- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

OTHER

In most cases, the department offers five-year guarantees of support (for students with no prior graduate work) and four-year guarantees of support (for students with prior graduate work) to incoming students. During this period of guaranteed support, students usually hold a fellowship or teaching assistantship. Decisions on support are made in February and offers are usually sent out in early March.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The Department of French and Italian hosts several professional development workshops for our students each semester. Workshops focus on academic and non-academic professional development. Previous workshop materials are available to all students in the department.

LEARNING OUTCOMES

1. Demonstrate critical understanding of the major works of Italian literature and culture from the Middle Ages up to the present.
2. Lead a well-informed discussion of literature and culture utilizing an adequate proficiency of Italian.
3. Master methods of literary and cultural analysis in their specific areas of interest.
4. Examine literary texts of various genres and write competent critical and analytical essays
5. Lead a well-informed discussion of literature and culture utilizing an adequate proficiency of Italian.
6. Identify, select, and retrieve primary and secondary sources pertaining to questions in Italian literature and culture.

7. Recognizes and applies principles of ethical and professional conduct.
8. Create level- and course-appropriate instructional objectives, activities, and assessments for teaching language, literature, and culture.
9. Use instructional technologies appropriately to enhance the teaching of language, literature, and culture.
10. Incorporate insights from second language acquisition theory and current best practices in foreign language teaching into instruction.

Requirements	Detail
Fall Deadline	December 20
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

PEOPLE

ITALIAN FACULTY AND ACADEMIC STAFF

Professors: Stefania Buccini, Ernesto Livorni and Patrick Rumble

Associate Professors: Grazia Menecella(chair), Kristin Phillips-Court and Jelena Todorovic

Teaching Faculty II: Director of the Italian Language Program, Dr. Loren Eadie

Please Note: If you have received only a bachelor's degree and intend to go on to a Ph.D. after completing your M.A., please apply directly to the Ph.D. program.

We hope you will consider applying to our program. We offer an M.A. and Ph.D. in Italian.

Applicants for the M.A. or Ph.D. in Italian must submit all application materials by the application deadline of December 20. International students may have different deadlines due to the extra processing time required for visas and I-20 or IAP-66 forms. Please refer to International Student Services (<http://iss.wisc.edu/students/>) for more information.

Graduate School Application

Please refer to the following links:

- Consult the Graduate School (<http://www.wisc.edu/grad/>) website for complete information about graduate education opportunities at UW-Madison. This site is especially helpful in understanding Admissions Requirements (<http://grad.wisc.edu/admissions/requirements/>) and developing a Timeline (<http://grad.wisc.edu/admissions/process/>) for application.

Materials to Upload to the Online Application:

- You will need to list three people who will write letters of recommendation (<https://grad.wisc.edu/admissions/faq/>) for you. They should be in faculty or permanent academic staff positions. Since the Graduate School will contact your recommenders directly via e-mail once you have completed your online application, you should be sure to contact each recommender at least a month prior to when the letter of recommendation is needed to let them know that they will be contacted directly by the Graduate School. If your referees are unable to upload your letter of recommendation to the online application, the letters should be sent to the Graduate Coordinator at ramer2@wisc.edu.
- Statement of purpose, preferably written in English
- CV
- Unofficial transcripts
- Submit the online Graduate School Application for Admission (<https://apply.grad.wisc.edu/Account/Login/?ReturnUrl=%2f>) and pay the application fee.

ITALIAN, PH.D.

The Italian program offers the master of arts and Ph.D. degrees. In most academic years, a wide array of courses and seminars is offered each semester to provide an even distribution across various literary periods. Courses typically meet two or three times a week and are broad in focus, generally exploring well-defined periods or genres. Seminars are held once a week for two hours and take up narrower topics in greater depth. Typical course offerings over a two- to three-year period cover all centuries of Italian literature and a wide variety of topics, including Italian culture, cinema, civilization, and linguistics. Strong emphasis is placed on the practice of the language; Italian is the usual language of instruction in graduate courses and seminars.

Graduate students gain a solid foundation not only in scholarship and criticism, but also in teaching. All admitted students receive guarantees of support. The standard offer to an incoming teaching assistant provides a guarantee of four or five years of support, depending on whether the student has already done graduate work elsewhere.

The department offers regular workshops designed to give students an overview of the job market and how to best prepare for it, making its placement record outstanding. As one of the largest Italian programs in North America, the department offers an unparalleled opportunity to study Italian literature, linguistics, and culture.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

- GRE (<http://www.gre.org/>) (optional) institution code 1846 for UW–Madison
- Non-native English speakers must also submit results for the TOEFL (<http://toefl.org/>) or IELTS (<https://www.ielts.org/en-us/>) exams. There are few exceptions. Please note that the Graduate School requires that these scores be no older than 2 years old. This is calculated from the start of the term for which you are applying, NOT the date on which we receive your application.

Supplemental materials:

- TA/Fellowship Application: To be considered for teaching assistantship or fellowship support, you must submit to the department a document listing all relevant experience since you began studying Italian. **There is no specific application form—it is a document, much like a CV, that you put together yourself.** Include travel, study, or residence abroad. For teaching experience, be specific about subject, level, actual classroom hours/week, and age of students. Also indicate undergraduate and graduate honors, and how you would support yourself if UW was not able to offer support.
- Writing sample (essay or paper in Italian—usually between 7 and 12 pages in length)

Questions? Please contact Graduate Coordinator Shawn Ramer (ramer2@wisc.edu).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

The Department of French & Italian is committed to providing full funding (<https://grad.wisc.edu/funding/>) to all graduate students. Students who accept our offer of admission therefore receive fellowships or assistantships that cover tuition and provide eligibility to enroll in excellent comprehensive health insurance (<https://www.ohr.wisc.edu/benefits/health/#health-plans>) and other benefits (<https://www.ohr.wisc.edu/benefits/new-emp/grad.aspx#overview>). Funding is guaranteed for a minimum of 5 years of study for students entering with a B.A., and a minimum of 4 years for those entering with an M.A. Moreover, it has been our departmental practice to continue to offer funding beyond guarantee as possible for students in good academic standing.

Teaching assistantships, the most common form of support in our department, offer the pedagogical experience and training necessary to be competitive on the academic job market. The teaching assignment is usually one course per semester, but double sections (two sections of the same course) can also be requested for an increased stipend, when available. While the guarantee of support means students in good standing will receive funding, the exact assignments are based on need, merit, and experience. Generally, a graduate student will, over the course of study, hold a variety of positions from Italian 101-204, which are available every semester. Students may also have the opportunity to teach more advanced courses, such as ITALIAN 312 and ITALIAN 322, and LITTRANS 360 depending on departmental need. For more information

about our teaching assistantships, please visit our website (<https://frit.wisc.edu/funding/>).

There are also fellowships (<https://grad.wisc.edu/funding/fellowships/>) available from several sources on campus each year, including the Chancellor's fellowship, which starts at around \$11,000 per semester. Advanced Opportunity Fellowships are also available to increase the racial and ethnic diversity of the graduate student population, as well as support economically disadvantaged and first generation college students. The department also offers a number of monetary awards every year, for academic performance and for teaching.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.

Overall Graduate GPA Requirement	3.30 GPA required.
Other Grade Requirements	No other grade requirements.
Assessments and Examinations	Qualifying exam (if M.A. is from another institution); preliminary examinations; dissertation proposal; oral examination; dissertation; dissertation defense.
Language Requirements	Reading proficiency in two languages other than English and Italian.
Doctoral Minor/Breadth Requirements	All doctoral students are required to complete a minor.

REQUIRED COURSES

Students admitted to the Ph.D. program who do not have the M.A. degree in Italian from UW–Madison are expected to have a background in the subject areas indicated by the M.A. reading list. Students in this category are required to pass the qualifying examination by the end of the second semester in the Ph.D. program. It may be taken only once.

Students must take a seminar (ITALIAN 951 and/or ITALIAN 952) in an area of Italian studies each semester until they have passed the preliminary examinations. In any given semester, this request may be waived upon approval by the associate chair for Italian. In addition, it is expected that students will complete the bulk of the coursework for their minor and foreign language reading requirements after taking their first set of preliminary examinations. Students are encouraged to plan ahead for a timeline to take these courses, and if a student wishes to take a course for their minor or foreign language requirement as part of their full-time load of 9 credits prior to that time, they may do so with approval from their advisor. Students should understand that it is very rare that requests to take minor or foreign language classes during the first year of study would be granted. In addition, advisors reserve the right to deny a student permission to take these classes (prior to the time of passing the first set of prelims) if doing so would directly conflict with a course offering in Italian which was important to the student's area of research.

At any time, students may take a course for their minor or foreign language reading requirement as a fourth course, in addition to the 9-credit requirement in Italian, without needing approval from their advisor.

Students choose courses in consultation with their advisor.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 6 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

With program approval, students are allowed to count no more than 6 credits of coursework numbered 300 or above taken as a UW–Madison Special student. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

All students are required to conduct a yearly progress report meeting with their advisor.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and

conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)

- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

OTHER

In most cases, the department offers five-year guarantees of support (for students with no prior graduate work) and four-year guarantees of support (for students with prior graduate work) to incoming students. During this period of guaranteed support, students usually hold a fellowship or teaching assistantship. Decisions on support are made in February and offers are usually sent out in early March.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The Department of French and Italian hosts several professional development workshops for our students each semester. Workshops focus on academic and non-academic professional development. Previous workshop materials are available to all students in the department.

LEARNING OUTCOMES

1. Demonstrate thorough knowledge and critical understanding of their area of specialization.
2. Synthesize and define a field of inquiry in a persuasive, coherent, and original way.
3. Make effective use of research sources, tools, and strategies in the field of Italian literature and culture.
4. Demonstrate, in the writing of their Ph.D. dissertation, an originality of thinking and insight that reaches beyond the current boundaries of knowledge within the field of study.

5. Articulate awareness of various questions, problems, and limitations implied by their framing of their topic.
6. Contribute substantially to their area of specialization, and engage in a dialogue with other experts in that area.
7. Fosters ethical and professional conduct.
8. Communicate and defend complex ideas in a clear and understandable manner, in both Italian and English.
9. Show reading knowledge of a second foreign language pertinent to their research specialty.
10. Be prepared to be effective teachers of Italian culture, and language at the college and university levels.

PEOPLE

ITALIAN FACULTY AND ACADEMIC STAFF

Professors: Stefania Buccini, Ernesto Livorni and Patrick Rumble

Associate Professors: Grazia Menechella(chair), Kristin Phillips-Court and Jelena Todorovic

Teaching Faculty II: Director of the Italian Language Program, Dr. Loren Eadie

GAYLORD NELSON INSTITUTE FOR ENVIRONMENTAL STUDIES

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Culture, History and Environment, Doctoral Minor (p. 820)
- Culture, History and Environment, Graduate/Professional Certificate (p. 821)
- Energy Analysis and Policy, Doctoral Minor (p. 822)
- Energy Analysis and Policy, Graduate/Professional Certificate (p. 824)
- Environment and Resources, Doctoral Minor (p. 826)
- Environment and Resources, M.S. (p. 826)
- Environment and Resources, Ph.D. (p. 834)
- Environmental Conservation, M.S. (p. 841)
- Water Resources Management, Doctoral Minor (p. 851)
- Water Resources Management, M.S. (p. 852)

CULTURE, HISTORY AND ENVIRONMENT, DOCTORAL MINOR

The Center for Culture, History, and Environment (CHE) provides a home for faculty and graduate students from across campus to explore changing human-environment interactions across the broad sweep of

history in an interdisciplinary setting. Graduate student involvement is at the core of CHE's mission, and graduate students from all disciplines are invited to take part in the full range of CHE's activities, events, scholarly collaborations, and professional development opportunities. CHE offers two main avenues for graduate student involvement: a non-curricular affiliation in the form of Graduate Student Associate status, and a curricular track in the form of the CHE Certificate or Ph.D. Minor.

Eligibility: Any currently enrolled graduate student at UW–Madison at the Ph.D. level and not pursuing any other minor field.

Benefits:

- Completed Ph.D. minor will appear on transcript
- Demonstrates rigorous academic engagement with interdisciplinary environmental studies
- Ability to construct a tailored minor course of study that counts as an "Option A" minor program

ADMISSIONS

To apply:

1. Find a CHE faculty associate who is willing to serve as your CHE advisor.
2. Complete the form available here (https://uwmadison.co1.qualtrics.com/jfe/form/SV_7WmbG4EG7c4mAPX/) and submit with an unofficial transcript.
3. Apply through the UW–Madison Graduate Student Portal.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any major/named option, doctoral minor, or graduate/professional certificate. To apply to this doctoral minor, please log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. The CHE curricular coordinator will review your application for admittance, and reach out to you if they have any further questions.

Admission process: CHE Curriculum Committee reviews applications on a rolling schedule.

REQUIREMENTS

Requirements:

- ENVIR ST 922 Historical and Cultural Methods in Environmental Research (also known as the "CHE methods seminar")
- 6-credit plan of study.
Each CHE graduate student works with her/his/their CHE faculty advisor to design a tailored plan of study. The plan of study must be relevant to the student's chosen area of focus. The area of focus should be related to human dimensions of an environmental issue. Examples of areas of focus include (but are certainly not limited to): posthumanism and the human-wildlife interface; critical engagements with conservation science; feminist political ecology and/or ecofeminisms; history of indigenous landscapes and cultures in Central America; environmental justice and Latinx, Black, and/or other minoritized communities in the US; food insecurity and sovereignty; the literature and/or art of polluted spaces.
- Average GPA for coursework must be 3.00 or higher.

PEOPLE

CHE Leadership: <https://che.nelson.wisc.edu/leadership> (<https://che.nelson.wisc.edu/leadership/>)

CULTURE, HISTORY AND ENVIRONMENT, GRADUATE/PROFESSIONAL CERTIFICATE

The CHE certificate, administered by the Nelson Institute's Center for Culture, History, and Environment, captures the spirit of interdisciplinarity at the heart of CHE and the collaborations that have been forged across the Nelson Institute, the College of Letters & Science, and the College of Agricultural and Life Sciences. Departments, programs, and schools represented by CHE faculty and graduate students include American Indian Studies, Anthropology, Art History, Botany, Community and Environmental Sociology, English, Forest and Wildlife Ecology, Gender and Women's Studies, Geography, History, History of Science, Journalism and Mass Communication, Law, Landscape Architecture, Limnology, and Zoology.

The environmental challenges we face today arise as much from human actions as from natural processes. Only at our peril do we forget that nature, in all its myriad forms, is inextricably bound up with every aspect of human culture, economy, and politics. In attending to past environmental and cultural change, and in synthesizing diverse research methods and approaches drawn from across the full spectrum of humanities, natural sciences, and social sciences, the certificate in culture, history, and environment contributes in important ways to the understanding of past, present, and future environmental issues through interdisciplinary education and research.

Through the CHE Environmental History Colloquia, the annual Place-Based Workshops, and the Graduate Symposium, among other activities, CHE has created a lively, engaged community of faculty, graduate students, and others from a wide array of academic disciplines to investigate environmental and cultural change in the full sweep of human history. The CHE certificate considers applications from students in any graduate degree program at UW–Madison. By entering CHE early in their graduate studies and planning carefully, students often can select courses that satisfy both their degree program and CHE requirements.

CHE is not available as a stand-alone graduate degree. Master's and doctoral students who complete the requirements receive a certificate in CHE to supplement their graduate degree, or doctoral students can instead complete the program as an external minor. Doctoral students cannot claim CHE as both a certificate and an external minor; they must choose one or the other.

ADMISSIONS

To apply:

1. Find a CHE faculty associate who is willing to serve as your CHE advisor.

2. Complete the form available here (https://uwmadison.co1.qualtrics.com/jfe/form/SV_7WmbG4EG7c4mAPX/) and submit with an unofficial transcript.
3. Apply through the UW-Madison Graduate Student Portal.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any major/named option, doctoral minor, or graduate/professional certificate. To apply to this certificate, please log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. The certificate coordinator will review your application for admittance, and reach out to you if they have any further questions.

Admission process: CHE Curriculum Committee reviews applications on a rolling schedule.

REQUIREMENTS

Certificate students must complete 12 credits including an interdisciplinary methods seminar (ENVR ST 922 Historical and Cultural Methods in Environmental Research) and a thematically coherent selection of courses relating to past environmental and cultural change. Courses should expose students to research approaches from outside their home discipline. Once a student and their advisor have developed and described the rationale for the chosen plan of study, it must be reviewed and approved by the CHE curriculum subcommittee.

The plan of study must be relevant to the student's chosen area of focus. The area of focus should be related to human dimensions of an environmental issue and should be distinct from the focus of their major program. Examples of areas of focus include (but are certainly not limited to):

- posthumanism and the human-wildlife interface
- critical engagements with conservation science
- feminist political ecology and/or ecofeminisms
- history of indigenous landscapes and cultures in Central America
- environmental justice and Latinx, Black, and/or other minoritized communities in the US
- food insecurity and sovereignty
- the literature and/or art of polluted spaces

LEARNING OUTCOMES

1. Gain knowledge of human dimensions of the environment, by learning about the diverse interests, experiences and meanings that different people have associated with the natural world.
2. Become familiar with different methodologies associated with the environmental humanities.
3. Deploy diverse methods - including and especially historical and cultural methods - to approach, interpret, and explain environmental change across space and/or time.

PEOPLE

CHE Leadership: <https://che.nelson.wisc.edu/leadership/>

ENERGY ANALYSIS AND POLICY, DOCTORAL MINOR

Admissions to the Energy Analysis and Policy doctoral minor have been suspended as of fall 2022 and will be discontinued as of fall 2026. If you have any questions, please contact the department.

Those wishing to pursue Energy Analysis and Policy to fulfill their doctoral breadth requirement may do so through the Energy Analysis and Policy graduate certificate (p. 824).

The Energy Analysis and Policy (EAP) doctoral minor provides Ph.D. students with the opportunity to customize their graduate experience and add energy training to their degree program at the University of Wisconsin-Madison. The EAP doctoral minor fulfills the "Option A" minor requirement for Ph.D. students and adds an energy credential to one's transcript. Graduate students can complete either the EAP doctoral minor or the EAP graduate certificate (p. 824), but not both.

Since its formation in 1980, EAP has provided students with the skills and knowledge needed by professionals in government, energy companies, consulting firms, and other organizations. EAP draws students from across campus. Particularly large student groups from public policy, environmental studies, engineering, and urban planning pursue the certificate because of the program's interdisciplinary curriculum which considers a wide range of technical, economic, political, and social factors that shape energy policy formulation and decision-making.

ADMISSIONS

Admissions to the Energy Analysis and Policy doctoral minor have been suspended as of fall 2022 and will be discontinued as of fall 2026. If you have any questions, please contact the department.

EAP welcomes applications from students in any doctoral degree program at UW-Madison. Students may apply to the EAP program concurrently with their graduate school application or once they have matriculated at UW-Madison.

While there are no prerequisites to the program, it is recommended that EAP applicants have completed at least one college-level course in each of the following five subject areas: physical science (physics or chemistry); natural science (biology, environmental, geology or atmospheric and oceanic); economics; social sciences or humanities (besides economics); and calculus or statistics.

HOW TO APPLY

To apply for the EAP doctoral minor, students must complete the online Energy Analysis and Policy (EAP) application form (<https://go.wisc.edu/EAP-apply/>), which includes the following elements:

1. Information on prior educational attainment
2. Information on degree program being pursued
3. A brief statement of interest in the EAP program

DEADLINES

Applications to EAP may be submitted at any time, but applicants are encouraged to apply early in their graduate career to ensure timely completion of doctoral minor requirements and to access additional

benefits (e.g. funding, networking events) available exclusively to students in the EAP program. Students may take courses that meet the minor requirements prior to completing their application.

REQUIREMENTS

Each EAP student must complete four courses (12 credits), including an introductory course, a capstone course, and one course from each of two categories: *Energy Analysis* and *Energy Policy*. Courses in the *Energy Analysis* category involve quantitative analysis of the technical and economic factors that shape society's use of energy resources. Courses in the *Energy Policy* category involve the social, political, and environmental factors that underly decision-making around energy choices.

Some courses listed in the *Energy Analysis* category may have some overlap with the *Energy Policy* category, and vice versa. Students who wish to use a course for the opposite category that it is listed in should submit a written request to the EAP Academic Coordinator or Faculty Chair. Students should provide a course syllabus and a written justification for why the course should qualify for the other category in the context of their overall course of study, with the EAP Chair making the final decision on whether to accept the request.

The following courses are offered regularly, though other courses (with approval by the EAP faculty program committee) may fulfill one of the requirements below (see note under Other Qualifying Courses (p. 823)).

Code	Title	Credits
Required Courses		6
ENVIR ST/ PUB AFFR/ URB R PL 809	Introduction to Energy Analysis and Policy	
ENVIR ST/ PUB AFFR/ URB R PL 810	Energy Analysis and Policy Capstone

POP HLTH/ M&ENVTOX 789	Principles of Environmental Health: A Systems Thinking Approach	
Total Credits		12

OTHER QUALIFYING COURSES

Because the scheduling of the preceding courses is coordinated with the needs of their home departments, EAP cannot guarantee that specific courses will always be offered at specific times or rotations. Each semester, the EAP program faculty will consider other qualifying courses for the upcoming semester that fulfill one of the categories above. Once approved, the EAP Academic Coordinator will distribute a list of course offerings for the upcoming semester to students in the EAP program.

COURSE SUBSTITUTIONS

Students may propose course substitutions by contacting the Academic Coordinator or the Faculty Chair. The EAP Chair makes the final decision. Students should provide a course syllabus and a letter of endorsement from the faculty member teaching the course, preferably before the start of the course. The substitution proposal will be considered based upon the following criteria:

1. the extent to which the course content is devoted to energy
2. the rigor of methodology applied to the course material
3. the context of the class with respect to the student's study plan

PEOPLE

ENERGY ANALYSIS AND POLICY, GRADUATE/PROFESSIONAL CERTIFICATE

The Energy Analysis and Policy certificate (EAP) provides students with the opportunity to customize their graduate experience, adding energy training to any graduate degree program offered at the University of Wisconsin–Madison. Graduate students can complete the EAP certificate by selecting courses that meet both their degree and EAP requirements. As such, most students can add EAP onto a degree without any additional time or cost. PhD students may use the EAP certificate to fulfill their doctoral breadth requirement (<https://policy.wisc.edu/library/UW-1200/>), though in this case courses may not be double-counted for major requirements. Many prospects choose UW–Madison specifically to participate in the EAP program, while others join EAP upon learning about it after matriculation.

Since its formation in 1980, EAP has provided students with the skills and knowledge needed by professionals in government, energy companies, consulting firms, and other organizations. EAP draws students from across campus. Particularly large student groups from public policy, environmental studies, engineering, and urban planning pursue the certificate because of the program's interdisciplinary curriculum which considers a wide range of technical, economic, political, and social factors that shape energy policy formulation and decision-making.

ADMISSIONS

EAP welcomes applications from students in any graduate degree program at UW–Madison that allows students to pursue a certificate. Students may apply to the EAP program concurrently with their graduate school

application or once they have matriculated at UW–Madison. Acceptance into EAP is contingent on enrollment in a graduate degree program.

While there are no prerequisites to the program, it is recommended that EAP applicants have completed at least one college-level course in each of the following five subject areas: physical science (physics or chemistry); natural science (biology, environmental, geology or atmospheric and oceanic); economics; social sciences or humanities (besides economics); and calculus or statistics.

HOW TO APPLY

To declare the certificate, students must first complete the online Energy Analysis and Policy (EAP) application form (<https://go.wisc.edu/EAP-apply/>), which includes the following elements:

1. Information on prior educational attainment
2. Information on degree program being pursued
3. A brief statement of interest in the EAP program
4. For prospective students applying to the Environment and Resources MS or PhD programs, the EAP application provides a matching service with potential thesis advisors.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor or graduate/professional certificate. Once your application has been accepted and you have enrolled in a graduate degree program, to add the certificate you must log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the Energy Analysis and Policy certificate.

DEADLINES

Applications to EAP may be submitted at any time, but applicants are encouraged to apply before the end of their first year in graduate school to ensure timely completion of certificate requirements. Students may take courses that meet certificate requirements prior to completing their application.

REQUIREMENTS

Each EAP student must complete five courses (13 credits), including an introductory course, a capstone course, a professional skills seminar, and one course from each of two categories: *Energy Analysis* and *Energy Policy*. Courses in the *Energy Analysis* category involve quantitative analysis of the technical and economic factors that shape society's use of energy resources. Courses in the *Energy Policy* category involve the social, political, and environmental factors that underly decision-making around energy choices.

Some courses listed in the *Energy Analysis* category may have some overlap with the *Energy Policy* category, and vice versa. Students who wish to use a course for the opposite category that it is listed in should submit a written request to the EAP Academic Coordinator or Faculty Chair. Students should provide a course syllabus and a written justification for why the course should qualify for the other category in the context of their overall course of study, with the EAP Chair making the final decision on whether to accept the request.

The following courses are offered regularly, though other courses (with approval by the EAP faculty program committee) may fulfill one of the requirements below (see note under Other Qualifying Courses (p. 825)).

Total Credits**13**

1

Because this is a 2-credit course, students selecting this course option are required to take an additional 1-credit course in consultation with the certificate coordinator.

OTHER QUALIFYING COURSES

Because the scheduling of the preceding courses is coordinated with the needs of their home departments, EAP cannot guarantee that specific courses will always be offered at specific times or rotations. Each semester, the EAP program faculty will consider other qualifying courses for the upcoming semester that fulfill one of the categories above. Once approved, the EAP Academic Coordinator will distribute a list of course offerings for the upcoming semester to students in the EAP program.

COURSE SUBSTITUTIONS

Students may propose course substitutions by contacting the Academic Coordinator or the Faculty Chair. The EAP Chair makes the final decision. Students should provide a course syllabus and a letter of endorsement from the faculty member teaching the course, preferably before the start of the course. The substitution proposal will be considered based upon the following criteria:

1. the extent to which the course content is devoted to energy
2. the rigor of methodology applied to the course material
3. the context of the class with respect to the student's study plan

LEARNING OUTCOMES

1. Demonstrate an awareness of the variety of energy sources and energy conversion technologies and master the language and scientific basis required to engage in the analysis of energy topics.
2. Analyze and compare the sustainability of different energy sources/technologies from the perspective of engineering, economics, environmental impacts, and security of supply.

3. Demonstrate an awareness of the socio-political institutions that govern the energy industry and the societal and social justice impacts of energy policies.
4. Prepare for energy-related career pathways in industry, government, academia, NGOs, regulatory agencies and energy consulting. Gain experience by participating in “real-life” projects for actual clients in multidisciplinary student groups.

ENVIRONMENT AND RESOURCES, DOCTORAL MINOR

Environment and Resources is an interdisciplinary program intended to prepare its graduates to undertake scholarly or professional work that requires a breadth of vision sufficient to encompass the complexity of environmental issues. We seek to strengthen our students' ability to integrate across areas of knowledge so they can create, apply, and transfer world-class data, concepts, and skills about the environment and its sustainability in a flexible, interdisciplinary way to serve the people of the state, region, and world. As a program our learning objectives entail the following. Our students should gain: (1) familiarity with methods and concepts from a range of disciplines relevant to environmental issues and outcomes (interdisciplinarity); (2) a broad understanding of environmental issues and solutions (breadth requirement); (3) knowledge from a coherent and rigorous course of study related to the thesis topic (depth requirement); (4) familiarity with quantitative and qualitative methods and methods of data analysis and presentation appropriate to the study of the environment (measure and analysis requirement); (5) a capacity to integrate knowledge and to make original contributions that improve understanding of environmental problems; (6) the ability to communicate research findings and environmental information generally in writing and orally to a broad audience, including stakeholders and the general public (thesis and defense); and (7) an understanding of professional and ethical responsibility (literature review).

Those minoring in Environment and Resources are expected to present a rationale for how they will use their coursework and related activities to accomplish our objective of strengthening a student's ability to understand and be able to address environmental problems in an integrative, interdisciplinary way.

ADMISSIONS

The responsibility of overseeing the administration of the minor rests with the Environment and Resources program chair. The chair may, at his or her discretion, delegate aspects of the oversight to a subcommittee of the Environment and Resources faculty executive program committee. For example, such a subcommittee could be charged with reviewing and ultimately approving the plans submitted by doctoral students wishing to minor in Environment and Resources. Staff in the Nelson Institute's Academic Programs Office are charged with maintaining the paper and database records relevant to the minor.

For admission to the minor, students submit a form detailing the minor. On the form, the student is to (a) list the courses for the minor, (b) provide a title and brief (few sentences) description of the minor (e.g., water resources, remote sensing, energy analysis, public policy, environmental history), and (c) include the signature of the student's academic advisor indicating an endorsement of the proposed minor. Up to 3 of the 9 credits required for the minor may come from previous graduate coursework taken elsewhere. Any previous graduate coursework is to be clearly denoted as such, and the student is to include a transcript verifying where and when the course was taken.

REQUIREMENTS

The minor requires 9 credits of coursework. Because of the breadth of environmental studies, a fixed sequence is not prescribed, since the appropriate selection of courses will be dictated in large part by the coursework in the major degree. However, students are required to select courses that collectively give them insight into an area that can be understood only by combining insights from multiple disciplines. In most cases this will build off of a student's major field of study. For example, a student majoring in a laboratory or physical science might want to emphasize coursework in social sciences or humanities to give perspective on how natural science interfaces with social or humanistic concerns. Minor and major credits/courses cannot overlap or double-count.

ENVIRONMENT AND RESOURCES, M.S.

Environment and Resources is a research program offering master's and Ph.D. degrees based on the premise that solutions to environmental challenges require interdisciplinary approaches. Faculty and students are oriented to environmental problems rather than to disciplines. Students are encouraged to explore the specific area that interests them by drawing on the insights and methods of multiple disciplines. The focus is on gaining the knowledge needed to understand the intellectual context of their work and the skills necessary to conduct original research. The program fosters experimentation and innovation, not the mastering of a narrowly defined set of prepackaged competencies. The objective is to produce graduates who are prepared to function comfortably in the complex professional and

social communities within which solutions to environmental problems must be found.

The program mandates interdisciplinarity through curriculum requirements, the structure of the student's faculty advisory committee, and the research endeavor. Students are required to take some courses in diverse disciplinary topics and other courses that are intended to strengthen problem-solving skills. A thesis (M.S.) or a dissertation (Ph.D.) is required of all students. Each student's faculty advisory committee must consist of persons who collectively ensure interdisciplinary support and evaluation. Students can pursue interests over the full range of environmental studies from more of a physical or biological science research project to those emphasizing more of the social sciences or humanities including policy, environmental history, community action, or social justice. Students who feel a need to follow a more structured course of study may also pursue certificates in Culture, History, and Environment or Energy Analysis and Policy. Any bachelor's degree from an accredited institution may be acceptable.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	October 15
Summer Deadline	December 1
GRE (Graduate Record Examinations)	Not required but may be considered if available.*
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

* Recommended for those seeking University Fellowship consideration.

DEADLINES

Application materials for Environment and Resources must be received by December 1 for admission to the following summer session or fall semester and by October 15 for admission to the following spring semester.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

In most cases Environment and Resources is unable to guarantee any funding to students. However, many of our students obtain funding through other departments on campus, and we recommend that students contact faculty or departments directly if they have teaching or research skills in specific areas. Individual faculty members occasionally have their own sources of support for research or project assistants, though we strongly urge students not to depend on these as guaranteed sources of funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement 30 credits

Minimum Residence Credit Requirement 16 credits

Minimum Graduate Coursework Requirement 15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (<https://policy.wisc.edu/library/UW-1244> (<https://policy.wisc.edu/library/UW-1244/>)).

Overall 3.00 GPA required.

Graduate GPA Requirement This program follows the Graduate School's policy: <https://policy.wisc.edu/library/UW-1203> (<https://policy.wisc.edu/library/UW-1203/>).

Other Grade Requirements Grades of BC or C may be counted toward program requirements if they are offset by equivalent AB or A grades in other courses. A 3.00 average must be maintained in the student's breadth categories as well as their individual program focus category. With the exception of research credits, a maximum of 2 credits graded S may be counted toward program requirements if approved by the student's thesis committee and the program chair. Courses that are audited or graded pass/fail or credit/no credit will not count toward program requirements.

Assessments and Examinations All students must complete a program certification and a thesis. Students must pass a final thesis defense which constitutes the final examination.

Language Requirements No language requirements.

1

Students choose any biological sciences and/or physical sciences courses in the 300–999 range. This course list is not meant to be all-inclusive. Students are not restricted to the courses listed here. This is a sample of appropriate courses for this category that are offered through various departments/programs. At least three credits must be from UW-Madison.

2

Students choose any social sciences and/or arts & humanities courses in the 300–999 range. This course list is not meant to be all-inclusive. Students are not restricted to the courses listed here. This is a sample of appropriate courses for this category that are offered through various departments/programs. At least three credits must be from UW-Madison.

3

Students choose any measurement/analysis/tools/methods courses in the 300–999 range. This course list is not meant to be all-inclusive. Students are not restricted to the courses listed here. This is a sample of appropriate courses for this category that are offered through various departments/programs. At least three credits must be from UW-Madison.

4

Students choose any courses, in the 300–999 range, that pertain to their individual research and thesis endeavor. At least one graduate seminar (research or topical) is required, and up to six Research credits may be used toward this category. At least six credits must be from UW-Madison (not including Research credits).

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With thesis committee and program chair approval, students are allowed to count up to 15 credits of graduate coursework from other institutions. Students must have at least three UW-Madison credits in each of the three breadth categories, and at least six UW-Madison credits in the individual program focus category (not including Research credits). Coursework completed five or more years prior to admission to the master's degree is not allowed to satisfy graduate degree or graduate coursework requirements.

UW-Madison Undergraduate

No credits from a UW-Madison undergraduate degree are allowed to count toward the program.

UW-Madison University Special

With thesis committee and program chair approval, students are allowed to count up to 15 credits of coursework taken as a UW-Madison Special student. Such credits from courses numbered 300 and higher can count toward graduate residency and graduate degree requirements. Such credits from courses numbered 700 and higher can count toward the graduate coursework (50%) requirement. Coursework completed five or more years prior to admission to the program is not allowed to satisfy graduate residency, graduate degree, or graduate coursework requirements.

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

1. Good standing (progressing according to standards; any funding guarantee remains in place).

2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

ADVISOR / COMMITTEE

All students must assemble a three-member thesis committee that represents a minimum of two departments, preferably no later than their third semester in the program. To meet the interdisciplinary requirement the committee must include members tenured in one of the natural sciences divisions (Biological Sciences, Physical Sciences) and one of the social sciences divisions (Social Studies, Arts & Humanities). Two of the three committee members must be members of the Graduate Faculty. The third, subject to approval of the program chair, may be any qualified person, on or off campus, who holds at least a master's degree.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy (<https://policy.wisc.edu/library/UW-1221/>).

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

This document was reviewed by the Graduate Student working group and approved by vote of Nelson Institute Governance with subsequent review by campus HR; please note that this was prior to the revision of GAPP by campus in 2019-20, as well as present and expected changes in 2020 after to Title IX, Office of the Dean of Students, etc.

Preamble:

Any student who feels that they have been treated unfairly by a faculty or staff member has the right to seek redress and to receive a hearing of the grievance following these procedures. It applies only to grievances about those persons who are employees of the Nelson Institute, who teach for the Nelson Institute or otherwise are subject to administrative oversight by the Institute. The complaint may concern course grades, program admission, classroom treatment, hostile or intimidating behavior, or any other issue. Note that these procedures are for students bringing grievances to the Nelson Institute, they do not cover issues relating to the classroom behavior of students which must be referred to the Dean of Students.

The procedures outlined below are used in the Nelson Institute to ensure a prompt and fair hearing of complaints, and to protect the rights of both the student and the person at whom the complaint is directed. These policies describe formal procedures. A student is free to bypass these procedures if they do not wish for an Institute sanctioned resolution.

A complaint covered here may involve issues that either require or that would benefit from being directed to one of the campus programs or offices addressing complaints and grievances. See <https://compliance.wisc.edu/> and https://compliance.wisc.edu/wp-content/uploads/sites/102/2018/09/Safe-Learning-and-Work-Guide.Fall_FY19-Accessible.pdf (Accessed Oct. 2020). Please review the most recent information on Title IX on campus, as guidelines and contacts may change. Graduate students should review information at <https://grad.wisc.edu/documents/grievances-and-appeals/> (Accessed Feb. 2019) Undergraduate students may wish to review information available in the undergraduate course catalog. There they will find this option presented: "For assistance in determining options, students can contact the on-call dean in the Dean of Students Office, 608-263-5700, Room 70 Bascom Hall, Monday– Friday, 8:30 a.m.–4:30 p.m."

Also, students should know that academic administrators may be required to report instances of sexual harassment or violence in accordance with university policy and the Clery act. (See: <http://uwpd.wisc.edu/crime-data/clery-act/> Accessed Oct. 2018).

State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, UW–System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office for Equity and Diversity.

Questions about Nelson Institute procedures can be directed to the Associate Dean for Research and Education.

Procedures:

1. If possible, the student (complainant) should first talk with the person against whom the grievance is directed to advise them of their complaint and to determine if resolution is possible.

2. If the student is not satisfied, or if they do not feel comfortable addressing the person to whom the grievance is directed, they should ask to speak to the immediate supervisor of the person involved. If the complaint is directed against a teaching assistant, the student should talk to the TA's supervisor, who is usually the course professor. If the student grievance concerns a faculty or staff member in Nelson, the next formal step is for the student to meet with the Associate Dean for Research and Education. If the complaint is not resolved at this level, the student may continue to the next step (4).
3. It is recognized that a student may be reluctant to bring their grievance to the person against whom the complaint is directed, or to their supervisor, or to anyone else in the administrative hierarchy. In that case, the student should seek out a person who can guarantee confidentiality to the extent allowed by the law and university policy and provide non-judgmental advice as to appropriate next steps. Note that if criminal activity is involved confidentiality cannot be guaranteed. If a student does not know of any suitable person, they may approach any member of the Nelson Institute Academic Programs staff who will be able either to serve as a confidential discussant or who will be able to direct the student to someone who can assure confidentiality. Their role is to be that of Ombuds, meaning that they are not to take a position with respect to the validity of the grievance. Their role is to advise the student as to appropriate next steps.
4. To start a formal grievance process, the student must submit the grievance in writing to the Nelson Institute Associate Dean for Research and Education (hereafter Associate Dean) as soon as possible. An email for which receipt is acknowledged will be considered a written submission.
5. On receipt of the written complaint, the Associate Dean will acquaint themselves with the issues. This may involve face to face meetings or other means of establishing the facts in dispute. The Associate Dean will have the option of proposing a resolution. If the proposed resolution is accepted by parties directly involved, the matter will be considered settled at this level. Relevant documents will be archived by the Office of the Assistant Dean for Administration. At any point in the proceedings after the receipt and acknowledgement of the grievance by the Associate Dean, the complainant or the compliance will have the option of requesting that the matter be referred to an ad hoc committee. This request must be submitted in writing and acknowledged by the Associate Dean.
6. If the matter cannot be settled through the mediation of the Associate Dean, or if the Associate Dean has concluded that the case merits further attention, or if the complainant has requested that the matter be referred to an ad hoc committee an ad hoc committee will be appointed by the Dean of the Nelson Institute or their designee. The committee will consist of at least three members. Within 10 working days, the student will be allowed to revise the complaint or to add material to the complaint document to be provided to the committee. The complainant may request a change in committee membership, but the final decision on the committee will remain with the Dean. The committee may request a written response from the person toward whom the complaint is directed. This response shall be shared with the person filing the grievance. The ad hoc committee will meet to discuss the case. They are authorized to seek additional information if they feel it is necessary. They will convey their written decision regarding the case including any recommendations for remediation or mediation to the

Associate Dean within 30 working days from the charge to the committee. The Associate Dean will provide a copy of the committee's written decision to the student regarding the case within 10 working days of receiving the committee's report; the Associate Dean will also confirm that the past record on file of any grievances regarding the parties involved has been investigated; and, the Associate Dean will provide the student a statement outlining the formal plan of steps that will be taken officially on the part of the Nelson Institute.

7. The complainant then has the option of taking their grievance to the university level. There are several options available. Consult websites referenced above.
8. The written documents relevant to the grievance will be archived in hard copy and electronic form as appropriate in a "Grievance Record" by the office of the Assistant Dean of Administration and will be maintained for a minimum of five years.
9. The cumulative record involving any of the parties to a grievance will be reviewed each time a formal grievance is presented as in Step 4, above, in order to determine whether the pattern of grievance, such as past filings, indicates any actions are warranted.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

SUMMER WRITING RETREAT

A four-day weekend summer (early June typically) writing retreat is available to any student in the program who is in the process of undertaking a serious writing commitment like a thesis, dissertation, grant proposal, or class paper. There is a peer review component to this retreat, so all participants will share at least some parts of their work for feedback from the instructor and their peers.

LEARNING OUTCOMES

1. Demonstrate master's level knowledge of interdisciplinary environmental studies.
2. Demonstrate master's level knowledge of a substantive area of environmental studies, adequate to undertake their M.S. thesis.
3. Demonstrate master's level knowledge of research methodology appropriate to their substantive area of focus and appropriate for preparing their M.S. thesis.
4. Demonstrate skill in synthesizing the above goals (1-3) through preparation of a master's thesis.

PEOPLE

FACULTY EXECUTIVE PROGRAM COMMITTEE

Sara Hotchkiss (Program Chair), Robert Beattie, Holly Gibbs, Leah Horowitz, Marty Kanarek, Christopher Kucharik, Mutlu Ozdogan, Steph Tai, Paul Zedler, Anna Gade (Ex Officio)

ENVIRONMENT AND RESOURCES, PH.D.

Environment and Resources is a research program offering master's and Ph.D. degrees based on the premise that solutions to environmental challenges require interdisciplinary approaches. Faculty and students are oriented to environmental problems rather than to disciplines. Students are encouraged to explore the specific area that interests them by drawing on the insights and methods of multiple disciplines. The focus is on gaining the knowledge needed to understand the intellectual context of their work and the skills necessary to conduct original research. The program fosters experimentation and innovation, not the mastering of a narrowly defined set of prepackaged competencies. The objective is to produce graduates who are prepared to function comfortably in the complex professional and social communities within which solutions to environmental problems must be found.

The program mandates interdisciplinarity through curriculum requirements, the structure of the student's faculty advisory committee, and the research endeavor. Students are required to take some courses in diverse disciplinary topics and other courses that are intended to strengthen problem-solving skills. A thesis (M.S.) or a dissertation (Ph.D.) is required of all students. Each student's faculty advisory committee must consist of persons who collectively ensure interdisciplinary support and evaluation. Students can pursue interests over the full range of environmental studies from more of a physical or biological science research project to those emphasizing more of the social sciences or humanities including policy, environmental history, community action, or social justice. Students who feel a need to follow a more structured course of study may also pursue certificates in Culture, History, and Environment or Energy Analysis and Policy. Any bachelor's degree from an accredited institution may be acceptable.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	October 15
Summer Deadline	December 1
GRE (Graduate Record Examinations)	Not required but may be considered if available.*
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

* Recommended for those seeking University Fellowship consideration.

DEADLINES

Application materials for Environment and Resources must be received by December 1 for admission to the following summer session or fall semester and by October 15 for admission to the following spring semester.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

In most cases Environment and Resources is unable to guarantee any funding to students. However, many of our students obtain funding through other departments on campus, and we recommend that students contact faculty or departments directly if they have teaching or research skills in specific areas. Individual faculty members occasionally have their own sources of support for research or project assistants, though we strongly urge students not to depend on these as guaranteed sources of funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement

Minimum Residence Credit Requirement

Minimum Graduate Coursework Requirement

Overall Graduate GPA Requirement

Other Grade Requirements

Assessments and Examinations

Language Requirements

Breadth Requirement

REQUIRED COURSES

Code	Title	Credits
Breadth Requirements		
Category 1: Natural Science (see course list below) ¹		9
Category 2: Social Science & Humanities (see course list below) ²		9
Category 3: Measurement & Analysis (see course list below) ³		9
Individual Program Focus & Research ⁴		15
Additional Coursework and Seminars		9
Students must also take at least two graduate seminars (research or topical) as well as a variable number of Research credits. Students may double count up to 9 credits with one of their breadth categories. At least six credits must be from UW–Madison (not including Research credits).		
Total Credits		51

1

Students choose any biological sciences and/or physical sciences courses in the 300–999 range. This course list is not meant to be all-inclusive. Students are not restricted to the courses listed here. This is a sample of appropriate courses for this category that are offered through various departments/programs. At least three credits must be from UW–Madison.

2

Students choose any social sciences and/or arts & humanities courses in the 300–999 range. This course list is not meant to be all-inclusive. Students are not restricted to the courses listed here. This is a sample of appropriate courses for this category that are offered through various departments/programs. At least three credits must be from UW–Madison.

3

Students choose any measurement/analysis/tools/methods courses in the 300–999 range. This course list is not meant to be all-inclusive. Students are not restricted to the courses listed here. This is a sample of appropriate courses for this category that are offered through various departments/programs. At least three credits must be from UW–Madison.

4

Students choose any courses, in the 300–999 range, that pertain to their individual research and dissertation endeavor.

Category 1: Natural Science courses

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With dissertation committee and program chair approval, students are allowed to count up to 24 credits of graduate coursework from other institutions. Students must have at least three UW-Madison credits in each of the three breadth categories, and at least six UW-Madison credits in the individual program focus category (not including Research credits). Coursework completed ten or more years prior to admission to the doctoral degree is not allowed to satisfy graduate degree or graduate coursework requirements.

UW-Madison Undergraduate

No credits from a UW-Madison undergraduate degree are allowed to count toward the program.

UW-Madison University Special

This program follows the Graduate School's policy for Transfer from UW-Madison University Special Student Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>) Approval comes from the dissertation committee and program chair.

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

All students must assemble a four-member dissertation committee that represents a minimum of three departments, preferably no later than their fourth semester in the program. To meet the interdisciplinary requirement the committee must include members tenured in one of the natural sciences divisions (Biological Sciences, Physical Sciences) and one of the social sciences divisions (Social Studies, Arts & Humanities). Three of the four committee members must be members of the Graduate Faculty. The fourth, subject to approval of the program chair, may be any qualified person, on or off campus, who holds a doctoral degree.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy (<https://policy.wisc.edu/library/UW-1221/>).

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and

conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)

- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

This document was reviewed by the Graduate Student working group and approved by vote of Nelson Institute Governance with subsequent review by campus HR; please note that this was prior to the revision of GAPP by campus in 2019-20, as well as present and expected changes in 2020 after to Title IX, Office of the Dean of Students, etc.

Preamble:

Any student who feels that they have been treated unfairly by a faculty or staff member has the right to seek redress and to receive a hearing of the grievance following these procedures. It applies only to grievances about those persons who are employees of the Nelson Institute, who teach for the Nelson Institute or otherwise are subject to administrative oversight by the Institute. The complaint may concern course grades, program admission, classroom treatment, hostile or intimidating behavior, or any other issue. Note that these procedures are for students bringing grievances to the Nelson Institute, they do not cover issues relating to the classroom behavior of students which must be referred to the Dean of Students.

The procedures outlined below are used in the Nelson Institute to ensure a prompt and fair hearing of complaints, and to protect the rights of both the student and the person at whom the complaint is directed. These policies describe formal procedures. A student is free to bypass these procedures if they do not wish for an Institute sanctioned resolution.

A complaint covered here may involve issues that either require or that would benefit from being directed to one of the campus programs or offices addressing complaints and grievances. See <https://compliance.wisc.edu/> and https://compliance.wisc.edu/wp-content/uploads/sites/102/2018/09/Safe-Learning-and-Work-Guide.Fall_FY19-Accessible.pdf (Accessed Oct. 2020). Please review the most recent information on Title IX on campus, as guidelines and contacts may change. Graduate students should review information at <https://grad.wisc.edu/documents/grievances-and-appeals/> (Accessed Feb. 2019) Undergraduate students may wish to review information available in the undergraduate course catalog. There they will find this option presented: "For assistance in determining options, students can contact the on-call dean in the Dean of Students Office, 608-263-5700, Room 70 Bascom Hall, Monday- Friday, 8:30 a.m.-4:30 p.m."

Also, students should know that academic administrators may be required to report instances of sexual harassment or violence in accordance with

university policy and the Clery act. (See: <http://uwpd.wisc.edu/crime-data/clery-act/> Accessed Oct. 2018).

State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, UW–System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office for Equity and Diversity.

Questions about Nelson Institute procedures can be directed to the Associate Dean for Research and Education.

Procedures:

1. If possible, the student (complainant) should first talk with the person against whom the grievance is directed to advise them of their complaint and to determine if resolution is possible.
2. If the student is not satisfied, or if they do not feel comfortable addressing the person to whom the grievance is directed, they should ask to speak to the immediate supervisor of the person involved. If the complaint is directed against a teaching assistant, the student should talk to the TA's supervisor, who is usually the course professor. If the student grievance concerns a faculty or staff member in Nelson, the next formal step is for the student to meet with the Associate Dean for Research and Education. If the complaint is not resolved at this level, the student may continue to the next step (4).
3. It is recognized that a student may be reluctant to bring their grievance to the person against whom the complaint is directed, or to their supervisor, or to anyone else in the administrative hierarchy. In that case, the student should seek out a person who can guarantee confidentiality to the extent allowed by the law and university policy and provide non-judgmental advice as to appropriate next steps. Note that if criminal activity is involved confidentiality cannot be guaranteed. If a student does not know of any suitable person, they may approach any member of the Nelson Institute Academic Programs staff who will be able either to serve as a confidential discussant or who will be able to direct the student to someone who can assure confidentiality. Their role is to be that of Ombuds, meaning that they are not to take a position with respect to the validity of the grievance. Their role is to advise the student as to appropriate next steps.
4. To start a formal grievance process, the student must submit the grievance in writing to the Nelson Institute Associate Dean for Research and Education (hereafter Associate Dean) as soon as possible. An email for which receipt is acknowledged will be considered a written submission.
5. On receipt of the written complaint, the Associate Dean will acquaint themselves with the issues. This may involve face to face meetings or other means of establishing the facts in dispute. The Associate Dean will have the option of proposing a resolution. If the proposed resolution is accepted by parties directly involved, the matter will be considered settled at this level. Relevant documents will be archived by the Office of the Assistant Dean for Administration. At any point in the proceedings after the receipt and acknowledgement of the grievance by the Associate Dean, the complainant or the compliance will have the option of requesting that the matter

be referred to an ad hoc committee. This request must be submitted in writing and acknowledged by the Associate Dean.

6. If the matter cannot be settled through the mediation of the Associate Dean, or if the Associate Dean has concluded that the case merits further attention, or if the complainant has requested that the matter be referred to an ad hoc committee an ad hoc committee will be appointed by the Dean of the Nelson Institute or their designee. The committee will consist of at least three members. Within 10 working days, the student will be allowed to revise the complaint or to add material to the complaint document to be provided to the committee. The complainant may request a change in committee membership, but the final decision on the committee will remain with the Dean. The committee may request a written response from the person toward whom the complaint is directed. This response shall be shared with the person filing the grievance. The ad hoc committee will meet to discuss the case. They are authorized to seek additional information if they feel it is necessary. They will convey their written decision regarding the case including any recommendations for remediation or mediation to the Associate Dean within 30 working days from the charge to the committee. The Associate Dean will provide a copy of the committee's written decision to the student regarding the case within 10 working days of receiving the committee's report; the Associate Dean will also confirm that the past record on file of any grievances regarding the parties involved has been investigated; and, the Associate Dean will provide the student a statement outlining the formal plan of steps that will be taken officially on the part of the Nelson Institute.
7. The complainant then has the option of taking their grievance to the university level. There are several options available. Consult websites referenced above.
8. The written documents relevant to the grievance will be archived in hard copy and electronic form as appropriate in a "Grievance Record" by the office of the Assistant Dean of Administration and will be maintained for a minimum of five years.
9. The cumulative record involving any of the parties to a grievance will be reviewed each time a formal grievance is presented as in Step 4, above, in order to determine whether the pattern of grievance, such as past filings, indicates any actions are warranted.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

SUMMER WRITING RETREAT

A four-day weekend summer (early June typically) writing retreat is available to any student in the program who is in the process of undertaking a serious writing commitment like a thesis, dissertation, grant proposal, or class paper. There is a peer review component to this retreat,

so all participants will share at least some parts of their work for feedback from the instructor and their peers.

LEARNING OUTCOMES

1. Demonstrate doctoral level knowledge of interdisciplinary environmental studies.
2. Demonstrate doctoral level knowledge of a substantive area of environmental studies, adequate to begin preparing their Ph.D. dissertation.
3. Demonstrate doctoral level knowledge of research methodology appropriate to their substantive area of focus.
4. Demonstrate skill in conducting academic research and scholarly inquiry that advances the interdisciplinary field of environmental studies.

PEOPLE

FACULTY EXECUTIVE PROGRAM COMMITTEE

Sara Hotchkiss (Program Chair), Robert Beattie, Holly Gibbs, Leah Horowitz, Marty Kanarek, Christopher Kucharik, Mutlu Ozdogan, Steph Tai, Paul Zedler, Anna Gade (Ex Officio)

ENVIRONMENTAL CONSERVATION, M.S.

The Nelson Institute's professional programs offer environmental leadership training in areas of identified and emerging need across our sector, convening people and perspectives from around the world and equipping graduates with the necessary environmental knowledge to tackle their next career challenge. We have two professional master's programs. Within the Environmental Conservation master of science degree, students can select a named option in either Environmental Conservation (p. 843) or in Environmental Observation & Informatics (p. 847).

Upon degree completion, graduates will receive an M.S. in Environmental Conservation with a named option in one of the above. The curriculum in our professional programs is designed in close consultation with leaders in environmental practice to meet emerging global challenges and demands. We offer our professional master's in an accelerated, 15-month blended curriculum with on-campus and remote experiences to accommodate working professionals and busy lives. Students are in Madison for the summer and fall semester—two of the most beautiful seasons in Wisconsin—and then have classes online in spring that can be taken wherever you are in the world. The final, fourth semester is spent completing the student's M.S. leadership project.

Learn more about:

- ENVIRONMENTAL CONSERVATION NAMED OPTION (P. 843)
- ENVIRONMENTAL OBSERVATION & INFORMATICS NAMED OPTION (P. 847)

ADMISSIONS

Students apply to the Master of Science in Environmental Conservation through one of the named options:

- Environmental Conservation (p. 843)
- Environmental Observation and Informatics (p. 847)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

This applies to both the Environmental Conservation and the Environmental Observation & Informatics named options. We encourage all students to apply for our Environmental Conservation tuition assistance program, and to seek additional sources of grants, scholarships, or loans.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS CURRICULAR REQUIREMENTS

Requirement Detail

Minimum	32 credits
Credit Requirement	

Minimum	32 credits
Residence Credit Requirement	

Minimum Graduate Coursework Requirement	Half of degree coursework (16 credits out of 32 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
---	--

Overall 3.00 GPA required.
Graduate
GPA
Requirement

Other Grade See Named Options for policy information.
Requirements

Assessments All students must submit a leadership placement proposal
and work plan, complete a professional leadership
Examinations experience (independent practice) of at least eight weeks,
followed by a substantial written report or deliverable for
their host organization, and an exit seminar presentation.

Language No language requirements.
Requirements

REQUIRED COURSES

Select a Named Option (p. 842) for courses required.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Science in Environmental Conservation must select one of the following named options:

View as listView as grid

- ENVIRONMENTAL CONSERVATION:
ENVIRONMENTAL CONSERVATION, M.S.
(P. 843)
- ENVIRONMENTAL CONSERVATION:
ENVIRONMENTAL OBSERVATION AND
INFORMATICS, M.S. (P. 847)

POLICIES

Students should refer to one of the named options for policy information:

- Environmental Conservation (p. 843)
- Environmental Observation and Informatics (p. 847)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Apply the principles of conservation science and sustainability to real world environmental problems. (Environmental Conservation Named Option)
2. Explain the interconnections between environmental conservation and human well-being, and identify social, economic, and institutional conditions that favor sustainability. (Environmental Conservation Named Option)

3. Conceptualize, strategize, design, and implement innovative environmental problem-solving techniques. (Environmental Conservation Named Option)
4. Demonstrate competence in core professional skills related to conservation practice, including: written, verbal, and visual communication; conflict resolution; interdisciplinary team building and problem definition; conservation planning; and program evaluation. (Environmental Conservation Named Option)
5. Recognize and apply principles of ethical and professional conduct in environmental conservation. (Environmental Conservation Named Option)
6. Apply the principles of conservation science and sustainability to real world environmental problems. (Environmental Observation and Informatics Named Option)
7. Explain the interconnections between environmental conservation and human well-being, and identify social, economic, and institutional conditions that favor sustainability. (Environmental Observation and Informatics Named Option)
8. Choose and apply the most appropriate and powerful platforms and technologies to address environmental challenges related to both human activities and natural dynamics. Interpret remotely-sensed earth observation data and apply those data to complex environmental problems. (Environmental Observation and Informatics Named Option)
9. Construct models of environmental phenomena to better understand natural processes and human actions, to predict and project future outcomes and scenarios, and to quantitatively evaluate those scenarios to enable more informed management and policy decisions. Conduct robust statistical analyses to examine quantitative model output and distributed environmental data, and interpret resulting patterns and trends. (Environmental Observation and Informatics Named Option)
10. Drive strategic thinking to design and manage the use of observation technologies to advance policy and program direction, and engage with organization leadership. (Environmental Observation and Informatics Named Option)
11. Conceptualize, strategize, design, and implement innovative environmental problem-solving techniques. (Environmental Observation and Informatics Named Option)
12. Demonstrate competence in core professional skills related to earth observation practice including written, verbal, and visual communication; conflict resolution; interdisciplinary team building and problem definition; mission planning; and program evaluation. (Environmental Observation and Informatics Named Option)
13. Recognize and apply principles of ethical and professional conduct in environmental observation and informatics. (Environmental Observation and Informatics Named Option)

PEOPLE

FACULTY EXECUTIVE PROGRAM COMMITTEES

ENVIRONMENTAL CONSERVATION PROGRAM COMMITTEE

Timothy Van Deelen (Program Chairperson) Robert Beattie, David Drake, Holly Gibbs, Evelyn Howell, Alberto Vargas, Paul Zedler (Ex Officio)

ENVIRONMENTAL OBSERVATION & INFORMATICS PROGRAM COMMITTEE

Annemarie Schneider (Program Chairperson), Mutlu Ozdogan, Janet Silbernagel, Stephen Ventura, Jun Zhu, Paul Zedler (Ex Officio)

ENVIRONMENTAL CONSERVATION: ENVIRONMENTAL CONSERVATION, M.S.

This is a named option in the Environmental Conservation M.S. (p. 841)

The Environmental Conservation named option is a 15-month blended learning curriculum designed to train conservation leaders in practical interdisciplinary skills. Built on the legacy of pioneering environmental leaders such as John Muir, Aldo Leopold, and Gaylord Nelson, alongside current leaders in the field of conservation, the program helps early-career working professionals advance their leadership and environmental management expertise through campus learning and remote experiences.

With curricula in conservation planning, land use policy, and in professional skills such as applied GIS, conservation fundraising, protected area management, program evaluation, and strategic communications, students are better prepared to tackle complex challenges in a changing world. Students also engage directly with a range of conservation organizations and practitioners, helping to solve some of the most urgent challenges in biodiversity conservation and environmental protection.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	This program does not admit in the fall.
Spring Deadline	The program does not admit in the spring.
Summer Deadline	December 1
GRE (Graduate Record Examinations)	May be required in certain cases; consult program.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a

Letters of Recommendation Required 2

Although applications for the professional master's with a named option in Environmental Conservation (EC) will be accepted on a rolling basis, applications received by December 1 each year will be given preference for admissions purposes and tuition assistance. Applications are submitted online (<https://apply.grad.wisc.edu/>) through the UW-Madison Graduate School. Applicants will need to create a username and password to access the application system. For current or former UW students, this will be a new account that does not use your NetID. When applying for our MS program select the summer term for the calendar year you are applying for, and then choose Environmental Conservation in the drop-down tab. Prospective students who apply by December 1 will be informed of their admissions status by late January.

Ideal candidates for our program will have approximately two to five years of professional work and/or field experience, preferably in the conservation sector, though candidates with diverse professional and academic backgrounds are encouraged to apply. Applicants must have received a bachelor's degree from an accredited four-year institution with an undergraduate GPA of 3.0 or higher. Applicants with GPAs below 3.0 may be considered for admission under special circumstances. No additional prerequisite classes are required for the EC named option.

Complete applications will include all items below. For applicants who have a GPA below 3.0, the GRE is required. For those who have GPAs at 3.0 or above, GRE scores are not required for admission to the EC named option. Admissions decisions will be based on the entirety of each applicant's credentials.

1. Professional credentials/resume
2. Reasons for graduate study/statement of interest in this program or field
3. Two letters of professional recommendation; one letter from a current or former employer and one letter from a former university advisor are preferred. Although the online UW-Madison application gives you the option of adding three references, only two references are required for this program.
4. One copy of undergraduate transcripts submitted electronically in the application
5. Supplemental application (found in UW-Madison online application)
6. GRE scores (dependent on undergraduate GPA)

For foreign students, TOEFL or IELTS scores are also needed. The minimum TOEFL score required is 92 for the internet-based test (iBT) and 580 for the paper-based test (PBT). The minimum IELTS score required is 7.0. Applicants with language scores below these requirements may be considered for program admission under special circumstances. The UW-Madison Graduate School also requires proof of sufficient tuition funds for foreign applicants accepted into the program.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School.

Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

This applies to both the Environmental Conservation and the Environmental Observation & Informatics named options. We encourage all students to apply for our Environmental Conservation tuition assistance program, and to seek additional sources of grants, scholarships, or loans.

For more funding information, visit the program's website: <https://nelson.wisc.edu/graduate/professional-programs/costs-and-funding/>

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
No	No	No	Yes	Yes

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement

Minimum Residence Credit Requirement

Minimum Graduate Coursework Requirement Half of degree coursework (16 credits out of 32 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (<https://registrar.wisc.edu/course-guide> (<https://registrar.wisc.edu/course-guide/>)).

Overall Graduate GPA Requirement 3.00 GPA required.

Other Grade Requirements The Graduate School requires a cumulative GPA of 3.0 in all coursework (300 and above) taken as a graduate student unless program-specific conditions require higher grades for probationary status. Grades of Incomplete (I) are considered to be unsatisfactory if they are not removed during the next enrolled semester.

Assessments and Examinations All students must submit a leadership placement proposal and work plan, complete a professional leadership experience (independent practice) of at least eight weeks, followed by a substantial written report or deliverable for their host organization, and an exit seminar presentation.

Language Requirements No language requirements.

Total Credits 32

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate, graduate or certificate programs.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding

general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

No credits from another institution are allowed to count toward the program.

UW–Madison Undergraduate

With program approval, up to six credits of selected coursework taken as a UW–Madison undergraduate student may count toward the EC program curriculum. Those credits taken as an undergraduate student cannot count toward the graduate residence or graduate coursework requirements, but they can count toward the graduate degree requirement if the courses were at least 300 level and completed within three years of matriculating in the program.

UW–Madison University Special

With program approval and payment of the difference in tuition (between special student and graduate student), up to six credits of selected coursework taken as a UW–Madison special student may count toward the EC program curriculum. Those credits taken as a special student can count toward the graduate residence and graduate degree requirements if the courses were at least 300 level and completed within three years of matriculating in the program, and they can also count toward the graduate coursework requirement if the courses were 700 level or above.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above). This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School. The status of a student falls into one of the following three categories:

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

ADVISOR / COMMITTEE

Every student in the program will be required to have an advisor. Program staff will work with the student to identify an advisor during the spring semester. Once an advisor has been identified, the student is expected to maintain communication with their advisor to ensure they are making satisfactory progress toward their degree.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

If a student has been absent for a semester or more, they must file a new Graduate School application for admission and submit it with a new

application fee. UW–Madison master's degree students who have been absent for five or more consecutive years lose all credits they had earned before their absence. The program may count the coursework students completed prior to their absence toward meeting EC named option requirements, but the Graduate School will not count that coursework toward their graduate residence, graduate degree, or graduate coursework requirements.

- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

This document was reviewed by the Graduate Student working group and approved by vote of Nelson Institute Governance with subsequent review by campus HR; please note that this was prior to the revision of GAPP by campus in 2019–20, as well as present and expected changes in 2020 after to Title IX, Office of the Dean of Students, etc.

Preamble:

Any student who feels that they have been treated unfairly by a faculty or staff member has the right to seek redress and to receive a hearing of the grievance following these procedures. It applies only to grievances about those persons who are employees of the Nelson Institute, who teach for the Nelson Institute or otherwise are subject to administrative oversight by the Institute. The complaint may concern course grades, program admission, classroom treatment, hostile or intimidating behavior, or any other issue. Note that these procedures are for students bringing grievances to the Nelson Institute, they do not cover issues relating to the classroom behavior of students which must be referred to the Dean of Students.

The procedures outlined below are used in the Nelson Institute to ensure a prompt and fair hearing of complaints, and to protect the rights of both the student and the person at whom the complaint is directed. These policies describe formal procedures. A student is free to bypass these procedures if they do not wish for an Institute sanctioned resolution.

A complaint covered here may involve issues that either require or that would benefit from being directed to one of the campus programs or offices addressing complaints and grievances. See <https://compliance.wisc.edu/> and https://compliance.wisc.edu/wp-content/uploads/sites/102/2018/09/Safe-Learning-and-Work-Guide.Fall_FY19-Accessible.pdf (Accessed Oct. 2020). Please review the most recent information on Title IX on campus, as guidelines and contacts may change. Graduate students should review information at <https://grad.wisc.edu/documents/grievances-and-appeals/> (Accessed Feb. 2019). Undergraduate students may wish to review information available in the undergraduate course catalog. There they will find this option presented: "For assistance in determining options, students can contact the on-call dean in the Dean of Students Office, 608-263-5700, Room 70 Bascom Hall, Monday– Friday, 8:30 a.m.–4:30 p.m."

Also, students should know that academic administrators may be required to report instances of sexual harassment or violence in accordance with university policy and the Clery act. (See: <http://uwpd.wisc.edu/crime-data/clery-act/> Accessed Oct. 2018).

State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, UW–System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office for Equity and Diversity.

Questions about Nelson Institute procedures can be directed to the Associate Dean for Research and Education.

Procedures:

1. If possible, the student (complainant) should first talk with the person against whom the grievance is directed to advise them of their complaint and to determine if resolution is possible.
2. If the student is not satisfied, or if they do not feel comfortable addressing the person to whom the grievance is directed, they should ask to speak to the immediate supervisor of the person involved. If the complaint is directed against a teaching assistant, the student should talk to the TA's supervisor, who is usually the course professor. If the student grievance concerns a faculty or staff member in Nelson, the next formal step is for the student to meet with the Associate Dean for Research and Education. If the complaint is not resolved at this level, the student may continue to the next step (4).
3. It is recognized that a student may be reluctant to bring their grievance to the person against whom the complaint is directed, or to their supervisor, or to anyone else in the administrative hierarchy. In that case, the student should seek out a person who can guarantee confidentiality to the extent allowed by the law and university policy and provide non-judgmental advice as to appropriate next steps. Note that if criminal activity is involved confidentiality cannot be guaranteed. If a student does not know of any suitable person, they may approach any member of the

Nelson Institute Academic Programs staff who will be able either to serve as a confidential discussant or who will be able to direct the student to someone who can assure confidentiality. Their role is to be that of Ombuds, meaning that they are not to take a position with respect to the validity of the grievance. Their role is to advise the student as to appropriate next steps.

4. To start a formal grievance process, the student must submit the grievance in writing to the Nelson Institute Associate Dean for Research and Education (hereafter Associate Dean) as soon as possible. An email for which receipt is acknowledged will be considered a written submission.
5. On receipt of the written complaint, the Associate Dean will acquaint themselves with the issues. This may involve face to face meetings or other means of establishing the facts in dispute. The Associate Dean will have the option of proposing a resolution. If the proposed resolution is accepted by parties directly involved, the matter will be considered settled at this level. Relevant documents will be archived by the Office of the Assistant Dean for Administration. At any point in the proceedings after the receipt and acknowledgement of the grievance by the Associate Dean, the complainant or the compliance will have the option of requesting that the matter be referred to an ad hoc committee. This request must be submitted in writing and acknowledged by the Associate Dean.
6. If the matter cannot be settled through the mediation of the Associate Dean, or if the Associate Dean has concluded that the case merits further attention, or if the complainant has requested that the matter be referred to an ad hoc committee an ad hoc committee will be appointed by the Dean of the Nelson Institute or their designee. The committee will consist of at least three members. Within 10 working days, the student will be allowed to revise the complaint or to add material to the complaint document to be provided to the committee. The complainant may request a change in committee membership, but the final decision on the committee will remain with the Dean. The committee may request a written response from the person toward whom the complaint is directed. This response shall be shared with the person filing the grievance. The ad hoc committee will meet to discuss the case. They are authorized to seek additional information if they feel it is necessary. They will convey their written decision regarding the case including any recommendations for remediation or mediation to the Associate Dean within 30 working days from the charge to the committee. The Associate Dean will provide a copy of the committee's written decision to the student regarding the case within 10 working days of receiving the committee's report; the Associate Dean will also confirm that the past record on file of any grievances regarding the parties involved has been investigated; and, the Associate Dean will provide the student a statement outlining the formal plan of steps that will be taken officially on the part of the Nelson Institute.
7. The complainant then has the option of taking their grievance to the university level. There are several options available. Consult websites referenced above.
8. The written documents relevant to the grievance will be archived in hard copy and electronic form as appropriate in a "Grievance Record" by the office of the Assistant Dean of Administration and will be maintained for a minimum of five years.
9. The cumulative record involving any of the parties to a grievance will be reviewed each time a formal grievance is presented as in Step 4, above, in order to determine whether the pattern

of grievance, such as past filings, indicates any actions are warranted.

OTHER

Because of the immersive nature of our program, with condensed time on campus and remote experiences, Environmental Conservation students are only eligible for campus appointments that total 30% time or less, or hourly work. We encourage all students to apply for our Environmental Conservation program tuition assistance, and to seek additional sources of grants, scholarships, or loans. Students in the Environmental Conservation program are not permitted to seek dual degrees or take courses outside of the listed required coursework.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

For more information about professional development and careers with the degree, visit the program's website: <https://nelson.wisc.edu/graduate/professional-programs/careers/>

PEOPLE

FACULTY EXECUTIVE PROGRAM COMMITTEES

ENVIRONMENTAL CONSERVATION PROGRAM COMMITTEE:

Timothy Van Deelen (program chair), Holly Gibbs, Zuzana Burivalová, Alberto Vargas, Rob Beattie, Anna Gade (ex officio)

ENVIRONMENTAL OBSERVATION & INFORMATICS PROGRAM COMMITTEE:

Annemarie Schneider (program chair), Mutlu Ozdogan, Ana Gade (ex officio)

ENVIRONMENTAL CONSERVATION: ENVIRONMENTAL OBSERVATION AND INFORMATICS, M.S.

This is a named option in the Environmental Conservation M.S. (p. 841)

The Environmental Observation and Informatics (EOI) named option integrates cross-cutting Earth observation, technologies, and big data analytics in one unique, 15-month, 32-credit program that combines hands-on, in-person training with distance learning. Our goal is to transform students' technical expertise into integrative synthesis and leadership in environmental observation and interpretation to advance organizational response to environmental change at local, regional, and global scales. At UW-Madison, we push the limits of remote sensing and

geospatial analysis to encompass the skills that are increasingly in demand by industry, non-governmental organizations, government agencies, and academia.

The EOI named option is designed for early- to mid-career professionals worldwide who wish to advance to positions of project or program manager, senior analyst, or similar rank. Individuals from diverse professional or educational backgrounds are encouraged to apply. EOI has been built to help individuals develop the expertise that the market demands, focusing specifically on three pillars:

1. Remote sensing and integrated technology: Learn to select and apply the most appropriate and powerful platforms and technologies –including LiDAR, unmanned aerial vehicle (UAV) systems, cloud and social media, and crowd-sourced data—to address today's most pressing environmental challenges.
2. Modeling and analysis: Construct scenarios of environmental phenomena to better understand natural processes and human actions, to predict and project future outcomes, and to conduct robust statistical analyses with distributed data to identify trends and inform management and policy decisions.
3. Innovative leadership: Drive strategic thinking to design and manage the use of observation technologies to advance policy, program direction, and executive decisions.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	This program does not admit in the fall.
Spring Deadline	The program does not admit in the spring.
Summer Deadline	December 1
GRE (Graduate Record Examinations)	May be required in certain cases; consult program.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	2

The priority deadline for submitting an application to the Environmental Observation & Informatics (EOI) named option and for tuition assistance is December 1. The secondary deadline for international applicants is

February 1, and April 1 for domestic applicants. International applicants should contact the EOI program coordinator as soon as possible to ensure all paperwork and documents are included.

Applications are submitted online (<https://apply.grad.wisc.edu/>)#through the UW-Madison Graduate School. When applying, select the summer term for the calendar year you are applying for (e.g. summer 2019), then choose Environmental Observation and Informatics in the drop-down tab. Prospective students who apply by December 1 will be informed of their admissions status by late January.

Individuals with diverse professional and academic backgrounds are encouraged to apply. Applicants must have received a bachelor's degree from an accredited four-year institution with an undergraduate GPA of 3.0 or higher. Applicants with GPAs below 3.0 may be considered for admissions under special circumstances. Because introductory GIS is not taught in this program, applicants should have introductory GIS skills prior to the start of the program. This experience can be demonstrated through course work, professional experience, a portfolio (in the supplemental application), or a GIS certificate/degree. If an applicant does not have this experience, they should state this in their letter of interest and explain how, if accepted, introductory skills will be developed before the start of the program.

Complete applications will include all items below. Admissions decisions will be based on the entirety of each applicant's credentials.

1. Resume or CV
2. Statement of interest
3. Two letters of recommendation (submitted via the online application)
4. Unofficial undergraduate transcript (official transcript will be requested prior to final acceptance)
5. Supplemental application and professional portfolio (see text below for more information)
6. IELTS or TOEFL scores (if applicable, see below)
7. GRE (dependent on undergraduate major and GPA)

As part of the online supplemental application, applicants will submit a portfolio that showcases their quantitative or GIS experience. The portfolio should consist of documents that will help assess each applicant's proficiency and readiness for the program. Examples of these documents can include; maps developed in a GIS software or through remote sensing image analysis, figures from analysis and reports, selected slides from professional presentations, or copies of certificates, awards, and completed trainings.

For international applicants whose bachelor's degree is not in English, TOEFL or IELTS scores are required. Please visit the UW-Madison Graduate School requirements webpage (<https://grad.wisc.edu/apply/requirements/>) for complete information.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

This applies to both the Environmental Conservation and the Environmental Observation & Informatics named options. We encourage all students to apply for our Environmental Conservation tuition assistance program, and to seek additional sources of grants, scholarships, or loans.

For more funding information, visit the program's website: <https://nelson.wisc.edu/graduate/professional-programs/costs-and-funding/>

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
No	No	No	Yes	Yes

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum 32 credits
Credit
Requirement

Minimum 32 credits
Residence
Credit
Requirement

Minimum Graduate Coursework Requirement Half of degree coursework (16 credits out of 32 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (<https://registrar.wisc.edu/course-guide> (<https://registrar.wisc.edu/course-guide/>)).

Overall 3.00 GPA required.

Graduate GPA Requirement

Other Grade Requirements The Graduate School requires a cumulative GPA of 3.0 in all coursework (300 and above) taken as a graduate student unless program-specific conditions require higher grades for probationary status. The EOI named option requires a minimum grade of B in each course to satisfy all curriculum requirements. Grades of Incomplete (I) are considered to be unsatisfactory if they are not removed during the next enrolled semester.

Assessments and Examinations All students must submit a leadership placement proposal and work plan, complete a professional leadership experience (independent practice) of at least eight weeks, followed by a substantial written report or deliverable for their host organization, and an exit seminar presentation.

Language Requirements No language requirements.

REQUIRED COURSES

Code	Title	Credits
ENVIR ST/ F&W ECOL/G L E/ GEOG/GEOSCI/ LAND ARC 371	Introduction to Environmental Remote Sensing	3
ENVIR ST/ CIV ENGR/ LAND ARC 556	Remote Sensing Digital Image Processing	3

Electives in consultation with advisor. Most electives will be taken in ENVIR ST. Please check with program about electives outside of ENVIR ST.		3
Total Credits		32

1

Students should work with their advisor to make sure the topic offered counts toward the EOI program.

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate, graduate or certificate programs.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

No credits from another institution are allowed to count toward the program.

UW–Madison Undergraduate

With program approval, up to six credits of selected coursework taken as a UW–Madison undergraduate student may count toward the EOI program curriculum. Those credits taken as an undergraduate student cannot count toward the graduate residence or graduate coursework requirements, but they can count toward the graduate degree requirement if the courses were at least 300 level and completed within three years of matriculating in the program.

UW–Madison University Special

With program approval and payment of the difference in tuition (between special student and graduate student), up to six credits of selected coursework taken as a UW–Madison special student may count toward the EOI program curriculum. Those credits taken as a special student can count toward the graduate residence and graduate degree requirements if the courses were at least 300 level and completed within three years of matriculating in the program, and they can also count toward the graduate coursework requirement if the courses were 700 level or above.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above). This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School. The status of a student falls into one of the following three categories:

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

ADVISOR / COMMITTEE

Every student in the program will be required to have an advisor. Program staff will work with the student to identify an advisor during the spring semester. Once an advisor has been identified, the student is expected to maintain communication with their advisor to ensure they are making satisfactory progress toward their degree.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

If a student has been absent for a semester or more, they must file a new Graduate School application for admission and submit it with a new application fee. UW–Madison master's degree students who have been absent for five or more consecutive years lose all credits they had earned before their absence. The Graduate School will not count that coursework toward their graduate residence, graduate degree, or graduate coursework requirements. Students who have been absent for three or more consecutive years cannot count credits they had earned before their absence toward EOI named option requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)

- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

This document was reviewed by the Graduate Student working group and approved by vote of Nelson Institute Governance with subsequent review by campus HR; please note that this was prior to the revision of GAPP by

campus in 2019–20, as well as present and expected changes in 2020 after to Title IX, Office of the Dean of Students, etc.

Preamble:

Any student who feels that they have been treated unfairly by a faculty or staff member has the right to seek redress and to receive a hearing of the grievance following these procedures. It applies only to grievances about those persons who are employees of the Nelson Institute, who teach for the Nelson Institute or otherwise are subject to administrative oversight by the Institute. The complaint may concern course grades, program admission, classroom treatment, hostile or intimidating behavior, or any other issue. Note that these procedures are for students bringing grievances to the Nelson Institute, they do not cover issues relating to the classroom behavior of students which must be referred to the Dean of Students.

The procedures outlined below are used in the Nelson Institute to ensure a prompt and fair hearing of complaints, and to protect the rights of both the student and the person at whom the complaint is directed. These policies describe formal procedures. A student is free to bypass these procedures if they do not wish for an Institute sanctioned resolution.

A complaint covered here may involve issues that either require or that would benefit from being directed to one of the campus programs or offices addressing complaints and grievances. See <https://compliance.wisc.edu/> and https://compliance.wisc.edu/wp-content/uploads/sites/102/2018/09/Safe-Learning-and-Work-Guide.Fall_.FY19-Accessible.pdf (Accessed Oct. 2020). Please review the most recent information on Title IX on campus, as guidelines and contacts may change. Graduate students should review information at <https://grad.wisc.edu/documents/grievances-and-appeals/> (Accessed Feb. 2019). Undergraduate students may wish to review information available in the undergraduate course catalog. There they will find this option presented: "For assistance in determining options, students can contact the on-call dean in the Dean of Students Office, 608-263-5700, Room 70 Bascom Hall, Monday– Friday, 8:30 a.m.–4:30 p.m."

Also, students should know that academic administrators may be required to report instances of sexual harassment or violence in accordance with university policy and the Clery act. (See: <http://uwpd.wisc.edu/crime-data/clery-act/> Accessed Oct. 2018).

State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, UW–System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office for Equity and Diversity.

Questions about Nelson Institute procedures can be directed to the Associate Dean for Research and Education.

Procedures:

1. If possible, the student (complainant) should first talk with the person against whom the grievance is directed to advise them of their complaint and to determine if resolution is possible.
2. If the student is not satisfied, or if they do not feel comfortable addressing the person to whom the grievance is directed, they should ask to speak to the immediate supervisor of the person

involved. If the complaint is directed against a teaching assistant, the student should talk to the TA's supervisor, who is usually the course professor. If the student grievance concerns a faculty or staff member in Nelson, the next formal step is for the student to meet with the Associate Dean for Research and Education. If the complaint is not resolved at this level, the student may continue to the next step (4).

3. It is recognized that a student may be reluctant to bring their grievance to the person against whom the complaint is directed, or to their supervisor, or to anyone else in the administrative hierarchy. In that case, the student should seek out a person who can guarantee confidentiality to the extent allowed by the law and university policy and provide non-judgmental advice as to appropriate next steps. Note that if criminal activity is involved confidentiality cannot be guaranteed. If a student does not know of any suitable person, they may approach any member of the Nelson Institute Academic Programs staff who will be able either to serve as a confidential discussant or who will be able to direct the student to someone who can assure confidentiality. Their role is to be that of Ombuds, meaning that they are not to take a position with respect to the validity of the grievance. Their role is to advise the student as to appropriate next steps.
4. To start a formal grievance process, the student must submit the grievance in writing to the Nelson Institute Associate Dean for Research and Education (hereafter Associate Dean) as soon as possible. An email for which receipt is acknowledged will be considered a written submission.
5. On receipt of the written complaint, the Associate Dean will acquaint themselves with the issues. This may involve face to face meetings or other means of establishing the facts in dispute. The Associate Dean will have the option of proposing a resolution. If the proposed resolution is accepted by parties directly involved, the matter will be considered settled at this level. Relevant documents will be archived by the Office of the Assistant Dean for Administration. At any point in the proceedings after the receipt and acknowledgement of the grievance by the Associate Dean, the complainant or the compliance will have the option of requesting that the matter be referred to an ad hoc committee. This request must be submitted in writing and acknowledged by the Associate Dean.
6. If the matter cannot be settled through the mediation of the Associate Dean, or if the Associate Dean has concluded that the case merits further attention, or if the complainant has requested that the matter be referred to an ad hoc committee an ad hoc committee will be appointed by the Dean of the Nelson Institute or their designee. The committee will consist of at least three members. Within 10 working days, the student will be allowed to revise the complaint or to add material to the complaint document to be provided to the committee. The complainant may request a change in committee membership, but the final decision on the committee will remain with the Dean. The committee may request a written response from the person toward whom the complaint is directed. This response shall be shared with the person filing the grievance. The ad hoc committee will meet to discuss the case. They are authorized to seek additional information if they feel it is necessary. They will convey their written decision regarding the case including any recommendations for remediation or mediation to the Associate Dean within 30 working days from the charge to the committee. The Associate Dean will provide a copy of the committee's written decision to the student regarding the case

within 10 working days of receiving the committee's report; the Associate Dean will also confirm that the past record on file of any grievances regarding the parties involved has been investigated; and, the Associate Dean will provide the student a statement outlining the formal plan of steps that will be taken officially on the part of the Nelson Institute.

7. The complainant then has the option of taking their grievance to the university level. There are several options available. Consult websites referenced above.
8. The written documents relevant to the grievance will be archived in hard copy and electronic form as appropriate in a "Grievance Record" by the office of the Assistant Dean of Administration and will be maintained for a minimum of five years.
9. The cumulative record involving any of the parties to a grievance will be reviewed each time a formal grievance is presented as in Step 4, above, in order to determine whether the pattern of grievance, such as past filings, indicates any actions are warranted.

OTHER

Because of the immersive nature of our program, with condensed time on campus and remote experiences, EOI students are only eligible for campus appointments that total 30% time or less, or hourly work. We encourage all students to apply for our EOI program scholarship, and to seek additional sources of grants, scholarships, or loans. Students in the EOI program are not permitted to seek dual degrees or take courses outside of the listed required coursework.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Faculty Executive Program Committees

Environmental Conservation Program Committee: Timothy Van Deelen (program chair), Holly Gibbs, Zuzana Burivalová, Alberto Vargas, Rob Beattie, Anna Gade (ex officio)

Environmental Observation & Informatics Program Committee: Annemarie Schneider (program chair), Mutlu Ozdogan, Ana Gade (ex officio)

WATER RESOURCES MANAGEMENT, DOCTORAL MINOR

Any student enrolled in a University of Wisconsin-Madison doctoral program can pursue a doctoral minor in Water Resources Management. Meeting the increasing human demand for water while ensuring its future

availability and quality is a significant societal challenge. The Water Resources Management (WRM) program prepares students to face the complexities of managing this critical natural resource. Students complete coursework that integrates the biological and physical sciences (which identify and measure problems) with engineering (which provides technological alternatives), law, and the social sciences (which assess needs and potential for institutional response). Each WRM student gains breadth in relevant planning and management areas while developing depth in an area specialty. WRM students participate in a summer group practicum workshop with a water resources management focus.

ADMISSIONS

Doctoral students who wish to pursue an Option A external minor in Water Resources Management should consult the chair of the Water Resources Management graduate program.

REQUIREMENTS

Courses are chosen in conjunction with the chair, who serves as the minor advisor, and the student's departmental advisor. A doctoral student may earn a doctoral minor in Water Resources Management by completing 11-12 credits that include the following courses: ENVIR ST/CIV ENGR/URB R PL 718, ENVIR ST/CIV ENGR/URB R PL 719, and two additional courses (300-level and higher) in one or more of the WRM curriculum breadth categories. Breadth courses should complement the doctoral major and academic background as well as address any gaps in their training within the WRM curriculum breadth categories. Students are expected to achieve a B or better in all courses used for the minor. Minor and major credits/courses cannot overlap or double-count.

PEOPLE

FACULTY EXECUTIVE PROGRAM COMMITTEE

Anita Thompson (Program Chair), Francisco Arriaga, Paul Block, Michael Cardiff, Caroline Druschke, Kenneth Genskow, Matthew Ginder-Vogel, Steven Loheide, Daniel Wright, Anna Gade (Ex Officio)

WATER RESOURCES MANAGEMENT, M.S.

The Water Resources Management (WRM) program is an interdisciplinary graduate program leading to a master of science (M.S.) degree in water resources management. The program addresses the complex, interdisciplinary aspects of managing water resources by helping students integrate the biological and physical sciences (which identify and assess problems) with engineering (which defines technological alternatives) as well as law and the social sciences (which assess needs and potential for institutional response). Through the WRM program, a student gains breadth in relevant planning and management areas while developing depth in an area specialty.

The water resources management degree is designed to prepare students for employment as water resources management professionals. Rather than conduct individual research projects, WRM students participate in a group practicum workshop with a water resources management focus.

Students who wish to add individual research credentials to their records frequently arrange to complete a second, simultaneous master's program in one of the university's traditional departments. Those interested primarily in individual research may wish to consider the Nelson Institute's Environment and Resources program as an alternative. The WRM program does not offer a doctoral degree.

Any person who attended an accredited institution and earned an undergraduate degree there in the biological sciences, earth sciences, economics, education, engineering, history, journalism, landscape architecture, law, mathematics, physical science, political science, urban and regional planning, or other relevant field may apply for admission to the WRM program.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 15
Spring Deadline	October 15
Summer Deadline	January 15
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

DEADLINES

Application materials for Water Resources Management must be received by January 15 for admission to the following summer session or fall semester and by October 15 for admission to the following spring semester.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School.

Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

In most cases Water Resources Management is unable to guarantee any funding to students. However, many of our students obtain funding through other departments on campus, and we recommend that students contact faculty or departments directly if they have teaching skills in specific areas. Individual faculty members occasionally have their own sources of support for project assistants, though we strongly urge students not to depend on these as guaranteed sources of funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	45 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	23 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244).

Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's GPA Requirement policy (https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/)).
Other Grade Requirements	Grades of BC or C are not typically accepted toward program requirements unless the grade is allowed by the student's faculty advisory committee and the program chair. Grades of BC and C may not be used in the area specialty category. A maximum of 3 credits graded S may be counted toward program requirements if approved by the student's faculty advisory committee and the program chair. Courses that are audited or graded pass/fail or credit/no credit will not count toward program requirements.
Assessments and Examinations	All students must hold an evaluation and guidance conference with their faculty advisory committee, preferably no later than their third semester in the program.
Language Requirements	No language requirements.

Total Credits		45

1
Students choose any biological sciences and/or physical sciences courses in the 300-999 range. This course list is not meant to be all-inclusive. Students are not restricted to the courses listed here. This is a sample of appropriate courses for this category that are offered through various departments/programs. At least three credits must be from UW-Madison.

2
Students choose any social sciences and/or arts & humanities courses in the 300-999 range. This course list is not meant to be all-inclusive. Students are not restricted to the courses listed here. This is a sample of appropriate courses for this category that are offered through various departments/programs. At least three credits must be from UW-Madison.

3

Students choose any measurement/analysis/tools/methods courses in the 300–999 range. This course list is not meant to be all-inclusive. Students are not restricted to the courses listed here. This is a sample of appropriate courses for this category that are offered through various departments/programs. At least three credits must be from UW-Madison.

4

Students choose courses, in the 300–999 range, in a cohesive area of study pertaining to their intended career path. This is coursework required for completion of the degree. At least nine credits must be from UW-Madison.

Category A: Natural Science & Technology courses

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With faculty advisory committee and program chair approval, students are allowed to count up to 15 credits of graduate coursework from other institutions. Students must have at least three UW-Madison credits in each of the three breadth categories, and at least nine UW-Madison credits in the Area of Specialty category. Coursework completed five or more years prior to admission to the program is not allowed to satisfy graduate degree or graduate coursework requirements.

UW-Madison Undergraduate

No credits from a UW-Madison undergraduate degree are allowed to count toward the program.

UW-Madison University Special

This program follows the Graduate School's policy for Transfer from UW-Madison University Special Student Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

All students must assemble a three-member faculty advisory committee that represents a minimum of two departments, preferably no later than their second semester in the program. To meet the interdisciplinary requirement the committee must include members tenured in one of the natural sciences divisions (Biological Sciences, Physical Sciences) and one of the social sciences divisions (Social Studies, Arts & Humanities).

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeeabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

This document was reviewed by the Graduate Student working group and approved by vote of Nelson Institute Governance with subsequent review by campus HR; please note that this was prior to the revision of GAPP by campus in 2019-20, as well as present and expected changes in 2020 after to Title IX, Office of the Dean of Students, etc.

Preamble:

Any student who feels that they have been treated unfairly by a faculty or staff member has the right to seek redress and to receive a hearing of the grievance following these procedures. It applies only to grievances about those persons who are employees of the Nelson Institute, who teach for the Nelson Institute or otherwise are subject to administrative oversight by the Institute. The complaint may concern course grades, program admission, classroom treatment, hostile or intimidating behavior, or any other issue. Note that these procedures are for students bringing grievances to the Nelson Institute, they do not cover issues relating to the classroom behavior of students which must be referred to the Dean of Students.

The procedures outlined below are used in the Nelson Institute to ensure a prompt and fair hearing of complaints, and to protect the rights of both the student and the person at whom the complaint is directed. These policies describe formal procedures. A student is free to bypass these procedures if they do not wish for an Institute sanctioned resolution.

A complaint covered here may involve issues that either require or that would benefit from being directed to one of the campus

programs or offices addressing complaints and grievances. See <https://compliance.wisc.edu/> and https://compliance.wisc.edu/wp-content/uploads/sites/102/2018/09/Safe-Learning-and-Work-Guide.Fall_FY19-Accessible.pdf (Accessed Oct. 2020). Please review the most recent information on Title IX on campus, as guidelines and contacts may change. Graduate students should review information at <https://grad.wisc.edu/documents/grievances-and-appeals/> (Accessed Feb. 2019). Undergraduate students may wish to review information available in the undergraduate course catalog. There they will find this option presented: "For assistance in determining options, students can contact the on-call dean in the Dean of Students Office, 608-263-5700, Room 70 Bascom Hall, Monday- Friday, 8:30 a.m.-4:30 p.m."

Also, students should know that academic administrators may be required to report instances of sexual harassment or violence in accordance with university policy and the Clery act. (See: <http://uwpd.wisc.edu/crime-data/clery-act/> Accessed Oct. 2018).

State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, UW-System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office for Equity and Diversity.

Questions about Nelson Institute procedures can be directed to the Associate Dean for Research and Education.

Procedures:

1. If possible, the student (complainant) should first talk with the person against whom the grievance is directed to advise them of their complaint and to determine if resolution is possible.
2. If the student is not satisfied, or if they do not feel comfortable addressing the person to whom the grievance is directed, they should ask to speak to the immediate supervisor of the person involved. If the complaint is directed against a teaching assistant, the student should talk to the TA's supervisor, who is usually the course professor. If the student grievance concerns a faculty or staff member in Nelson, the next formal step is for the student to meet with the Associate Dean for Research and Education. If the complaint is not resolved at this level, the student may continue to the next step (4).
3. It is recognized that a student may be reluctant to bring their grievance to the person against whom the complaint is directed, or to their supervisor, or to anyone else in the administrative hierarchy. In that case, the student should seek out a person who can guarantee confidentiality to the extent allowed by the law and university policy and provide non-judgmental advice as to appropriate next steps. Note that if criminal activity is involved confidentiality cannot be guaranteed. If a student does not know of any suitable person, they may approach any member of the Nelson Institute Academic Programs staff who will be able either to serve as a confidential discussant or who will be able to direct the student to someone who can assure confidentiality. Their role is to be that of Ombuds, meaning that they are not to take a position with respect to the validity of the grievance. Their role is to advise the student as to appropriate next steps.
4. To start a formal grievance process, the student must submit the grievance in writing to the Nelson Institute Associate Dean for Research and Education (hereafter Associate Dean) as soon as possible. An email for which receipt is acknowledged will be considered a written submission.
5. On receipt of the written complaint, the Associate Dean will acquaint themselves with the issues. This may involve face to face meetings or other means of establishing the facts in dispute. The Associate Dean will have the option of proposing a resolution. If the proposed resolution is accepted by parties directly involved, the matter will be considered settled at this level. Relevant documents will be archived by the Office of the Assistant Dean for Administration. At any point in the proceedings after the receipt and acknowledgement of the grievance by the Associate Dean, the complainant or the compliance will have the option of requesting that the matter be referred to an ad hoc committee. This request must be submitted in writing and acknowledged by the Associate Dean.
6. If the matter cannot be settled through the mediation of the Associate Dean, or if the Associate Dean has concluded that the case merits further attention, or if the complainant has requested that the matter be referred to an ad hoc committee an ad hoc committee will be appointed by the Dean of the Nelson Institute or their designee. The committee will consist of at least three members. Within 10 working days, the student will be allowed to revise the complaint or to add material to the complaint document to be provided to the committee. The complainant may request a change in committee membership, but the final decision on the committee will remain with the Dean. The committee may request a written response from the person toward whom the complaint is directed. This response shall be shared with the person filing the grievance. The ad hoc committee will meet to discuss the case. They are authorized to seek additional information if they feel it is necessary. They will convey their written decision regarding the case including any recommendations for remediation or mediation to the Associate Dean within 30 working days from the charge to the committee. The Associate Dean will provide a copy of the committee's written decision to the student regarding the case within 10 working days of receiving the committee's report; the Associate Dean will also confirm that the past record on file of any grievances regarding the parties involved has been investigated; and, the Associate Dean will provide the student a statement outlining the formal plan of steps that will be taken officially on the part of the Nelson Institute.
7. The complainant then has the option of taking their grievance to the university level. There are several options available. Consult websites referenced above.
8. The written documents relevant to the grievance will be archived in hard copy and electronic form as appropriate in a "Grievance Record" by the office of the Assistant Dean of Administration and will be maintained for a minimum of five years.
9. The cumulative record involving any of the parties to a grievance will be reviewed each time a formal grievance is presented as in Step 4, above, in order to determine whether the pattern of grievance, such as past filings, indicates any actions are warranted.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Expand their knowledge of the physical, chemical, biological, and social sciences and learn how to apply this knowledge to the management of water resources.
2. Understand water resource decision-making at governance levels from local to national.
3. Use a wide range of analytical tools to sustainably manage water resources.
4. Participate in as well as lead interdisciplinary teams.
5. Orally and in writing communicate to stakeholders the findings and recommendations of interdisciplinary projects.
6. Have an understanding of professional and ethical responsibility.

PEOPLE

FACULTY EXECUTIVE PROGRAM COMMITTEE

Anita Thompson (Program Chair), Francisco Arriaga, Paul Block, Michael Cardiff, Caroline Druschke, Kenneth Genskow, Matthew Ginder-Vogel, Steven Loheide, Daniel Wright, Anna Gade (Ex Officio)

GENDER AND WOMEN'S STUDIES

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Gender and Women's Studies, Doctoral Minor (p. 858)
- Gender and Women's Studies, Graduate/Professional Certificate (p. 859)
- Gender and Women's Studies, M.A. (p. 859)
- Gender and Women's Studies, Ph.D. (p. 862)

GENDER AND WOMEN'S STUDIES, DOCTORAL MINOR

Any student enrolled in a UW–Madison doctoral program can pursue a doctoral minor in Gender and Women's Studies. The doctoral minor offers substantial and systematic training in the field of gender and women's studies. A doctoral minor in Gender and Women's Studies is an excellent

way to gain training in feminist analysis and research methods as well as in substantive topical areas related to women and gender that can be applied to one's research field and to one's teaching. The training is greatly aided by the presence of excellent library holdings and the Office of the Gender and Women's Studies Librarian (<https://www.library.wisc.edu/gwslibrarian/>).

Students interested in the Doctoral Minor in Gender and Women's Studies should connect with the Graduate Coordinator (<https://gws.wisc.edu/graduate/graduate-advising/>).

Graduate students may not earn both an Option A minor and a graduate/professional certificate in Gender and Women's Studies (p. 859).

ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor or graduate/professional certificate. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

Graduate students who have additional questions on the doctoral minor in Gender and Women's Studies should contact the Graduate Program Manager (<https://gws.wisc.edu/graduate/graduate-advising/>) in the Department of Gender and Women's Studies.

REQUIREMENTS

A student may earn a doctoral minor in Gender and Women's Studies with 9 credits, if all 9 credits are in exclusively graduate GEN&WS (http://guide.wisc.edu/courses/gen_ws/) courses numbered 700 and above. Alternatively, a student may earn the minor with 12 credits if these are courses numbered 300 and above and identified as designed for graduate work with the graduate attribute. One course must be GEN&WS 800 Research Methods in Gender & Women's Studies. Students are expected to achieve a B or better in all courses used for the minor. Directed study courses do not count toward the minor. Students may not use colloquia courses toward requirements of the doctoral minor. Transferred credits are discouraged, but may be allowed with approval of the Director of Graduate Studies. If a student is pursuing two doctoral minors, no more than one course shall overlap between the Gender and Women's Studies minor and the other minor.

PEOPLE

FACULTY & STAFF

GWS Faculty (<https://gws.wisc.edu/people/faculty-lecturer-directory/>)

GWS Staff (<https://gws.wisc.edu/people/staff/>)

GENDER AND WOMEN'S STUDIES, GRADUATE/ PROFESSIONAL CERTIFICATE

The Graduate/Professional Certificate in Gender and Women's Studies is designed to provide students with gender expertise that they can apply in a variety of fields. The requirement of a foundational course provides grounding in the major concepts, theories, and research approaches related to the study of gender and women. This foundation provides the necessary theoretical tools to allow students to analyze gender and its relationship with other socially meaningful categories such as class, race, ethnicity, disability, and sexuality in a variety of contexts. Two additional courses allow students to deepen their empirical knowledge of women and/or gender in a specific area or areas. Choice in these courses allows students to tailor their study to areas related to future career or study ambitions.

ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor or graduate/professional certificate. To apply to this certificate, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the certificate.

Graduate students who have additional questions on the Gender and Women's Studies certificate at the graduate level should contact the Graduate Program Manager (<https://gws.wisc.edu/graduate/graduate-advising/>) in the Department of Gender and Women's Studies.

REQUIREMENTS

Code	Title	Credits
GEN&WS 800	Research Methods in Gender & Women's Studies	3
Two GEN&WS courses numbered 300 or above with the Graduate Course Attribute		6
Total Credits		9

ADDITIONAL PROGRAM INFORMATION

- Enrollment in a graduate program at the University of Wisconsin–Madison.
- Students enrolled in courses numbered 300–600 should inform the instructor that they are taking the course for a graduate-level certificate and will complete additional readings/assignments consistent with expectations for a graduate student.
- 6 credits must be in residence at UW–Madison. A maximum of 3 credits may be transferred from other institutions.
- Directed study (GEN&WS 699, GEN&WS 799, GEN&WS 999) and colloquia courses may not be used toward the certificate.

- A 3.0 grade is the minimum for courses counting toward the certificate. All courses must be taken for a letter grade (no pass/fail courses).
- Graduate students may not earn both a Option A minor (p. 858) and graduate/professional certificate in Gender and Women's Studies.

LEARNING OUTCOMES

1. Demonstrate interdisciplinary understanding of major theories, methods, and debates in Gender and Women's Studies.
2. Demonstrate the practical skills related to Gender and Women's Studies, such as critical thinking and intersectional analysis, critical literature review, research methods, and written and oral communication.
3. Understand the interdisciplinary nature of Gender and Women's Studies and the ways these relate to theoretical and methodological shifts in the field as well as to the institutions that shape everyday life.
4. Develop Gender and Women's Studies knowledge, skills, and social engagement and demonstrate how these ideas can be applied to new settings, ideas, and understandings.

GENDER AND WOMEN'S STUDIES, M.A.

The master's degree in Gender and Women's Studies provides advanced feminist training in gender analysis for students with a variety of academic backgrounds and career plans. The degree engages the multidisciplinary perspectives associated with gender studies and women's studies: queer studies, transgender studies, sexuality studies, race and ethnicity studies, disability studies, area and global studies, cultural studies, postcolonial and transnational studies.

The M.A. curriculum in Gender and Women's Studies draws from the strengths of current course offerings in the program, as well as from methodologies and course offerings in other fields and departments. Some courses investigate these topics at the global level while others focus on the local, regional or national levels. The curriculum ensures an overarching transnational and cross-cultural framework. Courses use interdisciplinary methodologies and/or disciplinary approaches.

The degree program is designed to be a two-year full-time sequence. All students are expected to maintain satisfactory progress in the graduate program in accordance with the regulations of the Graduate School and department policies.

ADMISSIONS

This master's program is offered for work leading to the Ph.D. Students may not apply directly for the master's. If you are interested in applying for the Ph.D. program, please see admissions information here (p. 862).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

We offer TA positions to new M.A. students, including tuition remission, stipend and health insurance. We award new students at least 2 semesters of guaranteed funding and sometimes offer additional positions. Availability of positions may be different for international students; eligibility is determined at admission. There are a limited number of TA positions; so do not count on these as support for the entire 2 years of study. We encourage students to apply for positions elsewhere on campus.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	21 of the 30 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's GPA Requirement policy (https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/)).
Other Grade Requirements	n/a
Assessments and Examinations	Students complete either a thesis or exam, and can read more about them here: https://gws.wisc.edu/ma-requirements (https://gws.wisc.edu/ma-requirements/).
Language Requirements	No language requirements.

REQUIRED COURSES

30 credits, 15 of which must be in courses in the Department of Gender and Women's Studies

GEN&WS 810 Gender and Women's Studies: The Emergence and Transformation of a Field

GEN&WS 800 Research Methods in Gender & Women's Studies

GEN&WS 830 Contemporary Theorizing in Gender and Women's Studies

GEN&WS 790 Research & Thesis: Master's and Professional Level or exam

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES PRIOR COURSEWORK

Graduate Work from Other Institutions

This program follows the Graduate School's policy for Satisfying Requirements with Prior Graduate Coursework from Other Institutions. (<https://policy.wisc.edu/library/UW-1216/>)

UW–Madison Undergraduate

This program follows the Graduate School's policy for Satisfying Requirements with Coursework from Undergraduate Career at UW–Madison. (<https://policy.wisc.edu/library/UW-1216/>)

UW–Madison University Special

This program follows the Graduate School's policy for Transfer from UW–Madison University Special Student Career at UW–Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>).

CREDITS PER TERM ALLOWED

Students in the MA program are expected to carry 6 credits per semester. They may carry up to 12 although we do not encourage more than 9. Students who would like to carry fewer than 6 credits must apply in writing to the DGS for a waiver of this requirement and are not eligible to work as TAs.

TIME CONSTRAINTS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)

- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate the ability to read, understand, and critique the major concepts and theories related to feminism, women, and gender, and apply these critical perspectives across disciplines.
2. Understanding of historical and contemporary agency by people across a spectrum of gender and the ways this agency has shaped lives in various geographic settings.
3. Demonstrate the ability to analyze the intersections between gender and other socially meaningful categories, such as race, class, gender identity, ethnicity, disability, nation, religion, and sexuality, and to explain how gender functions as a social institution.
4. Demonstrate the ability to conduct interdisciplinary feminist analysis that (1) includes a critical literature review, (2) selects appropriate research methodologies, and (3) proposes an appropriate research design to collect, analyze, interpret, and present findings.
5. Develop and utilize strong cultural competencies (e.g., sensitivity to race/ethnicity/gender/disability/sexual orientation issues) to allow them to enter into various cultural, social, economic, civic, academic, and workplace settings.
6. Acknowledge and engage in ethical courses of action in research and collaborative practice.

GWS Faculty (<https://gws.wisc.edu/people/faculty-lecturer-directory/>)

GWS Staff (<https://gws.wisc.edu/people/staff/>)

GENDER AND WOMEN'S STUDIES, PH.D.

The PhD in Gender and Women's Studies provides advanced training in feminist gender analysis for students from a variety of academic backgrounds and career plans. The degree engages the multidisciplinary perspectives associated with gender studies and women's studies: queer studies, transgender studies, sexuality studies, race and ethnicity studies, disability studies, area and global studies, cultural studies, and postcolonial and transnational studies.

This interdisciplinary program is supported by the active engagement of 20 faculty members (and another dozen faculty affiliates). The program of study connects to "traditional" disciplinary study, and encourage students to:

- engage with wide-ranging and multi-disciplinary feminist theory and research;
- explore research on gender around the globe and how gender intersects with local and national identities, as well as how gender intersects with other social categories such as race/ethnicity, nationality, sexuality, class, caste, and religion;
- develop expertise in a disciplinary or interdisciplinary concentration outside Gender and Women's Studies; and
- engage with a variety of disciplinary and interdisciplinary methods including, for example, fieldwork, ethnography, critical analysis, and archival, statistical, experimental, and meta-analytic methods.

The PhD curriculum in Gender and Women's Studies draws from the strengths of course offerings in the department, as well as from methods and course offerings in other fields and departments. Some courses investigate these topics at the global level whereas others focus on the local, regional or national levels. The curriculum ensures an overarching transnational and cross-cultural framework.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.

English Proficiency Test Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (<https://grad.wisc.edu/apply/requirements/#english-proficiency>).

Other Test(s) (e.g., GMAT, MCAT) n/a

Letters of Recommendation Required 3

The following materials are required to be submitted:

1. One (1) copy of official transcripts or academic records from each institution attended. International academic records must be in the original language and accompanied by an official English translation. An unofficial transcript is acceptable for the application process; an official transcript is required if the student is accepted.
2. TOEFL or IELTS score for international students whose first language is not English or whose undergraduate instruction was not in English.
3. Three (3) letters of recommendation. At least two of the letters should come from academic sources. These letters may be submitted online. Please see the Graduate School's web link (<https://grad.wisc.edu/apply/>) for instructions.
4. Statement of reasons why you wish to pursue the PhD Degree in Gender and Women's Studies (2–3 pages). In their personal statements, applicants should explicitly articulate their academic interests and goals, describe how a PhD in Gender and Women's Studies complements those intellectual goals, and explain how the faculty and the program at UW–Madison are especially well matched with the applicant's interests.
5. Curriculum vitae.
6. Writing sample (10–20 pages, no more than 25 pages).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

CURRICULAR REQUIREMENTS

Requirements	Detail
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	A minimum of 26 credits out of 51 total must be in graduate-level coursework. Details can be found in the Graduate School's policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	n/a
Assessments and Examinations	<p>Doctoral students must successfully pass a written preliminary examination by the end of Fall semester of their fourth year in the program. Upon passing the preliminary exam, the student advances to dissertator status.</p> <p>Doctoral students must submit a written dissertation proposal and defend the proposal at a meeting of their four-person faculty dissertation committee by the end of Fall semester of their fifth year in the program.</p> <p>Membership on the committee follows Graduate School rules. https://policy.wisc.edu/library/UW-1201 (https://policy.wisc.edu/library/UW-1201/)</p>
Language Requirements	n/a

Breadth Requirements	All doctoral students are required to complete a doctoral minor or Graduate/Professional certificate.
----------------------	---

REQUIRED COURSES

Code	Title	Credits
GEN&WS 800	Research Methods in Gender & Women's Studies	3
GEN&WS 810	Gender and Women's Studies: The Emergence and Transformation of a Field	3
GEN&WS 830	Contemporary Theorizing in Gender and Women's Studies	3
GEN&WS 840	Pedagogy in Gender and Women's Studies	3
GEN&WS 860	Proseminar in Gender and Women's Studies	1

Advanced Electives - All students must complete 3 elective courses from the list below.

GEN&WS/ C&E SOC/ SOC 904	Sociological Perspectives on Gender	
GEN&WS/ ANTHRO 920	Anthropology of Gender	
GEN&WS/ PSYCH 932	Psychology of Women and Gender	
GEN&WS/ POLI SCI 933	Feminist Political Theory	
GEN&WS/ HISTORY 938	History of Sexuality	

Research and Dissertation - Minimum of 6 credits

GEN&WS 990	Research & Thesis	6
------------	-------------------	---

Additional Credits - Students will complete this requirement in additional GEN&WS or other approved coursework.

		8
--	--	---

Breadth Requirement/Concentration - Students are required to meet the Graduate School requirement for breadth. This includes completing a doctoral minor or Graduate/Professional certificate. Most breadth requirements are not 15 credits (this program's requirement for breadth/concentration), and therefore, students will likely need to complete coursework in addition to the doctoral minor or Graduate/Professional certificate. Students are required to submit a written plan for the 15-credit concentration, which includes the breadth requirement, and have it approved by their three-person faculty committee by the end of the Fall semester of their second year in the program. The concentration can be in a discipline or in an interdisciplinary topic. At least 50% of the credits for the concentration must be numbered 700 or above.

Total Credits	51
----------------------	-----------

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

This program follows the Graduate School's policy for Satisfying Requirements with Prior Graduate Coursework from Other Institutions. (<https://policy.wisc.edu/library/UW-1216/>)

UW-Madison Undergraduate

This program follows the Graduate School's policy for Satisfying Requirements with Coursework from Undergraduate Career at UW-Madison (<https://policy.wisc.edu/library/UW-1216/>).

UW-Madison University Special

This program follows the Graduate School's policy for Transfer from UW-Madison University Special Student Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy (<https://policy.wisc.edu/library/UW-1217/>).

ADVISOR/COMMITTEE

The student will be paired with a faculty advisor when they enter the program, based on the area of interest they indicate in their application for admission. The student may later change their advisor. By the beginning of the second semester of their first year, the student must form a three-person faculty advisory committee consisting of the advisor and two other faculty members.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy (<https://policy.wisc.edu/library/UW-1221/>).

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate a broad understanding of major theories, methods, and scholarship in gender and women's studies.
2. Develop significant research questions that will advance the contributions of GWS scholarship to society; create individualized research programs that match their specific interests and goals, and that harness the tools from their concentration.
3. Acquire the analytical tools to apply gender and women's studies in a range of academic and non-academic careers.
4. Demonstrate ethical and professional conduct in research and teaching and with colleagues.

ASSISTANT PROFESSORS

Brunkard, Jake; Richardson, Claire; Schrodi, Steven; Sharp, Nathaniel; Werling, Donna

GENETICS, DOCTORAL MINOR

Admissions to the Genetics Doctoral Minor have been suspended as of fall 2022 and will be discontinued as of fall 2025. If you have any questions, please contact the department.

