The Elementary Education and Special Education (EESE) program is a unique opportunity for students to pursue licensure in both Elementary Education and Special Education. Successful graduates of the program are certified in general education at the grade levels of K-9 (including eligibility for 4K), and Special Education in grades K-12 (through age 21). Students graduate to a wide range of opportunities in both general and special education classrooms.

The Department of Rehabilitation Psychology and Special Education has a long-standing mission of preparing future leaders who actively improve the lives of people with disabilities. The EESE program is designed to prepare future educators who will promote equity, inclusivity, and accessibility within both general and special education classrooms. Graduates of this program are equipped to create inclusive learning environments where they will holistically identify and address biases and barriers to learning, and strive to meet the needs of all students.

The Elementary Education and Special Education program is a rigorous four-semester course sequence that includes coursework, practicum, and student teaching experiences. Courses include teaching methods in general education classrooms, implementing instructional strategies for helping students with a variety of abilities succeed, creating individualized education programs, as well as assessing learning needs in all core academic areas.

In addition to coursework, students will have hands-on practical experiences in both general and special education classrooms across a range of ages. Students are placed in one general education practicum and student teaching placement along with one special education practicum and student teaching placement, providing them with all the practical experience they need to successfully teach in a K-9 general education classroom or K-12 special education classroom. Students will learn to effectively work with a diverse student population and to create learning environments that foster academic success and social-emotional development for all students.

THE TEACHER PLEDGE

The School of Education at UW–Madison currently offers a unique financial opportunity for students in the Elementary Education and Special Education program called The Teacher Pledge (https://tec.education.wisc.edu/teacher-pledge/). The school pledges to pay the equivalent of in-state tuition and fees for all teacher education students. In return, students pledge to work at a Wisconsin PreK-12 school for three to four years after graduation.

MADISON COLLEGE TRANSFER AGREEMENT

Madison College students should also investigate the transfer agreement (https://tec.education.wisc.edu/become-a-teacher/uw-madison-school-of-education-transfer-agreement/) between Madison College and UW–Madison. Students meeting the requirements of this agreement are guaranteed admission to UW–Madison’s School of Education and to Special Education.

HOW TO GET IN

HOW TO GET IN
ELEMENTARY EDUCATION AND SPECIAL EDUCATION (EESE) DECLARATION OVERVIEW

Students typically enter UW–Madison as Pre-Elementary Education and Special Education students (PEED designation) and spend the first two years completing liberal studies, general education, and some professional education requirements. EESE is declared during the sophomore year for the final two years on campus.

On-campus students starting at UW-Madison in other majors can move to Pre-Elementary Education and Special Education by completing a Pre-Professional Declaration (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/). A GPA of 2.5, based on all UW-Madison coursework or the last 60 credits (http://guide.wisc.edu/undergraduate/education/#policiesandregulationstext), is required to transfer into Pre-Elementary Education and Special Education. It is not necessary to be a Pre-Elementary Education and Special Education student before declaring the major.

Note: Students cannot complete the Certificate in Disability Rights and Services, Elementary Education, or Special Education in conjunction with this program.

ELIGIBILITY TO DECLARE ELEMENTARY EDUCATION AND SPECIAL EDUCATION

EESE currently accepts declarations once a year, usually from December 1 – February 1. This period may be extended if additional spaces are available after the initial deadline. The on-campus declaration form is located on the School of Education’s Undergraduate Admissions (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/) page, along with information about the declaration period, deadline, and current eligibility requirements. Students should consult this site prior to submitting a declaration, as this information may be modified from one declaration year to the next.

Off-campus students wishing to transfer directly into Elementary Education and Special Education should complete the on-campus declaration and must also be admitted to UW-Madison. See Transfer Students and Students with a Previous Degree, below.

