HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Chinese undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all courses accepted in the major
- Complete the following coursework, with a grade of B or better:
 - Either ASIAN 699 or another Capstone course (see list above) of 3-4 credits (excluding ASIAN 681 or ASIAN 682 or ASIAN 692) with the professor under whose guidance a student intends to write a thesis. This course must be taken before ASIAN 681.
 - Students who complete ASIAN 699 for the Capstone requirement will follow the department procedure for obtaining consent to enroll in a Senior Honors Thesis supervised by the faculty. Students must contact the undergraduate advisor for this major to initiate this process.
- A two-semester Senior Honors Thesis in ASIAN 681 and ASIAN 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and audiovisual materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.

5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits Spring	Credits
ASIAN 100 (Humanities)	3-4 ASIALANG 102	4

THREE-YEAR PLAN

THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

DEPARTMENTAL EXPECTATIONS

Students planning to graduate within three years with a Chinese major should enter the University with a minimum of 26 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- First year Chinese (ASIALANG 101 and ASIALANG 102) – All students are required to take a placement test in Chinese to assess their prior experience in the language. Students should register for a date (<https://alc.wisc.edu/languages/placement-tests/>) prior to their SOAR visit.
- Communication Part A
- Quantitative Reasoning Part A
- 6 combined credits of Biological, Natural, or Physical Science

First Year

Fall	Credits Spring	Credits
ASIALANG 201	4 ASIALANG 202	4

ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THIS PROGRAM

Please follow the process described on the Asian Languages and Cultures website (<https://alc.wisc.edu/advising/>).

ADVISING

If you like to plan, seeing your advisor is very important; it can make the difference between fitting in general education and major requirements before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

The advisor is happy to meet with students as they explore the degree options, prepare for study abroad, or advance through their four-year plans. Schedule an appointment in Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/10715/schedule>).

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE UNDERGRADUATE RESEARCH

Students in the Department of Asian Languages and Cultures' academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (<https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research/>) that provide research opportunities for undergraduates at UW-Madison, including:

- Hilldale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/>)
- McNair Scholars (<https://mcnair.wisc.edu/>)
- Summer Research Programs (<https://grad.wisc.edu/diversity/summer-research-opportunity-program/>)
- Undergraduate Research Scholars (<https://urs.ls.wisc.edu/>)
- The Wisconsin Idea Undergraduate Fellowship Program (<https://morgridge.wisc.edu/get-connected-students/wisconsin-undergraduate-idea-fellowships/>)

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

DEPARTMENT SCHOLARSHIPS

The Department of Asian Languages and Cultures has various scholarships to support meritorious students in our programs. Application information and deadlines (<https://alc.wisc.edu/undergraduate-studies/departments-scholarships/>).

Chinese Language Learners Bridge Fund

Chinese Major Alumni Jarrett Wiesolek (Class of 2011) and Ali Dibble (Class of 2012) launched the Bridge Fund in 2016. CLLBF is designed to award scholarships to students who are passionate about learning Chinese and building bridges between UW–Madison and China.

Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin–Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting, and developing Chinese studies in Wisconsin. Professor Chou was very active during her teaching career and often helped financially disadvantaged students, especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

Ellen and William E. Fisher Scholarship

Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at UW–Madison who is studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the fall semester so that the recipient can use it in the Spring semester.

Gwang-Tsai Chen Award

Professor Sabina Knight established this scholarship in honor of Gwang-Tsai (Arthur) Chen, Emeritus Professor of East Asian Languages and Literature at UW–Madison. The scholarship recognizes a rising undergraduate Chinese major. Student eligibility: must be a non-heritage language learner, freshman or sophomore standing, a GPA above 3.5.

Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian Languages and Cultures. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

CAMPUS RESOURCES

Foreign Language & Area Studies (FLAS) Fellowships (<https://flas.wisc.edu/>)

East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant Director, ldennis@wisc.edu (ldennis@international.wisc.edu), 325 Ingraham Hall

FLAS fellowships are funded by the U.S. Department of Education and administered by UW–Madison's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/languages/>), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (<https://flas.wisc.edu/languages/>) of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

Scholarships@UW–Madison (<https://scholarships.wisc.edu/Scholarships/>)

This is the primary campus-wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (<https://awards.advising.wisc.edu/>)

We help UW–Madison undergraduates and recent graduates pursue nationally competitive scholarships (<https://awards.advising.wisc.edu/scholarships/nationally-competitive/>) and campus-wide awards (<https://awards.advising.wisc.edu/scholarships/campus-wide/>) for research, service, and leadership – activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (<https://awards.advising.wisc.edu/schedule-an-appointment/>) to schedule an appointment to discuss which opportunities are right for you.

NATIONAL SCHOLARSHIPS

Boren Scholarships (<https://borenawards.org/>)

Campus Representative: Undergraduates with questions should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs

These scholarships provide up to \$20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (<https://borenawards.org/eligible-programs/#countries>)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (<https://borenawards.org/eligible-programs/#languages>)).

Critical Language Scholarship Program (<http://www.clscholarship.org/>)

Campus Representative: Mark Lilleleht, Assistant Director for Awards at awards@iris.wisc.edu

The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.

The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds, and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts, and humanities are encouraged to apply.

Gilman Scholarship Program (<https://www.iie.org/Programs/Gilman-Scholarship-Program/>)

Campus Representative: Andy Quackenbush (quackenbush@studyabroad.wisc.edu), Advisor, International Academic Programs

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

CHINESE, BS

The Chinese major offers students a range of courses and activities which impart an understanding of the culture and civilization of China. With the completion of three years of the language, students will be prepared to communicate effectively in written and spoken Chinese. Most majors pursue advanced studies in Chinese linguistics or literature, while others combine an interest in China with a degree in business, education, engineering or journalism.

Visit our website (<https://alc.wisc.edu/undergraduate-studies/undergraduate-studies-in-chinese/>) for more information about the undergraduate studies in Chinese.

STUDY ABROAD

Students may receive residence credit for study abroad through a variety of different programs in China, Taiwan, Singapore, and other countries through UW–Madison's Study Abroad Programs (<https://studyabroad.wisc.edu/academics/major-advising-pages-maps/chinese/>).

Students may also receive credit, or gain experience, through various internship opportunities abroad. Please contact International Internship Programs (<http://internships.international.wisc.edu/>) for details.

STARTING COURSEWORK TOWARD THE MAJOR

Students may declare the Chinese major at any time. Before declaring the major, students may begin coursework to explore the language and fields of interest. Those students who have studied Chinese prior to coming

to UW–Madison will have to take a placement test (<https://alc.wisc.edu/placement-tests/>) to determine the best class to enroll in on campus.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students declared in the Chinese Professional Communication certificate may not be declared in the Chinese major at the same time. Students who do wish to declare the Chinese major must first cancel their declaration in the Chinese Professional Communication certificate.

PLACEMENT EXAM

The Asian Languages and Cultures department offers placement exams for students with prior language study or experience as a speaker of Chinese. For more information, see the department's website. (<https://alc.wisc.edu/languages/placement-tests/>)

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General
Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

Language Complete the third unit of a language other than English.

L&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced Coursework Complete at least 60 credits at the Intermediate or Advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW-Madison Experience Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

Quality of Work

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Chinese undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all courses accepted in the major
- Complete the following coursework, with a grade of B or better:
 - Either ASIAN 699 or another Capstone course (see list above) of 3–4 credits (excluding ASIAN 681 or ASIAN 682 or ASIAN 692) with the professor under whose guidance a student intends to write a thesis. This course must be taken before ASIAN 681.
 - Students who complete ASIAN 699 for the Capstone requirement will follow the department procedure for obtaining consent to enroll in a Senior Honors Thesis supervised by the faculty. Students must contact the undergraduate advisor for this major to initiate this process.
- A two-semester Senior Honors Thesis in ASIAN 681 and ASIAN 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and audiovisual materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.

8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits Spring	Credits
ASIAN 100 (Humanities)	3-4 ASIALANG 102	4

THREE-YEAR PLAN

THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

DEPARTMENTAL EXPECTATIONS

Students planning to graduate within three years with a Chinese major should enter the University with a minimum of 26 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- First year Chinese (ASIALANG 101 and ASIALANG 102) – All students are required to take a placement test in Chinese to assess their prior experience in the language. Students should register for a date (<https://alc.wisc.edu/languages/placement-tests/>) prior to their SOAR visit.
- Communication Part A
- Quantitative Reasoning Part A
- 6 combined credits of Biological, Natural, or Physical Science

First Year		
Fall	Credits Spring	Credits

ADVISING AND CAREERS

ADVISING AND CAREERS
DECLARE OR CANCEL THIS PROGRAM

Please follow the process described on the Asian Languages and Cultures website (<https://alc.wisc.edu/advising/>).

ADVISING

If you like to plan, seeing your advisor is very important; it can make the difference between fitting in general education and major requirements before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with

your learning style. Any and all of these discussions can occur during your advising appointment.

The advisor is happy to meet with students as they explore the degree options, prepare for study abroad, or advance through their four-year plans. Schedule an appointment in Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/10715/schedule>).

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE UNDERGRADUATE RESEARCH

Students in the Department of Asian Languages and Cultures' academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (<https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research/>) that provide research opportunities for undergraduates at UW-Madison, including:

- Hilldale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/>)
- McNair Scholars (<https://mcnair.wisc.edu/>)
- Summer Research Programs (<https://grad.wisc.edu/diversity/summer-research-opportunity-program/>)
- Undergraduate Research Scholars (<https://urs.ls.wisc.edu/>)
- The Wisconsin Idea Undergraduate Fellowship Program (<https://morgridge.wisc.edu/get-connected-students/wisconsin-undergraduate-idea-fellowships/>)

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

DEPARTMENT SCHOLARSHIPS

The Department of Asian Languages and Cultures has various scholarships to support meritorious students in our programs. Application information and deadlines (<https://alc.wisc.edu/undergraduate-studies/department-scholarships/>).

Chinese Language Learners Bridge Fund

Chinese Major Alumni Jarrett Wiesolek (Class of 2011) and Ali Dibble (Class of 2012) launched the Bridge Fund in 2016. CLLBF is designed to award scholarships to students who are passionate about learning Chinese and building bridges between UW-Madison and China.

Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin-Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting, and developing Chinese studies in Wisconsin. Professor Chou was very active during her teaching career and often helped financially disadvantaged students, especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

Ellen and William E. Fisher Scholarship

Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at UW-Madison who is studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the fall semester so that the recipient can use it in the Spring semester.

Gwang-Tsai Chen Award

Professor Sabina Knight established this scholarship in honor of Gwang-Tsai (Arthur) Chen, Emeritus Professor of East Asian Languages and Literature at UW-Madison. The scholarship recognizes a rising undergraduate Chinese major. Student eligibility: must be a non-heritage language learner, freshman or sophomore standing, a GPA above 3.5.

Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian Languages and Cultures. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

CAMPUS RESOURCES

Foreign Language & Area Studies (FLAS) Fellowships (<https://flas.wisc.edu/>)

East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant Director, ldennis@wisc.edu (ldennis@international.wisc.edu), 325 Ingraham Hall

FLAS fellowships are funded by the U.S. Department of Education and administered by UW–Madison's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/languages/>), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (<https://flas.wisc.edu/languages/>) of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

Scholarships@UW–Madison (<https://scholarships.wisc.edu/Scholarships/>)

This is the primary campus-wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (<https://awards.advising.wisc.edu/>)

We help UW–Madison undergraduates and recent graduates pursue nationally competitive scholarships (<https://awards.advising.wisc.edu/scholarships/nationally-competitive/>) and campus-wide awards (<https://awards.advising.wisc.edu/scholarships/campus-wide/>) for research, service, and leadership – activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (<https://awards.advising.wisc.edu/schedule-an-appointment/>) to schedule an appointment to discuss which opportunities are right for you.

NATIONAL SCHOLARSHIPS

Boren Scholarships (<https://borenawards.org/>)

Campus Representative: Undergraduates with questions should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs

These scholarships provide up to \$20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (<https://borenawards.org/eligible-programs/#countries>)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (<https://borenawards.org/eligible-programs/#languages>)).

Critical Language Scholarship Program (<http://www.clscholarship.org/>)

Campus Representative: Mark Lilleleht, Assistant Director for Awards at awards@iris.wisc.edu

The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.

The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds, and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts, and humanities are encouraged to apply.

Gilman Scholarship Program (<https://www.iie.org/Programs/Gilman-Scholarship-Program/>)

Campus Representative: Andy Quackenbush

(quackenbush@studyabroad.wisc.edu), Advisor, International Academic Programs

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

JAPANESE PROFESSIONAL COMMUNICATION, CERTIFICATE

The certificate in Japanese Professional Communication provides students with the opportunity to develop proficiency in Japanese while pursuing majors in other subjects across the university. It emphasizes the development of communication skills that are applicable to various professional contexts that students may encounter in their future careers.

STUDY ABROAD IN JAPAN

Students may receive residence credit for study abroad through a variety of different programs sponsored by the department. Please contact International Academic Programs (<https://www.studyabroad.wisc.edu/>) for details.

Students may also receive credit, or gain experience, through various internship opportunities abroad. Please contact International Internship Programs (<http://internships.international.wisc.edu/>) for details.

HOW TO GET IN

HOW TO GET IN PLACEMENT EXAM

The Asian Languages and Cultures department offers placement exams for students with prior language study or experience as a speaker of Japanese. For more information, see the department's website (<https://alc.wisc.edu/languages/placement-tests/>).

DECLARING THE CERTIFICATE

Declaring the certificate is as easy as meeting with the undergraduate advisor, make an appointment to review requirements and discuss course plans on Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/10715/schedule>).

Students declared in the Japanese major are not eligible to declare the Japanese Professional Communication certificate.

15

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses
- At least 8 certificate credits must be completed in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Explain in the target language their academic and professional experiences, and articulate their career objectives, both in writing and speaking.
2. Manage basic everyday workplace (face-to-face, telephone, and email) communications in the target language (e.g., greeting,

introducing oneself, making/changing appointments, making and receiving requests, obtaining permission, reporting, thanking, apologizing).

3. With preparation, deliver a clear, concise, and connected presentation in the target language, with the effective use of visual images, on a subject they researched through online resources and/or interviews.
4. Demonstrate an awareness of the significance of honorific and formulaic expressions and etiquette observed in the workplace within the target culture, which can be applied to their life-long learning.
5. Demonstrate an awareness of diverse cultural perspectives, which may influence business and other professional practices, and a disposition to approach unfamiliar contexts with an open mind.

Boren Scholarships (<http://borenawards.org/>)

Campus Representative: Undergraduates with questions should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs

These scholarships provide up to \$20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (<https://borenawards.org/eligible-programs/#countries>)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (<https://borenawards.org/eligible-programs/#languages>)).

Critical Language Scholarship Program (<http://www.clscholarship.org/>)

Campus Representative: Mark Lilleleht, Assistant Director for Awards at awards@iris.wisc.edu

The Critical Language Scholarship Program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, the Critical Language Scholarship Program provides opportunities to a diverse range of students from across the United States at every level of language learning. Critical Language Scholarship Program languages are: Arabic, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Portuguese, Russian, Swahili, Turkish, and Urdu.

The Critical Language Scholarship Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds, and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts, and humanities are encouraged to apply.

Gilman Scholarship Program

Campus Representative: Andy Quackenbush (quackenbush@studyabroad.wisc.edu)

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad,

thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

JAPANESE, BA

The Japanese major offers students a range of courses and activities that enhance students' intercultural and transcultural competencies. With the completion of the four basic years of the language, students will be prepared to handle various types of colloquial Japanese. Students in the major pursue advanced studies in Japanese language or literature. It is also possible to combine an interest in Japan with a degree in business, engineering, history, or international studies.

Before declaring the major, students are urged to begin coursework early, ideally in the freshman or sophomore year. If, however, this is not possible, summer courses at UW–Madison or elsewhere are available which speed the student's progress. Those who have previous Japanese study experience may enter advanced courses on the basis of placement tests (<https://alc.wisc.edu/languages/placement-tests/>).

STUDY ABROAD IN JAPAN

Students may receive residence credit for study abroad through a variety of programs sponsored by the department. Please contact International Academic Programs (<https://www.studyabroad.wisc.edu/>) for details.

Students may also receive credit, or gain experience, through various internship opportunities abroad. Please contact International Internship Programs (<http://internships.international.wisc.edu/>) for details.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students declared in the Japanese Professional Communication certificate may not be declared in the Japanese major at the same time. Students who do wish to declare the Japanese major must first cancel their declaration in the Japanese Professional Communication certificate.

PLACEMENT EXAM

The Asian Languages and Cultures department offers placement exams for students with prior language study or experience as a speaker of Japanese. For more information, see the department's website (<https://alc.wisc.edu/languages/placement-tests/>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	• Breadth–Humanities/Literature/Arts: 6 credits
	• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth–Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.
Language	<ul style="list-style-type: none">• Complete the fourth unit of a language other than English; OR• Complete the third unit of a language and the second unit of an additional language other than English.

L&S Breadth	• 12 credits of Humanities, which must include 6 credits of literature; and
	• 12 credits of Social Science; and
	• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	<ul style="list-style-type: none">• 30 credits in residence, overall; and• 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none">• 2.000 in all coursework at UW-Madison• 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all courses accepted in the major
- Complete the following coursework, with a grade of B or better:
 - Either ASIAN 699 or another Capstone course (see list above) of 3–4 credits (excluding ASIAN 681 or ASIAN 682 or ASIAN 692) with the professor under whose guidance a student intends to write a thesis. This course must be taken before ASIAN 681.
 - Students who complete ASIAN 699 for the Capstone requirement will follow the department procedure for obtaining consent to enroll in a Senior Honors Thesis supervised by the faculty. Students must contact the undergraduate advisor for this major to initiate this process.
- A two-semester Senior Honors Thesis in ASIAN 681 and ASIAN 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and video materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.

5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year		
Fall	Credits Spring	Credits
ASIALANG 103	4 ASIALANG 104	4

Total Credits 120**ADVISING AND CAREERS****ADVISING AND CAREERS****DECLARE OR CANCEL THIS PROGRAM**

Please follow the process described on the Asian Languages and Cultures website (<https://alc.wisc.edu/advising/>).

ADVISING

If you like to plan, seeing your advisor is very important; it can make the difference between fitting in general education and major requirements before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

The advisor is happy to meet with students as they explore the degree options, prepare for study abroad, or advance through their four-year plans. Schedule an appointment in Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/10715/schedule>).

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

WISCONSIN EXPERIENCE**WISCONSIN EXPERIENCE
UNDERGRADUATE RESEARCH**

Students in the ALC department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (<https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research/>) that provide research opportunities for undergraduates at UW–Madison, including:

- Hilldale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/>)
- McNair Scholars (<http://grad.wisc.edu/mcnair/>)
- Summer Research Programs (<https://grad.wisc.edu/diversity/srop/>)
- Undergraduate Research Scholars (<https://urs.ls.wisc.edu/>)
- The Wisconsin Idea Undergraduate Fellowship Program (<https://morgridge.wisc.edu/students/wisconsin-idea-fellowships/>)

RESOURCES AND SCHOLARSHIPS**RESOURCES AND
SCHOLARSHIPS****DEPARTMENT SCHOLARSHIPS**

The Department of Asian Languages and Cultures has various scholarships to support meritorious students in our programs. Application information and deadlines (<https://alc.wisc.edu/undergraduate-studies/departments-scholarships/>).

Cameron G. Keith Memorial Scholarship

This award is given annually to two undergraduate students studying Japanese. This award is announced during the fall semester, and eligible students may apply. The criteria are: declared in the Japanese major, junior or senior standing, cumulative GPA of 3.500 or higher, currently taking Japanese classes, and plan to go into a Japanese-related profession. Cameron G. Keith was an East Asian Studies and Economics studies major at UW–Madison who studied abroad in Japan, and later in Nepal. In his memory, the Keith family established these funds in honor of his interest in the region.

OTHER CAMPUS RESOURCES**Foreign Language & Area Studies (FLAS) Fellowships**

East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant Director, ldennis@wisc.edu (ldennis@international.wisc.edu), 325 Ingraham Hall

FLAS fellowships are funded by the U.S. Department of Education and administered by UW–Madison’s National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/languages/>) and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (<https://flas.wisc.edu/languages/>) of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are two separate competitions requiring two separate and complete applications.

Wisconsin Scholarship Hub (<https://wisc.academicworks.com/>)

This is the primary portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (<https://awards.advising.wisc.edu/>)

We help UW–Madison undergraduates and recent graduates pursue nationally competitive scholarships (<https://awards.advising.wisc.edu/scholarships/nationally-competitive/>) and campus-wide awards (<https://awards.advising.wisc.edu/scholarships/campus-wide/>) for research, service, and leadership – activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (<https://awards.advising.wisc.edu/schedule-an-appointment/>) to schedule an appointment to discuss which opportunities are right for you.

NATIONAL SCHOLARSHIPS

Boren Scholarships (<http://borenawards.org/>)

Campus Representative: Undergraduates with questions should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs

These scholarships provide up to \$20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (<https://borenawards.org/eligible-programs/#countries>)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (<https://borenawards.org/eligible-programs/#languages>)).

Critical Language Scholarship Program (<http://www.clscholarship.org/>)

Campus Representative: Mark Lilleleht, Assistant Director for Awards at awards@iris.wisc.edu

The Critical Language Scholarship Program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the

base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, the Critical Language Scholarship Program provides opportunities to a diverse range of students from across the United States at every level of language learning. Critical Language Scholarship Program languages are: Arabic, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Portuguese, Russian, Swahili, Turkish, and Urdu.

The Critical Language Scholarship Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds, and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts, and humanities are encouraged to apply.

Gilman Scholarship Program

Campus Representative: Andy Quackenbush (quackenbush@studyabroad.wisc.edu)

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

JAPANESE, BS

The Japanese major offers students a range of courses and activities that enhance students' intercultural and transcultural competencies. With the completion of the four basic years of the language, students will be prepared to handle various types of colloquial Japanese. Students in the major pursue advanced studies in Japanese language or literature. It is also possible to combine an interest in Japan with a degree in business, engineering, history, or international studies.

Before declaring the major, students are urged to begin coursework early, ideally in the freshman or sophomore year. REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of

Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

Language Complete the third unit of a language other than English.

L&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced Coursework Complete at least 60 credits at the Intermediate or Advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW-Madison Experience Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

Quality of Work

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

ASIAN 253	Japanese Popular Culture
ASIAN/HISTORY/ POLI SCI 255	Introduction to East Asian Civilizations

Intermediate Courses (complete 3 courses from the options below): 9

ASIAN/SOC 334	Gender, Work, and Family in East Asia
ASIAN 353	Lovers, Warriors and Monks: Survey of Japanese Literature
ASIAN 354	Early Modern Japanese Literature
ASIAN 355	Modern Japanese Literature
ASIAN 357	Japanese Ghost Stories
ASIAN 358	Language in Japanese Society
ASIAN 361	Love and Politics: The Tale of Genji
ASIAN 367	Haiku
ASIAN 373	Topics in Japanese: Study Abroad
ASIAN 376	Manga
ASIAN 378	Anime
ASIAN 434	Introduction to Japanese Linguistics
ASIAN 435	Teaching of Japanese
ASIAN/ HISTORY 454	Samurai: History and Image
ASIAN/ HISTORY 456	Pearl Harbor & Hiroshima: Japan, the US & The Crisis in Asia
ASIALANG 313	Classical Japanese
ANTHRO 357	Introduction to the Anthropology of Japan
LITTRANS 373	Topics in Japanese Literature

Capstone Course (complete one): 3

ASIAN 533	Readings in Early Modern Japanese Literature
ASIAN 563	Readings in Modern Japanese Literature
ASIAN 573	Readings in Classical Japanese Literature
ASIAN 682	Senior Honors Thesis
ASIAN 692	Senior Thesis
ASIAN 699	Directed Study

Total Credits

44

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA in 15 upper-level major credits, in residence
- 15 credits in the major, taken on campus

UPPER-LEVEL MAJOR COURSES IN THE MAJOR:

Code	Title	Credits
ASIAN 300	Topics in Asian Studies	3
ASIAN 301	Social Science Topics in Asian Studies	3
ASIAN 310	Introduction to Comics and Graphic Novels: Theory, History, Method	3
ASIAN/SOC 334	Gender, Work, and Family in East Asia	3
ASIAN 353	Lovers, Warriors and Monks: Survey of Japanese Literature	3
ASIAN 354	Early Modern Japanese Literature	3
ASIAN 355	Modern Japanese Literature	3
ASIAN 360	Topics in Asian Literature	3
ASIAN 357	Japanese Ghost Stories	3
ASIAN 358	Language in Japanese Society	3
ASIAN 361	Love and Politics: The Tale of Genji	3
ASIAN 367	Haiku	3
ASIAN 373	Topics in Japanese: Study Abroad	1-6
ASIAN 376	Manga	3
ASIAN 378	Anime	3
ASIAN 434	Introduction to Japanese Linguistics	3
ASIAN 435	Teaching of Japanese	3
ASIAN/ HISTORY 454	Samurai: History and Image	3-4
ASIAN/ HISTORY 456	Pearl Harbor & Hiroshima: Japan, the US & The Crisis in Asia	3-4
ASIAN 533	Readings in Early Modern Japanese Literature	3
ASIAN 563	Readings in Modern Japanese Literature	3
ASIAN 573	Readings in Classical Japanese Literature	3
ASIAN 681	Senior Honors Thesis	3
ASIAN 682	Senior Honors Thesis	3
ASIAN 691	Senior Thesis	3
ASIAN 692	Senior Thesis	3
ASIAN 698	Directed Study	2-3
ASIAN 699	Directed Study	2-3
ASIALANG 303	Fifth Semester Japanese	4
ASIALANG 313	Classical Japanese	3
ASIALANG 376	Japanese Conversation	3
ASIALANG 377	Business Japanese Communication	3
ASIALANG 375	Advanced Japanese: Solidifying the Foundations	3
ASIALANG 451	Advanced Readings in Japanese	3

ASIALANG 452	Advanced Japanese through Audio-Visual Media	3
ANTHRO 357	Introduction to the Anthropology of Japan	3-4
ART HIST 575	Proseminar in Japanese Art	3
LITTRANS 373	Topics in Japanese Literature	3

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all courses accepted in the major
- Complete the following coursework, with a grade of B or better:
 - Either ASIAN 699 or another Capstone course (see list above) of 3-4 credits (excluding ASIAN 681 or ASIAN 682 or ASIAN 692) with the professor under whose guidance a student intends to write a thesis. This course must be taken before ASIAN 681.
 - Students who complete ASIAN 699 for the Capstone requirement will follow the department procedure for obtaining consent to enroll in a Senior Honors Thesis supervised by the faculty. Students must contact the undergraduate advisor for this major to initiate this process.
- A two-semester Senior Honors Thesis in ASIAN 681 and ASIAN 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and video materials with a large degree of independence, adapting style and

speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.

2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits Spring	Credits
ASIALANG 103	4 ASIALANG 104	4
ASIAN 100	3-4 ASIAN/ASIAN AM/ HISTORY 246 (meets Ethnic Studies requirement)	4

Total Credits 120**ADVISING AND CAREERS****ADVISING AND CAREERS
DECLARE OR CANCEL THIS PROGRAM**

Please follow the process described on the Asian Languages and Cultures website (<https://alc.wisc.edu/advising/>).

ADVISING

If you like to plan, seeing your advisor is very important; it can make the difference between fitting in general education and major requirements before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

The advisor is happy to meet with students as they explore the degree options, prepare for study abroad, or advance through their four-year plans. Schedule an appointment in Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/10715/schedule>).

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes

into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

WISCONSIN EXPERIENCE**WISCONSIN EXPERIENCE
UNDERGRADUATE RESEARCH**

Students in the ALC department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (<https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research/>) that provide research opportunities for undergraduates at UW-Madison, including:

- Hilldale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/>)
- McNair Scholars (<http://grad.wisc.edu/mcnair/>)
- Summer Research Programs (<https://grad.wisc.edu/diversity/srop/>)
- Undergraduate Research Scholars (<https://urs.ls.wisc.edu/>)
- The Wisconsin Idea Undergraduate Fellowship Program (<https://morgridge.wisc.edu/students/wisconsin-idea-fellowships/>)

RESOURCES AND SCHOLARSHIPS**RESOURCES AND
SCHOLARSHIPS****DEPARTMENT SCHOLARSHIPS**

The Department of Asian Languages and Cultures has various scholarships to support meritorious students in our programs. Application information and deadlines (<https://alc.wisc.edu/undergraduate-studies/departmentscholarships/>).

Cameron G. Keith Memorial Scholarship

This award is given annually to two undergraduate students studying Japanese. This award is announced during the fall semester, and eligible students may apply. The criteria are: declared in the Japanese major, junior or senior standing, cumulative GPA of 3.500 or higher, currently taking Japanese classes, and plan to go into a Japanese-related profession. Cameron G. Keith was an East Asian Studies and Economics studies major at UW-Madison who studied abroad in Japan, and later in Nepal. In his

memory, the Keith family established these funds in honor of his interest in the region.

OTHER CAMPUS RESOURCES

Foreign Language & Area Studies (FLAS) Fellowships

East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant Director, ldennis@wisc.edu (ldennis@international.wisc.edu), 325 Ingraham Hall

FLAS fellowships are funded by the U.S. Department of Education and administered by UW–Madison’s National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/languages/>) and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (<https://flas.wisc.edu/languages/>) of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are two separate competitions requiring two separate and complete applications.

Wisconsin Scholarship Hub (<https://wisc.academicworks.com/>)

This is the primary portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (<https://awards.advising.wisc.edu/>)

We help UW–Madison undergraduates and recent graduates pursue nationally competitive scholarships (<https://awards.advising.wisc.edu/scholarships/nationally-competitive/>) and campus-wide awards (<https://awards.advising.wisc.edu/scholarships/campus-wide/>) for research, service, and leadership – activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (<https://awards.advising.wisc.edu/schedule-an-appointment/>) to schedule an appointment to discuss which opportunities are right for you.

NATIONAL SCHOLARSHIPS

Boren Scholarships (<http://borenawards.org/>)

Campus Representative: Undergraduates with questions should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs

These scholarships provide up to \$20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (<https://borenawards.org/eligible-programs/#countries>)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (<https://borenawards.org/eligible-programs/#languages>)).

Critical Language Scholarship Program (<http://www.clscholarship.org/>)

Campus Representative: Mark Lilleleht, Assistant Director for Awards at awards@iris.wisc.edu

The Critical Language Scholarship Program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, the Critical Language Scholarship Program provides opportunities to a diverse range of students from across the United States at every level of language learning. Critical Language Scholarship Program languages are: Arabic, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Portuguese, Russian, Swahili, Turkish, and Urdu.

The Critical Language Scholarship Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds, and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts, and humanities are encouraged to apply.

Gilman Scholarship Program

Campus Representative: Andy Quackenbush (quackenbush@studyabroad.wisc.edu)

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

ASTRONOMY

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Astronomy–Physics, BA (p. 489)
- Astronomy–Physics, BS (p. 494)

ASTRONOMY–PHYSICS, BA

Astronomy, the oldest of the sciences, originated in the human urge to understand the mysterious lights we see in the sky above us: the Sun, the Moon, the planets, and the stars. Over the centuries, new tools have become available to study these cosmic icons, such as telescopes that allow us to see farther, detectors that are sensitive to electromagnetic signals at nonvisible wavelengths, and satellites that can observe from outside the confines of the Earth’s atmosphere. These tools have answered many questions, and raised even more. How did the Universe begin, and how did the stars and galaxies within it form? How will it end? Are there habitable planets around other stars—and has life emerged on these planets?

CHOOSE THE ASTRONOMY–PHYSICS MAJOR BECAUSE:

- It’s fascinating: Astronomy speaks directly to our natural desire to better understand our place in the cosmos.
- It’s challenging: Astronomy studies objects that are distant beyond simple conception.
- It’s adaptable: Astronomy develops a broad set of transferable skills, from a foundation in logical and quantitative reasoning through to data analysis, programming, and visualization.

The Astronomy–Physics program builds on a foundation of classical and modern physics, allowing for a comprehensive study of the observable Universe at scales extending from planets and stars, through to galaxies and the cosmic web.

RELATED PROGRAMS

L&S Physics major (p. 1219) in the Guide

Medical Physics

A suggested curriculum for students interested in graduate study in Medical Physics is available on the Department of Medical Physics webpage (<https://www.medphysics.wisc.edu/graduate-program/admissions/#requirements>).

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students declared in the Physics certificate may not be declared in the Astronomy–Physics major at the same time. Students who do wish to declare this major must first cancel their declaration in the Physics certificate.

Astronomy–Physics Majors should get started on one of the Introductory Physics sequences as early as possible. Context that informs a student’s selection of an appropriate Introductory Physics sequence is available on the major’s Advising and Careers page. Students can also consult with the major’s advisor before enrolling in one of these sequences.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

- General Education
- Breadth–Humanities/Literature/Arts: 6 credits
 - Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth–Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

- Mathematics
- Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.
- Language
- Complete the fourth unit of a language other than English; OR
 - Complete the third unit of a language and the second unit of an additional language other than English.

L&S Breadth	<ul style="list-style-type: none"> • 12 credits of Humanities, which must include 6 credits of literature; and • 12 credits of Social Science; and • 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.
-------------	--

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	<ul style="list-style-type: none"> • 30 credits in residence, overall; and • 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none"> • 2.000 in all coursework at UW-Madison • 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

The major requires a minimum of 39 credits in the field of specialization, with at least 12 of these credits in ASTRON and at least 25 credits in PHYSICS.

COURSE REQUIREMENTS FOR THE MAJOR ARE:

Code	Title	Credits
Astronomy		
<i>Introductory Course</i> ¹		
ASTRON 200	The Physical Universe	3
<i>Complete at least three of the following:</i>		9
ASTRON 310	Stellar Astrophysics	
ASTRON 320	The Interstellar Medium	
ASTRON 330	Galaxies	
ASTRON 335	Cosmology	
ASTRON 340	Solar System Astrophysics	
ASTRON 500	Techniques of Modern Observational Astrophysics	
ASTRON 540	Exoplanets	
ASTRON 620	Seminar in Astrophysical Topics	
Physics		
<i>First Introductory Course (complete one):</i> ²		5
PHYSICS 247	A Modern Introduction to Physics (recommended)	

PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
E M A 201 & E M A 202	Statics and Dynamics	
<i>Second Introductory Course (complete one):</i>		5
PHYSICS 248	A Modern Introduction to Physics (recommended)	
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	
<i>Third Introductory Course (complete one):</i>		3-4
PHYSICS 249	A Modern Introduction to Physics (recommended)	
PHYSICS 205	Modern Physics for Engineers	
PHYSICS/ E C E 235	Introduction to Solid State Electronics	
PHYSICS 241	Introduction to Modern Physics	
<i>Mechanics, Electromagnetic Fields, & Thermal Physics (complete all):</i>		
PHYSICS 311	Mechanics	3
PHYSICS 322	Electromagnetic Fields	3
PHYSICS 415	Thermal Physics	3
<i>Atomic & Quantum Physics (complete either):</i>		
PHYSICS 448	Atomic and Quantum Physics	3
or PHYSICS 531	Introduction to Quantum Mechanics	
<i>Complete one laboratory course:</i>		2-3
ASTRON 465	Observational Astronomy and Data Analysis	
PHYSICS 307	Intermediate Laboratory-Mechanics and Modern Physics	
Total Credits		39

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ASTRON, all PHYSICS, and all major courses
- 2.000 GPA on 15 upper-level major credits in residence⁴
- 15 credits in ASTRON and PHYSICS, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Astronomy-Physics undergraduate advisor(s). Please plan your Senior Honors Thesis research project a year in advance.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ASTRON and PHYSICS courses, and all courses accepted in the major, at the 300 level or higher.
- Complete the following coursework:
 - Four 300-level or higher ASTRON courses, with a 3.500 GPA (not including ASTRON 681 and ASTRON 682)

- A two-semester Senior Honors Thesis in ASTRON 681 and ASTRON 682, with a grade of AB or better (for a total of 6 credits).

FOOTNOTES

¹ ASTRON 103 and ASTRON 104 are not recommended for majors. Students intending to major should wait to take ASTRON 200 after completing their first introductory physics course or MATH 222.

² PHYSICS 247/PHYSICS 248/PHYSICS 249 is the introductory course sequence recommended for prospective astronomy-physics majors, PHYSICS 201/PHYSICS 202/PHYSICS 241 is recommended for engineers, and PHYSICS 207/PHYSICS 208/PHYSICS 241 is intended for life sciences and chemistry majors. Both PHYSICS 201/PHYSICS 202/PHYSICS 241 and PHYSICS 207/PHYSICS 208/PHYSICS 241 are suitable alternatives for physics majors. Although the department recommends following one of these sequences, students are allowed to mix them, with the exception that transfers into the PHYSICS 247/PHYSICS 248/PHYSICS 249 sequence are not permitted.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Learn how astronomical observations are made and data are analyzed.
2. Become familiar with theories and observations of planets, stars, interstellar gas, galaxies, and structure of the Universe (cosmology).
3. Learn how to read and critically evaluate scientific literature.
4. Learn the basics of oral and written scientific communication.
5. Be trained in principles and standards of professional and ethical conduct.
6. Develop the skills to carry out a small independent research project. Learn to define the scope of the project, conduct an effective literature search, perform computations, and analyze data.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making adjustments to their plan.

Total Credits 121		

¹ Alternatively, students may wish to consider MATH 320 .

ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THE MAJOR

Follow the process described in the Department of Astronomy website. (<https://www.astro.wisc.edu/undergraduate-program/prospective/>)

We encourage students to meet major advisors as early as possible. The undergraduate advisor, Evan Heintz (via Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/38989/schedule>)), can assist students with curriculum and course scheduling, career planning, academic concerns, and overall performance and strategies.

Astronomy-Physics Majors should begin an Introductory Physics sequences as early as possible. See the major's Requirements section for the options. The sequence of PHYSICS 247 + PHYSICS 248 + PHYSICS 249 is recommended. However, students who transfer in courses from one of the other sequences (most commonly the PHYSICS 207 sequence), may usually continue with other major requirements rather than restarting with PHYSICS 247. Please contact Evan Heintz, the academic advisor, to confirm which courses are best for you.

ADVISING FOR ADMITTED STUDENTS

Assistance choosing courses is available for students enrolling during Student Orientation, Advising, and Registration (SOAR (<https://soar.wisc.edu>)): contact Evan Heintz, ehaintz@wisc.edu.

UNDERGRADUATE RESEARCH

If you are declared in the Astronomy-Physics major and are interested in pursuing a research position with a faculty member or scientist, please schedule an appointment (via Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/38989/schedule>)) with the undergraduate advisor, Evan Heintz, who will discuss your interests and aid you in finding a position within the department.

CAREER EXPLORATION

A good starting point for exploring careers is PHYSICS 301 Physics Today. This course, offered in Spring semesters, includes a weekly talk where a research topic is discussed by one of the Physics or Astronomy faculty.

SuccessWorks has also created the extremely helpful "What Can You Do with Your Major" Skills & Outcomes Sheet (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>). Check out the specific Astronomy-Physics sheet to explore the major's transferable skills, alumni job titles, frequent employers of the major and words of advice from alumni who have found success following their passions.

RECOMMENDED ADDITIONAL COURSES

Astronomy

Students are required to take ASTRON 200 The Physical Universe for the major. This course serves as a good introduction for all areas of astronomy. Due to this requirement, ASTRON 103 The Evolving Universe: Stars, Galaxies, and Cosmology and ASTRON 104 Our Exploration of the Solar System are not recommended for students planning to major in Astronomy-Physics.

Mathematics

Please consult with the Astronomy academic advisor before choosing your Mathematics courses.

Specific math courses are requisites for the major's Physics and Astronomy courses. We also recommend additional math courses to best prepare you for upper-level coursework.

A typical math sequence is: MATH 221 Calculus and Analytic Geometry 1, MATH 222 Calculus and Analytic Geometry 2, MATH 234 Calculus--Functions of Several Variables, MATH 340 Elementary Matrix and Linear Algebra, MATH 319 Techniques in Ordinary Differential Equations, MATH 321 Applied Mathematical Analysis 1: Vector and Complex Calculus, MATH 322 Applied Mathematical Analysis 2: Partial Differential Equations.

- MATH 221 Calculus and Analytic Geometry 1: A requisite for PHYSICS 247 A Modern Introduction to Physics, PHYSICS 207 General Physics, and PHYSICS 201 General Physics.
- MATH 222 Calculus and Analytic Geometry 2: A requisite for ASTRON 200 The Physical Universe. Also, a requisite for PHYSICS 247 A Modern Introduction to Physics but can be taken concurrently.
- MATH 234 Calculus--Functions of Several Variables: A requisite for PHYSICS 248 A Modern Introduction to Physics but can be taken concurrently. If you are not taking the PHYSICS 247 A Modern Introduction to Physics + PHYSICS 248 A Modern Introduction to Physics + PHYSICS 249 A Modern Introduction to Physics introductory sequence, you will still need this course for PHYSICS 311 Mechanics and PHYSICS 322 Electromagnetic Fields.
- MATH 319 Techniques in Ordinary Differential Equations and MATH 340 Elementary Matrix and Linear Algebra: You are strongly advised to take these courses before PHYSICS 311 Mechanics and PHYSICS 322 Electromagnetic Fields.
- MATH 320 Linear Algebra and Differential Equations: This course combines topics from MATH 319 Techniques in Ordinary Differential Equations and MATH 340 Elementary Matrix and Linear Algebra. It is adequate for the undergraduate major's curriculum but is not recommended for students planning for graduate school. There is an accelerated honors section that thoroughly covers all of the material in MATH 319 and MATH 340. It is more challenging but is a good way to fit in both topics if you are unable to take MATH 319 + MATH 340 before you take PHYSICS 311 Mechanics or PHYSICS 322 Electromagnetic Fields.
- MATH 321 Applied Mathematical Analysis 1: Vector and Complex Calculus: For students interested in more abstract math, taking MATH 521 Analysis I would be equivalent. It is recommended that MATH 321 be taken before PHYSICS 322 Electromagnetic Fields but especially before you take either PHYSICS 448 Atomic and Quantum Physics or PHYSICS 531 Introduction to Quantum Mechanics. Students may want to check with the academic advisor before enrolling in this course to confirm they have enough time and attention in a specific term.
- MATH 322 Applied Mathematical Analysis 2: Partial Differential Equations : MATH 321 Applied Mathematical Analysis 1: Vector and

Complex Calculus and MATH 322 are recommended for those planning for graduate school in Astronomy or Physics.

Computer and Data Science

Computers are fundamental to astronomical research. The most useful language is Python, followed by C or C++. COMP SCI 220 Data Science Programming I is a good starting point for learning Python.

Students interested in data science and machine learning are also recommended to take PHYSICS 361 Machine Learning in Physics.

Chemistry

A college course in physical or organic chemistry is useful for Astronomy students. Physical chemistry is particularly valuable for those interested in the interstellar medium, comets, and planets.

Statistics

A background in statistics is valuable, particularly for students interested in observational astronomy. STAT/MATH 309 Introduction to Probability and Mathematical Statistics I/STAT/MATH 310 Introduction to Probability and Mathematical Statistics II are suggested.

WHAT YOU LEARN IN THIS MAJOR WILL:

- prepare you for graduate studies for master's or doctoral degrees in experimental or theoretical astronomy, astrophysics, or physics;
- prepare you for employment in industrial or governmental laboratories;
- provide a broad background for further work in other sciences, such as materials sciences, aerospace, computer science, geophysics, meteorology, radiology, medicine, biophysics, engineering, and environmental studies;
- provide a science-oriented education, useful in some areas of business administration, public policy, law, or other fields where a basic knowledge of science is useful; and
- provide part of the preparation you need to teach astronomy or physics. To teach these subjects in high school, you will also take education courses to become certified. You will need a doctoral degree to become a college or university professor.

Students who intend to continue astronomy in a graduate program are strongly encouraged to get involved in research early. Please consider applying for Research Experiences for Undergraduates (REUs) and if interested in department research, visit our website (<https://www.astro.wisc.edu/undergraduate-program/current-students/>) and reach out to individual faculty. On our webpage you will find our Undergraduate Student Handbook as well as some of the current research projects.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)

- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE THE ASTRONOMY CLUB

The Astronomy Club is a student organization for people interested in astronomy and related fields.

In addition to social events, the club organizes a research symposium, Research Experiences for Undergraduates (<https://www.astro.wisc.edu/undergraduate-program/uw-madison-reu-program/>) and internship information sessions, and trips to observatories and labs. Club members can also help you start doing some of your own astronomy research.

By joining the Astronomy Club, you will meet people who are just as enthusiastic as you are about the universe! Astronomy Club is a great way to find a community of people who can help you navigate through your time at UW–Madison.

Email the club officers at astronomyclubofficers@gmail.com to notify them of your interest. Then, just pay your annual dues to join.

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Students majoring in Astronomy–Physics may be eligible for scholarships (<https://www.physics.wisc.edu/department/awards/apply/>) made possible through very generous donations by alumni and friends of the Department of Physics.

ASTRONOMY–PHYSICS, BS

Astronomy, the oldest of the sciences, originated in the human urge to understand the mysterious lights we see in the sky above us: the Sun, the Moon, the planets, and the stars. Over the centuries, new tools have become available to study these cosmic icons, such as telescopes that allow us to see farther, detectors that are sensitive to electromagnetic signals at nonvisible wavelengths, and satellites that can observe from outside the confines of the Earth's atmosphere. These tools have answered many questions, and raised even more. How did the Universe begin, and how did the stars and galaxies within it form? How will it end? Are there habitable planets around other stars—and has life emerged on these planets?

CHOOSE THE ASTRONOMY–PHYSICS MAJOR BECAUSE:

- It's fascinating: Astronomy speaks directly to our natural desire to better understand our place in the cosmos.

- It's challenging: Astronomy studies objects that are distant beyond simple conception.
- It's adaptable: Astronomy develops a broad set of transferable skills, from a foundation in logical and quantitative reasoning through to data analysis, programming, and visualization.

The Astronomy–Physics program builds on a foundation of classical and modern physics, allowing for a comprehensive study of the observable Universe at scales extending from planets and stars, through to galaxies and the cosmic web.

RELATED PROGRAMS

L&S Physics major (p. 1219) in the Guide

Medical Physics

A suggested curriculum for students interested in graduate study in Medical Physics is available on the Department of Medical Physics webpage (<https://www.medphysics.wisc.edu/graduate-program/admissions/#requirements>).

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students declared in the Physics certificate may not be declared in the Astronomy–Physics major at the same time. Students who do wish to declare this major must first cancel their declaration in the Physics certificate.

Astronomy–Physics Majors should get started on one of the Introductory Physics sequences as early as possible. Context that informs a student's selection of an appropriate Introductory Physics sequence is available on the major's Advising and Careers page. Students can also consult with the major's advisor before enrolling in one of these sequences.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic

values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	<ul style="list-style-type: none"> • Breadth–Humanities/Literature/Arts: 6 credits • Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth–Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

Language Complete the third unit of a language other than English.

L&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced Coursework Complete at least 60 credits at the Intermediate or Advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW–Madison Experience Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

Quality of Work	• 2.000 in all coursework at UW–Madison
	• 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

The major requires a minimum of 39 credits in the field of specialization, with at least 12 of these credits in ASTRON and at least 25 credits in PHYSICS.

COURSE REQUIREMENTS FOR THE MAJOR ARE:

Code	Title	Credits
Astronomy		
<i>Introductory Course</i> ¹		
ASTRON 200	The Physical Universe	3
<i>Complete at least three of the following:</i>		9
ASTRON 310	Stellar Astrophysics	
ASTRON 320	The Interstellar Medium	
ASTRON 330	Galaxies	
ASTRON 335	Cosmology	
ASTRON 340	Solar System Astrophysics	
ASTRON 500	Techniques of Modern Observational Astrophysics	
ASTRON 540	Exoplanets	
ASTRON 620	Seminar in Astrophysical Topics	
Physics		
<i>First Introductory Course (complete one):</i> ²		5
PHYSICS 247	A Modern Introduction to Physics (recommended)	
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
E M A 201 & E M A 202	Statics and Dynamics	
<i>Second Introductory Course (complete one):</i>		5
PHYSICS 248	A Modern Introduction to Physics (recommended)	
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	
<i>Third Introductory Course (complete one):</i>		3–4
PHYSICS 249	A Modern Introduction to Physics (recommended)	
PHYSICS 205	Modern Physics for Engineers	
PHYSICS/ E C E 235	Introduction to Solid State Electronics	
PHYSICS 241	Introduction to Modern Physics	
<i>Mechanics, Electromagnetic Fields, & Thermal Physics (complete all):</i>		
PHYSICS 311	Mechanics	3

PHYSICS 322	Electromagnetic Fields	3
PHYSICS 415	Thermal Physics	3
<i>Atomic & Quantum Physics (complete either):</i>		
PHYSICS 448	Atomic and Quantum Physics	3
or PHYSICS 531	Introduction to Quantum Mechanics	
<i>Complete one laboratory course:</i>		2–3
ASTRON 465	Observational Astronomy and Data Analysis	
PHYSICS 307	Intermediate Laboratory–Mechanics and Modern Physics	

Total Credits
39

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ASTRON, all PHYSICS, and all major courses
- 2.000 GPA on 15 upper-level major credits in residence⁴
- 15 credits in ASTRON and PHYSICS, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Astronomy–Physics undergraduate advisor(s). Please plan your Senior Honors Thesis research project a year in advance.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ASTRON and PHYSICS courses, and all courses accepted in the major, at the 300 level or higher.
- Complete the following coursework:
 - Four 300-level or higher ASTRON courses, with a 3.500 GPA (not including ASTRON 681 and ASTRON 682)
 - A two-semester Senior Honors Thesis in ASTRON 681 and ASTRON 682, with a grade of AB or better (for a total of 6 credits).

FOOTNOTES

¹ ASTRON 103 and ASTRON 104 are not recommended for majors. Students intending to major should wait to take ASTRON 200 after completing their first introductory physics course or MATH 222.

² PHYSICS 247/PHYSICS 248/PHYSICS 249 is the introductory course sequence recommended for prospective astronomy-physics majors, PHYSICS 201/PHYSICS 202/PHYSICS 241 is recommended for engineers, and PHYSICS 207/PHYSICS 208/PHYSICS 241 is intended for life sciences and chemistry majors. Both PHYSICS 201/PHYSICS 202/PHYSICS 241 and PHYSICS 207/PHYSICS 208 suitable alternatives for physics majors. Although the department recommends following one of these sequences, students are allowed to mix them, with the exception that transfers into the PHYSICS 247/PHYSICS 248/PHYSICS 249 sequence are not permitted.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Learn how astronomical observations are made and data are analyzed.
2. Become familiar with theories and observations of planets, stars, interstellar gas, galaxies, and structure of the Universe (cosmology).
3. Learn how to read and critically evaluate scientific literature.
4. Learn the basics of oral and written scientific communication.
5. Be trained in principles and standards of professional and ethical conduct.
6. Develop the skills to carry out a small independent research project. Learn to define the scope of the project, conduct an effective literature search, perform computations, and analyze data.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits Spring	Credits
MATH 221 (QR-B)	5 MATH 222	4
COMP SCI 220	4 Biological Science Breadth	3
Communication A	2 Humanities Breadth	3

Foreign Language (if needed)	4 Foreign Language (if needed)	4
	15	14

Second Year

Fall	Credits Spring	Credits
PHYSICS 247	5 PHYSICS 248	5
MATH 234	4 PHYSICS 301	1
ASTRON 200	3 MATH 319 ¹	3
Foreign Language (if needed)	4 MATH 340 ¹	3
	Social Science Breadth	3
	16	15

Third Year

Fall	Credits Spring	Credits
ASTRON 300+ Course	3 ASTRON 300+ Course	3
PHYSICS 249	4 PHYSICS 322	3
PHYSICS 311	3 MATH 321	3
Biological Science Breadth	3 Literature Breadth	3
Social Science Breadth	3 Communication B	3
	16	15

Fourth Year

Fall	Credits Spring	Credits
ASTRON 465	3 ASTRON 300+ Course	3
PHYSICS 448	3 MATH 322	3
PHYSICS 415	3 Social Science Breadth	3
Social Science Breadth	3 Humanities Breadth	3
Ethnic Studies	3 Literature Breadth	3
	15	15

Total Credits 121

¹ Alternatively, students may wish to consider MATH 320.

ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THE MAJOR

Follow the process described in the Department of Astronomy website. (<https://www.astro.wisc.edu/undergraduate-program/prospective/>)

We encourage students to meet major advisors as early as possible. The undergraduate advisor, Evan Heintz (via Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/38989/schedule>)), can assist students with curriculum and course scheduling, career planning, academic concerns, and overall performance and strategies.

Astronomy-Physics Majors should begin an Introductory Physics sequences as early as possible. See the major's Requirements section for the options. The sequence of PHYSICS 247 + PHYSICS 248 + PHYSICS 249 is recommended. However, students who transfer in courses from one of the other sequences (most commonly the PHYSICS 207 sequence), may usually continue with other major requirements rather

than restarting with PHYSICS 247. Please contact Evan Heintz, the academic advisor, to confirm which courses are best for you.

ADVISING FOR ADMITTED STUDENTS

Assistance choosing courses is available for students enrolling during Student Orientation, Advising, and Registration (SOAR (<https://soar.wisc.edu>)): contact Evan Heintz, ehointz@wisc.edu.

UNDERGRADUATE RESEARCH

If you are declared in the Astronomy-Physics major and are interested in pursuing a research position with a faculty member or scientist, please schedule an appointment (via Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/38989/schedule>)) with the undergraduate advisor, Evan Heintz, who will discuss your interests and aid you in finding a position within the department.

CAREER EXPLORATION

A good starting point for exploring careers is PHYSICS 301 Physics Today. This course, offered in Spring semesters, includes a weekly talk where a research topic is discussed by one of the Physics or Astronomy faculty.

SuccessWorks has also created the extremely helpful "What Can You Do with Your Major" Skills & Outcomes Sheet (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>). Check out the specific Astronomy-Physics sheet to explore the major's transferable skills, alumni job titles, frequent employers of the major and words of advice from alumni who have found success following their passions.

RECOMMENDED ADDITIONAL COURSES

Astronomy

Students are required to take ASTRON 200 The Physical Universe for the major. This course serves as a good introduction for all areas of astronomy. Due to this requirement, ASTRON 103 The Evolving Universe: Stars, Galaxies, and Cosmology and ASTRON 104 Our Exploration of the Solar System are not recommended for students planning to major in Astronomy-Physics.

Mathematics

Please consult with the Astronomy academic advisor before choosing your Mathematics courses.

Specific math courses are requisites for the major's Physics and Astronomy courses. We also recommend additional math courses to best prepare you for upper-level coursework.

A typical math sequence is: MATH 221 Calculus and Analytic Geometry 1, MATH 222 Calculus and Analytic Geometry 2, MATH 234 Calculus--Functions of Several Variables, MATH 340 Elementary Matrix and Linear Algebra, MATH 319 Techniques in Ordinary Differential Equations, MATH 321 Applied Mathematical Analysis 1: Vector and Complex Calculus, MATH 322 Applied Mathematical Analysis 2: Partial Differential Equations.

- MATH 221 Calculus and Analytic Geometry 1: A requisite for PHYSICS 247 A Modern Introduction to Physics, PHYSICS 207 General Physics, and PHYSICS 201 General Physics.
- MATH 222 Calculus and Analytic Geometry 2: A requisite for ASTRON 200 The Physical Universe. Also, a requisite for PHYSICS 247 A Modern Introduction to Physics but can be taken concurrently.

- MATH 234 Calculus--Functions of Several Variables: A requisite for PHYSICS 248 A Modern Introduction to Physics but can be taken concurrently. If you are not taking the PHYSICS 247 A Modern Introduction to Physics + PHYSICS 248 A Modern Introduction to Physics + PHYSICS 249 A Modern Introduction to Physics introductory sequence, you will still need this course for PHYSICS 311 Mechanics and PHYSICS 322 Electromagnetic Fields.

- MATH 319 Techniques in Ordinary Differential Equations and MATH 340 Elementary Matrix and Linear Algebra: You are strongly advised to take these courses before PHYSICS 311 Mechanics and PHYSICS 322 Electromagnetic Fields.
- MATH 320 Linear Algebra and Differential Equations: This course combines topics from MATH 319 Techniques in Ordinary Differential Equations and MATH 340 Elementary Matrix and Linear Algebra. It is adequate for the undergraduate major's curriculum but is not recommended for students planning for graduate school. There is an accelerated honors section that thoroughly covers all of the material in MATH 319 and MATH 340. It is more challenging but is a good way to fit in both topics if you are unable to take MATH 319 + MATH 340 before you take PHYSICS 311 Mechanics or PHYSICS 322 Electromagnetic Fields.
- MATH 321 Applied Mathematical Analysis 1: Vector and Complex Calculus: For students interested in more abstract math, taking MATH 521 Analysis I would be equivalent. It is recommended that MATH 321 be taken before PHYSICS 322 Electromagnetic Fields but especially before you take either PHYSICS 448 Atomic and Quantum Physics or PHYSICS 531 Introduction to Quantum Mechanics. Students may want to check with the academic advisor before enrolling in this course to confirm they have enough time and attention in a specific term.
- MATH 322 Applied Mathematical Analysis 2: Partial Differential Equations : MATH 321 Applied Mathematical Analysis 1: Vector and Complex Calculus and MATH 322 are recommended for those planning for graduate school in Astronomy or Physics.

Computer and Data Science

Computers are fundamental to astronomical research. The most useful language is Python, followed by C or C++. COMP SCI 220 Data Science Programming I is a good starting point for learning Python.

Students interested in data science and machine learning are also recommended to take PHYSICS 361 Machine Learning in Physics.

Chemistry

A college course in physical or organic chemistry is useful for Astronomy students. Physical chemistry is particularly valuable for those interested in the interstellar medium, comets, and planets.

Statistics

A background in statistics is valuable, particularly for students interested in observational astronomy. STAT/MATH 309 Introduction to Probability and Mathematical Statistics I/STAT/MATH 310 Introduction to Probability and Mathematical Statistics II are suggested.

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Students majoring in Astronomy–Physics may be eligible for scholarships (<https://www.physics.wisc.edu/department/awards/apply/>) made possible through very generous donations by alumni and friends of the Department of Physics.

ATMOSPHERIC AND OCEANIC SCIENCES

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/ CERTIFICATES

- Atmospheric and Oceanic Sciences, BA (p. 499)
- Atmospheric and Oceanic Sciences, BS (p. 504)
- Environmental Sciences, BA (L&S) (p. 509)
- Environmental Sciences, BS (L&S) (p. 517)

ATMOSPHERIC AND OCEANIC SCIENCES, BA

The study of atmospheric and oceanic sciences includes all aspects of the atmosphere and physical oceanography, their mutual interaction, and their interaction with space and the rest of the earth system. Although a primary goal is to understand the atmosphere and ocean for the purpose of predicting the weather, atmospheric and oceanic sciences embraces much more:

- motions at large, medium, and small scales;
- past, present, and future climates;
- air chemistry and quality;
- clouds and precipitation;
- and solar and terrestrial radiation.

In many areas, new remote-sensing technology including satellites is used to provide circulation patterns at both global and local scales.

Many undergraduates take an elementary Atmospheric and Oceanic Sciences course (https://guide.wisc.edu/courses/atm_ocn/) to meet part of their natural or physical science breadth requirements. Other students, who have had sufficient mathematics and physics preparation, take higher level Atmospheric and Oceanic Sciences courses to complement their major work in other fields of natural science.

Students majoring in Atmospheric and Oceanic Sciences receive a thorough introduction to the basic concepts and tools in the core courses, which cover the physics and dynamics of the atmosphere and ocean. An array of elective courses are offered in the senior year, with tracks in the areas of weather systems, earth/environmental science, and general atmospheric and oceanic sciences, and applied atmospheric and oceanic sciences. Elective groups are tailored individually. Some students will want preparation for careers in areas such as operational forecasting, environmental consulting, and broadcasting. Others will seek preparation for graduate work leading to a broader range of careers.

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.
Language	<ul style="list-style-type: none">• Complete the fourth unit of a language other than English; OR• Complete the third unit of a language and the second unit of an additional language other than English.
L&S Breadth	<ul style="list-style-type: none">• 12 credits of Humanities, which must include 6 credits of literature; and• 12 credits of Social Science; and• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	<ul style="list-style-type: none">• 30 credits in residence, overall; and• 30 credits in residence after the 86th credit.

Quality of Work	• 2.000 in all coursework at UW–Madison
	• 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
Calculus (complete all):		
MATH 221	Calculus and Analytic Geometry 1	5
MATH 222	Calculus and Analytic Geometry 2	4

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ATM OCN and major courses
- 2.000 GPA on 15 upper-level credits in the major, taken in Residence. ³
- 15 credits in ATM OCN, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Atmospheric and Oceanic Sciences Major in consultation with the Atmospheric and Oceanic Sciences undergraduate advisor.

REQUIREMENTS

To earn Honors in the Major in Atmospheric and Oceanic Sciences, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA for all ATM OCN courses, and all courses accepted in the major
- Complete the following additional coursework:
 - ATM OCN 610 or ATM OCN 611 and
 - ATM OCN 681 and ATM OCN 682 for a total of 6 credits

FOOTNOTES

¹ Note that core sequence begins in the fall semester only.

² A maximum 2 credits of Electives may come from Internship or Directed Study courses.

³ ATM OCN 300 through ATM OCN 699 are upper-level in the major.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work

Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Recognize and describe the fundamental principles and processes associated with the dynamics and thermodynamics of geophysical fluid flows, the basic physics of clouds, aerosols, and precipitation.
2. Recognize and describe the fundamental principles and processes associated with radiation and atmospheric and oceanic radiative transfer.
3. Demonstrate critical thinking skills by identifying a problem, identifying the required information to solve that problem; and formulating and interpreting solutions to that problem using appropriate analytical and/or computational techniques.
4. Apply diagnostic tools to analyses and numerical model output to diagnose, describe, and interpret the fundamental dynamical and thermodynamical processes at work in synoptic-scale, mesoscale, and large-scale weather systems and climate circulations.
5. Apply fundamental radiative transfer theory to interpret remotely-sensed observations of atmospheric and oceanic phenomena.
6. Design and conduct experiments and/or analyze data to test hypotheses in an area of atmospheric or climate sciences.
7. Demonstrate effective scientific communication skills through development and delivery of oral presentations (including poster presentations) and written reports and case studies.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

ATMOSPHERIC AND OCEANIC SCIENCES, BS

The study of atmospheric and oceanic sciences includes all aspects of the atmosphere and physical oceanography, their mutual interaction, and their interaction with space and the rest of the earth system. Although a primary goal is to understand the atmosphere and ocean for the purpose of predicting the weather, atmospheric and oceanic sciences embraces much more:

- motions at large, medium, and small scales;
- past, present, and future climates;
- air chemistry and quality;
- clouds and precipitation;
- and solar and terrestrial radiation.

In many areas, new remote-sensing technology including satellites is used to provide circulation patterns at both global and local scales.

Many undergraduates take an elementary Atmospheric and Oceanic Sciences course (https://guide.wisc.edu/courses/atm_ocn/) to meet part of their natural or physical science breadth requirements. Other students, who have had sufficient mathematics and physics preparation, take higher level Atmospheric and Oceanic Sciences courses to complement their major work in other fields of natural science.

Students majoring in Atmospheric and Oceanic Sciences receive a thorough introduction to the basic concepts and tools in the core courses, which cover the physics and dynamics of the atmosphere and ocean. An array of elective courses are offered in the senior year, with tracks in the areas of weather systems, earth/environmental science, and general atmospheric and oceanic sciences, and applied atmospheric and oceanic sciences. Elective groups are tailored individually. Some students will want preparation for careers in areas such as operational forecasting, environmental consulting, and broadcasting. Others will seek preparation for graduate work leading to a broader range of careers.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None

ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Atmospheric and Oceanic Sciences website (<https://www.aos.wisc.edu/academics/undergraduate/admission/>).

Contact the Undergraduate Academic Advising Manager with your questions about exploring or declaring the major.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

Language Complete the third unit of a language other than English.

L&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced Coursework Complete at least 60 credits at the Intermediate or Advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW-Madison Experience Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

Quality of Work

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ATM OCN and major courses
- 2.000 GPA on 15 upper-level credits in the major, taken in Residence. ³
- 15 credits in ATM OCN, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Atmospheric and Oceanic Sciences Major in consultation with the Atmospheric and Oceanic Sciences undergraduate advisor.

REQUIREMENTS

To earn Honors in the Major in Atmospheric and Oceanic Sciences, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA for all ATM OCN courses, and all courses accepted in the major
- Complete the following additional coursework:
 - ATM OCN 610 or ATM OCN 611 and
 - ATM OCN 681 and ATM OCN 682 for a total of 6 credits

FOOTNOTES

¹ Note that core sequence begins in the fall semester only.

² A maximum 2 credits of Electives may come from Internship or Directed Study courses.
³ ATM OCN 300 through ATM OCN 699 are upper-level in the major.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Recognize and describe the fundamental principles and processes associated with the dynamics and thermodynamics of geophysical fluid flows, the basic physics of clouds, aerosols, and precipitation.
2. Recognize and describe the fundamental principles and processes associated with radiation and atmospheric and oceanic radiative transfer.
3. Demonstrate critical thinking skills by identifying a problem, identifying the required information to solve that problem; and formulating and interpreting solutions to that problem using appropriate analytical and/or computational techniques.
4. Apply diagnostic tools to analyses and numerical model output to diagnose, describe, and interpret the fundamental dynamical and thermodynamical processes at work in synoptic-scale, mesoscale, and large-scale weather systems and climate circulations.
5. Apply fundamental radiative transfer theory to interpret remotely-sensed observations of atmospheric and oceanic phenomena.
6. Design and conduct experiments and/or analyze data to test hypotheses in an area of atmospheric or climate sciences.
7. Demonstrate effective scientific communication skills through development and delivery of oral presentations (including poster presentations) and written reports and case studies.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned

by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Atmospheric and Oceanic Sciences website (<https://www.aos.wisc.edu/academics/undergraduate/admission/>).

Contact the Undergraduate Academic Advising Manager with your questions about exploring or declaring the major.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

ENVIRONMENTAL SCIENCES, BA (L&S)

The Environmental Sciences major satisfies the growing demand among entry-level students for a rigorous, science-based program that promotes critical thinking and emphasizes environmental problem solving in service to society. The program is designed to prepare graduates who will be highly competitive for entry-level positions in nonprofit and private sectors, and for master's programs and doctoral research programs in environmental fields. Possible career paths include environmental monitoring, consulting, education, research, and planning, as well as natural resource management, ecology restoration, remediation, water and air quality assessment, sustainability practices, and more. Undergraduates in Environmental Sciences prepare for a variety of career and graduate school opportunities that require a strong background in the natural sciences. Foundational course work in the major includes calculus, biology, chemistry, and physics. Core and elective course work is fulfilled through diverse offerings from both the College of Agricultural and Life Sciences and the College of Letters & Science.

The Environmental Sciences major can be earned in either the College of Agricultural and Life Sciences (CALS) or the College of Letters & Science (L&S) under the bachelor of science (BS) or bachelor of arts (BA) degree program. An undergraduate BS degree is offered through both colleges. A BA option is offered through L&S only. Students are encouraged to review

the degree requirements for both L&S and CALS and choose the college from which they would prefer to earn their degree; students may choose only one degree "home."

- In CALS, the major is housed in the Department of Soil and Environmental Sciences.
- In L&S, the major is housed in the Department of Atmospheric and Oceanic Sciences.

The major can be taken as a stand-alone or as a double major with a variety of other majors on campus, including Biology, Community & Environmental Sociology, Life Sciences Communication, foreign language/culture, and a number of other disciplines.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.
Language	<ul style="list-style-type: none">• Complete the fourth unit of a language other than English; OR• Complete the third unit of a language and the second unit of an additional language other than English.
L&S Breadth	<ul style="list-style-type: none">• 12 credits of Humanities, which must include 6 credits of literature; and• 12 credits of Social Science; and• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	<ul style="list-style-type: none">• 30 credits in residence, overall; and• 30 credits in residence after the 86th credit.

Quality of Work	• 2.000 in all coursework at UW-Madison
	• 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students majoring in Environmental Sciences must complete a minimum of 58 credits (detailed below). Courses may not double count within the major (unless specifically noted otherwise), but courses counted toward the major requirements may also be used to satisfy a university requirement and/or a college requirement.

MATHEMATICS AND STATISTICS

Code	Title	Credits
Complete one of the following:		4-10
MATH 221	Calculus and Analytic Geometry 1 (Recommended)	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
MATH 211	Survey of Calculus 1	
Complete one of the following:		3-4
STAT 240	Data Science Modeling I	
STAT 324	Introduction to Statistics for Science and Engineering	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Total Credits		7-14

CHEMISTRY

Code	Title	Credits
General Chemistry (complete one of the following):		5-10
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry (complete one of the following):		3
CHEM 341	Elementary Organic Chemistry	
CHEM 343	Organic Chemistry I	
Total Credits		8-13

BIOLOGY

Code	Title	Credits
Complete one of the following:		10
BIOLOGY/ BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology	
BOTANY/ BIOLOGY 130 & ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102	General Botany and Animal Biology and Animal Biology Laboratory	
BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384	Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory	
Total Credits		10

PHYSICS

Code	Title	Credits
Complete one of the following:		4-5
PHYSICS 207	General Physics (recommended)	
PHYSICS 201	General Physics	
PHYSICS 103	General Physics	
Total Credits		4-5

MAJOR FOUNDATION

Code	Title	Credits
Complete one of the following:		3
GEOSCI/ ENVIR ST 106	Environmental Geology	
SOIL SCI/ ENVIR ST/ GEOG 230	Soil: Ecosystem and Resource	
SOIL SCI 250	Introduction to Environmental Science	
Total Credits		3

MAJOR CORE

Complete at least one course and 3 credits from each of these following areas:

Ecology

Code	Title	Credits
AGROECOL 370	Grassland Ecology	3
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin	4
BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology (Recommended)	4
DY SCI 471	Food Production Systems and Sustainability	3
ENTOM 450	Basic and Applied Insect Ecology	3

ENTOM/BOTANY/ ZOOLOGY 473	Plant-Insect Interactions	3
ENTOM 490	Biodiversity and Global Change	3
ENVIR ST/ ZOOLOGY 510	Ecology of Fishes	3
ENVIR ST/ ZOOLOGY 511	Ecology of Fishes Lab	2
F&W ECOL/ ENVIR ST/ ZOOLOGY 360	Extinction of Species	3
F&W ECOL 410	Principles of Silviculture	3
F&W ECOL/AN SCI/ ZOOLOGY 520	Ornithology	3
F&W ECOL/AN SCI/ ZOOLOGY 521	Birds of Southern Wisconsin	3
F&W ECOL 550	Forest Ecology	3
F&W ECOL 551	Forest Ecology Lab	1
F&W ECOL/ LAND ARC/ ZOOLOGY 565	Principles of Landscape Ecology	2
LAND ARC/ ENVIR ST 361	Wetlands Ecology	3
LAND ARC/ ENVIR ST 581	Prescribed Fire: Ecology and Implementation	3
PLANTSCI 300	Cropping Systems	3
PLANTSCI 334	Greenhouse Cultivation	2
PLANTSCI 335	Greenhouse Cultivation Lab	1
SOIL SCI 323	Soil Biology	3
ZOOLOGY 304	Marine Biology	2
ZOOLOGY/ ENVIR ST 315	Limnology-Conservation of Aquatic Resources	2
ZOOLOGY 316	Laboratory for Limnology- Conservation of Aquatic Resources	2-3

Physical Environment

Code	Title	Credits
ATM OCN 310	Dynamics of the Atmosphere and Ocean I	3

MAJOR ELECTIVES

Students may consult with their environmental sciences advisor regarding pathways to complete the major electives requirement. Students must complete 12 credits of electives either by:

1. distributing 12 credits across at least three categories;
2. focusing 12 credits in a single category.

Distributed Electives

Students choosing the Distributed Electives path must complete a total of **12 credits** of Environmental Sciences Electives from the categories below, including **at least one course** from **each** category (Ecology, Physical Environment, Geospatial Sciences).

Ecology		
Code	Title	Credits
AGROECOL 370	Grassland Ecology	3
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin	4
BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology	4

PLANTSCI 376 & PLANTSCI 378	Tropical Horticultural Systems and Tropical Horticultural Systems International Field Study	4
PLANTSCI 510	Senior Capstone Experience	2
SOIL SCI 499	Soil Management	3

² Students may speak with their Environmental Sciences advisor about alternatives (e.g., courses, directed study, senior thesis) to complete the capstone. To be approved, the alternative must be taken for a minimum of 3 credits, clearly focused on environmental science, and approved by the Environmental Sciences Administrative Committee. Students must consult with their environmental sciences advisor and fill out all necessary paperwork before registering.

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA and 15 credits of upper level major courses taken in residence ³
- 15 credits in the major taken on the UW–Madison campus

³ Major courses numbered 300 through 699 are considered upper level.

HONORS IN THE MAJOR

Honors in the Major is not available in Environmental Sciences.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate understanding of Environmental Science fundamentals in the context of biology, chemistry, mathematics, statistics, and physics.
2. Demonstrate a quantitative and qualitative understanding of the ecological relationships (material and energetic) between organisms, both as individuals and in groups, and their biotic and abiotic environment. This may include processes influencing the distribution and abundance of organisms.
3. Demonstrate a quantitative and qualitative understanding of the physical, largely abiotic, conditions (e.g. climate, water, soil, air, noise, greenspace, etc.) of the environment. The physical environment can include natural or managed settings such as urban environments.
4. Demonstrate a quantitative and qualitative understanding of geospatial processes and information as it relates to the environment including how to collect, interpret, and analyze geospatial information regarding the features of the Earth's surface. These technologies may include geographic information systems (GIS), the global positioning system (GPS), digital maps, and satellite based remote sensing.
5. Demonstrate a basic understanding of relationships that focus on the organization and implementation of laws, regulations, and other policy mechanisms concerning environmental issues and sustainability and their effect on society. This includes how human behaviors influences, and are also influenced by, the natural environment.
6. Apply skills in critical thinking, problem identification and resolution of a complex environmental issues that require interdisciplinary solutions and team-based work.
7. Articulate the role of environmental science in one or more focused areas of a specific environmental discipline (e.g. geology, soils, atmosphere, water, plants, animals).
8. Demonstrate expertise in organizing and presenting (written and oral) scientific information to both lay and professional audiences.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits Spring	Credits
CHEM 103 or 109	4 CHEM 104	5
MATH 114 or 171	5 MATH 221 or 217	5
Foreign Language	4 Environmental Sciences Foundation Course	3
Comm A	3 Foreign Language	4
	16	17

Second Year

Fall	Credits Spring	Credits
BIOLOGY/BOTANY/ ZOOLOGY 151 or BOTANY 130	5 BIOLOGY/ ZOOLOGY 101 & BIOLOGY/ ZOOLOGY 102 (or BIOLOGY 152)	5
CHEM 341, 343, or 561	3 STAT 371	3
Social Science Course	3 Humanities/Ethnic Studies Course	4
Literature Course	3 Elective	3
INTER-LS 210	1	
	15	15

Third Year

Fall	Credits Spring	Credits
PHYSICS 207, 201, or 103	5 Major Core Course	3
Major Core Course	3 Major Core Course	4
Major Core Course	3 Literature Course	3
Social Science Course	3 Elective	3
	Elective	2
	14	15

Fourth Year

Fall	Credits Spring	Credits
Environmental Sciences Major Elective Course	3 Environmental Sciences Major Elective Course	3
Environmental Sciences Major Elective Course	3 Social Science Course	3
Capstone	3 Environmental Sciences Major Elective Course	4
Elective	3 Humanities Course	3
Social Science Course	3	
	15	13

Total Credits 120**CAREERS**

A major in Environmental Sciences serves as excellent preparation for careers of great diversity, including environmental modeling, agricultural scientist, botanist, ecologist, park ranger, agricultural technician, air and water quality manager, environmental analyst, air pollution analyst, environmental consultant, environmental educator, GIS analyst, project manager, hazardous waste manager, hydrologist, environmental lawyer, soil conservation technician, and natural resource specialist. For more info about careers, please visit our website (<http://envirosoci.wisc.edu/careers-internships/>).

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

**ENVIRONMENTAL SCIENCES,
BS (L&S)**

The Environmental Sciences major satisfies the growing demand among entry-level students for a rigorous, science-based program that promotes critical thinking and emphasizes environmental problem solving in service to society. The program is designed to prepare graduates who will be highly competitive for entry-level positions in nonprofit and private sectors, and for master's programs and doctoral research programs in environmental fields. Possible career paths include environmental monitoring, consulting, education, research, and planning, as well as natural resource management, ecology restoration, remediation, water and air quality assessment, sustainability practices, and more. Undergraduates in Environmental Sciences prepare for a variety of career and graduate school opportunities that require a strong background in the natural sciences. Foundational course work in the major includes calculus, biology, chemistry, and physics. Core and elective course work is fulfilled through diverse offerings from both the College of Agricultural and Life Sciences and the College of Letters & Science.

The Environmental Sciences major can be earned in either the College of Agricultural and Life Sciences (CALS) or the College of Letters & Science (L&S) under the bachelor of science (BS) or bachelor of arts (BA) degree program. An undergraduate BS degree is offered through both colleges. A BA option is offered through L&S only. Students are encouraged to review the degree requirements for both L&S and CALS and choose the college

ADVISING AND CAREERS**ADVISING AND CAREERS
DECLARE OR CANCEL THIS MAJOR**

Please follow the process described on the Environmental Sciences website (<https://envirosoci.wisc.edu/advising/>).

Any Letters & Science student interested in the Environmental Sciences major should the Undergraduate Academic Advising Manager to set up an appointment to explore or declare the major.

from which they would prefer to earn their degree; students may choose only one degree "home."

- In CALS, the major is housed in the Department of Soil and Environmental Sciences.
- In L&S, the major is housed in the Department of Atmospheric and Oceanic Sciences.

The major can be taken as a stand-alone or as a double major with a variety of other majors on campus, including Biology, Community & Environmental Sociology, Life Sciences Communication, foreign language/culture, and a number of other disciplines.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
 - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth—Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
L&S Breadth	Complete: <ul style="list-style-type: none">• 12 credits of Humanities, which must include at least 6 credits of Literature; and• 12 credits of Social Science; and• 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: <ul style="list-style-type: none">• 30 credits in residence, overall, and• 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none">• 2.000 in all coursework at UW-Madison• 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students majoring in Environmental Sciences must complete a minimum of 58 credits (detailed below). Courses may not double count within the major (unless specifically noted otherwise), but courses counted toward the major requirements may also be used to satisfy a university requirement and/or a college requirement.

MATHEMATICS AND STATISTICS

Code	Title	Credits
Complete one of the following:		4-10
MATH 221	Calculus and Analytic Geometry I (Recommended)	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
MATH 211	Survey of Calculus I	
Complete one of the following:		3-4
STAT 240	Data Science Modeling I	
STAT 324	Introduction to Statistics for Science and Engineering	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Total Credits		7-14

CHEMISTRY

Code	Title	Credits
General Chemistry (complete one of the following):		5-10
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry (complete one of the following):		3
CHEM 341	Elementary Organic Chemistry	
CHEM 343	Organic Chemistry I	
Total Credits		8-13

BIOLOGY

Code	Title	Credits
Complete one of the following:		10
BIOLOGY/ BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology	

BOTANY/ BIOLOGY 130 & ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102	General Botany and Animal Biology and Animal Biology Laboratory
---	---

BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384	Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory
---	---

Total Credits 10

PHYSICS

Code	Title	Credits
Complete one of the following:		4-5
PHYSICS 207	General Physics (recommended)	
PHYSICS 201	General Physics	
PHYSICS 103	General Physics	

Total Credits 4-5

MAJOR FOUNDATION

Code	Title	Credits
Complete one of the following:		3
GEOSCI/ ENVIR ST 106	Environmental Geology	
SOIL SCI/ ENVIR ST/ GEOG 230	Soil: Ecosystem and Resource	
SOIL SCI 250	Introduction to Environmental Science	

Total Credits 3

MAJOR CORE

Complete at least one course and 3 credits from each of these following areas:

Ecology

Code	Title	Credits
AGROECOL 370	Grassland Ecology	3
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin	4
BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology (Recommended)	4
DY SCI 471	Food Production Systems and Sustainability	3
ENTOM 450	Basic and Applied Insect Ecology	3
ENTOM/BOTANY/ ZOOLOGY 473	Plant-Insect Interactions	3
ENTOM 490	Biodiversity and Global Change	3
ENVIR ST/ ZOOLOGY 510	Ecology of Fishes	3
ENVIR ST/ ZOOLOGY 511	Ecology of Fishes Lab	2

F&W ECOL/ ENVIR ST/ ZOOLOGY 360	Extinction of Species	3
F&W ECOL 410	Principles of Silviculture	3
F&W ECOL/AN SCI/ ZOOLOGY 520	Ornithology	3
F&W ECOL/AN SCI/ ZOOLOGY 521	Birds of Southern Wisconsin	3
F&W ECOL 550	Forest Ecology	3
F&W ECOL 551	Forest Ecology Lab	1
F&W ECOL/ LAND ARC/ ZOOLOGY 565	Principles of Landscape Ecology	2
LAND ARC/ ENVIR ST 361	Wetlands Ecology	3
LAND ARC/ ENVIR ST 581	Prescribed Fire: Ecology and Implementation	3
PLANTSCI 300	Cropping Systems	3
PLANTSCI 334	Greenhouse Cultivation	2
PLANTSCI 335	Greenhouse Cultivation Lab	1
SOIL SCI 323	Soil Biology	3
ZOOLOGY 304	Marine Biology	2
ZOOLOGY/ ENVIR ST 315	Limnology-Conservation of Aquatic Resources	2
ZOOLOGY 316	Laboratory for Limnology-Conservation of Aquatic Resources	2-3

Physical Environment

Code	Title	Credits
ATM OCN 310	Dynamics of the Atmosphere and Ocean I	3
ATM OCN/ ENVIR ST/ GEOG 322	Polar Regions and Their Importance in the Global Environment	3
ATM OCN/ ENVIR ST/GEOG/ GEOSCI 335	Climatic Environments of the Past	3
ATM OCN/ ENVIR ST 355	Introduction to Air Quality	3
ATM OCN 425	Global Climate Processes	3
ATM OCN/ ENVIR ST 520	Bioclimatology	3
ATM OCN/ PLANTSCI 532	Environmental Biophysics	3
BSE 365	Measurements and Instrumentation for Biological Systems	3
BSE/ENVIR ST 367	Renewable Energy Systems	3
BSE 460	Biorefining: Energy and Products from Renewable Resources	3
CIV ENGR 320	Environmental Engineering	3
CIV ENGR/G L E 421	Environmental Sustainability Engineering	3

GEOSCI/ ENVIR ST 411	Energy Resources	3
LSC 340	Misinformation, Fake News, and Correcting False Beliefs about Science	3
URB R PL/ ECON/ENVIR ST/ POLI SCI 449	Government and Natural Resources	3-4

MAJOR ELECTIVES

Students may consult with their environmental sciences advisor regarding pathways to complete the major electives requirement. Students must complete 12 credits of electives either by:

1. distributing 12 credits across at least three categories;
2. focusing 12 credits in a single category.

Distributed Electives

Students choosing the Distributed Electives path must complete a total of **12 credits** of Environmental Sciences Electives from the categories

below, including **at least one course** from **each** category (Ecology, Physical Environment, Geospatial Sciences).

