction to Digital Printmaking	4
ART 376	Photography	3-4
ART 446	Artists' Books	4

Art Colloquium

Complete the following:

Code	Title	Credits
ART 508	Colloquium in Art (Students are encouraged to enroll in this visiting artist lecture series multiple times)	1

Advanced Studio Requirement

Complete a 500-level or 600-level art studio course in at least one discipline. ART 508 Colloquium in Art, ART 608 Interdisciplinary Critique in the Visual Arts, and ART 699 Independent Study will **not** fulfill this requirement.

ELECTIVE STUDIO COURSES

Select elective studio courses (<http://guide.wisc.edu/courses/art>) to reach the minimum of 45 credits.

AREAS OF CONCENTRATION

Although a concentration is not required, students may wish to select a sequence of related courses to develop an area of interest. Concentrations in graphic design, multi-media, 2D studio, 3D studio, and printmaking are just some of the concentrations (<https://art.wisc.edu/media-disciplines>) listed on the Art department's website.

ELECTIVE COURSEWORK

B.S.—Art students must complete additional coursework to reach the minimum 120 credits required for the degree. These students must complete a minimum of 62 non-studio credits. Another way of describing this requirement is that only 13 additional studio credits beyond the required 45 credits can count toward the 120 credits. Students interested in completing more than 58 total studio credits may wish to consider the BFA degree program, which requires at least 72 studio credits.

Completing an additional major. Students choosing the B.S.–Art option often also choose to complete an additional major in the College of Letters & Science. Review Academic Policies and Procedures (p. 1239) to find detailed information about declaring an additional L&S major while a student in the School of Education.

Completing two degree programs. Students also occasionally choose a second degree in another campus school or college. For instance, students may choose an Art degree program as well as a science degree program in the College of Agricultural and Life Sciences. See Academic Policies and Procedures (p. 1239) for more detailed information about the requirements and the approvals necessary to be permitted to complete dual degrees. **Important note:** Some campus schools/colleges do not permit dual degrees; at the present time this includes the College of Letters & Science and the College of Engineering. These policies do not permit students to complete, for example, an Art degree program and a Journalism degree program.

Students interested in additional majors or dual degrees should consult carefully with an Education Academic Services advisor. Students may be referred to Associate Dean Jeffrey Hamm for additional consultation and approvals.

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

Requirements are based on UW–Madison coursework.

- 2.5 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule.
- Cumulative major grade point average: 2.5 cumulative grade point average in all major studio coursework.
- Upper-level major coursework: 2.5 cumulative grade point average in all upper-level major coursework (Art courses numbered 214 and above, excluding Art 236, 246, and 338).
- Major Residency: Must complete at least 24 credits of major coursework in residence on the UW–Madison campus.
- Senior Residency: Degree candidates must complete their last 30 credits in residence on the UW–Madison campus, excluding retroactive credits and credits granted by examination.
- Total Credits: A minimum of 120 credits to include at least 62 non-studio credits are required for graduation in the Art–B.S. degree program.

DEGREE AUDIT (DARS)

At UW–Madison, a DARS report is used to document a student's progress toward the completion of their degree. This degree audit identifies the requirements that have already been completed, and also those that remain unsatisfied. A DARS report can offer suggestions about appropriate courses that may be taken to meet specific requirements and can assist in the academic planning process.

Students can access DARS reports through their Student Center in *My UW–Madison*. Go to the Academics tab and find DARS on the dropdown menu.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program or major on campus. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification

such as Pre-Elementary (PRE) should request a "what if" DARS report of their professional program of interest.

DARS is not intended to replace student contact with academic advisers. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is the document of record, i.e., certifying document of degree completion, for program areas in the School of Education.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. To expose, broaden, and challenge students' understanding of past and present art production and provide knowledge of historical, thematic, critical and theoretical issues.
2. To contextualize studio assignments and expand their verbal and visual vocabulary, supporting the development of critical thinking and writing skills.
3. To learn the fundamental elements of art through investigation of formal, technical and conceptual issues and to increase skills in researching and creative problem solving.
4. To introduce students in the Bachelor of Science in Art and Bachelor of Fine Arts Degree Programs to art-making in four areas of practice, including two-dimensional, three-dimensional, graphic art, and interactive art. To broaden student understanding of the concepts and practices distinct to each area of discipline.
5. To facilitate a peer community among a like-minded and diverse cohort of students.
6. To facilitate advanced level competencies in at least one discipline for BS-Art majors and at least two disciplines for BFA majors.
7. To develop a skill set through professional practice experience in the context of an undergraduate art curriculum.

ADVISING AND CAREERS

ADVISING

ART DEPARTMENT ADVISING

Prospective off-campus and on-campus B.S.–Art and BFA–Art majors will meet with the undergraduate art program advisors, Julie Ganser, julie.ganser@wisc.edu, and Branden Martz, branden.martz@wisc.edu, (branden.martz@wisc.edu) located at 6241 Humanities Building, 455 North Park Street. Appointments can be made by calling 608-262-1660. Students are also strongly encouraged to confer with an Education Academic Services advisor on a regular basis, see below.

GENERAL SCHOOL OF EDUCATION ADVISING

All undergraduate students in the School of Education are served by three offices devoted to academic and/or career advising. Each student in the School of Education is assigned at least one advisor and is encouraged to meet with the advisor on a regular basis. Students will also be assigned a faculty or staff advisor when admitted to the professional component of their degree program. Departmental advisors provide more in-depth knowledge of the major and of courses offered by the department.

UNDERGRADUATE ADVISING AND ACADEMIC DEAN'S OFFICE—EDUCATION ACADEMIC SERVICES (EAS)

139 Education Building, 1000 Bascom Mall; 608-262-1651
www.education.wisc.edu/soe/academics/undergraduate-students/academic-advising (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-advising>)

Education Academic Services (EAS) is the undergraduate dean's office for students in the School of Education. Staff members interpret school regulations, policies, and program requirements; take exceptions around requirements and deadlines; advise current and prospective students; monitor students having academic difficulties; coordinate field placements; facilitate the program admissions process; and maintain the official files of students in the school.

Students should meet with an advisor during their first semester on campus (if not before) and are encouraged to meet with an advisor at least once a semester. This is particularly important during the freshman and sophomore years. Appointments may be arranged by calling or visiting the office.

EAS advisors answer questions and provide guidance to current and prospective students. They consult with and refer students to faculty members and departmental advisors. Once a student is admitted to a professional program within the School of Education, he or she will also be assigned a faculty or staff advisor. Advising then becomes a partnership, with EAS and OURR advisors continuing to help students with course selection, degree progress monitoring, academic difficulties, and interpretation of policies and procedures.

Program advisors help students select and plan a program of study in the major, negotiate issues within the department, and, in the case of certification programs, follow the students' progress through their professional courses. These divisions are flexible, and students are encouraged to consult with all advisors who can help with a situation or answer a question.

OURR: OFFICE OF UNDERGRADUATE RECRUITMENT AND RETENTION (STUDENT DIVERSITY PROGRAMS)

105 Education Building, 1000 Bascom Mall, 608-262-8427 or 608-262-1651

www.education.wisc.edu/sdp (<http://www.education.wisc.edu/sdp>)

The UW–Madison School of Education is committed to promoting equity and increasing diversity in its programs. OURR staff work collaboratively with Education Academic Services and campus and community partners to support underrepresented students interested in majors in the School of Education.

OURR staff perform outreach, recruitment, and advising on behalf of the School. OURR staff also support current students with their personal and professional growth, their transition from high school to college, financial aid, and career exploration.

OURR works to build a network of students and graduates who may strengthen, transform, and lead their communities through education, service, and other contributions. Students are invited to visit OURR staff at 105 Education Building—stop in, or call one of the numbers listed above to set up an appointment.

SCHOOL OF EDUCATION CAREER CENTER

L107 Education Building, 1000 Bascom Mall, 608-262-1755

<http://careercenter.education.wisc.edu/>

Need assistance with any of the following?

- Exploring career options linked to School of Education majors
- Seeking a major that incorporates individual passions, interests, and values that will help one reach specific career goals
- Researching graduate schools and preparing application materials
- Beginning a job search and learning where to start and what to do
- Seeking assistance with developing a résumé, a cover letter, or interviewing skills
- Networking and connecting with potential employers

The Career Center provides resources and individual consultations to assist students in reaching their career goals. A plethora of resources can be found on the Career Center website (<http://careercenter.education.wisc.edu/>):

- Explore career possibilities for specific majors in *Investigate Career Options*. This section of the website provides tools for clarifying a student's personal criteria for success, linking specific career options to majors, and identifying steps for career/major selection. It includes strategies for making the most of a student's academic and student experience.
- Confirm major and career decisions. Gain hands-on experience in the career field of study. Assess the perceptions of selected career and major options for accuracy. Develop professional and soft skills. The *Test Drive and Confirm Career Choice* section provides strategies for acquiring real-world experience.
- Preparation is critical for entering one's next career phase. Learn about graduate school requirements and the application process. Develop promotional materials for employers and/or graduate schools and obtain feedback and suggestions for enhancing them. Acquire materials that support one's

applications. The *Prepare and Connect* section provides offers additional details.

- *Implement* helps students plan for the future. Attend recruiting events. Apply for graduate school or for job opportunities. Practice interviewing skills. Interview. Negotiate job and graduate school offers.

Personalized career assistance is available through individual appointments with consultants in the Career Center. To schedule an appointment visit, <http://bit.ly/CCAppt>.

Informational workshops and career-related events are conducted each semester. The schedule of these events can be found on the center's website (<http://careercenter.education.wisc.edu/workshops>).

The Career Center coordinates teacher recruitment fairs each fall and spring semester and collaborates with career centers across campus to provide campus-wide career fairs at the beginning of each semester.

PEOPLE

Information about faculty, staff, and other contributors to the Department of Art can be found on the department's website. (<http://www.education.wisc.edu/art>)

RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1259) page.

ART, BFA

The Department of Art's three degree programs provide students with the critical and artistic skills needed to excel in contemporary, multidisciplinary art and design practices. Degree programs are highly ranked at both the national and the international level, attracting talented students with excellent academic credentials and a passion for art and design.

UW–Madison art graduates are experts in creative problem solving, visual communication, teamwork and collaboration, and project management. These acquired skills and experiences can lead to fascinating and rewarding careers in animation, ceramics, glassblowing, metal fabrication, graphic and multi-media design, illustration, videography, photography, teaching and, of course, as a gallery artist.

Our graduates also work as iPhone and iPad app designers, medical imagists, technical assistants for major film companies, book designers, costume and float designers, jewelry fabricators and more (<https://art.wisc.edu/undergraduate/undergraduate-degrees>). The Department of Art believes that hardworking students who learn to harness and nurture their creative energies today will be the people influencing progress tomorrow.

The art curriculum fosters positive collaboration and innovative art production while encouraging diverse points-of-view. Students develop unique, creative voices while enjoying the close-knit atmosphere of a

department that prides itself on having a very low teacher-to-student ratio, with an average class size of 10–12 students.

Degree programs feature a rigorous foundation program, a set of six courses that students often complete by participating in the popular *Contemporary Art & Artists First Year Interest Group (FIG)*, before branching out into one or more specialized areas (<https://art.wisc.edu/media-disciplines>) such as ceramics, drawing, glass and neon, graphic design, papermaking, performance, photography, etc.

The art department has a remarkable history. UW–Madison was the first university to create a glass-blowing laboratory for art students. The printmaking programs are consistently ranked first in the country and the art metals program is currently ranked third. A large number of undergraduates go on to study in some of the most prestigious MFA programs in the country, and to exhibit their art in regional, national, and also international venues. The school's large faculty of world class artists is committed to the development of their undergraduate students.

The new Art Lofts Building is the home of state-of-the-art ceramics, glass, papermaking and bronze foundry facilities and a large art performance space. The Humanities Building houses a student gallery, and printmaking, painting, drawing, design, comics, photography, multi-media/digital, video/performance, metals, wood, and sculpture facilities, as well as art education classrooms.

The department offers three degree programs: the Bachelor of Science in Art (p. 1274), the Bachelor of Fine Arts (p. 1280), or the Bachelor of Science in Art Education (p. 1263). The Bachelor of Fine Arts (BFA) degree program in Art differs from the B.S.–Art degree by requiring a larger number of studio and aesthetic courses. This degree program is often selected by students wishing to develop a refined visual art portfolio in preparation for a career as a professional artist and/or for graduate study. The Bachelor of Science in Art Education degree program certifies students to teach in both elementary and secondary schools.

HOW TO GET IN

PROGRAM ADMISSION OVERVIEW

Students interested in the Art–BFA degree program initially enroll in the Art–B.S. degree program while completing prerequisite coursework and establishing other criteria for eligibility. A portfolio review is part of the BFA program selection process. Students will typically apply to the BFA program in their sophomore or junior year and must have attained a minimum of sophomore standing. An application may be submitted during the semester that the required courses will be completed.

APPLICATION AND ADMISSION

New freshmen and off-campus transfers are admitted directly to the Art–B.S. degree program and receive an ART classification. Both art degree programs currently admit on-campus students to begin in the fall, spring, and summer. Requirements and selection criteria may be modified from one application/admission period to the next. Potential applicants should consult the School of Education's Apply to a Program (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>) page for updates to eligibility requirements prior to submitting an application.

APPLICATION PROCEDURES

PROSPECTIVE UW-MADISON APPLICANTS

Prospective applicants to UW-Madison are strongly encouraged to submit a portfolio to the Department of Art for review. Though a portfolio is not required, it does provide the art department an opportunity to make a recommendation on the applicant's behalf to UW-Madison's Office of Admissions and Recruitment. The Office of Admissions and Recruitment makes final determinations regarding the admission status of all applicants. Additional information, including submission guidelines, is available on the How to Apply (<https://art.wisc.edu/undergraduate/undergraduate-application>) page of the art department's website.

CURRENT UW-MADISON STUDENTS

On-campus students should obtain a Professional Program Application (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>).

Complete and submit the application, as well as transcripts from all other colleges or universities attended, to Education Academic Services, Room 139 Education Building, 1000 Bascom Mall, at any time during the academic year.

Applications cannot be processed without a complete academic record. (A transfer credit evaluation cannot be accepted in place of a transcript.) The program application must be signed by the undergraduate advisor in the Department of Art; call 608-262-1660 to schedule an appointment.

TRANSFER STUDENTS

Applicants not already enrolled on the UW-Madison campus must be admissible to the university to enroll in a School of Education program. Admission to UW-Madison requires a separate application and admission process. See UW-Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu>) for application information. Note that off-campus transfer students will be held to the UW-Madison admission GPA requirements. BFA candidates cannot transfer directly into the BFA program; instead, they will be admitted to campus as if pursuing a B.S.-Art degree (ART classification) and can apply for the BFA program once enrolled on campus. Transfer students are strongly encouraged to meet with the Department of Art advisor prior to coming to campus; call 608-262-1660 to schedule an appointment. Prospective transfer students are strongly advised to meet with an Education Academic Services advisor in advance of their application; to schedule, call 608-262-1651.

STUDENTS WITH A PREVIOUS DEGREE

Prospective applicants who already hold an undergraduate degree are strongly encouraged to meet with an Education Academic Services advisor in advance of their application. Consultations with advisors are available in person or via telephone; to schedule, call 608-262-1651.

Applicants who already hold an undergraduate degree are admitted to the School of Education as either an *Education Special student* or a *second degree student*, depending on their interests and academic background. Admission as an Education Special student indicates that the student has an interest in pursuing certification in a subject area studied

during the initial degree; another degree is not awarded for this "certification only" coursework. Second degree students are seeking a second, unrelated degree from the School of Education, which may, or may not, include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission. More information is available here (p. 1239).

CRITERIA FOR ADMISSION

- Previous Art-B.S. degree program status.
- Cumulative grade point average of at least a 2.5 based on UW-Madison campus coursework, as modified by the Last 60 Credits Rule (detailed below).
- Successful completion or concurrent enrollment in the following courses:

Code	Title	Credits
ART 102	Two-Dimensional Design	3
ART 104	Three-Dimensional Design	3
ART 107	Introduction to Digital Forms	3
ART 108	Foundations of Contemporary Art	3
ART 208	Current Directions in Art	3
ART 212	Drawing Methods & Concepts	3

One course from each of the following. See Requirements section for course options:

2D Studio

3D Studio

4D Studio

Graphics

- Minimum 3.0 Art studio course GPA.
- Portfolio review.
 - The portfolio must be submitted only after all prerequisite coursework has been completed or during the semester the courses will be completed. The portfolio must contain images of work completed in college art courses. Specific portfolio requirements will be announced prior to scheduled reviews, held near the end of the fall and/or spring semesters. Students not accepted into the BFA program will be encouraged to continue in the B.S.-Art program and will be allowed to present their portfolio for review one additional time.

Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) For more information on this rule, see this link (p. 1239).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

PROGRAM STRUCTURE

The bachelor of fine arts (BFA) degree program in art has four components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- The *Foundations Program* requires six interrelated studio and aesthetics courses designed to prepare first-year students for further study in studio art and design.
- *Aesthetics* coursework gives students an opportunity to study both the history of art and contemporary developments in the visual arts.
- *Major* requirements permit in-depth studies of studio art. After taking courses in the Foundations area, students complete coursework in each of the four studio areas: 2D, 3D, 4D, and Graphics. BFA students are required to reach an advanced level in two studio disciplines.

SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1246) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science,

and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science. Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1246) for information about course selection and approved course options.

Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs, Athletic Training, and Kinesiology; Exercise and Movement Science have unique requirements in this category.

Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science
- Laboratory Science
- Science Electives

Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

Complete Liberal Studies Electives (p. 1246) to total 40 Credits.

ART FOUNDATIONS PROGRAM

The Art Foundations Program is a series of interrelated studio and lecture courses to be taken by art and art education majors in their first year as preparation for further study in studio art and design. The program addresses the fundamentals of art through investigation of formal, technical and conceptual issues. The drawing, 2D and 3D design, digital media, and art historical lecture classes are designed to expose, broaden, and challenge students' understanding of contemporary art production.

Art Foundations classes are meant to be taken concurrently and the information covered in them is interrelated. Students completing the Foundations Program should enroll in ART 102 Two-Dimensional Design, ART 212 Drawing Methods & Concepts, and ART 108 Foundations of

Contemporary Art for the fall semester and complete ART 104 Three-Dimensional Design, ART 107 Introduction to Digital Forms, and ART 208 Current Directions in Art in the spring.

Most freshman art majors complete their foundations courses through participation in the very popular Contemporary Art and Artists First-Year Interest Group (FIG), (<http://www.figs.wisc.edu/catalog>) which also creates a network of corresponding experiences and a peer community that will continue throughout the program and often beyond graduation. Students in FIGs enjoy studying with instructors dedicated to serving first year students, the opportunity to integrate related ideas from all three classes, and the ready-made opportunities to form support networks and lasting friendships.

Additional information about the Foundations Program (<https://art.wisc.edu/media-disciplines/foundations>) is available on the departmental website.

AESTHETICS REQUIREMENTS

The BFA program requires a total of 18 aesthetics credits, including four required courses. The remaining credits will be met by selecting from a list of aesthetics electives. Liberal studies coursework in fine arts and literature can also count as aesthetics electives. Additional courses may be approved by the art department advisor.

REQUIRED AESTHETICS COURSES

Code	Title	Credits
ART 108	Foundations of Contemporary Art (component of the Foundations Program)	3
ART 208	Current Directions in Art (component of the Foundations Program)	3
Select two additional courses from the following:		8
ART HIST 201	History of Western Art I: From Pyramids to Cathedrals	
ART HIST 202	History of Western Art II: From Renaissance to Contemporary	
ART HIST 205	Global Arts	
ART 438	Cultural Context of Graphic Design and Typography ¹	

¹ Only Graphic Design students may count ART 438 toward either aesthetics or studio requirements.

AESTHETICS ELECTIVES

Select from the following to complete the required 18 credits. Liberal studies coursework in fine arts and literature can also double count as aesthetics electives.

Elective Courses

MAJOR REQUIREMENTS

The requirements listed here are effective for students admitted to the Art or BFA program effective summer, 2016. Students admitted prior to this time can find their major requirements listed in previous editions of the *Undergraduate Catalog* and on their DARS reports.

Bachelor of Fine Arts (BFA) Program: Complete a minimum of 72 studio credits, including the specific coursework below. The BFA degree requires 126 total credits. Admission to the BFA program requires the completion of (or concurrent enrollment in) the ART 102, ART 104, ART 107, ART 108, ART 208, ART 212, and one course in each of the 2D, 3D, 4D and graphics areas. Students must have a 3.0 GPA in their studio coursework to be considered for the BFA program and have attained a minimum of sophomore standing. Successful participation in a portfolio review is also part of the selection process. Application may be made during the semester that the required courses will be completed. See How to Get In (p. 1280) for details about the application process.

Major residency requirement. The BFA program requires that at least 36 credits of major studio coursework be completed in residence at UW–Madison.

Art and BFA degree students have priority access to studio courses. Note: Some courses are offered for 3 or 4 credits; it is preferred that the course be taken for 4 credits.

REQUIRED STUDIO FOUNDATIONS COURSES

Complete the following:

Code	Title	Credits
ART 102	Two-Dimensional Design	3
ART 104	Three-Dimensional Design	3
ART 107	Introduction to Digital Forms	3
ART 212	Drawing Methods & Concepts	3

REQUIRED STUDIO BREADTH COURSES

Select one course in each of the 2D, 3D, 4D, and Graphics areas. Students will also take ART 508 Colloquium in Art at least once and complete a 500-level or 600-level art studio course in at least two disciplines. BFA candidates are required to participate in an exhibit and concurrently enroll in a capstone course.

2D Studio

Select one of the following:

Code	Title	Credits
ART 222	Introduction to Painting	3-4
ART 232	Life Drawing I	4
ART 242	Watercolor I	3-4

ART 302	Color	4
ART 312	Intermediate Drawing I	3-4

3D Studio

Select one of the following:

Code	Title	Credits
ART 214	Sculpture I	4
ART 224	Ceramics I	4
ART 244	Art Metal I	3-4
ART 334	Wood Working	3-4
ART 343	Metal Fabrication and Welding in Sculpture	3-4
ART 354	Glassworking	4

4D Studio

Select one of the following:

Code	Title	Credits
ART 309	Digital Art and Code	4
ART 318	Introduction to Video, Performance & Installation Art	4
ART 338	Service Learning in Art	2
ART 409	Digital Fabrication Studio	4
ART 428	Digital Imaging Studio	4
ART 429	3D Digital Studio I	4
ART 470	Special Topics in 4D Art	3-4
ART 521	Installations and Environments	4
ART 531	Screen Performance	3-4

Graphics

Select one of the following:

Code	Title	Credits
ART 306	Relief Printmaking	3-4
ART 316	Lithography	4
ART 326	Etching	4
ART 336	Serigraphy	3-4
ART 346	Basic Graphic Design	4
ART 348	Introduction to Digital Printmaking	4
ART 376	Photography	3-4
ART 446	Artists' Books	4

Art Colloquium

Complete the following:

Code	Title	Credits
ART 508	Colloquium in Art (Students are encouraged to enroll in this visiting artist lecture series multiple times)	1

Advanced Studio Requirement

Complete a 500-level or 600-level Art studio course in two disciplines. ART 508 Colloquium in Art, ART 608 Interdisciplinary Critique in the Visual Arts, and ART 699 Independent Study will **not** fulfill this requirement.

Exhibit Participation

BFA students must participate at least once in the department-sponsored exhibit, held in the spring semester. Requires concurrent enrollment in the professional practices/capstone course.

Professional Practices/Capstone Course

BFA students must enroll in this course during the required semester of participation in the department-sponsored exhibit. Currently, offered as ART 448 section 10; a unique course number will be forthcoming.

ELECTIVE STUDIO COURSES

Select elective studio courses (<http://guide.wisc.edu/courses/art>) to reach the minimum of 72 credits.

AREAS OF CONCENTRATION

Although a specific emphasis is not required, students may wish to develop an area of interest within the requirements of the BFA program. Concentrations in graphic design, multi-media, 2D studio, 3D studio, and printmaking are some of the available options (<https://art.wisc.edu/media-disciplines>) listed on the Art department's website.

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

These requirements are based on UW–Madison coursework.

- 2.5 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule.
- Cumulative major grade point average: 3.0 cumulative grade point average in all major studio coursework.
- Upper-level major coursework: 3.0 cumulative grade point average in all upper-level major coursework (Art courses numbered 214 and above, excluding ART 236 Bascom Course and ART 338 Service Learning in Art).
- Major Residency: Students must complete at least 36 major credits while enrolled in residence on the UW–Madison campus.
- Senior Residency: Degree candidates must complete their last 30 credits in residence on the UW–Madison campus, excluding retroactive credits and credits granted by examination.
- Total Credits: A minimum of 126 credits are required for graduation in the Art–BFA degree program.

DEGREE AUDIT (DARS)

At UW–Madison, a DARS report is used to document a student's progress toward the completion of their degree. This degree audit identifies the requirements that have already been completed, and also those that remain unsatisfied. A DARS report can offer suggestions about appropriate courses that may be taken to meet specific requirements and can assist in the academic planning process.

Students can access DARS reports through their Student Center in My UW–Madison. Go to the Academics tab and find DARS on the dropdown menu.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program or major on campus. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification

such as Pre-Elementary (PRE) should request a "what if" DARS report of their professional program of interest.

DARS is not intended to replace student contact with academic advisers. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is the document of record, i.e., certifying document of degree completion, for program areas in the School of Education.

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. To expose, broaden, and challenge students' understanding of past and present art production and provide knowledge of historical, thematic, critical and theoretical issues.
2. To contextualize studio assignments and expand their verbal and visual vocabulary, supporting the development of critical thinking and writing skills.
3. To learn the fundamental elements of art through investigation of formal, technical and conceptual issues and to increase skills in researching and creative problem solving.
4. To introduce students in the Bachelor of Science in Art and Bachelor of Fine Arts Degree Programs to art-making in four areas of practice, including two-dimensional, three-dimensional, graphic art, and interactive art. To broaden student understanding of the concepts and practices distinct to each area of discipline.
5. To facilitate a peer community among a like-minded and diverse cohort of students.
6. To facilitate advanced level competencies in at least one discipline for BS-Art majors and at least two disciplines for BFA majors.
7. To develop a skill set through professional practice experience in the context of an undergraduate art curriculum.

ADVISING AND CAREERS

ADVISING

ART DEPARTMENT ADVISING

Prospective off-campus and on-campus B.S.–Art and BFA–Art majors will meet with the undergraduate art program advisors, Julie Ganser, julie.ganser@wisc.edu, (julie.ganser@wisc.edu) and Branden Martz, branden.martz@wisc.edu, (branden.martz@wisc.edu) located at 6241 Humanities Building, 455 North Park Street. Appointments can be made by calling 608-262-1660. Students are also strongly encouraged to confer with an Education Academic Services advisor on a regular basis, see below.

GENERAL SCHOOL OF EDUCATION ADVISING

All undergraduate students in the School of Education are served by three offices devoted to academic and/or career advising. Each student in the School of Education is assigned at least one advisor and is encouraged to meet with the advisor on a regular basis. Students will also be assigned a faculty or staff advisor when admitted to the professional component of their degree program. Departmental advisors provide more in-depth knowledge of the major and of courses offered by the department.

UNDERGRADUATE ADVISING AND ACADEMIC DEAN'S OFFICE—EDUCATION ACADEMIC SERVICES (EAS)

139 Education Building, 1000 Bascom Mall; 608-262-1651
www.education.wisc.edu/soe/academics/undergraduate-students/academic-advising (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-advising>)

Education Academic Services (EAS) is the undergraduate dean's office for students in the School of Education. Staff members interpret school regulations, policies, and program requirements; take exceptions around requirements and deadlines; advise current and prospective students; monitor students having academic difficulties; coordinate field placements; facilitate the program admissions process; and maintain the official files of students in the school.

Students should meet with an advisor during their first semester on campus (if not before) and are encouraged to meet with an advisor at least once a semester. This is particularly important during the freshman and sophomore years. Appointments may be arranged by calling or visiting the office.

EAS advisors answer questions and provide guidance to current and prospective students. They consult with and refer students to faculty members and departmental advisors. Once a student is admitted to a professional program within the School of Education, he or she will also be assigned a faculty or staff advisor. Advising then becomes a partnership, with EAS and OURR advisors continuing to help students with course selection, degree progress monitoring, academic difficulties, and interpretation of policies and procedures.

Program advisors help students select and plan a program of study in the major, negotiate issues within the department, and, in the case of certification programs, follow the students' progress through their professional courses. These divisions are flexible, and students are encouraged to consult with all advisors who can help with a situation or answer a question.

OURL: OFFICE OF UNDERGRADUATE RECRUITMENT AND RETENTION (STUDENT DIVERSITY PROGRAMS)

105 Education Building, 1000 Bascom Mall, 608-262-8427 or 608-262-1651
www.education.wisc.edu/sdp (<http://www.education.wisc.edu/sdp>)

The UW–Madison School of Education is committed to promoting equity and increasing diversity in its programs. OURL staff work collaboratively with Education Academic Services and campus and community partners to support underrepresented students interested in majors in the School of Education.

OURL staff perform outreach, recruitment, and advising on behalf of the School. OURL staff also support current students with their personal and professional growth, their transition from high school to college, financial aid, and career exploration.

OURL works to build a network of students and graduates who may strengthen, transform, and lead their communities through education, service, and other contributions. Students are invited to visit OURL staff at 105 Education Building—stop in, or call one of the numbers listed above to set up an appointment.

SCHOOL OF EDUCATION CAREER CENTER

L107 Education Building, 1000 Bascom Mall, 608-262-1755
<http://careercenter.education.wisc.edu/>

Need assistance with any of the following?

- Exploring career options linked to School of Education majors
- Seeking a major that incorporates individual passions, interests, and values that will help one reach specific career goals
- Researching graduate schools and preparing application materials
- Beginning a job search and learning where to start and what to do
- Seeking assistance with developing a résumé, a cover letter, or interviewing skills
- Networking and connecting with potential employers

The Career Center provides resources and individual consultations to assist students in reaching their career goals. A plethora of resources can be found on the Career Center website (<http://careercenter.education.wisc.edu/>):

- Explore career possibilities for specific majors in *Investigate Career Options*. This section of the website provides tools for clarifying a student's personal criteria for success, linking specific career options to majors, and identifying steps for career/major selection. It includes strategies for making the most of a student's academic and student experience.
- Confirm major and career decisions. Gain hands-on experience in the career field of study. Assess the perceptions of selected career and major options for accuracy. Develop professional and soft skills. The *Test Drive and Confirm Career Choice* section provides strategies for acquiring real-world experience.
- Preparation is critical for entering one's next career phase. Learn about graduate school requirements and the application process. Develop promotional materials for employers and/or graduate schools and obtain feedback and suggestions for enhancing them. Acquire materials that support one's

applications. The *Prepare and Connect* section provides offers additional details.

- *Implement* helps students plan for the future. Attend recruiting events. Apply for graduate school or for job opportunities. Practice interviewing skills. Interview. Negotiate job and graduate school offers.

Personalized career assistance is available through individual appointments with consultants in the Career Center. To schedule an appointment visit, <http://bit.ly/CCAppt>.

Informational workshops and career-related events are conducted each semester. The schedule of these events can be found on the center's website (<http://careercenter.education.wisc.edu/workshops>).

The Career Center coordinates teacher recruitment fairs each fall and spring semester and collaborates with career centers across campus to provide campus-wide career fairs at the beginning of each semester.

PEOPLE

Information about faculty, staff, and other contributors to the Department of Art can be found on the department's website. (<http://www.education.wisc.edu/art>)

RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1259) page.

STUDIO ART, CERTIFICATE

The certificate in studio art allows students from across campus, regardless of their major or degree program, to engage in a structured, meaningful art studio experience. The certificate was designed for students who may not have professional ambitions in the arts, but still have an interest in a special discipline and want to develop their talents. The certificate does not require previous coursework in art.

The program provides a course of study in five focus areas: 2D, 3D, 4D (time-based), Graphic Design, or Photography. Students select one of these options and complete the courses required of this area of study. For each option, certificate students complete one course focusing on the historical context of art, two courses that provide a foundation for their chosen area, and two related electives that allow for the exploration and development of their skills.

This certificate may also appeal to students who have already completed a bachelor's degree in art, but now want to complete an emphasis in a different discipline, such as graphic design. In these instances, the student will work closely with an advisor in the Department of Art to substitute higher level courses for the foundational studio courses.

HOW TO GET IN

DECLARATION PROCESS

Students intending to complete the art studio certificate may find the declaration form on the School of Education's Apply to a Program (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>) page. The declaration for this certificate program can be submitted at any time during the academic year.

ELIGIBILITY

Undergraduate students in good academic standing, with a cumulative GPA of 2.50 or higher, who are not participating in the Art–B.S., Art Education, or Art–BFA degree programs, may declare this certificate. University Special students are also eligible to complete this certificate.

REQUIREMENTS

The studio art certificate may be completed by any UW–Madison undergraduate student who is not a declared art major.

Select a course of study in one of five focus areas: 2D, 3D, 4D (time-based), Graphic Design, or Photography, and complete the required courses. For each option, certificate students complete one course focusing on the historical context of art, two courses that provide a foundation for their chosen area, and two related electives that allow for the exploration and development of their skills.

The certificate requires a total of 17–18 credits, depending on the selected area. It is possible to complete the certificate in three semesters, making it a viable option for most students, including transfers.

HISTORICAL CONTEXT OF ART/DESIGN

Students in all certificate focus areas must complete **one** of the following:

Code	Title	Credits
ART 100	Introduction to Art	3
ART 108	Foundations of Contemporary Art	3
ART 208	Current Directions in Art	3
ART 438	Cultural Context of Graphic Design and Typography ¹	4
ART HIST 206	Survey of Photography: 1839 to 1989	3-4

¹ This course may count toward either the historical context requirement or toward the studio requirements of the focus area, but not both.

FOCUS AREAS

FOCUS ONE: PAINTING, DRAWING, PRINTMAKING

Ideal for the novice artist, as well as for students who want to develop previous skill in the creation of two-dimensional art. Students interested in pursuing this focus area can find more information about painting (<https://art.wisc.edu/media-disciplines/drawing-painting>), drawing, (<https://art.wisc.edu/media-disciplines/drawing-painting>) and

printmaking (<http://art.wisc.edu/art/academics/media/printmaking>) on the art department's website.

