

TABLE OF CONTENTS

Graduate Guide	10	Anthropology, M.S.	86
Accounting and Information Systems	19	Anthropology, Ph.D.	89
Business: Accounting, M.Acc.	19	Art	93
Business: Accounting: Tax, M.Acc.	21	Art Education, M.A.	93
African Cultural Studies	23	Art, Doctoral Minor	93
African Cultural Studies, Doctoral Minor	23	Art, M.A.	94
African Cultural Studies, M.A.	24	Art, MFA	99
African Cultural Studies, Ph.D.	28	Art History	106
Afro-American Studies	33	Art History, Doctoral Minor	106
Afro-American Studies, Doctoral Minor	33	Art History, M.A.	106
Afro-American Studies, M.A.	33	Art History, Ph.D.	109
Agricultural and Applied Economics	36	Art History: Architectural History, Ph.D.	112
Agricultural and Applied Economics, Doctoral Minor	36	Material Culture Studies, Graduate/Professional Certificate	114
Agricultural and Applied Economics, M.S.	37	Transdisciplinary Study of Visual Cultures, Doctoral Minor ...	114
Agricultural and Applied Economics: Agricultural and Applied Economics, M.S.	38	Transdisciplinary Study of Visual Cultures, Graduate/Professional Certificate	115
Agricultural and Applied Economics: Professional Option, M.S.	41	Asian Languages and Cultures	116
Agricultural and Applied Economics: Resource and Energy Demand Analysis, M.S.	44	Asian Languages and Cultures, Doctoral Minor	117
Agricultural and Applied Economics, Ph.D.	47	Asian Languages and Cultures, M.A.	118
Agricultural and Life Sciences - College-Wide	51	Asian Languages and Cultures, Ph.D.	125
Agroecology, M.S.	52	Chinese, Doctoral Minor	131
Biometry, M.S.	56	Chinese, M.A.	132
Development, Doctoral Minor	59	Chinese, Ph.D.	137
Development, Ph.D.	60	Japanese, Doctoral Minor	141
Plant Breeding and Plant Genetics, Doctoral Minor	64	Japanese, M.A.	142
Plant Breeding and Plant Genetics, M.S.	64	Japanese, Ph.D.	147
Plant Breeding and Plant Genetics, Ph.D.	69	Astronomy	152
Agronomy	73	Astronomy, Doctoral Minor	152
Agronomy, Doctoral Minor	74	Astronomy, M.S.	152
Agronomy, M.S.	74	Astronomy, Ph.D.	154
Agronomy, Ph.D.	78	Atmospheric and Oceanic Sciences	158
Animal Sciences	83	Atmospheric and Oceanic Sciences, Doctoral Minor	159
Animal Sciences, Doctoral Minor	83	Atmospheric and Oceanic Sciences, M.S.	159
Animal Sciences, M.S.	83	Atmospheric and Oceanic Sciences, Ph.D.	161
Animal Sciences, Ph.D.	83	Bacteriology	164
Anthropology	83	Bacteriology, M.S.	164
Anthropology, Doctoral Minor	83	Microbiology, Doctoral Minor	168
Anthropology, M.A.	83	Microbiology, M.S.	169
		Microbiology, Ph.D.	171
		Biochemistry	176
		Biochemistry, Doctoral Minor	176

Biochemistry, M.S.	177	Chemistry	277
Biochemistry, Ph.D.	180	Chemistry, Doctoral Minor	278
Biological Systems Engineering	184	Chemistry, M.S.	278
Biological Systems Engineering, M.S.	185	Chemistry, Ph.D.	282
Biological Systems Engineering, Ph.D.	189	Chicana/o and Latina/o Studies	287
Biomedical Engineering	194	Chicana/o and Latina/o Studies, Doctoral Minor	288
Biomedical Engineering, Doctoral Minor	195	Civil and Environmental Engineering	288
Biomedical Engineering, M.S.	195	Civil and Environmental Engineering, Doctoral Minor	289
Biomedical Engineering: Accelerated Program, M.S.	198	Civil and Environmental Engineering, M.Eng.	289
Biomedical Engineering: Biomedical Innovation, Design, and Entrepreneurship, M.S.	206	Civil and Environmental Engineering: Environmental Engineering, M.Eng.	290
Biomedical Engineering, Ph.D.	211	Civil and Environmental Engineering, M.S.	294
Quantitative Biology, Doctoral Minor	221	Civil and Environmental Engineering: Construction Engineering and Management, M.S.	297
Biostatistics and Medical Informatics	222	Civil and Environmental Engineering: Environmental Science and Engineering, M.S.	301
Bioinformatics, Graduate/Professional Certificate	222	Civil and Environmental Engineering: Geological/ Geotechnical Engineering, M.S.	305
Biomedical Data Science, M.S.	223	Civil and Environmental Engineering: Structural Engineering, M.S.	309
Biomedical Data Science, Ph.D.	226	Civil and Environmental Engineering: Transportation Engineering, M.S.	313
Botany	230	Civil and Environmental Engineering: Water Resources Engineering, M.S.	316
Botany, Doctoral Minor	230	Civil and Environmental Engineering, Ph.D.	321
Botany, M.S.	230	Geological Engineering, Doctoral Minor	325
Botany, Ph.D.	234	Geological Engineering, M.S.	326
Business - School-Wide	238	Geological Engineering, Ph.D.	329
Business Analytics, Graduate/Professional Certificate	239	Civil Society & Community Studies	333
Business, Doctoral Minor	240	Community-Engaged Scholarship, Doctoral Minor	333
Business, Environment, and Social Responsibility, Graduate/ Professional Certificate	240	Community-Engaged Scholarship, Graduate/Professional Certificate	334
Business, Ph.D.	242	Classical and Ancient Near Eastern Studies	335
Business: General Management, M.S.	246	Classical and Ancient Near Eastern Studies, M.A.	335
Business: General Management, MBA	249	Classical and Ancient Near Eastern Studies: Classics, M.A.	338
Business: General Management: Evening, MBA	251	Classical and Ancient Near Eastern Studies: Hebrew Bible, M.A.	344
Business: General Management: Executive, MBA	253	Classical and Ancient Near Eastern Studies, Ph.D.	349
Business: Supply Chain Management, M.S.	255	Classical and Ancient Near Eastern Studies: Classics, Ph.D.	353
Business: Supply Chain Management, MBA	258	Classical and Ancient Near Eastern Studies: Hebrew Bible, Ph.D.	358
Cell and Regenerative Biology	260	Classics, Doctoral Minor	364
Applied Biotechnology, M.S.	260	Greek, Doctoral Minor	364
Biotechnology, M.S.	264		
Center for Humanities	267		
Public Humanities, Graduate/Professional Certificate	267		
Chemical and Biological Engineering	269		
Chemical Engineering, Doctoral Minor	269		
Chemical Engineering, M.S.	269		
Chemical Engineering, Ph.D.	273		

Hebrew Bible, Doctoral Minor	364	Curriculum and Instruction: Secondary Mathematics Education, M.S.	430
Latin, Doctoral Minor	365	Curriculum and Instruction: Secondary Science Education, M.S.	435
Communication Arts	365	Curriculum and Instruction: Secondary Social Studies Education, M.S.	439
Communication Arts, Doctoral Minor	365	Curriculum and Instruction, Ph.D.	443
Communication Arts, M.A.	365	International Education, Doctoral Minor	448
Communication Arts, Ph.D.	372	Qualitative Research Methodology in Education, Doctoral Minor	448
Communication Sciences and Disorders	378	Science Education, Doctoral Minor	448
Audiology, Au.D.	378	Dairy Science	449
Audiology: Collaborative Program at Stevens Point, Au.D.	378	Dairy Science, Doctoral Minor	449
Audiology: Collaborative Program at UW-Madison, Au.D.	378	Dairy Science, M.S.	449
Communication Sciences and Disorders, Doctoral Minor	379	Dairy Science, Ph.D.	449
Communication Sciences and Disorders, M.S.	379	Dance	449
Communication Sciences and Disorders, Ph.D.	384	Dance, MFA	449
Community and Environmental Sociology	388	Economics	449
Community and Environmental Sociology, Doctoral Minor	388	Economics, Doctoral Minor	449
Comparative Literature and Folklore Studies	388	Economics, M.S.	450
Comparative Literature and Folklore Studies, M.A.	389	Economics: Graduate Foundations, M.S.	451
Comparative Literature and Folklore Studies: Comparative Literature, M.A.	390	Economics, Ph.D.	453
Comparative Literature and Folklore Studies: Folklore Studies, M.A.	393	Educational Leadership and Policy Analysis	459
Comparative Literature and Folklore Studies, Ph.D.	395	Educational Leadership and Policy Analysis, Doctoral Minor	459
Comparative Literature and Folklore Studies: Comparative Literature, Ph.D.	397	Educational Leadership and Policy Analysis, M.S.	459
Comparative Literature and Folklore Studies: Folklore Studies, Ph.D.	400	Educational Leadership and Policy Analysis: Cooperative Program with UW–Whitewater, M.S.	461
Comparative Literature, Doctoral Minor	403	Educational Leadership and Policy Analysis: Global Higher Education, M.S.	464
Computer Sciences	404	Educational Leadership and Policy Analysis: Wisconsin Idea Principal Preparation, M.S.	467
Computer Sciences, Doctoral Minor	404	Educational Leadership and Policy Analysis, Ph.D.	471
Computer Sciences, M.S.	404	Educational Leadership and Policy Analysis: Wisconsin Idea Executive Ph.D. Cohort, Ph.D.	473
Computer Sciences: Professional Program, M.S.	406	Educational Leadership and Policy Analysis, Specialist Certificate	477
Computer Sciences, Ph.D.	408	Educational Policy Studies	479
Counseling Psychology	412	Educational Policy Studies, Doctoral Minor	479
Counseling Psychology, Doctoral Minor	412	Educational Policy Studies, M.A.	479
Counseling Psychology, Ph.D.	413	Educational Policy Studies, Ph.D.	483
Counseling, M.S.	419	Educational Psychology	488
Curriculum and Instruction	423	Educational Psychology, Doctoral Minor	488
Curriculum and Instruction, Doctoral Minor	423	Educational Psychology, M.S.	489
Curriculum and Instruction, M.S.	424		
Curriculum and Instruction: Secondary English Education, M.S.	426		

Educational Psychology: Educational Specialist in School Psychology, M.S.	491	Creative Writing, Doctoral Minor	595
Educational Psychology: Professional Educator (MSPE), M.S.	494	Creative Writing, MFA	595
Educational Psychology, Ph.D.	496	English Linguistics, Doctoral Minor	598
Prevention and Intervention Science, Doctoral Minor	503	English, Doctoral Minor	598
Prevention and Intervention Science, Graduate/Professional Certificate	504	English, M.A.	598
Electrical and Computer Engineering	506	English, Ph.D.	601
Electrical Engineering, Doctoral Minor	506	Interdisciplinary Theatre Studies, Doctoral Minor	605
Electrical Engineering, M.S.	507	Interdisciplinary Theatre Studies, M.A.	606
Electrical Engineering: Power Engineering, M.S.	509	Interdisciplinary Theatre Studies, Ph.D.	609
Electrical Engineering: Professional, M.S.	514	Teaching English to Speakers of Other Languages, Graduate/Professional Certificate	612
Electrical Engineering: Research, M.S.	520	Entomology	613
Electrical Engineering: Signal Processing and Machine Learning, M.S.	526	Entomology, Doctoral Minor	613
Electrical Engineering, Ph.D.	526	Entomology, M.S.	614
Engineering - College-Wide	535	Entomology, Ph.D.	618
Design + Innovation, M.S.	535	Finance	622
Engineering, M.Eng.	540	Business: Finance, Investment, and Banking, M.S.	622
Engineering: Engine Systems, M.Eng.	542	Business: Finance, Investment, and Banking, MBA	625
Engineering: Engineering Data Analytics, M.Eng.	545	Business: Finance, Investment, and Banking: Applied Security Analysis, MBA	626
Engineering: Engineering Management, M.Eng.	547	Business: Finance, Investment, and Banking: Corporate Finance and Investment Banking, MBA	629
Engineering: Manufacturing Systems Engineering, M.Eng.	550	Food Science	631
Engineering: Sustainable Systems Engineering, M.Eng.	553	Food Science, Doctoral Minor	631
Engineering: Technical Japanese, M.Eng.	556	Food Science, M.S.	631
Environmental Chemistry and Technology, Doctoral Minor	558	Food Science, Ph.D.	635
Environmental Chemistry and Technology, M.S.	558	Forest and Wildlife Ecology	640
Environmental Chemistry and Technology, Ph.D.	562	Forestry, Doctoral Minor	640
Manufacturing Systems Engineering, M.S.	566	Forestry, M.S.	641
Manufacturing Systems Engineering: Engineering Management Specialization, M.S.	569	Forestry, Ph.D.	644
Engineering Physics	574	Wildlife Ecology, Doctoral Minor	648
Engineering Mechanics, Doctoral Minor	574	Wildlife Ecology, M.S.	648
Engineering Mechanics, M.S.	575	Wildlife Ecology, Ph.D.	652
Engineering Mechanics: Fundamentals of Applied Mechanics, M.S.	576	French and Italian	655
Engineering Mechanics, Ph.D.	580	French Studies, MFS	655
Nuclear Engineering and Engineering Physics, M.S.	585	French Studies: French Studies Summer Institute, MFS	657
Nuclear Engineering and Engineering Physics, Ph.D.	589	French, Doctoral Minor	659
Nuclear Engineering, Doctoral Minor	594	French, M.A.	660
English	594	French, Ph.D.	665
		Italian, Doctoral Minor	669
		Italian, M.A.	669
		Italian, Ph.D.	672

Gaylord Nelson Institute for Environmental Studies	676	German, Doctoral Minor	737
Air Resources Management, Doctoral Minor	676	German, M.A.	737
Culture, History and Environment, Doctoral Minor	676	German, Ph.D.	741
Culture, History and Environment, Graduate/Professional Certificate	677	Russian, Doctoral Minor	744
Energy Analysis and Policy, Graduate/Professional Certificate	677	Scandinavian Studies, Doctoral Minor	745
Environment and Resources, Doctoral Minor	679	Scandinavian Studies, M.A.	745
Environment and Resources, M.S.	680	Scandinavian Studies, Ph.D.	749
Environment and Resources, Ph.D.	684	Slavic Languages and Literatures, Doctoral Minor	754
Environmental Conservation, M.S.	688	Slavic Languages and Literatures, M.A.	754
Environmental Conservation: Environmental Conservation, M.S.	690	Slavic Languages and Literatures, Ph.D.	757
Environmental Conservation: Environmental Observation and Informatics, M.S.	694	Graduate - School-Wide	761
Transportation Management and Policy, Graduate/Professional Certificate	698	Biophysics, Doctoral Minor	761
Water Resources Management, Doctoral Minor	698	Biophysics, M.S.	762
Water Resources Management, M.S.	699	Biophysics, Ph.D.	766
Gender and Women's Studies	703	Cellular and Molecular Biology, M.S.	771
Gender and Women's Studies, Doctoral Minor	703	Cellular and Molecular Biology, Ph.D.	775
Gender and Women's Studies, Graduate/Professional Certificate	704	Distributed, Doctoral Minor	780
Gender and Women's Studies, M.A.	705	Special Graduate Committee, M.A.	780
Genetics	709	Special Graduate Committee, M.S.	781
Genetics, Doctoral Minor	709	Special Graduate Committee, Ph.D.	782
Genetics, M.S.	709	History	783
Genetics, Ph.D.	713	History of Science, Medicine and Technology, Doctoral Minor	784
Geography	718	History of Science, Medicine and Technology, M.A.	784
Cartography and Geographic Information Systems, Doctoral Minor	718	History of Science, Medicine and Technology, Ph.D.	789
Cartography and Geographic Information Systems, M.S.	718	History, Doctoral Minor	795
Cartography and Geographic Information Systems: Accelerated/Non-Thesis, M.S.	720	History, M.A.	795
Cartography and Geographic Information Systems: GIS Development, M.S.	722	History, Ph.D.	801
Geography, Doctoral Minor	725	Horticulture	807
Geography, M.S.	725	Horticulture, Doctoral Minor	807
Geography, Ph.D.	728	Horticulture, M.S.	808
Geoscience	731	Horticulture, Ph.D.	812
Geoscience, Doctoral Minor	731	Human Development and Family Studies	816
Geoscience, M.S.	731	Human Development and Family Studies, Doctoral Minor	816
Geoscience, Ph.D.	734	Human Ecology - School-Wide	817
German, Nordic, and Slavic	737	Human Ecology, Doctoral Minor	817
Folklore, Doctoral Minor	737	Human Ecology, M.S.	818
		Human Ecology: Consumer Behavior and Family Economics, M.S.	820
		Human Ecology: Design Studies, M.S.	823
		Human Ecology: Human Development and Family Studies, M.S.	828
		Human Ecology, MFA	832

Human Ecology: Design Studies, MFA	833	Russian, East European and Central Asian Studies, Doctoral Minor	924
Human Ecology, Ph.D.	839	Russian, East European and Central Asian Studies, Graduate/Professional Certificate	925
Human Ecology: Civil Society and Community Research, Ph.D.	841	Russian, East European and Central Asian Studies, M.A.	925
Human Ecology: Consumer Behavior and Family Economics, Ph.D.	846	Southeast Asian Studies, Doctoral Minor	930
Human Ecology: Design Studies, Ph.D.	851	Southeast Asian Studies, M.A.	931
Human Ecology: Human Development and Family Studies, Ph.D.	858	Integrative Biology	934
Industrial and Systems Engineering	862	Freshwater Marine Science, Doctoral Minor	934
Industrial Engineering, Doctoral Minor	863	Freshwater Marine Science, M.S.	934
Industrial Engineering, M.S.	864	Freshwater Marine Science, Ph.D.	937
Industrial Engineering: Human Factors and Health Systems Engineering, M.S.	866	Zoology, Doctoral Minor	940
Industrial Engineering: Systems Engineering and Analytics, M.S.	872	Zoology, M.S.	940
Industrial Engineering, Ph.D.	878	Zoology, Ph.D.	944
Patient Safety, Graduate/Professional Certificate	886	Journalism and Mass Communication	948
Information School	887	Journalism and Mass Communication, M.A.	948
Library and Information Studies, Doctoral Minor	887	Mass Communications, Doctoral Minor	953
Library and Information Studies, M.A.	887	Mass Communications, Ph.D.	953
Library and Information Studies: Campus Delivered Program, M.A.	890	Kinesiology	957
Library and Information Studies: Distance Delivered Program, M.A.	894	Kinesiology, Doctoral Minor	957
Library and Information Studies, Ph.D.	899	Kinesiology, M.S.	958
Library and Information Studies, Specialist Certificate	903	Kinesiology, Ph.D.	964
Print Culture History, Doctoral Minor	904	Occupational Therapy, M.S.	970
Institute for Clinical and Translational Research	904	Occupational Therapy, OTD	975
Clinical and Community Outcomes Research, Graduate/Professional Certificate	904	La Follette School of Public Affairs	977
Clinical Investigation, Doctoral Minor	906	International Public Affairs, MIPA	977
Clinical Investigation, M.S.	907	Public Affairs, Doctoral Minor	981
Clinical Investigation, Ph.D.	911	Public Affairs, MPA	982
Fundamentals of Clinical Research, Graduate/Professional Certificate	914	Language Institute	987
Institute for Regional and International Studies	915	Second Language Acquisition, Doctoral Minor	987
African Studies, Doctoral Minor	916	Second Language Acquisition, Ph.D.	988
African Studies, Graduate/Professional Certificate	918	Language Sciences	992
East Asian Studies, Doctoral Minor	919	Linguistics, Doctoral Minor	992
Global Studies, Doctoral Minor	920	Linguistics, M.A.	992
Latin American, Caribbean, and Iberian Studies, Doctoral Minor	921	Linguistics, Ph.D.	994
Latin American, Caribbean, and Iberian Studies, M.A.	921	Law - School-Wide	998
		Consumer Health Advocacy, Graduate/Professional Certificate	998
		Law, Doctoral Minor	999
		Life Sciences Communication	999
		Life Sciences Communication, Doctoral Minor	1000
		Life Sciences Communication, M.S.	1000
		Management and Human Resources	1005

Business: Arts Administration, M.A.	1005	Mechanical Engineering: Research, M.S.	1112
Business: Arts Administration, MBA	1005	Mechanical Engineering, Ph.D.	1116
Business: Management and Human Resources, M.S.	1008	Medical History and Bioethics	1120
Business: Management and Human Resources, MBA	1010	History of Medicine, Doctoral Minor	1121
Business: Management and Human Resources: Strategic Human Resource Management, MBA	1011	Medical Physics	1121
Entrepreneurship, Graduate/Professional Certificate	1013	Medical Physics, Doctoral Minor	1121
Strategic Innovation: Technology, Organizations, and Society, Graduate/Professional Certificate	1014	Medical Physics, M.S.	1121
Marketing	1015	Medical Physics, Ph.D.	1125
Business: Marketing, M.S.	1015	Medicine and Public Health - School-Wide	1129
Business: Marketing, MBA	1017	Endocrinology-Reproductive Physiology, Doctoral Minor	1129
Business: Marketing: Market Research, MBA	1019	Endocrinology-Reproductive Physiology, M.S.	1130
Business: Marketing: Product Management, MBA	1019	Endocrinology-Reproductive Physiology, Ph.D.	1134
Materials Science and Engineering	1021	Molecular and Cellular Pharmacology, Doctoral Minor	1137
Materials Science and Engineering, Doctoral Minor	1021	Molecular and Cellular Pharmacology, M.S.	1138
Materials Science and Engineering, M.S.	1021	Molecular and Cellular Pharmacology, Ph.D.	1140
Materials Science and Engineering: Nanomaterials and Nanoengineering, M.S.	1024	Molecular and Environmental Toxicology, Doctoral Minor	1144
Materials Science and Engineering, Ph.D.	1027	Molecular and Environmental Toxicology, M.S.	1144
Mathematics	1033	Molecular and Environmental Toxicology, Ph.D.	1148
Mathematics, Doctoral Minor	1033	Neuroscience, Doctoral Minor	1152
Mathematics, M.A.	1034	Neuroscience, M.S.	1153
Mathematics: Foundations of Advanced Studies, M.A.	1035	Neuroscience, Ph.D.	1156
Mathematics, Ph.D.	1038	Physiology, M.S.	1161
Mead Witter School of Music	1040	Physiology, Ph.D.	1163
Music, Doctoral Minor	1041	Nursing - School-Wide	1166
Music, M.A.	1046	Nurse Educator, Graduate/Professional Certificate	1166
Music, Ph.D.	1052	Nursing Practice, DNP	1167
Music: Education, M.M.	1057	Nursing, Doctoral Minor	1169
Music: Performance, DMA	1061	Nursing, M.S.	1170
Music: Performance, M.M.	1074	Nursing, Ph.D.	1173
Mechanical Engineering	1092	Nutritional Sciences	1179
Mechanical Engineering, Doctoral Minor	1092	Clinical Nutrition, M.S.	1181
Mechanical Engineering, M.Eng.	1093	Nutritional Sciences, Doctoral Minor	1185
Mechanical Engineering: Polymer Science, M.Eng.	1094	Nutritional Sciences, M.S.	1187
Mechanical Engineering, M.S.	1098	Nutritional Sciences, Ph.D.	1193
Mechanical Engineering: Accelerated Program, M.S.	1100	Oncology	1199
Mechanical Engineering: Automotive Engineering, M.S.	1104	Cancer Biology, M.S.	1199
Mechanical Engineering: Controls, M.S.	1104	Cancer Biology, Ph.D.	1202
Mechanical Engineering: Modeling and Simulation in Mechanical Engineering, M.S.	1108	Operations and Information Management	1206
		Business: Operations and Technology Management, M.S. ..	1206
		Business: Operations and Technology Management: Business Analytics, M.S.	1207
		Business: Operations and Technology Management, MBA ..	1210

Pathology	1213	Population Health: Epidemiology, Ph.D.	1297
Cellular and Molecular Pathology, M.S.	1213	Psychology	1300
Cellular and Molecular Pathology, Ph.D.	1216	Psychology, Doctoral Minor	1301
Pharmacy - School-Wide	1219	Psychology, M.A.	1301
Health Services Research in Pharmacy, M.S.	1219	Psychology, M.S.	1301
Health Services Research in Pharmacy, Ph.D.	1222	Psychology, Ph.D.	1303
Pharmaceutical Sciences, Doctoral Minor	1226	Real Estate and Urban Land Economics	1308
Pharmaceutical Sciences, M.S.	1226	Business: Real Estate and Urban Land Economics, M.S.	1308
Pharmaceutical Sciences, Ph.D.	1228	Business: Real Estate and Urban Land Economics: Global	
Pharmacy, M.S.	1232	Real Estate, M.S.	1310
Philosophy	1236	Business: Real Estate and Urban Land Economics: Real	
Philosophy, Doctoral Minor	1236	Estate, M.S.	1312
Philosophy, M.A.	1236	Business: Real Estate and Urban Land Economics, MBA	1314
Philosophy, Ph.D.	1239	Rehabilitation Psychology and Special Education	1317
Physics	1242	Clinical Rehabilitation Counseling, M.S.	1318
Physics, Doctoral Minor	1243	Rehabilitation Counselor Education, Doctoral Minor	1322
Physics, M.A.	1243	Rehabilitation Counselor Education, Ph.D.	1322
Physics, M.S.	1245	Special Education, Doctoral Minor	1326
Physics: Quantum Computing, M.S.	1247	Special Education, M.S.	1327
Physics, Ph.D.	1250	Special Education: Research and Theory, M.S.	1329
Planning and Landscape Architecture	1254	Special Education: Teacher Certification, M.S.	1332
Landscape Architecture, Doctoral Minor	1254	Special Education, Ph.D.	1335
Landscape Architecture, M.S.	1255	Religious Studies	1339
Urban and Regional Planning, Doctoral Minor	1257	Religious Studies, Doctoral Minor	1339
Urban and Regional Planning, M.S.	1258	Risk and Insurance	1340
Urban and Regional Planning, Ph.D.	1262	Business: Actuarial Science, Doctoral Minor	1340
Plant Pathology	1266	Business: Risk Management and Insurance, M.S.	1340
Plant Pathology, Doctoral Minor	1266	Business: Risk Management and Insurance, MBA	1342
Plant Pathology, M.S.	1267	Social Work	1345
Plant Pathology, Ph.D.	1270	Social Welfare, Doctoral Minor	1346
Political Science	1274	Social Welfare, Ph.D.	1346
Political Science, Doctoral Minor	1274	Social Work, MSW	1351
Political Science, M.A.	1275	Social Work: Part Time MSW Eau Claire, MSW	1355
Political Science, Ph.D.	1277	Social Work: Part Time MSW Madison, MSW	1358
Population Health Sciences	1280	Sociology	1362
Epidemiology, M.S.	1280	Science and Technology Studies, Doctoral Minor	1362
Epidemiology, Ph.D.	1284	Sociology, Doctoral Minor	1363
Global Health, Graduate/Professional Certificate	1288	Sociology, M.S.	1363
Population Health, Doctoral Minor	1289	Sociology, Ph.D.	1367
Population Health, M.S.	1290	Soil Science	1372
Population Health: Epidemiology, M.S.	1292	Soil Science, Doctoral Minor	1373
Population Health, Ph.D.	1295	Soil Science, M.S.	1374

Soil Science, Ph.D.	1379
Spanish and Portuguese	1385
Portuguese, Doctoral Minor	1386
Portuguese, M.A.	1386
Portuguese, Ph.D.	1390
Spanish, Doctoral Minor	1394
Spanish, M.A.	1394
Spanish, Ph.D.	1399
Statistics	1404
Statistics, Doctoral Minor	1404
Statistics, M.S.	1406
Statistics: Biostatistics, M.S.	1408
Statistics: Data Science, M.S.	1410
Statistics, Ph.D.	1414
Statistics: Biostatistics, Ph.D.	1415
Theatre and Drama	1418
Theatre and Drama, MFA	1418
Veterinary Medicine - School-Wide	1421
Comparative Biomedical Sciences, M.S.	1422
Comparative Biomedical Sciences, Ph.D.	1426
Index	1431

GRADUATE GUIDE

The information in the *Guide* is current as of June 1, 2020. The *Guide* is an official document of record and is reviewed and updated every year. Archived editions from past years are available in the Guide and Catalog Archive (<http://guide.wisc.edu/archive/>). Students are responsible for meeting the academic requirements that were in effect at the time that they matriculated, including satisfactory progress and degree requirements. In situations where academic requirements have changed during a student's time of enrollment, the Graduate School and the academic program, together with the student, may elect to enforce requirements that are in the best interest of the student. University offices can provide current information about possible changes. The *Guide* is published only online; printed copies are not available.

ABOUT THE GRADUATE GUIDE

The Graduate *Guide* provides an overview of UW–Madison programs that offer graduate degrees, doctoral minors, graduate/professional certificates, and capstone certificates. Some major programs have identified sub-majors, known as named options. These official named options are approved by university governance, and appear on the transcript with degree conferral. Some programs also have unofficial specializations that do not appear on the transcript.

The *Guide* references program-specific policies, rules and regulations as well as Graduate School-level policies regarding admission, coursework, the awarding of degrees and certificates, and the general criteria governing satisfactory progress in a degree program.

UW–MADISON GRADUATE SCHOOL

The UW–Madison Graduate School confers the Master of Arts, Master of Science, Master of Accountancy, Master of Business Administration, Master of Music, Master of Engineering, Master of French Studies, Master of International Public Affairs, Master of Music, Master of Public Affairs, Master of Social Work, Master of Fine Arts, Doctor of Audiology, Doctor of Musical Arts, Doctor of Nursing Practice, Doctor of Occupational Therapy, and Doctor of Philosophy. Additionally, several programs that do not award graduate degrees may offer doctoral minors, specialist certificates, graduate/professional certificates, or capstone certificates.

The master's degree is conferred only upon completion of a coherent and focused program of advanced study.

The master of fine arts degree offers superior students advanced training and opportunities for creativity. The program is for the prospective professional artist and teacher in the fine arts at the college level and emphasizes creative work.

The doctor of philosophy, the doctor of nursing practice, the doctor of audiology, the doctor of occupational therapy, and the doctor of musical arts are the highest degrees conferred at UW–Madison. None are conferred solely as a result of any prescribed period of study, no matter how faithfully pursued. The Ph.D. degree is a research degree and is granted on evidence of general proficiency, distinctive attainment in a special field, and particularly on ability for independent investigation as demonstrated in a dissertation presenting original research or creative scholarship with a high degree of literary skill. The DMA degree is granted on evidence of a high degree of competence in performance, conducting, or composition. The DNP, OTD, and Au.D. degrees are clinical

doctorates granted on evidence of clinical knowledge and expertise in their respective disciplinary areas.

The Ph.D., DNP, Au.D., OTD, and DMA degree programs must be rationally unified, with courses that must contribute to an organized program of study and research. Courses must be selected from groups embracing one principal subject of concentration called the **major** (see Degrees), and if required, from one or more related fields called the **doctoral minor**. The major field is normally coextensive with the work of a single department or with one of the subjects under which certain programs have been formally arranged. A major may be permitted to extend beyond the above limits with the prior approval of the Dean of the Graduate School. The doctoral minor is designed to represent a coherent body of work, taken as a graduate student, and should not be simply an after-the-fact ratification of a number of courses taken outside the major department.

Graduate School minimum credits and other requirements necessary to earn these degrees are listed in the Graduate School Minimum Degree Requirements and Satisfactory Progress (p. 15) section; each program may set degree requirements and expectations more rigorous than the Graduate School.

OTHER GRADUATE SCHOOL PUBLICATIONS

The Graduate School's Academic Policies and Procedures (<http://grad.wisc.edu/acadpolicy/>) complements Graduate Student Life (<https://gradlife.wisc.edu/>) and provides information about Graduate School academic and administrative policies and procedures.

Graduate Student Life (<https://gradlife.wisc.edu/>), published by the Graduate School Communications Office, offers information about a wide range of topics related to the graduate experience, and advice about the university and community from a student's perspective. It is distributed electronically to all new graduate students before they arrive on campus.

GRADUATE STUDENT PROFESSIONAL DEVELOPMENT

The Graduate School Office of Professional Development (OPD) coordinates, develops, and promotes learning opportunities to foster the academic, professional, and life skills of graduate students and postdoctoral researchers and scholars.

Professional development topics include Individual Development Plans (<https://grad.wisc.edu/pd/idp/>), communication, mentoring, grant writing, dissertation writing, career exploration, job search strategies, and more. OPD collaborates with the Writing Center, Libraries, DoIT Software Training for Students, Delta, career centers, and others to provide a wealth of resources and events tailored to the needs of UW–Madison graduate students.

The office developed and maintains DiscoverPD (<https://my.grad.wisc.edu/DiscoverPD/>), an innovative tool for UW–Madison graduate students to advance their academic and professional goals. DiscoverPD introduces nine areas (or "facets") of professional development, includes a self-assessment, and provides a customized report of areas of strength and weakness. The report comes with recommendations to help graduate students strengthen their ability within each area.

More information on campus resources for student professional development is available at Graduate Student Professional

Development (<http://grad.wisc.edu/pd/>). Students may keep up-to-date by reading GradConnections (<https://kb.wisc.edu/grad/68207/>), the weekly newsletter for graduate students, bookmarking the Events Calendar (<https://grad.wisc.edu/events/>) to keep tabs on upcoming workshops of interest, and following the Graduate School's Twitter (<https://twitter.com/UWMadGSEd/>), Facebook (<https://www.facebook.com/uwmadgradschool/>), YouTube (<https://www.youtube.com/c/UWMadisonGraduateSchool/>), or Instagram (<https://www.instagram.com/uwmadgsed/>) accounts.

AFFIRMATIVE ACTION AND COMPLIANCE STATEMENT

The University of Wisconsin–Madison is committed to providing equal opportunity and equal access and to complying with all applicable federal and state laws and regulations and University of Wisconsin System and university non-discrimination policies and procedures. For information on all covered bases, the names of the Title IX and Americans with Disabilities Act Coordinators, and the processes for how to file a complaint alleging discrimination, please contact the Office of Compliance (<https://compliance.wisc.edu/>). The Office of Compliance is located at 361 Bascom Hall, 500 Lincoln Drive, Madison WI 53706 and can be reached at Voice: 608-265-6018 (relay calls accepted); Fax: 608-263-4725; Email: uwcomplianceoffice@wisc.edu.

The following are the nondiscrimination bases for covering students and applicants for admission to the university; university employees and applicants for employment at the university; and those wishing to take part in university programs and activities, including visitors to campus.

STUDENTS/EDUCATIONAL PROGRAMS

- age
- ancestry
- color
- creed
- disability
- ethnicity (specifically involving harassment by UW employees)
- gender identity or expression
- marital or parental status
- national origin
- pregnancy
- race
- religion
- retaliation for opposing discrimination, making a complaint of discrimination or taking part in an investigation relating to discrimination
- sex
- sexual orientation
- or any other category protected by law, including physical condition or developmental disability as defined in Wisconsin Statutes§51.01(5).

EMPLOYEES/APPLICANTS

- age
- ancestry
- arrest record
- color
- conviction record
- creed
- disability
- ethnicity (specifically involving harassment by university employees)
- gender identity or expression
- genetic information including genetic testing
- honesty testing
- marital or parental status
- military service
- national origin
- pregnancy
- race
- religion
- retaliation for opposing discrimination, making a complaint of discrimination or taking part in an investigation relating to discrimination
- sex
- sexual orientation
- use or nonuse of lawful products off the employer's premises during nonworking hours
- veteran status
- declining to attend a meeting or participate in any communication about religious matters or political matters, or any other category protected by law

VISITORS AND PROGRAM PARTICIPANTS/UNIVERSITY ACTIVITIES

- age
- ancestry
- color
- creed
- disability
- national origin
- race
- retaliation for making a complaint of discrimination, or taking part in an investigation relating to discrimination, or opposing discrimination
- sex
- sexual orientation

Also covered is any other non-discrimination category that may be subsequently added, even if not included in the above list, as a result of federal or State of Wisconsin court, legislative, or regulatory action, or action taken by UWS or the University.

INFORMATION FOR STUDENTS WITH DISABILITIES

The University of Wisconsin–Madison is committed to providing equal opportunity and equal access to people with disabilities who are members of the University community. The McBurney Disability Resource Center provides disability-related services and accommodations to undergraduate, graduate, professional, University Special, and guest students. The center works closely with students and faculty on the provision of reasonable accommodations to ensure access to the learning environment. Common accommodations include extended time and/or small group environment for exams, class notetakers, sign language interpreting, real time and media captioning, and conversion of printed materials to an accessible format. McBurney staff members also collaborate with students and faculty to determine reasonable flexibility with regard to attendance, participation, and deadlines for disorders that fluctuate in severity over the course of enrollment. The center makes referrals to other campus offices or community resources for nonclassroom accommodations related to housing, transportation, personal care needs, and so on. Students should contact the center upon admission to begin the eligibility for services process. Early notice is essential in order to have accommodations in place prior to the start of the semester. For detailed information, see How to Become a McBurney Client (<http://mcburney.wisc.edu/students/howto.php>).

McBurney Disability Resource Center

ACCREDITATION

The University of Wisconsin–Madison is accredited by the:

Higher Learning Commission (<http://www.hlcommission.org/>)

230 South Lasalle Street, Suite 7-500

Chicago, IL 60604

telephone 1-800-621-7440

www.hlcommission.org (<http://www.hlcommission.org>)

UW–Madison, which was first accredited in 1913, was last accredited in 2019, and will go through a reaccreditation process again in 2028–29.

See Mark of Affiliation (<http://guide.wisc.edu/undergraduate/>).

Registration with the Minnesota Office of Higher Education: The University of Wisconsin–Madison is a public institution registered as a "Private Institution" with the Minnesota Office of Higher Education pursuant to sections 136A.61 to 136A.71. Registration is not an endorsement of the institution. Credits earned at the institution may not transfer to all other institutions.

The information, policies, and rules contained herein are subject to change.

DISTANCE OR FLEXIBLE PROGRAMS

The university offers several degree and capstone certificate programs that are fully or partially available at a distance or that are flexible to working schedules with evening and/or weekend courses. To learn more about the graduate-level degrees and certificates offered in flexible and online formats, visit the Wisconsin Professional Degrees & Certificates (<https://pdc.wisc.edu/>) portal.

OTHER PROFESSIONAL DEGREES

UW–Madison offers a number of post-baccalaureate professional degrees that are not administered by the Graduate School, but instead are solely supported by their home school.

Doctor of Juridical Science—SJD (<https://law.wisc.edu/>)

Doctor of Law—J.D. (<http://law.wisc.edu/>)

Doctor of Medicine—M.D. (<http://www.med.wisc.edu/education/md-program/main/276/>)

Doctor of Physical Therapy—DPT (<https://www.med.wisc.edu/education/physical-therapy-program/>)

Doctor of Pharmacy—Pharm.D. (<https://pharmacy.wisc.edu/programs/pharmd/>)

Doctor of Veterinary Medicine—DVM (<https://www.vetmed.wisc.edu/education/dvm/>)

Master of Genetic Counseling—MGC (<http://www.med.wisc.edu/education/graduate-programs/genetic-counseling/main/26910/>)

Master of Laws—LLM (<https://law.wisc.edu/>)

Master of Laws—Legal Institutions—LLM (<https://law.wisc.edu/>)

Master of Physician Assistant Studies—P.A. (<http://www.fammed.wisc.edu/pa-program/>)

Master of Public Health—MPH (<https://mph.wisc.edu/>)

DOCTORAL MINORS

Breadth is a required component of doctoral training at UW–Madison. Given there are multiple paths to breadth, the Graduate School leaves the choice of whether students achieve breadth through a minor or other means up to the specific graduate program. Most programs require students complete either an Option A (external) minor or an Option B (distributed) minor; if a doctoral minor is not required, this is noted on the Requirements tab of the *Guide* degree page. See Minors (<https://grad.wisc.edu/documents/minors/>) in the Graduate School *Academic Policies and Procedures* for minimum course requirements for the minor.

GRADUATE/PROFESSIONAL CERTIFICATES

Graduate/professional certificates are available to all degree-seeking graduate and professional students (GRAD, LAW, MED, PHARM, VMED careers). Graduate/professional certificate programs coordinate teaching and research among scholars active in interrelated disciplines. Consult the certificate program regarding recognition of program completion. Certificate programs monitor their own course and satisfactory progress requirements.

The Specialist Certificate represents work beyond the master's level. For more information, contact the program.

CAPSTONE CERTIFICATES

Capstone certificates allow individuals with a bachelor's degree to obtain additional professional skills and certification. Capstones do not lead to the conferral of a degree, but do appear on a student's UW–Madison transcript.

Capstone certificate students are admitted as University Special students through Adult Career and Special Student Services (ACSSS). ACSSS as the academic dean is responsible for issues related to student enrollment and the student's official record.

An ACSSS student services coordinator works with each department's capstone certificate coordinator on advising, admissions, enrollment eligibility, and program completion. Capstone certificates typically follow rules of the Graduate School (<https://grad.wisc.edu/acadpolicy/>) (<https://grad.wisc.edu/acadpolicy/#enrollmentrequirements>) for tuition, credit limits, and grading.

- User Experience Design, Capstone Certificate (<http://guide.wisc.edu/nondegree/capstone/user-experience-design-capstone-certificate/>)

ADMISSIONS

The University of Wisconsin–Madison has offered graduate study for more than a century. Its advanced instruction actively involves graduate students in research. The faculty of more than 2,000 distinguished scholars and teachers, supported by an academic staff exceeding 6,000 confers graduate degrees in more than 160 fields of study.

As one of the nation's major research institutions, the university maintains extensive research facilities. More than 40 campus libraries, three museums, and numerous research centers support nearly 7,500 active local, national, and international research projects.

The Graduate School website (<http://grad.wisc.edu/>) offers links to admission information, including program profiles and contacts, websites and the online application, funding resources, diversity, graduate student life and other resources.

Deadlines for applications, fellowships and other types of funding vary among programs. Requirements also vary; therefore, it is important to check program websites before applying. All transcripts are sent directly to the program. If applying to more than one program transcripts should be sent to each program. All transcripts become part of the university files and will not be returned. The application fee is set by the legislature and is nonrefundable.

When the Graduate School receives the application, the data are entered into a campuswide student administration system. The program performs the initial application review, and if desired, makes a positive admission recommendation to the Graduate School. Admission is based on demonstrated scholastic ability, letters of recommendation, the statement of purpose/reasons for graduate study, and in most programs, scores on standardized tests, such as the GRE, TOEFL or IELTS (for international students) and GMAT for Business School applicants. Program requirements may be more rigorous than Graduate School requirements.

FINANCIAL SUPPORT

Financial support is available to many graduate students on campus and comes in the form of Graduate Assistantships (e.g., Teaching, Project, or Research Assistantships), Fellowships, and Traineeships. The best source of information about these types of financial support is the faculty and staff in academic programs. Decisions about most graduate assistantships, fellowships, and traineeships are made at the program level; however, some cross-campus graduate assistantships are listed at the main Student Job Center. The Graduate School's Office of Fellowships and Funding Resources (OFFR) provides general information and direction to students about funding opportunities on and off campus.

Graduate School Office of Fellowships and Funding Resources
231 Bascom Hall, 500 Lincoln Drive
Madison, WI 53706-1380
608-265-5522; 608-262-9597
grad.wisc.edu/studentfunding/ (<http://grad.wisc.edu/studentfunding/>)

ASSISTANTSHIPS

Student assistants are enrolled graduate students. There are several general categories of student assistant appointments at UW–Madison.

TEACHING ASSISTANTS (TA)

Teaching assistantships provide financial support to graduate students as well as opportunities for acquiring valuable teaching experience. A teaching assistant is a graduate student enrolled in the University of Wisconsin–Madison who is regularly assigned to teaching under the supervision of a faculty member or academic staff employee.

Teaching assistants who are awarded a minimum appointment of 33.33% receive full tuition remission and are eligible for comprehensive health insurance benefits. They are, however, still responsible for paying segregated fees.

For more information, visit Types of Funding Available (<https://grad.wisc.edu/funding/>) and reference Academic Policies and Procedures (<https://grad.wisc.edu/documents/teaching-assistant/>).

PROGRAM ASSISTANTS (PA)

A program assistant or project assistant (PA) is a graduate student enrolled in the University of Wisconsin System who is assigned to conduct research, training, administrative responsibilities, under the supervision of a faculty or academic staff member, primarily for the benefit of the university.

Program/project assistants are included in a labor agreement between the state of Wisconsin and the Teaching Assistants Association.

Program/project assistants who are awarded a minimum appointment of 33.33% receive full tuition remission and are eligible for comprehensive health insurance benefits. They are, however, still responsible for paying segregated fees.

For more information, visit Types of Funding Available (<https://grad.wisc.edu/funding/>) and reference Academic Policies and Procedures (<https://grad.wisc.edu/documents/project-assistant/>).

RESEARCH ASSISTANTS (RA)

A research assistant (RA) must be a graduate student working toward a master's or Ph.D. degree. The main function of a research assistantship is to further the education and training of the student, through the individual's course of study and research directly applicable to his/her thesis or dissertation.

Research assistants who are awarded a minimum appointment of 33.33% receive full tuition remission and are eligible for comprehensive health insurance benefits. They are, however, still responsible for paying segregated fees.

For more information, visit Types of Funding Available (<https://grad.wisc.edu/funding/>) and reference Academic Policies and Procedures (<https://grad.wisc.edu/documents/research-assistant/>).

FELLOWSHIPS ADMINISTERED BY THE GRADUATE SCHOOL

The Graduate School administers a number of university-funded fellowships for different purposes and in different disciplines. For example, some fellowships are awarded by division, while others are offered by school or college. Applicants do not apply directly to the Graduate School for fellowship support. Academic programs nominate their most competitive students for these university-wide awards.

Fellowships may be awarded for a semester, academic (nine-month), or annual (12-month) tenure. Stipends vary according to the type of award.

In 2014-2015, fellowship awards ranged from \$6,455 for summer support up to \$25,820 for 12 months. These awards provide for payment of tuition and fees and include eligibility for comprehensive health insurance benefits.

Federal or national fellowships currently administered by the Graduate School include: Ford Foundation Predoctoral and Dissertation Fellowships, National Physical Science Consortium (NPSC) Fellowships, National Science Foundation (NSF) Graduate Fellowships, Charlotte Newcombe Fellowships, Spencer Dissertation Fellowships, CIC–Smithsonian Institution Fellowships, Soil Science Research Council (SSRC) Fellowships, Mellon-Council for European Studies (CES) Fellowships and ACLS/Mellon Dissertation Completion Fellowships. These programs require direct application by the student to the agency and generally have early fall deadlines.

FELLOWSHIPS FOR INTERNATIONAL TRAVEL, RESEARCH, AND STUDY

The International Fellowships Office, a unit of the International Institute, serves as a resource center and provides information and support to faculty, students, and staff interested in identifying international research grants, scholarships, and other funding opportunities. The International Fellowships Office also manages and coordinates a number of international fellowship competitions for UW–Madison faculty and students. Contact the International Institute at:

328 Ingraham Hall
(608) 262 9632
iris.wisc.edu/funding/ (<http://iris.wisc.edu/funding/>)

COLLEGE AND PROGRAM TRAINEESHIPS AND FELLOWSHIPS

Many colleges and programs have fellowships, scholarships, and traineeship awards for students at all stages of graduate study. Awards are made available from federal training programs, research grants, gifts and trusts, and special program funds. Information on these awards is available from the program.

OFFICE OF STUDENT FINANCIAL AID

The Office of Student Financial Aid assists students (US citizens and Permanent Residents) whose personal and family resources are not adequate to cover the expenses involved in attending UW–Madison. For more information about processing financial aid forms to determine eligibility, part-time employment or information about scholarships and more, see the Office of Student Financial Aid website (<https://financialaid.wisc.edu/>).

Effective July 1, 2012, graduate students are no longer eligible for Federal Direct Subsidized loans. For more information about changes to federal direct loans for graduate students check [here](#).

Counseling is available to students who would like more information about financial assistance, debt management, or personal budgeting.

Office of Student Financial Aid
333 East Campus Mall, #9701
608/262-3060
finaid@finaid.wisc.edu
financialaid.wisc.edu (<http://financialaid.wisc.edu>)

COUNCIL OF GRADUATE SCHOOLS POLICY RESOLUTION

Acceptance of an offer of financial aid (such as graduate scholarship, fellowship, traineeship, or assistantship) for the next academic year by an actual or prospective graduate student completes an agreement (based on a Resolution of the Council of Graduate Schools) which both the student and graduate school expect to honor. In those instances in which the student accepts the offer before April 15 and subsequently desires to withdraw, the student may submit in writing a resignation of the appointment at any time through April 15.

However, an acceptance given or left in force after April 15 commits the student not to accept another offer without first obtaining a written release from the institution to which a commitment has been made. Similarly, an offer by an institution after April 15 is conditional on presentation by the student of the written release from any previously accepted offer. It is further agreed by the institutions and organizations subscribing to the above Resolution that a copy of this Resolution should accompany every scholarship, fellowship, traineeship, and assistantship offer.

POLICIES AND REQUIREMENTS

The Graduate School sets minimum standards that must be met by all graduate students in the university. Continuation in the Graduate School is at the discretion of the major program, the Graduate School, and the major professor.

The requirements of most programs exceed the Graduate School minimum criteria. These additional requirements are described in each major program entry in the *Guide* on the Requirements tab. Students are responsible for reviewing *Guide* and obtaining specific degree requirements from the program. Many programs publish a graduate student handbook, which provides more details about graduate study, faculty interests, and other policies and processes.

GRADUATE SCHOOL MINIMUM DEGREE REQUIREMENTS AND SATISFACTORY PROGRESS

Schools/colleges, departments and programs may set more rigorous expectations and requirements than the Graduate School.

MASTER'S DEGREES

M.A., M.S., M.Acc., MBA, M.M., M.Eng., MFS, MIPA, MPA, MSW

Minimum Graduate Degree Credit Requirement¹
30 credits

Minimum Graduate Residence Credit Requirement¹
16 credits

Minimum Graduate Coursework (50%) Requirement¹

At least 50% of credits applied toward the graduate degree credit requirement must be in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (<http://my.wisc.edu/CourseGuideRedirect/BrowseByTitle/>).

Prior Coursework Requirements: Graduate Work from Other Institutions ¹

For well-prepared advanced students, a student's program may decide to accept prior graduate coursework from other institutions. This coursework does not appear on a UW–Madison transcript nor count toward graduate career GPA. The Graduate School's minimum graduate residence requirement can be satisfied only with courses taken as a graduate student at UW–Madison. The only exception is graduate-level coursework taken as a CIC Traveling Scholar.

Prior Coursework Requirements: UW–Madison Undergraduate ¹

For well-prepared advanced students, a student's program may decide to accept up to 7 credits numbered 300 or above of required or elective courses from the undergraduate work completed at UW–Madison toward fulfillment of minimum degree and minor credit requirements. However, this work would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above. This work will not appear on the graduate career portion of UW–Madison transcript nor count toward the graduate career GPA.

The Graduate School's minimum graduate residence credit requirement can be satisfied only with courses taken as a graduate student at UW–Madison.

Prior Coursework Requirements: UW–Madison University Special ¹

After admission to a graduate program, the student's program may decide to accept up to fifteen University Special student credits as fulfillment of the minimum graduate residence, graduate degree, or minor credit requirements on occasion as an exception (on a case-by-case basis). UW–Madison coursework taken as a University Special student would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above. This work will not appear on the graduate career portion of UW–Madison transcript nor count toward the graduate career GPA.

For more information, please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

Credits per Term Allowed ¹

Up to 15 credits

Overall Graduate GPA Requirement ¹

3.00

Other Grade Requirements ¹

The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.

For more information, please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

Probation Policy ¹

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

For more information, please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

Advisor / Committee

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

For more information, please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

Assessment and Examinations ¹

Requirements determined by the program.

Time Constraints ¹

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

For more information, please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

Language Requirements ¹

Each program sets its own language requirements. Some programs require competence in one or more languages before students can take preliminary examinations.

For more information, please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

MASTER OF FINE ARTS DEGREE OR SPECIALIST CERTIFICATE

MFA, Specialist Certificate

Minimum Graduate Degree Credit Requirement ¹

42 credits

Minimum Graduate Residence Credit Requirement ¹

24 credits

Minimum Graduate Coursework (50%) Requirement ¹

At least 50% of credits applied toward the graduate degree credit requirement must be in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://public.my.wisc.edu/portal/f/u12411s4/p/CourseGuide-Browse-Courses.u12411n31/detached/render.uP?pCm=view&pP_action=advancedSearch&pP_form-submit=true).

Prior Coursework Requirements: Graduate Work from Other Institutions ¹

For well-prepared advanced students, a student's program may decide to accept prior graduate coursework from other institutions. This coursework does not appear on a UW–Madison transcript nor count toward graduate career GPA. The Graduate School's minimum graduate residence requirement can be satisfied only with courses taken as a graduate student at UW–Madison. The only exception is graduate-level coursework taken as a CIC Traveling Scholar.

Prior Coursework Requirements: UW–Madison Undergraduate¹

For well-prepared advanced students, a student's program may decide to accept up to 7 credits numbered 300 or above of required or elective courses from the undergraduate work completed at UW–Madison toward fulfillment of minimum degree and minor credit requirements. However, this work would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above. This work will not appear on the graduate career portion of UW–Madison transcript nor count toward the graduate career GPA.

The Graduate School's minimum graduate residence credit requirement can be satisfied only with courses taken as a graduate student at UW–Madison.

Prior Coursework Requirements: UW–Madison University Special¹

After admission to a graduate program, the student's program may decide to accept up to fifteen University Special student credits as fulfillment of the minimum graduate residence, graduate degree, or minor credit requirements on occasion as an exception (on a case-by-case basis). UW–Madison coursework taken as a University Special student would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above. This work will not appear on the graduate career portion of UW–Madison transcript nor count toward the graduate career GPA.

For more information, please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

Credits per Term Allowed¹

Up to 15 credits

Overall Graduate GPA Requirement¹

3.00

Other Grade Requirements¹

The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.

For more information, please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

Probation Policy¹

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

For more information, please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

Advisor

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

A committee often accomplishes advising for the students in the early stages of their studies.

For more information, please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

Assessment and Examinations¹

Requirements determined by the program.

Time Constraints¹

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

For more information, please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

Language Requirements¹

Each program sets its own language requirements. Some programs require competence in one or more languages before students can take preliminary examinations.

For more information, please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

DOCTORAL DEGREES

Au.D., DMA, DNP, OTD, Ph.D.

Minimum Graduate Degree Credit Requirement¹

51 credits

Minimum Graduate Residence Credit Requirement¹

32 credits

Minimum Graduate Coursework (50%) Requirement¹

At least 50% of credits applied toward the graduate degree credit requirement must be in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://public.my.wisc.edu/portal/f/u12411s4/p/CourseGuide-Browse-Courses.u12411n31/detached/render.uP?pCm=view&pP_action=advancedSearch&pP_form-submit=true).

Prior Coursework Requirements: Graduate Work from Other Institutions¹

For well-prepared advanced students, a student's program may decide to accept prior graduate coursework from other institutions. This coursework does not appear on a UW–Madison transcript nor count toward graduate career GPA. The Graduate School's minimum graduate residence requirement can be satisfied only with courses taken as a graduate student at UW–Madison. The only exception is graduate-level coursework taken as a CIC Traveling Scholar.

Prior Coursework Requirements: UW–Madison Undergraduate¹

For well-prepared advanced students, a student's program may decide to accept up to 7 credits numbered 300 or above of required or elective courses from the undergraduate work completed at UW–Madison toward fulfillment of minimum degree and minor credit requirements. However, this work would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above. This work

will not appear on the graduate career portion of UW–Madison transcript nor count toward the graduate career GPA. The Graduate School's minimum graduate residence credit requirement can be satisfied only with courses taken as a graduate student at UW–Madison.

Prior Coursework Requirements: UW–Madison University Special¹

After admission to a graduate program, the student's program may decide to accept up to fifteen University Special student credits as fulfillment of the minimum graduate residence, graduate degree, or minor credit requirements on occasion as an exception (on a case-by-case basis). UW–Madison coursework taken as a University Special student would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above. This work will not appear on the graduate career portion of UW–Madison transcript nor count toward the graduate career GPA.

For more information, please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

Credits per Term Allowed¹

Up to 15 credits

Doctoral Minor/Breadth Requirements¹

The Graduate School requires doctoral programs to have a doctoral minor requirement to achieve breadth. Only those doctoral programs which have an accepted minor opt-out request on file may excuse their students from the doctoral minor requirement with alternate paths to breadth.

For more information, please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

Overall Graduate GPA Requirement¹

3.00

Other Grade Requirements¹

The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.

For more information, please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

Probation Policy¹

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

For more information, please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

Advisor

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

A committee often accomplishes advising for the students in the early stages of their studies.

For more information, please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

Assessment and Examinations¹

Doctoral students are required to take a comprehensive preliminary/oral examination after they have cleared their record of all Incomplete and Progress grades (other than research and thesis). Deposit of the doctoral dissertation in the Graduate School is required. Additional requirements are determined by the program.²

For more information, please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

Time Constraints¹

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

For more information, please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

Language Requirements¹

Each program sets its own language requirements. Some programs require competence in one or more languages before students can take preliminary examinations.

For more information, please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

¹ Schools/colleges, departments, and programs may set more rigorous expectations and requirements than the Graduate School.

² References to preliminary/oral examinations and dissertations do not apply to clinical doctorate degrees (such as Au.D., DNP). Consult the program for specific requirements.

ACADEMIC CALENDAR

ACADEMIC CALENDAR

Establishment of the academic calendar (<https://www.secfac.wisc.edu/academic-calendar.htm>) for the University of Wisconsin–Madison falls within the authority of the faculty as set forth in Faculty Policies and Procedures. Construction of the academic calendar is subject to various rules and guidelines prescribed by the Board of Regents, the Faculty Senate and State of Wisconsin legislation. Approximately every five years, the Faculty Senate approves a new academic calendar which spans a future five-year period.

The current calendar was adopted by the Faculty Senate in September 2016.

ACCOUNTING AND INFORMATION SYSTEMS

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Business: Accounting, M.Acc. (p. 19)

PEOPLE

Faculty: Professors Warfield (chair), Covalesski, Johnstone, Matsumura, Mayhew, Nair, Wild; Associate Professor Laplante; Assistant Professors Allee, Barr-Pulliam, Gaertner, Griffith, Lynch, Steele, Thomas

BUSINESS: ACCOUNTING, M.ACC.

Founded in 1900, the School of Business established one of the first five business programs in the nation. That entrepreneurial spirit remains strong.

As a student in the School of Business, you will find yourself inspired by peers, staff, alumni, business leaders, and world-renowned faculty who are focused, collaborative, and engaged in every aspect of the student experience. You will join a highly ranked program that equips you to meet both academic and career challenges. Employers value School of Business graduates because of the comprehensive preparation this learning environment provides. Graduates possess highly sought-after general management and specialized expertise in business.

Joining collaborative, inspiring, trustworthy, and progressive WSB alumni, Business Badgers graduate prepared to lead their organizations to success and transform the world of business. Together Forward!

MASTER'S PROGRAMS IN ACCOUNTING

The Master of Accountancy in Business: Accounting (M.Acc.) degree helps students develop strong technical and professional accounting skills that qualify them to sit for the CPA exam. Careers as professional accountants in public accounting, financial institutions, government, industry, or nonprofit organizations are possible upon graduation. For additional information see the program website (<https://wsb.wisc.edu/programs-degrees/masters/macc/>).

The state of Wisconsin and most other states have passed legislation mandating that candidates who would like to earn their CPA license must have completed a 150-credit-hour program including at least the equivalent of an undergraduate major in accounting. Advanced degree options for completing these requirements exist at the University of Wisconsin–Madison. They are:

1. The integrated MAcc (IMAcc) program in accounting, which leads to a BBA (bachelor of business administration) degree with an accounting major and a master of accountancy degree. The BBA is 120 credits and the M.Acc. is 30 credits in this program. Students who are majoring in accounting apply for admission to this program during the junior year. Those who are admitted to the traditional IMAcc program must complete a required internship during the spring

semester of the senior year (the program does offer some flexibility with the timing of the internship, as needed.)

2. Any undergraduate degree with a M.Acc. degree. The graduate-only master's degree program (GMAcc) does not require an undergraduate major in accounting or in business. There are 54 credits in this program, completed over two years. Students admitted to this program can complete an internship during the summer between the first and second years. The GMAT exam is required for admission.

ADMISSIONS

Students apply to the Master of Accountancy in Business: Accounting through one of the named options:

- Accounting, Assurance, Advisory (<http://guide.wisc.edu/graduate/accounting-information-systems/business-accounting-macc/business-accounting-accounting-assurance-advisory-macc/>)
- Tax (<https://guide.wisc.edu/graduate/accounting-information-systems/business-accounting-macc/business-accounting-tax-macc/>)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

All students in the Business: Accounting, M.Acc. program are eligible to compete for program-level financial support in the form of teaching assistantships, scholarships and project work. The Professional Programs Committee evaluates applications from existing students each spring for opportunities the following academic year.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS CURRICULAR REQUIREMENTS

Requirements Detail

Minimum Credit Requirement	54 credits
----------------------------	------------

Minimum Residence Credit Requirement	24 credits
--------------------------------------	------------

Minimum Graduate Coursework Requirement	Half of degree coursework (27 credits out of 54 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	No assessments or final examinations.
Language Requirements	No language requirements.

REQUIRED COURSES

Select a Named Option (<https://guide.wisc.edu/graduate/accounting-information-systems/business-accounting-macc/#NamedOptions>) for courses required.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Accountancy in Business: Accounting must select one of the following named options:

View as listView as grid

- BUSINESS: ACCOUNTING: ACCOUNTING, ASSURANCE, ADVISORY, M.ACC ([HTTP://GUIDE.WISC.EDU/GRADUATE/ACCOUNTING-INFORMATION-SYSTEMS/BUSINESS-ACCOUNTING-MACC/BUSINESS-ACCOUNTING-ACCOUNTING-ASSURANCE-ADVISORY-MACC/](http://GUIDE.WISC.EDU/GRADUATE/ACCOUNTING-INFORMATION-SYSTEMS/BUSINESS-ACCOUNTING-MACC/BUSINESS-ACCOUNTING-ACCOUNTING-ASSURANCE-ADVISORY-MACC/))
- BUSINESS: ACCOUNTING: TAX, M.ACC. (P. 21)

POLICIES

Students should refer to one of the named options for policy information:

- Accounting, Assurance, Advisory (<http://guide.wisc.edu/graduate/accounting-information-systems/business-accounting-macc/business-accounting-accounting-assurance-advisory-macc/>)
- Tax (<https://guide.wisc.edu/graduate/accounting-information-systems/business-accounting-macc/business-accounting-tax-macc/>)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Understand the conceptual and technical knowledge foundations of financial accounting, managerial accounting, taxation, business law, and auditing.
2. Apply Generally Accepted Accounting Principles (GAAP) (and relevant assumptions, principles, and constraints) to prepare financial statements.
3. Understand that management accounting and control systems, providing financial and nonfinancial performance information, are integral to the successful design and implementation of an organizational strategy.
4. Interpret and validate business events and transactions through the lens of business processes and systems.
5. Demonstrate technical competence in income taxation of individuals, partnerships, corporations, and international organizations.
6. Identify the legal implications of their choices and how the law impacts their interactions with others in a business setting.
7. Understand how earning trust and demonstrating integrity as successful accounting professionals impacts businesses, contracts, and capital markets, as well as society at large.
8. Understand that leadership in the field of accounting is the consistent display and communication of respect, trust, expertise and adaptability within various business relationships and contexts.
9. Explain how to complete an audit from beginning to end, applying auditing standards, assessing risk, and gathering evidence.
10. Engage in effective written communication practices by crafting professional memos and reports that integrate research and analysis skills, technical information, and expert writing proficiency.
11. Understand how accounting is a global practice requiring knowledge of national and international standards, the examination of sociocultural impacts within business contexts, and the ability to leverage the advantages that diversity brings to an organization.

PEOPLE

Faculty: Professors Warfield (chair), Covalleski, Linsmeier, Matsumura, Mayhew, Sambamurthy, Wild, Zehms; **Associate Professors:** Choi, Gaertner, Griffith, Laplante, Lynch, Wangerin; **Assistant Professor:** Thomas

ACCREDITATION

ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (<http://www.aacsb.edu/>)

Accreditation status: Accredited. Next accreditation review: 2021–2022.

CERTIFICATION/LICENSURE

The MAcc program meets the licensing requirements in most jurisdictions, though students pursuing their license in California or Texas are required to take a board-approved accounting ethics course (reflected on their transcript). Most program graduates students complete this requirement post-graduation via an online course through a community college. While the curriculum integrates ethics throughout the curriculum

(as validated by program accreditation), ethics is not reflected on a student's transcript. Students are strongly encouraged to seek out advising early regarding CPA qualifications as they range by state/jurisdiction.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

The requirements of this program meet Certification/Licensure in the following states:

Alabama, Alaska, Arizona, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming, District of Columbia, Guam, Puerto Rico, U.S. Virgin Islands

The requirements of this program do not meet Certification/Licensure in the following states:

California, Texas

The requirements of this program have not been determined if they meet Certification/Licensure in the following states:

Not applicable

Note:

American Samoa and the Northern Mariana Islands are not CPA-granting jurisdictions.

BUSINESS: ACCOUNTING: TAX, M.ACC.

This is a named option in the Business: Accounting M.Acc. (p. 19)

The M.Acc. in Business: Accounting degree has an available named option in Tax, which is designed for students preparing for a career in tax. This option focuses on deep knowledge in a variety of tax topics, providing the qualifications for a career in the tax discipline in public accounting or industry. Students will also benefit from taking a minimum of two additional advanced accounting electives outside of the tax curriculum.

For those pursuing a named option in Tax, the tax-focused curriculum includes the following courses:

- Advanced Financial Reporting
- Corporate Taxation
- Research and Administrative Issues in Taxation
- Seminar in Current Taxation Topics
- Partnership Taxation
- Advanced Corporate Taxation
- International Taxation

ADMISSIONS

The admissions process begins during December each year for the following fall semester admission. The M.Acc. program does not require previous work experience. Students who are pursuing an undergraduate degree in accounting at the School of Business and wish to earn a master of accountancy degree should consider applying to the Integrated Master of Accountancy (IMAcc) program (<https://wsb.wisc.edu/programs-degrees/masters/macc/imacc-program-overview/>). Students who have already completed an undergraduate degree in something other than accounting, at any institution, may wish to consider applying to the Graduate Master of Accountancy (GMacc) program (<https://wsb.wisc.edu/programs-degrees/masters/macc/gmacc-program-overview/>).

All applicants are required to have two recommendations completed via the online application system. In addition, applicants must submit a GMAT score to be considered for admission. The School of Business GMAT code is 79K-2S-23. The school does not share minimum GMAT score requirements. GRE scores **will not** be accepted in lieu of GMAT scores.

A Test of English as a Foreign Language is required for applicants whose native language is not English or whose full undergraduate instruction was not in English. Applicants who completed three or more years in an institution where the primary mode of instruction was English do not need to complete this requirement and may request a waiver on the application.

Students should direct the Educational Testing Service to forward their test results, taken within two years of the intended start term, to the University of Wisconsin–Madison (institution code: 1846). A minimum TOEFL score of 104 is required for consideration of admission into the program. International Financial Statements are only required of students **admitted** to the program.

It is not necessary to send official transcripts if applicants are unable to scan and upload transcripts to the online system. Applicants later admitted to the program will be asked to send the official transcripts.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

All students in the Business: Accounting, M.Acc. program are eligible to compete for program-level financial support in the form of teaching assistantships, scholarships and project work. The Professional Programs Committee evaluates applications from existing students each spring for opportunities the following academic year.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum Credit Requirement 54 credits

Minimum Residence Credit Requirement 24 credits

Minimum Graduate Coursework Requirement Half of degree coursework (27 credits out of 54 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.

Overall Graduate GPA Requirement 3.00 GPA required.

Other Grade Requirements The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.

Assessments and Examinations Contact the program for information on required assessments and examinations.

Language Requirements Contact the program for information on any language requirements.

REQUIRED COURSES

The Tax named option stresses in-depth study of tax law in a variety of areas, including business tax, individual and estate tax planning, multijurisdictional tax issues, and tax administration. The courses for the Tax named option are closely integrated with law school tax offerings and in some cases, are cross-listed with the law school. In addition, the Tax degree named option requires additional courses in auditing, financial reporting theory, or strategic cost management.

The second-year curriculum for students who wish to pursue a named option in Tax includes the following courses:

Code	Title	Credits
ACCT I S 706	Advanced Financial Reporting	3
ACCT I S 621	Corporate and Advanced Taxation	3
ACCT I S 724	Research and Administrative Issues in Taxation	3
ACCT I S 772	Seminar in Current Taxation Topics	3
ACCT I S 722	Taxation of Pass-Through Entities	3
ACCT I S 765	Contemporary Topics	1-4
ACCT I S 725	Taxation of Cross-Jurisdictional Transactions	3

Students pursuing the named option in Tax must also complete a minimum of two courses from the first year of the M.Acc. in Business: Accounting degree listed here (p. 19) along with one business elective course.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

No credits of graduate coursework from other institutions are allowed to satisfy requirements.

UW–Madison Undergraduate

Up to 6 credits from courses numbered 300 or above will be allowed to apply toward the minimum graduate degree credit requirement. Courses numbered 700 or above will be allowed to apply toward the minimum graduate coursework requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

No credits from the UW–Madison University Special student career are allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)

- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

Department sponsored funding is available on a competitive basis to all M.Acc. students. Students must have completed one year with the department before applying for an assistantship.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

- African Cultural Studies, Ph.D. (p. 28)

PEOPLE

Please visit the African Cultural Studies website (<https://african.wisc.edu/people/faculty-and-staff/>) for a complete list of faculty, instructional, and academic staff.

AFRICAN CULTURAL STUDIES, DOCTORAL MINOR

The mission of the Department of African Cultural Studies is to provide research and teaching in the languages and expressive cultures of Africa and Africans around the world.

The department is the only one of its kind in the United States. It offers curricula leading to both the master of arts degree and the doctor of philosophy degree. Its students come from all over the world, including many African countries.

ADMISSIONS

Graduate students interested in completing the minor in African cultural studies should contact the director of graduate studies.

REQUIREMENTS

Code	Title	Credits
Required Courses:		
AFRICAN 700	Reading and Writing African Cultural Studies	3
One graduate seminar		3
Two electives chosen in consultation with the Department's Director of Graduate Studies		6
Total Credits		12

Students must maintain a GPA of 3.5 or better in courses taken for the minor.

PEOPLE

Please visit the African Cultural Studies website (<https://african.wisc.edu/people/faculty-and-staff/>) for a complete list of faculty, instructional, and academic staff.

AFRICAN CULTURAL STUDIES, M.A.

The mission of the Department of African Cultural Studies is to provide research and teaching in the languages and expressive cultures of Africa and Africans around the world.

The department is the only one of its kind in the United States. It offers curricula leading to both the master of arts degree and the doctor of philosophy degree. Its students come from all over the world, including many African countries.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.

English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

PREREQUISITES

Admission to the graduate program requires a bachelor's degree with substantial coursework related to the expressive cultures of Africa. Admitted students with an insufficient background in African cultural studies may be asked to complete additional coursework beyond the regular degree requirements. Applicants should have a minimum 3.0 GPA on a 4.0 grading scale or equivalent academic performance on other scales. The department will consider special cases, however, for probationary admission. If you have questions about your eligibility, please contact the graduate coordinator.

Admission into the Ph.D. program **requires** a master of arts in a closely related field (with the thesis or other substantive piece of graduate-level writing submitted as a writing sample).

APPLICATION REQUIREMENTS

All applicants to the program must apply online (<https://grad.wisc.edu/apply/>) by 15 December. *Please note*, the \$75 application fee is due at the time of application (an additional \$6 will be charged to international students to cover processing). The department cannot review an applicant who has not met all Graduate School admissions requirements (<https://grad.wisc.edu/admissions/requirements/>). Carefully review the instructions and other information the Graduate School provides; most of the admissions questions we receive relate to the Graduate School's requirements and are answered in their documentation.

As part of the online application process, you will be asked supplemental questions regarding your language and teaching experience and expected to **upload** the information listed below:

- **University Transcripts**
You must upload transcripts or academic records from **each** institution attended. You may upload *unofficial* copies for department review. If you are offered admission to the program, the Graduate School will request that you provide official copies of transcripts or academic records from each institution you have attended. These must be issued directly by the institutions with all official seals, stamps, and signatures. International academic records must be in the original languages and records in languages other than English accompanied by an official English translation. An accepted student may not matriculate or enroll for courses until the Graduate School has documented official transcript(s) matching or updating the application transcript(s).
- **TOEFL or IELTS Scores** (international applicants)

If your undergraduate institution did not conduct courses in English, you must complete either the Test Of English as a Foreign Language (TOEFL) or the International English Language Testing System exam (IELTS). The online application allows you to self-report scores, but we

cannot consider your application until the Graduate School receives your official score report directly from the examination organization. Students who do not meet Graduate School guidelines for English proficiency (<https://grad.wisc.edu/admissions/requirements/>) may be considered for admission, but will be required to complete assigned English language courses during their first year of study.

• Purpose Statement

Your statement of purpose should make clear that you understand the kinds of courses we offer (<https://african.wisc.edu/acs-courses/>) and the research interests of our faculty and substantiate how your own interests intersect with our faculty expertise (<https://african.wisc.edu/people/faculty-and-staff/>). Give a detailed account of the reasons and circumstances that led to your decision to undertake graduate work in the Department of African Cultural Studies. Include references to your academic work, your short-term and long-term goals, your personal relationship to or interests in the fields we study, and your knowledge of any African languages. If your transcripts reflect any negative episodes in your academic career, e.g., a poor grade or a dropped course, you may explain them here. We look for evidence of your developing research interests and how they relate to the research interests of our faculty.

The department will make secondary use of your purpose statement to assess the quality of your writing. We recommend a length of 500-1000 words. The scope of your discussion and the level of detail that you choose to provide will be part of our assessment.

• CV or Résumé

Curriculum vitae or résumé listing language experience, awards, honors, or publications. For more information on CV or résumé writing, please consult:

UW-Madison Writing Center: CV Tips (<https://writing.wisc.edu/handbook/assignments/cv/>)

• Letters of Recommendation (3)

We require three letters of recommendation, submitted directly by the referees. You must submit your *requests* to all three of your references as part of the online application. Recommenders will receive a notice via email and will submit their letters accordingly. We do accept letters by post and email (submit directly to the graduate coordinator). We do not accept letters sent by the candidate unless they are sealed and the seal is proofed in some form (e.g., with the letter writer's signature over the seal).

Recommendation letters should discuss your overall scholarly ability. Please ask your referees to include specific examples of your academic achievements; your independent thinking, analytical and critical thinking skills; papers and presentations given in their courses; and your merits relative to other students. For international applicants, the letters should also address English proficiency. If recommenders submit their letters via the Graduate School's online application system, they will be asked to compare you to other students with whom they have worked; if they do not submit their letters through this system, they should include this information in the letter itself.

Strong letters of recommendation will provide the department with evidence that you will succeed in the study of African languages and expressive cultures at the graduate level. While we will accept letters from faculty in any discipline, we will give greater weight to letters from faculty whose scholarship is related to the fields we study.

All letters must be received by the 15 December deadline in order for us to consider your application.

AFTER THE APPLICATION

Following your application, the Graduate School will provide you with a link and a UW–Madison NetID and account. Use the information to track the progress of your application. Please keep in mind that materials sent by post may take some time to appear on this progress report.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

The department automatically considers all applicants for support through teaching assistantships and various UW–Madison fellowships. All admitted students are guaranteed five years of funding, typically in the form of TAs, as long as they are making satisfactory progress. Our top domestic minority students are typically nominated for, and often receive, Advanced Opportunity Fellowships (<https://grad.wisc.edu/diversity/oeid/>). All domestic students are encouraged to apply for Foreign Language Area Studies (<https://flas.wisc.edu/>) (FLAS) fellowships. Many of our graduate students also pursue outside funding as their career progresses. Details are listed below.

TEACHING ASSISTANTSHIPS

The department regularly funds teaching assistantships for both our language and literature/culture courses. Opportunities and assignments vary by semester. All continuing graduate students in good academic standing must apply by 15 November to be considered for positions for the following academic year. All new applicants are automatically considered. Teaching assistants earn tuition remission, a stipend, and benefits.

Please consult our website (<https://african.wisc.edu/programs/teaching-assistantships/>) for the most up-to-date information regarding teaching assistantships.

EBRAHIM HUSSEIN FELLOWSHIP

The Ebrahim Hussein Endowment for research in African expressive cultures was established in the College of Letters & Science in 2003 thanks to the generosity of Robert M. Philipson, alumnus of the College of Letters & Science (Ph.D.1989). The college will award \$7500 each year to one or more full-time graduate students in L&S to carry out research on African expressive cultures in Africa and/or archives outside of the United States. The research must lead to a Ph.D. dissertation, an M.A. thesis, or a publishable-quality paper. Doctoral students may receive up to \$7500 each; M.A. level students may receive up to \$3,750 each.

Selection Criteria:

- Excellence of research proposal
- Demonstrated commitment to researching African expressive cultures

- General academic record
- Strong recommendations from faculty
- Timing of the proposed research in relation to degree requirements

OTHER FUNDING RESOURCES

The Graduate School provides additional information helpful to graduate students in need of funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	24 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide) (https://registrar.wisc.edu/course-guide/).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	M.A. candidates should maintain a 3.5 GPA in all AFRICAN department courses and may not have any more than two Incompletes on their record at any one time.

Assessments By the beginning of the fourth semester (e.g. the end of January), the candidate will complete a Qualifying Paper (QP) in the form, length, and quality of a publishable article. The QP may be based on a paper written for a departmental seminar, revised based on the instructor's feedback, and then read by two faculty members. One faculty member will be the student's primary MA advisor (by mutual agreement); the second will be assigned by the Department Chair or DGS. Acting as if they are reviewers for a journal determining whether the QP is publishable, the two faculty members will deem the QP "publishable," suggest additional revisions, or reject it.

Language Two years study of an African language are required.

Requirements Students may petition for an exemption if they have received comparable African language training or have intermediate or higher proficiency in an African language.

REQUIRED COURSES

Code	Title	Credits
Two years study of an African language.		
AFRICAN 700	Reading and Writing African Cultural Studies	3
AFRICAN 803	Theories of African Cultural Studies	3
Two AFRICAN department seminars at the 900-level		6
Six AFRICAN department elective courses chosen in consultation with the graduate advisor		18
Total Credits		30

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program permission, students are allowed to count no more than 6 credits of coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

With program approval, students are allowed to count no more than 6 credits of coursework numbered 300 or above from a UW-Madison undergraduate degree.

UW-Madison University Special

With program approval, students are allowed to count no more than 15 credits of coursework numbered 300 or above taken as a UW-Madison University Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

A semester GPA below 3.0 will result in the student being placed on academic probation. If a semester GPA of 3.0 is not attained during the subsequent semester of full time enrollment (or 12 credits of enrollment if enrolled part-time) the student may be dismissed from the program or allowed to continue for one additional semester based on advisor appeal to the Graduate School.

ADVISOR / COMMITTEE

Candidates are required to meet with the director of graduate studies every semester prior to enrolling for the next semester. Failure to meet this requirement will result in a hold on the student's enrollment.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Students who have not produced a "publishable" (passing) QP by the beginning of the fourth semester (e.g. the end of January) must write a brief request for an extension to the end of the fourth semester, to be presented by their advisor for approval by the faculty. No more than one such extension will be granted.

Students who have not produced a "publishable" (passing) QP by the end of their fourth semester will leave the program with a terminal MA. Those who produce a "publishable" QP by the end of their fourth semester will be considered for admission to the PhD program. A decision regarding admission to the Ph.D. will be taken at a faculty meeting, based on a recommendation by the QP readers and input from other faculty members.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)

- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. (Content) Recognize canonical authors and texts, historical forms, genres, and structures, and recognize aesthetic and cultural concerns in Africa and its diasporas.
2. (Content) Develop in-depth knowledge in a sub-field of specialization within African cultural studies.
3. (Content) Demonstrate their understanding of major theories, approaches, concepts, and current and classical research findings in African and diaspora literary and cultural studies.
4. (Content) Develop a level of proficiency in the different “ways of knowing” Africa and the diaspora through language, literatures, and cultures.
5. (Research Skills) Understand their own learning processes and possess the capacity to intentionally seek, evaluate, and learn from information, and recognize and reduce bias in their thinking.
6. (Research Skills) Effectively retrieve and comprehend primary sources in English and African languages, and secondary sources from a range of disciplines.
7. (Research Skills) Gain firm knowledge of existing research in their area of specialization and its gaps.
8. (Communication Skills) Develop or improve speaking, listening, writing, reading skills in an African language, and integrate these skills to communicate effectively.
9. (Communication Skills) Communicate effectively through essays, oral presentations, and discussion, so they may share their knowledge, wisdom, and values with others across social and professional settings.
10. (Communication Skills) Show knowledge of conventional rhetorical strategies, and integrate research by other authors while distinguishing between their own ideas and those of others.
11. (Communication Skills) Write and speak across disciplinary boundaries with regard to existing research about Africa and the diaspora in the humanities and social sciences.
12. (Analytical Skills) Discuss cultural texts from various theoretical and critical perspectives, formulate ideas and make connections between literary/cultural concepts and themes.

13. (Analytical Skills) Demonstrate command of the terminology and methodology of cultural studies, construct complex arguments, and use primary and secondary sources to support arguments.
14. (Analytical Skills) Articulate the place of their own research in relation to existing research on related topics.

PEOPLE

Please visit the African Cultural Studies website (<https://african.wisc.edu/people/faculty-and-staff/>) for a complete list of faculty, instructional, and academic staff.

AFRICAN CULTURAL STUDIES, PH.D.

The mission of the Department of African Cultural Studies is to provide research and teaching in the languages and expressive cultures of Africa and Africans around the world.

The department is the only one of its kind in the United States. For those learning to conduct research in African expressive cultures, it offers curricula leading to both the master of arts degree and the doctor of philosophy degree. For those learning to teach African languages, it offers a terminal master of arts degree with an emphasis on pedagogy. Its students come from all over the world, including many African countries.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s).** Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail

Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

PREREQUISITES

Admission to the graduate program requires a bachelors degree with substantial coursework related to the expressive cultures of Africa. Admitted students with an insufficient background in African cultural studies may be asked to complete additional coursework beyond the regular degree requirements. Applicants should have a minimum 3.0 GPA on a 4.0 grading scale or equivalent academic performance on other scales. The department will consider special cases, however, for probationary admission. If you have questions about your eligibility, contact the chair of the Admissions committee, Dr. Katrina Daly Thompson, at katrina.daly.thompson@wisc.edu

Admission into the Ph.D. program **requires** a master of arts in a closely related field (with the thesis or other substantive piece of graduate-level writing submitted as a writing sample).

APPLICATION REQUIREMENTS

All applicants to the program must apply online (<https://grad.wisc.edu/apply/>) by 15 December. *Please note*, the \$75 application fee is due at the time of application (an additional \$6 will be charged to international students to cover processing). The department cannot review an applicant who has not met all Graduate School admissions requirements (<https://grad.wisc.edu/admissions/requirements/>). Carefully review the instructions and other information the Graduate School provides; most of the admissions questions we receive relate to the Graduate School's requirements and are answered in their documentation.

As part of the online application process, you will be asked supplemental questions regarding your language and teaching experience and expected to **upload** the information listed below:

- **University Transcripts**

You must upload transcripts or academic records from **each** institution attended. You may upload *unofficial* copies for department review. If you are offered admission to the program, the Graduate School will request that you provide official copies of transcripts or academic records from each institution you have attended. These must be issued directly by the institutions with all official seals, stamps, and signatures. International academic records must be in the original languages and records in languages other than English accompanied by an official English translation. An accepted student may not matriculate or enroll for courses until the Graduate School has documented official transcript(s) matching or updating the application transcript(s).

- **TOEFL or IELTS Scores** (international applicants)

If your undergraduate institution did not conduct courses in English, you must complete either the Test Of English as a Foreign Language (TOEFL) or the International English Language Testing System exam (IELTS). The online application allows you to self-report scores, but we cannot consider your application until the Graduate School receives your official score report directly from the examination organization. Students who do not meet Graduate School guidelines for English proficiency (<https://grad.wisc.edu/admissions/requirements/>) may be considered for admission, but will be required to complete assigned English language courses during their first year of study.

- **Purpose Statement**

Your statement of purpose should make clear that you understand the kinds of courses we offer (<https://african.wisc.edu/acs-courses/>) and

the research interests of our faculty and substantiate how your own interests intersect with our faculty expertise (<https://african.wisc.edu/people/faculty-and-staff/>). Give a detailed account of the reasons and circumstances that led to your decision to undertake graduate work in the Department of African Cultural Studies. Include references to your academic work, your short-term and long-term goals, your personal relationship to or interests in the fields we study, and your knowledge of any African languages. If your transcripts reflect any negative episodes in your academic career, e.g., a poor grade or a dropped course, you may explain them here.

The department will make secondary use of your purpose statement to assess the style and substance of your writing. We recommend a length of 500-1000 words. The scope of your discussion and the level of detail that you choose to provide will be part of our assessment.

- **CV or Résumé**

Curriculum vitae or résumé listing language experience, awards, honors, or publications. For more information on CV or résumé writing, please consult these resources:

UW-Madison Writing Center: CV Tips (<https://writing.wisc.edu/handbook/assignments/cv/>)

- **Letters of Recommendation (3)**

We require three letters of recommendation, submitted directly by the referees. You must submit your *requests* to all three of your references as part of the online application. Recommenders will receive a notice via email and will submit their letters accordingly. We do accept letters by post and email (see *Application Contacts* below). We do not accept letters sent by the candidate unless they are sealed and the seal is proofed in some form (e.g., with the letter writer's signature over the seal).

Recommendation letters should discuss your overall scholarly ability. Please ask your referees to include specific examples of your academic achievements; your independent thinking, analytical and critical thinking skills; papers and presentations given in their courses; and your merits relative to other students. For international applicants, the letters should also address English proficiency. If recommenders submit their letters via the Graduate School's online application system, they will be asked to provide class rank information; if they do not submit their letters through this system, they should include this information in the letter itself.

Strong letters of recommendation will provide the department with evidence that you will succeed in the study of African languages and expressive cultures at the graduate level. While we will accept letters from faculty in any discipline, we will give greater weight to letters from faculty whose scholarship is related to the fields we study.

All letters must be received by the 15 December deadline in order for us to consider your application.

AFTER THE APPLICATION

Following your application, the Graduate School will provide you with a link and a UW-Madison NetID and account. Use the information to track the progress of your application. Please keep in mind that materials sent by post may take some time to appear on this progress report.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum Credit Requirement 51 credits

Minimum Residence Credit Requirement 45 credits

Minimum Graduate Coursework Requirement Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (<http://my.wisc.edu/CourseGuideRedirect/BrowseByTitle> (<http://my.wisc.edu/CourseGuideRedirect/BrowseByTitle>)).

Overall Graduate GPA Requirement 3.00 GPA required.

Other Grade Requirements Ph.D. candidates should maintain a 3.5 GPA in all AFRICAN department courses and may not have any more than two Incompletes on their record at any one time.

Assessments and Examinations Doctoral students must pass a preliminary written examination to become dissertators, followed by a dissertation proposal oral defense. After writing the dissertation, candidates must pass an oral defense of the completed dissertation.

Doctoral students must submit a short statement (2-3 pages) at the end of their third semester, discussing how the courses that they have taken so far, as well as those that they plan to take in the future semester(s), relate to their area of focus and inform their dissertation research and their envisioned career path. The statement should be approved by the advisor, then submitted by the advisor at a faculty meeting for feedback.

Language Requirements Ph.D. students must complete one year of an African language beyond second year level. Students may petition for an exemption if they have received comparable African language training or have intermediate or higher proficiency in an African language.

One additional course in a language relevant to the student's doctoral research and/or geographic area of focus, other than English. The language must be chosen in consultation with the director of graduate studies.

Doctoral Minor/Breadth Requirements All doctoral students are required to complete a minor.

REQUIRED COURSES

Code	Title	Credits
	Ph.D. students must complete one year of an African language beyond second year level. Students may petition for an exemption if they have received comparable African language training or have intermediate or higher proficiency in an African language. One additional course in a language relevant to the student's doctoral research and/or geographic area of focus, other than English. The language must be chosen in consultation with the director of graduate studies.	

Four AFRICAN department graduate-level courses: in consultation with the director of graduate studies and/or the dissertation committee chair, each student is expected to define, no later than the third semester, an area of focus within African Cultural Studies, e.g., literature, music, film, critical applied linguistics, drama, critical theory, diaspora studies, new media. Within that area of study, students will take:

Two AFRICAN graduate seminars

Two additional courses to be chosen in consultation with the director of graduate studies and/or the dissertation committee chair

One additional course in a language relevant to the student's doctoral research and/or geographic area of focus, other than English. The language must be chosen in consultation with the director of graduate studies.

Completion of a Ph.D. minor.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

Up to 6 credits of prior coursework may be counted toward the Ph.D. with approval.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

No credits from a UW–Madison University Special student career are allowed to count toward the degree.

PROBATION

A semester GPA below 3.0 will result in the student being placed on academic probation. If a semester GPA of 3.0 is not attained during the subsequent semester of full time enrollment (or 12 credits of enrollment if enrolled part-time) the student may be dismissed from the program or allowed to continue for one additional semester based on advisor appeal to the Graduate School.

ADVISOR / COMMITTEE

All students are required to find a dissertation advisor by the beginning of the third semester in the program. The dissertation committee must consist of at least four members representing more than one graduate program, three of whom must be UW–Madison graduate faculty or former UW–Madison graduate faculty up to one year after resignation or retirement. At least one of the four members must be from outside of the Department and all doctoral committee members must be designated as readers.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

For students who earned an M.A. elsewhere, coursework should be completed in six semesters. By the beginning of the sixth semester, the candidate proceeds to the preliminary examination. A student who has not attempted the written preliminary exam by the beginning of their seventh semester, or passed it by the end of the seventh semester, will leave the program with a terminal M.A. (provided they have at least thirty credits).

For students who earned an M.A. at UW–Madison, coursework should be completed in four semesters. By the beginning of the fourth semester, the candidate proceeds to the preliminary examination. A student who has not attempted the written preliminary exam by the beginning of their

fifth semester, or passed it by the end of the fifth semester, will leave the program.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

n/a

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. (Content) Recognize canonical authors and texts, historical forms, genres, and structures, and recognize aesthetic and cultural concerns in Africa and its diasporas.
2. (Content) Develop in-depth knowledge in a sub-field of specialization within African cultural studies.
3. (Content) Demonstrate their understanding of major theories, approaches, concepts, and current and classical research findings in African and diaspora literary and cultural studies.
4. (Content) Develop a level of proficiency in the different “ways of knowing” Africa and the diaspora through language, literatures, and cultures.
5. (Content) Develop knowledge of a secondary field of research from outside the Department of African Cultural Studies.
6. (Research Skills) Understand their own learning processes and possess the capacity to intentionally seek, evaluate, and learn from information, and recognize and reduce bias in their thinking.
7. (Research Skills) Effectively retrieve and comprehend primary sources in English and African languages, and secondary sources from a range of disciplines.
8. (Research Skills) Gain firm knowledge of existing research in their area of specialization and its gaps.
9. (Research Skills) Have an understanding of professional and ethical responsivity with regard to producing original research and working with human subjects.
10. (Communication Skills) Develop or improve speaking, listening, writing, reading skills in an African language, and integrate these skills to communicate effectively.
11. (Communication Skills) Communicate effectively through essays, oral presentations, and discussion, so they may share their knowledge, wisdom, and values with others across social and professional settings.
12. (Communication Skills) Show knowledge of conventional rhetorical strategies, and integrate research by other authors while distinguishing between their own ideas and those of others.
13. (Communication Skills) Write and speak across disciplinary boundaries with regard to existing research about Africa and the diaspora in the humanities and social sciences.
14. (Communication Skills) Demonstrate their ability to organize a book-length project into logical smaller components, so that it can be addressed in depth in a multi-chapter piece of writing.
15. (Communication Skills) Design a syllabus for courses in African Cultural Studies.
16. (Analytical Skills) Discuss cultural texts from various theoretical and critical perspectives, formulate ideas and make connections between literary/cultural concepts and themes.
17. (Analytical Skills) Demonstrate command of the terminology and methodology of cultural studies, construct complex arguments, and use primary and secondary sources to support arguments.
18. (Analytical Skills) Articulate the place of their own research in relation to existing research on related topics.

PEOPLE

Please visit the African Cultural Studies website (<https://african.wisc.edu/people/faculty-and-staff/>) for a complete list of faculty, instructional, and academic staff.

AFRO-AMERICAN STUDIES

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Afro-American Studies, Doctoral Minor (p. 33)
- Afro-American Studies, M.A. (p. 33)

PEOPLE

Faculty: Professors Greene (chair), Adell, Drewal, Plummer, Thornton, Whitmire; Associate Professor Clark-Pujara; Assistant Professors Brown, Davis, Edmonds, Ifatunji

AFRO-AMERICAN STUDIES, DOCTORAL MINOR

REQUIREMENTS

Candidates for the Ph.D. in other programs may obtain a doctoral minor in Afro-American studies by completing a minimum of 12 graduate credits in the department (<http://guide.wisc.edu/courses/afroamer/>), of which only 3 may be directed-study credits. Three of the 12 credits must be a seminar course. Advance approval by the candidate's major advisor is required for the doctoral minor.

PEOPLE

Faculty: Professors Greene (chair), Adell, Drewal, Plummer, Thornton, Whitmire; Associate Professor Clark-Pujara; Assistant Professors Brown, Davis, Edmonds, Ifatunji

AFRO-AMERICAN STUDIES, M.A.

The program in Afro-American studies at the University of Wisconsin–Madison is dedicated to carrying on the vision of the elders and ancestors who devoted themselves to the highest standards of intellectual rigor and to the realization of a vision of true equality and opportunity. Like W.E.B. Du Bois, Anna Julia Cooper, John Hope Franklin, Zora Neale Hurston, and James Porter, the department is committed to bringing the fruits of academic research to the broadest possible audience, within and beyond the walls of the university. The deepest understanding of the complex reality of race in America requires an interdisciplinary approach, one that draws on history and literature, the

social sciences, and the arts. Graduate studies are concentrated in three areas:

- 1. Afro-American Culture (literature, theater history, music and culture, art history, and visual culture);
- 2. History and Society;
- 3. Black Women's Studies

The M.A. program is based on personalized programs of study shaped to meet the needs of individual students, many of whom participate in the "Bridge" programs which enable them to move directly into Ph.D. programs in English (<http://www.english.wisc.edu/grad-afroam.htm>) or history (<https://history.wisc.edu/our-graduate-program/bridge-program/>). Program faculty are experts in their fields and work collaboratively to ensure that graduate students are well prepared to either take on further study at the Ph.D. level or careers in teaching, public service, and the private, corporate sector. The program also offers doctoral minors for students in many graduate programs including African languages and literature, art history, communication arts, comparative literature, education, English, history, music, political science, social work, and sociology.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	May be required in certain cases; consult program.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

The Graduate School (<https://grad.wisc.edu/>) has an extensive website where you will find information regarding admissions and how to apply (<http://guide.wisc.edu/graduate/afro-american-studies/afro-american-studies-ma/apply.grad.wisc.edu>) online. It is very important you read all information carefully.

All applicants to our program must meet the University of Wisconsin Graduate School's admission requirements (<https://grad.wisc.edu/admissions/requirements/>)

Information regarding fellowships, tuition, housing, cost of living, etc. can be found at financial aid (<https://financialaid.wisc.edu/>).

Read the application and corresponding instructions carefully. **Only** the online application and the \$75 application fee are sent to the Graduate School. Other materials must be sent to the Department of Afro-American Studies.

To apply to the master's program, please upload all documents to Applicant Review

- Official transcript(s) or academic records from each institution attended
[International academic records must be in the original language accompanied by an official English translation. Documents must be issued by the school with the official seal/stamp and official signatures.]
- Reasons for Graduate Study if you did not include this with your online application to the Graduate School
- A writing sample
- Three (3) letters of recommendation (<https://grad.wisc.edu/admissions/faq/>)
- If applying, please inform the department of any home/email address changes. This is very important.

The Department of Afro-American Studies does not currently require students to take the Graduate Record Examination (GRE), although we recommend that you do so. Students who do not take the GRE are ineligible for certain types of financial aid. Admission to the department is competitive: the minimum overall GPA required is 3.0 on a 4.0 scale. Students with a GPA above 3.3 are especially encouraged to apply. Priority will be given to students who have completed undergraduate courses in subjects related to Afro-American history, culture, or society or who have completed an undergraduate major in one of the following fields: Afro-American Studies; a related social science discipline; the humanities.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	21 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://public.my.wisc.edu/web/expanded (https://public.my.wisc.edu/web/expanded/)).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	In addition to the 24 credits of coursework, students choose one of two options for completion of the degree. Plan A requires the completion of a master's thesis. The purpose of the M.A. thesis is to demonstrate that degree candidates have acquired the knowledge and skills to carry out scholarly writing and research in their discipline, and to advance knowledge in the field itself. Students who plan to earn a Ph.D. are strongly encouraged to choose Plan A for their master's degree. Plan B requires the completion of a final paper followed by an oral defense on a reading list developed in consultation with the student's advisor.

Language n/a
Requirements

REQUIRED COURSES

Students must take 24 credits of approved graduate coursework and 6 Research and Thesis credits. At least 12 of the course credits must be taken in the Department of Afro-American Studies.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

For well-prepared advanced students, the program may accept 9 credits of prior graduate coursework from other institutions towards the minimum graduate degree credit and minimum graduate coursework (50%) requirement. The minimum graduate residence credit requirement can be satisfied only with courses taken as a graduate student at UW–Madison.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the program's graduate degree requirements.

UW–Madison University Special

The program may decide to accept up to 9 University Special student credits as fulfillment of the minimum graduate residence, graduate degree, or minor credit requirements on occasion as an exception (on a case-by-case basis). UW–Madison coursework taken as a University Special student would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

12 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

Students with an interest in pursuing a Ph.D. in either English or history might be interested in applying to the in English Bridge Programs (<http://www.english.wisc.edu/grad-afroam.htm>) or History (<https://history.wisc.edu/our-graduate-program/bridge-program/>), which allow a student who has completed an M.A. in Afro-American studies to move directly into one of those Ph.D. programs.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. To provide students with a thorough understanding of a range of disciplinary approaches to the study of the African American experience in the United States and the African diaspora.
2. To provide students with a foundation in their area of concentration that will enable them to pursue doctoral work in a relevant discipline, especially in the areas of English and history, where we have established Bridge programs with UW departments.
3. To familiarize students with the techniques of effective teaching in multiracial classrooms, including training in dealing with controversial issues and potential racial tensions.

PEOPLE

Faculty: Professors Greene (chair), Adell, Drewal, Plummer, Thornton, Whitmire; Associate Professor Clark-Pujara; Assistant Professors Brown, Davis, Edmonds, Ifatunji

AGRICULTURAL AND APPLIED ECONOMICS

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Agricultural and Applied Economics, Doctoral Minor (p. 36)
- Agricultural and Applied Economics, M.S. (p. 37)
- Agricultural and Applied Economics, Ph.D. (p. 47)

PEOPLE

Faculty: Professors Foltz (chair), Barham, Chavas, Coxhead, Deller, Gould, Mitchell, Phaneuf, Provencher, Rutherford, Stiegert; Associate Professors Alix-Garcia, Du, Grainger, Hueth, Schechter, Shi; Assistant Professors Conroy, Dower, Parker, Tjernström; Faculty Associate Dong

AGRICULTURAL AND APPLIED ECONOMICS, DOCTORAL MINOR

Any student enrolled in a UW–Madison doctoral program may pursue a doctoral minor in agricultural and applied economics. Many students take the master's core courses of A A E 635 Applied Microeconomic Theory, A A E 636 Applied Econometric Analysis I and A A E 637 Applied Econometric Analysis II to gain training in microeconomic theory and

econometrics that are designed to develop a set of analytical skills applicable to a wide range of problems in many disciplines, especially the social sciences.

REQUIREMENTS

Graduate students who wish to pursue an Option A external minor in agricultural and applied economics should consult the A A E graduate coordinator or director of graduate studies. Courses should be chosen in consultation with the student's departmental advisor and submitted for approval to A A E before they are taken. Students may earn a doctoral minor in A A E with 9 credits, if all 9 credits are in graduate-level courses preapproved by A A E. Students are expected to achieve a B or better in all courses used for the minor. Directed study courses do not count toward the minor.

The A A E director of graduate studies certifies the minor on the prelim warrant.

PEOPLE

Faculty: Professors Foltz (chair), Barham, Chavas, Coxhead, Deller, Gould, Mitchell, Phaneuf, Provencher, Rutherford, Stiegert; Associate Professors Alix-Garcia, Du, Grainger, Hueth, Schechter, Shi; Assistant Professors Conroy, Dower, Parker, Tjernström; Faculty Associate Dong

AGRICULTURAL AND APPLIED ECONOMICS, M.S.

The Department of Agricultural and Applied Economics offers three graduate degree programs leading to the master of science and doctor of philosophy. Long recognized as one of the top programs in the nation, the department is an active center of research and graduate training in environmental and natural resource economics, the economic development of low-income countries, agricultural economics, community economics, and more recently, resource and energy demand analysis.

Department faculty are affiliated with a broad range of institutes and centers across the campus, including the Gaylord Nelson Institute for Environmental Studies, the Center for Integrated Agricultural Systems, the University Center for Cooperatives, the Renk Agribusiness Institute, Center for Community Economic Development, and the area studies programs. Each program has its own rich intellectual life of seminars and other activities.

The department provides office space, a lounge, and IT support for its approximately 60 graduate students. The Taylor-Hibbard Club, the department's graduate student organization, serves as a link between graduate students and the faculty, elects student representatives to department committees, and promotes academic and social activities for its members.

There are three master's degree programs in the Department of Agricultural and Applied Economics: the M.S. named option Agricultural and Applied Economics (A A E), the M.S. named option Resource and Energy Demand Analysis (REDA), and the M.S. named option Professional Option.

M.S. NAMED OPTION IN AGRICULTURAL AND APPLIED ECONOMICS (P. 38)

The **AAE-MS** program is a 30-credit master's degree program intended for students with research and academic interests, especially students who might want to go on for a Ph.D. program in economics of development, agriculture, energy and natural resources, and community development. This program normally takes four semesters to complete. For more information please visit the AAE department website (<https://aae.wisc.edu/programs/gradprogram/>).

M.S. NAMED OPTION IN RESOURCE AND ENERGY DEMAND ANALYSIS (REDA) (P. 44)

This one-year program is designed to prepare students for jobs in economics and data analytics for a sustainable future. Industry professionals deliver seminars about their research, supply data for classroom activities, and mentor students via research projects. Our small class size means students get plenty of individual attention from faculty and staff. The cohort nature of our program fosters peer-to-peer learning and a culture of intellectual curiosity. Completion of this fast track master's program requires 31 credits and does not include a thesis. Learn more (p. 44).

M.S. NAMED OPTION IN PROFESSIONAL OPTION (P. 41)

This full-time, 15-month, on-campus professional master's program is designed to prepare students to fill the growing private sector demand for quantitatively-skilled analysts and managers. Students will learn skills in economic reasoning, data management, empirical analysis, and technical communication in order to find analytical positions in governmental, or non-governmental sectors. The curriculum features three semesters and one summer term of core course offerings in econometrics, micro-economic theory, and professional development, along with a capstone practicum class leading to a final professional report. Students take electives to pursue specific interests in AAE's focus areas of agricultural, development, and environmental and natural resource economics. Learn more. (<https://aae.wisc.edu/grad/mspo/>)

ADMISSIONS

Students apply to the M.S. in Agricultural and Applied Economics through one of the named options:

- Agricultural and Applied Economics (p. 38)
- Professional Option (p. 41)
- Resource and Energy Demand Analysis (p. 44)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

M.S. students in agricultural and applied economics can apply for graduate positions listed under students jobs (<https://jobs.wisc.edu/>).

Students in the Resource and Energy Demand Analysis (REDA) and Professional Option named options are not permitted to accept assistantships or seek dual degrees.

POLICIES

Students should refer to one of the named options for policy information:

- Agricultural and Applied Economics (p. 38)
- Professional Option (p. 41)
- Resource and Energy Demand Analysis (p. 44)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates and critiques theories and empirical methods for quantitative analysis relevant to agricultural, environmental, international development, or community economics.
2. Identifies data sources, applies appropriate econometric methodologies, and evaluates quantitative evidence relevant to questions in agricultural, environmental, international development, or community economics.
3. Clearly communicates applied economics issues, methods, and empirical analysis using both written and oral strategies.
4. Recognizes and applies principles of ethical, collegial and professional conduct.

PEOPLE

Faculty: Professors Foltz (chair), Barham, Chavas, Coxhead, Deller, Gould, Mitchell, Phaneuf, Provencher, Rutherford, Stiegert; Associate Professors Alix-Garcia, Du, Grainger, Hueth, Schechter, Shi; Assistant Professors Conroy, Dower, Parker, Tjernström; Faculty Associate Dong

Lecturers: Beardmore, Glinsmann

AGRICULTURAL AND APPLIED ECONOMICS: AGRICULTURAL AND APPLIED ECONOMICS, M.S.

This is a named option within the Agricultural and Applied Economics M.S. (p. 37)

The master of science includes 30 credits of coursework. This program normally takes 4 semesters to complete, and is ideal for students interested in careers in data analysis, government agencies, nonprofit organizations, consulting and more. For more information please visit the AAE department website (<https://aae.wisc.edu/programs/gradprogram/>).

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 15
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

For details on the Agricultural and Applied Economics M.S. application process, please visit:

To Apply (<https://aae.wisc.edu/apply/>)

For more information on the AAE M.S. degree please contact:

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 6 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

Up to 7 credits from a UW-Madison undergraduate degree numbered 300 or above are allowed to count toward the degree, with petition from student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison University Special

With program approval, students are allowed to count no more than 15 credits of coursework numbered 300 or above taken as a UW-Madison University Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300

or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

The A A E Graduate Faculty Committee makes decisions regarding student progress.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

A full-time student is expected to complete the M.S. in A A E in two years.

The program can be completed part-time but must be completed in five years.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
 - a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
 - b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
 - c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the

complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate,

may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
 - a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
 - b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
 - c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a

written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

OTHER

Students in the Professional Option program are not permitted to accept assistantships or seek dual or double degrees.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The MS AAE Professional Option courses are designed to prepare students to enter the professional workforce in both the US and abroad in data-intensive and quantitatively focused jobs in economic consulting, businesses, agribusinesses, non-profit organizations focused on development, and governmental sectors.

PEOPLE

Faculty: Professors Foltz (chair), Barham, Chavas, Coxhead, Deller, Gould, Mitchell, Phaneuf, Provencher, Rutherford, Stiegert; Associate Professors Alix-Garcia, Du, Grainger, Hueth, Schechter, Shi; Assistant Professors Conroy, Dower, Parker, Tjernström; Faculty Associate Dong

AGRICULTURAL AND APPLIED ECONOMICS: RESOURCE AND ENERGY DEMAND ANALYSIS, M.S.

This is a named option within the Agricultural and Applied Economics M.S. (p. 37)

This one-year master's program prepares students for challenging and rewarding careers in the fields of energy, resource, and environmental management. REDA provides graduate training for a smart green world. Our students learn economic theory and quantitative methods in data analysis; attend seminars on current issues in energy and natural resources delivered by industry professionals; and solve real-world research problems. Many REDA alumni are working with energy utilities and energy consulting firms.

Our small class size means students get plenty of individual attention from faculty and staff. The cohort nature of our program fosters peer-to-peer learning and a culture of intellectual curiosity. Completion of this fast track masters requires 31 credits and does not include a thesis. The program begins with a summer online course, continues with two semesters of on-campus courses, and concludes with a research project the following summer. Learn more (<http://reda.aae.wisc.edu/>).

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s).**

Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	This program does not admit in the fall.
Spring Deadline	The program does not admit in the spring.
Summer Deadline	March 31
GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	2

Our priority application deadline is January 15th for enrollment the following summer. For details on the REDA Application Process, please go to this link:

To Apply (<http://reda.aae.wisc.edu/apply/>)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Students in the Resource and Energy Demand Analysis (REDA) program are not permitted to accept tuition-waiving assistantships or seek double or dual degrees.

REDA offers partial scholarships to exceptional applicants. Learn more (<http://reda.aae.wisc.edu/apply/>).

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 6 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, students are allowed to count no more than 7 credits of undergraduate coursework numbered 300 or above from UW–Madison. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

No credits earned as a UW–Madison University Special student may be applied toward the program requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

The REDA program director and REDA program coordinator will serve as co-advisors for all REDA students.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departamental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)

- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
 - a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
 - b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
 - c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further

investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.

4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

OTHER

Students in the Resource and Energy Demand Analysis program are not permitted to accept assistantships or seek double or dual degrees.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

REDA students receive personalized career advice to help them achieve their professional goals. This includes feedback on resumes and cover letters, panel presentations by REDA alumni, and opportunities to network with local and national professionals in the energy and natural resource fields. Employers recognize the high-quality training that our students receive and often directly recruit REDA students for their job openings.

PEOPLE

Faculty: Professors Foltz (chair), Barham, Chavas, Coxhead, Deller, Gould, Mitchell, Phaneuf, Provencher, Rutherford, Stiegert; Associate Professors Alix-Garcia, Du, Grainger, Hueth, Schechter, Shi; Assistant Professors Conroy, Dower, Parker, Tjernström; Faculty Associate Dong

Lecturers: Beardmore, Glinsmann

AGRICULTURAL AND APPLIED ECONOMICS, PH.D.

Doctoral students are required to develop comprehensive proficiency in economic theory, mathematics, econometrics, and major and minor fields of concentration. In addition to the prerequisites for the master's program, doctoral applicants should also have mathematical statistics and linear algebra. Candidates for the Ph.D. degree must complete

the general requirements of the Graduate School, as well as further requirements which are detailed in the department's application material and website (<http://www.aae.wisc.edu/>).

The Department of Agricultural and Applied Economics offers graduate degree programs leading to the master of arts, master of science, and doctor of philosophy. Long recognized as one of the top programs in the nation, the department is an active center of research and graduate training in environmental and natural resource economics, the economic development of low-income countries, agricultural economics, community economics, and more recently, resource and energy demand analysis.

Graduate students select courses from among the department's advanced offerings in these areas. Active department seminar and workshop series complement formal classroom instruction. In addition, nearly all students work as graduate research assistants on projects with individual faculty members. Faculty and students carry out research in virtually every region of the globe, with Latin America, Southeast Asia, and sub-Saharan Africa as the areas of strongest geographical concentration.

While members of the faculty define themselves professionally in terms of the areas of applied economics within which they work, the graduate programs are predicated on the notion that good applied economic analysis requires rigorous and thorough training in economic theory and econometrics. The Ph.D. curriculum is grounded in comprehensive training in economic theory and econometrics and relies on the doctoral core in theory and econometrics offered by Wisconsin's outstanding economics program. When matched with the department's applied courses, which teach students how to use advanced methods to conceptualize and answer contemporary economic problems, this strong core training prepares students for a variety of challenging careers. A A E graduates have taken positions (<https://aae.wisc.edu/grad/placement/>) in academic research and teaching; economic consulting in the private sector; and economic staffing in public agencies and nongovernmental organizations at the local, state, national, or international level. A majority of the department's Ph.D. graduates take faculty positions at universities and colleges.

Department faculty are affiliated with a broad range of institutes and centers across the campus, including the Gaylord Nelson Institute for Environmental Studies, the Center for Integrated Agricultural Systems, the University Center for Cooperatives, the Renk Agribusiness Institute, Center for Community Economic Development, and the international area studies programs. Each program has its own rich intellectual life of seminars and other activities.

The department provides student office space, a lounge, and IT support for its approximately 80 graduate students. The Taylor-Hibbard Club, the department's graduate student organization, serves as a link between graduate students and the faculty, elects student representatives to department committees, and promotes academic and social activities for its members.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) of the Graduate School as well as the program(s).

grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).

Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 15
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

For details on the agricultural and applied economics Ph.D. application process, please visit:

To Apply (<https://aae.wisc.edu/apply/>)

For more information on the A A E Ph.D. degree please contact:

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

The department offers a number of research assistantships, and students have competed well for university-wide fellowships. The department's students have also received nationally competitive fellowships and research grants from the National Science Foundation, the Social Science Research Council, the Fulbright programs, and others. New students applying for the Ph.D. who wish to be reviewed for the university fellowship competition must complete their applications by December 15.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	Grades of B or above in core curriculum coursework.
Assessments and Examinations	Preliminary examinations are required in microeconomic theory and a major field. The microeconomic theory prelim is administered and graded by the faculty in Economics. Students receiving grades of B or better in the microeconomic theory core can choose not to sit for the prelim. The major field prelim is administered and graded by the A A E faculty. The Ph.D. also requires a dissertation. Students must make oral defense of dissertation.

Language Requirements No language requirements.

Doctoral Minor/Breadth Requirements All doctoral students are required to complete a 9-credit minor.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 18 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from the UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

With program approval students are allowed to count no more than 15 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is assigned to a faculty member advisor. To ensure that students are making satisfactory progress toward a degree, students are expected to meet with their advisor at least once a semester.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Students must pass the microeconomic theory requirement before the beginning of year 3. Students must finish all required coursework and pass the major field exam before the beginning of year 4. Students must defend a dissertation proposal before the end of the first semester of year 4.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students

completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
 - a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.

- b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
 - c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

OTHER

Funding packages are offered to selected Ph.D. applicants.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The Department of Agricultural and Applied Economics invites applied economists to participate in a seminar series. Students get various presentation opportunities to present their latest research in department and student seminars. All students are required to take a research colloquium which helps students develop their dissertation proposal and plan for their job search. Faculty provide mock interviews and detailed feedback on interviewing skills. A A E placement (<https://aae.wisc.edu/grad/placement/>) information is on the department website.

LEARNING OUTCOMES

1. Articulates and critiques theories and empirical methods to address research issues in agricultural, environmental, international development, or community economics.
2. Identifies data sources, applies appropriate econometric methodologies, and evaluates quantitative evidence relevant to questions in agricultural, environmental, international development, or community economics.
3. Creates scholarship that makes a substantive contribution to the chosen major field and/or to society.
4. Clearly communicates applied economics issues, methods, and empirical analysis using both written and oral strategies.
5. Recognizes and applies principles of ethical, collegial and professional conduct.

PEOPLE

Faculty: Professors Foltz (chair), Barham, Chavas, Coxhead, Deller, Gould, Mitchell, Phaneuf, Provencher, Rutherford, Stiegert; Associate Professors Alix-Garcia, Du, Grainger, Hueth, Schechter, Shi; Assistant Professors Conroy, Dower, Parker, Tjernström; Faculty Associate Dong

AGRICULTURAL AND LIFE SCIENCES - COLLEGE-WIDE

- Agroecology, M.S. (p. 52)
- Biometry, M.S. (p. 56)
- Development, Doctoral Minor (p. 59)
- Development, Ph.D. (p. 60)

- Plant Breeding and Plant Genetics, Ph.D (p. 69)

AGROECOLOGY, M.S.

Created in 2007, the Agroecology M.S. program at UW–Madison trains students to research and analyze agricultural systems within a broader environmental and socioeconomic context. Key to this endeavor is interdisciplinary expertise, which the agroecology program achieves through working with affiliated faculty members from nearly 20 departments across campus.

A typical cohort consists of 8–12 incoming students with diverse backgrounds and undergraduate majors. Agroecology M.S. students work with faculty on focused projects across a wide range of the traditional departments of the academy. Our core curriculum brings together these students for a multidisciplinary, agroecological analysis of agricultural systems in a broadened context.