Ecology

Code	Title	Credits
AGROECOL 370	Grassland Ecology	3
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin	4
BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology	4

LAND ARC 668	Restoration Ecology	3
PL PATH 315	Plant Microbiomes	4
PLANTSCI 376 & PLANTSCI 378	Tropical Horticultural Systems and Tropical Horticultural Systems International Field Study	4
PLANTSCI 510	Senior Capstone Experience	2
SOIL SCI 499	Soil Management	3

² Students may speak with their Environmental Sciences advisor about alternatives (e.g., courses, directed study, senior thesis) to complete the capstone. To be approved, the alternative must be taken for a minimum of 3 credits, clearly focused on environmental science, and approved by the Environmental Sciences Administrative Committee. Students must consult with their environmental sciences advisor and fill out all necessary paperwork before registering.

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA and 15 credits of upper level major courses taken in residence³
- 15 credits in the major taken on the UW–Madison campus

³ Major courses numbered 300 through 699 are considered upper level.

HONORS IN THE MAJOR

Honors in the Major is not available in Environmental Sciences.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate understanding of Environmental Science fundamentals in the context of biology, chemistry, mathematics, statistics, and physics.
2. Demonstrate a quantitative and qualitative understanding of the ecological relationships (material and energetic) between organisms, both as individuals and in groups, and their biotic and abiotic environment. This may include processes influencing the distribution and abundance of organisms.
3. Demonstrate a quantitative and qualitative understanding of the physical, largely abiotic, conditions (e.g. climate, water, soil, air, noise, greenspace, etc.) of the environment. The physical environment can include natural or managed settings such as urban environments.
4. Demonstrate a quantitative and qualitative understanding of geospatial processes and information as it relates to the environment including how to collect, interpret, and analyze geospatial information regarding the features of the Earth's surface. These technologies may include geographic information systems (GIS), the global positioning system (GPS), digital maps, and satellite based remote sensing.
5. Demonstrate a basic understanding of relationships that focus on the organization and implementation of laws, regulations, and other policy mechanisms concerning environmental issues and sustainability and their effect on society. This includes how human behaviors influences, and are also influenced by, the natural environment.
6. Apply skills in critical thinking, problem identification and resolution of a complex environmental issues that require interdisciplinary solutions and team-based work.
7. Articulate the role of environmental science in one or more focused areas of a specific environmental discipline (e.g. geology, soils, atmosphere, water, plants, animals).
8. Demonstrate expertise in organizing and presenting (written and oral) scientific information to both lay and professional audiences.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits Spring	Credits
CHEM 103 or 109	4 CHEM 104	5

ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Environmental Sciences website (<https://envirosoci.wisc.edu/advising/>).

Any Letters & Science student interested in the Environmental Sciences major should the Undergraduate Academic Advising Manager to set up an appointment to explore or declare the major.

CAREERS

A major in Environmental Sciences serves as excellent preparation for careers of great diversity, including environmental modeling, agricultural scientist, botanist, ecologist, park ranger, agricultural technician, air and water quality manager, environmental analyst, air pollution analyst, environmental consultant, environmental educator, GIS analyst, project manager, hazardous waste manager, hydrologist, environmental lawyer, soil conservation technician, and natural resource specialist. For more info about careers, please visit our website (<http://envirosoci.wisc.edu/careers-internships/>).

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

BIOLOGY CORE CURRICULUM

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Biology Core Curriculum Honors, Certificate (p. 526)

BIOLOGY CORE CURRICULUM HONORS, CERTIFICATE

Biology Core Curriculum (Biocore (<http://www.biocore.wisc.edu/>)) is an undergraduate Honors biology certificate program for students who are motivated to learn biology within a small community of students, peer mentors, and faculty instructors. The four-semester curriculum of lecture and laboratory courses provides an integrated foundation of knowledge and skills applicable to any area of bioscience.

Biocore is not a major but fulfills requirements for a variety of biological science majors including those in the College of Agricultural and

Life Sciences, College of Letters & Science, College of Engineering, and School of Pharmacy. See the Biocore website and video (<http://www.biocore.wisc.edu/about/>) to learn more.

Biocore includes:

- Small classes and high faculty/instructor contact
- Emphasis on research, problem solving, science reasoning, group learning, and communication
- Inclusive, collaborative community of students and faculty
- Peer mentoring, outreach, and directed study opportunities
- Biocore Honors certificate.

HOW TO GET IN

HOW TO GET IN

Biocore is an application-based Honors program that starts in the fall. While any UW–Madison student admitted to Biocore can take courses and complete the program, only students in the College of Agricultural and Life Sciences, the College of Engineering, the School of Human Ecology, the College of Letters & Science, the School of Education, the School of Pharmacy and the School of Business will be eligible to have the certificate noted on their transcript.

Application options:

Applications are available through the Biocore website (<https://biocore.wisc.edu/biocore-admissions/>) starting in mid-December. Most students apply during the spring of freshman year and begin fall of sophomore year.

- Early application deadline on first Friday of January for notification prior to beginning of spring semester
- Regular application deadline in mid-March prior to April registration
- Rolling application review after March deadline right up to the start of fall classes

PREREQUISITES

Please inquire about course equivalents.

Code	Title	Credits
Introductory Chemistry		
Complete one of the following:		5
CHEM 104	General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115	Chemical Principles I	
Total Credits		5

REQUIREMENTS

REQUIREMENTS

Code	Title	Credits
Complete the following lecture courses (in sequence):		
BIOCORE 381	Evolution, Ecology, and Genetics	3
BIOCORE 383	Cellular Biology	3
BIOCORE 485	Principles of Physiology	3

BIOCORE 587	Biological Interactions	3
Complete two of the following lab courses (in any order):		4
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 486	Principles of Physiology Laboratory	
Total Credits		16

RESIDENCE AND QUALITY OF WORK

- Minimum 3.3000 University GPA
- Grade of B or better in all BIOCORE and courses used for the certificate

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate a learning mindset and intellectual curiosity for biology.
2. Demonstrate advanced level scientific reasoning and integration of biological concepts and processes – from molecules to the biosphere, across different forms of life, through space and time.
3. Generate novel scientific questions, formulate hypotheses, carry out experiments, and make logical conclusions based on evidence.
4. Demonstrate advanced scientific communication skills, oral and written, and the ability to translate their understanding to the broader community.
5. Actively engage in and practice group learning, collaboration, and teamwork.
6. Reach for and achieve high standards in the quality of learning.
7. Articulate the value of the Biocore Honors experience.

ADVISING AND CAREERS

ADVISING AND CAREERS

Some majors require students to complete the whole program, but others do not. Check on your major requirements and with an academic advisor in your major. Review sample four-year schedules (<https://biocore.wisc.edu/four-year-schedules/>) for how Biocore fits into many different bioscience majors. Students who plan to study abroad during their junior year can plan to start Biocore as sophomores and complete coursework as seniors.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

The Biocore Experience is aligned with the Wisconsin Experience, supporting students' development of knowledge, intellectual skills, and social responsibilities.

Biocore is an Honors biology program, a *community*, and a *curriculum* that challenges students to discover and reach their academic potential within an inclusive and supportive biology education program. The Biocore Honors community of highly motivated students works with dedicated faculty to extend opportunities for scientific research, communication, integrative learning, and collaboration in the context of a four-semester undergraduate biology curriculum.

STUDENTS SAY:

"Biocore has helped me think about science in a completely different way."

"I have never been so challenged, nor so excited about learning, as during my time in Biocore."

"Biocore taught me how to think critically and how to question. I learned to be part of a team and made some great friendships."

"Taking Biocore made other advanced courses in biology/biochemistry/genetics so much easier because I gained such solid background knowledge."

"Biocore has been my most valuable academic experience yet. It has helped me develop my scientific writing skills, ability to problem solve as a member of a team, and to think like a scientist."

"The great staff and teaching teams are excellent—they really care and invest a huge amount of time to benefit our learning."

See Biocore Experience video (<https://youtu.be/YavNVg7eXaA/>), recent Biocore Honors graduate profiles (<https://biocore.wisc.edu/biocore-graduates/>), and alumni profiles (<http://www.biocore.wisc.edu/alumni/>).

In addition to courses, Biocore offers co-curricular and leadership opportunities. Students are also able to engage in Biocore peer advising (<https://biocore.wisc.edu/biocore-peer-advisors/>), Biocore peer mentoring (<https://biocore.wisc.edu/biocore-peer-mentors/>), undergraduate TAs, as well as engage in directed study and research opportunities in the Biocore Prairie (<https://biocore.wisc.edu/biocore->

prairie/), go outside the classroom with Biocore Adventure Club, and in K-12 outreach through the Biocore Outreach Ambassadors (<https://biocore.wisc.edu/biocore-outreach-ambassadors/>).

BOTANY

The Department of Botany provides an introduction to the living world: the diversity of its organisms; its historical origins through evolution; its principles of structure, function, and ecology; and its interactions, relationships, and effects on the nonliving world. Botany is the science of plants, algae, fungi, and bacteria—all living organisms except animals. Green plants and algae provide the photosynthetic energy for fueling all other life on earth and drive global water and carbon cycles. Fungi and bacteria are the fundamental recyclers of the earth.

The study of botany provides a broad background in the principles of modern biology and gives a solid foundation for careers in environmental studies, conservation biology, ecology, systematics, evolution, genetics, physiology, biotechnology, agriculture, and horticulture. Jobs requiring such preparation include teaching in secondary schools and colleges, research and development in industry and medicine, stewardship of our natural world through private and governmental programs, and research and teaching in academia.

Undergraduates interested in majoring in botany should take an introductory course or course sequence in their freshmen or sophomore years:

Code	Title	Credits
Option A (strongly recommended)		
BOTANY/ BIOLOGY 130	General Botany	5
With or without the following:		
ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102	Animal Biology and Animal Biology Laboratory	5
Option B (also appropriate)		
BIOLOGY/BOTANY/ ZOOLOGY 151	Introductory Biology	5
BIOLOGY/BOTANY/ ZOOLOGY 152	Introductory Biology	5
Option C (also appropriate)		
Biology Core Curriculum		

The general undergraduate Botany advisor will help guide students to a botany faculty member in their field of interest, who should be chosen as soon as possible—no later than the junior year. All Botany faculty members serve as advisors for their special fields.

The department encourages undergraduates to participate in its activities. Volunteers are welcome in the herbarium and greenhouses. There are a few paid positions there and in many of the research laboratories as well.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Botany, BA (p. 528)
- Botany, BS (p. 532)
- Conservation Biology, BA (p. 536)
- Conservation Biology, BS (p. 542)

BOTANY, BA

The Department of Botany provides an introduction to the living world: the diversity of its organisms; its historical origins through evolution; its principles of structure, function, and ecology; and its interactions, relationships, and effects on the nonliving world. Botany is the science of plants, algae, fungi, and bacteria—all living organisms except animals. Green plants and algae provide the photosynthetic energy for fueling all other life on earth and drive global water and carbon cycles. Fungi and bacteria are the fundamental recyclers of the earth.

The study of botany provides a broad background in the principles of modern biology and gives a solid foundation for careers in environmental studies, conservation biology, ecology, systematics, evolution, genetics, physiology, biotechnology, agriculture, and horticulture. Jobs requiring such preparation include teaching in secondary schools and colleges, research and development in industry and medicine, stewardship of our natural world through private and governmental programs, and research and teaching in academia.

HOW TO GET IN

HOW TO GET IN

Prospective Botany majors should consult with the general undergraduate botany advisor by the beginning of the junior year to outline a course of study appropriate to the student's needs. Major Declaration may occur by meeting with the undergraduate advisor in the major.

To be accepted as a major in Botany, a student must have a grade point average of 2.500 for all science courses taken prior to declaration.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

Language

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

L&S Breadth

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced work Complete at least 60 credits at the intermediate or advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW-Madison Experience

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

Quality of Work

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR MATH, CHEMISTRY, AND PHYSICS

Code	Title	Credits
Statistics/Mathematics (One course from the following):¹		3
STAT 301	Introduction to Statistical Methods	
STAT 324	Introduction to Statistics for Science and Engineering	
STAT 371	Introductory Applied Statistics for the Life Sciences	
General Chemistry (One of the following):		5-9
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
CHEM 109	Advanced General Chemistry	
Organic Chemistry²		3
CHEM 341 or CHEM 343	Elementary Organic Chemistry or Organic Chemistry I	
Physics (One course from the following):³		3-5
PHYSICS 115	Energy and Climate (preferred)	
PHYSICS 103	General Physics	
PHYSICS 104	General Physics	
PHYSICS 201	General Physics	
PHYSICS 202	General Physics	
PHYSICS 207	General Physics	
PHYSICS 208	General Physics	
PHYSICS 247	A Modern Introduction to Physics	
PHYSICS 248	A Modern Introduction to Physics	
PHYSICS 249	A Modern Introduction to Physics	
Total Credits		14-20

BIOLOGY AND BOTANY REQUIREMENTS

30 credits from:

Code	Title	Credits
Introductory Biology (Complete one option):		5-10
<i>Option A, Recommended</i>		
BOTANY/ BIOLOGY 130	General Botany ⁴	
<i>Option B: Introductory Biology</i>		

BOTANY/ BIOLOGY/ ZOOLOGY 151	Introductory Biology
BOTANY/ BIOLOGY/ ZOOLOGY 152	Introductory Biology

<i>Diversity (1 course required)</i>		
BOTANY 305	Plant Morphology and Evolution	
BOTANY 330	Algae	
BOTANY/ PL PATH 332	Fungi	
BOTANY 400	Plant Systematics	
BOTANY 401	Vascular Flora of Wisconsin	
<i>Optionally, 1 of the 5 required courses may come from this list, or students may take a second course from any area listed above:</i>		
BOTANY/ GEOG 338	Environmental Biogeography	
BOTANY/ F&W ECOL 402	Dendrology: Woody Plant Identification and Ecology	
BOTANY 403	Field Collections and Identification	
BOTANY 422	Plant Geography	
BOTANY/ ZOOLOGY 450	Midwestern Ecological Issues: A Case Study Approach	
BOTANY/ ENTOM/ ZOOLOGY 473	Plant-Insect Interactions	

BOTANY/ AMER IND/ ANTHRO 474	Ethnobotany
BOTANY/ ENTOM/ PL PATH 505	Plant-Microbe Interactions: Molecular and Ecological Aspects
BOTANY/ ENVIR ST/ F&W ECOL/ ZOOLOGY 516	Conservation Biology
BOTANY/ PL PATH 563	Phylogenetic Analysis of Molecular Data
BOTANY/ BIOCHEM 621	Plant Biochemistry
AGROECOL 370	Grassland Ecology
BIOCHEM 501	Introduction to Biochemistry
BIOCORE 486	Principles of Physiology Laboratory
BIOCORE 587	Biological Interactions
MICROBIO 303	Biology of Microorganisms
ZOOLOGY 570	Cell Biology

Code	Title	Credits
Independent Research Experience—choose one: ⁶		3-6
BOTANY 691	Senior Thesis	4
& BOTANY 692	and Senior Thesis	
BOTANY 681	Senior Honors Thesis	6
& BOTANY 682	and Senior Honors Thesis	
BOTANY 699	Directed Study	3-4

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all BOTANY and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence⁷
- 15 credits in BOTANY, taken on the UW–Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Botany Major in consultation with the Botany undergraduate advisor.

HONORS IN THE MAJOR IN BOTANY: REQUIREMENTS

To earn Honors in the Major in Botany, students must satisfy the requirements for the major (above) and the following additional requirements:

- 3.300 University GPA
- 3.400 GPA in all BOTANY and major courses
- Complete 12 Honors credits from coursework listed in the "Botany Distribution" requirements⁸ or from Intermediate/Advanced Honors coursework in Biocore
- Conduct Senior Honors Thesis research in BOTANY 681 & BOTANY 682 for a total of 6 credits

FOOTNOTES

- ¹ STAT 371, MATH 211, or MATH 221 are strongly recommended for students preparing for graduate school, as these usually are required for entry into post-undergraduate programs.
- ² CHEM 341 is the best option for organic chemistry if only one course is to be taken. However, for students who are preparing for graduate school, the three-course organic chemistry sequence (CHEM 343, CHEM 344, & CHEM 345) is strongly recommended instead of CHEM 341, as some graduate programs may require a sequence of organic chemistry courses.
- ³ PHYSICS 115 is the best choice if one course is to be taken. It is recommended that two semesters of PHYSICS be taken (PHYSICS 103-PHYSICS 104 or PHYSICS 201-PHYSICS 202 or PHYSICS 207-PHYSICS 208).
- ⁴ In addition to BOTANY/BIOLOGY 130, ZOOLOGY/BIOLOGY 101 and/or ZOOLOGY/BIOLOGY 102 will count towards 30 credits of Botany major.
- ⁵ Completion of the BIOCORE sequence also satisfies the Genetics, Evolution area (BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384 & BIOCORE 485).
- ⁶ Students nearing completion of the major should seek out research opportunities with their advisor or faculty supervisor, and register for their project at the end of the junior year.
- ⁷ BOTANY 300–BOTANY 699 are considered upper-level in the major.
- ⁸ Excluding BOTANY 681 and BOTANY 682.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Acquire and demonstrate foundational understanding of the basic properties of plant life from the subcellular to the ecosystem level of organization.
2. Acquire and demonstrate basic understanding in chemistry, physics, and mathematics to interpret biological phenomena.

3. Acquire and demonstrate detailed knowledge in at least five of these core areas of plant biology: Genetics, Physiology, Structural biology, Ecology, Systematics, Evolution, Cryptogamic biology.
4. Explore these core areas in the context of the laboratory and/or the field.
5. Engage in plant biology research (to include algae, photosynthetic bacteria, and fungi): develop hypotheses, acquire scientific information, and interpret results in the context of the historical scientific literature in one or more specialized botanical subdisciplines.
6. Develop an appreciation of communicating scientific information, especially in written form.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

This plan shown focuses on completing major requirements early enough to be able to pursue advanced interests later. It also includes additional research experiences beyond the minimum, since many students find it helpful to begin research earlier than their senior year. Students interested in graduate school would be advised to take additional courses in the biological, physical, and/or data science fields. Students seeking honors in the Major might want to consult the sample 4-year plans provided by the Biocore (<https://guide.wisc.edu/undergraduate/letters-science/biology-core-curriculum/biology-core-curriculum-honors-certificate/>) program

First Year

Fall	Credits Spring	Credits
General chemistry (choose one) ¹	4-5 CHEM 104 (or Elective)	5
CHEM 103 or 109 ¹	Introductory Biology First Semester (choose one)	5

ADVISING**

Students can find information about declaring the major at declaration and advising (<https://botany.wisc.edu/undergraduate-study/declaration-and-advising/>).

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience,

and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

BOTANY, BS

The Department of Botany provides an introduction to the living world: the diversity of its organisms; its historical origins through evolution; its principles of structure, function, and ecology; and its interactions, relationships, and effects on the nonliving world. Botany is the science of plants, algae, fungi, and bacteria—all living organisms except animals. Green plants and algae provide the photosynthetic energy for fueling all other life on earth and drive global water and carbon cycles. Fungi and bacteria are the fundamental recyclers of the earth.

The study of botany provides a broad background in the principles of modern biology and gives a solid foundation for careers in environmental studies, conservation biology, ecology, systematics, evolution, genetics, physiology, biotechnology, agriculture, and horticulture. Jobs requiring such preparation include teaching in secondary schools and colleges, research and development in industry and medicine, stewardship of our natural world through private and governmental programs, and research and teaching in academia.

HOW TO GET IN**HOW TO GET IN**

Prospective Botany majors should consult with the general undergraduate botany advisor by the beginning of the junior year to outline a course of study appropriate to the student's needs. Major Declaration may occur by meeting with the undergraduate advisor in the major.

To be accepted as a major in Botany, a student must have a grade point average of 2.500 for all science courses taken prior to declaration.

REQUIREMENTS**UNIVERSITY GENERAL
EDUCATION REQUIREMENTS**

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed.

For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

Language Complete the third unit of a language other than English.

L&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced Coursework Complete at least 60 credits at the Intermediate or Advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW-Madison Experience Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

Quality of Work

- 2.000 in all coursework at UW–Madison
- 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR MATH, CHEMISTRY, AND PHYSICS

Code	Title	Credits
Statistics/Mathematics (One course from the following):¹		3
STAT 301	Introduction to Statistical Methods	
STAT 324	Introduction to Statistics for Science and Engineering	
STAT 371	Introductory Applied Statistics for the Life Sciences	
General Chemistry (One of the following):		5-9
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
CHEM 109	Advanced General Chemistry	
Organic Chemistry²		3
CHEM 341 or CHEM 343	Elementary Organic Chemistry or Organic Chemistry I	
Physics (One course from the following):³		3-5
PHYSICS 115	Energy and Climate (preferred)	
PHYSICS 103	General Physics	
PHYSICS 104	General Physics	
PHYSICS 201	General Physics	
PHYSICS 202	General Physics	
PHYSICS 207	General Physics	
PHYSICS 208	General Physics	
PHYSICS 247	A Modern Introduction to Physics	
PHYSICS 248	A Modern Introduction to Physics	
PHYSICS 249	A Modern Introduction to Physics	
Total Credits		14-20

BIOLOGY AND BOTANY REQUIREMENTS

30 credits from:

Code	Title	Credits

ZOOLOGY 570 Cell Biology

Code	Title	Credits
Independent Research Experience—choose one: ⁶		3-6
BOTANY 691 & BOTANY 692	Senior Thesis and Senior Thesis	4
BOTANY 681 & BOTANY 682	Senior Honors Thesis and Senior Honors Thesis	6
BOTANY 699	Directed Study	3-4

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all BOTANY and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence⁷
- 15 credits in BOTANY, taken on the UW–Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Botany Major in consultation with the Botany undergraduate advisor.

HONORS IN THE MAJOR IN BOTANY: REQUIREMENTS

To earn Honors in the Major in Botany, students must satisfy the requirements for the major (above) and the following additional requirements:

- 3.300 University GPA
- 3.400 GPA in all BOTANY and major courses
- Complete 12 Honors credits from coursework listed in the "Botany Distribution" requirements⁸ or from Intermediate/Advanced Honors coursework in Biocore
- Conduct Senior Honors Thesis research in BOTANY 681 & BOTANY 682 for a total of 6 credits

FOOTNOTES

¹ STAT 371, MATH 211, or MATH 221 are strongly recommended for students preparing for graduate school, as these usually are required for entry into post-undergraduate programs.

² CHEM 341 is the best option for organic chemistry if only one course is to be taken. However, for students who are preparing for graduate school, the three-course organic chemistry sequence (CHEM 343, CHEM 344, & CHEM 345) is strongly recommended instead of

CHEM 341, as some graduate programs may require a sequence of organic chemistry courses.

³ PHYSICS 115 is the best choice if one course is to be taken. It is recommended that two semesters of PHYSICS be taken (PHYSICS 103-PHYSICS 104 or PHYSICS 201-PHYSICS 202 or PHYSICS 207-PHYSICS 208).

⁴ In addition to BOTANY/BIOLOGY 130, ZOOLOGY/BIOLOGY 101 and/or ZOOLOGY/BIOLOGY 102 will count towards 30 credits of Botany major.

⁵ Completion of the BIOCORE sequence also satisfies the Genetics, Evolution area (BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384 & BIOCORE 485).

⁶ Students nearing completion of the major should seek out research opportunities with their advisor or faculty supervisor, and register for their project at the end of the junior year.

⁷ BOTANY 300-BOTANY 699 are considered upper-level in the major.

⁸ Excluding BOTANY 681 and BOTANY 682.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

6. Develop an appreciation of communicating scientific information, especially in written form.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

This plan shown focuses on completing major requirements early enough to be able to pursue advanced interests later. It also includes additional research experiences beyond the minimum, since many students find it helpful to begin research earlier than their senior year. Students interested in graduate school would be advised to take additional courses in the biological, physical, and/or data science fields. Students seeking honors in the Major might want to consult the sample 4-year plans provided by the Biocore (<https://guide.wisc.edu/undergraduate/letters-science/biology-core-curriculum/biology-core-curriculum-honors-certificate/>) program

First Year

Fall	Credits Spring	Credits

CONSERVATION BIOLOGY,
BA

Conservation Biology is a science-based major designed to provide students broad training in biological, ecological, and related disciplines most relevant to conservation. The program emphasizes basic knowledge of natural history, whole organism biology, ecological interactions, and field biology. The major is characterized by flexibility with a broad range of opportunities allowing students to tailor the program to their interests. This major appeals to independent students capable of assembling a curriculum that takes maximum advantage of both strong background, diversity, and specialization, as well as the breadth available through an L&S major. The program has a unique appeal to students passionate about conservation biology, from the social scientist to the theoretical ecologist, and empowers students to act as informed citizens of the natural world.

Former UW professors Aldo Leopold and Norman Fassett first initiated this major in the 1940s to prepare individuals for careers as game wardens, ranger naturalists, and museum workers. These opportunities continue and have expanded to include work in environmental education; land restoration and park management; endangered species research and recovery efforts; private conservation organizations and government agencies; and many more. The major is recommended for those seeking a liberal education in the intrinsic values of natural resources and those preparing for graduate study in the rapidly developing field of conservation biology.

REQUIREMENTS

UNIVERSITY GENERAL
EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core

of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

Language

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

L&S Breadth

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced work Complete at least 60 credits at the intermediate or advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW-Madison Experience

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

Quality of Work

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Conservation biology majors must take at least **50 credits** in the major. When selecting courses to meet major requirements, students are encouraged to meet with their Academic Advising Manager to discuss courses that align with their areas of academic interest.

INTRODUCTORY COURSES

Code	Title	Credits
Introductory Biology		10

Complete one of the following options:

Option 1:

BIOLOGY/ ZOOLOGY 101	Animal Biology
BIOLOGY/ ZOOLOGY 102	Animal Biology Laboratory
BIOLOGY/ BOTANY 130	General Botany

Option 2:

BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology

Option 3:

Complete at least 10 credits from the following:

BIOCORE 381	Evolution, Ecology, and Genetics
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory
BIOCORE 383	Cellular Biology
BIOCORE 384	Cellular Biology Laboratory
BIOCORE 485	Principles of Physiology
BIOCORE 486	Principles of Physiology Laboratory

Chemistry **4-5**

Complete one of the following:

CHEM 103	General Chemistry I
CHEM 108	Chemistry in Our World
CHEM 109	Advanced General Chemistry (for those who might take more chemistry)

Physical Environment 3-5

Complete one of the following:

ATM OCN/ GEOSCI 105	Survey of Oceanography
ENVIR ST/ GEOSCI 106	Environmental Geology
ENVIR ST/ GEOG 120	Introduction to the Earth System
ENVIR ST/ GEOG 127	Physical Systems of the Environment
GEOSCI 100	Introductory Geology: How the Earth Works
GEOSCI 109	Three billion years beneath your feet: Geology of the National Parks

Ecology and Evolution 6-7

Complete two of the following, each from a different category (students are encouraged to take courses in all three areas):

Ecology:

BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology
-------------------------------------	-----------------

Evolution:

GEOSCI 110	Evolution and Extinction
or ANTHRO/ BOTANY/ ZOOLOGY 410	Evolutionary Biology

Extinction:

ENVIR ST/F&W ECOL/ZOOLOGY 360	Extinction of Species
-------------------------------------	-----------------------

Statistics 3

Complete one of the following:

STAT 240	Data Science Modeling I
STAT 301	Introduction to Statistical Methods
STAT 371	Introductory Applied Statistics for the Life Sciences

SPECIES & FIELD BIOLOGY

Code	Title	Credits
------	-------	---------

Complete 12 credits from:

AGROECOL 370	Grassland Ecology
AN SCI/ F&W ECOL/ ZOOLOGY 520	Ornithology
AN SCI/ F&W ECOL/ ZOOLOGY 521	Birds of Southern Wisconsin
ANTHRO 391	Bones for the Archaeologist
ANTHRO 420	Introduction to Primatological Research
ANTHRO 458	Primate Behavioral Ecology
ANTHRO 668	Primate Conservation
BOTANY 330	Algae
BOTANY/ PL PATH 332	Fungi

BOTANY/ PL PATH 333	Biology of the Fungi
BOTANY 400	Plant Systematics
BOTANY 401	Vascular Flora of Wisconsin
BOTANY/ F&W ECOL 402	Dendrology: Woody Plant Identification and Ecology
BOTANY 422	Plant Geography
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin
BOTANY/ ENTOM/ ZOOLOGY 473	Plant-Insect Interactions
ENTOM/ ZOOLOGY 302	Introduction to Entomology
ENTOM 432	Taxonomy and Bionomics of Immature Insects
ENVIR ST/ ZOOLOGY 315	Limnology-Conservation of Aquatic Resources
ENVIR ST 375	Field Ecology Workshop
ENVIR ST/ ZOOLOGY 510	Ecology of Fishes
ENVIR ST/ ZOOLOGY 511	Ecology of Fishes Lab
F&W ECOL 306	Terrestrial Vertebrates: Life History and Ecology
F&W ECOL 401	Physiological Animal Ecology

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence ²
- 15 credits in the major, taken on the UW–Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Conservation Biology Major in consultation with the Conservation Biology undergraduate advisor.

HONORS IN THE CONSERVATION BIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Conservation Biology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Complete at least 16 credits, taken for Honors, with a grade of B or better, in the conservation biology major, to include a two-semester Senior Honors Thesis in an appropriate department³

FOOTNOTES

- ¹ Students may NOT apply both ZOOLOGY 425 Behavioral Ecology and PSYCH 449 Animal Behavior in the conservation biology program.
- ² Courses in the major numbered 300 through 699 are considered upper level.
- ³ Examples include Botany, Zoology, Environmental Studies; see the Conservation Biology advisor to verify that your thesis department will be acceptable.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Explain the basic concepts of ecology and evolution and how they underpin and apply to the science of conservation biology.
2. Understand and explain the scientific process as related to conservation biology, including the relevance of theories and how hypotheses are tested.

3. Recognize species within some particular group of organisms and explain key aspects of their ecology, phylogeny, and conservation needs.
4. Apply general ecological principles to assess and address conservation threats to particular species, communities, and ecosystems.
5. Investigate and communicate the connections between the biological and social sciences and humanities as they affect conservation programs and activities.
6. Identify, interpret, and communicate conservation ideas, needs and programs to others.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

The Conservation Biology road map is a tool to assist you and your advisor in planning your academic career. Use it along with your DARS report and the Course Guide/Schedule of Classes. Your specific program of study could, and probably will, look different. You should customize the road map to fit your unique path at UW–Madison. Consult with your advisor about the best path for you.

Freshman		
Fall	Credits Spring	Credits

BOTANY/ENVIR ST/ F&W ECOL/ ZOOLOGY 516	3 Elective	4-5
14		16
Total Credits 120		

- ¹ While most incoming freshman are required to complete coursework to fulfill the Communication A requirement, students may be exempted by approved college coursework while in high school, AP test scores, or placement testing. Students are expected to satisfy this requirement by the end of their first year of undergraduate study.
- ² Students are expected to complete the Ethnic Studies requirement within the first 60 credits of undergraduate study.
- ³ There are three options for Introductory Biology -- please consult the Requirements page of this Guide for more information. The Communication B requirement can be fulfilled by completion of ZOOLOGY/BIOLOGY/BOTANY 152 or BIOCORE 381, BIOCORE 382, or BIOCORE 384 if you choose to take those courses for Introductory Biology.
- ⁴ INTER-LS 210 L&S Career Development: Taking Initiative is recommended, but not required for students pursuing the Conservation Biology major.

BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology
ANTHRO/ BOTANY/ ZOOLOGY 410	Evolutionary Biology
BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology

Although not required for the major, such students are also encouraged to consider the following classes:

Code	Title	Credits
CHEM 104	General Chemistry II	
GENETICS 466	Principles of Genetics	
PHYSICS 103	General Physics	
PHYSICS 104	General Physics	
MATH 221	Calculus and Analytic Geometry I	

INTERNSHIP/FIELD EXPERIENCE

Students in the Conservation Biology major are encouraged to take field courses when possible (including suitable study abroad and field-based programs) and to gain additional experience via research, jobs, and internships. Students who wish to obtain academic credit for internships can consider INTER-LS 260 Internship in the Liberal Arts and Sciences or arrange in advance to set up a Directed Study for research or internships with faculty to propose as elective credit in the major. Students pursuing funding for their experiences can refer to the SuccessWorks Internship Fund (<https://successworks.wisc.edu/ls-finding-an-internship/money-for-your-internship/>), study abroad resources for funding your experience (<https://studyabroad.wisc.edu/funding/>), and advising with the Office of Student Financial Aid (<https://financialaid.wisc.edu/>).

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THE MAJOR

Please follow the process described on the Conservation Biology website (<https://conservationbiology.ls.wisc.edu/requirements/>).

Conservation Biology majors are assigned a professional academic advisor to provide assistance with major declarations, course selection, registration, DARS, L&S degree and major requirements, and tracking progress toward graduation, as well as connecting students with important resources on campus. Because the major is so broad and involves so much choice, it is important for students to meet early and regularly with their academic advisor.

Students contemplating graduate work in a biological discipline are advised to take the following:

Code	Title	Credits
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Find scholarship and funding information on the Conservation Biology website (<https://conservationbiology.ls.wisc.edu/scholarships/>).

ROLAND H & MAUDE M. BECKER SCHOLARSHIP

Established by Barbara B. Glass in 1988 in memory of her parents, the Roland & Maude Becker Scholarship provides financial assistance to students with a major in conservation biology. The scholarship is a one-time award to help support a conservation experience related to the major. A conservation experience may include an undergraduate research experience, internship experience, study abroad program, etc. Awards will be in the amount of \$500 and up to two awards will be awarded per academic year.

SUCCESSWORKS INTERNSHIP FUND

This scholarship (<https://successworks.wisc.edu/ls-finding-an-internship-money-for-your-internship/>) provides amounts ranging from \$2,000 to \$5,000 each to help students take advantage of and enable them to participate in a first time internship opportunity that is unpaid or provides a limited stipend.

HILDALE UNDERGRADUATE/FACULTY RESEARCH FELLOWSHIP

The Hilldale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/>) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 100 Hilldale awards are available each year. The student researcher receives \$3,000, and the faculty/staff research advisor receives \$1,000 to help offset research costs (e.g., supplies, faculty or student travel related to the project).

HOLSTROM ENVIRONMENTAL RESEARCH FELLOWSHIP

The Holstrom Environmental Research Fellowship (<https://awards.advising.wisc.edu/all-scholarships/holstrom-environmental-research-fellowship/>) supports undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Research proposals must have an environmental focus, and applicants must have at least a junior standing at the time of application. Apply spring semester to fund work on the project during the summer or the following academic year.

UNDERGRADUATE SYMPOSIUM

The annual Undergraduate Symposium (<https://ugradsymposium.wisc.edu/>) showcases undergraduate creativity, achievement, research, service-learning and community-based research from all areas of study at UW–Madison including the humanities, fine arts, biological sciences, physical sciences, and social sciences. Hundreds of students present, display, or perform their work for members of the university, the surrounding community, family, and friends.

WISCONSIN IDEA FELLOWSHIPS

Wisconsin Idea Fellowships (<https://morgridge.wisc.edu/get-connected-students/wisconsin-undergraduate-idea-fellowships/>) are awarded annually to undergraduate student projects working toward solving a challenge identified along with local or global community partners. Fellowships are awarded to semester-long or year-long projects designed by an undergraduate student (or group of students) in collaboration with a community organization and a UW–Madison faculty or academic staff member.

CONSERVATION BIOLOGY, BS

Conservation Biology is a science-based major designed to provide students broad training in biological, ecological, and related disciplines most relevant to conservation. The program emphasizes basic knowledge of natural history, whole organism biology, ecological interactions, and field biology. The major is characterized by flexibility with a broad range of opportunities allowing students to tailor the program to their interests. This major appeals to independent students capable of assembling a curriculum that takes maximum advantage of both strong background, diversity, and specialization, as well as the breadth available through an L&S major. The program has a unique appeal to students passionate about conservation biology, from the social scientist to the theoretical ecologist, and empowers students to act as informed citizens of the natural world.

Former UW professors Aldo Leopold and Norman Fassett first initiated this major in the 1940s to prepare individuals for careers as game wardens, ranger naturalists, and museum workers. These opportunities continue and have expanded to include work in environmental education; land restoration and park management; endangered species research and recovery efforts; private conservation organizations and government agencies; and many more. The major is recommended for those seeking a liberal education in the intrinsic values of natural resources and those preparing for graduate study in the rapidly developing field of conservation biology.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
L&S Breadth	Complete: <ul style="list-style-type: none"> • 12 credits of Humanities, which must include at least 6 credits of Literature; and • 12 credits of Social Science; and • 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: <ul style="list-style-type: none"> • 30 credits in residence, overall, and • 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none"> • 2.000 in all coursework at UW-Madison • 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Conservation biology majors must take at least **50 credits** in the major. When selecting courses to meet major requirements, students are encouraged to meet with their Academic Advising Manager to discuss courses that align with their areas of academic interest.

INTRODUCTORY COURSES

Code	Title	Credits
Introductory Biology		10
Complete one of the following options:		
<i>Option 1:</i>		
BIOLOGY/ ZOOLOGY 101	Animal Biology	
BIOLOGY/ ZOOLOGY 102	Animal Biology Laboratory	
BIOLOGY/ BOTANY 130	General Botany	
<i>Option 2:</i>		
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology	
<i>Option 3:</i>		
Complete at least 10 credits from the following:		
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 485	Principles of Physiology	
BIOCORE 486	Principles of Physiology Laboratory	

Chemistry
4-5

Complete one of the following:

CHEM 103	General Chemistry I
CHEM 108	Chemistry in Our World
CHEM 109	Advanced General Chemistry (for those who might take more chemistry)

Physical Environment
3-5

Complete one of the following:

ATM OCN/ GEOSCI 105	Survey of Oceanography
ENVIR ST/ GEOSCI 106	Environmental Geology
ENVIR ST/ GEOG 120	Introduction to the Earth System
ENVIR ST/ GEOG 127	Physical Systems of the Environment
GEOSCI 100	Introductory Geology: How the Earth Works
GEOSCI 109	Three billion years beneath your feet: Geology of the National Parks

Ecology and Evolution
6-7

Complete two of the following, each from a different category (students are encouraged to take courses in all three areas):

Ecology:

BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology
-------------------------------------	-----------------

Evolution:

GEOSCI 110	Evolution and Extinction
or ANTHRO/ BOTANY/ ZOOLOGY 410	Evolutionary Biology

Extinction:

ENVIR ST/F&W ECOL/ZOOLOGY 360	Extinction of Species
-------------------------------------	-----------------------

Statistics
3

Complete one of the following:

STAT 240	Data Science Modeling I
STAT 301	Introduction to Statistical Methods
STAT 371	Introductory Applied Statistics for the Life Sciences

SPECIES & FIELD BIOLOGY

Code	Title	Credits
------	-------	---------

Complete 12 credits from:

AGROECOL 370	Grassland Ecology	
AN SCI/ F&W ECOL/ ZOOLOGY 520	Ornithology	
AN SCI/ F&W ECOL/ ZOOLOGY 521	Birds of Southern Wisconsin	
ANTHRO 391	Bones for the Archaeologist	

ANTHRO 420	Introduction to Primatological Research
ANTHRO 458	Primate Behavioral Ecology
ANTHRO 668	Primate Conservation
BOTANY 330	Algae
BOTANY/ PL PATH 332	Fungi
BOTANY/ PL PATH 333	Biology of the Fungi
BOTANY 400	Plant Systematics
BOTANY 401	Vascular Flora of Wisconsin
BOTANY/ F&W ECOL 402	Dendrology: Woody Plant Identification and Ecology
BOTANY 422	Plant Geography
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin
BOTANY/ ENTOM/ ZOOLOGY 473	Plant-Insect Interactions
ENTOM/ ZOOLOGY 302	Introduction to Entomology
ENTOM 432	Taxonomy and Bionomics of Immature Insects
ENVIR ST/ ZOOLOGY 315	Limnology-Conservation of Aquatic Resources
ENVIR ST 375	Field Ecology Workshop
ENVIR ST/ ZOOLOGY 510	Ecology of Fishes
ENVIR ST/ ZOOLOGY 511	Ecology of Fishes Lab
F&W ECOL 306	Terrestrial Vertebrates: Life History and Ecology
F&W ECOL 401	Physiological Animal Ecology
F&W ECOL/ SURG SCI 548	Diseases of Wildlife
F&W ECOL 655	Animal Population Dynamics
GEOSCI/ ZOOLOGY 542	Invertebrate Paleontology
LAND ARC/ ENVIR ST 361	Wetlands Ecology
LAND ARC/ ENVIR ST 581	Prescribed Fire: Ecology and Implementation
MICROBIO 303	Biology of Microorganisms
MICROBIO 304	Biology of Microorganisms Laboratory
M M & I/ENTOM/ PATH-BIO/ ZOOLOGY 350	Parasitology
PSYCH 449	Animal Behavior ¹
or ZOOLOGY 424	Behavioral Ecology
PSYCH 450	Primate Psychology: Insights into Human Behavior
ZOOLOGY 303	Aquatic Invertebrate Biology
ZOOLOGY 304	Marine Biology
ZOOLOGY 320	Field Marine Biology

ZOOLOGY/ ENVIR ST 315	Limnology-Conservation of Aquatic Resources
ZOOLOGY 316	Laboratory for Limnology-Conservation of Aquatic Resources
ZOOLOGY 430	Comparative Anatomy of Vertebrates

CONSERVATION BIOLOGY CLASS REQUIREMENT

BOTANY/ENVIR ST/F&W ECOL/ZOOLOGY 516 Conservation Biology

ELECTIVES

Code	Title	Credits
------	-------	---------

Social Science Electives

Complete at least one 3 credit course from Social Science elective list:

A A E 101	Introduction to Agricultural and Applied Economics	
A A E/ ENVIR ST 244	The Environment and the Global Economy	
BOTANY/ AMER IND/ ANTHRO 474	Ethnobotany	
C&E SOC/ SOC 140	Introduction to Community and Environmental Sociology	
C&E SOC/ F&W ECOL/ SOC 248	Environment, Natural Resources, and Society	
ECON 101	Principles of Microeconomics	
ENVIR ST/ GEOG 139	Global Environmental Issues

- ¹ While most incoming freshman are required to complete coursework to fulfill the Communication A requirement, students may be exempted by approved college coursework while in high school, AP test scores, or placement testing. Students are expected to satisfy this requirement by the end of their first year of undergraduate study.
- ² Students are expected to complete the Ethnic Studies requirement within the first 60 credits of undergraduate study.
- ³ There are three options for Introductory Biology -- please consult the Requirements page of this Guide for more information. The Communication B requirement can be fulfilled by completion of ZOOLOGY/BIOLOGY/BOTANY 152 or BIOCORE 381, BIOCORE 382, or BIOCORE 384 if you choose to take those courses for Introductory Biology.
- ⁴ INTER-LS 210 L&S Career Development: Taking Initiative is recommended, but not required for students pursuing the Conservation Biology major.

choice, it is important for students to meet early and regularly with their academic advisor.

Students contemplating graduate work in a biological discipline are advised to take the following:

Code	Title	Credits
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology	
ANTHRO/ BOTANY/ ZOOLOGY 410	Evolutionary Biology	
BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology	

Although not required for the major, such students are also encouraged to consider the following classes:

Code	Title	Credits
CHEM 104	General Chemistry II	
GENETICS 466	Principles of Genetics	
PHYSICS 103	General Physics	
PHYSICS 104	General Physics	
MATH 221	Calculus and Analytic Geometry I	

INTERNSHIP/FIELD EXPERIENCE

Students in the Conservation Biology major are encouraged to take field courses when possible (including suitable study abroad and field-based programs) and to gain additional experience via research, jobs, and internships. Students who wish to obtain academic credit for internships can consider INTER-LS 260 Internship in the Liberal Arts and Sciences or arrange in advance to set up a Directed Study for research or internships with faculty to propose as elective credit in the major. Students pursuing funding for their experiences can refer to the SuccessWorks Internship Fund (<https://successworks.wisc.edu/ls-finding-an-internship/money-for-your-internship/>), study abroad resources for funding your experience (<https://studyabroad.wisc.edu/funding/>), and advising with the Office of Student Financial Aid (<https://financialaid.wisc.edu/>).

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)

ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THE MAJOR

Please follow the process described on the Conservation Biology website (<https://conservationbiology.ls.wisc.edu/requirements/>).

Conservation Biology majors are assigned a professional academic advisor to provide assistance with major declarations, course selection, registration, DARS, L&S degree and major requirements, and tracking progress toward graduation, as well as connecting students with important resources on campus. Because the major is so broad and involves so much

- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Find scholarship and funding information on the Conservation Biology website (<https://conservationbiology.ls.wisc.edu/scholarships/>).

ROLAND H & MAUDE M. BECKER SCHOLARSHIP

Established by Barbara B. Glass in 1988 in memory of her parents, the Roland & Maude Becker Scholarship provides financial assistance to students with a major in conservation biology. The scholarship is a one-time award to help support a conservation experience related to the major. A conservation experience may include an undergraduate research experience, internship experience, study abroad program, etc. Awards will be in the amount of \$500 and up to two awards will be awarded per academic year.

SUCCESSWORKS INTERNSHIP FUND

This scholarship (<https://successworks.wisc.edu/ls-finding-an-internship-money-for-your-internship/>) provides amounts ranging from \$2,000 to \$5,000 each to help students take advantage of and enable them to participate in a first time internship opportunity that is unpaid or provides a limited stipend.

HILDALE UNDERGRADUATE/FACULTY RESEARCH FELLOWSHIP

The Hildaale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hildaale-undergraduatefaculty-research-fellowship/>) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 100 Hildaale awards are available each year. The student researcher receives \$3,000, and the faculty/staff research advisor receives \$1,000 to help offset research costs (e.g., supplies, faculty or student travel related to the project).

HOLSTROM ENVIRONMENTAL RESEARCH FELLOWSHIP

The Holstrom Environmental Research Fellowship (<https://awards.advising.wisc.edu/all-scholarships/holstrom-environmental-research-fellowship/>) supports undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Research proposals must have an environmental focus, and applicants must have at least a junior standing at the time of application. Apply spring semester to fund work on the project during the summer or the following academic year.

UNDERGRADUATE SYMPOSIUM

The annual Undergraduate Symposium (<https://ugradsymposium.wisc.edu/>) showcases undergraduate creativity, achievement, research, service-learning and community-based research from all areas of study at UW–Madison including the humanities, fine arts, biological sciences, physical sciences, and social sciences. Hundreds

of students present, display, or perform their work for members of the university, the surrounding community, family, and friends.

WISCONSIN IDEA FELLOWSHIPS

Wisconsin Idea Fellowships (<https://morgridge.wisc.edu/get-connected-students/wisconsin-undergraduate-idea-fellowships/>) are awarded annually to undergraduate student projects working toward solving a challenge identified along with local or global community partners. Fellowships are awarded to semester-long or year-long projects designed by an undergraduate student (or group of students) in collaboration with a community organization and a UW–Madison faculty or academic staff member.

CENTER FOR LAW, SOCIETY, AND JUSTICE

The Center for Law, Society, and Justice (CLSJ) houses two interdisciplinary undergraduate programs related to law, legal institutions, and the criminal legal system: the Legal Studies major and the Criminal Justice certificate.

The Legal Studies major provides a liberal arts education across traditional disciplines, focusing on law, legal processes, legal institutions, and their operation in society. In addition to courses in Legal Studies, students can take a wide range of courses offered by other units, including Sociology, Psychology, Religious Studies, Political Science, Educational Policy, African American Studies, Philosophy, Gender and Women’s Studies, American Indian Studies, Chicana/x & Latina/x Studies, English, and History.

The Criminal Justice certificate provides a critical examination of the many facets of the criminal legal system, including law enforcement, courts, and corrections. Courses from several disciplines and an intensive fieldwork/internship/research experience offer students the opportunity to learn about and understand the dynamics of this field. Students engage in internships in a variety of areas including those focused on mental health, social justice, substance abuse disorders, youth initiatives, prevention programs, legal representation, policing, community corrections, and programs that focus on people who have been victimized.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Criminal Justice, Certificate (p. 548)
- Legal Studies, BA (p. 551)
- Legal Studies, BS (p. 559)

CRIMINAL JUSTICE, CERTIFICATE

The Criminal Justice certificate offers a critical examination of the many facets of the criminal legal system, including law enforcement, courts, and corrections. The certificate takes an interdisciplinary approach based on the understanding that “criminal justice” consists of multiple, interdependent subsystems. Courses from several disciplines and an intensive fieldwork/internship/research experience offer students

the opportunity to learn about the dynamics of this field. Students engage in practical experiences in a variety of areas including those focused on mental health, social justice, substance abuse disorders, youth initiatives, prevention programs, legal representation, policing, community corrections, and programs that focus on people who have been victimized. These experiences develop skills transferable to future professional, community, and educational pursuits.

HOW TO GET IN

HOW TO GET IN

Any UW-Madison undergraduate may earn this certificate as part of their overall degree. Students may declare by completing **this declaration form** or by making an appointment with a Center for Law, Society, and Justice advisor via StarFish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=service/64448/schedule>).

REQUIREMENTS

REQUIREMENTS

The Certificate requires a minimum of six courses and a minimum of 16 credits. The courses must be distributed as follows:

Complete one course from each of the three defined groups and at least three (3) additional elective courses:

CRIMINAL JUSTICE SYSTEM

Code	Title	Credits
LEGAL ST/SOC 131	Criminal Justice in America	3-4

RACE AND JUSTICE STUDIES

At least one course in the certificate must have substantial content dealing with race and justice studies. Additional courses taken in this group will be counted towards the elective requirement. The following courses fulfill the Race and Justice Studies requirement.

Code	Title	Credits
AFROAMER/ GEN&WS 625	Gender, Race and the Civil Rights Movement	3
HDFS 474	Racial Ethnic Families in the U.S.	3
HISTORY/ ED POL 143	History of Race and Inequality in Urban America	3
LEGAL ST/ AFROAMER 435	Civil Rights: Policing, Prisons, Voting, Housing, Employment	3-4
LEGAL ST/CHICLA/ SOC 440	Ethnicity, Race, and Justice	3-4
LEGAL ST/CHICLA/ SOC 443	Immigration, Crime, and Enforcement	3-4
PUB AFFR 520	Inequality, Race and Public Policy	3
SOC WORK 420	Poverty and Social Welfare	3
SOC WORK 640	Diversity, Oppression and Social Justice in Social Work	3
SOC/AMER IND/ C&E SOC 578	Poverty and Place	3
SOC 633	Social Stratification	3

FIELDWORK/INTERNSHIP/RESEARCH SEMINAR

The primary internship course administered by our program is LEGAL ST/SOC 694 The course requires a concurrent internship. To be eligible for the course, students complete a pre-internship process the semester prior to the internship. The pre-internship process begins with a required orientation. More information can be found here: <https://criminaljustice.wisc.edu/academics/internships/> (<https://guide.wisc.edu/undergraduate/letters-science/center-law-society-justice/criminal-justice-certificate/more-information-can-be-found-here-https://criminaljustice.wisc.edu/academics/internships/>)

The other listed internship and research opportunities are administered by other programs. Some may be limited to students who are declared in those specific programs. All require advance lead time and authorization for enrollment by the specific program.

Code	Title	Credits
CSCS 601	Internship	1-6
GEN&WS 660	Internship in Gender and Women's Studies	3
INTL ST 523	International Internship	1-3
LEGAL ST 473	Health Impacts of Unmet Social Needs	3
LEGAL ST/SOC 694	Criminal Justice Field Observation	3
HDFS 592	Research Experience in Human Development and Family Studies	1-3
HDFS 601	Internship	1-8
POLI SCI 315	Legislative Internship	3
POLI SCI 402	Wisconsin in Washington Internship Course	4
PUB AFFR 327	Administrative Internship	3
RP & SE 630	Internship in Rehabilitation or Special Education	2-6
SOC 320	Research Practicum in Sociology	1-3
SOC WORK 400	Field Practice and Integrative Seminar I	2-6

ELECTIVES

Students must take three additional courses to meet the six course minimum and to reach at least 16 credits.

Code	Title	Credits
AFROAMER/ GEN&WS 625	Gender, Race and the Civil Rights Movement	3
COUN PSY 237	Mental Health, Self-Awareness, and Social Justice: Working in Diverse Communities	3

SOC 421	Processes of Deviant Behavior	3-4
SOC 441	Criminology	3-4
SOC 446	Juvenile Delinquency	3-4
PSYCH/ GEN&WS 322	Sexual & Relationship Violence Research & Activism	3
PSYCH 401	Psychology, Law, and Social Policy	3
PSYCH 405	Adult Psychopathology	3-4
PSYCH 526	The Criminal Mind: Forensic and Psychobiological Perspectives	4
SOC/AMER IND/ C&E SOC 578	Poverty and Place	3
SOC 633	Social Stratification	3
SOC WORK 420	Poverty and Social Welfare	3
SOC WORK 453	Substance Use Disorders	3
SOC WORK 462	Child Welfare	3
SOC WORK 578	Homelessness: A Service Learning Course	4
SOC WORK 612	Psychopathology in Generalist Social Work Practice	2

SOC WORK 623	Interpersonal Violence	3
SOC WORK 627	Sex Trafficking and Sex Trading	2
SOC WORK/ AMER IND 636	Social Work in American Indian Communities: The Indian Child Welfare Act	3
SOC WORK 640	Diversity, Oppression and Social Justice in Social Work	3
SOC WORK 646	Child Abuse and Neglect	2
SOC WORK 656	Child Welfare Practice in Foster and Kinship Care, Permanency, and Adoption	2

RESIDENCE AND QUALITY OF WORK

- At least 8 certificate credits must be completed in residence
- Minimum 2.000 GPA on all certificate courses.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Develop an appreciation for how the criminal justice system works and how it affects American society as a whole.
2. Develop and improve critical thinking and analytics in written and oral communication skills.
3. Develop an appreciation of mental health and substance abuse as they intersect with the criminal justice system.
4. Develop skills transferable to future professional, community and educational pursuits.
5. Develop an understanding of the effects of race and minority status in the criminal legal system.

ADVISING AND CAREERS

ADVISING AND CAREERS ADVISING APPOINTMENTS

Please Schedule via Starfish (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) with Martine Delannay or Micha Schwab.

If you are not a current UW-Madison student, please email us at cjcp@ssc.wisc.edu to schedule a meeting.

CAREERS

Students who earned the Criminal Justice certificate have secured jobs at law firms, nonprofit organizations, treatment providers, public defender offices, district attorney and prosecutor offices, community corrections providers, social justice agencies, legal clinics, law enforcement agencies, and programs providing services to persons impacted by incarceration.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

Involvement in the Criminal Justice certificate provides a solid educational foundation in criminal legal studies. It introduces students to basic concepts about our legal system and its impact on individuals and society. It encourages a critical exploration of issues facing the legal system today and offers opportunities for an evidence-based investigation into realistic solutions. All students complete an intensive fieldwork/internship/research program with an agency or organization related to the legal system.

LEGAL STUDIES, BA

The Legal Studies major provides a liberal arts education across traditional disciplines, focusing on law, legal processes, legal institutions, and their operation in society. In addition to courses in Legal Studies, students can take a wide range of courses offered by other units, including Sociology (<https://guide.wisc.edu/courses/soc/>), Psychology (<https://guide.wisc.edu/courses/psych/>), Religious Studies (https://guide.wisc.edu/courses/relig_st/), Political Science (https://guide.wisc.edu/courses/poli_sci/), Educational Policy (https://guide.wisc.edu/courses/ed_pol/), African American Studies (<https://guide.wisc.edu/courses/afroamer/>), Philosophy (<https://guide.wisc.edu/courses/philos/>), Gender and Women’s Studies (https://guide.wisc.edu/courses/gen_ws/), American Indian Studies (https://guide.wisc.edu/courses/amer_ind/), Chicana/x & Latinx/e Studies (<https://guide.wisc.edu/courses/chicla/>), English (<https://guide.wisc.edu/courses/engl/>), and History (<https://guide.wisc.edu/courses/history/>).

The curriculum is designed around five themes, each of which is associated with a group of courses, and each of which incorporates comparative and historical approaches.

THEME GROUP 1: LEGAL INSTITUTIONS

Institutions are at the core of social life. They govern our interactions, distribute power and resources, and influence how we make sense of the world. Courses in this theme group focus on those institutions involved in the creation and application of law. They explore such questions as how legal institutions evolve; how legal institutions help determine the shape of law—in doctrine and in action—and how and whether, in turn, legal institutions can be shaped to create different social outcomes. Institutions are central to the studies of society and politics throughout the disciplines, and courses in the group include perspectives from history, anthropology, sociology, political science, and political theory.

THEME GROUP 2: PROCESSES OF LEGAL ORDER AND DISORDER

This theme examines the dynamics of order at the individual and societal levels. In the course of this examination, students are made aware of the political and social biases that can underlie definitions of “order.” This theme should also allow students to address how social and political biases relate to divisions of class, race, and gender, and how the mechanisms of conflict resolution and order maintenance can be used to reinforce or challenge existing power structures.

THEME GROUP 3: LAW AND SOCIAL FORCES

This theme group explores the intersection between law, social structures, and social movements. Courses in this group address social inequality, generally in the U.S. context, grounded in ethnoracial, gender, and sexuality-based difference. At critical points, the struggle for equality has taken pointedly legal form, whether in the shape of campaigns for legislative change or recognition, or through the litigation of particular cases. Legal categories have informed social identities. Equally, changing social identities have pushed back on legal categories. Courses integrate broad social dynamics with the rise of organized social movements that use law as an arena in which to reassess social life and values.

THEME GROUP 4: LAW, LITERATURE, AND CULTURE

This theme group introduces students to legal thought, institutions, and practices beyond mainstream or contemporary legal systems, specifically modern Euro-American legal cultures. Courses in this theme group present either culturally based challenges to mainstream modern legal systems or legal systems that are culturally or historically distinct from them. The comparative study of distinct legal traditions and movements forces us to reexamine the cultural presuppositions embedded in modern legal systems, revealing both good reasons for defending mainstream Euro-American laws and arguments and models for changing or questioning prevailing systems. Courses examine historical developments in or affecting law, non-Western legal thought or traditions, and the effect of cultural institutions such as religion, literature, or media on law.

THEME GROUP 5: LAW AND THEORY

Many theoretical and philosophical questions are articulated as propositions about law: its nature, sources, contents, and relations to other

aspects of social life. While only some philosophers or social, political, or legal theorists work specifically in the area of “legal theory,” almost all work in any of these areas contributes to our understanding of the sources and nature of law, legal institutions, and legal practices, and for many theorists, explicit discussions of law are central elements of their work. Courses in this theme group focus on the ways in which “law” is treated as a working concept or as a subject of study in theoretical works, and conversely on how understandings drawn from theoretical writings inform our own understanding of law in all its dimensions.

HOW TO GET IN

HOW TO GET IN

REQUIREMENTS

UNIVERSITY GENERAL
EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	<ul style="list-style-type: none">• Breadth—Humanities/Literature/Arts: 6 credits• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits• Breadth—Social Studies: 3 credits• Communication Part A & Part B *• Ethnic Studies *• Quantitative Reasoning Part A & Part B *
-------------------	---

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS
& SCIENCE DEGREE
REQUIREMENTS: BACHELOR OF
ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE
REQUIREMENTS

Mathematics	Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.
Language	<ul style="list-style-type: none">• Complete the fourth unit of a language other than English; OR• Complete the third unit of a language and the second unit of an additional language other than English.
L&S Breadth	<ul style="list-style-type: none">• 12 credits of Humanities, which must include 6 credits of literature; and• 12 credits of Social Science; and• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	<ul style="list-style-type: none">• 30 credits in residence, overall; and• 30 credits in residence after the 86th credit.

Quality of Work	• 2.000 in all coursework at UW–Madison
	• 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

12 total courses in the following categories and a minimum of 36 credits.

INTRODUCTORY COURSE

Choose one:

Code	Title	Credits
LEGAL ST/SOC 131	Criminal Justice in America	3-4
LEGAL ST/ POLI SCI 217	Law, Politics and Society	3-4

THEME 1: LEGAL INSTITUTIONS

Two courses required from:

Code	Title	Credits
GEN BUS 301	Business Law	3
GEOG 307	International Migration, Health, and Human Rights	3
INTL ST 601	Topics in Global Security (Topic: Human Rights, Lat. Am Policy)	3
INTL ST 602	Topics in Politics and Policy in the Global Economy (Topic: The EU and the World)	3
LEGAL ST/ HISTORY 261	American Legal History to 1860	3
LEGAL ST/ HISTORY 262	American Legal History, 1860 to the Present	3
LEGAL ST 400	Topics in Legal Studies and the Social Sciences	3-4
LEGAL ST/ GEN&WS/SOC 406	Law, Sexuality, & Society	3-4
LEGAL ST 409	Human Rights in Law and Society	3
LEGAL ST/ ELPA 442	Civil Rights Laws, the Courts, and Public Education	3
LEGAL ST 444	Law in Action	3
LEGAL ST/ POLI SCI 445	Legal Writing, from Counselor to Advocate	3
LEGAL ST 450	Topics in Legal Studies and the Humanities	3-4
LEGAL ST/ED POL/ ELPA 542	Law and Public Education	3
LEGAL ST/LAW/ SOC 641	Sociology of Law	3-4
POLI SCI 304	The Political Economy of Race in the United States	3-4

POLI SCI 311	United States Congress	3-4
POLI SCI 340	The European Union: Politics and Political Economy	3-4
POLI SCI 347	Terrorism	3
POLI SCI 349	Global Access to Justice	3
POLI SCI 354	International Institutions and World Order	3-4
POLI SCI 356	Principles of International Law	3-4
POLI SCI 400	Topics in Political Science (Topic: Int'l Environmental Politics)	3

AFROAMER 621	Slavery and Capitalism in the United States	3
AFROAMER/ GEN&WS 625	Gender, Race and the Civil Rights Movement	3
AFROAMER/ HISTORY 628	History of the Civil Rights Movement in the United States	3
AFROAMER 671	Selected Topics in Afro-American History (Topic: Women & US Slavery)	3
AMER IND 450	Issues in American Indian Studies (Topic: Land Grant/Grab; Topic: Sovereignty and the Schoolhouse)	3
HISTORY/ ED POL 143	History of Race and Inequality in Urban America	3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LEGAL ST and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence¹
- 15 credits in LEGAL ST and courses for the major, taken on campus

HONORS IN THE MAJOR

Students may apply for admission to Honors in the Legal Studies Major in consultation with the Legal Studies undergraduate advisor(s).

HONORS IN THE LEGAL STUDIES MAJOR: ENTRANCE REQUIREMENTS

- Declaration of the legal studies major
- A 3.300 University GPA
- A 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Completion of or current enrollment in, for Honors credit, at least one course accepted in the major

HONORS IN THE LEGAL STUDIES MAJOR: REQUIREMENTS

To earn Honors in the Major in Legal Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Complete the research design and statistics requirements for the regular major prior to enrollment in the Senior Honors Thesis (typically junior year)
- Complete 15 credits in the major, taken for Honors, earning a B or better grade in each course
- Complete a two-semester Senior Honors thesis in LEGAL ST 681 and LEGAL ST 682, for a total of 6 credits.

FOOTNOTES

¹ Upper-level in the major includes all LEGAL ST and major courses that are designated Intermediate or Advanced level.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

- 1. Analyze and articulate their own arguments about how social, political, and cultural phenomena shape law and legal systems.
- 2. Analyze and articulate their own arguments about the social, political, and cultural impacts of law at the societal and individual levels.
- 3. Demonstrate knowledge about how legal ideas and ideologies have changed over time and have shaped law and legal systems.
- 4. Demonstrate their abilities to find, interpret, and utilize resources relevant to law and society.
- 5. Demonstrate their abilities to analyze information, to write clearly and persuasively, and to construct original arguments.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Center for Law, Society, and Justice website (<https://criminaljustice.wisc.edu/declare-the-major/>).

ADVISING APPOINTMENTS

Please Schedule via Starfish (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) with Micha Schwab or Martine Delannay.

If you are not a current UW–Madison student, please email us at cjcp@ssc.wisc.edu to schedule a meeting.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

LEGAL STUDIES, BS

The Legal Studies major provides a liberal arts education across traditional disciplines, focusing on law, legal processes, legal institutions, and their operation in society. In addition to courses in Legal Studies, students can take a wide range of courses offered by other units, including Sociology (<https://guide.wisc.edu/courses/soc/>), Psychology (<https://guide.wisc.edu/courses/psych/>), Religious Studies (https://guide.wisc.edu/courses/relig_st/), Political Science (https://guide.wisc.edu/courses/poli_sci/), Educational Policy (https://guide.wisc.edu/courses/ed_pol/), African American Studies (<https://guide.wisc.edu/courses/afroamer/>), Philosophy (<https://guide.wisc.edu/courses/philos/>), Gender and Women’s Studies (https://guide.wisc.edu/courses/gen_ws/), American Indian Studies (https://guide.wisc.edu/courses/amer_ind/), Chicana/x & Latina/x Studies (<https://guide.wisc.edu/courses/chicla/>), English (<https://guide.wisc.edu/courses/engl/>), and History (<https://guide.wisc.edu/courses/history/>).

The curriculum is designed around five themes, each of which is associated with a group of courses, and each of which incorporates comparative and historical approaches.

THEME GROUP 1: LEGAL INSTITUTIONS

Institutions are at the core of social life. They govern our interactions, distribute power and resources, and influence how we make sense of the world. Courses in this theme group focus on those institutions involved in the creation and application of law. They explore such questions as how legal institutions evolve; how legal institutions help determine the shape of law—in doctrine and in action—and how and whether, in turn, legal institutions can be shaped to create different social outcomes. Institutions are central to the studies of society and politics throughout the disciplines, and courses in the group include perspectives from history, anthropology, sociology, political science, and political theory.

THEME GROUP 2: PROCESSES OF LEGAL ORDER AND DISORDER

This theme examines the dynamics of order at the individual and societal levels. In the course of this examination, students are made aware of the political and social biases that can underlie definitions of “order.” This theme should also allow students to address how social and political biases relate to divisions of class, race, and gender, and how the mechanisms of conflict resolution and order maintenance can be used to reinforce or challenge existing power structures.

THEME GROUP 3: LAW AND SOCIAL FORCES

This theme group explores the intersection between law, social structures, and social movements. Courses in this group address social inequality, generally in the U.S. context, grounded in ethnoracial, gender, and sexuality-based difference. At critical points, the struggle for equality has taken pointedly legal form, whether in the shape of campaigns for legislative change or recognition, or through the litigation of particular cases. Legal categories have informed social identities. Equally, changing social identities have pushed back on legal categories. Courses integrate broad social dynamics with the rise of organized social movements that use law as an arena in which to reassess social life and values.

THEME GROUP 4: LAW, LITERATURE, AND CULTURE

This theme group introduces students to legal thought, institutions, and practices beyond mainstream or contemporary legal systems, specifically modern Euro-American legal cultures. Courses in this theme group present either culturally based challenges to mainstream modern legal systems or legal systems that are culturally or historically distinct from them. The comparative study of distinct legal traditions and movements forces us to reexamine the cultural presuppositions embedded in modern legal systems, revealing both good reasons for defending mainstream Euro-American laws and arguments and models for changing or questioning prevailing systems. Courses examine historical developments in or affecting law, non-Western legal thought or traditions, and the effect of cultural institutions such as religion, literature, or media on law.

THEME GROUP 5: LAW AND THEORY

Many theoretical and philosophical questions are articulated as propositions about law: its nature, sources, contents, and relations to other

aspects of social life. While only some philosophers or social, political, or legal theorists work specifically in the area of “legal theory,” almost all work in any of these areas contributes to our understanding of the sources and nature of law, legal institutions, and legal practices, and for many theorists, explicit discussions of law are central elements of their work. Courses in this theme group focus on the ways in which “law” is treated as a working concept or as a subject of study in theoretical works, and conversely on how understandings drawn from theoretical writings inform our own understanding of law in all its dimensions.

HOW TO GET IN

HOW TO GET IN
REQUIREMENTS TO DECLARE THE MAJOR

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

REQUIREMENTS

UNIVERSITY GENERAL
EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
 - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth—Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS
& SCIENCE DEGREE
REQUIREMENTS: BACHELOR OF
SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE
REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
L&S Breadth	Complete: <ul style="list-style-type: none">• 12 credits of Humanities, which must include at least 6 credits of Literature; and• 12 credits of Social Science; and• 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: <ul style="list-style-type: none">• 30 credits in residence, overall, and• 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none">• 2.000 in all coursework at UW-Madison• 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

12 total courses in the following categories and a minimum of 36 credits.

INTRODUCTORY COURSE

Choose one:

Code	Title	Credits
LEGAL ST/SOC 131	Criminal Justice in America	3-4
LEGAL ST/ POLI SCI 217	Law, Politics and Society	3-4

POLI SCI 356	Principles of International Law	3-4
POLI SCI 400	Topics in Political Science (Topic: Int'l Environmental Politics)	3
POLI SCI 401	Selected Topics in Political Science (Topic: Crime and Politics; Topic: Transitional Justice)	3
POLI SCI 405	State Government and Public Policy	3-4
POLI SCI 408	The American Presidency	3-4
POLI SCI 411	The American Constitution : Powers and Structures of Government	4
POLI SCI 412	The American Constitution: Rights and Civil Liberties	4
POLI SCI 414	The Supreme Court as a Political Institution	3
POLI SCI 417	The American Judicial System	3-4
POLI SCI/ PUB AFFR 419	Administrative Law	3-4
POLI SCI/ INTL ST 434	The Politics of Human Rights	3-4
POLI SCI/ GEN&WS 435	Politics of Gender and Women's Rights in the Middle East	3
POLI SCI/ INTL ST 439	The Comparative Study of Genocide	3-4
POLI SCI 470	The First Amendment	3-4
POLI SCI 538	Proseminar: Topics in Political Science (Topic: Supreme Court)	3-4
POLI SCI 601	Proseminar: Topics in Political Science (Topic: Supreme Court)	3
POLI SCI 635	Comparative Politics of Sport	3-4
PUB AFFR 270	The Private and Public Sectors in Policymaking	3
PUB AFFR 520	Inequality, Race and Public Policy	3

THEME DISTRIBUTION

Four courses from at least three of the following Theme groups.

Theme 2: Processes of Legal Order and Disorder

Code	Title	Credits
COM ARTS 371	Communication and Conflict Resolution	3
HISTORY 344	The Age of the American Revolution, 1763-1789	3-4
INTL ST 601	Topics in Global Security (Topic: International Criminal Justice: Models & Practice)	3
LEGAL ST/L I S 460	Surveillance, Privacy, and Police Powers	3
LEGAL ST/SOC 694	Criminal Justice Field Observation	3
POLI SCI 314	Criminal Law and Justice	3-4
PSYCH 526	The Criminal Mind: Forensic and Psychobiological Perspectives	4
PSYCH 601	Current Topics in Psychology (Topic: Juv Delin; Topic: Issues in Prisoner Re-entry)	3
SOC 421	Processes of Deviant Behavior	3-4

SOC 441	Criminology	3-4
SOC 446	Juvenile Delinquency	3-4
SOC 496	Topics in Sociology (Topic: Serial Killers in America)	3

Theme 3: Law and Social Forces

Code	Title	Credits
AFROAMER 272	Race and American Politics from the New Deal to the New Right	3
AFROAMER/ HISTORY 321	Afro-American History Since 1900	3-4
AFROAMER/ GEN&WS 323	Gender, Race and Class: Women in U.S. History	3
AFROAMER/ GEN&WS 326	Race and Gender in Post-World War II U.S. Society	3
AFROAMER 621	Slavery and Capitalism in the United States	3
AFROAMER/ GEN&WS 625	Gender, Race and the Civil Rights Movement	3
AFROAMER 671	Selected Topics in Afro-American History (Topic: Cim Blkns; Race & Imprison; TopicL Women & US Slavery)	3
AFROAMER 673	Selected Topics in Afro-American Society (*Race and Policing)	3
AMER IND 450	Issues in American Indian Studies (Topic: Indigenous Rights; Topic: Ind Child Welfare; Topic: Land Grant/ Grab; Topic: Sovereignty and the Schoolhouse)	3
ECON 522	Law and Economics	3-4
ED POL/ INTL ST 220	Human Rights and Education	3
ENVIR ST 349	Climate Change Governance	3
ENVIR ST/ GEOG 439	US Environmental Policy and Regulation	3-4
HISTORY/ ED POL 143	History of Race and Inequality in Urban America	3
GEN&WS/ PSYCH 322	Sexual & Relationship Violence Research & Activism	3
GEN&WS/ INTL ST 535	Women's Global Health and Human Rights	3
HISTORY 201	The Historian's Craft (Topic: Global History of Unpaid Labor; Topic: Global History of Human Rights)	3-4
HISTORY/ AFROAMER 393	Slavery, Civil War, and Reconstruction, 1848-1877	3-4
HISTORY 403	Immigration and Assimilation in American History	3-4
HISTORY 500	Reading Seminar in History (*Chinese Law)	3
HISTORY 600	Advanced Seminar in History (Topic: Abolitionist Movements; Gen, War Crimes and Human Rights; Topic: Global Anti-Apartheid Movement; Topic: Indian Removal)	3

HISTORY/ AFROAMER 628	History of the Civil Rights Movement in the United States	3
LEGAL ST/JEWISH/ RELIG ST 203	Jewish Law, Business, and Ethics	3
LEGAL ST/ RP & SE 135	Disability and the Criminal Justice System	3
INTL ST 401	Topics in Global Security (Topic: Human Rights in Global Context)	3-4
INTL ST 601	Topics in Global Security (Topic: Refugees in Global Context)	3
LACIS 440	Topics in Latin American, Caribbean, and Iberian Studies (Topic: Spanish: Immigration Law Clinic)	2
LEGAL ST/CURRIC/ ED POL 250	Incarceration and Education	3
LEGAL ST 400	Topics in Legal Studies and the Social Sciences	3-4
LEGAL ST/ GEN&WS/SOC 406	Law, Sexuality, & Society	3-4
LEGAL ST/GEN&WS 422	Women and the Law	3
LEGAL ST/ GEN&WS/SOC 425	Crime, Gender and Justice	3
LEGAL ST/ ENVIR ST/ HISTORY 430	Law and Environment: Historical and Contemporary Perspectives	3
LEGAL ST/ AFROAMER 435	Civil Rights: Policing, Prisons, Voting, Housing, Employment	3
LEGAL ST/CHICLA/ SOC 440	Ethnicity, Race, and Justice	3-4
LEGAL ST/CHICLA/ SOC 443	Immigration, Crime, and Enforcement	3-4
LEGAL ST 473	Health Impacts of Unmet Social Needs	3
LEGAL ST/L IS 645	Intellectual Freedom	3
LEGAL ST/L IS 663	Introduction to Cyberlaw	3
POLI SCI/ INTL ST 434	The Politics of Human Rights	3-4
PSYCH 401	Psychology, Law, and Social Policy	3
PSYCH 601	Current Topics in Psychology (*Legal Psych)	3
SOC/ASIAN AM 220	Ethnic Movements in the United States	3-4
SOC WORK 375	Contemporary Issues in Social Welfare (Topic: Pwr Poss, SJ and Social Change)	2-3
SOC WORK/ AMER IND 636	Social Work in American Indian Communities: The Indian Child Welfare Act	3
SPANISH/ CHICLA 215	Border and Migration Studies of Latinx America	3

Theme 4: Law, Literature and Culture

Code	Title	Credits
ANTHRO 350	Political Anthropology	3-4
ED POL 150	Education and Public Policy	3

ENGL 174	Literature and Social Justice (*Law and Literature)	3
ENGL 177	Literature and Popular Culture (Topic: Narco-Narratives)	3
ENGL 548	Topic in Literature and Politics (*Guilt)	3
ENGL 182	Introduction to Literature for Honors (Topic: Doing Time)	3
ENGL 457	Topic in American Literature and Culture since 1900 (Topic: Law and Literature; Topic: Cultures of AIDS Activism)	3
HISTORY 201	The Historian's Craft (*Shanghai Life)	3-4
HISTORY 500	Reading Seminar in History (*Chinese Law)	3
ILS 371	Interdisciplinary Studies in the Arts and Literature (*Books by Crooks)	3
LEGAL ST/ ENGL 160	Truth and Crime	3
LEGAL ST/ HISTORY 477	History of Forensic Science	3
LEGAL ST/ HISTORY 510	Legal Pluralism	3
LITTRANS 236	Bascom Course-In Translation (*Extreme Stories)	3

Theme 5: Law and Theory

Code	Title	Credits
HISTORY/ LEGAL ST 476	Medieval Law and Society	3
HISTORY 500	Reading Seminar in History (Topic: Medieval Law and Society)	3
LEGAL ST/ HISTORY 235	Prisons: From Antiquity to Supermax	3-4
LEGAL ST 407	Jurisprudence and Social Issues	3
LEGAL ST/HISTORY 426	The History of Punishment	3-4
LEGAL ST/ HISTORY 459	Rule of Law: Philosophical and Historical Models	3-4
JOURN 563	Law of Mass Communication	4
MED HIST/ PHILOS 558	Ethical Issues in Health Care	3
PHILOS 304	Topics in Philosophy: Humanities (Philos and Criminal Punishment)	3-4
PHILOS 341	Contemporary Moral Issues	3-4
PHILOS/C&E SOC/ MED HIST 565	The Ethics of Modern Biotechnology	3

METHODS AND RESEARCH

Two courses, one each from:

Code	Title	Credits
Research Design		
POLI SCI 170	Research Methods in Political Science	

ED POL 308	Introduction to Qualitative Research Methods in Education
POLI SCI/ JOURN/ URB R PL 373	Introduction to Survey Research
PSYCH 225	Research Methods
PUB AFFR 240	Evidence-Based Policy Making
PUB AFFR 380	Analytic Tools for Public Policy
SOC/ C&E SOC 357	Methods of Sociological Inquiry
SOC WORK 650	Methods of Social Work Research
Statistics	
ECON 310	Statistics: Measurement in Economics
ED POL 209	Introduction to Quantitative Methods in Education Policy
GEN BUS 306	Business Analytics I
L I S 440	Navigating the Data Revolution: Concepts of Data & Information Science
PSYCH 210	Basic Statistics for Psychology
SOC/ C&E SOC 360	Statistics for Sociologists I
STAT 301	Introduction to Statistical Methods
STAT 371	Introductory Applied Statistics for the Life Sciences

CORE PERSPECTIVES

Please note: Though some courses may appear in a Theme and the Core Perspective listing, a single course will only satisfy one (and only one) requirement. Courses will not be double counted in the Theme section and the Core Perspectives section.

Code	Title	Credits
Complete one Core Perspectives course.		
LEGAL ST/ HISTORY 235	Prisons: From Antiquity to Supermax	
LEGAL ST/ HISTORY 261	American Legal History to 1860	
LEGAL ST/ HISTORY 262	American Legal History, 1860 to the Present	
LEGAL ST 400	Topics in Legal Studies and the Social Sciences	
LEGAL ST/ GEN&WS/ SOC 406	Law, Sexuality, & Society	
LEGAL ST 407	Jurisprudence and Social Issues	
LEGAL ST 409	Human Rights in Law and Society	
LEGAL ST/ GEN&WS/ SOC 425	Crime, Gender and Justice	
LEGAL ST/ HISTORY 426	The History of Punishment	
LEGAL ST/ ENVIR ST/ HISTORY 430	Law and Environment: Historical and Contemporary Perspectives	

LEGAL ST/ AFROAMER 435	Civil Rights: Policing, Prisons, Voting, Housing, Employment
LEGAL ST/ CHICLA/ SOC 440	Ethnicity, Race, and Justice
LEGAL ST/ CHICLA/ SOC 443	Immigration, Crime, and Enforcement
LEGAL ST 450	Topics in Legal Studies and the Humanities
LEGAL ST/ HISTORY 459	Rule of Law: Philosophical and Historical Models
LEGAL ST/ L I S 460	Surveillance, Privacy, and Police Powers
LEGAL ST/ HISTORY 476	Medieval Law and Society
LEGAL ST/ HISTORY 477	History of Forensic Science
LEGAL ST/ HISTORY 510	Legal Pluralism
LEGAL ST 600	Special Topics in Legal Studies
LEGAL ST/SOC 641	Sociology of Law

Electives

Complete at least two courses and any additional credits (as needed) to reach 36 credits in the major. Students may complete either a Senior Thesis sequence or additional courses from the Theme: Legal Institutions or Theme Distribution requirements for the two course minimum.

LEGAL ST 681 & LEGAL ST 682	Senior Honors Thesis and Senior Honors Thesis
LEGAL ST 691 & LEGAL ST 692	Senior Thesis and Senior Thesis
POLI SCI 681 & POLI SCI 682	Senior Honors Thesis and Senior Honors Thesis

GLOBAL LEGAL SYSTEMS

At least two courses in the major must have substantial content dealing with countries or cultures outside the United States, or with the international legal system. For this requirement, a course can count both for purposes of meeting Theme or Core requirements and the Global Legal Systems requirement. The following courses fulfill the Global Legal Systems requirement:

Code	Title	Credits
ANTHRO 350	Political Anthropology	3-4
ENGL 174	Literature and Social Justice (*Law and Literature)	3
ENGL 457	Topic in American Literature and Culture since 1900 (Topic: Law and Literature)	3
ENGL 548	Topic in Literature and Politics (*Guilt)	3
GEN&WS/ INTL ST 535	Women's Global Health and Human Rights	3
GEOG 307	International Migration, Health, and Human Rights	3

HISTORY 201	The Historian's Craft (Topic: Shanghai Life and Crime; Topic: Global History of Unpaid Labor; Topic: Global History of Human Rights)	3-4
HISTORY 500	Reading Seminar in History (Topic: Chinese Law)	3
HISTORY 600	Advanced Seminar in History (Topic: Global Anti-Apartheid Movement)	3
INTL ST 401	Topics in Global Security (Topic: Human Rights in Global Context)	3-4
INTL ST 601	Topics in Global Security (Topic: International Criminal Justice; Topic: Human Rights, Lat Am Policy; Topic: Refugees in Global Context)	3
INTL ST 602	Topics in Politics and Policy in the Global Economy (Topic: The EU and the World)	3
LACIS 440	Topics in Latin American, Caribbean, and Iberian Studies (Topic: Spanish: Immigration Law Clinic)	2
LEGAL ST/JEWISH/ RELIG ST 203	Jewish Law, Business, and Ethics	3
LEGAL ST/ HISTORY 235	Prisons: From Antiquity to Supermax	3-4
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Topic: Law and Climate Justice)	3
LEGAL ST/ GEN&WS/SOC 406	Law, Sexuality, & Society	3-4
LEGAL ST 409	Human Rights in Law and Society	3
LEGAL ST/SOC 425	Crime, Gender and Justice	3
LEGAL ST/HISTORY 426	The History of Punishment	3-4
LEGAL ST/ ENVIR ST/ HISTORY 430	Law and Environment: Historical and Contemporary Perspectives	3
LEGAL ST 450	Topics in Legal Studies and the Humanities (Topic: Criminal Justice and Popular Culture)	3-4
LEGAL ST 450	Topics in Legal Studies and the Humanities (Courts, Constitutionalism and Human Rights)	3-4
LEGAL ST/ HISTORY 459	Rule of Law: Philosophical and Historical Models	3-4
LEGAL ST/ HISTORY 476	Medieval Law and Society	3
LEGAL ST/ HISTORY 477	History of Forensic Science	3
LEGAL ST/HISTORY 510	Legal Pluralism	3
LEGAL ST 600	Special Topics in Legal Studies	1-3
LITTRANS 236	Bascom Course-In Translation (Topic: Extreme Stories)	3
LITTRANS 324/ SCAND ST 436	Topics in Scandinavian Literature (Topic: Criminal Utopias)	3-4

POLI SCI 340	The European Union: Politics and Political Economy	3-4
POLI SCI 347	Terrorism	3
POLI SCI 349	Global Access to Justice	3
POLI SCI 354	International Institutions and World Order	3-4
POLI SCI 356	Principles of International Law	3-4
POLI SCI 400	Topics in Political Science (Topic: Int'l Environmental Politics)	3
POLI SCI 401	Selected Topics in Political Science (Topic: Global Access to Justice; Topic: Transitional Justice)	3-4
POLI SCI/INTL ST 434	The Politics of Human Rights	3-4
POLI SCI/GEN&WS 435	Politics of Gender and Women's Rights in the Middle East	3
POLI SCI/INTL ST 439	The Comparative Study of Genocide	3-4
POLI SCI 635	Comparative Politics of Sport	3-4
SPANISH/CHICLA 215	Border and Migration Studies of Latinx America	3

RACE AND JUSTICE STUDIES

At least one course in the major must have substantial content dealing with race and justice studies. The following courses fulfill the Race and Justice Studies requirement. For this requirement, a course can count both for purposes of meeting Theme or Core requirements and the Race and Justice Studies requirement.