Current Eligibility Requirements

- Complete at least 40 transferable college-level credits by the end of the fall semester of the declaration year.
- Successfully complete RP & SE 300 (https://guide.wisc.edu/search/?P=RP%20%26%20SE%20300) Individual with Disabilities (3 cr.) by the end of the summer of the declaration year.
- Earn a minimum 2.5 grade point average (GPA) on a 4.0 scale on all transferable college-level coursework attempted.
- Submit all program declaration form(s), transcripts, and other related declaration materials by the deadline specified on the School of Education’s Undergraduate Admissions (http://...
First 60 Credits Rule - Two grade point averages may be calculated to determine a candidate’s eligibility to declare. A GPA may be calculated using (1) UW-Madison and all other all transferable college level coursework attempted and (2) the last 60 credits attempted. The higher GPA of these two calculations will be used for determining eligibility. Once declared, students must earn a semester GPA of 2.75 each semester after declaration. More information on this rule is available here (http://guide.wisc.edu/undergraduate/education/#policiesandregulationstext).

TRANSFER STUDENTS AND STUDENTS WITH A PREVIOUS DEGREE

Transfer students and students who already hold a bachelor’s degree must be admitted to UW-Madison to enroll in a School of Education program. Admission to the campus has its own application, admission process, and application deadlines; see Office of Admissions and Recruitment (http://www.admissions.wisc.edu) for campus application information.

Students wishing to enter directly into Elementary Education and Special Education should complete both the on-campus declaration and the UW-Madison application. All eligibility requirements must be met. Transfers who do not meet the declaration eligibility criteria will be admitted to UW-Madison with the Pre-Elementary Education and Special Education designation.

An applicant with a previous undergraduate degree will be admitted to ESEE as a second degree candidate or as a School of Education “Special Student,” depending on their academic background.

Second degree candidates in the School of Education are changing their academic direction and wish to complete a degree that is unrelated to their first. A large number of credits are usually required to complete the new degree requirements and a second degree is awarded upon its completion; more information is available here (http://guide.wisc.edu/undergraduate/education/#policiesandregulationstext). Most applicants to ESEE will be second degree candidates.

In rare cases a student may be admitted as an Education Special Student. Admission with this designation indicates that they have an interest in pursuing teacher certification in Elementary Education and Special Education and have already studied this subject area extensively during their initial degree. A student enroll as an Education Special Student to complete the requirements that were not taken during the first degree; these are assessed on a case by case basis. Another degree is not awarded for this “certification only” coursework.

All off-campus students are strongly encouraged to meet with an advisor in the School of Education Student Services office in advance of their declaration. Consultations are available in person, virtually, or via telephone; email studentservices@education.wisc.edu or call 608-262-1651 to schedule an appointment.

BACKGROUND CHECKS

Pursuant to State of Wisconsin law PI 34.018(2), the School of Education is required to administer a background check on all students entering teacher education programs. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety, or education of PK-12 pupils. Local school districts frequently conduct background checks on teacher education students prior to the start of their in-classroom field work, and the Department of Public Instruction (DPI) will also conduct a background check on each applicant for a Wisconsin educator license.

Students should be aware that background checks may be initiated by other agencies or organizations when they are seeking employment or a professional license. School administrators have the authority to determine the appropriateness of a student placement and may choose not to permit a placement based on a student’s background check results.

An individual who has been deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the Teacher Education Center, tec@education.wisc.edu.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (http://guide.wisc.edu/undergraduate/#requirementsforundergraduatetestudytext) section of the Guide.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (http://guide.wisc.edu/undergraduate/education/#requirementsstext) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural
and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education’s Liberal Studies
Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science. Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student’s primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (http://guide.wisc.edu/undergraduate/education/#requirementstext) for information about course selection and approved course options.

Humanities, 9 credits
All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

Social Studies (Social Science)
All students must complete a minimum of 9 credits. Teacher certification programs and Kinesiology have unique requirements in this category.

Science
All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science
- Laboratory Science
- Science Electives

Cultural and Historical Studies
All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

Complete Liberal Studies Electives (http://guide.wisc.edu/undergraduate/education/#requirementstext) to total 40 Credits.