Painting, Drawing, Printmaking Requirements

Code	Title	Credits
Foundations		
Complete two of the following:		
ART 112	Drawing I	3
ART 212	Drawing Methods & Concepts (preferred)	3
or ART 102	Two-Dimensional Design	
Development		
Complete two courses. Select two courses from Category A or one from Category A and one from Category B.		
Category A		
ART 222	Introduction to Painting	3-4
ART 232	Life Drawing I	4
ART 242	Watercolor I	3-4
ART 302	Color	4
ART 306	Relief Printmaking	3-4
ART 316	Lithography	4
ART 326	Etching	4
ART 336	Serigraphy	3-4
ART 348	Introduction to Digital Printmaking	4
ART 448	Special Topics (2D or printmaking topics)	1-4
Category B (prerequisites apply to these courses)		
ART 322	Intermediate Painting I	4
ART 332	Life Drawing II	4
ART 342	Watercolor II	4
ART 446	Artists' Books	4
ART 452	Intermediate Painting: New Figuration I	4
ART 506	Advanced Relief Printmaking	4
ART 516	Advanced Lithography	2-3
ART 526	Advanced Etching/Intaglio	4
ART 536	Advanced Serigraphy	4
ART 636	Computer Augmented Printmaking	4

FOCUS TWO: GRAPHIC DESIGN

Art/design experience is highly recommended for students wishing to complete the graphic design focus area. Interested students can find more information about graphic design and typography (<https://art.wisc.edu/media-disciplines/graphic-design>), book arts/letterpress (<https://art.wisc.edu/media-disciplines/printmaking>), and comics (<https://art.wisc.edu/media-disciplines/drawing-painting>) on the art department's website.

Graphic Design Requirements

Code	Title	Credits
Foundations		
Complete the following:		
ART 102	Two-Dimensional Design	3
or ART 107	Introduction to Digital Forms	
ART 346	Basic Graphic Design	4

Development

Complete two courses. Select two courses from Category A or one from Category A and one from Category B. All courses beyond ART 346 require the consent of instructor. Prerequisites apply.

Category A

ART 438	Cultural Context of Graphic Design and Typography ¹	4
ART 356	Intermediate Typography	4
ART 458	Graphic Design for Branding and Identity	4
ART 463	Information Graphics	4
ART 465	Graphic Design for Packaging	4
ART 467	Graphic Design for Posters	4

Category B

ART 546	Graphic Design for Publications	4
ART 556	Graphic Design for Interactive Media	4
ART 560	Graphic Design Senior Thesis Project and Exhibition	4
ART 565	Typeface Design	4
ART 568	Motion Typography	4

¹ This course may count toward either the historical context requirement or toward the studio requirements of the focus area, but not both.

Note: The graphic design focus of this certificate is not intended to fully prepare individuals for a career in the field. Those wanting to pursue graphic design as a future profession should prepare by completing design courses as part of an art degree program—either the B.S.–Art (p. 1274) or BFA–Art. (p. 1280)

FOCUS THREE: 3D FORMS

Ideal for the novice artist, as well as for students who want to develop previous skill in the creation of three-dimensional art. Students interested in pursuing this focus area can find more information about ceramics (<https://art.wisc.edu/media-disciplines/3d>), glass and neon (<https://art.wisc.edu/media-disciplines/3d>), metals/metalsmithing (<https://art.wisc.edu/media-disciplines/3d>), sculpture/installations (<https://art.wisc.edu/media-disciplines/3d>), and wood (<https://art.wisc.edu/media-disciplines/3d>) on the art department's website.

3D Forms Requirements

Code	Title	Credits
Foundations		
Complete the following:		
ART 104	Three-Dimensional Design	3
ART 214	Sculpture I	4
Development		
Complete two courses. Select two courses from Category A or one from Category A and one from Category B.		
Category A		
ART 224	Ceramics I	4
ART 244	Art Metal I	3-4
ART 314	Sculpture II	4
ART 334	Wood Working	3-4

ART 343	Metal Fabrication and Welding in Sculpture	3-4
ART 354	Glassworking	4
Category B (prerequisites apply to these courses)		
ART 324	Ceramics II	4
ART 344	Art Metal II	4
ART 414	Art Foundry	3
ART 454	Neon: Light as Sculpture	4
ART 514	Advanced Sculpture Workshop 1	4
ART 521	Installations and Environments	4
ART 534	Advanced Wood Working	4
ART 544	Advanced Art Metal I	4
ART 548	Special Topics: Advanced Level (art metals)	1-4
ART 554	Advanced Glassworking	4
ART 614	Advanced Sculpture Workshop 2	3-4

FOCUS FOUR: 4D-DIGITAL, TIME-BASED, PERFORMATIVE OR SOCIAL PRACTICE

Ideal for the novice artist, as well as for students who want to develop previous skill with new art genres. Students interested in pursuing this focus area can find more information about digital media and animation (<https://art.wisc.edu/media-disciplines/4d>), (<https://art.wisc.edu/media-disciplines/4d>) or performance, video, or social practice (<https://art.wisc.edu/media-disciplines/4d>) on the art department's website.

4D-Digital, Time-based, Performative or Social Practice Requirements

Code	Title	Credits
Foundations		
Complete two of the following:		
ART 107	Introduction to Digital Forms	3
ART 318	Introduction to Video, Performance & Installation Art	4
or ART 338	Service Learning in Art	
Development		
Complete two courses. Select two courses from Category A or one from Category A and one from Category B.		
Category A		
ART 309	Digital Art and Code	4
ART 409	Digital Fabrication Studio	4
ART 428	Digital Imaging Studio	4
ART 429	3D Digital Studio I	4
ART 470	Special Topics in 4D Art	3-4
ART 511	Art Performance	3-4
ART 518	Artist's Video	4
ART 531	Screen Performance	3-4
Category B (prerequisites apply to these courses)		
ART 528	Digital Interactive Studio	4
ART 529	3D Digital Studio II	4
ART 570	Advanced Topics in 4D Art	3-4
ART 618	Advanced Artists' Video	4
ART 660	Art and Technology	4

FOCUS FIVE: PHOTOGRAPHY (FILM AND DIGITAL)

Ideal for the novice artist, as well as for students who want to develop previous skill with photography. Students interested in pursuing this focus area can find more information about photography (<https://art.wisc.edu/media-disciplines/printmaking>) on the art department's website. ART HIST 206 Survey of Photography: 1839 to 1989 is highly recommended as the historical context course.

Photography Requirements		
Code	Title	Credits
Foundations		
Complete the following:		
ART 176	Digital Photography for Non-Art Majors	4
ART 376	Photography	3-4
Development		
Complete two of the following:		
ART 476	Intermediate Photography	4
ART 448	Special Topics (photography topics only in ART 448 and 548)	1-4
or ART 548	Special Topics: Advanced Level	
ART 576	Advanced Photography	4

PROGRESS AND COMPLETION REQUIREMENTS

A minimum cumulative GPA of 2.5 must be achieved and maintained across all certificate course work in order to remain in, and successfully complete the certificate. All courses required by the certificate must be taken for a grade; none may be taken on a pass/fail, credit/no credit basis or as an auditor.

At least 12 of the required credits must be completed in residence in the UW–Madison Department of Art. Courses taken in a study abroad program sponsored by UW–Madison do not count toward this residency requirement.

VERIFICATION OF CERTIFICATE COMPLETION

Submit the certificate completion form (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-programs>) during the semester that all certificate requirements will be completed. This form starts the administrative process that (1) verifies that the requirements have been completed and (2) posts this information on the student's transcript.

PEOPLE

Information about faculty, staff, and other contributors to the Department of Art can be found on the department's website. (<http://www.education.wisc.edu/art>)

CURRICULUM AND INSTRUCTION

The Department of Curriculum and Instruction is one of the premier research and teaching departments devoted to understanding the complex world of teaching, learning, curriculum, and policy. Faculty

pursue a diverse array of research combining experience in schools with expertise drawn from a range of disciplinary fields. This world-class research is the foundation of its work preparing future teachers and the next generation of educational researchers.

DEGREES/MAJORS/CERTIFICATES

Undergraduate programs are offered in the areas listed below. Upon successful completion of their program of study, candidates are certified and eligible for a Wisconsin teaching license obtained through the Wisconsin Department of Public Instruction.

Note: Students at UW–Madison become certified to teach middle and high school **English, Mathematics, Science and Social Studies** subjects only through graduate-level coursework, not as undergraduates. Information about the master's degree program is available at uwteach.org (<http://www.uwteach.org>) and the Curriculum and Instruction website (<https://ci.education.wisc.edu/ci/academics/degree-options-certification-programs/wisconsin-masters-in-teaching>). Science certification areas include Biology, Chemistry, Earth and Space Science, Environmental Studies, Physics, and Broad Field Science. UW–Madison offers certification in the Social Studies areas of Economics, Geography, History, Political Science, Psychology, Sociology and Broad Field Social Studies.

PEOPLE

Information about faculty, staff, and other contributors to the Department of Curriculum and Instruction can be found on the department's website. (<http://ci.education.wisc.edu>)

RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1259) page.

BIOLOGY, MINOR

This minor may be completed only by students admitted to the Middle Childhood through Early Adolescence options of Elementary Education. Students may wish to consult with a biology undergraduate advisor (<http://biologymajor.wisc.edu/advising>) to discuss course selection and other issues related to this field of study. The Biology Major website (<http://biologymajor.wisc.edu>) is also a good resource, providing information about areas of study within biology and upcoming biology-related activities on campus. Biology is offered as a major in both the College of Letters & Science and the College of Agricultural and Life Sciences.

HOW TO GET IN

This minor may be completed only by students admitted to the Middle Childhood through Early Adolescence options of Elementary Education. Students admitted to the Content Focus option are asked to identify the minor of their choice when admitted to the program. Students admitted to the other Middle Childhood through Early Adolescence options should fill out a minor declaration form available in Education Academic Services, Room 139 Education Building.

REQUIREMENTS

The biology minor requires a minimum of 24 credits. A minimum cumulative grade point average of 2.75 is required, based on all biology minor coursework taken on the UW–Madison campus. Biocore sequence coursework may also be used to meet these requirements; consult with an advisor in Education Academic Services.

Discipline-related course work is also required, but not calculated into the minor credits or gpa.

REQUIRED DISCIPLINE-RELATED COURSES

Code	Title	Credits
Select a minimum of 6 credits in Mathematics and/or Statistics, college level, excluding Mathematics 120-132		
Select one of the following:		5-10

CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II
CHEM 109	Advanced General Chemistry
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II

Select one of the following: 8-10

PHYSICS 103 & PHYSICS 104	General Physics and General Physics
PHYSICS 201 & PHYSICS 202	General Physics and General Physics
PHYSICS 207 & PHYSICS 208	General Physics and General Physics

MINOR REQUIREMENTS

INTRODUCTORY BIOLOGY. SELECT ONE OF THE FOLLOWING OPTIONS:

Code	Title	Credits
Option 1: ¹		
BIOLOGY/ ZOOLOGY 101	Animal Biology	3
BIOLOGY/ ZOOLOGY 102	Animal Biology Laboratory	2
BIOLOGY/ BOTANY 130	General Botany	5
Option 2:		
BIOLOGY/BOTANY/ ZOOLOGY 151	Introductory Biology	5
BIOLOGY/BOTANY/ ZOOLOGY 152	Introductory Biology	5

¹ Students earning Advanced Placement (AP) or International Baccalaureate (IB) Biology scores of 4 or above are given credit for BIOLOGY/BOTANY/ZOOLOGY 151 at UW–Madison. This course fulfills the entire 151-152 sequence. Students taking BIOLOGY/BOTANY/ZOOLOGY 151 coursework at UW–Madison or transfer it from another campus must complete both BIOLOGY/BOTANY/ZOOLOGY 151 and BIOLOGY/BOTANY/ZOOLOGY 152 to complete the 151/152 sequence.

GENETICS

Code	Title	Credits
GENETICS 466	Principles of Genetics	3

ELECTIVES

Complete biology elective coursework from the approved lists to reach a minimum of 24 credits. The courses must be numbered 300 and above and include at least one course from two of the following three areas: (1) Ecology, Evolution, Genetics, (2) Cell and Molecular Biology, and (3) Physiology. Additional courses may, with the consent of an advisor, be selected to meet the elective requirements.

Area 1: Ecology/Evolution/Genetics

Code	Title	Credits
BOTANY 300	Plant Anatomy ¹	4
BOTANY 305	Plant Morphology and Evolution ¹	4
BOTANY 330	Algae	3

BOTANY/ PL PATH 332	Fungi ¹	4
BOTANY 400	Plant Systematics ¹	4
BOTANY 401	Vascular Flora of Wisconsin ¹	4
BOTANY/ F&W ECOL 402	Dendrology ¹	2
BOTANY 403	Field Collections and Identification ¹	1-4
BOTANY 422	Plant Geography	3
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin ¹	4
BOTANY/F&W ECOL/ ZOOLOGY 460	General Ecology ¹	4

¹ Courses are lab or field courses.

CHEMISTRY, MINOR

The chemistry minor may be completed only by students admitted to the Middle Childhood through Early Adolescence options of Elementary Education. The Department of Chemistry is housed in the College of Letters & Science. Students may wish to consult with a chemistry undergraduate advisor (<http://www.chem.wisc.edu/content/undergraduate-advising>) to discuss course selection and other issues related to this field of study.

HOW TO GET IN

This minor may be completed only by students admitted to the Middle Childhood through Early Adolescence options of Elementary Education. Students admitted to the Content Focus option are asked to identify the minor of their choice when admitted to the program. Students admitted to the other Middle Childhood through Early Adolescence options should fill out a minor declaration form available in Education Academic Services, Room 139 Education Building.

REQUIREMENTS

CHEMISTRY MINOR PREREQUISITES

Note that students must complete prerequisite coursework before enrolling in some courses required for the minor. For example, MATH 222 Calculus and Analytic Geometry 2 and PHYSICS 201 General Physics or PHYSICS 207 General Physics must be completed before taking CHEM 561 Physical Chemistry. Prerequisite coursework may be used to meet liberal studies requirements.

CHEMISTRY MINOR REQUIREMENTS

A minimum cumulative grade point average of 2.75 is required, based on all chemistry minor coursework taken on the UW–Madison campus.

Complete at least 22 credits, including the following:

Code	Title	Credits
Introductory Chemistry		
Select one of the following:		5-9
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115	Chemical Principles I	
Analytical Chemistry		
Select one of the following:		4-5
CHEM 327	Fundamentals of Analytical Science	
CHEM 329	Fundamentals of Analytical Science	
CHEM 116 & CHEM 115	Chemical Principles II and Chemical Principles I	
Organic Chemistry		
Select one of the following options:		7-8
Option 1:		

CHEM 341	Elementary Organic Chemistry	
CHEM 342	Elementary Organic Chemistry Laboratory	
BIOCHEM 501	Introduction to Biochemistry	
Option 2:		
CHEM 343	Introductory Organic Chemistry	
CHEM 344	Introductory Organic Chemistry Laboratory	
CHEM 345	Intermediate Organic Chemistry	
Inorganic Chemistry		4
CHEM 311	Chemistry Across the Periodic Table	
Physical Chemistry		3
CHEM 561 or CHEM 565	Physical Chemistry or Biophysical Chemistry	

Electives

Complete Chemistry electives to total 22 credits¹

¹ CHEM 346 Intermediate Organic Chemistry Laboratory is recommended. BIOCHEM 501 Introduction to Biochemistry, CIV ENGR 500 Water Chemistry, CBE 440 Chemical Engineering Materials, CBE 540 Polymer Science and Technology, are also recommended elective options.

CHINESE, BSE

WORLD LANGUAGE EDUCATION PROGRAM (CURRENTLY CHINESE, FRENCH, GERMAN, JAPANESE, LATIN, AND SPANISH MAJORS)

The mission of the World Language Education (WLE) program is (1) to promote a community-based approach to world language instruction; (2) to educate teachers who understand different cultures, are proficient in their languages, routinely visit other countries, and can build bridges across nations, races, socioeconomic groups, cultures, and languages; and (3) to certify teachers who are prepared to serve the global needs of increasingly multicultural and multilingual schools and are strongly committed to act for a world in which shared understanding through conflict resolution, negotiation and communication are guiding principles.

There is a growing need for multilingual teachers from diverse backgrounds. The WLE faculty encourages qualified applicants from under-represented groups to apply for admission to the program. The director of the World Language Education program is Professor François Tochon, ftochon@education.wisc.edu, 544C Teacher Education Building.

The objectives of the K–12 WLE program are

- to provide a philosophy of action designed to promote thoughtful curriculum development and classroom teaching in WLE;
- to provide regular contacts with the global community and in-service teachers in schools through field evenings, workshops, conferences, and other professional meetings;
- to provide clinical settings which enhance opportunities for beginning teachers to develop skillful practice and build bridges across languages, cultures, races, and nationalities;

- to help student teachers use multilingual educational technologies and document their experiences in electronic portfolios and implement research-based practices in their teaching;
- to provide university instructors and supervisors who are well-versed in WLE, who have an international orientation, and who are both approachable and helpful to student teachers.

Program majors include Chinese, French, German, Japanese, Latin, and Spanish, and may also include Italian and Portuguese if field placements are available in these subject areas. Completion of the WLE program leads to a bachelor of science degree in education with a major in the specific subject area. Wisconsin state licensing regulations require that students are licensed to teach at the early childhood through adolescence (approximately kindergarten through high school) levels.

Oral and written examinations are required for all world language teacher candidates enrolled in Wisconsin educator preparation programs, as is an extensive immersion experience. (Students becoming certified to teach Latin are exempt from both the Oral Proficiency Exam and immersion experience requirement.)

HOW TO GET IN

PROGRAM ADMISSION OVERVIEW

Students are admitted to the World Language Education program once a year, effective in the fall. Selection is made the previous spring.

ENTERING THE SCHOOL OF EDUCATION

NEW AND CURRENT UW-MADISON STUDENTS

New freshmen and transfer students interested in World Language Education are admitted directly to the School of Education with a “pre-professional” classification. This classification indicates that a student is interested in a program offered by the school, but has not applied and been admitted to the professional program. Students interested in World Language Education receive the pre-professional classification of PRS.

On-campus students wishing to be admitted to the school while working on eligibility requirements and application can apply for admission to the school by completing a Pre-Professional Application (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>). A minimum GPA of 2.5, based on UW-Madison coursework, is required to transfer into the school. This GPA may be modified by the Last 60 Credits rule (detailed below (p. 1297)). It is not necessary to be a pre-professional student before applying to a professional program.

It is strongly recommended that students interested in a School of Education program meet with an academic advisor in Education Academic Services (EAS), 139 Education Building, 1000 Bascom Mall; call 608-262-1651 to schedule an appointment with an advisor.

PROSPECTIVE TRANSFER STUDENTS

Applicants not already enrolled on the UW-Madison campus must be admissible to the university to enroll in a School of Education program. Admission to UW-Madison requires a separate application and admission process. See UW-Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu>) for

application information. Prospective transfer students are strongly advised to meet with an Education Academic Services advisor in advance of their application; to schedule, call 608-262-1651.

STUDENTS WITH A PREVIOUS DEGREE

Prospective applicants who already hold an undergraduate degree are strongly encouraged to meet with an Education Academic Services advisor in advance of their application. Consultations with advisors are available in person or via telephone; to schedule, call 608-262-1651.

Applicants who already hold an undergraduate degree are admitted to the School of Education as either an *Education Special student* or a *second degree student*, depending on their interests and academic background. Admission as an Education Special student indicates that the student has an interest in pursuing certification in a subject area studied during the initial degree; another degree is not awarded for this “certification only” coursework. Second degree students are seeking a second, unrelated degree from the School of Education, which may, or may not, include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission. More information is available here (p. 1239).

NATIVE AND HERITAGE SPEAKERS

Native or heritage speakers of a language major offered within the World Language Education program are welcome to pursue admission to the World Language Education program. Prospective applicants and transfer students who have previous experience with a language are encouraged to consult with an advisor in Education Academic Services as early as possible; to schedule, call 608-262-1651.

Native or heritage speakers must take a placement exam in the corresponding language to determine the appropriate level of remaining instruction in grammar, communication standards and social customs, and other topics related to language acquisition and proficiency. Placement examinations for Spanish, French, and German are offered on campus through Testing & Evaluation Services or the University of Wisconsin System’s Regional Placement Testing Program. Placement examinations for Chinese, Japanese, Italian, Latin, and Portuguese are administered by faculty or staff within the relevant academic department. For more information regarding placement in language courses, consult the Languages at UW-Madison placement guide (<http://languages.wisc.edu/advising/placement>).

APPLICATION AND ADMISSION

Applicants to the World Language Education program will be selected once a year, during the spring semester. Admission decisions will be based on coursework completed through the preceding fall semester. Admission is provisional until spring semester work has been completed and posted, and Education Academic Services staff have verified that students have submitted basic skills test scores, met minimum grade point averages, and earned minimum credits in their major. Admitted students will begin the sequence the following fall semester.

Resources limit the number of students who can be served by the UW-Madison World Language Education teacher education program. In recent years the World Language Education program has been able to accommodate all qualified applicants; however, if the number of

qualified applicants to World Language Education exceeds program resources, admission will become limited and competitive. If this happens, meeting or surpassing the minimum eligibility criteria will not guarantee admission.

ELIGIBILITY FOR ADMISSION

Requirements and selection criteria may be modified from one application/admission period to the next. Any changes to these criteria may occur up until the application period begins. Potential applicants should consult the School of Education's Apply to a Program (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>) page for application deadlines and detailed information regarding current eligibility requirements and selection criteria prior to submitting an application.

To be considered for admission, students must:

- earn 54 or more transferable semester credits (junior standing) by the end of the spring semester of the application year.
- complete all but six credits of the relevant World Language major.
- earn a minimum 2.75 grade point average on all major coursework completed.
- earn a cumulative GPA of at least 2.75 (on a 4.00 scale).¹
- complete the Basic Skills Requirement. All prospective teacher education students must submit test scores to the School of Education to be eligible for professional program admission. Students may use their ACT, SAT, or GRE scores, or they may take the Praxis Core Academic Skills for Educators Test (formerly the Praxis I/PPST). These tests meet Wisconsin's basic skills test requirement for prospective teachers. For more information see the document Academic Tests for Prospective Teachers (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/student-testing-and-assessment>).
- have completed, or be in the process of completing, an approved Immersion Experience required for the World Language Education degree program.
- submit completed program application form(s), transcripts, and all other related application materials by the application deadline specified on the School of Education's Apply to a Program (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>) page.

¹ A comprehensive cumulative GPA of all college-level, transferrable coursework attempted on both the UW–Madison campus coursework and coursework taken at any other colleges or universities may be calculated for the exclusive purpose of establishing an applicant's eligibility for consideration. Both the comprehensive cumulative GPA and the comprehensive cumulative GPA based on a student's last 60 credits may be calculated. See Last 60 Credits Rule (detailed below). If admitted, students must earn the minimum cumulative GPA for UW–Madison coursework established by their program and the School of Education each semester after admission.

Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and

- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) More information regarding this rule is available here (p. 1239).

APPLYING FOR CERTIFICATION IN MORE THAN ONE SUBJECT AREA

Students may apply to be certified in more than one language. Eligibility requirements must be met and separate applications must be filed for each area of interest. Students must be admitted as a major in at least one of the program areas as it is not possible to be admitted only to complete a minor.

Students interested in combining the World Language Education degree program with certification in another area altogether must apply to both programs and meet the minimum criteria for admission to each program. It is suggested that students apply as majors in each area of interest, thus maximizing the chances of admission. Certification in two different areas requires the consent and cooperation of the World Language Education program coordinator and the faculty coordinator of the other subject area. Not all subjects can be combined with the World Language Education degree program.

While multiple majors or major–minor combinations are feasible and may be advantageous as a career strategy, it may take extra time to complete the additional subject area coursework. Students are encouraged to work closely with their Education Academic Services advisor to assess the possibility of completing certification in more than one area and to coordinate the requirements of multiple certifications.

PROGRAM ADMISSION SELECTION CRITERIA

The files of all applicants will be individually and holistically reviewed by a panel of World Language professionals. The criteria used for admission include the following:

- **Academic Qualifications:** The applicant demonstrates mastery of the target language and knowledge of its literature, civilization, and culture.
- **Career Maturity:** The applicant demonstrates commitment to teaching the target language to elementary, middle, and high school students, including consideration of his or her own strengths and limitations as a potential teacher.
- **Ability to Relate to Youth:** The applicant demonstrates the ability to work effectively with young people.
- **Commitment to All Students:** The applicant demonstrates commitment to working with all students including those of different racial, ethnic, and socioeconomic backgrounds, and students with disabilities, not just the economically privileged or highly motivated.
- **Interpersonal Skills:** The applicant demonstrates the ability to work effectively with peers, other professionals, and members of the community outside of school settings.

The application files, including immersion experiences and oral proficiency, are rated according to the above criteria for each language. A final cohort is selected along with rank-ordered alternates, based on a combination of ratings made by the World Language Education review

committee and judgement by the faculty program coordinator about optimal cohort characteristics for each language. The availability of field placements in the subject area may also influence the selection process. Admission procedures are reviewed every other year to ensure fairness and effectiveness.

CRIMINAL BACKGROUND INVESTIGATION

The Department of Public Instruction (DPI) is required by law to conduct a background check on each applicant for a Wisconsin educator license. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety or education of PK-12 pupils. Local school districts also will conduct criminal background checks routinely on teacher education students prior to the start of in-classroom field work. Admitted applicants to any teacher education program who have a positive background check should confer with the Academic Dean's Office (Room 139 Education, 1000 Bascom Mall) about the potential impact of this on field placements and licensure.

An individual who is deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the academic dean in Education Academic Services.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

PROGRAM STRUCTURE

This program has five components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Prerequisite coursework* prepares students for work in the major. Program applicants must also complete and document an *immersion experience* as a prerequisite to being admitted to the professional program.
- *Major coursework* offers in-depth study of the subject students will teach.
- *Professional education* coursework includes an examination of the schools' relationship to our society and the processes by which students grow and learn. The *professional sequence* is a four-semester sequence of world language teaching methods course work and field experiences in schools.
- *Elective* coursework is taken to reach the minimum of 120 credits required for the degree.

The four semesters of professional coursework are followed sequentially and taken in consecutive semesters. Because of the program structure, students are expected to have completed most of their major and liberal studies coursework by the start of the professional sequence.

SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1246) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science. Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1246) for information about course selection and approved course options.

Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs, Athletic Training, and Kinesiology; Exercise and Movement Science have unique requirements in this category.

Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science
- Laboratory Science
- Science Electives

Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

Complete Liberal Studies Electives (p. 1246) to total 40 Credits.

PREREQUISITE COURSEWORK

Students must be at a fifth semester level of Chinese or demonstrate a proficiency level equivalent to E ASIAN 202 Fourth Semester Chinese in order to complete the major requirements. If not at that level, the following courses should be taken. Prerequisite courses do not count toward major credits.

Code	Title	Credits
E ASIAN 101	First Semester Chinese	6
E ASIAN 102	Second Semester Chinese	6
E ASIAN 201	Third Semester Chinese	6
E ASIAN 202	Fourth Semester Chinese	6

MAJOR REQUIREMENTS

Complete a minimum of 36 credits. At least 15 credits of upper-level major coursework (courses numbered 220 and above) must be completed in residence at UW–Madison to meet the major residency requirement.

Code	Title	Credits
Required Courses		
E ASIAN 301	Fifth Semester Chinese	4
E ASIAN 302	Sixth Semester Chinese	4
E ASIAN 321	First Year Classical Chinese	4
E ASIAN 333	Chinese Conversation	3
E ASIAN 351	Survey of Chinese Literature	3
E ASIAN 352	Survey of Chinese Literature	3
E ASIAN 431	Introduction to Chinese Linguistics	3
HISTORY/ E A STDS 103	Introduction to East Asian History: China	3-4
E Asian 251	Chinese Civilization, or approved substitute	3

Select from the following to reach 36 credits:

E ASIAN 401	Seventh Semester Chinese
E ASIAN 402	Eighth Semester Chinese
E ASIAN 432	Introduction to Chinese Linguistics

ORAL AND WRITTEN PROFICIENCY EXAMS

ABOUT THE ORAL AND WRITTEN PROFICIENCY EXAMS

Students admitted to the World Language Education program must provide evidence of having earned at least an Intermediate High score on an American Council on the Teaching of Foreign Languages (ACTFL) **Oral Proficiency Interview (OPI)**. Latin Education students are exempt from this requirement, see below.

The interview must be taken prior to beginning the first student teaching experience (second semester of the professional sequence). Students should be aware that it may take as long as three months to obtain results, and factor this delay into the scheduling of the OPI. If the score of Intermediate High is not made after the first examination, a student will be asked to take measures to improve their spoken language proficiency before continuing in the program. The student must repeat the OPI and achieve the required Intermediate High proficiency level.

All students in World Language Education (except Latin Education), are also required to complete the **Writing Proficiency Test (WPT)** no later than the third semester in the program. A proficiency level of Intermediate High is also required for this examination. Students must take and pass the WPT in their program area and the scores must be received by Education Academic Services before beginning the final student teaching semester. Students who do not take and pass the exam will not be permitted to student teach. The WPT meets the Department of Public Instruction's content exam requirement, a requirement usually met by taking the appropriate Praxis II test.

Both the Oral Proficiency Interview and the Writing Proficiency Test are administered by Language Testing International (LTI) (<http://www.languagetesting.com>). Their address is LTI, 3 Barker Avenue, Suite 310, White Plains, NY 10601; 800-486-8444. Students are responsible for costs associated with the OPI and the WPT.

Students seeking Latin certification will be required to take a proficiency exam administered by the Department of Classical and Ancient Near Eastern Studies prior to beginning the first student teaching experience (second semester of the professional sequence). This exam will take the place of the OPI and WPT required for certification in other languages.

See the World Language Education faculty program coordinator with questions about these requirements.

IMMERSION EXPERIENCE

ABOUT THE IMMERSION EXPERIENCE

Participation in an intensive immersion experience is one of the most important and meaningful ways of developing competence in a language. In preparation for the proficiency exams, students seeking certification in a language must participate in an approved immersion experience which emphasizes prolonged and intensive interaction within the target language and culture.

Program applicants completing French, German, and Spanish majors must complete and document a full-semester (or minimum four-month-long) immersion experience as a prerequisite to being admitted to the professional program. Students completing majors in Chinese and Japanese must spend at least one academic year living in China or Japan, respectively—also a prerequisite to being admitted to the professional program.

The immersion experience must be completed by July 15 preceding the program start. The experience must also have been completed no more than three years before this date.

An approved experience involves significant interaction and day-to-day functioning in the host language, including use of the target language on a daily basis such as in college-level courses, a training program, or a work experience. The immersion experience need not involve attendance in an academic program only, but may take some form such that the language of routine communication is the target language. Simply living with relatives or traveling as a tourist is not considered an immersion experience for the purposes of admission to this program. Most students choose to participate in a structured educational or exchange immersion program.

Students should consult with the International Academic Programs (IAP) (<http://www.studyabroad.wisc.edu>) office, 106 Red Gym, regarding campus-based study abroad programs. These experiences need not receive prior approval. Experiences through off-campus programs must have prior approval of the World Language Education faculty program coordinator. To obtain prior immersion experience approval, download and complete the approval form (<http://www.education.wisc.edu/soe/academics/undergraduate-students/forms>), meet with the faculty coordinator, and obtain authorization. Bring two copies of the form to your meeting, obtain signatures on both, and leave one copy with the coordinator.

Native speakers are normally considered to have fulfilled this requirement without further documentation, especially if they received their secondary education in an environment where the target language is the primary means of communication. Heritage speakers are usually considered to have fulfilled this requirement; applicants must consult with the program coordinator about this requirement.

PROFESSIONAL EDUCATION REQUIREMENTS (PROFESSIONAL SEQUENCE)

ABOUT THE PROFESSIONAL SEQUENCE

The professional program is typically a full-time, four-semester sequence of education courses and school-based field experiences. The four semesters of required professional coursework must be followed sequentially and taken in consecutive semesters. Students must enroll in all required coursework outlined in each semester of the program, even if similar coursework was taken at another institution. Students begin the professional sequence in the fall.

It is expected that most major and liberal studies coursework will be completed by the start of the professional sequence. The structure of the sequence allows very little time to pursue remaining coursework in these areas. Many students elect to finish their remaining requirements during the summer, or after the sequence has been completed. In addition, ACTFL OPI certification of speaking ability in the language rated Intermediate High or above is required by the end of the first semester in the program. Students must also complete the Writing Proficiency Test (WPT) no later than their third semester in the program. A rating of Intermediate High or above must be earned before a student is allowed to participate in the final student teaching semester. See further information under Oral and Written Proficiency Exams.

Students admitted to two areas of language certification follow the same four-semester sequence as single certification students; consult with

the World Language Education program coordinator to arrange sequence requirements.

The professional program is a full-time commitment and places heavy demands on students' time and energy. The professional sequence is particularly taxing for students completing certification in two subject areas. Students must make satisfactory progress in their program to continue. This professional judgment is made by the faculty program coordinator in consultation with cooperating teachers and supervisors.

PROFESSIONAL SEQUENCE COURSE REQUIREMENTS

Complete all of the courses listed below. *Required courses* must be taken during the semester listed. *Other courses* may be taken at any time, but a suggested course sequence is provided.

Code	Title	Credits
Semester 1		
<i>Required Courses</i>		
CURRIC 342	Teaching World Languages (K-8)	3
CURRIC 243	Practicum in World Languages (K-12) ¹	3
<i>Other Courses</i>		
CURRIC/ RP & SE 506	Strategies for Inclusive Schooling	3
ED PSYCH 301	How People Learn	3
Semester 2		
<i>Required Courses</i>		
CURRIC 442	Student Teaching in World Languages (K-8) ²	6
or CURRIC 443	Student Teaching in World Languages (6-12)	
<i>Other Courses</i>		
ED PSYCH 331	Human Development From Childhood Through Adolescence	3
Semester 3		
<i>Required Courses</i>		
CURRIC 343	Teaching World Languages (6-12)	3
CURRIC 443	Student Teaching in World Languages (6-12) ³	6
or CURRIC 442	Student Teaching in World Languages (K-8)	
<i>Other Courses</i>		
CURRIC 305	Integrating the Teaching of Reading with Other Language Arts	3
ED POL 300	School and Society	3
or ED POL/ HISTORY 412	History of American Education	
Semester 4		
<i>Required Courses</i>		
CURRIC 443	Student Teaching in World Languages (6-12) ⁴	9
CURRIC 564	Advanced Problems on the Teaching of World Languages	3

¹ The practicum will take place three days a week; placement will probably be at the elementary level. Fieldwork this semester is a half-time commitment and encompasses an entire semester based on the UW–Madison calendar. Placements are made within a 50-mile field

experiences service area and may not necessarily be in the city of Madison.

- 2 Placement will probably be at the elementary level, three days a week. Fieldwork this semester is a half-time commitment and encompasses an entire semester based on the UW–Madison calendar.
- 3 Placement will probably be at the middle school level. Fieldwork this semester is a half-time commitment and encompasses an entire semester based on the school district calendar. (Fall semester extends from late August through mid-January; spring semester extends from mid-January through early mid-June.)
- 4 Student teaching this semester is a full-time commitment and will be at the high school level. Fieldwork this semester encompasses an entire semester based on the school district calendar.

