

ENVIRONMENTAL SCIENCES, B.S. (CALs)

WISCONSIN EXPERIENCE

As an interdisciplinary cross-college major, students majoring in Environmental Sciences are involved in a wide array of opportunities across campus. Students are highly encouraged to complement their coursework with out-of-classroom experiences such as research (<https://research.wisc.edu/information-for-undergraduate-students/>), volunteering (<https://morgridge.wisc.edu/>), internships (<https://envirosci.wisc.edu/careers-internships/>), and study abroad (<https://www.studyabroad.wisc.edu/>).

Many students are also involved in the Environmental Sciences Organization (ESO) at UW–Madison (<https://win.wisc.edu/organization/ESO/>), a student organization designed primarily for students in the Environmental Sciences major (both CALs and L&S) but open to students with a strong interest in the field.