The doctoral minor in genetics provides graduate students with solid course training in the area of genetics. The field of genetics seeks to understand how information is encoded in an organism's genome, how that information is read, replicated, and maintained by the cell, and how it evolves over time to impact organismal phenotypes. Courses offered through the Laboratory of Genetics span a wide variety of genetic topics, concepts, and experimental approaches. These include genetics related to human biology and disease, agriculture, conservation biology, and specialties such as neurogenetics, epigenetics, computational and statistical genetics, quantitative and population genetics, and basic, discovery-based genetic applications. Students who complete the doctoral minor in genetics will gain a strong foundation in genetic research and its application. In addition, through many of the courses offered in the Laboratory of Genetics, students gain experience in critical experimental thinking, oral and written presentation, and grant writing.

ADMISSIONS

Admissions to the Genetics Doctoral Minor have been suspended as of fall 2022 and will be discontinued as of fall 2025. If you have any questions, please contact the department.

Interested students should contact the director of the genetics Ph.D. program to discuss their interest in the genetics doctoral minor and their course plans.

REQUIREMENTS

Ph.D. students must complete 9 credits of coursework offered through the Laboratory of Genetics (<http://guide.wisc.edu/courses/genetics/>). Coursework must be graded courses numbered 300 or above and does not include audits or pass/fail courses. Students should consult with their home department to verify that they are meeting the minimum graduate coursework (50%) rule, as some courses offered in the low-numbered range may not meet the Graduate School requirements for graduate students.

PEOPLE

PROFESSORS

Pelegri, Francisco (Chair); Chang, Qiang; Drummond-Barbosa, Daniela; Gasch, Audrey; Hittinger, Chris; Ikeda, Aki; Masson, Patrick; Payseur, Bret; Perna, Nicole; Pool, John; Prolla, Tom; Schwartz, David; Skop, Ahna; Wassarman, David; Yin, Jerry

ASSISTANT PROFESSORS

Brunkard, Jake; Richardson, Claire; Schrodi, Steven; Sharp, Nathaniel; Werling, Donna

GENETICS, M.S.

Graduate training in genetics emphasizes study and research leading to a Ph.D. degree in genetics. A master's degree in medical genetics with specialized training in genetic counseling is also available. For more information on a master's degree in genetic counseling, see Genetic Counseling (<http://www.med.wisc.edu/education/graduate-programs/genetic-counseling/main/26910/>).

LABORATORY OF GENETICS

The Laboratory of Genetics is the oldest and one of the finest centers of genetics in the nation. It is highly regarded for its research contributions in the areas of disease genetics (<https://genetics.wisc.edu/disease-biology/>), cell biology (<https://genetics.wisc.edu/cell-biology/>), neurogenetics (<https://genetics.wisc.edu/neuro-and-behavioral-genetics/>), developmental genetics (<https://genetics.wisc.edu/development/>), gene expression (<https://genetics.wisc.edu/gene-expression/>), genomics (<https://genetics.wisc.edu/genomics-and-proteomics/>), evolutionary and population genetics (<https://genetics.wisc.edu/evolutionary-and-population-genetics/>), and computational biology (<https://genetics.wisc.edu/computational-systems-and-synthetic-biology/>). The laboratory consists of two departments: Genetics, in the College of Agricultural and Life Sciences; and Medical Genetics, in the School of Medicine and Public Health. Although administratively distinct, these two departments function as one at both the faculty and student levels.

ADMISSIONS

This M.S. is offered for work leading to the Ph.D. Students may not apply directly for the master's, and should instead see the admissions information for the Ph.D. (p. 869).

A master's degree in medical genetics with specialized training in genetic counseling are also available. For more information on M.S. degrees in genetic counseling, see Genetic Counseling (<http://www.med.wisc.edu/education/graduate-programs/genetic-counseling/main/26910/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement 32 credits

Minimum Residence Credit Requirement 32 credits

Minimum Graduate Coursework Requirement Half of degree coursework must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (<https://registrar.wisc.edu/course-guide/>).

Overall Graduate GPA Requirement 3.00 GPA required.

Other Grade Requirements The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.

Assessments and Examinations Contact the program for information on required assessments and examinations.

Language Requirements No language requirement.

REQUIRED COURSES

Students may earn an M.S. in Genetics on the way to the Ph.D. in Genetics (p. 869) under certain circumstances. Contact the Genetics graduate coordinator for more information.

Code	Title	Credits
GENETICS 701	Advanced Genetics	3
GENETICS 702	Advanced Genetics II	3
GENETICS/ MD GENET 707	Genetics of Development	3
GENETICS/ MD GENET 708	Methods and Logic in Genetic Analysis ¹	3
ONCOLOGY 715	Ethics in Science ²	1
Elective: Any graduate level Genetics course (including special topics) ³		
Four seminars		
Specialized elective coursework at the discretion of your thesis committee		

1

GENETICS/MD GENET 707 Genetics of Development and GENETICS/MD GENET 708 Methods and Logic in Genetic Analysis are taken by the first and second years together; GENETICS/MD GENET 707 is offered one year and GENETICS/MD GENET 708 the next.

2

Permission must be obtained to register from the cancer biology department.

3

Students wishing to take a course outside of Genetics course offerings may petition the Graduate Program Committee.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding

general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

For well-prepared advanced students, the program may accept prior graduate coursework from other institutions toward the minimum graduate degree credit and minimum graduate coursework (50%) requirement. The minimum graduate residence credit requirement can be satisfied only with courses taken as a graduate student at UW–Madison. Coursework earned five or more years prior to admission to a master’s degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

For well-prepared advanced students, the program may decide to accept up to 7 credits numbered 300 or above completed at UW–Madison toward fulfillment of minimum degree and minor credit requirements. This work would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above. Coursework earned five or more years prior to admission to a master’s degree is not allowed to satisfy requirements.

UW–Madison University Special

The program may decide to accept up to 15 University Special student credits as fulfillment of the minimum graduate residence, graduate degree, or minor credit requirements on occasion as an exception (on a case-by-case basis). UW–Madison coursework taken as a University Special student would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above. Coursework earned five or more years prior to admission to a master’s degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master’s degree students who have been absent for five or more consecutive years lose all credits that they have earned before their

absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALs), any student who feels unfairly treated by a member of the CALs faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALs, the student should seek the advice of the dean or director of that unit to determine how to proceed.

- a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
 - b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
 - c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
 4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate a broad understanding in the principles of genetics and heredity in all organisms. They will develop particular expertise in at least one of the broad subject areas of the doctoral program.
2. Demonstrate a broad understanding of major current and past theories, research findings and methodologies and techniques in genetics, with particular expertise in their area of concentration, both orally and in writing.
3. Develop critical thinking skills. They will retrieve and examine scientific literature, evaluate evidence for and against hypotheses, identify knowledge gaps, strengths and weaknesses in existing literature, synthesize knowledge, develop conclusions, and formulate plans for moving the current state of knowledge forward.
4. Demonstrate research expertise in genetics by presenting to their supervisory committee a research report based on their own experimental work or based on critical review of original peer-reviewed literature on a topic of current interest in genetics.
5. Retrieve and interpret professional peer-reviewed literature and use this information to evaluate theoretical frameworks, testable hypotheses, and predictions.
6. Demonstrate the ability to critically evaluate research based on design, feasibility, and internal controls, and to explain how such research addresses important unsolved problems in genetic or biomedical research.
7. Communicate effectively to diverse audiences in writing, through oral presentations, and during formal and informal discussions.
8. Master methods of communicating and interacting effectively with professional colleagues.
9. Articulate their research and its significance both formally and informally to diverse audiences.
10. Give and receive feedback on communication skills both orally and in writing.
11. Be provided with opportunities to engage in public outreach and education.
12. Effectively teach the principles of genetics and the methods used in contemporary genetic research.
13. Receive in-class educational training by serving as teaching assistants for at least one semester of an undergraduate genetics course.
14. Be provided with opportunities to mentor other students (for example, undergraduate students) in a laboratory research setting.
15. Opportunities to perform outreach activities in which they educate school-age students or individuals from other fields on the principles of modern genetics.
16. Be provided with diverse training that will prepare them for a range of flexible and sustainable careers in, for example, academia, industry, government, science policy, administration, commerce, journalism, law, education and community outreach.

17. Develop broadly applicable skills in critical thinking and problem solving.
18. Be provided with opportunities for teamwork, written and oral communication skills and collaborations.
19. Receive training in professional ethics and the responsible conduct of science.
20. Be trained to use scientific rigor when designing experiments, collecting and analyzing data, and interpreting and reporting results.
21. Discuss and formulate opinions on the many situations that working scientists encounter involving professional ethics and conflicts of interest.
22. Receive training in laws, regulation, permits and licenses, occupational health, safety standards and best practices, will demonstrate understanding of such and adhere to compliance.

PEOPLE

PROFESSORS

Pelegri, Francisco (Chair); Chang, Qiang; Drummond-Barbosa, Daniela; Gasch, Audrey; Hittinger, Chris; Ikeda, Aki; Masson, Patrick; Payseur, Bret; Perna, Nicole; Pool, John; Prolla, Tom; Schwartz, David; Skop, Ahna; Wassarman, David; Yin, Jerry

ASSISTANT PROFESSORS

Brunkard, Jake; Richardson, Claire; Schrodi, Steven; Sharp, Nathaniel; Werling, Donna

GENETICS, PH.D.

Graduate training in genetics emphasizes study and research leading to a Ph.D. degree in genetics.

The goal of the genetics graduate training program is to train the next generation of professional geneticists. This includes selecting the most promising university graduates for admission to the program and training those students in the methods and logic of genetic analysis. Such analyses are increasingly important in contemporary biological and biomedical research. The curriculum includes:

1. coursework on the principles of genetics and on the methods of genetic and genomic analyses, and
2. original research in a specialized area, which culminates in the writing and defense of a doctoral thesis.

The genetics graduate program is supported by the oldest and one of the largest NIH-funded genetics training grants in the country.

The strength of genetics research at Wisconsin derives in large part from the Laboratory of Genetics, but state-of-the-art genetics research is conducted in many campus departments and centers. Mentoring faculty of the genetics Ph.D. program includes over 80 mentors selected from 22 campus departments and schools based on the strength of their scholarly genetics research. A key feature of the mentors is that they conduct genetic research, using any number of tools, and can therefore provide students with a solid foundation of genetic knowledge and experiences. The genetics research pursued on campus provides an exceptional community.

Genetics Ph.D. students choose one of the mentoring faculty as the graduate thesis advisor and mentor. Genetics graduate students

spend time during the first semester of graduate school rotating in the laboratories of three or four faculty mentors, selected by the student. Following rotations, a graduate thesis advisor is chosen by mutual consent of both student and mentor. Students are expected to acquire a broad and fundamental knowledge of genetics during their coursework, after which they conduct independent scholarly research based on individual interests and under the guidance and mentoring of the thesis advisor. Formal coursework requirements are modest, and independent study that includes original research is of paramount importance in the program. Students choose an individualized thesis advisory committee that approves formal coursework and provides scientific and career development advice throughout a student's graduate career.

LABORATORY OF GENETICS

The Laboratory of Genetics is the oldest and one of the finest centers of genetics in the nation. It is highly regarded for its research contributions in the areas of disease genetics (<https://genetics.wisc.edu/disease-biology/>), cell biology (<https://genetics.wisc.edu/cell-biology/>), neurogenetics (<https://genetics.wisc.edu/neuro-and-behavioral-genetics/>), developmental genetics (<https://genetics.wisc.edu/development/>), gene expression (<https://genetics.wisc.edu/gene-expression/>), genomics (<https://genetics.wisc.edu/genomics-and-proteomics/>), evolutionary and population genetics (<https://genetics.wisc.edu/evolutionary-and-population-genetics/>), and computational biology (<https://genetics.wisc.edu/computational-systems-and-synthetic-biology/>). The laboratory consists of two departments: Genetics, in the College of Agricultural and Life Sciences; and Medical Genetics, in the School of Medicine and Public Health. Although administratively distinct, these two departments function as one at both the faculty and student levels.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required but may be considered if available.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).

Other Test(s) (e.g., GMAT, MCAT)	The GRE Biology or related subject test is not required, but applicants may provide scores if available.
Letters of Recommendation Required	3

Ph.D. students in genetics choose to attend Wisconsin because of their commitment to the discipline of genetics and because of Wisconsin's strength in that area. For admission to graduate study in genetics, the student should have earned a grade average of B or better and completed a B.S. or B.A. degree in a recognized college or university. There are no specific requirements in supporting fields, but students are encouraged to acquire adequate background in mathematics, physics, and biology. There is no formal language requirement for the Ph.D. in genetics. Undergraduate research experience is also strongly recommended in order to be competitive.

Admission to the genetics Ph.D. program is highly competitive. A committee of the Laboratory of Genetics reviews applications each fall, invites meritorious applicants for personal interviews each January and February, and accepts approximately 15 percent of total applications received. An application for admission consists of:

1. a resume,
2. a personal statement that discusses the reasons for pursuing a genetics Ph.D.,
3. an transcript of undergraduate college or university coursework,
4. three or more letters of recommendation,
5. a report, if appropriate, of scores received on either the TOEFL or IELTS exams of English language proficiency, and
6. any other information or documentation that would help the admissions committee evaluate an applicant's potential for success in graduate study.

The application deadline is **December 1**.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

The Genetics Training Program is supported by an NIH Training Grant. Domestic students receive 1–2 years of funding, typically their first year and second or third year. We encourage students to apply for fellowships. Other funding sources include professors research grants and university fellowships. The Genetics Training Program nominates competitive applicants for fellowships including the Advanced Opportunity Fellowships (<https://scimedgrs.wisc.edu/>) and Wisconsin Distinguished Graduate Fellowships (<https://cals.wisc.edu/academics/graduate-students/scholarships-fellowships/>). Funding includes a stipend, health care benefits, and tuition costs. Students must be making satisfactory progress towards their degree.

Prospective students should see the program website (<https://genetics.wisc.edu/prospective-ph-d-students/>) for funding information.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.

Other Grade Requirements The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.

Assessments and Examinations At the end of their coursework, student's complete Preliminary A, a written examination. The purpose of the Preliminary A Examination is to evaluate the student's general knowledge in genetics, their competency in critically analyzing original genetic literature and their ability to formulate experimental solutions to genetic problems. Doctoral students are required to take a comprehensive preliminary/oral examination after they have cleared their record of all Incomplete and Progress grades (other than research and thesis). This Preliminary B Examination should be completed by December 15 of the student's 3rd year.

Deposit of the doctoral dissertation in the Graduate School is required.

Language Requirements No language requirement.

Doctoral Minor/Breadth Requirements All doctoral students are required to complete a minor.

REQUIRED COURSES

Code	Title	Credits
GENETICS 701	Advanced Genetics	3
GENETICS 702	Advanced Genetics II	3
GENETICS/ MD GENET 707	Genetics of Development ¹	3
GENETICS/ MD GENET 708	Methods and Logic in Genetic Analysis ¹	3
ONCOLOGY 715	Ethics in Science ²	1
Elective: Any graduate level Genetics course (including special topics) ³		

Four seminars

Specialized elective coursework at the discretion of your thesis committee

1

GENETICS/MD GENET 707 Genetics of Development and GENETICS/MD GENET 708 Methods and Logic in Genetic Analysis are taken by the first and second years together; GENETICS/MD GENET 707 is offered one year and GENETICS/MD GENET 708 the next.

2

Permission must be obtained to register from the cancer biology department.

3

Students wishing to take a course outside of Genetics course offerings may petition the Graduate Program Committee.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

For well-prepared advanced students, the program may accept prior graduate coursework from other institutions toward the minimum graduate degree credit and minimum graduate coursework (50%) requirement. The minimum graduate residence credit requirement can be satisfied only with courses taken as a graduate student at UW-Madison. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

For well-prepared advanced students, the program may decide to accept up to 7 credits numbered 300 or above completed at UW-Madison toward fulfillment of minimum degree and minor credit requirements. This work would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW-Madison University Special

The program may decide to accept up to 15 University Special student credits as fulfillment of the minimum graduate residence, graduate degree, or minor credit requirements on occasion as an exception (on a case-by-case basis).

UW-Madison coursework taken as a University Special student would not be allowed to count toward the 50% graduate coursework minimum unless taken at the 700 level or above. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

When students have identified a major professor and joined their lab, that professor will assume the duties of their advisor. At that time students will form a Ph.D. Advisory Committee consisting of three to five faculty members (ultimately it must be five) three of whom must be Genetics trainers, including two members of the Laboratory of Genetics faculty, and one minor advisor, if needed. One member must also be from a different department (all 5 cannot be Genetics faculty members). The Ph.D. Advisory Committee should be established no later than the end of the second semester. Under normal circumstances, the committee

membership will remain in effect for the entire tenure of the student's graduate career.

The Ph.D. Advisory Committee will advise the student with regard to major and minor requirements. It will also act as their Prelim B Examination Committee and as the Final Oral Ph.D. Examination Committee. After the advisor, this committee is the primary monitoring instrument to assure satisfactory progress toward degree. The Ph.D. Advisory Committee will meet with the student at least once per year. During these annual meetings anticipated timelines for progress of the thesis project will be discussed and concrete guidance will be given about completing the thesis. The student will complete an annual committee meeting form each year during the meeting. The annual meeting will address the assessment of the student's progress and outline any suggestions or recommendations, in addition to verifying the discussion of the student's Individualized Development Plan (<https://grad.wisc.edu/pd/idp/>).

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)

- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALs), any student who feels unfairly treated by a member of the CALs faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALs, the student should seek the advice of the dean or director of that unit to determine how to proceed.
 - a. If the complaint involves an academic department in CALs the student should proceed in accordance with item 3 below.
 - b. If the grievance involves a unit in CALs that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
 - c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALs Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation

and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.

- If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

- Demonstrate a broad understanding in the principles of genetics and heredity in all organisms. They will develop particular expertise in at least one of the broad subject areas of the doctoral program.
- Demonstrate a broad understanding of major current and past theories, research findings and methodologies and techniques in genetics, with particular expertise in their area of concentration, both orally and in writing.
- Develop critical thinking skills. They will retrieve and examine scientific literature, evaluate evidence for and against hypotheses, identify knowledge gaps, strengths and weaknesses in existing literature, synthesize knowledge, develop conclusions, and formulate plans for moving the current state of knowledge forward.
- Develop and complete original research that advances a specific field of study within one of the broad areas subject areas in genetics.
- Retrieve, evaluate and interpret professional peer-reviewed literature and use this information to develop theoretical frameworks, testable hypotheses, and predictions for their own research projects.
- Design research projects that are feasible, based on well-designed and internally controlled experiments, and address important unsolved problems in genetic or biomedical research.
- Conduct independent research, critically evaluate and interpret the resulting data, and, based on that analysis, design future experiments that advance the state of the field.
- Write, edit, and assemble manuscripts resulting from their independent research and submit these for publication in peer-reviewed professional journals.
- Communicate effectively to diverse audiences in writing, through oral presentations, and during formal and informal discussions.
- Write clear and concise research articles for publication in professional journals.
- Present at scientific conferences and in both formal and informal seminars.
- Master methods of communicating and interacting effectively with professional colleagues, and will prepare successful applications for research grant support.
- Articulate their research and its significance both formally and informally to diverse audiences.
- Give and receive feedback on communication skills both orally and in writing.
- Be provided with opportunities to engage in public outreach and education.
- Effectively teach the principles of genetics and the methods used in contemporary genetic research.
- Receive in-class educational training by serving as teaching assistants for at least one semester of an undergraduate genetics course.
- Be provided with opportunities to mentor other students (for example, undergraduate students) in a laboratory research setting. Interested students will have opportunities to perform outreach activities in which they educate school-age students or individuals from other fields on the principles of modern genetics.
- Be provided with diverse training that will prepare them for a range of flexible and sustainable careers in, for example, academia, industry, government, science policy, administration, commerce, journalism, law, education and community outreach.
- Develop broadly applicable skills in critical thinking and problem solving.
- Be provided with opportunities for teamwork, written and oral communication skills and collaborations.
- Receive training in professional ethics and the responsible conduct of science.
- Be trained to use scientific rigor when designing experiments, collecting and analyzing data, and interpreting and reporting results.
- Discuss and formulate opinions on the many situations that working scientists encounter involving professional ethics and conflicts of interest.
- Receive training in laws, regulation, permits and licenses, occupational health, safety standards and best practices, will demonstrate understanding of such and adhere to compliance.

CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS, DOCTORAL MINOR

Geographic information science (GIScience) addresses the fundamental issues surrounding the use of computer technology to help people work with geographic information. GIScience is a field devoted to the acquisition, representation, management, analysis, and visualization of geospatial data. It is a relatively new discipline that incorporates geography, cartography, spatial analysis, computer science and other related fields, including geodesy, cognition, statistics, and mathematics. As an academic discipline, GIScience is concerned with both theoretical and applied issues relating to the creation, analysis, and visualization of spatiotemporal information. It is inherently interdisciplinary in both its methods and applications. Here at UW–Madison, we are committed to the integration of GIScience with substantive geographic questions.

ADMISSIONS

For more information, contact: Marguerite Roulet, Graduate Program Director (maroulet@wisc.edu).

REQUIREMENTS

All students pursuing a concentrated minor in Cart/GIS are required to connect with a faculty member with whom they can work to establish a reasonable course list to complete 9 credits in the department. That faculty member will, ultimately, be responsible for signing off on completion of the minor. Students interested in the geography minor are encouraged to explore the department's faculty pages (<http://www.geography.wisc.edu/faculty/>) and contact one or more faculty with shared research interests.

PEOPLE

Faculty

Department Chair: John (Jack) Williams

Professors: Ian Baird, Holly Gibbs, Robert Kaiser, Erika Marin-Spiotta, Joseph Mason, Lisa Naughton, Kristopher Olds, Morgan Robertson, Robert Roth, Matthew Turner, John (Jack) Williams, Keith Woodward, A-Xing Zhu

Associate Professors: Aslıgül Göçmen, Qunying Huang, Jenna Loyd, Sarah Moore, Stephen Young

Assistant Professors: Christian Andresen, Song Gao, Ken Keefover-Ring, Almita Miranda, Jen Rose Smith

CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS, M.S.

The Department of Geography offers a thesis-based master of science in Cartography and Geographic Information Systems, titled Thesis (p. 881). In addition, it offers two professional non-thesis options in the Cartography and Geographic Information Systems M.S. titled: GIS Development (p. 878) (online program) and Accelerated/ Non-Thesis (p. 876) (in-residence program).

Information about facilities, supporting faculty and staff, and program requirements for all graduate programs in the department can be found in the Geography (p. 874) listing in this catalog.

The M.S. (Thesis) in Cartography and Geographic Information Systems provides a broad foundation in the theory and application of mapping and geographic information sciences. Students who earn the M.S. (Thesis) degree are prepared to continue on for the Ph.D. in geography or for positions in government agencies, planning organizations, environmental agencies, nongovernmental organizations, and private industry.

ADMISSIONS

Students apply to the Master of Science in Cartography and Geographic Information Systems through one of the named options:

- Accelerated/Non-Thesis, M.S. (p. 876)
- GIS Development, M.S. (p. 878)
- Thesis (p. 881)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

See "How Does Funding Work?" at the Geography Master's FAQ (<https://geography.wisc.edu/graduate/graduate-programs-faq/>).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement 30 credits

Minimum Residence Credit Requirement 16 credits

Minimum Graduate Coursework Requirement 15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (<https://policy.wisc.edu/library/UW-1244> (<https://policy.wisc.edu/library/UW-1244/>)).

Overall 3.00 GPA required.

Graduate GPA Requirement This program follows the Graduate School's policy: <https://policy.wisc.edu/library/UW-1203> (<https://policy.wisc.edu/library/UW-1203/>).

Other Grade Requirements n/a

Assessments and Examinations See Named Options for information.

Language Requirements No language requirement.

REQUIRED COURSES

Select a Named Option (<https://guide.wisc.edu/graduate/geography/cartography-geographic-information-systems-ms/#NamedOptions>) for courses required.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Science in Cartography and Geographic Information Systems must select one of the following named options:

View as listView as grid

- CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS: ACCELERATED/NON-THESIS, M.S. (P. 876)
- CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS: GIS DEVELOPMENT, M.S. (P. 878)
- CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS: THESIS, M.S. (P. 881)

POLICIES

Students should refer to one of the named options for policy information:

- Accelerated/Non-Thesis, M.S. (p. 876)
- GIS Development, M.S. (p. 878)
- Thesis (p. 881)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates, critiques, or elaborates the theories, research methods, and approaches to inquiry or schools of practice in cartography and GIScience.
2. Identifies sources and assembles evidence pertaining to questions or challenges in cartography/GIScience.
3. Demonstrates understanding of cartography/GIScience in a historical, social, or global context.
4. Selects and/or utilizes the most appropriate methodologies and practices.
5. Evaluates or synthesizes information pertaining to questions or challenges in cartography/GIScience.
6. Communicates clearly in ways appropriate to cartography/GIScience.
7. Recognizes and applies principles of ethical and professional conduct.

PEOPLE

Faculty

Department Chair: John (Jack) Williams

Professors: Ian Baird, Holly Gibbs, Robert Kaiser, Erika Marin-Spiotta, Joseph Mason, Lisa Naughton, Kristopher Olds, Morgan Robertson, Robert Roth, Matthew Turner, John (Jack) Williams, Keith Woodward, A-Xing Zhu

Assistant Professors: Christian Andresen, Song Gao, Ken Keefover-Ring, Almita Miranda, Jen Rose Smith

CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS: ACCELERATED/ NON-THESIS, M.S.

This is a named option within the Cartography/GIS M.S (p. 874).

This accelerated master's program provides a broad foundation in the theory and application of mapping and geographic information sciences. Graduates of this program will be well prepared for positions as GIS analysts in government agencies, planning organizations, environmental agencies, nongovernmental organizations, and private industry. Completion of this accelerated program does not include a thesis. Learn more. (<https://geography.wisc.edu/gis/accelerated-non-thesis-masters-in-cartography-gis/>)

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	April 1 for international applicants; June 1 for domestic applicants
Spring Deadline	August 1 for international applicants; October 1 for domestic applicants
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.

English Proficiency Test Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (<https://grad.wisc.edu/apply/requirements/#english-proficiency>).

Other Test(s) (e.g., GMAT, MCAT) n/a

Letters of Recommendation Required 2

The Graduate School sets minimum requirements for admissions (<https://grad.wisc.edu/admissions/requirements/>). Academic program admission requirements are often more rigorous than those set by the Graduate School. Please check the program's website (<https://geography.wisc.edu/gis/accelerated-non-thesis-masters-in-cartography-gis-application-information/>) for details on how to apply.

This program accepts applications for the FALL and SPRING semesters. Please visit the program website for more information on deadlines. (<https://geography.wisc.edu/gis/accelerated-non-thesis-masters-in-cartography-gis-application-information/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM INFORMATION

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	Yes

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (15 credits out of 30 total credits) must be completed in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	No formal examination is required.
Language Requirements	No language requirement.

REQUIRED COURSES

Code	Title	Credits
Core Courses		
GEOG 370	Introduction to Cartography (Core course)	4
GEOG/CIV ENGR/ ENVIR ST 377	An Introduction to Geographic Information Systems (Core course)	4
GEOG 378	Introduction to Geocomputing (Core course)	4
GEOG 778	Practicum in GIS Development (Core course)	4
Electives		
Choose four of the following:		14-16
GEOG 560	Advanced Quantitative Methods (Elective)	

GEOG 572	Graphic Design in Cartography (Elective)
GEOG 573	Advanced Geocomputing and Geospatial Big Data Analytics (Elective)
GEOG 574	Geospatial Database Design and Development (Elective)
GEOG 575	Interactive Cartography & Geovisualization (Elective)
GEOG 576	Geospatial Web and Mobile Programming (Elective)
GEOG 578	GIS Applications (Elective)
GEOG 579	GIS and Spatial Analysis (Elective)
GEOG 675	Special Topics in Geography (Elective)
Total Credits	30-32

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval.

Students in this program cannot enroll concurrently in other undergraduate, graduate or certificate programs.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 7 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree or earned ten years is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, students are allowed to count no more than 7 credits of undergraduate graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree or earned ten years is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count no more than 15 credits of graduate coursework as defined above taken as a UW–Madison Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Department of Geography expects graduate students to progress through a sequence of benchmarks within prescribed time periods. These benchmarks constitute a reasonable rate of accomplishment for full-time students holding teaching or research appointments. The department

recognizes that individual circumstances vary, and not all students progressing toward their academic goals will hit the benchmarks exactly. Thus a student's progress is considered unsatisfactory only after a period of time elapses following an unmet benchmark. A student not making satisfactory progress is placed on probation. For detailed information about these benchmarks and triggers for probationary status, please see the department's Criteria for Satisfactory Progress.

ADVISOR / COMMITTEE

All students are required to conduct a progress report each semester with the program director or manager. Failure to do so will result in a hold being placed on the student's registration.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

For program-specific time constraints, please see Probation Policy above.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

Other Grade n/a

Requirements

Assessments and Examinations A formal thesis is required.

Language Requirements No language requirement.

REQUIRED COURSES

Program Breadth Requirements

Most students complete the coursework for breadth requirements prior to entering the program. Students who begin the program lacking one or more of the breadth courses are expected to complete such coursework during the master's program. One course taken for breadth can also be used to fulfill degree requirements. Typically, these courses are not seminars. Students must complete the equivalent of one undergraduate-level course in quantitative methods, two courses in mathematics, and two intermediate or advanced geography courses.

Coursework

Code	Title	Credits
Required		
GEOG 765 & GEOG 766	Geographical Inquiry and Analysis: An Introduction and Geographical Inquiry and Analysis: Techniques	4
GEOG 370	Introduction to Cartography	4
GEOG/CIV ENGR/ ENVIR ST 377	An Introduction to Geographic Information Systems	4
GEOG 378	Introduction to Geocomputing	4
GEOG 970	Seminar in Geographic Information Science ¹	3

Select two of the following:

6-8

GEOG 572	Graphic Design in Cartography
GEOG 573	Advanced Geocomputing and Geospatial Big Data Analytics
GEOG 574	Geospatial Database Design and Development
GEOG 575	Interactive Cartography & Geovisualization
GEOG 576	Geospatial Web and Mobile Programming
GEOG 578	GIS Applications
GEOG 579	GIS and Spatial Analysis

Remaining Credits

3-5

Students take courses numbered 300 and up in consultation with their advisor to meet the 30 credit minimum.

Total Credits

30

1

GEOG 970 must be taken for 3 credits.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 6 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree or earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

No credits from a UW-Madison undergraduate degree are allowed to count toward the degree.

UW-Madison University Special

With program approval, students are allowed to count no more than 6 credits of graduate coursework as defined above taken as a UW-Madison Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Department of Geography expects graduate students to progress through a sequence of benchmarks within prescribed time periods. These benchmarks constitute a reasonable rate of accomplishment for full-time students holding teaching or research appointments. The department recognizes that individual circumstances vary, and not all students progressing toward their academic goals will hit the benchmarks

exactly. Thus a student's progress is considered unsatisfactory only after a period of time elapses following an unmet benchmark. A student not making satisfactory progress is placed on probation. For detailed information about these benchmarks and triggers for probationary status, please see the department's Criteria for Satisfactory Progress (<https://geography.wisc.edu/wp-content/uploads/2018/09/Graduate-Student-Handbook-Version-18-19-August-2018.pdf>).

ADVISOR / COMMITTEE

The chair (or co-chair) of a Master's student's committee is the student's advisor. This individual must be graduate faculty in Geography or affiliated with Geography. The committee must have at least three members, two of whom must be graduate faculty (or former graduate faculty up to one year after resignation/retirement). Two of the three members must be affiliated with the Geography Department. The third member may be a qualified individual from within or outside UW-Madison. Inclusion of committee members who are not UW-Madison graduate faculty must be approved by the student's advisor.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy (<https://policy.wisc.edu/library/UW-1221/>).

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Faculty

Department Chair: John (Jack) Williams

Professors: Ian Baird, Holly Gibbs, Robert Kaiser, Erika Marin-Spiotta, Joseph Mason, Lisa Naughton, Kristopher Olds, Morgan Robertson, Robert Roth, Matthew Turner, John (Jack) Williams, Keith Woodward, A-Xing Zhu

Associate Professors: Asligül Göçmen, Qunying Huang, Jenna Loyd, Sarah Moore, Stephen Young

Assistant Professors: Christian Andresen, Song Gao, Ken Keefover-Ring, Almita Miranda, Jen Rose Smith

GEOGRAPHY, DOCTORAL MINOR

Geography studies the interaction between people and their environments including the ways in which the people, the environments, and the interactions all vary from place to place over the earth. Because it is concerned with the character of people and their cultures on the one hand, and with the character of the earth's surface and its resources on the other, geography is both a social and a natural science. The UW-Madison geography program is organized into four major thematic areas: physical geography and earth system science, people-environmental studies, cartography and GIS, and human geography. There is intentional overlap among the thematic areas and many of our faculty work across subfields (e.g., teach courses in both human and people-environment).

ADMISSIONS

For more information, contact: Marguerite Roulet, Graduate Program Director (maroulet@wisc.edu).

REQUIREMENTS

All students pursuing a concentrated minor in geography are required to connect with a faculty member with whom they can work to establish a reasonable course list to complete 9 credits in the department.

That faculty member will, ultimately, be responsible for signing off on completion of the minor. Students interested in the geography minor are encouraged to explore the department's faculty pages (<http://www.geography.wisc.edu/faculty/>) and contact faculty members with shared research interests.

GEOGRAPHY, M.S.

The Department of Geography is a leader in the field of geography and offers exceptional opportunities for graduate education. The department has been consistently rated as one of the best in the country and, for over 100 years, has been the training ground for generations of geographers. The department's strength is reflected in its ability to attract top-caliber students, compete for significant research funding, and publish foundational scholarly work. The department maintains strength across the full spectrum of subfields within the discipline, and is organized into four major thematic areas: physical geography and earth system science, people and environment, human geography, and cartography/GIS.

Department faculty and graduate students represent a diverse community within which a wide range of perspectives, approaches and research strategies is accommodated. The faculty has long been recognized nationally and internationally for outstanding contributions to geography and beyond. Many graduate students have gone on to prominence within government, industry, and academia, and some of the most influential names in geography received their training in Madison.

The department offers two masters of science in geography (thesis option): a master of science in geography and a master of science in cartography and geographic information systems.

Graduate students at the M.S. level are expected to acquire a broad foundation in geography in addition to specializing in one or more areas of concentration. Students who earn the M.S. (Thesis) degree are prepared to continue on for the Ph.D., or for positions in government agencies, planning organizations, environmental agencies, nongovernmental organizations, and private industry.

The department takes in roughly 10–15 new graduate students each year. In recent years, about half of all incoming graduate students have completed an undergraduate major in a subject other than geography.

FACILITIES

Housed in historic Science Hall, the Department of Geography offers exceptional facilities for advanced study in geography, cartography,

and GIS. The department maintains the University Cartographic Laboratory, the Arthur Robinson Map and Air Photo Library, a computer lab, several computer classrooms, and laboratory facilities specializing in biogeography, biogeochemistry, paleoecology, geomorphology, and soil research. In addition, the building houses the Wisconsin State Cartographer's Office, the History of Cartography Project, and the Gaylord Nelson Institute for Environmental Studies.

Graduate students may supplement their work in the geography department with study in other departments of the university, and there are frequent opportunities for advanced work in interdepartmental seminars. The location of the state capital at Madison makes possible easy contact with state agencies and some federal agencies.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

See "How Does Funding Work?" at the Geography Master's FAQ (<https://geography.wisc.edu/graduate/graduate-programs-faq/>).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	15 credits (50% of 30 credits) must be graduate-level coursework. Details can be found in the Graduate School's policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/).
Other Grade Requirements	n/a

Assessments and Examinations	A formal thesis is required.
Language Requirements	No language requirement.

REQUIRED COURSES

Breadth Requirements

Most students complete the coursework for breadth requirements prior to entering the program. Students who begin the program lacking one or more of the breadth courses are expected to complete such coursework during the master's program. One course taken for breadth can also be used to fulfill degree requirements. Typically, these courses are not seminars. Students must complete the equivalent of one undergraduate-level course in each subarea (Physical Geography, Human Geography, People–Environment Geography, Cartography/GIS).

Coursework

GEOG 765 Geographical Inquiry and Analysis: An Introduction (1 credit) + GEOG 766 Geographical Inquiry and Analysis: Techniques (3 credit); two geography graduate courses 300-level and above: one can double count for breadth, cannot include seminars; two (3 credit) 900-level geography seminars with two different core or affiliate Geography faculty members.

Geography Seminars

Code	Title	Credits
GEOG 900	Seminar in Geography	1-3
GEOG 901	Seminar in Cultural Geography	2-3
GEOG 918	Seminar in Political Geography	2-3
GEOG 920	Seminar in Physical Geography	1-3
GEOG 930	Seminar in People–Environment Geography	2-3
GEOG 970	Seminar in Geographic Information Science	1-3
GEOG/A A E/ ANTHRO/C&E SOC/ HISTORY/LACIS/ POLI SCI/PORTUG/ SOC/SPANISH 982	Interdepartmental Seminar in the Latin-American Area	1-3
GEOG/AFRICAN/ ANTHRO/ ECON/HISTORY/ POLI SCI 983	Interdepartmental Seminar in African Studies Topics	3

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 6 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree or earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

With program approval, students are allowed to count no more than 6 credits of graduate coursework as defined above taken as a UW–Madison Special student. Coursework earned five or more years prior to admission to a master's degree or earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

The Department of Geography expects graduate students to progress through a sequence of benchmarks within prescribed time periods. These benchmarks constitute a reasonable rate of accomplishment for full-time students holding teaching or research appointments. The department recognizes that individual circumstances vary, and not all students progressing toward their academic goals will hit the benchmarks exactly. Thus a student's progress is considered unsatisfactory only after a period of time elapses following an unmet benchmark. A student not making satisfactory progress is placed on probation. For detailed information about these benchmarks and triggers for probationary status, see the department's Criteria for Satisfactory Progress (<https://geography.wisc.edu/wp-content/uploads/2017/05/Criteria-for-Satisfactory-Progress.pdf>).

ADVISOR / COMMITTEE

The chair (or co-chair) of a Masters student's committee is the student's advisor. This individuals must be graduate faculty in Geography or affiliated with Geography. The committee must have at least three members, two of whom must be graduate faculty (or former graduate faculty up to one year after resignation/retirement). Two of the three members must be affiliated with the Geography Department. The third member may be a qualified individual from within or outside UW–Madison. Inclusion of committee members who are not UW–Madison graduate faculty must be approved by the student's advisor.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

For program-specific time constraints, please see Probation Policy above. This program follows the Graduate School's Time Limits policy (<https://policy.wisc.edu/library/UW-1221/>).

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates, critiques, or elaborates the theories, research methods, and approaches to inquiry or schools of practice in geography.
2. Identifies sources and assembles evidence pertaining to questions or challenges in geography.
3. Demonstrates understanding of geography in a historical, social, or global context.
4. Selects and/or utilizes the most appropriate methodologies and practices.
5. Evaluates or synthesizes information pertaining to questions or challenges in geography.

6. Communicates clearly in ways appropriate to geography.
7. Recognizes and applies principles of ethical and professional conduct.

GEOGRAPHY, PH.D.

The Department of Geography is a leader in the field of geography and offers exceptional opportunities for graduate education. The department has been consistently rated as one of the best in the country and, for more than 100 years, has been the training ground for generations of geographers. The department's strength is reflected in its ability to attract top-caliber students, compete for significant research funding, and publish foundational scholarly work. The department maintains strength across the full spectrum of subfields within the discipline, and is organized into four major thematic areas: physical geography and earth system science, people and environment, human geography, and cartography/GIS.

Department faculty and graduate students represent a diverse community within which a wide range of perspectives, approaches and research strategies is accommodated. The faculty has long been recognized nationally and internationally for outstanding contributions to geography and beyond. Many graduate students have gone on to prominence within government, industry, and academia and some of the most influential names in geography received their training in Madison.

The Ph.D. degree is founded primarily upon specialized advanced training and research. Students may specialize in a single subdisciplinary area or a combination of areas and are expected to engage in research leading to a dissertation that makes an original and significant contribution to geographic knowledge and ideas.

The department takes in roughly 10–15 new graduate students each year. In recent years, about half of all incoming graduate students have completed an undergraduate major in a subject other than geography.

FACILITIES

Housed in historic Science Hall, the Department of Geography offers exceptional facilities for advanced study in geography, cartography, and GIS. The department maintains the University Cartographic Laboratory, the Arthur Robinson Map and Air Photo Library, a computer lab, several computer classrooms, and laboratory facilities specializing in biogeography, biogeochemistry, paleoecology, geomorphology, and soil research. In addition, the building houses the Wisconsin State

Cartographer's Office, the History of Cartography Project, and the Gaylord Nelson Institute for Environmental Studies.

Graduate students may supplement their work in the geography department with study in other departments of the university, and there are frequent opportunities for advanced work in interdepartmental seminars. The location of the state capital at Madison makes possible easy contact with state agencies, and some federal agencies.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree or earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of graduate coursework as defined above taken as a UW–Madison Special student. Coursework earned five or more years prior to admission to a master's degree or earned ten year or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

The Department of Geography expects graduate students to progress through a sequence of benchmarks within prescribed time periods. These benchmarks constitute a reasonable rate of accomplishment for full-time students holding teaching or research appointments. The department recognizes that individual circumstances vary, and not all students progressing toward their academic goals will hit the benchmarks exactly. Thus a student's progress is considered unsatisfactory only after a period of time elapses following an unmet benchmark. A student not making satisfactory progress is placed on probation. For detailed information about these benchmarks and triggers for probationary status, see the department's Criteria for Satisfactory Progress (<https://geography.wisc.edu/wp-content/uploads/2017/05/Criteria-for-Satisfactory-Progress.pdf>).

ADVISOR / COMMITTEE

The chair (or co-chair) of a doctoral student's Dissertation Committee is the student's Advisor. This individual must be UW–Madison graduate faculty in Geography or affiliated with Geography. The committee must have at least 4 members, all designated as "readers" (responsible for reading the entire dissertation). The committee must have members from at least 2 University of Wisconsin–Madison graduate programs. Three members must be UW–Madison graduate faculty (or former graduate faculty up to one year after resignation/retirement). At least 2 members must be from UW–Madison Geography or affiliated with UW–Madison Geography. At least one committee member must be from outside the major field of study. The fourth member and any additional members can be UW–Madison graduate faculty (or former graduate faculty up to one year after resignation/retirement) or qualified individuals from within or outside UW–Madison. Inclusion of committee members who are not UW–Madison graduate faculty must be approved by the student's Advisor. Students can add a 5th committee member, who can serve as "non-reader" (not responsible for reading the entire dissertation, able to provide input on specific areas of expertise).

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy (<https://policy.wisc.edu/library/UW-1221/>).

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates research problems, potentials, and limits with respect to theory, knowledge, or practice within geography.

2. Formulates ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within geography.
3. Creates research, scholarship, or performance that makes a substantive contribution.
4. Demonstrates breadth within their learning experiences.
5. Advances contributions of geography to society.
6. Communicates complex ideas in a clear and understandable manner.
7. Fosters ethical and professional conduct.

GEOSCIENCE, DOCTORAL MINOR

The Geoscience minor provides students in the natural sciences with an opportunity to broaden and deepen their understanding of traditional areas of geoscience such as sedimentary geology, hydrogeology, geophysics, mineralogy, petrology, geochemistry, structural geology, and surface processes. The minor offers coursework that connects to other earth and environmental science programs on campus including, for example, participation in the Nelson Institute for Environmental Studies and close collaboration with the College of Engineering to jointly train future geological engineers. We also offer courses that deal with societal problems including climate change, geohazards, the environment,

and natural resources; and courses that deal with big questions such as the origin of life in the solar system, geologic triggers for global biotic changes, and the deep-seated processes that drive earthquakes and volcanic eruptions. Regardless of the focus of the minor, the key learning outcome is for the student to understand how geoscientists approach problems, including development and evaluation of scientific hypotheses, ideas, and concepts within Geoscience. Our graduate courses require students to communicate complex ideas in a clear and understandable manner, an ability that will allow them to engage with and communicate with research professionals in Geoscience.

ADMISSIONS

Contact Professor Eric Roden, eroden@geology.wisc.edu.

REQUIREMENTS

Our minor requires a minimum of 9 credits in courses involving one or more faculty from Geoscience. The coursework may focus on a single geoscience discipline (e.g., one of the traditional areas listed in the Overview), or may be multidisciplinary across our various coursework options. Fulfillment of this option requires the approval of the graduate studies program coordinator.

PEOPLE

Faculty: Professors Carroll, Dutton, Feigl, Goodwin, Kelly, Meyers, Peters, Roden, Singer, Tikoff, Xu; Associate Professors Cardiff, Ferrier, Marcott, Zoet; Assistant Professors Bauer, Bonamici, Golos, Haseloff, Zahasky

GEOSCIENCE, M.S.

The Department of Geoscience provides opportunity for advanced study leading to the master of science and the doctor of philosophy degrees. Broad research interests and numerous fields of specialization among the members of the faculty provide research opportunities in all major fields of earth science including geochemistry, geophysics, hydrogeology, microbial geoscience, mineralogy, nano-geoscience, paleontology, paleoclimatology/paleoceanography, petrology, quaternary geology, sedimentology, structural geology, and tectonics.

The graduate student is expected to acquire a broad foundation in geoscience and in the supporting sciences before specializing. Courses are selected by the student in consultation with a three-member guidance and evaluation committee. Individual research and scholarship is required in all graduate work. It is expected that the candidate for an advanced degree will make original contributions, develop new ideas, and complete a dissertation suitable for publication in a peer-reviewed journal, book, or report. Students may also obtain a joint master's degree in geoscience and water resources management if approved by both programs and the Graduate School.

The department maintains a variety of cutting-edge laboratories in Lewis G. Weeks Hall for the Geological Sciences. Strong connections also exist between the geoscience and geological engineering programs. Library and research facilities are available for advanced work in all important branches of the science. Geological survey offices in the Madison area, both state

and federal, provide opportunities for cooperation with Survey geologists and the use of Survey facilities.

The program prepares students for teaching and research in academic positions, research work in state and federal organizations, and research and development in industry. The department coordinates interviews with potential employers several times during the year and maintains information on career placement. Students are actively involved in teaching and research programs and other scholarly activities of the department.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 4
Spring Deadline	November 1
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Graduate students may enter the degree program with a bachelor's degree in geology or a related earth science, or some other field relevant to the intended field of specialization. In addition to meeting the minimum admission requirements of the Graduate School, candidates must have had one year each of college chemistry, physics, and calculus. Graduate students in paleobiology are allowed to substitute statistics courses for the calculus requirement. A student entering the program with an undergraduate degree in geology is expected to have completed a 6–8 credit course in geologic field mapping.

Applicants will not normally be admitted with deficiencies in more than two one-semester courses in the required cognate subjects (for example, a prospective student could be missing one semester of physics and one semester of calculus). Such deficiencies should be removed within the first year of graduate study. A deficiency in field geology normally must be removed before commencing graduate study. Promising students with excessive deficiencies may be advised to take courses as a Special student

before becoming eligible to enter graduate studies. They cannot, however, receive financial aid while a Special student.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Financial assistance sufficient to meet the ordinary expenses of graduate school is available to qualified students in the form of fellowships and teaching or research assistantships. Prospective students should contact the department for information on available financial aid.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	30 credits

Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide (https://registrar.wisc.edu/course-guide/)).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	Contact the program for information on required assessments and examinations.
Language Requirements	No language requirements.

REQUIRED COURSES

Courses are selected by the student in consultation with a three-member Guidance and Evaluation Committee.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 15 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

7 credits from a UW–Madison undergraduate degree are allowed to count toward the degree. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count no more than 15 credits of coursework numbered 300 or above taken as a UW–Madison Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)

- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

OTHER

Qualified prospective students are considered for financial support in the form of graduate assistantships or fellowships at the same time they are considered for admission.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates, critiques, or elaborates the scientific theories, scientific hypotheses, research methods, and approaches to inquiry or schools of practice in geoscience.
2. Identifies sources and assembles evidence pertaining to questions or challenges in geoscience.
3. Demonstrates understanding of geoscience in historical, social, or global context.
4. Selects and/or utilizes the most appropriate methodologies and practices.
5. Evaluates or synthesizes information pertaining to questions or challenges in geoscience.
6. Communicates clearly in ways appropriate to the geological sciences.
7. Recognizes and applies principles of ethical and professional conduct.

FOLKLORE, DOCTORAL MINOR

REQUIREMENTS

Doctoral students can obtain a minor in Folklore studies by taking three advanced-level (numbered 300 or above) folklore courses for a total of 9 credits. Interested students should consult with the graduate coordinator mkmears@wisc.edu, and have the minor plan approved by the the Program Leader of Folklore.

PEOPLE

Faculty: Professor Livorni (chair, also French and Italian); Associate Professor Livanos; Assistant Professor Fielder; Lecturer Botero.

Affiliate Faculty: Professors Adler (German, Nordic, and Slavic), Casid (Art History), Dharwadker (English), Garlough (Gender and Women's Studies), Gilmore (Landscape Architecture), Goodkin (French and Italian), Guyer (English), Kern (Asian Languages and Cultures), Longinovic (German, Nordic, and Slavic), Rosenblum (Jewish Studies), Valentine (Linguistics) Wells (English); Associate Professors Kapust (Political Science), Neyrat (English); Assistant Professor Grunewald (English),

International Affiliate Faculty: Ramalho de Sousa Santos (University of Coimbra, Portugal).

See *also* Faculty (<http://clfs.wisc.edu/people/faculty/>) on the department website.

GERMAN, DOCTORAL MINOR

REQUIREMENTS

The department offers an external doctoral minor. Doctoral students outside the department may obtain a minor in German by taking three graduate-level courses, at least two of them at the 600 level or above, for a total of 9 credits.

Interested students should consult with the graduate coordinator mkmears@wisc.edu, and have the minor plan approved by the chair.

PEOPLE

Faculty: Professors Chavez, Gross, Loudon, Mani, Potter, and Vanderwal Taylor; Associate Professors Calomino, Eldridge, Klocke, and Moedersheim; Assistant Professors Li, Somers, Stern and Yudkoff; Faculty Associates Larson-Guenette and Schueller

GERMAN, M.A.

The graduate program in German is recognized internationally for its comprehensive coverage of German studies and the thorough preparation of candidates for its graduate degrees. The German program is consistently among the most highly rated in the country and is near the

top of the list of North American institutions in number of total graduate degrees granted in German. Graduates teach in colleges and universities across the country and around the world, affirming the department's reputation and significance.

The department is the home of the quarterly Monatshefte (<https://uwpress.wisc.edu/journals/journals/m.html>), founded in 1899 and one of the leading peer-reviewed international scholarly journals in the field of German literature and culture. The Journal of Germanic Linguistics, journal of the Society for Germanic Linguistics, is also produced in the department. In addition, the department provides an editorial home for Diachronica (<http://benjamins.com/catalog/journals/dia/main/>), an international journal covering all aspects of historical and comparative linguistics. The Max Kade Institute (<http://mki.wisc.edu/>) for German-American Studies, founded in 1983, is an international center for research on German-American history, language, and culture. Its research and outreach missions aim to provide better understanding of how German-speaking immigrants to this country helped shape their new environment and how they have been shaped by it. The Center for German and European Studies (<http://daadcenter.wisc.edu/>) (CGES), one of a handful of DAAD-sponsored centers in the US, is helping educate a new generation of experts on Germany and the new Europe across a wide variety of disciplines. It supports collaborative research and teaching of interdisciplinary and graduate seminars, and provides fellowships for graduate students interested in German and European studies.

The department offers a broadly inclusive and flexible curriculum in the entire range of medieval through contemporary literature and culture, a full spectrum of linguistics and philology, and a program in Dutch language, literature, and culture. The program is unsurpassed in comprehensive representation of the entire field of the study of German through individual faculty members' specializations and research publications, including: early modern and medieval studies; film and media studies; multicultural literature and cosmopolitanism; Gegenwartsliteratur; literary and cultural theory; Holocaust studies; poetics, stylistics, and narratology; 18th-century studies; literature in its sociocultural context; literary and cultural theory; Dutch literature and linguistics; historical and synchronic linguistics; applied linguistics, second language acquisition, and foreign language education. Offerings include interdisciplinary areas such as literature and other arts (especially image/text, visual culture, and literature/music), German-American, literature and philosophy, and German-Jewish relations.

Graduate students are encouraged to pursue inter- and multidisciplinary work beyond the Department of German in such areas as art history, communication arts/cinema, comparative literature, history, linguistics, musicology, Scandinavian studies, visual studies, and women and gender studies. The department cooperates closely with the interdepartmental programs in European studies, Medieval studies, Jewish studies, and Second Language Acquisition.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) of the Graduate School as well as the program(s).** Once you have researched

the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 2
Spring Deadline	December 20
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Applicants are expected to demonstrate a strong record of prior and potential academic achievement in addition to excellent German language skills. Applicants with a B.A. in German must have a cumulative undergraduate GPA of at least 3.0 (on a 4.0 scale) on the equivalent of the last 60 semester credits and a GPA of at least 3.50 in German courses beyond the second-year level. Students with an M.A. in German must have a GPA in graduate work of at least 3.7 on a 4.0 scale. In special cases, applicants who do not fulfill the above expectations may be admitted on probation.

All applicants must submit official transcripts of all university course work (or equivalents, including study abroad), list of courses in progress, Graduate Record Exam (GRE) scores, a personal statement explaining the reasons for graduate study, a current c.v. or resume, a writing sample in German (5–15 pages), and three letters of recommendation that evaluate previous study and potential for graduate study. International applicants must also provide TOEFL, MELAB, or IELTS scores, a financial statement form included with the application materials, and, if applying for a teaching assistantship, a ten-minute recording with a sample of the applicant's spoken English.

Application to the UW–Madison Graduate School is an online procedure, with supporting documentation mailed to the Department of German. Applicants should contact the department early in the fall if they wish additional information. Visits to the UW–Madison campus are welcomed by faculty and graduate students.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Find information about funding on the program website (<https://gns.wisc.edu/german-graduate-program/#financial-support>).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement 30 credits

Minimum Residence Credit Requirement 16 credits

Minimum Graduate Coursework Requirement 15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (<https://policy.wisc.edu/library/UW-1244>).

Overall Graduate GPA Requirement 3.5 GPA required.

Other Grade Requirements If a student's GPA falls below 3.50 in any given semester, the cumulative average by the end of the following full-time semester must be 3.50.

The grade of C is considered unsatisfactory in the Department of German: it is not counted in fulfilling the course requirements and may not be offset by a grade of A or AB in another course.

An incomplete received in the Fall Semester must be removed by the end of the following summer session. An incomplete received in the Spring Semester must be removed by the end of the following Fall Semester. An incomplete received in the summer session must be removed within six months. Failure to meet these deadlines constitutes unsatisfactory progress.

Assessments and Examinations Students entering the program at the M.A. level are required to take the Goethe Certificate C1 (German-language proficiency) during the first year of their studies unless they are a native German speaker.

At least one substantial course contribution written in German is required each year during the entire period of a student's graduate coursework. This might be a paper or a lengthy take-home examination. If a student is taking only courses outside the department in a given year, the requirement will be waived for that year.

An M.A. examination with a written and oral component.

Language Requirements n/a

REQUIRED COURSES

GERMAN 720	College Teaching of German	1
GERMAN 722	Theory of Teaching German	2
Select one of the following:		3
GERMAN 612	German Literary Movements Since 1750	
Or, select other surveys of German literature as approved by the advisor.		
<i>German Electives</i>		15
Select GERMAN 500+ courses in consultation with advisor. GNS 700 also counts.		
<i>Outside Electives</i>		6
Two courses taken outside the department may count toward MA coursework.		
Total Credits		30

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree

program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

Students are generally not allowed to count graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval students are allowed no more than 7 credits of coursework numbered 600 or above taken as a UW undergraduate.

Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count no more than 15 credits of coursework numbered 600 or above taken as a UW–Madison University Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

Students admitted on probation must maintain a GPA of at least 3.50 in graduate work done during each of their first two full-time semesters or the equivalent at this university, otherwise they will be dropped from the program. After performing satisfactorily during the probation period, students are expected to perform as well as students granted admission in full standing.

Current students should refer to the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

All incoming M.A. candidates are advised by the department graduate advisor (DGA) during the first year of study. M.A. candidates are expected to select (by mutual consent) their individual graduate advisor during the third semester of coursework. The individual graduate advisor is likely to be chair of the M.A. examination committee, the Ph.D. preliminary examination committee, and the dissertation committee.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

The M.A. examination must be completed by the end of the fourth semester in the German program.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)

- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

Assistant Professors Li, Somers, Stern, and Yudkoff; Faculty Associates Larson-Guenette and Schueller

GERMAN, PH.D.

The graduate program in German is recognized internationally for its comprehensive coverage of German studies and the thorough preparation of candidates for its graduate degrees. The German program is consistently among the most highly rated in the country and is near the top of the list of North American institutions in number of total graduate degrees granted in German. Graduates teach in colleges and universities across the country and around the world, affirming the department's reputation and significance.

The department is the home of the quarterly Monatshefte (<https://uwpress.wisc.edu/journals/journals/m.html>), founded in 1899 and one of the leading peer-reviewed international scholarly journals in the field of German literature and culture. The Journal of Germanic Linguistics, journal of the Society for Germanic Linguistics, is also produced in the department. In addition, the department provides an editorial home for Diachronica (<http://benjamins.com/catalog/journals/dia/main/>), an international journal covering all aspects of historical and comparative linguistics. The Max Kade Institute (<http://mki.wisc.edu/>) for German-American Studies, founded in 1983, is an international center for research on German-American history, language, and culture. Its research and outreach missions aim to provide better understanding of how German-speaking immigrants to this country helped shape their new environment and how they have been shaped by it. The Center for German and European Studies (<http://daadcenter.wisc.edu/>) (CGES), one of a handful of DAAD-sponsored centers in the US, is helping educate a new generation of experts on Germany and the new Europe across a wide variety of disciplines. It supports collaborative research and teaching of interdisciplinary and graduate seminars, and provides fellowships for graduate students interested in German and European studies.

The department offers a broadly inclusive and flexible curriculum in the entire range of medieval through contemporary literature and culture, a full spectrum of linguistics and philology, and a program in Dutch language, literature, and culture. The program is unsurpassed in comprehensive representation of the entire field of the study of German through individual faculty members' specializations and research publications, including: early modern and medieval studies; film and media studies; multicultural literature and cosmopolitanism; Gegenwartsliteratur; literary and cultural theory; Holocaust studies; poetics, stylistics, and narratology; 18th-century studies; literature in its sociocultural context; literary and cultural theory; Dutch literature and linguistics; historical and synchronic linguistics; applied linguistics, second language acquisition, and foreign language education. Offerings include interdisciplinary areas such as literature and other arts (especially image/text, visual culture, and literature/music), German-American, literature and philosophy, and German-Jewish relations.

Graduate students are encouraged to pursue inter- and multidisciplinary work beyond the Department of German in such areas as art history, communication arts/cinema, comparative literature, history, linguistics, musicology, Scandinavian studies, visual studies, and women and gender studies. The department cooperates closely with the interdepartmental programs in European studies, medieval studies, Jewish studies, and second language acquisition.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 2
Spring Deadline	December 20
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Applicants are expected to demonstrate a strong record of prior and potential academic achievement in addition to excellent German language skills. Applicants with a B.A. in German must have a cumulative undergraduate GPA of at least 3.0 (on a 4.0 scale) on the equivalent of the last 60 semester credits and a GPA of at least 3.50 in German courses beyond the second-year level. Students with an M.A. in German must have a GPA in graduate work of at least 3.7 on a 4.0 scale. In special cases, applicants who do not fulfill the above expectations may be admitted on probation.

All applicants must submit official transcripts of all university course work (or equivalents, including study abroad), list of courses in progress, Graduate Record Exam (GRE) scores, a personal statement explaining the reasons for graduate study, a current c.v. or resume, a writing sample in German (5–15 pages), and three letters of recommendation that evaluate previous study and potential for graduate study. International applicants must also provide TOEFL, MELAB, or IELTS scores, a financial statement form included with the application materials, and, if applying for a teaching assistantship, a ten-minute recording with a sample of the applicant's spoken English.

Application to the UW–Madison Graduate School is an online procedure, with supporting documentation mailed to the Department of German. Applicants should contact the department early in the fall if they wish additional information. Visits to the UW–Madison campus are welcomed by faculty and graduate students.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Find information about funding on the program website (<https://gns.wisc.edu/german-graduate-program/#financial-support>).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS MODE OF INSTRUCTION

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum
Credit
Requirement

Minimum
Residence
Credit
Requirement

Minimum
Graduate
Coursework
Requirement

26 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (<https://policy.wisc.edu/library/UW-1244>) (<https://policy.wisc.edu/library/UW-1244/>).

Overall
Graduate
GPA
Requirement

3.5 GPA required for courses taken in the department;
3.00 GPA for work done in the minor.

Other Grade
Requirements

If a student's GPA falls below 3.50 in any given semester, the cumulative average by the end of the following full-time semester must be 3.50.

The grade of C is considered unsatisfactory in the Department of German: it is not counted in fulfilling the course requirements and may not be offset by a grade of A or AB in another course.

An incomplete received in the fall semester must be removed by the end of the following summer session. An incomplete received in the spring semester must be removed by the end of the following fall semester. An incomplete received in the summer session must be removed within six months. Failure to meet these deadlines constitutes unsatisfactory progress.

Assessments
and
Examinations

Students entering the program at the M.A. level are required to take the Goethe Certificate C1 (German-language proficiency) during the first year of their studies unless they are a native German speaker.

At least one substantial course contribution written in German is required each year during the entire period of a student's graduate coursework. This might be a paper or a lengthy take-home examination. If a student is taking only courses outside the department in a given year, the requirement will be waived for that year.

An oral preliminary examination and a dissertation proposal must be completed after all required Ph.D. coursework.

Language
Requirements

In addition to German students must demonstrate reading knowledge in a second foreign language, equivalent to at least four semesters of college work in that language, before proceeding to the preliminary examination.

Breadth
Requirement

All doctoral students are required to complete a minor or Graduate/Professional certificate.

REQUIRED COURSES

Students who completed the M.A. in German at UW–Madison

Students who completed the M.A. in German (p. 896) at the UW–Madison must complete 8 additional GERMAN (<http://guide.wisc.edu/courses/german/>) courses at the 500 level and above for a total of 24 credits, 6 dissertator credits (GERMAN 990 or GERMAN 991), and a minimum 9 credits of a doctoral minor or graduate/professional certificate. For the Minimum Credit Requirement, some credits from the M.A. count toward the Ph.D. to total to at least 51. For the Minimum Residence Credit Requirement, students may count courses taken while in the M.A. program, but must complete at least 19 more credits in residence as a PhD student.

Code	Title	Credits
<i>German M.A. Requirements</i>		30
Additional German 500+ courses		24
GNS 700 may also count toward this requirement.		
Dissertator credits		6
GERMAN 990	Individual Research in Literature	
GERMAN 991	Individual Research Linguistics and Germanic Philology	
Doctoral Minor or Graduate/Professional Certificate		9

Students with an outside M.A.

Students who completed the M.A. in German (p. 896) at the UW–Madison must complete 12 GERMAN (<http://guide.wisc.edu/courses/german/>) courses at the 500 level and above for a total of 36 credits, 6 dissertator credits (GERMAN 990 or GERMAN 991), and a minimum 9 credits of a doctoral minor or graduate/professional certificate.

Of the 12 GERMAN courses, two (6 cr) may be transferred from previous work, if suitable, including the teaching assistant training program and its academic component (GERMAN 720 College Teaching of German/GERMAN 722 Theory of Teaching German).

Code	Title	Credits
German 500+ courses		36
GNS 700 may also count toward this requirement.		
Dissertator credits		6
GERMAN 990	Individual Research in Literature	
GERMAN 991	Individual Research Linguistics and Germanic Philology	
Doctoral Minor or Graduate/Professional Certificate		9

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

Students are generally not allowed to count graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the Ph.D. degree.

UW–Madison University Special

With program approval, students are allowed to count no more than 15 credits of coursework numbered 600 or above taken as a UW–Madison University Special student. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

Students admitted on probation must maintain a GPA of at least 3.50 in graduate work done during each of their first two full-time semesters or the equivalent at this university, otherwise they will be dropped from the program. After performing satisfactorily during the probation period, students are expected to perform as well as students granted admission in full standing.

Current students should refer to the Graduate School's Probation policy.

ADVISOR / COMMITTEE

Students joining the program with an M.A. degree will either be advised by the department graduate advisor (DGA) and choose their individual advisor before the end of their second semester of coursework in consultation with the DGA, or be assigned an individual advisor when they enter the program. The individual advisor will be the chair of the Ph.D. preliminary examination committee and the dissertation committee.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

Ph.D. candidates should take the two-hour oral preliminary examination no sooner than upon completion of the second semester of the Ph.D. coursework and may take it no later than three weeks after the beginning of the fifth full-time semester (or its equivalent) after the M.A.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

SCANDINAVIAN STUDIES, DOCTORAL MINOR

REQUIREMENTS

A prospective minor in Scandinavian studies must have a program approved in advance by the graduate advisor, and is urged to discuss the entire doctoral program with this advisor at the earliest possible opportunity. In general, the requirements for the minor are a minimum of 12 credits in Scandinavian studies (http://guide.wisc.edu/courses/scand_st/) at the graduate level, and reading proficiency in one Scandinavian language (including Old or modern Icelandic) or in Finnish or Sámi.

PEOPLE

Faculty: Professors Brantly, DuBois, and Wolf; Associate Professor Krouk; Assistant Professors Andersen, Roos, and Mier-Cruz; Faculty Associate Mellor

SCANDINAVIAN STUDIES, M.A.

Candidates for the master of arts in Scandinavian studies will specialize in one and only one of the following three fields: literary and cultural studies, philology, or area studies.

Scandinavian studies is in the oldest such department in the Americas, tracing its roots to 1875. Department faculty have received numerous awards and other marks of recognition for their teaching and scholarship. The department offers the master of arts and the doctor of philosophy in Scandinavian studies. A doctoral minor is also available. The program offers the possibility to attain a broad education in Scandinavian culture that has proven to be extremely useful in students' professional careers. Students will become well-versed in theory and methodology as well as in cultural history. The department possesses particular strengths in Scandinavian literature and film, Old Norse philology, and Nordic folklore. Within these broader categories, students may pursue interests in such topics as mythology, Sámi studies, saints' lives, modernism, sagas, gender studies, immigration studies, national identity—to name only a few. Languages offered in the department include Danish, Finnish, Icelandic,

Norwegian, Sámi, and Swedish. The department has an excellent record of placing its Ph.D. graduates in good positions in the field.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

POLICIES**GRADUATE SCHOOL POLICIES**

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

This program follows the Graduate School's policy for Satisfying Requirements with Coursework from Undergraduate Career at UW–Madison. (<https://policy.wisc.edu/library/UW-1216/>)

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned five or more years prior to admission to a Master's degree is not allowed to satisfy requirements.

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

In order to encourage progress toward the degree and to determine the status of a student's program, the department requests an annual activities report from all continuing students to be submitted by the end of January. In the case of first-year students, this report will, of course, only cover work done during the fall semester. A copy of this report will be placed in the student's permanent file. Students are expected to consult regularly on their progress with their advisor.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)

- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates, critiques, or elaborates the theories, research methods, and approaches to inquiry or schools of practice in the field of study.
2. Identifies sources and assembles evidence pertaining to questions or challenges in the field of study.
3. Demonstrates understanding of the primary field of study in a historical, social, or global context.
4. Selects and/or utilizes the most appropriate methodologies and practices.
5. Evaluates or synthesizes information pertaining to questions or challenges in the field of study.
6. Communicates clearly in ways appropriate to the field of study.
7. Possesses an advanced competency in a Nordic language and a serviceable master of an additional research language.
8. Recognizes and applies principles of ethical and professional conduct.

PEOPLE

Faculty: Professors Brantly, DuBois, and Wolf; Associate Professor Krouk; Assistant Professors Andersen, Roos, and Mier-Cruz; Faculty Associate Mellor

SCANDINAVIAN STUDIES, PH.D.

The Ph.D. degree is offered in the fields of literature, folklore, and philology. The basic requirements for all students entering the Ph.D. program correspond to the requirements for the M.A. degree in Scandinavian Studies with concentration in literature, area studies, or philology, as appropriate. Every incoming graduate student should consult with the general graduate advisor upon arrival at UW–Madison. They will discuss the student's academic and career plans, and between them will decide which faculty member will most appropriately act as a committee chair.

Scandinavian Studies is the oldest such department in the Americas, tracing its roots to 1875. Department faculty have received numerous awards and other marks of recognition for their teaching and scholarship. The department offers the master of arts and the doctor of philosophy in Scandinavian Studies. A doctoral minor is also available. The program offers the possibility to attain a broad education in Scandinavian culture that has proven to be extremely useful in students' professional careers. Students will become well-versed in theory and methodology as well as in cultural history. The department possesses particular strengths in Scandinavian literature, Old Norse philology, and Nordic folklore. Within these broader categories, students may pursue interests in such topics as mythology, Sámi studies, saints' lives, modernism, sagas, gender criticism, immigration studies, national identity—to name only a few. Languages offered in the department include Danish, Finnish, Icelandic, Norwegian, Sámi, and Swedish. The department has an excellent record of placing its Ph.D. graduates in good positions in the field.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 2
Spring Deadline	November 15
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).

Other Test(s) (e.g., GMAT, MCAT) n/a

Letters of Recommendation Required 3

Students applying directly for the Ph.D. program should have an M.A. in a related field. New Ph.D. students will be expected to acquire competencies equivalent to the M.A. in Scandinavian Studies, and this will be assessed at the time of the preliminary exam.

As in the case of admissions to the M.A. program, applicants should have a B.A. degree from an approved institution, a major in a field of humanities or social studies, and an outstanding record. In ordinary circumstances, graduate students entering the program with a B.A. will be required to take the M.A. before they can proceed to the Ph.D. Applicants are expected to have preparation equivalent to an undergraduate major in Scandinavian Studies at UW–Madison and should preferably either have taken three years of a Scandinavian language or must demonstrate (by examination) equivalent competence in one Scandinavian language or Finnish. A GPA of 3.25 (on a 4.0 scale) is required for admission; students with a GPA below 3.25 but above 3.00 may be considered for admission on probation. A writing sample (in English or a Scandinavian language) is required.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

The department has a number of scholarships, fellowships, teaching assistantships, and readerships at its disposal and makes a serious effort to provide qualified students with adequate financial assistance and teaching experience throughout their graduate careers.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum
Credit
Requirement 51 credits

Minimum
Residence
Credit
Requirement 32 credits

Minimum
Graduate
Coursework
Requirement 26 credits credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (<https://policy.wisc.edu/library/UW-1244> (<https://policy.wisc.edu/library/UW-1244/>)).

Overall
Graduate
GPA
Requirement 3.5 GPA required.

Other Grade
Requirements Ph.D. candidates should maintain a 3.5 GPA in all courses. If a student's grades drop below the average indicated, the GPA must be brought up to the minimum by the end of the following semester.

The grade C is regarded as unsatisfactory.

Incompletes must be removed within the following semester or summer session of residence.

Assessments
and
Examinations All Ph.D. tracks require a comprehensive written and oral examination. All tracks require a dissertation.

Language
Requirements Unless already completed for the UW–Madison Scandinavian Studies MA requirements, all tracks require an advanced competency in a modern Scandinavian language. If the modern Scandinavian Language is Finnish or Icelandic, a working knowledge of Norwegian, Swedish, or Danish is required.

For all tracks a minimal competency in German and another research language approved by the department is required in German or another research language.

The philology track requires two semesters of Old Norse. For the literature track a competency in Old Norse is encouraged.

Graduate
School
Breadth
Requirement All doctoral students are required to complete a doctoral minor or Graduate/Professional certificate of at least 9 credits in another field. These courses should be selected in consultation with the candidate's advisor.

REQUIRED COURSES

Each track has specific course requirements to be met.

Literary and Cultural Studies Pathway¹

Code	Title	Credits
<i>Required courses (if not already taken as part of the MA degree):</i>		
SCAND ST 401	Contemporary Scandinavian Languages	3
<i>Select one of the following:</i>		3-4
SCAND ST/ MEDIEVAL 407	Introductory Old Norse	
SCAND ST/ MEDIEVAL 430	The Vikings	
SCAND ST/ LITTRANS 435	The Sagas of Icelanders in English Translation	
<i>Select one of the following:</i>		3
SCAND ST/ HISTORY 431	History of Scandinavia to 1815	
SCAND ST/ HISTORY 432	History of Scandinavia Since 1815	
SCAND ST/ HISTORY 577	Contemporary Scandinavia: Politics and History ²	
<i>Select one of the following, depending on individual circumstances and determined in consultation with the graduate advisor:</i>		3
SCAND ST 901	Seminar in Special Topics ²	
SCAND ST 634	Survey of Scandinavian Literature: 1500-1800	
SCAND ST 635	Survey of Scandinavian Literature: 1800-1890	
<i>Professional development:</i>		3
GNS 700	Graduate Seminar in Professional Development	
<i>Breadth Requirement</i>		9
<i>Electives beyond the M.A.</i>		12

Students consult with their advisor to select courses 300+. Recommended courses may be found below. If a student enters the PhD program with an MA from another program, then additional classes may be required in order for the candidate to attain a sufficiently broad background in Scandinavian Studies. 990 does not count toward elective credits.

<i>Remaining credits to meet minimum credit requirement</i>	14-15
May include 990 research credits.	
Total Credits	51

Recommended courses:

SCAND ST 419	Scandinavian Children's Literature
SCAND ST 422	The Drama of Henrik Ibsen
SCAND ST 423	The Drama of August Strindberg
SCAND ST 424	Nineteenth-Century Scandinavian Fiction
SCAND ST 426	Kierkegaard and Scandinavian Literature
SCAND ST 427	Contemporary Scandinavian Literature
SCAND ST/ LITTRANS 428	Memory and Literature from Proust to Knausgard
SCAND ST 434	The Art of Isak Dinesen/Karen Blixen
SCAND ST/ FOLKLORE/ MEDIEVAL 446	Celtic-Scandinavian Cultural Interrelations
SCAND ST 450	Scandinavian Decadence in its European Context

1

These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

2

Students must take SCAND ST/HISTORY 577 and SCAND ST 901 for 3 credits to count toward these requirements.

Philology Pathway¹

Code	Title	Credits
<i>Required courses (if not already taken as part of the MA degree):</i>		
SCAND ST/ MEDIEVAL 407	Introductory Old Norse	3
SCAND ST/ MEDIEVAL 408	Intermediate Old Norse	3
SCAND ST 511	Paleography and Philology - Old Norse	3
<i>Select one of the following:</i>		
SCAND ST 415	History of the Scandinavian Languages II: Standard Languages	3
SCAND ST 510	Topics in Scandinavian Linguistics	3
SCAND ST/ MEDIEVAL 409	Survey of Old Norse-Icelandic Literature	3
<i>Professional development:</i>		
GNS 700	Graduate Seminar in Professional Development	3

<i>Breadth Requirement</i>	9
<i>Electives beyond the M.A.</i>	12

Students consult with their advisor to select courses 300+. In ordinary circumstances, graduate students entering the program with a B.A. will be required to take the M.A. before they can proceed to the Ph.D.

<i>Remaining credits to meet minimum credit requirement</i>	15
May include 990 research credits.	

Total Credits	51
----------------------	-----------

1

These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Folklore Pathway¹

Code	Title	Credits
In consultation with their advisors, graduate students should select a suite of courses that provide a detailed knowledge of the folklore of one Nordic culture and a general knowledge of Nordic folklore more generally, as well as a firm command of the folklore of Nordic Americans. Familiarity with the history, institutions and cultural history of the Nordic countries is fundamental to the degree. Students consult with their advisor to select courses 300+. Recommended courses may be found below. 990 may count toward total minimum credit requirements.		39

<i>Professional development:</i>		3
GNS 700	Graduate Seminar in Professional Development	

<i>Option B doctoral minor focusing on folklore, which must include FOLKLORE/L IS 490</i>	9
---	---

Total Credits	51

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

This program follows the Graduate School's policy for Satisfying Requirements with Coursework from Undergraduate Career at UW–Madison. (<https://policy.wisc.edu/library/UW-1216/>)

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

If a student at any time fails to meet the criteria for satisfactory progress in the Graduate Program Handbook, they are placed on probation. If, by the end of the following semester, progress has not been brought to a satisfactory level, a committee of three faculty members will be established to determine whether any circumstance exists that prevent the dropping of the student from the program.

ADVISOR / COMMITTEE

In order to encourage progress toward the degree and to determine the status of a student's program, the department requests an annual activities report from all continuing students to be submitted at the end of January. In the case of first-year students, this report will, of course, only cover work done during the fall semester. A copy of this report will be placed in the student's permanent file. Students are expected to consult regularly on their progress with their advisor.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and

conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)

- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates research problems, potentials, and limits with respect to theory, knowledge, or practice within the field of study.
2. Formulates ideas, concepts, and techniques beyond the current boundaries of knowledge within the field of study.
3. Creates research and scholarship that makes a substantive contribution.
4. Demonstrates breadth within their learning experiences.
5. Advances contributions of the field of study to society.
6. Communicates complex ideas in a clear and understandable manner.
7. Possesses an advanced competency in a Nordic language and a serviceable mastery of one or more research languages.
8. Fosters ethical and professional conduct.

PEOPLE

SLAVIC LANGUAGES AND LITERATURES, M.A.

Slavic languages and literature at the University of Wisconsin–Madison is a national leader of doctoral programs in the field, and welcomes students with a B.A./B.S. or M.A. who are interested in all areas of Russian and comparative Slavic prose, poetry, drama, and philosophy. The curriculum offers breadth and depth in a variety of areas of Slavic philology, literature, and culture, and is known for offering a balanced approach to training in teaching, writing, and research.

The program is fortunate to count among its faculty, specialists in Czech, Polish, Russian, and Serbo–Croatian languages, literature, and culture, award-winning authors and teachers, and members of editorial boards of leading journals and publication series. Information regarding faculty biographical sketches are available on the program website. In addition to their excellence in teaching and research, professors are unparalleled mentors to graduate students. Students work closely with faculty members on writing, teaching, and publishing. Graduate students are expected to produce publishable articles during their graduate careers, and are provided the guidance and feedback to do so.

The department places high expectations on graduate students to achieve and maintain professional-level proficiency in the Russian language in all four modalities: speaking, writing, listening, and reading. All students who are not native speakers of Russian will be tested in those modalities—plus Russian grammar—when they enter the program, and periodically throughout their tenure. Appropriate competency must be demonstrated before receiving a teaching assistantship and before passing from M.A. to Ph.D. candidacy.

Graduate students in the program receive exceptional training in teaching both language and literature. The department has a thriving undergraduate program in Slavic languages with strong enrollments in language, literature and culture, providing many opportunities for teaching experience, working closely with master teachers among the faculty and academic staff. In addition to teaching assignments in first-through fourth-semester Russian language (and occasionally in other Slavic languages), as well as in the two-semester undergraduate survey of Russian literature course, the department has also instituted an apprenticeship program for adequately prepared graduate students in the teaching of advanced literature and language classes. The program's graduate teaching assistants regularly win prestigious campus awards for their excellence in the classroom.

Please note that the Slavic department does not typically award a terminal M.A. degree. Rather, the M.A. is earned as part of studies toward the Ph.D. (p. 915). Students who are admitted already holding an M.A. in Slavic from another institution are required to complete a qualifying exam no later than the first semester in residence, or to fulfill all UW–Madison M.A. requirements as well.

ADMISSIONS

This master's program is offered for work leading to the Ph.D. Students may not apply directly for the master's, and should instead see the admissions information for the Ph.D. (p. 915)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Most students receive funding for multiple years in the form of fellowships, teaching assistantships or project assistantships. These positions include a stipend as well as tuition remission and a generous health plan. Additional hourly employment is also often available.

Students are typically admitted with four- to five-year funding guarantees contingent on satisfactory progress and ability to perform assigned responsibilities well. Funding packages combine fellowships, teaching assistantships and project assistantships at the level of at least 33.3%. All such positions include a stipend as well as tuition remission and a generous health plan. Funding beyond the initial guarantee period is often available for one or two years.

See the program website (<https://gns.wisc.edu/>) and the Graduate School's funding information page (<http://grad.wisc.edu/studentfunding/>) for more information.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	30 credits
Minimum Graduate Coursework Requirement	20 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.6 GPA required.
Other Grade Requirements	n/a
Assessments and Examinations	<p>Passing grades (no lower than B) on three of the program's six written Foundation examinations in the history of Russian literature (linked to courses SLAVIC 701 Survey of Old Russian Literature, SLAVIC 702 Eighteenth-Century Russian Literature, SLAVIC 703 Foundations in Russian Romanticism, SLAVIC 707 Foundations in Russian Realism (~1840-1890s), SLAVIC 708 Foundation in Russian Modernism (~1890s-1930s), SLAVIC 709 Foundation in Soviet, Emigre, and Post-Soviet Literature (~1930-present)); exams may be taken irrespective of enrollment in the courses.</p> <p>Passing at least three out of five Russian language proficiency examinations in reading, writing, speaking, listening, and grammar. Passing level for the first four exams: Advanced Low on ACTFL scale; passing score for grammar test: 80%.</p> <p>A Gateway exercise: the full faculty review of student's progress to date and assessment of potential to succeed in the Ph.D. track is conducted upon the award of the M.A. At least one senior faculty member must express willingness ultimately to serve as dissertation advisor. Students who do not pass the Gateway exercise may not continue for Ph.D.</p>
Language Requirements	For Russian language proficiency requirements see "Assessments and Examinations."

REQUIRED COURSES

Code	Title	Credits
SLAVIC 800	Proseminar-Slavic Literature and Culture	1

<i>Select at least two of the following:</i>		4-5
SLAVIC 801	Slavic Critical Theory and Practice	
SLAVIC 802	The Structure of Russian	
SLAVIC 804	Methods of Teaching Slavic Languages	
<i>Seminar requirement</i>		
SLAVIC 900	Seminar: Slavic Literature and Culture	3
SLAVIC 900	Seminar: Slavic Literature and Culture	3
<i>Electives</i>		18-19
Additional credits to reach 30 taken in consultation with advisor. Additional enrollments in SLAVIC 900 above the 6-credit requirement may count toward electives.		
Total Credits		30

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES PRIOR COURSEWORK

Graduate Work from Other Institutions

Students are not allowed to count graduate coursework from other institutions to fulfill degree requirements.

UW-Madison Undergraduate

With program approval, up to 7 credits numbered 700 and above taken in the Slavic program while pursuing a UW-Madison undergraduate degree are allowed to count toward the degree. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison University Special

With program approval, students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW-Madison special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

A semester GPA below 3.25 will result in the student being placed on academic probation. If a semester GPA of 3.25 is not attained during the subsequent semester of full time enrollment the student may be dismissed from the program.

ADVISOR / COMMITTEE

All students meet with graduate advisor once a semester (in November and April) to discuss their progress and to plan their coursework for the subsequent semester.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. (Critical Thinking and Writing Skills) Demonstrate: analytic, interpretive, and critical thinking skills; knowledge of research protocols; and understanding of the specificity of the literary object as well as its historical and cultural context.
2. Develop broad knowledge of Russian literary history, the major writers and movements, from the origins to the present day. Demonstrate this knowledge in relation to periods and movements, courses in which are offered during their time in the program. These include: Old Russian Literature; 18th-Century Russian Literature; Romanticism (ca. 1790s to 1840s); Realism (ca. 1840s to 1890s); Modernism (ca. 1890s to 1920s); Soviet, Emigre, and Post-Soviet Periods (ca. 1930s to the present).
3. (Language proficiency) Demonstrate Advanced Russian language proficiency on the ACTFL (American Council on the Teaching of Foreign Languages) scale across three modalities (speaking, listening, reading, or writing). Demonstrate advanced knowledge of the structure of contemporary Russian.
4. Recognize and apply principles of ethical and professional conduct in the context of Slavic studies.

PEOPLE

SLAVIC LANGUAGES AND LITERATURES, PH.D.

Slavic languages and literature at the University of Wisconsin–Madison is a national leader of doctoral programs in the field, and welcomes students with a B.A./B.S. or M.A. who are interested in all areas of Russian and comparative Slavic prose, poetry, drama, and philosophy. The curriculum offers breadth and depth in a variety of areas of Slavic philology, literature, and culture, and is known for offering a balanced approach to training in teaching, writing, and research.

The program is fortunate to count among its faculty, specialists in Czech, Polish, Russian, and Serbo-Croatian languages, literature, and culture, award-winning authors and teachers, and members of editorial boards of leading journals and publication series. Information regarding faculty biographical sketches are available on the program website. In addition to their excellence in teaching and research, professors are unparalleled mentors to graduate students. Students work closely with faculty members on writing, teaching, and publishing. Graduate students are expected to produce publishable articles during their graduate careers, and are provided the guidance and feedback to do so.

The department places high expectations on graduate students to achieve and maintain professional-level proficiency in the Russian language in all four modalities: speaking, writing, listening, and reading. All students who are not native speakers of Russian will be tested in those modalities—plus Russian grammar—when they enter the program, and periodically throughout their tenure. Appropriate competency must be demonstrated

before receiving a teaching assistantship and before passing from M.A. to Ph.D. candidacy.

Graduate students in the program receive exceptional training in teaching both language and literature. The department has a thriving undergraduate program in Slavic languages with strong enrollments in language, literature and culture, providing many opportunities for teaching experience, working closely with master teachers among the faculty and academic staff. In addition to teaching assignments in first-through fourth-semester Russian language (and occasionally in other Slavic languages), as well as in the two-semester undergraduate survey of Russian literature course, the department has also instituted an apprenticeship program for adequately prepared graduate students in the teaching of advanced literature and language classes. The program's graduate teaching assistants regularly win prestigious campus awards for their excellence in the classroom.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 2
Spring Deadline	January 2*
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required but may be considered if available.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

* Spring start admissions is only open for re-admission of continuing students. New applicants should only apply for the Fall semester start.

For admission to the graduate program, the Slavic department requires the equivalent of a B.A. degree in Russian and a GPA of at least 3.0 on a 4.0 scale. Students who have carried out graduate work at another institution must have a graduate GPA of 3.25. Official TOEFL (where applicable) scores are required.

Experience has shown that students who have spent at least a semester studying in Russia are best prepared to carry on graduate-level study in Russian. Students who are admitted with deficiencies, especially in Russian, are required to make up such deficiencies.

Note that we do not admit students seeking a terminal M.A. Prospective students who are interested in a terminal master's degree are encouraged to consider the interdisciplinary master's degree in Russian, East European, and Central Asian Studies (p. 1103) (REECAS) through the Center for Russia, Eastern Europe and Central Asia (CREECA).

Applications for admission to the graduate program in Russian literature are accepted at any time, but only complete applications received by January 2 will be considered for fellowships and other forms of funding for the following fall semester. More information regarding graduate program admission may be found on the program website (<https://gns.wisc.edu/slavic-graduate-program/#degrees>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Most students receive funding for multiple years in the form of fellowships, teaching assistantships or project assistantships. These positions include a stipend as well as tuition remission and a generous health plan. Additional hourly employment is also often available.

Students are typically admitted with four- to five-year funding guarantees contingent on satisfactory progress and ability to perform assigned responsibilities well. Funding packages combine fellowships, teaching assistantships and project assistantships at the level of at least 33.3%. All such positions include a stipend as well as tuition remission and a generous health plan. Funding beyond the initial guarantee period is often available for one or two years.

See the program website (<https://gns.wisc.edu/>) and the Graduate School's funding information page (<http://grad.wisc.edu/studentfunding/>) for more information.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement	51 credit (including Master's credits, but excluding dissertator credits)
Minimum Residence Credit Requirement	51 credit (including master's credits, but excluding dissertator credits)
Overall Graduate Coursework Requirement	For students who completed their M.A. degree at another institution and who confirmed their M.A. degree in the department by passing a qualifying examination during their first semester of study: 36 credits (excluding dissertator credits).
Minimum Graduate Coursework Requirement	34 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244).
Overall Graduate GPA Requirement	3.6 GPA required
Other Grade Requirements	n/a

Assessments and Examinations Passing grades (no lower than B) on all six written Foundation examinations in the history of Russian literature by the end of the sixth semester of coursework (including those passed as an M.A. student). For students admitted with M.A. degree same requirements need to be fulfilled by the end of their fourth semester.

Passing all five Russian language proficiency examinations (including those passed as an M.A. student) by the end of the sixth semester (end of the fourth semester for students admitted with M.A. degree).

Review of a capstone dossier (all six Foundation examinations and two major seminar papers) by the graduate faculty in the beginning of the seventh semester in the program (fifth semester for students admitted with M.A. degree).

Passing oral examination (defense of a dissertation proposal) by the end of the seventh semester in the program (fifth semester for students admitted with M.A. degree).

Defense of Ph.D. dissertation.

Language Requirements For Russian language proficiency requirements see "Assessments and Examinations."

Knowledge equivalent to two years of college-level study of either 1) French or German OR 2) a second Slavic language. Must be demonstrated through coursework or placement test/examination.

In well-grounded cases, when a different language is necessary for student's research, it may be counted towards fulfillment of language requirement. A student will submit a respective petition to DGS, which will be discussed and decided upon by all Slavic graduate faculty.

Breadth Requirement All doctoral students are required to complete a doctoral minor or a Graduate/Professional certificate.

REQUIRED COURSES

Students entering without a master's must complete the courses required for the M.A. (p. 913) Students entering with a master's may have some course requirements waived; please consult the program.

Code	Title	Credits
<i>MA Required Courses</i>		30

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

Students are generally not allowed to count graduate coursework from other institutions to fulfill degree requirements. Exceptions are students who are admitted to pursue a Ph.D. degree after completing their M.A. degree at another institution, and who confirmed their M.A. degree in the department by passing a qualifying examination. For such students, up to 15 credits of M.A. coursework counts toward Ph.D. degree requirements. Up to 9 credits of prior graduate coursework may be counted toward the Doctoral Minor requirement (Option B -- Distributed Minor). Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, up to 7 credits numbered 700 and above taken in the Slavic department while pursuing a UW–Madison undergraduate degree are allowed to count toward the degree. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison special student. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

A semester GPA below 3.25 will result in the student being placed on academic probation. If a semester GPA of 3.25 is not attained during the subsequent semester of full time enrollment the student may be dismissed from the program.

ADVISOR / COMMITTEE

Prior to being admitted to candidacy, all students meet with graduate advisor once a semester (in November and April) to discuss their progress and to plan their coursework for the subsequent semester.

No later than by the end of their sixth semester students choose their dissertation advisor.

After being admitted to candidacy, all students are required to submit brief written yearly progress reports to their thesis committee by the end of January.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

Students must fulfill all coursework requirements and pass oral examination by the end of the seventh semester in the program (fifth semester for students admitted with M.A. degree).

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

- (Critical Thinking and Writing Skills) Demonstrate: analytic, interpretative, and critical thinking skills; knowledge of research protocols; and understanding of the specificity of the literary object as well as its historical and cultural context.
- (Literature) Develop comprehensive knowledge of Russian literary history, the major writers and movements, from the origins to the present day. Demonstrate this knowledge in relation to the following periods and movements: Old Russian Literature; 18th-Century Russian Literature; Romanticism (ca. 1790s to 1840s); Realism (ca. 1840s to 1890s); Modernism (ca. 1890s to 1920s); Soviet, Emigre, and Post-Soviet Periods (ca. 1930s to the present).
- (Language proficiency) Demonstrate Advanced Russian language proficiency on the ACTFL (American Council on the Teaching of Foreign Languages) scale across all modalities (speaking, listening, reading, writing). Demonstrate advanced knowledge of the structure of contemporary Russian. Develop, at minimum, reading proficiency in languages essential for research in the field, including a second Slavic language and either French or German.
- (Ph.D. Minor) Demonstrate intellectual breadth and the ability to synthesize cross-cultural and interdisciplinary perspectives through the completion of a doctoral minor.
- (Ph.D. Dissertation) A successful Ph.D. candidate will have written a dissertation that synthesizes knowledge of relevant disciplines and develops it to create an original contribution to scholarship. The candidate will be able to present the results of her or his research both to experts in the field as well as to a wider public.
- (Teacher-Trainer) Demonstrate, both in theory and through instructional practice, foundational knowledge of second-language teaching, including the concepts of proficiency-oriented instruction and communicative language teaching; principles behind the design, integration, and delivery of classroom instruction and appropriate assessment instruments for all four modalities (speaking, listening, reading, writing), structure, and culture.
- Recognize, apply, and foster principles of ethical and professional conduct in the context of Slavic studies.

- Special Graduate Committee, Ph.D. (p. 941)

BIOPHYSICS, DOCTORAL MINOR

Students enrolled in a UW–Madison doctoral program can pursue a doctoral minor in biophysics. The doctoral minor offers substantial training in biophysics. A doctoral minor in biophysics can serve as supplement to training in a broad range of disciplines in which physics, physical chemistry, biology, and medicine intersect. The biophysics minor will give students a rigorous understanding of quantitative approaches to physical and chemical problems in the life sciences. Course offerings that provide pedagogical instruction to biophysics students serve as the basis for the biophysics minor.

BIOPHYSICS, M.S.

Students are not admitted into the Biophysics Program for a terminal master's degree. However, a master's degree is officially offered. For more information, see the Biophysics Handbook (<http://www.biophysics.wisc.edu/handbook/>).

The doctor of philosophy degree with a major in biophysics is an interdepartmental offering under the supervision of the biophysics program committee. The biophysics degree is intended for those who wish to emphasize physical principles and methods in solving biological problems. By necessity, the interdisciplinary nature of biophysics generates interaction among, and expands the boundaries of, traditional areas of science. Persons with strong training in biophysics can be expected to be major innovators and contributors in research and applied technology. Biophysics graduates pursue careers in academic, industrial, and government research, and in teaching and administration.

The biophysics program consists of 44 faculty members from 14 departments that span four colleges within the university. State-of-the-art facilities are available within the biophysics program for research in x-ray crystallography, nuclear magnetic-resonance spectroscopy, electron resonance spectroscopy, fluorescence spectroscopy, microscopy and imaging, and computational chemistry. Graduate students in biophysics can choose from an expansive range of research topics including, but not limited to, biomolecular structure and function interactions, protein engineering and biotechnology, virus structure and function, enzyme catalysis and kinetics, membranes, neurochemistry, and electrophysiology.

The program is flexible in its formal course requirements and emphasizes excellence in research. The candidate is encouraged to begin research as quickly as possible, since it is research experience that brings focus and meaning to classroom studies, and research progress that empowers critical judgment and self-confidence for independent work. To enhance self-confidence, students are expected to participate in weekly seminars and to present a seminar.

Financial assistance is available to support qualified graduate students throughout their graduate studies. Types of graduate appointments that may be awarded include research assistantships, fellowships, and

traineeships. The stipends awarded provide financial support to students during their graduate work, permitting them to devote their efforts to coursework and research. In recognition of the leadership provided by scientists and researchers at University of Wisconsin–Madison, the National Institutes of Health (NIH) have funded a predoctoral training grant in molecular biophysics for the past consecutive 20 years.

ADMISSIONS

This master's program is offered for work leading to the Ph.D. Students may not apply directly for the master's, and should instead see the admissions information for the Ph.D (p. 925).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's GPA Requirement policy (https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/)).
Other Grade Requirements	Credits are not counted from courses in which a grade of BC or below is obtained for the Biophysics core courses. In the event of an unsatisfactory grade, the student must repeat the course and obtain a grade of B or better if they want to count the class towards their Biophysics GPA and course requirements.
Assessments and Examinations	Students take two rounds of exams in order to achieve dissertator status. At the end of students' second year, they are required to take their written preliminary exam. Once this exam is passed, students must take their preliminary exam by the end of their third year.
Language Requirements	No language requirements.

REQUIRED COURSES

The following coursework is completed on the way to earning the Biophysics Ph.D. and is the minimum required for the master's:

Code	Title	Credits
Required by the time oral prelim is taken:		
BIOCHEM/ CHEM 665	Biophysical Chemistry	4
CHEM 668	Biophysical Spectroscopy ¹	3
Biophysics Additional Courses²		6

Students must take at least 2 additional classes from different categories from the following list of classes (alternative classes may be substituted with approval from the Biophysics Program Steering Committee):

<i>Structure</i>		
BIOCHEM 601	Protein and Enzyme Structure and Function	
BIOCHEM 625	Mechanisms of Action of Vitamins and Minerals	
CHEM 622	Organic Analysis	
CHEM 675	Introductory Quantum Chemistry	
ONCOLOGY 673	Purification and Characterization of Protein and Protein Complexes	
<i>Modeling</i>		
CHEM 661	Chemical and Statistical Thermodynamics	

MATH/B M I/ BIOCHEM/ BMOLCHEM 609	Mathematical Methods for Systems Biology
<i>Molecular Biology</i>	
BIOCHEM/ GENETICS/ MICROBIO 612	Prokaryotic Molecular Biology
BIOCHEM/ GENETICS/ MD GENET 620	Eukaryotic Molecular Biology
<i>Neuroscience</i>	
NTP/ NEURODPT 610	Cellular and Molecular Neuroscience
<i>Spectroscopy/Microscopy</i>	
B M E/ MED PHYS/ PHMCOL- M/PHYSICS/ RADIOL 619	Microscopy of Life
B M E 751	Biomedical Optics and Biophotonics
CHEM 860	Selected Topics in Physical Chemistry (Topic: Spectroscopy of Individual Molecules and Particles)
BIOCHEM 729	Advanced Topics (Topic: Advanced Topics in NMR)
<i>Computational Courses</i>	
ONCOLOGY 778	Bioinformatics for Biologists
B M I/ COMP SCI 776	Advanced Bioinformatics

Specialty Courses

To fulfill the remainder of required credits, students can take specialty courses. It is recommended to take courses in areas such as biotechnology, computer science, electrical and computer engineering, molecular biology, or physics. Students should consult with their Thesis Advisor and thesis committee members about appropriate specialty courses to take pertaining to individual training goals.

Total Credits **30**

1

Because CHEM 668 Biophysical Spectroscopy is only offered every other year, students will be advised upon joining the program in which semester they must complete the course. This course must be taken for 3 credits.

2

To meet the 6 credit minimum, all elective courses must be at least 2 credits. That means that students can, for example, take two 3-credit courses, three 2-credit courses, or one 2-credit and one 4-credit course to satisfy this requirement. The above list of courses have all been approved as elective courses by the Biophysics Steering Committee. If you are interested in a different course, in order for it to count as an elective course towards your Biophysics graduate degree, the course needs to be approved by the Steering Committee. Please email the coordinator at biophysics@bocklabs.wisc.edu a syllabus from the course and a short paragraph detailing why the class is relevant to your research.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned more than two years prior to admission to the doctoral degree is not allowed to satisfy requirements. No admissions are made into the master's program.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison Special student. Coursework earned more than two years prior to admission to the doctoral degree is not allowed to satisfy requirements. No admissions are made into the master's program.

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

All students are required to have an advisor by the end of their first semester in the program. Thesis committees must be formed prior to their preliminary exam. The committee consists of at least four other faculty members and the student's advisor. After gaining dissertator status, students are required to hold yearly progress report meetings with their committee until graduation.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)

- Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

Fall semester enrollment only. First semester, program-sponsored lab rotations lead to thesis lab selection and research assistantship through the thesis advisor.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates, critiques, or elaborates the theories, research methods, and approaches to inquiry or schools of practice in the field of study.
2. Identifies sources and assembles evidence pertaining to questions or challenges in the field of study.
3. Understands the primary field of study in a historical, social or global context.
4. Selects and/or utilizes the most appropriate methodologies and practices.
5. Evaluates or synthesizes information pertaining to questions or challenges in the field of study.
6. Communicates clearly in ways appropriate to the field of study.
7. Recognizes and applies principles of ethical conduct.

BIOPHYSICS, PH.D.

The doctor of philosophy degree with a major in biophysics is an interdepartmental offering under the supervision of the Biophysics Graduate Degree Program. The biophysics degree is intended for those who wish to emphasize physical principles and methods in solving biological problems. By necessity, the interdisciplinary nature of biophysics generates interaction among, and expands the boundaries of, traditional areas of science. Persons with strong training in biophysics can be expected to be major innovators and contributors in research and applied technology. Biophysics graduates pursue careers in academic, industrial, and government research, and in teaching and administration.

The Biophysics Program consists of approximately 56 faculty members from 14 departments that span four colleges within the university. State-of-the-art facilities are available within the Biophysics Program for research in x-ray crystallography, nuclear magnetic-resonance spectroscopy, electron resonance spectroscopy, fluorescence spectroscopy, microscopy and imaging, and computational chemistry. Graduate students in biophysics can choose from an expansive range of research topics including, but not limited to, biomolecular structure and function interactions, protein engineering and biotechnology, virus structure and function, enzyme catalysis and kinetics, membranes, neurochemistry, and electrophysiology.

The program is flexible in its formal course requirements and emphasizes excellence in research. The candidate is encouraged to begin research as quickly as possible, since it is research experience that brings focus and meaning to classroom studies, and research progress that empowers critical judgment and self-confidence for independent work. To enhance self-confidence, students are expected to participate in weekly seminars and to present a seminar.

Financial assistance is available to support qualified graduate students throughout their graduate studies. Types of graduate appointments that may be awarded include research assistantships, fellowships, and traineeships. The stipends awarded provide financial support to students during their graduate work, permitting them to devote their efforts to coursework and research. In recognition of the leadership provided by scientists and researchers at University of Wisconsin–Madison, the

National Institutes of Health (NIH) have funded a predoctoral training grant in molecular biophysics for the past consecutive 20 years.

For more information, see the Biophysics Handbook (<https://biophysics.wisc.edu/resources/>).

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required but may be considered if available.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Undergraduate preparation for the Biophysics Program can vary widely and will be evaluated by the admissions committee on an individual basis. Most applicants have taken courses in general, organic, and physical chemistry; introductory physics; cell and/or molecular biology; calculus through differential equations; and computer sciences. Students can generally make up any deficiencies in their undergraduate background within the first year of graduate study through a broad and flexible course curriculum. The normal undergraduate course prerequisites are:

- two semesters of physics with calculus
- two semesters of calculus
- two semesters of organic chemistry
- one semester of physical chemistry
- one semester of computer sciences
- one semester of statistics
- introduction to biology

Exceptions to these requirements may be granted for incoming biophysics graduate students who otherwise have strong undergraduate training in physics, mathematics, computer sciences, biology, chemistry, or other fields related to biophysics. In such cases, each missing required course

will be counted as a deficiency that the student must correct by obtaining a passing grade in an equivalent undergraduate or graduate course taken within the first two years of graduate study.

In addition, it is recommended for entering graduate students to have taken undergraduate courses in general biochemistry; general genetics and/or molecular biology; and biophysical chemistry. Students who have not taken courses in these subjects will be expected to do so as part of their formal graduate coursework.

Admission to the biophysics Ph.D. program is highly competitive. A committee of biophysics faculty trainers reviews each application and invites selected students for personal interviews in February. Outstanding international students will be offered video-conferencing interviews with members of the admissions committee. Final admissions decisions are made after all interviews are completed. An application for admission consists of:

1. A resume or CV
2. A personal statement that discusses a candidate's reasoning for pursuing a biophysics Ph.D. What initially drew you to the field? How will earning a Ph.D. help you accomplish your goals?
3. An official transcript of coursework from all undergraduate institutions attended
4. Three or more letters of recommendation
5. A report, if submitting, from the Educational Testing Service of scores received on the GRE General Test
6. A report, if appropriate, of scores received on the TOEFL English language proficiency exam or an appropriate alternative (IELTS, MELAB)

The admissions committee highly weighs the personal statement and letters of recommendation when reviewing applicants. GPA values are evaluated to ensure they meet minimum graduate school requirements (<https://grad.wisc.edu/apply/requirements/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

The Biophysics Graduate Degree Program offers stipends in the form of traineeships or research assistantships to all Ph.D. candidates and assists those with outstanding records in competing for University and national awards (fellowships). The program guarantees a full stipend (\$33,000 for 2023–24) for all its Ph.D. candidates who remain in good standing in the program. In addition to the stipend, all students receive tuition remission and are eligible for comprehensive health insurance.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	26 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244) (https://policy.wisc.edu/library/UW-1244/).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's GPA Requirement policy (https://policy.wisc.edu/library/UW-1203) (https://policy.wisc.edu/library/UW-1203/).
Other Grade Requirements	Credits are not counted from courses in which a grade of BC or below is obtained for the Biophysics core courses. In the event of an unsatisfactory grade, the student must repeat the course and obtain a grade of B or better if they want to count the class towards their Biophysics GPA and course requirements.

Assessments and Examinations Students are required to complete an oral preliminary exam. The oral exam should be completed no later than the end of the student's third fall semester in the program. This exam consists of an oral defense of a written research proposal. The format of the research proposal is based on the format for an NIH F31 predoctoral grant application. If the student feels they need more time to complete the oral exam, they must request an extension from the Biophysics Office.

Language Requirements No language requirements.

Breadth Requirement No doctoral minor or Graduate/Professional certificate required.

Required Courses

Code	Title	Credits

Computational Courses

ONCOLOGY 778	Bioinformatics for Biologists
--------------	-------------------------------

B M I/ COMP SCI 776	Advanced Bioinformatics
------------------------	-------------------------

Ethics Course 1-3

BIOCHEM 729	Advanced Topics (Ethics) ³
-------------	---------------------------------------

Seminar Courses

CHEM/ BIOCHEM 872	Selected Topics in Macromolecular and Biophysical Chemistry
----------------------	---

Students are required to participate in seminar courses for the duration of their studies. Initially, all students are required to enroll in CHEM/BIOCHEM 872 (Topic: Macromolecular and Biophysical Chemistry) for both fall and spring semesters. Once a student has successfully achieved dissertator status, they are eligible to enroll in alternative seminars with permission from the program.

Specialty Courses

To fulfill the remainder of required credits, students can take specialty courses. It is recommended to take courses in areas such as biotechnology, computer science, electrical and computer engineering, molecular biology, or physics. Students should consult with their Thesis Advisor and thesis committee members about appropriate specialty courses to take pertaining to individual training goals.

Research Credits

Finally, all students are expected to register for 990 research credits every semester. These are the courses in which students will be conducting their independent research. First semester students will register for 990 research credits in the department of the Biophysics Program Chair. Once a thesis lab is chosen, these credits will be conducted in the thesis advisor's home department.

Total Credits 51

1

Because CHEM 668 Biophysical Spectroscopy is only offered every other year, students will be advised upon joining the program in which semester they must complete the course. This course must be taken for 3 credits.

2

To meet the 6 credit minimum, all elective courses must be at least 2 credits. That means that students can, for example, take two 3-credit courses, three 2-credit courses, or one 2-credit and one 4-credit course to satisfy this requirement. The above list of courses have all been approved as elective courses by the Biophysics Steering Committee. If you are interested in a different course, in order for it to count as an elective course towards your Biophysics graduate degree, the course needs to be approved by the Steering Committee. Please email the coordinator at biophysics@bocklabs.wisc.edu a syllabus from the course and a short paragraph detailing why the class is relevant to your research.

3

Students are also required to take an ethics course that covers all of the items considered necessary by the NIH for ethical and professional scientific training. It is strongly recommended that students take the ethics course during their first year. The recommended ethics course is: BIOCHEM 729 Advanced Topics. The Biophysics Program also conducts a mandatory ethics refresher seminar for all students that is held at the end of every spring semester.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

This program follows the Graduate School's policy for Satisfying Requirements with Prior Graduate Coursework from Other Institutions. (<https://policy.wisc.edu/library/UW-1216/>)

UW–Madison Undergraduate

This program follows the Graduate School's policy for Satisfying Requirements with Coursework from Undergraduate Career at UW–Madison. (<https://policy.wisc.edu/library/UW-1216/>)

UW–Madison University Special

This program follows the Graduate School's policy for Transfer from UW–Madison University Special Student Career at UW–Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

All students are required to have an advisor by the end of their first semester in the program. Thesis committees must be formed at the end of a student's first year in the program. The committee consists of at least four other faculty members and the student's advisor and faculty must represent at least two different departments on campus. After gaining dissertator status, students are required to hold yearly progress report meetings with their committee until graduation.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

OTHER

Fall semester enrollment only. First semester, program-sponsored lab rotations lead to thesis lab selection and research assistantship through the thesis advisor.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulates challenges, frontiers and limits with respect to theory, knowledge or practice within the field of study.
2. Formulates ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the field of study.
3. Creates research, scholarship or performance that makes a substantive contribution.
4. Demonstrates breadth within their learning experiences.
5. Communicates complex or ambiguous ideas in a clear and understandable manner.

6. Evaluates the implications of the discipline to broader social concerns.
7. Fosters ethical conduct and professional guidelines.

CELLULAR AND MOLECULAR BIOLOGY, M.S.

Students are not admitted into the Cellular and Molecular Biology (CMB) Program for a terminal master's degree. However, a master's degree is officially offered. For more information, see the Cellular and Molecular Biology Handbook (link in Contact Information).

Graduate study in cellular and molecular biology at the University of Wisconsin–Madison is a research-oriented interdisciplinary program leading to the Ph.D. degree. The university has one of the largest and most prestigious biology facilities in the world, well-noted for its cooperation and collaboration across department boundaries. The Cellular and Molecular Biology Program is an important part of that interdepartmental strength, providing students with the opportunity to work with more than 190 faculty members in 40 departments.

A major strength of the program is that it provides the opportunity for groups of investigators to work together on research topics of common interest. Research topic areas, identified as focus groups, are composed of faculty and students studying common research areas. Each group is held together by participation of both students and faculty at regular research presentations and by the participation of faculty on thesis committees of many students in the group. Because of the diverse nature of most research areas and the cross-fertilization among focus groups, many faculty and students participate in the activities of multiple focus groups.

The focus groups are: cancer biology; cell adhesion and cytoskeleton; cellular and molecular metabolism; developmental biology and regenerative medicine; immunology; membrane biology and protein trafficking; molecular and genome biology of microbes; physiology; plant biology; RNA biology; systems biology; transcriptional mechanisms; and virology.

ADMISSIONS

This master's program is offered for work leading to the Ph.D. Students may not apply directly for the master's, and should instead see the admissions information for the Ph.D. (p. 934)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum	30 credits
Credit	
Requirement	

Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's GPA Requirement policy (https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/)).
Other Grade Requirements	n/a
Assessments and Examinations	See PhD requirements.
Language Requirements	No language requirements.

REQUIRED COURSES

Eleven credits of coursework, not including 990 research credits, are required to complete the CMB course requirements. One course must be taken from the "core" list of molecular biology courses and one course must be taken from the "core" list of cell biology courses. The remaining credits can come from either the "core" or "elective" list of classes to bring the total number of credits to ten. In addition, one credit must be fulfilled through the required ethics course. All CMB course requirements must be completed by the end of the student's second year, before completing the preliminary exam and obtaining dissertator status.