The agroecology program is supported by the interdisciplinary agroecology cluster, which hired three faculty members in 2002: Michael Bell in community and environmental sociology, Claudio Gratton in entomology, and Randall Jackson in agronomy. These faculty, all still active in the program, were the catalyst for what is now a group of more than 50 faculty affiliates who advise agroecology students and participate in program governance.

The cluster concept is an innovation of the University of Wisconsin in which a core group of faculty is hired into an interdisciplinary area, but have tenure homes in traditional departments.

PROGRAM TRACKS

- The public practice track trains facilitators to enable broader discussion and negotiation at the interfaces of agriculture and other sectors of society. The goal of this "action-in-society" track is to train analysts to increase understanding about the roles of agricultural systems in multi-functional landscapes, and the public policy that shapes these roles.
- The research track addresses the need for continued research and scholarship in order that discussions and negotiations are well informed. Students will have the opportunity to obtain experience in the scholarship of original research, culminating in the writing of a thesis.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s).** Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.

English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

ADMISSIONS AND FREQUENTLY ASKED QUESTIONS

The agroecology program accepts students from a wide range of undergraduate majors, not limited to the social and natural sciences. Because the admissions process is highly competitive, applicants should have a record of strong grades, agroecology-relevant interests and experience, and a commitment to learning in a multidisciplinary program. The deadline for fall semester applications is December 15. Inquiries at other times may be considered.

The initial application process is outlined below. Prospective students should keep in mind, however, that this document-based application is only the first step in the admissions process. Students who are deemed admissible on the merits of these documents must then identify an academic advisor and a plan for funding to be fully admitted. The agroecology program will assist students in this endeavor. More information on the process of seeking out funding and an advisor is available in the program's Student Handbook (<https://agroecology.wisc.edu/documents/agroecology-handbook/>). Students who are interested in applying should contact the program administrator.

SUBMIT THE FOLLOWING TO THE UW–MADISON GRADUATE SCHOOL:

- Online application and application fee.
- International applicants whose native language is not English are required to take the TOEFL or IELTS. All test scores must be submitted electronically by the Educational Testing Service to UW–Madison (ETS code 1846). Copies or faxes cannot be accepted.
- Three letters of recommendation. When completing the online application, submit the names and email addresses of three people who will provide letters of recommendation. They will receive instructions on how to upload their letters.
- Electronically, a one-page Statement of Purpose. In the statement, students should describe their interests and goals and which UW–Madison faculty members they would like to work with. In addition, students should identify which program track they plan to pursue –Research or Public Practice—and state why they are interested in this option. Knowing students' intentions will help the program better understand their academic and career goals. Finally, students should indicate if they intend to pursue a Ph.D. degree after completing the master's in agroecology. Although funding isn't guaranteed, some fellowships require that students intend to continue at the Ph.D. level.
- Electronically, a curriculum vitae.
- An official copy of transcripts for all undergraduate work (and graduate, if relevant). Many schools are able to send electronic versions of official transcripts directly to the Graduate School. For

the initial application, an unofficial version will suffice but must be followed with an official transcript.

Frequently asked questions regarding the graduate program are available on the agroecology website (<https://agroecology.wisc.edu/apply/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

Code	Title	Credits
Core Curriculum		
AGROECOL 720	Agroecology Field Study	1
AGROECOL 701	The Farm as Socio-Environmental Endeavor	3
AGROECOL 702	The Multifunctionality of Agriculture	3
AGROECOL 710	Agroecology Seminar ²	3
Cross Training Electives		12

Students will select courses to fulfill their cross-training electives in the categories below. Per Graduate School requirements, at least 5 of the 12 cross training electives must be from UW-Madison at the 700 level or above OR from UW-Madison courses in the 300-699 range that have the "graduate attribute." By time of graduation, the student will have taken courses in:

Ecology

The following are examples of courses in this category:

BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology
ENVIR ST 506	Modeling and Analysis of Environmental Systems
AGRONOMY/ BOTANY/ SOIL SCI 370	Grassland Ecology

Social Science

The following are examples of courses in this category:

C&E SOC or A A E courses on food systems, agricultural technology, the agricultural environment, or agricultural policy

Data Analysis

The following are examples of courses in this category:

Graduate-level GIS, statistics, or qualitative methods course

Agricultural Science

The following are examples of courses in this category:

AGRONOMY 300	Cropping Systems
SOIL SCI 301	General Soil Science

Research and Thesis

AGROECOL 990	Research	12
Total Credits		34

- ¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.
- ² The AGROECOL 710 Agroecology Seminar is offered both fall and spring semester for 1 credit. Students are encouraged to enroll every semester, but must complete at least 3 credits.

Public Practice Track ¹

Code	Title	Credits
Core Curriculum		
AGROECOL 720	Agroecology Field Study	1
AGROECOL 701	The Farm as Socio-Environmental Endeavor	3
AGROECOL 702	The Multifunctionality of Agriculture	3
AGROECOL 710	Agroecology Seminar ²	3
Cross Training Electives		18

Students will select courses to fulfill their cross-training electives in each of the four categories below. Per Graduate School requirements, at least 11 of the 18 cross-training electives must be UW–Madison courses at the 700 level or above OR from UW–Madison courses in the 300–699 range that have the “graduate attribute.” By time of graduation, the student will have taken courses in:

Ecology

The following are examples of courses in this category:

BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology
ENVIR ST 506	Modeling and Analysis of Environmental Systems
AGRONOMY/ BOTANY/ SOIL SCI 370	Grassland Ecology

Social Science

POLICIES**GRADUATE SCHOOL POLICIES**

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES**PRIOR COURSEWORK****Graduate Work from Other Institutions**

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, up to 7 credits from UW–Madison numbered 300 or above are allowed to count toward the degree. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The status of a student can be one of three options:

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

ADVISOR / COMMITTEE

All students are required to submit a learning plan, signed by their advisor, by the end of their second semester. Note: there are separate learning plans for public practice and research tracks.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

We hope and believe that most issues can be resolved through careful communication – see program handbook section about student-advisor relations. If issues arise, several additional paths are possible:

- if the issue involves another student, staff, or faculty member other than advisor, the starting point should be clear presentation of the facts and discussion with your advisor;
- elected student representatives and our student services coordinator may be able to facilitate discussions and/or serve as allies, particularly in presenting issues to faculty;
- the program chair can be an informal resource to resolve student-faculty issues, including finding a new advisor if differences appear to be irreconcilable;

- if the issue involves the program chair, it may be helpful to discuss the issue with a department chair, either the chair of the advisor's department or the chair of the program chair's department;
- the program has an annual listening session and other forums for students to talk with program leaders to identify broad issues affecting multiple students.

On occasion, issues may arise that require a more formal process. The purpose of our Grievance Policy is to make this option clear. For the purposes of this policy, a grievance is a written complaint identifying an alleged violation of a specific university or program policy. An appeal is a request to higher authority that a grievance decision be reversed. The Graduate School is the ultimate arbiter of such grievances and appeals, unless these involve other issues such as hostile and intimidating behavior (<https://hr.wisc.edu/hib/>), sexual harassment (<https://compliance.wisc.edu/wp-content/uploads/sites/102/2018/01/UW-Madison-Policy-on-Sexual-Harassment-And-Sexual-Violence-January-2018.pdf>), or illegal activities (<https://uwpd.wisc.edu/about-uwpd/contact-uwpd/>). Additional information about reporting the latter problems can be found at central policies and resources (<https://kb.wisc.edu/images/group359/97188/Grievance-RelatedResourcesforStudents-draft.docx>).

If a student believes it is necessary to file a grievance, the following steps will be used:

1. Write a report describing the basis for the grievance. To the extent feasible, document the circumstances that have given rise to it, what the current situation is, and any options you are aware of that have been or could be pursued.
2. Submit the report to an appropriate responsible party (report recipient). This will be the program chair unless the grievance involves the program chair, in which case it can be submitted to the department chair of the student's advisor, the CALS Associate Dean for Academic Affairs (<https://cals.wisc.edu/academics/>) or the Dean of Students (<https://doso.students.wisc.edu/>).
3. Within 15 working days, the report recipient will meet with the student and the person or people named in the grievance to ascertain facts to the extent feasible (this may take place separately or together).
4. Within another 15 working days, the report recipient will propose a resolution to the issue.
5. If recommendations are accepted by all parties, the report recipient will follow up after 30 days to determine if appropriate actions have occurred.
6. If recommendations are not satisfactory to the student, the case may be appealed to the Graduate School as specified by the Graduate School Appeals Process. (<https://grad.wisc.edu/documents/grievances-and-appeals/>)

OTHER

All students must have full funding. Please contact the program administrator.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

- 1. Analyze tradeoffs of different agricultural systems embedded within the greater complexity of socio-ecological systems.
- 2. Consider and synthesize concepts of systems, ecology, and public process.
- 3. Learn to engage in careful consideration of the social, economic, and environmental outcomes of different industrial and biological processes.
- 4. Understand the potential of inclusive participatory processes in research and analysis of agroecological systems.
- 5. Recognize and apply principles of ethical and professional conduct in their coursework, research, and communications in the field of agroecology.

PEOPLE

Agroecology faculty (<https://agroecology.wisc.edu/people/faculty/>)

BIOMETRY, M.S.

Biometry is the development and application of statistical methods to biological problems. At the University of Wisconsin, biometry refers to this application to problems from plant, animal and agricultural biology. (Biostatistics denotes this application to human biology.) The biometry program is an M.S. degree program in the field of biometry.

The program is interdisciplinary, providing formal course work in statistics and biology, consulting experience, and supervised research combining the two areas. Students completing the program will understand biological processes and have the ability to apply and extend a broad range of statistical concepts and techniques to biological problems. This integration of statistics and biology is the distinguishing feature of the program. The biometry program is distinct from the M.S. statistics program in its interdisciplinary emphasis and corresponding reduced depth in statistics. (Students interested in training with statistical consulting as the primary focus should apply for the M.S. in statistics through the statistics department.)

The biometry program is intended for two groups of students:

- 1. students simultaneously working toward or intending to work toward a Ph.D. in a biological discipline and
- 2. non-Ph.D. students.

Students who complete the M.S. in Biometry and the Ph.D. in a biological science should be at the forefront of quantitative biological research. Students who stop with the M.S. in Biometry, possibly obtaining another M.S. in a biological science concurrently, will be well suited for positions with industry or government focused on quantitative biological research.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) of the Graduate School as well as the program(s).

Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	March 15
Spring Deadline	November 1
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Prospective students may apply for admission to the biometry program without application to any other program. Prospective students may also apply simultaneously with application to another program or after admission into another program. It is anticipated that most students enrolled in the biometry program will be enrolled concurrently in another program.

Acceptance of a prospective student by a statistical and biological co-advisor, who should be identified at the time of application, is necessary for admission into the Program and input from prospective co-advisors will be sought in the admissions process. It is expected that most students will be supported through a biological department or program or with their own funds. Opportunity for financial support through the program is extremely limited.

Applicants to the M.S. program should have completed the following prerequisites:

- 1. undergraduate calculus (MATH 221 Calculus and Analytic Geometry 1, MATH 222 Calculus and Analytic Geometry 2, and MATH 234 Calculus–Functions of Several Variables or equivalent);
- 2. a course in statistics (HORT/F&W ECOL/STAT 571 Statistical Methods for Bioscience I and STAT/F&W ECOL/HORT 572 Statistical Methods for Bioscience II or equivalent one year sequence);
- 3. background courses in biology (e.g., BOTANY/BIOLOGY 130 General Botany, ZOOLOGY/BIOLOGY 101 Animal Biology & ZOOLOGY/BIOLOGY 102 Animal Biology Laboratory, BIOLOGY/BOTANY/ZOOLOGY 151 Introductory Biology & BIOLOGY/BOTANY/ZOOLOGY 152 Introductory Biology).

The background courses in biology are a bare minimum; it is anticipated that almost all successful applicants will have a strong background in some area of biological science. Under extenuating circumstances, students may appeal to the Biometry Executive Committee for exemptions to prerequisites or requirements.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	At least half of degree coursework (15 credits out of 30 total credits) must be completed in statistics courses numbered 600 or above (which the statistics department considers to be graduate courses).
Overall Graduate GPA Requirement	3.00 GPA required.

Other Grade Requirements A grade of B or better must be received in any course used to fulfill the required and elective course requirements.

Assessments and Examinations Candidates must complete a project with an emphasis on the integration of statistics and science. A final oral examination is also required upon completion of the coursework and project.

Language Requirements No language requirements.

REQUIRED COURSES

Code	Title	Credits
Required Coursework		
<i>Intro Math Stat, completed using one of the following sequences:</i>		6
STAT/MATH 309 & STAT/MATH 310	Introduction to Probability and Mathematical Statistics I and Introduction to Probability and Mathematical Statistics II	
STAT 311 & STAT 312	Introduction to Theory and Methods of Mathematical Statistics I and Introduction to Theory and Methods of Mathematical Statistics II	
Or equivalent one-year sequence		
<i>Statistics 600+</i>		6
Students choose graduate-level courses numbered above 600. ¹		
<i>Statistics 500+</i>		3
Students choose graduate-level courses numbered above 500. ²		
<i>Biological</i> ³		9
<i>Consulting Experience</i>		
STAT 699 Research ⁵	Directed Study ⁴	3
		3
Total Credits		30

¹ Excluding STAT/B M I 641 Statistical Methods for Clinical Trials, STAT 698 Directed Study, STAT 699 Directed Study, and STAT 990 Research.

² Excluding STAT/F&W ECOL/HORT 571 Statistical Methods for Bioscience I, STAT/F&W ECOL/HORT 572 Statistical Methods for Bioscience II, STAT 698 Directed Study, and STAT 990 Research. Credits from suitable quantitative courses taught in other (non-biological) departments (e.g., mathematics) may be substituted.

³ Excluding introductory statistics courses and research. Other criteria are that at least six credits are taken in a single discipline or in closely related disciplines, at least six credits are taken at the 700 level and above or in courses specifically designated as graduate courses, and a maximum of three credits are obtained in statistically oriented courses (e.g., AGRONOMY/HORT 811 Biometrical Procedures in Plant Breeding).

⁴ Students must complete 3 credits of STAT 699 Directed Study by consulting in the CALS Statistical Consulting Service. (These credits cannot be used for meeting requirements in section C.) This consists of supervised consulting and will provide exposure to statistical issues surrounding a broad range of problems in biology, provide awareness of practical issues such as experiment management, data collection, data recording, etc., and provide

experience assisting others in designing experiments and analyzing data. One credit is roughly equivalent to a single project that can be completed in one semester, and involves about 20–30 hours of effort, including meetings with consulting clients, background research, data analyses, etc.

- 5 Each student must complete a project that represents an original contribution to biometry. Examples of such contributions may include a novel analysis of some interesting biological data, the creation and evaluation of a useful experimental design, or the development and/or comparison of statistical methods. The project results are to be presented in a manuscript with emphasis on the integration of statistics and science. The manuscript should be of a quality that can lead to a publication. This requirement will be formalized by enrolling in at least three credits of "Research" (e.g., HORT 990 Research) in the department of one of the co-advisors. (These credits cannot be used for meeting other requirements.) For a student seeking a double M.S., a joint thesis would satisfy this requirement.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions towards the graduate degree credit and graduate coursework (50%) requirements. Coursework earned five or more years prior to admission to the master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

No credits earned while a UW–Madison University Special student are allowed to count toward the degree.

PROBATION

Candidates who fail to meet satisfactory progress criteria in two consecutive reviews will be dropped from the program.

ADVISOR / COMMITTEE

Students are required to meet with their advisor near the beginning of each semester to discuss course selection and progress.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

If the student is enrolled in a concurrent Ph.D. degree, the student should make application for both the master's and Ph.D. degrees during the semester in which they defend. In other words, the biometry degree should be completed by the semester in which the concurrent Ph.D. degree is completed. It is expected that all enrolled students will complete the program within three years.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
 - a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
 - b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
 - c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

OTHER

The biometry program is distinct from the M.S. statistics program in its interdisciplinary emphasis and corresponding reduced depth in statistics. (Students interested in training with statistical consulting as the primary focus should apply for the M.S. in statistics through the statistics department.) The program is intended for two groups of students: (1) students simultaneously working towards or intending to work towards a Ph.D. in some biological discipline, and (2) non-Ph.D. students.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrates understanding and critical evaluation of statistical methods selected for applications in scientific inquiries.
2. Identifies data sources and study design, and assembles appropriate statistical approaches to data analysis, in a particular scientific field of study.
3. Evaluates and synthesizes data information pertaining to questions in the field of study.
4. Communicates data concepts and analysis results clearly.
5. Recognizes and applies principles of ethical and professional conduct.

PEOPLE

Faculty: Professors Clayton (Statistics/Plant Pathology), Ané (Statistics/Botany), Yandell (Statistics/Horticulture), Zhu (Statistics/Entomology)

DEVELOPMENT, DOCTORAL MINOR

Any student enrolled in a UW–Madison doctoral program can pursue a doctoral minor in development. The doctoral minor offers systematic training in the field of development studies, and is designed to be tailored to students' interests in interdisciplinary approaches to international development. A doctoral minor is an excellent way to gain training in the analysis of issues, approaches, and practices in international development, and to apply to students' research and teaching interests. Courses for the development minor are drawn from over 15 units across campus and cover a diverse array of disciplinary, areas studies, and sectoral approaches to international development.

REQUIREMENTS

Graduate students who wish to pursue an Option A external minor in development should consult the chair of the program. Courses are chosen in conjunction with the chair, who serves as the minor advisor, and the student's departmental advisor. A student may earn a doctoral minor in development with 9 credits, if all 9 credits are in development courses numbered 700 and above. Alternatively, a student may earn the minor with 12 credits if these are courses numbered 300 and above.

and identified as designed for graduate work. Students are expected to achieve a B or better in all courses used for the minor. Directed study courses do not count toward the minor. Students may not use colloquia or "brown bag" format courses toward requirements of the doctoral minor.

DEVELOPMENT, PH.D.

Admissions to the Development, Ph.D. have been suspended as of spring 2019. If you have any questions, please contact the department (academicaffairs@cals.wisc.edu).

The mission of the Ph.D. program in development studies is to prepare Ph.D. graduates for careers in social science research, policy, and education related to international development issues. The target audience includes people who wish to prepare for careers in international development as well as midcareer international development professionals who will return to their original employer or employment sector after earning a Ph.D. Applicants are expected to have experience working in developing countries. The program emphasizes

interdisciplinary social science research and analysis designed to address the problems of developing and emerging economies.

Students from the United States and 40 countries have enrolled since the program was established in 1970. Over 125 alumni work in a wide range of capacities with various government agencies, nongovernment agencies, and universities in the United States and other countries. Most alumni from other countries have returned there to take up senior-level posts in government and other national institutions and in academia.

ADMISSIONS

Admissions to the Development, Ph.D. have been suspended as of spring 2019. If you have any questions, please contact the department (academicaffairs@cals.wisc.edu).

ADMISSION REQUIREMENTS

Students seeking admission to the program must already hold a master's degree in a social science, preferably with a thesis requiring original research. Previous experience living and/or working in a developing country in some capacity (Peace Corps, non-government organizations, individual initiatives, etc.) is an important aspect of a successful applicant's background. A student's application is judged on the basis of previous academic records, letters of recommendation, a personal statement, and a research proposal. This proposal will form the cornerstone of the student's program. It will provide the admissions committee with a clear explanation of the direction the student intends to take with the research. In their statement of purpose, students should clearly outline their reasons for choosing the Ph.D. in development.

The online application must contain the following:

- Personal statement
- The research proposal
- Official transcripts for all post-secondary institutions attended
- Three letters of recommendation
- A curriculum vitae

Test Scores. General Graduate Record Exam (GRE) scores for all applicants and TOEFL or IELTS scores for international applicants are required.

Details on the requirements can be found on the program website (<http://devstudies.wisc.edu/admission.html>).

FACULTY ADVISOR

Applicants will not be admitted unless a member of the program faculty agrees to serve as advisor. If the Admissions Committee judges your application favorably, you will receive a provisional admission. You should identify one or more potential advisors from the list of faculty (http://devstudies.wisc.edu/people_faculty.html) and include that information in your Reason for Graduate Study. The Admissions Committee will contact potential advisors in order to obtain a match. Most students remain with their initial advisor; others find a more compatible match during the first semester.

DEADLINE

The Development Studies Program will only consider applications for fall semester admission. The deadline is January 15.

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

The Development Studies Program is unable to provide financial support to students, however many students are able to find funding through other means. Prospective students are encouraged to seek support through university departments, private scholarships, or government-sponsored funding. We will enter you in university-wide fellowship competitions for which you are eligible. Admitted students from developing countries may be eligible for one semester of MEO fellowship support. Most fellowship funds are awarded to students entering in the fall semester. We recommend that you:

1. Write to international organizations and investigate fellowships and grants available from private foundations.
2. Consider the possibility of obtaining support from your own university, your employer, or your government.
3. Contact university departments about the possibility of obtaining an assistantship.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the

advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	33 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.2 GPA required.
Other Grade Requirements	No other grade requirements.
Assessments and Examinations	Students must complete a written preliminary examination after the student's program coursework has been completed. For more information, see the program's website (http://devstudies.wisc.edu/about_prelim.html).
Language Requirements	Language requirements ranging from minimal competency to fluency in a non-native language will vary for each student depending on area of interest. Students are required to have or acquire language competency to complete their dissertation fieldwork
Doctoral Minor/Breadth Requirements	Development doctoral students are not required to complete a doctoral minor.

REQUIRED COURSES

Students work with their advisors to design an individualized program of study. All students must complete the Program of Study form by the end of their second semester.

The minimum number of total required credits for the Ph.D. program is 51. Up to 12 credits may be transferred from the student's master's degree provided the committee determines that these credits meet program requirements. Ordinarily courses taken elsewhere may not be used to meet the development studies course requirement. Each program of study will differ, yet coursework should fit the following guidelines:

- **Interdisciplinary seminar:** minimum of 3 credits
- **Major discipline: minimum of 24 credits that include:**
 - a. 3 credits minimum of theory
 - b. 9 credits minimum of methods (must be taken from the department(s) of the major discipline or from course offerings in the Department of Statistics)

- c. 12 credits minimum of other relevant courses in the major discipline (6 must be from development studies courses)
- **Secondary discipline:** minimum of 9 credits (3 must be from development studies courses)
- **Tertiary areas:** minimum of 9 credits
- **Dissertation research:** minimum of 6 credits

Both the major discipline and the secondary discipline are expected to be in the social sciences. In most instances, students will select from among sociology, economics, geography, anthropology, communication, political science, education, or urban and regional planning as their primary and secondary disciplines. Secondary disciplines may also include areas such as law, history, and public affairs.

At least one development studies course in the discipline of economics and one development studies course in the discipline of sociology must be completed by all students. Courses in the departments of Economics, Agricultural and Applied Economics, and Consumer Science, and economics courses in the School of Business fulfill the economics discipline, while courses in the departments of Sociology and Community and Environmental Sociology fulfill the sociology discipline. Development studies courses are social science graduate-level courses in which the majority of course content pertains specifically to international development. The Development Studies Instructional Committee will revise this list annually and make appropriate additions and deletions. All development studies courses must have been taken on an A–F basis at UW–Madison and be passed with a grade of B or higher.

"Topics" courses may be taken as development studies core courses by permission of the student's committee and the Instructional Committee. Some examples of such topics courses are included below. Also, note that this list is highly provisional. In particular, there are likely to be some 400-, 500-, and 600-level courses with largely undergraduate clientele that would not be appropriate for development studies graduate students. There are also no doubt a number of courses unknown to us that should be added to the list. At this time we do not see a need to identify development studies core courses for the tertiary areas, or to require that one or more development studies courses be taken in the tertiary areas.

Courses in the tertiary areas may be in a social science discipline, a coherent set of area studies courses, or a coherent set of courses outside of the social sciences. Natural-science tertiary areas/disciplines (e.g., plant science, ecology, tropical agriculture) or interdisciplinary social science areas/disciplines (technology assessment, urban studies) are permitted and encouraged. Tertiary areas/disciplines that do not correspond to current Graduate School programs of study are permitted if they are coherent and well justified.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 12 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

If students fall below the satisfactory progress requirements, including the 3.2 GPA, the program will launch an assessment exercise analyzing the student's fit in the program.

ADVISOR / COMMITTEE

All students must have an advisor. Admission into the development studies program is contingent on the Admissions Committee obtaining an advisor for the student. After the second semester the student will build a three-member faculty committee. At the time of defense, a five-member interdisciplinary committee must be established. At least 3 members of the dissertation committee must be readers.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)

- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
 - a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
 - b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at

whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.

- c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

OTHER

If you need financial support, indicate this on the application form. Prospective students are encouraged to seek support through university departments, private scholarships, or government-sponsored funding. We will enter you in university-wide fellowship competitions for which you are eligible. We will advise you about funding opportunities, when possible.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates research questions reflecting an interdisciplinary perspective on development research, theory and practice.
2. Formulates ideas and/or techniques beyond the current boundaries of knowledge within development studies.
3. Creates scholarship that makes a substantive contribution to development studies.

4. Demonstrates interdisciplinary breadth within their learning experiences.
5. Communicates complex ideas in a clear and understandable manner, both orally and in written form.
6. Fosters ethical and professional conduct in their research, teaching, and policy work.

PLANT BREEDING AND PLANT GENETICS, DOCTORAL MINOR

REQUIREMENTS

Ph.D. candidates in other degree programs who wish to pursue a doctoral minor in plant breeding and plant genetics must complete 10 credits of work with at least 2 credits from the plant breeding area and 2 credits from another area of the core curriculum. Also required are 2 credits of seminar (HORT/AGRONOMY/GENETICS 957 Seminar-Plant Breeding). Contact the program for more information concerning the minor.

PLANT BREEDING AND PLANT GENETICS, M.S.

The program leading to the Master of Science in Plant Breeding and Plant Genetics provides a broad exposure in the various disciplines involved with plant improvement. The program is truly interdisciplinary with faculty participants from agronomy, biochemistry, botany, entomology, genetics, horticulture, plant pathology, and statistics. Research areas include biochemical and molecular genetics, bioinformatics, biometry,

cytogenetics and cytology, genecology, genetics, plant breeding, and quantitative genetics.

The Plant Breeding and Plant Genetics Program has been designated a UW System Center of Excellence. The 50–60 students majoring in the program come from throughout the United States and all over the world. Faculty have included members of the National Academy of Sciences, endowed chair professors, and recipients of the National Council of Plant Breeders "Genetic and Plant Breeding Award." The University of Wisconsin leads the nation in the diversity of plant breeding programs and number of graduate students trained. Graduates are found in responsible positions with academic institutions, research institutions, and private companies involved in molecular to cultivar development work.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s).** Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	September 1
Summer Deadline	December 1
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Satisfactory preparation for graduate study in Plant Breeding and Plant Genetics includes undergraduate coursework in mathematics through differential and integral calculus, general chemistry and organic chemistry, physics, and a comprehensive biology sequence that covers both plant and animal biology and includes labs. Some of this preparatory coursework may be completed during the first year of graduate study. Normally, applicants will have had undergraduate training in the biological or agricultural sciences. All applicants must fulfill the minimum entrance requirements of the Graduate School.

Application Checklist

A complete application should include the following items:

1. Graduate School Application: We only accept applications submitted online through the Graduate School.
2. Supplementary Application: The supplementary application will appear as a part of the Graduate School's electronic application once the applicant selects Plant Breeding and Plant Genetics.
3. Application Fee: Instructions for paying the application fee are available through the Graduate School's online application form.
4. Statement of Purpose: Your essay should be a concise description of your reasons for choosing to study Plant Breeding and Plant Genetics at the University of Wisconsin. Please include your research interests and career goals as well as a description of your preparation for graduate study including relevant coursework, related employment, research experience, publications, presentations, awards, and honors. The essay may be submitted electronically through the Graduate School's online application.
5. Transcripts: We require all applicants to submit an unofficial transcript in PDF format to their online application. If an applicant is recommended for admission, then they will be required to submit their official transcript to the Graduate School. International academic records must be submitted in the original language and accompanied by an official English translation. Documents must be issued by the institution with an official seal/stamp and an official signature.
6. Three Letters of Recommendation, with at least two from academic sources.
7. Proof of English Proficiency - Applicants, whose native language is not English, or whose undergraduate instruction was not in English, must follow the Graduate School's guidelines for proof of English proficiency.

Application Process

Applications for graduate study in Plant Breeding and Plant Genetics must be submitted using the Graduate School's online application. If you are applying to multiple programs at the University of Wisconsin, make sure you send application materials to each program.

At this time, the graduate program in Plant Breeding and Plant Genetics does not support lab rotations. Applicants are admitted directly into a specific research program with one major professor. Admissions decisions are contingent upon the acceptance of an applicant by a faculty mentor. Because we receive many more applications from qualified applicants than we are able to admit, we highly recommend that applicants directly contact any faculty members with whom they are interested in working.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Financial support may be available through research assistantships (RAs) or fellowships. Fellowships are granted to students with very outstanding academic records. We recommend that your application be complete by the application deadlines in order to be considered for funding. Research assistantships are awarded by individual professors through funds available to their research programs.

Please be advised that you do not need to make a separate application for financial support as your admission application will also serve as an application for assistantships and fellowships.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide (https://registrar.wisc.edu/course-guide/)).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	Students must earn a B or above in all core curriculum coursework.
Assessments and Examinations	A formal M.S. thesis is required.

Language Requirements No language requirements.

REQUIRED COURSES

The specific program of study toward a master's degree is developed by the student and their major professor. Considerable flexibility in the selection of courses is permitted to meet the needs and interests of the candidate. Of the 30 credits required, students must complete a minimum of 12 credits of coursework (not research credit) and at least 9 credits must come from the Core Curriculum, including at least 2 credits in Section A, and 2 credits in Section B or C. Students must also complete 2 credits of Plant Breeding seminar (HORT/AGRONOMY/GENETICS 957 Seminar-Plant Breeding).

Core Curriculum

Code	Title	Credits
A. Plant Breeding		
HORT/AGRONOMY 501	Principles of Plant Breeding	
HORT/AGRONOMY 502	Techniques of Plant Breeding	
HORT/AGRONOMY 812	Selection Theory for Quantitative Traits in Plants	
B. Genetics		
PL PATH 517	Plant Disease Resistance	
HORT/GENETICS 550	Molecular Approaches for Potential Crop Improvement	
AGRONOMY/AN SCI/GENETICS/HORT 615	Genetic Mapping	
GENETICS 631	Plant Genetics	
GENETICS/BIOCHEM/BOTANY 840	Regulatory Mechanisms in Plant Development	
C. Quantitative Genetics and Biometry		
HORT/F&W ECOL/STAT 572	Statistical Methods for Bioscience II	
HORT/AGRONOMY 811	Biometrical Procedures in Plant Breeding	
AGRONOMY 771 & AGRONOMY 772	Experimental Designs and Applications in ANOVA	
D. Additional Core Courses		
BIOCHEM/BOTANY 621	Plant Biochemistry	
PL PATH/BOTANY/ENTOM 505	Plant-Microbe Interactions: Molecular and Ecological Aspects	
GENETICS 633	Population Genetics	
BOTANY 500	Plant Physiology	

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies

beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

ADVISOR / COMMITTEE

Every graduate student must have a faculty advisor (Major Professor) who is a member of the Plant Breeding and Plant Genetics faculty. The Major Professor advises the student about course work and supervises the student's research. The major professor must approve the student's coursework and research direction.

A Master's Committee is composed of at least three current UW–Madison faculty members, including the major professor. The Master's Committee is empowered by the Program to advise the student regarding coursework and thesis content, and conduct the final master's oral examination. Prior to the end of the first year of graduate study the student, in consultation with their major professor, should select two members of the UW–Madison faculty to serve on their Master's Committee. It is the student's responsibility to seek and obtain (verbal) approval from the faculty selected to serve on this committee.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their

absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.

- a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
 - b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
- a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
 - c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

OTHER

Financial support may be available through research assistantships (RAs) or fellowships. Fellowships are granted to students with very outstanding academic records. We recommend that your application be complete by the application deadlines in order to be considered for

funding. Research assistantships are awarded by individual professors through funds available to their research programs.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

Close working relationships between plant breeding and plant genetics (PBPG) students and faculty with companies, commodity groups, and NGOs allow for exposure to various work environments and potential employers. Opportunities exist for students to complete short-term internships with companies depending on research interests and progress toward the graduate degrees. The Plant Science Graduate Student Council (PSGSC) (<http://psgsc.wisc.edu/>) fosters communication and social interactions among the graduate students in the plant sciences.

LEARNING OUTCOMES

1. Articulates the theories, research methods, and approaches to inquiry in the field of plant breeding and plant genetics.
2. Identifies sources and assembles evidence pertaining to questions in the field of plant breeding and plant genetics.
3. Demonstrates understanding of the primary field of study in a global context.
4. Selects and utilizes the most appropriate methodologies and practices.
5. Synthesizes information pertaining to questions in the field of plant breeding and plant genetics.
6. Communicates clearly in ways appropriate to the field of plant breeding and plant genetics.
7. Recognizes and applies principles of ethical and professional conduct.

PLANT BREEDING AND PLANT GENETICS, PH.D

The program leading to the Doctor of Philosophy in Plant Breeding and Plant Genetics provides a broad exposure in the various disciplines involved with plant improvement. The program is truly interdisciplinary with faculty participants from agronomy, biochemistry, botany, entomology, genetics, horticulture, plant pathology, and statistics. Research areas include biochemical and molecular genetics, bioinformatics, biometry, cytogenetics and cytology, genecology, genetics, plant breeding, and quantitative genetics.

The Plant Breeding and Plant Genetics Program has been designated a UW System Center of Excellence. The 50–60 students majoring in the program come from throughout the United States and all over the world. Faculty have included members of the National Academy of Sciences, endowed chair professors, and recipients of the National Council of Plant Breeders "Genetic and Plant Breeding Award." The University of Wisconsin leads the nation in the diversity of plant breeding programs and number of graduate students trained. Graduates are found in responsible positions with academic institutions, research institutions, and private companies involved in molecular to cultivar development work.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	September 1
Summer Deadline	December 1
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Satisfactory preparation for graduate study in Plant Breeding and Plant Genetics includes undergraduate coursework in mathematics through differential and integral calculus, general chemistry and organic chemistry, physics, and a comprehensive biology sequence that covers both plant and animal biology and includes labs. Some of this preparatory coursework may be completed during the first year of graduate study. Normally, applicants will have had undergraduate training in the biological or agricultural sciences. All applicants must fulfill the minimum entrance requirements of the Graduate School.

Application Checklist

A complete application should include the following items:

1. Graduate School Application: We only accept applications submitted online through the Graduate School.
2. Supplementary Application: The supplementary application will appear as a part of the Graduate School's electronic application once the applicant selects Plant Breeding and Plant Genetics.
3. Application Fee: Instructions for paying the application fee are available through the Graduate School's online application form.
4. Statement of Purpose: Your essay should be a concise description of your reasons for choosing to study Plant Breeding and Plant Genetics at the University of Wisconsin. Please include your research interests and career goals as well as a description of your preparation for graduate study including relevant coursework, related employment, research experience, publications, presentations, awards, and honors. The essay may be submitted electronically through the Graduate School's online application.
5. Transcripts: We require all applicants to submit an unofficial transcript in PDF format to their online application. If an applicant is recommended for admission, then they will be required to submit their official transcript to the Graduate School. International academic records must be submitted in the original language and accompanied by an official English translation. Documents must be

issued by the institution with an official seal/stamp and an official signature.

6. Three Letters of Recommendation, with at least two from academic sources.
7. Proof of English Proficiency: Applicants, whose native language is not English, or whose undergraduate instruction was not in English, must follow the Graduate School's guidelines for proof of English proficiency.

Application Process

Applications for graduate study in Plant Breeding and Plant Genetics must be submitted using the Graduate School's online application. If you are applying to multiple programs at the University of Wisconsin, make sure you send application materials to each program.

At this time, the graduate program in Plant Breeding and Plant Genetics does not support lab rotations. Applicants are admitted directly into a specific research program with one major professor. Admissions decisions are contingent upon the acceptance of an applicant by a faculty mentor. Because we receive many more applications from qualified applicants than we are able to admit, we highly recommend that applicants directly contact any faculty members with whom they are interested in working.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Financial support may be available through research assistantships (RAs) or fellowships. Fellowships are granted to students with very outstanding academic records. We recommend that your application be complete by the application deadlines in order to be considered for funding. Research assistantships are awarded by individual professors through funds available to their research programs.

Please be advised that you do not need to make a separate application for financial support as your admission application will also serve as an application for assistantships and fellowships.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (http://my.wisc.edu/CourseGuideRedirect/BrowseByTitle (http://my.wisc.edu/CourseGuideRedirect/BrowseByTitle/)).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	Ph.D. candidates should maintain a 3.0 GPA in all core curriculum courses and may not have any more than two Incompletes on their record at any one time.
Assessments and Examinations	Doctoral students must pass both the oral preliminary and final thesis exams.
Language Requirements	No language requirements.
Doctoral Minor/Breadth Requirements	The doctoral minor is not required for students in the Plant Breeding and Plant Genetics degree. Students who wish to complete a cohesive body of work outside the major may wish to obtain a doctoral minor, and should declare the minor at the certification meeting. Minor requirements are determined by the minor department or program.

REQUIRED COURSES

The specific program of study toward a doctoral degree is developed by the student and their major professor. Considerable flexibility in the selection of courses is permitted to meet the needs and interests of the candidate. Of the 51 credits required, students must complete a minimum of 17 credits of coursework (not research credit) and at least 11 credits must come from the Core Curriculum, including at least 2 credits in each of Sections A, B, and C. Students must also complete 3 credits of Plant Breeding seminar (HORT/AGRONOMY/GENETICS 957 Seminar-Plant Breeding).

Core Curriculum

Code	Title	Credits
<i>A. Plant Breeding</i>		
HORT/AGRONOMY 501	Principles of Plant Breeding	
HORT/AGRONOMY 502	Techniques of Plant Breeding	
HORT/AGRONOMY 812	Selection Theory for Quantitative Traits in Plants	
<i>B. Genetics</i>		
HORT/GENETICS 550	Molecular Approaches for Potential Crop Improvement	
AGRONOMY/AN SCI/GENETICS/HORT 615	Genetic Mapping	
PL PATH 517	Plant Disease Resistance	
GENETICS 631	Plant Genetics	
GENETICS/BIOCHEM/BOTANY 840	Regulatory Mechanisms in Plant Development	
<i>C. Quantitative Genetics and Biometry</i>		
HORT/F&W ECOL/STAT 572	Statistical Methods for Bioscience II	
HORT/AGRONOMY 811	Biometrical Procedures in Plant Breeding	
AGRONOMY 771 & AGRONOMY 772	Experimental Designs and Applications in ANOVA	
<i>D. Additional Core Courses</i>		
PL PATH/BOTANY/ENTOM 505	Plant-Microbe Interactions: Molecular and Ecological Aspects	
BIOCHEM/BOTANY 621	Plant Biochemistry	
GENETICS 633	Population Genetics	
BOTANY 500	Plant Physiology	

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the

degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

A semester GPA below 3.0 will result in the student being placed on academic probation. If a semester GPA of 3.0 is not attained during the subsequent semester of full time enrollment (or 12 credits of enrollment if enrolled part-time) the student may be dismissed from the program or allowed to continue for one additional semester based on advisor appeal to the Graduate School.

ADVISOR / COMMITTEE

Every graduate student must have a faculty advisor (Major Professor) who is a member of the Plant Breeding and Plant Genetics faculty. The Major Professor advises the student about course work and supervises the student's research. The major professor must approve the student's coursework and research direction.

A PhD Committee is composed of at least 5 members, the major professor and four more who must be UW–Madison graduate faculty or former UW–Madison graduate faculty up to one year after resignation or retirement. The Graduate School requires that at least three committee members are designated as readers. Readers are committee members who commit themselves to closely reading and reviewing the entire dissertation. The committee is empowered by the Program to advise and evaluate the student with regards to certification, administer the preliminary examination, oversee progress meetings, approve thesis composition, and conduct the final PhD examination.

The student, in consultation with their Major Professor(s), should select four additional members of the UW-Madison faculty to serve on their PhD Committee prior to the end of the second semester of graduate study in order to convene a meeting to discuss the student's coursework and plan for certification. Certification is the process by which the PhD Committee certifies that the student has completed the formal coursework requirements of the PhD. This coursework plan must be approved by the student's PhD Committee, and for this reason it is important for the student to convene a meeting of their PhD committee prior to the end of their second semester so that additional courses suggested by the committee may be taken during the student's second year of graduate study. The Graduate School requires at least one member of the PhD Committee to be from outside the academic department of the major professor. Students choosing Minor Option A typically include their minor professor as a member of their PhD

Committee. It is the student's responsibility to seek and obtain (verbal) approval from the faculty members selected to serve on this committee.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
 - a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
 - b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
 - c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the

complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

OTHER

Financial support may be available through research assistantships (RAs) or fellowships. Fellowships are granted to students with very outstanding academic records. We recommend that your application be complete by the application deadlines in order to be considered for funding. Research assistantships are awarded by individual professors through funds available to their research programs.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

Close working relationships between plant breeding and plant genetics (PBPG) students and faculty with companies, commodity groups, and NGOs allow for exposure to various work environments and potential employers. Opportunities exist for students to complete short-term internships with companies depending on research interests and progress towards the graduate degrees. The Plant Science Graduate Student Council (PSGSC) (<http://psgsc.wisc.edu/>) fosters communication and social interactions among the graduate students in the plant sciences.

LEARNING OUTCOMES

1. Articulates research problems, potentials, and limits with respect to knowledge within the field of plant breeding and plant genetics.
2. Formulates ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the field of plant breeding and plant genetics.
3. Creates research that makes a substantive contribution.
4. Demonstrates breadth within their learning experiences.
5. Advances contributions of the field of plant breeding and plant genetics to society.
6. Communicates complex ideas in a clear and understandable manner.
7. Fosters ethical and professional conduct.

AGRONOMY

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Agronomy, Doctoral Minor (p. 74)
- Agronomy, M.S. (p. 74)
- Agronomy, Ph.D. (p. 78)

PEOPLE

Faculty: Professors Albrecht, Ane, Conley, Duke, Henson, Jackson, Jahn, S. Kaeppler, Kucharik (chair), Lauer, Stoltenberg, Tracy, Undersander; Associate Professors de Leon, H. Kaeppler, Renz; Assistant Professors Gutierrez, Picasso, Werle

AGRONOMY, DOCTORAL MINOR

Students enrolled in other Ph.D. programs may pursue a doctoral minor in agronomy. Students with interest in gaining training in crop production and management, weed science, agroecosystems, molecular biology, plant physiology and biochemistry or plant breeding to supplement their primary disciplinary program may consider an Option A minor in agronomy.

REQUIREMENTS

Graduate students who wish to pursue a doctoral minor in agronomy must have an agronomy faculty member serve as the minor professor on their research committees (oral preliminary exam committee and final exam committee).

Courses are chosen in conjunction with the minor professor and the committee to provide relevant breadth in the student's training. A student may earn a doctoral minor in agronomy with 9 credits in exclusively graduate-level agronomy courses (courses numbered 700 and above, or between 300 and 699 marked with the graduate attribute in the Course Guide).

Alternatively, up to 3 graduate-level credits of plant, ecology, or environment-related coursework from other departments could be included in the 9-credit total.

At least 1 credit (and up to 2 credits) must be AGRONOMY 920 Seminar. The proposed course plan to satisfy Option A minor must be approved by the Department of Agronomy Graduate Studies Committee.

PEOPLE

ADMINISTRATION

Chris Kucharik, Chair

Shawn Conley and Natalia De Leon, Associate Chairs

Sandra Bennett, Department Administrator

PROGRAM FACULTY AND THEIR AREAS OF STUDY

Jean-Michel Ané, Professor — Plant-Microbe Symbioses

Shawn Conley, Professor — Soybean & Small Grain Production

Natalia De Leon, Professor — Plant Breeding and Plant Genetics

Stan Duke, Professor — Barley Malt Quality

Lucía Gutiérrez, Professor — Cereal Crops Breeding

Cynthia Henson — Supervisory Research Plant Physiologist

Randy Jackson, Professor — Grassland Ecosystems, Agroecology

Molly Jahn, Professor — Risk in Food Systems

Heidi Kaeppler, Associate Professor — Cereal Crops Genetics

Shawn Kaeppler, Professor — Plant Breeding and Plant Genetics

Chris Kucharik, Professor and Chair — Ecosystems, Land Management, Biogeochemical Cycling

Joe Lauer, Professor — Crop Management (Corn)

Valentin Picasso, Assistant Professor — Forages and Grazing Systems, Agroecology, Sustainable Agriculture

Mark Renz, Associate Professor — Weed Science

David Stoltenberg, Professor — Cropping Systems, Weed Science, Agroecology, Sustainable Agriculture

Bill Tracy, Professor — Plant Breeding and Plant Genetics (Sweet Corn)

Rodrigo Werle, Assistant Professor — Extension Cropping Systems - Weed Science

For full descriptions of faculty research interests, see their individual pages on the Agronomy website (<http://www.agronomy.wisc.edu/>).

AGRONOMY, M.S.

The mission of the Department of Agronomy is to generate, integrate, and apply knowledge about crop plants that are grown for food, feed, and the general benefit of humankind. We find and disseminate answers to problems and discover opportunities concerning efficiency and sustainability of production, improvements in quality, and methods for safe and environmentally sound practices.

An education in agronomy prepares graduates for professional careers in research, teaching, and extension at academic and government institutions, and for research and technical careers in industry in areas such as biotechnology, agroecology, cropping systems ecology and ecosystem modeling, crop management and protection, plant breeding, biochemistry, genetics, and genomics.

The UW–Madison Department of Agronomy is one of the most highly ranked and regarded departments in the nation. We are committed to integrated research, development, teaching, and outreach to address issues of food scarcity, food quality and nutrition, environmental impact, and sustainability.

The department maintains or has access to excellent facilities for research, including fully equipped laboratories, growth chambers and greenhouses, and complete field facilities at nearby agricultural research stations and throughout the state. Students have access to highly controlled plant growth facilities at the university's Biotron and to special analytical services provided by the campus Biotechnology Center. The Wisconsin Crop Innovation Center opened in 2017 and houses a cutting edge transgenic plant laboratory and 26,000 square feet of highly controlled greenhouse space and other lab facilities.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) of the Graduate School as well as the program(s).

Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	September 1
Summer Deadline	December 1
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Candidates for graduate study should have a bachelor's degree in agriculture or in the biological, chemical, or physical sciences. Contact the department or visit the website (<http://agronomy.wisc.edu/graduate-admissions/for-prospective-graduate-students/>) for details. Students considering graduate study in Agronomy should make inquiries to the department several months before the desired enrollment date. In addition to the online application, the department requires a statement of purpose, transcripts, and three letters of recommendation with two being from academic sources.

Candidates for department research and teaching assistantships can be accepted twice a year, at summer/fall and spring admissions.

Agronomy admissions FAQs (<https://agronomy.wisc.edu/graduate-admissions/for-prospective-graduate-students/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

The vast majority of our graduate students are awarded research assistantships to fund their education. These RA appointments come with tuition remission, healthcare, and a monthly stipend for living expenses. These assistantships come directly from the mentoring faculty; as a result, space in our graduate program is extremely limited. We do not support lab rotations. More details can be found here (<https://agronomy.wisc.edu/graduate-admissions/aidopps/>).

Minimum Graduate Coursework Requirement	Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide) (https://registrar.wisc.edu/course-guide/).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	Students intending to terminate their graduate program at the UW with the M.S. degree are required to present an exit seminar, preferably prior to their M.S. oral exam.

Language The Agronomy department does not have any language Requirements requirements.

REQUIRED COURSES

Code	Title	Credits
Choose one of the following:		
AGRONOMY 920	Seminar	1
AGRONOMY/ GENETICS/ HORT 957	Seminar-Plant Breeding	1

Prerequisite Courses

Code	Title	Credits
May be completed on campus if necessary		
1 year of general chemistry with labs		
1 semester of organic chemistry with labs		
4 semesters of biology distributed among three of the following four areas:		
biochemistry		
genetics		
plant morphology, anatomy, or physiology		
taxonomy, evolution, or ecology.		

Requests for deviations from these requirements can be made to the Graduate Studies Committee with permission and advice from your advisor.

Your undergraduate courses may be used towards this requirement, if the courses were rigorous and met the expectations of graduate work. Coursework earned five or more years prior to admission for your master's cannot be counted. These undergraduate classes can only count towards this requirement; they cannot count towards the Minimum Graduate Credit Residence Requirement (16 credits). See Prior Coursework (p. 76).

Teaching experience is not required but it is highly recommended.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

For well-prepared advanced students, the program may accept up to 9 credits of prior graduate coursework from other institutions toward the minimum graduate degree credit and minimum graduate coursework (50%) requirement. The minimum graduate residence credit requirement can be satisfied only with courses taken as a graduate student at UW–Madison.

UW–Madison Undergraduate

For well-prepared advanced students, the program may decide to accept up to 7 credits numbered 300 or above completed at UW–Madison toward fulfillment of minimum degree and minor credit requirements. This work would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above.

UW–Madison University Special

The program may decide to accept up to 9 University Special student credits as fulfillment of the minimum graduate residence, graduate degree, or minor credit requirements on occasion as an exception (on a case-by-case basis). UW–Madison coursework taken as a University Special student would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above.

PROBATION

If students were admitted on probation and they satisfy the conditions outlined at the time of admission, probationary status will be removed automatically. Once their studies have begun, students are expected to make satisfactory progress toward their degree.

Students must be in good academic standing with the Graduate School, their program, and their advisor. The Graduate School regularly reviews the record of any student who received grades of BC, C, D, F, or I in courses numbered 300 or above, or grades of U in research and thesis. This review could result in academic probation with a hold on future enrollment, and the student may be suspended from graduate studies.

The Graduate School may also put students on probation for incompletes not cleared within one term. All incomplete grades must be resolved before a degree is granted.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the student is expected to meet with their advisor on a regular basis. The advisor is a faculty member, or sometimes two members, from Agronomy responsible for providing advice regarding graduate studies.

Students are usually admitted to the Agronomy department directly into the mentorship of a specific advisor, without completing any rotations.

You will choose your thesis committee together with your advisor. The committee consists of your advisor and at least two other faculty members. One faculty member may be from another department.

CREDITS PER TERM ALLOWED

The Graduate School considers full-time enrollment to be 8-15 credits taken at 300 or above, excluding pass/fail and audit, during the fall and spring semesters, and 4-12 credits during the summer term. If students elect not to enroll as full-time students as defined by the Graduate School, they are responsible for knowing about possible obligations that may require full-time status. Such obligations may include visa eligibility, fellowships, assistantships, financial aid, external funding agencies, and program satisfactory progress requirements.

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
 - a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.

- b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
 - c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The agronomy department does not require but encourages all students to complete an Individual Development Plan (IDP). As you begin your Graduate School career, an Individual Development Plan (IDP) is an essential tool to help you:

- (1) Assess your current skills and strengths
- (2) Make a plan for developing skills that will help you meet your academic and professional goals
- (3) Communicate with your advisors and mentors about your evolving goals and related skills.

For graduate students in the natural sciences and engineering, the American Association for the Advancement of Science (AAAS) online tool provides a comprehensive set of materials and exercises that will guide you through the process of self-assessment, career exploration, goal-setting, and implementation of your plan. Set up a free account to create and monitor your IDP at myidp.sciencecareers.org (<http://myidp.sciencecareers.org/>).

The UW–Madison IDP template (<https://grad.wisc.edu/pd/idp/>), which includes instructions and examples, is flexible and appropriate for all disciplines.

LEARNING OUTCOMES

1. Articulates, critiques, or elaborates the theories, research methods, and approaches to inquiry or schools of practice in the field of study.
2. Identifies sources and assembles evidence pertaining to questions or challenges in the field of study.
3. Demonstrates understanding of the primary field of study in a historical, social, or global context.
4. Selects and/or utilizes the most appropriate methodologies and practices.
5. Evaluates or synthesizes information pertaining to questions or challenges in the field of study.
6. Communicates clearly in ways appropriate to the field of study.
7. Recognizes and applies principles of ethical and professional conduct.

AGRONOMY, PH.D.

The mission of the Department of Agronomy is to generate, integrate, and apply knowledge about crop plants that are grown for food, feed, and the general benefit of humankind. We find and disseminate answers to problems and discover opportunities concerning efficiency and sustainability of production, improvements in quality, and methods for safe and environmentally-sound practices.

An education in agronomy prepares graduates for professional careers in research, teaching, and extension at academic and government institutions, and for research and technical careers in industry in areas such as biotechnology, agroecology, cropping systems ecology and ecosystem modeling, crop management and protection, plant breeding, biochemistry, genetics, and genomics.

The UW–Madison Department of Agronomy is one of the most highly ranked and regarded departments in the nation. We are committed to integrated research, development, teaching, and outreach to address issues of food scarcity, food quality and nutrition, environmental impact, and sustainability.

The department maintains or has access to excellent facilities for research, including fully equipped laboratories, growth chambers and greenhouses, and complete field facilities at nearby agricultural research stations and throughout the state. Students have access to highly controlled plant growth facilities at the university's Biotron and to special analytical services provided by the campus Biotechnology Center. The Wisconsin Crop Innovation Center opened in 2017 and houses a cutting edge transgenic plant laboratory and 26,000 square feet of highly controlled greenhouse space and other lab facilities.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	September 1
Summer Deadline	December 1
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Candidates for graduate study should have a bachelor's degree in agriculture or in the biological, chemical, or physical sciences. Contact the department or visit the website (<http://agronomy.wisc.edu/graduate-admissions/for-prospective-graduate-students/>) for details. Students considering graduate study in Agronomy should make inquiries to the department several months before the desired enrollment date. In addition to the online application, the department requires a statement of purpose, transcripts, and three letters of recommendation with two from academic sources.

Candidates for department research and teaching assistantships can be accepted twice a year, at summer/fall and spring admissions.

Agronomy admissions FAQs. (<https://agronomy.wisc.edu/graduate-admissions/for-prospective-graduate-students/>)

The following courses are entrance requirements to pursue a Ph.D. in the Department of Agronomy. Applicants are required to have taken the following coursework. At the department's discretion, students may

be admitted with deficiencies. These deficiencies are expected to be completed within the first semester of study.

- 1 year general chemistry with labs
- 1 semester organic chemistry with labs
- 1 semester physics
- 1 semester calculus
- 1 semester statistics
- 4 semesters of biology distributed among three of the following four areas: biochemistry; genetics; plant morphology, anatomy or physiology; and taxonomy, evolution, or ecology.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

The vast majority of our graduate students are awarded research assistantships to fund their education. These RA appointments come with tuition remission and a monthly stipend for living expenses. These assistantships come directly from the mentoring faculty; as a result, space in our graduate program is extremely limited. We do not support lab rotations. More details can be found here (<https://agronomy.wisc.edu/graduate-admissions/aidopps/>).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide (https://registrar.wisc.edu/course-guide/)).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	<p>Doctoral students are required to take a comprehensive preliminary/oral examination after they have cleared their record of all Incomplete and Progress grades (other than research and dissertation).</p> <p>As a Ph.D. student you must take your final oral exam within five years of passing the prelim or you will be required to take another preliminary examination and be admitted to candidacy for a second time. All Ph.D. candidates are required to present an exit seminar. This often is most convenient just prior to the final examination, or you may present the seminar as part of the Agronomy Colloquium. The final examination ordinarily covers your dissertation and the general fields of your major and minor studies.</p> <p>Deposit of the doctoral dissertation in the Graduate School is required.</p>
Language Requirements	The Agronomy department does not have any language requirements.

Doctoral Minor/Breadth Requirements	Students completing a Ph.D. in Agronomy must also complete requirements for a minor in another department.
	The coursework for completion of the minor requirement is decided at the time of certification, with approval of the minor advisor. The minor department sets the requirements for minor completion. In both options, one course cross-listed with the major may be used for the minor, so long as it is staffed by the minor department and is not applicable to any requirements of the major.
	The type and completion of the minor is reported to the Graduate School on the preliminary examination warrant.

REQUIRED COURSES

Code	Title	Credits
Three semesters of one or both of the following:		
AGRONOMY 920	Seminar	1
AGRONOMY/ GENETICS/ HORT 957	Seminar-Plant Breeding	1

Prerequisite Courses

Code	Title	Credits
May also be completed on campus if necessary:		
1 year of general chemistry with labs		
1 semester of organic chemistry with labs		
1 semester of physics		
1 semester of calculus		
1 semester of statistics		
4 semesters of biology distributed among three of the following four areas:		
biochemistry		
genetics		
plant morphology, anatomy, or physiology		
taxonomy, evolution, or ecology.		

These classes can be taken in your undergraduate or master's career. If you begin the program as a master's student and then transition into the PhD program, credits taken as a master's student will count toward the PhD program. At the department's discretion, you may be admitted with deficiencies. These deficiencies are expected to be completed within the first semester of study. The Agronomy Department requires two full-time semesters in residence for a Ph.D. Your certification committee can petition the Graduate Studies Committee for a deviation from the residence requirement under unique circumstances.

Teaching experience is not required, but is highly recommended by the department and the time for completion of this recommended experience should be included on the certification form.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the

degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

For well-prepared advanced students, the program may accept up to 12 credits of prior graduate coursework from other institutions toward the minimum graduate degree credit and minimum graduate coursework (50%) requirement. The minimum graduate residence credit requirement can be satisfied only with courses taken as a graduate student at UW–Madison.

UW–Madison Undergraduate

For well-prepared advanced students, the program may decide to accept up to 7 credits numbered 300 or above completed at UW–Madison toward fulfillment of minimum degree and minor credit requirements. This work would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above.

UW–Madison University Special

The program may decide to accept up to 12 University Special student credits as fulfillment of the minimum graduate residence, graduate degree, or minor credit requirements on occasion as an exception (on a case-by-case basis). UW–Madison coursework taken as a University Special student would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above.

PROBATION

If students were admitted on probation and they satisfy the conditions outlined at the time of admission, probationary status will be removed automatically. Once their studies have begun, students are expected to make satisfactory progress toward their degree.

Students must be in good academic standing with the Graduate School, their program, and their advisor. The Graduate School regularly reviews the record of any student who received grades of BC, C, D, F, or I in courses numbered 300 or above, or grades of U in research and thesis. This review could result in academic probation with a hold on future enrollment, and the student may be suspended from graduate studies.

The Graduate School may also put students on probation for incompletes not cleared within one term. All incomplete grades must be resolved before a degree is granted.

ADVISOR / COMMITTEE

Students are usually admitted to the Agronomy department directly into the mentorship of a specific advisor, without completing any rotations. You are required to form, under the guidance of your advisor, a committee to oversee your Ph.D. degree progress. The composition of the committee complies with Graduate School policy (<https://grad.wisc.edu/documents/committees/>). While not strictly required, continuity in membership of the student's Certification Committee, Preliminary Examination Committee, and Final Examination Committee is strongly encouraged.

CREDITS PER TERM ALLOWED

The Graduate School considers full-time enrollment to be 8–15 credits taken at 300 or above, excluding pass/fail and audit, during the fall and spring semesters, and 4–12 credits during the summer term. If students elect not to enroll as full-time students as defined by the Graduate School, they are responsible for knowing about possible obligations that

may require full-time status. Such obligations may include visa eligibility, fellowships, assistantships, financial aid, external funding agencies, and program satisfactory progress requirements.

Dissertators take exactly 3 credits per semester.

TIME CONSTRAINTS

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
 - a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
 - b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
 - c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the

complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The agronomy department does not require but encourages all students to complete an Individual Development Plan (IDP). As you begin your Graduate School career, an Individual Development Plan (IDP) is an essential tool to help you:

- (1) Assess your current skills and strengths
- (2) Make a plan for developing skills that will help you meet your academic and professional goals
- (3) Communicate with your advisors and mentors about your evolving goals and related skills.

For graduate students in the natural sciences and engineering, the American Association for the Advancement of Science (AAAS) online tool provides a comprehensive set of materials and exercises that will guide you through the process of self-assessment, career exploration, goal-setting, and implementation of your plan. Set up a free account to create and monitor your IDP at myidp.sciencecareers.org (<http://myidp.sciencecareers.org/>).

The UW–Madison IDP template (<https://grad.wisc.edu/pd/idp/>), which includes instructions and examples, is flexible and appropriate for all disciplines.

LEARNING OUTCOMES

1. Articulates research problems, potentials, and limits with respect to theory, knowledge, or practice within the field of study.
2. Formulates ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the field of study.
3. Creates research, scholarship, or performance that makes a substantive contribution.
4. Demonstrates breadth within their learning experiences.
5. Advances contributions of the field of study to society.
6. Communicates complex ideas in a clear and understandable manner.
7. Fosters ethical and professional conduct.

ANTHROPOLOGY

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Anthropology, Doctoral Minor (p. 83)
- Anthropology, M.A. (p. 83)
- Anthropology, M.S. (p. 86)
- Anthropology, Ph.D. (p. 89)

PEOPLE

Faculty: See Anthropology (<http://anthropology.wisc.edu/people/#faculty>).

ANTHROPOLOGY, DOCTORAL MINOR

REQUIREMENTS

Graduate students in other fields who desire to elect anthropology as a minor subject should contact the chair of the department. As a rule, prior preparation must equal 12 credits in social sciences, of which two should be in anthropology (<http://guide.wisc.edu/courses/anthro/>) unless the area of concentration is to be a non-cultural field. Four courses must be taken, with the program of courses arranged to provide either

1. a general coverage of the field, or
2. concentration in biological anthropology, cultural anthropology, or archaeology.

Successful completion of the course program will satisfy the minor requirement.

PEOPLE

Faculty: See Anthropology (<http://anthropology.wisc.edu/people/#faculty>).

ANTHROPOLOGY, M.A.

The primary focus of the anthropology graduate program is the doctoral degree. A master's degree is awarded in the process of pursuing the Ph.D., but students are not admitted for the sole purpose of obtaining a master's degree.

At the master's level, it is expected that candidates will begin to gain professional competence in a specialized field and will have the opportunity to explore a wide spectrum of interests within that field.

Programs for the master's degree in anthropology are intended to build professional competence in the field of concentration. Thorough undergraduate preparation is assumed. Basic training in archaeology, biological anthropology, and sociocultural anthropology, taken as an undergraduate major in anthropology, is recommended. Specific requirements vary for each concentration. Students are encouraged to consult Graduate Studies in Anthropology (<https://www.anthropology.wisc.edu/graduate-study/anthropology-masters-phd/>) for details on requirements for each concentration.

Concentrations within the major are available in archaeology, social and cultural anthropology, biological anthropology, or an intersectional degree track (see description below).

All programs assume that candidates have had general undergraduate training in the discipline equivalent to that required of an undergraduate major at UW–Madison. See Anthropology (<https://www.anthropology.wisc.edu/>).

INTERSECTIONAL DEGREE TRACK

Occasionally students have special interests that can be pursued only through a combined program involving two or more of the sub disciplines within the program. Examples might include paleoanthropology, ethno archaeology, or biocultural anthropology. The department offers an intersectional degree track as an option for these special cases. Interested students should write a carefully prepared statement of intent at the time of application to graduate school. This area of study may take longer to complete, and it is strongly suggested that students who are interested in an intersectional program begin in one of the three major sections prior to making this commitment. Admission to the intersectional program requires prior approval by faculty in each section, and students should contact appropriate faculty before writing their statement.

This master's program is offered for work leading to the Ph.D. Students may not apply directly for the master's, and should instead see the admissions information for the Ph.D (<https://www.anthropology.wisc.edu/graduate-study/admissions/>).

ADMISSIONS

This master's program is offered for work leading to the Ph.D. Students may not apply directly for the master's, and should instead see the admissions information for the Ph.D (p. 89).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the

advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum
Credit
Requirement

Minimum
Residence
Credit
Requirement

Minimum
Graduate
Coursework
Requirement

Degree coursework must be completed in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (<https://registrar.wisc.edu/course-guide> (<https://registrar.wisc.edu/course-guide/>)).

Overall
Graduate GPA
Requirement

A GPA of 3.5. No less than 3.0 during the first year; must have a 3.5 thereafter.

Other Grade
Requirements

Candidates may not have a GPA lower than 3.0 during the first year and must maintain a 3.5 GPA every year thereafter. Candidates may not carry more than 4 credits of Incomplete at any one time; credits of Incomplete over this limit are counted as grades of F for purposes of the GPA until removed.

Assessments
and
Examinations

Successful completion of a comprehensive master's exam or a Ph.D. qualifying examination is required.

Language
Requirements

Language study will be required for many students; specifics are determined in consultation with the advisor and co-advisor.

REQUIRED COURSES

Students choose from one of four concentrations/tracks (also referred to as "sections") in the department. Students in the Cultural concentration will earn a master of arts. Students in the Archaeology, Biological, or Intersectional concentrations will work their advisor and a department committee to determine if the coursework they take meets the requirements for a master of arts or a master of science.

Archaeology Concentration Track ¹

Student must complete a total of 30 credits of graduate course work, including three seminars (ANTHRO 942 Seminar-Archaeological Problems) in archaeology. Substitutions for the required seminars in archaeology are not normally allowed. (Incoming M.A. students must take at least two seminars as a part of the Ph.D. requirements, and these courses may be taken before or after the qualifying examination.)

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Biological Concentration Track ¹

Student must complete a total of 30 credits of graduate course work. The following courses are strongly recommended in preparation for the general section of the qualifying examination:

Code	Title	Credits
ANTHRO 303	Human Skeletal Anatomy	4
ANTHRO 601	Proseminar in Biological Anthropology	3
ANTHRO 603	Seminar in Evolutionary Theory	3
GENETICS 466	Principles of Genetics	3

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Cultural Concentration Track ¹

Minimum 30 credits of graduate course work, 15 credits in cultural anthropology, including ANTHRO 860 and ANTHRO 900, and one additional 900-level seminar (not to include ANTHRO 909 if continuing in Ph.D. program).

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Intersectional Concentration Track ¹

There are no specific courses required; students choose courses in consultation with their advisor.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

With program approval students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

Progress criteria may be waived in special circumstances which must be stated in writing and approved by the appropriate section and signed by the department chair. Candidates not making satisfactory progress will be dropped from the program.

ADVISOR / COMMITTEE

Every graduate student will be assigned an advisor and a co-advisor. To ensure they are making satisfactory progress toward a degree, the Graduate School expects that students meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member from the major department responsible for providing advice regarding graduate studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Ph.D. qualifying examinations must be taken no later than the fourth semester and must be passed no later than the **sixth semester**.

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)

- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

We have a limited amount of graduate student support through teaching assistantships and fellowships. These are awarded competitively, and are only awarded to those applicants who have all their materials in by the December 1 deadline.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates, critiques, or elaborates the theories, research methods, and approaches to inquiry or schools of practice in either biological, archaeological, or cultural anthropology.
2. Identifies relevant data and assembles evidence pertaining to questions or challenges in one of the three subfields of anthropology taught in this department.
3. Demonstrates understanding of the primary field of study in historical, social, or global/transnational contexts as revealed in the qualifying exam.
4. Selects and/or utilizes the most appropriate methodologies and practices in the sub-discipline.
5. Evaluates or synthesizes information pertaining to questions or challenges in one of the three subfields of anthropology taught in this department.
6. Communicates clearly in ways appropriate to the field of study.
7. Follows ethical principles of the discipline including respect and sensitivity to host cultures and communities, inclusiveness and

diversity, civility and collegiality, and zero tolerance for sexual harassment.

PEOPLE

Faculty: See Anthropology (<http://anthropology.wisc.edu/people/#faculty>).

ANTHROPOLOGY, M.S.

The primary focus of the anthropology graduate program is the doctoral degree. A master's degree is awarded in the process of pursuing the Ph.D., but students are not admitted for the sole purpose of obtaining a master's degree.

At the master's level, it is expected that candidates will begin to gain professional competence in a specialized field and will have the opportunity to explore a wide spectrum of interests within that field.

Programs for the master's degree in anthropology are intended to build professional competence in the field of concentration. Thorough undergraduate preparation is assumed. 7. Follows ethical principles of the discipline including respect and sensitivity to host cultures and communities, inclusiveness and diversity, civility and collegiality, and zero tolerance for sexual harassment.

PEOPLE

Faculty: See Anthropology (<http://anthropology.wisc.edu/people/#faculty>).

ANTHROPOLOGY, PH.D.

The Ph.D. program assumes previous broad anthropological training in the undergraduate major and competence in a special field at the master's level (see Graduate Studies in Anthropology (http://www.anthropology.wisc.edu/study_grad.php)). Ph.D. programs are flexible in content and are constructed individually within the field of specialization by the candidate, in consultation with the appropriate faculty.

Students working toward the Ph.D. degree in anthropology who prefer to pursue a program leading to a specialization in, for example, linguistic anthropology, may elect to take a joint degree. The requirements for such candidates will be determined by the certification committee, which includes members of the participating departments, and must be approved by the Graduate School.

Within the doctoral program, students are expected to seek additional training in areas relating to the field of concentration; in most cases, such related subjects may be taken as the required minor program. The archaeologist, for example, should elect course work in surveying, geology, cartography, zoology, history, and so on, depending on special interests. The biological anthropologist is expected to take work in comparative anatomy, human anatomy, genetics, and other biological sciences. The cultural or social anthropologist are encouraged to take further work in area studies, geography, history, history of science, linguistics, political science, psychology, sociology, and related fields.

The university and vicinity provide many opportunities and facilities for training and research including specialized area and language programs, accessible American Indian reservations, significant archaeological sites, and important archaeological collections. Anthropological fieldwork is conducted in various parts of the world, and there is normally an archaeological field school every second summer. The department has major laboratories for biological anthropology and archaeology, and collaborates with the Center for Climatic Research. The archaeology laboratories maintain comparative collections; microscopes; a thin-section lab; a lab of archaeological chemistry; computerized drafting equipment; and modern drafting, computing, and analytical equipment for research and teaching. Facilities for training and research in biological anthropology include well-equipped laboratories for forensic anthropology, human and other primate osteology anatomy, plant chemistry, stable isotope analysis, and bone histomorphometry, in addition to two large teaching laboratories.

Concentrations within the major are available in archaeology, social and cultural anthropology, biological anthropology, or an intersectional degree track (see description below).

All programs assume that candidates have had general undergraduate training in the discipline equivalent to that required of an undergraduate major at UW–Madison. See Anthropology (<http://guide.wisc.edu/undergraduate/letters-science/anthropology/anthropology-ba/#requirementstext>).

INTERSECTIONAL DEGREE TRACK

Occasionally students have special interests that can be pursued only through a combined program involving two or more of the subdisciplines within the program. Examples might include paleoanthropology, ethnoarchaeology, or biocultural anthropology. The department offers an intersectional degree track as an option for these special cases. Interested students should write a carefully prepared statement of intent at the time of application to graduate school. This area of study may take longer to complete, and it is strongly suggested that students who are interested in an intersectional program begin in one of the three major sections prior to making this commitment. Admission to the intersectional program requires prior approval by faculty in each section, and students should contact appropriate faculty before writing their statement.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s).**

Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

The Graduate School sets minimum requirements for admissions (<https://grad.wisc.edu/admissions/requirements/>). Academic program admission requirements are often more rigorous than those set by the Graduate School. Please check the program's website (<http://www.anthropology.wisc.edu/graduate-study/applying-to-our-graduate-program/>) for details.

GRADUATE STUDY

Students interested in pursuing degrees in anthropology at the University of Wisconsin–Madison will find themselves members of a vibrant intellectual community. The university is an important crossroads where a diversity of debate and intellectual exchange can be found. The department is actively involved in this diverse community and regularly invites renowned scholars from all over the world to give talks and hold seminars. When a new student is admitted to the department, that student also becomes a colleague to a diverse group of scholars.

The department recognizes that the methods, perspectives, and theoretical orientation originating in anthropology have now invigorated many other disciplines. This blurring of the borders between disciplines has created a cross-fertilization that is unprecedented in the history of Western academics. The department encourages students to take part in this process, as it relates both to intradisciplinary relationships within the sections and to interdisciplinary relationships between departments.

The primary focus of the Department of Anthropology is on the doctoral degree. A master's degree is awarded in the process of pursuing the Ph.D., but students are not admitted for the sole purpose of obtaining a master's degree.

The Department of Anthropology offers prospective graduate students the opportunity to pursue study within one of three major subfields of contemporary anthropology: archaeology, biological anthropology, and cultural anthropology plus an intersectional degree (see below for more information on these programs).

ADMISSIONS

The anthropology department offers three major fields of study in contemporary anthropology: archaeology, biological anthropology, and cultural anthropology, or within the intersectional degree program.

The primary focus of the Department of Anthropology is the doctoral degree. A master's degree is awarded in the process of pursuing the Ph.D.; students are not admitted for the sole purpose of obtaining a master's degree.

Contact Anthropology Graduate Advisor Associate Professor Nam Kim at 608-262-2187 or nckim2@wisc.edu (tpickering@wisc.edu) for information on your specific interests in anthropology. Connect with current anthropology graduate students through the UW student organization AnthroCircle (<https://anthrocircle.wordpress.com/>) to learn about their experience in our program.

APPLICATION FOR GRADUATE STUDY IN ANTHROPOLOGY

The application deadline is December 1 for the following fall semester.

All documents and test scores must be complete and submitted by December 1 for your application to be deemed complete for review and consideration. Please keep in mind that **December 1** is the deadline for all anthropology admissions. Although the Graduate School will process your application, the department has a **December 1** deadline, and may not process your application without supporting documentation. Please contact the graduate coordinator prior to sending your application if after **December 1**.

WE DO NOT ACCEPT APPLICATIONS FOR SPRING OR SUMMER ADMISSIONS

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

A limited number of teaching, research, and project assistantships are available annually, with occasional special research work for qualified individuals in both laboratory and field situations. Students who are planning to study a language taught at UW–Madison are encouraged to contact the relevant Area Studies Program to explore the possibilities for a (FLAS) Foreign Language Area Studies Fellowship.

More information can be found here (<https://www.anthropology.wisc.edu/graduate-study/funding/>).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	Degree coursework must be completed in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (http://my.wisc.edu/CourseGuideRedirect/BrowseByTitle (http://my.wisc.edu/CourseGuideRedirect/BrowseByTitle)).
Overall Graduate GPA Requirement	A GPA of 3.50. No less than 3.0 during the first year; must have a 3.50 thereafter.
Other Grade Requirements	Candidates may not have a GPA lower than 3.0 during the first year and must maintain a 3.5 GPA every year thereafter. Candidates may not carry more than 4 credits of Incomplete at any one time; credits of Incomplete over this limit are counted as grades of F for purposes of the GPA until removed.

Assessments and Examinations Ph.D. qualifying examinations must be taken no later than the fourth semester and must be passed no later than the sixth semester. Students must take preliminary examinations no later than the third semester after passage of the qualifying examinations, and pass no later than the fifth semester after qualifying examinations.

Language Requirements Language requirements are determined on an individual basis with the major professor and will depend on the area concentration within the department.

Doctoral Minor/Breadth Requirements All doctoral students are required to complete a minor.

REQUIRED COURSES

Students choose from one of four concentrations/tracks (also referred to as "sections") in the department. Students earn an M.A. (p. 84) or M.S. (p. 87) on the way to the Ph.D. and should refer to the requirements on those pages for information about specific courses required.

All concentrations (archaeology, biological, cultural, intersectional) require one 300-level or above course in one of the other concentrations.

Archaeology Concentration Track ¹

21 additional credits to the master's degree, including two seminars in anthropology/archaeology.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Biological Concentration Track ¹

21 additional credits to the master's degree, including coursework relevant to field of specialization.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Cultural Concentration Track ¹

21 additional credits to the master's degree, including at least one graduate seminar above the 900 level in addition to ANTHRO 860 and ANTHRO 900 in the Department of Anthropology. In addition, students must also take ANTHRO 909, which may be taken as a directed study when it is not offered as a course by the department, and it affects a student's progress.. Substitutions for 900 level courses can only be made by petition to the Cultural Section.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Intersectional Concentration Track ¹

There are no specific courses required; students choose courses in consultation with their advisor.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do

not appear in the Graduate School admissions application, and they will not appear on the transcript.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW-Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

With program approval students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW-Madison Special student. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

Progress criteria may be waived in special circumstances which must be stated in writing and approved by the appropriate section and signed by the department chair. Candidates not making satisfactory progress will be dropped from the program.

ADVISOR / COMMITTEE

Every graduate student will be assigned an advisor and a co-advisor. To ensure they are making satisfactory progress toward a degree, the Graduate School expects that students meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. Students can be suspended from the Graduate School if they do not have an advisor. An

advisor is a faculty member from the major department responsible for providing advice regarding graduate studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Approval of a dissertation topic no later than the semester following passage of preliminary examinations is required.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

We have a limited amount of graduate student support through teaching assistantships and fellowships. These are awarded competitively, and are

only awarded to those applicants who have all their materials in by the December 1 deadline.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates research problems, potentials, and limits with respect to theory, knowledge, or practice within in either biological, archaeological or cultural anthropology in seminar papers and preliminary exam.
2. Formulates ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge in one of the three subfields above in the preliminary exam and dissertation.
3. Carry out original anthropological research and produce publishable work in the field including the writing of a dissertation; have a command of one or more foreign languages suited to their research when appropriate; actively compete for major intra- and extramural research grants; and teach effectively as assistants to professors in the department.
4. Communicate complex ideas in a clear and understandable manner.
5. Follows ethical principles of the discipline including respect and sensitivity to host cultures and communities, inclusiveness and diversity, civility and collegiality, and zero tolerance for sexual harassment.

PEOPLE

Faculty: See Anthropology (<http://anthropology.wisc.edu/people/#faculty>).

ART

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Art, Doctoral Minor (p. 93)
- Art, M.A. (p. 94)
- Art, MFA (p. 99)

PEOPLE

Art Faculty: Professors Rosenberg (chair), Buisch, Clark, Connors, Damer, Escalante, Georgiades, Gralnick, Hitchcock, Loeser, Miller, Mladenoff, Scheer, Simpson, Solien; Associate Professors Abdu'allah, Hilyard, Jones, Stonehouse; Assistant Professors Arthur, Bakkom, Barry, Clancy, Fitzsimons, Grimm, Lee, Mitchell, Smith

Art Education Faculty: Professors Loeser (chair), Buisch, Clark, Damer, Escalante, Feren, Georgiades, Gralnick, Hitchcock, Marschalek, Myers,

Nelson, Scheer, Solien; Associate Professors Connors, Cridler, Hilyard, Marche, Miller, Mladenoff, Rosenberg, Sacaridiz, Simpson; Assistant Professors Bakkom, Fitzsimons, Hixson, Jones, McClure, Mitchell, Simpson, Smith, Stonehouse

ART, DOCTORAL MINOR

REQUIREMENTS

Doctoral students pursuing a minor in art must complete 9 credits of graduate-level coursework. Students must obtain faculty consent to enroll in intermediate- and advanced-level studio courses. Courses must be taken in the same media/discipline: painting and drawing, printmaking, book arts paper making, 4-D digital art—performance and video, ceramics, glass, sculpture, wood working, or metals. Approval by your major advisor must be obtained, and proposed courses must be approved by the art department graduate coordinator before coursework commences.

ART, M.A.

Note: The M.A. in Studio Art is offered as part of the Art MFA (p. 99) in Studio Art program. The Art M.A. degree is awarded during the fourth semester of the MFA program as acknowledgement of the completion of the MFA qualifying evaluation. Applicants who are interested in pursuing an M.A. in Studio Art must apply to the Art MFA program.

The graduate program in art currently includes approximately sixty graduate students and thirty one full-time faculty. The faculty is a distinguished group of professional artists who are active in the research and exhibition of their work and are also devoted teachers. An important strength of the graduate program lies in the breadth and diversity of its faculty. The program continues to grow and provides a wealth of artistic experiences for its students.

AREAS OF STUDY ¹

Printmaking

Relief Printing:

The relief printmaking laboratory allows for all forms of conventional relief printmaking and unique prints. Specialized curriculum is offered in traditional woodcut and linocut and can include research carried out with a CNC router using safe forms of raised surface printing. Graduate research and production will focus on the interdependence of conventional relief printing to monotype, monoprints, and installation. Paper making and book arts is encouraged for the graduate relief print maker. The relief laboratory is equipped with (2) Takach presses, Press, (1) AWT 5 x 8 ft screen print vacuum press and (1) Vandercool SP15. The relief studio laboratory is equipped with a large selection of rollers and brayers in a variety of size and durometer hardness.

Screen Printing:

The screen print (serigraphy) studio laboratory allows for all forms of conventional printmaking, varied editions, and unique prints. Specialized curriculum is offered in hand drawn, painterly, photo, and digital methods of constructing the screen print matrix. Graduate research and screen print production will focus on the full development of concepts and the interdependence of screen printing to 3-D objects, installation, and graduate interdisciplinary studio practice. The screen print (serigraphy) studio laboratory is equipped with (5) AWT 33 x 48 inch vacuum presses, (1) AWT 5 x 8 ft vacuum press, (1) 51 x 79 inch light exposure unit with vacuum. The studio also provides an oversized washout unit that measures 91 high x 74 wide 34 deep, (2) light tables for drawing (35 x 54 inches), an Epson 9600 printer for digital films, and a variety of screens, squeegees, and scoop coaters.

Etching/Intaglio:

The etching studio laboratory allows for all major acid etching methods along with other intaglio printmaking methods. Specialized curriculum is offered in the use of historic etching materials and digital working methods. The etching lab houses ferric and Dutch mordants for use with copper. Nitric acid for zinc, steel, and alternative painterly etching techniques is also available. The use of photopolymer intaglio plates and other non-acid techniques is presented. Curriculum includes multiple plate and viscosity color inking along with traditional and alternative grounds and plate construction.

The newly renovated etching studio laboratory has (2) Keuwanee scientific exhaust hoods (one 8-foot and one 6-foot hood); these hoods allow for a various size of etching. There are also (2) 21 x 24 inch vertical etching tanks. We primarily etch with copper plates in Dutch mordant and

ferric chloride, but provide nitric acid for experimental techniques such as spit bit aquatint and the use of zinc or steel plates. In the etching lab we have (2) Charles Brand; bed sizes are 62 x 39 and 52 x 32. There is also a ABL floor model Aquatint Box for plates up to 24 x 36. In addition, we have (5) large hot plates and (3) standing heated inking tables modelled after Crown Point Press studio and (2) light tables for drawing (35 x 54 inches).

Lithography:

Graduate-level lithography practice is founded in individualized studio practice and concept development while utilizing both stone and aluminum plates. Graduate-level lithography is expected to exhibit a high degree of craft and professionalism. All phases of lithography are stressed including direct drawing, image transfer, and photo-litho.

Digital Printmaking:

Courses in digital print-production techniques provide graphics students with the necessary skills to take original art or digital media to printed output. Courses also provide a thorough explanation of the various systems, software, and hardware fundamentals involved in the integration of digital forms with etching, lithography, screen printing, photography, book arts, and graphic design.

DPC Print productions/Digital Printmaking Center lab has (4) large printers: Canon imagePROGRAF PRO-6000, Canon image PROGRAF PRO-8400, and an Epson 7600; several Mac computers, laser engraver, (1) litho press, (1) etching press, (1) oversized offset litho press (set up for monotypes), (1) Charles Brand, screen stretcher system, and a polymer plate maker.

Graphic Design and Typography

The courses in graphic design emphasize the process of visual communication of ideas and information, with attention to aesthetic considerations, techniques, and methods. Course work in letterpress and computer typesetting introduce historical and visual aspects of formal typography and serve to facilitate experimentation with the communicative properties of type. Practical study in this area involves the design and production of books, broadsides, brochures, and posters; the development and application of logotypes and design formats; and utilizing the facilities of letterpress, computer technologies, and graphic reproduction techniques. In addition, a focus on book structures and artists' books is provided.

Photography

The photography area is situated within a rigorous multidisciplinary art program at one of the world's leading research institutions. Graduate students are able to conduct their advanced research strictly in photography or in combination with other disciplines offered within the Art Department. The low student-to-teacher ratio allows for a supportive atmosphere for individual artist development. Graduate students are given a personal studio with access to a private graduate darkroom for black & white and alternative processes. The general photography facilities include the following: darkroom, digital print lab, computer and lab w/scanning equipment, lighting studio, mat cutting, and dry mounting room.

Books, Letterpress, and Paper Making

Book arts is equipped with (2) Vandercooks, (1) proofing press, (2) Reliance Book Presses, (1) hot foil stamp, an expansive assortment of type and photopolymer plate making equipment. Book arts and typography curriculum is supported by the Kohler Art Library's Artist Book teaching collection and is also supported by the Annual Bernstein Book Arts Lecture, an annual visiting artist series. The UW-Madison

Silver Buckle Press Collection is now housed at Hamilton Wood Type and Printing Museum in Two Rivers, Wisconsin.

The courses in paper making are concerned with understanding the inherent materials used in the paper making processes as applied to traditional sheet forming, and as they relate to other contemporary concepts in book arts, sculpture, and drawing. The paper mill is equipped to make large and medium paper and is currently housed in the Art Lofts.

Drawing and Painting

Courses in painting emphasizes conceptual, formal, and material logic in the development of an individualized studio practice. This course of study promotes an understanding of contemporary and historical painting and drawing practice as well as the theoretical premises pertinent to furthering the student's intellectual and creative development.

Within the multidisciplinary department, the student is encouraged to access the broad variety of available facilities, equipment, and faculty fundamental to their continued artistic growth and specialization. Graduate students are provided with a private studio space.

Sculpture

The sculpture area offers a balance between techniques and concepts. Various forms of expression from object making, installation, and time-based media are encouraged. Issues of professional practice within the traditional art venues as well as in the larger public domain are addressed. Students are encouraged to develop their individual voice as artists, be part of a constructive community, and prepare to be creative citizens.

Facilities are available for most of the processes needed to produce sculpture: welding (including MIG and TIG), a foundry with a large alpine sculpture kiln for foundry molds and two gas melt furnaces, forging facilities, and shops for mixed media construction, digital fabrication, casting, and paint.

Woodworking and Furniture Design

The wood/furniture area explores the technical and conceptual possibilities of woodworking and furniture design. The curriculum is project-based and teaches a full range of skills from design development through drawing and model building as well as hand and machine-based construction skills. Graduate students receive a work space in one of two private bench rooms attached to the machine room and have 24-hour access to the studio facility. The graduate program stresses advanced visual research and is highly flexible. Graduate students produce both functional and nonfunctional work that represents a wide spectrum of aesthetic perspectives. The context of a very large and diverse research university allows for effective support and mentoring of varied and wide-ranging approaches to art making. Experimentation and collaboration with other areas of the Art Department and the larger university are actively encouraged.

The wood/furniture facilities offer a state-of-the-art laboratory for working with wood. However, the program promotes and endorses a far-reaching exploration of traditional and cutting-edge materials as well as newer digitally-driven approaches to design and fabrication. Graduate studio research includes extensive one-on-one interaction with faculty from all areas of the Art Department. Additional feedback is provided through group critiques by faculty, fellow students, guest critics, and visiting artists.

Ceramics

The ceramics area emphasizes a relationship between the field of ceramics and contemporary approaches to art making, theory, and criticism. The area offers a diverse approach to materials and processes,

emphasizing work that is both technically proficient and conceptually diverse. Through advanced study, students will gain an understanding of the technical concerns involved in ceramic production such as clay and glaze calculation and mold making, while simultaneously developing the critical and historical skills necessary to apply those processes to finished works. The ceramics studio offers a wide assortment of equipment including a fully stocked supply of raw materials for clay and glaze mixing, digital scales and test kilns, electric wheels, extruders, slab rollers, an industrial spray booth, slip casting equipment, and a variety of both updraft gas and computer-controlled electric kilns. Graduate students receive private studio space, and are strongly encouraged to experiment and collaborate with other areas of the Art Department and university. Graduate-level research includes extensive one-on-one interaction with faculty from all areas of the department, with additional feedback provided through group critiques by faculty, fellow students, guest critics, and visiting artists.

Glass

The UW-Madison Glass Lab has a storied history as the first collegiate glass program in the nation. Sixty-plus years later, UW-Madison students continue to innovate with glass, glass processes, and glass-based thinking. Through conceptual inquiry and rigorous technical instruction, the Glass Lab fosters an approach of thinking through material to generate meaning. We look to an expansive definition of glass that speaks to a broader understanding of the material in contemporary practice. Our facilities include a hot shop, cold shop, kiln room, flameworking station, and neon lab. Graduate students have access to private studio spaces, scholarship opportunities for intensive summer workshops, and a healthy roster of glass-specific visiting artists. The UW-Madison Glass Lab prides itself on being a strong community that serves to strengthen each individual's studio practice.

Metals

The metals area at UW-Madison has a long and distinguished history. The area is designed to challenge students to learn about the making of art through the specific materials, techniques, history, and cultural significance of the metalsmithing and jewelry fields. Technical proficiency is encouraged in the service of deep, socially significant investigation and research. Analytical and critical thinking, historical responsibility, and theoretical awareness are explored in a seminar setting with metals faculty. Visiting artists offer lectures, demonstrations, and individual critiques with grad students that round out this rigorous and comprehensive area.

The metals studios occupy six rooms on the seventh floor of the Mosse Humanities Building. With approximately 4,500 square feet of instructional and studio space, these well-equipped facilities include acetylene, ox/acetylene and propane torches, annealing booths, centrifugal and vacuum casting equipment, enameling kilns and enamels, flexible shafts machines at every work station, a large selection of anvils, hammers and stakes for raising, forming and forging, hydraulic die forming, a gas forge, electroforming, manual and electric rolling mills, sand blaster, band and jig saws, lathes, milling machines and drill presses, a dedicated polishing room, spray etchers, sheet metal working equipment, mold making equipment, and a full complement of hand tools. The resource center includes a computer, digital projector, photo equipment, and metals library.

4-D

Courses in non-static forms include video and performance art. Students have access to media facilities throughout the university and are encouraged to participate in classes in non-static forms and to experiment with new media. Courses stress methods of exhibition,

documentation, and distribution that are unique to the non-static media. Both individual and collaborative projects are possible, and frequent opportunities are available for students to exhibit or perform.

Digital Media

The Digital Media area provides classes and faculty which allow graduate students to expand their use of digital media tools in the context of their own fine art practice. Classes offered cover a wide range of digital forms including digital imaging, web authoring, video and audio manipulation, 2-D animation, 3-D modeling and animation. All classes provide a balance of technical information on the relevant media and coverage of the historical and conceptual implications of their use in a fine art context. Classes are constantly being updated as digital media tools evolve. Students are encouraged to consider digital tools as part of an integrated art practice that is concept and content driven rather than media specific. As well as supporting students whose art work is presented in digital formats, the Digital Media area provides opportunities for artists working in all media to incorporate new methodologies into their practice. In the department and campus wide, both Mac- and PC-based facilities are available with specialized facilities provided for 3-D & 2-D animation, video editing, digital fabrication, and large-format 2-D printing.

- ¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

ADMISSIONS

This master's program is offered for work leading to the MFA. Students may not apply directly for the master's, and should instead see the admissions information for the MFA. (<https://guide.wisc.edu/graduate/art/art-mfa/>)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

FUNDING FOR MFA GRADUATES IN STUDIO ART

The Art Department awards roughly \$1.3 million annually to fund graduate student education. Funding comes in the form of teaching assistantships (TA and TA-IS), project assistantships (PA), fellowships, and scholarship funding packages. TA, PA, and fellowship awards provide full tuition remission, living stipends, and medical benefits. Scholarships range in awarded amounts and are used to offset annual tuition costs. Students apply every year for funding and are awarded comprehensive funding packages based on their continued success in the program. Funding is based on sustained academic and artistic progress and satisfactory performance toward the completion of the degree. For up-to-date application instructions, see Graduate Funding (<https://art.wisc.edu/graduate/graduate-funding/>) on the Art Department website.

FUNDING THROUGH THE ART DEPARTMENT

Art Department Teaching Assistantships (TA): Continuing students apply for TA positions in November, through the Annual Funding Application. Incoming students will apply for TA positions within the department's Admissions Application. Because of the demanding responsibilities of these positions, the department prioritizes students moving into their second and third year of the program. All continuing students are offered an interview for TA positions. Students completing their third year of the program are not eligible to teach a fourth year. Qualified incoming applicants will be considered for an interview as class sections become available. Students may hold a TA position for two years **only**. An appointment as a TA includes remission of all tuition (excluding segregated fees or extra course fees) and health insurance coverage for the duration of the appointment. Appointments usually require teaching two studio sections or three discussion sections per semester.

Art Department Project Assistantships and Teaching

Assistant-Instructional Staff: Project assistantship (PA) and teaching assistant-instructional staff (TA-IS) positions are available within and outside of the department. These are limited-term appointments that pay a salary and provide benefits for studio, lab, or research work. TA-IS applications are included in the Annual Funding Application provided to continuing students in November. Incoming students will apply for TA-IS positions within the department's Admissions Application. An appointment as a TA-IS includes remission of all tuition (excluding segregated fees or extra course fees) and health insurance coverage for the duration of the appointment.

PA positions are offered to qualified students, both incoming and continuing students, by direct selection of faculty members. There is no separate PA application. Eligible incoming and continuing students who have submitted either their Admittance Application or the department's Annual Funding Application will be considered for PA appointments. In past years, MFA students have been successful in locating PA, TA, and TA-IS positions in other departments, primarily in positions requiring experience in art, design, or writing backgrounds. PA appointments can range from one semester to the full calendar year and provide full tuition remission (excluding segregated fees and extra course fees) and health coverage for the duration of the appointment.

Fellowships: Fellowships are awards that enable graduate students to pursue their degrees full-time. The steering committee nominates students for fellowships. The Graduate School has general fellowship information on its website (<https://grad.wisc.edu/funding/>). These fellowships are administered through the Graduate School.

OTHER OPTIONS TO FUND YOUR EDUCATION

Office of Student Financial Aid (<https://financialaid.wisc.edu/>)
333 E. Campus Mall #9701

Financial aid information for graduate student grants, employment appeals, and general loans is available at the Office of Student Financial Aid. Please note that the Art Department does not have anything to do with student financial aid awards.

Work Study

Work-study is awarded through student financial aid. Work-study positions are listed by the Office of Student Financial Aid. Many professors in the Art Department hire work-study students to assist them in lab courses.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	32 credits
Minimum Residence Credit Requirement	23 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (16 credits out of 32 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide (https://registrar.wisc.edu/course-guide/)).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	No other specific grade requirements.
Assessments and Examinations	At the end of the fourth semester, M.A. candidates will have an oral and written review of their creative work conducted by a committee of three tenure-track professors and an optional fourth, nonsigning member.
Language Requirements	No language requirements.

COURSES REQUIRED

Code	Title	Credits
Art		
ART 700	Introduction to Graduate Studies in Art	3
ART 908	Seminar-Art	3
ART 508	Colloquium in Art	1
Art History (Students must take two Art History courses that are >300 level)		6
Outside Academic Elective >300 level (This course cannot be a studio course and must be taken outside of the Art Department)		3
16 additional credits chosen in consultation with advisor		16

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).

3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

ADVISOR / COMMITTEE

All students are required to conduct a yearly progress report meeting with their major professor. Committee is formed by the end of the student's third semester for M.A. qualifiers in their fourth semester.

CREDITS PER TERM ALLOWED

15 credits per semester

TIME CONSTRAINTS

The M.A. show of creative work must be completed by the fourth semester of the candidate's studies.

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeeabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Any student who feels that they have been treated unfairly by a faculty or staff member has the right to complain about the treatment and to receive a prompt hearing of the grievance, following these grievance procedures. The complaint may concern course grades, classroom

treatment, program admission, or other issues. To insure a prompt and fair hearing of any complaint, and to protect both the rights of the student and the person at whom the complaint is addressed, the procedures below are used in the School of Education.

The person whom the complaint is directed against must be an employee of the School of Education. Any student or potential student may use these procedures unless the complaint is covered by other campus rules or contracts. The following steps are available within the School of Education when a student has a grievance:

1. The student should first talk with the person against whom the grievance is directed. Most issues can be settled at this level. If the complaint is directed against a teaching assistant, and the student is not satisfied, the next step would be to talk to the TA's supervisor, who is usually the course professor. If the complaint is not resolved satisfactorily, the student may continue to step 2.
2. If the complaint does not involve an academic department, the procedure outlined in Step 4 below should be followed. If the complaint involves an academic department, the student should contact the chair of the department. The chair will attempt to resolve the problem informally. If this cannot be done to the student's satisfaction, the student may submit the grievance to the chair in writing. This must be done within 60 calendar days of the alleged unfair treatment.
3. On receipt of a written complaint, the chair will refer the matter to a departmental committee, which will obtain a written response from the person at whom the complaint is directed. This response shall be shared with the person filing the grievance. The chair will provide a timely written decision to the student on the action taken by the committee.
4. If either party is not satisfied with the decision of the department, they have five working days from receipt of the decision to contact the dean's office (at the number below), indicating the intention to appeal. If the complaint does not involve an academic department in the school, the student must contact the dean's office within 60 calendar days of the alleged unfair treatment.
5. In either case, there will be an attempt to resolve the issue informally by the associate dean. If this cannot be done, the complaint can be filed in writing with the dean's office. This must be done within 10 working days of the time the appealing party was notified that informal resolution was unsuccessful.
6. On receipt of such a written complaint, the associate dean will convene a subcommittee of the school's Equity & Diversity Committee. This subcommittee may ask for additional information from the parties involved and may hold a hearing at which both parties will be asked to speak separately. The subcommittee will then make a written recommendation to the dean of the School of Education who will render a decision. Unless a longer time is negotiated, this written decision shall be made within 20 working days from the date when the grievance was filed with the dean's office.

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race,

color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, UW–System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office of Compliance (<https://compliance.wisc.edu/>), 361 Bascom Hall, 608-265-6018, uwcomplianceoffice@wisc.edu.

OTHER

In the three-year program of study, students may receive both M.A. and MFA degrees.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate a critical awareness of the relationship of artwork to its social, cultural, historical, theoretical and contemporary contexts.
2. Develop, hone and clearly articulate artistic goals, manifested in a substantial body of artwork and communicated through oral presentations and professional art writing.

ACCREDITATION

ACCREDITATION

National Association of Schools of Art and Design (<https://nasad.arts-accredit.org/>)

Accreditation status: Accredited. Next accreditation review: 2025–2026.

ART, MFA

The Art Department at the University of Wisconsin–Madison offers a wide selection of areas of study, and the MFA program encourages an inter-disciplinary approach to art making.

The graduate program in art currently includes approximately sixty graduate students and thirty-one full-time faculty. The faculty is a distinguished group of professional artists who are active in the research and exhibition of their work and are also devoted teachers. An important strength of the graduate program lies in the breadth and diversity of its faculty. The program continues to grow and provides a wealth of artistic experiences for its students.

AREAS OF STUDY ¹

Printmaking

Relief Printing:

The relief print studio laboratory allows for all forms of conventional relief printmaking and unique prints. Specialized curriculum is offered in traditional woodcut and linocut, and can include research carried out with a CNC router using safe forms of raised surface printing. Graduate research and production will focus on the interdependence of conventional relief printing to monotype, monoprints, and installation. Paper making and book arts is encouraged for the graduate relief print maker. The relief lab is equipped with (2) Takach presses, Press, (1) AWT 5 x 8 ft screen print vacuum press, and (1) Vandercool SP15. The relief studio laboratory is equipped with a large selection of rollers and brayers in a variety of size and durometer hardness.

Screen Printing:

The screen print (serigraphy) studio laboratory allows for all forms of conventional printmaking, varied editions, and unique prints. Specialized curriculum is offered in hand-drawn, painterly, photo, and digital methods of constructing the screen print matrix. Graduate research and screen print production will focus on the full development of concepts and the interdependence of screen printing to 3-Dimensional objects, installation, and graduate interdisciplinary studio practice. The screen print (serigraphy) studio laboratory is equipped with (5) AWT 33 x 48 inch vacuum presses, (1) AWT 5 x 8 ft vacuum press, (1) 51 x 79 inch light exposure unit with vacuum. The studio also provides an oversized washout unit that measures 91 high x 74 wide x 34 deep, (2) light tables for drawing (35 x 54 inches), an Epson 9600 printer for digital films, and a variety of screens, squeegees, and scoop coaters.

Etching/Intaglio:

The etching studio laboratory allows for all major acid etching methods along with other intaglio printmaking methods. Specialized curriculum is offered in the use of historic etching materials and digital working methods. The etching lab houses ferric and Dutch mordants for use with copper. Nitric acid for zinc, steel, and alternative painterly etching techniques is also available. The use of photopolymer intaglio plates and other non-acid techniques is presented. Curriculum includes multiple plate and viscosity color inking along with traditional and alternative grounds and plate construction.

The newly renovated etching studio laboratory has (2) Keuwanee scientific exhaust hoods (one 8-foot and one 6-foot hood); these hoods allow for a various size of etching. There are also (2) 21 x 24 inch vertical etching tanks. We primarily etch with copper plates in Dutch mordant and ferric chloride, but provide nitric acid for experimental techniques such as spit bit aquatint and the use of zinc or steel plates. In the etching lab we have (2) Charles Brand; bed sizes are 62 x 39 and 52 x 32. There is also a ABL floor model Aquatint Box for plates up to 24 x 36. In addition, we have (5) large hot plates and (3) standing heated inking tables modelled after Crown Point Press studio and (2) light tables for drawing (35 x 54 inches).

Lithography:

Graduate-level lithography practice is founded in individualized studio practice and concept development while utilizing both stone and aluminum plates. Graduate-level lithography is expected to exhibit a high degree of craft and professionalism. All phases of lithography are stressed including direct drawing, image transfer, and photo-litho.

Digital Printmaking:

Courses in digital print-production techniques provide graphics students with the necessary skills to take original art or digital media to printed output. Courses also provide a thorough explanation of the various systems, software, and hardware fundamentals involved in the integration of digital forms with etching, lithography, screen printing, photography, book arts, and graphic design.

DPC Print productions/Digital Printmaking Center lab has (4) large printers: Canon imagePROGRAF PRO-6000, Canon image PROGRAF PRO-8400, and an Epson 7600; several Mac computers, laser engraver, (1) litho press, (1) etching press, (1) oversized offset litho press (set up for monotypes), (1) Charles Brand, screen stretcher system, and a polymer plate maker.

Graphic Design and Typography

The courses in graphic design emphasize the process of visual communication of ideas and information, with attention to aesthetic considerations, techniques, and methods. Course work in letterpress and computer typesetting introduce historical and visual aspects of formal typography and serve to facilitate experimentation with the communicative properties of type. Practical study in this area involves the design and production of books, broadsides, brochures, and posters; the development and application of logotypes and design formats; and utilizing the facilities of letterpress, computer technologies, and graphic reproduction techniques. In addition, a focus on book structures and artists' books is provided.

Photography

The photography area is situated within a rigorous multidisciplinary art program at one of the world's leading research institutions. Graduate students are able to conduct their advanced research strictly in photography or in combination with other disciplines offered within the Art Department. The low student-to-teacher ratio allows for a supportive

atmosphere for individual artist development. Graduate students are given a personal studio with access to a private graduate darkroom for black & white and alternative processes. The general photography facilities include the following: darkroom, digital print lab, computer and lab w/scanning equipment, lighting studio, mat cutting and dry mounting room.

Books, Letterpress, and Paper Making

Book arts is equipped with (2) Vandercooks, (1) proofing press, (2) Reliance Book Presses, (1) hot foil stamp, an expansive assortment of type, and photopolymer plate making equipment. Book arts and typography curriculum is supported by the Kohler Art Library's Artist Book teaching collection and is also supported by the Annual Bernstein Book Arts Lecture, an annual visiting artist series. The UW-Madison Silver Buckle Press Collection is now housed at Hamilton Wood Type and Printing Museum in Two Rivers, Wisconsin.

The courses in paper making are concerned with understanding the inherent materials used in the paper making processes as applied to traditional sheet forming and as they relate to other contemporary concepts in book arts, sculpture, and drawing. The paper mill is equipped to make large and medium paper and is currently housed in the Art Lofts.

Drawing and Painting

Courses in painting emphasizes conceptual, formal, and material logic in the development of an individualized studio practice. This course of study promotes an understanding of contemporary and historical painting and drawing practice as well as the theoretical premises pertinent to furthering the student's intellectual and creative development.

Within the multidisciplinary department, the student is encouraged to access the broad variety of available facilities, equipment, and faculty fundamental to their continued artistic growth and specialization. Graduate students are provided with a private studio space.

Sculpture

The sculpture area offers a balance between techniques and concepts. Various forms of expression from object making, installation, and time-based media are encouraged. Issues of professional practice within the traditional art venues as well as in the larger public domain are addressed. Students are encouraged to develop their individual voice as artists, be part of a constructive community, and prepare to be creative citizens.

Facilities are available for most of the processes needed to produce sculpture: welding (including MIG and TIG), a foundry with a large alpine sculpture kiln for foundry molds and two gas melt furnaces, forging facilities, and shops for mixed media construction, digital fabrication, casting and paint.

Woodworking and Furniture Design

The wood/furniture area explores the technical and conceptual possibilities of woodworking and furniture design. The curriculum is project-based and teaches a full range of skills from design development through drawing and model building, as well as hand and machine-based construction skills. Graduate students receive a work space in one of two private bench rooms attached to the machine room and have 24-hour access to the studio facility. The graduate program stresses advanced visual research and is highly flexible. Graduate students produce both functional and nonfunctional work that represents a wide spectrum of aesthetic perspectives. The context of a very large and diverse research university allows for effective support and mentoring of varied and wide-ranging approaches to art making. Experimentation and collaboration

with other areas of the Art Department and the larger university are actively encouraged.

The wood/furniture facilities offer a state-of-the-art laboratory for working with wood. However, the program promotes and endorses a far-reaching exploration of traditional and cutting-edge materials as well as newer digitally driven approaches to design and fabrication. Graduate studio research includes extensive one-on-one interaction with faculty from all areas of the Art Department. Additional feedback is provided through group critiques by faculty, fellow students, guest critics, and visiting artists.

Ceramics

The ceramics area emphasizes a relationship between the field of ceramics and contemporary approaches to art making, theory, and criticism. The area offers a diverse approach to materials and processes, emphasizing work that is both technically proficient and conceptually diverse. Through advanced study, students will gain an understanding of the technical concerns involved in ceramic production such as clay and glaze calculation and mold making, while simultaneously developing the critical and historical skills necessary to apply those processes to finished works. The ceramics studio offers a wide assortment of equipment including a fully stocked supply of raw materials for clay and glaze mixing, digital scales and test kilns, electric wheels, extruders, slab rollers, an industrial spray booth, slip casting equipment, and a variety of both updraft gas and computer-controlled electric kilns. Graduate students receive private studio space, and are strongly encouraged to experiment and collaborate with other areas of the Art Department and university. Graduate-level research includes extensive one-on-one interaction with faculty from all areas of the department, with additional feedback provided through group critiques by faculty, fellow students, guest critics, and visiting artists.

Glass

The UW–Madison Glass Lab has a storied history as the first collegiate glass program in the nation. Sixty-plus years later, UW–Madison students continue to innovate with glass, glass processes, and glass-based thinking. Through conceptual inquiry and rigorous technical instruction, the Glass Lab fosters an approach of thinking through material to generate meaning. We look to an expansive definition of glass that speaks to a broader understanding of the material in contemporary practice. Our facilities include a hot shop, cold shop, kiln room, flameworking station, and neon lab. Graduate students have access to private studio spaces, scholarship opportunities for intensive summer workshops, and a healthy roster of glass-specific visiting artists. The UW–Madison Glass Lab prides itself on being a strong community that serves to strengthen each individual's studio practice.

Metals

The metals area at UW–Madison has a long and distinguished history. The area is designed to challenge students to learn about the making of art through the specific materials, techniques, history, and cultural significance of the metalsmithing and jewelry fields. Technical proficiency is encouraged in the service of deep, socially significant investigation and research. Analytical and critical thinking, historical responsibility, and theoretical awareness are explored in a seminar setting with metals faculty. Visiting artists offer lectures, demonstrations, and individual critiques with grad students that round out this rigorous and comprehensive area.

The metals studios occupy six rooms on the seventh floor of the Mosse Humanities Building. With approximately 4,500 square feet of instructional and studio space, these well-equipped facilities include

acetylene, ox/acetylene and propane torches, annealing booths, centrifugal and vacuum casting equipment, enameling kilns and enamels, flexible shafts machines at every work station, a large selection of anvils, hammers and stakes for raising, forming and forging, hydraulic die forming, a gas forge, electroforming, manual and electric rolling mills, sand blaster, band and jig saws, lathes, milling machines and drill presses, a dedicated polishing room, spray etchers, sheet metal working equipment, mold making equipment, and a full complement of hand tools. The resource center includes a computer, digital projector, photo equipment, and metals library.

4-D

Courses in non-static forms include video and performance art. Students have access to media facilities throughout the university and are encouraged to participate in classes in non-static forms and to experiment with new media. Courses stress methods of exhibition, documentation, and distribution that are unique to the non-static media. Both individual and collaborative projects are possible, and frequent opportunities are available for students to exhibit or perform.

Digital Media

The Digital Media area provides classes and faculty which allow graduate students to expand their use of digital media tools in the context of their own fine art practice. Classes offered cover a wide range of digital forms including digital imaging, web authoring, video and audio manipulation, 2-D animation, and 3-D modeling and animation. All classes provide a balance of technical information on the relevant media and coverage of the historical and conceptual implications of their use in a fine art context. Classes are constantly being updated as digital media tools evolve. Students are encouraged to consider digital tools as part of an integrated art practice that is concept and content driven rather than media specific. As well as supporting students whose art work is presented in digital formats, the Digital Media area provides opportunities for artists working in all media to incorporate new methodologies into their practice. In the department and campus wide, both Mac- and PC-based facilities are available with specialized facilities provided for 3-D and 2-D animation, video editing, digital fabrication, and large-format 2-D printing.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s).** Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 6
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.

GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

For up-to-date application instructions, see Graduate Application (<https://art.wisc.edu/graduate/graduate-application/>) on the Art Department website.

To be admitted as a graduate student with full standing, an applicant must meet the minimum Graduate School requirements. The Graduate Record Exam (GRE) is not required for admission.

Submit an online application through the UW–Madison Graduate School and pay the application fee. The application can be found at the UW–Madison Graduate School Application (<https://apply.grad.wisc.edu/Account/Login/?ReturnUrl=%2f>) portal.

It will take 24 hours for your Graduate School Electronic Application to process and appear in our system. Generally, the link to the SlideRoom application is sent the following day. Once you receive a confirmation e-mail, you will be able to register with SlideRoom, log in, and complete the Art Department's supplemental application. You will be sent an email with a link to the MFA admissions application page (SlideRoom). After you register your account you will apply to **Program 1 –Admittance Application NEW MFA APPLICANTS**.

The SlideRoom application will walk you through the process of uploading your portfolio, as well as applying for funding opportunities through the Art Department. The department offers a number of teaching assistantships, both classroom and support positions along with scholarships to qualified applicants. You will also be asked to upload a portfolio of 20 images of your recent art work. Your portfolio must be submitted through SlideRoom, mailed portfolios will not be reviewed.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

FUNDING FOR MFA GRADUATES IN STUDIO ART

The Art Department awards roughly \$1.3 million annually to fund graduate student education. Funding comes in the form of teaching assistantships (TA and TA–IS), project assistantships (PA), fellowships, and scholarship funding packages. TA, PA, and fellowship awards provide

full tuition remission, living stipends, and medical benefits. Scholarships range in awarded amounts and are used to offset annual tuition costs. Students apply every year for funding and are awarded comprehensive funding packages based on their continued success in the program. Funding is based on sustained academic and artistic progress and satisfactory performance toward the completion of the degree. For up-to-date application instructions, see Graduate Funding (<https://art.wisc.edu/graduate/graduate-funding/>) on the Art Department website.

FUNDING THROUGH THE ART DEPARTMENT

Art Department Teaching Assistantships: Continuing students apply for teaching assistantship (TA) positions in November, through the Annual Funding Application. Incoming students will apply for TA positions within the department's Admissions Application. Because of the demanding responsibilities of these positions, the department prioritizes students moving into their second and third year of the program. All continuing students are offered an interview for TA positions. Students completing their third year of the program are not eligible to teach a fourth year. Qualified incoming applicants will be considered for an interview as class sections become available. Students may hold a TA position for two years **only**. An appointment as a TA includes remission of all tuition (excluding segregated fees or extra course fees) and health insurance coverage for the duration of the appointment. Appointments usually require teaching two studio sections or three discussion sections per semester.

Art Department Project Assistantships and Teaching

Assistant–Instructional Staff: Project assistantship (PA) and teaching assistant–Instructional Staff (TA–IS) positions are available within and outside of the department. These are limited-term appointments that pay a salary and provide benefits for studio, lab, or research work. TA–IS applications are included in the Annual Funding Application provided to continuing students in November. Incoming students will apply for TA–IS positions within the department's Admissions Application. An appointment as a TA–IS includes remission of all tuition (excluding segregated fees or extra course fees) and health insurance coverage for the duration of the appointment.

PA positions are offered to qualified students, both incoming and continuing students by direct selection of faculty members. There is no separate PA application. Eligible incoming and continuing students who have submitted either their Admittance Application or the department's Annual Funding Application will be considered for PA appointments. In past years, MFA students have been successful in locating PA, TA, and TA–IS positions in other departments, primarily in positions requiring experience in art, design, or writing backgrounds. PA appointments can range from one semester to the full calendar year and provide full tuition remission (excluding segregated fees and extra course fees) and health coverage for the duration of the appointment.

Fellowships: Fellowships are awards that enable graduate students to pursue their degrees full-time. The steering committee nominates students for fellowships. The Graduate School has general fellowship information on its website (<http://grad.wisc.edu/funding/>). These fellowships are administered through the Graduate School.

OTHER OPTIONS TO FUND YOUR EDUCATION

Office of Student Financial Aid (<https://financialaid.wisc.edu/>)
333 East Campus Mall #9701

Financial Aid information for graduate student grants, employment appeals, and general loans is available at the Office of Student Financial

Aid. Please note that the Art Department does not have anything to do with student financial aid awards.

Work-Study

Work-study is awarded through student financial aid. Work-study positions are listed by the Office of Student Financial Aid. Many professors in the Art Department hire work study students to assist them in lab courses.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	60 credits
Minimum Residence Credit Requirement	51 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (30 credits out of 60 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide) (https://registrar.wisc.edu/course-guide/).
Overall Graduate GPA Requirement	3.00 GPA required.

Other Grade Requirements No other specific grade requirements.

Assessments and Examinations MFA QUALIFIER
Students will host a solo exhibition of their work during the fourth semester of the program. This exhibition serves as an opportunity for the student to meet with their committee to discuss their research as it relates to contemporary studio practice and content, historical context and formal issues. The qualifier functions as a critique in which students can expect to defend the work and field specific questions asked by their committee. After the hour long meeting the committee will give the student a list of questions that the student will write responses to. Two weeks following the exhibition the student submits their written responses for evaluation. The committee will then approve the student to advance in the program.

FINAL MFA EXHIBITION

After the successful completion of the qualifier, students will host a solo exhibition of their work. This exhibition takes place during the sixth semester of the program. The students' committee will come together one time to discuss the candidates' masters body of work along with the decisions the student made in presenting both their work and research. At this meeting students should expect to defend not only their practice, but be able to articulate evidence of their academic research as it relates to the exhibited works. After the hour long meeting the committee will convene and make their recommendations for the conferring of the MFA degree.

Language Requirements No language requirements.

