

ORGANIC AGRICULTURE, CERTIFICATE

LEARNING OUTCOMES

1. Describe the history of current organic systems and how it influences the way that organic farms and industries work.
2. Explore the biological, ecological, and agricultural underpinnings of organic production systems
3. Examine how organic systems, social initiatives, and regulations are developed and how they shape business activities, community development efforts, and human and environmental health outcomes.
4. Evaluate the benefits and limitations of organic systems, social initiatives, and regulations from environmental, social, economic, and racial justice perspectives
5. Apply knowledge of organic production through experiential opportunities within local, national and/or international communities.
