As an interdisciplinary cross-college major, students majoring in Environmental Sciences are involved in a wide array of opportunities across campus. Students are highly encouraged to complement their coursework with out-of-classroom experiences such as research (https://research.wisc.edu/information-for-undergraduate-students/), volunteering (https://morgridge.wisc.edu/), internships (https://envirosci.wisc.edu/careers-internships/), and study abroad (https://www.studyabroad.wisc.edu/).

Many students are also involved in the Environmental Sciences Organization (ESO) at UW–Madison (https://win.wisc.edu/organization/ESO/), a student organization designed primarily for students in the Environmental Sciences major (both CALS and L&S) but open to students with a strong interest in the field.
