

# GAME DESIGN, CERTIFICATE

## WHAT IS GAME DESIGN?

Game Design is the theory and practice of creating games. We focus on games broadly speaking – puzzles, toys, board games, role-playing, sports, or simply not stepping on the cracks in the sidewalk – all structured and playful activities. Making games offers an opportunity for creative expression, for simulating real-world problems, and for communicating complex ideas about systems and processes.

## WHAT IS THE GAME DESIGN CERTIFICATE?

The Game Design Certificate is an interdisciplinary program that gives students from a wide variety of backgrounds the chance to make games. The certificate is a 19-credit program jointly offered by the departments of Curriculum and Instruction, Art, and Computer Sciences. Certificate students work both independently and in small teams to develop a portfolio of board games, video games, and physical spaces. The certificate focuses on creating, testing, and understanding how to design gameplay to be fun and impactful.

## WHAT WILL STUDENTS GAIN?

Students acquire the skills, understanding, and background to create and produce games independently, to develop a body of work, and to gain critical perspectives on games and game design.

## HOW DO I GET INVOLVED?

Interested students may wish to consult with an advisor in the School of Education Student Services office, 139 Education Building, 608-262-1651, or [soeacademicsservices@education.wisc.edu](mailto:soeacademicsservices@education.wisc.edu), to discuss course sequencing, applying and other issues related to this field of study. Current students can schedule a Student Services appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW.

## HOW TO GET IN

### DECLARATION PROCESS

To be eligible to declare the Game Design Certificate, students must complete two courses prior to submitting a certificate declaration. One course is required of all prospective certificate students:

Code	Title	Credits
CURRIC 277	Videogames & Learning	3

The second course may be selected by the student from the following options:

Code	Title	Credits
ART 107	Introduction to Digital Forms	3
COMP SCI 200	Programming I	3
COMP SCI 300	Programming II	3

Students meeting the eligibility criteria who intend to complete the Game Design Certificate may find the declaration form on the School of Education's Certificate Programs (<https://education.wisc.edu/>)

[academics/certificates/](#)) page. The declaration for this certificate program can be submitted at any time during the calendar year.

## REQUIREMENTS

Requirements of this 19-credit certificate program include both required and elective coursework. All coursework must be taken for a letter grade. If completing the entire certificate as an undergraduate student, at least 10 credits of the certificate must be earned in residence at UW–Madison.

Students must have an overall 2.5 GPA in Game Design Certificate coursework upon completion of the certificate.

### CERTIFICATE REQUIREMENTS

Code	Title	Credits
<b>Required Courses</b>		
CURRIC 277	Videogames & Learning	3
CURRIC 357	Game Design I	3
CURRIC 432	Game Design II	3
ART 107	Introduction to Digital Forms	3
<b>Computer Science Elective</b>		
Select one of the following:		3
COMP SCI 200	Programming I	
COMP SCI 300	Programming II	
<b>Art Elective</b>		
Select one of the following:		4
ART 428	Digital Imaging Studio	
ART 429	3D Digital Studio I	
ART 529	3D Digital Studio II	
<b>Total Credits</b>		<b>19</b>

### CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

1. Utilize the design and technical skills necessary to create games.
2. Discuss the critical and theoretical perspectives necessary to understand the production and reception contexts in/for which they design such games.

## PEOPLE

Information about faculty, staff, and other contributions to the certificate in game design can be found on the Game Lab's website (<https://games.education.wisc.edu/>).