PROGRAM STRUCTURE
The Elementary Education and Special Education program has four primary components:

- Liberal studies courses expose students to a broad range of academic disciplines. The university-wide General Education requirements also encourage this breadth of study.
- Professional education coursework includes an examination of the schools’ relationship to our society and the processes by which students grow and learn.
- Core Requirements offer an in-depth study of Elementary Education and Special Education, including a four-semester professional sequence of teaching methods coursework and field experience in schools. This sequence is designed so that students can complete the program in four years.
- Elective coursework is taken to reach the required minimum of 120 credits.

The Elementary Education and Special Education major requires 70 credits of professional coursework in addition to other degree requirements. RP & SE 300 Individuals with Disabilities must also be completed prior to beginning the professional sequence.

INDIVIDUALS WITH DISABILITIES - PREREQUISITE FOR PROGRAM ADMISSION
This course must be completed by the end of the summer of the application year, before beginning the professional course sequence.

PROFESSIONAL SEQUENCE
The professional coursework was designed to be completed in four semesters, starting in the fall after admission to the program. Each semester of the sequence must be followed sequentially and taken in consecutive semesters unless a modification is approved. Most classes must be taken during specified semesters, while other requirements may be completed prior to beginning the sequence.

Students may elect to complete a minor in one of the following content areas. Minors provide a depth of study in a particular area of interest and also inform classroom instruction. Upon completion, the minor will be posted on the UW-Madison transcript, but students will not receive an additional certification in the subject area. The Wisconsin Department of Public Instruction no longer offers content licenses in association with the K-9 educator license.

The completion of a minor is required to teach middle school licensing in some states and may benefit students particularly interested in teaching at this level. See the links below for the requirements of each minor.

** Minor Options **

- Biology (http://guide.wisc.edu/undergraduate/education/curriculum-instruction/biology-minor/)
- Chemistry (http://guide.wisc.edu/undergraduate/education/curriculum-instruction/chemistry-minor/)
- Earth Science (http://guide.wisc.edu/undergraduate/education/curriculum-instruction/earth-science-minor/)
- Economics (http://guide.wisc.edu/undergraduate/education/curriculum-instruction/economics-minor/)
- English (http://guide.wisc.edu/undergraduate/education/curriculum-instruction/english-minor/)
- English Language Arts (http://guide.wisc.edu/undergraduate/education/curriculum-instruction/english-language-arts-minor/)
- Geography (http://guide.wisc.edu/undergraduate/education/curriculum-instruction/geography-minor/)
- History (http://guide.wisc.edu/undergraduate/education/curriculum-instruction/history-minor/)
- Mathematics (http://guide.wisc.edu/undergraduate/education/curriculum-instruction/mathematics-minor/)
- Mathematics and Science Dual (http://guide.wisc.edu/undergraduate/education/curriculum-instruction/mathematics-science-dual-minor/)
- Mathematics Specialized (http://guide.wisc.edu/undergraduate/education/curriculum-instruction/mathematics-specialized-minor/)
- Physics (http://guide.wisc.edu/undergraduate/education/curriculum-instruction/physics-minor/)
- Political Science (http://guide.wisc.edu/undergraduate/education/curriculum-instruction/political-science-minor/)
- Psychology (http://guide.wisc.edu/undergraduate/education/curriculum-instruction/psychology-minor/)
- Science Specialized (http://guide.wisc.edu/undergraduate/education/curriculum-instruction/science-specialized-minor/)
- Social Studies (http://guide.wisc.edu/undergraduate/education/curriculum-instruction/social-studies-minor/)
- Sociology (http://guide.wisc.edu/undergraduate/education/curriculum-instruction/sociology-minor/)

**ELECTIVE COURSEWORK**

Complete additional courses as necessary to reach the minimum of 120 credits required for the degree.

**GRADUATION REQUIREMENTS**

Students must complete all requirements and also obtain the endorsement of the program faculty to receive certification through UW-Madison. The State of Wisconsin requires that anyone wishing to teach in a public K-12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Requirements below are based on UW-Madison coursework.