ELECTIVE COURSEWORK

Complete additional courses as necessary to reach the minimum of 120 credits required for the degree.

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

Graduation requirements are based on UW–Madison coursework.

- 2.75 cumulative grade point average. This may be modified by the Last 60 Credits Rule (p. 1239).
- 2.75 cumulative grade point average in all major coursework
- 2.75 cumulative grade point average in all upper-level major coursework
- 2.75 cumulative grade point average in all professional education coursework
- Degree candidates must complete at least 120 total credits.
- No more than 40 credits from a single academic department may be applied toward the 120 minimum credits required for graduation.
- Major residency. Degree candidates must complete at least 15 credits of upper-level major coursework in residence on the UW–Madison campus.
- Senior residency. Degree candidates must complete their last 30 credits in residence on the UW–Madison campus. Student teaching and practicum work are considered part of the 30 credits.

DEGREE AUDIT REPORTING SYSTEM (DARS)

At UW–Madison, a DARS report is used to document a student's progress toward the completion of their degree. This degree audit identifies the requirements that have already been completed, and also those that remain unsatisfied. A DARS report can offer suggestions about appropriate courses that may be taken to meet specific requirements and can assist in the academic planning process.

Students can access DARS reports through their Student Center in *My UW–Madison*. Go to the Academics tab and find DARS on the dropdown menu.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program or major on campus. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification

such as Pre-Elementary (PRE) should request a "what if" DARS report of their professional program of interest.

DARS is not intended to replace student contact with academic advisers. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is the document of record, i.e., certifying document of degree completion, for program areas in the School of Education.

ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW–Madison's program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction. Many of these requirements are embedded within the program's requirements and require no additional attention. The endorsement of the program coordinator/faculty is also required to receive certification through UW–Madison.

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license.

Detailed information about certification requirements and applying for a license is available under Certification/Licensure (p.).

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. In Semester 1, prior to starting student teaching, students must have acquired Intermediate High proficiency in their target language

on the ACTFL OPI scale as measured by two independent external evaluators.

2. In Year 1, student teachers must demonstrate the ability to teach in a K-8 context, as evaluated by their University supervisor and their mentor teacher through repeated direct observations.
3. During their content courses, students must meet (a) teacher education standards; and (b) ACTFL standards, as measured by (a) formative and summative evaluation of their assignments; (b) Teacher Education portfolio.
4. In Year 2, student teachers must demonstrate the ability to teach in a 6-12 school context, as evaluated by their University supervisor and their cooperating teacher through repeated direct observations.
5. To get certified by the Department of Public Instruction, at the end of Year 2, student teachers must have successfully completed an EdTPA Portfolio of their classroom experiences that demonstrates professionalism and meets the EdTPA standards, as evaluated by external evaluators.

ADVISING AND CAREERS

CHINESE EDUCATION ADVISING

Consult with advising staff at Education Academic Services (EAS), Room 139 Education Building, 1000 Bascom Mall, 608-262-1651, for general questions regarding certification to teach Chinese, and with Professor Hongming Zhang, 1112 Van Hise Hall, 262-2004, hzhang6@facstaff.wisc.edu, regarding coursework in the major.

The director of the World Language Education program is Professor François Tochon, ftochon@education.wisc.edu, 544C Teacher Education Building.

GENERAL SCHOOL OF EDUCATION ADVISING

All undergraduate students in the School of Education are served by three offices devoted to academic and/or career advising. Each student in the School of Education is assigned at least one advisor and is encouraged to meet with the advisor on a regular basis. Students will also be assigned a faculty or staff advisor when admitted to the professional component of their degree program. Departmental advisors provide more in-depth knowledge of the major and of courses offered by the department.

UNDERGRADUATE ADVISING AND ACADEMIC DEAN'S OFFICE—EDUCATION ACADEMIC SERVICES (EAS)

139 Education Building, 1000 Bascom Mall; 608-262-1651
www.education.wisc.edu/soe/academics/undergraduate-students/academic-advising (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-advising>)

Education Academic Services (EAS) is the undergraduate dean's office for students in the School of Education. Staff members interpret school regulations, policies, and program requirements; take exceptions around requirements and deadlines; advise current and prospective students; monitor students having academic difficulties; coordinate field placements; facilitate the program admissions process; and maintain the official files of students in the school.

Students should meet with an advisor during their first semester on campus (if not before) and are encouraged to meet with an advisor at

least once a semester. This is particularly important during the freshman and sophomore years. Appointments may be arranged by calling or visiting the office.

EAS advisors answer questions and provide guidance to current and prospective students. They consult with and refer students to faculty members and departmental advisors. Once a student is admitted to a professional program within the School of Education, he or she will also be assigned a faculty or staff advisor. Advising then becomes a partnership, with EAS and OURR advisors continuing to help students with course selection, degree progress monitoring, academic difficulties, and interpretation of policies and procedures.

Program advisors help students select and plan a program of study in the major, negotiate issues within the department, and, in the case of certification programs, follow the students' progress through their professional courses. These divisions are flexible, and students are encouraged to consult with all advisors who can help with a situation or answer a question.

OURR: OFFICE OF UNDERGRADUATE RECRUITMENT AND RETENTION (STUDENT DIVERSITY PROGRAMS)

105 Education Building, 1000 Bascom Mall, 608-262-8427 or 608-262-1651

www.education.wisc.edu/sdp (<http://www.education.wisc.edu/sdp>)

The UW–Madison School of Education is committed to promoting equity and increasing diversity in its programs. OURR staff work collaboratively with Education Academic Services and campus and community partners to support underrepresented students interested in majors in the School of Education.

OURR staff perform outreach, recruitment, and advising on behalf of the School. OURR staff also support current students with their personal and professional growth, their transition from high school to college, financial aid, and career exploration.

OURR works to build a network of students and graduates who may strengthen, transform, and lead their communities through education, service, and other contributions. Students are invited to visit OURR staff at 105 Education Building—stop in, or call one of the numbers listed above to set up an appointment.

SCHOOL OF EDUCATION CAREER CENTER

L107 Education Building, 1000 Bascom Mall, 608-262-1755
<http://careercenter.education.wisc.edu/>

Need assistance with any of the following?

- Exploring career options linked to School of Education majors
- Seeking a major that incorporates individual passions, interests, and values that will help one reach specific career goals
- Researching graduate schools and preparing application materials
- Beginning a job search and learning where to start and what to do
- Seeking assistance with developing a résumé, a cover letter, or interviewing skills
- Networking and connecting with potential employers

The Career Center provides resources and individual consultations to assist students in reaching their career goals. A plethora of

resources can be found on the Career Center website (<http://careercenter.education.wisc.edu>):

- Explore career possibilities for specific majors in *Investigate Career Options*. This section of the website provides tools for clarifying a student's personal criteria for success, linking specific career options to majors, and identifying steps for career/major selection. It includes strategies for making the most of a student's academic and student experience.
- Confirm major and career decisions. Gain hands-on experience in the career field of study. Assess the perceptions of selected career and major options for accuracy. Develop professional and soft skills. The *Test Drive and Confirm Career Choice* section provides strategies for acquiring real-world experience.
- Preparation is critical for entering one's next career phase. Learn about graduate school requirements and the application process. Develop promotional materials for employers and/or graduate schools and obtain feedback and suggestions for enhancing them. Acquire materials that support one's applications. The *Prepare and Connect* section provides offers additional details.
- *Implement* helps students plan for the future. Attend recruiting events. Apply for graduate school or for job opportunities. Practice interviewing skills. Interview. Negotiate job and graduate school offers.

Personalized career assistance is available through individual appointments with consultants in the Career Center. To schedule an appointment visit, <http://bit.ly/CCAppt>.

Informational workshops and career-related events are conducted each semester. The schedule of these events can be found on the center's website (<http://careercenter.education.wisc.edu/workshops>).

The Career Center coordinates teacher recruitment fairs each fall and spring semester and collaborates with career centers across campus to provide campus-wide career fairs at the beginning of each semester.

PEOPLE

Information about faculty, staff, and other contributors to the program can be found on the Curriculum and Instruction (<http://ci.education.wisc.edu>) and Asian Languages and Cultures (<http://alc.wisc.edu>) department websites.

CERTIFICATION/LICENSURE

ADDITIONAL CERTIFICATION REQUIREMENTS

Students must complete all requirements and also obtain the endorsement of the program faculty to receive certification through UW–Madison. These requirements include those required by UW–Madison, the Department of Public Instruction, and those mandated by state statutes. While most of these requirements are embedded in course content, some (e.g., the Basic Skills Requirement, the Wisconsin Foundations of Reading Test) are not related to course enrollment.

Students pursuing certification must complete the following requirements. See the school's website (<http://www.education.wisc.edu/>

[soe/pk-12-education/pathways-to-licensure](http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure)) for additional information/requirements.

Certification requirements should be monitored carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

Disclosure Statement and Criminal Background Investigation Disclosure Statement

Applicants to School of Education programs that involve a practicum, internship, or other field placement must complete a disclosure statement indicating (1) whether they have been admitted to, then withdrawn from, asked to withdraw from, or been dropped from a student teaching, clinical experience, or other intern/practicum program, and (2) if they have ever been placed on probation or disciplined by any college or university for academic dishonesty.

Criminal Background Investigation (CBI)

The Department of Public Instruction (DPI) is required by law to conduct a background check on each applicant for a Wisconsin educator license. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety, or education of PK–12 pupils. Local school districts also will conduct criminal background checks routinely on teacher education students prior to the start of in-classroom field work.

Students should be aware that criminal background checks may be initiated by other agencies or organizations when they are seeking employment or a professional license. School administrators have the authority to determine the appropriateness of a student placement and may choose not to permit a placement based on a student's background check results.

An individual who is deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the academic dean in Education Academic Services.

Environmental Education

This licensing requirement is mandatory for all Elementary Education, Secondary Science, Secondary Social Studies, and Agri-Science Education certification students. Students with previous degrees in their subjects must also monitor and complete this requirement for certification and licensure.

Select one Environmental Studies (http://guide.wisc.edu/courses/envir_st) course or from the following list. If appropriate, this course may also be applied toward the liberal studies requirements.

Code	Title	Credits

Student Testing and Assessment

Students in teacher education programs are required to complete a number of tests and a significant performance assessment prior to certification and eventual licensure. Detailed information related to these requirements, along with fee and registration information can be found on the School of Education website under Academic Tests for Prospective Teachers (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/student-testing-and-assessment>). A brief description of these tests and assessments is provided below.

Basic Skills Requirement

All prospective teacher education students must submit test scores to the School of Education to be eligible for professional program admission. Students may use their ACT, SAT, or GRE scores, or they may take the Praxis Core Academic Skills for Educators Test (formerly the Praxis I/PPST). These tests meet Wisconsin's basic skills test requirement for prospective teachers. All sections of the chosen basic skills test must be taken by program applicants to be eligible for program admission.

Content Test

Students completing professional education programs must take and pass an approved examination in their content area

prior to their final student teaching semester. Most students complete the appropriate Praxis II: Subject Assessments/ Specialty Area Tests through the Educational Testing Service (ETS). World Language Education students must meet an ACTFL Oral Proficiency Interview requirement and must take and pass the ACTFL Writing Proficiency Test (WPT). No candidates may be waived from taking the required test(s) for their license area.

Wisconsin Foundations of Reading Test

As of January 31, 2014, individuals seeking an initial Wisconsin license to teach in kindergarten through grade 5 or in special education, an initial Wisconsin license as a reading teacher, or an initial Wisconsin license as a reading specialist, must take and pass the Wisconsin Foundations Reading Foundations Test. Undergraduate programs impacted by this requirement are Elementary Education and Special Education.

This test is for Wisconsin licensing purposes **only**. Students who choose not to pursue Wisconsin educator licensing need not take and pass this test. This test is in addition to all other required tests and assessments for certification and licensure. For instance, students must still take and pass the Praxis II content exam to be eligible to student teach.

Teacher Performance Assessment (edTPA)

The edTPA is a subject area-specific, performance-based assessment for pre-service teacher candidates, which is centered on student learning. Evidence of candidate teaching proficiency in the areas of planning, engagement and instruction, and assessment is drawn from a subject-specific learning segment, 3–5 lessons from a unit of instruction. Assessment artifacts include video clips of instruction, lesson plans, student work samples, analysis of student learning, and reflective commentaries. These artifacts will be taken together and scored by trained evaluators using the standardized set of edTPA rubrics. *After August 31, 2015, initial license candidates (i.e., students completing certification programs) must complete the edTPA as part of their student teaching and after August 31, 2016, initial license candidates will be required to pass the edTPA before they can be recommended for licensure.*

Field Experiences

School-based field experiences are a critical part of students' professional preparation for teaching. In fact, the student teaching experience is frequently cited in teacher education literature as the single component of a teacher education program with the highest impact on future teaching behaviors of teacher candidates. Under Wisconsin State regulations, students seeking teaching certification from UW–Madison are required to complete at least one pre-student teaching practicum and at least one full semester of student teaching. Most programs at UW–Madison require students to complete additional field experiences.

Pre-Student Teaching Practicum

The pre-student teaching practicum gives students firsthand knowledge of the classroom environment and the teacher's role. For many students, the practicum is the initial encounter with the real world of teaching. Practicum students do not assume the degree of classroom responsibility they do during student teaching. Under the supervision of an experienced teacher, practicum students observe classroom activities,

assist the teacher with day-to-day classroom management tasks, interact one-to-one with students, and instruct small groups. The cooperating teacher and university supervisor use the practicum to assess the student's readiness for the student teaching experience. For this reason, active student engagement in the practicum experience is necessary and expected.

Student Teaching Experience

Student teaching, the culminating field experience, is a full-time, school district semester assignment that places a university student under the guidance of an experienced, qualified cooperating teacher. After an orientation period, the student teacher gradually assumes more responsibility for planning, instruction, and overall classroom management. Student teachers follow the daily schedule of the cooperating teacher and the building policies of the school, and function as regular staff members in arrival and departure times and attendance at school events. Daily attendance at school, barring emergencies, is required.

The student teaching experience follows the calendar of the local school district. A fall semester assignment will typically begin the latter part of August and end the latter part of January. A spring semester assignment will begin the latter part of January and end mid-June. Holiday breaks follow the school district calendar. Carrying other formal course work during the student teaching semester is strongly discouraged.

Find detailed policies and regulations regarding student teaching in the Teacher Education Field Experience Policies (November, 2014) (http://www.education.wisc.edu/docs/WebDispenser/soe-documents/fe_policies.pdf?sfvrsn=4). Students and staff are responsible for knowing and complying with the Field Experience policies. Many professional programs have their own separate handbooks and specific policies; students are also responsible for those policies and procedures.

General Eligibility Requirements for Student Teaching

Minimum eligibility requirements apply to all students. Several subject areas require a specific grade point average unique to a particular program, or additional course work as a prerequisite to student teaching. Students are urged to check with their Education Academic Services and faculty advisors to be certain that all eligibility requirements have been met. Students should check these items well in advance to preclude last-minute schedule conflicts in preparation for the student teaching semester. Minimum requirements are:

- Admission to a School of Education certification program.
- Completion of all course prerequisites, such as the teaching methods course(s) and pre-student teaching practica. Students should check for other possible course requirements in their specific area of study.
- Passing a content examination in the certification area(s).
- For world languages, an immersion experience and the appropriate score on the oral and written proficiency examinations.

Student Teaching Application Procedures

Information related to student teaching (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/field-work-student-teaching>) and the application process is available on the School of Education website. Please be aware that some program areas require students to file an application far in advance of the student teaching semester.

Alternative Placement Options for Student Teaching

Alternative placement options include placements with the Institute for Urban Education, and teacher internships under the auspices of the Wisconsin Improvement Program:

- The UW System Institute for Urban Education (<https://uwm.edu/education/community/partnerships/institute-urban-edu>) helps pre-service teachers pursue their desire to become urban educators and to provide professional development opportunities for currently practicing teachers. Not all teacher education programs participate in the institute. Students should consult with their program coordinator for more information.
- The teacher internship is a licensed, full-semester assignment that replaces the student teaching experience. Interns are under contract with a school district and paid a modest salary. Internships are rarely available; students are notified by the program coordinator when they are offered by a district and are available to our students.

Special Placements

The School of Education is committed to placing its students in classrooms with teachers we know, in schools led by principals we know. Thus, student teaching placements are made within the University of Wisconsin–Madison service area. In general the service area is 50 miles from Madison, but individual programs may (and do) reduce the size of their service area. Occasionally, students with extenuating circumstances are allowed special placements beyond this area. “Extenuating circumstances” have included spousal/partner relocation, family emergency, or a highly specialized placement. All special placements must be approved by the student's program coordinator and Associate Dean Jeffrey Hamm. Students permitted special placements are usually liable for the cost of supervision (at least \$500). Special placements are not permitted due to financial need or to enhance employment opportunities.

Withdrawing From/Failing Field Experience Assignments

Withdrawing from a field experience has serious implications for the student's progress in the program. Students who withdraw or receive an unsatisfactory grade (including a “D”) from a field experience may not repeat such experiences without approval from the program coordinator and Associate Dean Jeffrey Hamm. Students withdrawing from or receiving an unsatisfactory grade in field experiences in one major or program may not enroll in another major or program without written permission from the program coordinator and after consultation with Associate Dean Hamm.

Permission to repeat field experiences is not automatically granted. A confirmed field placement is considered an

informal contractual agreement between the university and the school in which the student is located. Under this agreement, university faculty, cooperating teachers, and students assume certain responsibilities and obligations to one another. A student's withdrawal from an assignment is considered to be an exception to the agreement and should occur only under the most unusual circumstances. Because of the consequences that withdrawal from a confirmed assignment may have on a student's future progress in the teaching certification program, a student who contemplates such action is strongly urged to consult with the program coordinator and Associate Dean Hamm to fully understand the implications of such action and the options available.

Minority Group Relations and Conflict Resolution

Minority Group Relations

Wisconsin State teacher education regulations require students to complete a section titled *Minority Group Relations*. The rules identify Minority Group Relations as

- The history, culture, and tribal sovereignty of American Indian tribes and bands located in Wisconsin.
- The history, culture and contributions of women and various racial, cultural, language and economic groups in the United States.
- The philosophical and psychological bases of attitude development and change.
- The psychological and social implications of discrimination, especially racism and sexism in the American society.
- Evaluating and assessing the forces of discrimination, especially racism and sexism on faculty, students, curriculum, instruction, and assessment in the school program.
- Minority group relations through direct involvement with various racial, cultural, language and economic groups in the United States.

UW–Madison teacher education programs address these areas through course work and experiences in each professional education program. Students who successfully complete their professional program will have satisfied each of the areas of Minority Group Relations. For more detailed information about how required courses address Minority Group Relations for each program area, see the School of Education's PI 34 site (<http://www.education.wisc.edu/pi34>). Choose Certification Programs, select the program of interest, and click on Rules & Statutes.

Conflict Resolution Requirement

Wisconsin State teacher education regulations require all individuals pursuing teacher certification to have formal training in conflict resolution. This includes

- Resolving conflicts between pupils and between pupils and school staff.
- Assisting pupils in learning methods of resolving conflicts between pupils and between pupils and school staff, including training in the use of peer mediation to resolve conflicts between pupils.

- Dealing with crises, including violent, disruptive, potentially violent or potentially disruptive situations that may arise in school or activities supervised by school staff as a result of conflicts between pupils or between pupils and other persons.

All teacher certification programs include conflict resolution training in their required course work. For more detailed information about how conflict resolution is addressed in each program area, see the School of Education's PI 34 site (<http://www.education.wisc.edu/pi34>). Choose Certification Programs, select the program of interest, and click on Rules & Statutes.

Phonics

As of July 1, 1998, the State of Wisconsin requires that all persons seeking initial and renewal licenses to teach reading or language arts in grades Pre-Kindergarten to Grade 6 (PK–6) must have successfully completed instruction in teaching reading and language arts using appropriate instructional methods, including phonics. "Phonics" means a method of teaching beginners to read and pronounce words by learning the phonetic value of letters, letter groups and syllables.

The Phonics requirement applies to students completing Elementary Education and Special Education certification programs. UW–Madison students fulfill this requirement through the successful completion of courses that are already required, so no additional course work is needed to meet this statutory requirement.

Cooperatives

This licensing requirement is mandatory for secondary Social Studies (and Agri-Science) Education certification. Students with previous degrees in their subjects must also monitor and complete this requirement for certification and licensure.

Students typically complete the cooperatives requirement after being admitted to the Secondary Social Studies program and should consult with the program coordinator, Professor Alan Lockwood (lockwood@education.wisc.edu), regarding its completion.

Portfolios

Students in certification programs are required to demonstrate their knowledge and professional development through the creation and maintenance of a portfolio. A portfolio has several purposes:

- To serve as a tool for teacher learning, growth, and development. Portfolios are intended to support students' efforts to become thoughtful and effective teachers.
- To provide documentation and/or evidence that students have satisfactorily met all teacher education standards required for initial teacher certification in Wisconsin. The portfolio helps to demonstrate students' achievement of these knowledge and performance standards.
- To provide a repository for student artifacts.
- To enhance students' technical literacy through the portfolio creation.

- To support the job preparation and interview process.

Portfolios consist of a variety of artifacts which students have chosen from their educational experiences to best represent their growth and development as teachers. Artifacts can include lesson plans, classroom observations, analyses of student learning, student work samples, photographs, video clips of instruction and reflective commentaries.

The student portfolio provides a foundation for the Teacher Performance Assessment (edTPA), a standardized evaluation required by Wisconsin for teacher licensure. The edTPA process also requires students to submit artifacts. These artifacts are scored by trained evaluators using a standardized set of edTPA rubrics.

For more information about the use of the portfolio in a specific teacher education program, please contact the program coordinator.

Teacher Standards

UW–Madison teacher education students must meet all state licensing requirements for initial teaching certification in Wisconsin. These requirements, sometimes referred to as administrative rules "PI 34," mandate that individuals demonstrate proficiency on state-approved teaching standards. Each teacher education institution in Wisconsin has adopted a set of teacher education standards that meet state guidelines. These standards must be met by all students completing a licensing program. The current standards of the University of Wisconsin–Madison School of Education can be found on the school's website (<http://careers.education.wisc.edu/pi34/docs/Standards.pdf>).

- Students in special fields such as Art, Communication Sciences and Disorders, Music, and Physical Education will be licensed at the *Early Childhood through Adolescence* level.

Wisconsin State Licensing

The State of Wisconsin issues an initial teaching license to certified teachers. The current fee is \$125. An online license application is available through the Department of Public Instruction (<http://dpi.wi.gov/tepd/elo>). A Criminal Background Investigation (CBI) will also be conducted by DPI. Information about fingerprint submission, when necessary, is available through the Department of Public Instruction (<http://dpi.wi.gov/tepd/licensing/fingerprint/electronic-submission>).

Before applying for a license, DPI requires the electronic submission of "Endorsed Candidate for Licensure" (ECL) data by the certifying officer of the institution where the teacher preparation was completed. For UW–Madison teacher certification students, the endorsement will come from the School of Education, 139 Education Building, 1000 Bascom Mall. Once this information has been submitted to DPI, students are notified by email that they may begin the application online.

Before endorsing a student, UW–Madison requires that (1) all certification requirements are met; (2) student teaching (following the school district calendar) is completed; (3) final grades are posted and reviewed; (4) the degree is "posted" by the registrar's office (four to five weeks after graduation); and (5) a recommendation for certification is received from the program faculty. The Wisconsin Department of Public Instruction may require an additional 6 to 12 weeks for license processing. See Educator Licensing (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/educator-licensing>) for additional information about the licensing process.

Licensing Outside of Wisconsin

To apply for a license in a state other than Wisconsin, first check out the application requirements of that state. The University of Kentucky has a website that provides links (<http://2b.education.uky.edu/certification-requirements-by-state>) to teacher licensing agencies in all 50 states, the District of Columbia, and Puerto Rico.

Many states have a verification form that needs to be signed by a UW–Madison certification officer. This form verifies that a state-approved licensing program has been completed. These forms should be sent to Education Academic Services at 139 Education Building, 1000 Bascom Mall, or by email (mlpatton@wisc.edu) to be completed. If the form requests information about practicum and student teaching assignments (names of schools, grade levels, dates, etc.), this information must be completed before sending the form to EAS.

APPLYING FOR A TEACHING LICENSE

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Students intending to complete a teacher certification program should monitor program requirements carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

Licensing Levels

The following licensing options are offered at UW–Madison.

- The Elementary Education program currently offers two licensing levels: *Early Childhood* and also *Middle Childhood through Early Adolescence*.
- The Special Education program certifies students at both the *Middle Childhood through Early Adolescence* level and also at the *Early Adolescence through Adolescence* level. The Special Education/Elementary Education dual major option certifies students only at the *Middle Childhood through Early Adolescence* level.
- Secondary Education programs certify students to teach their subject area at the *Early Adolescence through Adolescence* level.
- Students completing Language Education programs will be licensed at the *Early Childhood through Adolescence* level.

RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1259) page.

COMMUNICATION SCIENCES AND DISORDERS, BSE

OVERVIEW

The major in communication sciences and disorders provides students with opportunities for study in the areas of speech–language pathology, audiology, and the normal aspects of speech, hearing, and language. Most students pursue this major because they hope to practice as licensed and/or certified clinicians in educational and medical/allied-health settings, assisting clients with communicative impairments arising from disease, trauma, predisposition, maladaptive learning, or unknown causes. Professional clinical practice follows completion of a master's degree in speech–language pathology, or a doctor of audiology degree, and involves evaluation and treatment based upon a firm theoretical understanding of normal processes of hearing, and of speech and language formulation, production, and perception.

Some students pursue the undergraduate major as a foundation for a research career in speech, language or hearing sciences. Others pursue the major as a preliminary step toward advanced training in other professional fields (e.g., law, medicine, nursing, special education), or as a liberal arts degree that could lead to a variety of different career paths (Speech–Language Pathologist (SLP) assistant, educational assistant, line therapist).

The major in communication sciences and disorders can be completed through the College of Letters & Science, or through the School of Education. Students select one program to follow, and should be aware that the two programs differ somewhat in their requirements for the major. Moreover, each program (L&S and Education) has its own general liberal studies requirements involving, for example, sciences, math, foreign language, social studies, and humanities. Students should plan to complete many of these general requirements as well as some courses in communication sciences and disorders during their first and second years on this campus.

The department is accredited in speech–language pathology and in audiology by the Council on Academic Accreditation of the American Speech–Language–Hearing Association (ASHA). Therefore, academic courses and clinical practica in the Department of Communication Sciences and Disorders may be applied toward clinical certification by ASHA (speech language pathology or audiology), and toward state licensure.

Students must consult with an undergraduate advisor in the Department of Communication Sciences and Disorders (1975 Willow Drive, www.comdis.wisc.edu (<http://www.comdis.wisc.edu>)) as soon as a decision has been made to major in this field. Course sequencing in the major is not flexible—certain courses are prerequisites to others and many courses are offered only once a year. CS&D advising services are focused on students who need to declare the major or who have already declared CS&D and need advising in the major. Please visit the department's website (<https://csd.wisc.edu/undergraduate.htm>) for details on weekly advising sessions.

HOW TO GET IN

PROGRAM ADMISSION OVERVIEW

The School of Education's communication sciences and disorders program currently accepts students during both fall and spring semesters. Prospective applicants typically begin taking the three-course "gateway course" sequence (detailed below) as sophomores.

ENTERING THE SCHOOL OF EDUCATION

ADMISSION TO THE SCHOOL OF EDUCATION AS A "PRE-PROFESSIONAL" STUDENT

New freshmen and transfer students interested in communication sciences and disorders are admitted directly to the School of Education with a "pre-professional" classification. This classification indicates that a student is interested in a program offered by the school, but has not applied and been admitted to the professional program. Students interested in communication sciences and disorders receive the "pre-professional" classification of PRS.

On-campus students wishing to be admitted to the school while working on eligibility requirements and application can apply for admission to the school by completing a Pre-Professional Application (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>). A minimum GPA of 2.5, based on UW–Madison coursework, is required to transfer into the school. This GPA may be modified by the Last 60 Credits rule (detailed below (p. 1309)). It is not necessary to be a "pre-professional" student before applying to a professional program.

It is strongly recommended that students interested in a School of Education program meet with an academic advisor in Education Academic Services (EAS), 139 Education Building, 1000 Bascom Mall. Students may call 608-262-1651 to schedule an appointment with an advisor.

TRANSFER STUDENTS

Applicants not already enrolled on the UW–Madison campus must be admissible to the university to enroll in a School of Education program. Admission to UW–Madison requires a separate application and admission process. See UW–Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu>) for application information. Prospective transfer students are strongly advised to meet with an Education Academic Services advisor in advance of their application; to schedule, call 608-262-1651.

STUDENTS WITH A PREVIOUS DEGREE

Prospective applicants who already hold an undergraduate degree are strongly encouraged to meet with an Education Academic Services advisor in advance of their application. Consultations with advisors are available in person or via telephone; to schedule, call 608-262-1651.

Applicants who already hold an undergraduate degree are admitted to the School of Education as either an *Education Special student* or a *second degree student*, depending on their interests and academic background. Admission as an Education Special student indicates that the student has an interest in pursuing certification in a

subject area studied during the initial degree; another degree is not awarded for this "certification only" coursework. Second degree students are seeking a second, unrelated degree from the School of Education, which may, or may not, include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission. More information is available here (p. 1239).

APPLICATION AND ADMISSION

The communication sciences and disorders degree program currently accepts students during both fall and spring semesters. Requirements and selection criteria may be modified from one application/admission period to the next.

CRITERIA FOR PROGRAM ADMISSION

Eligibility for consideration requires:

- Fifty-four (54) or more transferable semester credits (junior standing) completed by the end of the semester prior to admission. Students can first apply during the semester that they will be completing 54 or more credits.
- A cumulative grade-point average of at least a 2.75 (on a 4.0 scale) based on all college-level coursework attempted (as modified by the Last 60 Credits Rule; see below). Grade-point averages are calculated from both Madison campus coursework and coursework taken at any other colleges or universities.¹
- Completion of the "gateway courses," CS&D 201 Speech Science (3 cr), CS&D 202 Normal Aspects of Hearing (3 cr), and CS&D 240 Language Development in Children and Adolescents (3 cr). If any "gateway" courses were taken on another campus, then the first three Communication Sciences and Disorders courses taken at UW–Madison become the "gateway" courses.
- A minimum 3.0 GPA across CS&D 201, CS&D 202, and CS&D 240 the first time these courses are attempted. If any "gateway" course was taken on another campus, students must earn a minimum 3.0 GPA on the first three communication and sciences disorders courses taken at UW–Madison. Note that "gateway" courses may **not** be repeated for the purpose of raising the student's "gateway" course GPA.
- A cumulative GPA of at least a 3.0 on all major coursework completed to date, excluding CS&D 110 Introduction to Communicative Disorders.
- Minimum scores on the test submitted to meet the Basic Skills Requirement (see details below).
- Completed program application (see details below).

¹ A comprehensive cumulative GPA of all college-level, transferrable coursework attempted on both the UW–Madison campus coursework and coursework taken at any other colleges or universities may be calculated for the exclusive purpose of establishing an applicant's eligibility for consideration. Both the comprehensive cumulative GPA and the comprehensive cumulative GPA based on a student's last 60 credits may be calculated. See Last 60 Credits Rule (detailed below). If admitted, students must earn the minimum cumulative GPA for UW–Madison coursework established by their program and the School of Education each semester after admission.

Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) More information on this rule is available here (p. 1239).

APPLICATION PROCEDURES

- Submit completed program application form(s), transcripts, and all other related application materials specified on the School of Education's Apply to a Program (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>) page. Official transcripts from all other colleges or universities attended are required. Applications cannot be processed unless a complete academic record is presented for consideration.
- Complete the Basic Skills Requirement.
 - All prospective Communication Sciences & Disorders students must submit test scores to the School of Education to be eligible for professional program admission. Students may use their ACT, SAT, or GRE scores, or they may take the Praxis Core Academic Skills for Educators Test (formerly the Praxis I/PPST). These tests meet Wisconsin's basic skills test requirement. For more information see the document Academic Tests for Prospective Teachers (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/student-testing-and-assessment>).

CRIMINAL BACKGROUND INVESTIGATION

The Department of Public Instruction (DPI) is required by law to conduct a background check on each applicant for a Wisconsin educator license. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety or education of PK–12 pupils. Local school districts also will conduct criminal background checks routinely on students prior to the start of in-classroom field work. Admitted applicants who have a positive background check should confer with the Academic Dean's Office (Room 139 Education, 1000 Bascom Mall) about the potential impact of this on field placements and licensure.

Results of criminal background checks may be shared with other agencies when required by state code, or with a cooperating school or other agency in which the student has been assigned to complete field experiences. Criminal background checks may also be run on students by school districts. Students should be aware that criminal background checks may be initiated by other agencies or organizations when they are seeking employment or a professional license. Field site administrators have the right to determine the appropriateness of a student placement.

An individual who is deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the academic dean in Education Academic Services.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

PROGRAM STRUCTURE

The School of Education's bachelor of science degree in communication sciences and disorders is one path toward eventual clinical practice, though a graduate degree is required for licensure. Thus, students must plan on graduate studies if they intend to pursue Wisconsin State licensure. Not all students eligible for admission to the undergraduate degree program can be accepted to the master's degree program on this campus. Many students obtain their undergraduate degrees from UW–Madison and complete their master's degree and licensing requirements at another institution.

The School of Education undergraduate degree provides students with a conceptual background in the field of communication sciences and disorders and includes five categories of coursework:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Major* coursework offers in-depth study of foundations for clinical practice.
- *Discipline-related* coursework supports the major coursework.
- *Education* coursework examines many aspects of the educational enterprise, including child development and learning, societal expectations of schools and instruction, and teaching methods.
- *Elective* coursework is taken to meet the minimum of 120 credits required for the degree.

The School of Education's bachelor of science degree in communication sciences and disorders is one path toward eventual clinical practice, though a graduate degree is required for licensure. Thus, students must plan on graduate studies if they intend to pursue Wisconsin State licensure. Not all students eligible for admission to the undergraduate degree program can be accepted to the master's degree program on this campus. Many students obtain their undergraduate degrees from UW–Madison and complete their master's degree and licensing requirements at another institution.

SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1246) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science. Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1246) for information about course selection and approved course options.

Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs, Athletic Training, and Kinesiology; Exercise and Movement Science have unique requirements in this category.

Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science
- Laboratory Science
- Science Electives

Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

Complete Liberal Studies Electives (p. 1246) to total 40 Credits.

MAJOR REQUIREMENTS

Complete all the courses listed below. At least 15 credits of upper level major coursework (courses number 300–699) must be taken in residence on the UW–Madison campus for graduation.

Students must complete the three "gateway" courses—CS&D 201, CS&D 202, and CS&D 240—to be eligible for admission. Prospective applicants typically begin taking the three-course "gateway" sequence as sophomores. A grade point average of 3.0 or better must also be earned across these three courses the first time these courses are attempted.