COURSES REQUIRED

Code	Title	Credits
Art		
ART 700	Introduction to Graduate Studies in Art	3
ART 908	Seminar-Art (Students must take two Art Seminar courses)	6
ART 508	Colloquium in Art	1
Art History (Students must take two Art History courses that are >300 level)		6
Outside Academic Elective >300 level (This course cannot be a studio course and must be taken outside of the Art Department)		3
Total Credits		19

Additional Coursework

(Graduate students work with their graduate committee chair to structure coursework and develop research outside of the programs' 19 required credits adding up to the required 60 credits). Below is a partial list of additional coursework students may take while in the program.

Code	Title	Credits
Art Studio		
ART 722	Graduate Painting I	2-3
ART 726	Graduate Intaglio Printmaking I	2-3

ART 736	Graduate Graphics Workshop I	2-6
ART 826	Graduate Intaglio Printmaking II	2-3
ART 912	Advanced Research-Drawing	1-4
ART 914	Advanced Research-Sculpture	1-4
ART 922	Advanced Research-Painting	1-4
ART 924	Advanced Research-Ceramics	1-4
ART 944	Advanced Research-Art Metal	1-4
ART 996	Advanced Research-Graphics	1-4
ART 999	Independent Study	1-4
ART 309	Digital Art and Code	4
ART 316	Lithography	4
ART 328	The Computer in the Visual Arts	4
ART 334	Wood Working	3-4

earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program)

ADVISOR / COMMITTEE

All students are required to conduct a yearly progress report meeting with the chair and members of their committee. The committee will meet at the end of the student's sixth semester to review work for the MFA degree.

CREDITS PER TERM ALLOWED

15 credits per semester

TIME CONSTRAINTS

The MFA show of creative work must be completed by the sixth semester of the candidate's studies.

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework

- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Any student who feels that they have been treated unfairly by a faculty or staff member has the right to complain about the treatment and to receive a prompt hearing of the grievance, following these grievance procedures. The complaint may concern course grades, classroom treatment, program admission, or other issues. To insure a prompt and fair hearing of any complaint, and to protect both the rights of the student and the person at whom the complaint is addressed, the procedures below are used in the School of Education.

The person whom the complaint is directed against must be an employee of the School of Education. Any student or potential student may use these procedures unless the complaint is covered by other campus rules or contracts. The following steps are available within the School of Education when a student has a grievance:

1. The student should first talk with the person against whom the grievance is directed. Most issues can be settled at this level. If the complaint is directed against a teaching assistant, and the student is not satisfied, the next step would be to talk to the TA's supervisor, who is usually the course professor. If the complaint is not resolved satisfactorily, the student may continue to step 2.
2. If the complaint does not involve an academic department, the procedure outlined in Step 4 below should be followed. If the complaint involves an academic department, the student should contact the chair of the department. The chair will attempt to resolve the problem informally. If this cannot be done to the student's satisfaction, the student may submit the grievance to the chair in writing. This must be done within 60 calendar days of the alleged unfair treatment.
3. On receipt of a written complaint, the chair will refer the matter to a departmental committee, which will obtain a written response from the person at whom the complaint is directed. This response shall be shared with the person filing the grievance. The chair will provide a timely written decision to the student on the action taken by the committee.
4. If either party is not satisfied with the decision of the department, they have five working days from receipt of the decision to contact the dean's office (at the number below), indicating the intention to appeal. If the complaint does not involve an academic department

in the school, the student must contact the dean's office within 60 calendar days of the alleged unfair treatment.

5. In either case, there will be an attempt to resolve the issue informally by the associate dean. If this cannot be done, the complaint can be filed in writing with the dean's office. This must be done within 10 working days of the time the appealing party was notified that informal resolution was unsuccessful.
6. On receipt of such a written complaint, the associate dean will convene a subcommittee of the school's Equity & Diversity Committee. This subcommittee may ask for additional information from the parties involved and may hold a hearing at which both parties will be asked to speak separately. The subcommittee will then make a written recommendation to the dean of the School of Education who will render a decision. Unless a longer time is negotiated, this written decision shall be made within 20 working days from the date when the grievance was filed with the dean's office.

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, UW-System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office of Compliance (<https://compliance.wisc.edu/>), 361 Bascom Hall, 608-265-6018, uwcomplianceoffice@wisc.edu.

OTHER

In the three-year program of study, students may receive both M.A. and MFA degrees.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate a critical awareness of the relationship of artwork to its social, cultural, historical, theoretical and contemporary contexts.
2. Develop, hone and clearly articulate artistic goals, manifested in a substantial body of artwork and communicated through oral presentations and professional art writing.
3. Engage actively in a wider visual arts culture and community (local, regional, national, or international) and present exhibition/s in a public gallery or other cultural venues.

Accreditation status: Accredited. Next accreditation review: 2025–2026.

ART HISTORY

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Art History, Doctoral Minor (p. 106)
- Art History, M.A. (p. 106)
- Art History, Ph.D. (p. 109)

- Visual Cultures, Doctoral Minor (p. 114)
- Visual Cultures, Graduate/Professional Certificate (p. 115)

PEOPLE

Faculty: Professors Andrzejewski, Cahill, Casid, Chopra, Dale, Drewal, Marshall, Martin, Phillips, Rosenblum (chair); Associate Professors Li, Phillips-Court; Assistant Professors Nelson, Pruitt

ART HISTORY, DOCTORAL MINOR

The Doctoral Minor in Art History is intended for students outside of the department to gain familiarity with the discipline generally while also honing an area of specialization.

REQUIREMENTS

The minimum number of credits is 9, and may be more depending on the student's focus and particular research path.

1. All students pursuing the minor are required to take ART HIST 701 Practicum in Art History: Bibliography, Historiography, Methods (Note: With approval, a seminar in theory and method can be substituted for ART HIST 701)
2. Selection of the remaining two courses in Art History should be made with a particular emphasis in mind (Examples of an "emphasis" might include specialization in time period, geography, medium, or theory/methodology)
3. Coursework must be graded courses numbered 600 or above (if a student wants to take a 300- or 400-level course the student must work with the graduate coordinator and professor to set up a grad-level section for the course); no audits or pass/fail
4. Maximum 3 credits of independent study (e.g., 699, 799, 899, 999); research and thesis cannot be used to satisfy the minor (e.g., 790, 890, 990)
5. After the courses have been completed, bring the major department's Minor Agreement Form (<https://uwmadison.box.com/s/za9ifyn1gshzrwrtvjlp12v3vh9cbds/>) to the art history graduate coordinator, department chair, or graduate administrator and have it signed.
6. Return the Minor Agreement Form to the major department to prepare any requisite warrants. A copy will be kept in the art history department.

See the program website (<https://arthistory.wisc.edu/academics/grad/programs/minors/mnrequirements/>) for more information.

PEOPLE

Professors Andrzejewski, Cahill, Casid, Chopra, Dale, Drewal, Marshall, Martin, Phillips, Rosenblum (chair); Associate Professors Li, Phillips-Court; Assistant Professors Nelson, Pruitt

ART HISTORY, M.A.

The Department of Art History offers programs leading to the master of arts and the doctor of philosophy in art history. Our faculty includes

specialists in, to name a few: African and African Diaspora art; American art and architecture; American material culture; contemporary art and theory; Chinese art; curatorial studies; early modern European art; Islamic art and architecture; Japanese art; Medieval European and Byzantine art; print culture; photography, film, and video; vernacular architecture; Victorian art and material culture; and visual studies and critical theory. The department encourages the study of the global history of art, and material and visual culture while investigating works in all media from a wide range of periods and a variety of world cultures.

Students enjoy close interaction with their mentors and profit from superb resources for interdisciplinary research. Faculty members have international reputations in their specialties, regularly receive prestigious awards, lecture widely, and serve on major professional boards. Graduates of the department teach at the post-secondary level or pursue careers in museum and curatorial professions, private galleries and auction houses, library or archival work, architecture and historical preservation, and conservation.

The department is housed in the Conrad A. Elvehjem Building with the Chazen Museum of Art (<http://www.chazen.wisc.edu/>), which has a broad historical collection with several areas of particular strength, an active acquisitions program, and facilities to host major traveling exhibitions and exhibition courses. Graduate students use these collections for research and publishing projects. They may also have the opportunity to work on exhibitions in special classes or as project assistants. The building is also home to the Kohler Art Library, which contains an excellent collection of published materials and full range of periodicals. The department possesses a large image collection.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) of the Graduate School as well as the program(s). Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

While students may pursue a stand-alone M.A., those who wish to pursue a Ph.D. should apply directly to that program. Admission to either program is offered to applicants who have an outstanding undergraduate record of academic achievement. The successful applicant typically presents both a compelling statement of purpose for graduate studies and an advanced research paper. To be competitive in some subfields, applicants should have training in at least one foreign language. Applicants are encouraged to contact prospective faculty advisors for more details. Non-native English speakers must present TOEFL or IELTS scores.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Financial aid is normally reserved for students in the Ph.D. program. The department awards a small number of fellowships for an academic year or a semester's support at different stages in the graduate career. The department awards the Margaret Davison Shorger Fellowship for the study of Italian art, the Charles C. Killin Wisconsin Distinguished Graduate Fellowship in East Asian Art, and the Chipstone/James Watrous Wisconsin Distinguished Graduate Fellowship in American Material Culture. Research travel is also supported by the Shirley L. and Dr. William Fritz Mueller Art History Graduate Student Fund and the Ray Reider Golden Art History Fund, and the Joan Mirviss Fund for Japanese art. The department awards travel grants for students delivering papers at major conferences and annually appoints five to six graduate students as teaching or project assistants. Individual faculty may also offer one- or two-semester project assistantships in connection with specific research projects. In addition, the department nominates candidates for fellowships administered outside the department and the university.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum 30 credits

Credit

Requirement

Minimum 24 credits

Residence

Credit

Requirement

Minimum Graduate Coursework Requirement Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (<https://registrar.wisc.edu/course-guide> (<https://registrar.wisc.edu/course-guide/>)).

Overall 3.00 GPA required.

Graduate GPA Requirement

Other Grade Requirements No other grade requirements.

Assessments and Examinations No formal examination required. There is an M.A. thesis.

Language Requirements Reading competency in one language.

REQUIRED COURSES

Code	Title	Credits
Courses		
ART HIST 701	Practicum in Art History: Bibliography, Historiography, Methods	3

M.A. students with a strong background in art history or the equivalent should take a minimum of seven art history courses, at least THREE of which must be seminars

Breadth

At least one course in three of the five following areas:

Cross-Cultural/Diaspora

Africa/Middle East

Asia

Europe

The Americas

At least one course in three of the four following periods:

Ancient to Medieval

Early Modern (Circa 1400–Circa 1800)

Modern (Circa 1800–Circa 1945)

Contemporary (Post 1945)

Language

One foreign language.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to the master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

Allowed up to 7 credits numbered 700 or above, and graduate level courses ART HIST 601 Introduction to Museum Studies I, ART HIST 602 Introduction to Museum Studies II, and L I S/ART HIST/HISTORY/ JOURN 650 History of Books and Print Culture in Europe and North America.

UW–Madison University Special

With program approval, students are allowed to count up to 15 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The status of a student can be one of three options:

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

ADVISOR / COMMITTEE

All students are required to conduct a yearly progress report meeting with their advisor, scheduled by December 17 and completed by April 30. Failure to do so will result in a hold being placed on the student's registration.

CREDITS PER TERM ALLOWED

12 credits

TIME CONSTRAINTS

The thesis, written in consultation with the major professor, must be completed no later than two semesters after thesis work begins.

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

Priority for assistantship funding is given to Ph.D. students.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Mastery of techniques for visual analysis (examining features such as materials, proportion, light, color, form and narrative structure) of single images and for comparative analysis of multiple images and objects.
2. Advanced proficiency in interpreting images/objects in ways that take into account the historical contexts in which they were produced and received.
3. In-depth knowledge across a range of time and geography to reach an understanding of the ways in which art and its meaning are rooted in culture.
4. Advanced ability to locate and enlist research resources in both print and digital form and assess the strengths and weaknesses of various types of resources.
5. Advanced knowledge and skills necessary to interpret images/objects in ways that consider a variety of theoretical perspectives.
6. Ability to assess and critique complex scholarly arguments and evaluate the strength of the visual and textual evidence presented.
7. Advanced skills in effective and impactful communication in both written and oral form in ways that acknowledge diverse audiences in an increasingly global society.
8. Skills in public engagement such that our students are able to effectively communicate complex ideas to a lay public in written, oral, and digital form in keeping with the Wisconsin Idea.

PEOPLE

Faculty: Professors Anna Andrzejewski, Nicholas D. Cahill, Jill H. Casid, Preeti Chopra, Thomas E. A. Dale, Nancy Rose Marshall, Ann Smart Martin, Quitman E. (Gene) Phillips, Jordan Rosenblum (chair); Associate Professors Yuhang Li, Kirstin Phillips-Court (cross-appointed with French and Italian); Assistant Professors: Jennifer Nelson, Jennifer Pruitt.

ART HISTORY, PH.D.

The Department of Art History offers programs leading to the master of arts and the doctor of philosophy in art history. Our faculty includes specialists in, to name a few: African and African Diaspora art; American art and architecture; American material culture; contemporary art and theory; Chinese art; curatorial studies; early modern European art; Islamic art and architecture; Japanese art; Medieval European and Byzantine art; print culture; photography, film, and video; vernacular architecture; Victorian art and material culture; and visual studies and critical theory. Requirements Detail	
Minimum Credit Requirement	51 credits

Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	No other grade requirements.
Assessments and Examinations	Doctoral students must submit a dissertation prospectus. Doctoral students must pass a written and an oral exam prior to becoming dissertators.
Language Requirements	Reading competency in at least two languages (additional language requirements may pertain to some fields).
Doctoral Minor/Breadth Requirements	All doctoral students are required to complete a minor.

REQUIRED COURSES

Code	Title	Credits
Coursework		
ART HIST 701	Practicum in Art History: Bibliography, Historiography, Methods	3

10 art history classes, four of which may be lecture courses, but students are strongly encouraged to take as many seminars as possible. In special circumstances up to two independent studies (ART HIST 799) - one at the MA and one at the Ph.D. level-may be substituted for lecture courses

Breadth

At least one course in two of the following five following areas:

- Cross-Cultural/Diaspora
- Africa/Middle East
- Asia
- Europe
- The Americas

At least one course in two of the following four following periods:

- Ancient to Medieval
- Early Modern (Circa 1400–Circa 1800)
- Modern (Circa 1800–Circa 1945)
- Contemporary (Post 1945)

Language

Two foreign languages. If you satisfied language requirements at the M.A. level within the past 5 years these languages count toward your two required languages.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 21 credits of graduate work from other institutions. Coursework earned ten years or more prior to admission to the doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

Allowed up to 7 credits numbered 700 or above, and graduate level courses ART HIST 601 Introduction to Museum Studies I, ART HIST 602 Introduction to Museum Studies II, and ART HIST/HISTORY/JOURN/ L I S 650 History of Books and Print Culture in Europe and North America

UW–Madison University Special

With program approval, students are allowed to count up to 15 credits of coursework numbered 600 or above taken as a UW–Madison University Special student. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

A semester GPA below 3.0 will result in the student being placed on academic probation. If a semester GPA of 3.0 is not attained during the subsequent semester of full time enrollment (or 12 credits of enrollment if enrolled part-time) the student may be dismissed from the program or allowed to continue for one additional semester based on advisor appeal to the Graduate School.

ADVISOR / COMMITTEE

All students are required to conduct a yearly progress report meeting with their thesis committee after passing the Preliminary Examination.

CREDITS PER TERM ALLOWED

12 credits

TIME CONSTRAINTS

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

Priority for assistantship funding is given to Ph.D. students.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Shows professional-level mastery of the skills acquired at earlier stages (visual analysis, contextual interpretation, research methods, evaluation of arguments, application of varied theoretical perspectives).
2. Articulates research problems, potentials, and limits with respect to theory, knowledge, or practice within the field of art history (including visual culture and material culture).

3. Formulates ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the field of art history/visual culture/material culture.
4. Conducts research and produces scholarship that makes a substantive contribution to the field and to interdisciplinary inquiry.
5. Demonstrates breadth within their learning experiences.
6. Shows advanced skills in effective and impactful communication in both written and oral form in ways that acknowledge diverse audiences in an increasingly global society.

PEOPLE

Faculty: Professors Anna Andrzejewski, Nicholas D. Cahill, Jill H. Casid, Preeti Chopra, Thomas E. A. Dale, Nancy Rose Marshall, Ann Smart Martin, Quitman E. (Gene) Phillips, Jordan Rosenblum (chair); Associate Professors Yuhang Li, Kirstin Phillips-Court (cross-appointed with French and Italian); Assistant Professors: Jennifer Nelson, Jennifer Pruitt.

ART HISTORY: ARCHITECTURAL HISTORY, PH.D.

Admissions to the Art History: Architectural History Ph.D. have been suspended as of fall 2018 and will be discontinued as of summer 2021. If you have any questions, please contact the department (arthistory@ls.wisc.edu).

This is a named option in the Art History Ph.D. (p. 109)

The Architectural History named option curriculum within the art history department is designed for students whose research is focused on historical study of architecture. The option offers training in specialized skill areas for students working in this area. It also takes advantage of a collaborative relationship between UW–Madison faculty and faculty in the School of Architecture & Urban Planning (<http://www4.uwm.edu/sarup/>) at the University of Wisconsin–Milwaukee (UWM) that enables students to take courses at both campuses (known as the Buildings–Landscapes–Cultures (<http://www.blc.wisc.edu/>) companion program). Many students involved in the option also participate in the Material Culture Program (<http://www.materialculture.wisc.edu/>). The Architectural option was approved in June of 2008; the first class matriculated in 2009.

ADMISSIONS

Admissions to the Art History: Architectural History Ph.D. have been suspended as of fall 2018 and will be discontinued as of summer 2021. If you have any questions, please contact the department (arthistory@ls.wisc.edu).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from

the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	No other grade requirements.
Assessments and Examinations	Doctoral students must submit a dissertation prospectus. Doctoral students must pass a written and an oral exam prior to becoming dissertators.
Language Requirements	Reading competency in at least two languages (additional language requirements may pertain to some fields).

Doctoral Minor/Breadth Requirements	All doctoral students are required to complete a minor.
-------------------------------------	---

REQUIRED COURSES

ART HIST 701 Practicum in Art History: Bibliography, Historiography, Methods, ART HIST 449 Topics in Architectural History

The Ph.D. architectural option allows students flexibility in their coursework that enables them to meet requirements of the Ph.D. in art history while also taking specialized coursework necessary for them to work effectively in the specific study of architectural history. Core requirements include an advanced, specialized methods/historiography course in architectural history that also includes students from UWM (to be taken during the student's second semester in residence) and a fieldschool class (usually taken in the summer). Because work in the field of architectural history requires training not only in art history but also in related fields (such as landscape history, design, material culture, and cultural geography), students also take some of their required coursework outside of art history.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES GRADUATE PROGRAM HANDBOOK

A Graduate Program Handbook containing all of the program's policies and requirements is forthcoming from the program.

PRIOR COURSEWORK

Graduate Work from Other Institutions

Designated courses taught by BLC-affiliated faculty at UW–Milwaukee.

UW–Madison Undergraduate

No prior coursework from UW–Madison undergraduate career may count toward requirements.

UW–Madison University Special

No prior coursework from UW–Madison Special student career may count toward requirements.

PROBATION

A semester GPA below 3.0 will result in the student being placed on academic probation. If a semester GPA of 3.0 is not attained during the subsequent semester of full time enrollment (or 12 credits of enrollment if enrolled part-time) the student may be dismissed from the program or allowed to continue for one additional semester based on advisor appeal to the Graduate School.

ADVISOR / COMMITTEE

All students are required to conduct a yearly progress report meeting with their thesis committee after passing the preliminary examination.

CREDITS PER TERM ALLOWED

12 credits

TIME CONSTRAINTS

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

OTHER

Priority for assistantship funding is given to Ph.D. students.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

VISUAL CULTURES, DOCTORAL MINOR

The **Doctoral Minor in Visual Cultures** is intended for Ph.D. students from across the university who desire training in the study of visual cultures. This transdisciplinary field analyzes the social construction of the visual as well as how the visual creates our social world. Visual culture studies differs from other related disciplines in two ways: first, its field of inquiry includes an expansive array of visual cultural artifacts and practices; and, second, its methodologies focus on the constitution of power relations through visual markers of race, gender, disability, and nationality. As the world continues to become increasingly understood through, and reliant on, the visual (the internet, films, television, scientific graphs, data visualization, video games, and advertisements), the need for people trained with the ability to critically interpret, create, and evaluate those mediums is essential.

ADMISSIONS

Interested students declare the PhD minor by contacting Paola Hernández (director and advisor, at pshernandez@wisc.edu) and submitting a declaration form.

REQUIREMENTS

The Ph.D. minor in Visual Cultures is research-driven certificate. Selection of courses should contribute to your professional development. The Minor is awarded upon successful completion of 9 graduate-level credits in a combination of required and elective coursework, with a GPA of 3.0 (4.0 basis).

¹ Substitutions for this course may be available, contact the CVC director for more information.

LEARNING OUTCOMES

1. Show comprehension of the history, theories, and methods of Visual Culture as a field of study as they are practiced in the field of Visual Cultures
2. Demonstrate critical ability to work with and develop Visual Culture theories and methods
3. Develop capacity to conduct original research in Visual Culture
4. Show ability to work with Visual Culture theories and methods in the analysis and presentation of original research which may take oral, written, and visual forms
5. Develop the critical analytic, rhetorical, and technical skills necessary to effectively communicate original research in Visual Culture

SOUTH ASIA

Gudrun Bühnemann (<http://alc.wisc.edu/about/faculty/gudrun-b%C3%BChnemann/>) (Professor). Area: Sanskrit Language and Literature; Buddhism in India and Nepal; Hinduism; Tantrism; Yoga Studies

Anthony Cerulli (<http://alc.wisc.edu/about/faculty/anthony-cerulli/>) (Associate Professor). Area: Theory and Method in the Study of Religion in South Asia; History of Medicine in India; Sanskrit Language and Literature; Kerala History and Culture; Malayalam Language

John D. Dunne (<http://alc.wisc.edu/about/faculty/john-d-dunne/>) (Professor). Area: Buddhist Philosophy and Contemplative Practice; Religious Studies; Cognitive Science of Religion

SOUTHEAST ASIA

Erlin Barnard (<http://alc.wisc.edu/about/faculty/erlin-barnard/>) (Faculty Associate) Area: Indonesian Language, Language Pedagogy; Materials Development; Second Language Acquisition

LANGUAGE INSTRUCTORS

Language instructors (<http://alc.wisc.edu/about/language-instructors/>) are an integral part of our department, teaching more than 14 languages during the academic year from East (Chinese, Japanese, Korean), South (Hindi, Persian, Sanskrit, Tibetan, Urdu), and Southeast (Burmese, Filipino, Hmong, Indonesian, Thai, Vietnamese) Asian Languages.

GRADUATE ADVISOR

Undergraduate Advisor:
email Rachel Weiss (rweiss@wisc.edu)
1244 Van Hise Hall
608-890-0138

ASIAN LANGUAGES AND CULTURES, DOCTORAL MINOR

The Doctoral Minor in Asian Languages and Cultures is intended for students outside of the department to gain familiarity with the

discipline in literature or linguistics generally while also honing an area of specialization.

ADMISSIONS

- Meet with a faculty member in the Asian Languages & Cultures program to discuss requirements and course options.
- Request a minor agreement form from the Graduate Program Coordinator (rweiss@wisc.edu).
- Submit the Ph.D. Minor in Asian Languages & Cultures form and obtain the approval and signature of major professor. After you have completed the preliminary Ph.D. examinations, the ALC program advisor or ALC Director of Graduate Studies will sign the warrant indicating completion of the minor.

REQUIREMENTS

Students in other departments who wish to minor in Asian languages and cultures must complete 12 credits above the 300 level with a cumulative GPA of 3.0 in the department. Such students are required to take one course in literature and one course in religion or philosophy. Any other courses to fulfill the minor requirement are selected in prior consultation with the student's faculty advisor, who is designated as such by the Department of Asian Languages and Cultures and is authorized to sign the doctoral minor agreement form.

Courses cross-listed in a student's major department and in Asian Languages and Cultures do not count toward the minor requirement. Elementary and intermediate language courses or "directed study" courses are not accepted toward the fulfillment of the minor requirement in Asian Languages and Cultures.

PEOPLE

FACULTY

Asian Languages and Cultures is home to nearly twenty faculty whose research and teaching specialties cover a wide range of topics, including traditional medicine in India; the Hinduist roots of yoga; diversifying contemporary mindfulness practice with insights from Tibetan Buddhism; human rights in Thailand; Chinese ghost stories, traditional poetics and philology; sociolinguistics and discourse analysis of the Mandarin, Japanese, Korean, and Indonesian languages; analysis of classical Japanese tale fiction, early modern comedic narratives, manga, anime; and Japanese counterculture. Visit our faculty pages (<https://alc.wisc.edu/about/faculty/>) for more information on areas of expertise, current research, teaching, and publications.

Gudrun Bühnemann

gbuhnema@wisc.edu
Professor

Fields of Study: Sanskrit language and literature; Buddhism in India and Nepal; Hinduism; Tantrism and Yoga Studies

Anthony Cerulli

acerulli@wisc.edu

Assistant Professor

Fields of Study: Modern Chinese literature and history, comparative new media, information studies

John D. Dunne

jddunne@wisc.edu

Professor

Fields of Study: Buddhist philosophy and contemplative practice; Religious Studies; Cognitive Science of Religion; Contemplative Science

Naomi Geyer

nfgeyer@wisc.edu

Associate Professor

Fields of Study: Japanese Language, Language Pedagogy, Pragmatics

Tyrell Haberkorn

tyrell.haberkorn@wisc.edu

Associate Professor

Fields of Study: Violence, Human Rights, Sovereignty, Arbitrary Detention, Land Rights, Agrarian Struggle, Historiographies of Repression, Gender Studies, Socialism, Dissident Literature, Southeast Asia (Thailand)

Rania Huntington

huntington@wisc.edu

Professor

Fields of Study: Ming and Qing narrative and drama, literature of the weird and supernatural, memory in literature, depiction of women in literature

Adam L. Kern

alkern@wisc.edu

Professor

Fields of Study: The popular literature, culture, poetry, theater, and visual culture of early modern unto modern Japan (1600-1900). Transcultural comics in Japan (manga, kibyōshi, etc) and beyond.

Hieyoon Kim

Hieyoon.kim@wisc.edu

Assistant Professor

Fields of Study: Cinema; Media Activism; Cultural Studies; History of Modern and Contemporary Korea

Byung-jin Lim

byungjin.lim@wisc.edu

Associate Professor

Fields of Study: Korean Language and Linguistics, Second/Foreign Language Acquisition, Computer-Mediated Communication, Korean Language Textbook Development

Junko Mori

jmori@wisc.edu

Professor

Fields of Study: Japanese Linguistics, Applied Linguistics, Conversation Analysis, Sociolinguistics

William Nienhauser

whnienha@wisc.edu

Professor

Fields of Study: Early traditional fiction and history; early poetry (especially Du Fu and Tao Qian)

Steve Ridgely

steve.ridgely@wisc.edu

Associate Professor

Fields of Study: Modern Japanese literature, Cultural Theory, Transasian Studies

Hongming Zhang

hzhang6@wisc.edu

Professor

Fields of Study: Chinese linguistics; syntax-phonology interface; prosodic phonology; poetic prosody; history of Chinese language; teaching Chinese as a second language

Weihua Zhu

wzhu34@wisc.edu (%20wzhu34@wisc.edu)

Assistant Professor

Fields of Study: Discourse Analysis, Pragmatics, Pedagogy and Second Language Acquisition

ASIAN LANGUAGES AND CULTURES, M.A.

The Department of Asian Languages and Cultures offers a new interdisciplinary M.A. and Ph.D. program in Asian Languages and Cultures. Students may take advantage of the many opportunities within the department and on campus to do in-depth research on Asia from multiple disciplinary perspectives and across the traditional area studies divisions of East, South, and Southeast Asia. We welcome applications from students who are interested in working transregionally, transdisciplinarily, or both. This includes students with a traditional background in Asian Studies and related academic fields as well as those whose path to studying Asia has been through professional work.

The Department of Asian Languages and Cultures has developed a lively intellectual community around Transasian Studies and is supporting student-led seminars, reading groups, workshops, and other events. Prospective graduate students are encouraged to reach out to faculty members who share their academic and research interests.

Asian Languages and Cultures is home to nearly twenty faculty whose research and teaching specialties cover a wide range of topics, including traditional medicine in India; the history of yoga; contemporary mindfulness practice with insights from Tibetan Buddhism; human rights in Thailand; Chinese ghost stories, traditional poetics and philology; sociolinguistics and discourse analysis of the Mandarin, Japanese, Korean, Indonesian languages; analysis of classical Japanese tale fiction, early modern comedic narratives, manga, and anime; and Japanese counterculture.

Asian Studies at UW–Madison has strong ties across departments, to research centers, area studies programs, extensive library connections, and alumni relations.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 10
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Thank you for your interest in our programs. The Department of Asian Languages and Cultures (ALC) offers a graduate program in Asian Languages and Cultures (<https://alc.wisc.edu/graduate-programs/asian-languages-and-cultures/>), Chinese (<https://alc.wisc.edu/graduate-programs/chinese/>) and Japanese (<https://alc.wisc.edu/graduate-programs/japanese/>).

Prior to submitting application and materials, applicants should carefully review the information regarding the program of interest and the faculty's expertise (<https://alc.wisc.edu/about/faculty/>) to determine the fit between their interest and the program. To this extent, prospective applicants may contact a specific faculty to discuss their research interest prior to submitting applications.

Applicants should also review the Graduate School's admission process (<http://guide.wisc.edu/graduate/asian-languages-cultures/asian-languages-cultures-ma/%20https://grad.wisc.edu/apply/>), Graduate School's minimum requirements (<http://grad.wisc.edu/admissions/requirements/>), and program requirements and information prior to submitting the online application and fee. The application fee cannot be waived or refunded.

DEADLINES

We accept applications for the fall term only.

In order to be considered for fellowships, project assistantships, and teaching assistantships (<https://alc.wisc.edu/graduate-programs/costs/>), all application materials must be in **by January 10**.

If you do not need any funding support, you may submit applications **by April 15**.

APPLICATION PROCESS

New applicants to UW-Madison apply to programs through the Graduate School application process. Complete the online Graduate application (<https://apply.grad.wisc.edu/Account/Login/?ReturnUrl=%2f>) and select the Asian Languages and Cultures (major code 597) or Chinese (major code 171) or Japanese (major code 583) program.

If you are a currently enrolled UW-Madison graduate student and would like to add or change your current graduate program to Asian Languages and Cultures, Chinese, or Japanese, you do not need to fill out the online application. You will need to submit the following to the ALC Graduate Program Coordinator (1244 Van Hise):

- ALC Departmental Application form (https://alc.wisc.edu/sites/alc.wisc.edu/files/ALC%20Departmental%20Application_internal2017.pdf)
- Grad School "Add/Change Program (<https://grad.wisc.edu/documents/change-program/>)" form (click on link and look for form in the "Academic Forms" box)
- Letters of recommendation
- CV or Resume
- Statement of purpose

The applications from current UW-Madison graduate students will be reviewed every spring, together with new applications submitted.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

GRADUATE STUDENT COSTS

For tuition and living costs, please view the Cost of Attendance page (<https://financialaid.wisc.edu/cost-of-attendance/>). International applicants recommended for admission to the Graduate School are required to show sufficient funds to attend the University during the course of studies (tuition, food and housing, incidentals and health insurance) to be officially accepted by the Graduate School.

DEPARTMENT RESOURCES

The Department of Asian Languages and Cultures offers financial assistance in the forms of fellowships, teaching assistantships (TAs), and project assistantships (PAs). **Please make note of the deadline of January 10 for financial assistance consideration.** All necessary materials including test scores must be submitted by the deadline.

If you are an international applicant and receive a fellowship, PAs, or TAs, please make note that you will likely be required to show additional financial documentation to meet the minimum required for your official acceptance to the Graduate School.

OTHER AWARDS & FELLOWSHIPS

- **Foreign Language & Area Studies (FLAS) Fellowships:** FLAS fellowships are funded by the U.S. Department of Education and administered by the UW's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/Languages.html>) and are contingent on federal funding.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training.

Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

Complete details about FLAS at UW-Madison are available on the FLAS FAQs (<https://flas.wisc.edu/FAQS.html>) (your first stop) and the FLAS Languages & Coordinators pages (<https://flas.wisc.edu/Languages.html>) (should you have additional questions).

- **Advanced Opportunity Fellowship (AOF):** This fellowship is awarded to highly qualified underrepresented students. To be considered for AOF funding, prospective students must be new to the Graduate School and be admissible to a graduate program at the University of Wisconsin-Madison. For further information: <https://grad.wisc.edu/diversity/>.
- **Project Assistantships.** Availability of PAship vary from one year to another, depending on the types of projects the departmental faculty are engaged in. PAs assist faculty members' research projects and/or respond to some programmatic needs of the department and other campus units.
- **Teaching Assistantships.** Availability and types of TAship vary from one year to another, depending on the department's curricular needs and the student enrollment. TAs will support a number of our language and culture courses, typically team-teaching with faculty members. If you are interested in being a teaching assistant in our language programs, you must submit the TA application and necessary materials (1-2 page written autobiography that refers to your prior teaching experience, letter of recommendation that speaks to your teaching experience, video recording of your teaching, if available) through the Graduate School application system **by January 10**.
- **Institute for Regional and International Studies (IRIS) Awards**
Office: IRIS manages its own funding opportunities (Scott Kloeck-Jenson Fellowships, IRIS Graduate Fieldwork Awards, Incubator Grants), coordinates the campus component of a number of external programs (Boren Fellowships, Fulbright US Student Program, Fulbright-Hays DDRA, Luce Scholars Program), assists students, faculty, and staff in exploring funding options, and much more. Visit: <https://iris.wisc.edu/funding/> for more information on awards. Contact Mark Lilleleht, Assistant Director for Awards, with questions at awards@iris.wisc.edu & 608-265-6070.
- **Other Forms of Financial Aid:** Loans and some on-campus job openings are handled through the Office of Student Financial Aid (<https://financialaid.wisc.edu/>). Please contact them to obtain more information.

- Students may also obtain information from the **Grants Information Center** in the Memorial Library, Room 262, 728 State Street, Madison, WI 53706. Phone 608-262-3242.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide (https://registrar.wisc.edu/course-guide/)).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	Students must earn a B or above in all coursework (300 or above, not including research credits) taken as a graduate student.

Assessments and Examinations There are two possible exit requirements for the M.A. One of the following two options will be chosen in consultation with the advisors.

Students should select two substantially revised and/or expanded research papers completed during their graduate study to submit to their committee (the advisors and one additional faculty member). In addition to the written papers, an oral presentation of these papers to the committee is required.

Or

An approximately 50-page M.A. thesis. In addition to the written thesis, an oral presentation of the thesis to the committee is required. This option is usually appropriate for a student who wishes to continue in the Ph.D. program.

Language Requirements Six semesters of study of an Asian language or four semesters of study of two Asian languages, or the equivalent level of proficiency as established by examination by department faculty and staff. Additional language study may be required by the advisors.

REQUIRED COURSES

- At least 21 credits in Asia-related graduate courses in the department or elsewhere on campus.
- At most 9 credits of other graduate courses as approved by the advisors.
- Language study at the third-year level and beyond can count toward the total degree credits to a maximum of 12 credits.

Students may take courses and seminars drawn from offerings in other departments, or within Asian Languages and Cultures, as decided in collaboration between student and the co-advisors, such as:

Code	Title	Credits
ASIAN/ RELIG ST 306	Hinduism	3
ASIAN/ RELIG ST 307	A Survey of Tibetan Buddhism	3
ASIAN/HISTORY/ RELIG ST 308	Introduction to Buddhism	3-4

ASIAN 932	Seminar in Chinese Linguistics	2-3
ASIAN 951	Seminar in Chinese Literature	3
ASIAN 971	Seminar in Chinese Thought	3

Program Tracks¹

Students may choose to focus their studies in a thematic track, such as: Asian Religions, Asian Medical and Health Humanities, and Asian Rights, Violence, and Law. Initially working with two co-advisors, each student will craft a program of coursework that combines Asia-focused courses with disciplinary study in and beyond the Department of Asian Languages and Cultures. This may include linkages with other departments as well as UW-Madison's rich array of centers and programs, including the Center for Healthy Minds (<https://centerhealthyminds.org/>), Center for Visual Cultures (<https://cvc.wisc.edu/>), Human Rights Program (http://law.wisc.edu/gls/human_rights.html), Religious Studies Program (<http://religiousstudies.lss.wisc.edu/>), and the Center for East Asian Studies (<https://eastasia.wisc.edu/>), the Center for South Asia (<http://southasia.wisc.edu/>), and the Center for Southeast Asian Studies (<http://seasia.wisc.edu/>).

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript or diploma.

• Asian Medical and Health Humanities Track

The M.A. and Ph.D. in Asian Languages and Cultures welcomes students interested to do interdisciplinary research that employs theories and methods in medicine and health humanities to probe questions in Asian societies and histories about healthcare, patienthood, embodiment, and psychology. Students may work in a transasian perspective and will be encouraged to work across multiple disciplines, including anthropology, history of science, literature, cognitive science and religious studies. Drawing on the resources in the Department of Asian Languages and Cultures and across the UW-Madison campus, students may examine such things as the imperial, cultural, and structural-economic matrixes that impact human flourishing and suffering in Asian societies; the spread of biomedicine in Asia and Cold War politics; the appropriation of traditional modalities and contemplative practices such as mindfulness and yoga into contemporary medical contexts; links between western biomedicine and the politics of nation building under and after colonialism in Asia; and the entwined histories of religion, politics, and medicine in premodern Asian societies.

Core Faculty: Buhnemann (<https://alc.wisc.edu/about/faculty/gudrun-b%25c3%25bchneemann/>), Cerulli (<https://alc.wisc.edu/about/faculty/anthony-cerulli/>), Dunne (<https://alc.wisc.edu/about/faculty/john-d-dunne/>)

• Asian Religions Track

The M.A. and Ph.D. in Asian Languages and Cultures welcomes students interested to do interdisciplinary research on the numerous religious traditions of East Asia, the Himalayan region, South Asia, and Southeast Asia. Students may focus on one or more traditions, including Buddhism, Hinduism, Islam, and Zoroastrianism. Study of such traditions, whether in their past or present forms, using a combination of approaches, such as philology, history, ethnography and philosophy, is generally conducted with faculty members in the Department of Asian Languages and Cultures as well as affiliates in other units on campus, including Religious Studies, Art History, History, Comparative Literature, the Center for Healthy Minds, and UW-Madison's area studies centers.

Core Faculty: Buhnemann (<https://alc.wisc.edu/about/faculty/gudrun-b%25c3%25bchneemann/>), Cerulli (<https://alc.wisc.edu/about/faculty/anthony-cerulli/>), Dunne (<https://alc.wisc.edu/about/faculty/john-d-dunne/>)

• Asian Rights, Violence and Law Track

How are rights, law and justice understood and experienced comparatively in and beyond Asia? How are rights violated and promoted by states and citizens? How does violence – regional, state, communal – and its memory reshape societies and nations? What are the manifestations of the rule of law and its opposites? What representations and metaphors for justice are found in art, film, and literature? The M.A. and Ph.D. program in Transasian Studies particularly welcomes students who would like to answer these and other questions comparatively, either across multiple countries, and/or drawing on more than one disciplinary approach, including history, literature, law, political science, art, and anthropology.

Core Faculty: Haberkorn (<https://alc.wisc.edu/about/faculty/tyrell-haberkorn/>) **Affiliate Faculty:** McCoy (https://history.wisc.edu/faculty_am.htm)

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree or earned ten years is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, no more than 7 credits of graduate coursework (as defined above) completed while a UW–Madison undergraduate maybe counted to satisfy degree requirements. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

If a student's average falls below 3.0 in a given semester, the department will decide whether the student may continue on probation. A specific plan will be arranged with dates and deadlines in place in regard to removal of probationary status.

ADVISOR / COMMITTEE

Starting Fall 2018, all students are required to have two co-advisors, identified at the time of admissions. During the course of study, students meet regularly with their advisors to ensure satisfactory progress.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

The maximum time for completing all M.A. requirements and passing the M.A. examination is three years.

Master's degree students who are absent for five or more years will not be given credit for prior work.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)

- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

n/a

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

Throughout the academic year, professional development trainings, workshops, and graduate student-organized activities take place. The Director of Graduate Studies is eager to hear from students about what interests they have for such events.

GRADUATE SCHOOL OFFICE OF PROFESSIONAL DEVELOPMENT

The Graduate School Office of Professional Development (OPD) coordinates, develops, and promotes learning opportunities to foster the academic, professional, and life skills of graduate students and postdoctoral researchers and scholars.

Professional development topics include Individual Development Plans (<https://grad.wisc.edu/pd/idp/>), communication, mentoring, grant writing, dissertation writing, career exploration, job search strategies, and more. OPD collaborates with the Writing Center, Libraries, DoIT Software Training for Students, Delta, career centers, and others to provide a

wealth of resources and events tailored to the needs of UW–Madison graduate students.

The office developed and maintains DiscoverPD (<https://my.grad.wisc.edu/DiscoverPD/>), an innovative tool for UW–Madison graduate students to advance their academic and professional goals. DiscoverPD introduces nine areas (or "facets") of professional development, includes a self-assessment, and provides a customized report of areas of strength and weakness. The report comes with recommendations to help graduate students strengthen their ability within each area.

More information on campus resources for student professional development is available at Graduate Student Professional Development (<http://grad.wisc.edu/pd/>). Students may keep up-to-date by reading GradConnections (<https://grad.wisc.edu/new-students/>), the weekly newsletter for graduate students, and bookmarking the Events Calendar (<https://grad.wisc.edu/events/>) to keep tabs on upcoming workshops of interest.

LEARNING OUTCOMES

1. Identify the primary field(s) of study in a historical, comparative, and global context.
2. Discuss the major theories, research methods, and approaches to inquiry in the selected area of the student's focus.
3. Integrate theories into practice.
4. Articulate and communicate knowledge in specialized field(s).
5. Recognize and apply principles of professional and ethical conduct.

PEOPLE

FACULTY

Asian Languages and Cultures is home to nearly twenty faculty whose research and teaching specialties cover a wide range of topics, including traditional medicine in India; the history of yoga; contemporary mindfulness practice with insights from Tibetan Buddhism; human rights in Thailand; Chinese ghost stories, traditional poetics and philology; sociolinguistics and discourse analysis of the Mandarin, Japanese, Korean, Indonesian languages; analysis of classical Japanese tale fiction, early modern comedic narratives, manga, and anime; and Japanese counterculture. Visit our faculty pages (<https://alc.wisc.edu/about/faculty/>) for more information on areas of expertise, current research, teaching, and publications.

Gudrun Bühnemann

gbuhnema@wisc.edu

Professor

Fields of Study: Sanskrit language and literature; Buddhism in India and Nepal; Hinduism; Tantrism and Yoga Studies

Anthony Cerulli

acerulli@wisc.edu

Associate Professor

Fields of Study: Hinduism; Religion in South Asia; Medical Humanities; History of Medicine in India; Sanskrit Language and Literature; Kerala History and Culture

Charo D'Etcheverry

cdetcheverry@wisc.edu

Associate Professor

Fields of Study: Classical Japanese literature (especially court fiction and its reception and early kabuki)

Anatoly Detwyler

detwyler@wisc.edu

Assistant Professor

Fields of Study: Modern Chinese literature and history, comparative new media, information studies

John D. Dunne

jddunne@wisc.edu

Professor

Fields of Study: Buddhist philosophy and contemplative practice; Religious Studies; Cognitive Science of Religion; Contemplative Science

Naomi Geyer

nfgeyer@wisc.edu

Associate Professor

Fields of Study: Japanese Language, Language Pedagogy, Pragmatics

Tyrell Haberkorn

tyrell.haberkorn@wisc.edu

Associate Professor

Fields of Study: Violence, Human Rights, Sovereignty, Arbitrary Detention, Land Rights, Agrarian Struggle, Historiographies of Repression, Gender Studies, Socialism, Dissident Literature, Southeast Asia (Thailand).

Rania Huntington

huntington@wisc.edu

Professor

Fields of Study: Ming and Qing narrative and drama, literature of the weird and supernatural, memory in literature, depiction of women in literature

Adam L. Kern

alkern@wisc.edu

Professor

Fields of Study: The popular literature, culture, poetry, theater, and visual culture of early modern unto modern Japan (1600-1900). Transcultural comics in Japan (manga, kibyōshi, etc) and beyond.

Hieyoon Kim

Hieyoon.kim@wisc.edu

Assistant Professor

Fields of Study: Cinema; Media Activism; Cultural Studies; History of Modern and Contemporary Korea

Byung-jin Lim

byungjin.lim@wisc.edu

Associate Professor

Fields of Study: Korean Language and Linguistics, Second/Foreign Language Acquisition, Computer-Mediated Communication, Korean Language Textbook Development

Junko Mori

jmori@wisc.edu

Professor

Fields of Study: Japanese Linguistics, Applied Linguistics, Conversation Analysis, Sociolinguistics

William Nienhauser

whnienha@wisc.edu

Professor

Fields of Study: Early traditional fiction and history; early poetry (especially Du Fu and Tao Qian)

Steve Ridgely

steve.ridgely@wisc.edu

Associate Professor

Fields of Study: Modern Japanese literature, Cultural Theory, Transasian Studies

Hongming Zhang

hzhang6@wisc.edu

Professor

Fields of Study: Chinese linguistics; syntax-phonology interface; prosodic phonology; poetic prosody; history of Chinese language; teaching Chinese as a second language

Weihua Zhu

wzhu34@wisc.edu (%20wzhu34@wisc.edu)

Assistant Professor

Fields of Study: Discourse Analysis, Pragmatics, Pedagogy and Second Language Acquisition

ASIAN LANGUAGES AND CULTURES, PH.D.

The Department of Asian Languages and Cultures offers a new interdisciplinary M.A. and Ph.D. program in Asian Languages and Cultures. Students may take advantage of the many opportunities within the department and on campus to do in-depth research on Asia from multiple disciplinary perspectives and across the traditional area studies divisions of East, South, and Southeast Asia. We welcome applications from students who are interested in working transregionally, transdisciplinarily, or both. This includes students with a traditional background in Asian Studies and related academic fields as well as those whose path to studying Asia has been through professional work.

The Department of Asian Languages and Cultures has developed a lively intellectual community around Transasian Studies and is supporting student-led seminars, reading groups, workshops, and other events. Prospective graduate students are encouraged to reach out to faculty members who share their academic and research interests.

Asian Languages and Cultures is home to nearly twenty faculty whose research and teaching specialties cover a wide range of topics, including traditional medicine in India; the history of yoga; contemporary mindfulness practice with insights from Tibetan Buddhism; human rights in Thailand; Chinese ghost stories, traditional poetics and philology; sociolinguistics and discourse analysis of the Mandarin, Japanese, Korean, Indonesian languages; analysis of classical Japanese tale fiction, early modern comedic narratives, manga, and anime; and Japanese counterculture.

Asian Studies at UW–Madison has strong ties across departments, to research centers, area studies programs, extensive library connections, and alumni relations.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s).**

Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 10
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Thank you for your interest in our programs. The Department of Asian Languages and Cultures (ALC) offers a graduate program in Asian Languages and Cultures (<https://alc.wisc.edu/graduate-programs/asian-languages-and-cultures/>), Chinese (<https://alc.wisc.edu/graduate-programs/chinese/>) and Japanese (<https://alc.wisc.edu/graduate-programs/japanese/>).

Prior to submitting application and materials, applicants should carefully review the information regarding the program of interest and the faculty's expertise (<https://alc.wisc.edu/about/faculty/>) to determine the fit between their interest and the program. To this extent, prospective applicants may contact a specific faculty to discuss their research interest prior to submitting applications.

Applicants should also review the Graduate School's admission process (<http://guide.wisc.edu/graduate/asian-languages-cultures/asian-languages-cultures-phd/%20https://grad.wisc.edu/apply/>), Graduate School's minimum requirements (<http://grad.wisc.edu/admissions/requirements/>), and program requirements and information prior to submitting the online application and fee. The application fee cannot be waived or refunded.

DEADLINES

We accept applications for the fall term only.

In order to be considered for fellowships, project assistantships, and teaching assistantships (<https://alc.wisc.edu/graduate-programs/costs/>), all application materials must be in **by January 10**.

If you do not need any funding support, you may submit applications **by April 15**.

APPLICATION PROCESS

New applicants to UW-Madison apply to programs through the Graduate School application process. Complete the online Graduate application

(<https://apply.grad.wisc.edu/Account/Login/?ReturnUrl=%2f>) and select the Asian Languages and Cultures (major code 597) or Chinese (major code 171) or Japanese (major code 583) program.

If you are a currently enrolled UW-Madison graduate student and would like to add or change your current graduate program to Asian Languages and Cultures, Chinese, or Japanese, you do not need to fill out the online application. You will need to submit the following to the ALC Graduate Program Coordinator (1244 Van Hise):

- ALC Departmental Application form (https://alc.wisc.edu/sites/alc.wisc.edu/files/ALC%20Departmental%20Application_internal2017.pdf)
- Grad School "Add/Change Program (<https://grad.wisc.edu/documents/change-program/>)" form (click on link and look for form in the "Academic Forms" box)
- Letters of recommendation
- CV or Resume
- Statement of purpose

The applications from current UW-Madison graduate students will be reviewed every spring, together with new applications submitted.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

GRADUATE STUDENT COSTS

For tuition and living costs, please view the Cost of Attendance page (<https://financialaid.wisc.edu/cost-of-attendance/>). International applicants recommended for admission to the Graduate School are required to show sufficient funds to attend the University during the course of studies (tuition, food and housing, incidentals and health insurance) to be officially accepted by the Graduate School.

DEPARTMENT RESOURCES

The Department of Asian Languages and Cultures offers financial assistance in the forms of fellowships, teaching assistantships (TAs), and project assistantships (PAs). **Please make note of the deadline of January 10 for financial assistance consideration.** All necessary materials including test scores must be submitted by the deadline.

If you are an international applicant and receive a fellowship, PAs, or TAs, please make note that you will likely be required to show additional financial documentation to meet the minimum required for your official acceptance to the Graduate School.

OTHER AWARDS & FELLOWSHIPS

- **Foreign Language & Area Studies (FLAS) Fellowships:** FLAS fellowships are funded by the U.S. Department of Education and administered by the UW's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific

languages (<https://flas.wisc.edu/Languages.html>) and are contingent on federal funding.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training.

Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

Complete details about FLAS at UW-Madison are available on the FLAS FAQs (<https://flas.wisc.edu/FAQS.html>) (your first stop) and the FLAS Languages & Coordinators pages (<https://flas.wisc.edu/Languages.html>) (should you have additional questions).

- **Advanced Opportunity Fellowship (AOF):** This fellowship is awarded to highly qualified underrepresented students. To be considered for AOF funding, prospective students must be new to the Graduate School and be admissible to a graduate program at the University of Wisconsin-Madison. For further information: <https://grad.wisc.edu/diversity/>.
- **Project Assistantships.** Availability of PAs varies from one year to another, depending on the types of projects the departmental faculty are engaged in. PAs assist faculty members' research projects and/or respond to some programmatic needs of the department and other campus units.
- **Teaching Assistantships.** Availability and types of TAs vary from one year to another, depending on the department's curricular needs and the student enrollment. TAs will support a number of our language and culture courses, typically team-teaching with faculty members. If you are interested in being a teaching assistant in our language programs, you must submit the TA application and necessary materials (1-2 page written autobiography that refers to your prior teaching experience, letter of recommendation that speaks to your teaching experience, video recording of your teaching, if available) through the Graduate School application system **by January 10**.
- **Institute for Regional and International Studies (IRIS) Awards**
Office: IRIS manages its own funding opportunities (Scott Kloeck-Jenson Fellowships, IRIS Graduate Fieldwork Awards, Incubator Grants), coordinates the campus component of a number of external programs (Boren Fellowships, Fulbright US Student Program, Fulbright-Hays DDRA, Luce Scholars Program), assists students, faculty, and staff in exploring funding options, and much more. Visit: <https://iris.wisc.edu/funding/> for more information on awards. Contact Mark Lilleleht, Assistant Director for Awards, with questions at awards@iris.wisc.edu & 608-265-6070.
- **Other Forms of Financial Aid:** Loans and some on-campus job openings are handled through the Office of Student Financial Aid (<https://financialaid.wisc.edu/>). Please contact them to obtain more information.
- Students may also obtain information from the **Grants Information Center** in the Memorial Library, Room 262, 728 State Street, Madison, WI 53706. Phone 608-262-3242.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum Credit Requirement 51 credits

Minimum Residence Credit Requirement 32 credits

Minimum Graduate Coursework Requirement All 51 credits must be in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.

Overall Graduate GPA Requirement 3.00 GPA required.

Other Grade Requirements No other specific grade requirements.

Assessments and Examinations The preliminary exam must be taken within 1 semester after completing doctoral coursework. Comprehensive written preliminary exams will be based on reading lists developed with the committee. These exams have four parts: general competence in major field; secondary field; theory and method; and specialized area of dissertation focus. The preliminary examination will be evaluated by a committee of at least three members (the co-advisors and an additional faculty member).

Successful completion of the exam process will also require research language competence as demonstrated through examinations in one or more languages as determined by the advisors.

A dissertation proposal must be approved within 1 year after completing prelim exams. An oral defense of the proposal will be evaluated by the committee.

Language Requirements Additional language coursework beyond the M.A. requirements is not required in general, but students must gain sufficient competence to pass the research language exams required by the advisors.

Doctoral Minor/Breadth Requirements A doctoral minor is not a requirement, but a student, in consultation with their advisors, may choose to complete a minor.

REQUIRED COURSES

- At least 15 credits in Asia-related graduate courses in the department or elsewhere on campus
- At most 6 credits of other courses as approved by the advisors
- Additional language coursework beyond the M.A. requirements is not required in general, but students must gain sufficient competence to pass the research language exams required by the advisors. Language study at the third year level and beyond can count toward the total degree credits to a maximum of 6 credits past the M.A.

Students may take courses and seminars drawn from offerings in other departments or within Asian Languages and Cultures, as decided in collaboration between student and the co-advisors, such as:

Code	Title	Credits
ASIAN/ RELIG ST 307	A Survey of Tibetan Buddhism	3
ASIAN/HISTORY/ RELIG ST 308	Introduction to Buddhism	3-4
ASIAN 311	Modern Indian Literatures	3
ASIAN/HISTORY 319	The Vietnam Wars	3-4
ASIAN/HISTORY 335	The Koreans: Korean War to the 21st Century	3-4

ASIAN/HISTORY 857	Seminar-History of India (South Asia)	1-3
ASIAN 873	Seminar in Languages and Literatures of Asia	3
ASIAN 932	Seminar in Chinese Linguistics	2-3
ASIAN 951	Seminar in Chinese Literature	3
ASIAN 971	Seminar in Chinese Thought	3
ASIAN 990	Thesis Research	3
ASIAN 999	Independent Research	1-3

Program Tracks ¹

Students may choose to focus their studies in a thematic track, such as; Asian Religions, Asian Medical and Health Humanities, and Asian Rights, Violence, and Law. Initially working with two co-advisors, each student will craft a program of coursework that combines Asia-focused courses with disciplinary study in and beyond the Department of Asian Languages and Cultures. This may include linkages with other departments as well as UW-Madison's rich array of centers and programs, including the Center for Healthy Minds (<https://centerhealthyminds.org/>), Center for Visual Cultures (<https://cvc.wisc.edu/>), Human Rights Program (http://law.wisc.edu/gls/human_rights.html), Religious Studies Program (<http://religiousstudies.lss.wisc.edu/>), and the Center for East Asian Studies (<https://eastasia.wisc.edu/>), the Center for South Asia (<http://southasia.wisc.edu/>), and the Center for Southeast Asian Studies (<http://seasia.wisc.edu/>).

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript or diploma.

Asian Medical and Health Humanities Track

The M.A. and Ph.D. in Asian Languages and Cultures welcomes students interested to do interdisciplinary research that employs theories and methods in medicine and health humanities to probe questions in Asian societies and histories about healthcare, patienthood, embodiment, and psychology. Students may work in a transasian perspective and will be encouraged to work across multiple disciplines, including anthropology, history of science, literature, cognitive science and religious studies. Drawing on the resources in the Department of Asian Languages and Cultures and across the UW-Madison campus, students may examine such things as the imperial, cultural, and structural-economic matrixes that impact human flourishing and suffering in Asian societies; the spread of biomedicine in Asia and Cold War politics; the appropriation of

traditional modalities and contemplative practices such as mindfulness and yoga into contemporary medical contexts; links between western biomedicine and the politics of nation building under and after colonialism in Asia; and the entwined histories of religion, politics, and medicine in premodern Asian societies.

Core Faculty: Buhneemann (<https://alc.wisc.edu/about/faculty/gudrun-b%25c3%25bchneemann/>), Cerulli (<https://alc.wisc.edu/about/faculty/anthony-cerulli/>), Dunne (<https://alc.wisc.edu/about/faculty/john-d-dunne/>)

Asian Religions Track

The M.A. and Ph.D. in Asian Languages and Cultures welcomes students interested to do interdisciplinary research on the numerous religious traditions of East Asia, the Himalayan region, South Asia, and Southeast Asia. Students may focus on one or more traditions, including Buddhism, Hinduism, Islam, and Zoroastrianism. Study of such traditions, whether in their past or present forms, using a combination of approaches, such as philology, history, ethnography and philosophy, is generally conducted with faculty members in the Department of Asian Languages and Cultures as well as affiliates in other units on campus, including Religious Studies, Art History, History, Comparative Literature, the Center for Healthy Minds, and UW-Madison's area studies centers.

Core Faculty: Buhneemann (<https://alc.wisc.edu/about/faculty/gudrun-b%25c3%25bchneemann/>), Cerulli (<https://alc.wisc.edu/about/faculty/anthony-cerulli/>), Dunne (<https://alc.wisc.edu/about/faculty/john-d-dunne/>)

Asian Rights, Violence and Law Track

How are rights, law and justice understood and experienced comparatively in and beyond Asia? How are rights violated and promoted by states and citizens? How does violence – regional, state, communal – and its memory reshape societies and nations? What are the manifestations of the rule of law and its opposites? What representations and metaphors for justice are found in art, film, and literature? The M.A. and Ph.D. program in Transasian Studies particularly welcomes students who would like to answer these and other questions comparatively, either across multiple countries, and/or drawing on more than one disciplinary approach, including history, literature, law, political science, art, and anthropology.

Core Faculty: Haberkorn (<https://alc.wisc.edu/about/faculty/tyrell-haberkorn/>) **Affiliate Faculty:** McCoy (https://history.wisc.edu/faculty_am.htm)

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework

earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, no more than 7 credits of graduate coursework (as defined above) completed while a UW–Madison undergraduate maybe counted to satisfy degree requirements. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of graduate coursework (as defined above) taken as a UW–Madison special student. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

A semester GPA below 3.0 will result in the student being placed on department probation. If a semester GPA of 3.0 is not attained during the subsequent semester of enrollment, the student may be dismissed from the program or allowed to continue for one additional semester based on advisor appeal to the Graduate School.

ADVISOR / COMMITTEE

Starting fall 2018, all students are required to be supervised by co-advisors. One of the co-advisors must be a member of the Asian Languages and Cultures program, but the other co-advisor can be identified from related fields outside of the department.

At the point of beginning work on the dissertation, a single dissertation advisor (most likely one of the co-advisors) may be chosen, or the co-advising arrangement may continue for the dissertation as well.

Dissertation committees must have at least four members representing more than one graduate program, three of whom must be UW–Madison graduate faculty or former UW–Madison graduate faculty up to one year after resignation or retirement. At least one of the four members must be from outside of the student's major program or major field (often from the minor field).

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)

- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

Throughout the academic year, professional development trainings, workshops, and graduate student-organized activities take place. The Director of Graduate Studies is eager to hear from students about what interests they have for such events.

GRADUATE SCHOOL OFFICE OF PROFESSIONAL DEVELOPMENT

The Graduate School Office of Professional Development (OPD) coordinates, develops, and promotes learning opportunities to foster the academic, professional, and life skills of graduate students and postdoctoral researchers and scholars.

Professional development topics include Individual Development Plans (<https://grad.wisc.edu/pd/idp/>), communication, mentoring, grant writing, dissertation writing, career exploration, job search strategies, and more. OPD collaborates with the Writing Center, Libraries, DoIT Software Training for Students, Delta, career centers, and others to provide a wealth of resources and events tailored to the needs of UW–Madison graduate students.

The office developed and maintains DiscoverPD (<https://my.grad.wisc.edu/DiscoverPD/>), an innovative tool for UW–Madison graduate students to advance their academic and professional

goals. DiscoverPD introduces nine areas (or "facets") of professional development, includes a self-assessment, and provides a customized report of areas of strength and weakness. The report comes with recommendations to help graduate students strengthen their ability within each area.

More information on campus resources for student professional development is available at Graduate Student Professional Development (<http://grad.wisc.edu/pd/>). Students may keep up-to-date by reading GradConnections (<https://grad.wisc.edu/new-students/>), the weekly newsletter for graduate students, and bookmarking the Events Calendar (<https://grad.wisc.edu/events/>) to keep tabs on upcoming workshops of interest.

LEARNING OUTCOMES

1. Demonstrate a thorough and in-depth understanding of research problems, potentials, and limits with respect to theory, knowledge, or practice in the selected area of the student's focus.
2. Formulate ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the specialized field(s).
3. Create scholarship and advance knowledge that makes a substantive contribution to the field(s).
4. Articulate and communicate complex ideas in a clear and understandable manner to both specialized and general audiences.
5. Recognize, apply, and foster ethical and professional conduct.

PEOPLE

FACULTY

Asian Languages and Cultures is home to nearly twenty faculty whose research and teaching specialties cover a wide range of topics, including traditional medicine in India; the Hinduist roots of yoga; diversifying contemporary mindfulness practice with insights from Tibetan Buddhism; human rights in Thailand; Chinese ghost stories, traditional poetics and philology; sociolinguistics and discourse analysis of the Mandarin, Japanese, Korean, and Indonesian languages; analysis of classical Japanese tale fiction, early modern comedic narratives, manga, anime; and Japanese counterculture. Visit our faculty pages (<https://alc.wisc.edu/about/faculty/>) for more information on areas of expertise, current research, teaching, and publications.

Gudrun Bühnemann

gbuhnema@wisc.edu

Professor

Fields of Study: Sanskrit language and literature; Buddhism in India and Nepal; Hinduism; Tantrism and Yoga Studies

Anthony Cerulli

acerulli@wisc.edu

Associate Professor

Fields of Study: Hinduism; Religion in South Asia; Medical Humanities; History of Medicine in India; Sanskrit Language and Literature; Kerala History and Culture

Charo D'Etcheverry

cdetcheverry@wisc.edu

Associate Professor

Fields of Study: Classical Japanese literature (especially court fiction and its reception and early kabuki)

Anatoly Detwyler

detwyler@wisc.edu

Assistant Professor

Fields of Study: Modern Chinese literature and history, comparative new media, information studies

John D. Dunne

jddunne@wisc.edu

Professor

Fields of Study: Buddhist philosophy and contemplative practice; Religious Studies; Cognitive Science of Religion; Contemplative Science

Naomi Geyer

nfgeyer@wisc.edu

Associate Professor

Fields of Study: Japanese Language, Language Pedagogy, Pragmatics

Tyrell Haberkorn

tyrell.haberkorn@wisc.edu

Associate Professor

Fields of Study: Violence, Human Rights, Sovereignty, Arbitrary Detention, Land Rights, Agrarian Struggle, Historiographies of Repression, Gender Studies, Socialism, Dissident Literature, Southeast Asia (Thailand)

Rania Huntington

huntington@wisc.edu

Professor

Fields of Study: Ming and Qing narrative and drama, literature of the weird and supernatural, memory in literature, depiction of women in literature

Adam L. Kern

alkern@wisc.edu

Professor

Fields of Study: The popular literature, culture, poetry, theater, and visual culture of early modern unto modern Japan (1600-1900). Transcultural comics in Japan (manga, kibyōshi, etc) and beyond.

Hieyoon Kim

Hieyoon.kim@wisc.edu

Assistant Professor

Fields of Study: Cinema; Media Activism; Cultural Studies; History of Modern and Contemporary Korea

Byung-jin Lim

byungjin.lim@wisc.edu

Associate Professor

Fields of Study: Korean Language and Linguistics, Second/Foreign Language Acquisition, Computer-Mediated Communication, Korean Language Textbook Development

Junko Mori

jmori@wisc.edu

Professor

Fields of Study: Japanese Linguistics, Applied Linguistics, Conversation Analysis, Sociolinguistics

William Nienhauser

wnienha@wisc.edu

Professor

Fields of Study: Early traditional fiction and history; early poetry (especially Du Fu and Tao Qian)

Steve Ridgely

steve.ridgely@wisc.edu

Associate Professor

Fields of Study: Modern Japanese literature, Cultural Theory, Transasian Studies

Hongming Zhang

hzhang6@wisc.edu

Professor

Fields of Study: Chinese linguistics; syntax-phonology interface; prosodic phonology; poetic prosody; history of Chinese language; teaching Chinese as a second language

Weihua Zhu

wzhu34@wisc.edu (%20wzhu34@wisc.edu)

Assistant Professor

Fields of Study: Discourse Analysis, Pragmatics, Pedagogy and Second Language Acquisition

CHINESE, DOCTORAL MINOR

The Doctoral Minor in Chinese is intended for students outside of the department to gain familiarity with the discipline in literature or linguistics generally while also honing an area of specialization.

ADMISSIONS

- Meet with a faculty member in the Chinese studies program to discuss requirements and course options.
- Request a minor agreement form from the Graduate Program Coordinator (rweiss@wisc.edu).
- Submit the Ph.D. Minor in Chinese form and obtain the approval and signature of major professor. After you have completed the preliminary Ph.D. examinations, the Chinese studies advisor or ALC Director of Graduate Studies will sign the warrant indicating completion of the minor.

REQUIREMENTS

Students from other graduate programs intending to take a doctoral minor in Chinese should consult the director of graduate study. For the minor, at least 12 credits in graduate-level courses are required (400 level or above; certain 300-level courses are accepted with the prior consent of the program).

CHINESE, M.A.

UW–Madison offers an M.A. and Ph.D. degree in Chinese, specializing either in **linguistics** or in **literature and culture**. The program provides broad foundations and focused training in these two specialties, assuring that our graduates are amply prepared to teach and conduct research.

The linguistics specialty excels in areas of historical linguistics, phonology, prosody, grammaticalization, interface study between syntax and phonology, dialectology, sociolinguistics, second language acquisition, pedagogy, and pragmatics.

The literature and culture specialty covers periods from the pre-Qin through the modern and contemporary, including study of fictional and historiographical narrative, poetry, drama, film, and new media.

The graduate program in Chinese is housed in the **Department of Asian Languages and Cultures**, along with the Japanese and the Asian Languages and Cultures Program. As such, students will have opportunities to interact with all faculty, staff, and graduate students affiliated with the department to examine their area of specialty in broader regional and disciplinary contexts.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 10
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.

English Proficiency Test Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (<https://grad.wisc.edu/apply/requirements/#english-proficiency>).

Other Test(s) (e.g., GMAT, MCAT) n/a

Letters of Recommendation Required 3

Thank you for your interest in our programs. The Department of Asian Languages and Cultures (ALC) offers a graduate program in Asian Languages and Cultures (<https://alc.wisc.edu/graduate-programs/asian-languages-and-cultures/>), Chinese (<https://alc.wisc.edu/graduate-programs/chinese/>) and Japanese (<https://alc.wisc.edu/graduate-programs/japanese/>).

Prior to submitting application and materials, applicants should carefully review the information regarding the program of interest and the faculty's expertise (<https://alc.wisc.edu/about/faculty/>) to determine the fit between their interest and the program. To this extent, prospective applicants may contact a specific faculty to discuss their research interest prior to submitting applications.

Applicants should also review the Graduate School's admission process (<http://guide.wisc.edu/graduate/asian-languages-cultures/chinese-ma/%20https://grad.wisc.edu/apply/>), Graduate School's minimum requirements (<http://grad.wisc.edu/admissions/requirements/>), and program requirements and information prior to submitting the online application and fee. The application fee cannot be waived or refunded.

DEADLINES

We accept applications for the fall term only.

In order to be considered for fellowships, project assistantships, and teaching assistantships (<https://alc.wisc.edu/graduate-programs/costs/>), all application materials must be in by **January 10**.

If you do not need any funding support, you may submit applications by **April 15**.

APPLICATION PROCESS

New applicants to UW-Madison apply to programs through the Graduate School application process. Complete the online Graduate application (<https://apply.grad.wisc.edu/Account/Login/?ReturnUrl=%2f>) and select the Asian Languages and Cultures (major code 596) or Chinese (major code 171) or Japanese (major code 583) program.

Students may apply either to the MA or PhD program.

If you are a currently enrolled UW-Madison graduate student and would like to add or change your current graduate program to Asian Languages and Cultures, Chinese, or Japanese, you do not need to fill out the online application. You will need to submit the following to the ALC Graduate Program Coordinator (1244 Van Hise):

- ALC Departmental Application form (https://alc.wisc.edu/sites/alc.wisc.edu/files/ALC%20Departmental%20Application_internal2017.pdf)

- Grad School "Add/Change Program (<https://grad.wisc.edu/documents/change-program/>)" form (click on link and look for form in the "Academic Forms" box)
- Letters of recommendation
- CV or Resume
- Statement of purpose

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

GRADUATE STUDENT COSTS

For tuition and living costs, please view the Cost of Attendance page (<https://financialaid.wisc.edu/cost-of-attendance/>). International applicants recommended for admission to the Graduate School are required to show sufficient funds to attend the University during the course of studies (tuition, food and housing, incidentals and health insurance) to be officially accepted by the Graduate School.

DEPARTMENT RESOURCES

The Department of Asian Languages and Cultures offers financial assistance in the forms of fellowships, teaching assistantships (TAs), and project assistantships (PAs). **Please make note of the deadline of January 10 for financial assistance consideration.** All necessary materials including test scores must be submitted by the deadline.

If you are an international applicant and receive a fellowship, PAs, or TAs, please make note that you will likely be required to show additional financial documentation to meet the minimum required for your official acceptance to the Graduate School.

OTHER AWARDS & FELLOWSHIPS

- **Foreign Language & Area Studies (FLAS) Fellowships:** FLAS fellowships are funded by the U.S. Department of Education and administered by the UW's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/Languages.html>) and are contingent on federal funding.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training.

Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

Complete details about FLAS at UW-Madison are available on the FLAS FAQs (<https://flas.wisc.edu/FAQS.html>) (your first stop) and the FLAS Languages & Coordinators pages (<https://flas.wisc.edu/Languages.html>) (should you have additional questions).

- **Advanced Opportunity Fellowship (AOF):** This fellowship is awarded to highly qualified underrepresented students. To be considered for

AOF funding, prospective students must be new to the Graduate School and be admissible to a graduate program at the University of Wisconsin-Madison. For further information: <https://grad.wisc.edu/diversity/>.

- **Project Assistantships.** Availability of PAs vary from one year to another, depending on the types of projects the departmental faculty are engaged in. PAs assist faculty members' research projects and/or respond to some programmatic needs of the department and other campus units.
- **Teaching Assistantships.** Availability and types of TAs vary from one year to another, depending on the department's curricular needs and the student enrollment. TAs will support a number of our language and culture courses, typically team-teaching with faculty members. If you are interested in being a teaching assistant in our language programs, you must submit the TA application and necessary materials (1-2 page written autobiography that refers to your prior teaching experience, letter of recommendation that speaks to your teaching experience, video recording of your teaching, if available) through the Graduate School application system by **January 10**.
- **Institute for Regional and International Studies (IRIS) Awards**
Office: IRIS manages its own funding opportunities (Scott Kloeck-Jenson Fellowships, IRIS Graduate Fieldwork Awards, Incubator Grants), coordinates the campus component of a number of external programs (Boren Fellowships, Fulbright US Student Program, Fulbright-Hays DDRA, Luce Scholars Program), assists students, faculty, and staff in exploring funding options, and much more. Visit: <https://iris.wisc.edu/funding/> for more information on awards. Contact Mark Lilleleht, Assistant Director for Awards, with questions at awards@iris.wisc.edu & 608-265-6070.
- **Other Forms of Financial Aid:** Loans and some on-campus job openings are handled through the Office of Student Financial Aid (<https://financialaid.wisc.edu/>). Please contact them to obtain more information.
- Students may also obtain information from the **Grants Information Center** in the Memorial Library, Room 262, 728 State Street, Madison, WI 53706. Phone 608-262-3242.

advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide/).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	Students must earn a B or above in all coursework (300 or above, not including research credits) taken as a graduate student.
Assessments and Examinations	A final written examination is required. Candidates are required to submit two substantial research papers written in seminars, or, with the consent of the major advisor, in a course at or above the 700 level.
Language Requirements	Advanced proficiency in modern Chinese is required. Reading proficiency in Classical Chinese is required for all students.

COURSES REQUIRED

All students must take

Code	Title	Credits
1. Select a two-course sequence (6 credits)		6
ASIAN 631 & ASIAN 632	History of the Chinese Language and Studies in Chinese Linguistics	6
OR		
ASIAN 641 & a graduate-level course in Chinese Language		6
2. Select a course in Chinese Language from:		3
ASIAN 631	History of the Chinese Language	
ASIAN 641	History of Chinese Literature	
3. Proseminar		
ASIAN 701	Proseminar in Chinese Literature	3
4. Complete a Seminar		3
5. Six units of electives in Chinese language or literature (6-credits) ¹

¹ Linguistics students are required to take ASIAN 431 Chinese Linguistics I and ASIAN 432 Chinese Linguistics II

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

The maximum time for completing all M.A. requirements and passing the M.A. examination is three years.

Master's degree students who are absent for five or more years will not be given credit for prior work.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

The program offers limited financial assistance in the form of fellowships and teaching assistantships to candidates who are highly qualified. Applicants should consult the program website for selection criteria and application materials for assistantships.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, no more than 7 credits of graduate coursework (as defined above) completed while a UW–Madison undergraduate may be counted to satisfy degree requirements. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of graduate coursework (as defined above) taken as a UW–Madison Special student. Coursework earned five or more years prior to admission to a Master's degree is not allowed to satisfy requirements.

PROBATION

If a student's average falls below 3.0 in a given semester, the department will decide whether the student may continue on probation. A specific plan will be arranged with dates and deadlines in place in regard to removal of probationary status.

ADVISOR / COMMITTEE

Starting Fall 2018, all students are required to have two co-advisors, identified at the time of admissions. During the course of study, students meet regularly with their advisors to ensure satisfactory progress. Choice of co-advisors can be changed with consent of new advisors.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

Throughout the academic year, professional development trainings, workshops, and graduate student-organized activities take place. The Director of Graduate Studies is eager to hear from students about what interests they have for such events.

GRADUATE SCHOOL OFFICE OF PROFESSIONAL DEVELOPMENT

The Graduate School Office of Professional Development (OPD) coordinates, develops, and promotes learning opportunities to foster the academic, professional, and life skills of graduate students and postdoctoral researchers and scholars.

Professional development topics include Individual Development Plans (<https://grad.wisc.edu/pd/idp/>), communication, mentoring, grant writing, dissertation writing, career exploration, job search strategies, and more. OPD collaborates with the Writing Center, Libraries, DoIT Software Training for Students, Delta, career centers, and others to provide a wealth of resources and events tailored to the needs of UW–Madison graduate students.

The office developed and maintains DiscoverPD (<https://my.grad.wisc.edu/DiscoverPD/>), an innovative tool for UW–Madison graduate students to advance their academic and professional goals. DiscoverPD introduces nine areas (or "facets") of professional development, includes a self-assessment, and provides a customized report of areas of strength and weakness. The report comes with recommendations to help graduate students strengthen their ability within each area.

More information on campus resources for student professional development is available at Graduate Student Professional Development (<http://grad.wisc.edu/pd/>). Students may keep up-to-date by reading GradConnections (<https://grad.wisc.edu/new-students/>), the weekly newsletter for graduate students, and bookmarking the Events Calendar (<https://grad.wisc.edu/events/>) to keep tabs on upcoming workshops of interest.

LEARNING OUTCOMES

1. Demonstrate understanding of the primary field(s) of study in a historical, comparative, and global context.
2. Demonstrate understanding of the major theories, research methods, and approaches to inquiry in one of the following areas of study: Chinese literature and culture, Chinese linguistics, and Transasian studies.
3. Demonstrate ability to integrate theories into practice.
4. Demonstrate ability to articulate and communicate knowledge in specialized field(s).
5. Recognize and apply principles of ethical and professional conduct.

Yongming Zhou, Professor of Anthropology

Website: <https://www.anthropology.wisc.edu/staff/zhong-yongming/>

Area: Cultural anthropologist of China and East Asia; development; media politics; environment; drugs; ethnicity and tourism; cyberspace

CHINESE, PH.D.

UW–Madison offers an M.A. and Ph.D. degree in Chinese, specializing either in **linguistics** or in **literature and culture**. The program provides broad foundations and focused training in these two specialties, assuring that our graduates are amply prepared to teach and conduct research.

The linguistics specialty excels in areas of historical linguistics, phonology, prosody, grammaticalization, interface study between syntax and phonology, dialectology, sociolinguistics, second language acquisition, pedagogy, and pragmatics.

The literature and culture specialty covers periods from the pre-Qin through the modern and contemporary, including study of fictional and historiographical narrative, poetry, drama, film, and new media.

The graduate program in Chinese is housed in the **Department of Asian Languages and Cultures**, along with the Japanese and the Asian Languages and Cultures Program. As such, students will have opportunities to interact with all faculty, staff, and graduate students affiliated with the department to examine their area of specialty in broader regional and disciplinary contexts.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s).**

Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 10
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Thank you for your interest in our programs. The Department of Asian Languages and Cultures (ALC) offers a graduate program in Asian Languages and Cultures (<https://alc.wisc.edu/graduate-programs/asian-languages-and-cultures/>), Chinese (<https://alc.wisc.edu/graduate-programs/chinese/>) and Japanese (<https://alc.wisc.edu/graduate-programs/japanese/>).

Prior to submitting application and materials, applicants should carefully review the information regarding the program of interest and the faculty's expertise (<https://alc.wisc.edu/about/faculty/>) to determine the fit between their interest and the program. To this extent, prospective applicants may contact a specific faculty to discuss their research interest prior to submitting applications.

Applicants should also review the Graduate School's admission process (<http://guide.wisc.edu/graduate/asian-languages-cultures/chinese-phd/%20https://grad.wisc.edu/apply/>), Graduate School's minimum requirements (<http://grad.wisc.edu/admissions/requirements/>), and program requirements and information prior to submitting the online application and fee. The application fee cannot be waived or refunded.

DEADLINES

We accept applications for the fall term only.

In order to be considered for fellowships, project assistantships, and teaching assistantships (<https://alc.wisc.edu/graduate-programs/costs/>), all application materials must be in **by January 10**.

If you do not need any funding support, you may submit applications by **April 15**.

APPLICATION PROCESS

New applicants to UW-Madison apply to programs through the Graduate School application process. Complete the online Graduate application (<https://apply.grad.wisc.edu/Account/Login/?ReturnUrl=%2f>) and select the Asian Languages and Cultures (major code 596) or Chinese (major code 171) or Japanese (major code 583) program.

If you are a currently enrolled UW-Madison graduate student and would like to add or change your current graduate program to Asian Languages and Cultures, Chinese, or Japanese, you do not need to fill out the online application. You will need to submit the following to the ALC Graduate Program Coordinator (1244 Van Hise):

- ALC Departmental Application form (https://alc.wisc.edu/sites/alc.wisc.edu/files/ALC%20Departmental%20Application_internal2017.pdf)
- Grad School "Add/Change Program (<https://grad.wisc.edu/documents/change-program/>)" form (click on link and look for form in the "Academic Forms" box)
- Letters of recommendation
- CV or Resume
- Statement of purpose

The applications from current UW–Madison graduate students will be reviewed every spring, together with new applications submitted.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	All 51 credits must be completed in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.

Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	Ph.D. candidates should maintain a 3.5 GPA in all coursework and may not have any more than two Incompletes on their record at any one time.
Assessments and Examinations	All students must take a comprehensive written preliminary examination, covering fields defined in consultation with the advisor and other committee members. A dissertation proposal must be presented to the members of the Ph.D. committee and accepted within one semester of passing the preliminary examination.
Language Requirements	Advanced proficiency in modern Chinese is required. Students must demonstrate reading proficiency in classical Chinese and one additional research language. The Ph.D. language requirements are designed to increase the student's scholarly efficiency and capabilities and should be completed as early as possible. In addition to competence in English and modern and classical Chinese, the student must qualify in one language related to his or her research. Usually this will be Japanese, French, or German. This requirement may be satisfied either by showing evidence of two years of successful study of the language or by passing an examination.
Doctoral Minor/Breadth Requirements	All doctoral students are required to complete a minor.

REQUIRED COURSES

12 credits of seminars coursework are required. These include China-related courses 800 and above. ASIAN 932 Seminar in Chinese Linguistics and ASIAN 951 Seminar in Chinese Literature are offered approximately every year, and may be repeated.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, no more than 7 credits of graduate coursework (as defined above) completed while a UW–Madison undergraduate may

be counted to satisfy degree requirements. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of graduate coursework (as defined above) taken as a UW–Madison Special student. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

A semester GPA below 3.5 will result in the student being placed on academic probation. If a semester GPA of 3.5 is not attained during the subsequent semester of full time enrollment, the student may be dismissed from the program or allowed to continue for 1 additional semester based on advisor appeal to the Graduate School. A student on probation may not take the preliminary examination.

ADVISOR / COMMITTEE

Starting Fall 2018, all students are required to be supervised by co-advisors. One of the co-advisors must be a member of the Japanese Program, but the other co-advisor can be identified from related fields outside of the Japanese Program.

At the point of beginning work on the dissertation, a single dissertation advisor (most likely one of the co-advisors) may be chosen, or the co-advising arrangement may continue for the dissertation as well.

Dissertation committees must have at least 4 members representing more than one graduate program, 3 of whom must be UW-Madison graduate faculty or former UW-Madison graduate faculty up to one year after resignation or retirement. At least one of the 4 members must be from outside of the student's major program or major field (often from the minor field).

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)

- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

The program offers limited financial assistance in the form of fellowships and teaching assistantships to candidates who are highly qualified. Applicants should consult the program website for selection criteria and application materials for assistantships.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

Throughout the academic year, professional development trainings, workshops, and graduate student-organized activities take place. The Director of Graduate Studies is eager to hear from students about what interests they have for such events.

GRADUATE SCHOOL OFFICE OF PROFESSIONAL DEVELOPMENT

The Graduate School Office of Professional Development (OPD) coordinates, develops, and promotes learning opportunities to foster the academic, professional, and life skills of graduate students and postdoctoral researchers and scholars.

Professional development topics include Individual Development Plans (<https://grad.wisc.edu/pd/idp/>), communication, mentoring, grant writing, dissertation writing, career exploration, job search strategies, and more. OPD collaborates with the Writing Center, Libraries, DoIT Software Training for Students, Delta, career centers, and others to provide a wealth of resources and events tailored to the needs of UW–Madison graduate students.

The office developed and maintains DiscoverPD (<https://my.grad.wisc.edu/DiscoverPD/>), an innovative tool for UW–Madison graduate students to advance their academic and professional goals. DiscoverPD introduces nine areas (or "facets") of professional development, includes a self-assessment, and provides a customized

report of areas of strength and weakness. The report comes with recommendations to help graduate students strengthen their ability within each area.

More information on campus resources for student professional development is available at Graduate Student Professional Development (<http://grad.wisc.edu/pd/>). Students may keep up-to-date by reading GradConnections (<https://grad.wisc.edu/new-students/>), the weekly newsletter for graduate students, and bookmarking the Events Calendar (<https://grad.wisc.edu/events/>) to keep tabs on upcoming workshops of interest.

LEARNING OUTCOMES

1. Demonstrate a thorough and in-depth understanding of research problems, potentials, and limits with respect to theory, knowledge, or practice in at least one of the following areas of study: Chinese literature and culture, Chinese linguistics, and Transasian studies.
2. Formulate ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the specialized field(s).
3. Create scholarship and advance knowledge that makes a substantive contribution to the field(s).
4. Articulate and communicate complex ideas in a clear and understandable manner to both specialized and general audience.
5. Recognize, apply, and foster ethical and professional conduct.

JAPANESE, DOCTORAL MINOR

The Doctoral Minor in Japanese is intended for students outside of the department to gain familiarity with the discipline in literature or linguistics generally while also honing an area of specialization.

ADMISSIONS

- Meet with a faculty member in the Japanese studies program to discuss requirements and course options.
- Request a minor agreement form from the Graduate Program Coordinator (rweiss@wisc.edu).
- Submit the Ph.D. Minor in Japanese form and obtain the approval and signature of major professor. After you have completed the preliminary Ph.D. examinations, the Japanese studies advisor or ALC Director of Graduate Studies will sign the warrant indicating completion of the minor.

REQUIREMENTS

Students from other graduate programs intending to take a doctoral minor in Japanese should consult the director of graduate studies. For the minor, at least 12 credits in graduate-level courses are required (400 level or above; certain 300-level courses are accepted with the prior consent of the program).

PEOPLE

FACULTY

Charo D'Etcheverry, Associate Professor

website: <https://alc.wisc.edu/about/faculty/charo-detcheverry> (<https://alc.wisc.edu/about/faculty/charo-detcheverry/>)

email: cdetcheverry@wisc.edu

Areas of Expertise: Classical Japanese literature (especially court fiction & its reception and early kabuki)

Naomi Geyer, Associate Professor

website: <https://alc.wisc.edu/about/faculty/naomi-geyer> (<https://alc.wisc.edu/about/faculty/naomi-geyer/>)

Steve Ridgely, Associate Professor

website: <https://alc.wisc.edu/about/faculty/steve-ridgely> (<https://alc.wisc.edu/about/faculty/steve-ridgely/>)

email: steve.ridgely@wisc.edu

Areas of Expertise: modern Japanese literature, cultural theory, transasian studies

JAPANESE, M.A.

UW–Madison offers M.A. and Ph.D. degrees in Japanese, specializing either in linguistics or in literature and culture. The program provides broad foundations and focused training in these two specialties, assuring that our graduates are amply prepared to teach and conduct research.

The linguistics specialty excels in areas such as functional linguistics, pragmatics, discourse/conversation analysis, sociolinguistics, applied linguistics, and language pedagogy.

The literature and culture specialty covers the classical Heian through contemporary Reiwa periods, offering a wide range of courses on fiction, poetry, drama, popular culture, visual culture, cinema, acoustic culture, and cutting-edge cross-media and avant-garde topics, particularly manga and anime.

The Japanese Program is housed in the Department of Asian Languages and Cultures (<http://alc.wisc.edu/>) (ALC), along with the Chinese Program and the Asian Languages and Cultures Program. As such, students will have opportunities to interact with all faculty, staff, and graduate students affiliated with the department to examine their area of specialty in broader regional and disciplinary contexts.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 10
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.

GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Thank you for your interest in our programs. The Department of Asian Languages and Cultures (ALC) offers a graduate program in Asian Languages and Cultures (<https://alc.wisc.edu/graduate-programs/asian-languages-and-cultures/>), Chinese (<https://alc.wisc.edu/graduate-programs/chinese/>) and Japanese (<https://alc.wisc.edu/graduate-programs/japanese/>).

Prior to submitting application and materials, applicants should carefully review the information regarding the program of interest and the faculty's expertise (<https://alc.wisc.edu/about/faculty/>) to determine the fit between their interest and the program. To this extent, prospective applicants may contact a specific faculty to discuss their research interest prior to submitting applications.

Applicants should also review the Graduate School's admission process (<http://guide.wisc.edu/graduate/asian-languages-cultures/japanese-ma/%20https://grad.wisc.edu/apply/>), Graduate School's minimum requirements (<http://grad.wisc.edu/admissions/requirements/>), and program requirements and information prior to submitting the online application and fee. The application fee cannot be waived or refunded.

DEADLINES

We accept applications for the fall term only.

In order to be considered for fellowships, project assistantships, and teaching assistantships (<https://alc.wisc.edu/graduate-programs/costs/>), all application materials must be in **by January 10**.

If you do not need any funding support, you may submit applications **by April 15**.

APPLICATION PROCESS

New applicants to UW-Madison apply to programs through the Graduate School application process. Complete the online Graduate application (<https://apply.grad.wisc.edu/Account/Login/?ReturnUrl=%2f>) and select the Asian Languages and Cultures (major code 596) or Chinese (major code 171) or Japanese (major code 583) program.

If you are a currently enrolled UW-Madison graduate student and would like to add or change your current graduate program to Asian Languages and Cultures, Chinese, or Japanese, you do not need to fill out the online application. You will need to submit the following to the ALC Graduate Program Coordinator (1244 Van Hise):

- ALC Departmental Application form (https://alc.wisc.edu/sites/alc.wisc.edu/files/ALC%20Departmental%20Application_internal2017.pdf)

- Grad School "Add/Change Program (<https://grad.wisc.edu/documents/change-program/>)" form (click on link and look for form in the "Academic Forms" box)
- Letters of recommendation
- CV or Resume
- Statement of purpose

The applications from current UW–Madison graduate students will be reviewed every spring, together with new applications submitted.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

GRADUATE STUDENT COSTS

For tuition and living costs, please view the Cost of Attendance page (<https://financialaid.wisc.edu/cost-of-attendance/>). International applicants recommended for admission to the Graduate School are required to show sufficient funds to attend the University during the course of studies (tuition, food and housing, incidentals and health insurance) to be officially accepted by the Graduate School.

DEPARTMENT RESOURCES

The Department of Asian Languages and Cultures offers financial assistance in the forms of fellowships, teaching assistantships (TAs), and project assistantships (PAs). **Please make note of the deadline of January 10 for financial assistance consideration.** All necessary materials including test scores must be submitted by the deadline.

If you are an international applicant and receive a fellowship, PAs, or TAs, please make note that you will likely be required to show additional financial documentation to meet the minimum required for your official acceptance to the Graduate School.

OTHER AWARDS & FELLOWSHIPS

- **Foreign Language & Area Studies (FLAS) Fellowships:** FLAS fellowships are funded by the U.S. Department of Education and administered by the UW's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/Languages.html>) and are contingent on federal funding.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training.

Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

Complete details about FLAS at UW-Madison are available on the FLAS FAQs (<https://flas.wisc.edu/FAQS.html>) (your first stop) and

the FLAS Languages & Coordinators pages (<https://flas.wisc.edu/Languages.html>) (should you have additional questions).

- **Advanced Opportunity Fellowship (AOF):** This fellowship is awarded to highly qualified underrepresented students. To be considered for AOF funding, prospective students must be new to the Graduate School and be admissible to a graduate program at the University of Wisconsin-Madison. For further information: <https://grad.wisc.edu/diversity/>.
- **Project Assistantships.** Availability of PAs vary from one year to another, depending on the types of projects the departmental faculty are engaged in. PAs assist faculty members' research projects and/or respond to some programmatic needs of the department and other campus units.
- **Teaching Assistantships.** Availability and types of TAs vary from one year to another, depending on the department's curricular needs and the student enrollment. TAs will support a number of our language and culture courses, typically team-teaching with faculty members. If you are interested in being a teaching assistant in our language programs, you must submit the TA application and necessary materials (1-2 page written autobiography that refers to your prior teaching experience, letter of recommendation that speaks to your teaching experience, video recording of your teaching, if available) through the Graduate School application system **by January 10**.
- **Institute for Regional and International Studies (IRIS) Awards**
Office: IRIS manages its own funding opportunities (Scott Kloeck-Jenson Fellowships, IRIS Graduate Fieldwork Awards, Incubator Grants), coordinates the campus component of a number of external programs (Boren Fellowships, Fulbright US Student Program, Fulbright-Hays DDRA, Luce Scholars Program), assists students, faculty, and staff in exploring funding options, and much more. Visit: <https://iris.wisc.edu/funding/> for more information on awards. Contact Mark Lilleht, Assistant Director for Awards, with questions at awards@iris.wisc.edu & 608-265-6070.
- **Other Forms of Financial Aid:** Loans and some on-campus job openings are handled through the Office of Student Financial Aid (<https://financialaid.wisc.edu/>). Please contact them to obtain more information.
- Students may also obtain information from the **Grants Information Center** in the Memorial Library, Room 262, 728 State Street, Madison, WI 53706. Phone 608-262-3242.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide (https://registrar.wisc.edu/course-guide/)).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	Students must earn a B or above in all coursework taken as a graduate student.
Assessments and Examinations	Japanese linguistics students are required to pass two in-class exams on Japanese Pedagogy and Japanese Linguistics; and to successfully deliver an M.A. project presentation based on a research project or a pedagogy-oriented project. For Japanese literature/culture students, a final examination is required.
Language Requirements	Advanced proficiency in modern Japanese is required.

REQUIRED COURSES

Linguistics Track ¹

Code	Title	Credits
Required Courses:		
ASIAN 434	Introduction to Japanese Linguistics	3
ASIAN 713	Teaching of Japanese as a Foreign Language	3
or ASIAN 700	Teaching Asian Languages	
ASIAN 775	Japanese Applied Linguistics ((Repeatable))	3

- 18 credits out of the 30 credits need to be taken from the department. The required courses above must be part of these. You may consider taking courses on Japanese literature/culture to satisfy this portion of requirements.
- If you do not have sufficient linguistics background, you are encouraged to take LINGUIS/ANTHRO 301 Introduction to Linguistics: Descriptive and Theoretical during your first semester.
- If you had not satisfied the prerequisites for the M.A. program (the equivalent of our undergraduate major degree (<http://guide.wisc.edu/undergraduate/letters-science/asian-languages-cultures/japanese-ba/#requirements-text>) prior to your enrollment, you need to satisfy this requirement by taking appropriate level of language courses.
- You may consider taking courses on linguistics, applied linguistics, language acquisition or language education offered in Linguistics, English (Language and Linguistics), Curriculum and Instruction, French and Italian, German, Spanish and Portuguese, and so on to fulfill the requirements.
- Consult the co-advisors every semester regarding the registration of courses in the following semester.
- Most students take four semesters to complete the course work necessary for the MA degree, and officially earn the degree in the following summer (an exception to this schedule may be considered on a case-by-case basis).

- ¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Literature Track ¹

Japanese literature/culture students must take three graduate-level courses (500 level or above) in literature/culture, including at least one course at the 700 level or higher.

Code	Title	Credits
Recommended Courses:		
ASIAN 533	Readings in Early Modern Japanese Literature	3
ASIAN 573	Readings in Classical Japanese Literature	3
ASIAN 563	Readings in Modern Japanese Literature	3
ASIAN 763	Studies in Japanese Literature (Seminar in Japanese Literature)	3
Seminar in Japanese Literature		

- ¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the

degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, no more than 7 credits of graduate coursework (as defined above) completed while a UW–Madison undergraduate may be counted to satisfy degree requirements. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of graduate coursework (as defined above) taken as a UW–Madison Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

If a student's average falls below 3.0 in a given semester, the department will decide whether the student may continue on probation. A specific plan will be arranged with dates and deadlines in place in regard to removal of probationary status.

ADVISOR / COMMITTEE

Starting fall 2018, all students are required to have two co-advisors, identified at the time of admissions. During the course of study, students meet regularly with their advisors to ensure satisfactory progress.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

The maximum time for completing all M.A. requirements and passing the M.A. examination is three years.

Master's degree students who are absent for five or more years will not be given credit for prior work.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and

conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)

- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Any student who feels that they have been treated unfairly by a faculty or staff member has the right to complain about the treatment and to receive a prompt hearing of the grievance, following these grievance procedures. The complaint may concern course grades, classroom treatment, program admission, or other issues. To insure a prompt and fair hearing of any complaint, and to protect both the rights of the student and the person at whom the complaint is addressed, the procedures below are used in the School of Education.

The person whom the complaint is directed against must be an employee of the School of Education. Any student or potential student may use these procedures unless the complaint is covered by other campus rules or contracts. The following steps are available within the School of Education when a student has a grievance:

1. The student should first talk with the person against whom the grievance is directed. Most issues can be settled at this level. If the complaint is directed against a teaching assistant, and the student is not satisfied, the next step would be to talk to the TA's supervisor, who is usually the course professor. If the complaint is not resolved satisfactorily, the student may continue to step 2.
2. If the complaint does not involve an academic department, the procedure outlined in Step 4 below should be followed. If the complaint involves an academic department, the student should contact the chair of the department. The chair will attempt to resolve the problem informally. If this cannot be done to the student's satisfaction, the student may submit the grievance to the chair in writing. This must be done within 60 calendar days of the alleged unfair treatment.
3. On receipt of a written complaint, the chair will refer the matter to a departmental committee, which will obtain a written response from the person at whom the complaint is directed. This response shall be shared with the person filing the grievance. The chair will provide a timely written decision to the student on the action taken by the committee.
4. If either party is not satisfied with the decision of the department, they have five working days from receipt of the decision to contact the dean's office (at the number below), indicating the intention to appeal. If the complaint does not involve an academic department in the school, the student must contact the dean's office within 60 calendar days of the alleged unfair treatment.

5. In either case, there will be an attempt to resolve the issue informally by the associate dean. If this cannot be done, the complaint can be filed in writing with the dean's office. This must be done within 10 working days of the time the appealing party was notified that informal resolution was unsuccessful.
6. On receipt of such a written complaint, the associate dean will convene a subcommittee of the school's Equity & Diversity Committee. This subcommittee may ask for additional information from the parties involved and may hold a hearing at which both parties will be asked to speak separately. The subcommittee will then make a written recommendation to the dean of the School of Education who will render a decision. Unless a longer time is negotiated, this written decision shall be made within 20 working days from the date when the grievance was filed with the dean's office.

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, UW–System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office of Compliance (<https://compliance.wisc.edu/>), 361 Bascom Hall, 608-265-6018, uwcomplianceoffice@wisc.edu.

OTHER

The program offers limited financial assistance in the form of fellowships and teaching assistantships to candidates who are highly qualified. Applicants should consult the program website for selection criteria and application materials for assistantships.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

Throughout the academic year, professional development trainings, workshops, and graduate student-organized activities take place. The Director of Graduate Studies is eager to hear from students about what interests they have for such events.

GRADUATE SCHOOL OFFICE OF PROFESSIONAL DEVELOPMENT

The Graduate School Office of Professional Development (OPD) coordinates, develops, and promotes learning opportunities to foster the academic, professional, and life skills of graduate students and postdoctoral researchers and scholars.

Professional development topics include Individual Development Plans (<https://grad.wisc.edu/pd/idp/>), communication, mentoring, grant writing, dissertation writing, career exploration, job search strategies, and more. OPD collaborates with the Writing Center, Libraries, DoIT Software Training for Students, Delta, career centers, and others to provide a wealth of resources and events tailored to the needs of UW–Madison graduate students.

The office developed and maintains DiscoverPD (<https://my.grad.wisc.edu/DiscoverPD/>), an innovative tool for UW–Madison graduate students to advance their academic and professional goals. DiscoverPD introduces nine areas (or "facets") of professional development, includes a self-assessment, and provides a customized report of areas of strength and weakness. The report comes with recommendations to help graduate students strengthen their ability within each area.

More information on campus resources for student professional development is available at Graduate Student Professional Development (<http://grad.wisc.edu/pd/>). Students may keep up-to-date by reading GradConnections (<https://grad.wisc.edu/new-students/>), the weekly newsletter for graduate students, and bookmarking the Events Calendar (<https://grad.wisc.edu/events/>) to keep tabs on upcoming workshops of interest.

LEARNING OUTCOMES

1. Demonstrate understanding of the primary field(s) of study in a historical, comparative, and global context.
2. Formulate ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the specialized field(s).
3. Create scholarship and advance knowledge that makes a substantive contribution to the field(s).
4. Articulate and communicate complex ideas in a clear and understandable manner to both specialized and general audience.
5. Recognize, apply, and foster ethical and professional conduct.

PEOPLE

FACULTY

Charo D'Etcheverry, Associate Professor

email: tnakakubo@wisc.edu

Areas of Expertise: Second Language Acquisition of Japanese, Japanese Pedagogy, Learning Strategies

Steve Ridgely, Associate Professor

website: <https://alc.wisc.edu/about/faculty/steve-ridgely> (<https://alc.wisc.edu/about/faculty/steve-ridgely/>)

email: steve.ridgely@wisc.edu

Areas of Expertise: modern Japanese literature, cultural theory, transasian studies

JAPANESE, PH.D.

UW–Madison offers M.A. and Ph.D. degrees in Japanese, specializing either in linguistics or in literature and culture. The program provides broad foundations and focused training in these two specialties, assuring that our graduates are amply prepared to teach and conduct research.

The linguistics specialty excels in areas such as functional linguistics, pragmatics, discourse/conversation analysis, sociolinguistics, applied linguistics, and language pedagogy.

The literature and culture specialty covers the classical Heian through contemporary Reiwa periods, offering a wide range of courses on fiction, poetry, drama, popular culture, visual culture, cinema, acoustic culture, and cutting-edge cross-media and avant-garde topics, particularly manga and anime.

The Japanese Program is housed in the Department of Asian Languages and Cultures (<http://alc.wisc.edu/>) (ALC), along with the Chinese Program and the Asian Languages and Cultures Program. As such, students will have opportunities to interact with all faculty, staff, and graduate students affiliated with the department to examine their area of specialty in broader regional and disciplinary contexts.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) of the Graduate School as well as the program(s).

grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).

Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 10
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.*
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

* Due to COVID-19, there have been challenges for students attempting to take the GRE. For students applying for Fall 2021, the GRE requirement is optional. Regardless of whether GRE scores are submitted, all applications will be held in equal regard.

Thank you for your interest in our programs. The Department of Asian Languages and Cultures (ALC) offers a graduate program in Asian Languages and Cultures (<https://alc.wisc.edu/graduate-programs/asian-languages-and-cultures/>), Chinese (<https://alc.wisc.edu/graduate-programs/chinese/>) and Japanese (<https://alc.wisc.edu/graduate-programs/japanese/>).

Prior to submitting application and materials, applicants should carefully review the information regarding the program of interest and the faculty's expertise (<https://alc.wisc.edu/about/faculty/>) to determine the fit between their interest and the program. To this extent, prospective applicants may contact a specific faculty to discuss their research interest prior to submitting applications.

Applicants should also review the Graduate School's admission process (<https://grad.wisc.edu/apply/>), Graduate School's minimum requirements (<http://grad.wisc.edu/admissions/requirements/>), and program requirements and information prior to submitting the online application and fee. The application fee cannot be waived or refunded.

DEADLINES

We accept applications for the fall term only.

In order to be considered for fellowships, project assistantships, and teaching assistantships (<https://alc.wisc.edu/graduate-programs/costs/>), all application materials must be in **by January 10**.

If you do not need any funding support, you may submit applications **by April 15**.

APPLICATION PROCESS

New applicants to UW-Madison apply to programs through the Graduate School application process. Complete the online Graduate application

(<https://apply.grad.wisc.edu/Account/Login/?ReturnUrl=%2f>) and select the Asian Languages and Cultures (major code 596) or Chinese (major code 171) or Japanese (major code 583) program.

If you are a currently enrolled UW-Madison graduate student and would like to add or change your current graduate program to Asian Languages and Cultures, Chinese, or Japanese, you do not need to fill out the online application. You will need to submit the following to the ALC Graduate Program Coordinator (1244 Van Hise):

- ALC Departmental Application form (https://alc.wisc.edu/sites/alc.wisc.edu/files/ALC%20Departmental%20Application_internal2017.pdf)
- Grad School "Add/Change Program (<https://grad.wisc.edu/documents/change-program/>)" form (click on link and look for form in the "Academic Forms" box)
- Letters of recommendation
- CV or Resume
- Statement of purpose

The applications from current UW-Madison graduate students will be reviewed every spring, together with new applications submitted.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

GRADUATE STUDENT COSTS

For tuition and living costs, please view the Cost of Attendance page (<https://financialaid.wisc.edu/cost-of-attendance/>). International applicants recommended for admission to the Graduate School are required to show sufficient funds to attend the University during the course of studies (tuition, food and housing, incidentals and health insurance) to be officially accepted by the Graduate School.

DEPARTMENT RESOURCES

The Department of Asian Languages and Cultures offers financial assistance in the forms of fellowships, teaching assistantships (TAs), and project assistantships (PAs). **Please make note of the deadline of January 10 for financial assistance consideration.** All necessary materials including test scores must be submitted by the deadline.

If you are an international applicant and receive a fellowship, PAs, or TAs, please make note that you will likely be required to show additional financial documentation to meet the minimum required for your official acceptance to the Graduate School.

OTHER AWARDS & FELLOWSHIPS

- **Foreign Language & Area Studies (FLAS) Fellowships:** FLAS fellowships are funded by the U.S. Department of Education and administered by the UW's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific

languages (<https://flas.wisc.edu/Languages.html>) and are contingent on federal funding.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training.

Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

Complete details about FLAS at UW-Madison are available on the FLAS FAQs (<https://flas.wisc.edu/FAQS.html>) (your first stop) and the FLAS Languages & Coordinators pages (<https://flas.wisc.edu/Languages.html>) (should you have additional questions).

- **Advanced Opportunity Fellowship (AOF):** This fellowship is awarded to highly qualified underrepresented students. To be considered for AOF funding, prospective students must be new to the Graduate School and be admissible to a graduate program at the University of Wisconsin-Madison. For further information: <https://grad.wisc.edu/diversity/>.
- **Project Assistantships.** Availability of PAs varies from one year to another, depending on the types of projects the departmental faculty are engaged in. PAs assist faculty members' research projects and/or respond to some programmatic needs of the department and other campus units.
- **Teaching Assistantships.** Availability and types of TAs vary from one year to another, depending on the department's curricular needs and the student enrollment. TAs will support a number of our language and culture courses, typically team-teaching with faculty members. If you are interested in being a teaching assistant in our language programs, you must submit the TA application and necessary materials (1-2 page written autobiography that refers to your prior teaching experience, letter of recommendation that speaks to your teaching experience, video recording of your teaching, if available) through the Graduate School application system **by January 10**.
- **Institute for Regional and International Studies (IRIS) Awards**
Office: IRIS manages its own funding opportunities (Scott Kloeck-Jenson Fellowships, IRIS Graduate Fieldwork Awards, Incubator Grants), coordinates the campus component of a number of external programs (Boren Fellowships, Fulbright US Student Program, Fulbright-Hays DDRA, Luce Scholars Program), assists students, faculty, and staff in exploring funding options, and much more. Visit: <https://iris.wisc.edu/funding/> for more information on awards. Contact Mark Lilleleht, Assistant Director for Awards, with questions at awards@iris.wisc.edu & 608-265-6070.
- **Other Forms of Financial Aid:** Loans and some on-campus job openings are handled through the Office of Student Financial Aid (<https://financialaid.wisc.edu/>). Please contact them to obtain more information.
- Students may also obtain information from the **Grants Information Center** in the Memorial Library, Room 262, 728 State Street, Madison, WI 53706. Phone 608-262-3242.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	All 51 credits must be in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.50 GPA required.
Other Grade Requirements	Ph.D. candidates should maintain a 3.5 GPA in all coursework and may not have any more than two incompletes on their record at any one time.

Assessments and Examinations Japanese linguistics students need to complete two take-home preliminary examinations that cover the following three areas: Japanese applied linguistics / Japanese language education; research methods and data analysis; analysis of an issue that reflects the student's specific research interests.

Japanese literature/culture students are required to take a comprehensive preliminary examination.

All students must present a dissertation proposal to the members of their Dissertation Committee and have it accepted within one semester of passing the preliminary examination.

Language Requirements Japanese linguistic students are required to demonstrate basic knowledge of the structure of one Asian language other than Japanese. The language requirements must be completed by time when students finish taking the preliminary exams.

Japanese literature students must demonstrate reading proficiency in classical Japanese and one research language other than Japanese or English.

Doctoral Minor/Breadth Requirements All doctoral students are required to complete a minor.

REQUIRED COURSES

Linguistics Track ¹

Code	Title	Credits
Required Courses:		
ASIAN 434	Introduction to Japanese Linguistics	3
ASIAN 713	Teaching of Japanese as a Foreign Language	3
or ASIAN 700	Teaching Asian Languages	
ASIAN 775	Japanese Applied Linguistics (Repeatable)	3

Additional Coursework ² 18-21

Must be graduate-level courses from departments such as ASIAN, ENGL, FRENCH, ITALIAN, GERMAN, LINGUIS, SPANISH, PORTUG, CURRIC, ANTHRO, SOC, PSYCH that cover relevant topics to be determined in consultation with the co-advisor.

Minor 9-12

Dissertator Credits 12+

ASIAN 990	Thesis Research	
Total Credits		51

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

² It is recommended that students take a research methods course.

Literature Track ¹

Code	Title	Credits
<i>Required Courses:</i>		
ASIAN 533	Readings in Early Modern Japanese Literature	3
ASIAN 563	Readings in Modern Japanese Literature	3
ASIAN 573	Readings in Classical Japanese Literature	3
ASIAN 763	Studies in Japanese Literature	3
ASIAN 833	Topics in East Asian Visual Cultures	3

Additional Coursework

Must be graduate level courses from departments such as ART HIST, ASIAN, ENGL, FRENCH, ITALIAN, HISTORY that cover relevant topics to be determined in consultation with the co-advisors.

Minor	9-12
Dissertator Credits	12+
ASIAN 990	Thesis Research
Total Credits	51

Beyond the M.A. requirements (p. 143), students must take three additional courses in Japanese literature/culture (http://guide.wisc.edu/courses/e_asian/) at the 700 level or higher.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

POLICIES**GRADUATE SCHOOL POLICIES**

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES**PRIOR COURSEWORK****Graduate Work from Other Institutions**

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, no more than 7 credits of graduate coursework (as defined above) completed while a UW–Madison undergraduate may be counted to satisfy degree requirements. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of graduate coursework (as defined above) taken as a UW–

Madison special student. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

A semester GPA below 3.5 will result in the student being placed on academic probation. If a semester GPA of 3.5 is not attained during the subsequent semester of full time enrollment, the student may be dismissed from the program or allowed to continue for 1 additional semester based on advisor appeal to the Departmental Graduate Studies Committee. A student on probation may not take the preliminary examination.

ADVISOR / COMMITTEE

Starting fall 2018, all students are required to be supervised by co-advisors. One of the co-advisors must be a member of the Japanese Program, but the other co-advisor can be identified from related fields outside of the Japanese Program.

At the point of beginning work on the dissertation, a single dissertation advisor (most likely one of the co-advisors) may be chosen, or the co-advising arrangement may continue for the dissertation as well.

Dissertation committees must have at least four members representing more than one graduate program, three of whom must be UW–Madison graduate faculty or former UW–Madison graduate faculty up to one year after resignation or retirement. At least one of the four members must be from outside of the student's major program or major field (often from the minor field).

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)

- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

Throughout the academic year, professional development trainings, workshops, and graduate student-organized activities take place. The Director of Graduate Studies is eager to hear from students about what interests they have for such events.

GRADUATE SCHOOL OFFICE OF PROFESSIONAL DEVELOPMENT

The Graduate School Office of Professional Development (OPD) coordinates, develops, and promotes learning opportunities to foster the academic, professional, and life skills of graduate students and postdoctoral researchers and scholars.

Professional development topics include Individual Development Plans (<https://grad.wisc.edu/pd/idp/>), communication, mentoring, grant writing, dissertation writing, career exploration, job search strategies, and more. OPD collaborates with the Writing Center, Libraries, DoIT Software Training for Students, Delta, career centers, and others to provide a wealth of resources and events tailored to the needs of UW–Madison graduate students.

The office developed and maintains DiscoverPD (<https://my.grad.wisc.edu/DiscoverPD/>), an innovative tool for UW–Madison graduate students to advance their academic and professional goals. DiscoverPD introduces nine areas (or "facets") of professional development, includes a self-assessment, and provides a customized report of areas of strength and weakness. The report comes with recommendations to help graduate students strengthen their ability within each area.

More information on campus resources for student professional development is available at Graduate Student Professional Development (<http://grad.wisc.edu/pd/>). Students may keep up-to-date by reading GradConnections (<https://grad.wisc.edu/new-students/>), the weekly newsletter for graduate students, and bookmarking the Events

Calendar (<https://grad.wisc.edu/events/>) to keep tabs on upcoming workshops of interest.

LEARNING OUTCOMES

1. Demonstrate a thorough and in-depth understanding of research problems, potentials, and limits with respect to theory, knowledge, or practice in at least one of the following areas of study: Japanese literature and culture, Japanese linguistics, and Transasian studies.
2. Formulate ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the specialized field(s).
3. Create scholarship and advance knowledge that makes a substantive contribution to the field(s).
4. Articulate and communicate complex ideas in a clear and understandable manner to both specialized and general audience.
5. Recognize, apply, and foster ethical and professional conduct.

ASTRONOMY

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Astronomy, Doctoral Minor (p. 152)
- Astronomy, M.S. (p. 152)
- Astronomy, Ph.D. (p. 154)

PEOPLE

Faculty: Professors Heinz (chair), Barger, Bershad, Heinz, Lazarian, Mathieu, Stanimirovic, Wilcots, Zweibel; Associate Professor Townsend, Tremonti, D'Onghia.

ASTRONOMY, DOCTORAL MINOR

REQUIREMENTS

Graduate students from other programs who wish to minor in astronomy should ask the department to assign them a minor professor. The minimum requirement for a minor is 10 credits from courses at or above the 500 level offered by the Department of Astronomy, to include both ASTRON 500 Techniques of Modern Observational Astrophysics and ASTRON 700 Basic Astrophysics I.

PEOPLE

Faculty: Professors Heinz (chair), Barger, Bershad, Heinz, Lazarian, Mathieu, Stanimirovic, Wilcots, Zweibel; Associate Professor Townsend, Tremonti, D'Onghia.

ASTRONOMY, M.S.

The Department of Astronomy offers the doctor of philosophy in astronomy. Although a master's degree is offered, students are not admitted for a terminal master's degree.

The department has a long-standing reputation as one of the finest graduate astronomy and astrophysics programs in the United States. The program provides each student with a broad knowledge of modern observational and theoretical astrophysics, while emphasizing the

development of independent research skills. Beginning with the first year in the program, graduate students play an active role in the department's research programs and have access to all research facilities. As teaching assistants, they also acquire experience as astronomy educators.

The faculty are engaged in a broad range of observational and theoretical research. Topics of study include dynamical phenomena of massive stars; binary star evolution; dynamics of star clusters and star forming regions; compact objects; the interstellar and intergalactic medium; star formation; plasma astrophysics; computational fluid mechanics; magnetic fields; turbulence; the structure, kinematics, and stellar populations of nearby galaxies; active galactic nuclei; galactic winds and chemical evolution; galaxy clusters; galaxy formation and evolution; the star formation and black hole accretion history of the universe; and the development of innovative astronomical instrumentation. More information is available on the department website.

RESEARCH FACILITIES

Astronomical observations at UW–Madison trace their origin to the 15-inch refractor of Washburn Observatory, founded on the campus in 1878, and still open for public viewing. Wisconsin subsequently pioneered a multi-wavelength approach to astronomical observation. Faculty, research staff, and students are frequent observers on X-ray, ultraviolet, optical, infrared, radio, and submillimeter telescopes around the globe and in space. The department currently participates in the operation of a number of research-class observing facilities and is actively engaged in the development of cutting-edge instrumentation.

The university is a major partner in the WIYN telescope, an advanced technology 3.5m telescope at Kitt Peak, Arizona, optimized for wide-field imaging and spectroscopy, and in the 11m Southern African Large Telescope (SALT), the largest single aperture optical telescope in the Southern Hemisphere. The university is also a partner in the Sloan Digital Sky Survey IV, a massive spectroscopic survey of the distant Universe, nearby galaxies, and stars in the Milky Way. The department is actively involved in ASKAP and MEERKAT, precursor experiments for an array of radio telescopes one square kilometer in size.