Course Code	Title	Credits
Course Requirements¹		
<i>Molecular Biology Core</i>		3
Choose one of the following:		
BIOCHEM/ GENETICS/ MD GENET 620	Eukaryotic Molecular Biology	
BIOCHEM/ GENETICS/ MICROBIO 612	Prokaryotic Molecular Biology	
ONCOLOGY/ PL PATH 640	General Virology-Multiplication of Viruses	
<i>Cell Biology Core</i>		2-3
Choose one of the following:		
BOTANY 860	Plant Cell Biology	
ZOOLOGY/ NEURODPT/ NTP 765	Developmental Neuroscience	
PATH 750	Cellular and Molecular Biology/ Pathology	
ONCOLOGY 703	Carcinogenesis and Tumor Cell Biology	
GENETICS/ CRB 710	Developmental Genetics	

GENETICS/ BOTANY/M M & I/ PL PATH 655	Biology and Genetics of Fungi	
<i>Ethics Core</i>		1
BIOCHEM 729	Advanced Topics	
ONCOLOGY 715	Ethics in Science	
SURG SCI 812	Research Ethics and Career Development	
Remaining credits can come from either the core or elective list of classes to bring the total number of credits to eleven.		
<i>Elective Courses</i>		4-5
B M E 510	Introduction to Tissue Engineering	
B M E 520	Stem Cell Bioengineering	
B M E/CBE 783	Design of Biological Molecules	
B M E/CRB 670	Biology of Heart Disease and Regeneration	
B M E 545	Engineering Extracellular Matrices	
B M E 556	Systems Biology: Mammalian Signaling Networks	
B M I/ COMP SCI 576	Introduction to Bioinformatics	
B M I/STAT 541	Introduction to Biostatistics	
B M I/STAT 877	Statistical Methods for Molecular Biology	
B M I 826	Special Topics in Biostatistics and Biomedical Informatics	
BIOCHEM/B M I/ BMOLCHEM/ MATH 609	Mathematical Methods for Systems Biology	
BOTANY/ BIOCHEM/ GENETICS 840	Regulatory Mechanisms in Plant Development	
BIOCHEM/ BOTANY 621	Plant Biochemistry	
BIOCHEM/ CHEM 665	Biophysical Chemistry	
BIOCHEM/ NUTR SCI 619	Advanced Nutrition: Intermediary Metabolism of Macronutrients	
BIOCHEM/ PHMCOL-M/ ZOOLOGY 630	Cellular Signal Transduction Mechanisms	
BIOCHEM 570	Computational Modeling of Biological Systems	
BIOCHEM 601	Protein and Enzyme Structure and Function	
BMOLCHEM 675	Advanced or Special Topics in Biomolecular Chemistry	
BOTANY/ ENTOM/ PL PATH 505	Plant-Microbe Interactions: Molecular and Ecological Aspects	
BOTANY/ PL PATH 563	Phylogenetic Analysis of Molecular Data	
CRB/ MEDICINE 701	Cell Signaling and Human Disease	

CRB 640	Fundamentals of Stem Cell and Regenerative Biology
CRB 650	Molecular and Cellular Organogenesis
F&W ECOL/ HORT/STAT 571	Statistical Methods for Bioscience I
GENETICS/ HORT 550	Molecular Approaches for Potential Crop Improvement
GENETICS/ MD GENET 677	Advanced Topics in Genetics
GENETICS/ BIOCHEM 631	Plant Genetics and Development
GENETICS 633	Population Genetics
GENETICS 885	Advanced Genomic and Proteomic Analysis
M M & I/PATH- BIO 528	Immunology
M M & I 740	Mechanisms of Microbial Pathogenesis
MICROBIO 657	Bioinformatics for Microbiologists
NEURODPT/NTP/ PSYCH 611	Systems Neuroscience
NTP 670	Stem Cells and the Central Nervous System
M M & I/PATH- BIO 750	Host-Parasite Relationships in Vertebrate Viral Disease
MED PHYS 671	Selected Topics in Medical Physics
MICROBIO/ BMOLCHEM 668	Microbiology at Atomic Resolution
MICROBIO 607	Advanced Microbial Genetics
ONCOLOGY 675	Advanced or Special Topics in Cancer Research
ONCOLOGY 778	Bioinformatics for Biologists
OPHTHALM 750	Ocular Diseases of the Mammalian Vision System
PATH 751	Biology of Aging
PATH 803	Pathogenesis of Major Human Diseases
PATH 807	Immunopathology: The Immune System in Health and Disease
PATH-BIO 675	Special Topics
ZOOLOGY 604	Computer-based Gene and Disease/Disorder Research Lab

Research Credits

A minimum of 51 credits taken in graduate level courses are required: the 11 above, and the remaining credits can be 990 research credits. 41

Total Credits 51-53

1

EXCEPTION: M.D./Ph.D. students are only required to take 3 credits from the Core Curriculum or the Elective Courses list.

2

EXCEPTION: M.D./Ph.D. students are not required to take an ethics course because they received this training in their M.D. courses.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

On a case by case basis, this program follows the Graduate School's policy for Satisfying Requirements with Prior Graduate Coursework from Other Institutions. (<https://policy.wisc.edu/library/UW-1216/>)

UW-Madison Undergraduate

On a case by case basis, this program follows the Graduate School's policy for Satisfying Requirements with Coursework from Undergraduate Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

UW-Madison University Special

On a case by case basis, this program follows the Graduate School's policy for Transfer from UW-Madison University Special Student Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

The thesis advisor will assist the graduate student throughout the duration of their studies. Upon choosing a thesis advisor, the student should formulate goals and expectations when starting in a permanent lab home. The student and thesis advisor should work together to ensure that mutual goals and expectations are met. The thesis advisor will monitor and guide the student's progress toward their degree, provide the student with advice about how and when to meet the degree requirements of the program, and help the student decide on appropriate coursework during their studies.

After joining a thesis lab, students are required to form a thesis committee. The purpose of the thesis committee is to: guide the student through the process of earning their degree and meeting all CMB program requirements; assist the student in developing as an independent scientist in the student's area of research; provide the student with an array of ideas and opportunities regarding the direction of their research and thesis project; and evaluate the student's research proposal, attend curriculum certification, preliminary exam, annual progress report, and thesis defense.

The thesis committee consists of five faculty members, including the thesis advisor. All committee members must be readers when the student defends their dissertation. Three committee members, including the thesis advisor, must be faculty trainers in the CMB program. Two committee members must be outside the student's direct area of expertise.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeeabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Overview

If a student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance.

Students' concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where the action occurred (CMB Program Administration or Chair, Lab Department Administration or Chair, Lab Manager, etc.). Many departments and schools/colleges have established specific procedures for handling such situations; check their web pages for more information. If such procedures exist at the local level, these should be investigated first. For more information, see the Graduate School Academic Policies and Procedures. (<http://grad.wisc.edu/acadpolicy/#grievancesandappeals>)

Procedure

Procedures for proper accounting of student grievances within the CMB Program:

- The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved interpersonally at this level.

- Should satisfactory resolution not be achieved, the student should contact the CMB Office and the CMB Program Chair to discuss the grievance. The program will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt is to help the student informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisor or thesis committee members if appropriate.
- If the issue is not resolved to the student's satisfaction, the student can submit a formal grievance in writing to the CMB Office and CMB Program Chair. The written formal grievance must be submitted within 60 days of the alleged unfair treatment.
- On receipt of a written complaint, a faculty committee will be convened within 10 working days by the CMB Program to manage the grievance. The program faculty committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.
- Within 10 working days of being convened, the faculty committee will make a decision regarding the grievance. The CMB Program will report on the committee's decision and any action taken by the committee in writing to both the student and the party toward whom the complaint was directed.
- At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal within 10 working days of the committee's decision. The appeal will go to the tenure home School/College of the grieving student's primary advisor.

The Graduate School has procedures for students wishing to further appeal a grievance decision made at the school/college level. These policies are described in the Graduate School's Academic Policies and Procedures. (<https://grad.wisc.edu/documents/grievances-and-appeals/>)

OTHER

CMB students all earn a stipend that is set by the program each year, and tuition is covered. First year rotating students are funded through the CMB program during the first semester. After the first semester, students are typically funded by their thesis advisor. In some cases, students earn individual fellowships or training grant slots and are funded through these mechanisms. Please contact the CMB program for specific questions about stipend level, etc.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Gain a broad understanding of the cellular and molecular principles that underlie biological processes.
2. Develop proficiency in a chosen area of cellular and molecular biology.
3. Learn to think critically and problem solve to address research challenges using a broad range of theories, research methods, and approaches to scientific inquiry.

4. Create research and scholarship that makes a substantive contribution to the field of cellular and molecular biology.
5. Experience collaboration with scientists within the lab, the department, the program, the university, and beyond.
6. Clearly and effectively communicate scientific ideas and research to both scientists and non-scientists in written and oral forms.
7. Exhibit and foster ethical and professional conduct.
8. Gain exposure to potential career paths and develop leadership and professional skills that will prepare them for a successful and rewarding career.

PEOPLE

Faculty Chairs: David Wassarman (program chair), Andy Mehle (admissions chair), Caroline Alexander (awards chair), Donna Peters (curriculum chair), Colleen McDowell (diversity chair)

Focus Group Chairs: Caroline Alexander (Cancer Biology), Wilmara Salgado-Pabon (Cell Adhesion and Cytoskeleton), Dudley Lamming (Cellular and Molecular Metabolism), Anne Griep (Developmental Biology and Regenerative Medicine), Lisa Arendt (Immunology), Guy Groblewski (Membrane Biology and Protein Trafficking), Robert Landick (Molecular and Genome Biology of Microbes), Raunak Sinha (Physiology), Jean-Michel Ane (Plant Biology), David Brow (RNA Biology), Megan McClean (Systems Biology), Melissa Harrison (Transcriptional Mechanisms), Paul Ahlquist (Virology).

For a list of all participating faculty, see the program website (<http://www.cmb.wisc.edu>).

CELLULAR AND MOLECULAR BIOLOGY, PH.D.

Since 1961, the Graduate Program in Cellular and Molecular Biology (CMB) has been pioneering graduate education in the fields of cell biology and molecular biology at the University of Wisconsin–Madison. CMB is a research-oriented, interdisciplinary program leading to the Ph.D. degree. UW–Madison has one of the largest and most prestigious biology facilities in the world, well-noted for its cooperation and collaboration across department boundaries. CMB is an important part of that interdepartmental strength, providing students with the opportunity to work with more than 200 faculty members in 40 departments.

Research and coursework experience allow CMB students to obtain a solid foundation in cell biology and molecular biology that is tailored to their professional objectives. Research focus groups are composed of students and faculty studying a common research area. The focus groups are: cancer biology, cell adhesion and cytoskeleton, cellular and molecular metabolism, developmental biology and regenerative medicine, immunology, membrane biology and protein trafficking, molecular and genome biology of microbes, physiology, plant biology, RNA biology, systems biology, transcriptional mechanisms, and virology.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed

admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Admission to the program is highly competitive. Admission is based on demonstrated ability and interest in biology, chemistry, and the physical sciences; three letters of recommendation; and the personal statement. Previous research experience is required. The application deadline for fall admission is December 1. All application materials must be received by this date in order to be reviewed by the CMB Admissions Committee. We do not offer spring or summer admission. More information about CMB Admissions can be found on the CMB website (<https://cmb.wisc.edu/admissions/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

All students accepted into the Ph.D. degree program receive financial support from Graduate School fellowships, interdepartmental training grants, and/or research assistantships. The program strives to maintain a nationally competitive stipend. Students are guaranteed a stipend each year in addition to tuition remission. The current stipend rate can be found on the Financial (<https://cmb.wisc.edu/financial-health-insurance/>) page of the CMB handbook. Graduate students are also eligible for comprehensive health insurance; individual or family coverage is available at a minimal cost. Students are strongly encouraged to apply for a National

Science Foundation Graduate Fellowship at the time of application to graduate school and/or during the first or second year on campus.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement	Detail
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	26 credits credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's GPA Requirement policy (https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/)).
Other Grade Requirements	n/a

Assessments and Examinations Doctoral students are required to take a comprehensive preliminary/oral examination at the end of their second year. In order to complete their preliminary exam, students must have cleared their record of all Incomplete and Progress grades (other than research and thesis). Deposit of the doctoral dissertation in the Graduate School is required.

Language Requirements No language requirements.

Graduate School Breadth Requirement Doctoral students in the CMB program are not required to complete a doctoral minor or graduate/professional certificate, but may choose to.

REQUIRED COURSES

Eleven credits of coursework, not including 990 research credits, are required to complete the CMB course requirements. One course must be taken from the "core" list of molecular biology courses and one course must be taken from the "core" list of cell biology courses. The remaining credits can come from either the "core" or "elective" list of classes to bring the total number of credits to ten. In addition, one credit must be fulfilled through the required ethics course. All CMB course requirements must be completed by the end of the student's second year, before completing the preliminary exam and obtaining dissertator status.

Course Code	Title	Credits
Course Requirements ¹		
<i>Molecular Biology Core</i>		3
Choose one of the following:		
BIOCHEM/ GENETICS/ MD GENET 620	Eukaryotic Molecular Biology	
BIOCHEM/ GENETICS/ MICROBIO 612	Prokaryotic Molecular Biology	
ONCOLOGY/ PL PATH 640	General Virology–Multiplication of Viruses	
<i>Cell Biology Core</i>		2-3
Choose one of the following:		
BOTANY 860	Plant Cell Biology	
ZOOLOGY/ NEURODPT/ NTP 765	Developmental Neuroscience	
PATH 750	Cellular and Molecular Biology/ Pathology	
ONCOLOGY 703	Carcinogenesis and Tumor Cell Biology	
GENETICS/ CRB 710	Developmental Genetics	
GENETICS/ BOTANY/M M & I/ PL PATH 655	Biology and Genetics of Fungi	
<i>Ethics Core</i>		1
BIOCHEM 729	Advanced Topics	
ONCOLOGY 715	Ethics in Science	
SURG SCI 812	Research Ethics and Career Development	

Remaining credits can come from either the core or elective list of classes to bring the total number of credits to eleven.

<i>Elective Courses</i>		4-5
B M E 510	Introduction to Tissue Engineering	
B M E 520	Stem Cell Bioengineering	
B M E/CBE 783	Design of Biological Molecules	
B M E/CRB 670	Biology of Heart Disease and Regeneration	
B M E 545	Engineering Extracellular Matrices	
B M E 556	Systems Biology: Mammalian Signaling Networks	
B M I/ COMP SCI 576	Introduction to Bioinformatics	
B M I/STAT 541	Introduction to Biostatistics	
B M I/STAT 877	Statistical Methods for Molecular Biology	
B M I 826	Special Topics in Biostatistics and Biomedical Informatics	
BIOCHEM/B M I/ BMOLCHEM/ MATH 609	Mathematical Methods for Systems Biology	
BOTANY/ BIOCHEM/ GENETICS 840	Regulatory Mechanisms in Plant Development	
BIOCHEM/ BOTANY 621	Plant Biochemistry	
BIOCHEM/ CHEM 665	Biophysical Chemistry	
BIOCHEM/ NUTR SCI 619	Advanced Nutrition: Intermediary Metabolism of Macronutrients	
BIOCHEM/ PHMCOI-M/ ZOOLOGY 630	Cellular Signal Transduction Mechanisms	
BIOCHEM 570	Computational Modeling of Biological Systems	
BIOCHEM 601	Protein and Enzyme Structure and Function	
BMOLCHEM 675	Advanced or Special Topics in Biomolecular Chemistry	
BOTANY/ ENTOM/ PL PATH 505	Plant-Microbe Interactions: Molecular and Ecological Aspects	
BOTANY/ PL PATH 563	Phylogenetic Analysis of Molecular Data	
CRB/ MEDICINE 701	Cell Signaling and Human Disease	
CRB 640	Fundamentals of Stem Cell and Regenerative Biology	
CRB 650	Molecular and Cellular Organogenesis	
F&W ECOL/ HORT/STAT 571	Statistical Methods for Bioscience I	
GENETICS/ HORT 550	Molecular Approaches for Potential Crop Improvement	

GENETICS/ CHEM 626	Genomic Science	
GENETICS/ BIOCHEM 631	Plant Genetics and Development	
GENETICS 633	Population Genetics	
GENETICS/ MD GENET 677	Advanced Topics in Genetics	
GENETICS 885	Advanced Genomic and Proteomic Analysis	
M M & I/PATH- BIO 528	Immunology	
M M & I 677	Advanced Topics in Medical Microbiology	
M M & I 740	Mechanisms of Microbial Pathogenesis	
MICROBIO 657	Bioinformatics for Microbiologists	
NEURODPT/NTP/ PSYCH 611	Systems Neuroscience	
NTP 670	Stem Cells and the Central Nervous System	
M M & I/PATH- BIO 750	Host-Parasite Relationships in Vertebrate Viral Disease	
MED PHYS 671	Selected Topics in Medical Physics	
MICROBIO/ BMOLCHEM 668	Microbiology at Atomic Resolution	
MICROBIO 607	Advanced Microbial Genetics	
NEURODPT/ NTP 610	Cellular and Molecular Neuroscience	
ONCOLOGY 675	Advanced or Special Topics in Cancer Research	
ONCOLOGY 778	Bioinformatics for Biologists	
OPHTHALM 750	Ocular Diseases of the Mammalian Vision System	
PATH 751	Biology of Aging	
PATH 803	Pathogenesis of Major Human Diseases	
PATH 807	Immunopathology: The Immune System in Health and Disease	
PATH-BIO 675	Special Topics	
ZOOLOGY 604	Computer-based Gene and Disease/Disorder Research Lab	

Research Credits

A minimum of 51 credits taken in graduate level courses are required: the 11 above, and the remaining credits can be 990 research credits. 41

Total Credits

51-53

1

EXCEPTION: M.D./Ph.D. students are only required to take 3 credits from the Core Curriculum or the Elective Courses list.

2

EXCEPTION: M.D./Ph.D. students are not required to take an ethics course because they received this training in their M.D. courses.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

On a case by case basis, this program follows the Graduate School's policy for Satisfying Requirements with Prior Graduate Coursework from Other Institutions. (<https://policy.wisc.edu/library/UW-1216/>)

UW-Madison Undergraduate

On a case by case basis, this program follows the Graduate School's policy for Satisfying Requirements with Coursework from Undergraduate Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

UW-Madison University Special

On a case by case basis, this program follows the Graduate School's policy for Transfer from UW-Madison University Special Student Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

The thesis advisor will assist the graduate student throughout the duration of their Ph.D. studies. Upon choosing a thesis advisor, the student should formulate goals and expectations when starting in a permanent lab home. The student and thesis advisor should work together to ensure that mutual goals and expectations are met. The thesis advisor will monitor and guide the student's progress toward the Ph.D. degree, provide the student with advice about how and when to meet the degree requirements of the program, and help the student decide on appropriate coursework during Ph.D. studies.

After joining a thesis lab, students are required to form a thesis committee. The purpose of the thesis committee is to: guide the student through the process of earning the Ph.D. degree and meeting all CMB program requirements; assist the student in developing as an independent scientist in the student's area of research; provide the student with an array of ideas and opportunities regarding the direction of the research and thesis project; and evaluate the student's research proposal, attend curriculum certification, preliminary exam, annual progress report, and thesis defense.

The thesis committee consists of five faculty members, including the thesis advisor. All committee members must be readers when the student defends their dissertation. Three committee members, including the thesis advisor, must be faculty trainers in the CMB program. Two committee members must be outside the student's direct area of expertise.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeeabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Overview

If a student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance.

Students' concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where the action occurred (CMB Program Administration or Chair, Lab Department Administration or Chair, Lab Manager, etc.). Many departments and schools/colleges have established specific procedures for handling such situations; check their web pages for more information. If such procedures exist at the local level, these should be investigated first. For more information, see the Graduate School Academic Policies and Procedures. (<http://grad.wisc.edu/acadpolicy/#grievancesandappeals>)

Procedure

Procedures for proper accounting of student grievances within the CMB Program:

- The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved interpersonally at this level.

- Should satisfactory resolution not be achieved, the student should contact the CMB Office and the CMB Program Chair to discuss the grievance. The program will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt is to help the student informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisor or thesis committee members if appropriate.
- If the issue is not resolved to the student's satisfaction, the student can submit a formal grievance in writing to the CMB Office and CMB Program Chair. The written formal grievance must be submitted within 60 days of the alleged unfair treatment.
- On receipt of a written complaint, a faculty committee will be convened within 10 working days by the CMB Program to manage the grievance. The program faculty committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.
- Within 10 working days of being convened, the faculty committee will make a decision regarding the grievance. The CMB Program will report on the committee's decision and any action taken by the committee in writing to both the student and the party toward whom the complaint was directed.
- At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal within 10 working days of the committee's decision. The appeal will go to the tenure home School/College of the grieving student's primary advisor.

The Graduate School has procedures for students wishing to further appeal a grievance decision made at the school/college level. These policies are described in the Graduate School's Academic Policies and Procedures. (<https://grad.wisc.edu/documents/grievances-and-appeals/>)

OTHER

CMB students all earn a stipend that is set by the program each year, and tuition is covered. First year rotating students are funded through the CMB Program during the first semester. After the first semester, students are typically funded by their thesis advisor. In some cases, students earn individual fellowships or training grant slots and are funded through these mechanisms. Please contact the CMB Program for specific questions about stipend level, etc.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The CMB program offers and encourages participation in many professional development opportunities. The student-led Professional Development Committee plans events such as visiting speakers, panelists, and an annual mock interview event. The program shares information about alumni and their current employment with CMB students and encourages collaboration between the two groups. At the annual student retreat, students hear a panel featuring CMB alumni working in academic and non-academic positions. Program requirements such as an annual oral presentation and an annual thesis committee meeting foster professional

development skills. Students also have opportunities to participate in program governance and leadership roles in other program activities such as advising and orientation, recruiting, admissions, the Diversity, Equity & Inclusion Committee, and the Coordinating Committee. A weekly email newsletter publicizes other relevant upcoming professional development opportunities. More information can be found on the CMB Professional Development page (<https://cmb.wisc.edu/professional-development/>).

LEARNING OUTCOMES

1. Gain a broad understanding of the cellular and molecular principles that underlie biological processes.
2. Develop proficiency in a chosen area of cellular and molecular biology.
3. Learn to think critically and problem solve to address research challenges using a broad range of theories, research methods, and approaches to scientific inquiry.
4. Create research and scholarship that makes a substantive contribution to the field of cellular and molecular biology.
5. Experience collaboration with scientists within the lab, the department, the program, the university, and beyond.
6. Clearly and effectively communicate scientific ideas and research to both scientists and non-scientists in written and oral forms.
7. Exhibit and foster ethical and professional conduct.
8. Gain exposure to potential career paths and develop leadership and professional skills that will prepare them for a successful and rewarding career.
9. Develop and apply skills to foster a climate of inclusion for diverse members of the scientific community.

PEOPLE

Faculty Chairs: David Wassarman (program chair), Andy Mehle (admissions chair), Caroline Alexander (awards chair), Donna Peters (curriculum chair), Colleen McDowell (diversity chair)

Focus Group Chairs: Caroline Alexander (Cancer Biology), Wilmar Salgado-Pabon (Cell Adhesion and Cytoskeleton), Dudley Lamming (Cellular and Molecular Metabolism), Junsu Kang (Developmental Biology and Regenerative Medicine), Lisa Arendt (Immunology), Sebastian Bednarek (Membrane Biology and Protein Trafficking), Robert Landick (Molecular and Genome Biology of Microbes), Raunak Sinha (Physiology), Hiroshi Maeda (Plant Biology), David Brow (RNA Biology), Megan McClean (Systems Biology), Melissa Harrison (Transcriptional Mechanisms), Paul Ahlquist (Virology).

For a list of all participating faculty, see the program website (<http://www.cmb.wisc.edu>).

DISTRIBUTED, DOCTORAL MINOR

The distributed doctoral minor is one option for meeting the Graduate School breadth requirement. Distributed minors are administered by the student's major program advisor. Specific course requirements for the distributed minor must follow the Graduate School policy.

ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to the distributed minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the distributed minor.

REQUIREMENTS

Breadth is a required component of doctoral training at UW–Madison. Given there are multiple paths to breadth, the Graduate School leaves the choice of whether students achieve breadth through a doctoral minor (two options as described below), graduate/professional certificate, or other means up to the specific graduate program. The specific Breadth Requirement Policy, including information on certificates, is found here: <https://policy.wisc.edu/library/UW-1200> (<https://policy.wisc.edu/library/UW-1200/>)

Minor options are as follows:

Option A (external): Requires a minimum of 9 credits in a minor program (single disciplinary or multi-disciplinary). Fulfillment of this option requires the approval of the minor program.

Option B (distributed): Requires a minimum of 9 credits in one or more programs forming a coherent topic, and can include coursework in the program. Fulfillment of this option requires the approval of the major program.

The Graduate School's minimum course requirements for the minor include:

- An average GPA of 3.00 on all minor coursework;
- Coursework must be graded courses numbered 300 or above; no audits or pass/fail;
- Maximum 3 credits of independent study (e.g., 699, 799, 899, 999);
- Research and thesis cannot be used to satisfy the minor (e.g., 790, 890, 990);
- No more than 5 credits of coursework completed more than 5 years prior to admission to the doctoral program; coursework taken 10 years ago or more may not be used.

SPECIAL GRADUATE COMMITTEE, M.A.

(via Graduate School Academic Policies & Procedures (<https://grad.wisc.edu/acadpolicy/#specialgraduatecommitteedegrees>))

The Graduate School can authorize special committees to supervise master's or doctoral programs for students whose needs cannot be met within an established program. Students must first be accepted into a graduate-degree-granting program and establish one semester of full-time graduate work at UW–Madison, and then the faculty advisor should submit a proposal for a special committee degree. Students should check with the Graduate School and the individual faculty member with whom they are interested in working.

Special graduate committee degrees are one-of-a-kind degrees built around unique needs of individual students that cannot be satisfied by approved programs (e.g., by existing major program/minor combinations, joint degrees, distributed minors, etc.) and may permit individual degrees in new and emerging fields or combinations of disciplines. A higher degree of independence is required on the part of the student, since easily available guidance provided by programs is often more difficult to obtain, and there is not the usual collegial group of students in closely related research and coursework.

ADMISSIONS

(via Graduate School Academic Policies & Procedures (<https://grad.wisc.edu/acadpolicy/#specialgraduatecommitteedegrees>))

The master's and doctoral special graduate committee guidelines are:

1. Prospective students who may have an interest in a special graduate committee degree should apply to the degree program that is closest to their program interest.
2. Upon receipt of an application on which a prospective student has expressed interest in a special graduate committee degree, the program will follow all relevant program admission requirements.
3. Students may not be admitted directly to a special graduate committee degree program. They must be accepted for admission by an established department or program and be attending classes at UW–Madison before a proposal for a special graduate committee degree will be considered by the Graduate School.
4. The department or program admitting the student must be prepared to see the student through an established degree program. No commitments are made to provide a special graduate committee degree until after the student is enrolled and the proposal for the special degree and the student's ability at the graduate level have been evaluated and approved.
5. The student's advisor authors and submits the special graduate committee degree proposal on behalf of the student as early in the student's program as possible. Proposals submitted after a substantial portion of the program has been completed will not be accepted. Doctoral proposals must be submitted by the end of the first year of graduate work. Master's proposals must be submitted after the equivalent of the first full-time semester of graduate work. The proposal should consist of the following elements:
 - The reasons the special graduate committee program is needed and an explanation of why the student's needs cannot be met within existing programs.
 - The exact title of the proposed degree program (which should be brief and descriptive).
 - The proposed course and seminar program of graduate work on this campus. Include the course title, program, course number, credits, grade, and semester taken/to be taken.
 - Any specific requirements of the dissertation or thesis (language, equipment, etc.).
 - The nature and scope of preliminary examinations for the doctoral degree, or the examination procedure for the master's degree.
 - The nature of the dissertation or thesis (general subject area).
 - The names of the faculty members who, in addition to the advisor, are willing to share the responsibility of supervising the student's program. Including the advisor, the doctoral degree requires five members (including four UW–Madison graduate faculty members), and the master's degree requires three members

(including two UW–Madison graduate faculty members). Approval signatures of the committee members are required on the proposal.

6. The Graduate School will carefully review proposals to determine whether or not the program can be carried out within an established department or program, joint degrees, appropriate use of minors, or other available mechanisms. The suitability and degree of commitment of the committee for the proposed program will be examined.
7. The chairperson of the committee (usually the advisor) should be a member of the program to which the student originally had been admitted. That program should remain the keeper of the student's records and should make all appropriate nominations for financial aid.
8. The Graduate School is concerned about maintaining active participation by all members of special degree committees in the ongoing program of the student and asks the individual members of the committee to assume program responsibilities provided institutionally in a conventional program. Faculty members who are willing to serve on these committees should be prepared to participate fully in all aspects of the student's program from the beginning, especially where they must provide the necessary expertise in their particular areas of interest.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

Since the curriculum of the special graduate committee degree will vary, students must work closely with their faculty advisor and committee to make sure they are completing all necessary coursework and other requirements.

SPECIAL GRADUATE COMMITTEE, M.S.

(via Graduate School Academic Policies & Procedures (<https://grad.wisc.edu/acadpolicy/#specialgraduatecommitteedegrees>))

The Graduate School can authorize special committees to supervise master's or doctoral programs for students whose needs cannot be met within an established program. Students must first be accepted into a graduate-degree-granting program and establish one semester of full-time graduate work at UW–Madison, and then the faculty advisor should submit a proposal for a special committee degree. Students should check with the Graduate School and the individual faculty member with whom they are interested in working.

Special graduate committee degrees are one-of-a-kind degrees built around unique needs of individual students that cannot be satisfied by approved programs (e.g., by existing major program/minor combinations, joint degrees, distributed minors, and so on) and may permit individual degrees in new and emerging fields or combinations of disciplines. A higher degree of independence is required on the part of the student,

since easily available guidance provided by programs is often more difficult to obtain, and there is not the usual collegial group of students in closely related research and coursework.

ADMISSIONS

(via Graduate School Academic Policies & Procedures (<https://grad.wisc.edu/acadpolicy/#specialgraduatecommitteedegrees>))

The master's and doctoral special graduate committee guidelines are:

1. Prospective students who may have an interest in a special graduate committee degree should apply to the degree program that is closest to their program interest.
2. Upon receipt of an application on which a prospective student has expressed interest in a special graduate committee degree, the program will follow all relevant program admission requirements.
3. Students may not be admitted directly to a special graduate committee degree program. They must be accepted for admission by an established department or program and be attending classes at UW–Madison before a proposal for a special graduate committee degree will be considered by the Graduate School.
4. The department or program admitting the student must be prepared to see the student through an established degree program. No commitments are made to provide a special graduate committee degree until after the student is enrolled and the proposal for the special degree and the student's ability at the graduate level have been evaluated and approved.
5. The student's advisor authors and submits the special graduate committee degree proposal on behalf of the student as early in the student's program as possible. Proposals submitted after a substantial portion of the program has been completed will not be accepted. Doctoral proposals must be submitted by the end of the first year of graduate work. Master's proposals must be submitted after the equivalent of the first full-time semester of graduate work. The proposal should consist of the following elements:
 - The reasons the special graduate committee program is needed and an explanation of why the student's needs cannot be met within existing programs.
 - The exact title of the proposed degree program (which should be brief and descriptive).
 - The proposed course and seminar program of graduate work on this campus. Include the course title, program, course number, credits, grade, and semester taken/to be taken.
 - Any specific requirements of the dissertation or thesis (language, equipment, etc.).
 - The nature and scope of preliminary examinations for the doctoral degree, or the examination procedure for the master's degree.
 - The nature of the dissertation or thesis (general subject area).
 - The names of the faculty members who, in addition to the advisor, are willing to share the responsibility of supervising the student's program. Including the advisor, the doctoral degree requires five members (including four UW–Madison graduate faculty members), and the master's degree requires three members (including two UW–Madison graduate faculty members). Approval signatures of the committee members are required on the proposal.
6. The Graduate School will carefully review proposals to determine whether or not the program can be carried out within an established department or program, joint degrees, appropriate use of minors, or

other available mechanisms. The suitability and degree of commitment of the committee for the proposed program will be examined.

7. The chairperson of the committee (usually the advisor) should be a member of the program to which the student originally had been admitted. That program should remain the keeper of the student's records and should make all appropriate nominations for financial aid.

The Graduate School is concerned about maintaining active participation by all members of special degree committees in the ongoing program of the student and asks the individual members of the committee to assume program responsibilities provided institutionally in a conventional program. Faculty members who are willing to serve on these committees should be prepared to participate fully in all aspects of the student's program from the beginning, especially where they must provide the necessary expertise in their particular areas of interest.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

Since the curriculum of the special graduate committee degree will vary, students must work closely with their faculty advisor and committee to make sure they are completing all necessary coursework and other requirements.

SPECIAL GRADUATE COMMITTEE, PH.D.

(via Graduate School Academic Policies & Procedures (<https://grad.wisc.edu/acadpolicy/#specialgraduatecommitteedegrees>))

The Graduate School can authorize special committees to supervise master's or doctoral programs for students whose needs cannot be met within an established program. Students must first be accepted into a graduate-degree-granting program and establish one semester of full-time graduate work at UW–Madison, and then the faculty advisor should submit a proposal for a special committee degree. Students should check with the Graduate School and the individual faculty member with whom they are interested in working.

Special graduate committee degrees are one-of-a-kind degrees built around unique needs of individual students that cannot be satisfied by approved programs (e.g., by existing major program/minor combinations, joint degrees, distributed minors, and so on) and may permit individual degrees in new and emerging fields or combinations of disciplines. A higher degree of independence is required on the part of the student, since easily available guidance provided by programs is often more difficult to obtain, and there is not the usual collegial group of students in closely related research and coursework.

ADMISSIONS

(via Graduate School Academic Policies & Procedures (<https://grad.wisc.edu/acadpolicy/#specialgraduatecommitteedegrees>))

The master's and doctoral special graduate committee guidelines are:

1. Prospective students who may have an interest in a special graduate committee degree should apply to the degree program that is closest to their program interest.
2. Upon receipt of an application on which a prospective student has expressed interest in a special graduate committee degree, the program will follow all relevant program admission requirements.
3. Students may not be admitted directly to a special graduate committee degree program. They must be accepted for admission by an established department or program and be attending classes at UW–Madison before a proposal for a special graduate committee degree will be considered by the Graduate School.
4. The department or program admitting the student must be prepared to see the student through an established degree program. No commitments are made to provide a special graduate committee degree until after the student is enrolled and the proposal for the special degree and the student's ability at the graduate level have been evaluated and approved.
5. The student's advisor authors and submits the special graduate committee degree proposal on behalf of the student as early in the student's program as possible. Proposals submitted after a substantial portion of the program has been completed will not be accepted. Doctoral proposals must be submitted by the end of the first year of graduate work. Master's proposals must be submitted after the equivalent of the first full-time semester of graduate work. The proposal should consist of the following elements:
 - The reasons the special graduate committee program is needed and an explanation of why the student's needs cannot be met within existing programs.
 - The exact title of the proposed degree program (which should be brief and descriptive).
 - The proposed course and seminar program of graduate work on this campus. Include the course title, program, course number, credits, grade, and semester taken/to be taken.
 - Any specific requirements of the dissertation or thesis (language, equipment, etc.).
 - The nature and scope of preliminary examinations for the doctoral degree, or the examination procedure for the master's degree.
 - The nature of the dissertation or thesis (general subject area).
 - The names of the faculty members who, in addition to the advisor, are willing to share the responsibility of supervising the student's program. Including the advisor, the doctoral degree requires five members (including four UW–Madison graduate faculty members), and the master's degree requires three members (including two UW–Madison graduate faculty members). Approval signatures of the committee members are required on the proposal.
6. The Graduate School will carefully review proposals to determine whether or not the program can be carried out within an established department or program, joint degrees, appropriate use of minors, or other available mechanisms. The suitability and degree of commitment of the committee for the proposed program will be examined.

7. The chairperson of the committee (usually the advisor) should be a member of the program to which the student originally had been admitted. That program should remain the keeper of the student's records and should make all appropriate nominations for financial aid.
8. The Graduate School is concerned about maintaining active participation by all members of special degree committees in the ongoing program of the student and asks the individual members of the committee to assume program responsibilities provided institutionally in a conventional program. Faculty members who are willing to serve on these committees should be prepared to participate fully in all aspects of the student's program from the beginning, especially where they must provide the necessary expertise in their particular areas of interest.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

Since the curriculum of the special graduate committee degree will vary, students must work closely with their faculty advisor and committee to make sure they are completing all necessary coursework and other requirements.

HISTORY

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- History of Science, Medicine and Technology, Doctoral Minor (p. 942)
- History of Science, Medicine and Technology, M.A. (p. 942)
- History of Science, Medicine and Technology, Ph.D. (p. 948)
- History, Doctoral Minor (p. 953)
- History, M.A. (p. 953)
- History, Ph.D. (p. 958)
- Medieval Studies, Doctoral Minor (p. 964)

PEOPLE

See the History department webpage for a full directory of faculty (<https://history.wisc.edu/people-main/faculty-listed-alphabetically/>).

Also see our faculty affiliate (<https://history.wisc.edu/people-main/faculty-affiliates/>) and teaching associate (<https://history.wisc.edu/people-main/teaching-associates/>) profiles.

HISTORY OF SCIENCE, MEDICINE AND TECHNOLOGY, DOCTORAL MINOR

Students in other degree programs who wish to pursue a minor in the History of Science, Medicine, and Technology (HSMT) degree program must reach an agreement on an appropriate plan of study with an HSMT faculty member, who serves as the minor advisor. The "Minor Agreement for Non-History Majors" form can be found on the Department of History's website (<https://history.wisc.edu/wp-content/uploads/sites/202/2018/07/graduate-minoragreement-nonhistorymajors.pdf>), and must be approved by the graduate program coordinator and the director of graduate studies prior to the beginning of coursework.

REQUIREMENTS

CREDITS REQUIRED: 9

Any History of Science (http://guide.wisc.edu/courses/hist_sci/) courses that fit within the following criteria may be used to fulfill the nine-credit requirement:

- At least 6 credits in graduate seminars, and no more than 3 credits in undergraduate courses.
- HIST SCI 990 Research and Thesis may not be used to fulfill the minor requirement.
- The minor field may include up to 3 credits of HIST SCI 999 Independent Work, provided that the student produces at least 15 pages of written work.

PEOPLE

See the History department webpage for a full directory of faculty (<https://history.wisc.edu/people-main/faculty-listed-alphabetically/>).

Also see our faculty affiliate (<https://history.wisc.edu/people-main/faculty-affiliates/>) and teaching associate (<https://history.wisc.edu/people-main/teaching-associates/>) profiles.

HISTORY OF SCIENCE, MEDICINE AND TECHNOLOGY, M.A.

One of the oldest, most prestigious academic programs of its kind in the United States, History of Science, Medicine, and Technology (HSMT) draws together faculty members in History and in Medical History and Bioethics (<http://medhist.wisc.edu/>). Collectively, we offer broad coverage of the field, with expertise that spans Europe, the United States, Africa, and the Caribbean, stretches from the Middle Ages to the recent past, and ranges across the physical, biological, and social sciences to medicine and technology.

Our degree program in the History of Science, Medicine, and Technology is designed to meet the needs of the Ph.D. candidate, and we offer

funding (<https://history.wisc.edu/our-graduate-program/prospective-students/funding/>) only to students who intend to pursue the Ph.D. However, we also welcome applications from students who wish to earn only the M.A. if they have external funding or are self-funded. Students with doctoral training in one of the health professions may earn an M.A. in History of Medicine. It is also possible to earn a combined M.D./Ph.D. degree through the School of Medicine and Public Health's Medical Scientist Training Program (<https://www.med.wisc.edu/education/md-phd/>) and the HSMT degree program.

History of Science, Medicine, and Technology at UW–Madison is known for the strength and diversity of its areas of study and its warm, collegial environment. All historical aspects of science, medicine, and technology receive attention—from their internal development to their broader institutional, philosophical, religious, and literary contexts, as well as their relationships with print culture, visual culture, and material culture. Students and faculty regularly participate in the program's weekly Brown Bag and monthly colloquium series, both of which provide opportunities to present work, discuss professional issues, and engage with a wide range of on-campus and outside speakers.

Graduate students come to the History of Science, Medicine, and Technology degree program from a variety of backgrounds in the sciences and humanities and with diverse professional goals. The program maintains a policy of maximum flexibility and, insofar as possible, tailors the work required for the degree to fit the individual. Students are encouraged to undertake work in related programs such as history, philosophy, science, and technology studies and the various sciences.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a

Letters of Recommendation Required 3

All applicants must meet UW–Madison Graduate School's minimum applicant requirements (<https://grad.wisc.edu/admissions/requirements/>), in addition to the History Graduate Program requirements.

APPLICATION DEADLINE: DECEMBER 1ST

To apply, applicants must submit or declare the following in the online application (<https://grad.wisc.edu/apply/>):

History Supplemental Application

This section of the application asks you to provide information about your research interests, declare your preferred faculty advisors, and outline your prior language preparation (if any).

Writing Sample

Provide a sample that best illustrates the quality of your written work (optimally no more than 50 pages, double-spaced; maximum file size 6 MB).

Transcripts

Upload an unofficial copy of your transcript from all institutions attended, showing any undergraduate and graduate degrees awarded. If accepted, you will be required to send two official transcripts from each institution.

CV or Resumé

This should highlight your accomplishments and qualifications including academic honors or distinctions; professional, research, and/or teaching experience; and any publications.

Letters of recommendation

Provide contact information for the three individuals who will furnish recommendations on your behalf. (They will receive an upload link by email.) Your letter writers need not be historians, but they should be able to speak to your academic preparation to pursue historical studies at the graduate level.

Statement of purpose

The statement of purpose (2–3 pages, double-spaced) explains your reasons for graduate study. It may be the hardest part of the application to write, but it is also the most important. While you will likely include some autobiographical information, its primary purpose is to acquaint us with how your mind works. We want to know, for example, what kinds of intellectual problems and issues interest you, whose stories intrigue you, what sorts of analytical or narrative approaches you like to pursue, which historical writings you admire—and your reasons for these various preferences. Please help us understand your decision to enter the historical profession, especially at a time when the academic job market is in decline, and how you see your own role in it. There is no single right way to approach this part of the application, but we suggest that you bear in mind the usual cautions for personal writing: speak straightforwardly, in your own voice, and write as well as you know how.

INTERNATIONAL APPLICANTS

All international applicants must also meet the **English Proficiency** requirements (<https://grad.wisc.edu/admissions/requirements/>) set forth by the Graduate School.

For additional detail about the admissions process, please visit the Prospective Student (<https://history.wisc.edu/our-graduate-program/prospective-students/>) pages on our website.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

We offer funding only to students who intend to pursue the Ph.D.—an application for admission to our Ph.D. program, therefore, is an application for funding. We also welcome applications from students who have external funding or are self-funded, including those pursuing the M.A. only.*

MULTI-YEAR FUNDING PACKAGE

If you apply to the History of Science, Medicine, and Technology (HSMT) Ph.D. degree program without external or self-funding and are accepted, you will be offered a multiyear support package, which begins in your first year. The details of our support guarantees may vary by funding source, field of study, and other circumstances, and the guarantee is, of course, contingent on satisfactory progress and performance. Most of our support packages offer five years of support and begin with a fellowship year from the UW–Madison Graduate School, generously funded by the Wisconsin Alumni Research Foundation (<http://www.warf.org/stewardship/grants-support/current/grant.cmsx>). Our most distinguished packages include two years of fellowships:

- Graduate Research Scholar fellowships (<http://ls.wisc.edu/current-students/graduate-students/cgrs/>) for underrepresented students or first-generation college students—offered annually
- John A. Neu Fellowship in the History of Science, Medicine, and Technology—offered as endowment income permits

Additional years of guaranteed funding will come from employment as teaching assistants or project assistants or additional fellowships.

COMPETING FOR ADDITIONAL SUPPORT

All students in good standing can apply for writing prizes, conference travel awards, and supplements to external awards. Once graduate students have passed their preliminary examination and advanced to candidacy, they may apply for various departmental fellowships and research travel funding.

Further funding opportunities are available to students who have reached the advanced stages of dissertation writing. Our advanced dissertators may apply for teaching fellowships that give them the opportunity to design and teach an undergraduate course—the Merle Curti Teaching Fellowship (<https://history.wisc.edu/our-graduate-program/current-students/funding-opportunities/merle-curti-teaching-fellowship/>) (open field), the George L. Mosse Teaching Fellowship in European History (<https://mosseprogram.wisc.edu/>), and the William J. Courtenay Teaching Fellowship in ancient, medieval, or early modern European history. The William Coleman Dissertation Fellowship in the History of Science (<https://history.wisc.edu/our-graduate-program/current-students/funding-opportunities/>) supports one semester of advanced dissertation writing, as does the David and Greta Lindberg Distinguished Graduate Fellowship. (These fellowships are offered as often as endowment income

permits.) Thanks to funding provided by the Doris G. Quinn Foundation (<https://dorisquinnfoundation.org/>), we are also pleased to offer a dissertator fellowship, which supports the final year of dissertation writing in any field.

In addition, UW–Madison offers a wealth of other opportunities to compete for funding offered, for example, by the International Division (<http://international.wisc.edu/funding-your-international-experiences/>), the Institute for Research in the Humanities (<https://irh.wisc.edu/>), and the UW Graduate School (research and conference travel awards (<https://grad.wisc.edu/studentfunding/grantscomp/>)).

More details on our funding for current/continuing students are available here (<https://history.wisc.edu/our-graduate-program/current-students/funding-opportunities/>).

* If you wish to apply only for the HSMT MA (also known as the terminal MA) or for the MA in History of Medicine for Health Professionals, please describe your sources of support on the History Supplemental Application. For information on the cost of graduate study at UW–Madison, see this link (<https://grad.wisc.edu/admissions/cost/>).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	M.A.: 18 credits M.A. with history of medicine specialization: 24 credits
Minimum Graduate Coursework Requirement	21 must be completed in graduate-level coursework in the HSMT graduate program; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide).
Overall Graduate GPA Requirement	3.00 (3.25 after 4th semester of full-time study).
Other Grade Requirements	n/a
Assessments and Examinations	In order to receive the master's degree, students must pass the Second-Year Review (SYR). A passing review requires that students: complete a article-length research paper, fulfill one language requirement, clear all incompletes, fulfill any additional requirements for their specific field of study, submit a list of prelim fields along with a timeline for completing prelims, and receive a positive endorsement from the three faculty members on the review committee.
Language Requirements	M.A.: Demonstrate, at a minimum, reading knowledge of at least one language other than English. M.A. with history of medicine specialization: No foreign language requirement.

REQUIRED COURSES

M.A. Course Requirements

Code	Title	Credits
Required Courses		
HIST SCI 720	Proseminar: Historiography and Methods	3
HISTORY 701	History in a Global Perspective	1
HISTORY 800	Research Seminar in History (or an equivalent research seminar)	3
One course in at least three of the following distribution areas (see course options in Distribution Area Courses table below):		12
Science: Ancient through the Enlightenment		
Modern Science and Technology		
Medicine and Public Health		
Race, Gender, Class, and Religion in Science, Medicine, and Technology		
All HSMT Courses (http://guide.wisc.edu/courses/hist_sci/)		
Electives		11
Work with advisor to complete 11 additional credits in courses greater than 700		
Total Credits		30

Distribution Area Courses

Code	Title	Credits
Distribution Area 1: Science: Ancient through the Enlightenment

HIST SCI 615	The History of Evolutionary Thought	3

History of Medicine pathway¹

This pathway within the M.A. is intended for students with doctoral training in one of the health professions who wish to pursue a master's degree in the history of medicine.

Code	Title	Credits
Required Courses		
HIST SCI 720	Proseminar: Historiography and Methods	3
HIST SCI/HISTORY/ MED HIST 507	Health, Disease and Healing I	3-4
HIST SCI/HISTORY/ MED HIST 508	Health, Disease and Healing II	3-4
HIST SCI/ MED HIST 509	The Development of Public Health in America	3
STS 901	Science, Technology and Medicine in Society	3
Additional History of Medicine course		3
All Medical History Courses (http://guide.wisc.edu/courses/med_hist/)		
Additional History of Science course (300-600 level or above)		3
All History of Science Courses (http://guide.wisc.edu/courses/hist_sci/)		
Electives		9
Total Credits		30-32

1

These pathways are internal to the program and represent different pathways a student can follow to earn this degree. Pathways names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

M.A.: Total credits transferred for the M.A. degree may not exceed 12 credits. No credits earned more than five years before admission to the M.A. program may be used. No credits carrying a grade below B may be applied toward graduate credit requirements.

M.A. with history of medicine specialization¹: Students can apply up to 6 credits from previous professional advanced degree work in one of the health professions toward the M.A. degree. No credits earned more than five years before admission to the M.A. program may be used. No credits carrying a grade below B are transferable.

UW–Madison Undergraduate

No credits from a previous undergraduate degree are allowed to count toward our graduate degree.

UW–Madison University Special

M.A.: With program approval, students are allowed to count up to 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements. No credits carrying a grade below B are transferable.

M.A. with history of medicine specialization¹: No credits taken as a UW–Madison University Special student are allowed to count toward the degree.

1

These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>).

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeeabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)

- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

OTHER

Part time enrollment is permitted, full time preferred.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The Department of History is committed to training our students to develop skills required for a variety of careers both in and outside the academy. Although a large network of our alumni teach at colleges and universities in the U.S. and across the world, a number of our Ph.D.s have enjoyed considerable success outside the academy. They include recent graduates who are currently a museum curator, teachers at prestigious preparatory academies, a historian with the U.S. Secretary of Defense's POW/Missing Persons Agency, a CEO of an investment firm, an analyst for a defense contractor, an editor at a small press, and consultants working with non-profits in the human services, education, and public policy fields. In recent years we have undertaken a number of initiatives, detailed below, to broaden the training of our students for a wide array of careers.

Much of the preparation for the job market occurs informally and over the course of the student's graduate career—in the mentoring relationship between faculty advisor and student, in the presentation of student research in department venues, in the student's participation in professional conferences, and in early forms of professional publication. Coursework, such as for the minor requirement or certificates, can be an avenue to expanded competencies. The Center for Humanities, for example, offers a Public Humanities certificate (<http://humanities.wisc.edu/public-humanities/graduate-certificate/>). Be sure to explore the Graduate School's resources such as "The Versatile PhD" (<https://grad.wisc.edu/pd/versatilephd/>) and its Professional Development pages (<http://grad.wisc.edu/pd/>).

Whatever career paths interest you, we encourage you to plan ahead and discuss your options—early and often—with your faculty advisor(s), with the Director of Graduate Studies, or with the Graduate Coordinator.

PROFESSIONAL DEVELOPMENT SEMINARS

The Professional Development topics seminar is offered every semester (see Requirements (p. 950) for course number). It emphasizes building skills that are valuable both inside and outside the academy, such as managing the writing process, teaching college history, or communicating historical research to a broad, nonspecialist audience. Since it is a topics

course, more than one may be offered in a given semester. Recent topics include "Writing for Academy and Beyond," "Digital History," and "On the Job Market."

PROFESSIONAL DEVELOPMENT EVENTS

Throughout the year, the Graduate Program sponsors various workshops intended to help students negotiate specific milestones of graduate study and to assist them in preparing for and going on the job market as they near completion of the Ph.D. Our programming currently includes:

Preliminary Examination Workshop

This offers a discussion of the various requirements for preliminary examinations: how to assemble committees, compiling reading lists, Graduate School requirements, and more.

Curriculum Vitae Workshops

These workshops are designed for students at all levels, ranging from first-year students writing CVs for campus positions to advanced dissertators on the job market.

Mock Interviews

The Graduate Program offers a series of opportunities to practice with a committee of our faculty for AHA interviews and on-campus job talks. They are open to a limited number of students who expect to be actively on the job market in the fall.

Careers in History Workshops

Our program is committed to helping its graduates seek and secure employment following the completion of their Ph.D. Since the financial crisis in 2008, the academic job market has softened markedly. While the Graduate Program continues to provide outstanding preparation for academic jobs, we also encourage our students to think more broadly about their career prospects and the transferability of their skills. As funds permit, we occasionally bring to campus History graduates who are working in the non-profit, private, or public-sector to meet with current graduate students and share their experience. We also offer opportunities to learn best practices for post-doctoral fellowship applications.

LEARNING OUTCOMES

1. Articulates, critiques, or elaborates the theories, research methods, and approaches to inquiry in HSMT.
2. Identifies sources and assembles evidence pertaining to questions or problems in HSMT.
3. Demonstrates understanding of science, medicine, and technology in a range of historical, social, cultural, and global contexts.
4. Chooses the most appropriate methodologies and practices for a chosen research project.
5. Demonstrates the ability to situate a historical question in relation to the existing literature, and to evaluate and synthesize information pertaining to questions or problems in HSMT.
6. Is able to construct a persuasive historical argument that makes an original contribution to historical knowledge.
7. Communicates clearly, in both written and oral form.
8. Recognizes and applies established principles of ethical and professional conduct.

PEOPLE

See the History department webpage for a full directory of faculty (<https://history.wisc.edu/people-main/faculty-listed-alphabetically/>).

Also see our faculty affiliate (<https://history.wisc.edu/people-main/faculty-affiliates/>) and teaching associate (<https://history.wisc.edu/people-main/teaching-associates/>) profiles.

HISTORY OF SCIENCE, MEDICINE AND TECHNOLOGY, PH.D.

One of the oldest, most prestigious academic programs of its kind in the United States, History of Science, Medicine, and Technology (HSMT) draws together faculty members in History and in Medical History & Bioethics (<http://medhist.wisc.edu/>). Collectively, we offer broad coverage of the field, with expertise that spans Europe, the United States, Africa, and the Caribbean, stretches from the Middle Ages to the recent past, and ranges across the physical, biological, and social sciences to medicine and technology.

Our degree program in the History of Science, Medicine, and Technology is designed to meet the needs of the Ph.D. candidate, and we offer funding (<https://history.wiscweb.wisc.edu/graduate/prospective-students/funding/>) only to students who intend to pursue the Ph.D. However, we also welcome applications from students who wish to earn only the M.A. if they have external funding or are self-funded. Students with doctoral training in one of the health professions may earn an M.A. in History of Medicine. It is also possible to earn a combined M.D./Ph.D. degree through the School of Medicine & Public Health's Medical Scientist Training Program (<https://www.med.wisc.edu/education/md-phd/>) and the HSMT degree program.

History of Science, Medicine, and Technology at UW–Madison is known for the strength and diversity of its areas of study and its warm, collegial environment. All historical aspects of science, medicine, and technology receive attention—from their internal development to their broader institutional, philosophical, religious, and literary contexts, as well as their relationships with print culture, visual culture, and material culture. Students and faculty regularly participate in the program's weekly Brown Bag and monthly colloquium series, both of which provide opportunities to present work, discuss professional issues, and engage with a wide range of on-campus and outside speakers.

Graduate students come to the HSMT degree program from a variety of backgrounds in the sciences and humanities and with diverse professional goals. The program maintains a policy of maximum flexibility and, insofar as possible, tailors the work required for the degree to fit the individual. Students are encouraged to undertake work in related programs such as history, philosophy, science and technology studies, and the various sciences. Joint degrees in HSMT and another degree program are also possible (see below). Our graduates pursue research and teaching careers in the history of science, medical history, history of technology, intellectual and cultural history, science in general education programs, science writing, and museum work.

JOINT PH.D. IN HISTORY AND HISTORY OF SCIENCE

Students who wish to obtain a joint Ph.D. in History and the History of Science, Medicine, and Technology are initially admitted to one of the degree programs, and should indicate interest in the joint Ph.D. program at that time. After completion of a master's degree in History or History of Science, Medicine, and Technology, the student applies for admission to the other degree program and, at the same time, to a standing committee of the two programs for admission to the joint program.

Having been admitted to the other degree program and to the joint Ph.D. program, the student then applies to the Graduate School for approval of the joint Ph.D. (See the Graduate School's academic policy regarding joint degrees (<http://grad.wisc.edu/acadpolicy/>) for more information and deadlines.) The student's application to the standing committee should take the same form as required by the Graduate School and should be prepared in close consultation with department faculty/staff.

Students in the joint Ph.D. program are assigned a home degree program and follow the regulations of that degree program with regard to seminar requirements, language requirements, financial aid, and regulations for satisfactory progress. Since the joint Ph.D. meets the doctoral minor requirement of the Graduate School, no formal minor is required of students receiving a joint Ph.D. However, students who wish to have a minor field recorded on the transcript may complete a regular Option A or Option B minor, or the internal minor of the department.

The joint Ph.D. student's work is supervised by a committee consisting of three faculty members (two from the home degree program). The preliminary examinations test the student's competence in both history and history of science, medicine, and technology, balancing the material and fields between the two departments (e.g. two in each, or three in one and two in the other). The number of prelim fields must equal the number required of students majoring exclusively in history or in history of science, medicine, and technology, plus one. Preparation of the Ph.D. dissertation is guided by the student's supervising committee. Satisfactory completion and defense of the dissertation constitute the final requirements for the joint Ph.D. degree.

JOINT PH.D. WITH OTHER DEGREE PROGRAMS

Students in the History of Science, Medicine, and Technology degree program who wish to pursue a joint Ph.D. (one degree, two majors) with another degree program must first be admitted to the other degree program. The proposal for the degree must be approved by the Department of History's Graduate Council before it is submitted to the Graduate School. Students admitted to a joint Ph.D. will satisfy all the normal requirements of their field in History except the minor requirement.

In past years, HSMT students have successfully completed a joint Ph.D. with the Philosophy, Classics, Psychology, History, Chemistry, Mathematics, and Physics degree programs.

For more information on joint Ph.D. options, please contact the graduate program coordinator.

PROGRAM IN GENDER AND WOMEN'S HISTORY (PGWH)

Working under the supervision of a PGWH faculty member, History of Science, Medicine, and Technology students may organize their studies to emphasize gender, women's history, or sexuality. They meet all their HSMT requirements, take the PGWH core seminar on transnational

gender history, and take at least two additional History or HSMT graduate seminars that are gender-specific.

Applicants to the HSMT degree program who wish to be considered for the concentration in gender and women's history should indicate this on their Graduate School application.

For more details, see Program in Gender and Women's History (<https://history.wisc.edu/fields-programs-and-working-groups/program-in-gender-and-womens-history/>) or contact the graduate program coordinator.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

All applicants must meet UW-Madison Graduate School's minimum applicant requirements (<https://grad.wisc.edu/admissions/requirements/>), in addition to the below History Graduate Program requirements described below.

APPLICATION DEADLINE: DECEMBER 1ST

To apply, applicants must submit or declare the following in the online application (<https://grad.wisc.edu/apply/>):

History Supplemental Application

This section of the application asks you to provide information about your research interests, declare your preferred faculty advisors, and outline your prior language preparation (if any).

Writing Sample

Provide a sample that best illustrates the quality of your written work (optimally no more than 50 pages, double-spaced; maximum file size 6 MB).

Transcripts

Upload an unofficial copy of your transcript from all institutions attended, showing any undergraduate and graduate degrees awarded. If accepted, you will be required to send two official transcripts from each institution.

CV or Resumé

This should highlight your accomplishments and qualifications including academic honors or distinctions; professional, research, and/or teaching experience; and any publications.

Letters of recommendation

Provide contact information for the three individuals who will furnish recommendations on your behalf. (They will receive an upload link by email.) Your letter writers need not be historians, but they should be able to speak to your academic preparation to pursue historical studies at the graduate level.

Statement of purpose

The statement of purpose (2–3 pages, double-spaced) explains your reasons for graduate study. It may be the hardest part of the application to write, but it is also the most important. While you will likely include some autobiographical information, its primary purpose is to acquaint us with how your mind works. We want to know, for example, what kinds of intellectual problems and issues interest you, whose stories intrigue you, what sorts of analytical or narrative approaches you like to pursue, which historical writings you admire—and your reasons for these various preferences. Please help us understand your decision to enter the historical profession, especially at a time when the academic job market is in decline, and how you see your own role in it. There is no single right way to approach this part of the application, but we suggest that you bear in mind the usual cautions for personal writing: speak straightforwardly, in your own voice, and write as well as you know how.

INTERNATIONAL APPLICANTS

All international applicants must also meet the **English Proficiency** requirements (<https://grad.wisc.edu/admissions/requirements/>) set forth by the Graduate School.

For additional detail about the admissions process, please visit the Prospective Student (<https://history.wisc.edu/our-graduate-program/prospective-students/>) pages on our website.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

We offer funding only to students who intend to pursue the Ph.D.—an application for admission to our Ph.D. program, therefore, is an application for funding. We also welcome applications from students who have

external funding or are self-funded, including those pursuing the M.A. only.*

MULTI-YEAR FUNDING PACKAGE

If you apply to the History of Science, Medicine, and Technology (HSMT) Ph.D. degree program without external or self-funding and are accepted, you will be offered a multi-year support package, which begins in your first year. The details of our support guarantees may vary by funding source, field of study, and other circumstances, and the guarantee is, of course, contingent on satisfactory progress and performance. Most of our support packages offer 5 years of support and begin with a fellowship year from the UW–Madison Graduate School, generously funded by the Wisconsin Alumni Research Foundation (<http://www.warf.org/stewardship/grants-support/current/current-grant.cmsx>). Our most distinguished packages include two years of fellowships:

- Graduate Research Scholar fellowships (<http://ls.wisc.edu/current-students/graduate-students/cgrs/>) for underrepresented students or first-generation college students—offered annually
- John A. Neu Fellowship in the History of Science, Medicine, and Technology—offered as endowment income permits

Additional years of guaranteed funding will come from employment as teaching assistants or project assistants or additional fellowships.

COMPETING FOR ADDITIONAL SUPPORT

All students in good standing can apply for writing prizes, conference travel awards, and supplements to external awards. Once graduate students have passed their preliminary examination and advanced to candidacy, they may apply for various departmental fellowships and research travel funding.

Further funding opportunities are available to students who have reached the advanced stages of dissertation writing. Our advanced dissertators may apply for teaching fellowships that give them the opportunity to design and teach an undergraduate course—the Merle Curti Teaching Fellowship (<https://history.wisc.edu/graduate/prospective-students/funding/merle-curti-teaching-fellowship/>) (open field), the George L. Mosse Teaching Fellowship in European History (<https://mosseprogram.wisc.edu/exchange/>), and the William J. Courtenay Teaching Fellowship in ancient, medieval, or early modern European history. The William Coleman Dissertation Fellowship in the History of Science (<https://history.wisc.edu/our-graduate-program/current-students/funding-opportunities/>) supports one semester of advanced dissertation writing, as does the David and Greta Lindberg Distinguished Graduate Fellowship. (These fellowships are offered as often as endowment income permits.) Thanks to funding provided by the Doris G. Quinn Foundation (<https://dorisquinnfoundation.org/>), we are also pleased to offer a dissertator Fellowship, which supports the final year of dissertation writing in any field.

In addition, UW–Madison offers a wealth of other opportunities to compete for funding offered, for example, by the International Division (<http://international.wisc.edu/funding-your-international-experiences/>), the Institute for Research in the Humanities (<http://irh.wisc.edu>), and the UW Graduate School (research and conference travel awards (<https://grad.wisc.edu/studentfunding/grantscomp/>)).

More details on our funding for current/continuing students are available here (<https://history.wisc.edu/our-graduate-program/current-students/funding-opportunities/>).

* If you wish to apply only for the HSMT M.A. (also known as the terminal M.A.) or for the M.A. in History of Medicine for Health Professionals, please describe your sources of support on the History Supplemental Application. For information on the cost of graduate study at UW–Madison, see this link (<https://grad.wisc.edu/admissions/cost/>).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	26 credits must be graduate-level coursework. Details can be found in the Graduate School’s Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244).
Overall Graduate GPA Requirement	3.25 GPA required.
Other Grade Requirements	n/a

Assessments and Examinations In order to receive the History Ph.D., all students must pass the preliminary exam and the Ph.D. dissertation defense.

Preliminary Examination: Each field of study has its own exact requirements for prelims, but all include written exams and an oral defense of the student's research proposal and knowledge of the field.

Ph.D. Dissertation Defense: Two-hour oral exam focusing on the student's written dissertation.

Language Requirements The HSMT Ph.D. requires proficiency in a foreign language and either a second foreign language or the use of an analytical tool as described below. Students who are working toward a degree as part of a combined M.D./Ph.D. program only need to demonstrate proficiency in one foreign language.

Students must demonstrate proficiency in a language other than English in order to pass the Second-Year Review. Students must also demonstrate proficiency in either a second language other than English or the use of an analytical tool (e.g. statistical methods, visual culture methods, ethnography) before achieving dissertator (ABD) status. If a student chooses the option of an analytical tool, the student must submit a proposal to be approved by the HSMT faculty. Once approved, the student must complete 9 credits appropriate to gaining competency in the use of this set of tools. Students must make at least a 3.0 (B grade or better) in these courses. Credits taken towards a graduate minor may not be used towards the completion of the analytical tool option.

ABD status, with its attendant reduction in tuition, is contingent upon satisfying these two requirements.

Doctoral Minor All doctoral students are required to complete a minor or Graduate/Professional certificate (9 credits minimum).

REQUIRED COURSES

Students must first complete the requirements for the History of Science, Medicine and Technology M.A. (<https://guide.wisc.edu/graduate/history/history-science-medicine-technology-ma/#requirementstext>)

In addition to completing the M.A. course requirements, Ph.D. students must complete two seminars at the 700 level or higher, their doctoral minor or graduate/professional certificate (9 credits), and they must gain proficiency in a second foreign language prior to taking the preliminary examination. After passing the preliminary examination, students register for HISTORY 990 Research and Thesis credits every semester until they deposit their dissertation. Students are also recommended to take HISTORY 999 Independent Work and HISTORY 710 Professional Development Seminar.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The Department of History is committed to training our students to develop skills required for a variety of careers both in and outside the academy. Although a large network of our alumni teach at colleges and universities in the U.S. and across the world, a number of our Ph.D.s have enjoyed considerable success outside the academy. They include recent graduates who are currently a museum curator, teachers at prestigious preparatory academies, a historian with the U.S. Secretary of Defense's POW/Missing Persons Agency, a CEO of an investment firm, an analyst for a defense contractor, an editor at a small press, and consultants working with non-profits in the human services, education, and public policy fields. In recent years we have undertaken a number of initiatives, detailed below, to broaden the training of our students for a wide array of careers.

Much of the preparation for the job market occurs informally and over the course of the student's graduate career—in the mentoring relationship between faculty advisor and student, in the presentation of student research in department venues, in the student's participation in professional conferences, and in early forms of professional publication. Coursework, such as for the minor requirement or certificates, can be an avenue to expanded competencies. The Center for Humanities, for example, offers a Public Humanities certificate (<http://humanities.wisc.edu/public-humanities/graduate-certificate/>). Be sure to explore the Graduate School's resources such as "The Versatile PhD" (<https://grad.wisc.edu/pd/versatilephd/>) and its Professional Development pages (<http://grad.wisc.edu/pd/>).

Whatever career paths interest you, we encourage you to plan ahead and discuss your options—early and often—with your faculty advisor(s), with the Director of Graduate Studies, or with the Graduate Coordinator.

PROFESSIONAL DEVELOPMENT SEMINARS

The Professional Development topics seminar is offered every semester (see Requirements (p. 950) for course number). It emphasizes building skills that are valuable both inside and outside the academy, such as managing the writing process, teaching college history, or communicating historical research to a broad, nonspecialist audience. Since it is a topics course, more than one may be offered in a given semester. Recent topics include "Writing for Academy and Beyond," "Digital History," and "On the Job Market."

PROFESSIONAL DEVELOPMENT EVENTS

Throughout the year, the Graduate Program sponsors various workshops intended to help students negotiate specific milestones of graduate study and to assist them in preparing for and going on the job market as they near completion of the Ph.D. Our programming currently includes:

Preliminary Examination Workshop

This offers a discussion of the various requirements for preliminary examinations: how to assemble committees, compiling reading lists, Graduate School requirements, and more.

Curriculum Vitae Workshops

These workshops are designed for students at all levels, ranging from first-year students writing CVs for campus positions to advanced dissertators on the job market.

Mock Interviews

The Graduate Program offers a series of opportunities to practice with a committee of our faculty for AHA interviews and on-campus job talks.

They are open to a limited number of students who expect to be actively on the job market in the fall.

Careers in History Workshops

Our program is committed to helping its graduates seek and secure employment following the completion of their Ph.D. Since the financial crisis in 2008, the academic job market has softened markedly. While the Graduate Program continues to provide outstanding preparation for academic jobs, we also encourage our students to think more broadly about their career prospects and the transferability of their skills. As funds permit, we occasionally bring to campus History graduates who are working in the non-profit, private, or public-sector to meet with current graduate students and share their experience. We also offer opportunities to learn best practices for post-doctoral fellowship applications.

LEARNING OUTCOMES

1. Articulates research problems clearly and understands the limits of current theories, knowledge, or practices within HSMT.
2. Pushes the boundaries of current knowledge in HSMT in formulating research questions, in the selection or use of primary sources, or in interpreting evidence.
3. Demonstrates breadth within their learning experiences.
4. Communicates complex ideas in a clear and understandable manner.
5. Gains appropriate experience relating to designing and teaching university-level courses.
6. Is able to articulate the broader significance of their work and the discipline of HSMT to scholars in other fields or disciplines and to the wider public.
7. Fosters ethical and professional conduct.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

Total credits transferred for the Ph.D. requirements, including those approved for the M.A., may not exceed 19 credits. No credits earned more than ten years before admission to the Ph.D. program may be used. A maximum of 5 credits earned between five and ten years before admission to the Ph.D. program may be used. No credits carrying a grade below B may be applied toward graduate credit requirements.

UW–Madison Undergraduate

No credits from a previous undergraduate degree are allowed to count toward our graduate degree.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned ten or more years prior to

admission to a doctoral degree is not allowed to satisfy requirements. No credits carrying a grade below B are transferable.

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>).

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

OTHER

n/a

PEOPLE

See the History department webpage for a full directory of faculty (<https://history.wisc.edu/people-main/faculty-listed-alphabetically/>).

Also see our faculty affiliate (<https://history.wisc.edu/people-main/faculty-affiliates/>) and teaching associate (<https://history.wisc.edu/people-main/teaching-associates/>) profiles.

HISTORY, DOCTORAL MINOR

Students in other degree programs who wish to pursue a minor in the History degree program must reach an agreement on an appropriate plan of study with a History faculty member, who serves as the minor advisor. The "Minor Agreement for Non-History Majors" form can be found on the Department of History's website (<https://history.wisc.edu/wp-content/uploads/sites/202/2018/07/graduate-minoragreement-nonhistorymajors.pdf>), and must be approved by the Graduate Program Coordinator and the Director of Graduate Studies prior to the beginning of coursework.

REQUIREMENTS

CREDITS REQUIRED: 9

Any History (<http://guide.wisc.edu/courses/history/>) courses that fit within the following criteria may be used to fulfill the 9-credit requirement:

- At least 6 credits in graduate seminars, and no more than 3 credits in undergraduate courses.
- HISTORY 990 Research and Thesis may not be used to fulfill the minor requirement
- The minor field may include up to 3 credits of HISTORY 999 Independent Work, provided that the student produces at least 15 pages of written work

PEOPLE

See the History department webpage for a full directory of faculty (<https://history.wisc.edu/people-main/faculty-listed-alphabetically/>).

Also see our faculty affiliate (<https://history.wisc.edu/people-main/faculty-affiliates/>) and teaching associate (<https://history.wisc.edu/people-main/teaching-associates/>) profiles.

HISTORY, M.A.

With some 130 graduate students and nearly 60 faculty members, the Department of History is home to one of the oldest, most distinguished, and most comprehensive graduate programs in the US, renowned for its long and valued tradition of collegiality and openness. We offer separate graduate degrees in History and in the History of Science, Medicine, and Technology. All told, our internationally recognized faculty (<https://history.wisc.edu/people-main/faculty-listed-alphabetically/>) has been

mentoring distinguished historians since 1893 (<https://history.wisc.edu/our-graduate-program/doctorates-awarded/>).

Our degree program in History is designed to meet the needs of the Ph.D. candidate, and we offer funding (<https://history.wisc.edu/graduate/prospective-students/funding/>) only to students who intend to pursue the Ph.D. However, we also welcome applications from students who wish to earn only the M.A. if they have external funding or are self-funded.

Graduate training in the History degree program is organized by primary fields of study. Although most of our students are trained in a single field of study, students whose research interests span more than one field have the option to craft an individual plan of study (<https://history.wisc.edu/graduate/individual-plan-of-study/>).

We offer the following primary fields of study (<https://history.wisc.edu/fields-programs/>) in the History degree program:

- African History
- East Asian History
- European History—Ancient, Medieval, Early Modern, and Modern
- Latin American and Caribbean History
- Middle East and North African History
- South Asian History
- Southeast Asian History
- US/North American History

Within their primary field of study, students also have the opportunity to organize their studies thematically. Our faculty's special thematic strengths (<https://history.wiscweb.wisc.edu/people-main/faculty-by-area-of-specialty/>) are in:

- Borderlands and diasporas
- Environmental history
- Gender and Women's History, Program in (<https://history.wisc.edu/fields-programs-and-working-groups/program-in-gender-and-womens-history/>)
- History of Science, Medicine, and Technology (<https://history.wisc.edu/fields-programs-and-working-groups/history-of-science-medicine-and-technology/faculty-associates-affiliates/>)
- Intellectual and cultural history
- Jewish History, Program in (<https://history.wisc.edu/fields-programs-and-working-groups/program-in-jewish-history/>)
- Labor and political economy
- Race, ethnicity, and indigeneity
- Religion and ritual
- War in Society and Culture Program (<https://history.wisc.edu/fields-programs-and-working-groups/war-in-society-and-culture-program/>)

Our faculty train resourceful researchers, committed teachers, and engaged public intellectuals. We offer a rigorous course of study that combines independent and collaborative work and that emphasizes scholarly and intellectual connectedness. The department strongly supports the Wisconsin Idea (<https://www.wisc.edu/wisconsin-idea/>), the principle that education should influence and improve people's lives beyond the university classroom. For more than 100 years, this idea has guided the university's work. Students pursue a variety of careers, both inside and outside the academy.

OTHER DEGREE OPTIONS INCLUDE:

BRIDGE PROGRAM WITH UW–MADISON'S DEPARTMENT OF AFRICAN-AMERICAN STUDIES

This academic partnership is designed to allow students to complete the M.A. in the Department of African American Studies and the Ph.D. in History. It enables the African American Studies student who specializes in the History area to meet the basic requirements of the History M.A. while completing a degree in African American Studies. Students may apply simultaneously to the two departments or may apply to the Department of History after they begin their program in the Department of African American Studies, usually in the fall of the first or second M.A. year.

For details, see The Bridge Program (<https://history.wiscweb.wisc.edu/our-graduate-program/bridge-program/>) or contact the graduate program coordinator.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

All applicants must meet UW–Madison Graduate School's minimum applicant requirements (<https://grad.wisc.edu/admissions/requirements/>), in addition to the below History Graduate Program requirements described below.

APPLICATION DEADLINE: DECEMBER 1

To apply, applicants must submit or declare the following in the online application (<https://grad.wisc.edu/apply/>):

History Supplemental Application

This section of the application asks you to provide information about your research interests, declare your preferred faculty advisors, and outline your prior language preparation (if any).

Writing Sample

Provide a sample that best illustrates the quality of your written work (optimally no more than 50 pages, double-spaced; maximum file size 6 MB).

Transcripts

Upload an unofficial copy of your transcript from all institutions attended, showing any undergraduate and graduate degrees awarded. If accepted, you will be required to send two official transcripts from each institution.

CV or Resumé

This should highlight your accomplishments and qualifications including academic honors or distinctions; professional, research, and/or teaching experience; and any publications.

Letters of recommendation

Provide contact information for the three individuals who will furnish recommendations on your behalf. (They will receive an upload link by email.) Your letter writers need not be historians, but they should be able to speak to your academic preparation to pursue historical studies at the graduate level.

Statement of purpose

The statement of purpose (2–3 pages, double-spaced) explains your reasons for graduate study. It may be the hardest part of the application to write, but it is also the most important. While you will likely include some autobiographical information, its primary purpose is to acquaint us with how your mind works. We want to know, for example, what kinds of intellectual problems and issues interest you, whose stories intrigue you, what sorts of analytical or narrative approaches you like to pursue, which historical writings you admire—and your reasons for these various preferences. Please help us understand your decision to enter the historical profession, especially at a time when the academic job market is in decline, and how you see your own role in it. There is no single right way to approach this part of the application, but we suggest that you bear in mind the usual cautions for personal writing: speak straightforwardly, in your own voice, and write as well as you know how.

INTERNATIONAL APPLICANTS

All international applicants must also meet the **English Proficiency** requirements (<https://grad.wisc.edu/admissions/requirements/>) set forth by the Graduate School.

For additional detail about the admissions process, please visit the Prospective Student (<https://history.wisc.edu/our-graduate-program/prospective-students/>) pages on our website.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School.

Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

We offer funding only to students who intend to pursue the Ph.D.—an application for admission to our Ph.D. program, therefore, is an application for funding. We also welcome applications from students who have external funding or are self-funded, including those pursuing the M.A. only.*

MULTI-YEAR FUNDING PACKAGE

If you apply to the History Ph.D. degree program without external or self-funding and are accepted, you will be offered a multiyear support package, which begins in your first year. The details of our support guarantees may vary by funding source, field of study, and other circumstances, and the guarantee is, of course, contingent on satisfactory progress and performance. Most of our support packages offer 5 years of support and begin with a fellowship year from the UW–Madison Graduate School, generously funded by the Wisconsin Alumni Research Foundation (<http://www.warf.org/stewardship/grants-support/current/current-grant.cmsx>). Our most distinguished packages include two years of fellowships and may also include summer support:

- Graduate Research Scholar fellowships (<http://ls.wisc.edu/current-students/graduate-students/cgrs/>) for underrepresented students or first-generation college students—offered annually
- George L. Mosse fellowships in modern Jewish history, European cultural history, or LGBTQ history—offered annually or as endowment income permits
- Julie A. and Peter M. Weil Fellowship (<https://history.wisc.edu/our-graduate-program/prospective-students/julie-a-and-peter-m-weil-distinguished-graduate-fellowship/>) in American Jewish history and select U.S. history fields—offered annually or as endowment income permits
- William J. Courtenay Fellowship in Medieval history—offered as funds permit
- Gerda Lerner Fellowship (<https://history.wisc.edu/our-graduate-program/prospective-students/funding/>) in women's history—offered as funds permit

Additional years of guaranteed funding will come from employment as teaching assistants or project assistants or additional fellowships.

COMPETING FOR ADDITIONAL SUPPORT

All students in good standing can apply for writing prizes, conference travel awards, and supplements to external awards. Once graduate students have passed their preliminary examination and advanced to candidacy, they may apply for various departmental fellowships and research travel funding.

For students who have reached the advanced stages of dissertation writing, further funding opportunities are available. Our advanced dissertators may apply for teaching fellowships that give them the opportunity to design and teach an undergraduate course—the Merle Curti Teaching Fellowship (<https://history.wisc.edu/our-graduate-program/current-students/funding-opportunities/merle-curti-teaching-fellowship/>) (any field of study), the George L. Mosse Teaching Fellowship in European History, and the William J. Courtenay Teaching Fellowship in ancient, medieval, or early modern European history. (These fellowships are offered as often as endowment income permits.) Thanks to funding provided by the Doris G. Quinn Foundation

(<https://dorisquinnfoundation.org/>), we are also pleased to offer a dissertator fellowship, which provides financial support for the final year of dissertation writing in any field.

In addition, UW–Madison offers a wealth of other opportunities to compete for funding offered, for example, by the International Division (<http://international.wisc.edu/funding-your-international-experiences/>), the Institute for Research in the Humanities (<http://irh.wisc.edu>), and the UW Graduate School (research and conference travel awards (<https://grad.wisc.edu/studentfunding/grantscomp/>)).

More details on our funding for current/continuing students are available here (<https://history.wisc.edu/our-graduate-program/current-students/funding-opportunities/>).

* If you wish to apply only for the History M.A. (also known as the terminal M.A.), please describe your sources of support on the History Supplemental Application. For information on the cost of graduate study at UW–Madison, see this link (<https://grad.wisc.edu/admissions/cost/>).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum	30 credits
Credit	
Requirement	

Minimum Residence Credit Requirement	24 credits
Minimum Graduate Coursework Requirement	15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 (3.25 after 4th semester of full-time study)
Other Grade Requirements	n/a
Assessments and Examinations	In order to receive the Master's Degree in History, students must pass the Second-Year Review (SYR). A passing review requires that students: complete an article-length research paper, fulfill one language requirement, clear all incompletes, fulfill any additional requirements for their specific field of study, submit a list of prelim fields along with a timeline for completing prelims, and receive a positive endorsement from the three faculty members on the review committee.
Language Requirements	All students must demonstrate, at a minimum, reading knowledge of at least one language other than English. Each field of study determines which languages may be used to satisfy the language requirement; see below for details.

REQUIRED COURSES

Code	Title	Credits
Required Courses		
HISTORY 701	History in a Global Perspective	1
HISTORY 800	Research Seminar in History (or an equivalent research seminar in the student's field of study) ¹	3
Electives		
Work with advisor to complete 26 credits of graduate-level courses		26
All History Courses (http://guide.wisc.edu/courses/history/)		
Total Credits		30
1		

Alternative course options: HISTORY 855 Seminar in Japanese History for students studying East Asian History, HISTORY 861 Seminar-The History of Africa for students studying African History.

• Additional M.A. Requirements by fields of study¹

1

These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

African History

Course Requirements: Each student must enroll in a seminar or proseminar (if available) every semester of residence. In their first year, they may enroll in History lecture courses in their area of specialization. Undergraduate

lecture courses may not be taken for credit after the first year of graduate study. With approval, students can take AFRICAN (<https://guide.wisc.edu/courses/african/>) courses.

Language Requirements: Students must fulfill their M.A. language requirement with an African language.

Central Asian History

No special field requirements. Students should choose courses in consultation with their advisor in History numbered 300 or above. The language requirement varies according to the student's research interest.

East Asian History

Course Requirements: Students must complete four graduate courses in East Asian history. These can be upper-division lecture courses or graduate seminars/colloquia (taken for a minimum of 12 credits). At least two of these courses should be in the major field, and at least one should be outside the major field. NOTE: Students should also begin fulfilling the course requirements that must be completed prior to taking preliminary examination. They are required to take one semester each of Chinese, Japanese, and Korean history. They may fulfill this requirement by taking a graduate seminar or an upper-division lecture course. They may also fulfill the requirement by serving as a TA in either an introductory or upper-division course. Students are also required to take HISTORY 703 History and Theory.

Language Requirements: Students must complete the eighth semester in their main language (Chinese, Japanese, or Korean) by the time they either undergo the Second-Year Review or complete their fourth semester of coursework.

European History

Language Requirements: Students in Medieval History must demonstrate proficiency in two foreign languages, usually one medieval and one modern.

Latin American and Caribbean History

Course Requirements: Each student must enroll in a seminar or proseminar (if available) every semester of residence. Other courses will include History graduate seminars or similar courses in the culture area of specialization. Undergraduate lecture courses may not be taken for credit unless a faculty advisor or co-advisor approves.

Middle East and North African History

Proficiency in two languages, at least one of which must be a language of the Middle East or North Africa, is required. There are no other specific special field requirements; students choose courses in consultation with their advisor.

South Asian History

Course Requirements: Each student must enroll in a seminar or proseminar (if available) every semester of residence. In lieu of a History graduate course, they may substitute an independent study in History or a graduate seminar in another department. In their first year, they may enroll in History lecture courses in their area of specialization. Undergraduate lecture courses may not be taken for credit after the first year of graduate study.

Language Requirements: Students must complete two years of study in one South Asian language (or demonstrate equivalent proficiency by examination).

Southeast Asian History

Course Requirements: M.A. students shall take six credits of graduate seminar in Southeast Asian history each academic year or, if not available,

substitute credits of independent study with a faculty specialist in Southeast Asian history.

Language Requirements: Students must complete two years of study (or demonstrate equivalent proficiency by examination) in a Southeast Asian language or, with the approval of the Southeast Asian faculty, in a relevant colonial/imperial language.

United States History

Course Requirements: Students must take:

- The core seminar, HISTORY 900 Introduction to History for U.S. Historians, in the fall semester of their first year. This seminar introduces students to the U.S. History faculty and their fields of research and teaches students the core skills of professional historians.
- Three three-credit seminars that cover a significant portion of the seventeenth and/or eighteenth centuries, the nineteenth century, and the twentieth century, respectively. If a seminar falls into more than one category, the student may choose the single category for which they will receive credit.

In exceptional circumstances, student may, with the consent of their advisor, take up to six credits in upper-level undergraduate courses. The instructors of such courses have the prerogative to refuse admission to graduate students. NOTE: Prior to completing their preliminary examination, students may use no more than six credits of HISTORY 999 Independent Work to meet the requirements of the major field. Students will probably find it useful to preserve most, if not all, of their six credits of HISTORY 999 for preliminary examination preparation.

Program in Gender and Women's History Concentration

Course Requirements: Students must meet the requirements of their primary field of study; take HISTORY 752 Seminar in Transnational Gender History; and take at least two additional History graduate seminars that are gender-specific, i.e., that have at least a 50% focus on issues and analyses of gender, women, or sexuality.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count up to 6 credits of graduate coursework from other institutions.

UW–Madison Undergraduate

This program follows the Graduate School's policy for Satisfying Requirements with Coursework from Undergraduate Career at UW–Madison. (<https://policy.wisc.edu/library/UW-1216/>)

UW–Madison University Special

This program follows the Graduate School's policy for Transfer from UW–Madison University Special Student Career at UW–Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>).

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The Department of History is committed to training our students to develop skills required for a variety of careers both in and outside the academy. Although a large network of our alumni teach at colleges and universities in the U.S. and across the world, a number of our Ph.D.s have enjoyed considerable success outside the academy. They include recent graduates who are currently a museum curator, teachers at prestigious preparatory academies, a historian with the U.S. Secretary of Defense's POW/Missing Persons Agency, a CEO of an investment firm, an analyst for a defense contractor, an editor at a small press, and consultants working with non-profits in the human services, education, and public policy fields. In recent years we have undertaken a number of initiatives, detailed below, to broaden the training of our students for a wide array of careers.

Much of the preparation for the job market occurs informally and over the course of the student's graduate career—in the mentoring relationship between faculty advisor and student, in the presentation of student research in department venues, in the student's participation in professional conferences, and in early forms of professional publication. Coursework, such as for the minor requirement or certificates, can be an avenue to expanded competencies. The Center for Humanities, for example, offers a Public Humanities certificate (<http://humanities.wisc.edu/public-humanities/graduate-certificate/>). Be sure to explore the Graduate School's resources such as "The Versatile PhD (<https://grad.wisc.edu/pd/versatilephd/>)" and its Professional Development pages (<http://grad.wisc.edu/pd/>).

Whatever career paths interest you, we encourage you to plan ahead and discuss your options—early and often—with your faculty advisor(s), with the Director of Graduate Studies, or with the Graduate Coordinator.

PROFESSIONAL DEVELOPMENT SEMINARS (HISTORY 710)

This topics seminar is offered every semester. It emphasizes building skills that are valuable both inside and outside the academy, such as managing the writing process, teaching college history, or communicating historical research to a broad, nonspecialist audience. Since it is a topics course, more than one may be offered in a given semester. Recent topics include "Writing for Academy and Beyond," "Digital History," and "On the Job Market."

PROFESSIONAL DEVELOPMENT EVENTS

Throughout the year, the Graduate Program sponsors various workshops intended to help students negotiate specific milestones of graduate study and to assist them in preparing for and going on the job market as they near completion of the Ph.D. Our programming currently includes:

Preliminary Examination Workshop

This offers a discussion of the various requirements for preliminary examinations: how to assemble committees, compiling reading lists, Graduate School requirements, and more.

Curriculum Vitae Workshops

These workshops are designed for students at all levels, ranging from first-year students writing CVs for campus positions to advanced dissertators on the job market.

Mock Interviews

The Graduate Program offers a series of opportunities to practice with a committee of our faculty for AHA interviews and on-campus job talks. They are open to a limited number of students who expect to be actively on the job market in the fall.

Careers in History Workshops

Our program is committed to helping its graduates seek and secure employment following the completion of their Ph.D. Since the financial crisis in 2008, the academic job market has softened markedly. While the Graduate Program continues to provide outstanding preparation for academic jobs, we also encourage our students to think more broadly about their career prospects and the transferability of their skills. As funds permit, we occasionally bring to campus History graduates who are working in the non-profit, private, or public-sector to meet with current graduate students and share their experience. We also offer opportunities to learn best practices for post-doctoral fellowship applications.

LEARNING OUTCOMES

1. Articulates and critiques the theories, research methods, and approaches to historical inquiry in the student's primary field of study.
2. Demonstrates understanding of the primary field of study in a historical and global context.
3. Is able to identify and make appropriate use of relevant historical sources.
4. Demonstrates the ability to evaluate and synthesize large bodies of scholarship or evidence.
5. Is able to construct a significant and persuasive historical argument that makes an original contribution to historical knowledge.
6. Communicates complex ideas in a clear and understandable manner.
7. Recognizes and applies established principles of ethical and professional conduct.

PEOPLE

See the History department webpage for a full directory of faculty (<https://history.wisc.edu/people-main/faculty-listed-alphabetically/>).

Also see our faculty affiliate (<https://history.wisc.edu/people-main/faculty-affiliates/>) and teaching associate (<https://history.wisc.edu/people-main/teaching-associates/>) profiles.

HISTORY, PH.D.

With some 130 graduate students and nearly 60 faculty members, the Department of History is home to one of the oldest, most distinguished, and most comprehensive graduate programs in the U.S., renowned for its long and valued tradition of collegiality and openness. We offer separate

graduate degrees in History and in the History of Science, Medicine, and Technology. All told, our internationally recognized faculty (<https://history.wisc.edu/people-main/faculty-listed-alphabetically/>) has been mentoring distinguished historians since 1893 (<https://history.wisc.edu/our-graduate-program/doctorates-awarded/>).

Our degree program in History is designed to meet the needs of the Ph.D. candidate, and we offer funding (<https://history.wisc.edu/graduate/prospective-students/funding/>) only to students who intend to pursue the Ph.D. However, we also welcome applications from students who wish to earn only the M.A. if they have external funding or are self-funded.

Graduate training in the History degree program is organized by primary fields of study. Although most of our students are trained in a single field of study, students whose research interests span more than one field have the option to craft an individual plan of study (<https://history.wisc.edu/graduate/individual-plan-of-study/>).

We offer the following primary fields of study (<https://history.wisc.edu/fields-programs/>) in the History degree program:

- African History
- East Asian History
- European History—Ancient, Medieval, Early Modern, and Modern
- Latin American and Caribbean History
- Middle East and North African History
- South Asian History
- Southeast Asian History
- U.S./North American History

Within their primary field of study, students also have the opportunity to organize their studies thematically. Our faculty's special thematic strengths (<https://history.wisc.edu/people-main/faculty-by-area-of-specialty/>) are in:

- Borderlands and diasporas
- Environmental history
- Gender and Women's History, Program in (<https://history.wisc.edu/fields-programs-and-working-groups/program-in-gender-and-womens-history/>)
- History of Science, Medicine, and Technology (<https://history.wisc.edu/fields-programs-and-working-groups/history-of-science-medicine-and-technology/faculty-associates-affiliates/>)
- Intellectual and cultural history
- Jewish History, Program in (<https://history.wisc.edu/fields-programs-and-working-groups/program-in-jewish-history/>)
- Labor and political economy
- Race, ethnicity, and indigeneity
- Religion and ritual
- War in Society and Culture Program (<https://history.wisc.edu/fields-programs-and-working-groups/war-in-society-and-culture-program/>)

Our faculty train resourceful researchers, committed teachers, and engaged public intellectuals. We offer a rigorous course of study that combines independent and collaborative work and that emphasizes scholarly and intellectual connectedness. The department strongly supports the Wisconsin Idea (<https://www.wisc.edu/wisconsin-idea/>), the principle that education should influence and improve people's lives beyond the university classroom. For more than 100 years, this idea has

guided the university's work. Students pursue a variety of careers, both inside and outside the academy.

OTHER DEGREE OPTIONS INCLUDE:

BRIDGE PROGRAM WITH UW-MADISON'S AFRICAN AMERICAN STUDIES

This academic partnership designed is to allow students to complete the M.A. in African American Studies and the Ph.D. in History. It enables the African American Studies student who specializes in the History area to meet the basic requirements of the History M.A. while completing a degree in African American Studies. Students may apply simultaneously to the two departments or may apply to the Department of History after they begin their program in the Department of African American Studies, usually in the fall of the first or second M.A. year.

For details, see The Bridge Program (<https://history.wisc.edu/our-graduate-program/bridge-program/>) or contact the graduate program coordinator.

JOINT PH.D. IN HISTORY AND HISTORY OF SCIENCE

Students who wish to obtain a joint Ph.D. in History and the History of Science, Medicine, and Technology are initially admitted to one of the degree programs, and should indicate interest in the joint Ph.D. program at that time. After completion of a master's degree in History or History of Science, Medicine, and Technology, the student applies for admission to the other degree program and, at the same time, to a standing committee of the two programs for admission to the joint program.

Having been admitted to the other degree program and to the joint Ph.D. program, the student then applies to the Graduate School for approval of the joint Ph.D. (See the Graduate School's academic policy regarding joint degrees (<http://grad.wisc.edu/acadpolicy/>) for more information and deadlines.) The student's application to the standing committee should take the same form as required by the Graduate School and should be prepared in close consultation with department faculty/staff.

Students in the joint Ph.D. program are assigned a home degree program and follow the regulations of that degree program with regard to seminar requirements, language requirements, financial aid, and regulations for satisfactory progress. Since the joint Ph.D. meets the doctoral minor requirement of the Graduate School, no formal minor is required of students receiving a joint Ph.D. However, students who wish to have a minor field recorded on the transcript may complete a regular Option A or Option B minor, or the internal minor of the department.

The joint Ph.D. student's work is supervised by a committee consisting of three faculty members (two from the home degree program). The preliminary examinations test the student's competence in both history and history of science, medicine, and technology, balancing the material and fields between the two departments (e.g. two in each, or three in one and two in the other). The number of prelim fields must equal the number required of students majoring exclusively in history or in history of science, medicine, and technology, plus one. Preparation of the Ph.D. dissertation is guided by the student's supervising committee. Satisfactory completion and defense of the dissertation constitute the final requirements for the joint Ph.D. degree.

JOINT PH.D. WITH OTHER DEGREE PROGRAMS

History degree program students who wish to pursue a joint Ph.D. (one degree, two majors) with another degree program must first be admitted to the other degree program. The proposal for the degree must be approved by the Department of History's Graduate Council before it is submitted to the Graduate School. Students admitted to a joint Ph.D. will satisfy all the normal requirements of their field in History except the minor requirement.

For more information on joint Ph.D. options, please contact the graduate program coordinator.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

All applicants must meet UW–Madison Graduate School's minimum applicant requirements (<https://grad.wisc.edu/admissions/requirements/>), in addition to the below History Graduate Program requirements described below.

APPLICATION DEADLINE: DECEMBER 1ST

To apply, applicants must submit or declare the following in the online application (<https://grad.wisc.edu/apply/>):

History Supplemental Application

This section of the application asks you to provide information about your research interests, declare your preferred faculty advisors, and outline your prior language preparation (if any).

Writing Sample

Provide a sample that best illustrates the quality of your written work (optimally no more than 50 pages, double-spaced; maximum file size 6 MB).

Transcripts

Upload an unofficial copy of your transcript from all institutions attended, showing any undergraduate and graduate degrees awarded. If accepted, you will be required to send two official transcripts from each institution.

CV or Resumé

This should highlight your accomplishments and qualifications including academic honors or distinctions; professional, research, and/or teaching experience; and any publications.

Letters of recommendation

Provide contact information for the three individuals who will furnish recommendations on your behalf. (They will receive an upload link by email.) Your letter writers need not be historians, but they should be able to speak to your academic preparation to pursue historical studies at the graduate level.

Statement of purpose

The statement of purpose (2–3 pages, double-spaced) explains your reasons for graduate study. It may be the hardest part of the application to write, but it is also the most important. While you will likely include some autobiographical information, its primary purpose is to acquaint us with how your mind works. We want to know, for example, what kinds of intellectual problems and issues interest you, whose stories intrigue you, what sorts of analytical or narrative approaches you like to pursue, which historical writings you admire—and your reasons for these various preferences. Please help us understand your decision to enter the historical profession, especially at a time when the academic job market is in decline, and how you see your own role in it. There is no single right way to approach this part of the application, but we suggest that you bear in mind the usual cautions for personal writing: speak straightforwardly, in your own voice, and write as well as you know how.

INTERNATIONAL APPLICANTS

All international applicants must also meet the **English Proficiency** requirements (<https://grad.wisc.edu/admissions/requirements/>) set forth by the Graduate School.

For additional detail about the admissions process, please visit the Prospective Student (<https://history.wisc.edu/our-graduate-program/prospective-students/>) pages on our website.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

We offer funding only to students who intend to pursue the Ph.D.—an application for admission to our Ph.D. program, therefore, is an application for funding. We also welcome applications from students who have

external funding or are self-funded, including those pursuing the M.A. only.*

MULTI-YEAR FUNDING PACKAGE

If you apply to the History Ph.D. degree program without external or self-funding and are accepted, you will be offered a multi-year support package, which begins in your first year. The details of our support guarantees may vary by funding source, field of study, and other circumstances, and the guarantee is, of course, contingent on satisfactory progress and performance. Most of our support packages offer 5 years of support and begin with a fellowship year from the UW–Madison Graduate School, generously funded by the Wisconsin Alumni Research Foundation (<http://www.warf.org/stewardship/grants-support/current/current-grant.cmsx>). Our most distinguished packages include two years of fellowships and may also include summer support:

- Graduate Research Scholar fellowships (<http://ls.wisc.edu/current-students/graduate-students/cgrs/>) for underrepresented students or first-generation college students—offered annually
- George L. Mosse fellowships (<https://history.wisc.edu/our-graduate-program/prospective-students/funding/>) in modern Jewish history, European cultural history, or LGBTQ history—offered annually or as endowment income permits
- Julie A. and Peter M. Weil Fellowship (<https://history.wisc.edu/our-graduate-program/prospective-students/julie-a-and-peter-m-weil-distinguished-graduate-fellowship/>) in American Jewish history and select U.S. history fields—offered annually or as endowment income permits
- William J. Courtenay Fellowship in Medieval history—offered as funds permit
- Gerda Lerner Fellowship (<https://history.wisc.edu/our-graduate-program/prospective-students/funding/>) in women’s history—offered as funds permit

Additional years of guaranteed funding will come from employment as teaching assistants or project assistants or additional fellowships.

COMPETING FOR ADDITIONAL SUPPORT

All students in good standing can apply for writing prizes, conference travel awards, and supplements to external awards. Once graduate students have passed their preliminary examination and advanced to candidacy, they may apply for various departmental fellowships and research travel funding.

For students who have reached the advanced stages of dissertation writing, further funding opportunities are available. Our advanced dissertators may apply for teaching fellowships that give them the opportunity to design and teach an undergraduate course – the Merle Curti Teaching Fellowship (<https://history.wisc.edu/our-graduate-program/current-students/funding-opportunities/merle-curti-teaching-fellowship/>) (any field of study), the George L. Mosse Teaching Fellowship in European History, and the William J. Courtenay Teaching Fellowship in ancient, medieval, or early modern European history. (These fellowships are offered as often as endowment income permits.) Thanks to funding provided by the Doris G. Quinn Foundation (<https://dorisquinnfoundation.org/>), we are also pleased to offer a dissertator fellowship, which provides financial support for the final year of dissertation writing in any field.

In addition, UW–Madison offers a wealth of other opportunities to compete for funding offered, for example, by the International Division (<http://international.wisc.edu/funding-your-international-experiences/>),

the Institute for Research in the Humanities (<http://irh.wisc.edu>), and the UW Graduate School (research and conference travel awards (<https://grad.wisc.edu/studentfunding/grantscomp/>)).

More details on our funding for current/continuing students are available here (<https://history.wisc.edu/our-graduate-program/current-students/funding-opportunities/>).

* If you wish to apply only for the History M.A. (also known as the terminal M.A.), please describe your sources of support on the History Supplemental Application. For information on the cost of graduate study at UW–Madison, click here (<https://grad.wisc.edu/admissions/cost/>).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	26 credits must be graduate-level coursework. Details can be found in the Graduate School’s Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/) UW-1244 (https://policy.wisc.edu/library/UW-1244/).

Overall Graduate GPA Requirement	3.25 GPA required.
Other Grade Requirements	n/a
Assessments and Examinations	In order to receive the History Ph.D., all students must pass the preliminary exam and the Ph.D. dissertation defense. Preliminary Examination: Each field of study has its own exact requirements for prelims, but all include written exams and an oral defense of the student's research proposal and knowledge of the field. Ph.D. Dissertation Defense: Two-hour oral exam focusing on the student's written dissertation.
Language Requirements	The history department requires all students to demonstrate, at a minimum, reading knowledge of at least one language other than English. The fields of study may set additional requirements, and each field determines which languages may be used to satisfy its requirement
Breadth Requirement	All doctoral students are required to complete a minor or Graduate/Professional certificate (minimum of 9 credits).

REQUIRED COURSES

Students must first complete the requirements for the History M.A. (<https://guide.wisc.edu/graduate/history/history-ma/#requirementstext>)

In addition to completing any M.A. course requirements for their field of study, Ph.D. students must complete their doctoral minor or graduate/professional certificate (9 credits) and any additional language requirements specific to their field of study prior to taking the preliminary examination. After passing the preliminary examination, students register for HISTORY 990 Research and Thesis credits every semester until they deposit their dissertation. Students are also recommended to take HISTORY 999 Independent Work and HISTORY 710 Professional Development Seminar.

Recommendations for doctoral minor study:

African History: The minor field requirement is normally met by interdisciplinary training in African Studies, comprising three courses (9 credits) in two fields other than History. Students already grounded in African studies may, in close consultation with their major professor, choose an alternative minor.

Gender & Women's History: Students must follow the minor requirements of their primary field of study and are encouraged to include courses emphasizing women, gender, or sexuality, bearing in mind that no course in the students' major area of study may be used to meet the minor requirement.

Latin American and Caribbean History: The minor field requirement consists of at least nine credits of interdisciplinary training in Latin American and Iberian Studies divided between two fields other than History.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count up to 12 credits of graduate coursework from other institutions.

UW–Madison Undergraduate

On a case by case basis, this program follows the Graduate School's policy for Satisfying Requirements with Coursework from Undergraduate Career at UW–Madison. (<https://policy.wisc.edu/library/UW-1216/>)

UW–Madison University Special

On a case by case basis, this program follows the Graduate School's policy for Transfer from UW–Madison University Special Student Career at UW–Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>).

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and

conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)

- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The Department of History is committed to training our students to develop skills required for a variety of careers both in and outside the academy. Although a large network of our alumni teach at colleges and universities in the U.S. and across the world, a number of our Ph.D.s have enjoyed considerable success outside the academy. They include recent graduates who are currently a museum curator, teachers at prestigious preparatory academies, a historian with the U.S. Secretary of Defense's POW/Missing Persons Agency, a CEO of an investment firm, an analyst for a defense contractor, an editor at a small press, and consultants working with non-profits in the human services, education, and public policy fields. In recent years we have undertaken a number of initiatives, detailed below, to broaden the training of our students for a wide array of careers.

Much of the preparation for the job market occurs informally and over the course of the student's graduate career—in the mentoring relationship between faculty advisor and student, in the presentation of student research in department venues, in the student's participation in professional conferences, and in early forms of professional publication. Coursework, such as for the minor requirement or certificates, can be an avenue to expanded competencies. The Center for Humanities, for example, offers a Public Humanities certificate (<http://humanities.wisc.edu/public-humanities/graduate-certificate/>). Be sure to explore the Graduate School's resources such as "The Versatile

PhD (<https://grad.wisc.edu/pd/versatilephd/>)" and its Professional Development pages (<http://grad.wisc.edu/pd/>).

Whatever career paths interest you, we encourage you to plan ahead and discuss your options—early and often—with your faculty advisor(s), with the Director of Graduate Studies, or with the Graduate Coordinator.

PROFESSIONAL DEVELOPMENT SEMINARS (HISTORY 710)

This topics seminar is offered every semester. It emphasizes building skills that are valuable both inside and outside the academy, such as managing the writing process, teaching college history, or communicating historical research to a broad, nonspecialist audience. Since it is a topics course, more than one may be offered in a given semester. Recent topics include "Writing for Academy and Beyond," "Digital History," and "On the Job Market."

PROFESSIONAL DEVELOPMENT EVENTS

Throughout the year, the Graduate Program sponsors various workshops intended to help students negotiate specific milestones of graduate study and to assist them in preparing for and going on the job market as they near completion of the Ph.D. Our programming currently includes:

Preliminary Examination Workshop

This offers a discussion of the various requirements for preliminary examinations: how to assemble committees, compiling reading lists, Graduate School requirements, and more.

Curriculum Vitae Workshops

These workshops are designed for students at all levels, ranging from first-year students writing CVs for campus positions to advanced dissertators on the job market.

Mock Interviews

The Graduate Program offers a series of opportunities to practice with a committee of our faculty for AHA interviews and on-campus job talks. They are open to a limited number of students who expect to be actively on the job market in the fall.

Careers in History Workshops

Our program is committed to helping its graduates seek and secure employment following the completion of their Ph.D. Since the financial crisis in 2008, the academic job market has softened markedly. While the Graduate Program continues to provide outstanding preparation for academic jobs, we also encourage our students to think more broadly about their career prospects and the transferability of their skills. As funds permit, we occasionally bring to campus History graduates who are working in the non-profit, private, or public-sector to meet with current graduate students and share their experience. We also offer opportunities to learn best practices for post-doctoral fellowship applications.

LEARNING OUTCOMES

1. Articulates research problems clearly and understands the limits of current theories, knowledge, or practices in the discipline of history.
2. Pushes the boundaries of current historical knowledge in formulating research questions, in the selection or use of primary sources, or in interpreting evidence.
3. Demonstrates breadth of historical and cultural knowledge.
4. Is able to articulate the broader significance of their work to scholars in other fields or disciplines and to the broader public.

5. Is able to design and teach courses at the undergraduate or graduate level.
6. Fosters ethical and professional conduct.

PEOPLE

See the History department webpage for a full directory of faculty (<https://history.wisc.edu/people-main/faculty-listed-alphabetically/>).

Also see our faculty affiliate (<https://history.wisc.edu/people-main/faculty-affiliates/>) and teaching associate (<https://history.wisc.edu/people-main/teaching-associates/>) profiles.

MEDIEVAL STUDIES, DOCTORAL MINOR

The Minor in Medieval Studies is of interest and use to graduate students seeking to study the Middle Ages in a way that would complement and deepen their study of history, language, literature, art, etc. The program will allow these students to gather the broadly interdisciplinary coursework outside the student's home department or program into a meaningful credential that appears on their transcript.

ADMISSIONS

A student should declare their interest to the Director of the Medieval Studies Program before beginning coursework required for the minor. See Contact Box for Director information.

REQUIREMENTS

Graduate students interested in completing the Doctoral Minor in Medieval Studies must complete a minimum of 9 credits of courses from the list that appears below.

Code	Title	Credits
SCAND ST/ MIEVEAL 409	Survey of Old Norse-Icelandic Literature	3
SCAND ST/ MIEVEAL 430	The Vikings	4
SCAND ST/ MIEVEAL 444	Kalevala and Finnish Folk-Lore	4
ART HIST 715	Topics in Medieval Art	3
ENGL 314	Structure of English	3
ENGL 417	History of the English Language	3
ENGL/ MIEVEAL 520	Old English	3
ENGL/ MIEVEAL 521	Advanced Old English Literature	3
ENGL/ MIEVEAL 803	Topics in Medieval Literature	3
HISTORY/ MIEVEAL/ RELIG ST 309	The Crusades: Christianity and Islam	3-4
HISTORY 417	History of Russia	3-4

HISTORY/ LEGAL ST 426	The History of Punishment	3-4
HISTORY/ SCAND ST 431	History of Scandinavia to 1815	3
SPANISH/ MIEVEAL 503	Survey of Medieval Literature	3
SPANISH/ MIEVEAL 504	Survey of Medieval Literature	3
SPANISH/ MIEVEAL 541	Old Spanish	3
SPANISH/ MIEVEAL 718	Topics in Medieval Spanish Literature	3
HISTORY 805	Seminar-Medieval History	1-3
ITALIAN/ MIEVEAL 659	Dante's Divina Commedia	3
ITALIAN/ MIEVEAL 671	The 13th Century	3
LATIN/ MIEVEAL 563	Mediaeval Latin	3
MUSIC 411	Survey of Music in the Middle Ages	3
MUSIC 412	Survey of Music in the Renaissance	3

The following constraints should be taken into consideration when selecting courses:

- Only courses that carry the "Graduate 50%" attribute may be used to meet program requirements.
- To ensure that students achieve interdisciplinarity in their studies, courses must be selected from at least two different subject listings.
- To ensure breadth of study beyond a student's focused doctoral research, courses must be selected from subject listings offered outside the student's home department or program.

PEOPLE

See a full list of faculty here: Faculty - Medieval Studies - UW-Madison (<https://medievalstudies.wisc.edu/faculty/>).

HORTICULTURE

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Horticulture, M.S. (p. 965)
- Horticulture, Ph.D. (p. 969)

PEOPLE

Faculty: Professors Bamberg, Colquhoun, Goldman, Krysan (chair), Simon, Weng, Zalapa; Associate Professors Atucha, Bethke, Dawson, Endelman, Jull; Assistant Professors Ellison, Kovaleski, Wang; USDA Scientist Mura

HORTICULTURE, M.S.

The department provides graduate training leading to the master of science in horticulture. Each M.S. student will have a major advisor who will supervise their program of study and their thesis research. Specializations are available in several aspects of crop science: organic and sustainable horticulture, diversified crop production for urban and regional food systems, environmental impact of horticultural practices, environmental regulation of plant growth and development, plant breeding, biochemistry and molecular biology of horticultural plants, microculture and biotechnology, weed control and herbicide physiology, and biostatistics. Students have the opportunity to develop their research projects using vegetables, fruits, trees, ornamentals, specialty crops, or model species such as *Arabidopsis thaliana*.

The M.S. student's thesis project will involve an in-depth mentored exploration of a research question and the development of a written thesis in conjunction with a graduate committee of three faculty members.

The department houses research labs, controlled environment chambers, and greenhouse facilities. Field-plot areas with associated storage and laboratory facilities are available at the UW-Madison Arboretum (<https://arboretum.wisc.edu/>), Horticulture Research Farm at Arlington (<https://arlington.ars.wisc.edu/>), and the Agriculture Research Stations (<https://ars.wisc.edu/>) managed by the College of Agricultural and Life Sciences at selected locations throughout the state. In conjunction with the farm at Sturgeon Bay, the world's largest collection of tuber-bearing Solanums is maintained by the Inter-Regional Potato Introduction Project and is available for research use.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	September 1
Summer Deadline	December 1
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a

Letters of Recommendation Required 3

The department accepts applications for fall, spring, and summer entry. The applicant's academic preparation should include fundamental courses in the plant sciences such as botany, bacteriology, genetics, and physiology, as well as courses in chemistry (general, organic, quantitative), physics, mathematics, and biochemistry. The academic average should be at least 3.0 (on a 4.0 scale) with evidence of proficiency in subjects related to agriculture and plant sciences.

APPLICATION CHECKLIST

A complete application should include the following items:

1. Graduate School Application and Application Fee
2. Supplementary Application: The supplementary application will appear as a part of the Graduate School's electronic application once the applicant selects Horticulture.
3. Statement of Purpose: Your essay should be a concise description of your reasons for choosing to study horticulture at the University of Wisconsin. Please include your research interests and career goals as well as a description of your preparation for graduate study including relevant coursework, related employment, research experience, publications, presentations, awards, and honors.
4. Transcripts: We require all applicants to submit an unofficial transcript in PDF format to their online application. If an applicant is recommended for admission, then they will be required to submit their official transcript to the Graduate School. International academic records must be submitted in the original language and accompanied by an official English translation. Documents must be issued by the institution with an official seal/stamp and an official signature.
5. Three Letters of Recommendation
6. Proof of English Proficiency: Applicants whose native language is not English or whose undergraduate instruction was not in English must follow the Graduate School's guidelines for proof of English proficiency.

FACULTY ADVISORS

The Horticulture M.S. and Ph.D. programs do not support lab rotations. All students are admitted directly into a faculty member's lab. Thus, we strongly encourage applicants to contact faculty members who work in their areas of interest before and during the application and admissions process.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

All applicants to the graduate program in Horticulture are automatically considered for financial support. There is no need to submit a separate application. Most of our students are supported through research assistantships, but additional sources of internal financial support

include teaching assistantships, project assistantships, scholarships, and fellowships.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	18 credits
Minimum Graduate Coursework Requirement	15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/).
Other Grade Requirements	n/a
Assessments and Examinations	Contact the program for information on required assessments and examinations.

Language Requirements Contact the program for information on any language requirements.

REQUIRED COURSES

Departmental Requirements

The specific program of study towards a master's degree is developed by the student and the major professor. Considerable flexibility in the selection of courses is permitted to meet the needs and interests of the candidate. Students often complete the requirements for a master's degree in one and a half years, and three years is usually considered the maximum time necessary.