Code	Title	Credits
CS&D 201	Speech Science	3
CS&D 202	Normal Aspects of Hearing	3
CS&D 210	Neural Basis of Communication	3
CS&D 240	Language Development in Children and Adolescents	3
CS&D 303	Speech Acoustics and Perception	3
CS&D 315	Phonetics and Phonological Development	3
CS&D 318	Voice, Craniofacial and Fluency Disorders	3
CS&D 320	Introduction to Audiology	3
CS&D 371	Pre-Clinical Observation of Children and Adults	3
CS&D 425	Auditory Rehabilitation	3
CS&D 440	Child Language Disorders, Assessment and Intervention	3

DISCIPLINE-RELATED COURSEWORK

The communication sciences and disorders program requires both major and related coursework. Related coursework is mandatory, but not considered part of the major or calculated into the major grade point average. This coursework may be used to satisfy Liberal Studies requirements, if appropriate.

Code	Title	Credits
Required Course		
RP & SE 300	Individuals with Disabilities	3
Select a statistics course; the following are recommended:		3-4
STAT 301	Introduction to Statistical Methods	
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	
STAT 371	Introductory Applied Statistics for the Life Sciences	
PSYCH 210	Basic Statistics for Psychology	
SOC/ C&E SOC 360	Statistics for Sociologists I	
ED PSYCH 760	Statistical Methods Applied to Education I	

Humanities 3

Select one of the following:

ENGL 314	Structure of English
ENGL 316	English Language Variation in the U.S.
LINGUIS 101	Human Language
LINGUIS/ ANTHRO 301	Introduction to Linguistics: Descriptive and Theoretical

Ethnic Studies 3-4

Select one of the following:

ANTHRO 104	Cultural Anthropology and Human Diversity
ASIAN AM 101	Introduction to Asian American Studies
CHICLA 201	Introduction to Chicana/o and Latina/o Studies
SOC 134	Problems of American Racial and Ethnic Minorities
SOC/ ASIAN AM 220	Ethnic Movements in the United States

Science 3-4

Select one of the following:

ANTHRO 105	Principles of Biological Anthropology
PHYSICS 103	General Physics
PHYSICS 109	Physics in the Arts
GEN&WS 103	Women and Their Bodies in Health and Disease
BIOLOGY/ ZOOLOGY 101	Animal Biology

EDUCATION COURSEWORK

Code	Title	Credits
Development		3

Select one of the following (minimum 3 credits):

ED PSYCH 320	Human Development in Infancy and Childhood	
ED PSYCH 321	Human Development in Adolescence	
PSYCH 460	Child Development (Effective fall, 2017, Psych 560 was changed to 460)	

Learning		Credits
ED PSYCH 301	How People Learn (minimum 3 credits)	3

Educational Policy Studies		Credits
ED POL 300	School and Society (minimum 3 credits)	3

Literacy, including Reading		Credits
CURRIC 305	Integrating the Teaching of Reading with Other Language Arts	3

Additional Education Coursework		Credits
		3

Select 3 credits in School of Education electives. Required School of Education courses may not be applied toward this requirement.

ELECTIVE COURSEWORK

Select additional coursework to reach the minimum of 120 credits.

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

Requirements below are based on UW–Madison coursework.

- 2.75 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule (p. 1239).
- 2.75 cumulative grade point average in all major coursework
- 2.75 cumulative grade point average in all upper-level (300–699) major coursework
- 2.75 cumulative grade point average in all education coursework
- Major Residency. Degree candidates must complete at least 15 credits of upper-level major coursework (300–699) in residence on the UW–Madison campus.
- Senior Residency. Degree candidates must complete their last 30 credits in residence on the UW–Madison campus. Practicum work is considered part of the 30 credits.
- 40-Credit Rule. Students may not count more than 40 credits from one department within the 120 degree credits needed for graduation. For example, if 42 credits of coursework have been completed from the Department of Communication Sciences and Disorders, the student will need 122 credits to graduate. CS&D 110 does not count toward the 40 credits.
- 120 credits required for graduation.

DEGREE AUDIT (DARS)

At UW–Madison, a DARS report is used to document a student's progress toward the completion of their degree. This degree audit identifies the requirements that have already been completed, and also those that remain unsatisfied. A DARS report can offer suggestions about appropriate courses that may be taken to meet specific requirements and can assist in the academic planning process.

Students can access DARS reports through their Student Center in *My UW–Madison*. Go to the Academics tab and find DARS on the dropdown menu.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program or major on campus. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) should request a "what if" DARS report of their professional program of interest.

DARS is not intended to replace student contact with academic advisers. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is the document of record, i.e., certifying document of degree completion, for program areas in the School of Education.

ADDITIONAL INFORMATION REGARDING CERTIFICATION

The master's degree is required to be certified to work in a public school program in Wisconsin and most states. The major in communication sciences and disorders prepares graduates to function competently and independently in public school programs, hospitals, rehabilitation centers, birth-to-three programs, or clinics. The bachelor of science degree is earned in the School of Education, and the master's degree is earned in the Department of Communication Sciences and Disorders. Student teaching and other professional education courses will be taken while earning the bachelor's and master's degrees. Not all students who apply for admission can be accepted into the master's degree program.

For detailed information about the master's program, see the CS&D website (<http://www.comdis.wisc.edu>).

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Ability to successfully integrate subject knowledge and pedagogy knowledge flexibly in authentic situations through field experiences with secondary students under the supervision of highly qualified, experienced teachers and university supervisors.
2. Students will be prepared for recommendation for initial licensure in the state of Wisconsin and beyond in accordance with state standards.

ADVISING AND CAREERS

COMMUNICATION SCIENCES AND DISORDERS ADVISING

Students **must** consult with an undergraduate advisor in the Department of Communication Sciences and Disorders (1975 Willow Drive,

www.comdis.wisc.edu (<http://www.comdis.wisc.edu>) as soon as a decision has been made to major in this field. Course sequencing in the major is not flexible—certain courses are prerequisites to others and many courses are offered only once a year. CS&D advising services are focused on students who need to declare the major or who have already declared CS&D and need advising in the major. Please visit the department's website (<https://csd.wisc.edu/undergraduate.htm>) for details on weekly advising sessions.

Students not yet admitted to the program should also consult with advising staff in Education Academic Services (EAS), see below.

GENERAL SCHOOL OF EDUCATION ADVISING

All undergraduate students in the School of Education are served by three offices devoted to academic and/or career advising. Each student in the School of Education is assigned at least one advisor and is encouraged to meet with the advisor on a regular basis. Students will also be assigned a faculty or staff advisor when admitted to the professional component of their degree program. Departmental advisors provide more in-depth knowledge of the major and of courses offered by the department.

UNDERGRADUATE ADVISING AND ACADEMIC DEAN'S OFFICE—EDUCATION ACADEMIC SERVICES (EAS)

139 Education Building, 1000 Bascom Mall; 608-262-1651
www.education.wisc.edu/soe/academics/undergraduate-students/academic-advising (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-advising>)

Education Academic Services (EAS) is the undergraduate dean's office for students in the School of Education. Staff members interpret school regulations, policies, and program requirements; take exceptions around requirements and deadlines; advise current and prospective students; monitor students having academic difficulties; coordinate field placements; facilitate the program admissions process; and maintain the official files of students in the school.

Students should meet with an advisor during their first semester on campus (if not before) and are encouraged to meet with an advisor at least once a semester. This is particularly important during the freshman and sophomore years. Appointments may be arranged by calling or visiting the office.

EAS advisors answer questions and provide guidance to current and prospective students. They consult with and refer students to faculty members and departmental advisors. Once a student is admitted to a professional program within the School of Education, he or she will also be assigned a faculty or staff advisor. Advising then becomes a partnership, with EAS and OURR advisors continuing to help students with course selection, degree progress monitoring, academic difficulties, and interpretation of policies and procedures.

Program advisors help students select and plan a program of study in the major, negotiate issues within the department, and, in the case of certification programs, follow the students' progress through their professional courses. These divisions are flexible, and students are encouraged to consult with all advisors who can help with a situation or answer a question.

OURR: OFFICE OF UNDERGRADUATE RECRUITMENT AND RETENTION (STUDENT DIVERSITY PROGRAMS)

105 Education Building, 1000 Bascom Mall, 608-262-8427 or 608-262-1651

www.education.wisc.edu/sdp (<http://www.education.wisc.edu/sdp>)

The UW–Madison School of Education is committed to promoting equity and increasing diversity in its programs. OURR staff work collaboratively with Education Academic Services and campus and community partners to support underrepresented students interested in majors in the School of Education.

OURR staff perform outreach, recruitment, and advising on behalf of the School. OURR staff also support current students with their personal and professional growth, their transition from high school to college, financial aid, and career exploration.

OURR works to build a network of students and graduates who may strengthen, transform, and lead their communities through education, service, and other contributions. Students are invited to visit OURR staff at 105 Education Building—stop in, or call one of the numbers listed above to set up an appointment.

SCHOOL OF EDUCATION CAREER CENTER

L107 Education Building, 1000 Bascom Mall, 608-262-1755

<http://careercenter.education.wisc.edu/>

Need assistance with any of the following?

- Exploring career options linked to School of Education majors
- Seeking a major that incorporates individual passions, interests, and values that will help one reach specific career goals
- Researching graduate schools and preparing application materials
- Beginning a job search and learning where to start and what to do
- Seeking assistance with developing a résumé, a cover letter, or interviewing skills
- Networking and connecting with potential employers

The Career Center provides resources and individual consultations to assist students in reaching their career goals. A plethora of resources can be found on the Career Center website (<http://careercenter.education.wisc.edu/>):

- Explore career possibilities for specific majors in *Investigate Career Options*. This section of the website provides tools for clarifying a student's personal criteria for success, linking specific career options to majors, and identifying steps for career/major selection. It includes strategies for making the most of a student's academic and student experience.
- Confirm major and career decisions. Gain hands-on experience in the career field of study. Assess the perceptions of selected career and major options for accuracy. Develop professional and soft skills. The *Test Drive and Confirm Career Choice* section provides strategies for acquiring real-world experience.
- Preparation is critical for entering one's next career phase. Learn about graduate school requirements and the application process. Develop promotional materials for employers and/or graduate schools and obtain feedback and suggestions for enhancing them. Acquire materials that support one's

applications. The *Prepare and Connect* section provides offers additional details.

- *Implement* helps students plan for the future. Attend recruiting events. Apply for graduate school or for job opportunities. Practice interviewing skills. Interview. Negotiate job and graduate school offers.

Personalized career assistance is available through individual appointments with consultants in the Career Center. To schedule an appointment visit, <http://bit.ly/CCAppt>.

Informational workshops and career-related events are conducted each semester. The schedule of these events can be found on the center's website (<http://careercenter.education.wisc.edu/workshops>).

The Career Center coordinates teacher recruitment fairs each fall and spring semester and collaborates with career centers across campus to provide campus-wide career fairs at the beginning of each semester.

PEOPLE

Information about faculty, staff, and other contributors to the program can be found on the Curriculum and Instruction (<http://ci.education.wisc.edu>) or Communication Sciences and Disorders (<https://csd.wisc.edu>) departmental websites.

RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1259) page.

EARTH SCIENCE, MINOR

This minor may be completed only by students admitted to the Middle Childhood through Early Adolescence options of Elementary Education. Students may wish to consult with an advisor in Education Academic Services, 139 Education Building, 608-262-1651, to discuss course selection and other issues related to this field of study.

HOW TO GET IN

This minor may be completed only by students admitted to the Middle Childhood through Early Adolescence options of Elementary Education. Students admitted to the Content Focus option are asked to identify the minor of their choice when admitted to the program. Students admitted to the other Middle Childhood through Early Adolescence options should fill out a minor declaration form available in Education Academic Services, Room 139 Education Building.

REQUIREMENTS

Complete a minimum of 24 credits from the following departments: Astronomy (<http://guide.wisc.edu/courses/astron>), Atmospheric and Oceanic Sciences (http://guide.wisc.edu/courses/atm_ocrn), Geoscience (<http://guide.wisc.edu/courses/geosci>), and Geography (<http://guide.wisc.edu/courses/geog>). Only Geography courses designated as Physical Science may be used toward the minor requirements. At

least 10 credits of the 24 credits must be numbered 200 or above. A minimum 2.75 grade point average is required, based on all UW–Madison coursework included in this minor.

ECONOMICS, MINOR

This minor may be completed only by students admitted to the Middle Childhood through Early Adolescence options of Elementary Education. The Department of Economics is housed in the College of Letters & Science. Students may wish to consult with an economics undergraduate advisor to discuss course selection and other issues related to this field of study. Academic advising (<http://www.econ.wisc.edu/undergraduate-academic-advising.htm>) is available in Room 7238 of the Social Science Building. Email: econadvise@ssc.wisc.edu. (econadvise@ssc.wisc.edu)

HOW TO GET IN

This minor may be completed only by students admitted to the Middle Childhood through Early Adolescence options of Elementary Education. Students admitted to the Content Focus option are asked to identify the minor of their choice when admitted to the program. Students admitted to the other Middle Childhood through Early Adolescence options should fill out a minor declaration form available in Education Academic Services, Room 139 Education Building.

REQUIREMENTS

The economics minor requires a minimum of 24 credits. A minimum cumulative grade point average of 2.75 is required, based on all economics minor coursework taken on the UW–Madison campus.

Students completing the economics minor must complete at least one semester of calculus. Mathematics coursework may be applied toward the liberal studies requirement.

Code	Title	Credits
Introduction to Microeconomics and Macroeconomics		
Complete one of the following:		4-7
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
ECON 111	Principles of Economics-Accelerated Treatment	
Intermediate Microeconomic Theory		3-4
ECON 301 or ECON 311	Intermediate Microeconomic Theory or Intermediate Microeconomic Theory - Advanced Treatment	
Intermediate Macroeconomic Theory		3-4
ECON 302 or ECON 312	Intermediate Macroeconomic Theory or Intermediate Macroeconomic Theory - Advanced Treatment	
Statistics		
Select one of the following, or an approved substitute:		3-4
ECON 310	Statistics: Measurement in Economics (preferred)	
STAT 224	Introductory Statistics for Engineers	
STAT 301	Introduction to Statistical Methods	

STAT/MATH 309	Introduction to Probability and Mathematical Statistics I	
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	
GEN BUS 303	Business Statistics	
Economics Elective		
Select one of the following (330 or 464 are preferred):		3-4
ECON 330	Money and Banking	
ECON 464	International Trade and Finance	
ECON 410	Introductory Econometrics	
ECON 441	Analytical Public Finance	
ECON 448	Human Resources and Economic Growth	
ECON 450	Wages and the Labor Market	
ECON 467	International Industrial Organizations	
ECON 468	Industrial Organization and Imperfect Competition	
ECON 475	Economics of Growth	
ECON 508	Wealth and Income	
ECON 521	Game Theory and Economic Analysis	
ECON 522	Law and Economics	
ECON/POP HLTH/ PUB AFFR 548	The Economics of Health Care	
ECON 590	Tutorial in Research Project Design	
ECON 664	Advanced International Trade	
ECON 666	Issues in International Finance	

If needed, additional ECON coursework to reach the minimum of 24 credits.

ELEMENTARY EDUCATION, BSE

The University of Wisconsin–Madison Elementary Education program prepares teachers who can foster high academic achievement in all students—particularly learners from diverse racial, cultural, linguistic, socioeconomic backgrounds and abilities. Teacher education students learn to recognize how their own background and experience shape their thinking and actions, to reflect on their practices, and to develop and adapt practices that serve the needs of their students.

Through their preparation, students gain awareness of how schools reflect both the strengths and inequities of our increasingly multicultural society and become more committed to advancing social justice and equity through their classroom practice and community interactions. They learn to welcome parents, caregivers, and community members into their classrooms as partners in the educational process. They integrate research-based practices in their teaching and, in doing so, acquire knowledge and skills that enable them to grow professionally throughout their teaching careers.

At UW–Madison, students preparing to teach in preschool, elementary, and middle schools engage in substantial supervised fieldwork (especially in diverse schools), community field experiences, self-examination of teaching practice, and development of multicultural classroom activities.

The Elementary Education program currently consists of four complementary program options:

- The **Early Childhood/English as a Second Language** option prepares teachers to work at the preschool and primary levels (approximately birth through age 8). Students are also certified in English as a Second Language at the Early Childhood level. Admitted students begin the four-semester professional sequence in the fall after admission.
- The **Middle Childhood–Early Adolescence/English as a Second Language** option prepares teachers to work in intermediate and middle school settings (approximately ages 6 through 12–13). Students are also certified in English as a Second Language at the Middle Childhood–Early Adolescence levels. Admitted students currently begin the four-semester professional sequence in the spring after admission, although this will change in the near future.
- The **Middle Childhood–Early Adolescence/Special Education** option prepares teachers to work in intermediate and middle school settings (approximately ages 6 through 12–13). It emphasizes collaboration, with training in both Elementary and Special Education methodologies. This option focuses on inclusion and gaining a strong background in working with students across disability categories including learning disabilities, emotional/behavioral disabilities, and other high incidence disabilities. Students are certified in both Special Education and Elementary Education at the Middle Childhood–Early Adolescence levels. Admitted students begin the four-semester professional sequence in the fall following admission.
- The **Middle Childhood–Early Adolescence/Content Focused Minor** option prepares teachers to work in intermediate and middle school settings (approximately ages 6 through 12–13). Students complete a content area minor that may lead to licensing in that subject. Admitted students currently begin the four-semester professional sequence in the spring after admission, although this will change in the near future.

Course requirements will vary by option, so students should consult often with an Education advisor. All options lead to a Bachelor of Science degree in Education. Formal definitions of Early Childhood and Middle Childhood–Early Adolescence levels will be determined by each school district based on the organizational structure of its schools and the philosophy and needs of the district.

HOW TO GET IN

PROGRAM ADMISSION OVERVIEW

Students are admitted to the program once a year, effective in the fall. Selection is made the previous spring. Currently, two of the four Elementary Education options—Early Childhood/ESL and the Middle Childhood through Early Adolescence/Special Education Dual Major—begin the four-semester professional sequence in the subsequent fall semester. Students in the Middle Childhood through Early Adolescence/English as a Second Language option and Middle Childhood through Early Adolescence/Content Focus option currently begin the four-semester professional sequence in the spring semester; it is anticipated that this will change in the near future.

ENTERING THE SCHOOL OF EDUCATION NEW AND CURRENT UW–MADISON STUDENTS

New freshmen and transfer students interested in elementary education are admitted directly to the School of Education with a “pre-professional” classification. This classification indicates that a student is interested in a program offered by the school, but has not applied and been admitted to the professional program. Students interested in elementary education receive the “pre-professional” classification of PRE.

On-campus students wishing to be admitted to the school while working on eligibility requirements and application can apply for admission to the school by completing a Pre-Professional Application (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>). A minimum GPA of 2.5, based on UW–Madison coursework, is required to transfer into the school. This GPA may be modified by the Last 60 Credits rule (detailed below (p. 1317)). It is not necessary to be a “pre-professional” student before applying to a professional program.

It is strongly recommended that students interested in a School of Education program meet with an academic advisor in Education Academic Services (EAS), 139 Education Building, 1000 Bascom Mall. Students may call 608-262-1651 to schedule an appointment with an advisor.

PROSPECTIVE TRANSFER STUDENTS

Applicants not already enrolled on the UW–Madison campus must be admissible to the university to enroll in a School of Education program. Admission to UW–Madison requires a separate application and admission process. See UW–Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu>) for application information. Prospective transfer students are strongly advised to meet with an Education Academic Services advisor in advance of their application; to schedule, call 608-262-1651.

STUDENTS WITH A PREVIOUS DEGREE

Prospective applicants who already hold an undergraduate degree are strongly encouraged to meet with an Education Academic Services advisor in advance of their application. Consultations with advisors are available in person or via telephone; to schedule, call 608-262-1651.

Applicants who already hold an undergraduate degree are admitted to the School of Education as either an *Education Special student* or a *second degree student*, depending on their interests and academic background. Admission as an Education Special student indicates that the student has an interest in pursuing certification in a subject area studied during the initial degree; another degree is not awarded for this “certification only” coursework. Second degree students are seeking a second, unrelated degree from the School of Education, which may, or may not, include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission. More information is available here (p. 1239).

APPLICATION AND ADMISSION

Resources limit the number of students who can be served by UW–Madison teacher education programs; thus, admission to the Elementary Education program is limited and may be competitive. Obtaining or exceeding the minimum criteria for eligibility does not guarantee admission.

The Elementary Education program faculty selects candidates based on a variety of criteria. Each option has its own selection committee and only reviews applications to that option. In particular they seek individuals who can demonstrate academic competence, multicultural and interpersonal competence, and reflective competence.

PROGRAM ADMISSION ELIGIBILITY REQUIREMENTS

Requirements and selection criteria may be modified from one application/admission period to the next. Potential applicants should consult the School of Education's Apply to a Program (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>) page for application deadlines and detailed information regarding current eligibility requirements and selection criteria prior to submitting an application.

To be eligible for admission to the professional program, applicants must:

- determine which of the four program options are of interest. Applicants may apply to a maximum of two options.
- submit completed program application form(s), transcripts, and all other related application materials by the application deadline specified on the School of Education's Apply to a Program (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>) page.
- successfully complete at least 40 transferable college-level credits by the end of the fall semester before application.
- complete the Basic Skills Requirement. All prospective teacher education students must submit test scores to the School of Education to be eligible for professional program admission. Students may use their ACT, SAT, or GRE scores, or they may take the Praxis Core Academic Skills for Educators Test (formerly the Praxis I/PPST). These tests meet Wisconsin's basic skills test requirement for prospective teachers. For more information see the document Academic Tests for Prospective Teachers (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/student-testing-and-assessment>).
- earn either
 - a minimum 2.5 grade point average (GPA) on a 4.0 scale on all transferable college-level coursework attempted¹, *OR*
 - minimum scores to meet the Basic Skills requirement, see above.

Applicants will be considered who have met either the minimum GPA or minimum basic skills test scores in all areas, but will not be eligible if both GPA and basic skills test scores are below the minimum. Students must take all three sections of the Basic Skills tests (reading, writing, mathematics) to be eligible for consideration.

- complete RP & SE 300 Individuals with Disabilities by the end of the summer before beginning the program if applying to the MC–EA/Special Education Dual Major option.

¹ A comprehensive cumulative GPA of all college-level, transferrable coursework attempted on both the UW–Madison campus

coursework and coursework taken at any other colleges or universities may be calculated for the exclusive purpose of establishing an applicant's eligibility for consideration. Both the comprehensive cumulative GPA and the comprehensive cumulative GPA based on a student's last 60 credits may be calculated. See Last 60 Credits Rule (detailed below). If admitted, students must earn the minimum cumulative GPA for UW–Madison coursework established by their program and the School of Education each semester after admission.

Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) More information regarding this rule is available here (p. 1239).

PROGRAM ADMISSION SELECTION CRITERIA

The Elementary Education program admissions procedures are intended to result in an academically qualified student body that is diverse in terms of both academic strengths and life experiences and has a commitment to providing the best possible education to elementary and middle school students. Having students with diverse life experiences, backgrounds and attitudes is critical if faculty are to prepare students to teach in schools that themselves have diverse enrollments. Faculty will accept only those students judged to have the potential to be successful in the academically challenging Elementary Education Program. In making admissions decisions, no factor will outweigh judgment that a particular applicant's credentials, taken as a whole, represent unacceptably high academic risk.

The Admissions Committee will take the following into consideration when making admissions decisions:

Academic Competence

The Mission Statement of the Elementary Education Area points to the role that our graduates have in creating academically rigorous classrooms that lead to high academic achievement in all students. For elementary and middle schools to promote academic achievement, elementary and middle school teachers must have demonstrated high levels of success in core disciplines throughout their university studies. Therefore, program faculty expect that students admitted to the program will have demonstrated high levels of academic preparation.

Multicultural and Interpersonal Competencies

The Elementary Education program's mission is to prepare teachers who are able to promote academic achievement in all elementary-school and middle-school students. This includes those from diverse races, cultures, language backgrounds, family forms, and sexual orientations, as well as those from diverse economic, gender, and ability groups. The program faculty seek prospective teachers who will demonstrate both commitment to this mission and the prospect of contributing to it. The Admissions Committee will

therefore examine the materials from each candidate for evidence of such commitment and prospect.

Reflective Competence

To have performed at high academic levels or to have had diverse life experiences is not adequate for admissions purposes unless these are accompanied by evidence that the applicant has been able to reflect on and learn from them. Demonstration of reflective competence is important as it likely contributes to one's interpersonal skills as well as to the qualities such as integrity, social awareness, and cultural sensitiveness that are qualities of a well-rounded human being who will be an excellent elementary or middle school teacher. The ability to reflect on one's life experiences is one factor that will allow the Admissions Committee to look for evidence that our students will be reflective practitioners who evaluate the effects of their assumptions, choices, and actions on others (students, parents, and other professionals in the learning community) and who will actively seek out opportunities to grow professionally.

CRIMINAL BACKGROUND INVESTIGATION

The Department of Public Instruction (DPI) is required by law to conduct a background check on each applicant for a Wisconsin educator license. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety or education of PK–12 pupils. Local school districts also will conduct criminal background checks routinely on teacher education students prior to the start of in-classroom field work. Admitted applicants to any teacher education program who have a positive background check should confer with the Academic Dean's Office (Room 139 Education, 1000 Bascom Mall) about the potential impact of this on field placements and licensure.

An individual who is deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the academic dean in Education Academic Services.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

PROGRAM STRUCTURE

Students of Elementary Education:

- Are exposed to a broad range of academic disciplines through *liberal studies* course work. The university-wide *General Education* requirements also encourage this breadth of study.
- Examine schools' relationship to society, the development of children and adolescents, and the processes of learning in their *education course work*.
- Study teaching methods and gain experience in schools through supervised field placements during their four-semester *professional sequence*.
- Complete *elective* coursework to reach the minimum of 120 credits required for the degree.

Practicum experiences provide a school-based setting for students to develop their professional and classroom skills. These experiences generally begin a few weeks after the start of the semester and are approximately nine weeks in length. Students will usually spend three half-days at their assigned schools. Concurrent registration in the methods courses provides students with an opportunity to learn about, and then apply, teaching techniques in a classroom.

The *full-semester student teaching assignment* is the capstone experience of the professional sequence. Through it students expand upon the activities, responsibilities and expectations encountered during the practicum experiences. Student teachers will function as regular staff members in their assigned schools and also attend a seminar on campus one afternoon each week. Student teachers are required to follow the school day, school calendar, vacation days and policies of the school where they work.

SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1246) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies Requirements automatically satisfy most of the University General Education Requirements outlined

above, including ethnic studies, humanities/literature, social studies, and science. Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1246) for information about course selection and approved course options.

Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs, Athletic Training, and Kinesiology; Exercise and Movement Science have unique requirements in this category.

Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science
- Laboratory Science
- Science Electives

Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

Complete Liberal Studies Electives (p. 1246) to total 40 Credits.

PROGRAM OPTIONS - SELECT ONE

OPTION 1—EARLY CHILDHOOD/ENGLISH AS A SECOND LANGUAGE

The Early Childhood/English as a Second Language option prepares teachers to work at the preschool and primary levels (approximately birth through age 8). Students are also certified in English as a Second Language at the Early Childhood level. Admitted students begin the four-semester professional sequence in the fall after admission.

Environmental Education Requirement

Select one Environmental Studies (http://guide.wisc.edu/courses/envir_st) course or from the following list. If appropriate, this course may also be applied toward the liberal studies requirements.

Environmental Education courses

Fine Arts

Select 6 credits of fine arts coursework. These credits may also be applied toward the liberal studies requirement. See a list of fine arts courses under liberal studies (p. 1246).

Mathematics for Elementary Teachers

Code	Title	Credits
MATH 130	Mathematics for Teaching: Numbers and Operations	3
MATH 131	Mathematics for Teaching: Geometry and Measurement	3
MATH 132	Problem Solving in Algebra, Probability and Statistics	3

Students with college-level calculus coursework or advanced placement credit should see the exemption rules (<http://www.math.wisc.edu/~lempp/Exemptionsfor130-32.htm>) for this coursework. More detailed information (<http://www.math.wisc.edu/~lempp/educ.html>) about these courses is available on the math department website.

Education Coursework

Code	Title	Credits
Child and Adolescent Development		3-6
Select one option:		
ED PSYCH 331	Human Development From Childhood Through Adolescence	
ED PSYCH 320 & ED PSYCH 321	Human Development in Infancy and Childhood	

and Human Development in Adolescence¹

Foundations of the Profession 6

Select 6 credits of coursework numbered below 600 from the Educational Policy Studies department.

Recommended courses include:

ED POL 300	School and Society
ED POL/ HISTORY 412	History of American Education
ED POL 500	Topics on Social Issues and Education

¹ With permission, PSYCH 460 Child Development (formerly 560) may be substituted for ED PSYCH 320 Human Development in Infancy and Childhood. Students are strongly encouraged to complete this requirement before program admission.

Minor Requirement: Elementary Education

Elementary Education majors choosing the Content Focus option are required to complete a minor area of study that will lead to Wisconsin licensing in English Language Arts, Mathematics, Science or Social Studies. Students can select from the minors listed below or complete the equivalent Letters & Science major in the subject area. For more details about the requirements of each minor, choose from the links below.

- **Biology** (p. 1293)
- **Chemistry** (p. 1295)
- **Earth Science** (p. 1314)
- **Economics** (p. 1314)
- **English** (p. 1333)
- **English Language Arts** (p. 1331)
- **Geography** (p. 1347)
- **History** (p. 1362)
- **Mathematics** (p. 1406)
- **Mathematics and Science Dual** (p. 1404)
- **Mathematics Specialized** (p. 1404)
- **Physics** (p. 1407)
- **Political Science** (p. 1408)
- **Psychology** (p. 1423)
- **Science Specialized** (p. 1424)
- **Social Studies** (p. 1424)
- **Sociology** (p. 1430)

Professional Sequence

Admitted students complete a four-semester sequence of professional courses. Each semester of the sequence must be followed sequentially and taken in consecutive semesters. Class schedules for the sequence are determined in advance.

Code	Title	Credits
Semester 1		
CURRIC 364	Introduction to Education	3
CURRIC 309	Reading and Writing Across the Content Areas	3
Semester 2		
CURRIC 368	The Teaching of Reading	3
CURRIC 369	The Teaching of Language Arts	3

CURRIC 370	Teaching Mathematics	3

Semester 4		
CURRIC 463	Seminar in Pre-Kindergarten Through Middle School Teaching	2
CURRIC 464	Student Teaching in the Elementary School	10
or CURRIC 454	Student Teaching in the Middle School	

Elective Coursework

Select additional coursework, if needed, to complete the minimum of 120 credits.

GPA AND OTHER GRADUATION REQUIREMENTS—REQUIRED FOR ALL PROGRAM OPTIONS

GRADUATION REQUIREMENTS

Students must complete all requirements and also obtain the endorsement of the program faculty to receive certification through UW–Madison. The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Requirements below are based on UW–Madison coursework.

- 2.5 cumulative grade point average. This may be modified by the Last 60 Credits Rule (p. 1239).
- 2.75 cumulative grade point average across all professional education courses (excluding practicum and student teaching).
- 2.75 cumulative grade point average in the major.
- 2.75 cumulative grade point average in the minor, if required.
- Minimum 120 credits (degree candidates only).
- Major residency: Degree candidates must complete at least 15 credits of upper-level major coursework (numbered 300–699) in residence on the UW–Madison campus.
- Senior residency: Degree candidates must complete their last 30 credits in residence on the UW–Madison campus. Student teaching and practicum are considered part of the 30 credits.

DEGREE AUDIT REPORTING SYSTEM (DARS)

At UW–Madison, a DARS report is used to document a student's progress toward the completion of their degree. This degree audit identifies the requirements that have already been completed, and also those that remain unsatisfied. A DARS report can offer suggestions about appropriate courses that may be taken to meet specific requirements and can assist in the academic planning process.

Students can access DARS reports through their Student Center in *My UW–Madison*. Go to the Academics tab and find DARS on the dropdown menu.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program or major on campus. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) should request a "what if" DARS report of their professional program of interest.

DARS is not intended to replace student contact with academic advisers. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is the document of record, i.e., certifying document of degree completion, for program areas in the School of Education.

ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW–Madison's program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction. Many of these requirements are embedded within the program's requirements and require no additional attention. The endorsement of the program coordinator/faculty is also required to receive certification through UW–Madison.

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license.

Detailed information about certification requirements and applying for a license is available under Certification/Licensure. (<http://guide.wisc.edu/undergraduate/education/curriculum-instruction/elementary-bse/#certificationlicensuretext>)

UNIVERSITY DEGREE REQUIREMENTS**Requirements Detail**

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. The teacher candidate will create and implement developmentally appropriate and challenging learning experiences that reflect high expectations for every learner, supporting learners to (1) develop deep understanding of content areas and their connections, and (2) apply understanding in meaningful ways.
2. The teacher candidate will select and/or create and sequence individually supportive and challenging learning experiences that reflect knowledge of individual learners, curriculum, pedagogies, and relevance to all learners and their families.
3. The teacher candidate will use a variety of teaching strategies, and evidence-based technologies and information resources to engage learners in meaningful learning activities that lead to content knowledge, critical thinking, creativity, innovation, self-evaluation, and self-directed learning. Use evidence to continually evaluate the effectiveness of these practices, and adjust these as needed to improve learner outcomes.
4. The teacher candidate will collaborate with others to create supportive, inclusive, linguistically responsive, and safe learning environments that help all learners meet high standards and reach their full potential.
5. The teacher candidate will choose, modify, and/or create multiple forms of unbiased formative and summative assessments to measure each learner's progress toward instructional goals. Use assessment data gathered to respond to each learner's strengths and needs in relation to short and long-term goals. Reflect on and justify planning decisions and ground one's justifications in knowledge of learners, development, curriculum, pedagogies, and resources.
6. The teacher candidate will use studies completed in science and mathematics, social sciences, the humanities, histories, languages, and the arts to inform and deepen their teaching of content areas and meeting learners' needs.

ADVISING AND CAREERS

ELEMENTARY EDUCATION ADVISING

Students not yet admitted to Elementary Education meet with their assigned advisor in Education Academic Services (EAS) and/or the Office of Undergraduate Recruitment and Retention (OURR), see below. Students are assigned an additional departmental advisor when admitted to the professional component of their degree program.

GENERAL SCHOOL OF EDUCATION ADVISING

All undergraduate students in the School of Education are served by three offices devoted to academic and/or career advising. Each student in the School of Education is assigned at least one advisor and is encouraged to meet with the advisor on a regular basis. Students

will also be assigned a faculty or staff advisor when admitted to the professional component of their degree program. Departmental advisors provide more in-depth knowledge of the major and of courses offered by the department.