- 2.75 cumulative grade point average. This may be modified by the Last 60 Credits Rule (http://guide.wisc.edu/undergraduate/education/#policiesandregulationstext).
- 2.75 cumulative grade point average across all professional education courses (excluding practicum and student teaching).
- 2.75 cumulative grade point average in the major.
- 2.75 cumulative grade point average in the minor, if required.
- Minimum 120 credits (degree candidates only).
- Major residency: Degree candidates must complete at least 15 credits of upper-level major coursework (numbered 300–699) in residence on the UW-Madison campus.
- Senior residency: Degree candidates must complete their last 30 credits in residence on the UW-Madison campus. Student teaching and practicum are considered part of the 30 credits.

**DEGREE AUDIT REPORTING SYSTEM (DARS)**

UW-Madison uses “DARS” to document a student’s progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met,
and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a “what-if” function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a “what if” DARS report of their professional program of interest.

More information on how to request a DARS report is available on the Office of the Registrar’s website (https://registrar.wisc.edu/dars/).

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW–Madison’s program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction. Many of these requirements are embedded within the program’s requirements and require no additional attention. The endorsement of the program coordinator/faculty is also required to receive certification through UW–Madison.

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license.

Detailed information about certification requirements and applying for a license is available under Certification/Licensure. (http://guide.wisc.edu/undergraduate/education/curriculum-instruction/elementary-bse/#certificationlicensuretext)

UNIVERSITY DEGREE REQUIREMENTS

To receive a bachelor’s degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. “In residence” means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work

Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Use knowledge of learners and human development to create responsive, inclusive, and respectful learning activities and environments that maximize learners’ cognitive, linguistic, social, emotional, and physical development.
2. Use knowledge of learners, contexts, disciplines, pedagogies, and standards to plan and adjust developmentally appropriate and challenging learning activities and assessments.
3. Use knowledge of learners, contexts, disciplines, pedagogies, and standards to implement planned and unplanned developmentally appropriate, challenging, and learner-responsive learning activities and maintain safe, inclusive, and respectful learning environments.
4. Create and implement meaningful assessments and use assessment results to inform instruction, communicate with parents and others, and provide feedback to learners to guide their future performance and learning.
5. Exhibit professionalism and adhere to ethical practices as they continue their own development and collaborate with others to improve their profession, school communities, and outcomes for students and families.
6. Use studies completed in science and mathematics, social sciences, the humanities, histories, languages, and the arts to inform and deepen their teaching of content areas and meeting learners’ needs.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report and Course Search and Enroll to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with an academic advisor to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

To schedule an appointment: Current students can schedule an appointment online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made through email at studentservices@education.wisc.edu, by calling 608-262-1651, or in person.

**Career Advising in the School of Education**
Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:
- Exploration of career and academic pathways (https://careercenter.education.wisc.edu/explore-career/)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (https://wisc.starfishsolutions.com/starfish-ops/) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (https://careercenter.education.wisc.edu/) or reach out at career-center@education.wisc.edu.

---

**ADVISING AND CAREERS**

**ADVISING AND CAREERS**

**Academic Advising in the School of Education**
Dedicated to supporting and promoting student success, academic advisors (https://education.wisc.edu/academics/undergrad-majors/academic-advising/) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

---

**WISCONSIN EXPERIENCE**

**WISCONSIN EXPERIENCE**

UW–Madison’s vision for the total student experience, the Wisconsin Experience (https://wisconsinexperience.wisc.edu/about/), combines learning in and out of the classroom. Tied to the Wisconsin Idea (https://www.wisc.edu/wisconsin-idea/) and steeped in long-standing institutional values – the commitment to the truth, shared participation in decision-making, and service to local and global communities – the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility,
Madison Literacy Network.

While completing field experiences, students enjoy trips to places in the Madison community, such as the Madison Children’s Museum, Madison Public Library’s Play Lab, Allen Botanical Gardens, Centro Hispano and the Madison Literacy Network.

**ELEMENTARY EDUCATION AND SPECIAL EDUCATION (EESE) AND THE WISCONSIN EXPERIENCE**

**Community-Based Learning**

RP & SE 300 Individuals with Disabilities includes a field-based experience where students engage in work that directly or indirectly supports a person with a disability. Hundreds of student each year are placed in a wide variety of placement sites (https://docs.google.com/document/d/1gXUnpcFqGdW1MTVl5lO3CE46q1pF5XY7z_K50oCM/edit/?usp=sharing) in the Madison area. This experience allows students to gain first-hand knowledge of the contributions of, and services provided to, individuals with disabilities within the community.