Code	Title	Credits
AFROAMER 272	Race and American Politics from the New Deal to the New Right	3
AFROAMER/HISTORY 321	Afro-American History Since 1900	3-4
AFROAMER/GEN&WS 323	Gender, Race and Class: Women in U.S. History	3
AFROAMER/GEN&WS 326	Race and Gender in Post-World War II U.S. Society	3
AFROAMER 621	Slavery and Capitalism in the United States	3
AFROAMER/GEN&WS 625	Gender, Race and the Civil Rights Movement	3
AFROAMER/HISTORY 628	History of the Civil Rights Movement in the United States	3
AFROAMER 671	Selected Topics in Afro-American History (Topic: Women & US Slavery)	3
AMER IND 450	Issues in American Indian Studies (Topic: Land Grant/Grab; Topic: Sovereignty and the Schoolhouse)	3
HISTORY/ED POL 143	History of Race and Inequality in Urban America	3
HISTORY/AFROAMER 393	Slavery, Civil War, and Reconstruction, 1848-1877	3-4
HISTORY 403	Immigration and Assimilation in American History	3-4

LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Topic: Criminal Injustice in America)	3-4
LEGAL ST/AFROAMER 435	Civil Rights: Policing, Prisons, Voting, Housing, Employment	3
LEGAL ST/CHICLA/SOC 440	Ethnicity, Race, and Justice	3-4
LEGAL ST/CHICLA/SOC 443	Immigration, Crime, and Enforcement	3-4
PUB AFFR 520	Inequality, Race and Public Policy	3
SOC/ASIAN AM 220	Ethnic Movements in the United States	3-4

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LEGAL ST and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence¹
- 15 credits in LEGAL ST and courses for the major, taken on campus

HONORS IN THE MAJOR

Students may apply for admission to Honors in the Legal Studies Major in consultation with the Legal Studies undergraduate advisor(s).

HONORS IN THE LEGAL STUDIES MAJOR: ENTRANCE REQUIREMENTS

- Declaration of the legal studies major
- A 3.300 University GPA
- A 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Completion of or current enrollment in, for Honors credit, at least one course accepted in the major

HONORS IN THE LEGAL STUDIES MAJOR: REQUIREMENTS

To earn Honors in the Major in Legal Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Complete the research design and statistics requirements for the regular major prior to enrollment in the Senior Honors Thesis (typically junior year)
- Complete 15 credits in the major, taken for Honors, earning a B or better grade in each course
- Complete a two-semester Senior Honors thesis in LEGAL ST 681 and LEGAL ST 682, for a total of 6 credits.

FOOTNOTES

¹ Upper-level in the major includes all LEGAL ST and major courses that are designated Intermediate or Advanced level.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

- 1. Analyze and articulate their own arguments about how social, political, and cultural phenomena shape law and legal systems.
- 2. Analyze and articulate their own arguments about the social, political, and cultural impacts of law at the societal and individual levels.
- 3. Demonstrate knowledge about how legal ideas and ideologies have changed over time and have shaped law and legal systems.
- 4. Demonstrate their abilities to find, interpret, and utilize resources relevant to law and society.
- 5. Demonstrate their abilities to analyze information, to write clearly and persuasively, and to construct original arguments.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year		
Fall	Credits Spring	Credits
Communication A (complete during the first year)	3 Ethnic Studies (complete within first 60 credits)	3

Quantitative Reasoning A (complete during the first year)	3 Humanities Breadth	3
Language (if needed)	3-4 Biological Science Breadth	3
LEGAL ST/SOC 131 or 217	3-4 I/A COMP SCI, MATH, or STAT (if required for the BS)	3-4
First-Year Seminar (optional)	1 Electives	3
	13	15

Second Year		
Fall	Credits Spring	Credits
Legal Studies Theme Course	3 Legal Studies Theme Course	3
Literature Breadth	3 Communication B	3-4
Statistics (also satisfies Quantitative Reasoning B)	3-4 Research Design requirement	3-4
Science Breadth	3 Physical Science Breadth	3
Elective	3 Elective	3
	15	15

Third Year		
Fall	Credits Spring	Credits
Legal Studies Theme Course	4 Legal Studies Theme Course	4
Global Legal Studies Course	3 Global Legal Studies Course	3
Literature Breadth	3 Humanities Breadth	3
Race and Justice Legal Studies Course	3 Elective (Intermediate/Advanced level)	6
Science Breadth	3	
	16	16

Fourth Year		
Fall	Credits Spring	Credits
Additional Theme Course or First Semester Senior Thesis	3 Additional Theme Course or Second Semester Senior Thesis	3
Core Perspectives Course	3 Elective (Intermediate/Advanced level)	12
Elective (Intermediate/Advanced level)	9	
	15	15

Total Credits 120

ADVISING AND CAREERS

ADVISING AND CAREERS
DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Center for Law, Society, and Justice website (<https://criminaljustice.wisc.edu/declare-the-major/>).

ADVISING APPOINTMENTS

Please Schedule via Starfish (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) with Micha Schwab or Martine Delannay.

If you are not a current UW–Madison student, please email us at cjcp@ssc.wisc.edu to schedule a meeting.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

CHEMISTRY

The mission of the Department of Chemistry is to conduct world-class, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. The department's leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, and nanotechnology. The Department of Chemistry prides itself on its highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The chemistry major is part of either the Bachelor of Science or a Bachelor of Arts degree awarded by the College of Letters & Science. The curriculum provides excellent preparation in chemistry, along with a wide breadth of liberal arts coursework. At the same time, the program provides significant opportunities for students to participate in scientific inquiry, within both laboratory courses and research laboratories. Students from other colleges within the university may pursue the chemistry major as an additional major. When pursuing a chemistry major, the undergraduate student must meet university general education requirements and breadth requirements of their own college, along with the specific requirements for the chemistry major.

The chemistry major provides students with the critical thinking and problem-solving skills necessary to be successful in a wide variety of careers in the chemical industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, food, etc.), as well as environmental, pharmaceutical, and other health-related sciences. Students are also well-prepared for graduate-level work in chemistry,

chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are often able to obtain funding for their graduate work through teaching or research assistantships and fellowships. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. Chemistry students have also been successful in a variety of professional programs where they have studied medicine, pharmacy, dentistry, veterinary medicine, business, or law.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Chemistry, BA (p. 568)
- Chemistry, BS (p. 574)

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

ACADEMIC RESOURCES

A number of resources are available to students seeking assistance with their chemistry courses. Students are strongly encouraged to attend instructor and TA office hours or the Help Desk for the course.

The Chemistry Learning Center (CLC) (<https://clc.chem.wisc.edu/>) supports students in introductory chemistry courses (CHEM 103, CHEM 104, and CHEM 108) and in some sections of organic chemistry. The center welcomes as many students as possible but unfortunately does not have sufficient resources to support all students seeking help. The center is funded to work with specific groups of students, such as first-generation low-income students, underrepresented students, students on academic probation, students with disabilities, students who have trouble understanding English, new transfer students, recently returning veterans, and students at risk of failing the course. These are general guidelines and the center considers each student seeking assistance on a case-by-case basis, taking into account available program space. Program eligibility is usually determined by an interview with a staff member.

Further assistance may be sought from various tutoring services on campus, including the Greater University Tutoring Services (GUTS) (<http://www.guts.wisc.edu/>), University Housing Tutoring (<https://www.housing.wisc.edu/undergraduate/experience/academics/#tutoring>), and the College of Engineering Undergraduate Learning Center (ULC) (<https://www.engr.wisc.edu/academics/student-services/ulc/>). Alpha Chi Sigma (AXS) (<http://alphachisigmauw.com/>) is a co-ed professional chemistry fraternity that also offers tutoring. For students seeking more individualized tutoring, the Department of Chemistry maintains a list of private tutors (<https://chem.wisc.edu/academic-support/>) available for hire.

SCHOLARSHIPS

Through the generosity of alumni and other friends of the department, the Department of Chemistry is able to offer scholarships and summer research support. In 2024, the department awarded more than 40 scholarships totaling over \$197,000.

Any student who is a chemistry major or is conducting research with a chemistry faculty member is eligible to apply for the scholarships. Awards are based on both merit and financial need. Students may apply for academic year scholarships and/or summer research support. Learn more about chemistry scholarships (<https://chem.wisc.edu/scholarships-fellowships-awards/>) and how to apply.

CHEMISTRY, BA

The mission of the Department of Chemistry is to conduct world-class, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. The department's leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, and nanotechnology. The Department of Chemistry prides itself on its highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The chemistry major is part of either the Bachelor of Science or a Bachelor of Arts degree awarded by the College of Letters & Science. The curriculum provides excellent preparation in chemistry, along with a wide breadth of liberal arts coursework. At the same time, the program provides significant opportunities for students to participate in scientific inquiry, within both laboratory courses and research laboratories. Students from other colleges within the university may pursue the chemistry major as an additional major. When pursuing a chemistry major, the undergraduate student must meet university general education requirements and breadth requirements of their own college, along with the specific requirements for the chemistry major.

The chemistry major provides students with the critical thinking and problem-solving skills necessary to be successful in a wide variety of careers in the chemical industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, food, etc.), as well as environmental, pharmaceutical, and other health-related sciences. Students are also well-prepared for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are often able to obtain funding for their graduate work through teaching or research assistantships and fellowships. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. Chemistry students have also been successful in a variety of professional programs where they have studied medicine, pharmacy, dentistry, veterinary medicine, business, or law.

HOW TO GET IN

HOW TO GET IN

Students may declare the chemistry major after they have completed General Chemistry (CHEM 104, CHEM 109, or CHEM 116). Transfer students may declare in their first semester at UW-Madison, if they have transfer credit for one of these courses. Students should schedule an appointment with the undergraduate chemistry advisor to declare and develop a course plan toward graduation. To better inform their decision, undecided students who are exploring chemistry along with other majors are encouraged to take an additional chemistry course or two beyond General Chemistry before declaring. Any student interested in chemistry

is welcome to schedule an appointment (<https://www.chem.wisc.edu/content/undergraduate-advising/>) with the advisor to further explore the major.

Students are advised to declare the major no later than the end of their second year. There are many advantages to declaring the chemistry major early, including access to chemistry advising, scholarships available to only majors, and announcements relevant to students studying the chemical sciences. Chemistry majors and chemistry undergraduate researchers also have access to the Undergraduate Study Lounge in the North Tower of the Chemistry building, a space designated specifically for their use. Students who have declared the major become a part of our chemistry community, enabling them to better connect with faculty, staff, and other chemistry majors.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

Language

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

L&S Breadth

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced work Complete at least 60 credits at the intermediate or advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW-Madison Experience

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

Quality of Work

- 2,000 in all coursework at UW-Madison
- 2,000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

MATH & PHYSICS

Code	Title	Credits
Mathematics (1 course)		4
MATH 222	Calculus and Analytic Geometry 2	
Physics		10
<i>First Introductory Course (1 course)</i>		
PHYSICS 207	General Physics	
PHYSICS 201	General Physics	
PHYSICS 247	A Modern Introduction to Physics	
<i>Second Introductory Course (1 course)</i>		
PHYSICS 208	General Physics	
PHYSICS 202	General Physics	

PHYSICS 248 A Modern Introduction to Physics

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CHEM and major courses
- 2.000 GPA in at least 15 upper-level credits in the major in residence. Upper-level work includes CHEM 346, CHEM/ M S & E 421, CHEM/CBE 505, CHEM 509, CHEM 511, CHEM 512, CHEM 524, CHEM 547, CHEM 555, CHEM 561, CHEM 562, CHEM 563, CHEM 564, CHEM 575, CHEM 605, CHEM 629, CHEM 654, CHEM 665, CHEM 681, CHEM 682, CHEM 691, CHEM 692, CHEM 699, BIOCHEM 501, BIOCHEM 507, BIOCHEM 508, BIOCHEM/NUTR SCI 510, BIOCHEM 625, BIOCHEM 681, BIOCHEM 682, BIOCHEM 691, CHEM 692, BIOCHEM 699, CBE 310, CBE 440, CBE 540, CBE 547, CBE 599, and M S & E 330.
- 15 credits in CHEM, taken on the UW-Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Chemistry Major in consultation with the chemistry major advisor (<https://www.chem.wisc.edu/content/undergraduate-advising/>). To be admitted to the Honors Program in Chemistry, students must have declared a major in chemistry and achieved a 3.200 overall GPA. They must also have achieved a 3.200 GPA in all CHEM courses taken and courses accepted for the major.

HONORS IN THE CHEMISTRY MAJOR REQUIREMENTS

To earn Honors in the Major in Chemistry, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all CHEM courses and all major courses
- Complete an additional 3 credits, for a total of 8 credits, of advanced non-laboratory work. This requirement is met by the same credits and courses that are accepted for "Advanced Non-laboratory Work" in the regular major.
- Complete a two-semester Senior Honors Thesis in CHEM 681 Senior Honors Thesis and CHEM 682 Senior Honors Thesis, for a total of 6 credits.

FOOTNOTES

- ¹ Enrollment in CHEM 115 and CHEM 116 is by invitation only. Entering first-year students are invited to apply. Candidates are selected based on their high school record, placement test scores, and application responses.
- ² CHEM 343 must be taken first, followed by CHEM 345. CHEM 344 may be taken concurrently with or after CHEM 345.
- ³ One credit from CHEM 116 counts towards the required 5 credits of Advanced Non-laboratory Coursework.
- ⁴ Only 2 of the 3 credits from CHEM 524 count towards Advanced Non-laboratory Coursework. The remaining 1 credit counts towards the Additional Laboratory Work requirement.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Identify, formulate and solve integrative problems using appropriate information and approaches.

2. Demonstrate an understanding of basic chemical transformations, including the ability to predict chemical reactivity and properties.
3. Recognize the relationship between structure, bonding and the properties of molecules and materials.
4. Model chemical systems and experimental data using relevant quantitative, mathematical and computational methods.
5. Design, conduct and analyze experiments safely and successfully.
6. Locate, evaluate and use information in the chemical literature.
7. Communicate chemical knowledge effectively through written reports, oral presentations and visual aids.
8. Work collaboratively with others, both chemists and those from other disciplines, to solve problems and create new knowledge.
9. Recognize how chemistry relates to contemporary issues in our society.
10. Understand professional and ethical responsibility.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits Spring	Credits
CHEM 109 or 103 ¹	4-5 300-level Chemistry course OR	3-5
MATH 221	5 CHEM 104 (if needed) ²	
Communications A (complete during first year)	3 MATH 222	4
Foreign Language (if required)	4 Ethnic Studies	3
	L&S Breadth	3
	16	15

Second Year

Fall	Credits Spring	Credits
CHEM 343 ³	3 CHEM 345	3
PHYSICS 207	5 CHEM 344	2
L&S Breadth	3 PHYSICS 208	5
Communications B (consult with advisor about timing) ⁴	3-4 Research (optional) ⁵	1-3
	L&S Breadth	3
	15	15

Third Year

Fall	Credits Spring	Credits
CHEM 329 ⁶	4 Physical Chemistry Part I ⁷	3-4
MATH 234 (recommended, but not required))	4 CHEM 311	4
Research (optional) ⁵	1-3 Advanced Non-laboratory Coursework ⁸	3
L&S Breadth	3 Research (optional) ⁵	1-3
INTER-LS 210 (optional)	1 L&S Breadth	3
	14	15

Fall	Credits Spring	Credits
CHEM 562	3 CHEM 564	1
CHEM 563	1 Research or other Additional Lab Work ¹⁰	1-3
Research or other Additional Lab Work ⁹	1-3 Advanced Non-laboratory Coursework (if needed)	3
Advanced Non-laboratory Coursework	3 L&S Breadth	3
L&S Breadth	3 L&S Breadth	3
L&S Breadth	3 Elective ¹¹	3
	15	15

Total Credits 120

¹ CHEM 103 General Chemistry I/CHEM 104 General Chemistry II is a two-semester sequence in General Chemistry. Students with a strong high school chemistry background (usually two years) and placement into at least first semester calculus are eligible for CHEM 109 Advanced General Chemistry. CHEM 109 is an advanced, fast-paced option that covers General Chemistry in one semester. CHEM 109 is offered only in the fall semesters and an honors level section is available. An additional option is the CHEM 115 Chemical Principles I/CHEM 116 Chemical Principles II sequence, which is a small honors sequence for exceptionally well-prepared students. Enrollment in this sequence is by invitation only, and the two courses cover both general and analytical chemistry.

² Students who took CHEM 109 in their first semester will not need CHEM 104. Instead, they may proceed to the next level of chemistry courses sooner by taking CHEM 311 Chemistry Across the Periodic Table or CHEM 329 Fundamentals of Analytical Science or CHEM 343 Organic Chemistry I in the second semester of their first year. In this case, some subsequent chemistry courses may also be taken sooner than shown in this plan.

³ Students must declare a major by the time they reach 86 credits. Students interested in chemistry may declare the major after completing general chemistry (CHEM 104, CHEM 109, or CHEM 116).

⁴ Communications B can be satisfied later through a chemistry course, CHEM 346 Intermediate Organic Chemistry Laboratory, if taken for 2 credits. CHEM 346 will also count towards additional lab work needed for the chemistry major.

⁵ Research can be taken for credit by enrolling in CHEM 299 Directed Study (for students with less than 54 earned credits) or CHEM 699 Directed Study (for students with 54 or more earned credits). CHEM 299 does not satisfy additional lab credits required for the major, while CHEM 699 does. Alternatively, research may be conducted as a

volunteer or for pay. Students must search for and be accepted into a research group before beginning research.

- ⁶ According to L&S policy, students must complete at least 60 credits at the intermediate or advanced level.
- ⁷ Options include CHEM 561 Physical Chemistry I, CHEM 665 Biophysical Chemistry, CBE 310 Chemical Process Thermodynamics (only for students also majoring in Chemical & Biological Engineering), and M S & E 330 Thermodynamics of Materials (only for students also majoring in Materials Science & Engineering).
- ⁸ Five advanced non-laboratory credits are required for the major. Please see the Requirements tab in the Guide for a list of courses that count towards this requirement.
- ⁹ Three credits of additional lab work are required for the major. These credits can be satisfied by research (CHEM 699, for example) or by courses. Please see the Requirements tab in the Guide for a complete list of options. CHEM 346 is one option, and when taken for 2 credits also satisfies Comm-B. CHEM 346 is only offered in fall semester, with most students taking it in their fourth year. Students not planning to take CHEM 346 should plan to take their Comm-B earlier through one of their other required breadth courses.
- ¹⁰ CHEM 524 Chemical Instrumentation and CHEM 512 Advanced Synthesis and Laboratory Techniques are options that are only offered in the spring semesters. CHEM 524 (3 credits) satisfies 1 additional lab work credit and 2 advanced non-laboratory credits.
- ¹¹ Please refer to the Requirements tab in Guide for additional College of Letters & Science Breadth and Degree requirements as well as Residence and Quality of Work requirements for the major.

section provides additional advisory information about course selection and sequencing.

- In addition to MATH 222 Calculus and Analytic Geometry 2, it is highly recommended that students also take MATH 234 Calculus--Functions of Several Variables and MATH 320 Linear Algebra and Differential Equations. The extra math is especially helpful to students when they take the required physical chemistry courses.
- PHYSICS 207 General Physics + PHYSICS 208 General Physics is the preferred physics sequence for most students in the chemistry major; PHYSICS 201 General Physics / PHYSICS 202 General Physics is recommended for engineering students. PHYSICS 247 A Modern Introduction to Physics + PHYSICS 248 A Modern Introduction to Physics is intended for students considering a major in Physics (p. 1219), Astronomy-Physics (p. 489), or a Bachelor of Science, Applied Mathematics, Engineering, and Physics (p. 1098).
- Students in the chemistry major are strongly encouraged to take either CHEM 329 Fundamentals of Analytical Science or CHEM 116 Chemical Principles II (as opposed to CHEM 327 Fundamentals of Analytical Science) to satisfy their analytical chemistry requirement, because research is an integral part of these two courses. Both CHEM 329 and CHEM 116 come with honors credit, but students do not need to be part of an honors program to enroll.
- Most students take CHEM 561 Physical Chemistry I or CHEM 665 Biophysical Chemistry for Physical Chemistry Part 1. Students also majoring in Chemical Engineering (p. 268) take CBE 310 Chemical Process Thermodynamics instead. M S & E 330 Thermodynamics of Materials is recommended only for students also majoring in Materials Science and Engineering (p. 326).
- It is recommended that CHEM 563 Physical Chemistry Laboratory I be taken after Physical Chemistry Part I and that CHEM 564 Physical Chemistry Laboratory II be taken after CHEM 562 Physical Chemistry II. Especially strong students needing to complete physical chemistry in two semesters may take CHEM 563 concurrently with CHEM 561 Physical Chemistry I (or CHEM 665 Biophysical Chemistry) and CHEM 564 concurrently with CHEM 562.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

The chemistry advisor provides advising for chemistry majors and prospective chemistry majors. Both appointments and drop-in hours are available. See Undergraduate Advising (<https://www.chem.wisc.edu/undergraduate-advising/>) on the Department of Chemistry website for more details.

The chemistry website also provides information about introductory chemistry courses (<https://chem.wisc.edu/introductory-chemistry-courses-and-placement/>) and placement for continuing and new undergraduate students (<https://chem.wisc.edu/new-undergraduate-students/>) interested in taking a chemistry course. Students with enrollment and course access questions should visit the enrollment inquiries (<https://chem.wisc.edu/enrollment-inquiries/>) page. If further assistance is needed, students may visit the Undergraduate Chemistry Office (room 1351 Chemistry) during normal business hours, email (undergrad@chem.wisc.edu), or call 608-263-2424.

Chemistry majors interested in getting involved in research should explore the undergraduate research (<https://undergradresearch.chem.wisc.edu/>) pages on the chemistry website. Students needing additional information may contact the undergraduate research director by email (chem_ugr_research@chem.wisc.edu).

COURSE SELECTION AND SEQUENCING

The Requirements (<https://guide.wisc.edu/undergraduate/letters-science/chemistry/chemistry-bs/#requirementstext>) page provides the minimum requirements necessary for completing the chemistry major. This

CAREER SERVICES

The chemistry major prepares graduates for a wide variety of careers in the chemical and related industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, and food), as well as environmental, pharmaceutical, and other health-related sciences. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. The major prepares students for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are able to obtain funding for graduate studies in chemistry and related sciences through teaching or research assistantships and fellowships. Some chemistry graduates go on to professional schools to study medicine, pharmacy, dentistry, veterinary medicine, business, or law.

Current career, research, and internship opportunities of specific interest to chemistry students can be found on the Career Services (<https://chem.wisc.edu/career-services/>) pages of the chemistry website.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE RESEARCH

There are many research opportunities for undergraduates in the Department of Chemistry. When conducting research, students will have the opportunity to work alongside world-class faculty, staff, and graduate students to gain hands-on research experiences that will supplement their liberal arts education and prepare students for future careers. We have researchers involved in all the core areas of chemistry: analytical, chemical biology, chemical education, inorganic, materials, organic, physical, and theoretical. Many of our researchers conduct research across disciplines, including medicine, pharmacy, biology, engineering, energy, environmental sciences, and physics. Although preference is given to chemistry majors in good academic standing, any student interested in conducting chemistry research can seek out opportunities in our department. Students have the option of volunteering in a research lab or conducting research for course credit by enrolling in CHEM 299 Directed Study, CHEM 699 Directed Study, CHEM 681/CHEM 682 Senior Honors Thesis, or CHEM 691/CHEM 692 Senior Thesis. Students can also gain research experiences through the elective courses CHEM 260 Entering Research I, CHEM 346 Intermediate Organic Chemistry Laboratory, and CHEM 512 Advanced Synthesis and Laboratory Techniques as well as the required course CHEM 329 Fundamentals of Analytical Science. In some cases, experienced undergraduates may be paid to conduct research. For additional information about undergraduate research, including how to get involved, please visit the department's Undergraduate Research (<https://undergradresearch.chem.wisc.edu/>) page.

STUDENT ORGANIZATIONS

A number of student organizations are available for students interested in the chemical sciences.

- Alpha Chi Sigma (AXS) (<http://alphachisigmauw.com/>) is a national, co-ed, professional chemistry organization that was founded at UW-Madison in 1902. The UW-Madison chapter has an active membership of about 40 students, both graduate and undergraduate. The organization also has two houses, at 619 and 621 North Lake Street,

which house nearly half of the members. The houses are the primary locations for events like tutoring, chapter dinners, meetings, and social events.

- The UW-Madison student chapter of NOBCCChE (<https://chem.wisc.edu/nobccche/>) (National Organization for the Professional Advancement of Black Chemists and Chemical Engineers) seeks to encourage students of color to pursue graduate and professional degrees in chemistry, chemical engineering, and other chemistry-related fields. Members participate in professional development through national conference presentations, networking, and community service activities.
- SACNAS (<https://win.wisc.edu/organization/sacnas/>) (the Society for the Advancement of Hispanics/Chicanos and Native Americans) is a society of scientists dedicated to fostering the success of Hispanic/Chicano and Native American scientists – from college students to professionals—to attain advanced degrees, careers, and positions of leadership in science.

CERTIFICATION/LICENSURE

CERTIFICATION/LICENSURE ACS CERTIFIED DEGREE

The UW-Madison Department of Chemistry is approved by the American Chemical Society (ACS) to certify the degrees of graduating students who have completed the curriculum and professional training recommended by ACS for chemistry bachelor's degree graduates. Certification indicates that the student has completed rigorous course work that provides them with the skills needed for a successful career in science.

Students graduating with the chemistry major from UW-Madison already meet most of the requirements for ACS certification. They can obtain the certification by electing to take specific courses that satisfy both the requirements of the major and the ACS guidelines. Additional requirements for certification are:

- A course in biochemistry, satisfied by BIOCHEM 501 Introduction to Biochemistry or BIOCHEM 507 General Biochemistry I (3 credits). A course in chemical biology will also satisfy this requirement. For example, CHEM 575 Advanced Topics in Chemistry is often offered in the spring semesters with the topic "Chemical Biology" and will satisfy this requirement.
- At least 375 total laboratory hours, which can be satisfied by the combination of all the required core laboratory courses (in organic, inorganic, analytical and physical chemistry) plus one laboratory credit from any of the following courses: CHEM 346 Intermediate Organic Chemistry Laboratory, CHEM 512 Advanced Synthesis and Laboratory Techniques, CHEM 524 Chemical Instrumentation (3 credit course, but only one credit is a lab credit), CHEM 681/CHEM 682 Senior Honors Thesis, or CHEM 691/ CHEM 692 Senior Thesis.

The biochemistry course satisfies three of the five credits of advanced non-laboratory work required for the chemistry major, while two credits from CHEM 524 also count towards the advanced work. CHEM 346, CHEM 512, 1 credit of CHEM 524, CHEM 681/CHEM 682, and CHEM 691/CHEM 692 all count towards the three additional lab credits required for the major.

Note that neither CHEM 299 Directed Study nor CHEM 699 Directed Study can be used to satisfy the lab hours needed for ACS certification.

However, CHEM 699 can be used to satisfy additional lab credits needed for the chemistry major.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (<https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1>)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

The requirements of this program meet certification/licensure requirements in the following states:

Wisconsin

The requirements of this program do not meet certification/licensure requirements in the following states:

Not applicable

Updated: 1 June 2025

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS ACADEMIC RESOURCES

A number of resources are available to students seeking assistance with their chemistry courses. Students are strongly encouraged to attend instructor and TA office hours or the Help Desk for the course.

The Chemistry Learning Center (CLC) (<https://clc.chem.wisc.edu/>) supports students in introductory chemistry courses (CHEM 103, CHEM 104, and CHEM 108) and in some sections of organic chemistry. The center welcomes as many students as possible but unfortunately does not have sufficient resources to support all students seeking help. The center is funded to work with specific groups of students, such as first-generation low-income students, underrepresented students, students on academic probation, students with disabilities, students who have trouble understanding English, new transfer students, recently returning veterans, and students at risk of failing the course. These are general guidelines and the center considers each student seeking assistance on a case-by-case

basis, taking into account available program space. Program eligibility is usually determined by an interview with a staff member.

Further assistance may be sought from various tutoring services on campus, including the Greater University Tutoring Services (GUTS) (<http://www.guts.wisc.edu/>), University Housing Tutoring (<https://www.housing.wisc.edu/undergraduate/experience/academics/#tutoring>), and the College of Engineering Undergraduate Learning Center (ULC) (<https://www.engr.wisc.edu/academics/student-services/ulc/>). Alpha Chi Sigma (AXS) (<http://alphachisigmauw.com/>) is a co-ed professional chemistry fraternity that also offers tutoring. For students seeking more individualized tutoring, the Department of Chemistry maintains a list of private tutors (<https://chem.wisc.edu/academic-support/>) available for hire.

SCHOLARSHIPS

Through the generosity of alumni and other friends of the department, the Department of Chemistry is able to offer scholarships and summer research support. In 2024, the department awarded more than 40 scholarships totaling over \$197,000.

Any student who is a chemistry major or is conducting research with a chemistry faculty member is eligible to apply for the scholarships. Awards are based on both merit and financial need. Students may apply for academic year scholarships and/or summer research support. Learn more about chemistry scholarships (<https://chem.wisc.edu/scholarships-fellowships-awards/>) and how to apply.

CHEMISTRY, BS

The mission of the Department of Chemistry is to conduct world-class, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. The department's leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, and nanotechnology. The Department of Chemistry prides itself on its highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The chemistry major is part of either the Bachelor of Science or a Bachelor of Arts degree awarded by the College of Letters & Science. The curriculum provides excellent preparation in chemistry, along with a wide breadth of liberal arts coursework. At the same time, the program provides significant opportunities for students to participate in scientific inquiry, within both laboratory courses and research laboratories. Students from other colleges within the university may pursue the chemistry major as an additional major. When pursuing a chemistry major, the undergraduate student must meet university general education requirements and breadth requirements of their own college, along with the specific requirements for the chemistry major.

The chemistry major provides students with the critical thinking and problem-solving skills necessary to be successful in a wide variety of careers in the chemical industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, food, etc.), as well as environmental, pharmaceutical, and other health-related sciences. Students are also well-prepared for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework

are often able to obtain funding for their graduate work through teaching or research assistantships and fellowships. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. Chemistry students have also been successful in a variety of professional programs where they have studied medicine, pharmacy, dentistry, veterinary medicine, business, or law.

HOW TO GET IN

HOW TO GET IN

Students may declare the chemistry major after they have completed General Chemistry (CHEM 104, CHEM 109, or CHEM 116). Transfer students may declare in their first semester at UW-Madison, if they have transfer credit for one of these courses. Students should schedule an appointment with the undergraduate chemistry advisor to declare and develop a course plan toward graduation. To better inform their decision, undecided students who are exploring chemistry along with other majors are encouraged to take an additional chemistry course or two beyond General Chemistry before declaring. Any student interested in chemistry is welcome to schedule an appointment (<https://www.chem.wisc.edu/content/undergraduate-advising/>) with the advisor to further explore the major.

Students are advised to declare the major no later than the end of their second year. There are many advantages to declaring the chemistry major early, including access to chemistry advising, scholarships available to only majors, and announcements relevant to students studying the chemical sciences. Chemistry majors and chemistry undergraduate researchers also have access to the Undergraduate Study Lounge in the North Tower of the Chemistry building, a space designated specifically for their use. Students who have declared the major become a part of our chemistry community, enabling them to better connect with faculty, staff, and other chemistry majors.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

Language Complete the third unit of a language other than English.

L&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced Coursework Complete at least 60 credits at the Intermediate or Advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW-Madison Experience Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

Quality of Work

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR MATH & PHYSICS

Code	Title	Credits
Mathematics (1 course)		4
MATH 222	Calculus and Analytic Geometry 2	
Physics		10
<i>First Introductory Course (1 course)</i>		
PHYSICS 207	General Physics	
PHYSICS 201	General Physics	
PHYSICS 247	A Modern Introduction to Physics	
<i>Second Introductory Course (1 course)</i>		
PHYSICS 208	General Physics	
PHYSICS 202	General Physics	
PHYSICS 248	A Modern Introduction to Physics	
Total Credits		14

CHEMISTRY CORE COURSES

Code	Title	Credits
General Chemistry (1 course)		5
CHEM 104	General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115	Chemical Principles I ¹	
Analytical Chemistry (1 course)		4-5
CHEM 329	Fundamentals of Analytical Science	
CHEM 116	Chemical Principles II	
CHEM 327	Fundamentals of Analytical Science	
Inorganic Chemistry (1 course)		4
CHEM 311	Chemistry Across the Periodic Table	
Organic Chemistry (3 courses) ²		8
CHEM 343	Organic Chemistry I	
CHEM 345	Organic Chemistry II	
CHEM 344	Introductory Organic Chemistry Laboratory	
Physical Chemistry		8-9
<i>Part 1 (1 course)</i>		
CHEM 561	Physical Chemistry I	
CHEM 665	Biophysical Chemistry	
CBE 310	Chemical Process Thermodynamics	
M S & E 330	Thermodynamics of Materials	
<i>Part 2 (1 course)</i>		
CHEM 562	Physical Chemistry II	
<i>Part 3 (2 courses)</i>		
CHEM 563	Physical Chemistry Laboratory I	
CHEM 564	Physical Chemistry Laboratory II	
Total Credits		29-31

ADVANCED CHEMISTRY AND LABORATORY

Code	Title	Credits
Advanced Non-laboratory Coursework		5
CHEM 116	Chemical Principles II (1 credit counts towards requirements) ³	
CHEM/ M S & E 421	Polymeric Materials	
CHEM/CBE 505	Aspects of Industrial Chemistry and Business Fundamentals	
CHEM 509	Senior Seminar	
CHEM 511	Advanced Inorganic Chemistry	
CHEM 524	Chemical Instrumentation (2 credits count towards requirement) ⁴	
CHEM 547	Advanced Organic Chemistry	
CHEM 555	Study Abroad in Advanced Chemistry	
CHEM 575	Advanced Topics in Chemistry	
CHEM 605	Spectrochemical Measurements	
CHEM 629	Atmospheric Chemical Mechanisms	
CHEM 654	Materials Chemistry of Polymers	
BIOCHEM 501	Introduction to Biochemistry	
	or BIOCHEM 50 General Biochemistry I	
BIOCHEM 508	General Biochemistry II	
BIOCHEM/ NUTR SCI 510	Nutritional Biochemistry and Metabolism	
BIOCHEM 625	Mechanisms of Action of Vitamins and Minerals	
CBE 440	Chemical Engineering Materials	
CBE 540	Polymer Science and Technology	
CBE 547	Introduction to Colloid and Interface Science	
Additional Laboratory Work		3
CHEM 346	Intermediate Organic Chemistry Laboratory	
CHEM 512	Advanced Synthesis and Laboratory Techniques	
CHEM 524	Chemical Instrumentation (1 credit counts towards requirement) ⁴	
CHEM 681 & CHEM 682	Senior Honors Thesis and Senior Honors Thesis	
CHEM 691 & CHEM 692	Senior Thesis and Senior Thesis	
CHEM 699	Directed Study	
BIOCHEM 681 & BIOCHEM 682	Senior Honors Thesis and Senior Honors Thesis	
BIOCHEM 691 & BIOCHEM 692	Senior Thesis and Senior Thesis	
BIOCHEM 699	Special Problems	
CBE 599	Special Problems	
Total Credits		8

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CHEM and major courses
- 2.000 GPA in at least 15 upper-level credits in the major in residence. Upper-level work includes CHEM 346, CHEM/M S & E 421, CHEM/CBE 505, CHEM 509, CHEM 511, CHEM 512, CHEM 524, CHEM 547, CHEM 555, CHEM 561, CHEM 562, CHEM 563, CHEM 564, CHEM 575, CHEM 605, CHEM 629, CHEM 654, CHEM 665, CHEM 681, CHEM 682, CHEM 691, CHEM 692, CHEM 699, BIOCHEM 501, BIOCHEM 507, BIOCHEM 508, BIOCHEM/NUTR SCI 510, BIOCHEM 625, BIOCHEM 681, BIOCHEM 682, BIOCHEM 691, CHEM 692, BIOCHEM 699, CBE 310, CBE 440, CBE 540, CBE 547, CBE 599, and M S & E 330.
- 15 credits in CHEM, taken on the UW-Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Chemistry Major in consultation with the chemistry major advisor (<https://www.chem.wisc.edu/content/undergraduate-advising/>). To be admitted to the Honors Program in Chemistry, students must have declared a major in chemistry and achieved a 3.200 overall GPA. They must also have achieved a 3.200 GPA in all CHEM courses taken and courses accepted for the major.

HONORS IN THE CHEMISTRY MAJOR REQUIREMENTS

To earn Honors in the Major in Chemistry, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all CHEM courses and all major courses
- Complete an additional 3 credits, for a total of 8 credits, of advanced non-laboratory work. This requirement is met by the same credits and courses that are accepted for "Advanced Non-laboratory Work" in the regular major.
- Complete a two-semester Senior Honors Thesis in CHEM 681 Senior Honors Thesis and CHEM 682 Senior Honors Thesis, for a total of 6 credits.

FOOTNOTES

- ¹ Enrollment in CHEM 115 and CHEM 116 is by invitation only. Entering first-year students are invited to apply. Candidates are selected based on their high school record, placement test scores, and application responses.
- ² CHEM 343 must be taken first, followed by CHEM 345. CHEM 344 may be taken concurrently with or after CHEM 345.
- ³ One credit from CHEM 116 counts towards the required 5 credits of Advanced Non-laboratory Coursework.
- ⁴ Only 2 of the 3 credits from CHEM 524 count towards Advanced Non-laboratory Coursework. The remaining 1 credit counts towards the Additional Laboratory Work requirement.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Identify, formulate and solve integrative problems using appropriate information and approaches.
2. Demonstrate an understanding of basic chemical transformations, including the ability to predict chemical reactivity and properties.
3. Recognize the relationship between structure, bonding and the properties of molecules and materials.
4. Model chemical systems and experimental data using relevant quantitative, mathematical and computational methods.
5. Design, conduct and analyze experiments safely and successfully.
6. Locate, evaluate and use information in the chemical literature.
7. Communicate chemical knowledge effectively through written reports, oral presentations and visual aids.
8. Work collaboratively with others, both chemists and those from other disciplines, to solve problems and create new knowledge.
9. Recognize how chemistry relates to contemporary issues in our society.
10. Understand professional and ethical responsibility.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic

advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits Spring	Credits
CHEM 109 or 103 ¹	4-5 300-level Chemistry course OR	3-5
MATH 221	5 CHEM 104 (if needed) ²	
Communications A (complete during first year)	3 MATH 222	4
Foreign Language (if required)	4 Ethnic Studies	3
	L&S Breadth	3
	16	15

Second Year

Fall	Credits Spring	Credits
CHEM 343 ³	3 CHEM 345	3
PHYSICS 207	5 CHEM 344	2
L&S Breadth	3 PHYSICS 208	5
Communications B (consult with advisor about timing) ⁴	3-4 Research (optional) ⁵	1-3
	L&S Breadth	3
	15	15

Third Year

Fall	Credits Spring	Credits
CHEM 329 ⁶	4 Physical Chemistry Part I ⁷	3-4
MATH 234 (recommended, but not required))	4 CHEM 311	4
Research (optional) ⁵	1-3 Advanced Non-laboratory Coursework ⁸	3
L&S Breadth	3 Research (optional) ⁵	1-3
INTER-LS 210 (optional)	1 L&S Breadth	3
	14	15

Fourth Year

Fall	Credits Spring	Credits
CHEM 562	3 CHEM 564	1
CHEM 563	1 Research or other Additional Lab Work ¹⁰	1-3
Research or other Additional Lab Work ⁹	1-3 Advanced Non-laboratory Coursework (if needed)	3
Advanced Non-laboratory Coursework	3 L&S Breadth	3
L&S Breadth	3 L&S Breadth	3
L&S Breadth	3 Elective ¹¹	3
	15	15

Total Credits 120

into at least first semester calculus are eligible for CHEM 109 Advanced General Chemistry. CHEM 109 is an advanced, fast-paced option that covers General Chemistry in one semester. CHEM 109 is offered only in the fall semesters and an honors level section is available. An additional option is the CHEM 115 Chemical Principles I/CHEM 116 Chemical Principles II sequence, which is a small honors sequence for exceptionally well-prepared students. Enrollment in this sequence is by invitation only, and the two courses cover both general and analytical chemistry.

² Students who took CHEM 109 in their first semester will not need CHEM 104. Instead, they may proceed to the next level of chemistry courses sooner by taking CHEM 311 Chemistry Across the Periodic Table or CHEM 329 Fundamentals of Analytical Science or CHEM 343 Organic Chemistry I in the second semester of their first year. In this case, some subsequent chemistry courses may also be taken sooner than shown in this plan.

³ Students must declare a major by the time they reach 86 credits. Students interested in chemistry may declare the major after completing general chemistry (CHEM 104, CHEM 109, or CHEM 116).

⁴ Communications B can be satisfied later through a chemistry course, CHEM 346 Intermediate Organic Chemistry Laboratory, if taken for 2 credits. CHEM 346 will also count towards additional lab work needed for the chemistry major.

⁵ Research can be taken for credit by enrolling in CHEM 299 Directed Study (for students with less than 54 earned credits) or CHEM 699 Directed Study (for students with 54 or more earned credits). CHEM 299 does not satisfy additional lab credits required for the major, while CHEM 699 does. Alternatively, research may be conducted as a volunteer or for pay. Students must search for and be accepted into a research group before beginning research.

⁶ According to L&S policy, students must complete at least 60 credits at the intermediate or advanced level.

⁷ Options include CHEM 561 Physical Chemistry I, CHEM 665 Biophysical Chemistry, CBE 310 Chemical Process Thermodynamics (only for students also majoring in Chemical & Biological Engineering), and M S & E 330 Thermodynamics of Materials (only for students also majoring in Materials Science & Engineering).

⁸ Five advanced non-laboratory credits are required for the major. Please see the Requirements tab in the Guide for a list of courses that count towards this requirement.

⁹ Three credits of additional lab work are required for the major. These credits can be satisfied by research (CHEM 699, for example) or by courses. Please see the Requirements tab in the Guide for a complete list of options. CHEM 346 is one option, and when taken for 2 credits also satisfies Comm-B. CHEM 346 is only offered in fall semester, with most students taking it in their fourth year. Students not planning to take CHEM 346 should plan to take their Comm-B earlier through one of their other required breadth courses.

¹⁰ CHEM 524 Chemical Instrumentation and CHEM 512 Advanced Synthesis and Laboratory Techniques are options that are only offered in the spring semesters. CHEM 524 (3 credits) satisfies 1 additional lab work credit and 2 advanced non-laboratory credits.

¹ CHEM 103 General Chemistry I/CHEM 104 General Chemistry II is a two-semester sequence in General Chemistry. Students with a strong high school chemistry background (usually two years) and placement

¹¹ Please refer to the Requirements tab in Guide for additional College of Letters & Science Breadth and Degree requirements as well as Residence and Quality of Work requirements for the major.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

The chemistry advisor provides advising for chemistry majors and prospective chemistry majors. Both appointments and drop-in hours are available. See Undergraduate Advising (<https://www.chem.wisc.edu/undergraduate-advising/>) on the Department of Chemistry website for more details.

The chemistry website also provides information about introductory chemistry courses (<https://chem.wisc.edu/introductory-chemistry-courses-and-placement/>) and placement for continuing and new undergraduate students (<https://chem.wisc.edu/new-undergraduate-students/>) interested in taking a chemistry course. Students with enrollment and course access questions should visit the enrollment inquiries (<https://chem.wisc.edu/enrollment-inquiries/>) page. If further assistance is needed, students may visit the Undergraduate Chemistry Office (room 1351 Chemistry) during normal business hours, email (undergrad@chem.wisc.edu), or call 608-263-2424.

Chemistry majors interested in getting involved in research should explore the undergraduate research (<https://undergradresearch.chem.wisc.edu/>) pages on the chemistry website. Students needing additional information may contact the undergraduate research director by email (chem_ugr_research@chem.wisc.edu).

COURSE SELECTION AND SEQUENCING

The Requirements (<https://guide.wisc.edu/undergraduate/letters-science/chemistry/chemistry-bs/#requirementstext>) page provides the minimum requirements necessary for completing the chemistry major. This section provides additional advisory information about course selection and sequencing.

- In addition to MATH 222 Calculus and Analytic Geometry 2, it is highly recommended that students also take MATH 234 Calculus--Functions of Several Variables and MATH 320 Linear Algebra and Differential Equations. The extra math is especially helpful to students when they take the required physical chemistry courses.
- PHYSICS 207 General Physics + PHYSICS 208 General Physics is the preferred physics sequence for most students in the chemistry major; PHYSICS 201 General Physics / PHYSICS 202 General Physics is recommended for engineering students. PHYSICS 247 A Modern Introduction to Physics + PHYSICS 248 A Modern Introduction to Physics is intended for students considering a major in Physics (p. 1219), Astronomy-Physics (p. 489), or a Bachelor of Science, Applied Mathematics, Engineering, and Physics (p. 1098).
- Students in the chemistry major are strongly encouraged to take either CHEM 329 Fundamentals of Analytical Science or CHEM 116 Chemical Principles II (as opposed to CHEM 327 Fundamentals of Analytical Science) to satisfy their analytical chemistry requirement, because research is an integral part of these two courses. Both CHEM 329 and CHEM 116 come with honors credit, but students do not need to be part of an honors program to enroll.
- Most students take CHEM 561 Physical Chemistry I or CHEM 665 Biophysical Chemistry for Physical Chemistry Part 1. Students also majoring in Chemical Engineering (p. 268) take CBE 310 Chemical Process Thermodynamics instead. M S & E 330 Thermodynamics of Materials is recommended only for students also majoring in Materials Science and Engineering (p. 326).
- It is recommended that CHEM 563 Physical Chemistry Laboratory I be taken after Physical Chemistry Part I and that CHEM 564 Physical Chemistry Laboratory II be taken after CHEM 562 Physical Chemistry II. Especially strong students needing to complete physical chemistry in two semesters may take CHEM 563 concurrently with CHEM 561 Physical Chemistry I (or CHEM 665 Biophysical Chemistry) and CHEM 564 concurrently with CHEM 562.

CAREER SERVICES

The chemistry major prepares graduates for a wide variety of careers in the chemical and related industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, and food), as well as environmental, pharmaceutical, and other health-related sciences. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. The major prepares students for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are able to obtain funding for graduate studies in chemistry and related sciences through teaching or research assistantships and fellowships. Some chemistry graduates go on to professional schools to study medicine, pharmacy, dentistry, veterinary medicine, business, or law.

Current career, research, and internship opportunities of specific interest to chemistry students can be found on the Career Services (<https://chem.wisc.edu/career-services/>) pages of the chemistry website.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE RESEARCH

There are many research opportunities for undergraduates in the Department of Chemistry. When conducting research, students will have the opportunity to work alongside world-class faculty, staff, and graduate students to gain hands-on research experiences that will supplement their liberal arts education and prepare students for future careers. We have researchers involved in all the core areas of chemistry: analytical, chemical biology, chemical education, inorganic, materials, organic, physical, and theoretical. Many of our researchers conduct research across disciplines, including medicine, pharmacy, biology, engineering, energy, environmental sciences, and physics. Although preference is given to chemistry majors in good academic standing, any student interested in conducting chemistry research can seek out opportunities in our department. Students have the option of volunteering in a research lab or conducting research for course credit by enrolling in CHEM 299 Directed Study, CHEM 699 Directed Study, CHEM 681/CHEM 682 Senior Honors Thesis, or CHEM 691/CHEM 692 Senior Thesis. Students can also gain research experiences through the elective courses CHEM 260 Entering Research I, CHEM 346 Intermediate Organic Chemistry Laboratory, and CHEM 512 Advanced Synthesis and Laboratory Techniques as well as the required course CHEM 329 Fundamentals of Analytical Science. In some cases, experienced undergraduates may be paid to conduct research. For additional information about undergraduate research, including how to get involved, please visit the department's Undergraduate Research (<https://undergradresearch.chem.wisc.edu/>) page.

STUDENT ORGANIZATIONS

A number of student organizations are available for students interested in the chemical sciences.

- Alpha Chi Sigma (AXS) (<http://alphachisigmauw.com/>) is a national, co-ed, professional chemistry organization that was founded at UW-Madison in 1902. The UW-Madison chapter has an active membership of about 40 students, both graduate and undergraduate. The organization also has two houses, at 619 and 621 North Lake Street, which house nearly half of the members. The houses are the primary locations for events like tutoring, chapter dinners, meetings, and social events.
- The UW-Madison student chapter of NOBCCHE (<https://chem.wisc.edu/nobcche/>) (National Organization for the Professional Advancement of Black Chemists and Chemical Engineers) seeks to encourage students of color to pursue graduate and professional degrees in chemistry, chemical engineering, and other chemistry-related fields. Members participate in professional development through national conference presentations, networking, and community service activities.
- SACNAS (<https://win.wisc.edu/organization/sacnas/>) (the Society for the Advancement of Hispanics/Chicanos and Native Americans) is a society of scientists dedicated to fostering the success of Hispanic/Chicano and Native American scientists – from college students to professionals—to attain advanced degrees, careers, and positions of leadership in science.

CERTIFICATION/LICENSURE

CERTIFICATION/LICENSURE ACS CERTIFIED DEGREE

The UW-Madison Department of Chemistry is approved by the American Chemical Society (ACS) to certify the degrees of graduating students who have completed the curriculum and professional training recommended by ACS for chemistry bachelor's degree graduates. Certification indicates that the student has completed rigorous course work that provides them with the skills needed for a successful career in science.

Students graduating with the chemistry major from UW-Madison already meet most of the requirements for ACS certification. They can obtain the certification by electing to take specific courses that satisfy both the requirements of the major and the ACS guidelines. Additional requirements for certification are:

- A course in biochemistry, satisfied by BIOCHEM 501 Introduction to Biochemistry or BIOCHEM 507 General Biochemistry I (3 credits). A course in chemical biology will also satisfy this requirement. For example, CHEM 575 Advanced Topics in Chemistry is often offered in the spring semesters with the topic "Chemical Biology" and will satisfy this requirement.
- At least 375 total laboratory hours, which can be satisfied by the combination of all the required core laboratory courses (in organic, inorganic, analytical and physical chemistry) plus one laboratory credit from any of the following courses: CHEM 346 Intermediate Organic Chemistry Laboratory, CHEM 512 Advanced Synthesis and Laboratory Techniques, CHEM 524 Chemical Instrumentation (3 credit course, but only one credit is a lab credit), CHEM 681/CHEM 682 Senior Honors Thesis, or CHEM 691/ CHEM 692 Senior Thesis.

The biochemistry course satisfies three of the five credits of advanced non-laboratory work required for the chemistry major, while two credits from CHEM 524 also count towards the advanced work. CHEM 346, CHEM 512, 1 credit of CHEM 524, CHEM 681/CHEM 682, and CHEM 691/CHEM 692 all count towards the three additional lab credits required for the major.

Note that neither CHEM 299 Directed Study nor CHEM 699 Directed Study can be used to satisfy the lab hours needed for ACS certification. However, CHEM 699 can be used to satisfy additional lab credits needed for the chemistry major.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (<https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/toc=1>)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

The requirements of this program meet certification/licensure requirements in the following states:

Wisconsin

The requirements of this program do not meet certification/licensure requirements in the following states:

Not applicable

Updated: 1 June 2025

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

ACADEMIC RESOURCES

A number of resources are available to students seeking assistance with their chemistry courses. Students are strongly encouraged to attend instructor and TA office hours or the Help Desk for the course.

The Chemistry Learning Center (CLC) (<https://clc.chem.wisc.edu/>) supports students in introductory chemistry courses (CHEM 103, CHEM 104, and CHEM 108) and in some sections of organic chemistry. The center welcomes as many students as possible but unfortunately does not have sufficient resources to support all students seeking help. The center is funded to work with specific groups of students, such as first-generation low-income students, underrepresented students, students on academic probation, students with disabilities, students who have trouble understanding English, new transfer students, recently returning veterans, and students at risk of failing the course. These are general guidelines and the center considers each student seeking assistance on a case-by-case basis, taking into account available program space. Program eligibility is usually determined by an interview with a staff member.

Further assistance may be sought from various tutoring services on campus, including the Greater University Tutoring Services (GUTS) (<http://www.guts.wisc.edu/>), University Housing Tutoring (<https://www.housing.wisc.edu/undergraduate/experience/academics/#tutoring>), and the College of Engineering Undergraduate Learning Center (ULC) (<https://www.engr.wisc.edu/academics/student-services/ulc/>). Alpha Chi Sigma (AXS) (<http://alphachisigmauw.com/>) is a co-ed professional chemistry fraternity that also offers tutoring. For students seeking more individualized tutoring, the Department of Chemistry maintains a list of private tutors (<https://chem.wisc.edu/academic-support/>) available for hire.

SCHOLARSHIPS

Through the generosity of alumni and other friends of the department, the Department of Chemistry is able to offer scholarships and summer

research support. In 2024, the department awarded more than 40 scholarships totaling over \$197,000.

Any student who is a chemistry major or is conducting research with a chemistry faculty member is eligible to apply for the scholarships. Awards are based on both merit and financial need. Students may apply for academic year scholarships and/or summer research support. Learn more about chemistry scholarships (<https://chem.wisc.edu/scholarships-fellowships-awards/>) and how to apply.

CHICANA/O AND LATINA/O STUDIES

The department-like unit of Chicana/Chicano and Latina/Latino Studies is being renamed to Chicanx/e and Latinx/e Studies in Summer 2026.

The Chicanx/e and Latinx/e Studies Program (CLS) offers a systematic and interdisciplinary analysis of Mexican- and Latin-American-origin people, cultures, and collectivities within the United States. The CLS certificate is designed to provide students with a broad knowledge base and the intellectual tools to understand the unity and diversity of U.S. Latinx/e populations. The primary objective of the CLS program is to train students in the study of Chicanxs/es and Latinxs/es, as well as to introduce them to the central questions, topics, and applications that have emerged in this field of inquiry.

CLS offers a variety of courses, some focusing on particular national-origin groups or specific academic disciplines, and others organized around comparative topics or issues. We welcome you to join our academic community of learners.

Note: The endings "x" and "e" in "Chicanx/e and Latinx/e" represent two gender-neutral ways of referring to people of Latin American descent in the United States.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Chicana/o and Latina/o Studies, Certificate (p. 581)
- Chicanx/e and Latinx/e Studies, BA (p. 583)

CHICANA/O AND LATINA/O STUDIES, CERTIFICATE

The Chicana/o and Latina/o Studies undergraduate certificate is being renamed Chicanx/e and Latinx/e Studies. Students will be able to earn a Certificate in Chicana/o and Latina/o Studies through the end of Summer 2027. Beginning in Fall 2027, the program awarded will be the Certificate in Chicanx/e and Latinx/e Studies.

The certificate in Chicana/o and Latina/o Studies offers a systematic and interdisciplinary analysis of Mexican- and Latin-American-origin people, cultures, and collectivities within the United States. The Chicana/o and Latina/o Studies certificate is designed to provide students with a broad knowledge base and the intellectual tools to understand the unity

and diversity of U.S. Latinx/e populations. The primary objective of the certificate is to train students in the study of Chicana/o and Latina/o Studies, as well as to introduce them to the central questions, topics, and applications that have emerged in this field of inquiry.

HOW TO GET IN

HOW TO GET IN

To declare or cancel this certificate, please follow the process described on the Program's website (<https://chicla.wisc.edu/undergraduate-certificate/>).

REQUIREMENTS

REQUIREMENTS

Completion of the certificate requires a minimum of **15 credits** in Chicana/o and Latina/o studies.¹

Code	Title	Credits
Complete one Introduction Course:		
CHICLA 201	Introduction to Chicana/o and Latina/o Studies	3
Complete at least one additional course from the following list:		3
CHICLA/ AFROAMER/ AMER IND/ ASIAN AM/ FOLKLORE 102	Introduction to Comparative US Ethnic and American Indian Studies	
CHICLA/ HISTORY 151	The North American West to 1850	
CHICLA/ HISTORY 152	The United States West Since 1850	
CHICLA/ HISTORY 153	Latina/Latino/Latinx History	
CHICLA 210	Chicana/o and Latina/o Cultural Studies	
CHICLA/ SPANISH 215	Border and Migration Studies of Latinx America	
CHICLA/ SPANISH 222	Introduction to Latinx Cultures	
CHICLA/ POLI SCI 231	Politics in Multi-Cultural Societies

HDFS 474	Racial Ethnic Families in the U.S.
HISTORY/ AFROAMER 347	The Caribbean and its Diasporas

Total Credits**15**

¹ A maximum of 3 credits earned through a directed study course (CHICLA 699) can count toward the certificate. Pass/Fail courses don't count for the certificate.

RESIDENCE AND QUALITY OF WORK

- 8 credits in CHICLA or credits counting toward the certificate, taken in residence
- A cumulative 2.000 GPA in courses counting approved for the certificate

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Identify and analyze core concepts, important social and political issues, and key artistic and cultural expressions related to Chicana/o and Latina/o life in the United States.
2. Discuss the histories of Chicanas/os and Latinas/os in the United States and their implications for contemporary problems of racialization, social stratification, colonialism, and oppression.
3. Describe the commonalities and differences among Chicanas/os and Latinas/os along lines of class, gender, race, sexuality, citizenship, and national origin, and evaluate Latinidad as a pan-ethnic category in the United States.

4. Analyze relations between Chicanas/os and Latinas/os in the United States and their countries of heritage from a transnational and transborder perspective.
5. Apply ideas from Chicana/o and Latina/o Studies to concrete problems through service-learning and community-based research, in a spirit of dialogue and reciprocal exchange informed by ethical and social justice principles.

ADVISING AND CAREERS

ADVISING AND CAREERS

Academic advising for the Chicana/o and Latina/o Studies certificate is available in the Student Advising Office. [Prospective and current certificate students must make an appointment with Rachelle Eilers, reilers@wisc.edu](mailto:reilers@wisc.edu), to discuss requirements, courses, and application to the certificate. Chicana/o and Latina/o Studies certificate recipients have enjoyed great success in fields including the health professions, social service, education, law, journalism, business, the arts, politics, and government service.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

CHICANX/E AND LATINX/E STUDIES, BA

The Chicanx/e and Latinx/e Studies major offers a systematic and interdisciplinary analysis of Mexican- and Latin-American-origin people, cultures, and collectivities within the United States. The Chicanx/e and Latinx/e Studies major is designed to provide students with a broad knowledge base and the intellectual tools to understand the unity and diversity of those people and cultures, both historically and in the contemporary period, as they explore the central questions and topics that have emerged in this interdisciplinary field. The Chicanx/e and Latinx/e Studies curriculum enables students to engage with the history, experience, arts, literature, cultural production, and social lives of communities of Latin American descent in the United States, developing their capacities for civic and community engagement as well as research, writing, and analytical skills. Chicanx/e and Latinx/e Studies graduates

are equipped to include and engage with diverse perspectives as they pursue careers in such fields as education, social service, communications, publishing, business, journalism, agriculture, engineering, the arts, construction, and the health professions.

Note: The endings “x” and “e” in “Chic anx/e and Latin x/e” represent two gender-neutral ways of referring to people of Latin American descent in the United States.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
--------------	---------

How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students declared in the Chicana/o and Latina/o Studies Certificate may not be declared in the Chic anx/e and Latin x/e Studies major at the same time. Students who do wish to declare this major must first cancel their declaration into the Chicana/o and Latina/o Studies Certificate.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
 - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth—Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

REQUIREMENTS FOR THE MAJOR

The major requires a minimum of 30 credits and the specific requirements include:

Code	Title	Credits
Introductory Course		
CHICLA 201	Introduction to Chicana/o and Latina/o Studies	3
Introductory Elective		3

CURRIC 676	Bilingualism and Bilinguality in Schools
HDFS 474	Racial Ethnic Families in the U.S.

Total Credits**30**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CHICLA and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence. Upper-level in the major includes CHICLA courses numbered 300 and above and courses that count for the major that are designated as Intermediate or Advanced level.
- 15 credits in CHICLA taken in residence on the UW-Madison campus

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

- 1. Identify and analyze core concepts, important social and political issues, and key artistic and cultural expressions related to Chicana/x/e and Latina/x/e life in the United States.
- 2. Discuss the histories of Chicana/xs/es and Latina/xs/es in the United States and their implications for contemporary problems of racialization, social stratification, colonialism, and oppression.
- 3. Describe the commonalities and differences among Chicana/xs/es and Latina/xs/es along lines of class, gender, race, sexuality, citizenship, and national origin, and evaluate Latinidad as a pan-ethnic category in the United States.
- 4. Analyze relations between Chicana/xs/es and Latina/xs/es in the United States and their countries of heritage from a transnational and transborder perspective.
- 5. Apply ideas from Chicana/x/e and Latina/x/e Studies to concrete problems through service-learning and community-based research, in a spirit of dialogue and reciprocal exchange informed by ethical and social justice principles.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits Spring	Credits
CHICLA 201	3 CHICLA introductory elective	3

Total Credits 120

THREE-YEAR PLAN

THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

DEPARTMENTAL EXPECTATIONS

A three-year degree is feasible for students with a variety of backgrounds and specific preparation. The plan assumes that students are coming to UW-Madison with approximately 27 credits from AP/IB or college transfer credits. Your plan may look different depending on the number of credits you bring in.

First Year

ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Chicanx/e and Latinx/e Program website (<https://chicla.wisc.edu/cls-major/>).

DEPARTMENTAL ADVISING

Academic advising for the Chicanx/e and Latinx/e Studies major is available in the Student Advising Office. Prospective and current students must make an appointment with the advisor to discuss requirements, courses, and application to the major or certificate. Chicanx/e and Latinx/e Studies graduates have enjoyed great success in fields including the health professions, social service, education, law, journalism, business, the arts, politics, and government service.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

The Chicanx/e and Latinx/e Studies Program provides co-curricular support programs and opportunities for undergraduate research as part of the Wisconsin Experience (<https://provost.wisc.edu/wisconsin-experience/>), UW-Madison's vision for students' growth inside and outside the classroom. Chicanx/e and Latinx/e Studies majors at UW-Madison have a wide range of opportunities available to help them make the most of their major and carry the study of communities of Latin American descent into the broader community.

CLS COMMUNITY GATHERINGS

Join us on Thursdays at noon (<https://chicla.wisc.edu/chican-and-latin-studies-community-events/>) for a workshop luncheon featuring speakers on topics of interest to undergraduate Chicanx/e and Latinx/e Studies students. The gatherings are a great place to learn about resources available on campus, make new friends, and create community.

PASOS (PROMOTORES ACADÉMICOS
SEMBRANDO, ORIENTANDO, Y SUPERANDO)

The PASOS program pairs Chicana/x and Latina/x Studies majors and certificate students interested in graduate school with graduate student mentors. PASOS mentors guide mentees as they explore whether graduate school is for them, work on their writing, develop resumes or CVs for future use, identify opportunities, and learn requirements to graduate schools and assess how those fit students’ wants and needs.

WISCONSIN LATINX HISTORY COLLECTIVE

The Chicana/x and Latina/x Studies Program is the major UW–Madison partner for the Wisconsin Latinx History Collective (<https://storymaps.arcgis.com/stories/7a2f1e0a652d4d6e977e0df36ab027e2/>), an effort to document the history of communities of Latin American descent in Wisconsin. Chicana/x and Latina/x Studies faculty and students are interviewing members of those communities and collecting documents to be held in the Wisconsin Historical Society (<https://www.wisconsinhistory.org/>) collection for future researchers. The Wisconsin Latinx History Collective has also embarked on a public humanities initiative to make these oral histories and documents more widely available through a digital platform. Many Chicana/x and Latina/x Studies classes offer the opportunity to participate in original research related to this project.

LATINX STUDIES JOURNAL

The Latinx Studies Journal (<https://chicla.wisc.edu/latinx-studies-journal/>) (formerly *Concientización*) is an annual publication that highlights writing by Chicana/x and Latina/x Studies students. Students may submit original research papers, creative writing, art, and more.

CHICANX AND LATINX STUDIES ONLINE

Students in CHICLA 520 Latinx Digital Publics create digital projects for the program’s web magazine, Chicana and Latina Studies Online (<https://chicanxlatinx.chicla.wisc.edu/>).

RESOURCES AND SCHOLARSHIPS

RESOURCES AND
SCHOLARSHIPS

Undergraduates in the CLS Major or Certificate may apply for the Jesus Salas Academic Activist Scholarship and the Somos Student Development Award (<https://chicla.wisc.edu/financial-assistance/>). Conferred annually in the spring, the Salas Scholarship recognizes academic excellence and community leadership by outstanding CLS students. The Somos award supports internships, research projects, or other initiatives by undergraduates. Students pursuing the Somos award may wish to contact the Program at chicla@letscli.wisc.edu to determine whether their initiatives and the expenses they propose are eligible. The Program encourages students to seek out other opportunities through the Wisconsin Scholarship Hub (<https://wisc.academicworks.com/>).

The Program has a library (<https://chicla.wisc.edu/student-resources/>) with a collection of books and videos on topics related to the field, as well as an Academic Resource Center with computers and a printer that are available to students.

Students enrolled in the CLS Major or Certificate may participate in the Chicana/x & Latina/x Studies Certificate Students Association

(ChiLaCSA). A list of related student organizations is available on the Program’s website (<https://chicla.wisc.edu/824-2/>).

CHICANX/E AND LATINX/E
STUDIES, BS

The Chicana/x and Latina/x Studies major offers a systematic and interdisciplinary analysis of Mexican- and Latin-American-origin people, cultures, and collectivities within the United States. The Chicana/x and Latina/x Studies major is designed to provide students with a broad knowledge base and the intellectual tools to understand the unity and diversity of those people and cultures, both historically and in the contemporary period, as they explore the central questions and topics that have emerged in this interdisciplinary field. The Chicana/x and Latina/x Studies curriculum enables students to engage with the history, experience, arts, literature, cultural production, and social lives of communities of Latin American descent in the United States, developing their capacities for civic and community engagement as well as research, writing, and analytical skills. Chicana/x and Latina/x Studies graduates are equipped to include and engage with diverse perspectives as they pursue careers in such fields as education, social service, communications, publishing, business, journalism, agriculture, engineering, the arts, construction, and the health professions.

Note: The endings “x” and “e” in “Chicana/x and Latina/x” represent two gender-neutral ways of referring to people of Latin American descent in the United States.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students declared in the Chicana/o and Latina/o Studies Certificate may not be declared in the Chicana/x and Latina/x Studies major at the same time. Students who do wish to declare this major must first cancel their declaration into the Chicana/o and Latina/o Studies Certificate.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

REQUIREMENTS FOR THE MAJOR

The major requires a minimum of 30 credits and the specific requirements include:

Code	Title	Credits
Introductory Course		
CHICLA 201	Introduction to Chicana/o and Latina/o Studies	3
Introductory Elective		
CHICLA/ AFROAMER/ AMER IND/ ASIAN AM/ FOLKLORE 102	Introduction to Comparative US Ethnic and American Indian Studies	3
CHICLA/ HISTORY 151	The North American West to 1850	
CHICLA/ HISTORY 152	The United States West Since 1850	
CHICLA/ HISTORY 153	Latina/Latino/Latinx History	
CHICLA 210	Chicana/o and Latina/o Cultural Studies	
CHICLA/ SPANISH 215	Border and Migration Studies of Latinx America	
CHICLA/ SPANISH 222	Introduction to Latinx Cultures	

CHICLA/ POLI SCI 231	Politics in Multi-Cultural Societies	
CHICLA/ GEN&WS/ HISTORY 245	Chicana and Latina History	
CHICLA/ HISTORY/LACIS/ POLI SCI 268	The U.S. & Latin America from the Colonial Era to the Present: A Critical Survey	
CURRIC 240	Critical Aspects of Teaching, Schooling, and Education	
COUN PSY 225	Intersectionalities, Self Awareness, and Social Actions for Social Change	
COUN PSY 230	Race and the Developing Child	
Cultures and Histories		9
CHICLA 301	Chicana/o and Latina/o History	
CHICLA 328	Cultures and Histories Topics in Chicana/o & Latina/o Studies	
CHICLA/ COM ARTS 347	Race, Ethnicity, and Media	
CHICLA/ HISTORY/LACIS/ POLI SCI 355	Labor in the Americas: US & Mexico in Comparative & Historical Perspective	
CHICLA/ SPANISH 364	Survey of Latinx/e Popular Culture	
CHICLA/ ENGL 368	Chicana/o and Latina/o Literatures	
CHICLA/ COM ARTS 419	Latino/as and Media	
CHICLA/ HISTORY 435	Colony, Nation, and Minority: The Puerto Ricans' World	
CHICLA/ ENGL 460	Black and Latinx in Literature and Visual Culture	
CHICLA/ SPANISH 467	US Latino Literature	
CHICLA/ SPANISH 469	Topics in Latinx Culture	
CHICLA/ SPANISH 478	Border and Race Studies in Latin America	
CHICLA 520	Latinx Digital Publics	
CHICLA 699	Directed Study	
HISTORY/ AFROAMER 347	The Caribbean and its Diasporas	
Individuals, Peoples, Societies		9
CHICLA/ POLI SCI 302	Mexican-American Politics	
CHICLA/ GEN&WS/ GEOG 308	Latinx Feminisms: Women's Lives, Work, and Activism	
CHICLA 315	Racial Formation and Whiteness

CHICLA/ COUN PSY 590	Esperanza Community-Engaged Research with Latinas
CHICLA 699	Directed Study
CURRIC 670	Theories of Bilingualism and Biliteracy
CURRIC 676	Bilingualism and Biliteracy in Schools
HDFS 474	Racial Ethnic Families in the U.S.

Total Credits**30**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CHICLA and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence. Upper-level in the major includes CHICLA courses numbered 300 and above and courses that count for the major that are designated as Intermediate or Advanced level.
- 15 credits in CHICLA taken in residence on the UW-Madison campus

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Identify and analyze core concepts, important social and political issues, and key artistic and cultural expressions related to Chicana/x and Latina/x life in the United States.
2. Discuss the histories of Chicana/xs/es and Latina/xs/es in the United States and their implications for contemporary problems of racialization, social stratification, colonialism, and oppression.
3. Describe the commonalities and differences among Chicana/xs/es and Latina/xs/es along lines of class, gender, race, sexuality, citizenship, and national origin, and evaluate Latinidad as a pan-ethnic category in the United States.
4. Analyze relations between Chicana/xs/es and Latina/xs/es in the United States and their countries of heritage from a transnational and transborder perspective.
5. Apply ideas from Chicana/x and Latina/x Studies to concrete problems through service-learning and community-based research, in a spirit of dialogue and reciprocal exchange informed by ethical and social justice principles.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits Spring	Credits
CHICLA 201	3 CHICLA introductory elective	3
Communication A	3 Biological Science Breadth	3

Advanced elective	3 Advanced elective	3
16		15

Total Credits 120**THREE-YEAR PLAN****THREE-YEAR PLAN**

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the

Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

DEPARTMENTAL EXPECTATIONS

A three-year degree is feasible for students with a variety of backgrounds and specific preparation. The plan assumes that students are coming to UW-Madison with approximately 27 credits from AP/IB or college transfer credits. Your plan may look different depending on the number of credits you bring in.

First Year

ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Chicana/x/e and Latina/x/e Program website (<https://chicla.wisc.edu/cls-major/>).

DEPARTMENTAL ADVISING

Academic advising for the Chicana/x/e and Latina/x/e Studies major is available in the Student Advising Office. Prospective and current students must make an appointment with the advisor to discuss requirements, courses, and application to the major or certificate. Chicana/x/e and Latina/x/e Studies graduates have enjoyed great success in fields including the health professions, social service, education, law, journalism, business, the arts, politics, and government service.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

The Chicana/x/e and Latina/x/e Studies Program provides co-curricular support programs and opportunities for undergraduate research as part of the Wisconsin Experience (<https://provost.wisc.edu/wisconsin-experience/>), UW-Madison's vision for students' growth inside and outside the classroom. Chicana/x/e and Latina/x/e Studies majors at UW-Madison have a wide range of opportunities available to help them make the most of their major and carry the study of communities of Latin American descent into the broader community.

CLS COMMUNITY GATHERINGS

Join us on Thursdays at noon (<https://chicla.wisc.edu/chican-and-latin-studies-community-events/>) for a workshop luncheon featuring speakers on topics of interest to undergraduate Chicana/x/e and Latina/x/e Studies

students. The gatherings are a great place to learn about resources available on campus, make new friends, and create community.

PASOS (PROMOTORES ACADÉMICOS SEMBRANDO, ORIENTANDO, Y SUPERANDO)

The PASOS program pairs Chicana/x/e and Latina/x/e Studies majors and certificate students interested in graduate school with graduate student mentors. PASOS mentors guide mentees as they explore whether graduate school is for them, work on their writing, develop resumes or CVs for future use, identify opportunities, and learn requirements to graduate schools and assess how those fit students' wants and needs.

WISCONSIN LATINX HISTORY COLLECTIVE

The Chicana/x/e and Latina/x/e Studies Program is the major UW-Madison partner for the Wisconsin Latinx History Collective (<https://storymaps.arcgis.com/stories/7a2f1e0a652d4d6e977e0df36ab027e2/>), an effort to document the history of communities of Latin American descent in Wisconsin. Chicana/x/e and Latina/x/e Studies faculty and students are interviewing members of those communities and collecting documents to be held in the Wisconsin Historical Society (<https://www.wisconsinhistory.org/>) collection for future researchers. The Wisconsin Latinx History Collective has also embarked on a public humanities initiative to make these oral histories and documents more widely available through a digital platform. Many Chicana/x/e and Latina/x/e Studies classes offer the opportunity to participate in original research related to this project.

LATINX STUDIES JOURNAL

The Latinx Studies Journal (<https://chicla.wisc.edu/latinx-studies-journal/>) (formerly *Concientización*) is an annual publication that highlights writing by Chicana/x/e and Latina/x/e Studies students. Students may submit original research papers, creative writing, art, and more.

CHICANX AND LATINX STUDIES ONLINE

Students in CHICLA 520 Latinx Digital Publics create digital projects for the program's web magazine, Chicana and Latina Studies Online (<https://chicanxlatinx.chicla.wisc.edu/>).

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Undergraduates in the CLS Major or Certificate may apply for the Jesus Salas Academic Activist Scholarship and the Somos Student Development Award (<https://chicla.wisc.edu/financial-assistance/>). Conferred annually in the spring, the Salas Scholarship recognizes academic excellence and community leadership by outstanding CLS students. The Somos award supports internships, research projects, or other initiatives by undergraduates. Students pursuing the Somos award may wish to contact the Program at chicla@letscli.wisc.edu to determine whether their initiatives and the expenses they propose are eligible. The Program encourages students to seek out other opportunities through the Wisconsin Scholarship Hub (<https://wisc.academicworks.com/>).

The Program has a library (<https://chicla.wisc.edu/student-resources/>) with a collection of books and videos on topics related to the field, as well as an Academic Resource Center with computers and a printer that are available to students.

Students enrolled in the CLS Major or Certificate may participate in the Chicanx/e & Latinx/e Studies Certificate Students Association (ChiLaCSA). A list of related student organizations is available on the Program's website (<https://chicla.wisc.edu/824-2/>).

CLASSICAL AND ANCIENT NEAR EASTERN STUDIES

The widespread influence of Greece and Rome upon our own modern society, the intrinsic attraction of ancient literature, civilization, and material culture, and the interdisciplinary nature of the discipline make classics a dynamic and popular field of study. Moreover, undergraduate training in classics demands an intellectual rigor that can prepare students for more advanced training in graduate school, supplement their studies in a variety of other disciplines in the humanities, sciences, and engineering, and help them gain admittance to professional programs in law and medicine.

To this end, the Department of Classical and Ancient Near Eastern Studies (CANES) offers three majors and a certificate, providing a number of options for students wishing to explore their interests in classical studies. The classical humanities major combines two semesters of language study with elective coursework in literature and culture of the ancient world. Students will also find offerings in art, architecture, archaeology, gender studies, history, literature, philosophy, and politics.

Latin and ancient Greek are regularly offered and provide the foundation for modern English vocabulary, giving context and insight into the history of the words we use today. Class sizes are small, making the experience more personal and creating opportunities for meaningful learning outcomes.

For more information about any of these options, please contact the CANES department (<http://canes.wisc.edu/>).

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

STUDY ABROAD

The department offers two options for summer study, UW-Classics in Greece and UW-Classics in Italy (<https://canes.wisc.edu/undergraduate-studies/study-abroad/>). Each three-week program is offered alternating summers and guided by a department faculty member.

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local, and university awards, CANES offers the following opportunities for financial support to our majors annually:

Ruth M. Kuhlman Undergraduate Scholarship

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. The total amount of the award may be up to \$2,500, and the award may not be granted every academic year depending on the quality of entries and availability of funds. This competition is open to majors only. The call usually goes out in November and closes in February.

Gertrude E. Slaughter Summer Study Scholarship

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896-1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, to participate in study abroad, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open to majors only. The call usually goes out in November and closes in February.

Logan Prize for Greek Translation

A monetary award in memory of Fellow of Classics, John Watson Logan (PhD '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

Pillinger Prize for Latin Translation

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

CLASSICAL HUMANITIES, BA

The Classical Humanities major combines two semesters of language study with elective coursework that explores the literature, civilization, and culture of Greece, Rome, and the Ancient Near East. Students choose from a wide variety of courses (<https://guide.wisc.edu/courses/classics/>) including offerings in art, architecture, archaeology, gender studies, history, literature, philosophy, and politics. In addition to enhancing their language study, these subjects enable our majors to develop a more comprehensive understanding of the ancient world.

Latin (<https://guide.wisc.edu/courses/latin/>) and ancient Greek (<https://guide.wisc.edu/courses/greek/>) are regularly offered and provide the foundation for modern English vocabulary, giving context and insight into the history of the words we use today. Class sizes are small, making the experience more personal and creating opportunities for meaningful learning outcomes.

To support Classical Humanities majors as they pursue their educational goals, the department provides annual scholarship (<https://canes.wisc.edu/undergraduate-studies/>) opportunities. We also offer a summer study abroad (<https://canes.wisc.edu/undergraduate-studies/study-abroad/>) program led by members of our faculty.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students who declare the Classical Humanities major may not combine this major ("double major") with the Classics or Latin major starting Fall 2023. The major may also not be combined with the Certificate in Classical Studies at the Undergraduate Level.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world.

Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
 - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth—Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.
Language	<ul style="list-style-type: none">• Complete the fourth unit of a language other than English; OR• Complete the third unit of a language and the second unit of an additional language other than English.
L&S Breadth	<ul style="list-style-type: none">• 12 credits of Humanities, which must include 6 credits of literature; and• 12 credits of Social Science; and• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.

UW-Madison Experience • 30 credits in residence, overall; and
• 30 credits in residence after the 86th credit.

Quality of Work • 2.000 in all coursework at UW-Madison
• 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

The Classical Humanities major consists of a combination of courses in ancient culture and classical languages. The major requirements are divided into three areas: Language, Literature and Culture, and Seminar.

The major requires a minimum of 28 credits and the specific requirements include:

LANGUAGE

Complete one of the following:

Code	Title	Credits
2 semesters of Greek		8 credits
GREEK 103 & GREEK 104	First Semester Ancient Greek and Second Semester Ancient Greek	
2 semesters of Latin		8 credits
LATIN 103 & LATIN 104	First Semester Latin and Second Semester Latin	
1 semester of accelerated Latin		4 credits
LATIN 391	Elementary Intensive Latin	
2 semesters of Biblical Hebrew		8 credits

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CLASSICS, GREEK, HEBR-BIB, and LATIN courses and all other courses in the major
- 2.000 GPA in 15 upper-level major credits, taken in residence²
- 15 credits in CLASSICS, GREEK, and LATIN, taken on the UW-Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Classical Humanities Major in consultation with the Classical Humanities undergraduate advisor.

HONORS IN THE MAJOR IN CLASSICAL HUMANITIES: REQUIREMENTS

To earn Honors in the Major in Classical Humanities, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in all CLASSICS, GREEK, HEBR-BIB, and LATIN courses, and all courses accepted in the major, at the upper-level
- Complete the following coursework:
 - 9 credits, taken for Honors, with a grade of B or better, from the list of Literature and Culture requirements above
 - A two-semester Senior Honors Thesis in CLASSICS 681 and CLASSICS 682, for a total of 6 credits

FOOTNOTES

- ¹ CLASSICS 591 is typically offered every spring semester; it is normally taken senior year.
- ² Courses at the Intermediate and Advanced levels are considered upper-level in this major.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work

Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate knowledge of ancient Greek, Roman, and Near Eastern societies and cultures.
2. Demonstrate competence in the critical methodologies of textual and material analysis with a view to social and cultural interpretation.
3. Compare and critique ancient Greek, Roman, and Near Eastern societies and cultures to demonstrate intercultural competence and ethical reasoning.
4. Create new knowledge in ancient Greek, Roman, or Near Eastern studies.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Classical and Ancient Near Eastern Studies website. (<https://canes.wisc.edu/undergraduate-studies/>)

ADVISING

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in *Ancient Greek and Roman Monsters* and *Sex and Violence in the Ancient Near East* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program

- Practicing for interviews
- Talking about graduate school
- Proofreading résumés and cover letters

CAREERS

Humanities majors enable students to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- proper research design and methodology
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of ancient Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career! Visit our Alumni page (<https://canes.wisc.edu/people/alumni/>) and our Career and Skill Development page (<https://canes.wisc.edu/undergraduate-studies/career-and-skill-development/>) for more information.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS STUDY ABROAD

The department offers two options for summer study, UW–Classics in Greece and UW–Classics in Italy (<https://canes.wisc.edu/undergraduate-studies/study-abroad/>). Each three-week program is offered alternating summers and guided by a department faculty member.

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local, and university awards, CANES offers the following opportunities for financial support to our majors annually:

Ruth M. Kuhlman Undergraduate Scholarship

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. The total amount of the award may be up to \$2,500, and the award may not be granted every academic year depending on the quality of entries and availability of funds. This competition is open to majors only. The call usually goes out in November and closes in February.

Gertrude E. Slaughter Summer Study Scholarship

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, to participate in study abroad, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open to majors only. The call usually goes out in November and closes in February.