UNDERGRADUATE ADVISING AND ACADEMIC DEAN'S OFFICE—EDUCATION ACADEMIC SERVICES (EAS)

139 Education Building, 1000 Bascom Mall; 608-262-1651
www.education.wisc.edu/soe/academics/undergraduate-students/academic-advising (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-advising>)

Education Academic Services (EAS) is the undergraduate dean's office for students in the School of Education. Staff members interpret school regulations, policies, and program requirements; take exceptions around requirements and deadlines; advise current and prospective students; monitor students having academic difficulties; coordinate field placements; facilitate the program admissions process; and maintain the official files of students in the school.

Students should meet with an advisor during their first semester on campus (if not before) and are encouraged to meet with an advisor at least once a semester. This is particularly important during the freshman and sophomore years. Appointments may be arranged by calling or visiting the office.

EAS advisors answer questions and provide guidance to current and prospective students. They consult with and refer students to faculty members and departmental advisors. Once a student is admitted to a professional program within the School of Education, he or she will also be assigned a faculty or staff advisor. Advising then becomes a partnership, with EAS and OURR advisors continuing to help students with course selection, degree progress monitoring, academic difficulties, and interpretation of policies and procedures.

Program advisors help students select and plan a program of study in the major, negotiate issues within the department, and, in the case of certification programs, follow the students' progress through their professional courses. These divisions are flexible, and students are encouraged to consult with all advisors who can help with a situation or answer a question.

OURR: OFFICE OF UNDERGRADUATE RECRUITMENT AND RETENTION (STUDENT DIVERSITY PROGRAMS)

105 Education Building, 1000 Bascom Mall, 608-262-8427 or 608-262-1651
www.education.wisc.edu/sdp (<http://www.education.wisc.edu/sdp>)

The UW–Madison School of Education is committed to promoting equity and increasing diversity in its programs. OURR staff work collaboratively with Education Academic Services and campus and community partners to support underrepresented students interested in majors in the School of Education.

OURR staff perform outreach, recruitment, and advising on behalf of the School. OURR staff also support current students with their personal and professional growth, their transition from high school to college, financial aid, and career exploration.

OURR works to build a network of students and graduates who may strengthen, transform, and lead their communities through education, service, and other contributions. Students are invited to visit OURR staff

at 105 Education Building—stop in, or call one of the numbers listed above to set up an appointment.

SCHOOL OF EDUCATION CAREER CENTER

<http://careercenter.education.wisc.edu/>

Need assistance with any of the following?

- Exploring career options linked to School of Education majors
- Seeking a major that incorporates individual passions, interests, and values that will help one reach specific career goals
- Researching graduate schools and preparing application materials
- Beginning a job search and learning where to start and what to do
- Seeking assistance with developing a résumé, a cover letter, or interviewing skills
- Networking and connecting with potential employers

The Career Center provides resources and individual consultations to assist students in reaching their career goals. A plethora of resources can be found on the Career Center website (<http://careercenter.education.wisc.edu/>):

- Explore career possibilities for specific majors in *Investigate Career Options*. This section of the website provides tools for clarifying a student's personal criteria for success, linking specific career options to majors, and identifying steps for career/major selection. It includes strategies for making the most of a student's academic and student experience.
- Confirm major and career decisions. Gain hands-on experience in the career field of study. Assess the perceptions of selected career and major options for accuracy. Develop professional and soft skills. The *Test Drive and Confirm Career Choice* section provides strategies for acquiring real-world experience.
- Preparation is critical for entering one's next career phase. Learn about graduate school requirements and the application process. Develop promotional materials for employers and/or graduate schools and obtain feedback and suggestions for enhancing them. Acquire materials that support one's applications. The *Prepare and Connect* section provides offers additional details.
- *Implement* helps students plan for the future. Attend recruiting events. Apply for graduate school or for job opportunities. Practice interviewing skills. Interview. Negotiate job and graduate school offers.

Personalized career assistance is available through individual appointments with consultants in the Career Center. To schedule an appointment visit, <http://bit.ly/CCAppt>.

Informational workshops and career-related events are conducted each semester. The schedule of these events can be found on the center's website (<http://careercenter.education.wisc.edu/workshops>).

The Career Center coordinates teacher recruitment fairs each fall and spring semester and collaborates with career centers across campus to provide campus-wide career fairs at the beginning of each semester.

PEOPLE

Information about faculty, staff, and other contributors to the Department of Curriculum and Instruction can be found on the department's website. (<http://ci.education.wisc.edu>)

CERTIFICATION/LICENSURE

ADDITIONAL CERTIFICATION REQUIREMENTS

Students must complete all requirements and also obtain the endorsement of the program faculty to receive certification through UW–Madison. These requirements include those required by UW–Madison, the Department of Public Instruction, and those mandated by state statutes. While most of these requirements are embedded in course content, some (e.g., the Basic Skills Requirement, the Wisconsin Foundations of Reading Test) are not related to course enrollment.

Students pursuing certification must complete the following requirements. See the school's website (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure>) for additional information/requirements.

Certification requirements should be monitored carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

Disclosure Statement and Criminal Background Investigation Disclosure Statement

Applicants to School of Education programs that involve a practicum, internship, or other field placement must complete a disclosure statement indicating (1) whether they have been admitted to, then withdrawn from, asked to withdraw from, or been dropped from a student teaching, clinical experience, or other intern/practicum program, and (2) if they have ever been placed on probation or disciplined by any college or university for academic dishonesty.

Criminal Background Investigation (CBI)

The Department of Public Instruction (DPI) is required by law to conduct a background check on each applicant for a Wisconsin educator license. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety, or education of PK–12 pupils. Local school districts also will conduct criminal background checks routinely on teacher education students prior to the start of in-classroom field work.

Students should be aware that criminal background checks may be initiated by other agencies or organizations when they are seeking employment or a professional license. School administrators have the authority to determine the appropriateness of a student placement and may choose not to permit a placement based on a student's background check results.

An individual who is deemed ineligible to participate in field or clinical experiences based on the results of their background

check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the academic dean in Education Academic Services.

Environmental Education

This licensing requirement is mandatory for all Elementary Education, Secondary Science, Secondary Social Studies, and Agri-Science Education certification students. Students with previous degrees in their subjects must also monitor and complete this requirement for certification and licensure.

Select one Environmental Studies (http://guide.wisc.edu/courses/envir_st) course or from the following list. If appropriate, this course may also be applied toward the liberal studies requirements.

Code	Title	Credits
ATM OCN/ENVR ST/ GEOG 121	Atmospheric Environment and Society	2

Student Testing and Assessment

Students in teacher education programs are required to complete a number of tests and a significant performance assessment prior to certification and eventual licensure. Detailed information related to these requirements, along with fee and registration information can be found on the School of Education website under Academic Tests for Prospective Teachers (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/student-testing-and-assessment>). A brief description of these tests and assessments is provided below.

Basic Skills Requirement

All prospective teacher education students must submit test scores to the School of Education to be eligible for professional program admission. Students may use their ACT, SAT, or GRE scores, or they may take the Praxis Core Academic Skills for Educators Test (formerly the Praxis I/PPST). These tests meet Wisconsin's basic skills test requirement for prospective teachers. All sections of the chosen basic skills test must be taken by program applicants to be eligible for program admission.

Content Test

Students completing professional education programs must take and pass an approved examination in their content area prior to their final student teaching semester. Most students complete the appropriate Praxis II: Subject Assessments/Specialty Area Tests through the Educational Testing Service (ETS). World Language Education students must meet an ACTFL Oral Proficiency Interview requirement and must take and pass the ACTFL Writing Proficiency Test (WPT). No candidates may be waived from taking the required test(s) for their license area.

Wisconsin Foundations of Reading Test

As of January 31, 2014, individuals seeking an initial Wisconsin license to teach in kindergarten through grade 5 or in special education, an initial Wisconsin license as a reading teacher, or an initial Wisconsin license as a reading specialist, must take and pass the Wisconsin Foundations Reading Foundations Test. Undergraduate programs impacted by this requirement are Elementary Education and Special Education.

This test is for Wisconsin licensing purposes **only**. Students who choose not to pursue Wisconsin educator licensing need not take and pass this test. This test is in addition to all other required tests and assessments for certification and licensure. For instance, students must still take and pass the Praxis II content exam to be eligible to student teach.

Teacher Performance Assessment (edTPA)

The edTPA is a subject area-specific, performance-based assessment for pre-service teacher candidates, which is centered on student learning. Evidence of candidate teaching proficiency in the areas of planning, engagement and instruction, and assessment is drawn from a subject-specific learning segment, 3–5 lessons from a unit of instruction. Assessment artifacts include video clips of instruction, lesson plans, student work samples, analysis of student learning, and reflective commentaries. These artifacts will be taken together and scored by trained evaluators using the standardized set of edTPA rubrics. *After August 31, 2015, initial license candidates*

(i.e., students completing certification programs) must complete the edTPA as part of their student teaching and after August 31, 2016, initial license candidates will be required to pass the edTPA before they can be recommended for licensure.

Field Experiences

School-based field experiences are a critical part of students' professional preparation for teaching. In fact, the student teaching experience is frequently cited in teacher education literature as the single component of a teacher education program with the highest impact on future teaching behaviors of teacher candidates. Under Wisconsin State regulations, students seeking teaching certification from UW–Madison are required to complete at least one pre-student teaching practicum and at least one full semester of student teaching. Most programs at UW–Madison require students to complete additional field experiences.

Pre-Student Teaching Practicum

The pre-student teaching practicum gives students firsthand knowledge of the classroom environment and the teacher's role. For many students, the practicum is the initial encounter with the real world of teaching. Practicum students do not assume the degree of classroom responsibility they do during student teaching. Under the supervision of an experienced teacher, practicum students observe classroom activities, assist the teacher with day-to-day classroom management tasks, interact one-to-one with students, and instruct small groups. The cooperating teacher and university supervisor use the practicum to assess the student's readiness for the student teaching experience. For this reason, active student engagement in the practicum experience is necessary and expected.

Student Teaching Experience

Student teaching, the culminating field experience, is a full-time, school district semester assignment that places a university student under the guidance of an experienced, qualified cooperating teacher. After an orientation period, the student teacher gradually assumes more responsibility for planning, instruction, and overall classroom management. Student teachers follow the daily schedule of the cooperating teacher and the building policies of the school, and function as regular staff members in arrival and departure times and attendance at school events. Daily attendance at school, barring emergencies, is required.

The student teaching experience follows the calendar of the local school district. A fall semester assignment will typically begin the latter part of August and end the latter part of January. A spring semester assignment will begin the latter part of January and end mid-June. Holiday breaks follow the school district calendar. Carrying other formal course work during the student teaching semester is strongly discouraged.

Find detailed policies and regulations regarding student teaching in the Teacher Education Field Experience Policies (November, 2014) (http://www.education.wisc.edu/docs/WebDispenser/soe-documents/fe_policies.pdf?sfvrsn=4). Students and staff are responsible for knowing and complying with the Field Experience policies. Many professional programs have their own separate handbooks and specific

policies; students are also responsible for those policies and procedures.

General Eligibility Requirements for Student Teaching

Minimum eligibility requirements apply to all students. Several subject areas require a specific grade point average unique to a particular program, or additional course work as a prerequisite to student teaching. Students are urged to check with their Education Academic Services and faculty advisors to be certain that all eligibility requirements have been met. Students should check these items well in advance to preclude last-minute schedule conflicts in preparation for the student teaching semester. Minimum requirements are:

- Admission to a School of Education certification program.
- Completion of all course prerequisites, such as the teaching methods course(s) and pre-student teaching practica. Students should check for other possible course requirements in their specific area of study.
- Passing a content examination in the certification area(s).
- For world languages, an immersion experience and the appropriate score on the oral and written proficiency examinations.

Student Teaching Application Procedures

Information related to student teaching (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/field-work-student-teaching>) and the application process is available on the School of Education website. Please be aware that some program areas require students to file an application far in advance of the student teaching semester.

Alternative Placement Options for Student Teaching

Alternative placement options include placements with the Institute for Urban Education, and teacher internships under the auspices of the Wisconsin Improvement Program:

- The UW System Institute for Urban Education (<https://uwm.edu/education/community/partnerships/institute-urban-edu>) helps pre-service teachers pursue their desire to become urban educators and to provide professional development opportunities for currently practicing teachers. Not all teacher education programs participate in the institute. Students should consult with their program coordinator for more information.
- The teacher internship is a licensed, full-semester assignment that replaces the student teaching experience. Interns are under contract with a school district and paid a modest salary. Internships are rarely available; students are notified by the program coordinator when they are offered by a district and are available to our students.

Special Placements

The School of Education is committed to placing its students in classrooms with teachers we know, in schools led by principals we know. Thus, student teaching placements are made within the University of Wisconsin–Madison service

area. In general the service area is 50 miles from Madison, but individual programs may (and do) reduce the size of their service area. Occasionally, students with extenuating circumstances are allowed special placements beyond this area. "Extenuating circumstances" have included spousal/partner relocation, family emergency, or a highly specialized placement. All special placements must be approved by the student's program coordinator and Associate Dean Jeffrey Hamm. Students permitted special placements are usually liable for the cost of supervision (at least \$500). Special placements are not permitted due to financial need or to enhance employment opportunities.

Withdrawing From/Failing Field Experience Assignments

Withdrawing from a field experience has serious implications for the student's progress in the program. Students who withdraw or receive an unsatisfactory grade (including a "D") from a field experience may not repeat such experiences without approval from the program coordinator and Associate Dean Jeffrey Hamm. Students withdrawing from or receiving an unsatisfactory grade in field experiences in one major or program may not enroll in another major or program without written permission from the program coordinator and after consultation with Associate Dean Hamm.

Permission to repeat field experiences is not automatically granted. A confirmed field placement is considered an informal contractual agreement between the university and the school in which the student is located. Under this agreement, university faculty, cooperating teachers, and students assume certain responsibilities and obligations to one another. A student's withdrawal from an assignment is considered to be an exception to the agreement and should occur only under the most unusual circumstances. Because of the consequences that withdrawal from a confirmed assignment may have on a student's future progress in the teaching certification program, a student who contemplates such action is strongly urged to consult with the program coordinator and Associate Dean Hamm to fully understand the implications of such action and the options available.

Minority Group Relations and Conflict Resolution

Minority Group Relations

Wisconsin State teacher education regulations require students to complete a section titled *Minority Group Relations*. The rules identify Minority Group Relations as

- The history, culture, and tribal sovereignty of American Indian tribes and bands located in Wisconsin.
- The history, culture and contributions of women and various racial, cultural, language and economic groups in the United States.
- The philosophical and psychological bases of attitude development and change.
- The psychological and social implications of discrimination, especially racism and sexism in the American society.
- Evaluating and assessing the forces of discrimination, especially racism and sexism on faculty, students, curriculum, instruction, and assessment in the school program.

- Minority group relations through direct involvement with various racial, cultural, language and economic groups in the United States.

UW-Madison teacher education programs address these areas through course work and experiences in each professional education program. Students who successfully complete their professional program will have satisfied each of the areas of Minority Group Relations. For more detailed information about how required courses address Minority Group Relations for each program area, see the School of Education's PI 34 site (<http://www.education.wisc.edu/pi34>). Choose Certification Programs, select the program of interest, and click on Rules & Statutes.

Conflict Resolution Requirement

Wisconsin State teacher education regulations require all individuals pursuing teacher certification to have formal training in conflict resolution. This includes

- Resolving conflicts between pupils and between pupils and school staff.
- Assisting pupils in learning methods of resolving conflicts between pupils and between pupils and school staff, including training in the use of peer mediation to resolve conflicts between pupils.
- Dealing with crises, including violent, disruptive, potentially violent or potentially disruptive situations that may arise in school or activities supervised by school staff as a result of conflicts between pupils or between pupils and other persons.

All teacher certification programs include conflict resolution training in their required course work. For more detailed information about how conflict resolution is addressed in each program area, see the School of Education's PI 34 site (<http://www.education.wisc.edu/pi34>). Choose Certification Programs, select the program of interest, and click on Rules & Statutes.

Phonics

As of July 1, 1998, the State of Wisconsin requires that all persons seeking initial and renewal licenses to teach reading or language arts in grades Pre-Kindergarten to Grade 6 (PK-6) must have successfully completed instruction in teaching reading and language arts using appropriate instructional methods, including phonics. "Phonics" means a method of teaching beginners to read and pronounce words by learning the phonetic value of letters, letter groups and syllables.

The Phonics requirement applies to students completing Elementary Education and Special Education certification programs. UW-Madison students fulfill this requirement through the successful completion of courses that are already required, so no additional course work is needed to meet this statutory requirement.

Cooperatives

This licensing requirement is mandatory for secondary Social Studies (and Agri-Science) Education certification. Students with previous degrees in their subjects must also monitor and complete this requirement for certification and licensure.

Students typically complete the cooperatives requirement after being admitted to the Secondary Social Studies program and should consult with the program coordinator, Professor Alan Lockwood (lockwood@education.wisc.edu), regarding its completion.

Portfolios

Students in certification programs are required to demonstrate their knowledge and professional development through the creation and maintenance of a portfolio. A portfolio has several purposes:

- To serve as a tool for teacher learning, growth, and development. Portfolios are intended to support students' efforts to become thoughtful and effective teachers.
- To provide documentation and/or evidence that students have satisfactorily met all teacher education standards required for initial teacher certification in Wisconsin. The portfolio helps to demonstrate students' achievement of these knowledge and performance standards.
- To provide a repository for student artifacts.
- To enhance students' technical literacy through the portfolio creation.
- To support the job preparation and interview process.

Portfolios consist of a variety of artifacts which students have chosen from their educational experiences to best represent their growth and development as teachers. Artifacts can include lesson plans, classroom observations, analyses of student learning, student work samples, photographs, video clips of instruction and reflective commentaries.

The student portfolio provides a foundation for the Teacher Performance Assessment (edTPA), a standardized evaluation required by Wisconsin for teacher licensure. The edTPA process also requires students to submit artifacts. These artifacts are scored by trained evaluators using a standardized set of edTPA rubrics.

For more information about the use of the portfolio in a specific teacher education program, please contact the program coordinator.

Teacher Standards

UW–Madison teacher education students must meet all state licensing requirements for initial teaching certification in Wisconsin. These requirements, sometimes referred to as administrative rules "PI 34," mandate that individuals demonstrate proficiency on state-approved teaching standards. Each teacher education institution in Wisconsin has adopted a set of teacher education standards that meet state guidelines. These standards must be met by all students completing a licensing program. The current standards of the University of Wisconsin–Madison School of Education can be found on the school's website (<http://careers.education.wisc.edu/pi34/docs/Standards.pdf>).

APPLYING FOR A TEACHING LICENSE

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Students intending to complete a teacher certification program should monitor program requirements carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

Licensing Levels

The following licensing options are offered at UW–Madison.

- The Elementary Education program currently offers two licensing levels: *Early Childhood* and also *Middle Childhood through Early Adolescence*.
- The Special Education program certifies students at both the *Middle Childhood through Early Adolescence* level and also at the *Early Adolescence through Adolescence* level. The Special Education/Elementary Education dual major option certifies students only at the *Middle Childhood through Early Adolescence* level.
- Secondary Education programs certify students to teach their subject area at the *Early Adolescence through Adolescence* level.
- Students completing Language Education programs will be licensed at the *Early Childhood through Adolescence* level.
- Students in special fields such as Art, Communication Sciences and Disorders, Music, and Physical Education will be licensed at the *Early Childhood through Adolescence* level.

Wisconsin State Licensing

The State of Wisconsin issues an initial teaching license to certified teachers. The current fee is \$125. An online license application is available through the Department of Public Instruction (<http://dpi.wi.gov/tepd/elo>). A Criminal Background Investigation (CBI) will also be conducted by DPI. Information about fingerprint submission, when necessary, is available through the Department of Public Instruction (<http://dpi.wi.gov/tepd/licensing/fingerprint/electronic-submission>).

Before applying for a license, DPI requires the electronic submission of "Endorsed Candidate for Licensure" (ECL) data by the certifying officer of the institution where the teacher preparation was completed. For UW–Madison teacher certification students, the endorsement will come from the School of Education, 139 Education Building, 1000 Bascom Mall. Once this information has been submitted to DPI, students are notified by email that they may begin the application online.

Before endorsing a student, UW–Madison requires that (1) all certification requirements are met; (2) student teaching (following the school district calendar) is completed; (3) final grades are posted and reviewed; (4) the degree is "posted" by the registrar's office (four to five weeks after graduation); and (5) a recommendation for certification is received from the program faculty. The Wisconsin Department of Public Instruction may require an additional 6 to 12 weeks for license processing. See Educator Licensing (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/educator-licensing>) for additional information about the licensing process.

Licensing Outside of Wisconsin

To apply for a license in a state other than Wisconsin, first check out the application requirements of that state. The University of Kentucky has a website that provides links (<http://2b.education.uky.edu/certification-requirements-by-state>) to teacher licensing agencies in all 50 states, the District of Columbia, and Puerto Rico.

Many states have a verification form that needs to be signed by a UW–Madison certification officer. This form verifies that a state-approved licensing program has been completed. These forms should be sent to Education Academic Services at 139 Education Building, 1000 Bascom Mall, or by email (mlpatton@wisc.edu) to be completed. If the form requests information about practicum and student teaching assignments (names of schools, grade levels, dates, etc.), this information must be completed before sending the form to EAS.

RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1259) page.

ENGLISH LANGUAGE ARTS, MINOR

This minor may be completed only by students admitted to the Middle Childhood through Early Adolescence options of Elementary Education. Students may wish to consult with an advisor in Education Academic Services, 139 Education Building, 608-262-1651, to discuss course selection and other issues related to this field of study.

HOW TO GET IN

This minor may be completed only by students admitted to the Middle Childhood through Early Adolescence options of Elementary Education. Students admitted to the Content Focus option are asked to identify the minor of their choice when admitted to the program. Students admitted to the other Middle Childhood through Early Adolescence options should fill out a minor declaration form available in Education Academic Services, Room 139 Education Building.

REQUIREMENTS

The English language arts minor requires the completion of 24 credits to include the requirements of each group of courses. A minimum cumulative grade point average of 2.75 is required, based on all UW–Madison coursework included in the minor.

The courses listed here will meet the requirements in each category, but additional courses can be considered.

INTRODUCTORY LITERATURE

Complete two introductory literature courses. Courses with a Literature breadth designation from many departments—e.g., Comparative Literature, Classics, African Languages and Literature, English, or Theatre—may be selected to meet this requirement.

INTERNATIONAL LITERATURE

Select one course from the following:

International Literature Courses		
Code	Title	Credits
African Languages and Literature		
AFRICAN/ FOLKLORE 210	The African Storyteller	3
AFRICAN 211	The African Autobiography	3
AFRICAN 300	African Literature in Translation	3
AFRICAN 405	Topics in African Cultural Studies	3
AFRICAN/ FOLKLORE 411	African Poetry	3-4
AFRICAN 412	Contemporary African Fiction	3-4
AFRICAN/ AFROAMER 413	Contemporary African and Caribbean Drama	3-4
AFRICAN/ FOLKLORE 471	Oral Traditions and the Written Word	3-4
Folklore		
FOLKLORE 100	Introduction to Folklore	3
FOLKLORE/ AFRICAN 210	The African Storyteller	3
FOLKLORE 220	The Folk Tale	3
FOLKLORE/ AFRICAN 270	The Hero and Trickster in African Oral Traditions	3
FOLKLORE/LCA 279	Introduction to Turkish Folk Literature	3
FOLKLORE/ LITTRANS/ MEDIEVAL/ RELIG ST 342	In Translation: Mythology of Scandinavia	3-4
FOLKLORE/ LITTRANS/ MEDIEVAL 345	In Translation: The Scandinavian Tale and Ballad	3-4
FOLKLORE/ LITTRANS/ MEDIEVAL 346	In Translation: The Icelandic Sagas	3-4
FOLKLORE/ LITTRANS 347	In Translation: Kalevala and Finnish Folk-Lore	3-4
FOLKLORE/LCA 374	Indian Folklore	3
FOLKLORE/ GEN&WS 428	Gender and Expressive Culture	3
FOLKLORE/ SLAVIC 444	Slavic and East European Folklore	3
FOLKLORE 460	Folk Epics	3
FOLKLORE/ AFRICAN 471	Oral Traditions and the Written Word	3-4
FOLKLORE 510	Folklore Theory	3
FOLKLORE 517	The Irish Tradition	3
FOLKLORE 518	The Scottish Tradition	3
English		
ENGL/ AMER IND 275	American Indian Oral Literatures	3
Library and Information Studies		
L I S 624	Story Telling and Oral Literature	3

Any Literature in Translation course with the "L" breadth code**AMERICAN SOCIAL LITERATURE**

This requirement addresses cultural diversity from the perspective of race, ethnicity, class, gender, sexual orientation, or ability.

Select one course from the following:

American Social Literature courses		
Code	Title	Credits
Afro-American Studies		
AFROAMER 155	They: Race in American Literature	3
AFROAMER/ GEN&WS 222	Introduction to Black Women Writers	3
AFROAMER 225	Introduction to African American Dramatic Literature	3
AFROAMER 227	Masterpieces of African American Literature	3
AFROAMER 265	African-American Autobiography	3
AFROAMER/ GEN&WS 267	Artistic/Cultural Images of Black Women	3
AFROAMER 501	19th Century Afro-American Literature	3
AFROAMER 525	Major Authors	3
AFROAMER 605	Critical and Theoretical Issues in Afro-American Literature	3
American Indian Studies		
AMER IND/ ENGL 172	Literatures of Native America	3
AMER IND/ ENGL 275	American Indian Oral Literatures	3
English		
ENGL 171	Literature, Gender, and Sexuality	3
ENGL 173	Ethnic and Multicultural Literature	3
ENGL/GEN&WS 248	Women in Ethnic American Literature	3
ENGL/GEN&WS 250	Women in Literature	3
ENGL/ ASIAN AM 270	A Survey of Asian American Literature	3
ENGL 461	Topics in Ethnic and Multicultural Literature	3
ENGL/ASIAN AM/ GEN&WS 464	Asian American Women Writers	3
ENGL/JEWISH 593	Literature of Jewish Identity in America	3
ENGL/ AFROAMER 672	Selected Topics in Afro-American Literature	3

MASS COMMUNICATION

Select one course from the following:

Mass Communication courses		
Code	Title	Credits
Afro-American Studies		
AFROAMER 303	Blacks, Film, and Society	3
American Indian Studies		

AMER IND 325	American Indians in Film	3
Asian American Studies		
ASIAN AM/ JOURN 662	Mass Media and Minorities	4
Chican@ and Latin@ Studies		
CHICLA/ COM ARTS 419	Latino/as and Media	3
Communication Arts		
COM ARTS 250	Survey of Contemporary Media	3
COM ARTS 350	Introduction to Film	3
COM ARTS 351	Television Industries	3
COM ARTS 355	Introduction to Media Production	4
History		
HISTORY/ CHICLA 468	Popular Culture in the Multi-racial United States	3-4
HISTORY/ JOURN 560	History of Mass Communication	4
Journalism		
JOURN 201	Introduction to Mass Communication	4
JOURN 561	Mass Communication and Society	4
JOURN 565	Effects of Mass Communication	4
JOURN/COM ARTS/ HDFS 616	Mass Media and Youth	3
Life Sciences Communication		
LSC 440	Contemporary Communication Technologies and Their Social Effects	3

SPEECH COMMUNICATION

Select one course from the following:

Speech Communication courses		
Code	Title	Credits
Communication Arts		
COM ARTS 260	Communication and Human Behavior	3
COM ARTS 262	Theory and Practice of Argumentation and Debate	3
COM ARTS 266	Theory and Practice of Group Discussion	3
COM ARTS 272	Introduction to Interpersonal Communication	3
COM ARTS 360	Introduction to Rhetoric in Politics and Culture	3
COM ARTS 368	Theory and Practice of Persuasion	3
COM ARTS 371	Communication and Conflict Resolution	3
Theatre		
THEATRE 150	Introduction to Acting	3
THEATRE 250	Fundamentals of Acting	3

ENGLISH COMPOSITION

Select one course from the following:

English Composition courses

Code	Title	Credits
ENGL 201	Intermediate Composition	3
ENGL 207	Introduction to Creative Writing: Fiction and Poetry Workshop	3
ENGL 307	Creative Writing: Fiction and Poetry Workshop	3
ENGL 400	Advanced Composition	3
ENGL 407	Creative Writing: Nonfiction Workshop	3
ENGL 408	Creative Writing: Fiction Workshop	3
ENGL 409	Creative Writing: Poetry Workshop	3
ENGL 410	Creative Writing: Playwriting Workshop	3
ENGL 508	Creative Writing: Advanced Fiction Workshop	3
ENGL 509	Creative Writing: Advanced Poetry Workshop	3

ELECTIVES

Select any course from the areas above (excluding introductory literature) or from the following options to reach the minimum of 24 credits:

Additional elective courses

Code	Title	Credits
ENGL 314	Structure of English	3
ENGL 316	English Language Variation in the U.S.	3
ENGL 416	English in Society	3
ENGL 417	History of the English Language	3
FOLKLORE/ ANTHRO/INTL ST/ LINGUIS 211	Global Language Issues	4
LINGUIS 101	Human Language	3
LINGUIS/ ANTHRO 301	Introduction to Linguistics: Descriptive and Theoretical	3
LINGUIS 103	Language, History, and Society	3
LINGUIS 303	Language, History, and Society	3
LINGUIS/ANTHRO/ LCA 430	Language and Culture	3-4

ENGLISH, MINOR

This minor may be completed only by students admitted to the Middle Childhood through Early Adolescence options of Elementary Education. The Department of English is housed in the College of Letters & Science. Students may wish to consult with the undergraduate advisor in English to discuss course selection and other issues related to this field of study.

Karen Redfield, Undergraduate Advisor

 600 North Park Street

English Undergraduate Advising (<https://english.wisc.edu/undergraduate-advising.htm>)

HOW TO GET IN

This minor may be completed only by students admitted to the Middle Childhood through Early Adolescence options of Elementary Education. Students admitted to the Content Focus option are asked to identify the minor of their choice when admitted to the program. Students admitted to the other Middle Childhood through Early Adolescence options should fill out a minor declaration form available in Education Academic Services, Room 139 Education Building.

REQUIREMENTS

The English minor requires the completion of 24–30 credits to include the coursework listed below. A minimum cumulative grade point average of 2.75 is required, based on all UW–Madison coursework included in the minor.

Note: Six credits of introductory literature must be completed prior to enrolling in coursework required for the English minor. Courses with an Literature breadth designation from many departments—e.g., Comparative Literature, Classical & Ancient Near Eastern Studies, African Languages and Literature, or Theatre and Drama—may be selected to meet this requirement. Students are encouraged to explore these options, although introductory English department coursework may also be used in this capacity.

Code	Title	Credits
Required Courses		
Complete the following:		
ENGL 241	Literature and Culture I: to the 18th Century	3
ENGL 242	Literature and Culture II: from the 18th Century to the Present	3
CURRIC 431	Young Adult Literature for Schools (or approved substitute)	3
ENGL 314	Structure of English (students are encouraged to take this course as early as possible)	3
Shakespeare		
Select one of the following:		
ENGL 219	Shakespearean Drama	3
ENGL 220	Shakespearean Drama	3
ENGL 431	Early Works of Shakespeare	3
ENGL 432	Later Works of Shakespeare	3

Elective

Select one English department elective numbered 204 and above, except for 207 and 236¹

Ethnic Literature

Select one 3-credit intermediate or advanced ethnic literature course²

Applied English Linguistics

Select one of the following (listed in order of preference):		
ENGL 516	English Grammar in Use	3
ENGL 417	History of the English Language	3

ENGL 316 English Language Variation in the U.S.

ENGL 416 English in Society

ENGL 414 Global Spread of English

Composition for English Teachers

Select a course in consultation with an advisor in Education Academic Services 3

Additional Credits

Select credits, if necessary, to reach the minimum of 24 credits. Introductory literature may be used.

¹ Students considering a Letters & Science English major should select a pre-1800, non-Shakespeare literature course.

² Check the Schedule of Classes for Intermediate/Advanced-level courses that are designated as both Literature and Ethnic Studies courses.

FRENCH, BSE

WORLD LANGUAGE EDUCATION PROGRAM (CURRENTLY CHINESE, FRENCH, GERMAN, JAPANESE, LATIN, AND SPANISH MAJORS)

The mission of the World Language Education (WLE) program is (1) to promote a community-based approach to world language instruction; (2) to educate teachers who understand different cultures, are proficient in their languages, routinely visit other countries, and can build bridges across nations, races, socioeconomic groups, cultures, and languages; and (3) to certify teachers who are prepared to serve the global needs of increasingly multicultural and multilingual schools and are strongly committed to act for a world in which shared understanding through conflict resolution, negotiation and communication are guiding principles.

There is a growing need for multilingual teachers from diverse backgrounds. The WLE faculty encourages qualified applicants from under-represented groups to apply for admissions to the program. The director of the World Language Education program is Prof. François Tochon, ftochon@education.wisc.edu, 544C Teacher Education Building.

The objectives of the K–12 WLE program are

- to provide a philosophy of action designed to promote thoughtful curriculum development and classroom teaching in WLE;
- to provide regular contacts with the global community and in-service teachers in schools through field evenings, workshops, conferences, and other professional meetings;
- to provide clinical settings which enhance opportunities for beginning teachers to develop skillful practice and build bridges across languages, cultures, races, and nationalities;
- to help student teachers use multilingual educational technologies and document their experiences in electronic portfolios and implement research-based practices in their teaching;

- to provide university instructors and supervisors who are well-versed in WLE, who have an international orientation, and who are both approachable and helpful to student teachers.

Program majors include Chinese, French, German, Japanese, Latin, and Spanish, and may also include Italian and Portuguese if field placements are available in these subject areas. Completion of the WLE program leads to a bachelor of science degree in education with a major in the specific subject area. Wisconsin state licensing regulations require that students are licensed to teach at the early childhood through adolescence (approximately kindergarten through high school) levels.

Oral and written examinations are required for all world language teacher candidates enrolled in Wisconsin educator preparation programs, as is an extensive immersion experience. (Students becoming certified to teach Latin are exempt from both the Oral Proficiency Exam and immersion experience requirement.)

HOW TO GET IN

PROGRAM ADMISSION OVERVIEW

Students are admitted to the World Language Education program once a year, effective in the fall. Selection is made the previous spring.

ENTERING THE SCHOOL OF EDUCATION

NEW AND CURRENT UW–MADISON STUDENTS

New freshmen and transfer students interested in World Language Education are admitted directly to the School of Education with a “pre-professional” classification. This classification indicates that a student is interested in a program offered by the school, but has not applied and been admitted to the professional program. Students interested in World Language Education receive the pre-professional classification of PRS.

On-campus students wishing to be admitted to the school while working on eligibility requirements and application can apply for admission to the school by completing a Pre-Professional Application (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>). A minimum GPA of 2.5, based on UW–Madison coursework, is required to transfer into the school. This GPA may be modified by the Last 60 Credits rule (detailed below (p. 1335)). It is not necessary to be a pre-professional student before applying to a professional program.