The department has a long history of developing astronomical instrumentation for both ground and space-based facilities. Current efforts center on the development of a near-infrared arm for the Robert Stobie Spectrograph on SALT, and the design and testing of fiber bundle arrays for the Sloan Digital Sky Survey. UW scientists are also continuing to develop and operate an innovative and highly successful Star Tracker for sounding rocket and balloon-borne experiments. Technical support is provided by in-house electronics and machine shops.

The theory group maintains a variety of facilities to support numerical simulations. The main workhorse is a 72-node, 576-core cluster optimized for tightly coupled problems, such as hydrodynamics and magneto-hydrodynamics. A number of smaller clusters are used for development, analysis and three-dimensional visualization.

ADMISSIONS

This master's program is offered for work leading to the Ph.D. Students may not apply directly for the master's, and should instead see the admissions information for the Ph.D (p. 154).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum Credit Requirement 34 credits

Minimum Residence Credit Requirement 16 credits

Minimum Graduate Coursework Requirement Half of degree coursework (17 credits out of 34 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (<https://registrar.wisc.edu/course-guide>) (<https://registrar.wisc.edu/course-guide/>).

Overall 3.00 GPA required.

Graduate GPA Requirement

Other Grade Requirements A grade of S must be received in ASTRON 990 Research and Thesis before the preliminary examination may be taken.

Assessments and Examinations Students take a preliminary examination after completing their second academic year. Possible scores are "high pass," "low pass," and "fail." Students attaining a high pass or a low pass are eligible for a master's. Students who fail will be dismissed from the program.

To receive a terminal master's degree, students must complete a written master's thesis that is approved by their faculty advisor.

Language Requirements No language requirements.

REQUIRED Courses

Code	Title	Credits
ASTRON 500	Techniques of Modern Observational Astrophysics	3
ASTRON 700	Basic Astrophysics I	2
ASTRON 702	Basic Astrophysics II	2
ASTRON 715	Stellar Interiors and Evolution	2
ASTRON 720	The Interstellar Medium I: Basic Processes	2
ASTRON 730	Galaxies	2
ASTRON 735	Observational Cosmology	2
ASTRON 990	Research and Thesis	1-12

Breadth Requirement

All M.S. students are required to complete 12 credits of coursework in relevant departments outside of astronomy. The coursework will normally be at the 400 level and above although special exceptions may be made in the case where 300-level courses are needed to satisfy prerequisites. At least two courses must be at the 600 level and above. Courses in departments other than physics should be approved by the student's mentoring committee (or the graduate advisor if the mentoring committee has not yet been formed.)

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 17 credits of graduate coursework from other institutions. Coursework

earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

Up to 7 credits numbered 700 or above from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

With program approval, students are allowed to count no more than 15 credits of coursework numbered 400 or above taken as a UW–Madison Special student. Coursework earned five or more years prior to admission to a master's is not allowed to satisfy requirements.

PROBATION

A grade of C or lower in a core course will result in the student being placed on academic probation. This is removed after the next grade of B or better in a core course. Grades of C or lower in two or more core courses will result in dismissal.

A semester GPA below 3.0 will result in the student being placed on academic probation. This will be removed if the student attains a GPA of 3.0 or above in the subsequent semester.

ADVISOR / COMMITTEE

All students will be assigned a mentoring committee consisting of the student's advisor and two other faculty members. Students are strongly encouraged (but not required) to meet with their mentoring committees twice a year.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years will be dismissed from the program.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)

- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

University fellowships or departmental assistantships are offered, contingent on satisfactory progress. The length of guaranteed student support is four continuous years for those with no prior graduate work. Three continuous years of funding are guaranteed for those with one year or more of prior graduate work. It is almost always the case that students remain fully funded through their thesis defense.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate a broad understanding of core astrophysical topics including gravitational dynamics; radiative processes; the interstellar medium; the formation, structure, and evolution of stars and galaxies; cosmology; and observational and numerical techniques.
2. Identify sources and assemble evidence pertaining to questions or challenges in their area of concentration.
3. Synthesize knowledge from disparate sources and evaluate evidence for and against hypotheses.
4. Demonstrate academic mastery in their area of concentration, including an understanding of appropriate research methodologies, current theories, recent findings, and their broader implications.
5. Recognize and apply principles of ethical and professional conduct.

PEOPLE

Faculty: Professors Heinz (chair), Barger, Bershad, Heinz, Lazarian, Mathieu, Stanimirovic, Wilcots, Zweibel; Associate Professor Townsend, Tremonti, D'Onghia.

ASTRONOMY, PH.D.

The goal of the graduate program is to prepare capable and creative astronomers for careers in research and education. The granting of the Ph.D. degree indicates that the recipient has a mastery of the knowledge and techniques of modern astrophysics. A Ph.D. candidate is expected to be both knowledgeable of problems at the frontiers of astrophysical

research and able to carry out independent forefront research in a specialized area. Candidates are required to gain experience as teaching assistants and are encouraged to work with a variety of faculty and research staff members during the first two years of study.

The Department of Astronomy offers the doctor of philosophy in astronomy. Although a master's degree is offered, students generally are not admitted for a terminal master's degree.

The department has a long-standing reputation as one of the finest graduate astronomy and astrophysics programs in the United States. The program provides each student with a broad knowledge of modern observational and theoretical astrophysics, while emphasizing the development of independent research skills. Beginning with the first year in the program, graduate students play an active role in the department's research programs and have access to all research facilities. As teaching assistants, they also acquire experience as astronomy educators.

The faculty are engaged in a broad range of observational and theoretical research. Topics of study include dynamical phenomena of massive stars; binary star evolution; dynamics of star clusters and star forming regions; compact objects; extrasolar planets; the interstellar and intergalactic medium; star formation; plasma astrophysics; computational fluid mechanics; magnetic fields; turbulence; the structure, kinematics, and stellar populations of nearby galaxies; active galactic nuclei; galactic winds and chemical evolution; galaxy clusters; galaxy formation and evolution; the star formation and black hole accretion history of the universe; and the development of innovative astronomical instrumentation. More information is available on the department website.

RESEARCH FACILITIES

Astronomical observations at UW–Madison trace their origin to the 15-inch refractor of Washburn Observatory, founded on the campus in 1878, and still open for public viewing. Wisconsin subsequently pioneered a multi-wavelength approach to astronomical observation. Faculty, research staff, and students are frequent observers on X-ray, ultraviolet, optical, infrared, radio, and submillimeter telescopes around the globe and in space. The department currently participates in the operation of a number of research-class observing facilities and is actively engaged in the development of cutting-edge instrumentation.

The university is a major partner in the WIYN telescope, an advanced technology 3.5m telescope at Kitt Peak, Arizona, optimized for wide-field imaging and spectroscopy, and in the 11m Southern African Large Telescope (SALT), the largest single aperture optical telescope in the Southern Hemisphere. The university is also a partner in the Sloan Digital Sky Survey IV, a massive spectroscopic survey of the distant Universe, nearby galaxies, and stars in the Milky Way. NOEMA, our newest telescope partner, is the most powerful millimeter radio telescope of the Northern Hemisphere and one of the most advanced facilities existing today for radio astronomy. The department is also actively involved in ASKAP and MEERKAT, precursor experiments for an array of radio telescopes one square kilometer in size.

The department has a long history of developing astronomical instrumentation for both ground and space-based facilities. Current efforts center on the development of a near-infrared spectrograph on SALT. UW–Madison scientists are also continuing to develop and operate an innovative and highly successful Star Tracker for sounding rocket and balloon-borne experiments. Technical support is provided by in-house electronics and machine shops.

The theory group uses a variety of facilities to support numerical modeling. The main workhorse comprises 24 dedicated nodes of the campus High Performance Computing (HPC) cluster, each containing 20 CPU cores and 128 GB of RAM, optimized for tightly coupled problems such as magnetohydrodynamical and N-body simulations. A number of smaller clusters within the Astronomy Department are used for development, analysis and three-dimensional visualization.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s).**

Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

To enter as a graduate student, an applicant must have undergraduate preparation that includes at least three years of college physics and mathematics through differential equations. Applicants are judged on the basis of previous academic record, letters of recommendation, personal statement, research experience, and Graduate Record Exam (GRE) scores. Admission is competitive and is for the fall only.

Applicants for admission must submit the following via the Graduate School online application:

- Transcripts of all undergraduate work
- Statement on reasons for graduate study in astronomy
- Three letters of recommendation from people well acquainted with past academic work
- Graduate Record Exam (GRE) scores (general test)
- International students must submit scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS)

Financial support is provided through university fellowships (incoming graduate students only) or department assistantships. To compete for fellowships awarded by the university, students must submit all

application materials (including the GRE scores) via the online Graduate School Application by December 31.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

FINANCIAL SUPPORT FOR PHD STUDENTS IN ASTRONOMY

University fellowships or departmental assistantships are offered, contingent on satisfactory progress. The length of guaranteed student support is four continuous years for those with no prior graduate work. Three continuous years of funding are guaranteed for those with one year or more of prior graduate work. It is almost always the case that students remain fully funded through their thesis defense.

Teaching Assistants (TA) assist faculty members in the introductory Astronomy courses, generally by teaching discussion and laboratory sections. A graduate student is required to TA at least one semester. Research Assistants (RA) work with a major professor on a mutually agreed research program.

Tuition is remitted for TA and RA appointments. However, all students must still pay the segregated fees, which are about \$725 per semester for full-time students, and any additional university fees.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum Credit Requirement

Minimum Residence Credit Requirement

Minimum Graduate Coursework Requirement Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (<https://registrar.wisc.edu/course-guide> (<https://registrar.wisc.edu/course-guide/>)).

Overall Graduate GPA Requirement

Other Grade Requirements A GPA of at least 3.0 is required in the core (required) courses and a student may have no more than 3 credits of a C or below. A grade of S must be received in ASTRON 990 Research and Thesis before the preliminary examination can be taken.

Assessments and Examinations Students take a preliminary examination after completing their second academic year. Possible scores are "high pass," "low pass," and "fail." Students attaining a high pass are eligible to continue toward their Ph.D. Students obtaining a low pass may retake the exam or portions of the exam pending approval by the faculty. If this approval is not granted or students do not wish to retake the exam, they may complete the requirements for a terminal masters. Students who fail the exam will be dismissed from the program.

Doctoral candidates must submit a written dissertation proposal and make an oral presentation to the faculty by the end of their third academic year.

A written dissertation must be submitted and successfully defended before a faculty committee.

Language Requirements No language requirements.

Doctoral Minor / Breadth Requirements	All doctoral students are required to complete a minor. They may either meet the minor requirements set by an external department (typically physics), or they may choose a distributed minor. In the latter case, 9 credits must be taken from two or more relevant departments outside of astronomy. The coursework will normally be at the 400 level and above although special exceptions may be made in the case where 300-level courses are needed to satisfy prerequisites. At least two courses must be completed in graduate-level coursework, and one must be completed in physics. Courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide. Courses for the distributed minor or for minors outside of physics should be approved by the student's mentoring committee (or the graduate advisor if the mentoring committee has not yet been formed.)
---------------------------------------	---

REQUIRED COURSES

Code	Title	Credits
ASTRON 500	Techniques of Modern Observational Astrophysics	3
ASTRON 700	Basic Astrophysics I	2
ASTRON 702	Basic Astrophysics II	2
ASTRON 715	Stellar Interiors and Evolution	2
ASTRON 720	The Interstellar Medium I: Basic Processes	2
ASTRON 730	Galaxies	2
ASTRON 735	Observational Cosmology	2
ASTRON 990	Research and Thesis	1-12

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 34 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

Up to 7 credits numbered 700 or above from a UW-Madison undergraduate degree are allowed to count toward the degree.

UW-Madison University Special

With program approval, students are allowed to count no more than 15 credits of coursework numbered 400 or above taken as a UW-Madison

Special student. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

A grade of C or lower in a core course will result in the student being placed on academic probation. This is removed after the next grade of B or better in a core course. Grades of C or lower in two or more core courses will result in dismissal.

A semester GPA below 3.0 will result in the student being placed on academic probation. This will be removed if the student attains a GPA of 3.0 or above in the subsequent semester.

ADVISOR / COMMITTEE

All students will be assigned a mentoring committee consisting of the student's advisor and two other faculty members. Students are strongly encouraged (but not required) to meet with their mentoring committees twice a year in the first two years and annually thereafter.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)

- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

University fellowships or departmental assistantships are offered, contingent on satisfactory progress. The length of guaranteed student support is four continuous years for those with no prior graduate work. Three continuous years of funding are guaranteed for those with one year or more of prior graduate work. It is almost always the case that students remain fully funded through their thesis defense.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

The goal of the graduate program is to prepare capable and creative astronomers for careers in research and education. Each student will have both a graduate student mentor and a set of three faculty mentors, called a "Committee of Three" (or Co3 for short). The Co3's are expected to evolve into a Thesis Committee as the student progress towards their degree. The Committee of Three fosters more departmental collaborations and provides students with a broader advising perspective and regular feedback on their progress.

LEARNING OUTCOMES

1. Demonstrate a broad understanding of core astrophysical topics including gravitational dynamics; radiative processes; the interstellar medium; the formation, structure, and evolution of stars and galaxies; cosmology; and observational and numerical techniques.
2. Demonstrate academic mastery in their area of concentration, including a deep understanding of current theories, recent findings, and their broader implications.
3. Evaluate scientific literature and use it to construct theoretical frameworks and testable predictions for their own research projects.
4. Foster ethical and professional conduct.
5. Develop and complete original research that substantively advances a specific field of study. In so doing, they will cultivate their critical thinking skills, creativity, and independence.
6. Utilize modern instrumental, observational, or theoretical research techniques in their analysis.
7. Formulate ideas, designs, or techniques that advance the boundaries of knowledge within their field.
8. Critically evaluate the robustness and limits of conclusions drawn from their research and the potential for future studies.
9. Write clear and concise research articles for publication in refereed journals.
10. Critically evaluate the robustness and limits of conclusions drawn from their research and the potential for future studies.
11. Write clear and concise research articles for publication in refereed journals.

12. Deliver articulate oral presentations on their research to diverse audiences ranging from academic departments to the general public.
13. Serve as teaching assistants for at least one semester. Communicate scientific ideas in a clear and understandable manner, employ techniques that enhance student engagement, and develop and carry out assessments of student progress.

ATMOSPHERIC AND OCEANIC SCIENCES, DOCTORAL MINOR

REQUIREMENTS

The graduate chair or any other professor in the Department of Atmospheric and Oceanic Sciences may serve as a minor professor on a Ph.D. committee. The graduate chair will certify that the minor course requirements have been met.

The minor requirement is 9 or more credits of any ATM OCN course at or above the 400 level. Overall GPA for the minor must be at least 3.0.

ATM OCN courses assume a prerequisite background in college physics (two semesters), calculus (three semesters), and chemistry (one semester).

ATMOSPHERIC AND OCEANIC SCIENCES, M.S.

The department offers two named options for an M.S. degree. The Research M.S. named option (<http://guide.wisc.edu/graduate/atmospheric-oceanic-sciences/atmospheric-oceanic-sciences-ms/atmospheric-oceanic-sciences-research-program-ms/>) can be earned as part of the path toward a Ph.D. degree or earned as a terminal degree. The Professional M.S. named option (<http://guide.wisc.edu/graduate/atmospheric-oceanic-sciences/atmospheric-oceanic-sciences-ms/atmospheric-oceanic-sciences-professional-program-ms/>) is for students who are focused on developing the practical skills to succeed in meteorological consulting, risk management, and operational forecasting. Both degrees offer significant opportunities within the public and private sectors.

The department currently has 15 faculty members and many staff members involved in large and energetic research programs. Particular strengths include climate/earth system science, geophysical fluid dynamics, remote sensing, planetary boundary layer, atmospheric chemistry, weather systems and prediction, and oceanography. Course concentrations within the existing degree program are offered in the areas of weather prediction, earth system science, remote sensing, and oceanography.

The department has close ties with the Center for Climatic Research, the Nelson Institute for Environmental Studies, Center for Sustainability and the Global Environment, Space Science and Engineering Center, Cooperative Institute for Meteorological Satellite Studies, National Weather Service, and the State Climatologist Office.

Job opportunities have been strong within the United States for people with graduate degrees in atmospheric and oceanic sciences. The government hires a large number of meteorologists with advanced degrees, as do many private forecasting companies and air quality consulting firms. In addition, there are openings for experts at various government and university research labs.

ADMISSIONS

Students apply to the M.S. in Atmospheric and Oceanic Sciences through one of the named options:

- Research Program (<http://guide.wisc.edu/graduate/atmospheric-oceanic-sciences/atmospheric-oceanic-sciences-ms/atmospheric-oceanic-sciences-research-program-ms/>)
- Professional Program (<http://guide.wisc.edu/graduate/atmospheric-oceanic-sciences/atmospheric-oceanic-sciences-ms/atmospheric-oceanic-sciences-professional-program-ms/>)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS CURRICULAR REQUIREMENTS

Requirements Detail

Minimum	30 credits
Credit Requirement	

Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	At least half of degree coursework (15 out of 30 total credits) must be in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (http://my.wisc.edu/CourseGuideRedirect/BrowseByTitle (http://my.wisc.edu/CourseGuideRedirect/BrowseByTitle)).
Overall Graduate GPA Requirement	3.00 GPA required
Other Grade Requirements	See Named Options for policy information.
Assessments and Examinations	See Named Options for policy information.
Language Requirements	No language requirements.

REQUIRED COURSES

Select a Named Option (p. 160) for required courses.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Science in Atmospheric and Oceanic Sciences must select one of the named options:

View as listView as grid

- **ATMOSPHERIC AND OCEANIC SCIENCES: PROFESSIONAL PROGRAM, M.S. ([HTTP://GUIDE.WISC.EDU/GRADUATE/ATMOSPHERIC-OCEANIC-SCIENCES/ATMOSPHERIC-OCEANIC-SCIENCES-MS/ATMOSPHERIC-OCEANIC-SCIENCES-PROFESSIONAL-PROGRAM-MS/](http://GUIDE.WISC.EDU/GRADUATE/ATMOSPHERIC-OCEANIC-SCIENCES/ATMOSPHERIC-OCEANIC-SCIENCES-MS/ATMOSPHERIC-OCEANIC-SCIENCES-PROFESSIONAL-PROGRAM-MS/))**
- **ATMOSPHERIC AND OCEANIC SCIENCES: RESEARCH PROGRAM, M.S. POLICIES

Students should refer to one of the named options for policy information:

- Research Program (<http://guide.wisc.edu/graduate/atmospheric-oceanic-sciences/atmospheric-oceanic-sciences-ms/atmospheric-oceanic-sciences-research-program-ms/>)
- Professional Program (<http://guide.wisc.edu/graduate/atmospheric-oceanic-sciences/atmospheric-oceanic-sciences-ms/atmospheric-oceanic-sciences-professional-program-ms/>)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

Please go to the AOS handbook (<http://aoswebsite.aos.wisc.edu/academics/graduate/handbook/career/>) to see the professional development resources available to our graduate students.

LEARNING OUTCOMES

1. (Research Program or Professional Program): Acquisition of a broad foundation of knowledge contained in our graduate-level core courses
2. (Research Program) Have learned the historical origin and significance of certain issues central to the field by conducting original research
3. (Research Program or Professional Program): Have developed a good problem-solving skill that prepares them to become efficient supporting scientists for research institutions or effective career atmospheric professionals in operational units of government or commercial institutions.
4. (Research Program): Articulate, critique, or elaborate the theories, research methods, and approaches to inquiry or schools of practice in the field of study.
5. (Research Program or Professional Program): Recognize and apply principles of ethical and professional conduct.
6. (Professional Program): Gain practical hands-on experience in professional atmospheric science careers

ATMOSPHERIC AND OCEANIC SCIENCES, PH.D.

A Doctor of Philosophy degree is offered with a major in atmospheric and oceanic sciences. Candidates may enter with a Master's degree or for more qualified students, directly after earning a bachelor's degree.

In atmospheric and oceanic sciences, classical physics is applied to describe the behavior of the fluids that compose the atmosphere/ocean/earth system. Influences of solar and terrestrial radiation, clouds and storms, natural and anthropogenic pollution, dynamical forces and turbulence can affect both the weather and longer climatic variations. The department uses computer simulations, passive and active remote sensing, in situ weather instruments, and laboratory experiments to study atmospheric phenomena.

The department has 15 faculty members and many staff involved in large and energetic research programs. Particular strengths include climate/earth system science, geophysical fluid dynamics, remote sensing, planetary boundary layer, atmospheric chemistry, weather systems and prediction, and oceanography. Course concentrations within the existing degree program are offered in the areas of weather prediction, earth system science, remote sensing, and oceanography.

Course and research emphasis of the department's oceanographic component is in physical oceanography, ocean-atmosphere climate dynamics, and marine geochemical cycles. A concentration of courses in oceanography can be used to satisfy the atmospheric and oceanic sciences doctoral minor.

The department has close ties with the Center for Climatic Research, the Nelson Institute for Environmental Studies, Center for Sustainability and the Global Environment, Space Science and Engineering Center, Cooperative Institute for Meteorological Satellite Studies, National Weather Service, and the State Climatologist Office.

Financial assistance is available to qualified students. The typical sources of funding are research and teaching assistantships. All applicants are considered for any available assistantships. Financial aid is handled separately from admission in the department. Students generally hear about their admission status well before any decision about financial aid is made.

Job opportunities have been strong within the United States for people with graduate degrees in atmospheric and oceanic sciences. The government hires a large number of meteorologists with advanced degrees, as do many private forecasting companies and air quality consulting firms. In addition, there are openings for experts at various government and university research labs.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s).**

Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	February 1
Spring Deadline	December 1
Summer Deadline	March 1
GRE (Graduate Record Examinations)	Not required but may be considered if available.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

ADMISSION REQUIREMENTS

Graduate Record Exam (GRE)

Not required but may be considered if available.

Prerequisites for Graduate Work

Math—three semesters college calculus sequence for science/engineering majors plus differential equations

Physics—two semesters calculus-based general college physics

Chemistry—one semester general chemistry

A minimum undergraduate GPA of 3.0 is required for admission.

International students must submit scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS).

Prior work in atmospheric or oceanic sciences is not required, but it is beneficial. Knowledge of computer programming is recommended.

Applications are also judged on academic record, letters of recommendation, prior research experience, and the statement of purpose. PhD students must have an advisor identified before they can be recommended for admission.

For additional information on apply for admission, please go to the AOS website. (<http://aoswebsite.aos.wisc.edu/academics/graduate/admission/>)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from

the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Financial assistance is available to qualified students. The typical sources of funding are research and teaching assistantships. All applicants are considered for any available assistantships. Financial aid is handled separately from admission in the department. Students generally hear about their admission status well before any decision about financial aid is made.

Prospective students should see the ATM OCN website (<http://aoswebsite.aos.wisc.edu/academics/graduate/stipends-fees/>) for additional funding information.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum Credit Requirement 51 credits

Minimum Residence Credit Requirement 32 credits

Minimum Graduate Coursework Requirement Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.

Overall Graduate GPA Requirement 3.00 GPA required.

Other Grade Requirements All grades must be C or better to count towards the degree.

The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades.

Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.

Assessments and Examinations Students wishing to pursue a Ph.D. are required to take a qualifying examination prior to forming a Ph.D. committee (see above regarding the formation of a Ph.D. committee). For more information about the qualifying examination, please consult the department's Qualifying Exam FAQs (http://www.aos.wisc.edu/education/Qual_ExamFAQ.html).

Ph.D. students are required to complete a preliminary examination by the Ph.D. committee prior to becoming a Ph.D. candidate. Prior to the preliminary examination the student works with the major professor to define an appropriate research topic. This topic is written into a several page research proposal that is given to the Ph.D. committee members a few weeks prior to the preliminary examination.

Language Requirements No language requirements.

Doctoral Minor/Breadth Requirements All doctoral students are required to complete two broadening requirements: a minor, and a supplemental requirement.
Minor requirement:

A minor program consists of Option A (external) 10 or more course credits in one discipline or Option B (distributed) 10 or more credits in one or more departments and can include coursework in the major department. Selection of Option A requires approval of the minor department. Selection of Option B requires approval of the major department. The department monitors minor requirements.

Supplemental requirement:

The supplemental requirement is specified by the Ph.D. committee during the first Ph.D. committee meeting. Examples include (but are not limited to): an augmented minor, substantial foreign language skill, significant professional or field experience, or interdisciplinary coursework.

REQUIRED COURSES

At least 15 credits are from lecture courses numbered 600 or above in the department. Seminars, research credits, and audited courses are not included.

An additional 10 (at least) credits are taken to satisfy the minor requirement (see below). These credits may be from the department, but

cannot be used to satisfy the first requirement (15 credits from lecture courses numbered 600 or above in the department).

Students are required to take ATM OCN 900 Seminar-Meteorology.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 19 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, students are allowed to count no more than 7 credits of graduate coursework taken as an undergraduate at UW–Madison, as long as those credits were not applied toward an undergraduate degree. Coursework earned five or more years prior to admission to a master's degree or earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count no more than 15 credits of coursework numbered 300 or above taken as a UW–Madison Special student. Coursework earned five or more years prior to admission to a master's degree or earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

A semester GPA below 3.0 will result in the student being placed on academic probation. If a semester GPA of 3.0 is not attained during the subsequent semester of full time enrollment (or 12 credits of enrollment if enrolled part-time) the student may be dismissed from the program or allowed to continue for 1 additional semester based on advisor appeal to the Graduate School.

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

Probation is based on student status. The status of a student can be one of three options:

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).

3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

ADVISOR / COMMITTEE

A Ph.D. committee is required in order to become a Ph.D. student. The student, under the guidance of the major professor, must form a committee of five professors consisting of the major professor, three other professors from our department, and one professor from outside the department (often from the minor department). Additional members may be added, if appropriate. Adjunct faculty can be included among the five committee members. If the committee dissolves for any reason, the candidate cannot continue in the Ph.D. program unless a new committee is formed.

The first meeting of the Ph.D. committee should normally occur after the student completes the qualifying examination, but within the same semester as the qualifying examination. Potential committee members, in deciding whether to form a Ph.D. committee, use results from the qualifying examination as well as additional information about a student's suitability for pursuing a Ph.D.

All students are required to conduct a yearly progress report meeting with their thesis committee after passing the preliminary examination.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

The Ph.D. degree should be completed within five years after establishing a Ph.D. committee. For additional time constraints please consult the Graduate School Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>).

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)

- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

n/a

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Have an in-depth knowledge of the fields that are relevant to their research areas by taking appropriate courses not only in atmospheric and oceanic sciences, but also in related disciplines including mathematics, statistics, physics, and engineering.
2. Ask the right scientific questions: What are the important scientific problems in this field? Can a problem be solved by the available resources in a reasonable time? How to design a scientific approach to tackle the problem?
3. Read original papers of their research field to understand how previous investigators approach the problem and how they can improve on previous results.
4. Articulate research problems, potentials, and limits with respect to theory, knowledge, or practice within the field of study.
5. Formulate ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the field of study.
6. Fosters ethical and professional conduct.

BACTERIOLOGY

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Bacteriology, M.S. (p. 164)
- Microbiology, Doctoral Minor (p. 168)
- Microbiology, M.S. (p. 169)
- Microbiology, Ph.D. (p. 171)

PEOPLE

Faculty: Professors Charles Kaspar (chair), Jean-Michel Ané, Cameron Currie, Timothy Donohue, Marcin Filutowicz, Katrina Forest, Richard Gourse, Eric Johnson, Katherine McMahon, Michael Thomas, Jade (Jue) Wang, Karen Wassarman, Jae-Hyuk Yu; Associate Professor Garret Suen; Assistant Professors Daniel Amador-Noguez, Karthik Anantharaman, Briana Burton, Federico Rey, Kalin Vetsigian. In addition, many faculty members from other departments supervise training of graduate students.

BACTERIOLOGY, M.S.

The primary goal of the master of science (M.S.) degree program is to give students a solid understanding of the scientific process and to provide the opportunity to obtain advanced training in microbiology. The master's degree is the terminal degree in this program, and completion of this degree does not allow automatic admission to a Ph.D. program.

This program provides the opportunity to tailor a curriculum of advanced coursework and research to fit the needs of each student, with two different tracks (coursework or research tracks, see below). Students may acquire a general overview of microbiology or may focus on a specialized subject area in microbiology such as bacterial physiology, molecular microbiology, food microbiology, environmental microbiology, biotechnology or medical microbiology. The self-tailored program must meet the requirements of the Department of Bacteriology and the Graduate School for the M.S. degree. Full-time students can expect to complete the M.S. degree in about two years. The M.S. program also can accommodate part-time students with consequent increased time to degree.

The coursework track serves students who want to acquire knowledge about current topics in microbiology primarily in a classwork setting. Examples of students who benefit from this track are those currently employed in research, clinical, or biotechnology labs seeking an advanced degree; lawyers and law students who wish to specialize in biotechnology or environmental law; and students preparing for health professions.

The research track serves students who seek to improve scientific research skills. This track is chosen by laboratory technicians who want advanced technical training; students seeking laboratory skills for employment; and students who desire laboratory experience and advanced coursework before applying to Ph.D. programs.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	June 1
Spring Deadline	October 15
Summer Deadline	March 15
GRE (Graduate Record Examinations)	Not required but may be considered if available.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

APPLICATION DEADLINES

- To begin fall semester:
 - Early deadline: March 1 (notification by April 1)
 - Regular deadline: June 1 (notification by July 1)
- To begin spring semester:
 - Deadline: October 15 (notification by November 15)

Although students may apply to begin the program in any semester, summer application is not encouraged. Students pursuing the research option who have found a lab in which to carry out their research may apply for summer admission. Students who plan to pursue the coursework option will be considered for summer admission only if they need to take a prerequisite or general requirement course that is offered in the summer.

MINIMUM COURSEWORK FOR ADMISSIONS

Students applying to the program should have taken some or all of these courses prior to admission to the program for either coursework or research tracks. Students may correct deficiencies (up to 6 credits) after admission, but these credits do not apply toward the credits of coursework required for the degree, and all deficiencies must be absolved before completion of the master's degree.

- Biology: two semesters
- Chemistry: four semesters of chemistry including two organic with lab component
- Math: one course in math beyond algebra/trigonometry such as calculus, statistics, or computer science
- Physics: two semesters; exceptions will be considered.

The Graduate Record Examination (GRE) is not required for admission to the M.S. program, but scores may be submitted. International students whose undergraduate instruction was not in English must provide evidence of English proficiency by taking the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Financial aid for students in the M.S. program is not available from the department. Some M.S. students in the research track are supported through their research advisor, but such support is available on a very limited basis.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

Language Requirements	n/a

REQUIRED COURSES

The following courses (or equivalent) are required for completion of the M.S. degree for both the coursework and research tracks, and may be fulfilled by courses taken prior to entrance to the M.S. program or as part of the M.S. program.

Code	Title	Credits
MICROBIO 303	Biology of Microorganisms	3
MICROBIO 526	Physiology of Microorganisms	3
MICROBIO 470	Microbial Genetics & Molecular Machines	3
BIOCHEM 501	Introduction to Biochemistry	3

There are two tracks for the M.S. degree: one involving primarily formal coursework with no research requirement (coursework option (https://bact.wisc.edu/pro_ms.php?i=ms3)), and the other requiring significant laboratory research with a formal written component describing and analyzing the work performed (research option (https://bact.wisc.edu/pro_ms.php?i=ms4)).

Coursework Track ¹

- At least nine credits of formal coursework must be at the 600 level or above.
- Research (990), special problems (699, 999), and coordinative internship (399) credits may constitute up to nine credits of the

- 30 required, but cannot be used to satisfy the requirement for nine credits of formal coursework at the 600 or above level.
- General coursework requirements (see above), can be counted towards the 30 credits if taken after entering the program.
- Seminar credits and one-credit courses graded solely on attendance / participation will NOT count toward the 30 credits.
- Students may request to have up to eight graduate microbiology or biochemistry course credits taken prior to entering the MS program apply toward the 30-credit minimum. The student must provide verification that those credits were not used to satisfy any degree, major, or University requirements from any prior degree they have earned. Decisions are made by the M.S. program advisor.

¹ Note: These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Research Track ¹

- At least ten credits of formal graduate-level coursework is required; five of these credits must meet at least one of the following criteria.
 - Graduate course at the 600 level or above
 - Courses that otherwise adhere to the Graduate School definition of Graduate level classes (courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (<https://registrar.wisc.edu/course-guide/>)).
 - By approval of M.S. program advisor. See below for a list of commonly-taken courses.
- A minimum of 12 credits of independent research is required, although more are strongly encouraged.
- Seminar credits and one-credit courses graded solely on attendance / participation will NOT count toward the 30 credits.
- Students may request to have up to three graduate microbiology or biochemistry course credits taken prior to entering the MS program apply toward the 10-credit minimum. The student must provide verification that those credits were not used to satisfy any degree, major, or University requirements from any prior degree they have earned. Decisions are made by the M.S. program advisor.

¹ Note: These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Courses commonly taken by students in the Research Track:

Code	Title	Credits
MICROBIO 607	Advanced Microbial Genetics	3
MICROBIO/ BIOCHEM/ GENETICS 612	Prokaryotic Molecular Biology	3
MICROBIO 625	Advanced Microbial Physiology	3
MICROBIO 632	Industrial Microbiology/ Biotechnology	2
MICROBIO/ BMOLCHEM 668	Microbiology at Atomic Resolution	3
MICROBIO 710	Microbial Symbiosis	3
MICROBIO 875	Special Topics (Topic: Bioinformatics for Microbiologists)	1-4

M M & I/PATH-BIO 528	Immunology	3
M M & I/POP HLTH 603	Clinical and Public Health Microbiology	5
M M & I/PATH-BIO 790	Immunology of Infectious Disease	3
BIOCHEM 601	Protein and Enzyme Structure and Function	2
BIOCHEM/GENETICS/MD GENET 620	Eukaryotic Molecular Biology	3
STAT/F&W ECOL/HORT 571	Statistical Methods for Bioscience I	4
ZOOLOGY 430	Comparative Anatomy of Vertebrates	5

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With permission of the program advisor, up to 8 graduate course credits from another university may be applied toward the credit requirements.

UW–Madison Undergraduate

No credits from the UW–Madison undergraduate degree may count toward the credit requirements.

UW–Madison University Special

No credits from the UW–Madison University Special student career may count toward the credit requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects students to meet with their advisor on a regular basis.

CREDITS PER TERM ALLOWED

15 credits (recommended: only 8–10 credits per semester, or 4–5 credits per summer term)

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.

2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
 - a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
 - b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
 - c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

OTHER

The M.S. in Bacteriology program does not provide funding for any student in the program and financial support for master's students is limited. Because the program is flexible, students are able to work part or

full-time at jobs on or off campus while enrolled. Students in the research option may be paid as research assistants by their research mentor if funds are available.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. The department's goal is to ensure that every student demonstrates understanding of the central principles of microbiology and the necessary skills for a professional career in microbiology.
2. The department's goal is to ensure that every student demonstrates the ability to articulate and critique the approaches and findings in the microbiology literature.
3. The department's goal is to ensure that every student demonstrates capability to identify sources, generate, and assemble data or evidence pertaining to questions in microbiology.
4. The department's goal is to ensure that every student demonstrates effective writing and speaking skills.
5. The department's goal is to ensure that every student demonstrates personal and professional ethics.

PEOPLE

Faculty: Professors Charles Kaspar (chair), Jean-Michel Ané, Cameron Currie, Timothy Donohue, Marcin Filutowicz, Katrina Forest, Richard Gourse, Eric Johnson, Katherine McMahon, Michael Thomas, Jade (Jue) Wang, Karen Wasserman, Jae-Hyuk Yu; Associate Professor Garret Suen; Assistant Professors Daniel Amador-Noguez, Karthik Anantharaman, Briana Burton, Federico Rey, Kalin Vetsigian. In addition, many faculty members from other departments supervise training of graduate students.

MICROBIOLOGY, DOCTORAL MINOR

REQUIREMENTS

The minor in microbiology requires 10 credits of courses at the 300 level or above offered by the departments of Medical Microbiology and Immunology (M M & I courses (http://guide.wisc.edu/courses/m_m_i/)) or Bacteriology (MICROBIO courses (<http://guide.wisc.edu/courses/microbio/>)). At least half of the credits must come from the Microbiology Doctoral Training Program (MDTP) course list (p. 172). At least one member of the student's thesis committee must be faculty in either the bacteriology or medical microbiology and immunology departments, and will serve as the student's minor advisor.

PEOPLE

Faculty: Professors Nancy Keller (program director, Medical Microbiology and Immunology), and Garret Suen (vice-director, Bacteriology) lead the current MDTP Steering Committee. For a list of more than 90 participating faculty, see the program website (<http://www.microbiology.wisc.edu/>) or contact the program office.

MICROBIOLOGY, M.S.

This award is a non-admitting, terminal degree for Ph.D. students in Microbiology (p. 171) who have completed appropriate coursework but leave the program prior to completion of the doctorate degree requirements.

ADMISSIONS

This master's program is offered for work leading to the Ph.D. Students may not apply directly for the master's, and should instead see the admissions information for the Ph.D (p. 171).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum 30 credits

Credit

Requirement

Minimum 16 credits

Residence

Credit

Requirement

Minimum Graduate Coursework Requirement Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (<https://registrar.wisc.edu/course-guide> (<https://registrar.wisc.edu/course-guide/>)).

Overall 3.00 GPA required.

Graduate GPA

Requirement

Other Grade Requirements The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.

Assessments and Examinations Contact the program for information on required assessments and examinations.

Language Requirements Contact the program for information on any language requirements.

REQUIRED COURSES

Students can only earn the M.S. in Microbiology on the path to the Ph.D. Please refer to the course requirements for the Ph.D. (p. 172)

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

For well-prepared advanced students, the program may accept prior graduate coursework from other institutions toward the minimum graduate degree credit and minimum graduate coursework (50%) requirement. The minimum graduate residence credit requirement can

be satisfied only with courses taken as a graduate student at UW–Madison. Coursework earned more than five years prior to admission to the master's degree may not be used to satisfy requirements.

UW–Madison Undergraduate

For well-prepared advanced students, the program may decide to accept up to 7 credits numbered 300 or above completed at UW–Madison toward fulfillment of minimum degree and minor credit requirements. This work would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above. Coursework earned more than five years prior to admission to the master's degree may not be used to satisfy requirements.

UW–Madison University Special

The program may decide to accept up to 15 University Special student credits as fulfillment of the minimum graduate residence, graduate degree, or minor credit requirements on occasion as an exception (on a case-by-case basis). UW–Madison coursework taken as a University Special student would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above. Coursework earned more than five years prior to admission to the master's degree may not be used to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies. A student's committee is required to have five faculty members, two of which must hold appointments in either Bacteriology or Medical Microbiology and Immunology.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)

- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

The MDTP will follow the College of Agricultural and Life Sciences Grievance Policy. For clarity, the MDTP program director, vice-director and/or the program coordinator shall serve as grievance advisors. The grievance advisor will refer complaints to the MDTP Steering Committee.

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
 - a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
 - b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.

3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
 - c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

OTHER

We offer funding to all students in the program through fellowships, trainees and research assistantships.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate a scientific understanding of the field of microbiology and/or immunology.
2. Identify and utilize scientific methodologies and practices appropriate to the field of study.
3. Articulate scientific theories, methodologies and research approaches in microbiology and/or immunology.
4. Identify sources and assemble evidence pertaining to questions or challenges in the field of microbiology and/or immunology.
5. Evaluate and synthesize information pertaining to questions or challenges in the field of microbiology and/or immunology.
6. Communicate clearly in ways appropriate to the field of scientific study.
7. Recognize, understand and apply principles of ethical and professional conduct appropriate to the field of study.
8. Understand and apply principles of laboratory safety in the field of study.

PEOPLE

Faculty: Professors JD Sauer (program director, Medical Microbiology and Immunology), and Jaehyuk Yu (vice-director, Bacteriology) lead the current MDTP Steering Committee. For a list of more than 90 participating faculty, see the program website (<http://www.microbiology.wisc.edu/>) or contact the program office.

MICROBIOLOGY, PH.D.

The Department of Bacteriology in the College of Agricultural and Life Sciences and the Department of Medical Microbiology and Immunology in the School of Medicine and Public Health (see separate course listings) administer the interdepartmental microbiology doctoral training program (MDTP). Incoming students have the opportunity to do laboratory rotations with any of the primary faculty, affiliate faculty, and trainers from multiple departments. This group includes more than 90 faculty members in numerous departments and programs involved in microbiology research and graduate training. In addition to this breadth of opportunities in microbiology research training, the program also encompasses graduate courses offered by both departments. Please refer to the separate Microbiology listing in this catalog for more detailed information, or visit the program website.

The Ph.D. program prepares graduates for research and teaching positions in universities and colleges, for industry or government, and for clinical microbiology. Research emphasis includes, but is not limited to, prokaryotic (bacteria and archaea), viral and lower eukaryotic systems (fungi, oomycetes, and parasites); antibiotics and antibiotic resistance, biofilm formation; bioinformatics and computational biology; biotechnology and industrial microbiology, including biofuels; cell-cell signaling; cell motility and chemotaxis; DNA, including nucleic acid synthesis, DNA replication and recombination; food microbiology; fungal development, pathogenesis, and metabolism; gene expression and its regulation; immunology; microbial physiology and metabolism; macrophage activation and other cell immune systems; mechanisms of microbial persistence; mechanisms of pathogenesis; microbial cell division; microbial ecology; microbial microbiota and metagenomics;

nitrogen fixation; quorum sensing; RNA, including molecular structure–function relationships of transfer RNA, small RNAs, RNA polymerase, and other components of transcription and translation; secondary metabolism; structural microbiology; symbioses, including host–microbe symbioses, plant–microbial interactions, animal–microbial interactions, microbe–microbe interactions; and virology, including host–virus interactions. Dissertation research emphasizes creative and innovative problem-solving using basic knowledge acquired through scientific interactions and collaborations in addition to a thorough understanding of the scientific literature.

In order to better train MDTP students for microbiology-related professions, students need a chance to gain knowledge and experience not just in academic research, but also in other fields where their microbiology education may be put to good use.

The professional development options encompass many professional development opportunities for MDTP students beyond academic research and teaching. Opportunities for professional development can consist of course work, an internship, a summer workshop, outreach experiences, or a second teaching-practicum experience.

DOUBLE DEGREE

Students may complete a double Ph.D. degree in MDTP and another program on campus under the following conditions. The student must apply for admission to MDTP by the program’s yearly deadline and be admitted using the same criteria applied to other applicants. The student must complete all requirements of the MDTP in addition to the requirements for the other program sponsoring the double degree. The student must pass a different preliminary examination in each program. The student’s dissertation committee and preliminary examination must adhere to MDTP guidelines. The Ph.D. advisor must be a trainer in the MDTP. A significant portion of the student’s dissertation research must be completed in the laboratory of the Ph.D. advisor. The student’s program, including any deviations, must be approved by the steering committee.

ADMISSIONS

Please consult the table below for key information about this degree program’s admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program’s website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s).** Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).

Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Admission to MDTP is highly competitive. To qualify for admission to the microbiology program, an applicant should have a bachelor’s degree from an accredited institution with a GPA of at least 3.0 (on a 4.0 scale) that includes two semesters of biology (can include microbiology); one semester of genetics; four semesters of chemistry, including two semesters of organic chemistry with lab component; one semester of biochemistry; one semester of physics; and two semesters of calculus or one semester of calculus and one semester of statistics. Deficiencies in excess of 6 semester credits should be removed before enrollment. An online application must be accompanied by a thoughtful essay, strong letters of recommendation from three persons who are familiar with the applicant’s academic ability and who can assess the applicant’s potential for a research career, transcripts from all undergraduate and graduate institutions attended, and an academic resume or CV. Previous research experience is strongly recommended. Students whose undergraduate degree was obtained in an institution in which English was not the primary language of instruction must provide evidence of English proficiency by taking the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) exam.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Research assistantships are available for most students from department and college-level funding sources or from competitive fellowship and traineeship awards, with continued support contingent upon adequate progress in classes and research. Applicants with outstanding records will be nominated for special fellowships or for traineeships on one of several NIH training grants awarded to UW–Madison.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (http://my.wisc.edu/CourseGuideRedirect/BrowseByTitle (http://my.wisc.edu/CourseGuideRedirect/BrowseByTitle)).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	Doctoral students are required to take a comprehensive preliminary/oral examination after they have cleared their record of all Incomplete and Progress grades (other than research and thesis). Deposit of the doctoral dissertation in the Graduate School is required.
Language Requirements	None.
Doctoral Minor/Breadth Requirements	All doctoral students are required to complete a minor. Students in MDTP may fulfill the minor requirement under either Option A: a full minor in a single department outside the major (e.g., Biochemistry, Genetics, Population Health) with at least 10 credits, or Option B: a distributed minor between two or more departments with a total of 10 credits. M M & I and MICROBIO courses can be used for minor credit rather than major credit in the Option B minor. Coursework to fulfill major and minor requirements must be reviewed and approved by student's thesis committee.

REQUIRED COURSES

Code	Title	Credits
Required Courses		10
MICROBIO 810	Current Issues in Microbiology	
MICROBIO 811	Advanced Problems in Microbiology	
At least three courses must come from the following list:		
MICROBIO 526	Physiology of Microorganisms	
MICROBIO 607	Advanced Microbial Genetics	
MICROBIO/ BIOCHEM/ GENETICS 612	Prokaryotic Molecular Biology	
ONCOLOGY/ PL PATH 640	General Virology-Multiplication of Viruses	
PL PATH/ BOTANY/ GENETICS/ M M & I 655	Biology and Genetics of Fungi	
MICROBIO 657	Bioinformatics for Microbiologists	
MICROBIO/ BMOLCHEM 668	Microbiology at Atomic Resolution	
MICROBIO 710	Microbial Symbiosis	
M M & I 740	Mechanisms of Microbial Pathogenesis	
MICROBIO 875	Special Topics	
Seminar Requirement ¹		6
MICROBIO 731	Seminar	
or M M & I 901	Seminar	
Minor		10
The remaining credits may be other MICROBIO or M M & I courses approved by the Advising Committee or your thesis committee, excluding research, directed study, seminar or journal club course except as approved by the Steering Committee.		
Research Credits		
Students complete enough credits of 990 to meet the total minimum credit requirement. Credits of 990 in subjects outside of MICROBIO and M M & I are acceptable with advisor approval.		
M M & I 990	Research and Thesis	
or MICROBIO 990	Research	
Total Credits		51

¹ Students must enroll for the MDTP (MICROBIO 731 Seminar or M M & I 901 Seminar) seminar during their first three years.

Professional Development is a required part of the MDTP curriculum. Students are required to perform a second semester of teaching practicum, carry out an internship for as long as one semester, take at least 2 credits of coursework from the list of approved classes or through the Delta Program, or perform other professional development activities equivalent to 2 semester hours of coursework as judged by the thesis committee. The thesis committee must give approval for the student to participate in the chosen professional development activity. Thesis committees will also determine if each student has met the requirement. Students should complete the professional development requirement by the end of the fourth year.

OPTIONS FOR COMPLETING PROFESSIONAL DEVELOPMENT REQUIREMENT:

Courses. The Graduate School has agreed to allow MDTP dissertator students to enroll in courses from a limited list of classes appropriate for professional development of MDTP students. Students would take one or two courses in an area of interest after they become dissertators. Additional courses may be added to this list if they are appropriate for MDTP students and are approved for this purpose by the Graduate School.

Teaching practicum. A second semester of teaching practicum may be the most appropriate training for students that seek a career in academic research and teaching. If students do not arrange for other professional development activities, the default professional development training would be a second semester of teaching in a teaching practicum.

The Delta Program. MDTP students interested in teaching as a career can participate in the Delta Program, allowing students to take classes and gain experience in teaching. Successful students are granted a certificate from the Delta Program, and this achievement and experience likely make the students more attractive for teaching positions.

Summer courses or workshops. For students most interested in continuing in academic research, one or more summer courses or workshops may be the most appropriate training. Examples of such courses are those that cover research areas or methods or scientific writing or grant preparation.

Internship. As an alternative to class work or a second semester of teaching practicum, MDTP students could participate in an internship with a business or other organization. Students doing internships would have to arrange to be paid through the organization, and they would not be paid by their advisors while away from their research.

TEACHING PRACTICUM REQUIREMENT:

All MDTP students are required to complete a Teaching Practicum. This Teaching Practicum is usually completed during the second year. Students choose from a list of courses and work with faculty delivering instruction in a lecture or lab setting.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, up to 9 credits of coursework may be accepted from other graduate institutions. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

For well-prepared advanced students, the program may decide to accept up to 6 credits numbered 300 or above completed at UW–Madison toward fulfillment of minimum degree and minor credit requirements. This work would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison University Special

The program may decide to accept up to 9 University Special student credits as fulfillment of the minimum graduate residence, graduate degree, or minor credit requirements on occasion as an exception (on a case-by-case basis). UW–Madison coursework taken as a University Special student would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis. A committee often accomplishes advising for the students in the early stages of their studies. A student's committee is required to have five faculty members, two of which must hold appointments in either Bacteriology or Medical Microbiology and Immunology.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)

- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)

- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

The MDTP will follow the College of Agricultural and Life Sciences Grievance Policy. For clarity, the MDTP program director, vice-director and/or the program coordinator shall serve as grievance advisors. The grievance advisor will refer complaints to the MDTP Steering Committee.

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
 - a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
 - b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.

3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
 - c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

OTHER

We offer funding to all students in the program through fellowships, trainees and research assistantships.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

In order to better train MDTP students for microbiology-related professions, students need a chance to gain knowledge and experience not just in academic research, but also in other fields where their microbiology education may be put to good use. Opportunities for professional development can consist of coursework, an internship, a summer workshop, outreach experiences, or a second teaching practicum experience. Professional Development plans must be approved by a student's thesis committee. Please see requirements (p.) for more information.

LEARNING OUTCOMES

1. Gain a broad understanding of the microbiology principles that underlie all biological processes.
2. Articulate, discuss and define limits to the theory and knowledge in microbiology.
3. Think critically to address research challenges using a broad range of the theories, research methods, and approaches to scientific inquiry.
4. Communicates complex ideas in a clear and understandable matter.
5. Collaborate with investigators within the program, university, and beyond to advance the science of microbiology.
6. Foster professional and ethical conduct in the sciences.
7. Ethical design of experimental protocols.
8. Reproducibility of experimental results.
9. Professional behavior in industrial, government and academic settings.
10. Develop communication skills that enable the articulation of research to fellow scientists and non-scientists.
11. Develop teaching and mentoring skills in both lecture and laboratory settings.
12. Explore career development opportunities in industry, government, academia and private industry to realize professional goals.

PEOPLE

Faculty: Professors JD Sauer (program director, Medical Microbiology and Immunology), and Jaehyuk Yu (vice-director, Bacteriology) lead the current MDTP Steering Committee. For a list of more than 90 participating faculty, see the program website (<http://www.microbiology.wisc.edu/>) or contact the program office.

BIOCHEMISTRY

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Biochemistry, Doctoral Minor (p. 176)
- Biochemistry, M.S. (p. 177)
- Biochemistry, Ph.D. (p. 180)

PEOPLE

Faculty: Professors B. Fox (Chair, Department of Biochemistry), Kiley (Chair, Department of Biomolecular Chemistry), Amasino, Attie, Audhya, Bednarek, Brow, Buller, Butcher, Cantor, Cavagnero, Coon, Cox, Coyle, Craciun, Craig, Denu, Engin, C. Fox, Friesen, Gellman, Grant, Harrison, Henzler-Wildman, Holden, Hoskins, Hull, Keck, Kimble, Kirchdoerfer, Landick, Lewis, Lim, Martin, Merrins, Mosher, Ntambi, Palmenberg, Pike, Ralph, Raman, Rayment, Record, Rienstra, Romero, Senes, Sheets, Simcox, Sussman, Venturelli, Weeks, Wickens, Wildonger, Wright

BIOCHEMISTRY, DOCTORAL MINOR

Biochemistry is the study of biological molecules, their roles in the cell, and the chemistry of their reactions in living systems. The Integrated Program in Biochemistry (IPiB) is the merged graduate program between the Department of Biochemistry (in the College of Agricultural and Life Sciences) and the Department of Biomolecular Chemistry (in the School of Medicine and Public Health). The program trains the next generation of biochemists and prepares them for 21st century challenges in science.

ADMISSIONS

Candidates should have an undergraduate degree in biochemistry, chemistry, physics, or one of the biological or medical sciences. A minimum GPA of 3.0 (on a 4.0 scale) is required. In addition to meeting the general requirements of the Graduate School, coursework in biochemistry, physics, organic chemistry, and physical chemistry is required. The student can make up any course deficiencies during the first two years of graduate study.

A student must identify a member of the IPiB faculty to serve as the minor advisor. The minor advisor will advise the student on his or her minor program, and serve as a member of the student's thesis committee.

REQUIREMENTS

For a minor in biochemistry, a Ph.D. candidate must complete a required course series and earn a total of 16 graduate-level credits in advanced biochemistry courses (600 level or above).

Code	Title	Credits
General Biochemistry Course Requirements ¹		
Students must complete Series 1 or Series 2:		
<i>Series 1</i>		
BIOCHEM 507	General Biochemistry I	3
BIOCHEM 508	General Biochemistry II	3-4
<i>Series 2</i>		
A total of 6 credits selected from 600- / 700- level courses with approval of the ECC		
Additional Biochemistry Courses		10

Additional courses to bring the credit total to 16 are selected from advanced biochemistry courses (600 level or above).

¹ Students with good preparation in chemistry will preferably select courses from Series 2 to meet this General Biochemistry Course Requirement.

POLICIES

PEOPLE

Faculty: Professors B. Fox (Chair, Department of Biochemistry), Kiley (Chair, Department of Biomolecular Chemistry), Amasino, Attie, Audhya, Bednarek, Brow, Buller, Butcher, Cantor, Cavagnero, Coon, Cox, Coyle, Craciun, Craig, Denu, Engin, C. Fox, Friesen, Gellman, Grant, Harrison, Henzler-Wildman, Holden, Hoskins, Hull, Keck, Kimble, Kirchdoerfer, Landick, Lewis, Lim, Martin, Merrins, Mosher, Ntambi, Palmenberg, Pike, Ralph, Raman, Rayment, Record, Rienstra, Romero, Senes, Sheets, Simcox, Sussman, Venturelli, Weeks, Wickens, Wildonger, Wright

BIOCHEMISTRY, M.S.

Biochemistry is the study of biological molecules, their roles in the cell, and the chemistry of their reactions in living systems. The Integrated Program in Biochemistry (IPiB) is the merged graduate program between the Department of Biochemistry (in the College of Agricultural and Life Sciences) and the Department of Biomolecular Chemistry (in the School of Medicine and Public Health). The program trains the next generation of biochemists and prepares them for 21st century challenges in science. IPiB offers a Ph.D. degree with a major in biochemistry. Although an M.S. degree is officially offered, students are not admitted for a terminal master's degree.

From atoms and cells to plants and animals, biochemistry research in IPiB is at the forefront of modern science. We are home to around 100 graduate students and 54 world-class faculty pursuing cutting-edge research in all areas of biochemistry, including: cell and developmental biology, chemical biology, endocrinology, enzymology, immunology, metabolism, molecular genetics, molecular medicine, physical biochemistry and biophysics, quantitative biology, structural biology, systems and synthetic biology, and virology. The program teaches critical thinking skills, applicable to a wide range of professional fields that students pursue after graduation.

The size and breadth of IPiB provide unique opportunities for graduate students who want to pursue a degree in one of the top biochemistry graduate programs in the nation. Our modern facilities are filled with labs carrying out groundbreaking research in a collaborative, friendly, and inspirational atmosphere. Welcome to IPiB and we hope that you can share our enthusiasm for the biochemical sciences!

DUAL DEGREES

The program participates with the School of Medicine and Public Health in offering a joint program for students wishing to complete both the M.D. and Ph.D. degrees. The basic prerequisites and degree requirements for the Ph.D. in the M.D./Ph.D. program are identical to those for the major in biochemistry with two exceptions: M.D./Ph.D. students complete one semester of graduate teaching assistance (instead of two), and students' M.D. coursework counts toward three credits of biological sciences breadth (a total of six breadth credits is required, leaving the student to fulfill at least three credits of physical or quantitative breadth). For the prerequisites and degree requirements for the M.D. degree, as well as the

online application form, see Medical Scientist Training Program (<http://mstp.med.wisc.edu/>).

ADMISSIONS

This master's program is offered for work leading to the Ph.D. Students may not apply directly for the master's, and should instead see the admissions information for the Ph.D (p. 180).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum	48 credits
Credit Requirement	

Minimum Residence Credit Requirement	42 credits
Minimum Graduate Coursework Requirement	All coursework must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide (https://registrar.wisc.edu/course-guide/)).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	Upon completion of the Graduate School's and IPIB's minimum requirements for a master's degree, whether to confer the degree is up to the student's thesis advisor.
Language Requirements	n/a

REQUIRED COURSES

Code	Title	Credits
Required Core		
BIOCHEM 719	From Atoms to Molecules	3
BIOCHEM/ BMOLCHEM 701	Professional Responsibility	1
BIOCHEM 729	Advanced Topics (From Atoms to Molecules)	3
BMOLCHEM 720	Experimental Design and Paradigms in Cellular Biochemistry and Molecular Biology	3
BIOCHEM 990 or BMOLCHEM 990	Research ¹ Advanced Biomolecular Chemistry and Research	Varies

Seminars

After the first semester of work, M.S. candidates must maintain continuous seminar enrollment each semester in one of the approved advanced (900-level) seminars.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

For well-prepared advanced students, the Program may accept up to 6 credits of prior graduate coursework from other institutions towards the minimum graduate degree credit and minimum graduate coursework (50%) requirement. The minimum graduate residence credit requirement can be satisfied only with courses taken as a graduate student at UW–Madison.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the graduate degree.

UW–Madison University Special

No credits taken as a University Special student are allowed to count toward the graduate degree.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student must have an IPIB faculty thesis advisor. The thesis advisor advises the student about coursework, supervises the student's research, and acts as a mentor to the student through the student's graduate career. The thesis advisor must approve the student's coursework before registration for a given semester and must also approve any subsequent changes to it.

A Ph.D. thesis committee is composed of at least four graduate university faculty members, including the thesis advisor. The thesis committee is empowered by the program to advise the student about certification, administer the preliminary examination, oversee annual progress reports, approve thesis composition, and conduct the final Ph.D. examination.

CREDITS PER TERM ALLOWED

12 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)

- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
 - a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
 - b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

- b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
- c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
- d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.

OTHER

Students may matriculate only in the fall semester, and a master's degree is not offered as a terminal degree.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Gain a broad understanding of the biochemical principles that underlie all biological processes.
2. Become aware of the current limitations of the state of understanding of this discipline and the strategies that are required to advance the field.
3. Formulate and design new approaches that extend and apply biochemical principles beyond their current boundaries.

4. Explore career development opportunities in industry, government and academia to realize professional goals and paths.
5. Develop teaching and mentoring skills in both lecture and laboratory settings.
6. Foster professional and ethical conduct in the sciences, including but not limited to: exposition of the scientific method; ethical design of experimental protocols; reproducibility in science; professional behavior in industrial, government, and academic settings; documentation of scientific results; communication to other scientists and the public; peer review; and confidentiality.

PEOPLE

Faculty: Professors B. Fox (Chair, Department of Biochemistry), Kiley (Chair, Department of Biomolecular Chemistry), Amasino, Attie, Audhya, Bednarek, Brow, Buller, Butcher, Cantor, Cavagnero, Coon, Cox, Coyle, Craciun, Craig, Denu, Engin, C. Fox, Friesen, Gellman, Grant, Harrison, Henzler-Wildman, Holden, Hoskins, Hull, Keck, Kimble, Kirchdoerfer, Landick, Lewis, Lim, Martin, Merrins, Mosher, Ntambi, Palmenberg, Pike, Ralph, Raman, Rayment, Record, Rienstra, Romero, Senes, Sheets, Simcox, Sussman, Venturelli, Weeks, Wickens, Wildonger, Wright

BIOCHEMISTRY, PH.D.

Biochemistry is the study of biological molecules, their roles in the cell, and the chemistry of their reactions in living systems. The Integrated Program in Biochemistry (IPiB) is the merged graduate program between the Department of Biochemistry (in the College of Agricultural and Life Sciences) and the Department of Biomolecular Chemistry (in the School of Medicine and Public Health). The program trains the next generation of biochemists and prepares them for 21st Century challenges in science. IPiB offers a Ph.D. degree with a major in biochemistry. Although an M.S. degree is officially offered, students are not admitted for a terminal master's degree.

From atoms and cells to plants and animals, biochemistry research in IPiB is at the forefront of modern science. We are home to around 100 graduate students and 54 world-class faculty pursuing cutting-edge research in all areas of biochemistry, including: cell and developmental biology, chemical biology, endocrinology, enzymology, immunology, metabolism, molecular genetics, molecular medicine, physical biochemistry and biophysics, quantitative biology, structural biology, systems and synthetic biology, and virology. The program teaches critical thinking skills, applicable to a wide range of professional fields that students pursue after graduation.

The size and breadth of IPiB provide unique opportunities for graduate students who want to pursue a degree in one of the top biochemistry graduate programs in the nation. Our modern facilities are filled with labs carrying out groundbreaking research in a collaborative, friendly, and inspirational atmosphere. Welcome to IPiB and we hope that you can share our enthusiasm for the biochemical sciences!

DUAL DEGREES

The program participates with the School of Medicine and Public Health in offering a joint program for students wishing to complete both the M.D. and Ph.D. degrees. The basic prerequisites and degree requirements for the Ph.D. in the M.D./Ph.D. program are identical to those for the major in biochemistry with two exceptions: M.D./Ph.D. students complete one semester of graduate teaching assistance (instead of two), and students'

M.D. coursework counts toward three credits of biological sciences breadth (a total of six breadth credits is required, leaving the student to fulfill at least three credits of physical or quantitative breadth). For the prerequisites and degree requirements for the M.D. degree, as well as the online application form, see Medical Scientist Training Program (<http://mstp.med.wisc.edu/>).

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

To qualify for admission to IPiB, an applicant must complete a bachelor's degree at a recognized, accredited college or university. The basic background for graduate study in biochemistry ordinarily would be provided by an undergraduate degree in biochemistry, chemistry, physics, or in one of the biological or medical sciences. The Admission Committee assesses a candidate's potential for success in the IPiB program by taking all aspects of their application into consideration. Most successful applicants have completed a rigorous undergraduate curriculum that includes courses in biology, chemistry, physics, and math. Most have also had a substantive laboratory experience that demonstrates commitment and talent for research. The applicant's undergraduate grade point average must be at least 3.0 (4.0 scale). For more information, please visit the Prospective Students (https://ipib.wisc.edu/p_students.php) tab on the IPiB website.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from

the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

IPiB students receive a full stipend (\$29,000 for 2019-20), as well as tuition remission and comprehensive health insurance. The stipends take the form of traineeships, research assistantships, or fellowships, and are guaranteed for all IPiB Ph.D. candidates in good academic standing. IPiB also assists its graduate students with outstanding academic records in competing for University or national awards.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

BIOCHEM/ CHEM 665	Biophysical Chemistry
BIOCHEM/ CHEM 704	Chemical Biology
BIOCHEM 729	Advanced Topics (Membrane Protein Structure and Function (Advanced))
BMOLCHEM/ CHEM 627	Methods and Technologies for Protein Characterization
MICROBIO/ BMOLCHEM 668	Microbiology at Atomic Resolution

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

For well-prepared advanced students, the Program may accept up to 6 credits of prior graduate coursework from other institutions towards the minimum graduate degree credit and minimum graduate coursework (50%) requirement. The minimum graduate residence credit requirement can be satisfied only with courses taken as a graduate student at UW–Madison.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the graduate degree.

UW–Madison University Special

No credits taken as a University Special student are allowed to count toward the graduate degree.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student must have an IPIB faculty thesis advisor. The thesis advisor advises the student about coursework, supervises the student's research, and acts as a mentor to the student through the student's graduate career. The thesis advisor must approve the student's coursework before registration for a given semester and must also approve any subsequent changes to it.

A Ph.D. thesis committee is composed of at least four graduate University faculty members, including the thesis advisor. The thesis committee is empowered by the Program to advise the student about certification, administer the preliminary examination, oversee annual progress reports, approve thesis composition, and conduct the final Ph.D. examination.

CREDITS PER TERM ALLOWED

12 credits in Fall and Spring semesters and 2 credits in Summer semesters for non-dissertators; 3 credits in Fall, Spring, and Summer semesters for dissertators

TIME CONSTRAINTS

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)

- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
 - a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
 - b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.

- c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

OTHER

All students, both US and international, receive an annual stipend and tuition remission for the duration of their studies, provided satisfactory progress is made toward their degree. Comprehensive medical coverage is also offered. In addition, some of our students are supported on fellowships or training grants. Students are chosen based on criteria specified by the different training grants.

Students may matriculate only in the fall semester, and a master's degree is not offered as a terminal degree.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Gain a broad understanding of the biochemical principles that underlie all biological processes.
2. Become aware of the current limitations of the state of understanding of this discipline and the strategies that are required to advance the field.
3. Formulate and design new approaches that extend and apply biochemical principles beyond their current boundaries.

4. Conduct independent research using a diverse breadth of biochemical processes.
5. Think critically to address research challenges using a broad range of the theories, research methods, and approaches to scientific inquiry.
6. Collaborate with investigators within the program, university, and beyond since current and future advances in the biomolecular sciences demand interdisciplinary skills.
7. Foster professional and ethical conduct in the sciences, including but not limited to: exposition of the scientific method; ethical design of experimental protocols; reproducibility in science; professional behavior in industrial, government, and academic settings; documentation of scientific results; communication to other scientists and the public; peer review; and confidentiality.
8. Develop communications skills that enable the articulation of research to fellow scientists and non-scientists.
9. Explore career development opportunities in industry, government and academia to realize professional goals and paths.
10. Develop teaching and mentoring skills in both lecture and laboratory settings.

PEOPLE

Faculty: Professors B. Fox (Chair, Department of Biochemistry), Kiley (Chair, Department of Biomolecular Chemistry), Amasino, Attie, Audhya, Bednarek, Brow, Buller, Butcher, Cantor, Cavagnero, Coon, Cox, Coyle, Craciun, Craig, Denu, Engin, C. Fox, Friesen, Gellman, Grant, Harrison, Henzler-Wildman, Holden, Hoskins, Hull, Keck, Kimble, Kirchdoerfer, Landick, Lewis, Lim, Martin, Merrins, Mosher, Ntambi, Palmenberg, Pike, Ralph, Raman, Rayment, Record, Rienstra, Romero, Senes, Sheets, Simcox, Sussman, Venturelli, Weeks, Wickens, Wildonger, Wright

BIOLOGICAL SYSTEMS ENGINEERING

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Biological Systems Engineering, M.S. (p. 185)
- Biological Systems Engineering, Ph.D. (p. 189)

PEOPLE

Professor Robert Anex

Biological systems analysis and assessment; life cycle assessment; techno-economic analysis

Professor Christopher Choi

Heat and mass transfer and computational fluid dynamics (CFD); Controlled environments – livestock housing and greenhouse; water distribution system modeling and water quality; experimental methods, data acquisition, and systems optimization in biological systems

Assistant Professor Matthew Digman

Impact of autonomy on agricultural machine forms; application of sensors to predict chemical and physical properties of agricultural materials

Professor Sundaram Gunasekaran

Engineering properties and quality of food and biomaterials; rheology of food and other macromolecular systems and hydrogels; structure function relationships in foods; novel and value-added bioprocess engineering

Professor K.G. Karthikeyan

Fate, removal, and transport of nutrients and contaminants in surface/subsurface environments; water quality chemistry; land application of agricultural/municipal/industrial waste; applications of GIS/water quality models; physical and chemical processes for water, wastewater, and waste treatment; soil decontamination

Associate Professor Rebecca Larson

Biological waste; manure management; handling and treatment of agricultural and food processing waste; agricultural sustainability; land application of various waste streams, including runoff and leaching; waste-to-energy technologies, including biogas production from anaerobic digestion; composting

Assistant Professor Brian Luck

Machine management, variable rate technology; agricultural “Big Data” management; remote sensing

Professor Xuejun Pan

Development of innovative biorefining process for producing energy, fuels, chemicals, and materials from renewable resources (biomass) with specific research interests in pretreatment and fractionation of lignocellulosic biomass for bioconversion to chemicals and fuels; enzymatic and non-enzymatic saccharification of cellulose and lignocellulose; catalytic conversion of lignocellulose to drop-in hydrocarbon fuel; platform chemicals from biomass; functional materials from cellulose, lignin, hemicellulose, and extractives.

Professor Douglas Reinemann

Biomechanics of machine milking; sustainable development of bio-energy systems; renewable energy technology and policy; biosensors for milk quality analysis; effects of the electrical environment on farm animals; integral thought and philosophy

Associate Professor and Department Chair Troy Runge

Bioenergy – biomass composition impact on bioprocessing systems, including anaerobic digestion, combustion, gasification, and catalysis; Biomaterials – pulp, paper, bio-based chemicals, cellulose composites and nonwoven structures

Professor Kevin Shinnars

Engineering aspects of systems to cut, dry, harvest, package, store, fractionate and process biological plant material to be used as ruminant animal feed or as a biomass feedstock for production of bio-energy and bio-products; sensors and sensor systems to measure machine performance and crop material properties for Precision Farming systems as applied to hay, forage, and bio-mass crops

Professor John Shutske

Safety engineering and education related to occupational and public health hazards in agricultural and food systems; multidisciplinary approaches for solving complex risk-related problems; design and evaluation of sensors and control systems to mitigate environmental and machine risks; risk communication methods and limitations.

Associate Professor Paul Stoy

Surface-atmosphere exchange; ecosystem ecology; natural resource management

Professor Anita Thompson

Hydrologic implications of land use change; urban hydrology and stormwater management; water quality impacts of biofuel crop production; cold regions hydrology; hydrologic modeling; sediment, nutrient and pathogen transport; polyacrylamides and biosolids for fertilizer and erosion management

Assistant Professor Zhou Zhang

Multi-source remote sensing data fusion (e.g., hyperspectral, LiDAR, RGB); machine learning for high dimensional data analysis; UAV-based imaging platform developments for precision agriculture; crop yield prediction using remote sensing and machine learning; high-throughput image-based plant phenotyping.

AFFILIATE FACULTY

Assistant Professor Grace Bulltail, Nelson Institute

Professor Mark Etzel, Dept. of Food Science

Professor Awad Hanna, Dept. of Civil Engineering

Professor Richard Hartel, Dept. of Food Engineering

Professor John Ralph, Dept. of Biochemistry

BIOLOGICAL SYSTEMS ENGINEERING, M.S.

Graduate work in the Department of Biological Systems Engineering (BSE) leads to the master of science and doctor of philosophy degrees. Graduates of the program help fill the need for highly educated engineers in industry, consulting firms, government agencies, and educational institutions.

Students who undertake graduate studies in BSE normally have as their goal a better understanding of the current theories, principles, issues, and problems in biological systems. They desire to learn how knowledge is generated, how it is critically evaluated, and how solutions to problems are generated and applied. Graduate studies improve the ability of students to think critically and creatively, and to synthesize, analyze, and integrate ideas for decision making and problem solving.

The department offers students an opportunity to undertake research and advanced study in different specializations such as biological systems, environmental quality and natural resource engineering, waste management, food and bioprocess engineering, nanotechnology and

biosensing, machinery systems, bio-resources and bio-refining, and agricultural safety and health.

Graduate research assistantships, project assistantships, and fellowships are available on a highly competitive basis.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	June 1
Spring Deadline	August 1 for international applicants; October 1 for domestic applicants
Summer Deadline	March 1
GRE (Graduate Record Examinations)	May be required in certain cases; consult program.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

The department requires that students have a strong engineering background for admission to its graduate program. Most applicants have a bachelor of science degree from an ABET/EAC-accredited engineering program or an engineering undergraduate degree from an international institution. Applicants who do not have a bachelor of science degree from an ABET/EAC-accredited engineering program may be admitted with a stipulation that they complete supplemental work. Contact the department for details concerning additional requirements. Applicants are evaluated based on their academic record and educational objectives and letters of reference.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	At least 50% of credits applied toward the graduate degree credit requirement must be in graduate level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide (https://registrar.wisc.edu/course-guide/)).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	Graduate students in BSE must maintain a minimum overall B average (3.0 GPA) during their graduate studies. Seminars, research, or other special problems credits may not be used to offset BC or C grades. No grade below a C will be accepted for fulfilling course work requirements for the degree
Assessments and Examinations	All students must complete a graduation checklist and be certified by the GIRC before taking their final oral examination.

Language n/a
Requirements

REQUIRED COURSES

Thesis Track ¹

If your objective is to pursue a Ph.D. degree and/or research-oriented career, you are strongly encouraged to select the thesis option.

Code	Title	Credits
Total Credits ²		30
Letter-graded UW-Madison course credits ³		18
Thesis research credits		6
Graduate seminar credits		2
Biological Systems Engineering course credits ⁴		8

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

² Not including course credits taken to satisfy admission requirements.

³ At least six credits must be from coursework at the 500-level and above in science/engineering classes; can include up to six credits of science/engineering classes taken at 400-level and above as UW-Madison undergraduate.

⁴ For the two required graduate seminar credits, students typically take BSE 900 Seminar and BSE 901 Graduate Research Seminar.

Non-Thesis Track ¹

Code	Title	Credits
Total Credits ²		30
Letter-graded UW-Madison course credits ³		24
Independent study credits		3
Graduate seminar credits		2
Biological Systems Engineering course credits ⁴		8

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

² Not including course credits taken to satisfy admission requirements.

³ At least six credits must be from coursework at the 500-level and above in science/engineering classes; can include up to six credits of science/engineering classes taken at 400-level and above as UW-Madison undergraduate.

⁴ For the two required graduate seminar credits, students typically take BSE 900 Seminar and BSE 901 Graduate Research Seminar.

Other Requirements

Both thesis and non-thesis option students should select a committee of three faculty members in consultation with their major professors. For thesis option students, at least one of the committee members should be from another department. All students must present their research results at an oral final examination to the committee. All BSE graduate students are required to take BSE 900 Seminar within the first three semesters (offered fall semester only). All BSE graduate students are required and should take BSE 901 Graduate Research Seminar within the last two full semesters (offered spring semester only) of their graduation

Graduate students should register for an appropriate number of credits of BSE 990 Research. If the student's progress is satisfactory, the student will receive a grade of P (progress) for each semester of BSE 990 until the final semester. At that time all of these credits will be given an S (satisfactory) grade by the major professor.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With approval of the Graduate Research and Instructions Committee, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

Students may count up to 6 credits of coursework 400-level and above from a UW–Madison undergraduate degree toward the degree. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

With approval of the Graduate Research and Instructions Committee, students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

12 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
 - a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
 - b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
 - c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

OTHER

Funding decisions are made by faculty supervisors of the admitted students based on the funding availability and project need.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates, critiques, or elaborates the theories, research methods, and approaches to inquiry or schools of practice in the field of study.
2. Identifies sources and assembles evidence pertaining to questions or challenges in the field of study.
3. Demonstrates understanding of the primary field of study in a historical, social, or global context.
4. Selects and/or utilizes the most appropriate methodologies and practices.
5. Evaluates or synthesizes information pertaining to questions or challenges in the field of study.
6. Recognizes and applies principles of ethical and professional conduct.

Professor Mark Etzel, Dept. of Food Science

Professor Awad Hanna, Dept. of Civil Engineering

Professor Richard Hartel, Dept. of Food Engineering

Professor John Ralph, Dept. of Biochemistry

BIOLOGICAL SYSTEMS ENGINEERING, PH.D.

Graduate work in the Department of Biological Systems Engineering (BSE) leads to the master of science and doctor of philosophy degrees. Graduates of the program help fill the need for highly educated engineers in industry, consulting firms, government agencies, and educational institutions.

Students who undertake graduate studies in BSE normally have as their goal a better understanding of the current theories, principles, issues, and problems in biological systems. They desire to learn how knowledge is generated, how it is critically evaluated, and how solutions to problems are generated and applied. Graduate studies improve the ability of students to think critically and creatively, and to synthesize, analyze, and integrate ideas for decision making and problem solving.

The department offers students an opportunity to undertake research and advanced study in different specializations such as biological systems, environmental quality and natural resource engineering, waste management, food and bioprocess engineering, nanotechnology and biosensing, machinery systems, bio-resources and bio-refining, and agricultural safety and health.

Graduate research assistantships, project assistantships, and fellowships are available on a highly competitive basis.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s).**

Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	June 1
Spring Deadline	August 1 for international applicants; October 1 for domestic applicants
Summer Deadline	March 1
GRE (Graduate Record Examinations)	May be required in certain cases; consult program.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

The department requires that students have a strong engineering background for admission to its graduate program. Most applicants have a bachelor of science degree from an ABET/EAC-accredited engineering program or an engineering undergraduate degree from an international institution. Applicants who do not have a bachelor of science degree from an ABET/EAC-accredited engineering program may be admitted with a stipulation that they complete supplemental work. Contact the department for details concerning additional requirements. Applicants are evaluated based on their academic record and educational objectives and letters of reference.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	72 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	At least 50% of credits applied toward the graduate degree credit requirement must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	Graduate students in BSE must maintain a minimum overall B average (3.0 GPA) during their graduate studies. Seminars, research, or other special problems credits may not be used to offset BC or C grades. No grade below a C will be accepted for fulfilling course work requirements for the degree.
Assessments and Examinations	Doctoral students are required to take a comprehensive preliminary/oral examination after they have cleared their record of all Incomplete and Progress grades (other than research and thesis). Deposit of the doctoral dissertation in the Graduate School is required.
Language Requirements	n/a
Doctoral Minor/Breadth Requirements	Doctoral students must complete a doctoral minor.

REQUIRED COURSES

Code	Title	Credits
<i>Course Credits</i> ¹		42-54
BSE 900	Seminar ²	1
BSE 901	Graduate Research Seminar ³	1
BSE 990	Research (Thesis) ⁴	1-12
<i>Teaching Preparatory/Professional Communications Course</i> ⁵		3

Students may choose from the following or select another course in consultation with their advisor:

E P D 654	Teaching in Science and Engineering
BSE 799	Practicum in Agricultural Engineering Teaching

Footnotes

- ¹ At least 36 of the course credits must be taken in physical sciences. At least 9 credits must be from the 600 to 800 level classes from an engineering department and/or comparable technical area. All course credits need to be taken as a letter grade unless course is only offered for credit/no credit. Credit/no credit courses must get prior approval from advisor. Only 1 credit/no credit of the 9 credits can be used to fulfill your credits from 600- to 800-level classes.
- ² All graduate students are required to register for one credit of BSE 900 Seminar (only offered fall semesters) within the first three semesters as a graduate student in BSE. However, if you completed your master's degree in BSE, you do not have to repeat the 1-credit seminar.
- ³ As a part of the seminar, all students are required to make an oral presentation reporting their research results, typically during the last semester of their graduate program (if you took this course as an M.S. student, you will need to repeat the course as a Ph.D. student to reflect your current research).
- ⁴ Graduate students should register for an appropriate number of credits of BSE 990 Research (Thesis Research). If the student's progress is satisfactory, the student will receive a grade of P (progress) for each semester of BSE 990 Research until the final semester. At that time all of these credits will be given an S (satisfactory) grade by the major professor.
- ⁵ The teaching course credits shall not be used to fulfill 9 credits of 600 to 800 level classes from an engineering department and/or comparable technical area. Teaching preparatory courses and seminar courses will NOT count toward the required 24 (42) course credits.

accredited institution. No other research credit may be transferred. Eighteen (18) Master's course credits earned from another institution maybe transferred towards Ph.D. Additional credits need to be approved by the BSE Graduate Instruction and Research committee.

UW–Madison Undergraduate

For well-prepared advanced students, the program may decide to accept up to 7 credits numbered 300 or above completed at UW–Madison toward fulfillment of minimum degree and minor credit requirements. This work would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison University Special

The program may decide to accept up to 15 University Special student credits as fulfillment of the minimum graduate residence, graduate degree, or minor credit requirements on occasion as an exception (on a case-by-case basis). UW–Madison coursework taken as a University Special student would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

For well-prepared advanced students, the program may accept prior graduate coursework from other institutions toward the minimum graduate degree credit and minimum graduate coursework (50%) requirement. The minimum graduate residence credit requirement can be satisfied only with courses taken as a graduate student at UW–Madison. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements. Up to 6 research credits received for the master's degree may be transferred from another

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
 - a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.

- b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
 - c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

OTHER

Funding decisions are made by faculty supervisors of the admitted students based on the funding availability and project need.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates research problems, potentials, and limits with respect to theory, knowledge, or practice within the field of study.
2. Formulates ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the field of study.
3. Creates research, scholarship, or performance that makes a substantive contribution.
4. Demonstrates breadth within their learning experiences.
5. Advances contributions of the field of study to society.
6. Communicates complex ideas in a clear and understandable manner.
7. Fosters ethical and professional conduct.

PEOPLE

Professor Robert Anex

Biological systems analysis and assessment; life cycle assessment; techno-economic analysis

Professor Christopher Choi

Heat and mass transfer and computational fluid dynamics (CFD); Controlled environments – livestock housing and greenhouse; water distribution system modeling and water quality; experimental methods, data acquisition, and systems optimization in biological systems

Assistant Professor Matthew Digman

Impact of autonomy on agricultural machine forms; application of sensors to predict chemical and physical properties of agricultural materials

Professor Sundaram Gunasekaran

Engineering properties and quality of food and biomaterials; rheology of food and other macromolecular systems and hydrogels; structure function relationships in foods; novel and value-added bioprocess engineering

Professor K.G. Karthikeyan

Fate, removal, and transport of nutrients and contaminants in surface/subsurface environments; water quality chemistry; land application of agricultural/municipal/industrial waste; applications of GIS/water quality models; physical and chemical processes for water, wastewater, and waste treatment; soil decontamination

Associate Professor Rebecca Larson

Biological waste; manure management; handling and treatment of agricultural and food processing waste; agricultural sustainability; land application of various waste streams, including runoff and leaching;

waste-to-energy technologies, including biogas production from anaerobic digestion; composting

Assistant Professor Brian Luck

Machine management, variable rate technology; agricultural “Big Data” management; remote sensing

Professor Xuejun Pan

Development of innovative biorefining process for producing energy, fuels, chemicals, and materials from renewable resources (biomass) with specific research interests in pretreatment and fractionation of lignocellulosic biomass for bioconversion to chemicals and fuels; enzymatic and non-enzymatic saccharification of cellulose and lignocellulose; catalytic conversion of lignocellulose to drop-in hydrocarbon fuel; platform chemicals from biomass; functional materials from cellulose, lignin, hemicellulose, and extractives.

Professor Douglas Reinemann

Biomechanics of machine milking; sustainable development of bio-energy systems; renewable energy technology and policy; biosensors for milk quality analysis; effects of the electrical environment on farm animals; integral thought and philosophy

Associate Professor and Department Chair Troy Runge

Bioenergy – biomass composition impact on bioprocessing systems, including anaerobic digestion, combustion, gasification, and catalysis; Biomaterials – pulp, paper, bio-based chemicals, cellulose composites and nonwoven structures

Professor Kevin Shinnars

Engineering aspects of systems to cut, dry, harvest, package, store, fractionate and process biological plant material to be used as ruminant animal feed or as a biomass feedstock for production of bio-energy and bio-products; sensors and sensor systems to measure machine performance and crop material properties for Precision Farming systems as applied to hay, forage, and bio-mass crops

Professor John Shutske

Safety engineering and education related to occupational and public health hazards in agricultural and food systems; multidisciplinary approaches for solving complex risk-related problems; design and evaluation of sensors and control systems to mitigate environmental and machine risks; risk communication methods and limitations.

Associate Professor Paul Stoy

Surface-atmosphere exchange; ecosystem ecology; natural resource management

Professor Anita Thompson

Hydrologic implications of land use change; urban hydrology and stormwater management; water quality impacts of biofuel crop production; cold regions hydrology; hydrologic modeling; sediment, nutrient and pathogen transport; polyacrylamides and biosolids for fertilizer and erosion management

Assistant Professor Zhou Zhang

Multi-source remote sensing data fusion (e.g., hyperspectral, LiDAR, RGB); machine learning for high dimensional data analysis; UAV-based

imaging platform developments for precision agriculture; crop yield prediction using remote sensing and machine learning; high-throughput image-based plant phenotyping.

BIOMEDICAL ENGINEERING, DOCTORAL MINOR

REQUIREMENTS

Students must:

- Earn at least **10** credits from a single degree program and satisfy the requirements specified by the Department of Biomedical Engineering. Approval of the courses for the Option A minor is certified by the BME Associate Chair of Graduate Advising (<https://www.engr.wisc.edu/departments/bme/contact/people-in-bme/>).
- Meet the requirements identified on the Option A Minor Approval Form and submit the form to the BME associate chair of graduate advising for approval (no later than halfway through the minor course sequence and before requesting the preliminary exam warrant).

BIOMEDICAL ENGINEERING, M.S.

The Department of Biomedical Engineering offers three distinct master of science (M.S.) degree programs in Biomedical Engineering:

- Biomedical Engineering M.S., Research (<https://guide.wisc.edu/graduate/biomedical-engineering/biomedical-engineering-ms/biomedical-engineering-research-ms/>) – traditional master's program culminating in a thesis
- Biomedical Engineering M.S., Accelerated Program (<https://guide.wisc.edu/graduate/biomedical-engineering/biomedical-engineering-ms/biomedical-engineering-accelerated-program-ms/>) –

accelerated, course-based master's program with the opportunity to choose a specialty area

- Biomedical Engineering M.S., Biomedical Innovation, Design, and Entrepreneurship (<https://guide.wisc.edu/graduate/biomedical-engineering/biomedical-engineering-ms/biomedical-engineering-biomedical-innovation-design-entrepreneurship-ms/>) – accelerated, course- and project-based master's program with an emphasis in design, business, and engineering

Biomedical engineering is the application of engineering tools for solving problems in biology and medicine. It is an engineering discipline that is practiced by professionals trained primarily as engineers, who specialize in medical and biological applications. This area of study combines fundamentals of the biomedical sciences with advanced engineering methods of analysis and design, and brings together these two fields in order to contribute to the design of new medical instruments and devices, apply engineering principles for understanding and repairing the human body and other biological systems, and use engineering tools for decision making and cost containment.

The Department of Biomedical Engineering should be of interest to students who wish to practice engineering or engage in research in an engineering specialization in medicine and biology. An individualized course of study is planned with a faculty advisor. Biomedical engineering faculty and affiliated faculty come from the various colleges and professional schools throughout the university. They specialize in biomedical engineering areas as diverse as biomechanics, bioinstrumentation, biomedical imaging and biophotonics, micro and nanotechnology, systems biology, biomaterials, cellular engineering, tissue engineering, neuroengineering, and rehabilitation and human performance. A list of biomedical engineering faculty, affiliated faculty, and their respective areas of specialization is available from the department website (<https://directory.engr.wisc.edu/bme/faculty/>).

ADMISSIONS

Students apply to the Master of Science in Biomedical Engineering through one of the named options:

- Research (<http://guide.wisc.edu/graduate/biomedical-engineering/biomedical-engineering-ms/biomedical-engineering-research-ms/>)
- Accelerated Program (<http://guide.wisc.edu/graduate/biomedical-engineering/biomedical-engineering-ms/graduate/biomedical-engineering/biomedical-engineering-ms/biomedical-engineering-accelerated-program-ms/>)
- Biomedical Innovation, Design, and Entrepreneurship (p. 206)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide (https://registrar.wisc.edu/course-guide/)).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	There are no degree-specific assessments and examinations outside of those given in individual courses.
Language Requirements	n/a

REQUIRED COURSES

Select a Named Option (p. 196) for courses required.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Science in Biomedical Engineering must select one of the following named options:

View as listView as grid

- **BIOMEDICAL ENGINEERING: ACCELERATED PROGRAM, M.S. (P. 198)**
- **BIOMEDICAL ENGINEERING: BIOMEDICAL INNOVATION, DESIGN, AND ENTREPRENEURSHIP, M.S. (P. 206)**
- **BIOMEDICAL ENGINEERING: RESEARCH, M.S. ([HTTP://GUIDE.WISC.EDU/GRADUATE/BIOMEDICAL-ENGINEERING/BIOMEDICAL-ENGINEERING-MS/BIOMEDICAL-ENGINEERING-RESEARCH-MS/](http://guide.wisc.edu/graduate/biomedical-engineering/biomedical-engineering-ms/biomedical-engineering-research-ms/))**

POLICIES

Students should refer to one of the named options for policy information:

- Research (<http://guide.wisc.edu/graduate/biomedical-engineering/biomedical-engineering-ms/biomedical-engineering-research-ms/>)
- Accelerated Program (p. 198)
- Biomedical Innovation, Design, and Entrepreneurship (p. 206)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

THE INDIVIDUAL DEVELOPMENT PLAN (IDP)

An Individual Development Plan (IDP) (<https://grad.wisc.edu/pd/idp/>) helps graduate students and postdoctoral researchers:

- assess current skills, interests, and strengths;
- make a plan for developing skills to meet academic and professional goals; and
- communicate with supervisors, advisors, and mentors about evolving goals and related skills.

The IDP is a document to be revisited again and again, to update and refine as goals change and/or come into focus, and to record progress and accomplishments.

The university **recommends** IDPs for all postdoctoral researchers and graduate students, and **requires** IDPs for all postdoctoral researchers and graduate students supported by National Institutes of Health (NIH) funding. See the Graduate School for more information and IDP resources (<https://grad.wisc.edu/pd/idp/>).

ENGINEERING CAREER SERVICES

The Engineering Career Services (<https://ecs.wisc.edu/>) staff offers assistance to students searching or preparing for internships, co-ops, and jobs with well-recognized organizations.

THE WRITING CENTER

The Writing Center (<https://writing.wisc.edu/>) is a campus-wide organization that provides free of charge, face-to-face and online

consultations for students writing papers, reports, resumes, and applications.

LEARNING OUTCOMES

1. Demonstrate a strong understanding of mathematical, scientific, and engineering principles in the field.
2. Demonstrate an ability to formulate, analyze, and solve advanced engineering problems.
3. Demonstrate creative, independent problem solving skills.
4. Apply the latest scientific and technological advancements, advanced techniques, and modern engineering tools to these problems.
5. Recognize and apply principles of ethical and professional conduct.

BIOMEDICAL ENGINEERING: ACCELERATED PROGRAM, M.S.

This is a course-based named option within the Biomedical Engineering M.S. (<http://guide.wisc.edu/graduate/biomedical-engineering/biomedical-engineering-ms/#text>)

The Accelerated Program named option in the Biomedical Engineering M.S. is a non-thesis program with coursework focused on engineering and science to afford further preparation and training for students interested in careers in industry or pursuing advanced academic degrees.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	October 1
Summer Deadline	December 15
GRE (Graduate Record Examinations)	Required.*
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	The MCAT may be accepted as an alternate to the GRE.
Letters of Recommendation Required	3*

- * a) Not required for applicants with a UW–Madison Biomedical Engineering bachelor's degree.
b) For the Spring 2021, Summer 2021, and Fall 2021 cycle of admissions, the GRE requirement is waived due to COVID-19.

Applicants should have a bachelor's degree in engineering (biomedical, chemical, electrical, industrial, mechanical, etc.) or science (biology, biochemistry, chemistry, genetics, immunology, physics, etc.). Each application is judged on the basis of:

- Official academic transcripts
- Graduate Record Examinations (<http://www.ets.org/gre/>) (GRE) scores or Medical College Admission Test (MCAT) scores for the general test
- Test of English as a Foreign Language (<http://www.ets.org/toefl/>) (TOEFL) examination for international students
- Three letters of recommendation
- Statement of purpose (<https://grad.wisc.edu/apply/prepare/>)
- Resume (for Ph.D. applicants only)

All applicants must satisfy requirements that are set forth by the Graduate School (<https://grad.wisc.edu/>). Students admitted to the program may be required to make up deficiency course requirements.

To apply to the BME program, complete applications (<https://grad.wisc.edu/apply/>), including supportive materials, must be submitted as described below and received by the deadline.

OFFICIAL ACADEMIC TRANSCRIPT

Electronically submit one copy of your transcript of all undergraduate and previous graduate work along with your online application to the Graduate School. Unofficial copies of transcripts will be accepted for review, but official copies are required for admitted students. Please do not send transcripts or any other application materials to the Graduate School or the BME department unless requested. If you have questions, please contact bmegradadmission@engr.wisc.edu.

GRADUATE RECORD EXAMINATION (GRE)

Applicants should request ETS to send their official GRE scores by using **institution code 1846**.

MCAT scores may be substituted for GRE. Domestic applicants who choose to substitute MCAT scores for the GRE should send their MCAT score report to bmegradadmission@engr.wisc.edu.

TEST OF ENGLISH AS A FOREIGN LANGUAGE (TOEFL)

The TOEFL is required for international students unless a degree from a U.S. educational institution is held. Scores should be sent using **institution code 1846**.

An applicant whose TOEFL (paper-based) test score is below 580; TOEFL computer-based test (CBT) score below 237; (TOEFL internet-based iBT) test score below 92; IELTS score below 7; or MELAB below 82 must take an English assessment test upon arrival. Depending on your score, you may need to register for any recommended English as a Second Language (ESL) courses in the first semester you are enrolled.

Any international applicant who will hold a teaching assistantship (TA), and whose native language is not English must take the SPEAK test (<https://esl.wisc.edu/ita-training/speak/>) when arriving on campus.

THREE LETTERS OF RECOMMENDATIONS

These letters are required from people who can accurately judge the applicant's academic or research performance. Letters of recommendation are submitted electronically to graduate programs through the online application. Applicants should not send any more than three letters (if more than three are sent, only the first three will be considered). See the Graduate School for FAQs (<https://grad.wisc.edu/apply/>) regarding letters of recommendation.

STATEMENT OF PURPOSE

In this document, applicants should explain why they want to pursue further education in BME and discuss which UW faculty members they would be interested in doing research with during their graduate study (see the Graduate School for more advice on how to structure a personal statement (<https://grad.wisc.edu/apply/prepare/>)).

RESUME (FOR PH.D. APPLICATIONS ONLY)

Include your resume ONLY if applying for the Ph.D. program.

APPLICATION FEE

Submission must be accompanied by the one-time application fee. It is non-refundable and can be paid by credit card (Master Card or Visa) or debit/ATM. By state law, this fee can only be waived or deferred through the conditions outlined here by the Graduate School (<https://grad.wisc.edu/apply/fee-grant/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	Yes

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements	Detail
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide/).

Overall Graduate GPA 3.00 GPA required.
Requirement

Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	There are no degree-specific assessments and examinations outside of those given in individual courses.
Language Requirements	None.

REQUIRED COURSES

The required coursework is designed to complement each student's interests and background in biomedical engineering.

Code	Title	Credits
General Requirements		
2 semesters of B M E 701		
<i>Project or Independent Study (B M E 790 or B M E 799)</i>		0-6
<i>Courses in one area of specialization below, which all include:</i>		24-30
3 or more credits of Bioscience		
12 credits of Engineering		
Electives selected in consultation with advisor		
Total Credits		30

Students choose one of the following areas of specialization.

Biomaterials and Tissue Engineering ¹

Biomaterials and tissue engineering employ a diverse range of approaches to develop methods to diagnose and treat diseases, create living tissue environments that may be used to restore the function of a damaged organ, and uncover biological mechanisms related to tissue development and disease. Graduate students trained in biomaterials and tissue engineering are expected to gain a detailed understanding of cellular and molecular biology, materials science, and engineering methods.

Code	Title	Credits
Required courses:		
<i>At least 3 credits of Bioscience. Relevant options include:</i>		3 or more
CRB 640	Fundamentals of Stem Cell and Regenerative Biology	
CRB 650	Molecular and Cellular Organogenesis	
CRB 670		
ZOOLOGY/ BIOCHEM/ PHMCOL-M 630	Cellular Signal Transduction Mechanisms	
<i>At least 12 credits of Engineering. Relevant options include:</i>		12 or more
B M E/ PHM SCI 430	Biological Interactions with Materials	
B M E/CBE 510	Introduction to Tissue Engineering	
B M E 511	Tissue Engineering Laboratory	
B M E/CBE 520	Stem Cell Bioengineering	
B M E 545	Engineering Extracellular Matrices	

B M E 550	Introduction to Biological and Medical Microsystems
B M E 630	
CBE 540	Polymer Science and Technology
CBE 648	Synthetic Organic Materials in Biology and Medicine
CBE 781	Biological Engineering: Molecules, Cells & Systems
CHEM 654	Materials Chemistry of Polymers
M S & E 521	Advanced Polymeric Materials
Electives (taken in consultation with your faculty advisor):	
B M I/STAT 541	Introduction to Biostatistics
B M I/ COMP SCI 776	Advanced Bioinformatics
COMP SCI 765	Data Visualization
STAT/F&W ECOL/ HORT 571	Statistical Methods for Bioscience I
STAT/B M I 877	Statistical Methods for Molecular Biology
B M E 556	Systems Biology: Mammalian Signaling Networks
B M E/CBE 560	Biochemical Engineering
B M E/MED PHYS/ PHMCOL-M/ PHYSICS/ RADIOL 619	Microscopy of Life
B M E/CHEM/ MED PHYS 750	Biological Optical Microscopy
B M E/CBE 782	Modeling Biological Systems
B M E/CBE 783	Design of Biological Molecules

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Biomechanics ¹

Biomechanists use experiments and computational tools to investigate the mechanical aspects of biological systems, at levels ranging from whole organisms to organs, tissues, and cells. Graduate students trained in biomechanics are expected to gain a detailed understanding of mechanics, mathematics, biology, and engineering.

Code	Title	Credits
Required courses:		
<i>At least 3 credits of a Bioscience. Relevant options include:</i>		3 or more
ANAT&PHY 335	Physiology	
ANAT&PHY 435	Fundamentals of Human Physiology	
CRB 670		
KINES 773	Cardiorespiratory Adaptions to Environment and Exercise	
ZOOLOGY 570	Cell Biology	
<i>At least 12 credits of Engineering. Relevant options include:</i>		12 or more
B M E/M E 414	Orthopaedic Biomechanics - Design of Orthopaedic Implants	
B M E/M E 415	Biomechanics of Human Movement	

B M E/M E 505	Biofluidics
B M E/M E 603	Topics in Bio-Medical Engineering (Topics: Finite Elements for Biomechanics, Imaging Biomechanics, Cell Mechanics, and/or Advanced Cardiovascular Biomechanics)
B M E/M E 615	Tissue Mechanics
M E/E M A 540	Experimental Vibration and Dynamic System Analysis
M E/CIV ENGR/ E M A 508	Composite Materials
M E 563	Intermediate Fluid Dynamics
M E/E M A 570	Experimental Mechanics
M E 573	Computational Fluid Dynamics
E M A 506	Advanced Mechanics of Materials I
E M A 519	Fracture Mechanics
E M A/ M S & E 541	Heterogeneous and Multiphase Materials
E M A 545	Mechanical Vibrations
E M A 605	Introduction to Finite Elements
E M A/E P 615	Micro- and Nanoscale Mechanics
E M A 622	Mechanics of Continua
E M A 630	Viscoelastic Solids
Electives (taken in consultation with your faculty advisor):	
MATH 443	Applied Linear Algebra
MATH 519	Ordinary Differential Equations
MATH 619	Analysis of Partial Differential Equations
M E/STAT 424	Statistical Experimental Design
M E/COMP SCI/ E C E 532	Matrix Methods in Machine Learning
B M I/STAT 541	Introduction to Biostatistics
COMP SCI 368	Learning a Programming Language
B M E/MED PHYS/ PHMCOL-M/ PHYSICS/ RADIOL 619	Microscopy of Life
M E/E C E 439	Introduction to Robotics

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Biomedical Imaging and Optics ¹

Biomedical imaging and optics research develops and utilizes new experimental and computational tools to characterize tissue structure across multiple size scales. A particular focus is on human health, especially with respect to achieving superior diagnostic/prognostic tools for a spectrum of diseased states. Graduate students trained in this track are expected to gain a detailed understanding of mathematics, biology and engineering as well as optical and/or physical methods.

Code	Title	Credits
Required courses:		
<i>At least 3 credits of Bioscience. Relevant options include:</i>		
<i>3 or more</i>		

ANAT&PHY 335	Physiology
ZOOLOGY 570	Cell Biology
<i>At least 12 credits of Engineering. Relevant options include:</i>	
<i>12 or more</i>	
B M E/ MED PHYS 530	Medical Imaging Systems
B M E/ MED PHYS 573	Medical Image Science: Mathematical and Conceptual Foundations
B M E/ MED PHYS 574	Imaging in Medicine: Applications
B M E/ MED PHYS 575	Diagnostic Ultrasound Imaging
B M E/ MED PHYS 578	Non-Ionizing Diagnostic Imaging
B M E/MED PHYS/ PHMCOL-M/ PHYSICS/ RADIOL 619	Microscopy of Life
B M E/ MED PHYS 710	Advances in Medical Magnetic Resonance
B M E/CHEM/ MED PHYS 750	Biological Optical Microscopy
B M E 751	Biomedical Optics and Biophotonics
B M E 580	
MED PHYS 777	Principles of X-ray Computed Tomography
B M E/E C E/ MED PHYS 778	Machine Learning in Ultrasound Imaging
E C E 630	All of Signal Processing

Electives (taken in consultation with your faculty advisor):

MATH 443	Applied Linear Algebra
COMP SCI 368	Learning a Programming Language
COMP SCI 766	Computer Vision
COMP SCI/ B M I 767	Computational Methods for Medical Image Analysis
M E/COMP SCI/ E C E 532	Matrix Methods in Machine Learning

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Medical and Microdevices ¹

Medical and microdevices involve the use of electronic and computational tools to develop devices used in diagnosis and treatment of disease ranging from the systemic to the cellular and molecular levels.

Code	Title	Credits
Required courses:		
<i>At least 3 credits of Bioscience. Relevant options include:</i>		
<i>3 or more</i>		
ANAT&PHY 335	Physiology	
BIOCHEM 501	Introduction to Biochemistry	
BIOCHEM/ GENETICS/ MICROBIO 612	Prokaryotic Molecular Biology	

BIOCHEM/ GENETICS/ MD GENET 620	Eukaryotic Molecular Biology
PATH 750	Cellular and Molecular Biology/ Pathology
ZOOLOGY/ PSYCH 523	Neurobiology
ZOOLOGY 570	Cell Biology
ZOOLOGY/ BIOCHEM/ PHMCOL-M 630	Cellular Signal Transduction Mechanisms
At least 12 credits of Engineering. Relevant options include: 12 or more	
B M E/E C E 462	Medical Instrumentation
B M E 515	Therapeutic Medical Devices
B M E/ MED PHYS 535	Introduction to Energy-Tissue Interactions
B M E 550	Introduction to Biological and Medical Microsystems
B M E 601	Special Topics in Biomedical Engineering (Topics: Medical Design and Manufacturing, and/or Introduction to Neuroengineering)
B M E 602	(Topic: Biosensors)
Electives (taken in consultation with your faculty advisor):	
MATH 443	Applied Linear Algebra
MATH 519	Ordinary Differential Equations
MATH 619	Analysis of Partial Differential Equations
COMP SCI 300	Programming II
COMP SCI 320	Data Programming II
COMP SCI 368	Learning a Programming Language (multiple 1-credit options, including R, C++, and Matlab)
E C E 630	All of Signal Processing

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Neuroengineering ¹

Neuroengineering is the convergence of neuroscience, computation, device development, and mathematics to improve human health. Neuroengineering brings together state-of-the-art technologies for the development of devices and algorithms to assist those with neural disorders. It is also used to reverse engineer living neural systems via new algorithms, technologies and robotics. Students pursuing this track are involved in all of these endeavors so that as the next generation of engineers, they will transcend the traditional boundaries of neuroscience, technology, engineering and mathematics.

Code	Title	Credits
Required courses:		
At least 3 credits of Bioscience. Relevant options include:		3 or more
KINES 721	Neural Basis for Movement	
KINES 861	Principles of Motor Control and Learning	

NTP/ NEURODPT 610	Cellular and Molecular Neuroscience
NTP/NEURODPT/ PSYCH 611	Systems Neuroscience
NTP/ NEURODPT 630	Neuronal Mechanisms for Sensation and Memory in Cerebral Cortex
NTP/NEUROL 735	Neurobiology of Disease
PSYCH 610	Design and Analysis of Psychological Experiments I
PSYCH 733	Perceptual and Cognitive Sciences
ZOOLOGY 625	Development of the Nervous System
ANAT&PHY 335	Physiology
At least 12 credits of Engineering. Relevant options include: 12 or more	
B M E 515	Therapeutic Medical Devices
B M E/CBE 520	Stem Cell Bioengineering
B M E 550	Introduction to Biological and Medical Microsystems
B M E 601	Special Topics in Biomedical Engineering (Topics: Introduction to Neuroengineering and/or Medical Device Design and Manufacturing)
B M E 602	(Topic: Biosensors)
B M E/E C E 462	Medical Instrumentation
B M E/E C E 463	Computers in Medicine
E C E 630	All of Signal Processing
E C E/COMP SCI/ I SY E 524	Introduction to Optimization
E C E/ COMP SCI 533	Image Processing
E C E/COMP SCI/ M E 539	Introduction to Artificial Neural Networks
NTP/ MED PHYS 651	Methods for Neuroimaging Research

Electives (taken in consultation with your faculty advisor):	
MATH 443	Applied Linear Algebra
COMP SCI 320	Data Programming II
COMP SCI 368	Learning a Programming Language (multiple 1-credit options, including R, C++, and Matlab)
COMP SCI/ B M I 567	Medical Image Analysis
COMP SCI 766	Computer Vision
COMP SCI/ B M I 767	Computational Methods for Medical Image Analysis

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Systems and Synthetic Biology ¹

Systems and synthetic biology utilizes experimental and computational tools in an iterative fashion to analyze and regulate biological systems.

Code	Title	Credits
------	-------	---------

Required courses:

<i>At least 3 credits of Bioscience. Relevant options include:</i>		<i>3 or more</i>
--	--	------------------

B M I/ COMP SCI 776	Advanced Bioinformatics
COMP SCI 368	Learning a Programming Language (multiple 1-credit options available, including R, C++, and Matlab)

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

POLICIES**GRADUATE SCHOOL POLICIES**

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES**PRIOR COURSEWORK****Graduate Work from Other Institutions**

A student may transfer graduate coursework from other institutions with program approval. These courses may not be used toward the Graduate School's Minimum Graduate Residence Credit. Coursework earned five years or more prior to admission to the master's program is not allowed to satisfy requirements. Reach out to the BME Graduate Coordinator for more information.

UW-Madison Undergraduate

A student who has completed their bachelor's degree at UW-Madison may transfer 6 credits of coursework with program approval. These courses must be coursework numbered 400 level or above. Coursework earned five or more years prior to admission to a M.S. degree is not allowed to satisfy requirements. These courses may not be used toward the Graduate School's Minimum Graduate Residence Credit.

UW-Madison University Special

With program approval and payment of the difference in tuition (between Special and graduate tuition), students are allowed to count up to 15 credits of coursework numbered 300 or above taken as a UW-Madison Special student toward the minimum graduate residence credit requirement and, the minimum graduate degree credit requirement; if that coursework is numbered 700 or above it may be used to satisfy the minimum graduate coursework (50%) requirement.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member from the major department responsible for providing advice regarding graduate studies. In many cases, an advisor is assigned to incoming students. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

The accelerated MS program is typically completed in less than 18 months.

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements but that coursework may not count toward Graduate School credit requirements

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

BME Grievance Procedures

If a student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance.

Step 1

The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved at this level. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties, or reach out to the Graduate Student Services Coordinator or Associate Chair of BME Graduate Advising for additional assistance. These activities do not rise to the level of a formal grievance; however, the student is encouraged to keep documentation of these interactions as they may be useful if a formal grievance is pursued.

Step 2

Should a satisfactory resolution not be achieved, a formal grievance can be filed with the BME Grievance Committee. To do so, the student contacts the Department Administrator, who will provide the student with

the name of the current chair of the Grievance Committee. The student will then contact the Chair of the Grievance Committee, who will reply within seven calendar days. If the grievance is with the current Chair of the Grievance Committee, please let the Department Administrator know and they will identify an alternate committee member to contact. It is advised that grievances are filed within 60 calendar days of the alleged unfair treatment to enable a thorough investigation.

Step 3

If the student does not feel comfortable working through the departmental process, they are encouraged to seek out other campus resources including:

- The Assistant Dean for Graduate Affairs in the College of Engineering
- The Graduate School
- UW Division of Diversity, Equity & Educational Achievement (DDEEA)
- McBurney Disability Resource Center
- Employee Assistance Office
- Ombuds Office
- University Health Services

Step 4

At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has ten working days to file a written appeal to the School/College. For more information, students should consult the College of Engineering Academic Advising Policies and Procedures.

Step 5

Documentation of the grievance will be stored for at least seven years. Significant grievances that set a precedent will be stored indefinitely. The Graduate School has procedures for students wishing to appeal a grievance decision made at the school/college level. These policies are described in the Graduate School's Academic Policies and Procedures.

OTHER

Due to the accelerated, course-based nature of the Biomedical Engineering Accelerated Master's program, **students cannot hold funded appointments such as research assistantships, teaching assistantships, or project assistantships**, either inside the BME department or elsewhere on campus. These appointments may impact the student's progress and are inconsistent with the nature of an accelerated program. Compliance with this policy will be confirmed by regular audits of appointments. Students can be placed in probation for failure to adhere to these policies.

In the uncommon instance that a BME Accelerated MS student has an offer for a funded appointment (research assistantship, teaching assistantship, or project assistantship) they may appeal this policy. In order to initiate the process, the student should contact the Associate Chair of the Master's degree program, Darilis Suarez-Gonzalez and provide details on the funded position. Dr. Suarez-Gonzalez will bring the student's request to the other members of the appeals committee and the committee will determine if the student can accept the funded appointment. The student may not accept the position without approval from the appeals committee.

Students in this program may not take courses outside the prescribed curriculum without faculty advisor approval. Students in this program

cannot enroll concurrently in other undergraduate, graduate or certificate programs.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

THE INDIVIDUAL DEVELOPMENT PLAN (IDP)

An Individual Development Plan (IDP) (<https://grad.wisc.edu/pd/idp/>) helps graduate students and postdoctoral researchers:

- assess current skills, interests, and strengths;
- make a plan for developing skills to meet academic and professional goals; and
- communicate with supervisors, advisors, and mentors about evolving goals and related skills.

The IDP is a document to be revisited again and again, to update and refine as goals change and/or come into focus, and to record progress and accomplishments.

The university **recommends** IDPs for all postdoctoral researchers and graduate students, and **requires** IDPs for all postdoctoral researchers and graduate students supported by National Institutes of Health (NIH) funding. See the Graduate School for more information and IDP resources (<https://grad.wisc.edu/pd/idp/>).

ENGINEERING CAREER SERVICES

The Engineering Career Services (<https://ecs.wisc.edu/>) staff offers assistance to students searching or preparing for internships, co-ops, and jobs with well-recognized organizations.

THE WRITING CENTER

The Writing Center (<https://writing.wisc.edu/>) is a campus-wide organization that provides free of charge, face-to-face and online consultations for students writing papers, reports, resumes, and applications.

BIOMEDICAL ENGINEERING: BIOMEDICAL INNOVATION, DESIGN, AND ENTREPRENEURSHIP, M.S.

This is a course-based named option within the Biomedical Engineering M.S. (<http://guide.wisc.edu/graduate/biomedical-engineering/biomedical-engineering-ms/>)

The Biomedical Innovation, Design, and Entrepreneurship named option in the Biomedical Engineering M.S. program is designed to provide additional graduate-level, project-based experiences in design, prototyping, and manufacturing, as well as an understanding of business fundamentals, entrepreneurship, and project management. Upon completion, student will be prepared for careers at the interface of engineering and business.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	October 1
Summer Deadline	December 15
GRE (Graduate Record Examinations)	Required*
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	The MCAT may be accepted as an alternate to the GRE.
Letters of Recommendation Required	3*

- * a) Not required for applicants with a UW–Madison Biomedical Engineering bachelor's degree.
- b) For the Spring 2021, Summer 2021, and Fall 2021 cycle of admissions, the GRE requirement is waived due to COVID-19.

Applicants should have a bachelor's degree in engineering (biomedical, chemical, electrical, industrial, mechanical, etc.) or science (biology, biochemistry, chemistry, genetics, immunology, physics, etc.). Each application is judged on the basis of:

- Official academic transcripts
- Graduate Record Examinations (<http://www.ets.org/gre/>) (GRE) scores or Medical College Admission Test (MCAT) scores for the general test
- Test of English as a Foreign Language (<http://www.ets.org/toefl/>) (TOEFL) examination for international students
- Three letters of recommendation
- Statement of purpose (<https://grad.wisc.edu/apply/prepare/>)
- Resume (for Ph.D. applicants only)

All applicants must satisfy requirements that are set forth by the Graduate School (<https://grad.wisc.edu/>). Students admitted to the program may be required to make up deficiency course requirements.

To apply to the BME program, complete applications (<https://grad.wisc.edu/apply/>), including supportive materials, must be submitted as described below and received by the following deadline dates:

- Fall Semester—December 15 (MS and Ph.D.)
- Spring Semester—October 1 (MS and Ph.D.)

OFFICIAL ACADEMIC TRANSCRIPT

Electronically submit one copy of your transcript of all undergraduate and previous graduate work along with your online application to the Graduate School. Unofficial copies of transcripts will be accepted for review, but official copies are required for admitted students. Please do not send transcripts or any other application materials to the Graduate School or the BME department unless requested. If you have questions, please contact bmegradadmission@engr.wisc.edu.

GRADUATE RECORD EXAMINATION (GRE)

Applicants should request ETS to send their official GRE scores by using **institution code 1846**.

MCAT scores may be substituted for GRE. Domestic applicants who choose to substitute MCAT scores for the GRE should send their MCAT score report to bmegradadmission@engr.wisc.edu.

TEST OF ENGLISH AS A FOREIGN LANGUAGE (TOEFL)

The TOEFL is required for international students unless a degree from a U.S. educational institution is held. Scores should be sent using **institution code 1846**.

An applicant whose TOEFL (paper-based) test score is below 580; TOEFL computer-based test (CBT) score below 237; (TOEFL internet-based iBT) test score below 92; IELTS score below 7; or MELAB below 82 must take an English assessment test upon arrival. Depending on your score, you may need to register for any recommended English as a Second Language (ESL) courses in the first semester you are enrolled.

Any international applicant who will hold a teaching assistantship (TA), and whose native language is not English must take the SPEAK test (<https://esl.wisc.edu/ita-training/speak/>) when arriving on campus.

THREE LETTERS OF RECOMMENDATIONS

These letters are required from people who can accurately judge the applicant's academic or research performance. Letters of recommendation are submitted electronically to graduate programs through the online application. Applicants should not send any more than three letters (if more than three are sent, only the first three will be considered). See the Graduate School for FAQs (<https://grad.wisc.edu/apply/>) regarding letters of recommendation.

STATEMENT OF PURPOSE

In this document, applicants should explain why they want to pursue further education in BME and discuss which UW faculty members they would be interested in doing research with during their graduate study (see the Graduate School for more advice on how to structure a personal statement (<https://grad.wisc.edu/apply/prepare/>)).

RESUME (FOR PH.D. APPLICATIONS ONLY)

Include your resume ONLY if applying for the Ph.D. program.

APPLICATION FEE

Submission must be accompanied by the one-time application fee. It is non-refundable and can be paid by credit card (Master Card or Visa) or debit/ATM. By state law, this fee can only be waived or deferred through the conditions outlined here by the Graduate School (<https://grad.wisc.edu/apply/fee-grant/>).