- All students must have successfully completed 14 credits of Horticulture (<http://guide.wisc.edu/courses/hort/>) courses and 11 credits of Botany (<http://guide.wisc.edu/courses/botany/>) courses during their enrollment in the undergraduate and/or graduate program(s). It is possible to fulfill these horticulture and botany course credits from coursework at another institution, provided the student's graduate committee approves the courses. No more than 3 credits of HORT 699 Special Problems may be counted towards this requirement.

Students must complete a minimum of 30 credits and 15 of these credits must be graduate level (up to 3 credits of 990 may be used to satisfy this 15 credit requirement, but HORT 699 Special Problems may not be used to satisfy this requirement). This requirement for 15 graduate-level credits can only be satisfied by classes taken while the student is enrolled in the master's program.

- Students must complete at least 30 credits while enrolled in Graduate School and write a master's thesis that is acceptable to the student's final examining committee. Under special circumstances, a student's graduate committee may, with the written approval of the department chair, allow a student to complete their M.S. degree with an approved report instead of a thesis or with coursework only.
- Students in the Master's Degree in Horticulture with Emphasis in Organic Sustainable Production must satisfy the specific course requirements outlined below. The student must also complete at least 30 credits while enrolled in Graduate School and write a master's thesis that is acceptable to the student's final examining committee.

Organic Sustainable Production Emphasis ¹

Code	Title	Credits
Ecology (one course required)		
F&W ECOL/ BOTANY/ ZOOLOGY 460	General Ecology	4
AGROECOL 701	The Farm as Socio-Environmental Endeavor	3
AGROECOL 702	The Multifunctionality of Agriculture	3
Horticulture (one course required)		
HORT 345	Fruit Crop Production	3
HORT 370	World Vegetable Crops	3
Plant Pathology (one course required)		
PL PATH 300	Introduction to Plant Pathology	4
PL PATH 517	Plant Disease Resistance	2-3
PL PATH 559	Diseases of Economic Plants	3
Agronomy/Entomology (one course required)		

ENTOM 450	Basic and Applied Insect Ecology	3
Soil Science (one course required)		
SOIL SCI/ PL PATH 323	Soil Biology	3
SOIL SCI/ AGRONOMY/ HORT 326	Plant Nutrition Management	3
Statistics		
STAT/F&W ECOL/ HORT 571	Statistical Methods for Bioscience I	4
Seminar (one course required)²		
AGROECOL 710	Agroecology Seminar	1
HORT 910	Seminar	1
Research (Total of 6 credits required)		
HORT 990	Research	1-12

1

These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathways names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

2

Students may speak with their committee regarding alternative courses to complete the seminar requirement.

Additional Coursework

At the discretion of the student's major professor or master's committee, additional remedial or advanced coursework may be required.

Seminar Requirement

Master's degree students must enroll in a graduate level seminar class (1 credit) for at least one semester and obtain a passing grade for that class. Seminars offered by departments other than Horticulture may be used to satisfy this requirement

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

This program follows the Graduate School's policy for Satisfying Requirements with Prior Graduate Coursework from Other Institutions. (<https://policy.wisc.edu/library/UW-1216/>)

UW-Madison Undergraduate

This program follows the Graduate School's policy for Satisfying Requirements with Coursework from Undergraduate Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

UW-Madison University Special

This program follows the Graduate School's policy for Transfer from UW-Madison University Special Student Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

Every graduate student must have a faculty advisor (major professor) who is on the Horticulture faculty. The major professor advises the student about course work and supervises the student's research if they are writing a master's thesis. The major professor must approve the student's coursework and research direction. A student may have more than one major professor, in which case at least one of the professors must be a member of the Horticulture faculty.

A master's committee is composed of at least three current UW-Madison faculty members, including the major professor. The master's committee is empowered by the program to advise the student regarding coursework and thesis content, and conduct the final master's oral examination. Prior to the end of the first year of graduate study the student, in consultation with their major professor, should select two members of the UW-Madison faculty to serve on their master's committee. It is the student's responsibility to seek and obtain (verbal) approval from the faculty selected to serve on this committee.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy (<https://policy.wisc.edu/library/UW-1221/>).

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)

- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALs), any student who feels unfairly treated by a member of the CALs faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALs, the student should seek the advice of the dean or director of that unit to determine how to proceed.
 - a. If the complaint involves an academic department in CALs the student should proceed in accordance with item 3 below.
 - b. If the grievance involves a unit in CALs that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
 - c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental

committee action to file a written appeal to the CALs Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.

4. If the alleged unfair treatment occurs in a CALs unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALs Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

OTHER

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The Horticulture Graduate programs encourage students to develop Individual Development Plans (<https://grad.wisc.edu/pd/idp/>) in collaboration with their major advisor to facilitate professional development. Besides the extensive opportunities offered across the campus at large, students in the Horticulture programs also benefit from activities and programs provided by the Plant Sciences Graduate Council (<http://psgsc.wisc.edu/>), a student-led organization for graduate students at UW-Madison interested in plant science.

LEARNING OUTCOMES

1. Articulates the theories, research methods, and approaches to inquiry used in the field of horticulture.
2. Identifies sources and assembles evidence pertaining to questions in the field of horticulture.
3. Understands the primary field of horticulture in a global context.
4. Selects and utilizes the most appropriate methodologies and practices.
5. Synthesizes information pertaining to questions or challenges in the field of horticulture.

6. Communicates clearly in ways appropriate to the field of horticulture.
7. Recognizes and applies principles of ethical conduct.

PEOPLE

Faculty: Professors Bamberg, Colquhoun, Goldman, Krysan (chair), Simon, Weng, Zalapa; Associate Professors Atucha, Bethke, Dawson, Endelman, Jull; Assistant Professors Ellison, Kovaleski, Wang; USDA Scientist Mura

HORTICULTURE, PH.D.

The department provides graduate training leading to the doctor of philosophy in horticulture. Each doctoral student will have a major advisor who will supervise their program of study and their thesis research. Specializations are available in several aspects of crop science: organic and sustainable horticulture, diversified crop production for urban and regional food systems, environmental impact of horticultural practices, environmental regulation of plant growth and development, plant breeding, biochemistry and molecular biology of horticultural plants, microculture and biotechnology, weed control and herbicide physiology, and biostatistics. Students have the opportunity to develop their research projects using vegetables, fruits, trees, ornamentals, specialty crops, or model species such as *Arabidopsis thaliana*.

The Ph.D. student's dissertation project will involve an in-depth mentored exploration of a research question and the development of a dissertation in conjunction with a graduate committee of at least four faculty members. A public presentation and defense of the dissertation is required.

The department houses research labs, controlled environment chambers, and greenhouse facilities. Field-plot areas with associated storage and laboratory facilities are available at the UW–Madison Arboretum (<https://arboretum.wisc.edu/>), Horticulture Research Farm at Arlington (<https://arlington.ars.wisc.edu/>), and the Agriculture Research Stations (<https://ars.wisc.edu/>) managed by the College of Agricultural and Life Sciences at selected locations throughout the state. In conjunction with the farm at Sturgeon Bay, the world's largest collection of tuber-bearing Solanums is maintained by the Inter-Regional Potato Introduction Project and is available for research use.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	September 1
Summer Deadline	December 1

GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

The department accepts applications for fall, spring, and summer entry.

The applicant's academic preparation should include fundamental courses in the plant sciences such as botany, bacteriology, genetics, and physiology, as well as courses in chemistry (general, organic, quantitative), physics, mathematics, and biochemistry. The academic average should be at least 3.0 (on a 4.0 scale) with evidence of proficiency in subjects related to agriculture and plant sciences.

APPLICATION CHECKLIST

A complete application should include the following items:

1. Graduate School Application and Application Fee
2. Supplementary Application: The supplementary application will appear as a part of the Graduate School's electronic application once the applicant selects Horticulture.
3. Statement of Purpose: Your essay should be a concise description of your reasons for choosing to study horticulture at the University of Wisconsin. Please include your research interests and career goals as well as a description of your preparation for graduate study including relevant coursework, related employment, research experience, publications, presentations, awards, and honors.
4. Transcripts: We require all applicants to submit an unofficial transcript in PDF format to their online application. If an applicant is recommended for admission, then they will be required to submit their official transcript to the Graduate School. International academic records must be submitted in the original language and accompanied by an official English translation. Documents must be issued by the institution with an official seal/stamp and an official signature.
5. Three Letters of Recommendation
6. Proof of English Proficiency: Applicants, whose native language is not English, or whose undergraduate instruction was not in English, must follow the Graduate School's guidelines for proof of English proficiency.

FACULTY ADVISORS

The Horticulture M.S. and Ph.D. programs do not support lab rotations. All students are admitted directly into a faculty member's lab. Thus, we strongly encourage applicants to contact faculty members who work in their areas of interest before and during the application and admissions process.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

All applicants to the graduate program in Horticulture are automatically considered for financial support. There is no need to submit a separate application. Most of our students are supported through research assistantships, but additional sources of internal financial support include teaching assistantships, project assistantships, scholarships, and fellowships.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

REQUIRED COURSES

Departmental Requirements

All Horticulture Ph.D. students must satisfy the following general course requirements. These requirements can be satisfied by coursework completed while the student was an undergraduate or enrolled in another graduate program.

- Physical Sciences—one course in each of the following:
 - Physics, including electricity, heat, and light
 - Calculus
 - Organic Chemistry lecture
 - Organic Chemistry lab or Biochemistry lab
- Biological Sciences—one course in each of the following:
 - Crop Production
 - Plant Breeding or Genetics
 - Plant Structure, Plant Taxonomy, or Plant Physiology
 - Plant Pathology or Entomology
- A Statistics Course
- A Soil Science Course

Specific course requirements

The only specific course requirements for the Ph.D. in Horticulture are HORT 799 Practicum in Horticulture Teaching and the seminar requirement, listed below. Apart from these, each student is required to work with the major professor and the Ph.D. committee to design a program of coursework that best meets the individual student's needs and interests. The resulting program of coursework must satisfy the departmental requirements as well as the requirements specified by the Graduate School. The final determination of a student's required coursework is made by the student's Ph.D. committee as part of the certification process.

Seminar requirement

During their graduate careers, students are required to present a minimum of three seminars in advanced seminar courses and receive a passing grade in each seminar. Advanced seminar courses offered by the departments other than Horticulture may be used to satisfy this requirement.

Required Teaching/Outreach

All students in the Horticulture PhD program are required to enroll in HORT 799 Practicum in Horticulture Teaching for one semester and obtain a passing grade. Students may enroll in HORT 799 Practicum in Horticulture Teaching for 1 to 3 credits. Each student is expected to work with their PhD advisor to identify an opportunity within the department for the student to engage in teaching or outreach work. This requirement is broadly defined, and could include assisting a Horticulture faculty member with their classroom teaching or working with a Horticulture Faculty member on an extension or outreach project.

retirement. The Graduate School requires that at least three committee members are designated as readers. Readers are committee members who commit themselves to closely reading and reviewing the entire dissertation. The committee is empowered by the program to advise and evaluate the student with regards to certification, administer the preliminary examination, oversee progress meetings, approve thesis composition, and conduct the final Ph.D. examination.

The student, in consultation with their major professor(s), should select the members of their Ph.D. committee prior to the end of the second semester of graduate study in order to convene a meeting to discuss the student's coursework and plan for certification. Certification is the process by which the Ph.D. committee certifies that the student has completed the formal coursework requirements of the Ph.D. certification is particularly important in the horticulture department because each student has a custom-designed program of coursework. This coursework plan must be approved by the student's Ph.D. committee, and for this reason it is important for the student to convene a meeting of their Ph.D. committee prior to the end of their second semester so that additional courses suggested by the committee may be taken during the student's second year of graduate study. The Graduate School requires at least one member of the Ph.D. committee to be from outside the horticulture department. The horticulture department requires that at least half of the committee members have an appointment in the horticulture department. Students choosing Minor Option A typically include their minor professor as a member of their Ph.D. committee. It is the student's responsibility to seek and obtain (verbal) approval from the faculty members selected to serve on this committee.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

This program follows the Graduate School's policy for Satisfying Requirements with Prior Graduate Coursework from Other Institutions. (<https://policy.wisc.edu/library/UW-1216/>)

UW-Madison Undergraduate

This program follows the Graduate School's policy for Satisfying Requirements with Coursework from Undergraduate Career at UW-Madison (<https://policy.wisc.edu/library/UW-1216/>).

UW-Madison University Special

This program follows the Graduate School's policy for Transfer from UW-Madison University Special Student Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy (<https://policy.wisc.edu/library/UW-1217/>).

ADVISOR / COMMITTEE

Every graduate student must have a faculty advisor (major professor) who is on the Horticulture faculty. The major professor advises the student about course work and supervises the student's research. The major professor must approve the student's coursework and research direction. A student may have more than one major professor, in which case at least one of the professors must be a member of the Horticulture faculty.

A Ph.D. committee is composed of at least four members, the major professor, and four more whom must be UW-Madison graduate faculty or former UW-Madison graduate faculty up to one year after resignation or

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy (<https://policy.wisc.edu/library/UW-1221/>).

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)

- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALs), any student who feels unfairly treated by a member of the CALs faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALs, the student should seek the advice of the dean or director of that unit to determine how to proceed.
 - a. If the complaint involves an academic department in CALs the student should proceed in accordance with item 3 below.
 - b. If the grievance involves a unit in CALs that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
 - c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental

committee action to file a written appeal to the CALs Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.

4. If the alleged unfair treatment occurs in a CALs unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALs Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

n/a

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The Horticulture Graduate programs encourage students to develop Individual Development Plans (<https://grad.wisc.edu/pd/idp/>) in collaboration with their major advisor to facilitate professional development. Besides the extensive opportunities offered across the campus at large, students in the Horticulture programs also benefit from activities and programs provided by the Plant Sciences Graduate Council (<http://psgsc.wisc.edu/>), a student-led organization for graduate students at UW-Madison interested in plant science.

LEARNING OUTCOMES

1. Articulates challenges, frontiers and limits with respect to knowledge within the field of horticulture.
2. Formulates ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the field of horticulture.
3. Creates research that makes a substantive contribution to the field of horticulture.
4. Demonstrates breadth within their learning experiences.

5. Communicates complex or ambiguous ideas in a clear and understandable manner.
6. Fosters ethical conduct and professional guidelines.

HUMAN ECOLOGY, DOCTORAL MINOR

Any student enrolled in a UW–Madison doctoral program can pursue a doctoral minor in Human Ecology. The graduate program within the School of Human Ecology (SoHE) provides rich interdisciplinary training and scholarship focused on exploring the human condition and well-being in relation to ecological settings—physical, social, community, and built surroundings. The school's philosophy is that individual development and well-being are promoted through interactions with ecological settings. Research, creativity, teaching, and outreach are directed toward a positive impact on these settings and the patterns of human behavior within them. Faculty members possess expertise in areas as diverse as longitudinal modeling, community-based research, interpretive interviewing, program evaluation, observational methods, survey methodology, action research, and ethnography.

ADMISSIONS

Graduate students interested in pursuing an Option A doctoral minor should complete the Minor Agreement Form (<https://sohe.wisc.edu/wordpress/wp-content/uploads/2017/10/Human-Ecology-Minor-Agreement-Form.docx>) and consult with the graduate program coordinator in Human Ecology who will help them identify a SoHE faculty member to serve as their faculty advisor.

REQUIREMENTS

The Human Ecology Doctoral Minor requires at least 9 credits taken through a combination of coursework in at least two different School of Human Ecology departments: Civil Society and Community Studies (CSCS) (<http://guide.wisc.edu/courses/cscs/>); Consumer Science (CNSR SCI) (http://guide.wisc.edu/courses/cnsr_sci/), Design Studies (DS) (<http://guide.wisc.edu/courses/ds/>), Human Development and Family Studies (HDFS) (<http://guide.wisc.edu/courses/hdfs/>), and Interdisciplinary–Human Ecology (INTER-HE) (http://guide.wisc.edu/courses/inter_he/). No more than 3 credits can be taken below the 700 level. Human Ecology courses that are cross-listed with another department should be enrolled in through the respective Human Ecology department. Students must receive a grade of B or better in each course.

HUMAN ECOLOGY, M.S.

SCHOOL OF HUMAN ECOLOGY

The School of Human Ecology has a strong tradition of outreach and counts several faculty members with budgeted extension appointments among its ranks. But all faculty members devote time and resources to ensuring their work benefits others beyond the campus. These efforts reflect the Wisconsin Idea, (<http://wisconsinidea.wisc.edu/>) the notion that the university's boundaries are those of the state, nation, and beyond. Graduate education at SoHE encompasses this mission by stressing the integration of research with program design and implementation, administration, policy development, and evaluation.

Human ecology is the study of the complex relationships between human beings and their environments. SoHE offers the Human Ecology M.S. degree with two named options. The Human Ecology named option is the admitting terminal master's degrees. Students enrolled in one of the

Human Ecology Ph.D. program named options have the opportunity to earn the Human Ecology MS: Human Ecology Research (p. 976) degree along the way to the Ph.D. upon successful completion of coursework and research.

ADMITTING HUMAN ECOLOGY M.S. OPTION:

- Master of Science in Human Ecology Program (p. 978)

NON-ADMITTING HUMAN ECOLOGY M.S. OPTION (EARNED ON THE WAY TO THE PH.D.)

- Master of Science in Human Ecology: Human Ecology Research (p. 976)

ADMISSIONS

Students apply to the Master of Science in Human Ecology through one of the named options:

- Human Ecology (p. 978)
- Human Ecology Research (p. 976)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Funding opportunities for Human Ecology graduate students are available and made possible, in large part, by generous donations to SoHE. Every year, these funds are used to fund teaching or project assistantships, award academic excellence scholarships, and provide students doing their masters or doctoral research or final MFA project with conference travel scholarships and graduate research scholarships. See the School of Human Ecology Enrollment Policy on Funding Eligibility (<https://sohe.wisc.edu/graduate-students/academic-policies-forms-deadlines/full-time-enrollment-policy-for-funding-eligibility/>) and view current funding opportunities on our program website (<https://sohe.wisc.edu/graduate-students/funding/>) for more information.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS CURRICULAR REQUIREMENTS

Requirement Detail

Minimum 32 credits
Credit
Requirement

Minimum 16 credits
Residence
Credit
Requirement

Minimum 16 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (<https://policy.wisc.edu/library/UW-1244> (<https://policy.wisc.edu/library/UW-1244/>)).

Overall 3.00 GPA required.
Graduate GPA Requirement This program follows the Graduate School's GPA Requirement policy (<https://policy.wisc.edu/library/UW-1203> (<https://policy.wisc.edu/library/UW-1203/>)).

Other Grade Requirements n/a

Assessments and Examinations No additional assessments and examinations.

Language Requirements No language requirements.

REQUIRED COURSES

Select a Named Option (p. 975) for courses required.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Science in Human Ecology must select one of the following named options:

View as listView as grid

- HUMAN ECOLOGY: HUMAN ECOLOGY RESEARCH, M.S. (P. 976)
- HUMAN ECOLOGY: HUMAN ECOLOGY, M.S. (P. 978)

POLICIES

Students should refer to one of the named options for policy information:

- Human Ecology (p. 978)
- Human Ecology Research (p. 976)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The School of Human Ecology Graduate Program values the professional development of graduate students and provides financial awards to those who are invited to present at professional conferences/exhibits. The purpose of the support is to encourage participation in professional development, scholarly research, and/or creative endeavor and to help cover expenses not covered by other sources. Students may receive a maximum award of \$650 for travel (\$750 for international travel) to support conference participation in a single academic year. Students are encouraged to seek conference and travel funding from the Graduate School as a first step and apply for supplemental funds through SoHE as needed.

In addition, each academic department within the School of Human Ecology may offer additional professional development grant opportunities. See the program Events Calendar (<https://sohe.wisc.edu/calendar-of-events/>) for the most up-to-date information on professional development opportunities.

LEARNING OUTCOMES

1. Articulate, critique, or elaborate the theories, research methods, and approaches to inquiry or schools of practice in one's area of study.
2. Identify sources and assemble evidence pertaining to questions or challenges in the area of study.
3. Understand the social, political, ethical, and economic contexts of research and creative scholarship.
4. Compare and contrast multiple paradigms for describing reality (e.g., personal history, world view, philosophic tradition, discipline).
5. Understand the Human Ecology perspective by examining and explaining the relations among humans and their natural, social, and build environments using an interdisciplinary and transdisciplinary lens.
6. Select and/or utilize the most appropriate methodologies and practices.
7. Recognize the nature and significance of diversity as related to one's area of study.
8. Communicate clearly in ways appropriate to a variety of audiences.
9. Recognize and apply principles of ethical conduct.

HUMAN ECOLOGY: HUMAN ECOLOGY RESEARCH, M.S.

This is a named option in the Human Ecology MS and is a non-admitting program offered only for current students who were admitted to one of the named options in the Ph.D. in Human Ecology (p. 990). Students interested in a terminal MS degree in Human Ecology should see the Human Ecology MS: Human Ecology (p. 978) named option for more information.

ADMISSIONS

The MS Human Ecology: Human Ecology Research named option is offered for work leading to the Ph.D. Students may not apply directly for this MS named option as it is non-admitting.

Students interested in the MS in Human Ecology should apply to the admitting named option of MS Human Ecology: Human Ecology (<https://guide.wisc.edu/graduate/human-ecology-school-wide/human-ecology-ms/human-ecology-human-ecology-ms/>).

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Funding opportunities for Human Ecology graduate students are available and made possible, in large part, by generous donations to SoHE. Every year, these funds are used to fund teaching or project assistantships, award academic excellence scholarships, and provide students doing their masters or doctoral research or final MFA project with conference travel scholarships and graduate research scholarships. See the School of Human Ecology Enrollment Policy on Funding Eligibility (<https://sohe.wisc.edu/graduate-students/academic-policies-forms-deadlines/full-time-enrollment-policy-for-funding-eligibility/>) and view current funding opportunities on our program website (<https://sohe.wisc.edu/graduate-students/funding/>) for more information.

REQUIREMENTS

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	32 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	16 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 GPA This program follows the Graduate School's GPA Requirement policy (https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/)).
Other Grade Requirements	n/a
Assessments and Examinations	Students may complete a thesis, but this is not a requirement of the MS Human Ecology: Human Ecology Research named option.

Language Requirements No language requirements.

REQUIRED COURSES

All students are required to take the Inter-HE courses in addition to those within their subject area. The three required courses are listed below. The additional credits may be earned through a combination of research and coursework, to be determined by the advisor in consultation with the student. These courses can be within other subject areas in the School of Human Ecology and/or other related departments. Additionally, courses in SoHE such as independent study (699, 999) and research (990) may be included in the count towards the degree requirements.

Code	Title	Credits
INTER-HE 792	Theories and Perspectives in Human Ecology	1-2
INTER-HE 793	Research Methods	3
INTER-HE 801	Special Topics in Human Ecology	1-3

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count up to 9 credits of graduate coursework taken at other institutions. Prior coursework taken at other institutions may not be used to satisfy the minimum graduate residence credit requirement. Credits earned five or more years prior to admission to a master's degree are not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, up to 7 credits numbered 300 or above from a UW–Madison undergraduate degree are allowed to count toward degree credit; undergraduate courses must be numbered 700 or above to count toward the minimum graduate coursework requirement. No undergraduate coursework may count toward the graduate residence requirement.

UW–Madison University Special

With program approval, students are allowed to count up to 9 credits of graduate coursework taken as a UW–Madison Special student. Coursework must be numbered 300 or above for residence and degree credit requirement and 700 or above for minimum graduate coursework (50%) requirement. Credits earned five or more years prior to admission to a master's degree are not allowed to satisfy requirements. Use of Special student credit may require payment of tuition difference.

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>).

CREDITS PER TERM ALLOWED

12 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

GRIEVANCES AND APPEALS

School of Human Ecology graduate student grievance procedure (<https://kb.wisc.edu/sohe/104500/>).

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The School of Human Ecology Graduate Program values the professional development of graduate students and provides financial awards to those who are invited to present at professional conferences/exhibits. The purpose of the support is to encourage participation in professional development, scholarly research, and/or creative endeavor and to help cover expenses not covered by other sources. Students may receive a maximum award of \$650 for travel (\$750 for international travel) to support conference participation in a single academic year. Students are encouraged to seek conference and travel funding from the Graduate School as a first step and apply for supplemental funds through SoHE as needed. In addition, each academic department within the School of Human Ecology may offer additional professional development grant opportunities.

PEOPLE

Visit the School of Human Ecology faculty and staff directory (https://humanecology.wisc.edu/staff/uw_staff_type/faculty-staff/).

HUMAN ECOLOGY: HUMAN ECOLOGY, M.S.

This is a named option in the Human Ecology M.S. (p. 974)

The Master of Science in Human Ecology offers multi-disciplinary course work that focuses on current theories and strategies for creating, managing and evaluating settings that promote human and community development. Students are exposed to current research and practice that integrates the promotion of human and family development with perspectives on building effective organizations and sustainable communities. Students create their own "master's specialization" through elective courses and the completion of a real-world capstone project. Specializations are designed so that students can name their expertise to prospective employees.

This program is intended as a terminal, applied degree. Students interested in a PhD, MFA or other graduate degrees in the School of Human Ecology (<https://sohe.wisc.edu/graduate-students/>) may apply separately to these programs.

The master's program is geared toward students who are both new to the field and those who have had some direct practice, applied research, educational or advocacy experience. This M.S. degree can be completed in three semesters of full-time study or four or more semesters if students are part-time. The program prepares students for careers working in a wide range of settings including:

- Community-based organizations (family support, youth work, community organizing, social justice, intervention and prevention programs, consumer and financial coaching)
- Intermediary and "backbone" organizations (technical assistance providers, philanthropic foundations, applied research and evaluation organizations, capacity building providers, community-based economic development)
- Government agencies (child and family services, public health, legislative support)

- University outreach (Cooperative Extension, community partnerships and coalitions, public service, multicultural offices, academic support and education)

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

MASTER OF SCIENCE IN HUMAN ECOLOGY (HUMAN ECOLOGY NAMED OPTION)

To be considered for admission to the Master of Science in Human Ecology master's program the department requires the following materials:

- Online application (<https://grad.wisc.edu/apply/>) indicating "Human Ecology MS" as your program selection
- \$75 application fee
- CV/Resume
- Unofficial transcripts or academic records from each institution attended (official transcripts will be required for students who receive an admission offer)
- Official TOEFL or Melab scores (International students only)
- Three letters of recommendation (Submitted electronically through your Graduate School application)
- Upload your Reasons for Graduate Study/Statement of Purpose. In your statement, please address:
 - Your reasons for studying or seeking a Master of Science in Human Ecology degree

- Your relevant current or past work and volunteer experience
- Your professional goals and plans after completing this program

Optional: Upload any other supporting documents that you believe enhance your application (e.g., honors, awards, GRE scores, writing sample, etc.)

Additional information is available here (<http://sohe.wisc.edu/ms/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Funding opportunities for Human Ecology graduate students are available and made possible, in large part, by generous donations to SoHE. Every year, these funds are used to fund teaching or project assistantships, award academic excellence scholarships, and provide students doing their masters or doctoral research or final MFA project with conference travel scholarships and graduate research scholarships. See the School of Human Ecology Enrollment Policy on Funding Eligibility (<https://sohe.wisc.edu/graduate-students/academic-policies-forms-deadlines/full-time-enrollment-policy-for-funding-eligibility/>) and view current funding opportunities on our program website (<https://sohe.wisc.edu/graduate-students/funding/>) for more information.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	32 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	16 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's GPA Requirement policy (https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/)).
Other Grade Requirements	n/a
Assessments and Examinations	No additional assessments and examinations.
Language Requirements	No language requirements.

REQUIRED COURSES

Code	Title	Credits
Understanding and Translating Research		3
Content and Theory		8
<i>Select courses from any SoHE department (CNSR SCI, CSCS, DS, HDFS, or INTER-HE); must include INTER-HE 801</i>		
Area of Specialization		9
<i>Based on one's professional interests and specific career goals, students develop their own specialization by taking three courses of their own choosing</i>		
Professional Skills		9
<i>Choose from among the INTER-HE 815 Professional Skills for Community Leaders and Practitioners courses and other courses as approved by Faculty Program Director</i>		
Capstone Project		3
INTER-HE 980	Capstone Seminar ¹	
Total Credits		32

¹

Students typically take 1 capstone seminar credit in their second-to-last semester and 2 capstone seminar credits in their final semester; alternative approaches can be made with the approval of the Faculty Program Director.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count up to 9 credits of graduate coursework taken at other institutions. Prior coursework taken at other institutions may not be used to satisfy the minimum graduate residence credit requirement. Credits earned five or more years prior to admission to a master's degree are not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, up to 7 credits numbered 300 or above from a UW–Madison undergraduate degree are allowed to count toward degree credit; undergraduate courses must be numbered 700 or above to count toward the minimum graduate coursework requirement. No undergraduate coursework may count toward the graduate residence requirement.

UW–Madison University Special

With program approval, students are allowed to count up to 9 credits of graduate coursework taken as a UW–Madison Special student. Coursework must be numbered 300 or above for residence and degree credit requirement and 700 or above for minimum graduate coursework (50%) requirement. Credits earned five or more years prior to admission to a master's degree are not allowed to satisfy requirements. Use of Special student credit may require payment of tuition difference.

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>).

CREDITS PER TERM ALLOWED

12 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)

- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Any student who feels that he or she has been treated unfairly by a Human Ecology faculty or staff member has the right to complain about the treatment and to receive a prompt hearing of the grievance, following the grievance procedures outlined below. To ensure a prompt and fair hearing of any complaint, and to protect both the rights of the student and the person at whom the complaint is addressed, the procedures below are used in the School of Human Ecology.

The person whom the complaint is directed against must be an employee of the School of Human Ecology. Any graduate student or graduate applicant may use these procedures unless the complaint is covered by other campus rules or contracts.

Note: These procedures do not cover appeals of admissions decisions or other decisions made by departmental or Human Ecology committees. For information on appeals of decisions, students should contact the chair of the committee or the chair of the department that made the decision.

Contacts

Civil Society and Community Studies: Brian McInnes (<https://sohe.wisc.edu/staff/brian-mcinnes/>) (Graduate Program Chair), Cynthia Jasper (<http://sohe.wisc.edu/staff/cynthia-jasper/>) (Department Chair)

Consumer Science: J. Michael Collins (<https://sohe.wisc.edu/staff/j-michael-collins/>) (Graduate Program Chair), Nancy Wong (<http://sohe.wisc.edu/staff/nancy-wong/>) (Department Chair)

Design Studies: Jung-hye Shin (<https://sohe.wisc.edu/staff/jung-hye-shin/>) (Graduate Program Chair), Roberto Rengel (<http://sohe.wisc.edu/staff/roberto-rengel/>) (Department Chair)

Human Development and Family Studies: Kristin Litzelman (<https://sohe.wisc.edu/staff/kristin-litzelman/>) (Graduate Program Chair), Janean Dilworth-Bart (<https://sohe.wisc.edu/staff/janean-dilworth-bart-2/>) (Department Chair)

Master of Science in Human Ecology: Sarah Halpern-Meehin (<https://sohe.wisc.edu/staff/sarah-halpern-meehin/>) (Graduate Program Chair)

Students are encouraged to keep written documentation of their experience of unfair treatment both before and during the grievance proceedings.

Graduate Student Grievance Procedures

STEP 1. The student should first consider talking directly with the person(s) against whom the grievance is directed.

Some issues can be settled at this level, and some cannot be. Although students are encouraged to talk directly with the person(s) involved, we recognize that this may not always be possible. If the complaint cannot be resolved satisfactorily by talking with the person(s) involved, the student may continue to **Step 2**.

NOTE: In cases of sexual harassment, sexual misconduct, or racial discrimination, students may choose to bypass these procedures and report the conduct directly to either of the following offices:

- SoHE Human Resources Manager: Nancy Andrews (<https://sohe.wisc.edu/staff/nancy-andrews/>)
- The Office for Equity and Diversity (<http://oed.wisc.edu/>) (179-A Bascom Hall, 608-263-2378, Wisconsin Telecommunications Relay Service: 7-1-1)

STEP 2. Does the complaint involve someone in a Human Ecology academic department (Civil Society and Community Studies, Consumer Science, Design Studies, and Human Development & Family Studies)?

- **Yes:** The student should contact the chair of the department. The student will submit the grievance to the chair in writing. This must be done within 60 calendar days of the alleged unfair treatment. The department chair will refer the matter to the department's Graduate Program Committee or to another appropriate departmental committee (standing or ad hoc) for review. The committee will share the student's written complaint with the person at whom the complaint is directed, and will obtain a written response from this person. This response will be shared with the student filing the grievance. The committee chair will provide a timely written decision to the student on the action taken by the committee (the departmental decision). If either party is unwilling to accept the departmental decision, the department chair will refer the matter to the Associate Dean for Graduate Studies (see contact information below). The Associate Dean will bring the grievance to the Human Ecology Graduate Program Council for review. (NOTE: if the grievance is against the department chair, the written complaint should be referred to the chair of the department's graduate program committee; contact information given below.)
- **No:** The student should contact the Associate Dean for Graduate Studies. (<https://sohe.wisc.edu/staff/connie-flanagan/>) The student will submit the grievance to the Associate Dean in writing. This must be done within 60 calendar days of the alleged unfair treatment. The Associate Dean will refer the grievance to the Human Ecology Graduate Program Council for review.

STEP 3. Human Ecology Graduate Program Council review.

To ensure fairness, the Graduate Program Council chair may appoint a subcommittee to review the complaint (e.g., excluding faculty from the student's department). The Graduate Program Council may ask for additional information from the parties involved and may hold a hearing at which both parties will be asked to speak separately in closed session. The Graduate Program Council will then make a written recommendation to the Associate Dean who will render a decision and submit it to the Dean of the School for final approval. The Associate Dean will provide the Dean's final decision in writing to the student and to the person against whom the grievance was filed. Unless a longer time is mutually agreed upon by the individuals involved, this written decision shall be made within 30 working days from the date when the written grievance was filed with the Associate Dean's Office.

Students not willing to accept the final decision of the Dean may appeal to the Graduate School (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to Connie Flanagan, Associate Dean for Graduate Studies (<https://sohe.wisc.edu/staff/connie-flanagan/>).

State law contains provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part:

"No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or centers because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status."

In addition, the UW-System prohibits discrimination based on gender identity or gender expression.

Students have the right to file discrimination and harassment complaints with the Office for Equity and Diversity (<https://employee disabilities.wisc.edu/>), 179-A Bascom Hall, 263-2378, Wisconsin Telecommunications Relay Service: 7-1-1

OTHER

Additional school-wide policies are available here (<https://sohe.wisc.edu/graduate-students/academic-policies-forms-deadlines/>).

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The School of Human Ecology Graduate Program values the professional development of graduate students and provides financial awards to those who are invited to present at professional conferences/exhibits. The purpose of the support is to encourage participation in professional development, scholarly research, and/or creative endeavor and to help cover expenses not covered by other sources. Students may receive a maximum award of \$650 for travel (\$750 for international travel) to support conference participation in a single academic year. Students are encouraged to seek conference and travel funding from the Graduate

School as a first step and apply for supplemental funds through SoHE as needed.

In addition, each academic department within the School of Human Ecology may offer additional professional development grant opportunities. See the program Events Calendar (<https://sohe.wisc.edu/calendar-of-events/>) for the most up-to-date information on professional development opportunities.

HUMAN ECOLOGY, MFA

The focus of the MFA degree is on creative performance in design. Its goals are to promote strong and creative conceptual thinking, exploration, interpretation, innovation, and overall excellence in design execution.

Students interested in the MFA should refer to the named option in Design Studies (p. 984).

ADMISSIONS

Students apply to the MFA in Human Ecology through its named option:

- Design Studies (p. 984)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Funding opportunities for Human Ecology graduate students are available and made possible, in large part, by generous donations to SoHE. Every year, these funds are used to fund teaching or project assistantships, award academic excellence scholarships, and provide students doing their masters or doctoral research or final MFA project with conference travel scholarships and graduate research scholarships. See the School of Human Ecology Enrollment Policy on Funding Eligibility (<https://sohe.wisc.edu/graduate-students/academic-policies-forms-deadlines/full-time-enrollment-policy-for-funding-eligibility/>) and view current funding opportunities on our program website (<https://sohe.wisc.edu/graduate-students/funding/>) for more information.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement	60 credits
Minimum Residence Credit Requirement	24 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (30 credits out of 60 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.

Other Grade Requirements The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.

Assessments and Examinations Before beginning substantial work on their thesis, all MFA students must receive approval of their thesis proposal from their MFA committee after satisfactorily completing at least three full-time semesters of coursework and passing the MFA Interim Qualifier. The thesis proposal is intended to describe the creative work or project that will be at the core of the thesis, to demonstrate the student's broad knowledge in areas that relate to their thesis, to explain how their work or project relates to the work of other designers and artists, to demonstrate their awareness of relevant theories and methods as reflected in their literature review, to explain their methods and materials, and to outline a detailed schedule for the completion of the thesis.

Upon approval of their thesis proposal, students are expected to register for 9 credits that will represent thesis writing and production. These credits are generally research and thesis credits, independent studies, or required seminars; they must be at the 500 level or above.

All MFA students are required to present their work at least once per academic year in a Group Review Session attended by faculty and the other MFA students. First year students can present their work that they submitted for their application, or work from a course that they have taken. Second year students should present work from their Focus Area student work, or their advanced General Studio work. Third-year students should present their thesis work in progress.

The Group Review Sessions have several goals.

*Enable MFA students to see what other MFA students are working on.

*Enable the MFA faculty as a whole to see what all of the MFA students are working on.

*Enable MFA students to receive constructive review of their work.

*Enable MFA students to gain experience critiquing and receiving critique.

*Enable MFA students to gain experience presenting their work.

All MFA students are required to successfully prepare and present a thesis that includes a studio component, a written component, and an oral defense. These are Research and Thesis credits with the student's advisor.

Language Requirements n/a

Doctoral Minor/Breadth Requirements All doctoral students are required to complete a minor.

REQUIRED COURSES

Select a Named Option (p. 983) for courses required.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Fine Arts in Human Ecology must select the following named option:

View as listView as grid

- HUMAN ECOLOGY: DESIGN STUDIES, MFA (P. 984)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The School of Human Ecology Graduate Program values the professional development of graduate students and provides financial awards to those who are invited to present at professional conferences/exhibits. The purpose of the support is to encourage participation in professional development, scholarly research, and/or creative endeavor and to help cover expenses not covered by other sources. Students may receive a maximum award of \$650 for travel (\$750 for international travel) to support conference participation in a single academic year. Students are encouraged to seek conference and travel funding from the Graduate School as a first step and apply for supplemental funds through SoHE as needed.

In addition, each academic department within the School of Human Ecology may offer additional professional development grant opportunities. See the program Events Calendar (<https://sohe.wisc.edu/calendar-of-events/>) for the most up-to-date information on professional development opportunities.

LEARNING OUTCOMES

1. Articulate challenges, frontiers and limits with respect to theory, knowledge or practice within the area of study.
2. Formulate ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within one's area of study.
3. Create research, scholarship or performance that makes a substantive contribution to one's field.
4. Foster ethical conduct and professional guidelines.

POLICIES

Students should refer to the named option for policy information:

- Design Studies (p. 984)

HUMAN ECOLOGY: DESIGN STUDIES, MFA

This is the only named option within the Human Ecology, MFA (p. 982). Students interested in the Human Ecology, MFA should apply directly to this Human Ecology: Design Studies, MFA named option.

The focus of the MFA degree is on creative performance in design. Its goals are to promote strong and creative conceptual thinking, exploration, interpretation, innovation, and overall excellence in design execution.

SPECIALIZATIONS

Students typically focus their work in one of two general areas:

- *Textile and Fashion Design (TFD)*: TFD students focus on the conceptual, technical, and aesthetic possibilities of textiles and clothing.

- *Interior Architecture (IA)*: IA students typically concentrate on the innovative application of aesthetic, conceptual, and expressive design strategies in interior environments.

There are many students who may work across these areas or have an even more idiosyncratic integrative focus. In every case, students formulate a plan of study to suit their individual needs.

The course of study requires the completion of a minimum of 60 credits and includes a substantial studio work component. The curriculum seeks to create a foundation with flexibility to fit student needs. Interested students can view course requirements on this page. (p. 985)

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 1
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Applications are accepted once per year for fall admission and are due by the first Monday in January of the same calendar year for which the student is applying.

Applicants must apply online and pay the required application fee to the Graduate School. Applicants must meet all Graduate School requirements including a bachelor's degree from an accredited institution and an undergraduate GPA of 3.0 or higher (on a 4.0 scale).

REQUIRED ADMISSION MATERIALS

- Online application (<https://grad.wisc.edu/apply/>) indicating "Human Ecology MFA-Design Studies" as your program selection
- \$75 application fee
- CV/resume

- Unofficial transcripts or academic records from each institution attended (official transcripts will be required for students who receive an admission offer)
- Official TOEFL or Melab score (International students only)
- Three letters of recommendation (submitted electronically through your Graduate School application)
- Uploaded Statement of Purpose/Reasons for Graduate Study

Submit to the School of Human Ecology:

- Portfolio
 - All MFA applicants must submit a digital portfolio for review. The portfolio should contain no more than 20 images/pages and there is a 5 MB file size limit for each image or page. Applicants will be able to upload portfolios to the University of Wisconsin's Box cloud storage system. Digital folders will be created for applicants within 48-72 hours after their electronic application has been received by UW-Madison's Graduate School. Please contact the SoHE Graduate Program Coordinator for more information.

Additional information is available here (<http://sohe.wisc.edu/mfa/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Funding opportunities for Human Ecology graduate students are available and made possible, in large part, by generous donations to SoHE. Every year, these funds are used to fund teaching or project assistantships, award academic excellence scholarships, and provide students doing their masters or doctoral research or final MFA project with conference travel scholarships and graduate research scholarships. See the School of Human Ecology Enrollment Policy on Funding Eligibility (<https://sohe.wisc.edu/graduate-students/academic-policies-forms-deadlines/full-time-enrollment-policy-for-funding-eligibility/>) and view current funding opportunities on our program website (<https://sohe.wisc.edu/graduate-students/funding/>) for more information.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	60 credits
Minimum Residence Credit Requirement	24 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (30 credits out of 60 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.

Assessments and Examinations Before beginning substantial work on their thesis, all MFA students must receive approval of their thesis proposal from their MFA committee after satisfactorily completing at least three full-time semesters of coursework and passing the MFA Interim Qualifier. The thesis proposal is intended to describe the creative work or project that will be at the core of the thesis, to demonstrate the student's broad knowledge in areas that relate to their thesis, to explain how their work or project relates to the work of other designers and artists, to demonstrate their awareness of relevant theories and methods as reflected in their literature review, to explain their methods and materials, and to outline a detailed schedule for the completion of the thesis.

Upon approval of their thesis proposal, students are expected to register for 9 credits that will represent thesis writing and production. These credits are generally research and thesis credits, independent studies, or required seminars; they must be at the 500 level or above.

All MFA students are required to present their work at least once per academic year in a Group Review Session attended by faculty and the other MFA students. First year students can present their work that they submitted for their application, or work from a course that they have taken. Second year students should present work from their Focus Area student work, or their advanced General Studio work. Third-year students should present their thesis work in progress.

The Group Review Sessions have several goals.

*Enable MFA students to see what other MFA students are working on.

*Enable the MFA faculty as a whole to see what all of the MFA students are working on.

*Enable MFA students to receive constructive review of their work.

*Enable MFA students to gain experience critiquing and receiving critique.

*Enable MFA students to gain experience presenting their work.

All MFA students are required to successfully prepare and present a thesis that includes a studio component, a written component, and an oral defense. These are Research and Thesis credits with the student's advisor.

Language Requirements Contact the program for information on any language requirements.

Doctoral Minor/Breadth Requirements All doctoral students are required to complete a minor.

REQUIRED COURSES

Code	Title	Credits
------	-------	---------

Pre-MFA Preparation Courses ¹

Pre-MFA preparation courses vary by area of study and may include, but are not limited to, the following courses:

Textile and Fashion Design

Textile and/or Fashion History

Interior Architecture

DS 241	Visual Communication I
DS 451	Color Theory and Technology
DS 222	Interior Design I
DS 322	Interior Design II

Core Courses ² 18

As much as possible within their first two years, all MFA students will be expected to enroll in 18-21 credits distributed among the following Core Courses:

INTER-HE 801	Special Topics in Human Ecology (Select topic: Theories and Perspectives in Human Ecology)
--------------	--

Methods and Theory in Design and Culture

DS/ANTHRO/ ART HIST/ HISTORY/ LAND ARC 764	Dimensions of Material Culture
---	--------------------------------

Choose at least one additional course. Suggestions include:

DS 642	Taste (Recommended)
ART 700	Introduction to Graduate Studies in Art
ART HIST 703	Curatorial Studies Colloquium

Seminar Courses

DS 920	Seminar in Design Studies
--------	---------------------------

At least one additional seminar course

History and Criticism

ART 508	Colloquium in Art
---------	-------------------

Choose from among the following courses:

Any Art History or Design Studies course focusing on history, 500 level or above	
ART HIST/ AFROAMER 801	Historiography, Theory and Methods in Visual Culture
ART HIST/ AFROAMER 802	Visual Cultures: Topics in Visual Cultures
Non-Studio Academic Coursework-Graduate Student Instructor Course ³	

General Studio Work ⁴ 9

Required Courses (Interior Architecture concentration only. May be waived for students with substantial portfolios.)

DS 623	Interior Design IV
DS 626	Interior Design V

Recommended courses include:

ART 409	Digital Fabrication Studio
ART 511	Art Performance
ART 521	Installations and Environments
ART 570	Advanced Topics in 4D Art
ART 660	
HISTORY 301	History at Work: History Internship Seminar

Other courses at the 500 level or above in Art or Landscape Architecture

Focus Area Studio Work ⁵ 15

Interim MFA Qualifier ⁶ 3

Preparation of Final Thesis 9

Final Thesis 6**Total Credits 60****1**

Particularly in the Interior Architecture track, students may have graduated from an undergraduate program that did not comprehensively prepare them for the level of studio work in the MFA program. However, promising applicants who do not have sufficient educational background may be admitted, under the condition that he or she take pre-MFA preparation courses; if the student satisfactorily completes a pre-MFA series of courses with a 3.3 GPA or above, the student may subsequently advance to full MFA student status. Students will work closely with their major faculty advisor to determine appropriate pre-MFA preparation courses.

2

The MFA Core Course curriculum offers an opportunity for all Design Studies students to establish a body of knowledge in theories, creative practices, and seminars relevant to studio based inquiry. The core curriculum also includes specialized training in instruction and pedagogy; this is requisite for graduate teaching assistant duties (often a source of MFA student funding), and useful for students who wish to pursue academic careers. A student who is assigned to a teaching assistantship at the time of admission may take the course(s) during their first semester while fulfilling teaching assistant duties.

3

Choose from: delta.wisc.edu/Courses_and_Programs/courses_and_programs_overview.html (http://www.delta.wisc.edu/Courses_and_Programs/courses_and_programs_overview.html)

4

The general studio work provides students with an overview of studio practices that will be the foundation for their Focus Area Studio work, the Qualifier and the Thesis. Students are encouraged to take courses that are offered both inside and outside the Design Studies Department to develop an interdisciplinary framework for their MFA work.

The core curriculum also includes an independent study that will facilitate the production of the Interim MFA Qualifier.

MFA students are expected to develop a strong foundation in studio-based inquiry. Students in the Interior Architecture track are strongly encouraged to take both DS 623 Interior Design IV and DS 626 Interior Design V, with the addition of project components tailored to each student's Focus Area. All students are encouraged to take DS 570 Design and Fashion Event Management.

5

All MFA students, in consultation with their advisor, define a focus area that will help prepare them for their Interim MFA Qualifier and Thesis Proposal. This focus builds on their General Studio Work. Students often do studio work in their focus area as independent studies (DS 699 Independent Study) with appropriate faculty members.

6

The Interim MFA Qualifier (Qualifier) is part of the Core Course requirements for every MFA student, and must be successfully completed prior to receiving final approval of the thesis proposal. The Qualifier provides students with an opportunity to create and present a studio-based project in their area of specialization in preparation for their final thesis. While limited in scope, the project should be comparable to the final thesis in terms of its creative and intellectual tone and quality. The project could be an exhibition that includes some elements that are integrated into a final thesis exhibition (most common for students in the Textile and Fashion Design track), or it could be a presentation and formal dissemination of a pilot design project that serves as a case study for the final thesis (most common for students in the Interior Architecture track). Students are encouraged to disseminate the project broadly, seeking out visibly prominent public venues, incorporating online versions, or presenting at conferences or in design competitions.

The Interim MFA Qualifier may be based on work completed as part of any UW graduate studio course, as well as from independent studies. Students typically enroll in an independent study (DS 699 Independent Study) with their major advisor to complete the Qualifier. The Qualifier must be reviewed and approved by the student's major advisor, in consultation with the student's thesis committee. The project must receive a passing grade in order for the student to receive final approval of their thesis proposal.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count up to 20 credits of graduate coursework taken at other institutions or as a UW-Madison Special student (with a maximum of 9 special student credits as part of the 20). Prior coursework taken at other institutions may not be used to satisfy the minimum graduate residence credit requirement. Credits earned five or more years prior to admission to an MFA degree are not allowed to satisfy requirements.

UW-Madison Undergraduate

With program approval, up to 7 credits numbered 300 or above from a UW-Madison undergraduate degree are allowed to count toward degree credit; undergraduate courses must be numbered 700 or above to count toward the minimum graduate coursework requirement. No undergraduate coursework may count toward graduate residence requirement.

UW-Madison University Special

With program approval, students are allowed to count up to 20 credits of graduate coursework taken at other institutions or as a UW-Madison Special student (with a maximum of 9 special student credits as part of the 20). Special student coursework must be numbered 300 or above

for residence and degree credit and 700 or above for minimum graduate coursework (50%) credit.

Credits earned five or more years prior to admission to an MFA degree are not allowed to satisfy requirements. Use of Special student credit may require payment of tuition difference.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

12 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)

- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Any student who feels that he or she has been treated unfairly by a Human Ecology faculty or staff member has the right to complain about the treatment and to receive a prompt hearing of the grievance, following the grievance procedures outlined below. To ensure a prompt and fair hearing of any complaint, and to protect both the rights of the student and the person at whom the complaint is addressed, the procedures below are used in the School of Human Ecology.

The person whom the complaint is directed against must be an employee of the School of Human Ecology. Any graduate student or graduate applicant may use these procedures unless the complaint is covered by other campus rules or contracts.

Note: These procedures do not cover appeals of admissions decisions or other decisions made by departmental or Human Ecology committees. For information on appeals of decisions, students should contact the chair of the committee or the chair of the department that made the decision.

Contacts

Civil Society and Community Studies: Brian McInnes (<https://sohe.wisc.edu/staff/brian-mcinnis/>) (Graduate Program Chair), Cynthia Jasper (<http://sohe.wisc.edu/staff/cynthia-jasper/>) (Department Chair)

Consumer Science: J. Michael Collins (<https://sohe.wisc.edu/staff/j-michael-collins/>) (Graduate Program Chair), Nancy Wong (<http://sohe.wisc.edu/staff/nancy-wong/>) (Department Chair)

Design Studies: Jung-hye Shin (<https://sohe.wisc.edu/staff/jung-hye-shin/>) (Graduate Program Chair), Roberto Rengel (<http://sohe.wisc.edu/staff/roberto-rengel/>) (Department Chair)

Human Development and Family Studies: Kristin Litzelman (<https://sohe.wisc.edu/staff/kristin-litzelman/>) (Graduate Program Chair), Janean Dilworth-Bart (<https://sohe.wisc.edu/staff/janean-dilworth-bart-2/>) (Department Chair)

Master of Science in Human Ecology: Sarah Halpern-Meekin (<https://sohe.wisc.edu/staff/sarah-halpern-meekin/>) (Graduate Program Chair)

Students are encouraged to keep written documentation of their experience of unfair treatment both before and during the grievance proceedings.

Graduate Student Grievance Procedures

STEP 1. The student should first consider talking directly with the person(s) against whom the grievance is directed.

Some issues can be settled at this level, and some cannot be. Although students are encouraged to talk directly with the person(s) involved, we recognize that this may not always be possible. If the complaint cannot be resolved satisfactorily by talking with the person(s) involved, the student may continue to **Step 2**.

NOTE: In cases of sexual harassment, sexual misconduct, or racial discrimination, students may choose to bypass these procedures and report the conduct directly to either of the following offices:

- SoHE Human Resources Manager: Nancy Andrews (<https://sohe.wisc.edu/staff/nancy-andrews/>)
- The Office for Equity and Diversity (<http://oed.wisc.edu/>) (179-A Bascom Hall, 608-263-2378, Wisconsin Telecommunications Relay Service: 7-1-1)

STEP 2. Does the complaint involve someone in a Human Ecology academic department (Civil Society and Community Studies, Consumer Science, Design Studies, and Human Development & Family Studies)?

- **Yes:** The student should contact the chair of the department. The student will submit the grievance to the chair in writing. This must be done within 60 calendar days of the alleged unfair treatment. The department chair will refer the matter to the department's Graduate Program Committee or to another appropriate departmental committee (standing or ad hoc) for review. The committee will share the student's written complaint with the person at whom the complaint is directed, and will obtain a written response from this person. This response will be shared with the student filing the grievance. The committee chair will provide a timely written decision to the student on the action taken by the committee (the departmental decision). If either party is unwilling to accept the departmental decision, the department chair will refer the matter to the Associate Dean for Graduate Studies (see contact information below). The Associate Dean will bring the grievance to the Human Ecology Graduate Program Council for review. (NOTE: if the grievance is against the department chair, the written complaint should be referred to the chair of the department's graduate program committee; contact information given below.)
- **No:** The student should contact the Associate Dean for Graduate Studies. (<https://sohe.wisc.edu/staff/connie-flanagan/>) The student will submit the grievance to the Associate Dean in writing. This must be done within 60 calendar days of the alleged unfair treatment. The Associate Dean will refer the grievance to the Human Ecology Graduate Program Council for review.

STEP 3. Human Ecology Graduate Program Council review.

To ensure fairness, the Graduate Program Council chair may appoint a subcommittee to review the complaint (e.g., excluding faculty from the student's department). The Graduate Program Council may ask for additional information from the parties involved and may hold a hearing at which both parties will be asked to speak separately in closed session. The Graduate Program Council will then make a written recommendation to the Associate Dean who will render a decision and submit it to the Dean of the School for final approval. The Associate Dean will provide the Dean's final decision in writing to the student and to the person against whom the grievance was filed. Unless a longer time is mutually agreed upon by the individuals involved, this written decision shall be made within 30 working days from the date when the written grievance was filed with the Associate Dean's Office.

Students not willing to accept the final decision of the Dean may appeal to the Graduate School (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to Connie Flanagan, Associate Dean for Graduate Studies (<https://sohe.wisc.edu/staff/connie-flanagan/>).

State law contains provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part:

"No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or centers because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status."

In addition, the UW-System prohibits discrimination based on gender identity or gender expression.

Students have the right to file discrimination and harassment complaints with the Office for Equity and Diversity (<https://employeeabilities.wisc.edu/>), 179-A Bascom Hall, 263-2378, Wisconsin Telecommunications Relay Service: 7-1-1

OTHER

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The School of Human Ecology Graduate Program values the professional development of graduate students and provides financial awards to those who are invited to present at professional conferences/exhibits. The purpose of the support is to encourage participation in professional development, scholarly research, and/or creative endeavor and to help cover expenses not covered by other sources. Students may receive a maximum award of \$650 for travel (\$750 for international travel) to support conference participation in a single academic year. Students are encouraged to seek conference and travel funding from the Graduate School as a first step and apply for supplemental funds through SoHE as needed.

In addition, each academic department within the School of Human Ecology may offer additional professional development grant opportunities. See the program Events Calendar (<https://sohe.wisc.edu/calendar-of-events/>) for the most up-to-date information on professional development opportunities.

HUMAN ECOLOGY, PH.D.

Human ecology is the study of the complex relationships between human beings and their environments. The school offers a doctorate of philosophy within four named options/specializations:

- Civil Society and Community Research (p. 992) (CSCR)
- Consumer Behavior and Family Economics (p. 997) (CBFE)
- Design Studies (p. 1002) (DS)
- Human Development and Family Studies (p. 1009) (HDFS)

Each named option has its own faculty, curriculum, requirements and includes a challenging array of coursework along with exciting opportunities for research, outreach, and service consistent with each student's scholarly interests and career aspirations.

Students enrolled in one of the Human Ecology Ph.D. program named options have the opportunity to earn the Human Ecology MS: Human Ecology Research (p. 976) degree along the way to the Ph.D. upon successful completion of coursework and research.

As part of a Research I institution, SoHE faculty members have national reputations in their fields of study and are highly committed to nurturing future scholars and practitioners. They conduct research and mentor students to address issues that cross disciplinary lines. They work closely

with graduate students to create courses of study that match each student's personal and professional goals.

The School of Human Ecology has a strong tradition of outreach and counts several faculty members with budgeted extension appointments among its ranks. But all faculty members devote time and resources to ensuring their work benefits others beyond the campus. These efforts reflect the Wisconsin Idea, (<http://wisconsinidea.wisc.edu/>) the notion that the university's boundaries are those of the state, nation, and beyond. Graduate education at SoHE encompasses this mission by stressing the integration of research with program design and implementation, administration, policy development, and evaluation.

ADMISSIONS

Students interested in the Human Ecology Ph.D. should apply directly to one of the named options:

- Civil Society and Community Research (p. 992) (CSCR)
- Consumer Behavior and Family Economics (p. 997) (CBFE)
- Design Studies (p. 1003) (DS)
- Human Development and Family Studies (p. 1009) (HDFS)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Funding opportunities for Human Ecology graduate students are available and made possible, in large part, by generous donations to SoHE. Every year, these funds are used to fund teaching or project assistantships, award academic excellence scholarships, and provide students doing their masters or doctoral research or final MFA project with conference travel scholarships and graduate research scholarships. See the School of Human Ecology Enrollment Policy on Funding Eligibility (<https://sohe.wisc.edu/graduate-students/academic-policies-forms-deadlines/full-time-enrollment-policy-for-funding-eligibility/>) and view current funding opportunities on our program website (<https://sohe.wisc.edu/graduate-students/funding/>) for more information.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement 51 credits

Minimum Residence Credit Requirement 32 credits

Minimum Graduate Coursework Requirement Half of degree coursework (26 credits out of 51 total credits) must be completed in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (<http://my.wisc.edu/CourseGuideRedirect/BrowseByTitle> (<http://my.wisc.edu/CourseGuideRedirect/BrowseByTitle/>)).

Overall Graduate GPA Requirement See one of the named options for specific policy information.

Other Grade Requirements The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.

Assessments and Examinations See Named Options for policy information.

Language Requirements n/a

REQUIRED COURSES

Select a Named Option (p. 991) for courses required.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Ph.D. in Human Ecology should select one of the following named options:

View as listView as grid

- HUMAN ECOLOGY: CIVIL SOCIETY AND COMMUNITY RESEARCH, PH.D. (P. 992)
- HUMAN ECOLOGY: CONSUMER BEHAVIOR AND FAMILY ECONOMICS, PH.D. (P. 997)
- HUMAN ECOLOGY: DESIGN STUDIES, PH.D. (P. 1002)
- HUMAN ECOLOGY: HUMAN DEVELOPMENT AND FAMILY STUDIES, PH.D. (P. 1009)

POLICIES

Students should refer to one of the named options for policy information:

- Civil Society and Community Research (p. 992) (CSCR)
- Consumer Behavior and Family Economics (p. 997) (CBFE)
- Design Studies (p. 1003) (DS)
- Human Development and Family Studies (p. 1009) (HDFS)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The School of Human Ecology Graduate Program values the professional development of graduate students and provides financial awards to those who are invited to present at professional conferences/exhibits. The purpose of the support is to encourage participation in professional development, scholarly research, and/or creative endeavor and to help cover expenses not covered by other sources. Students may receive a maximum award of \$650 for travel (\$750 for international travel) to support conference participation in a single academic year. Students are encouraged to seek conference and travel funding from the Graduate School as a first step and apply for supplemental funds through SoHE as needed.

In addition, each academic department within the School of Human Ecology may offer additional professional development grant opportunities. See the program Events Calendar (<https://sohe.wisc.edu/calendar-of-events/>) for the most up-to-date information on professional development opportunities.

LEARNING OUTCOMES

1. Articulate challenges, frontiers and limits with respect to theory, knowledge or practice within the area of study.
2. Formulate ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within one's area of study.
3. Consider the role of social, political, ethical, and economic contexts of research and creative scholarship in one's area of study.
4. Consider the role of multiple paradigms for describing reality in one's area of study.
5. Contribute to advancing the Human Ecology perspective by reflecting the relations among humans and their natural, social, and built

environments and applying an interdisciplinary and/or transdisciplinary lens in one's area of professional practice.

6. Create research, scholarship or performance that makes a substantive contribution to one's field.
7. Reflect the nature and significance of diversity in one's area of professional practice.
8. Communicate complex or ambiguous ideas in a compelling manner to a variety of audiences.
9. Foster ethical conduct and professional guidelines.

HUMAN ECOLOGY: CIVIL SOCIETY AND COMMUNITY RESEARCH, PH.D.

This is a named option within the Human Ecology, Ph.D. (p. 990)

The Human Ecology Ph.D. named option in Civil Society and Community Research (CSCR) focuses on theoretical foundations of grassroots institutions, nonprofit organizations, voluntary associations, and social networks that strive to benefit the common good. The program emphasizes mixed method inquiries that integrate participatory approaches with advanced quantitative and qualitative analysis. The program prepares students to use the processes of research and outreach to strengthen civil society.

Students enrolled in one of the Human Ecology Ph.D. program named options have the opportunity to earn the Human Ecology MS: Human Ecology Research (p. 976) degree along the way to the Ph.D. upon successful completion of coursework and research.

The civil society and community research faculty areas of research include: civil society, the nonprofit sector, civic engagement, developmental psychology, community and organizational development, youth civic engagement, community psychology, applied medical anthropology, sustainability, education, inter-generational partnerships, program evaluation and learning assessment, community–university partnerships, and philanthropy and giving.

The CSCR program is served by a multidisciplinary faculty who are professionally active and have strong records of national and international scholarship. They bring perspectives of many disciplines to their work, including community psychology, developmental psychology, sociology, education, medical and cultural anthropology, transformative evaluation and community action. Reflecting the multidisciplinary orientation of the program, faculty possess expertise in areas as diverse as longitudinal modeling, interpretive interviewing, mixed methods study designs, various mapping techniques, observational methods, survey methodology, community-based research, and ethnography.

The CSCR program is committed to collaborations between faculty and graduate students in the arenas of research, teaching, and outreach. Current areas of scholarly activity include youth civic engagement, community organizing, inter-generational partnerships, social trust, program evaluation, coalition building, voluntary associations, adult learning, community development, place-based education and stewardship, and social change. Faculty and students not only conduct research in these areas, they affirmatively support policies and programs. The department maintains strong affiliations with the University of Wisconsin–Madison Division of Extension's Department of Youth, Family & Community Development.

Graduates of CSCR are prepared for careers as professors in academic departments of human ecology, community development, community research and action, nonprofit management, community sociology, applied developmental science, and program support services. Students will also be prepared for careers as senior staff in technical assistance organizations, foundations, public agencies and advocacy/public education units. Others will choose to use their research and consultation skills to support grassroots organizations.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum

requirements (<https://grad.wisc.edu/apply/requirements/>) of the **Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Applications are accepted once per year for Fall admission and are due by December 1st of the preceding year. To be considered for admission to the Civil Society and Community Research (CSCR) Ph.D. option in Human Ecology, the department requires the following materials:

- Online application (<https://grad.wisc.edu/apply/>) indicating “Human Ecology PHD–Civil Society & Comm Research” as your program selection
- \$75 application fee
- Curriculum vitae/resume
- Unofficial transcripts (official transcripts will be required for students who receive an admission offer)
- International students only:
 - Official Test of English as a Foreign Language (TOEFL) or Melab scores
 - International students who hold degrees from U.S. institutions do not need to submit language test scores
- Three letters of recommendation (submitted electronically through your Graduate School application)
- Uploaded Statement of Purpose/Reasons for Graduate Study
 - Statement should also include your reasons for studying or seeking a specialization in Civil Society and Community Research. Please indicate these reasons in a separate section of your statement titled, “Reasons for Specializing in Civil Society and Community Research”
- Upload a writing sample
 - Examples of writing samples include prior scholarly work such as term papers, theses, or published articles. All writing samples must be written in English and uploaded to the online application system as a PDF.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Funding opportunities for Human Ecology graduate students are available and made possible, in large part, by generous donations to SoHE. Every year, these funds are used to fund teaching or project assistantships, award academic excellence scholarships, and provide students doing their masters or doctoral research or final MFA project with conference travel scholarships and graduate research scholarships. See the School of Human Ecology Enrollment Policy on Funding Eligibility (<https://sohe.wisc.edu/graduate-students/academic-policies-forms-deadlines/full-time-enrollment-policy-for-funding-eligibility/>) and view current funding opportunities on our program website (<https://sohe.wisc.edu/graduate-students/funding/>) for more information.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	Doctoral students are required to take a comprehensive preliminary/oral examination after they have cleared their record of all Incomplete and Progress grades (other than research and thesis). Deposit of the doctoral dissertation in the Graduate School is required.
Language Requirements	Contact the program for information on any language requirements.
Doctoral Minor/Breadth Requirements	All doctoral students are required to complete a minor.

REQUIRED COURSES

Code	Title	Credits
Introductory Courses		6
INTER-HE 801	Special Topics in Human Ecology (Introductory Professional Development—1 credit)	
INTER-HE 801	Special Topics in Human Ecology (Theory and Perspectives of Human Ecology—2 credits)	
INTER-HE 793	Research Methods (3 credits)	
Theoretical Foundations		9
CSCS 775	Building Civil Society	
CSCS 785	Civic Development Across the Lifespan	
CSCS 795	Community Power and Collective Action	
Methods and Applications of Community-Based Research		
<i>Applications of Community-based research</i>		9
CSCS 811	Community-Based Research: Theory and Practice	

CSCS 812	Mixed-Methods in Community-Based Research	
CSCS 813	Transformative Evaluation in Practice	
<i>Research Methods</i>		9
Qualitative Data Collection & Analysis ¹		
Quantitative Designs & Statistical Methods ²		
Methods Elective ³		
Community Innovations for Civil Society⁴		3
Minor Specialization⁵		9
Research and Thesis		6
CSCS 990	Research and Thesis	
Total Credits		51

1

Recommended: ED PSYCH 711 Current Topics in Educational Psychology

2

Recommended: ED PSYCH 762, ED PSYCH 763, ED PSYCH 964, or SOC/C&E SOC 977

3

Courses to be selected in consultation with your advisor. Any of these courses not taken to fulfill the qualitative or quantitative methods requirement: ED PSYCH/ELPA 827, SOC 751, SOC 752, or ED PSYCH 570.

4

Topics rotate during Fall semester.

5

Suggested elective courses for the minor: SOC/C&E SOC/URB R PL 617, CURRIC 975, HDFS 664, HDFS 872, NURSING 761, SOC/C&E SOC 573, SOC WORK 741, or PUB AFFR/POLI SCI 885.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count up to 18 credits of graduate coursework taken at other institutions or as a UW–Madison Special student (with a maximum of 9 special student credits as part of the 18). Prior coursework taken at other institutions may not be used to satisfy the minimum graduate residence credit requirement. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, up to 7 credits numbered 300 or above from a UW–Madison undergraduate degree are allowed to count toward degree credit; undergraduate courses must be numbered 700 or above to count toward the minimum graduate coursework requirement. No undergraduate coursework may count toward the graduate residence requirement.

UW–Madison University Special

With program approval, students are allowed to count up to 18 credits of graduate coursework taken at other institutions or as a UW–Madison Special student (with a maximum of 9 special student credits as part of the 18). Coursework must be numbered 300 or above for residence and degree credit and 700 or above to satisfy the minimum graduate coursework (50%) requirement. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements. Use of Special student credit may require payment of tuition difference.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

12 credits

TIME CONSTRAINTS

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)

- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Any student who feels that he or she has been treated unfairly by a Human Ecology faculty or staff member has the right to complain about the treatment and to receive a prompt hearing of the grievance, following the grievance procedures outlined below. To ensure a prompt and fair hearing of any complaint, and to protect both the rights of the student and the person at whom the complaint is addressed, the procedures below are used in the School of Human Ecology.

The person whom the complaint is directed against must be an employee of the School of Human Ecology. Any graduate student or graduate applicant may use these procedures unless the complaint is covered by other campus rules or contracts.

Note: These procedures do not cover appeals of admissions decisions or other decisions made by departmental or Human Ecology committees. For information on appeals of decisions, students should contact the chair of the committee or the chair of the department that made the decision.

Contacts

Civil Society and Community Studies: Brian McInnes (<https://sohe.wisc.edu/staff/brian-mcinnis/>) (Graduate Program Chair), Cynthia Jasper (<http://sohe.wisc.edu/staff/cynthia-jasper/>) (Department Chair)

Consumer Science: J. Michael Collins (<https://sohe.wisc.edu/staff/j-michael-collins/>) (Graduate Program Chair), Nancy Wong (<http://sohe.wisc.edu/staff/nancy-wong/>) (Department Chair)

Design Studies: Jung-hye Shin (<https://sohe.wisc.edu/staff/jung-hye-shin/>) (Graduate Program Chair), Roberto Rengel (<http://sohe.wisc.edu/staff/roberto-rengel/>) (Department Chair)

Human Development and Family Studies: Kristin Litzelman (<https://sohe.wisc.edu/staff/kristin-litzelman/>) (Graduate Program Chair), Janean

Dilworth-Bart (<https://sohe.wisc.edu/staff/janean-dilworth-bart-2/>)
(Department Chair)

Master of Science in Human Ecology: Sarah Halpern-Meekin (<https://sohe.wisc.edu/staff/sarah-halpern-meekin/>) (Graduate Program Chair)

Students are encouraged to keep written documentation of their experience of unfair treatment both before and during the grievance proceedings.

Graduate Student Grievance Procedures

STEP 1. The student should first consider talking directly with the person(s) against whom the grievance is directed.

Some issues can be settled at this level, and some cannot be. Although students are encouraged to talk directly with the person(s) involved, we recognize that this may not always be possible. If the complaint cannot be resolved satisfactorily by talking with the person(s) involved, the student may continue to **Step 2**.

NOTE: In cases of sexual harassment, sexual misconduct, or racial discrimination, students may choose to bypass these procedures and report the conduct directly to either of the following offices:

- SoHE Human Resources Manager: Nancy Andrews (<https://sohe.wisc.edu/staff/nancy-andrews/>)
- The Office for Equity and Diversity (<http://oed.wisc.edu/>) (179-A Bascom Hall, 608-263-2378, Wisconsin Telecommunications Relay Service: 7-1-1)

STEP 2. Does the complaint involve someone in a Human Ecology academic department (Civil Society and Community Studies, Consumer Science, Design Studies, and Human Development & Family Studies)?

- **Yes:** The student should contact the chair of the department. The student will submit the grievance to the chair in writing. This must be done within 60 calendar days of the alleged unfair treatment. The department chair will refer the matter to the department's Graduate Program Committee or to another appropriate departmental committee (standing or ad hoc) for review. The committee will share the student's written complaint with the person at whom the complaint is directed, and will obtain a written response from this person. This response will be shared with the student filing the grievance. The committee chair will provide a timely written decision to the student on the action taken by the committee (the departmental decision). If either party is unwilling to accept the departmental decision, the department chair will refer the matter to the Associate Dean for Graduate Studies (see contact information below). The Associate Dean will bring the grievance to the Human Ecology Graduate Program Council for review. (NOTE: if the grievance is against the department chair, the written complaint should be referred to the chair of the department's graduate program committee; contact information given below.)
- **No:** The student should contact the Associate Dean for Graduate Studies. (<https://sohe.wisc.edu/staff/connie-flanagan/>) The student will submit the grievance to the Associate Dean in writing. This must be done within 60 calendar days of the alleged unfair treatment. The Associate Dean will refer the grievance to the Human Ecology Graduate Program Council for review.

STEP 3. Human Ecology Graduate Program Council review.

To ensure fairness, the Graduate Program Council chair may appoint a subcommittee to review the complaint (e.g., excluding faculty from the student's department). The Graduate Program Council may ask for additional information from the parties involved and may hold a hearing at which both parties will be asked to speak separately in closed session. The Graduate Program Council will then make a written recommendation to the Associate Dean who will render a decision and submit it to the Dean of the School for final approval. The Associate Dean will provide the Dean's final decision in writing to the student and to the person against whom the grievance was filed. Unless a longer time is mutually agreed upon by the individuals involved, this written decision shall be made within 30 working days from the date when the written grievance was filed with the Associate Dean's Office.

Students not willing to accept the final decision of the Dean may appeal to the Graduate School (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to Connie Flanagan, Associate Dean for Graduate Studies (<https://sohe.wisc.edu/staff/connie-flanagan/>).

State law contains provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part:

"No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or centers because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status."

In addition, the UW-System prohibits discrimination based on gender identity or gender expression.

Students have the right to file discrimination and harassment complaints with the Office for Equity and Diversity (<https://employeeedisabilities.wisc.edu/>), 179-A Bascom Hall, 263-2378, Wisconsin Telecommunications Relay Service: 7-1-1

HUMAN ECOLOGY: CONSUMER BEHAVIOR AND FAMILY ECONOMICS, PH.D.

This is a named option within the Human Ecology, Ph.D. (p. 990)

The Department of Consumer Science develops and disseminates information on the ways in which the interactions among consumers, business, and government can enhance the interests and well-being of consumers, families, and communities. The program focuses on various dimensions of well-being including economic/financial security, consumer

empowerment, health, food security, housing security, sustainability, and the public policy that affects those dimensions of well-being. The program is interdisciplinary; current faculty have degrees in diverse fields including economics, marketing, sociology, retailing, social work, and consumer science. Some faculty have joint appointments with Cooperative Extension, providing students with opportunities for training in outreach and applied research. Ph.D. students work closely with faculty members, often collaborating on research and outreach programs. All Ph.D. students must complete core courses in consumer behavior, family economics, and research methods.

Students enrolled in one of the Human Ecology Ph.D. program named options have the opportunity to earn the Human Ecology MS: Human Ecology Research (p. 976) degree along the way to the Ph.D. upon successful completion of coursework and research.

This is a multi-disciplinary degree program. Students will undertake research on consumer decision-making affecting the social and economic well-being of individuals and families. The goal of this program is to prepare students for the following types of job placements:

1. Tenure-track academic faculty positions, primarily in other schools of human ecology, consumer science or related units;
2. Research administration positions in government, non-tenure academic units, nonprofit organizations, think tanks and related entities; and,
3. Applied consumer research in the public and private sector, including market research, policy research and consulting.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a

Letters of Recommendation Required 3

Applications are accepted once per year for Fall admission and are due by December 1st of the preceding year. Admission to the Consumer Behavior & Family Economics (CBFE) Ph.D. option in Human Ecology is based on academic merit and fit with the research strengths of the Consumer Science faculty. As such, the student's Statement of Purpose should clearly indicate how their research interests correspond to the Ph.D. program and faculty strengths.

Applicants with a background in consumer science or related social science disciplines such as economics, political science, and sociology and in research methods and statistics will have the greatest chance of success. Students are eligible to be directly admitted to the Ph.D. program following successful completion of a bachelor's degree.

Applicants should have successfully completed college-level courses covering subjects including introductory and intermediate microeconomics, consumer behavior, research methods, statistics and regression analysis, and calculus. Students who fail to meet the minimum course requirements for admission may still be admitted to the program but be required to take additional courses. An interview by phone or in person may be required.

To be considered for admission to the Consumer Behavior & Family Economics (CBFE) Ph.D. option in Human Ecology, the department requires the following materials:

- Online application (<https://grad.wisc.edu/apply/>) indicating "Human Ecology PHD-Consumr Behav & Family Econ" as your program selection
- \$75 application fee
- Curriculum vitae/resume
- Unofficial transcripts or academic records from each institution attended (official transcripts will be required for students who receive an admission offer)
- International students only:
 - Official Test of English as a Foreign Language (TOEFL) or Melab scores
 - International students who hold degrees from U.S. institutions do not need to submit language test scores
- Three letters of recommendation (Submitted electronically through your Graduate School application)
- Uploaded Statement of Purpose/Reasons for Graduate Study

Additional information is available on the program website (<https://sohe.wisc.edu/graduate-students/research-and-creative-scholarship/consumer-behavior-family-economics/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Funding opportunities for Human Ecology graduate students are available and made possible, in large part, by generous donations to SoHE. Every year, these funds are used to fund teaching or project assistantships, award academic excellence scholarships, and provide students doing their masters or doctoral research or final MFA project with conference travel scholarships and graduate research scholarships. See the School of Human Ecology Enrollment Policy on Funding Eligibility (<https://sohe.wisc.edu/graduate-students/academic-policies-forms-deadlines/full-time-enrollment-policy-for-funding-eligibility/>) and view current funding opportunities on our program website (<https://sohe.wisc.edu/graduate-students/funding/>) for more information.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum 51 credits
Credit Requirement

Minimum 32 credits
Residence
Credit Requirement

Minimum Graduate Coursework Requirement	Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	Doctoral students are required to take a comprehensive preliminary/oral examination after they have cleared their record of all Incomplete and Progress grades (other than research and thesis). Deposit of the doctoral dissertation in the Graduate School is required.
Language Requirements	Contact the program for information on any language requirements.
Doctoral Minor/Breadth Requirements	All doctoral students are required to complete a minor.

REQUIRED COURSES

Code	Title	Credits
Consumer Science Theory Courses		9
CNSR SCI 748	(Required)	
CNSR SCI 888	Advanced Consumer Behavior (Required)	
CNSR SCI 901	Graduate Special Topics in Consumer Science	
CNSR SCI 930	Seminar in Family Economic Policy	
Consumer Science Methods Course		3
CNSR SCI 901	Graduate Special Topics in Consumer Science	
Human Ecology Core Courses		6
INTER-HE 801	Special Topics in Human Ecology (Professional Development Seminar)	
INTER-HE 792	Theories and Perspectives in Human Ecology	
INTER-HE 793	Research Methods	
Statistics		9
<i>Courses should include computer and data analysis components. Students who have completed one of these or equivalent courses must, in consultation with their advisor, select a more advanced statistics course appropriate to their background and expected research.</i>		
A A E 636	Applied Econometric Analysis I (Required)	
A A E 637	Applied Econometric Analysis II	
ED PSYCH 960	Structural Equation Modeling	
SOC 756	Demographic Techniques II	
Research Methods		6

Students may select courses that are consistent with intended thesis methodologies, in consultation with advisor. Some options include:

SOC 751	Survey Methods for Social Research
SOC 752	Measurement and Questionnaires for Survey Research
A A E 875	Special Topics
ED PSYCH 773	Factor Analysis, Multidimensional Scaling and Cluster Analysis
ED PSYCH 762	Introduction to the Design of Educational Experiments
Doctoral Minor	9
Graduate Electives	6
Research & Thesis	3
Total Credits	51

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count up to 18 credits of graduate coursework taken at other institutions or as a UW-Madison Special student (with a maximum of 9 special student credits as part of the 18). Prior coursework taken at other institutions may not be used to satisfy the minimum graduate residence credit requirement. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

UW-Madison Undergraduate

With program approval, up to 7 credits numbered 300 or above from a UW-Madison undergraduate degree are allowed to count toward degree credit; undergraduate courses must be numbered 700 or above to count toward the minimum graduate coursework requirement. No undergraduate coursework may count toward the graduate residence requirement.

UW-Madison University Special

With program approval, students are allowed to count up to 18 credits of graduate coursework taken at other institutions or as a UW-Madison Special student (with a maximum of 9 special student credits as part of the 18). coursework must be numbered 300 or above for residence and degree credit and 700 or above to satisfy the minimum graduate coursework (50%) requirement. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements. Use of Special student credit may require payment of tuition difference.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

12 credits

TIME CONSTRAINTS

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Any student who feels that he or she has been treated unfairly by a Human Ecology faculty or staff member has the right to complain about the treatment and to receive a prompt hearing of the grievance, following the grievance procedures outlined below. To ensure a prompt and fair hearing of any complaint, and to protect both the rights of the student and the person at whom the complaint is addressed, the procedures below are used in the School of Human Ecology.

The person whom the complaint is directed against must be an employee of the School of Human Ecology. Any graduate student or graduate applicant may use these procedures unless the complaint is covered by other campus rules or contracts.

Note: These procedures do not cover appeals of admissions decisions or other decisions made by departmental or Human Ecology committees. For information on appeals of decisions, students should contact the chair of the committee or the chair of the department that made the decision.

Contacts

Civil Society and Community Studies: Brian McInnes (<https://sohe.wisc.edu/staff/brian-mcinnis/>) (Graduate Program Chair), Cynthia Jasper (<http://sohe.wisc.edu/staff/cynthia-jasper/>) (Department Chair)

Consumer Science: J. Michael Collins (<https://sohe.wisc.edu/staff/j-michael-collins/>) (Graduate Program Chair), Nancy Wong (<http://sohe.wisc.edu/staff/nancy-wong/>) (Department Chair)

Design Studies: Jung-hye Shin (<https://sohe.wisc.edu/staff/jung-hye-shin/>) (Graduate Program Chair), Roberto Rengel (<http://sohe.wisc.edu/staff/roberto-rengel/>) (Department Chair)

Human Development and Family Studies: Kristin Litzelman (<https://sohe.wisc.edu/staff/kristin-litzelman/>) (Graduate Program Chair), Janean Dilworth-Bart (<https://sohe.wisc.edu/staff/janean-dilworth-bart-2/>) (Department Chair)

Master of Science in Human Ecology: Sarah Halpern-Meekin (<https://sohe.wisc.edu/staff/sarah-halpern-meekin/>) (Graduate Program Chair)

Students are encouraged to keep written documentation of their experience of unfair treatment both before and during the grievance proceedings.

Graduate Student Grievance Procedures

STEP 1. The student should first consider talking directly with the person(s) against whom the grievance is directed.

Some issues can be settled at this level, and some cannot be. Although students are encouraged to talk directly with the person(s) involved, we recognize that this may not always be possible. If the complaint cannot be

resolved satisfactorily by talking with the person(s) involved, the student may continue to **Step 2**.

NOTE: In cases of sexual harassment, sexual misconduct, or racial discrimination, students may choose to bypass these procedures and report the conduct directly to either of the following offices:

- SoHE Human Resources Manager: Nancy Andrews (<https://sohe.wisc.edu/staff/nancy-andrews/>)
- The Office for Equity and Diversity (<http://oed.wisc.edu/>) (179-A Bascom Hall, 608-263-2378, Wisconsin Telecommunications Relay Service: 7-1-1)

STEP 2. Does the complaint involve someone in a Human Ecology academic department (Civil Society and Community Studies, Consumer Science, Design Studies, and Human Development & Family Studies)?

- **Yes:** The student should contact the chair of the department. The student will submit the grievance to the chair in writing. This must be done within 60 calendar days of the alleged unfair treatment. The department chair will refer the matter to the department's Graduate Program Committee or to another appropriate departmental committee (standing or ad hoc) for review. The committee will share the student's written complaint with the person at whom the complaint is directed, and will obtain a written response from this person. This response will be shared with the student filing the grievance. The committee chair will provide a timely written decision to the student on the action taken by the committee (the departmental decision). If either party is unwilling to accept the departmental decision, the department chair will refer the matter to the Associate Dean for Graduate Studies (see contact information below). The Associate Dean will bring the grievance to the Human Ecology Graduate Program Council for review. (NOTE: if the grievance is against the department chair, the written complaint should be referred to the chair of the department's graduate program committee; contact information given below.)
- **No:** The student should contact the Associate Dean for Graduate Studies. (<https://sohe.wisc.edu/staff/connie-flanagan/>) The student will submit the grievance to the Associate Dean in writing. This must be done within 60 calendar days of the alleged unfair treatment. The Associate Dean will refer the grievance to the Human Ecology Graduate Program Council for review.

STEP 3. Human Ecology Graduate Program Council review.

To ensure fairness, the Graduate Program Council chair may appoint a subcommittee to review the complaint (e.g., excluding faculty from the student's department). The Graduate Program Council may ask for additional information from the parties involved and may hold a hearing at which both parties will be asked to speak separately in closed session. The Graduate Program Council will then make a written recommendation to the Associate Dean who will render a decision and submit it to the Dean of the School for final approval. The Associate Dean will provide the Dean's final decision in writing to the student and to the person against whom the grievance was filed. Unless a longer time is mutually agreed upon by the individuals involved, this written decision shall be made within 30 working days from the date when the written grievance was filed with the Associate Dean's Office.

Students not willing to accept the final decision of the Dean may appeal to the Graduate School (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to Connie Flanagan, Associate Dean for Graduate Studies (<https://sohe.wisc.edu/staff/connie-flanagan/>).

State law contains provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part:

"No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or centers because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status."

In addition, the UW-System prohibits discrimination based on gender identity or gender expression.

Students have the right to file discrimination and harassment complaints with the Office for Equity and Diversity (<https://employeeedisabilities.wisc.edu/>), 179-A Bascom Hall, 263-2378, Wisconsin Telecommunications Relay Service: 7-1-1

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The School of Human Ecology Graduate Program values the professional development of graduate students and provides financial awards to those who are invited to present at professional conferences/exhibits. The purpose of the support is to encourage participation in professional development, scholarly research, and/or creative endeavor and to help cover expenses not covered by other sources. Students may receive a maximum award of \$650 for travel (\$750 for international travel) to support conference participation in a single academic year. Students are encouraged to seek conference and travel funding from the Graduate School as a first step and apply for supplemental funds through SoHE as needed.

In addition, each academic department within the School of Human Ecology may offer additional professional development grant opportunities. See the program Events Calendar (<https://sohe.wisc.edu/calendar-of-events/>) for the most up-to-date information on professional development opportunities.

HUMAN ECOLOGY: DESIGN STUDIES, PH.D.

This is a named option within the Human Ecology Ph.D. (p. 990)

Within the Design Studies Graduate Program, faculty and students investigate a wide range of subject matter and apply a variety of methods, with the common goal of understanding how design (broadly conceived) relates to, responds to, and affects our lives. The program's graduate faculty is comprised of interdisciplinary scholars, designers, scientists, and artists who mentor and assist graduate students as they build individual programs of study. The Design Studies department offers a doctoral program with the aim of preparing students for professional design careers, specialized research, college teaching, museum or archival work, community engagement, and entrepreneurial endeavors.

Students enrolled in one of the Human Ecology Ph.D. program named options have the opportunity to earn the Human Ecology MS: Human Ecology Research (p. 976) degree along the way to the Ph.D. upon successful completion of coursework and research.

The graduate program in Design Studies is housed within the School of Human Ecology. The Ph.D. program capitalizes on the many rich resources offered at the University of Wisconsin–Madison. As a public research university, UW–Madison is known for its high quality of research activity (ranked third in the nation) and comprehensive academic programs at both the undergraduate and graduate levels. The university environment

provides fertile ground for interdisciplinary research necessary for twenty-first-century students to prepare for work in a fast evolving discipline with shifting boundaries and growing global connections. UW–Madison's world-class faculty and staff offer innovative approaches to curriculum and research. The UW–Madison campus is home to 40 libraries, nearly 100 research centers, a state-of-art virtual reality facility, and the Chazen Museum of Art (one of the nation's leading university art museums).

The Doctor of Philosophy (Ph.D.) in Design Studies is the highest degree in the field of design research and scholarship. The program is grounded in the production of original and rigorous research. Students are encouraged to shape their own approaches as they develop mastery of the research and communication skills necessary to complete their research agendas. Through a combination of core courses, concentrations, major specializations, and minor specializations, students acquire content knowledge, theoretical foundations, and methodological approaches needed for their work. The Ph.D. culminates in the production of a doctoral dissertation that contributes to the knowledge base in the discipline of design. Graduates of the program have demonstrated their leadership in the field of design practice and education in the US and internationally.

The Ph.D. program currently offers three areas of concentration. Within each area, students are expected to build a self-directed but highly coherent curriculum in close consultation with a major faculty advisor. The tracks are:

Design History (DH Track)¹

Design History seeks to understand design in its historical context, as both a process and a product. Our program defines design broadly to include architecture, interior design, industrial design, decorative arts, and other areas of material culture. The Design Studies department offers many opportunities for interdisciplinary study on the UW–Madison campus and has strong ties to other disciplines including art history and landscape architecture. Design History Ph.D. students also have access to coursework and faculty members from allied programs, including the Material Culture Studies Certificate and the Buildings–Landscapes–Cultures Program (a collaborative research degree offered through UW–Madison and UW–Milwaukee).

1

These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Environmental Design Research (EDR Track)¹

Environmental Design Research addresses the interaction between people and their built, natural, and/or virtual environments with a clear goal to create environments that are sustainable and responsive to human needs. The faculty and graduates of the program have pioneered studies in environment-behavior, evidence-based design, building evaluation, sustainability, aging and environment, children's environment, environments for special population, and emerging technologies and applications of virtual reality.

While drawing from campus-wide resources, the faculty and students in EDR closely work with its allies within the School of Human Ecology, which include community psychologists, developmental psychologists, and scholars from consumer science. EDR students also have the opportunity to work with the Department of Planning and Landscape Architecture, and with the UW–Milwaukee School of Architecture and Urban Planning.

1

These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Textile Science (TS)¹

Textile Science investigates the interaction of dyes and finishes with fibers, yarns, and fabrics. Faculty and students in this program focus on sustainability and work to develop chemicals and processes that are safer for the end-user, textile workers, and the environment. Students achieve this by developing and using chemicals, dyes, and finishes, and by reducing the amount of chemicals, water, and energy used in these processes. The DS Textile Lab offers equipment for textile quality control, dyeing, finishing, and plasma. The Materials Science Lab offers analytical equipment such as ESCA, an Atomic Force Microscope, an Electron Microscope, and FTIR. Depending on their research interests, students will have the opportunity to work with other UW–Madison departments including Chemistry, Material Science, Forestry, or Electrical and Computer Engineering.

1

These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Admission to the Ph.D. program is highly competitive. The Ph.D. builds on knowledge acquired typically through a master's degree and provides students with further training to teach and conduct research at the highest level. Competitive candidates will hold a master's degree (M.S. preferred) in design, architectural history, environmental design, or other related fields. Promising applicants who do not have sufficient educational background may be admitted, under the condition that he or she take pre-doctoral preparation courses.

To be considered for admission to the Design Studies (DS) Ph.D. option in Human Ecology, the department requires the following materials:

- Online application (<https://grad.wisc.edu/apply/>) indicating "Human Ecology PHD–Design Studies" as your program selection
- \$75 application fee
- Curriculum vitae/resume
- Unofficial transcripts or academic records from each institution attended (official transcripts will be required for students who receive an admission offer)
- Official Graduate Record Exam scores (GRE Institution code #1846)
- International students only:
 - Official Test of English as a Foreign Language (TOEFL) or Melab scores
 - International students who hold degrees from U.S. institutions do not need to submit language test scores
- Three letters of recommendation (submitted electronically through your Graduate School application)
- Uploaded Statement of Purpose/Reasons for Graduate Study
- Upload a writing sample
 - Examples of writing samples include prior scholarly work such as term papers, theses, or published articles. All writing samples must be written in English and uploaded to the online application system as a PDF.
- Personal bio statement
 - Describe concisely how your personal background and life experiences motivated you to further pursue graduate education. The personal biographical statement is not a statement of purpose that describes your academic plan. This statement should be no more than 500 words and should be uploaded to the online application system as a PDF.

Additional information is available on the program website (<https://sohe.wisc.edu/graduate-students/research-and-creative-scholarship/design-studies/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Funding opportunities for Human Ecology graduate students are available and made possible, in large part, by generous donations to SoHE. Every year, these funds are used to fund teaching or project assistantships, award academic excellence scholarships, and provide students doing

their masters or doctoral research or final MFA project with conference travel scholarships and graduate research scholarships. See the School of Human Ecology Enrollment Policy on Funding Eligibility (<https://sohe.wisc.edu/graduate-students/academic-policies-forms-deadlines/full-time-enrollment-policy-for-funding-eligibility/>) and view current funding opportunities on our program website (<https://sohe.wisc.edu/graduate-students/funding/>) for more information.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	26 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244)
Overall Graduate GPA Requirement	3.30 GPA required.

Other Grade Requirements n/a

Assessments and Examinations Qualifying Research Project: The Qualifying Research Project (3 credits) is part of the Core Course requirements for every Ph.D. student, and must be completed prior to preliminary exams. The Qualifying Research Project provides students with an opportunity to conduct independent research in their area of specialization in preparation for their dissertation. While limited in scope, the project should be comparable to the final dissertation in terms of its intellectual tone and quality. The project could be a self-contained research paper that could later be incorporated into one of chapters in the final dissertation, building theoretical model for the dissertation, or proposal and conduct of pilot study for their final dissertation. Students are encouraged to disseminate the project broadly, in the format of conference papers or published journal articles in their respective fields.

The Qualifying Research Project may be based on work completed as part of any UW graduate seminar. Students often enroll in an independent study with their major advisor to complete this project. The project must be submitted to and approved by student's major advisor; the project must receive a passing grade in order for the student to sit for the preliminary examination.

Preliminary Examination: All Ph.D. students sit for a preliminary examination after satisfactorily completing coursework and the Qualifying Research Project. The exam is intended to demonstrate the students' broad knowledge in the field of design, and specialized expertise in both a major and a minor area. Students must pass the preliminary examination before submitting a dissertation proposal, and before advancing to dissertator status.

Research and Thesis: Students with dissertator status are expected to enroll for 3 credits directly related to dissertation research or production. These credits are generally research and thesis credits, independent studies, or required seminars; they must be at the 300 level or above. Three credits is the minimum credit load per semester for dissertators during each of the fall and spring semesters; this is considered a full time load. Dissertators must register for 3 credits each semester until the Ph.D. thesis is filed.

Language Requirements Foreign language proficiency may be required for students in the Design History track; if their major or minor areas or dissertation requires work in a language other than English. Students in EDR Track may be required to fulfill the foreign language requirement if the student's research involves the use of a language other than English. Competency may be acquired independently or through structured coursework and is assessed through examination. Exams must be taken before students advance to dissertator status.

Graduate School Breadth Requirement All doctoral students are required to complete a doctoral minor or Graduate/Professional certificate.

REQUIRED COURSES

Ph.D. students must complete a minimum of 51 credits. Of these, 42 credits will include Core Courses, courses in a Major Area of Specialization (Design History or "DH track"; Environmental Research Design or "EDR track"; or Textile Science or "TS track")¹, courses in a Minor Area of Specialization, and a Qualifying Research Project. The remaining 13 credits may be fulfilled through foreign language competencies, independent studies (i.e. to prepare for qualifying examinations), or Dissertator credits. At least 50% of credits (26 of 51 total credits) applied toward the doctorate degree must be from courses designed for graduate work; courses numbered 700 and above or courses numbered 300–699 that assess graduate students separately from undergraduate students generally satisfy this requirement. Students must maintain a 3.3-grade point average to remain in good standing.

1

These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

INTER-HE 801	Special Topics in Human Ecology (Professional Development Seminar)	
INTER-HE 792	Theories and Perspectives in Human Ecology	

Core Courses² 15

Prior to doctoral candidacy, all Ph.D. students will be expected to enroll in 15 credits distributed among the following Core Courses:

DS 920	Seminar in Design Studies	
<i>Design Studies Seminar (select one as appropriate):</i>		
DS 221	Person and Environment Interactions (EDR track only)	
DS 920	Seminar in Design Studies (Topic: Seminar in Design History; DH track only) ³	
DS 920	Seminar in Design Studies (Topic: Seminar in New Developments in Textiles; TS track only) ³	
<i>Research Design and Methods (select one as appropriate):</i>		
Methods for Design History (select from Dimensions in Material Culture, Architectural History Methods, or Art History Methods) (DH track only)		
DS/F&W ECOL/ URB R PL 955	Practical Research Design and Methods of Empirical Inquiry (EDR track only)	
DS 920	Seminar in Design Studies (Topic: Textile Science Research Methods; TS track only)	
<i>Graduate Student Instructor Course</i>		
<i>Qualifying Research Project</i>		
Major Area of Specialization ⁴		15
Minor Area of Specialization (Doctoral Minor) ⁵		9
Qualifying Research Project		3
Qualifying Exam/Preliminary Exam (Non credit)		
Elective Credits		3
Research and Thesis		3
Total Credits		51

1

Promising applicants who do not have sufficient educational background may be admitted, under the condition that he or she take pre-doctoral preparation courses; if the student satisfactorily completes a pre-doctoral course with a 3.3 GPA or above, the student may subsequently advance to full doctoral student status. Students will work closely with their major faculty advisor to determine appropriate pre-doctoral preparation courses.

2

The Ph.D. Core Course curriculum offers an opportunity for all Design Studies students to establish a foundational knowledge of theories, research methods, and seminars relevant to design research. The core curriculum also includes specialized training in instruction and pedagogy; this is requisite for graduate teaching assistant duties (often a source of doctoral funding), and useful for students who wish to pursue academic careers. The core curriculum also includes an independent study that will facilitate the production of the Qualifying Research Project.

3

Or independent study; topics may vary.

4

The major area of specialization provides students with an overview of the knowledgebase and seminal research in their concentration field; coursework in the major area will serve as a foundation for the preliminary exam and dissertation. Students are encouraged to take course that are offered both inside and outside the Design Studies department to develop an interdisciplinary framework for their doctoral research. Students may also benefit from courses offered through CIC (Committee on Institutional Cooperation) traveling scholar program, the academic consortium of twelve major teaching and research universities in the Midwest designed to share specialized courses and resources.

Ph.D. students are expected to develop a strong foundation in research methods. Students in the DH track must take at least one advanced methods courses in applicable areas, such as art history or material culture. Students in the EDR track are encouraged to take advanced research methods courses (e.g., advanced qualitative/quantitative, ethnography, GIS) and advanced statistics courses as their dissertation topic requires. Students in the TS track are expected to develop a strong foundation in chemistry, the fundamentals of plasma chemistry, and plasma processing. Technology and chemistry are an important part of textile science track.

5

All Ph.D. students select a minor area of specialization outside their major area of specialization. The minor area should be distinctive but complementary to student's major area. The UW–Madison Graduate School policy outlines two possible options regarding minor area of specialization:

- Option A: requires a minimum of 10 credits in a single disciplinary program (e.g., Art History, Landscape Architecture). Fulfillment of this option requires the approval of the minor program.
- Option B: requires a minimum of 9 credits in one or more programs forming a coherent topic, and can include course work in the program (e.g., technology-focused virtual reality). Fulfillment of this option requires the approval of the Design Studies program. The distribution of other credits will be approved by the individual student's Ph.D. committee.

VR Technology Focused Minor

The Design Studies program offers a unique minor area of specialization in Virtual Reality¹. Students in both the DH and EDR tracks may minor in this field. The minor provides a technology-focused approach for students looking to develop new Virtual Reality technologies or to utilize Virtual Reality technologies in their research. The School of Human Ecology houses a newly developed Virtual Reality system to which students undertaking this minor will have full access. Additionally, students will have the opportunity to work with other Virtual Reality and simulation environments around the UW–Madison campus. Students looking to undertake the VR technology minor should be familiar with concepts of computer programming and programming languages.

Students in the TS Track should develop expertise in both technology and chemistry. Students have the opportunity to develop a minor in the emerging field of technical textiles. If a distributed minor is desired, students must take a minimum of 6 credits in technology and 6 credits in chemistry (12 credits total).

1

Note: This is taken by the student as a distributed doctoral minor (Option B). The name "Virtual Reality" does not appear on the transcript or anywhere in the student record.

Code	Title	Credits
Required during the first semester:		
DS/COMP SCI 579	Virtual Reality	3
Electives:		
PSYCH/COMP SCI/ ED PSYCH 770	Human-Computer Interaction	3
DS/COMP SCI/ I SY E 518	Wearable Technology	3
COMP SCI 559	Computer Graphics	3
COMP SCI 838	Topics in Computing (Topic: Advanced Modeling and Simulation)	1-3
COMP SCI 838	Topics in Computing (Topic: Advanced Graphics)	1-3
COMP SCI 838	Topics in Computing (Topic: Visualization)	1-3

Read more about the minor here (<https://blogs.discovery.wisc.edu/kponto/dscvr/>).

POLICIES**GRADUATE SCHOOL POLICIES**

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES**PRIOR COURSEWORK****Graduate Work from Other Institutions**

With program approval, students are allowed to count up to 18 credits of graduate coursework taken at other institutions or as a UW–Madison Special student (with a maximum of 9 special student credits as part of the 18). Prior coursework taken at other institutions may not be used to satisfy the minimum graduate residence credit requirement. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

UW–Madison Undergraduate

This program follows the Graduate School's policy for Satisfying Requirements with Coursework from Undergraduate Career at UW–Madison. (<https://policy.wisc.edu/library/UW-1216/>)

UW–Madison University Special

With program approval, students are allowed to count up to 18 credits of graduate coursework taken at other institutions or as a UW–Madison Special student (with a maximum of 9 special student credits as part of the 18). coursework must be numbered 300 or above for residence and degree credit and 700 or above to satisfy the minimum graduate coursework (50%) requirement. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements. Use of Special student credit may require payment of tuition difference.

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>).

CREDITS PER TERM ALLOWED

12 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Any student who feels that he or she has been treated unfairly by a Human Ecology faculty or staff member has the right to complain about the treatment and to receive a prompt hearing of the grievance, following the grievance procedures outlined below. To ensure a prompt and fair hearing of any complaint, and to protect both the rights of the student and the

person at whom the complaint is addressed, the procedures below are used in the School of Human Ecology.

The person whom the complaint is directed against must be an employee of the School of Human Ecology. Any graduate student or graduate applicant may use these procedures unless the complaint is covered by other campus rules or contracts.

Note: These procedures do not cover appeals of admissions decisions or other decisions made by departmental or Human Ecology committees. For information on appeals of decisions, students should contact the chair of the committee or the chair of the department that made the decision.

Contacts

Civil Society and Community Studies: Brian McInnes (<https://sohe.wisc.edu/staff/brian-mcinnis/>) (Graduate Program Chair), Cynthia Jasper (<http://sohe.wisc.edu/staff/cynthia-jasper/>) (Department Chair)

Consumer Science: J. Michael Collins (<https://sohe.wisc.edu/staff/j-michael-collins/>) (Graduate Program Chair), Nancy Wong (<http://sohe.wisc.edu/staff/nancy-wong/>) (Department Chair)

Design Studies: Jung-hye Shin (<https://sohe.wisc.edu/staff/jung-hye-shin/>) (Graduate Program Chair), Roberto Rengel (<http://sohe.wisc.edu/staff/roberto-rengel/>) (Department Chair)

Human Development and Family Studies: Kristin Litzelman (<https://sohe.wisc.edu/staff/kristin-litzelman/>) (Graduate Program Chair), Janean Dilworth-Bart (<https://sohe.wisc.edu/staff/janean-dilworth-bart-2/>) (Department Chair)

Master of Science in Human Ecology: Sarah Halpern-Meekin (<https://sohe.wisc.edu/staff/sarah-halpern-meekin/>) (Graduate Program Chair)

Students are encouraged to keep written documentation of their experience of unfair treatment both before and during the grievance proceedings.

Graduate Student Grievance Procedures

STEP 1. The student should first consider talking directly with the person(s) against whom the grievance is directed.

Some issues can be settled at this level, and some cannot be. Although students are encouraged to talk directly with the person(s) involved, we recognize that this may not always be possible. If the complaint cannot be resolved satisfactorily by talking with the person(s) involved, the student may continue to **Step 2**.

NOTE: In cases of sexual harassment, sexual misconduct, or racial discrimination, students may choose to bypass these procedures and report the conduct directly to either of the following offices:

- SoHE Human Resources Manager: Nancy Andrews (<https://sohe.wisc.edu/staff/nancy-andrews/>)
- The Office for Equity and Diversity (<http://oed.wisc.edu/>) (179-A Bascom Hall, 608-263-2378, Wisconsin Telecommunications Relay Service: 7-1-1)

STEP 2. Does the complaint involve someone in a Human Ecology academic department (Civil Society and Community Studies, Consumer Science, Design Studies, and Human Development & Family Studies)?

- **Yes:** The student should contact the chair of the department. The student will submit the grievance to the chair in writing. This must be done within 60 calendar days of the alleged unfair treatment. The department chair will refer the matter to the department's Graduate Program Committee or to another appropriate departmental committee (standing or ad hoc) for review. The committee will share the student's written complaint with the person at whom the complaint is directed, and will obtain a written response from this person. This response will be shared with the student filing the grievance. The committee chair will provide a timely written decision to the student on the action taken by the committee (the departmental decision). If either party is unwilling to accept the departmental decision, the department chair will refer the matter to the Associate Dean for Graduate Studies (see contact information below). The Associate Dean will bring the grievance to the Human Ecology Graduate Program Council for review. (NOTE: if the grievance is against the department chair, the written complaint should be referred to the chair of the department's graduate program committee; contact information given below.)
- **No:** The student should contact the Associate Dean for Graduate Studies. (<https://sohe.wisc.edu/staff/connie-flanagan/>) The student will submit the grievance to the Associate Dean in writing. This must be done within 60 calendar days of the alleged unfair treatment. The Associate Dean will refer the grievance to the Human Ecology Graduate Program Council for review.

STEP 3. Human Ecology Graduate Program Council review.

To ensure fairness, the Graduate Program Council chair may appoint a subcommittee to review the complaint (e.g., excluding faculty from the student's department). The Graduate Program Council may ask for additional information from the parties involved and may hold a hearing at which both parties will be asked to speak separately in closed session. The Graduate Program Council will then make a written recommendation to the Associate Dean who will render a decision and submit it to the Dean of the School for final approval. The Associate Dean will provide the Dean's final decision in writing to the student and to the person against whom the grievance was filed. Unless a longer time is mutually agreed upon by the individuals involved, this written decision shall be made within 30 working days from the date when the written grievance was filed with the Associate Dean's Office.

Students not willing to accept the final decision of the Dean may appeal to the Graduate School (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to Connie Flanagan, Associate Dean for Graduate Studies (<https://sohe.wisc.edu/staff/connie-flanagan/>).

State law contains provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part:
 "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or centers because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status."

In addition, the UW-System prohibits discrimination based on gender identity or gender expression.

Students have the right to file discrimination and harassment complaints with the Office for Equity and Diversity (<https://>

employee.disabilities.wisc.edu/), 179-A Bascom Hall, 263-2378, Wisconsin Telecommunications Relay Service: 7-1-1

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The School of Human Ecology Graduate Program values the professional development of graduate students and provides financial awards to those who are invited to present at professional conferences/exhibits. The purpose of the support is to encourage participation in professional development, scholarly research, and/or creative endeavor and to help cover expenses not covered by other sources. Students may receive a maximum award of \$650 for travel (\$750 for international travel) to support conference participation in a single academic year. Students are encouraged to seek conference and travel funding from the Graduate School as a first step and apply for supplemental funds through SoHE as needed.

In addition, each academic department within the School of Human Ecology may offer additional professional development grant opportunities. See the program Events Calendar (<https://sohe.wisc.edu/calendar-of-events/>) for the most up-to-date information on professional development opportunities.

HUMAN ECOLOGY: HUMAN DEVELOPMENT AND FAMILY STUDIES, PH.D.

This is a named option within the Human Ecology, Ph.D. (p. 990)

Human Development and Family Studies (HDFFS) offers an interdisciplinary approach to the study of families and individuals across the lifespan with an emphasis on research and its application to practice, programs, and policy.

Students enrolled in one of the Human Ecology Ph.D. program named options have the opportunity to earn the Human Ecology MS: Human Ecology Research (p. 976) degree along the way to the Ph.D. upon successful completion of coursework and research.

The HDFFS graduate program option is served by 11 full-time faculty members plus affiliated faculty members. Faculty members are professionally active with strong records of national and international scholarship. The faculty bring the perspectives of many different disciplines to their work, including psychology, human development and family studies, sociology, education, and psychiatry. Faculty members conduct basic research to understand families and their members and applied research and outreach to promote positive outcomes in human development and family life.

Faculty and graduate students in HDFFS collaborate on research and outreach-engagement projects in a wide variety of substantive areas focusing on the well-being of individuals, couples, and families. Current areas of scholarly activity focus on early childhood, couple relationships, contemplative practices, mind-body well-being, parenting, family caregiving, and vulnerable populations (e.g., incarcerated parents, children with autism, and historically under-represented groups).

Reflecting the multidisciplinary orientation of the program, faculty and students employ a wide array of methods in their work. Faculty possess expertise in areas as diverse as multilevel, longitudinal, nonlinear, and dyadic modeling; physiological measurement; program evaluation; observational methods; experimental methods; survey methodology; and community-based research. The program explicitly values both qualitative and quantitative approaches to inquiry.

Central to the mission of the program is the creation, dissemination, and application of scientific knowledge to address real-world problems and issues. Applied work of current faculty and students includes public

policy education, community building, outreach education, and prevention programs. This applied work is conducted throughout the state.

There is a demand for professionals trained in research, teaching, and outreach in the areas of human development and family studies in higher education, government, and human and family service programs. Regardless of whether HDFFS graduates pursue careers in academic or applied settings, they are prepared for a life of scholarship and service.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.*
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

*

Due to COVID-19, there have been challenges for students attempting to take the GRE. For students applying for Fall 2022, the GRE requirement is optional. Regardless of whether GRE scores are submitted, all applications will be held in equal regard.

Applications are accepted once per year for fall admission and are due by December 1 of the preceding year. To be considered for admission to the Human Development and Family Studies (HDFFS) Ph.D. option in Human Ecology, the department requires the following materials:

- Online application (<https://grad.wisc.edu/apply/>) indicating "Human Ecology PHD-Human Dev & Family Studies" as your program selection
- \$75 application fee
- Curriculum vitae/resume

- Unofficial transcripts or academic records from each institution attended (official transcripts will be required for students who receive an admission offer)
- Official Graduate Record Exam scores (GRE Institution code #1846)
- International students only:
 - Official Test of English as a Foreign Language (TOEFL) or Melab scores
 - International students who hold degrees from U.S. institutions do not need to submit language test scores
- Three letters of recommendation (submitted electronically through your Graduate School application)
- Uploaded Statement of Purpose/Reasons for Graduate Study
- Upload a writing sample
 - Examples of writing samples include prior scholarly work such as term papers, theses, or published articles. All writing samples must be written in English and uploaded to the online application system as a PDF.
- Complete the Supplemental Application portion of the online application

Additional information is available on the program website (<https://sohe.wisc.edu/graduate-students/research-and-creative-scholarship/hdfs-graduate-program/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Funding opportunities for Human Ecology graduate students are available and made possible, in large part, by generous donations to SoHE. Every year, these funds are used to fund teaching or project assistantships, award academic excellence scholarships, and provide students doing their masters or doctoral research or final MFA project with conference travel scholarships and graduate research scholarships. See the School of Human Ecology Enrollment Policy on Funding Eligibility (<https://sohe.wisc.edu/graduate-students/academic-policies-forms-deadlines/full-time-enrollment-policy-for-funding-eligibility/>) and view current funding opportunities on our program website (<https://sohe.wisc.edu/graduate-students/funding/>) for more information.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide.
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	The Graduate School requires an average grade of B or better in all coursework (300 or above, not including research credits) taken as a graduate student unless conditions for probationary status require higher grades. Grades of Incomplete are considered to be unsatisfactory if they are not removed during the next enrolled semester.
Assessments and Examinations	Doctoral students are required to take a comprehensive preliminary/oral examination after they have cleared their record of all Incomplete and Progress grades (other than research and thesis). Deposit of the doctoral dissertation in the Graduate School is required.
Language Requirements	Contact the program for information on any language requirements.

Doctoral Minor/Breadth Requirements All doctoral students are required to complete a minor.