It is strongly recommended that students interested in a School of Education program meet with an academic advisor in Education Academic Services (EAS), 139 Education Building, 1000 Bascom Mall; call 608-262-1651 to schedule an appointment with an advisor.

PROSPECTIVE TRANSFER STUDENTS

Applicants not already enrolled on the UW–Madison campus must be admissible to the university to enroll in a School of Education program. Admission to UW–Madison requires a separate application and admission process. See UW–Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu>) for application information. Prospective transfer students are strongly advised to meet with an Education Academic Services advisor in advance of their application; to schedule, call 608-262-1651.

STUDENTS WITH A PREVIOUS DEGREE

Prospective applicants who already hold an undergraduate degree are strongly encouraged to meet with an Education Academic Services advisor in advance of their application. Consultations with advisors are available in person or via telephone; to schedule, call 608-262-1651.

Applicants who already hold an undergraduate degree are admitted to the School of Education as either an *Education Special student* or a *second degree student*, depending on their interests and academic background. Admission as an Education Special student indicates that the student has an interest in pursuing certification in a subject area studied during the initial degree; another degree is not awarded for this "certification only" coursework. Second degree students are seeking a second, unrelated degree from the School of Education, which may, or may not, include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission. More information is available here (p. 1239).

NATIVE AND HERITAGE SPEAKERS

Native or heritage speakers of a language major offered within the World Language Education program are welcome to pursue admission to the World Language Education program. Prospective applicants and transfer students who have previous experience with a language are encouraged to consult with an advisor in Education Academic Services as early as possible; to schedule, call 608-262-1651.

Native or heritage speakers must take a placement exam in the corresponding language to determine the appropriate level of remaining instruction in grammar, communication standards and social customs, and other topics related to language acquisition and proficiency. Placement examinations for Spanish, French, and German are offered on campus through Testing & Evaluation Services or the University of Wisconsin System's Regional Placement Testing Program. Placement examinations for Chinese, Japanese, Italian, Latin, and Portuguese are administered by faculty or staff within the relevant academic department. For more information regarding placement in language courses, consult the Languages at UW–Madison placement guide (<http://languages.wisc.edu/advising/placement>).

APPLICATION AND ADMISSION

Applicants to the World Language Education program will be selected once a year, during the spring semester. Admission decisions will be based on coursework completed through the preceding fall semester. Admission is provisional until spring semester work has been completed and posted, and Education Academic Services staff have verified that students have submitted basic skills test scores, met minimum grade point averages, and earned minimum credits in their major. Admitted students will begin the sequence the following fall semester.

Resources limit the number of students who can be served by the UW–Madison World Language Education teacher education program. In recent years the World Language Education program has been able to accommodate all qualified applicants; however, if the number of qualified applicants to World Language Education exceeds program resources, admission will become limited and competitive. If this

happens, meeting or surpassing the minimum eligibility criteria will not guarantee admission.

ELIGIBILITY FOR ADMISSION

Requirements and selection criteria may be modified from one application/admission period to the next. Any changes to these criteria may occur up until the application period begins. Potential applicants should consult the School of Education's Apply to a Program (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>) page for application deadlines and detailed information regarding current eligibility requirements and selection criteria prior to submitting an application.

To be considered for admission, students must:

- earn 54 or more transferable semester credits (junior standing) by the end of the spring semester of the application year.
- complete all but six credits of the relevant World Language major.
- earn a minimum 2.75 grade point average on all major coursework completed.
- earn a cumulative GPA of at least 2.75 (on a 4.00 scale).¹
- complete the Basic Skills Requirement. All prospective teacher education students must submit test scores to the School of Education to be eligible for professional program admission. Students may use their ACT, SAT, or GRE scores, or they may take the Praxis Core Academic Skills for Educators Test (formerly the Praxis I/PPST). These tests meet Wisconsin's basic skills test requirement for prospective teachers. For more information see the document Academic Tests for Prospective Teachers (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/student-testing-and-assessment>).
- have completed, or be in the process of completing, an approved Immersion Experience required for the World Language Education degree program.
- submit completed program application form(s), transcripts, and all other related application materials by the application deadline specified on the School of Education's Apply to a Program (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>) page.

¹ A comprehensive cumulative GPA of all college-level, transferrable coursework attempted on both the UW–Madison campus coursework and coursework taken at any other colleges or universities may be calculated for the exclusive purpose of establishing an applicant's eligibility for consideration. Both the comprehensive cumulative GPA and the comprehensive cumulative GPA based on a student's last 60 credits may be calculated. See Last 60 Credits Rule (detailed below). If admitted, students must earn the minimum cumulative GPA for UW–Madison coursework established by their program and the School of Education each semester after admission.

Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) More information regarding this rule is available here (p. 1239).

APPLYING FOR CERTIFICATION IN MORE THAN ONE SUBJECT AREA

Students may apply to be certified in more than one language. Eligibility requirements must be met and separate applications must be filed for each area of interest. Students must be admitted as a major in at least one of the program areas as it is not possible to be admitted only to complete a minor.

Students interested in combining the World Language Education degree program with certification in another area altogether must apply to both programs and meet the minimum criteria for admission to each program. It is suggested that students apply as majors in each area of interest, thus maximizing the chances of admission. Certification in two different areas requires the consent and cooperation of the World Language Education program coordinator and the faculty coordinator of the other subject area. Not all subjects can be combined with the World Language Education degree program.

While multiple majors or major–minor combinations are feasible and may be advantageous as a career strategy, it may take extra time to complete the additional subject area coursework. Students are encouraged to work closely with their Education Academic Services advisor to assess the possibility of completing certification in more than one area and to coordinate the requirements of multiple certifications.

PROGRAM ADMISSION SELECTION CRITERIA

The files of all applicants will be individually and holistically reviewed by a panel of World Language professionals. The criteria used for admission include the following:

- **Academic Qualifications:** The applicant demonstrates mastery of the target language and knowledge of its literature, civilization, and culture.
- **Career Maturity:** The applicant demonstrates commitment to teaching the target language to elementary, middle, and high school students, including consideration of his or her own strengths and limitations as a potential teacher.
- **Ability to Relate to Youth:** The applicant demonstrates the ability to work effectively with young people.
- **Commitment to All Students:** The applicant demonstrates commitment to working with all students including those of different racial, ethnic, and socioeconomic backgrounds, and students with disabilities, not just the economically privileged or highly motivated.
- **Interpersonal Skills:** The applicant demonstrates the ability to work effectively with peers, other professionals, and members of the community outside of school settings.

The application files, including immersion experiences and oral proficiency, are rated according to the above criteria for each language. A final cohort is selected along with rank-ordered alternates, based on a combination of ratings made by the World Language Education review committee and judgement by the faculty program coordinator about optimal cohort characteristics for each language. The availability of field

placements in the subject area may also influence the selection process. Admission procedures are reviewed every other year to ensure fairness and effectiveness.

CRIMINAL BACKGROUND INVESTIGATION

The Department of Public Instruction (DPI) is required by law to conduct a background check on each applicant for a Wisconsin educator license. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety or education of PK-12 pupils. Local school districts also will conduct criminal background checks routinely on teacher education students prior to the start of in-classroom field work. Admitted applicants to any teacher education program who have a positive background check should confer with the Academic Dean's Office (Room 139 Education, 1000 Bascom Mall) about the potential impact of this on field placements and licensure.

An individual who is deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the academic dean in Education Academic Services.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

PROGRAM STRUCTURE

This program has five components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.

- *Prerequisite coursework* prepares students for work in the major. Program applicants must also complete and document an *immersion experience* as a prerequisite to being admitted to the professional program.
- *Major coursework* offers in-depth study of the subject students will teach.
- *Professional education* coursework includes an examination of the schools' relationship to our society and the processes by which students grow and learn. The *professional sequence* is a four-semester sequence of world language teaching methods course work and field experiences in schools.
- *Elective* coursework is taken to reach the minimum of 120 credits required for the degree.

- Laboratory Science
- Science Electives

Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

Complete Liberal Studies Electives (p. 1246) to total 40 Credits.

PREREQUISITE COURSEWORK

Students must be at a fifth semester level of French or demonstrate a proficiency level equivalent to French 204 Fourth Semester French to begin the major requirements. If not at that level, the following courses should be taken. Prerequisite courses do not count toward major credits, but may be used to meet the liberal studies requirements.

Code	Title	Credits
FRENCH 101	First Semester French	4
FRENCH 102	Second Semester French	4
FRENCH 203	Third Semester French	4
FRENCH 204	Fourth Semester French	4

MAJOR REQUIREMENTS

Complete a minimum of 36 credits to include at least 24 upper-level/advanced credits (300 and above). The credits of the major required for admission must be taken from this coursework. At least 15 credits of upper-level major coursework must be completed in residence on the UW–Madison campus.

Code	Title	Credits
FRENCH 271	Introduction to Literary Analysis	3-4
FRENCH 228	Intermediate Language and Culture	3-4
FRENCH 321	Introduction to Medieval, Renaissance, and Early Modern Literature	3
FRENCH 322	Introduction to Literature of Modernity	3
FRENCH 347	Introduction to Medieval, Renaissance, and Early Modern Civilization ¹	3
Two advanced language courses (311 and above) ²		6-8
Two additional courses in literature or civilization numbered at the 400 or 500 level		6-8
FRENCH 590	Advanced Phonetics	3

Additional credits as necessary to complete the 36 credit total or 24 advanced level credits required for the French major. Introductory French coursework (101–204) may be used to meet the 36 credit total, but all other requirements must be met.

¹ FRENCH 348 Modernity Studies may be substituted with permission from the faculty advisor.

The four semesters of professional coursework are followed sequentially and taken in consecutive semesters. Because of the program structure, students are expected to have completed most of their major and liberal studies coursework by the start of the professional sequence.

SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1246) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science. Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1246) for information about course selection and approved course options.

Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs, Athletic Training, and Kinesiology; Exercise and Movement Science have unique requirements in this category.

Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science

² It is strongly recommended that students complete fourth year language practice (FRENCH 311 and above), FRENCH 590 Advanced Phonetics, and FRENCH 347 Introduction to Medieval, Renaissance, and Early Modern Civilization and Early Modern Civilization, before the first methods/student teaching semester of the professional program.

ORAL AND WRITTEN PROFICIENCY EXAMS

ABOUT THE ORAL AND WRITTEN PROFICIENCY EXAMS

Students admitted to the World Language Education program must provide evidence of having earned at least an Intermediate High score on an American Council on the Teaching of Foreign Languages (ACTFL) **Oral Proficiency Interview (OPI)**. Latin Education students are exempt from this requirement, see below.

The interview must be taken prior to beginning the first student teaching experience (second semester of the professional sequence). Students should be aware that it may take as long as three months to obtain results, and factor this delay into the scheduling of the OPI. If the score of Intermediate High is not made after the first examination, a student will be asked to take measures to improve their spoken language proficiency before continuing in the program. The student must repeat the OPI and achieve the required Intermediate High proficiency level.

All students in World Language Education (except Latin Education), are also required to complete the **Writing Proficiency Test (WPT)** no later than the third semester in the program. A proficiency level of Intermediate High is also required for this examination. Students must take and pass the WPT in their program area and the scores must be received by Education Academic Services before beginning the final student teaching semester. Students who do not take and pass the exam will not be permitted to student teach. The WPT meets the Department of Public Instruction's content exam requirement, a requirement usually met by taking the appropriate Praxis II test.

Both the Oral Proficiency Interview and the Writing Proficiency Test are administered by Language Testing International (LTI) (<http://www.languagetesting.com>). Their address is LTI, 3 Barker Avenue, Suite 310, White Plains, NY 10601; 800-486-8444. Students are responsible for costs associated with the OPI and the WPT.

Students seeking Latin certification will be required to take a proficiency exam administered by the Department of Classical and Ancient Near Eastern Studies prior to beginning the first student teaching experience (second semester of the professional sequence). This exam will take the place of the OPI and WPT required for certification in other languages.

See the World Language Education faculty program coordinator with questions about these requirements.

IMMERSION EXPERIENCE

ABOUT THE IMMERSION EXPERIENCE

Participation in an intensive immersion experience is one of the most important and meaningful ways of developing competence in a language. In preparation for the proficiency exams, students seeking certification in a language must participate in an approved immersion experience which emphasizes prolonged and intensive interaction within the target language and culture.

Program applicants completing French, German, and Spanish majors must complete and document a full-semester (or minimum four-month-long) immersion experience as a prerequisite to being admitted to the professional program. Students completing majors in Chinese and Japanese must spend at least one academic year living in China or Japan, respectively—also a prerequisite to being admitted to the professional program.

The immersion experience must be completed by July 15 preceding the program start. The experience must also have been completed no more than three years before this date.

An approved experience involves significant interaction and day-to-day functioning in the host language, including use of the target language on a daily basis such as in college-level courses, a training program, or a work experience. The immersion experience need not involve attendance in an academic program only, but may take some form such that the language of routine communication is the target language. Simply living with relatives or traveling as a tourist is not considered an immersion experience for the purposes of admission to this program. Most students choose to participate in a structured educational or exchange immersion program.

Students should consult with the International Academic Programs (IAP) (<http://www.studyabroad.wisc.edu>) office, 106 Red Gym, regarding campus-based study abroad programs. These experiences need not receive prior approval. Experiences through off-campus programs must have prior approval of the World Language Education faculty program coordinator. To obtain prior immersion experience approval, download and complete the approval form (<http://www.education.wisc.edu/soe/academics/undergraduate-students/forms>), meet with the faculty coordinator, and obtain authorization. Bring two copies of the form to your meeting, obtain signatures on both, and leave one copy with the coordinator.

Native speakers are normally considered to have fulfilled this requirement without further documentation, especially if they received their secondary education in an environment where the target language is the primary means of communication. Heritage speakers are usually considered to have fulfilled this requirement; applicants must consult with the program coordinator about this requirement.

PROFESSIONAL EDUCATION REQUIREMENTS (PROFESSIONAL SEQUENCE)

ABOUT THE PROFESSIONAL SEQUENCE

The professional program is typically a full-time, four-semester sequence of education courses and school-based field experiences. The four semesters of required professional coursework must be followed sequentially and taken in consecutive semesters. Students must enroll in all required coursework outlined in each semester of the program, even if similar coursework was taken at another institution. Students begin the professional sequence in the fall.

It is expected that most major and liberal studies coursework will be completed by the start of the professional sequence. The structure of the sequence allows very little time to pursue remaining coursework in these areas. Many students elect to finish their remaining requirements during the summer, or after the sequence has been completed. In addition, ACTFL OPI certification of speaking ability in the language rated Intermediate High or above is required by the end of the first semester

in the program. Students must also complete the Writing Proficiency Test (WPT) no later than their third semester in the program. A rating of Intermediate High or above must be earned before a student is allowed to participate in the final student teaching semester. See further information under Oral and Written Proficiency Exams.

Students admitted to two areas of language certification follow the same four-semester sequence as single certification students; consult with the World Language Education program coordinator to arrange sequence requirements.

The professional program is a full-time commitment and places heavy demands on students' time and energy. The professional sequence is particularly taxing for students completing certification in two subject areas. Students must make satisfactory progress in their program to continue. This professional judgment is made by the faculty program coordinator in consultation with cooperating teachers and supervisors.

PROFESSIONAL SEQUENCE COURSE REQUIREMENTS

Complete all of the courses listed below. *Required courses* must be taken during the semester listed. *Other courses* may be taken at any time, but a suggested course sequence is provided.

Code	Title	Credits
Semester 1		
<i>Required Courses</i>		
CURRIC 342	Teaching World Languages (K-8)	3
CURRIC 243	Practicum in World Languages (K-12) ¹	3
<i>Other Courses</i>		
CURRIC/ RP & SE 506	Strategies for Inclusive Schooling	3

Semester 4		
<i>Required Courses</i>		
CURRIC 443	Student Teaching in World Languages (6-12) ⁴	9

CURRIC 564	Advanced Problems on the Teaching of World Languages	3
------------	--	---

- ¹ The practicum will take place three days a week; placement will probably be at the elementary level. Fieldwork this semester is a half-time commitment and encompasses an entire semester based on the UW–Madison calendar. Placements are made within a 50-mile field experiences service area and may not necessarily be in the city of Madison.
- ² Placement will probably be at the elementary level, three days a week. Fieldwork this semester is a half-time commitment and encompasses an entire semester based on the UW–Madison calendar.
- ³ Placement will probably be at the middle school level. Fieldwork this semester is a half-time commitment and encompasses an entire semester based on the school district calendar. (Fall semester extends from late August through mid-January; spring semester extends from mid-January through early mid-June.)
- ⁴ Student teaching this semester is a full-time commitment and will be at the high school level. Fieldwork this semester encompasses an entire semester based on the school district calendar.

ELECTIVE COURSEWORK

Complete additional coursework as needed to reach the minimum of 120 credits required for the degree.

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

Graduation requirements are based on UW–Madison coursework.

- 2.75 cumulative grade point average. This may be modified by the Last 60 Credits Rule (p. 1239).
- 2.75 cumulative grade point average in all major coursework
- 2.75 cumulative grade point average in all upper-level major coursework
- 2.75 cumulative grade point average in all professional education coursework
- Degree candidates must complete at least 120 total credits.
- No more than 40 credits from a single academic department may be applied toward the 120 minimum credits required for graduation.
- Major residency. Degree candidates must complete at least 15 credits of upper-level major coursework in residence on the UW–Madison campus.
- Senior residency. Degree candidates must complete their last 30 credits in residence on the UW–Madison campus. Student teaching and practicum work are considered part of the 30 credits.

DEGREE AUDIT (DARS)

At UW–Madison, a DARS report is used to document a student's progress toward the completion of their degree. This degree audit identifies the requirements that have already been completed, and also those that remain unsatisfied. A DARS report can offer suggestions about appropriate courses that may be taken to meet specific requirements and can assist in the academic planning process.

Students can access DARS reports through their Student Center in *My UW–Madison*. Go to the Academics tab and find DARS on the dropdown menu.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program or major on campus. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) should request a "what if" DARS report of their professional program of interest.

DARS is not intended to replace student contact with academic advisers. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is the document of record, i.e., certifying document of degree completion, for program areas in the School of Education.

ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW–Madison's program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction. Many of these requirements are embedded within the program's requirements and require no additional attention. The endorsement of the program coordinator/faculty is also required to receive certification through UW–Madison.

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license.

Detailed information about certification requirements and applying for a license is available under Certification/Licensure (p. 1342).

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. In Semester 1, prior to starting student teaching, students must have acquired Intermediate High proficiency in their target language on the ACTFL OPI scale as measured by two independent external evaluators.
2. In Year 1, student teachers must demonstrate the ability to teach in a K-8 context, as evaluated by their University supervisor and their mentor teacher through repeated direct observations.
3. During their content courses, students must meet (a) teacher education standards; and (b) ACTFL standards, as measured by (a) formative and summative evaluation of their assignments; (b) Teacher Education portfolio.
4. In Year 2, student teachers must demonstrate the ability to teach in a 6-12 school context, as evaluated by their University supervisor and their cooperating teacher through repeated direct observations.
5. To get certified by the Department of Public Instruction, at the end of Year 2, student teachers must have successfully completed an EdTPA Portfolio of their classroom experiences that demonstrates professionalism and meets the EdTPA standards, as evaluated by external evaluators.

ADVISING AND CAREERS

FRENCH EDUCATION ADVISING

Consult with advising staff at Education Academic Services (EAS), Room 139 Education Building, 1000 Bascom Mall, 608-262-1651, for general questions regarding certification to teach French. Students may want to consult an undergraduate advisor (https://frit.wisc.edu/undergraduate/french/academic_advising) in the French and Italian department regarding course sequencing and other aspects of this field of study.

The director of the World Language Education program is Professor François Tochon, ftochon@education.wisc.edu, 544C Teacher Education Building.

GENERAL SCHOOL OF EDUCATION ADVISING

All undergraduate students in the School of Education are served by three offices devoted to academic and/or career advising. Each student in the School of Education is assigned at least one advisor and is encouraged to meet with the advisor on a regular basis. Students will also be assigned a faculty or staff advisor when admitted to the professional component of their degree program. Departmental advisors provide more in-depth knowledge of the major and of courses offered by the department.

UNDERGRADUATE ADVISING AND ACADEMIC DEAN'S OFFICE—EDUCATION ACADEMIC SERVICES (EAS)

139 Education Building, 1000 Bascom Mall; 608-262-1651
www.education.wisc.edu/soe/academics/undergraduate-students/academic-advising (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-advising>)

Education Academic Services (EAS) is the undergraduate dean's office for students in the School of Education. Staff members interpret school regulations, policies, and program requirements; take exceptions around requirements and deadlines; advise current and prospective students; monitor students having academic difficulties; coordinate field placements; facilitate the program admissions process; and maintain the official files of students in the school.

Students should meet with an advisor during their first semester on campus (if not before) and are encouraged to meet with an advisor at least once a semester. This is particularly important during the freshman and sophomore years. Appointments may be arranged by calling or visiting the office.

EAS advisors answer questions and provide guidance to current and prospective students. They consult with and refer students to faculty members and departmental advisors. Once a student is admitted to a professional program within the School of Education, he or she will also be assigned a faculty or staff advisor. Advising then becomes a partnership, with EAS and OURR advisors continuing to help students with course selection, degree progress monitoring, academic difficulties, and interpretation of policies and procedures.

Program advisors help students select and plan a program of study in the major, negotiate issues within the department, and, in the case of certification programs, follow the students' progress through their professional courses. These divisions are flexible, and students are encouraged to consult with all advisors who can help with a situation or answer a question.

OURR: OFFICE OF UNDERGRADUATE RECRUITMENT AND RETENTION (STUDENT DIVERSITY PROGRAMS)

105 Education Building, 1000 Bascom Mall, 608-262-8427 or 608-262-1651
www.education.wisc.edu/sdp (<http://www.education.wisc.edu/sdp>)

The UW–Madison School of Education is committed to promoting equity and increasing diversity in its programs. OURR staff work collaboratively with Education Academic Services and campus and community partners to support underrepresented students interested in majors in the School of Education.

OURR staff perform outreach, recruitment, and advising on behalf of the School. OURR staff also support current students with their personal and professional growth, their transition from high school to college, financial aid, and career exploration.

OURR works to build a network of students and graduates who may strengthen, transform, and lead their communities through education, service, and other contributions. Students are invited to visit OURR staff at 105 Education Building—stop in, or call one of the numbers listed above to set up an appointment.

SCHOOL OF EDUCATION CAREER CENTER

L107 Education Building, 1000 Bascom Mall, 608-262-1755
<http://careercenter.education.wisc.edu/>

Need assistance with any of the following?

- Exploring career options linked to School of Education majors
- Seeking a major that incorporates individual passions, interests, and values that will help one reach specific career goals

- Researching graduate schools and preparing application materials
- Beginning a job search and learning where to start and what to do
- Seeking assistance with developing a résumé, a cover letter, or interviewing skills
- Networking and connecting with potential employers

The Career Center provides resources and individual consultations to assist students in reaching their career goals. A plethora of resources can be found on the Career Center website (<http://careercenter.education.wisc.edu/>):

- Explore career possibilities for specific majors in *Investigate Career Options*. This section of the website provides tools for clarifying a student's personal criteria for success, linking specific career options to majors, and identifying steps for career/major selection. It includes strategies for making the most of a student's academic and student experience.
- Confirm major and career decisions. Gain hands-on experience in the career field of study. Assess the perceptions of selected career and major options for accuracy. Develop professional and soft skills. The *Test Drive and Confirm Career Choice* section provides strategies for acquiring real-world experience.
- Preparation is critical for entering one's next career phase. Learn about graduate school requirements and the application process. Develop promotional materials for employers and/or graduate schools and obtain feedback and suggestions for enhancing them. Acquire materials that support one's applications. The *Prepare and Connect* section provides offers additional details.
- *Implement* helps students plan for the future. Attend recruiting events. Apply for graduate school or for job opportunities. Practice interviewing skills. Interview. Negotiate job and graduate school offers.

Personalized career assistance is available through individual appointments with consultants in the Career Center. To schedule an appointment visit, <http://bit.ly/CCAppt>.

Informational workshops and career-related events are conducted each semester. The schedule of these events can be found on the center's website (<http://careercenter.education.wisc.edu/workshops>).

The Career Center coordinates teacher recruitment fairs each fall and spring semester and collaborates with career centers across campus to provide campus-wide career fairs at the beginning of each semester.

PEOPLE

Information about faculty, staff, and other contributors to the program can be found on the Curriculum and Instruction (<http://ci.education.wisc.edu>) and French and Italian (<http://frit.wisc.edu>) departmental websites.

CERTIFICATION/LICENSURE

ADDITIONAL CERTIFICATION REQUIREMENTS

Students must complete all requirements and also obtain the endorsement of the program faculty to receive certification through UW–Madison. These requirements include those required by UW–Madison, the Department of Public Instruction, and those mandated by state statutes. While most of these requirements are embedded in course content, some (e.g., the Basic Skills Requirement, the Wisconsin Foundations of Reading Test) are not related to course enrollment.

Students pursuing certification must complete the following requirements. See the school's website (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure>) for additional information/requirements.

Certification requirements should be monitored carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

Disclosure Statement and Criminal Background Investigation Disclosure Statement

Applicants to School of Education programs that involve a practicum, internship, or other field placement must complete a disclosure statement indicating (1) whether they have been admitted to, then withdrawn from, asked to withdraw from, or been dropped from a student teaching, clinical experience, or other intern/practicum program, and (2) if they have ever been placed on probation or disciplined by any college or university for academic dishonesty.

Criminal Background Investigation (CBI)

The Department of Public Instruction (DPI) is required by law to conduct a background check on each applicant for a Wisconsin educator license. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety, or education of PK–12 pupils. Local school districts also will conduct criminal background checks routinely on teacher education students prior to the start of in-classroom field work.

Students should be aware that criminal background checks may be initiated by other agencies or organizations when they are seeking employment or a professional license. School administrators have the authority to determine the appropriateness of a student placement and may choose not to permit a placement based on a student's background check results.

An individual who is deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the academic dean in Education Academic Services.

Environmental Education

This licensing requirement is mandatory for all Elementary Education, Secondary Science, Secondary Social Studies, and Agri-Science Education certification students. Students with previous degrees in their subjects must also monitor and complete this requirement for certification and licensure.

Select one Environmental Studies (http://guide.wisc.edu/courses/envir_st) course or from the following list. If appropriate, this course may also be applied toward the liberal studies requirements.

Student Testing and Assessment

Students in teacher education programs are required to complete a number of tests and a significant performance assessment prior to certification and eventual licensure. Detailed information related to these requirements, along with fee and registration information can be found on the School of Education website under Academic Tests

for Prospective Teachers (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/student-testing-and-assessment>). A brief description of these tests and assessments is provided below.

Basic Skills Requirement

All prospective teacher education students must submit test scores to the School of Education to be eligible for professional program admission. Students may use their ACT, SAT, or GRE scores, or they may take the Praxis Core Academic Skills for Educators Test (formerly the Praxis I/PPST). These tests meet Wisconsin's basic skills test requirement for prospective teachers. All sections of the chosen basic skills test must be taken by program applicants to be eligible for program admission.

Content Test

Students completing professional education programs must take and pass an approved examination in their content area prior to their final student teaching semester. Most students complete the appropriate Praxis II: Subject Assessments/Specialty Area Tests through the Educational Testing Service (ETS). World Language Education students must meet an ACTFL Oral Proficiency Interview requirement and must take and pass the ACTFL Writing Proficiency Test (WPT). No candidates may be waived from taking the required test(s) for their license area.

Wisconsin Foundations of Reading Test

As of January 31, 2014, individuals seeking an initial Wisconsin license to teach in kindergarten through grade 5 or in special education, an initial Wisconsin license as a reading teacher, or an initial Wisconsin license as a reading specialist, must take and pass the Wisconsin Foundations Reading Foundations Test. Undergraduate programs impacted by this requirement are Elementary Education and Special Education.

This test is for Wisconsin licensing purposes **only**. Students who choose not to pursue Wisconsin educator licensing need not take and pass this test. This test is in addition to all other required tests and assessments for certification and licensure. For instance, students must still take and pass the Praxis II content exam to be eligible to student teach.

Teacher Performance Assessment (edTPA)

The edTPA is a subject area-specific, performance-based assessment for pre-service teacher candidates, which is centered on student learning. Evidence of candidate teaching proficiency in the areas of planning, engagement and instruction, and assessment is drawn from a subject-specific learning segment, 3–5 lessons from a unit of instruction. Assessment artifacts include video clips of instruction, lesson plans, student work samples, analysis of student learning, and reflective commentaries. These artifacts will be taken together and scored by trained evaluators using the standardized set of edTPA rubrics. *After August 31, 2015, initial license candidates (i.e., students completing certification programs) must complete the edTPA as part of their student teaching and after August 31, 2016, initial license candidates will be required to pass the edTPA before they can be recommended for licensure.*

Field Experiences

School-based field experiences are a critical part of students' professional preparation for teaching. In fact, the student

teaching experience is frequently cited in teacher education literature as the single component of a teacher education program with the highest impact on future teaching behaviors of teacher candidates. Under Wisconsin State regulations, students seeking teaching certification from UW–Madison are required to complete at least one pre-student teaching practicum and at least one full semester of student teaching. Most programs at UW–Madison require students to complete additional field experiences.

Pre-Student Teaching Practicum

The pre-student teaching practicum gives students firsthand knowledge of the classroom environment and the teacher's role. For many students, the practicum is the initial encounter with the real world of teaching. Practicum students do not assume the degree of classroom responsibility they do during student teaching. Under the supervision of an experienced teacher, practicum students observe classroom activities, assist the teacher with day-to-day classroom management tasks, interact one-to-one with students, and instruct small groups. The cooperating teacher and university supervisor use the practicum to assess the student's readiness for the student teaching experience. For this reason, active student engagement in the practicum experience is necessary and expected.

Student Teaching Experience

Student teaching, the culminating field experience, is a full-time, school district semester assignment that places a university student under the guidance of an experienced, qualified cooperating teacher. After an orientation period, the student teacher gradually assumes more responsibility for planning, instruction, and overall classroom management. Student teachers follow the daily schedule of the cooperating teacher and the building policies of the school, and function as regular staff members in arrival and departure times and attendance at school events. Daily attendance at school, barring emergencies, is required.

The student teaching experience follows the calendar of the local school district. A fall semester assignment will typically begin the latter part of August and end the latter part of January. A spring semester assignment will begin the latter part of January and end mid-June. Holiday breaks follow the school district calendar. Carrying other formal course work during the student teaching semester is strongly discouraged.

Find detailed policies and regulations regarding student teaching in the Teacher Education Field Experience Policies (November, 2014) (http://www.education.wisc.edu/docs/WebDispenser/soe-documents/fe_policies.pdf?sfvrsn=4). Students and staff are responsible for knowing and complying with the Field Experience policies. Many professional programs have their own separate handbooks and specific policies; students are also responsible for those policies and procedures.

General Eligibility Requirements for Student Teaching

Minimum eligibility requirements apply to all students. Several subject areas require a specific grade point average unique to a particular program, or additional course work as a prerequisite to student teaching. Students are urged to check with their Education Academic Services and faculty

advisors to be certain that all eligibility requirements have been met. Students should check these items well in advance to preclude last-minute schedule conflicts in preparation for the student teaching semester. Minimum requirements are:

- Admission to a School of Education certification program.
- Completion of all course prerequisites, such as the teaching methods course(s) and pre-student teaching practica. Students should check for other possible course requirements in their specific area of study.
- Passing a content examination in the certification area(s).
- For world languages, an immersion experience and the appropriate score on the oral and written proficiency examinations.

Student Teaching Application Procedures

Information related to student teaching (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/field-work-student-teaching>) and the application process is available on the School of Education website. Please be aware that some program areas require students to file an application far in advance of the student teaching semester.

Alternative Placement Options for Student Teaching

Alternative placement options include placements with the Institute for Urban Education, and teacher internships under the auspices of the Wisconsin Improvement Program:

- The UW System Institute for Urban Education (<https://uwm.edu/education/community/partnerships/institute-urban-edu>) helps pre-service teachers pursue their desire to become urban educators and to provide professional development opportunities for currently practicing teachers. Not all teacher education programs participate in the institute. Students should consult with their program coordinator for more information.
- The teacher internship is a licensed, full-semester assignment that replaces the student teaching experience. Interns are under contract with a school district and paid a modest salary. Internships are rarely available; students are notified by the program coordinator when they are offered by a district and are available to our students.

Special Placements

The School of Education is committed to placing its students in classrooms with teachers we know, in schools led by principals we know. Thus, student teaching placements are made within the University of Wisconsin–Madison service area. In general the service area is 50 miles from Madison, but individual programs may (and do) reduce the size of their service area. Occasionally, students with extenuating circumstances are allowed special placements beyond this area. “Extenuating circumstances” have included spousal/partner relocation, family emergency, or a highly specialized placement. All special placements must be approved by the student’s program coordinator and Associate Dean Jeffrey Hamm. Students permitted special placements are usually

liable for the cost of supervision (at least \$500). Special placements are not permitted due to financial need or to enhance employment opportunities.

Withdrawing From/Failing Field Experience Assignments

Withdrawing from a field experience has serious implications for the student’s progress in the program. Students who withdraw or receive an unsatisfactory grade (including a “D”) from a field experience may not repeat such experiences without approval from the program coordinator and Associate Dean Jeffrey Hamm. Students withdrawing from or receiving an unsatisfactory grade in field experiences in one major or program may not enroll in another major or program without written permission from the program coordinator and after consultation with Associate Dean Hamm.

Permission to repeat field experiences is not automatically granted. A confirmed field placement is considered an informal contractual agreement between the university and the school in which the student is located. Under this agreement, university faculty, cooperating teachers, and students assume certain responsibilities and obligations to one another. A student’s withdrawal from an assignment is considered to be an exception to the agreement and should occur only under the most unusual circumstances. Because of the consequences that withdrawal from a confirmed assignment may have on a student’s future progress in the teaching certification program, a student who contemplates such action is strongly urged to consult with the program coordinator and Associate Dean Hamm to fully understand the implications of such action and the options available.

Minority Group Relations and Conflict Resolution

Minority Group Relations

Wisconsin State teacher education regulations require students to complete a section titled *Minority Group Relations*. The rules identify Minority Group Relations as

- The history, culture, and tribal sovereignty of American Indian tribes and bands located in Wisconsin.
- The history, culture and contributions of women and various racial, cultural, language and economic groups in the United States.
- The philosophical and psychological bases of attitude development and change.
- The psychological and social implications of discrimination, especially racism and sexism in the American society.
- Evaluating and assessing the forces of discrimination, especially racism and sexism on faculty, students, curriculum, instruction, and assessment in the school program.
- Minority group relations through direct involvement with various racial, cultural, language and economic groups in the United States.