Logan Prize for Greek Translation

A monetary award in memory of Fellow of Classics, John Watson Logan (PhD '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

Pillinger Prize for Latin Translation

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965–1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

from a wide variety of courses (<https://guide.wisc.edu/courses/classics/>) including offerings in art, architecture, archaeology, gender studies, history, literature, philosophy, and politics. In addition to enhancing their language study, these subjects enable our majors to develop a more comprehensive understanding of the ancient world.

Latin (<https://guide.wisc.edu/courses/latin/>) and ancient Greek (<https://guide.wisc.edu/courses/greek/>) are regularly offered and provide the foundation for modern English vocabulary, giving context and insight into the history of the words we use today. Class sizes are small, making the experience more personal and creating opportunities for meaningful learning outcomes.

To support Classical Humanities majors as they pursue their educational goals, the department provides annual scholarship (<https://canes.wisc.edu/undergraduate-studies/>) opportunities. We also offer a summer study abroad (<https://canes.wisc.edu/undergraduate-studies/study-abroad/>) program led by members of our faculty.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students who declare the Classical Humanities major may not combine this major ("double major") with the Classics or Latin major starting Fall 2023. The major may also not be combined with the Certificate in Classical Studies at the Undergraduate Level.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

CLASSICAL HUMANITIES, BS

The Classical Humanities major combines two semesters of language study with elective coursework that explores the literature, civilization, and culture of Greece, Rome, and the Ancient Near East. Students choose

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
L&S Breadth	Complete: <ul style="list-style-type: none">• 12 credits of Humanities, which must include at least 6 credits of Literature; and• 12 credits of Social Science; and• 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: <ul style="list-style-type: none">• 30 credits in residence, overall, and• 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none">• 2.000 in all coursework at UW–Madison• 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

The Classical Humanities major consists of a combination of courses in ancient culture and classical languages. The major requirements are divided into three areas: Language, Literature and Culture, and Seminar.

The major requires a minimum of 28 credits and the specific requirements include:

LANGUAGE

Complete one of the following:		
Code	Title	Credits
2 semesters of Greek		8 credits
GREEK 103 & GREEK 104	First Semester Ancient Greek and Second Semester Ancient Greek	
2 semesters of Latin		8 credits
LATIN 103 & LATIN 104	First Semester Latin and Second Semester Latin	
1 semester of accelerated Latin		4 credits
LATIN 391	Elementary Intensive Latin	
2 semesters of Biblical Hebrew		8 credits
HEBR-BIB 103 & HEBR-BIB 104	Elementary Biblical Hebrew, I and Elementary Biblical Hebrew, II	
1 semester of accelerated Biblical Hebrew		4 credits
HEBR-BIB 391	Intensive Elementary Biblical Hebrew

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

STUDY ABROAD

The department offers two options for summer study, UW–Classics in Greece and UW–Classics in Italy (<https://canes.wisc.edu/undergraduate-studies/study-abroad/>). Each three-week program is offered alternating summers and guided by a department faculty member.

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local, and university awards, CANES offers the following opportunities for financial support to our majors annually:

Ruth M. Kuhlman Undergraduate Scholarship

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. The total amount of the award may be up to \$2,500, and the award may not be granted every academic year depending on the quality of entries and availability of funds. This competition is open to majors only. The call usually goes out in November and closes in February.

Gertrude E. Slaughter Summer Study Scholarship

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, to participate in study abroad, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open to majors only. The call usually goes out in November and closes in February.

Logan Prize for Greek Translation

A monetary award in memory of Fellow of Classics, John Watson Logan (PhD '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

Pillinger Prize for Latin Translation

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965–1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

CLASSICAL STUDIES, CERTIFICATE

The Classical Studies certificate allows students to explore the literature, civilization, and culture of the ancient world. Students choose from a wide variety of courses (<https://guide.wisc.edu/courses/classics/>), including offerings in art, architecture, archaeology, gender studies, history, literature, philosophy, and politics. Plus, we count language courses, too! Latin (<https://guide.wisc.edu/courses/latin/>) and ancient Greek (<https://guide.wisc.edu/courses/greek/>) are regularly offered and provide the foundation for modern English vocabulary, giving context and insight into the history of the words we use today. Class sizes are small, making the experience more personal and creating opportunities for meaningful learning outcomes.

This combination of flexibility and variety are special features making the certificate attractive to students, allowing students the ability to explore their individual interests on the way to developing a more comprehensive understanding of the ancient world.

HOW TO GET IN

HOW TO GET IN

Declaring the classical studies certificate is as easy as meeting with the CANES advisor. Make an appointment using Starfish. (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>)

Please note: Classical humanities majors are **not** allowed to declare the certificate.

REQUIREMENTS

REQUIREMENTS

The certificate is 15 credits comprised of the following:

Code	Title	Credits
Intermediate/Advanced Literature and Culture		9
CLASSICS/ ART HIST 300	The Art and Archaeology of Ancient Greece	
CLASSICS/ ART HIST 304	The Art and Archaeology of Ancient Rome	
CLASSICS 308	Sex and Violence in the Ancient Near East	
CLASSICS 315	Africana Approaches to Biblical Interpretation	
CLASSICS 320	The Greeks	
CLASSICS 321	The Egyptians: History, Society, and Literature	
CLASSICS 322	The Romans	
CLASSICS/ JEWISH/ RELIG ST 323	The Bible and Film: Literature and Media	

CLASSICS/ HEBR-BIB/ JEWISH/ LITTRANS/ RELIG ST 332	Prophets of the Bible
CLASSICS/ JEWISH/ RELIG ST 335	King David in History and Tradition
CLASSICS 340	Conspiracy in the Ancient and Modern Worlds
CLASSICS/ GEN&WS 351	Women and Gender in the Classical World
CLASSICS/ GEN&WS 361	Sex and Power in Greece and Rome
CLASSICS/ HISTORY/ POLI SCI 362	Athenian Democracy
CLASSICS 371	Topics in Greek Culture
CLASSICS 373	Topics in Classical Culture
CLASSICS 420	Ancient Texts, Modern Contexts
CLASSICS 430	Topics in Classical Archaeology
CLASSICS/ ENVIR ST 488	Greeks, Romans and the Natural Environment
CLASSICS/ HISTORY/ RELIG ST 517	Religions of the Ancient Mediterranean
CLASSICS 523	Palmyra and the Palmyrenes
CLASSICS 591	Undergraduate Seminar: Approaches to the Classical World
CLASSICS 699	Directed Reading
GREEK 305	Third Semester Ancient Greek
GREEK 306	Fourth Semester Ancient Greek
HEBR-BIB 323	Intermediate Biblical Hebrew, I
HEBR-BIB 324	Intermediate Biblical Hebrew, II
LATIN 305	Third Semester Latin
LATIN 306	Fourth Semester Latin
LATIN 401	Readings in Latin Literature
ART HIST 301	Myths, Loves, and Lives in Greek Vases
ART HIST 302	Greek Sculpture
ART HIST/ CLASSICS 304	The Art and Archaeology of Ancient Rome
ART HIST 405	Cities and Sanctuaries of Ancient Greece
ART HIST 505	Proseminar in Ancient Art
HISTORY 303	A History of Greek Civilization
HISTORY 307	A History of Rome
PHILOS 430	History of Ancient Philosophy
PHILOS 454	Classical Philosophers

Literature and Culture Electives		6
CLASSICS 100	Legacy of Greece and Rome in Modern Culture	
CLASSICS 101	Topics in Classical and Ancient Near Eastern Studies	

CLASSICS 102	Topics in Classical and Ancient Near Eastern Literature
CLASSICS 103	Nature, Race, and Human Difference
CLASSICS/ HISTORY 110	The Ancient Mediterranean
CLASSICS 150	Ancient Greek and Roman Monsters
CLASSICS 205	Greek and Latin Origins of Medical Terms
CLASSICS 206	Classical Influences on Western Art and Science
CLASSICS/ JEWISH/ LITTRANS/ RELIG ST 227	Introduction to Biblical Literature (in English)
CLASSICS/ JEWISH 241	Introduction to Biblical Archaeology
CLASSICS 270	Classical Mythology
GREEK 103	First Semester Ancient Greek
GREEK 104	Second Semester Ancient Greek
HEBR-BIB 103	Elementary Biblical Hebrew, I
HEBR-BIB 104	Elementary Biblical Hebrew, II
HEBR-BIB 391	Intensive Elementary Biblical Hebrew
LATIN 103	First Semester Latin
LATIN 104	Second Semester Latin
LATIN 391	Elementary Intensive Latin
AN SCI 240	Ancient Animals and Peoples
ART HIST 201	History of Western Art I: From Pyramids to Cathedrals
HISTORY/ RELIG ST 208	Western Intellectual and Religious History to 1500
HISTORY 223	Explorations in European History (H)
ILS 201	Western Culture: Science, Technology, Philosophy I
ILS 203	Western Culture: Literature and the Arts I
ILS 205	Western Culture: Political, Economic, and Social Thought I

Total Credits**15**

¹ Courses taken Pass/Fail do not count in the certificate.

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA in all courses approved for the certificate
- At least 8 credits in the certificate, taken in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate knowledge of ancient Greek, Roman, and Near Eastern societies and cultures.
2. Demonstrate competence in the critical methodologies of textual and material analysis with a view to social and cultural interpretation.
3. Compare and critique ancient Greek, Roman, and Near Eastern societies and cultures to demonstrate intercultural competence and ethical reasoning.

ADVISING AND CAREERS

ADVISING AND CAREERS

If you like to plan, seeing your advisor is very important; it can make the difference between fitting in *Ancient Greek and Roman Monsters* and *Sex and Violence in the Ancient Near East* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading résumés and cover letters

Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career! Visit our Alumni page (<https://canes.wisc.edu/people/alumni/>) and our Career and Skill Development page (<https://canes.wisc.edu/undergraduate-studies/career-and-skill-development/>) for more information.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)

CLASSICS, BA

Admissions to the Classics BA/BS have been suspended as of summer 2024 and will be discontinued as of summer 2028. If you have any questions, please contact the department (<http://canes.wisc.edu/>).

See the Classical Humanities major (p. 594) instead.

Please consult the Classical and Ancient Near Eastern Studies advisor (advising@canes.wisc.edu) (advising@canes.wisc.edu) with questions about the Classics major.

HOW TO GET IN

HOW TO GET IN

Admissions to the Classics BA/BS have been suspended as of summer 2024 and will be discontinued as of summer 2028. If you have any questions, please contact the department (<http://canes.wisc.edu/>).

See the Classical Humanities major (p. 594) instead.

DECLARING THE MAJOR

For more information about the Classics major, contact advising@canes.wisc.edu

Students who declare the Classics major may not combine this major (“double major”) with the Classical Humanities major starting Fall 2023.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

Language

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

L&S Breadth

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced work Complete at least 60 credits at the intermediate or advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW–Madison Experience

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

Quality of Work	• 2.000 in all coursework at UW–Madison
	• 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

A major in Classics allows students to place primary emphasis on learning Greek or Latin, yet gain some language training in both. Whether the primary language of study is Greek or Latin, the major requires 23 credits and assumes students have taken the first two semesters of both languages prior to entering the major.

CLASSICS–LATIN EMPHASIS

Code	Title	Credits
GREEK courses:		
GREEK 305	Third Semester Ancient Greek	3
GREEK 306	Fourth Semester Ancient Greek	3
LATIN courses:		
LATIN 305	Third Semester Latin	4
LATIN 306	Fourth Semester Latin	4
LATIN 401	Readings in Latin Literature	3
Two LATIN courses at the 500 level, select from:		6
LATIN 505	Elementary Prose Composition	
LATIN 515	Vergil	
LATIN 519	Latin Poetry	
LATIN 520	Roman Drama	
LATIN 523	Roman Satire	
LATIN 524	Roman Novel	
LATIN 539	Latin Historical Writers	
LATIN 549	Latin Philosophical Writers	
LATIN 559	Latin Oratory	
LATIN/ MEDIEVAL 563	Mediaeval Latin	
Total Credits		23

CLASSICS–GREEK EMPHASIS

Code	Title	Credits
LATIN courses:		
LATIN 305	Third Semester Latin	4
LATIN 306	Fourth Semester Latin	4
GREEK courses:		
GREEK 305	Third Semester Ancient Greek	3
GREEK 306	Fourth Semester Ancient Greek	3
GREEK 401	Readings in Greek Literature	3
Two GREEK courses at the 500 level, select from:		6
GREEK 505	Greek Prose Composition	
GREEK 510	Homer	
GREEK 511	Hesiod	

GREEK 512	Greek Lyric Poets
GREEK 520	Greek Comedy
GREEK 521	Greek Tragedy
GREEK 530	Herodotus
GREEK 532	Thucydides
GREEK 551	Attic Orators
GREEK 560	Hellenistic Greek

Total Credits 23

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CLASSICS and major courses
- 2.000 GPA in at least 15 credits of upper-level work in the major¹
- 15 credits in CLASSICS, taken at UW–Madison

HONORS IN THE MAJOR

Students may declare Honors in the Classics Major in consultation with the Classics undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in Classics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in upper-level work in the major
- Complete the following coursework, with a grade of B or better:
 - CLASSICS 591 and
 - Senior Honors Thesis (CLASSICS 681 & CLASSICS 682) for a 6 credits

FOOTNOTES

¹ Courses at the Intermediate and Advanced levels are considered upper-level in this major.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Recognize, identify, and explain forms, syntax, and vocabulary of the classical and biblical languages.
2. Demonstrate close reading skills that emphasize accuracy and nuance in translation.
3. Demonstrate critical reading skills which emphasize textual analysis, interpretation, and evaluation.
4. Demonstrate competency with texts and authors from the classical and near eastern tradition.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits Spring	Credits
LATIN 103 or GREEK 103	4 LATIN 104 or GREEK 104	4
Communication Part A (complete during first year)	3 Quantitative Reasoning A (complete during first year)	3
Physical Science Breadth	3 Ethnic Studies	3
Social Science Breadth	4 Biological Science Breadth	3
	14	13

Second Year

Fall	Credits Spring	Credits

Elective	1 Elective	3
	13	15

Total Credits 120

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in *Vergil* or *Homer* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading résumés and cover letters

CAREERS

Humanities majors enable students to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose

- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- proper research design and methodology
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career! Visit our Alumni page (<https://canes.wisc.edu/people/alumni/>) and our Career and Skill Development page (<https://canes.wisc.edu/undergraduate-studies/career-and-skill-development/>) for more information.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS STUDY ABROAD

The department offers two options for summer study, UW–Classics in Greece and UW–Classics in Italy (<https://canes.wisc.edu/undergraduate-studies/study-abroad/>). Each three-week program is offered alternating summers and guided by a department faculty member.

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local, and university awards, CANES offers the following opportunities for financial support to our majors annually:

Ruth M. Kuhlman Undergraduate Scholarship

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is

a monetary award for undergraduates to benefit and advance their studies within the field of classics. The total amount of the award may be up to \$2,500, and the award may not be granted every academic year depending on the quality of entries and availability of funds. This competition is open to majors only. The call usually goes out in November and closes in February.

Gertrude E. Slaughter Summer Study Scholarship

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, to participate in study abroad, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open to majors only. The call usually goes out in November and closes in February.

Logan Prize for Greek Translation

A monetary award in memory of Fellow of Classics, John Watson Logan (PhD '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

Pillinger Prize for Latin Translation

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965–1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CLASSICS and major courses
- 2.000 GPA in at least 15 credits of upper-level work in the major¹
- 15 credits in CLASSICS, taken at UW–Madison

HONORS IN THE MAJOR

Students may declare Honors in the Classics Major in consultation with the Classics undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in Classics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in upper-level work in the major
- Complete the following coursework, with a grade of B or better:
 - CLASSICS 591 and
 - Senior Honors Thesis (CLASSICS 681 & CLASSICS 682) for a 6 credits

FOOTNOTES

¹ Courses at the Intermediate and Advanced levels are considered upper-level in this major.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Recognize, identify, and explain forms, syntax, and vocabulary of the classical and biblical languages.
2. Demonstrate close reading skills that emphasize accuracy and nuance in translation.
3. Demonstrate critical reading skills which emphasize textual analysis, interpretation, and evaluation.
4. Demonstrate competency with texts and authors from the classical and near eastern tradition.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading résumés and cover letters

CAREERS

Humanities majors enable students to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- proper research design and methodology
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career! Visit our Alumni page (<https://canes.wisc.edu/people/alumni/>) and our Career and Skill Development page (<https://canes.wisc.edu/undergraduate-studies/career-and-skill-development/>) for more information.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)

ADVISING AND CAREERS**ADVISING AND CAREERS****ADVISING**

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in *Vergil* or *Homer* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers

- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS STUDY ABROAD

The department offers two options for summer study, UW–Classics in Greece and UW–Classics in Italy (<https://canes.wisc.edu/undergraduate-studies/study-abroad/>). Each three-week program is offered alternating summers and guided by a department faculty member.

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local, and university awards, CANES offers the following opportunities for financial support to our majors annually:

Ruth M. Kuhlman Undergraduate Scholarship

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. The total amount of the award may be up to \$2,500, and the award may not be granted every academic year depending on the quality of entries and availability of funds. This competition is open to majors only. The call usually goes out in November and closes in February.

Gertrude E. Slaughter Summer Study Scholarship

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, to participate in study abroad, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open to majors only. The call usually goes out in November and closes in February.

Logan Prize for Greek Translation

A monetary award in memory of Fellow of Classics, John Watson Logan (PhD '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

Pillinger Prize for Latin Translation

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965–1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

LATIN, BA

Admissions to the Latin BA/BS are suspended as of fall 2024 and will be discontinued as of fall 2028. If you have any questions, please contact the department (<http://canes.wisc.edu/>).

Please consult the Classical and Ancient Near Eastern Studies advisor (advising@canes.wisc.edu) (advising@canes.wisc.edu) with questions about the Latin major.

HOW TO GET IN

HOW TO GET IN

Admissions to the Latin BA/BS are suspended as of fall 2024 and will be discontinued as of fall 2028. If you have any questions, please contact the department (<http://canes.wisc.edu/>).

DECLARING THE MAJOR

For more information about the Latin major, contact advising@canes.wisc.edu

Students who declare the Latin major may not combine this major (“double major”) with the Classical Humanities major starting Fall 2023.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

Language

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

L&S Breadth

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced work Complete at least 60 credits at the intermediate or advanced level.

Major

Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW-Madison Experience

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

Quality of Work

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

The Latin major requires 26 total credits from below:

Code	Title	Credits
Complete all of the following courses:		
LATIN 305	Third Semester Latin	4

LATIN 306	Fourth Semester Latin	4
LATIN 401	Readings in Latin Literature	3
Complete five courses from the following:		15
LATIN 505	Elementary Prose Composition	
LATIN 515	Vergil	
LATIN 519	Latin Poetry	
LATIN 520	Roman Drama	
LATIN 523	Roman Satire	
LATIN 524	Roman Novel	
LATIN 539	Latin Historical Writers	
LATIN 549	Latin Philosophical Writers	
LATIN 559	Latin Oratory	
LATIN/MEDIEVAL 563	Mediaeval Latin	
LATIN 681	Honors Thesis	
LATIN 682	Senior Honors Thesis	
LATIN 691	Senior Thesis	
LATIN 692	Senior Thesis	

Total Credits **26**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LATIN and all major courses
- 2.000 GPA in 15 upper-level credits in Residence¹
- 15 credits in LATIN, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the CANES undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

¹ Fulfills L&S Literature Breadth requirement.

² Except for LATIN 505 Elementary Prose Composition, all LATIN 500-level courses fulfill L&S Literature Breadth requirement.

ADVISING AND CAREERS

ADVISING AND CAREERS

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in *Vergil* or *Ovid* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading résumés

CAREERS

Humanities majors enable students to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- proper research design and methodology
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career! Visit our Alumni page (<https://canes.wisc.edu/people/alumni/>) and our Career and Skill Development page (<https://canes.wisc.edu/undergraduate-studies/career-and-skill-development/>) for more information.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS STUDY ABROAD

The department offers two options for summer study, UW–Classics in Greece and UW–Classics in Italy (<https://canes.wisc.edu/undergraduate-studies/study-abroad/>). Each three-week program is offered alternating summers and guided by a department faculty member.

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local, and university awards, CANES offers the following opportunities for financial support to our majors annually:

Ruth M. Kuhlman Undergraduate Scholarship

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. The total amount of the award may be up to \$2,500, and the award may not be granted every academic year depending on the quality of entries and availability of funds. This competition is open to majors only. The call usually goes out in November and closes in February.

Gertrude E. Slaughter Summer Study Scholarship

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, to participate in study abroad, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open to majors only. The call usually goes out in November and closes in February.

Logan Prize for Greek Translation

A monetary award in memory of Fellow of Classics, John Watson Logan (PhD '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

Pillinger Prize for Latin Translation

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

COMMUNICATION ARTS

The Communication Arts major offers a liberal arts approach to studying communication. The value of the liberal arts approach is that students not only learn specific skills, they also gain a deep understanding of communication theory, history, research, and criticism. Our students learn to apply communication principles in different contexts and with a variety of different media. As a result, the Communication Arts major prepares students for a wide range of jobs and careers, including those that don't exist yet.

Courses in Communication Arts deal with a diverse range of communication-related topics and approach them from a variety of theoretical, practical, and aesthetic perspectives. The curriculum is designed to foster an understanding of communication processes, improve communication and digital literacy skills, and develop the capacity for critical appraisal and reflection.

The Department of Communication Arts offers two concentrations in the major:

1. **Communication Science and Rhetorical Studies:** Students explore the social, psychological, and practical aspects of communication and human behavior with a focus on public, mass, online, organizational, group, and interpersonal communication.
2. **Radio–Television–Film:** Students explore the history, theory, criticism, cultural uses, and production practices of television, film, radio, and digital media.

DIGITAL CINEMA PRODUCTION CERTIFICATE

The Digital Cinema Production Certificate (p. 643) is tailored specifically for students interested in media creation, including film, television, documentary, and internet-based media.

DIGITAL STUDIES CERTIFICATE

The Digital Studies Certificate (p. 644) is designed to help students explore digital culture and build their skills in creating digital media. Students select courses from across several departments, including communication arts, to create their own individualized digital curriculum.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Communication Arts, BA (p. 621)
- Communication Arts, BS (p. 632)
- Digital Cinema Production, Certificate (p. 643)
- Digital Studies, Certificate (p. 644)

COMMUNICATION ARTS, BA

The Communication Arts major offers a liberal arts approach to studying communication. The value of the liberal arts approach is that students not only learn specific skills, they also gain a deep understanding of communication theory, history, research, and criticism. Our students learn to apply communication principles in different contexts and with a variety of different media. As a result, the Communication Arts major prepares students for a wide range of jobs and careers, including those that don't exist yet.

Courses in Communication Arts (https://guide.wisc.edu/courses/com_arts/) deal with a diverse range of communication-related topics and approach them from a variety of theoretical, practical, and aesthetic perspectives. The curriculum is designed to foster an understanding of communication processes, improve communication and digital literacy skills, and develop the capacity for critical appraisal and reflection.

The Communication Arts major has two named options:

- **Communication Science and Rhetorical Studies** (p. 625): explore the social, psychological, and practical aspects of communication and human behavior with a focus on public, mass, online, organizational, group, and interpersonal communication.
- **Radio–Television–Film** (p. 628): explore the history, theory, criticism, cultural uses, and production practices of television, film, radio, and digital media.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students may declare only one option in the major: Communication Science and Rhetorical Studies or Radio–Television–Film.

Non–Letters & Science students will need permission from their school or college to pursue an additional major in Communication Arts.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

- General Education
- Breadth–Humanities/Literature/Arts: 6 credits
 - Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth–Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

- Mathematics
- Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.
- Language
- Complete the fourth unit of a language other than English; OR
 - Complete the third unit of a language and the second unit of an additional language other than English.

- L&S Breadth
- 12 credits of Humanities, which must include 6 credits of literature; and
 - 12 credits of Social Science; and
 - 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW–Madison Experience	<ul style="list-style-type: none">• 30 credits in residence, overall; and• 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none">• 2.000 in all coursework at UW–Madison• 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Communication Arts offers two options within the major:

- Communication Science and Rhetorical Studies
- Radio–Television–Film

Students declare one of the two options and complete a minimum of 10 courses and at least 30 credits in the major. Please note that COM ARTS courses numbered below 200 as well as COM ARTS 605, COM ARTS 614, and COM ARTS 615 do not count in the major.

STUDENTS MUST SELECT ONE OF THE FOLLOWING OPTIONS:

View as listView as grid

- **COMMUNICATION ARTS: COMMUNICATION SCIENCE AND RHETORICAL STUDIES (P. 625)**
- **COMMUNICATION ARTS: RADIO-TELEVISION-FILM (P. 628)**

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA in all COM ARTS and major courses
- Minimum 2.000 GPA on at least 15 credits of upper-level work in the COM ARTS major, in residence. (Upper-level in the COM ARTS major includes courses at the Intermediate or Advanced level).
- 15 credits of COM ARTS major courses (200-699) taken on the UW-Madison campus.

HONORS IN THE MAJOR IN COMMUNICATION ARTS

Students may apply to pursue Honors in the Communication Arts major in consultation with a Communication Arts undergraduate advisor. To be accepted students must have:

- Completed the fundamentals course and the two core courses for their declared option and
- Earned a minimum 3.500 GPA in all COM ARTS courses

HONORS IN THE COMMUNICATION ARTS MAJOR REQUIREMENTS

To earn Honors in the Major in Communication Arts, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Minimum 3.300 University GPA
- Minimum 3.500 GPA for all COM ARTS major courses
- Complete the requirements for the declared major option, to include:
 - All theory, history, criticism courses taken to meet the regular major requirements within the declared option must be numbered 400 or higher.
 - One additional theory, history, criticism course numbered 400 or higher.
 - Three theory, history and criticism courses must be completed on campus.
 - A two-semester senior honors thesis in COM ARTS 681 and COM ARTS 682, for a total of 6 credits.¹

FOOTNOTES

¹ Submission and approval of a Senior Honors Thesis Proposal is required prior to the term in which students enroll for COM ARTS 681 Senior Honors Thesis. See the Communication Arts undergraduate advisor for current process. Approval of the completed thesis by the thesis advisor and a second Communication Arts faculty member is required.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Explain core content in either of the two tracks: Communication Science and Rhetorical Studies or Radio-TV-Film.
2. Analyze communication from theoretical, historical, and critical perspectives.
3. Communicate effectively in writing, orally, or via the creation of media content.
4. Participate in communication practices that support diversity, equity, and inclusion for the historically marginalized.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Please see any of the Named Options for a four-year plan.

ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Communication Arts website (<https://commarts.wisc.edu/undergraduate/declaring/>).

Non-Letters & Science students will need permission from their school or college to pursue an additional major in Communication Arts.

COMMUNICATION ARTS ACADEMIC ADVISING

Communication Arts academic advisors (<https://commarts.wisc.edu/undergraduate/advising/>) assist students throughout their undergraduate studies.

COMMUNICATION ARTS COURSES

The Communication Arts Department offers a wide array of courses (https://guide.wisc.edu/courses/com_arts/). All the courses listed in the Guide are not offered each semester. Please see Course Search & Enroll (<https://public.enroll.wisc.edu/>) for current course offerings.

CAREER EXPLORATION AND PREPARATION

Gain Experience

The Department of Communication Arts encourages students to apply the knowledge and skills they attain through coursework to professional settings. Internships and part-time jobs at television networks, nonprofit organizations, talent agencies, magazines, radio stations, advertising agencies, production companies, government agencies, and other communication-related businesses help students gain work-related experience and explore career options.

Communication Arts offers a one-credit, online academic course to accompany a student's internship experience: COM ARTS 614 Field Experience in Communication and COM ARTS 615 Second Field Experience in Communication.

Attend Events

Throughout the academic year, students have the opportunity to participate in several communication-focused, career-related events.

Communication Arts Alumni Careers at a Glance

After completing a Letters & Science bachelor's degree with a Communication Arts major, alumni pursue a variety of careers. In a recent survey, Communication Arts alumni were asked to provide and categorize their occupation. The results are available on the Department of Communication Arts website:

- Communication Science & Rhetorical Studies Alumni Careers (<https://commarts.wisc.edu/undergraduate/careers/>)
- Radio–Television–Film Alumni Careers (<https://commarts.wisc.edu/undergraduate/careers/>)

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE STUDENT ORGANIZATIONS

UW–Madison offers many opportunities to get involved. Communication Arts students join organizations across their areas of interest.

Department-Affiliated Organizations

- Communication Arts Student Association (<https://commarts.wisc.edu/casa/>) (CASA)
- Hollywood Badgers (<https://win.wisc.edu/organization/hollywoodbadgers/>)

STUDYING ABROAD

Communications Arts student are encouraged to look at study abroad programs (<https://studyabroad.wisc.edu/academics/major-advising-pages-maps/communication-arts/>) and opportunities across the globe. Our students have studied in cities such as London, Rome, Tel Aviv, Prague, Galway, Sydney, Madrid, Bologna, Cape Town, Paris, Copenhagen, and Buenos Aires. When planning for their semester abroad, students should think beyond courses required for their major. Students are encouraged to take courses from a variety of subjects to satisfy requirements and elective credits for their degree.

RESEARCH OPPORTUNITIES

Communication science research team members gain hands-on research experience. Undergraduate research assistants may learn to code and enter data, interview participants, gather and prepare research materials, run experiments, and perform other activities required to complete a research study. Reading and writing assignments related to the research activities are assigned throughout the semester. Opportunities to participate in a research team vary from semester to semester.

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Students apply for scholarships online through Wisconsin Scholarship Hub (<https://wisc.academicworks.com/>). The Department of Communication Arts offers the following scholarships:

- Scott M. Broetzmann Scholarship in Communication Arts
- Christopher Neal Heinlein Memorial Scholarships
- S. Nelson and Carmella M. Nelson Scholarship
- Charline M. Wackman Awards for Summer Session
- Charline M. Wackman Awards (Fall Term)
- Keith Harris Wyche Memorial Scholarship

SUMMER INTERNSHIP FUND

The Communication Arts Department and Alumni Summer Internship Fund helps Communication Arts majors participate in internships with businesses or non-profit organizations.

See the scholarship (<https://commarts.wisc.edu/undergraduate/scholarships/>) and internship fund (<https://commarts.wisc.edu/>)

undergraduate/internship-fund/) sections of the department website for additional details and opportunities.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

COMMUNICATION ARTS, BS

The Communication Arts major offers a liberal arts approach to studying communication. The value of the liberal arts approach is that students not only learn specific skills, they also gain a deep understanding of communication theory, history, research, and criticism. Our students learn to apply communication principles in different contexts and with a variety of different media. As a result, the Communication Arts major prepares

students for a wide range of jobs and careers, including those that don't exist yet.

Courses in Communication Arts (https://guide.wisc.edu/courses/com_arts/) deal with a diverse range of communication-related topics and approach them from a variety of theoretical, practical, and aesthetic perspectives. The curriculum is designed to foster an understanding of communication processes, improve communication and digital literacy skills, and develop the capacity for critical appraisal and reflection.

The Communication Arts major has two named options:

- Communication Science and Rhetorical Studies (p. 625): explore the social, psychological, and practical aspects of communication and human behavior with a focus on public, mass, online, organizational, group, and interpersonal communication.
- Radio-Television-Film (p. 628): explore the history, theory, criticism, cultural uses, and production practices of television, film, radio, and digital media.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students may declare only one option in the major: Communication Science and Rhetorical Studies or Radio-Television-Film.

Non-Letters & Science students will need permission from their school or college to pursue an additional major in Communication Arts.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
L&S Breadth	Complete: <ul style="list-style-type: none"> • 12 credits of Humanities, which must include at least 6 credits of Literature; and • 12 credits of Social Science; and • 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: <ul style="list-style-type: none"> • 30 credits in residence, overall, and • 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none"> • 2.000 in all coursework at UW-Madison • 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Communication Arts offers two options within the major:

- Communication Science and Rhetorical Studies
- Radio–Television–Film

Students declare one of the two options and complete a minimum of 10 courses and at least 30 credits in the major. Please note that COM ARTS courses numbered below 200 as well as COM ARTS 605, COM ARTS 614, and COM ARTS 615 do not count in the major.

STUDENTS MUST SELECT ONE OF THE FOLLOWING OPTIONS:

View as listView as grid

- **COMMUNICATION ARTS: COMMUNICATION SCIENCE AND RHETORICAL STUDIES (P. 625)**
- **COMMUNICATION ARTS: RADIO-TELEVISION-FILM (P. 628)**

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA in all COM ARTS and major courses
- Minimum 2.000 GPA on at least 15 credits of upper-level work in the COM ARTS major, in residence. (Upper-level in the COM ARTS major includes courses at the Intermediate or Advanced level).
- 15 credits of COM ARTS major courses (200-699) taken on the UW-Madison campus.

HONORS IN THE MAJOR IN COMMUNICATION ARTS

Students may apply to pursue Honors in the Communication Arts major in consultation with a Communication Arts undergraduate advisor. To be accepted students must have:

- Completed the fundamentals course and the two core courses for their declared option and
- Earned a minimum 3.500 GPA in all COM ARTS courses

HONORS IN THE COMMUNICATION ARTS MAJOR REQUIREMENTS

To earn Honors in the Major in Communication Arts, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Minimum 3.300 University GPA
- Minimum 3.500 GPA for all COM ARTS major courses
- Complete the requirements for the declared major option, to include:

- All theory, history, criticism courses taken to meet the regular major requirements within the declared option must be numbered 400 or higher.
- One additional theory, history, criticism course numbered 400 or higher.
- Three theory, history and criticism courses must be completed on campus.
- A two-semester senior honors thesis in COM ARTS 681 and COM ARTS 682, for a total of 6 credits.¹

FOOTNOTES

¹ Submission and approval of a Senior Honors Thesis Proposal is required prior to the term in which students enroll for COM ARTS 681 Senior Honors Thesis. See the Communication Arts undergraduate advisor for current process. Approval of the completed thesis by the thesis advisor and a second Communication Arts faculty member is required.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Explain core content in either of the two tracks: Communication Science and Rhetorical Studies or Radio-TV-Film.
2. Analyze communication from theoretical, historical, and critical perspectives.
3. Communicate effectively in writing, orally, or via the creation of media content.
4. Participate in communication practices that support diversity, equity, and inclusion for the historically marginalized.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Please see any of the Named Options for a four-year plan.

ADVISING AND CAREERS

ADVISING AND CAREERS
DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Communication Arts website (<https://commarts.wisc.edu/undergraduate/declaring/>).

Non-Letters & Science students will need permission from their school or college to pursue an additional major in Communication Arts.

COMMUNICATION ARTS ACADEMIC
ADVISING

Communication Arts academic advisors (<https://commarts.wisc.edu/undergraduate/advising/>) assist students throughout their undergraduate studies.

COMMUNICATION ARTS COURSES

The Communication Arts Department offers a wide array of courses (https://guide.wisc.edu/courses/com_arts/). All the courses listed in the Guide are not offered each semester. Please see Course Search & Enroll (<https://public.enroll.wisc.edu/>) for current course offerings.

CAREER EXPLORATION AND PREPARATION
Gain Experience

The Department of Communication Arts encourages students to apply the knowledge and skills they attain through coursework to professional settings. Internships and part-time jobs at television networks, nonprofit organizations, talent agencies, magazines, radio stations, advertising agencies, production companies, government agencies, and other communication-related businesses help students gain work-related experience and explore career options.

Communication Arts offers a one-credit, online academic course to accompany a student's internship experience: COM ARTS 614 Field Experience in Communication and COM ARTS 615 Second Field Experience in Communication .

Attend Events

Throughout the academic year, students have the opportunity to participate in several communication-focused, career-related events.

Communication Arts Alumni Careers at a Glance

After completing a Letters & Science bachelor's degree with a Communication Arts major, alumni pursue a variety of careers. In a recent survey, Communication Arts alumni were asked to provide and categorize their occupation. The results are available on the Department of Communication Arts website:

- Communication Science & Rhetorical Studies Alumni Careers (<https://commarts.wisc.edu/undergraduate/careers/>)
- Radio–Television–Film Alumni Careers (<https://commarts.wisc.edu/undergraduate/careers/>)

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE STUDENT ORGANIZATIONS

UW-Madison offers many opportunities to get involved. Communication Arts students join organizations across their areas of interest.

Department-Affiliated Organizations

- Communication Arts Student Association (<https://commarts.wisc.edu/casa/>) (CASA)
- Hollywood Badgers (<https://win.wisc.edu/organization/hollywoodbadgers/>)

STUDYING ABROAD

Communications Arts student are encouraged to look at study abroad programs (<https://studyabroad.wisc.edu/academics/major-advising-pages-maps/communication-arts/>) and opportunities across the globe. Our students have studied in cities such as London, Rome, Tel Aviv, Prague, Galway, Sydney, Madrid, Bologna, Cape Town, Paris, Copenhagen, and Buenos Aires. When planning for their semester abroad, students should think beyond courses required for their major. Students are encouraged to take courses from a variety of subjects to satisfy requirements and elective credits for their degree.

RESEARCH OPPORTUNITIES

Communication science research team members gain hands-on research experience. Undergraduate research assistants may learn to code and enter data, interview participants, gather and prepare research materials, run experiments, and perform other activities required to complete a research study. Reading and writing assignments related to the research activities are assigned throughout the semester. Opportunities to participate in a research team vary from semester to semester.

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Students apply for scholarships online through Wisconsin Scholarship Hub (<https://wisc.academicworks.com/>). The Department of Communication Arts offers the following scholarships:

- Scott M. Broetzmann Scholarship in Communication Arts
- Christopher Neal Heinlein Memorial Scholarships
- S. Nelson and Carmella M. Nelson Scholarship
- Charline M. Wackman Awards for Summer Session
- Charline M. Wackman Awards (Fall Term)
- Keith Harris Wyche Memorial Scholarship

SUMMER INTERNSHIP FUND

The Communication Arts Department and Alumni Summer Internship Fund helps Communication Arts majors participate in internships with businesses or non-profit organizations.

See the scholarship (<https://commarts.wisc.edu/undergraduate/scholarships/>) and internship fund (<https://commarts.wisc.edu/undergraduate/internship-fund/>) sections of the department website for additional details and opportunities.

² Excluding COM ARTS 605, COM ARTS 614 and COM ARTS 615.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

DIGITAL CINEMA PRODUCTION, CERTIFICATE

Explore the fundamentals of storytelling through the Digital Cinema Production certificate. Certificate students complete coursework in screenwriting, producing, directing, cinematography and sound, editing, and related fields. They master the aesthetic and technical tools of moving-image storytelling, learn creative decision making, employ collaborative work skills, and apply industry standards. The Digital Cinema Production certificate is relevant to undergraduates across campus who are considering careers in film, television, documentary, and internet-based media.

HOW TO GET IN

HOW TO GET IN CERTIFICATE DECLARATION REQUIREMENTS

To be eligible to declare the certificate, students must

1. complete COM ARTS 355 with a grade of B or higher;
2. earn a grade of B or higher in their first attempt of one of the following courses:

Code	Title	Credits
COM ARTS 465	Editing and Post-production for Video and Film	4
COM ARTS 466	Writing for Television and Film	3
COM ARTS 467	Cinematography and Sound Recording	4
COM ARTS 468	Producing for Internet TV and Video	3
COM ARTS 609	Special Topics in Production	3
COM ARTS 651	Advanced Video Production and Direction	3

Eligible students should contact a Communication Arts advisor to declare the certificate.

REQUIREMENTS

REQUIREMENTS

Four courses and at least 13 credits are required.

Code	Title	Credits
COM ARTS 355	Introduction to Media Production	4
Electives (complete three):		9
COM ARTS 465	Editing and Post-production for Video and Film	
COM ARTS 466	Writing for Television and Film	
COM ARTS 467	Cinematography and Sound Recording	
COM ARTS 468	Producing for Internet TV and Video	
COM ARTS 609	Special Topics in Production	
COM ARTS 651	Advanced Video Production and Direction	
COM ARTS 659	Advanced Motion Picture Production Workshop	

Total Credits **13**

RESIDENCE & QUALITY OF WORK

- Minimum 2.000 GPA in all certificate courses.
- At least 7 certificate credits must be completed in residence.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate mastery of the aesthetic and technical tools of moving-image story telling.
2. Analyze story structure and illustrate how their creative decisions support their interpretation of story.
3. Employ collaborative work skills to perform in the role of leaders or members of production crews/groups.
4. Analyze the meaning, form, and process of cinematic work with the goal of providing honest, critical, and instructive feedback.
5. Reproduce and apply industry standard methods for media pre-production, production and post-production, and explain the rationale for these methods.

ADVISING AND CAREERS

ADVISING AND CAREERS ACADEMIC ADVISING

The Department of Communication Arts academic advisors (<https://commarts.wisc.edu/undergraduate/advising/>) serve as the advisors for

the Digital Cinema Production certificate. Contact an advisor to learn more about the certificate, discuss eligibility, declare, or review certificate requirements.

CAREER ADVISING

The communications, media, and the arts career community advisor (<https://successworks.wisc.edu/what-are-career-communities/communications-media-and-the-arts/>) assists students with career preparation, such as exploring career options, strategies for the internship/job search, and networking opportunities.

DIGITAL CINEMA PRODUCTION COURSES

The selection of courses varies by semester. Please check Course Search and Enroll (<https://public.enroll.wisc.edu>) for current offerings.

CAREER EXPLORATION AND PREPARATION

Gain Experience

The Department of Communication Arts encourages students to apply the knowledge and skills they attain through coursework to professional settings. Internships and part-time jobs at television networks, production companies, nonprofit organizations, talent agencies, advertising agencies, and other media-related businesses help students gain work-related experience and explore career options. Emails and postings provide certificate students with information on opportunities across the country.

Attend Events

Throughout the academic year, students have the opportunity to participate in several communication-focused, career-related events.

Join a Student Organization

Learn more about the entertainment industry and career opportunities by joining the Hollywood Badgers (<https://win.wisc.edu/organization/hollywoodbadgers/>), a Communication Arts affiliated student organization.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

COMMUNICATION ARTS INSTRUCTIONAL MEDIA CENTER

The Instructional Media Center (<https://commarts.wisc.edu/imc/>) (IMC), in 3160 Vilas Hall, provides state-of-the-art equipment for Communication Arts media-production courses. The IMC circulates industry-standard camera, lighting, grip, and sound equipment for use on set. The Hamel Family Digital Media Lab's 70 editing stations and the department's two sound stages are also managed by the Instructional Media Center staff.

DIGITAL STUDIES, CERTIFICATE

The Digital Studies Certificate helps students learn about digital culture and develop their skills in producing digital media content. Each student that completes the Digital Studies Certificate will be able to better recognize what digital communication tools can do and how to use them.

Digital cultures are about relationships between people and the digital tools they use. To better understand those relationships, Digital Studies students think about two big questions:

- What impact do digital technologies have on our lives?
- How can we use digital tools to make our world a better place?

Digital Studies students approach these questions from four different perspectives:

- Digital Practice - learning how to use digital tools to produce better digital content
- Digital Media - learning how to assess digital media to better understand digital cultures
- Digital Information - learning how we use and produce digital archives, databases, and other digital information tools
- Digital Forms - learning how design impacts the ways we interpret and produce digital content

Students who earn the Digital Studies Certificate will be recognized as someone who can more quickly and more effectively use digital tools in any environment.

HOW TO GET IN

HOW TO GET IN

DECLARING THE DIGITAL STUDIES CERTIFICATE

Students are eligible to declare the certificate at any point in their undergraduate career. They should declare it as early as possible to plan the required coursework. Students are encouraged to meet with the Digital Studies advisor (<https://digitalstudies.wisc.edu/undergraduate-certificate/advising/>) to discuss certificate requirements and ensure it fits with their academic and career goals. Students who are

ready to declare the certificate now may complete this form (https://uwmadison.co1.qualtrics.com/jfe/form/SV_8kFLI3ADELQOln/).

REQUIREMENTS

REQUIREMENTS

The certificate requires a minimum of six courses and 16 credits. The courses must be distributed as follows:

CORE COURSES

Choose one course from this list:

Code	Title	Credits
COM ARTS 200	Introduction to Digital Communication	3
JOURN 175	Media Fluency for the Digital Age	3
L I S 201	The Information Society	4

DISTRIBUTION

Choose one course from each area (a unique course must be taken to satisfy each area):

Digital Practice (P) Courses

Code	Title	Credits
ART 107	Introduction to Digital Forms	3
ART 309	Digital Art and Code	4
ART 409	Digital Fabrication Studio	4
ART 428	Digital Imaging Studio	4
ART 429	3D Digital Studio I	4
COM ARTS 155	Introduction to Digital Media Production	4
COM ARTS 355	Introduction to Media Production	4
COM ARTS 449	Sound Cultures: Podcasting and Music	3
COM ARTS 465	Editing and Post-production for Video and Film	4
COM ARTS 468	Producing for Internet TV and Video	3
COM ARTS/ FOLKLORE 522	Digital Storytelling for Social Media	3
COMP SCI/L I S 102	Introduction to Computing	3
COMP SCI 200	Programming I	3
COMP SCI 220	Data Science Programming I	4
GEOG 370	Introduction to Cartography	4
JOURN 411	Multimedia Design	4
JOURN 425	Video Journalism	4
JOURN 445	Creative Campaign Messages	4
JOURN 449	Account Planning and Strategy	4
JOURN 463	Digital Media Strategies	4
JOURN 464	Public Relations Strategies	4
JOURN 465	Social Media Marketing Communications	4
L I S 341	Topics in Information Studies - Technological Aspects	1-3
L I S 351	Introduction to Digital Information	3

L I S 440	Navigating the Data Revolution: Concepts of Data & Information Science	3
L I S 500	Code and Power	3
LSC 314	Introduction to Digital Video Production	3
LSC 332	Digital and Print Media Design	3
LSC 360	Science Podcasting & Radio	3
LSC 432	Social Media for the Sciences	3
LSC 450	Documentary Photography for the Sciences	3
LSC 532	Web Design for the Sciences	3

Digital Media (M) Courses

Code	Title	Credits
COM ARTS 330	Music Industries and Popular Culture	3
COM ARTS 335	Social Media as Literature	3
COM ARTS 343	Human Communication in the Age of Artificial Intelligence (AI)	3
COM ARTS 344	Social Media & Well-Being	3
COM ARTS 345	Online Communication and Personal Relationships	3
COM ARTS 346	Critical Internet Studies	3
COM ARTS 377	Topics in Digital Studies (Communication Science & Rhetoric)	3
COM ARTS 379	Global Technology & Digital Culture	3
COM ARTS 449	Sound Cultures: Podcasting and Music	3
COM ARTS 459	New Media and Society	3
COM ARTS 547	Digital Game Cultures	3
COM ARTS 577	Dynamics of Online Relationships	3

CAPSTONE

The Capstone cannot be completed until students are in their senior year and have completed or are enrolled in their final course of the certificate.

Code	Title	Credits
COM ARTS 605	Digital Studies Capstone	1

RESIDENCE AND QUALITY OF WORK

- At least 9 Certificate credits in Residence
- Minimum 2.000 GPA in all Certificate courses

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES**LEARNING OUTCOMES**

1. To understand key theories and concepts related to digital studies and the historical context surrounding the creation of digital technologies.
2. To gain familiarity with methods, concepts and tools needed to research and evaluate information related to digital studies.
3. To think critically about how digital technologies work and their impact on society.
4. To be able to create strategic communication content and self-expression using digital tools.
5. To understand the professional and ethical principles related to the field of digital studies.

ADVISING AND CAREERS**ADVISING AND CAREERS**

Connecting and working with the digital studies advisor as early as possible helps you create a meaningful course plan and stay on track as you complete the certificate requirements. The advisor is available to consult on a variety of topics including:

- declaring the certificate;
- course selection;
- studying abroad;
- job and internship opportunities related to digital media; and
- preparing for the job market after graduation.

Make an appointment to talk with the Digital Studies advisor through Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/11236/schedule>).

COURSE PLANNING

The list of Digital Studies courses found on the Requirements tab (<https://guide.wisc.edu/undergraduate/letters-science/communication-arts/digital-studies-certificate/#requirements>) is the comprehensive list of all courses that count toward the certificate. To find out which courses are offered during a specific term, please refer to the program's Courses (<https://digitalstudies.wisc.edu/undergraduate-certificate/requirements-courses/#tailor-your-courses>) webpage. More specific information related to the course offerings is also available there, including specific course prerequisites, limited enrollment course information, and application requirements.

CAREER EXPLORATION AND ADVISING

Digital Studies Alumni

Since 2012, over 1,000 students have graduated with a Digital Studies Certificate. Digital Studies alumni pursue a variety of careers after completing their undergraduate degree. To learn more about what our alumni are up to, visit the Alumni Profiles page (<https://digitalstudies.wisc.edu/alumni/>) to read about the work they are doing and how Digital Studies has impacted their paths.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

Students who pursue the Digital Studies Certificate have access to unique and exciting courses where they not only study digital culture but learn to be savvy users and producers of digital media that they can use in their professional lives. Examples of work that students produce include websites, videos, illustrations, posters, podcasts, and more. See examples of student work on our website (<https://digitalstudies.wisc.edu/student-showcase/>).

Digital Studies Certificate students also have access to networking and alumni events featuring careers in digital media, internship and job

opportunities emailed directly to them, technology resources through the Instructional Media Center (<https://commarts.wisc.edu/imc/>), design consulting services through DesignLab (<https://designlab.wisc.edu/>), and opportunities to connect with fellow students through the Digital Media Student Organization (<https://win.wisc.edu/organization/digitalmediaorg/>). Through advising, students receive tailored recommendations based on their interests and are encouraged to seek out ways to apply the knowledge they are learning in the classroom through involvement in student organizations, volunteering, and internships.

COMMUNICATION SCIENCES AND DISORDERS

The major in communication sciences and disorders provides students with opportunities for study in the areas of speech-language pathology, audiology, and the normal aspects of speech, hearing, and language. Most students pursue this major because they hope to practice as licensed and/or certified clinicians in educational and medical-allied-health settings, assisting clients with communicative impairments arising from disease, trauma, predisposition, maladaptive learning, or unknown causes. Professional clinical practice follows completion of a master's degree in speech-language pathology (<https://guide.wisc.edu/graduate/communication-sciences-disorders/communication-sciences-disorders-ms/>), or a doctor of audiology degree (<https://guide.wisc.edu/graduate/communication-sciences-disorders/audiology-consortial-program-uw-stevens-point-aud/>), and involves evaluation and treatment based upon a firm theoretical understanding of normal processes of hearing, and of speech and language formulation, production, and perception. Some students pursue the undergraduate major as a foundation for a research career in speech, language or hearing sciences. Others pursue the major as a preliminary step toward advanced training in other professional fields (e.g., law, medicine, nursing, special education).

The department is accredited in speech-language pathology and in audiology by the Council on Academic Accreditation of the American Speech-Language-Hearing Association (ASHA). Therefore, academic courses and clinical practice in the Department of Communication Sciences and Disorders may be applied toward clinical certification by ASHA (speech language pathology or audiology), and toward state licensure.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Communication Sciences and Disorders, BA (p. 647)
- Communication Sciences and Disorders, BS (p. 651)

COMMUNICATION SCIENCES AND DISORDERS, BA

The Communication Sciences and Disorders major provides students with opportunities for study in the areas of speech-language pathology, audiology, and the normal aspects of speech, hearing, and language. Most students pursue this major because they hope to work as a licensed and certified clinical speech-language pathologist or audiologist, assisting

clients with communication impairments arising from acquired neurological conditions, developmental conditions, genetic conditions, or unknown causes. Professional clinical practice follows completion of a master's degree in speech-language pathology (<https://guide.wisc.edu/graduate/communication-sciences-disorders/communication-sciences-disorders-ms/>), or a doctor of audiology degree (<https://guide.wisc.edu/graduate/communication-sciences-disorders/audiology-consortial-program-uw-stevens-point-aud/>). Some students pursue the undergraduate major as a foundation for a research career in speech, language or hearing sciences. Others pursue the major as a preliminary step toward advanced training in other professional fields (e.g., medicine, nursing, special education), or as a liberal arts degree that could lead to a variety of different career paths (speech-language pathology assistant, educational assistant, line therapist).

The department is accredited in speech-language pathology and in audiology by the Council on Academic Accreditation of the American Speech-Language-Hearing Association (ASHA). Therefore, academic courses and clinical practica in the Department of Communication Sciences and Disorders may be applied toward clinical certification by ASHA (speech language pathology or audiology), and toward state licensure.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students are urged to consult with an undergraduate academic advisor as soon as they have decided to major in this field. Course sequencing in the major is not flexible. Certain courses are prerequisites to others.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed.

For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	<ul style="list-style-type: none">• Breadth—Humanities/Literature/Arts: 6 credits• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits• Breadth—Social Studies: 3 credits• Communication Part A & Part B *• Ethnic Studies *• Quantitative Reasoning Part A & Part B *
-------------------	---

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.
Language	<ul style="list-style-type: none">• Complete the fourth unit of a language other than English; OR• Complete the third unit of a language and the second unit of an additional language other than English.
L&S Breadth	<ul style="list-style-type: none">• 12 credits of Humanities, which must include 6 credits of literature; and• 12 credits of Social Science; and• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	<ul style="list-style-type: none">• 30 credits in residence, overall; and• 30 credits in residence after the 86th credit.

Quality of Work	• 2.000 in all coursework at UW–Madison
	• 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR CS&D COURSES

11 courses and 33 credits from:

Code	Title	Credits
CS&D 120	Cultural and Linguistic Diversity in Communication Sciences and Disorders	3
CS&D 201	Anatomy and Physiology of Speech Production	3
CS&D 202	Hearing Science	3
CS&D 210	Neural Basis of Communication	3
CS&D 240	Language Development in Children and Adolescents	3
CS&D 303	Speech Acoustics and Perception	3
CS&D 315	Phonetics and Phonological Development	3
CS&D 318	Voice, Craniofacial, and Fluency Disorders	3
CS&D 320	Introduction to Audiology	3
CS&D 425	Auditory Rehabilitation	3
CS&D 440	Child Language Disorders, Assessment and Intervention	3
Total Credits		33

COURSES IN RELATED AREAS

15 credits and one course from each of the following areas:

Psychology

Code	Title	Credits
PSYCH 202	Introduction to Psychology	3–4
HDFS 262	Development of the Young Child	3
HDFS 263	Development from Adolescence to Old Age	3

Statistics

Code	Title	Credits
STAT 301	Introduction to Statistical Methods	3
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	3
STAT 371	Introductory Applied Statistics for the Life Sciences	3
PSYCH 210	Basic Statistics for Psychology	3
SOC/C&E SOC 360	Statistics for Sociologists I	4

Linguistics

Code	Title	Credits
LINGUIS 101	Human Language	3
LINGUIS/ANTHRO/FOLKLORE/INTL ST 211	Global Language Issues	3
LINGUIS 303	Historical Linguistics	3
LINGUIS 237	Language in Wisconsin	3
LINGUIS/AMER IND 371	Survey of North American Indian Languages	3
LINGUIS/ANTHRO 430	Language and Culture	3–4
ENGL 214	The English Language	3
ENGL 314	Structure of English	3
ENGL 318	Second Language Acquisition	3
SPANISH 321	The Structure of Modern Spanish	3
SPANISH 331	Spanish Applied Linguistics	3
SPANISH 327	Introduction to Spanish Linguistics	3

Biological Sciences in the Major

Code	Title	Credits
ANTHRO 105	Principles of Biological Anthropology	3
ANTHRO/BOTANY/ZOOLOGY 410	Evolutionary Biology	3
BIOCHEM 104	Molecules to Life and the Nature of Science ¹	3
BIOCORE 381	Evolution, Ecology, and Genetics	3
BIOLOGY/BOTANY/ZOOLOGY 151	Introductory Biology	5
ZOOLOGY/BIOLOGY 101	Animal Biology	3

Physical Sciences in the Major

Code	Title	Credits
BIOCHEM 104	Molecules to Life and the Nature of Science ¹	3
CHEM 103	General Chemistry I	4
CHEM 108	Chemistry in Our World	5
CHEM 109	Advanced General Chemistry	5
PHYSICS 103	General Physics	4
PHYSICS 107	The Ideas of Modern Physics	3
PHYSICS 109	Physics in the Arts	3

ELECTIVES

Code	Title	Credits
CS&D 110	Introduction to Communicative Disorders	3
CS&D 371	Pre–Clinical Observation of Children and Adults	3
CS&D 424	Sign Language I	2

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CS&D and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence²
- 15 credits in CS&D, taken on the UW–Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Communication Sciences and Disorders Major in consultation with the undergraduate advisor in that department.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in Communications Sciences and Disorders, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all CS&D and major courses
- Complete the following courses for Honors earning a grade of B or better in each:

Code	Title	Credits
CS&D 481	Undergraduate Junior Honors	3
CS&D 681 & CS&D 682	Senior Honors Thesis and Senior Honors Thesis	6
2 of the following for Honors:		6
CS&D 303	Speech Acoustics and Perception	
CS&D 320	Introduction to Audiology	
CS&D 440	Child Language Disorders, Assessment and Intervention	
Total Credits		15

FOOTNOTES

¹ BIOCHEM 104 can meet either the "Biological Science in the Major" or the "Physical Science in the Major" requirement, but not both. Please note that this course will *not* meet students' L&S Physical Science breadth *degree requirement*.

² These courses are considered upper level in the major: CS&D 303, CS&D 315, CS&D 318, CS&D 320, CS&D 371, CS&D 424, CS&D 425, CS&D 440, CS&D 699

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Acquire a foundational understanding of basic anatomy and physiology of speech, language, and hearing.
2. Understand integrative neuroscience foundations of speech, language, and hearing.
3. Obtain basic knowledge in statistical sciences, linguistics, biological/physical sciences, social sciences, and humanities as related to Communication Sciences & Disorders.
4. Develop an understanding of speech, language, and hearing disorders and the relationship to foundational aspects of speech, language and hearing science.
5. Be prepared for graduate school and/or a career in Communication Sciences & Disorders and related areas.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Please refer to the Requirements tab in Guide for additional College of Letters and Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

Total Credits 120

Students seeking to pursue graduate study in speech-language pathology or audiology are urged to take CS&D 371 Pre-Clinical Observation of Children and Adults to earn ASHA observation hours which are required for graduate school admission.

The American Speech-Language-Hearing Association (ASHA) Standard IV-A (<https://www.asha.org/Certification/Course-Content-Areas-for-SLP-Standards/>) requires that Communication Sciences and Disorders students planning on continuing to graduate school must complete undergraduate coursework in the following areas: Biological Sciences, Physical Sciences (either Chemistry or Physics), Statistics, and Social Sciences and Behavioral Sciences to be eligible for professional certification. If you have questions about this, please contact undergrad@csd.wisc.edu.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

ADVISING AND CAREERS**ADVISING AND CAREERS
DECLARE OR CANCEL THIS MAJOR**

Please follow the process described on the Communication Sciences and Disorders website (<https://csd.wisc.edu/undergraduate/declaring-major/>).

Communication Sciences and Disorders advising services are focused on students who need to declare the major or who have already declared Communication Sciences and Disorders and need advising in the major.

A Communication Sciences and Disorders advisor can help with:

- Curricular planning and course access
- DARS interpretation
- Declaration of the major for L&S students
- Documentation of study abroad plans
- Identification, interpretation and application of most academic policies
- Major and degree requirements
- Exploration of interests in independent study and research
- Understanding the differences between paths to the major.

**COMMUNICATION SCIENCES
AND DISORDERS, BS**

The Communication Sciences and Disorders major provides students with opportunities for study in the areas of speech-language pathology, audiology, and the normal aspects of speech, hearing, and language. Most students pursue this major because they hope to work as a licensed and certified clinical speech-language pathologist or audiologist, assisting clients with communication impairments arising from acquired neurological conditions, developmental conditions, genetic conditions, or unknown causes. Professional clinical practice follows completion of a master's degree in speech-language pathology (<https://guide.wisc.edu/graduate/communication-sciences-disorders/communication-sciences-disorders-ms/>), or a doctor of audiology degree (<https://guide.wisc.edu/graduate/communication-sciences-disorders/audiology-consortial-program-uw-stevens-point-aud/>). Some students pursue the undergraduate major as a foundation for a research career in speech, language or hearing sciences. Others pursue the major as a preliminary step toward advanced training in other professional fields (e.g., medicine, nursing, special education), or as a liberal arts degree that could lead to a variety of different career paths (speech-language pathology assistant, educational assistant, line therapist).

The department is accredited in speech–language pathology and in audiology by the Council on Academic Accreditation of the American Speech–Language–Hearing Association (ASHA). Therefore, academic courses and clinical practica in the Department of Communication Sciences and Disorders may be applied toward clinical certification by ASHA (speech language pathology or audiology), and toward state licensure.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students are urged to consult with an undergraduate academic advisor as soon as they have decided to major in this field. Course sequencing in the major is not flexible. Certain courses are prerequisites to others.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	<ul style="list-style-type: none">• Breadth—Humanities/Literature/Arts: 6 credits• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits• Breadth—Social Studies: 3 credits• Communication Part A & Part B *• Ethnic Studies *• Quantitative Reasoning Part A & Part B *
-------------------	---

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
L&S Breadth	Complete: <ul style="list-style-type: none">• 12 credits of Humanities, which must include at least 6 credits of Literature; and• 12 credits of Social Science; and• 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW–Madison Experience	Complete both: <ul style="list-style-type: none">• 30 credits in residence, overall, and• 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none">• 2.000 in all coursework at UW–Madison• 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR CS&D COURSES

11 courses and 33 credits from:

Code	Title	Credits
CS&D 120	Cultural and Linguistic Diversity in Communication Sciences and Disorders	3
CS&D 201	Anatomy and Physiology of Speech Production	3
CS&D 202	Hearing Science	3
CS&D 210	Neural Basis of Communication	3
CS&D 240	Language Development in Children and Adolescents	3
CS&D 303	Speech Acoustics and Perception	3
CS&D 315	Phonetics and Phonological Development	3
CS&D 318	Voice, Craniofacial, and Fluency Disorders	3
CS&D 320	Introduction to Audiology	3
CS&D 425	Auditory Rehabilitation	3
CS&D 440	Child Language Disorders, Assessment and Intervention	3
Total Credits		33

COURSES IN RELATED AREAS

15 credits and one course from each of the following areas:

Psychology

Code	Title	Credits
PSYCH 202	Introduction to Psychology	3-4
HDFS 262	Development of the Young Child	3
HDFS 263	Development from Adolescence to Old Age	3

Statistics

Code	Title	Credits
STAT 301	Introduction to Statistical Methods	3
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	3
STAT 371	Introductory Applied Statistics for the Life Sciences	3
PSYCH 210	Basic Statistics for Psychology	3
SOC/C&E SOC 360	Statistics for Sociologists I	4

Linguistics

Code	Title	Credits
LINGUIS 101	Human Language	3
LINGUIS/ANTHRO/FOLKLORE/INTL ST 211	Global Language Issues	3
LINGUIS 303	Historical Linguistics	3
LINGUIS 237	Language in Wisconsin	3
LINGUIS/AMER IND 371	Survey of North American Indian Languages	3
LINGUIS/ANTHRO 430	Language and Culture	3-4
ENGL 214	The English Language	3
ENGL 314	Structure of English	3
ENGL 318	Second Language Acquisition	3
SPANISH 321	The Structure of Modern Spanish	3
SPANISH 331	Spanish Applied Linguistics	3
SPANISH 327	Introduction to Spanish Linguistics	3

Biological Sciences in the Major

Code	Title	Credits
ANTHRO 105	Principles of Biological Anthropology	3
ANTHRO/BOTANY/ZOOLOGY 410	Evolutionary Biology	3
BIOCHEM 104	Molecules to Life and the Nature of Science ¹	3
BIOCORE 381	Evolution, Ecology, and Genetics	3
BIOLOGY/BOTANY/ZOOLOGY 151	Introductory Biology	5
ZOOLOGY/BIOLOGY 101	Animal Biology	3

Physical Sciences in the Major

Code	Title	Credits
BIOCHEM 104	Molecules to Life and the Nature of Science ¹	3
CHEM 103	General Chemistry I	4
CHEM 108	Chemistry in Our World	5
CHEM 109	Advanced General Chemistry	5
PHYSICS 103	General Physics	4
PHYSICS 107	The Ideas of Modern Physics	3
PHYSICS 109	Physics in the Arts	3

ELECTIVES

Code	Title	Credits
CS&D 110	Introduction to Communicative Disorders	3
CS&D 371	Pre-Clinical Observation of Children and Adults	3
CS&D 424	Sign Language I	2

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CS&D and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence²
- 15 credits in CS&D, taken on the UW–Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Communication Sciences and Disorders Major in consultation with the undergraduate advisor in that department.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in Communications Sciences and Disorders, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all CS&D and major courses
- Complete the following courses for Honors earning a grade of B or better in each:

Code	Title	Credits
CS&D 481	Undergraduate Junior Honors	3
CS&D 681 & CS&D 682	Senior Honors Thesis and Senior Honors Thesis	6
2 of the following for Honors:		6
CS&D 303	Speech Acoustics and Perception	
CS&D 320	Introduction to Audiology	
CS&D 440	Child Language Disorders, Assessment and Intervention	
Total Credits		15

FOOTNOTES

¹ BIOCHEM 104 can meet either the "Biological Science in the Major" or the "Physical Science in the Major" requirement, but not both. Please note that this course will *not* meet students' L&S Physical Science breadth *degree requirement*.

² These courses are considered upper level in the major: CS&D 303, CS&D 315, CS&D 318, CS&D 320, CS&D 371, CS&D 424, CS&D 425, CS&D 440, CS&D 699

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Acquire a foundational understanding of basic anatomy and physiology of speech, language, and hearing.
2. Understand integrative neuroscience foundations of speech, language, and hearing.
3. Obtain basic knowledge in statistical sciences, linguistics, biological/physical sciences, social sciences, and humanities as related to Communication Sciences & Disorders.
4. Develop an understanding of speech, language, and hearing disorders and the relationship to foundational aspects of speech, language and hearing science.
5. Be prepared for graduate school and/or a career in Communication Sciences & Disorders and related areas.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Please refer to the Requirements tab in Guide for additional College of Letters and Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

First Year

Total Credits 120

Students seeking to pursue graduate study in speech-language pathology or audiology are urged to take CS&D 371 Pre-Clinical Observation of Children and Adults to earn ASHA observation hours which are required for graduate school admission.

The American Speech-Language-Hearing Association (ASHA) Standard IV-A (<https://www.asha.org/Certification/Course-Content-Areas-for-SLP-Standards/>) requires that Communication Sciences and Disorders students planning on continuing to graduate school must complete undergraduate coursework in the following areas: Biological Sciences, Physical Sciences (either Chemistry or Physics), Statistics, and Social Sciences and Behavioral Sciences to be eligible for professional certification. If you have questions about this, please contact undergrad@csd.wisc.edu.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

ADVISING AND CAREERS**ADVISING AND CAREERS
DECLARE OR CANCEL THIS MAJOR**

Please follow the process described on the Communication Sciences and Disorders website (<https://csd.wisc.edu/undergraduate/declaring-major/>).

Communication Sciences and Disorders advising services are focused on students who need to declare the major or who have already declared Communication Sciences and Disorders and need advising in the major.

A Communication Sciences and Disorders advisor can help with:

- Curricular planning and course access
- DARS interpretation
- Declaration of the major for L&S students
- Documentation of study abroad plans
- Identification, interpretation and application of most academic policies
- Major and degree requirements
- Exploration of interests in independent study and research
- Understanding the differences between paths to the major.

COMPUTER SCIENCES

Our graduates discover the field of computer science helps open up a world of possibilities.

Computer scientists enjoy exceptional career opportunities, in settings ranging from large, established companies to adventurous new start-ups. They are also well qualified to pursue graduate study in a number of fields.

Our students are creative, analytical problem-solvers. Computer science is a rich, collaborative, and varied field that you will find challenging, no matter where your individual interests lie.

And there is more to computer science than programming. While software engineering is an important skill, computer scientists also work with robots and other physical devices, design hardware that runs faster and more efficiently, and apply machine learning techniques to gain insight from large data sets—to name just a few examples.

Because computer science has become highly interconnected with medicine, business, and many other fields, it is a great fit with other interests you may have. You will enjoy a strong career outlook while having an impact on society.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/
CERTIFICATES

- Computer Sciences, BA (p. 656)
- Computer Sciences, BS (p. 660)
- Computer Sciences, Certificate (p. 665)

HOW TO GET IN

HOW TO GET IN
DECLARATION REQUIREMENTS

To declare the computer sciences major, students must meet the following requirements:

- Credit for COMP SCI 300 and MATH 222
- Grade of BC or higher in one of these introductory programming courses, taken at UW-Madison: COMP SCI 300, COMP SCI/E C E 354 or COMP SCI 400
- 2.250 GPA or higher among major declaration eligible coursework¹

¹ For purposes of computer sciences major declaration requirements, GPA calculation includes:

- UW-Madison courses only
- All attempts up to the first passed attempt of a course. A passed attempt is a grade of D or higher.
- All eligible major declaration coursework completed at the time of submitting a major declaration request.

If a student needs additional coursework to meet the 2.250 GPA requirement, COMP SCI/MATH 240, COMP SCI/E C E 354, and/or COMP SCI 400 Programming III may also be used.

It is advisable to submit a Computer Sciences major declaration request as soon as a student meets all three declaration requirements. Students having difficulties meeting the above requirements should schedule a meeting with a computer sciences advisor. For instructions on declaring the major, see the Department of Computer Sciences website (<https://www.cs.wisc.edu/undergraduate/ba-bs-in-compsci/>).

REQUIREMENTS

UNIVERSITY GENERAL
EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General
Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS
& SCIENCE DEGREE
REQUIREMENTS: BACHELOR OF
ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE
REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

Language	<ul style="list-style-type: none"> • Complete the fourth unit of a language other than English; OR • Complete the third unit of a language and the second unit of an additional language other than English.
L&S Breadth	<ul style="list-style-type: none"> • 12 credits of Humanities, which must include 6 credits of literature; and • 12 credits of Social Science; and • 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	<ul style="list-style-type: none"> • 30 credits in residence, overall; and • 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none"> • 2.000 in all coursework at UW-Madison • 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students must complete a minimum of 48 total credits as detailed below.

BASIC COMPUTER SCIENCES

Code	Title	Credits
COMP SCI/ MATH 240	Introduction to Discrete Mathematics	3
COMP SCI/ E C E 252	Introduction to Computer Engineering	3
COMP SCI 300	Programming II	3
COMP SCI/ E C E 354	Machine Organization and Programming	3
COMP SCI 400	Programming III	3
Total Credits		15

BASIC CALCULUS

Code	Title	Credits
Complete one of these sequences: 9-14		
MATH 221 & MATH 222	Calculus and Analytic Geometry 1 and Calculus and Analytic Geometry 2	

MATH 171 & MATH 217 & MATH 222	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2
--------------------------------------	---

Total Credits **9-14**

ADDITIONAL MATHEMATICS

Linear Algebra

Code	Title	Credits
Complete one:		
MATH 320	Linear Algebra and Differential Equations	3
MATH 340	Elementary Matrix and Linear Algebra	3
MATH 345	Linear Algebra and Optimization	4
MATH 341	Linear Algebra	3
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	5

Probability or Statistics

Code	Title	Credits
Complete one:		
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I	3
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	3
STAT 324	Introduction to Statistics for Science and Engineering	3
MATH 331	Introductory Probability	3
STAT 333	Applied Regression Analysis	3
STAT 340	Data Science Modeling II	4
STAT 371	Introductory Applied Statistics for the Life Sciences	3
STAT/MATH 431	Introduction to the Theory of Probability	3
MATH 531	Probability Theory	3

ADVANCED COMPUTER SCIENCE COURSES¹

Theory of Computer Science

Code	Title	Credits
Complete one: 3		
COMP SCI 577	Introduction to Algorithms	
COMP SCI 520	Introduction to Theory of Computing	

Software & Hardware

Code	Title	Credits
Complete two: 6-8		
COMP SCI 407	Foundations of Mobile Systems and Applications	
COMP SCI/ E C E 506	Software Engineering

COMP SCI/ DS 579	Virtual Reality
COMP SCI 620	Computer Sciences Capstone
COMP SCI 640	Introduction to Computer Networks
COMP SCI 642	Introduction to Information Security

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all COMP SCI courses and courses counting toward the major
- 2.000 GPA on 15 upper-level credits, taken in residence²
- 15 credits in COMP SCI, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Computer Sciences Major in consultation with the Computer Sciences undergraduate coordinator(s). To earn Honors in the Major in Computer Sciences, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a minimum 3.300 University GPA
- Earn a minimum 3.500 GPA for all COMP SCI and major courses
- Complete one COMP SCI course numbered 500 through 699, taken for Honors with a grade of B or higher
- Complete COMP SCI 681 and COMP SCI 682 for a total of 6 credits.³

FOOTNOTES

- ¹ COMP SCI courses may only fulfill one COMP SCI major requirement area. For example, if you take a course for the COMP SCI Applications requirement, it cannot also apply to the COMP SCI Elective requirement.
- ² COMP SCI courses numbered 400 through 699 count as Upper Level.
- ³ Senior Honors Thesis proposal must be approved by the thesis/project advisor and student must be declared as Honors in the Major before enrollment in COMP SCI 681. A final thesis or project must be completed before a final grade for COMP SCI 682 can be awarded.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Recognize and apply the core principles of Computing (abstractions and algorithms) to solve real-world problems.
2. Describe and apply the theoretical foundations of Computer Science (e.g., complexity analysis) in practical settings.
3. Demonstrate knowledge of key elements of computer systems, e.g., hardware, operating systems, networks.
4. Use fundamental and detailed knowledge, skills, and tools (e.g., specific algorithms, techniques methods, etc.) of computer science and develop the ability to acquire new knowledge, skills, and tools.
5. Design, implement, and evaluate software in multiple programming paradigms and languages.
6. Develop a substantial piece of software, and recognize the challenges of designing and developing software.
7. Exhibit technical (designing, implementing, and testing) and teamwork (communication, collaboration, and professional practice) skills in order to develop solutions as a computer science practitioner.
8. Can solve problems by applying a broad toolbox of knowledge and techniques.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

ADVISING AND CAREERS

ADVISING AND CAREERS**ADVISING**

The undergraduate coordinators in the Department of Computer Sciences are ready to help students with questions about the major, L&S degree requirements and policy, and course selection. Information on academic advising for students interested or declared in the computer sciences major is posted on the Computer Sciences advising page (<https://www.cs.wisc.edu/undergraduate/undergraduate-advisors/>).

CAREERS

Demand for those with a computer sciences education is exceptionally strong. According to figures from the U.S. Bureau of Labor Statistics, the vast majority of growth in STEM (science, technology, engineering, and math) occupations through 2020 will occur within computing fields.

Computer Sciences students are encouraged to begin working on their career exploration and preparation soon after arriving on campus to explore different career paths, participate in co-ops or summer internships, prepare for the job search and/or graduate school applications, and network with professionals in the field.

Department of Computer Sciences: the department hosts one major career fair (<https://www.cs.wisc.edu/connect/job-fair/>) per year, in the fall, as well as other opportunities to connect with employers, such as technical talks and information sessions.

SuccessWorks at the College of Letters & Science: SuccessWorks offers two major career fairs per year, assists with resume writing and interviewing skills, and offers individual career advising appointments for L&S students.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Visit the Wisconsin Scholarship Hub (<https://wisc.academicworks.com/>) to find UW-Madison scholarships and apply online.

Visit the scholarships page (<https://www.cs.wisc.edu/academics/scholarships/>) on the Department of Computer Sciences website for a compendium of opportunities available to students studying computer sciences.

COMPUTER SCIENCES, BS

Our graduates discover the field of computer science helps open up a world of possibilities.

Computer scientists enjoy exceptional career opportunities, in settings ranging from large, established companies to adventurous new start-ups. They are also well qualified to pursue graduate study in a number of fields.

Our students are creative, analytical problem-solvers. Computer science is a rich, collaborative, and varied field that you will find challenging, no matter where your individual interests lie.

And there is more to computer science than programming. While software engineering is an important skill, computer scientists also work with robots and other physical devices, design hardware that runs faster and more efficiently, and apply machine learning techniques to gain insight from large data sets—to name just a few examples.

Because computer science has become highly interconnected with medicine, business, and many other fields, it is a great fit with other

interests you may have. You will enjoy a strong career outlook while having an impact on society.

HOW TO GET IN

HOW TO GET IN DECLARATION REQUIREMENTS

To declare the computer sciences major, students must meet the following requirements:

- Credit for COMP SCI 300 and MATH 222
- Grade of BC or higher in one of these introductory programming courses, taken at UW-Madison: COMP SCI 300, COMP SCI/E C E 354 or COMP SCI 400
- 2.250 GPA or higher among major declaration eligible coursework¹

¹ For purposes of computer sciences major declaration requirements, GPA calculation includes:

- UW-Madison courses only
- All attempts up to the first passed attempt of a course. A passed attempt is a grade of D or higher.
- All eligible major declaration coursework completed at the time of submitting a major declaration request.

If a student needs additional coursework to meet the 2.250 GPA requirement, COMP SCI/MATH 240, COMP SCI/E C E 354, and/or COMP SCI 400 Programming III may also be used.

It is advisable to submit a Computer Sciences major declaration request as soon as a student meets all three declaration requirements.

Students having difficulties meeting the above requirements should schedule a meeting with a computer sciences advisor.

For instructions on declaring the major, see the Department of Computer Sciences website (<https://www.cs.wisc.edu/undergraduate/ba-bs-in-compsci/>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

Language Complete the third unit of a language other than English.

L&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced Coursework Complete at least 60 credits at the Intermediate or Advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW-Madison Experience Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

Quality of Work

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students must complete a minimum of 48 total credits as detailed below.

BASIC COMPUTER SCIENCES

Code	Title	Credits
COMP SCI/ MATH 240	Introduction to Discrete Mathematics	3
COMP SCI/ E C E 252	Introduction to Computer Engineering	3
COMP SCI 300	Programming II	3
COMP SCI/ E C E 354	Machine Organization and Programming	3
COMP SCI 400	Programming III	3
Total Credits		15

BASIC CALCULUS

Code	Title	Credits
Complete one of these sequences:		9-14
MATH 221 & MATH 222	Calculus and Analytic Geometry 1 and Calculus and Analytic Geometry 2	
MATH 171 & MATH 217 & MATH 222	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2	
Total Credits		9-14

ADDITIONAL MATHEMATICS

Linear Algebra

Code	Title	Credits
Complete one:		
MATH 320	Linear Algebra and Differential Equations	3
MATH 340	Elementary Matrix and Linear Algebra	3
MATH 345	Linear Algebra and Optimization	4
MATH 341	Linear Algebra	3
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	5

Probability or Statistics

Code	Title	Credits
Complete one:		
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I	3
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	3

STAT 324	Introduction to Statistics for Science and Engineering	3
MATH 331	Introductory Probability	3
STAT 333	Applied Regression Analysis	3
STAT 340	Data Science Modeling II	4
STAT 371	Introductory Applied Statistics for the Life Sciences	3
STAT/MATH 431	Introduction to the Theory of Probability	3
MATH 531	Probability Theory	3

ADVANCED COMPUTER SCIENCE COURSES¹
Theory of Computer Science

Code	Title	Credits
Complete one:		3
COMP SCI 577	Introduction to Algorithms	
COMP SCI 520	Introduction to Theory of Computing	

Software & Hardware

Code	Title	Credits
Complete two:		6-8
COMP SCI 407	Foundations of Mobile Systems and Applications	
COMP SCI/ E C E 506	Software Engineering	
COMP SCI 536	Introduction to Programming Languages and Compilers	
or COMP SCI 531Introduction to the Theory and Design of Programming Languages		
COMP SCI 537	Introduction to Operating Systems	
COMP SCI 542	Introduction to Software Security	
COMP SCI 544	Introduction to Big Data Systems	
COMP SCI/ E C E 552	Introduction to Computer Architecture	
COMP SCI 557	Parallel & Throughput- Optimized Programming	
COMP SCI 564	Database Management Systems: Design and Implementation	
COMP SCI 640	Introduction to Computer Networks	
COMP SCI 642	Introduction to Information Security	

Applications

Code	Title	Credits
Complete one:		3
COMP SCI 412	Introduction to Numerical Methods	
COMP SCI/I SY E/ MATH 425	Introduction to Combinatorial Optimization	
COMP SCI/ MATH 513	Numerical Linear Algebra	
COMP SCI/ MATH 514	Numerical Analysis	
COMP SCI/E C E/ I SY E 524	Introduction to Optimization	
COMP SCI/I SY E/ MATH/STAT 525	Linear Optimization	

COMP SCI 534	Computational Photography
COMP SCI 540	Introduction to Artificial Intelligence
COMP SCI 541	Theory & Algorithms for Data Science
COMP SCI 559	Computer Graphics
COMP SCI 565	Introduction to Data Visualization
COMP SCI 566	Introduction to Computer Vision
COMP SCI 570	Introduction to Human-Computer Interaction
COMP SCI 571	Building User Interfaces

Electives¹

Code	Title	Credits
Complete two:		6-8
COMP SCI 407	Foundations of Mobile Systems and Applications	
COMP SCI 412	Introduction to Numerical Methods	
COMP SCI/I SY E/ MATH 425	Introduction to Combinatorial Optimization	
COMP SCI/E C E/ MATH 435	Introduction to Cryptography	
COMP SCI/STAT 471	Introduction to Computational Statistics	
COMP SCI/ MATH/STAT 475	Introduction to Combinatorics	
COMP SCI/ E C E 506	Software Engineering	
COMP SCI/ MATH 513	Numerical Linear Algebra	
COMP SCI/ MATH 514	Numerical Analysis	
COMP SCI/DS/ I SY E 518	Wearable Technology	
COMP SCI 520	Introduction to Theory of Computing

COMP SCI 542	Introduction to Software Security
COMP SCI 544	Introduction to Big Data Systems
COMP SCI/ E C E 552	Introduction to Computer Architecture
COMP SCI 557	Parallel & Throughput- Optimized Programming
COMP SCI 559	Computer Graphics
COMP SCI/ E C E 561	Probability and Information Theory in Machine Learning
COMP SCI 564	Database Management Systems: Design and Implementation
COMP SCI 565	Introduction to Data Visualization
COMP SCI 566	Introduction to Computer Vision
COMP SCI/ B M I 567	Biomedical Image Analysis
COMP SCI 570	Introduction to Human-Computer Interaction
COMP SCI 571	Building User Interfaces
COMP SCI/ B M I 576	Introduction to Bioinformatics
COMP SCI 577	Introduction to Algorithms
COMP SCI/ DS 579	Virtual Reality
COMP SCI 620	Computer Sciences Capstone
COMP SCI 640	Introduction to Computer Networks
COMP SCI 642	Introduction to Information Security
COMP SCI 639	Undergraduate Elective Topics in Computing

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all COMP SCI courses and courses counting toward the major
- 2.000 GPA on 15 upper-level credits, taken in residence²
- 15 credits in COMP SCI, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Computer Sciences Major in consultation with the Computer Sciences undergraduate coordinator(s). To earn Honors in the Major in Computer Sciences, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a minimum 3.300 University GPA
- Earn a minimum 3.500 GPA for all COMP SCI and major courses
- Complete one COMP SCI course numbered 500 through 699, taken for Honors with a grade of B or higher
- Complete COMP SCI 681 and COMP SCI 682 for a total of 6 credits.³

FOOTNOTES

¹ COMP SCI courses may only fulfill one COMP SCI major requirement area. For example, if you take a course for the COMP SCI Applications requirement, it cannot also apply to the COMP SCI Elective requirement.