REQUIRED COURSES

Code	Title	Credits
Introductory Courses		3
INTER-HE 801	Special Topics in Human Ecology (Professional Development Seminar)	
INTER-HE 792	Theories and Perspectives in Human Ecology	
Basic Theory Courses		9
HDFS 766	Current Topics in Human Development and Family Studies (Prenatal to Adolescence)	
HDFS 766	Current Topics in Human Development and Family Studies (Late Adolescence to Old Age)	
HDFS 865	Family Theory I (Survey)	
Content Courses		9
<i>A minimum of 6 HDFS credits in content courses (not to include methods or statistics courses) at 700 level or above. Independent Study credits do not count towards content course credits</i>		
Research Methods and Design		6
INTER-HE 793	Research Methods	
<i>Choose an advanced research methods course (minimum 3 credits) in consultation with your advisor</i>		
Statistics		3
<i>As part of the Ph.D. program, students must also complete a minimum of one 3-credit, advanced level statistics course. Please consult with your advisor to identify a statistics course that fits with your area of study</i>		
Research & Thesis		9
HDFS 990	Research and Thesis	
Elective		3
Minor Area Requirement		9
Total Credits		51

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count up to 18 credits of graduate coursework taken at other institutions or as a UW–Madison Special student (with a maximum of 9 special student credits as part of the 18). Prior coursework taken at other institutions may not be used to satisfy the minimum graduate residence credit requirement. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, up to 7 credits numbered 300 or above from a UW–Madison undergraduate degree are allowed to count toward degree credit; undergraduate courses must be numbered 700 or above to count toward the minimum graduate coursework requirement. No undergraduate coursework may count toward the graduate residence requirement.

UW–Madison University Special

With program approval, students are allowed to count up to 18 credits of graduate coursework taken at other institutions or as a UW–Madison Special student (with a maximum of 9 special student credits as part of the 18). Coursework must be numbered 300 or above for residence and degree credit and 700 or above to satisfy the minimum graduate coursework (50%) requirement. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements. Use of Special student credit may require payment of tuition difference.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

A committee often accomplishes advising for the students in the early stages of their studies.

CREDITS PER TERM ALLOWED

12 credits

TIME CONSTRAINTS

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students

completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Any student who feels that he or she has been treated unfairly by a Human Ecology faculty or staff member has the right to complain about the treatment and to receive a prompt hearing of the grievance, following the grievance procedures outlined below. To ensure a prompt and fair hearing of any complaint, and to protect both the rights of the student and the person at whom the complaint is addressed, the procedures below are used in the School of Human Ecology.

The person whom the complaint is directed against must be an employee of the School of Human Ecology. Any graduate student or graduate applicant may use these procedures unless the complaint is covered by other campus rules or contracts.

Note: These procedures do not cover appeals of admissions decisions or other decisions made by departmental or Human Ecology committees. For information on appeals of decisions, students should contact the chair of the committee or the chair of the department that made the decision.

Contacts

Civil Society and Community Studies: Brian McInnes (<https://sohe.wisc.edu/staff/brian-mcinnes/>) (Graduate Program Chair), Cynthia Jasper (<http://sohe.wisc.edu/staff/cynthia-jasper/>) (Department Chair)

Consumer Science: J. Michael Collins (<https://sohe.wisc.edu/staff/j-michael-collins/>) (Graduate Program Chair), Nancy Wong (<http://sohe.wisc.edu/staff/nancy-wong/>) (Department Chair)

Design Studies: Jung-hye Shin (<https://sohe.wisc.edu/staff/jung-hye-shin/>) (Graduate Program Chair), Roberto Rengel (<http://sohe.wisc.edu/staff/roberto-rengel/>) (Department Chair)

Human Development and Family Studies: Kristin Litzelman (<https://sohe.wisc.edu/staff/kristin-litzelman/>) (Graduate Program Chair), Janean Dilworth-Bart (<https://sohe.wisc.edu/staff/janean-dilworth-bart-2/>) (Department Chair)

Master of Science in Human Ecology: Sarah Halpern-Meekin (<https://sohe.wisc.edu/staff/sarah-halpern-meekin/>) (Graduate Program Chair)

Students are encouraged to keep written documentation of their experience of unfair treatment both before and during the grievance proceedings.

Graduate Student Grievance Procedures

STEP 1. The student should first consider talking directly with the person(s) against whom the grievance is directed.

Some issues can be settled at this level, and some cannot be. Although students are encouraged to talk directly with the person(s) involved, we recognize that this may not always be possible. If the complaint cannot be resolved satisfactorily by talking with the person(s) involved, the student may continue to **Step 2**.

NOTE: In cases of sexual harassment, sexual misconduct, or racial discrimination, students may choose to bypass these procedures and report the conduct directly to either of the following offices:

- SoHE Human Resources Manager: Nancy Andrews (<https://sohe.wisc.edu/staff/nancy-andrews/>)
- The Office for Equity and Diversity (<http://oed.wisc.edu/>) (179-A Bascom Hall, 608-263-2378, Wisconsin Telecommunications Relay Service: 7-1-1)

STEP 2. Does the complaint involve someone in a Human Ecology academic department (Civil Society and Community Studies, Consumer Science, Design Studies, and Human Development & Family Studies)?

- **Yes:** The student should contact the chair of the department. The student will submit the grievance to the chair in writing. This must be done within 60 calendar days of the alleged unfair treatment. The department chair will refer the matter to the department's Graduate Program Committee or to another appropriate departmental committee (standing or ad hoc) for review. The committee will share the student's written complaint with the person at whom the complaint is directed, and will obtain a written response from this person. This response will be shared with the student filing the grievance. The committee chair will provide a timely written decision to the student on the action taken by the committee (the departmental decision). If either party is unwilling to accept the departmental decision, the department chair will refer the matter to the Associate Dean for Graduate Studies (see contact information below). The Associate

Dean will bring the grievance to the Human Ecology Graduate Program Council for review. (NOTE: if the grievance is against the department chair, the written complaint should be referred to the chair of the department's graduate program committee; contact information given below.)

- **No:** The student should contact the Associate Dean for Graduate Studies. (<https://sohe.wisc.edu/staff/connie-flanagan/>) The student will submit the grievance to the Associate Dean in writing. This must be done within 60 calendar days of the alleged unfair treatment. The Associate Dean will refer the grievance to the Human Ecology Graduate Program Council for review.

STEP 3. Human Ecology Graduate Program Council review.

To ensure fairness, the Graduate Program Council chair may appoint a subcommittee to review the complaint (e.g., excluding faculty from the student's department). The Graduate Program Council may ask for additional information from the parties involved and may hold a hearing at which both parties will be asked to speak separately in closed session. The Graduate Program Council will then make a written recommendation to the Associate Dean who will render a decision and submit it to the Dean of the School for final approval. The Associate Dean will provide the Dean's final decision in writing to the student and to the person against whom the grievance was filed. Unless a longer time is mutually agreed upon by the individuals involved, this written decision shall be made within 30 working days from the date when the written grievance was filed with the Associate Dean's Office.

Students not willing to accept the final decision of the Dean may appeal to the Graduate School (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to Connie Flanagan, Associate Dean for Graduate Studies (<https://sohe.wisc.edu/staff/connie-flanagan/>).

State law contains provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part:

"No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or centers because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status."

In addition, the UW-System prohibits discrimination based on gender identity or gender expression.

Students have the right to file discrimination and harassment complaints with the Office for Equity and Diversity (<https://employeeedisabilities.wisc.edu/>), 179-A Bascom Hall, 263-2378, Wisconsin Telecommunications Relay Service: 7-1-1

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

The School of Human Ecology Graduate Program values the professional development of graduate students and provides financial awards to those who are invited to present at professional conferences/exhibits. The purpose of the support is to encourage participation in professional development, scholarly research, and/or creative endeavor and to help cover expenses not covered by other sources. Students may receive a maximum award of \$650 for travel (\$750 for international travel) to support conference participation in a single academic year. Students are encouraged to seek conference and travel funding from the Graduate School as a first step and apply for supplemental funds through SoHE as needed.

In addition, each academic department within the School of Human Ecology may offer additional professional development grant opportunities. See the program Events Calendar (<https://sohe.wisc.edu/calendar-of-events/>) for the most up-to-date information on professional development opportunities.

INDUSTRIAL ENGINEERING, DOCTORAL MINOR

Industrial and systems engineering is an engineering discipline focusing on the design, analysis, improvement and implementation of complex systems that include humans, materials, equipment and other resources. The learning outcome of the doctoral minor is to gain general proficiency and distinctive attainment in one or more concentration areas in industrial and systems engineering, including: decision science and operations research, manufacturing production systems, health systems engineering, and human factors and ergonomics.

ADMISSIONS

For admissions, please contact the ISyE coordinator at iegradadmission@engr.wisc.edu.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor or graduate/professional certificate. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

For additional information, please contact iegradadmission@engr.wisc.edu.

REQUIREMENTS

A Ph.D. candidate from another department taking an Option A doctoral minor in industrial engineering must complete a minimum of 9 credits of I SY E (http://guide.wisc.edu/courses/i_sy_e/) courses numbered 300 or above. A minimum GPA of 3.20 is required for this set of courses. A course with a grade of C or lower cannot be used to satisfy the minor requirement. Students may transfer up to 3 credits from another university to satisfy the minor requirement, subject to the approval of the Academic Affairs Cluster.

INDUSTRIAL ENGINEERING, M.S.

The Department of Industrial and Systems Engineering offers a number of master of science (M.S.) degree programs in Industrial Engineering:

Industrial Engineering: Research, M.S. (p. 1023)

Industrial Engineering: Human Factors and Health Systems Engineering, M.S. (p. 1017)

Industrial Engineering: Systems Engineering and Analytics, M.S. (p. 1030)

The Industrial Engineering M.S. degree with a named option in Research takes approximately two years to complete. The program has a significant research component, giving students valuable hands-on research experience with mentoring by faculty in the Department of Industrial and Systems Engineering. This program may require a written thesis and defense.

The Industrial Engineering M.S. degree with named options in Human Factors and Health Systems Engineering as well as Systems Engineering and Analytics are considered accelerated graduate programs. Each take approximately 16 months to complete, and must be completed within two (2) calendar years. These two programs include only coursework.

All students are mentored by the world-class faculty in the industrial and systems engineering department at UW-Madison. For a list of faculty and their corresponding research interests, please visit our faculty directory

(<https://directory.engr.wisc.edu/ie/faculty/>). For more information on research areas see our page on research in Industrial and Systems Engineering (<https://engineering.wisc.edu/departments/industrial-systems-engineering/research/>).

ADMISSIONS

Students apply to the Master of Science in Industrial Engineering through one of the named options:

- Industrial Engineering: Research, M.S. (<https://guide.wisc.edu/graduate/industrial-systems-engineering/industrial-engineering-ms/industrial-engineering-research-ms/>)
- Industrial Engineering: Human Factors and Health Systems Engineering, M.S. (<https://guide.wisc.edu/graduate/industrial-systems-engineering/industrial-engineering-ms/industrial-engineering-human-factors-health-systems-engineering-ms/>)
- Industrial Engineering: Systems Engineering and Analytics, M.S. (<https://guide.wisc.edu/graduate/industrial-systems-engineering/industrial-engineering-ms/industrial-engineering-systems-engineering-analytics-ms/>)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Tuition and funding opportunities vary according to the specific MS program. Funding information for each named option program is available on the corresponding pages:

Industrial Engineering: Research, M.S. (p. 1025)
Industrial Engineering: Human Factors and Health Systems Engineering, M.S. (p. 1019)
Industrial Engineering: Systems Engineering and Analytics, M.S. (p. 1032)

Please note that the Human Factors and Health Systems Engineering graduate program, as well as the Systems Engineering and Analytics graduate program, are considered accelerated programs. As such, students enrolled in these programs are ineligible to receive tuition remission for graduate assistantships, per UW-Madison policy.

For more information specific to graduate assistantships within the Department of Industrial and Systems Engineering, please consult the department's graduate program handbook. (https://engineering.wisc.edu/wp-content/uploads/2022/01/ISYE_Grad_Handbook_Spring2022.pdf)

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement 30 credits

Minimum Residence Credit Requirement 16 credits

Minimum Graduate Coursework Requirement 15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (<https://policy.wisc.edu/library/UW-1244> (<https://policy.wisc.edu/library/UW-1244/>)).

Overall Graduate GPA Requirement 3.00 GPA required. This program follows the Graduate School's GPA Requirement policy (<https://policy.wisc.edu/library/UW-1203> (<https://policy.wisc.edu/library/UW-1203/>)).

Other Grade Requirements Grades of C and D received by a candidate in any graduate course will not be counted as credit toward the degree. These grades will be counted in the graduate GPA.

Assessments and Examinations None.

Language Requirements No language requirements.

REQUIRED COURSES

Select a Named Option (p. 1016) for courses required.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Science in Industrial Engineering must select one of the following named options:

View as listView as grid

- INDUSTRIAL ENGINEERING: HUMAN FACTORS AND HEALTH SYSTEMS ENGINEERING, M.S. (P. 1017)
- INDUSTRIAL ENGINEERING: RESEARCH, M.S. (P. 1023)
- INDUSTRIAL ENGINEERING: SYSTEMS ENGINEERING AND ANALYTICS, M.S. (P. 1030)

POLICIES

Students should refer to one of the named options for policy information:

- Industrial Engineering: Research, M.S. (<https://guide.wisc.edu/graduate/industrial-systems-engineering/industrial-engineering-ms/industrial-engineering-research-ms/>)
- Industrial Engineering: Human Factors and Health Systems Engineering, M.S. (<https://guide.wisc.edu/graduate/industrial-systems-engineering/industrial-engineering-ms/industrial-engineering-human-factors-health-systems-engineering-ms/>)
- Industrial Engineering: Systems Engineering and Analytics, M.S. (<https://guide.wisc.edu/graduate/industrial-systems-engineering/industrial-engineering-ms/industrial-engineering-systems-engineering-analytics-ms/>)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

THE INDIVIDUAL DEVELOPMENT PLAN ([HTTPS://GRAD.WISC.EDU/PD/IDP/](https://grad.wisc.edu/pd/idp/))

An Individual Development Plan helps with self-assessment, planning, and communication:

- An IDP can help you communicate your professional development and career planning needs and intentions to others including your mentor, which can lead to helpful advice and resources.
- You can use the IDP to make sure you and your mentor's expectations are clearly outlined and in agreement so that there are no big surprises, particularly at the end of your training.
- The current job market is challenging and research has shown that individuals who perform structured career planning achieve greater career success and satisfaction.

The onus to engage in the IDP process is on you – although your mentor, PI, or others may encourage and support you in doing so. The IDP itself remains private to you, and you choose which parts to share with which mentors. Through the IDP process, you may decide to identify various mentors to whom you can go for expertise and advice.

ENGINEERING CAREER SERVICES ([HTTPS://ECS.WISC.EDU/](https://ecs.wisc.edu/))

Julie Rae, Assistant Director for Graduate Student Career Services

GRADUATE students in all Engineering programs

- Resumes & Cover Letters <https://ecs.wisc.edu/students/resumes-and-cover-letters/>
- Job Search Strategies
- Job Offers & Negotiation <https://ecs.wisc.edu/students/offers-and-negotiation/>
- CPT for Graduate Students <https://ecs.wisc.edu/students/co-op-and-internship/>

Employer Recruitment List for Industrial Engineering Students: <https://ecs.wiscweb.wisc.edu/wp-content/uploads/sites/86/2017/03/IE-Employer-Recruitment-List-17-18.pdf>

UW WRITING CENTER ([HTTP://WRITING.WISC.EDU/](http://writing.wisc.edu/))

Location: 6171 Helen C. White Hall

Tel: (608) 263-1992

The UW Writing Center provides free of charge face-to-face and online consultations that focus on a number of different writing scenarios (i.e. drafts of course papers, resumes, reports, application essays, cover letters, theses, etc). Writing Center instructors will not edit or proofread papers. Instead, their goal is to teach students to edit and proofread on their own in order to become a better, more confident writer.

LEARNING OUTCOMES

1. Articulates, critiques, or elaborates the theories, research methods, and approaches to inquiry or schools of practice in industrial and systems engineering including areas such as decision science and operations research, quality engineering, manufacturing and health systems, and/or human factors.
2. Identifies sources and assembles evidence pertaining to questions or challenges in industrial and systems engineering.
3. Demonstrates understanding of the industrial and systems engineering field of study in a historical, social, or global context.
4. Selects and/or utilizes the most appropriate industrial and systems engineering methodologies and practices.
5. Evaluates or synthesizes information pertaining to questions or challenges in industrial and systems engineering.
6. Communicates clearly in ways appropriate to industrial and systems engineering.
7. Recognizes and applies principles of ethical and professional conduct.

INDUSTRIAL ENGINEERING: HUMAN FACTORS AND HEALTH SYSTEMS ENGINEERING, M.S.

This is a named option course-based program within the Industrial and Systems Engineering M.S. (p. 1015)

By examining, designing, testing and evaluating products, environments and how people interact in it, Human Factors and Health Systems Engineering (<https://pdc.wisc.edu/degrees/human-factors-health-systems-engineering/>) professionals can create productive, safe and satisfying environments for humans, and apply industrial and systems engineering tools and approaches to specific health care problems.

IS THIS PROGRAM RIGHT FOR YOU?

The demand for engineers who can combine a concern for the human component with traditional engineering principles is great. The Human Factors and Health Systems Engineering program provides students content from physical ergonomics, cognitive ergonomics, macroergonomics and broad issues in health care, including long-term care, prevention, quality improvement, health care financing, and system evaluation.

This program considers human reliability, psychomotor capabilities and human characteristics in equipment, as an important aspect of equipment design is human-computer interaction. Engineers are concerned with the complex physical relationships between people, machines, job demands and work methods, design, work quality and assessment of skill. Also important are organizational issues such as management approaches, job design, participative problem solving, psychological stress, job satisfaction, performance effectiveness, product/service quality, and quality of work life.

Effective model building requires strong systems analysis skills. While skill in manipulating statistical and mathematical models is essential to an industrial engineer's success, the health systems engineer must also be able to initiate resolutions to strategic problems using knowledge of how organizational decisions are made.

See the Learning Outcomes (p. 1017) for this program.

If you have questions, please contact COE Grad Admissions at iegradadmission@engr.wisc.edu; Subject Line: IE Grad Admissions and I Sy E Seniors please contact Pam Peterson, prpeterson@wisc.edu.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15*
Spring Deadline	September 1
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.**
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).

Other Test(s) (e.g., GMAT, MCAT) n/a

Letters of Recommendation Required 3

*

Complete applications that are received by December 15 are guaranteed to be reviewed. Applications received after December 15 and before March 15 will be reviewed as space is available.

**

If GRE scores are submitted, they will not be used in admission decisions.

APPLICATION DEADLINES

- **Fall:** Dec. 15th
- **Spring:** Sept. 1st

ADMISSION

Applicants must first meet all of the requirements of the Graduate School (<https://grad.wisc.edu/admissions/requirements/>).

- Applicants must also meet department specific requirements as outlined below:
 - BS degree in engineering or related area or equivalent
 - Mathematical Statistics Course (for example, STAT 312 Introduction to Theory and Methods of Mathematical Statistics II or I SY E 210 Introduction to Industrial Statistics)
 - Non-native English speakers must have a Test of English as a Foreign Language (TOEFL) score of 580 (written), 243 (computer-based test), or 92 (Internet version).

FOR UW-MADISON STUDENTS ONLY

1. **UW-Madison undergraduate students applying to this program must submit a UW transcript, but it may be an unofficial transcript.**

FOR UW-MADISON ISYE STUDENTS ONLY

1. **Three letters of recommendation are NOT required for students completing their Industrial Engineering bachelor's degree at UW.** Please note that the application system will still require you to list three individuals as recommenders. You are welcome to list Sinan Tas, Pam Peterson, and Amanda Smith to bypass this requirement.
2. UW-Madison students completing their bachelor's degree in the Industrial and Systems Engineering department may count up to 6 credits of coursework numbered 300 or above toward the degree with prior program approval. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

HOW TO APPLY

1. **Fill out an online application** (<https://grad.wisc.edu/apply/>) **through the Graduate School website.** (<https://grad.wisc.edu/admissions/faq/>)
2. **List three recommenders and their contact information as part of the online application.** An email will be sent to the recommender,

asking that they submit their letter online using the Graduate School's recommendation form. Applicants can log back into their online application to re-send the email request if the recommender loses the email. Letters of recommendation must be submitted electronically.

3. **Submit a Statement of Purpose** (<https://grad.wisc.edu/prospective/prepare/statement/>) **with your online application.** In this document, applicants should explain why they want to pursue further education in ISyE and discuss which UW faculty members they would be interested in doing research with during their graduate study.
4. **TOEFL Exam Information: Ask ETS** (<https://www.ets.org/>) **to submit your GRE and/or TOEFL scores to the UW-Madison Graduate School (Institution Number 1846).** If you have your scores sent to UW-Madison, they will be available online to all departments to which you have applied. The institution code, therefore, is the only number needed. For more information please visit the Graduate School Requirements (<https://grad.wisc.edu/admissions/requirements/>) page. Please note: Exam information must be valid at start date of the semester that you are applying for (nonexpired).
5. **GRE Exam Information:** (<https://www.ets.org/gre/>) The IE graduate program does not require the GRE for this program. If GRE scores are submitted, they will not be used in admission decisions.
6. **Electronically submit one copy of your official transcript with your application.** Official transcripts of all undergraduate and previous graduate work are required. Unofficial copies of transcripts will be accepted for review, but official copies are required for admitted students. Please do not send transcripts or any other application materials to the Graduate School or gradadmission@engr.wisc.edu.
7. **Upload your resume in your application.**
8. **Pay the Application Fee:** Submission must be accompanied by the one-time application fee. It is non-refundable and can be paid by credit card (Master Card or VISA) or debit/ATM. By state law, this fee can only be waived or deferred through the conditions outlined here by the Graduate School. (<https://grad.wisc.edu/apply/fee-grant/>)

NOTE: PLEASE DO NOT SEND MATERIALS/DOCUMENTS TO THE ISyE DEPARTMENT OR GRADUATE SCHOOL UNTIL YOU ARE RECOMMENDED FOR ADMISSIONS. ALL DOCUMENTS SHOULD BE UPLOADED WITH YOUR APPLICATION.

QUESTIONS?

Check out the Admissions FAQ (<https://grad.wisc.edu/apply/>) or **contact us at** iegradadmission@engr.wisc.edu.

NOTE: PLEASE DO NOT SEND MATERIALS/DOCUMENTS TO THE ISyE DEPARTMENT OR GRADUATE SCHOOL UNTIL YOU ARE RECOMMENDED FOR ADMISSIONS. ALL DOCUMENTS SHOULD BE UPLOADED WITH YOUR APPLICATION.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Tuition information for this program is available here (<https://pdc.wisc.edu/degrees/human-factors-health-systems-engineering/>). Beginning in the fall semester of 2021, resident and resident reciprocity students are eligible for a tuition scholarship. Details here (<https://engineering.wisc.edu/wp-content/uploads/2022/05/Masters-Program-Tuition-CreditFall2021.pdf>).

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

ADDITIONAL RESOURCES

FEDERAL LOANS

Students who are U.S. citizens or permanent residents may be eligible to receive some level of funding through the federal direct loan program. These loans are available to qualified graduate students who are taking at least 4 credits during the fall and spring semesters, and 2 credits during summer. Private loans are also available. Learn more about UW-Madison financial aid here. (<https://financialaid.wisc.edu>)

INTERNATIONAL STUDENT SERVICES FUNDING AND SCHOLARSHIPS

For information on international student funding and scholarships, visit the ISS website. (<https://iss.wisc.edu/students/new-students/funding-scholarships/>)

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	Yes

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's GPA Requirement policy (https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/)).
Other Grade Requirements	Grades of C and D received by a candidate in any graduate course will not be counted as credit toward the degree. These grades will be counted in the graduate GPA.
Assessments and Examinations	None.
Language Requirements	No language requirements.

REQUIRED COURSES

Of the required credits, all must be at the numbered 300 or higher, at most 6 credits may be at the numbered 300-399, at least 15 must be at the graduate level, at least 18 credits must be in the Industrial and Systems Engineering Department, and at least 16 credits must be taken as a graduate student in residence at UW-Madison. A total of at most 6 credits from independent study (e.g., I SY E 699), research (e.g., I SY E 790), and internship/co-op (I SY E 702) courses may be applied toward this degree.

Below is a typical curriculum for those pursuing an M.S. in Industrial Engineering with the course options in Human Factors and Health Systems Engineering. Please note the Human Factors and Health Systems Engineering program is a customizable program and students should work out other course options with their faculty advisor.

Fall Potential Courses:

Code	Title	Credits
I SY E 313	Engineering Economic Analysis	3
I SY E/PSYCH 349	Introduction to Human Factors	3
I SY E 417	Health Systems Engineering	3
I SY E/M E 512	Inspection, Quality Control and Reliability	3
I SY E 515	Engineering Management of Continuous Process Improvement	3
I SY E/PSYCH 549	Human Factors Engineering	3
I SY E 601	Special Topics in Industrial Engineering	1-3

I SY E 602	Special Topics in Human Factors	3
I SY E 606	Special Topics in Healthcare Systems Engineering	1-3
I SY E/PHARMACY 608	Safety and Quality in the Medication Use System	3
I SY E/PSYCH 653	Organization and Job Design	3
I SY E 699	Advanced Independent Study	1-5

Spring Potential Courses:

Code	Title	Credits
I SY E 313	Engineering Economic Analysis	3
I SY E/PSYCH 349	Introduction to Human Factors	3
I SY E 417	Health Systems Engineering	3
I SY E/M E 512	Inspection, Quality Control and Reliability	3
I SY E 555	Human Performance and Accident Causation	3
I SY E 562	Human Factors of Data Science and Machine Learning	3
I SY E/B M E 564	Occupational Ergonomics and Biomechanics	3
I SY E 575	Introduction to Quality Engineering	3
I SY E 601	Special Topics in Industrial Engineering	1-3
I SY E 602	Special Topics in Human Factors	3
I SY E 606	Special Topics in Healthcare Systems Engineering	1-3
I SY E/PHARMACY 608	Safety and Quality in the Medication Use System	3
I SY E/B M I 617	Health Information Systems	3
I SY E/B M E 662	Design and Human Disability and Aging	3

Summer Potential Courses:

Code	Title	Credits
I SY E 313	Engineering Economic Analysis	3
I SY E/PSYCH 349	Introduction to Human Factors	3
I SY E 516	Introduction to Decision Analysis	3
I SY E 575	Introduction to Quality Engineering	3
I SY E 601	Special Topics in Industrial Engineering	1-3
I SY E 602	Special Topics in Human Factors	3
I SY E 606	Special Topics in Healthcare Systems Engineering	1-3
I SY E 699	Advanced Independent Study	1-5
I SY E 702	Graduate Cooperative Education Program	1-2

Other Department Course Suggestions:

Code	Title	Credits
NURSING 761	Health Program Planning, Evaluation, and Quality Improvement	3
POP HLTH/SOC 797	Introduction to Epidemiology	3

POP HLTH/ ISY E 875	Cost Effectiveness Analysis in Health and Healthcare	3
POP HLTH 876	Measuring Health Outcomes	3
OTM 451	Service Operations Management	3
OTM 753	Healthcare Operations Management	3
OTM 770	Sustainable Approaches to System Improvement	4
B M I 773	Clinical Research Informatics	3
B M I/ COMP SCI 576	Introduction to Bioinformatics	3
B M I/ COMP SCI 776	Advanced Bioinformatics	3
COMP SCI/ ED PSYCH/ PSYCH 770	Human-Computer Interaction	3
E M A 601	Special Topics in Engineering Mechanics	1-3
M H R 412	Management Consulting	3

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate, graduate or certificate programs.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate course work from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

UW-Madison students completing their bachelor's degree in the Industrial and Systems Engineering department may count up to 6 credits of coursework numbered 300 or above toward the degree with prior program approval. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison University Special

This program follows the Graduate School's policy for Transfer from UW-Madison University Special Student Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR

Per Graduate School policy (<https://policy.wisc.edu/library/UW-1232/>), every graduate student MUST have a faculty advisor. Students in this program will be advised by the department's Director of Professional Masters Programs. The advisor provides the graduate student with academic guidance regarding their course selection and research oversight in their thesis or project. Graduate students should always seek advice from their advisor and other faculty in their interest area prior to enrolling for courses.

CREDITS PER TERM ALLOWED

Enrollment of 12 credits is highly recommended.

TIME LIMITS

This program is designed to be completed in 16 months. Students who have an undergraduate degree from UW-Madison can typically complete the program in 12 months. Internship and co-operative (co-op) work experiences are an optional component to this degree. The program must be completed within 24 months for students who plan to include internship or co-op work experiences during their program. The ISyE department does not guarantee availability of internship or co-op positions.

The student is required to meet their academic advisor during their first semester to discuss and obtain approval of the course plan for the remainder of their program. In situations where the student cannot finish the program in 24 months due to exceptional circumstances, the exception must be requested by the student and approved by the student's academic advisor and the academic affairs committee.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)

- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Grievance Procedures: Industrial and Systems Engineering

If a graduate student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance. Student's concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where the action occurred (program or department chair, section chair, lab manager, etc.). Many departments and schools/colleges have established specific procedures for handling such situations; check their web pages and published handbooks for information. If such procedures exist at the local level, these should be investigated first. For more information, see the College of Engineering Policies and Procedures (<https://engineering.wisc.edu/report-an-incident/academic-grievances-and-complaints/>). The Assistant Dean for Graduate Affairs (enr-dean-graduateaffairs@enr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

Procedures for handling graduate student grievances against ISyE faculty, staff, or students:

1. The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved at this level.
2. Should a satisfactory resolution not be achieved, the student should contact the Associate Chair for Graduate Affairs, to discuss the grievance. The Associate Chair will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt is to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties, if necessary. University resources for sexual harassment, discrimination, disability accommodations, and other related concerns can be found on the UW Office of Compliance website (<https://compliance.wisc.edu/>).
3. If the issue is not resolved to the student's satisfaction, the student can submit the grievance to the Grievance Advisor, which may be either the Associate Chair for Graduate Affairs or the Department Chair, as chosen by the student. The grievance should be submitted in writing, within 60 calendar days of the alleged unfair treatment.
4. On receipt of a written complaint, the Grievance Advisor will form a faculty committee that will review the complaint and gather further information as necessary from the filer of the complaint and other parties involved (including the party toward whom the complaint is directed).
5. The faculty committee will determine a decision regarding the grievance. The Grievance Advisor will report on the action taken by the committee in writing to both the student and the party toward whom

the complaint was directed within 15 working days from the date the complaint was received.

6. At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal to the College of Engineering Assistant Dean for Graduate Affairs (enr-dean-graduateaffairs@enr.wisc.edu). Either party has 10 working days to file a written appeal to the School/College.
7. Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.
8. The Graduate School has procedures for students wishing to appeal a grievance decision made at the school/college level. These policies are described in the Graduate School Academic Policies and Procedures - Grievances & Appeals (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

GRADUATE ASSISTANT POSITIONS

Students are strongly discouraged to pursue positions as Project Assistants, Teaching Assistants or Research Assistants during their time in this program, as the rigor and accelerated nature of this program may not accommodate those work time commitments. Students in this program will not receive the tuition remission that is typically part of the compensation package for a graduate assistantship.

POLICIES ON PROGRAM TRANSFER

- It is not allowed to transfer between the HFHSE and MSIE research-option programs.
- If a student currently in another graduate program wants to transfer to the course option MSIE they should follow the general application procedure for the course option MSIE program along with submitting an Add/Change of Program, Plan or Named Option Request online through the Graduate School.

OTHER

Continuing to the PhD Program

- Admission and successful completion of the M.S. program does not imply admittance to the ISyE PhD program. Students wishing to take the PhD qualifying exam must first be admitted to the PhD program.
- ISyE M.S. students wishing to continue to the PhD program must have their admission to the PhD program recommended by an ISyE faculty member with tenure home in ISyE who is willing to serve as the student's PhD advisor. The admission of such students will then be evaluated by the associate chair for graduate affairs or admissions committee using the same evaluation process as for all PhD program applicants.
- To apply to the PhD program, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the program for which you are applying.

For additional information, please contact iegradadmission@enr.wisc.edu.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

THE INDIVIDUAL DEVELOPMENT PLAN ([HTTPS://GRAD.WISC.EDU/PD/IDP/](https://grad.wisc.edu/pd/idp/))

An Individual Development Plan helps with self-assessment, planning, and communication:

- An IDP can help you communicate your professional development and career planning needs and intentions to others including your mentor, which can lead to helpful advice and resources.
- You can use the IDP to make sure you and your mentor's expectations are clearly outlined and in agreement so that there are no big surprises, particularly at the end of your training.
- The current job market is challenging and research has shown that individuals who perform structured career planning achieve greater career success and satisfaction.

The onus to engage in the IDP process is on you – although your mentor, PI, or others may encourage and support you in doing so. The IDP itself remains private to you, and you choose which parts to share with which mentors. Through the IDP process, you may decide to identify various mentors to whom you can go for expertise and advice.

ENGINEERING CAREER SERVICES ([HTTPS://ECS.WISC.EDU/](https://ecs.wisc.edu/))

Julie Rae, Assistant Director for Graduate Student Career Services

GRADUATE students in all Engineering programs

- Resumes & Cover Letters <https://ecs.wisc.edu/students/resumes-and-cover-letters/>
- Job Search Strategies
- Job Offers & Negotiation <https://ecs.wisc.edu/students/offers-and-negotiation/>
- CPT for Graduate Students <https://ecs.wisc.edu/students/co-op-and-internship/>
- Student appointments: Click here (<http://go.wisc.edu/ecs-grad-appt/>) to schedule an appointment with ECS.

Employer Recruitment List for Industrial Engineering Students: <https://ecs.wiscweb.wisc.edu/wp-content/uploads/sites/86/2017/03/IE-Employer-Recruitment-List-17-18.pdf>.

UW WRITING CENTER ([HTTP://WRITING.WISC.EDU/](http://writing.wisc.edu/))

Location: 6171 Helen C. White Hall

Tel: (608) 263-1992

The UW Writing Center provides free of charge face-to-face and online consultations that focus on a number of different writing scenarios (i.e. drafts of course papers, resumes, reports, application essays, cover letters,

theses, etc). Writing Center instructors will not edit or proofread papers. Instead, their goal is to teach students to edit and proofread on their own in order to become a better, more confident writer.

INDUSTRIAL ENGINEERING: RESEARCH, M.S.

This is a named option within the Industrial Engineering M.S. (p. 1015)

The Department of Industrial and Systems Engineering offers this Master of Science (M.S.) industrial engineering degree with a named option in Research. This degree program takes approximately two years to complete. This program has a significant research component, giving students valuable hands-on research experience with mentoring by faculty in the Department of Industrial and Systems Engineering.

The Department of Industrial and Systems Engineering focuses on four main research areas:

Operations Research, Optimization, and Analytics (<https://engineering.wisc.edu/departments/industrial-systems-engineering/research/operations-research-optimization-and-analytics/>)
 Health Systems Engineering (<https://engineering.wisc.edu/departments/industrial-systems-engineering/research/health-systems-engineering/>)
 Human Factors and Ergonomics (<https://engineering.wisc.edu/departments/industrial-systems-engineering/research/human-factors-and-ergonomics/>)
 Advanced Manufacturing and Industrial AI (<https://engineering.wisc.edu/departments/industrial-systems-engineering/research/advanced-manufacturing-and-production-systems/>)

All students are mentored by the world-class faculty in the industrial and systems engineering department at UW–Madison. For a list of industrial and systems engineering faculty along with faculty research interests, please visit our faculty directory. (<https://directory.engr.wisc.edu/ie/faculty/>) For more information on research areas see our page on research in Industrial and Systems Engineering (<https://engineering.wisc.edu/departments/industrial-systems-engineering/research/>).

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	This program does not admit in the spring.
Summer Deadline	December 15
GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a

Letters of Recommendation Required 3

NOTE: These admissions requirements are only relevant for the M.S. research program. You can find the admissions requirements for the Human Factors and Health Systems (p. 1018) and the Systems Engineering and Analytics (p. 1031) programs on their respective pages.

The UW–Madison graduate program in industrial and systems engineering offers students extraordinary opportunities to pursue a course of study that is customized to the student's interests and ambitions, under the auspices of the foremost experts in their field, in one of the top-ranked industrial and systems engineering departments.

The flexible graduate curricula enables students to tailor their degree program to suit their particular needs and career objectives. Concentration areas in industrial and systems engineering includes: Decision Sciences and Operations Research, Health Systems Engineering, Human Factors and Ergonomics, Manufacturing, and Product Systems and Quality Engineering. Students also have opportunities to take graduate courses in any other departments at UW–Madison, which has a comprehensive set of top-ranked graduate and professional programs.

APPLICATION DEADLINES:

- **Fall:** Dec. 15th
- **Reentry applicants:** July 15 (fall); must consult with I SY E faculty advisor prior to reapplying
- Additional reentry information (<https://grad.wisc.edu/admissions/previouslyenrolled/>)

APPLICATION REQUIREMENTS

Application deadlines are strictly enforced and ALL application materials including transcripts, GRE and TOEFL scores MUST be included and submitted by the application deadline.

**Please note our office does not provide feedback to applications as to their potential for admission—please review both the I SY E department and Graduate School requirements for admission, and if you feel you meet the necessary criteria for applying, please do so.*

1. Applicants must first meet all of the requirements of the Graduate School (<https://grad.wisc.edu/acadpolicy/?policy=enrollmentrequirements>).
2. Applicants must also meet department specific requirements as outlined below:
 - Bachelor's degree or equivalent
 - Mathematical Statistics course (for example STAT 312)
 - Computer Programming course
 - Three introductory courses in Industrial Engineering, such as: I SY E 313, I SY E 315, I SY E 320, I SY E 323, I SY E/PSYCH 349, I SY E 415, I SY E 417
 - The Graduate Record Examination (GRE) is required for this master's program in I SY E. Please visit here (<https://www.ets.org/gre/>) for more information on taking the GRE exam. **Please note:** Applicants should plan to take their exam by **December 1** to allow scores to be sent and processed.

Note: Depending on applicant background, applicants may be deficient in up to two prerequisite courses.

APPLICATION STEPS

1. **Fill out an online application** (<https://grad.wisc.edu/apply/>) **through the Graduate School website.** (<https://grad.wisc.edu/admissions/faq/>)
2. **List three recommenders and their contact information as part of the online application.** An email will be sent to the recommender, asking that they submit their letter online using the Graduate School's recommendation form. Applicants can log back into their online application to re-send the email request if the recommender loses the email. Letters of recommendation must be submitted electronically.
3. **Submit a Statement of Purpose** (<https://grad.wisc.edu/prospective/prepare/statement/>) **with your online application.** In this document, applicants should explain why they want to pursue further education in ISyE and discuss which UW faculty members they would be interested in doing research with during their graduate study.
4. **TOEFL Exam Information: Ask ETS** (<https://www.ets.org/>) **to submit your GRE and/or TOEFL scores to the UW-Madison Graduate School (Institution Number 1846).** If you have your scores sent to UW-Madison, they will be available online to all departments to which you have applied. The institution code, therefore, is the only number needed. For more information please visit the Graduate School Requirements (<https://grad.wisc.edu/admissions/requirements/>) page. Please note: Exam information must be valid at start date of the semester that you are applying for (nonexpired).
5. **GRE Exam Information:** (<https://www.ets.org/gre/>) The IE graduate program requires the GRE exam be taken by prospective students as part of the application. **Note there are no specific scoring guidelines for the exam** as the GRE is only one part of consideration for admission into the program. Please note: Exam information must be valid at start date of the semester that you are applying for (nonexpired).
6. **Electronically submit one copy of your official transcript with your application.** Official transcripts of all undergraduate and previous graduate work are required. Unofficial copies of transcripts will be accepted for review, but official copies are required for admitted students. Please do not send transcripts or any other application materials to the Graduate School or gradadmission@engr.wisc.edu.
7. **Upload your resume in your application.**
8. **Pay the Application Fee:** Submission must be accompanied by the one-time application fee. It is non-refundable and can be paid by credit card (Master Card or VISA) or debit/ATM. By state law, this fee can only be waived or deferred through the conditions outlined here by the Graduate School. (<https://grad.wisc.edu/apply/fee-grant/>)

NOTE: PLEASE DO NOT SEND MATERIALS/DOCUMENTS TO THE ISyE DEPARTMENT OR GRADUATE SCHOOL UNTIL YOU ARE RECOMMENDED FOR ADMISSIONS. ALL DOCUMENTS SHOULD BE UPLOADED WITH YOUR APPLICATION.

QUESTIONS?

Check out the Admissions FAQ (<https://grad.wisc.edu/apply/>) or contact us at iegradadmission@engr.wisc.edu.

NOTE: PLEASE DO NOT SEND MATERIALS/DOCUMENTS TO THE ISyE DEPARTMENT OR GRADUATE SCHOOL UNTIL YOU ARE RECOMMENDED FOR ADMISSIONS. ALL DOCUMENTS SHOULD BE UPLOADED WITH YOUR APPLICATION.

Check out the Admissions FAQ or contact us at iegradadmission@engr.wisc.edu.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

GRADUATE ASSISTANTSHIPS

For information specific to graduate assistantships within the Department of Industrial and Systems Engineering, please consult the department's graduate program handbook (<https://engineering.wisc.edu/isye-grad-handbook/>).

FINANCIAL ASSISTANCE

If you choose to attend UW-Madison and plan to pursue funding on your own, the following sites could be very helpful:

- Graduate School Funding Resources (<https://grad.wisc.edu/studentfunding/prospective/>)
- Graduate School Costs and Funding (<https://grad.wisc.edu/studentfunding/currentstudents/>)

ADDITIONAL RESOURCES

FEDERAL LOANS

Students who are U.S. citizens or permanent residents may be eligible to receive some level of funding through the federal direct loan program. These loans are available to qualified graduate students who are taking at least 4 credits during the fall and spring semesters, and 2 credits during summer. Private loans are also available. Learn more about UW-Madison financial aid here. (<https://financialaid.wisc.edu>)

INTERNATIONAL STUDENT SERVICES FUNDING AND SCHOLARSHIPS

For information on international student funding and scholarships, visit the ISS website. (<https://iss.wisc.edu/students/new-students/funding-scholarships/>)

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum
Credit
Requirement

30 credits

Minimum
Residence
Credit
Requirement

16 credits

Minimum
Graduate
Coursework
Requirement

15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (<https://policy.wisc.edu/library/UW-1244> (<https://policy.wisc.edu/library/UW-1244/>)).

Overall
Graduate
GPA
Requirement

3.00 GPA required.

This program follows the Graduate School's GPA Requirement policy (<https://policy.wisc.edu/library/UW-1203> (<https://policy.wisc.edu/library/UW-1203/>)).

Other Grade
Requirements

Grades of C and D received by a candidate in any graduate course will not be counted as credit toward the degree. These grades will be counted in the graduate GPA.

Assessments
and
Examinations

None.

Language
Requirements

No language requirements.

REQUIRED COURSES

Code	Title	Credits
ISY E courses ¹		18
ISY E 790 or ISY E 890	Master's Research and Thesis Pre-Dissertator's Research	3-6

Electives with advisor approval	6-9
Total Credits	30

1

ISY E 699 Advanced Independent Study may not be used to meet degree credit requirements. Students may count up to 3 credits of ISY E 702 Graduate Cooperative Education Program

2

At most 3 credits of ISY E 702 Graduate Cooperative Education Program, may be applied to meet the credit requirements.

Students may choose to specialize in one of the below research areas. The program recommends working with your faculty advisors to answer any questions and to form a plan of study.

Operations Research, Optimization, and Analytics¹ Highly Recommended Courses:

Code	Title	Credits
ISY E 516	Introduction to Decision Analysis	3
ISY E/COMP SCI/ E C E 524	Introduction to Optimization	3
ISY E/COMP SCI/ MATH/STAT 525	Linear Optimization	3
ISY E 620	Simulation Modeling and Analysis	3
ISY E 624	Stochastic Modeling Techniques	3

Other Suggested Courses:

Code	Title	Credits
ISY E 412	Fundamentals of Industrial Data Analytics	3
ISY E/COMP SCI/ MATH 425	Introduction to Combinatorial Optimization	3
ISY E/M E 512	Inspection, Quality Control and Reliability	3
ISY E 517	Decision Making in Health Care	3
ISY E 575	Introduction to Quality Engineering	3
ISY E 603	Special Topics in Engineering Analytics and Operations Research	1-3
ISY E 612	Information Sensing and Analysis for Manufacturing Processes	3
ISY E 604	Special Topics in Manufacturing and Supply Chain Management	1-3
ISY E/MATH/OTM/ STAT 632	Introduction to Stochastic Processes	3
ISY E 645	Engineering Models for Supply Chains	3

1

These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Health Systems Engineering¹ Highly Recommended Courses:

Code	Title	Credits
ISY E 417	Health Systems Engineering	3
ISY E 517	Decision Making in Health Care	3
ISY E 606	Special Topics in Healthcare Systems Engineering	1-3
ISY E/ POP HLTH 703	Quality of Health Care: Evaluation and Assurance	1-3

Other Suggested Courses:

Code	Title	Credits
ISY E 412	Fundamentals of Industrial Data Analytics	3
ISY E 515	Engineering Management of Continuous Process Improvement	3
ISY E 516	Introduction to Decision Analysis	3
ISY E 575	Introduction to Quality Engineering	3
ISY E/ PHARMACY 608	Safety and Quality in the Medication Use System	3
ISY E 601	Special Topics in Industrial Engineering	1-3
ISY E 602	Special Topics in Human Factors ²	3
ISY E 603	Special Topics in Engineering Analytics and Operations Research	1-3
ISY E 615	Production Systems Control	3

1

These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

2

Topics vary for this course. Obtain advance approval from your faculty advisor.

Human Factors and Ergonomics ¹

Highly Recommended Courses:

Code	Title	Credits
ISY E/COMP SCI/ DS 518	Wearable Technology	3
ISY E/PSYCH 549	Human Factors Engineering	3
ISY E 552	Human Factors Engineering Design and Evaluation	3
ISY E 555	Human Performance and Accident Causation	3
ISY E 562	Human Factors of Data Science and Machine Learning	3
ISY E/B M E 564	Occupational Ergonomics and Biomechanics	3
ISY E 601	Special Topics in Industrial Engineering ²	1-3
ISY E 602	Special Topics in Human Factors	3
ISY E/B M E 662	Design and Human Disability and Aging	3
ISY E 699	Advanced Independent Study	1-5
ISY E/PSYCH 854	Special Topics in Organization Design	1-3
ISY E/PSYCH 859	Special Topics in Human Factors Engineering	1-3
ISY E 961	Graduate Seminar in Industrial Engineering	1-3
CIV ENGR 679	Special Topics in Transportation and City Planning	3

Various courses count as "Tools and Methods." The HFE faculty group updates the list of "Tools and Methods" courses and advisors decide which set of courses are appropriate for each student. The following are categories of "Tools and Methods": Research Methods, Statistics, Qualitative Research, Biomechanics Methods, and Psychology. Students can work with their faculty advisor for non-*ISY E* course work.

POLICIES**GRADUATE SCHOOL POLICIES**

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES**PRIOR COURSEWORK****Graduate Work from Other Institutions**

This program follows the Graduate School's policy for Satisfying Requirements with Prior Graduate Coursework from Other Institutions. (<https://policy.wisc.edu/library/UW-1216/>)

UW–Madison Undergraduate

Credits are not allowed for the graduate residence credit requirement, but students can transfer up to 6 credits numbered 300 or above toward the graduate degree credit requirement. The 50% graduate coursework requirement can only be met by courses numbered 700 or above. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

This program follows the Graduate School's policy for Transfer from UW–Madison University Special Student Career at UW–Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

- Per Graduate School policy, (<https://policy.wisc.edu/library/UW-1232/>) every graduate student MUST have a faculty advisor. Graduate students should always seek advice from their advisor and other faculty in their interest area prior to enrolling for courses.
- If pursuing a thesis option, students should discuss forming a committee with their advisor, if needed. The Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>) must be followed.

CREDITS PER TERM ALLOWED

Enrollment of 12 credits or less recommended. (Full time status considered 8-12 credits).

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and

conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)

- Employee Disability Resource Office (<https://employeeabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Grievance Procedures: Industrial and Systems Engineering

If a graduate student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance. Student's concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where the action occurred (program or department chair, section chair, lab manager, etc). Many departments and schools/colleges have established specific procedures for handling such situations; check their web pages and published handbooks for information. If such procedures exist at the local level, these should be investigated first. For more information, see the College of Engineering Policies and Procedures (<https://www.engr.wisc.edu/academics/student-services/academic-advising/policies-and-procedures/>). The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

Procedures for handling graduate student grievances against ISyE faculty, staff, or students:

1. The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved at this level.
2. Should a satisfactory resolution not be achieved, the student should contact the Associate Chair for Graduate Affairs, to discuss the grievance. The Associate Chair will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt is to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties, if necessary. University resources for sexual harassment, discrimination, disability accommodations, and other related concerns can be found on the UW Office of Compliance website (<https://compliance.wisc.edu/>).
3. If the issue is not resolved to the student's satisfaction, the student can submit the grievance to the Grievance Advisor, which may be either the Associate Chair for Graduate Affairs or the Department

Chair, as chosen by the student. The grievance should be submitted in writing, within 60 calendar days of the alleged unfair treatment.

4. On receipt of a written complaint, the Grievance Advisor will form a faculty committee that will review the complaint and gather further information as necessary from the filer of the complaint and other parties involved (including the party toward whom the complaint is directed).
5. The faculty committee will determine a decision regarding the grievance. The Grievance Advisor will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.
6. At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal to the College of Engineering Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu). Either party has 10 working days to file a written appeal to the School/College.
7. Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has procedures for students wishing to appeal a grievance decision made at the school/college level. These policies are described in the Graduate School Academic Policies and Procedures - Grievances & Appeals (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

OTHER

Continuing to the PhD Program

- Admission and successful completion of the M.S. program does not imply admittance to the ISyE PhD program. Students wishing to take the PhD qualifying exam must first be admitted to the PhD program.
- ISyE research-option M.S. students wishing to continue to the PhD program must have their admission to the PhD program recommended by an ISyE faculty member with tenure home in ISyE who is willing to serve as the student's PhD advisor. The admission of such students will then be evaluated by the associate chair for graduate affairs or admissions committee using the same evaluation process as for all PhD program applicants.
- To apply to the PhD program, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the program for which you are applying.

For additional information, please contact iegradadmission@engr.wisc.edu.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

THE INDIVIDUAL DEVELOPMENT PLAN ([HTTPS://GRAD.WISC.EDU/PD/IDP/](https://grad.wisc.edu/pd/idp/))

An Individual Development Plan helps with self-assessment, planning, and communication:

- An IDP can help you communicate your professional development and career planning needs and intentions to others including your mentor, which can lead to helpful advice and resources.
- You can use the IDP to make sure you and your mentor's expectations are clearly outlined and in agreement so that there are no big surprises, particularly at the end of your training.
- The current job market is challenging and research has shown that individuals who perform structured career planning achieve greater career success and satisfaction.

The onus to engage in the IDP process is on you – although your mentor, PI, or others may encourage and support you in doing so. The IDP itself remains private to you, and you choose which parts to share with which mentors. Through the IDP process, you may decide to identify various mentors to whom you can go for expertise and advice.

ENGINEERING CAREER SERVICES ([HTTPS://ECS.WISC.EDU/](https://ecs.wisc.edu/))

Julie Rae, Assistant Director for Graduate Student Career Services

GRADUATE students in all Engineering programs

- Resumes & Cover Letters <https://ecs.wisc.edu/students/resumes-and-cover-letters/>
- Job Search Strategies
- Job Offers & Negotiation <https://ecs.wisc.edu/students/offers-and-negotiation/>
- CPT for Graduate Students <https://ecs.wisc.edu/students/co-op-and-internship/>

Employer Recruitment List for Industrial Engineering Students: <https://ecs.wiscweb.wisc.edu/wp-content/uploads/sites/86/2017/03/IE-Employer-Recruitment-List-17-18.pdf>

UW WRITING CENTER ([HTTP://WRITING.WISC.EDU/](http://writing.wisc.edu/))

Location: 6171 Helen C. White Hall

Tel: (608) 263-1992

The UW Writing Center provides free of charge face-to-face and online consultations that focus on a number of different writing scenarios (i.e. drafts of course papers, resumes, reports, application essays, cover letters, theses, etc). Writing Center instructors will not edit or proofread papers. Instead, their goal is to teach students to edit and proofread on their own in order to become a better, more confident writer.

INDUSTRIAL ENGINEERING: SYSTEMS ENGINEERING AND ANALYTICS, M.S.

This is a named option course-based program within the Industrial and Systems Engineering M.S. (p. 1015)

The program in Systems Engineering and Analytics (<https://pdc.wisc.edu/degrees/systems-engineering-analytics/>) will train students to recognize, identify, analyze, and solve decision problems arising in the efficient operations of engineering systems. The program focuses on methods and models for data analytics and data-driven decision-making.

IS THIS PROGRAM RIGHT FOR YOU?

Analytics, and the ability to effectively utilize data, is quickly becoming an important component in engineering decision making. There is a strong need in the marketplace for people who use analytical tools to transform data into insights for making better decisions. The Systems Engineering and Analytics option within the UW-Madison graduate program in Industrial and Systems Engineering offers students the opportunity to pursue graduate training in this important and emerging area, under the auspices of the foremost experts in their field, in one of the world's top-ranked departments of industrial and systems engineering. (We were ranked 8th in the latest *US News and World Report* rankings). The flexible curricula in Systems Engineering and Analytics enable students to tailor their degree program to suit their particular needs and career objectives.

After completing your degree, you will be able to analyze, process, and build conclusions based on the data you collect in the design, testing, and operations phases of engineering and design processes.

The program includes training in optimization models and methods, applied industrial analytics, simulation modeling and analysis, and courses wherein these analytical and computational tools are applied in an engineering systems setting. These learned skills are now highly sought after in manufacturing, transportation, finance, healthcare, and other industrial sectors.

See the Learning Outcomes (p. 1017) for this program.

If you have questions, please contact COE Grad Admissions at iegradadmission@engr.wisc.edu; Subject Line: IE Grad Admissions and I Sy E Seniors please contact Pam Peterson, prpeterson@wisc.edu.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15*
Spring Deadline	September 1
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.**

English Proficiency Test Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (<https://grad.wisc.edu/apply/requirements/#english-proficiency>).

Other Test(s) (e.g., GMAT, MCAT) n/a

Letters of Recommendation Required 3

*

Complete applications received by December 15 are guaranteed to be reviewed. Applications received after December 15 and before March 15 will be reviewed as space is available.

**

If GRE scores are submitted, they will not be used in admission decisions.

ADMISSIONS

Applicants must first meet all of the requirements of the Graduate School.

- Applicants must also meet department specific requirements as outlined below:
 - BS degree in engineering or related area or equivalent
 - Mathematical Statistics Course (for example, STAT 312 Introduction to Theory and Methods of Mathematical Statistics II or I SY E 210 Introduction to Industrial Statistics)
 - Introduction to Programming Course (for example, COMP SCI 220 Data Science Programming I)
 - Non-native English speakers must have a Test of English as a Foreign Language (TOEFL) score of 580 (written), 243 (computer-based test), or 92 (Internet version).
 - The Graduate Record Examination (GRE) is not required for this masters programs in I Sy E. If GRE scores are submitted, they will not be used in admission decisions.

FOR UW-MADISON STUDENTS ONLY:

- UW-Madison undergraduate students applying to this program must submit a UW transcript, but it may be an unofficial transcript.**

FOR UW-MADISON ISYE STUDENTS ONLY:

- Three letters of recommendation are NOT required for students completing their Industrial Engineering bachelor's degree at UW.** Please note that the application system will still require you to list three individuals as recommenders. You are welcome to list Sinan Tas, Pam Peterson, and Amanda Smith to bypass this requirement.
- UW-Madison students completing their bachelor's degree in the Industrial and Systems Engineering department may count up to 6 credits of coursework numbered 300 or above toward the degree with prior program approval. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

HOW TO APPLY

1. **Fill out an online application** (<https://grad.wisc.edu/apply/>) **through the Graduate School website.** (<https://grad.wisc.edu/admissions/faq/>)
2. **List three recommenders and their contact information as part of the online application.** An email will be sent to the recommender, asking that they submit their letter online using the Graduate School's recommendation form. Applicants can log back into their online application to re-send the email request if the recommender loses the email. Letters of recommendation must be submitted electronically.
3. **Submit a Statement of Purpose** (<https://grad.wisc.edu/prospective/prepare/statement/>) **with your online application.** In this document, applicants should explain why they want to pursue further education in ISyE and discuss which UW faculty members they would be interested in doing research with during their graduate study.
4. **TOEFL Exam Information: Ask ETS** (<https://www.ets.org/>) **to submit your GRE and/or TOEFL scores to the UW-Madison Graduate School (Institution Number 1846).** If you have your scores sent to UW-Madison, they will be available online to all departments to which you have applied. The institution code, therefore, is the only number needed. For more information please visit the Graduate School Requirements (<https://grad.wisc.edu/admissions/requirements/>) page. Please note: Exam information must be valid at start date of the semester that you are applying for (nonexpired).
5. **GRE Exam Information:** (<https://www.ets.org/gre/>) The GRE is not required for this program. If GRE scores are submitted, they will not be used in admission decisions.
6. **Electronically submit one copy of your official transcript with your application.** Official transcripts of all undergraduate and previous graduate work are required. Unofficial copies of transcripts will be accepted for review, but official copies are required for admitted students. Please do not send transcripts or any other application materials to the Graduate School or gradadmission@engr.wisc.edu.
7. **Upload your resume in your application.**
8. **Pay the Application Fee:** Submission must be accompanied by the one-time application fee. It is non-refundable and can be paid by credit card (Master Card or VISA) or debit/ATM. By state law, this fee can only be waived or deferred through the conditions outlined here by the Graduate School. (<https://grad.wisc.edu/apply/fee-grant/>)

NOTE: PLEASE DO NOT SEND MATERIALS/DOCUMENTS TO THE ISyE DEPARTMENT OR GRADUATE SCHOOL UNTIL YOU ARE RECOMMENDED FOR ADMISSIONS. ALL DOCUMENTS SHOULD BE UPLOADED WITH YOUR APPLICATION.

QUESTIONS?

Check out the Admissions FAQ (<https://grad.wisc.edu/apply/>) **or contact us at** iegradadmission@engr.wisc.edu.

NOTE: PLEASE DO NOT SEND MATERIALS/DOCUMENTS TO THE ISyE DEPARTMENT OR GRADUATE SCHOOL UNTIL YOU ARE RECOMMENDED FOR ADMISSIONS. ALL DOCUMENTS SHOULD BE UPLOADED WITH YOUR APPLICATION.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Tuition information for this program is available here (<https://pdc.wisc.edu/degrees/systems-engineering-analytics/>). Beginning in the fall semester of 2021, resident and resident reciprocity students are eligible for a tuition scholarship. Details here (<https://engineering.wisc.edu/wp-content/uploads/2022/05/Masters-Program-Tuition-CreditFall2021.pdf>).

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

ADDITIONAL RESOURCES

FEDERAL LOANS

Students who are U.S. citizens or permanent residents may be eligible to receive some level of funding through the federal direct loan program. These loans are available to qualified graduate students who are taking at least 4 credits during the fall and spring semesters, and 2 credits during summer. Private loans are also available. Learn more about UW-Madison financial aid here. (<https://financialaid.wisc.edu>)

INTERNATIONAL STUDENT SERVICES FUNDING AND SCHOLARSHIPS

For information on international student funding and scholarships, visit the ISS website. (<https://iss.wisc.edu/students/new-students/funding-scholarships/>)

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	Yes

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum
Credit
Requirement

30 credits

Minimum
Residence
Credit
Requirement

16 credits

Graduate
Coursework
Requirement

15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (<https://policy.wisc.edu/library/UW-1244> (<https://policy.wisc.edu/library/UW-1244/>)).

Overall

3.00 GPA required.

Graduate
GPA
Requirement

This program follows the Graduate School's GPA Requirement policy (<https://policy.wisc.edu/library/UW-1203> (<https://policy.wisc.edu/library/UW-1203/>)).

Other Grade
Requirements

Grades of C and D received by a candidate in any graduate course will not be counted as credit toward the degree. These grades will be counted in the graduate GPA.

Assessments
and
Examinations

None.

Language
Requirements

No language requirements.

REQUIRED COURSES

Of the required credits, all must be numbered 300 or higher, at most 6 credits may be numbered 300-399, at least 15 must be at the graduate level, at least 18 credits must be in the Industrial and Systems Engineering Department, and at least 16 credits must be taken as a graduate student in residence at UW–Madison. A total of at most 6 credits from independent study (e.g., I SY E 699), research (e.g., I SY E 790), and internship/co-op (I SY E 702) courses may be applied toward this degree.

Below is a typical curriculum for those pursuing an M.S. in Industrial Engineering with a course option in Systems Engineering and Analytics. Please note the Systems Engineering and Analytics program is a customizable program and students should work out other course options with their faculty advisor.

Fall Potential Courses:

Code	Title	Credits
ISY E 313	Engineering Economic Analysis	3
ISY E 412	Fundamentals of Industrial Data Analytics	3
ISY E/COMP SCI/ MATH 425	Introduction to Combinatorial Optimization	3
ISY E/M E 510	Facilities Planning	3
ISY E/M E 512	Inspection, Quality Control and Reliability	3
ISY E 515	Engineering Management of Continuous Process Improvement	3
ISY E/COMP SCI/ E C E 524	Introduction to Optimization	3
ISY E/COMP SCI/ MATH/STAT 525	Linear Optimization	3
ISY E 601	Special Topics in Industrial Engineering	1-3
ISY E 603	Special Topics in Engineering Analytics and Operations Research	1-3
ISY E 604	Special Topics in Manufacturing and Supply Chain Management	1-3
ISY E 605	Computer Integrated Manufacturing	3
ISY E 624	Stochastic Modeling Techniques	3
ISY E/MATH/OTM/ STAT 632	Introduction to Stochastic Processes	3
ISY E 645	Engineering Models for Supply Chains	3
ISY E/PSYCH 653	Organization and Job Design	3
ISY E 699	Advanced Independent Study	1-5
ISY E/INFO SYS 722	Computer-Based Data Management	3

Spring Potential Courses:

Code	Title	Credits
ISY E 313	Engineering Economic Analysis	3
ISY E 412	Fundamentals of Industrial Data Analytics	3
ISY E/M E 512	Inspection, Quality Control and Reliability	3
ISY E 516	Introduction to Decision Analysis	3
ISY E 517	Decision Making in Health Care	3
ISY E/COMP SCI/ E C E 524	Introduction to Optimization	3
ISY E/COMP SCI/ MATH/STAT 525	Linear Optimization	3
ISY E 562	Human Factors of Data Science and Machine Learning	3
ISY E 575	Introduction to Quality Engineering	3
ISY E 601	Special Topics in Industrial Engineering	1-3
ISY E 603	Special Topics in Engineering Analytics and Operations Research	1-3
ISY E 604	Special Topics in Manufacturing and Supply Chain Management	1-3
ISY E 612	Information Sensing and Analysis for Manufacturing Processes	3

ISY E 615	Production Systems Control	3
ISY E 620	Simulation Modeling and Analysis	3
ISY E/M E 641	Design and Analysis of Manufacturing Systems	3
ISY E/M E 643	Performance Analysis of Manufacturing Systems	3
ISY E 699	Advanced Independent Study	1-5

Summer Potential Courses:

Code	Title	Credits
ISY E 313	Engineering Economic Analysis	3
ISY E 516	Introduction to Decision Analysis	3
ISY E/COMP SCI/ E C E 524	Introduction to Optimization	3
ISY E 575	Introduction to Quality Engineering	3
ISY E 601	Special Topics in Industrial Engineering	1-3
ISY E 603	Special Topics in Engineering Analytics and Operations Research	1-3

ISY E/MATH/OTM/ STAT 632	Introduction to Stochastic Processes	3
ISY E 699	Advanced Independent Study	1-5
ISY E 702	Graduate Cooperative Education Program	1-2

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate, graduate or certificate programs.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate course work from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

UW-Madison students completing their bachelor's degree in the Industrial and Systems Engineering department may count up to 6 credits of coursework numbered 300 or above toward the degree with prior program

approval. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

This program follows the Graduate School's policy for Transfer from UW–Madison University Special Student Career at UW–Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR

Per Graduate School policy, (<https://policy.wisc.edu/library/UW-1232/>) every graduate student MUST have a faculty advisor. Students in this program will be advised by the department's Director of Professional Masters Programs. A faculty advisor provides the graduate student with academic guidance regarding their course selection and research oversight in their thesis or project. Graduate students should always seek advice from their advisor and other faculty in their interest area prior to enrolling for courses.

CREDITS PER TERM ALLOWED

Enrollment of 12 credits is highly recommended.

TIME LIMITS

This program is designed to be completed in 16 months. Students who have an undergraduate degree from UW-Madison can typically complete the program in 12 months. Internship and co-operative (co-op) work experiences are an optional component to this degree. The program must be completed within 24 months for students who plan to include internship or co-op work. The ISyE department does not guarantee availability of internship or co-op positions.

The student is required to meet their academic advisor during their first semester to discuss and obtain approval of the course plan for the remainder of their program. In situations that the student cannot finish the program in 24 months due to exceptional circumstances, the exception must be requested by the student and approved by the student's academic advisor and the academic affairs committee.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)

- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Grievance Procedures: Industrial and Systems Engineering

If a graduate student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance. Student's concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where the action occurred (program or department chair, section chair, lab manager, etc). Many departments and schools/colleges have established specific procedures for handling such situations; check their web pages and published handbooks for information. If such procedures exist at the local level, these should be investigated first. For more information, see the College of Engineering Policies and Procedures (<https://engineering.wisc.edu/report-an-incident/academic-grievances-and-complaints/>). The Assistant Dean for Graduate Affairs (enr-dean-graduateaffairs@enr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

Procedures for handling graduate student grievances against ISyE faculty, staff, or students:

1. The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved at this level.
2. Should a satisfactory resolution not be achieved, the student should contact the Associate Chair for Graduate Affairs, to discuss the grievance. The Associate Chair will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt is to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties, if necessary. University resources for sexual harassment, discrimination, disability accommodations, and other related concerns can be found on the UW Office of Compliance website (<https://compliance.wisc.edu/>).
3. If the issue is not resolved to the student's satisfaction, the student can submit the grievance to the Grievance Advisor, which may be either the Associate Chair for Graduate Affairs or the Department Chair, as chosen by the student. The grievance should be submitted in writing, within 60 calendar days of the alleged unfair treatment.
4. On receipt of a written complaint, the Grievance Advisor will form a faculty committee that will review the complaint and gather further information as necessary from the filer of the complaint and other

parties involved (including the party toward whom the complaint is directed).

5. The faculty committee will determine a decision regarding the grievance. The Grievance Advisor will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.
6. At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal to the College of Engineering Assistant Dean for Graduate Affairs (enr-dean-graduateaffairs@enr.wisc.edu). Either party has 10 working days to file a written appeal to the School/College.
7. Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.
8. The Graduate School has procedures for students wishing to appeal a grievance decision made at the school/college level. These policies are described in the Graduate School Academic Policies and Procedures - Grievances & Appeals (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

OTHER

Continuing to the PhD Program

- Admission and successful completion of the M.S. program does not imply admittance to the ISyE PhD program. Students wishing to take the PhD qualifying exam must first be admitted to the PhD program.
- ISyE M.S. students wishing to continue to the PhD program must have their admission to the PhD program recommended by an ISyE faculty member with tenure home in ISyE who is willing to serve as the student's PhD advisor. The admission of such students will then be evaluated by the associate chair for graduate affairs or admissions committee using the same evaluation process as for all PhD program applicants.
- To apply to the PhD program, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the program for which you are applying.

For additional information, please contact jegradadmission@enr.wisc.edu

Graduate Assistant Positions

Students are strongly discouraged to pursue positions as Project Assistants, Teaching Assistants or Research Assistants during their time in this program, as the rigor and accelerated nature of this program may not accommodate those work time commitments. Students in this program will not receive the tuition remission that is typically part of the compensation package for a graduate assistantship.

Policies on Program Transfer

- It is not allowed to transfer between the SEA and MSIE research-option programs.
- If a student currently in another graduate program wants to transfer to the course option MSIE they should follow the general application procedure for the course option MSIE program along with submitting an Add/Change of Program, Plan or Named Option Request online through the Graduate School.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

THE INDIVIDUAL DEVELOPMENT PLAN ([HTTPS://GRAD.WISC.EDU/PD/IDP/](https://grad.wisc.edu/pd/idp/))

An Individual Development Plan helps with self-assessment, planning, and communication:

- An IDP can help you communicate your professional development and career planning needs and intentions to others including your mentor, which can lead to helpful advice and resources.
- You can use the IDP to make sure you and your mentor's expectations are clearly outlined and in agreement so that there are no big surprises, particularly at the end of your training.
- The current job market is challenging and research has shown that individuals who perform structured career planning achieve greater career success and satisfaction.

The onus to engage in the IDP process is on you – although your mentor, PI, or others may encourage and support you in doing so. The IDP itself remains private to you, and you choose which parts to share with which mentors. Through the IDP process, you may decide to identify various mentors to whom you can go for expertise and advice.

ENGINEERING CAREER SERVICES ([HTTPS://ECS.WISC.EDU/](https://ecs.wisc.edu/))

Julie Rae, Assistant Director for Graduate Student Career Services

GRADUATE students in all Engineering programs

- Resumes & Cover Letters <https://ecs.wisc.edu/students/resumes-and-cover-letters/>
- Job Search Strategies
- Job Offers & Negotiation <https://ecs.wisc.edu/students/offers-and-negotiation/>
- CPT for Graduate Students <https://ecs.wisc.edu/students/co-op-and-internship/>
- Student appointments: Click Here (<http://go.wisc.edu/ecs-grad-appt/>) to schedule an appointment with ECS.

Employer Recruitment List for Industrial Engineering Students: <https://ecs.wiscweb.wisc.edu/wp-content/uploads/sites/86/2017/03/IE-Employer-Recruitment-List-17-18.pdf>

UW WRITING CENTER ([HTTP://WRITING.WISC.EDU/](http://writing.wisc.edu/))

Location: 6171 Helen C. White Hall

Tel: (608) 263-1992

The UW Writing Center provides free of charge face-to-face and online consultations that focus on a number of different writing scenarios (i.e. drafts of course papers, resumes, reports, application essays, cover letters,

theses, etc). Writing Center instructors will not edit or proofread papers. Instead, their goal is to teach students to edit and proofread on their own in order to become a better, more confident writer.

INDUSTRIAL ENGINEERING, PH.D.

The Department of Industrial and Systems Engineering offers opportunities for graduate study leading to the master of science and the doctor of philosophy degrees in industrial and systems engineering.

In the Ph.D. program, four areas of specialization are available, each designed to produce graduates capable of leading new and developing areas within industrial and systems engineering. The four areas are: decision science/operations research, health systems, human factors and ergonomics, and manufacturing and production systems.

The specialization in *operations research, optimization, and analytics* trains students in analytical methodologies useful for solving decision problems, especially problems that involve the allocation of scarce resources, and the design, planning and operation of complex systems. Graduate study focuses on optimization modeling and algorithms, applied probability and stochastic modeling, and decision analysis.

The *health systems* specialization seeks to train students to look at broad issues in health care, including long-term care, prevention, quality improvement, health care financing, and system evaluation. Understanding how people solve problems is a basic requirement for health systems engineers, who must apply scientific methods in a value-laden setting.

The specialization in *human factors and ergonomics* is concerned with the quality of work lives, ergonomics, and occupational safety and health for both workers and management. By examining, designing, testing, and evaluating the workplace and how people interact within it, human systems engineers can create productive, safe, and satisfying work environments.

The specialization in *advanced manufacturing and industrial AI* is intended to provide the skills and knowledge necessary to compete successfully in a manufacturing environment. These skills include knowledge of the theory of manufacturing materials and processes and their control; knowledge of the essentials of manufacturing systems design and analysis; and knowledge of and hands-on experience with modern manufacturing technology.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	September 1
Summer Deadline	December 15

GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Students from any discipline that provides foundations for research in ISyE topics are encouraged to apply. For example, applicants may come from industrial, electrical, or mechanical engineering, or mathematics, statistics, computer science, psychology, or economics. Applicants are strongly advised to review the prerequisites for each area of specialization at the department website (<https://engineering.wisc.edu/programs/degrees/industrial-engineering-phd/>).

Each application is judged on the basis of previous academic record, Graduate Record Exam (GRE) scores for the general test, three letters of recommendation, and the statement of purpose. Admission is very competitive and application deadlines are extremely important.

APPLICATION DEADLINES:

- **Fall:** December 15th
- **Spring:** September 1st
- **Summer:** December 15th

Reentry applicants: July 15 (fall), December 1 (spring), and must notify an academic advisor.

Additional reentry information (<https://grad.wisc.edu/admissions/previouslyenrolled/>)

Note: *Although we accept summer applications we recommend applying for fall or spring as there are not many courses offered in the summer.*

APPLICATION REQUIREMENTS

Application deadlines are strictly enforced and ALL application materials including transcripts, GRE and TOEFL scores MUST be included and submitted by the application deadline.

***Please note our office does not provide feedback to applicants as to their potential for admission - please review both the ISyE department and Graduate School requirements for admission and if you feel you meet the necessary criteria for applying, please do so.**

1. Applicants must first meet all of the requirements of the Graduate School. Click here for more information about these requirements (<http://grad.wisc.edu/admissions/requirements/>).
2. Applicants must also meet department specific requirements as outlined below:
 - B.S. degree or equivalent

APPLICATION STEPS

1. **Fill out an online application** (<https://grad.wisc.edu/apply/>) **through the Graduate School website.** (<https://grad.wisc.edu/admissions/faq/>)
2. **List three recommenders and their contact information as part of the online application.** An email will be sent to the recommender, asking that they submit their letter online using the Graduate School's recommendation form. Applicants can log back into their online application to re-send the email request if the recommender loses the email. Letters of recommendation must be submitted electronically.
3. **Submit a Statement of Purpose** (<https://grad.wisc.edu/prospective/prepare/statement/>) **with your online application.** In this document, applicants should explain why they want to pursue further education in ISyE and discuss which UW faculty members they would be interested in doing research with during their graduate study.
4. **TOEFL Exam Information: Ask ETS** (<https://www.ets.org/>) **to submit your GRE and/or TOEFL scores to the UW-Madison Graduate School (Institution Number 1846).** If you have your scores sent to UW-Madison, they will be available online to all departments to which you have applied. The institution code, therefore, is the only number needed. For more information please visit the Graduate School Requirements (<https://grad.wisc.edu/admissions/requirements/>) page. Please note: Exam information must be valid at start date of the semester that you are applying for (nonexpired).
5. **GRE Exam Information:** (<https://www.ets.org/gre/>) The IE graduate program requires the GRE exam be taken by prospective students as part of the application. **Note there are no specific scoring guidelines for the exam** as the GRE is only one part of consideration for admission into the program. Please note: Exam information must be valid at start date of the semester that you are applying for (nonexpired).
6. **Electronically submit one copy of your official transcript with your application.** Official transcripts of all undergraduate and previous graduate work are required. Unofficial copies of transcripts will be accepted for review, but official copies are required for admitted students. Please do not send transcripts or any other application materials to the Graduate School or gradadmission@engr.wisc.edu.
7. **Upload your resume in your application.**
8. **Pay the Application Fee:** Submission must be accompanied by the one-time application fee. It is non-refundable and can be paid by credit card (MasterCard or VISA) or debit/ATM. By state law, this fee can only be waived or deferred through the conditions outlined here by the Graduate School. (<https://grad.wisc.edu/apply/fee-grant/>)

NOTE: PLEASE DO NOT SEND MATERIALS/DOCUMENTS TO THE ISyE DEPARTMENT OR GRADUATE SCHOOL UNTIL YOU ARE RECOMMENDED FOR ADMISSIONS. ALL DOCUMENTS SHOULD BE UPLOADED WITH YOUR APPLICATION.

QUESTIONS?

Check out the Admissions FAQ (<https://grad.wisc.edu/apply/>) **or contact us at** iegradadmission@engr.wisc.edu.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

FINANCIAL ASSISTANCE

If you choose to attend UW-Madison and plan to pursue funding on your own, the following sites could be very helpful:

- Graduate School Funding Resources (<https://grad.wisc.edu/studentfunding/prospective/>)
- Graduate School Costs and Funding (<https://grad.wisc.edu/studentfunding/currentstudents/>)

PROGRAM RESOURCES

All ISyE PhD students are provided funding and tuition remission, provided they are making satisfactory academic progress. This funding may be in the form of a teaching assistant, research assistant, or project assistant position, or as an external fellowship. The type position providing the funding support may change from semester to semester and is determined based on a combination of factors including the availability of research funds by the student's faculty advisor and the need for teaching assistants in ISyE courses.

For information specific to graduate assistantships within the Department of Industrial and Systems Engineering, please consult the department's graduate program handbook (https://engineering.wisc.edu/wp-content/uploads/2022/01/ISYE_Grad_Handbook_Spring2022.pdf).

ADDITIONAL RESOURCES

FEDERAL LOANS

Students who are U.S. citizens or permanent residents may be eligible to receive some level of funding through the federal direct loan program. These loans are available to qualified graduate students who are taking at least 4 credits during the fall and spring semesters, and 2 credits during summer. Private loans are also available. Learn more about UW-Madison financial aid here. (<https://financialaid.wisc.edu>)

INTERNATIONAL STUDENT SERVICES FUNDING AND SCHOLARSHIPS

For information on international student funding and scholarships, visit the ISS website. (<https://iss.wisc.edu/students/new-students/funding-scholarships/>)

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	26 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's GPA Requirement policy (https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/)).
Other Grade Requirements	Grades of C and D received by a candidate in any graduate course will not be counted as credit toward the degree. These grades will be counted in the graduate GPA. See additional grade requirement for HFE Ph.D. students below.
Assessments and Examinations	Qualifying exams, preliminary exams, and a final dissertation defense are required of all students. Details may be found in the program handbook.
Language Requirements	No language requirements.
Graduate School Breadth Requirement	All doctoral students are required to complete a doctoral minor or graduate/professional certificate. The program also has additional breadth requirements. See details below.

REQUIRED COURSES

Students choose one of the following research areas (<https://engineering.wisc.edu/departments/industrial-systems-engineering/research/>). Work with your faculty advisors to answer any questions and to form a plan of study.

Operations Research, Optimization, and Analytics¹

Code	Title	Credits
Courses Recommended for DS/OR Qualifying Exam:		
ISY E/COMP SCI/ E C E 524	Introduction to Optimization	3
ISY E/COMP SCI/ MATH/STAT 525	Linear Optimization	3
ISY E 620	Simulation Modeling and Analysis	3
ISY E 624	Stochastic Modeling Techniques	3
ISY E/MATH/OTM/ STAT 632	Introduction to Stochastic Processes	3
ISY E/COMP SCI/ MATH 728	Integer Optimization	3
Courses Recommended for Optimization Qualifying Exam:		
ISY E/COMP SCI/ E C E 524	Introduction to Optimization	3
ISY E/COMP SCI/ MATH/STAT 525	Linear Optimization	3
ISY E/COMP SCI/ MATH/STAT 726	Nonlinear Optimization I	3
ISY E/COMP SCI/ MATH 728	Integer Optimization	3
ISY E/COMP SCI/ MATH 730	Nonlinear Optimization II	3
Other Suggested Courses:		
ISY E 412	Fundamentals of Industrial Data Analytics	3
ISY E/COMP SCI/ MATH 425	Introduction to Combinatorial Optimization	3
ISY E/M E 512	Inspection, Quality Control and Reliability	3
ISY E 516	Introduction to Decision Analysis	3
ISY E 517	Decision Making in Health Care	3
ISY E 575	Introduction to Quality Engineering	3
ISY E 603	Special Topics in Engineering Analytics and Operations Research	1-3
ISY E 604	Special Topics in Manufacturing and Supply Chain Management	1-3
ISY E 612	Information Sensing and Analysis for Manufacturing Processes	3
ISY E/MATH/OTM/ STAT 632	Introduction to Stochastic Processes	3
ISY E 645	Engineering Models for Supply Chains	3
ISY E 649	Interactive Data Analytics	3
ISY E/ COMP SCI 719	Stochastic Programming	3
ISY E/ COMP SCI 723	Dynamic Programming and Associated Topics	3

ISY E/ COMP SCI 727	Convex Analysis	3
------------------------	-----------------	---

1

These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Health Systems Engineering¹

Code	Title	Credits
------	-------	---------

Highly Recommended Courses:

ISY E 417	Health Systems Engineering	3
ISY E 517	Decision Making in Health Care	3
ISY E 606	Special Topics in Healthcare Systems Engineering	1-3
ISY E/B M I 617	Health Information Systems	3
ISY E/ POP HLTH 703	Quality of Health Care: Evaluation and Assurance	1-3

Other Suggested Courses:

ISY E 412	Fundamentals of Industrial Data Analytics	3
ISY E 415	Introduction to Manufacturing Systems, Design and Analysis	3
ISY E 521	Machine Learning in Action for Industrial Engineers	3
ISY E 555	Human Performance and Accident Causation	3
ISY E 575	Introduction to Quality Engineering	3
ISY E 601	Special Topics in Industrial Engineering ²	1-3
ISY E/ PHARMACY 608	Safety and Quality in the Medication Use System	3
ISY E 615	Production Systems Control	3
ISY E 620	Simulation Modeling and Analysis	3
ISY E 624	Stochastic Modeling Techniques	3
ISY E/M E 643	Performance Analysis of Manufacturing Systems	3
ISY E/M H R 729	Behavioral Analysis of Management Decision Making	3
ISY E/ POP HLTH 875	Cost Effectiveness Analysis in Health and Healthcare	3
B M I/ COMP SCI 576	Introduction to Bioinformatics	3
B M I 773	Clinical Research Informatics	3
B M I/ COMP SCI 776	Advanced Bioinformatics	3

1

These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

2

Topics vary for this course. Obtain advance approval from your faculty advisor.

Advanced Manufacturing and Industrial AI¹

Code	Title	Credits
------	-------	---------

Possible Courses:

ISY E 412	Fundamentals of Industrial Data Analytics	3
ISY E 415	Introduction to Manufacturing Systems, Design and Analysis	3
ISY E/M E 510	Facilities Planning	3
ISY E/M E 512	Inspection, Quality Control and Reliability	3
ISY E 515	Engineering Management of Continuous Process Improvement	3
ISY E 575	Introduction to Quality Engineering	3
ISY E 601	Special Topics in Industrial Engineering ²	1-3
ISY E 603	Special Topics in Engineering Analytics and Operations Research	1-3
ISY E 604	Special Topics in Manufacturing and Supply Chain Management	1-3
ISY E 605	Computer Integrated Manufacturing	3
ISY E 612	Information Sensing and Analysis for Manufacturing Processes	3
ISY E 615	Production Systems Control	3
ISY E/M E 641	Design and Analysis of Manufacturing Systems	3
ISY E/M E 643	Performance Analysis of Manufacturing Systems	3
ISY E 645	Engineering Models for Supply Chains	3
STAT/M E 424	Statistical Experimental Design	3
ISY E 823	Special Topics in Operations Research	1-3

1

These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

2

Topics vary for this course. Obtain advance approval from your faculty advisor.

Human Factors and Ergonomics¹

Code	Title	Credits
------	-------	---------

Possible Courses:

ISY E/COMP SCI/ DS 518	Wearable Technology	3
ISY E 552	Human Factors Engineering Design and Evaluation	3
ISY E 555	Human Performance and Accident Causation	3
ISY E 562	Human Factors of Data Science and Machine Learning	3
ISY E/B M E 564	Occupational Ergonomics and Biomechanics	3
ISY E 601	Special Topics in Industrial Engineering ²	1-3

ISY E 602	Special Topics in Human Factors	3
ISY E/B M E 662	Design and Human Disability and Aging	3
ISY E 699	Advanced Independent Study ²	1-5
ISY E/PSYCH 854	Special Topics in Organization Design ²	1-3
ISY E/PSYCH 859	Special Topics in Human Factors Engineering	1-3
ISY E 961	Graduate Seminar in Industrial Engineering ²	1-3
CIV ENGR 679	Special Topics in Transportation and City Planning	3

Tools and Methods Courses³

HFE Ph.D. students must complete an additional coursework and exam component.

HFE Course Requirement

Code	Title	Credits
------	-------	---------

To take the qualifying exam, a student will have to have received a grade of AB or better in at least 3 credits in each of the three areas below. Courses taken during undergraduate studies can be used to satisfy this requirement:

Cognitive Ergonomics:

ISY E 555	Human Performance and Accident Causation	3
ISY E/ MED PHYS 559	Patient Safety and Error Reduction in Healthcare	2
ISY E 601	Special Topics in Industrial Engineering ²	1-3
ISY E 602	Special Topics in Human Factors ²	3
ISY E 699	Advanced Independent Study ²	1-5
ISY E/PSYCH 859	Special Topics in Human Factors Engineering ²	1-3

Sociotechnical Systems / Macroergonomics:

ISY E 555	Human Performance and Accident Causation	3
ISY E/ MED PHYS 559	Patient Safety and Error Reduction in Healthcare	2
ISY E/PSYCH 653	Organization and Job Design ²	3
ISY E 601	Special Topics in Industrial Engineering ²	1-3
ISY E 602	Special Topics in Human Factors ²	3
ISY E 699	Advanced Independent Study ²	1-5
ISY E/PSYCH 854	Special Topics in Organization Design ²	1-3

Physical Ergonomics:

ISY E 555	Human Performance and Accident Causation	3
ISY E/B M E 564	Occupational Ergonomics and Biomechanics	3
ISY E/B M E 662	Design and Human Disability and Aging	3
ISY E 601	Special Topics in Industrial Engineering ²	1-3

ISY E 602	Special Topics in Human Factors ²	3
ISY E 699	Advanced Independent Study ²	1-5
ISY E/PSYCH 854	Special Topics in Organization Design ²	1-3

1

These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

2

Topics vary for this course. Obtain advance approval from your faculty advisor.

3

Various courses in the categories of Research Methods, Statistics, Qualitative Research, Biomechanics Methods, and Psychology count as "Tools and Methods." The Human Factors and Ergonomics faculty group updates the list of "Tools and Methods" courses, and advisors decide which set of courses are appropriate for each student. Work with your faculty advisor regarding non-ISY E course work.

Prior to defending their dissertation, HFE Ph.D. students must complete at least six seminar/special topics courses numbered 700 or above totaling a minimum of 12 credits; at least 6 credits of these must be in the Human Factors and Ergonomics area. Seminar credits outside the Human Factors and Ergonomics area may be used to satisfy the Industrial Engineering Breadth requirement. Other courses may qualify. Students may submit courses to the HFE Area group for consideration. Transfer students should submit a course syllabus or description and transcript for any courses from other institutions that they would like to have considered for satisfaction of this requirement. The HFE Area group will make this decision.

Additional Requirements for all ISyE PhD Students

- **Industrial Engineering Breadth Requirement:** The breadth requirement is to make sure the Ph.D. student achieves minimum competence in multiple areas of industrial and systems engineering. It consists of taking at least one 3-credit course in each of two different areas outside of the student's focus area, for a total of 6 credits. Students can choose from a select set of courses and must attain a grade of B or above in both courses. The courses selected by the student must be approved by the student's adviser. These courses must be completed before a Ph.D. student can request their Preliminary Warrant. Courses the student has taken before entering the Ph.D. program can be counted toward this breadth requirement, including courses taken as an undergraduate. Students should submit the course title and syllabus to the student services coordinator who will then seek approval from the chair of graduate affairs.
 - PhD students must complete the Breadth requirement for their degree program by completing a cohesive group of courses outside the ISyE major in order to add breadth to their program.
- **Recognizing the importance of instructional training to our PhD students,** each student in the PhD program is required to serve as a teaching assistant for at least one semester during their program. Requests for a partial or full waiver of this requirement should be submitted in writing to the Associate Chair for Graduate Studies and will be reviewed by the Academic Affairs Cluster.
- **Colloquium/Lecture Series:** For at least two semesters, students must regularly attend a colloquium series. The appropriate colloquium series must be approved by the student's faculty adviser. It is not required to meet this requirement by registering for a course (indeed some colloquium series have no associate course). Instead, attendance at

the approved colloquium series must be confirmed by the student's faculty adviser when the student submits their PhD Plan of Study prior to their preliminary examination. Example of colloquium series that can be used to meet this requirement include the ISyE Colloquia and the Systems, Information, Learning and Optimization (SILO) seminars.

- All ISyE PhD students must utilize the graduate student portal in MyUW to add, change, or discontinue any doctoral minor or graduate/professional certificate. To apply to this minor, log in to my.wisc.edu, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.
- For additional information, please contact iegradadmissions@engr.wisc.edu.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

This program follows the Graduate School's policy for Satisfying Requirements with Prior Graduate Coursework from Other Institutions. (<https://policy.wisc.edu/library/UW-1216/>)

UW–Madison Undergraduate

Not allowed for graduate residence credit requirement for master's thesis option or the Ph.D. track but allowed up to 6 credits numbered 300 or above toward the graduate degree credit requirement for master's course option tracks but not toward the 50% graduate coursework except for 700 level or above courses. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

This program follows the Graduate School's policy for Transfer from UW–Madison University Special Student Career at UW–Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

Criteria for Satisfactory Progress

- Cumulative and semester GPA of at least 3.0 are required. Thesis research grades must be P or S to be making satisfactory academic progress. The following courses are excluded from GPA calculations for this purpose: English for international students, courses lower than the 300 level in any department, 300 level courses in the ISyE department.
- All students are admitted as full-time students unless otherwise noted in writing prior to the start of their program. Full-time students are expected to satisfy the Graduate School requirements for full-time status during all regular semesters in residence unless they have already passed the PhD preliminary examination. Students must have prior written approval from the academic affairs cluster to become

part-time students. No special credit load requirements are imposed on approved part-time students.

- PhD students must complete qualifying exam, preliminary exam and final defense within the time constraints specified in the section above.
- PhD students are expected to make consistent progress toward their dissertation, appropriate for their year of study. Satisfactory research progress is determined by the PhD student's faculty advisor. Unsatisfactory progress will be communicated to the student by their faculty advisor, and can be done via the annual assessment of student progress, by giving the student a grade of "U" in a research course, or by a written letter.
- Graduate students are expected to meet academic and professional conduct standards, as described in the ISyE Graduate Handbook. This includes, but is not limited to, behaving in a professionally ethical manner, contributing to a positive work culture, and conducting research ethically.
- Graduate students with assistantship positions (RA, TA, or PA) must adequately perform the responsibilities associated with their position, as determined by the supervisor of the position.

Procedures in the case a student is not making satisfactory progress

- If a graduate student fails to meet satisfactory progress as defined by any of the criteria outlined above, a review committee will be formed to review the circumstances and the student's record, taking input from the student. The review committee will consist of the student's faculty advisor and two other ISyE faculty members appointed by the Associate Chair for Graduate Affairs.
- The review committee will review the student's record and determine if the student is making satisfactory progress. If the student is determined to not be making satisfactory progress, the committee will also decide whether the student should be placed on probation, or in exceptional cases (such as severe professional misconduct or academic misconduct as determined in accordance with UWS 14.04) be immediately removed from the ISyE graduate program and have their funding guarantee removed. In case that a student is put on probation, the committee will provide the student with a written explanation of what is required in order for the probation to be lifted, and in what time frame the requirements must be met.
- Failure to qualify for removal from probation after being on probation for a semester will lead to the removal of a PhD student's funding guarantee.
- A request to appeal the review committee decision must be made by the student to the department chair within 10 days of receiving the decision. The appeal will be reviewed by the academic affairs cluster.

Probation

- The probationary status of each student will be reviewed at the end of each regular semester. A student placed on Probation who fails to qualify for removal of probation at the next review of his or her probationary status will not be permitted to continue graduate studies in the IE Department, and any funding guarantee made to the student by the department is removed.
- At the end of a semester when a student is on probation a committee will determine if the student is qualified for removal of probationary status. The committee will include the Associate Chair for Graduate affairs and two other faculty members appointed by the Associate Chair.

ADVISOR / COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>).

Graduate students should always seek advice from their advisor prior to enrolling for courses.

Many PhD students are assigned a faculty advisor when they are admitted to the program, based on a match between their research interests and those of the assigned advisor. Some PhD students are not initially matched to a faculty advisor for their research when admitted. Such students are advised by the associate chair for graduate studies in their first year. During their first year, these students explore research possibilities with different faculty in the department and choose a faculty advisor by the end of the first year.

Changing advisors during the graduate program may be necessary due to changes in a student's interests or changes in the funding sources for their support. Students should discuss an advisor change with the faculty in their interest area and request a change of advisor with the ISyE Student Services in Room 3182 in Mechanical Engineering Building.

Ph.D. Committee

Attainment of a Ph.D. degree requires the preparation of a thesis on a research topic selected by the student and their advisor. Once a research project is selected, the student must choose his or her thesis committee. The ISyE Graduate Program requires the thesis committee shall **consist of at least four members for the Preliminary Exam Committee and at least four members for the Final Ph.D. Defense Committee** including:

- The Committee Chair (the student's primary advisor). The Committee Chair must be an ISyE faculty. Emeritus faculty cannot serve as the Committee Chair.
- Three other graduate faculty members or former UW-Madison graduate faculty up to one year after resignation or retirement with two faculty members having their tenure home in ISyE.
- All Committee members are required to be readers.
- The dissertation committee must consist of at least 4 members and meet the requirements set forth by the Graduate School, including for example, at least one of the members of the committee must be from a UW-Madison program outside the Industrial and Systems Engineering Department.
- Committee members may be from any of the following categories: graduate faculty, faculty from a department without a graduate program, academic staff (including emeritus faculty), visiting faculty, faculty from other institutions, scientists, research associates, and other individuals deemed qualified by the executive committee (or its equivalent).

CREDITS PER TERM ALLOWED

Enrollment of 12 credits or less recommended. (Full time status considered 8-12 credits).

TIME LIMITS

The qualifying examination requirement must be satisfied by the end of the fifth semester of enrollment after entering any UW-ISyE graduate program (including UW-ISyE masters' programs).

The preliminary exam must be completed within 4 years of entering any ISyE graduate program (including UW-ISyE masters' programs), and within 3 years of passing the qualifying exam.

The dissertation defense must be completed either within two years after passing the preliminary exam or by the end of the 6th year in the graduate program, whichever is later.

Exceptions to these time limits may be granted by the Academic Affairs Cluster through a petition process.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Grievance Procedures: Industrial and Systems Engineering

If a graduate student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance. Student's concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where the action occurred (program or department chair, section chair, lab manager, etc). Many departments and schools/colleges have established specific procedures for handling such situations; check their web pages and published handbooks for information. If such procedures exist at the local level, these should be investigated first. For more information, see the College of Engineering Policies and Procedures (<https://engineering.wisc.edu/report-an-incident/academic-grievances-and-complaints/>). The Assistant Dean for Graduate Affairs (enr-dean-

graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

Procedures for handling graduate student grievances against ISyE faculty, staff, or students:

1. The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved at this level.
2. Should a satisfactory resolution not be achieved, the student should contact the Associate Chair for Graduate Affairs, to discuss the grievance. The Associate Chair will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt is to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties, if necessary. University resources for sexual harassment, discrimination, disability accommodations, and other related concerns can be found on the UW Office of Compliance website (<https://compliance.wisc.edu/>).
3. If the issue is not resolved to the student's satisfaction, the student can submit the grievance to the Grievance Advisor, which may be either the Associate Chair for Graduate Affairs or the Department Chair, as chosen by the student. The grievance should be submitted in writing, within 60 calendar days of the alleged unfair treatment.
4. On receipt of a written complaint, the Grievance Advisor will form a faculty committee that will review the complaint and gather further information as necessary from the filer of the complaint and other parties involved (including the party toward whom the complaint is directed).
5. The faculty committee will determine a decision regarding the grievance. The Grievance Advisor will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.
6. At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal to the College of Engineering Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu). Either party has 10 working days to file a written appeal to the School/College.
7. Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.
8. The Graduate School has procedures for students wishing to appeal a grievance decision made at the school/college level. These policies are described in the Graduate School Academic Policies and Procedures - Grievances & Appeals (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

THE INDIVIDUAL DEVELOPMENT PLAN ([HTTPS://GRAD.WISC.EDU/PD/IDP/](https://grad.wisc.edu/pd/idp/))

An Individual Development Plan helps with self-assessment, planning, and communication:

- An IDP can help you communicate your professional development and career planning needs and intentions to others including your mentor, which can lead to helpful advice and resources.
- You can use the IDP to make sure you and your mentor's expectations are clearly outlined and in agreement so that there are no big surprises, particularly at the end of your training.
- The current job market is challenging and research has shown that individuals who perform structured career planning achieve greater career success and satisfaction.

The onus to engage in the IDP process is on you – although your mentor, PI, or others may encourage and support you in doing so. The IDP itself remains private to you, and you choose which parts to share with which mentors. Through the IDP process, you may decide to identify various mentors to whom you can go for expertise and advice.

ENGINEERING CAREER SERVICES ([HTTPS://ECS.WISC.EDU/](https://ecs.wisc.edu/))

Julie Rae, Assistant Director for Graduate Student Career Services

GRADUATE students in all Engineering programs

- Resumes & Cover Letters <https://ecs.wisc.edu/students/resumes-and-cover-letters/>
- Job Search Strategies
- Job Offers & Negotiation <https://ecs.wisc.edu/students/offers-and-negotiation/>
- CPT for Graduate Students <https://ecs.wisc.edu/students/co-op-and-internship/>
- Student appointments: Click Here (<http://go.wisc.edu/ecs-grad-appt/>) to schedule an appointment with ECS.

Employer Recruitment List for Industrial Engineering Students: <https://ecs.wiscweb.wisc.edu/wp-content/uploads/sites/86/2017/03/IE-Employer-Recruitment-List-17-18.pdf>

UW WRITING CENTER ([HTTP://WRITING.WISC.EDU/](http://writing.wisc.edu/))

Location: 6171 Helen C. White Hall

Tel: (608) 263-1992

The UW Writing Center provides free of charge face-to-face and online consultations that focus on a number of different writing scenarios (i.e. drafts of course papers, resumes, reports, application essays, cover letters,

theses, etc). Writing Center instructors will not edit or proofread papers. Instead, their goal is to teach students to edit and proofread on their own in order to become a better, more confident writer.

LEARNING OUTCOMES

1. Articulates research problems, potentials, and limits with respect to theory, knowledge, or practice within industrial and systems engineering.
2. Formulates ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the industrial and systems engineering.
3. Creates research, scholarship, or performance that makes a substantive contribution to the industrial and systems engineering field.
4. Demonstrates breadth within their learning experiences.
5. Advances contributions of the field of industrial and systems engineering to society.
6. Communicates complex ideas in a clear and understandable manner to variety of audience.
7. Fosters ethical and professional conduct.

INFORMATION, M.S.

The master's degree at the Information School (iSchool) prepares graduates to develop, provide, and assess information and data services that create, collect, organize, store, analyze, find, distribute, and use information and data in a diverse, technological, and global society.

The program prepares information professionals to work in three broad, overlapping areas of the information professions.

User Experience Design: Graduates obtain employment in user experience design, interaction design, usability testing, systems analysis and project management, IT training, educational technology support, digital asset management and curation, and content management.

Data Analytics: Graduates obtain employment as data analysts in a variety of fields with expertise in analyzing data to support organizational decision-making, planning and managing data-driven projects, visualization and communication of analysis and results, data policy issues, and ensuring that organizational data practices support analysis activities.

Data and Information Management: Graduates obtain employment specializing in management of data and information in a variety of organizations with expertise in knowledge management, digital asset management, data and information governance, prospect research, systems analysis, records management and compliance, research data

management and project management, and database development and management.

Full-time students generally complete the program in two academic years with summer work; part-time students complete it in three to four years. Students gain hands-on experience as part of their degree through the school's required internship. Students may choose internship settings based on their career goals.

Students interested in the Master of Science in Information should refer to one of the named options:

- Campus Delivered Program (p. 1047)
- Distance Delivered Program (p. 1050)

ADMISSIONS

Students apply to the Master of Science in Information through one of the named options:

- Campus Program (p. 1047)
- Online Program (p. 1050)
- Admission to the named option in Research is only available to students currently enrolled in the PhD in Information (<https://guide.wisc.edu/graduate/information/information-phd/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS CURRICULAR REQUIREMENTS

Requirement Detail

Minimum 30 credits
Credit Requirement

Minimum 16 credits
Residence Credit Requirement

Minimum 15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (<https://policy.wisc.edu/library/UW-1244> (<https://policy.wisc.edu/library/UW-1244/>)).

Overall 3.00 GPA required.
Graduate GPA Requirement This program follows the Graduate School's policy: <https://policy.wisc.edu/library/UW-1203> (<https://policy.wisc.edu/library/UW-1203/>).

Other Grade Requirements Within the student's total program, one grade of BC or C is allowable in either a required or elective course if it is balanced by a grade of A or AB earned either prior to or concurrently with the unsatisfactory grade. Students receiving a BC or C move into probationary status. A second grade of BC or C or any grade of D or F will normally result in the student being dropped from the program. In addition, a student's graduate-program cumulative grade point average must be maintained at 3.00 or above.

Assessments and Examinations No formal examination is required.

Language Requirements None.

REQUIRED COURSES

Select a Named Option (p. 1046) for courses required.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Science in Information must select one of the following named options:

View as listView as grid

- INFORMATION: CAMPUS PROGRAM, M.S. (P. 1047)
- INFORMATION: ONLINE PROGRAM, M.S. (P. 1050)
- INFORMATION: RESEARCH, M.S. (P. 1053)

POLICIES

Students should refer to one of the named options for policy information:

- Campus Program (p. 1047)
- Online Program (p. 1050)
- Research (p. 1053)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Integrate concepts from information/data management, digital technologies and human behavioral and cultural practices to help solve organizational, community or social challenges

2. Use legal or ethical principles to critique data and information management practices
3. Apply principles of information science to organizational data and information management endeavors
4. Use quantitative analysis methodologies and tools to inform decision making
5. Demonstrate professional communications, teamwork, and awareness of culture competencies

PEOPLE

For a complete faculty/staff directory see <https://ischool.wisc.edu>

INFORMATION: CAMPUS PROGRAM, M.S.

This is a named option within the Master of Science Information (p. 1045).

The master's degree at the Information School (iSchool) prepares graduates to develop, provide, and assess information and data services that create, collect, organize, store, analyze, find, distribute, and use information and data in a diverse, technological, and global society. The program prepares information professionals to work in three broad, overlapping areas of the information professions.

User Experience Design: Graduates obtain employment in user experience design, interaction design, usability testing, systems analysis and project management, IT training, educational technology support, digital asset management and curation, and content management.

Data Analytics: Graduates obtain employment as data analysts in a variety of fields with expertise in analyzing data to support organizational decision-making, planning and managing data-driven projects, visualization and communication of analysis and results, data policy issues, and ensuring that organizational data practices support analysis activities.

Data and Information Management: Graduates obtain employment specializing in management of data and information in a variety of organizations with expertise in knowledge management, digital asset management, data and information governance, prospect research, systems analysis, records management and compliance, research data management and project management, and database development and management.

Full-time students generally complete the program in two academic years with summer work; part-time students complete it in three to four years. Students gain hands-on experience as part of their degree through the school's required internship. Students may choose internship settings based on their career goals.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the**

Graduate School as well as the program(s). Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	June 1
Spring Deadline	The program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	2

The MS Information admits students to its on campus and online master's programs once a year for a start in the fall semester. Fall admissions deadlines are as follows:

- The deadline for full consideration for iSchool MS Information scholarships is February 15.
- The deadline for full consideration for admission is March 1.
- Applications submitted after March 1 are considered on a space available basis.

The UW Madison Graduate School requires a bachelor's degree from a regionally accredited U.S. institution, or a comparable degree from an international institution. A minimum undergraduate grade-point average (GPA) of 3.00 (on a 4.00 scale) in the last 60 earned credit hours is required.

Application evaluation criteria include academic abilities, professional promise, leadership and community engagement. An undergraduate program that includes breadth in liberal arts and sciences is required. Any major is acceptable. Prior work experience related to information and computing professions is useful, but is not required. The GRE is not required.

International students: TOEFL or equivalent scores are required if English is not the native language, or if the undergraduate instruction was not in English. The Information School follows UW Graduate School rules regarding English proficiency exams. See the Graduate School website (<http://grad.wisc.edu/>) for updated information.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School.

Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM INFORMATION

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

REQUIRED COURSES

Code	Title	Credits
Core Required Courses (take all)		
L I S 615	Systems Analysis and Project Management for Information Professionals	3
L I S 751	Database Design for Information Professionals	3
L I S/ COM ARTS 705	Introductory Analytics for Decision Making	3
L I S/CURRIC 620	Field Project in Library and Information Agencies	3
L I S 732	Strategic Information Services	3
Breadth Requirement in Ethics		
All students must complete at least three credits in ethics from the list below.		3
L I S 461	Data and Algorithms: Ethics and Policy (recommended)	
L I S 661	Information Ethics and Policy	
Concentrations		
At least 9 credits must be taken from among the following approved courses organized by concentration area. Students may mix and match approved courses from across the two different areas.		9+
<i>Concentration Area: User Experience/Interaction Design¹</i>		
L I S/ COMP SCI 611	User Experience Design 1	
L I S/ COMP SCI 612	User Experience Design 2	
L I S/ COMP SCI 613	User Experience Design 3	
L I S/ COMP SCI 614	User Experience Design Capstone	
<i>Concentration Area: Analytics and Data Management¹</i>		
L I S 706	Data Mining Planning and Management	
L I S 707	Data Visualization and Communication for Decision Making	
L I S 711	Data Management for Information Professionals	
Electives		
Up to 3 credits of electives may be taken from the below approved list.		0-3
COMP SCI 319	Data Science Programming I for Research	
COMP SCI 570	Introduction to Human-Computer Interaction	
L I S/AFRICAN/ COM ARTS 444	Technology and Development in Africa and Beyond	
L I S/ LEGAL ST 460	Surveillance, Privacy, and Police Powers	
L I S 500	Code and Power	
L I S 510	Human Factors in Information Security	

L I S/NURSING/ OCC THER 517	Digital Health: Information and Technologies Supporting Consumers and Patients
L I S 616	Records Management

Total Credits	30

1

These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Contingent on advisor approval, up to 3 credits of coursework from outside the MS Information approved course list can be taken from other UW-Madison departments while the student is matriculated in the MS Information program.

MA Library and Information Studies Transfers

The program would accept up to 10 credits (1 semester) from students who begin the MA program but then seek to change to the MS Information program. Courses from outside the MS Information approved course list are subject to approval by the advisor and must not exceed the 9 elective credits allowed within the program.

Students switching between the MS Information degree and the MA Library and Information Studies degree must switch by the end of their first semester (for part time students = 10 credits). **Students moving from a lower cost program to the MS program will be required to pay the difference in tuition in order to have the courses count toward the MS degree.** In the case of a move from a higher to a lower cost program, the difference in tuition will not be refunded.

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate, graduate or certificate programs.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree

program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

The program will not accept credits taken outside of UW-Madison to be used toward the degree.

UW-Madison Undergraduate

The program will allow up to 3 credits of approved MS Information or computer science coursework taken as an undergraduate to be counted toward the degree. The coursework must be from the approved MS curriculum, or approved by an Information School advisor.

UW-Madison University Special

The program will accept up to 10 credits from the iSchool capstone certificate in Digital User Experience Design (UX) or Analytics for Decision Making Capstone Certificate programs, if those credits were earned within 5 years of admission to the MS degree. All credits must be part of the UX or Analytics certificates.

In cases where students move from a lower cost program to the MS program, students will be required to pay the difference in tuition in order to have the lower cost earned credits count toward the MS degree.

The program will allow a maximum of 3 LIS credits from the approved MS Information course list, to be completed as a non-matriculated special student before entry into the program. Special students entering the MS Information must pay the tuition differential on the 3 credits in order for the course to count toward their MS Information degree requirements.

PROBATION

Registration is not a guarantee of enrollment under conditions of unsatisfactory progress. Students who fall into unsatisfactory progress will have an academic hold placed on their record; they should discuss clearing the hold with their adviser.

1. Good standing: progressing according to standards.
2. Probation: not progressing according to standards but permitted to enroll; potential loss of scholarships.
3. Unsatisfactory progress: not progressing according to standards; not permitted to enroll, dismissal, leave of absence.

A student may be placed on probation or suspended from the Graduate School for low grades or for failing to resolve incompletes in a timely fashion. In special cases the Graduate School permits students who do not meet these minimum standards to continue on probation upon recommendation and support of their advisor. See iSchool Student Handbook. (<https://ischool.wisc.edu/current-students/ma-requirements-overview/ma-program-planning-guides/>)

ADVISOR / COMMITTEE

All continuing students are required to meet with the staff advisor prior to registering for each semester in order to remove registration holds and ensure timely progress towards degree completion. Students may switch advisors at any time by completing a change of advisor form.

CREDITS PER TERM ALLOWED

15 credits (however, 12 credits are highly encouraged)

TIME LIMITS

The maximum period for completion of the M.S. (under special circumstances) is seven calendar years. Contact the department for more information.

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

For a complete faculty/staff directory see <https://ischool.wisc.edu>

INFORMATION: ONLINE PROGRAM, M.S.

This is a named option within the Master of Science Information.

The master's degree at the Information School (iSchool) prepares graduates to develop, provide, and assess information and data services that create, collect, organize, store, analyze, find, distribute, and use information and data in a diverse, technological, and global society. The program prepares information professionals to work in three broad, overlapping areas of the information professions.

User Experience Design: Graduates obtain employment in user experience design, interaction design, usability testing, systems analysis and project management, IT training, educational technology support, digital asset management and curation, and content management.

Data Analytics: Graduates obtain employment as data analysts in a variety of fields with expertise in analyzing data to support organizational decision-making, planning and managing data-driven projects, visualization and communication of analysis and results, data policy issues, and ensuring that organizational data practices support analysis activities.

Data and Information Management: Graduates obtain employment specializing in management of data and information in a variety of organizations with expertise in knowledge management, digital asset management, data and information governance, prospect research, systems analysis, records management and compliance, research data management and project management, and database development and management.

Full-time students generally complete the program in two academic years with summer work; part-time students complete it in three to four years. Students gain hands-on experience as part of their degree through the school's required internship. Students may choose internship settings based on their career goals.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	June 1
Spring Deadline	The program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.

GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	2

The MS Information admits students to its on campus and online master's programs once a year for a start in the fall semester. Fall admissions deadlines are as follows:

- The deadline for full consideration for iSchool MS Information scholarships is February 15.
- The deadline for full consideration for admission is March 1.
- Applications submitted after March 1 are considered on a space available basis.

The UW Madison Graduate School requires a bachelor's degree from a regionally accredited U.S. institution, or a comparable degree from an international institution. A minimum undergraduate grade-point average (GPA) of 3.00 (on a 4.00 scale) in the last 60 earned credit hours is required.

Application evaluation criteria include academic abilities, professional promise, leadership and community engagement. An undergraduate program that includes breadth in liberal arts and sciences is required. Any major is acceptable. Prior work experience related to information and computing professions is useful, but is not required. The GRE is not required.

International students: TOEFL or equivalent scores are required if English is not the native language, or if the undergraduate instruction was not in English. The Information School follows UW Graduate School rules regarding English proficiency exams. See the Graduate School website (<http://grad.wisc.edu/>) for updated information.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM INFORMATION

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
No	No	Yes	No	No

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide (https://registrar.wisc.edu/course-guide/)).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	Within the student's total program, one grade of BC or C is allowable in either a required or elective course if it is balanced by a grade of A or AB earned either prior to or concurrently with the unsatisfactory grade. Students receiving a BC or C move into probationary status. A second grade of BC or C or any grade of D or F will normally result in the student being dropped from the program. In addition, a student's graduate-program cumulative grade point average must be maintained at 3.00 or above.

Assessments and Examinations	No formal examination is required.
Language Requirements	None.

REQUIRED COURSES

Core Required Courses (take all)

Code	Title	Credits
Core Required Courses (take all)		
L I S 615	Systems Analysis and Project Management for Information Professionals	3

L I S 751	Database Design for Information Professionals	3
L I S/ COM ARTS 705	Introductory Analytics for Decision Making	3
L I S/CURRIC 620	Field Project in Library and Information Agencies	3
L I S 732	Strategic Information Services	3

Breadth Requirement in Ethics

All students must complete at least three credits in ethics from the list below. 3

L I S 461	Data and Algorithms: Ethics and Policy (recommended)	
L I S 661	Information Ethics and Policy	

Concentrations

At least 9 credits must be taken from among the following approved courses organized by concentration area. 9+
Students may mix and match approved courses from across the two different areas.