UW–Madison teacher education programs address these areas through course work and experiences in each professional education program. Students who successfully complete their professional program will have satisfied each of the areas of Minority Group Relations. For more detailed

information about how required courses address Minority Group Relations for each program area, see the School of Education's PI 34 site (<http://www.education.wisc.edu/pi34>). Choose Certification Programs, select the program of interest, and click on Rules & Statutes.

Conflict Resolution Requirement

Wisconsin State teacher education regulations require all individuals pursuing teacher certification to have formal training in conflict resolution. This includes

- Resolving conflicts between pupils and between pupils and school staff.
- Assisting pupils in learning methods of resolving conflicts between pupils and between pupils and school staff, including training in the use of peer mediation to resolve conflicts between pupils.
- Dealing with crises, including violent, disruptive, potentially violent or potentially disruptive situations that may arise in school or activities supervised by school staff as a result of conflicts between pupils or between pupils and other persons.

All teacher certification programs include conflict resolution training in their required course work. For more detailed information about how conflict resolution is addressed in each program area, see the School of Education's PI 34 site (<http://www.education.wisc.edu/pi34>). Choose Certification Programs, select the program of interest, and click on Rules & Statutes.

Phonics

As of July 1, 1998, the State of Wisconsin requires that all persons seeking initial and renewal licenses to teach reading or language arts in grades Pre-Kindergarten to Grade 6 (PK-6) must have successfully completed instruction in teaching reading and language arts using appropriate instructional methods, including phonics. "Phonics" means a method of teaching beginners to read and pronounce words by learning the phonetic value of letters, letter groups and syllables.

The Phonics requirement applies to students completing Elementary Education and Special Education certification programs. UW-Madison students fulfill this requirement through the successful completion of courses that are already required, so no additional course work is needed to meet this statutory requirement.

Cooperatives

This licensing requirement is mandatory for secondary Social Studies (and Agri-Science) Education certification. Students with previous degrees in their subjects must also monitor and complete this requirement for certification and licensure.

Students typically complete the cooperatives requirement after being admitted to the Secondary Social Studies program and should consult with the program coordinator, Professor Alan Lockwood (lockwood@education.wisc.edu), regarding its completion.

Portfolios

Students in certification programs are required to demonstrate their knowledge and professional development through the

creation and maintenance of a portfolio. A portfolio has several purposes:

- To serve as a tool for teacher learning, growth, and development. Portfolios are intended to support students' efforts to become thoughtful and effective teachers.
- To provide documentation and/or evidence that students have satisfactorily met all teacher education standards required for initial teacher certification in Wisconsin. The portfolio helps to demonstrate students' achievement of these knowledge and performance standards.
- To provide a repository for student artifacts.
- To enhance students' technical literacy through the portfolio creation.
- To support the job preparation and interview process.

Portfolios consist of a variety of artifacts which students have chosen from their educational experiences to best represent their growth and development as teachers. Artifacts can include lesson plans, classroom observations, analyses of student learning, student work samples, photographs, video clips of instruction and reflective commentaries.

The student portfolio provides a foundation for the Teacher Performance Assessment (edTPA), a standardized evaluation required by Wisconsin for teacher licensure. The edTPA process also requires students to submit artifacts. These artifacts are scored by trained evaluators using a standardized set of edTPA rubrics.

For more information about the use of the portfolio in a specific teacher education program, please contact the program coordinator.

Teacher Standards

UW-Madison teacher education students must meet all state licensing requirements for initial teaching certification in Wisconsin. These requirements, sometimes referred to as administrative rules "PI 34," mandate that individuals demonstrate proficiency on state-approved teaching standards. Each teacher education institution in Wisconsin has adopted a set of teacher education standards that meet state guidelines. These standards must be met by all students completing a licensing program. The current standards of the University of Wisconsin-Madison School of Education can be found on the school's website (<http://careers.education.wisc.edu/pi34/docs/Standards.pdf>).

APPLYING FOR A TEACHING LICENSE

The State of Wisconsin requires that anyone wishing to teach in a public K-12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Students intending to complete a teacher certification program should monitor program requirements carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

Licensing Levels

The following licensing options are offered at UW–Madison.

- The Elementary Education program currently offers two licensing levels: *Early Childhood* and also *Middle Childhood through Early Adolescence*.
- The Special Education program certifies students at both the *Middle Childhood through Early Adolescence* level and also at the *Early Adolescence through Adolescence level*. The Special Education/Elementary Education dual major option certifies students only at the *Middle Childhood through Early Adolescence* level.
- Secondary Education programs certify students to teach their subject area at the *Early Adolescence through Adolescence* level.
- Students completing Language Education programs will be licensed at the *Early Childhood through Adolescence* level.
- Students in special fields such as Art, Communication Sciences and Disorders, Music, and Physical Education will be licensed at the *Early Childhood through Adolescence* level.

Wisconsin State Licensing

The State of Wisconsin issues an initial teaching license to certified teachers. The current fee is \$125. An online license application is available through the Department of Public Instruction (<http://dpi.wi.gov/tepd/elo>). A Criminal Background Investigation (CBI) will also be conducted by DPI. Information about fingerprint submission, when necessary, is available through the Department of Public Instruction (<http://dpi.wi.gov/tepd/licensing/fingerprint/electronic-submission>).

Before applying for a license, DPI requires the electronic submission of "Endorsed Candidate for Licensure" (ECL) data by the certifying officer of the institution where the teacher preparation was completed. For UW–Madison teacher certification students, the endorsement will come from the School of Education, 139 Education Building, 1000 Bascom Mall. Once this information has been submitted to DPI, students are notified by email that they may begin the application online.

Before endorsing a student, UW–Madison requires that (1) all certification requirements are met; (2) student teaching (following the school district calendar) is completed; (3) final grades are posted and reviewed; (4) the degree is "posted" by the registrar's office (four to five weeks after graduation); and (5) a recommendation for certification is received from the program faculty. The Wisconsin Department of Public Instruction may require an additional 6 to 12 weeks for license processing. See Educator Licensing (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/educator-licensing>) for additional information about the licensing process.

Licensing Outside of Wisconsin

To apply for a license in a state other than Wisconsin, first check out the application requirements of that state. The University of Kentucky has a website that provides links (<http://2b.education.uky.edu/certification-requirements-by-state>) to teacher licensing agencies in all 50 states, the District of Columbia, and Puerto Rico.

Many states have a verification form that needs to be signed by a UW–Madison certification officer. This form verifies that a state-approved licensing program has been completed. These forms should be sent to Education Academic Services at 139 Education Building, 1000 Bascom Mall, or by email (mlpatton@wisc.edu) to be completed. If the form requests information about practicum and student teaching assignments

(names of schools, grade levels, dates, etc.), this information must be completed before sending the form to EAS.

RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1259) page.

FRENCH, SED MINOR

HOW TO GET IN

This minor is available only to students admitted to the World Language Education program, or to teachers already licensed to teach at an appropriate level and subject in Wisconsin. Undergraduate students interested in completing a certification minor in French must also complete a major in another World Language certification subject area and be admitted to the World Language Education program. It is not possible to be certified only in a minor area. Consult with an Education Academic Services advisor to discuss the feasibility of combining this minor with the major subject area—not all combinations may be possible and will require approval of the WLE program coordinator. Interested students must apply and be admitted to both language subject areas. The oral proficiency exam, any written exams, and the immersion experience required for certification must be completed in both languages.

Licensed teachers interested in pursuing certification in this minor should consult with the World Language Education program director, Professor François Tochon, ftochon@education.wisc.edu, 544C Teacher Education Building.

REQUIREMENTS

FRENCH MINOR

Note: The oral proficiency exam, any written exams, and an immersion experience are required for certification in this language. Consult the major requirements (p. 1336) in this subject for an explanation of these requirements and the World Language Education professional sequence.

PREREQUISITE COURSEWORK

These courses, or demonstrated proficiency through fourth semester French, must be completed before beginning the minor requirements.

Code	Title	Credits
FRENCH 101	First Semester French	4
FRENCH 102	Second Semester French	4
FRENCH 203	Third Semester French	4
FRENCH 204	Fourth Semester French	4

MINOR REQUIREMENTS

Complete a minimum of 24 credits. The French minor requires a minimum cumulative grade point average of 2.75, based on all French minor coursework taken on the UW–Madison campus.

Code	Title	Credits
FRENCH 271	Introduction to Literary Analysis	4
FRENCH 321	Introduction to Medieval, Renaissance, and Early Modern Literature	3
FRENCH 322	Introduction to Literature of Modernity	3
FRENCH 347	Introduction to Medieval, Renaissance, and Early Modern Civilization ¹	3
Language course elective numbered 227 or above		3
FRENCH 590	Advanced Phonetics	3
Additional credits to complete 24 credits. ²		

¹ FRENCH 348 Modernity Studies may be substituted with permission of faculty advisor.

² Introductory coursework (prerequisites) may be used to fulfill this requirement, but all other requirements must be met.

ADVISING AND CAREERS

FRENCH EDUCATION ADVISING

Consult with advising staff at Education Academic Services (EAS), Room 139 Education Building, 1000 Bascom Mall, 608-262-1651, for general questions regarding certification to teach French. Students may want to consult an undergraduate advisor (https://frit.wisc.edu/undergraduate/french/academic_advising) in the French and Italian department regarding course sequencing and other aspects of this field of study.

The director of the World Language Education program is Professor François Tochon, ftochon@education.wisc.edu, 544C Teacher Education Building.

GEOGRAPHY, MINOR

This minor may be completed only by students admitted to the Middle Childhood through Early Adolescence options of Elementary Education. The Department of Geography is housed in the College of Letters & Science. Students may wish to consult with the undergraduate advisor (<http://www.geography.wisc.edu/undergraduate/advising.php>) in the geography department, 144 Science Hall, 262-4438, to discuss course selection and other issues related to this field of study.

HOW TO GET IN

This minor may be completed only by students admitted to the Middle Childhood through Early Adolescence options of Elementary Education. Students admitted to the Content Focus option are asked to identify the minor of their choice when admitted to the program. Students admitted to the other Middle Childhood through Early Adolescence options should fill out a minor declaration form available in Education Academic Services, Room 139 Education Building.

REQUIREMENTS

The geography minor requires a minimum of 24 credits to include GEOG 342 and the required course distribution listed below. Each course may be counted in only one of the groups. Coursework must include at least two upper-level courses, numbered 300–699.

A minimum cumulative grade point average of 2.75 is required, based on all geography minor coursework taken on the UW–Madison campus.

REQUIRED COURSE

Code	Title	Credits
GEOG 342	Geography of Wisconsin (Or an acceptable substitute selected in consultation with the undergraduate advisor in the Department of Geography. This course may be also used to fulfill the requirement in Area Studies and Global Systems)	3

COURSE DISTRIBUTION REQUIREMENTS

Complete one course from each of the six groups:

PHYSICAL GEOGRAPHY: EARTH SYSTEMS AND ENVIRONMENTAL PROCESSES

Courses address the locational arrangements of earth phenomena and their interaction as physical systems.

Physical Geography: Earth Systems and Environmental Processes course options

Code	Title	Credits
GEOG/ENVIR ST 120	Introduction to the Earth System	3

GERMAN, BSE

WORLD LANGUAGE EDUCATION PROGRAM (CURRENTLY CHINESE, FRENCH, GERMAN, JAPANESE, LATIN, AND SPANISH MAJORS)

The mission of the World Language Education (WLE) program is (1) to promote a community-based approach to world language instruction; (2) to educate teachers who understand different cultures, are proficient in their languages, routinely visit other countries, and can build bridges across nations, races, socioeconomic groups, cultures, and languages; and (3) to certify teachers who are prepared to serve the global needs of increasingly multicultural and multilingual schools and are strongly

committed to act for a world in which shared understanding through conflict resolution, negotiation and communication are guiding principles.

There is a growing need for multilingual teachers from diverse backgrounds. The WLE faculty encourages qualified applicants from under-represented groups to apply for admissions to the program. The director of the World Language Education program is Professor François Tochon, ftochon@education.wisc.edu, 544C Teacher Education Building.

The objectives of the K–12 WLE program are

- to provide a philosophy of action designed to promote thoughtful curriculum development and classroom teaching in WLE;
- to provide regular contacts with the global community and in-service teachers in schools through field evenings, workshops, conferences, and other professional meetings;
- to provide clinical settings which enhance opportunities for beginning teachers to develop skillful practice and build bridges across languages, cultures, races, and nationalities;
- to help student teachers use multilingual educational technologies and document their experiences in electronic portfolios and implement research-based practices in their teaching;
- to provide university instructors and supervisors who are well-versed in WLE, who have an international orientation, and who are both approachable and helpful to student teachers.

Program majors include Chinese, French, German, Japanese, Latin, and Spanish, and may also include Italian and Portuguese if field placements are available in these subject areas. Completion of the WLE program leads to a bachelor of science degree in education with a major in the specific subject area. Wisconsin state licensing regulations require that students are licensed to teach at the early childhood through adolescence (approximately kindergarten through high school) levels.

Oral and written examinations are required for all world language teacher candidates enrolled in Wisconsin educator preparation programs, as is an extensive immersion experience. (Students becoming certified to teach Latin are exempt from both the Oral Proficiency Exam and immersion experience requirement.)

HOW TO GET IN

PROGRAM ADMISSION OVERVIEW

Students are admitted to the World Language Education program once a year, effective in the fall. Selection is made the previous spring.

ENTERING THE SCHOOL OF EDUCATION

NEW AND CURRENT UW–MADISON STUDENTS

New freshmen and transfer students interested in World Language Education are admitted directly to the School of Education with a “pre-professional” classification. This classification indicates that a student is interested in a program offered by the school, but has not applied and been admitted to the professional program. Students interested in World Language Education receive the pre-professional classification of PRS.

On-campus students wishing to be admitted to the school while working on eligibility requirements and application can apply

for admission to the school by completing a Pre-Professional Application (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>). A minimum GPA of 2.5, based on UW–Madison coursework, is required to transfer into the school. This GPA may be modified by the Last 60 Credits rule (detailed below (p. 1351)). It is not necessary to be a pre-professional student before applying to a professional program.

It is strongly recommended that students interested in a School of Education program meet with an academic advisor in Education Academic Services (EAS), 139 Education Building, 1000 Bascom Mall; call 608-262-1651 to schedule an appointment with an advisor.

PROSPECTIVE TRANSFER STUDENTS

Applicants not already enrolled on the UW–Madison campus must be admissible to the university to enroll in a School of Education program. Admission to UW–Madison requires a separate application and admission process. See UW–Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu>) for application information. Prospective transfer students are strongly advised to meet with an Education Academic Services advisor in advance of their application; to schedule, call 608-262-1651.

STUDENTS WITH A PREVIOUS DEGREE

Prospective applicants who already hold an undergraduate degree are strongly encouraged to meet with an Education Academic Services advisor in advance of their application. Consultations with advisors are available in person or via telephone; to schedule, call 608-262-1651.

Applicants who already hold an undergraduate degree are admitted to the School of Education as either an *Education Special student* or a *second degree student*, depending on their interests and academic background. Admission as an Education Special student indicates that the student has an interest in pursuing certification in a subject area studied during the initial degree; another degree is not awarded for this "certification only" coursework. Second degree students are seeking a second, unrelated degree from the School of Education, which may, or may not, include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission. More information is available here (p. 1239).

NATIVE AND HERITAGE SPEAKERS

Native or heritage speakers of a language major offered within the World Language Education program are welcome to pursue admission to the World Language Education program. Prospective applicants and transfer students who have previous experience with a language are encouraged to consult with an advisor in Education Academic Services as early as possible; to schedule, call 608-262-1651.

Native or heritage speakers must take a placement exam in the corresponding language to determine the appropriate level of remaining instruction in grammar, communication standards and social customs, and other topics related to language acquisition and proficiency. Placement examinations for Spanish, French, and German are offered on campus through Testing & Evaluation Services or the University of Wisconsin System's Regional Placement Testing Program. Placement examinations for Chinese,

Japanese, Italian, Latin, and Portuguese are administered by faculty or staff within the relevant academic department. For more information regarding placement in language courses, consult the Languages at UW–Madison placement guide (<http://languages.wisc.edu/advising/placement>).

APPLICATION AND ADMISSION

Applicants to the World Language Education program will be selected once a year, during the spring semester. Admission decisions will be based on coursework completed through the preceding fall semester. Admission is provisional until spring semester work has been completed and posted, and Education Academic Services staff have verified that students have submitted basic skills test scores, met minimum grade point averages, and earned minimum credits in their major. Admitted students will begin the sequence the following fall semester.

Resources limit the number of students who can be served by the UW–Madison World Language Education teacher education program. In recent years the World Language Education program has been able to accommodate all qualified applicants; however, if the number of qualified applicants to World Language Education exceeds program resources, admission will become limited and competitive. If this happens, meeting or surpassing the minimum eligibility criteria will not guarantee admission.

ELIGIBILITY FOR ADMISSION

Requirements and selection criteria may be modified from one application/admission period to the next. Any changes to these criteria may occur up until the application period begins. Potential applicants should consult the School of Education's Apply to a Program (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>) page for application deadlines and detailed information regarding current eligibility requirements and selection criteria prior to submitting an application.

To be considered for admission, students must:

- earn 54 or more transferable semester credits (junior standing) by the end of the spring semester of the application year.
- complete all but six credits of the relevant World Language major.
- earn a minimum 2.75 grade point average on all major coursework completed.
- earn a cumulative GPA of at least 2.75 (on a 4.00 scale).¹
- complete the Basic Skills Requirement. All prospective teacher education students must submit test scores to the School of Education to be eligible for professional program admission. Students may use their ACT, SAT, or GRE scores, or they may take the Praxis Core Academic Skills for Educators Test (formerly the Praxis I/PPST). These tests meet Wisconsin's basic skills test requirement for prospective teachers. For more information see the document Academic Tests for Prospective Teachers (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/student-testing-and-assessment>).
- have completed, or be in the process of completing, an approved Immersion Experience required for the World Language Education degree program.
- submit completed program application form(s), transcripts, and all other related application materials by the application deadline specified on the School of Education's Apply to a

Program (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>) page.

¹ A comprehensive cumulative GPA of all college-level, transferrable coursework attempted on both the UW–Madison campus coursework and coursework taken at any other colleges or universities may be calculated for the exclusive purpose of establishing an applicant’s eligibility for consideration. Both the comprehensive cumulative GPA and the comprehensive cumulative GPA based on a student’s last 60 credits may be calculated. See Last 60 Credits Rule (detailed below). If admitted, students must earn the minimum cumulative GPA for UW–Madison coursework established by their program and the School of Education each semester after admission.

Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates’ eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. (“Attempted” coursework indicates coursework for which a grade has been earned.) More information regarding this rule is available here (p. 1239).

APPLYING FOR CERTIFICATION IN MORE THAN ONE SUBJECT AREA

Students may apply to be certified in more than one language. Eligibility requirements must be met and separate applications must be filed for each area of interest. Students must be admitted as a major in at least one of the program areas as it is not possible to be admitted only to complete a minor.

Students interested in combining the World Language Education degree program with certification in another area altogether must apply to both programs and meet the minimum criteria for admission to each program. It is suggested that students apply as majors in each area of interest, thus maximizing the chances of admission. Certification in two different areas requires the consent and cooperation of the World Language Education program coordinator and the faculty coordinator of the other subject area. Not all subjects can be combined with the World Language Education degree program.

While multiple majors or major–minor combinations are feasible and may be advantageous as a career strategy, it may take extra time to complete the additional subject area coursework. Students are encouraged to work closely with their Education Academic Services advisor to assess the possibility of completing certification in more than one area and to coordinate the requirements of multiple certifications.

PROGRAM ADMISSION SELECTION CRITERIA

The files of all applicants will be individually and holistically reviewed by a panel of World Language professionals. The criteria used for admission include the following:

- Academic Qualifications: The applicant demonstrates mastery of the target language and knowledge of its literature, civilization, and culture.

- Career Maturity: The applicant demonstrates commitment to teaching the target language to elementary, middle, and high school students, including consideration of his or her own strengths and limitations as a potential teacher.
- Ability to Relate to Youth: The applicant demonstrates the ability to work effectively with young people.
- Commitment to All Students: The applicant demonstrates commitment to working with all students including those of different racial, ethnic, and socioeconomic backgrounds, and students with disabilities, not just the economically privileged or highly motivated.
- Interpersonal Skills: The applicant demonstrates the ability to work effectively with peers, other professionals, and members of the community outside of school settings.

The application files, including immersion experiences and oral proficiency, are rated according to the above criteria for each language. A final cohort is selected along with rank-ordered alternates, based on a combination of ratings made by the World Language Education review committee and judgement by the faculty program coordinator about optimal cohort characteristics for each language. The availability of field placements in the subject area may also influence the selection process. Admission procedures are reviewed every other year to ensure fairness and effectiveness.

CRIMINAL BACKGROUND INVESTIGATION

The Department of Public Instruction (DPI) is required by law to conduct a background check on each applicant for a Wisconsin educator license. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety or education of PK-12 pupils. Local school districts also will conduct criminal background checks routinely on teacher education students prior to the start of in-classroom field work. Admitted applicants to any teacher education program who have a positive background check should confer with the Academic Dean’s Office (Room 139 Education, 1000 Bascom Mall) about the potential impact of this on field placements and licensure.

An individual who is deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the academic dean in Education Academic Services.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.

Requirements Detail

General	• Breadth—Humanities/Literature/Arts: 6 credits
Education	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

PROGRAM STRUCTURE

This program has five components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Prerequisite coursework* prepares students for work in the major. Program applicants must also complete and document an *immersion experience* as a prerequisite to being admitted to the professional program.
- *Major coursework* offers in-depth study of the subject students will teach.
- *Professional education* coursework includes an examination of the schools' relationship to our society and the processes by which students grow and learn. The *professional sequence* is a four-semester sequence of world language teaching methods course work and field experiences in schools.
- *Elective* coursework is taken to reach the minimum of 120 credits required for the degree.

The four semesters of professional coursework are followed sequentially and taken in consecutive semesters. Because of the program structure, students are expected to have completed most of their major and liberal studies coursework by the start of the professional sequence.

SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1246) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science. Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education

program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1246) for information about course selection and approved course options.

Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs, Athletic Training, and Kinesiology; Exercise and Movement Science have unique requirements in this category.

Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science
- Laboratory Science
- Science Electives

Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

Complete Liberal Studies Electives (p. 1246) to total 40 Credits.

PREREQUISITE COURSEWORK

Complete the following courses or demonstrate proficiency at the equivalent level. Prerequisite courses do not generally count toward the required credits of the major.

Code	Title	Credits
GERMAN 101	First Semester German	4
GERMAN 102	Second Semester German	4
GERMAN 203	Third Semester German	4
GERMAN 204	Fourth Semester German	4
Select one of the following options:		
Option 1:		9
GERMAN 249	Intermediate German - Speaking and Listening	
GERMAN 258	Intermediate German-Reading	
GERMAN 262	Intermediate German-Writing	
Option 2:		9
GERMAN 274	Introduction to German Literature	
GERMAN 249	Intermediate German - Speaking and Listening	

MAJOR REQUIREMENTS

Complete a minimum of 27 credits in German courses numbered 300 and above. The credits in the major required for admission must be taken from the coursework below. Students must complete at least 15 credits of upper-level major coursework (numbered 300–699) in residence on the UW–Madison campus. Other courses, especially those transferred from international programs, may be substituted with the approval of the program coordinator.

Code	Title	Credits
GERMAN 337	Advanced Composition & Conversation	3-4
GERMAN 351	Introduction to German Linguistics	3-4
GERMAN 676	Advanced Seminar in German Studies	3

Additional 12 credits from any German courses numbered 300 or above. These must be courses designated by the Department of German as acceptable for the L&S major in German.

Two upper-level courses (300 or above) in related fields¹

¹ These "cognate" courses must deal substantially with the German-speaking world and may be taken at any time during the degree work on campus. Courses come from related fields such as history, art history, philosophy, or music, and must receive prior approval from the program coordinator.

ORAL AND WRITTEN PROFICIENCY EXAMS

ABOUT THE ORAL AND WRITTEN PROFICIENCY EXAMS

Students admitted to the World Language Education program must provide evidence of having earned at least an Intermediate High score on an American Council on the Teaching of Foreign Languages (ACTFL) **Oral Proficiency Interview (OPI)**. Latin Education students are exempt from this requirement, see below.

The interview must be taken prior to beginning the first student teaching experience (second semester of the professional sequence). Students should be aware that it may take as long as three months to obtain results, and factor this delay into the scheduling of the OPI. If the score of Intermediate High is not made after the first examination, a student will be asked to take measures to improve their spoken language proficiency before continuing in the program. The student must repeat the OPI and achieve the required Intermediate High proficiency level.

All students in World Language Education (except Latin Education), are also required to complete the **Writing Proficiency Test (WPT)** no later than the third semester in the program. A proficiency level of Intermediate High is also required for this examination. Students must take and pass the WPT in their program area and the scores must be received by Education Academic Services before beginning the final student teaching semester. Students who do not take and pass the exam will not be permitted to student teach. The WPT meets the Department of Public Instruction's content exam requirement, a requirement usually met by taking the appropriate Praxis II test.

Both the Oral Proficiency Interview and the Writing Proficiency Test are administered by Language Testing International (LTI) (<http://www.languagetesting.com>). Their address is LTI, 3 Barker Avenue, Suite

310, White Plains, NY 10601; 800-486-8444. Students are responsible for costs associated with the OPI and the WPT.

Students seeking Latin certification will be required to take a proficiency exam administered by the Department of Classical and Ancient Near Eastern Studies prior to beginning the first student teaching experience (second semester of the professional sequence). This exam will take the place of the OPI and WPT required for certification in other languages.

See the World Language Education faculty program coordinator with questions about these requirements.

IMMERSION EXPERIENCE

ABOUT THE IMMERSION EXPERIENCE

Participation in an intensive immersion experience is one of the most important and meaningful ways of developing competence in a language. In preparation for the proficiency exams, students seeking certification in a language must participate in an approved immersion experience which emphasizes prolonged and intensive interaction within the target language and culture.

Program applicants completing French, German, and Spanish majors must complete and document a full-semester (or minimum four-month-long) immersion experience as a prerequisite to being admitted to the professional program. Students completing majors in Chinese and Japanese must spend at least one academic year living in China or Japan, respectively—also a prerequisite to being admitted to the professional program.

The immersion experience must be completed by July 15 preceding the program start. The experience must also have been completed no more than three years before this date.

An approved experience involves significant interaction and day-to-day functioning in the host language, including use of the target language on a daily basis such as in college-level courses, a training program, or a work experience. The immersion experience need not involve attendance in an academic program only, but may take some form such that the language of routine communication is the target language. Simply living with relatives or traveling as a tourist is not considered an immersion experience for the purposes of admission to this program. Most students choose to participate in a structured educational or exchange immersion program.

Students should consult with the International Academic Programs (IAP) (<http://www.studyabroad.wisc.edu>) office, 106 Red Gym, regarding campus-based study abroad programs. These experiences need not receive prior approval. Experiences through off-campus programs must have prior approval of the World Language Education faculty program coordinator. To obtain prior immersion experience approval, download and complete the approval form (<http://www.education.wisc.edu/soe/academics/undergraduate-students/forms>), meet with the faculty coordinator, and obtain authorization. Bring two copies of the form to your meeting, obtain signatures on both, and leave one copy with the coordinator.

Native speakers are normally considered to have fulfilled this requirement without further documentation, especially if they received their secondary education in an environment where the target language is the primary means of communication. Heritage speakers are usually considered to have fulfilled this requirement; applicants must consult with the program coordinator about this requirement.

PROFESSIONAL EDUCATION REQUIREMENTS (PROFESSIONAL SEQUENCE)

ABOUT THE PROFESSIONAL SEQUENCE

The professional program is typically a full-time, four-semester sequence of education courses and school-based field experiences. The four semesters of required professional coursework must be followed sequentially and taken in consecutive semesters. Students must enroll in all required coursework outlined in each semester of the program, even if similar coursework was taken at another institution. Students begin the professional sequence in the fall.

It is expected that most major and liberal studies coursework will be completed by the start of the professional sequence. The structure of the sequence allows very little time to pursue remaining coursework in these areas. Many students elect to finish their remaining requirements during the summer, or after the sequence has been completed. In addition, ACTFL OPI certification of speaking ability in the language rated Intermediate High or above is required by the end of the first semester in the program. Students must also complete the Writing Proficiency Test (WPT) no later than their third semester in the program. A rating of Intermediate High or above must be earned before a student is allowed to participate in the final student teaching semester. See further information under Oral and Written Proficiency Exams.

Students admitted to two areas of language certification follow the same four-semester sequence as single certification students; consult with the World Language Education program coordinator to arrange sequence requirements.

The professional program is a full-time commitment and places heavy demands on students' time and energy. The professional sequence is particularly taxing for students completing certification in two subject areas. Students must make satisfactory progress in their program to continue. This professional judgment is made by the faculty program coordinator in consultation with cooperating teachers and supervisors.

PROFESSIONAL SEQUENCE COURSE REQUIREMENTS

Complete all of the courses listed below. *Required courses* must be taken during the semester listed. *Other courses* may be taken at any time, but a suggested course sequence is provided.

Code	Title	Credits
Semester 1		
<i>Required Courses</i>		
CURRIC 342	Teaching World Languages (K-8)	3

CURRIC 564	Advanced Problems on the Teaching of World Languages	3

- ¹ The practicum will take place three days a week; placement will probably be at the elementary level. Fieldwork this semester is a half-time commitment and encompasses an entire semester based on the UW–Madison calendar. Placements are made within a 50-mile field experiences service area and may not necessarily be in the city of Madison.
- ² Placement will probably be at the elementary level, three days a week. Fieldwork this semester is a half-time commitment and encompasses an entire semester based on the UW–Madison calendar.
- ³ Placement will probably be at the middle school level. Fieldwork this semester is a half-time commitment and encompasses an entire semester based on the school district calendar. (Fall semester extends from late August through mid-January; spring semester extends from mid-January through early mid-June.)
- ⁴ Student teaching this semester is a full-time commitment and will be at the high school level. Fieldwork this semester encompasses an entire semester based on the school district calendar.

ELECTIVE COURSEWORK

Complete additional coursework as needed to reach the minimum of 120 credits required for the degree.

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

Graduation requirements are based on UW–Madison coursework.

- 2.75 cumulative grade point average. This may be modified by the Last 60 Credits Rule (p. 1239).
- 2.75 cumulative grade point average in all major coursework
- 2.75 cumulative grade point average in all upper-level major coursework
- 2.75 cumulative grade point average in all professional education coursework

- Degree candidates must complete at least 120 total credits.
- No more than 40 credits from a single academic department may be applied toward the 120 minimum credits required for graduation.
- Major residency. Degree candidates must complete at least 15 credits of upper-level major coursework in residence on the UW–Madison campus.
- Senior residency. Degree candidates must complete their last 30 credits in residence on the UW–Madison campus. Student teaching and practicum work are considered part of the 30 credits.

DEGREE AUDIT (DARS)

At UW–Madison, a DARS report is used to document a student's progress toward the completion of their degree. This degree audit identifies the requirements that have already been completed, and also those that remain unsatisfied. A DARS report can offer suggestions about appropriate courses that may be taken to meet specific requirements and can assist in the academic planning process.

Students can access DARS reports through their Student Center in *My UW–Madison*. Go to the Academics tab and find DARS on the dropdown menu.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program or major on campus. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) should request a "what if" DARS report of their professional program of interest.

DARS is not intended to replace student contact with academic advisers. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is the document of record, i.e., certifying document of degree completion, for program areas in the School of Education.

ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW-Madison's program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction. Many of these requirements are embedded within the program's requirements and require no additional attention. The endorsement of the program coordinator/faculty is also required to receive certification through UW–Madison.

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license.

Detailed information about certification requirements and applying for a license is available under Certification/Licensure. (p. 1357)

UNIVERSITY DEGREE REQUIREMENTS

Requirements Detail

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. In Semester 1, prior to starting student teaching, students must have acquired Intermediate High proficiency in their target language on the ACTFL OPI scale as measured by two independent external evaluators.
2. In Year 1, student teachers must demonstrate the ability to teach in a K-8 context, as evaluated by their University supervisor and their mentor teacher through repeated direct observations.
3. During their content courses, students must meet (a) teacher education standards; and (b) ACTFL standards, as measured by (a) formative and summative evaluation of their assignments; (b) Teacher Education portfolio.
4. In Year 2, student teachers must demonstrate the ability to teach in a 6-12 school context, as evaluated by their University supervisor and their cooperating teacher through repeated direct observations.
5. To get certified by the Department of Public Instruction, at the end of Year 2, student teachers must have successfully completed an EdTPA Portfolio of their classroom experiences that demonstrates professionalism and meets the EdTPA standards, as evaluated by external evaluators.

ADVISING AND CAREERS

GERMAN EDUCATION ADVISING

Consult with advising staff at Education Academic Services (EAS), Room 139 Education Building, 1000 Bascom Mall, 608-262-1651, for general questions regarding certification to teach German. Students may want to consult an undergraduate advisor (p. 704) in the German, Nordic and Slavic department regarding course sequencing and other aspects of this field of study.

The director of the World Language Education program is Professor François Tochon, ftochon@education.wisc.edu, 544C Teacher Education Building.

GENERAL SCHOOL OF EDUCATION ADVISING

All undergraduate students in the School of Education are served by three offices devoted to academic and/or career advising. Each student in the School of Education is assigned at least one advisor and is encouraged to meet with the advisor on a regular basis. Students will also be assigned a faculty or staff advisor when admitted to the professional component of their degree program. Departmental advisors provide more in-depth knowledge of the major and of courses offered by the department.

UNDERGRADUATE ADVISING AND ACADEMIC DEAN'S OFFICE—EDUCATION ACADEMIC SERVICES (EAS)

139 Education Building, 1000 Bascom Mall; 608-262-1651
www.education.wisc.edu/soe/academics/undergraduate-students/academic-advising (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-advising>)

Education Academic Services (EAS) is the undergraduate dean's office for students in the School of Education. Staff members interpret school regulations, policies, and program requirements; take exceptions around requirements and deadlines; advise current and prospective students; monitor students having academic difficulties; coordinate field placements; facilitate the program admissions process; and maintain the official files of students in the school.

Students should meet with an advisor during their first semester on campus (if not before) and are encouraged to meet with an advisor at least once a semester. This is particularly important during the freshman and sophomore years. Appointments may be arranged by calling or visiting the office.

EAS advisors answer questions and provide guidance to current and prospective students. They consult with and refer students to faculty members and departmental advisors. Once a student is admitted to a professional program within the School of Education, he or she will also be assigned a faculty or staff advisor. Advising then becomes a partnership, with EAS and OURR advisors continuing to help students with course selection, degree progress monitoring, academic difficulties, and interpretation of policies and procedures.

Program advisors help students select and plan a program of study in the major, negotiate issues within the department, and, in the case of certification programs, follow the students' progress through their professional courses. These divisions are flexible, and students are encouraged to consult with all advisors who can help with a situation or answer a question.