GRADUATE SCHOOL ADMISSIONS

Graduate admissions is a two-step process between academic degree programs and the Graduate School. Applicants must meet requirements of both the program(s) and the Graduate School. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/admissions/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide (https://registrar.wisc.edu/course-guide/)).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	There are no degree-specific assessments and examinations outside of those given in individual courses.
Language Requirements	n/a

REQUIRED COURSES

Code	Title	Credits
At least 9 credits of engineering courses in design, prototyping and manufacturing:		9
B M E 515	Therapeutic Medical Devices	

B M E 601	Special Topics in Biomedical Engineering
B M E 602	
B M E/M E 603	Topics in Bio-Medical Engineering
M E 449	Redesign and Prototype Fabrication
M E 514	Additive Manufacturing
M E 549	Product Design
M E 601	Special Topics in Mechanical Engineering
M E/I SY E 641	Design and Analysis of Manufacturing Systems
M E 748	Optimum Design of Mechanical Elements and Systems
I SY E 415	Introduction to Manufacturing Systems, Design and Analysis
I SY E 515	Engineering Management of Continuous Process Improvement
I SY E 517	Decision Making in Health Care
I SY E 552	Human Factors Engineering Design and Evaluation
I SY E 557	Human Factors Engineering for Healthcare Systems
I SY E 601	Special Topics in Industrial Engineering
I SY E 602	Special Topics in Human Factors
I SY E 603	Special Topics in Engineering Analytics and Operations Research
I SY E 604	Special Topics in Manufacturing and Supply Chain Management
I SY E 606	Special Topics in Healthcare Systems Engineering
INTEREGR 477	Tools for Prototyping and Manufacturing
INTEREGR 601	Topics in Interdisciplinary Engineering
9 credits of general business, entrepreneurship and strategic innovation courses:	
GEN BUS 310	Fundamentals of Accounting and Finance for Non-Business Majors
GEN BUS 311	Fundamentals of Management and Marketing for Non-Business Majors
M H R/A A E 540	Intellectual Property Rights, Innovation and Technology
M H R 715	Strategic Management of Innovation
M H R 722	Entrepreneurial Management
M H R 734	Venture Creation
M H R 738	Weinert Applied Ventures in Entrepreneurship (WAVE)
R M I 650	Sustainability, Environmental and Social Risk Management
At most, 6 credits of other technical elective engineering courses:	
B M E/M E 415	Biomechanics of Human Movement
B M E/PHM SCI 430	Biological Interactions with Materials

B M E/E C E 462	Medical Instrumentation
B M E/E C E 463	Computers in Medicine
B M E/M E 505	Biofluidics
B M E/CBE 510	Introduction to Tissue Engineering
B M E 511	Tissue Engineering Laboratory
B M E/CBE 520	Stem Cell Bioengineering
B M E/MED PHYS 530	Medical Imaging Systems
B M E/MED PHYS 535	Introduction to Energy-Tissue Interactions
B M E 545	Engineering Extracellular Matrices
B M E 550	Introduction to Biological and Medical Microsystems
B M E 556	Systems Biology: Mammalian Signaling Networks
B M E/MED PHYS 573	Medical Image Science: Mathematical and Conceptual Foundations
B M E/MED PHYS 574	Imaging in Medicine: Applications
B M E/MED PHYS 578	Non-Ionizing Diagnostic Imaging
B M E/M E 615	Tissue Mechanics
B M E/MED PHYS/PHM COL-M/PHYSICS/RADIOL 619	Microscopy of Life
B M E/CHEM/MED PHYS 750	Biological Optical Microscopy
B M E/CBE 560	Biochemical Engineering
CBE 540	Polymer Science and Technology
E C E/COMP SCI/I SY E 524	Introduction to Optimization
E C E/COMP SCI 533	Image Processing
E C E/COMP SCI/M E 539	Introduction to Artificial Neural Networks
M E 563	Intermediate Fluid Dynamics
M E/E M A 570	Experimental Mechanics
M E 573	Computational Fluid Dynamics
M S & E 521	Advanced Polymeric Materials
At most, 3 credits of advanced design or research project:	
B M E 799	Advanced Independent Study
Additional credits taken in consultation with advisor	

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

A student may transfer graduate coursework from other institutions with program approval. These courses may not be used toward the Graduate School's Minimum Graduate Residence Credit. Coursework earned five years or more prior to admission to the master's program is not allowed to satisfy requirements. Reach out to the BME Graduate Coordinator for more information.

UW–Madison Undergraduate

A student who has completed their bachelor's degree at UW-Madison may transfer 6 credits of coursework with program approval. These courses must be coursework numbered 400 level or above. Coursework earned five or more years prior to admission to a M.S. degree is not allowed to satisfy requirements. These courses may not be used toward the Graduate School's Minimum Graduate Residence Credit.

UW–Madison University Special

With program approval and payment of the difference in tuition (between Special and graduate tuition), students are allowed to count up to 15 credits of coursework numbered 300 or above taken as a UW–Madison Special student toward the minimum graduate residence credit requirement and the minimum graduate degree credit requirement; if that coursework is numbered 700 or above it may be used to satisfy the minimum graduate coursework (50%) requirement.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every BME graduate student must have a faculty advisor. A faculty advisor provides the graduate student with academic guidance in their course program and research oversight in their thesis, project, or engineering report. Graduate students should always seek advice from their advisor and other faculty in their interest area prior to enrolling for courses.

CREDITS PER TERM ALLOWED

15 credits maximum

TIME CONSTRAINTS

The MS BIDES is typically completed in less than 18 months.

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)

- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

BME Grievance Procedures

If a student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance.

Step 1

The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved at this level. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties, or reach out to the Graduate Student Services Coordinator or Associate Chair of BME Graduate Advising for additional assistance. These activities do not rise to the level of a formal grievance; however, the student is encouraged to keep documentation of these interactions as they may be useful if a formal grievance is pursued.

Step 2

Should a satisfactory resolution not be achieved, a formal grievance can be filed with the BME Grievance Committee. To do so, the student contacts the Department Administrator, who will provide the student with the name of the current chair of the Grievance Committee. The student will then contact the Chair of the Grievance Committee, who will reply within seven calendar days. If the grievance is with the current Chair of the Grievance Committee, please let the Department Administrator know and they will identify an alternate committee member to contact. It is advised that grievances are filed within 60 calendar days of the alleged unfair treatment to enable a thorough investigation.

Step 3

If the student does not feel comfortable working through the departmental process, they are encouraged to seek out other campus resources including:

- The Assistant Dean for Graduate Affairs in the College of Engineering
- The Graduate School
- UW Division of Diversity, Equity & Educational Achievement (DDEEA)
- McBurney Disability Resource Center
- Employee Assistance Office
- Ombuds Office
- University Health Services

Step 4

At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has ten working days to file a written appeal to the School/College. For more information, students should consult the College of Engineering Academic Advising Policies and Procedures.

Step 5

Documentation of the grievance will be stored for at least seven years. Significant grievances that set a precedent will be stored indefinitely. The Graduate School has procedures for students wishing to appeal a grievance decision made at the school/college level. These policies are described in the Graduate School's Academic Policies and Procedures.

OTHER

Due to the accelerated, course-based nature of the Biomedical Innovation, Design, and Entrepreneurship program, **students cannot hold funded appointments such as research assistantships, teaching assistantships, or project assistantships**, either inside the BME department or elsewhere on campus. These appointments may impact the student's progress and are inconsistent with the nature of an accelerated program. Compliance with this policy will be confirmed by regular audits of appointments. Students can be placed in probation for failure to adhere to these policies.

In the uncommon instance that a BME Biomedical Innovation, Design, and Entrepreneurship student has an offer for a funded appointment (research assistantship, teaching assistantship, or project assistantship) they may appeal this policy. In order to initiate the process, the student should contact the Associate Chair of the Master's degree program, Darilis Suarez-Gonzalez and provide details on the funded position. Dr. Suarez-Gonzalez will bring the student's request to the other members of the appeals committee and the committee will determine if the student can accept the funded appointment. The student may not accept the position without approval from the appeals committee.

Students in this program may not take courses outside the prescribed curriculum without faculty advisor approval. Students in this program cannot enroll concurrently in other undergraduate, graduate or certificate programs.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

THE INDIVIDUAL DEVELOPMENT PLAN (IDP)

An Individual Development Plan (IDP) (<https://grad.wisc.edu/pd/idp/>) helps graduate students and postdoctoral researchers:

- assess current skills, interests, and strengths;
- make a plan for developing skills to meet academic and professional goals; and
- communicate with supervisors, advisors, and mentors about evolving goals and related skills.

The IDP is a document to be revisited again and again, to update and refine as goals change and/or come into focus, and to record progress and accomplishments.

The university **recommends** IDPs for all postdoctoral researchers and graduate students, and **requires** IDPs for all postdoctoral researchers and graduate students supported by National Institutes of Health (NIH) funding. See the Graduate School for more information and IDP resources (<https://grad.wisc.edu/pd/idp/>).

ENGINEERING CAREER SERVICES

The Engineering Career Services (<https://ecs.wisc.edu/>) staff offers assistance to students searching or preparing for internships, co-ops, and jobs with well-recognized organizations.

THE WRITING CENTER

The Writing Center (<https://writing.wisc.edu/>) is a campus-wide organization that provides free of charge, face-to-face and online consultations for students writing papers, reports, resumes, and applications.

BIOMEDICAL ENGINEERING, PH.D.

Biomedical engineering is the application of engineering tools for solving problems in biology and medicine. It is an engineering discipline that is practiced by professionals trained primarily as engineers, who specialize in medical and biological applications. This area of study combines fundamentals of the biomedical sciences with advanced engineering methods of analysis and design, and brings together these two fields in order to contribute to the design of new medical instruments and devices, apply engineering principles for understanding and repairing the human body and other biological systems, and use engineering tools for decision making and cost containment.

The interdisciplinary degree program offers a course of graduate study leading to the master of science or the doctor of philosophy degrees in biomedical engineering. The Department of Biomedical Engineering should be of interest to students who wish to practice engineering or engage in research in an engineering specialization in medicine and biology. An individualized course of study is planned with a faculty advisor. Biomedical engineering faculty and affiliated faculty come from the various colleges and professional schools throughout the university. They specialize in biomedical engineering areas as diverse as biomechanics, bioinstrumentation, biomedical imaging and biophotonics, micro and nanotechnology, systems biology, biomaterials, cellular engineering, tissue engineering, neuroengineering, and rehabilitation and human performance. A list of biomedical engineering faculty, affiliated faculty, and their respective areas of specialization is available from the department website.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s).**

Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	October 1
Summer Deadline	December 1
GRE (Graduate Record Examinations)	Required*

English Proficiency Test Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (<https://grad.wisc.edu/apply/requirements/#english-proficiency>).

Other Test(s) (e.g., GMAT, MCAT) The MCAT may be accepted as an alternate to the GRE.

Letters of Recommendation Required 3

* For the Spring 2021, Summer 2021, and Fall 2021 cycle of admissions, the GRE requirement is waived due to COVID-19.

Applicants should have a bachelor's degree in engineering (biomedical, chemical, electrical, industrial, mechanical, etc.) or science (biology, biochemistry, chemistry, genetics, immunology, physics, etc.). Each application is judged on the basis of:

- Official academic transcripts
- Graduate Record Examinations (<http://www.ets.org/gre/>) (GRE) scores or Medical College Admission Test (MCAT) scores for the general test*
- Test of English as a Foreign Language (<http://www.ets.org/toefl/>) (TOEFL) examination for international students
- Three letters of recommendation
- Statement of purpose (<https://grad.wisc.edu/apply/prepare/>)
- Resume (for Ph.D. applicants only)

All applicants must satisfy requirements that are set forth by the Graduate School (<https://grad.wisc.edu/>). Students admitted to the program may be required to make up deficiency course requirements.

To apply to the BME program, complete applications (<https://grad.wisc.edu/apply/>), including supportive materials, must be submitted as described below and received by the following deadline dates:

- Fall Semester—December 1
- Spring Semester—October 1
- Summer Session¹—December 1

¹Please note that summer admissions are generally limited to continuing BME students at UW—Madison or applicants who have research assistantships already arranged with UW faculty.

OFFICIAL ACADEMIC TRANSCRIPT

Electronically submit one copy of your transcript of all undergraduate and previous graduate work along with your online application to the Graduate School. Unofficial copies of transcripts will be accepted for review, but official copies are required for admitted students. Please do not send transcripts or any other application materials to the Graduate School or the BME department unless requested. If you have questions, please contact bmegradadmission@engr.wisc.edu.

GRADUATE RECORD EXAMINATION (GRE)

Applicants should request ETS to send their official GRE scores by using **institution code 1846**.

MCAT scores may be substituted for GRE. Domestic applicants who choose to substitute MCAT scores for the GRE should send their MCAT score report to bmegradadmission@engr.wisc.edu.

TEST OF ENGLISH AS A FOREIGN LANGUAGE (TOEFL)

The TOEFL is required for international students unless a degree from a U.S. educational institution is held. Scores should be sent using **institution code 1846**.

An applicant whose TOEFL (paper-based) test score is below 580; TOEFL computer-based test (CBT) score below 237; (TOEFL internet-based iBT) test score below 92; IELTS score below 7; or MELAB below 82 must take an English assessment test upon arrival. Depending on your score, you may need to register for any recommended English as a Second Language (ESL) courses in the first semester you are enrolled.

Any international applicant who will hold a teaching assistantship (TA), and whose native language is not English must take the SPEAK test (<https://esl.wisc.edu/ita-training/speak/>) when arriving on campus.

THREE LETTERS OF RECOMMENDATIONS

These letters are required from people who can accurately judge the applicant's academic or research performance. Letters of recommendation are submitted electronically to graduate programs through the online application. Applicants should not send any more than three letters (if more than three are sent, only the first three will be considered). See the Graduate School for FAQs (<https://grad.wisc.edu/apply/>) regarding letters of recommendation.

STATEMENT OF PURPOSE

In this document, applicants should explain why they want to pursue further education in BME and discuss which UW faculty members they would be interested in doing research with during their graduate study (see the Graduate School for more advice on how to structure a personal statement (<https://grad.wisc.edu/apply/prepare/>)).

RESUME (FOR PH.D. APPLICATIONS ONLY)

Include your resume ONLY if applying for the Ph.D. program.

APPLICATION FEE

Submission must be accompanied by the one-time application fee. It is non-refundable and can be paid by credit card (Master Card or Visa) or debit/ATM. By state law, this fee can only be waived or deferred through the conditions outlined here by the Graduate School (<https://grad.wisc.edu/apply/fee-grant/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

It is our experience that nearly all doctoral students in the BME department obtain funding, but there are no guarantees. A limited number

receive fellowships. A few students enrolled in M.S. coursework program are self-funded.

Research assistantships are available from individual faculty based on their research funding and awarded when grants are funded and after applications for BME admission are accepted. Sometimes there are project assistantships, teaching assistantships, and traineeships also available. A few students enrolled in M.S. coursework program are self-funded.

ADMITTED WITH FUNDING

We have a limited number of university or departmental fellowships to offer each year. In addition, there are research assistantships that are offered to grad applicants from individual faculty members. Teaching assistantships (TA) are possible through specific departments with more opportunity in lower-level courses, such as calculus, chemistry, and physics. Often, funding matches with specific faculty occur during the Visit Wisconsin Weekend in the spring.

ADMITTED WITHOUT FUNDING

If you are admitted without funding, please know that you will be considered by BME faculty for potential support. You are also encouraged to contact faculty in BME (<http://www.engr.wisc.edu/bme/faculty/>) whose research is of particular interest. Please wait to hear from us about your admission without aid before contacting faculty for support. You may also apply to BME specific TA positions after being admitted or other TA positions on campus.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	60 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (30 credits out of 60 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	PhD candidates are required to pass a comprehensive qualifying examination, preliminary examination, and final oral defense. Deposit of the doctoral dissertation to the Graduate School is required.
Language Requirements	No language requirements.
Doctoral Minor/Breadth Requirements	Breadth is provided via interdisciplinary training (minor requirement waived): The central aim of biomedical engineers is to unravel gaps in biological knowledge through the use of engineering principles. Thus, the doctoral program is inherently interdisciplinary. Prior to obtaining a Ph.D. warrant, students will prepare a summary of their effort in interdisciplinary coursework and training. The purpose of the summary will be to document the effort to meet the spirit of the minor requirement. The summary must be approved by the student's thesis committee and filed with the department. Students may elect to pursue a doctoral minor.

REQUIRED COURSES

Code	Title	Credits
General Requirements		
2 semesters of B M E 701		
<i>Research Credits (B M E 790, 890, 990)</i>		<i>at least 30</i>
<i>Coursework, including:</i>		<i>at least 26</i>
B M E 601 (Topic: Responsible Conduct of Research for Biomedical Engineers)		2
One set of Ph.D. track requirements (credits vary; see below).		18-24
Total Credits		60

Students who follow the Ph.D. coursework guidelines should fulfill the Biomedical Engineering: Research, M.S. (<https://guide.wisc.edu/graduate/biomedical-engineering/biomedical-engineering-ms/biomedical-engineering-research-ms/>) requirements. They may file for that degree prior to their preliminary examination.

Biomaterials & Tissue Engineering Track ¹

Biomaterials and tissue engineering employ a diverse range of approaches to develop methods to diagnose and treat diseases, create living tissue environments that may be used to restore the function of a damaged organ, and uncover biological mechanisms related to tissue development and disease. Graduate students trained in biomaterials and tissue engineering are expected to gain a detailed understanding of cellular and molecular biology, materials science, and engineering methods relevant to their research focus.

Code	Title	Credits

Total Credits	18-19

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Biomedical Imaging & Optics Track ¹

Biomedical imaging and optics research develops and utilizes new experimental and computational tools to characterize tissue structure across multiple size scales. A particular focus is on human health, especially with respect to achieving superior diagnostic/prognostic tools for a spectrum of diseased states. Graduate students trained in this track are expected to gain a detailed understanding of mathematics, biology and engineering both optical and/or physical methods relevant to their research focus.

Elective Requirement	
To provide breadth, at least 6 credits of electives must be taken from courses that are not listed above.	
Total Credits	24-26

- ¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.
- ² The math requirement can be waived by a B- or better in the equivalent course in undergraduate. To request this waiver, please e-mail the Associate Chair of the PhD Degree a copy of your unofficial transcript and indicate the course you are proposing to use. The credits do not transfer; you will instead be able to take a math course of your choice or have a free elective, depending on the track.

Biomechanics Track ¹

Biomechanists use experiments and computational tools to investigate the mechanical aspects of biological systems at levels ranging from whole organisms to organs, tissues, and cells. Graduate students trained in biomechanics are expected to gain a detailed understanding of mechanics, mathematics, biology, and engineering relevant to their research focus.

Code	Title	Credits
Mechanics		12
To provide depth, 6 credits of Biomechanics courses are required. The remaining 6 credits may be selected from either the Advanced Mechanics or Biomechanics lists.

B M E 601	Special Topics in Biomedical Engineering (Introduction to Neuroengineering)	
Elective Requirement		6
To provide breadth, 6 credits of electives must be from courses that are not listed above. An example of a possible course is listed below.		
B M E/E C E 463	Computers in Medicine	

B M E/
MED PHYS 574 Imaging in Medicine: Applications

Total Credits 21-24

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

² The math requirement can be waived by a B- or better in the equivalent course in undergraduate. To request this waiver, please e-mail the Associate Chair of the PhD Degree a copy of your unofficial transcript and indicate the course you are proposing to use. The credits do not transfer; you will instead be able to take a math course of your choice or have a free elective, depending on the track.

Neuroengineering Track¹

Neuroengineering is the convergence of neuroscience, computation, device development, and mathematics to improve human health. Neuroengineering brings together state-of-the-art technologies for the development of devices and algorithms to assist those with neural disorders. It is also used to reverse engineer living neural systems via new algorithms, technologies and robotics. Students pursuing this track are involved in all of these endeavors so as the next generation of engineers, they will transcend the traditional boundaries of neuroscience, technology, engineering and mathematics.

Code	Title	Credits

MED PHYS/ NTP 651	Methods for Neuroimaging Research
Total Credits	24-31

- 1 These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.
- 2 The math requirement can be waived by a B- or better in the equivalent course in undergraduate. To request this waiver, please e-mail the Associate Chair of the PhD Degree a copy of your unofficial transcript and indicate the course you are proposing to use. The credits do not transfer; you will instead be able to take a math course of your choice or have a free elective, depending on the track.
- 3 Engineering and Neurobiology courses must total at least 15 credits.

Systems & Synthetic Biology Track ¹

Systems and synthetic biology utilizes experimental and computational tools in an iterative fashion to analyze and regulate biological systems.

Students interested in earning a doctoral minor in Quantitative Biology (p. 221): enrollment in B M E 780 Methods in Quantitative Biology is a requirement. Additionally, students will need to take one additional 3-credit course in quantitative science, biology, or integrated biology/quantitative science from the approved list of courses in the doctoral minor (this course counts toward the elective credits for this track).

Code	Title	Credits
Mathematics Requirement ²		3
CBE 660	Intermediate Problems in Chemical Engineering	
MATH 443	Applied Linear Algebra	
MATH 519	Ordinary Differential Equations	
MATH 619	Analysis of Partial Differential Equations	
Biology Requirement		3

B M E 556	Systems Biology: Mammalian Signaling Networks
B M E 780	Methods in Quantitative Biology
CBE/B M E 560	Biochemical Engineering
CBE 781	Biological Engineering: Molecules, Cells & Systems
CBE/B M E 782	Modeling Biological Systems
BIOCHEM 570	Computational Modeling of Biological Systems
BIOCHEM 919	Synthetic Biology Seminar
B M I 826	Special Topics in Biostatistics and Biomedical Informatics
Electives Requirement 6	
To provide breadth, 6 credits of electives must be from courses that are not listed above. Suggested courses include the list below.	
Total Credits	19-21

- 1 These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.
- 2 The math requirement can be waived by a B- or better in the equivalent course in undergraduate. To request this waiver, please e-mail the Associate Chair of the PhD Degree a copy of your unofficial transcript and indicate the course you are proposing to use. The credits do not transfer; you will instead be able to take a math course of your choice or have a free elective, depending on the track.

Guidelines for students who earned a master's degree in another field at UW-Madison

1. Students who have earned a master's degree in another field at UW-Madison should contact the Associate Chair of the PhD Degree to understand remaining course requirements. A maximum of 7 credits can be counted from a separate MS degree, in compliance with the Graduate School's Double Degrees policy (<https://grad.wisc.edu/documents/double-degrees/>).

2. Master's degree students who have been absent for five or more years lose all degree credits earned before their absence.
3. All students with a prior master's degree will need to complete the Qualifying Exams and Preliminary Exam requirements even if coursework requirements have been met. Please discuss your specific plan with the Associate Chair of the PhD Degree.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

A student may transfer graduate coursework from other institutions with program approval. These courses may not be used toward the Graduate School's Minimum Graduate Residence Credit at UW-Madison (32 credits). Coursework earned five years or more prior to admission to the PhD program is not allowed to satisfy requirements. Reach out to the BME Graduate Coordinator for more information.

If a student earned a master's degree at another institution, the following guidelines apply:

1. If the previous degree was a master's in BME the program may waive up to 18 credits of PhD track coursework requirements. Note that the credits do not transfer; students must fulfill the remaining track requirements and then meet the 32 credit minimum at UW-Madison in order to advance to dissertator status (research credits count towards this minimum).
2. Those with a master's in other fields can earn a Master of Science in BME at UW-Madison; only 7 credits of coursework will be waived in this case.
3. All students with a prior master's will still need to complete the Qualifying Exams and Preliminary Exam but may be able to do so at an accelerated pace.
4. Master's degree credits earned five or more years prior to the initiation of the PhD program cannot be used for waivers.
5. To apply for waivers, students should develop a list of course equivalents between their chosen track and courses taken at their prior institution. This list, the syllabi for all courses from the prior institution, and a copy of the unofficial transcript should be provided to the Associate Chair of the PhD Degree.

UW-Madison Undergraduate

A student who has completed their bachelor's degree at UW-Madison may transfer 6 credits of coursework with program approval. These courses must be coursework numbered 400 level or above. Coursework earned five or more years prior to admission to a Ph.D. degree is not allowed to satisfy requirements. These courses may not be used toward the Graduate School's Minimum Graduate Residence Credit.

UW-Madison University Special

A maximum of 15 credits from the UW-Madison University Special student career may count toward program requirements. Minimum graduate resident credits requirement and minimum graduate degree credit requirement: allowed up to 15 credits numbered 300 or above. Minimum graduate coursework (50%) requirement: allowed up to 15 credits numbered 700 or above. Coursework earned five or more years prior to admission to a Ph.D. program is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

ADVISOR / COMMITTEE

Advisor. Every BME graduate student must have a faculty advisor. A faculty advisor provides the student with academic guidance in their course program and research oversight in their thesis. The advisor must be a primary BME faculty or a BME affiliate; if the advisor is a BME affiliate, the student must identify a primary BME faculty to serve as co-advisor within their first semester. Graduate students should always seek advice from their advisor and/or co-advisor prior to enrolling for courses.

Doctoral Committee: In addition to the committee requirements put forth by the Graduate School, BME has department-specific criteria that Ph.D. students must meet when forming their committees:

- Committees consist of at least 5 members (one more than the Graduate School's requirement of four)
- The student's advisor(s) must be on the committee
- A minimum of two primary BME faculty must be on the committee
- The Ph.D. committee chair must be a primary BME faculty - either the student's advisor or their co-advisor (if the advisor is an affiliate)
- At least one member must be from outside of the primary BME faculty.
- The Ph.D. committee chair must approve the other members of the committee and any committee changes.
- Students must have a yearly committee meeting after passing the preliminary exam.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Students typically complete their degree within six years of entering the program.

Within two years of entering their program, students are required to pass a comprehensive qualifying examination.

Within three years of entering their program, students are required to prepare for a preliminary examination.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

BME Grievance Procedures

If a student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance.

Step 1

The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved at this level. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties, or reach out to the Graduate Student Services Coordinator or Associate Chair of BME Graduate Advising for additional assistance. These activities do not rise to the level of a formal grievance; however, the student is encouraged to keep documentation of these interactions as they may be useful if a formal grievance is pursued.

Step 2

Should a satisfactory resolution not be achieved, a formal grievance can be filed with the BME Grievance Committee. To do so, the student contacts the Department Administrator, who will provide the student with the name of the current chair of the Grievance Committee. The student will then contact the Chair of the Grievance Committee, who will reply

within seven calendar days. If the grievance is with the current Chair of the Grievance Committee, please let the Department Administrator know and they will identify an alternate committee member to contact. It is advised that grievances are filed within 60 calendar days of the alleged unfair treatment to enable a thorough investigation.

Step 3

If the student does not feel comfortable working through the departmental process, they are encouraged to seek out other campus resources including:

- The Assistant Dean for Graduate Affairs in the College of Engineering
- The Graduate School
- UW Division of Diversity, Equity & Educational Achievement (DDEEA)
- McBurney Disability Resource Center
- Employee Assistance Office
- Ombuds Office
- University Health Services

Step 4

At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has ten working days to file a written appeal to the School/College. For more information, students should consult the College of Engineering Academic Advising Policies and Procedures.

Step 5

Documentation of the grievance will be stored for at least seven years. Significant grievances that set a precedent will be stored indefinitely. The Graduate School has procedures for students wishing to appeal a grievance decision made at the school/college level. These policies are described in the Graduate School's Academic Policies and Procedures.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

THE INDIVIDUAL DEVELOPMENT PLAN (IDP)

An Individual Development Plan (IDP) (<https://grad.wisc.edu/pd/idp/>) helps graduate students and postdoctoral researchers:

- assess current skills, interests, and strengths;
- make a plan for developing skills to meet academic and professional goals; and
- communicate with supervisors, advisors, and mentors about evolving goals and related skills.

The IDP is a document to be revisited again and again, to update and refine as goals change and/or come into focus, and to record progress and accomplishments.

The university **recommends** IDPs for all postdoctoral researchers and graduate students, and **requires** IDPs for all postdoctoral researchers and graduate students supported by National Institutes of Health (NIH) funding. See the Graduate School for more information and IDP resources (<https://grad.wisc.edu/pd/idp/>).

ENGINEERING CAREER SERVICES

The Engineering Career Services (<https://ecs.wisc.edu/>) staff offers assistance to students searching or preparing for internships, co-ops, and jobs with well-recognized organizations.

THE WRITING CENTER

The Writing Center (<https://writing.wisc.edu/>) is a campus-wide organization that provides free of charge, face-to-face and online consultations for students writing papers, reports, resumes, and applications.

LEARNING OUTCOMES

1. Demonstrate an ability to synthesize knowledge from a subset of the biological and physical sciences.
2. Conduct original research.
3. Demonstrate an ability to create new knowledge and communicate it to their peers.
4. Foster ethical and professional conduct.

QUANTITATIVE BIOLOGY, DOCTORAL MINOR

Technological innovations have revolutionized the scale and detail with which biological systems can be explored. With that revolution has come a demand for scientists who can develop and analyze quantitative and predictive models of biological systems. The doctoral minor in Quantitative Biology (<https://qbi.wisc.edu/>) is designed to complement the depth of training in biological or quantitative sciences that a student achieves through UW–Madison's graduate programs with the breadth that is needed to conduct research under this paradigm. In addition to coursework in biological, quantitative, and integrated courses, students in the program will take an inter-disciplinary research seminar to prepare them for research that crosses these boundaries. This training will prepare students for careers in academic and industrial settings, where the ability to cross disciplinary lines and work in teams with diverse expertise is critical.

ADMISSIONS

Candidates should have an undergraduate degree in a biological, quantitative, or physical science/engineering. A minimum GPA of 3.0 (on a 4.0 scale) is required.

Students interested in completing a Quantitative Biology minor should discuss with their thesis advisor and/or contact the minor's faculty director to determine appropriate coursework.

REQUIREMENTS

Students who are candidates for the Ph.D. degree in any department or program may obtain an interdisciplinary minor in Quantitative Biology by earning:

- A minimum of 10 credits from the courses listed below, divided into four categories:
 - A required, 1-credit research seminar (students are advised to take during first year of graduate program)
 - One course from a quantitative science
 - One course from a biological science
 - One integrated course

BIOSTATISTICS AND MEDICAL INFORMATICS

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Bioinformatics, Graduate/Professional Certificate (p. 222)
- Biomedical Data Science, M.S. (p. 223)
- Biomedical Data Science, Ph.D. (p. 226)

BIOINFORMATICS, GRADUATE/PROFESSIONAL CERTIFICATE

Admissions to the Bioinformatics, Graduate/Professional Certificate have been suspended as of spring 2019 and will be discontinued as of spring 2022. If you have any questions, please contact the department.

Bioinformatics is the application of computational and statistical methods to molecular biology. In the realm of biological and medical science, bioinformatics is a central discipline and is placing a new demand on the training of graduate students and other scientists in the biological and computer sciences.

The educational objective of the graduate certificate program in bioinformatics is to provide added formal training for graduate students currently enrolled at UW–Madison to improve their fundamental skills in bioinformatics. The goal is to allow them to have enough basic knowledge to continue their own research and to collaborate with computer scientists specializing in bioinformatics methods.

ADMISSIONS

Admissions to the Bioinformatics, Graduate/Professional Certificate have been suspended as of spring 2019 and will be discontinued as of spring 2022. If you have any questions, please contact the department.

The Department of Biostatistics and Medical Informatics is the administrative home of the bioinformatics certificate program.

You must be currently enrolled in a graduate program at UW–Madison.

To apply for the certificate program you must provide the following:

- A completed Graduate Certificate in Bioinformatics Application Form (<https://www.biostat.wisc.edu/sites/default/files/Application.pdf>)
- A Statement of Purpose explaining how the certificate program will help your current and future research
- A CV/resume
- One letter of recommendation

Please submit the listed materials to Beth Bierman, graduate coordinator, bbierman@wisc.edu

For additional information about the certificate program, see Graduate Certificate in Bioinformatics (<https://www.biostat.wisc.edu/content/graduate-certificate-bioinformatics/>)

Applications are accepted on a rolling basis.

REQUIREMENTS

The Graduate/Professional Certificate in Bioinformatics consists of four courses for a total of 12 credits. Three of the courses are required; one is an elective. Depending on their course and/or research load, students are given two years to complete the program.

Prerequisites:

Code	Title	Credits
MATH 222	Calculus and Analytic Geometry 2	4
COMP SCI 300	Programming II ¹	3

¹ Or COMP SCI 367 - Intro to Data Structures prior to fall 2018.

Basic Course Requirements:

Choose ONE Statistics Course:

Code	Title	Credits
B M I/STAT 541 or STAT/ F&W ECOL/ HORT 571	Introduction to Biostatistics Statistical Methods for Bioscience I	3

Complete BOTH of these courses:

Code	Title	Credits
B M I/COMP SCI 576 & B M I/ COMP SCI 776	Introduction to Bioinformatics and Advanced Bioinformatics	6

Choose ONE elective:

Code	Title	Credits
B M I/STAT 542	Introduction to Clinical Trials I	3
COMP SCI 540	Introduction to Artificial Intelligence	3
COMP SCI 564	Database Management Systems: Design and Implementation	4
COMP SCI 577	Introduction to Algorithms	4
COMP SCI 760	Machine Learning	3
COMP SCI 766	Computer Vision	3
I SY E/B M I 617	Health Information Systems	3
MATH 605	Stochastic Methods for Biology	3
MATH/B M I/ BIOCHEM/ BMOLCHEM 606	Mathematical Methods for Structural Biology	3
MATH 608	Mathematical Methods for Continuum Modeling in Biology	3

Requirements	Detail
Fall Deadline	January 12
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	The MCAT may be accepted as an alternate to the GRE.
Letters of Recommendation Required	3

Potential students include both those with bachelor's degrees in an area of data-science (e.g., computer science, statistics), as well as health professionals and clinicians (e.g., M.D.'s, Pharm.D.'s, R.N.'s). It is expected that admitted candidates will have demonstrated an aptitude for computer science and math, fundamental programming skills, knowledge of data structures and algorithms, and at least two semesters of college calculus. We will however consider candidates who have a wide range of undergraduate backgrounds; providing opportunities to develop necessary skills immediately upon entering the program.

Applying to the Program:

- A formal online application (<https://grad.wisc.edu/apply/>) with required fee through the UW–Madison Graduate School
- Three letters of recommendation
- Transcripts from each higher-education institution attended
- A statement of purpose
- GRE or MCAT scores
- Applicants whose native language is not English, or whose undergraduate instruction was not in English, must provide an English proficiency test score (TOEFL, MELAB, or IELTS)
- Evidence of quantitative preparation, including at least two semesters of college calculus (similar to MATH 221 - MATH 222) and either a course in linear algebra (similar to MATH 340) or courses in programming and data structures

Application Deadline: January 12

For additional information about admission to the program, see MS Program in Biomedical Data Science (https://www.biostat.wisc.edu/content/ms_program_in_biomedical_data_science/) on the department website.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from

BIOMEDICAL DATA SCIENCE, M.S.

The current explosion of biomedical data provides an awesome opportunity to improve understanding of the mechanisms of disease and ultimately to improve human health care. However, fully harnessing the power of high-dimensional, heterogeneous data requires a new blend of skills including programming, data management, data analysis, and machine learning.

The M.S. degree program in biomedical data science covers core concepts and allows for concentrated coursework, in both methodology and application.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Funding guarantees are not provided for students in this program. Students are encouraged to explore funding options available across campus.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

- Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.
- Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/ or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.
- Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.
- Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.
- Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	Half of the coursework (15 out of 30 total credits) must be completed in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university’s Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	Students must earn a B or above in all core curriculum coursework.

Assessments and Examinations	No formal examination required. The research track requires a research project of 3–6 credits.
Language Requirements	No language requirements.

REQUIRED COURSES

Code	Title	Credits
Core Courses Required		
B M I/STAT 541	Introduction to Biostatistics	3
or B M I/POP HLTH 551	Introduction to Biostatistics for Population Health	
or STAT/F&W ECOL/HORT 571	Statistical Methods for Bioscience I	
B M I/COMP SCI 567	Medical Image Analysis	3
B M I 573		3
B M I/COMP SCI 576	Introduction to Bioinformatics	3
Concentration Electives		6

In consultation with their faculty advisor, students will select electives in an area of concentration within biomedical informatics. Examples include but are not limited to:

B M I/STAT 641	Statistical Methods for Clinical Trials
B M I/STAT 642	Statistical Methods for Epidemiology
B M I/COMP SCI 776	Advanced Bioinformatics
B M I/STAT 877	Statistical Methods for Molecular Biology
I SY E 417	Health Systems Engineering
I SY E/B M I 617	Health Information Systems

Data Science Electives 6-7

In consultation with their faculty advisor, students will select two courses as electives in computer science and/ or statistics. Coursework of high relevance includes the following areas:

B M I/COMP SCI 767	Computational Methods for Medical Image Analysis
B M I/STAT 768	Statistical Methods for Medical Image Analysis
STAT 601	Statistical Methods I
STAT 602	Statistical Methods II
STAT 609	Mathematical Statistics I
STAT 610	Introduction to Statistical Inference
STAT 627	Professional Skills in Data Science
STAT 771	Statistical Computing
STAT 849	Theory and Application of Regression and Analysis of Variance I
STAT 850	Theory and Application of Regression and Analysis of Variance II
COMP SCI 577	Introduction to Algorithms
COMP SCI 787	Advanced Algorithms

COMP SCI 766	Computer Vision
COMP SCI 564	Database Management Systems: Design and Implementation
COMP SCI 764	Topics in Database Management Systems
COMP SCI 570	Introduction to Human-Computer Interaction
COMP SCI/ED PSYCH/PSYCH 770	Human-Computer Interaction
COMP SCI 540	Introduction to Artificial Intelligence
COMP SCI 760	Machine Learning
COMP SCI/ECE 761	Mathematical Foundations of Machine Learning
COMP SCI 545	Natural Language and Computing
COMP SCI 769	Advanced Natural Language Processing
COMP SCI/ISYE/MATH 425	Introduction to Combinatorial Optimization
COMP SCI/ISYE/MATH/STAT 525	Linear Optimization
COMP SCI/ISYE 635	Tools and Environments for Optimization
COMP SCI 642	Introduction to Information Security

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

With program approval, students are allowed up to 7 credits numbered 300 or above from a UW-Madison undergraduate degree to count toward the degree. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison University Special

With program approval, students are allowed to count no more than 9 credits of course work numbered 300 or above taken as a UW-Madison Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The status of a student can be one of three options:

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

ADVISOR / COMMITTEE

All students are required to conduct a yearly progress report meeting with their advisor, scheduled by December 17 and completed by April 30. Failure to do so will result in a hold being placed on the student's registration.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

If students have been absent for five or more years, they must file a new Graduate School application for admission and submit it with a new application fee. Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Students may count the coursework completed before their absence for meeting graduate degree-credit requirements; the Graduate School will not count that work toward the Graduate School's minimum residence credit requirement.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)

- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the program director with questions about grievances.

OTHER

Funding guarantees are not provided for students in this program. Students are encouraged to explore funding options available across campus.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Understand, apply, and evaluate common informatics theories, methods, and tools related to biological and biomedical problems, health care and public health.
2. Apply, adapt, and validate an existing approach to a specific biomedical and health problem.
3. Produce solutions that address academic or industrial needs using informatics tools and knowledge.
4. Evaluate the impact of biomedical informatics applications and interventions.
5. Understand the challenges and limitations of technological solutions.
6. Demonstrate scholarly oral and written presentations.
7. Adhere to the professional and legal standards of conduct in Biomedical Data Science.

PEOPLE

Faculty: Broman, Buchanan, Burnside, Chappell, Chen, Chung, Craven, Dewey, Doan, Dyer, Elwert, Gangnon, Gianola, Gitter, Keles, Kendzierski, Kim, Lu, Mao, Mumford, Newton (chair), Ong, Palta, Patel, Peissig, Rosa, Rosenberg, Roy, Singh, Sorkness, Tang, Yandell, Velten, Wang, Yu, Zhang, Zhu

BIOMEDICAL DATA SCIENCE, PH.D.

The current explosion of biomedical data provides an awesome opportunity to improve understanding of the mechanisms of disease and ultimately to improve human health care. However, fully harnessing the power of high-dimensional, heterogeneous data requires a new blend of skills including programming, data management, data analysis, and machine learning.

Blending the best of statistics and computer sciences, biostatistics and biomedical informatics, this program provides students the training they need to make sense of large-scale biomedical data, and to be scientific leaders in the team science that invariably accompanies such data. Unique features of the program include cross-training in computer

science and biostatistics, and research rotations mentored by a program faculty member jointly with a scientific collaborator.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	The MCAT may be accepted as an alternate to the GRE.
Letters of Recommendation Required	3

Potential students include both those with bachelor's degrees in an area of data-science (e.g., computer science, statistics), as well as health professionals and clinicians (e.g., M.D.'s, Pharm.D.'s, R.N.'s). It is expected that admitted candidates will have demonstrated an aptitude for computer science and math, fundamental programming skills, knowledge of data structures and algorithms, and at least two semesters of college calculus. We will however consider candidates who have a wide range of undergraduate backgrounds; providing opportunities to develop necessary skills immediately upon entering the program.

Applying to the Program:

- A formal online application (<https://grad.wisc.edu/apply/>) with required fee through the UW–Madison Graduate School
- Three letters of recommendation
- Transcripts from each higher-education institution attended
- A statement of purpose
- GRE or MCAT scores
- Applicants whose native language is not English, or whose undergraduate instruction was not in English, must provide an English proficiency test score (TOEFL, MELAB, or IELTS)
- Evidence of quantitative preparation, including at least two semesters of college calculus (similar to MATH 221–MATH 222) and either a course in linear algebra (similar to MATH 340) or courses in programming and data structures

Application Deadline: December 1

For additional information about admission to the program, see PhD Program in Biomedical Data Science (<https://www.biostat.wisc.edu/PHD-Biomedical-Data-Science/>) on the department website.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

The program is designed such that almost all students who are accepted to the program will receive guaranteed funding for five years. This funding may take a number of forms including, but not limited to training grants, teaching assistantships, and research assistantships. For more information about funding opportunities, see Graduate Assistantships (<https://grad.wisc.edu/studentfunding/currentstudents/>).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (26 out of 51 total credits) must be completed in graduate#level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	Ph.D. candidates should maintain a 3.0 GPA in all core curriculum courses and may not have any more than two Incompletes on their record at any one time.
Assessments and Examinations	Students must complete an Oral Preliminary Exam, ideally taken in the students' third year.
Language Requirements	No language requirements.
Doctoral Minor/Breadth Requirements	All doctoral students are required to complete a minor.

REQUIRED COURSES

CORE TOPICS

Three year-long course sequences (18 credits) will be selected from a set of core topics.

1. A Biostatistics Theory and Methods sequence (topics 1–3)
2. A Computer Science/Informatics sequence (topics 4–7)
3. A sequence from any of the listed topics from Biostatistics Theory and Methods, Computer Science/Informatics, and the Specializations (topics 1–12)

SEQUENCES IN BIOSTATISTICS THEORY AND METHODS (TOPICS 1–3)

Topic 1 : Biostatistics Theory and Methods—Mathematical Statistics AND Introduction to Statistical Inference

Code	Title	Credits
STAT 609 & STAT 610	Mathematical Statistics I and Introduction to Statistical Inference	7

Topic 2 : Biostatistical Methods—Statistical Methods Series OR Regression Theory and Application Series

Code	Title	Credits
STAT 601 & STAT 602	Statistical Methods I and Statistical Methods II	8
or		

STAT 849 & STAT 850	Theory and Application of Regression and Analysis of Variance I and Theory and Application of Regression and Analysis of Variance II
------------------------	---

Topic 3 : Applied Biostatistics—Data Science AND Data Visualization

Code	Title	Credits
STAT 628 & COMP SCI 765	Data Science Practicum and Data Visualization	6

SEQUENCES IN COMPUTER SCIENCE / INFORMATICS (TOPICS 4–7)

Topic 4 : Machine Learning / AI—Intro to Artificial Intelligence AND Machine Learning

Code	Title	Credits
COMP SCI 540 & COMP SCI 760	Introduction to Artificial Intelligence and Machine Learning	6

Topic 5 : Database Systems—Database Management AND Database Management Topics

Code	Title	Credits
COMP SCI 564 & COMP SCI 764	Database Management Systems: Design and Implementation and Topics in Database Management Systems	7

Topic 6 : Optimization—Linear Program Methods AND Nonlinear Optimization

Code	Title	Credits
COMP SCI/I SY E/ MATH/STAT 525 & COMP SCI/I SY E/ MATH/STAT 726	Linear Optimization and Nonlinear Optimization I	6

Topic 7 : Algorithms—Introduction to Algorithms AND Advanced Algorithms and Data Structures

Code	Title	Credits
COMP SCI 577 & COMP SCI 787	Introduction to Algorithms and Advanced Algorithms	7

SEQUENCES IN ADDITIONAL SPECIALIZATIONS (TOPICS 8-12)

Topic 8 : Clinical Informatics—Health Systems Engineering AND Health Information Systems

Code	Title	Credits
I SY E 417 & I SY E/B M I 617	Health Systems Engineering and Health Information Systems	6

Topic 9 : Clinical Biostatistics—Clinical Trials Statistical Methods AND Epidemiological Statistical Methods

Code	Title	Credits
B M I/STAT 641 & B M I/STAT 642	Statistical Methods for Clinical Trials and Statistical Methods for Epidemiology	6

6 Topic 10 : Statistical Computing—Statistical Computing AND Professional Skills for Data Science

Code	Title	Credits
STAT 771 & STAT 627	Statistical Computing and Professional Skills in Data Science	6

Topic 11 : Bioinformatics / Statistical Genomics—Introduction to Bioinformatics AND Advanced Bioinformatics OR Statistical Methods for Molecular Biology

Code	Title	Credits
B M I/COMP SCI 576 & COMP SCI/ B M I 776 or STAT/ B M I 877	Introduction to Bioinformatics and Advanced Bioinformatics Statistical Methods for Molecular Biology	6

Topic 12 : Biomedical Image Analysis (2 of 3)—Computer Vision OR Computer Methods for Medical Image Analysis OR Statistical Methods for Medical Image Analysis

Code	Title	Credits
COMP SCI 766	Computer Vision	3
B M I/COMP SCI 767	Computational Methods for Medical Image Analysis	3
B M I/STAT 768	Statistical Methods for Medical Image Analysis	3

ADDITIONAL REQUIREMENTS

In consultation with their faculty advisor, students will select 6 credits of biology courses, 6 credits of elective courses, and a research ethics course (1 credit). Students will also complete:

A second#year literature seminar (4 credits)

Code	Title	Credits
B M I 881 - Biomedical Data Science Scholarly Literature 1 Starting Fall 2019		2
B M I 882 - Biomedical Data Science Scholarly Literature 2 Starting Fall 2019		2

A third#year professional skills seminar (2 credits)

Code	Title	Credits
B M I 883 - Biomedical Data Science Professional Skills 1 Starting Fall 2019		1
B M I 884 - Biomedical Data Science Professional Skills 2 Starting Fall 2019		1

Three semester#long research rotations concerning a substantive problem in biomedical data science, advised by a program faculty member in collaboration with a UW faculty member from the biological, biomedical, or population health sciences.

Code	Title	Credits
B M I 899	Pre-dissertator Research	3

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding

general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate course work from other institutions toward the graduate degree credit and graduate course work (50%) requirements. Course work earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

For well-prepared advanced students, a student's program may decide to accept up to 7 credits numbered 300 or above of required or elective courses from the undergraduate work completed at UW–Madison toward fulfillment of minimum degree and minor credit requirements. However, this work would not be allowed to count toward the 50% graduate course work minimum unless taken at the 700 level or above. This work will not appear on the graduate career portion of UW–Madison transcript nor count toward the graduate career GPA. The Graduate School's minimum graduate residence credit requirement can be satisfied only with courses taken as a graduate student at UW–Madison.

UW–Madison University Special

After admission to a graduate program, the student's program may decide to accept up to fifteen University Special student credits as fulfillment of the minimum graduate residence, graduate degree, or minor credit requirements on occasion as an exception (on a case-by-case basis). In all these cases, the student would have to pay the difference in tuition for the terms in question. UW–Madison course work taken as a University Special student would not be allowed to count toward the 50% graduate course work minimum unless taken at the 700 level or above. This work will not appear on the graduate career portion of UW–Madison transcript nor count toward the graduate career GPA.

PROBATION

The status of a student can be one of three options:

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

ADVISOR / COMMITTEE

All students are required to conduct a yearly progress report meeting with their advisor, scheduled by December 17 and completed by April 30. Failure to do so will result in a hold being placed on the student's registration.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

If students have been absent for five or more years, they must file a new Graduate School application for admission and submit it with a new application fee.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)

- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the program director with questions about grievances.

OTHER

Funding guarantees are not provided for students in this program. Students are encouraged to explore funding options available across campus.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulate the biological context of a research question and the scientific relevance of analysis results.
2. Communicate with scientific and quantitative (computational and statistical) colleagues about data analysis goals, methods, and results.
3. Extract the statistical or computational problems from a scientific problem. Develop, characterize, and implement suitable analysis methods to answer questions from biomedical data. Evaluate the validity of analysis methods.
4. Analyze data; extract knowledge and guide decisions based on biomedical data. Organize data and software so that quantitative analyses are meaningful and reproducible.
5. Critically evaluate quantitative approaches in the scientific literature.
6. Evaluate and develop study designs and recognize limitations and potential biases in research data sets.
7. Identify the ethical and regulatory issues surrounding a research project.
8. As part of a biological, biomedical or population health investigative team, serve as the leader in the area of rigorous computational and statistical investigation.

PEOPLE

Faculty: Broman, Buchanan, Burnside, Chappell, Chen, Chung, Craven, Dewey, Doan, Dyer, Elwert, Gangnon, Gianola, Gitter, Keles, Kendziorski, Kim, Lu, Mao, Mumford, Newton (chair), Ong, Palta, Patel, Peissig, Rosa, Rosenberg, Roy, Singh, Sorkness, Tang, Yandell, Velten, Wang, Yu, Zhang, Zhu

BOTANY

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Botany, Doctoral Minor (p. 230)
- Botany, M.S. (p. 230)
- Botany, Ph.D. (p. 234)

PEOPLE

Faculty: Professors Ane, Baum, Cameron (chair), Emshwiller, Fernandez, Gilroy, Givnish, Graham, Hotchkiss, Larget, Otegui, Spalding, Sytsma, Waller; Associate Professors Maeda, Pringle; Assistant Professors Keefover-Ring, McCulloh; Affiliate and Adjunct Faculty: Amasino, Brunet, Damschen, Spooner, Wiedenhoft, P. Zedler

BOTANY, DOCTORAL MINOR

Any student enrolled in a UW–Madison doctoral program can pursue a doctoral minor in botany. The doctoral minor offers training in the field of botany and can be tailored to a student's specific interests. A doctoral

minor in botany is an excellent way to gain a fundamental breadth of understanding of the basic properties of plant life.

REQUIREMENTS

Graduate students who wish to pursue an Option A external minor in the botany department should consult a faculty member within botany (their potential minor professor) or the chair of the botany graduate committee. Courses are chosen in conjunction with the chosen botany faculty member who serves as the minor advisor, and the student's departmental advisor. A student may earn a doctoral minor in botany with 9 credits minimum in botany, including a seminar course, while in residence at UW–Madison. All 9 credits are either exclusively graduate-level botany courses numbered 700 and above or courses numbered 300 and above and identified as designed for graduate work. Directed study courses do not count toward the minor.

PEOPLE

Faculty: Professors Ane, Baum, Cameron (chair), Emshwiller, Fernandez, Gilroy, Givnish, Graham, Hotchkiss, Larget, Otegui, Spalding, Sytsma, Waller; Associate Professors Maeda, Pringle; Assistant Professors Keefover-Ring, McCulloh; Affiliate and Adjunct Faculty: Amasino, Brunet, Damschen, Spooner, Wiedenhoft, P. Zedler

BOTANY, M.S.

The Department of Botany consists of 18 faculty members with about 45 graduate students pursuing M.S. and Ph.D. degrees. The American Council on Education Rating of Graduate Program Quality ranks the department among the top five departments of botany in the country.

Graduate students work with faculty and staff on a range of projects in plant biology at all levels of organization, from molecules, through cells and organs, to populations, communities, and lineages of organisms. Major research areas include molecular, cellular, and developmental biology; structural plant biology; ecology; evolution; and systematics. We also provide advanced instruction and opportunities for research in phycology, bryology, mycology, ethnobotany, paleoecology, conservation and restoration ecology, taxonomy, genetics, and physiology.

Increasingly, graduate student projects encompass two or more of these categories. Master's students may complete a non-thesis program in conservation or restoration ecology designed to prepare them for careers in environmental consulting, natural resource agencies, and nongovernmental organizations.

Students interested in fields bordering botany will find rich opportunities for course work, collaborative research, and seminars in many other departments and schools such as Agronomy, Bacteriology, Biochemistry, Chemistry, Engineering, Entomology, Forest and Wildlife Ecology, Genetics, Geography, Geoscience, Horticulture, Physics, Plant Breeding/Plant Genetics, Plant Pathology, Soil Science, Zoology, and the Nelson Institute for Environmental Studies. Interdisciplinary work is encouraged.

Graduate study in the Department of Botany requires a combination of advanced course work, participation in seminars, and original research. Course requirements follow one of five tracks: general botany; ecology; evolution; molecular, cellular, and developmental biology; or the non-thesis master's degree in conservation and restoration ecology. The

department encourages students to pursue independent research soon after arriving. In consultation with the faculty advisor, each student selects a track that includes courses and research topics related to his or her interests and training in the array of techniques and approaches needed to pursue research.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required but may be considered if available.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	The GRE subject test in Biology or in Cell and Molecular Biology is not required but, if available, will be considered.
Letters of Recommendation Required	3

The Department of Botany will consider applicants for graduate degrees who surpass the minimum admissions requirements of the Graduate School. Candidates for fall admission should submit their full applications to the department by December 1 to be considered for financial support. Applications may be reviewed until April 15. The general Graduate Record Exam (GRE) is not required, but if available, will be considered in the admissions process. The GRE subject test in Biology or in Cell and Molecular Biology is not required but, if available, will be considered. Admission is based on the applicant's statement of purpose, undergraduate record, letters of recommendation, experience in research, and the interests they share with one or more potential faculty advisors.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from

the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Financial support is available to qualified graduate students in the form of teaching, research and project **assistantships** and **fellowships**. Typically, there are approximately 35 graduate students who hold assistantships or fellowships in the botany department. In addition, graduate students are eligible for a number of **intradepartmental awards and grants**.

Graduate students who have a teaching, research or project assistantships of at least a 33.3% appointment (approximately 13.3 hours per week) for a fall or spring term are eligible to receive **remission of full tuition**. Fellowships or traineeships that are payrolled through the university and that carry stipends equivalent to at least a 33.3% research assistantship also qualify for remission of nonresident tuition. Tuition remission is conditionally awarded at the start of the semester based on the expectation that actual earnings during the semester will be at least 33.3% of the full-time rate. All students pay segregated fees. The only exception is that fellowships paid through the Graduate School have segregated fees waived in addition to tuition.

Assistantships and fellowships also provide **eligibility for an excellent health insurance program**, an extremely valuable benefit that provides single or family coverage that is more comprehensive than individuals can usually purchase on their own.

TEACHING ASSISTANTSHIPS

The most common source of support is a teaching assistantship. Historically, stipend rates for teaching and project assistants are governed by the Teaching Assistants' Association (TAA) bargaining unit.

To receive a teaching assistantship, candidates for admission must meet the following requirements:

- evidence (usually from the undergraduate transcript) of an appropriate background in the relevant subject matter of the course(s) to which appointment is being considered;
- evidence (usually from letters of recommendation or verbal communication) of the candidate's potential as a teaching assistant;
- an undergraduate GPA of 3.0 or above (on a 4.0 scale); and
- for students whose native language is not English, evidence of competence in spoken English through the SPEAK test that is administered by the UW. International applicants should note that a TA appointment is not normally possible during the first year of graduate study.

Current students, who apply for their first teaching assistantship, are also subject to the above criteria, as well as their performance as a graduate student. Reappointment as a teaching assistant depends upon satisfactory progress as a graduate student, satisfactory performance as a teaching assistant, and completing the Equity/Diversity TA Training.

Teaching assistants may be eligible for University teaching awards (<https://grad.wisc.edu/taawards/>), including the UW–Madison Early Excellence in Teaching Award, UW–Madison Exceptional Service Award, UW–Madison Innovation in Teaching Award, UW–Madison Capstone Ph.D. Teaching Award, and the College of Letters & Science Teaching Fellow.

RESEARCH OR PROJECT ASSISTANTSHIPS

Research and project assistantships are made possible by grants awarded to individual professors for particular research programs. Recipients are selected by the individual professor concerned. Availability of research and project assistantships varies.

ADVANCED OPPORTUNITY FELLOWSHIPS

Advanced Opportunity Fellowships (AOF) are granted to the UW–Madison's Graduate School by the State of Wisconsin and are combined with other graduate education funds to support the recruitment and retention of highly qualified underrepresented students in UW–Madison graduate programs. Fellowships are competitive and merit based. AOF funding is intended to increase the racial and ethnic diversity of the graduate student population, as well as to support economically disadvantaged and first generation college students. AOF fellowships are paid through the Graduate School by the College of Letters & Science's Community of Graduate Research Scholars (<http://ls.wisc.edu/current-students/graduate-students/cgrs/>) (C-GRS) program.

EXTERNAL FELLOWSHIPS

Fellowships from professional societies and outside agencies provide another important source of aid for which students may apply either before or after commencing graduate work at UW–Madison. If necessary, external fellowships can often be supplemented with university funds up to prevailing university fellowship rates.

All qualified students who are US citizens, nationals or permanent resident aliens of the US are urged to apply to the National Science Foundation for the pre-doctoral fellowship competition. Students apply directly to NSF; the closing date is usually in early November. Please check the NSF website (<http://www.nsf.gov/>) for the application instructions and deadline.

INTRADEPARTMENTAL FELLOWSHIPS AND AWARDS

For more information on Intradepartmental Fellowships and Awards, please see the latest descriptions (<https://botany.wisc.edu/financial-support/>) on the botany website.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the

advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide/) (https://registrar.wisc.edu/course-guide/).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	Students must earn a B or above in all track coursework.
Assessments and Examinations	A written thesis or research report based on work conducted in a formal research course and a final oral exam are required of all students who expect to continue for the Ph.D. degree. All master's theses must be deposited at Memorial Library. Students who wish to terminate their graduate studies at the master's level may submit a literature review instead of a thesis.
Language Requirements	No language requirements.

COURSES REQUIRED

A minimum of 30 credits in natural sciences (undergraduate and graduate program courses combined) is required. A minimum of 6 credits in graduate-level botany courses must be completed at UW–Madison. Seminars and research credits do not count toward the 6 credits in botany. Courses may be required to address deficiencies in the following: GENETICS 466 Principles of Genetics or equivalent; CHEM 103 General Chemistry I and CHEM 104 General Chemistry II or equivalent; CHEM 341 Elementary Organic Chemistry or equivalent; a physics course including electricity and light; one semester of statistics; one semester of calculus. Contact the department for more information.

M.S. students complete a minimum of 16 credits while in residence at the UW, including:

- Courses required for their selected track (see below)
- Six (6) credits within the botany department (can also fulfill track requirements)
- Two (2) seminar courses

- Courses assigned by the Academic Advisory Committee and/or the student's M.S. committee
- Research credits

Each graduate student in botany selects one of the following tracks¹:

General Botany Track

M.S. students must have one course from at least six of the seven.

- genetics,
- biochemistry, cell or molecular biology,
- plant physiology or plant developmental biology,
- cryptogamic botany,
- plant anatomy or morphology,
- ecology, and
- evolution or systematics

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Ecology Track

M.S. students must have a minimum of five courses as follows:

- at least three courses (minimum of 9 credits) in ecology,
- one course in evolution, and
- one course in any of the following: systematics; cryptogamic botany; biochemistry, cell or molecular biology; plant physiology or plant developmental biology; plant anatomy or morphology; or genetics

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Evolution Track

M.S. students must have a minimum of five courses, at least one from each of the following:

- evolution,
- systematics or cryptogamic botany,
- population or quantitative genetics,
- ecology, and
- one course in any of the following: biochemistry, cell or molecular biology; plant physiology or plant developmental biology; or plant anatomy or morphology

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Molecular, Cellular, and Developmental Biology (MCDB) Track

M.S. students must have a minimum of five courses, at least one from each of the following:

- plant anatomy or morphology,
- biochemistry, cell or molecular biology,
- plant physiology,
- plant developmental biology or genetics, and

- one course in any of the following: ecology; systematics; evolution; or cryptogamic botany

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

No credits from other institutions are allowed to count toward the minimum graduate degree credit requirement and the minimum graduate coursework requirement.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the minimum graduate degree credit requirement and the minimum graduate coursework requirement.

UW–Madison University Special

No credits earned as a UW–Madison Special student are allowed to count toward the minimum graduate residence credit requirement, the minimum graduate degree credit requirement, or the minimum graduate coursework requirement.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

A major professor must be chosen as soon as possible after beginning graduate study and in all cases by the end of the first year. A vice major professor is required.

Students meet with an advisory committee before their first semester and with their M.S. committee by the end of their first year to plan their coursework.

Students meet with their advisor on a regular basis to assess progress.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

The master's degree should be completed within two and one-half years of study.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

Assistantships are only available for thesis M.S. and Ph.D. degrees.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Acquire and demonstrate fundamental understanding of the basic properties of plant life from the subcellular to the ecosystem level of organization.
2. Use critical elements of the methodological or theoretical framework in a specialized botanical subdiscipline to develop hypotheses, acquire scientific information, and interpret results in the context of the historical scientific literature.

3. Develop the skills of communicating scientific information, especially in written form.
4. Engage in the critical evaluation of botanical scientific data and its interpretation.
5. Recognize and apply ethical conduct in the collection, analysis, and presentation of scientific data.
6. Develop the skills essential to critical debate, discussion, and exchange of scientific information among peers and audiences of diverse intellectual and personal backgrounds.

Zedler

BOTANY, PH.D.

The Department of Botany consists of 22 faculty members with about 40 graduate students pursuing M.S. and Ph.D. degrees. The American Council on Education Rating of Graduate Program Quality ranks the department among the top five departments of botany in the country.

Graduate students work with faculty and staff on a range of projects in plant biology at all levels of organization, from molecules, through cells and organs, to populations, communities, and lineages of organisms. Major research areas include molecular, cellular, and developmental biology; structural plant biology; ecology; evolution; and systematics. We also provide advanced instruction and opportunities for research in phycology, bryology, mycology, ethnobotany, paleoecology, conservation and restoration ecology, taxonomy, genetics, and physiology.

Increasingly, graduate student projects encompass two or more of these categories. Master's students may complete a non-thesis program in conservation or restoration ecology designed to prepare them for careers in environmental consulting, natural resource agencies, and nongovernmental organizations.

Students interested in fields bordering botany will find rich opportunities for course work, collaborative research, and seminars in many other departments and schools such as Agronomy, Bacteriology, Biochemistry, Chemistry, Engineering, Entomology, Forest and Wildlife Ecology, Genetics, Geography, Geoscience, Horticulture, Physics, Plant Breeding/Plant Genetics, Plant Pathology, Soil Science, Zoology, and the Nelson Institute for Environmental Studies. Interdisciplinary work is encouraged.

Graduate study in the Department of Botany requires a combination of advanced course work, participation in seminars, and original research. Course requirements follow one of five tracks: general botany; ecology; evolution; molecular, cellular, and developmental biology; or the non-thesis master's degree in conservation and restoration ecology. The department encourages students to pursue independent research soon after arriving. In consultation with the faculty advisor, each student selects a track that includes courses and research topics related to his or her interests and training in the array of techniques and approaches needed to pursue research.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required but may be considered if available.

The Department of Botany will consider applicants for graduate degrees who surpass the minimum admissions requirements of the Graduate School. Candidates for fall admission should submit their full applications to the department by December 1 to be considered for financial support. Applications may be reviewed until April 15. The general Graduate Record Exam (GRE) is not required, but if available, will be considered in the admissions process. The GRE subject test in Biology or in Cell and Molecular Biology is not required but, if available, will be considered. Admission is based on the applicant's statement of purpose, undergraduate record, letters of recommendation, experience in research, and the interests they share with one or more potential faculty advisors.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Financial support is available to qualified graduate students in the form of teaching, research and project **assistantships** and **fellowships**. Typically, there are approximately 35 graduate students who hold

assistantships or fellowships in the botany department. In addition, graduate students are eligible for a number of **intradepartmental awards and grants**.

Graduate students who have a teaching, research or project assistantships of at least a 33.3% appointment (approximately 13.3 hours per week) for a fall or spring term are eligible to receive **remission of full tuition**. Fellowships or traineeships that are payrolled through the university and that carry stipends equivalent to at least a 33.3% research assistantship also qualify for remission of nonresident tuition. Tuition remission is conditionally awarded at the start of the semester based on the expectation that actual earnings during the semester will be at least 33.3% of the full-time rate. All students pay segregated fees. The only exception is that fellowships paid through the Graduate School have segregated fees waived in addition to tuition.

Assistantships and fellowships also provide **eligibility for an excellent health insurance program**, an extremely valuable benefit that provides single or family coverage that is more comprehensive than individuals can usually purchase on their own.

TEACHING ASSISTANTSHIPS

The most common source of support is a teaching assistantship. Historically, stipend rates for teaching and project assistants are governed by the Teaching Assistants' Association (TAA) bargaining unit.

To receive a teaching assistantship, candidates for admission must meet the following requirements:

- evidence (usually from the undergraduate transcript) of an appropriate background in the relevant subject matter of the course(s) to which appointment is being considered;
- evidence (usually from letters of recommendation or verbal communication) of the candidate's potential as a teaching assistant;
- an undergraduate GPA of 3.0 or above (on a 4.0 scale); and
- for students whose native language is not English, evidence of competence in spoken English through the SPEAK test that is administered by the UW. International applicants should note that a TA appointment is not normally possible during the first year of graduate study.

Current students, who apply for their first teaching assistantship, are also subject to the above criteria, as well as their performance as a graduate student. Reappointment as a teaching assistant depends upon satisfactory progress as a graduate student, satisfactory performance as a teaching assistant, and completing the Equity/Diversity TA Training.

Teaching assistants may be eligible for University teaching awards (<https://grad.wisc.edu/taawards/>), including the UW–Madison Early Excellence in Teaching Award, UW–Madison Exceptional Service Award, UW–Madison Innovation in Teaching Award, UW–Madison Capstone Ph.D. Teaching Award, and the College of Letters & Science Teaching Fellow.

RESEARCH OR PROJECT ASSISTANTSHIPS

Research and project assistantships are made possible by grants awarded to individual professors for particular research programs. Recipients are selected by the individual professor concerned. Availability of research and project assistantships varies.

ADVANCED OPPORTUNITY FELLOWSHIPS

Advanced Opportunity Fellowships (AOF) are granted to the UW–Madison's Graduate School by the State of Wisconsin and are combined

with other graduate education funds to support the recruitment and retention of highly qualified underrepresented students in UW–Madison graduate programs. Fellowships are competitive and merit based. AOF funding is intended to increase the racial and ethnic diversity of the graduate student population, as well as to support economically disadvantaged and first generation college students. AOF fellowships are paid through the Graduate School by the College of Letters & Science’s Community of Graduate Research Scholars (<http://ls.wisc.edu/current-students/graduate-students/cgrs/>) (C-GRS) program.

EXTERNAL FELLOWSHIPS

Fellowships from professional societies and outside agencies provide another important source of aid for which students may apply either before or after commencing graduate work at UW–Madison. If necessary, external fellowships can often be supplemented with university funds up to prevailing university fellowship rates.

All qualified students who are US citizens, nationals or permanent resident aliens of the US are urged to apply to the National Science Foundation for the pre-doctoral fellowship competition. Students apply directly to NSF; the closing date is usually in early November. Please check the NSF website (<http://www.nsf.gov/>) for the application instructions and deadline.

INTRADEPARTMENTAL FELLOWSHIPS AND AWARDS

For more information on Intradepartmental Fellowships and Awards, please see the latest descriptions (<https://botany.wisc.edu/financial-support/>) on the botany website.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university’s Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	Students must earn a B or above in all track coursework and maintain a 3.00 GPA in all minor coursework.
Assessments and Examinations	<p>The preliminary examination should be taken by the end of the fourth semester in residence and must be taken by the end of the fifth semester. The preliminary exam includes a written research proposal, an oral presentation of the proposal to committee members, and an oral exam.</p> <p>At least one semester of at least a 33% TA appointment is required.</p> <p>During the final semester, candidates must present a department seminar on their dissertation research and complete a final oral exam. A written dissertation based on work conducted in a formal research course is required. All Ph.D. dissertations must be deposited at the Graduate School.</p>
Language Requirements	Language requirements are determined on an individual basis with the major professor and will depend on the area concentration within the department.
Doctoral Minor/Breadth Requirements	<p>All doctoral students are required to complete a minor.</p> <p>Option A: 9 credits from one department. Minor department signs the minor agreement.</p> <p>Option B: 9 credits distributed between two or more departments. Botany chair signs the minor agreement.</p>

REQUIRED COURSES

A minimum of 51 credits in natural sciences (undergraduate and graduate program courses combined) is required. A minimum of 6 credits in graduate-level botany courses must be completed at UW–Madison. Seminars and research credits do not count toward the 6 credits in botany. Courses may be required to address deficiencies in the following: GENETICS 466 Principles of Genetics or equivalent; CHEM 103 General Chemistry I and CHEM 104 General Chemistry II or equivalent; CHEM 341 Elementary Organic Chemistry or equivalent; a physics course including electricity and light; one semester of statistics; one semester of calculus. Contact the department for more information.

Ph.D. students complete a minimum of 32 credits while in residence at the UW prior to earning dissertator status. These credits complete the following requirements:

- Courses required for their selected track (see below)
- Six (6) credits within the botany department (can also fulfill track requirements)
- Two (2) seminar courses, including one outside the student's track and/or outside botany
- Courses for the student's minor field of study
- Courses assigned by the Academic Advisory Committee and/or the student's Ph.D. committee

Each graduate student in botany selects one of the following tracks¹:

General Botany Track¹

Ph.D. students must have one course from each of the following.

- genetics,
- biochemistry, cell or molecular biology,
- plant physiology or plant developmental biology,
- cryptogamic botany,
- plant anatomy or morphology,
- ecology, and
- evolution or systematics

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Ecology Track¹

Ph.D. students must have a minimum of five courses as follows:

- at least three courses (minimum of 9 credits) in ecology,
- one course in evolution, and
- one course in any of the following: systematics; cryptogamic botany; biochemistry, cell or molecular biology; plant physiology or plant developmental biology; plant anatomy or morphology; or genetics

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Evolution Track¹

Ph.D. students must have a minimum of five courses, at least one from each of the following:

- evolution,
- systematics or cryptogamic botany,
- population or quantitative genetics,
- ecology, and
- one course in any of the following: biochemistry, cell or molecular biology; plant physiology or plant developmental biology; or plant anatomy or morphology

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Molecular, Cellular, and Developmental Biology (MCDB) Track¹

Ph.D. and M.S. students must have a minimum of five courses, at least one from each of the following:

- plant anatomy or morphology,
- biochemistry, cell or molecular biology,
- plant physiology,
- plant developmental biology or genetics, and
- one course in any of the following: ecology; systematics; evolution; or cryptogamic botany

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

No credits from other institutions are allowed to count toward the minimum graduate degree credit requirement and the minimum graduate coursework requirement.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the minimum graduate degree credit requirement and the minimum graduate coursework requirement.

UW–Madison University Special

No credits earned as a UW–Madison Special student are allowed to count toward the minimum graduate residence credit requirement, the minimum graduate degree credit requirement, or the minimum graduate coursework requirement.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

A major professor must be chosen as soon as possible after beginning graduate study and in all cases by the end of the first year. A vice major professor is required.

Students meet with an advisory committee before their first semester and with their thesis committee by the end of their first year to plan their coursework.

Students are required to conduct a yearly progress report meeting with their thesis committee after passing the preliminary examination.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

The doctoral degree is typically completed within five to six years.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

Assistantships are only available for thesis M.S. and Ph.D. degrees.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate a fundamental breadth of understanding of the basic properties of plant life from the subcellular to the ecosystem level of organization, and an ability to integrate acquired botanical expertise

with knowledge of related disciplines including, but not limited to, mathematics, physical sciences, and other life sciences.

2. Apply all elements of the methodological or theoretical framework within a specialized botanical subdiscipline to skillfully develop and execute original research, thereby demonstrating intellectual and technical competency appropriate to that subdiscipline.
3. Achieve a professional level of proficiency communicating scientific research proposals and/or results in written format.
4. Develop skills in oral presentation of scientific research data to peers and general audiences.
5. Evaluate, critique, and apply critical thinking skills to the generation of hypotheses, analysis of data, and interpretation of scientific results in botany and related disciplines.
6. Value and promote professional ethics in the collection, analysis, storage, and presentation of scientific data.
7. Engage in critical and respectful debate, discussion, and exchange of scientific information among peers and audiences of diverse intellectual and personal backgrounds.
8. Appreciate the importance of professional service.

BUSINESS ANALYTICS, GRADUATE/PROFESSIONAL CERTIFICATE

The purpose of the Graduate Business Analytics Certificate program is to achieve three objectives: Prepare students to (1) participate in and promote the progression from data and assumptions to information (descriptive methods), (2) to apply knowledge and understanding of how tools and methods can be used to support decision making (predictive methods), and (3) ultimately to document and communicate findings that lead to decisions and plans for implementation (prescriptive methods). Basic elements of the journey have long existed, but it is the integration of these objectives that defines business analytics here in the School of Business.

The certificate prepares students to use analytics for making decisions with a business mindset—seeking answers to questions in order to define the problem, gather necessary data, convert those data to decisions, arrive at and support a business-appropriate answer, and successfully communicate that answer in a form appropriate to the audience. By combining analytics with business knowledge, we prepare our students to function successfully in the data-rich business environment. Business students understand how business operates, how to communicate successfully with others in business, and are familiar with the concept of business goals and objectives. This business perspective is central to the design and differentiation of our certificate.

ADMISSIONS

Only MBA, M.S. and M.Acc. students in the School of Business are eligible for this certificate. A student must discuss the certificate requirements with program directors and/or the certificate directors before declaring with the form at the certificate website.

REQUIREMENTS

Code	Title	Credits
GEN BUS 704	Data to Decisions	2-3
or GEN BUS 307	Business Analytics II	

One course in the area of “Analytics Tools & Methods”

One course in the area of “Analytic Steps”

One additional course from “Analytic Tools & Methods” or “Analytic Steps” that is outside the School of Business department housing the student’s program.

Analytics Tools & Methods

Code	Title	Credits
ACT SCI 654	Regression and Time Series for Actuaries	3
ACT SCI 655	Health Analytics	3
MARKETNG 815	Marketing Analytics	3
OTM 442	Database Management and Applications	3
OTM 765	Contemporary Topics (Supply Chain Analytics)	1-4
R M I 660	Risk Analytics and Behavioral Science	3

Analytic Steps

Code	Title	Credits
FINANCE 635	Security Analysis	3
M H R 765	Contemporary Topics (People Analytics)	1-4
MARKETNG 710	Marketing Research	3
MARKETNG/OTM 727	Enterprise Systems and Supply Chain Management	3
OTM 752	Project Management	3
R M I 655	Risk Financing Techniques	3

LEARNING OUTCOMES

1. Apply analytic tools to prepare, manage, and analyze data for projects (DESCRIPTIVE)
2. Apply analytical tools and methods to both model business issues and appropriately assess and analyze model output (PREDICTIVE)
3. Design and manage data analysis, interpret results, and communicate answers and/or recommendations to support decision making (PRESCRIPTIVE)

BUSINESS, DOCTORAL MINOR

Non-business students may earn a doctoral minor in business by completing a minimum of 10 credits in coursework from the School of Business.

ADMISSIONS

For both minor options, an interested student should complete the following steps:

- Meet with a major advisor in your home department to determine the business subjects most relevant to your program and/or research.
- Print and complete your portion of the Minor Agreement Form (<https://uwmadison.app.box.com/s/nhsn16g10z6z9bjogwpnf9owmjgwf2oi/>).
- Consult with WSB faculty member in the area(s) where coursework is being considered. This faculty member will sign your Minor Agreement Form to indicate approval of the course(s) shown for that field of study.
- Submit the completed Minor Agreement Form to the Ph.D. Program Office (3115 Grainger Hall) for final approval.

Coursework should begin only after receiving final written approval. A copy of the approved agreement will be kept in the Ph.D. Program Office. It is strongly recommended that you have a copy of this agreement placed in your permanent file in your home (major) department.

If you have questions about the School of Business minor options, faculty representatives, or the Minor Agreement Form, please contact the Ph.D. coordinator (phd@wsb.wisc.edu) or visit 3115 Grainger Hall.

REQUIREMENTS

UW–Madison doctoral students from departments outside of the School of Business should follow these guidelines for a minor involving business coursework. Any minor earned through the School of Business appears as “Business” on a transcript and not from a specific program.

Option 1: Complete at least 9 credits within one School of Business program (Accounting, Finance, Management and Human Resources, Marketing, Operations and Information Management, Real Estate and Urban Land Economics, or Risk Management). All courses/credits taken must be graded (A–F).

Option 2: Complete a general business minor made up of at least 9 credits from multiple programs (same as above) within the School of Business.

BUSINESS, ENVIRONMENT, AND SOCIAL RESPONSIBILITY, GRADUATE/PROFESSIONAL CERTIFICATE

Business, Environment, and Social Responsibility (BESR) is a 12-credit graduate/professional certificate that offers a suite of courses addressing the interrelations between business and its natural and social

environment. Its goal is to provide graduate students the fundamental knowledge and skills to sustainably manage enterprises that integrate economic, environmental, and social dimensions into their decision-making.

Students in the program will acquire *knowledge* of (1) the causes of environmental and social challenges as relating to business, and respective policy and business responses; (2) frameworks and measurement systems for incorporating sustainability concerns into business analysis and decision-making; and (3) domains in which business activities and sustainability concerns intersect, and the management of these intersections. They will acquire *skills* to (1) analyze the causes of and responses to environmental and social problems, as well as develop and implement solutions to these problems as managers and policymakers; (2) identify and apply frameworks for effectively incorporating sustainability considerations into the analysis and decision-making of managers and policymakers; and (3) analyze where and how environmental and social issues intersect with business, as well as develop and implement solutions for managing these intersections.

As determined by each student’s individual course path, students will acquire deeper knowledge and skills in select domains such as systems designs, risk management, green real estate, and more. Students are also encouraged but not required to participate in a variety of events and activities that provide a forum to exchange ideas and connect the business community with students and faculty interested in sustainability.

ADMISSIONS

The BESR certificate is open to any student with graduate standing at the University of Wisconsin–Madison. Before beginning the application to the graduate/professional certificate, students should gather the information listed below.

- Current GPA
- Advisor’s name and email address
- Planned semester to begin the certificate

Note: For the application to be approved, it is required that the student has consent from the faculty advisor (or, where appropriate, graduate program coordinator) to participate in the BESR certificate. The student must have the advisor send an email to the certificate director at aterlaak@bus.wisc.edu confirming this consent.

For more information: Certificate advisor, aterlaak@bus.wisc.edu; bus.wisc.edu/degrees-programs/certificates/graduate/sustainability (<https://bus.wisc.edu/degrees-programs/certificates/graduate/sustainability/>)

REQUIREMENTS

The required foundation course, advanced business sustainability coursework, and electives from across the campus need to tally a **minimum of 12 credits**. The slate of coursework options available for fulfilling the certificate program is shown in the table below. Students are strongly encouraged to participate in related non-credit sustainability experiences via competitions, conferences, and speaker events.

The foundation course has no prerequisites and is open to all graduate students on campus. Students will: (1) take one required foundation course (M H R/ENVIR ST 710 Challenges & Solutions in Business

Sustainability (2) choose at least 3 additional credits from a list of School of Business advanced business sustainability coursework, and (3) select up to 6 credits of additional courses from other elective coursework.

------------	-----------------	-----

The list of electives is dynamic and will be adjusted as new courses are being offered and others dropped. Students may request to substitute listed electives with courses that are currently not listed. Such a request requires that the student explains how the substitute class meets the learning outcomes of the certificate and assists the student in reaching his or her individual goals for taking the certificate. The request requires approval by the certificate director in coordination with the Certificate Oversight Committee.

For courses with access restricted to School of Business students, non-business school students may select equivalent open-access lower-level

courses numbered 300 and above (e.g., substitute M H R 723 Business Strategy with M H R 423 Strategic Management).

Extracurricular Activities (*Certificate students are encouraged, but not required, to engage in extracurricular activities that enhance the certificate's learning outcomes.*) These include:

- Speaker events such as the Weston Lecture Series
- Competitions such as Walmart's Sustainable Business Plan Competition and Burrill Business Plan Competition
- Conferences such as the Nelson's Institute Annual Earth Day conference and Wisconsin Sustainable Business Council Conference

LEARNING OUTCOMES

1. Gain knowledge of (i) causes of environmental and social challenges related to business and respective policy and business responses, (ii) frameworks and measurement systems for incorporating sustainability concerns into business analysis and decision-making, and (iii) domains in which business activities and sustainability concerns intersect and the management of these intersections.
2. Acquire skills to (i) analyze causes of and responses to environmental/social problems; develop and implement solutions as managers and policymakers, (ii) identify and apply frameworks for incorporating sustainability considerations into analysis and decision-making, (iii) analyze where and how environmental and social issues intersect with business and develop and implement solutions.
3. (i) develop/articulate view of role business plays in sustainability, (ii) use knowledge and skills in business to strengthen sustainability and in sustainability to strengthen business, (iii) create network of likeminded individuals, acquire ability to engage with professionals outside their fields, and grow appreciation of how different professions contribute to business sustainability.

BUSINESS, PH.D.

The School of Business Ph.D. program has a rich tradition of training scholars who can both enhance the intellectual understanding of business theory and practice and effectively transmit this knowledge to other scholars, business professionals, and students.

The high scholarly productivity and leadership of the school's 80 faculty members are regularly noted in national rankings. Recent studies of U.S. and worldwide scholarly research productivity rated School of Business faculty among the top graduate business schools in the country. In addition to world-renowned recognition for research, the School of Business faculty bring a variety of real-world experience to the program.

The Ph.D. degree provides advanced instruction that actively involves the student in research. School of Business doctoral candidates share with their professors the experience of exploring the frontiers of knowledge while acquiring the spirit as well as the methods of productive scholarship. At the time of enrollment, each student is assigned a major advisor to provide program counsel and to channel communication within and between School of Business departments. The mentoring relationship between the major professor and student is one of mutual agreement.

DEGREE PROGRAM SPECIALIZATIONS

The School of Business Ph.D. program (<https://wsb.wisc.edu/programs-degrees/doctoral-phd/>) allows students to select from seven specialization tracks available along with a variety of minors. Each specialization permits the student, with the assistance and direction of a major advisor, to tailor a program based on research interests and career goals. The average time needed to complete the degree program is five years.

ADMISSIONS

Admission consideration requires a four-year undergraduate degree or the equivalent, in any discipline, from an accredited institution. Work experience is not required. Applicants should have an undergraduate minimum grade point average (GPA) of 3.0 or higher on a 4.0 scale. In addition to academic credentials, test scores, personal achievements, motivation, communication skills (written and oral) and recommendation letters are considered in the admission process at both the master's and doctoral levels.

Please note: The Graduate Management Admission Test (GMAT) or the Graduate Record Exam (GRE), taken within five years of the starting term, is required of all applicants to the School of Business Ph.D. and M.S. programs. Also, all domestic (including Puerto Rico) and international applicants whose native language is not English must submit scores from the Test of English as a Foreign Language (TOEFL). A recommended minimum TOEFL score of 106 (New iBT) and 27 Speaking, obtained within two years of the intended starting term, is needed for admission consideration. International applicants who have completed a four-year bachelor's degree in a country where the official language is English may request a waiver of the TOEFL requirement. A master's degree from an English-speaking institution does not qualify for a waiver of the TOEFL, unless you have completed a minimum of 4 years of education (undergrad and graduate) in a country where English is the native language. The school accepts IELTS and Pearson Test of English as substitutes for TOEFL.

To learn more about the application and admissions process, visit Ph.D. Admission Requirements (<https://wsb.wisc.edu/programs-degrees/doctoral-phd/admissions/admissions-requirements/>).

HOW TO APPLY

Students interested in business degrees do not apply through the Graduate School application system and should instead refer to the School of Business Admissions page. (https://admissions.bus.wisc.edu/?_ga=2.47171374.802634615.1518557744-1236773262.1518557744)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Prospective students should see the program website for funding information (<https://wsb.wisc.edu/programs-degrees/doctoral-phd/admissions/phd-financing/>).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.

Other Grade Requirements The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.

Assessments and Examinations Doctoral students are required to take a comprehensive preliminary/oral examination after they have cleared their record of all Incomplete and Progress grades (other than research and thesis). Deposit of the doctoral dissertation in the Graduate School is required.

Language Requirements There are no curricular language requirements for Business Ph.D. students.

Doctoral Minor/Breadth Requirements A doctoral minor is not required for Business Ph.D. students. Breadth is achieved in other ways; see below.

REQUIRED COURSES

Business Ph.D. students choose one of seven tracks¹ to complete course requirements.

Accounting and Information Systems Track ¹

Three seminars in accounting research are required:

- Introduction to Accounting Research
- Behavioral Accounting Research
- Archival Accounting Research

Students in our program develop a basic research background in both archival and behavioral empirical research. The program is one of the most balanced programs in the country in terms of support for different research methodologies and topics. Most students ultimately specialize in the research area and methodology that best suits their skills and research interests. Both behavioral (including experimental economics) and archival methods are strongly supported.

Students also develop specialization in a related field such as economics, psychology, or sociology. Finally, students build a foundation in statistics that supports their research interests. Methodology courses in economics, agricultural economics, or psychology will generally provide a strong foundation.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Actuarial Science, Risk Management, and Insurance Track ¹

The course sequence for Ph.D. students in actuarial science, risk management, and insurance is customized to fit each student's unique research interests and background. During your first two years of study, you will work with a Ph.D. faculty advisor to set an appropriate course sequence, consisting of a combination of courses within the Wisconsin School of Business and a set of advanced courses that form a coherent package and enhance your research skills from outside of the Wisconsin School of Business. All students are expected to take the following minimum core course sequence:

- Two semesters of Ph.D.-level Microeconomic Theory
- Two semesters of Ph.D.-level Econometrics
- Panel-data statistics/econometrics
- Seminar in Actuarial Science, Risk Management, and Insurance I
- Seminar in Actuarial Science, Risk Management, and Insurance II

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do

not appear in the Graduate School admissions application, and they will not appear on the transcript.

Finance Track ¹

At the beginning of the second year, each student proposes a set of three advanced courses that form a coherent package and enhance the student's research skills. Students are free to choose elective courses offered by the economics, mathematics, or statistics departments. If applicable, students should work with their advisor to determine if courses in other areas are appropriate.

Code	Title	Credits

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Management and Human Resources Track ¹

- The management and human resources department offers a slate of foundational Ph.D. seminars across the group's core areas of research, including human resource management (HR), organizational behavior (OB), organizational theory (OT), entrepreneurship (ENT), and strategy. The seminar offerings vary from year to year. Doctoral students are expected to take all Ph.D. seminars offered by the department.
- Required coursework in advanced research methods and statistics includes a minimum of 18 credits, consisting of two courses in statistics, two in research methodology, and two depth courses. Courses are selected in consultation with the student's advisor.
- Students may declare a secondary academic discipline as a minor (e.g., sociology, economics, psychology).
- Preliminary exams are written at the end of the second year. The exam, which takes place over two days, consists of four questions. Two questions cover the student's primary concentration, one question covers the student's secondary concentration, and there is one methods question. (The concentrations are human resource management, organizational behavior, or strategy/ENT/OT.)

- The subsequent two years of study are allocated to developing and defending a dissertation.
- A substantial share of coursework may be undertaken outside of the Wisconsin School of Business. Students take a diverse array of seminars in the economics, sociology, psychology, statistics, and computer science departments, depending on their specific research interests. These may be theory or methods courses. Required coursework in research methods and statistics includes a minimum of 18 credits.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Marketing Track ¹

Students complete four Ph.D. seminars in marketing at the University of Wisconsin–Madison.

Students complete four courses at the graduate level, either inside or outside the School of Business. These courses will form a coherent topic related to the student's specific research interest and will include at least one course in the methods of data collection and at least one in the methods of data analysis.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Operations and Information Management Track ¹

Working with an advisor, each student chooses a minimum of four courses (12 credits) in the area of research methodology. While students are required to develop basic research background in multiple research areas, most students ultimately specialize in the research area and methodology that best suits their skills and research interests. These courses can be drawn from inside or outside the School of Business. Coursework in this group may be used to fulfill the requirements for the major and minor program.

Coursework in the candidate's major research area of interest is to be chosen together with the advisor. For a student entering the Ph.D. program with a master's degree in the major area, the required coursework is estimated to take two years. Students without a relevant master's degree may take an additional semester to complete the required coursework.

Before becoming a dissertator, Ph.D. students must both complete 32 credits of coursework and pass a preliminary exam. The preliminary exam includes two parts: a written exam and an oral presentation of an original research paper.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Real Estate and Urban Land Economics Track ¹

Code	Title	Credits
<i>Foundation Coursework</i>		
FINANCE 920	Theory of Finance	3
ECON 709	Economic Statistics and Econometrics I	3-4

ECON 710	Economic Statistics and Econometrics II	3-4
ECON 711	Economic Theory-Microeconomics Sequence	3
ECON 712	Economic Theory-Macroeconomics Sequence	3
ECON 713	Economic Theory: Microeconomics Sequence	3

Starting in the second year, students take the real estate workshop. This workshop is designed to help students make progress toward completion of their second-year paper and their dissertation. In addition, students take a finance or economics workshop each semester beginning with the second semester in the program and continuing as long as the student is in residence.

Students are encouraged to audit both workshops during their first semester.

At the beginning of the second year, each student proposes a set of three advanced courses that form a coherent package and enhance the student's research skills. Students are free to choose elective courses offered by the economics, finance, mathematics, or statistics departments. It may also be appropriate to choose courses in computer science, law, psychology, accounting, or other areas taught at UW–Madison.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

With program approval and payment of the difference in tuition (between special and graduate tuition), students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison

special student. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeeabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)

- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

Virtually all Ph.D. students in business are funded at a level that guarantees a minimum of four years of the following: Full tuition remission; scholarship funding; a monthly stipend; comprehensive family health insurance plan, travel funding for students presenting at academic conferences.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates challenges, frontiers and limits with respect to theory, knowledge or practice within the field of study.
2. Creates research, scholarship or performance that makes a substantive contribution within the field of study.
3. Develops a proficiency in statistical analysis relevant to the field of study.
4. Demonstrates breadth within their learning experiences.
5. Communicates complex or ambiguous ideas in a clear and understandable manner.
6. Advances and articulates the value of contributions of the field of study to society.
7. Fosters ethical and professional conduct.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate ability to diagnose and solve problems by drawing on accumulated knowledge, understanding correlation vs. causation, integrating inductive and deductive reasoning, and being aware of perceptual and conceptual biases that can affect individual and group decision-making and knowing how to correct these biases.
2. Demonstrate ability to synthesize data and inputs from multiple sources to analyze business problems.
3. Demonstrate ability to derive valid inferences from data and make recommendations based on marginal analysis of costs and benefits.
4. Communicate clearly and effectively as managers in professional settings to meet organizational goals.
5. Persuasive skills in verbal and written communication.
6. Utilize a variety of media and technologies.
7. Manage the message and its flow through an organization.
8. Develop multi-disciplinary approaches to frame and analyze complex business problems and situations.
9. Understand perspectives on the role of business in society, e.g., shareholder value as its sole objective and corporations having a social responsibility.
10. Explain how these views are shaped by globalization, environmental and social circumstances, technology, law, and the role of government.
11. Analyze the cultural, economic, and legal/regulatory issues that impact international business activities and relationships.
12. Understand that a leader motivates and inspires people while a manager manages processes, that leader and manager roles are distinct and complementary, and that both roles are necessary for success in complex, multifaceted organizations.
13. Explain and contrast the different systems of behaviors for leaders and managers within the organization.
14. Frame, reflect on, and respond to the ethical dimensions of business decisions.
15. Demonstrate the skills and know processes to maximize team performance to successfully meet goals, both as an effective team member and leader.
16. Understand the advantages of a diverse and inclusive workforce, and demonstrate the cultural competencies necessary to manage such a workforce.
17. Analyze the impact of laws and regulations on their decisions.

ACCREDITATION

ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (<http://www.aacsb.edu/>)

Accreditation status: Accredited. Next accreditation review: 2021–2022.

BUSINESS: GENERAL MANAGEMENT, MBA

The Master of Business Administration (MBA) is a professional degree for the student preparing for a career in the business world. The cross-functional/interdisciplinary program exposes the student to each of the functional areas of business combined with a specialization in a specific area of business. Areas of specialization include corporate finance and investment banking, applied security analysis, arts administration, brand and product management, general management, marketing research, operations and technology management, real estate and urban land economics, risk management and insurance, strategic human resource management, and supply chain management.

Founded in 1900, the School of Business established one of the first five business programs in the nation. That entrepreneurial spirit remains strong.

As a student in the School of Business, you will find yourself inspired by peers, staff, alumni, business leaders, and world-renowned faculty who are focused, collaborative, and engaged in every aspect of the student experience. You will join a highly ranked program that equips you to meet both academic and career challenges. Employers value School of Business graduates because of the comprehensive preparation this learning environment provides. Graduates possess highly sought-after general management and specialized expertise in business.

Joining collaborative, inspiring, trustworthy, and progressive School of Business alumni, Business Badgers graduate prepared to lead their organizations to success and transform the world of business. Together Forward!

EVENING MBA

The School of Business offers the Evening MBA (<https://guide.wisc.edu/graduate/business-school-wide/business-general-management-mba/business-general-management-evening-mba/>)—a part-time program that allows students to complete an MBA degree while continuing full-time employment. The evening MBA is a 32-month, lockstep, cohort program offering a major in general management. Classes meet Monday and Thursday evenings during fall, spring and summer, and alternate Fridays and Saturdays in January. There is an international trip in the second year of the program.

EXECUTIVE MBA

The Executive MBA Program (<https://guide.wisc.edu/graduate/business-school-wide/business-general-management-mba/business-general-management-executive-mba/>) at the School of Business gives experienced, high-potential managers the opportunity to earn an advanced degree over 21 months without career interruption.

Offered in lock step with a single cohort, the Executive MBA Program meets every other Friday and Saturday. The curriculum is specifically designed to build on the unique knowledge and experience executives bring to the classroom.

PROFESSIONAL MBA

The School of Business offers the Professional MBA (<http://guide.wisc.edu/graduate/business-school-wide/business-general-management-mba/business-general-management-professional-mba/>)—a part-time program that allows students to complete an MBA while continuing full-time employment. The professional MBA is a flexible, 50% on-campus, 50% online program, which can be completed in two to five years. Classes meet on campus one weekend per month, and virtually throughout the school year. Students earn badges in business areas important to them and gain strategic insights to help them throughout their career.

ADMISSIONS

Students apply to the Master of Business Administration in Business: General Management through one of the named options:

- Business: General Management: Evening, MBA (p. 251)
- Business: General Management: Executive, MBA (p. 253)
- Business: General Management: Professional, MBA (<http://guide.wisc.edu/graduate/business-school-wide/business-general-management-mba/business-general-management-professional-mba/>)

FUNDING

GRADUATE SCHOOL RESOURCES

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Strategic problem solving: Demonstrate the ability to diagnose and solve problems by drawing on accumulated knowledge, understanding correlation vs. causation, integrating inductive and deductive reasoning, and being aware of perceptual and conceptual biases.
2. Managing ambiguity: Demonstrate the ability to lead and operate effectively with uncertainty and conflicting directions in an unpredictable situation or environment.
3. Effective communication: Demonstrate skills in presenting ideas and reasoning effectively and persuasively in a business setting, through both written and oral means. Develop skills in sending and receiving information in a logical manner while considering the audience and the nature of the information.
4. Transformational leadership: Demonstrate an understanding of leadership skills that empower, influence, motivate, and stimulate creative problem solutions and innovative ideas.
5. Cultural competence and perspective: Understand the advantages of a diverse and inclusive workforce, and demonstrate the cultural competencies necessary to manage such a workforce. Exhibit openness, awareness, appreciation, and ability to adjust to diversity across cultures and markets; seeking experiences to explore intercultural and socio-cultural systems.

Accreditation status: Accredited. Next accreditation review: 2021-2022.

BUSINESS: GENERAL MANAGEMENT: EVENING, MBA

This is a named option in the Business: General Management MBA. (p. 249)

ADMISSIONS

Admission consideration for the MBA Program requires a four-year undergraduate degree or the equivalent, in any discipline, from an accredited institution. The School of Business seeks a minimum of two years of full-time work experience along with a strong undergraduate performance. In addition to academic credentials, GMAT scores, and work experience, personal achievements, motivation, communication skills (written and oral), international exposure, and recommendation letters are considered in the admission process at both the master's and doctoral levels.

Note: The Graduate Management Admission Test (GMAT), taken within five years of the starting term, is required of all applicants to the School of Business; the Graduate Record Exam (GRE) may be an acceptable alternative on a case by case basis. All applicants whose native language is not English must submit scores from the Test of English as a Foreign Language (TOEFL), the Pearson Test of English (PTE), Intensive English as a Second Language (IELTS), or show the completion of an Interlink program. A minimum iBT TOEFL score of 100 or equivalent, obtained within two years of the intended start term, is required. International applicants who have completed a degree at an institution whose primary language of instruction was English may request a waiver of this requirement on the application.

HOW TO APPLY

Students interested in business degrees do not apply through the Graduate School application system and should instead refer either the Evening MBA admissions (<https://wsb.wisc.edu/programs-degrees/mba/evening/admissions/>) or the Executive MBA admissions (<https://wsb.wisc.edu/programs-degrees/mba/executive/admissions/>) information.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

No credits of prior coursework are allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

No credits of prior coursework are allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)

- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

Students in the following programs are not permitted to seek dual degrees. Students must plan to attend on the dates of the academic calendar for the respective year of graduation. Students must take part in the required global learning experience (10 days). Merit scholarships are awarded at admission for the entirety of the academic program as long as student is in good academic standing. Veterans scholarships also available. Contact emba@bus.wisc.edu for details on merit veterans scholarships.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

BUSINESS: GENERAL MANAGEMENT: EXECUTIVE, MBA

This is a named option in the Business: General Management MBA. (p. 249)

ADMISSIONS

The MBA is a professional degree for the student preparing for a career in the business world. The cross-functional/interdisciplinary program exposes the student to each of the functional areas of business combined with a specialization in a specific area of business. Areas of specialization include corporate finance and investment banking, applied security analysis, arts administration, brand and product management, general management, marketing research, operations and technology management, real estate and urban land economics, risk management and insurance, strategic human resource management, and supply chain management.

Founded in 1900, the School of Business established one of the first five business programs in the nation. That entrepreneurial spirit remains strong.

As a student in the School of Business, you will find yourself inspired by peers, staff, alumni, business leaders, and world-renowned faculty who are focused, collaborative, and engaged in every aspect of the student experience. You will join a highly ranked program that equips you to meet both academic and career challenges. Employers value School of Business graduates because of the comprehensive preparation this learning environment provides. Graduates possess highly sought-after general management and specialized expertise in business.

Joining collaborative, inspiring, trustworthy, and progressive School of Business alumni, Business Badgers graduate prepared to lead their organizations to success and transform the world of business. Together Forward!

EVENING MBA

The School of Business offers the Evening MBA (p. 251)—a part-time program that allows students to complete an MBA degree while continuing full-time employment. The evening MBA is a 32-month, lockstep, cohort program offering a major in general management. Classes meet Monday and Thursday evenings during fall, spring and summer, and alternate Fridays and Saturdays in January. There is an international trip in the second year of the program.

EXECUTIVE MBA

The Executive MBA Program (p. 253) at the School of Business gives experienced, high-potential managers the opportunity to earn an advanced degree over 21 months without career interruption.

Offered in lock step with a single cohort, the Executive MBA Program meets every other Friday and Saturday. The curriculum is specifically designed to build on the unique knowledge and experience executives bring to the classroom.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	Yes	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	48 credits
Minimum Residence Credit Requirement	24 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (24 credits out of 48 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide (https://registrar.wisc.edu/course-guide/)).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	None.
Language Requirements	None.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

BUSINESS: SUPPLY CHAIN MANAGEMENT, M.S.

Wisconsin's M.S. in Supply Chain Management, supported by the Grainger Center for Supply Chain Management, is a one-year program that provides students with an interdisciplinary education combining fundamental knowledge and applied learning experiences. The strategic, cross-functional curriculum takes an integrated business process view of supply chains, including marketing, sourcing, logistics, operations, and customer service. Students connect with and learn from real-world supply chain leaders and are part of a strong, close-knit community. See the program website (<https://wsb.wisc.edu/programs-degrees/masters/supply-chain/>) for more information.

ADMISSIONS

The following will be required for admission to the MS-Business: Supply Chain Management program:

- Undergraduate university degree, or expected completion of such a degree prior to starting the MS-Business: Supply Chain Management program
- Demonstrated knowledge of business fundamentals (or specific plan for acquiring prior to the start of the program); some possible ways of satisfying this include:
 - Undergraduate degree with business major or minor
 - Completion of Certificate in Business at UW-Madison
 - Earning GPA ≥ 3.0 in intermediate college course work covering at least two core business disciplines (marketing, operations, finance, accounting, management); completion of GEN BUS 310 or GEN BUS 311 satisfies this requirement, and can be taken online during the summer prior to the start of the program
- Undergraduate transcript, GPA ≥ 3.0
- One letter of recommendation, preferably addressing the applicant's professional skills
- Resume
- Response to essay question
- GMAT or GRE score

An interview may be requested by the Program Office or Grainger Center staff.

Additional international student requirements:

- TOEFL score of at least 100

The TOEFL will not be required for international applicants whose four-year undergraduate degree and/or master's degree (minimum of eight semesters total) instruction was in English or who will complete such a degree prior to matriculation in the MS-Business: Supply Chain Management program.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further

funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

Due to the interdisciplinary nature of supply chain management, any course with the graduate course attribute offered by the School of Business (including departments: ACCT I S, ACT SCI, FINANCE, GEN BUS, INFO SYS, INTL BUS, M H R, MARKETNG, OTM, REAL EST, or R M I) can be used to complete the required elective credits. Courses outside of the School of Business will be considered on a case-by-case basis.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES
PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

With program approval and payment of the difference in tuition (between special and graduate tuition), students are allowed to count no more than 9 credits of coursework numbered 700 or above taken as a UW–Madison University Special student. Coursework earned five or more years prior to the master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

Students must be enrolled full-time.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

This program provides significant opportunities for professional development through the applied learning curriculum.

LEARNING OUTCOMES

1. Apply knowledge in operations, finance, marketing and information systems to support decision making within and across the fundamental dimensions of supply chain management – planning, sourcing, making and delivering physical and non-physical products.
2. Make supply chain decisions in real-world settings through significant exposure to leading supply chain practitioners.
3. Identify relevant sources of data, know how to access that data, and be able to analyze it to support supply chain decision making.
4. Identify and assess the opportunities and risks associated with global sources of supply and global markets for goods.
5. Communicate ideas and recommendations to individuals in all functional areas within an organization.

PEOPLE

Please see the Grainger Center's website (<https://bus.wisc.edu/centers/grainger-center-for-supply-chain-management/contact-us/>) for a list of program leaders.

ACCREDITATION

ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (<http://www.aacsb.edu/>)

Accreditation status: Accredited. Next accreditation review: 2021-2022.

BUSINESS: SUPPLY CHAIN MANAGEMENT, MBA

The Wisconsin MBA in Business: Supply Chain Management, supported by the Grainger Center for Supply Chain Management, provides students with a personalized, industry-focused program which partners with companies known for supply chain excellence. The program provides students with an exceptional interdisciplinary education that builds on fundamental knowledge and incorporates the latest in supply chain thinking. The strategic, cross-functional curriculum takes an integrated business process view of supply chains, including marketing, sourcing, logistics, operations, and customer service. Students connect with and learn from real-world supply chain leaders and are part of a strong, close-knit community. See the program website (<https://wsb.wisc.edu/programs-degrees/mba/full-time/career-specializations/supply-chain-management/>) for more information.

Founded in 1900, the School of Business established one of the first five business programs in the nation. That entrepreneurial spirit remains strong.

As a student in the School of Business, you will find yourself inspired by peers, staff, alumni, business leaders, and world-renowned faculty who are focused, collaborative, and engaged in every aspect of the student experience. You will join a highly ranked program that equips you to meet both academic and career challenges. Employers value School of Business graduates because of the comprehensive preparation this learning environment provides. Graduates possess highly sought-after general management and specialized expertise in business.

Joining collaborative, inspiring, trustworthy, and progressive School of Business alumni, Business Badgers graduate prepared to lead their organizations to success and transform the world of business. Together Forward!

ADMISSIONS

Admission consideration for the MBA program requires a four-year undergraduate degree or the equivalent, in any discipline, from an accredited institution. The School of Business seeks a minimum of two years of full-time work experience along with a strong undergraduate performance. In addition to academic credentials, GMAT scores and work experience, personal achievements, motivation, communication skills (written and oral), international exposure and recommendation letters are considered in the admission process at both the master's and doctoral levels. You can learn more about admission to this program here (<https://wsb.wisc.edu/programs-degrees/mba/full-time/admissions/>).

Note: The Graduate Management Admission Test (GMAT), taken within five years of the starting term, is required of all applicants to the School of Business; the Graduate Record Exam (GRE) may be an acceptable alternative on a case by case basis. All applicants whose native language is not English must submit scores from the Test of English as a Foreign Language (TOEFL), the Pearson Test of English (PTE), Intensive English as a Second Language (IELTS), or show the completion of an Interlink program. A minimum iBT TOEFL score of 100 or equivalent, obtained within two years of the intended start term, is required. International applicants who have completed a degree at an institution whose primary

language of instruction was English may request a waiver of this requirement on the application.

HOW TO APPLY

Students interested in business degrees do not apply through the Graduate School application system and should instead refer to the School of Business Admissions page. (<https://wsb.wisc.edu/programs-degrees/mba/full-time/admissions/>)

FUNDING

Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

Students must be enrolled full-time.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Develop appropriate supply chain strategies, and will be able to assess the financial, marketing and operational implications of such strategies.
2. Apply foundational knowledge in operations, marketing and other core business disciplines to support decision making within and across the fundamental dimensions of supply chain management planning, sourcing, making and delivering products.
3. By engaging in a wide range of applied activities, students will develop the ability to make supply chain decisions in real-world settings.
4. Identify relevant sources of data, know how to access that data, and will be able to analyze it using both statistical and optimization techniques to support supply chain decision making.
5. Identify and assess the opportunities and risks associated with global sources of supply and global markets for goods.
6. Develop a professional network of supply chain professionals in a wide variety of industries through engagement with the Executive Advisory Board, program alumni and affiliated companies and professional organizations.
7. Communicate their ideas and recommendations to individuals in all functional areas within an organization.

ACCREDITATION

ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (<http://www.aacsb.edu/>)

Accreditation status: Accredited. Next accreditation review: 2021–2022.

CELL AND REGENERATIVE BIOLOGY

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Applied Biotechnology, M.S. (p. 260)
- Biotechnology, M.S. (p. 264)

APPLIED BIOTECHNOLOGY, M.S.

Every day, biotechnology is working to solve some of the world's most pressing problems—infectious and hereditary disease, food security, and sustainable alternatives to fossil fuels—and moving forward with revolutionary solutions.

Whether your experience is based in healthcare, agriculture, or industry—the online, 11-course, 31-credit University of Wisconsin Master of Science in Applied Biotechnology program will teach you how to bring the best of biotechnology innovation to the market, where it can do the most good.

- First, gain additional understanding of the principles and techniques of biotechnology, ethical, safety, and privacy concerns, funding, intellectual property and patents, professional and technical

communication, experimental design and analysis, and organizational leadership—all within the scope of the global biotechnology industry.

- Then focus your learning within one or more specialization tracks: Quality Assurance and Compliance, Business Management, or Research and Development.
- Finally, upon completing your capstone project, you will earn a degree from the University of Wisconsin, one of the largest and most widely respected public higher education systems in the country.

The multi-campus partnership means you'll learn from expert faculty from across the UW System with strong connections to the industry, and the online format offers working adults like you a flexible, convenient way to pursue an advanced degree.

The **M.S. in Applied Biotechnology Program** is a FULLY ONLINE graduate degree program. If you are seeking the FACE-TO-FACE program, please see the M.S. in Biotechnology (<https://guide.wisc.edu/graduate/cell-regenerative-biology/biotechnology-ms/>) **Program**. You can also apply to both under one application fee.

Not sure which program best fits your needs? Contact us to talk more. Call 608-262-9753 or email Bryan (bthusk@wisc.edu) or Michele (michele.smith@wisc.edu).

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	July 15
Spring Deadline	December 15
Summer Deadline	April 15
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	2

APPLY TO THE GRADUATE SCHOOL

Applications are submitted online only; paper copy applications are not available. Apply to the Graduate School online and select the "Applied

Biotechnology MS" program. This is the online-only degree program, see "Biotechnology, MS" program for the face-to-face degree.

THE GRADUATE SCHOOL'S ONLINE APPLICATION ([HTTPS://APPLY.GRAD.WISC.EDU](https://apply.grad.wisc.edu))

The online application and \$75 application fee must be submitted electronically to the Graduate School before you can be considered for admission. You are able to apply for up to three programs for the \$75 application fee.

The following materials must be uploaded to your Graduate School online application:

- Professional resume or CV
- Unofficial transcripts
- Two letters of recommendation (can be initiated and processed online via the Graduate School online application)
- A one- or two-page statement of purpose that is specific to the M.S. in Applied Biotechnology online degree (uploaded via the Graduate School online application) that provides the following:
 - *Summary of your professional and academic background*
 - *Concise description of your short- and long-term professional goals*
 - *Clear explanation of how the online M.S. in Applied Biotechnology degree will help you meet your goals.*

Additional Graduate School resources:

- Graduate School Admission Frequently Asked Questions (<https://grad.wisc.edu/apply/#FAQ>)
- Graduate School Admission Requirements (<https://grad.wisc.edu/admissions/requirements/>)

If you have any questions about how to apply or about the status of your application, you should contact Bryan Husk (<https://www.ms-biotech.wisc.edu/admissions.cfm#bryan>).

APPLICATION DEADLINE

Applications are accepted year round for the online M.S. in Applied Biotechnology Program. Students can begin in Fall, Spring or Summer term. To guarantee consideration for a particular term, applications should be completed by July 15 for Fall, December 15 for Spring, and April 15 for Summer.

ONLINE VERSUS FACE TO FACE

The "Applied Biotechnology MS" program is a fully online program. The "Biotechnology MS (p. 264)" program is face to face. Not sure which Biotechnology program works best for you? Contact the program (608.262.9753) for more information. You can also apply to both for one application fee.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from

the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

The M.S. in Applied Biotechnology Program does not offer any scholarships or financial aid. **Graduate students are not permitted to accept any research, project, or teaching assistantship positions that would waive tuition or provide tuition remission.** However, students may contact the Office of Student Financial Aid (<https://financialaid.wisc.edu/>) to discuss federal loan programs and other lending opportunities.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS
MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
No	No	Yes	No	No

- Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.
- Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/ or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.
- Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.
- Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.
- Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	31 credits
Minimum Residence Credit	31 credits
Minimum Graduate Coursework Requirement	At least 50% of credits applied toward the graduate degree credit requirement must be completed in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (http://registrar.wisc.edu/course-guide (http://registrar.wisc.edu/course-guide/)).
Overall Graduate GPA Requirement	3.00 GPA required.

Other Grade Requirements The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.

Assessments and Examinations	n/a
Language Requirements	n/a

COURSE REQUIREMENTS

Code	Title	Credits
The following core courses are required:		
ABT 700	Principles of Biotechnology	3
ABT 705	Ethics, Safety, and Regulatory Environments in Biotechnology	3
ABT 710	Professional and Technical Communication in Biotechnology	3
ABT 715	Techniques in Biotechnology	3
ABT 720	Experimental Design and Analysis in Biotechnology	3
ABT 725	Leadership in Organizations	3
ABT 789	Pre-Capstone	1
ABT 790	Capstone	3
Select a minimum of three classes (9 credits) from one or more of the following elective areas:		9
Area 1: Quality Control and Validation		
ABT 735	Quality Control and Validation	
ABT 740	Regulatory Practice and Compliance	
ABT 745	Industrial Applications in Regulatory Affairs	
Area 2: Business and Management		
ABT 750	Biotechnology Marketing and Entrepreneurship	
ABT 755	Global Operations and Supply Chain Management	
ABT 760	Quality and Project Management	
Area 3: Research and Development		
ABT 765	Assessing Innovation in Biotechnology	
ABT 770	Product Development	
ABT 775	Tools for Data Analysis	
Total Credits		31

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the

degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

No prior coursework from other institutions may be applied toward program requirements.

UW–Madison Undergraduate

No prior coursework from UW–Madison undergraduate career may be applied toward program requirements.

UW–Madison University Special

The M.S. in Applied Biotechnology Program may approve UW-Madison University Special students to enroll in specific M.S. in Applied Biotechnology courses. Only coursework specific to the M.S. in Applied Biotechnology Program may be applied toward program requirements. Special students must meet Graduate School requirements if they wish to apply to the M.S. in Applied Biotechnology Program and understand that all credits taken as a special student may be subject to a graduate tuition rate increase upon transfer into the graduate school and used toward degree completion.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

Any incomplete work is expected to be completed and submitted within the next term even if the student is not taking additional classes for that term.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

Students will be advised by M.S. in Applied Biotechnology Program staff.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)

- Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the program director with questions about grievances.

OTHER

The M.S. in Applied Biotechnology Program does not offer any scholarships or financial aid. **Graduate students are not permitted to accept any research, project, or teaching assistantship positions that would waive tuition or provide tuition remission.** However, students may contact the Office of Student Financial Aid to discuss federal loan programs and other lending opportunities.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate professional and scientific communication appropriate for biotechnology settings
2. Demonstrate comprehensive understanding of organizational processes and product development pipelines
3. Distinguish among diverse methods and technologies and their applications in biotechnology
4. Demonstrate strategic leadership and decision-making skills necessary in biotechnology
5. Appraise the current regulatory, quality control, and legal frameworks that impact biotechnology
6. Demonstrate professional and ethical behaviors that foster positive and productive interactions in diverse biotechnology settings

PEOPLE

The UW Applied Biotechnology curriculum is designed and taught in collaboration by faculty from seven University of Wisconsin campuses: UW–Green Bay, UW–Madison, UW–Oshkosh, UW–Parkside, UW–Platteville, UW–Stevens Point, and UW–Whitewater. However, by selecting UW–Madison as your campus, your degree will come from UW–Madison.

James Keck, Ph.D.

- Associate Dean for Basic Sciences
- Professor, School of Medicine and Public Health

Natalie Betz, Ph.D.

- Academic director for the UW–Madison Applied Biotechnology program
- Associate Director for the M.S. in Biotechnology Program
- Faculty Instructor, School of Medicine and Public Health

Bryan Husk, M.A.

- Assistant Directory of the M.S. in Biotechnology and Applied Biotechnology programs
- Academic Staff, School of Medicine and Public Health
- bthusk@wisc.edu
- 608-265-0773 office • 608-577-9182 cell

Michele Smith, M.S., SCT(ASCP)

- Program Manager for the M.S. in Biotechnology and Applied Biotechnology programs
- Academic Staff, School of Medicine and Public Health
- michele.smith@wisc.edu
- 608-262-9753 office • 608-658-5311 cell

BIOTECHNOLOGY, M.S.

