GLOBAL HEALTH, B.S.

WISCONSIN EXPERIENCE

Students majoring in Global Health are involved in an array of opportunities across campus. Students are highly encouraged to complement their coursework with out-of-classroom experiences such as research, volunteering (https://morgridge.wisc.edu/) and study abroad (https://www.studyabroad.wisc.edu/).

The following opportunities can help students connect with other students interested in global health, build relationships with faculty and staff, and contribute to out-of-classroom learning:

• CALS Study Abroad (https://cals.wisc.edu/academics/undergraduate-students/studyabroad/)
• Badger Volunteers (https://morgridge.wisc.edu/students/badger-volunteers/)
• CALS Health and Research Society (https://win.wisc.edu/organization/CHARS (https://win.wisc.edu/organization/CHARS/))
• WISELI (http://wiseli.engr.wisc.edu/), Women in Science and Engineering Leadership Institute—a research center aiming to increase the representation, advancement, and satisfaction of women faculty and members of groups currently underrepresented on the faculty and in leadership at UW–Madison.

Research/Lab experience: Students are encouraged to get involved in research. Research can be performed for either course credit or pay, depending on the opportunity. Research opportunities can primarily be found by inquiring with advisors, instructors, and faculty members.