OURR: OFFICE OF UNDERGRADUATE RECRUITMENT AND RETENTION (STUDENT DIVERSITY PROGRAMS)

105 Education Building, 1000 Bascom Mall, 608-262-8427 or 608-262-1651
www.education.wisc.edu/sdp (<http://www.education.wisc.edu/sdp>)

The UW–Madison School of Education is committed to promoting equity and increasing diversity in its programs. OURR staff work collaboratively with Education Academic Services and campus and community partners

to support underrepresented students interested in majors in the School of Education.

OURR staff perform outreach, recruitment, and advising on behalf of the School. OURR staff also support current students with their personal and professional growth, their transition from high school to college, financial aid, and career exploration.

OURR works to build a network of students and graduates who may strengthen, transform, and lead their communities through education, service, and other contributions. Students are invited to visit OURR staff at 105 Education Building—stop in, or call one of the numbers listed above to set up an appointment.

SCHOOL OF EDUCATION CAREER CENTER

L107 Education Building, 1000 Bascom Mall, 608-262-1755
<http://careercenter.education.wisc.edu/>

Need assistance with any of the following?

- Exploring career options linked to School of Education majors
- Seeking a major that incorporates individual passions, interests, and values that will help one reach specific career goals
- Researching graduate schools and preparing application materials
- Beginning a job search and learning where to start and what to do
- Seeking assistance with developing a résumé, a cover letter, or interviewing skills
- Networking and connecting with potential employers

The Career Center provides resources and individual consultations to assist students in reaching their career goals. A plethora of resources can be found on the Career Center website (<http://careercenter.education.wisc.edu/>):

- Explore career possibilities for specific majors in *Investigate Career Options*. This section of the website provides tools for clarifying a student's personal criteria for success, linking specific career options to majors, and identifying steps for career/major selection. It includes strategies for making the most of a student's academic and student experience.
- Confirm major and career decisions. Gain hands-on experience in the career field of study. Assess the perceptions of selected career and major options for accuracy. Develop professional and soft skills. The *Test Drive and Confirm Career Choice* section provides strategies for acquiring real-world experience.
- Preparation is critical for entering one's next career phase. Learn about graduate school requirements and the application process. Develop promotional materials for employers and/or graduate schools and obtain feedback and suggestions for enhancing them. Acquire materials that support one's applications. The *Prepare and Connect* section provides offers additional details.
- *Implement* helps students plan for the future. Attend recruiting events. Apply for graduate school or for job opportunities. Practice interviewing skills. Interview. Negotiate job and graduate school offers.

Personalized career assistance is available through individual appointments with consultants in the Career Center. To schedule an appointment visit, <http://bit.ly/CCAppt>.

Informational workshops and career-related events are conducted each semester. The schedule of these events can be found on the center's website (<http://careercenter.education.wisc.edu/workshops>).

The Career Center coordinates teacher recruitment fairs each fall and spring semester and collaborates with career centers across campus to provide campus-wide career fairs at the beginning of each semester.

PEOPLE

Information about faculty, staff, and other contributors to the program can be found on the Curriculum and Instruction (<http://ci.education.wisc.edu>) and German, Nordic and Slavic (<https://gns.wisc.edu>) departmental websites.

CERTIFICATION/LICENSURE

ADDITIONAL CERTIFICATION REQUIREMENTS

Students must complete all requirements and also obtain the endorsement of the program faculty to receive certification through UW–Madison. These requirements include those required by UW–Madison, the Department of Public Instruction, and those mandated by state statutes. While most of these requirements are embedded in course content, some (e.g., the Basic Skills Requirement, the Wisconsin Foundations of Reading Test) are not related to course enrollment.

Students pursuing certification must complete the following requirements. See the school's website (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure>) for additional information/requirements.

Certification requirements should be monitored carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

Disclosure Statement and Criminal Background Investigation Disclosure Statement

Applicants to School of Education programs that involve a practicum, internship, or other field placement must complete a disclosure statement indicating (1) whether they have been admitted to, then withdrawn from, asked to withdraw from, or been dropped from a student teaching, clinical experience, or other intern/practicum program, and (2) if they have ever been placed on probation or disciplined by any college or university for academic dishonesty.

Criminal Background Investigation (CBI)

The Department of Public Instruction (DPI) is required by law to conduct a background check on each applicant for a Wisconsin educator license. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety, or education of PK–12 pupils. Local school districts also will conduct criminal

background checks routinely on teacher education students prior to the start of in-classroom field work.

Students should be aware that criminal background checks may be initiated by other agencies or organizations when they are seeking employment or a professional license. School administrators have the authority to determine the appropriateness of a student placement and may choose not to permit a placement based on a student's background check results.

An individual who is deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the academic dean in Education Academic Services.

Environmental Education

This licensing requirement is mandatory for all Elementary Education, Secondary Science, Secondary Social Studies, and Agri-Science Education certification students. Students with previous degrees in their subjects must also monitor and complete this requirement for certification and licensure.

Select one Environmental Studies (http://guide.wisc.edu/courses/envir_st) course or from the following list. If appropriate, this course may also be applied toward the liberal studies requirements.

Student Testing and Assessment

Students in teacher education programs are required to complete a number of tests and a significant performance assessment prior to certification and eventual licensure. Detailed information related to these requirements, along with fee and registration information can be found on the School of Education website under Academic Tests for Prospective Teachers (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/student-testing-and-assessment>). A brief description of these tests and assessments is provided below.

Basic Skills Requirement

All prospective teacher education students must submit test scores to the School of Education to be eligible for professional program admission. Students may use their ACT, SAT, or GRE scores, or they may take the Praxis Core Academic Skills for Educators Test (formerly the Praxis I/PPST). These tests meet Wisconsin's basic skills test requirement for prospective teachers. All sections of the chosen basic skills test must be taken by program applicants to be eligible for program admission.

Content Test

Students completing professional education programs must take and pass an approved examination in their content area prior to their final student teaching semester. Most students complete the appropriate Praxis II: Subject Assessments/ Specialty Area Tests through the Educational Testing Service (ETS). World Language Education students must meet an ACTFL Oral Proficiency Interview requirement and must take and pass the ACTFL Writing Proficiency Test (WPT). No candidates may be waived from taking the required test(s) for their license area.

Wisconsin Foundations of Reading Test

As of January 31, 2014, individuals seeking an initial Wisconsin license to teach in kindergarten through grade 5 or in special education, an initial Wisconsin license as a reading teacher, or an initial Wisconsin license as a reading specialist, must take and pass the Wisconsin Foundations Reading Foundations Test. Undergraduate programs impacted by this requirement are Elementary Education and Special Education.

This test is for Wisconsin licensing purposes **only**. Students who choose not to pursue Wisconsin educator licensing need not take and pass this test. This test is in addition to all other required tests and assessments for certification and licensure. For instance, students must still take and pass the Praxis II content exam to be eligible to student teach.

Teacher Performance Assessment (edTPA)

The edTPA is a subject area-specific, performance-based assessment for pre-service teacher candidates, which is centered on student learning. Evidence of candidate teaching proficiency in the areas of planning, engagement and instruction, and assessment is drawn from a subject-specific learning segment, 3–5 lessons from a unit of instruction. Assessment artifacts include video clips of instruction, lesson plans, student work samples, analysis of student learning, and reflective commentaries. These artifacts will be taken together and scored by trained evaluators using the standardized set of edTPA rubrics. *After August 31, 2015, initial license candidates (i.e., students completing certification programs) must complete the edTPA as part of their student teaching and after August 31, 2016, initial license candidates will be required to pass the edTPA before they can be recommended for licensure.*

Field Experiences

School-based field experiences are a critical part of students' professional preparation for teaching. In fact, the student teaching experience is frequently cited in teacher education literature as the single component of a teacher education program with the highest impact on future teaching behaviors of teacher candidates. Under Wisconsin State regulations, students seeking teaching certification from UW–Madison are required to complete at least one pre-student teaching practicum and at least one full semester of student teaching. Most programs at UW–Madison require students to complete additional field experiences.

Pre–Student Teaching Practicum

The pre–student teaching practicum gives students firsthand knowledge of the classroom environment and the teacher's role. For many students, the practicum is the initial encounter with the real world of teaching. Practicum students do not assume the degree of classroom responsibility they do during student teaching. Under the supervision of an experienced teacher, practicum students observe classroom activities, assist the teacher with day-to-day classroom management tasks, interact one-to-one with students, and instruct small groups. The cooperating teacher and university supervisor use the practicum to assess the student's readiness for the student teaching experience. For this reason, active student engagement in the practicum experience is necessary and expected.

Student Teaching Experience

Student teaching, the culminating field experience, is a full-time, school district semester assignment that places a university student under the guidance of an experienced, qualified cooperating teacher. After an orientation period, the student teacher gradually assumes more responsibility for planning, instruction, and overall classroom management. Student teachers follow the daily schedule of the cooperating teacher and the building policies of the school, and function as regular staff members in arrival and departure times and attendance at school events. Daily attendance at school, barring emergencies, is required.

The student teaching experience follows the calendar of the local school district. A fall semester assignment will typically begin the latter part of August and end the latter part of January. A spring semester assignment will begin the latter

part of January and end mid-June. Holiday breaks follow the school district calendar. Carrying other formal course work during the student teaching semester is strongly discouraged.

Find detailed policies and regulations regarding student teaching in the Teacher Education Field Experience Policies (November, 2014) (http://www.education.wisc.edu/docs/WebDispenser/soe-documents/fe_policies.pdf?sfvrsn=4). Students and staff are responsible for knowing and complying with the Field Experience policies. Many professional programs have their own separate handbooks and specific policies; students are also responsible for those policies and procedures.

General Eligibility Requirements for Student Teaching

Minimum eligibility requirements apply to all students. Several subject areas require a specific grade point average unique to a particular program, or additional course work as a prerequisite to student teaching. Students are urged to check with their Education Academic Services and faculty advisors to be certain that all eligibility requirements have been met. Students should check these items well in advance to preclude last-minute schedule conflicts in preparation for the student teaching semester. Minimum requirements are:

- Admission to a School of Education certification program.
- Completion of all course prerequisites, such as the teaching methods course(s) and pre-student teaching practica. Students should check for other possible course requirements in their specific area of study.
- Passing a content examination in the certification area(s).
- For world languages, an immersion experience and the appropriate score on the oral and written proficiency examinations.

Student Teaching Application Procedures

Information related to student teaching (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/field-work-student-teaching>) and the application process is available on the School of Education website. Please be aware that some program areas require students to file an application far in advance of the student teaching semester.

Alternative Placement Options for Student Teaching

Alternative placement options include placements with the Institute for Urban Education, and teacher internships under the auspices of the Wisconsin Improvement Program:

- The UW System Institute for Urban Education (<https://uwm.edu/education/community/partnerships/institute-urban-edu>) helps pre-service teachers pursue their desire to become urban educators and to provide professional development opportunities for currently practicing teachers. Not all teacher education programs participate in the institute. Students should consult with their program coordinator for more information.
- The teacher internship is a licensed, full-semester assignment that replaces the student teaching

experience. Interns are under contract with a school district and paid a modest salary. Internships are rarely available; students are notified by the program coordinator when they are offered by a district and are available to our students.

Special Placements

The School of Education is committed to placing its students in classrooms with teachers we know, in schools led by principals we know. Thus, student teaching placements are made within the University of Wisconsin–Madison service area. In general the service area is 50 miles from Madison, but individual programs may (and do) reduce the size of their service area. Occasionally, students with extenuating circumstances are allowed special placements beyond this area. “Extenuating circumstances” have included spousal/partner relocation, family emergency, or a highly specialized placement. All special placements must be approved by the student’s program coordinator and Associate Dean Jeffrey Hamm. Students permitted special placements are usually liable for the cost of supervision (at least \$500). Special placements are not permitted due to financial need or to enhance employment opportunities.

Withdrawing From/Failing Field Experience Assignments

Withdrawing from a field experience has serious implications for the student’s progress in the program. Students who withdraw or receive an unsatisfactory grade (including a “D”) from a field experience may not repeat such experiences without approval from the program coordinator and Associate Dean Jeffrey Hamm. Students withdrawing from or receiving an unsatisfactory grade in field experiences in one major or program may not enroll in another major or program without written permission from the program coordinator and after consultation with Associate Dean Hamm.

Permission to repeat field experiences is not automatically granted. A confirmed field placement is considered an informal contractual agreement between the university and the school in which the student is located. Under this agreement, university faculty, cooperating teachers, and students assume certain responsibilities and obligations to one another. A student’s withdrawal from an assignment is considered to be an exception to the agreement and should occur only under the most unusual circumstances. Because of the consequences that withdrawal from a confirmed assignment may have on a student’s future progress in the teaching certification program, a student who contemplates such action is strongly urged to consult with the program coordinator and Associate Dean Hamm to fully understand the implications of such action and the options available.

Minority Group Relations and Conflict Resolution

Minority Group Relations

Wisconsin State teacher education regulations require students to complete a section titled *Minority Group Relations*. The rules identify Minority Group Relations as

- The history, culture, and tribal sovereignty of American Indian tribes and bands located in Wisconsin.

- The history, culture and contributions of women and various racial, cultural, language and economic groups in the United States.
- The philosophical and psychological bases of attitude development and change.
- The psychological and social implications of discrimination, especially racism and sexism in the American society.
- Evaluating and assessing the forces of discrimination, especially racism and sexism on faculty, students, curriculum, instruction, and assessment in the school program.
- Minority group relations through direct involvement with various racial, cultural, language and economic groups in the United States.

UW–Madison teacher education programs address these areas through course work and experiences in each professional education program. Students who successfully complete their professional program will have satisfied each of the areas of Minority Group Relations. For more detailed information about how required courses address Minority Group Relations for each program area, see the School of Education's PI 34 site (<http://www.education.wisc.edu/pi34>). Choose Certification Programs, select the program of interest, and click on Rules & Statutes.

Conflict Resolution Requirement

Wisconsin State teacher education regulations require all individuals pursuing teacher certification to have formal training in conflict resolution. This includes

- Resolving conflicts between pupils and between pupils and school staff.
- Assisting pupils in learning methods of resolving conflicts between pupils and between pupils and school staff, including training in the use of peer mediation to resolve conflicts between pupils.
- Dealing with crises, including violent, disruptive, potentially violent or potentially disruptive situations that may arise in school or activities supervised by school staff as a result of conflicts between pupils or between pupils and other persons.

All teacher certification programs include conflict resolution training in their required course work. For more detailed information about how conflict resolution is addressed in each program area, see the School of Education's PI 34 site (<http://www.education.wisc.edu/pi34>). Choose Certification Programs, select the program of interest, and click on Rules & Statutes.

Phonics

As of July 1, 1998, the State of Wisconsin requires that all persons seeking initial and renewal licenses to teach reading or language arts in grades Pre-Kindergarten to Grade 6 (PK–6) must have successfully completed instruction in teaching reading and language arts using appropriate instructional methods, including phonics. "Phonics" means a method of teaching beginners to read and pronounce words by learning the phonetic value of letters, letter groups and syllables.

The Phonics requirement applies to students completing Elementary Education and Special Education certification programs. UW–Madison students fulfill this requirement through the successful completion of courses that are already required, so no additional course work is needed to meet this statutory requirement.

Cooperatives

This licensing requirement is mandatory for secondary Social Studies (and Agri-Science) Education certification. Students with previous degrees in their subjects must also monitor and complete this requirement for certification and licensure.

Students typically complete the cooperatives requirement after being admitted to the Secondary Social Studies program and should consult with the program coordinator, Professor Alan Lockwood (lockwood@education.wisc.edu), regarding its completion.

Portfolios

Students in certification programs are required to demonstrate their knowledge and professional development through the creation and maintenance of a portfolio. A portfolio has several purposes:

- To serve as a tool for teacher learning, growth, and development. Portfolios are intended to support students' efforts to become thoughtful and effective teachers.
- To provide documentation and/or evidence that students have satisfactorily met all teacher education standards required for initial teacher certification in Wisconsin. The portfolio helps to demonstrate students' achievement of these knowledge and performance standards.
- To provide a repository for student artifacts.
- To enhance students' technical literacy through the portfolio creation.
- To support the job preparation and interview process.

Portfolios consist of a variety of artifacts which students have chosen from their educational experiences to best represent their growth and development as teachers. Artifacts can include lesson plans, classroom observations, analyses of student learning, student work samples, photographs, video clips of instruction and reflective commentaries.

The student portfolio provides a foundation for the Teacher Performance Assessment (edTPA), a standardized evaluation required by Wisconsin for teacher licensure. The edTPA process also requires students to submit artifacts. These artifacts are scored by trained evaluators using a standardized set of edTPA rubrics.

For more information about the use of the portfolio in a specific teacher education program, please contact the program coordinator.

Teacher Standards

UW–Madison teacher education students must meet all state licensing requirements for initial teaching certification in Wisconsin. These requirements, sometimes referred to

as administrative rules "PI 34," mandate that individuals demonstrate proficiency on state-approved teaching standards. Each teacher education institution in Wisconsin has adopted a set of teacher education standards that meet state guidelines. These standards must be met by all students completing a licensing program. The current standards of the University of Wisconsin–Madison School of Education can be found on the school's website (<http://careers.education.wisc.edu/pi34/docs/Standards.pdf>).

APPLYING FOR A TEACHING LICENSE

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Students intending to complete a teacher certification program should monitor program requirements carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

Licensing Levels

The following licensing options are offered at UW–Madison.

- The Elementary Education program currently offers two licensing levels: *Early Childhood* and also *Middle Childhood through Early Adolescence*.
- The Special Education program certifies students at both the *Middle Childhood through Early Adolescence* level and also at the *Early Adolescence through Adolescence* level. The Special Education/Elementary Education dual major option certifies students only at the *Middle Childhood through Early Adolescence* level.
- Secondary Education programs certify students to teach their subject area at the *Early Adolescence through Adolescence* level.
- Students completing Language Education programs will be licensed at the *Early Childhood through Adolescence* level.
- Students in special fields such as Art, Communication Sciences and Disorders, Music, and Physical Education will be licensed at the *Early Childhood through Adolescence* level.

Wisconsin State Licensing

The State of Wisconsin issues an initial teaching license to certified teachers. The current fee is \$125. An online license application is available through the Department of Public Instruction (<http://dpi.wi.gov/tepd/elo>). A Criminal Background Investigation (CBI) will also be conducted by DPI. Information about fingerprint submission, when necessary, is available through the Department of Public Instruction (<http://dpi.wi.gov/tepd/licensing/fingerprint/electronic-submission>).

Before applying for a license, DPI requires the electronic submission of "Endorsed Candidate for Licensure" (ECL) data by the certifying officer of the institution where the teacher preparation was completed. For UW–Madison teacher certification students, the endorsement will come from the School of Education, 139 Education Building, 1000 Bascom Mall. Once this information has been submitted to DPI, students are notified by email that they may begin the application online.

Before endorsing a student, UW–Madison requires that (1) all certification requirements are met; (2) student teaching (following the school district calendar) is completed; (3) final grades are posted and reviewed; (4) the degree is "posted" by the registrar's office (four to five weeks after

graduation); and (5) a recommendation for certification is received from the program faculty. The Wisconsin Department of Public Instruction may require an additional 6 to 12 weeks for license processing. See Educator Licensing (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/educator-licensing>) for additional information about the licensing process.

Licensing Outside of Wisconsin

To apply for a license in a state other than Wisconsin, first check out the application requirements of that state. The University of Kentucky has a website that provides links (<http://2b.education.uky.edu/certification-requirements-by-state>) to teacher licensing agencies in all 50 states, the District of Columbia, and Puerto Rico.

Many states have a verification form that needs to be signed by a UW–Madison certification officer. This form verifies that a state-approved licensing program has been completed. These forms should be sent to Education Academic Services at 139 Education Building, 1000 Bascom Mall, or by email (mlpatton@wisc.edu) to be completed. If the form requests information about practicum and student teaching assignments (names of schools, grade levels, dates, etc.), this information must be completed before sending the form to EAS.

RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1259) page.

GERMAN, SED MINOR

HOW TO GET IN

This minor is available only to students admitted to the World Language Education program, or to teachers already licensed to teach at an appropriate level and subject in Wisconsin. Undergraduate students interested in completing a certification minor in German must also complete a major in another World Language certification subject area and be admitted to the World Language Education program. It is not possible to be certified only in a minor area. Consult with an Education Academic Services advisor to discuss the feasibility of combining this minor with the major subject area—not all combinations may be possible and will require approval of the WLE program coordinator. Interested students must apply and be admitted to both language subject areas. The oral proficiency exam, any written exams, and the immersion experience required for certification must be completed in both languages.

Licensed teachers interested in pursuing certification in this minor should consult with the World Language Education program director, Professor François Tochon, ftochon@education.wisc.edu, 544C Teacher Education Building.

REQUIREMENTS

Note: The oral proficiency exam, any written exams, and an immersion experience are required for certification in this language. Consult the

major requirements (p. 1351) in this subject for an explanation of these requirements and the World Language Education professional sequence.

PREREQUISITE COURSEWORK

Complete the following courses or demonstrate proficiency at the equivalent level. Prerequisite courses do not count toward the required credits of the minor.

Code	Title	Credits
GERMAN 101	First Semester German	4
GERMAN 102	Second Semester German	4
GERMAN 203	Third Semester German	4
GERMAN 204	Fourth Semester German	4
Select one of the following options:		
Option 1:		9
GERMAN 249	Intermediate German - Speaking and Listening	
GERMAN 258	Intermediate German-Reading	
GERMAN 262	Intermediate German-Writing	
Option 2:		9
GERMAN 274	Introduction to German Literature	
GERMAN 249	Intermediate German - Speaking and Listening	

MINOR REQUIREMENTS

The German minor requires a minimum of 18 credits of advanced (numbered 300 and above) coursework. The prerequisites to these courses are listed above. The German minor also requires a minimum cumulative grade point average of 2.75, based on all German minor coursework taken on the UW–Madison campus.

Code	Title	Credits
GERMAN 337	Advanced Composition & Conversation	3-4
GERMAN 351	Introduction to German Linguistics	3-4

Complete 12 credits of any German courses numbered 300 or above. These must be courses designated by the Department of German, Nordic and Slavic as acceptable for the L&S major in German.

ADVISING AND CAREERS

Consult with advising staff at Education Academic Services (EAS), Room 139 Education Building, 1000 Bascom Mall, 608-262-1651, for general questions regarding certification to teach German. Students may want to consult an undergraduate advisor (p. 704) in the German, Nordic and Slavic department regarding course sequencing and other aspects of this field of study.

The director of the World Language Education program is Professor François Tochon, ftochon@education.wisc.edu, 544C Teacher Education Building.

HISTORY, MINOR

This minor may be completed only by students admitted to the Middle Childhood through Early Adolescence options of Elementary Education.

The Department of History is housed in the College of Letters & Science. Students may wish to consult with an undergraduate advisor in the department to discuss course selection and other issues related to this field of study.

Students have numerous advising resources available to them, including both professional and peer advisors. Information on the History advising team, how to contact an advisor, how to schedule an appointment, and drop-in advising hours can be found on the departmental website (http://history.wisc.edu/undergraduate_advising.htm).

Upcoming career events and internship opportunities are also available on the History Advising Blog (<http://uwhistoryadvising.blogspot.com>).

HOW TO GET IN

This minor may be completed only by students admitted to the Middle Childhood through Early Adolescence options of Elementary Education. Students admitted to the Content Focus option are asked to identify the minor of their choice when admitted to the program. Students admitted to the other Middle Childhood through Early Adolescence options should fill out a minor declaration form available in Education Academic Services, Room 139 Education Building.

REQUIREMENTS

The history minor requires a minimum of 24 credits. **No more than three courses may be numbered below 300.** A minimum cumulative grade point average of 2.75 is required, based on all history minor coursework taken on the UW–Madison campus.

EUROPEAN HISTORY

Complete at least one course; includes British or Russian history.

ELECTIVES

Complete additional coursework, if necessary, to reach the minimum of 24 credits. It is recommended that students completing the history minor take a one-year continuous course in American history (e.g., HISTORY 101 and HISTORY 102).

ITALIAN, BSE

Student access to the Italian Education certification program is dependent upon available supervisory and cooperating teacher resources. For this reason, prospective Italian Education students must consult with advising staff at Education Academic Services (EAS), Room

139 Education Building, 1000 Bascom Mall, 608-262-1651. Students who do not have previous teaching experience or have not completed a teacher preparation program should expect to participate in the four-semester World Language Education program. Teacher candidates with extensive coursework or teaching experience may complete a modified program after consultation with faculty. Admission to the four-semester professional program entails meeting minimum admission requirements and adherence to strict application deadlines. See the WLE program director, Professor François Tochon, ftochon@education.wisc.edu, 544C Teacher Education Building, to determine the feasibility of completing certification in this language.

WORLD LANGUAGE EDUCATION PROGRAM (CURRENTLY CHINESE, FRENCH, GERMAN, JAPANESE, LATIN, AND SPANISH MAJORS)

The mission of the World Language Education (WLE) program is (1) to promote a community-based approach to world language instruction; (2) to educate teachers who understand different cultures, are proficient in their languages, routinely visit other countries, and can build bridges across nations, races, socioeconomic groups, cultures, and languages; and (3) to certify teachers who are prepared to serve the global needs of increasingly multicultural and multilingual schools and are strongly committed to act for a world in which shared understanding through conflict resolution, negotiation and communication are guiding principles.

There is a growing need for multilingual teachers from diverse backgrounds. The WLE faculty encourages qualified applicants from under-represented groups to apply for admissions to the program. The director of the World Language Education program is Professor François Tochon, ftochon@education.wisc.edu, 544C Teacher Education Building.

The objectives of the K–12 WLE program are

- to provide a philosophy of action designed to promote thoughtful curriculum development and classroom teaching in WLE;
- to provide regular contacts with the global community and in-service teachers in schools through field evenings, workshops, conferences, and other professional meetings;
- to provide clinical settings which enhance opportunities for beginning teachers to develop skillful practice and build bridges across languages, cultures, races, and nationalities;
- to help student teachers use multilingual educational technologies and document their experiences in electronic portfolios and implement research-based practices in their teaching;
- to provide university instructors and supervisors who are well-versed in WLE, who have an international orientation, and who are both approachable and helpful to student teachers.

Program majors include Chinese, French, German, Japanese, Latin, and Spanish, and may also include Italian and Portuguese if field placements are available in these subject areas. Completion of the WLE program leads to a bachelor of science degree in education with a major in the specific subject area. Wisconsin state licensing regulations require that students are licensed to teach at the early childhood through adolescence (approximately kindergarten through high school) levels.

Oral and written examinations are required for all world language teacher candidates enrolled in Wisconsin educator preparation programs, as is an extensive immersion experience. (Students becoming certified to teach

Latin are exempt from both the Oral Proficiency Exam and immersion experience requirement.)

HOW TO GET IN

PROGRAM ADMISSION OVERVIEW

Students are admitted to the World Language Education program once a year, effective in the fall. Selection is made the previous spring.

ENTERING THE SCHOOL OF EDUCATION

NEW AND CURRENT UW–MADISON STUDENTS

New freshmen and transfer students interested in World Language Education are admitted directly to the School of Education with a “pre-professional” classification. This classification indicates that a student is interested in a program offered by the school, but has not applied and been admitted to the professional program. Students interested in World Language Education receive the pre-professional classification of PRS.

On-campus students wishing to be admitted to the school while working on eligibility requirements and application can apply for admission to the school by completing a Pre-Professional Application (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>). A minimum GPA of 2.5, based on UW–Madison coursework, is required to transfer into the school. This GPA may be modified by the Last 60 Credits rule (detailed below (p. 1368)). It is not necessary to be a pre-professional student before applying to a professional program.

It is strongly recommended that students interested in a School of Education program meet with an academic advisor in Education Academic Services (EAS), 139 Education Building, 1000 Bascom Mall; call 608-262-1651 to schedule an appointment with an advisor.

PROSPECTIVE TRANSFER STUDENTS

Applicants not already enrolled on the UW–Madison campus must be admissible to the university to enroll in a School of Education program. Admission to UW–Madison requires a separate application and admission process. See UW–Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu>) for application information. Prospective transfer students are strongly advised to meet with an Education Academic Services advisor in advance of their application; to schedule, call 608-262-1651.

STUDENTS WITH A PREVIOUS DEGREE

Prospective applicants who already hold an undergraduate degree are strongly encouraged to meet with an Education Academic Services advisor in advance of their application. Consultations with advisors are available in person or via telephone; to schedule, call 608-262-1651.

Applicants who already hold an undergraduate degree are admitted to the School of Education as either an *Education Special student* or a *second degree student*, depending on their interests and academic background. Admission as an Education Special student indicates that the student has an interest in pursuing certification in a subject area studied during the initial degree; another degree is not awarded for this “certification only” coursework. Second degree students are seeking a second, unrelated degree from

the School of Education, which may, or may not, include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission. More information is available here (p. 1239).

NATIVE AND HERITAGE SPEAKERS

Native or heritage speakers of a language major offered within the World Language Education program are welcome to pursue admission to the World Language Education program. Prospective applicants and transfer students who have previous experience with a language are encouraged to consult with an advisor in Education Academic Services as early as possible; to schedule, call 608-262-1651.

Native or heritage speakers must take a placement exam in the corresponding language to determine the appropriate level of remaining instruction in grammar, communication standards and social customs, and other topics related to language acquisition and proficiency. Placement examinations for Spanish, French, and German are offered on campus through Testing & Evaluation Services or the University of Wisconsin System's Regional Placement Testing Program. Placement examinations for Chinese, Japanese, Italian, Latin, and Portuguese are administered by faculty or staff within the relevant academic department. For more information regarding placement in language courses, consult the Languages at UW–Madison placement guide (<http://languages.wisc.edu/advising/placement>).

APPLICATION AND ADMISSION

Applicants to the World Language Education program will be selected once a year, during the spring semester. Admission decisions will be based on coursework completed through the preceding fall semester. Admission is provisional until spring semester work has been completed and posted, and Education Academic Services staff have verified that students have submitted basic skills test scores, met minimum grade point averages, and earned minimum credits in their major. Admitted students will begin the sequence the following fall semester.

Resources limit the number of students who can be served by the UW–Madison World Language Education teacher education program. In recent years the World Language Education program has been able to accommodate all qualified applicants; however, if the number of qualified applicants to World Language Education exceeds program resources, admission will become limited and competitive. If this happens, meeting or surpassing the minimum eligibility criteria will not guarantee admission.

ELIGIBILITY FOR ADMISSION

Requirements and selection criteria may be modified from one application/admission period to the next. Any changes to these criteria may occur up until the application period begins. Potential applicants should consult the School of Education's Apply to a Program (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>) page for application deadlines and detailed information regarding current eligibility requirements and selection criteria prior to submitting an application.

To be considered for admission, students must:

- earn 54 or more transferable semester credits (junior standing) by the end of the spring semester of the application year.

- complete all but six credits of the relevant World Language major.
- earn a minimum 2.75 grade point average on all major coursework completed.
- earn a cumulative GPA of at least 2.75 (on a 4.00 scale).¹
- complete the Basic Skills Requirement. All prospective teacher education students must submit test scores to the School of Education to be eligible for professional program admission. Students may use their ACT, SAT, or GRE scores, or they may take the Praxis Core Academic Skills for Educators Test (formerly the Praxis I/PPST). These tests meet Wisconsin's basic skills test requirement for prospective teachers. For more information see the document Academic Tests for Prospective Teachers (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/student-testing-and-assessment>).
- have completed, or be in the process of completing, an approved Immersion Experience required for the World Language Education degree program.
- submit completed program application form(s), transcripts, and all other related application materials by the application deadline specified on the School of Education's Apply to a Program (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>) page.

¹ A comprehensive cumulative GPA of all college-level, transferrable coursework attempted on both the UW–Madison campus coursework and coursework taken at any other colleges or universities may be calculated for the exclusive purpose of establishing an applicant's eligibility for consideration. Both the comprehensive cumulative GPA and the comprehensive cumulative GPA based on a student's last 60 credits may be calculated. See Last 60 Credits Rule (detailed below). If admitted, students must earn the minimum cumulative GPA for UW–Madison coursework established by their program and the School of Education each semester after admission.

Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) More information regarding this rule is available here (p. 1239).

APPLYING FOR CERTIFICATION IN MORE THAN ONE SUBJECT AREA

Students may apply to be certified in more than one language. Eligibility requirements must be met and separate applications must be filed for each area of interest. Students must be admitted as a major in at least one of the program areas as it is not possible to be admitted only to complete a minor.

Students interested in combining the World Language Education degree program with certification in another area altogether must apply to both programs and meet the minimum criteria for admission to each program. It is suggested that students apply as majors in each area of interest, thus maximizing the chances of admission. Certification in two different areas requires the consent and cooperation of the World Language Education program coordinator and the faculty coordinator of the other subject area. Not all subjects can be combined with the World Language Education degree program.

While multiple majors or major–minor combinations are feasible and may be advantageous as a career strategy, it may take extra time to complete the additional subject area coursework. Students are encouraged to work closely with their Education Academic Services advisor to assess the possibility of completing certification in more than one area and to coordinate the requirements of multiple certifications.

PROGRAM ADMISSION SELECTION CRITERIA

The files of all applicants will be individually and holistically reviewed by a panel of World Language professionals. The criteria used for admission include the following:

- **Academic Qualifications:** The applicant demonstrates mastery of the target language and knowledge of its literature, civilization, and culture.
- **Career Maturity:** The applicant demonstrates commitment to teaching the target language to elementary, middle, and high school students, including consideration of his or her own strengths and limitations as a potential teacher.
- **Ability to Relate to Youth:** The applicant demonstrates the ability to work effectively with young people.
- **Commitment to All Students:** The applicant demonstrates commitment to working with all students including those of different racial, ethnic, and socioeconomic backgrounds, and students with disabilities, not just the economically privileged or highly motivated.
- **Interpersonal Skills:** The applicant demonstrates the ability to work effectively with peers, other professionals, and members of the community outside of school settings.

The application files, including immersion experiences and oral proficiency, are rated according to the above criteria for each language. A final cohort is selected along with rank-ordered alternates, based on a combination of ratings made by the World Language Education review committee and judgement by the faculty program coordinator about optimal cohort characteristics for each language. The availability of field placements in the subject area may also influence the selection process. Admission procedures are reviewed every other year to ensure fairness and effectiveness.

CRIMINAL BACKGROUND INVESTIGATION

The Department of Public Instruction (DPI) is required by law to conduct a background check on each applicant for a Wisconsin educator license. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety or education of PK-12 pupils. Local school districts also will conduct criminal background checks routinely on teacher education students prior to the start of in-classroom field work. Admitted applicants to any teacher education program who have a positive background check should confer with the Academic Dean's Office (Room 139 Education, 1000 Bascom Mall) about the potential impact of this on field placements and licensure.

An individual who is deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the academic dean in Education Academic Services.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 17) section of the *Guide*.