² COMP SCI courses numbered 400 through 699 count as Upper Level.

³ Senior Honors Thesis proposal must be approved by the thesis/project advisor and student must be declared as Honors in the Major before enrollment in COMP SCI 681. A final thesis or project must be completed before a final grade for COMP SCI 682 can be awarded.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Recognize and apply the core principles of Computing (abstractions and algorithms) to solve real-world problems.
2. Describe and apply the theoretical foundations of Computer Science (e.g., complexity analysis) in practical settings.
3. Demonstrate knowledge of key elements of computer systems, e.g., hardware, operating systems, networks.
4. Use fundamental and detailed knowledge, skills, and tools (e.g., specific algorithms, techniques methods, etc.) of computer science and develop the ability to acquire new knowledge, skills, and tools.
5. Design, implement, and evaluate software in multiple programming paradigms and languages.
6. Develop a substantial piece of software, and recognize the challenges of designing and developing software.
7. Exhibit technical (designing, implementing, and testing) and teamwork (communication, collaboration, and professional practice) skills in order to develop solutions as a computer science practitioner.
8. Can solve problems by applying a broad toolbox of knowledge and techniques.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits Spring	Credits

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Visit the Wisconsin Scholarship Hub (<https://wisc.academicworks.com/>) to find UW-Madison scholarships and apply online.

Visit the scholarships page (<https://www.cs.wisc.edu/academics/scholarships/>) on the Department of Computer Sciences website for a compendium of opportunities available to students studying computer sciences.

COMPUTER SCIENCES, CERTIFICATE

Regardless of your major, you can enhance your career with a background in computer sciences. The Computer Sciences certificate is designed to deepen and validate your computing savvy for your future career prospects and/or graduate school. Compared to a major in Computer Sciences, the certificate requires fewer courses and offers more flexibility in course selection.

HOW TO GET IN

HOW TO GET IN

All undergraduate, degree-seeking students are eligible to declare the computer sciences certificate, except for students majoring in Computer Sciences or Computer Engineering.

DECLARATION REQUIREMENTS

To declare the computer sciences certificate, students must meet the following requirements:

- Completion of COMP SCI 300
- Grade of BC or higher in one of these introductory programming course, taken at UW-Madison: COMP SCI 300, COMP SCI/E C E 354 or COMP SCI 400

Students having difficulties meeting the above requirements should schedule a meeting with a computer sciences advisor to discuss alternatives.

For instructions on declaring the certificate, see the Department of Computer Sciences website (<https://www.cs.wisc.edu/undergraduate/certificate-in-computer-sciences/>).

REQUIREMENTS

REQUIREMENTS

Five courses and at least 14 credits from: ¹

Code	Title	Credits
Required Course		
COMP SCI 300	Programming II	3
Two courses numbered 400-679:		6-8
COMP SCI 400	Programming III	
COMP SCI 407	Foundations of Mobile Systems and Applications	
COMP SCI 412	Introduction to Numerical Methods

COMP SCI 640	Introduction to Computer Networks
COMP SCI 642	Introduction to Information Security
COMP SCI 639	Undergraduate Elective Topics in Computing
Two additional courses, chosen from courses numbered 400-679 (above) or these:	
COMP SCI/ MATH 240	Introduction to Discrete Mathematics
COMP SCI/ E C E 252	Introduction to Computer Engineering
COMP SCI/ E C E 352	Digital System Fundamentals
COMP SCI 310	Problem Solving Using Computers

5-8

COMP SCI 320	Data Science Programming II
COMP SCI/ E C E 354	Machine Organization and Programming
Total Credits	
14	

¹ Courses taken Pass/Fail do not meet requirements of the Certificate.

RESIDENCE AND QUALITY OF WORK

- At least 7 Certificate credits must be completed in Residence
- Minimum 2.000 GPA on all COMP SCI and Certificate courses

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATE

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW-Madison and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Recognize and apply the core principles of Computing (abstractions and algorithms) to solve real-world problems.
2. Use fundamental and detailed knowledge, skills, and tools (e.g., specific algorithms, techniques methods, etc.) of computer science and develop the ability to acquire new knowledge, skills, and tools.
3. Design, implement, and evaluate software in multiple programming paradigms and languages.
4. Can solve problems by applying a broad toolbox of knowledge and techniques.

ECONOMICS

A major in Economics gives students a greater understanding of how people, businesses, and governments respond to their economic environments. Many of the issues that fill the newspapers—jobs, wages, taxes, the cost of living, inequality, pollution, poverty, and economic growth—are, in fundamental ways, economic issues. The daily decisions of businesses and consumers are largely economic. Economists seek to understand the decisions of businesses, consumers, and current economic issues by developing a systematic and thorough understanding of precisely how the economic system operates, including the mechanisms by which resources are allocated, prices determined, income redistributed, and economic growth promoted.

The analytical method of economics recognizes that various choices are open to a society in solving its economic problems. Students are often attracted to economics as a discipline precisely because they want to understand the decisions of people and businesses and to better understand and evaluate economic policy. To begin to approach these issues as an economist requires an understanding of economic theory, empirical methodology, and an understanding of the institutional details and advanced practice gained from intensive study of specific subfields of economics. Consequently, the Economics major is organized around a progression of courses that first provides a broad introduction to economics, then develops the theoretical tools that provide the foundation of modern economic thought, and finishes with advanced courses designed to provide greater in-depth knowledge of specific fields (such as labor markets, industrial organization, international economics, public finance, banking and finance, macroeconomics, microeconomics, and econometrics).

An Economics major is valuable in the job market because the major is designed to train people to think analytically and clearly about a wide variety of issues. Economics graduates go on to pursue careers in a variety of fields including finance, data analytics, and public policy. An Economics major is also good preparation for graduate work in a number of areas: business, law, public policy, economics, public administration, industrial relations, international relations, urban and regional planning, and environmental studies.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Economic Analytics, Certificate (p. 667)
- Economics, BA (p. 668)
- Economics, BS (p. 675)

ECONOMIC ANALYTICS, CERTIFICATE

When analyzing data, economists use many of the same statistical tools as other disciplines. However, economists have a tradition of formally combining data analysis with economic models, giving a different perspective on data and how to think about data analysis. This certificate will introduce students not majoring in Economics to this economic approach to data analytics.

An economist’s approach to data analysis has two distinguishing features. First, economists traditionally interpret observational data through the lens of an economic model. This often leads to an explicit derivation of the data-generating process, typically involving individual optimization. Second, economists tend to focus on identification and causal inference more than many other disciplines. This involves looking for combinations of data and empirical approaches that allow empirical relationships to be interpreted causally.

This certificate will introduce students to this perspective and these tools by teaching students a mix of microeconomic theory, statistics and econometrics, and hands-on experience analyzing real data.

HOW TO GET IN

HOW TO GET IN

There are no prerequisites to declaring the certificate; students are encouraged to declare as soon as they are comfortable. Declaration of the certificate occurs via an online form, but students are encouraged to schedule a meeting with an Economics advisor.

Economics majors are not eligible to declare this certificate.

REQUIREMENTS

REQUIREMENTS

The certificate requires at least 14 credits, from:

Code	Title	Credits
Complete one option from each category:		
<i>Microeconomics (complete one course):</i>		3-4
ECON 301	Intermediate Microeconomic Theory	
ECON 311	Intermediate Microeconomic Theory – Advanced Treatment	
<i>Statistics (complete one option):</i>		4-8

ECON 310	Statistics: Measurement in Economics	
STAT 240 & STAT 340	Data Science Modeling I and Data Science Modeling II	
STAT 303 & STAT 333	R for Statistics I and Applied Regression Analysis	
<i>Econometrics (complete one course)</i>		4
ECON 400	Introduction to Applied Econometrics	
ECON 410	Introductory Econometrics	
<i>Data-Related Economics Elective (complete one course):</i>		3-4
ECON 460	Economic Forecasting	
ECON 570	Fundamentals of Data Analytics for Economists	
ECON 695	Topics in Economic Data Analysis	
Total Credits		14

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses
- At least 7 credits must be taken in residence at UW-Madison

CERTIFICATION COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. apply microeconomic models to understand and interpret individual behavior and market outcomes as the result of individual optimization
2. estimate the value of unknown parameters and test theories using formal hypothesis tests
3. summarize the conditions required for a statistical association to represent a causal relationship; evaluate the extent to which those conditions hold in particular settings; interpret the results when those conditions don't hold
4. download, clean, and analyze large economic datasets using modern statistical software

ADVISING AND CAREERS

ADVISING AND CAREERS

ACADEMIC ADVISING

If you are wondering how this certificate can fit into your academic plans or help with your career goals, be sure to meet with an advisor. Our academic advisors (<https://econ.wisc.edu/undergraduate/find-academic-advising/>) can help you create an academic plan and ensure you are making the most of your academic experience.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

ECONOMICS, BA

A major in Economics gives students a greater understanding of how people, businesses, and governments respond to their economic environments. Many of the issues that fill the newspapers—jobs, wages, taxes, the cost of living, inequality, pollution, poverty, and economic growth—are, in fundamental ways, economic issues. The daily decisions of businesses and consumers are largely economic. Economists seek to understand the decisions of businesses, consumers, and current economic issues by developing a systematic and thorough understanding of precisely how the economic system operates, including the mechanisms by which resources are allocated, prices determined, income redistributed, and economic growth promoted.

The analytical method of economics recognizes that various choices are open to a society in solving its economic problems. Students are often attracted to economics as a discipline precisely because they want to understand the decisions of people and businesses and to better understand and evaluate economic policy. To begin to approach these issues as an economist requires an understanding of economic theory, empirical methodology, and an understanding of the institutional details and advanced practice gained from intensive study of specific subfields of economics. Consequently, the Economics major is organized around a progression of courses that first provides a broad introduction to economics, then develops the theoretical tools that provide the foundation of modern economic thought, and finishes with advanced courses designed to provide greater in-depth knowledge of specific fields (such as labor markets, industrial organization, international economics, public finance, banking and finance, macroeconomics, microeconomics, and econometrics).

An Economics major is valuable in the job market because the major is designed to train people to think analytically and clearly about a wide variety of issues. Economics graduates go on to pursue careers in a variety of fields including finance, data analytics, and public policy. An Economics major is also good preparation for graduate work in a number of areas: business, law, public policy, economics, public administration,

industrial relations, international relations, urban and regional planning, and environmental studies.

HOW TO GET IN

HOW TO GET IN DECLARING THE MAJOR

- Complete one calculus course, MATH 211, MATH 217, MATH 221 or MATH 222 (MATH 217, MATH 221 or MATH 222 for the Mathematical Emphasis option), and
- Complete any one ECON course (except ECON 100) at UW–Madison, and
- Achieve a 2.000 GPA in all ECON courses and major courses (i.e., calculus) at the time of declaration.

Students may not be declared in both the Economics major and the Certificate in Economic Analytics.

For instructions on how to declare the Economics major, visit <https://econ.wisc.edu/undergraduate/declaring-an-econ-major/>

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

Language	<ul style="list-style-type: none"> • Complete the fourth unit of a language other than English; OR • Complete the third unit of a language and the second unit of an additional language other than English.
-----------------	--

L&S Breadth	<ul style="list-style-type: none"> • 12 credits of Humanities, which must include 6 credits of literature; and • 12 credits of Social Science; and • 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.
------------------------	--

Liberal Arts and Science Coursework	Complete at least 108 credits.
--	--------------------------------

Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
--	---

Major	Declare and complete at least one major.
--------------	--

Total Credits	Complete at least 120 credits.
----------------------	--------------------------------

UW–Madison Experience	<ul style="list-style-type: none"> • 30 credits in residence, overall; and • 30 credits in residence after the 86th credit.
------------------------------	---

Quality of Work	<ul style="list-style-type: none"> • 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison
------------------------	--

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

OPTIONS IN THE MAJOR

The department offers two major options. Students may declare only one option and must complete all requirements including Residence and Quality of Work standards. Options are:

Option A: Economics provides a well-rounded major in economics that is valuable for employment following graduation, or subsequent graduate work in business, law, public policy, and related disciplines.

Option B: Economics—Mathematical Emphasis provides students with the mathematical and statistical background needed for in-depth study of the analytical aspects of economics. Its requirements are designed to prepare students for graduate study in economics and related fields, or for careers as professional economists in business or government. For specific Mathematical Emphasis requirements, see the section below (p. 671).

REQUIREMENTS FOR THE ECONOMICS MAJOR

MATH AND STATISTICS

Code	Title	Credits
Mathematics (complete one):		5-10
MATH 221	Calculus and Analytic Geometry I	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
MATH 211 & MATH 213	Survey of Calculus I and Survey of Calculus 2	
MATH 211 & ECON 205	Survey of Calculus I and Quantitative Tools for Economics	
Statistics (complete one):		3-4
ECON 310	Statistics: Measurement in Economics (Recommended)	
ECON 400	Introduction to Applied Econometrics	
ECON 410	Introductory Econometrics	
MATH/STAT 309	Introduction to Probability and Mathematical Statistics I	
MATH/STAT 431	Introduction to the Theory of Probability	
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	
STAT 324	Introduction to Statistics for Science and Engineering	
STAT 340	Data Science Modeling II	
Total Credits		8-14

ECONOMICS

30 credits to include:

Code	Title	Credits
Principles of Economics (complete one):		4-8
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
ECON 111	Principles of Economics—Accelerated Treatment	
Microeconomic Theory (complete one):		3-4
ECON 301	Intermediate Microeconomic Theory	

ECON 311	Intermediate Microeconomic Theory - Advanced Treatment (Honors Econ)	
Macroeconomic Theory (complete one):		3-4
ECON 302	Intermediate Macroeconomic Theory	
ECON 312	Intermediate Macroeconomic Theory - Advanced Treatment	
Two Core ECON courses:¹		6-8
ECON 400	Introduction to Applied Econometrics	
ECON 409	Study Abroad in Advanced Economics	
ECON 410	Introductory Econometrics	
ECON 435	The Financial System	
ECON 441	Analytical Public Finance	
ECON 442	Macroeconomic Policy	
ECON 448	Human Resources and Economic Growth	
ECON 450	Wages and the Labor Market	
ECON 455	Behavioral Economics	
ECON 458	Industrial Structure and Competitive Strategy	
ECON 460	Economic Forecasting	
ECON 461	International Macroeconomics	
ECON 464	International Trade	
ECON 467	International Industrial Organizations	
ECON 468	Industrial Organization and Imperfect Competition	
ECON 475	Economics of Growth	
ECON/ FINANCE 503	Markets with Frictions	
ECON 521	Game Theory and Economic Analysis	
ECON 522	Law and Economics	
ECON/R M I 530	Insuring Life's Risks: Health, Aging, and Policy	
ECON 535	Experimental Economics	
ECON/ POP HLTH/ PUB AFFR 548	The Economics of Health Care	
ECON 570	Fundamentals of Data Analytics for Economists	
ECON 580	Honors Tutorial in Research Project Design	
ECON 621	Markets and Models	
ECON 623	Population Economics	
ECON 661	Issues in International Macroeconomics	
ECON 664	Issues in International Trade	
ECON 666	Issues in International Finance	
ECON 690	Topics in Economics	
ECON 695	Topics in Economic Data Analysis	
Electives		6-14

Complete any Core econ course not used above or one of these courses:

ECON/ FINANCE 300	Introduction to Finance
ECON/ HIST SCI 305	Development of Economic Thought
ECON/A A E/ REAL EST/ URB R PL 306	The Real Estate Process
ECON 309	Study Abroad in Intermediate Economics
ECON 315	Data Visualization for Economists
ECON/ FINANCE 320	Investment Theory
ECON 321	Sports Economics
ECON 325	Economics of Race in the United States
ECON 330	Money and Banking
ECON 340	Microeconomics in Popular Culture
ECON/A A E/ ENVIR ST 343	Environmental Economics
ECON 350	The Chinese Economy
ECON 355	The Economics of Growing-up and Getting Old
ECON 370	Economics of Poverty and Inequality
ECON/A A E 371	Energy, Resources and Economics
ECON 390	Contemporary Economic Issues

Total Credits

30

REQUIREMENT FOR THE MATHEMATICAL EMPHASIS:

View as listView as grid

- **ECONOMICS: MATHEMATICAL EMPHASIS (P. 674)**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ECON and major courses
- 2.000 GPA on 15 upper-level major credits taken in residence²
- 15 credits in ECON, taken on the UW-Madison campus

HONORS IN THE ECONOMICS MAJOR

To participate in Honors in the Economics Major, students must be declared in the Mathematical Emphasis option. For further information, see the Mathematical Emphasis requirements (p. 674) and consult your Economics undergraduate advisor.

FOOTNOTES

- ¹ At least two core ECON courses must be taken in residence at UW-Madison, and not via transfer or a UW-Madison Study Abroad program.
- ² Intermediate and Advanced level ECON courses are Upper Level in the major.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Understand the fundamental concepts of economics and how those concepts apply to real world issues.

- 2. Construct and evaluate economic models, their assumptions, and conclusions.
- 3. Acquire a diverse set of skills and strategies in mathematical reasoning/statistical and computational techniques/deductive logic/problem solving.
- 4. Use mathematics/computational/statistical techniques to analyze real world situations and policies.
- 5. Use economic analysis to critically evaluate public policy proposals.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Freshman

Fall	Credits Spring	Credits
Quantitative Reasoning A	4 ECON 101	4
Communication A	3 Ethnic Studies	3

THREE-YEAR PLAN

THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

DEPARTMENTAL EXPECTATIONS

A three-year degree is feasible for students with a variety of backgrounds and specific preparation. Students planning to graduate within three years with an Economics major should consult with an advisor (<https://econ.wisc.edu/undergraduate/find-academic-advising/>) as soon as possible, and should ideally be entering the University with a minimum of 30 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- ECON 101 Principles of Microeconomics
- Communication Part A
- Quantitative Reasoning Part A
- Placement into MATH 221 Calculus and Analytic Geometry I
- 3 credits of Literature, 3 credits of Biological Science
- 3-4 units of foreign language

Summer coursework is not required to finish in three years, but students planning to finish in three years will find it easier if they take either an intermediate theory course during Summer One or an advanced elective during Summer Two.

First Year

Fall	Credits Spring	Credits Summer	Credits
ECON 102	4 ECON 301	4 ECON 302	4

ADVISING AND CAREERS

ADVISING AND CAREERS

ACADEMIC ADVISING

Academic advising (<https://econ.wisc.edu/undergraduate/find-academic-advising/>), along with general information about the undergraduate major and coursework, is available in Room 7238 of the Social Science Building.

PREPARATION FOR PHD PROGRAMS IN ECONOMICS

Students interested in pursuing graduate study should pursue Option B (mathematical emphasis) and augment the standard curriculum with higher-level mathematics and statistics courses. These may include:

Code	Title	Credits
MATH/STAT 309	Introduction to Probability and Mathematical Statistics I	
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	
MATH 421	The Theory of Single Variable Calculus	
MATH/STAT 431	Introduction to the Theory of Probability	
MATH 521	Analysis I	
MATH 522	Analysis II	
MATH/ISYE/OTM/STAT 632	Introduction to Stochastic Processes	

It is important to consult early in the second year with the undergraduate advisor and/or the faculty member who directs the undergraduate program to design a plan of coursework.

DIRECTED STUDY

Directed Study (ECON 698, ECON 699) enables advanced students to pursue economic topics not covered in the regular course offerings. A student interested in Directed Study should prepare a research proposal and/or reading list; specific course requirements are arranged with an instructor who agrees to supervise the directed study project. Enrollment requires the consent of the instructor; a GPA of 3.00 or above in ECON; completion of ECON 301 Intermediate Microeconomic Theory and ECON 302 Intermediate Macroeconomic Theory; at least one CORE ECON course.

Any undergraduate Economics student considering a Directed Study should meet with an Economics undergraduate academic advisor often for consultation.

INTERNSHIPS

Students can earn 1 credit for approved internships appropriate to the study of economics under course ECON 228 Internship Economics. Students must enroll for ECON 228 in the same semester/session in which the internship is granted. Students should work a minimum of 100 hours per term. Prerequisites are declaration in the Economics major; a major GPA of 2.200 or higher; completion of at least four ECON courses at UW-Madison; completion of at least one Intermediate Theory course (ECON 301 Intermediate Microeconomic Theory or ECON 302 Intermediate Macroeconomic Theory); and departmental approval.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major and ECON courses
- 2.000 GPA on 15 upper-level major courses taken in residence²
- 15 credits in ECON, taken on the UW–Madison campus

HONORS IN THE MAJOR REQUIREMENTS TO EARN HONORS IN THE ECONOMICS MAJOR

To earn Honors in the Major in Economics, students must be declared in and satisfy the requirements for the Economics–Mathematical Emphasis Option (above), **and** satisfy the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ECON and major courses
- Complete the following courses, taken for Honors, with grades of B or better in each:

Code	Title	Credits
ECON 311 & ECON 312	Intermediate Microeconomic Theory – Advanced Treatment and Intermediate Macroeconomic Theory – Advanced Treatment	
ECON 580	Honors Tutorial in Research Project Design	

Select one of the following capstone experiences:

ECON 581	Honors Thesis
ECON 681 & ECON 682	Senior Honors Thesis and Senior Honors Thesis (Take for a total of 6 credits)

FOOTNOTES

- ¹ At least two core ECON courses must be taken in residence at UW–Madison, and not via transfer or a UW–Madison Study Abroad program.
- ² Intermediate and Advanced level ECON courses are Upper Level in the major.

ECONOMICS, BS

A major in Economics gives students a greater understanding of how people, businesses, and governments respond to their economic environments. Many of the issues that fill the newspapers—jobs, wages, taxes, the cost of living, inequality, pollution, poverty, and economic growth—are, in fundamental ways, economic issues. The daily decisions of businesses and consumers are largely economic. Economists seek to understand the decisions of businesses, consumers, and current economic issues by developing a systematic and thorough understanding of precisely how the economic system operates, including the mechanisms by which resources are allocated, prices determined, income redistributed, and economic growth promoted.

The analytical method of economics recognizes that various choices are open to a society in solving its economic problems. Students are often attracted to economics as a discipline precisely because they

want to understand the decisions of people and businesses and to better understand and evaluate economic policy. To begin to approach these issues as an economist requires an understanding of economic theory, empirical methodology, and an understanding of the institutional details and advanced practice gained from intensive study of specific subfields of economics. Consequently, the Economics major is organized around a progression of courses that first provides a broad introduction to economics, then develops the theoretical tools that provide the foundation of modern economic thought, and finishes with advanced courses designed to provide greater in-depth knowledge of specific fields (such as labor markets, industrial organization, international economics, public finance, banking and finance, macroeconomics, microeconomics, and econometrics).

An Economics major is valuable in the job market because the major is designed to train people to think analytically and clearly about a wide variety of issues. Economics graduates go on to pursue careers in a variety of fields including finance, data analytics, and public policy. An Economics major is also good preparation for graduate work in a number of areas: business, law, public policy, economics, public administration, industrial relations, international relations, urban and regional planning, and environmental studies.

HOW TO GET IN
DECLARING THE MAJOR

- Complete one calculus course, MATH 211, MATH 217, MATH 221 or MATH 222 (MATH 217, MATH 221 or MATH 222 for the Mathematical Emphasis option), and
- Complete any one ECON course (except ECON 100) at UW–Madison, and
- Achieve a 2.000 GPA in all ECON courses and major courses (i.e., calculus) at the time of declaration.

Students may not be declared in both the Economics major and the Certificate in Economic Analytics.

For instructions on how to declare the Economics major, visit <https://econ.wisc.edu/undergraduate/declaring-an-econ-major/>

REQUIREMENTS

UNIVERSITY GENERAL
EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
 - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth—Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS
& SCIENCE DEGREE
REQUIREMENTS: BACHELOR OF
SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE
REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
L&S Breadth	Complete: <ul style="list-style-type: none">• 12 credits of Humanities, which must include at least 6 credits of Literature; and• 12 credits of Social Science; and• 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW–Madison Experience	Complete both: <ul style="list-style-type: none">• 30 credits in residence, overall, and• 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none">• 2.000 in all coursework at UW–Madison• 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

OPTIONS IN THE MAJOR

The department offers two major options. Students may declare only one option and must complete all requirements including Residence and Quality of Work standards. Options are:

Option A: Economics provides a well-rounded major in economics that is valuable for employment following graduation, or subsequent graduate work in business, law, public policy, and related disciplines.

Option B: Economics–Mathematical Emphasis provides students with the mathematical and statistical background needed for in-depth study of the analytical aspects of economics. Its requirements are designed to prepare students for graduate study in economics and related fields, or for careers as professional economists in business or government. For specific Mathematical Emphasis requirements, see the section below (p. 678).

REQUIREMENTS FOR THE ECONOMICS MAJOR

MATH AND STATISTICS

Code	Title	Credits
Mathematics (complete one):		5-10
MATH 221	Calculus and Analytic Geometry I	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
MATH 211 & MATH 213	Survey of Calculus I and Survey of Calculus 2	
MATH 211 & ECON 205	Survey of Calculus I and Quantitative Tools for Economics	
Statistics (complete one):		3-4
ECON 310	Statistics: Measurement in Economics (Recommended)	
ECON 400	Introduction to Applied Econometrics	
ECON 410	Introductory Econometrics	
MATH/STAT 309	Introduction to Probability and Mathematical Statistics I	
MATH/STAT 431	Introduction to the Theory of Probability	
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	
STAT 324	Introduction to Statistics for Science and Engineering	
STAT 340	Data Science Modeling II	
Total Credits		8-14

ECONOMICS

30 credits to include:

Code	Title	Credits
Principles of Economics (complete one):		4-8
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
ECON 111	Principles of Economics-Accelerated Treatment	
Microeconomic Theory (complete one):		3-4
ECON 301	Intermediate Microeconomic Theory	
ECON 311	Intermediate Microeconomic Theory - Advanced Treatment (Honors Econ)	
Macroeconomic Theory (complete one):		3-4
ECON 302	Intermediate Macroeconomic Theory	
ECON 312	Intermediate Macroeconomic Theory - Advanced Treatment	
Two Core ECON courses: ¹		6-8
ECON 400	Introduction to Applied Econometrics	
ECON 409	Study Abroad in Advanced Economics	
ECON 410	Introductory Econometrics	
ECON 435	The Financial System	
ECON 441	Analytical Public Finance	
ECON 442	Macroeconomic Policy	
ECON 448	Human Resources and Economic Growth	
ECON 450	Wages and the Labor Market	
ECON 455	Behavioral Economics	
ECON 458	Industrial Structure and Competitive Strategy	
ECON 460	Economic Forecasting	
ECON 461	International Macroeconomics	
ECON 464	International Trade	
ECON 467	International Industrial Organizations	
ECON 468	Industrial Organization and Imperfect Competition	
ECON 475	Economics of Growth	
ECON/ FINANCE 503	Markets with Frictions	
ECON 521	Game Theory and Economic Analysis	
ECON 522	Law and Economics	
ECON/R M I 530	Insuring Life's Risks: Health, Aging, and Policy	
ECON 535	Experimental Economics	
ECON/ POP HLTH/ PUB AFFR 548	The Economics of Health Care	
ECON 570	Fundamentals of Data Analytics for Economists	

ECON 580	Honors Tutorial in Research Project Design
ECON 621	Markets and Models
ECON 623	Population Economics
ECON 661	Issues in International Macroeconomics
ECON 664	Issues in International Trade
ECON 666	Issues in International Finance
ECON 690	Topics in Economics
ECON 695	Topics in Economic Data Analysis
Electives 6-14	
Complete any Core econ course not used above or one of these courses:	
ECON/ FINANCE 300	Introduction to Finance
ECON/ HIST SCI 305	Development of Economic Thought
ECON/A A E/ REAL EST/ URB R PL 306	The Real Estate Process
ECON 309	Study Abroad in Intermediate Economics
ECON 315	Data Visualization for Economists
ECON/ FINANCE 320	Investment Theory
ECON 321	Sports Economics
ECON 325	Economics of Race in the United States
ECON 330	Money and Banking
ECON 340	Microeconomics in Popular Culture
ECON/A A E/ ENVIR ST 343	Environmental Economics
ECON 350	The Chinese Economy
ECON 355	The Economics of Growing-up and Getting Old
ECON 370	Economics of Poverty and Inequality
ECON/A A E 371	Energy, Resources and Economics
ECON 390	Contemporary Economic Issues
ECON/REAL EST/ URB R PL 420	Urban and Regional Economics
ECON/A A E 421	Economic Decision Analysis
ECON/ENVIR ST/ POLI SCI/ URB R PL 449	Government and Natural Resources
ECON/A A E/ INTL BUS 462	Latin American Economic Development
ECON 465	The American Economy to 1865
ECON/ HISTORY 466	The American Economy Since 1865
ECON/A A E 473	Economic Growth and Development in Southeast Asia
ECON/A A E 474	Economic Problems of Developing Areas
ECON/A A E 477	Agricultural and Economic Development in Africa

ECON/ PHILOS 524	Philosophy and Economics
ECON/A A E 526	Quantitative Methods in Agricultural and Applied Economics
ECON/A A E/ F&W ECOL 531	Natural Resource Economics
ECON/A A E/ ENVIR ST/ URB R PL 671	Energy Economics
Total Credits	30

REQUIREMENT FOR THE MATHEMATICAL EMPHASIS:

View as listView as grid

• ECONOMICS: MATHEMATICAL EMPHASIS (P. 674)

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ECON and major courses
- 2.000 GPA on 15 upper-level major credits taken in residence²
- 15 credits in ECON, taken on the UW–Madison campus

HONORS IN THE ECONOMICS MAJOR

To participate in Honors in the Economics Major, students must be declared in the Mathematical Emphasis option. For further information, see the Mathematical Emphasis requirements (p. 674) and consult your Economics undergraduate advisor.

FOOTNOTES

- ¹ At least two core ECON courses must be taken in residence at UW–Madison, and not via transfer or a UW–Madison Study Abroad program.
- ² Intermediate and Advanced level ECON courses are Upper Level in the major.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Understand the fundamental concepts of economics and how those concepts apply to real world issues.
2. Construct and evaluate economic models, their assumptions, and conclusions.
3. Acquire a diverse set of skills and strategies in mathematical reasoning/statistical and computational techniques/deductive logic/problem solving.
4. Use mathematics/computational/statistical techniques to analyze real world situations and policies.
5. Use economic analysis to critically evaluate public policy proposals.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Freshman

Fall	Credits Spring	Credits
Quantitative Reasoning A	4 ECON 101	4
Communication A	3 Ethnic Studies	3
Foreign Language	4 MATH 221	5

Core course	4 Elective	4
Elective	3 Elective	4
Elective	4 Elective	3
	15	15

Total Credits 120

THREE-YEAR PLAN

THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

DEPARTMENTAL EXPECTATIONS

A three-year degree is feasible for students with a variety of backgrounds and specific preparation. Students planning to graduate within three years with an Economics major should consult with an advisor (<https://econ.wisc.edu/undergraduate/find-academic-advising/>) as soon as possible, and should ideally be entering the University with a minimum of 30 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- ECON 101 Principles of Microeconomics
- Communication Part A
- Quantitative Reasoning Part A
- Placement into MATH 221 Calculus and Analytic Geometry 1
- 3 credits of Literature, 3 credits of Biological Science
- 3-4 units of foreign language

Summer coursework is not required to finish in three years, but students planning to finish in three years will find it easier if they take either an intermediate theory course during Summer One or an advanced elective during Summer Two.

First Year

Fall	Credits Spring	Credits Summer	Credits
ECON 102	4 ECON 301	4 ECON 302	4
MATH 221	5 Communication B	4	

Literature Breadth	3 Biological Science Breadth	3
Physical Science Breadth	3 Elective (Intermediate or Advanced level)	4
15		15

Electives (Intermediate or Advanced level)	11	
14		12

Total Credits 90**ADVISING AND CAREERS****ADVISING AND CAREERS
ACADEMIC ADVISING**

Academic advising (<https://econ.wisc.edu/undergraduate/find-academic-advising/>), along with general information about the undergraduate major and coursework, is available in Room 7238 of the Social Science Building.

PREPARATION FOR PHD PROGRAMS IN ECONOMICS

Students interested in pursuing graduate study should pursue Option B (mathematical emphasis) and augment the standard curriculum with higher-level mathematics and statistics courses. These may include:

Code	Title	Credits
MATH/STAT 309	Introduction to Probability and Mathematical Statistics I	

MATH/STAT 310	Introduction to Probability and Mathematical Statistics II
MATH 421	The Theory of Single Variable Calculus
MATH/STAT 431	Introduction to the Theory of Probability
MATH 521	Analysis I
MATH 522	Analysis II
MATH/STAT 632	Introduction to Stochastic Processes

It is important to consult early in the second year with the undergraduate advisor and/or the faculty member who directs the undergraduate program to design a plan of coursework.

DIRECTED STUDY

Directed Study (ECON 698, ECON 699) enables advanced students to pursue economic topics not covered in the regular course offerings. A student interested in Directed Study should prepare a research proposal and/or reading list; specific course requirements are arranged with an instructor who agrees to supervise the directed study project. Enrollment requires the consent of the instructor; a GPA of 3.00 or above in ECON; completion of ECON 301 Intermediate Microeconomic Theory and ECON 302 Intermediate Macroeconomic Theory; at least one CORE ECON course.

Any undergraduate Economics student considering a Directed Study should meet with an Economics undergraduate academic advisor often for consultation.

INTERNSHIPS

Students can earn 1 credit for approved internships appropriate to the study of economics under course ECON 228 Internship Economics. Students must enroll for ECON 228 in the same semester/session in which the internship is granted. Students should work a minimum of 100 hours per term. Prerequisites are declaration in the Economics major; a major GPA of 2.200 or higher; completion of at least four ECON courses at UW–Madison; completion of at least one Intermediate Theory course (ECON 301 Intermediate Microeconomic Theory or ECON 302 Intermediate Macroeconomic Theory); and departmental approval.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)

- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

Total Credits

24-26

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major and ECON courses
- 2.000 GPA on 15 upper-level major courses taken in residence²
- 15 credits in ECON, taken on the UW–Madison campus

HONORS IN THE MAJOR REQUIREMENTS TO EARN HONORS IN THE ECONOMICS MAJOR

To earn Honors in the Major in Economics, students must be declared in and satisfy the requirements for the Economics–Mathematical Emphasis Option (above), **and** satisfy the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ECON and major courses
- Complete the following courses, taken for Honors, with grades of B or better in each:

Code	Title	Credits
ECON 311 & ECON 312	Intermediate Microeconomic Theory – Advanced Treatment and Intermediate Macroeconomic Theory – Advanced Treatment	
ECON 580	Honors Tutorial in Research Project Design	

Select one of the following capstone experiences:

ECON 581	Honors Thesis
ECON 681 & ECON 682	Senior Honors Thesis and Senior Honors Thesis (Take for a total of 6 credits)

FOOTNOTES

- ¹ At least two core ECON courses must be taken in residence at UW–Madison, and not via transfer or a UW–Madison Study Abroad program.
- ² Intermediate and Advanced level ECON courses are Upper Level in the major.

ENGLISH

The English major teaches students to appreciate and use the English language and literature effectively for critical thinking, effective communication, citizenship, and career success. Students in the major build strong writing skills and engage in high-level critical and analytical thinking. They encounter enriching, enduring, experimental, and complex works of literature. And they grapple with perspectives far distant from their own, examining their deepest values. Instructors introduce students to a wide range of genres and cultural perspectives, and pay close attention to all aspects of student thinking and writing, from logic and evidence to originality and style. Fostering communication skills, stimulating creativity, developing cultural sensitivity, and sharpening analytical abilities, the English major prepares students for a broad range of careers.

The English major has the choice of three tracks: the general major (which emphasizes literary and cultural studies), and the named options of Creative Writing or Language and Linguistics. All students take a core curriculum that introduces them to a range of approaches to literature and language, including courses in literary and cultural history. Students who opt for the general major build on core courses with intermediate and advanced classes that focus on texts from across a range of periods and places, investigating literature and culture using multiple methods and approaches. Students pursuing the Creative Writing option take the core curriculum with a sequence of creative-writing workshops. Students wishing to emphasize Language and Linguistics choose courses in grammar, the history of the English language, phonology, and language acquisition.

TEACHING MAJOR

Those who wish to prepare for teaching careers at the secondary level should complete the undergraduate English major and then apply for a teaching certificate or graduate education program. For further information, students should make an appointment with the undergraduate advisor in English or the graduate advisor in curriculum and instruction.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- English, BA (p. 683)
- English, BS (p. 691)

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.
Language	<ul style="list-style-type: none">• Complete the fourth unit of a language other than English; OR• Complete the third unit of a language and the second unit of an additional language other than English.
L&S Breadth	<ul style="list-style-type: none">• 12 credits of Humanities, which must include 6 credits of literature; and• 12 credits of Social Science; and• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	<ul style="list-style-type: none">• 30 credits in residence, overall; and• 30 credits in residence after the 86th credit.

Quality of Work	• 2.000 in all coursework at UW-Madison
	• 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

30 credits in intermediate- and advanced-level ENGL courses numbered 204 and higher, excluding ENGL 207 and ENGL 236.

ENGLISH (LITERATURE)

Code	Title	Credits
Survey of Literature		
ENGL 241	Literature and Culture I: to the 18th Century	3

ENGL/ GEN&WS 401	Race, Sex, and Texts (How to do things with writing)	
ENGL 403	Seminar on Tutoring Writing Across the Curriculum	

ENGL 505	Topics in Composition and Rhetoric	
Electives		9
Any ENGL course at the Intermediate or Advanced level, excluding ENGL 207 and ENGL 236		
Total Credits		30

NAMED OPTIONS

Students may complete a named option, instead of the traditional English major. These are formally printed on the transcript.

View as listView as grid

- **ENGLISH: EMPHASIS ON CREATIVE WRITING (P. 688)**
- **ENGLISH: ENGLISH LANGUAGE AND LINGUISTICS (P. 689)**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ENGL courses and all major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence¹
- 15 credits in ENGL, taken on the UW-Madison campus

¹ Intermediate and Advanced level ENGL courses are considered upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the English major with permission of the major advisor. All English majors, including those declared in either named option, are eligible to complete Honors in the major.

HONORS IN THE ENGLISH MAJOR REQUIREMENTS

To earn Honors in the Major in English, students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in all ENGL courses and all major courses
- Complete 12 credits, taken for Honors, with a grade of B or better to include:
 - ENGL 245 and
 - Either:
 - a two-semester Senior Honors Thesis in ENGL 681 and ENGL 682 for a total of 6 credits, or
 - a senior Honors project that includes ENGL 680 and one other 3-credit I/A ENGL course taken for Honors OR
 - ENGL 695 and one other ENGL Creative Writing Workshop taken for Honors

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (History of literature and language) To demonstrate knowledge of major forms, techniques, social conditions, values, and genres that have shaped the history of English literature and language.
2. (Critical thinking) To be able to discern and integrate divergent and contradictory perspectives, identify and question assumptions, and assess evidence and methods.
3. (Creativity) To generate original ideas and texts, experimenting and taking risks, solving problems, and answering questions in a range of genres and media.
4. (Critical writing) To write original, coherent, and compelling arguments that push beyond summary to analysis and independent and critical thinking in clear prose that meets expectations for grammatical correctness.
5. (Citizenship) To develop empathy by learning about the experiences of others, and to gain an understanding of how we participate in communities (including the classroom) and the public sphere.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

FOOTNOTES

¹ Students must declare a major before 86 credits.
² See your major advisor if you want to declare English/Creative Writing, Honors in the English major, or plan to study abroad.

Please refer to the Requirements tab in Guide for additional College of Letters & Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

THREE-YEAR PLAN

THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

DEPARTMENTAL EXPECTATIONS

Students planning to graduate within three years with an English major should enter the University with a minimum of 30 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- Communication Part A
- Quantitative Reasoning Part A
- 18 combined credits of Humanities, Social Science, and Natural Science coursework
- 3-4 units of foreign language

First Year

Fall	Credits Spring	Credits
Ethnic Studies	3 ENGL 201 or 207 (meets Communication B)	3

ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the English website (<https://english.wisc.edu/undergraduate/major/declaring/>).

ACADEMIC ADVISING

The English Department supports majors and prospective majors by offering a comprehensive advising team based on your personal interests. You will find us on the 7th floor of the Helen C. White Building (<https://map.wisc.edu/s/6nfnzt5a/>) next to Memorial Union. Our team is here to support students holistically as they navigate their time at UW–Madison. To meet our advisors, visit our undergraduate advising page (<https://english.wisc.edu/undergraduate/undergraduate-advising/>) for more information, including how to schedule an appointment.

CAREERS AND INTERNSHIP ADVISOR

Career & Internship Coordinator

careers@english.wisc.edu (Career & Internship Coordinator careers@english.wisc.edu)
7195E Helen C. White, 600 North Park Street
English Career Advising (<https://english.wisc.edu/undergraduate/undergraduate-advising/>)

The English Department encourages our students to begin working on their career exploration and preparation soon after declaring the major. Our career advisor also partners with SuccessWorks at the College of Letters & Science.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS
WRITING CENTER

The Writing Center (<https://writing.wisc.edu>), located in 6171 Helen C. White Hall, offers free individualized help with writing. Students are welcome to come to the Center for help with writing assignments in almost any course. In half-hour tutorials, instructors help students clarify and organize ideas and offer advice about revising a draft. The center also offers short-term classes on various facets of writing, including classes on writing about literature, writing research papers, writing book reviews, writing essay exams, and on many other topics. The Writing Center also has a computer lab.

To make an appointment, students should call 608-263-1992 or stop by when the Writing Center is open. During busy times of the semester, the Center often is booked several days in advance, so students should plan ahead. For complete information about the center, including hours, schedules for writing assistance in the Multicultural Student Center and residence halls, extensive handouts about writing, and information about the Undergraduate Writing Fellows program, see the Center website (<https://writing.wisc.edu>).

SCHOLARSHIPS AND WRITING PRIZES

The English Department is proud to offer numerous forms of support for its undergraduate students and to recognize exceptional accomplishments in various forms of academic and creative work. You can find information about scholarships, prizes, and grants specifically designated for declared English majors on our website (<https://english.wisc.edu/undergraduate/apply-for-scholarships/>). Typically, these prizes and scholarships are awarded in the spring semester. Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (<https://wisc.academicworks.com/>).

ENGLISH: EMPHASIS ON CREATIVE WRITING

REQUIREMENTS

REQUIREMENTS

ENGLISH, CREATIVE WRITING OPTION

NOTE: This is a formal Option and will appear on the transcript.

L&S undergraduates with a particular interest in creative writing may combine a background in literature with a concentration of courses in fiction or poetry writing. The major requirements are distributed as follows:

Code	Title	Credits
Survey of Literature		
ENGL 241	Literature and Culture I: to the 18th Century	3
ENGL 242	Literature and Culture II: from the 18th Century to the Present	3
American Literature (1 course)		3
ENGL/ LITTRANS 223	Vladimir Nabokov: Russian and American Writings	
ENGL 243	American Literary Cultures	
ENGL/ GEN&WS 248	Women in Ethnic American Literature	
ENGL/ ASIAN AM 270	A Survey of Asian American Literature	
ENGL 361	Modern and Contemporary American Literature	
ENGL/ CHICLA 368	Chicana/o and Latina/o Literatures	
ENGL 374	African and African Diaspora Literature and Culture	
ENGL 455	A Study of an Outstanding Figure or Figures in American Literature	
ENGL 456	Topic in Nineteenth-Century American Literature and Culture	
ENGL 457	Topic in American Literature and Culture since 1900	
ENGL 458	Major American Writer or Writers	
ENGL 459	Three American Novelists	
ENGL 461	Topics in Ethnic and Multicultural Literature	
ENGL/ASIAN AM/ GEN&WS 463	Race and Sexuality in American Literature	
ENGL/ASIAN AM/ GEN&WS 464	Asian American Women Writers	
ENGL/ ASIAN AM 465	Asian American Poetry	
ENGL 474	Topic in Contemporary Literature	
ENGL/ AFROAMER 672	Selected Topics in Afro-American Literature	
Seminar (1 course)		
ENGL 245	Seminar in the Major	3
Language or Composition & Rhetoric (1 course)		3
ENGL 204	Introduction to Rhetoric and Writing Studies	
ENGL 214	The English Language	
ENGL 304	History and Theory of Rhetoric and Writing Studies	
ENGL 400	Advanced Composition	
ENGL 403	Seminar on Tutoring Writing Across the Curriculum	
ENGL 505	Topics in Composition and Rhetoric	
Creative Writing Workshops (3 courses) ¹		9

ENGL 307	Creative Writing: Fiction and Poetry Workshop	
ENGL 407	Creative Writing: Nonfiction Workshop	
ENGL 408	Creative Writing: Fiction Workshop	
ENGL 409	Creative Writing: Poetry Workshop	
ENGL 410	Creative Writing: Playwriting Workshop	
ENGL 411	Creative Writing: Special Topics Workshop	
ENGL 508	Creative Writing: Advanced Fiction Workshop	
ENGL 509	Creative Writing: Advanced Poetry Workshop	
Directed Creative Writing (1 course)		
ENGL 695	Directed Creative Writing	3
Electives		3
Any ENGL course at the Intermediate or Advanced level, excluding ENGL 207 and ENGL 236.		
Total Credits		30

¹ Workshops numbered 400 and higher may be repeated for credit. Students are allowed to take only one creative writing workshop per semester. All three required workshops must be completed prior to beginning the Directed Creative Writing course (ENGL 695).

ENGLISH: ENGLISH LANGUAGE AND LINGUISTICS

REQUIREMENTS

ENGLISH, ENGLISH LANGUAGE AND LINGUISTICS OPTION

NOTE: This is a formal Option and will appear on the transcript.

L&S undergraduates with a particular interest in English Language and Linguistics may combine a background in literature with a concentration of courses in the option. The major requirements are distributed as follows:

Code	Title	Credits
Survey of Literature		
ENGL 241	Literature and Culture I: to the 18th Century	3

Total Credits 120

¹ Students must declare a major before 86 credits.

² See your major advisor if you want to declare Honors in the English major or plan to study abroad.

³ ENGL 514 and ENGL 516 are offered in alternating years.

Please refer to the Requirements tab (p. 683) in Guide for additional College of Letters & Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

ENGLISH, BS

The English major teaches students to appreciate and use the English language and literature effectively for critical thinking, effective communication, citizenship, and career success. Students in the major build strong writing skills and engage in high-level critical and analytical thinking. They encounter enriching, enduring, experimental, and complex works of literature. And they grapple with perspectives far distant from their own, examining their deepest values. Instructors introduce students to a wide range of genres and cultural perspectives, and pay close attention to all aspects of student thinking and writing, from logic and evidence to originality and style. Fostering communication skills, stimulating creativity, developing cultural sensitivity, and sharpening analytical abilities, the English major prepares students for a broad range of careers.

The English major has the choice of three tracks: the general major (which emphasizes literary and cultural studies), and the named options of Creative Writing or Language and Linguistics. All students take a core curriculum that introduces them to a range of approaches to literature and language, including courses in literary and cultural history. Students who opt for the general major build on core courses with intermediate and advanced classes that focus on texts from across a range of periods and places, investigating literature and culture using multiple methods and approaches. Students pursuing the Creative Writing option take the core curriculum with a sequence of creative-writing workshops. Students wishing to emphasize Language and Linguistics choose courses in grammar, the history of the English language, phonology, and language acquisition.

TEACHING MAJOR

Those who wish to prepare for teaching careers at the secondary level should complete the undergraduate English major and then apply for a teaching certificate or graduate education program. For further information, students should make an appointment with the undergraduate advisor in English or the graduate advisor in curriculum and instruction.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	• Breadth–Humanities/Literature/Arts: 6 credits
	• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth–Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of

Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
L&S Breadth	Complete: <ul style="list-style-type: none">• 12 credits of Humanities, which must include at least 6 credits of Literature; and• 12 credits of Social Science; and• 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: <ul style="list-style-type: none">• 30 credits in residence, overall, and• 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none">• 2.000 in all coursework at UW–Madison• 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

30 credits in intermediate- and advanced-level ENGL courses numbered 204 and higher, excluding ENGL 207 and ENGL 236.

ENGLISH (LITERATURE)

Code	Title	Credits
Survey of Literature		
ENGL 241	Literature and Culture I: to the 18th Century	3

ENGL 400	Advanced Composition
ENGL/ GEN&WS 401	Race, Sex, and Texts (How to do things with writing)
ENGL 403	Seminar on Tutoring Writing Across the Curriculum
ENGL 505	Topics in Composition and Rhetoric

Electives 9

Any ENGL course at the Intermediate or Advanced level, excluding ENGL 207 and ENGL 236

Total Credits 30**NAMED OPTIONS**

Students may complete a named option, instead of the traditional English major. These are formally printed on the transcript.

View as listView as grid

- **ENGLISH: EMPHASIS ON CREATIVE WRITING (P. 688)**
- **ENGLISH: ENGLISH LANGUAGE AND LINGUISTICS (P. 689)**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ENGL courses and all major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence¹
- 15 credits in ENGL, taken on the UW–Madison campus

¹ Intermediate and Advanced level ENGL courses are considered upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the English major with permission of the major advisor. All English majors, including those declared in either named option, are eligible to complete Honors in the major.

HONORS IN THE ENGLISH MAJOR REQUIREMENTS

To earn Honors in the Major in English, students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in all ENGL courses and all major courses
- Complete 12 credits, taken for Honors, with a grade of B or better to include:
 - ENGL 245 and
 - Either:
 - a two-semester Senior Honors Thesis in ENGL 681 and ENGL 682 for a total of 6 credits, or
 - a senior Honors project that includes ENGL 680 and one other 3-credit I/A ENGL course taken for Honors OR
 - ENGL 695 and one other ENGL Creative Writing Workshop taken for Honors

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (History of literature and language) To demonstrate knowledge of major forms, techniques, social conditions, values, and genres that have shaped the history of English literature and language.
2. (Critical thinking) To be able to discern and integrate divergent and contradictory perspectives, identify and question assumptions, and assess evidence and methods.
3. (Creativity) To generate original ideas and texts, experimenting and taking risks, solving problems, and answering questions in a range of genres and media.

4. (Critical writing) To write original, coherent, and compelling arguments that push beyond summary to analysis and independent and critical thinking in clear prose that meets expectations for grammatical correctness.
5. (Citizenship) To develop empathy by learning about the experiences of others, and to gain an understanding of how we participate in communities (including the classroom) and the public sphere.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Total Credits 120**FOOTNOTES**¹ Students must declare a major before 86 credits.² See your major advisor if you want to declare English/Creative Writing, Honors in the English major, or plan to study abroad.

Please refer to the Requirements tab in Guide for additional College of Letters & Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

THREE-YEAR PLAN**THREE-YEAR PLAN**

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

DEPARTMENTAL EXPECTATIONS

Students planning to graduate within three years with an English major should enter the University with a minimum of 30 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- Communication Part A
- Quantitative Reasoning Part A
- 18 combined credits of Humanities, Social Science, and Natural Science coursework
- 3-4 units of foreign language

First Year

Fall	Credits Spring	Credits

DECLARE OR CANCEL THIS MAJOR**

Please follow the process described on the English website (<https://english.wisc.edu/undergraduate/major/declaring/>).

ACADEMIC ADVISING

The English Department supports majors and prospective majors by offering a comprehensive advising team based on your personal interests. You will find us on the 7th floor of the Helen C. White Building (<https://map.wisc.edu/s/6nfnzttsa/>) next to Memorial Union. Our team is here to support students holistically as they navigate their time at UW–Madison. To meet our advisors, visit our undergraduate advising page (<https://english.wisc.edu/undergraduate/undergraduate-advising/>) for more information, including how to schedule an appointment.

CAREERS AND INTERNSHIP ADVISOR

Career & Internship Coordinator

careers@english.wisc.edu (Career & Internship Coordinator careers@english.wisc.edu)
7195E Helen C. White, 600 North Park Street
English Career Advising (https://english.wisc.edu/undergraduate/undergraduate-advising/)

The English Department encourages our students to begin working on their career exploration and preparation soon after declaring the major. Our career advisor also partners with SuccessWorks at the College of Letters & Science.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try “Jobs, Internships, & How to Get Them,” (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS
WRITING CENTER

The Writing Center (https://writing.wisc.edu), located in 6171 Helen C. White Hall, offers free individualized help with writing. Students are welcome to come to the Center for help with writing assignments in almost any course. In half-hour tutorials, instructors help students clarify and organize ideas and offer advice about revising a draft. The center also offers short-term classes on various facets of writing, including classes on writing about literature, writing research papers, writing book reviews, writing essay exams, and on many other topics. The Writing Center also has a computer lab.

To make an appointment, students should call 608-263-1992 or stop by when the Writing Center is open. During busy times of the semester, the Center often is booked several days in advance, so students should plan ahead. For complete information about the center, including hours, schedules for writing assistance in the Multicultural Student Center and residence halls, extensive handouts about writing, and information about the Undergraduate Writing Fellows program, see the Center website (https://writing.wisc.edu).

SCHOLARSHIPS AND WRITING PRIZES

The English Department is proud to offer numerous forms of support for its undergraduate students and to recognize exceptional accomplishments in various forms of academic and creative work. You can find information about scholarships, prizes, and grants specifically designated for declared English majors on our website (https://english.wisc.edu/undergraduate/apply-for-scholarships/). Typically, these prizes and scholarships are awarded in the spring semester. Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (https://wisc.academicworks.com/).

ENGLISH: EMPHASIS ON CREATIVE WRITING
REQUIREMENTS

REQUIREMENTS
ENGLISH, CREATIVE WRITING OPTION

NOTE: This is a formal Option and will appear on the transcript.

L&S undergraduates with a particular interest in creative writing may combine a background in literature with a concentration of courses in fiction or poetry writing. The major requirements are distributed as follows:

Code	Title	Credits
Survey of Literature		
ENGL 241	Literature and Culture I: to the 18th Century	3
ENGL 242	Literature and Culture II: from the 18th Century to the Present	3
American Literature (1 course)		3
ENGL/LITTRANS 223	Vladimir Nabokov: Russian and American Writings	
ENGL 243	American Literary Cultures	
ENGL/GEN&WS 248	Women in Ethnic American Literature	
ENGL/ASIAN AM 270	A Survey of Asian American Literature	
ENGL 361	Modern and Contemporary American Literature

¹ Students must declare a major before 86 credits.

² See your major advisor if you want to declare Honors in the English major or plan to study abroad.

³ ENGL 514 and ENGL 516 are offered in alternating years.

Please refer to the Requirements tab (p. 683) in Guide for additional College of Letters & Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

TEACHING ENGLISH TO SPEAKERS OF OTHER LANGUAGES, CERTIFICATE

A certificate in Teaching English to Speakers of Other Languages (TESOL) is available to undergraduate students who wish to teach English as a second language, normally in positions abroad.

Please see the How to Get in section (p. 700) for the qualifications for declaring this certificate.

HOW TO GET IN

HOW TO GET IN

Fill out the online application and submit to the ESL office. Students should apply as early as possible (after the sophomore year if they are undergraduates) to allow enough time to complete the requirements.

Download the **Undergraduate Application**.

Academic requirements for the program are:

For Undergraduates: Enrollment in any one of the required certificate courses and a degree program at UW–Madison.

Native English speakers must show completion of four college-level semesters of one language (prior to or completed concurrently with certificate coursework).

Nonnative English speakers are required to show English language proficiency in the following ways:

- A minimum score of 50 on TSE or SPEAK or an iBy score of 26 on the speaking section of the TOEFL
- A minimum score of 100 on the TOEFL iBT or 600 on the paper-based version of the TOEFL or 7 on the IELTS (International English Language Testing System) can be substituted for the TOEFL.

REQUIREMENTS

REQUIREMENTS FOR THE CERTIFICATE

15 credits of course work include:

Code	Title	Credits
Foundation Courses		
ENGL 314	Structure of English	3
ENGL 415	Introduction to TESOL Methods	3
Second Language Acquisition and Teaching Courses		
ENGL 318	Second Language Acquisition	3

Students must take 3 credits of TESOL Workshops.		3
ENGL 613	TESOL: Pedagogical Grammar I	15
ENGL 614	TESOL: Pedagogical Grammar II	
ENGL 615	TESOL: Teaching Listening and Speaking	
ENGL 616	TESOL: Teaching of Reading	
ENGL 617	TESOL: Teaching of Writing	
ENGL 618	TESOL: Teaching Pronunciation	
Total Credits		15

RESIDENCE AND QUALITY OF WORK

- Minimum 3.000 GPA in all courses approved for the certificate
- At least 8 certificate credits must be completed in residence

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate knowledge in the historical trends in the field, the theoretical underpinnings and the role of English in society and as an international language.
2. Become familiar with the sound and grammatical systems of English.
3. Understand and apply basic principles in the teaching of reading, writing, listening and speaking.
4. Understand the principles of second language acquisition.
5. Construct and execute well-crafted lesson plans.

ADVISING AND CAREERS

ADVISING AND CAREERS

Undergraduate and graduate students who are interested in the Teaching English to Speakers of Other Languages Certificate can contact asktesol@english.wisc.edu for general advising issues.

For current certificate students, please contact Joseph Nosek, TESOL Program Advisor (joseph.nosek@wisc.edu) or Vivian Ye, TESOL Program Coordinator (jye83@wisc.edu).

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)

- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

ENVIRONMENTAL STUDIES

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/ CERTIFICATES

- Environmental Studies Major (p. 701)

ENVIRONMENTAL STUDIES MAJOR

The Gaylord Nelson Institute for Environmental Studies is one of the world’s leading institutions for environmental studies and is the administrative home for the major. The Environmental Studies major offers a robust and interdisciplinary curriculum that spans all contemporary disciplines that touch upon the environment. The curriculum includes biological sciences, physical sciences, and social sciences, as well as humanities, history, health, and modern culture.

The Environmental Studies major provides unique opportunities for undergraduate students to broaden their studies through interdisciplinary coursework related to the environment. **The major must always be completed in tandem with a second major.** This requirement is unique to the Environmental Studies major and allows undergraduates the opportunity to both broaden and deepen the focus of their other major with a perspective on the environment that spans a wide range of topics and involves varying depths of application.

The major includes experiential learning opportunities via the capstone course and the field requirement and encourages global interaction through study or internships abroad. With numerous travel abroad possibilities and ongoing access to a large selection of extracurricular events, graduates have countless combinations available to them. The outcome is a solid academic foundation in the study of the environment and access to a network of multidisciplinary problem-solving colleagues.

In today’s world, the program prepares students to address modern challenges using interdisciplinary problem-solving approaches, applying both an understanding of, and practical experience beyond, a single academic discipline. Employers purposefully seek individuals with interdisciplinary and international preparation, and environmental studies students are ready to meet that need.

The Nelson Institute also offers two undergraduate certificates:

Environmental Studies Certificate (p. 1378)
Sustainability Certificate (p. 1384)

HOW TO GET IN

HOW TO GET IN DECLARING THE MAJOR

Students interested in declaring the Environmental Studies major should request a major declaration appointment. Information about declaring the major can be found at undergraduate advising (<https://nelson.wisc.edu/undergraduate/advising.php>).

Students who earn the Environmental Studies major may not also earn the Environmental Studies Certificate.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education

- Breadth–Humanities/Literature/Arts: 6 credits
- Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth–Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

SCHOOL/COLLEGE REQUIREMENTS

The Environmental Studies major is always paired with another major. Please refer to the School/College degree requirements of the other major to learn about degree requirements or consult an advisor.

REQUIREMENTS FOR THE MAJOR

The environmental studies major provides students with an academically rigorous course sequence that encompasses introductory through advanced understandings of the interdisciplinary field of environmental studies. Students must have a declared primary major, and are allowed to apply a portion of course work from that major for the environmental

studies major, making it possible to complete their degree within four years.

- **30 credits in the major as defined below.**
- Declare and complete a primary major. **Students must have a primary major declared before reaching senior standing (86 credits) or the environmental studies major may be canceled.**
- At least 15 credits taken for the environmental studies major must be distinct, and not also meeting minimum requirements in another major.
- Students outside the College of Letters & Science may have to meet additional overlap requirements.

FOUNDATION (12 CREDITS)

One course from each of the following four areas. Courses applied to Foundation cannot also be used in Theme or Capstone.

Environmental Humanities (3 credits)

Code	Title	Credits
ENVIR ST 113	Environmental Studies: Environmental Humanities	3
ENVIR ST/HIST SCI/ HISTORY 125	Green Screen: Environmental Perspectives through Film	3
ENVIR ST/ART HIST/ GEOG/HISTORY/ LAND ARC 239	Making the American Landscape	3-4
ENVIR ST/ RELIG ST 270	The Environment: Religion & Ethics	3-4
HISTORY/ENVIR ST/ GEOG 460	American Environmental History	4
ENVIR ST/ HISTORY 465	Global Environmental History	3-4
ENVIR ST/ CLASSICS 488	Greeks, Romans and the Natural Environment	3

Environmental Social Science (3 credits)

Code	Title	Credits
ENVIR ST 112	Environmental Studies: Social Science Perspectives	3
ENVIR ST/ GEOG 139	Global Environmental Issues	3
ENVIR ST/A A E 244	The Environment and the Global Economy	4
ENVIR ST/ GEOG 339	Environmental Conservation	4
C&E SOC/SOC 140	Introduction to Community and Environmental Sociology	4
C&E SOC/ F&W ECOL/ SOC 248	Environment, Natural Resources, and Society	3

Environmental Physical Science (3 credits)

Code	Title	Credits
ENVIR ST/ GEOSCI 106	Environmental Geology	3
ENVIR ST/ GEOG 120	Introduction to the Earth System	3
ENVIR ST/ILS 126	Principles of Environmental Science	4

ENVIR ST/GEOG 127	Physical Systems of the Environment	4
ENVIR ST/GEOG/ SOIL SCI 230	Soil: Ecosystem and Resource	3
ENVIR ST/ILS 255	Introduction to Sustainability Science	4
ENVIR ST/ ATM OCN/ GEOG 332	Global Warming: Science and Impacts	3
ENVIR ST/ ATM OCN/GEOG/ GEOSCI 335	Climatic Environments of the Past	3
ATM OCN 100	Weather and Climate	3
ATM OCN 101	Weather and Climate	4
ATM OCN/ SOIL SCI 132	Earth's Water: Natural Science and Human Use	3
SOIL SCI 301	General Soil Science	3
PHYSICS 115	Energy and Climate	3

Environmental Ecology (3 credits)

Code	Title	Credits
ENVIR ST 251	Ecology and the Global Environment	3
ENVIR ST/BOTANY/ ZOOLOGY 260	Introductory Ecology	3
ENVIR ST 413	Preserving Nature	3
BOTANY 240	Plants and Humans	3
BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology	4
GEOSCI 110	Evolution and Extinction	4
F&W ECOL 401	Physiological Animal Ecology	3
F&W ECOL 550	Forest Ecology	3

THEME (15 CREDITS)

Five courses and 15 credits from any of the areas below. Courses may be concentrated in one area or distributed across multiple areas. Courses applied to the thematic areas cannot also be used in Foundation or Capstone.

Biodiversity

Code	Title	Credits
ENVIR ST/ F&W ECOL 100	Forests of the World	3
ENVIR ST/ ENTOM 201	Insects and Human Culture-a Survey Course in Entomology	3
ENVIR ST 251	Ecology and the Global Environment	3
ENVIR ST/BOTANY/ ZOOLOGY 260	Introductory Ecology	3
ENVIR ST/ F&W ECOL/ ZOOLOGY 360	Extinction of Species	3
ENVIR ST/ LAND ARC 361	Wetlands Ecology	3
ENVIR ST 375	Field Ecology Workshop	3
ENVIR ST 413	Preserving Nature	3
ENVIR ST/C&E SOC/ GEOG 434	People, Wildlife and Landscapes	3

ENVIR ST/BOTANY/ F&W ECOL/ ZOOLOGY 516	Conservation Biology	3
ENVIR ST 613	Reproducibility Crises and Open Science in Environmental Studies	3

BEYOND THE CLASSROOM EXPERIENCE

The Beyond the Classroom experience in the Environmental Studies major can be met in one of the following ways:

- A course from the list below. Courses used to meet the Beyond the Classroom experience requirement may also be used in other areas of the curriculum.
- Participation in an environmental study abroad program where 50% or more of the contact hours are in an out-of-doors situation (see your advisor)
- Participation in an environmental internship or similar experience where 50% or more of the contact hours are in an out-of-doors situation (field form summary **must** be submitted)

Beyond the Classroom experiences are expected to include one or more of the following: data gathering, reflective out of-classroom experience, practical application, performance/creation related to environment, outdoor experiences, community engagement/service. The Beyond the Classroom experience gives students practice in an outward-facing application of environmental studies and sustainability.

3 credits from:

Code	Title	Credits
ENVIR ST 600	Environmental Studies Capstone	3

RESIDENCE & QUALITY OF WORK IN THE MAJOR

- 2.000 GPA in all ENVIR ST courses and courses in the major
- 2.000 GPA on 15 upper-level major credits, taken in Residence. Intermediate and Advanced level courses in the major are considered upper level.
- 15 credits in ENVIR ST or in the major, taken on campus (at UW-Madison)

HONORS IN THE MAJOR

Honors in the Major is not available in Environmental Studies.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Explain the social and historical processes that impact current environments and sustainability issues. Interpret the meanings, values, and systems that are created, shaped, and revealed as humans interact with and modify the environments they inhabit.
2. Explain systemic and ecological processes and fundamental principles of environmental sciences relating to humanity's key environmental challenges of the past, present, and future.
3. Analyze and respond to questions in environment and sustainability by applying interdisciplinary approaches that integrate multiple perspectives, including those from a coordinate major.
4. Recognize through critical thinking a diversity of viewpoints, ethical commitments, and disciplinary approaches to environmental and sustainability concerns across various scales from the local to the global.
5. Demonstrate excellent reading, writing, communication, and research skills, both individually and in interdisciplinary teams.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many

students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

ADVISING AND CAREERS

ADVISING AND CAREERS

The Environmental Studies major (<https://nelson.wisc.edu/undergraduate/environmental-studies-major/>) offers unique opportunities for undergraduate students to broaden their studies through interdisciplinary coursework related to the environment. See undergraduate advising (<https://nelson.wisc.edu/undergraduate/advising/>) for more information about declaring the major or certificate.

Environmental Studies students are represented in majors all across campus and in most undergraduate schools and colleges. Environmental studies majors should utilize the career office for their home school as appropriate.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

- Italian, BA (p. 720)
- Italian, BS (p. 723)
- Italian, Certificate (p. 727)

FRENCH, BA

The French program at UW–Madison offers students opportunities for cultural and literary learning about the French-speaking world through

dynamic, in-class experiences and extracurricular components such as the French Club (<https://win.wisc.edu/organization/frenchclub/>), Pi Delta Phi (<https://www.pideltaphi.org/>) (the National French Honor Society), the French House (<http://uwfrenchhouse.org/>) (an immersion residence hall and cultural center), and with French and Francophone cultural events in and around Madison.

Students intending to major in French or complete the French certificate (p. 718) enter the program at the appropriate level depending on their language proficiency. If you have previous experience in the French language, please refer to Testing and Evaluation Services (<https://exams.wisc.edu/placement/uw-madison-students.php>) to register for the placement test.

The majority of UW–Madison French major or certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW–Madison-sponsored program (<https://studyabroad.wisc.edu/academics/major-advising-pages-maps/french/>).

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult the undergraduate advisor (<https://frit.wisc.edu/administrative-staff/>).

For courses in French literature in translation, see the Literature in Translation (<https://guide.wisc.edu/courses/littrans/>) course listing.

Students declared in the French certificate may not be declared in the French major at the same time. French certificate students who want to switch to the French major, must cancel their French certificate.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the

requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

Language

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

L&S Breadth

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced work Complete at least 60 credits at the intermediate or advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW-Madison Experience

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

Quality of Work

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students pursuing a French major must complete **27 credits** beyond FRENCH 204. Only one course taught in English can count towards the French Major.¹

Code	Title	Credits
Required Courses		9
FRENCH 228	Intermediate Language and Culture	
FRENCH 271	Literature, Comics, and Film in French

Total Credits**27**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all FRENCH and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence: (French 300 and higher are considered upper-level in the major)
- 15 credits in FRENCH taken on campus at UW–Madison

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with a French undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all FRENCH courses and all courses counting in the major
- Complete at least 8 credits, taken for Honors, beyond FRENCH 271³
- Complete a two-semester Senior Honors Thesis in FRENCH 681 and FRENCH 682, for a total of 6 credits⁴

FOOTNOTES

¹ Only one course taught in English may count toward the French Major.

² FRENCH 361 and FRENCH 362 are only available to students participating in a study abroad program.

³ Study abroad in France or in another French-speaking country is highly recommended, and the 8 credits taken for Honors can be fulfilled through French courses taken abroad at the appropriate level.

⁴ In certain circumstances (particularly when the student is an Honors candidate in two or more departments), two courses in literature or cultural studies numbered 500–599 or 600–699 may be substituted for the Senior Honors Thesis.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.
-----------------	--

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate that they understand and can analyze literary and non-literary texts in French representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).
2. Express themselves effectively in spoken and written French to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).
3. Express themselves effectively in spoken and written French to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).
4. Recognize and explain cultural artifacts, practices, and perspectives of the French-speaking world including how these cultural elements relate to literary and non-literary texts in French (cultural knowledge).
5. Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the French language (linguistic knowledge).
6. Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the French-speaking world with those found in their own culture (cross-cultural awareness).
7. Engage in a sustained fashion with the French language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad (engagement with the French language and culture).

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the French & Italian webpage (<https://frit.wisc.edu/academic-advising/>).

For information about academic advising including language proficiency, language placement, and retrocredits, please visit our website or schedule an appointment with the undergraduate advisor.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)

- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS
FRENCH HOUSE

La Maison Française (<http://uwfrenchhouse.org/>), a francophone (French-speaking) residence hall and cultural center, is managed by the Department of French and Italian under the direction of Anne Theobald, PhD (<https://frit.wisc.edu/staff/theobald-anne/>). Residence is open to UW–Madison students with the equivalent of a fourth-semester level of French. At least two native French graduate students reside in the house, aiding in conversation and facilitating the use of French. Most residents are Americans: prospective teachers of French, French majors, and students in other disciplines who want to speak French on a daily basis. Applications should be made well in advance.

The French House is open to the public for Wednesday dinner and Friday lunch (<https://www.uwfrenchhouse.com/dining/>) during the academic year.

CLUBS AND ACTIVITIES

The French Club (<https://win.wisc.edu/organization/frenchclub/>) is a registered student organization run by students involved in the French program and open to any and all UW–Madison community members who have an interest in French language and culture. Club members are encouraged to organize and participate in cultural events on campus and in the community. Undergraduates are welcome at scholarly talks and department events on an array of subjects (see department website (<https://frit.wisc.edu/>) and the French House website (<http://uwfrenchhouse.org/>) for event details).

Pi Delta Phi (<https://www.pideltaphi.org/>) is for college and university undergraduate and graduate students. Founded at the University of California, Berkeley in 1906, Pi Delta Phi is the oldest national academic honor society for a foreign language in the United States. The aims of the Society are to recognize outstanding scholarship in the French language and Francophone literatures, to increase the knowledge and appreciation of Americans for the cultural contributions of the French-speaking world, and to encourage and to stimulate French and francophone cultural activities. There are currently more than 400 chapters and over 75,000 members across the United States. The Pi Delta Phi chapter at UW–Madison, Rho Zeta, was founded by Mandi Schoville, MFS (<https://frit.wisc.edu/staff/mandi-schoville/>) and Anne Theobald, PhD (<https://frit.wisc.edu/staff/theobald-anne/>) in spring 2023 with the first cohort initiated in spring 2024. Students participate in activities and chapter events throughout the academic year. In order to be eligible for undergraduate nomination, UW–Madison undergraduate students must be sophomores, must have completed at least one semester of a 300-level or higher course in French, have a current minimum cumulative GPA of 3.000 and minimum French subject GPA of 3.300. A completed membership form and one-time dues for a lifetime membership are required for admission, for which students receive the Pi Delta Phi pin, certificate, and one set of graduation honor cords in blue, white, and red.

FRENCH, BS

The French program at UW–Madison offers students opportunities for cultural and literary learning about the French-speaking world through dynamic, in-class experiences and extracurricular components such as the French Club (<https://win.wisc.edu/organization/frenchclub/>), Pi Delta Phi (<https://www.pideltaphi.org/>) (the National French Honor Society), the French House (<http://uwfrenchhouse.org/>) (an immersion residence hall and cultural center), and with French and Francophone cultural events in and around Madison.

Students intending to major in French or complete the French certificate (p. 718) enter the program at the appropriate level depending on their language proficiency. If you have previous experience in the French language, please refer to Testing and Evaluation Services (<https://exams.wisc.edu/placement/uw-madison-students.php>) to register for the placement test.

The majority of UW–Madison French major or certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW–Madison-sponsored program (<https://studyabroad.wisc.edu/academics/major-advising-pages-maps/french/>).

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult the undergraduate advisor (<https://frit.wisc.edu/administrative-staff/>).

For courses in French literature in translation, see the Literature in Translation (<https://guide.wisc.edu/courses/littrans/>) course listing.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education

requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

Language Complete the third unit of a language other than English.

L&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced Coursework Complete at least 60 credits at the Intermediate or Advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW-Madison Experience	Complete both:
	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit.
Quality of Work	• 2.000 in all coursework at UW-Madison
	• 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students pursuing a French major must complete **27 credits** beyond FRENCH 204. Only one course taught in English can count towards the French Major.¹

Code	Title	Credits
Required Courses		9
FRENCH 228	Intermediate Language and Culture

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all FRENCH and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence: (French 300 and higher are considered upper-level in the major)
- 15 credits in FRENCH taken on campus at UW–Madison

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with a French undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all FRENCH courses and all courses counting in the major
- Complete at least 8 credits, taken for Honors, beyond FRENCH 271³
- Complete a two-semester Senior Honors Thesis in FRENCH 681 and FRENCH 682, for a total of 6 credits⁴

FOOTNOTES

¹ Only one course taught in English may count toward the French Major.

² FRENCH 361 and FRENCH 362 are only available to students participating in a study abroad program.

³ Study abroad in France or in another French-speaking country is highly recommended, and the 8 credits taken for Honors can be fulfilled through French courses taken abroad at the appropriate level.

⁴ In certain circumstances (particularly when the student is an Honors candidate in two or more departments), two courses in literature or cultural studies numbered 500-599 or 600-699 may be substituted for the Senior Honors Thesis.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate that they understand and can analyze literary and non-literary texts in French representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).
2. Express themselves effectively in spoken and written French to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).
3. Express themselves effectively in spoken and written French to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).
4. Recognize and explain cultural artifacts, practices, and perspectives of the French-speaking world including how these cultural elements relate to literary and non-literary texts in French (cultural knowledge).
5. Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the French language (linguistic knowledge).
6. Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the French-speaking world with those found in their own culture (cross-cultural awareness).
7. Engage in a sustained fashion with the French language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad (engagement with the French language and culture).

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the French & Italian webpage (<https://frit.wisc.edu/academic-advising/>).

For information about academic advising including language proficiency, language placement, and retrocredits, please visit our website or schedule an appointment with the undergraduate advisor.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience,

and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS
FRENCH HOUSE

La Maison Française (<http://uwfrenchhouse.org/>), a francophone (French-speaking) residence hall and cultural center, is managed by the Department of French and Italian under the direction of Anne Theobald, PhD (<https://frit.wisc.edu/staff/theobald-anne/>). Residence is open to UW–Madison students with the equivalent of a fourth-semester level of French. At least two native French graduate students reside in the house, aiding in conversation and facilitating the use of French. Most residents are Americans: prospective teachers of French, French majors, and students in other disciplines who want to speak French on a daily basis. Applications should be made well in advance.

The French House is open to the public for Wednesday dinner and Friday lunch (<https://www.uwfrenchhouse.com/dining/>) during the academic year.

CLUBS AND ACTIVITIES

The French Club (<https://win.wisc.edu/organization/frenchclub/>) is a registered student organization run by students involved in the French program and open to any and all UW–Madison community members who have an interest in French language and culture. Club members are encouraged to organize and participate in cultural events on campus and in the community. Undergraduates are welcome at scholarly talks and department events on an array of subjects (see department website (<https://frit.wisc.edu/>) and the French House website (<http://uwfrenchhouse.org/>) for event details).

Pi Delta Phi (<https://www.pideltaphi.org/>) is for college and university undergraduate and graduate students. Founded at the University of California, Berkeley in 1906, Pi Delta Phi is the oldest national academic honor society for a foreign language in the United States. The aims of the Society are to recognize outstanding scholarship in the French language and Francophone literatures, to increase the knowledge and appreciation of Americans for the cultural contributions of the French-speaking world, and to encourage and to stimulate French and francophone cultural activities. There are currently more than 400 chapters and over 75,000 members across the United States. The Pi Delta Phi chapter at UW–Madison, Rho Zeta, was founded by Mandi Schoville, MFS (<https://frit.wisc.edu/staff/mandi-schoville/>) and Anne Theobald, PhD (<https://frit.wisc.edu/staff/theobald-anne/>) in spring 2023 with the first cohort initiated in spring 2024. Students participate in activities and chapter events throughout the academic year. In order to be eligible

for undergraduate nomination, UW–Madison undergraduate students must be sophomores, must have completed at least one semester of a 300-level or higher course in French, have a current minimum cumulative GPA of 3.000 and minimum French subject GPA of 3.300. A completed membership form and one-time dues for a lifetime membership are required for admission, for which students receive the Pi Delta Phi pin, certificate, and one set of graduation honor cords in blue, white, and red.

FRENCH, CERTIFICATE

The undergraduate certificate in French offers students the opportunity to develop their proficiency in French language and their knowledge of literature and culture in the French-speaking world, thereby complementing their major(s) in other subjects across the university. It also strengthens the applications of students who intend to pursue careers or graduate study in areas where French is useful.

HOW TO GET IN

HOW TO GET IN

Degree seeking students can declare an French certificate at any time. For more information and/or to declare the French certificate, please see the department website (<https://frit.wisc.edu/>).

Students declared in the French major may not be declared in the French certificate at the same time. French major students who want to switch to the French certificate, must cancel their French major.

REQUIREMENTS

REQUIREMENTS

Students pursuing a French certificate must complete **15 credits beyond FRENCH 204**.

ITALIAN, BA

The Italian program at UW–Madison offers students opportunities for growth in the language and for increased cultural fluency through dynamic, in-class learning experiences and multiple extracurricular components such as the Italian Club (<https://www.facebook.com/groups/28276254670/>), Circolo della bella lingua (a regular language meet-up geared toward allowing students of all levels to practice their Italian speaking in an informal setting) and Cineteca Italiana (<https://www.facebook.com/UWCineteca/>), which organizes weekly screenings of Italian films.

Students intending to major in Italian or complete the certificate enter the program at the appropriate level depending on their language proficiency. If you have previous experience in the Italian language, please contact the undergraduate advisor (<https://frit.wisc.edu/academic-advising/>) for more information about the informal Italian placement test.

Italian major and certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW–Madison study abroad program.

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult the undergraduate advisor (<https://frit.wisc.edu/academic-advising/>).

For courses in Italian literature in translation, see the Literature in Translation (<https://guide.wisc.edu/courses/littrans/>) course listing.

Students declared in the Italian certificate may not be declared in the Italian major at the same time. Italian certificate students who want to switch to the Italian major, must cancel their Italian certificate.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

- | | |
|-------------------|---|
| General Education | <ul style="list-style-type: none">• Breadth—Humanities/Literature/Arts: 6 credits• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits• Breadth—Social Studies: 3 credits• Communication Part A & Part B *• Ethnic Studies *• Quantitative Reasoning Part A & Part B * |
|-------------------|---|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

RESIDENCY AND QUALITY OF WORK

- 15 credits in ITALIAN taken on campus at UW-Madison. Study abroad programs sponsored by UW-Madison are considered in residence but are not on campus.

- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence - (ITALIAN 300 and higher are considered upper-level in the major)
- 2.000 GPA in all ITALIAN and major courses

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Italian undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ITALIAN courses and courses counting toward the major
- Complete at least 15 credits, taken for Honors, beyond ITALIAN 204 or ITALIAN 205, earning individual grades of B or better in each course. Of these 15 credits, 6 must come from completing a two-semester Senior Honors Thesis in ITALIAN 681 and ITALIAN 682.²

¹ Only one Literature in Translation course can count towards the Italian major.
² Students may be allowed to substitute two semesters of literature course work numbered above 600 for the Senior Honors Thesis. Please consult the undergraduate advisor.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the French & Italian webpage (<https://frit.wisc.edu/academic-advising/>).

For information about academic advising including language proficiency, language placement, and retrocredits, please visit our website or schedule an appointment with the undergraduate advisor.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS CLUBS AND OTHER ACTIVITIES

The Italian Club (<https://www.facebook.com/groups/28276254670/>) is a registered student organization run by students involved in the Italian program and open to any and all UW community members who have an interest in Italian culture. Club members are encouraged to organize and participate in cultural events on campus and in the community, including our annual Cena italiana in the spring. Members of the Italian Club and Italian Ambassadors also organize the Circolo della bella lingua, a regular

language meet-up geared toward allowing students of all levels to practice their Italian speaking in an informal setting. Finally, the Cineteca Italiana (<https://www.facebook.com/UWCineteca/>) organizes weekly screenings of Italian films. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (<https://frit.wisc.edu/>) for event details).

ITALIAN, BS

The Italian program at UW-Madison offers students opportunities for growth in the language and for increased cultural fluency through dynamic, in-class learning experiences and multiple extracurricular components such as the Italian Club (<https://www.facebook.com/groups/28276254670/>), Circolo della bella lingua (a regular language meet-up geared toward allowing students of all levels to practice their Italian speaking in an informal setting) and Cineteca Italiana (<https://www.facebook.com/UWCineteca/>), which organizes weekly screenings of Italian films.

Students intending to major in Italian or complete the certificate enter the program at the appropriate level depending on their language proficiency. If you have previous experience in the Italian language, please contact the undergraduate advisor (<https://frit.wisc.edu/academic-advising/>) for more information about the informal Italian placement test.

Italian major and certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW-Madison study abroad program.

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult the undergraduate advisor (<https://frit.wisc.edu/academic-advising/>).

For courses in Italian literature in translation, see the Literature in Translation (<https://guide.wisc.edu/courses/littrans/>) course listing.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students declared in the Italian certificate may not be declared in the Italian major at the same time. Italian certificate students who want to switch to the Italian major, must cancel their Italian certificate.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	• Breadth–Humanities/Literature/Arts: 6 credits
	• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth–Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
L&S Breadth	Complete: <ul style="list-style-type: none"> • 12 credits of Humanities, which must include at least 6 credits of Literature; and • 12 credits of Social Science; and • 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: <ul style="list-style-type: none"> • 30 credits in residence, overall, and • 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none"> • 2.000 in all coursework at UW-Madison • 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students pursuing an Italian major must complete **24 credits beyond ITALIAN 204 or ITALIAN 205**. Only one Literature in Translation (LITTRANS) course can count towards the Italian major.¹

Code	Title	Credits
Required Courses (complete three)		9

or LITTRANS 26	Italy and the Invention of America: from Columbus to World War II
or LITTRANS 41	In Translation: Special Topics in Italian Literature

Total Credits**24**

RESIDENCY AND QUALITY OF WORK

- 15 credits in ITALIAN taken on campus at UW–Madison. Study abroad programs sponsored by UW–Madison are considered in residence but are not on campus.
- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence - (ITALIAN 300 and higher are considered upper-level in the major)
- 2.000 GPA in all ITALIAN and major courses

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Italian undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ITALIAN courses and courses counting toward the major
- Complete at least 15 credits, taken for Honors, beyond ITALIAN 204 or ITALIAN 205, earning individual grades of B or better in each course. Of these 15 credits, 6 must come from completing a two-semester Senior Honors Thesis in ITALIAN 681 and ITALIAN 682.²

¹ Only one Literature in Translation course can count towards the Italian major.

