These students regularly speak of their experience as professionally rewarding and personally transformative. A study abroad experience can be a great way to demonstrate enhanced autonomy, motivation, organization, worldview, and resilience. You, too, can return from study abroad with a developed set of skills (that employers value!), a new sense of self, and a greater appreciation of cultural differences.

The Wisconsin School of Business works in close partnership with International Academic Programs (IAP) (https://studyabroad.wisc.edu/) to administer study abroad programs geared specifically for undergraduate business students. All approved UW-Madison programs share policies, procedures, and best practices.

The UW-Madison Study Abroad (https://studyabroad.wisc.edu/) website highlights the portfolio of business specific programs (https://studyabroad.wisc.edu/programsearch/?advisinglocation=102) as well as other programs that may have a focus outside of, or in addition to, business (e.g. liberal studies, language learning, engineering, or life sciences).