*Concentration Area: User Experience/Interaction Design*¹

L I S/ COMP SCI 611	User Experience Design 1	
L I S/ COMP SCI 612	User Experience Design 2	
L I S/ COMP SCI 613	User Experience Design 3	
L I S/ COMP SCI 614	User Experience Design Capstone	

*Concentration Area: Analytics and Data Management*¹

L I S 706	Data Mining Planning and Management	
L I S 707	Data Visualization and Communication for Decision Making	
L I S 711	Data Management for Information Professionals	

Electives

Up to 3 credits of electives may be taken from the below approved online course list. 0-3

L I S 500	Code and Power	
L I S/NURSING/ OCC THER 517	Digital Health: Information and Technologies Supporting Consumers and Patients	
L I S 616	Records Management	
L I S 632	Metadata Standards and XML	
L I S/ LEGAL ST 645	Intellectual Freedom	
L I S 646	Introduction to Info Architecture and Interaction Design for the Web	
L I S 658	Publishing, Knowledge Institutions and Society: E-Revolutions?	

Total Credits 30

1

These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Contingent on advisor approval, up to 6 credits of coursework from outside the MS Information approved course list can be taken from other UW-Madison departments while the student is matriculated in the MS Information program.

MA Library and Information Studies Transfers

The program would accept up to 10 credits (1 semester) from students who begin the MA program but then seek to change to the MS Information program. Courses from outside the MS Information approved course list are subject to approval by the advisor and must not exceed the 9 elective credits allowed within the program.

Students switching between the MS Information degree and the MA Library and Information Studies degree must switch by the end of their first semester (for part time students = 10 credits). **Students moving from a lower cost program to the MS program will be required to pay the difference in tuition in order to have the courses count toward the MS degree.** In the case of a move from a higher to a lower cost program, the difference in tuition will not be refunded.

POLICIES**GRADUATE SCHOOL POLICIES**

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES**PRIOR COURSEWORK****Graduate Work from Other Institutions**

The program will not accept credits taken outside of UW-Madison to be used toward the degree.

UW-Madison Undergraduate

The program will allow up to 3 credits of approved MS Information or computer science coursework taken as an undergraduate to be counted toward the degree. The coursework must be from the approved MS curriculum, or approved by an Information School advisor.

UW-Madison University Special

The program will accept up to 10 credits from the iSchool capstone certificate in Digital User Experience Design (UX) or Analytics for Decision Making Capstone Certificate programs, if those credits were earned within 5 years of admission to the MS degree. All credits must be part of the UX or Analytics certificates.

In cases where students move from a lower cost program to the MS program, students will be required to pay the difference in tuition in order to have the lower cost earned credits count toward the MS degree.

The program will allow a maximum of 3 LIS credits from the approved MS Information course list, to be completed as a non-matriculated special student before entry into the program. Special students entering the MS Information must pay the tuition differential on the 3 credits in order for the course to count toward their MS Information degree requirements.

PROBATION

Registration is not a guarantee of enrollment under conditions of unsatisfactory progress. Students who fall into unsatisfactory progress will have an academic hold placed on their record; they should discuss clearing the hold with their adviser.

1. Good standing: progressing according to standards.
2. Probation: not progressing according to standards but permitted to enroll; potential loss of scholarships.
3. Unsatisfactory progress: not progressing according to standards; not permitted to enroll, dismissal, leave of absence.

A student may be placed on probation or suspended from the Graduate School for low grades or for failing to resolve incompletes in a timely fashion. In special cases the Graduate School permits students who do not meet these minimum standards to continue on probation upon recommendation and support of their advisor. See iSchool Student Handbook. (<https://ischool.wisc.edu/current-students/ma-requirements-overview/ma-program-planning-guides/>)

ADVISOR / COMMITTEE

All continuing students are required to meet with the staff advisor prior to registering for each semester in order to remove registration holds and ensure timely progress towards degree completion. Students may switch advisors at any time by completing a change of advisor form.

CREDITS PER TERM ALLOWED

15 credits (however, 12 credits are highly encouraged)

TIME CONSTRAINTS

The maximum period for completion of the M.S. (under special circumstances) is seven calendar years. Contact the department for more information.

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)

- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

OTHER

MS Information program students are not permitted to accept appointments that would result in a tuition waiver (TA, RA, PA). Also, students in this program cannot enroll in other graduate programs, nor take courses outside the prescribed curriculum without permission of the advisor.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

For a complete faculty/staff directory see this website (<https://ischool.wisc.edu/faculty-staff-directory/>).

INFORMATION: RESEARCH, M.S.

This program does not directly admit students. It is a degree for students admitted into the PhD Information who leave the PhD program without fulfilling all the PhD requirements but who have completed all requirements for the Masters of Science: Research.

ADMISSIONS

This master's program is offered for work leading to the Ph.D. Students may not apply directly for this named option, and should instead see the admissions information for the Ph.D (<https://guide.wisc.edu/graduate/information/information-phd/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

rwillett@wisc.edu

INFORMATION, PH.D.

The Ph.D. in Information at the UW–Madison Information School (iSchool) cultivates a cooperative, supportive intellectual environment through which highly qualified students pursue doctoral studies. With a breath of faculty expertise, and a flexible curriculum, the iSchool supports computational, social science and humanities-oriented PhD studies.

PhD students develop close working relationships with faculty members, receive strong and consistent advising, and meet regularly together as a cohort throughout their coursework. The program and its faculty provide structure through which students conduct original research and prepare results for presentation and publication in scholarly conferences and journals. iSchool faculty members work closely with Ph.D. students on joint projects as well as supporting students' independent projects.

As part of an internationally top-ranked research university, the iSchool offers students the opportunity to engage in the rich variety of educational experiences both within the school and in the broader University of Wisconsin–Madison campus.

Admitted students receive financial support including tuition remission, a stipend, and funds for research support including travel. The program encourages students to explore both academic and industry career opportunities.

For more information, including instructions on admissions, please see the iSchool PhD program webpage. (<https://ischool.wisc.edu/programs/phd-program/>)

To see the research interests and expertise of iSchool faculty members, please refer to the iSchool Faculty Research Page (<https://ischool.wisc.edu/faculty-staff-directory/research/>).

RESIDENCE AND COMMUNITY

The iSchool Ph.D. program is a residential program. Students must be able to attend classes in person at UW–Madison for at least three years. Most students continue to live near Madison as they research and write their dissertations. Four to five years of full-time study is typical for students to complete the degree. The school strongly prefers full-time Ph.D. students.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 31
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

APPLICATION REQUIREMENTS

Ph.D. admissions at the Information School require GRE scores, a GPA of 3.0 (on a 4.0 scale) or better in the last 60 hours of academic credit earned; a detailed written statement of the area of research interest, fit with current faculty and the purpose for pursuing doctoral study; and an interview (usually a phone interview) with the school's Ph.D. committee or other faculty members serving on the committee's behalf. International students must meet the Graduate School's language and degree requirements.

For more information, including detailed instructions for submitting an application, see this link (<https://ischool.wisc.edu/programs/phd-program/>).

OTHER INFORMATION

Applicants whose GPA falls below the required level must provide other evidence of academic ability. (Advice on the type of evidence appropriate to the applicant should be requested from the administrator of the doctoral program.) Applicant qualifications for admission will be reviewed by the school's Ph.D. committee, which will make an admissions recommendation to the director who, in turn, makes a recommendation to the Graduate School. The criteria used in this review include academic promise, the probability that the school's doctoral program will meet the goals and research interests of the applicant, and that the applicant will be able to complete the program successfully. Under certain circumstances, admission may be approved on a probationary basis or with deficiencies. Students will not normally be permitted to continue longer than the first year on probation. For more information see the Ph.D. program admissions page.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Admitted students receive financial support including tuition remission, a stipend, and funds for research support including travel.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement	51 credits including dissertator credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	At least 50% of the 51 credits must be taken in graduate-level coursework. Courses at the 300–600 level should be taken sparingly and must be approved by the student's advisor. Courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (http://my.wisc.edu/CourseGuideRedirect/BrowseByTitle (http://my.wisc.edu/CourseGuideRedirect/BrowseByTitle/)).

Overall Graduate GPA Requirement	3.50 GPA required.
Other Grade Requirements	To remain in good academic standing within the iSchool Ph.D. program, a student must maintain a 3.5 overall GPA, not carry any incomplete grades in courses (other than 999s) for more than 1 semester, and pass all mastery demonstration paper deadlines by appointed deadlines.
Assessments and Examinations	Each student is required to fulfill at least two different research practica. Students will demonstrate mastery of subject areas and research skills through two mastery demonstration papers and a program portfolio. Presentation and successful defense of a program portfolio and statement of intent constitutes the preliminary examination. Successful defense of the program portfolio and statement of intent constitutes formal acceptance into candidacy for the Ph.D. degree.
Language Requirements	No; however, coursework in a foreign language may be required if necessary for completing research activities.
Doctoral Minor/Breadth Requirements	All doctoral students are required to complete a minor.

REQUIRED COURSES

Code	Title	Credits
Core Required Courses		
L I S 910	Smr-Research Design & Methodology for Library & Information Studies	3
L I S 925	Professional Writing and Reading (PWR) Seminar ¹	6
<i>Seminars</i>		6
Students must take a minimum of 6 credits from the list below:		
L I S 931	Seminar in Information Policy, Management and Institutions	
L I S 940	Seminar in Information Use and Users in Context	
L I S 950	Seminar in LIS Foundations: Histories, Philosophies and Debates	
L I S 975	Seminar in Information Organization and Access	

Breadth Requirements

Students must complete 12 credits of breadth requirements, with a minimum of 3 credits in each of 4 breadth areas.

<i>Breadth Area 1: Introductory Research Design, Thinking, Methods</i>		3
L I S 603	Research and Assessment for Information Professionals	
COM ARTS 762	Communication Research Methods	
JOURN 658	Communication Research Methods	
<i>Breadth Area 2: Statistics/Numerical Literacy</i>		3
L I S/	Introductory Analytics for Decision Making	
COM ARTS 705		

STAT 371	Introductory Applied Statistics for the Life Sciences
SOC/ C&E SOC 360	Statistics for Sociologists I
SOC 362	Statistics for Sociologists III
ED PSYCH 760	Statistical Methods Applied to Education I
ED PSYCH 761	Statistical Methods Applied to Education II

Breadth Area 3: Working with Digital Data 3

COMP SCI 319	Data Science Programming I for Research
SOC/ C&E SOC 365	Data Management for Social Science Research
L I S 768	Digital Humanities Analytics
ELPA 823	Data Management for Education Policy Analysis
ED PSYCH 551	Quantitative Ethnography
STAT 303	R for Statistics I
STAT 304	R for Statistics II
STAT 305	R for Statistics III

Breadth Area 4: Pedagogy and Teaching 3

L I S 639	Pedagogical Theory and Practice for Information Professionals
CURRIC 818	Teaching Controversial Issues
CURRIC 844	Culturally Relevant Pedagogy

Specialization 12

Students must complete a minimum of 12 credits in their area of specialization. Courses must be relevant to the student's program of study but may be internal or external to the iSchool. Courses should be chosen in consultation with their advisor or the PhD program chair and must meet all Graduate School requirements.

Minor 12

The minor requires that students take a minimum of 12 credits outside of the iSchool. Courses must meet Graduate School minor requirements. The Option A minor requires a minimum of 9 credits; the Option B, 12 credits. Students interested in an Option A minor should initiate contact and seek approval from the minor department. Students electing the Option A minor must complete an additional 3 credits of course work outside of the department in order to satisfy the minor requirement.

Total Credits 51

1

Students must take this 1 credit seminar six times before becoming a dissertator. The seminar provides foundational knowledge for becoming a researcher.

Students who have previously completed the iSchool MA or MS

Students should work with the PhD program advisor to determine which courses taken as a masters student fulfill requirements for the iSchool PhD or would be appropriate electives for the PhD. Not all coursework will be approved. iSchool masters degree graduates who are accepted into the Information School Ph.D. program may apply to count up to 10 qualified credits from their iSchool masters degree toward their Ph.D. Qualified

courses include iSchool Ph.D. seminars (900 level), other courses that fulfill Ph.D. program requirements, or approved electives.

Students who have previously completed another UW-Madison graduate program

Students should work with the PhD program advisor to determine which courses taken as a masters student fulfill requirements for the iSchool PhD or would be appropriate electives for the PhD. Not all coursework will be approved.

Concurrent pursuit of an iSchool PhD and an iSchool masters degree

Students admitted to the PhD program who wish to obtain both an iSchool masters degree and an iSchool PhD should be assigned both a masters advisor as well as consulting with the PhD program chair. Depending on the student's individual program of study and careful planning, it is expected that students will use some approved credits to fulfill both degree requirements. Students should expect to complete more than the minimum 51 credits in order to fulfill the requirements of both degrees.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

Students may count up to 9 credits of approved graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

A student may request that the Information School PhD program consider up to seven credits numbered 300 or above of undergraduate work completed at UW-Madison towards fulfillment of minimum degree and minor credit requirements. Undergraduate coursework from other schools is not permitted

UW-Madison University Special

Students are allowed to count up to 9 approved credits of coursework numbered 300 or above taken as a UW-Madison Special student. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

Students who fail to meet any of the assessment criteria as described in the Doctoral Program Student Handbook will receive a letter of warning from the Ph.D. program director placing them on probationary status. They will have one additional semester (not including summer) to change their status. If they do not successfully change their status, they will be asked to leave the program. If students do not expect to successfully change their status within the probationary semester, they can request that the Ph.D. committee grant a probation extension; however, an extension will be granted only if the student can prove likelihood of success in the upcoming semester. The student should send a letter asking

for an extension and providing evidence of likelihood of success to the Ph.D. program director.

ADVISOR

The Information School Ph.D. Committee serves as the Progress Evaluation Committee for doctoral students. Upon admission, the Ph.D. committee chair serves as the default advisor for all students. At any point, the student may switch to a major professor/advisor based on similarities in research interests.

CREDITS PER TERM ALLOWED

8 to 12 credits in a regular semester is considered full time at the graduate level. Course load maximums are 12 credits in a regular semester, 8 credits in the summer term and 3 credits in the intersession.

TIME CONSTRAINTS

Completion of the degree should be within a three- to four-year period beyond earning the master's degree.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing their program portfolio and statement of intent may be required to take additional coursework, redefend their program portfolio and statement of intent, and to be admitted to candidacy a second time.

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)

- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

OTHER

A complete set of Information School Ph.D. program policies can be found in the PhD program planning guide on the iSchool PhD program website. (<https://ischool.wisc.edu/programs/phd-program/>)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Add to existing bodies of theory, scholarship, or scientific knowledge through critique, testing or extension in scholarly output.
2. Demonstrate mastery of statistical, computational, and digital data collection and analysis methodologies.
3. Employ scholarly methodologies and tools appropriate to areas of study to inform research.
4. Demonstrate scholarly communication skills both orally and in writing.
5. Engage in service contributions as appropriate to profession and field of study.
6. Demonstrate teaching skills and experience including cultural competency training.

PEOPLE

For a complete faculty/staff directory see this website (<https://ischool.wisc.edu/faculty-staff-directory/>).

LIBRARY AND INFORMATION STUDIES, DOCTORAL MINOR

Admissions to the Library and Information Studies Doctoral Minor have been suspended as of fall 2022 and will be discontinued as of fall 2024. If you have any questions, please contact the department.

REQUIREMENTS

The doctoral minor in Library and Information Studies is a flexible and interdisciplinary program functioning under the University of Wisconsin–Madison Graduate School's Option A rules (<https://grad.wisc.edu/acadpolicy/?policy=minors>) (minimum 9 credits). Students will need to

fill out a Ph.D. minor registration form and a PhD Minor Completion form. Both are available from the Information School website. As part of the process of completing the forms, they will need to identify, and obtain the signature of, a minor advisor from the iSchool faculty who will serve to assist with course selection and other issues. To begin the process of enrolling in the Library and Information Studies Option A minor, please contact an iSchool faculty member via email. Only Option A minors are given preferred enrollment status. Students may select courses from both the master's and Ph.D. level from within iSchool for their doctoral minor.

POPULAR ISCHOOL PHD MINOR CONCENTRATIONS¹ INCLUDE:

- information/data policy and ethics
- user experience/interaction design and information technologies
- digital youth
- digital archiving
- data/information management and analytics

1

These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

PEOPLE

For a complete faculty/staff directory see this website (<https://ischool.wisc.edu/faculty-staff-directory/>).

LIBRARY AND INFORMATION STUDIES, M.A.

The master's degree at the Information School (iSchool) prepares graduates to develop, provide, and assess information services that create, collect, organize, store, analyze, find, distribute, and use information in a diverse, technological, and global society. The program prepares information professionals to work in five broad, overlapping areas of the information professions.

Librarianship: Graduates obtain employment in college and university librarianship, public librarianship, youth and young adult librarianship, electronic collections management, science and health librarianship, research data management, and school library media centers.

Archives in a Digital Age (on-campus program only): Graduates obtain employment in digital asset management, digital preservation and curation, digital archives, corporate archives, government archives, special collections, and tribal libraries archives and museums.

Data/Information Management and Analytics: Graduates obtain employment in information analysis and visualization, knowledge management, prospect research, systems analysis, digital asset management, data and information governance, records management and compliance, research data management and project management.

Organization of Information: Graduates obtain employment in metadata management, taxonomy and ontology development and implementation, digital asset management, cataloging, XML and linked data, and database management.

User Experience Design and Information Technologies: Graduates obtain employment in user experience design, interaction design, systems analysis and project management, IT training, educational technology support, digital asset management and curation, content management, and database development and management.

Full-time students generally complete the master's program in two academic years with summer work; part-time students complete it in three to four years. Students gain hands-on experience as part of their degree through the school's required field practicum. Students may choose practicum settings based on their career goals.

NAMED OPTIONS

Students interested in the Master of Arts in Library and Information Studies should refer to one of the named options:

- Campus Program (p. 1063)
- Online Program (p. 1068)

OPTIONAL SPECIALIZATIONS

The Information School hosts several specializations that require specific coursework from other departments or other requirements.

Business School Graduate/Professional Certificate in Strategic Innovation: The Information School offers a specialization in information innovation and organizational change in conjunction with the School of Business graduate/professional certificate (p. 1251) which can be completed as part of the school's M.A. degree (on-campus program only).

Certificate in Leadership: iSchool students can earn the UW–Madison Certificate in Leadership (<https://cfl.wisc.edu/leadership-certificate/>) as part of their Information School M.A. degree (on-campus and online programs).

Double degrees: The iSchool offers double degrees with the UW Law School, the School of Music, and the Department of Art History. These require separate admissions and additional coursework. (on-campus program only)

School Library Media Specialist License: The School Library Media Specialist License in the State of Wisconsin is a stand-alone teaching license. The iSchool M.A. program can be modified to provide candidates with the educational requirements for the license taken in addition to the M.A. courses. Candidates already holding a valid Wisconsin teaching license can be endorsed for the School Library Media Specialist through the iSchool MA program. UW–Madison is part of the UW System School Library Education Consortium (UWSSLEC), which is a certification-only program. Because each state has its own regulations for teacher licenses, this specialization is available to Wisconsin residents or those who will be working in Wisconsin schools only.

Online students (distance degree option) should note: Specialized courses in art, music, law and school library media specialist as well as courses offered outside the Information School that may be part of concentrations, specializations or double degrees, are generally not available online. For a distance student with academic background in one of these areas, combining the general Information School degree with the specialized background may be the best preparation.

The Information School master's program is accredited by the American Library Association, recognized by the Wisconsin Division for Libraries, Technology, and Community Learning for certification of public librarians,

and recognized by the state's Department of Public Instruction for preparation of school library media specialists.

ABOUT THE INFORMATION SCHOOL PROGRAMS

The UW–Madison Information School, "the iSchool," is a professional school offering several degrees and non-credit education that prepare students for careers in the information professions:

- The iSchool M.A. degree (<https://ischool.wisc.edu/current-students/ma-degree-program/>) is a professional master's that offers five concentration areas: Librarianship, Archives in a Digital Age, Data/Information Management and Analytics, User Experience Design and Information Technologies, Organization of Information.
- The Capstone Certificate in User Experience Design (<http://hci.wisc.edu/madux/>) is an educational credential aimed at working adults who seek further education to advance their careers or move into new fields without the commitment of a full masters degree. See the Capstone Certificate Guide page here (<http://guide.wisc.edu/nondegree/capstone/user-experience-design-capstone-certificate/>).
- The Capstone Certificate in Data Analytics for Decision-Making (<https://dataanalytics.ischool.wisc.edu/>) is an educational credential aimed at working adults who seek further education to advance their careers or move into new fields without the commitment of a full masters degree. See the Capstone Certificate Guide page here. (<http://guide.wisc.edu/nondegree/capstone/data-analytics-decision-making-capstone-certificate/>)
- The Ph.D. degree (<https://ischool.wisc.edu/programs/phd-program/>) provides advanced academic preparation for those wishing to pursue careers in academia, industrial research or policy making. See the Ph.D. Guide page here (<http://guide.wisc.edu/graduate/information/library-information-studies-phd/#text>).
- Undergraduate Digital Studies Certificate (<https://ischool.wisc.edu/programs/undergraduatedigital-studies/>) provides undergraduate coursework in information technologies and society and information management. See the Undergraduate Certificate Guide page here (<http://guide.wisc.edu/undergraduate/letters-science/communication-arts/digital-studies-certificate/>).
- The iSchool offers non-credit continuing education short courses (<https://ischool.wisc.edu/continuing-education/>) that help information professionals stay up to date.

COMMUNITY

The Information School at UW–Madison is well known for its public-good, community-engagement orientation (<https://ischool.wisc.edu/slisc/community-engagement/>). It is home to student organizations that shepherd information-justice projects including the Jail Library Group, the Tribal Library Archives and Museums Group, and the Allied Drive Literacy Project. Student groups at the iSchool (<https://ischool.wisc.edu/current-students/slisc-student-organizations/>) are very active and organize and sponsor events.

The iSchool Library, (<https://www.library.wisc.edu/ischool/>) whose windows overlook the shores of Lake Mendota and the oak trees of Muir Knoll, is a very popular campus space for study, group work, social events and relaxation. The Information School Library is also home to:

- RADD (<http://radd.dsalo.info/>) "Recovering Analog and Digital Data" equipment for audio/video digitization and digital-data rescue that

provides fee-for-service recovery of data from a wide variety of media types.

- The Text Technologies Press: (<http://www.wiscprintdigital.org/projects/text-technologies/>) typography and letterpress printing equipment for teaching book history, book arts, design, art, and making.

RESEARCH & SCHOLARSHIP

The Information School faculty are known for scholarly work in the areas of:

- data and information policy and ethics
- user behaviors and literacies
- print culture
- library and information technology history
- electronic publishing
- information and communications technologies (ICT) and development, and transnational diaspora use of ICT
- the social aspects of ICT
- medical information and medical information technologies
- youth and new media

For more information see the iSchool Research Overview Page. (<https://ischool.wisc.edu/faculty-staff-directory/research/>)

RESEARCH COLLABORATIONS

Faculty and staff are widely involved in different research groups on campus. For example, the iSchool is home to the Center for the History of Print and Digital Culture (<http://www.wiscprintdigital.org/>), a research center focused on authorship, reading, publication, and distribution of print and digital materials. The Information School faculty members are involved with the Holtz Center for Science and Technology Studies, the Digital Humanities Research Network, the HCI+Design Group, the Wisconsin Institute for Discovery, and the Center for Financial Security.

ADMISSIONS

Students apply to the Master of Arts in Library and Information Studies through one of the named options:

- Campus Program (<http://guide.wisc.edu/graduate/information/library-information-studies-ma/library-information-studies-campus-delivered-program-ma/>)
- Online Program (<http://guide.wisc.edu/graduate/information/library-information-studies-ma/library-information-studies-distance-delivered-program-ma/>)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement 36 credits

Minimum Residence Credit Requirement 30 credits

Minimum Graduate Coursework Requirement A minimum of 30 credits must be taken from graduate-level Information School M.A. coursework; courses with the Graduate Level Coursework attribute.

The remaining 6 credits of coursework must be 300 level or above and may not include iSchool undergraduate coursework.

Overall Graduate GPA Requirement 3.00 GPA required.

This program follows the Graduate School's policy: <https://policy.wisc.edu/library/UW-1203> (<https://policy.wisc.edu/library/UW-1203/>).

Other Grade Requirements Within the student's total program, one grade of BC or C is allowable in either a required or elective course if it is balanced by a grade of A or AB earned prior to or concurrently with the unsatisfactory grade. A second grade of BC or C or any grade of D or F will normally result in the student being dropped from the program.

Assessments and Examinations Candidates must complete a minimum of a 120-hour practicum, and must complete an e-portfolio.

Language Requirements No language requirements.

REQUIRED COURSES

Select a Named Option (p. 1062) for courses required.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Arts in Library and Information Studies must select one of the following named options:

View as listView as grid

- LIBRARY AND INFORMATION STUDIES: CAMPUS PROGRAM, M.A. (P. 1063)
- LIBRARY AND INFORMATION STUDIES: ONLINE PROGRAM, M.A. (P. 1068)

POLICIES

Students should refer to one of the named options for policy information:

- Campus Program (<http://guide.wisc.edu/graduate/information/library-information-studies-ma/library-information-studies-campus-delivered-program-ma/>)
- Online Program (<http://guide.wisc.edu/graduate/information/library-information-studies-ma/library-information-studies-distance-delivered-program-ma/>)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate understanding of societal, legal, policy or ethical information issues.
2. Employ appropriate tools, standards, or best practices to organize information or information carriers for usability and access.
3. Design appropriate research methodologies to assess programs, services, or systems for inquiry or decision-making.
4. Demonstrate understanding of professional competencies important for management of information organizations.
5. Demonstrate competency with information technologies important to the information professions.
6. Apply concepts, principles, or theories learned in courses to field practice, broadly defined via a practicum, applied work experience, or practical course assignments.
7. Demonstrate an understanding of systemic inequalities surrounding information organization, use, services, or professions specifically in relation to privilege and marginalization.

PEOPLE

For a complete faculty/staff directory see this website (<https://ischool.wisc.edu/faculty-staff-directory/>).

ACCREDITATION

ACCREDITATION

American Library Association Committee on Accreditation (<http://www.ala.org/aboutala/offices/accreditation/>)

Accreditation Status: Accredited. Next Accreditation Review: 2029.

LIBRARY AND INFORMATION STUDIES: CAMPUS PROGRAM, M.A.

This is a named option within the Library and Information Studies M.A. (p. 1060)

The master's degree at the Information School (iSchool) prepares graduates to develop, provide, and assess information services that create, collect, organize, store, analyze, find, distribute, and use information in a diverse, technological, and global society. The program prepares information professionals to work in five broad, overlapping areas of the information professions.

Librarianship: Graduates obtain employment in college and university librarianship, public librarianship, youth and young adult librarianship, electronic collections management, science and health librarianship, research data management, and school library media centers.

Archives in a Digital Age (on-campus program only): Graduates obtain employment in digital asset management, digital preservation and curation, digital archives, corporate archives, government archives, special collections, and tribal libraries archives and museums.

Data/Information Management and Analytics: Graduates obtain employment in information analysis and visualization, knowledge management, prospect research, systems analysis, digital asset management, data and information governance, records management and compliance, research data management and project management.

Organization of Information: Graduates obtain employment in metadata management, taxonomy and ontology development and implementation, digital asset management, cataloging, XML and linked data, and database management.

User Experience Design and Information Technologies: Graduates obtain employment in user experience design, interaction design, systems analysis and project management, IT training, educational technology support, digital asset management and curation, content management, and database development and management.

Full-time students generally complete the master's program in two academic years with summer work; part-time students complete it in three to four years. Students gain hands-on experience as part of their degree through the school's required field practicum. Students may choose practicum settings based on their career goals.

NAMED OPTIONS

Students interested in the Master of Arts in Library and Information Studies should refer to one of the named options:

- Campus Program (p. 1063)
- Online Program (p. 1068)

OPTIONAL SPECIALIZATIONS

The Information School hosts several specializations that require specific coursework from other departments or other requirements.

Business School Graduate/Professional Certificate in Strategic Innovation: The Information School offers a specialization in information

innovation and organizational change in conjunction with the School of Business graduate/professional certificate (p. 1251) which can be completed as part of the school's M.A. degree (on-campus program only).

Certificate in Leadership: iSchool students can earn the UW–Madison Certificate in Leadership (<https://cfli.wisc.edu/leadership-certificate/>) as part of their Information School M.A. degree (on-campus and online programs).

Double degrees: The iSchool offers double degrees with the UW Law School, the School of Music, and the Department of Art History. These require separate admissions and additional coursework. (on-campus program only)

School Library Media Specialist License: The School Library Media Specialist License in the State of Wisconsin is a stand-alone teaching license. The iSchool M.A. program can be modified to provide candidates with the educational requirements for the license taken in addition to the M.A. courses. Candidates already holding a valid Wisconsin teaching license can be endorsed for the School Library Media Specialist through the iSchool MA program. UW–Madison is part of the UW System School Library Education Consortium (UWSLEEC), which is a certification-only program. Because each state has its own regulations for teacher licenses, this specialization is available to Wisconsin residents or those who will be working in Wisconsin schools only.

Online students (distance degree option) should note: Specialized courses in art, music, law and school library media specialist as well as courses offered outside the Information School that may be part of concentrations, specializations or double degrees, are generally not available online. For a distance student with academic background in one of these areas, combining the general Information School degree with the specialized background may be the best preparation.

The Information School master's program is accredited by the American Library Association, recognized by the Wisconsin Division for Libraries, Technology, and Community Learning for certification of public librarians, and recognized by the state's Department of Public Instruction for preparation of school library media specialists.

ABOUT THE INFORMATION SCHOOL PROGRAMS

The UW–Madison Information School, "the iSchool," is a professional school offering several degrees and non-credit education that prepare students for careers in the information professions:

- The iSchool M.A. degree (<https://ischool.wisc.edu/current-students/masters-degree-program/>) is a professional master's that offers five concentration areas: Librarianship, Archives in a Digital Age, Data/Information Management and Analytics, User Experience Design and Information Technologies, Organization of Information.
- The Capstone Certificate in User Experience Design (<http://hci.wisc.edu/madux/>) is an educational credential aimed at working adults who seek further education to advance their careers or move into new fields without the commitment of a full masters degree. See the Capstone Certificate Guide page here (<http://guide.wisc.edu/nondegree/capstone/user-experience-design-capstone-certificate/>).
- The Capstone Certificate in Data Analytics for Decision-Making (<https://dataanalytics.ischool.wisc.edu/>) is an educational credential aimed at working adults who seek further education to advance their careers or move into new fields without the commitment of a full

masters degree. See the Capstone Certificate Guide page here. (<http://guide.wisc.edu/nondegree/capstone/data-analytics-decision-making-capstone-certificate/>)

- The Ph.D. degree (<https://ischool.wisc.edu/programs/phd-program/>) provides advanced academic preparation for those wishing to pursue careers in academia, industrial research or policy making. See the Ph.D. Guide page here (<http://guide.wisc.edu/graduate/information/library-information-studies-phd/#text>).
- Undergraduate Digital Studies Certificate (<https://ischool.wisc.edu/programs/undergraduatedigital-studies/>) provides undergraduate coursework in information technologies and society and information management. See the Undergraduate Certificate Guide page here (<http://guide.wisc.edu/undergraduate/letters-science/communication-arts/digital-studies-certificate/>).
- The iSchool offers non-credit continuing education short courses (<https://ischool.wisc.edu/continuing-education/>) that help information professionals stay up to date.

COMMUNITY

The Information School at UW–Madison is well known for its public-good, community-engagement orientation (<https://ischool.wisc.edu/slis/community-engagement/>). It is home to student organizations that shepherd information-justice projects including the Jail Library Group, the Tribal Library Archives and Museums Group, and the Allied Drive Literacy Project. Student groups at the iSchool (<https://ischool.wisc.edu/current-students/slis-student-organizations/>) are very active and organize and sponsor events.

The iSchool Library, (<https://www.library.wisc.edu/ischool/>) whose windows overlook the shores of Lake Mendota and the oak trees of Muir Knoll, is a very popular campus space for study, group work, social events and relaxation. The Information School Library is also home to:

- RADD (<http://radd.dsalo.info/>) "Recovering Analog and Digital Data" equipment for audio/video digitization and digital-data rescue that provides fee-for-service recovery of data from a wide variety of media types.
- The Text Technologies Press: (<http://www.wiscprintdigital.org/projects/text-technologies/>) typography and letterpress printing equipment for teaching book history, book arts, design, art, and making.

RESEARCH & SCHOLARSHIP

The Information School faculty are known for scholarly work in the areas of:

- data and information policy and ethics
- user behaviors and literacies
- print culture
- library and information technology history
- electronic publishing
- information and communications technologies (ICT) and development, and transnational diaspora use of ICT
- the social aspects of ICT
- medical information and medical information technologies
- youth and new media

For more information see the iSchool Research Overview Page. (<https://ischool.wisc.edu/faculty-staff-directory/research/>)

RESEARCH COLLABORATIONS

Faculty and staff are widely involved in different research groups on campus. For example, the iSchool is home to the Center for the History of Print and Digital Culture (<http://www.wiscprintdigital.org/>), a research center focused on authorship, reading, publication, and distribution of print and digital materials. The Information School faculty members are involved with the Holtz Center for Science and Technology Studies, the Digital Humanities Research Network, the HCI+Design Group, the Wisconsin Institute for Discovery, and the Center for Financial Security.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

The school admits students to its on campus and online master's programs once a year, for fall semester. Although applications are accepted until **March 1**, priority consideration, including consideration for departmental scholarships, is given to applications received by **December 15**. After March 1, interested applicants should contact the department to ask if a late application can still be considered.

For more information on the Information School MA program, including detailed admissions instructions, please see this link (<https://ischool.wisc.edu/current-students/masters-degree-program/>).

The Graduate School requires a bachelor's degree from a regionally accredited U.S. institution, or a comparable degree from an international institution. A minimum undergraduate grade-point average (GPA) of 3.00 (on a 4.00 scale) in the last 60 earned credit hours is required.

Application evaluation criteria include academic abilities, professional promise, leadership and community engagement. An undergraduate

program that includes breadth in liberal arts and sciences is required. Any major is acceptable. Prior work experience related to information professions is useful, but is not required. The GRE is not required.

International students: TOEFL or equivalent scores are required if English is not the native language, or if the undergraduate instruction was not in English. The Information School follows UW Graduate School rules regarding English proficiency exams. See the Graduate School website (<http://grad.wisc.edu/>) for updated information. For more information about admission to the master's program, see iSchool MA Admissions. (<https://ischool.wisc.edu/current-students/masters-degree-program/>)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	36 credits
Minimum Residence Credit Requirement	30 credits
Minimum Graduate Coursework Requirement	A minimum of 30 credits must be taken from graduate-level Information School M.A. coursework; courses with the Graduate Level Coursework attribute.
Other Grade Requirements	The remaining 6 credits of coursework must be 300 level or above and may not include iSchool undergraduate coursework.
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/).
Assessments and Examinations	Within the student's total program, one grade of BC or C is allowable in either a required or elective course if it is balanced by a grade of A or AB earned prior to or concurrently with the unsatisfactory grade. A second grade of BC or C or any grade of D or F will normally result in the student being dropped from the program.
Language Requirements	Candidates must complete a minimum of a 120-hour practicum, and must complete an e-portfolio.
Language Requirements	No language requirements.

REQUIRED COURSES

Code	Title	Credits
Core 9		
<i>All three courses are required; take 602 in first semester and 601 in first or second semester. 603 can be taken at any time. (9 credits):</i>		
L I S 601	Information: Perspectives and Contexts	
L I S 602	Information: Organization and Search	
L I S 603	Research and Assessment for Information Professionals	
Tier Diversity, Equity and Inclusion (DEI)		3
<i>Choose one of the following courses (3 credits):</i>		
L I S 500	Code and Power	
L I S 629	Multicultural Literature and Resources for Children and Youth	
L I S 640	Topics in Library and Information Studies Topic Title: Services to Diverse Populations	
L I S 640	Topics in Library and Information Studies Topic Title: Tribal Libraries Archives and Museums	

Tier Management **3**

Choose one of the following courses (3 credits):

L I S 654	Information Services Management
L I S 712	The Public Library
L I S 722	College and University Libraries

Tier Technology 3

Choose one of the following courses (3 credits):

L I S 644	Digital Tools, Trends and Debates
L I S 640	Topics in Library and Information Studies <small>Only the topic "Web Development" counts.</small>
L I S 646	Introduction to Info Architecture and Interaction Design for the Web
L I S 668	Digital Curation and Collections
L I S 751	Database Design for Information Professionals
L I S 768	Digital Humanities Analytics
L I S/CURRIC/ ED PSYCH 803	Computational Research Methods

Tier LIS Fundamentals 6

Chose two of the following courses (6 credits):

L I S 615	Systems Analysis and Project Management for Information Professionals
L I S 632	Metadata Standards and XML
L I S 635	Reference and Information Service
L I S 639	Pedagogical Theory and Practice for Information Professionals
L I S 651	Cataloging and Classification
L I S 655	Collection Management
L I S/ HISTORY 734	Introduction to Archives and Records Management

Capstone 3

L I S/CURRIC 620	Field Project in Library and Information Agencies
------------------	---

E-Portfolio 0

Students are required to complete an e-portfolio prior to graduation. This is a non-credit bearing requirement.

Electives 9

Suggested courses below are based on potential concentrations. Students do not declare concentrations and may mix and match courses across areas. ^{Students} may take up to 6 credits of electives outside of the iSchool. All non-LIS electives must be approved by the student's advisor.

Digital Librarianship

L I S 646	Introduction to Info Architecture and Interaction Design for the Web
L I S 615	Systems Analysis and Project Management for Information Professionals
L I S 500	Code and Power
L I S 639	Pedagogical Theory and Practice for Information Professionals
L I S 751	Database Design for Information Professionals
L I S 668	Digital Curation and Collections

L I S 640	Topics in Library and Information Studies <small>Topic title: Web Development</small>
-----------	---

L I S 768	Digital Humanities Analytics
-----------	------------------------------

L I S/ LEGAL ST 460	Surveillance, Privacy, and Police Powers
------------------------	--

L I S 461	Data and Algorithms: Ethics and Policy
-----------	--

L I S 510	Human Factors in Information Security
-----------	---------------------------------------

L I S 661	Information Ethics and Policy
-----------	-------------------------------

Archives/Records

L I S/ HISTORY 734	Introduction to Archives and Records Management
-----------------------	---

L I S 616	Records Management
-----------	--------------------

L I S 818	Archives Accessioning and Appraisal
-----------	-------------------------------------

L I S 640	Topics in Library and Information Studies <small>Topic title: Description and Arrangement</small>
-----------	---

L I S 678	Preservation and Conservation of Library and Archives Materials
-----------	---

L I S 615	Systems Analysis and Project Management for Information Professionals
-----------	---

L I S 632	Metadata Standards and XML
<i>College and Research Libraries</i>	
L I S 722	College and University Libraries
L I S 639	Pedagogical Theory and Practice for Information Professionals
L I S 635	Reference and Information Service
L I S 651	Cataloging and Classification
L I S 632	Metadata Standards and XML
L I S 640	Topics in Library and Information Studies Topic Title: Services to Diverse Populations
L I S 655	Collection Management
L I S 661	Information Ethics and Policy
L I S 668	Digital Curation and Collections
L I S 755	Electronic Resource Management & Licensing
<i>Additional Courses</i>	
L I S 640	Topics in Library and Information Studies
L I S 855	Topics in Information Agency Management
L I S 501	Introduction to Text Mining
L I S/ HISTORY 569	History of American Librarianship
L I S/MUSIC 619	Music Research Methods and Materials
L I S/ART HIST/ HISTORY/ JOURN 650	History of Books and Print Culture in Europe and North America
L I S 652	XML and Linked Data
L I S 658	Publishing, Knowledge Institutions and Society: E-Revolutions?
L I S/ LEGAL ST 663	Introduction to Cyberlaw
L I S/ COM ARTS 705	Introductory Analytics for Decision Making
L I S 706	Data Mining Planning and Management
L I S 707	Data Visualization and Communication for Decision Making
L I S 820	Topics in Community Engagement
L I S 822	Information Use and Users
L I S 826	Field Project in Library and Information Literacy Instruction
L I S 839	Special Collections
L I S 875	Topics in Information Processing and Retrieval
L I S 879	Digital Libraries

One credit courses are offered every semester under a variety of topics under L I S 640 and L I S 855.

Total Credits

36

Students seeking school library media certification have additional required courses; for details, see <https://ischool.wisc.edu/programs/masters-degree-program/concentrations/librarianship/school-library-media-program/>.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

Students may count up to 6 credits of approved graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

With approval, UW-Madison undergraduates accepted into the Information School program may count up to 7 graduate iSchool credits (LIS 400 and above) toward their M.A. degree.

UW-Madison University Special

Students are allowed to count up to 6 approved credits of coursework numbered 400 or above taken as a UW-Madison Special Student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

This program follows the Graduate School's Probation policy (<https://policy.wisc.edu/library/UW-1217/>). Also see iSchool Student Handbook (<https://ischool.wisc.edu/current-students/ma-requirements-overview/ma-program-planning-guides/>)

ADVISOR / COMMITTEE

All continuing students are encouraged to meet with their advisor prior to registering for each semester in order to remove registration holds and ensure timely progress towards degree completion. Students may switch advisors at any time by completing a change of advisor form.

CREDITS PER TERM ALLOWED

The iSchool recommends 9 credits per semester and a maximum of 4 credits per summer term. 8 to 12 credits in a regular semester is considered full time at the graduate level. Course load maximums are 12 credits in a regular semester, 8 credits in the summer term and 3 credits in the intersession.

TIME LIMITS

The maximum period for completion of the M.A. (under special circumstances) is seven calendar years. Contact the department for more information.

This program follows the Graduate School's Time Limits policy (<https://policy.wisc.edu/library/UW-1221/>).

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

For a complete faculty/staff directory see this website (<https://ischool.wisc.edu/faculty-staff-directory/>).

LIBRARY AND INFORMATION STUDIES: ONLINE PROGRAM, M.A.

This is a named option within the Library and Information Studies M.A. (p. 1060)

The master's degree at the Information School (iSchool) prepares graduates to develop, provide, and assess information services that create, collect, organize, store, analyze, find, distribute, and use information in a diverse, technological, and global society. The program prepares information professionals to work in five broad, overlapping areas of the information professions.

Librarianship: Graduates obtain employment in college and university librarianship, public librarianship, youth and young adult librarianship, electronic collections management, science and health librarianship, research data management, and school library media centers.

Archives in a Digital Age (on-campus program only): Graduates obtain employment in digital asset management, digital preservation and curation, digital archives, corporate archives, government archives, special collections, and tribal libraries archives and museums.

Data/Information Management and Analytics: Graduates obtain employment in information analysis and visualization, knowledge management, prospect research, systems analysis, digital asset management, data and information governance, records management and compliance, research data management and project management.

Organization of Information: Graduates obtain employment in metadata management, taxonomy and ontology development and implementation, digital asset management, cataloging, XML and linked data, and database management.

User Experience Design and Information Technologies: Graduates obtain employment in user experience design, interaction design, systems analysis and project management, IT training, educational technology support, digital asset management and curation, content management, and database development and management.

Full-time students generally complete the master's program in two academic years with summer work; part-time students complete it in three to four years. Students gain hands-on experience as part of their degree through the school's required field practicum. Students may choose practicum settings based on their career goals.

NAMED OPTIONS

Students interested in the Master of Arts in Library and Information Studies should refer to one of the named options:

- Campus Program (p. 1063)
- Online Program (p. 1068)

OPTIONAL SPECIALIZATIONS

The Information School hosts several specializations that require specific coursework from other departments or other requirements.

Business School Graduate/Professional Certificate in Strategic Innovation:

The Information School offers a specialization in information innovation and organizational change in conjunction with the School of Business graduate/professional certificate (p. 1251) which can be completed as part of the school's M.A. degree (on-campus program only).

Certificate in Leadership: iSchool students can earn the UW–Madison Certificate in Leadership (<https://cfli.wisc.edu/leadership-certificate/>) as part of their Information School M.A. degree (on-campus and online programs).

Double degrees: The iSchool offers double degrees with the UW Law School, the School of Music, and the Department of Art History. These require separate admissions and additional coursework. (on-campus program only)

School Library Media Specialist License: The School Library Media Specialist License in the State of Wisconsin is a stand-alone teaching license. The iSchool M.A. program can be modified to provide candidates with the educational requirements for the license taken in addition to the M.A. courses. Candidates already holding a valid Wisconsin teaching license can be endorsed for the School Library Media Specialist through the iSchool MA program. UW–Madison is part of the UW System School Library Education Consortium (UWSSLEC), which is a certification-only program. Because each state has its own regulations for teacher licenses, this specialization is available to Wisconsin residents or those who will be working in Wisconsin schools only.

Online students (distance degree option) should note: Specialized courses in art, music, law and school library media specialist as well as courses offered outside the Information School that may be part of concentrations, specializations or double degrees, are generally not available online. For a distance student with academic background in one of these areas, combining the general Information School degree with the specialized background may be the best preparation.

The Information School master's program is accredited by the American Library Association, recognized by the Wisconsin Division for Libraries, Technology, and Community Learning for certification of public librarians, and recognized by the state's Department of Public Instruction for preparation of school library media specialists.

ABOUT THE INFORMATION SCHOOL PROGRAMS

The UW–Madison Information School, "the iSchool," is a professional school offering several degrees and non-credit education that prepare students for careers in the information professions:

- The iSchool M.A. degree (<https://ischool.wisc.edu/current-students/masters-degree-program/>) is a professional master's that offers five concentration areas: Librarianship, Archives in a Digital Age, Data/Information Management and Analytics, User Experience Design and Information Technologies, Organization of Information.
- The Capstone Certificate in User Experience Design (<http://hci.wisc.edu/madux/>) is an educational credential aimed at working adults who seek further education to advance their careers or move

into new fields without the commitment of a full masters degree. See the Capstone Certificate Guide page here (<http://guide.wisc.edu/nondegree/capstone/user-experience-design-capstone-certificate/>).

- The Capstone Certificate in Data Analytics for Decision-Making (<https://dataanalytics.ischool.wisc.edu/>) is an educational credential aimed at working adults who seek further education to advance their careers or move into new fields without the commitment of a full masters degree. See the Capstone Certificate Guide page here. (<http://guide.wisc.edu/nondegree/capstone/data-analytics-decision-making-capstone-certificate/>)
- The Ph.D. degree (<https://ischool.wisc.edu/programs/phd-program/>) provides advanced academic preparation for those wishing to pursue careers in academia, industrial research or policy making. See the Ph.D. Guide page here (<http://guide.wisc.edu/graduate/information/library-information-studies-phd/#text>).
- Undergraduate Digital Studies Certificate (<https://ischool.wisc.edu/programs/undergraduatedigital-studies/>) provides undergraduate coursework in information technologies and society and information management. See the Undergraduate Certificate Guide page here (<http://guide.wisc.edu/undergraduate/letters-science/communication-arts/digital-studies-certificate/>).
- The iSchool offers non-credit continuing education short courses (<https://ischool.wisc.edu/continuing-education/>) that help information professionals stay up to date.

COMMUNITY

The Information School at UW–Madison is well known for its public-good, community-engagement orientation (<https://ischool.wisc.edu/slis/community-engagement/>). It is home to student organizations that shepherd information-justice projects including the Jail Library Group, the Tribal Library Archives and Museums Group, and the Allied Drive Literacy Project. Student groups at the iSchool (<https://ischool.wisc.edu/current-students/slis-student-organizations/>) are very active and organize and sponsor events.

The iSchool Library, (<https://www.library.wisc.edu/ischool/>) whose windows overlook the shores of Lake Mendota and the oak trees of Muir Knoll, is a very popular campus space for study, group work, social events and relaxation. The Information School Library is also home to:

- RADD (<http://radd.dsalo.info/>) "Recovering Analog and Digital Data" equipment for audio/video digitization and digital-data rescue that provides fee-for-service recovery of data from a wide variety of media types.
- The Text Technologies Press: (<http://www.wiscprintdigital.org/projects/text-technologies/>) typography and letterpress printing equipment for teaching book history, book arts, design, art, and making.

RESEARCH & SCHOLARSHIP

The Information School faculty are known for scholarly work in the areas of:

- data and information policy and ethics
- user behaviors and literacies
- print culture
- library and information technology history
- electronic publishing
- information and communications technologies (ICT) and development, and transnational diaspora use of ICT

- the social aspects of ICT
- medical information and medical information technologies
- youth and new media

For more information see the iSchool Research Overview Page. (<https://ischool.wisc.edu/faculty-staff-directory/research/>)

RESEARCH COLLABORATIONS

Faculty and staff are widely involved in different research groups on campus. For example, the iSchool is home to the Center for the History of Print and Digital Culture (<http://www.wiscprintdigital.org/>), a research center focused on authorship, reading, publication, and distribution of print and digital materials. The Information School faculty members are involved with the Holtz Center for Science and Technology Studies, the Digital Humanities Research Network, the HCI+Design Group, the Wisconsin Institute for Discovery, and the Center for Financial Security.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

The school admits students to its on campus and online master's programs once a year, for fall semester. Although applications are accepted until **March 1**, priority consideration, including consideration for departmental scholarships, is given to applications received by **December 15**. After March 1, interested applicants should contact the department to ask if a late application can still be considered.

Note that the online program is called the "distance degree option" in all admissions forms, and students from any geographical location (including

Madison, Wisconsin) are welcome to apply. Online students cannot take face to face courses.

For more information on the Information School MA program, including detailed admissions instructions, please see this link (<https://ischool.wisc.edu/current-students/masters-degree-program/>).

The Graduate School requires a bachelor's degree from a regionally accredited U.S. institution, or a comparable degree from an international institution. A minimum undergraduate grade-point average (GPA) of 3.00 (on a 4.00 scale) in the last 60 earned credit hours is required.

Application evaluation criteria include academic abilities, professional promise, leadership and community engagement. An undergraduate program that includes breadth in liberal arts and sciences is required. Any major is acceptable. Prior work experience related to information professions is useful, but is not required. The GRE is not required.

International students: TOEFL or equivalent scores are required if English is not the native language, or if the undergraduate instruction was not in English. The Information School follows UW Graduate School rules regarding English proficiency exams. See the Graduate School website (<http://grad.wisc.edu/>) for updated information. For more information about admission to the master's program, see iSchool MA Admissions. (<https://ischool.wisc.edu/current-students/masters-degree-program/>)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM INFORMATION

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	36 credits
Minimum Residence Credit Requirement	30 credits
Minimum Graduate Coursework Requirement	A minimum of 30 credits must be taken from graduate-level Information School M.A. coursework; courses with the Graduate Level Coursework attribute. The remaining 6 credits of coursework must be 300 level or above and may not include iSchool undergraduate coursework.
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/).
Other Grade Requirements	Within the student's total program, one grade of BC or C is allowable in either a required or elective course if it is balanced by a grade of A or AB earned prior to or concurrently with the unsatisfactory grade. A second grade of BC or C or any grade of D or F will normally result in the student being dropped from the program.
Assessments and Examinations	Candidates must complete a minimum of a 120-hour practicum, and must complete an e-portfolio.
Language Requirements	No language requirements.

REQUIRED COURSES

Code	Title	Credits
Core 9		
<i>All three courses are required; take L I S 602 in first semester and L I S 601 in first or second semester. L I S 603 can be taken at any time. (9 credits):</i>		
L I S 601	Information: Perspectives and Contexts	
L I S 602	Information: Organization and Search	
L I S 603	Research and Assessment for Information Professionals	
Tier Diversity, Equity and Inclusion (DEI) 3		

Choose one of the following courses (3 credits):

L I S 500	Code and Power
L I S 629	Multicultural Literature and Resources for Children and Youth
L I S 640	Topics in Library and Information Studies <small>Topic Title: Services to Diverse Populations</small>
L I S 640	Topics in Library and Information Studies <small>Topic Title: Tribal Libraries Archives and Museums</small>

Tier Management 3

Choose one of the following courses (3 credits):

L I S 654	Information Services Management
L I S 712	The Public Library
L I S 722	College and University Libraries

Tier Technology 3

Choose one of the following courses (3 credits):

L I S 644	Digital Tools, Trends and Debates
L I S 640	Topics in Library and Information Studies <small>Only the topic "Web Development" counts.</small>
L I S 646	Introduction to Info Architecture and Interaction Design for the Web
L I S 668	Digital Curation and Collections
L I S 751	Database Design for Information Professionals
L I S 768	Digital Humanities Analytics
L I S/CURRIC/ED PSYCH 803	Computational Research Methods

Tier LIS Fundamentals 6

Chose two of the following courses (6 credits):

L I S 615	Systems Analysis and Project Management for Information Professionals
L I S 632	Metadata Standards and XML
L I S 635	Reference and Information Service
L I S 639	Pedagogical Theory and Practice for Information Professionals
L I S 651	Cataloging and Classification
L I S 655	Collection Management
L I S/HISTORY 734	Introduction to Archives and Records Management

Capstone 3

L I S/CURRIC 620	Field Project in Library and Information Agencies
------------------	---

E-Portfolio 0

Students are required to complete an e-portfolio prior to graduation. This is a non-credit bearing requirement.

Electives 9

Suggested courses below are based on potential concentrations. Students do not declare concentrations and may mix and match courses across areas. Students may take up to 6 credits of electives outside of the iSchool. All non-L I S electives must be approved by the student's advisor.

Digital Librarianship

L I S 646	Introduction to Info Architecture and Interaction Design for the Web	L I S 632	Metadata Standards and XML
L I S 615	Systems Analysis and Project Management for Information Professionals	<i>Youth</i>	
L I S 500	Code and Power	L I S 622	Childrens Literature
L I S 639	Pedagogical Theory and Practice for Information Professionals	L I S 629	Multicultural Literature and Resources for Children and Youth
L I S 751	Database Design for Information Professionals	L I S 631	Literature and Resources for Youth
L I S 668	Digital Curation and Collections	L I S 772	Library Services to Children and Young Adults
L I S 640	Topics in Library and Information Studies Topic title: Web Development	L I S 639	Pedagogical Theory and Practice for Information Professionals
L I S 768	Digital Humanities Analytics	L I S 668	Digital Curation and Collections
L I S/ LEGAL ST 460	Surveillance, Privacy, and Police Powers	L I S 755	Electronic Resource Management & Licensing
L I S 461	Data and Algorithms: Ethics and Policy	L I S 661	Information Ethics and Policy
L I S 510	Human Factors in Information Security	L I S 655	Collection Management
L I S 661	Information Ethics and Policy	L I S 635	Reference and Information Service
<i>Archives/Records</i>		L I S 632	Metadata Standards and XML
L I S/ HISTORY 734	Introduction to Archives and Records Management	<i>College and Research Libraries</i>	
L I S 616	Records Management	L I S 722	College and University Libraries
L I S 818	Archives Accessioning and Appraisal	L I S 639	Pedagogical Theory and Practice for Information Professionals
L I S 640	Topics in Library and Information Studies Topic title: Description and Arrangement	L I S 635	Reference and Information Service
L I S 678	Preservation and Conservation of Library and Archives Materials	L I S 651	Cataloging and Classification
L I S 615	Systems Analysis and Project Management for Information Professionals	L I S 632	Metadata Standards and XML
L I S 632	Metadata Standards and XML	L I S 640	Topics in Library and Information Studies Topic Title: Services to Diverse Populations
L I S 651	Cataloging and Classification	L I S 655	Collection Management
L I S 751	Database Design for Information Professionals	L I S 661	Information Ethics and Policy
<i>Public</i>		L I S 668	Digital Curation and Collections
L I S 712	The Public Library	L I S 755	Electronic Resource Management & Licensing
L I S 635	Reference and Information Service	<i>Additional Courses</i>	
L I S 651	Cataloging and Classification	L I S 640	Topics in Library and Information Studies
L I S 655	Collection Management	L I S 855	Topics in Information Agency Management
L I S 639	Pedagogical Theory and Practice for Information Professionals	L I S 501	Introduction to Text Mining
L I S/NURSING/ OCC THER 517	Digital Health: Information and Technologies Supporting Consumers and Patients	L I S/ HISTORY 569	History of American Librarianship
L I S 640	Topics in Library and Information Studies Topic title: Services to Diverse Populations	L I S/MUSIC 619	Music Research Methods and Materials
L I S 642	Reading Interests of Adults	L I S/ART HIST/ HISTORY/ JOURN 650	History of Books and Print Culture in Europe and North America
L I S 755	Electronic Resource Management & Licensing	L I S 652	XML and Linked Data
L I S 668	Digital Curation and Collections	L I S 658	Publishing, Knowledge Institutions and Society: E-Revolutions?
L I S 661	Information Ethics and Policy	L I S/ LEGAL ST 663	Introduction to Cyberlaw
		L I S/ COM ARTS 705	Introductory Analytics for Decision Making
		L I S 706	Data Mining Planning and Management

L I S 707	Data Visualization and Communication for Decision Making
L I S 820	Topics in Community Engagement
L I S 822	Information Use and Users
L I S 826	Field Project in Library and Information Literacy Instruction
L I S 839	Special Collections
L I S 875	Topics in Information Processing and Retrieval
L I S 879	Digital Libraries

One credit courses are offered every semester under a variety of topics under L I S 640 and L I S 855.

Total Credits **36**

Students seeking school library media certification have additional required courses; for details, see <https://ischool.wisc.edu/programs/masters-degree-program/concentrations/librarianship/school-library-media-program/>

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate, graduate or certificate programs.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

Students may count up to 6 credits of approved graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With approval, UW–Madison undergraduates accepted into the Information School program may count up to 7 graduate iSchool credits (LIS 400 and above) toward their M.A. degree.

UW–Madison University Special

Students are allowed to count up to 6 approved credits of coursework numbered 400 or above taken as a UW–Madison Special Student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

This program follows the Graduate School's Probation policy (<https://policy.wisc.edu/library/UW-1217/>). See also iSchool Student Handbook.

(<https://ischool.wisc.edu/current-students/ma-requirements-overview/ma-program-planning-guides/>)

ADVISOR / COMMITTEE

All continuing students are encouraged to meet with their advisor prior to registering for each semester in order to remove registration holds and ensure timely progress towards degree completion. Students may switch advisors at any time by completing a change of advisor form.

CREDITS PER TERM ALLOWED

The iSchool recommends 3 to 6 credits per semester for online students. 8 to 12 credits in a regular semester is considered full time at the graduate level.

TIME LIMITS

The maximum period for completion of the M.A. (under special circumstances) is seven calendar years. Contact the department for more information.

This program follows the Graduate School's Time Limits policy (<https://policy.wisc.edu/library/UW-1221/>).

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

PRINT CULTURE HISTORY, DOCTORAL MINOR

Since 1980 the field has generated a sizable literature, and with the establishment of this doctoral minor in 1998, the study of print culture history has found an institutional home within the University of Wisconsin–Madison's curricular structure. The Doctoral Minor in Print Culture History gives graduate students opportunities to design a curriculum around the historical study and sociology of books and print culture within their general doctoral studies. The program particularly encourages students to do original archival and special collections work in the extensive relevant holdings of the library systems of the University of Wisconsin–Madison and the Wisconsin Historical Society (<http://www.wisconsinhistory.org/>).

See the full description of the Doctoral Minor in Print Culture History (<http://www.wiscprintdigital.org/ph-d-minor/>) on the Center for the History of Print and Digital Culture website for more information.

ADMISSIONS

The Minor in Print Culture History is an interdisciplinary program functioning under the University of Wisconsin–Madison Graduate School's Option A rules (see the Graduate School Catalog, Minors) (<http://guide.wisc.edu/graduate/#doctoralminorstext>). To qualify, students will need written approval from their major advisor and from the director of the Doctoral Minor in Print Culture History.

REQUIREMENTS

Like the study of print culture itself, the minor is intentionally flexible and interdisciplinary. Students are required to take a **minimum of 12 credits** in courses whose subjects in some way address print culture, book history, or related topics. Related topics may range from the history of mass communications, cartography, literature, education, consumer movements, and library and information studies, to subjects dealing with gender, race, age, social class, and sexual orientation. Within the 12-credit minor, students are required to take at least **3 credits of seminar studies**. LIS/ART HIST/HISTORY/JOURN 650 History of Books and Print Culture in Europe and North America is *highly recommended* for 3 of the 12 credits toward the minor.

PEOPLE

For a complete faculty/staff directory see this website (<https://ischool.wisc.edu/faculty-staff-directory/>).

INSTITUTE FOR CLINICAL AND TRANSLATIONAL RESEARCH

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Clinical and Health Informatics, M.S. (p. 1074)
- Clinical Investigation, Doctoral Minor (p. 1079)
- Clinical Investigation, M.S. (p. 1080)
- Clinical Investigation, Ph.D. (p. 1084)
- Fundamentals of Clinical Research, Graduate/Professional Certificate (p. 1089)
- Implementation Science and Community Health Outcomes, Graduate/Professional Certificate (p. 1090)

CLINICAL AND HEALTH INFORMATICS, M.S.

The online Master of Science degree in Clinical and Health Informatics gives students a solid foundation in healthcare decision-making using methods developed from study of biomedical informatics, healthcare operations management, industrial systems engineering, nursing, pharmacy, and population health.

Based in UW–Madison's Institute for Clinical and Translation Research, this online graduate degree program provides students with an interdisciplinary approach to develop innovative solutions and improve current practices in health policy, clinical practice, data security, and biomedical and health information systems.

The program is designed to serve professionals for clinical or information technology-related work in the healthcare industry. Graduates will be ready to meet the growing workforce demand for informaticists.

Further detail, including tuition and costs, is provided here (<https://pdc.wisc.edu/degrees/clinical-health-informatics/>).

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum

requirements (<https://grad.wisc.edu/apply/requirements/>) of the **Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	July 15
Spring Deadline	December 15
Summer Deadline	April 15
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	2

PROGRAM ADMISSION

Applicants to our Master of Science degree program must meet the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) of the UW-Madison Graduate School, as well as those of our CHI program:

- Personal Statement - Tell us more about you, your interest in this profession, and why you wish to earn a graduate degree in CHI. You may also note any (or none) of the following information:
 - What will make you successful in CHI graduate program coursework?
 - What challenges do you anticipate facing while being a graduate student? What support might you need?
 - What unusual circumstances would you like considered when faculty review your application? This may include reasons for past academic performance, career changes, life challenges, etc.
- CV/Resume
- 2 letters of recommendation
- Successful completion of a college level statistics course, analytical/computational course, or equivalent work experience

While not required, you will benefit from having:

- work experience in information technology, statistics, computer science, health care, or similar field(s) – or are highly motivated to pursue a career change
- a focused area of interest in informatics, data analytics, clinical care or research, health information technology or similar fields

Contact learn@ictr.wisc.edu if you have any questions, check out the Graduate School's Admissions FAQ (<https://grad.wisc.edu/apply/>) page, or complete the online application (<https://grad.wisc.edu/apply/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM INFORMATION

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

You may, however, qualify for a fee grant for the application fee. <https://grad.wisc.edu/apply/fee-grant/>

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
No	No	Yes	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements	Detail
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	18 credits

Minimum Graduate Coursework Requirement	15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/).
Other Grade Requirements	None.
Language Requirements	None.
Assessments and Examinations	The program assessments are in the form of case study presentations and strategic planning for data analysis and feedback. During the final semester, students complete a final project in the capstone course. The summative project is assessed for meeting required competencies.

REQUIRED COURSES

Code	Title	Credits
B M I 573	Foundations of Data-Driven Healthcare	3
E P D 706	Change Management	1
I SY E 557	Human Factors Engineering for Healthcare Systems	3

MEDICINE 750	Capstone Project in Clinical and Health Informatics	3
Total Credits		30

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate, graduate or certificate programs.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree

program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES PRIOR COURSEWORK

Graduate Work from Other Institutions

If applicable to the program completing, and with program approval, students are allowed to count no more than 12 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to the master's degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

If applicable to the program completing and with program approval, 6 credits of coursework numbered 300 or above from a UW-Madison undergraduate degree are allowed to count toward the degree. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison University Special

With program approval, students are allowed to count no more than 12 credits of coursework numbered 300 or above taken as a UW-Madison special student. If necessary to meet the Graduate School minimum graduate credit requirements for the degree, special student coursework may need to be converted to graduate credits. Once converted, students are assessed the difference in tuition between special and graduate tuition. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

This program follows the Graduate School's Probation policy (<https://policy.wisc.edu/library/UW-1217/>).

ADVISOR / COMMITTEE

An advisor is assigned to incoming students and will work with students individually to ensure they are making satisfactory progress toward a degree.

CREDITS PER TERM ALLOWED

12 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy (<https://policy.wisc.edu/library/UW-1221/>).

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and

conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)

- Employee Disability Resource Office (<https://employeeabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (<https://intranet.med.wisc.edu/>).

Exclusions

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/>) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and Postdoctoral Research Associates (<https://research.wisc.edu/kb-article/?id=84924>).

Requirements for Programs

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree,

professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures for other types of possible grievances and are supported throughout the reporting process. Resources (<https://grad.wisc.edu/current-students/#reporting-incidents>) on identifying and reporting other issues have been compiled by the Graduate School.

Procedures

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.
4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.
5. On receipt of a written grievance, the following steps will occur. The final step must be completed within 30 business days from the date the grievance was received. The program must store documentation of the grievance for seven years. Significant grievances that set a precedent may be stored indefinitely.
 - a. The grievance advisor or program director will convene a faculty committee composed of at least three members to manage the grievance. Any faculty member involved in the grievance or who feels that they cannot be impartial may not participate in the committee. Committee composition should reflect diverse viewpoints within the program.
 - b. The faculty committee, through the grievance advisor or program director, will obtain a written response from the person or persons toward whom the grievance is directed. The grievance advisor or program director will inform this person that their response will be shared with the student filing the grievance.
 - c. The grievance advisor or program director will share the response with the student filing the grievance.
 - d. The faculty committee will make a decision regarding the grievance. The committee's review shall be fair, impartial, and timely. The grievance advisor or program director will report on the action taken by the committee in writing to both the student and the person toward whom the grievance was directed.

6. If either party (the student or the person or persons toward whom the grievance is directed) is unsatisfied with the decision of the program's faculty committee, the party may file a written appeal to the SMPH senior associate dean for basic research, biotechnology and graduate studies within 10 business days from the date of notification of the program's faculty committee. The following steps will occur:
 - a. The grievant will be notified in writing, within 5 business days of the written appeal, acknowledging receipt of the formal appeal and establishing a timeline for the review to be completed.
 - b. The senior associate dean or their designee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the senior associate dean or their designee will meet with both the grievant and the person or persons toward whom the grievance is directed.
 - c. The senior associate dean or their designee will assemble an ad hoc committee of faculty from outside of the student's graduate program and ask them to prepare a written recommendation on whether to uphold or reverse the decision of the program on the student's initial grievance. The committee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the committee will meet with both the grievant and the person or persons toward whom the grievance is directed.
 - d. The senior associate dean or their designee will make a final decision within 20 business days of receipt of the committee's recommendation.
 - e. The SMPH Office of Basic Research, Biotechnology, and Graduate Studies must store documentation of the grievance for seven years. Grievances that set a precedent may be stored indefinitely.
7. The student may file an appeal of the School of Medicine and Public Health decision with the Graduate School. See the Grievances and Appeals section of the Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Time Limits

Steps in the grievance procedures must be initiated and completed within the designated time periods except when modified by mutual consent. If the student fails to initiate the next step in the grievance procedure within the designated time period, the grievance will be considered resolved by the decision at the last completed step.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Health: Describe and explain background knowledge of the history, goals, methods and challenges of the major health sciences, including human biology, genomics, clinical and translational science, healthcare delivery, personal health and population health.
2. Information Science and Technology: Demonstrate background knowledge of concepts, terminology, methods and tools of information science and technology for managing and analyzing data, information and knowledge.
3. Social and Behavioral Science: Evaluate the effects of social, behavioral, legal, psychological, management, cognitive, and economic theories, methods, and models applicable to health informatics from multiple levels including individual, social group, and society.
4. Health Information Science and Technology: Determine concepts and recognize tools for managing and analyzing biomedical and health data, information, and knowledge. Key foci include systems design and development, standards, integration, interoperability, and protection of biomedical and health information.
5. Human Factors and Socio-technical Systems: Apply social behavioral theories and human factors engineering to better understand the interaction between users and information technologies within the organizational, social, and physical contexts of their lives, and apply this understanding in information system design.
6. Social and Behavioral Aspects of Health: Evaluate and apply social determinants of health and patient-generated data to analyze problems arising from health or disease, to recognize the implications of these problems on daily activities, and to recognize and/or develop practical solutions to managing these problems.
7. Social, Behavioral, and Information Science and Technology Applied to Health: Appraise the diverse foundation concepts and facets in order to develop integrative approaches to the design, implementation, and evaluation of health informatics solutions.
8. Professionalism: Demonstrate conduct that reflects the aims or qualities that characterize a professional person encompassing especially a defined body of knowledge and skills and their lifelong maintenance as well as adherence to an ethical code.
9. Interprofessional Collaborative Practice: Exhibit behavior that reflects the foundations of values/ethics, roles/responsibilities, interprofessional communication practices, and interprofessional teamwork for team-based practice.
10. Leadership: Demonstrate the following characteristics: credibility, honest, competence, ability to inspire, and ability to formulate and communicate a vision.

PEOPLE

PROGRAM STAFF:

- Jack Champeau, MSM, Professional Programs Director, Clinical and Health Informatics
- Rachel Sauer, MS, Student Services and Program Coordinator, Clinical and Health Informatics

FACULTY MENTORS:

- Elizabeth S Burnside, MD, MPH, MS, Professor, Radiology, Associate Dean of Team Science and Interdisciplinary Research, Deputy

Executive Director for the Institute for Clinical and Translational Research

- Jomol Mathew, PhD, Chief of Biomedical Informatics, Director of the UW Clinical & Health Informatics Institute, Visiting Associate Professor of Population Health Sciences
- Heidi Twedt, MD, Clinical Professor, Department of Medicine, Academic Director of Clinical & Health Informatics

FACULTY CONTRIBUTORS:

- Barbara J Pinekenstein, DNP, RN-BC, FAAN, Clinical Professor, Richard E. Sinaiko Professor in Health Care Leadership
- Chris Sorkness, RPh, PharmD, Distinguished Professor of Pharmacy and Medicine, Senior Associate Executive Director, Workforce Development
- Jack Temple, PharmD, MS, Director, Pharmacy Business Services and Informatics
- Mark W Craven, PhD, Professor, Departments of Biostatistics and Medical Informatics and Computer Science
- Nicole E Werner, PhD, Harvey D. Spangler Assistant Professor, Industrial and Systems Engineering
- Pamela A Mcgranahan, DNP, RN, Clinical Assistant Professor, DNP Program Director
- Robert Batt, MBA, PhD, Associate Professor, Operations and Information Management, Johnson School of Business
- Linsey Steege, PhD, Associate Dean for Research, Associate Professor, and Gulbrandsen Chair in Health Informatics & Systems Innovation
- Ying (Jessica) Cao, PhD, Assistant Professor, Department of Population Health Sciences

CLINICAL INVESTIGATION, DOCTORAL MINOR

Doctoral students in engineering, nursing, veterinary medicine, and other disciplines can declare a focus in Clinical and Translational Science (<https://ictr.wisc.edu/documents/gpci-minor-declaration-form/>) by earning the doctoral minor in Clinical Investigation to learn about applications of research to clinical disciplines. The minor provides students with foundational training in interdisciplinary clinical research, while emphasizing a scientific area of graduate study.

Students should be aware that:

- No course that counts for the major can also count for the minor. Frequently this means that students have to take two ethics courses—one for the major and one for the minor. The point of the minor focus is to add breadth to the student's coursework.

Important Note: For students who are funded by the TL1 Predoctoral Training Program, the minor requires additional training as described on the TL1 website (<https://ictr.wisc.edu/career-development-awards-2/>).

ADMISSIONS

All graduate students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor,

please log in to MyUW, click on Graduate Student Portal, and then click on Add/Change programs.

Students should also submit a form (<https://ictr.wisc.edu/documents/gpci-minor-declaration-form/>) to declare the doctoral minor in Clinical Investigation. The program director will review your application for admittance, and reach out to you if there are any further questions.

REQUIREMENTS

The minor requires 9 credits. Note: For students who are funded by the TL1 Predoctoral Training Program, the minor requires additional training as described on the TL1 website (<https://ictr.wisc.edu/career-development-awards-2/>).

Code	Title	Credits

ED PSYCH 771	Test Construction	

PEOPLE

Students earning a doctoral degree in related science, with a focus on Clinical and Translational Science (PhD^{CTS}) have several faculty mentors to choose from, including but not limited to faculty in the Graduate Program in Clinical Investigation. Please peruse the faculty and their research here (<https://ictr.wisc.edu/graduate-program-in-clinical-investigation/>).

CLINICAL INVESTIGATION, M.S.

Clinical investigation is a field in which teams of health care professionals, biostatisticians and others imagine, design, and conduct clinical research, and then take discoveries to human or animal patient populations in the health care system or in communities.

The graduate program in clinical investigation (GPCI) offers a M.S. degree. The focus of GPCI is to provide physicians, clinical scientists, and other health care professionals with the knowledge and skills needed to conduct and translate basic science discoveries into clinical applications through patient (human or animal)-oriented research. The M.S. program trains students to help move research toward solutions for patient populations more quickly.

Applicants ideally have a health professional degree (M.D., DVM, Pharm.D., Ph.D., BSN, BSE, MPT, DPT). Clinical Investigation students are unique among UW-Madison graduate students because they enter the program with a terminal degree (with exceptions) and they are seeking training to directly apply their work with patients.

Full-time and part-time enrollment is available. Most courses meet at 4 p.m. or later, to accommodate the schedules of working health professionals.

The curriculum draws from existing courses in the partner schools, and includes new courses developed exclusively for the GPCI. Coursework provides a solid foundation in research methods and analysis, including biostatistics, study design, and ethical conduct. Through electives and a research requirement, students pursue their own areas of specialization in patient-oriented clinical research.

Representatives from the Schools of Medicine and Public Health, Nursing, Pharmacy and Veterinary Medicine, and the College of Engineering gathered in 2006 and designed the program. They are joined by partner Marshfield Clinic as members of the faculty executive committee that guides the program.

GPCI is housed in the UW Institute for Clinical and Translational Research (ICTR) and is designed in response to a need for clinical research training programs. The ICTR Clinical and Translational Science Award (CTSA) facilitates UW-Madison's ability to offer a spectrum of graduate programs in clinical research. This applied, clinical, and translational graduate program complements the areas of clinical research training by the population health sciences, nursing, and other graduate programs.

The knowledge and skills acquired while earning a degree in clinical investigation can be applied to jobs in academic institutions; private industry, including pharmaceutical companies, insurers and managed care

organizations; government agencies; non-profit organizations; and a range of local to international organizations.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	February 1
Spring Deadline	October 1
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

The program accepts applications each February 1 for the M.S. for the fall term only. Admissions outside of this deadline are rarely made and only with approval of the Director of Graduate Studies.

The faculty executive committee for the program considers all aspects of each application. The applicant must meet the minimum requirements of the Graduate School plus those of the program, listed here:

- Have a focused area of interest in patient-oriented clinical research and a passion for continuing in a career in patient-oriented translational and/or clinical research.
- Ideally have a health professional degree (M.D., DVM, Pharm.D., Ph.D., BSN, BSE, MPT, DPT).
- Identify a primary advisor to mentor and support the applicant throughout graduate study.

Acceptance into the program will depend in part on identification of a research program that aligns with a student's research interests and career goals, a student's fit with the program and likelihood of successfully completing a graduate degree. Identification of a faculty advisor and research area of study is a key consideration in the admissions process but does not guarantee admission.

Acceptance into the program does not assure funding.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	Yes	No	Yes	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement 30 credits

Minimum Residence Credit Requirement 16 credits

Minimum Graduate Coursework Requirement 15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (<https://policy.wisc.edu/library/UW-1244> (<https://policy.wisc.edu/library/UW-1244/>)).

Overall Graduate GPA Requirement 3.00 GPA required. This program follows the Graduate School's GPA Requirement policy (<https://policy.wisc.edu/library/UW-1203> (<https://policy.wisc.edu/library/UW-1203/>)).

Other Grade Requirements Students must earn a B or above in all core curriculum coursework.

Assessments and Examinations Defense of M.S. thesis required. The thesis is submitted in writing to the degree committee two weeks prior to the defense date; the thesis is defended verbally during the defense meeting.

Language Requirements No language requirements.

REQUIRED COURSES

Code	Title	Credits
Required Courses		
Students complete the following courses.		
B M I/STAT 542	Introduction to Clinical Trials I	
POP HLTH/ SOC 797	Introduction to Epidemiology	
NURSING/ MEDICINE/ POP HLTH 705	Seminar in Interdisciplinary Clinical Research Evidence	
H ONCOL 750	Multi-disciplinary Patient-Oriented Research Presentation Skills Seminar	

Biostatistics Requirement

Students complete 3-6 credits to fulfill this requirement. Course selections are listed below.

B M I/STAT 541	Introduction to Biostatistics
B M I/ POP HLTH 551	Introduction to Biostatistics for Population Health and Regression Methods for
POP HLTH 552	Population Health ¹
B M I 699	Independent Study ²

Clinical Translational Science Requirement

Students complete 3-credits to fulfill this requirement. Course selections are listed below.

B M I 544	Introduction to Clinical and Healthcare Research II
B M I 773	Clinical Research Informatics
POP HLTH 709	Translational and Outcomes Research in Health and Health Care

Research Design Requirement

CTS, stat, or methods courses. Students complete 3-credits to fulfill this requirement. Course must note 50% graduate student attribute. Possible course selections are listed below. For additional options, request approval from the program administrator.

SOC/ C&E SOC 361	Statistics for Sociologists II
B M I/ POP HLTH 552	Regression Methods for Population Health
B M I/ SY E 617	Health Information Systems
B M I/ COMP SCI 567	Medical Image Analysis

B M I/ POP HLTH 651	Advanced Regression Methods for Population Health
B M I/STAT 741	Survival Analysis Theory and Methods
B M I/ COMP SCI 767	Computational Methods for Medical Image Analysis
B M I/ COMP SCI 771	Learning Based Methods for Computer Vision
B M I/ COMP SCI 775	Computational Network Biology
B M I/COMP SCI/ PSYCH 841	Computational Cognitive Science
NURSING 804	Advanced Qualitative Design and Methods
CURRIC/ COUN PSY/ ED POL/ ED PSYCH/ELPA/ RP & SE 719	Introduction to Qualitative Research
ED PSYCH 761	Statistical Methods Applied to Education II
ED PSYCH 771	Test Construction

Responsible Conduct of Research Requirement

Students complete one of the following courses to fulfill this requirement.

MED PHYS 701	Ethics and the responsible conduct of research and practice of Medical Physics (Students complete one ethical conduct of research selected from the following list or an equivalent course approved by the executive committee:)
ONCOLOGY 715	Ethics in Science
PHARMACY 800	Research Ethics: Scientific Integrity and the Responsible Conduct of Research
NURSING 802	Ethics and the Responsible Conduct of Research
SURG SCI 812	Research Ethics and Career Development
OBS&GYN 955	Responsible Conduct of Research for Biomedical Graduate Students
OBS&GYN 956	Advanced Responsible Conduct of Research for Biomedical Students

Research or Elective Courses

Additional courses or research credits (e.g., MED 990)

Total Credits **30**

1

Students who complete this 6-credit sequence are required to take fewer research credits to compensate.

2

The 1-credit B M I 699 Independent Study is for students with instructor consent who have prior statistics (no biostatistics coursework). Students who take this option must also complete 2 credits of another biostatistics course chosen in consultation with the program faculty director.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

This program follows the Graduate School's policy for Satisfying Requirements with Prior Graduate Coursework from Other Institutions. (<https://policy.wisc.edu/library/UW-1216/>)

UW-Madison Undergraduate

No credits from a UW-Madison undergraduate degree are allowed to count toward the degree.

UW-Madison University Special

Because the program provides flexibility to clinical professionals who frequently begin their graduate careers part time as Special students, this program follows the Graduate School's policy for Transfer from UW-Madison University Special Student Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

M.S. students select their faculty advising (degree) committees by the end of the first year in the program. Students and the advisors who sign the form are asked to meet annually or more.

CREDITS PER TERM ALLOWED

12 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)

- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (<https://intranet.med.wisc.edu/>).

Exclusions

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/>) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and Postdoctoral Research Associates (<https://research.wisc.edu/kb-article/?id=84924>).

Requirements for Programs

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response

process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures for other types of possible grievances and are supported throughout the reporting process. Resources (<https://grad.wisc.edu/current-students/#reporting-incidents>) on identifying and reporting other issues have been compiled by the Graduate School.

Procedures

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.
4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.
5. On receipt of a written grievance, the following steps will occur. The final step must be completed within 30 business days from the date the grievance was received. The program must store documentation of the grievance for seven years. Significant grievances that set a precedent may be stored indefinitely.
 - a. The grievance advisor or program director will convene a faculty committee composed of at least three members to manage the grievance. Any faculty member involved in the grievance or who feels that they cannot be impartial may not participate in the committee. Committee composition should reflect diverse viewpoints within the program.
 - b. The faculty committee, through the grievance advisor or program director, will obtain a written response from the person or persons toward whom the grievance is directed. The grievance advisor or program director will inform this person that their response will be shared with the student filing the grievance.
 - c. The grievance advisor or program director will share the response with the student filing the grievance.
 - d. The faculty committee will make a decision regarding the grievance. The committee's review shall be fair, impartial, and timely. The grievance advisor or program director will report on the action taken by

the committee in writing to both the student and the person toward whom the grievance was directed.

6. If either party (the student or the person or persons toward whom the grievance is directed) is unsatisfied with the decision of the program's faculty committee, the party may file a written appeal to the SMPH senior associate dean for basic research, biotechnology and graduate studies within 10 business days from the date of notification of the program's faculty committee. The following steps will occur:
 - a. The grievant will be notified in writing, within 5 business days of the written appeal, acknowledging receipt of the formal appeal and establishing a timeline for the review to be completed.
 - b. The senior associate dean or their designee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the senior associate dean or their designee will meet with both the grievant and the person or persons toward whom the grievance is directed.
 - c. The senior associate dean or their designee will assemble an ad hoc committee of faculty from outside of the student's graduate program and ask them to prepare a written recommendation on whether to uphold or reverse the decision of the program on the student's initial grievance. The committee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the committee will meet with both the grievant and the person or persons toward whom the grievance is directed.
 - d. The senior associate dean or their designee will make a final decision within 20 business days of receipt of the committee's recommendation.
 - e. The SMPH Office of Basic Research, Biotechnology, and Graduate Studies must store documentation of the grievance for seven years. Grievances that set a precedent may be stored indefinitely.
7. The student may file an appeal of the School of Medicine and Public Health decision with the Graduate School. See the Grievances and Appeals section of the Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Time Limits

Steps in the grievance procedures must be initiated and completed within the designated time periods except when modified by mutual consent. If the student fails to initiate the next step in the grievance procedure within the designated time period, the grievance will be considered resolved by the decision at the last completed step.

OTHER

Full time Ph.D. students and dual degree students are eligible for NIH funding. Students must obtain a faculty adviser, and write a detailed personal statement that demonstrates working knowledge of clinical and/or translational research. No rotations are offered.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

See the ICTR website (<https://ictr.wisc.edu/>) for more information.

LEARNING OUTCOMES

1. Lead to translation of research among the laboratory, clinic and population through technological or systems innovations, including but not limited to drug therapies, medical devices, biological materials, clinical processes, and/or behavioral interventions.
2. Are appropriately patient-oriented.
3. Draw on the expertise of collaborators in multiple disciplines.
4. Integrate clinical and translational science across multiple departments, schools and colleges, clinical and research institutes, and healthcare delivery organizations.
5. Determine when it is appropriate to use a patient-oriented research design to investigate a translational clinical problem.
6. Understand the principles of multidisciplinary patient-oriented clinical research protocols.
7. Analyze, interpret and report research findings of clinical studies through peer-reviewed scientific channels and to a lay audience.
8. Apply and foster professional, ethical and responsible conduct of clinical research.

PEOPLE

Faculty

CLINICAL INVESTIGATION, PH.D.

Clinical investigation is a field in which teams of health care professionals, biostatisticians and others imagine, design, and conduct clinical research, and then take discoveries to human or animal patient populations in the health care system or in communities.

The focus of the Ph.D. in Clinical Investigation is to enable translational competency among team leaders. In other words, the graduate program trains students to help move research toward solutions for patient populations more quickly. The Ph.D. is one of fewer than 10 offered in the country with this focus.

Applicants ideally will have a health professional degree (M.D., DVM, Pharm.D., Ph.D., BSN, BSE, MPT, DPT). Clinical Investigation students are unique among UW-Madison graduate students because they enter the program with a terminal degree (with exceptions) and they are seeking training to directly apply their work with patients.

Full-time and part-time enrollment is available. Most core courses meet at 4 p.m. or later, to accommodate the schedules of working health professionals.

The graduate program in clinical investigation (GPCI) that offers the Ph.D. is housed in the UW Institute for Clinical and Translational Research (ICTR) and is designed in response to a need for clinical research training programs. The ICTR Clinical and Translational Science Award (CTSA) facilitates UW–Madison’s ability to offer a spectrum of graduate programs in clinical research. This applied, clinical and translational graduate program complements the areas of clinical research training by the population health sciences, nursing, and other graduate programs.

Representatives from the schools of Medicine and Public Health, Nursing, Pharmacy, and Veterinary Medicine, and the College of Engineering met as a task force in 2006 to design the program. All ICTR academic partners are represented in the curriculum. They are joined by partner Marshfield Clinic as members of the faculty executive committee that guides the program.

The curriculum draws from existing courses in the partner schools, and includes new courses developed exclusively for the GPCI. Coursework provides a solid foundation in research methods and analysis, including biostatistics, study design, and ethical conduct. Through electives and a research requirement, students pursue their own areas of specialization in patient-oriented clinical research.

The knowledge and skills acquired while earning a degree in clinical investigation can be applied to jobs in academic institutions; private industry, including pharmaceutical companies, insurers and managed care organizations; government agencies; non-profit organizations; and a range of local to international organizations.

ADMISSIONS

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Prospective Ph.D. students should see the program website (<https://ictr.wisc.edu/graduate-program-in-clinical-investigation/>) for funding information.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	Yes	No	Yes	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	26 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/).
Other Grade Requirements	Students must earn a B or above in all core curriculum coursework.
Assessments and Examinations	Oral preliminary exam required. Defense of Ph.D. dissertation required. The dissertation is submitted in writing to the degree committee two weeks prior to the defense date, and then defended verbally during the defense meeting.
Language Requirements	No language requirements.
Graduate School Breadth Requirement	Doctoral students in Clinical Investigation are not required to complete a doctoral minor or graduate/professional certificate. Breadth is achieved in other areas of the curriculum.

REQUIRED COURSES

Code	Title	Credits
Required Courses		
Students complete the following courses.		
B M I/STAT 542	Introduction to Clinical Trials I	
POP HLTH 709	Translational and Outcomes Research in Health and Health Care	
POP HLTH/ SOC 797	Introduction to Epidemiology	
NURSING/ MEDICINE/ POP HLTH 705	Seminar in Interdisciplinary Clinical Research Evidence	
H ONCOL 750	Multi-disciplinary Patient-Oriented Research Presentation Skills Seminar	
Biostatistics Requirement		
Students complete 3-6 credits to fulfill this requirement. Course selections are listed below.		
B M I/STAT 541	Introduction to Biostatistics	
B M I/ POP HLTH 551	Introduction to Biostatistics for Population Health and Regression Methods for	
POP HLTH 552	Population Health ¹	
B M I 699	Independent Study ²	
Clinical Translational Science Requirement		
Students complete 3-credits to fulfill this requirement. Course selections are listed below.		
B M I 544	Introduction to Clinical and Healthcare Research II	
B M I 773	Clinical Research Informatics	
Research Design Requirement		
CTS, stat, or methods courses. Students complete 6-credits to fulfill this requirement. Course must note 50% graduate student attribute. Possible course selections are listed below. For additional options, request approval from the program administrator.		
SOC/ C&E SOC 361	Statistics for Sociologists II	
B M I/ POP HLTH 552	Regression Methods for Population Health	
B M I/I SY E 617	Health Information Systems	
B M I/ POP HLTH 651	Advanced Regression Methods for Population Health	
B M I/STAT 741	Survival Analysis Theory and Methods	
B M I/ COMP SCI 767	Computational Methods for Medical Image Analysis	
B M I/ COMP SCI 771	Learning Based Methods for Computer Vision	
B M I/ COMP SCI 775	Computational Network Biology	
B M I/COMP SCI/ PSYCH 841	Computational Cognitive Science	
NURSING 804	Advanced Qualitative Design and Methods	

CURRIC/
COUN PSY/

ED PSYCH/ELPA/
RP & SE 719

Introduction to Qualitative Research

ED PSYCH 761 Statistical Methods Applied to
Education II

ED PSYCH 771 Test Construction

Grant Writing Requirement

Students complete one course to fulfill this requirement. Course must note 50% graduate student attribute. Possible course selections are listed below. For additional options, request approval from the program administrator.

S&A PHM 701 Grant Writing for Health Services
Research

CS&D 900 Seminar-Speech Science (Topic:
Research Career Development
Seminar on Grant Writing)

Responsible Conduct for Research Requirement

Students complete one of following courses to fulfill this requirement.

MED PHYS 701 Ethics and the responsible conduct
of research and practice of Medical
Physics

ONCOLOGY 715 Ethics in Science

PHARMACY 800 Research Ethics: Scientific Integrity
and the Responsible Conduct of
Research

NURSING 802 Ethics and the Responsible Conduct
of Research

SURG SCI 812 Research Ethics and Career
Development

OBS&GYN 955 Responsible Conduct of Research
for Biomedical Graduate Students

OBS&GYN 956 Advanced Responsible Conduct of
Research for Biomedical Students

Research or Elective Courses

Additional courses or research credits (e.g., MED 990)

Total Credits **51**

1

Students who complete this 6-credit sequence are required to take fewer research credits to compensate.

2

The 1-credit B M I 699 Independent Study is for students with instructor consent who have prior statistics (no biostatistics coursework). Students who take this option must also complete 2 credits of another biostatistics course chosen in consultation with the program faculty director.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree

program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

This program follows the Graduate School's policy for Satisfying Requirements with Prior Graduate Coursework from Other Institutions (<https://policy.wisc.edu/library/UW-1216/>).

UW-Madison Undergraduate

No credits from a UW-Madison undergraduate degree are allowed to count toward the degree.

UW-Madison University Special

Because the program provides flexibility to clinical professionals who frequently begin their graduate careers part time as Special students, this program follows the Graduate School's policy for Transfer from UW-Madison University Special Student Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

Ph.D. students select their faculty advising (degree) committees by the end of the first year in the program. Students and the advisors who sign the Proposed Degree Committee form are asked to meet annually or more; dissertators (post-preliminary exam) twice a year or more.

CREDITS PER TERM ALLOWED

12 credits

TIME LIMITS

Doctoral students are expected to pass the final oral examination and deposit the dissertation no later than five years from the date of passing the preliminary examination. The oral examination is the oral defense of the completed dissertation. Full-time students generally complete the dissertation within two years of the preliminary examination. Part-time students may take longer.

Doctoral degree students who have been absent for ten or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)

- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeeabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (<https://intranet.med.wisc.edu/>).

Exclusions

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/>) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and Postdoctoral Research Associates (<https://research.wisc.edu/kb-article/?id=84924>).

Requirements for Programs

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response

process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures for other types of possible grievances and are supported throughout the reporting process. Resources (<https://grad.wisc.edu/current-students/#reporting-incidents>) on identifying and reporting other issues have been compiled by the Graduate School.

Procedures

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.
4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.
5. On receipt of a written grievance, the following steps will occur. The final step must be completed within 30 business days from the date the grievance was received. The program must store documentation of the grievance for seven years. Significant grievances that set a precedent may be stored indefinitely.
 - a. The grievance advisor or program director will convene a faculty committee composed of at least three members to manage the grievance. Any faculty member involved in the grievance or who feels that they cannot be impartial may not participate in the committee. Committee composition should reflect diverse viewpoints within the program.
 - b. The faculty committee, through the grievance advisor or program director, will obtain a written response from the person or persons toward whom the grievance is directed. The grievance advisor or program director will inform this person that their response will be shared with the student filing the grievance.
 - c. The grievance advisor or program director will share the response with the student filing the grievance.
 - d. The faculty committee will make a decision regarding the grievance. The committee's review shall be fair, impartial, and timely. The grievance advisor or program director will report on the action taken by

the committee in writing to both the student and the person toward whom the grievance was directed.

6. If either party (the student or the person or persons toward whom the grievance is directed) is unsatisfied with the decision of the program's faculty committee, the party may file a written appeal to the SMPH senior associate dean for basic research, biotechnology and graduate studies within 10 business days from the date of notification of the program's faculty committee. The following steps will occur:
 - a. The grievant will be notified in writing, within 5 business days of the written appeal, acknowledging receipt of the formal appeal and establishing a timeline for the review to be completed.
 - b. The senior associate dean or their designee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the senior associate dean or their designee will meet with both the grievant and the person or persons toward whom the grievance is directed.
 - c. The senior associate dean or their designee will assemble an ad hoc committee of faculty from outside of the student's graduate program and ask them to prepare a written recommendation on whether to uphold or reverse the decision of the program on the student's initial grievance. The committee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the committee will meet with both the grievant and the person or persons toward whom the grievance is directed.
 - d. The senior associate dean or their designee will make a final decision within 20 business days of receipt of the committee's recommendation.
 - e. The SMPH Office of Basic Research, Biotechnology, and Graduate Studies must store documentation of the grievance for seven years. Grievances that set a precedent may be stored indefinitely.
7. The student may file an appeal of the School of Medicine and Public Health decision with the Graduate School. See the Grievances and Appeals section of the Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Time Limits

Steps in the grievance procedures must be initiated and completed within the designated time periods except when modified by mutual consent. If the student fails to initiate the next step in the grievance procedure within the designated time period, the grievance will be considered resolved by the decision at the last completed step.

OTHER

Full-time Ph.D. students and dual degree students are eligible for NIH funding. Students must obtain a faculty adviser, and write a detailed personal statement that demonstrates working knowledge of clinical and/or translational research. No rotations are offered.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

See the ICTR website (<https://ictr.wisc.edu/>) for more information.

LEARNING OUTCOMES

1. Lead to translation of research among the laboratory, clinic and population through technological or systems innovations, including but not limited to drug therapies, medical devices, biological materials, clinical processes, and/or behavioral interventions.
2. Are appropriately patient-oriented.
3. Draw on the expertise of collaborators in multiple disciplines.
4. Integrate clinical and translational science across multiple departments, schools and colleges, clinical and research institutes, and healthcare delivery organizations.
5. Determine when it is appropriate to use a patient-oriented research design to investigate a translational clinical problem.
6. Analyze, interpret and report research findings of clinical studies through peer-reviewed scientific channels and to a lay audience.
7. Disseminate knowledge through teaching and mentoring students/trainees.
8. Apply and foster professional, ethical and responsible conduct of clinical research.

PEOPLE

Faculty (<https://ictr.wisc.edu/graduate-program-in-clinical-investigation/>)

FUNDAMENTALS OF CLINICAL RESEARCH, GRADUATE/PROFESSIONAL CERTIFICATE

To conduct patient-oriented clinical studies adequately, it is necessary to understand the principles of research design and statistical analysis. With increasing complexities in clinical research, it is imperative that clinical researchers receive a minimum training in clinical research methods. The objective of the certificate in the fundamentals of clinical research is to provide formalized training in clinical research methodology and a practicum in research design and statistical analysis in patient-oriented clinical research. Areas of study include: biostatistics, epidemiology, research ethics and the responsible conduct of research, and clinical trials design and implementation.

ADMISSIONS

Applications to the certificate program are considered on a rolling basis. Students in graduate or professional school at the UW–Madison simply apply in time to register for the semester in which they want to start the certificate courses.

Submit the Graduate or Professional Certificate application (<https://ictr.wisc.edu/documents/professional-certificate-in-the-fundamentals-of-clinical-research-application/>).

All forms and materials can be emailed in PDF form (preferred), delivered, or mailed to:

Graduate Program Manager (see contact box for individual contact information)
studentinquiry@ictr.wisc.edu
2112 Health Sciences Learning Center
750 Highland Avenue
Madison, WI 53705

*All Graduate School students must also utilize the Graduate Student Portal in MyUW to add, change, or discontinue any graduate/professional certificate. To apply to this certificate, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the graduate/professional certificate for which you are applying.

REQUIREMENTS

The Certificate Program in the Fundamentals of Clinical Research consists of five courses for a total of 12–15 credits.

Code	Title	Credits
Required Courses		
Students complete the following courses.		
B M I/STAT 542	Introduction to Clinical Trials I	
POP HLTH/SOC 797	Introduction to Epidemiology	
Biostatistics Requirement		
Students complete 3–6 credits to fulfill this requirement. Course selections are listed below.		
B M I/STAT 541	Introduction to Biostatistics	
B M I 699	Independent Study ¹	
B M I/ POP HLTH 551	Introduction to Biostatistics for Population Health	
& B M I/ POP HLTH 552	and Regression Methods for Population Health	
Clinical Translational Science Requirement		
Students complete 3–credits to fulfill this requirement. Course selections are listed below.		
B M I 544	Introduction to Clinical and Healthcare Research II	
B M I 773	Clinical Research Informatics	
POP HLTH 709	Translational and Outcomes Research in Health and Health Care	

1

The 1-credit B M I 699 is for students with instructor consent who have prior statistics (not biostatistics) coursework. Students who take this option must also complete an additional 2 credits. Consult with certificate program for course options.

Questions can be directed to the Graduate Program Manager, at studentinquiry@ictr.wisc.edu. (studentinquiry@ictr.wisc.edu)

LEARNING OUTCOMES

1. Determine when it is appropriate to use a patient-oriented research design to investigate a translational clinical problem.
2. Understand the principles of clinical research design and statistical analysis.
3. Understand the principles of multidisciplinary patient-oriented clinical research protocols.
4. Apply and foster professional, ethical and responsible conduct of clinical research.

IMPLEMENTATION SCIENCE AND COMMUNITY HEALTH OUTCOMES, GRADUATE/PROFESSIONAL CERTIFICATE

OVERVIEW

Students who are interested in solving problems in community health, health services, or health policy, may want to supplement their training with the Certificate in Implementation Science and Community Health Outcomes.

Current research investments reflect an emphasis on research that looks for ways to translate what has been learned in controlled settings into positive outcomes in clinical practice and community health. This research requires the ability to:

- consider multiple factors that interact to influence a community or organization;
- form and manage research partnerships with communities and organizations;
- evaluate whether a health intervention or prevention method works or will be used; and
- articulate policy implications of health issues and interventions.

The Certificate in Implementation Science and Community Health Outcomes focuses on the development of these skills.

The certificate addresses a well-documented gap in what should be a continuum between basic health and medical research discoveries and the application of those discoveries in clinical and public health practice. To bridge this gap new discoveries must move beyond efficacy studies to research that tests effectiveness in real-world settings, exploring factors that facilitate or impede positive health outcomes. This research requires engagement among community members, organizations, clinicians and researchers as partners in the research process and draws on a distinct set

of skills. This certificate focuses on the development of skills to engage successfully in clinical and community health outcomes research.

listed above." See the Graduate School's policy on Dissertator Status (<https://policy.wisc.edu/library/UW-1247/>).

ADMISSIONS

APPLICATION GUIDELINES

The Institute for Clinical and Translational Research (ICTR) is the administrative home of the Certificate in Implementation Science and Community Health Outcomes. Detailed information about the curriculum, admission requirements, application procedures, and student services coordinators is posted on the ICTR website (<http://www.ictr.wisc.edu/>).

Whether a student enrolls in the graduate/professional certificate or capstone certificate program will depend on their educational goals. (Course requirements are the same for all.)

GRADUATE/PROFESSIONAL CERTIFICATE PREREQUISITES AND APPLICATION AND ENROLLMENT PROCEDURES

Graduate and professional students from any discipline are eligible to apply for enrollment in the graduate/professional certificate program. To be considered for admission, complete the following application procedures.

1. Print and complete the certificate application form (available on the program website (<https://ictr.wisc.edu/T2TRCertificate/>)).
2. Send the completed application to the Graduate Program Coordinator, 2112T HSLC, University of Wisconsin, Madison, WI 53705; studentinquiry@ictr.wisc.edu.
3. Applications are reviewed on a rolling basis by the certificate advisory committee.
4. Notification of admission to the certificate program: If the student has completed the application procedures described above, notification of the admission decision will be received within three weeks. Students with questions about the status of the application should contact Graduate Program Coordinator at studentinquiry@ictr.wisc.edu.
5. All Graduate School students must **also** utilize the Graduate Student Portal in MyUW to add, change, or discontinue any graduate/professional certificate. To apply to this certificate, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for this graduate/professional certificate.
6. After the student is admitted, the certificate advisory committee will review the stated research interests and recommend an advisor. An objective is to match students with an advisor from a discipline other than their own, to expose students to a variety of perspectives. Students will be notified with the name and contact information of their advisor. They should schedule a meeting with the certificate advisor within the first month after being admitted to identify learning and career objectives, and to discuss the program in relation to student goals.
7. **Note to Ph.D. students:** Ph.D. students may want to start the graduate/professional certificate program early enough to be finished before starting the dissertation because university policy states: "If a dissertator wants to pursue a graduate degree or certificate in another area, the dissertator fee status will be discontinued and regular graduate fees will be assessed, with possible consequences

REQUIREMENTS

Code	Title	Credits

Presentation/Video Option ⁶		

Total Credits **11-13**

1

The certificate advisor can help students choose courses that qualify as fulfilling the two elective areas: (1) Working with Communities and (2) Qualitative Research Methods Relevant to Translational and Outcomes Research. At least one of the courses must be from outside the student's major. Students may propose to their certificate advisor an alternative course (i.e., not on the list of approved electives) for consideration as elective credit, including a course that also fulfills a requirement for their degree program. For criteria and procedures, see the handbook on the program website (<https://ictr.wisc.edu/certificate-research-programs/>).

2

This course can only be taken by students in the Master of Public Health (MPH) program.

3

Students work with their certificate advisor to develop an appropriate project. Students will enroll in an independent study course to complete the project (i.e., FAM MED 699, KINES 699, SOC WORK 799, OBS&GYN 699, NURSING 999, or I SY E 699).

4

Students will sign up for 2 credits of independent study with Dr. Edmond Ramly.

5

Students will sign up for 1 credit of independent study with Dr. Heidi W. Brown. Permission to enroll required.

6

Students enroll in 1 credit of independent study with their certificate advisor. For details about the Presentation/Video Option for the seminar, contact the certificate coordinator.

PROFESSIONAL DEVELOPMENT

ADDITIONAL RESOURCES AND OPPORTUNITIES

UW Institute for Clinical and Translational Research (<https://ictr.wisc.edu/>)

Resources to support clinical, translational and outcomes research

Mentoring

- Research Mentoring: <https://mentoringresources.ictr.wisc.edu/>
- The Individual Development Plan for mapping your mentee's (graduate student and postdoc) academic and professional development: <http://grad.wisc.edu/pd/idp> (<http://grad.wisc.edu/pd/idp/>)

Qualitative and Mixed Methods Research Resources (<https://ictr.wisc.edu/program/qualitative-mixed-method-research-educational-resources/>)

Video lectures on topics relevant to translational and outcomes research (<http://videos.med.wisc.edu/learningthemes/>) (After you open this page, scroll to the bottom.)

HIP Xchange (<https://www.hipxchange.org/>)

Tools, videos, and data downloads to identify socioeconomic disadvantaged locations, improve patient engagement in research, identify patients with chronic conditions, and more.

Training-grant opportunities (<https://ictr.wisc.edu/career-development-awards-2/>)

LEARNING OUTCOMES

1. Develop a research question about a health concern of an actual community.
2. Select an evidence-based approach to addressing the health concern.
3. Involve investigators from two or more disciplines and/or stakeholders from two or more sectors as partners in your project.
4. Demonstrate an understanding of collaboration skills for sustainable partnerships, e.g., benefits to the community partner(s) are built into the project; evidence of partner input to project design.
5. Employ data gathering and analysis methods that respect community partners' organizational culture, values, staffing, and work flow.

Faculty: Professors Hutchinson (chair) (African Studies/Anthropology), Adell (African American Studies), Anderson (Music), Barrows (Agricultural and Applied Economics), Baumann (Nursing), Bernault (History), Bershady (Astronomy), Bloch (Curriculum and Instruction), Bosu (Veterinary Medicine), Bunn (Anthropology), Carter (Agricultural and Applied Economics), Chavas (Agricultural and Applied Economics), Christensen (Animal Health and Biomedical Sciences), Cowell (African Languages and Literature), Drewal (Art History/African American Studies), Fair (Journalism and Mass Communication), Gallagher (Astronomy), Gjerde (Medicine and Public Health), Graziano (Medicine and Public Health), Haq (Medicine and Public Health), Hauner (African Languages and Literature), Hewson (Curriculum and Instruction), Johnson-Powell (Medicine and Public Health), Klug (Law), Ladson-Billings (Medicine and Public Health), Langston (Forest and Wildlife Ecology), McClintock (English), Memon (Languages and Cultures of Asia), Naughton (Geography), Nixon (English), Ntambi (Biochemistry), Olaniyan (African Languages and Literature/English), Payne (Political Science), Popkewitz (Curriculum and Instruction), Posner (Agronomy), Reed (Animal Sciences), Reschovsky (Agricultural and Applied Economics), Schatzberg (Political Science), Scheub (African Languages and Literature), Schleicher (African Languages and Literature), Seidman (Sociology), Shapiro

(Agricultural and Applied Economics), Songolo (African Languages and Literature/French and Italian), Tesfagiorgis (African American Studies), Thompson (Law), Tripp (Political Science/Gender and Women's Studies), Turner (Geography), Verna (Art), Wilcots (Astronomy), Zeichner (Curriculum and Instruction); Associate Professors Al-Ghadeer (African Languages and Literature), Anstett (Family Medicine), Chamberlain (History), Conway (Communication Arts), Conway (Pediatrics), Foltz (Agricultural and Applied Economics), Jenson (French and Italian), Lambert (Anthropology), Madureira (Comparative Literature), Nesper (Anthropology), Pickering (Anthropology), Sapega (Spanish and Portuguese), Stambach (Educational Policy Studies), Sweet (History); Assistant Professors Hark (Design), Keller (History of Science), Kendall (Educational Policy Studies), Kodesh (History), Sellers (Social Work), Straus (Political Science), Wendland (Medicine and Public Health/Anthropology)

EAST ASIAN STUDIES

Faculty: Professors Davis (Engineering Professional Development), Dong (Design Studies/SOHE), Dunne (Asian Languages and Cultures), Furumoto (Theater and Drama), Kern (Asian Languages and Cultures), Li (Linguistics), McGloin (Asian Languages and Cultures), Mori (Asian Languages and Cultures), Nienhauser (Asian Languages and Cultures), Ohnesorge (Law), Ohnuki-Tierney (Anthropology), Pan (Communication Arts), Phillips (Art History), Sidel (Law), Ridgely (director) (Asian Languages and Cultures), Young (History), Zhou (Anthropology); Associate Professors Cheng (History), Dennis (History), D'Etcheverry (Asian Languages and Cultures), Geyer (Asian Languages and Cultures), Huang (Asian Languages and Cultures), Huntington (Asian Languages and Cultures), Meulenbeld (Asian Languages and Cultures), Miyamoto (Psychology), Raymo (Sociology), Shi (Agricultural and Applied Economics), Thal (History), Zhang (Asian Languages and Cultures); Assistant Professors Chan (History), Choy (Dance/Education), Fan (Theater and Drama), Kim (History), Kinzley (History), Li (Art History), Lim (Asian Languages and Cultures), Murthy (History), Yang (Asian Languages and Cultures), Zhu (Asian Languages and Cultures)

EUROPEAN STUDIES

Faculty: Chair: Professor Ringe (Political Science); Faculty Steering Committee: Professors Allen (Scandinavian Studies), Brossard (Life Sciences Communication), Covington (European Studies), Ferree (Sociology), Klug (Law), Livorni (French and Italian), Olds (Geography), Potter (German), Silberman (German), Wolf (Scandinavian Studies)

LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES

Faculty: Professors Rojas (LACIS director) (Journalism and Mass Communication), Allen (Plant Pathology), Albuquerque (Spanish and Portuguese), Apple (Curriculum and Instruction), Barham (Agricultural and Applied Economics), Beilin (Spanish and Portuguese), Bilbija (Spanish and Portuguese), Calderon (Music), Collins (Sociology), Corfis (Spanish and Portuguese), De Ferrari (Spanish and Portuguese), Drewal (Art History), Egea (Spanish and Portuguese), Escalante (Art), Ewig (Gender and Women's Studies), Frantzen (Spanish and Portuguese), Hildner (Spanish and Portuguese), Hill (English/American Indian Studies), Hutchinson (Spanish and Portuguese), Madureira (Spanish and Portuguese), Mallon (History), Marquez (Nelson Institute for Environmental Studies/Political Science), Medina (Spanish and Portuguese), Mello (Business), Naughton (Geography), Neinhuis (Horticulture), Olaniyan (African Languages and Literature), Patz (Nelson Institute for Environmental Studies), Pevehouse (Political Science), Podesta, (Spanish and Portuguese), Popkewitz (Education), Radano (Ethnomusicology), Sanchez (Spanish and

Portuguese), Strier (Anthropology), Sweet (History), Sytsma (Botany), Tochon (Curriculum and Instruction), Tripp (Political Science), Waller (Botany and Environmental Studies), Wattieux (Animal Science), Zamora (Spanish and Portuguese), Zepeda (Consumer Science); Associate Professors Alix-Garcia (Agricultural and Applied Economics), Cabrera (Dairy Science), Close (Spanish and Portuguese), Emshwiller (Botany) Gaus (Medicine), Hernandez (Spanish and Portuguese), Huneus (Law), Kallenborn (Design Studies), Marin-Spiotta (Geography), Pellegrini (Spanish and Portuguese), Schechter (Agricultural and Applied Economics), Stafford (Spanish and Portuguese, Walker (Dance); Assistant Professor Clayton (Anthropology), Associate Faculty Barrett (Sociology), DiPrete Brown (Global Health), Egon (Spanish and Portuguese), Gemrich (Spanish and Portuguese), Kaaikiola Strobusch (Spanish and Portuguese), Vargas, (LACIS associate director); Lecturers Druc (Anthropology), Muniagurria (Economics), Muyolema (Anthropology), Woodward (Botany)

RUSSIAN, EAST EUROPEAN AND CENTRAL ASIAN STUDIES

Faculty: Professors Gerber (chair) (Sociology), Belodubrovskaya (Communication Arts), Bethea (Slavic Languages), Brenner (Jewish Studies), Buenger (Art History), Chamberlain (History), Ciancia (History), Dale (Art History), Danaher (Slavic Languages), Derin (Languages and Cultures of Asia), Dolinin (Slavic Languages), DuBois (Scandinavian Studies), Evans-Romaine (Slavic Languages), Filipowicz (Slavic Languages), Gehlbach (Political Science), Hendley (Law, Political Science), Herrera (Political Science), Hirsch (History), Hollander (Jewish Studies), Johnson (Educational Leadership and Policy Analysis), Kaiser (Geography), Kepley (Communication Arts), Kydd (Political Science), Lapina (Slavic Languages), Livanos (Comparative Literature), Longinovic (Slavic Languages), McDonald (History), Michels (History), Miernowska (Slavic Languages), Neville (History), Radeloff (Forest and Wildlife Ecology), Reynolds (Slavic Languages), Schamiloglu (Languages and Cultures of Asia), Shevelenko (Slavic), Tishler (CREECA, Slavic Languages), Tumarkin (Slavic Languages), van de Water (Slavic Languages), Wink (History)

SOUTHEAST ASIAN STUDIES

Faculty: Professors Bowie (Anthropology), Cowell (African Languages & Literature), Coxhead (Agricultural & Applied Economics), Gade (Nelson Institute for Environmental Studies), Gunther (Journalism & Mass Communications), Hansen (center director) (History), Macken (Linguistics), A. McCoy (History), Olds (Geography), Rafferty (Asian Languages & Cultures), Sidel (Law), Winichakul (History), Zhou (Anthropology); Associate Professors Nobles (Sociology); Assistant Professors Baird (Geography), Choy (Dance/Asian American Studies), Ho (Curriculum and Instruction/Education), Kim (Anthropology); Faculty Associates Barnard (Asian Languages & Cultures), Cullinane (History/Southeast Asian Studies), M. McCoy (Communication Arts/Southeast Asian Studies); Lecturers Chanprasert-Elbow (Asian Languages & Cultures), Dinh (Asian Languages & Cultures), Lee (Asian Languages & Cultures), Zamar (Asian Languages & Cultures); Librarian Ashmun (Southeast Asia Collection, Memorial Library)Journa

AFRICAN STUDIES, DOCTORAL MINOR

The Doctoral Minor in African Studies is for students completing a Ph.D. at the University of Wisconsin–Madison who wish to focus their study on

Africa. It requires four courses or seminars in two departments outside the student's major department. The African studies minor is completed under "Minor Option A" of the Graduate School regulations.