The Master of Science (M.S.) in Biotechnology is designed for working professionals and provides students with an overarching view of modern biotechnology operations, addressing fundamental scientific and legal matters, innovative technologies and complex business issues. Students thrive in a face-to-face environment rich in academic and industrial collaboration, leaving the program prepared to assume leadership roles in the biotechnology industry. Practical and results oriented, this two-year program provides the foundation necessary for succeeding and advancing in one of the fastest growing and most complex industries in the world. Top-rated UW–Madison faculty and talented business partners in Wisconsin combine their expertise to provide hands-on, problem-solving experiences while offering flexible schedules for students, including convenient weekend and evening courses.

The M.S. in Biotechnology Program is a face-to-face graduate degree where students meet every other week over seven sessions each semester. The meeting times are every other Thursday night, all day Friday, and Saturday mornings.

If you are seeking the fully online program, please see the M.S. in Applied Biotechnology (<https://guide.wisc.edu/graduate/cell-regenerative-biology/applied-biotechnology-ms/>) Program at UW–Madison.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	May 1
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

APPLY TO THE GRADUATE SCHOOL

Applications are submitted online only; paper copy applications are not available. Apply to the Graduate School online and select the "Biotechnology MS" program option:

THE GRADUATE SCHOOL'S ONLINE APPLICATION ([HTTPS://APPLY.GRAD.WISC.EDU/](https://apply.grad.wisc.edu/))

The online application and application fee must be submitted electronically to the Graduate School before your application can be considered for admission.

The following materials must be uploaded to your Graduate School online application:

- Your professional resume
- Unofficial transcript(s) for your undergraduate degree institution(s) and unofficial transcripts from any post-undergraduate degrees (if applicable)
- Three Letters of Recommendation (initiated and processed online via the Graduate School online application)
- A one- or two-page Statement of Purpose (uploaded via the Graduate School online application) that provides the following:
A brief summary of your professional and academic background, a clear explanation of your short- and long-term professional goals, and a clear

explanation of how the M.S. in Biotechnology degree will help you meet your career goals. (Please be specific to the M.S. in Biotechnology degree and its curriculum.)

Additional Graduate School resources:

- Graduate School Admission Frequently Asked Questions (<https://grad.wisc.edu/apply/#FAQ>)
- Graduate School Admission Requirements (<https://grad.wisc.edu/apply/requirements/>)

If you have any questions about applying to the M.S. in Biotechnology Program (<https://www.ms-biotech.wisc.edu>) or about the status of your application, you should contact Bryan Husk (<https://www.wisc.edu/directories/person/?q=Bryan%20Husk&email=bthusk@wisc.edu&savedQuery=Bryan%20Husk&returnPath=/directories/>).

APPLICATION DEADLINE

Applications for Fall semester are accepted until a full cohort of up to 28 students has committed to attend. Spaces are sometimes available for strong applicants until as late as June or July for domestic applicants, however, **the cutoff date for international applicants is May 1st** each year. There is no admission for Spring or Summer terms.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

The M.S. in Biotechnology Program does not offer any scholarships or financial aid. **Graduate students are not permitted to accept any research, project, or teaching assistantship positions that would waive tuition or provide tuition remission.** However, students may contact the Office of Student Financial Aid (<https://financialaid.wisc.edu/>) to discuss federal loan programs and other lending opportunities.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	Yes	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

No prior coursework from other institutions may be applied toward program requirements.

UW–Madison Undergraduate

No prior coursework from UW–Madison undergraduate career may be applied toward program requirements.

UW–Madison University Special

No prior coursework taken as a UW–Madison University Special student may be applied toward program requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the program director with questions about grievances.

OTHER

The M.S. in Biotechnology Program does not offer any financial aid, and **graduate students are not permitted to accept any research, project, or teaching assistantship positions that would waive tuition.** Students with two or more years work experience after receiving their bachelor's degree are preferred for admission.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Apply core scientific and business principles to distinguish the difference between scientific and commercial success, and gain insight in to the challenge of balancing product usefulness with positive return on investment.
2. Understand how regulation is developed and how it interacts with business and finance to influence the formation and growth of technology companies.
3. Understand and apply modern biotechnology methods and practice, as well as effective written and oral scientific communication, through hands-on participation in the laboratory.
4. Apply knowledge of seven functional specialties (regulatory affairs, quality assurance, biomanufacturing, quality control, non-clinical development, clinical development and project management) to the coordinated process of product development.
5. Understand the processes, technologies, scientific principles and major challenges of the early drug discovery process as it continues to evolve.
6. Evaluate the potential of a product or technology based on the organizational resources required for full commercialization.
7. Understand firm-level strategic development, and apply strategic business principles in day-to-day operations.
8. Demonstrate an ability to identify a global problem, and how biotechnology may offer a novel solution(s).
9. Integrate the technical, sociological and leadership skills that are necessary to design, use and defend a global project management plan.
10. Integrate topics in science, policy, law and business in order to lead the development and commercialization of new and promising technologies.
11. Recognize and apply principles of ethical and professional conduct develop long-term networks and relationships with industry partners.
12. Understand the ethical and safety issues that help shape public policies on biotechnology and its applications.

PEOPLE

The program's instructional faculty are a blend of world-renowned scholars from across UW–Madison and dynamic leaders from the region's private biotechnology industries. All the program's faculty and staff are committed to your education and career success.

Faculty and Staff Directory (<https://www.ms-biotech.wisc.edu/directory.cfm>)

CENTER FOR HUMANITIES

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Public Humanities, Graduate/Professional Certificate (p. 267)

PUBLIC HUMANITIES, GRADUATE/PROFESSIONAL CERTIFICATE

The Graduate Certificate in the Public Humanities (<http://humanities.wisc.edu/public-humanities/graduate-certificate/>) prepares graduate students to pursue careers outside of academia and trains students who wish to remain within academia to articulate new horizons for their research.

The Graduate Certificate in the Public Humanities builds on the Center for the Humanities' pioneering work in the public humanities and its related programs for graduate students, including the Public Humanities Exchange (HEX) (<http://humanities.wisc.edu/public-humanities/exchange-program/>) and the Public Humanities Fellowships (<http://humanities.wisc.edu/public-humanities/graduate-fellowships/>). It provides enrolled students with training and experience in the focuses on essential knowledge and skills required for professional paths that may not include traditional university teaching positions, whether in other sectors of higher education, policymaking and analysis, cultural organizations, new media, government, or research. Through coursework and hands-on project development, the program equips students with theoretical, historical, and practical knowledge that will help them to develop alternative applications for their scholarly research and engage their scholarly methods for use in broader social and professional contexts.

ADMISSIONS

Graduate students pursuing degrees in any program at UW–Madison are welcome to seek admission into the Graduate Certificate in the Public Humanities. Students can declare their intention to pursue the certificate at any time. To receive the certificate, they must complete an application form, and are welcome to submit it at any time for review and feedback from the certificate advisor, Emily Clark. The application requires final approval by a faculty subcommittee of the Center for the Humanities' advisory committee.

REQUIREMENTS

There are no formal prerequisites for matriculation into the graduate certificate program in terms of coursework. However, only those students with B.A. or B.S. degrees from accredited colleges or universities who are currently enrolled graduate students at the University of Wisconsin–Madison are permitted to enter the graduate certificate program. Special students and undergraduates are ineligible to receive the certificate.

Graduate students pursuing any degree in any program at UW–Madison are invited to obtain a Graduate Certificate in the Public Humanities. The certificate is not a stand-alone program. Students who wish to

receive the Graduate Certificate in the Public Humanities must take a core course, INTER-LS 700 Public Humanities: Theories, Methods, Cases offered each year, and develop a coherent, thematic sequence of three additional courses, for a total of 12 credits. All students also are required to undertake a capstone project.

LEARNING OUTCOMES

1. a. Discover inherent value of working collaboratively with constituencies outside of the university, especially community based program partners. b. Learn how to more effectively assess the needs and capacities of program partners and community organizations in general. c. Advance the Wisconsin Idea and its of community engagement across racial, ethnic, economic, and cultural differences.
2. a. Recognize public cultures through institutions, publication, program development and public intellectual, art, and criticism. b. Gain understanding of Public Humanities as emerging/significant field and its academic/nonacademic value. c. Understand foundations of Public Humanities/current discussions about its nature/value. d. Develop concepts/skills translating humanities for nonacademics.
3. a. Be able to critically analyze and engage with the role of the public intellectual. b. Develop alternative applications for scholarly research and training for use in a broader context.

CHEMICAL ENGINEERING, DOCTORAL MINOR

REQUIREMENTS

A Ph.D. candidate in another department who wishes to minor in chemical engineering should contact the Chemical and Biological Engineering (CBE) Graduate Program Office. A CBE minor consists of 9 credits of courses in Chemical and Biological Engineering numbered 300 and above with an average grade of B or better.

CHEMICAL ENGINEERING, M.S.

The Department of Chemical and Biological Engineering does not consider applications for a terminal M.S. degree; the department admits only to the Ph.D. program. The M.S. degree can be awarded post admission for work completed leading to the Ph.D. degree. The M.S. degree is not a prerequisite for the Ph.D. degree.

Graduate study in the department may be directed toward the master of science or the doctor of philosophy in chemical engineering. The graduate courses are planned to train outstanding students for advanced work in research and development.

The Department of Chemical and Biological Engineering has a tradition of excellence dating back to 1905. For a century, the program has consistently ranked as one of the best in the world. The department offers research opportunities in both traditional and emerging areas of research in chemical and biological engineering. These areas include energy-related science and technology, soft and hard materials science and engineering, systems engineering and optimization, catalysis, process control and design, nanotechnology, biotechnology, biomedical engineering, complex fluids, colloid and interfacial phenomena, atomic, molecular, and multiscale modeling, polymers (synthesis and processing), micro- and nano-electronics, environmental engineering and sustainability, reactor design, and atomic-scale design of surface reactivity. These areas of research are advanced by leveraging tools from the fields of applied mathematics, statistical mechanics, kinetics and catalysis, thermodynamics, and transport phenomena.

Research in the department is highly interdisciplinary, capitalizing on programs of national prominence such as the NSF Materials Research Science and Engineering Center (MRSEC), the nation's largest NIH-funded biotechnology training program, and the Computation and Informatics in Biology and Medicine training program. Interdisciplinary research opportunities are also available through the Materials Science Program, the Center for Nanotechnology, and the Rheology Research Center. Researchers in the department have access to state-of-the-art facilities for research, including facilities for nanofabrication and the life sciences.

Graduate students in the department are encouraged to participate in international research experiences, industry internships, and entrepreneurial activities.

For interests and activities of faculty members, along with a list of selected publications for each, see the department's faculty directory (<http://directory.engr.wisc.edu/che/faculty/>).

ADMISSIONS

This master's program is offered for work leading to the Ph.D. Students may not apply directly for the master's, and should instead see the admissions information for the Ph.D. (p. 273)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Financial support for qualified graduate students is available in the form of research assistantships, teaching assistantships, and fellowships.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

- Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.
- Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the

- advantages of face-to-face courses with the flexibility to keep work and other life commitments.
- Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.
- Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.
- Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide (https://registrar.wisc.edu/course-guide/)).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	Professional group of courses: Grades of B or better are required. Elective group of courses: Grades of B or better are required.
Assessments and Examinations	An M.S. candidate not planning to seek re-admission to the Ph.D. program must successfully complete an oral examination before a departmental examining committee of the advisor(s) plus two other CBE faculty members. An M.S. candidate who is seeking re-admission to the Ph.D. program must successfully complete an oral examination before a departmental examining committee of the advisor(s) plus three other CBE faculty members. The candidate may defend an M.S. thesis or an independent study project report in a closed defense. The independent study project will comprise a minimum of three credits of supervised CBE 790 and may involve a lab project, theoretical work, or a critical review of an advanced engineering topic. The defense of an independent study project is conducted in a closed session.
Language Requirements	No language requirements.

REQUIRED COURSES

To qualify for the M.S. degree, student must complete a minimum of 30 graduate-level credits (300 and above), divided into two groups:

1. Professional group: minimum of 12 credits of chemical engineering courses. At least 6 credits must be numbered 600–899 (excluding research).
2. Elective group: minimum of 12 credits of graduate courses. At least 6 of these credits shall be in departments other than CBE and shall

be chosen in consultation with the advisor(s) for their relevance to chemical and biological engineering.

Up to 6 credits will be allowed for chemical and biological engineering courses numbered between 300 and 499 in groups I and II combined, provided equivalent courses were not previously taken by the student.

The independent study project will comprise no fewer than 3 credits of supervised CBE 790 Master's Research or Thesis and may involve a lab project, theoretical work, or a critical review of an advanced engineering topic.

An M.S. candidate must successfully complete an oral examination before a departmental examining committee.

When a candidate presents a thesis, no fewer than 5 nor more than 14 credits of research (CBE 790) may be counted toward the 30-credit-total requirement. When a thesis is not presented, a maximum of 6 credits of research may be counted toward the total.

Students who enter the program without a Bachelor of Science in Chemical Engineering may be required to take remedial coursework.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count graduate coursework from other institutions toward the Minimum Graduate Degree Credit Requirement and the Minimum Graduate coursework (50%) Requirement. No credits from other institutions can be counted toward the Minimum Graduate Residence Credit Requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

A total of 7 undergraduate credits from the UW–Madison undergraduate degree may be counted toward coursework requirements. If those credits are numbered 300 or above, they may be counted toward the Minimum Graduate Degree Credit Requirement. If those credits are numbered 700 or above, they may be counted toward the Minimum Graduate coursework (50%) Requirement. No credits can be counted toward the Minimum Graduate Residence Credit Requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count up to 15 credits of coursework numbered 300 or above taken as a UW–Madison Special student toward the Minimum Graduate Residence Credit Requirement, and the Minimum Graduate Degree Credit Requirement and the Minimum Graduate Coursework (50%) Requirement. Coursework earned five or

more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

An M.S. candidate not planning to seek re-admission to the Ph.D. program must successfully complete an oral examination before a departmental examining committee of the advisor(s) plus two other CBE faculty members. An M.S. candidate who is seeking re-admission to the Ph.D. program must successfully complete an oral examination before a departmental examining committee of the advisor(s) plus three other CBE faculty members.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)

- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

If a student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance. Students' concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where the action occurred (program or department chair, section chair, lab manager, etc.). For more information see the Graduate School Academic Policies & Procedures: <https://grad.wisc.edu/acadpolicy/?policy=grievancesandappeals> The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

PROCEDURES

1. The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved at this level.
2. Should a satisfactory resolution not be achieved, the student should contact the CBE Graduate Associate Chair, or Department Chair if the grievance involves the Graduate Associate Chair, to discuss the grievance. The Graduate Associate Chair or Department Chair will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt is to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment, discrimination, disability accommodations, and other related concerns can be found on the UW Office of Equity and Diversity website: <https://oed.wisc.edu/>. Other campus resources include:

- The Graduate School – www.grad.wisc.edu (<http://www.grad.wisc.edu/>)
- McBurney Disability Resource Center – www.mcburney.wisc.edu (<http://www.mcburney.wisc.edu/>)
- Employee Assistance Office – www.eao.wisc.edu (<http://www.eao.wisc.edu/>)
- Ombuds Office – www.ombuds.wisc.edu (<http://www.ombuds.wisc.edu/>)
- University Health Services – www.uhs.wisc.edu (<http://www.uhs.wisc.edu/>)

3. If the issue is not resolved to the student's satisfaction the student can submit the grievance to the Graduate Associate Chair in writing, within 60 calendar days of the alleged unfair treatment.

4. On receipt of a written complaint, a faculty committee will be convened by the Graduate Associate Chair to manage the grievance. The faculty committee will obtain a written response from the person, organization, or governing committee toward whom the complaint is directed. This response will be shared with the person filing the grievance.

5. The faculty committee will determine a decision regarding the grievance. The Graduate Associate Chair will report on the action

taken by the committee in writing to both the student and the person, organization, or governing committee toward whom the complaint was directed within 20 working days from the date the complaint was received.

6. At this point, if either party (the student or the person, organization, or governing committee toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the College of Engineering. The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

7. Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has procedures for students wishing to appeal a grievance decision made at the College of Engineering level. These policies are described in the Graduate School's Academic Policies & Procedures: <https://grad.wisc.edu/acadpolicy/?policy=grievancesandappeals>.

OTHER

Admitted students are offered research assistantships to support the pursuit of dissertation or degree research in chemical engineering. The stipend, after tuition and fees, is guaranteed for the duration of a student's graduate studies provided satisfactory progress is made toward their degree. Support for students receiving external funding or other program opportunities are reviewed case by case. Although students can be awarded M.S. degrees, there is no direct admission to the M.S. program.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate a strong understanding of mathematical, scientific, and engineering principles in the field.
2. Demonstrate an ability to formulate, analyze, and solve advanced engineering problems.
3. Demonstrate creative, independent problem solving skills.
4. Apply the latest scientific and technological advancements, advanced techniques, and modern engineering tools to these problems.
5. Recognize and apply principles of ethical and professional conduct.

CHEMICAL ENGINEERING, PH.D.

The Department of Chemical and Biological Engineering has a tradition of excellence dating back to 1905. For over a century, the program has consistently ranked as one of the best in the world. The department offers research opportunities in both traditional and emerging areas of research in chemical and biological engineering. These areas include energy-related science and technology, soft and hard materials science and engineering, systems engineering and optimization, catalysis, process control and design, nanotechnology, biotechnology, biomedical engineering, complex fluids, colloid and interfacial phenomena, atomic, molecular, and multiscale modeling, polymers (synthesis and processing), micro- and nano-electronics, environmental engineering and sustainability, reactor design, and atomic-scale design of surface reactivity. These areas of research are advanced by leveraging tools from the fields of applied mathematics, statistical mechanics, kinetics and catalysis, thermodynamics, and transport phenomena. The graduate courses are planned to train outstanding students for advanced work in research and development. Graduate students in the department are encouraged to participate in international research experiences, industry internships, and entrepreneurial activities.

Research in the department is highly interdisciplinary, capitalizing on programs of national prominence such as the NSF Materials Research Science and Engineering Center (MRSEC), the nation's largest NIH-funded biotechnology training program, and the Computation and Informatics in Biology and Medicine training program. Interdisciplinary research opportunities are also available through the Materials Science Program, the Center for Nanotechnology, and the Rheology Research Center. Researchers in the department have access to state-of-the-art facilities for research, including facilities for nanofabrication and the life sciences.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s).**

Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	October 15
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.*
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

* The GRE requirement is waived for the fall 2021 and spring 2022 application cycles due to COVID-19.

Students with a strong background in chemical engineering or related field and a strong interest in research are encouraged to apply for admission. Most applicants accepted into the program have grade-point averages well above the Graduate School minimum of 3.0 on a 4.0 scale. All applicants are required to take the Graduate Record Exam (GRE) general test. Applications are evaluated on the basis of previous academic record, GRE scores, letters of recommendation, and personal statement. The Department of Chemical and Biological Engineering does not consider applications for a terminal M.S. degree; the department admits only to the Ph.D. An M.S. degree can be awarded post admission as an alternative to the Ph.D. degree. The M.S. degree is not a prerequisite for the Ph.D. degree.

Applicants with degrees in the physical or life sciences or other engineering fields are encouraged to apply for admission into the Ph.D. graduate program. These students should contact the chair of the graduate admissions committee to discuss their preparation for the graduate program. Students are not accepted for spring semester except when space is available. Fall applications and supporting materials **must be received by December 15.**

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Students admitted to the graduate program are guaranteed financial support from the department in the form of research assistantships, teaching assistantships and fellowships. Support will continue as long as the student maintains satisfactory progress toward their degree.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.

Other Grade Requirements At least two of the core graduate classes must be taken in the first semester of residence in the graduate program, and at least four core graduate classes must be completed with grades of B or better, preferably by the end of the second semester of residence. A student who receives one grade of BC or lower in a core class but who wishes to remain in the PhD program must take the fifth core course or re-take the low graded core course preferably in the third semester, and the student must receive a B or better.

A student who receives more than one grade of BC or lower in core graduate classes will be placed in the M.S. program. Upon successful completion of the M.S. program, the student may petition the full faculty for readmission to the Ph.D. program.

A student who receives an average of 3.0 or higher on their preliminary exam becomes a candidate for the Ph.D. program. A student who does not receive an average score of 3.0 or higher in the qualifying process is placed in the M.S. program. Upon successful completion of the M.S. program, the student may petition the full faculty to be readmitted to the Ph.D. program.

Assessments and Examinations A Ph.D. candidate who has met the grade requirements must complete a preliminary exam consisting of a written report and oral examination.

During the fall semester of the fourth year of the program, candidates will participate in a mandatory research progress meeting with their thesis committee.

The Ph.D. candidate defends a written thesis in a final oral examination.

Language Requirements No language requirements.

Doctoral Minor/Breadth Requirements Students must complete a minor. The Ph.D. candidate is required to undertake a program of coursework in a field other than chemical and biological engineering. This requirement may be satisfied by an external minor (option A) or a distributed minor (option B).

The minor, whether Option A or B, is designed to represent a coherent body of work, and should not be simply an after-the-fact ratification of a number of courses taken outside the major department. To ensure coherence, the student must consult with his or her advisor. The Ph.D. Minor Agreement Form should be submitted for approval at an early date, before the student is halfway through the proposed course sequence.

REQUIRED COURSES

Students must complete at least six semester courses (totaling at least 18 credits) in the CBE department. Four courses will be core CBE courses and two will be CBE electives, chosen at the discretion of the student in consultation with their advisor. These classroom courses shall be in the range numbered 500-899 and will not be laboratory courses, Independent Studies or Research. Grades of B or better are required in all CBE courses used towards degree requirements.

At least four of the six CBE courses shall be selected from these core graduate courses:

Code	Title	Credits
CBE 620	Intermediate Transport Phenomena	3
CBE 660	Intermediate Problems in Chemical Engineering	3
CBE 710	Advanced Chemical Engineering Thermodynamics	3
CBE 735	Kinetics and Catalysis	3
CBE 781	Biological Engineering: Molecules, Cells & Systems	3

At least two of the core graduate courses must be taken in the first semester of residence in the graduate program, and at least four core graduate courses must be completed with grades of B or better, preferably by the end of the second semester of residence. A student who receives one grade of BC or lower in a core class but who wishes to remain in the PhD program must take the fifth core course or re-take the low graded core course preferably in the third semester, and the student must receive a B or better. Students are expected to take a total of four courses in their first semester of residence.

The requirement of four core CBE graduate courses shall not be met by substitution of other courses. Students matriculating with an M.S. degree from another university may, with department approval, use up to two courses from their M.S. work toward the requirement of six CBE graduate courses.

Students taking advanced courses outside the department in excess of minor requirements may, with department approval, use up to two of these courses toward the requirement of six CBE graduate courses. Seminar courses may not be used to satisfy CBE course requirements.

Elective course requirement: Students must complete at least one course totaling at least three credits. Courses must be numbered 300 and above. A *B average* is required. Pass/fail or audit courses may not be used for the elective course requirement. Courses used to satisfy the minor program may not be used for the elective course requirement. Advisor approval is required and secured through submission of the Ph.D. Elective Course Approval Form. Elective courses can be foreign language courses.

Teaching assistantship: Each student in the Ph.D. program is required to serve as a teaching assistant (TA) for two semesters. Under normal circumstances, each student should serve as a TA one semester of the second year and one semester of the third year. Requests for alternate arrangements, partial or full waiver of the requirement, should be submitted in writing to the Graduate Program Committee.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count graduate coursework from other institutions toward the Minimum Graduate Degree Credit Requirement and the Minimum Graduate coursework (50%) Requirement. No credits from other institutions can be counted toward the Minimum Graduate Residence Credit Requirement. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

A total of 7 undergraduate credits from the UW–Madison undergraduate degree may be counted toward coursework requirements. If those credits are numbered 300 or above, they may be counted toward the Minimum Graduate Degree Credit Requirement. If those credits are numbered 700 or above, they may be counted toward the Minimum Graduate coursework (50%) Requirement. No credits can be counted toward the Minimum Graduate Residence Credit Requirement. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count up to 15 credits of coursework numbered 300 or above taken as a UW–Madison Special student toward the Minimum Graduate Residence Credit Requirement, and the Minimum Graduate Degree Credit Requirement and the Minimum Graduate Coursework (50%) Requirement. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

A student who receives more than one grade of BC or lower in core graduate courses will be placed in the M.S. program. Upon successful completion of the M.S. program, the student may petition the full faculty for readmission to the Ph.D. program.

A student who receives an average of 3.0 or higher becomes a candidate for the Ph.D. program. A student who does not receive an average score of 3.0 or higher in the qualifying process is placed in the M.S. program. Upon successful completion of the M.S. program, the student may petition the full faculty to be readmitted to the Ph.D. program.

Students placed in the M.S. program are expected to finish the M.S. program within five semesters of admission into the Ph.D. program.

ADVISOR / COMMITTEE

All students are required to have an advisor and form a committee. Students should refer to the departmental Graduate Handbook of Academic Policies and Procedures for more information.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

The CBE department expects students to complete their Ph.D. degree within five years. Any student unable to defend her or his thesis in this period must petition the faculty for an extension by July 1 of the fifth year, specifying reasons for the request and length of requested extension.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Grievance Procedures

If a student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance. Students' concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where the action occurred (program or department chair, section chair, lab manager, etc.). For more information see the Graduate School Academic Policies & Procedures: <https://grad.wisc.edu/acadpolicy/?policy=grievancesandappeals> The Assistant Dean for Graduate Affairs (enr-dean-graduateaffairs@enr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

Procedures

1. The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved at this level.
2. Should a satisfactory resolution not be achieved, the student should contact the CBE Graduate Associate Chair, or Department Chair if the grievance involves the Graduate Associate Chair, to discuss the grievance. The Graduate Associate Chair or Department Chair will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt

is to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment, discrimination, disability accommodations, and other related concerns can be found above.

3. If the issue is not resolved to the student's satisfaction the student can submit the grievance to the Graduate Associate Chair in writing, within 60 calendar days of the alleged unfair treatment.
4. On receipt of a written complaint, a faculty committee will be convened by the Graduate Associate Chair to manage the grievance. The faculty committee will obtain a written response from the person, organization, or governing committee toward whom the complaint is directed. This response will be shared with the person filing the grievance.
5. The faculty committee will determine a decision regarding the grievance. The Graduate Associate Chair will report on the action taken by the committee in writing to both the student and the person, organization, or governing committee toward whom the complaint was directed within 20 working days from the date the complaint was received.
6. At this point, if either party (the student or the person, organization, or governing committee toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the College of Engineering. The Assistant Dean for Graduate Affairs (enr-dean-graduateaffairs@enr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.
7. Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has procedures for students wishing to appeal a grievance decision made at the College of Engineering level. These policies are described in the Graduate School's Academic Policies & Procedures (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

OTHER

Admitted students are offered research assistantships to support the pursuit of dissertation or degree research in chemical engineering. The stipend, after tuition and fees, is guaranteed for the duration of a student's graduate studies provided satisfactory progress is made toward their degree. Support for students receiving external funding or other program opportunities are reviewed case by case. Although students can be awarded M.S. degrees, there is no direct admission to the M.S. program.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The CBE Graduate Program office coordinates on-going professional development workshops. Topics have included: life in industry, ethical decision making, intellectual property agreements, maintaining self-motivation, how to utilize software in creating figures, effective management of undergraduate researchers, effective management of your thesis advisor and individual development plans (IDPs).

Also, the Graduate School Office of Professional Development offers training opportunities for graduate students and this information is e-mailed to all of the CBE grad students on a regular basis. Examples of these training offerings include sharing of information about DELTA, dissertation writing, grant writing and job search strategies.

In order to foster effective teaching among our graduate students, all students are required to serve as a TA for two semesters. Before graduate students are allowed to TA, each must participate in the New Educator's Orientation (NEO) training offered each semester. They are also encouraged to connect with the University's DELTA program.

LEARNING OUTCOMES

1. Demonstrate an ability to synthesize knowledge from a subset of the biological, physical, and social sciences to help frame problems critical to the future of their discipline.
2. Conduct original research.
3. Demonstrate an ability to create new knowledge and communicate it to their peers.
4. Fosters ethical and professional conduct.

CHEMISTRY, DOCTORAL MINOR

The mission of the Department of Chemistry at the University of Wisconsin–Madison is to conduct world-class, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates.

Our leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, and nanotechnology. We pride ourselves on our highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

ADMISSIONS

The associate chair of the Department of Chemistry approves all minors for the department.

REQUIREMENTS

The Department of Chemistry follows the guidelines of the Graduate School with regard to minor requirements. For a student in an external department, a minimum of 9 credits in chemistry must be completed to fulfill the minor requirement. All grade requirements of the Graduate School must be adhered to.

A student in chemistry may fulfill their minor requirement in the chemistry department by taking courses in a single path outside of their major path. For example, a chemistry graduate student who majors in the analytical path may fulfill their minor requirement by successfully completing 9 credits in the physical path.

CHEMISTRY, M.S.

The mission of the Department of Chemistry at the University of Wisconsin–Madison is to conduct world-class, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. Our leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, nanotechnology and chemistry education research. We pride ourselves on our highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The Department of Chemistry offers a master of science in chemistry to a limited number of students. Specializations within the program are analytical, inorganic, materials, organic, physical chemistry, chemical biology as well as chemistry education research. Breadth coursework may be taken in other departments including physics, mathematics, computer sciences, biochemistry, chemical engineering, and in fields other than the student's specialization within the Department of Chemistry.

Excellent facilities are available for research in a wide variety of specialized fields including synthetic and structural chemistry; natural product and bio-organic chemistry; molecular dynamics and photochemistry; biophysical, bioanalytical, and bioinorganic chemistry; spectroscopy (including magnetic resonance and microwave), theoretical and experimental chemical physics, chemical dynamics, quantum and statistical mechanics; macromolecular and polymer chemistry, materials science, surface and solid-state chemistry; x-ray crystallography, lasers, and light scattering; and chemical education. Programs are assisted by

department computing and instrument centers and by other facilities on campus including those of the Division of Information Technology (DoIT).

Information on the research fields of faculty members is available on the chemistry website (<http://www.chem.wisc.edu/>).

Financial assistance is not guaranteed to master's candidates, but it may be possible to obtain a position as a teaching assistant.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

There are two tracks leading to the Master of Science in Chemistry. Currently the department does not directly admit students seeking the master's degree via either track, except under special circumstances, such as being employed by a local company or in the military or UW undergraduate students enhancing their chemistry background. To obtain a master of science (M.S.) degree, the student must meet both the Department of Chemistry and the Graduate School requirements.

Prospective master's candidates are expected to have satisfactorily completed the equivalent in class and lab of the fundamental courses in chemistry offered at UW-Madison, one year of physics, and mathematics through calculus. Students who have not completed all the prerequisites may be admitted in exceptional cases, but any deficiencies must be made up in the first year of graduate study.

A grade point average of 3.0 (on a 4.0 scale) in the last 60 hours of undergraduate work is the minimum required for admission to graduate studies. Students for whom English is not the native language are required to present scores from the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS). Before teaching assistant appointments can be finalized,

students for whom English is a second language must participate in the SPEAK Test, the institutional version of the Test of Spoken English (TSE).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum Credit Requirement 30 credits

Minimum Residence Credit Requirement 16 credits

Minimum Graduate Coursework Requirement Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (<https://registrar.wisc.edu/course-guide>) (<https://registrar.wisc.edu/course-guide/>).

Overall	3.00 GPA required.
Graduate GPA Requirement	
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	There are currently no assessments or examinations required by the chemistry department for the coursework-based M.S. degree. Research-based M.S. degree requires either a thesis or a written document approved by the research advisor. Students must meet all Graduate School grade requirements.
Language Requirements	There are currently no language requirements for the master's degree in Chemistry.

REQUIRED COURSES

Of the 30 credits required for the Master's degree, at least 24 must be completed in the chemistry department. The remaining 6 can be from chemistry or related topic areas such as physics, mathematics, computer science, or business. The selection of courses must be approved by the student's advisor.

There are two tracks leading to the Master of Science in Chemistry.¹

Research Master's Degree Track

The Research M.S. requires 30 credits, at least 15 of which must come from research or advanced lab work. A thesis or written final report, submitted to the advisor, is also required. The research credits obtained before the student joins a research group does not count toward the degree. The credits from CHEM 607 Laboratory Safety and CHEM 901 Seminar-Teaching of Chemistry do not count toward the degree.

Coursework Master's Degree Track

The coursework M.S. requires 30 credits, no more than 8 of which may be from research or advanced lab work. The research credits obtained before the student joins a research group does not count toward the degree. The credits from CHEM 607 Laboratory Safety and CHEM 901 Seminar-Teaching of Chemistry do not count toward the degree.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 12 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

Up to 7 credits numbered 300 or above from a UW–Madison undergraduate career are allowed to count toward the minimum graduate degree credit requirement; if those 7 credits are numbered 700 or above from a UW–Madison undergraduate career, they are allowed to count toward the minimum graduate coursework requirement. **All credits so counted** must be over and above the minimum credits that were required by the original undergraduate degree. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count no more than 15 credits of coursework numbered 300 or above taken as a UW–Madison Special student toward the residence and degree credit requirements; if those 15 credits of coursework taken as a UW–Madison Special student are numbered 700 or above, they are allowed to count toward the minimum graduate coursework requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates, critiques, and elaborates the theories, research methods, and approaches to inquiry in an area of chemistry.
2. Identifies sources and assembles evidence pertaining to questions or challenges in an area of chemistry.
3. Demonstrates understanding of chemical science in a historical, social, or global context.
4. Demonstrates the ability to select and utilize appropriate methodologies and practices to solve chemical problems.

5. Evaluates and synthesizes information pertaining to questions and challenges in an area of chemistry.
6. Communicates clearly in both written and oral formats.
7. Recognizes and applies principles of ethical and professional conduct.

CHEMISTRY, PH.D.

The mission of the Department of Chemistry at the University of Wisconsin—Madison is to conduct world-class, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. Our leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, nanotechnology and chemistry education research. We pride ourselves on our highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The Department of Chemistry is ranked very highly in all recent national rankings of graduate programs. We offer a doctor of philosophy in chemistry. Specializations within the program are analytical, inorganic, materials, organic, physical chemistry, chemical biology as well as chemistry education research. Breadth coursework may be taken in other departments including physics, mathematics, computer sciences, biochemistry, chemical engineering, and in fields other than the student's specialization within the Department of Chemistry.

Excellent facilities are available for research in a wide variety of specialized fields including synthetic and structural chemistry; natural product and bio-organic chemistry; molecular dynamics and photochemistry; biophysical, bioanalytical, and bioinorganic chemistry; spectroscopy (including magnetic resonance and microwave), theoretical and experimental chemical physics, chemical dynamics, quantum and statistical mechanics; macromolecular and polymer chemistry, materials science, surface and solid-state chemistry; x-ray crystallography, lasers, and light scattering; and chemical education. Programs are assisted by department computing and instrument centers and by other facilities on campus including those of the Division of Information Technology (DoIT).

Information on the research fields of faculty members is available on the chemistry website (<http://www.chem.wisc.edu/>).

The department offers opportunities for graduate students to obtain teaching experience. Financial assistance is available to most graduate students in the form of teaching or research assistantships, fellowships, or traineeships.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s).**

Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Prospective graduate students are expected to have satisfactorily completed the equivalent in class and lab of the fundamental courses in chemistry offered at UW–Madison, one year of physics, and mathematics through calculus. Students who have not completed all the prerequisites may be admitted in exceptional cases, but any deficiencies must be made up in the first year of graduate study.

A grade point average of 3.0 (on a 4.0 scale) in the last 60 hours of undergraduate work is the minimum required for admission to graduate studies. The Graduate Record Exam (GRE) is also required. The subject test is required for international applicants, and strongly recommended for domestic students. Students for whom English is not the native language are required to present scores from the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS). Before teaching assistant appointments can be finalized, students for whom English is a second language must participate in the SPEAK Test, the institutional version of the Test of Spoken English (TSE).

Admission deadline for the fall semester is December 1. Although some exam scores or recommendation letters might not have been received at that time, the application should be substantially complete by then to be considered for admission in the following fall.

Admission for the spring semester is not the norm, and applications for spring should only be submitted following discussion with a faculty member and/or the director of graduate study. Most summer admissions are applicants who were already admitted for the fall semester, and decided to start earlier so they could serve as a teaching assistant or research assistant.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

With few exceptions, students admitted to the Ph.D. program in the Department of Chemistry are guaranteed support for five continuous academic years. The support will be at the level of at least 50% time, and may come from a variety of sources—teaching assistantships, research assistantships, project assistantships, traineeships, and fellowships. This guarantee requires that you remain a graduate student in good standing in the Ph.D. program in the Department of Chemistry, and that your teaching or other assigned responsibilities are satisfactory.

Currently, graduate students who have at least a 33.4% appointment for a fall or spring term are eligible to receive a full tuition (but not segregated fee) waiver.

Although serving as a teaching assistant is not a requirement of the chemistry department at this time, teaching can be an important part of the graduate training you receive. Most students will serve at least two semesters as a teaching assistant, and many will serve for two years. Whether or not an individual student will be appointed as a teaching assistant, research assistant, trainee or fellow depends on the availability

of funding from the major professor, and eligibility for traineeships and fellowships from other sources.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.

Assessments and Examinations Doctoral students are required to take a comprehensive preliminary/oral examination after they have cleared their record of all Incomplete and Progress grades (other than research and thesis). Deposit of the doctoral dissertation in the Graduate School is required.

Language Requirements There are currently no language requirements to obtain the Ph.D. in Chemistry.

Doctoral Minor/Breadth Requirements Doctoral students must complete a doctoral minor.

REQUIRED COURSES

Code	Title	Credits
CHEM 901	Seminar-Teaching of Chemistry	1
CHEM 607	Laboratory Safety	1

Each student must complete CHEM 901 Seminar-Teaching of Chemistry in the fall of their first year, and CHEM 607 Laboratory Safety in the spring of their first year.

The Department of Chemistry recognizes 6 paths to the Ph.D. in Chemistry; each path has specific required courses, called their core courses, and other path-specific requirements.

Analytical Chemistry Track ¹

Code	Title	Credits
CHEM 621	Instrumental Analysis	3-4
CHEM 920	Seminar-Analytical Chemistry	0

Select two of the following:

CHEM 622	Organic Analysis
CHEM 623	Experimental Spectroscopy
CHEM 624	Electrochemistry
CHEM 625	Separations in Chemical Analysis
CHEM/GENETICS 626	Genomic Science
CHEM/BMOLCHEM 627	Methods and Technologies for Protein Characterization
CHEM 628	Chemical Instrumentation: Design and Control Applications
CHEM 630	Selected Topics in Analytical Chemistry

- Every semester until you reach dissertator status, enroll in and attend CHEM 920 Seminar-Analytical Chemistry
- During the spring semester of the second year, complete the written Thesis Background Oral (TBO) and oral defense.
- During the spring semester of the third year, complete the written Research Proposal (RP) and oral defense.
- By May of the fourth year, complete an oral presentation to your thesis committee.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Chemical Biology Track ¹

Code	Title	Credits
CHEM/BIOCHEM 704	Chemical Biology	3

Select any one of the following for the maximum credits offered:

CHEM 606	Physical Methods for Structure Determination
CHEM 621	Instrumental Analysis
CHEM 622	Organic Analysis
CHEM/BMOLCHEM 627	Methods and Technologies for Protein Characterization
CHEM 630	Selected Topics in Analytical Chemistry
CHEM/BIOCHEM 665	Biophysical Chemistry
CHEM 668	Biophysical Spectroscopy

- Before January 30 of the second year, submit the written Thesis Preliminary Report; before April 30, present the oral defense.
- At the end of the fall semester of the third year, complete the written Research Proposal; in the first two weeks of January, do the oral defense.
- In May of the fourth year, complete an oral presentation to the thesis committee.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Inorganic Chemistry Track ¹

Code	Title	Credits
CHEM 608	Symmetry, Bonding, and Molecular Shapes	1-3
CHEM 713	Inorganic and Organometallic Chemistry of the Main Group Elements	1-3
CHEM 900	Seminar-Inorganic Chemistry	0

Fulfill the minor requirements and at least 2 of the following:

CHEM 606	Physical Methods for Structure Determination
CHEM 613	Chemical Crystallography
CHEM 630	Selected Topics in Analytical Chemistry (Chemistry of Inorganic Materials)
CHEM 714	Organometallic Chemistry of the Transition Elements
CHEM 801	Selected Topics in Inorganic Chemistry

- Every semester until you reach dissertator status, enroll in and attend CHEM 900 Seminar-Inorganic Chemistry
- By January 31 of the second year, complete the written Thesis Background Exam (TBE); complete the oral defense by the end of the spring semester.

- By January 31 of the third year, complete the written Research Proposal (RP); complete the oral defense by the end of the spring semester.
- During spring of the fourth year, complete an oral presentation at the weekly seminar series.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Materials Chemistry Track ¹

Code	Title	Credits
Select three of the following:		
CHEM 613	Chemical Crystallography	3
CHEM 624	Electrochemistry	2-3
CHEM 630	Selected Topics in Analytical Chemistry	1-3
CHEM 652	Chemistry of Inorganic Materials	3
CHEM 653	Chemistry of Nanoscale Materials	3
CHEM 654	Materials Chemistry of Polymers	2-3
CHEM 664	Physical Chemistry of Macromolecules	2-3
CHEM 842	Advanced Organic Chemistry	1-3

- Every semester until you reach dissertator status, enroll in and attend Materials seminars
- During the Spring semester of the second year, complete the written Thesis Preliminary Exam and the oral defense.
- During the Spring semester of the third year, complete the written Research Proposal and the oral defense.
- About 1 year before you are planning on completing the PhD, schedule a thesis planning meeting with your committee.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Organic Chemistry Track ¹

Code	Title	Credits
CHEM 641	Advanced Organic Chemistry	3
CHEM 841	Advanced Organic Chemistry	3
CHEM 940	Seminar-Organic Chemistry	0

Recommended courses, which may be taken as part of the minor:

Code	Title	Credits
CHEM 843	Advanced Organic Chemistry	1-3
CHEM 605	Spectrochemical Measurements	3
CHEM 636	Topics in Chemical Instrumentation: Introduction to NMR	2

- Every semester until you reach dissertator status, enroll in and attend CHEM 940 Seminar-Organic Chemistry
- By January 31 of the second year, complete the written Thesis Background Oral (TBO); complete the oral defense by April 30.
- Complete the written Research Proposal (RP) by mid-December; complete the oral defense by mid-January.

- By May of the fourth year, complete an oral presentation to the thesis committee.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Physical Chemistry Track ¹

Code	Title	Credits
CHEM 661	Chemical and Statistical Thermodynamics	3
CHEM 675	Introductory Quantum Chemistry	3
CHEM 960	Seminar-Physical Chemistry	2
Complete at least 2 credits from the following:		
CHEM 654	Materials Chemistry of Polymers	
CHEM 664	Physical Chemistry of Macromolecules	
CHEM/ BIOCHEM 665	Biophysical Chemistry	
CHEM 668	Biophysical Spectroscopy	
CHEM 762	Molecular Reaction Dynamics	
CHEM 763	Introduction to Molecular Spectroscopy	
CHEM 775	Electronic Structure of Molecules	
CHEM 777	Physical Chemistry of Surfaces	
CHEM 860	Selected Topics in Physical Chemistry	
CHEM 864	Statistical Mechanics	
CHEM/ BIOCHEM 872	Selected Topics in Macromolecular and Biophysical Chemistry	

- Every semester until you reach dissertator status, enroll in and attend CHEM 960 Seminar-Physical Chemistry
- During the Spring semester of the second year, complete the written Thesis Background Oral (TBO) and the oral defense.
- During the Spring semester of the third year, complete the written Research Proposal and oral defense.
- By May of the fourth year, complete an oral presentation to the thesis committee.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 12 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

Up to 7 credits numbered 300 or above from a UW–Madison undergraduate career are allowed to count toward the minimum graduate degree credit requirement; if those 7 credits are numbered 700 or above from a UW–Madison undergraduate career, they are allowed to count toward the minimum graduate coursework requirement. **All credits so counted** must be over and above the minimum credits that were required by the original undergraduate degree. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count no more than 15 credits of coursework numbered 300 or above taken as a UW–Madison special student toward the residence and degree credit requirements; if those 15 credits of coursework taken as a UW–Madison Special student are numbered 700 or above, they are allowed to count toward the minimum graduate coursework requirement. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

All admitted Ph.D. graduate students receive tuition remission and a stipend, guaranteed for 10 semesters, as long as progress to the degree is made.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates research problems, potentials, and limits with respect to theory, knowledge, and practice within an area of chemistry.

2. Formulates ideas, concepts, designs, and techniques beyond the current boundaries of knowledge within an area of chemistry.
3. Creates research and scholarship that makes a substantive contribution to an area of chemistry.
4. Demonstrates breadth within their learning experiences.
5. Advances the beneficial societal impacts of research in chemistry.
6. Communicates complex scientific ideas in a clear and understandable manner.
7. Fosters safe, ethical, and professional conduct.

Bates, Desiree (Computational Chemistry Leader)
 Drier, Tracy (Master Glassblower)
 McGuire, Paul (High Performance Computing Systems Administrator)
 Silver, Alan (Computer Systems Administrator)

CHICANA/O AND LATINA/O STUDIES

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Chicana/o and Latina/o Studies, Doctoral Minor (p. 288)

PEOPLE

Faculty: See Faculty (<https://chicla.wisc.edu/chican-latin-studies-professors/>) on the program website.

CHICANA/O AND LATINA/O STUDIES, DOCTORAL MINOR

In 2007, the University of Wisconsin–Madison Graduate School approved the Chicana/o and Latina/o Studies doctoral minor. It became the first such program to be offered in this field at UW–Madison as well as the University of Wisconsin System. The Chicana/o and Latina/o Studies minor program offers a comparative and transnational approach to the study of Mexican- and Latin-American-origin communities in the United States, including the Commonwealth of Puerto Rico. The curriculum offers students the opportunity to study issues of race, ethnicity, class, gender, and sexuality from both historical and contemporary perspectives. The interdisciplinary program is designed to provide students with an extensive knowledge base and the intellectual tools to understand the unity and diversity of US Latina/o populations. The primary objective of the program is to offer students a multidisciplinary, broad-based perspective on the study of Chicana/os and Latina/os, as well as to introduce them to the central questions, topics, and applications within this field of inquiry. Chicana/o and Latina/o studies maintains a central focus on US Chicana/o and Latina/o populations, offering a variety of courses, some focusing on particular national-origin groups or specific academic disciplines, and others organized comparatively and across disciplinary boundaries.

REQUIREMENTS

Graduate students interested in a minor in Chicana/o and Latina/o studies are required to take a minimum of 12 credits of graduate-level coursework (numbered 300 and above) that has been reviewed and approved for its relevance to the CLS program. A list of current CLS courses can be found here (<http://guide.wisc.edu/courses/chicla/>). In addition to these courses, CLS faculty members offer courses in their home departments which may count toward the minor.

These courses have a specific emphasis on Chicana/o and Latina/o issues or have a central focus on comparative cultures with which Chicana/o and Latina/o issues are emphasized. Graduate students are expected to complete graduate-level work (e.g., research and/or scholarly papers and classroom presentations) and meet with faculty to supplement their graduate learning experience. Because many courses taught by faculty across the campus can fulfill these criteria, the program has been designed to be flexible enough to accommodate students' primary fields of study and interests. Each student's focus will be determined in consultation between the student, the CLS faculty mentor, and the CLS director.

PEOPLE

Faculty: See Faculty (<https://chicla.wisc.edu/chican-latin-studies-professors/>) on the program website.

CIVIL AND ENVIRONMENTAL ENGINEERING

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Civil and Environmental Engineering, Doctoral Minor (p. 289)
- Civil and Environmental Engineering, M.Eng. (p. 289)
- Civil and Environmental Engineering, M.S. (p. 294)
- Civil and Environmental Engineering, Ph.D. (p. 321)
- Geological Engineering, Doctoral Minor (p. 325)
- Geological Engineering, M.S. (p. 326)
- Geological Engineering, Ph.D. (p. 329)

PEOPLE

Civil and Environmental Engineering Faculty: Professors Likos (chair), Ahn, Bahia, Cramer, Hanna, Harrington, Hurley, Likos, Loheide, McMahon, Noguera, Noyce, Park, Parra-Montesinos, Ran, Russell, Schauer, Wu; Associate Professors Block, Fratta, Ginder-Vogel, Pincheira, Remucal, Tinjum; Assistant Professors Blum, Hampton, Hicks, Prabhakar, Pujara, Qin, Sone, Wang, Wei, Wright, Zhu; M.Eng Program Director Carlson. See also CEE faculty (<http://directory.engr.wisc.edu/cee/faculty/>).

Geological Engineering Faculty: Professors Tinjum (director) (Civil and Environmental Engineering), Feigl (Geoscience), Goodwin (Geoscience), Holloway (Nelson Institute), Likos (Civil and Environmental Engineering), Loheide (Civil and Environmental Engineering), Thurber (Geoscience), Tikoff (Geoscience), Wu (Civil and Environmental Engineering); Associate Professors Cardiff (Geoscience), Fratta (Civil and Environmental Engineering), Ginder-Vogel (Civil and Environmental Engineering); Assistant Professors Hampton (Civil and Environmental Engineering), Hicks (Civil and Environmental Engineering), Sone (Civil and Environmental Engineering), Zoet (Geoscience); Professor of Practice Pakes (Grainger). See also GLE faculty (<https://www.engr.wisc.edu/geological-engineering/people/>).

Environmental Chemistry and Technology: Professors Hurley (director) (Civil and Environmental Engineering), Bertram (Chemistry), Bleam (Soil Science), Harrington (Civil and Environmental Engineering), Karthikeyan (Biological Systems Engineering), McMahon (Civil and Environmental Engineering/Bacteriology), Pedersen (Soil Science), Roden (Geoscience), Root (Chemical and Biological Engineering), Schauer (Civil and Environmental Engineering), Thompson (Biological Systems Engineering); Associate Professors Ginder-Vogel (Civil and Environmental Engineering), Remucal (Civil and Environmental Engineering); Assistant Professors Anantharaman (Bacteriology), Qin, (Civil and Environmental Engineering), Wei (Civil and Environmental Engineering), Whitman (Soil Science). See also ECT Faculty (<https://www.engr.wisc.edu/academics/graduate-academics/environmental-chemistry-technology/>).

CIVIL AND ENVIRONMENTAL ENGINEERING, DOCTORAL MINOR

Students from departments outside of Civil and Environmental Engineering can receive a doctoral minor in civil and environmental engineering. The minor must be approved by the Department of Civil and Environmental Engineering. The minor approval form is available at the department office. The completed form must be returned to the department office for review and approval.

REQUIREMENTS

1. A minimum of 9 formal course credits (not independent study or research credits) taken in Civil and Environmental Engineering (http://guide.wisc.edu/courses/civ_engr/).
2. Courses must be numbered 300 or above in Civil and Environmental Engineering.
3. Two of the courses must be numbered 500 or above in Civil and Environmental Engineering.
4. Only one of the courses may be cross listed in the student's major department and cannot be used to satisfy the student's major requirements.
5. No examinations are required other than those given in each course.

PEOPLE

Civil and Environmental Engineering Faculty: Professors Likos (chair), Ahn, Bahia, Cramer, Hanna, Harrington, Hurley, Likos, Loheide, McMahon, Noguera, Noyce, Park, Parra-Montesinos, Ran, Russell, Schauer, Wu; Associate Professors Block, Fratta, Ginder-Vogel, Pincheira, Remucal, Tinjum; Assistant Professors Blum, Hampton, Hicks, Prabhakar, Pujara, Qin, Sone, Wang, Wei, Wright, Zhu; M.Eng Program Director Carlson. See also CEE faculty (<http://directory.engr.wisc.edu/cee/faculty/>).

Geological Engineering Faculty: Professors Tinjum (director) (Civil and Environmental Engineering), Feigl (Geoscience), Goodwin (Geoscience), Holloway (Nelson Institute), Likos (Civil and Environmental Engineering), Loheide (Civil and Environmental Engineering), Thurber (Geoscience), Tikoff (Geoscience), Wu (Civil and Environmental Engineering); Associate Professors Cardiff (Geoscience), Fratta (Civil and Environmental Engineering), Ginder-Vogel (Civil and Environmental Engineering); Assistant Professors Hampton (Civil and Environmental Engineering), Hicks (Civil and Environmental Engineering), Sone (Civil and Environmental Engineering), Zoet (Geoscience); Professor of Practice Pakes (Grainger). See also GLE faculty (<https://www.engr.wisc.edu/geological-engineering/people/>).

Environmental Chemistry and Technology: Professors Hurley (director) (Civil and Environmental Engineering), Bertram (Chemistry), Bleam (Soil Science), Harrington (Civil and Environmental Engineering), Karthikeyan (Biological Systems Engineering), McMahon (Civil and Environmental Engineering/Bacteriology), Pedersen (Soil Science), Roden (Geoscience), Root (Chemical and Biological Engineering), Schauer (Civil and Environmental Engineering), Thompson (Biological Systems Engineering); Associate Professors Ginder-Vogel (Civil and Environmental Engineering), Remucal (Civil and Environmental Engineering); Assistant

Professors Anantharaman (Bacteriology), Qin, (Civil and Environmental Engineering), Wei (Civil and Environmental Engineering), Whitman (Soil Science). See also ECT Faculty (<https://www.engr.wisc.edu/academics/graduate-academics/environmental-chemistry-technology/>).

CIVIL AND ENVIRONMENTAL ENGINEERING, M.ENG.

Students interested in the Civil and Environmental Engineering M.Eng. degree should see information on its named option in Environmental Engineering (p. 290).

ADMISSIONS

Students apply to the Master of Engineering in Civil and Environmental Engineering through the named option:

- Environmental Engineering (p. 291)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

No financial support from the university is available to students in the online Civil and Environmental M.Eng. at this time.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum	30 credits
Credit Requirement	
Minimum	16 credits
Residence Credit Requirement	

Minimum Graduate Coursework Requirement	At least 50% of credits applied toward the graduate degree credit requirement must be completed in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	Contact the program for information on required assessments and examinations.
Language Requirements	Contact the program for information on any language requirements.

REQUIRED COURSES

Select a Named Option for courses required.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Engineering in Civil and Environmental Engineering must select the named option:

View as listView as grid

- **CIVIL AND ENVIRONMENTAL ENGINEERING: ENVIRONMENTAL ENGINEERING, M.ENG. (P. 290)**

POLICIES

Students should refer to the named options for policy information:

Environmental Engineering (p. 291)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate a strong understanding of mathematical, scientific, and engineering principles in the field.
2. Demonstrate an ability to formulate, analyze, and solve advanced engineering problems.
3. Demonstrate creative, independent problem solving skills.

4. Apply the latest scientific and technological advancements, advanced techniques, and modern engineering tools to these problems.
5. Fosters ethical and professional conduct.

PEOPLE

Civil and Environmental Engineering Faculty: Professors Likos (chair), Ahn, Bahia, Cramer, Hanna, Harrington, Hurley, Likos, Loheide, McMahon, Noguera, Noyce, Park, Parra-Montesinos, Ran, Russell, Schauer, Wu; Associate Professors Block, Fratta, Ginder-Vogel, Pincheira, Remucal, Tinjum; Assistant Professors Blum, Hampton, Hicks, Prabhakar, Pujara, Qin, Sone, Wang, Wei, Wright, Zhu; M.Eng Program Director Carlson. See also CEE faculty (<http://directory.engr.wisc.edu/cee/faculty/>).

Geological Engineering Faculty: Professors Tinjum (director) (Civil and Environmental Engineering), Feigl (Geoscience), Goodwin (Geoscience), Holloway (Nelson Institute), Likos (Civil and Environmental Engineering), Loheide (Civil and Environmental Engineering), Thurber (Geoscience), Tikoff (Geoscience), Wu (Civil and Environmental Engineering); Associate Professors Cardiff (Geoscience), Fratta (Civil and Environmental Engineering), Ginder-Vogel (Civil and Environmental Engineering); Assistant Professors Hampton (Civil and Environmental Engineering), Hicks (Civil and Environmental Engineering), Sone (Civil and Environmental Engineering), Zoet (Geoscience); Professor of Practice Pakes (Grainger). See also GLE faculty (<https://www.engr.wisc.edu/geological-engineering/people/>).

Environmental Chemistry and Technology: Professors Hurley (director) (Civil and Environmental Engineering), Bertram (Chemistry), Bleam (Soil Science), Harrington (Civil and Environmental Engineering), Karthikeyan (Biological Systems Engineering), McMahon (Civil and Environmental Engineering/Bacteriology), Pedersen (Soil Science), Roden (Geoscience), Root (Chemical and Biological Engineering), Schauer (Civil and Environmental Engineering), Thompson (Biological Systems Engineering); Associate Professors Ginder-Vogel (Civil and Environmental Engineering), Remucal (Civil and Environmental Engineering); Assistant Professors Anantharaman (Bacteriology), Qin, (Civil and Environmental Engineering), Wei (Civil and Environmental Engineering), Whitman (Soil Science). See also ECT Faculty (<https://www.engr.wisc.edu/academics/graduate-academics/environmental-chemistry-technology/>).

CIVIL AND ENVIRONMENTAL ENGINEERING: ENVIRONMENTAL ENGINEERING, M.ENG.

This is a named option in the Civil and Environmental Engineering M.Eng (p. 289).

The M.Eng. named option in Environmental Engineering is a fully online degree that includes a full curriculum of courses incorporating the latest research and practices in water supply, wastewater reclamation and reuse, resource recovery, and urban storm water management. The M.Eng. degree has been developed to give the practicing environmental engineer and scientist the skills needed to meet contemporary and future challenges. For more information about the online M.Eng. degree, see the program website (<https://www.engr.wisc.edu/department/civil-environmental-engineering/academics/master-engineering-civil-environmental-engineering-2/>).

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	July 15
Spring Deadline	November 15
Summer Deadline	March 15
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

All applicants must meet the Graduate School's admission requirements (<http://grad.wisc.edu/admissions/requirements/>) to be considered for admission. The application deadline is November 15 for the spring term, March 15 for the summer term, and July 15 for the fall term.

In addition, applicants must also meet the department's more stringent admission requirements listed below to be considered for admission:

- **Grades:** A minimum undergraduate grade point average (GPA) of 3.00 (on a 4.00 scale) on the equivalent of the last 60 semester hours (approximately two years of work) is required for domestic applicants. A strong academic performance comparable to an average of B or above grades for all undergraduate course work is required for international applicants.
 - On a case by case basis the admissions committee may consider an applicant with a GPA lower than 3.0 for applicants with exceptional circumstances, if supported by a strong career track and references.
- **Degree:** A bachelor's degree from an ABET-accredited engineering program or from a recognized international institution is required.
 - On a case by case basis the admissions committee may consider an applicant with a non ABET-accredited B.S. degree depending on the applicant's academic record.

A complete graduate application is required before an application will be reviewed by the faculty. A complete graduate application contains the following:

- **Graduate School Application Form and application fee:** Applicants must submit an online application to the UW–Madison Graduate School.

See Graduate School Admissions (<http://grad.wisc.edu/admissions/requirements/>) to apply.

- **Statement of purpose:** A statement of purpose for graduate study must be submitted through an applicant's online UW–Madison Graduate School application. Please limit this important document to 1,000 words.
- **Letters of recommendation:** Three letters of recommendation must be submitted through an applicant's online UW–Madison Graduate School application.
- **Transcripts:** Upload the most recent copies of your transcripts to the electronic application, from each institution attended. Study abroad transcripts are not required if coursework is reflected on the degree granting university's transcript. If the application is recommended for admission then we will follow-up with instructions for official transcript submission. International academic records must be in the original language accompanied by an official English translation. Documents must be issued by the institution with the official seal/stamp and an official signature.
- **English proficiency scores:** Applicants whose native language is not English, or whose undergraduate instruction was not in English, must provide an English proficiency test score. Scores are accepted if they are within two years of the start of the admission term. See Graduate School Admission Requirements (<http://grad.wisc.edu/admissions/requirements/>) for more information on the English proficiency requirement.

Students interested in pursuing the online M.Eng. degree must follow the steps to apply found on the program website (<https://www.engr.wisc.edu/department/civil-environmental-engineering/academics/master-engineering-civil-environmental-engineering-2/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

No financial support from the university is available to students in the online Civil and Environmental M.Eng. at this time.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
No	No	Yes	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	At least 50% of credits applied toward the graduate degree credit requirement must be completed in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	Contact the program for information on required assessments and examinations.
Language Requirements	Contact the program for information on any language requirements.

REQUIRED COURSES

Code	Title	Credits
Core Courses		
<i>Required</i>		
CIV ENGR 820	Hydraulics and Applied Fluid Mechanics for Environmental Engineers	3

CIV ENGR 823	Environmental Engineering Design Project	3
CIV ENGR 929	Seminar-Environmental Engineering	1
<i>Take at least two of the following three courses</i>		6-9
CIV ENGR 721	Biological Principles of Environmental Engineering	
CIV ENGR 722	Chemical Principles of Environmental Engineering	
CIV ENGR 723	Energy Principles of Environmental Engineering	
<i>Take at least one of the following two courses</i>		3-6
CIV ENGR 821	Environmental Engineering: Biological Treatment Processes	
CIV ENGR 822	Environmental Engineering: Physical/Chemical Treatment Process	

Electives

Other courses may be applicable with faculty advisor approval

CIV ENGR 320	Environmental Engineering	3
CIV ENGR 414	Hydrologic Design	3
CIV ENGR 426	Design of Wastewater Treatment Plants	3
CIV ENGR 427	Solid and Hazardous Wastes Engineering	3
CIV ENGR 428	Water Treatment Plant Design	3
CIV ENGR 522	Hazardous Waste Management	3
CIV ENGR 629	Special Topics in Environmental Engineering	1-3
CIV ENGR 699	Independent Study	1-6
E P D 690	Special Topics in Engineering Professional Development	1-3
E P D 701	Writing for Professionals	1
E P D 702	Professional Presentations	1
E P D 708	Creating Breakthrough Innovations	1
E P D 713	Key Legal Concepts for Professionals	1

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 14 credits of graduate coursework from other institutions. Approved credits will be allowed to count toward the minimum graduate degree credit requirement and the minimum graduate coursework requirement, but will

not count toward the minimum graduate residence credit requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, no more than 7 credits of coursework numbered 300 or higher from a UW–Madison undergraduate degree are allowed to count only toward the minimum graduate degree credit requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)

- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

CEE Grievance Procedures

Students who feel that they have been treated unfairly have the right to a prompt hearing of their grievance. Such complaints may involve course grades, classroom treatment, advising, various forms of harassment, or other issues. Any student or potential student may use these procedures.

- The student should speak first with the person toward whom the grievance is directed. In most cases, grievances can be resolved at this level.
- Should a satisfactory resolution not be achieved, the student should contact the program's Grievance Advisor to discuss the grievance. Currently, the CEE Grievance Advisors are:

Christina Remucal, Professor and Associate Chair for Graduate Programs
remucal@wisc.edu 141 WSEL Phone: (608) 262-1820

William Likos, Professor and CEE Department Chair
likos@wisc.edu 2205 Engineering Hall Phone: (608) 890-2662

If the student prefers to talk with someone outside of the CEE department, contact:

Chris Brace, Assistant Dean

The Assistant Dean for Graduate Affairs (enr-dean-graduateaffairs@enr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

- The Grievance Advisor is responsible for facilitating any complaints or issues of students. The Grievance Advisor first attempts to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment concerns can be found on the UW Office of Compliance website and are included in the next section.
- If the issue is not resolved to the student's satisfaction the student can submit the grievance to the Grievance Advisor in writing, within 60 calendar days of the alleged unfair treatment.

- On receipt of a written complaint, a faculty committee will be convened by the Grievance Advisor to manage the grievance. The program faculty committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.

- The faculty committee will determine a decision regarding the grievance. The Grievance Advisor will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.

- At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the College.

- Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has established policies governing student conduct, academic dishonesty, and sexual and racial harassment. The Graduate School also has procedures for students wishing to appeal a grievance decision made at the college level. These policies are described in the Academic Guidelines.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Civil and Environmental Engineering Faculty: Professors Likos (chair), Ahn, Bahia, Cramer, Hanna, Harrington, Hurley, Likos, Loheide, McMahon, Noguera, Noyce, Park, Parra-Montesinos, Ran, Russell, Schauer, Wu; Associate Professors Block, Fratta, Ginder-Vogel, Pincheira, Remucal, Tinjum; Assistant Professors Blum, Hampton, Hicks, Prabhakar, Pujara, Qin, Sone, Wang, Wei, Wright, Zhu; M.Eng Program Director Carlson. See also CEE faculty (<http://directory.engr.wisc.edu/cee/faculty/>).

Geological Engineering Faculty: Professors Tinjum (director) (Civil and Environmental Engineering), Feigl (Geoscience), Goodwin (Geoscience), Holloway (Nelson Institute), Likos (Civil and Environmental Engineering), Loheide (Civil and Environmental Engineering), Thurber (Geoscience), Tikoff (Geoscience), Wu (Civil and Environmental Engineering); Associate Professors Cardiff (Geoscience), Fratta (Civil and Environmental Engineering), Ginder-Vogel (Civil and Environmental Engineering); Assistant Professors Hampton (Civil and Environmental Engineering), Hicks (Civil and Environmental Engineering), Sone (Civil and Environmental Engineering), Zoet (Geoscience); Professor of Practice Pakes (Grainger). See also GLE faculty (<https://www.engr.wisc.edu/geological-engineering/people/>).

Environmental Chemistry and Technology: Professors Hurley (director) (Civil and Environmental Engineering), Bertram (Chemistry), Bleam

(Soil Science), Harrington (Civil and Environmental Engineering), Karthikeyan (Biological Systems Engineering), McMahon (Civil and Environmental Engineering/Bacteriology), Pedersen (Soil Science), Roden (Geoscience), Root (Chemical and Biological Engineering), Schauer (Civil and Environmental Engineering), Thompson (Biological Systems Engineering); Associate Professors Ginder-Vogel (Civil and Environmental Engineering), Remucal (Civil and Environmental Engineering); Assistant Professors Anantharaman (Bacteriology), Qin, (Civil and Environmental Engineering), Wei (Civil and Environmental Engineering), Whitman (Soil Science). See also ECT Faculty (<https://www.engr.wisc.edu/academics/graduate-academics/environmental-chemistry-technology/>).

CIVIL AND ENVIRONMENTAL ENGINEERING, M.S.

The Department of Civil and Environmental Engineering offers an M.S. degree with a Research (<http://guide.wisc.edu/graduate/civil-environmental-engineering/civil-environmental-engineering-ms/civil-environmental-engineering-research-ms/>) named option.

The following six accelerated M.S. degree programs are also offered:

Civil and Environmental Engineering: Construction Engineering and Management M.S. (p. 297)

Civil and Environmental Engineering: Environmental Science and Engineering M.S. (p. 301)

Civil and Environmental Engineering: Geological/Geotechnical Engineering M.S. (p. 305)

Civil and Environmental Engineering: Structural Engineering M.S. (p. 309)

Civil and Environmental Engineering: Transportation Engineering M.S. (p. 313)

Civil and Environmental Engineering: Water Resources M.S. (p. 316)

In addition, an online program in Civil & Environmental Engineering: Environmental Engineering M.Eng. (p. 289) is offered.

The mission of the civil and environmental engineering program is to develop leaders in education, industry, and government who can use their acquired skills to improve society. The academic program provides a comprehensive framework of courses in the broad area of civil and environmental engineering with opportunities to develop specialized expertise. It also emphasizes the development of integrated teamwork abilities, communication, leadership, entrepreneurship, and creative research skills. Graduate study in the department offers an opportunity to undertake advanced study and research in various areas of specialization. Areas include:

- *Construction engineering and management:* construction labor productivity management, integrated lean project delivery systems, risk management, advanced computer applications to construction, and change management
- *Environmental engineering:* water supply, water quality, water treatment, wastewater treatment, solid and hazardous waste management, air pollution, biotechnology, and alternative energy
- *Geo and pavement engineering:* geotechnical and geological engineering, pavement materials and design, asphalt binders and mixtures, geosynthetics, in-situ testing and engineering geophysics, recycled materials in sustainable construction

- **Structural engineering:** behavior, analysis and design of reinforced/prestressed concrete, steel, and wood structures; design for earthquake and wind loading; seismic rehabilitation
- **Transportation engineering:** highway and traffic engineering, intelligent transportation systems, connected and automated vehicles, transportation planning, freight, infrastructure management, transportation safety, user comprehension and behavior, advanced driving- and micro-simulation, big data
- **Water resources/environmental fluid mechanics:** analysis, measurement, modeling of currents, flows, and waves in natural and constructed systems; surface and groundwater hydrology; hydraulic engineering; coastal engineering; sedimentation and transport processes; infrastructure impacts of extreme weather events, hydroecology and stream restoration

Students may also pursue studies in the broad fields of environmental engineering/science and systems analysis. Areas of specialization are organized into a constructed facilities division (including transportation engineering, structural engineering, construction engineering and management, pavement engineering, materials for constructed facilities, and geotechnical engineering) and an environmental engineering division (including geoenvironmental engineering, environmental fluid mechanics and water resources engineering, environmental science and technology, and environmental and water chemistry).

Degrees require a coordinated core program of courses, selected from CEE and other department/program offerings. Graduate degree programs closely associated with the department include engineering mechanics, human factors, environmental chemistry and technology, water resources management, geological engineering, land resources, and limnology and marine science.

In support of the instructional and research programs are laboratory facilities for structural engineering; highway materials; transportation systems; driving simulation and human factors; soil mechanics, geotechnical and geoenvironmental engineering; coastal and hydraulic engineering; environmental fluid mechanics; environmental engineering processes and engineering chemistry. Water resources engineering, environmental engineering, and water chemistry have additional research facilities in the Water Science and Engineering Laboratory on the shore of Lake Mendota. The Environmental Engineering Field Laboratory is located at the Nine-Springs Madison Metropolitan Wastewater Treatment Plant.

ADMISSIONS

Students apply to the Master of Science in Civil and Environmental Engineering through one of the named options:

- Research (<http://guide.wisc.edu/graduate/civil-environmental-engineering/civil-environmental-engineering-ms/civil-environmental-engineering-research-ms/>)
- Professional (<http://guide.wisc.edu/graduate/civil-environmental-engineering/civil-environmental-engineering-ms/civil-environmental-engineering-professional-ms/>)

Admissions to the following options have been suspended. Interested students should apply to the Professional option.

- (<https://guide.wisc.edu/graduate/civil-environmental-engineering/civil-environmental-engineering-ms/civil-environmental-engineering-research-ms/>) Construction Engineering and Management (<https://guide.wisc.edu/graduate/civil-environmental-engineering/civil-environmental-engineering-ms/civil-environmental-engineering-structural-engineering-ms/>)

environmental-engineering-ms/civil-environmental-engineering-construction-engineering-management-ms/)

- Environmental Science and Engineering (<https://guide.wisc.edu/graduate/civil-environmental-engineering/civil-environmental-engineering-ms/civil-environmental-engineering-environmental-science-engineering-ms/>)
- Geological/Geotechnical Engineering (<https://guide.wisc.edu/graduate/civil-environmental-engineering/civil-environmental-engineering-geological-geotechnical-engineering-ms/>)
- Structural Engineering (<https://guide.wisc.edu/graduate/civil-environmental-engineering/civil-environmental-engineering-ms/civil-environmental-engineering-structural-engineering-ms/>)
- Transportation Engineering (<https://guide.wisc.edu/graduate/civil-environmental-engineering/civil-environmental-engineering-ms/civil-environmental-engineering-transportation-engineering-ms/>)
- Water Resources Engineering (<https://guide.wisc.edu/graduate/civil-environmental-engineering/civil-environmental-engineering-ms/civil-environmental-engineering-water-resources-engineering-ms/>)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Financial support is available through fellowships, project/program assistantships (PA), research assistantships (RA), and teaching assistantships (TA). Faculty will contact successful M.S./Ph.D. applicants directly regarding funding opportunities. Admission is not a guarantee of funding.

Students in the accelerated course-only M.S. named options and M.Eng. (named option in Environmental Engineering) online programs are not eligible for department funded opportunities.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS CURRICULAR REQUIREMENTS

Requirements Detail

Minimum	30 credits
Credit	
Requirement	

Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	At least 50% of credits applied toward the graduate degree credit requirement must be completed in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	n/a
Language Requirements	See Named Options for policy information.

REQUIRED COURSES

Select a Named Option (p. 296) for courses required.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Science in Civil and Environmental Engineering must select one of the following named options:

View as listView as grid

- **CIVIL AND ENVIRONMENTAL ENGINEERING: CONSTRUCTION ENGINEERING AND MANAGEMENT, M.S. (P. 297)**
- **CIVIL AND ENVIRONMENTAL ENGINEERING: ENVIRONMENTAL SCIENCE AND ENGINEERING, M.S. (P. 301)**
- **CIVIL AND ENVIRONMENTAL ENGINEERING: GEOLOGICAL/GEOTECHNICAL ENGINEERING, M.S. (P. 305)**
- **CIVIL AND ENVIRONMENTAL ENGINEERING: PROFESSIONAL, M.S. ([HTTP://GUIDE.WISC.EDU/GRADUATE/CIVIL-ENVIRONMENTAL-ENGINEERING/CIVIL-ENVIRONMENTAL-ENGINEERING-MS/CIVIL-ENVIRONMENTAL-ENGINEERING-PROFESSIONAL-MS/](http://guide.wisc.edu/graduate/civil-environmental-engineering/civil-environmental-engineering-ms/civil-environmental-engineering-professional-ms/))**
- **CIVIL AND ENVIRONMENTAL ENGINEERING: RESEARCH, M.S. PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate a strong understanding of mathematical, scientific, and engineering principles in the field.
2. Demonstrate an ability to formulate, analyze, and solve advanced engineering problems.
3. Apply the latest scientific and technological advancements, advanced techniques, and modern engineering tools to these problems.
4. Recognize and apply principles of ethical and professional conduct.

PEOPLE

Civil and Environmental Engineering Faculty: Professors Likos (chair), Ahn, Bahia, Cramer, Hanna, Harrington, Hurley, Likos, Loheide, McMahon, Noguera, Noyce, Park, Parra-Montesinos, Ran, Russell, Schauer, Wu; Associate Professors Block, Fratta, Ginder-Vogel, Pincheira, Remucal, Tinjum; Assistant Professors Blum, Hampton, Hicks, Prabhakar, Pujara, Qin, Sone, Wang, Wei, Wright, Zhu; M.Eng Program Director Carlson. See also CEE faculty (<http://directory.engr.wisc.edu/cee/faculty/>).

Geological Engineering Faculty: Professors Tinjum (director) (Civil and Environmental Engineering), Feigl (Geoscience), Goodwin (Geoscience), Holloway (Nelson Institute), Likos (Civil and Environmental Engineering), Loheide (Civil and Environmental Engineering), Thurber (Geoscience), Tikoff (Geoscience), Wu (Civil and Environmental Engineering); Associate Professors Cardiff (Geoscience), Fratta (Civil and Environmental Engineering), Ginder-Vogel (Civil and Environmental Engineering); Assistant Professors Hampton (Civil and Environmental Engineering), Hicks (Civil and Environmental Engineering), Sone (Civil and Environmental Engineering), Zoet (Geoscience); Professor of Practice Pakes (Grainger). See also GLE faculty (<https://www.engr.wisc.edu/geological-engineering/people/>).

Environmental Chemistry and Technology: Professors Hurley (director) (Civil and Environmental Engineering), Bertram (Chemistry), Bleam (Soil Science), Harrington (Civil and Environmental Engineering), Karthikeyan (Biological Systems Engineering), McMahon (Civil and Environmental Engineering/Bacteriology), Pedersen (Soil Science), Roden (Geoscience), Root (Chemical and Biological Engineering), Schauer (Civil and Environmental Engineering), Thompson (Biological Systems Engineering); Associate Professors Ginder-Vogel (Civil and Environmental Engineering), Remucal (Civil and Environmental Engineering); Assistant Professors Anantharaman (Bacteriology), Qin, (Civil and Environmental Engineering), Wei (Civil and Environmental Engineering), Whitman (Soil

Science). See also ECT Faculty (<https://www.engr.wisc.edu/academics/graduate-academics/environmental-chemistry-technology/>).

CIVIL AND ENVIRONMENTAL ENGINEERING: CONSTRUCTION ENGINEERING AND MANAGEMENT, M.S.

Admissions to the Civil and Environmental Engineering: Construction Engineering and Management, M.S. have been suspended as of summer 2021 and will be discontinued as of fall 2022. If you have any questions, please contact the department.

This is a named option in the Civil and Environmental Engineering M.S. (p. 294). It is based on coursework only (no research-based thesis). This program will be replaced by Civil and Environmental Engineering: Professional M.S. (<http://guide.wisc.edu/graduate/civil-environmental-engineering/civil-environmental-engineering-ms/civil-environmental-engineering-professional-ms/>) in fall 2021.

The M.S.–CEE named option in Construction Engineering and Management (CEM) from the University of Wisconsin–Madison provides you with expertise in the theoretical and practical methods of planning, design, and construction, building on your civil engineering foundation in environmental engineering, transportation, structural analysis, fluid dynamics, and material science.

In just one year of intensive face-to-face learning, you gain an enriched understanding of construction scheduling, cost estimating, construction law, business management, ethics, risk management, safety and quality management, project control, teamwork, leadership, written and oral communications, and continuous improvement. You emerge fully prepared to immerse yourself in construction engineering and management.

Industry partners are strongly engaged in all aspects of the Construction Engineering and Management program, serving as adjunct professors, professors of practice, instructors, strategic advisors, and general supporters. This provides you with a valuable network of contacts during your time on the UW–Madison campus and once you enter the workforce.

Our Construction and Engineering Management graduates are among the top executive performers and leaders in the industry. Leading construction companies consider the UW–Madison Construction and Engineering Management program a top producing school and first choice for future recruiting.

Earn your master's degree through a program created with professional values in mind. As a UW–Madison graduate, you can provide outstanding service and expertise to the construction industry.

ADMISSIONS

Admissions to the Civil and Environmental Engineering: Construction Engineering and Management, M.S. have been suspended as of summer 2021 and will be discontinued as of fall 2022. If you have any questions, please contact the department.

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Applicants must first meet all of the requirements of the Graduate School. Please visit this website (<https://grad.wisc.edu>) for details.

Applicants must also meet department specific requirements as outlined below:

- Have a bachelor's degree in civil and environmental engineering from an ABET-accredited engineering program or from a recognized international institution
- Submit a 1,000 word or fewer statement of purpose; include your technical areas of interest, coursework emphasis, research experience, professional goals, faculty members you are interested in working with, and any other items relevant to your qualifications for graduate school
- Submit three letters of recommendation
- Non-native English speakers must have a Test of English as a Foreign Language (TOEFL) with a score of 580 (written) or 92 (Internet version)

Please do not mail paper copies of application materials. Upload the required application materials to the electronic Graduate School application, including a PDF copy of the most current transcripts. Applicants who are recommended for admission by the CEE Admissions Committee, will receive an e-mail with further instructions from the CEE Graduate Admissions Office, requesting official transcripts or other required application material.

Applicants should monitor the application status by visiting the "Graduate Application Status" window within your MyUW portal (information on this is received after submitting an application). You may need to activate a NetID to gain access to the MyUW portal.

Graduate Application Status will remain "pending" until recommendations are determined. All applicants will receive an e-mail from the CEE Graduate Admissions Team with more details once the admission committees have made decisions.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Students in this program are not eligible for department funded opportunities in the form of teaching assistantship (TA), research assistantship (RA), or project assistantship (PA).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	Yes

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	30 credits

Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	At least 50% of credits applied toward the graduate degree credit requirement must be completed in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	Contact the program for information on required assessments and examinations.
Language Requirements	Contact the program for information on any language requirements.

REQUIRED COURSES

This is a face-to-face, accelerated program:

- 30 credit degree program
- Complete the program in one academic year (fall, spring, summer)
- Courses begin in fall semester only
- Take 15 credits from the approved list of Construction Engineering and Management courses (see below)
- 6 credits from a second discipline within the approved list of Civil and Environmental Engineering (CEE) specialization courses, based on your career interests
- 3 credits from a third discipline within the approved list of CEE specialization courses, based on your career interests
- 5 credits of independent study
- 1 credit in a graduate student seminar

Typical Curriculum in this Program

(Student and advisor will select specific courses)

Code	Title	Credits
Fall Semester (12 credits)		
CIV ENGR/BSE 491	Legal Aspects of Engineering	3
CIV ENGR 497	Mechanical Systems for Construction	3
CIV ENGR 498	Construction Project Management	3
CIV ENGR 669	Special Topics in Construction Engineering and Management (Topic: Field Engineering Workshop-Civ Engr. section)	1-4
CIV ENGR 669	Special Topics in Construction Engineering and Management (Topic: Field Engineering Workshop-Electrical Engr. section)	1-4

CIV ENGR 669	Special Topics in Construction Engineering and Management (Topic: Field Engineering Workshop-Mechanical Engr. section)	1-4
--------------	--	-----

Spring Semester (12 credits)

CIV ENGR 492	Integrated Project Estimating and Scheduling	3
CIV ENGR 496	Electrical Systems for Construction	3
CIV ENGR 498	Construction Project Management	3
CIV ENGR 669	Special Topics in Construction Engineering and Management (Advanced Construction Systems)	1-4
CIV ENGR 669	Special Topics in Construction Engineering and Management (Topic: Graduate Student Seminar)	1-4

Summer Session (6 credits)

CIV ENGR 498	Construction Project Management	3
CIV ENGR 669	Special Topics in Construction Engineering and Management (Topic: Independent Study)	1-4
CIV ENGR 669	Special Topics in Construction Engineering and Management (Topic: Advanced Independent Study)	1-4

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count credits of graduate coursework from other institutions. Approved credits will be allowed to count toward the minimum graduate degree credit requirement and the minimum graduate coursework requirement, but will not count toward the minimum graduate residence credit requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

With program approval, no more than 7 credits of coursework numbered 300 or higher from a UW-Madison undergraduate degree are allowed to count only toward the minimum graduate degree credit requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison University Special

With program approval, students are allowed to count up to 15 credits of coursework numbered 300 or above taken as a UW-Madison special student toward the Minimum Graduate Residence Credit Requirement, and the Minimum Graduate Degree Credit Requirement; those courses

numbered 700 or above may be applied toward the Minimum Graduate Coursework (50%) Requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)

- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

CEE Grievance Procedures

Students who feel that they have been treated unfairly have the right to a prompt hearing of their grievance. Such complaints may involve course grades, classroom treatment, advising, various forms of harassment, or other issues. Any student or potential student may use these procedures.

- The student should speak first with the person toward whom the grievance is directed. In most cases, grievances can be resolved at this level.

- Should a satisfactory resolution not be achieved, the student should contact the program's Grievance Advisor to discuss the grievance. Currently, the CEE Grievance Advisors are:

Christina Remucal, Professor and Associate Chair for Graduate Programs
remucal@wisc.edu 141 WSEL Phone: (608) 262-1820

William Likos, Professor and CEE Department Chair
likos@wisc.edu 2205 Engineering Hall Phone: (608) 890-2662

If the student prefers to talk with someone outside of the CEE department, contact:

Chris Brace, Assistant Dean

The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

- The Grievance Advisor is responsible for facilitating any complaints or issues of students. The Grievance Advisor first attempts to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment concerns can be found on the UW Office of Compliance website and are included in the next section.
- If the issue is not resolved to the student's satisfaction the student can submit the grievance to the Grievance Advisor in writing, within 60 calendar days of the alleged unfair treatment.
- On receipt of a written complaint, a faculty committee will be convened by the Grievance Advisor to manage the grievance. The program faculty committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.
- The faculty committee will determine a decision regarding the grievance. The Grievance Advisor will report on the action taken by the committee in writing to both the student and the party toward whom

the complaint was directed within 15 working days from the date the complaint was received.

- At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the College.

- Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has established policies governing student conduct, academic dishonesty, and sexual and racial harassment. The Graduate School also has procedures for students wishing to appeal a grievance decision made at the college level. These policies are described in the Academic Guidelines.

OTHER

Students in the accelerated MS (named options) are not eligible for department funded opportunities.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Civil and Environmental Engineering Faculty: Professors Likos (chair), Ahn, Bahia, Cramer, Hanna, Harrington, Hurley, Likos, Loheide, McMahon, Noguera, Noyce, Park, Parra-Montesinos, Ran, Russell, Schauer, Wu; Associate Professors Block, Fratta, Ginder-Vogel, Pincheira, Remucal, Tinjum; Assistant Professors Blum, Hampton, Hicks, Prabhakar, Pujara, Qin, Sone, Wang, Wei, Wright, Zhu; M.Eng Program Director Carlson. See also CEE faculty (<http://directory.engr.wisc.edu/cee/faculty/>).

Geological Engineering Faculty: Professors Tinjum (director) (Civil and Environmental Engineering), Feigl (Geoscience), Goodwin (Geoscience), Holloway (Nelson Institute), Likos (Civil and Environmental Engineering), Loheide (Civil and Environmental Engineering), Thurber (Geoscience), Tikoff (Geoscience), Wu (Civil and Environmental Engineering); Associate Professors Cardiff (Geoscience), Fratta (Civil and Environmental Engineering), Ginder-Vogel (Civil and Environmental Engineering); Assistant Professors Hampton (Civil and Environmental Engineering), Hicks (Civil and Environmental Engineering), Sone (Civil and Environmental Engineering), Zoet (Geoscience); Professor of Practice Pakes (Grainger). See also GLE faculty (<https://www.engr.wisc.edu/geological-engineering/people/>).

Environmental Chemistry and Technology: Professors Hurley (director) (Civil and Environmental Engineering), Bertram (Chemistry), Bleam (Soil Science), Harrington (Civil and Environmental Engineering), Karthikeyan (Biological Systems Engineering), McMahon (Civil and Environmental Engineering/Bacteriology), Pedersen (Soil Science), Roden (Geoscience), Root (Chemical and Biological Engineering), Schauer (Civil and Environmental Engineering), Thompson (Biological Systems Engineering); Associate Professors Ginder-Vogel (Civil and Environmental Engineering), Remucal (Civil and Environmental Engineering); Assistant Professors Anantharaman (Bacteriology), Qin, (Civil and Environmental

Engineering), Wei (Civil and Environmental Engineering), Whitman (Soil Science). See also ECT Faculty (<https://www.engr.wisc.edu/academics/graduate-academics/environmental-chemistry-technology/>).

CIVIL AND ENVIRONMENTAL ENGINEERING: ENVIRONMENTAL SCIENCE AND ENGINEERING, M.S.

Admissions to the Civil and Environmental Engineering: Environmental Science and Engineering, M.S. have been suspended as of summer 2021 and will be discontinued as of fall 2022. If you have any questions, please contact the department.

This is a named option within Civil and Environmental Engineering M.S. (p. 294) It is based on coursework only (no research-based thesis). This program will be replaced by Civil and Environmental Engineering: Professional M.S. (<http://guide.wisc.edu/graduate/civil-environmental-engineering/civil-environmental-engineering-ms/civil-environmental-engineering-professional-ms/>) in fall 2021.

The Environmental Science and Engineering M.S.–CEE named option from the Department of Civil and Environmental Engineering (<https://www.engr.wisc.edu/department/civil-environmental-engineering/academics/accelerated-master-science-programs-civil-environmental-engineering/>) at the University of Wisconsin–Madison teaches you how to apply science to solve complex environmental problems. Our program is multidisciplinary, so you gain a deeper understanding of chemistry, biology, and systems thinking to better approach your work.

In just one year (fall, spring, and summer), learn to comprehensively address practical problems associated with drinking water and wastewater treatment, air quality, environmental chemistry, sustainable design, energy efficiency, and solid and hazardous waste remediation. Additionally, some courses explore the combination of law and practice, so you discover how to develop and enforce environmental policies and regulations that forge the way for a greener future.

At UW–Madison, our graduate research program is dynamic. Engineering and environmental chemistry professors, visiting professors, academic staff members, and a cadre of research graduate and undergraduate students provide context for your studies. We sustain a broad range of research topics, so you can explore environmental chemistry, wastewater treatment, drinking water treatment, freshwater quality, environmental microbiology, bioenergy production, sustainable engineering design, and many more.

With a master's degree in CEE with a named option in Environmental Science and Engineering, you are at the forefront of rapidly developing and world-changing innovations.

ADMISSIONS

Admissions to the Civil and Environmental Engineering: Environmental Science and Engineering, M.S. have been suspended as of summer 2021 and will be discontinued as of fall 2022. If you have any questions, please contact the department.

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the spring.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Applicants must first meet all of the requirements of the Graduate School. Please visit this website (<https://grad.wisc.edu>) for details.

Applicants must also meet department specific requirements as outlined below:

- Have a bachelor's degree in civil and environmental engineering from an ABET-accredited engineering program or from a recognized international institution
- Submit a 1,000 word or fewer statement of purpose; include your technical areas of interest, coursework emphasis, research experience, professional goals, faculty members you are interested in working with, and any other items relevant to your qualifications for graduate school
- Submit three letters of recommendation
- Non-native English speakers must have a Test of English as a Foreign Language (TOEFL) with a score of 580 (written) or 92 (Internet version)

Please do not mail paper copies of application materials. Upload the required application materials to the electronic Graduate School application, including a PDF copy of the most current transcripts. Applicants who are recommended for admission by the CEE Admissions Committee, will receive an e-mail with further instructions from the CEE Graduate Admissions Office, requesting official transcripts or other required application material.

Applicants should monitor the application status by visiting the "Graduate Application Status" window within your MyUW portal (information on this is received after submitting an application). You may need to activate a NetID to gain access to the MyUW portal.

Graduate Application Status will remain "pending" until recommendations are determined. All applicants will receive an e-mail from the CEE

Graduate Admissions Team with more details once the admission committees have made decisions.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Students in this program are not eligible for department funded opportunities in the form of teaching assistantship (TA), research assistantship (RA), or project assistantship (PA).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	Yes

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements	Detail
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits

Minimum Graduate Coursework Requirement	At least 50% of credits applied toward the graduate degree credit requirement must be completed in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	Contact the program for information on required assessments and examinations.
Language Requirements	Contact the program for information on any language requirements.

REQUIRED COURSES

This is a face to face, accelerated program:

- 30 credit degree program
- Complete the program in one academic year (fall, spring, summer)
- Courses begin in fall semester only
- Take 18 credits from the approved list of specialized courses
- Up to 6 credits of advanced study, 1-2 credits in a graduate student seminar, and up to 6 credits from a second discipline based on your career interests and faculty advisement

Typical Curriculum in this Program

Students typically take 12 credits in the fall semester, 12 credits in the spring semester, and 6 credits in the summer semester.

COURSE OPTIONS

Code	Title	Credits
CIV ENGR 410	Hydraulic Engineering	3
CIV ENGR 411	Open Channel Hydraulics	3
CIV ENGR 412	Groundwater Hydraulics	3
CIV ENGR 414	Hydrologic Design	3
CIV ENGR 415	Hydrology	3
CIV ENGR 416	Water Resources Systems Analysis	3
CIV ENGR/G L E 421	Environmental Sustainability Engineering	3
CIV ENGR 423	Air Pollution Effects, Measurement and Control	3
CIV ENGR 426	Design of Wastewater Treatment Plants	3
CIV ENGR 427	Solid and Hazardous Wastes Engineering	3
CIV ENGR 428	Water Treatment Plant Design	3
CIV ENGR 429	Environmental Systems Optimization	3
CIV ENGR 500	Water Chemistry	3
CIV ENGR 501	Water Analysis-Intermediate	3
CIV ENGR 514	Coastal Engineering	2-3

CIV ENGR 515	Hydroclimatology for Water Resources Management	3
CIV ENGR 522	Hazardous Waste Management	3
CIV ENGR 618	Special Topics in Hydraulics and Fluid Mechanics	1-3
CIV ENGR 619	Special Topics in Hydrology	1-3
CIV ENGR/SOIL SCI 623	Microbiology of Waterborne Pathogens and Indicator Organisms	3
CIV ENGR/M&ENVTOX/SOIL SCI 631	Toxicants in the Environment: Sources, Distribution, Fate, & Effects	3
CIV ENGR 700	Chemistry of Natural Waters	3
CIV ENGR/ATM OCN 701	The Chemistry of Air Pollution	2

CIV ENGR 821	Environmental Engineering: Biological Treatment Processes	3-4
CIV ENGR 822	Environmental Engineering: Physical/Chemical Treatment Process	3-4
G L E/GEOSCI 594	Introduction to Applied Geophysics	3
G L E/GEOSCI 627	Hydrogeology	3-4
G L E/GEOSCI 629	Contaminant Hydrogeology	3
G L E/GEOSCI 724	Groundwater Flow Modeling	3
MICROBIO/SOIL SCI 425	Environmental Microbiology	3

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count credits of graduate coursework from other institutions. Approved credits will be allowed to count toward the minimum graduate degree credit requirement and the minimum graduate coursework requirement, but will not count toward the minimum graduate residence credit requirement. Coursework earned five

or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, no more than 7 credits of coursework numbered 300 or higher from a UW–Madison undergraduate degree are allowed to count only toward the minimum graduate degree credit requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count up to 15 credits of coursework numbered 300 or above taken as a UW–Madison special student toward the Minimum Graduate Residence Credit Requirement, and the Minimum Graduate Degree Credit Requirement; those courses numbered 700 or above may be applied toward the Minimum Graduate Coursework (50%) Requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)

- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

CEE Grievance Procedures

Students who feel that they have been treated unfairly have the right to a prompt hearing of their grievance. Such complaints may involve course grades, classroom treatment, advising, various forms of harassment, or other issues. Any student or potential student may use these procedures.

- The student should speak first with the person toward whom the grievance is directed. In most cases, grievances can be resolved at this level.
- Should a satisfactory resolution not be achieved, the student should contact the program's Grievance Advisor to discuss the grievance. Currently, the CEE Grievance Advisors are:

Christina Remucal, Professor and Associate Chair for Graduate Programs
remucal@wisc.edu 141 WSEL Phone: (608) 262-1820

William Likos, Professor and CEE Department Chair
likos@wisc.edu 2205 Engineering Hall Phone: (608) 890-2662

If the student prefers to talk with someone outside of the CEE department, contact:

Chris Brace, Assistant Dean

The Assistant Dean for Graduate Affairs (enr-dean-graduateaffairs@enr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

- The Grievance Advisor is responsible for facilitating any complaints or issues of students. The Grievance Advisor first attempts to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment concerns can be found on the UW Office of Compliance website and are included in the next section.

- If the issue is not resolved to the student's satisfaction the student can submit the grievance to the Grievance Advisor in writing, within 60 calendar days of the alleged unfair treatment.
- On receipt of a written complaint, a faculty committee will be convened by the Grievance Advisor to manage the grievance. The program faculty committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.
- The faculty committee will determine a decision regarding the grievance. The Grievance Advisor will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.
- At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the College.
- Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has established policies governing student conduct, academic dishonesty, and sexual and racial harassment. The Graduate School also has procedures for students wishing to appeal a grievance decision made at the college level. These policies are described in the Academic Guidelines.

OTHER

Students in the accelerated MS named options are not eligible for department funded opportunities.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Civil and Environmental Engineering Faculty: Professors Likos (chair), Ahn, Bahia, Cramer, Hanna, Harrington, Hurley, Likos, Loheide, McMahon, Noguera, Noyce, Park, Parra-Montesinos, Ran, Russell, Schauer, Wu; Associate Professors Block, Fratta, Ginder-Vogel, Pincheira, Remucal, Tinjum; Assistant Professors Blum, Hampton, Hicks, Prabhakar, Pujara, Qin, Sone, Wang, Wei, Wright, Zhu; M.Eng Program Director Carlson. See also CEE faculty (<http://directory.engr.wisc.edu/cee/faculty/>).

Geological Engineering Faculty: Professors Tinjum (director) (Civil and Environmental Engineering), Feigl (Geoscience), Goodwin (Geoscience), Holloway (Nelson Institute), Likos (Civil and Environmental Engineering), Loheide (Civil and Environmental Engineering), Thurber (Geoscience), Tikoff (Geoscience), Wu (Civil and Environmental Engineering); Associate Professors Cardiff (Geoscience), Fratta (Civil and Environmental Engineering), Ginder-Vogel (Civil and Environmental Engineering); Assistant Professors Hampton (Civil and Environmental Engineering), Hicks (Civil and Environmental Engineering), Sone (Civil and Environmental Engineering), Zoet (Geoscience); Professor of Practice

Pakes (Grainger). See also GLE faculty (<https://www.engr.wisc.edu/geological-engineering/people/>).

Environmental Chemistry and Technology: Professors Hurley (director) (Civil and Environmental Engineering), Bertram (Chemistry), Bleam (Soil Science), Harrington (Civil and Environmental Engineering), Karthikeyan (Biological Systems Engineering), McMahon (Civil and Environmental Engineering/Bacteriology), Pedersen (Soil Science), Roden (Geoscience), Root (Chemical and Biological Engineering), Schauer (Civil and Environmental Engineering), Thompson (Biological Systems Engineering); Associate Professors Ginder-Vogel (Civil and Environmental Engineering), Remucal (Civil and Environmental Engineering); Assistant Professors Anantharaman (Bacteriology), Qin, (Civil and Environmental Engineering), Wei (Civil and Environmental Engineering), Whitman (Soil Science). See also ECT Faculty (<https://www.engr.wisc.edu/academics/graduate-academics/environmental-chemistry-technology/>).

CIVIL AND ENVIRONMENTAL ENGINEERING: GEOLOGICAL/GEOTECHNICAL ENGINEERING, M.S.

Admissions to the Civil and Environmental Engineering: Geological/Geotechnical Engineering, M.S. have been suspended as of summer 2021 and will be discontinued as of fall 2022. If you have any questions, please contact the department.

This is a named option within Civil and Environmental Engineering M.S. (p. 294) It is based on coursework only (no research-based thesis). This program will be replaced by Civil and Environmental Engineering: Professional M.S. (<http://guide.wisc.edu/graduate/civil-environmental-engineering/civil-environmental-engineering-ms/civil-environmental-engineering-professional-ms/>) in fall 2021.

The Geological/Geotechnical Engineering (<https://www.engr.wisc.edu/department/civil-environmental-engineering/academics/accelerated-master-science-programs-civil-environmental-engineering/>) M.S.-CEE named option from the University of Wisconsin-Madison is interdisciplinary, taught by faculty from the College of Engineering and the College of Letters & Science. Our program integrates expertise from geology and engineering, so you acquire deep understanding of the interrelation between nature and the built environment.

In just one year, learn to solve a variety of practical problems associated with rocks and soils using principles of sustainable engineering. Combine your knowledge of geology with your engineering expertise to build structures, manage groundwater and surface water resources, construct subsurface repositories for waste disposal, and design systems to help extract conventional and alternative energy and mineral resources.

Our program is dynamic. You work with engineering and geoscience professors, visiting professors, academic staff members, and a cadre of research graduate and undergraduate students. Choose your electives based on your specific career or research needs. Research topics include alternative energy, geoenvironmental engineering, rock mechanics, earthquake engineering, hydrogeology, near-surface geophysics, and many more.

In the UW-Madison Geological/Geotechnical Engineering master's program, you develop strong skills in geoenvironmental engineering, groundwater technology, rock and soil mechanics, geophysics, and geology. Graduate ready to excel in your field, whether it be consulting,

petroleum and gas industries, mining, infrastructure, federal and state laboratories, or research. The Earth can be your office!

ADMISSIONS

Admissions to the Civil and Environmental Engineering: Geological/Geotechnical Engineering, M.S. have been suspended as of summer 2021 and will be discontinued as of fall 2022. If you have any questions, please contact the department.

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Applicants must first meet all of the requirements of the Graduate School. Please visit this website (<https://grad.wisc.edu>) for details.

Applicants must also meet department specific requirements as outlined below:

- Have a bachelor's degree in civil and environmental engineering from an ABET-accredited engineering program or from a recognized international institution
- Submit a 1,000 word or fewer statement of purpose; include your technical areas of interest, coursework emphasis, research experience, professional goals, faculty members you are interested in working with, and any other items relevant to your qualifications for graduate school
- Submit three letters of recommendation
- Non-native English speakers must have a Test of English as a Foreign Language (TOEFL) with a score of 580 (written) or 92 (Internet version)

Please do not mail paper copies of application materials. Upload the required application materials to the electronic Graduate School application, including a PDF copy of the most current transcripts.

Applicants who are recommended for admission by the CEE Admissions Committee will receive an e-mail with further instructions from the CEE Graduate Admissions Office, requesting official transcripts or other required application material.

Applicants should monitor the application status by visiting the "Graduate Application Status" window within your MyUW portal (information on this is received after submitting an application). You may need to activate a NetID to gain access to the MyUW portal.

Graduate Application Status will remain "pending" until recommendations are determined. All applicants will receive an e-mail from the CEE Graduate Admissions Team with more details once the admission committees have made decisions.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Students in this program are not eligible for department funded opportunities in the form of teaching assistantship (TA), research assistantship (RA), or project assistantship (PA).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	Yes

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	At least 50% of credits applied toward the graduate degree credit requirement must be completed in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	Contact the program for information on required assessments and examinations.
Language Requirements	Contact the program for information on any language requirements.

REQUIRED COURSES

Typical Curriculum in this program

- Students typically take 12 credits in the fall semester, 12 credits in the spring semester, and 6 credits in the summer semester.
- 15 credits from the approved list of Geological/Geotechnical Engineering Specialization courses. Student and advisor will select specific courses:

Code	Title	Credits
G L E 401	Special Topics in Geological Engineering	1-3
G L E/GEOSCI/MS & E 474	Rock Mechanics	3
CIV ENGR/G L E 530	Seepage and Slopes	3
G L E/GEOSCI 594	Introduction to Applied Geophysics	3
G L E/GEOSCI 595	Field Methods in Applied and Engineering Geophysics	1
CIV ENGR/G L E 635	Remediation Geotechnics	3
CIV ENGR/G L E 730	Engineering Properties of Soils	3
CIV ENGR/G L E 732	Unsaturated Soil Geoengineering	3
CIV ENGR/G L E 733	Physicochemical Basis of Soil Behavior	3

CIV ENGR/G L E 735	Soil Dynamics	3
G L E/GEOSCI 757	Advanced Rock Mechanics	3

- 6 credits from a second discipline within the approved list of Civil and Environmental Engineering specialization courses, based on your career interests.
- 3 credits from a third discipline within the approved list of CEE specialization courses, based on your career interests.
- 5 credits of G L E 699 Independent Study and 1 credit of G L E 900 Seminar

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count credits of graduate coursework from other institutions. Approved credits will be allowed to count toward the minimum graduate degree credit requirement and the minimum graduate coursework requirement, but will not count toward the minimum graduate residence credit requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, no more than 7 credits of coursework numbered 300 or higher from a UW–Madison undergraduate degree are allowed to count only toward the minimum graduate degree credit requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count up to 15 credits of coursework numbered 300 or above taken as a UW–Madison special student toward the Minimum Graduate Residence Credit Requirement, and the Minimum Graduate Degree Credit Requirement; those courses numbered 700 or above may be applied toward the Minimum Graduate Coursework (50%) Requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)

- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

CEE Grievance Procedures

Students who feel that they have been treated unfairly have the right to a prompt hearing of their grievance. Such complaints may involve course grades, classroom treatment, advising, various forms of harassment, or other issues. Any student or potential student may use these procedures.

- The student should speak first with the person toward whom the grievance is directed. In most cases, grievances can be resolved at this level.
- Should a satisfactory resolution not be achieved, the student should contact the program's Grievance Advisor to discuss the grievance. Currently, the CEE Grievance Advisors are:

Christina Remucal, Professor and Associate Chair for Graduate Programs
remucal@wisc.edu 141 WSEL Phone: (608) 262-1820

William Likos, Professor and CEE Department Chair
likos@wisc.edu 2205 Engineering Hall Phone: (608) 890-2662

If the student prefers to talk with someone outside of the CEE department, contact:

Chris Brace, Assistant Dean

The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

- The Grievance Advisor is responsible for facilitating any complaints or issues of students. The Grievance Advisor first attempts to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment concerns can be found on the UW Office of Compliance website and are included in the next section.
- If the issue is not resolved to the student's satisfaction the student can submit the grievance to the Grievance Advisor in writing, within 60 calendar days of the alleged unfair treatment.
- On receipt of a written complaint, a faculty committee will be convened by the Grievance Advisor to manage the grievance. The program faculty committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.
- The faculty committee will determine a decision regarding the grievance. The Grievance Advisor will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.
- At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the College.

- Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has established policies governing student conduct, academic dishonesty, and sexual and racial harassment. The Graduate School also has procedures for students wishing to appeal a grievance decision made at the college level. These policies are described in the Academic Guidelines.

OTHER

Students in the accelerated MS (named options) are not eligible for department funded opportunities.

PEOPLE

Civil and Environmental Engineering Faculty: Professors Likos (chair), Ahn, Bahia, Cramer, Hanna, Harrington, Hurley, Likos, Loheide, McMahon, Noguera, Noyce, Park, Parra-Montesinos, Ran, Russell, Schauer, Wu; Associate Professors Block, Fratta, Ginder-Vogel, Pincheira, Remucal, Tinjum; Assistant Professors Blum, Hampton, Hicks, Prabhakar, Pujara, Qin, Sone, Wang, Wei, Wright, Zhu; M.Eng Program Director Carlson. See also CEE faculty (<http://directory.engr.wisc.edu/cee/faculty/>).

Geological Engineering Faculty: Professors Tinjum (director) (Civil and Environmental Engineering), Feigl (Geoscience), Goodwin (Geoscience), Holloway (Nelson Institute), Likos (Civil and Environmental Engineering), Loheide (Civil and Environmental Engineering), Thurber (Geoscience), Tikoff (Geoscience), Wu (Civil and Environmental Engineering); Associate Professors Cardiff (Geoscience), Fratta (Civil and Environmental Engineering), Ginder-Vogel (Civil and Environmental Engineering); Assistant Professors Hampton (Civil and Environmental Engineering), Hicks (Civil and Environmental Engineering), Sone (Civil and Environmental Engineering), Zoet (Geoscience); Professor of Practice Pakes (Grainger). See also GLE faculty (<https://www.engr.wisc.edu/geological-engineering/people/>).

Environmental Chemistry and Technology: Professors Hurley (director) (Civil and Environmental Engineering), Bertram (Chemistry), Bleam (Soil Science), Harrington (Civil and Environmental Engineering), Karthikeyan (Biological Systems Engineering), McMahon (Civil and Environmental Engineering/Bacteriology), Pedersen (Soil Science), Roden (Geoscience), Root (Chemical and Biological Engineering), Schauer (Civil and Environmental Engineering), Thompson (Biological Systems Engineering); Associate Professors Ginder-Vogel (Civil and Environmental Engineering), Remucal (Civil and Environmental Engineering); Assistant Professors Anantharaman (Bacteriology), Qin, (Civil and Environmental Engineering), Wei (Civil and Environmental Engineering), Whitman (Soil Science). See also ECT Faculty (<https://www.engr.wisc.edu/academics/graduate-academics/environmental-chemistry-technology/>).

CIVIL AND ENVIRONMENTAL ENGINEERING: STRUCTURAL ENGINEERING, M.S.

Admissions to the Civil and Environmental Engineering: Structural Engineering, M.S. have been suspended as of summer 2021 and will be discontinued as of fall 2022. If you have any questions, please contact the department.

This is a named option within Civil and Environmental Engineering M.S. (p. 294) It is based on coursework only (no research-based thesis). This program will be replaced by Civil and Environmental Engineering: Professional M.S. (<http://guide.wisc.edu/graduate/civil-environmental-engineering/civil-environmental-engineering-ms/civil-environmental-engineering-professional-ms/>) in fall 2021.

State-of-the-art expertise informs the University of Wisconsin's M.S.-CEE named option in Structural Engineering.

In just one year, students build a thorough understanding of the basic governing principles of structural engineering and gain exposure to the latest techniques and trends in civil engineering.

Students have the flexibility to choose courses that focus on structural analysis and design, geotechnical engineering, and construction engineering management. Students may also add related coursework from other departments, such as Engineering Mechanics, to craft precisely the expertise they seek.

UW-Madison's unique combination of classroom understanding with real-world application allows you to fully master developments in the structural engineering industry and gain the practical knowledge to join the engineering profession or consider further education upon graduation.

ADMISSIONS

Admissions to the Civil and Environmental Engineering: Structural Engineering, M.S. have been suspended as of summer 2021 and will be discontinued as of fall 2022. If you have any questions, please contact the department.

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	This program does not admit in the spring.

likos@wisc.edu 2205 Engineering Hall Phone: (608) 890-2662

If the student prefers to talk with someone outside of the CEE department, contact:

Chris Brace, Assistant Dean

The Assistant Dean for Graduate Affairs (enr-dean-graduateaffairs@enr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

- The Grievance Advisor is responsible for facilitating any complaints or issues of students. The Grievance Advisor first attempts to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment concerns can be found on the UW Office of Compliance website and are included in the next section.
- If the issue is not resolved to the student's satisfaction the student can submit the grievance to the Grievance Advisor in writing, within 60 calendar days of the alleged unfair treatment.
- On receipt of a written complaint, a faculty committee will be convened by the Grievance Advisor to manage the grievance. The program faculty

committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.

- The faculty committee will determine a decision regarding the grievance. The Grievance Advisor will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.
- At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the College.
- Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has established policies governing student conduct, academic dishonesty, and sexual and racial harassment. The Graduate School also has procedures for students wishing to appeal a grievance decision made at the college level. These policies are described in the Academic Guidelines.

OTHER

Students in the accelerated MS (named options) are not eligible for department funded opportunities.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Civil and Environmental Engineering Faculty: Professors Likos (chair), Ahn, Bahia, Cramer, Hanna, Harrington, Hurley, Likos, Loheide, McMahon, Noguera, Noyce, Park, Parra-Montesinos, Ran, Russell, Schauer, Wu; Associate Professors Block, Fratta, Ginder-Vogel, Pincheira, Remucal, Tinjum; Assistant Professors Blum, Hampton, Hicks, Prabhakar, Pujara, Qin, Sone, Wang, Wei, Wright, Zhu; M.Eng Program Director Carlson. See also CEE faculty (<http://directory.engr.wisc.edu/cee/faculty/>).

Geological Engineering Faculty: Professors Tinjum (director) (Civil and Environmental Engineering), Feigl (Geoscience), Goodwin (Geoscience), Holloway (Nelson Institute), Likos (Civil and Environmental Engineering), Loheide (Civil and Environmental Engineering), Thurber (Geoscience), Tikoff (Geoscience), Wu (Civil and Environmental Engineering); Associate Professors Cardiff (Geoscience), Fratta (Civil and Environmental Engineering), Ginder-Vogel (Civil and Environmental Engineering); Assistant Professors Hampton (Civil and Environmental Engineering), Hicks (Civil and Environmental Engineering), Sone (Civil and Environmental Engineering), Zoet (Geoscience); Professor of Practice Pakes (Grainger). See also GLE faculty (<https://www.engr.wisc.edu/geological-engineering/people/>).

Environmental Chemistry and Technology: Professors Hurley (director) (Civil and Environmental Engineering), Bertram (Chemistry), Bleam (Soil Science), Harrington (Civil and Environmental Engineering),

Karthikeyan (Biological Systems Engineering), McMahon (Civil and Environmental Engineering/Bacteriology), Pedersen (Soil Science), Roden (Geoscience), Root (Chemical and Biological Engineering), Schauer (Civil and Environmental Engineering), Thompson (Biological Systems Engineering); Associate Professors Ginder-Vogel (Civil and Environmental Engineering), Remucal (Civil and Environmental Engineering); Assistant Professors Anantharaman (Bacteriology), Qin, (Civil and Environmental Engineering), Wei (Civil and Environmental Engineering), Whitman (Soil Science). See also ECT Faculty (<https://www.engr.wisc.edu/academics/graduate-academics/environmental-chemistry-technology/>).

CIVIL AND ENVIRONMENTAL ENGINEERING: TRANSPORTATION ENGINEERING, M.S.

Admissions to the Civil and Environmental Engineering: Transportation Engineering, M.S. have been suspended as of summer 2021 and will be discontinued as of fall 2022. If you have any questions, please contact the department.

This is a named option within Civil and Environmental Engineering M.S. (p. 294) It is based on coursework only (no research-based thesis). This program will be replaced by Civil and Environmental Engineering: Professional M.S. (<http://guide.wisc.edu/graduate/civil-environmental-engineering/civil-environmental-engineering-ms/civil-environmental-engineering-professional-ms/>) in fall 2021.

The Transportation Engineering (<https://www.engr.wisc.edu/department/civil-environmental-engineering/academics/accelerated-master-science-programs-civil-environmental-engineering/>) named option in the M.S. – CEE at the University of Wisconsin–Madison teaches you to conduct research and disseminate knowledge for the safe and efficient movement of people and goods.

Because of energy constraints, population growth, capacity constraints, and environmental awareness, there is an industry need for engineers who understand traditional engineering principles and can also adapt and embrace innovative opportunities in the field.

The Transportation Engineering program focuses on technology-based learning and utilizes UW–Madison's prominence in cutting-edge scholarly research. Learn how to drive the discovery, planning, design, development, operation, maintenance, and safety of intelligent transportation systems and play the important role in connected and autonomous transportation.

You also gain the tools to develop efficient and reliable multi-modal freight systems that lead to economic growth and provide the foundation for the success of most industries.

Because the rapid growth in digital communication and automotive design requires new thinking, our program takes advantage of emerging opportunities in remote controls and the use of interactive signals in vehicles, satellites, mobile phones, and stationary traffic operations devices. Plus, you learn within UW–Madison's full-scale driving simulator and our national CV/AV proving grounds.

The unique combination of classroom understanding with real-world application allows you to fully master developments in the transportation industry.

ADMISSIONS

Admissions to the Civil and Environmental Engineering: Transportation Engineering, M.S. have been suspended as of summer 2021 and will be discontinued as of fall 2022. If you have any questions, please contact the department.

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Applicants must first meet all of the requirements of the Graduate School. Please visit this website (<https://grad.wisc.edu>) for details. Application deadline is December 15 for the fall term.

Applicants must also meet department specific requirements as outlined below:

- Have a bachelor's degree in civil and environmental engineering from an ABET-accredited engineering program or from a recognized international institution
- Submit a 1,000 word or fewer statement of purpose; include your technical areas of interest, coursework emphasis, research experience, professional goals, faculty members you are interested in working with, and any other items relevant to your qualifications for graduate school
- Submit three letters of recommendation
- Non-native English speakers must have a Test of English as a Foreign Language (TOEFL) with a score of 580 (written) or 92 (Internet version)

Please do not mail paper copies of application materials. Upload the required application materials to the electronic Graduate School application, including a PDF copy of the most current transcripts. Applicants who are recommended for admission by the CEE Admissions

Committee, will receive an e-mail with further instructions from the CEE Graduate Admissions Office, requesting official transcripts or other required application material.

Applicants should monitor the application status by visiting the "Graduate Application Status" window within your MyUW portal (information on this is received after submitting an application). You may need to activate a NetID to gain access to the MyUW portal.

Graduate Application Status will remain "pending" until recommendations are determined. All applicants will receive an e-mail from the CEE Graduate Admissions Team with more details once the admission committees have made decisions.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Students in this program are not eligible for department funded opportunities in the form of teaching assistantship (TA), research assistantship (RA), or project assistantship (PA).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	Yes

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum Credit Requirement 30 credits

Minimum Residence Credit Requirement 16 credits

Minimum Graduate Coursework Requirement At least 50% of credits applied toward the graduate degree credit requirement must be completed in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.

Overall Graduate GPA Requirement 3.00 GPA required.

Other Grade Requirements The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.

Assessments and Examinations Contact the program for information on required assessments and examinations.