² Students may be allowed to substitute two semesters of literature course work numbered above 600 for the Senior Honors Thesis. Please consult the undergraduate advisor.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate that they understand and can analyze literary and non-literary texts in Italian representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).
2. Express themselves effectively in spoken and written Italian to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).
3. Express themselves effectively in spoken and written Italian to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).

4. Recognize and explain cultural artifacts, practices, and perspectives of the Italian-speaking world including how these cultural elements relate to literary and non-literary texts in Italian (cultural knowledge).
5. Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the Italian language (linguistic knowledge).
6. Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the Italian-speaking world with those found in their own culture (cross-cultural awareness).
7. Engage in a sustained fashion with the Italian language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad (engagement with the Italian language and culture).

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

ITALIAN, CERTIFICATE

The undergraduate certificate in Italian offers students the opportunity to develop their proficiency in Italian language and their knowledge of literature and culture in the Italian-speaking world. Advanced courses (300 and 400 level) will allow students to build on the foundation developed in 200-level courses by choosing from a range of courses in Italian literature, linguistics, cinema, culture, and professional communication. The certificate also strengthens the applications of students who intend to pursue careers or graduate study in areas where Italian is useful.

HOW TO GET IN

HOW TO GET IN

Degree seeking students can declare an Italian certificate at any time. For more information and/or to declare the Italian certificate, please see the department website (<https://frit.wisc.edu/>).

Students declared in the Italian major may not be declared in the Italian certificate at the same time. Italian major students who want to switch to the Italian certificate, must cancel the Italian major.

REQUIREMENTS

REQUIREMENTS

Students pursuing an Italian certificate must complete **15 credits beyond** ITALIAN 204 or ITALIAN 205. Only one Literature in Translation (LITTRANS) course can count towards the Italian certificate.¹

GENDER AND WOMEN'S STUDIES

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Gender and Women's Studies, BA (p. 728)
- Gender and Women's Studies, BS (p. 736)
- Gender and Women's Studies, Certificate (p. 743)
- LGBTQ+ Studies, Certificate (p. 746)

GENDER AND WOMEN'S STUDIES, BA

The Gender and Women's Studies curriculum provides a platform for students to study how equity and social justice are connected to gender, sexuality, and identity. Gender and Women's Studies students explore the field through traditional disciplines, such as literature, history, anthropology, sociology, public health, education, law, biology, psychology, political science, and the visual arts. Students in our courses (https://guide.wisc.edu/courses/gen_ws/) develop strong analytical and communication skills through classroom discussion, writing, and independent projects. Undergraduates in our programs can pursue research skills through thesis writing, as well as professional development opportunities through career workshops with alumni and in our internship program. As a result, graduates from our programs apply a critical lens in fields like health and public policy, social justice and advocacy, reproductive justice, non-profit administration, clinical medicine, software development, communications, and media production.

Declaring the major as early as possible allows students to best align major coursework with their interests.

Students declared in the Certificate in Gender and Women's Studies at the Undergraduate Level may not be declared in the Gender and Women's Studies major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	<ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

Language

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

L&S Breadth

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced work Complete at least 60 credits at the intermediate or advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW-Madison Experience

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

Quality of Work

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Majors in Gender and Women's Studies are required to take foundational work in GEN&WS courses reflecting each of four approaches to knowledge (humanities, social science, theory, and biological or health sciences), one course from three of four issue areas (sexuality, disability

and embodiment, race/ethnicity, and global), and a capstone seminar or thesis.

All majors complete a minimum of 30 credits in GEN&WS including: ¹

INTRODUCTORY GEN&WS

Code	Title	Credits
GEN&WS 101	Gender, Women, and Cultural Representation ²	3
or GEN&WS 102	Gender, Women, and Society in Global Perspective	
GEN&WS 103	Gender, Women, Bodies, and Health	3
Total Credits		6

APPROACHES ³

1 course from each area:

Biology and Health

Explore health as both a physiological and a socio#cultural experience, and recognize ways in which gender and other axes of social inequality influence health. Develop critical tools to place the medical field, scientific research, and public health and policy organizations into social contexts, and recognize how these institutions both can reflect and perpetuate dominant ideologies. Learn about feminist approaches to, and histories of, science, medicine, and health activism.

Code	Title	Credits
GEN&WS 104	Gender, Sexuality, and Global Health	3
GEN&WS 523	Framing Fatness: Gender, Size, Constructing Health	3
GEN&WS 524	Race, Gender, Health, and Medicine	3
GEN&WS 525	Gender and Global Health in Critical Perspective	3
GEN&WS 527	The Environment of the Womb: Epigenetics and Parent/Child Health	3
GEN&WS 528	Sexuality and Science	3
GEN&WS 529	The Science and Politics of Reproductive Health	3
GEN&WS 530	Biology and Gender	3
GEN&WS/HIST SCI/ MED HIST 531	Women and Health in American History	3
GEN&WS/HIST SCI/ MED HIST 532	The History of the (American) Body	3
GEN&WS 533	Special Topics in Gender and Biology	3
GEN&WS 534	Gender, Sexuality, and Reproduction: Public Health Perspectives	3
GEN&WS/ INTL ST 535	Women's Global Health and Human Rights	3
GEN&WS 536	Queering Sexuality Education	3
GEN&WS/ HIST SCI 537	Childbirth in the United States	3
GEN&WS 538	Special Topics in LGBTQ+ Health	3
GEN&WS 539	Special Topics in Gender and Health	3

Humanities

Engage with humanities-based theories, content areas, and methodologies as they relate to gender and women's studies. These include, but are not limited to, critical text analysis, discourse analysis, historical approaches and archival work, media studies, ethnography, and digital humanities. (GEN&WS courses with H, L or Z designations)

Code	Title	Credits
GEN&WS 105	Intersectional Approaches to Disability Studies	3

GEN&WS 640	Capstone Seminar in Gender and Women's Studies	
GEN&WS 681 & GEN&WS 682	Senior Honors Thesis I and Senior Honors Thesis II	
GEN&WS 691 & GEN&WS 692	Senior Thesis I and Senior Thesis II	
Total Credits		3-6

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all GEN&WS and major courses
- 2.000 GPA on 15 upper-level major credits, taken in Residence ⁵
- 15 credits in GEN&WS, taken on the UW–Madison campus

FOOTNOTES

¹ A maximum of three courses designated as elementary level may apply in the major, overall. Directed study courses typically do not count toward the minimum credits required in the major.

² GEN&WS 101 and GEN&WS 102 cannot both count toward the coursework required in the Gender and Women's Studies major. Students must choose one of these courses.

³ A single course may apply to both an Approach and an Issue Area. However, a single course may not apply to more than one Approach or to more than one Issue Area.

⁴ Students interested in the doing research in Gender & Women's Studies will develop a thesis topic in consultation with a member of the faculty. The senior thesis course sequence (GEN&WS 691-GEN&WS 692 or GEN&WS 681-GEN&WS 682) serves as the capstone requirement for the major. In this case, the student may still count GEN&WS 640 as an elective in the major.

⁵ Courses in GEN&WS with Intermediate or Advanced level designation are considered upper level in the major.

HONORS IN THE MAJOR

To declare Honors in the Major in Gender and Women's Studies, students must submit a letter of application to the undergraduate advisor prior to enrollment in GEN&WS 681. The letter should include:

- A list of all planned and declared degrees, major and certificate programs
- Area(s) of research interest within gender and women's studies and ideas for an Senior Honors Thesis
- A letter from a faculty member agreeing to supervise the thesis project

HONORS IN THE GENDER AND WOMEN'S STUDIES MAJOR REQUIREMENTS

To earn Honors in the Major in Gender and Women's Studies, students must satisfy the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all GEN&WS courses
- Complete at least 2 GEN&WS courses totaling 6 or more credits for Honors and earn grades of B or higher
- Complete GEN&WS 681 and GEN&WS 682 for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Knowledge of core concepts of gender and women's studies, including: gender, intersectionality, feminist theory, epistemology, class, race/ethnicity, global processes, sexuality, disability & embodiment, health and science, and contemporary and historical issues.
2. Intellectual and practical skills relating to gender and women's studies, including: problem solving, research and inquiry, interdisciplinarity, critical thinking, writing, oral communication, collaboration, creativity, and career skills.
3. Personal and social responsibility anchored through active involvement with diverse communities and real-world challenges. This category may include things like developing critical self and social awareness, applying ethical frameworks, learning through engaged practices.
4. Integrative learning demonstrated through the application of knowledge, skills and responsibilities to new settings and complex problems. This category may be acquired through advanced accomplishment and/or the application beyond the Gender & Women's Studies classroom to, for example, one's life, to activist project, and/or to non-Gender & Women's Studies academic coursework.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Gender and Women's Studies website. (<https://gws.wisc.edu/declaring-in-gws-lgbtq-studies/>)

ADVISING

Working with your advisor helps you create a meaningful course plan as you complete your degree, major and/or certificate requirements. The undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising/>) is available to consult on a variety of topics, including declaring the major and/or certificate, course selection and building a four-year plan, study abroad, volunteer and internship opportunities on campus and in the community, applying to graduate programs, and preparing for the job market after graduation.

INTERNSHIP PROGRAM IN GENDER AND WOMEN'S STUDIES

Applied learning through professional experiences in Gender and Women's Studies provides an opportunity for students to connect academic knowledge with community-based practice. Recognizing the power and importance of experiential and community-based learning, the Department of Gender and Women's Studies proudly offers local and global internship opportunities. In the internship program, students work with organizations to apply their coursework in gender and women's studies to specific issues in the community. The accompanying seminar, Internship in Gender and Women's Studies (GEN&WS 660, 3 cr) offers a venue for students to engage deeply in feminist-based work and reflection while thinking critically about how to participate as feminists in activism and professional settings.

CAREER DEVELOPMENT IN GENDER AND WOMEN'S STUDIES

The Department of Gender and Women's Studies is committed to helping our students articulate how skills and concepts learned in the classroom can be cultivated in professional settings. As reflected in our Learning Outcomes, (p.) students in Gender and Women's Studies develop important transferable skills in written and oral communication, critical thinking, problem solving, and collaboration, as well as critical self and social awareness. The department continues to expand career development opportunities for our students as we work with our alumni to offer workshops, panels, and networking opportunities. Contact the undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising/>) to learn more about career development opportunities in Gender & Women's Studies.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

GENDER AND WOMEN'S STUDIES, BS

The Gender and Women’s Studies curriculum provides a platform for students to study how equity and social justice are connected to gender, sexuality, and identity. Gender and Women’s Studies students explore the field through traditional disciplines, such as literature, history, anthropology, sociology, public health, education, law, biology, psychology, political science, and the visual arts. Students in our courses (https://guide.wisc.edu/courses/gen_ws/) develop strong analytical and communication skills through classroom discussion, writing, and independent projects. Undergraduates in our programs can pursue research skills through thesis writing, as well as professional development opportunities through career workshops with alumni and in our internship program. As a result, graduates from our programs apply a critical lens in fields like health and public policy, social justice and advocacy, reproductive justice, non-profit administration, clinical medicine, software development, communications, and media production.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None

Credits required to get in	None
Other	None

Declaring the major as early as possible allows students to best align major coursework with their interests.

Students declared in the Certificate in Gender and Women's Studies at the Undergraduate Level may not be declared in the Gender and Women's Studies major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
-------------	---

Language	Complete the third unit of a language other than English.
L&S Breadth	Complete: • 12 credits of Humanities, which must include at least 6 credits of Literature; and • 12 credits of Social Science; and • 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: • 30 credits in residence, overall, and • 30 credits in residence after the 86th credit.
Quality of Work	• 2.000 in all coursework at UW-Madison • 2.000 in Intermediate/Advanced level coursework at UW-Madison

Learn about feminist approaches to, and histories of, science, medicine, and health activism.

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Majors in Gender and Women's Studies are required to take foundational work in GEN&WS courses reflecting each of four approaches to knowledge (humanities, social science, theory, and biological or health sciences), one course from three of four issue areas (sexuality, disability and embodiment, race/ethnicity, and global), and a capstone seminar or thesis.

All majors complete a minimum of 30 credits in GEN&WS including: ¹

INTRODUCTORY GEN&WS

Code	Title	Credits
GEN&WS 101	Gender, Women, and Cultural Representation ²	3
or GEN&WS 102	Gender, Women, and Society in Global Perspective	
GEN&WS 103	Gender, Women, Bodies, and Health	3
Total Credits		6

APPROACHES ³

1 course from each area:

Biology and Health

Explore health as both a physiological and a socio#cultural experience, and recognize ways in which gender and other axes of social inequality influence health. Develop critical tools to place the medical field, scientific research, and public health and policy organizations into social contexts, and recognize how these institutions both can reflect and perpetuate dominant ideologies.

Humanities

Engage with humanities-based theories, content areas, and methodologies as they relate to gender and women's studies. These include, but are not limited to, critical text analysis, discourse analysis, historical approaches and archival work, media studies, ethnography, and digital humanities. (GEN&WS courses with H, L or Z designations)

CAPSTONE ⁴

Code	Title	Credits
Capstone course or Thesis Sequence:		3-6
GEN&WS 640	Capstone Seminar in Gender and Women's Studies	
GEN&WS 681 & GEN&WS 682	Senior Honors Thesis I and Senior Honors Thesis II	
GEN&WS 691 & GEN&WS 692	Senior Thesis I and Senior Thesis II	
Total Credits		3-6

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all GEN&WS and major courses
- 2.000 GPA on 15 upper-level major credits, taken in Residence ⁵
- 15 credits in GEN&WS, taken on the UW-Madison campus

FOOTNOTES

- ¹ A maximum of three courses designated as elementary level may apply in the major, overall. Directed study courses typically do not count toward the minimum credits required in the major.
- ² GEN&WS 101 and GEN&WS 102 cannot both count toward the coursework required in the Gender and Women's Studies major. Students must choose one of these courses.
- ³ A single course may apply to both an Approach and an Issue Area. However, a single course may not apply to more than one Approach or to more than one Issue Area.
- ⁴ Students interested in the doing research in Gender & Women's Studies will develop a thesis topic in consultation with a member of the faculty. The senior thesis course sequence (GEN&WS 691-GEN&WS 692 or GEN&WS 681-GEN&WS 682) serves as the capstone requirement for the major. In this case, the student may still count GEN&WS 640 as an elective in the major.
- ⁵ Courses in GEN&WS with Intermediate or Advanced level designation are considered upper level in the major.

HONORS IN THE MAJOR

To declare Honors in the Major in Gender and Women's Studies, students must submit a letter of application to the undergraduate advisor prior to enrollment in GEN&WS 681. The letter should include:

- A list of all planned and declared degrees, major and certificate programs
- Area(s) of research interest within gender and women's studies and ideas for an Senior Honors Thesis
- A letter from a faculty member agreeing to supervise the thesis project

HONORS IN THE GENDER AND WOMEN'S STUDIES MAJOR REQUIREMENTS

To earn Honors in the Major in Gender and Women's Studies, students must satisfy the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all GEN&WS courses
- Complete at least 2 GEN&WS courses totaling 6 or more credits for Honors and earn grades of B or higher
- Complete GEN&WS 681 and GEN&WS 682 for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Knowledge of core concepts of gender and women’s studies, including: gender, intersectionality, feminist theory, epistemology, class, race/ethnicity, global processes, sexuality, disability & embodiment, health and science, and contemporary and historical issues.
2. Intellectual and practical skills relating to gender and women’s studies, including: problem solving, research and inquiry, interdisciplinarity, critical thinking, writing, oral communication, collaboration, creativity, and career skills.
3. Personal and social responsibility anchored through active involvement with diverse communities and real-world challenges. This category may include things like developing critical self and social awareness, applying ethical frameworks, learning through engaged practices.
4. Integrative learning demonstrated through the application of knowledge, skills and responsibilities to new settings and complex problems. This category may be acquired through advanced accomplishment and/or the application beyond the Gender & Women’s Studies classroom to, for example, one’s life, to activist project, and/or to non-Gender & Women’s Studies academic coursework.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic

advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Gender and Women's Studies website. (<https://gws.wisc.edu/declaring-in-gws-lgbtq-studies/>)

ADVISING

Working with your advisor helps you create a meaningful course plan as you complete your degree, major and/or certificate requirements. The undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising/>) is available to consult on a variety of topics, including declaring the major and/or certificate, course selection and building a four-year plan, study abroad, volunteer and internship opportunities on campus and in the community, applying to graduate programs, and preparing for the job market after graduation.

INTERNSHIP PROGRAM IN GENDER AND WOMEN'S STUDIES

Applied learning through professional experiences in Gender and Women's Studies provides an opportunity for students to connect academic knowledge with community-based practice. Recognizing the power and importance of experiential and community-based learning, the Department of Gender and Women's Studies proudly offers local and global internship opportunities. In the internship program, students work with organizations to apply their coursework in gender and women's studies to specific issues in the community. The accompanying seminar, Internship in Gender and Women's Studies (GEN&WS 660, 3 cr) offers a venue for students to engage deeply in feminist-based work and reflection while thinking critically about how to participate as feminists in activism and professional settings.

CAREER DEVELOPMENT IN GENDER AND WOMEN'S STUDIES

The Department of Gender and Women's Studies is committed to helping our students articulate how skills and concepts learned in the classroom can be cultivated in professional settings. As reflected in our Learning Outcomes, (p.) students in Gender and Women's Studies develop important transferable skills in written and oral communication, critical thinking, problem solving, and collaboration, as well as critical self and social awareness. The department continues to expand career development opportunities for our students as we work with our alumni to offer workshops, panels, and networking opportunities. Contact the undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising/>) to learn more about career development opportunities in Gender & Women's Studies.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

GENDER AND WOMEN'S STUDIES, CERTIFICATE

The Gender and Women's Studies certificate provides a platform for students to study how equity and social justice are connected to gender, sexuality, and identity. Gender and Women's Studies students explore the field through traditional disciplines, such as literature, history, anthropology, sociology, public health, education, law, biology, psychology, political science, and the visual arts. Students can tailor the certificate to reflect their interests, complement their major, or plan for graduate or professional school.

HOW TO GET IN

HOW TO GET IN

Intent to pursue the certificate can be declared by meeting with the Department of Gender and Women's Studies undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising/>) or completing this online declaration form (https://uwmadison.co1.qualtrics.com/jfe/form/SV_74d4sqldVIGCYjX/?Q_JFE=qdg). Declaring the certificate as early as possible allows students to best align certificate coursework with their interests.

Students declared in the Gender and Women's Studies major are not eligible to declare the Certificate in Gender and Women's Studies at the Undergraduate Level.

REQUIREMENTS

REQUIREMENTS

15 credits of which at least 12 credits are in GEN&WS courses, to include:¹

HUMANITIES

Additional courses in GEN&WS to reach 15 credits for the certificate		6

Total Credits **6**

FOOTNOTES

¹ Students cannot take courses pass/fail for credit in the certificate.

² Students may not take both GEN&WS 101 and GEN&WS 102 for the certificate.

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses.
- At least 9 credits at the intermediate or advanced level.
- At least 8 certificate credits must be completed in residence.

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate interdisciplinary understanding of core concepts and debates in Gender and Women's Studies.
2. Demonstrate the practical skills related to Gender and Women's Studies, such as critical thinking and analysis, inquiry, and written and oral communication.
3. Understand the interdisciplinary nature of Gender and Women's Studies research and connect this scholarship to the institutions that shape everyday life.
4. Develop Gender and Women's Studies knowledge, skills, and social engagement and demonstrate how these ideas can be applied to new settings, ideas, and understandings.

ADVISING AND CAREERS

ADVISING AND CAREERS

Connecting and working with the undergraduate advisor in Gender and Women's Studies as early as possible helps you create a meaningful course plan and stay on track as you complete the certificate requirements.

The undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising/>) is available to consult on a variety of topics, including declaring the certificate, course selection, study abroad, volunteer and internship opportunities on campus and in the community, applying to graduate programs, and preparing for the job market after graduation.

DECLARATION

Intent to pursue (or cancel) the certificate can be declared by meeting with the undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising/>) in Gender and Women's Studies and completing this online declaration form (https://uwmadison.co1.qualtrics.com/jfe/form/SV_74d4sq1dVIGCYjX/?Q_JFE=qdg).

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes

into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

LGBTQ+ STUDIES, CERTIFICATE

The LGBTQ+ Studies Certificate Program is a campus-wide program open to students in any major. Courses that count toward this interdisciplinary certificate come from a wide range of fields including literature, history, sociology, medical history, as well as from gender and women's studies, which is in itself an interdisciplinary field. This certificate can complement many other programs and plans across campus, including, but not limited to gender and women's studies. New courses are added to the program each semester.

HOW TO GET IN

HOW TO GET IN

Intent to pursue the certificate can be declared by meeting with the undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising/>) and completing the declaration form (https://uwmadison.co1.qualtrics.com/jfe/form/SV_etf8mvBhIRq826F/). Declaring the certificate as early as possible allows students to best align certificate coursework with their interests.

REQUIREMENTS

REQUIREMENTS

15 credits as follows: ¹

Code	Title	Credits
Introduction to LGBTQ+ Studies		3-4
GEN&WS/ SOC 200	Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies	
Social Science Course in LGBTQ+ Studies		3
C&E SOC/ GEN&WS/ SOC 347	Gender and Sexuality in Rural Places	

COM ARTS/ GEN&WS 418	Gender, Sexuality, and the Media
COUN PSY 200	LGBTQ+ People and Mental Health Equity
COUN PSY 332	Gender and Queer Issues in Psychology
GEN&WS 320	Special Topics in Gender, Women and Society (Queer)
GEN&WS 320	Special Topics in Gender, Women and Society (Sexuality)
GEN&WS 344	Bi/Pan/Asexuality: Community & Representation
GEN&WS 340	Topics in LGBTQ Sexuality
GEN&WS 446	Queer of Color Critique
GEN&WS 449	Special Topics in Feminist Theory
GEN&WS 536	Queering Sexuality Education
GEN&WS 538	Special Topics in LGBTQ+ Health
GEN&WS 539	Special Topics in Gender and Health (Queer)
GEN&WS 539	Special Topics in Gender and Health (LGBTQ+)
HISTORY 275	Topics in LGBT History ²
HISTORY/ GEN&WS 354	Women and Gender in the U.S. Since 1870
SOC WORK 639	Social Work Practice with LGBTQIA2S+ Individuals and Communities

Humanities Course in LGBTQ+ Studies 3

ASIAN AM/ENGL/ GEN&WS 463	Race and Sexuality in American Literature
GEN&WS/ ASIAN AM 321	Asian American Feminist & Queer Cultural Productions
GEN&WS/ ENGL 350	Special Topics in Gender & Literature (Queer)
CLASSICS/ GEN&WS 351	Women and Gender in the Classical World
CLASSICS/ GEN&WS 361	Sex and Power in Greece and Rome
GEN&WS 310	Special Topics in Gender, Women and the Humanities (Queer)
GEN&WS 340	Topics in LGBTQ Sexuality
GEN&WS 342	Transgender Studies
GEN&WS 343	Queer Bodies
GEN&WS/ HISTORY 346	Trans/Gender in Historical Perspective
GEN&WS 410	Special Topics in Gender and Visual Culture (Queer)
GEN&WS 412	Contemporary Queer Art and Visual Culture
GEN&WS 445	The Body in Theory
GEN&WS 449	Special Topics in Feminist Theory (Queer)
GEN&WS/ HIST SCI/ MED HIST 532	The History of the (American) Body
HISTORY 275	Topics in LGBT History

HISTORY/ GEN&WS 346	Trans/Gender in Historical Perspective
HISTORY/ GEN&WS 519	Sexuality, Modernity and Social Change
SCAND ST/ GEN&WS/ LITTRANS 438	Sexual Politics in Scandinavia
THEATRE/ GEN&WS 415	Introduction to Contemporary Feminist Theatre and Criticism
Electives in LGBTQ+ Studies (Humanities, Social Science, or other listed below)	
GEN&WS 533	Special Topics in Gender and Biology (Queer)
GEN&WS 533	Special Topics in Gender and Biology (LGBTQ+)

Total Credits 15

- ¹ No more than two Elementary level courses, including GEN&WS/ SOC 200, can count for the LGBTQ+ Studies certificate. Courses taken on a pass/fail basis will not satisfy certificate requirements.
- ² Topics courses, such as HISTORY 275 and GEN&WS 340, may be taught with a number of different LGBTQ+ Studies topics and therefore may be taken more than once, so long as the topic is different.

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA in all GEN&WS courses and all certificate courses.
- At least 8 certificate credits must be completed in residence.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate interdisciplinary understanding of core concepts and debates in LGBTQ+ Studies.
2. Demonstrate the practical skills related to LGBTQ+ Studies, such as critical thinking and analysis, inquiry, and written and oral communication.
3. Understand the interdisciplinary nature of LGBTQ+ Studies research, and connect this scholarship to the institutions that shape everyday life.
4. Develop LGBTQ+ Studies knowledge, skills, and social engagement and demonstrate how these ideas can be applied to new settings, ideas, and understandings.

GEOGRAPHY

Geography studies the interaction between people and their environments including the ways in which the people, the environments, and the interactions all vary from place to place over the earth. Because it is concerned with the character of people and their cultures on the one hand, and with the character of the earth's surface and its resources on the other, it is both a social and a natural science. Being broad and integrative, geography provides an appropriate foundation for a liberal education. It also provides a base for employment in public or private agencies, both domestic and international, concerned with environmental management, locational analysis or planning (urban, regional, land use).

Cartography/GIS, also known more broadly as geographic information science, studies and develops digital technology and the theory behind this technology to help people work with geographic information. This

broad area interfaces with work from the physical and social sciences. It is a field devoted to the acquisition, management, analysis, visualization, and representation of geospatial data. It is a relatively new discipline that incorporates geography, cartography, spatial analysis, and related fields such as geovisualization, geodesy, geocomputation, cognition, and computer science. At the present time professionals trained in geographic information science are very much in demand by federal agencies, state and local governments, and private firms.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Cartography and Geographic Information Systems, BA (p. 748)
- Cartography and Geographic Information Systems, BS (p. 753)
- Geography, BA (p. 757)
- Geography, BS (p. 764)
- Geospatial Data Science, Certificate (p. 770)

CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS, BA

Hasn't everything already been mapped? Cartographers are not explorers charting borders in an ancient time. We are artists, community organizers, data scientists, visual storytellers, and full-stack web developers visualizing our world. In an era of massive data sets and location-based applications, maps and geospatial data have never been more important to assist in decision-making and envisioning our future.

The Cartography and Geographic Information Systems (GIS) major covers the conceptual foundations and technical skills needed to harness maps and geospatial data. Courses range from graphic design and web mapping to big-data analytics and mobile application development: all have important laboratory components working with industry-standard cartography and GIS technology. So, yes, everywhere has been mapped in some form, but in a dynamic world driven by information and technology, cartographers and GIS professionals are needed now more than ever to help us understand our changing planet.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

Language	• Complete the fourth unit of a language other than English; OR
	• Complete the third unit of a language and the second unit of an additional language other than English.

L&S Breadth	• 12 credits of Humanities, which must include 6 credits of literature; and
	• 12 credits of Social Science; and
	• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	<ul style="list-style-type: none"> • 30 credits in residence, overall; and • 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none"> • 2,000 in all coursework at UW-Madison • 2,000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR BREADTH

3 courses, 1 each from these areas:

Code	Title	Credits
Human Geography (1 course)		3
GEOG 101	Introduction to Human Geography	
GEOG 104	Introduction to Human Geography	
GEOG/ART HIST/ ENVIR ST/ HISTORY/ LAND ARC 239	Making the American Landscape	
GEOG 300	Weird Geographies	
GEOG 301	Revolutions and Social Change	
GEOG 302	Economic Geography: Locational Behavior	
GEOG/ URB R PL 305	Introduction to the City	
GEOG 307	International Migration, Health, and Human Rights	
GEOG/CHICLA/ GEN&WS 308	Latinx Feminisms: Women's Lives, Work, and Activism	
GEOG/ INTL ST 311	The Global Game: Soccer, Politics, and Identity	
GEOG/ INTL ST 315	Universal Basic Income: The Politics Behind a Global Movement	

GEOG 318	Introduction to Geopolitics
GEOG 340	World Regions in Global Context
GEOG 342	Geography of Wisconsin
GEOG 355	Africa, South of the Sahara
GEOG 358	Human Geography of Southeast Asia
GEOG/ AMER IND 410	Critical Indigenous Ecological Knowledges
GEOG 501	Space and Place: A Geography of Experience
GEOG/ URB R PL 503	Researching the City: Qualitative Strategies
GEOG/ GEN&WS 504	Feminist Geography: Theoretical Approaches
GEOG/ URB R PL 505	Urban Spatial Patterns and Theories
GEOG 507	Waste Geographies: Politics, People, and Infrastructures
GEOG 510	Economic Geography
GEOG 511	Critical Social Theory
GEOG 513	Queer Geographies
GEOG/ GEN&WS 514	Feminist Geography: Methodological Approaches
GEOG 515	Trans Autotheories
GEOG 518	Power, Place, Identity
GEOG 566	History of Geographic Thought
People-Environment (1 course) 3	
GEOG/ ENVIR ST 139	Global Environmental Issues
GEOG/ART HIST/ ENVIR ST/ HISTORY/ LAND ARC 239	Making the American Landscape
GEOG/ ENVIR ST 309	People, Land and Food: Comparative Study of Agriculture Systems
GEOG/ ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts
GEOG/ ENVIR ST 333	Green Urbanism
GEOG/ ENVIR ST 337	Nature, Power and Society
GEOG/ BOTANY 338	Environmental Biogeography
GEOG/ ENVIR ST 339	Environmental Conservation
GEOG 340	World Regions in Global Context
GEOG 344	Changing Landscapes of the American West
GEOG/ AMER IND/ ENVIR ST 345	Caring for Nature in Native North America
GEOG 359	Australia: Environment and Society
GEOG/ AMER IND 410	Critical Indigenous Ecological Knowledges

GEOG/C&E SOC/ ENVIR ST 434	People, Wildlife and Landscapes	
GEOG/ ENVIR ST 439	US Environmental Policy and Regulation	
GEOG/ENVIR ST/ HISTORY 460	American Environmental History	
GEOG/ SOIL SCI 526	Human Transformations of Earth Surface Processes	
GEOG/ ENVIR ST 534	Environmental Governance: Markets, States and Nature	
GEOG/ ENVIR ST 537	Culture and Environment	
GEOG 538	The Humid Tropics: Ecology, Subsistence, and Development	
GEOG/ ENVIR ST 557	Development and Environment in Southeast Asia	
Physical Geography (1 course)		
3		
GEOG/ ENVIR ST 120	Introduction to the Earth System	
GEOG/ ENVIR ST 127	Physical Systems of the Environment	
GEOG/ GEOSCI 320	Geomorphology	
GEOG/ ATM OCN/ ENVIR ST 322	Polar Regions and Their Importance in the Global Environment	
GEOG/ ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts	
GEOG/ ATM OCN/ ENVIR ST/ GEOSCI 335	Climatic Environments of the Past	
GEOG/ BOTANY 338	Environmental Biogeography	
GEOG 342	Geography of Wisconsin	
GEOG 344	Changing Landscapes of the American West	
GEOG/ GEOSCI 420	Glacial and Pleistocene Geology	
GEOG 523	Advanced Paleoecology: Species Responses to Past Environmental Change	
GEOG/ SOIL SCI 525	Soil Geomorphology	
GEOG/ SOIL SCI 526	Human Transformations of Earth Surface Processes	
Total Credits

Total Credits		3-6

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in GEOG and major courses
- 2.000 GPA on 15 upper-level credits, taken in residence²
- 15 credits in GEOG, taken on the UW–Madison campus

² GEOG courses designated Intermediate/Advanced are upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Cartography and GIS Major in consultation with the Geography undergraduate advisor.

HONORS IN THE CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS MAJOR REQUIREMENTS

To earn Honors in the Major in Cartography and Geographic Information Systems, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all GEOG courses, and all courses accepted in the major
- Complete GEOG 578: GIS Applications with a grade of B or better
- Complete at least one advanced-level course OR 6 credits of honors credits in the major at the 300 level or above
- Complete a two-semester Senior Honors Thesis in GEOG 681 Senior Honors Thesis and GEOG 682 Senior Honors Thesis, a piece of original research composition, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Apply cartographic design principles and visual storytelling to transform geospatial data into actionable insights.
2. Apply appropriate technologies and methods, including geographic information systems (GIS) and informed geodatabase design, to analyze qualitative and quantitative geospatial data.
3. Use appropriate geographic concepts, methods, and technologies to interpret the dynamic interactions among human and natural characteristics of place and space.
4. Combine geospatial theories, methodologies, and project management strategies to design and conduct ethical cartographic and geographic research and development.
5. Utilize appropriate GIS-based spatial decision tools to inform discussions of social, economic, and environmental issues that confront policymakers and citizens.
6. Discuss complex geospatial data, concepts, and technologies using written, oral, and visual forms of communication appropriate for technical, non-technical, and community-based audiences.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

ADVISING AND CAREERS

ADVISING AND CAREERS
DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Geography website (<https://geography.wisc.edu/undergraduate/geography-major/#advising-and-declaring-the-major>).

Students with questions about the major, courses, and careers are encouraged to contact the Geography undergraduate advisor.

CAREERS

Cartography and GIS is a booming profession, but remains one of the biggest secrets on campus because of the limited treatment of geography in K-12 education. The Department of Labor reported that there were 425,000 U.S. residents working in the geospatial industry (<http://www.esri.com/news/arcnews/summer12/articles/strengthening-the-gis-profession.html>) in 2010, and the National Research Council estimates this could exceed 2 million by 2020. Cartography and GIS recently was rated the #1 profession in engineering, in part due to its extremely low unemployment rate (less than 1% of students with degrees!), strong future growth of the job market, and relatively low stress rating. Our alumni work in local, national, and international government positions, as well as in private industry, including firms such as Apple, Google, Facebook, and Uber, and media outlets such as *National Geographic*, *The New York Times*, and *The Wall Street Journal*.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience,

and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS, BS

Hasn't everything already been mapped? Cartographers are not explorers charting borders in an ancient time. We are artists, community organizers, data scientists, visual storytellers, and full-stack web developers visualizing our world. In an era of massive data sets and location-based applications, maps and geospatial data have never been more important to assist in decision-making and envisioning our future.

The Cartography and Geographic Information Systems (GIS) major covers the conceptual foundations and technical skills needed to harness maps and geospatial data. Courses range from graphic design and web mapping to big-data analytics and mobile application development: all have important laboratory components working with industry-standard cartography and GIS technology. So, yes, everywhere has been mapped in some form, but in a dynamic world driven by information and technology, cartographers and GIS professionals are needed now more than ever to help us understand our changing planet.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

- | | |
|-------------|---|
| Mathematics | Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement. |
| Language | Complete the third unit of a language other than English. |
| L&S Breadth | Complete: <ul style="list-style-type: none"> • 12 credits of Humanities, which must include at least 6 credits of Literature; and • 12 credits of Social Science; and • 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science. |

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: <ul style="list-style-type: none"> • 30 credits in residence, overall, and • 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none"> • 2.000 in all coursework at UW-Madison • 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR BREADTH

3 courses, 1 each from these areas:

Code	Title	Credits
Human Geography (1 course)		3
GEOG 101	Introduction to Human Geography	
GEOG 104	Introduction to Human Geography	
GEOG/ART HIST/ ENVIR ST/ HISTORY/ LAND ARC 239	Making the American Landscape	
GEOG 300	Weird Geographies	
GEOG 301	Revolutions and Social Change	
GEOG 302	Economic Geography: Locational Behavior	
GEOG/ URB R PL 305	Introduction to the City	
GEOG 307	International Migration, Health, and Human Rights	
GEOG/CHICLA/ GEN&WS 308	Latinx Feminisms: Women's Lives, Work, and Activism	
GEOG/ INTL ST 311	The Global Game: Soccer, Politics, and Identity	
GEOG/ INTL ST 315	Universal Basic Income: The Politics Behind a Global Movement	
GEOG 318	Introduction to Geopolitics	
GEOG 340	World Regions in Global Context	
GEOG 342	Geography of Wisconsin	
GEOG 355	Africa, South of the Sahara	
GEOG 358	Human Geography of Southeast Asia	

GEOG/ AMER IND 410	Critical Indigenous Ecological Knowledges	
GEOG 501	Space and Place: A Geography of Experience	
GEOG/ URB R PL 503	Researching the City: Qualitative Strategies	
GEOG/ GEN&WS 504	Feminist Geography: Theoretical Approaches	
GEOG/ URB R PL 505	Urban Spatial Patterns and Theories	
GEOG 507	Waste Geographies: Politics, People, and Infrastructures	
GEOG 510	Economic Geography	
GEOG 511	Critical Social Theory	
GEOG 513	Queer Geographies	
GEOG/ GEN&WS 514	Feminist Geography: Methodological Approaches	
GEOG 515	Trans Autotheories	
GEOG 518	Power, Place, Identity	
GEOG 566	History of Geographic Thought	
People-Environment (1 course)		3
GEOG/ ENVIR ST 139	Global Environmental Issues	
GEOG/ART HIST/ ENVIR ST/ HISTORY/ LAND ARC 239	Making the American Landscape	
GEOG/ ENVIR ST 309	People, Land and Food: Comparative Study of Agriculture Systems	
GEOG/ ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts	
GEOG/ ENVIR ST 333	Green Urbanism	
GEOG/ ENVIR ST 337	Nature, Power and Society	
GEOG/ BOTANY 338	Environmental Biogeography	
GEOG/ ENVIR ST 339	Environmental Conservation	
GEOG 340	World Regions in Global Context	
GEOG 344	Changing Landscapes of the American West	
GEOG/ AMER IND/ ENVIR ST 345	Caring for Nature in Native North America	
GEOG 359	Australia: Environment and Society	
GEOG/ AMER IND 410	Critical Indigenous Ecological Knowledges	
GEOG/C&E SOC/ ENVIR ST 434	People, Wildlife and Landscapes	
GEOG/ ENVIR ST 439	US Environmental Policy and Regulation	
GEOG/ENVIR ST/ HISTORY 460	American Environmental History	

GEOG/ SOIL SCI 526	Human Transformations of Earth Surface Processes
GEOG/ ENVIR ST 534	Environmental Governance: Markets, States and Nature
GEOG/ ENVIR ST 537	Culture and Environment
GEOG 538	The Humid Tropics: Ecology, Subsistence, and Development
GEOG/ ENVIR ST 557	Development and Environment in Southeast Asia

Physical Geography (1 course) 3

GEOG/ ENVIR ST 120	Introduction to the Earth System
GEOG/ ENVIR ST 127	Physical Systems of the Environment
GEOG/ GEOSCI 320	Geomorphology
GEOG/ ATM OCN/ ENVIR ST 322	Polar Regions and Their Importance in the Global Environment
GEOG/ ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts
GEOG/ ATM OCN/ ENVIR ST/ GEOSCI 335	Climatic Environments of the Past
GEOG/ BOTANY 338	Environmental Biogeography
GEOG 342	Geography of Wisconsin
GEOG 344	Changing Landscapes of the American West
GEOG/ GEOSCI 420	Glacial and Pleistocene Geology
GEOG 523	Advanced Paleocology: Species Responses to Past Environmental Change
GEOG/ SOIL SCI 525	Soil Geomorphology
GEOG/ SOIL SCI 526	Human Transformations of Earth Surface Processes

Total Credits 9

SKILLS, TECHNIQUES & METHODOLOGY

Code	Title	Credits
Core Cartography/GIS		
GEOG 370	Introduction to Cartography	4
GEOG/ENVIR ST/ F&W ECOL/ G L E/GEOSCI/ LAND ARC 371	Introduction to Environmental Remote Sensing	3
or GEOG 379	Geospatial Technologies: Drones, Sensors, and Applications	
GEOG/CIV ENGR/ ENVIR ST 377	An Introduction to Geographic Information Systems	4
GEOG 378	Introduction to Geocomputing	4

Quantitative Methods (1 course) 3-4

GEOG 560	Advanced Quantitative Methods
STAT 240	Data Science Modeling I
STAT 301	Introduction to Statistical Methods
STAT 324	Introduction to Statistics for Science and Engineering
STAT 371	Introductory Applied Statistics for the Life Sciences

Mathematics Proficiency 6

Complete one of the following by Placement or by
completing the course

MATH 112 & MATH 113	College Algebra and Trigonometry
MATH 114	Precalculus

Total Credits 24-25

DEPTH

Code	Title	Credits
Complete two of:		
GEOG/ENVIR ST/ LAND ARC/ URB R PL 532	Applications of Geographic Information Systems in Planning	7-8
GEOG 572	Graphic Design in Cartography	
GEOG 573	Advanced Geocomputing and Geospatial Big Data Analytics	
GEOG 574	Geospatial Database Design and Development	
GEOG 575	Interactive Cartography & Geovisualization	
GEOG 576	Geospatial Web and Mobile Programming	
GEOG 578	GIS Applications	
GEOG 579	GIS and Spatial Analysis	

Total Credits 7-8

CAPSTONE

Code	Title	Credits
Complete one of:		
GEOG 565	Colloquium for Undergraduate Majors	3-6
GEOG 681 & GEOG 682	Senior Honors Thesis and Senior Honors Thesis	
GEOG 691 & GEOG 692	Senior Thesis and Senior Thesis	

Total Credits 3-6

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in GEOG and major courses
- 2.000 GPA on 15 upper-level credits, taken in residence²
- 15 credits in GEOG, taken on the UW-Madison campus

² GEOG courses designated Intermediate/Advanced are upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Cartography and GIS Major in consultation with the Geography undergraduate advisor.

HONORS IN THE CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS MAJOR REQUIREMENTS

To earn Honors in the Major in Cartography and Geographic Information Systems, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all GEOG courses, and all courses accepted in the major
- Complete GEOG 578: GIS Applications with a grade of B or better
- Complete at least one advanced-level course OR 6 credits of honors credits in the major at the 300 level or above
- Complete a two-semester Senior Honors Thesis in GEOG 681 Senior Honors Thesis and GEOG 682 Senior Honors Thesis, a piece of original research composition, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Apply cartographic design principles and visual storytelling to transform geospatial data into actionable insights.
2. Apply appropriate technologies and methods, including geographic information systems (GIS) and informed geodatabase design, to analyze qualitative and quantitative geospatial data.

3. Use appropriate geographic concepts, methods, and technologies to interpret the dynamic interactions among human and natural characteristics of place and space.
4. Combine geospatial theories, methodologies, and project management strategies to design and conduct ethical cartographic and geographic research and development.
5. Utilize appropriate GIS-based spatial decision tools to inform discussions of social, economic, and environmental issues that confront policymakers and citizens.
6. Discuss complex geospatial data, concepts, and technologies using written, oral, and visual forms of communication appropriate for technical, non-technical, and community-based audiences.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year		
Fall	Credits Spring	Credits

GEOGRAPHY, BA

Are you passionate about environmental sustainability? Are you curious about what a socially just world might look like? Do you find physical landscapes inspiring? Are you interested in the analysis and visualization of data? Are you intrigued by the diversity of people and places around the world? Do you find the social life of cities fascinating? Are you kept up at night wondering why some places are rich while others are poor? If you answered “yes” to any of these questions, but especially more than one, Geography could be a great fit for you. Geography is especially ideal for individuals who have a wide range of interests spanning the natural sciences, humanities, social sciences, and data sciences.

Geography is an interdisciplinary field that seeks to understand patterns and interrelationships on Earth. These range from humans’ relationships with the environment and the interactions of earth systems to the social worlds and built environments that different societies build to mapping and spatial analysis of big data. It is a rich and vibrant discipline that is essential to understanding the world and many of its problems. Geography thus offers a unique lens through which to illuminate the intertwined places, societies, and ecologies that comprise our diverse world.

MAJOR OPTIONS

Declare one of these major options:

View as listView as grid

- **GEOGRAPHY: HUMAN GEOGRAPHY (P. 761)**
- **GEOGRAPHY: PEOPLE-ENVIRONMENT GEOGRAPHY (P. 762)**
- **GEOGRAPHY: PHYSICAL GEOGRAPHY: EARTH SYSTEMS AND ENVIRONMENTAL PROCESSES (P. 763)**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in GEOG and major courses
- 2.000 GPA on 15 upper-level credits, taken in residence¹
- 15 credits in GEOG, taken on the UW–Madison campus

¹ GEOG courses designated Intermediate/Advanced are upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Geography Major in consultation with the Geography undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn a BA or BS with Honors in the Major in Geography students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all GEOG courses and major courses
- At least 1 Advanced level major course or 6 credits in major courses numbered 300 and higher, taken for Honors
- Complete a two-semester Senior Honors Thesis (GEOG 681 & GEOG 682) for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor’s degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Explain patterns and relationships that result from human societal dynamics, Earth systems processes, and the interaction of these dynamics and processes at a range of spatial and temporal scales.
2. Analyze the interdependencies within and among human societal dynamics, people and environment relations, and Earth systems.
3. Employ appropriate theories, methodologies, technologies, and ethical frameworks to design and conduct research, and analyze and assess research findings.
4. Critically interpret theoretical texts and empirical materials from a wide range of sources using appropriate ethical practices, theories, methods, and GIS tools from the humanities, social sciences, and Earth systems sciences.
5. Apply geographic concepts, information, approaches, and technologies to inform community-engaged discussions, policy debates, and public and private sector planning efforts about the Earth, people and environment relations, and human geographies.
6. Present complex geographic concepts and information using written, oral, and visual forms of communication effective for disciplinary, interdisciplinary, and general public audiences.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

DECLARE OR CANCEL THIS MAJOR**

Please follow the process described on the Geography website (<https://geography.wisc.edu/undergraduate/geography-major/#advising-and-declaring-the-major>).

Students with questions about the major, courses, and careers are encouraged to contact the Geography undergraduate advisor.

CAREERS

Given its interdisciplinary nature, Geography prepares students for employment in a wide variety of fields spanning the public, private, and nonprofit sectors, both domestically and abroad. Fields where geographers commonly find employment include, but are not limited to: ecological restoration; urban planning; economic development; human rights; corporate sustainability; immigration advocacy and refugee resettlement; environmental consulting; social movements and community organization; national security; data analysis and visualization; risk assessment; public health; journalism; diplomacy; transportation; sustainable agrifood systems. Moreover, geographers trained in Geographical Information Systems (GIS) and cartography are in high demand from governments, businesses, and nonprofits for their spatial data analysis and visualization skills.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

GEOGRAPHY, BS

Are you passionate about environmental sustainability? Are you curious about what a socially just world might look like? Do you find physical landscapes inspiring? Are you interested in the analysis and visualization of data? Are you intrigued by the diversity of people and places around the world? Do you find the social life of cities fascinating? Are you kept up at night wondering why some places are rich while others are poor? If you answered “yes” to any of these questions, but especially more than one, Geography could be a great fit for you. Geography is especially ideal for individuals who have a wide range of interests spanning the natural sciences, humanities, social sciences, and data sciences.

Geography is an interdisciplinary field that seeks to understand patterns and interrelationships on Earth. These range from humans’ relationships with the environment and the interactions of earth systems to the social worlds and built environments that different societies build to mapping and spatial analysis of big data. It is a rich and vibrant discipline that is essential to understanding the world and many of its problems. Geography thus offers a unique lens through which to illuminate the intertwined places, societies, and ecologies that comprise our diverse world.

Other	None

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core

of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	<ul style="list-style-type: none"> Breadth–Humanities/Literature/Arts: 6 credits Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth–Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
L&S Breadth	Complete: <ul style="list-style-type: none"> 12 credits of Humanities, which must include at least 6 credits of Literature; and 12 credits of Social Science; and 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.

UW-Madison Experience	Complete both: • 30 credits in residence, overall, and • 30 credits in residence after the 86th credit.
Quality of Work	• 2.000 in all coursework at UW-Madison • 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students must declare one of the major options (p. 766) below, complete Core Requirements common to each option, and also the specific requirements for their declared option.

CORE REQUIREMENTS

30 credits the major, to include these core requirements:

Breadth

3 courses, 1 each from these areas:

Code	Title	Credits

MAJOR OPTIONS

Declare one of these major options:

View as listView as grid

- **GEOGRAPHY: HUMAN GEOGRAPHY (P. 761)**
- **GEOGRAPHY: PEOPLE-ENVIRONMENT GEOGRAPHY (P. 762)**
- **GEOGRAPHY: PHYSICAL GEOGRAPHY: EARTH SYSTEMS AND ENVIRONMENTAL PROCESSES (P. 763)**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in GEOG and major courses
- 2.000 GPA on 15 upper-level credits, taken in residence¹
- 15 credits in GEOG, taken on the UW-Madison campus

¹ GEOG courses designated Intermediate/Advanced are upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Geography Major in consultation with the Geography undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn a BA or BS with Honors in the Major in Geography students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all GEOG courses and major courses
- At least 1 Advanced level major course or 6 credits in major courses numbered 300 and higher, taken for Honors
- Complete a two-semester Senior Honors Thesis (GEOG 681 & GEOG 682) for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Explain patterns and relationships that result from human societal dynamics, Earth systems processes, and the interaction of these dynamics and processes at a range of spatial and temporal scales.
2. Analyze the interdependencies within and among human societal dynamics, people and environment relations, and Earth systems.
3. Employ appropriate theories, methodologies, technologies, and ethical frameworks to design and conduct research, and analyze and assess research findings.
4. Critically interpret theoretical texts and empirical materials from a wide range of sources using appropriate ethical practices, theories, methods, and GIS tools from the humanities, social sciences, and Earth systems sciences.
5. Apply geographic concepts, information, approaches, and technologies to inform community-engaged discussions, policy debates, and public and private sector planning efforts about the Earth, people and environment relations, and human geographies.
6. Present complex geographic concepts and information using written, oral, and visual forms of communication effective for disciplinary, interdisciplinary, and general public audiences.

GEOSPATIAL DATA SCIENCE, CERTIFICATE

What happens when you combine the power of locational intelligence with the deep insight enabled by data science? You get Geospatial Data Science: an exciting, rapidly growing domain that sits at the intersection of geographic information science (GIS) and data science. The Geospatial Data Science Certificate prepares students to analyze and model our world through big data with a spatial lens. From predicting the spread of wildfires in real time, to modeling urban mobility patterns, to building machine learning tools to analyze satellite imagery, geospatial data scientists help us make sense of complex geospatial and locational problems.

This interdisciplinary certificate draws on the strengths of UW–Madison’s world-class programs in Cartography/GIS, Computer Sciences, and Statistics to equip students with both the geospatial foundations and data science skills needed to work in areas like geospatial artificial intelligence (geoAI), environmental predictive modeling, locational business intelligence, and disease-spread prediction.

You take a mix of courses in GIS, programming, and statistical data modeling, gaining hands-on experience with real-world data, cutting-edge tools, and industry-relevant workflows. Whether you’re a Cartography/ GIS student looking to enhance your data skills, or a Data Science student looking to add a geospatial dimension to help stand out, the Geospatial Data Science Certificate offers a flexible and forward-thinking path into one of today’s most in-demand skillsets.

HOW TO GET IN

HOW TO GET IN

Students are eligible to declare the Geospatial Data Science Certificate at any time during their studies. Students who intend to declare the certificate must schedule an appointment with the Geography undergraduate academic advisor. See the contact information box for details.

REQUIREMENTS

REQUIREMENTS

The Geospatial Data Science Certificate requires a minimum of 17 credits.

Code	Title	Credits
Introductory Statistics		3-4
Complete one course from the following:		
STAT 240	Data Science Modeling I ¹	

STAT 301	Introduction to Statistical Methods
STAT 324	Introduction to Statistics for Science and Engineering
STAT 371	Introductory Applied Statistics for the Life Sciences
B M E 325	Applied Statistics for Biomedical Engineers
ECON 310	Statistics: Measurement in Economics
I SY E 210	Introduction to Industrial Statistics

Core in GIScience 8

Complete two courses from the following:

GEOG 370	Introduction to Cartography
GEOG/ CIV ENGR/ ENVIR ST 377	An Introduction to Geographic Information Systems
GEOG 378	Introduction to Geocomputing

Core in Data Science 3-4

Complete one course from the following:

COMP SCI 220	Data Science Programming I
COMP SCI 320	Data Science Programming II
E C E 204	Data Science & Engineering
STAT 240	Data Science Modeling I ¹

Elective 3-4

Complete one course from the following:

GEOG/ENVIR ST/ F&W ECOL/ G L E/GEOSCI/ LAND ARC 371	Introduction to Environmental Remote Sensing
GEOG 379	Geospatial Technologies: Drones, Sensors, and Applications
GEOG 560	Advanced Quantitative Methods
GEOG 572	Graphic Design in Cartography
GEOG 573	Advanced Geocomputing and Geospatial Big Data Analytics
GEOG 574	Geospatial Database Design and Development
GEOG 575	Interactive Cartography & Geovisualization
GEOG 579	GIS and Spatial Analysis

Total Credits 17

RESIDENCE AND QUALITY OF WORK

- At least 9 certificate credits must be completed in residence.
- Minimum 2.000 GPA on all certificate courses.

FOOTNOTES

¹ STAT 240 may satisfy both the Introductory Statistics and Core in Data Science requirements. Credit for the course will only count once toward the minimum needed to complete the certificate. Students must complete additional Elective courses to reach the minimum total credit required.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Explain the fundamental concepts and principles of geospatial data science, such as spatial data models, spatial analysis methods, spatial statistics, and spatial machine learning.
2. Collect, process, analyze, visualize, and communicate geospatial data and information using a variety of geospatial data science tools and other geospatial platforms.
3. Develop a variety of geospatial data science models and tools to collect, process, analyze, discover, visualize, and communicate geospatial data and information.
4. Apply geospatial data science techniques to real-world spatial problems in interdisciplinary contexts, such as environmental science, public health, urban planning, geospatial mobility, transportation, and social justice, and evaluate the ethical and societal implications of their solutions.

ADVISING AND CAREERS

ADVISING AND CAREERS

Students with questions about the certificate, courses, and careers are encouraged to contact the undergraduate academic advisor.

Data science is a critical skill for the 21st-century workforce. Similarly, geographic information science (GIS) is one of the fastest growing sectors globally. The global GIS market size is projected to reach \$681 billion in 2025, with an estimated rapid growth rate anticipated post-2025, culminating in a valuation of \$1.44 trillion by 2030. This growth is driven by strategic public policy reforms, industry acceleration strategies, and innovations in AI and data science technologies. In an era dominated by big data, students require expertise in specialized programming languages, technical hardware, and the continuously evolving algorithms, methods, and tools essential for acquiring, processing, utilizing, publishing, and preserving vast volumes of geospatial data. In response, the Geospatial Data Science curriculum helps prepare students to become the next generation of geospatial data scientists and professionals, equipped with essential skills in spatial data analysis, geovisualization, AI, critical thinking, and problem-solving to meet both the needs of industry and academia.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

GEOSCIENCE

The interdisciplinary department of Geoscience offers an undergraduate degree in geology and geophysics, with graduate degrees offered in both disciplines.

The Geology and Geophysics major offers unusual opportunities to integrate knowledge and technology from chemistry, biology, physics, engineering, space science, and other disciplines to understand processes that have shaped the Earth, its environments, and the life that it has sustained over billions of years. Geoscientists provide insight on surface and groundwater resources and how to protect and preserve them. They probe the causes and potential risks associated with natural hazards including earthquakes, volcanoes, floods, hurricanes, landslides, climate change, and sea level rise. Sustainable exploration and extraction of key mineral resources needed to build and power a resilient and green society depends on well-trained geoscientists. To explore Earth history, develop materials and energy resources, and take the pulse of a dynamic planet, geoscientists use an extraordinary array of tools including satellites to measure changes of Earth’s surface, sensitive instruments to detect seismic waves for exploring resources underground, cutting-edge instrumentation to measure the composition of minerals and rocks at microscopic scales, and computational approaches to assemble and interrogate enormous sets of data acquired from rocks and fossils across the globe.

Geology students have a strong interest in the natural environment as it is today and as it has developed over the past 4.5 billion years. The Department of Geoscience challenges students to develop skills in sequential thought, inductive reasoning, and three-dimensional perception. Moreover, students who concentrate in geophysics learn basic physical laws and processes involving gravity, magnetism, heat flow, and seismic wave propagation within Earth. Opportunities also include learning how satellite-based measurements, and computational approaches, are used to measure and monitor geothermal resources, volcanic activity, earthquakes, and groundwater movement.

Geology and Geophysics students prepare for careers in hydrogeology, energy, mining, engineering, and education. Students are exceptionally well-prepared for graduate studies in a broad array of geoscience fields.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.
-------------	--

Language	• Complete the fourth unit of a language other than English; OR
	• Complete the third unit of a language and the second unit of an additional language other than English.

L&S Breadth	• 12 credits of Humanities, which must include 6 credits of literature; and
	• 12 credits of Social Science; and
	• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	<ul style="list-style-type: none"> • 30 credits in residence, overall; and • 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none"> • 2.000 in all coursework at UW-Madison • 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Prospective majors are strongly encouraged to seek assistance from a faculty advisor in order to choose courses appropriate to their interests and career plans. Advisors can also assist students in choosing a pathway that is appropriate for their interests and career goals.

BACKGROUND REQUIREMENTS

Code	Title	Credits
Calculus		
Complete one sequence:		9-14
MATH 221 & MATH 222	Calculus and Analytic Geometry 1 and Calculus and Analytic Geometry 2	
MATH 171 & MATH 217 & MATH 222	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2	
Chemistry		
Complete one sequence:		5-10
CHEM 109	Advanced General Chemistry	
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Physics		

First Introductory Course

Complete one of the following: 5-6

- PHYSICS 207 General Physics
or PHYSICS 201 General Physics
or PHYSICS 247A Modern Introduction to Physics

E M A 201 Statics
& E M A 202 and Dynamics

Second Introductory Course

Complete one of the following: 5

- PHYSICS 208 General Physics
or PHYSICS 202 General Physics
or PHYSICS 248A Modern Introduction to Physics

Total Credits 24-35**GEOLOGY & GEOPHYSICS CORE COURSEWORK**

Code	Title	Credits
Core		
Complete all of the following:		
GEOSCI 100	Introductory Geology: How the Earth Works	3
or GEOSCI/ ENVIR ST 106	Environmental Geology	
GEOSCI 202	Introduction to Geologic Structures	4
GEOSCI 204	Geologic Evolution of the Earth	4
GEOSCI/G L E 360	Principles of Mineralogy	3
GEOSCI/G L E 370	Elementary Petrology	3
<i>Advanced Breadth</i>		
Complete one: 3-4		
GEOSCI/ G L E 350	Introduction to Geophysics: The Dynamic Earth	
GEOSCI 375	Principles of Geochemistry	
GEOSCI 430	Sedimentology and Stratigraphy ¹	
GEOSCI/ G L E 455	Structural Geology	
Total Credits 20-21		

Advanced Breadth

Complete one: 3-4

GEOSCI/ G L E 350 Introduction to Geophysics: The Dynamic Earth

GEOSCI 375 Principles of Geochemistry

GEOSCI 430 Sedimentology and Stratigraphy ¹

GEOSCI/ G L E 455 Structural Geology

Total Credits 20-21

¹ GEOSCI 430 (<https://guide.wisc.edu/?P=GEOSCI%20430>) may be taken to satisfy both Advanced Breadth and Communication requirement, but the credit will only count once towards total credits needed to complete the major.

GEOLOGY & GEOPHYSICS COMMUNICATION REQUIREMENT

Code	Title	Credits
Complete one of the following:		
GEOSCI 402	Research and Communication in the Geological Sciences	3
GEOSCI/ATM OCN/ ENVIR ST/ GEOG 335	Climatic Environments of the Past	3
GEOSCI 430	Sedimentology and Stratigraphy ¹	3
GEOSCI 610	Geochronology, Timescales, and Rates of Geologic Processes	3

GEOSCI/G L E 629	Contaminant Hydrogeology	3
INTEREGR 397	Engineering Communication	3

¹ GEOSCI 430 (<https://guide.wisc.edu/?P=GEOSCI%20430>) may be taken to satisfy both Advanced Breadth and Communication requirement, but the credit will only count once towards total credits needed to complete the major.

GEOLOGY & GEOPHYSICS MAJOR ELECTIVES

Complete additional upper-level coursework to reach a minimum of 34 credits in the major. GEOSCI courses numbered 300-692, except GEOSCI 331, are considered upper-level. Complete additional upper-level coursework to reach a minimum of 34 credits in the major.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all GEOSCI and major courses
- 2.000 on 15 upper-level major credits, taken in residence ¹
- 15 credits in GEOSCI, taken on campus

¹ GEOSCI 300-699, excluding GEOSCI 331, are considered Upper Level in the Major

HONORS IN THE MAJOR

Students may declare Honors in the Geology and Geophysics Major in consultation with the departmental undergraduate advisor.

HONORS IN THE MAJOR: GEOLOGY AND GEOPHYSICS: REQUIREMENTS

To earn Honors in the Geology and Geophysics Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA in all GEOSCI and major courses
- Complete GEOSCI 681 and GEOSCI 682, for a total of 6 credits, with a grade of B or better.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Acquire a working knowledge of Earth history and the evidence used to constrain that history.
2. Explain how various Earth systems operate and describe the basis for that understanding. Earth systems include the lithosphere, hydrosphere, cryosphere, biosphere, and atmosphere.
3. Apply field/lab-based methods, spatial reasoning skills, temporal reasoning skills, and/or quantitative approaches to solve problems in geoscience.
4. Analyze geological, biological, chemical, and/or physical information to understand Earth processes and the rates of those processes.
5. Read the scientific literature and understand the employed methods, results, and emergent interpretations.
6. Communicate scientific data, concepts, and models effectively.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits Spring	Credits

Total Credits 120

ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Geoscience website (<https://geoscience.wisc.edu/academics/undergraduate-program/>).

Any student interested in the Geology and Geophysics major should meet with the advisor or program manager to discuss steps to complete the necessary coursework for the major.

CAREERS

More than half of all professional geologists and geophysicists work in hydrogeology, engineering geology, technical consulting, mining, or energy resource industries. The need for energy, environmental protection, and responsible land and resource management is expected to spur future demand for geoscientists. Geoscientists will be involved in discovering and developing next-generation energy and mineral resources (U.S. Bureau of Labor Statistics, November, 2022). Such careers involve an unusual breadth of training and personal adaptability, and the MS degree is generally required. About one-fifth of all geoscientists work in state and federal geological surveys or research activities. These positions largely involve problems in geologic mapping, mineral resources, groundwater, and engineering. Geophysics offers opportunities in earthquake studies, seismic verification of nuclear test bans, and rock characterization techniques for waste disposal and groundwater modeling. Many geology students continue on to obtain a PhD degree and become faculty members at colleges or universities. A geology and geophysics major is also appropriate for those interested in careers in elementary or secondary education, environmental policy, or environmental law. Faculty advisors can provide additional information on career opportunities.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes

into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

GEOLOGY AND GEOPHYSICS, BS

The interdisciplinary department of Geoscience offers an undergraduate degree in geology and geophysics, with graduate degrees offered in both disciplines.

The Geology and Geophysics major offers unusual opportunities to integrate knowledge and technology from chemistry, biology, physics, engineering, space science, and other disciplines to understand processes that have shaped the Earth, its environments, and the life that it has sustained over billions of years. Geoscientists provide insight on surface and groundwater resources and how to protect and preserve them. They probe the causes and potential risks associated with natural hazards including earthquakes, volcanoes, floods, hurricanes, landslides, climate change, and sea level rise. Sustainable exploration and extraction of key mineral resources needed to build and power a resilient and green society depends on well-trained geoscientists. To explore Earth history, develop materials and energy resources, and take the pulse of a dynamic planet, geoscientists use an extraordinary array of tools, including satellites to measure changes of Earth’s surface, sensitive instruments to detect seismic waves for exploring resources underground, cutting-edge instrumentation to measure the composition of minerals and rocks at microscopic scales, and computational approaches to assemble and interrogate enormous sets of data acquired from rocks and fossils across the globe.

Geology students have a strong interest in the natural environment as it is today and as it has developed over the past 4.5 billion years. The Department of Geoscience challenges students to develop skills in sequential thought, inductive reasoning, and three-dimensional perception. Moreover, students who concentrate in geophysics learn basic physical laws and processes involving gravity, magnetism, heat flow, and seismic wave propagation within Earth. Opportunities also include learning how satellite-based measurements, and computational approaches, are used to measure and monitor geothermal resources, volcanic activity, earthquakes, and groundwater movement.

Geology and Geophysics students prepare for careers in hydrogeology, energy, mining, engineering, and education. Students are exceptionally well-prepared for graduate studies in a broad array of geoscience fields.

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

- | | |
|-------------------|---|
| General Education | <ul style="list-style-type: none">• Breadth—Humanities/Literature/Arts: 6 credits• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits• Breadth—Social Studies: 3 credits• Communication Part A & Part B *• Ethnic Studies *• Quantitative Reasoning Part A & Part B * |
|-------------------|---|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of

Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

Language Complete the third unit of a language other than English.

L&S Breadth Complete:
 • 12 credits of Humanities, which must include at least 6 credits of Literature; and
 • 12 credits of Social Science; and
 • 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced Coursework Complete at least 60 credits at the Intermediate or Advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW-Madison Experience Complete both:
 • 30 credits in residence, overall, and
 • 30 credits in residence after the 86th credit.

Quality of Work
 • 2.000 in all coursework at UW-Madison
 • 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Prospective majors are strongly encouraged to seek assistance from a faculty advisor in order to choose courses appropriate to their interests and career plans. Advisors can also assist students in choosing a pathway that is appropriate for their interests and career goals.

BACKGROUND REQUIREMENTS

Code	Title	Credits
Calculus		
Complete one sequence:		9-14
MATH 221 & MATH 222	Calculus and Analytic Geometry I and Calculus and Analytic Geometry 2	

MATH 171 & MATH 217 & MATH 222	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2
--------------------------------	---

Chemistry

Complete one sequence:		5-10
CHEM 109	Advanced General Chemistry	
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	

Physics

First Introductory Course

Complete one of the following:		5-6
PHYSICS 207	General Physics	
or PHYSICS 201 General Physics		
or PHYSICS 247A Modern Introduction to Physics		

E M A 201 & E M A 202	Statics and Dynamics
-----------------------	----------------------

Second Introductory Course

Complete one of the following:		5
PHYSICS 208	General Physics	
or PHYSICS 202 General Physics		
or PHYSICS 248A Modern Introduction to Physics		

Total Credits **24-35**

GEOLOGY & GEOPHYSICS CORE COURSEWORK

Code	Title	Credits
Core		
Complete all of the following:		
GEOSCI 100	Introductory Geology: How the Earth Works	3
or GEOSCI/ ENVIR ST 106		Environmental Geology
GEOSCI 202	Introduction to Geologic Structures	4
GEOSCI 204	Geologic Evolution of the Earth	4
GEOSCI/G L E 360	Principles of Mineralogy	3
GEOSCI/G L E 370	Elementary Petrology	3
Advanced Breadth		
Complete one:		3-4
GEOSCI/G L E 350	Introduction to Geophysics: The Dynamic Earth	
GEOSCI 375	Principles of Geochemistry	
GEOSCI 430	Sedimentology and Stratigraphy ¹	
GEOSCI/G L E 455	Structural Geology	
Total Credits		20-21

¹ GEOSCI 430 (<https://guide.wisc.edu/?P=GEOSCI%20430>) may be taken to satisfy both Advanced Breadth and Communication

requirement, but the credit will only count once towards total credits needed to complete the major.

GEOLOGY & GEOPHYSICS COMMUNICATION REQUIREMENT

Code	Title	Credits
Complete one of the following:		
GEOSCI 402	Research and Communication in the Geological Sciences	3
GEOSCI/ATM OCN/ ENVIR ST/ GEOG 335	Climatic Environments of the Past	3
GEOSCI 430	Sedimentology and Stratigraphy ¹	3
GEOSCI 610	Geochronology, Timescales, and Rates of Geologic Processes	3
GEOSCI/G L E 629	Contaminant Hydrogeology	3
INTEREGR 397	Engineering Communication	3

¹ GEOSCI 430 (<https://guide.wisc.edu/?P=GEOSCI%20430>) may be taken to satisfy both Advanced Breadth and Communication requirement, but the credit will only count once towards total credits needed to complete the major.

GEOLOGY & GEOPHYSICS MAJOR ELECTIVES

Complete additional upper-level coursework to reach a minimum of 34 credits in the major. GEOSCI courses numbered 300–692, except GEOSCI 331, are considered upper-level. Complete additional upper-level coursework to reach a minimum of 34 credits in the major.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all GEOSCI and major courses
- 2.000 on 15 upper-level major credits, taken in residence ¹
- 15 credits in GEOSCI, taken on campus

¹ GEOSCI 300–699, excluding GEOSCI 331, are considered Upper Level in the Major

HONORS IN THE MAJOR

Students may declare Honors in the Geology and Geophysics Major in consultation with the departmental undergraduate advisor.

HONORS IN THE MAJOR: GEOLOGY AND GEOPHYSICS: REQUIREMENTS

To earn Honors in the Geology and Geophysics Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA in all GEOSCI and major courses
- Complete GEOSCI 681 and GEOSCI 682, for a total of 6 credits, with a grade of B or better.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Acquire a working knowledge of Earth history and the evidence used to constrain that history.
2. Explain how various Earth systems operate and describe the basis for that understanding. Earth systems include the lithosphere, hydrosphere, cryosphere, biosphere, and atmosphere.
3. Apply field/lab-based methods, spatial reasoning skills, temporal reasoning skills, and/or quantitative approaches to solve problems in geoscience.
4. Analyze geological, biological, chemical, and/or physical information to understand Earth processes and the rates of those processes.
5. Read the scientific literature and understand the employed methods, results, and emergent interpretations.
6. Communicate scientific data, concepts, and models effectively.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits Spring	Credits
MATH 221 (Quantitative Reasoning B)	5 MATH 222	4
CHEM 103	4 CHEM 104	5
GEOSCI 100 or 106	3 GEOSCI 204	4

	15	14

Total Credits 120**ADVISING AND CAREERS****ADVISING AND CAREERS
DECLARE OR CANCEL THIS MAJOR**

Please follow the process described on the Geoscience website (<https://geoscience.wisc.edu/academics/undergraduate-program/>).

Any student interested in the Geology and Geophysics major should meet with the advisor or program manager to discuss steps to complete the necessary coursework for the major.

CAREERS

More than half of all professional geologists and geophysicists work in hydrogeology, engineering geology, technical consulting, mining, or energy resource industries. The need for energy, environmental protection, and responsible land and resource management is expected to spur future

demand for geoscientists. Geoscientists will be involved in discovering and developing next-generation energy and mineral resources (U.S. Bureau of Labor Statistics, November, 2022). Such careers involve an unusual breadth of training and personal adaptability, and the MS degree is generally required. About one-fifth of all geoscientists work in state and federal geological surveys or research activities. These positions largely involve problems in geologic mapping, mineral resources, groundwater, and engineering. Geophysics offers opportunities in earthquake studies, seismic verification of nuclear test bans, and rock characterization techniques for waste disposal and groundwater modeling. Many geology students continue on to obtain a PhD degree and become faculty members at colleges or universities. A geology and geophysics major is also appropriate for those interested in careers in elementary or secondary education, environmental policy, or environmental law. Faculty advisors can provide additional information on career opportunities.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

GERMAN, NORDIC, AND SLAVIC

The Department of German, Nordic, and Slavic is home to undergraduate programs in German (p. 779), Scandinavian Studies (p. 780), Russian (p. 780), and Polish (p. 780), as well as certificates in the Folklore program (p. 781), Slavic Studies (p. 781), and Languages and Cultures of Northern Europe (p. 780). The department offers courses in the languages, linguistics, literatures, and cultures of these areas, both in the target languages and in translation. GNS provides instruction in more than a dozen languages, including Danish, Dutch, Finnish, German, Kazakh, Norwegian, Old Norse, Polish, Russian, Swedish, Turkish, Ukrainian, and Yiddish.

GERMAN PROGRAM

The German program affords students the opportunity to begin or continue their study of German and/or Dutch.

Knowledge of German provides access to a culture that for more than a millennium has been central to the history, economy, arts, and sciences not just of Europe but of Western civilization as a whole. In the contemporary world, German-speaking countries have Europe's strongest economies

and are playing an increasingly important role in world affairs. More Americans claim German ethnicity than any other, and German-speaking immigrants and their descendants have had an enduring impact on the history and culture of the United States. UW–Madison has been a leader in the field of German studies for more than a century. The university's libraries are remarkable for the depth and breadth of their German-language holdings.

Knowledge of Dutch provides access to a culture that has been an important force in world history since the Middle Ages. The language of more than 20 million inhabitants of the Netherlands and Flanders (Dutch-speaking Belgium), Dutch is also spoken in Suriname and the Netherlands Antilles. It is also an important second language in Indonesia. As major economic powers, Belgium and the Netherlands play a leading role in shaping the European Union. World-class research in the sciences and humanities is conducted at Dutch and Belgian universities, and both countries can boast of a cultural life in which art, music, and theater are all flourishing.

OPPORTUNITIES FOR GERMAN AND DUTCH STUDENTS

In addition to choosing from courses in culture, literature, linguistics, and German-American studies, German students can practice the language in various settings on campus, including the Stockwerk Deutsch (<http://gns.wisc.edu/stockwerk-deutsch/>) Language House, which is located in Kronshage Residence Hall. Other opportunities include the German Club, Kaffeestunde, and Stammtisch. There is also a Dutch Table for students of Dutch. Many German and Dutch students participate on semester- or year-long study abroad programs in Germany, Austria, and the Netherlands administered through International Academic Programs (<http://www.studyabroad.wisc.edu/>), the School of Business, the College of Engineering, and the College of Agriculture and Life Sciences. The International Internship Program (<http://internships.international.wisc.edu/>) also connects UW–Madison students to a wide range of internships in German- and Dutch-speaking Europe.

SCANDINAVIAN STUDIES (NORDIC)

The Scandinavian Studies Program provides the opportunity to learn a Scandinavian language or Finnish (modern Icelandic only occasionally). The literature, folklore, and culture of the Nordic countries are taught both in the original languages and in English translation. Partly in cooperation with other departments, courses in Scandinavian area studies are offered (history, social institutions, geography, art, archaeology). Students who major in the field may continue graduate studies toward an MA in Scandinavian philology, literature, or area studies, and toward a PhD in Scandinavian literature, philology, or folklore.

The program strongly encourages a junior-year abroad in a Nordic country; several exchange programs are available. Students who transfer to this university after a year abroad should contact the undergraduate advisor as early as possible to schedule a placement test.

LANGUAGES AND CULTURES OF NORTHERN EUROPE

The Languages and Cultures of Northern Europe certificate offers an opportunity to study the many diverse linguistic, cultural, and religious communities that have become part of Northern Europe as a result of international migration and pan-European economic integration.

Students earning the certificate have maximum flexibility of choice in the culture they wish to study in depth, or if they want to take a comparative approach over the region. The certificate maps intellectually a complex and fascinating region of contemporary Europe—one which is marked not only by longstanding national cultures but also by an increasingly diverse and mobile populace.

If students wish, students may include language study in Dutch, Swedish, Norwegian, Danish, Finnish, or Yiddish as part of their course choices.

RUSSIAN

Russian is designated a critical language by the United States government. Russian is the seventh-most spoken language in the world and is among the six official languages of the United Nations. Russian speakers live not only in Russia, but in Central Asia, the Caucasus, Eastern Europe, including the Baltic states, and in Russian-speaking diasporas in the United States and throughout the world. Because Russian is so widely spoken in many countries throughout the world, it is an in-demand critical language for careers including government service, non-governmental organizations, science and scholarship, and some business sectors.

Students in the Russian major not only learn the Russian language but read Russian literature in both Russian and English and become familiar with Russian film and visual arts, theater and performing arts, and music.

The Russian major is designed to meet the needs of students who begin to study the language in college as well as those who began to study the language in high school or who grew up speaking or hearing Russian at home.

Russian majors are able to speak Russian in everyday and some work situations, read and listen to Russian-language news and media, and write for daily, academic, and some professional purposes. In addition, Russian majors gain an appreciation and a deeper understanding of the variety of places and cultures in which Russian is spoken, and of politics and foreign policy, history, and world-renowned literary and artistic traditions.

RUSSIAN FLAGSHIP PROGRAM

The Russian Flagship Program offers students of any major the opportunity to achieve a professional level of competence in Russian. Students apply to the program directly. Residential and study abroad requirements, course options, and scholarship information are posted at Russian Flagship (<http://www.russianflagship.wisc.edu/>). To obtain more information about the Russian Flagship Program, students should make an appointment with a Russian Flagship advisor. (<https://russianflagship.wisc.edu/advising/>)

POLISH

Polish is the most commonly spoken Slavic language of the European Union and the second largest Slavic language in the world, with over 50 million users across the globe. Poland has a unique and vibrant culture shaped by a millennium of artistic and intellectual innovation and struggles for political, social, and cultural independence. The country survived two world wars and half a century of communist rule to emerge as a regional leader in East-Central Europe, the fastest-growing economy in the European Union, and home to one of the most dynamic cultural scenes in the world. It is also a key NATO and U.S. ally in Europe. Polish diaspora is among the world's largest, with major concentrations in the United States, Canada, the United Kingdom, Germany, and France.

The Polish major offers courses in the Polish language, literature, culture, politics, and one of the most intricate, fascinating histories in Europe,

providing the knowledge and skills for successful careers in business, politics, diplomacy, arts, translation, international law, environmental science, journalism, national security, tourism, and cultural services.

SLAVIC STUDIES CERTIFICATE

In the Slavic Studies Certificate, students have the opportunity to pair strong language training in Russian or Polish with a contextual, integrative regional view to complement their studies in political science, international studies, business, history, or many other areas. Students gain a critically informed appreciation and understanding of the complex, interwoven nature of the region's historical trajectories, politics, literature, and culture, with the flexibility to choose to focus on the area or culture of their special interest or take a comparative approach to the region as a whole. Topics include revolution and power, trauma and the politics of memory, the immigrant experience, adventure, folklore, the politics of laughter, and science fiction.

Are you of Polish or Russian heritage, or do you just have a fascination with the region of the world in which these languages are spoken? Can you imagine using these languages in your future career or research? Discover the world that has survived the horrors of two world wars, given birth to some of the most powerful dissident movements in modern history, and inspired the world with its art, film, literature, and political thought.

FOLKLORE CERTIFICATE

The Folklore Certificate provides opportunities to explore the importance of everyday expressive culture—such as storytelling, sacred traditions, art, music, foodways, and festivals—to better appreciate human diversity, as well as understand the challenges of living together as local community members and citizens of the world. Students will gain fresh perspectives on race, ethnicity, gender, sexuality, and class. They will come to recognize the artfulness in everyday life and community-based creativity in a global economy. Students will learn to navigate cultural communication and conflict within and across religious, geographic, and ethnic divides.

Folklore courses are taught partly in cooperation with other departments and are cross-listed with classes in Gender and Women's Studies, Anthropology Religious Studies, Art, Communications, Dance, African American Studies, Scandinavian Studies, and many others.

Students who earn a certificate in the field may work in museums, the business sector, archives, publishing, or many other areas.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- East Central European Languages, Literatures, and Cultures, Certificate (p. 781)
- Folklore, Certificate (p. 783)
- German, BA (p. 784)
- German, BS (p. 789)
- German, Certificate (p. 793)
- Languages and Cultures of Northern Europe, Certificate (p. 794)
- Polish, BA (p. 796)
- Polish, BS (p. 799)
- Russian, BA (p. 803)
- Russian, BS (p. 806)

- Scandinavian Studies, BA (p. 810)
- Scandinavian Studies, BS (p. 814)
- Scandinavian Studies, Certificate (p. 818)
- Slavic Studies, Certificate (p. 820)

EAST CENTRAL EUROPEAN LANGUAGES, LITERATURES, AND CULTURES, CERTIFICATE

Admissions to the East Central European Languages, Literatures, and Cultures Certificate were suspended as of fall 2023 and will be discontinued as of fall 2027. If you have any questions, please contact the department.

Please see the Slavic Studies Certificate (p. 820) instead.

Explore the crossroads of Europe with courses designed to give you the linguistic-cultural skills for successful academic, business, political, diplomatic, and analytical careers centered on the continent's most economically dynamic, strategically important, and culturally rich region. Discover the world that has survived the horrors of two world wars, given birth to some of the most powerful dissident movements in modern history, and inspired the world with its art, film, literature, and political thought.

Are you fascinated with East-Central Europe? Do you want to learn Polish or Czech? Do you want to hear more about the professional opportunities that study of the region can offer you? The Certificate in East Central European Languages, Literatures, and Cultures is your gateway!

- Excellent study abroad and scholarship opportunities;
- A rich set of course offerings that includes language instruction, as well as theme-based classes on topics such as popular culture and cultural history, (post-)communism, the immigrant experience in America, dissidence, film, the politics of laughter, and science fiction.

HOW TO GET IN

HOW TO GET IN

Admissions to the East Central European Languages, Literatures, and Cultures Certificate were suspended as of fall 2023 and will be discontinued as of fall 2027. If you have any questions, please contact the department.

REQUIREMENTS

REQUIREMENTS

In order to receive the certificate in East Central European languages, literature, and cultures, students are required to complete a minimum of **15 credits total**.

Code	Title	Credits
Part 1		
Select one of the following options:		6-8

SLAVIC 217 Third Semester Czech
& SLAVIC 218 and Fourth Semester Czech

SLAVIC 207 Third Semester Polish
& SLAVIC 208 and Fourth Semester Polish ¹

Part 2

Select three courses from the following: 9

LITTRANS 207 Slavic Science Fiction through
Literature and Film

LITTRANS 208 The Writings of Vaclav Havel:
Critique of Modern Society

LITTRANS/
SLAVIC 215 Love and Death: Introduction to
Polish Literature & Culture

LITTRANS 361 Living at the End of Times:
Contemporary Polish Literature and
Culture

SLAVIC/
FOLKLORE 444 Slavic and East European Folklore

Total Credits

15

¹ Students can satisfy this requirement by completing any two courses in Polish language beyond the second semester, including: SLAVIC 207 Third Semester Polish, SLAVIC 208 Fourth Semester Polish, SLAVIC 277 Third Year Polish I, SLAVIC 278 Third Year Polish II, SLAVIC 331 Fourth Year Polish I, and SLAVIC 332 Fourth Year Polish II.

RESIDENCE AND QUALITY OF WORK

- At least 8 credits must be earned in residence.
- Students must earn a cumulative 2.000 GPA on required certificate coursework.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Minimally acquire intermediate proficiency in an East Central European Language (Czech, Polish, or SerboCroatian).
2. Develop and apply writing skills and oral communications skills appropriate to Liberal Arts education in the context of Slavic studies to the literatures and cultures of the region.
3. Develop and apply critical-thinking skills inherent in the Liberal Arts tradition to the literature and culture of the region.
4. Analyze and interpret cultural products of the region (i.e. works of literature, films, etc.) in themselves and in the context of specific historical and cultural conditions.

ADVISING AND CAREERS

ADVISING AND CAREERS

Language placement tests are advised for any student with previous knowledge or experience with Polish or Czech. The test consists of a one-on-one appointment with a professor, with written, oral, and reading comprehension components.