SUGGESTIONS FOR STUDENTS PURSUING THE DOCTORAL MINOR IN AFRICAN STUDIES

- **Early Approval of Minor Program:** It is the student's responsibility as a graduate student to determine that all courses/seminars being completed are eligible for inclusion in the doctoral minor. Students are encouraged to consult with the African Studies Program advisor before taking courses intended to be included in the minor.
- **Language Training:** In planning the program, students should bear in mind the strong desirability of attaining competence in an African language. For many kinds of research, ability to use a language as a research tool is indispensable.
- **Auditing Courses:** In addition to courses and seminars formally taken for credit, students are encouraged to audit additional offerings to develop a broad competence in African studies.

ADMISSIONS

- Meet with the African Studies Program advisor. To make an appointment, send an email to the program's Associate Director (see Contact Information).
- All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, please log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. The minor coordinator will review your application for admittance, and reach out to you if there are any further questions.
- After you have completed the preliminary Ph.D. examinations, the African Studies Program director or designate will sign the warrant indicating completion of the minor.

REQUIREMENTS

- Complete a minimum of 12 graduate credits from the African Studies Program core curriculum (http://africa.wisc.edu/?page_id=26) in four courses or seminars outside the major field, and from at least two different departments, in consultation with the faculty advisor. (Agricultural and applied economics, and economics courses/seminars are considered to be of one discipline for purposes of the minor.)
- Graduate credit is available only for courses with numbers of 300 or higher and with the graduate attribute.
- At least one of these four units must be a course or seminar numbered 700 to 999. No thesis or dissertation credits (990) may be used.
- Introductory first-year language courses may not be used for the doctoral minor in African studies even if they are numbered 300 or higher. Language courses may count for the minor only in so far as they do not overlap with departmental language requirements. When a department requires an African language for the Ph.D., language courses may count toward the minor only above and beyond four semesters of study in one language.
- Include no more than one independent reading and research course in the four courses or seminars submitted.

SPECIAL CIRCUMSTANCES AND CONDITIONS IN COMPLYING WITH THE DOCTORAL MINOR

- **Grade Point Average:** A 3.0 grade point average is required for all courses submitted for the minor.
- **Credits from Other Universities:** Courses from other universities that were taken for graduate credit may count toward the minor with approval of the African Studies Program. Normally, only two of the required four courses or seminars may come from outside the University of Wisconsin–Madison. Exceptions may be proposed by petition.
- **Courses Taken as an Undergraduate:** Courses taken while the candidate was an undergraduate student are not eligible for credit toward the doctoral minor, including courses with graduate-level numbers.

LEARNING OUTCOMES

1. **Regional expertise:** advanced knowledge of the societies and cultures of the region through in-depth understanding of the principal historical, social, political, cultural, and scientific forces and conditions that have given rise to the unity and diversity in the region today.
2. **Multi-disciplinarity:** analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences, and sometimes natural science approaches.
3. **Depth of knowledge:** advanced knowledge of particular facets of life in the region by taking courses on particular sub-regions or countries, by studying a regional language, or by taking at least two courses on the region in one discipline.
4. **Research and methods:** Students must demonstrate the ability to conduct interdisciplinary research that shows knowledge of research methodologies, demonstrates analytical skills, and the ability to articulate and elaborate research findings.

AFRICAN STUDIES, GRADUATE/PROFESSIONAL CERTIFICATE

The Graduate Certificate in African Studies is awarded to students at the graduate level at the University of Wisconsin–Madison to certify advanced training in African studies. It is awarded by the African Studies Program and the Graduate School.

ADMISSIONS

Application for Graduate Certificate in African Studies

- Contact the Associate Director and Advisor.
- All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any graduate certificate. To apply to this certificate, please log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. The certificate coordinator will review your application for admittance, and reach out to you if there are any further questions.
- After the student has completed the requirements for the graduate certificate in African studies, the African Studies Program director or designate will inform the major department that the student has earned the certificate.

FUNDING

Information about funding through the African Studies Program is available from our website (http://africa.wisc.edu/?page_id=28). We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (<https://iris.wisc.edu/funding/>).

REQUIREMENTS

- Complete at least 12 credits of African Studies Program core courses or extended core courses (<https://africa.wisc.edu/academics/courses/>) taught by an African Studies Program faculty member.
- Graduate credit is available only for courses numbered 300 or higher with the graduate attribute.
- Maintain a grade point average of 3.0 (on a 4.0 scale).
- Fulfill the requirements for a master's or doctoral degree at the University of Wisconsin–Madison.
- Include 9 credits outside the major department. No more than 3 credits will count from the major department.
- Complete at least one graduate-level seminar in African studies with a grade of AB or better. It may be in the major field.

ADDITIONAL TERMS

- Include no more than 3 credits of directed reading and research or independent reading (AFRICAN 699 Directed Study, AFRICAN 999 Independent Reading and Research). No thesis/dissertation credits (AFRICAN 990 Thesis) may be included.

- Only one course in a single language may count toward the certificate, but two languages courses count if they are in different African languages.
- **Note:** All African Cultural Studies courses (<http://guide.wisc.edu/courses/african/>) may count toward the graduate certificate within the limits set by the distribution requirements described above.

LEARNING OUTCOMES

1. Regional expertise: advanced knowledge of the societies and cultures of the region through in-depth understanding of the principal historical, social, political, cultural and scientific forces and conditions that have given rise to the unity and diversity in the region today.
2. Multi-disciplinarity: analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. Depth of knowledge: advanced knowledge of particular facets of life in the region by taking courses on particular sub-regions or countries, by studying a regional language, or by taking at least two courses on the region in one discipline
4. Research and methods: Students must demonstrate the ability to conduct interdisciplinary research that shows knowledge of research methodologies, demonstrates analytical skills, and the ability to articulate and elaborate research findings.

PEOPLE

Faculty: Professors Adell (African American Studies), Alonso (Gender and Women's Studies and the School of Medicine and Public Health), Anderson (Global Health), Bartlett (Educational Policy Studies), Block (Civil and Environmental Engineering), Brown (African Cultural Studies), Bunn (Anthropology), Burchell-Sajnani (African Cultural Studies), Callaci (History), Chavas (Agricultural and Applied Economics), Christensen (Animal Health and Biomedical Sciences), Conway (Pediatrics), Conway (Communication Arts), Dima (French and Italian), Diop (Real Estate and Urban Land Economics), DiPrete Brown (Human Ecology, Global Health Institute), Drewal (Art History/African American Studies), El Nossery (French and Italian), England (African Cultural Studies), Ferrick (International Agriculture Programs), Foltz (Agricultural and Applied Economics), Garoon (Community and Environmental Sociology), Goldberg (Pathobiological Sciences), Gomez (Medical History and Bioethics), Grant (Sociology), Gray (Communication Arts), Gunasekaran (Food Engineering), Haq (Medicine and Public Health), Hark (Design Studies), Hawkins (Curriculum and Instruction), Ipsen (Gender and Women's Studies and History), Jacobs (Environmental Studies), Jasper (Consumer Science), Kawaoka (Global Health Institute), Keller (Medical History and Bioethics), Kendall (Director, Educational Policy Studies), Klug (Law), Kodesh (History), Ladson-Billings (Curriculum and Instruction), LaGro (Urban and Regional Planning), Larson (Biological Systems Engineering), Lindsay (Gender and Women's Studies and Political Science), Madureira (Spanish and Portuguese), McCord (African Studies), McFarland (Anthropology), Mitman (History of Science), Mustafa (African Cultural Studies), Naughton (Geography), Nesper (Anthropology), Nimis (African Cultural Studies), Ntambi (Biochemistry), Okwumabua (Pathobiological Sciences), Olaniyan (African Cultural Studies and English), Ozdogan (African American Studies), Palmer (Journalism and Mass Communication), Patz (Global Health Institute), Pickering (Anthropology), Popkewitz (Curriculum and Instruction), Radano (African Cultural Studies and Music), Reed (Animal Science),

Rosin (Integrative Biology), Royston (African Cultural Studies), Ruark (Environmental Studies), Sager (Interior Architecture), Sapega (Spanish and Portuguese), Schauer (Global Health Institute), Seidman (Sociology), Sethi (Population Health Sciences), Siraj (Infectious Disease), Songolo (Library), Straus (Political Science), Sweet (History), Tanoukhi (English), Tanumihardjo (Global Health Institute, Nutritional Sciences), Tefera (Surgery), Thompson (African Cultural Studies), Treves (Environmental Studies), Tripp (Political Science/Gender and Women's Studies), Tupesis (Global Health Institute), Turner (Geography), Ventura (Environmental Studies), Wilcots (Astronomy).

EAST ASIAN STUDIES, DOCTORAL MINOR

The Center for East Asian Studies (<https://eastasia.wisc.edu/>) (CEAS) is the focal point connecting East Asia to the UW-Madison. One of the UW-Madison's eight federally funded National Resource Centers, CEAS is dedicated to all aspects of research, education and outreach related to China, Japan, and Korea.

CEAS began in 1962 as the East Asian Studies program, building on more than sixty years of research and teaching on China, Japan, and Korea at the UW-Madison. Over the years it has grown from fewer than a dozen faculty members teaching thirty graduate-level courses to more than seventy faculty members teaching nearly three hundred courses at both undergraduate and graduate levels.

The doctoral minor in East Asian Studies is offered to students who are enrolled in a doctoral program at the UW-Madison and are interested in focusing their studies on East Asia. Students interested in obtaining this minor should consult with the Center's Associate Director, who serves as the advisor for the minor in East Asian studies.

ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, please log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. The Associate Director and Advisor will review your application for admittance, and reach out to you if there are any further questions. Please contact the Associate Director and Advisor prior to submitting your application in the Graduate Student Portal.

REQUIREMENTS

COURSES

Students earning an interdisciplinary PhD Minor in East Asian Studies must take a minimum of 12 credits in East Asian area studies. The credits must be earned in at least three departments other than the major department, and courses must contain a minimum of 25 percent East Asian content. UW-Madison Graduate School regulations concerning the use of courses required for the student's major as part of the minor are to be observed when selecting courses. For more information about courses that can count for the Minor, please contact East Asian Studies. Because the instructor and content of a course may change over time, please consult the Center for East Asian Studies for confirmation on whether a course may count for a doctoral minor.

GLOBAL STUDIES, DOCTORAL MINOR

A doctoral minor in global studies will be of interest to doctoral students who plan for careers in public policy, research, and academia, as well as those interested in careers in government, media, and the private and nonprofit sectors. The minor emphasizes systemic approaches to globalization in an interdisciplinary context, thereby distinguishing itself from existing graduate course work in international studies that emphasize specialization in particular areas of the world (e.g., East Asian studies or African studies) or specific aspects of globalization (e.g., global health or global legal studies). The minor is intended to provide doctoral students with an institutional setting to pursue the study of globalization as a complement to their major degree program.

ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, please log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. The minor coordinator will review your application for admittance, and reach out to you if there are any further questions.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

The IRIS Awards Office manages its own funding opportunities (Scott Kloeck-Jenson Fellowships, IRIS Graduate Fieldwork Awards, Incubator Grants), coordinates the campus component of a number of external programs (Boren Fellowships, Fulbright US Student Program, Fulbright-Hays DDRA, Luce Scholars Program), coordinates IRIS regional center awards such as the Foreign Language and Area Studies (FLAS) Fellowships, assists students, faculty, and staff in exploring funding options, and much more.

Follow us on Twitter (https://twitter.com/uwiris_awards/), and contact Mark Lilleleht, Assistant Director for Awards, with questions at awards@iris.wisc.edu, 608-265-6070.

REQUIREMENTS

The minor in Global Studies is 12 credits total. Students who minor in global studies will be required to take the core Global Studies Graduate Seminar (INTL ST 720 Global Studies Seminar) and related course work. In addition to the 3-credit Global Studies Graduate Seminar, students must take 9 credits from a list of approved courses. Students must take one course from three of the four categories:

1. Global Culture and Humanity
2. Global Commons
3. World Affairs and the Global Economy
4. Human Security and Global Citizenship

Students should consult with an IRIS advisor (<https://iris.wisc.edu/advising/>) for course listings within these categories.

LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES, DOCTORAL MINOR

Candidates for a Ph.D. degree in other departments may obtain this Option A doctoral minor in Latin American, Caribbean, and Iberian Studies. All Ph.D. minor candidates must consult with the program director or associate director at the time they begin their work for the Ph.D. minor. Certification of proficiency in Spanish or Portuguese is required.

ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, please log in to MyUW, click on Graduate Student Portal, and then

click on Add/Change Programs. The advisor will review your application for admittance, and reach out to you if there are any further questions.

REQUIREMENTS

Students take a minimum of 12 credits in graduate courses related to Latin America, the Caribbean, Spain, or Portugal. A list of courses available for LACIS credit is prepared each semester by the program staff. This work is to be done outside the major field of the candidate's doctoral specialization. One course cross-listed with the major may be used for the minor so long as it is not taught by a faculty member from the major department and is not a required course for the major. The LACIS M.A. may be used as a Ph.D. minor, as long as the degree program meets the minor requirements.

PEOPLE

The Latin American, Caribbean, and Iberian Studies (LACIS) teaching staff consists of over 100 faculty (<https://lacis.wisc.edu/people/affiliated-faculty/>) who teach LACIS language and area content courses. LACIS Steering Committee. (<https://lacis.wisc.edu/people/lacis-steering-committee/>)

LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES, M.A.

The Latin American, Caribbean, and Iberian Studies (LACIS) Program offers three graduate programs: Master of Arts, a Doctoral Minor, and a Dual Degree in Law and Latin American, Caribbean, and Iberian Studies.

The mission of the graduate program is to provide an interdisciplinary foundation for the study of Latin America, the Caribbean, Spain, and Portugal. The University of Wisconsin–Madison is nationally recognized for excellence in research and teaching on these regions. The LACIS program includes a core faculty of over 100 members and course offerings in close to 40 disciplines and professional schools, including anthropology, business, community and environmental sociology, comparative literature, environmental studies, gender and women's studies, geography, history, law, music, political science, sociology, and population health. Languages taught include Quechua, Yucatec Maya, Spanish, and Portuguese.

Many faculty members have received extensive national and international recognition. Detailed faculty research interests and publications can be accessed through Mapping LACIS Research. (<https://lacis.wisc.edu/mapping-lacis-research/>) UW–Madison also publishes the journal *Luso-Brazilian Review*, and holds an annual graduate student conference, *Kaleidoscope*.

While the majority of candidates in the program are from the United States, a significant number are from Latin America, the Caribbean, and Iberia. Funding assistance for candidates specializing in Latin America, the Caribbean, and Iberia includes: Title VI Foreign Language and Area Studies (FLAS) fellowships, the Helen Firstbrook Franklin Fellowship, Advanced Opportunity Fellowship (AOF), teaching assistantships (Intro to Latin American Studies), and the Tinker-Nave Field Grant Program, commonly used for summer research travel. Please contact the program office

for more information on funding opportunities (<https://lacis.wisc.edu/funding/for-graduates/>).

Originally established in the 1930s, the program has a long history of university and federal support. Since 1961, LACIS has been recognized as a National Resource Center (NRC) by the US Department of Education, which provides Title VI support for program activities and for FLAS fellowships. The program has a faculty of extraordinary diversity and across-the-board strength. These strengths encompass not only the classic social science and humanities fields, but also the natural and ecological sciences and the agricultural and professional schools. Not many other universities can compete with the overall range of UW–Madison's faculty expertise in Latin American, Caribbean, and Iberian studies. The UW–Madison's general excellence is reflected by its consistent ranking among the top ten graduate universities in the United States.

Dual Degree Program

Candidates interested in earning a dual degree in law and Latin American, Caribbean, and Iberian Studies must apply to both programs and must meet the degree requirements for both programs. The dual degree program can be completed in seven semesters. Typically, the student begins the LACIS portion of the program in the second year of law school. More information can be found on the website (<https://lacis.wisc.edu/programs/dual-degree-in-law-and-lacis/>).

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 5
Spring Deadline	October 15
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Admission to the master's program is competitive and requires a strong undergraduate academic background, a clear demonstration of

interdisciplinary interests, and a strong statement of purpose illustrating the applicant's goals. In addition to the online application, applicants must submit to the program: transcript(s) of all undergraduate work, three letters of recommendation, a statement of reasons for graduate study, and a current CV. Applications must be received by January 5 for the fall semester.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

TINKER NAVE SHORT TERM FIELD RESEARCH GRANTS

Application Deadline: Applications for summer fieldwork are typically due the first Friday in March.

See website (<https://lakis.wisc.edu/funding/for-graduates/>) for more details.

FOREIGN LANGUAGE AND AREA STUDIES GRADUATE FELLOWSHIPS (FLAS), (HEA TITLE VI)

See website (<https://flas.wisc.edu/>) for more details.

For further information and assistance about financial aid please visit the Office of Student Financial Aid (<https://financialaid.wisc.edu/>).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum 30 credits

Credit Requirement

Minimum 18 credits

Residence Credit Requirement

Minimum 15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (<https://policy.wisc.edu/library/UW-1244> (<https://policy.wisc.edu/library/UW-1244/>)).

Overall 3.00 GPA required.

Graduate GPA Requirement This program follows the Graduate School's policy: <https://policy.wisc.edu/library/UW-1203> (<https://policy.wisc.edu/library/UW-1203/>).

Other Grade n/a

Requirements

Assessments and Examinations Candidates are expected to finish the degree in four semesters of full-time study; after four semesters, the student must petition for extension. Time to degree will be customized for students in dual or articulated degree programs. Students must also petition for part-time (fewer than 6 credits per semester) status.

Language Requirements Candidates must obtain certification of basic proficiency in Spanish or Portuguese or offer proof of proficiency.

REQUIRED COURSES

Completion of the degree requires 30 credits of courses with Latin American, Caribbean and Iberian language and area content, consisting of 12 credits in a student's core area, 12 credits in complimentary program core areas and research methods, and 6 thesis credits (senior honors thesis courses do not count). At least 50% of course credit must be in courses numbered 700 or above, or that have a graduate attribute. Students choose among LACIS' core areas in consultation with the Program Associate Director and their faculty advisor.

Core Courses

12 credits in a student's core area numbered 300 or above, as decided upon in consultation with the Program Associate Director and their faculty advisor.

Complementary Area Coursework

12 credits of courses numbered 300 or above, or Foreign Language and Area studies approved language courses, as decided upon in consultation with the Program Associate Director and their faculty advisor.

Pertinent Research Methods

At least 3 credits of complementary coursework in a pertinent research methods course are required.

Graduate Seminars

At least two seminars (6 credits total) must be included in the complementary coursework, and at least one of these seminars must be LACIS/A A E/ANTHRO/C&E SOC/GEOG/HISTORY/POLI SCI/PORTUG/SOC/SPANISH 982 Interdepartmental Seminar in the Latin-American Area (or equivalent seminar).

Additional Coursework

The remaining 6 credits will be completed through additional coursework. In order to earn an MA degree, students must write and defend a paper or optional master's thesis to a three-person committee consisting of the faculty advisor, LACIS director or associate director and one more relevant faculty member. Thesis credits may count towards additional coursework. **A limit of 6 credits of LACIS 698 Directed Study or LACIS 699 Directed Study can count towards LACIS coursework.**

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 6 credits of graduate coursework from other institutions.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

Students are allowed to count no more than 6 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. The student would not be allowed to count courses toward the 50% graduate coursework minimum unless taken in coursework numbered 700 or above.

PROBATION

This program follows the Graduate School's Probation policy (<https://policy.wisc.edu/library/UW-1217/>).

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

ADVISOR / COMMITTEE

The program director or associate director will be the formal advisor for all students in the program. In addition, students are expected to work

with a faculty advisor to complete a final paper or an optional thesis to be defended to a three member committee.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy (<https://policy.wisc.edu/library/UW-1221/>).

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departamental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

OTHER

LACIS has a J.D./M.A. dual degree. Contact the program for more information.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate an understanding of the principal historical, societal, scientific and humanist concerns that are rooted in the realities of the broader Latin American, Caribbean and Iberian regions. These include but are not limited to: knowledge of pre-colonial indigenous societal organizations; the experience of colonialism; the biodiversity of the region; and the regions tumultuous social, economic and political trajectory and the specific challenges these have posed for the peoples of the regions. In particular, students should demonstrate an understanding of the unique historical trajectory of these regions as the product of the global confluence of various cultural, social, political and economic influences beginning in the late 15th century. This includes not only the especially profound mutual impact of Iberian colonization of the Americas, but also the larger context of European imperial conflict in the Western Hemisphere, the central place of African slavery in the development of the Atlantic economy, and the significant and multifaceted role that the United States has played in shaping Latin America and the Caribbean. Students should recognize how these histories and contemporary realities impact more specific questions, contemporary or historical, and humanist, social scientific or scientific in nature.
2. Within students' more specific area of interest, they should be able to articulate key theoretical and empirical concerns and identify appropriate theoretical approaches to the problem of interest and identify empirical sources that can help to answer that question or problem.
3. Students should demonstrate proficiency, and preferably advanced language ability, in either Spanish or Portuguese. Additional indigenous language learning, such as Kichwa, Quechua, Quichua and Nahuatl, are also encouraged.
4. Demonstrate the ability to conduct interdisciplinary research that: includes a critical literature review; selects appropriate research methodologies; proposes an appropriate research design to collect, analyze, interpret, and present findings; successfully carries out this research plan.
5. Demonstrate the ability to articulate and elaborate their research findings.
6. Recognize and apply principles of ethical and professional conduct. This includes, in particular, an understanding of the ethics of research and professional activities in cross-cultural contexts.

PEOPLE

The Latin American, Caribbean, and Iberian Studies (LACIS) teaching staff consists of more than 100 faculty (<https://lacis.wisc.edu/people/affiliated-faculty/>) who teach LACIS language and area content courses.

LACIS Steering Committee (<https://lacis.wisc.edu/people/lacis-steering-committee/>)

RUSSIAN, EAST EUROPEAN AND CENTRAL ASIAN STUDIES, DOCTORAL MINOR

ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, please log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. The advisor will review your application for admittance, and reach out to you if there are any further questions.

Doctoral students may not earn both the REECAS graduate/professional certificate and the REECAS doctoral minor.

REQUIREMENTS

Recognition of interdisciplinary training at the graduate level can be acquired with a REECAS certificate. Doctoral minor requirements in specific fields can also be fulfilled under the REECAS program. The requirements for a doctoral minor under Option A (external minor) may be satisfied by completing 9 credits of graduate courses in Russian, East European and Central Asian studies. These 9 credits must be distributed over at least two departments outside the student's major department. Students should contact the program office for specific information regarding these requirements.

PEOPLE

Faculty: Borowski, Castañeda Dower, Ciancia, Dale, Danaher, DuBois, Erbil, Evans-Romaine, Gerber, Glowacki, Hanukaj, Hendley, Herrera, Hirsch, Karpukhin, Kinzley, Kydd, Livanos, McDonald, Michels, Miernowska, Neville, Ospovat, Radeloff, Reynolds, Shevelenko (director), Stoychuk, Tishler, Tumarkin, Walter, Wodzyński, Yudkoff.

For a full list of affiliated faculty, visit our website (<https://creeca.wisc.edu/people/faculty/>).

RUSSIAN, EAST EUROPEAN AND CENTRAL ASIAN STUDIES, GRADUATE/ PROFESSIONAL CERTIFICATE

The graduate/professional certificate in REECAS provides graduate students with a general background in the areas of anthropology, economics, foreign policy, geography, government and politics, history, language and literature, law, and sociology. It also provides specific knowledge about one of these areas. With its emphasis on interdisciplinary study, a REECAS certificate enhances the training of Ph.D. candidates who wish to teach and do research at the college level, and serves the needs of M.A. and Ph.D. students who wish to make a career in broadcasting,

government service, journalism, library work, or other professions requiring a well-rounded acquaintance with this diverse and highly important area.

ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any graduate certificate. To apply to this certificate, please log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. The certificate coordinator will review your application for admittance, and reach out to you if there are any further questions.

REQUIREMENTS

To receive the certificate, a student must take 12 credits of required courses distributed over three programs. Of these required courses, one must be a seminar in which a research paper is written on a topic approved by the major professor. The student must demonstrate a working knowledge of one language of Eastern Europe or the former Soviet Union before beginning the second year of REECAS and will be expected to write the seminar paper utilizing original source material in the target language(s). Students should contact the program office for specific information regarding these requirements.

Candidates for the Graduate/Professional Certificate in REECAS must take at least two years of language study (or the equivalent) in one of the region's languages. At UW-Madison, Czech, Finnish, Kazakh, Persian, Polish, Russian, and Turkish/Azeri are offered regularly during the academic year. Other regional languages may be available during the summer session (e.g. languages of Central Eurasia through CESSI (<https://cessi.wisc.edu/>)).

LEARNING OUTCOMES

1. Regional expertise: advanced knowledge of the societies and cultures of the region through in-depth understanding of the principal historical, social, political, cultural and scientific forces and conditions that have given rise to the unity and diversity in the region today.
2. Multi-disciplinarity: analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. Depth of knowledge: advanced knowledge of particular facets of life in the region by taking courses on particular sub-regions or countries, by studying a regional language, or by taking at least two courses on the region in one discipline
4. Research and methods: Students must demonstrate the ability to conduct interdisciplinary research that shows knowledge of research methodologies, demonstrates analytical skills, and the ability to articulate and elaborate research findings.

PEOPLE

Faculty: Borowski, Castañeda Dower, Ciancia, Dale, Danaher, DuBois, Erbil, Evans-Romaine, Gerber, Glowacki, Hanukai, Hendley, Herrera, Hirsch, Karpukhin, Kinzley, Kydd, Livanos, McDonald, Michels, Miernowska, Neville, Ospovat, Radeloff, Reynolds, Shevelenko (director), Stoychuk, Tishler, Tumarkin, Walter, Wodzyński, Yudkoff.

For a full list of affiliated faculty, please visit our website (<https://creeca.wisc.edu/people/faculty/>).

RUSSIAN, EAST EUROPEAN AND CENTRAL ASIAN STUDIES, M.A.

The master of arts degree program in Russian, East European and Central Asian studies provides interdisciplinary area studies training for emerging professionals and future leaders in business, development, government, journalism, law, publishing, and the military. The curriculum is designed to promote a broad understanding of the cultural, political, economic, social, and historical factors that have shaped the development of societies in Eurasia, Russia, and Central and Eastern Europe; mastery in Russian, East European, or Central Asian languages at a level necessary for doing advanced research on and professional work in the region; and knowledge of methodological and analytical approaches of different disciplines that will contribute to a better understanding of the region and will prepare students for conducting advanced research. The program requires both area studies and language training.

The M.A. program is designed to be completed in three semesters, but motivated students who enter with prior language study and commit to intensive summer coursework have the option of completing the course of study within 12 calendar months. Students will work closely with the M.A. advisor, who serves as their primary graduate studies advisor, to ensure that their course of study is both coherent and sufficiently interdisciplinary.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 2
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a

Letters of Recommendation Required 3

Students entering the master's program must have a bachelor's degree from an accredited institution and provide evidence of academic achievement and intellectual ability, including a minimum total grade point average of 3.0 (on a 4.0 scale) and a 3.4 in related area courses, letters of recommendation, and strong scores on the Graduate Record Exam (GRE). There is no minimum admission requirement for language, but students are strongly advised to complete two years of area language study before entering the program.

Applicants for admission to the M.A. degree program in Russian, East European and Central Asian studies should submit an online application. The following materials are required: statement of purpose, official transcripts from all postsecondary institutions attended, three letters of recommendation, Graduate Record Exam (GRE) scores, language questionnaire, and application for university fellowships for incoming students. Speakers of English as a second language must submit Test of English as a Foreign Language (TOEFL), or International English Language Testing System (IELTS) scores as well.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Each year a faculty committee selects a limited number of deserving graduate students (in any field of study) for Foreign Language and Area Studies (FLAS) Fellowships. Applicants must be citizens or permanent residents of the United States and must demonstrate their commitment to the study of a language of Russia, Eastern Europe, or Central Asia, and to related area studies topics. Applications and supporting materials for the FLAS fellowship competition must be submitted by approximately February 15 each year. For more information and an application, see Foreign Language & Area Studies (FLAS) Fellowships (<http://flas.wisc.edu/>).

Students interested in studying Polish may be eligible to apply for a Michael and Emily Lapinski fellowship (<https://gns.wisc.edu/lapinski-scholarship/>). The annual deadline is March 1. Please contact the Slavic program for more information.

CREECA also nominates eligible incoming graduate students in its M.A. program for the Advanced Opportunity Fellowship (for targeted students). To be considered for university funding, all application materials must be received by the early January deadline indicated on the CREECA M.A. application form.

A limited number of teaching assistantships and project assistantships may be available in CREECA and in specific departments that offer high-enrollment courses on REECAS. Information about these assistantships can be obtained by writing or calling CREECA and the respective departments. In addition to these opportunities, other fellowships and financial assistance are available outside CREECA. For further information,

incoming graduate students should write directly to the appropriate department or organization.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	Yes

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's GPA Requirement policy (https://policy.wisc.edu/library/UW-1203).
Other Grade Requirements	n/a
Assessments and Examinations	Students have the option to complete a thesis. Contact the program for more information.

Language Requirements Language learning is an integral part of the program, and students will be required to enroll in language courses each term. Students already proficient in their main language will be expected to choose another Slavic or Central Eurasian language for the duration of their program. For degree completion, students must have a minimum of two years of university-level study (or the equivalent) of a regional language with at least three years of study strongly recommended. During the academic year, the program offers Czech, Finnish, Kazak, Persian, Polish, Russian, Bosnian/Croatian/Serbian, and Turkish (Turkish-Azeri).

Students entering with prior experience in Russian are required to take a pre-program assessment. Students are also required to take a language course each term. See below for more details.

REQUIRED COURSES

In addition to language classes each term, students will be required to complete a minimum of 22 non-language (area studies) credits from the course list to be distributed as follows:

- Seven courses in Russian, East European and Central Asian studies numbered 300 or above (21 credits). These courses must be distributed over at least three departments. At least 50% of credits applied toward the graduate degree credit requirement must be with courses designed for graduate work. Courses with the graduate level coursework attribute are identified and searchable in Guide. (<https://guide.wisc.edu/courses/>)
- At least 6 of these credits (two courses) must be graduate-level **seminars** (numbered 700 through 999). REECAS M.A. students are expected to use original language source material in their graduate seminar papers. See table below.
- A 1-credit "Introduction to REECAS" module (SLAVIC 755 Topics in Slavic Literature). The course number of this module varies, depending on the home department of the faculty director of CREECA. Students are required to attend the weekly CREECA lecture series and to write four short essays based on the content of those lectures. Papers are read and evaluated by the CREECA director and associate director.
- Students may elect to write a master's thesis, but this is not required. This 3-credit, faculty-supervised, independent research course could count toward the required 22 non-language credits, but could not take the place of a required graduate-level seminar. The master's thesis will demonstrate the student's ability to engage in original research in his or her chosen field, including the ability to use original-language material.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

This program follows the Graduate School's policy for Satisfying Requirements with Coursework from Undergraduate Career at UW–Madison. (<https://policy.wisc.edu/library/UW-1216/>)

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)

- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

OTHER

Accelerated language study available during summer. We encourage qualified US citizens and permanent residents to apply for the Foreign Language and Area Studies (FLAS) fellowship through CREECA. FLAS applications are due on or near February 15 of each year; please check flas.wisc.edu for updates. The application form for FLAS is separate from the application for admission. We regret that other sources of funding, such as teaching assistantships and project assistantships, are limited.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate an understanding of the cultural, political, economic, social, and historical factors that have shaped the development of societies in Eurasia, Russia, and East and Central Europe.
2. Articulate, critique, and/or elaborate the theories, research methods, and approaches to inquiry in one or more of the disciplines represented in the interdisciplinary field of Russian, East European, and Central Asian studies (REECAS).
3. Identify sources and assemble evidence pertaining to questions or challenges in REECAS.
4. Demonstrate an understanding of Russian, East European, and Central Asian studies in a historical, social, or global context.
5. Select and utilize appropriate methodologies and practices in one or more of the disciplines represented in the interdisciplinary field of REECAS.

6. Evaluate and synthesize information pertaining to questions or challenges in REECAS and should communicate clearly in written and spoken work in ways appropriate to REECAS.
7. Recognizes and apply principles of ethical and professional conduct in the context of Russian, East European, and Central Asian studies.
8. (Language proficiency) Develop speaking, listening, writing, and reading skills in one or more of the languages of Russia, East and Central Europe, and Central Eurasia, and integrate these skills to communicate in a variety of social and academic situations.

PEOPLE

Faculty: Borowski, Castañeda Dower, Ciancia, Dale, Danaher, DuBois, Erbil, Evans-Romaine, Gerber, Glowacki, Hanukai, Hendley, Herrera, Hirsch, Karpukhin, Kinzley, Kydd, Livanos, McDonald, Michels, Miernowska, Neville, Ospovat, Radeloff, Reynolds, Shevelenko (director), Stoychuk, Tishler, Tumarkin, Walter, Wodzyński, Yudkoff.

For a full list of affiliated faculty, please visit our website (<https://creeca.wisc.edu/people/faculty/>).

SOUTHEAST ASIAN STUDIES, DOCTORAL MINOR

ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, please log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. The minor coordinator will review your application for admittance, and reach out to you if there are any further questions.

The doctoral minor in Southeast Asian studies is offered to students who are enrolled in a doctoral program at the university and are interested in focusing their disciplinary program on Southeast Asia. Students interested in obtaining this minor should first consult with their disciplinary adviser to clarify the type of minor required and then consult with the center's advisor for the minor in Southeast Asian studies.

REQUIREMENTS

The minor requires a minimum of 12 credits in departments outside the student's major and must be approved in advance by the center director in consultation with a faculty associate of the center.

PEOPLE

Faculty: Professors Bowie (Anthropology), Gade (Nelson Institute for Environmental Studies), Hansen (History), A. McCoy (History), Olds (Geography), Sidel (Law); Associate Professors Baird (Geography, Director), Choy (Dance/Asian American Studies), Haberkorn (Asian Languages and Cultures), Ho (Curriculum and Instruction/Education), Kim (Anthropology), Nobles (Sociology); Assistant Professor Kusumaryati (Anthropology/International Studies); Faculty Associates Barnard (Asian Languages & Cultures), Cullinane (History/Southeast Asian Studies), M. McCoy (Communication Arts/Southeast Asian Studies); Lecturers Dinh

(Asian Languages & Cultures), Lee (Asian Languages & Cultures), Nicolas (Asian Languages and Cultures), Surasin (Asian Languages and Cultures), Suryani (Asian Languages and Cultures); Librarian Ashmun (Southeast Asia Collection, Memorial Library)

SOUTHEAST ASIAN STUDIES, M.A.

The M.A. degree in Southeast Asian Studies is an interdisciplinary program designed to meet the unique needs of two broad groups of students: those seeking certification of area expertise en route to a disciplinary doctoral degree and those seeking a terminal M.A. en route to a wide range of careers in Southeast Asia, including employment in business, journalism, and various government and international organizations.

The Center for Southeast Asian Studies administers a formal graduate program in Southeast Asian studies and facilitates interdisciplinary study on Southeast Asia in intercollege, professional, and other degree programs throughout the university. The Southeast Asian studies program provides students with the opportunity to concentrate their study of this dynamic region in several disciplines and professional areas: anthropology, communications (journalism), development, education, economics, environmental studies, geography, history, linguistics, literature, music and dance (performing arts), political science, public health, religion, sociology, and urban and regional planning, as well as natural resources, business, and law, and public policy. Faculty expertise and library holdings are particularly strong for in-depth study of Cambodia, Indonesia, Laos, Philippines, Thailand, and Vietnam. The goal of the program is to provide students with a strong area and language background on Southeast Asia and to prepare them for a range of academic and professional careers.

Language study is a critical component in area studies, and the center encourages students to develop proficiency in at least one Southeast Asian language. During the academic year, instruction is offered through the Department of Asian Languages and Cultures in five Southeast Asian languages: Filipino (Tagalog), Hmong, Indonesian, Thai, and Vietnamese. Each language is offered at two or more levels of instruction, with advanced readings and literature courses available in Indonesian. The center also facilitates participation in the Southeast Asian Studies Summer Institute (SEASSI), which provides instruction during the summers at multiple levels in eight languages of the region: Burmese, Filipino, Hmong, Indonesian/Malaysian, Javanese, Khmer, Lao, Thai, and Vietnamese, and depending on enrollments, Javanese. Though SEASSI is hosted by the center and based in Madison, it is open to students from anywhere. More information is available on the SEASSI website (<http://seassi.wisc.edu/>).

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) of the Graduate School as well as the program(s).** Once you have researched

the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	July 15
Spring Deadline	November 15
Summer Deadline	April 15
GRE (Graduate Record Examinations)	Not required
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Applicants for admission to the M.A. degree program in Southeast Asian Studies should submit the online application on the Graduate School website. The following materials are required and should be submitted to the center: statement of purpose, official transcripts of all undergraduate and graduate study, three references, and Graduate Record Exam (GRE) scores for U.S. citizens; most international students are also required to submit Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) scores (for recommended test scores, see the Graduate School website).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

The center offers two graduate-level fellowships each year: Foreign Language and Area Studies (FLAS) fellowships, funded by the U.S. Department of Education (Title VI); and Center Fellowships, funded by the center's Mellon endowment. Both fellowships provide full tuition and a monthly stipend and are awarded to deserving graduate students (in any discipline) with a strong commitment to the study of Southeast Asia. The center also provides Field Research Grants to be used to support doctoral dissertation and pre-dissertation research on Southeast Asia. Applicants for FLAS fellowships must be citizens or permanent residents of the U.S. and must apply to study one of the languages offered during the academic year: Filipino, Hmong, Indonesian, Thai, or Vietnamese. Center fellowships are generally awarded by semester and are open to all graduate students committed to the study of Southeast Asia. Field Research Grants can be awarded to graduate students in any field of study. Applications for FLAS, Center Fellowships, and Field Research Grants can be obtained directly from the center's office (or downloaded from the website) and

must be submitted, along with all supporting materials, by the first week of February each year.

The center also nominates eligible incoming graduate students in its M.A. program for two university-wide competitions: Advanced Opportunity Fellowships (for minority students) and University Fellowships (for students with outstanding academic records). In addition to these opportunities, other fellowships and financial assistance are available outside the center.

For further information, incoming graduate students should write directly to the appropriate department and to the Office of Student Financial Aid. For additional information on the fellowships offered by the center, consult the center's website (<https://seasia.wisc.edu>).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement	Detail
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits

Minimum Graduate Coursework Requirement	All 30 credits must be taken in graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
---	---

Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/).
----------------------------------	--

Other Grade Requirements	n/a
--------------------------	-----

Assessments and Examinations	To complete the MA program, students must write a research paper on Southeast Asia under the supervision of their faculty advisor; this paper must then be defended before three faculty members affiliated with the Center (their advisor and two others selected in consultation with their advisor).
------------------------------	---

Language Requirements	Students must demonstrate a level of proficiency in a Southeast Asian language equivalent to having successfully completed four semesters of the language; these credits do not count toward the 30 credits required for the program. Up to nine credits of advanced language courses can be counted toward the 30 credit degree requirement.
-----------------------	---

REQUIRED COURSES

Graduate students will receive the M.A. by

1. demonstrating a level of proficiency in a Southeast Asian language equivalent to having successfully completed four semesters of that language.
2. completing thirty credits of area-content coursework (<http://seasia.wisc.edu/home-page/for-students/courses/>) (with six of these being graduate seminars)— twelve in one field of concentration (that is in one department, in two or more related departments, or in an interdisciplinary field approved by the faculty advisor) and eighteen in one or more other fields.
3. perform satisfactorily in an oral examination focused on the candidate's knowledge of Southeast Asia as demonstrated by a research paper approved by the faculty advisor.

Courses

Interdisciplinary courses may be taken from many departments. To complete the MA Program in Southeast Asian Studies, the student must complete 30 credits of coursework (generally 10 courses); 6 of these credits (or two courses) must be graduate seminars. The 30 required courses should be taken in two broad areas: 12 credits (generally four courses) must focus on a single discipline or be connected by a specific theme; the remaining 18 credits (generally six courses), as electives, can be taken in any discipline. Up to 6 credits of Advanced Language (ASIALANG courses) may count towards the 30 credits. All courses counted for the degree program must have at least 30% Southeast Asian content, demonstrated by lectures and readings, and/or by relevant writing assignments or a research paper. For a more complete and up-to-date listing of currently available courses, contact the Center for Southeast Asian Studies. Because the instructors and content of many courses may change over time (especially for graduate-level topics courses and seminars), students should consult the Center for Southeast Asian Studies for confirmation on whether a course may count for the M.A. degree, the graduate certificate, or the doctoral minor.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 9 credits of graduate coursework from other institutions.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

With program approval, student are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student.

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

As a multidisciplinary program, the student will not be assigned a faculty advisor until they have decided on the disciplinary approach for their research paper. Until that time, the Graduate Program Advisor (Michael Cullinane) will serve as the student's advisor in completing the program requirements and will assist in the selection of a faculty advisor.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy (<https://policy.wisc.edu/library/UW-1221/>).

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate knowledge of one or more regions of Southeast Asia, focusing on a research question(s), problem or case study situated within a broader analytic framework and knowledge of the cultures, religions, history, anthropology, geography, economics, literature, and/or languages within scholarship on Southeast Asia.
2. Demonstrate proficiency in reading, speaking, and listening in one or more Southeast Asian languages, at least at the proficiency level of four semesters.

3. Analyze and synthesize information and ideas within the context of interdisciplinary Southeast Asian studies.
4. Understand, respond to, and construct arguments across disciplines relating to the study of Southeast Asia.
5. Apply their knowledge to solutions of intellectual as well as practical problems.
6. Recognize and apply principles of professional and ethical conduct.
7. Conduct academic research using an appropriate range of social scientific and/or humanistic sources, methodologies, and critical theories.
8. Communicate effectively in writing and orally.

PEOPLE

Assistant Professor Sharp

FRESHWATER AND MARINE SCIENCE, M.S.

The Freshwater and Marine Sciences (FMS) Graduate Program offers curricula leading to the master of science and doctor of philosophy degrees in freshwater and marine sciences. Interdisciplinary in nature, each individualized program of study provides graduate training in aquatic sciences and integrates related sciences. Students enrolled in the program are advised by faculty in several departments in the College of Letters & Science, the College of Engineering, the College of Agricultural and Life Sciences, and the School of Veterinary Medicine.

UW–Madison is recognized worldwide as a leader in the field of limnology and aquatic ecology. The FMS Program began in 1962 as the oceanography and limnology program. The program combines research and teaching from several fields and departments to develop a greater understanding of aquatic systems—their origins, inhabitants, phenomena, and impact on human life.

The FMS Program emphasizes limnological studies and is based on the premise that limnology and marine sciences are integrated fields requiring a broad base in the fundamental disciplines. Students may specialize in limnology or in marine sciences, or they may focus on processes common to both environments.

Study plans are individually tailored for each student by a guidance and evaluation committee composed of at least three faculty members including the major professor, another professor from the major field of interest, and a third from another discipline. At least two must be from the freshwater and marine sciences faculty, one from the biological sciences, and one from the physical sciences. The committee guides the student in developing study plans, research, and career goals.

FACILITIES

Facilities for freshwater and marine research and instruction in the biological, chemical, and physical areas of limnology and marine sciences are available at UW–Madison through the Center for Limnology, the Water Science & Engineering Laboratory, and the departments of faculty participating in the program. The Center for Limnology also maintains a year-round laboratory at Trout Lake. This facility is a well-equipped biological field station in the Northern Highlands lake district of Wisconsin. Several research vessels are available for research on the Great Lakes. Ships belonging to other institutions are used for oceanographic field research.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed

admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 1
Spring Deadline	October 1
Summer Deadline	May 1
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

ADMISSIONS

Applicants to the program typically have at least one year of college-level biology, chemistry, physics, and calculus. In addition, applicants should highlight their substantive experiences and career goals in freshwater and marine sciences. Prospective students make direct contact with potential faculty advisors. Admission depends upon finding a match between the skills and interests of the applicant and the needs of a suitable faculty mentor.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Various types of financial-assistance programs are available to qualified students in the form of research assistantships, teaching assistantships, fellowships, and special grants. Decisions regarding financial support are based on letters of recommendation, grades, and the matching of interests or experience of the applicant to the research program. For research assistantships, the applicant's interests and experience must match the needs of the funding project. Students are encouraged to seek outside funding.

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide (https://registrar.wisc.edu/course-guide/)).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	Students must earn a B or above in all courses counting toward degree requirements.
Assessments and Examinations	A formal thesis is required.

Language Requirements No language requirements.

REQUIRED COURSES

The degree has a flexible curriculum. Students are required to develop a plan of courses with their advisor. Most students take ATM OCN/ BOTANY/CIV ENGR/ENVIR ST/GEOSCI/ZOOLOGY 911 Limnology and Marine Science Seminar and ATM OCN/ENVIR ST/GEOSCI/ ZOOLOGY 750 Problems in Oceanography.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students may be allowed to count credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, 7 credits from a UW–Madison undergraduate degree are allowed to count toward the degree. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, 15 credits taken as a UW–Madison Special Student are allowed toward minimum coursework requirements. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

ADVISOR / COMMITTEE

All incoming students are assigned an advisor. Students are expected to meet with their advisor on a regular basis.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeeabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

OTHER

Graduate students in the FMS Program are typically supported through research assistantships, teaching assistantships, fellowships, and special grants. Students are encouraged to seek outside funding and should talk with prospective faculty members regarding funding options.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulate, critique, or elaborate the theories, research methods, and approaches to inquiry or practice in the relevant area of freshwater and/or marine sciences.
2. Identify sources and assemble evidence pertaining to questions or challenges in the relevant research field(s).
3. Understand the historical or global context of freshwater and/or marine sciences.
4. Select and/or use appropriate methodologies and practices.
5. Evaluate or synthesize information pertaining to questions or challenges in the students' area of specialization within the freshwater and marine sciences.
6. Communicate clearly in ways appropriate to the field of study.
7. Recognize and apply principles of ethical conduct.

PEOPLE

FACULTY

McMahon (chair, trina.mcmahon@wisc.edu) (Civil and Environmental Engineering), Anantharaman (Bacteriology), Block (Civil and Environmental Engineering), Booth (Agronomy), Cardiff (Geoscience), Desai (Atmospheric and Oceanic Sciences), Dugan (Integrative Biology), Ginder-Vogel (Civil and Environmental Engineering), Goldberg (Pathobiological Sciences), Gottschalk Druschke (English), Graham (Botany), Hanson (Integrative Biology), Hicks (Civil and Environmental Engineering), Hotchkiss (Botany), Hurley (Civil and Environmental Engineering), Jensen (Integrative Biology), Johnson (Integrative Biology), Lee (Integrative Biology), Loheide (Civil and Environmental Engineering), Maroon (Atmospheric and Oceanic Sciences), Pujara (Civil and Environmental Engineering), Remucal (Civil and Environmental Engineering), Stanley (Integrative Biology) Vander Zanden (Integrative Biology), Wilkinson (Integrative Biology), Wright (Civil and Environmental Engineering), Wu (Civil and Environmental Engineering)

FRESHWATER AND MARINE SCIENCE, PH.D.

The Freshwater and Marine Sciences (FMS) Graduate Program offers curricula leading to the master of science and doctor of philosophy degrees in freshwater and marine sciences. Interdisciplinary in nature, each individualized program of study provides graduate training in aquatic sciences and integrates related sciences. Students enrolled in the program are advised by faculty in several departments in the College of Letters & Science, the College of Engineering, the College of Agricultural and Life Sciences, and the School of Veterinary Medicine.

UW–Madison is recognized worldwide as a leader in the field of limnology and aquatic ecology. The FMS Program began in 1962 as the oceanography and limnology program. The program combines research and teaching from several fields and departments to develop a greater understanding of aquatic systems—their origins, inhabitants, phenomena, and impact on human life.

The FMS Program emphasizes limnological studies and is based on the premise that limnology and marine sciences are integrated fields requiring a broad base in the fundamental disciplines. Students may specialize in limnology or in marine sciences, or they may focus on processes common to both environments.

Study plans are individually tailored for each student by a guidance and evaluation committee composed of at least five faculty members including the major professor. The committee guides the student in developing study plans, research, and career goals.

All Ph.D. candidates are expected to obtain a broad background in aquatic sciences and depth in their research area. The background may include biology, chemistry, data science, geology, physics, or other related fields. The major, by nature of the program, includes advanced courses in several subdisciplines in freshwater and marine sciences.

FACILITIES

Facilities for freshwater and marine research and instruction in the biological, chemical, and physical areas of limnology and marine sciences are available at UW–Madison through the Center for Limnology, the Water Science & Engineering Laboratory, and the departments of faculty participating in the program. The Center for Limnology also maintains a year-round laboratory at Trout Lake. This facility is a well-equipped biological field station in the Northern Highlands lake district of Wisconsin. Several research vessels are available for research on the Great Lakes. Ships belonging to other institutions are used for oceanographic field research.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 1
Spring Deadline	October 1
Summer Deadline	May 1
GRE (Graduate Record Examinations)	Not required.

English Proficiency Test Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (<https://grad.wisc.edu/apply/requirements/#english-proficiency>).

Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

ADMISSIONS

Applicants to the program typically have at least one year of college-level biology, chemistry, physics, and calculus. In addition, applicants should highlight their substantive experiences and career goals in freshwater and marine sciences. Prospective students make direct contact with potential faculty advisors. Admission depends upon finding a match between the skills and interests of the applicant and the needs of a suitable faculty mentor.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Various types of financial-assistance programs are available to qualified students in the form of research assistantships, teaching assistantships, fellowships, and special grants. Decisions regarding financial support are based on letters of recommendation, grades, and the matching of interests or experience of the applicant to the research program. For research assistantships, the applicant's interests and experience must match the needs of the funding project. Students are encouraged to seek outside funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

Requirements

No language requirements.

Doctoral
Minor/
Breadth
Requirements

All doctoral students are required to complete a minor.

REQUIRED COURSES

The degree has a flexible curriculum. Students are required to develop a plan of courses with their advisor. Most students take ATM OCN/ BOTANY/CIV ENGR/ENVIR ST/GEOSCI/ZOOLOGY 911 Limnology and Marine Science Seminar and ATM OCN/ENVIR ST/GEOSCI/ ZOOLOGY 750 Problems in Oceanography.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students may be to count credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, 7 credits from a UW–Madison undergraduate degree are allowed to count toward the degree. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison University Special

With program approval, 15 credits taken as a UW–Madison Special Student are allowed toward minimum coursework requirements. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

PROBATION

A semester GPA below 3.000 will result in the student being placed on academic probation. If a semester GPA of 3.000 is not attained during the subsequent semester of enrollment the student may be dismissed from the program or allowed to continue for one additional semester based on advisor appeal to the Graduate School.

ADVISOR / COMMITTEE

All incoming students are assigned an advisor. Students are expected to meet with their advisor on a regular basis.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)

- Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

OTHER

Graduate students in the FMS Program are typically supported through research assistantships, teaching assistantships, fellowships, and special grants. Students are encouraged to seek outside funding and should talk with prospective faculty members regarding funding options.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulate challenges, frontiers, and limits with respect to theory, knowledge or practice within relevant areas of freshwater and marine sciences.
2. Formulate ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the students' relevant research field(s).
3. Conduct research that makes a substantive contribution.
4. Demonstrate breadth within freshwater and marine sciences.
5. Communicate complex or ambiguous ideas in a clear and understandable manner.

6. Consider the implications of the discipline to broader societal concerns.
7. Foster ethical conduct and professional guidelines.

PEOPLE

FACULTY

McMahon (chair, trina.mcmahon@wisc.edu) (Civil and Environmental Engineering), Anantharaman (Bacteriology), Block (Civil and Environmental Engineering), Booth (Agronomy), Cardiff (Geoscience), Desai (Atmospheric and Oceanic Sciences), Dugan (Integrative Biology), Ginder-Vogel (Civil and Environmental Engineering), Goldberg (Pathobiological Sciences), Gottschalk Druschke (English), Graham (Botany), Hanson (Integrative Biology), Hicks (Civil and Environmental Engineering), Hotchkiss (Botany), Hurley (Civil and Environmental Engineering), Jensen (Integrative Biology), Johnson (Integrative Biology), Lee (Integrative Biology), Loheide (Civil and Environmental Engineering), Maroon (Atmospheric and Oceanic Sciences), Pujara (Civil and Environmental Engineering), Remucal (Civil and Environmental Engineering), Stanley (Integrative Biology) Vander Zanden (Integrative Biology), Wilkinson (Integrative Biology), Wright (Civil and Environmental Engineering), Wu (Civil and Environmental Engineering)

INTEGRATIVE BIOLOGY, DOCTORAL MINOR

REQUIREMENTS

Graduate students who wish to pursue an Option A external minor in integrative biology should consult a faculty member within the Department of Integrative Biology (their potential minor professor) or the chair of the integrative biology graduate committee. Courses are selected in conjunction with the chosen faculty member who serves as the minor advisor, and the student's departmental advisor. A student may earn a doctoral minor in integrative biology with 9 credits minimum in integrative biology or zoology, including a seminar course, while in residence at UW-Madison. All 9 credits are either exclusively graduate-level integrative biology or zoology courses numbered 700 and above or courses numbered 300 and above and identified as designed for graduate work. Directed study courses do not count toward the minor.

PEOPLE

FACULTY

Please visit the Faculty (<https://integrativebiology.wisc.edu/faculty/>) and Affiliate Faculty (<https://integrativebiology.wisc.edu/affiliated-faculty/>) pages on the Integrative Biology website for information about our faculty and their research areas.

INTEGRATIVE BIOLOGY, M.S.

The Integrative Biology Graduate Program provides training in the following broad subject areas: cellular and molecular biology, developmental biology, neuroscience, physiology, ecology, evolution, and animal behavior. There is great flexibility in our graduate program to

serve the diverse scholarly interests and cultures in the Department of Integrative Biology. Each student's course of study is tailored to his or her individual interests, career goals, and needs, and we admit students with diverse academic backgrounds. The path taken by a student results from a deliberative process that involves discussions between the student and the student's advisor and advisory committee.

The Department of Integrative Biology faculty strongly believes that graduate education should be distinguished from undergraduate education in recognition of individuality and emphasis on responsibility in graduate students. This philosophy requires flexibility and is not well served by the imposition of many formal requirements to be met by all students. Rather, more emphasis is placed on the role of advisory committees in devising programs of breadth and depth appropriate for individual students with due regard to areas outside of biology which are important for the student's effectiveness in their chosen field.

The faculty, students and staff in the Integrative Biology Graduate Program are committed to supporting a diverse, equitable, and inclusive workplace. We believe that each person's identity, background, ethnicity, race, sexual orientation, beliefs, and other experiences fuel the creativity and innovation that are central to scientific discovery. In our program we also require a diversity statement in your application.

FACILITIES

Facilities and staff are available for advanced study in a wide variety of biological fields including aquatic and terrestrial ecology, conservation biology, cell/molecular/developmental and neurobiology, endocrinology, ethology, genetics, evolution and systematics, comparative physiology, and physiological ecology.

In addition to a broad range of well-equipped laboratories, research facilities include advanced microscopy facilities (<http://www.microscopy.wisc.edu/>), limnological laboratories on campus (Lake Mendota) and in northern Wisconsin (Trout Lake), the University Arboretum, the Zoological Museum, and a Molecular Systematics Laboratory.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	September 1
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.

English Proficiency Test Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (<https://grad.wisc.edu/apply/requirements/#english-proficiency>).

Other Test(s) (e.g., GMAT, MCAT) n/a

Letters of Recommendation Required 3

Given the broad nature of the program, there are no strict prerequisites for admission. Interested applicants should identify and contact potential faculty advisors. Admission to the graduate program is contingent upon being accepted by an individual faculty advisor. Applicants should contact potential faculty advisors by email early in the application process to discuss mutual interests and to determine if the faculty member is actively recruiting graduate students. For a list of all faculty members and their research interests, please see People (<https://integrativebiology.wisc.edu/people/>) on the department website.

In addition to the Graduate School application, all applicants must electronically submit at least three letters of recommendation, a diversity statement, a personal statement including areas of research interest and the names of prospective faculty advisors, a CV/resume, and unofficial transcripts from all undergraduate and graduate schools attended (official transcripts will be requested upon admission to the program). For more specific instructions regarding application requirements, please see Prospective Students (<https://integrativebiology.wisc.edu/prospective-graduate-students/>) on the department website. The annual admission application deadline is December 1. Most admission decisions will be made, and applicants will be notified, by the end of March.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Application fee waivers are available to qualified students through the graduate school and can often be made available by the professors in the department. Financial support is available to qualified graduate students in the form of **teaching assistantships, research assistantships, and fellowships**.

Graduate students who have a teaching or research assistantship of at least a 33.3% appointment (approximately 13.3 hours per week) during the fall or spring semester are eligible to receive **remission of full tuition**. Fellowships that are payrolled through the university and that carry stipends equivalent to at least a 33.3% research assistantship also qualify for remission of non-resident tuition. Tuition remission is conditionally awarded at the start of the semester based on the expectation that actual earnings during the semester will be at least 33.3% of the full-time rate.

All students pay segregated fees. The only exception is that fellowships paid through the Graduate School have segregated fees waived in addition to tuition. Segregated fees are approximately \$761/semester and are used for campus overhead to help pay for the exercise facilities, student unions, student organization funding, etc.

Assistantships and fellowships also provide **eligibility for an excellent health insurance program**, an extremely valuable benefit that provides single or family coverage that is more comprehensive than individuals can usually purchase on their own. Additionally, assistantships and fellowships provide a **stipend** for living expenses.

TEACHING ASSISTANTSHIPS

The most common source of support is a teaching assistantship. To receive a teaching assistantship, candidates for admission must meet the following requirements:

- evidence (usually from the undergraduate transcript) of an appropriate background in the relevant subject matter of the course(s) to which appointment is being considered;
- evidence (usually from letters of recommendation or verbal communication) of the candidate's potential as a teaching assistant;
- an undergraduate GPA of 3.0 or above (on a 4.0 scale); and
- for students whose native language is not English, evidence of competence in spoken English through the SPEAK test that is administered by UW–Madison. International applicants should note that a TA appointment is not normally possible during the first year of graduate study.

Current students who apply for their first teaching assistantship are also subject to the above criteria, as well as their performance as a graduate student. Reappointment as a teaching assistant depends upon satisfactory progress as a graduate student, satisfactory performance as a teaching assistant, and completing the Equity/Diversity TA Training.

Teaching assistants may be eligible for UW–Madison teaching awards (<https://grad.wisc.edu/taawards/>), including the Early Excellence in Teaching Award, Exceptional Service Award, Innovation in Teaching Award, Capstone Ph.D. Teaching Award, and the College of Letters & Science Teaching Fellow Award.

RESEARCH ASSISTANTSHIPS

Research assistantships are made possible by grants awarded to faculty for particular research programs. Recipients are selected by the individual professor concerned, and the student's interests and experience must match the needs of the funding project. Availability of research assistantships varies.

ADVANCED OPPORTUNITY FELLOWSHIPS

Advanced Opportunity Fellowships (AOF) are granted to the UW–Madison Graduate School by the State of Wisconsin and are combined with other graduate education funds to support the recruitment and retention of highly qualified underrepresented students in UW–Madison graduate programs. Fellowships are competitive and merit-based. AOF funding is intended to increase the racial and ethnic diversity of the graduate student population, as well as to support economically disadvantaged and first generation college students. AOF fellowships are paid through the Graduate School by the College of Letters & Science's Community of Graduate Research Scholars (<http://ls.wisc.edu/current-students/graduate-students/cgrs/>) (CGRS) program.

EXTERNAL FELLOWSHIPS

Fellowships from professional societies and outside agencies provide another important source of aid for which students may apply either before or after commencing graduate work at UW–Madison. If necessary, external fellowships can often be supplemented with university funds up to prevailing university fellowship rates.

All qualified students who are US citizens or permanent residents are urged to apply to the National Science Foundation (NSF) Graduate Research Fellowship Program (GRFP). Students apply directly to NSF; the closing date is usually in early November. Please check the NSF (<http://www.nsf.gov/>) website for the application instructions and deadline.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum 30 credits
Credit Requirement

Minimum 16 credits
Residence Credit Requirement

Minimum Graduate Coursework Requirement Half of degree coursework (15 credits out of 30 total credits) must be completed graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (<https://registrar.wisc.edu/course-search-enroll> (<https://registrar.wisc.edu/course-search-enroll/>)).

Overall Graduate GPA Requirement 3.00 GPA required.

Other Grade Requirements

An average record of B or better in all work taken as a graduate student is required by the Department of Integrative Biology (grades of P and S are for this purpose considered to be satisfactory at the B level; grades of Incomplete are considered for this purpose to be unsatisfactory if they are not removed during the following semester of residence).

Assessments and Examinations In the second semester of the first year, students must complete the Certification of Candidate for a Master's Degree.

Typically the defense of the master's degree occurs no later than the end of the student's sixth semester. A master's degree warrant must be requested from the department prior to the defense.

Language Requirements To be determined by the advisory committee.

REQUIRED COURSES

In addition to completing a research project, M.S. students must take courses and seminars to fulfill required research credits. Specific Zoology courses (<http://guide.wisc.edu/courses/zoology/>) are approved by the student's advisor or advisory committee and depend on the student's research area, interests, and goals. In keeping with the diverse areas of research and training for students in Integrative Biology, students may additionally take any courses outside of Zoology that have been identified as graduate-level to meet this requirement.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With committee approval, students are allowed to count no more than 14 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements. Typically committees will choose to cap coursework from another institution at a lower level than 14 credits, but this is a committee decision to be made on a case-by-case basis.

UW–Madison Undergraduate

With committee approval, students are allowed up to 7 credits numbered 300 or above from their UW–Madison undergraduate career to fulfill graduate requirements. Typically committees will choose to cap coursework allowed from undergraduate careers at a lower level than the 7 allowed, but this is a committee decision to be made on a case-by-case basis.

UW–Madison University Special

With committee approval, students are allowed to count no more than 15 credits of coursework numbered 300 or above taken as a UW–Madison Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements. Typically committee members will choose to cap the number of coursework taken as a University Special student at a lower level, but this is a committee decision to be made on a case-by-case basis.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor and a committee. To ensure that students are making satisfactory progress toward a degree, every student is required to meet with the advisor and committee annually to review progress. If a progress report has not been filed by April 1, a hold will be placed on student course registration.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

It is expected that a master's student will complete the thesis or research report by the end of the third academic year. If this is not accomplished by the end of the summer following the third academic year, the major professor must present a written statement to the Director of Graduate Studies that explains why the master's degree has not been completed and describes plans that the student and the student's advisory committee have agreed upon to ensure completion, including specific expectations, dates for completion, and consequences should expectations not be met. Continuation in the program beyond four years will be at the discretion of the mentor and advisory committee. Five years is the outside limit by which a student must complete the master's degree.

It is up to the student's committee to determine whether or not a student who has been absent for five or more consecutive years will lose the credits earned before the absence; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)

- Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

OTHER

There is great flexibility in our graduate program to serve the diverse scholarly interests and cultures in the Department of Integrative Biology. The path taken by a student results from a deliberative process that involves discussions between the student and the student's advisor and advisory committee. The department's policy is to only accept students that can be financially supported by teaching assistantships, research assistantships, and/or fellowships.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

DEPARTMENT RESOURCES

A goal for our graduate program is to provide students in Integrative Biology with diverse training that will prepare them for a range of flexible and sustainable careers (e.g., academia, industry, government, science policy and administration, science commerce, science writing, law, and science education and outreach at all levels). In consultation with the student's advisor and advisory committee, students can engage in professional development, teaching training (e.g., through the Delta program), internships in industry, science writing, and/or policy, and some earn master's degrees in areas that complement their studies in Integrative Biology (e.g., biostatistics, biotechnology).

LEARNING OUTCOMES

1. Knowledge: Master fundamental skills in at least one of the broad subject areas represented in the Department of Integrative Biology.
2. Research: Students will complete an original research project in one of the broad subject areas represented in the Department of Integrative Biology.
3. Communication: Effectively communicate in writing and orally.
4. Ethical Conduct: Students will have an understanding of professional and ethical responsibility.
5. Career Preparation: Students will be provided with diverse training that will prepare them for a range of flexible and sustainable careers (e.g., academia, industry, government, science policy and administration, science commerce, science writing, law, and science education and outreach at all levels).

PEOPLE

FACULTY

Please visit the Faculty (<https://integrativebiology.wisc.edu/faculty/>) and Affiliate Faculty (<https://integrativebiology.wisc.edu/affiliated-faculty/>) pages on the Integrative Biology website for information about our faculty and their research areas.

INTEGRATIVE BIOLOGY, PH.D.

The Integrative Biology Graduate Program provides training in the following broad subject areas: cellular and molecular biology, developmental biology, neuroscience, physiology, ecology, evolution, and animal behavior. There is great flexibility in our graduate program to serve the diverse scholarly interests and cultures in the Department of Integrative Biology. Each student's course of study is tailored to his or her individual interests, career goals, and needs, and we admit students with diverse academic backgrounds. The path taken by a student results from a deliberative process that involves discussions between the student and the student's advisor and advisory committee.

The Department of Integrative Biology faculty strongly believes that graduate education should be distinguished from undergraduate education in recognition of individuality and emphasis on responsibility in graduate students. This philosophy requires flexibility and is not well served by the imposition of many formal requirements to be met by all students. Rather, more emphasis is placed on the role of advisory committees in devising programs of breadth and depth appropriate for individual students with due regard to areas outside of biology which are important for the student's effectiveness in their chosen field.

The faculty, students and staff in the Integrative Biology Graduate Program are committed to supporting a diverse, equitable, and inclusive workplace. We believe that each person's identity, background, ethnicity, race, sexual orientation, beliefs, and other experiences fuel the creativity and innovation that are central to scientific discovery. In our program we also require a diversity statement in your application.

JOINT DEGREE

Doctoral students may elect a joint degree (two programs) which combines integrative biology with another biological program. The requirements for such candidates will be determined by the certification committee (which includes members of both programs) in accordance with regulations established by the Graduate School.

FACILITIES

Facilities and staff are available for advanced study in a wide variety of biological fields including aquatic and terrestrial ecology, conservation biology, cell/molecular/developmental and neurobiology, endocrinology, ethology, genetics, evolution and systematics, comparative physiology, and physiological ecology.

In addition to a broad range of well-equipped laboratories, research facilities include advanced microscopy facilities (<http://www.microscopy.wisc.edu/>), limnological laboratories on campus (Lake Mendota) and in northern Wisconsin (Trout Lake), the University Arboretum, the Zoological Museum, and a Molecular Systematics Laboratory.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 1
Spring Deadline	September 1
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Given the broad nature of the program, there are no strict prerequisites for admission. Interested applicants should identify and contact potential faculty advisors. Admission to the graduate program is contingent upon being accepted by an individual faculty advisor. Applicants should contact potential faculty advisors by email early in the application process to

discuss mutual interests and to determine if the faculty member is actively recruiting graduate students. For a list of all faculty members and their research interests, please see People (<https://integrativebiology.wisc.edu/people/>) on the department website.

In addition to the Graduate School application, all applicants must electronically submit at least three letters of recommendation, a diversity statement, a personal statement including areas of research interest and the names of prospective faculty advisors, a CV/resume, and unofficial transcripts from all undergraduate and graduate schools attended (official transcripts will be requested upon admission to the program). For more specific instructions regarding application requirements, please see Prospective Students (<https://integrativebiology.wisc.edu/prospective-graduate-students/>) on the department website. The annual admission application deadline is December 1. Most admission decisions will be made, and applicants will be notified, by the end of March.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Application fee waivers are available to qualified students through the graduate school and can often be made available by the professors in the department. Financial support is available to qualified graduate students in the form of **teaching assistantships, research assistantships, and fellowships**.

Graduate students who have a teaching or research assistantship of at least a 33.3% appointment (approximately 13.3 hours per week) during the fall or spring semester are eligible to receive **remission of full tuition**. Fellowships that are payrolled through the university and that carry stipends equivalent to at least a 33.3% research assistantship also qualify for remission of non-resident tuition. Tuition remission is conditionally awarded at the start of the semester based on the expectation that actual earnings during the semester will be at least 33.3% of the full-time rate.

All students pay segregated fees. The only exception is that fellowships paid through the Graduate School have segregated fees waived in addition to tuition. Segregated fees are approximately \$761/semester and are used for campus overhead to help pay for the exercise facilities, student unions, student organization funding, etc.

Assistantships and fellowships also provide **eligibility for an excellent health insurance program**, an extremely valuable benefit that provides single or family coverage that is more comprehensive than individuals can usually purchase on their own. Additionally, assistantships and fellowships provide a **stipend** for living expenses.

TEACHING ASSISTANTSHIPS

The most common source of support is a teaching assistantship. To receive a teaching assistantship, candidates for admission must meet the following requirements:

- evidence (usually from the undergraduate transcript) of an appropriate background in the relevant subject matter of the course(s) to which appointment is being considered;
- evidence (usually from letters of recommendation or verbal communication) of the candidate's potential as a teaching assistant;
- an undergraduate GPA of 3.0 or above (on a 4.0 scale); and
- for students whose native language is not English, evidence of competence in spoken English through the SPEAK test that is administered by UW–Madison. International applicants should note that a TA appointment is not normally possible during the first year of graduate study.

Current students who apply for their first teaching assistantship are also subject to the above criteria, as well as their performance as a graduate student. Reappointment as a teaching assistant depends upon satisfactory progress as a graduate student, satisfactory performance as a teaching assistant, and completing the Equity/Diversity TA Training.

Teaching assistants may be eligible for UW–Madison teaching awards (<https://grad.wisc.edu/taawards/>), including the Early Excellence in Teaching Award, Exceptional Service Award, Innovation in Teaching Award, Capstone Ph.D. Teaching Award, and the College of Letters & Science Teaching Fellow Award.

RESEARCH ASSISTANTSHIPS

Research assistantships are made possible by grants awarded to faculty for particular research programs. Recipients are selected by the individual professor concerned, and the student's interests and experience must match the needs of the funding project. Availability of research assistantships varies.

ADVANCED OPPORTUNITY FELLOWSHIPS

Advanced Opportunity Fellowships (AOF) are granted to the UW–Madison Graduate School by the State of Wisconsin and are combined with other graduate education funds to support the recruitment and retention of highly qualified underrepresented students in UW–Madison graduate programs. Fellowships are competitive and merit-based. AOF funding is intended to increase the racial and ethnic diversity of the graduate student population, as well as to support economically disadvantaged and first generation college students. AOF fellowships are paid through the Graduate School by the College of Letters & Science's Community of Graduate Research Scholars (<http://ls.wisc.edu/current-students/graduate-students/cgrs/>) (CGRS) program.

EXTERNAL FELLOWSHIPS

Fellowships from professional societies and outside agencies provide another important source of aid for which students may apply either before or after commencing graduate work at UW–Madison. If necessary, external fellowships can often be supplemented with university funds up to prevailing university fellowship rates.

All qualified students who are US citizens or permanent residents are urged to apply to the National Science Foundation (NSF) Graduate Research Fellowship Program (GRFP). Students apply directly to NSF; the closing date is usually in early November. Please check the NSF (<http://www.nsf.gov/>) website for the application instructions and deadline.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Graduate Coursework Requirement	51 credits
Minimum Residence Requirement	32 credits
Overall Graduate GPA Requirement	Half of degree coursework (26 credits out of 51 total credits) must be completed graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244) (https://policy.wisc.edu/library/UW-1244/).
Overall Graduate GPA Requirement	3.00 GPA required.

Other Grade Requirements An average record of B or better in all work taken as a graduate student is required by the Department of Integrative Biology (grades of P and S are for this purpose considered to be satisfactory at the B level; grades of Incomplete are considered for this purpose to be unsatisfactory if they are not removed during the following semester of residence).

Assessments and Examinations In the second semester of the first year, students must complete the Certification of Candidate for a Ph.D. Degree.

By the end of the fourth semester, students must complete the qualifying examination and return the signed qualifying examination form to the department.

The preliminary examination (defense of research project) should be completed and the prelim warrant submitted by the end of the sixth semester. Note that in addition to passing the prelim exam, students must have completed 32 credits, clear all Incomplete or Progress grades in nonresearch courses, complete all minor requirements and earn at least a cumulative 3.000 GPA in order to be granted dissertator status. The preliminary defense warrant must be requested from the department.

Defense of the Ph.D. usually occurs after the tenth semester. A final defense warrant must be requested from the department.

Language Requirements To be determined by the advisory committee.

Doctoral Minor/Breadth Requirements All doctoral students are required to complete a minor.

REQUIRED COURSES

Ph.D. students must take courses and seminars to fulfill required research credits. Specific Zoology courses (<http://guide.wisc.edu/courses/zooology/>) are approved by the student's advisor or advisory committee and depend on the student's research area, interests, and goals. In keeping with the diverse areas of research and training for students in Integrative Biology, students may additionally take any courses outside of Zoology that have been identified as graduate-level to meet this requirement.

All students are required to serve as a teaching assistant for a minimum of one semester. All students must hold a departmental seminar in which they present their graduate research.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With committee approval, students are allowed to count no more than 19 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements. Typically committees will choose to cap coursework from another institution at a lower level than 19 credits, but this is a committee decision to be made on a case-by-case basis.

UW–Madison Undergraduate

With committee approval, students are allowed up to 7 credits numbered 300 or above from their UW–Madison undergraduate career to fulfill graduate requirements. Typically committees will choose to cap coursework allowed from undergraduate careers at a lower level than the 7 allowed, but this is a committee decision to be made on a case-by-case basis.

UW–Madison University Special

With committee approval, students are allowed to count no more than 15 credits of coursework numbered 300 or above taken as a UW–Madison Special student. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements. Typically committee members will choose to cap the number of coursework taken as a University Special student at a lower level, but this is a committee decision to be made on a case-by-case basis.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor and a committee. To ensure that students are making satisfactory progress toward a degree, every student is required to meet with the advisor and committee annually to review progress. If a progress report has not been filed by April 1, a hold will be placed on student course registration.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

It is expected that a Ph.D. student will defend the dissertation by the end of the fifth academic year. If this is not accomplished by the end of the summer following the sixth academic year, the student's mentor must present a written statement to the Director of Graduate Studies that explains why the Ph.D. has not been completed and describes plans that the student and the student's advisory committee have agreed upon to ensure completion, including specific expectations, dates for completion, and consequences should expectations not be met. Continuation in the program beyond eight years will be at the discretion of the mentor and advisory committee. Ten years is the outside limit by which a student must complete the Ph.D. degree.

It is up to the student's committee to determine whether or not a student who has been absent for five or more consecutive years will lose the

credit earned before the absence; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

OTHER

There is great flexibility in our graduate program to serve the diverse scholarly interests and cultures in the Department of Integrative Biology. The path taken by a student results from a deliberative process that involves discussions between the student and the student's advisor and advisory committee. The department's policy is to only accept students that can be financially supported by teaching assistantships, research assistantships, and/or fellowships.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

DEPARTMENT RESOURCES

A goal for our graduate program is to provide students in Integrative Biology with diverse training that will prepare them for a range of flexible and sustainable careers (e.g., academia, industry, government, science policy and administration, science commerce, science writing, law, and science education and outreach at all levels). In consultation with the student's advisor and advisory committee, students can engage in professional development, teaching training (e.g., through the Delta program), internships in industry, science writing, and/or policy, and some earn master's degrees in areas that complement their studies in Integrative Biology (e.g., biostatistics, biotechnology).

LEARNING OUTCOMES

1. Knowledge: Demonstrate academic mastery in at least one of the broad subject areas represented in the Department of Integrative Biology.
2. Research: Students will develop and complete original research that advances a specific field of study within one of the broad subject areas represented in the Department of Integrative Biology.
3. Communication: Effectively communicate to diverse audiences in writing, through oral presentations, and discussions.
4. Teaching: Effectively teach topics or research methods in Cellular and Molecular Biology; Developmental Biology; Neuroscience; Physiology; Ecology; Evolution; or Animal Behavior.
5. Ethical Conduct: Students will have an understanding of professional and ethical responsibility.
6. Career Preparation: Students will be provided with diverse training that will prepare them for a range of flexible and sustainable careers (e.g., academia, industry, government, science policy and administration, science commerce, science writing, law, and science education and outreach at all levels).

PEOPLE

FACULTY

Please visit the Faculty (<https://integrativebiology.wisc.edu/faculty/>) and Affiliate Faculty (<https://integrativebiology.wisc.edu/affiliated-faculty/>) pages on the Integrative Biology website for information about our faculty and their research areas.

JOURNALISM AND MASS COMMUNICATION

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Journalism and Mass Communication, M.A. (p. 1127)
- Mass Communications, Doctoral Minor (p. 1133)
- Mass Communications, Ph.D. (p. 1134)

JOURNALISM AND MASS COMMUNICATION, M.A.

Graduate programs in journalism and mass communication are designed for advanced academic preparation in the various fields of mass communication and journalism, and for training in research and teaching.

Students interested in the M.A. in Journalism and Mass Communication should refer to one of the two named options:

1. Professional M.A. (p. 1129) prepares students for careers in news and information production. The program provides a mix of practical communication skills, conceptual knowledge of journalism and mass communication, and an area of specialization (credits in multi-media communication and topic specialization).
2. Research M.A. (p. 1131) focuses on developing skills in mass communication research and typically leads to enrollment in a doctoral program, including our own PhD in Mass Communications (credits in theory and methods).

Both programs offer flexibility. Students, in consultation with their faculty advisors, select coursework based upon their interests and career goals.

FACILITIES

The Center for Journalism Ethics (<https://ethics.journalism.wisc.edu/>) advances the ethical standards and practices of democratic journalism through discussion, research, teaching, professional outreach, and newsroom partnerships. Students, faculty, leading journalists and members of the public participate in conferences, workshops, and publications. The center tracks and analyzes ethical issues for all media platforms on its website. The center contributes to the teaching of ethics in the school's curriculum. Students have the opportunity to write for the center's website, cover conferences, and contribute to research.

Founded in 2006, Madison Commons (<https://madisoncommons.org/>) provides news and information from all of Madison's neighborhoods. It is a collaboration between Madison citizens from every part of the city and faculty and students at SJMC, focusing on coverage of education, food, transportation and neighborhood news. It provides a lab for research on community, civic and public journalism.

The Mass Communication Research Center (<https://mrc.journalism.wisc.edu/>) is an interdisciplinary research facility that conducts research into all phases of communication and provides a common meeting ground for scholars with an interest in communication behavior. It also provides an opportunity for graduate students to participate in research programs and to initiate and conduct their own thesis projects.

The Center for Communication and Democracy (<https://ccd.journalism.wisc.edu/>) is a research and action project at UW-Madison. The goals of the center are to study how citizens can use new communications technologies to advance democratic discussion and civic participation; to explore the relationships between geographic communities and the emerging world of cyberspace; to explore the structural relations among communications and information markets, the civic sector, and government to find relationships necessary to build and sustain a public sphere in communication that is not dominated by the market, while sustaining economic growth and technological innovation; and to ask what government policies are most appropriate for combining

the vibrancy of the market with the common needs of citizens in the sphere of communication.

Qualitative Inquiry and Research Group (<https://journalism.wisc.edu/graduate/research-centers/>) meetings are devoted to providing feedback on pre-circulated graduate student papers, completed or in-progress. Call for paper proposals are sent out at least twice per year.

The Mass Communication History Center (<https://journalism.wisc.edu/graduate/research-centers/>), a part of the Wisconsin Historical Society, provides scholars access to private collections, papers, and various types of unpublished materials relating to the growth of mass communication in the United States and other parts of the world. The Wisconsin Historical Society also has a large collection of bound and microfilm files of American and foreign newspapers.

ADMISSIONS

Students apply to the MA in Journalism and Mass Communication through one of the named options:

- Professional (p. 1129)
- Research (p. 1131)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Graduate students are eligible for a range of financial support, including teaching assistantships, project assistantships, research assistantships and dissertator scholarships. All applicants (both domestic and international) who are admitted for graduate studies are automatically considered for support. No separate application is required. However, because resources are limited and the number of qualified applicants exceeds the amount of available funds, only a subset of admitted students is guaranteed financial support.

The most common form of financial support for graduate students is teaching assistantships, which are allocated on a long-term guaranteed basis or a short-term yearly basis with no presumption of support the following academic year. Professional track students are considered for scholarships that cover the costs of tuition and most fees. For more information, visit our website (<https://journalism.wisc.edu/graduate/financial-aid/>).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement 30 credits

Minimum Residence Credit Requirement 16 credits

Minimum Graduate Coursework Requirement 15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (<https://policy.wisc.edu/library/UW-1244> (<https://policy.wisc.edu/library/UW-1244/>)).

Overall Graduate GPA Requirement 3.25 GPA required for degree conferral. For academic probation and other grading policies, this program follows the Graduate School's policy: <https://policy.wisc.edu/library/UW-1203> (<https://policy.wisc.edu/library/UW-1203/>).

Other Grade Requirements Students must earn a B or above in all core curriculum coursework.

Assessments and Examinations See Named Option for policy information.

Language Requirements No language requirements.

REQUIRED COURSES

Select a Named Option (p. 1128) for courses required.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the MA in Journalism and Mass Communication must select one of the following named options:

View as listView as grid

- JOURNALISM AND MASS COMMUNICATION: PROFESSIONAL, M.A. (P. 1129)
- JOURNALISM AND MASS COMMUNICATION: RESEARCH, M.A. (P. 1131)

POLICIES

Students should refer to one of the named options for policy information:

- Professional (p. 1129)
- Research (p. 1131)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

Research Track

We offer two research colloquia (JOURN 901 and LSC 700) during the academic year where faculty share their research findings and methods and engage students in lively conversations about how to conduct research. We offer a teaching colloquium (JOURN 902) that explores pedagogical principles and applications that prepares students for teaching careers. Teaching assistantships provide hands-on training.

Within our research groups and centers, graduate students work side by side with faculty and with each other, allowing the senior students to mentor younger students and for faculty to mentor students who are not their advisees. Our graduate students organize and host an annual day-long conference where they present their research in a series of panels, and they present their research at conferences around the world.

We offer a series of professional development workshops for graduate students with faculty and alumni panelists. The topics include: navigating the academic job market, exploring the non-academic job market, turning a paper into a presentation and how to find funding for research.

Professional Track

Professional track students attend quarterly meetings with industry professionals to learn about a variety of jobs and build their networks. Required internships allow students to gain real-world experience while in the program and to build their portfolio. Students work with the career advisor and attend the employer presentations and mock interview sessions. Students attend at least one professional conference during their time in the program.

LEARNING OUTCOMES

1. Attain mastery in an area of the mass communication field.
2. Demonstrate understanding of the primary field of study in a historical, social, psychological, cultural or global context.
3. Develop professional communication skills related to gathering, assessing, compiling and disseminating information, by selecting and/or utilizing the most appropriate methodologies and practices and the evaluation and synthesis of information.
4. Develop in-depth and specialized expertise in a topic of interest. In doing so students will be able to identify sources of information and assemble evidence pertaining to questions in that area.
5. Select and/or utilize the most appropriate professional practices.

PEOPLE

For a complete faculty/staff directory see this website (<https://journalism.wisc.edu/people/faculty-staff/>).

JOURNALISM AND MASS COMMUNICATION: PROFESSIONAL, M.A.

This is a named option in the Journalism and Mass Communication M.A. (p. 1127)

The Professional M.A. program prepares students for careers in news and information production. The program provides a mix of practical communication skills, conceptual knowledge of journalism and mass communication, and an area of specialization.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	April 15
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Refer to the department website (<https://journalism.wisc.edu/admissions/graduate-admissions/>) for more detailed admissions information.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM INFORMATION

All applicants who are admitted for graduate studies are automatically considered for support. No separate application is required.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements	Detail
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits

Minimum Graduate Coursework Requirement	15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.25 GPA required for degree conferral. For academic probation and other grading policies, this program follows the Graduate School's policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/).
Other Grade Requirements	No other grade requirements.
Assessments and Examinations	Students present a portfolio of their work in the last semester.
Language Requirements	No language requirements.

Specialization Courses (outside of Journalism & Mass Communication) 6

In addition to the courses listed above, students must complete at least 6 credits of coursework outside the School of Journalism and Mass Communication and at the 300 level or above.

Total Credits 30

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding

general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

This program follows the Graduate School's policy for Satisfying Requirements with Prior Graduate Coursework from Other Institutions. (<https://policy.wisc.edu/library/UW-1216/>)

UW-Madison Undergraduate

This program follows the Graduate School's policy for Satisfying Requirements with Coursework from Undergraduate Career at UW-Madison (<https://policy.wisc.edu/library/UW-1216/>).

UW-Madison University Special

This program follows the Graduate School's policy for Transfer from UW-Madison University Special Student Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>).

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy (<https://policy.wisc.edu/library/UW-1221/>).

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeeabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)

- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM INFORMATION

We offer a mass communication research colloquium, a teaching colloquium and a professional development series of workshops for our graduate students, including sessions for academic and for industry and non-tenure track careers.

PEOPLE

For a complete faculty/staff directory see this website (<https://journalism.wisc.edu/people/faculty-staff/>).

MASS COMMUNICATIONS, DOCTORAL MINOR

A candidate for a doctoral degree in another area may earn a doctoral minor in Mass Communications in the School of Journalism and Mass

Communication. Typically, the student will write a dissertation combining research in the major and minor fields. This minor is open to any doctoral students who seek to complement their main area of research with a thorough understanding of communication dynamics and how these dynamics affect society.

ADMISSIONS

Contact Lisa Aarli, graduate advisor, aarli@wisc.edu.

REQUIREMENTS

A minor in mass communications consists of at least 10 graduate credits in the School of Journalism and Mass Communication seminars and colloquia.

MASS COMMUNICATIONS, PH.D.

The Ph.D. degree in mass communications is an interdisciplinary program offered jointly by the Department of Life Sciences Communication and the School of Journalism and Mass Communication.

The program offers several internationally recognized areas of research and teaching excellence:

- civic and political communication
- health and environmental communications
- history of media institutions
- information technologies
- social networking and digital media
- processes and effects of mediated communication
- law and ethics of media
- international and inter-cultural communication
- public opinion
- science and risk communication
- social marketing
- journalism studies
- media ecologies
- race and media

Working closely with their major professor and committee, students draw from courses offered in departments across the campus to develop a plan of study in preparation for independent and original research in their areas of interest.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the**

Graduate School as well as the program(s). Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	May be required in certain cases; consult program.*
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

*

See details at the Mass Communications PhD admissions webpage (<https://masscommphd.wisc.edu/application/>).

Applicants for this program are expected to have demonstrated an interest and background in communication research by having earned a thesis-based M.A. or M.S. degree in communication or other relevant disciplines. The admissions committee, however, may accept other evidence of suitable preparation.

Students must meet the minimum requirements for admission set by the Graduate School. Applicants must submit an online application, GRE scores, a statement of purpose, official transcripts from all previously attended institutions, a CV, and three letters of recommendation. Letters of recommendation should come from people who can speak to the scholarly abilities of the applicant. International applicants are required to take and attain a satisfactory score on the Test of English as a Foreign Language (TOEFL), or the International English Language Testing System (IELTS) exam. Test scores must be furnished to the school before the application is considered complete.

For more information, visit the Mass Communications Ph.D. website (<https://masscommphd.wisc.edu/>).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Prospective students should see the program website (<https://masscommphd.wisc.edu/funding/>) for funding information.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	65 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	At least 50% of the required coursework (33 of 65 credits) must be in graduate-level coursework; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide (https://registrar.wisc.edu/course-guide/)).
Overall Graduate GPA Requirement	3.50 GPA required.
Other Grade Requirements	Courses in which the student earns a grade below B do not count toward the 65 credit minimum, but they do count in the cumulative GPA.

Assessments and Examinations Doctoral students must pass preliminary exams once coursework is completed.

Language Requirements No language requirements.

Doctoral Minor/Breadth Requirements Breadth is provided via interdisciplinary training (minor requirement waived).

REQUIRED COURSES

65 credits minimum in theory and methods/statistics courses, selected in consultation with the faculty advisor and approved by the Graduate Committee of the student's home department. Attendance of both seminars in the joint seminar sequence (JOURN 901 Colloquium in Mass Communication and LSC 700 Colloquium in Life Sciences Communication) is strongly recommended for new graduate students.

Additional requirements are detailed in the Academic Policies and Procedures Handbook for Graduate Work (<https://journalism.wisc.edu/wp-content/blogs.dir/41/files/2017/11/JOINT-Handbook-updated-10-17.pdf>) in the joint Ph.D. program in mass communications.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

In consultation with the student's advisor, and with program approval, students are allowed to count no more than 33 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

With program approval, up to 7 credits numbered 600 and above from a UW–Madison undergraduate degree are allowed to count toward the degree. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison University Special

In consultation with the student's advisor and with program approval, students are allowed to count no more than 12 credits of coursework numbered 600 and above taken as a UW–Madison Special student. Coursework taken ten years prior to admission to the doctoral program is not allowed to satisfy requirements.

PROBATION

Doctoral students must do the following to maintain satisfactory progress:

1. Earn a minimum 3.5 cumulative GPA by the end of the second semester in residence and maintain that GPA for the duration of the degree program.
2. Remove grades of Incomplete in the semester following their occurrence. A course proposal cannot be approved until all incompletes are removed.
3. Complete preliminary exams within three to six months of completing coursework.
4. Maintain steady progress toward completion of degree, including final oral exam and deposit of dissertation. Fulltime students can expect four to five years; completion will vary for part-time students.

ADVISOR / COMMITTEE

Doctoral committees must include at least two members from outside the Department of Life Sciences Communication and the School of Journalism and Mass Communication.

CREDITS PER TERM ALLOWED

15 credits

TIME CONSTRAINTS

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)

- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

For students in the College of Agricultural & Life Sciences: College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALs), any student who feels unfairly treated by a member of the CALs faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALs, the student should seek the advice of the dean or director of that unit to determine how to proceed.
 - a. If the complaint involves an academic department in CALs the student should proceed in accordance with item 3 below.
 - b. If the grievance involves a unit in CALs that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
 - a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
 - b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
 - c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
 - d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALs Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the

subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.

4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

For students in the College of Letters & Science:

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

OTHER

Applicants are considered for funding as part of the admissions process. We offer a range of funding, including graduate assistantships, fellowships and research scholarship awards.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

We offer two research colloquia (JOURN 901 and LSC 700) during the academic year where faculty share their research findings and methods and engage students in lively conversations about how to conduct research. We offer a teaching colloquium (JOURN 902) that explores pedagogical principles and applications that prepares students for teaching careers. Teaching assistantships provide hands-on training.

Within our research groups and centers, graduate students work side by side with faculty and with each other, allowing the senior students to mentor younger students and for faculty to mentor students who are not their advisees. Our graduate students organize and host an annual day-long conference where they present their research in a series of panels, and they present their research at conferences around the world.

We offer a series of professional development workshops for graduate students with faculty and alumni panelists. The topics include: navigating the academic job market, exploring the non-academic job market, turning a paper into a presentation and how to find funding for research.

LEARNING OUTCOMES

1. Articulate research problems, potentials, and limits with respect to theory, knowledge, and practice within the field of study. Demonstrating comprehensive and intensive knowledge of the theories, concepts, frameworks, empirical findings, and controversies in the field.
2. Formulate ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the field of study. Demonstrating a comprehensive and intensive knowledge of appropriate and relevant research methods and analytical techniques.
3. Create research or scholarship that makes a substantive contribution to knowledge.
4. Demonstrate breadth within their learning experiences.
5. Advance contributions of the field of study to society.
6. Communicate complex ideas effectively.
7. Foster ethical and professional conduct.

PEOPLE

Faculty: Professors Brossard (LSC Chair), Downey, Friedland, Kim, McLeod, Riddle (SJMC Director of Graduate Studies), Robinson, Rojas (SJMC Chair), Scheufele (LSC Director of Academic Programs), D Shah, H Shah, Wagner, Xenos. Associate Professors: Culver, Graves, Palmer, Shaw. Assistant Professors: Cascio, Chen, Chinn, Christy, Li, McGarr, Newman, Yang.

ATHLETIC TRAINING, M.S.

The Master's degree in Athletic Training is a professional program that provides rigorous and comprehensive preparation for students seeking a health care career in athletic training. Athletic trainers (ATs) are multi-skilled health care professionals who collaborate with physicians as part of the health care team to provide preventative services, emergency care, clinical diagnosis, therapeutic intervention and rehabilitation of injuries and medical condition. Athletic trainers provide health care in a variety

of practice settings for people involved in all levels of physical activity. Practice environments include youth to professional sports, military and public service personnel, secondary schools, colleges, universities, performing arts, workers with physically demanding jobs, physician practice settings, and much more.

Prospective students should visit the program website (<https://kinesiology.education.wisc.edu/AT/>) for additional information on program outcomes and opportunities.

The program is accredited by the Commission on Accreditation of Athletic Training Education (<https://caate.net/>) and students are eligible to sit for the national Board of Certification exam (<https://bocatc.org/>) after successful completion of the MSAT program.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	The program does not admit in the fall.
Spring Deadline	The program does not admit in the spring.
Summer Deadline	April 1*
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

*

Early application consideration deadline is December 1.

MASTER OF SCIENCE IN ATHLETIC TRAINING (MSAT)

- Applicants for all graduate programs must complete a UW-Madison Graduate school application: <https://grad.wisc.edu/apply/>
- Applicants for the professional program in athletic training must complete the Athletic Training Central Application Service (ATCAS) application: <https://atcas.liasoncas.com/applicant-ux/#/login>

ADMISSION CRITERIA AND PREREQUISITE COURSES

Admission to the MSAT (professional program in athletic training) requires:

- Bachelor's degree (or equivalent) from a regionally accredited school of higher education by the start of the program
- Transcripts from each college, university, or technical college attended showing work completed and in progress
- Observation of two Certified Athletic Trainers in different clinical practice settings. Refer to the MSAT Program website for forms and guidelines for required observation experiences. (<https://kinesiology.education.wisc.edu/at/apply-msat/>)
- Minimum of three letters of recommendation
- Personal statement responding to prompts provided on the graduate application
- A grade of "C" or better in the following prerequisite courses or their equivalent:

Required Prerequisite Courses / UW-Madison or comparable coursework

UW-Madison Course(s) / Comparable / Description

Code	Title	Credits
ZOOLOGY/ BIOLOGY 101	Animal Biology	3-5
or ZOOLOGY/ BIOLOGY/ BOTANY 151	Introductory Biology	
CHEM 103	General Chemistry I	4
PHYSICS 103	General Physics	4
PSYCH 210	Basic Statistics for Psychology	3
or STAT 301	Introduction to Statistical Methods	
or STAT 371	Introductory Applied Statistics for the Life Sciences	
PSYCH 202	Introduction to Psychology	3-4
ANAT&PHY 335	Physiology ¹	5
ANAT&PHY 337	Human Anatomy ¹	3
KINES 314	Physiology of Exercise	4

1

If anatomy and physiology are taken as a combined course, two semesters are necessary to meet this requirement.

Recommended Prerequisite Courses / UW-Madison or comparable coursework

Code	Title	Credits
NUTR SCI 132	Nutrition Today	3
or NUTR SCI 332	Human Nutritional Needs	

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Financial assistance may be available through School of Education fellowships. The Athletic Training Program also has scholarships available to both incoming and returning students. For more information, please contact the MSAT Program Director.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	Yes	Yes	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements	Detail
Minimum Credit Requirement	58 credits
Minimum Residence Credit Requirement	29 credits
Minimum Graduate Coursework Requirement	All degree coursework must be completed at the graduate level; courses with the Graduate Level Coursework attribute are identified and searchable in the university's Course Guide (https://registrar.wisc.edu/course-guide (https://registrar.wisc.edu/course-guide/)).
Overall Graduate GPA Requirement	3.00 GPA required.
Other Grade Requirements	No other grade requirements.

Assessments and Examinations	No formal examination required.
Language Requirements	No language requirements.

REQUIRED COURSES

Code	Title	Credits
Summer I (8 credits)		
KINES 570	Anatomical Foundations in Athletic Training	3
KINES 571	Emergency Procedures for Athletic Trainers	2
KINES 572	Foundational Skills in Athletic Training	1

KINES 674 Practice Based Research in Athletic Training

1 advisor to insure satisfactory progress toward their MSAT degree and to monitor clinical placement progress needs.

Total Credits**58****CREDITS PER TERM ALLOWED**

15 credits

TIME CONSTRAINTS

Master's degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Students may count the coursework completed before their absence for meeting graduate degree credit requirements; the Graduate School will not count that work toward the Graduate School's minimum residence credit minimum.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeeabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

SCHOOL OF EDUCATION GRIEVANCE POLICY AND PROCEDURES

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these

POLICIES**GRADUATE SCHOOL POLICIES**

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES**PRIOR COURSEWORK****Graduate Work from Other Institutions**

With program approval, students are allowed to count no more than 15 credits of graduate course work from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

No credits from a UW-Madison undergraduate degree are allowed to count toward the MSAT degree.

UW-Madison University Special

With program approval and payment of the difference in tuition (between special and graduate tuition), students are allowed to count no more than 15 credits of course work numbered 300 or above taken in UW-Madison University Special student status. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

An overall GPA below 3.0 will place the student on academic probation. If a 3.0 GPA is not regained in the subsequent semester the student may be dismissed from the program or allowed to continue provisionally for 1 semester based on advisor appeal to the Graduate School.

ADVISOR / COMMITTEE

The MSAT assigns an advisor to each student. MSAT students must complete one mandatory group advising meeting each semester. In addition, students must meet individually once per semester with an

grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (<https://studyabroad.wisc.edu/>)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected classes (i.e., race, color, national origin, sex, disability, or age), as well as sexual misconduct, contact the Office of Compliance (<https://compliance.wisc.edu/eo-complaint/>).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at <https://conduct.students.wisc.edu/>.

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
 - a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
 - b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal written grievance to the chair or director within 30 business days¹ of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a formal written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the formal written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a formal written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

1

For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, has five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Understand the role of the athletic trainer within the broader health care system.
2. Demonstrate appropriate oral and written communication skills.
3. Develop and apply strategies to prevent the incidence and/or severity of injury and illnesses.
4. Demonstrate the clinical skills needed to appropriately diagnose patients for treatment and referral.
5. Apply clinical and decision-making skills to respond to acute injury and illness, including emergencies.
6. Assess patient status and develop treatment and rehabilitation that are consistent with contemporary disablement models.
7. Demonstrate clinical scholarship in the form of evidence appraisal and application to influence athletic training practice.
8. Maintain the highest standards of clinical practice by examining the quality of patient care through the use of patient outcomes.
9. Apply research methods to develop and evaluate clinical questions applicable to practice-based research environments while demonstrating an understanding of ethical research practice.

ACCREDITATION

ACCREDITATION

Commission on Accreditation of Athletic Training Education (<https://caate.net/>)

Accreditation status: Active—in good standing. Next accreditation review: 2025–2026.

CERTIFICATION/LICENSURE

The program is accredited by the Commission on Accreditation of Athletic Training Education (<https://caate.net/>) and students are eligible to sit for the national Board of Certification exam (<https://bocatc.org/>) after successful completion of the MSAT program.

Currently, 49 states and the District of Columbia regulate the practice of athletic training. Individuals must be legally recognized by the appropriate state regulatory agency prior to practicing athletic training. The Board of Certification (BOC) exam is recognized by all athletic trainer state regulatory agencies to meet their exam requirement. Compliance with state regulatory requirements is mandatory and the only avenue to legal athletic training practice.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

The requirements of this program meet Certification/Licensure in the following states:

Alabama, Alaska, Arizona, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South

Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming, District of Columbia

The requirements of this program do not meet Certification/Licensure in the following states:

Not applicable

The requirements of this program have not been determined if they meet Certification/Licensure in the following states:

California*, American Samoa, Guam, Northern Mariana Islands, Puerto Rico, U.S. Virgin Islands

*California does not regulate athletic training at this time

KINESIOLOGY, DOCTORAL MINOR

The Department of Kinesiology's mission is to research, teach and apply knowledge related to movement, exercise and human occupation, with the ultimate goal of enhancing human health, productivity and quality of life. The Department of Kinesiology offers graduate courses that reflect the breadth of the discipline, including biomechanics, exercise psychology, exercise physiology, motor control and behavior, physical activity epidemiology and occupational science. A minor from the Department of Kinesiology is tailored to each student's individual interests, career goals, needs and background. The learning goals for the doctoral minor are to demonstrate an understanding of the major current and past theories, research findings, methodologies and techniques in one or more of the broad areas of inquiry represented within the Department of Kinesiology.

ADMISSIONS

Graduate students in other programs at UW–Madison who plan to minor in kinesiology should contact the Department of Kinesiology graduate studies chair early in their graduate program to ensure acceptance into and adequate mentoring in the minor program (see Information for Prospective Students (<http://kinesiology.education.wisc.edu/kinesiology/academics/graduate-programs/prospective-students/>)). When students meet with the graduate studies chair, they will fill out a course plan. The department's graduate studies chair, the student's doctoral committee mentor, and the student must sign the course plan.

REQUIREMENTS

The student must complete 9 credits in kinesiology courses such that all of the following conditions are satisfied:

- All credits must be in courses numbered 300 and above
- At least 3 credits are taken in courses numbered 700 and above
- The student receives a satisfactory grade (C or above) for all credits
- The GPA of the credits counted is at least 3.00
- All credits are taken as a graduate student

PEOPLE

For a full list of our faculty members, please visit our website. (<https://kinesiology.education.wisc.edu/people/>)

KINESIOLOGY, M.S.

The Department of Kinesiology's mission is to create, interpret, transmit, and apply knowledge related to movement, exercise, and human occupation with the ultimate goal of enhancing human health, productivity, and quality of life.

The M.S. degree in Kinesiology can be pursued through one of its named options. These named options are formal sub-majors documented on the transcript.

- Applied Exercise Science (p. 1145)
- Biomechanics (p. 1148)
- Exercise Physiology (p. 1152)
- Exercise Psychology (p. 1156)
- Motor Control and Behavior (p. 1160)
- Occupational Science (p. 1164)
- Physical Activity Epidemiology (p. 1168)

ADMISSIONS

Students apply to the Master of Science in Kinesiology through one of the named options:

- Kinesiology: Applied Exercise Science, M.S. (p. 1145)
- Kinesiology: Motor Control and Behavior, M.S. (p. 1160)
- Kinesiology: Biomechanics, M.S. (p. 1148)
- Kinesiology: Exercise Psychology, M.S. (p. 1156)
- Kinesiology: Physical Activity Epidemiology, M.S. (p. 1168)
- Kinesiology: Exercise Physiology, M.S. (p. 1152)
- Kinesiology: Occupational Science, M.S. (p. 1164)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Prospective students should see the program website (<https://kinesiology.education.wisc.edu/academics/grad-program/tuition/>) for funding information.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement 30 credits

Minimum Residence Credit Requirement See Named Options for policy information.

Minimum Graduate Coursework Requirement See Named Options for policy information.

Overall Graduate GPA Requirement See Named Options for policy information.

Other Grade Requirements See Named Options for policy information.

Assessments and Examinations See Named Options for policy information.

Language Requirements No language requirements.

REQUIRED COURSES

Select a Named Option for courses required.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the M.S. in Kinesiology must select one of the following named options:

View as listView as grid

- KINESIOLOGY: APPLIED EXERCISE SCIENCE, M.S. (P. 1145)
- KINESIOLOGY: BIOMECHANICS, M.S. (P. 1148)
- KINESIOLOGY: EXERCISE PHYSIOLOGY, M.S. (P. 1152)
- KINESIOLOGY: EXERCISE PSYCHOLOGY, M.S. (P. 1156)
- KINESIOLOGY: MOTOR CONTROL AND BEHAVIOR, M.S. (P. 1160)
- KINESIOLOGY: OCCUPATIONAL SCIENCE, M.S. (P. 1164)
- KINESIOLOGY: PHYSICAL ACTIVITY EPIDEMIOLOGY, M.S. (P. 1168)

POLICIES

Students should refer to one of the named options for policy information:

- Kinesiology: Applied Exercise Science, M.S. (p. 1145)
- Kinesiology: Motor Control and Behavior, M.S. (p. 1160)
- Kinesiology: Biomechanics, M.S. (p. 1148)
- Kinesiology: Exercise Psychology, M.S. (p. 1156)
- Kinesiology: Physical Activity Epidemiology, M.S. (p. 1168)
- Kinesiology: Exercise Physiology, M.S. (p. 1152)
- Kinesiology: Occupational Science, M.S. (p. 1164)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Master fundamental knowledge in at least one of the broad areas of specialization represented in the Department of Kinesiology.
2. Demonstrate understanding of major current and past theories, research findings, methodologies, and techniques in their areas of specialization.
3. Identify sources and assemble evidence pertaining to questions or challenges in their area of specialization.
4. Select appropriate methodologies to conduct research, analyze, and interpret resulting data.
5. Communicate clearly in ways appropriate to their area of specialization.
6. Retrieve and examine scientific literature, evaluate evidence for and against hypotheses, and be able to discuss strengths and weaknesses in existing literature.
7. Recognize and apply principles of professional and ethical conduct.

PEOPLE

For a full list of our faculty members, please visit our website. (<https://kinesiology.education.wisc.edu/people/>)

KINESIOLOGY: APPLIED EXERCISE SCIENCE, M.S.

This is a named option in the Kinesiology, M.S. (p. 1143) For more information, please see our program website (<https://kinesiology.education.wisc.edu/academics/grad-program/>).

The Applied Exercise Science named option of the Kinesiology MS is designed to provide broad, graduate-level training in Kinesiology for students who are not necessarily interested in a career doing research in the field. This degree supports and interest in coaching/teaching (team or individual), personal training, or fitness instructions. Students will take graduate-level courses that cover the breadth of the field of Kinesiology and will take additional electives from Kinesiology or from any departments across campus that the students see as fitting their personal educational goals. The degree also supplements the practice of physical therapy, athletic training, other allied health professions, or any individual purpose a student may have. Students can use elective credits, internships, and independent studies to customize their program to meet their needs and future career goals.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	February 15
Spring Deadline	December 1
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency)
Other Test(s) (e.g., GMAT, MCAT)	n/a

Letters of Recommendation Required 3

Applications may be considered after February 15.

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. Please consult the kinesiology website (<https://kinesiology.education.wisc.edu/grad/about/>) for further details of these requirements and procedures.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements	Detail
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/)
Other Grade Requirements	n/a
Assessments and Examinations	Not required.
Language Requirements	No language requirements.

REQUIRED COURSES

Code	Title	Credits
Fall A (odd years)		
KINES 773	Cardiorespiratory Adaptions to Environment and Exercise	3
KINES 991	Research in Physical Activity-Theory and Design	3
Spring A		
KINES 700	Psychological Effects of Exercise	3
KINES/ POP HLTH 791	Physical Activity Epidemiology	3
Fall B (even years)		
KINES 618	Biomechanics	2
KINES 713	Neural Basis of Normal and Pathological Movement	3
Spring B		
KINES 774	Metabolic Responses to Exercise and Environmental Stress	2
KINES 861	Principles of Motor Control and Learning	3

Student chooses, based on personal interests/goals, from this list or any other 300-level or higher numbered courses

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 15 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

No credits from a UW-Madison undergraduate degree are allowed to count toward the degree.

UW-Madison University Special

This program follows the Graduate School's policy for Transfer from UW-Madison University Special Student Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR/COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>).

The program advisor is the Director of Graduate Studies.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

Within the Department, completion of required courses within two years of matriculation is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

SCHOOL OF EDUCATION GRIEVANCE POLICY AND PROCEDURES

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered

under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (<https://studyabroad.wisc.edu/>)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected classes (i.e., race, color, national origin, sex, disability, or age), as well as sexual misconduct, contact the Office of Compliance (<https://compliance.wisc.edu/eo-complaint/>).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at <https://conduct.students.wisc.edu/>.

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
 - a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
 - b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal written grievance to the chair or director within 30 business days¹ of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a formal written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the formal written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a formal written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

1

For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, has five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

The Director of Graduate Studies, Dr. Lisa Cadmus-Bertram, is the advisor for all students in the Applied Exercise Science named option.

Contact information (<https://kinesiology.education.wisc.edu/people/>) for faculty can be found on the Kinesiology website.

KINESIOLOGY: BIOMECHANICS, M.S.

This is a named option in the Kinesiology, M.S. (p. 1143) For more information, please see our program website (<https://kinesiology.education.wisc.edu/academics/grad-program/>).

Biomechanics is the application of mechanics to biological systems. Within the broad field of biomechanics, specific areas of study at UW-Madison include: tissue mechanics, neuro-muscular control, human performance, sports performance, injury, rehabilitation, and limb dynamics. The program equips students to apply the tools of engineering analysis to biological systems from the cellular to the whole-body level with career objectives in academia, health care, and sports science. Elective course work within the program allows students to pursue individual interests such as physiological adaptations to mechanical stimuli or computer modeling. Students generally have opportunity to teach during their training.

The MS degree is designed to provide the necessary foundation for participation in biomechanical or injury prevention research. Coursework in biomechanics, statistics, research methods, and motor control form the basis of the formal training. Graduates of the program may pursue additional educational training, enter clinical careers, industry, or biomedical research.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	February 15
Spring Deadline	December 1
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency)
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Applications may be considered after February 15.

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. If a professor in the area of interest agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the Kinesiology website (<https://kinesiology.education.wisc.edu/grad/about/>) for further details of these requirements and procedures.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School.

Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated

KINES 614	Biological Factors Influencing Exercise Performance	
KINES 721	Neural Basis for Movement	
Total Credits		30

1

All Kinesiology M.S. and Ph.D. students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.

2

Electives courses to meet the degree requirements are chosen in consultation with the advisor from this list or any other 300-level or higher numbered courses on campus. Each candidate's program of formal course work and independent study is tailored in a personalized manner to accommodate the individual's research and career goals.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 15 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

No credits from a UW-Madison undergraduate degree are allowed to count toward the degree.

UW-Madison University Special

This program follows the Graduate School's policy for Transfer from UW-Madison University Special Student Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR/COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>).

Primary faculty mentor will be the main advisor. The Director of Graduate Studies and Graduate Program Manager will provide additional support and advising as needed.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

Within the Department, completion of required courses within two years of matriculation is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)

- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

SCHOOL OF EDUCATION GRIEVANCE POLICY AND PROCEDURES

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (<https://studyabroad.wisc.edu/>)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected classes (i.e., race, color, national origin, sex, disability, or age), as well as sexual misconduct, contact the Office of Compliance (<https://compliance.wisc.edu/eo-complaint/>).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at <https://conduct.students.wisc.edu/>.

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
 - a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
 - b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal written grievance to the chair or director within 30 business days¹ of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a formal written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the formal written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a formal written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or

one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.

6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

1

For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, has five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Faculty mentors in Biomechanics include:

David Bell
Scott Crawford
Kreg Gruben
Kristen Pickett

Contact information (<https://kinesiology.education.wisc.edu/people/>) for faculty and lab information (<https://kinesiology.education.wisc.edu/research/>) can be found on the Kinesiology website.

KINESIOLOGY: EXERCISE PHYSIOLOGY, M.S.

This is a named option in the Kinesiology, M.S. (p. 1143) For more information, please see our program website (<https://kinesiology.education.wisc.edu/academics/grad-program/>).

