

ATHLETIC HEALTHCARE, CERTIFICATE

The Certificate in Athletic Healthcare provides a structured undergraduate offering for students with an interest in healthcare for active populations. Students acquire specialized knowledge related to the fields of healthcare, sports medicine, and physically active populations.

The combination of required core courses and elective options makes this certificate appealing to students from a wide array of backgrounds and majors. Students can select elective courses that will be applicable to a variety of career interests.

This program is intended to provide students with meaningful learning experiences and ultimately an advantage in pursuing advanced or professional degrees in a variety of health-related fields.

HOW TO GET IN

DECLARATION PROCESS

Students must complete KINES 127 Introduction to Athletic Healthcare to apply to the certificate program. Students intending to complete the Athletic Healthcare certificate will find the declaration form on the School of Education's Certificate Programs (<https://education.wisc.edu/academics/certificates/>) page. The declaration for this certificate program can be submitted at any time during the calendar year.

Students completing a Bachelor of Science degree in Athletic Training may not complete the Certificate in Athletic Healthcare.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Define Athletic Healthcare and identify components of the healthcare system commonly used in athletic healthcare.
2. Differentiate specific roles of healthcare professions that comprise an interdisciplinary healthcare team.
3. Identify the impact of public health policy on clinical practice in athletic healthcare.
4. Develop practical skills and knowledge that are commonly utilized in an athletic healthcare clinical setting.