Placement Advisors for the languages represented by the certificate are:

- David Danaher (dsdanaher@wisc.edu) for Czech
- Łukasz Wodzyński (lukasz.wodzynski@wisc.edu) for Polish

For other undergraduate questions or to declare the certificate, please contact our undergraduate advisor, Joanna Schuth (jschuth@wisc.edu).

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

FOLKLORE, CERTIFICATE

Folklore is the discovery and understanding of everyday human culture: the patterns of ideas, behavior, music, dance, foodways, rituals, crafts, traditions, beliefs, lore, and customs of the everyday people that define our world.

Folklore is a discipline which crosses cultural borders and ethnic boundaries. It seeks to define the place of cultures and ethnicities within the family of humankind as well as examine and document how they intersect and influence each other. It builds bridges of understanding and is critical to our appreciation of how the world works, and how we use traditional knowledge to meet new challenges.

Folklore students will gain fresh perspectives on the ethnic, regional, occupational, gender, and other identities of individuals in specific communities. Students gain knowledge and experience in cultural backgrounds, collection techniques, fieldwork and research, theoretical analysis, and text comprehension and writing.

Folklore touches on every aspect of human life: health and illness, cultural diversity, social and political movements, superstition and fears, the movement of information and disinformation, trends and memes, family and home life, educational systems, entertainment and creative arts, politics and government, fashion and design, gender and sexuality, events and festivals, and more.

Training in folklore and folkloristic practices is useful in careers in the arts, public history, preservation, and museum stewardship, but also in health and medicine, social work, education, law, politics and intelligence, psychology, anthropology, marketing, the nonprofit sector, journalism, gaming, international business, tourism, and much more.

HOW TO GET IN

HOW TO GET IN

Students must make an appointment with or email the undergraduate advisor to declare the certificate.

REQUIREMENTS

REQUIREMENTS

A total of 12 credits to complete the Certificate, to include:¹

CATEGORY A: BASICS, FIELDWORK, DOCUMENTING, AND PRESERVING

One course and three credits are required, from:

Code	Title	Credits
FOLKLORE 100	Introduction to Folklore	3
FOLKLORE/ GNS 200	Folklore of Central, Eastern and Northern Europe	3
FOLKLORE 230	Introduction to American Folklore	3
FOLKLORE 320	Folklore of Wisconsin	3

FOLKLORE 439	Foodways	3
FOLKLORE/ L I S 490	Field Methods and the Public Presentation of Folklore	3
FOLKLORE 491	Practicum in Public Folklore	1-3
FOLKLORE/ COM ARTS 522	Digital Storytelling for Social Media	3

CATEGORY B: ANALYSIS AND FOCUSED TOPICS

One course and three credits are required, from:

Code	Title	Credits
FOLKLORE/ MUSIC 103	Introduction to Music Cultures of the World	3
FOLKLORE/ RELIG ST 104	Sacred Places and Journeys	3
FOLKLORE/ AFRICAN 210	The African Storyteller	3
FOLKLORE/ ANTHRO/INTL ST/ LINGUIS 211	Global Language Issues	3
FOLKLORE 215	Elementary Topics in Folklore	1-3
FOLKLORE 220	The Folk Tale	3
FOLKLORE 225	Horror as Expressions of National Angst	3
FOLKLORE/ MEDIEVAL/ SCAND ST 235	The World of Sagas	3
FOLKLORE 315	Intermediate Topics in Folklore	1-3
FOLKLORE 317	The Irish Tradition	3
FOLKLORE/ AFROAMER/ ASIAN AM/ DANCE 319	Afro Asian Improv: From Hip Hop to Martial Arts Fusion	3
FOLKLORE/ RELIG ST 326	The Supernatural in the Modern World	3

RESIDENCE AND QUALITY OF WORK

- At least 6 certificate credits must be completed in residence.
- Minimum 2.000 GPA on all certificate courses.

¹ Courses taken on a Pass/Fail grading basis are not eligible, and do not count, in the Certificate.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate skill in the methods and productions folklorists employ in their work.
2. Analyze the connections between expressive performances and the wider workings of culture.
3. Apply and engage in ethical considerations in research and collaborative practice, particularly with reference to cultural, economic, religious, ethnic, and gender diversity.

ADVISING AND CAREERS

ADVISING AND CAREERS

Students should contact the undergraduate advisor, Joanna Schuth (jschuth@wisc.edu) to declare the certificate.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

GERMAN, BA

The German program affords students the opportunity to begin or continue their study of German and/or Dutch.

GERMAN

Knowledge of German provides access to a culture that for more than a millennium has been central to the history, economy, arts, and sciences not just of Europe but of Western civilization as a whole. In the contemporary world, German-speaking countries have Europe's strongest economies and are playing an increasingly important role in world affairs. More Americans claim German ethnicity than any other, and German-speaking immigrants and their descendants have had an enduring impact on the history and culture of the United States. UW-Madison has been a leader in the field of German studies for more than a century. The university's libraries are remarkable for the depth and breadth of their German-language holdings.

DUTCH

Knowledge of Dutch provides access to a culture that has been an important force in world history since the Middle Ages. The language of more than 20 million inhabitants of the Netherlands and Flanders (Dutch-speaking Belgium), Dutch is also spoken in Suriname and the Netherlands Antilles. It is also an important second language in Indonesia. As major economic powers, Belgium and the Netherlands play a leading role in shaping the European Union. World-class research in the sciences and humanities is conducted at Dutch and Belgian universities, and both

countries can boast of a cultural life in which art, music, and theater are all flourishing.

STUDY ABROAD

The German program works closely with International Academic Programs (<http://www.studyabroad.wisc.edu/>) to provide a range of opportunities for study in Germany and the Netherlands. The program also cooperates with the School of Business, which maintains study abroad programs in Germany and Austria open to all qualified undergraduates, not just business majors. Finally, the College of Engineering and the College of Agriculture and Life Sciences offer study abroad programs in Germany for qualified students in these colleges.

OTHER OPPORTUNITIES FOR GERMAN STUDENTS

UW–Madison students interested in international internships should visit the website of the International Internship Program (<http://internships.international.wisc.edu/>).

The German-language learning community, Stockwerk Deutsch (<https://www.housing.wisc.edu/undergraduate/communities/international/language-communities/>), is located in Kronshage Residence Hall, one of the Lakeshore residence halls. Undergraduate students live and speak German together with a resident native speaker of German.

Other regular student activities include film screenings and lectures as well as informal, conversation-oriented Kaffeestunde, Stammtisch, Dutch Table, and the German Club.

OFFERINGS IN DUTCH STUDIES

Course offerings in Dutch include five semesters of language instruction as well as courses in the literature and culture of the Low Countries. Courses in Dutch language satisfy the L&S Language requirement, while courses in Dutch literature and culture carry literature and humanities credits, respectively. Dutch literature is also offered under Literature in Translation.

A major in Dutch studies is not yet established at UW–Madison, but interested students are encouraged to pursue an individual major in the field. In addition to the study of language, literature, and culture, this could entail coursework in art history, geography, history, sociology, and so on. Courses taken in the study abroad program in Utrecht (<https://studyabroad.wisc.edu/programsearch/>) can also be applied to an individual major in Dutch studies.

HOW TO GET IN

HOW TO GET IN DECLARING THE MAJOR

Students who have completed the prerequisite coursework may declare the German major at any time by consulting with the German program's undergraduate advisor.

Students declared in the German certificate may not be declared in the German major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

Prerequisites for the Major in German

A total of 9 credits of language coursework at the third-year (post-204, "2xx") level is required for the German major. Third-year German language

courses (GERMAN 249, GERMAN 258, GERMAN 262, GERMAN 285) are not sequenced; they may be taken in any order and/or simultaneously.

Complete one of the following two groups of prerequisite courses:

Code	Title	Credits
Group 1:		
GERMAN 249 & GERMAN 258 & GERMAN 262	Intermediate German - Speaking and Listening and Intermediate German-Reading and Intermediate German-Writing	9
Group 2:		
GERMAN 249 & GERMAN 285	Intermediate German - Speaking and Listening and Intermediate Intensive (Honors) German: Language, Culture, Texts	9

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth–Humanities/Literature/Arts: 6 credits • Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth–Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

Language

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

L&S Breadth

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced work Complete at least 60 credits at the intermediate or advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW-Madison Experience

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

Quality of Work

- 2,000 in all coursework at UW-Madison
- 2,000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

27 credits in the major, as follows:

Code	Title	Credits
Required Courses		6
GERMAN 337	Advanced Composition & Conversation	
GERMAN 676	Advanced Seminar in German Studies ¹	
Electives ¹		21
GERMAN 305	Literatur des 20. und 21. Jahrhunderts	
GERMAN 351	Introduction to German Linguistics	
GERMAN 352	Topics in German Linguistics	
GERMAN 362	Topics in German Literature	
GERMAN 367	Study Abroad in German Literature	

GERMAN 368	Study Abroad in German Culture
GERMAN 369	Study Abroad in German Linguistics
GERMAN 372	Topics in German Culture
GERMAN 385	Honors Seminar in German Literature
GERMAN 411	Kultur des 20. und 21. Jahrhunderts
GERMAN 612	German Literary Movements Since 1750
GERMAN 625	Letterkunde der Lage Landen
GERMAN 645	Cultuirkunde der Lage Landen
GERMAN 650	History of the German Language
GERMAN/MEDIEVAL 651	Introduction to Middle High German
GERMAN 681	Senior Honors Thesis-First Semester
GERMAN 682	Senior Honors Thesis-Second Semester
GERMAN 683	Senior Honors Seminar in German Literature
GERMAN 698	Directed Study
GERMAN 699	Directed Study

Total Credits **27**

COGNATE COURSES AS ELECTIVES

Up to 9 cognate course credits may count as electives within the German major. These are courses with German-related subject matter that are taught in English, either in the German program or in other departments. Cognate courses taken in the German program may be at the Elementary, Intermediate, or Advanced levels; those taken in other departments must be at the Advanced level only. Any questions about which courses may be counted as cognate courses may be directed to the undergraduate advisor. Currently the cognate list includes:

Code	Title	Credits
GERMAN 236	Bascom Course	
GERMAN 245	Topics in Dutch Life and Culture	
GERMAN 264	Culture in 20th Century Berlin	
GERMAN 266	Topics in German and/or Yiddish Culture	
GERMAN 267	Yiddish Song and the Jewish Experience	
GERMAN/JEWISH/LITTRANS 269	Yiddish Literature and Culture in Europe	
GERMAN 272	Nazi Culture	
GERMAN 275	Kafka and the Kafkaesque	
GERMAN/LITTRANS 276	Special Topics in German and World Literature/s	
GERMAN 278	Topics in German Culture	
GERMAN/JEWISH/LITTRANS 279	Yiddish Literature and Culture in America	
GERMAN/LITTRANS 280	From Grimm to Gryffindor: German Fairytales (Re)imagined	
GERMAN 325	Topics in Dutch Literature	

GERMAN/ JEWISH 510	German-Jewish Culture Since the 18th Century
GERMAN 560	Topics in German Studies
GERMAN 625	Letterkunde der Lage Landen
GERMAN 645	Cultuurkunde der Lage Landen
GERMAN/ MEDIEVAL 651	Introduction to Middle High German
GEN&WS/ LITTRANS 270	German Women Writers in Translation
GNS 375	Philosophy, Theory, Criticism
HISTORY/ JEWISH 310	The Holocaust
HISTORY/ ENVIR ST 328	Environmental History of Europe
HISTORY 359	History of Europe Since 1945
HISTORY 410	History of Germany, 1871 to the Present
JEWISH/ PHILOS 442	Moral Philosophy and the Holocaust
JEWISH/ ENGL 539	Jewish Literatures in Diaspora
RELIG ST 406	The Amish

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all GERMAN courses and all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence ²
- 15 credits in GERMAN, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the German undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all Advanced-level GERMAN courses
- Complete 29 total Advanced-level credits in German, 20 of which must be taken for Honors, to include:

Code	Title	Credits
GERMAN 337	Advanced Composition & Conversation (for honors credit)	3
GERMAN 676	Advanced Seminar in German Studies (for honors credit)	3
GERMAN 681 & GERMAN 682	Senior Honors Thesis-First Semester and Senior Honors Thesis-Second Semester	6

FOOTNOTES

¹ At least 3 of these credits must be taken on the UW-Madison campus (not through Study Abroad).

² GERMAN courses numbered 300-699 are upper-level in the major, except: GERMAN 311, GERMAN 312, GERMAN 313, GERMAN 314, GERMAN 325, GERMAN 377, GERMAN 378, GERMAN 379, GERMAN 391, GERMAN 392, GERMAN 401, GERMAN 402, GERMAN 403, GERMAN 404, and any Dutch topic course.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate communication skills in German and integrate these skills to effectively exchange and evaluate ideas in written and spoken German. Recognize, interpret, and apply structural, pragmatic, sociolinguistic, and stylistic features of written and spoken German and how they influence meaning, in order to share information and persuade, inform, or narrate for different audiences.
2. Interpret and comprehend written, visual, and auditory texts in German representing a broad spectrum of genres, topics, time periods, and geographical regions. Recognize social, cultural, and linguistic diversity in spoken and written language. Identify key idea, features, or themes of texts in a variety of genres and forms.
3. Recognize and explain products, practices, and perspectives of the German-speaking world and the cultural, historical, social, and political context in which they were created. Demonstrate awareness of similarities, differences, and diversity by contrasting culturally situated beliefs and behaviors of the German-speaking world with those found in their own culture. Develop breadth and depth of cross-cultural knowledge and competence.
4. Formulate ideas, plan, and conduct research on themes related to course topics and students' particular interests. Collect and select relevant and credible sources in German (critical thinking and research). Formulate argumentative claims and support those claims using appropriate examples. Evaluate the strengths and weaknesses of different ideas.
5. Apply principles of ethical and professional conduct in each course and at all levels of instruction, thereby upholding the core values of academic integrity (personal responsibility and accountability).

6. Engage with the German language and its users in and beyond the classroom, e.g. in their own community, virtual communities, or through immersion experiences at home or abroad in order to participate in local and global multilingual communities (engagement in the community).

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Students considering a major in German should consult with the undergraduate advisor for German early to discuss how to complete their degree in four academic years.

ADVISING AND CAREERS

ADVISING AND CAREERS

For advising questions related to the German major, contact Joanna Schuth (jschuth@wisc.edu).

Language placement tests are advised for any student with previous knowledge or experience with German or Dutch. The German test is proctored through the University Placement Test program (<https://exams.wisc.edu/placement/uw-madison-students.php>). The Placement Advisor for German is Jeanne Schueller.

The placement test for Dutch is a one-on-one appointment with a professor, with written, oral, and reading comprehension components. The Placement Advisor for Dutch is Jolanda Vanderwal Taylor. Please contact Joanna Schuth to request placement.

For advising on careers related to languages, talk with Lydia Odegard (lodegard@wisc.edu) (lodegard@wisc.edu), Language Directions Specialist in the Language Institute.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

GERMAN, BS

The German program affords students the opportunity to begin or continue their study of German and/or Dutch.

GERMAN

Knowledge of German provides access to a culture that for more than a millennium has been central to the history, economy, arts, and sciences not just of Europe but of Western civilization as a whole. In the contemporary world, German-speaking countries have Europe's strongest economies and are playing an increasingly important role in world affairs. More Americans claim German ethnicity than any other, and German-speaking immigrants and their descendants have had an enduring impact on the history and culture of the United States. UW-Madison has been a leader in the field of German studies for more than a century. The university's libraries are remarkable for the depth and breadth of their German-language holdings.

DUTCH

Knowledge of Dutch provides access to a culture that has been an important force in world history since the Middle Ages. The language of more than 20 million inhabitants of the Netherlands and Flanders (Dutch-speaking Belgium), Dutch is also spoken in Suriname and the Netherlands Antilles. It is also an important second language in Indonesia. As major economic powers, Belgium and the Netherlands play a leading role in shaping the European Union. World-class research in the sciences and humanities is conducted at Dutch and Belgian universities, and both countries can boast of a cultural life in which art, music, and theater are all flourishing.

STUDY ABROAD

The German program works closely with International Academic Programs (<http://www.studyabroad.wisc.edu/>) to provide a range of opportunities for study in Germany and the Netherlands. The program also cooperates with the School of Business, which maintains study abroad programs in Germany and Austria open to all qualified undergraduates, not just business majors. Finally, the College of Engineering and the College of Agriculture and Life Sciences offer study abroad programs in Germany for qualified students in these colleges.

OTHER OPPORTUNITIES FOR GERMAN STUDENTS

UW-Madison students interested in international internships should visit the website of the International Internship Program (<http://internships.international.wisc.edu/>).

The German-language learning community, Stockwerk Deutsch (<https://www.housing.wisc.edu/undergraduate/communities/international/language-communities/>), is located in Kronshage Residence Hall, one of the Lakeshore residence halls. Undergraduate students live and speak German together with a resident native speaker of German.

Other regular student activities include film screenings and lectures as well as informal, conversation-oriented Kaffeestunde, Stammtisch, Dutch Table, and the German Club.

OFFERINGS IN DUTCH STUDIES

Course offerings in Dutch include five semesters of language instruction as well as courses in the literature and culture of the Low Countries. Courses in Dutch language satisfy the L&S Language requirement, while

courses in Dutch literature and culture carry literature and humanities credits, respectively. Dutch literature is also offered under Literature in Translation.

A major in Dutch studies is not yet established at UW-Madison, but interested students are encouraged to pursue an individual major in the field. In addition to the study of language, literature, and culture, this could entail coursework in art history, geography, history, sociology, and so on. Courses taken in the study abroad program in Utrecht (<https://studyabroad.wisc.edu/programsearch/>) can also be applied to an individual major in Dutch studies.

HOW TO GET IN

HOW TO GET IN DECLARING THE MAJOR

Students who have completed the prerequisite coursework may declare the German major at any time by consulting with the German program's undergraduate advisor.

Students declared in the German certificate may not be declared in the German major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

Prerequisites for the Major in German

A total of 9 credits of language coursework at the third-year (post-204, "2xx") level is required for the German major. Third-year German language courses (GERMAN 249, GERMAN 258, GERMAN 262, GERMAN 285) are not sequenced; they may be taken in any order and/or simultaneously.

Complete one of the following two groups of prerequisite courses:

Code	Title	Credits
Group 1:		
GERMAN 249 & GERMAN 258 & GERMAN 262	Intermediate German - Speaking and Listening and Intermediate German-Reading and Intermediate German-Writing	9
Group 2:		
GERMAN 249 & GERMAN 285	Intermediate German - Speaking and Listening and Intermediate Intensive (Honors) German: Language, Culture, Texts	9

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed.

For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
L&S Breadth	Complete: <ul style="list-style-type: none"> • 12 credits of Humanities, which must include at least 6 credits of Literature; and • 12 credits of Social Science; and • 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: <ul style="list-style-type: none"> • 30 credits in residence, overall, and • 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none"> • 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

27 credits in the major, as follows:

Code	Title	Credits
Required Courses		6
GERMAN 337	Advanced Composition & Conversation

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all GERMAN courses and all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence ²
- 15 credits in GERMAN, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the German undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all Advanced-level GERMAN courses
- Complete 29 total Advanced-level credits in German, 20 of which must be taken for Honors, to include:

Code	Title	Credits
GERMAN 337	Advanced Composition & Conversation (for honors credit)	3
GERMAN 676	Advanced Seminar in German Studies (for honors credit)	3
GERMAN 681 & GERMAN 682	Senior Honors Thesis-First Semester and Senior Honors Thesis-Second Semester	6

FOOTNOTES

- ¹ At least 3 of these credits must be taken on the UW-Madison campus (not through Study Abroad).
- ² GERMAN courses numbered 300-699 are upper-level in the major, except: GERMAN 311, GERMAN 312, GERMAN 313, GERMAN 314, GERMAN 325, GERMAN 377, GERMAN 378, GERMAN 379, GERMAN 391, GERMAN 392, GERMAN 401, GERMAN 402, GERMAN 403, GERMAN 404, and any Dutch topic course.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate communication skills in German and integrate these skills to effectively exchange and evaluate ideas in written and spoken German. Recognize, interpret, and apply structural, pragmatic, sociolinguistic, and stylistic features of written and spoken German

- and how they influence meaning, in order to share information and persuade, inform, or narrate for different audiences.
- Interpret and comprehend written, visual, and auditory texts in German representing a broad spectrum of genres, topics, time periods, and geographical regions. Recognize social, cultural, and linguistic diversity in spoken and written language. Identify key ideas, features, or themes of texts in a variety of genres and forms.
 - Recognize and explain products, practices, and perspectives of the German-speaking world and the cultural, historical, social, and political context in which they were created. Demonstrate awareness of similarities, differences, and diversity by contrasting culturally situated beliefs and behaviors of the German-speaking world with those found in their own culture. Develop breadth and depth of cross-cultural knowledge and competence.
 - Formulate ideas, plan, and conduct research on themes related to course topics and students' particular interests. Collect and select relevant and credible sources in German (critical thinking and research). Formulate argumentative claims and support those claims using appropriate examples. Evaluate the strengths and weaknesses of different ideas.
 - Apply principles of ethical and professional conduct in each course and at all levels of instruction, thereby upholding the core values of academic integrity (personal responsibility and accountability).
 - Engage with the German language and its users in and beyond the classroom, e.g. in their own community, virtual communities, or through immersion experiences at home or abroad in order to participate in local and global multilingual communities (engagement in the community).

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Students considering a major in German should consult with the undergraduate advisor for German early to discuss how to complete their degree in four academic years.

ADVISING AND CAREERS

ADVISING AND CAREERS

For advising questions related to the German major, contact Joanna Schuth (jschuth@wisc.edu).

Language placement tests are advised for any student with previous knowledge or experience with German or Dutch. The German test is proctored through the University Placement Test program (<https://exams.wisc.edu/placement/uw-madison-students.php>). The Placement Advisor for German is Jeanne Schueller.

The placement test for Dutch is a one-on-one appointment with a professor, with written, oral, and reading comprehension components. The Placement Advisor for Dutch is Jolanda Vanderwal Taylor. Please contact Joanna Schuth to request placement.

For advising on careers related to languages, talk with Lydia Odegard (lodegard@wisc.edu) (lodegard@wisc.edu), Language Directions Specialist in the Language Institute.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

GERMAN, CERTIFICATE

The Certificate in German, the first language certificate offered at UW-Madison, offers students the opportunity to develop proficiency in the language by requiring that all courses taken to fulfill it must be at the intermediate and advanced levels and taught in German. It complements major(s) in other subjects across the university and strengthens the applications of students who intend to pursue careers or graduate study in areas where knowledge of German is useful. The Certificate in German is open to all undergraduate students and University Special students who may already have earned degrees.

HOW TO GET IN

HOW TO GET IN

To declare the Certificate in German, email or make an appointment with the undergraduate advisor for the program.

Students declared in the German major are not eligible to declare the Certificate in German.

REQUIREMENTS

REQUIREMENTS

The certificate requires 15 total credits, 9 credits in Intermediate German and 6 credits in Advanced German courses.

INTERMEDIATE GERMAN

Complete one of the following sequences:

Code	Title	Credits
GERMAN 249 & GERMAN 258 & GERMAN 262	Intermediate German - Speaking and Listening and Intermediate German-Reading and Intermediate German-Writing	9
GERMAN 249 & GERMAN 285	Intermediate German - Speaking and Listening and Intermediate Intensive (Honors) German: Language, Culture, Texts	9

ADVANCED GERMAN

Complete at least two courses:

Code	Title	Credits
GERMAN 305	Literatur des 20. und 21. Jahrhunderts	3-4
GERMAN 337	Advanced Composition & Conversation	3-4
GERMAN 351	Introduction to German Linguistics	3-4
GERMAN 352	Topics in German Linguistics	3-4
GERMAN 362	Topics in German Literature	3-4
GERMAN 367	Study Abroad in German Literature	2-5
GERMAN 368	Study Abroad in German Culture	2-5
GERMAN 369	Study Abroad in German Linguistics	2-5
GERMAN 372	Topics in German Culture	3-4
GERMAN 385	Honors Seminar in German Literature	3
GERMAN 411	Kultur des 20. und 21. Jahrhunderts	3-4

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all courses eligible for the certificate
- At least 8 certificate credits must be completed in residence

Pass/fail courses do not apply to the certificate.

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. to promote German proficiency in all major skill areas: speaking, listening, reading, and writing.
2. to foster a deeper understanding of the cultures of the German-speaking world through courses taught in German.

ADVISING AND CAREERS

ADVISING AND CAREERS

For advising questions or to declare the German certificate, contact Joanna Schuth (jschuth@wisc.edu). (mllouden@wisc.edu)

Students declared in the German major are not eligible to declare the Certificate in German.

Language placement tests are advised for any student with previous knowledge or experience with German. The German test is proctored

through the University Placement Test program (<https://exams.wisc.edu/placement/uw-madison-students.php>).

Any questions regarding placement in German may be directed to the undergraduate placement advisor Jeanne M. Schueller (jmschueller@wisc.edu).

For advising on careers related to languages, talk with Lydia Odegard (lodegard@wisc.edu), Language Directions Specialist in the Language Institute.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)

LANGUAGES AND CULTURES OF NORTHERN EUROPE, CERTIFICATE

The Languages and Cultures of Northern Europe certificate offers an opportunity to study the many diverse linguistic, cultural, and religious communities that have become part of Northern Europe as a result of international migration and pan-European economic integration. Students earning the certificate have maximum flexibility of choice in the culture they wish to study in depth, or if they want to take a comparative approach over the region. The certificate maps intellectually a complex and fascinating region of contemporary Europe – one which is marked not only by longstanding national cultures but also by an increasingly diverse and mobile populace.

If students wish, students may include language study in Dutch, Swedish, Norwegian, Danish, Finnish, or Yiddish as part of their course choices.

HOW TO GET IN

HOW TO GET IN

Students should contact the undergraduate advisor by email or make an appointment to declare the certificate.

REQUIREMENTS

REQUIREMENTS

The certificate requires a minimum of five courses and 18 credits. The courses must be distributed as follows:

Code	Title	Credits
Colonialism, Diversity, Indigeneity, Migration¹		3
Complete at least one course and three credits:		
FOLKLORE/ SCAND ST 440	Scandinavian American Folklore	
SCAND ST 439	Nordic Filmmakers	
GERMAN/ JEWISH/ LITTRANS 269	Yiddish Literature and Culture in Europe

SCAND ST/ MEDIEVAL 430	The Vikings
SCAND ST 450	Scandinavian Decadence in its European Context

Total Credits **18**

¹ Courses in the Colonialism, Diversity, Indigeneity, and Migration list may each only count once for the certificate.

RESIDENCE AND QUALITY OF WORK

- At least 9 certificate credits must be completed in residence
- Minimum 2.000 GPA on all certificate courses.
- Courses taken pass/fail may not apply to the certificate.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Recognize and understand language, literary, and/or cultural phenomena as they pertain to Northern Europe and put them into context.
2. Recognize shifting geographic, cultural, ethnic/racial, and/or language factors in the Northern European region over time.
3. Demonstrate an understanding of major approaches, concepts and current research findings concerning the Northern European region.
4. Synthesize information, engage in discussion and research, and argue persuasively about key topics in the Northern European region.
5. Identify and distinguish between different types of sources used in the study of the Northern European region.
6. Integrate learned ideas and perspectives with broader social, cultural, and/or environmental contexts.

ADVISING AND CAREERS

ADVISING AND CAREERS

Students should contact the undergraduate advisor, Joanna Schuth (jschuth@wisc.edu), to declare the certificate.

Students who transfer to UW–Madison with previous language experience should contact the undergraduate advisor as early as possible to schedule a placement test.

Students should see the advisor during the semester before their last semester. Prospective students are urged to consult the undergraduate advisor about the program at the first possible opportunity.

For advising on careers related to languages, talk with Lydia Odegard (lodegard@wisc.edu), Language Directions Specialist in the Language Institute.

POLISH, BA

Polish is the most commonly spoken Slavic language of the European Union and the second largest Slavic language in the world, with over 50 million users across the globe. Poland has a unique and vibrant culture shaped by a millennium of artistic and intellectual innovation and struggles for political, social, and cultural independence. The country survived two world wars and half a century of communist rule to emerge as a regional leader in East-Central Europe, the fastest-growing economy in the European Union, and home to one of the most dynamic cultural scenes in the world. It is also a key NATO and U.S. ally in Europe. Polish diaspora is among the world’s largest, with major concentrations in the United States, Canada, the United Kingdom, Germany, and France.

The Polish major offers courses in the Polish language, literature, culture, politics, and one of the most intricate, fascinating histories in Europe, providing the knowledge and skills for successful careers in business,

politics, diplomacy, arts, translation, international law, environmental science, journalism, national security, tourism, and cultural services.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

- | | |
|-------------------|---|
| General Education | <ul style="list-style-type: none">• Breadth–Humanities/Literature/Arts: 6 credits• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits• Breadth–Social Studies: 3 credits• Communication Part A & Part B *• Ethnic Studies *• Quantitative Reasoning Part A & Part B * |
|-------------------|---|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

Language

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

L&S Breadth

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced work Complete at least 60 credits at the intermediate or advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW-Madison Experience

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

Quality of Work

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

The Polish major requires study of the Polish language, Polish literature in translation, Polish literature in the original language, as well as culture and area studies, as detailed below:

Code	Title	Credits
Polish Language (complete two courses):		6
SLAVIC 277	Third Year Polish I	
SLAVIC 278	Third Year Polish II	
Polish Literature and Culture (complete both):		
SLAVIC/ LITTRANS 215	Love and Death: Introduction to Polish Literature & Culture	3
SLAVIC/ LITTRANS 361	Living at the End of Times: Contemporary Polish Literature and Culture	3
Additional Course in Polish Language or Literature/Culture (complete one):		3
SLAVIC 331	Fourth Year Polish I	
SLAVIC 332	Fourth Year Polish II	
SLAVIC 231	History and Ethics on Film: Polish Cinema ¹	
SLAVIC/ LITTRANS 259	Adventure in Literature and Film	
Polish Literature and Culture Area Studies from:		6
SLAVIC 231	History and Ethics on Film: Polish Cinema ¹	
SLAVIC 242	Literatures and Cultures of Eastern Europe	
SLAVIC 246	Escaping Utopia: Cultures after Communism	
SLAVIC 245	Topics in Slavic Literatures	
SLAVIC/GEOG/ HISTORY/ POLI SCI 254	Eastern Europe: An Interdisciplinary Survey	
SLAVIC 285	Slavic Culture in Context: An Honors Course	
SLAVIC 299	Directed Study	
SLAVIC 307	Study Abroad in Poland	
SLAVIC 308	Polish Culture and Area Studies on Study Abroad	
SLAVIC/ LITTRANS 357	Intermediate Special Topics in Slavic Languages and Literatures	
SLAVIC/ FOLKLORE 444	Slavic and East European Folklore	
SLAVIC/ LITTRANS 467	Advanced Special Topics in Slavic Languages and Literatures	
SLAVIC 470	History of Polish Literature until 1863	
SLAVIC 472	History of Polish Literature after 1863	
HISTORY 270	Eastern Europe since 1900	
LITTRANS 207	Slavic Science Fiction through Literature and Film	
LITTRANS 218	Polish Literature in Translation: Late 19th and 20th Centuries	
LITTRANS 229	Representation of the Jew in Eastern European Cultures	
LITTRANS 241	Literatures and Cultures of Eastern Europe	
LITTRANS 247	Topics in Slavic Literatures in Translation	

LITTRANS/ SLAVIC 357	Intermediate Special Topics in Slavic Languages and Literatures	
LITTRANS/ SLAVIC 467	Advanced Special Topics in Slavic Languages and Literatures

POLI SCI 340	The European Union: Politics and Political Economy	
POLI SCI 659	Politics and Society: Contemporary Eastern Europe	
Total Credits		21

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence
- 15 credits in the major taken on the UW–Madison campus

Upper-Level Courses in the Major:

Code	Title	Credits
SLAVIC 277	Third Year Polish I	3
SLAVIC 278	Third Year Polish II	3
SLAVIC 307	Study Abroad in Poland	1–4
SLAVIC 308	Polish Culture and Area Studies on Study Abroad	1–4
SLAVIC 331	Fourth Year Polish I	3
SLAVIC 332	Fourth Year Polish II	3
SLAVIC/ LITTRANS 357	Intermediate Special Topics in Slavic Languages and Literatures	3
SLAVIC/ LITTRANS 361	Living at the End of Times: Contemporary Polish Literature and Culture	3
SLAVIC/ FOLKLORE 444	Slavic and East European Folklore	3
SLAVIC/ LITTRANS 467	Advanced Special Topics in Slavic Languages and Literatures	3
POLI SCI 340	The European Union: Politics and Political Economy	3–4
POLI SCI 659	Politics and Society: Contemporary Eastern Europe	3–4

HONORS IN THE MAJOR

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all SLAVIC courses and all courses counting in the major
- Complete a two-semester Senior Honors Thesis in SLAVIC 681 and SLAVIC 682, for a total of 6 credits
- 9 credits from the following list:

Code	Title	Credits
SLAVIC 277	Third Year Polish I	3
SLAVIC 278	Third Year Polish II	3

SLAVIC 331	Fourth Year Polish I	3
SLAVIC 332	Fourth Year Polish II	3
SLAVIC/ LITTRANS 361	Living at the End of Times: Contemporary Polish Literature and Culture	3
SLAVIC/ LITTRANS 357	Intermediate Special Topics in Slavic Languages and Literatures	3
SLAVIC/ LITTRANS 467	Advanced Special Topics in Slavic Languages and Literatures	3

FOOTNOTES

- ¹ SLAVIC 231 may only count within one requirement for the major.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Polish language proficiency) Develop speaking, listening, writing, and reading skills and integrate these skills to communicate in Polish in a variety of social situations.
2. Develop and apply writing skills and oral communication skills appropriate to liberal arts education in the context of Slavic studies.
3. Develop and apply critical thinking skills inherent in the liberal arts tradition in the context of Slavic studies.
4. Analyze and interpret works of literature in themselves and in the context of specific historical and cultural conditions.
5. Demonstrate insight into Polish culture and civilization and apply this knowledge across disciplines such as history, political science, the arts, geography, business, economics, sociology, the sciences, gender studies, philosophy, law, folklore.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the German, Nordic, and Slavic+ website (https://gns.wisc.edu/undergraduate_majors/).

Any student with previous experience with the Polish language is required to take a placement test. These tests may admit a student to a more advanced course, but give no credit toward graduation. However, retroactive credits can be granted in recognition of previous language study. L&S Retro Credit Policy (<https://kb.wisc.edu/lis/page.php?id=23736>). The Placement Advisor for Polish is Krzysztof Borowski. Please contact the undergraduate advisor to request placement.

For other undergraduate concerns, please contact our undergraduate coordinator Joanna Schuth (jschuth@wisc.edu).

For advising on careers related to languages, talk with Lydia Odegard (lodegard@wisc.edu), Language Directions Specialist in the Language Institute.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

POLISH, BS

Polish is the most commonly spoken Slavic language of the European Union and the second largest Slavic language in the world, with over 50 million users across the globe. Poland has a unique and vibrant culture shaped by a millennium of artistic and intellectual innovation and struggles for political, social, and cultural independence. The country survived two world wars and half a century of communist rule to emerge as a regional leader in East-Central Europe, the fastest-growing economy in the European Union, and home to one of the most dynamic cultural scenes in the world. It is also a key NATO and U.S. ally in Europe. Polish diaspora is among the world's largest, with major concentrations in the United States, Canada, the United Kingdom, Germany, and France.

The Polish major offers courses in the Polish language, literature, culture, politics, and one of the most intricate, fascinating histories in Europe, providing the knowledge and skills for successful careers in business, politics, diplomacy, arts, translation, international law, environmental science, journalism, national security, tourism, and cultural services.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	<ul style="list-style-type: none">• Breadth—Humanities/Literature/Arts: 6 credits• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits• Breadth—Social Studies: 3 credits• Communication Part A & Part B *• Ethnic Studies *• Quantitative Reasoning Part A & Part B *
-------------------	---

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
L&S Breadth	Complete: <ul style="list-style-type: none">• 12 credits of Humanities, which must include at least 6 credits of Literature; and• 12 credits of Social Science; and• 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: <ul style="list-style-type: none">• 30 credits in residence, overall, and• 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none">• 2.000 in all coursework at UW-Madison• 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

The Polish major requires study of the Polish language, Polish literature in translation, Polish literature in the original language, as well as culture and area studies, as detailed below:

Code	Title	Credits
Polish Language (complete two courses):		6
SLAVIC 277	Third Year Polish I	
SLAVIC 278	Third Year Polish II	

Polish Literature and Culture (complete both):

SLAVIC/ LITTRANS 215	Love and Death: Introduction to Polish Literature & Culture	3
SLAVIC/ LITTRANS 361	Living at the End of Times: Contemporary Polish Literature and Culture	3

Additional Course in Polish Language or Literature/ Culture (complete one):

SLAVIC 331	Fourth Year Polish I	
SLAVIC 332	Fourth Year Polish II	
SLAVIC 231	History and Ethics on Film: Polish Cinema ¹	
SLAVIC/ LITTRANS 259	Adventure in Literature and Film	

Polish Literature and Culture Area Studies from:

SLAVIC 231	History and Ethics on Film: Polish Cinema ¹	6
SLAVIC 242	Literatures and Cultures of Eastern Europe	
SLAVIC 246	Escaping Utopia: Cultures after Communism	
SLAVIC 245	Topics in Slavic Literatures	
SLAVIC/GEOG/ HISTORY/ POLI SCI 254	Eastern Europe: An Interdisciplinary Survey	
SLAVIC 285	Slavic Culture in Context: An Honors Course	
SLAVIC 299	Directed Study	
SLAVIC 307	Study Abroad in Poland	
SLAVIC 308	Polish Culture and Area Studies on Study Abroad	
SLAVIC/ LITTRANS 357	Intermediate Special Topics in Slavic Languages and Literatures	
SLAVIC/ FOLKLORE 444	Slavic and East European Folklore	
SLAVIC/ LITTRANS 467	Advanced Special Topics in Slavic Languages and Literatures

LITTRANS/ SLAVIC 357	Intermediate Special Topics in Slavic Languages and Literatures	
LITTRANS/ SLAVIC 467	Advanced Special Topics in Slavic Languages and Literatures	

LITTRANS 473 Polish Literature (in Translation) since 1863

POLI SCI 340 The European Union: Politics and Political Economy

POLI SCI 659 Politics and Society: Contemporary Eastern Europe

Total Credits**21**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence
- 15 credits in the major taken on the UW-Madison campus

Upper-Level Courses in the Major:

Code	Title	Credits
SLAVIC 277	Third Year Polish I	3
SLAVIC 278	Third Year Polish II	3
SLAVIC 307	Study Abroad in Poland	1-4
SLAVIC 308	Polish Culture and Area Studies on Study Abroad	1-4
SLAVIC 331	Fourth Year Polish I	3
SLAVIC 332	Fourth Year Polish II	3
SLAVIC/ LITTRANS 357	Intermediate Special Topics in Slavic Languages and Literatures	3
SLAVIC/ LITTRANS 361	Living at the End of Times: Contemporary Polish Literature and Culture	3
SLAVIC/ FOLKLORE 444	Slavic and East European Folklore	3
SLAVIC/ LITTRANS 467	Advanced Special Topics in Slavic Languages and Literatures	3
POLI SCI 340	The European Union: Politics and Political Economy	3-4
POLI SCI 659	Politics and Society: Contemporary Eastern Europe	3-4

HONORS IN THE MAJOR

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all SLAVIC courses and all courses counting in the major
- Complete a two-semester Senior Honors Thesis in SLAVIC 681 and SLAVIC 682, for a total of 6 credits
- 9 credits from the following list:

Code	Title	Credits
SLAVIC 277	Third Year Polish I	3
SLAVIC 278	Third Year Polish II	3
SLAVIC 331	Fourth Year Polish I	3
SLAVIC 332	Fourth Year Polish II	3

SLAVIC/ LITTRANS 361	Living at the End of Times: Contemporary Polish Literature and Culture	3
SLAVIC/ LITTRANS 357	Intermediate Special Topics in Slavic Languages and Literatures	3
SLAVIC/ LITTRANS 467	Advanced Special Topics in Slavic Languages and Literatures	3

FOOTNOTES

¹ SLAVIC 231 may only count within one requirement for the major.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

- 1. (Polish language proficiency) Develop speaking, listening, writing, and reading skills and integrate these skills to communicate in Polish in a variety of social situations.
- 2. Develop and apply writing skills and oral communication skills appropriate to liberal arts education in the context of Slavic studies.
- 3. Develop and apply critical thinking skills inherent in the liberal arts tradition in the context of Slavic studies.
- 4. Analyze and interpret works of literature in themselves and in the context of specific historical and cultural conditions.
- 5. Demonstrate insight into Polish culture and civilization and apply this knowledge across disciplines such as history, political science, the arts, geography, business, economics, sociology, the sciences, gender studies, philosophy, law, folklore.

RUSSIAN, BA

Russian is designated a critical language by the United States government. Russian is the seventh-most spoken language in the world and is among the six official languages of the United Nations. Russian speakers live not only in Russia, but in Central Asia, the Caucasus, Eastern Europe, including the Baltic states, and in Russian-speaking diasporas in the United States and throughout the world. Because Russian is so widely spoken in many countries throughout the world, it is an in-demand critical language for careers including government service, non-governmental organizations, science and scholarship, and some business sectors.

Students in the Russian major not only learn the Russian language but read Russian literature in both Russian and English and become familiar with Russian film and visual arts, theater and performing arts, and music.

The Russian major is designed to meet the needs of students who begin to study the language in college as well as those who began to study the language in high school or who grew up speaking or hearing Russian at home.

Russian majors are able to speak Russian in everyday and some work situations, read and listen to Russian-language news and media, and write for daily, academic, and some professional purposes. In addition, Russian majors gain an appreciation and a deeper understanding of the variety of places and cultures in which Russian is spoken, and of politics and foreign policy, history, and world-renowned literary and artistic traditions.

ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the German, Nordic, and Slavic+ website (https://gns.wisc.edu/undergraduate_majors/).

Any student with previous experience with the Polish language is required to take a placement test. These tests may admit a student to a more advanced course, but give no credit toward graduation. However, retroactive credits can be granted in recognition of previous language study (L&S Retro Credit Policy (<https://kb.wisc.edu/lis/page.php?id=23736>)). The Placement Advisor for Russian is Anna Tumarkin. Please contact the undergraduate advisor to request placement.

Students might also want to consider the Russian Flagship Program, a federally funded intensive language-learning program open to students of all majors. The Flagship Program is a separate application and students can complete it in addition to the Russian major or may complete it alongside another major entirely.

For other undergraduate concerns, please contact our undergraduate coordinator Joanna Schuth (jschuth@wisc.edu) (undergrad@gns.wisc.edu).

For advising on careers related to languages, talk with Lydia Odegard (lodegard@wisc.edu), Language Directions Specialist in the Language Institute.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

RUSSIAN, BS

Russian is designated a critical language by the United States government. Russian is the seventh-most spoken language in the world and is among the six official languages of the United Nations. Russian speakers live not only in Russia, but in Central Asia, the Caucasus, Eastern Europe, including the Baltic states, and in Russian-speaking diasporas in the United States and throughout the world. Because Russian is so widely spoken in many

countries throughout the world, it is an in-demand critical language for careers including government service, non-governmental organizations, science and scholarship, and some business sectors.

Students in the Russian major not only learn the Russian language but read Russian literature in both Russian and English and become familiar with Russian film and visual arts, theater and performing arts, and music.

The Russian major is designed to meet the needs of students who begin to study the language in college as well as those who began to study the language in high school or who grew up speaking or hearing Russian at home.

Russian majors are able to speak Russian in everyday and some work situations, read and listen to Russian-language news and media, and write for daily, academic, and some professional purposes. In addition, Russian majors gain an appreciation and a deeper understanding of the variety of places and cultures in which Russian is spoken, and of politics and foreign policy, history, and world-renowned literary and artistic traditions.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
L&S Breadth	Complete: <ul style="list-style-type: none"> • 12 credits of Humanities, which must include at least 6 credits of Literature; and • 12 credits of Social Science; and • 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: <ul style="list-style-type: none"> • 30 credits in residence, overall, and • 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none"> • 2.000 in all coursework at UW-Madison • 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

LITTRANS/ GEN&WS 205	Women in Russian Literature in Translation
LITTRANS 220	Chekhov: The Drama of Modern Life
LITTRANS 221	Russia's Greatest Enigma: Nikolai Gogol
LITTRANS 222	Dostoevsky in Translation
LITTRANS/ ENGL 223	Vladimir Nabokov: Russian and American Writings
LITTRANS 224	Tolstoy in Translation

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Russian advisor.

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in all courses in the major
- Complete 18 credits in the major taken for Honors, taken on campus, with grades of B or better in the following:
 - SLAVIC 275, SLAVIC 276, SLAVIC 315, SLAVIC 316, SLAVIC 321 and SLAVIC 465 or SLAVIC 560
- Complete a Senior Thesis in SLAVIC 681 and SLAVIC 682 for at least 6 credits

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Russian language proficiency) Develop speaking, listening, writing, and reading skills and integrate these skills to communicate in Russian in a variety of social situations.
2. Develop and apply writing skills and oral communication skills appropriate to liberal arts education in the context of Slavic studies.
3. Develop and apply critical thinking skills inherent in the liberal arts tradition in the context of Slavic studies.
4. Analyze and interpret works of literature in themselves and in the context of specific historical and cultural conditions.
5. Demonstrate insight into Russian culture and civilization and apply this knowledge across disciplines such as history, political science, the arts, geography, business, economics, sociology, the sciences, gender studies, philosophy, law, folklore.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

SCANDINAVIAN STUDIES, BA

The Scandinavian Studies major provides the opportunity to learn the literature, folklore, history, and culture of the Nordic countries in the original languages and in English translation. Partly in cooperation with other departments, we offer courses in Scandinavian language, history, culture, social institutions, gender and women’s studies, arts, myths, and folklore.

Students also may continue graduate studies toward an MA in Scandinavian philology, literature, or area studies, and toward a PhD in Scandinavian literature, philology, or folklore.

The program strongly encourages a junior year abroad in a Nordic country (<https://studyabroad.wisc.edu/academics/major-advising-pages-maps/scandinavian-studies/>); several exchange programs in Sweden, Norway, Denmark, and elsewhere are available.

Students may apply to Norden House (<https://www.housing.wisc.edu/undergraduate/communities/international/language-communities/>), a residential language learning community for UW–Madison students studying Norwegian, Danish, or Swedish, housed in Kronshage Residence Hall.

Scholars who major in the field are equipped for careers in the countries that are the world leaders in gender equity, societal welfare, and 21st-century business practices, as well as a range of careers including education, law, international trade, translation, civil service, nonprofits, the arts, linguistics, literature, environmental sciences, conservation, diplomacy, and more.

Total Credits**21**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all SCAND ST and all major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major¹
- 15 credits in SCAND ST, taken on campus

¹ SCAND ST/LITTRANS 320 to SCAND ST 699 are considered upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Scandinavian Studies advisor(s).

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all SCAND ST and all major courses
- Complete at least 8 Honors credits from courses numbered SCAND ST 373 and higher
- Complete either SCAND ST 634 or SCAND ST 635 with a grade of B or better
- Complete a two-semester Senior Honors Thesis in SCAND ST 681 and SCAND ST 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Develop speaking, listening, writing, and reading skills and integrate these skills to communicate in the target language (Danish, Norwegian, Swedish) including familiarity with the other two in a variety of social situations.
2. Recognize shifting geographic, cultural, ethnic/racial, and/or language factors in the Nordic region over time.
3. Demonstrate an understanding of major scholarly approaches, concepts and current research findings concerning the Nordic region.
4. Synthesize information, engage in discussion and research, and argue persuasively about key topics in the Nordic region.
5. Identify and analyze literary texts, films, and other cultural products, using both primary and secondary sources, used in the study of the Nordic region.
6. Integrate learned ideas and perspectives with broader social, cultural, and/or environmental contexts.

ADVISING AND CAREERS

ADVISING AND CAREERS
DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the German, Nordic, and Slavic+ website (https://gns.wisc.edu/undergraduate_majors/).

For advising and placement or declare the major, please contact our undergraduate advisor Joanna Schuth (jschuth@wisc.edu).

Students who transfer to UW–Madison after a year abroad should contact the undergraduate advisor as early as possible to schedule a placement test.

Majors should see the advisor during the semester before their last semester. Prospective majors are urged to consult the undergraduate advisor about their program at the first possible opportunity.

For advising on careers related to languages, talk with Lydia Odegard (lodegard@wisc.edu), Language Directions Specialist in the Language Institute.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

SCANDINAVIAN STUDIES, BS

The Scandinavian Studies major provides the opportunity to learn the literature, folklore, history, and culture of the Nordic countries in the original languages and in English translation. Partly in cooperation with

other departments, we offer courses in Scandinavian language, history, culture, social institutions, gender and women’s studies, arts, myths, and folklore.

Students also may continue graduate studies toward an MA in Scandinavian philology, literature, or area studies, and toward a PhD in Scandinavian literature, philology, or folklore.

The program strongly encourages a junior year abroad in a Nordic country (<https://studyabroad.wisc.edu/academics/major-advising-pages-maps/scandinavian-studies/>); several exchange programs in Sweden, Norway, Denmark, and elsewhere are available.

Students may apply to Norden House (<https://www.housing.wisc.edu/undergraduate/communities/international/language-communities/>), a residential language learning community for UW–Madison students studying Norwegian, Danish, or Swedish, housed in Kronshage Residence Hall.

Scholars who major in the field are equipped for careers in the countries that are the world leaders in gender equity, societal welfare, and 21st-century business practices, as well as a range of careers including education, law, international trade, translation, civil service, nonprofits, the arts, linguistics, literature, environmental sciences, conservation, diplomacy, and more.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students declared in the Scandinavian Studies certificate may not be declared in the Scandinavian Studies major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

REQUIREMENTS

UNIVERSITY GENERAL
EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world.

Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
L&S Breadth	Complete: <ul style="list-style-type: none"> • 12 credits of Humanities, which must include at least 6 credits of Literature; and • 12 credits of Social Science; and • 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW–Madison Experience	Complete both: <ul style="list-style-type: none"> • 30 credits in residence, overall, and • 30 credits in residence after the 86th credit.

Quality of Work	• 2.000 in all coursework at UW–Madison
	• 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
Language (complete one):		3-4
SCAND ST 251	Readings in Norwegian Literature	
SCAND ST 261	Readings in Swedish Literature

LITTRANS 274	In Translation: Masterpieces of Scandinavian Literature-the 20th Century
LITTRANS 275	In Translation: The Tales of Hans Christian Andersen

Total Credits**21**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all SCAND ST and all major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major¹
- 15 credits in SCAND ST, taken on campus

¹ SCAND ST/LITTRANS 320 to SCAND ST 699 are considered upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Scandinavian Studies advisor(s).

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all SCAND ST and all major courses
- Complete at least 8 Honors credits from courses numbered SCAND ST 373 and higher
- Complete either SCAND ST 634 or SCAND ST 635 with a grade of B or better
- Complete a two-semester Senior Honors Thesis in SCAND ST 681 and SCAND ST 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Develop speaking, listening, writing, and reading skills and integrate these skills to communicate in the target language (Danish, Norwegian, Swedish) including familiarity with the other two in a variety of social situations.
2. Recognize shifting geographic, cultural, ethnic/racial, and/or language factors in the Nordic region over time.
3. Demonstrate an understanding of major scholarly approaches, concepts and current research findings concerning the Nordic region.
4. Synthesize information, engage in discussion and research, and argue persuasively about key topics in the Nordic region.
5. Identify and analyze literary texts, films, and other cultural products, using both primary and secondary sources, used in the study of the Nordic region.
6. Integrate learned ideas and perspectives with broader social, cultural, and/or environmental contexts.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

RESIDENCE AND QUALITY OF WORK

- At least a 2.000 GPA is required among all courses eligible for the certificate.
- At least 9 credits must be taken in residence. A UW-Madison-sponsored study abroad program applies as in-residence credit.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate understanding in a global context in a field of study covering literature, history, area studies, folklore, or philology classes.
2. Select and utilize the most appropriate methods of study and inquiry within the content of the classes taken.
3. Evaluate and respond to information pertaining to the classes taken, showing clear analytical and critical thinking skills.
4. Communicate clearly in appropriate ways in the classes taken.
5. Recognize and apply principles of ethical and professional conduct.

SLAVIC STUDIES, CERTIFICATE

In the Slavic Studies Certificate, students have the opportunity to pair a strong language study of Russian or Polish with a contextual, integrative regional view to complement their studies in political science, international studies, business, history, or many other areas. Students gain a critically informed appreciation and understanding of the complex, interwoven nature of the region’s historical trajectories, politics, literature, and culture, with the flexibility to choose to focus on the area or culture of their special interest or take a comparative approach to the region as a whole.

HOW TO GET IN

HOW TO GET IN

Students may declare the certificate by contacting the academic advisor.

Students declared in the Russian or Polish majors are not eligible to declare the Slavic Studies certificate. Students declared in the Certificate in Russian, East European and Central Asian Studies at the Undergraduate Level are not eligible to declare the Slavic Studies certificate.

REQUIREMENTS

REQUIREMENTS

The Slavic Studies Certificate consists of 19 credits from the following requirements:

Code	Title	Credits
Languages:		
Complete one sequence:		6
SLAVIC 203 & SLAVIC 204	Third Semester Russian and Fourth Semester Russian	

SLAVIC 117 & SLAVIC 118	Intensive Second Year Russian and Intensive Second Year Russian	
SLAVIC 207 & SLAVIC 208	Third Semester Polish and Fourth Semester Polish	
SLAVIC 275 & SLAVIC 276	Third Year Russian I and Third Year Russian II	
SLAVIC 277 & SLAVIC 278	Third Year Polish I and Third Year Polish II	
SLAVIC 331 & SLAVIC 332	Fourth Year Polish I and Fourth Year Polish II	
SLAVIC 321 & SLAVIC 322	Fourth Year Russian I and Fourth Year Russian II	
SLAVIC 321 & SLAVIC 465	Fourth Year Russian I and Advanced Readings in Russian Literature & Culture	
Survey Courses - complete one:		4
SLAVIC/GEOG/ HISTORY/ POLI SCI 253	Russia: An Interdisciplinary Survey

LITTRANS 473	Polish Literature (in Translation) since 1863

Total Credits**19**

RESIDENCE AND QUALITY OF WORK

- At least 10 certificate credits must be completed in residence.
- Minimum 2.000 GPA on all certificate courses.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Acquire intermediate proficiency in a Slavic language (Polish or Russian).
2. Analyze and interpret cultural products of the region (i.e., works of literature, film, etc.) in themselves and in the context of specific historical and cultural conditions.
3. Develop and apply writing skills and oral communication skills appropriate to Liberal Arts education in the context of Slavic Studies to the literatures and cultures of the region.
4. Develop and apply critical-thinking skills inherent in the Liberal Arts tradition to the literature and culture of the region.
5. Demonstrate an understanding of major approaches, concepts, and current research findings concerning the Slavic region.

ADVISING AND CAREERS

ADVISING AND CAREERS

For advising and placement, or to declare the certificate, please contact our undergraduate advisor Joanna Schuth (jschuth@wisc.edu).

Students who transfer to UW-Madison with previous language experience should contact the undergraduate advisor as early as possible to schedule a placement test.

Students should see the advisor during the semester before their last semester. Prospective students are urged to consult the undergraduate advisor about the program at the first possible opportunity.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

DEGREES/MAJORS/CERTIFICATES

- History, BA (p. 822)
- History, BS (p. 834)
- History, Certificate (p. 846)
- Medieval Studies, Certificate (p. 849)

HISTORY, BA

Why study history? (<https://history.wisc.edu/undergraduate-program/history-careers/why-history/>) History is so much more than memorizing names and dates. Are you interested in technology? Religion? The environment? Human rights? If you have a question, history can help you find an answer.

The History major is a great option for people who are interested in studying *change*. History asks, “How did the world get to be this way?” and “What factors might influence where the world is heading now?” Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped—and continues to shape—global, national, and local relationships between societies and people. The skills that history students develop are used in a wide range of careers and prepare students for graduate or professional study in fields such as law, business, medicine, public policy, and much more.

The History major can also be combined with any other major in the College of Letters & Science, anything from Astronomy (p. 489) to

Zoology (p. 1040). Majors that students most frequently pair with History are Economics (p. 667), English (<http://guide.wisc.edu/undergraduate/letters-science/english/>), Environmental Studies (p. 701), Journalism (p. 1310), and Political Science (p. 1250). History students can also choose to add certificates in Letters & Science or other colleges, such as certificates in Business (p. 1411) or Education and Educational Services (p. 1653). In addition to these, some of the most common certificates for History students are currently Criminal Justice (p. 548), Global Health (<https://guide.wisc.edu/undergraduate/agricultural-life-sciences/nutritional-sciences/global-health-certificate/>), European Studies (<https://guide.wisc.edu/undergraduate/letters-science/institute-regional-international-studies/european-certificate/>), and Digital Studies (p. 644). The History advising team is happy to discuss ways for you to make your intellectual and career goals work as part of a four-year plan (<https://guide.wisc.edu/undergraduate/letters-science/history/history-ba/#fouryearplantext>).

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

Language

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

L&S Breadth

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced work Complete at least 60 credits at the intermediate or advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW-Madison Experience

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

Quality of Work

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students may use courses from History and History of Science to meet the requirements of the History major.¹ A minimum of 30 credits in the major is required, including:

CHRONOLOGICAL BREADTH:

History majors must complete at least one course that deals with the history of Europe and/or the Mediterranean before C.E. 1500 or with the history of Africa or Asia before these areas fell heavily under European influence.

Chronological Breadth Courses

NOTES ON HISTORY BREADTH REQUIREMENTS

- Breadth courses may be taken in any order.
- Chronological Breadth courses may also count toward a Geographic Breadth category.
- Some courses qualify for more than one Geographic Breadth area, but a course may only count for one Geographic Breadth category for the purposes of meeting the requirement.
- Topics courses (HISTORY 200, HISTORY 201, HISTORY 221, HISTORY 223, HISTORY 225, HIST SCI 280, HISTORY 283, HIST SCI 286, HIST SCI 350 & HISTORY 500) may count for Geographic and/or Chronological Breadth. For topics courses, see the course notes for current breadth information.
- The following courses **may not be used** for breadth in the major: HISTORY 199, HIST SCI 555, HISTORY 600, HISTORY 680, HISTORY 681, HIST SCI 699.

HISTORY WRITING AND RESEARCH SEQUENCE:

History majors must complete both of the following:

- Students are encouraged to complete one of HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology as early as possible.
- HISTORY 600 Advanced Seminar in History or HIST SCI 555 Undergraduate Seminar in History of Science, to be taken after satisfactory completion of either HISTORY 201 or HIST SCI 211. Enrolling in a HISTORY 600 or HIST SCI 555 seminar requires instructor consent. Available seminars can be found on the history department website (<https://history.wisc.edu/history600-seminars/>).

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in HISTORY/HISTORY of SCIENCE and all other major courses
- 2.000 GPA on 15 upper-level major credits in residence²
- 15 credits HISTORY and/or HISTORY of SCIENCE taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the History Major in consultation with the History undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in History, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall University GPA
- Earn a 3.500 GPA in all HISTORY and HISTORY of SCIENCE courses and all other major courses
- Complete at least 36 total credits in HISTORY and HISTORY of SCIENCE coursework, 21 of which must be upper-level credits in residence²
- Complete at least 15 Honors credits in HISTORY or HISTORY of SCIENCE coursework
- Complete a two-semester Senior Honors Thesis, a piece of original work of approximately forty pages, in either HISTORY 681–HISTORY 682 or HIST SCI 681–HIST SCI 682, taken in conjunction with the HISTORY 680 Honors Thesis Colloquium both semesters. The thesis must be approved by instructors in both the thesis and colloquium courses.

FOOTNOTES

¹ ILS 201 and ILS 202 may also be used to complete the requirements of the History major, including the requirements for Honors in the Major.

² Major courses with Intermediate or Advanced Level are counted as upper-level in the History major.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Find and interpret diverse evidence to explain complex changes over time
2. Communicate effectively to a variety of audiences in writing and speech
3. Use an understanding of many perspectives to work with people and solve complex problems
4. Seek to understand differing views and ways of being in the world
5. Identify the skills developed in the study of history and articulate their applicability to a variety of professional and intellectual endeavors

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits Spring	Credits
History Breadth ¹	4 History course for the Ethnic Studies Requirement (complete within 1st 60 credits) ²	4
Communication Part A (Complete during your first year)	3 Biological Science Breadth ³	3
Quantitative Reasoning Part A (complete during your first year)	3 Literature Breadth	3
Foreign Language (if necessary)	4 Elective or Course for Second Major ⁴	4
	14	14

Second Year

Fall	Credits Spring	Credits
HISTORY 201 (counts toward Communication Part B) ⁵	4 History Breadth	4
HIST SCI 211 (may be taken instead of History 201)	History Elective	3
Quantitative Reasoning Part B (I/A Comp Sci, Math, or Stats if required for the BS)	3 Physical Science Breadth	3

History Elective or Course for Second Major	3 Elective or Course for Second Major	3
Elective or Course for Second Major	3 Elective or Course for Second Major	3
Elective or Course for Second Major	3	

16 16

Third Year

Fall	Credits Spring	Credits
Declare the Major (before 86 credits) *	History Breadth	4
History Breadth	3 HISTORY 301 (optional)	1

HISTORY 600 ⁷	3 Science Breadth	3
HIST SCI 555 (may be taken instead of History 600)	Elective or Course for Second Major	3
Elective or Course for Second Major	4 Elective or Course for Second Major	3
Elective or Course for Second Major	4 Elective or Course for Second Major	3
Elective or Course for Second Major	4	

15 16

Total Credits 120

¹ The History Breadth requirements are very flexible. History majors must complete Chronological Breadth (one course) and take at least one course from four of the eight Geographical Breadth categories. A single course may count toward both Chronological and Geographic Breadth, if appropriate. (For example, a course on Ancient Rome would count toward Chronological Breadth and European History.) HISTORY 201 may also count toward History Breadth requirements.

² Some examples of History courses that count toward the Ethnic Studies Requirement are: HISTORY/CHICLA 152 The United States West Since 1850, HISTORY/ASIAN AM 160 Asian American History: Movement and Dislocation, & HISTORY/JEWISH 213 Jews and American Pop. Culture.

³ Some L&S Breadth requirements will be satisfied with History coursework. History classes will complete the additional Humanities Breadth credits (the Humanities credits that are not Literature) and may also complete Social Science Breadth.

⁴ History is a flexible major and can be combined with a wide range of other majors and certificates. We encourage students to be thoughtful

in how they approach their elective credits, whether that means pursuing an additional major or creating an individual plan of study that draws from multiple disciplines.

⁵ HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology may be taken as soon as you have completed the Communication A requirement. Students should try to complete the Historian's Craft by the end of the second year.

⁶ History offers two optional careers courses that expose students to, and prepare them for, the wide range of careers pursued by history majors: HISTORY 300 & HISTORY 301. History at Work: Professional Skills of the Major (HISTORY 300) connects students to History alumni in different fields and helps develop essential career skills related to the value of the major. History at Work: History Internship Seminar (HISTORY 301) allows students to receive credit toward their major requirements for work associated with an internship.

⁷ HISTORY 600 or HIST SCI 555 may be taken at any point after a student has completed either HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology. History 600s and History of Science 555 are offered on a variety of topics every semester and they provide students with the rich experience of a small, faculty-led seminar. They may be taken for credit more than once as long as the topics are different.

* Students must declare a major by the time they reach 86 credits.

**Please refer to the Requirements tab in Guide for College of Letters & Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

THREE-YEAR PLAN

THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

DEPARTMENTAL EXPECTATIONS

Students planning to graduate within three years with a History major should enter the University with a minimum of 18 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- Communication Part A
- Quantitative Reasoning Part A
- 18 combined credits of Humanities, Social Science, Natural Science, or elective coursework
- 4 units of foreign language

This plan also assumes that History major coursework at UW-Madison will satisfy 6 credits of Humanities breadth (the Humanities credits that are not Literature) and 9 credits of Social Science breadth. Most History

majors pursue the BA in History, but it is also possible to complete the BS and History major requirements in three years.

This plan assumes that students will complete a total of 9 credits over three summers. Summer is an opportunity to make progress toward various requirements. UW-Madison's summer course offerings include a large number of online courses, which give students more flexibility for their summer schedules. For students on an accelerated path, summer is also great time to study abroad.

First Year

Fall	Credits Spring	Credits Summer	Credits
History Breadth ¹	4 HISTORY course with the Ethnic Studies designation (complete within 1st 60 credits) ³	4 Elective or Course for Second Major	3
History Breadth	4 Elective or Course for Second Major ⁴	4	
Biological Science Breadth	3 Quantitative Reasoning Part B (Intermediate or Advanced COMP SCI, MATH, or STAT if BS)	3	
Foreign Language (if pursuing retroactive credit) ²	4 Literature Breadth	3	
	HISTORY 300 (optional or Elective) ⁵	2	
	15	16	3

Second Year

Fall	Credits Spring	Credits Summer	Credits
HISTORY 201	4 History Breadth	4 Elective (Intermediate or Advanced level) or Course for Second Major	3
HIST SCI 211 (may be taken instead of History 201)	History Breadth or Elective	4	
Social Science Breadth	3 Physical Science Breadth	4	
Intermediate or Advanced COMP SCI, MATH, or STAT (if BS)	3 Elective (Intermediate or Advanced level) or Course for Second Major	4	

Elective or Course for Second Major 4

HISTORY 301 (optional or Elective)	1		
	15	16	3

Third Year

Fall	Credits Spring	Credits Summer	Credits
HISTORY 600 ⁶	3 History Elective	3 Elective (Intermediate or Advanced level) or Course for Second Major	3
HIST SCI 555 (may be taken instead of History 600)	Literature Breadth	3	
Science Breadth	4 Science Breadth	3	
Electives (Intermediate or Advanced level) or Courses for Second Major	8 Electives (Intermediate or Advanced level) or Courses for Second Major	7	
	15	16	3

Total Credits 102

¹ The History Breadth requirements are very flexible. Students should refer to the Requirements page for the History major for details on approved overlap between types of breadth in the major.

² Even though students with 4 units of foreign language do not need to complete additional foreign language coursework, UW-Madison's retroactive credit policy (<https://kb.wisc.edu/lr/23736/>) can be very helpful for those pursuing an early graduation.

³ Some examples of History courses that count toward the Ethnic Studies Requirement are: HISTORY/CHICLA 152, ASIAN AM/HISTORY 160, & JEWISH/HISTORY 213.

⁴ History is a flexible major and can be combined with a wide range of other majors and certificates. For students hoping to double major and graduate early, it is especially important to work closely with academic advisors in both majors. We encourage all students to be thoughtful in how they approach their elective credits, whether that means pursuing an additional major or creating an individual plan of study that draws from multiple disciplines.

⁵ History offers two optional careers courses that expose students to, and prepare them for, the wide range of careers pursued by history majors: HISTORY 300 & HISTORY 301. History at Work: Professional Skills of the Major (HISTORY 300) connects students to History alumni in different fields and helps develop essential career skills related to the value of the major. History at Work: History Internship Seminar (HISTORY 301) allows students to receive credit toward their major requirements for work associated with an internship.

⁶ HISTORY 600 or HIST SCI 555 may be taken at any point after a student has completed either HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology. History 600s and History of Science 555 are offered on a variety of topics every semester; each course provides students with the rich experience of a small, faculty-led seminar. These seminars may be taken for credit more than once as long as the topics are different. Students

who choose to pursue Honors in the History major should complete HISTORY 600 or HIST SCI 555 in Year Two so that they can write a Senior honors thesis in Year Three.

ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THE HISTORY MAJOR

Students interested in declaring (or cancelling) a History major should fill out the History Major/Certificate Declaration Form (<https://history.wisc.edu/undergraduate-program/declaring-the-history-major-or-certificate/>). There are no prerequisites for declaring a History major, and students are encouraged to declare as soon as they feel comfortable doing so. All students are strongly encouraged to make an advising appointment after declaring and are also welcome to meet with an advisor before declaring. More information about advising and the major is available below and on the undergraduate section (<https://history.wisc.edu/undergraduate-program/>) of the department website.

ACADEMIC ADVISING

Students who are declared or interested in the History major have numerous advising resources available to them. The History advising team is comprised of professional and peer advisors who are excited to talk with students about everything from academic planning to professional development for future careers. Information on the history advising team and how to contact an advisor can be found on our website (<https://history.wisc.edu/undergraduate-program/undergraduate-advising/>). You can set up an appointment with one of our advisors by using the History Department Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=service/64599>) page.

The History major can also be combined with any other major in the College of Letters & Science, anything from Astronomy (p. 489) to Zoology (<https://guide.wisc.edu/undergraduate/letters-science/history/history-ba/undergraduate/letters-science/integrative-biology/zoology-bs/>). Majors that students most frequently pair with History are Economics (p. 667), English (<http://guide.wisc.edu/undergraduate/letters-science/english/>), Environmental Studies (p. 701), Journalism (p. 1310), and Political Science (p. 1250). History students can also choose to add certificates in Letters & Science or other colleges, such as certificates in Business (p. 1411) or Education and Educational Services (p. 1653). In addition to these, some of the most common certificates for History students are currently Criminal Justice (p. 548), Global Health (<https://guide.wisc.edu/undergraduate/agricultural-life-sciences/nutritional-sciences/global-health-certificate/>), European Studies (<https://guide.wisc.edu/undergraduate/letters-science/institute-regional-international-studies/european-certificate/>), and Digital Studies (p. 644). The History advising team is happy to discuss ways for you to make your intellectual and career goals work as part of a four-year plan (<https://guide.wisc.edu/undergraduate/letters-science/history/history-ba/#fouryearplantext>).

Honors in the Major

The Honors in the Major track in history is intended for students who are eager to experience the excitement of original historical research and who wish to graduate with the best possible undergraduate training in this discipline. Honors in the Major is especially appropriate for students who are considering graduate work in history or who want an especially advanced training in research, reasoning, and writing skills useful to a wide range of career choices. Students in this track write a thesis in their

senior year based on their own original historical research. Visit our website (<https://history.wisc.edu/undergraduate-program/undergraduate-declaring/honors-in-the-history-major/>) for more information on the thesis process and the requirements for Honors in the History Major.

CAREER ADVISING

History is a rigorous but flexible major, and history students are known for being excellent communicators and savvy researchers. Historians are experts in synthesizing disparate pieces of evidence into coherent, persuasive arguments. The real world is filled with disparate facts and incomplete sets of data, so this is a real-world skill that history alumni utilize throughout their entire careers. The department's career advisor, Christina Matta (<https://history.wisc.edu/people/matta-christina/>), helps History students map out future career plans and connects students to a variety of resources on campus and beyond, including history alumni who volunteer as career mentors (see below for more information).

Alumni of the history department have enjoyed careers in medical research and practice; broadcast and print media; sports management; museums, archives, and libraries; finance and business, and community service and nonprofit organizations—as well as law, academia, and many other fields. The History major provides excellent preparation for the study of law, but our students also go on to study medicine and many other graduate fields. The centers for Pre-Law Advising (<https://prelaw.wisc.edu/>) and Pre-Health Advising (<https://prehealth.wisc.edu/>) are especially helpful resources on campus for students interested in those areas of study.

History Careers Course: "History at Work"

HISTORY 300 History at Work: Professional Skills of the Major is a course intended to help History students understand how their degree applies to the world of work. Students explore how their history skills relate to the needs of professional employers and are guided in the process of finding and obtaining professional internships and jobs. In this course, History students can polish their written and oral communication skills in forms appropriate for professional situations and learn from the experiences of guest speakers from a variety of fields.

Internships

The Department of History recognizes the importance of internships in helping students develop professional skills and explore potential career paths. Positions can vary depending on availability and students' interests, but recent sponsors have included the Wisconsin State Historical Museum, the University of Wisconsin Archives, offices of elected officials in the Wisconsin State Legislature and United States Congress, the Milwaukee Brewers, and Community Shares of Wisconsin, just to name a few! History majors can also get academic credit in conjunction with an internship by taking HISTORY 301 History at Work: History Internship Seminar.

Alumni Mentoring

Like internships, networking can be a valuable tool in opening professional doors and learning more about the professional value of the History major.

The department often matches students with alumni mentors drawn from our Board of Visitors (<https://history.wisc.edu/alumni-and-friends/board-of-visitors/>) and other graduates who can help them get started building a professional network, answer questions about a specific field, provide guidance in applying for jobs or preparing for interviews, and provide general career advice.

Students interested in participating in an internship or talking with an alumni mentor should meet with Christina Matta, the department's undergraduate career advisor, to discuss their interests and possible career goals.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

The History Department is committed to integrating undergraduate historical study into the Wisconsin Experience (<https://provost.wisc.edu/wisconsin-experience/>), UW-Madison's vision for students' growth inside and outside the classroom. History students at UW-Madison have a wide range of opportunities available to help them make the most of their history coursework and carry the study of the past beyond the boundaries of the classroom.

OPPORTUNITIES FOR HISTORY STUDENTS

ARCHIVE

ARCHIVE (<https://uarchive.wordpress.com/>) is an award-winning journal of historical work published annually by the UW-Madison chapter of Phi Alpha Theta. See ARCHIVE's website to view past volumes and find out how you could be published.

Phi Alpha Theta

Phi Alpha Theta (<https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/phi-alpha-theta/>) is a national history honors society whose purpose is to promote the study of history and to bring students, teachers, and writers of history together in intellectual and social ways. See the UW-Madison chapter's page for more information.

Language and Regional/International Studies

History classes and faculty are at the center of UW-Madison's remarkable collection of resource centers for area studies. The I (<https://iris.wisc.edu/>)nstitute for Regional and International Studies (<https://iris.wisc.edu/>) is the umbrella organization for UW-Madison's eight area studies programs. Students interested in these areas can combine their History certificate with a major in International Studies (p. 876) or any of the area studies majors and/or certificates. UW-Madison also has one of the largest selections of language instruction (<https://languages.wisc.edu/>) in the United States.

Study Abroad

History is a great certificate for students interested in studying abroad (<https://studyabroad.wisc.edu/academics/major-advising-pages-maps/history/>) due to its flexibility and because history courses are available in most study abroad programs. The History Department encourages study abroad, and our advising team is happy to help students ensure that they are meeting degree requirements while studying abroad.

Wisconsin Historical Society

Scholars and researchers from all over the country (and the world) come to the Wisconsin Historical Society (<https://www.wisconsinhistory.org/>) (WHS) to do historical research. History students at UW-Madison simply walk across the street to make use of this world-class institution. The collections of the WHS are an amazing resource for our students and are utilized by a wide range of our courses. History students can also develop internships related to the WHS collections and programs. Students who are interested in the history of film and television often explore, or major in, Communication Arts (p. 621) and can also get involved with the Wisconsin Center for Film and Theater Research (<http://wcfr.comarts.wisc.edu/>).

Center for Campus History

The University of Wisconsin-Madison's Rebecca M. Blank Center for Campus History (<https://campushistory.wisc.edu/>) is an ongoing effort to uncover and give voice to those who experienced, challenged, and overcame prejudice on campus. Undergraduate students have been involved with the Center since its inception as the Public History Project in 2019, working as researchers conducting both archival research and oral history interviews with former students, faculty, and staff.

Public Humanities Exchange for Undergraduates (HEX-U)

The Public Humanities Exchange for Undergraduates (<https://humanities.wisc.edu/public-humanities/exchange/>) (HEX-U) is a high-impact program for undergraduate students at UW-Madison who wish to make meaningful connections between their humanities scholarship and the needs of the local community through new models of social engagement. The program provides training in community partnership, mentoring during project design and implementation, and project funding to small cohorts of undergraduate scholars as they plan and implement creative community projects in partnership with Dane County organizations.

The Nonviolence Project

The Nonviolence Project (<https://thenonviolenceproject.wisc.edu/>) is a comprehensive repository that educates and informs readers on the impact of nonviolent protests all over the world. From environmental issues to racial equality, the project showcases how nonviolence has been used to address many different issues by prominent world leaders and activists. The project aims to answer how and why nonviolence has been an effective sociopolitical tactic across different cultural, geographical, and political landscapes throughout history. The Nonviolence Project employs undergraduate student interns as researchers to help grow the repository of sources and present information to a broad audience.

Wisconsin 101: Our History in Objects

Wisconsin 101: Our History in Objects (<https://wi101.wisc.edu/>) is a collaborative public history project created through a partnership between the University of Wisconsin-Madison History Department, the Wisconsin Historical Society, and Wisconsin Public Radio's Wisconsin Life program. At its core, this project invites nonprofessional historians to profile objects from their daily lives and write short histories that contextualize those objects within local history, regional historical trends,

and even international change. Wisconsin 101 provides valuable internship opportunities for undergraduate students throughout the state of Wisconsin. These internships offer experience for students interested in public humanities, material culture, local history, writing, and educational outreach or editing.

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS THE HISTORY LAB

The History Lab is a resource center for undergraduate students studying, researching, and writing about the past. It is staffed by talented and experienced graduate students from the Department of History, and UW–Madison is one of only a handful of universities in the United States to have this kind of history-specific writing support.

Through individual and group tutoring, the lab focuses on honing students’ abilities to form suitable topics, conduct research, develop arguments and thesis statements, cite evidence properly, and write using an effective process. The lab is also equipped to support challenges faced by English-language learners.

For more information or to make an appointment, see the History Lab website. (<https://history.wisc.edu/undergraduate-program/the-history-lab/>)

RESEARCH FELLOWSHIPS AND SCHOLARSHIPS

The Department of History is committed to supporting undergraduate achievement and encourages applications for the various scholarships and research fellowships made possible by the generosity of its donors. Scholarships are designed to reward outstanding History students and are awarded annually. Research fellowships allow undergraduates to pursue in-depth historical research under the guidance of History faculty. These awards help defray research costs such as supplies and travel expenses or pay for living expenses to allow students time to craft their papers and conduct research in UW Libraries.

Detailed instructions on how to apply can be found on the Department of History website (<https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/scholarships-awards-and-prizes/>). Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (<https://wisc.academicworks.com/>).

UNDERGRADUATE WRITING PRIZES

The History department offers over fifteen different prizes designed to reward a broad range of undergraduate writing—from senior theses to digital and public history projects to specialized essays in American Indian History and LGBTQ+ History. The prizes are made possible thanks to the tremendous generosity of our alumni and former members of our faculty. The History department expresses its gratitude for their support in recognizing the achievements of our undergraduates.

Detailed instructions on how to apply can be found on the Department of History website (<https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/scholarships-awards-and-prizes/>). Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (<https://wisc.academicworks.com/>).

HISTORY, BS

Why study history? (<https://history.wisc.edu/undergraduate-program/history-careers/why-history/>) History is so much more than memorizing names and dates. Are you interested in technology? Religion? The environment? Human rights? If you have a question, history can help you find an answer.

The History major is a great option for people who are interested in studying *change*. History asks, “How did the world get to be this way?” and “What factors might influence where the world is heading now?” Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped—and continues to shape—global, national, and local relationships between societies and people. The skills that history students develop are used in a wide range of careers and prepare students for graduate or professional study in fields such as law, business, medicine, public policy, and much more.

The History major can also be combined with any other major in the College of Letters & Science, anything from Astronomy (p. 489) to Zoology (p. 1040). Majors that students most frequently pair with History are Economics (p. 667), English (<http://guide.wisc.edu/undergraduate/letters-science/english/>), Environmental Studies (p. 701), Journalism (p. 1310), and Political Science (p. 1250). History students can also choose to add certificates in Letters & Science or other colleges, such as certificates in Business (p. 1411) or Education and Educational Services (p. 1653). In addition to these, some of the most common certificates for History students are currently Criminal Justice (p. 548), Global Health (<https://guide.wisc.edu/undergraduate/agricultural-life-sciences/nutritional-sciences/global-health-certificate/>), European Studies (<https://guide.wisc.edu/undergraduate/letters-science/institute-regional-international-studies/european-certificate/>), and Digital Studies (p. 644). The History advising team is happy to discuss ways for you to make your intellectual and career goals work as part of a four-year plan (<https://guide.wisc.edu/undergraduate/letters-science/history/history-ba/#fouryearplantext>).

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None

Credits required to get in	None
Other	None

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

Language Complete the third unit of a language other than English.

L&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: <ul style="list-style-type: none"> • 30 credits in residence, overall, and • 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none"> • 2.000 in all coursework at UW-Madison • 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students may use courses from History and History of Science to meet the requirements of the History major.¹ A minimum of 30 credits in the major is required, including:

CHRONOLOGICAL BREADTH:

History majors must complete at least one course that deals with the history of Europe and/or the Mediterranean before C.E. 1500 or with the history of Africa or Asia before these areas fell heavily under European influence.

Chronological Breadth Courses

Code	Title	Credits
HISTORY/CLASSICS 110	The Ancient Mediterranean	4
HISTORY 115	Medieval Europe 410-1500	4

NOTES ON HISTORY BREADTH REQUIREMENTS

- Breadth courses may be taken in any order.
- Chronological Breadth courses may also count toward a Geographic Breadth category.
- Some courses qualify for more than one Geographic Breadth area, but a course may only count for one Geographic Breadth category for the purposes of meeting the requirement.
- Topics courses (HISTORY 200, HISTORY 201, HISTORY 221, HISTORY 223, HISTORY 225, HIST SCI 280, HISTORY 283, HIST SCI 286, HIST SCI 350 & HISTORY 500) may count for Geographic and/or Chronological Breadth. For topics courses, see the course notes for current breadth information.
- The following courses **may not be used** for breadth in the major: HISTORY 199, HIST SCI 555, HISTORY 600, HISTORY 680, HISTORY 681, HIST SCI 699.

HISTORY WRITING AND RESEARCH SEQUENCE:

History majors must complete both of the following:

- Students are encouraged to complete one of HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology as early as possible.
- HISTORY 600 Advanced Seminar in History or HIST SCI 555 Undergraduate Seminar in History of Science, to be taken after satisfactory completion of either HISTORY 201 or HIST SCI 211. Enrolling in a HISTORY 600 or HIST SCI 555 seminar requires instructor consent. Available seminars can be found on the history department website (<https://history.wisc.edu/history600-seminars/>).

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in HISTORY/HISTORY of SCIENCE and all other major courses
- 2.000 GPA on 15 upper-level major credits in residence²
- 15 credits HISTORY and/or HISTORY of SCIENCE taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the History Major in consultation with the History undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in History, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall University GPA
- Earn a 3.500 GPA in all HISTORY and HISTORY of SCIENCE courses and all other major courses
- Complete at least 36 total credits in HISTORY and HISTORY of SCIENCE coursework, 21 of which must be upper-level credits in residence²
- Complete at least 15 Honors credits in HISTORY or HISTORY of SCIENCE coursework
- Complete a two-semester Senior Honors Thesis, a piece of original work of approximately forty pages, in either HISTORY 681-HISTORY 682 or HIST SCI 681-HIST SCI 682, taken in conjunction with the HISTORY 680 Honors Thesis Colloquium both semesters. The thesis must be approved by instructors in both the thesis and colloquium courses.

FOOTNOTES

¹ ILS 201 and ILS 202 may also be used to complete the requirements of the History major, including the requirements for Honors in the Major.

