

PHYSICS, MINOR

This minor may only be completed by students admitted to Elementary Education options leading to certification in K-9 or Middle Childhood through Early Adolescence. A minor is not required to complete the K-9 certification program, but students may elect to complete one.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

The Department of Physics (<https://www.physics.wisc.edu/>) is housed in the College of Letters & Science. Students may wish to consult with an undergraduate advisor in the physics department to discuss course selection and other issues related to this field of study.

To meet with a physics advisor, email physics-advisors@wisc.edu.

Upon completion, the subject area of the minor will be posted on the UW-Madison transcript. **Students will not receive an additional certification or license in the subject area as was possible prior to fall, 2022 program admission.** The Wisconsin Department of Public Instruction does not offer content licenses in association with the K-9 educator license.

HOW TO GET IN

This minor may only be declared by students completing Elementary Education certification in either K-9 or Middle-Childhood-through-Early-Adolescence. The declaration form is located on the School of Education's Undergraduate Admissions page and can be submitted at any time after admission into the program.

REQUIREMENTS

Complete a minimum of 22 credits. A minimum cumulative grade point average of 2.75 is required, based on all Physics minor coursework taken on the UW-Madison campus.

INTRODUCTORY REQUIREMENTS

Select one of the following First Introductory Courses: **5-6**

PHYSICS 201	General Physics
PHYSICS 207	General Physics
PHYSICS 247	A Modern Introduction to Physics ¹
E M A 201 & E M A 202	Statics and Dynamics
E M A 201 & M E 240	Statics and Dynamics

Select one of the following Second Introductory Courses: **5**

PHYSICS 202	General Physics
PHYSICS 208	General Physics
PHYSICS 248	A Modern Introduction to Physics

Select one of the following Third Introductory Courses: **3-4**

PHYSICS 249	A Modern Introduction to Physics
PHYSICS 205	Modern Physics for Engineers
PHYSICS/ E C E 235	Introduction to Solid State Electronics
PHYSICS 241	Introduction to Modern Physics

¹

Any combination of courses can be used to satisfy the three introductory course requirements, but students may not transfer into the PHYSICS 247, PHYSICS 248, PHYSICS 249 sequence from another introductory sequence.

ADDITIONAL COURSE REQUIREMENTS

Code	Title	Credits
PHYSICS 307	Intermediate Laboratory-Mechanics and Modern Physics	2
PHYSICS 311	Mechanics	3
PHYSICS 321	Electric Circuits and Electronics	4
Select physics electives, if necessary, to total 22 credits
