

# NUTRITIONAL SCIENCES

Nutritional sciences is an interdisciplinary field rooted in biology and biochemistry. The majors integrates the study of nutrition within the role of diet in health and disease and combines the basic and applied sciences to health and medicine.

The Department of Nutritional Sciences offers two areas of undergraduate study in nutrition, both of which require core courses within the chemistry, physiology, biochemical, clinical, business, and public health aspects of nutrition.

With focus on nutrition and preventative health, the Nutritional Sciences majors provide an excellent foundation for students who are looking to work in clinical and community nutrition, prepare for graduate education in the health and biochemical sciences, and/or pursue careers in research and industry.

## PEOPLE

### PROFESSORS

Dave Eide (Department Chair)  
 Richard Eisenstein  
 Jing Fan  
 Guy Groblewski  
 Adam Kuchnia (Director of Didactic Program in Dietetics)  
 HuiChuan Lai  
 Denise Ney  
 James Ntambi  
 Beth Olson  
 Brian Parks  
 Joseph Pierre  
 Sherry Tanumihardjo  
 Eric Yen

### INSTRUCTORS

Erika Anna  
 Amber Haroldson  
 Tara LaRowe (Coordinator of Didactic Program in Dietetics)  
 Makayla Schuchardt  
 Yirong Wang

### ACADEMIC ADVISORS

Sarah Golla, MSW  
 Mona Mogahed, MPS