² Major courses with Intermediate or Advanced Level are counted as upper-level in the History major.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work

Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Find and interpret diverse evidence to explain complex changes over time
2. Communicate effectively to a variety of audiences in writing and speech
3. Use an understanding of many perspectives to work with people and solve complex problems
4. Seek to understand differing views and ways of being in the world
5. Identify the skills developed in the study of history and articulate their applicability to a variety of professional and intellectual endeavors

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits Spring	Credits
History Breadth ¹	4 History course for the Ethnic Studies Requirement (complete within 1st 60 credits) ²	4
Communication Part A (Complete during your first year)	3 Biological Science Breadth ³	3
Quantitative Reasoning Part A (complete during your first year)	3 Literature Breadth	3
Foreign Language (if necessary)	4 Elective or Course for Second Major ⁴	4
	14	14

Second Year

Fall	Credits Spring	Credits
HISTORY 201 (counts toward Communication Part B) ⁵	4 History Breadth	4
HIST SCI 211 (may be taken instead of History 201)	History Elective	3

Quantitative Reasoning Part B (I/A Comp Sci, Math, or Stats if required for the BS)	3 Physical Science Breadth	3
History Elective or Course for Second Major	3 Elective or Course for Second Major	3
Elective or Course for Second Major	3 Elective or Course for Second Major	3
Elective or Course for Second Major	3	
16		16

Third Year

Fall	Credits Spring	Credits
Declare the Major (before 86 credits)*	History Breadth	4
History Breadth	3 HISTORY 301 (optional)	1
HISTORY 300 ⁶	2 Science Breadth	3
I/A Comp Sci, Math, or Stats (if required for the BS)	3 Elective or Course for Second Major	3
Literature Breadth	3 Elective or Course for Second Major	3
Elective or Course for Second Major	4	
15		14

Fourth Year

Fall	Credits Spring	Credits
Complete Remaining L&S Requirements**	History Elective	4
HISTORY 600 ⁷	3 Science Breadth	3
HIST SCI 555 (may be taken instead of History 600)	Elective or Course for Second Major	3
Elective or Course for Second Major	4 Elective or Course for Second Major	3
Elective or Course for Second Major	4 Elective or Course for Second Major	3
Elective or Course for Second Major	4	
15		16

Total Credits 120

¹ The History Breadth requirements are very flexible. History majors must complete Chronological Breadth (one course) and take at least one course from four of the eight Geographical Breadth categories. A single course may count toward both Chronological and Geographic Breadth, if appropriate. (For example, a course on Ancient Rome would count toward Chronological Breadth and European History.) HISTORY 201 may also count toward History Breadth requirements.

² Some examples of History courses that count toward the Ethnic Studies Requirement are: HISTORY/CHICLA 152 The United States West Since 1850, HISTORY/ASIAN AM 160 Asian American History: Movement and Dislocation, & HISTORY/JEWISH 213 Jews and American Pop. Culture.

³ Some L&S Breadth requirements will be satisfied with History coursework. History classes will complete the additional Humanities

Breadth credits (the Humanities credits that are not Literature) and may also complete Social Science Breadth.

⁴ History is a flexible major and can be combined with a wide range of other majors and certificates. We encourage students to be thoughtful in how they approach their elective credits, whether that means pursuing an additional major or creating an individual plan of study that draws from multiple disciplines.

⁵ HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology may be taken as soon as you have completed the Communication A requirement. Students should try to complete the Historian's Craft by the end of the second year.

⁶ History offers two optional careers courses that expose students to, and prepare them for, the wide range of careers pursued by history majors: HISTORY 300 & HISTORY 301. History at Work: Professional Skills of the Major (HISTORY 300) connects students to History alumni in different fields and helps develop essential career skills related to the value of the major. History at Work: History Internship Seminar (HISTORY 301) allows students to receive credit toward their major requirements for work associated with an internship.

⁷ HISTORY 600 or HIST SCI 555 may be taken at any point after a student has completed either HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology. History 600s and History of Science 555 are offered on a variety of topics every semester and they provide students with the rich experience of a small, faculty-led seminar. They may be taken for credit more than once as long as the topics are different.

* Students must declare a major by the time they reach 86 credits.

**Please refer to the Requirements tab in Guide for College of Letters & Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

THREE-YEAR PLAN

THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

DEPARTMENTAL EXPECTATIONS

Students planning to graduate within three years with a History major should enter the University with a minimum of 18 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- Communication Part A
- Quantitative Reasoning Part A
- 18 combined credits of Humanities, Social Science, Natural Science, or elective coursework
- 4 units of foreign language

This plan also assumes that History major coursework at UW-Madison will satisfy 6 credits of Humanities breadth (the Humanities credits that are not Literature) and 9 credits of Social Science breadth. Most History majors pursue the BA in History, but it is also possible to complete the BS and History major requirements in three years.

This plan assumes that students will complete a total of 9 credits over three summers. Summer is an opportunity to make progress toward various requirements. UW-Madison's summer course offerings include a large number of online courses, which give students more flexibility for their summer schedules. For students on an accelerated path, summer is also great time to study abroad.

First Year

Fall	Credits Spring	Credits Summer	Credits
History Breadth ¹	4 HISTORY course with the Ethnic Studies designation (complete within 1st 60 credits) ³	4 Elective or Course for Second Major	3
History Breadth	4 Elective or Course for Second Major ⁴	4	
Biological Science Breadth	3 Quantitative Reasoning Part B (Intermediate or Advanced COMP SCI, MATH, or STAT if BS)	3	
Foreign Language (if pursuing retroactive credit) ²	4 Literature Breadth	3	
	HISTORY 300 (optional or Elective) ⁵	2	
15		16	3

Second Year

Fall	Credits Spring	Credits Summer	Credits
HISTORY 201	4 History Breadth	4 Elective (Intermediate or Advanced level) or Course for Second Major	3
HIST SCI 211 (may be taken instead of History 201)	History Breadth or Elective	4	
Social Science Breadth	3 Physical Science Breadth	4	
Intermediate or Advanced COMP SCI, MATH, or STAT (if BS)	3 Elective (Intermediate or Advanced level) or Course for Second Major	4	

Elective or Course for Second Major 4

HISTORY 301 (optional or Elective)	1		
15		16	3

Third Year

Fall	Credits Spring	Credits Summer	Credits
HISTORY 600 ⁶	3 History Elective	3 Elective (Intermediate or Advanced level) or Course for Second Major	3
HIST SCI 555 (may be taken instead of History 600)	Literature Breadth	3	
Science Breadth	4 Science Breadth	3	
Electives (Intermediate or Advanced level) or Courses for Second Major	8 Electives (Intermediate or Advanced level) or Courses for Second Major	7	
15		16	3

Total Credits 102

- ¹ The History Breadth requirements are very flexible. Students should refer to the Requirements page for the History major for details on approved overlap between types of breadth in the major.
- ² Even though students with 4 units of foreign language do not need to complete additional foreign language coursework, UW-Madison's retroactive credit policy (<https://kb.wisc.edu/lis/23736/>) can be very helpful for those pursuing an early graduation.
- ³ Some examples of History courses that count toward the Ethnic Studies Requirement are: HISTORY/CHICLA 152, ASIAN AM/HISTORY 160, & JEWISH/HISTORY 213.
- ⁴ History is a flexible major and can be combined with a wide range of other majors and certificates. For students hoping to double major and graduate early, it is especially important to work closely with academic advisors in both majors. We encourage all students to be thoughtful in how they approach their elective credits, whether that means pursuing an additional major or creating an individual plan of study that draws from multiple disciplines.
- ⁵ History offers two optional careers courses that expose students to, and prepare them for, the wide range of careers pursued by history majors: HISTORY 300 & HISTORY 301. History at Work: Professional Skills of the Major (HISTORY 300) connects students to History alumni in different fields and helps develop essential career skills related to the value of the major. History at Work: History Internship Seminar (HISTORY 301) allows students to receive credit toward their major requirements for work associated with an internship.
- ⁶ HISTORY 600 or HIST SCI 555 may be taken at any point after a student has completed either HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology. History 600s and History of Science 555 are offered on a variety of topics every semester; each course provides students with the rich experience of a small, faculty-led seminar. These seminars may be taken for credit more than once as long as the topics are different. Students

who choose to pursue Honors in the History major should complete HISTORY 600 or HIST SCI 555 in Year Two so that they can write a Senior honors thesis in Year Three.

ADVISING AND CAREERS

ADVISING AND CAREERS DECLARE OR CANCEL THE HISTORY MAJOR

Students interested in declaring (or cancelling) a History major should fill out the History Major/Certificate Declaration Form (<https://history.wisc.edu/undergraduate-program/declaring-the-history-major-or-certificate/>). There are no prerequisites for declaring a History major, and students are encouraged to declare as soon as they feel comfortable doing so. All students are strongly encouraged to make an advising appointment after declaring and are also welcome to meet with an advisor before declaring. More information about advising and the major is available below and on the undergraduate section (<https://history.wisc.edu/undergraduate-program/>) of the department website.

ACADEMIC ADVISING

Students who are declared or interested in the History major have numerous advising resources available to them. The History advising team is comprised of professional and peer advisors who are excited to talk with students about everything from academic planning to professional development for future careers. Information on the history advising team and how to contact an advisor can be found on our website (<https://history.wisc.edu/undergraduate-program/undergraduate-advising/>). You can set up an appointment with one of our advisors by using the History Department Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=service/64599>) page.

The History major can also be combined with any other major in the College of Letters & Science, anything from Astronomy (p. 489) to Zoology (<https://guide.wisc.edu/undergraduate/letters-science/history/history-bs/undergraduate/letters-science/integrative-biology/zoology-bs/>). Majors that students most frequently pair with History are Economics (p. 667), English (<http://guide.wisc.edu/undergraduate/letters-science/english/>), Environmental Studies (p. 701), Journalism (p. 1310), and Political Science (p. 1250). History students can also choose to add certificates in Letters & Science or other colleges, such as certificates in Business (p. 1411) or Education and Educational Services (p. 1653). In addition to these, some of the most common certificates for History students are currently Criminal Justice (p. 548), Global Health (<https://guide.wisc.edu/undergraduate/agricultural-life-sciences/nutritional-sciences/global-health-certificate/>), European Studies (<https://guide.wisc.edu/undergraduate/letters-science/institute-regional-international-studies/european-certificate/>), and Digital Studies (p. 644). The History advising team is happy to discuss ways for you to make your intellectual and career goals work as part of a four-year plan (<https://guide.wisc.edu/undergraduate/letters-science/history/history-ba/#fouryearplantext>).

Honors in the Major

The Honors in the Major track in history is intended for students who are eager to experience the excitement of original historical research and who wish to graduate with the best possible undergraduate training in this discipline. Honors in the Major is especially appropriate for students who are considering graduate work in history or who want an especially advanced training in research, reasoning, and writing skills useful to a wide range of career choices. Students in this track write a thesis in their

senior year based on their own original historical research. Visit our website (<https://history.wisc.edu/undergraduate-program/undergraduate-declaring/honors-in-the-history-major/>) for more information on the thesis process and the requirements for Honors in the History Major.

CAREER ADVISING

History is a rigorous but flexible major, and history students are known for being excellent communicators and savvy researchers. Historians are experts in synthesizing disparate pieces of evidence into coherent, persuasive arguments. The real world is filled with disparate facts and incomplete sets of data, so this is a real-world skill that history alumni utilize throughout their entire careers. The department's career advisor, Christina Matta (<https://history.wisc.edu/people/matta-christina/>), helps History students map out future career plans and connects students to a variety of resources on campus and beyond, including history alumni who volunteer as career mentors (see below for more information).

Alumni of the history department have enjoyed careers in medical research and practice; broadcast and print media; sports management; museums, archives, and libraries; finance and business, and community service and nonprofit organizations—as well as law, academia, and many other fields. The History major provides excellent preparation for the study of law, but our students also go on to study medicine and many other graduate fields. The centers for Pre-Law Advising (<https://prelaw.wisc.edu/>) and Pre-Health Advising (<https://prehealth.wisc.edu/>) are especially helpful resources on campus for students interested in those areas of study.

History Careers Course: "History at Work"

HISTORY 300 History at Work: Professional Skills of the Major is a course intended to help History students understand how their degree applies to the world of work. Students explore how their history skills relate to the needs of professional employers and are guided in the process of finding and obtaining professional internships and jobs. In this course, History students can polish their written and oral communication skills in forms appropriate for professional situations and learn from the experiences of guest speakers from a variety of fields.

Internships

The Department of History recognizes the importance of internships in helping students develop professional skills and explore potential career paths. Positions can vary depending on availability and students' interests, but recent sponsors have included the Wisconsin State Historical Museum, the University of Wisconsin Archives, offices of elected officials in the Wisconsin State Legislature and United States Congress, the Milwaukee Brewers, and Community Shares of Wisconsin, just to name a few! History majors can also get academic credit in conjunction with an internship by taking HISTORY 301 History at Work: History Internship Seminar.

Alumni Mentoring

Like internships, networking can be a valuable tool in opening professional doors and learning more about the professional value of the History major.

The department often matches students with alumni mentors drawn from our Board of Visitors (<https://history.wisc.edu/alumni-and-friends/board-of-visitors/>) and other graduates who can help them get started building a professional network, answer questions about a specific field, provide guidance in applying for jobs or preparing for interviews, and provide general career advice.

Students interested in participating in an internship or talking with an alumni mentor should meet with Christina Matta, the department's undergraduate career advisor, to discuss their interests and possible career goals.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

The History Department is committed to integrating undergraduate historical study into the Wisconsin Experience (<https://provost.wisc.edu/wisconsin-experience/>), UW–Madison's vision for students' growth inside and outside the classroom. History students at UW–Madison have a wide range of opportunities available to help them make the most of their history coursework and carry the study of the past beyond the boundaries of the classroom.

OPPORTUNITIES FOR HISTORY STUDENTS

ARCHIVE

ARCHIVE (<https://uarchive.wordpress.com/>) is an award-winning journal of historical work published annually by the UW–Madison chapter of Phi Alpha Theta. See ARCHIVE's website to view past volumes and find out how you could be published.

Phi Alpha Theta

Phi Alpha Theta (<https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/phi-alpha-theta/>) is a national history honors society whose purpose is to promote the study of history and to bring students, teachers, and writers of history together in intellectual and social ways. See the UW–Madison chapter's page for more information.

Language and Regional/International Studies

History classes and faculty are at the center of UW–Madison's remarkable collection of resource centers for area studies. The I (<https://iris.wisc.edu/>)nstitute for Regional and International Studies (<https://iris.wisc.edu/>) is the umbrella organization for UW–Madison's eight area studies programs. Students interested in these areas can combine their History certificate with a major in International Studies (p. 876) or any of the area studies majors and/or certificates. UW–Madison also has one of the largest selections of language instruction (<https://languages.wisc.edu/>) in the United States.

Study Abroad

History is a great certificate for students interested in studying abroad (<https://studyabroad.wisc.edu/academics/major-advising-pages-maps/history/>) due to its flexibility and because history courses are available in most study abroad programs. The History Department encourages study abroad, and our advising team is happy to help students ensure that they are meeting degree requirements while studying abroad.

Wisconsin Historical Society

Scholars and researchers from all over the country (and the world) come to the Wisconsin Historical Society (<https://www.wisconsinhistory.org/>) (WHS) to do historical research. History students at UW–Madison simply walk across the street to make use of this world-class institution. The collections of the WHS are an amazing resource for our students and are utilized by a wide range of our courses. History students can also develop internships related to the WHS collections and programs. Students who are interested in the history of film and television often explore, or major in, Communication Arts (p. 621) and can also get involved with the Wisconsin Center for Film and Theater Research (<http://wcfr.commarts.wisc.edu/>).

Center for Campus History

The University of Wisconsin–Madison's Rebecca M. Blank Center for Campus History (<https://campushistory.wisc.edu/>) is an ongoing effort to uncover and give voice to those who experienced, challenged, and overcame prejudice on campus. Undergraduate students have been involved with the Center since its inception as the Public History Project in 2019, working as researchers conducting both archival research and oral history interviews with former students, faculty, and staff.

Public Humanities Exchange for Undergraduates (HEX-U)

The Public Humanities Exchange for Undergraduates (<https://humanities.wisc.edu/public-humanities/exchange/>) (HEX-U) is a high-impact program for undergraduate students at UW–Madison who wish to make meaningful connections between their humanities scholarship and the needs of the local community through new models of social engagement. The program provides training in community partnership, mentoring during project design and implementation, and project funding to small cohorts of undergraduate scholars as they plan and implement creative community projects in partnership with Dane County organizations.

The Nonviolence Project

The Nonviolence Project (<https://thenonviolenceproject.wisc.edu/>) is a comprehensive repository that educates and informs readers on the impact of nonviolent protests all over the world. From environmental issues to racial equality, the project showcases how nonviolence has been used to address many different issues by prominent world leaders and activists. The project aims to answer how and why nonviolence has been an effective sociopolitical tactic across different cultural, geographical, and political landscapes throughout history. The Nonviolence Project employs undergraduate student interns as researchers to help grow the repository of sources and present information to a broad audience.

Wisconsin 101: Our History in Objects

Wisconsin 101: Our History in Objects (<https://wi101.wisc.edu/>) is a collaborative public history project created through a partnership between the University of Wisconsin–Madison History Department, the Wisconsin Historical Society, and Wisconsin Public Radio's Wisconsin Life program. At its core, this project invites nonprofessional historians to profile objects from their daily lives and write short histories that contextualize those objects within local history, regional historical trends,

and even international change. Wisconsin 101 provides valuable internship opportunities for undergraduate students throughout the state of Wisconsin. These internships offer experience for students interested in public humanities, material culture, local history, writing, and educational outreach or editing.

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS THE HISTORY LAB

The History Lab is a resource center for undergraduate students studying, researching, and writing about the past. It is staffed by talented and experienced graduate students from the Department of History, and UW-Madison is one of only a handful of universities in the United States to have this kind of history-specific writing support.

Through individual and group tutoring, the lab focuses on honing students' abilities to form suitable topics, conduct research, develop arguments and thesis statements, cite evidence properly, and write using an effective process. The lab is also equipped to support challenges faced by English-language learners.

For more information or to make an appointment, see the History Lab website. (<https://history.wisc.edu/undergraduate-program/the-history-lab/>)

RESEARCH FELLOWSHIPS AND SCHOLARSHIPS

The Department of History is committed to supporting undergraduate achievement and encourages applications for the various scholarships and research fellowships made possible by the generosity of its donors. Scholarships are designed to reward outstanding History students and are awarded annually. Research fellowships allow undergraduates to pursue in-depth historical research under the guidance of History faculty. These awards help defray research costs such as supplies and travel expenses or pay for living expenses to allow students time to craft their papers and conduct research in UW Libraries.

Detailed instructions on how to apply can be found on the Department of History website (<https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/scholarships-awards-and-prizes/>). Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (<https://wisc.academicworks.com/>).

UNDERGRADUATE WRITING PRIZES

The History department offers over fifteen different prizes designed to reward a broad range of undergraduate writing—from senior theses to digital and public history projects to specialized essays in American Indian History and LGBTQ+ History. The prizes are made possible thanks to the tremendous generosity of our alumni and former members of our faculty. The History department expresses its gratitude for their support in recognizing the achievements of our undergraduates.

Detailed instructions on how to apply can be found on the Department of History website (<https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/scholarships-awards-and-prizes/>). Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (<https://wisc.academicworks.com/>).

HISTORY, CERTIFICATE

Why study history? (<https://history.wisc.edu/undergraduate-program/history-careers/why-history/>) History is so much more than memorizing names and dates. Are you interested in technology? Religion? The environment? Human rights? If you have a question, history can help you find an answer.

The Certificate in History at UW-Madison is a great option for people who are interested in studying change (<https://history.wisc.edu/undergraduate-program/history-careers/why-history/>). History asks, "How did the world get to be this way?" and "What factors might influence where the world is heading now?" Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped—and continues to shape—global, national, and local relationships between societies and people. The skills that history students develop are used in a wide range of careers and prepare students for graduate or professional study in fields such as law, business, medicine, public policy, and much more.

HOW TO GET IN

HOW TO GET IN

There are no prerequisites for declaring the History Certificate, and students are encouraged to declare as soon as they feel comfortable doing so. Students in all UW-Madison schools and colleges may declare the History Certificate. To declare, students should fill out the History Major/Certificate Declaration Form (<https://history.wisc.edu/undergraduate-program/declaring-the-history-major-or-certificate/>). All students are strongly encouraged to make an advising appointment after declaring and are also welcome to meet with an advisor before declaring. More information about advising and the certificate is available on the undergraduate section (<https://history.wisc.edu/undergraduate-program/>) of the History Department website. History Majors are not eligible to declare the History Certificate.

REQUIREMENTS

REQUIREMENTS

Students may use courses from HISTORY and HIST SCI to meet the requirements of the History certificate. The certificate requires 15 total credits/5 courses, including:

Code	Title	Credits
History Research and Writing Course (complete one):		3
HISTORY 201	The Historian's Craft	
HIST SCI 211	The Historian's Craft: Science, Medicine, and Technology	
(HISTORY 201 or HIST SCI 211 should be completed before the Capstone)		
Elective Coursework		

Any undergraduate courses in HISTORY or HIST SCI may be used to count toward the elective coursework requirement, as well as the following: ILS 201, ILS 202. Students are strongly encouraged to meet with an academic advisor or faculty mentor to select a group of courses that fits well with their interests and fulfills their academic or career goals.

One Intermediate or Advanced HISTORY or HIST SCI course	3
---	---

Two additional courses in HISTORY or HIST SCI at any level	6
--	---

Capstone Course	3
------------------------	----------

Complete at least one of the following:

HISTORY 401	Public History Workshop
-------------	-------------------------

HISTORY 500	Reading Seminar in History
-------------	----------------------------

HIST SCI 555	Undergraduate Seminar in History of Science
--------------	---

HISTORY 600	Advanced Seminar in History
-------------	-----------------------------

Total Credits	15
----------------------	-----------

RESIDENCE & QUALITY OF WORK

- At least 12 certificate credits must be completed in residence.
- Minimum 2.000 GPA on all certificate courses.

NOTES

Up to 3 credits awarded for approved examinations (e.g. AP or IB) or a transfer course may count toward elective coursework. The 12-credit residence requirement is meant to encourage students to engage with UW-Madison faculty and advisors and to choose their elective coursework intentionally. Ideally, these courses will complement their major or be related to other intellectual or career interests.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Pose a historical question and explain its academic and public implications.
2. Present original and coherent findings through clearly written, persuasive arguments and narratives.
3. Examine the context in which primary sources were created, search for chronological and other relationships among them, and assess the sources in light of that knowledge.
4. Identify primary sources available to engage the historical problem under investigation.
5. Use appropriate research procedures and finding aids to find the secondary resources in history and other disciplines available to answer a historical question.
6. Use appropriate presentation formats and platforms to share information with academic and/or public audiences.

ADVISING AND CAREERS

ADVISING AND CAREERS

ACADEMIC ADVISING

Students who are declared or interested in the History certificate have numerous advising resources available to them. The History advising team is comprised of professional and peer advisors who are excited to talk with students about everything from academic planning to professional development for future careers. Information on the History advising team and how to contact an advisor can be found on our website. You can set up an appointment with one of our advisors by using the History Department Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=service/64599>) page.

CAREER ADVISING

History is a rigorous but flexible certificate, and History students are known for being excellent communicators and savvy researchers. Historians are experts in synthesizing disparate pieces of evidence into coherent, persuasive arguments. The real world is filled with disparate facts and incomplete sets of data, so this is a real-world skill that history alumni utilize throughout their entire careers. The department's career advisor, Christina Matta, helps history students map out future career plans and connects students to a variety of resources on campus and beyond, including history alumni who volunteer as career mentors (see below for more information).

Alumni of the History Department have enjoyed careers in medical research and practice; broadcast and print media; sports management; museums, archives, and libraries; finance and business, and community service and nonprofit organizations—as well as law, academia, and many other fields. History provides excellent preparation for the study of law, but our students also go on to study medicine and many other graduate fields. The centers for Pre-Law Advising and Pre-Health Advising are especially helpful resources on campus for students interested in those areas of study.

HISTORY CAREERS COURSE: "HISTORY AT WORK"

History at Work: Professional Skills of the Major (HISTORY 300) is a course intended to help history students understand how their academic studies apply to the world of work. Students explore how their history skills relate to the needs of professional employers and are guided in the process of finding and obtaining professional internships and jobs. In this course, History students can polish their written and oral communication skills in forms appropriate for professional situations and learn from the experiences of guest speakers from a variety of fields.

INTERNSHIPS

The Department of History recognizes the importance of internships in helping students develop professional skills and explore potential career paths. Positions can vary depending on availability and students' interests, but recent sponsors have included the Wisconsin State Historical Museum, the University of Wisconsin Archives, offices of elected officials in the Wisconsin State Legislature and United States Congress, the Milwaukee Brewers, and Community Shares of Wisconsin – just to name a few! History certificate students can also get academic credit in conjunction

with an internship by taking HISTORY 301 History at Work: History Internship Seminar .

ALUMNI MENTORING

Like internships, networking can be a valuable tool in opening professional doors and learning more about the professional value of the history certificate. The department often matches students with alumni mentors drawn from our Board of Visitors and other graduates who can help them get started building a professional network, answer questions about a specific field, provide guidance in applying for jobs or preparing for interviews, and provide general career advice.

Students interested in participating in an internship or talking with an alumni mentor should meet with Christina Matta, the department's undergraduate career advisor, to discuss their interests and possible career goals.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

The History Department is committed to integrating undergraduate historical study into the Wisconsin Experience (<https://provost.wisc.edu/wisconsin-experience/>), UW–Madison's vision for students' growth inside and outside the classroom. History students at UW–Madison have a wide range of opportunities available to help them make the most of their history coursework and carry the study of the past beyond the boundaries of the classroom.

OPPORTUNITIES FOR HISTORY STUDENTS

ARCHIVE

ARCHIVE (<https://uarchive.wordpress.com/>) is an award-winning journal of historical work published annually by the UW–Madison chapter of Phi Alpha Theta. See ARCHIVE's website to view past volumes and find out how you could be published.

Phi Alpha Theta

Phi Alpha Theta (<https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/phi-alpha-theta/>) is a national history honors society whose purpose is to promote the study of history

and to bring students, teachers, and writers of history together in intellectual and social ways. See the UW–Madison chapter's page for more information.

Language and Regional/International Studies

History classes and faculty are at the center of UW–Madison's remarkable collection of resource centers for area studies. The I (<https://iris.wisc.edu/>)nstitute for Regional and International Studies (<https://iris.wisc.edu/>) is the umbrella organization for UW–Madison's eight area studies programs. Students interested in these areas can combine their History certificate with a major in International Studies (p. 876) or any of the area studies majors and/or certificates. UW–Madison also has one of the largest selections of language instruction (<https://languages.wisc.edu/>) in the United States.

Study Abroad

History is a great certificate for students interested in studying abroad (<https://studyabroad.wisc.edu/academics/major-advising-pages-maps/history/>) due to its flexibility and because history courses are available in most study abroad programs. The History Department encourages study abroad, and our advising team is happy to help students ensure that they are meeting degree requirements while studying abroad.

Wisconsin Historical Society

Scholars and researchers from all over the country (and the world) come to the Wisconsin Historical Society (<https://www.wisconsinhistory.org/>) (WHS) to do historical research. History students at UW–Madison simply walk across the street to make use of this world-class institution. The collections of the WHS are an amazing resource for our students and are utilized by a wide range of our courses. History students can also develop internships related to the WHS collections and programs. Students who are interested in the history of film and television often explore, or major in, Communication Arts (p. 621) and can also get involved with the Wisconsin Center for Film and Theater Research (<http://wcfr.commarts.wisc.edu/>).

Center for Campus History

The University of Wisconsin–Madison's Rebecca M. Blank Center for Campus History (<https://campushistory.wisc.edu/>) is an ongoing effort to uncover and give voice to those who experienced, challenged, and overcame prejudice on campus. Undergraduate students have been involved with the Center since its inception as the Public History Project in 2019, working as researchers conducting both archival research and oral history interviews with former students, faculty, and staff.

Public Humanities Exchange for Undergraduates (HEX-U)

The Public Humanities Exchange for Undergraduates (<https://humanities.wisc.edu/public-humanities/exchange/>) (HEX-U) is a high-impact program for undergraduate students at UW–Madison who wish to make meaningful connections between their humanities scholarship and the needs of the local community through new models of social engagement. The program provides training in community partnership, mentoring during project design and implementation, and project funding to small cohorts of undergraduate scholars as they plan and implement creative community projects in partnership with Dane County organizations.

The Nonviolence Project

The Nonviolence Project (<https://thenonviolenceproject.wisc.edu/>) is a comprehensive repository that educates and informs readers on the impact of nonviolent protests all over the world. From environmental issues to racial equality, the project showcases how nonviolence has been

used to address many different issues by prominent world leaders and activists. The project aims to answer how and why nonviolence has been an effective sociopolitical tactic across different cultural, geographical, and political landscapes throughout history. The Nonviolence Project employs undergraduate student interns as researchers to help grow the repository of sources and present information to a broad audience.

Wisconsin 101: Our History in Objects

Wisconsin 101: Our History in Objects (<https://wi101.wisc.edu/>) is a collaborative public history project created through a partnership between the University of Wisconsin–Madison History Department, the Wisconsin Historical Society, and Wisconsin Public Radio's Wisconsin Life program. At its core, this project invites nonprofessional historians to profile objects from their daily lives and write short histories that contextualize those objects within local history, regional historical trends, and even international change. Wisconsin 101 provides valuable internship opportunities for undergraduate students throughout the state of Wisconsin. These internships offer experience for students interested in public humanities, material culture, local history, writing, and educational outreach or editing.

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

THE HISTORY LAB

The History Lab is a resource center for undergraduate students studying, researching, and writing about the past. It is staffed by talented and experienced graduate students from the Department of History, and UW–Madison is one of only a handful of universities in the United States to have this kind of history-specific writing support.

Through individual and group tutoring, the lab focuses on honing students' abilities to form suitable topics, conduct research, develop arguments and thesis statements, cite evidence properly, and write using an effective process. The lab is also equipped to support challenges faced by English-language learners.

For more information or to make an appointment, see the History Lab website. (<https://history.wisc.edu/undergraduate-program/the-history-lab/>)

RESEARCH FELLOWSHIPS AND SCHOLARSHIPS

The Department of History is committed to supporting undergraduate achievement and encourages applications for the various scholarships and research fellowships made possible by the generosity of its donors. Scholarships are designed to reward outstanding History students and are awarded annually. Research fellowships allow undergraduates to pursue in-depth historical research under the guidance of History faculty. These awards help defray research costs such as supplies and travel expenses or pay for living expenses to allow students time to craft their papers and conduct research in UW Libraries.

Detailed instructions on how to apply can be found on the Department of History website (<https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/scholarships-awards-and-prizes/>). Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (<https://wisc.academicworks.com/>).

UNDERGRADUATE WRITING PRIZES

The History department offers over fifteen different prizes designed to reward a broad range of undergraduate writing—from senior theses to digital and public history projects to specialized essays in American Indian History and LGBTQ+ History. The prizes are made possible thanks to the tremendous generosity of our alumni and former members of our faculty. The History department expresses its gratitude for their support in recognizing the achievements of our undergraduates.

Detailed instructions on how to apply can be found on the Department of History website (<https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/scholarships-awards-and-prizes/>). Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (<https://wisc.academicworks.com/>).

MEDIEVAL STUDIES, CERTIFICATE

The Medieval Studies certificate offers students interdisciplinary perspectives on the history and culture of Europe and the Mediterranean rim between ca. 300–1500. Courses from 18 departments allow students to explore the medieval world from the standpoints of art, visual and material culture, history, law, languages and literature, music, philosophy, religious studies, and the history of science and medicine. The certificate in Medieval Studies is designed to encourage the pursuit of interdisciplinary work across several departments.

The Middle Ages was a dynamic period of transcontinental trade and travel that fostered cultural, technological, and scientific interactions among the kingdoms and city states of Western Europe, the Byzantine (East Roman) Empire, and the Islamic caliphates that eventually encompassed much of Spain, north Africa, and the Middle East. It is also known that the Norse (Vikings) established settlements in North America as early as ca. 1000, some 500 years before Columbus.

In Western Europe, the Middle Ages laid the foundations of constitutional government and modern nation-states, instituted a system of trial by jury, and developed the first universities along with the concept of a liberal-arts curriculum (encompassing both arts and sciences). The period also saw the development of English, Germanic, Scandinavian, and romance languages (Italian, French, Spanish, Portuguese, Romanian), which by the end of the fourteenth century came to eclipse Latin as vehicles for secular poetry and prose. Further east, Greek dominated the territory of the Byzantine Empire, while the foundation of the Kyivan Rus coincided with the development of Cyrillic script used by many Slavic and non-Slavic languages. The Islamic world saw the wide diffusion of Arabic languages and literature, including scientific works which served to mediate knowledge of Greek natural philosophy and medical science to Western Europe.

Other significant cultural developments include the development of the codex, or book, often with elaborate programs of visual imagery and diagrams, the innovation of musical notation and early forms of polyphony, the application of optical science to urban planning and of one-point perspective to painting (especially in Italy), and the refinement of structural engineering that led to the soaring light-filled architecture of Gothic cathedrals in Western Europe and the expansive centralized domed spaces of the Byzantine Empire and related Orthodox states, as well as the Islamic world.

The program's focus is embodied in the interdisciplinary courses devoted to the history and culture of the Middle Ages that are regularly offered across campus by participating departments and programs. The program cross-lists many of these courses, helps to publicize courses with medieval subject matter that are not permanently cross-listed, and offers opportunities for students to undertake independent study projects with participating faculty members. It also regularly organizes public programming on specific themes with the support of the Anonymous Fund, the Center for the Humanities, the Institute for Research in the Humanities, and affiliated departments and programs.

In addition to departments and programs that regularly offer courses counting towards the Medieval Studies certificate—including Art History, Classical and Ancient Near Eastern Studies, English, French and Italian, Integrated Liberal Studies, German/Nordic/Slavic+ (including Folklore and Scandinavian Studies), History, History of Medicine, History of Science, Jewish Studies, Religious Studies, and Spanish and Portuguese—the following departments and programs occasionally offer courses on medieval topics: African Studies, Asian Languages and Culture, Music, Philosophy, and Political Science.

Like a minor, the certificate documents a student's pursuit of a rigorous course of study in addition to the major(s). It attests to ambitious intellectual goals as well as the ability to imagine historical problems in transnational and transcultural perspectives. As a credential, it demonstrates a capacity for comparative critical thinking and analysis, skills that appeal to a wide range of potential employers.

HOW TO GET IN

HOW TO GET IN

Students interested in working toward the certificate should contact the director of Medieval Studies as early in their degree program as possible. The director serves as the undergraduate advisor for all students pursuing the certificate. For further information see the Medieval Studies website (<http://www.medievalstudies.wisc.edu/>).

REQUIREMENTS

REQUIREMENTS

The certificate requires the completion of **five courses (15 credits)** in the medieval area, according to the following distributional requirements.

Students interested in working toward the certificate should contact the director of Medieval Studies as early in their degree program as possible. The director serves as the undergraduate advisor for all students pursuing the certificate. For further information see the Medieval Studies website (<http://www.medievalstudies.wisc.edu/>).

Code	Title	Credits
Complete one of the following:		3-4
HISTORY 115	Medieval Europe 410-1500	
ILS 201	Western Culture: Science, Technology, Philosophy I	
HIST SCI 201	The Origins of Scientific Thought	
ENGL 241	Literature and Culture I: to the 18th Century	
ART HIST 201	History of Western Art I: From Pyramids to Cathedrals	

Complete two courses from Category A ("The Middle Ages through History and Social Sciences").¹ **6**

Complete two courses from Category B ("The Middle Ages through Language, Literature and the Arts").¹ **6**

Total Credits **15**

¹ For a list of which individual courses count toward Category A and which toward Category B, see the course lists below.

RESIDENCE AND QUALITY OF WORK

- At least 8 certificate credits must be completed in residence.
- Minimum 2.000 GPA on all certificate courses.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Historical knowledge: Acquire knowledge of historical events, social structures, cultural productions, and/or scientific innovation from c. 300-1500; develop an understanding of the relationship between these and present-day institutions, forms of artistic expression, geopolitical problems, and environmental and social concerns.
2. Interdisciplinary perspective: Approach problems in the study of the past using sources and methods drawn from more than one traditionally defined academic discipline; achieve an understanding of the inherently interdisciplinary nature of medieval studies.
3. Primary research: Encounter and analyze primary sources—including but not limited to historical documents, religious writings, scientific treatises, literary texts, works of visual art and architecture, material culture, performance texts, and music—to reach an understanding of significant aspects of medieval culture and demonstrate that understanding in an applied format.
4. Critical thinking: Discern and synthesize different perspectives on the Middle Ages; identify and question assumptions about the medieval era; assess evidence and/or evaluate methods for understanding the complexities of the past.

ADVISING AND CAREERS

ADVISING AND CAREERS

Students can obtain advising for the certificate by contacting Jordan Zweck, the Director of Medieval Studies (jlzweck@wisc.edu). The director serves as the undergraduate advisor for all students pursuing the certificate. For further information see the Medieval Studies website (<https://medievalstudies.wisc.edu/certificate/>).

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

INFORMATION

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Information Science, BA (p. 852)
- Information Science, BS (p. 857)

INFORMATION SCIENCE, BA

Information Science students study concepts and examine issues at the nexus of people, data, information, and computing. They gain the knowledge and skills to create data-driven technologies and to make them work for real communities. Information Science focuses on the ethical, cultural, and social factors in design and use of information technology-based and data-driven systems. Students become adept in the creation, management, retrieval, and curation of data and information. The major emphasizes designing systems that foster well-being and support the public good.

HOW TO GET IN

HOW TO GET IN

Students must have a 2.000 GPA on coursework counting in the major, and a 2.000 GPA on any upper-level work in the major completed prior to declaration. No specific coursework must be completed to declare. For students below a 2.000 GPA, please contact iSciadvising@ischool.wisc.edu to discuss options and a path to declaring the Information Science major.

It is recommended that students declare the major as early as possible to plan for required coursework. First semester students without a calculated GPA are eligible to declare. For instructions on declaring the Information Science major, please see the Information Science (<https://ischool.wisc.edu/programs/information-science-major/>) webpage.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A & Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

Language	<ul style="list-style-type: none"> • Complete the fourth unit of a language other than English; OR • Complete the third unit of a language and the second unit of an additional language other than English.
----------	--

L&S Breadth	<ul style="list-style-type: none"> • 12 credits of Humanities, which must include 6 credits of literature; and • 12 credits of Social Science; and • 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.
-------------	--

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced work Complete at least 60 credits at the intermediate or advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW-Madison Experience

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

Quality of Work	• 2.000 in all coursework at UW-Madison
	• 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students must complete a minimum of 30 total credits as detailed below.

CORE INFORMATION SCIENCE COURSEWORK

Complete 21 credits of Core Information Science Coursework from these options:

- L I S courses in the Breadth Coursework lists (counts for both Core and Breadth)
- Additional Core L I S Coursework
- COMP SCI 570 (counts for both Core and Breadth)

Breadth Coursework

Complete one course and at least 3 credits from each category. Non-L I S courses completed in each category satisfy breadth and count towards the Approved Electives.

Ethics, Computing & Society

Code	Title	Credits
L I S 201	The Information Society	4
L I S 202	Informational Divides and Differences in a Multicultural Society	3
L I S 220	Digital Footprints: Privacy and Technology	3
L I S/LEGAL ST 460	Surveillance, Privacy, and Police Powers	3
L I S 461	Data and Algorithms: Ethics and Policy	3-4
L I S 500	Code and Power	3
L I S/LEGAL ST 663	Introduction to Cyberlaw	3

RESIDENCE & QUALITY OF WORK IN THE MAJOR

- Minimum 2.000 GPA in all L I S and major courses
- Minimum 2.000 GPA computed on 15 credits of upper-level work in the major¹
- Minimum 15 credits in L I S courses taken on the UW-Madison campus²

FOOTNOTES

¹ All Intermediate or Advanced-level courses are considered upper-level in the major.

² A course is considered "at UW-Madison" when it is taken on the UW-Madison campus.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate understanding of ways in which the policies, ethics, and values associated with information systems can affect society
2. Demonstrate understanding of the relationships between information, cognition, and human social activity
3. Apply design principles and information science concepts to improve information systems and solve problems
4. Apply introductory data analysis and data quality management approaches and communicate results
5. Apply computational tools to accomplish goals and meet human needs
6. Communicate well in oral, written, and visual forms

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

ADVISING AND CAREERS

ADVISING AND CAREERS

Students who are interested in information science academic advising for the major should visit the Information School website (<https://ischool.wisc.edu/programs/undergraduates/>) or contact the advisor by email at iSciAdvising@ischool.wisc.edu.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Visit Wisconsin Scholarship Hub (<https://wisc.academicworks.com/>) to find UW–Madison scholarships and apply online.

Visit the scholarships page (<https://ischool.wisc.edu/student-experience/awards-and-scholarships/>) on the Information School website for a compendium of opportunities available to students studying Information Sciences.

INFORMATION SCIENCE, BS

Information Science students study concepts and examine issues at the nexus of people, data, information, and computing. They gain the knowledge and skills to create data-driven technologies and to make them work for real communities. Information Science focuses on the ethical, cultural, and social factors in design and use of information technology-based and data-driven systems. Students become adept in the creation, management, retrieval, and curation of data and information. The major emphasizes designing systems that foster well-being and support the public good.

HOW TO GET IN

HOW TO GET IN

Students must have a 2.000 GPA on coursework counting in the major, and a 2.000 GPA on any upper-level work in the major completed prior to declaration. No specific coursework must be completed to declare. For students below a 2.000 GPA, please contact iSciadvicing@ischool.wisc.edu to discuss options and a path to declaring the Information Science major.

It is recommended that students declare the major as early as possible to plan for required coursework. First semester students without a calculated GPA are eligible to declare. For instructions on declaring the Information Science major, please see the Information Science (<https://ischool.wisc.edu/programs/information-science-major/>) webpage.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

Language Complete the third unit of a language other than English.

L&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced Coursework Complete at least 60 credits at the Intermediate or Advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW–Madison Experience Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

Quality of Work

- 2.000 in all coursework at UW–Madison
- 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students must complete a minimum of 30 total credits as detailed below.

CORE INFORMATION SCIENCE COURSEWORK

Complete 21 credits of Core Information Science Coursework from these options:

- L I S courses in the Breadth Coursework lists (counts for both Core and Breadth)
- Additional Core L I S Coursework
- COMP SCI 570 (counts for both Core and Breadth)

Breadth Coursework

Complete one course and at least 3 credits from each category. Non-L I S courses completed in each category satisfy breadth and count towards the Approved Electives.

Ethics, Computing & Society

Code	Title	Credits
L I S 201	The Information Society	4
L I S 202	Informational Divides and Differences in a Multicultural Society	3
L I S 220	Digital Footprints: Privacy and Technology	3
L I S/LEGAL ST 460	Surveillance, Privacy, and Police Powers	3
L I S 461	Data and Algorithms: Ethics and Policy	3-4
L I S 500	Code and Power	3
L I S/LEGAL ST 663	Introduction to Cyberlaw	3

Computational Techniques and Tools

Code	Title	Credits
L I S 351	Introduction to Digital Information	3

RESIDENCE & QUALITY OF WORK IN THE MAJOR

- Minimum 2.000 GPA in all L I S and major courses
- Minimum 2.000 GPA computed on 15 credits of upper-level work in the major¹
- Minimum 15 credits in L I S courses taken on the UW-Madison campus²

FOOTNOTES

¹ All Intermediate or Advanced-level courses are considered upper-level in the major.
² A course is considered “at UW-Madison” when it is taken on the UW-Madison campus.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

- 1. Demonstrate understanding of ways in which the policies, ethics, and values associated with information systems can affect society
- 2. Demonstrate understanding of the relationships between information, cognition, and human social activity
- 3. Apply design principles and information science concepts to improve information systems and solve problems
- 4. Apply introductory data analysis and data quality management approaches and communicate results
- 5. Apply computational tools to accomplish goals and meet human needs
- 6. Communicate well in oral, written, and visual forms

- Southeast Asian Studies, Certificate (p. 975)

AFRICAN STUDIES, CERTIFICATE

The African Studies Program (<https://africa.wisc.edu/>) supports research, teaching, and outreach at the University of Wisconsin-Madison, bringing together scholars in multiple disciplines, students, teachers, and community partners to consider all aspects of land and life in Africa. The African Studies Program is a U.S. Department of Education Title VI National Resource Center for Africa (<https://iris.wisc.edu/titlevi/>), a unit in The International Division, and a member of the campus consortium of internationally oriented programs known as the Institute for Regional and International Studies (<http://iris.wisc.edu/>).

The program was established in 1961 by an interdisciplinary team of internationally respected scholars including Jan Vasina, Philip Curtin, Frederick Simoons, and Aristrade Zolberg. The center continues to enjoy a reputation for excellence, having awarded more degrees to Africa specialists than any other American university. No other university boasts such a depth and range of expertise in Africanist scholarship. Over 70 affiliated faculty offer more than 100 courses in 35 departments around campus. The Department of African Cultural Studies offers students an opportunity to study a number of African languages including Arabic, Hausa, Swahili, Wolof, Yoruba, and Zulu, as well as options for self-directed study of less-commonly taught languages.

Undergraduates from any department can benefit from access to our programs and top-ranked faculty by completing a certificate in African studies. The certificate is highly interdisciplinary and welcomes students with backgrounds in the humanities, social sciences, business, health, agriculture, or the environment. What unites certificate students is a shared interest in the people, places, and stories of the continent of Africa.

A certificate in African Studies indicates that a student has acquired an interdisciplinary knowledge about the African continent, its histories, its stories, and its people. African Studies alumni serve in a number of important leadership positions in both the private and public sectors. Former students have gone on to serve as ambassadors, presidential advisors, and leaders of investment firms and Washington think tanks. Many undergraduate certificate students launch their internationally oriented careers by joining the Peace Corps (<https://peacecorps.wisc.edu/>) after graduation.

HOW TO GET IN

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the African Studies Program undergraduate advisor (advising@africa.wisc.edu).

¹ No more than two courses from any one SUBJECT may count toward the certificate. A cross-listed course may count in either—but not both—SUBJECTs in which it is cross-listed.

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses
- At least 8 certificate credits must be completed in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Historical Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. (Depth of knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline.

ADVISING AND CAREERS

ADVISING AND CAREERS

We require that students visit with the advisor at least once per semester. Advising for the certificate is run by the African Studies Program advisor, Aleia Ingulli McCord, advising@africa.wisc.edu, who can assist you in developing your plan of study for the certificate, track progress toward the certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments.

We strongly encourage students to enroll in Africa: An Introductory Survey (AFRICAN/AFROAMER/ANTHRO/GEOG/HISTORY/POLI SCI/ SOC 277), to study an African language, and to study abroad (<https://studyabroad.wisc.edu/programsearch/?Region=2>) in Africa.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)

- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

As a regional center within the Institute for Regional and International Studies (<https://iris.wisc.edu/>), we support and enhance international and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, learn foreign languages, and expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K–12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who is interested.

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information about funding through the African Studies Program is available on our website (<https://africa.wisc.edu/academics/academic-fellowships-and-awards/>). We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (<https://iris.wisc.edu/funding/students/>).

EAST ASIAN STUDIES, CERTIFICATE

CERTIFICATE IN EAST ASIAN STUDIES

The certificate in East Asian Studies is offered by the Center for East Asian Studies (<https://eastasia.wisc.edu/>) (CEAS) and is available to students working toward a baccalaureate degree in any of the University of Wisconsin–Madison schools and colleges, and to University Special students. This certificate meets the needs of students choosing to focus on the East Asian region (China, Korea, Japan, and Tibet) within their primary major, but not wishing to commit to the rigorous language study required by the relevant majors in the Department of Asian Languages and Cultures.

Students select coursework reflecting their interests from myriad classes offered through many university departments and can work toward a variety of undergraduate majors. Upon earning the certificate, this emphasis is noted on the student's transcript. The certificate is of value to

students wishing to demonstrate their knowledge of the East Asian region either to potential employers or to graduate schools.

ABOUT CEAS

CEAS began in 1962 as the East Asian Studies program, building on more than 60 years of research and teaching on China, Japan, and Korea at UW–Madison. Over the years it has grown from fewer than a dozen faculty members teaching 30 graduate-level courses to more than 70 faculty members teaching nearly 300 courses at both undergraduate and graduate levels.

CEAS is the focal point connecting East Asia to the University of Wisconsin–Madison. One of UW–Madison’s eight federally funded National Resource Centers, CEAS is dedicated to all aspects of research, education, and outreach related to China, Japan, and Korea.

Students interested in more specialized study of the languages and literatures of East Asia, South Asia, or Southeast Asia should see the Department of Asian Languages and Cultures, the Center for South Asia, or the Center for Southeast Asian Studies; those interested in study of languages and cultures of Central Asia should see the Center for Russian, East European, and Central Asian Studies. All questions pertaining to East Asian studies at UW–Madison should be addressed to the Center for East Asian Studies.

HOW TO GET IN

HOW TO GET IN

Students interested in declaring the East Asian Studies certificate should contact the advisor for the program.

Students declared in the Asian Languages and Cultures: East Asian Studies BA/BS/MAJ are not eligible to declare the East Asian Studies certificate.

REQUIREMENTS

REQUIREMENTS

Complete 21 credits representing at least three Subjects, from: ¹

Code	Title	Credits
Core Course		
HISTORY/ASIAN/ POLI SCI 255	Introduction to East Asian Civilizations	3-4
Additional Certificate Requirements		
Complete at least three courses numbered 300 or above from the Certificate Courses list		9
Complete 9 credits of additional electives from the Certificate Courses list		9
Total Credits		21

FOOTNOTE

¹ A maximum 12 credits of East Asian language may apply.

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses
- At least 11 certificate credits must be completed in residence

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW-Madison and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Historical Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. (Depth of Knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline.

ADVISING AND CAREERS

ADVISING AND CAREERS

Students should contact the David Fields (dpfields@wisc.edu), the certificate advisor with questions regarding courses and requirements.

Students interested in international internships should contact the International Internships Program (<http://internships.international.wisc.edu/>) office.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

RESOURCES AND SCHOLARSHIPS

Please visit our Funding Opportunities page for information on funding available to CEAS students.

Please join the CEAS mailing list (<https://wisc.us19.list-manage.com/subscribe/?u=fccb9f121aa754e663a765bfc&id=c7aa1cbdaf>) to receive "This Week at CEAS," a weekly newsletter that contains information on events and opportunities related to East Asia.

EUROPEAN STUDIES, CERTIFICATE

The European Studies Program (<https://europe.wisc.edu/>), in cooperation with the Center for European Studies, the Jean Monnet European Union

Center of Excellence (JMEUCE), and the DAAD Center for German and European Studies (CGES), promotes knowledge and understanding of Europe both on and off campus. Established in 1968, the program provides integrated interdisciplinary studies on contemporary Europe for both undergraduate and graduate students. The program brings together scholars on campus interested in different aspects of Europe to discuss topics of mutual interest. More than 30 departments offer courses on Europe (excluding language courses), providing the largest number of courses on any region of the world other than the United States.

HOW TO GET IN

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the Center for European Studies or the undergraduate advisor.

REQUIREMENTS

REQUIREMENTS

LANGUAGE REQUIREMENT

Students may satisfy the European language requirement by taking college courses, or through high school units. There are two options to complete the requirement—students can either complete:

1. Four units of a single European language
or
2. Three units of one European language and two units of a second European language.

Fourth, Third, and Second Unit Courses

Code	Title	Credits
Fourth unit courses:		
Courses above fourth semester may used to satisfy this requirement.		
FRENCH 204	Fourth Semester French	
GERMAN 204	Fourth Semester German	
GERMAN 214	Fourth Semester Dutch	
GNS 440	Fourth Semester Turkish	
GREEK 306	Fourth Semester Ancient Greek	
ITALIAN 204	Fourth Semester Italian	
PORTUG 202	Fourth Semester Portuguese

RESIDENCE AND QUALITY OF WORK

- Minimum 2.500 GPA on all certificate courses.
- At least 11 certificate credits must be completed in residence.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Historical Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. (Depth of knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking seven courses on three particular sub-regions or countries or by taking seven courses on the region in more than one discipline
4. (Language knowledge) mastering at undergraduate generalist level a particular facet of life in the region by studying a regional language to the intermediate level.

ADVISING AND CAREERS

ADVISING AND CAREERS

Advising (<https://europe.wisc.edu/certificate/>) for the certificate is through the Institute for Regional and International Studies (IRIS). The IRIS Assistant Director for Students and Curriculum can assist students in developing a plan of study for the certificate, track progress toward the certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments. We strongly encourage students to begin career exploration early on and to make use of the many resources available on campus.

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)

- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try "Jobs, Internships, & How to Get Them," (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW-Madison students

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

As a regional center within the Institute for Regional and International Studies (<https://iris.wisc.edu/>), we support and enhance international and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, learn foreign languages, and expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students and prospective students, and more broadly to K-12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who wants it.

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information about funding through the Center for European Studies is available on our website (<http://europe.wisc.edu/outreach-opportunities/>). We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (<https://iris.wisc.edu/funding/>).

INTERNATIONAL STUDIES, BA

International Studies (IS) is an interdisciplinary major with a broad background in international and transnational political, social, economic, commercial, and environmental affairs, together with a comparative study of politics, economics, security, and culture. The goal is to provide students with the necessary tools to understand global processes in their totality and how they are situated and lived in specific regions.

The major provides an integrated program of courses that lays the foundation for professional training in a wide variety of areas. Such a foundation can be invaluable in securing a place in competitive graduate or professional schools, which, in turn, prepare students for government service, or for other careers with an international focus, including those in multinational corporations, international finance, non-governmental organizations, and institutions of teaching and research.

The International Studies major complements numerous majors across campus. Many students choose to double major or enhance their studies

with one or more certificates, such as the Global Health certificate or those offered by the area studies centers.

This major is interdisciplinary, offering a wealth of options. Careful planning and consultation with the International Studies advisor is especially important.

OPTIONS IN THE MAJOR: HUMAN RIGHTS AND HUMANITARIANISM

This named option covers the range of laws, norms, and organizations that address the protection of vulnerable populations and ordinary citizens. This named option covers human rights, as they are codified in the Universal Declaration of Human Rights; hence it covers the civil and political rights, from speech, belief, association, and discrimination, to social, economic, and cultural rights, such as the right to education, health, and water, among others. Human Rights and Humanitarianism also encompasses the organizations and institutions that work to protect and advocate for these rights, inclusive of courses on international law, nonprofit management, and non-state actors in global politics as well as those on specialized multilateral organizations that deal with human rights, such as regional organizations and specialized agencies at the United Nations. The named option similarly addresses social movements for change. It addresses the ways in which civilians are protected when thrust into conditions of hardship, including the laws of war, regimes on migration and forced migration, and efforts to address global health disparities.

GLOBAL SECURITY

This named option covers traditional and non-traditional forms of insecurity, disorder, and violent conflict as well as efforts to resolve and manage conflict. The thematic categories include forms of war, including interstate and civil war, as well as forms of political violence against civilians, such as terrorism, genocide, riots, and massacres. Global Security also covers non-traditional forms of insecurity, such as climate change, biothreats, pandemics and other infectious diseases, cyberattacks and cybersecurity, and food security. This named option also encompasses a range of ways to manage these forms of insecurity, including peacekeeping, other multilateral efforts to mediate conflict, counterinsurgency, and post-conflict peacebuilding.

POLITICS AND POLICY IN THE GLOBAL ECONOMY

This named option offers a multidisciplinary survey of international economic and political institutions and transactions, as well as the policy issues pertaining to international commerce and trade, international finance and monetary relations, international macroeconomic policy coordination, U.S. trade imbalances, aid and development, and related environmental and natural resource problems.

CULTURE IN THE AGE OF GLOBALIZATION

In this named option, students investigate crosscultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

STUDY ABROAD

International Studies and studying abroad are a natural combination. While study abroad is not a requirement for the major, all International Studies students are strongly encouraged to pursue a significant international

experience during the course of the undergraduate career. Whether through a study abroad program, an internship, or service learning, the experience of studying or working in a foreign culture is invaluable. Many courses taken abroad will count toward the International Studies major. See the International Studies advisor for specific guidelines. More information about study abroad and internships is available through International Academic Programs (<http://www.studyabroad.wisc.edu/>).

HOW TO GET IN

HOW TO GET IN

Students are advised to declare the major as soon as they are enrolled in INTL ST 101 and/or before studying abroad.

To be eligible to declare the International Studies Major, students must be enrolled or working toward the following courses:

Code	Title	Credits
INTL ST 101	Introduction to International Studies	3-4

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	<ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *
-------------------	--

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of

Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.
Language	<ul style="list-style-type: none"> Complete the fourth unit of a language other than English; OR Complete the third unit of a language and the second unit of an additional language other than English.
L&S Breadth	<ul style="list-style-type: none"> 12 credits of Humanities, which must include 6 credits of literature; and 12 credits of Social Science; and 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW–Madison Experience	<ul style="list-style-type: none"> 30 credits in residence, overall; and 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none"> 2.000 in all coursework at UW–Madison 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS OF THE MAJOR

Students must declare the major, complete the common requirements, and the requirements for one of these options (p.) within the international studies major:

- Culture in the Age of Globalization
- Global Security
- Politics and Policy in the Global Economy
- Human Rights and Humanitarianism

A student may not declare or earn more than one major option. The major requires 45 credits total between Foundational Requirements and Named Option Requirements.¹

FOUNDATIONAL REQUIREMENTS

Code	Title	Credits
International Foundations		
INTL ST 101	Introduction to International Studies	3–4
Economic Foundations (complete one of the following):		3–8
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
ECON 111	Principles of Economics–Accelerated Treatment	
A A E 101 & ECON 102	Introduction to Agricultural and Applied Economics and Principles of Macroeconomics	
POLI SCI 350	International Political Economy	
A A E/ ENVIR ST 244	The Environment and the Global Economy	
Historical Foundations		3–4
INTL ST/ HISTORY 146	A Global History of Now	
Regional Foundations		6–8
Complete at least one course from "Global South" lists and take either an additional course from "Global South" list or a course from the "Additional Area Studies" List.		
<i>Global South:</i>		
AFRICAN/ AFROAMER/ ANTHRO/ GEOG/HISTORY/ POLI SCI/ SOC 277	Africa: An Introductory Survey	
ASIAN/ HISTORY 458	History of Southeast Asia Since 1800

SPANISH 311	Advanced Language Practice

Total Credits**18****OPTIONS IN THE MAJOR**

View as listView as grid

- **INTERNATIONAL STUDIES: CULTURE IN AN AGE OF GLOBALIZATION (P. 882)**
- **INTERNATIONAL STUDIES: GLOBAL SECURITY (P. 890)**
- **INTERNATIONAL STUDIES: HUMAN RIGHTS AND HUMANITARIANISM (P. 898)**
- **INTERNATIONAL STUDIES: POLITICS AND POLICY IN THE GLOBAL ECONOMY (P. 907)**

Each option in the major **requires 27 credits**. This is in addition to completing the foundational requirements. Students complete the option-specific requirements for Core, Issues, and Elective classes.¹

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all INTL ST courses and courses approved for the major
- 2.000 GPA on 15 Upper-Level major credits, taken in residence²
- 15 credits in the major, taken on the UW-Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the International Studies Major in consultation with the International Studies advisor(s). They must declare prior to enrollment in their Senior Honors Thesis (typically second semester of junior year).

REQUIREMENTS FOR HONORS IN THE MAJOR

To earn Honors in the Major in International Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in major courses
- Complete 16 upper-level major credits, taken for Honors, with individual grades of B or better in each course^{2,3}
- Complete a two-semester Senior Honors Thesis, for a total of 6 credits, or two Senior Seminars, with grades of B or better; choose from:

Code	Title	Credits
Senior Honors Thesis (2 courses):		
AFRICAN 681 & AFRICAN 682	Senior Honors Thesis and Senior Honors Thesis	
ECON 681 & ECON 682	Senior Honors Thesis and Senior Honors Thesis	
FRENCH 681 & FRENCH 682	Senior Honors Thesis and Senior Honors Thesis	
GERMAN 681 & GERMAN 682	Senior Honors Thesis-First Semester and Senior Honors Thesis-Second Semester	
HISTORY 681 & HISTORY 682	Senior Honors Thesis and Senior Honors Thesis	
INTL ST 681 & INTL ST 682	Senior Honors Thesis and Senior Honors Thesis	

POLI SCI 681 & POLI SCI 682	Senior Honors Thesis and Senior Honors Thesis
PORTUG 681 & PORTUG 682	Senior Honors Thesis and Senior Honors Thesis
SLAVIC 681 & SLAVIC 682	Senior Honors Thesis and Senior Honors Thesis
SPANISH 681 & SPANISH 682	Senior Honors Thesis and Senior Honors Thesis
Senior Seminar (2 courses):	
INTL ST 601	Topics in Global Security
INTL ST 602	Topics in Politics and Policy in the Global Economy
INTL ST 603	Topics in Culture in the Age of Globalization
INTL ST 605	

FOOTNOTES

- ¹ A maximum four courses from a single SUBJECT may be applied to the 27 credits in the named option of the major. This excludes INTL ST courses and courses cross-listed in INTL ST. For example: A student with five POLI SCI courses that could apply to the major will see only four of those courses applying in the International Studies major. (However, if one of those POLI SCI courses is also cross-listed in INTL ST, that course will not count against the limit, and thus, all five POLI SCI courses will apply in the major.) The degree audit (DARS) enforces this limitation.
- Though some courses are identified as acceptable for two or more requirements, a course may meet only one requirement within the major. For example, a course that could count in either Option Core or Option Issues will meet only one of those requirements, based on which requirement needs that course to become satisfied. The degree audit (DARS) determines the best scenario.
- ² Major courses designated Intermediate and Advanced level are considered upper-level.
- ³ A maximum of two courses and 8 credits from UW-Madison Study Abroad may apply to this requirement.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Interdisciplinarity) analyzing contemporary political, economic, security and cultural realities globally from multi-disciplinary perspectives, ideally including humanities, social sciences, humanitarian, and sometimes natural science approaches.
2. (Depth of knowledge) mastering at the undergraduate generalist level major issues related to key themes in International Studies (e.g. culture, global security and political economy) by taking 15 credits in one particular theme area.
3. (Regional (studies) grounding) understanding the social, political, economic and cultural forces and conditions that have given rise to the unity and diversity of a specific region of the world today.
4. (Language knowledge) mastering at the undergraduate generalist level a particular facet of life in one or more region of the world by studying a language to at least the advanced (5th semester) level.
5. (Analytical skills) demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING STAFF

International Studies students have a wide variety of academic advising and career resources and support. Academic advising is essential to a successful undergraduate experience. For this reason, the International Studies major has a professional advisor, a peer advisor, and a career advisor.

We recommend that you meet with your advisor at least once per semester to track progress toward your degree, explore study abroad options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments. Students exploring the International Studies major should plan to attend an Intro to the IS Major workshop (<https://ismajor.wisc.edu/intro-to-the-is-major-workshop/>), watch the Intro to the IS Major video, or meet with a peer advisor. To learn more about academic advising information, please visit the IS Major website (<https://ismajor.wisc.edu/academic-advising/>).

Students should also begin the career advising process early. The international studies major offers a one-credit career class designed for sophomores or juniors. Students are strongly encouraged to meet with both the International Studies career advisor and SuccessWorks at the

College of Letters & Science, and to apply for internship opportunities, both domestically and via International Internship Programs or the Washington, D.C. Internship Program. The International Studies major also advertises career events across campus that will benefit undergraduate students, hosts career workshops, and has a transition checklist to help students prepare for post-undergraduate life. For more information, please visit our website (<https://ismajor.wisc.edu/career-advising/>).

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE
STUDY ABROAD

International studies majors are strongly encouraged to study abroad. The International Studies Major website (<http://www.ismajor.wisc.edu/about/current-students/study-abroad/>) provides information about how to plan your experience abroad.

INTERNSHIP ABROAD

International studies majors are strongly encouraged to study abroad. Please review information on the International Studies Major website (<http://www.ismajor.wisc.edu/about/current-students/internships/>) and the International Internship Program website (<http://internships.international.wisc.edu/>) about opportunities.

UNDERGRADUATE RESEARCH

The international studies major encourages students to become engaged in undergraduate research. There are numerous programs (<https://teachlearn.wisc.edu/undergraduate-research/>) that provide research opportunities for undergraduates at UW–Madison, including:

- Hilldale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/>)
- McNair Scholars (<https://mcnair.wisc.edu/>)
- Summer Research Opportunity Program (<https://grad.wisc.edu/diversity/summer-research-opportunity-program/>)
- Undergraduate Research Scholars (<https://urs.ls.wisc.edu/>)

- Wisconsin Idea Fellowship Program (<https://morgridge.wisc.edu/get-connected-students/wisconsin-undergraduate-idea-fellowships/>)

RESOURCES AND SCHOLARSHIPS

RESOURCES AND
SCHOLARSHIPS

For information on scholarships and awards through the International Studies major, please see our website (<https://ismajor.wisc.edu/scholarships-and-grants/>) or contact our advisors. Students are also strongly encouraged to contact the Awards Office (<https://iris.wisc.edu/funding/>) at the Institute for Regional and International Studies to explore multiple international awards and scholarships.

INTERNATIONAL STUDIES, BS

International Studies (IS) is an interdisciplinary major with a broad background in international and transnational political, social, economic, commercial, and environmental affairs, together with a comparative study of politics, economics, security, and culture. The goal is to provide students with the necessary tools to understand global processes in their totality and how they are situated and lived in specific regions.

The major provides an integrated program of courses that lays the foundation for professional training in a wide variety of areas. Such a foundation can be invaluable in securing a place in competitive graduate or professional schools, which, in turn, prepare students for government service, or for other careers with an international focus, including those

in multinational corporations, international finance, non-governmental organizations, and institutions of teaching and research.

The International Studies major complements numerous majors across campus. Many students choose to double major or enhance their studies with one or more certificates, such as the Global Health certificate or those offered by the area studies centers.

This major is interdisciplinary, offering a wealth of options. Careful planning and consultation with the International Studies advisor is especially important.

OPTIONS IN THE MAJOR: HUMAN RIGHTS AND HUMANITARIANISM

This named option covers the range of laws, norms, and organizations that address the protection of vulnerable populations and ordinary citizens. This named option covers human rights, as they are codified in the Universal Declaration of Human Rights; hence it covers the civil and political rights, from speech, belief, association, and discrimination, to social, economic, and cultural rights, such as the right to education, health, and water, among others. Human Rights and Humanitarianism also encompasses the organizations and institutions that work to protect and advocate for these rights, inclusive of courses on international law, nonprofit management, and non-state actors in global politics as well as those on specialized multilateral organizations that deal with human rights, such as regional organizations and specialized agencies at the United Nations. The named option similarly addresses social movements for change. It addresses the ways in which civilians are protected when thrust into conditions of hardship, including the laws of war, regimes on migration and forced migration, and efforts to address global health disparities.

GLOBAL SECURITY

This named option covers traditional and non-traditional forms of insecurity, disorder, and violent conflict as well as efforts to resolve and manage conflict. The thematic categories include forms of war, including interstate and civil war, as well as forms of political violence against civilians, such as terrorism, genocide, riots, and massacres. Global Security also covers non-traditional forms of insecurity, such as climate change, biothreats, pandemics and other infectious diseases, cyberattacks and cybersecurity, and food security. This named option also encompasses a range of ways to manage these forms of insecurity, including peacekeeping, other multilateral efforts to mediate conflict, counterinsurgency, and post-conflict peacebuilding.

POLITICS AND POLICY IN THE GLOBAL ECONOMY

This named option offers a multidisciplinary survey of international economic and political institutions and transactions, as well as the policy issues pertaining to international commerce and trade, international finance and monetary relations, international macroeconomic policy coordination, U.S. trade imbalances, aid and development, and related environmental and natural resource problems.

CULTURE IN THE AGE OF GLOBALIZATION

In this named option, students investigate crosscultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

STUDY ABROAD

International Studies and studying abroad are a natural combination. While study abroad is not a requirement for the major, all International Studies students are strongly encouraged to pursue a significant international experience during the course of the undergraduate career. Whether through a study abroad program, an internship, or service learning, the experience of studying or working in a foreign culture is invaluable. Many courses taken abroad will count toward the International Studies major. See the International Studies advisor for specific guidelines. More information about study abroad and internships is available through International Academic Programs (<http://www.studyabroad.wisc.edu/>).

HOW TO GET IN

HOW TO GET IN

Students are advised to declare the major as soon as they are enrolled in INTL ST 101 and/or before studying abroad.

To be eligible to declare the International Studies Major, students must be enrolled or working toward the following courses:

Code	Title	Credits
INTL ST 101	Introduction to International Studies	3-4

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	<ul style="list-style-type: none">• Breadth–Humanities/Literature/Arts: 6 credits• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits• Breadth–Social Studies: 3 credits• Communication Part A & Part B *• Ethnic Studies *• Quantitative Reasoning Part A & Part B *
-------------------	---

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
L&S Breadth	Complete: <ul style="list-style-type: none">• 12 credits of Humanities, which must include at least 6 credits of Literature; and• 12 credits of Social Science; and• 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: <ul style="list-style-type: none">• 30 credits in residence, overall, and• 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none">• 2.000 in all coursework at UW-Madison• 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS OF THE MAJOR

Students must declare the major, complete the common requirements, and the requirements for one of these options (p.) within the international studies major:

- Culture in the Age of Globalization
- Global Security
- Politics and Policy in the Global Economy
- Human Rights and Humanitarianism

A student may not declare or earn more than one major option. The major requires 45 credits total between Foundational Requirements and Named Option Requirements.¹

FOUNDATIONAL REQUIREMENTS

Code	Title	Credits
------	-------	---------

International Foundations

INTL ST 101	Introduction to International Studies	3-4
-------------	---------------------------------------	-----

Economic Foundations (complete one of the following): 3-8

ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
ECON 111	Principles of Economics- Accelerated Treatment	
A A E 101 & ECON 102	Introduction to Agricultural and Applied Economics and Principles of Macroeconomics	
POLI SCI 350	International Political Economy	
A A E/ ENVIR ST 244	The Environment and the Global Economy	

Historical Foundations 3-4

INTL ST/ HISTORY 146	A Global History of Now	
-------------------------	-------------------------	--

Regional Foundations 6-8

Complete at least one course from "Global South" lists and take either an additional course from "Global South" list or a course from the "Additional Area Studies" List.

Global South:

AFRICAN/ AFROAMER/ ANTHRO/ GEOG/HISTORY/ POLI SCI/ SOC 277	Africa: An Introductory Survey	
ASIAN/ HISTORY 458	History of Southeast Asia Since 1800	
GEOG 355	Africa, South of the Sahara	
GEOG 358	Human Geography of Southeast Asia	
GNS/ HISTORY 265	An Introduction to Central Asia: From the Silk Route to Afghanistan	
HISTORY 139	Introduction to the Modern Middle East	
HISTORY 142	History of South Asia to the Present	
HISTORY/ INTL ST/ LACIS 242	Modern Latin America	
HISTORY/ASIAN/ GEOG/POLI SCI/ SOC 244	Introduction to Southeast Asia: Vietnam to the Philippines	
HISTORY/ AFROAMER/ ANTHRO/ C&E SOC/ GEOG/LACIS/ POLI SCI/SOC/ SPANISH 260	Latin America: An Introduction	

HISTORY/ ASIAN 341	History of Modern China, 1800-1949	
HISTORY/ ASIAN 342	History of the Peoples Republic of China, 1949 to the Present	
HISTORY 450	Making of Modern South Asia	
INTL ST 266	Introduction to the Middle East	
POLI SCI/ASIAN/ HISTORY 255	Introduction to East Asian Civilizations	

Additional Area Studies:

GEOG 340	World Regions in Global Context	
GEOG 359	Australia: Environment and Society	
HISTORY 120	Europe and the Modern World 1815 to the Present	
HISTORY 359	History of Europe Since 1945	
HISTORY 410	History of Germany, 1871 to the Present	
HISTORY 418	History of Russia	
HISTORY/ SCAND ST 432	History of Scandinavia Since 1815	
SLAVIC/GEOG/ HISTORY/ POLI SCI 253	Russia: An Interdisciplinary Survey	
SLAVIC/GEOG/ HISTORY/ POLI SCI 254	Eastern Europe: An Interdisciplinary Survey	

Language Foundations (Complete one): 3-4

AFRICAN 329	Fifth Semester Arabic	
AFRICAN 343	Fifth Semester Summer Arabic	
AFRICAN 435	Fifth Semester Swahili

OPTIONS IN THE MAJOR

View as listView as grid

- **INTERNATIONAL STUDIES: CULTURE IN AN AGE OF GLOBALIZATION (P. 882)**
- **INTERNATIONAL STUDIES: GLOBAL SECURITY (P. 890)**
- **INTERNATIONAL STUDIES: HUMAN RIGHTS AND HUMANITARIANISM (P. 898)**
- **INTERNATIONAL STUDIES: POLITICS AND POLICY IN THE GLOBAL ECONOMY (P. 907)**

Each option in the major **requires 27 credits**. This is in addition to completing the foundational requirements. Students complete the option-specific requirements for Core, Issues, and Elective classes.¹

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all INTL ST courses and courses approved for the major
- 2.000 GPA on 15 Upper-Level major credits, taken in residence²
- 15 credits in the major, taken on the UW-Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the International Studies Major in consultation with the International Studies advisor(s). They must declare prior to enrollment in their Senior Honors Thesis (typically second semester of junior year).

REQUIREMENTS FOR HONORS IN THE MAJOR

To earn Honors in the Major in International Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in major courses
- Complete 16 upper-level major credits, taken for Honors, with individual grades of B or better in each course^{2, 3}
- Complete a two-semester Senior Honors Thesis, for a total of 6 credits, or two Senior Seminars, with grades of B or better; choose from:

Code	Title	Credits
Senior Honors Thesis (2 courses):		
AFRICAN 681 & AFRICAN 682	Senior Honors Thesis and Senior Honors Thesis	
ECON 681 & ECON 682	Senior Honors Thesis and Senior Honors Thesis	
FRENCH 681 & FRENCH 682	Senior Honors Thesis and Senior Honors Thesis	
GERMAN 681 & GERMAN 682	Senior Honors Thesis-First Semester and Senior Honors Thesis-Second Semester	
HISTORY 681 & HISTORY 682	Senior Honors Thesis and Senior Honors Thesis	
INTL ST 681 & INTL ST 682	Senior Honors Thesis and Senior Honors Thesis	

POLI SCI 681 & POLI SCI 682	Senior Honors Thesis and Senior Honors Thesis
PORTUG 681 & PORTUG 682	Senior Honors Thesis and Senior Honors Thesis
SLAVIC 681 & SLAVIC 682	Senior Honors Thesis and Senior Honors Thesis
SPANISH 681 & SPANISH 682	Senior Honors Thesis and Senior Honors Thesis
Senior Seminar (2 courses):	
INTL ST 601	Topics in Global Security
INTL ST 602	Topics in Politics and Policy in the Global Economy
INTL ST 603	Topics in Culture in the Age of Globalization
INTL ST 605	

FOOTNOTES

¹ A maximum four courses from a single SUBJECT may be applied to the 27 credits in the named option of the major. This excludes INTL ST courses and courses cross-listed in INTL ST. For example: A student with five POLI SCI courses that could apply to the major will see only four of those courses applying in the International Studies major. (However, if one of those POLI SCI courses is also cross-listed in INTL ST, that course will not count against the limit, and thus, all five POLI SCI courses will apply in the major.) The degree audit (DARS) enforces this limitation.

Though some courses are identified as acceptable for two or more requirements, a course may meet only one requirement within the major. For example, a course that could count in either Option Core or Option Issues will meet only one of those requirements, based on which requirement needs that course to become satisfied. The degree audit (DARS) determines the best scenario.

² Major courses designated Intermediate and Advanced level are considered upper-level.

³ A maximum of two courses and 8 credits from UW-Madison Study Abroad may apply to this requirement.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work

Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Interdisciplinarity) analyzing contemporary political, economic, security and cultural realities globally from multi-disciplinary perspectives, ideally including humanities, social sciences, humanitarian, and sometimes natural science approaches.
2. (Depth of knowledge) mastering at the undergraduate generalist level major issues related to key themes in International Studies (e.g. culture, global security and political economy) by taking 15 credits in one particular theme area.
3. (Regional (studies) grounding) understanding the social, political, economic and cultural forces and conditions that have given rise to the unity and diversity of a specific region of the world today.
4. (Language knowledge) mastering at the undergraduate generalist level a particular facet of life in one or more region of the world by studying a language to at least the advanced (5th semester) level.
5. (Analytical skills) demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Total Credits 120**ADVISING AND CAREERS****ADVISING AND CAREERS****ADVISING STAFF**

International Studies students have a wide variety of academic advising and career resources and support. Academic advising is essential to a successful undergraduate experience. For this reason, the International Studies major has a professional advisor, a peer advisor, and a career advisor.

We recommend that you meet with your advisor at least once per semester to track progress toward your degree, explore study abroad options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments. Students exploring the International Studies major should plan to attend an Intro to the IS Major workshop (<https://ismajor.wisc.edu/intro-to-the-is-major-workshop/>), watch the Intro to the IS Major video, or meet with a peer advisor. To learn more about academic advising information, please visit the IS Major website (<https://ismajor.wisc.edu/academic-advising/>).

Students should also begin the career advising process early. The international studies major offers a one-credit career class designed for sophomores or juniors. Students are strongly encouraged to meet with both the International Studies career advisor and SuccessWorks at the

College of Letters & Science, and to apply for internship opportunities, both domestically and via International Internship Programs or the Washington, D.C. Internship Program. The International Studies major also advertises career events across campus that will benefit undergraduate students, hosts career workshops, and has a transition checklist to help students prepare for post-undergraduate life. For more information, please visit our website (<https://ismajor.wisc.edu/career-advising/>).

SUCCESSWORKS

SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (<https://successworks.wisc.edu/what-you-can-do-with-your-major/>) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
- Try “Jobs, Internships, & How to Get Them,” (<https://successworks.wisc.edu/canvas/>) an interactive guide in Canvas for enrolled UW–Madison students

WISCONSIN EXPERIENCE**WISCONSIN EXPERIENCE
STUDY ABROAD**

International studies majors are strongly encouraged to study abroad. The International Studies Major website (<http://www.ismajor.wisc.edu/about/current-students/study-abroad/>) provides information about how to plan your experience abroad.

INTERNSHIP ABROAD

International studies majors are strongly encouraged to study abroad. Please review information on the International Studies Major website (<http://www.ismajor.wisc.edu/about/current-students/internships/>) and the International Internship Program website (<http://internships.international.wisc.edu/>) about opportunities.

UNDERGRADUATE RESEARCH

The international studies major encourages students to become engaged in undergraduate research. There are numerous programs (<https://teachlearn.wisc.edu/undergraduate-research/>) that provide research opportunities for undergraduates at UW–Madison, including:

- Hilldale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/>)
- McNair Scholars (<https://mcnair.wisc.edu/>)
- Summer Research Opportunity Program (<https://grad.wisc.edu/diversity/summer-research-opportunity-program/>)
- Undergraduate Research Scholars (<https://urs.ls.wisc.edu/>)

- Wisconsin Idea Fellowship Program (<https://morgridge.wisc.edu/get-connected-students/wisconsin-undergraduate-idea-fellowships/>)

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

For information on scholarships and awards through the International Studies major, please see our website (<https://ismajor.wisc.edu/scholarships-and-grants/>) or contact our advisors. Students are also strongly encouraged to contact the Awards Office (<https://iris.wisc.edu/funding/>) at the Institute for Regional and International Studies to explore multiple international awards and scholarships.

LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES, BA

The Latin American, Caribbean, and Iberian Studies Program is one of the major U.S. centers for research about Latin America.

This major is for those who seek a multidisciplinary education on Latin America, the Caribbean, Spain, and Portugal. It offers a wide range of courses in fields such as anthropology, business, economics, geography, history, journalism, music, political science, sociology, Spanish and Portuguese, and indigenous languages such as Yucatec Maya or Quechua.

HOW TO GET IN

GPA requirements to get in	None
Credits required to get in	None
Other	None

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 33) section of the Guide.

General Education	<ul style="list-style-type: none">• Breadth–Humanities/Literature/Arts: 6 credits• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits• Breadth–Social Studies: 3 credits• Communication Part A & Part B *• Ethnic Studies *• Quantitative Reasoning Part A & Part B *
-------------------	---

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of

Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.
Language	<ul style="list-style-type: none">• Complete the fourth unit of a language other than English; OR• Complete the third unit of a language and the second unit of an additional language other than English.
L&S Breadth	<ul style="list-style-type: none">• 12 credits of Humanities, which must include 6 credits of literature; and• 12 credits of Social Science; and• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	<ul style="list-style-type: none">• 30 credits in residence, overall; and• 30 credits in residence after the 86th credit.
Quality of Work	<ul style="list-style-type: none">• 2.000 in all coursework at UW-Madison• 2.000 in Intermediate/Advanced level coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

LACIS 440	Topics in Latin American, Caribbean, and Iberian Studies (Only topics offered for at least 3 credits may meet this requirement.) ¹
LACIS 681	Senior Honors Thesis
LACIS 682	Senior Honors Thesis
POLI SCI 402	Wisconsin in Washington Internship Course

Total Credits**30**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LACIS and major courses
- 2.000 GPA on at least 15 credits of upper-level work (courses with intermediate or advanced designation) in the major, in residence
- 15 credits in LACIS, taken on the UW-Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the LACIS undergraduate advisor.

HONORS IN THE LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA for all major courses
- Complete 18 credits, taken for Honors, with individual grades of B or better, to include:

Code	Title	Credits	
LACIS Introductory Course, taken for Honors (Complete one course)		3-4	
LACIS/HISTORY/ INTL ST 242	Modern Latin America		
LACIS/ HISTORY 243	Colonial Latin America: Invasion to Independence		
LACIS/ AFROAMER/ ANTHRO/ C&E SOC/ GEOG/HISTORY/ POLI SCI/SOC/ SPANISH 260	Latin America: An Introduction		
LACIS/CHICLA/ HISTORY/ POLI SCI 268	The U.S. & Latin America from the Colonial Era to the Present: A Critical Survey		
LACIS Seminar, taken for Honors (Complete one course)			3-4
LACIS 440	Topics in Latin American, Caribbean, and Iberian Studies (Only courses that count for at least 3 credits will meet this requirement.) ¹		
POLI SCI 402	Wisconsin in Washington Internship Course		
A two-semester Senior Honors Thesis, taken for Honors (Complete both courses)			6
LACIS 681	Senior Honors Thesis		
LACIS 682	Senior Honors Thesis		
Additional LACIS courses taken for Honors to achieve 18 credits			

FOOTNOTES

¹ Can only meet requirements in multiple sections if the topic title is different

² Only one Quechua or Yucatec Maya course may be used to meet this requirement (and may not meet both Depth/Interdisciplinary and Language & Cultural Studies requirement)

³ May meet either the Depth/Interdisciplinary or Language & Cultural Studies requirement, but not both.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

- (Interdisciplinarity) analyzing contemporary political, economic, and cultural realities in the LACIS regions from multi-disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
- (Depth of knowledge) mastering at the undergraduate expert level a particular disciplinary (e.g. history, anthropology etc.) or topical (e.g. poverty, gender, social justice etc.) theme in the LACIS regions by taking five courses in an area of concentration.
- (Historical and cultural grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in LACIS regions today.
- (Language knowledge) mastering at the undergraduate generalist level a particular facet of life in one or more LACIS regions by studying a foreign language to the advanced (3rd year) level and beyond.
- (Analytical skills) demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.