**Guest Speakers**

RP & SE 300 also brings the community into the classroom. A number of guest speakers from the community provide insight regarding the range of experiences people with disabilities have while conducting their daily lives. Students also learn about the variety of community organizations engaged in the support of, and advocacy for, people with disabilities.

A wide variety of guest speakers attend practicum and student teaching seminars, including school district personnel, parents and family members, teachers, and individuals with disabilities.

**Field Experiences**

Students in the EESE program have multiple field experiences in K-12 schools, culminating in a full-time student teaching experience following the semester of the cooperating school.

**Partnering with Community Organizations**

The EESE team partners with area communities to assist with food delivery to families. Students volunteer with organizations such as Special Olympics, Camp Kesem, and Girls on the Run, a program designed to inspire girls of all abilities to embrace their inner strength and to build healthy social, emotional, and physical skills.

**Getting to Know the Community**

A Community Based Asset Mapping exercise asks students to explore the strengths and assets of the communities in which their field placement school resides. Time is spent in and around the attendance area of their schools to develop an understanding of the places, people, spaces, and experiences that influence their pupils and consequently are brought to school. Students are encouraged to venture outside the classroom and get to know the families and communities of their pupils by attending a community activity such as a worship service or a community potluck.

**Field Trips**

While completing field experiences, students enjoy trips to places in the Madison community, such as the Madison Children’s Museum, Madison Public Library’s Play Lab, Allen Botanical Gardens, Centro Hispano and the Madison Literacy Network.

**Study Abroad**

Our students are encouraged to explore cultures other than their own by studying abroad. If a semester or year-long program isn’t possible, the School of Education has recently developed some exciting new study abroad opportunities where a single class is taken in the summer.

**Clubs and Organizations**

EESE students have multiple opportunities to participate in related campus organizations such as Aspiring Educators of Wisconsin and Game Design and Development.

**CERTIFICATION/LICENSURE**

**ADDITIONAL CERTIFICATION REQUIREMENTS**

Students interested in certification must, in addition to completing UW–Madison’s program requirements, also complete Wisconsin statutory requirements related to teacher education and certification requirements established by the Wisconsin Department of Public Instruction. Students must complete all requirements and also obtain the endorsement of the program faculty to receive certification through UW–Madison. For additional certification requirements and information about applying for a license, see the Teacher Education Center (https://tec.education.wisc.edu/current-students/).

**APPLYING FOR A TEACHING LICENSE**

The State of Wisconsin requires that anyone wishing to teach in a public K-12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Students intending to complete a teacher certification program should monitor program requirements carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

**Licensing Levels**

The following licensing options will be offered at UW–Madison.

- The core Elementary Education licensing level will be Kindergarten through Grade 9. Early Childhood, and English as a Second Language Kindergarten through Grade 12, can be added to the K-9 option.
- Special Education will offer licensing at the Early Childhood level, Kindergarten through Grade 12 level, and a program option that licenses in both Early Childhood Special Education and K-12 Special Education. The new Elementary Education and Special Education degree certifies students in both Special Education Kindergarten through Grade 12 and Elementary Education Kindergarten through Grade 9.
- Secondary Education program areas will license in their subject area Grades 4 through 12, and also in English as a Second Language Kindergarten through Grade 12.
- World Language Education program areas will license at the Kindergarten through Grade 12 level.
- Students in special fields such as Art, Music, and Physical Education will be licensed at the Kindergarten through Grade 12 level.
The expectations is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW–Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the specific office listed in the Contact Information box on this page and with the applicable state agency for specific information.

The requirements of this program meet certification/licensure requirements in the following states:
Wisconsin

The requirements of this program do not meet certification/licensure requirements in the following states:
Not applicable

Updated: 1 June 2024

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school’s Resources (http://guide.wisc.edu/undergraduate/education/#resourcestext) page.