Language Requirements Contact the program for information on any language requirements.

REQUIRED COURSES

This is a face-to face accelerated program:

- Complete the program in one academic year (fall, spring, summer)
- Take 15 credits from the approved list of Transportation Engineering Specialization courses
- 6 credits from a second discipline within the approved list of Civil and Environmental Engineering (CEE) specialization courses, based on your career interests
- 3 credits from a third discipline within the approved list of CEE specialization courses, based on your career interests
- 5 credits of independent study
- 1 credit in a graduate student seminar

Typical curriculum in this program: 12 credits fall semester. 12 credits spring semester. 6 credits summer semester. *Courses are chosen with the assistance of a faculty advisor.*

Course Options

Code	Title	Credits
CIV ENGR 570	Environmental Impact of Transportation Systems	3
CIV ENGR 571	Urban Transportation Planning	3
CIV ENGR 573	Geometric Design of Transport Facilities	3
CIV ENGR 574	Traffic Control	3
CIV ENGR 579	Seminar-Transportation Engineering	1

CIV ENGR 679	Special Topics in Transportation and City Planning (Advanced Topics in Transportation Safety; Traffic Flow Theory; Advanced Modality; Technology Integration; CAV)	3
CIV ENGR/ PUB AFFR 694	Management of Civil Infrastructure Systems	3
CIV ENGR 699	Independent Study	1-9

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count credits of graduate coursework from other institutions. Approved credits will be allowed to count toward the minimum graduate degree credit requirement and the minimum graduate coursework requirement, but will not count toward the minimum graduate residence credit requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, no more than 7 credits of coursework numbered 300 or higher from a UW–Madison undergraduate degree are allowed to count only toward the minimum graduate degree credit requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count up to 15 credits of coursework numbered 300 or above taken as a UW–Madison special student toward the Minimum Graduate Residence Credit Requirement, and the Minimum Graduate Degree Credit Requirement; those courses numbered 700 or above may be applied toward the Minimum Graduate Coursework (50%) Requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departamental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

CEE Grievance Procedures

Students who feel that they have been treated unfairly have the right to a prompt hearing of their grievance. Such complaints may involve course grades, classroom treatment, advising, various forms of harassment, or other issues. Any student or potential student may use these procedures.

- The student should speak first with the person toward whom the grievance is directed. In most cases, grievances can be resolved at this level.

- Should a satisfactory resolution not be achieved, the student should contact the program's Grievance Advisor to discuss the grievance. Currently, the CEE Grievance Advisors are:

Christina Remucal, Professor and Associate Chair for Graduate Programs
remucal@wisc.edu 141 WSEL Phone: (608) 262-1820

William Likos, Professor and CEE Department Chair
likos@wisc.edu 2205 Engineering Hall Phone: (608) 890-2662

If the student prefers to talk with someone outside of the CEE department, contact:

Chris Brace, Assistant Dean

The Assistant Dean for Graduate Affairs (enr-dean-graduateaffairs@enr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

- The Grievance Advisor is responsible for facilitating any complaints or issues of students. The Grievance Advisor first attempts to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment concerns can be found on the UW Office of Compliance website and are included in the next section.

- If the issue is not resolved to the student's satisfaction the student can submit the grievance to the Grievance Advisor in writing, within 60 calendar days of the alleged unfair treatment.

- On receipt of a written complaint, a faculty committee will be convened by the Grievance Advisor to manage the grievance. The program faculty committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.

- The faculty committee will determine a decision regarding the grievance. The Grievance Advisor will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.

- At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the College.

- Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has established policies governing student conduct, academic dishonesty, and sexual and racial harassment. The Graduate School also has procedures for students wishing to appeal a grievance decision made at the college level. These policies are described in the Academic Guidelines.

OTHER

Students in the accelerated MS (named options) are not eligible for department funded opportunities.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Civil and Environmental Engineering Faculty: Professors Likos (chair), Ahn, Bahia, Cramer, Hanna, Harrington, Hurley, Likos, Loheide, McMahon, Noguera, Noyce, Park, Parra-Montesinos, Ran, Russell, Schauer, Wu; Associate Professors Block, Fratta, Ginder-Vogel, Pincheira, Remucal, Tinjum; Assistant Professors Blum, Hampton, Hicks, Prabhakar, Pujara, Qin, Sone, Wang, Wei, Wright, Zhu; M.Eng Program Director Carlson. See also CEE faculty (<http://directory.engr.wisc.edu/cee/faculty/>).

Geological Engineering Faculty: Professors Tinjum (director) (Civil and Environmental Engineering), Feigl (Geoscience), Goodwin (Geoscience), Holloway (Nelson Institute), Likos (Civil and Environmental Engineering), Loheide (Civil and Environmental Engineering), Thurber (Geoscience), Tikoff (Geoscience), Wu (Civil and Environmental Engineering); Associate Professors Cardiff (Geoscience), Fratta (Civil and Environmental Engineering), Ginder-Vogel (Civil and Environmental Engineering); Assistant Professors Hampton (Civil and Environmental Engineering), Hicks (Civil and Environmental Engineering), Sone (Civil and Environmental Engineering), Zoet (Geoscience); Professor of Practice Pakes (Grainger). See also GLE faculty (<https://www.engr.wisc.edu/geological-engineering/people/>).

Environmental Chemistry and Technology: Professors Hurley (director) (Civil and Environmental Engineering), Bertram (Chemistry), Bleam (Soil Science), Harrington (Civil and Environmental Engineering), Karthikeyan (Biological Systems Engineering), McMahon (Civil and Environmental Engineering/Bacteriology), Pedersen (Soil Science), Roden (Geoscience), Root (Chemical and Biological Engineering), Schauer (Civil and Environmental Engineering), Thompson (Biological Systems Engineering); Associate Professors Ginder-Vogel (Civil and Environmental Engineering), Remucal (Civil and Environmental Engineering); Assistant Professors Anantharaman (Bacteriology), Qin, (Civil and Environmental Engineering), Wei (Civil and Environmental Engineering), Whitman (Soil Science). See also ECT Faculty (<https://www.engr.wisc.edu/academics/graduate-academics/environmental-chemistry-technology/>).

CIVIL AND ENVIRONMENTAL ENGINEERING: WATER RESOURCES ENGINEERING, M.S.

Admissions to the Civil and Environmental Engineering: Water Resources Engineering, M.S. have been suspended as of summer 2021 and will be discontinued as of fall 2022. If you have any questions, please contact the department.

This is a named option within Civil and Environmental Engineering M.S. (p. 294) It is based on coursework only (no research-based thesis). This program will be replaced by Civil and Environmental Engineering: Professional M.S. (<http://guide.wisc.edu/graduate/civil-environmental-engineering/civil-environmental-engineering-ms/civil-environmental-engineering-professional-ms/>) in fall 2021.

The Water Resources Engineering named option in the M.S.-CEE from the Department of Civil and Environmental Engineering (<https://www.engr.wisc.edu/department/civil-environmental-engineering/academics/accelerated-master-science-programs-civil-environmental-engineering/>) at the University of Wisconsin–Madison teaches you the scientific and engineering skills to evaluate, plan, and operate water resource and environmental systems.

Our program takes just one year to complete, and focuses on a systems-based approach to managing water resources for societal benefit. You learn principles of water movement through the environment and understand how to best utilize it for municipal and industrial uses, agriculture, and natural ecosystems. You also solve practical problems in hydrology; fluid mechanics; environmental flows in rivers, lakes, and coastal environments; and water resource management.

Build the expertise to analyze and design systems that control all aspects of the distribution of water to meet the needs of humans and improve natural resource management. You also analyze and solve scientific and engineering questions through field methods, laboratory experiments, remote-sensing techniques, numerical and statistical modeling, and analytic approaches.

With an M.S.-CEE named option in Water Resources Engineering at UW–Madison, you develop strong quantitative skills in modeling, systems thinking, and sustainability science. Graduate ready to succeed in consulting firms, federal and state laboratories and agencies, and municipal and county governments, and place yourself at the forefront of rapidly developing and world-changing innovations.

ADMISSIONS

Admissions to the Civil and Environmental Engineering: Water Resources Engineering, M.S. have been suspended as of summer 2021 and will be discontinued as of fall 2022. If you have any questions, please contact the department.

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count credits of graduate coursework from other institutions. Approved credits will be allowed to count toward the minimum graduate degree credit requirement and the minimum graduate coursework requirement, but will not count toward the minimum graduate residence credit requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, no more than 7 credits of coursework numbered 300 or higher from a UW–Madison undergraduate degree are allowed to count only toward the minimum graduate degree credit requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count up to 15 credits of coursework numbered 300 or above taken as a UW–Madison special student toward the Minimum Graduate Residence Credit Requirement, and the Minimum Graduate Degree Credit Requirement; those courses numbered 700 or above may be applied toward the Minimum Graduate Coursework (50%) Requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)

- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

CEE Grievance Procedures

Students who feel that they have been treated unfairly have the right to a prompt hearing of their grievance. Such complaints may involve course grades, classroom treatment, advising, various forms of harassment, or other issues. Any student or potential student may use these procedures.

- The student should speak first with the person toward whom the grievance is directed. In most cases, grievances can be resolved at this level.

- Should a satisfactory resolution not be achieved, the student should contact the program's Grievance Advisor to discuss the grievance. Currently, the CEE Grievance Advisors are:

Christina Remucal, Professor and Associate Chair for Graduate Programs
remucal@wisc.edu 141 WSEL Phone: (608) 262-1820

William Likos, Professor and CEE Department Chair
likos@wisc.edu 2205 Engineering Hall Phone: (608) 890-2662

If the student prefers to talk with someone outside of the CEE department, contact:

Chris Brace, Assistant Dean

The Assistant Dean for Graduate Affairs (enr-dean-graduateaffairs@enr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

- The Grievance Advisor is responsible for facilitating any complaints or issues of students. The Grievance Advisor first attempts to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment concerns can be found on the UW Office of Compliance website and are included in the next section.
- If the issue is not resolved to the student's satisfaction the student can submit the grievance to the Grievance Advisor in writing, within 60 calendar days of the alleged unfair treatment.
- On receipt of a written complaint, a faculty committee will be convened by the Grievance Advisor to manage the grievance. The program faculty committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.
- The faculty committee will determine a decision regarding the grievance. The Grievance Advisor will report on the action taken by the

committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.

- At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the College.

- Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has established policies governing student conduct, academic dishonesty, and sexual and racial harassment. The Graduate School also has procedures for students wishing to appeal a grievance decision made at the college level. These policies are described in the Academic Guidelines.

OTHER

Students in the accelerated MS (named options) are not eligible for department funded opportunities.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Civil and Environmental Engineering Faculty: Professors Likos (chair), Ahn, Bahia, Cramer, Hanna, Harrington, Hurley, Likos, Loheide, McMahon, Noguera, Noyce, Park, Parra-Montesinos, Ran, Russell, Schauer, Wu; Associate Professors Block, Fratta, Ginder-Vogel, Pincheira, Remucal, Tinjum; Assistant Professors Blum, Hampton, Hicks, Prabhakar, Pujara, Qin, Sone, Wang, Wei, Wright, Zhu; M.Eng Program Director Carlson. See also CEE faculty (<http://directory.engr.wisc.edu/cee/faculty/>).

Geological Engineering Faculty: Professors Tinjum (director) (Civil and Environmental Engineering), Feigl (Geoscience), Goodwin (Geoscience), Holloway (Nelson Institute), Likos (Civil and Environmental Engineering), Loheide (Civil and Environmental Engineering), Thurber (Geoscience), Tikoff (Geoscience), Wu (Civil and Environmental Engineering); Associate Professors Cardiff (Geoscience), Fratta (Civil and Environmental Engineering), Ginder-Vogel (Civil and Environmental Engineering); Assistant Professors Hampton (Civil and Environmental Engineering), Hicks (Civil and Environmental Engineering), Sone (Civil and Environmental Engineering), Zoet (Geoscience); Professor of Practice Pakes (Grainger). See also GLE faculty (<https://www.engr.wisc.edu/geological-engineering/people/>).

Environmental Chemistry and Technology: Professors Hurley (director) (Civil and Environmental Engineering), Bertram (Chemistry), Bleam (Soil Science), Harrington (Civil and Environmental Engineering), Karthikeyan (Biological Systems Engineering), McMahon (Civil and Environmental Engineering/Bacteriology), Pedersen (Soil Science), Roden (Geoscience), Root (Chemical and Biological Engineering), Schauer (Civil and Environmental Engineering), Thompson (Biological Systems Engineering); Associate Professors Ginder-Vogel (Civil and Environmental Engineering), Remucal (Civil and Environmental Engineering); Assistant

Professors Anantharaman (Bacteriology), Qin, (Civil and Environmental Engineering), Wei (Civil and Environmental Engineering), Whitman (Soil Science). See also ECT Faculty (<https://www.engr.wisc.edu/academics/graduate-academics/environmental-chemistry-technology/>).

CIVIL AND ENVIRONMENTAL ENGINEERING, PH.D.

The mission of the civil and environmental engineering program is to develop leaders in education, industry, and government who can use their acquired skills to improve society. The academic program provides a comprehensive framework of courses in the broad area of civil and environmental engineering with opportunities to develop specialized expertise. It also emphasizes the development of integrated teamwork abilities, communication, leadership, entrepreneurship, and creative research skills. Graduate study in the department offers an opportunity to undertake advanced study and research in various areas of specialization. Areas include:

- *Construction engineering and management*: construction labor productivity management, integrated lean project delivery systems, risk management, advanced computer applications to construction, and change management
- *Environmental engineering*: water supply, water quality, water treatment, wastewater treatment, solid and hazardous waste management, air pollution, biotechnology, and alternative energy
- *Geo and pavement engineering*: geotechnical and geological engineering, pavement materials and design, asphalt binders and mixtures, geosynthetics, in-situ testing and engineering geophysics, recycled materials in sustainable construction
- *Structural engineering*: behavior, analysis and design of reinforced/prestressed concrete, steel, and wood structures; design for earthquake and wind loading; seismic rehabilitation
- *Transportation engineering*: highway and traffic engineering, intelligent transportation systems, connected and automated vehicles, transportation planning, freight, and infrastructure management, transportation safety, user comprehension and behavior, advanced driving- and micro-simulation, big data
- *Water resources/environmental fluid mechanics*: analysis, measurement, modeling of currents, flows, and waves in natural and constructed systems; surface and groundwater hydrology; hydraulic engineering; coastal engineering; sedimentation and transport processes; infrastructure impacts of extreme weather events, hydroecology and stream restoration

Students may also pursue studies in the broad fields of environmental engineering/science and systems analysis. Areas of specialization are organized into a constructed facilities division (including transportation engineering, structural engineering, construction engineering and management, pavement engineering, materials for constructed facilities, and geotechnical engineering) and an environmental engineering division (including geoenvironmental engineering, environmental fluid mechanics and water resources engineering, environmental science and technology, and environmental and water chemistry).

Degrees require a coordinated core program of courses, selected from CEE and other department/program offerings. Graduate degree programs closely associated with the department include engineering mechanics, human factors, environmental chemistry and technology, water resources

management, geological engineering, land resources, and limnology and marine science.

In support of the instructional and research programs are laboratory facilities for structural engineering; highway materials; transportation systems; driving simulation and human factors; soil mechanics, geotechnical and geoenvironmental engineering; coastal and hydraulic engineering; environmental fluid mechanics; environmental engineering processes and engineering chemistry. Water resources engineering, environmental engineering, and water chemistry have additional research facilities in the Water Science and Engineering Laboratory on the shore of Lake Mendota. The Environmental Engineering Field Laboratory is located at the Nine-Springs Madison Metropolitan Wastewater Treatment Plant.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s).**

Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	October 1
Summer Deadline	December 15
GRE (Graduate Record Examinations)	Required.*
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

- * GRE scores will not be required for Spring or Fall 2021 admission due to challenges taking the exam during the COVID-19 pandemic.

All applicants must meet the Graduate School's admission requirements (<http://grad.wisc.edu/admissions/requirements/>) to be considered for admission. The application deadline is December 15 for the fall term and October 1 for the spring term. Late applications may not be reviewed for funding opportunities.

In addition, applicants must also meet the department's more stringent admission requirements listed below to be considered for admission:

- Grades: A minimum undergraduate grade point average (GPA) of 3.00 (on a 4.00 scale) on the equivalent of the last 60 semester hours (approximately two years of work) is required for domestic applicants. A strong academic performance comparable to an

average of B or above grades for all undergraduate course work is required for international applicants.

- Degree: A bachelor's degree from an ABET-accredited engineering program or from a recognized international institution is required.

A complete graduate application is required before an application will be reviewed by the faculty. A complete graduate application contains the following:

- *Graduate School Application Form and application fee:* Applicants must submit an online application to the UW–Madison Graduate School. See Graduate School Admissions (<https://grad.wisc.edu/admissions/>) to apply.
- *Statement of purpose:* A statement of purpose for graduate study must be submitted through an applicant's online UW–Madison Graduate School application. Please limit this important document to 1,000 words.
- *Letters of recommendation:* Three letters of recommendation must be submitted through an applicant's online UW–Madison Graduate School application.
- *Transcripts:* Upload the most recent copies of your transcripts to the electronic application, from each institution attended. Study abroad transcripts are not required if coursework is reflected on the degree granting university's transcript. If the application is recommended for admission then we will follow-up with instructions for official transcript submission.
- *Graduate Record Examination (GRE) Scores:* Graduate Record Examination (GRE) General Test scores are required for most applicants.
- *English proficiency scores:* Applicants whose native language is not English, or whose undergraduate instruction was not in English, must provide an English proficiency test score. Scores are accepted if they are within two years of the start of the admission term. See Graduate School Admission Requirements (<http://grad.wisc.edu/admissions/requirements/>) for more information on the English proficiency requirement.
 - GRE and TOEFL scores may be sent to institution code 1846 from ETS

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Financial support is available through fellowships, project/program assistantships (PA), research assistantships (RA), and teaching assistantships (TA). Faculty will contact successful applicants directly regarding funding opportunities. Admission is not a guarantee of funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS
MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

- Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.
- Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.
- Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.
- Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.
- Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.

Assessments and Examinations Doctoral students are required to complete a qualifying exam to demonstrate a sufficient depth and breadth of knowledge in their major to pursue original research, usually after the first year of study. Students must consult with their advisor and/or the exam coordinator in the major area of study for the schedule and specific procedures.

Doctoral students are required to take a comprehensive preliminary/oral examination after they have cleared their record of all Incomplete and Progress grades (other than research and thesis). In order to qualify for the preliminary examination, students must have completed 32 credits in residence and their Ph.D minor.

Deposit of the doctoral dissertation in the Graduate School is required.

Language Requirements Contact the program for information on any language requirements.

Doctoral Minor/Breadth Requirements Doctoral students must complete a doctoral minor. Students will discuss minor options with the faculty advisor. Course must be approved before, or by the time, the student has completed 6 of the total credits for the minor.

REQUIRED COURSES

Basic requirements for a Ph.D. degree in Civil and Environmental Engineering include: (1) Ph.D. major coursework; (2) qualifying examination; (3) Ph.D. minor coursework; (4) preliminary examination; (5) dissertation research; and (6) final oral examination. Advanced coursework in a major area of civil and environmental engineering is required. The academic program for each doctoral student is planned on an individual basis with their advisor. 32 credits and minor coursework must be completed prior to achieving dissertator status (for students who have earned an M.S. degree, credits accumulated for the M.S. can be applied toward this requirement). All graduate students must register for a 1-credit seminar course per academic year; students will discuss seminar options with faculty advisors.

Seminar course options; must discuss seminar options with faculty advisor.

Code	Title	Credits
CIV ENGR 579	Seminar-Transportation Engineering	1
CIV ENGR/ENVIR ST/URB R PL 717	Water Resources Management Practicum Planning Seminar I	1
CIV ENGR/ENVIR ST/URB R PL 718	Water Resources Management Practicum Planning Seminar II	2
CIV ENGR 909	Graduate Seminar - Environmental Chemistry & Technology	1
CIV ENGR/ATM OCN/BOTANY/ENVIR ST/GEOSCI/ZOOLOGY 911	Limnology and Marine Science Seminar	1
CIV ENGR 919	Seminar-Hydraulic Engineering and Fluid Mechanics	1
CIV ENGR 929	Seminar-Environmental Engineering	1
CIV ENGR 939	Geotechnical Engineering Seminar	1
CIV ENGR 949	Seminar-Structural Engineering	1

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count credits of graduate coursework from other institutions. Approved credits will be allowed to count toward the minimum graduate degree credit requirement and the minimum graduate coursework requirement, but will not count toward the minimum graduate residence credit requirement. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

With program approval, no more than 7 credits of coursework numbered 300 or higher from a UW-Madison undergraduate degree are allowed to count only toward the minimum graduate degree credit requirement. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW-Madison University Special

With program approval, students are allowed to count up to 15 credits of coursework numbered 300 or above taken as a UW-Madison special student toward the Minimum Graduate Residence Credit Requirement, and the Minimum Graduate Degree Credit Requirement; those courses numbered 700 or above may be applied toward the Minimum Graduate Coursework (50%) Requirement. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within 5 years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

CEE Grievance Procedures

Students who feel that they have been treated unfairly have the right to a prompt hearing of their grievance. Such complaints may involve course grades, classroom treatment, advising, various forms of harassment, or other issues. Any student or potential student may use these procedures.

- The student should speak first with the person toward whom the grievance is directed. In most cases, grievances can be resolved at this level.

- Should a satisfactory resolution not be achieved, the student should contact the program's Grievance Advisor to discuss the grievance. Currently, the CEE Grievance Advisors are:

Christina Remucal, Professor and Associate Chair for Graduate Programs
remucal@wisc.edu 141 WSEL Phone: (608) 262-1820

William Likos, Professor and CEE Department Chair
likos@wisc.edu 2205 Engineering Hall Phone: (608) 890-2662

If the student prefers to talk with someone outside of the CEE department, contact:

Chris Brace, Assistant Dean

The Assistant Dean for Graduate Affairs (enr-dean-graduateaffairs@enr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

- The Grievance Advisor is responsible for facilitating any complaints or issues of students. The Grievance Advisor first attempts to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment concerns can be found on the UW Office of Compliance website and are included in the next section.
- If the issue is not resolved to the student's satisfaction the student can submit the grievance to the Grievance Advisor in writing, within 60 calendar days of the alleged unfair treatment.
- On receipt of a written complaint, a faculty committee will be convened by the Grievance Advisor to manage the grievance. The program faculty committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.
- The faculty committee will determine a decision regarding the grievance. The Grievance Advisor will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.
- At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the College.
- Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has established policies governing student conduct, academic dishonesty, and sexual and racial harassment. The Graduate School also has procedures for students wishing to appeal a grievance decision made at the college level. These policies are described in the Academic Guidelines.

OTHER

Faculty will contact successful applicants directly regarding funding opportunities. Admission is not a guarantee of funding.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate an extraordinary, deep understanding of mathematical, scientific, and engineering principles in the field.
2. Demonstrate an ability to formulate, analyze, and independently solve advanced engineering problems.
3. Apply the relevant scientific and technological advancements, techniques, and engineering tools to address these problems.
4. Recognize and apply principles of ethical and professional conduct.
5. Demonstrate an ability to synthesize knowledge from a subset of the biological, physical, and/or social sciences to help frame problems critical to the future of their discipline.
6. Demonstrate an ability to conduct original research and communicate it to their peers.

PEOPLE

Civil and Environmental Engineering Faculty: Professors Likos (chair), Ahn, Bahia, Cramer, Hanna, Harrington, Hurley, Likos, Loheide, McMahon, Noguera, Noyce, Park, Parra-Montesinos, Ran, Russell, Schauer, Wu; Associate Professors Block, Fratta, Ginder-Vogel, Pincheira, Remucal, Tinjum; Assistant Professors Blum, Hampton, Hicks, Prabhakar, Pujara, Qin, Sone, Wang, Wei, Wright, Zhu; M.Eng Program Director Carlson. See also CEE faculty (<http://directory.engr.wisc.edu/cee/faculty/>).

Geological Engineering Faculty: Professors Tinjum (director) (Civil and Environmental Engineering), Feigl (Geoscience), Goodwin (Geoscience), Holloway (Nelson Institute), Likos (Civil and Environmental Engineering), Loheide (Civil and Environmental Engineering), Thurber (Geoscience), Tikoff (Geoscience), Wu (Civil and Environmental Engineering); Associate Professors Cardiff (Geoscience), Fratta (Civil and Environmental Engineering), Ginder-Vogel (Civil and Environmental Engineering); Assistant Professors Hampton (Civil and Environmental Engineering), Hicks (Civil and Environmental Engineering), Sone (Civil and Environmental Engineering), Zoet (Geoscience); Professor of Practice Pakes (Grainger). See also GLE faculty (<https://www.engr.wisc.edu/geological-engineering/people/>).

Environmental Chemistry and Technology: Professors Hurley (director) (Civil and Environmental Engineering), Bertram (Chemistry), Bleam (Soil Science), Harrington (Civil and Environmental Engineering), Karthikeyan (Biological Systems Engineering), McMahon (Civil and Environmental Engineering/Bacteriology), Pedersen (Soil Science), Roden (Geoscience), Root (Chemical and Biological Engineering), Schauer (Civil and Environmental Engineering), Thompson (Biological Systems Engineering); Associate Professors Ginder-Vogel (Civil and Environmental Engineering), Remucal (Civil and Environmental Engineering); Assistant Professors Anantharaman (Bacteriology), Qin, (Civil and Environmental Engineering), Wei (Civil and Environmental Engineering), Whitman (Soil

Science). See also ECT Faculty (<https://www.engr.wisc.edu/academics/graduate-academics/environmental-chemistry-technology/>).

GEOLOGICAL ENGINEERING, DOCTORAL MINOR

Students from departments outside of the Geological Engineering Program in the Department of Civil and Environmental Engineering can receive a Ph.D. minor in Geological Engineering. The requirements for an external minor in Geological Engineering are listed below. The minor must be approved by Geological Engineering faculty in the Department of Civil and Environmental Engineering. The minor approval form is available at the Civil and Environmental Engineering office. Completed forms can be returned to the Civil and Environmental Engineering office for review and approval.

REQUIREMENTS

1. A minimum of 9 formal course credits (not independent study or research credits) taken in the Geological Engineering curriculum.
2. Courses must be numbered 300 or above in Geological Engineering.
3. One of the courses must be numbered 600 or above in Geological Engineering.
4. Only one of the courses may be cross listed in the student's major department and cannot be used to satisfy the student's major requirements.
5. No examinations are required other than those given in each course.

PEOPLE

Civil and Environmental Engineering Faculty: Professors Likos (chair), Ahn, Bahia, Cramer, Hanna, Harrington, Hurley, Likos, Loheide, McMahon, Noguera, Noyce, Park, Parra-Montesinos, Ran, Russell, Schauer, Wu; Associate Professors Block, Fratta, Ginder-Vogel, Pincheira, Remucal, Tinjum; Assistant Professors Blum, Hampton, Hicks, Prabhakar, Pujara, Qin, Sone, Wang, Wei, Wright, Zhu; M.Eng Program Director Carlson. See also CEE faculty (<http://directory.engr.wisc.edu/cee/faculty/>).

Geological Engineering Faculty: Professors Tinjum (director) (Civil and Environmental Engineering), Feigl (Geoscience), Goodwin (Geoscience), Holloway (Nelson Institute), Likos (Civil and Environmental Engineering), Loheide (Civil and Environmental Engineering), Thurber (Geoscience), Tikoff (Geoscience), Wu (Civil and Environmental Engineering); Associate Professors Cardiff (Geoscience), Fratta (Civil and Environmental Engineering), Ginder-Vogel (Civil and Environmental Engineering); Assistant Professors Hampton (Civil and Environmental Engineering), Hicks (Civil and Environmental Engineering), Sone (Civil and Environmental Engineering), Zoet (Geoscience); Professor of Practice Pakes (Grainger). See also GLE faculty (<https://www.engr.wisc.edu/geological-engineering/people/>).

Environmental Chemistry and Technology: Professors Hurley (director) (Civil and Environmental Engineering), Bertram (Chemistry), Bleam (Soil Science), Harrington (Civil and Environmental Engineering), Karthikeyan (Biological Systems Engineering), McMahon (Civil and Environmental Engineering/Bacteriology), Pedersen (Soil Science), Roden

(Geoscience), Root (Chemical and Biological Engineering), Schauer (Civil and Environmental Engineering), Thompson (Biological Systems Engineering); Associate Professors Ginder-Vogel (Civil and Environmental Engineering), Remucal (Civil and Environmental Engineering); Assistant Professors Anantharaman (Bacteriology), Qin, (Civil and Environmental Engineering), Wei (Civil and Environmental Engineering), Whitman (Soil Science). See also ECT Faculty (<https://www.engr.wisc.edu/academics/graduate-academics/environmental-chemistry-technology/>).

GEOLOGICAL ENGINEERING, M.S.

The graduate program offers training leading to the master of science and the doctor of philosophy degrees in geological engineering. Geological engineering is a rapidly growing field of study that integrates the two disciplines of geology and engineering. Geological engineers help find the best ways to use the earth's resources for solving technical problems while protecting the environment. The need for graduate education in geological engineering has been brought about by modern developments and activities in science and industry that have an impact on earth materials including soil, rock, water, and air. The area of study combines research and application methodologies of geology and of several engineering disciplines to address engineering problems in which the geologic nature of a site or geologic processes constitute major design objectives or constraints.

Emphasis in the program is on development of the student's ability to originate and perform analytical, numerical, and/or laboratory analysis techniques to address new and challenging earth-related problems associated with modern land-use practices, earthen construction, energy and mineral extraction, and environmental pollution control and remediation. The program is expected to be of interest to students in engineering (particularly mining, civil, environmental, and mechanical) and physical sciences (particularly geology, geophysics, and geography). Students select their research topics from such areas as geotechnical and geo-environmental engineering, applied geophysics, hydrology and hydrogeology, numerical modeling of rock masses, remote sensing, rock mechanics, and soil and rock engineering.

Modern facilities include soil and rock mechanics laboratories; drilling equipment and instrumentation for rock and soil mechanics field testing; and soils, geosynthetics, and geo-environmental laboratories. Research assistantships, teaching assistantships, and fellowships are available to qualified applicants either upon admission or one to two semesters after entering the program.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	October 1

Summer Deadline	December 15
GRE (Graduate Record Examinations)	Required.*
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

* GRE scores will not be required for Fall, Summer or Spring 2021 admissions due to challenges taking the exam during the COVID-19 pandemic.

All applicants must meet the Graduate School's admission requirements (<http://grad.wisc.edu/admissions/requirements/>) to be considered for admission. The application deadline for fall term is December 15th; the application deadline for spring term is October 1st.

In addition, applicants must also meet the department's more stringent admission requirements listed below to be considered for admission:

- **Grades:** A minimum undergraduate grade point average (GPA) of 3.00 (on a 4.00 scale) on the equivalent of the last 60 semester hours (approximately two years of work) is required for domestic applicants. A strong academic performance comparable to an average of B or above grades for all undergraduate course work is required for international applicants.
- **Degree:** A bachelor's degree from an ABET-accredited engineering program or from a recognized international institution is preferred or bachelor's degree in physical sciences. Admission to the program requires approval of the admissions committee.
- **A complete graduate application is required before an application will be reviewed by the faculty.** A complete graduate application contains the following:
 - **Graduate School Application Form and application fee:** Applicants must submit an online application to the UW–Madison Graduate School. See Graduate School Admissions (<http://grad.wisc.edu/admissions/requirements/>) to apply.
 - **Statement of purpose:** A statement of purpose for graduate study must be submitted through an applicant's online UW–Madison Graduate School application. Please limit this important document to 1,000 words.
 - **Letters of recommendation:** Three letters of recommendation must be submitted through an applicant's online UW–Madison Graduate School application.
 - **Transcripts:** Upload the most recent copies of your transcripts to the electronic application, from each institution attended. Study abroad transcripts are not required if coursework is reflected on the degree granting university's transcript. If the application is recommended for admission then we will follow-up with instructions for official transcript submission.
 - **Graduate Record Examination (GRE) Scores:** Graduate Record Examination (GRE) General Test scores are required for all applicants.

- *English proficiency scores:* Applicants whose native language is not English, or whose undergraduate instruction was not in English, must provide an English proficiency test score. Scores are accepted if they are within two years of the start of the admission term. See Graduate School Admission Requirements (<http://grad.wisc.edu/admissions/requirements/>) for more information on the English proficiency requirement.
 - GRE and TOEFL scores may be sent to institution code 1846 from ETS

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Financial support is available through fellowships, project/program assistantships (PA), research assistantships (RA), and teaching assistantships (TA). Faculty will contact successful applicants directly regarding funding opportunities. Admission is not a guarantee of funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum Credit Requirement 30 credits

Minimum Residence Credit Requirement 16 credits

Minimum Graduate Coursework Requirement Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (<https://registrar.wisc.edu/course-guide/>) (<https://registrar.wisc.edu/course-guide/>).

Overall Graduate GPA Requirement 3.00 GPA required.

Other Grade Requirements The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.

Assessments and Examinations None.

Language Requirements None.

REQUIRED COURSES

All graduate students must register for G L E 900 Seminar once per academic year. M.S. degree candidates may choose from two options for their program of study:

Thesis Option ¹

This option requires at least 16 credits of graduate-level coursework (300-level and higher) and at least 6 credits of G L E 790 Master's Research or Thesis.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Independent Study Option ¹

This option requires at least 21 credits of graduate-level coursework (300-level and higher) and 3 credits of G L E 999 Independent Work. A written report must be prepared based on the independent study project.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count graduate coursework from other institutions toward the minimum graduate degree credit requirement and the minimum graduate coursework (50%) requirement. No credits from other institutions can be counted toward the minimum graduate residence credit requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

Up to 7 credits numbered 300 or above can be counted toward the minimum graduate degree credit requirement; if those 7 credits are from courses numbered 700 or above, they may be counted toward the minimum graduate coursework (50%) requirement. No credits can be counted toward the minimum graduate residence credit requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count up to 15 credits of coursework numbered 300 or above taken as a UW–Madison Special student toward the minimum graduate residence credit requirement, and the minimum graduate degree credit requirement; if those credits are from courses numbered 700 or above, they may be counted toward the minimum graduate coursework (50%) requirement. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate a strong understanding of mathematical, scientific, and engineering principles in the field.
2. Demonstrate an ability to formulate, analyze, and solve advanced engineering problems.
3. Demonstrate creative, independent problem solving skills.
4. Apply the latest scientific and technological advancements, advanced techniques, and modern engineering tools to these problems.
5. Recognize and apply principles of ethical and professional conduct.

PEOPLE

Civil and Environmental Engineering Faculty: Professors Likos (chair), Ahn, Bahia, Cramer, Hanna, Harrington, Hurley, Likos, Loheide, McMahon, Noguera, Noyce, Park, Parra-Montesinos, Ran, Russell, Schauer, Wu; Associate Professors Block, Fratta, Ginder-Vogel, Pincheira, Remucal, Tinjum; Assistant Professors Blum, Hampton, Hicks, Prabhakar, Pujara, Qin, Sone, Wang, Wei, Wright, Zhu; M.Eng Program Director Carlson. See also CEE faculty (<http://directory.engr.wisc.edu/cee/faculty/>).

Geological Engineering Faculty: Professors Tinjum (director) (Civil and Environmental Engineering), Feigl (Geoscience), Goodwin (Geoscience), Holloway (Nelson Institute), Likos (Civil and Environmental Engineering), Loheide (Civil and Environmental Engineering), Thurber (Geoscience), Tikoff (Geoscience), Wu (Civil and Environmental Engineering); Associate Professors Cardiff (Geoscience), Fratta (Civil and Environmental Engineering), Ginder-Vogel (Civil and Environmental Engineering); Assistant Professors Hampton (Civil and Environmental Engineering), Hicks (Civil and Environmental Engineering), Sone (Civil and Environmental Engineering), Zoet (Geoscience); Professor of Practice Pakes (Grainger). See also GLE faculty (<https://www.engr.wisc.edu/geological-engineering/people/>).

Environmental Chemistry and Technology: Professors Hurley (director) (Civil and Environmental Engineering), Bertram (Chemistry), Bleam (Soil Science), Harrington (Civil and Environmental Engineering), Karthikeyan (Biological Systems Engineering), McMahon (Civil and Environmental Engineering/Bacteriology), Pedersen (Soil Science), Roden (Geoscience), Root (Chemical and Biological Engineering), Schauer (Civil and Environmental Engineering), Thompson (Biological Systems Engineering); Associate Professors Ginder-Vogel (Civil and Environmental Engineering), Remucal (Civil and Environmental Engineering); Assistant Professors Anantharaman (Bacteriology), Qin, (Civil and Environmental Engineering), Wei (Civil and Environmental Engineering), Whitman (Soil Science). See also ECT Faculty (<https://www.engr.wisc.edu/academics/graduate-academics/environmental-chemistry-technology/>).

GEOLOGICAL ENGINEERING, PH.D.

The graduate program offers training leading to the master of science and the doctor of philosophy degrees in geological engineering. Geological engineering is a rapidly growing field of study that integrates the two disciplines of geology and engineering. Geological engineers help find the best ways to use the earth's resources for solving technical problems while protecting the environment. The need for graduate education in geological engineering has been brought about by modern developments and activities in science and industry that have an impact on earth materials including soil, rock, water, and air. The area of study combines research and application methodologies of geology and of several engineering disciplines to address engineering problems in which the geologic nature of a site or geologic processes constitute major design objectives or constraints.

Emphasis in the program is on development of the student's ability to originate and perform analytical, numerical, and/or laboratory analysis techniques to address new and challenging earth-related problems associated with modern land-use practices, earthen construction, energy and mineral extraction, and environmental pollution control and remediation. The program is expected to be of interest to students in engineering (particularly mining, civil, environmental, and mechanical) and physical sciences (particularly geology, geophysics, and geography). Students select their research topics from such areas as geotechnical and geo-environmental engineering, applied geophysics, hydrology and hydrogeology, numerical modeling of rock masses, remote sensing, rock mechanics, and soil and rock engineering.

Modern facilities include soil and rock mechanics laboratories; drilling equipment and instrumentation for rock and soil mechanics field testing; and soils, geosynthetics, and geo-environmental laboratories. Research assistantships, teaching assistantships, and fellowships are available to qualified applicants either upon admission or one to two semesters after entering the program.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s).**

Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	October 1
Summer Deadline	December 15
GRE (Graduate Record Examinations)	Required.*

English Proficiency Test Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (<https://grad.wisc.edu/apply/requirements/#english-proficiency>).

Other Test(s) (e.g., GMAT, MCAT) n/a

Letters of Recommendation Required 3

* GRE scores will not be required for Fall, Summer or Spring 2021 admissions due to challenges taking the exam during the COVID-19 pandemic.

All applicants must meet the Graduate School's admission requirements (<http://grad.wisc.edu/admissions/requirements/>) to be considered for admission. The application deadline for fall term is December 15; the application deadline for spring term is October 1st.

In addition, applicants must also meet the department's more stringent admission requirements listed below to be considered for admission:

- **Grades:** A minimum undergraduate grade point average (GPA) of 3.00 (on a 4.00 scale) on the equivalent of the last 60 semester hours (approximately two years of work) is required for domestic applicants. A strong academic performance comparable to an average of B or above grades for all undergraduate course work is required for international applicants.
- **Degree:** A bachelor's degree from an ABET-accredited engineering program or from a recognized international institution is preferred or bachelor's degree in physical sciences. Admission to the program requires approval of the admissions committee.
- A complete graduate application is required before an application will be reviewed by the faculty. A complete graduate application contains the following:
 - *Graduate School Application Form and application fee:* Applicants must submit an online application to the UW–Madison Graduate School. See Graduate School Admissions (<http://grad.wisc.edu/admissions/requirements/>) to apply.
 - *Statement of purpose:* A statement of purpose for graduate study must be submitted through an applicant's online UW–Madison Graduate School application. Please limit this important document to 1,000 words.
 - *Letters of recommendation:* Three letters of recommendation must be submitted through an applicant's online UW–Madison Graduate School application.
 - *Transcripts:* Upload the most recent copies of your transcripts to the electronic application, from each institution attended. Study abroad transcripts are not required if coursework is reflected on the degree granting university's transcript. If the application is recommended for admission then we will follow-up with instructions for official transcript submission.
 - *Graduate Record Examination (GRE) Scores:* Graduate Record Examination (GRE) General Test scores are required for most applicants.
 - *English proficiency scores:* Applicants whose native language is not English, or whose undergraduate instruction was not in English, must provide an English proficiency test score. Scores are accepted if they are within two years of the start of the admission term. See Graduate

School Admission Requirements (<http://grad.wisc.edu/admissions/requirements/>) for more information on the English proficiency requirement.

- GRE and TOEFL scores may sent to institution code 1846 from ETS.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. CURRICULAR REQUIREMENTS

Requirements Detail

Minimum 51 credits
Credit Requirement

Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	<p>Doctoral students are required to complete a qualifying exam to demonstrate a sufficient depth and breadth of knowledge in their major to pursue original research, usually after the first year of study. Students must consult with their advisor and/or the exam coordinator in the major area of study for the schedule and specific procedures.</p> <p>Doctoral students are required to take a comprehensive preliminary/oral examination after they have cleared their record of all Incomplete and Progress grades (other than research and thesis). In order to qualify for the preliminary examination, students must have completed 32 credits in residence and their Ph.D minor.</p> <p>Deposit of the doctoral dissertation in the Graduate School is required.</p>
Language Requirements	No language requirements.
Doctoral Minor/Breadth Requirements	<p>All doctoral students are required to complete a minor. Selection of an Option A minor requires the approval of the minor department/program. Selection of an Option B minor requires the approval of the advisor, Mentor Committee, and the GLE Graduate Committee Chair.</p>

REQUIRED COURSES

The academic program for each doctoral student is planned on an individual basis with their advisor.

Basic requirements for a Ph.D. degree in geological engineering include: (1) Ph.D. major coursework; (2) qualifying examination; (3) Ph.D. minor coursework; (4) preliminary examination; (5) dissertation research; and (6) final oral examination (dissertation defense).

The Graduate School minimum Ph.D. credit requirement is 51 credits. 32 credits and the doctoral minor requirement must be completed prior to achieving dissertator status (for students who have earned an M.S. degree, credits accumulated for the M.S. can be applied toward this requirement). Students must register for GLE 900 Seminar once per academic year.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count graduate coursework from other institutions toward the minimum graduate degree credit requirement and the minimum graduate coursework (50%) requirement. No credits from other institutions can be counted toward the minimum graduate residence credit requirement. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

Up to 7 credits numbered 300 or above can be counted toward the minimum graduate degree credit requirement; if those 7 credits are from courses numbered 700 or above, they may be counted toward the minimum graduate coursework (50%) requirement. No credits can be counted toward the minimum graduate residence credit requirement. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count up to 15 credits of coursework numbered 300 or above taken as a UW–Madison Special student toward the minimum graduate residence credit requirement, and the minimum graduate degree credit requirement; if those credits are from courses numbered 700 or above, they may be counted toward the minimum graduate coursework (50%) requirement. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate an ability to synthesize knowledge from a subset of the biological, physical, and social sciences to help frame problems critical to the future of their discipline.
2. Conduct original research.
3. Demonstrate an ability to create new knowledge and communicate it to their peers.
4. Fosters ethical and professional conduct.

CIVIL SOCIETY & COMMUNITY STUDIES

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Community-Engaged Scholarship, Doctoral Minor (p. 333)
- Community-Engaged Scholarship, Graduate/Professional Certificate (p. 334)

COMMUNITY-ENGAGED SCHOLARSHIP, DOCTORAL MINOR

The purpose of this doctoral minor is to train graduate students in the practice of community-engaged scholarship (CES), which is defined as teaching or research that is done in collaboration with community organizations or community partners in equitable, mutually beneficial, respectful relationships.

CES can include:

- community-based (service) learning, in which students work with community organizations or members (typically through direct service, advocacy or policy efforts, or other project-based work) to enhance their academic learning, professional development, and personal development while providing tangible benefits to the community organization and its constituents.
- community-based research, a spectrum of research including community-based participatory research and participatory action research. In this type of research, researchers work with community members to address research questions or issues identified by the community itself. These collaborations typically yield both academic research and useful outcomes or products for community members, who often act as co-researchers. Additionally, the relationships between community partners and researchers are mutually beneficial, equitable, and respectful.
- other community engagement and outreach efforts, including scholarship on CES.

Graduate students in this doctoral minor may focus on one, several, or all facets of CES, depending on their interests. Through this minor, students will feel confident to teach community-based learning courses, conduct community-based research, and/or lead community engagement initiatives.

ADMISSIONS

Students interested in pursuing an Option A (External) Doctoral Minor in Community-Engaged Scholarship should contact the Faculty Director to obtain a Minor Agreement Form. This form must be obtained prior to completing all of the coursework required for the minor.

Doctoral students in the Human Ecology PhD: Civil Society and Community Research program are not eligible to receive this doctoral minor.

REQUIREMENTS

Required Courses

Code	Title	Credits
COUN PSY 601	Best Practices in Community-Engaged Scholarship	2
CSCS 811	Community-Based Research: Theory and Practice	3
or CSCS 570	Community Based Research and Evaluation	
CSCS 999	Independent Study	1

Elective Courses

Code	Title	Credits
CSCS 813	Transformative Evaluation in Practice	3
PUB AFFR/ POLI SCI 871	Public Program Evaluation	3
C&E SOC/SOC 573	Community Organization and Change	3
SOC/C&E SOC/ URB R PL 645	Modern American Communities	3
ELPA/INTER-HE 770	Community, Opportunity, and Justice	3
PUBLHLTH 780	Evidence-Based Decision-Making	3

LEARNING OUTCOMES

1. Apply theory and effective practices in the conduct of community-based research and evaluation.
2. Utilize theories of translational and transformative learning and community change in performing engaged scholarship.
3. Develop mutually beneficial and equitable partnerships with community organizations and members.
4. Design and evaluate community-based programs for education and outreach using collaborative and participatory approaches.
5. Demonstrate application of community-engaged scholarship through a presentation, report or other artifact involving a public/community audience.
6. Cultivate a leadership style and communication skills that engage community partners in scholarship.

COMMUNITY-ENGAGED SCHOLARSHIP, GRADUATE/ PROFESSIONAL CERTIFICATE

The purpose of this certificate program is to train graduate students in the practice of community-engaged scholarship (CES), which is defined as teaching or research that is done in collaboration with community organizations or community partners in equitable, mutually beneficial, respectful relationships.

CES can include:

- community-based (service) learning, in which students work with community organizations or members (typically through direct service, advocacy or policy efforts, or other project-based work) to enhance their academic learning, professional development, and personal development while providing tangible benefits to the community organization and its constituents.
- community-based research, a spectrum of research including community-based participatory research and participatory action research. In this type of research, researchers work with community members to address research questions or issues identified by the community itself. These collaborations typically yield both academic research and useful outcomes or products for community members, who often act as co-researchers. Additionally, the relationships between community partners and researchers are mutually beneficial, equitable, and respectful.
- other community engagement and outreach efforts, including scholarship on CES.

Graduate students in this certificate may focus on one, several, or all facets of CES, depending on their interests. Through this certificate, students will feel confident to teach community-based learning courses, conduct community-based research, and/or lead community engagement initiatives.

ADMISSIONS

Students must be current UW–Madison graduate students in good standing with the graduate school. For assistance in declaring the certificate through the eDeclaration process, contact the SoHE Graduate Program Coordinator.

REQUIREMENTS

Required Courses

Code	Title	Credits
COUN PSY 601	Best Practices in Community-Engaged Scholarship	2
CSCS 811	Community-Based Research: Theory and Practice	3

or CSCS 570	Community Based Research and Evaluation	
CSCS 999	Independent Study	1

Elective Courses

Code	Title	Credits
CSCS 813	Transformative Evaluation in Practice	3
PUB AFFR/ POLI SCI 871	Public Program Evaluation	3
C&E SOC/SOC 573	Community Organization and Change	3
SOC/C&E SOC/ URB R PL 645	Modern American Communities	3
ELPA/INTER-HE 770	Community, Opportunity, and Justice	3
PUBLHLTH 780	Evidence-Based Decision-Making	3

LEARNING OUTCOMES

1. Apply theory and effective practices in the conduct of community-based research and evaluation.
2. Utilize theories of translational and transformative learning and community change in performing engaged scholarship.
3. Develop mutually beneficial and equitable partnerships with community organizations and members.
4. Design and evaluate community-based programs for education and outreach using collaborative and participatory approaches.
5. Demonstrate application of community-engaged scholarship through a presentation, report or other artifact involving a public/community audience.
6. Cultivate a leadership style and communication skills that engage community partners in scholarship.

CLASSICAL AND ANCIENT NEAR EASTERN STUDIES

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Classical and Ancient Near Eastern Studies, M.A. (p. 335)
- Classical and Ancient Near Eastern Studies, Ph.D. (p. 349)
- Classics, Doctoral Minor (p. 364)
- Greek, Doctoral Minor (p. 364)
- Hebrew Bible, Doctoral Minor (p. 364)
- Latin, Doctoral Minor (p. 365)

PEOPLE

Please visit the Classical and Ancient Near Eastern Studies website (<https://canes.wisc.edu/people/faculty-and-staff/>) for a complete list of faculty, instructional, and academic staff.

CLASSICAL AND ANCIENT NEAR EASTERN STUDIES, M.A.

Soon after the founding of the University of Wisconsin in 1848, the department was created as one of the first academic units at the university. The Department of Classical and Ancient Near Eastern Studies (CANES) has enjoyed a long tradition of excellence in **philological scholarship, literary criticism, archaeology, and ancient history**. At the graduate level, the department offers the master of arts and doctor of philosophy in classical and ancient near eastern studies. Students may follow one of two courses of study, **classical languages and literatures, or Hebrew bible**.

The **primary goal** of the program is to familiarize students with the **core linguistic, historical, and philological** aspects of classical and ancient near eastern studies. Students also learn to **conduct original research** in such varied areas as *gender studies, literary theory, translation studies, and classical reception* under the guidance of established scholars in these areas.

In addition to specified coursework, students participate in **directed readings** with individual faculty members in their areas of specialization and gain valuable professional experience **teaching** in courses on the languages, literature, and culture of the ancient world. Additional work may be done in allied fields such as *archaeology, art history, linguistics, comparative literature, history, philosophy, and political science*. Affiliated faculty in many of these fields regularly offer courses, supervise theses and dissertations, and participate in department activities.

A wide range of **professional networks** provides graduate students with enhanced opportunities for education and career development. In addition to faculty connections to scholars and institutions in their fields of study, the department has formal affiliations with the Society for Classical Studies, the Classical Association of the Middle West and South, the American School of Classical Studies in Athens, the Society of Biblical Literature, and the American Schools of Oriental Research.

The Pillinger Library and Mansoor Reading Room, both located within the department, provide convenient access to a large number of texts, while the larger Greek and Latin Reading Room in the Memorial Library contains an extensive, noncirculating research collection of texts and commentaries. The Memorial Library maintains an excellent research collection of books and periodicals in classics and Hebrew bible, with many of its resources available online.

ADMISSIONS

Students apply to the Master of Arts in Classical and Ancient Near Eastern Studies through one of the named options:

- Classics (p. 339)
- Hebrew Bible (p. 344)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

The Department of Classical and Ancient Near Eastern Studies works to support all graduate students in good standing who continue to make satisfactory progress toward their degree. The department makes every attempt to distribute its resources as fairly as possible outside of guaranteed support offers. Thus, it is the department's intention to give the maximum number of graduate students in the Classics and Hebrew Bible programs an opportunity to hold teaching assistantships (TA) consistent with the department's needs and criteria. It should be remembered that teaching funds are variable, depending on budget and class enrollments. All students are encouraged to pursue opportunities for support outside the department at all stages of their study. Details can be found below.

TEACHING ASSISTANTSHIPS

Criteria: Teaching assistant appointments will be offered to eligible graduate students on the basis of the following criteria: contractual obligations made to the student, satisfactory progress towards degree, satisfactory student evaluations and faculty teaching observations, departmental judgment of the student's qualification to teach scheduled courses, and availability of budgeted positions.

Eligibility: To be eligible to become a teaching assistant, graduate students should ordinarily meet the following requirements: students should be enrolled in the Classics or Hebrew Bible graduate program (exceptions will be made due to lack of qualified or available students), students should be making satisfactory progress towards an advanced degree, and students should not have exceeded the limited allotment of teaching within the department (five years after the B.A. or three years after the M.A.).

Students who are non-native speakers of English must complete the SPEAK test for assessing English proficiency. The SPEAK test is the institutional version of the Test of Spoken English (TSE), which is administered by the Educational Testing Service. The SPEAK test

measures oral proficiency and is frequently used to evaluate the spoken English of international TAs. The test is available only to students holding or under consideration for a teaching assistantship. For information and scheduled tests, please consult the English as a Second Language website (<http://www.english.wisc.edu/esl/>). Students must achieve a score of 45 or higher before being placed in the classroom.

Class Assignments: Class assignments are made by the department chair in consultation with department faculty with consideration of the following items in order of importance: previous positive assessment of teaching ability, fair rotation of teaching among qualified graduate students, background and experience of the TA in course materials, the need for graduate students to have a variety of teaching experiences, the preference of the TA, and the preference of the instructor.

Training Program: All TAs are required to attend the department's annual Graduate Student Orientation and Teaching Assistant Workshop. Subjects discussed in the department's annual workshop include preparation, organization, sensitivity to ethnic and gender issues, and pedagogical methods. Experienced TAs are encouraged to share successful teaching methods and ideas with the group in an open discussion. Information is also provided on such university resources as the Writing Center.

New TAs are also required to attend the L&S Teaching Assistant Workshop and the Graduate Assistants Equity Workshop within the first two semesters of teaching appointments. In addition, for TAs with a first-time Comm B appointment, the Writing Across Campus Comm B Training workshop will also be required. TAs are also encouraged to take advantage of the writing workshops offered by the Writing Center at the start of the academic year and throughout each semester.

For each course, the TA must meet with the professor to outline the goals and objectives of the course, the exam and grading procedures, the syllabus and assigned readings, and specific pedagogical methods appropriate for the course. The syllabus of each course should include the name, office number, and phone number, of the supervising professor, the TA, and the current department chair. Should there be concerns about the course that the TA feels unable to address, he or she can refer students to the professor in charge of the course for initial consultation. Regular meetings between the TA and the professor are held throughout the semester to discuss the progress and success of the course.

Review: Within the first few weeks of class, the supervising professor will observe the TA, with new TAs being a priority. After the visit, the professor will discuss the strengths and weaknesses of the class and put forward a set of recommendations for further teaching development. A written evaluation, to be discussed in person, is then provided to the department chair and will be placed in the student's file. If the chair deems necessary, a second faculty member will make an additional classroom observation with a written evaluation. At the end of each semester or course, student evaluations for the TA classes are to be completed and kept on file in the department for future reference.

Workload/Percentage of Appointment: Teaching assistantship appointments are percentage based. All CANES appointments are 50% which corresponds to the total expected hours of work throughout the course of the semester. Each TA will receive a breakdown of expected workload with their official appointment letter. The TA is expected to review and discuss the workload with the supervising faculty member of the course. By signing and returning the workload to the department administrator, the TA is accepting his or her appointment for the semester.

Stipend & Benefits: Please review the Graduate School's resource webpage, Graduate Assistantships (<https://grad.wisc.edu/funding/graduate-assistantships/>), for details.

DEPARTMENTAL TRAVEL SUPPORT

Eligibility Guidelines: The CANES department can provide some funding for Classics students who are presenting a paper addressing a topic in the classics field or interviewing for hire. Applicable conferences include the ASA and CAMWS, but other conferences such as graduate student colloquia will also be considered. First time recipients of this award may be asked to present a departmental Pillinger Talk in preparation for their conference presentation.

All applications for department travel must be supported by satisfactory progress in the student's program. Graduate students may submit one request for travel support to the department per academic year. Every attempt will be made to fund student travel up to a maximum of \$750. Students should recognize that funding is based on availability. The Fellowships Committee will assess the validity of all applications and determine the amount of each individual award if granted.

Before requesting travel funds from the department, graduate students should conduct due diligence to learn about and apply for travel awards offered by other units (Graduate School, ASM, etc.) at UW–Madison and by sponsors of the event for which travel funds are requested. Evidence of awards applied for and/or received should accompany all requests for department travel funding. Being competitive for awards outside the department is a matter of professional development.

Application: Having applied for travel awards and supplements from external sources, students should then petition the CANES department for travel support. All petitions are considered on a case by case basis and evaluated on the basis of academic merit and satisfactory progress in the graduate program.

Petitions should take form of a letter addressed to the chair of the graduate Fellowships Committee detailing the title of the talk, proof of acceptance, the date and place of the conference, and any other relevant information. All petitions should include a budget and should disclose details of awards or denial of funding from other sources.

Awards from other sources will not necessarily disqualify students from classics department funding. The applications will be read and voted on by the committee which will attempt to respond to requests in a timely fashion. The student will be notified in writing by the chair of the committee normally within a few weeks of the submission of application.

Since applications will be read on a rolling basis and funds are usually more plentiful at the beginning of the year, students are encouraged to apply early.

SCHOLARSHIPS & FELLOWSHIPS

Adams-Lemoine Dissertation Fellowship: This fellowship is awarded in memory of C.K. Adams, Professor of Latin & History and University of Wisconsin President from 1892 to 1902, and Fannie Lemoine, Professor of Latin from 1906 to 1923. The Adams-Lemoine Fellowship is utilized for student recruitment or completion of degree. It provides tuition remission, a stipend, and benefits in accordance with published University award amounts. Award periods vary and funding may be available for one or two semesters of study.

Moses S. Slaughter Fellowship: This fellowship is awarded in memory of Moses S. Slaughter, University of Wisconsin Professor of Latin from

1906 to 1923. The Slaughter Fellowship is given to a current or incoming graduate student who maintains **Wisconsin residency**. It provides tuition remission, a stipend, and benefits in accordance with published university award amounts and may supply funding for one or two semesters of study.

Frank R. Kramer Summer Fellowship: A predoctoral summer research grant awarded in memory of Dr. Frank R. Kramer, who earned a B.A. in Humanities in 1929, an M.A. in Greek & Latin in 1931, and a Ph.D. in Classics in 1936. The Kramer Fellowship is meant to enable graduate students in their second year of study or above (pre-dissertation) to receive support for research connected to the advancement of their studies in Classics. Calls for applications typically come out in December and recipients are notified in late January. Award totals range between \$750-\$2,000.

Hieronimus Prize for Greek Composition: This monetary award is given in memory of Professor John Paul Hieronimus (Ph.D. '31). Entrants are asked to translate a selected passage into ancient Greek or compose an original piece in ancient Greek addressing a specific topic. Awards are given in late spring.

Pillinger Prize for Latin Composition: This monetary award is given in memory of Assistant Professor Hugh Edward Pillinger (1965–70). Entrants are asked to translate a selected passage into Latin or compose an original piece in Latin addressing a specific topic. Awards are given in late spring.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	See Named Option for policy information.
Minimum Residence Credit Requirement	18 credits
Minimum Graduate Coursework Requirement	See Named Option for policy information.
Overall Graduate GPA Requirement	See Named Option for policy information.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	See Named Option for policy information.
Language Requirements	See Named Option for policy information.

REQUIRED COURSES

Select a Named Option (p. 338) for courses required.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Arts in Classical and Ancient Near Eastern Studies must select one of the following named options:

View as listView as grid

- CLASSICAL AND ANCIENT NEAR EASTERN STUDIES: CLASSICS, M.A. (P. 338)
- CLASSICAL AND ANCIENT NEAR EASTERN STUDIES: HEBREW BIBLE, M.A. (P. 344)

POLICIES

Students should refer to one of the named options for policy information:

- Classics (p. 339)
- Hebrew Bible (p. 344)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates, critiques, and applies the philological and theoretical approaches established in the field of Classics or Hebrew Bible.
2. Identifies appropriate sources and assembles evidence relevant to questions and challenges in Classics or Hebrew Bible.
3. Demonstrates understanding of Classical or Hebrew Bible literature in a historical and social context.
4. Selects and utilizes the most appropriate methodologies and practices.
5. Evaluates and synthesizes information pertaining to questions and challenges.
6. Communicates complex ideas in a clear and understandable manner.
7. Recognizes and applied principles of ethical and professional conduct.

PEOPLE

Please visit the Classical and Ancient Near Eastern Studies website (<https://canes.wisc.edu/people/faculty-and-staff/>) for a complete list of faculty, instructional, and academic staff.

CLASSICAL AND ANCIENT NEAR EASTERN STUDIES: CLASSICS, M.A.

This is a named option within the Classical and Ancient Near Eastern Studies M.A. (p. 335)

Soon after the founding of the University of Wisconsin in 1848, the department was created as one of the first academic units at the university. The Department of Classical and Ancient Near Eastern Studies (CANES) has enjoyed a long tradition of excellence in **philological scholarship, literary criticism, archaeology, and ancient history**. At the graduate level, the department offers the master of arts and doctor of philosophy in classical and ancient near eastern studies. Students may

follow one of two courses of study, **classical languages and literatures**, or **Hebrew bible**.

The **primary goal** of the program is to familiarize students with the **core linguistic, historical, and philological** aspects of classical and ancient near eastern studies. Students also learn to **conduct original research** in such varied areas as *gender studies, literary theory, translation studies, and classical reception* under the guidance of established scholars in these areas.

In addition to specified coursework, students participate in **directed readings** with individual faculty members in their areas of specialization and gain valuable professional experience **teaching** in courses on the languages, literature, and culture of the ancient world. Additional work may be done in allied fields such as *archaeology, art history, linguistics, comparative literature, history, philosophy, and political science*. Affiliated faculty in many of these fields regularly offer courses, supervise theses and dissertations, and participate in department activities.

A wide range of **professional networks** provides graduate students with enhanced opportunities for education and career development. In addition to faculty connections to scholars and institutions in their fields of study, the department has formal affiliations with the Society for Classical Studies, the Classical Association of the Middle West and South, the American School of Classical Studies in Athens, the Society of Biblical Literature, and the American Schools of Oriental Research.

The Pillinger Library and Mansoor Reading Room, both located within the department, provide convenient access to a large number of texts, while the larger Greek and Latin Reading Room in the Memorial Library contains an extensive, noncirculating research collection of texts and commentaries. The Memorial Library maintains an excellent research collection of books and periodicals in classics and Hebrew bible, with many of its resources available online.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 5
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).

Other Test(s) (e.g., GMAT, MCAT)	n/a
----------------------------------	-----

Letters of Recommendation Required	3
------------------------------------	---

Thank you for your interest in the graduate program in Classical and Ancient Near Eastern Studies! Our Department offers both an MA program and a PhD program.

Applicants for graduate study may enter the program with either a bachelor's or master's degree. For the Classics option, candidates are expected to have covered at least the equivalent of an undergraduate major in Classics, which consists of at least three years of both Greek and Latin. Candidates whose preparation falls short of the minimum requirements may be admitted with deficiencies at the discretion of the Department, but will be required to do additional work within the first year of the program. Applications are evaluated on the basis of previous academic record, Graduate Record Exam (GRE) scores, letters of recommendation, the writing sample and a personal statement.

All applicants to the program must apply online by January 5 (<https://grad.wisc.edu/apply/>). Only select the MA application if you plan on a terminal MA at UW-Madison—all other applicants select the PhD application, even if you have not yet received a master's degree. *Please note:* the \$75 application fee must be paid at the time of application (international students will be charged an additional \$6 for processing).

As part of the online application process, you will be asked supplemental questions regarding your level of language preparation and expected to upload the information listed below:

1. Writing sample of scholarly work no more than 25 pages (optional).
2. Transcripts or academic records from each institution attended. You may upload *unofficial* copies for department review. International academic records must be in the original language accompanied by an official English translation. *Please note:* official, hard copy transcripts will only be requested by the Graduate School upon Department recommendation for admission. Further information will be provided upon department admission.
3. Official Graduate Record Examination (GRE) (<http://www.gre.org/>) score report sent from the Educational Testing Service (ETS). Use institution code 1846 to route your results to the UW Graduate School. Once results are received, they will populate on your online application.
4. TOEFL or MELAB (<https://grad.wisc.edu/admissions/requirements/>) for all international applicants.
5. Statement of purpose (citing your reasons for graduate study).
6. Curriculum vitae listing language experience, awards, honors, etc.
7. Three letters of reference. You must submit your *requests* to all three of your references as part of the online application. Recommenders will receive a notice via email and will submit their letters accordingly.

Please do not hesitate to contact us at info@canes.wisc.edu should you have any questions about the application process.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

The Department of Classical and Ancient Near Eastern Studies works to support all graduate students in good standing who continue to make satisfactory progress toward their degree. The department makes every attempt to distribute its resources as fairly as possible outside of guaranteed support offers. Thus, it is the department's intention to give the maximum number of graduate students in the Classics and Hebrew Bible programs an opportunity to hold teaching assistantships (TA) consistent with the department's needs and criteria. It should be remembered that teaching funds are variable, depending on budget and class enrollments. All students are encouraged to pursue opportunities for support outside the department at all stages of their study. Details can be found below.

TEACHING ASSISTANTSHIPS

Criteria: Teaching assistant appointments will be offered to eligible graduate students on the basis of the following criteria: contractual obligations made to the student, satisfactory progress towards degree, satisfactory student evaluations and faculty teaching observations, departmental judgment of the student's qualification to teach scheduled courses, and availability of budgeted positions.

Eligibility: To be eligible to become a teaching assistant, graduate students should ordinarily meet the following requirements: students should be enrolled in the Classics or Hebrew Bible graduate program (exceptions will be made due to lack of qualified or available students), students should be making satisfactory progress towards an advanced degree, and students should not have exceeded the limited allotment of teaching within the department (five years after the B.A. or three years after the M.A.).

Students who are non-native speakers of English must complete the SPEAK test for assessing English proficiency. The SPEAK test is the institutional version of the Test of Spoken English (TSE), which is administered by the Educational Testing Service. The SPEAK test measures oral proficiency and is frequently used to evaluate the spoken English of international TAs. The test is available only to students holding or under consideration for a teaching assistantship. For information and scheduled tests, please consult the English as a Second Language website (<http://www.english.wisc.edu/esl/>). Students must achieve a score of 45 or higher before being placed in the classroom.

Class Assignments: Class assignments are made by the department chair in consultation with department faculty with consideration of the following items in order of importance: previous positive assessment of teaching ability, fair rotation of teaching among qualified graduate students, background and experience of the TA in course materials, the need for graduate students to have a variety of teaching experiences, the preference of the TA, and the preference of the instructor.

Training Program: All TAs are required to attend the department's annual Graduate Student Orientation and Teaching Assistant Workshop. Subjects discussed in the department's annual workshop include preparation, organization, sensitivity to ethnic and gender issues, and pedagogical methods. Experienced TAs are encouraged to share successful teaching methods and ideas with the group in an open discussion. Information is also provided on such university resources as the Writing Center.

New TAs are also required to attend the L&S Teaching Assistant Workshop and the Graduate Assistants Equity Workshop within the first two semesters of teaching appointments. In addition, for TAs with a first-time Comm B appointment, the Writing Across Campus Comm B Training workshop will also be required. TAs are also encouraged to take advantage of the writing workshops offered by the Writing Center at the start of the academic year and throughout each semester.

For each course, the TA must meet with the professor to outline the goals and objectives of the course, the exam and grading procedures, the syllabus and assigned readings, and specific pedagogical methods appropriate for the course. The syllabus of each course should include the name, office number, and phone number, of the supervising professor, the TA, and the current department chair. Should there be concerns about the course that the TA feels unable to address, he or she can refer students to the professor in charge of the course for initial consultation. Regular meetings between the TA and the professor are held throughout the semester to discuss the progress and success of the course.

Review: Within the first few weeks of class, the supervising professor will observe the TA, with new TAs being a priority. After the visit, the professor will discuss the strengths and weaknesses of the class and put forward a set of recommendations for further teaching development. A written evaluation, to be discussed in person, is then provided to the department chair and will be placed in the student's file. If the chair deems necessary, a second faculty member will make an additional classroom observation with a written evaluation. At the end of each semester or course, student evaluations for the TA classes are to be completed and kept on file in the department for future reference.

Workload/Percentage of Appointment: Teaching assistantship appointments are percentage based. All CANES appointments are 50% which corresponds to the total expected hours of work throughout the course of the semester. Each TA will receive a breakdown of expected workload with their official appointment letter. The TA is expected to review and discuss the workload with the supervising faculty member of the course. By signing and returning the workload to the department administrator, the TA is accepting his or her appointment for the semester.

Stipend & Benefits: Please review the Graduate School's resource webpage, Graduate Assistantships (<https://grad.wisc.edu/funding/graduate-assistantships/>), for details.

DEPARTMENTAL TRAVEL SUPPORT

Eligibility Guidelines: The CANES department can provide some funding for Classics students who are presenting a paper addressing a topic in the classics field or interviewing for hire. Applicable conferences include the ASA and CAMWS, but other conferences such as graduate student colloquia will also be considered. First time recipients of this award may be asked to present a departmental Pillinger Talk in preparation for their conference presentation.

All applications for department travel must be supported by satisfactory progress in the student's program. Graduate students may submit one request for travel support to the department per academic year. Every attempt will be made to fund student travel up to a maximum of \$750. Students should recognize that funding is based on availability. The Fellowships Committee will assess the validity of all applications and determine the amount of each individual award if granted.

Before requesting travel funds from the department, graduate students should conduct due diligence to learn about and apply for travel awards offered by other units (Graduate School, ASM, etc.) at UW–Madison and by sponsors of the event for which travel funds are requested. Evidence of awards applied for and/or received should accompany all requests for department travel funding. Being competitive for awards outside the department is a matter of professional development.

Application: Having applied for travel awards and supplements from external sources, students should then petition the CANES department for travel support. All petitions are considered on a case by case basis and evaluated on the basis of academic merit and satisfactory progress in the graduate program.

Petitions should take form of a letter addressed to the chair of the graduate Fellowships Committee detailing the title of the talk, proof of acceptance, the date and place of the conference, and any other relevant information. All petitions should include a budget and should disclose details of awards or denial of funding from other sources.

Awards from other sources will not necessarily disqualify students from classics department funding. The applications will be read and voted on by the committee which will attempt to respond to requests in a timely fashion. The student will be notified in writing by the chair of the committee normally within a few weeks of the submission of application.

Since applications will be read on a rolling basis and funds are usually more plentiful at the beginning of the year, students are encouraged to apply early.

SCHOLARSHIPS & FELLOWSHIPS

Adams-Lemoine Dissertation Fellowship: This fellowship is awarded in memory of C.K. Adams, Professor of Latin & History and University of Wisconsin President from 1892 to 1902, and Fannie Lemoine, Professor of Latin from 1906 to 1923. The Adams-Lemoine Fellowship is utilized for student recruitment or completion of degree. It provides tuition remission, a stipend, and benefits in accordance with published University award amounts. Award periods vary and funding may be available for one or two semesters of study.

Moses S. Slaughter Fellowship: This fellowship is awarded in memory of Moses S. Slaughter, University of Wisconsin Professor of Latin from 1906 to 1923. The Slaughter Fellowship is given to a current or incoming graduate student who maintains **Wisconsin residency**. It provides tuition remission, a stipend, and benefits in accordance with published university award amounts and may supply funding for one or two semesters of study.

Frank R. Kramer Summer Fellowship: A predoctoral summer research grant awarded in memory of Dr. Frank R. Kramer, who earned a B.A. in Humanities in 1929, an M.A. in Greek & Latin in 1931, and a Ph.D. in Classics in 1936. The Kramer Fellowship is meant to enable graduate students in their second year of study or above (pre-dissertation) to receive support for research connected to the advancement of their studies in Classics. Calls for applications typically come out in December

and recipients are notified in late January. Award totals range between \$750-\$2,000.

Hieronimus Prize for Greek Composition: This monetary award is given in memory of Professor John Paul Hieronimus (Ph.D. '31). Entrants are asked to translate a selected passage into ancient Greek or compose an original piece in ancient Greek addressing a specific topic. Awards are given in late spring.

Pillinger Prize for Latin Composition: This monetary award is given in memory of Assistant Professor Hugh Edward Pillinger (1965–70). Entrants are asked to translate a selected passage into Latin or compose an original piece in Latin addressing a specific topic. Awards are given in late spring.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	33 credits
Minimum Residence Credit Requirement	18 credits
Minimum Graduate Coursework Requirement	27 out of 33 total credits must be in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide (https://registrar.wisc.edu/course-guide/)).
Overall Graduate GPA Requirement	3.25 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	Two ancient language examinations and one modern language examination (or equivalent). Thesis is required for students continuing to PhD.
Language Requirements	• General Greek language/literature examination • General Latin language/literature examination • Modern language examination in German or French and Italian, or equivalent coursework (e.g., German, French, or Italian for reading knowledge)

REQUIRED COURSES

27 credits out of 33 total credits in GREEK (<http://guide.wisc.edu/courses/greek/>) and LATIN (<http://guide.wisc.edu/courses/latin/>) must be completed in graduate-level coursework.

- 6 credits must be completed in graduate seminars, including 3 credits in pro-seminar (CLASSICS 900 or equivalent as approved by Director of Graduate Studies)

Code	Title	Credits
CLASSICS 900	Advanced Seminar in Theory and Methodology	3
CLASSICS 970	Classical Literature and Culture	3-4
GREEK 910	Seminar-Poetry	3
GREEK 920	Seminar-Drama	3
GREEK 930	Seminar-History	3
LATIN 910	Seminar-Poetry	3
LATIN 950	Seminar-Oratory	3

2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

ADVISOR / COMMITTEE

Candidates form a provisional thesis committee no later than the first week of the semester in which they plan to graduate. The M.A. committee should consist of the thesis advisor (committee chair) and two other faculty members from CANES or affiliated with CANES.

Candidates meet with the thesis committee by the end of the first month in the semester in which they plan to graduate. In order to evaluate the viability of the thesis topic, candidates should submit an abstract of one to two pages to the committee.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

The thesis, written in consultation with the thesis advisor, must be completed no later than two semesters after work begins.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departamental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate course work from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of course work numbered 300 or above taken as a UW–Madison University Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements. UW–Madison coursework taken as a University Special student would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

1. Good standing (progressing according to standards; any funding guarantee remains in place).

Students should contact the department chair or program director with questions about grievances.

OTHER

All applications received by January 5 are eligible for fellowship, scholarship, and graduate assistantship opportunities. For applications received after the deadline, applicants will not be eligible for university fellowships or scholarships, although they may be eligible for department funds such as teaching assistantships, project assistantships, research assistantships, or department fellowship.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Please visit the Classical and Ancient Near Eastern Studies website (<https://canes.wisc.edu/people/faculty-and-staff/>) for a complete list of faculty, instructional, and academic staff.

CLASSICAL AND ANCIENT NEAR EASTERN STUDIES: HEBREW BIBLE, M.A.

Admissions to the Classical and Ancient Near Eastern Studies: Hebrew Bible, M.A. have been suspended as of spring 2019. If you have any questions, please contact the department (canes@wisc.edu).

This is a named option within the Classical and Ancient Near Eastern Studies M.A. (p. 335)

Soon after the founding of the University of Wisconsin in 1848, the department was created as one of the first academic units at the university. The Department of Classical and Ancient Near Eastern Studies (CANES) has enjoyed a long tradition of excellence in **philological scholarship, literary criticism, archaeology, and ancient history**. At the graduate level, the department offers the master of arts and doctor of philosophy in classical and ancient near eastern studies. Students may follow one of two courses of study, **classical languages and literatures, or Hebrew bible**.

The **primary goal** of the program is to familiarize students with the **core linguistic, historical, and philological** aspects of classical and ancient near eastern studies. Students also learn to **conduct original research** in such varied areas as *gender studies, literary theory, translation studies, and classical reception* under the guidance of established scholars in these areas.

In addition to specified coursework, students participate in **directed readings** with individual faculty members in their areas of specialization and gain valuable professional experience **teaching** in courses on the languages, literature, and culture of the ancient world. Additional work may be done in allied fields such as *archaeology, art history, linguistics, comparative literature, history, philosophy, and political science*. Affiliated

faculty in many of these fields regularly offer courses, supervise theses and dissertations, and participate in department activities.

A wide range of **professional networks** provides graduate students with enhanced opportunities for education and career development. In addition to faculty connections to scholars and institutions in their fields of study, the department has formal affiliations with the Society for Classical Studies, the Classical Association of the Middle West and South, the American School of Classical Studies in Athens, the Society of Biblical Literature, and the American Schools of Oriental Research.

The Pillinger Library and Mansoor Reading Room, both located within the department, provide convenient access to a large number of texts, while the larger Greek and Latin Reading Room in the Memorial Library contains an extensive, noncirculating research collection of texts and commentaries. The Memorial Library maintains an excellent research collection of books and periodicals in classics and Hebrew bible, with many of its resources available online.

ADMISSIONS

Admissions to the Classical and Ancient Near Eastern Studies: Hebrew Bible, M.A. have been suspended as of spring 2019. If you have any questions, please contact the department (canes@wisc.edu).

Applicants for graduate study may enter the program with either a B.A. or M.A. (M.A., M.Div., Th.M.) degree. For the *Classics* option, candidates are expected to have covered at least the equivalent of an undergraduate major in Classics, which consists of at least three years of both Greek and Latin. For the option in *Hebrew Bible* program, candidates are expected to have taken at least two years of Biblical Hebrew and one year of Greek. Candidates whose preparation falls short of the minimum requirements may be admitted with deficiencies at the discretion of the department, but will be required to do additional work within the first year of the program.

Applications are evaluated on the basis of previous academic record, Graduate Record Exam (GRE) scores, letters of recommendation, the writing sample and a personal statement.

All applicants to the program must apply on-line (<https://apply.grad.wisc.edu/Account/Login/?ReturnUrl=%2f>) by January 5. **ONLY select the M.A. application if you plan on a terminal M.A. at UW–Madison; all other applicants select the Ph.D. application even if you have not yet received an M.A.** *Please note:* the \$75 application fee must be paid at the time of application (international students will be charged an additional \$6 for processing).

As part of the online application process, you will be asked supplemental questions regarding your level of language preparation and expected to **upload** the information listed below:

1. Writing sample of scholarly work no more than 25 pages (optional).
2. Transcripts or academic records from **each** institution attended. You may upload *unofficial* copies for department review. International academic records must be in the original language accompanied by an official English translation. *Please note:* official transcripts will only be requested by the Graduate School upon department recommendation for admission. Further information will be provided upon admission.
3. Official Graduate Record Examination (GRE) (<http://www.gre.org/>) score report sent from the Educational Testing Service (ETS). **Use institution code 1846** to route your results to the UW Grad

School. Once results are received, they will populate in your online application.

4. TOEFL or MELAB (<https://grad.wisc.edu/admissions/requirements/>) for all international applicants.
5. Statement of purpose (citing your reasons for graduate study).
6. Curriculum vitae listing language experience, awards, honors, etc.
7. Three letters of reference. You must submit your *requests* to all three of your references as part of the online application. Recommenders will receive a notice via email and will submit their letters accordingly.

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

The Department of Classical and Ancient Near Eastern Studies works to support all graduate students in good standing who continue to make satisfactory progress toward their degree. The department makes every attempt to distribute its resources as fairly as possible outside of guaranteed support offers. Thus, it is the department's intention to give the maximum number of graduate students in the Classics and Hebrew Bible programs an opportunity to hold teaching assistantships (TA) consistent with the department's needs and criteria. It should be remembered that teaching funds are variable, depending on budget and class enrollments. All students are encouraged to pursue opportunities for support outside the department at all stages of their study. Details can be found below.

TEACHING ASSISTANTSHIPS

Criteria: Teaching assistant appointments will be offered to eligible graduate students on the basis of the following criteria: contractual obligations made to the student, satisfactory progress towards degree, satisfactory student evaluations and faculty teaching observations, departmental judgment of the student's qualification to teach scheduled courses, and availability of budgeted positions.

Eligibility: To be eligible to become a teaching assistant, graduate students should ordinarily meet the following requirements: students should be enrolled in the Classics or Hebrew Bible graduate program (exceptions will be made due to lack of qualified or available students), students should be making satisfactory progress towards an advanced degree, and students should not have exceeded the limited allotment of

teaching within the department (five years after the B.A. or three years after the M.A.).

Students who are non-native speakers of English must complete the SPEAK test for assessing English proficiency. The SPEAK test is the institutional version of the Test of Spoken English (TSE), which is administered by the Educational Testing Service. The SPEAK test measures oral proficiency and is frequently used to evaluate the spoken English of international TAs. The test is available only to students holding or under consideration for a teaching assistantship. For information and scheduled tests, please consult the English as a Second Language website (<http://www.english.wisc.edu/esl/>). Students must achieve a score of 45 or higher before being placed in the classroom.

Class Assignments: Class assignments are made by the department chair in consultation with department faculty with consideration of the following items in order of importance: previous positive assessment of teaching ability, fair rotation of teaching among qualified graduate students, background and experience of the TA in course materials, the need for graduate students to have a variety of teaching experiences, the preference of the TA, and the preference of the instructor.

Training Program: All TAs are required to attend the department's annual Graduate Student Orientation and Teaching Assistant Workshop. Subjects discussed in the department's annual workshop include preparation, organization, sensitivity to ethnic and gender issues, and pedagogical methods. Experienced TAs are encouraged to share successful teaching methods and ideas with the group in an open discussion. Information is also provided on such university resources as the Writing Center.

New TAs are also required to attend the L&S Teaching Assistant Workshop and the Graduate Assistants Equity Workshop within the first two semesters of teaching appointments. In addition, for TAs with a first-time Comm B appointment, the Writing Across Campus Comm B Training workshop will also be required. TAs are also encouraged to take advantage of the writing workshops offered by the Writing Center at the start of the academic year and throughout each semester.

For each course, the TA must meet with the professor to outline the goals and objectives of the course, the exam and grading procedures, the syllabus and assigned readings, and specific pedagogical methods appropriate for the course. The syllabus of each course should include the name, office number, and phone number, of the supervising professor, the TA, and the current department chair. Should there be concerns about the course that the TA feels unable to address, he or she can refer students to the professor in charge of the course for initial consultation. Regular meetings between the TA and the professor are held throughout the semester to discuss the progress and success of the course.

Review: Within the first few weeks of class, the supervising professor will observe the TA, with new TAs being a priority. After the visit, the professor will discuss the strengths and weaknesses of the class and put forward a set of recommendations for further teaching development. A written evaluation, to be discussed in person, is then provided to the department chair and will be placed in the student's file. If the chair deems necessary, a second faculty member will make an additional classroom observation with a written evaluation. At the end of each semester or course, student evaluations for the TA classes are to be completed and kept on file in the department for future reference.

Workload/Percentage of Appointment: Teaching assistantship appointments are percentage based. All CANES appointments are 50% which corresponds to the total expected hours of work throughout the

course of the semester. Each TA will receive a breakdown of expected workload with their official appointment letter. The TA is expected to review and discuss the workload with the supervising faculty member of the course. By signing and returning the workload to the department administrator, the TA is accepting his or her appointment for the semester.

Stipend & Benefits: Please review the Graduate School's resource webpage, Graduate Assistantships (<https://grad.wisc.edu/funding/graduate-assistantships/>), for details.

DEPARTMENTAL TRAVEL SUPPORT

Eligibility Guidelines: The CANES department can provide some funding for Classics students who are presenting a paper addressing a topic in the classics field or interviewing for hire. Applicable conferences include the ASA and CAMWS, but other conferences such as graduate student colloquia will also be considered. First time recipients of this award may be asked to present a departmental Pillinger Talk in preparation for their conference presentation.

All applications for department travel must be supported by satisfactory progress in the student's program. Graduate students may submit one request for travel support to the department per academic year. Every attempt will be made to fund student travel up to a maximum of \$750. Students should recognize that funding is based on availability. The Fellowships Committee will assess the validity of all applications and determine the amount of each individual award if granted.

Before requesting travel funds from the department, graduate students should conduct due diligence to learn about and apply for travel awards offered by other units (Graduate School, ASM, etc.) at UW–Madison and by sponsors of the event for which travel funds are requested. Evidence of awards applied for and/or received should accompany all requests for department travel funding. Being competitive for awards outside the department is a matter of professional development.

Application: Having applied for travel awards and supplements from external sources, students should then petition the CANES department for travel support. All petitions are considered on a case by case basis and evaluated on the basis of academic merit and satisfactory progress in the graduate program.

Petitions should take form of a letter addressed to the chair of the graduate Fellowships Committee detailing the title of the talk, proof of acceptance, the date and place of the conference, and any other relevant information. All petitions should include a budget and should disclose details of awards or denial of funding from other sources.

Awards from other sources will not necessarily disqualify students from classics department funding. The applications will be read and voted on by the committee which will attempt to respond to requests in a timely fashion. The student will be notified in writing by the chair of the committee normally within a few weeks of the submission of application.

Since applications will be read on a rolling basis and funds are usually more plentiful at the beginning of the year, students are encouraged to apply early.

SCHOLARSHIPS & FELLOWSHIPS

Adams-Lemoine Dissertation Fellowship: This fellowship is awarded in memory of C.K. Adams, Professor of Latin & History and University of Wisconsin President from 1892 to 1902, and Fannie Lemoine, Professor of Latin from 1906 to 1923. The Adams-Lemoine Fellowship is utilized for

student recruitment or completion of degree. It provides tuition remission, a stipend, and benefits in accordance with published University award amounts. Award periods vary and funding may be available for one or two semesters of study.

Moses S. Slaughter Fellowship: This fellowship is awarded in memory of Moses S. Slaughter, University of Wisconsin Professor of Latin from 1906 to 1923. The Slaughter Fellowship is given to a current or incoming graduate student who maintains **Wisconsin residency**. It provides tuition remission, a stipend, and benefits in accordance with published university award amounts and may supply funding for one or two semesters of study.

Frank R. Kramer Summer Fellowship: A predoctoral summer research grant awarded in memory of Dr. Frank R. Kramer, who earned a B.A. in Humanities in 1929, an M.A. in Greek & Latin in 1931, and a Ph.D. in Classics in 1936. The Kramer Fellowship is meant to enable graduate students in their second year of study or above (pre-dissertation) to receive support for research connected to the advancement of their studies in Classics. Calls for applications typically come out in December and recipients are notified in late January. Award totals range between \$750-\$2,000.

Hieronimus Prize for Greek Composition: This monetary award is given in memory of Professor John Paul Hieronimus (Ph.D. '31). Entrants are asked to translate a selected passage into ancient Greek or compose an original piece in ancient Greek addressing a specific topic. Awards are given in late spring.

Pillinger Prize for Latin Composition: This monetary award is given in memory of Assistant Professor Hugh Edward Pillinger (1965–70). Entrants are asked to translate a selected passage into Latin or compose an original piece in Latin addressing a specific topic. Awards are given in late spring.

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	36 credits
Minimum Residence Credit Requirement	18 credits
Minimum Graduate Coursework Requirement	MA named option in Hebrew Bible: 24 credits out of 36 total credits must be completed in graduate-level language courses within the department; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide (https://registrar.wisc.edu/course-guide/)).
Overall Graduate GPA Requirement	3.00 GPA required.

Other Grade Requirements The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.

Assessments and Examinations M.A. exams are based on coursework and the M.A. Reading List. The exams are given at the end of the final semester of study for the degree, typically at the end of the summer of the second year. An exam can be taken no more than twice.

All M.A. Candidates

Hebrew Texts and Grammar Exam

Translation from Hebrew to English, including some sight passages

Hebrew grammar and syntax (including parsing and producing forms)

Translation from English to pointed Biblical Hebrew

Oral Defense

This exam will include oral reading, translation, and discussion of sight passages, as well as questions calling for synthesis of knowledge learned in course work and readings.

Terminal M.A. Candidates Only

General Exam

M.A. candidates should have a basic familiarity with the history and methodology of biblical studies, especially of the 19th–20th centuries. They should know the main features of the Pentateuchal sources, according to the classical source division. In text criticism, they should demonstrate a familiarity with the major documents used, the methodology of textual criticism, and the history of the masoretic text and the Septuagint. They should be able to identify the masorahs and to explain the meaning of the most common masoretic notes. The exam includes questions on biblical literature and its interpretation; history and archaeology of Israel and the ancient Near East; postbiblical Judaism; Hebrew language, biblical text and canon, and the ancient versions.

Exegetical Presentation

The candidate will prepare an exegetical presentation on a selected passage from the Hebrew Bible in consultation with director of graduate studies.

Language Requirements In addition to coursework in Hebrew and Semitic languages (Aramaic, Ugaritic & Canaanite, Syriac, and Akkadian), M.A. students must pass a proficiency exam in Hebrew.

REQUIRED COURSES

Code	Title	Credits
6 credits across two semesters of Biblical Hebrew. The number of credits depends on the student's preparation		6
6 credits of Semitic language:		6
HEBR-BIB 701	Aramaic I	
HEBR-BIB 702	Aramaic II	
Or		
HEBR-BIB 703	Ugaritic Texts	

HEBR-BIB 704	Canaanite Dialects	
Or		
HEBR-BIB 705	Syriac I	
HEBR-BIB 706	Syriac II	
Or		
HEBR-BIB 700	Advanced Near Eastern Languages (Akkadian I & II)	
12 credits advanced text courses to include two of the following text-based sequences:		12
HEBR-BIB 743	Pentateuchal Narratives	
HEBR-BIB 744	Pentateuchal Legal Codes	
Or		
HEBR-BIB 751	The Book of Isaiah	
HEBR-BIB 752	The Book of Isaiah	
Or		
HEBR-BIB 753	Wisdom Literature: Proverbs and Qohelet	
HEBR-BIB 755	Psalms	
Or		
HEBR-BIB 799	Independent Study (Samuel I & II)	
3 credits in one of the following courses:		3
HEBR-BIB 723	Classical Hebrew Linguistics: Historical and Descriptive	
Or		
CLASSICS/JEWISH 451	Biblical Archaeology	
Or		
3 credits in one graduate level course in the department as approved by the Hebrew Bible director of graduate studies (this may be a 799 or, preferably, an approved course in Classics)		
3 credits in one graduate level course in the department (this may be a 799 or, preferably, an approved course in Classics)		3
3 credits in a CANES Advanced Seminar:		3
CLASSICS 900	Advanced Seminar in Theory and Methodology	
3 credits in one seminar in Hebrew Bible or in a second CANES Advanced Seminar with a different topic than the first		3
Total Credits		36

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

GRADUATE PROGRAM HANDBOOK

A Graduate Program Handbook containing all of the program's policies and requirements is forthcoming from the program.

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate course work from other institutions. Normally, 6 of these credits will be allocated to fulfilling the Intermediate Hebrew requirement (HEBR-BIB 323 Intermediate Biblical Hebrew, I - HEBR-BIB 324 Intermediate Biblical Hebrew, II). Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

With program approval, no more than 6 credits from a UW-Madison undergraduate degree are allowed to count toward the degree by fulfilling the Intermediate Hebrew requirement (HEBR-BIB 323 Intermediate Biblical Hebrew, I- HEBR-BIB 324 Intermediate Biblical Hebrew, II).

UW-Madison University Special

With program approval, students are allowed to count no more than 9 credits of course work numbered 300 or above taken as a UW-Madison University Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements. UW-Madison coursework taken as a University Special student would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

ADVISOR / COMMITTEE

All Hebrew Bible M.A. candidates will meet with the Director of Graduate Studies on a regular basis.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students

completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

OTHER

All applications received by January 5 are eligible for fellowship, scholarship, and graduate assistantship opportunities. For applications received after the deadline, applicants will not be eligible for university fellowships or scholarships, although you may be eligible for department funds such as teaching assistantships, project assistantships, research assistantships, or department fellowship.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Please visit the Classical and Ancient Near Eastern Studies website (<https://canes.wisc.edu/people/faculty-and-staff/>) for a complete list of faculty, instructional, and academic staff.

CLASSICAL AND ANCIENT NEAR EASTERN STUDIES, PH.D.

Soon after the founding of the University of Wisconsin in 1848, the department was created as one of the first academic units at the university. The Department of Classical and Ancient Near Eastern Studies (CANES) has enjoyed a long tradition of excellence in **philological scholarship, literary criticism, archaeology, and ancient history**. At the graduate level, the department offers the master of arts and doctor of philosophy in classical and ancient near eastern studies. Students may follow one of two courses of study, **classical languages and literatures (Classics)**, or **Hebrew bible**.

The **primary goal** of the program is to familiarize students with the **core linguistic, historical, and philological** aspects of classical and ancient near eastern studies. Students also learn to **conduct original research** in such varied areas as *gender studies, literary theory, translation studies, and classical reception* under the guidance of established scholars in these areas.

In addition to specified coursework, students participate in **directed readings** with individual faculty members in their areas of specialization and gain valuable professional experience **teaching** in courses on the languages, literature, and culture of the ancient world. Additional work may be done in allied fields such as *archaeology, art history, linguistics, comparative literature, history, philosophy, and political science*. Affiliated faculty in many of these fields regularly offer courses, supervise theses and dissertations, and participate in department activities.

A wide range of **professional networks** provides graduate students with enhanced opportunities for education and career development. In addition to faculty connections to scholars and institutions in their fields of study, the department has formal affiliations with the Society

for Classical Studies, the Classical Association of the Middle West and South, the American School of Classical Studies in Athens, the Society of Biblical Literature, and the American Schools of Oriental Research.

The Pillinger Library and Mansoor Reading Room, both located within the department, provide convenient access to a large number of texts, while the larger Greek and Latin Reading Room in the Memorial Library contains an extensive, noncirculating research collection of texts and commentaries. The Memorial Library maintains an excellent research collection of books and periodicals in classics and Hebrew bible, with many of its resources available online.

ADMISSIONS

Students apply to the Ph.D. in Classical and Ancient Near Eastern Studies through one of the named options:

- Classics (p. 353)
- Hebrew Bible (p. 359)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

The Department of Classical and Ancient Near Eastern Studies works to support all graduate students in good standing who continue to make satisfactory progress toward their degree. The department makes every attempt to distribute its resources as fairly as possible outside of guaranteed support offers. Thus, it is the department's intention to give the maximum number of graduate students in the Classics and Hebrew Bible programs an opportunity to hold teaching assistantships (TA) consistent with the department's needs and criteria. It should be remembered that teaching funds are variable, depending on budget and class enrollments. All students are encouraged to pursue opportunities for support outside the department at all stages of their study. Details can be found below.

TEACHING ASSISTANTSHIPS

Criteria: Teaching assistant appointments will be offered to eligible graduate students on the basis of the following criteria: contractual obligations made to the student, satisfactory progress towards degree, satisfactory student evaluations and faculty teaching observations, departmental judgment of the student's qualification to teach scheduled courses, and availability of budgeted positions.

Eligibility: To be eligible to become a teaching assistant, graduate students should ordinarily meet the following requirements: students should be enrolled in the Classics or Hebrew Bible graduate program (exceptions will be made due to lack of qualified or available students), students should be making satisfactory progress towards an advanced degree, and students should not have exceeded the limited allotment of teaching within the department (five years after the B.A. or three years after the M.A.).

Students who are non-native speakers of English must complete the SPEAK test for assessing English proficiency. The SPEAK test is the institutional version of the Test of Spoken English (TSE), which is administered by the Educational Testing Service. The SPEAK test measures oral proficiency and is frequently used to evaluate the spoken English of international TAs. The test is available only to students holding or under consideration for a teaching assistantship. For information and scheduled tests, please consult the English as a Second Language website (<http://www.english.wisc.edu/esl/>). Students must achieve a score of 45 or higher before being placed in the classroom.

Class Assignments: Class assignments are made by the department chair in consultation with department faculty with consideration of the following items in order of importance: previous positive assessment of teaching ability, fair rotation of teaching among qualified graduate students, background and experience of the TA in course materials, the need for graduate students to have a variety of teaching experiences, the preference of the TA, and the preference of the instructor.

Training Program: All TAs are required to attend the department's annual Graduate Student Orientation and Teaching Assistant Workshop. Subjects discussed in the department's annual workshop include preparation, organization, sensitivity to ethnic and gender issues, and pedagogical methods. Experienced TAs are encouraged to share successful teaching methods and ideas with the group in an open discussion. Information is also provided on such university resources as the Writing Center.

New TAs are also required to attend the L&S Teaching Assistant Workshop and the Graduate Assistants Equity Workshop within the first two semesters of teaching appointments. In addition, for TAs with a first-time Comm B appointment, the Writing Across Campus Comm B Training workshop will also be required. TAs are also encouraged to take advantage of the writing workshops offered by the Writing Center at the start of the academic year and throughout each semester.

For each course, the TA must meet with the professor to outline the goals and objectives of the course, the exam and grading procedures, the syllabus and assigned readings, and specific pedagogical methods appropriate for the course. The syllabus of each course should include the name, office number, and phone number, of the supervising professor, the TA, and the current department chair. Should there be concerns about the course that the TA feels unable to address, he or she can refer students to the professor in charge of the course for initial consultation. Regular meetings between the TA and the professor are held throughout the semester to discuss the progress and success of the course.

Review: Within the first few weeks of class, the supervising professor will observe the TA, with new TAs being a priority. After the visit, the professor will discuss the strengths and weaknesses of the class and put forward a set of recommendations for further teaching development. A written evaluation, to be discussed in person, is then provided to the department chair and will be placed in the student's file. If the chair deems necessary, a second faculty member will make an additional classroom observation with a written evaluation. At the end of each semester or course, student evaluations for the TA classes are to be completed and kept on file in the department for future reference.

Workload/Percentage of Appointment: Teaching assistantship appointments are percentage based. All CANES appointments are 50% which corresponds to the total expected hours of work throughout the course of the semester. Each TA will receive a breakdown of expected workload with their official appointment letter. The TA is expected to

review and discuss the workload with the supervising faculty member of the course. By signing and returning the workload to the department administrator, the TA is accepting his or her appointment for the semester.

Stipend & Benefits: Please review the Graduate School's resource webpage, Graduate Assistantships (<https://grad.wisc.edu/funding/graduate-assistantships/>), for details.

DEPARTMENTAL TRAVEL SUPPORT

Eligibility Guidelines: The CANES department can provide some funding for Classics students who are presenting a paper addressing a topic in the classics field or interviewing for hire. Applicable conferences include the ASA and CAMWS, but other conferences such as graduate student colloquia will also be considered. First time recipients of this award may be asked to present a departmental Pillinger Talk in preparation for their conference presentation.

All applications for department travel must be supported by satisfactory progress in the student's program. Graduate students may submit one request for travel support to the department per academic year. Every attempt will be made to fund student travel up to a maximum of \$750. Students should recognize that funding is based on availability. The Fellowships Committee will assess the validity of all applications and determine the amount of each individual award if granted.

Before requesting travel funds from the department, graduate students should conduct due diligence to learn about and apply for travel awards offered by other units (Graduate School, ASM, etc.) at UW–Madison and by sponsors of the event for which travel funds are requested. Evidence of awards applied for and/or received should accompany all requests for department travel funding. Being competitive for awards outside the department is a matter of professional development.

Application: Having applied for travel awards and supplements from external sources, students should then petition the CANES department for travel support. All petitions are considered on a case by case basis and evaluated on the basis of academic merit and satisfactory progress in the graduate program.

Petitions should take form of a letter addressed to the chair of the graduate Fellowships Committee detailing the title of the talk, proof of acceptance, the date and place of the conference, and any other relevant information. All petitions should include a budget and should disclose details of awards or denial of funding from other sources.

Awards from other sources will not necessarily disqualify students from classics department funding. The applications will be read and voted on by the committee which will attempt to respond to requests in a timely fashion. The student will be notified in writing by the chair of the committee normally within a few weeks of the submission of application.

Since applications will be read on a rolling basis and funds are usually more plentiful at the beginning of the year, students are encouraged to apply early.

SCHOLARSHIPS & FELLOWSHIPS

Adams-Lemoine Dissertation Fellowship: This fellowship is awarded in memory of C.K. Adams, Professor of Latin & History and University of Wisconsin President from 1892 to 1902, and Fannie Lemoine, Professor of Latin from 1906 to 1923. The Adams-Lemoine Fellowship is utilized for student recruitment or completion of degree. It provides tuition remission, a stipend, and benefits in accordance with published University award

amounts. Award periods vary and funding may be available for one or two semesters of study.

Moses S. Slaughter Fellowship: This fellowship is awarded in memory of Moses S. Slaughter, University of Wisconsin Professor of Latin from 1906 to 1923. The Slaughter Fellowship is given to a current or incoming graduate student who maintains **Wisconsin residency**. It provides tuition remission, a stipend, and benefits in accordance with published university award amounts and may supply funding for one or two semesters of study.

Frank R. Kramer Summer Fellowship: A predoctoral summer research grant awarded in memory of Dr. Frank R. Kramer, who earned a B.A. in Humanities in 1929, an M.A. in Greek & Latin in 1931, and a Ph.D. in Classics in 1936. The Kramer Fellowship is meant to enable graduate students in their second year of study or above (pre-dissertation) to receive support for research connected to the advancement of their studies in Classics. Calls for applications typically come out in December and recipients are notified in late January. Award totals range between \$750-\$2,000.

Hieronimus Prize for Greek Composition: This monetary award is given in memory of Professor John Paul Hieronimus (Ph.D. '31). Entrants are asked to translate a selected passage into ancient Greek or compose an original piece in ancient Greek addressing a specific topic. Awards are given in late spring.

Pillinger Prize for Latin Composition: This monetary award is given in memory of Assistant Professor Hugh Edward Pillinger (1965–70). Entrants are asked to translate a selected passage into Latin or compose an original piece in Latin addressing a specific topic. Awards are given in late spring.

Mary Isabel Sibley Fellowship

Society for Classical Studies (<https://classicalstudies.org/awards-fellowships/>)

The department annually offers graduate fellowship support and teaching assistantships. In order for incoming students to be considered for fellowships, applications and all other materials should reach the department by January 5.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	See Named Options for policy information.
Minimum Residence Credit Requirement	36 credits
Minimum Graduate Coursework Requirement	See Named Options for policy information.
Overall Graduate GPA Requirement	See Named Options for policy information.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	See Named Options for policy information.
Language Requirements	See Named Options for policy information.
Doctoral Minor / Breadth Requirements	All doctoral students are required to complete a minor. Students may not complete a minor with the same name as their named option.

REQUIRED COURSES

Select a Named Option (p. 352) for courses required.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree

conferral. Students pursuing the Ph.D. in Classical and Ancient Near Eastern Studies must select one of the following named options:

View as listView as grid

- CLASSICAL AND ANCIENT NEAR EASTERN STUDIES: CLASSICS, PH.D. (P. 353)
- CLASSICAL AND ANCIENT NEAR EASTERN STUDIES: HEBREW BIBLE, PH.D. (P. 358)

POLICIES

Students should refer to one of the named options for policy information:

- Classics (p. 353)
- Hebrew Bible (p. 359)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates research problems, potentials, and limits with respect to theory, knowledge, or practice in the field of Classics or Hebrew Bible.
2. Formulates ideas, concepts, and approaches beyond the current boundaries of knowledge within Classics or Hebrew Bible.
3. Creates research and scholarship that makes a substantive contribution.
4. Demonstrates breadth within their learning experiences.
5. Advances contributions of Classics or Hebrew Bible to society.
6. Communicates complex ideas in a clear and understandable manner.
7. Fosters ethical and professional conduct.

PEOPLE

Please visit the Classical and Ancient Near Eastern Studies website (<https://canes.wisc.edu/people/faculty-and-staff/>) for a complete list of faculty, instructional, and academic staff.

CLASSICAL AND ANCIENT NEAR EASTERN STUDIES: CLASSICS, PH.D.

This is a named option within the Classical and Ancient Near Eastern Studies Ph.D. (p. 335)

Soon after the founding of the University of Wisconsin in 1848, the department was created as one of the first academic units at the university. The Department of Classical and Ancient Near Eastern Studies (CANES) has enjoyed a long tradition of excellence in **philological**

scholarship, literary criticism, archaeology, and ancient history. At the graduate level, the department offers the master of arts and doctor of philosophy in classical and ancient near eastern studies. Students may follow one of two courses of study, **classical languages and literatures (Classics)**, or **Hebrew bible**.

The **primary goal** of the program is to familiarize students with the **core linguistic, historical, and philological** aspects of classical and ancient near eastern studies. Students also learn to **conduct original research** in such varied areas as *gender studies, literary theory, translation studies, and classical reception* under the guidance of established scholars in these areas.

In addition to specified coursework, students participate in **directed readings** with individual faculty members in their areas of specialization and gain valuable professional experience **teaching** in courses on the languages, literature, and culture of the ancient world. Additional work may be done in allied fields such as *archaeology, art history, linguistics, comparative literature, history, philosophy, and political science*. Affiliated faculty in many of these fields regularly offer courses, supervise theses and dissertations, and participate in department activities.

A wide range of **professional networks** provides graduate students with enhanced opportunities for education and career development. In addition to faculty connections to scholars and institutions in their fields of study, the department has formal affiliations with the Society for Classical Studies, the Classical Association of the Middle West and South, the American School of Classical Studies in Athens, the Society of Biblical Literature, and the American Schools of Oriental Research.

The Pillinger Library and Mansoor Reading Room, both located within the department, provide convenient access to a large number of texts, while the larger Greek and Latin Reading Room in the Memorial Library contains an extensive, noncirculating research collection of texts and commentaries. The Memorial Library maintains an excellent research collection of books and periodicals in classics and Hebrew bible, with many of its resources available online.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s).**

Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 5
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.

English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Thank you for your interest in the graduate program in Classical and Ancient Near Eastern Studies! Our Department offers both an MA program and a PhD program.

Applicants for graduate study may enter the program with either a bachelor's or master's degree. For the Classics option, candidates are expected to have covered at least the equivalent of an undergraduate major in Classics, which consists of at least three years of both Greek and Latin. Candidates whose preparation falls short of the minimum requirements may be admitted with deficiencies at the discretion of the Department, but will be required to do additional work within the first year of the program. Applications are evaluated on the basis of previous academic record, Graduate Record Exam (GRE) scores, letters of recommendation, the writing sample and a personal statement.

All applicants to the program must apply online by January 5 (<https://grad.wisc.edu/apply/>). Only select the MA application if you plan on a terminal MA at UW-Madison—all other applicants select the PhD application, even if you have not yet received a master's degree. *Please note:* the \$75 application fee must be paid at the time of application (international students will be charged an additional \$6 for processing).

As part of the online application process, you will be asked supplemental questions regarding your level of language preparation and expected to upload the information listed below:

1. Writing sample of scholarly work no more than 25 pages (optional).
2. Transcripts or academic records from each institution attended. You may upload *unofficial* copies for department review. International academic records must be in the original language accompanied by an official English translation. *Please note:* official, hard copy transcripts will only be requested by the Graduate School upon Department recommendation for admission. Further information will be provided upon department admission.
3. Official Graduate Record Examination (GRE) (<http://www.gre.org/>) score report sent from the Educational Testing Service (ETS). Use institution code 1846 to route your results to the UW Graduate School. Once results are received, they will populate on your online application.
4. TOEFL or MELAB (<https://grad.wisc.edu/admissions/requirements/>) for all international applicants.
5. Statement of purpose (citing your reasons for graduate study).
6. Curriculum vitae listing language experience, awards, honors, etc.
7. Three letters of reference. You must submit your *requests* to all three of your references as part of the online application. Recommenders will receive a notice via email and will submit their letters accordingly.

Please do not hesitate to contact us at info@canes.wisc.edu should you have any questions about the application process.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. PROGRAM RESOURCES

The Department of Classical and Ancient Near Eastern Studies works to support all graduate students in good standing who continue to make satisfactory progress toward their degree. The department makes every attempt to distribute its resources as fairly as possible outside of guaranteed support offers. Thus, it is the department's intention to give the maximum number of graduate students in the Classics and Hebrew Bible programs an opportunity to hold teaching assistantships (TA) consistent with the department's needs and criteria. It should be remembered that teaching funds are variable, depending on budget and class enrollments. All students are encouraged to pursue opportunities for support outside the department at all stages of their study. Details can be found below.

TEACHING ASSISTANTSHIPS

Criteria: Teaching assistant appointments will be offered to eligible graduate students on the basis of the following criteria: contractual obligations made to the student, satisfactory progress towards degree, satisfactory student evaluations and faculty teaching observations, departmental judgment of the student's qualification to teach scheduled courses, and availability of budgeted positions.

Eligibility: To be eligible to become a teaching assistant, graduate students should ordinarily meet the following requirements: students should be enrolled in the Classics or Hebrew Bible graduate program (exceptions will be made due to lack of qualified or available students), students should be making satisfactory progress towards an advanced degree, and students should not have exceeded the limited allotment of teaching within the department (five years after the B.A. or three years after the M.A.).

Students who are non-native speakers of English must complete the SPEAK test for assessing English proficiency. The SPEAK test is the institutional version of the Test of Spoken English (TSE), which is administered by the Educational Testing Service. The SPEAK test measures oral proficiency and is frequently used to evaluate the spoken English of international TAs. The test is available only to students holding or under consideration for a teaching assistantship. For information and scheduled tests, please consult the English as a Second Language website (<http://www.english.wisc.edu/esl/>). Students must achieve a score of 45 or higher before being placed in the classroom.

Class Assignments: Class assignments are made by the department chair in consultation with department faculty with consideration of the following items in order of importance: previous positive assessment of teaching ability, fair rotation of teaching among qualified graduate students, background and experience of the TA in course materials, the need for graduate students to have a variety of teaching experiences, the preference of the TA, and the preference of the instructor.

Training Program: All TAs are required to attend the department's annual Graduate Student Orientation and Teaching Assistant Workshop. Subjects discussed in the department's annual workshop include preparation, organization, sensitivity to ethnic and gender issues, and pedagogical methods. Experienced TAs are encouraged to share successful teaching methods and ideas with the group in an open discussion. Information is also provided on such university resources as the Writing Center.

New TAs are also required to attend the L&S Teaching Assistant Workshop and the Graduate Assistants Equity Workshop within the first two semesters of teaching appointments. In addition, for TAs with a first-time Comm B appointment, the Writing Across Campus Comm B Training workshop will also be required. TAs are also encouraged to take advantage of the writing workshops offered by the Writing Center at the start of the academic year and throughout each semester.

For each course, the TA must meet with the professor to outline the goals and objectives of the course, the exam and grading procedures, the syllabus and assigned readings, and specific pedagogical methods appropriate for the course. The syllabus of each course should include the name, office number, and phone number, of the supervising professor, the TA, and the current department chair. Should there be concerns about the course that the TA feels unable to address, he or she can refer students to the professor in charge of the course for initial consultation. Regular meetings between the TA and the professor are held throughout the semester to discuss the progress and success of the course.

Review: Within the first few weeks of class, the supervising professor will observe the TA, with new TAs being a priority. After the visit, the professor will discuss the strengths and weaknesses of the class and put forward a set of recommendations for further teaching development. A written evaluation, to be discussed in person, is then provided to the department chair and will be placed in the student's file. If the chair deems necessary, a second faculty member will make an additional classroom observation with a written evaluation. At the end of each semester or course, student evaluations for the TA classes are to be completed and kept on file in the department for future reference.

Workload/Percentage of Appointment: Teaching assistantship appointments are percentage based. All CANES appointments are 50% which corresponds to the total expected hours of work throughout the course of the semester. Each TA will receive a breakdown of expected workload with their official appointment letter. The TA is expected to review and discuss the workload with the supervising faculty member of the course. By signing and returning the workload to the department administrator, the TA is accepting his or her appointment for the semester.

Stipend & Benefits: Please review the Graduate School's resource webpage, Graduate Assistantships (<https://grad.wisc.edu/funding/graduate-assistantships/>), for details.

DEPARTMENTAL TRAVEL SUPPORT

Eligibility Guidelines: The CANES department can provide some funding for Classics students who are presenting a paper addressing a topic in the classics field or interviewing for hire. Applicable conferences include the ASA and CAMWS, but other conferences such as graduate student colloquia will also be considered. First time recipients of this award may be asked to present a departmental Pillinger Talk in preparation for their conference presentation.

All applications for department travel must be supported by satisfactory progress in the student's program. Graduate students may submit one request for travel support to the department per academic year. Every attempt will be made to fund student travel up to a maximum of \$750. Students should recognize that funding is based on availability. The Fellowships Committee will assess the validity of all applications and determine the amount of each individual award if granted.

Before requesting travel funds from the department, graduate students should conduct due diligence to learn about and apply for travel awards offered by other units (Graduate School, ASM, etc.) at UW–Madison and by sponsors of the event for which travel funds are requested. Evidence of awards applied for and/or received should accompany all requests for department travel funding. Being competitive for awards outside the department is a matter of professional development.

Application: Having applied for travel awards and supplements from external sources, students should then petition the CANES department for travel support. All petitions are considered on a case by case basis and evaluated on the basis of academic merit and satisfactory progress in the graduate program.

Petitions should take form of a letter addressed to the chair of the graduate Fellowships Committee detailing the title of the talk, proof of acceptance, the date and place of the conference, and any other relevant information. All petitions should include a budget and should disclose details of awards or denial of funding from other sources.

Awards from other sources will not necessarily disqualify students from classics department funding. The applications will be read and voted on by the committee which will attempt to respond to requests in a timely fashion. The student will be notified in writing by the chair of the committee normally within a few weeks of the submission of application.

Since applications will be read on a rolling basis and funds are usually more plentiful at the beginning of the year, students are encouraged to apply early.

SCHOLARSHIPS & FELLOWSHIPS

Adams-Lemoine Dissertation Fellowship: This fellowship is awarded in memory of C.K. Adams, Professor of Latin & History and University of Wisconsin President from 1892 to 1902, and Fannie Lemoine, Professor of Latin from 1906 to 1923. The Adams-Lemoine Fellowship is utilized for student recruitment or completion of degree. It provides tuition remission, a stipend, and benefits in accordance with published University award amounts. Award periods vary and funding may be available for one or two semesters of study.

Moses S. Slaughter Fellowship: This fellowship is awarded in memory of Moses S. Slaughter, University of Wisconsin Professor of Latin from 1906 to 1923. The Slaughter Fellowship is given to a current or incoming graduate student who maintains **Wisconsin residency**. It provides tuition remission, a stipend, and benefits in accordance with published university award amounts and may supply funding for one or two semesters of study.

Frank R. Kramer Summer Fellowship: A predoctoral summer research grant awarded in memory of Dr. Frank R. Kramer, who earned a B.A. in Humanities in 1929, an M.A. in Greek & Latin in 1931, and a Ph.D. in Classics in 1936. The Kramer Fellowship is meant to enable graduate students in their second year of study or above (pre-dissertation) to receive support for research connected to the advancement of their studies in Classics. Calls for applications typically come out in December

and recipients are notified in late January. Award totals range between \$750-\$2,000.

Hieronimus Prize for Greek Composition: This monetary award is given in memory of Professor John Paul Hieronimus (Ph.D. '31). Entrants are asked to translate a selected passage into ancient Greek or compose an original piece in ancient Greek addressing a specific topic. Awards are given in late spring.

Pillinger Prize for Latin Composition: This monetary award is given in memory of Assistant Professor Hugh Edward Pillinger (1965–70). Entrants are asked to translate a selected passage into Latin or compose an original piece in Latin addressing a specific topic. Awards are given in late spring.

OTHER FUNDING OPTIONS

The Graduate School provides additional information helpful to graduate students in need of funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	69 credits (including credits earned toward MA)
Minimum Residence Credit Requirement	36 credits
Minimum Graduate Coursework Requirement	69 total credits (including credits earned toward MA) must be completed in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide (https://registrar.wisc.edu/course-guide/)).
Overall Graduate GPA Requirement	3.25 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	Three preliminary examinations related to ancient languages and one modern language examination (or equivalent). Dissertation required.
Language Requirements	<ul style="list-style-type: none"> • One "special" Ancient Greek language/literature preliminary examination • One "special" Latin language/literature preliminary examination • One Greek and Latin literature preliminary examination • Modern language examination or equivalent coursework (e.g., German, French, or Italian for reading knowledge), excluding language assessed for M.A.