Exercise Physiology is the study of the biological responses and adaptations to acute and chronic exercise. Research and graduate training at UW-Madison focuses on elucidating: 1) the physiological, biochemical and molecular mechanisms underlying these processes and 2) the influence of exercise on health and disease.

Dr. Diffie studies the regulation of contraction in skeletal and cardiac muscle and how this regulation is altered by perturbations such as exercise training, injury, or disease. Typical experiments involve measurement of contractile properties single skeletal muscle fibers and single cardiac myocytes and correlation of altered mechanical properties to changes in cell protein composition detected by biochemical and molecular biological techniques. Interaction with faculty and students from other departments (including Nutritional Sciences, Biochemistry, School of Medicine, and the Institute on Aging) is encouraged by ongoing collaborative research efforts. The research of William Schrage's laboratory is focused on how blood flow is regulated in muscle and brain circulations. Specifically, Dr. Schrage is interested in how acute exercise or environmental stress like hypoxia influences blood flow and how this is impacted by obesity and metabolic syndrome. He measures blood flow using state-of-the-art technology including ultrasound and MRI. A key approach is to use pharmacologic tools to understand how blood flow is controlled, and how obesity changes which mechanisms change the ability to regulate blood flow under stress. Dr. Barnes focuses on how aging and exercise alters blood flow and blood pressure regulation. Her current projects focus on age-associated changes in cerebral blood flow, the sympathetic nervous system activity influences cerebral blood flow, and how these relate to the risk of cardiovascular disease and dementia.

The Exercise Physiology named option of the MS program is designed to provide the fundamental framework for understanding and conducting research in Exercise Physiology. In addition to coursework in Physiology, Statistics, and Research Methods, students pursue advanced study in Exercise Physiology. Many MS students have the opportunity to teach during their training. Graduates of the MS program often pursue further graduate training, usually in a Ph.D., M.D. or D.O. program. Other MS graduates immediately pursue a career in research, educational, or clinical settings.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	February 15
Spring Deadline	December 1
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency)
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Applications may be considered after February 15.

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. If a professor in the area of interest agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the kinesiology website (<https://kinesiology.education.wisc.edu/grad/about/>) for further details of these requirements and procedures.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

Face to Face	Evening/Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements	Detail
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/)
Other Grade Requirements	n/a
Assessments and Examinations	Not required.
Language Requirements	No language requirements.

REQUIRED COURSES

Code	Title	Credits
KINES 773	Cardiorespiratory Adaptions to Environment and Exercise	3
KINES 774	Metabolic Responses to Exercise and Environmental Stress	2
STAT/F&W ECOL/HORT 571	Statistical Methods for Bioscience I	4
KINES 900	Seminar in Kinesiology ¹	4
KINES 953	Human Biodynamics Seminar ²	1
KINES 990	Research or Thesis	4+
KINES 991	Research in Physical Activity-Theory and Design	3

Suggested Electives ³		9
ANAT&PHY 435	Fundamentals of Human Physiology	
KINES/NURSING 523	Clinical Exercise Testing & Training	

KINES 615 Laboratory Techniques in Exercise Physiology

Total Credits **30**

1

All Kinesiology M.S. and Ph.D. students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.

2

Students should enroll in KINES 953 Human Biodynamics Seminar each time the course is offered.

3

Elective courses to meet the degree requirements are chosen in consultation with the advisor from this list or any other 300-level or higher numbered courses on campus. Each candidate's program of formal course work and independent study is tailored in a personalized manner to accommodate the individual's research and career goals.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 15 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

No credits from a UW-Madison undergraduate degree are allowed to count toward the degree.

UW-Madison University Special

This program follows the Graduate School's policy for Transfer from UW-Madison University Special Student Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR/COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>).

Primary faculty mentor will be the main advisor. The Director of Graduate Studies and Graduate Program Manager will provide additional support and advising as needed.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

Within the Department, completion of required courses within two years of matriculation is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeeabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

SCHOOL OF EDUCATION GRIEVANCE POLICY AND PROCEDURES

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation,

course grades (study abroad grade complaints are handled through International Academic Programs (<https://studyabroad.wisc.edu/>)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected classes (i.e., race, color, national origin, sex, disability, or age), as well as sexual misconduct, contact the Office of Compliance (<https://compliance.wisc.edu/eo-complaint/>).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at <https://conduct.students.wisc.edu/>.

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
 - a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
 - b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal written grievance to the chair or director within 30 business days¹ of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a formal written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the formal written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a formal written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

1

For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, has five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Faculty mentors in Exercise Physiology include:

Jill Barnes
Gary Diffie
William Schrage

Contact information (<https://kinesiology.education.wisc.edu/people/>) for faculty and lab information (<https://kinesiology.education.wisc.edu/research/>) can be found on the Kinesiology website.

Affiliate advisors in exercise physiology include:

Marlowe Eldridge
Troy Hornberger

KINESIOLOGY: EXERCISE PSYCHOLOGY, M.S.

This is a named option in the Kinesiology, M.S. (p. 1143)

For more information, please see our program website (<https://kinesiology.education.wisc.edu/academics/grad-program/>).

Exercise Psychology is the study of psychological responses and adaptations to acute and chronic physical activity. The graduate program

at UW-Madison focuses on the psychobiological aspects of physical activity in both healthy and diseased populations. Research in the Exercise Psychology Laboratory has been generally concerned with quantifying the psychophysiological responses to exercise. Numerous behavioral methods have been used to determine affective and perceptual responses to exercise including the use of biofeedback, hypnosis, imagery, meditation, and traditional relaxation interventions such as autogenic training. More recently, the laboratory's focus has been on the psychophysiological aspects of pain, fatigue, and perceived exertion during and following exercise. These studies are being conducted in both healthy participants and patients with chronic pain and fatigue and are aimed at understanding the psychophysiological mechanisms that underlie the perceptual experience. Neuroimaging experiments using functional magnetic resonance imaging (fMRI) are also being conducted to determine neural responses related to pain, fatigue, and exercise.

Applicants for graduate study with specialization in exercise psychology are ordinarily only accepted where there is an interest in pursuing the Ph.D. Students in this area are trained in the theory and methods required for understanding the psychological and biological bases of behavior. Emphasis is placed upon the demonstration of competence in general psychology, exercise psychology, exercise science, statistics and research design rather than completion of specific courses. Each candidate's program of formal course work and independent study is tailored in a personalized manner to accommodate the individual's research and career goals.

This program is committed to providing graduate students with the best available training to prepare them for a variety of careers in academic, clinical, research, government, and other settings. Emphasis is on both extensive academic training in quantitative methods, kinesiology, and general psychology along with extensive research training in the area of exercise psychology. Students are expected to become creative scientists and to exhibit early and continuing commitment to research and scholarship. Most students have several publications in refereed journals to their credit before receiving their Ph.D.'s. While most of the graduates of this program are currently teaching and conducting research at the university level, some have elected to pursue clinical, administrative, and research careers in government, university, and commercial settings.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	February 15
Spring Deadline	December 1
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.

English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency)
--------------------------	---

Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Applications may be considered after February 15.

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. If a professor in the area of interest agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the kinesiology website (<https://kinesiology.education.wisc.edu/grad/about/>) for further details of these requirements and procedures.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

SCHOOL OF EDUCATION GRIEVANCE POLICY AND PROCEDURES

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (<https://studyabroad.wisc.edu/>)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected classes (i.e., race, color, national origin, sex, disability, or age), as well as sexual misconduct, contact the Office of Compliance (<https://compliance.wisc.edu/eo-complaint/>).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at <https://conduct.students.wisc.edu/>.

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
 - a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's

- supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
- b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal written grievance to the chair or director within 30 business days¹ of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
 4. On receipt of a formal written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the formal written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
 5. On receipt of a formal written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
 6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
 7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

1

For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, has five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties

will be asked to speak separately (i.e., not in the room at the same time).

4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Faculty mentors in Exercise Psychology include:

Dane Cook
Kelli Koltyn

Contact information (<https://kinesiology.education.wisc.edu/people/>) for faculty and lab information (<https://kinesiology.education.wisc.edu/research/>) can be found on the Kinesiology website.

KINESIOLOGY: MOTOR CONTROL AND BEHAVIOR, M.S.

This is a named option in the Kinesiology, M.S. (p. 1143) For more information, please see our program website (<https://kinesiology.education.wisc.edu/academics/grad-program/>).

The graduate program in Motor Control and Behavior involves advanced study of the psychological and neurophysiological foundations of motor control, motor learning, motor development, and disorders of movement. The program emphasizes the development of a competent independent researcher and is designed to provide a thorough grounding in the area of motor performance, exposing the student to the underlying theoretical processes that influence the control, acquisition, and development of motor behavior. Students may focus specifically on control, learning, or developmental issues, or design their program to expose them to a broad range of study in motor behavior. The graduate student will work closely with their advisor in both formal and informal educational settings. The Motor Control and Behavior named option in the Kinesiology MS is designed toward 1) introducing the beginning graduate student to the field of Motor Control and Behavior including the areas of the neural control of movement, motor learning, and motor development, and 2) preparing students for advanced Ph.D. work.

Several laboratories (human, animal) are available for research in the area of Motor Control and Behavior. The Human Motor Behavior Laboratory (<https://kinesiology.education.wisc.edu/research/motor-behavior-lab/>) is an active research environment where faculty and students collaborate on projects aimed at gaining a better understanding of the planning and performance of simple and complex upper and lower limb activities in both natural and virtual environments. The Motor Systems Physiology Laboratory (<https://kinesiology.education.wisc.edu/research/motor-systems-physiology-lab/>) focuses on understanding the neural control of reaching to grasp, which is essential to primate motor behavior and strongly depends on cerebellar function. The Sensory Motor Integration Lab (SMIL) (<https://kinesiology.education.wisc.edu/research/kristen-pickett-research/>) focuses on improving the everyday lives of older adults through the implementation of physical activity interventions—delivered

in-home via telehealth and through group classes held at community-based facilities. The Neuromuscular Coordination Laboratory (<https://ncl.labs.wisc.edu/>) conducts fundamental research on the interactions between mechanics, neural control, and muscular coordination that allow humans and other animals to navigate their environments.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	February 15
Spring Deadline	December 1
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency)
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Applications may be considered after February 15.

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. If a professor in the area of interest agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the kinesiology website (<https://kinesiology.education.wisc.edu/grad/about/>) for further details of these requirements and procedures.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School.

Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements	Detail
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/)
Other Grade Requirements	n/a
Assessments and Examinations	Not required.
Language Requirements	No language requirements.

REQUIRED COURSES

Code	Title	Credits
KINES 900	Seminar in Kinesiology ¹	4
KINES 990	Research or Thesis	4+
KINES 991	Research in Physical Activity-Theory and Design	3
Statistics courses (2 courses, chosen in consultation with advisor, example sequences below):		6-8
ED PSYCH 760 & ED PSYCH 761	Statistical Methods Applied to Education I and Statistical Methods Applied to Education II	
STAT/F&W ECOL/ HORT 571 & STAT/ F&W ECOL/ HORT 572	Statistical Methods for Bioscience I and Statistical Methods for Bioscience II	

Suggested Elective Courses ²

		11-13
KINES 713	Neural Basis of Normal and Pathological Movement	
KINES 721	Neural Basis for Movement	
KINES 861	Principles of Motor Control and Learning	
KINES 951	Seminar-Biomechanics	
KINES 961	Seminar in Motor Control and Learning	

Total Credits **30**

1

All Kinesiology M.S. and Ph.D. students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.

2

Elective courses to meet the degree requirements are chosen in consultation with the advisor from this list or any other 300-level or higher numbered courses on campus. Each candidate's program of formal course work and independent study is tailored in a personalized manner to accommodate the individual's research and career goals.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 15 credits of graduate coursework from other institutions. Coursework earned

five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

No credits from a UW-Madison undergraduate degree are allowed to count toward the degree.

UW-Madison University Special

This program follows the Graduate School's policy for Transfer from UW-Madison University Special Student Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR/COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>).

Primary faculty mentor will be the main advisor. The Director of Graduate Studies and Graduate Program Manager will provide additional support and advising as needed.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

Within the Department, completion of required courses within two years of matriculation is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)

- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

SCHOOL OF EDUCATION GRIEVANCE POLICY AND PROCEDURES

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (<https://studyabroad.wisc.edu/>)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected classes (i.e., race, color, national origin, sex, disability, or age), as well as sexual misconduct, contact the Office of Compliance (<https://compliance.wisc.edu/eo-complaint/>).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at <https://conduct.students.wisc.edu/>.

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
 - a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
 - b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.

3. If the concern remains unresolved after step 2, the student may submit a formal written grievance to the chair or director within 30 business days¹ of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a formal written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the formal written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a formal written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

1

For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, has five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Faculty mentors in Motor Control and Behavior include:

Luis Columna

Kreg Gruben
Andrea Mason
Kristen Pickett
Peter Van Kan

Contact information (<https://kinesiology.education.wisc.edu/people/>) for faculty and lab information (<https://kinesiology.education.wisc.edu/research/>) can be found on the Kinesiology website.

KINESIOLOGY: OCCUPATIONAL SCIENCE, M.S.

This is a named option in the Kinesiology, M.S. (p. 1143) For more information, please see our program website (<https://kinesiology.education.wisc.edu/academics/grad-program/>).

As occupational scientists, our faculty and graduate students explore theories of occupational engagement and conduct research to expand the body of knowledge supporting the practice of occupational therapy. Occupational Science integrates theories and practices from the disciplines of anatomy, biomechanics, motor control, neuroscience, psychology, and sociology to enhance our understanding of how engagement in the activities of daily life promotes human health and well-being. The Occupational Science named option of the Kinesiology MS emphasizes the understanding of theories underlying occupational science. Students conduct research and develop advanced knowledge in a specific area of concentration within occupational science.

All faculty members have established laboratories for conducting research in Occupational Science, some of which are free-standing and others of which are located in research centers around campus. Opportunities abound for engaging in collaborative work with faculty from other disciplines such as kinesiology, biomedical engineering, psychology, nursing, population health, sociology, human ecology, special education or rehabilitation psychology. A full list and description of the research labs, hosted by the Occupational Therapy Program, can be found on the department's research page (<https://kinesiology.education.wisc.edu/research/>).

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	February 15
Spring Deadline	December 1
Summer Deadline	This program does not admit in the summer.

GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Applications may be considered after February 15.

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. If a professor in the area of interest agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the kinesiology website (<https://kinesiology.education.wisc.edu/grad/about/>) for further details of these requirements and procedures.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

KINES 900	Seminar in Kinesiology ²	4
KINES 990	Research or Thesis	4+
Statistics (two courses required, chosen in consultation with advisor.) Example sequence below:		6-8
ED PSYCH 760 & ED PSYCH 761	Statistical Methods Applied to Education I and Statistical Methods Applied to Education II	
Electives ³		6-8

Elective courses may be Kinesiology courses not chosen as required courses or courses in related fields (i.e. Psychology, Neuroscience). Students are strongly encouraged to select 2-3 courses in a concentration area. (Examples: Child & Family Studies, Global Health, Disability Studies, Public Health, Patient Advocacy)

Total Credits

30

1

Students are required to take KINES 885 a minimum of 2 times, for 1 credit each time.

2

All Kinesiology M.S. and Ph.D. students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.

3

Elective courses to meet the degree requirements are chosen in consultation with the advisor from this list or any other 300-level or higher numbered courses on campus. Each candidate's program of formal course work and independent study is tailored in a personalized manner to accommodate the individual's research and career goals.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 15 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

No credits from a UW-Madison undergraduate degree are allowed to count toward the degree.

UW-Madison University Special

This program follows the Graduate School's policy for Transfer from UW-Madison University Special Student Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>).

Primary faculty mentor will be the main advisor. The Director of Graduate Studies and Graduate Program Manager will provide additional support and advising as needed.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

Within the Department, completion of required courses within two years of matriculation is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

SCHOOL OF EDUCATION GRIEVANCE POLICY AND PROCEDURES

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (<https://studyabroad.wisc.edu/>)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected classes (i.e., race, color, national origin, sex, disability, or age), as well as sexual misconduct, contact the Office of Compliance (<https://compliance.wisc.edu/eo-complaint/>).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at <https://conduct.students.wisc.edu/>.

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
 - a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
 - b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal written grievance to the chair or director within 30 business days¹ of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a formal written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the formal written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a formal written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or

one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.

6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

1

For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, has five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Faculty mentors in Occupational Science include:

Karla Ausderau
Dorothy Farrar Edwards
Beth Fields
Elizabeth Larson
Kristen Pickett
Brittany Travers

Contact information (<https://kinesiology.education.wisc.edu/people/>) for faculty and lab information (<https://kinesiology.education.wisc.edu/research/>) can be found on the Kinesiology website.

KINESIOLOGY: PHYSICAL ACTIVITY EPIDEMIOLOGY, M.S.

This is a named option in the Kinesiology, M.S. (p. 1143) For more information, please see our program website (<https://kinesiology.education.wisc.edu/academics/grad-program/>).

Physical activity epidemiology deals with the frequency and patterns of physical activity in the population and the relationship between physical activity and health and disease. The named option in Physical Activity Epidemiology provides students with advanced study in physical activity measurement issues, study design, relationships of physical activity with specific health and disease states, and approaches to physical activity promotion. Graduate study in this area covers epidemiologic and statistical courses that provide background in population-level study design and analysis as well as electives related to physical activity and public health. The Physical Activity Epidemiology named option in the Kinesiology MS is designed to 1) introduce the beginning graduate student to population-based studies of physical activity and health and disease outcomes, and 2) prepare students for advanced Ph.D. work.

Several laboratories conduct research in the area of Physical Activity Epidemiology. The Wisconsin Physical Activity Epidemiology Laboratory (<https://www.lisacadmusbertram.com/>) is run by Dr. Lisa Cadmus-Bertram. Research efforts in this laboratory focuses on physical activity measurement, the role of physical activity in chronic disease management, and the development and evaluation of technology-supported physical activity promotion interventions.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	February 15
Spring Deadline	December 1
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.

English Proficiency Test Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (<https://grad.wisc.edu/apply/requirements/#english-proficiency>)

Other Test(s) (e.g., GMAT, MCAT) n/a

Letters of Recommendation Required 3

Applications may be considered after February 15.

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. If a professor in the area of interest agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the kinesiology website (<https://kinesiology.education.wisc.edu/grad/about/>) for further details of these requirements and procedures.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements	Detail
Minimum Credit Requirement	30 credits
Minimum Residence Credit Requirement	16 credits
Minimum Graduate Coursework Requirement	15 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/)
Other Grade Requirements	n/a
Assessments and Examinations	Not required.
Language Requirements	No language requirements.

REQUIRED COURSES

Code	Title	Credits
KINES/ POP HLTH 791	Physical Activity Epidemiology	3
KINES/ POP HLTH 955	Seminar - Physical Activity Epidemiology	1
POP HLTH/ SOC 797	Introduction to Epidemiology	3

STAT 304	R for Statistics II
STAT 433	Data Science with R
STAT/B M I 542	Introduction to Clinical Trials I

Total Credits **30**

1

All Kinesiology MS and Ph.D. students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.

2

Elective courses to meet the degree requirements are chosen in consultation with the advisor from this list or any other 300-level or higher numbered courses on campus. Each candidate's program of formal course work and independent study is tailored in a personalized manner to accommodate the individual's research and career goals.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 15 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

No credits from a UW-Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

This program follows the Graduate School's policy for Transfer from UW-Madison University Special Student Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>).

Primary faculty mentor will be the main advisor. The Director of Graduate Studies and Graduate Program Manager will provide additional support and advising as needed.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

Within the Department, completion of required courses within two years of matriculation is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

GRIEVANCES AND APPEALS

- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)

- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

SCHOOL OF EDUCATION GRIEVANCE POLICY AND PROCEDURES

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (<https://studyabroad.wisc.edu/>)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected classes (i.e., race, color, national origin, sex, disability, or age), as well as sexual misconduct, contact the Office of Compliance (<https://compliance.wisc.edu/eo-complaint/>).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at <https://conduct.students.wisc.edu/>.

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
 - a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
 - b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal written grievance to the chair or director within 30 business days¹ of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a formal written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the formal written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.

5. On receipt of a formal written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

1

For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, has five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Faculty mentors in Physical Activity Epidemiology include:

Susan Andreae
Lisa Cadmus-Bertram
Tanya Schlam

Contact information (<https://kinesiology.education.wisc.edu/people/>) for faculty and lab information (<https://kinesiology.education.wisc.edu/research/>) can be found on the Kinesiology website.

KINESIOLOGY, PH.D.

The Department of Kinesiology's mission is to create, interpret, transmit, and apply knowledge related to movement, exercise, and human occupation with the ultimate goal of enhancing human health, productivity, and quality of life.

The Ph.D. degree in Kinesiology can be pursued through one of its named options. These named options are formal sub-majors documented on the transcript.

- Biomechanics (p. 1173)
- Exercise Physiology (p. 1177)
- Exercise Psychology (p. 1181)
- Motor Control and Behavior (p. 1185)
- Occupational Science (p. 1190)
- Physical Activity Epidemiology (p. 1194)

ADMISSIONS

Students apply to the Ph.D. in Kinesiology through one of the named options:

- Kinesiology: Physical Activity Epidemiology, Ph.D. (p. 1194)
- Kinesiology: Exercise Physiology, Ph.D. (p. 1177)
- Kinesiology: Exercise Psychology, Ph.D. (p. 1181)
- Kinesiology: Occupational Science, Ph.D. (p. 1190)
- Kinesiology: Biomechanics, Ph.D. (p. 1173)
- Kinesiology: Motor Control and Behavior, Ph.D. (p. 1185)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Prospective students should see the program website (<https://kinesiology.education.wisc.edu/academics/grad-program/tuition/>) for funding information.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS CURRICULAR REQUIREMENTS

Requirements	Detail
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	See Named Options for policy information.
Minimum Graduate Coursework Requirement	See Named Options for policy information.
Overall Graduate GPA Requirement	See Named Options for policy information.
Other Grade Requirements	See Named Options for policy information.
Assessments and Examinations	See Named Options for policy information.
Language Requirements	No language requirements.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Ph.D. in Kinesiology must select one of the following named options:

View as listView as grid

- **KINESIOLOGY: BIOMECHANICS, PH.D. (P. 1173)**
- **KINESIOLOGY: EXERCISE PHYSIOLOGY, PH.D. (P. 1177)**
- **KINESIOLOGY: EXERCISE PSYCHOLOGY, PH.D. (P. 1181)**
- **KINESIOLOGY: MOTOR CONTROL AND BEHAVIOR, PH.D. (P. 1185)**
- **KINESIOLOGY: OCCUPATIONAL SCIENCE, PH.D. (P. 1190)**
- **KINESIOLOGY: PHYSICAL ACTIVITY EPIDEMIOLOGY, PH.D. (P. 1194)**

POLICIES

Students should refer to one of the named options for policy information:

- Kinesiology: Physical Activity Epidemiology, Ph.D. (p. 1194)
- Kinesiology: Exercise Physiology, Ph.D. (p. 1177)
- Kinesiology: Exercise Psychology, Ph.D. (p. 1181)
- Kinesiology: Occupational Science, Ph.D. (p. 1190)
- Kinesiology: Biomechanics, Ph.D. (p. 1173)
- Kinesiology: Motor Control and Behavior, Ph.D. (p. 1185)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Demonstrate academic mastery in at least one of the broad areas of specialization represented in the Department of Kinesiology.
2. Demonstrate a broad understanding of major current and past theories, research findings, methodologies, and techniques in their area of specialization both orally and in writing.
3. Retrieve and examine scientific literature, evaluate evidence for and against hypotheses, identify knowledge gaps, strengths and weaknesses in existing literature, synthesize knowledge, and develop conclusions.
4. Formulate ideas, concepts, designs and/or techniques beyond the current boundaries of knowledge with their area of specialization.
5. Demonstrate a broad knowledge of the field of kinesiology extending beyond their area of specialization.
6. Develop and complete original research that makes a substantive contribution in advancing their area of specialization.
7. Develop testable hypotheses and predictions for their own realistic and feasible research projects.
8. Conduct independent research and analyze and interpret resulting data.
9. Clearly communicate their ideas in both oral and written form through the preparation and defense of a dissertation.
10. Foster ethical and professional conduct.
11. Use scientific rigor when designing experiments, collecting and analyzing data, interpreting and reporting results.

PEOPLE

For a full list of our faculty members, please visit our website. (<https://kinesiology.education.wisc.edu/people/>)

KINESIOLOGY: BIOMECHANICS, PH.D.

This is a named option in the Kinesiology, Ph.D. (p. 1172) For more information, please see our program website (<https://kinesiology.education.wisc.edu/academics/grad-program/>).

Biomechanics is the application of mechanics to biological systems. Within the broad field of biomechanics, specific areas of study at UW-Madison include: tissue mechanics, neuro-muscular control, human performance, sports performance, injury, rehabilitation, and limb dynamics. The program equips students to apply the tools of engineering analysis to biological systems from the cellular to the whole-body level with career objectives in academia, health care, and sports science. Elective coursework within the program allows students to pursue individual interests such as

physiological adaptations to mechanical stimuli or computer modeling. Students generally have opportunity to teach during their training.

The Ph.D. degree is designed to prepare students for independent research and teaching. Formal training includes course work in some of the following areas: math, statistics, physiology, mechanics, biomechanics, motor control, injury biomechanics, and injury epidemiology. The wide range of courses offered at the UW-Madison allows the student to tailor a curriculum which fits their individual interests. Students conduct independent research throughout their training which will be summarized in their dissertation. Presentations are also expected to be made at national scientific meetings and in peer-reviewed journals. Graduates generally pursue additional training (post-doctoral training) and go on to establish careers in academia or industrial settings.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	February 15
Spring Deadline	December 1
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

The application deadline is February 15, applications may be considered after this date.

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. The statement should provide specific details on why the applicant names this named option. If a professor in the area of specialization agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult

the kinesiology website (<https://kinesiology.education.wisc.edu/grad/about/>) for further details of these requirements and procedures.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements	Detail
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	26 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).

Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/)
Other Grade Requirements	n/a
Assessments and Examinations	Ph.D. students must: <ol style="list-style-type: none"> 1. pass preliminary exams (http://grad.wisc.edu/acadpolicy/#preliminaryexaminations) administered by a three member faculty committee; and 2. successfully propose and defend a dissertation before a five-member committee.
Language Requirements	No language requirements.
Breadth Requirement	A doctoral minor or graduate/professional certificate is not required due to the broad areas of inquiry within Kinesiology. To ensure the breadth of study requirement is achieved, students are required to complete a minimum of 2 graduate level courses (at least 2 credits each) in Kinesiology, outside of their named option coursework.

REQUIRED COURSES

Code	Title	Credits
KINES 618	Biomechanics	2
KINES 951	Seminar-Biomechanics	2
KINES 900	Seminar in Kinesiology ¹	4
KINES 990	Research or Thesis	4+
Statistics		3–4 minimum

Examples provided, but courses are chosen in consultation with advisor

STAT/F&W ECOL/ HORT 571	Statistical Methods for Bioscience I
STAT 575	Statistical Methods for Spatial Data
ED PSYCH 760	Statistical Methods Applied to Education I
ED PSYCH 761	Statistical Methods Applied to Education II

General Field Requirement **4-6**

At least 2 graduate level courses of at least 2 credits each in Kinesiology, outside the Biomechanics area.²

Suggested Electives (chosen in consultation with advisor)

Students take as many electives as needed to reach the total credit minimum.

KINES 614	Biological Factors Influencing Exercise Performance
KINES 721	Neural Basis for Movement
KINES 861	Principles of Motor Control and Learning
KINES 961	Seminar in Motor Control and Learning

Total Credits **51**

1

All Kinesiology M.S. and Ph.D. students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.

2

Courses within the biomechanics area include KINES 618 Biomechanics and KINES 951 Seminar-Biomechanics

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 18 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

This program follows the Graduate School's policy for Transfer from UW–Madison University Special Student Career at UW–Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>), except the dissertation committee must have a minimum of 5 members. .

Ph.D. students work with two committees during their studies.

1. Preliminary exams Committee (three graduate faculty members)
2. Dissertation committee (five members)
 - a. Proposal committee
 - b. Defense committee

Ordinarily the proposal and defense committees have the same membership. Committee members are selected by the student in consultation with the faculty advisor.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

Within the Department, completion of required courses and passing preliminary exams within three years of starting the Ph.D. program is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

SCHOOL OF EDUCATION GRIEVANCE POLICY AND PROCEDURES

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom

treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (<https://studyabroad.wisc.edu/>)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected classes (i.e., race, color, national origin, sex, disability, or age), as well as sexual misconduct, contact the Office of Compliance (<https://compliance.wisc.edu/eo-complaint/>).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at <https://conduct.students.wisc.edu/>.

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
 - a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
 - b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal written grievance to the chair or director within 30 business days¹ of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a formal written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the formal written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a formal written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

1

For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, has five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Faculty mentors in Biomechanics include:

David Bell
Scott Crawford
Kreg Gruben
Kristen Pickett

Contact information (<https://kinesiology.education.wisc.edu/people/>) for faculty and lab information (<https://kinesiology.education.wisc.edu/research/>) can be found on the Kinesiology website.

KINESIOLOGY: EXERCISE PHYSIOLOGY, PH.D.

This is a named option in the Kinesiology, Ph.D. (p. 1172) For more information, please see our program website (<https://kinesiology.education.wisc.edu/academics/grad-program/>).

Exercise Physiology is the study of the biological responses and adaptations to acute and chronic exercise. Research and graduate training at UW-Madison focuses on elucidating: 1) the physiological, biochemical and molecular mechanisms underlying these processes and 2) the influence of exercise on health and disease.

Dr. Barnes focuses on how aging and exercise alters blood flow and blood pressure regulation. Her current projects focus on age-associated changes in cerebral blood flow, the sympathetic nervous system activity influences cerebral blood flow, and how these relate to the risk of cardiovascular disease and dementia. Dr. Diffeo studies the regulation of contraction in skeletal and cardiac muscle and how this regulation is altered by perturbations such as exercise training, injury, or disease. Typical experiments involve measurement of contractile properties single skeletal muscle fibers and single cardiac myocytes and correlation of altered mechanical properties to changes in cell protein composition detected by biochemical and molecular biological techniques. Interaction with faculty and students from other departments (including Nutritional Sciences, Biochemistry, School of Medicine, and the Institute on Aging) is encouraged by ongoing collaborative research efforts. The research of William Schrage's laboratory is focused on how blood flow is regulated in muscle and brain circulations. Specifically, Dr. Schrage is interested in how acute exercise or environmental stress like hypoxia influences blood flow and how this is impacted by obesity and metabolic syndrome. He measures blood flow using state-of-the-art technology including ultrasound and MRI. A key approach is to use pharmacologic tools to understand how blood flow is controlled, and how obesity changes which mechanisms change the ability to regulate blood flow under stress.

The Exercise Physiology named option of the Ph.D. program is designed to prepare students for scholarly research and teaching. Students are prepared with advanced course work in Exercise Physiology along with supporting course work in Biochemistry, Physiology, Statistics, and other areas of Kinesiology (including Biomechanics, Motor Control and Behavior, and Sports Psychology). An important advantage of graduate study at UW-Madison is the exceptional selection of elective courses (>40 departments offer graduate courses in biological sciences). Minor coursework can be performed in Biochemistry, Nutritional Sciences, Physiology, Preventive Medicine, Cellular and Molecular Biology, Zoology, or other relevant fields. Students are intensively involved in conducting research throughout their graduate training and are expected to present research at national scientific meetings and publish their findings in peer-reviewed journals. Most Ph.D. students have the opportunity to teach during their training. Graduates of the Ph.D. program commonly pursue post-doctoral training and then establish independent research programs as university faculty members. Graduates occasionally pursue careers in industry or in clinical settings.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	February 15
Spring Deadline	December 1
Summer Deadline	This program does not admit in the summer.

GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

The application deadline is February 15, applications may be considered after this date.

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. The statement should provide specific details on why the applicant names this particular named option. If a professor in the area of specialization agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the kinesiology website (<https://kinesiology.education.wisc.edu/grad/about/>) for further details of these requirements and procedures.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements	Detail
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	26 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/)
Other Grade Requirements	n/a
Assessments and Examinations	Ph.D. students must: <ol style="list-style-type: none"> 1. pass preliminary exams (http://grad.wisc.edu/acadpolicy/#preliminaryexaminations) administered by a three member faculty committee; and 2. successfully propose and defend a dissertation before a five-member committee.
Language Requirements	No language requirements.
Breadth Requirement	A doctoral minor or graduate/professional certificate is not required due to the broad areas of inquiry within Kinesiology. To ensure the breadth of study requirement is achieved, students are required to complete a minimum of 2 graduate level courses (at least 2 credits each) in Kinesiology, outside of their named option coursework.

REQUIRED COURSES

Code	Title	Credits
KINES 773	Cardiorespiratory Adaptions to Environment and Exercise	3
KINES 774	Metabolic Responses to Exercise and Environmental Stress	2
STAT/F&W ECOL/HORT 571	Statistical Methods for Bioscience I	4
KINES 900	Seminar in Kinesiology ¹	4
KINES 953	Human Biodynamics Seminar ²	1

KINES 990	Research or Thesis	4+
KINES 991	Research in Physical Activity- Theory and Design	3

General Field Requirement 4-6

At least 2 graduate level courses of at least 2 credits each in Kinesiology, outside the Exercise Physiology area.³

Electives (chosen from the list below or others in consultation with advisor)

Students take as many electives as needed to reach the total credit minimum.

KINES 615	Laboratory Techniques in Exercise Physiology
ANAT&PHY 435	Fundamentals of Human Physiology
KINES/ NURSING 523	Clinical Exercise Testing & Training

Total Credits 51

1

All Kinesiology M.S. and Ph.D. students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.

2

Students should enroll in KINES 953 Human Biodynamics Seminar each time it is offered, for a minimum of 1 credit.

3

The courses within the Exercise Physiology area include:

- KINES 615 Laboratory Techniques in Exercise Physiology
- KINES 773 Cardiorespiratory Adaptions to Environment and Exercise
- KINES 774 Metabolic Responses to Exercise and Environmental Stress
- KINES 779 Human Muscle Function in Health and Disease
- KINES 953 Human Biodynamics Seminar

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 18 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

This program follows the Graduate School's policy for Transfer from UW–Madison University Special Student Career at UW–Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>), except the dissertation committee must have a minimum of 5 members.

Ph.D. students work with two committees during their studies.

1. Preliminary exams Committee (three graduate faculty members)
2. Dissertation committee (five members)
 - a. Proposal committee
 - b. Defense committee

Ordinarily the proposal and defense committees have the same membership. Committee members are selected by the student in consultation with the faculty advisor.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

Within the Department, completion of required courses and passing preliminary exams within three years of starting the Ph.D. program is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)

- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

SCHOOL OF EDUCATION GRIEVANCE POLICY AND PROCEDURES

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (<https://studyabroad.wisc.edu/>)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected classes (i.e., race, color, national origin, sex, disability, or age), as well as sexual misconduct, contact the Office of Compliance (<https://compliance.wisc.edu/eo-complaint/>).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at <https://conduct.students.wisc.edu/>.

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
 - a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
 - b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.

3. If the concern remains unresolved after step 2, the student may submit a formal written grievance to the chair or director within 30 business days¹ of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a formal written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the formal written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a formal written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

1

For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, has five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Faculty mentors in Exercise Physiology include:

Jill Barnes

Gary Diffee
William Schrage

Contact information (<https://kinesiology.education.wisc.edu/people/>) for faculty and lab information (<https://kinesiology.education.wisc.edu/research/>) can be found on the Kinesiology website.

Affiliate advisors in exercise physiology include:

Marlowe Eldridge
Troy Hornberger

KINESIOLOGY: EXERCISE PSYCHOLOGY, PH.D.

This is a named option in the Kinesiology, Ph.D. (p. 1172) For more information, please see our program website (<https://kinesiology.education.wisc.edu/academics/grad-program/>).

Exercise Psychology is the study of psychological responses and adaptations to acute and chronic physical activity. The graduate program at UW-Madison focuses on the psychobiological aspects of physical activity in both healthy and diseased populations. Research in the Exercise Psychology Laboratory has been generally concerned with quantifying the psychophysiological responses to exercise. Numerous behavioral methods have been used to determine affective and perceptual responses to exercise including the use of biofeedback, hypnosis, imagery, meditation, and traditional relaxation interventions such as autogenic training. More recently, the laboratory's focus has been on the psychophysiological aspects of pain, fatigue, and perceived exertion during and following exercise. These studies are being conducted in both healthy participants and patients with chronic pain and fatigue and are aimed at understanding the psychophysiological mechanisms that underlie the perceptual experience. Neuroimaging experiments using functional magnetic resonance imaging (fMRI) are also being conducted to determine neural responses related to pain, fatigue, and exercise.

Students in this area are trained in the theory and methods required for understanding the psychological and biological bases of behavior. Emphasis is placed upon the demonstration of competence in general psychology, exercise psychology, exercise science, statistics and research design rather than completion of specific courses. Each candidate's program of formal coursework and independent study is tailored in a personalized manner to accommodate the individual's research and career goals.

This program is committed to providing graduate students with the best available training to prepare them for a variety of careers in academic, clinical, research, government, and other settings. Emphasis is on both extensive academic training in quantitative methods, kinesiology, and general psychology along with extensive research training in the area of exercise psychology. Students are expected to become creative scientists and to exhibit early and continuing commitment to research and scholarship. Most students have several publications in refereed journals to their credit before receiving their Ph.D.'s. While most of the graduates of this program are currently teaching and conducting research at the university level, some have elected to pursue clinical, administrative, and research careers in government, university, and commercial settings.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	February 15
Spring Deadline	December 1
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

The application deadline is February 15, applications may be considered after this date.

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. The statement should provide specific details on why the applicant names this named option. If a professor in the area of specialization agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the kinesiology website (<https://kinesiology.education.wisc.edu/grad/about/>) for further details of these requirements and procedures.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement	Detail
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	26 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/)
Other Grade Requirements	n/a

Assessments and Examinations Ph.D. students must:

1. pass preliminary exams (<http://grad.wisc.edu/acadpolicy/#preliminaryexaminations>) administered by a three member faculty committee; and
2. successfully propose and defend a dissertation before a five-member committee.

Language Requirements No language requirements.

Breadth Requirement A doctoral minor or graduate/professional certificate is not required due to the broad areas of inquiry within Kinesiology. To ensure the breadth of study requirement is achieved, students are required to complete a minimum of 2 graduate level courses (at least 2 credits each) in Kinesiology, outside of their named option coursework.

REQUIRED COURSES

Code	Title	Credits
KINES 900	Seminar in Kinesiology ¹	4
KINES 990	Research or Thesis	4+
KINES 991	Research in Physical Activity-Theory and Design	3

General Field Requirement **4-6**

At least 2 graduate level courses of at least 2 credits each in Kinesiology, at UW-Madison, outside of the Exercise Psychology area.²

Suggested Electives

With the exception of the requirements above, no specific courses are required of candidates for the Ph.D. in Kinesiology with specialization in Exercise Psychology. For the Ph.D., candidates must complete a minimum of 51 credits beyond the baccalaureate degree in accordance with Graduate School policy, but most students in the exercise psychology program elect to take additional credits beyond this minimum. Emphasis is placed on the demonstration of competence in general psychology, exercise psychology, exercise science, statistics and research design, rather than on completion of specific courses. Each candidate's program of formal coursework and independent study is tailored in a personalized manner to accommodate the individual's research and career goals.

Total Credits **51**

1

All Kinesiology M.S. and Ph.D. students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.

2

The courses within the Exercise Psychology area include:

- KINES 600 Advanced Exercise Psychology
- KINES 700 Psychological Effects of Exercise
- KINES 800 Seminar-Exercise Psychology

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 18 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

No credits from a UW-Madison undergraduate degree are allowed to count toward the degree.

UW-Madison University Special

This program follows the Graduate School's policy for Transfer from UW-Madison University Special Student Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>), except the dissertation committee must have a minimum of 5 members.

Ph.D. students work with two committees during their studies.

1. Preliminary exams Committee (three graduate faculty members)
2. Dissertation committee (five members)
 - a. Proposal committee
 - b. Defense committee

Ordinarily the proposal and defense committees have the same membership. Committee members are selected by the student in consultation with the faculty advisor.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

Within the Department, completion of required courses and passing preliminary exams within three years of starting the Ph.D. program is

considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

SCHOOL OF EDUCATION GRIEVANCE POLICY AND PROCEDURES

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (<https://studyabroad.wisc.edu/>)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected classes (i.e., race, color, national origin, sex, disability, or age), as well as

sexual misconduct, contact the Office of Compliance (<https://compliance.wisc.edu/eo-complaint/>).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at <https://conduct.students.wisc.edu/>.

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
 - a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
 - b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal written grievance to the chair or director within 30 business days¹ of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a formal written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the formal written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a formal written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

1

For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, has five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Faculty mentors in Exercise Psychology include:

Dane Cook
Kelli Koltyn

Contact information (<https://kinesiology.education.wisc.edu/people/>) for faculty and lab information (<https://kinesiology.education.wisc.edu/research/>) can be found on the Kinesiology website.

KINESIOLOGY: MOTOR CONTROL AND BEHAVIOR, PH.D.

This is a named option in the Kinesiology, Ph.D. (p. 1172) For more information, please see our program website (<https://kinesiology.education.wisc.edu/academics/grad-program/>).

The graduate program in Motor Control and Behavior involves advanced study of the psychological and neurophysiological foundations of motor control, motor learning, motor development, and disorders of movement. The program emphasizes the development of a competent independent researcher and is designed to provide a thorough grounding in the area of motor performance, exposing the student to the underlying theoretical processes that influence the control, acquisition, and development of motor behavior. Students may focus specifically on control, learning, or developmental issues, or design their program to expose them to a broad range of study in motor behavior. The graduate student will work closely with his/her advisor in both formal and informal educational settings. Students entering the Motor Control and Behavior named option in the Kinesiology Ph.D should have a commitment to research in the motor control and behavior area. Within the first year, the graduate student is usually conducting research under close supervision. Students are

encouraged to begin research early and to engage in it throughout their graduate career.

Several laboratories (human, animal) are available for research in the area of Motor Control and Behavior. The Human Motor Behavior Laboratory (<https://kinesiology.education.wisc.edu/research/motor-behavior-lab/>) is an active research environment where faculty and students collaborate on projects aimed at gaining a better understanding of the planning and performance of simple and complex upper and lower limb activities in both natural and virtual environments. The Motor Systems Physiology Laboratory (<https://kinesiology.education.wisc.edu/research/motor-systems-physiology-lab/>) focuses on understanding the neural control of reaching to grasp, which is essential to primate motor behavior and strongly depends on cerebellar function. The Sensory Motor Integration Lab (SMIL) (<https://kinesiology.education.wisc.edu/research/kristen-pickett-research/>) focuses on improving the everyday lives of older adults through the implementation of physical activity interventions—delivered in-home via telehealth and through group classes held at community-based facilities. The Neuromuscular Coordination Laboratory (<https://ncl.labs.wisc.edu/>) conducts fundamental research on the interactions between mechanics, neural control, and muscular coordination that allow humans and other animals to navigate their environments.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	February 15
Spring Deadline	December 1
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. The statement should provide

specific details on why the applicant names this named option. If a professor in the area of specialization agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the kinesiology website (<https://kinesiology.education.wisc.edu/grad/about/>) for further details of these requirements and procedures.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements	Detail
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits

Minimum Graduate Coursework Requirement	26 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/).
Other Grade Requirements	n/a
Assessments and Examinations	Ph.D. students must: <ol style="list-style-type: none"> 1. pass preliminary exams (http://grad.wisc.edu/acadpolicy/#preliminaryexaminations) administered by a three member faculty committee; and 2. successfully propose and defend a dissertation before a five-member committee.
Language Requirements	No language requirements.
Breadth Requirement	A doctoral minor or graduate/professional certificate is not required due to the broad areas of inquiry within Kinesiology. To ensure the breadth of study requirement is achieved, students are required to complete a minimum of 2 graduate level courses (at least 2 credits each) in Kinesiology, outside of their named option coursework.

REQUIRED COURSES

Code	Title	Credits
KINES 900	Seminar in Kinesiology ¹	4
KINES 990	Research or Thesis	4+
KINES 991	Research in Physical Activity-Theory and Design	3
Statistics (2 courses required, chosen in consultation with advisor.) Suggested sequence:		6-8
ED PSYCH 760 & ED PSYCH 761	Statistical Methods Applied to Education I and Statistical Methods Applied to Education II	
STAT/F&W ECOL/ HORT 571 & STAT/ F&W ECOL/ HORT 572	Statistical Methods for Bioscience I and Statistical Methods for Bioscience II	

General Field Requirement **4-6**

At least 2 graduate level courses of at least 2 credits each in Kinesiology, at UW-Madison, outside of the Motor Control & Behavior area.²

Suggested Elective Courses (chosen in consultation with advisor)

Students take as many electives as needed to reach the total credit minimum.

KINES 713	Neural Basis of Normal and Pathological Movement
KINES 721	Neural Basis for Movement

KINES 861	Principles of Motor Control and Learning
KINES 951	Seminar-Biomechanics
KINES 961	Seminar in Motor Control and Learning
Total Credits	51

1

All Kinesiology M.S. and Ph.D. students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.

2

The courses within the Motor Control and Behavior area include:

- KINES 713 Neural Basis of Normal and Pathological Movement
- KINES 721 Neural Basis for Movement
- KINES 861 Principles of Motor Control and Learning
- KINES 961 Seminar in Motor Control and Learning

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 18 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

No credits from a UW-Madison undergraduate degree are allowed to count toward the degree.

UW-Madison University Special

This program follows the Graduate School's policy for Transfer from UW-Madison University Special Student Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>), except the dissertation committee must have a minimum of 5 members.

Ph.D. students work with two committees during their studies.

1. Preliminary exams Committee (three graduate faculty members)
2. Dissertation committee (five members)
 - a. Proposal committee
 - b. Defense committee

Ordinarily the proposal and defense committees have the same membership. Committee members are selected by the student in consultation with the faculty advisor.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

Within the Department, completion of required courses and passing preliminary exams within three years of starting the Ph.D. program is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeedisabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

SCHOOL OF EDUCATION GRIEVANCE POLICY AND PROCEDURES

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (<https://studyabroad.wisc.edu/>)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected classes (i.e., race, color, national origin, sex, disability, or age), as well as sexual misconduct, contact the Office of Compliance (<https://compliance.wisc.edu/eo-complaint/>).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at <https://conduct.students.wisc.edu/>.

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
 - a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
 - b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal written grievance to the chair or director within 30 business days¹ of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a formal written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the formal written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a formal written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or

one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.

6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

1

For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, has five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Faculty mentors in Motor Control and Behavior include:

Luis Columna
Kreg Gruben
Andrea Mason
Kristen Pickett
Peter Van Kan

Contact information (<https://kinesiology.education.wisc.edu/people/>) for faculty and lab information (<https://kinesiology.education.wisc.edu/research/>) can be found on the Kinesiology website.

KINESIOLOGY: OCCUPATIONAL SCIENCE, PH.D.

This is a named option in the Kinesiology, Ph.D. (p. 1172) For more information, please see our program website (<https://kinesiology.education.wisc.edu/academics/grad-program/>).

As occupational scientists, our faculty and graduate students explore theories of occupational engagement and conduct research to expand the body of knowledge supporting the practice of occupational therapy. Occupational Science integrates theories and practices from the disciplines of anatomy, biomechanics, motor control, neuroscience, psychology, and sociology to enhance our understanding of how engagement in the activities of daily life promotes human health and well-being. The Occupational Science named option of the Kinesiology Ph.D. prepares occupational therapists to serve as researchers and educators who are able to contribute to the understanding of the theoretical and empirical relationships between occupation, physiological health, and psychological well-being. Graduate students work closely with their advisors to pursue research on issues that expand upon the current theory in occupational therapy and life-span development.

All faculty members have established laboratories for conducting research in Occupational Science, some of which are free-standing and others of which are located in research centers around campus. Opportunities abound for engaging in collaborative work with faculty from other disciplines such as kinesiology, biomedical engineering, psychology, nursing, population health, sociology, human ecology, special education or rehabilitation psychology. A full list and description of the research labs, hosted by the Occupational Therapy Program, can be found on the department’s research page (<https://kinesiology.education.wisc.edu/research/>).

ADMISSIONS

Please consult the table below for key information about this degree program’s admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program’s website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	February 15
Spring Deadline	December 1
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.

English Proficiency Test Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (<https://grad.wisc.edu/apply/requirements/#english-proficiency>).

Other Test(s) (e.g., GMAT, MCAT) n/a

Letters of Recommendation Required 3

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended, and a statement of reasons for graduate study. The statement should provide specific details on why the applicant names this named option. If a professor in the area of specialization agrees to serve as the prospective student’s advisor, then the department’s graduate office recommends the applicant for admission to the Graduate School. Please consult the kinesiology website (<https://kinesiology.education.wisc.edu/grad/about/>) for further details of these requirements and procedures.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

CURRICULAR REQUIREMENTS

Requirements	Detail
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	26 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/)
Other Grade Requirements	n/a
Assessments and Examinations	Ph.D. students must: <ol style="list-style-type: none"> pass preliminary exams (http://grad.wisc.edu/acadpolicy/#preliminaryexaminations) administered by a three member faculty committee; and successfully propose and defend a dissertation before a five-member committee.
Language Requirements	No language requirements.
Breadth Requirement	A doctoral minor or graduate/professional certificate is not required due to the broad areas of inquiry within Kinesiology. To ensure the breadth of study requirement is achieved, students are required to complete a minimum of 2 graduate level courses (at least 2 credits each) in Kinesiology, outside of their named option coursework.

REQUIRED COURSES

Code	Title	Credits
<i>Research Content</i>		
KINES 991	Research in Physical Activity-Theory and Design	3
Research Methods and Ethics ¹		minimum of 6 credits
<i>Subject/Field Content</i>		
KINES 785	Human Occupation and Health	3
KINES 885	Seminar in Occupation and Health (minimum of 2 semesters required)	2
KINES 990	Research or Thesis	4+
KINES 900	Seminar in Kinesiology ²	4
General Field Requirements		4-6

At least 2 graduate level courses of at least 2 credits each in Kinesiology, at UW-Madison, outside of Occupational Sciences area. ³

Suggested Electives

Students take as many electives as needed to reach the total credit minimum. Courses should be taken in a concentration area specific to research area. Suggestions may be the ICTR Clinical Trials, Global Health, Prevention Science, Aging, Lifespan Development, as well as others.

Total Credits

51

1

Ethics examples: NURSING 802 , SURG SCI 812, ONCOLOGY 715
Methods examples: ED PSYCH 760 and ED PSYCH 761

2

All Kinesiology M.S. and Ph.D. students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.

3

The courses within the Occupational Sciences area include:

- KINES 785 Human Occupation and Health
- KINES 885 Seminar in Occupation and Health

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 18 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW-Madison Undergraduate

No credits from a UW-Madison undergraduate degree are allowed to count toward the degree.

UW-Madison University Special

This program follows the Graduate School's policy for Transfer from UW-Madison University Special Student Career at UW-Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>), except the dissertation committee must have a minimum of 5 members.

Ph.D. students work with two (or three) committees during their studies.

1. Preliminary exams Committee (three graduate faculty members)
2. Dissertation committee (five members)
 - a. Proposal committee
 - b. Defense committee

Ordinarily the proposal and defense committees have the same membership. Committee members are selected by the student in consultation with the faculty advisor.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

Within the Department, completion of required courses and passing preliminary exams within three years of starting the Ph.D. program is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)

- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

SCHOOL OF EDUCATION GRIEVANCE POLICY AND PROCEDURES

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (<https://studyabroad.wisc.edu/>)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected classes (i.e., race, color, national origin, sex, disability, or age), as well as sexual misconduct, contact the Office of Compliance (<https://compliance.wisc.edu/eo-complaint/>).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at <https://conduct.students.wisc.edu/>.

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
 - a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
 - b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal written grievance to the chair or director within 30 business days¹ of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a formal written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the formal written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.

5. On receipt of a formal written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

1

For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, has five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Faculty mentors in Occupational Science include:

Karla Ausderau
Dorothy Farrar Edwards
Beth Fields
Elizabeth Larson
Kristen Pickett
Brittany Travers

Contact information (<https://kinesiology.education.wisc.edu/people/>) for faculty and lab information (<https://kinesiology.education.wisc.edu/research/>) can be found on the Kinesiology website.

KINESIOLOGY: PHYSICAL ACTIVITY EPIDEMIOLOGY, PH.D.

This is a named option in the Kinesiology, Ph.D. (p. 1172) For more information, please see our program website (<https://kinesiology.education.wisc.edu/academics/grad-program/>).

Physical activity epidemiology deals with the frequency and patterns of physical activity in the population and the relationship between physical activity and health and disease. The named option in Physical Activity Epidemiology provides students with advanced study in physical activity measurement issues, study design, relationships of physical activity with specific health and disease states, and approaches to physical activity promotion. Graduate study in this area covers epidemiologic and statistical courses that provide background in population-level study design and analysis as well as electives related to physical activity and public health. The Ph.D. degree is designed to prepare students for scholarly research and teaching in this area. Students obtaining a Ph.D. will be expected to go on for post-doctoral work prior to establishing independent research programs. The flexible curriculum in this program area will be tailored to individual students, with courses selected from exercise psychology, biostatistics, epidemiology and population health, exercise physiology, biochemistry, nutrition, or other areas deemed to provide a solid grounding sufficient to understand and conduct research in this area.

Several laboratories conduct research in the area of Physical Activity Epidemiology. The Wisconsin Physical Activity Epidemiology Laboratory (<https://www.lisacadmusbertram.com/>) is run by Dr. Lisa Cadmus-Bertram. Research efforts in this laboratory focuses on physical activity measurement, the role of physical activity in chronic disease management, and the development and evaluation of technology-supported physical activity promotion interventions.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	February 15
Spring Deadline	December 1
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.

English Proficiency Test Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (<https://grad.wisc.edu/apply/requirements/#english-proficiency>).

Other Test(s) (e.g., GMAT, MCAT) n/a

Letters of Recommendation 3

Required

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. The statement should provide specific details on why the applicant names this named option. If a professor in the area of specialization agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the kinesiology website (<https://kinesiology.education.wisc.edu/grad/about/>) for further details of these requirements and procedures.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirements	Detail
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	26 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/)
Other Grade Requirements	n/a
Assessments and Examinations	Ph.D. students must: <ol style="list-style-type: none"> pass preliminary exams (http://grad.wisc.edu/acadpolicy/#preliminaryexaminations) administered by a three member faculty committee; and successfully propose and defend a dissertation before a five-member committee.
Language Requirements	No language requirements.
Breadth Requirement	A doctoral minor or graduate/professional certificate is not required due to the broad areas of inquiry within Kinesiology. To ensure the breadth of study requirement is achieved, students are required to complete a minimum of 2 graduate level courses (at least 2 credits each) in Kinesiology, outside of their named option coursework.

REQUIRED COURSES

Code	Title	Credits
KINES/ POP HLTH 791	Physical Activity Epidemiology	3
KINES/ POP HLTH 955	Seminar - Physical Activity Epidemiology	1
POP HLTH/ SOC 797	Introduction to Epidemiology	3
POP HLTH 798	Epidemiologic Methods	3
KINES 900	Seminar in Kinesiology ¹	4
KINES 990	Research or Thesis	4+
KINES 991	Research in Physical Activity-Theory and Design	3

Statistics	minimum of 6 credits
------------	----------------------

Examples provided, but courses are chosen in consultation with advisor

POP HLTH/ B M I 551	Introduction to Biostatistics for Population Health
POP HLTH/ B M I 552	Regression Methods for Population Health
STAT/B M I 541	Introduction to Biostatistics
STAT/B M I 542	Introduction to Clinical Trials I
B M I/ POP HLTH 651	Advanced Regression Methods for Population Health

General Field Requirements 4-6

At least 2 graduate level courses of at least 2 credits each in Kinesiology, outside the Physical Activity Epidemiology area.²

Suggested Electives (chosen in consultation with advisor)

Students take as many electives as needed to reach the total credit minimum.

KINES 600	Advanced Exercise Psychology
NURSING 702	Health Promotion and Disease Prevention in Diverse Communities
POP HLTH 750	Cancer Epidemiology
POP HLTH 784	Public Health Surveillance and Analytics
POP HLTH 794	Biological Basis of Population Health
POP HLTH 795	Principles of Population Health Sciences
POP HLTH 805	Advanced Epidemiology: Causal Inference in Epidemiological Studies
POP HLTH 806	Advanced Epidemiology: Practice of Epidemiology
POP HLTH 810	Global Health Epidemiology
POP HLTH/ B M I 451	Introduction to SAS Programming for Population Health
STAT 303	R for Statistics I
STAT 304	R for Statistics II
STAT 433	Data Science with R

Total Credits 51

1

All Kinesiology M.S. and Ph.D. students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.

2

The courses within the Physical Activity Epidemiology area include:

- KINES 521 Physical Activity and Health
- KINES/POP HLTH 791 Physical Activity Epidemiology
- KINES/POP HLTH 955 Seminar - Physical Activity Epidemiology

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 18 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

UW–Madison Undergraduate

No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special

This program follows the Graduate School's policy for Transfer from UW–Madison University Special Student Career at UW–Madison. (<https://policy.wisc.edu/library/UW-1216/>)

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and the Graduate School's Committees policy (<https://policy.wisc.edu/library/UW-1201/>), except the dissertation committee must have a minimum of 5 members.

Ph.D. students work with two committees during their studies.

1. Preliminary exams Committee (three graduate faculty members)
2. Dissertation committee (five members)
 - a. Proposal committee
 - b. Defense committee

Ordinarily the proposal and defense committees have the same membership. Committee members are selected by the student in consultation with the faculty advisor.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

Within the Department, completion of required courses and passing preliminary exams within three years of starting the Ph.D. program is

considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

SCHOOL OF EDUCATION GRIEVANCE POLICY AND PROCEDURES

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (<https://studyabroad.wisc.edu/>)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected classes (i.e., race, color, national origin, sex, disability, or age), as well as

sexual misconduct, contact the Office of Compliance (<https://compliance.wisc.edu/eo-complaint/>).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at <https://conduct.students.wisc.edu/>.

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
 - a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
 - b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal written grievance to the chair or director within 30 business days¹ of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a formal written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the formal written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a formal written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

1

For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, has five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PEOPLE

Faculty mentors in Physical Activity Epidemiology include:

Susan Andreae
Lisa Cadmus-Bertram
Tanya Schlam

Contact information (<https://kinesiology.education.wisc.edu/people/>) for faculty and lab information (<https://kinesiology.education.wisc.edu/research/>) can be found on the Kinesiology website.

OCCUPATIONAL THERAPY, OTD

The occupational therapy program resides in the Department of Kinesiology (<https://kinesiology.education.wisc.edu/>) and offers two graduate programs options in the OTD: an entry-level doctor of occupational therapy (Entry-Level (p. 1200)) and a post-professional doctor of occupational therapy (Post-Professional (p. 1204)). Occupational therapists interested in pursuing advanced research training may also apply to the M.S. (p. 1143)/Ph.D. (p. 1172) in Kinesiology with a specialization in Occupational Science. The purpose of the graduate program is to prepare clinicians, researchers, and teachers who possess a solid foundation in both the theoretical and applied aspects of the disciplines of occupational therapy and science.

ADMISSIONS

Students apply to the Occupational Therapy Doctorate through the Entry-Level named option:

- Entry-Level (p. 1200)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM INFORMATION

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
No	No	Yes	No	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement	See Named Option for policy information.
----------------------------	--

Minimum Residence Credit Requirement	See Named Option for policy information.
--------------------------------------	--

Minimum Graduate Coursework Requirement	See Named Option for policy information.
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/).
Other Grade Requirements	n/a
Assessments and Examinations	Capstone project proposal and final product must be reviewed and approved by a dissertation committee of graduate faculty per Graduate School policy.
Language Requirements	No language requirements.
Graduate School Breadth Requirements	Breadth is provided via interdisciplinary training (requirement waived).

REQUIRED COURSES

Select a Named Option for courses required.

NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Occupational Therapy Doctorate must select the following named option:

View as list View as grid

- OCCUPATIONAL THERAPY: ENTRY LEVEL, OTD (P. 1200)
- OCCUPATIONAL THERAPY: POST-PROFESSIONAL, OTD (P. 1204)

POLICIES

Students should refer to the named option for policy information:

- Entry-Level (p. 1200)
- Post-Professional (p. 1204)

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

1. Articulate and apply underlying occupation-based theories, concepts and techniques of occupational therapy intervention for a variety of contexts.
2. Formulate systems to gather, analyze and interpret data and present to a professional audience.

3. Demonstrate active involvement in professional development, leadership, and advocacy for the benefit of constituents and the profession.
4. Synthesize current knowledge, available evidence and responses to interventions to inform new approaches to practice problems.
5. Demonstrate commitment to healthy long-term professional growth through the creation, implementation, and monitoring of a career development plan including application of wellness and prevention strategies.

ACCREDITATION

ACCREDITATION

Accreditation Council for Occupational Therapy Education (ACOTE) (<https://www.aota.org/Education-Careers/Accreditation.aspx>)

Accreditation Status: Pre-accredited (April 2023), site visit (September 2023) for full accreditation.

In March 2020, the Occupational Therapy Doctoral (OTD) program was granted Candidacy Status with the Accreditation Council for Occupational Therapy Education (ACOTE) (<https://www.aota.org/Education-Careers/Accreditation.aspx>) and advanced to the Preaccreditation Review step with the self-study submitted in 2022. With Candidacy Status, the program is eligible to admit students.

Doctoral-Degree-Level Occupational Therapy Program (Program with Candidacy Status)

The UW-Madison entry-level occupational therapy doctoral degree program has applied for accreditation and has been granted Candidacy Status by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 6116 Executive Boulevard, Suite 200, North Bethesda, MD 20852-4929. ACOTE's telephone number c/o AOTA is (301) 652-AOTA and its Web address is www.acoteonline.org (<http://www.acoteonline.org>). The program must have a preaccreditation review, complete an on-site evaluation, and be granted Accreditation Status before its graduates will be eligible to sit for the national certification examination for

the occupational therapist administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be an Occupational Therapist, Registered (OTR). In addition, all states require licensure in order to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination. Note that a felony conviction may affect a graduate's ability to sit for the NBCOT certification examination or attain state licensure.

CERTIFICATION/LICENSURE

CERTIFICATION/LICENSURE

National Board for Certification in Occupational Therapy (<https://www.nbcot.org/en/>)

To look up NBCOT pass rates for Occupational Therapy Programs:
<https://www.nbcot.org/en/Educators/Home#SchoolPerformance>
<https://www.nbcot.org/en/Educators/Home/#SchoolPerformance>

Licenses are awarded at the state level. Students in the entry-level named option will become eligible for the licensure exam.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

The requirements of this program meet Certification/Licensure in the following states:

Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming, District of Columbia; American Samoa, Guam, Northern Mariana Islands, Puerto Rico, U.S. Virgin Islands

The requirements of this program do not meet Certification/Licensure in the following states:

Not applicable

The requirements of this program have not been determined if they meet Certification/Licensure in the following states:

Not applicable

OCCUPATIONAL THERAPY: ENTRY LEVEL, OTD

This is a named option within the Occupational Therapy, OTD (p. 1198).

The Entry-Level Occupational Therapy Doctorate (OTD) is a three-year, full time program. Our cohort is an intimate 32 students who receive the individualized advising and support they need to develop into successful

clinicians and leaders. The program includes the fundamentals of occupational therapy best practice with values emphasizing the importance of occupation, cultural responsiveness, ethical practice, interprofessional collaboration, and social justice. Our courses are organized into four main threads:

- Practice - Occupation-centered and evidence-based
- Research - Critical application and participation in clinically relevant research
- Leadership - Respectful advocacy, influence and transformation
- Wellness - Promoting health in self and others

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	The program does not admit in the fall.
Spring Deadline	The program does not admit in the spring.
Summer Deadline	November 15
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Admission to the entry-level professional program in occupational therapy requires:

- Bachelor's degree (or equivalent) from a regionally accredited school of higher education by the start of the program
- Transcripts from each college, university, or technical college attended showing work completed and in progress
- Documentation of paid or volunteer experience in at least two different settings serving persons across the lifespan with physical, behavioral or mental health disabilities
- Direct observation of Registered Occupational Therapists, or Certified Occupational Therapy Assistants, providing services is highly recommended

- Personal statement responding to prompts provided on the graduate application
- At least a "C" or better in the following prerequisite courses or their equivalent:
 - Lifespan Development (6 credits)
 - Abnormal Psychology (3 credits)
 - Statistics (3 credits)
 - Human Physiology (3-5 credits WITH LAB)
 - Human Anatomy (3-5 credits)
 - Human Anatomy Lab (1-3 credits)

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM INFORMATION

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

Our 75 years of generous alumni have provided a number of private scholarships for our students which support tuition, research, travel and other opportunities. Please explore our website for the most current scholarship options available. <https://kinesiology.education.wisc.edu/elotd/>

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

NAMED OPTION REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	Yes	Yes	No

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	97 credits
Minimum Residence Credit Requirement	85 credits
Minimum Graduate Coursework Requirement	All credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/)).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/).
Other Grade Requirements	Students must earn a grade of C or better in ANATOMY 622 to continue in the program.
Assessments and Examinations	Capstone project proposal and final product must be reviewed and approved by a capstone committee per Graduate School policy.
Language Requirements	No language requirements.
Graduate School Breadth Requirement	Breadth is provided via interprofessional training (doctoral minor or graduate/professional certificate waived).

REQUIRED COURSES

The Entry Level OTD has a prescribed curriculum of 97 credits total.

Code	Title	Credits
Summer 1 (9 credits)		
ANATOMY 622	Human Anatomy for Physical and Occupational Therapy Students	6
OCC THER 650	Enabling Occupations: Introduction	2
OCC THER 731	Living Well: Wellness Promotion for Graduate Students	1
Fall 1 (15 credits)		
OCC THER 640	Applied Neuroanatomy for Allied Health Professionals	3
OCC THER 651	Clinical Conditions I	1
OCC THER 710	Professional and Leadership Skills 1: Foundations	2
OCC THER 722	Enabling Occupations 1: Adult Focus	4
OCC THER 770	Evidence Based Practice Lab Practicum	2
OCC THER 771	Evidence Based Practice 1: Basics	3
Spring 1 (14 credits)		

OCC THER 711	Professional and Leadership Skills 2: Effective Interprofessional Relationships	2
OCC THER 723	Enabling Occupations 2: Adult Focus	4
OCC THER 726	Level 1 Fieldwork A: Adult Physical Disabilities	1
OCC THER 732	Living Well: Designing Occupation-based Wellness Promotion	2
OCC THER 770	Evidence Based Practice Lab Practicum	2
OCC THER 772	Evidence Based Practice 2: Research Design, Methods, and Analysis	3

Summer 2 (10 credits)

OCC THER 652	Clinical Conditions II	1
OCC THER 724	Enabling Occupations 3: Mental Health Across the Life Span	3
OCC THER 727	Level 1 Fieldwork B: Community-Based Mental Health	1
OCC THER 733	Promoting Health and Wellness for Populations	2

OCC THER 883	Doctoral Experiential Component	6

Total Credits		97
----------------------	--	-----------

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate, graduate or certificate programs.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count up to 12 credits of graduate coursework from other institutions. Coursework should be less than five years old to be considered, additional justification and/or documentation are needed for work taken between five and ten years. Work more than ten years old will not be considered.

UW–Madison Undergraduate

No undergraduate coursework will be allowed to count toward OTD requirements.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. These credits are considered part of the total allowable credits available for a student to transfer. Coursework should be less than five years old to be considered; additional justification and/or documentation is needed for work taken between five and ten years. Work more than ten years old will not be considered.

PROBATION

This program follows the Graduate School's Probation policy (<https://policy.wisc.edu/library/UW-1217/>).

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor to meet UW information management needs, and accordingly, and of its own volition, the department assigns an advisor to each student. The advisor is a graduate or clinical faculty member.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis. The OTD Program Coordinator will advise students in the early stages of their studies until a permanent advisor is assigned. The advisor may also serve on the student's capstone project committee.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy (<https://policy.wisc.edu/library/UW-1221/>).

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employeeabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

SCHOOL OF EDUCATION GRIEVANCE POLICY AND PROCEDURES

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (<https://studyabroad.wisc.edu/>)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected classes (i.e., race, color, national origin, sex, disability, or age), as well as

sexual misconduct, contact the Office of Compliance (<https://compliance.wisc.edu/eo-complaint/>).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at <https://conduct.students.wisc.edu/>.

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
 - a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
 - b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal written grievance to the chair or director within 30 business days¹ of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a formal written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the formal written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a formal written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

1

For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, has five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

OCCUPATIONAL THERAPY: POST-PROFESSIONAL, OTD

Admissions to the Post-Professional, OTD named option will be suspended as of fall 2022, and the program will be discontinued as of fall 2024. If you have any questions, please contact the department.

This is a named option within the Occupational Therapy, OTD (p. 1198).

The post-professional OTD program is a part-time, structured online curriculum serving occupational therapists' need for distance access and flexibility to acquire advanced practice and leadership skills. The OTD

program trains occupational therapists to become visionary leaders, engage in inter-professional education and practice, and facilitate research translation. Students enter as a cohort in the fall semester and complete the program over three years of part-time study. There is an option to complete within two years as well.

The Post-Professional OTD cultivates and grows practitioners interested in pursuit of careers in health care management, education and public service. Students enrolled in the program will already have the professional clinical training necessary for certification and licensure as occupational therapists. Through this curriculum and completion of a capstone project, occupational therapists will expand their knowledge of the health and education delivery systems, the policies influencing transformation of care in these environments and will gain the tools needed to be visionary leaders in interprofessional contexts.

ADMISSIONS

Admissions to the Post-Professional, OTD named option will be suspended as of Fall 2022, and the program will be discontinued as of Fall 2024. If you have any questions, please contact the department.

This program is no longer admitting and is not accepting applications.

For students interested in Occupational Therapy, see the admitting program of Occupational Therapy: Entry Level, OTD (p. 1200).

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

Five total elective credits must be taken. Options include OCC THER 890 Inter-Professional Development for Leadership, KINES 699 Independent Study, or E P D courses, including: E P D 701 Writing for Professionals, E P D 702 Professional Presentations, or E P D 704 Organizational Communication and Problem Solving.

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate, graduate or certificate programs.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count up to 30 credits of graduate coursework from other institutions. Coursework should be less than five years old to be considered, additional justification and/or documentation are needed for work taken between five and ten years. Work more than ten years old will not be considered.

UW-Madison Undergraduate

No undergraduate coursework will be allowed to count toward OTD requirements.

UW-Madison University Special

With program approval and payment of the difference in tuition (between University Special and Graduate tuition), students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW-Madison University Special student. These credits are considered part of the total allowable credits available for a student to transfer. Coursework should be less than five years old to be considered; additional

justification and/or documentation is needed for work taken between five and ten years. Work more than ten years old will not be considered.

PROBATION

This program follows the Graduate School's Probation policy (<https://policy.wisc.edu/library/UW-1217/>).

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor to meet UW information management needs, and accordingly, and of its own volition, the department assigns an advisor to each student. The advisor is a graduate or clinical faculty member.

This program follows the Graduate School's Advisor policy (<https://policy.wisc.edu/library/UW-1232/>) and Committees policy. (<https://policy.wisc.edu/library/UW-1201/>)

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis. The OTD Program Coordinator will advise students in the early stages of their studies until a permanent advisor is assigned. The advisor may also serve on the student's capstone project committee.

CREDITS PER TERM ALLOWED

15 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy. (<https://policy.wisc.edu/library/UW-1221/>)

SCHOOL OF EDUCATION GRIEVANCE POLICY AND PROCEDURES

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (<https://studyabroad.wisc.edu/>)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected classes (i.e., race, color, national origin, sex, disability, or age), as well as sexual misconduct, contact the Office of Compliance (<https://compliance.wisc.edu/eo-complaint/>).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at <https://conduct.students.wisc.edu/>.

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
 - a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
 - b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal written grievance to the chair or director within 30 business days¹ of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a formal written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the formal

written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.

5. On receipt of a formal written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

1

For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, has five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

PEOPLE

See a complete list of faculty and staff (<https://lafollette.wisc.edu/about/faculty-and-staff/>).

INTERNATIONAL PUBLIC AFFAIRS, MIPA

The Master of International Public Affairs (MIPA) Program provides education in public policy and global governance that prepares students from the United States and around the world to work in government, in businesses engaged with the global economy, for non-governmental organizations, or with consulting firms analyzing international policies.

The award-winning La Follette School faculty includes economists, political scientists, sociologists, and public affairs scholars who teach the skills and tools needed for a career in public affairs. They are experts in social policy, health policy and management, public administration, public policy analysis, environmental policy, poverty, and tax policy and government finance.

Beyond campus, the city of Madison, as the state capital, provides a wealth of opportunities for La Follette School students to participate in outreach and acquire practical experience as professional project assistants or interns with public and private entities. Students benefit from the strong relationships that La Follette School faculty have with these organizations, in keeping with the Wisconsin Idea of public service. This includes the Wisconsin Family Impact Seminar and Campus Connect—opportunities that use evidence-based research to inform policymakers and improve public policy.

INTERNATIONAL PUBLIC AFFAIRS DOUBLE DEGREES, DUAL DEGREES, AND CERTIFICATE PROGRAMS

Some students earn additional credentials while they work toward their public affairs degrees. Students must follow double degree (<https://grad.wisc.edu/acadpolicy/?policy=doubleddegrees>) and dual degree (<https://grad.wisc.edu/acadpolicy/?policy=dualdegreesgradprof>) policies. The following combined degree and certificate programs are available, though students choose to embark on double degrees and graduate certificates beyond those listed below:

- Law (Juris Doctorate)
- Master of Public Health
- Master of Science in Urban and Regional Planning
- Doctorate in Neuroscience
- Energy Analysis and Policy Certificate through the Nelson Institute in Environmental Studies
- Business, Environment, & Social Responsibility; Entrepreneurship; or Strategic Innovation offered through the School of Business.
- Area studies program certificates

Law and International Public Affairs (MIPA/J.D.)

Increasingly, careers in the federal, state, and local governments, as well as nonprofit organizations and private sector businesses require an understanding of public administration, policy analysis, and public affairs, as well as law. Many students choose to pursue the dual law and public affairs degree because of their interest in employment in government agencies, government relations law practice, or in other policy-oriented firms and organizations.

For most students the dual degree program will add about a year of study to the three years it takes to complete law school, but will save approximately one year of study compared to doing the two programs separately. Students earn a Master of International Public Affairs degree and a Juris Doctor. It is recommended that students apply to both programs at the same time.

Public Health and International Public Affairs (MIPA/MPH)

The La Follette School and the School of Medicine and Public Health offer education in public health policy, policy analysis, and global governance to address critical health and health policy issues in the United States and throughout the world.

The dual degree program generally takes three years to complete, including summers. Students earn a Master of International Public Affairs degree and a Master of Public Health degree.

Neuroscience and International Public Affairs (MIPA/PH.D.)

Advances in neuroscience have important policy implications for child welfare and education, community development, mental health and health care, bioethics and aging, environmental risks, and national security. The Neuroscience and Public Policy Program (NPP) courses prepare students to work in the growing array of domestic or international policy jobs involved in the management of science and its integration into policy analysis and design. Students become good scientists and effective communicators, managers, and advocates of good public policy.

This combined degree program typically takes five years to complete, including summers. Students earn a Master of International Public Affairs degree and a Doctor of Philosophy in Neuroscience. Degree requirements

are completed in the first three years. The focus of the fourth year is on research and thesis development, as well as completion of the Ph.D. Preliminary Exam. Students continue doing research and defend their thesis in the fifth year.

Urban and Regional Planning and International Public Affairs (MIPA/M.S. in URPL)

The La Follette School and the Department of Planning and Landscape Architecture offer education in planning, policymaking, and public affairs to address domestic and global environmental, housing, and transportation policy issues. This double degree takes three years to complete, including summers. Students earn a Master of International Public Affairs degree and a Master of Science in Urban and Regional Planning.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 1
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required but may be considered if available.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Applicants for the MIPA program should submit transcripts showing undergraduate performance with at least the equivalent of a 3.0 G.P.A. (on a 4.0 scale), three references, a statement of purpose, a quantitative statement, and a resume. Prerequisites include: ECON 101 Principles of Microeconomics and ECON 102 Principles of Macroeconomics, A A E 215 Introduction to Agricultural and Applied Economics, PSYCH 210 Basic Statistics for Psychology or MATH 221 Calculus and Analytic Geometry 1 or MATH 222 Calculus and Analytic Geometry 2 or STAT 301 Introduction to Statistical Methods SOC/C&E SOC 360 Statistics for Sociologists I, and POLI SCI 120 Introduction to Comparative Politics or POLI SCI 140 Introduction to International Relations, and three semesters of language study. Applicants without this background may be admitted with the

understanding that these courses will be completed before beginning the program.

Every applicant whose first language is not English and whose complete four-year undergraduate instruction was not in English, must provide official scores from the Test of English as a Foreign Language (TOEFL), International English Language Testing System (IELTS) or the Michigan English Language Assessment Battery (MELAB). The applicant must provide at least one of these minimum standardized test scores: TOEFL computer-based test score 237, TOEFL internet-based test score 92, IELTS score 7, or MELAB 82. Even if a student has the minimum score, the program can require the admitted applicant to take the on-campus ESL exam and register for any recommended English-as-a-second-language course(s) in the first semester of graduate study.

The La Follette School of Public Affairs only admits for the fall semester. The priority deadline for admission is listed above in the table. Applications are accepted after this date on a rolling admission basis, but there is no guarantee that space in the incoming class will be available.

Please also note that accelerated students are not able to apply to the dual or double degree programs with the La Follette School because of rigorous schedule of the coursework.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

La Follette School fellowships and assistantships are offered on a merit basis to select public affairs and international public affairs applicants who submit all application materials by **January 1**. Need is considered for some scholarships, so submitting a FAFSA by December 1 is also recommended.

Please refer to the Funding and Financial Information (<https://www.lafollette.wisc.edu/admissions/funding-financial-information/>) section of the La Follette School website for more information (www.lafollette.wisc.edu).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	Yes

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW-Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW-Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement 42 credits

Minimum Residence Credit Requirement 16 credits

Minimum Graduate Coursework Requirement 21 credits must be completed in graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (<https://policy.wisc.edu/library/UW-1244> (<https://policy.wisc.edu/library/UW-1244/>)).

Overall GPA Requirement 3.00 GPA required.

Graduate GPA Requirement This program follows the Graduate School's policy: <https://policy.wisc.edu/library/UW-1203> (<https://policy.wisc.edu/library/UW-1203/>).

Other Grade Requirements Students must earn a BC or above in all core curriculum coursework. A grade of C is the minimum grade permitted in elective courses that count toward a La Follette School degree.

Assessments and Examinations n/a

Language Requirements No language requirement.

REQUIRED COURSES

Students must complete 42 credits, including six core courses, a one-credit professional development seminar, plus eight elective courses. An internship can count for up to three elective credits. The program generally takes two years.

Seven required courses are the foundation of the MIPA degree program:

Code	Title	Credits
Required Courses: Total 19 credits		
PUB AFFR 800	Public Affairs Professional Development Workshop	1

PUB AFFR 818	Introduction to Statistical Methods for Public Policy Analysis	3
PUB AFFR 880	Microeconomic Policy Analysis	3
PUB AFFR 850	International Governance	3
PUB AFFR 854	Macroeconomic Policy and International Financial Regulation	3
or PUB AFFR 856	Trade, Competition, and Governance in a Global Economy	
PUB AFFR 873	Introduction to Policy Analysis	3
PUB AFFR 860	Workshop in International Public Affairs	3

Recommended Electives in International Public Affairs: Total 23 credits

Students build proficiency beyond the core requirements through elective courses that include but are not limited to:

PUB AFFR 520	Inequality, Race and Public Policy	
PUB AFFR 819	Advanced Statistical Methods for Public Policy Analysis	
PUB AFFR 827	Administrative Internship	
PUB AFFR/ POLI SCI 871	Public Program Evaluation	
PUB AFFR/ A A E/ENVIR ST/ POP HLTH 881	Benefit-Cost Analysis	
PUB AFFR 974	Topics in Public Affairs	

Regional Focus Fields ¹

1

Regional focus fields develop broad expertise in a geographic region by clustering courses, including language courses, across several disciplines, typically emphasizing courses in the social sciences. In building regional focus fields, MIPA students take advantage of the university's strong area studies centers, which include:

- African Studies (<http://africa.wisc.edu>)
- East Asian Studies (<http://eastasia.wisc.edu/>)
- European Studies (<http://uw-madison-ces.org/>)
- Latin American, Caribbean, and Iberian Studies (<http://lakis.wisc.edu/>)
- Middle East Studies (<https://mideast.wisc.edu/>)
- Russian, East European, and Central Asian Studies (<http://creeca.wisc.edu/>)
- South Asian Studies (<http://southasia.wisc.edu/>)
- Southeast Asian Studies (<http://seasia.wisc.edu/>)

Recommended Two-Year Plan of Study

Code	Title	Credits
Recommended progression: Courses below are those required for the degree indicated in the semester in which they are required. Students fill in with electives in consultation with their advisor.		

Fall Year One: 10-13 credits

PUB AFFR 800	Public Affairs Professional Development Workshop	1
PUB AFFR 850	International Governance	3
PUB AFFR 880	Microeconomic Policy Analysis	3
Elective/s		

Spring Year One: 12 credits

PUB AFFR 818	Introduction to Statistical Methods for Public Policy Analysis	3
PUB AFFR 854	Macroeconomic Policy and International Financial Regulation ¹	3
or PUB AFFR 856	Trade, Competition, and Governance in a Global Economy	
PUB AFFR 873	Introduction to Policy Analysis	3
Elective		

Summer: optional 1-3 credits

PUB AFFR 827	Administrative Internship	1-3
--------------	---------------------------	-----

Fall Year Two: 12 cr. No specific courses required; students select electives in consultation with their advisor. Common options are shown.

PUB AFFR 819	Advanced Statistical Methods for Public Policy Analysis	3
PUB AFFR/ POLI SCI 871	Public Program Evaluation	3
PUB AFFR/ A A E/ENVIR ST/ POP HLTH 881	Benefit-Cost Analysis	3
PUB AFFR 974	Topics in Public Affairs	3

Spring Year Two: 9 credits

PUB AFFR 860	Workshop in International Public Affairs	3
--------------	--	---

Electives

1

PUB AFFR 854 Macroeconomic Policy and International Financial Regulation or PUB AFFR 856 Trade, Competition, and Governance in a Global Economy are taught in alternating years in the spring of Spring Year One.

International Public Affairs and Urban and Regional Planning (MIPA/M.S. URPL)

The La Follette School of Public Affairs and the Department of Planning and Landscape Architecture offer a double degree Master of Science in Urban and Regional Planning and a Master of International Public Affairs. Students completing the double degree must follow the double degree plan. The Department of Planning and Landscape Architecture requires 46 credits for the Master of Science in Urban and Regional Planning. The La Follette School requires 42 credits for the Master of International Public Affairs. Per UW-Madison Graduate School policy, an overlap of 25% of credits is permitted (11 credits can count toward both degrees). Students can graduate with both degrees by completing 77 credits in three years.

Graduate coordinators for both programs have sample curricular plans that they will share with prospective or current students to assist with successful completion of all degree requirements.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 12 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements. This work does not appear on UW–Madison transcript nor count toward graduate career GPA.

UW–Madison Undergraduate

Students in the accelerated MIPA program may transfer up to 18 credits from their undergraduate career at UW–Madison toward the accelerated MIPA 42 degree credit total.

UW–Madison University Special

With program approval, students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

This program follows the Graduate School's Probation policy (<https://policy.wisc.edu/library/UW-1217/>).

ADVISOR / COMMITTEE

Every graduate student will have one faculty advisor in addition to the Admissions and Advising Coordinator to support their academic progress.

CREDITS PER TERM ALLOWED

Two-Year MIPA: Credit load by term varies. Students typically take 10 credits in their first semester in the program, increasing to 12 credits for the next two semesters so that they can plan a lighter load of 9 credits when in their final spring semester due to demands from their workshop course. Students need advisor approval to take 15 credits.

MIPA accelerated track: 12 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy (<https://policy.wisc.edu/library/UW-1221/>).

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)
- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)

- Employee Disability Resource Office (<https://employeeabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

OTHER

n/a

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

INTERNATIONAL PUBLIC AFFAIRS CAREERS

Career development is an integral part of the La Follette School experience, and data show extremely high percentages of employment three to six months post-graduation. The La Follette School offers:

- Visits with local employers, as well as trips focused on local, regional, and federal careers
- Networking opportunities
- Career development seminars with public affairs professionals
- Connections with alumni mentors

The career services coordinator works with students one-on-one to develop essential skills, such as interviewing, writing strong cover letters and resumes, and researching internships and permanent employment. During the first semester course Professional Development Workshop (<https://www.lafollette.wisc.edu/degree-programs/courses/pa-800-professional-development-workshop/>), students also create an individual plan and portfolio that help them proactively move toward their academic and career goals.

La Follette School alumni work in all levels of government, nonprofit organizations, and the private sector. Popular positions include policy analyst, consultant, executive director, research analyst, project manager, and government liaison. MIPA alumni have held positions with these agencies, organizations, and businesses:

- American Red Cross
- Aspen Institute
- CARE in Afghanistan
- Congressional-Executive Commission on China
- Deloitte
- Governments of Chile, Japan, and Korea
- Peace Corps
- United Nations Development Programme
- U.S. Agency for International Development
- U.S. Central Intelligence Agency
- U.S. Department of Homeland Security
- U.S. Department of State

Please refer to the Career Development (<https://www.lafollette.wisc.edu/career-development/>) section of the La Follette School website for more information (www.lafollette.wisc.edu).

LEARNING OUTCOMES

1. (Knowledge) Students will demonstrate understanding of major current and past policy debates, research findings, and analytical methodologies in each of the following core areas: microeconomic policy analysis, macroeconomic policy analysis, quantitative tools for policy analysis, policy analysis, and international governance.
2. (Knowledge) Students will demonstrate critical thinking skills. They will retrieve and examine the policy literature and evaluate evidence for and against hypotheses, identify knowledge gaps, strengths and weaknesses in existing literature, synthesize knowledge, and develop conclusions.
3. (Applied research skills) Students will read, comprehend, and effectively summarize policy research and policy-relevant academic research.
4. (Applied research skills) Students will effectively summarize data for a general (nonacademic) or policy audience.
5. (Applied research skills) Students will demonstrate competency in methods of inferential statistics including those associated with multivariate regression models.
6. (Professional and ethical conduct) Students will identify and appropriately respond to scenarios involving the ethical and professional responsibilities of public administration.
7. (Professional and ethical conduct) Students will demonstrate the ability to maintain human subjects protections when designing studies, collecting data and reporting results.
8. (Professional and ethical conduct) Students will know and adhere to high levels of professional conduct, ethical decision-making and legal and regulatory compliance.
9. (Professional and ethical conduct) Students will demonstrate the ability to maintain fidelity to objective social science-based research methods.
10. (Communication) Students will communicate in clear written language: a real-world policy problem, relevant scholarly studies and practical applications, a policy-analytic method to investigate the problem, and client-oriented advice to mitigate the problem.
11. (Communication) Students will communicate substance of point 1 highly concisely and in language understandable to a non-specialist.
12. (Communication) Students will communicate substance of point 2 orally.

13. (Professional skills and career preparation) Students will develop effective job-seeking tools and utilize job-seeking techniques.
14. (Professional skills and career preparation) Students will complete high quality group projects, including demonstration of effective project management and teamwork.

PEOPLE

See a complete list of faculty and staff (<https://lafollette.wisc.edu/about/faculty-and-staff/>).

PUBLIC AFFAIRS, DOCTORAL MINOR

Admissions to the Public Affairs Doctoral Minor have been suspended as of fall 2022 and will be discontinued as of fall 2025. If you have any questions, please contact the department.

Any student enrolled in a UW-Madison doctoral program can pursue a doctoral minor in Public Affairs. The doctoral minor offers training in the field of public affairs and can be tailored to a student's specific interests. A doctoral minor in Public Affairs provides breadth and skills in public policy analysis, program evaluation, and public management.

ADMISSIONS

Admissions to the Public Affairs Doctoral Minor have been suspended as of fall 2022 and will be discontinued as of fall 2025. If you have any questions, please contact the department.

To be approved for the minor in Public Affairs, the candidate must complete the Minor Agreement Form and submit it to the Student Services Coordinator at the La Follette School prior to completion of six credits of minor coursework at UW-Madison. The student must have had at least one college level course in either calculus or statistics and at least one introductory college level course in microeconomics or macroeconomics and received B's or above in these courses. At UW-Madison, STAT 301, ECON 101 and ECON 102 meet these prerequisite requirements.

The student must have a program of study approved by the Associate Director of the La Follette School of Public Affairs and the student's major PhD advisor, early in the student's graduate work.

The student must achieve a 3.0 GPA in courses used to satisfy the minor requirements.

The student may request that one relevant policy course from another UW-Madison graduate department be counted toward the minor with prior approval.

The student is advised to check in with the La Follette Student Services Coordinator; call 608-262-3582 with questions.

Approval of one transfer course is possible. A transcript, syllabus, and course description is required for evaluation.

REQUIREMENTS

The La Follette School of Public Affairs doctoral minor requires 12 credits or four 3-credit courses.

Two courses, or six credits must be chosen from the following upper level La Follette School policy analysis or management courses, and at least one of the two courses must be a policy analysis course. PUB AFR 818 should be taken before PUB AFR 819 and PUB AFR/POLI SCI 871 unless the student has already taken a graduate level statistical analysis course.

Code	Title	Credits
PUB AFR 818	Introduction to Statistical Methods for Public Policy Analysis	3
PUB AFR 819	Advanced Statistical Methods for Public Policy Analysis	3
PUB AFR/ POLI SCI 871	Public Program Evaluation	3
PUB AFR 873	Introduction to Policy Analysis	3
PUB AFR/ POLI SCI/ URB R PL 874	Policy-Making Process	3
PUB AFR/ POLI SCI 875	Public Personnel Administration	3
PUB AFR/ POLI SCI/ URB R PL 878	Public Management	3
PUB AFR 880	Microeconomic Policy Analysis	3
PUB AFR/ A A E/ENVIR ST/ POP HLTH 881	Benefit-Cost Analysis	3
PUB AFR/ POLI SCI 885	Advanced Public Management: Craft, Constraints and Accountability	3

The other two courses, or six credits may come either from other courses listed in (2) or from the following elective courses offered by the La Follette school of Public Affairs:

Code	Title	Credits
PUB AFR/ ENVIR ST/ URB R PL 809	Introduction to Energy Analysis and Policy	3
PUB AFR 864	Health Policy and Policy Design	3
PUB AFR/ ENVIR ST/ POLI SCI 866	Global Environmental Governance	3
PUB AFR/ POLI SCI 875	Public Personnel Administration	3
PUB AFR/ SOC WORK 887	Nonprofit Leadership	3
PUB AFR 888	Comparative and National Social Policy	3
PUB AFR 974	Topics in Public Affairs	3

PEOPLE

See a complete list of faculty and staff (<https://lafollette.wisc.edu/about/faculty-and-staff/>).

PUBLIC AFFAIRS, MPA

The Master of Public Affairs (MPA) Program provides education in public management and policy analysis that prepares students for careers in public policy and administration within the public, private, and nonprofit sectors.

The award-winning La Follette School faculty includes economists, political scientists, sociologists, and public affairs scholars who teach the skills and tools needed for a career in public affairs. They are experts in social policy, health policy and management, public administration, public policy analysis, environmental policy, poverty, and tax policy and government finance.

Beyond campus, the city of Madison, as the state capital, provides a wealth of opportunities for La Follette School students to participate in outreach and acquire practical experience as professional project assistants or interns with public and private entities. Students benefit from the strong relationships that La Follette School faculty have with these organizations, in keeping with the Wisconsin Idea of public service. This includes the Wisconsin Family Impact Seminar and Campus Connect—opportunities that use evidence-based research to inform policymakers and improve public policy.

PUBLIC AFFAIRS DOUBLE DEGREES, DUAL DEGREES, AND CERTIFICATE PROGRAMS

Some students earn additional credentials while they work toward their public affairs degrees. Students must follow double degree (<https://grad.wisc.edu/acadpolicy/?policy=doubleddegrees>) and dual degree (<https://grad.wisc.edu/acadpolicy/?policy=dualdegreesgradprof>) policies. The following combined degree and certificate programs have been established, though students choose to embark on double degrees and graduate certificates beyond those listed below:

- Law (Juris Doctorate)
- Master of Public Health
- Master of Science in Urban and Regional Planning
- Doctorate in Neuroscience
- Energy Analysis and Policy Certificate through the Nelson Institute in Environmental Studies
- Business, Environment, & Social Responsibility; Entrepreneurship; or Strategic Innovation offered through the Wisconsin School of Business.

Law and Public Affairs (MPA/J.D.)

Increasingly, careers in the federal, state, and local governments, as well as nonprofit organizations and private sector businesses require an understanding of public administration, policy analysis, and public affairs, as well as law. Many students choose to pursue the dual law and public affairs degree because of their interest in employment in government agencies, government relations law practice, or in other policy-oriented firms and organizations.

For most students the dual degree program will add about a year of study to the three years it takes to complete law school, but will save approximately one year of study compared to doing the two programs separately. Students earn a Master of Public Affairs degree and a Juris Doctor. It is recommended that students apply to both programs at the same time.

Public Health and Public Affairs (MPA/MPH)

The La Follette School and the School of Medicine and Public Health offer education in public health policy, policy analysis, and global governance to address critical health and health policy issues in the United States and throughout the world.

The dual degree program generally takes three years to complete, including summers. Students earn a Master of Public Affairs degree and a Master of Public Health degree.

Neuroscience and Public Affairs (MPA/Ph.D.)

Advances in neuroscience have important policy implications for child welfare and education, community development, mental health and health care, bioethics and aging, environmental risks, and national security. The Neuroscience and Public Policy Program (NPP) courses prepare students to work in the growing array of domestic or international policy jobs involved in the management of science and its integration into policy analysis and design. Students become good scientists and effective communicators, managers, and advocates of good public policy.

This combined degree program typically takes five years to complete, including summers. Students earn a Master of Public Affairs degree and a Doctor of Philosophy in Neuroscience. Degree requirements are completed in the first three years. The focus of the fourth year is on research and thesis development, as well as completion of the Ph.D. Preliminary Exam. Students continue doing research and defend their thesis in the fifth year.

Urban and Regional Planning and Public Affairs (MPA/M.S. in URPL)

The La Follette School and the Department of Planning and Landscape Architecture offer education in planning, policymaking, and public affairs to address domestic and global environmental, housing, and transportation policy issues. This double degree takes three years to complete, including summers. Students earn a Master of Public Affairs degree and a Master of Science in Urban and Regional Planning.

ADMISSIONS

Please consult the table below for key information about this degree program’s admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program’s website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	January 1
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.

GRE (Graduate Record Examinations)	Not required but may be considered if available.
English Proficiency Test	Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Applicants for the MPA program should submit official transcripts showing undergraduate performance with at least the equivalent of a 3.0 G.P.A. (on a 4.0 scale), three references, a statement of purpose, a quantitative statement, and a resume. Prerequisite courses include: ECON 101 Principles of Microeconomics, A A E 215 Introduction to Agricultural and Applied Economics, PSYCH 210 Basic Statistics for Psychology or MATH 221 Calculus and Analytic Geometry 1 or MATH 222 Calculus and Analytic Geometry 2 or STAT 301 Introduction to Statistical Methods or SOC/C&E SOC 360 Statistics for Sociologists I, and POLI SCI 104 Introduction to American Politics and Government. Applicants without this background may be admitted with the understanding that these courses will be completed before beginning the program.

Every applicant whose first language is not English and whose complete four-year undergraduate instruction was not in English, must provide official scores from the Test of English as a Foreign Language (TOEFL), International English Language Testing System (IELTS) or the Michigan English Language Assessment Battery (MELAB). The applicant must provide at least one of these minimum standardized test scores: TOEFL computer-based test score 237, TOEFL internet-based test score 92, IELTS score 7, or MELAB 82. Even if a student has the minimum score, the program can require the admitted applicant to take the on-campus ESL exam and register for any recommended English-as-a-second-language course(s) in the first semester of graduate study.

The La Follette School of Public Affairs only admits for the fall semester. The priority deadline for admission is listed above in the table. Applications are accepted after this date on a rolling admission basis, but there is no guarantee that space in the incoming class will be available. Please also note that accelerated students are not able to apply to the dual or double degree programs with the La Follette School because of rigorous schedule of the coursework.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

La Follette School fellowships and assistantships are offered on a merit basis to select public affairs and international public affairs applicants who submit all application materials by **January 1**. Need is considered for some scholarships, so submitting a FAFSA by December 1 is also recommended.

Please refer to the Funding and Financial Information (<https://www.lafollette.wisc.edu/admissions/funding-financial-information/>) section of the La Follette School website for more information (www.lafollette.wisc.edu).

REQUIREMENTS

MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (p. 13), in addition to the program requirements listed below.

MAJOR REQUIREMENTS

MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	Yes

Mode of Instruction Definitions

Accelerated: Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

Evening/Weekend: Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail

Minimum Credit Requirement 42 credits

Minimum Residence Credit Requirement 16 credits

Minimum Graduate Coursework Requirement 21 credits must be completed in graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (<https://policy.wisc.edu/library/UW-1244> (<https://policy.wisc.edu/library/UW-1244/>)).

Overall Graduate GPA Requirement 3.00 GPA required. This program follows the Graduate School's policy: <https://policy.wisc.edu/library/UW-1203> (<https://policy.wisc.edu/library/UW-1203/>).

Other Grade Requirements Students must earn a BC or above in all core curriculum coursework. A grade of C is the minimum grade permitted in elective courses that count toward a La Follette School degree.

Assessments and Examinations n/a

Language Requirements No language requirement.

REQUIRED COURSES

Students must complete 42 credits, including six core courses, a one-credit professional development seminar, plus eight elective courses. An internship can count for up to three elective credits. The program generally takes two years.

Seven required courses are the foundation of the MPA degree program:

Code	Title	Credits
Required Courses: Total 19 credits		
PUB AFFR 800	Public Affairs Professional Development Workshop	1
PUB AFFR 818	Introduction to Statistical Methods for Public Policy Analysis	3
PUB AFFR/ POLI SCI/ URB R PL 874	Policy-Making Process	3
PUB AFFR 880	Microeconomic Policy Analysis	3
PUB AFFR 873	Introduction to Policy Analysis	3
PUB AFFR/ POLI SCI/ URB R PL 878	Public Management	3
PUB AFFR 869	Workshop in Public Affairs	3

Recommended Electives in Public Affairs: Total 23 credits

Students build proficiency beyond the core requirements through elective courses that include but are not limited to:

PUB AFFR 520	Inequality, Race and Public Policy	3
PUB AFFR 819	Advanced Statistical Methods for Public Policy Analysis	3
PUB AFFR 827	Administrative Internship	1-3
PUB AFFR/ POLI SCI 871	Public Program Evaluation	3
PUB AFFR/ A A E/ENVIR ST/ POP HLTH 881	Benefit-Cost Analysis	3
PUB AFFR 974	Topics in Public Affairs	3

Up to 7 credits of related coursework numbered 300 or higher completed during undergraduate career at UW-Madison

Recommended Two-Year Plan of Study

Public Affairs And Urban and Regional Planning (MPA/ M.S. URPL)

The La Follette School of Public Affairs and the Department of Planning and Landscape Architecture offer a double degree Master of Science in Urban and Regional Planning and a Master of Public Affairs. Students completing the double degree must follow the double degree plan. The Department of Planning and Landscape Architecture requires 46 credits for the Master of Science in Urban and Regional Planning. The La Follette School requires 42 credits for the Master of Public Affairs. Per UW-Madison Graduate School policy, an overlap of 25% of credits is permitted (11 credits can count toward both degrees). Students can graduate with both degrees by completing 77 credits in three years.

Graduate coordinators for both programs have sample curricular plans that they will share with prospective or current students to assist with successful completion of all degree requirements.

POLICIES

GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (<https://grad.wisc.edu/acadpolicy/>) provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

MAJOR-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions

With program approval, students are allowed to count no more than 12 credits of graduate coursework from other institutions. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements. This work does not appear on UW-Madison transcript nor count toward graduate career GPA.

UW-Madison Undergraduate

Students in the accelerated MPA program may transfer up to 18 credits from their undergraduate career at UW-Madison toward the accelerated MIPA 42 degree credit total.

UW-Madison University Special

With program approval, students are allowed to count no more than 9 credits of coursework numbered 300 or above taken as a UW-Madison University Special student. Coursework earned five or more years prior to admission to a master's degree is not allowed to satisfy requirements.

PROBATION

This program follows the Graduate School's Probation policy. (<https://policy.wisc.edu/library/UW-1217/>)

ADVISOR / COMMITTEE

Every graduate student will have one faculty advisor in addition to the Admissions and Advising Coordinator to support their academic progress.

CREDITS PER TERM ALLOWED

Two-Year MPA: Credit load by term varies. Students typically take 10 credits in their first semester in the program, increasing to 12 credits for the next two semesters so that they can plan a lighter load of 9 credits when in their final spring semester due to demands from their workshop course. Students need advisor approval to take 15 credits.

MPA with accelerated track: 12 credits

TIME LIMITS

This program follows the Graduate School's Time Limits policy (<https://policy.wisc.edu/library/UW-1221/>).

GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (<https://doso.students.wisc.edu/bias-or-hate-reporting/>)

- Graduate Assistantship Policies and Procedures (<https://hr.wisc.edu/policies/gapp/#grievance-procedure>)
- Hostile and Intimidating Behavior Policies and Procedures (<https://hr.wisc.edu/hib/>)
 - Office of the Provost for Faculty and Staff Affairs (<https://facstaff.provost.wisc.edu/>)
- Dean of Students Office (<https://doso.students.wisc.edu/>) (for all students to seek grievance assistance and support)
- Employee Assistance (<http://www.eao.wisc.edu/>) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (<https://employee disabilities.wisc.edu/>) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (<https://grad.wisc.edu/>) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (<https://compliance.wisc.edu/>) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (<https://conduct.students.wisc.edu/>) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (<http://www.ombuds.wisc.edu/>) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (<https://compliance.wisc.edu/titleix/>) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances. They may also contact the L&S Academic Divisional Associate Deans, the L&S Associate Dean for Teaching and Learning Administration, or the L&S Director of Human Resources.

OTHER

n/a

PROFESSIONAL DEVELOPMENT

GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

PUBLIC AFFAIRS CAREERS

Career development is an integral part of the La Follette School experience, and data show extremely high percentages of employment three to six months post-graduation. The La Follette School offers:

- Visits with local employers, as well as trips focused on local, regional and federal careers
- Networking opportunities
- Career development seminars with public affairs professionals
- Connections with alumni mentors

The career services coordinator works with students one-on-one to develop essential skills, such as interviewing, writing strong cover letters

and resumes, and researching internships and permanent employment. During the first-semester course Professional Development Workshop (<https://www.lafollette.wisc.edu/degree-programs/courses/pa-800-professional-development-workshop/>), students also create an individual plan and portfolio that help them proactively move toward their academic and career goals.

La Follette School alumni work in all levels of government, nonprofit organizations, and the private sector. Popular positions include policy analyst, consultant, executive director, research analyst, project manager, and government liaison. MPA alumni have held positions with these agencies, organizations, and businesses:

- Congressional Research Service
- Deloitte
- Duke Margolis Health Policy Center
- Federal Bureau of Investigation
- Grant Thornton
- National Council on Crime and Delinquency
- Oregon Legislative Fiscal Office
- UW-Madison Center for Education Research
- U.S. Government Accountability Office
- U.S. Department of Transportation
- Wisconsin Department of Health Services
- Wisconsin Legislative Audit Bureau

Please refer to the Career Development (<https://www.lafollette.wisc.edu/career-development/>) section of the La Follette School website for more information (www.lafollette.wisc.edu).

LEARNING OUTCOMES

1. (Knowledge) Demonstrate understanding of major current and past policy debates, research findings, and analytical methodologies in each of the following core areas: microeconomic policy analysis, quantitative tools for policy analysis, policy analysis, the policymaking process, and public management.
2. (Knowledge) Demonstrate critical thinking skills. They will retrieve and examine the policy literature and evaluate evidence for and against hypotheses, identify knowledge gaps, strengths and weaknesses in existing literature, synthesize knowledge, and develop conclusions.
3. (Applied Research Skills) Read, comprehend, and effectively summarize policy research and policy-relevant academic research.
4. (Applied Research Skills) Effectively summarize data for a general (non-academic) or policy audience.
5. (Applied Research Skills) Demonstrate competency in methods of inferential statistics including those associated with multivariate regression models.
6. (Professional and Ethical Conduct) Identify and appropriately respond to scenarios involving the ethical and professional responsibilities of public administration.
7. (Professional and Ethical Conduct) Demonstrate the ability to maintain human subjects protections when designing studies, collecting data and reporting results.
8. (Professional and Ethical Conduct) Know and adhere to high levels of professional conduct, ethical decision-making and legal and regulatory compliance.

9. (Professional and Ethical Conduct) Demonstrate the ability to maintain fidelity to objective social science-based research methods.
10. (Communication) Communicate in clear written language: a real-world policy problem, relevant scholarly studies and practical applications, a policy-analytic method to investigate the problem, and client-oriented advice to mitigate the problem.
11. (Communication) Communicate substance of point 1 highly concisely and in language understandable to a non-specialist.
12. (Communication) Communicate substance of point 2 orally.
13. (Professional Skills and Career Preparation) Develop effective job-seeking tools and utilize job-seeking techniques.
14. (Professional Skills and Career Preparation) Complete high quality group projects, including demonstration of effective project management and teamwork.

SECOND LANGUAGE ACQUISITION, DOCTORAL MINOR

The Option A minor in Second Language Acquisition (SLA) offers graduate students both a theoretical and a practical background in the increasingly important area of SLA. After completing the minor, students will be prepared to understand research in SLA and to develop teaching curricula based on principles of second language learning and teaching.

ADMISSIONS

Students wishing to minor in SLA should first contact the relevant SLA committee member (<http://sla.wisc.edu/people/faculty/>) in their department who will refer them to the SLA minor advisor. Students declaring the minor are required to meet with Professor Naomi Geyer (nfgeyer@wisc.edu), SLA minor advisor, before registering for SLA minor courses.

REQUIREMENTS

The SLA minor consists of 9 credits: a required course and two elective courses. Students without a background in linguistics and language pedagogy are encouraged to take introductory linguistics and teaching methodology courses before starting the SLA minor. Students may transfer up to 3 credits from prior graduate work, upon approval.

All students are required to take ENGL 318 Second Language Acquisition or CURRIC 673 Learning Second Language and Literacies. Students also choose two courses from the approved SLA list. With approval of the SLA minor advisor, students may count up to 3 credits (one course) of prior graduate study toward the minor.

Approved SLA course list

SECOND LANGUAGE ACQUISITION, PH.D.

Second language acquisition (SLA) is the systematic study of learning, using, and sometimes losing any form of language beyond the mother tongue. SLA is a burgeoning research field because today there are more people on the planet who use at least two languages than there are monolinguals. For individual learners and for every community in diaspora, second language acquisition is an experience that challenges their knowledge of language, their understanding of different cultures, and their personal identities. The experiences and challenges surrounding SLA are studied by scholars whose training is in a variety of fields—linguistics, psychology, sociology, education, anthropology, and communication arts—a variety that makes the study of SLA richly interdisciplinary.

The Ph.D. Program in Second Language Acquisition at the University of Wisconsin–Madison is a rigorous interdisciplinary academic program that embodies the university's mission to foster the study of globally important issues. In their coursework, students in the program learn from and collaborate with experienced and distinguished faculty in many departments and, through their original dissertation research, students generate and contribute new knowledge to the field. Students develop a thorough understanding of the scope of SLA as a field of inquiry, and develop and refine research skills that will serve them as they define and pursue their own research agenda. A Ph.D. in SLA opens the door to scholarly and professional careers as university faculty, directors of foreign language programs, educational policy makers, and multilingual specialists.

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet** the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) **of the Graduate School as well as the program(s)**. Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 15
Spring Deadline	The program does not admit in the spring.
Summer Deadline	The program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.

PEOPLE

SLA Steering Committee - The interdisciplinary SLA Steering Committee (<https://sla.wisc.edu/steering-committee-members/>) is comprised of members from the units listed below.

African Cultural Studies: Professor Katrina Thompson

Asian Languages and Cultures: Associate Professor Naomi Geyer, Associate Professor Byung-Jin Lim and Professor Junko Mori

Curriculum and Instruction: Professor Margaret Hawkins, Associate Professor Mariana Pacheco, Assistant Professor Diego Roman, Professor Francois Tochon and Professor Kate Vieira

English: Assistant Professor Jacee Cho

French and Italian: Associate Professor Heather Allen

English Proficiency Test Every applicant whose native language is not English or whose undergraduate instruction was not in English must provide an English proficiency test score and meet the Graduate School minimum requirements (<https://grad.wisc.edu/apply/requirements/#english-proficiency>).

Other Test(s) (e.g., GMAT, MCAT) n/a

Letters of Recommendation Required 3

The Ph.D. Program in SLA requires a master's degree in a foreign language, English, applied linguistics, linguistics, or education. Please refer to the SLA website (<https://sla.wisc.edu/admissions/>) for application deadlines, required application materials, and required modes of submitting these materials. In addition, general requirements for admission stipulated by the graduate school (e.g., evidence of English proficiency for certain international students) apply.

FUNDING

GRADUATE SCHOOL RESOURCES

Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (<https://grad.wisc.edu/funding/>) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

Students in the SLA program, depending on their qualifications, may receive financial support through several departments, programs, and institutes. Students with a background in foreign language or English teaching may work as graduate teaching assistants (TAs) in departments in which those languages are taught. Other students work as graduate project assistants (PA) for the Language Institute or other units on campus. In addition to these TA and PA positions, select SLA students receive university fellowships (including the Advanced Opportunity Fellowships) upon entry into the program or when working on their dissertations. If they meet the specific eligibility criteria, students may also compete, with the program's support, in other grant and fellowship competitions, such as Foreign Language and Area Studies (FLAS) Fellowships. Additional funding opportunities are included in the information for current students on the SLA website (<https://sla.wisc.edu/content/funding-resources/>).

Face-to-Face: Courses typically meet during weekdays on the UW–Madison Campus.

Hybrid: These programs combine face-to-face and online learning formats. Contact the program for more specific information.

Online: These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

CURRICULAR REQUIREMENTS

Requirement Detail	
Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	36 coursework credits plus 9 dissertation credits, for a total of 45 credits.
Minimum Graduate Coursework Requirement	26 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) policy (https://policy.wisc.edu/library/UW-1244) (https://policy.wisc.edu/library/UW-1244/).
Overall Graduate GPA Requirement	3.00 GPA required. This program follows the Graduate School's GPA Requirement policy (https://policy.wisc.edu/library/UW-1203) (https://policy.wisc.edu/library/UW-1203/).
Other Grade Requirements	Incompletes must be resolved by the end of the next fall or spring term in which the student is enrolled. In addition, all incompletes must be resolved before students may take any portion of the preliminary examination.
Assessments and Examinations	Students must take preliminary exams within one semester of completing coursework. The dissertation proposal must be approved by the student's dissertation proposal committee no later than one calendar year after the student becomes a dissertator. The last step in completing the Ph.D. in Second Language Acquisition is the successful defense of a doctoral thesis or dissertation, followed by its deposit with the Graduate School.

Language Requirements Typically, the student must demonstrate an advanced level of academic oral and reading proficiency in two languages prior to taking preliminary exams. A plan for meeting this requirement is developed by the student and advisor during the student's first semester in the Program. The plan must be approved by the advisor and the SLA steering committee by the end of the first academic year.

Breadth Requirements Because of the broad, interdisciplinary nature of the SLA program course requirements, a minor or graduate/professional certificate is not required. A minor or graduate/professional certificate is optional, and, in some cases, may be strongly suggested. Students must submit a short statement (2-3 pages) at the end of their third semester, discussing how the courses that they have taken so far, as well as those that they plan to take in the future semester(s), inform their dissertation research and their envisioned career path.