Doctoral	All doctoral students are required to complete a minor.
Minor/Breadth Requirements	Students may not complete a minor with the same name as their named option. Course work for minor may begin prior to admission to Ph.D. program (in the course of M.A. program).

REQUIRED COURSES

In addition to requirements for the M.A. (<https://guide.wisc.edu/graduate/classical-ancient-near-eastern-studies/classical-ancient-near-eastern-studies-ma/classical-ancient-near-eastern-studies-classics-ma/#requirementstext>), 27 credits out of 69 total credits must be completed in a combination of course work including the following:

- 21 credits in GREEK (<http://guide.wisc.edu/courses/greek/>) and LATIN (<http://guide.wisc.edu/courses/latin/>) 500-level courses or seminars
- 3 credits in pro-seminar (CLASSICS 900 Advanced Seminar in Theory and Methodology or equivalent)
- Credits required for Doctoral Minor

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate course work from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of course work numbered 300 or above taken as a UW–Madison University Special student. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements. UW–Madison coursework taken as a University Special student would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

1. Good standing (progressing according to standards; any funding guarantee remains in place).

2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

ADVISOR / COMMITTEE

Candidates for the Ph.D. should form a provisional dissertation committee the semester before they intend to complete their last preliminary exam and reach dissertation status. This committee should consist of at least four members representing more than one graduate program, three of whom must be UW–Madison graduate faculty or former UW–Madison graduate faculty up to one year after resignation or retirement. At least one of the four members must be from outside of the student's major program or major field (often from the minor field).

During the first semester of dissertator status, candidates will schedule a dissertation proposal defense to discuss the proposal's viability. Under the guidance of their dissertation advisor, candidates will provide all committee members with a detailed abstract of the proposed dissertation, including a synopsis of each chapter and a timeline for scheduled completion. After the provisional committee has approved the proposal, the candidate may begin writing in consultation with their committee.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within 5 years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)

- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

All applications received by January 5 are eligible for fellowship, scholarship, and graduate assistantship opportunities. For applications received after the deadline, applicants will not be eligible for university fellowships or scholarships, although they may be eligible for department funds such as teaching assistantships, project assistantships, research assistantships, or department fellowship.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Please visit the Classical and Ancient Near Eastern Studies website (<https://canes.wisc.edu/people/faculty-and-staff/>) for a complete list of faculty, instructional, and academic staff.

CLASSICAL AND ANCIENT NEAR EASTERN STUDIES: HEBREW BIBLE, PH.D.

Admissions to the Classical and Ancient Near Eastern Studies: Hebrew Bible, Ph.D. have been suspended as of spring 2019. If you have any questions, please contact the department.

This is a named option within the Classical and Ancient Near Eastern Studies Ph.D. (p. 335)

Soon after the founding of the University of Wisconsin in 1848, the department was created as one of the first academic units at the university. The Department of Classical and Ancient Near Eastern Studies (CANES) has enjoyed a long tradition of excellence in **philological scholarship, literary criticism, archaeology, and ancient history**. At the graduate level, the department offers the master of arts and doctor of philosophy in classical and ancient near eastern studies. Students may

follow one of two courses of study, **classical languages and literatures (Classics)**, or **Hebrew bible**.

The **primary goal** of the program is to familiarize students with the **core linguistic, historical, and philological** aspects of classical and ancient near eastern studies. Students also learn to **conduct original research** in such varied areas as *gender studies, literary theory, translation studies, and classical reception* under the guidance of established scholars in these areas.

In addition to specified coursework, students participate in **directed readings** with individual faculty members in their areas of specialization and gain valuable professional experience **teaching** in courses on the languages, literature, and culture of the ancient world. Additional work may be done in allied fields such as *archaeology, art history, linguistics, comparative literature, history, philosophy, and political science*. Affiliated faculty in many of these fields regularly offer courses, supervise theses and dissertations, and participate in department activities.

A wide range of **professional networks** provides graduate students with enhanced opportunities for education and career development. In addition to faculty connections to scholars and institutions in their fields of study, the department has formal affiliations with the Society for Classical Studies, the Classical Association of the Middle West and South, the American School of Classical Studies in Athens, the Society of Biblical Literature, and the American Schools of Oriental Research.

The Pillinger Library and Mansoor Reading Room, both located within the department, provide convenient access to a large number of texts, while the larger Greek and Latin Reading Room in the Memorial Library contains an extensive, noncirculating research collection of texts and commentaries. The Memorial Library maintains an excellent research collection of books and periodicals in classics and Hebrew bible, with many of its resources available online.

ADMISSIONS

Admissions to the Classical and Ancient Near Eastern Studies: Hebrew Bible, Ph.D. have been suspended as of spring 2019. If you have any questions, please contact the department.

Applicants for graduate study may enter the program with either a B.A. or M.A. (M.A., M.Div., Th.M.) degree. For the *Classics* option, candidates are expected to have covered at least the equivalent of an undergraduate major in Classics, which consists of at least three years of both Greek and Latin. For the option in *Hebrew Bible* program, candidates are expected to have taken at least two years of Biblical Hebrew and one year of Greek. Candidates whose preparation falls short of the minimum requirements may be admitted with deficiencies at the discretion of the department, but will be required to do additional work within the first year of the program.

Applications are evaluated on the basis of previous academic record, Graduate Record Exam (GRE) scores, letters of recommendation, the writing sample and a personal statement.

All applicants to the program must apply on-line (<https://apply.grad.wisc.edu/Account/Login/?ReturnUrl=%2f>) by January 5. **ONLY select the M.A. application if you plan on a terminal M.A. at UW-Madison; all other applicants select the Ph.D. application even if you have not yet received an M.A.** Please note: the \$75 application fee must be

paid at the time of application (international students will be charged an additional \$6 for processing).

As part of the online application process, you will be asked supplemental questions regarding your level of language preparation and expected to **upload** the information listed below:

1. Writing sample of scholarly work no more than 25 pages (optional).
2. Transcripts or academic records from **each** institution attended. You may upload *unofficial* copies for department review. International academic records must be in the original language accompanied by an official English translation. *Please note:* official transcripts will only be requested by the Graduate School upon department recommendation for admission. Further information will be provided upon admission.
3. Official Graduate Record Examination (GRE) (<http://www.gre.org/>) score report sent from the Educational Testing Service (ETS). **Use institution code 1846** to route your results to the UW Grad School. Once results are received, they will populate in your online application.
4. TOEFL or MELAB (<https://grad.wisc.edu/admissions/requirements/>) for all international applicants.
5. Statement of purpose (citing your reasons for graduate study).
6. Curriculum vitae listing language experience, awards, honors, etc.
7. Three letters of reference. You must submit your *requests* to all three of your references as part of the online application. Recommenders will receive a notice via email and will submit their letters accordingly.

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

The Department of Classical and Ancient Near Eastern Studies works to support all graduate students in good standing who continue to make satisfactory progress toward their degree. The department makes every attempt to distribute its resources as fairly as possible outside of guaranteed support offers. Thus, it is the department's intention to give the maximum number of graduate students in the Classics and Hebrew Bible programs an opportunity to hold teaching assistantships (TA) consistent with the department's needs and criteria. It should be remembered that teaching funds are variable, depending on budget and class enrollments. All students are encouraged to pursue opportunities

for support outside the department at all stages of their study. Details can be found below.

TEACHING ASSISTANTSHIPS

Criteria: Teaching assistant appointments will be offered to eligible graduate students on the basis of the following criteria: contractual obligations made to the student, satisfactory progress towards degree, satisfactory student evaluations and faculty teaching observations, departmental judgment of the student's qualification to teach scheduled courses, and availability of budgeted positions.

Eligibility: To be eligible to become a teaching assistant, graduate students should ordinarily meet the following requirements: students should be enrolled in the Classics or Hebrew Bible graduate program (exceptions will be made due to lack of qualified or available students), students should be making satisfactory progress towards an advanced degree, and students should not have exceeded the limited allotment of teaching within the department (five years after the B.A. or three years after the M.A.).

Students who are non-native speakers of English must complete the SPEAK test for assessing English proficiency. The SPEAK test is the institutional version of the Test of Spoken English (TSE), which is administered by the Educational Testing Service. The SPEAK test measures oral proficiency and is frequently used to evaluate the spoken English of international TAs. The test is available only to students holding or under consideration for a teaching assistantship. For information and scheduled tests, please consult the English as a Second Language website (<http://www.english.wisc.edu/esl/>). Students must achieve a score of 45 or higher before being placed in the classroom.

Class Assignments: Class assignments are made by the department chair in consultation with department faculty with consideration of the following items in order of importance: previous positive assessment of teaching ability, fair rotation of teaching among qualified graduate students, background and experience of the TA in course materials, the need for graduate students to have a variety of teaching experiences, the preference of the TA, and the preference of the instructor.

Training Program: All TAs are required to attend the department's annual Graduate Student Orientation and Teaching Assistant Workshop. Subjects discussed in the department's annual workshop include preparation, organization, sensitivity to ethnic and gender issues, and pedagogical methods. Experienced TAs are encouraged to share successful teaching methods and ideas with the group in an open discussion. Information is also provided on such university resources as the Writing Center.

New TAs are also required to attend the L&S Teaching Assistant Workshop and the Graduate Assistants Equity Workshop within the first two semesters of teaching appointments. In addition, for TAs with a first-time Comm B appointment, the Writing Across Campus Comm B Training workshop will also be required. TAs are also encouraged to take advantage of the writing workshops offered by the Writing Center at the start of the academic year and throughout each semester.

For each course, the TA must meet with the professor to outline the goals and objectives of the course, the exam and grading procedures, the syllabus and assigned readings, and specific pedagogical methods appropriate for the course. The syllabus of each course should include the name, office number, and phone number, of the supervising professor, the TA, and the current department chair. Should there be concerns about the course that the TA feels unable to address, he or she can refer

students to the professor in charge of the course for initial consultation. Regular meetings between the TA and the professor are held throughout the semester to discuss the progress and success of the course.

Review: Within the first few weeks of class, the supervising professor will observe the TA, with new TAs being a priority. After the visit, the professor will discuss the strengths and weaknesses of the class and put forward a set of recommendations for further teaching development. A written evaluation, to be discussed in person, is then provided to the department chair and will be placed in the student's file. If the chair deems necessary, a second faculty member will make an additional classroom observation with a written evaluation. At the end of each semester or course, student evaluations for the TA classes are to be completed and kept on file in the department for future reference.

Workload/Percentage of Appointment: Teaching assistantship appointments are percentage based. All CANES appointments are 50% which corresponds to the total expected hours of work throughout the course of the semester. Each TA will receive a breakdown of expected workload with their official appointment letter. The TA is expected to review and discuss the workload with the supervising faculty member of the course. By signing and returning the workload to the department administrator, the TA is accepting his or her appointment for the semester.

Stipend & Benefits: Please review the Graduate School's resource webpage, Graduate Assistantships (<https://grad.wisc.edu/funding/graduate-assistantships/>), for details.

DEPARTMENTAL TRAVEL SUPPORT

Eligibility Guidelines: The CANES department can provide some funding for Classics students who are presenting a paper addressing a topic in the classics field or interviewing for hire. Applicable conferences include the ASA and CAMWS, but other conferences such as graduate student colloquia will also be considered. First time recipients of this award may be asked to present a departmental Pillinger Talk in preparation for their conference presentation.

All applications for department travel must be supported by satisfactory progress in the student's program. Graduate students may submit one request for travel support to the department per academic year. Every attempt will be made to fund student travel up to a maximum of \$750. Students should recognize that funding is based on availability. The Fellowships Committee will assess the validity of all applications and determine the amount of each individual award if granted.

Before requesting travel funds from the department, graduate students should conduct due diligence to learn about and apply for travel awards offered by other units (Graduate School, ASM, etc.) at UW–Madison and by sponsors of the event for which travel funds are requested. Evidence of awards applied for and/or received should accompany all requests for department travel funding. Being competitive for awards outside the department is a matter of professional development.

Application: Having applied for travel awards and supplements from external sources, students should then petition the CANES department for travel support. All petitions are considered on a case by case basis and evaluated on the basis of academic merit and satisfactory progress in the graduate program.

Petitions should take form of a letter addressed to the chair of the graduate Fellowships Committee detailing the title of the talk, proof of acceptance, the date and place of the conference, and any other relevant

information. All petitions should include a budget and should disclose details of awards or denial of funding from other sources.

Awards from other sources will not necessarily disqualify students from classics department funding. The applications will be read and voted on by the committee which will attempt to respond to requests in a timely fashion. The student will be notified in writing by the chair of the committee normally within a few weeks of the submission of application.

Since applications will be read on a rolling basis and funds are usually more plentiful at the beginning of the year, students are encouraged to apply early.

SCHOLARSHIPS & FELLOWSHIPS

Adams-Lemoine Dissertation Fellowship: This fellowship is awarded in memory of C.K. Adams, Professor of Latin & History and University of Wisconsin President from 1892 to 1902, and Fannie Lemoine, Professor of Latin from 1906 to 1923. The Adams-Lemoine Fellowship is utilized for student recruitment or completion of degree. It provides tuition remission, a stipend, and benefits in accordance with published University award amounts. Award periods vary and funding may be available for one or two semesters of study.

Moses S. Slaughter Fellowship: This fellowship is awarded in memory of Moses S. Slaughter, University of Wisconsin Professor of Latin from 1906 to 1923. The Slaughter Fellowship is given to a current or incoming graduate student who maintains **Wisconsin residency**. It provides tuition remission, a stipend, and benefits in accordance with published university award amounts and may supply funding for one or two semesters of study.

Frank R. Kramer Summer Fellowship: A predoctoral summer research grant awarded in memory of Dr. Frank R. Kramer, who earned a B.A. in Humanities in 1929, an M.A. in Greek & Latin in 1931, and a Ph.D. in Classics in 1936. The Kramer Fellowship is meant to enable graduate students in their second year of study or above (pre-dissertation) to receive support for research connected to the advancement of their studies in Classics. Calls for applications typically come out in December and recipients are notified in late January. Award totals range between \$750-\$2,000.

Hieronimus Prize for Greek Composition: This monetary award is given in memory of Professor John Paul Hieronimus (Ph.D. '31). Entrants are asked to translate a selected passage into ancient Greek or compose an original piece in ancient Greek addressing a specific topic. Awards are given in late spring.

Pillinger Prize for Latin Composition: This monetary award is given in memory of Assistant Professor Hugh Edward Pillinger (1965–70). Entrants are asked to translate a selected passage into Latin or compose an original piece in Latin addressing a specific topic. Awards are given in late spring.

OTHER FUNDING OPTIONS

The Graduate School provides additional information helpful to graduate students in need of funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

- Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.
- Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.
- Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.
- Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.
- Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail		
Minimum Credit Requirement	72 credits	
Minimum Residence Credit Requirement	36 credits	
Minimum Graduate Coursework Requirement	Including requirements for the M.A., 54 credits out of 72 total credits must be completed in a combination of graduate seminars and departmental courses specifically designed for graduate students. Courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.	
Overall Graduate GPA Requirement	3.00 GPA required.	
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.	
Assessments and Examinations	<ul style="list-style-type: none">• Reading competency in German and French or Modern Hebrew (by exam)• Proficiency in Biblical Hebrew by exam, to include: Translation of passages, together with textual and philological notes, and consultation of the Septuagint, Targum, and Peshitta. Grammatical parsing, pointing of unpointed texts, production of forms. Discussion of Biblical Hebrew in its Semitic context, translation of Hebrew epigraphic texts (in Paleo-Hebrew script), together with discussion of problems they present.• Proficiency in Semitic languages by exam, to include: Translation of texts written in Canaanite dialects, Ugaritic, Aramaic, Syriac, and Akkadian. Some of the texts will be read in Semitics courses; other texts must be prepared independently.• General Exam, based on reading list and coursework	
Language Requirements	Students must demonstrate reading competency in German and either French or Modern Hebrew. Students must demonstrate proficiency in Hebrew and Semitic languages by exam.	
Doctoral Minor/Breadth Requirements	All doctoral students are required to complete a minor. Students may not complete a minor with the same name as their named option.	

REQUIRED COURSES

Code	Title	Credits
12 credits of Semitic language not taken for M.A. or Upper-level Classical language, choose from:		12
HEBR-BIB 701	Aramaic I	

HEBR-BIB 702	Aramaic II	
Or		
HEBR-BIB 703	Ugaritic Texts	
HEBR-BIB 704	Canaanite Dialects	
Or		
HEBR-BIB 705	Syriac I	
HEBR-BIB 706	Syriac II	
Or		
HEBR-BIB 700	Advanced Near Eastern Languages (Akkadian I & II)	
Or		
A maximum of 6 credits of Greek at Intermediate level (300 and above) or higher. Other languages may be taken with approval.		
6 credits of advanced text sequence not taken for M.A., choose from:		6
HEBR-BIB 743	Pentateuchal Narratives	
HEBR-BIB 744	Pentateuchal Legal Codes	
Or		
HEBR-BIB 751	The Book of Isaiah	
HEBR-BIB 752	The Book of Isaiah	
Or		
HEBR-BIB 754	Wisdom Literature: Job	
HEBR-BIB 755	Psalms	
Or		
HEBR-BIB 799	Independent Study (Samuel I & II)	
6 credits not taken for M.A., choose from:		6
CLASSICS/ JEWISH 452	Biblical Archaeology	
HEBR-BIB 723	Classical Hebrew Linguistics: Historical and Descriptive	
3 credits in one graduate-level course in the department as approved by the Hebrew Bible director of graduate studies (this may be a 799 or, preferably, an approved course in Classics).		
9 credits in three graduate level courses approved by director of graduate studies ("Minor courses")		9
3 credits from one seminar		3
CLASSICS 900	Advanced Seminar in Theory and Methodology	
Or		
HEBR-BIB 951	Seminar-Biblical Studies	
Total Credits		36

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

GRADUATE PROGRAM HANDBOOK

A Graduate Program Handbook containing all of the program's policies and requirements is forthcoming from the program.

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate course work from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

With program approval, no more than 6 credits from a UW-Madison undergraduate degree are allowed to count toward the degree by fulfilling the Intermediate Hebrew requirement (HEBR-BIB 323 Intermediate Biblical Hebrew, I-HEBR-BIB 324 Intermediate Biblical Hebrew, II).

UW-Madison University Special

With program approval, students are allowed to count no more than 9 credits of course work numbered 300 or above taken as a UW-Madison University Special student. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements. UW-Madison coursework taken as a University Special student would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

ADVISOR / COMMITTEE

Candidates for the Ph.D. should form a provisional dissertation committee the semester before they intend to complete their last preliminary exam and reach dissertator status. This committee should consist of a dissertation advisor and at least two additional faculty advisors.

During the first semester of dissertator status, candidates will schedule a dissertation proposal defense to discuss the proposal's viability. Under the guidance of their dissertation advisor, candidates will provide all committee members with a detailed abstract of the proposed dissertation, including a synopsis of each chapter and a timeline for scheduled completion. After the

provisional committee has approved the proposal, the candidate may begin writing in consultation with their committee.

The final composition of the dissertation committee must have at least four members representing more than one graduate program, three of whom must be UW–Madison graduate faculty or former UW–Madison graduate faculty up to one year after resignation or retirement. At least one of the four members must be from outside of the student's major program or major field (often from the minor field). Once the dissertation has been completed and approved by the dissertation advisor, the candidate will distribute the final document to all committee members at least four weeks before the anticipated defense date. If the committee supports the dissertation, the advisor will set a date for the oral defense. Dissertation defenses will be scheduled for the academic year only. Graduate students may not hold a dissertation fellowship in any semester following the semester of their defense, regardless of whether or not they have filed their thesis for graduation.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

OTHER

All applications received by January 5 are eligible for fellowship, scholarship, and graduate assistantship opportunities. For applications received after the deadline, applicants will not be eligible for university fellowships or scholarships, although you may be eligible for department funds such as teaching assistantships, project assistantships, research assistantships, or department fellowship.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Please visit the Classical and Ancient Near Eastern Studies website (<https://canes.wisc.edu/people/faculty-and-staff/>) for a complete list of faculty, instructional, and academic staff.

CLASSICS, DOCTORAL MINOR

REQUIREMENTS

12 credits in Greek and Latin courses beyond the elementary level.

All Graduate School requirements for minors (<https://grad.wisc.edu/acadpolicy/?policy=minors>) must be met.

Please contact the graduate coordinator for more information.

PEOPLE

Please visit the Classical and Ancient Near Eastern Studies website (<https://canes.wisc.edu/people/faculty-and-staff/>) for a complete list of faculty, instructional, and academic staff.

GREEK, DOCTORAL MINOR

REQUIREMENTS

9 credits in Greek courses beyond the elementary level.

All Graduate School requirements for minors (<https://grad.wisc.edu/acadpolicy/?policy=minors>) must be met.

Please contact the graduate coordinator for more information.

PEOPLE

Please visit the Classical and Ancient Near Eastern Studies website (<https://canes.wisc.edu/people/faculty-and-staff/>) for a complete list of faculty, instructional, and academic staff.

HEBREW BIBLE, DOCTORAL MINOR

REQUIREMENTS

9 credits in Biblical Hebrew courses beyond the elementary level.

All Graduate School requirements for minors (<https://grad.wisc.edu/acadpolicy/?policy=minors>) must be met.

Please contact the graduate coordinator for more information.

PEOPLE

Please visit the Classical and Ancient Near Eastern Studies website (<https://canes.wisc.edu/people/faculty-and-staff/>) for a complete list of faculty, instructional, and academic staff.

LATIN, DOCTORAL MINOR

REQUIREMENTS

9 credits in Latin courses beyond the elementary level.

All Graduate School requirements for minors (<https://grad.wisc.edu/acadpolicy/?policy=minors>) must be met.

Contact the Graduate Coordinator for more information.

PEOPLE

Please visit the Classical and Ancient Near Eastern Studies website (<https://canes.wisc.edu/people/faculty-and-staff/>) for a complete list of faculty, instructional, and academic staff.

COMMUNICATION ARTS

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Communication Arts, Doctoral Minor (p. 365)
- Communication Arts, M.A. (p. 365)
- Communication Arts, Ph.D. (p. 372)

PEOPLE

Faculty

Professors Kelley Conway (chair), Robert Asen, Jonathan Gray, Robert Glenn Howard, Lea Jacobs, Derek Johnson, Marie-Louise Mares, Zhongdang Pan, Jeff Smith, Lyn Van Swol, and Michael Xenos

Associate Professors Eric Hoyt, Jenell Johnson, Lori Lopez, Sara McKinnon, Jeremy Morris, Ben Singer, and Catalina Toma

Assistant Professors Jason Lopez, Allison Prasch, and Lillie D. Williamson

COMMUNICATION ARTS, DOCTORAL MINOR

Graduate students from other departments may pursue a doctoral minor in Communication Arts in one of four distinct areas of study: Communication Science; Film; Media and Cultural Studies; and Rhetoric, Politics, and Culture. Students should reach out to a faculty member in their chosen area of minor study for guidance in course selection. This faculty member then serves as the student's advisor in the minor, and signs the Minor Agreement Form (contact the graduate coordinator) upon completion of the coursework.

REQUIREMENTS

Course requirements for the minor include:

- A minimum of 9 credits
- All courses must be at the 400 level or above, and at least two courses must be at the 600 level or above
- No audits or pass/fail
- Maximum of 3 credits of COM ARTS 799 Independent Study
- An average GPA of 3.0 on all minor coursework

After coursework has been completed, the student presents the Minor Agreement Form to their advisor in the minor for signature. The Minor Agreement Form should be returned to the student's major department graduate coordinator for help in preparing the warrant.

Program Note: Although students choose a distinct area of study for the minor degree in Communication Arts, the area of study will not be reflected on the transcript; rather it will be recorded as **Minor: Communication Arts**.

PEOPLE

FACULTY

Professors Kelley Conway (chair), Robert Asen, Jonathan Gray, Robert Glenn Howard, Lea Jacobs, Derek Johnson, Marie-Louise Mares, Zhongdang Pan, Jeff Smith, Lyn Van Swol, and Michael Xenos

Associate Professors Eric Hoyt, Jenell Johnson, Lori Lopez, Sara McKinnon, Jeremy Morris, Ben Singer, and Catalina Toma

Assistant Professors Jason Lopez, Allison Prasch, and Lillie D. Williamson

COMMUNICATION ARTS, M.A.

(Program note: Though terminal M.A. degrees may occasionally be awarded, the programs are designed with successful completion of the Ph.D. as the goal.)

The Department of Communication Arts at the University of Wisconsin–Madison has long been one of the world's leading centers for study and research in communication. It was the first department in the United States to award a Ph.D. degree in the field, and its graduates serve on the faculties of leading universities, in research institutions, and in public and private agencies throughout this country and abroad.

The graduate programs in communication arts are designed to educate research scholars. Through intensive coursework within the department and in other departments, and through close professional association with appropriate faculty, graduate students in communication arts gain proficiency and sophistication in their chosen areas of study. Their attainment of doctoral degrees signifies their readiness to work as independent scholars in their areas and to make original contributions to human knowledge.

Communication Arts offers four distinct areas of graduate study:

COMMUNICATION SCIENCE¹

Communication science is concerned with how people interact with one another in various means, modes, and contexts. It involves social scientific exploration utilizing both quantitative and qualitative methods. Reflecting the multi-faceted nature of the subject matter and a cross-disciplinary orientation of the field, students in communication science typically complete course work both in the department and in other social science fields. Graduate study in communication science is flexible and tailored to the individual. With a low faculty-to-student ratio and close collaboration with related academic units on campus, students have high access to faculty and with it, opportunities to work closely with faculty on research and broaden their horizon. Students are expected to develop fluency in at least two of the following areas:

- *Social influence* that focuses interpersonal interactions, both online and offline, as well as group and organizational dynamics. It examines information exchange, persuasion, and other influence processes in various social contexts.
- *Computer-mediated communication* that examines individuals' uses of the media with digital, interactive, and networking features, as well as the effects of such usage on self, relationships, group dynamics, and other social processes.
- *Human development and communication* that addresses communication in relation to life cycle, focusing in particular on life cycle patterns in the means and modes of communication, as well as the effects of communicative engagement and media usage of youths and aging.
- *Political communication* that focuses on patterns and effects of communication, both face-to-face and mediated, on the democratic process. In particular it concerns how communication shapes the public sphere, how public deliberation over political issues takes place, and how the media may be related to civic and political engagement.

FILM¹

The study of film concentrates primarily on motion picture history, theory, and criticism, approached through intensive critical analysis of individual films; research into the primary documents of filmmakers and the film industry; and the construction of theoretical models of film forms and styles, national cinemas, film genres, and the economics of the film industry. The program believes in the connection between film studies and film practice. Courses in film production enhance our understanding of motion picture history, theory, and criticism by revealing the practical decisions filmmakers confront. The program is not designed for students whose sole interest is in film production.

MEDIA AND CULTURAL STUDIES¹

The media and cultural studies (MCS) program emphasizes the study of media in their historical, economic, social, and political context. MCS courses examine the cultural forms created and disseminated by media industries and the ways in which they resonate in everyday life, on the individual, national, and global level. Focusing primarily on sound and screen media—television, new media, film, popular music, radio, video games—but reaching out across boundaries, MCS encourages interdisciplinary and transmedia research. MCS courses draw on a broad range of cultural theories spanning a spectrum of concerns all centrally relevant to the functioning of sound and screen media in a diverse and globalizing cultural environment.

RHETORIC, POLITICS, AND CULTURE¹

Whether speaking from the podium or chatting on Facebook, people use discourse to craft identities, enact social change, and form a shared sense of community. Seeking to better understand this social force, the study of discourse explores significant themes, trajectories, and transformations in politics and society while considering particular individuals and groups, cultures, eras, genres, and topics. Courses in this area explore issues of power, digital media, citizenship, gender, sexuality, race, ethnicity, globalization, religion, inclusion and exclusion, social status, and marginalization.

Graduate work in rhetoric focuses on three interrelated areas: discourse, theory, and method. All three areas of study in rhetoric, politics, and culture are united by a common commitment to understanding the role of discourse in society as we act together to engage in culture and politics. Students are encouraged to investigate a wide range of discursive phenomena as they develop expertise that will empower them to conduct significant research and to take an active role in scholarly communities.

- ¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Applicants choose their area of study when applying to the program; however, the specific area of study will not appear on the transcript.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.*
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

- * Due to COVID-19, there have been challenges for students attempting to take the GRE. For students applying for Fall 2021, the GRE requirement is optional. Regardless of whether GRE scores are submitted, all applications will be held in equal regard.

(Program note: Though terminal M.A. degrees may occasionally be awarded, the programs are designed with successful completion of the Ph.D. as the goal.)

Our graduate program considers students for fall semester admission only.

Applications are due December 15.

Applicants must have earned a bachelor's degree from an accredited institution. The Graduate School minimum GPA is 3.0 on a 4.0 scale. The department likes to see at least a 3.25 in courses relevant to the area in which you apply, although successful applicants usually have much higher GPAs.

Within the department, **students may apply to only one track of study, which must be indicated on the statement of purpose:** Communication Science; Film; Media and Cultural Studies; or Rhetoric, Politics, and Culture.

There are five supporting documents which complete the application:

1. **Statement of purpose** clearly telling us what you want to study and why you think you can do it here. Although it cannot be said to be the most important part of your application, the statement of purpose is our introduction to you as a student and as such, you will want it to be as professional and persuasive as possible to put your application in the best light.
2. **Three letters of recommendation**, preferably from academic sources. Email addresses of recommenders are submitted within the online application.
3. Official **GRE score** sent to us from ETS. The department requires no minimum GRE scores; however, successful candidates typically score well on portions of the examination related to their area of study. We don't set absolute numbers because each year's applicants are judged against all others in that year only. UW–Madison is institution #1846; no department code is necessary.
4. **PDFs of transcripts** from all postsecondary schools attended after high school. Official transcripts will be requested upon admission.
5. **A writing sample** (in English), 15–20 pages long. The best writing sample is an academic paper you wrote for a class related to the area in which you apply. It should have citations and footnotes. You may send a portion of a longer thesis if you wish, but please select a representative sample no longer than 20 pages. Include a cover page identifying it as a chapter or section of a longer work.

INTERNATIONAL APPLICANTS: An official **TOEFL, IELTS or MELAB score** sent to us from ETS is required for all applicants whose native language is not English. UW–Madison is institution #1846; no department code is necessary. The minimum scores are as follows:

- TOEFL: 92 on an internet-based exam; 580 on a paper-based exam
- IELTS: 7
- MELAB: 82

We will waive the TOEFL requirement if you have a bachelor's degree from an English-speaking institution.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

(Program note: Though terminal M.A. degrees may occasionally be awarded, the programs are designed with successful completion of the Ph.D. as the goal.)

Beginning graduate students in communication arts receive 10 consecutive semesters of guaranteed funding if they are entering with a bachelor's degree, complete their master's degree, and plan to continue on to the Ph.D. The guaranteed funding package for graduate students includes full tuition remission, monthly compensation, and benefits including health insurance.

Most communication arts graduate students are supported by teaching assistantships (TA). Additional funding comes in the form of research assistantships (RA), project assistantships (PA), Graduate School–supported fellowships, departmental awards, and conference travel awards.

Graduate Assistantships

Graduate students who hold an appointment as a TA, RA, or PA will be entitled to remission of tuition in any semester in which their appointment equals at least 33.4% of a full-time appointment for the semester. Graduate assistantships in communication arts are typically offered at the 50% level, which is a full-time appointment for a full-time student.

Graduate School-Supported Fellowships

A limited number of fellowships are available. All students are considered for fellowships at the time of application; no separate application is necessary. These fellowships may be for terms from one semester to two years and include tuition remission and benefits including health insurance.

Department Awards

The Department of Communication Arts is pleased to be able to grant yearly monetary awards to graduate students based on scholastic performance. Nominations for the awards are generated by the faculty in the four areas of graduate study. To be eligible for consideration, graduate students must be continuing in the program, must be making satisfactory progress toward their degree, and must not have any incompletes on their transcript. The amount and number of awards vary from year to year depending on funds available.

Conference Travel Awards

The department provides a once-per-academic-year travel stipend for students to present academic papers at a conference. Students

not residing in Madison during the semester in which they present at conference are not eligible for this funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

- Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.
- Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.
- Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.
- Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.
- Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide (https://registrar.wisc.edu/course-guide/)).
Overall Requirement	3.00 GPA required. (see below for GPA requirement of Graduate GPA coursework taken within the department)
Other Grade Requirements	A cumulative GPA for coursework within the department Requirements of 3.5 or above.

Assessments and Examinations To assess satisfactory progress toward the degree and to facilitate determinations of good standing, graduate students must complete a Professional Activities Report (PAR) each spring. A PAR indicates a student's academic and professional activities on and off campus each year. Faculty will use the PAR in their annual evaluations of student progress. A PAR represents one means of communication between graduate students and faculty, providing graduate students with an opportunity to enumerate their activities in a single document. PARS must be completed by April 1 each spring.

M.A. comprehensive examinations or theses are generally done in the student's fourth semester of study. To take comprehensive exams or complete a thesis, a student must be in good standing, and must have completed the basic and specific area course requirements. Additional requirements vary by area of study. They are as follows:

Communication Science students must complete and defend an M.A. thesis. In rare exceptions, students admitted to the graduate program may decide to leave with only an M.A. In that case, they may complete the non-thesis, terminal option. In lieu of the thesis and oral defense, two of the courses in Communication Science must be at the 800 level or above, and students must pass a four-hour written comprehensive examination which covers communication theory, research methodology, and a topic area of the student's specialization.

Film students' comprehensive exam consists of six hours of writing that cover the areas of film theory, film history, and film analysis and criticism. The completion of the written portion of the exam is followed by an oral defense. There is no option to write a thesis in lieu of the comprehensive exam.

Media and Cultural Studies students' comprehensive exam, consists of six hours of writing, normally distributed across four questions, followed by an oral defense. Exam areas are drawn from the coursework the examinee has taken in media and cultural studies. Reading lists are determined in consultation with the student's advisor and core faculty members. There is no option to write a thesis in lieu of the comprehensive exam.

Rhetoric, Culture, and Politics students must complete and defend an M.A. thesis. In rare exceptions, students admitted to the graduate program may decide to leave with only an M.A. In that case, students may complete the non-thesis, terminal option and take a comprehensive exam consisting of three, one-hour written exams addressing theory, critical method, and public discourse.

Language Requirements Students interested in writing a dissertation on a national cinema other than the U.S. are expected to complete two years of foreign language study.

REQUIRED COURSES

Successful completion of the master's degree requires a minimum of 30 credit hours, which includes coursework, independent study, and research credits. This requirement stipulates that at least 50 percent of

these credit hours must be received in courses specifically designed for graduate work, which the Graduate School defines as:

- courses numbered 700 and above;
- courses numbered 300–699 that are specifically designed for graduate students in a graduate program;
- courses numbered 300–699 that assess graduate students separately from undergraduate students;
- courses numbered 300–699 that have a graduate student enrollment greater than 50 percent in a given semester.

The department requires that a minimum of 16 credit hours must be completed in residence.

Each area of graduate study has further specific requirements for the completion of the M.A.:

Communication Science Track ¹

Code	Title	Credits
COM ARTS 760	Advances in Communication Theories	3
COM ARTS 762	Communication Research Methods	3
Four additional Communication Science courses numbered 500 or above ²		
At least one course in statistics		
Two additional courses		
COM ARTS 904	Communication Science Colloquium ³	1

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

² Only one of these courses may be COM ARTS 990 Research and Thesis. Colloquium does not count toward this requirement.

³ One credit of COM ARTS 904 Communication Science Colloquium must be taken each semester.

Film Track ^{1,2}

Code	Title	Credits
COM ARTS 358	History of Documentary Film	3
COM ARTS 454	Critical Film Analysis	3
COM ARTS 455	French Film	3
COM ARTS 463	Avant-Garde Film	3
COM ARTS 556	The American Film Industry in the Era of the Studio System	3
Two 900-level seminars		
COM ARTS 902	Film Colloquium ³	1

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

² Some required courses may be waived if the student already has taken equivalent courses. A determination about waiving courses is made by a student's advisor after reviewing syllabi and other relevant materials. Students who enter the program without an undergraduate degree in film may be required to take additional coursework.

³ One credit of COM ARTS 904 Communication Science Colloquium must be taken each semester.

Media and Cultural Studies Track ^{1,2}

Code	Title	Credits
At least 24 credits at the 600 level and above		
At least three 900-level MCS seminars		
COM ARTS 903	Media and Cultural Studies Colloquium ³	1

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

² Students who enter the program without an undergraduate degree in media studies may be required to take additional coursework.

³ One credit of COM ARTS 904 Communication Science Colloquium must be taken each semester.

Rhetoric, Politics, and Culture Track ^{1,2}

Code	Title	Credits
COM ARTS 571	Contemporary Rhetorical Theory	2-3
or COM ARTS 969 Seminar: Contemporary Rhetorical Theory		
COM ARTS 976	Seminar in Rhetorical Criticism	2-3
Two Communication Arts courses at the 300 level or above in Public Discourse		
COM ARTS 902	Film Colloquium ³	1

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

² Some of the preceding courses may be waived if a student has taken the equivalent elsewhere. All other courses should be chosen in consultation with the student's advisor. Of the remaining courses, at least two courses must be at the 700 level or above.

³ One credit of COM ARTS 904 Communication Science Colloquium must be taken each semester.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a Master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, students are allowed to count no more than 7 credits of graduate coursework taken as a UW–Madison undergraduate student. Coursework earned five or more years prior to admission to a master's degree or earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count no more than 15 credits of graduate coursework taken as a UW–Madison Special student. Coursework earned five or more years prior to admission to a master's degree or earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

All graduate students must stay "in good standing" in the department to be eligible for teaching assignments, awards, and fellowships, and in order to be considered to be making satisfactory progress in the program. Students whose progress is rated unsatisfactory by their faculty may face loss of funding and/or dismissal from the program.

The department's minimum criteria for good standing are:

1. Timely progress through the program, consisting of successful completion of M.A. requirements and compliance with coursework, advising, and thesis/comprehensive exam expectations.
2. A cumulative grade point average for coursework within the department of 3.5 or above.
3. No grades of Incomplete on the student's record.
4. Fulfillment of responsibilities for teaching/project assistantships or lectureships.

Students are expected to carry a full load, defined as three courses (nine credits) plus colloquium (one credit) per semester, unless a student's advisor recommends an exception.

ADVISOR / COMMITTEE

Although an initial faculty advisor is assigned to each student during the summer prior to matriculation in the graduate program, students should seek out regular advisors by the end of their first year in residence. The regular advisor should be a faculty member whose research interests and methodological expertise match closely to those that the student intends to acquire. While no faculty member is obliged to accept a student's request to serve as advisor, invitations are usually accepted except where the faculty member judges that a different advisor would serve the student's needs and interests better.

Early in the semester in which the comprehensive exam/thesis will be completed, students will form an M.A. defense committee consisting of three to four faculty members, one of which is their advisor. In the case of comprehensive examinations, all committee members will write exam questions, read the answers, and sit on the M.A. defense. In the case of a thesis, all committee members will read the manuscript and sit on the M.A. defense.

CREDITS PER TERM ALLOWED

10-credit maximum unless additional credits are approved by faculty advisor, up to 15

TIME CONSTRAINTS

Master's degrees are generally expected to be completed within five semesters of matriculation.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

Incoming M.A. students are generally offered five academic years (fall semester and spring semester) of support in the form of teaching assistantships, project assistantships, and fellowships. Incoming Ph.D. students are generally offered three years of support. This support includes a stipend, tuition remission, and benefits.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

Graduate students should consider opportunities for professional development as they begin their programs of graduate study. As students

plan programs of study, participation in campus and disciplinary organizations, scholarly presentations at academic conferences, and potential outlets for publication of research, they should consider the ways that these activities begin to establish areas of scholarly and pedagogical competence, connections with other researchers and teachers in the field, and audiences for their scholarship. Some of the best resources for professional development are the people—both faculty and other graduate students—in the Department of Communication Arts. These people may serve as sources of valuable advice and information, and their actions may provide examples of practices that promote professional development. Further, campus-wide resources are available to enrich students' graduate studies and enhance their professional skills.

DEPARTMENT RESOURCES FOR PROFESSIONAL DEVELOPMENT

Two important departmental resources for professional development are a **graduate student's advisor** and the **department colloquia**.

The **advisor** is concerned with a graduate student's academic progress as well as with the professional development of advisees. Throughout a graduate student's residence in the program (and often beyond), an advisor will discuss and answer questions and concerns about professional development. For instance, as submission deadlines to academic conferences approach, an advisor may discuss with a student potential submission options and the appropriate venues for these submissions. If a student is working on revising a seminar paper for potential publication in an academic journal, an advisor will often guide the student through the revision process. When a student is applying for jobs, an advisor will often edit application materials. When a student is interviewing for a position or negotiating a job offer, an advisor will often provide tips for how to proceed.

The **department colloquia** offers additional resources for professional development. The four areas of study (Communication Science; Film; Media and Cultural Studies; and Rhetoric, Politics, and Culture) hold individual and joint colloquia on most Thursday afternoons during the academic year. Often, these colloquia are devoted to research presentations from department faculty and graduate students as well as campus visitors. Sometimes, the colloquia will address issues of professional development. Colloquia topics on professional development include practicing conference presentations; preparing a teaching dossier; practicing job talks; negotiating the revise and resubmit process in journal publishing; and networking. Colloquia on professional development engage graduate students in discussion on professional topics, workshop materials, and offer advice on best practices.

FACULTY REVIEWS OF GRADUATE STUDENT TEACHING

Since most Communication Arts Ph.D. students pursue academic careers, developing teaching skills constitutes an important aspect of professionalization. Some colleges and universities may ask a student to prepare a teaching demonstration as part of the on-campus interview process, or otherwise seek evaluation and evidence of a graduate student's teaching abilities. To facilitate the development of graduate student teaching, faculty will provide reviews of teaching assistants (TA) in courses in which they have worked directly with graduate students in the classroom. Graduate students should expect these reviews in every semester in which they serve as a TA in one of these faculty-led courses (e.g., a lecture-discussion section course taught by a faculty member). These reviews are intended to help students identify strengths in their teaching as well as areas in which they may improve. In relevant courses, faculty will deposit an electronic copy of a teaching review

with the graduate coordinator no more than two weeks after a semester has concluded. The graduate coordinator will maintain files of teaching reviews for each graduate student in the department. The graduate coordinator will send a copy of the review to the student's advisor. Faculty also will share a copy of the review with the student reviewed, who may wish to incorporate favorable reviews and quotations into a teaching dossier. Graduate students should feel welcome to discuss all reviews with their supervising faculty members. Graduate students should note, too, that these reviews will assist faculty in addressing matters of pedagogy when preparing letters of recommendation for academic employment, which will benefit students in their job searches.

TRAVEL TO MEETINGS AND CONFERENCES

The Department of Communication Arts provides a once-per-academic-year travel stipend for those students who will be presenting a paper at an academic conference. Students who are not residing in Madison during the semester in which they present at a conference are not eligible for this funding.

INSTRUCTIONAL MEDIA CENTER

Located on the third floor of Vilas Hall, the Instructional Media Center (IMC) provides media and technology services for the entire department. The IMC houses the Hamel Family Digital Media Lab, the Walter Mirisch Seminar Room, and Communication Arts media production classrooms. The IMC circulates laptops, video projectors, and other equipment to graduate students for instruction and short-term use. The IMC also maintains a media library containing thousands of DVDs and blu-rays of films, television shows, video games, and off-air recordings. Graduate students may check out any item not reserved for classroom use for their research. IMC staff can assist graduate students with their research needs. Upon request, the IMC can provide film to video transfers, media creation (files, DVDs, blu-rays), and video capture, as well as training in these areas. The IMC provides assistance for the Center for Communication Research. The IMC is staffed by individuals with a wide range of media knowledge and skills to assist graduate students.

LEARNING OUTCOMES

1. Articulates, critiques, or elaborates the theories, research methods, and approaches to inquiry or schools of practice in the field of study.
2. Identifies sources and assembles evidence pertaining to questions or challenges in the field of study.
3. Demonstrates understanding of the primary field of study in a historical, social, or global context.
4. Selects and/or utilizes the most appropriate methodologies and practices.
5. Evaluates or synthesizes information pertaining to questions or challenges in the field of study.
6. Communicates clearly in ways appropriate to the field of study.
7. Recognizes and applies principles of ethical and professional conduct.

PEOPLE

FACULTY

Professors Kelley Conway (chair), Robert Asen, Jonathan Gray, Robert Glenn Howard, Lea Jacobs, Derek Johnson, Marie-Louise Mares, Zhongdang Pan, Jeff Smith, Lyn Van Swol, and Michael Xenos

Associate Professors Eric Hoyt, Jenell Johnson, Lori Lopez, Sara McKinnon, Jeremy Morris, Ben Singer, and Catalina Toma

Assistant Professors Jason Lopez, Allison Prasch, and Lillie D. Williamson

COMMUNICATION ARTS, PH.D.

The Department of Communication Arts at the University of Wisconsin in Madison has long been one of the world's leading centers for study and research in communication. It was the first department in the United States to award a Ph.D. degree in the field, and its graduates serve on the faculties of leading universities, in research institutions, and in public and private agencies throughout this country and abroad.

The graduate programs in communication arts are designed to educate research scholars. Through intensive coursework within the department and in other departments, and through close professional association with appropriate faculty, graduate students in communication arts gain proficiency and sophistication in their chosen areas of study. Their attainment of doctoral degrees signifies their readiness to work as independent scholars in their areas and to make original contributions to human knowledge.

Communication Arts offers four distinct areas of graduate study:

COMMUNICATION SCIENCE¹

Communication science is concerned with how people interact with one another in various means, modes, and contexts. It involves social scientific exploration utilizing both quantitative and qualitative methods. Reflecting the multi-faceted nature of the subject matter and a cross-disciplinary orientation of the field, students in communication science typically complete course work both in the department and in other social science fields. Graduate study in communication science is flexible and tailored to the individual. With a low faculty-to-student ratio and close collaboration with related academic units on campus, students have high access to faculty and with it, opportunities to work closely with faculty on research and broaden their horizon. Students are expected to develop fluency in at least two of the following areas:

- *Social influence* that focuses interpersonal interactions, both online and offline, as well as group and organizational dynamics. It examines information exchange, persuasion, and other influence processes in various social contexts.
- *Computer-mediated communication* that examines individuals' uses of the media with digital, interactive, and networking features, as well as the effects of such usage on self, relationships, group dynamics, and other social processes.
- *Human development and communication* that addresses communication in relation to life cycle, focusing in particular on life cycle patterns in the means and modes of communication, as well as the effects of communicative engagement and media usage of youths and aging.
- *Political communication* that focuses on patterns and effects of communication, both face-to-face and mediated, on the democratic process. In particular it concerns how communication shapes the public sphere, how public deliberation over political issues takes place, and how the media may be related to civic and political engagement.

FILM¹

The study of film concentrates primarily on motion picture history, theory, and criticism, approached through intensive critical analysis of individual films; research into the primary documents of filmmakers and the film industry; and the construction of theoretical models of film forms and styles, national cinemas, film genres, and the economics of the film industry. The program believes in the connection between film studies and film practice. Courses in film production enhance our understanding of motion picture history, theory, and criticism by revealing the practical decisions filmmakers confront. The program is not designed for students whose sole interest is in film production.

MEDIA AND CULTURAL STUDIES¹

The media and cultural studies (MCS) program emphasizes the study of media in their historical, economic, social, and political context. MCS courses examine the cultural forms created and disseminated by media industries and the ways in which they resonate in everyday life, on the individual, national, and global level. Focusing primarily on sound and screen media—television, new media, film, popular music, radio, video games—but reaching out across boundaries, MCS encourages interdisciplinary and transmedia research. MCS courses draw on a broad range of cultural theories spanning a spectrum of concerns all centrally relevant to the functioning of sound and screen media in a diverse and globalizing cultural environment.

RHETORIC, POLITICS, AND CULTURE¹

Whether speaking from the podium or chatting on Facebook, people use discourse to craft identities, enact social change, and form a shared sense of community. Seeking to better understand this social force, the study of discourse explores significant themes, trajectories, and transformations in politics and society while considering particular individuals and groups, cultures, eras, genres, and topics. Courses in this area explore issues of power, digital media, citizenship, gender, sexuality, race, ethnicity, globalization, religion, inclusion and exclusion, social status, and marginalization.

Graduate work in rhetoric focuses on three interrelated areas: discourse, theory, and method. All three areas of study in rhetoric, politics, and culture are united by a common commitment to understanding the role of discourse in society as we act together to engage in culture and politics. Students are encouraged to investigate a wide range of discursive phenomena as they develop expertise that will empower them to conduct significant research and to take an active role in scholarly communities.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Applicants choose their area of study when applying to the program; however, the specific area of study will not appear on the transcript.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) of the Graduate School as well as the program(s). Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.*
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

* Due to COVID-19, there have been challenges for students attempting to take the GRE. For students applying for Fall 2021, the GRE requirement is optional. Regardless of whether GRE scores are submitted, all applications will be held in equal regard.

Our graduate program considers students for fall semester admission only.

Applications are due December 15.

Applicants must have earned a master's degree from an accredited institution. The Graduate School minimum GPA is 3.0 on a 4.0 scale. The department likes to see at least a 3.25 in courses relevant to the area in which you apply, although successful applicants usually have much higher GPAs.

Within the department, **students may apply to only one track of study, which must be indicated on the statement of purpose:** Communication Science; Film; Media and Cultural Studies; or Rhetoric, Politics, and Culture.

There are five supporting documents which complete the application:

1. **Statement of purpose** clearly telling us what you want to study and why you think you can do it here. Although it cannot be said to be the most important part of your application, the statement of purpose is our introduction to you as a student and as such, you will want it to be as professional and persuasive as possible to put your application in the best light.
2. **Three letters of recommendation**, preferably from academic sources. Email addresses of recommenders are submitted within the online application.
3. Official **GRE results** sent to us from ETS. The department requires no minimum GRE scores; however, successful candidates typically score well on portions of the examination related to their area of study. We don't set absolute numbers because each year's applicants are judged against all others in that year only. UW-Madison is institution #1846; no department code is necessary.
4. **PDFs of transcripts** from all post-secondary schools attended after high school. Official transcripts will be requested upon admission.
5. **A writing sample** (in English), 15-20 pages long. The best writing sample is an academic paper you wrote for a class related to the

area in which you apply. It should have citations and footnotes. You may send a portion of a longer thesis if you wish, but please select a representative sample no longer than 20 pages. Include a cover page identifying it as a chapter or section of a longer work.

INTERNATIONAL APPLICANTS: An official **TOEFL, IELTS or MELAB score** sent to us from ETS is required for all applicants whose native language is not English. UW-Madison is institution #1846; no department code is necessary. The minimum scores are as follows:

- TOEFL: 92 on an internet-based exam; 580 on a paper-based exam
- IELTS: 7
- MELAB: 82

We will waive the TOEFL requirement if you have a master's degree from an English-speaking institution.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Beginning Ph.D. students in Communication Arts receive six consecutive semesters of guaranteed funding if they are entering with an M.A. in their area of focus. Students who enter with an M.A. outside of their area of focus may be required to complete an M.A. in their area of focus prior to continuing on to the Ph.D. In these cases, students receive 10 consecutive semesters of guaranteed support. The guaranteed funding package for graduate students includes full tuition remission, monthly compensation, and benefits including health insurance.

Most communication arts graduate students are supported by teaching assistantships (TA). Additional funding comes in the form of research assistantships (RA), project assistantships (PA), senior lecturer appointments (SLA), Graduate School-supported fellowships, dissertation scholarships, departmental awards, and conference travel awards.

Graduate Assistantships

Graduate students who hold an appointment as a TA, RA, or PA will be entitled to remission of tuition in any semester in which their appointment equals at least 33.4% of a full-time appointment for the semester. Graduate assistantships in communication arts are typically offered at the 50% level, which is a full-time appointment for a full-time student.

Senior Lecturer Appointments

Students are assigned to SLA by faculty each semester based on need.

Graduate School Supported Fellowships

A limited number of fellowships are available. All students are considered for fellowships at the time of application; no separate application is necessary. These fellowships may be for terms from one semester to

two years and include tuition remission and benefits including health insurance.

Dissertation Scholarships

The department awards Elliott Dissertation Scholarships to students who have successfully defended their dissertation proposal no later than 12 months after passing their preliminary exams. This award is designed to facilitate progress on researching and writing the dissertation.

Department Awards

The Department of Communication Arts is pleased to be able to grant yearly monetary awards to graduate students based on scholastic performance. Nominations for the awards are generated by the faculty in the four areas of graduate study. To be eligible for consideration, graduate students must be continuing in the program, must be making satisfactory progress toward their degree, and must not have any incompletes on their transcript. The amount and number of awards vary from year to year depending on funds available.

Conference Travel Awards

The department provides a once-per-academic-year travel stipend for students to present academic papers at a conference. Students not residing in Madison during the semester in which they present at a conference are not eligible for this funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS
MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

- Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.
- Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.
- Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.
- Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.
- Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	40 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required. (see below for GPA requirement of coursework taken within the department)
Other Grade Requirements	3.5 average required of all coursework taken within the department.

Assessments and Examinations To assess satisfactory progress toward the degree and to facilitate determinations of good standing, graduate students must complete a Professional Activities Report (PAR) each spring. A PAR indicates a student's academic and professional activities on and off campus each year. Faculty will use the PAR in their annual evaluations of student progress. A PAR represents one means of communication between graduate students and faculty, providing graduate students with an opportunity to enumerate their activities in a single document. PARS must be completed by April 1 each spring.

Students must successfully complete preliminary examinations before moving on to dissertator status. To take preliminary examinations, students must have completed all of the Ph.D. coursework requirements of their area and their minor coursework. Additional requirements vary by area of study. They are as follows:

Communication Science prelims consist of 16 hours of written examinations in the following areas:

Communication processes and contexts (8 hours): four hours each in two major topic areas in the field focusing on theories and major empirical findings

Specialization (4 hours): four hours in the student's area of specialization; typically, the dissertation research dictates the area of specialization

Quantitative research methodology and theory construction (4 hours): this portion of the exam may include questions addressing statistics, research design, measurement, and the construction and evaluation of theory

Film prelims consist of 12 hours of written examination divided across the following four concentrations:

Film theory (3 hours)

Film history (3 hours)

Film analysis and criticism (3 hours)

Area of specialization determined in consultation with the student's advisor (3 hours)

Media and Cultural Studies prelims consists of 24 hours of written examinations as follows: four open-book essay exams, six hours each, taken on separate days.

The examination covers a combination of general and specialized areas in relation to the planned dissertation project, to be chosen in a group consultation with the student's advisor and major faculty.

Rhetoric, Politics, and Culture prelims consist of 12 hours of written examination divided across the following four concentrations:

Rhetorical theory (3 hours)

Rhetorical discourse (3 hours)

Critical method (3 hours)

Area of specialization determined in consultation with the student's advisor and doctoral committee (3 hours)

Language Requirements Depending on their dissertation topic, students in the Communication Science and Film areas may need to fulfill a foreign language requirement. The need for such a requirement is determined by the student's advisor and doctoral committee.

Doctoral Minor/Breadth Requirements All doctoral students are required to complete a minor of at least 9 credits.

REQUIRED COURSES

Successful completion of the Ph.D. requires a minimum of 51 credit hours, which includes coursework, independent study, and research credits. This requirement stipulates that at least 50 percent of these credit hours must be received in courses specifically designed for graduate work, which the Graduate School defines as:

- courses numbered 700 and above;
- courses numbered 300–699 that are specifically designed for graduate students in a graduate program;
- courses numbered 300–699 that assess graduate students separately from undergraduate students;
- courses numbered 300–699 that have a graduate student enrollment greater than 50 percent in a given semester.

Credit hours taken towards the completion of a master's degree in the Department of Communication Arts may count toward this requirement. Credit hours taken while enrolled as a graduate student outside of the department and UW–Madison may count toward this requirement with the approval of the Graduate Committee. The department requires that a minimum of 40 credit hours must be completed in residence.

Communication Science Track ¹

Code	Title	Credits
COM ARTS 760	Advances in Communication Theories	3
COM ARTS 762	Communication Research Methods	3
At least one additional course in research methods		
At least two courses in statistics		
Four additional Communication Science courses at the 500 level or above. One semester of COM ARTS 990 may count toward this requirement. Colloquium does not count toward this requirement.		
At least four additional courses at the 700 level or above. At least one of these courses must be COM ARTS 970. Only one of these courses may be COM ARTS 799.		
COM ARTS 904	Communication Science Colloquium (One credit per semester)	1

Completion of a 9-credit minor

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Film Track ¹

Code	Title	Credits
COM ARTS 958	Seminar in Film History (Topic: Historiography of Film)	2-3

COM ARTS 902	Film Colloquium (One credit per semester)	1
--------------	---	---

Completion of a 9-credit minor

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Media and Cultural Studies Track ¹

Code	Title	Credits
------	-------	---------

At least 12 credits at the 900 level in COM ARTS courses

COM ARTS 903	Media and Cultural Studies Colloquium (One credit per semester)	1
--------------	---	---

Completion of a 9-credit minor

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Rhetoric, Politics, and Culture Track ¹

Completion of a 9-credit minor

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a Master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, students are allowed to count no more than 7 credits of graduate coursework taken as a UW–Madison undergraduate student. Coursework earned five or more years prior to admission to a master's degree or earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count no more than 15 credits of graduate coursework taken as a UW–Madison Special student. Coursework earned five or more years prior to admission to a master's degree or earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

All graduate students must stay "in good standing" in the department to be eligible for teaching assignments, awards, and fellowships, and in order to be considered to be making satisfactory progress in the program. Students whose progress is rated unsatisfactory by their faculty may face loss of funding and/or dismissal from the program.

The department's minimum criteria for good standing are:

1. Timely progress through the program, consisting of successful completion of M.A. requirements and compliance with coursework, advising, and thesis/comprehensive exam expectations.
2. A cumulative grade point average for coursework within the department of 3.5 or above.
3. No grades of Incomplete on the student's record.
4. Fulfillment of responsibilities for teaching/project assistantships or lectureships.

ADVISOR / COMMITTEE

Although an initial faculty advisor is assigned to each student during the summer prior to matriculation in the graduate program, students should seek out regular advisors by the end of their first year in residence. The regular advisor should be a faculty member whose research interests and methodological expertise match closely to those that the student intends to acquire. While no faculty member is obliged to accept a student's request to serve as advisor, invitations are usually accepted except where the faculty member judges that a different advisor would serve the student's needs and interests better.

Early in the semester in which the preliminary exams will be completed, students will form a **prelim committee** consisting of three to four faculty members, one of which is the student's advisor. In the case of preliminary examinations, all committee members will write exam questions, read the answers, and sit on the prelim defense.

Upon passing preliminary examinations, students will form a **dissertation proposal committee**, consisting of three to four faculty members, one of which is the student's advisor. Before the student may proceed with writing the dissertation, the proposal must be approved by the dissertation proposal committee. While writing the dissertation, a student must obtain the approval of the advisor for modifications to the dissertation that depart significantly from the proposal.

Once the dissertation proposal has been approved, the student must form a **dissertation committee**. The dissertation committee serves as the final oral committee before whom the student must defend the completed dissertation manuscript. Often the members of the dissertation proposal committee serve on the dissertation committee as well, but the membership of the two committees may differ. A dissertation committee

consists of at least four members, three of whom must be UW–Madison graduate faculty: the student's advisor, at least two additional members from the student's primary area of concentration, and at least one member from outside the department which may be someone on campus or from another institution. All members of a student's dissertation committee must be designated as "readers," defined as committee members who commit themselves to closely reading and reviewing the entire dissertation.

In exceptional circumstances, the student may seek a **formal co-advisor** for their dissertation committee. The department recognizes two situations in which this may be appropriate: (1) the student's dissertation project genuinely pursues an interdisciplinary topic that requires the equal involvement of a faculty member in Communication Arts and a faculty member in another department at UW–Madison; or (2) the student's advisor retires or resigns from the University, and the student cannot complete the dissertation within one year of the retirement or resignation, which requires the student to seek a new advisor in the department. (For the second situation, this person becomes the newly selected advisor.)

CREDITS PER TERM ALLOWED

10-credit maximum unless additional credits are approved by faculty advisor, up to 15

TIME CONSTRAINTS

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)

- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

Incoming M.A. students are generally offered 5 academic years (fall semester and spring semester) of support in the form of teaching assistantships, project assistantships, and fellowships. Incoming Ph.D. students are generally offered 3 years of support. This support includes a stipend, tuition remission, and benefits.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

Graduate students should consider opportunities for professional development as they begin their programs of graduate study. As students plan programs of study, participation in campus and disciplinary organizations, scholarly presentations at academic conferences, and potential outlets for publication of research, they should consider the ways that these activities begin to establish areas of scholarly and pedagogical competence, connections with other researchers and teachers in the field, and audiences for their scholarship. Some of the best resources for professional development are the people—both faculty and other graduate students—in the Department of Communication Arts. These people may serve as sources of valuable advice and information, and their actions may provide examples of practices that promote professional development. Further, campus-wide resources are available to enrich students' graduate studies and enhance their professional skills.

DEPARTMENT RESOURCES FOR PROFESSIONAL DEVELOPMENT

Two important departmental resources for professional development are a **graduate student's advisor** and the **department colloquia**.

The **advisor** is concerned with a graduate student's academic progress as well as with the professional development of advisees. Throughout a graduate student's residence in the program (and often beyond), an advisor will discuss and answer questions and concerns about professional development. For instance, as submission deadlines to academic conferences approach, an advisor may discuss with a student potential submission options and the appropriate venues for these submissions. If a student is working on revising a seminar paper for potential public in an academic journal, an advisor will often guide the student through the revision process. When a student is applying for jobs, an advisor will often edit application materials. When a student is interviewing for a position or negotiating a job offer, an advisor will often provide tips for how to proceed.

The **department colloquia** offers additional resources for professional development. The four areas of study (Communication Science; Film; Media and Cultural Studies; and Rhetoric, Politics, and Culture) hold individual and joint colloquia on most Thursday afternoons during the academic year. Often, these colloquia are devoted to research presentations from department faculty and graduate students as well as campus visitors. Sometimes, the colloquia will address issues of professional development. Colloquia topics on professional development include practicing conference presentations; preparing a teaching dossier; practicing job talks; negotiating the revise and resubmit process in journal publishing; and networking. Colloquia on professional development engage graduate students in discussion on professional topics, workshop materials, and offer advice on best practices.

FACULTY REVIEWS OF GRADUATE STUDENT TEACHING

Since most Communication Arts Ph.D.s pursue academic careers, developing teaching skills constitutes an important aspect of professionalization. Some colleges and universities may ask a student to prepare a teaching demonstration as part of the on-campus interview process, or otherwise seek evaluation and evidence of a graduate student's teaching abilities. To facilitate the development of graduate student teaching, faculty will provide reviews of teaching assistants (TA) in courses in which they have worked directly with graduate students in the classroom. Graduate students should expect these reviews in every semester in which they serve as a TA in one of these faculty-led courses (e.g., a lecture-discussion section course taught by a faculty member). These reviews are intended to help students identify strengths in their teaching as well as areas in which they may improve. In relevant courses, faculty will deposit an electronic copy of a teaching review with the graduate coordinator no more than two weeks after a semester has concluded. The graduate coordinator will maintain files of teaching reviews for each graduate student in the department. The graduate coordinator will send a copy of the review to the student's advisor. Faculty also will share a copy of the review with the student reviewed, who may wish to incorporate favorable reviews and quotations into a teaching dossier. Graduate students should feel welcome to discuss all reviews with their supervising faculty members. Graduate students should note, too, that these reviews will assist faculty in addressing matters of pedagogy when preparing letters of recommendation for academic employment, which will benefit students in their job searches.

TRAVEL TO MEETINGS AND CONFERENCES

The Department of Communication Arts provides a once-per-academic-year travel stipend for those students who will be presenting a paper at an academic conference. Students who are not residing in Madison during the semester in which they present at a conference are not eligible for funding.

INSTRUCTIONAL MEDIA CENTER

Located on the third floor of Vilas Hall, the Instructional Media Center (IMC) provides media and technology services for the entire department. The IMC houses the Hamel Family Digital Media Lab, the Walter Mirisch Seminar Room, and Communication Arts media production classrooms. The IMC circulates laptops, video projectors, and other equipment to graduate students for instruction and short-term use. The IMC also maintains a media library containing thousands of DVDs and blu-rays of films, television shows, video games, and off-air recordings. Graduate students may check out any item not reserved for classroom use for their research. IMC staff can assist graduate students with their research needs. Upon request, the IMC can provide film to video transfers, media creation (files, DVDs, blu-rays), and video capture, as well as

training in these areas. The IMC provides assistance for the Center for Communication Research. The IMC is staffed by individuals with a wide range of media knowledge and skills to assist graduate students.

LEARNING OUTCOMES

1. Articulates research problems, potentials, and limits with respect to theory, knowledge, or practice within the field of study.
2. Formulates ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the field of study.
3. Creates research, scholarship, or performance that makes a substantive contribution.
4. Demonstrates breadth within their learning experiences.
5. Advances contributions of the field of study to society.
6. Communicates complex ideas in a clear and understandable manner.
7. Fosters ethical and professional conduct.

PEOPLE

FACULTY

Professors Kelley Conway (chair), Robert Asen, Jonathan Gray, Robert Glenn Howard, Lea Jacobs, Derek Johnson, Marie-Louise Mares, Zhongdang Pan, Jeff Smith, Lyn Van Swol, and Michael Xenos

Associate Professors Eric Hoyt, Jenell Johnson, Lori Lopez, Sara McKinnon, Jeremy Morris, Ben Singer, and Catalina Toma

Assistant Professors Jason Lopez, Allison Prasch, and Lillie D. Williamson

COMMUNICATION SCIENCES AND DISORDERS

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Audiology Consortial Program with UW-Stevens Point, Au.D. (<http://guide.wisc.edu/graduate/communication-sciences-disorders/audiology-consortial-program-uw-stevens-point-aud/>)
- Communication Sciences and Disorders, Doctoral Minor (p. 379)
- Communication Sciences and Disorders, M.S. (p. 379)
- Communication Sciences and Disorders, Ph.D. (p. 384)

PEOPLE

Information about faculty and staff can be found on the program's website (<https://csd.wisc.edu/peopleofCSD.htm>).

COMMUNICATION SCIENCES AND DISORDERS, DOCTORAL MINOR

REQUIREMENTS

At least 9 credits in communication sciences and disorders courses are required for a minor completed by students from other programs. The minor advisor will work with the student to plan an appropriate sequence of coursework.

PEOPLE

Information about faculty and staff can be found on the program's website (<https://csd.wisc.edu/peopleofCSD.htm>).

COMMUNICATION SCIENCES AND DISORDERS, M.S.

The department offers graduate programs leading to the M.S. and Ph.D. in communication sciences and disorders. An additional program in the department leads to the Au.D. in audiology. The graduate program provides the opportunity for study in the areas of audiology, speech-language pathology, hearing science, language science, and speech science. The purpose of the graduate program is to prepare clinicians, researchers, and teachers who possess a solid foundation in both the theoretical and applied aspects of the discipline of communication sciences and disorders.

The M.S. program has two tracks. The **Speech-Language Pathology track**¹ is a two-year professional program designed to prepare students for clinical work. It is accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association. At the master's level, supervised diagnostic and therapy experiences with children and adults are provided in a variety of on- and off-campus clinical settings. This program meets the academic and clinical-practicum requirements for clinical certification set by the American Speech-Language-Hearing Association (ASHA). Opportunities are also available for pursuing a nonclinical program at the master's level.

The **Normal Aspects of Speech, Language, and Hearing track**¹ is a non-clinical degree. Most students complete this degree as a first step toward a Ph.D.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s).**

Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 15
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

The program is open to individuals who have completed an undergraduate degree and who meet the minimum admission requirements of the Graduate School and the department. Entering students who do not have undergraduate majors in communicative disorders will typically be required to take prerequisite course work, which may lengthen the time required to earn a graduate degree.

Apply Online

Fall Application Deadline: January 15

ADMISSION REQUIREMENTS

All potential master's degree applicants must meet the Graduate School's admission requirements, as well as department-specific requirements.

GRADUATE SCHOOL REQUIREMENTS

UW-Madison Graduate School Requirements for Admission (<http://grad.wisc.edu/admissions/requirements/>)

- A minimum grade point average (GPA) of 3.0 (4.0 = A); however, the students we accept into the program typically have much higher GPAs

PROGRAM PREREQUISITES

You must complete the following undergraduate courses before beginning graduate course work:

Code	Title	Credits
CS&D 201	Speech Science	3
CS&D 202	Normal Aspects of Hearing	3
CS&D 240	Language Development in Children and Adolescents	3
CS&D 315	Phonetics and Phonological Development	3
CS&D 318	Voice, Craniofacial and Fluency Disorders	3
CS&D 320	Introduction to Audiology	3

CS&D 371	Pre-Clinical Observation of Children and Adults	3
CS&D 425	Auditory Rehabilitation	3
CS&D 440	Child Language Disorders, Assessment and Intervention	3

In addition to the above courses, you will need a course in each of the following areas:

- Biological sciences
- Physical sciences (chemistry or physics)
- Statistics
- Social/behavioral sciences

The American Speech–Language–Hearing Association (ASHA) standards now specify that a course in each of these areas is required for ASHA certification. For additional details, visit ASHA's website Standard IV-A (<http://www.asha.org/Certification/2014-Speech-Language-Pathology-Certification-Standards/>).

If you choose to complete prerequisites at UW–Madison before applying for graduate study, you must apply to the Capstone Program (<http://guide.wisc.edu/nondegree/capstone/communication-sciences-disorders-capstone-certificate/>). These courses typically can be completed within two semesters. Equivalent courses from another university or department will be considered on a case-by-case basis.

LETTERS OF RECOMMENDATION

These letters should address your potential for academic success in graduate school. At least two should come from instructors who have knowledge of your academic performance. The third may come from a clinical supervisor, employer, or other individual who has knowledge of your academic potential and likelihood for success in graduate school. **No more than three.**

REASONS FOR GRADUATE STUDY

This is an opportunity for you to highlight experiences, related skills, and personal attributes which make you an exceptional candidate. 1-3 pages, single-spaced.

APPLICATION FEE

UW–Madison charges a non-refundable \$75 application fee that must be paid by credit card (Master Card or Visa) or debit card. In addition to the \$75 application fee, non U.S. citizens will be charged a \$6 international document processing fee.

There are also limited application fee grants available. Check the UW–Madison Graduation Application Fee grants (<https://grad.wisc.edu/admissions/feegrants/>) to see if you qualify. Please note that fee grant applications must be submitted before you application and can take two weeks to process so you should plan to submit fee grant applications by December 1st with consideration of holidays.

CV OR RESUME

Include honors and awards

TRANSCRIPTS

Upload a copy of your unofficial transcripts. These show grades earned at every college or university you have attended, including study abroad. If admitted, the Graduate School will request official transcripts.

SUPPLEMENTAL APPLICATION OFFICIAL GRE SCORES

Use institution code 1846. You may take the test more than once; we will consider the scores from your best testing date. Only **official** scores, submitted directly from ETS, from within the last five years and submitted by the application deadline will be accepted.

OFFICIAL TOEFL SCORES

If your native language is not English, or your undergraduate instruction was not in English, a TOEFL score is required. Use institution code 1846. You may take the test more than once; we will consider the scores from your best testing date. Only **official** scores, submitted directly from ETS, from within the last five years and submitted by the application deadline will be accepted.

LETTERS OF RECOMMENDATION

These letters should address your potential for academic success in graduate school. At least two should come from instructors who have knowledge of your academic performance. NOTABLE ADVICE

- **Submit all materials one week prior to deadline.** Late and incomplete applications will not be considered.
- **File your application early.** Do not wait until you can gather all your materials. It is better to file early and send additional items as they become available.
- **Track your application status.** After submission of your application, you will receive a link to a personal web page where you can track your application status. We update this page as we receive your materials, usually within two weeks of receipt.
- For more information, review the UW–Madison Graduate School “Steps to Apply” (<http://grad.wisc.edu/admissions/process/>) and “Admissions FAQ” (<http://grad.wisc.edu/admissions/faq/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Financial assistance, sometimes available to graduate students in communication sciences and disorders, consists of scholarships, fellowships, traineeships, and project and research assistant positions. Financial assistance is very limited and varies from year to year. Students who are considering applying for financial aid should contact the department for further information.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the

advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum Credit Requirement	Speech–Language Pathology track: 40 credits Normal Aspects of Speech, Language, and Hearing track: 33 credits
----------------------------	--

Minimum Residence Credit Requirement	Speech–Language Pathology track: 40 credits Normal Aspects of Speech, Language, and Hearing track: 33 credits
--------------------------------------	--

Minimum Graduate Coursework Requirement	Speech–Language Pathology track: All but 3 credits of the minimum 40 credits for the degree must be taken in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (http://my.wisc.edu/CourseGuideRedirect/BrowseByTitle) (http://my.wisc.edu/CourseGuideRedirect/BrowseByTitle/).
---	--

Normal Aspects of Speech, Language, and Hearing track: All of the minimum number of credits (33) must be taken in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the University's Course Guide (<http://my.wisc.edu/CourseGuideRedirect/BrowseByTitle>) (<http://my.wisc.edu/CourseGuideRedirect/BrowseByTitle/>).

Overall Graduate GPA Requirement	3.00 GPA required.
----------------------------------	--------------------

Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
--------------------------	--

Assessments and Examinations	n/a

CURRIC 720	School Practicum in Communication Sciences & Disorders (Medical Site)	5
or CS&D 790	Practicum in Communicative Disorders	
CS&D 790	Practicum in Communicative Disorders (Advanced Practicum, optional)	0-5

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Normal Aspects of Speech, Language, and Hearing (non-clinical) Track¹

A minimum of 33 credits and a thesis is required. While the curriculum is individually designed for the specific student, it includes many of the same academic courses as in the Speech-Language Pathology Track curriculum above.

Because an emphasis on Normal Aspects of Speech, Language, and Hearing does not include clinical practice, CURRIC 720, CS&D 790, and CS&D 713 are not part of the curriculum.

¹ These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

No prior coursework from other institutions is allowed.

UW–Madison Undergraduate

Up to 6 credits from a UW–Madison undergraduate degree are allowed to count toward the degree. If the courses are numbered 500 and above, the credits may be counted toward the overall graduate credit requirement; if the courses are numbered 700 or above, they may count toward both the minimum graduate degree requirement and minimum graduate coursework (50%) requirement.

UW–Madison University Special

No prior coursework from UW–Madison University Special career is allowed.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

14 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

Ph.D. students typically receive funding in the form of research assistantships and work in their advisor's research lab.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. (Foundations of Practice) Possess foundational knowledge about basic human communication and swallowing processes.
2. (Foundations of Practice) Identify sources and assemble evidence pertaining to questions or challenges in communication sciences and disorders.
3. (Foundations of Practice) Articulate and critique the theories, research methods, and approaches in speech-language pathology.
4. (Foundations of Practice) Integrate research principles into evidence-based clinical practice.
5. (Foundations of Practice) Apply research findings in the provision of patient care.
6. (Foundations of Practice) Communicate complex ideas in a clear and understandable manner.
7. (Prevention, Identification and Assessment) Conduct screening and prevention procedures.
8. (Prevention, Identification and Assessment) Perform chart review and collect case history from patient interviews and/or relevant others.
9. (Prevention, Identification and Assessment) Select appropriate evaluation instruments/procedures.
10. (Prevention, Identification and Assessment) Administer and score diagnostic tests correctly.
11. (Prevention, Identification and Assessment) Adapt evaluation procedures to meet patient needs.
12. (Prevention, Identification and Assessment) Possess knowledge of etiologies and characteristics for each communication and swallowing disorder.
13. (Prevention, Identification and Assessment) Interpret and formulate diagnosis from test results, history, and other behavioral observations.
14. (Prevention, Identification and Assessment) Make appropriate recommendations for intervention.
15. (Prevention, Identification and Assessment) Complete administrative functions and documentation necessary to support evaluation.
16. (Prevention, Identification and Assessment) Make appropriate recommendations for patient referrals.
17. (Intervention) Develop appropriate treatment plans with measurable and achievable goals.
18. (Intervention) Collaborate with clients/patients and relevant others in the planning process.
19. (Intervention) Implement treatment plans.
20. (Intervention) Select and use appropriate materials/instrumentation.
21. (Intervention) Sequence tasks to meet objectives.
22. (Intervention) Provide appropriate introduction/explanation of tasks.
23. (Intervention) Measure and evaluate patients' performance and progress.
24. (Intervention) Use appropriate models, prompts, or cues.
25. (Intervention) Adapt treatment session to meet individual patient needs.
26. (Intervention) Complete administrative functions and documentation necessary to support treatment.
27. (Intervention) Identify and refer patients for services as appropriate.
28. (Professional Conduct) Recognize and apply principles of ethical and professional conduct.

29. (Professional Conduct) Apply skills for life-long learning.
30. (Professional Conduct) Apply intercultural knowledge and competence in their practice.
31. (Professional Conduct) Demonstrate teamwork and problem solving.
32. (Professional Conduct) Possess knowledge of contemporary professional issues and advocacy.
33. (Professional Conduct) Communicate effectively, recognizing the needs, values, preferred mode of communication, and cultural/linguistic background of the patient, family, caregiver, and relevant others.
34. (Professional Conduct) Provide counseling and supportive guidance regarding communication and swallowing disorders to patients, family, caregivers, and relevant others.

Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming, District of Columbia, Guam, Puerto Rico, U.S. Virgin Islands

The requirements of this program do not meet Certification/Licensure in the following states:

Not applicable

The requirements of this program have not been determined if they meet Certification/Licensure in the following states:

American Samoa, Northern Mariana Islands

PEOPLE

Information about faculty and staff can be found on the program's website (<https://csd.wisc.edu/peopleofCSD.htm>).

ACCREDITATION

ACCREDITATION

Council on Academic Accreditation in Audiology and Speech-Language Pathology (<https://caa.asha.org/>)

Accreditation Status: Accredited. Next Accreditation Review: 2019.

CERTIFICATION/LICENSURE

CERTIFICATION/LICENSURE

American Speech-Language-Hearing Association (<https://www.asha.org/>)

Praxis Pass Rate

Year of Exam	UW-Madison Graduates: All Attempts	National All Attempt:
2017-2018	100%	Not Available
2016-2017	100%	Not Available
2015-2016	100%	Not Available

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

The requirements of this program meet Certification/Licensure in the following states:

Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan,

COMMUNICATION SCIENCES AND DISORDERS, PH.D.

The department offers graduate programs leading to the M.S. and Ph.D. in communication sciences and disorders. An additional program in the department leads to the Au.D. in audiology. The graduate program provides the opportunity for study in the areas of audiology, speech-language pathology, hearing science, language science, and speech science. The purpose of the graduate program is to prepare clinicians, researchers, and teachers who possess a solid foundation in both the theoretical and applied aspects of the discipline of communication sciences and disorders.

The Ph.D. program provides relevant classroom and laboratory experiences for the scholar-researcher interested in communication processes and communicative disorders. A student's academic program will consist of course work within the department and in related areas such as psychology, biology, linguistics, statistics, computer science, and education. Students completing the program will be prepared for careers as university professors, laboratory researchers, and senior clinicians.

Individual programs can be designed for students who wish to pursue professional training/clinical certification (in either speech-language pathology or audiology) and the Ph.D. degree. Such students follow a modified sequence of course work, clinical training, and research experience in order to satisfy all academic and certification requirements in five to six years.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website. Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) of the Graduate School as well as the program(s). Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 1
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.

GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

The program is open to individuals who have completed an undergraduate degree and who meet the minimum admission requirements of the Graduate School and the department. Entering MS/PhD students who do not have undergraduate majors in communicative disorders will typically be required to take prerequisite course work, which may lengthen the time required to earn a graduate degree.

Apply Online

Fall Application Deadline: January 1st

ADMISSION REQUIREMENTS

All potential doctoral degree applicants must meet the Graduate School's admission requirements, as well as department-specific requirements.

GRADUATE SCHOOL REQUIREMENTS

UW–Madison Graduate School Requirements for Admission (<http://grad.wisc.edu/admissions/requirements/>)

- A minimum grade point average (GPA) of 3.0 (4.0=A); however, the students we accept into the program typically have much higher GPAs

LETTERS OF RECOMMENDATION

These letters should address your potential for academic success in graduate school. At least two should come from instructors who have knowledge of your academic performance. The third may come from a clinical supervisor, employer, or other individual who has knowledge of your academic potential and likelihood for success in graduate school. **No more than three.**

REASONS FOR GRADUATE STUDY

This is an opportunity for you to highlight experiences, related skills, and personal attributes which make you an exceptional candidate. 1-3 pages, single-spaced.

APPLICATION FEE

UW–Madison charges a non-refundable \$75 application fee that must be paid by credit card (Master Card or Visa) or debit card. In addition to the \$75 application fee, non U.S. citizens will be charged a \$6 international document processing fee.

There are also limited application fee grants available. Check the UW–Madison Graduation Application Fee grants (<https://grad.wisc.edu/admissions/feegrants/>) to see if you qualify. Please note that fee grant applications must be submitted before you application and can take two

weeks to process so you should plan to submit fee grant applications by December 1 with consideration of holidays.

CV OR RESUME

Include honors and awards

TRANSCRIPTS

Upload a copy of your unofficial transcripts. These show grades earned at every college or university you have attended, including study abroad. If admitted, the Graduate School will request official transcripts.

SUPPLEMENTAL APPLICATION

Fill out the supplemental application that is found in the online graduate school application.

OFFICIAL GRE SCORES

Use institution code 1846. You may take the test more than once; we will consider the scores from your best testing date. Only **official** scores, submitted directly from ETS, from within the last five years and submitted by the application deadline will be accepted.

OFFICIAL TOEFL SCORES

If your native language is not English, or your undergraduate instruction was not in English, a TOEFL score is required. Use institution code 1846. You may take the test more than once; we will consider the scores from your best testing date. Only **official** scores, submitted directly from ETS, from within the last five years and submitted by the application deadline will be accepted.

NOTABLE ADVICE

- Submit all materials one week prior to deadline. Late and incomplete applications will not be considered.
- File your application early. Do not wait until you can gather all your materials. It is better to file early and send additional items as they become available.
- Track your application status. After submission of your application, you will receive a link to a personal web page where you can track your application status. We update this page as we receive your materials, usually within two weeks of receipt.
- For more information, review the UW–Madison Graduate School “Steps to Apply” (<http://grad.wisc.edu/admissions/process/>) and “Admissions FAQ” (<http://grad.wisc.edu/admissions/faq/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Financial assistance, sometimes available to graduate students in communication sciences and disorders, consists of scholarships, fellowships, traineeships, and project and research assistant positions. Financial assistance is very limited and varies from year to year. Students

who are considering applying for financial aid should contact the department for further information.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

- Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.
- Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.
- Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.
- Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.
- Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	54 credits
Minimum Residence Credit Requirement	54 credits
Minimum Graduate Coursework Requirement	At least 75% of the minimum number of credits (54) must be taken in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.

Other Grade Requirements The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.

Assessments and Examinations	Doctoral students are required to take a comprehensive preliminary/oral examination after they have cleared their record of all Incomplete and Progress grades (other than research and thesis). Deposit of the doctoral dissertation in the Graduate School is required.
Language Requirements	Contact the program for information on any language requirements.
Doctoral Minor/Breadth Requirements	All doctoral students are required to complete a minor.

REQUIRED COURSES

The plan of study must encompass an area of specialization chosen from speech pathology, audiology, language disorders, and normal aspects of speech, hearing and language. Although there are no specific course requirements for the major, the study plan should be comprehensive in scope and should be tailored according to the student's research and academic needs. Students must also satisfy a core requirement by taking the following seminar/courses:

1. Grant writing (3 credits)
2. Research methodology (3 credits). This may include an independent study/directed readings course or a course from outside of the department focused broadly on something related to research methods, depending on the particular student interest.
3. Professional seminar (prosem) (4 semesters; 8 credits)
4. Teaching methods (1 credit or audit).

Student are expected to attend the weekly prosem lectures and attend any doctoral student discussion groups associated with the weekly lectures.

The teaching requirement can be met by taking a 1-credit seminar taught within or outside the department, a 1-credit independent study with the advisor that involves lecturing or developing course materials or student projects, or an independent study with the major advisor that involves reading and discussing scholarly writings that concern teaching. The form of the teaching credit should be discussed with the major advisor and must have the advisor's approval.

All doctoral students are expected to become proficient in statistical methods. Students are required to have 9 credits of statistical methods at a minimum, which must also include a course on research methods or experimental design. Many students satisfy this requirement by taking courses in the Educational Psychology department or the Statistics department. For instance, a rigorous and worthwhile statistics sequence could be STAT/F&W ECOL/HORT 571 Statistical Methods for Bioscience I and STAT/F&W ECOL/HORT 572 Statistical Methods for Bioscience II plus an experimental design class, such as ED PSYCH 762 Introduction to the Design of Educational Experiments.

Code	Title	Credits
Ph.D. Core Course Offerings		
CS&D 900	Seminar-Speech Science (4 semesters, 2 cr. each semester)	2
CS&D 900	Seminar-Speech Science (Grant Writing)	3
CS&D 999	Independent Studies (Teaching Methods)	1 or audit

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count coursework from other institutions. In no case will coursework be considered that was earned ten or more years prior to admission to the Ph.D.

UW–Madison Undergraduate

With program approval, students are allowed to count up to 7 credits from coursework for a UW–Madison undergraduate degree. In no case will coursework be considered that was earned ten or more years prior to admission to the Ph.D.

UW–Madison University Special

No prior coursework taken as a UW–Madison University Special student is allowed.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

When you are admitted as a doctoral student, you will choose an academic advisor who will serve as your sponsor and mentor for the duration of the program. You may change advisors at any time in the course of your program, provided you and your advisor agree on this.

Your academic advisor may be a regular faculty member in the Department of Communication Sciences and Disorders, or may be affiliate or joint faculty. If an affiliate faculty member is serving as your academic advisor, a regular faculty member must be assigned as your departmental contact to regularly review your progress and adherence to departmental requirements.

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. Students can be suspended from the Graduate School if they do not have an advisor.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

CREDITS PER TERM ALLOWED

13 credits

TIME CONSTRAINTS

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within 5 years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

Ph.D. students typically receive funding in the form of research assistantships and work in their advisor's research lab.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. (Foundations of Research) Possess foundational knowledge about the particular subject area of the chosen area, and be fully conversant with the classic and contemporary literature.
2. (Foundations of Research) Master data collection techniques specific to their chosen area of research.
3. (Foundations of Research) Fully conversant with the theoretical issues and tensions within their chosen area of research.
4. (Foundations of Research) Gain high-level knowledge and expertise in the statistical analysis of research data and graphical approaches to exploration of data sets.
5. (Foundations of Research) Communicate complex ideas in a clear and understandable manner.
6. (Dissertation) Design and execute an original experiment (or experiments) that clearly fills a gap in the existing literature and is worthy of publication(s) in peer-reviewed journals.
7. (Dissertation) Skill, experience, and knowledge base to defend the dissertation work to a committee of five faculty members.
8. (Professional Conduct) Design and conduct experiments.
9. (Professional Conduct) Formulate research questions that are based on sound analyses of existing literature, and that show evidence of logical argument.
10. (Professional Conduct) Understand how to examine data for patterns that are meaningful and patterns that reflect likely data collection errors.
11. (Professional Conduct) Write research proposals and learn to develop carefully argued proposals and explanations.
12. (Professional Conduct) Make presentations of their research at national and international conferences.
13. (Professional Conduct) Pass a summary exam (6 hours written, 2 hours oral) that admits them to candidacy for the PhD degree.

PEOPLE

Information about faculty and staff can be found on the program's website (<https://csd.wisc.edu/peopleofCSD.htm>).

COMMUNITY AND ENVIRONMENTAL SOCIOLOGY

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE PROFESSIONAL/CERTIFICATES

- Community and Environmental Sociology, Doctoral Minor (p. 388)

COMMUNITY AND ENVIRONMENTAL SOCIOLOGY, DOCTORAL MINOR

The mission of the Department of Community and Environmental Sociology is to advance knowledge, teaching, and outreach concerning the relationships between human communities (where people live, work, and play) and their biophysical environment. Learning goals for a doctoral minor in community and environmental sociology are to:

1. understand how social science arguments are constructed and evaluated;
2. develop the ability to assess data quality and understand whether data are appropriate to answer specific questions; and
3. learn general theories on basic social processes, especially those related to the relationships among society and the environment and the social organization of communities.

ADMISSIONS

For more information about the minor, contact:

Charlotte Frasca
Graduate Program Advisor
8127 Sewell Social Science Building
1180 Observatory Drive
frasca@ssc.wisc.edu
608-262-3805

REQUIREMENTS

An Option A minor in Community and Environmental Sociology is composed of 9 credits of graduate-level coursework. Students may enroll in any graduate-only courses (i.e., those numbered 700–999). They may also enroll in any of the advanced graduate–undergraduate courses (i.e., those numbered 300–699) that are either specifically designed for graduate students or assess graduate students separately from undergrads. Such courses carry this designation in the Course Guide: **Graduate 50%: Y**. A maximum of 3 credits of independent study is allowed.

COMPARATIVE LITERATURE AND FOLKLORE STUDIES

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Comparative Literature and Folklore Studies, M.A. (p. 389)
- Comparative Literature and Folklore Studies, Ph.D. (p. 395)
- Comparative Literature, Doctoral Minor (p. 403)

PEOPLE

Faculty: Professor Livorni (chair, also French and Italian); Associate Professor Livanos; Assistant Professor Fielder; Lecturer Botero. **Affiliate**

Faculty: Professors Adler (German, Nordic, and Slavic), Casid (Art History), Dharwadker (English), Garlough (Gender and Women's Studies), Gilmore (Landscape Architecture), Goodkin (French and Italian), Guyer (English), Kern (Asian Languages and Cultures), Longinovic (German, Nordic, and Slavic), Rosenblum (Jewish Studies), Valentine (Linguistics) Wells (English); Associate Professors Kapust (Political Science), Neyrat (English); Assistant Professor Grunewald (English), **International Affiliate Faculty:** Ramalho de Sousa Santos (University of Coimbra, Portugal). See also Faculty (<http://clfs.wisc.edu/people/faculty/>) on the department website.

COMPARATIVE LITERATURE AND FOLKLORE STUDIES, M.A.

Admissions to the Comparative Literature and Folklore Studies M.A. have been suspended as of summer 2018 and will be discontinued as of fall 2021. If you have any questions, please contact the department (complit@lss.wisc.edu).

Graduate study in the Department of Comparative Literature and Folklore Studies (CLFS) emphasizes the active research into and theorizing of the comparative, the literary, the folkloric, and the cultural in a global context. CLFS faculty and students investigate cultures within, across, and beyond linguistic, regional, and national boundaries. The comparative and pluri-lingual nature of CLFS at UW–Madison enables the careful and informed study of new and evolving theories and cultural methodologies as well as of prior, present, and emerging cultural and literary practices and phenomena.

CLFS students study problems and create public projects exploring culture, genre, literary and cultural movements, mode, performance, periodization, theory and criticism, tradition, translation, and transmission. They engage problems and questions concerning the interaction and shifting boundaries of 'elite' and 'folk' literatures and other forms of creative expression and their transformation in their interaction; folklore and literature with other arts or other disciplines; and the relationships between creative expression and economic, sociopolitical, traditional, and other historical structures and issues, including ideological and value formations. In addition to professional research and communication in the academic fields of comparative literature and folklore studies, CLFS is committed to public humanities projects that place professional expertise in the service of communities and publics.

Graduate study leads to the M.A. and Ph.D. degrees in CLFS and must be in either a comparative literature named option or a folklore studies named option.

The department also offers doctoral minors in comparative literature and in folklore to interested Ph.D. candidates in other degree programs. At the beginning of study in the minor program, all students seeking a comparative literature or folklore doctoral minor should contact the CLFS director of graduate studies concerning coursework for the minor. Completion of the minor will be certified by either the director of graduate studies or the department chair.

ADMISSIONS

Admissions to the Comparative Literature and Folklore Studies M.A. have been suspended as of summer 2018 and will be discontinued as

of fall 2021. If you have any questions, please contact the department (complit@lss.wisc.edu).

Students apply to one of the named options:

- Comparative Literature M.A. (p. 390)
- Folklore Studies M.A. (p. 393)

All entering students are admitted into one of the two named options in the M.A. program. Students are accepted into the Ph.D. program upon successful completion of the Second-Year Examination.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS CURRICULAR REQUIREMENTS

Requirements Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	Successful completion of the master's degree requires 30 credit hours of coursework. This requirement includes that at least 50 percent of these credit hours must be received in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.5 GPA required.
Other Grade Requirements	None.
Assessments and Examinations	See Named Options for policy information.

Language Requirements Second Language: An examination in a second language (other than English) must be taken by the end of the second semester of graduate study and before the Second Year Examination.

In the event that the linguistic tradition under examination cannot be covered by a member of the comparative literature and folklore studies faculty, the advisor will invite an appropriate member of the UW–Madison faculty to assist in the administration of the examination.

REQUIRED COURSES

Select a Named Option (p.) for courses required.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Arts in Comparative Literature and Folklore Studies must select one of the following named options:

View as list View as grid

- COMPARATIVE LITERATURE AND FOLKLORE STUDIES: COMPARATIVE LITERATURE, M.A. (P. 390)
- COMPARATIVE LITERATURE AND FOLKLORE STUDIES: FOLKLORE STUDIES, M.A. (P. 393)

POLICIES

Students should refer to one of the named options for policy information:

- Comparative Literature M.A. (p. 390)
- Folklore Studies M.A. (p. 393)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates, critiques, or elaborates the theories, research methods, and approaches to inquiry and schools of practice in comparative humanities.
2. Identifies sources and assembles evidence pertaining to questions or challenges in comparative humanities.
3. Demonstrates understanding of comparative humanities in a historical, social, or global context.
4. Selects and/or utilizes the most appropriate methodologies and practices.
5. Evaluates or synthesizes information to questions or challenges in comparative humanities.
6. Communicates clearly in ways appropriate to comparative humanities.

7. Recognizes and applies principles of ethical and professional conduct.

PEOPLE

Faculty: Professor Livorni (chair, also French and Italian); Associate Professor Livanos; Assistant Professor Fielder; Lecturer Botero. **Affiliate Faculty:** Professors Adler (German, Nordic, and Slavic), Casid (Art History), Dharwadker (English), Garlough (Gender and Women's Studies), Gilmore (Landscape Architecture), Goodkin (French and Italian), Guyer (English), Kern (Asian Languages and Cultures), Longinovic (German, Nordic, and Slavic), Rosenblum (Jewish Studies), Valentine (Linguistics) Wells (English); Associate Professors Kapust (Political Science), Neyrat (English); Assistant Professor Grunewald (English), **International Affiliate Faculty:** Ramalho de Sousa Santos (University of Coimbra, Portugal). See also Faculty (<http://clfs.wisc.edu/people/faculty/>) on the department website.

COMPARATIVE LITERATURE AND FOLKLORE STUDIES: COMPARATIVE LITERATURE, M.A.

Admissions to the Comparative Literature and Folklore Studies: Comparative Literature M.A. have been suspended as of summer 2018 and will be discontinued as of fall 2021. If you have any questions, please contact the department (complit@lss.wisc.edu).

This is a named option within the Comparative Literature and Folklore Studies M.A. (p. 389)

ADMISSIONS

Admissions to the Comparative Literature and Folklore Studies: Comparative Literature M.A. have been suspended as of summer 2018 and will be discontinued as of fall 2021. If you have any questions, please contact the department (complit@lss.wisc.edu).

Applicants to the graduate program in the CLFS should submit to the department a statement of purpose for graduate study, transcripts, letters of recommendation, a writing sample (in English) of no more than 15 pages, a list of foreign language and literature coursework, and Graduate Record Exam (GRE) scores. (International applicants should consult the department and the Graduate School website for information and additional application requirements regarding TOEFL, MELAB or IELTS tests.)

Admission to graduate study in the comparative literature named option requires advanced foreign language work at the literary level in at least one language other than English; the student's academic record should demonstrate the ability to work critically in at least two literatures (one of which may be English).

All entering students are admitted into one of the two named options in the M.A. program. Students are accepted into the Ph.D. program upon successful completion of the Second-Year Examination.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

16 credits

Minimum
Graduate
Coursework
Requirement

Successful completion of the master's degree requires 30 credit hours of coursework. This requirement includes that at least 50 percent of these credit hours must be received in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.

Overall 3.5 GPA required.

Graduate GPA
Requirement

Other Grade
Requirements

None.

Assessments
and
Examinations

The required Second Year Examination is a written examination administered by the program followed by an oral defense.

Students who are not interested in pursuing the Ph.D. may elect to offer an M.A. thesis in place of the seminar requirement. In such cases, the student must work under the direction of a department faculty member who will act as supervisor of the thesis. The thesis will be presented to a committee of three faculty members, including the supervisor, and defended in an oral examination. A bound copy of the thesis must be deposited with the department. Otherwise, the Second Year Examination will be the subject of the Master's Oral Examination.

Language
Requirements

Second Language: An examination in a second language (other than English) must be taken by the end of the second semester of graduate study and before the Second Year Examination.

In the event that the linguistic tradition under examination cannot be covered by a member of the comparative literature and folklore studies faculty, the advisor will invite an appropriate member of the UW–Madison faculty to assist in the administration of the examination.

REQUIRED COURSES

Code	Title	Credits
Required Courses		
COMP LIT 702	Problems in Comparative Studies	3
COMP LIT 771	Literary Criticism	3
At least one graduate level seminar in Comparative Literature and Folklore Studies		

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions, provided this coursework relates directly to the student's CLFS graduate studies. Coursework earned five or more years prior to admission to a master's degree may not be used to satisfy the CLFS degree requirements.

To apply credit for prior graduate coursework toward requirements the student should furnish the student's advisor and the director of graduate

study with a transcript of the coursework and copies of work done in courses and syllabi, if available. This task should be completed in anticipation of the Second Year exam. Credits deemed eligible to apply toward requirements will be listed in the official form that the department provides to the Graduate School in preparation for the award of the master's degree.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison Special student. Coursework earned five or more years prior to admission to a Master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. An advisor is assigned to incoming students but can be changed. Students can be suspended from the Graduate School if they do not have an advisor.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

The Second Year Examination must be taken in the fourth semester of graduate study. If a candidate enters the graduate program with an M.A. in comparative literature from another institution, the Second Year Examination must be taken in the second semester of graduate study. Students entering with an M.A. in another discipline may take the examination in either the second or the fourth semester.

The thesis, written in consultation with the major professor, must be completed no later than two semesters after thesis work begins.

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

Because we are committed to supporting and working closely with our graduate students, we are able to accept only a limited number (2–3 students per year) of the many excellent applications we receive each year. The CLFS' admission form also serves as an application for fellowships and teaching assistantships. The deadline for all completed applications (and for fellowship consideration) for the fall semester is December 15.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Faculty: Professor Livorni (chair, also French and Italian); Associate Professor Livanos; Assistant Professor Fielder; Lecturer Botero. **Affiliate Faculty:** Professors Adler (German, Nordic, and Slavic), Casid (Art

History), Dharwadker (English), Garlough (Gender and Women's Studies), Gilmore (Landscape Architecture), Goodkin (French and Italian), Guyer (English), Kern (Asian Languages and Cultures), Longinovic (German, Nordic, and Slavic), Rosenblum (Jewish Studies), Valentine (Linguistics) Wells (English); Associate Professors Kapust (Political Science), Neyrat (English); Assistant Professor Grunewald (English), **International Affiliate Faculty:** Ramalho de Sousa Santos (University of Coimbra, Portugal). See also Faculty (<http://clfs.wisc.edu/people/faculty/>) on the department website.

COMPARATIVE LITERATURE AND FOLKLORE STUDIES: FOLKLORE STUDIES, M.A.

Admissions to the Comparative Literature and Folklore Studies: Folklore Studies M.A. have been suspended as of summer 2018 and will be discontinued as of fall 2021. If you have any questions, please contact the department (compllit@iss.wisc.edu).

This is a named option within the Comparative Literature and Folklore Studies M.A. (p. 389)

ADMISSIONS

Admissions to the Comparative Literature and Folklore Studies: Folklore Studies M.A. have been suspended as of summer 2018 and will be discontinued as of fall 2021. If you have any questions, please contact the department (compllit@iss.wisc.edu).

Applicants to the graduate program in the CLFS should submit to the department a statement of purpose for graduate study, transcripts, letters of recommendation, a writing sample (in English) of no more than 15 pages, a list of foreign language and literature coursework, and Graduate Record Exam (GRE) scores. (International applicants should consult the department and the Graduate School website for information and additional application requirements regarding TOEFL, MELAB or IELTS tests.)

Admission to graduate study in the comparative literature named option requires advanced foreign language work at the literary level in at least one language other than English; the student's academic record should demonstrate the ability to work critically in at least two literatures (one of which may be English).

All entering students are admitted into one of the two named options in the M.A. program. Students are accepted into the Ph.D. program upon successful completion of the Second-Year Examination.

COMPARATIVE LITERATURE AND FOLKLORE STUDIES, PH.D.

Admissions to the Comparative Literature and Folklore Studies Ph.D. have been suspended as of summer 2018 and will be discontinued as of fall 2021. If you have any questions, please contact the department (complit@lss.wisc.edu).

Graduate study in the Department of Comparative Literature and Folklore Studies (CLFS) emphasizes the active research into and theorizing of the comparative, the literary, the folkloric, and the cultural in a global context. CLFS faculty and students investigate cultures within, across, and beyond linguistic, regional, and national boundaries. The comparative and pluri-lingual nature of CLFS at UW–Madison enables the careful and informed study of new and evolving theories and cultural methodologies as well as of prior, present, and emerging cultural and literary practices and phenomena.

CLFS students study problems and create public projects exploring culture, genre, literary and cultural movements, mode, performance, periodization, theory and criticism, tradition, translation, and transmission. They engage problems and questions concerning the interaction and shifting boundaries of 'elite' and 'folk' literatures and other forms of creative expression and their transformation in their interaction; folklore and literature with other arts or other disciplines; and the relationships between creative expression and economic, sociopolitical, traditional, and other historical structures and issues, including ideological and value formations.

In addition to professional research and communication in the academic fields of comparative literature and folklore studies, CLFS is committed to public humanities projects that place professional expertise in the service of communities and publics.

Graduate study leads to the M.A. and Ph.D. degrees in CLFS and must be in either a comparative literature named option or a folklore studies named option.

The department also offers doctoral minors in comparative literature and in folklore to interested Ph.D. candidates in other degree programs. At the beginning of study in the minor program, all students seeking a comparative literature or folklore doctoral minor should contact the CLFS director of graduate studies concerning coursework for the minor. Completion of the minor will be certified by either the director of graduate studies or the department chair.

ADMISSIONS

Admissions to the Comparative Literature and Folklore Studies Ph.D. have been suspended as of summer 2018 and will be discontinued as of fall 2021. If you have any questions, please contact the department (complit@lss.wisc.edu).

Students apply to one of the named options in the M.A.:

- Comparative Literature M.A. (p. 390)
- Folklore Studies M.A. (p. 393)

All entering students are admitted into one of the two named options in the M.A. program. Students are accepted into the Ph.D. program upon successful completion of the Second-Year Examination.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

MAJOR REQUIREMENTS CURRICULAR REQUIREMENTS

Requirements Detail

Minimum 51 credits
Credit Requirement

Minimum 32 credits
Residence Credit Requirement

Minimum Graduate Coursework Requirement Successful completion of the Ph.D. requires 51 credit hours of coursework. This requirement includes that at least 50 percent of these credit hours must be received in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.

Overall Graduate GPA Requirement 3.5 GPA required.

Other Grade Requirements None.

Assessments and Examinations Comprehensive Examinations

The comprehensive examinations, or "prelims," consist of three written examinations based on reading lists that have been approved by the advisor and the reading committees followed by an oral defense.

Dissertation

The dissertation is a written, substantial, and original contribution to knowledge guided by a dissertation committee consisting of the student's advisor and two members of the faculty of the department. The student will submit to the dissertation committee for approval a written proposal that will include a bibliography of primary and secondary source materials.

Upon completion of the dissertation, the student will be examined in an oral defense of the dissertation and related areas by members of the dissertation committee in concert with two additional members, at least one of which must be from a related discipline outside of the department.

Language Requirements Second language: An examination in a second language (other than English) must be taken by the end of the second semester of graduate study and before the Second Year Examination.

In the event that the linguistic tradition under examination cannot be covered by a member of the comparative literature and folklore studies faculty, the advisor will invite an appropriate member of the UW–Madison faculty to assist in the administration of the examination.

Third Language: A third language (other than English and the second language) proficiency must be demonstrated by the completion of an appropriate intermediate or advanced literature course with a grade of AB or better. This requirement must be satisfied before the Comprehensive (or "prelim") Examinations.

Fourth Language Reading Requirement: For students pursuing the Comparative Literature Ph.D. option, each candidate must demonstrate reading knowledge of at least one of the following languages: Sanskrit, Hebrew, Classical Greek, Latin, a Medieval language, or a major Asian or African language. This requirement is satisfied by the completion of an appropriate course with a grade of AB or better.

Doctoral Minor/Breadth Requirements	All doctoral students are required to complete a 12-credit minor. Students may pursue a concentrated minor including the Option A or a distributed minor (Option B). Students in either of the named options in the CLFS Ph.D. program may pursue minors in their department as long as they do not have the same name as their named option.
-------------------------------------	---

REQUIRED COURSES

Select a Named Option (p. 397) for courses required.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Ph.D. in Comparative Literature and Folklore Studies must select one of the following named options:

View as listView as grid

- COMPARATIVE LITERATURE AND FOLKLORE STUDIES: COMPARATIVE LITERATURE, PH.D. (P. 397)
- COMPARATIVE LITERATURE AND FOLKLORE STUDIES: FOLKLORE STUDIES, PH.D. (P. 400)

POLICIES

Students should refer to one of the named options for policy information:

- Comparative Literature and Folklore Studies: Comparative Literature, Ph.D. (p. 397)
- Comparative Literature and Folklore Studies: Folklore Studies, Ph.D. (p. 400)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates research problems, potentials, and limits with respect to theory, knowledge, and practice in comparative humanities.
2. Formulates ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge in comparative humanities.
3. Creates research, scholarship, or performance that makes a substantive contribution.
4. Demonstrates breadth within their learning experiences.
5. Advances contributions in comparative humanities to society.
6. Communicates complex ideas in a clear and understandable manner.
7. Fosters ethical and professional conduct.

PEOPLE

Faculty: Professor Livorni (chair, also French and Italian); Associate Professor Livanos; Assistant Professor Fielder; Lecturer Botero. **Affiliate Faculty:** Professors Adler (German, Nordic, and Slavic), Casid (Art History), Dharwadkar (English), Garlough (Gender and Women's Studies), Gilmore (Landscape Architecture), Goodkin (French and Italian), Guyer (English), Kern (Asian Languages and Cultures), Longinovic (German, Nordic, and Slavic), Rosenblum (Jewish Studies), Valentine (Linguistics) Wells (English); Associate Professors Kapust (Political Science), Neyrat (English); Assistant Professor Grunewald (English), **International Affiliate Faculty:** Ramalho de Sousa Santos (University of Coimbra, Portugal). See also Faculty (<http://clfs.wisc.edu/people/faculty/>) on the department website.

COMPARATIVE LITERATURE AND FOLKLORE STUDIES: COMPARATIVE LITERATURE, PH.D.

Admissions to the Comparative Literature and Folklore Studies: Comparative Literature Ph.D. have been suspended as of summer 2018 and will be discontinued as of fall 2021. If you have any questions, please contact the department (complit@lss.wisc.edu).

This is a named option within the Comparative Literature and Folklore Studies, Ph.D. (p. 395)

ADMISSIONS

Admissions to the Comparative Literature and Folklore Studies: Comparative Literature Ph.D. have been suspended as of summer 2018 and will be discontinued as of fall 2021. If you have any questions, please contact the department (complit@lss.wisc.edu).

Applicants to the graduate program in the CLFS should submit to the department a statement of purpose for graduate study, transcripts, letters of recommendation, a writing sample (in English) of no more than 15 pages, a list of foreign language and literature coursework, and Graduate Record Exam (GRE) scores. (International applicants should consult the department and the Graduate School website for information and additional application requirements regarding TOEFL, MELAB or IELTS tests.)

Admission to graduate study in the comparative literature named option requires advanced foreign language work at the literary level in at least one language other than English; the student's academic record should demonstrate the ability to work critically in at least two literatures (one of which may be English).

All entering students are admitted into one of the two named options in the M.A. program. Students are accepted into the Ph.D. program upon successful completion of the Second-Year Examination.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Third Language: A third language (other than English and the second language) proficiency must be demonstrated by the completion of an appropriate intermediate or advanced literature course with a grade of AB or better. This requirement must be satisfied before the Comprehensive (or "prelim") Examinations.

Fourth Language Reading Requirement: For students pursuing the Comparative Literature Ph.D. option, each candidate must demonstrate reading knowledge of at least one of the following languages: Sanskrit, Hebrew, Classical Greek, Latin, a Medieval language, or a major Asian or African language. This requirement is satisfied by the completion of an appropriate course with a grade of AB or better.

Doctoral Minor/Breadth Requirements	All doctoral students are required to complete a 12-credit minor. Students may pursue a concentrated minor including the Option A or a distributed minor (Option B). Students in either of the named options in the CLFS Ph.D. program may pursue minors in their department so long as they do not have the same name as their named option.
-------------------------------------	---

REQUIRED COURSES

All M.A. requirements; COMP LIT 822 Seminar-Translation; at least two other graduate seminars in comparative literature and folklore studies; the requirements for a Ph.D. option; demonstration of proficiency in

a third language by passing an intermediate literature course with a grade of AB or better; successful completion of the Ph.D. preliminary examinations; successful completion of the dissertation; successful completion of the oral dissertation defense.

Code	Title	Credits
Required Courses		
<i>M.A. Requirements</i>		
COMP LIT 702	Problems in Comparative Studies	3
COMP LIT 771	Literary Criticism	3
At least one graduate level seminar in Comparative Literature and Folklore Studies		
<i>Additional Ph.D. Requirements</i>		
COMP LIT 822	Seminar-Translation	3
At least two other 700-level courses		
A course in the comparative literatures of each of the following periods:		
Archaic/Classical		
Medieval/Renaissance/Early Modern		
No more than three 400-level Comparative Literature courses		
12 credits to complete a doctoral minor		
Strongly encouraged: A CLFS course in each of the three major literary genres:		
Narrative		
Poetry		
Drama		

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions, provided this coursework relates directly to the student's CLFS graduate studies. Coursework earned five or more years prior to admission to a master's degree may not be used to satisfy the CLFS degree requirements.

To apply credit for prior graduate coursework toward requirements the student should furnish the student's advisor and the director of graduate study with a transcript of the coursework and copies of work done in courses and syllabi, if available. This task should be completed in anticipation of the Second Year exam. Coursework earned ten or more years prior to admission to the doctoral degree may not be used to satisfy the CLFS degree requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison Special student. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member from the major department responsible for providing advice regarding graduate studies. The advisor also serves as the dissertation advisor. An advisor is assigned to incoming student but can be changed. Students can be suspended from the Graduate School if they do not have an advisor.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Comprehensive examinations must be taken only on completion of the requisite minimum degree credits.

Within six weeks of successful completion of the comprehensive examination, candidates must submit a working draft of a dissertation proposal their dissertation committee members.

The dissertation must be deposited within two weeks of completion of all degree requirements.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their

absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

Because we are committed to supporting and working closely with our graduate students, we are able to accept only a limited number (2–3 students per year) of the many excellent applications we receive each year. The CLFS' admission form also serves as an application for fellowships and teaching assistantships. The deadline for all completed applications (and for fellowship consideration) for the fall semester is December 15.

PEOPLE

Faculty: Professor Livorni (chair, also French and Italian); Associate Professor Livanos; Assistant Professor Fielder; Lecturer Botero. **Affiliate Faculty:** Professors Adler (German, Nordic, and Slavic), Casid (Art History), Dharwadkar (English), Garlough (Gender and Women's Studies), Gilmore (Landscape Architecture), Goodkin (French and Italian), Guyer (English), Kern (Asian Languages and Cultures), Longinovic (German, Nordic, and Slavic), Rosenblum (Jewish Studies), Valentine (Linguistics) Wells (English); Associate Professors Kapust (Political Science), Neyrat

(English); Assistant Professor Grunewald (English), **International Affiliate Faculty:** Ramalho de Sousa Santos (University of Coimbra, Portugal). See also Faculty (<http://clfs.wisc.edu/people/faculty/>) on the department website.

COMPARATIVE LITERATURE AND FOLKLORE STUDIES: FOLKLORE STUDIES, PH.D.

Admissions to the Comparative Literature and Folklore Studies: Folklore Studies Ph.D. have been suspended as of summer 2018 and will be discontinued as of fall 2021. If you have any questions, please contact the department (complitt@lss.wisc.edu).

This is a named option within the Comparative Literature and Folklore Studies Ph.D. (p. 395)

ADMISSIONS

Admissions to the Comparative Literature and Folklore Studies: Folklore Studies Ph.D. have been suspended as of summer 2018 and will be discontinued as of fall 2021. If you have any questions, please contact the department (complitt@lss.wisc.edu).

Applicants to the graduate program in the CLFS should submit to the department a statement of purpose for graduate study, transcripts, letters of recommendation, a writing sample (in English) of no more than 15 pages, a list of foreign language and literature coursework, and Graduate Record Exam (GRE) scores. (International applicants should consult the department and the Graduate School website for information and additional application requirements regarding TOEFL, MELAB or IELTS tests.)

Admission to graduate study in the comparative literature named option requires advanced foreign language work at the literary level in at least one language other than English; the student's academic record should demonstrate the ability to work critically in at least two literatures (one of which may be English).

All entering students are admitted into one of the two named options in the M.A. program. Students are accepted into the Ph.D. program upon successful completion of the Second-Year Examination.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 15), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students are able to complete a program with minimal disruptions to careers and other commitments.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements Detail

Minimum Credit Requirement 51 credits

Minimum Residence Credit Requirement 32 credits

Minimum Graduate Coursework Requirement Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.

Overall Graduate GPA Requirement 3.5 GPA required.

Other Grade Requirements None.

Assessments and Examinations

Comprehensive Examinations
The comprehensive examinations, or "prelims," consist of three written examinations based on reading lists that have been approved by the advisor and the reading committees followed by an oral defense.

Dissertation

The dissertation is a written, substantial, and original contribution to knowledge guided by a dissertation committee consisting of the student's advisor and two members of the faculty of the department. The student will submit to the dissertation committee for approval a written proposal that will include a bibliography of primary and secondary source materials.

Upon completion of the dissertation, the student will be examined in an oral defense of the dissertation and related areas by members of the dissertation committee in concert with two additional members, at least one of which must be from a related discipline outside of the department.

Language Requirements
Second language: An examination in a second language (other than English) must be taken by the end of the second semester of graduate study and before the Second Year Examination.

In the event that the linguistic tradition under examination cannot be covered by a member of the comparative literature and folklore studies faculty, the advisor will invite an appropriate member of the UW–Madison faculty to assist in the administration of the examination.

Third Language: A third language (other than English and the second language) proficiency must be demonstrated by the completion of an appropriate intermediate or advanced literature course with a grade of AB or better. This requirement must be satisfied before the Comprehensive (or "prelim") Examinations.

Fourth Language Reading Requirement: For students pursuing the Comparative Literature Ph.D. option, each candidate must demonstrate reading knowledge of at least one of the following languages: Sanskrit, Hebrew, Classical Greek, Latin, a Medieval language, or a major Asian or African language. This requirement is satisfied by the completion of an appropriate course with a grade of AB or better.

Doctoral Minor/Breadth Requirements
